Eligible business majors who elect to complete one of the business minors may be required to extend their degree programs beyond the minimum 120-semester hour university requirement.

The undergraduate minor program in international business is for both business and nonbusiness students with the exception of those majoring in international business and general business. The minor consists of 18 credit hours (six courses).

### **Required Courses**

ECO 210 - Introductory Macroeconomics (3 credits)

MGT 303 - International Business and Culture (3 credits)

Three courses from the following:

ACC 330 - International Accounting (3 credits)

ECO 349 - Emerging Markets Issues (3 credits)

ECO 365 - Comparative Economic Systems (3 credits)

ECO 369 - International Economic Issues (3 credits)

FIN 429 - International Financial Management (3 credits)

MGT 466 - International Management and Multinational Corporations (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

### **Additional Course**

One course from the international business major cultural component requirement or a three-credit international internship is required. Students majoring in any business discipline or economics must select an additional Cultures or international business course. Students must achieve a cumulative 2.5 GPA in these courses to receive the international business minor designation. Students must complete all prerequisite courses before enrolling in the international business minor courses. Courses may not be taken credit/no-credit.

## **International Relations**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/polisci/ir](http://gvsu.edu/polisci/ir)

Global communications, technological advances, and burgeoning international trade and investment have increased the frequency and complexity of international relations. As globalization increases, the potential for international cooperation and conflict expands as well. The international relations program at Grand Valley State University provides students with the opportunity to gain a broad base of knowledge about the history, economics, and politics of interaction among states and non-state actors. Students in the international relations program examine the sources of tension that create conflict among nations and societies, study globalization and interdependence, and learn about the ways in which transnational movements, international organizations, and public diplomacy can promote international cooperation.

International relations is an interdisciplinary program that includes coursework in political science, history, economics, business, geography, and foreign culture. As part of their studies, students are encouraged to become proficient in a foreign language and to study abroad. The Capstone course in international relations allows students to bring together the threads of knowledge they have gathered in interdisciplinary coursework and gives them a chance to pursue independent research on an international relations topic of their choice.

### **Study Abroad**

Students in the international relations program are strongly encouraged to take advantage of opportunities to study abroad. Grand Valley has institutional partnership agreements with universities in Australia, China, England, France, Ghana, Hungary, India, Japan, Mexico, Norway, Poland, and Turkey. In addition, students may enroll in many other universities worldwide for academic credit. Appropriate courses taken abroad can be credited toward the requirements for the major or minor. Students are encouraged to study the language and culture of a select geographic area as a component of their degree program, and should consider selecting a foreign language or area studies minor. Students are strongly advised to consult with

the staff of the Padnos International Center and the international relations program coordinator before enrolling in study abroad programs. Visit our website at [gvsu.edu/studyabroad](http://gvsu.edu/studyabroad).

## **Internships**

In addition to classroom work, students participate in a variety of internship opportunities, including working for local, national, and international government, business, and nonprofit organizations. In recent years, students have pursued internships in Lansing; Washington, D.C.; and overseas, including placements at the Voice of America, Peace Corps, International Red Cross, United Nations, and U.S. embassies abroad.

Students can earn up to six credits in the internship program. The emphasis of the program is on broadening students' experience and knowledge about international relations through a practical involvement that is firmly founded on and tied to strong academic curricula. GVSU international relations majors have access to GVSU's Handshake (formerly LakerJobs) at [gvsu.joinhandshake.com](http://gvsu.joinhandshake.com).

To get started, click on the internships link at [gvsu.edu/polisci/ir](http://gvsu.edu/polisci/ir).

IR students also have an opportunity to complete an internship and learn in Washington, D.C. through our GV in DC program, a partnership program with The Washington Center. For information about the GV in DC program, visit [gvsu.edu/gvdc](http://gvsu.edu/gvdc).

Professor Polly Diven, the IR program coordinator also serves as internship advisor. She can be reached at [divenp@gvsu.edu](mailto:divenp@gvsu.edu).

## **Honors Organization**

Pi Sigma Alpha, the National Political Science Honor Society, was established at the University of Texas in 1920. There are currently 621 chapters of Pi Sigma Alpha around the United States, including the Kappa Phi chapter at Grand Valley State University. [pisigmaalpha.org](http://pisigmaalpha.org).

Initiation into Pi Sigma Alpha is a prestigious award for upper division students who have demonstrated consistent excellence in political science and international relations. Initiation into Pi Sigma Alpha also establishes one's eligibility to participate in Pi Sigma Alpha scholarship and internship grant programs, and to publish research in the Pi Sigma Alpha Undergraduate Journal of Politics. For information about eligibility requirements and campus activities contact Paul J. Cornish, Advisor to the Kappa Phi chapter of Pi Sigma Alpha, at (616) 331-3502 or [cornishp@gvsu.edu](mailto:cornishp@gvsu.edu).

## **International House**

Located in the Murray Living Center, the International House is a living and learning community for international students, international relations majors, and other related majors including international business, political science, and modern languages. A variety of international

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

programming is offered to enhance the academic curriculum, including guest speakers and films. IR students are encouraged to consider this option for housing on campus.

## **Bachelor of Arts in International Relations**

### **Requirements for a Major in International Relations**

The international relations major leads to a B.A. degree. Students must demonstrate fourth-semester proficiency in a foreign language and are strongly encouraged to undertake additional language study.

Students majoring in international relations are required to complete at least 36 credit hours, including the major requirements listed as follows. The remaining 15 hours should be selected from the list of international relations course electives as follows and must include a minimum of three hours at the 300-level or above in each of the first three categories: economics and business, geography and history, and political science. Students should not regard this list as definitive. With the permission of the program coordinator, study abroad courses, internship credits, and upper-level GVSU courses not included in this list can be used as electives for the international relations major. These choices should be made in consultation with an advisor and approved by the program coordinator.

#### **Core Requirements**

ECO 210 - Introductory Macroeconomics (3 credits)

ECO 211 - Introductory Microeconomics (3 credits)

GPY 235 - Geography for a Changing World (3 credits)

HST 317 - History of American Foreign Relations (3 credits)

IR 495 - Seminar in International Relations (Capstone) (3 credits)

PLS 211 - International Relations (3 credits)

PLS 312 - U.S. Foreign Policy (3 credits)

#### **International Relations Course Electives**

A total of 15 hours must be completed.

#### **Business and Economics Courses**

Choose a minimum of one course at the 300-level or above.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 349 - Emerging Markets Issues (3 credits)

ECO 365 - Comparative Economic Systems (3 credits)

ECO 369 - International Economic Issues (3 credits)

FIN 429 - International Financial Management (3 credits)

HTM 202 - International Tourism (3 credits)

MGT 303 - International Business and Culture (3 credits)

MGT 466 - International Management and Multinational Corporations (3 credits)

MKT 359 - Multinational Marketing (3 credits)

### **Geography and History Courses**

Choose a minimum of one course at the 300-level or above.

GPY 350 - Geopolitics, Energy and Environment of Russia and Central Eurasia (3 credits)

GPY 351 - Geography of Africa (3 credits)

GPY 352 - Geography of Latin America (3 credits)

GPY 354 - Geography and Globalization of Asia (3 credits)

GPY 356 - The Geography, Culture and Land Use Management of Europe (3 credits)

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

GPY 412 - Global Climate and Environmental Change (3 credits)

HST 211 - History of Islamic Civilization (3 credits)

HST 230 - Latin America in World History (3 credits)

HST 235 - Africa in World History (3 credits)

HST 241 - A History of East Asia since 1800 (3 credits)

HST 307 - United States since 1970 (3 credits)

HST 310 - Cultural and Social Topics in Nonwestern History (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 331 - Modern Latin America (3 credits)

HST 332 - Emergence of Modern India and South Asia (3 credits)

HST 333 - Modern China (3 credits)

HST 334 - The Making of the Caribbean (3 credits)

HST 336 - Africa After 1870 (3 credits)

HST 337 - The Age of Islamic Empire (3 credits)

HST 338 - Modern Middle East (3 credits)

HST 339 - Modern Iran (3 credits)

HST 343 - History of South Africa (3 credits)

HST 344 - Urban Africa (3 credits)

HST 375 - History of Mexico (3 credits)

HST 377 - History of Warfare (3 credits)

HST 385 - Europe 1900-1945 (3 credits)

HST 386 - 20th Century Europe (3 credits)

HST 389 - Russian History (3 credits)

HST 390 - Soviet History (3 credits)

LAS 374 - Revolution in the Americas (3 credits)

### **Political Science Courses**

Choose a minimum of one course at the 300-level or above.

AAA 300 - U.S. - Africa Relations (3 credits)

LAS 320 - Model Organization of American States (3 credits)

MES 370 - Contemporary Issues in the Middle East: The Model Arab League (3 credits)

PLS 212 - Great Decisions (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PLS 215/GSI 215 - Global Migration (3 credits)

PLS 221 - Government and Politics of Western Europe (3 credits)

PLS 283 - Chinese Politics and U.S.-China Relations (3 credits)

PLS 284 - Latin American Politics (3 credits)

PLS 311 - International Conflict and Conflict Resolution (3 credits)

PLS 313 - International Organization (3 credits)

PLS 314 - International Law (3 credits)

PLS 315 - International Political Economy (3 credits)

PLS 316 - Human Rights in International Politics (3 credits)

PLS 319 - African Politics (3 credits)

PLS 320 - Comparative Politics of the Middle East (3 credits)

PLS 321 - The European Union (3 credits)

PLS 325 - Human Rights and Democracy in Russia and the Post-Communist World (3 credits)

PLS 327 - Politics of Developing Countries (3 credits)

PLS 339 - Democracy and the Authoritarian Challenge (3 credits)

PLS 350 - Comparative Public Opinion (3 credits)

SOC 350 - Family and Gender in the Developing World (3 credits)

### **Special Topics and Independent Study - Optional**

IR 380 - Special Topics in International Relations (1 to 3 credits)

IR 399 - Independent Readings (1 to 3 credits)

IR 490 - International Relations Internship (2 to 6 credits)

IR 499 - Independent Research (1 to 3 credits)

### **Suggested Order of Coursework**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The flexibility in course selection makes it important for students to seek the advice of an international relations faculty advisor when choosing courses to fit their specific needs and interests. No sample curriculum will be appropriate for everyone, although these general guidelines should be helpful to nearly everyone. It is also assumed that some counseling will take place to match the curriculum with career plans. We strongly recommend study abroad and an internship.

## **Year One**

### Fall Semester:

WRT 150 - Strategies in Writing (4 credits) or MTH 110 - Algebra (4 credits)

PLS 211 - International Relations (3 credits) Major requirement.

Language 101 - First of four-semester requirement.

General education Arts, History, Science (two), or Philosophy and Literature

### Winter Semester:

WRT 150 or MTH 110

GPY 235 - Geography for a Changing World (3 credits) Major + general education Social Science + Global Perspectives.

Language 102 - Second of four-semester requirement.

General education Arts, History, Science (two), or Philosophy and Literature

## **Year Two**

### Fall Semester:

ECO 210 - Introductory Macroeconomics (3 credits) Major requirement + Social and Behavioral Science

Language 201 - Third of four-semester requirement

General education Arts, History, Science (two), or Philosophy and Literature

General education Math

### Winter Semester:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 211 - Introductory Microeconomics (3 credits) Major requirement + Social and Behavioral Science

PLS 312 - U.S. Foreign Policy (3 credits) Major requirement

Language 202 - Fourth of four-semester requirement

General education Arts, History, Science-two, or Philosophy and Literature

General education Math

### **Year Three**

Fall and Winter Semesters -- study abroad or on campus:

IR electives (15 hours total)

General education Arts, History, Science (two), or Philosophy and Literature

General education Issues

Continue language study

Pursue minor, if desired

### **Year Four**

Fall and Winter Semesters:

HST 317 - History of American Foreign Relations (3 credits) Major requirement

IR 495 - Seminar in International Relations (Capstone) (3 credits) Major requirement

IR elective courses

Other options:

Internship

Additional language instruction

Complete minor

## **International Relations Minor**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Requirements for a Minor in International Relations**

Students minoring in international relations are required to complete at least 21 credit hours in the program, including PLS 211, either HST 317 or PLS 312, and at least one course each in the economics and business, history and foreign culture, and political science categories. At least nine elective credits should be taken at the 300-level or above.

PLS 211 - International Relations (3 credits)

HST 317 - History of American Foreign Relations (3 credits) **OR** PLS 312 - U.S. Foreign Policy (3 credits)

## **Interprofessional Health Informatics**

Students wishing to pursue the interprofessional health informatics certificate must have obtained a bachelors degree in a health profession, health administration, or computing and information science field. Individuals without any previous healthcare experience will be required to take one course as a prerequisite for the introduction to health care. Health care professionals (registered nurse, clinical dietitian, physical therapist, etc.) who hold a current, valid healthcare license and have experience with any electronic health record (EHR) system are not required to fulfil the prerequisite requirements.

### **Program Content**

This graduate interprofessional certificate is designed to prepare individuals interested in gaining comprehensive knowledge and skills in the design, utilization, evaluation, and clinical processes of health informatics. The optimal use of health information technology (HIT) and health information exchange is a priority in order to transform healthcare. The health informatics certificate provides a unique opportunity to pursue a theoretically based and practically oriented education to effectively meet the contemporary needs of health organizations and society.

### **Program Objectives**

The interprofessional health informatics certificate is most closely aligned with the goals of the AMIA 10 x 10 program. It will provide health professionals with the knowledge and skills to act as expert collaborators in developing HIT for the care of clients and populations. For those who are computer and information science professionals, it will provide the opportunity to develop interprofessional skills and effectively utilize expertise of clinicians in design of HIT.

At the completion of the certificate, learners will be able to do the following:

Demonstrate leadership, professional and ethical behavior while working in interprofessional health informatics teams.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Employ social/behavioral, systems, informatics, and computer science theories and models in designing health informatics solutions.

Use health informatics and technological approaches that incorporate the principles of efficiency, quality, economy, and sustainability in the delivery of health care.

Interpret how health information technology interfaces with the social determinants of health.

### **Audience**

The interprofessional health informatics certificate can be earned in conjunction with degree program (students need to complete degree program (e. g., B.S., B.A.) to obtain a certificate. This certificate is also offered as a stand-alone program.

## **Certificate in Interprofessional Health Informatics**

### **Certificate Requirements**

The following prerequisite courses must be completed before beginning the program:

Individuals without any previous healthcare experience will be required to take one course as a prerequisite for the introduction to health care (PNH 630). 3 credits

Health care professionals (registered nurse, clinical dietitian, physical therapist, etc.) who hold a current, valid healthcare license and have experience with any electronic health record (EHR) system **are not** required to fulfill the prerequisite requirement.

The certificate content will be delivered in a series of four courses that can be completed in four semesters: **Total credits: 9 credits**

Prerequisite Courses (Applicants without healthcare experience as defined by the Admission Requirements):

PNH 630 - Health Administration and Service (3 credits)

### **Required Course (credits: 3)**

CIS 661 - Introduction to Health and Bioinformatics (3 credits) **OR** CIS 665 - Clinical Information Systems (3 credits) **OR** NUR 703 - Health Care Informatics (3 credits)

### **Two Elective Courses (credits: 6)**

CIS 635 - Knowledge Discovery and Data Mining (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 660 - Information Management and Science (3 credits)

NUR 705 - Healthcare Decision Support (3 credits)

NUR 706 - Telehealth (3 credits)

PNH 646 - Managerial Epidemiology for Health Administrators (3 credits)

## **Latin American and Latino/a Studies**

For additional information about opportunities your college offers, please refer to the Brooks College of Interdisciplinary Studies section in this catalog.

**Website:** [gvsu.edu/las](http://gvsu.edu/las)

Knowledge of Latin America and its people, including those in the United States, is an essential part of a liberal education today. Not only is the Latino population of West Michigan growing rapidly, but Latinos now constitute the most populous ethnic group in the United States. In the meantime, U.S. economic, political, and cultural relations with our Latin American neighbors, from Mexico and the Caribbean to Central and South America, continue to grow in importance.

### **Study Abroad**

A sister university agreement with the Universidad de las Américas in Puebla, México, provides Grand Valley students and faculty with opportunities for prolonged study abroad and opens the door to an exchange with Mexican students and faculty. New agreements with institutions in the Caribbean, Central America, and South America are constantly being pursued. Consult the Padnos International Center or the Latin American and Latino/a studies coordinator for information on international internships and other study abroad opportunities in Latin America.

## **Latin American and Latino/a Studies Minor**

### **Requirements**

A total of 21 credits are needed to fulfill the Latin American and Latino/a studies minor. No more than two courses from any department other than LAS are counted toward the minor. There is no limit on the courses designated LAS that may apply to the minor.

### **Core Courses**

There are 10 credits required, including:

SPA 202 - Intermediate Spanish II: Language and Culture (4 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**AND** one of the following:

LAS 210 - Exploring Latin America (3 credits)

LAS 220 - Introduction to Latino/a Studies (3 credits)

**AND** one of the following:

LAS 330 - Colonial Latin America (3 credits)

LAS 374 - Revolution in the Americas (3 credits)

GPY 352 - Geography of Latin America (3 credits)

### **Additional Courses**

Choose four of the following electives totaling at least 11 credits:

AAA 302 - African Diaspora (3 credits)

ANT 330 - Anthropology of Selected World Areas (3 credits)

CJ 325 - Criminal Justice and Human Rights (3 credits)

CJ 482 - Culture, Crime and Justice (3 credits)

FVP 376/LAS 376 - Latin American Cinema (3 credits)

ENG 335 - Literature of American Minorities (3 credits)

ENG 378/LAS 378/SPA 378 - Contemporary Latin American Literature (3 credits)

GPY 361 - People, Environment, and Development in the Amazon (3 credits)

GPY 352 - Geography of Latin America (3 credits)

HST 315 - Latinos: The Forging of Ethnic Identities (3 credits)

HST 330 - Colonial Latin America (3 credits)

HST 331 - Modern Latin America (3 credits)

HST 334 - The Making of the Caribbean (3 credits)

HST 372 - From Slavery to Freedom (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 375/LAS 375 - History of Mexico (3 credits)

LAS 210 - Exploring Latin America (3 credits)

LAS 220 - Introduction to Latino/a Studies (3 credits)

LAS 320 - Model Organization of American States (3 credits)

LAS 325 - Human Rights in Latin America (3 credits)

LAS 333 - Study Abroad - Latin America (1 to 6 credits)

LAS 373 - Latinos/as in West Michigan (3 credits)

LAS 380 - Special Topics in Latin American Studies (1 to 3 credits)

LAS 399 - Independent Studies (1 to 3 credits)

LAS 490 - Latin American Studies Internship (1 to 3 credits)

PLS 284 - Latin American Politics (3 credits)

SPA 304 - Spanish for Health Professionals (3 credits) **OR** SPA 305 - Spanish for Law Enforcement (3 credits) **OR** SPA 306 - Spanish for Business (3 credits)

SPA 311 - Latin American Civilization and Culture I (3 credits)

SPA 312 - Latin American Civilization and Culture II (3 credits)

SPA 313 - U.S. Latino/a Civilization and Culture (3 credits)

SPA 329 - Sociolinguistics of Spanish (3 credits)

SPA 410 - Spanish American Narrative (3 credits)

SPA 430 - U.S. Latino/a Literature (3 credits)

SPA 460 - Women Authors (3 credits) (only when focus is Latin American writers)

SOC 322 - Sociology of Community (3 credits)

## **Latino/a Studies Undergraduate Certificate**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The certificate in Latino/a studies is designed for students who are, or who anticipate, working with people of Spanish-speaking Latin American or Caribbean heritage. It will serve both traditional and nontraditional students seeking a focused, interdisciplinary curriculum that increases their knowledge of the histories, demographics, and cultures of different Latino/a groups.

## **Certificate Requirements**

Students must successfully complete the two required courses and electives from the following list, totaling 15 credits. All credits for this certificate program must be earned at Grand Valley State University. Students may use credits from this certificate program for the Latin American and Latino/a studies minor.

### **Required Courses**

There are six credits required, including:

LAS 220 - Introduction to Latino/a Studies (3 credits)

LAS 373 - Latinos/as in West Michigan (3 credits)

### **Elective Courses**

There are nine credits required:

CJ 325 - Criminal Justice and Human Rights (3 credits)

CJ 482 - Culture, Crime and Justice (3 credits)

ENG 335 - Literature of American Minorities (3 credits)

HST 315 - Latinos: The Forging of Ethnic Identities (3 credits)

HST 316 - U.S. Civil Rights Movement History (3 credits)

LAS 210 - Exploring Latin America (3 credits)

LAS 380 - Special Topics in Latin American Studies (1 to 3 credits)

LAS 399 - Independent Studies (1 to 3 credits)

LAS 490 - Latin American Studies Internship (1 to 3 credits)

SOC 322 - Sociology of Community (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

SPA 304 - Spanish for Health Professionals (3 credits) **OR** SPA 305 - Spanish for Law Enforcement (3 credits) **OR** SPA 306 - Spanish for Business (3 credits)

SPA 313 - U.S. Latino/a Civilization and Culture (3 credits)

SPA 430 - U.S. Latino/a Literature (3 credits)

## Legal Studies

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

**Website:** [gvsu.edu/cj](http://gvsu.edu/cj)

The legal studies B.A./B.S. degrees are designed to prepare students for careers in the legal profession by providing a liberal education and the practical skills needed for success in this field. These programs also provide graduates with skills and knowledge necessary for study at law schools and other graduate programs, including criminal justice, social justice, and related programs.

The B.A./B.S. in legal studies and the certificate in paralegal studies are approved by the American Bar Association (ABA). The legal studies program also offers a minor that is not approved by the ABA.

The mission of the legal studies program is accomplished through courses that focus on

- Mastery of substantive knowledge critical to the legal profession, including principles of legal ethics and legal restrictions on the unauthorized practice of law.

- Development of critical thinking skills.

- Mastery of basic investigative and legal research techniques.

- Proficiency in oral and written communication.

- Development of appropriate professional behavior and job seeking skills.

Paralegals perform substantive legal work under the supervision of an attorney. Paralegals work in a variety of employment settings, including law firms, corporations, government entities, and nonprofit associations, and their specific job titles vary. Job titles may include legal assistant, contract administrator, claims specialist, or other titles indicating the nature of the legal work being performed. While paralegals play an important role in the delivery of legal services, they are not permitted to practice law, which means they cannot give legal advice, represent a client in court, establish a fee, or accept a case on behalf of a law firm. The School of Criminology, Criminal Justice, and Legal Studies administers the major in legal studies. Some courses can be

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

applied to both a criminal justice and a legal studies major. Check with your advisor for possible selections.

### **Legal Studies Advisory Board**

The Legal Studies Advisory Board consists of attorneys and paralegals representing a broad cross section of employers, including small and large law firms, the courts, and public sector legal departments. The Advisory Board plays an important role by giving guidance to the program on matters such as curriculum, internship and employment opportunities, and trends in the legal field.

### **Legal Education Admission Program (LEAP)**

The Grand Valley School of Criminology, Criminal Justice, and Legal Studies and the Michigan State University College of Law have partnered to offer a 3+3 program called LEAP, which provides legal studies majors with the opportunity to earn a B.S. or B.A. and a Juris Doctor (J.D.) in approximately six years of study.

## **Bachelor of Arts or Bachelor of Science in Legal Studies**

Students seeking a bachelor's degree in legal studies must complete the general education requirements of the university. Students must also meet the degree requirements i.e., third-semester proficiency in a foreign language to earn a B.A. for legal studies, or CIS 150, CJ 300, and STA 215 to earn a B.S. The bachelor's degrees in legal studies are approved by the American Bar Association.

Although most courses taken at other colleges and universities may be accepted for full credit, only a limited number will be counted toward the major. Students must take at least two-thirds of the credits constituting the major at Grand Valley. In addition, at least 10 credits of legal specialty courses must be taken through traditional classroom instruction.

### **Requirements**

A minimum of 36 credit hours is required. All majors must take the following core courses:

LS 101 - Law in our Lives (3 credits)

LS 224 - Legal Research (3 credits)

LS 324 - Legal Research and Writing (3 credits)

LS 226 - Civil Litigation I (3 credits)

LS 320 - Property and Probate Law (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

LS 322 - Commercial Law (3 credits)

LS 428 - Civil Litigation II (3 credits)

LS 490 - Legal Studies Internship (1 to 6 credits)

LS 495 - Legal Thought (Capstone) (3 credits)

In addition, all majors must take:

CIS 150 - Introduction to Computing (3 credits) included as part of degree requirement for B.S. degree.

**AND** two of the following courses for B.A. candidates or three of the following courses for B.S. candidates:

CJ 302 - Criminal Law (3 credits)

CJ 305 - Constitutional Rights and Civil Liberties (3 credits)

LS 350 - Family Law (3 credits)

LS 370 - Women and the Law (3 credits)

LS 380 - Special Topics in Legal Studies (1 to 4 credits)

LS 399 - Independent Reading in Legal Studies (1 to 3 credits)

LS 499 - Independent Study and Research (1 to 3 credits)

MGT 334 - Employment and Labor Law (3 credits)

PLS 307 - American Constitutional Law II (3 credits)

### **Suggested Order of Coursework**

Please visit the website of the College of Education and Community Innovation Advising Center at [gvsu.edu/ccpsadvising](http://gvsu.edu/ccpsadvising) for a four-year curriculum plan for the legal studies major. Taking courses in the sequence recommended in the curriculum plan for legal studies will help you avoid delays in completing the legal studies degree.

## **Legal Studies Minor**

The legal studies minor is open to students from any major. It is appropriate for students who have a general interest in law or for students considering law school or other graduate study in

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

law. It is also appropriate for students who are pursuing a career that has a significant connection to law and legal matters and who wish to deepen their understanding of the legal system. The legal studies minor is not intended to prepare students to work as paralegals and it is not approved by the American Bar Association. Students intending to work as paralegals should choose the legal studies major.

### **Requirements for a Minor in Legal Studies**

Minors must complete 21 credit hours, including:

LS 101 - Law in our Lives (3 credits)

LS 224 - Legal Research (3 credits)

LS 324 - Legal Research and Writing (3 credits)

LS 226 - Civil Litigation I (3 credits)

LS 320 - Property and Probate Law (3 credits)

LS 322 - Commercial Law (3 credits)

LS 428 - Civil Litigation II (3 credits)

LS 490 - Legal Studies Internship (1 to 6 credits) **OR** LS 495 - Legal Thought (Capstone) (3 credits)

### **Paralegal Studies Undergraduate Certificate**

Students seeking a certificate in paralegal studies must complete 30 credit hours. Students who have not yet earned a bachelor's degree must complete a bachelor's degree to earn the certificate; the certificate will be awarded when the degree is awarded. Students who have already completed a bachelor's degree must submit an application for admission to the legal studies program. An overall GPA of at least 2.7 is required for admission. No more than six credits can be transferred from another institution and at least ten credits of legal specialty courses must be taken through traditional classroom instruction. The paralegal studies certificate is approved by the American Bar Association.

### **Requirements for a Certificate in Paralegal Studies**

A minimum of 30 credit hours is required, including the following core courses:

LS 101 - Law in our Lives (3 credits)

LS 224 - Legal Research (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

LS 324 - Legal Research and Writing (3 credits)

LS 226 - Civil Litigation I (3 credits)

LS 320 - Property and Probate Law (3 credits)

LS 322 - Commercial Law (3 credits)

LS 428 - Civil Litigation II (3 credits)

LS 490 - Legal Studies Internship (1 to 6 credits)

CIS 150 - Introduction to Computing (3 credits)

In addition, students must complete two of the following courses:

CJ 302 - Criminal Law (3 credits)

CJ 305 - Constitutional Rights and Civil Liberties (3 credits)

LS 350 - Family Law (3 credits)

LS 370 - Women and the Law (3 credits)

LS 380 - Special Topics in Legal Studies (1 to 4 credits)

LS 399 - Independent Reading in Legal Studies (1 to 3 credits)

LS 499 - Independent Study and Research (1 to 3 credits)

MGT 334 - Employment and Labor Law (3 credits)

### **Suggested Order of Coursework**

Please visit the website of the College of Education and Community Innovation Advising Center for a curriculum plan for the certificate in paralegal studies. Taking courses in the sequence recommended in the curriculum plan will help you avoid delays in completing the certificate.

## **Management**

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog.

**Website:** [gvsu.edu/management](http://gvsu.edu/management)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The management program provides students with a balance of Be-Know-Do skills required to be effective managers and to lead others in a world of constant change and intense competition. This program offers three majors and an emphasis.

### **General Management**

By integrating and applying the knowledge from a diverse range of functional areas, such as human resources, information systems, legal, ethics, entrepreneurship, and operations, the general management major is designed to make students effective critical thinkers and problem solvers. The flexible curriculum ensures that students obtain the necessary theoretical and practical knowledge and skills necessary to be successful in the business world.

### **Human Resources**

This major emphasizes the management of the relationship between an organization and its employees. Business firms need human resource specialists who are capable of helping position the organization strategically through the design and administration of policies dealing with diversity and equal opportunity, recruiting and selection, training, performance appraisal, compensation, benefits, discipline, employee rights, and labor negotiations. Curriculum is focused on organizational efficiency and effectiveness.

### **Operations Management**

Operations management involves the application of managerial, quantitative, and computer skills to areas of lean, six-sigma, ERP, inventory management, and forecasting and scheduling, with the goal of giving students the tools to effectively manage service and manufacturing operations, SAP®, the enterprise resource planning (ERP) software, and other software packages integrated into the operations management program.

### **Management Information Systems**

The management information systems emphasis provides a combination of technical and managerial skills that prepare you to interpret end-user business needs and translate them into effective technology based solutions. An MIS emphasis provides students with an understanding of concepts, principles, and techniques to design, develop, and implement enterprise information systems. These specialized skills equip students with a strong technical background, emphasizing the business knowledge and analytical skills necessary in today's business environment.

## **Bachelor of Business Administration in Management**

### **Requirements for the B.B.A.**

#### **Core Courses**

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For the B.B.A., you must complete the following courses.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)

**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course - not ECO 490 (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor, if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major, if one is declared.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Elective Courses**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

## **Requirements for an Emphasis in Management Information Systems**

The management information systems (MIS) emphasis provides students with the appropriate knowledge and skills to define, design and develop management information systems in modern businesses. In addition, it provides them with specialized skills in the area of enterprise resource planning systems. This specialization provides a strong technical background while, emphasizing the business process knowledge and analytical skills necessary to successfully plan and implement such systems.

## **Required Courses**

CIS 160 - Learn to Code in Python (3 credits)

CIS 333 - Database Management and Implementation (3 credits)

MGT 351 - Enterprise Information Systems (3 credits)

MGT 371 - Systems Analyses and Design (3 credits)

MGT 471 - Enterprise Systems Configuration (3 credits)

MGT 475 - Customized ERP Solutions (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

## **Elective Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Choose one of the following:

MGT 350 - Principles of Electronic Commerce (3 credits)

MGT 477 - Applied Business Intelligence (3 credits)

MGT 478 - Business Intelligence Development (3 credits)

## **Management Minor**

### **Requirements for a Minor in Management**

The undergraduate management minor is an 18-credit-hour program open to all students except management majors. This minor provides students with a foundation in behavioral management, human resources and employment law, ethical and societal issues, and cultural diversity. The minor consists of four required courses and two electives.

#### **Required Courses**

MGT 331 - Managing People and Organizations (3 credits)

MGT 333 - Human Resource Management (3 credits) **OR** MGT 334 - Employment and Labor Law (3 credits)

MGT 438 - Business Ethics (3 credits)

MGT 355 - The Diversified Workforce (3 credits) **OR** MGT 466 - International Management and Multinational Corporations (3 credits)

#### **Additional Requirements**

In addition to the four required courses, students must complete two electives from 300- and 400-level courses in management. Students can, if they choose, select one of the paired required courses as an elective. However, the same course cannot count as a required and an elective course. Students majoring in a business discipline other than management (i.e., accounting, finance, marketing) who choose a management minor must select two upper-level management courses outside of the business core to count as elective credit. Students must achieve a cumulative 2.5 GPA in these courses to receive the management minor designation. Courses cannot be taken on a credit/no-credit basis.

## **Project Management, Undergraduate Certificate**

The project management certificate integrates the essential Project Management Body of Knowledge skills, principles, and practices; with cutting edge methodology, team-building skills and best practices. Students work in teams to effectively initiate, plan, execute, control, and bring

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

closure to real-world project(s) using MS Project and/or other enterprise project management software.

## **Requirements**

Required Courses (12 Credits)

BUS 470 - Applied Business Solutions (1 to 3 credits)

CIS 339 - Project Planning (3 credits)

CIS 349 - Agile Project Management (3 credits)

MGT 345 - Team Building (3 credits)

# **Marketing**

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog.

A major in marketing gives students appropriate knowledge and skills to understand the function of marketing in the firm and in society. Marketing is the appropriate major for students interested in careers in selling, direct selling, retailing, new product development, product and brand management, promotion, advertising, distribution strategy, supply chain management, marketing research, consumer behavior, sales management, e-commerce, business to business, logistics, purchasing, market strategy planning, customer relations, distributor relations, and many other related fields.

## **Bachelor of Business Administration in Marketing**

### **Requirements for the B.B.A.**

#### **Core Courses**

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)  
**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course (not ECO 490) (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division Seidman College of Business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Elective Courses**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Requirements for a Major in Marketing**

This 18-credit-hour emphasis is application-oriented and stresses interaction with many leading regional business organizations.

### **Required Courses**

Business core:

MKT 351 - Consumer Behavior (3 credits)

MKT 352 - Marketing Research (3 credits)

MKT 451 - Marketing Strategy (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Three additional marketing electives at or above the 300-level

Quantitative group - choose one:

MGT 361 - Management Science (3 credits)

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

## **Professional Sales Emphasis**

This emphasis is designed to provide students interested in sales the appropriate knowledge and skills to become a professional salesperson. The focus of the emphasis is directed toward the utilization of selling strategies and skills necessary for the sales professionals in contemporary marketing organizations. Specific attention is directed toward business-to-business conditions and the relationships required of salespeople in these situations. Students with this emphasis obtain sales positions for business-to-business firms, including manufacturers, wholesalers, and retailers of goods and services.

### **Required Courses**

Business core:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MKT 351 - Consumer Behavior (3 credits)

MKT 352 - Marketing Research (3 credits)

MKT 353 - Marketing Negotiations (3 credits)

MKT 356 - Professional Selling (3 credits)

MKT 451 - Marketing Strategy (3 credits)

MKT 456 - Sales Management (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MGT 361 - Management Science (3 credits)

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

### **Distribution and Logistics**

The field of distribution and logistics focuses on designing and implementing the best strategy for companies to use in physically getting goods to their customers in a way that maximizes customer service and minimizes total logistics costs. Attention is directed towards the strategic management of distribution assets, customer service, finished goods inventory control, transportation, warehousing and international distribution planning. Students graduating with a logistics background are employed in a number of industries, with strong demand nationally in the auto industry, appliances industry, grocery industry, retail chain sector, wholesale sector, and each of the transportation modes.

Business core:

MKT 351 - Consumer Behavior (3 credits)

MKT 352 - Marketing Research (3 credits)

MKT 354 - Distribution Institutions and Logistics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MKT 355 - International Logistics (3 credits)

MKT 451 - Marketing Strategy (3 credits)

MKT 457 - Logistics and Transportation (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

## **Marketing Minor**

### **Requirements for a Minor in Marketing**

The undergraduate marketing minor is an 18-credit-hour program open to all students except marketing majors. The minor consists of five required courses and one elective. In addition to the five courses, students must complete one elective from 300- and 400-level courses in marketing (may not use MKT 490 or MKT 499 for this requirement). Students must achieve a cumulative 2.5 GPA in these courses to receive the marketing minor designation. Courses cannot be taken on a credit/no-credit basis.

There are five marketing courses required:

MKT 350 - Marketing Management (3 credits)

MKT 351 - Consumer Behavior (3 credits)

\*MKT 352 - Marketing Research (3 credits)

MKT 375 - Marketing Ethics (3 credits)

MKT 451 - Marketing Strategy (3 credits)

\*Requires prerequisite STA 215

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Mathematics

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/math](http://gvsu.edu/math)

**Degrees Offered:** B.S./B.A. in mathematics; minors in mathematics. Teaching certification in secondary and minor (elementary and secondary). Two emphases for noncertification mathematics majors, in theoretical mathematics and applied mathematics. The mathematics major is offered within the Department of Mathematics. Options within the major lead to mathematical careers in government, industry, and elementary and secondary teaching. Students also gain a broad mathematical background that prepares them for graduate studies in the mathematical sciences. It is strongly recommended that all students interested in mathematics as a major discuss career plans with one or more members of the department and obtain an advisor in the department as soon as possible.

## Honors Organization

Pi Mu Epsilon (PME) is the National Honorary Mathematics Society. To be nominated for membership in Pi Mu Epsilon a student must possess an overall GPA of at least 3.3 and a mathematics GPA of at least 3.3, and have completed 18 credit hours of mathematics courses toward the mathematics major. At least nine of these credit hours must have been taken at Grand Valley State University and consist of mathematics courses at the level of MTH 203 - Calculus III or higher that count toward our mathematics major.

## Study Abroad

Since 2011, the Department of Mathematics has sponsored a study abroad program in Tanzania for students interested in mathematics education. In addition, many study abroad programs offer mathematics courses that can be approved by the department for mathematics credit. Contact the Padnos International Center or the Department of Mathematics for more information.

## Internship Program

This program enables juniors and seniors with jobs involving mathematics to earn credit for academic work that counts towards the mathematics major requirements for the applied mathematics emphasis. Contact the department for further information.

## Mathematics Placement Information

Please see the placement information on the Department of Mathematics website at [gvsu.edu/math/mathematics-placement-11.htm](http://gvsu.edu/math/mathematics-placement-11.htm).

## Bachelor of Arts or Bachelor of Science in Mathematics

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Emphasis Areas**

Students majoring in mathematics must choose one of the following emphasis areas:

Theoretical mathematics

Applied mathematics

Secondary certification

## **B.S. and B.A. Degree Requirements**

Completion of MTH 201, MTH 202, and STA 312 satisfies the B.S. degree program requirements for all mathematics majors. Students completing a B.A. degree must complete these courses plus the foreign language requirement for a B.A.

## **Requirements for a Major in Mathematics - Theoretical Mathematics Emphasis**

Students planning a major in mathematics with theoretical mathematics emphasis must complete the following.

### **Course Requirements**

All students with a major in mathematics with theoretical mathematics emphasis must complete the following courses:

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

MTH 203 - Calculus III (4 credits)

MTH 204 - Linear Algebra I (3 credits)

MTH 205 - Linear Algebra II (3 credits)

MTH 210 - Communicating in Mathematics (4 credits)

MTH 350 - Modern Algebra I (3 credits)

MTH 408 - Real Analysis 1 (3 credits)

MTH 495 - The Nature of Modern Mathematics (Capstone) (3 credits) **OR** MTH 496 - Senior Thesis (Capstone) (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Additional Course Requirements**

Take additional courses from the following list for a total of 12 courses in mathematics (with at least one additional 400-level course besides the required courses):

MTH 300 - Vector Analysis (3 credits)

MTH 304 - Analysis of Differential Equations (3 credits)

MTH 305 - Mathematical Modeling (3 credits)

MTH 315 - Discrete Mathematics (3 credits)

MTH 360 - Operations Research (3 credits)

MTH 401 - Mathematics for the Physical Sciences (4 credits)

MTH 402 - Complex Variables (3 credits)

MTH 405 - Numerical Analysis (3 credits)

MTH 406 - Linear Algebra III (3 credits)

MTH 409 - Real Analysis 2 (3 credits)

MTH 431 - Non-Euclidean Geometry (3 credits)

MTH 441 - Topology (3 credits)

MTH 450 - Modern Algebra II (3 credits)

MTH 465 - Automata and Theory of Computation (3 credits)

MTH 495 - The Nature of Modern Mathematics (Capstone) (3 credits)

MTH 496 - Senior Thesis (Capstone) (3 credits)

MTH 498 - Project-Based Applied Mathematics (Capstone) (3 credits)

## **Cognate Requirements**

All students seeking a major in mathematics with theoretical mathematics emphasis must complete the following courses to satisfy the mathematics cognate requirements:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 161 - Computational Science (3 credits) Recommended.

**OR** CIS 162 - Computer Science I (4 credits)

STA 312 - Probability and Statistics (3 credits)

**AND** one course from the following:

BIO 355 - Human Genetics (3 credits)

BIO 375 - Genetics (3 credits)

CHM 351 - Introduction to Physical Chemistry (3 credits)

CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 452 - Computer Modeling and Drug Design (3 credits)

ECO 400 - Econometrics and Forecasting (3 credits)

GEO 470 - Geophysics (4 credits)

HSC 201 - The Scientific Revolution (3 credits)

PHI 203 - Intermediate Logic (3 credits)

PHY 230 - Principles of Physics I (5 credits)

PSY 300 - Research Methods in Psychology (3 credits)

STA 314 - Statistical Quality Methods (3 credits)

STA 412 - Mathematical Statistics I (4 credits)

## **Preparation for Graduate Work in Theoretical Mathematics**

Majors who plan to complete graduate work in mathematics are encouraged to

take as many upper-division mathematics courses as possible from the courses listed in additional mathematics courses;

take MTH 450 or MTH 409 as one additional 400-level course; and

consult with their advisor about other courses that might be appropriate for their interests and about procedures for applying to graduate school.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Requirements for a Major in Mathematics - Applied Mathematics Emphasis

### Course Requirements

All students with a major in mathematics with applied mathematics emphasis must complete the following courses:

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

MTH 203 - Calculus III (4 credits)

**BOTH** MTH 204 - Linear Algebra I (3 credits) **AND** MTH 304 - Analysis of Differential Equations (3 credits) Recommended. **OR** MTH 302 - Linear Algebra and Differential Equations (4 credits)

MTH 205 - Linear Algebra II (3 credits)

MTH 210 - Communicating in Mathematics (4 credits)

MTH 305 - Mathematical Modeling (3 credits)

MTH 360 - Operations Research (3 credits)

MTH 405 - Numerical Analysis (3 credits)

MTH 490 - Mathematics Internship Seminar (2 credits) Capstone **OR** MTH 498 - Project-Based Applied Mathematics (Capstone) (3 credits)

### Additional Course Requirements

Take additional courses from the following list for a total of 13 courses in mathematics. Students choosing the recommended MTH 204 + MTH 304 option in the required courses, must take two additional courses from the following list, while the students choosing only MTH 302 must take three additional courses from the following list:

MTH 315 - Discrete Mathematics (3 credits)

MTH 401 - Mathematics for the Physical Sciences (4 credits)

MTH 402 - Complex Variables (3 credits)

MTH 406 - Linear Algebra III (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 408 - Real Analysis 1 (3 credits)

MTH 441 - Topology (3 credits)

MTH 465 - Automata and Theory of Computation (3 credits)

MTH 496 - Senior Thesis (Capstone) (3 credits)

MTH 498 - Project-Based Applied Mathematics (Capstone) (3 credits)

### **Cognate Requirements**

All students seeking a major in mathematics with applied mathematics emphasis must complete the following courses to satisfy the mathematics cognate requirements:

CIS 161 - Computational Science (3 credits) Recommended.

**OR** CIS 162 - Computer Science I (4 credits)

STA 312 - Probability and Statistics (3 credits)

### **Requirements for a Major in Mathematics - Secondary Certification Emphasis**

The mathematics major with secondary certification emphasis must be completed with a GPA of 2.7 for admission to the College of Education and Community Innovation. Students planning a major in mathematics with secondary certification emphasis must complete the following.

### **Course Requirements**

All mathematics majors must complete the following courses:

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

MTH 203 - Calculus III (4 credits)

MTH 204 - Linear Algebra I (3 credits)

MTH 210 - Communicating in Mathematics (4 credits)

MTH 229 - Mathematical Activities for Secondary Teachers (3 credits)

MTH 315 - Discrete Mathematics (3 credits)

MTH 329 - Teaching Middle Grades Mathematics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 331 - Euclidean Geometry (3 credits)

MTH 350 - Modern Algebra I (3 credits)

MTH 495 - The Nature of Modern Mathematics (Capstone) (3 credits) **OR** MTH 496 - Senior Thesis (Capstone) (3 credits)

### **Elective Requirement**

All mathematics majors with secondary certification emphasis must also complete one elective course from the following list. The elective course must be different than the Capstone course.

MTH 205 - Linear Algebra II (3 credits)

MTH 300 - Vector Analysis (3 credits)

MTH 304 - Analysis of Differential Equations (3 credits)

MTH 360 - Operations Research (3 credits)

MTH 401 - Mathematics for the Physical Sciences (4 credits)

MTH 402 - Complex Variables (3 credits)

MTH 405 - Numerical Analysis (3 credits)

MTH 408 - Real Analysis 1 (3 credits)

MTH 409 - Real Analysis 2 (3 credits)

MTH 431 - Non-Euclidean Geometry (3 credits)

MTH 441 - Topology (3 credits)

MTH 450 - Modern Algebra II (3 credits)

MTH 465 - Automata and Theory of Computation (3 credits)

MTH 495 - The Nature of Modern Mathematics (Capstone) (3 credits)

MTH 496 - Senior Thesis (Capstone) (3 credits)

### **Cognate Requirements**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

All students seeking a major in mathematics with secondary certification emphasis must complete the following courses to satisfy the mathematics cognate requirements:

STA 312 - Probability and Statistics (3 credits)

**AND** one course from the following:

BIO 355 - Human Genetics (3 credits)

BIO 375 - Genetics (3 credits)

CHM 351 - Introduction to Physical Chemistry (3 credits)

CIS 160 - Learn to Code in Python (3 credits)

CIS 161 - Computational Science (3 credits)

CIS 162 - Computer Science I (4 credits)

CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 452 - Computer Modeling and Drug Design (3 credits)

ECO 400 - Econometrics and Forecasting (3 credits)

GEO 470 - Geophysics (4 credits)

HSC 201 - The Scientific Revolution (3 credits)

PHI 203 - Intermediate Logic (3 credits)

PHY 230 - Principles of Physics I (5 credits)

PSY 300 - Research Methods in Psychology (3 credits)

STA 314 - Statistical Quality Methods (3 credits)

STA 345 - Statistics in Sports (3 credits)

STA 412 - Mathematical Statistics I (4 credits)

### **College of Education and Community Innovation Requirements**

To be approved for student teaching, students must complete at least 24 credit hours in the major, including:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 210 - Communicating in Mathematics (4 credits)

MTH 229 - Mathematical Activities for Secondary Teachers (3 credits)

MTH 331 - Euclidean Geometry (3 credits)

In addition, students need to be aware of the College of Education and Community Innovation requirements for admission to the secondary certification program.

A student who has graduated from another accredited institution with a completed major or minor in mathematics and who now seeks only teaching certification in mathematics from Grand Valley must satisfy the following criteria:

Transfer or complete at Grand Valley all mathematics and cognate courses required for the certification major or minor.

A minimum cumulative GPA of 2.7 (on a 4.0 scale) in mathematics courses from the accredited institution.

Completion of the College of Education and Community Innovation requirements for certification.

### **Suggested Order of Coursework for a Major in Mathematics**

The following sample mathematics schedules assume the student is in contact with an advisor for appropriate general education requirements and has a strong mathematics background. Students who do not begin with MTH 201 will need to make appropriate changes.

### **Mathematics Majors with Theoretical Mathematics Emphasis**

#### **Year One**

Appropriate courses in general education

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

MTH 204 - Linear Algebra I (3 credits)

MTH 205 - Linear Algebra II (3 credits)

#### **Year Two**

Mathematics elective course

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Computer science cognate course

Appropriate courses in general education

MTH 203 - Calculus III (4 credits)

MTH 210 - Communicating in Mathematics (4 credits)

### **Year Three**

Cognate courses in the major

Appropriate courses in general education

Mathematics elective course

MTH 350 - Modern Algebra I (3 credits)

STA 312 - Probability and Statistics (3 credits)

### **Year Four**

400-level mathematics elective course

Capstone course

MTH 408 - Real Analysis 1 (3 credits)

## **Mathematics Majors with Applied Mathematics Emphasis**

### **Year One**

Appropriate courses in general education

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

MTH 204 - Linear Algebra I (3 credits)

MTH 205 - Linear Algebra II (3 credits)

### **Year Two**

Computer science cognate course

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Appropriate courses in general education

MTH 203 - Calculus III (4 credits)

MTH 210 - Communicating in Mathematics (4 credits)

MTH 304 - Analysis of Differential Equations (3 credits)

### **Year Three**

Mathematics elective course

Appropriate courses in general education

MTH 305 - Mathematical Modeling (3 credits)

MTH 360 - Operations Research (3 credits)

STA 312 - Probability and Statistics (3 credits)

### **Year Four**

Mathematics elective course

Capstone course

MTH 405 - Numerical Analysis (3 credits)

## **Mathematics Major with Secondary Certification Emphasis**

### **Year One**

Appropriate courses in general education

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

MTH 210 - Communicating in Mathematics (4 credits)

PSY 101 - Introductory Psychology (3 credits)

### **Year Two**

Appropriate courses in general education

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 203 - Calculus III (4 credits)

MTH 204 - Linear Algebra I (3 credits)

MTH 229 - Mathematical Activities for Secondary Teachers (3 credits)

MTH 329 - Teaching Middle Grades Mathematics (3 credits)

### **Year Three**

Elective in the major

Student assisting

Cognate course for major

Appropriate courses in general education

MTH 315 - Discrete Mathematics (3 credits)

MTH 331 - Euclidean Geometry (3 credits)

STA 312 - Probability and Statistics (3 credits)

### **Year Four**

Capstone course

Student teaching

Appropriate courses in general education

MTH 350 - Modern Algebra I (3 credits)

## **Mathematics Minor**

### **Requirements**

Students planning a minor in mathematics must complete the university requirements for a minor as identified in the General Academic Policies section of the Grand Valley State University Undergraduate and Graduate Catalog as well as the following requirements.

### **Mathematics (not for Teacher Certification)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The minor in mathematics (not for teacher certification) requires a minimum GPA of 2.0 and 20 credit hours unduplicated in one's major.

### **Required Courses**

MTH 201 - Calculus I (4 credits)

MTH 204 - Linear Algebra I (3 credits) **OR** MTH 302 - Linear Algebra and Differential Equations (4 credits)

Up to two courses may be taken from the following list.

MTH 202 - Calculus II (4 credits)

MTH 203 - Calculus III (4 credits)

MTH 205 - Linear Algebra II (3 credits)

MTH 210 - Communicating in Mathematics (4 credits) **OR** MTH 225 - Discrete Structures: Computer Science (3 credits)

At least two additional courses must be taken from the following list. Only one course may be a statistics course.

MTH 300 - Vector Analysis (3 credits)

\*MTH 304 - Analysis of Differential Equations (3 credits)

MTH 305 - Mathematical Modeling (3 credits)

MTH 315 - Discrete Mathematics (3 credits) **OR** \*\*MTH 325 - Discrete Structures: Computer Science 2 (3 credits)

MTH 350 - Modern Algebra I (3 credits)

MTH 360 - Operations Research (3 credits)

MTH 401 - Mathematics for the Physical Sciences (4 credits)

MTH 402 - Complex Variables (3 credits)

MTH 405 - Numerical Analysis (3 credits)

MTH 465 - Automata and Theory of Computation (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

\*\*\*STA 220 - Statistical Modeling for Engineers (2 credits)

STA 310 - Introduction to Biostatistics (3 credits)

STA 312 - Probability and Statistics (3 credits)

STA 314 - Statistical Quality Methods (3 credits)

STA 315 - Design of Experiments (3 credits)

STA 317 - Nonparametric Statistical Analysis (3 credits)

STA 318 - Statistical Computing (3 credits)

STA 321 - Applied Regression Analysis (3 credits)

STA 412 - Mathematical Statistics I (4 credits)

STA 415 - Mathematical Statistics II (Capstone) (4 credits)

STA 418 - Statistical Computing and Graphics with R (3 credits)

STA 421 - Bayesian Data Analysis (3 credits)

STA 425 - Actuarial Probability and Statistics (3 credits)

STA 426 - Multivariate Data Analysis (3 credits)

\*Students may not count both MTH 302 and MTH 304 toward the minor.

\*\*MTH 225 may only count toward the minor if MTH 325 is also completed **AND** at least one other 300- or 400-level MTH course (except MTH 302) is counted toward the minor.

\*\*\*STA 220 may only count toward the minor if it is completed along with EGR 220.

## **Mathematics with Secondary Teacher Certification**

The secondary teacher certification mathematics minor requires a minimum GPA of 2.7 and 20 credit hours unduplicated in one's major. Credit in the following courses may not be applied: MTH 110, MTH 122, MTH 123, MTH 124, MTH 125, MTH 126, MTH 131, MTH 226, MTH 223, MTH 225, MTH 312, and STA 215. Credit in the following courses requires department approval to be applied to the minor: MTH 380, MTH 386, MTH 399, and MTH 499.

The following courses must be completed:

MTH 201 - Calculus I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 202 - Calculus II (4 credits)

MTH 204 - Linear Algebra I (3 credits)

MTH 210 - Communicating in Mathematics (4 credits)

MTH 229 - Mathematical Activities for Secondary Teachers (3 credits) **OR** MTH 329 - Teaching Middle Grades Mathematics (3 credits)

MTH 331 - Euclidean Geometry (3 credits)

MTH 350 - Modern Algebra I (3 credits)

STA 312 - Probability and Statistics (3 credits)

### **Mathematics with Elementary Teacher Certification**

The elementary teacher certification mathematics minor requires a minimum GPA of 2.7 and 20 credit hours unduplicated in one's major. Credit in the following courses may not be applied: MTH 110, MTH 122, MTH 123, MTH 124, MTH 125, MTH 126, MTH 131, MTH 226, MTH 223, MTH 225, MTH 312, and STA 215. Credit in the following courses requires department approval to be applied to the minor: MTH 380, MTH 386, MTH 399, and MTH 499.

The following courses must be completed:

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

MTH 210 - Communicating in Mathematics (4 credits)

MTH 322 - Geometry for Elementary Teachers (3 credits)

MTH 323 - Probability and Statistics for Elementary Teachers (3 credits)

MTH 324 - Algebra for Elementary Teachers (3 credits)

**AND ONE** additional approved course

## **Medical Dosimetry**

For additional information about opportunities your college offers, please refer to the College of Health Professions section of this catalog.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Website:** [gvsu.edu/grad/dosimetry](http://gvsu.edu/grad/dosimetry)

## **Degree Offered**

Master of Science in medical dosimetry

A medical dosimetrist is a key member of the radiation oncology team who works closely with physicians, physicists, and other members of the radiation oncology team to implement each treatment plan. The medical dosimetrist uses computer software to design and accurately calculate a radiation treatment plan based on the radiation oncologist's prescription, being cognizant of normal tissues and critical structures in the treatment vicinity. The medical dosimetrist maintains a delicate balance between delivering the prescription the physician has written, while ensuring the patient will not lose important healthy organ function. The medical dosimetrist also provides assistance and support to solve diverse physical and technical problems that arise in the clinical environment. Through knowledge of radiation oncology treatment machines and application of principles of physics, anatomy and radiobiology, the dosimetrist generates radiation therapy treatment plans.

## **Grand Valley State University Medical Dosimetry**

GVSU's masters in medical dosimetry program is a Joint Review Committee on Education in Radiologic Technology (JRCERT) accredited 12-month hybrid/online lock-step cohort program (September-August) that is comprised of didactic and clinical education for a total of 38 credits. Clinicals are taken in-person at the assigned institution, and didactic courses are hybrid and online. Students complete the year-long program in a clinical placement located within the U.S. and are required to attend two on-site meetings at GVSU.. The remainder of the courses are online. Part-time students are required to enroll in all the didactic courses with the cohort they are admitted with (completed in one year), and are allowed to spread their clinical experience over a longer period of time (up to two years).

Clinical sites are provided for admitted students. A list of GVSU's clinical sites can be found on the JRCERT website. Please note: Not all clinical sites are available each year. Students may request clinical sites based on their geographical location, but the ultimate decision for clinical placement will be nondiscriminatory and at the discretion of the Program Director and Educational Coordinator. A prospective student can propose a new clinical site by contacting the program director.

As part of the master's degree curriculum, students must complete a research project or thesis. Students are encouraged to submit their research to a national forum upon completion.

## **Accreditation**

The Grand Valley State University Medical Dosimetry program is accredited by the JRCERT. The program adheres to JRCERT standards. Students have the right to notify the JRCERT if they believe the university is not adhering to these standards. The JRCERT is at 20 N. Wacker Dr., Suite 2850, Chicago, IL 60606-3182, phone (312) 704-5300 ([jrcert.org](http://jrcert.org)). This accreditation meets

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

eligibility requirements for program graduates to sit for the national Medical Dosimetrist Certification Board (MDCB) examination which, upon successful completion, confers the title certified medical dosimetrist (CMD).

### **Undergraduates Interested in Medical Dosimetry**

A bachelor's degree is required prior to beginning the medical dosimetry program. The recommended undergraduate major for students is radiation therapy.

### **Application Procedures**

Admission to the medical dosimetry program is competitive and requires completion of a Bachelor's degree prior to admission. Application can be made through the GVSU graduate admission website at [gvsu.edu/grad/dosimetry](http://gvsu.edu/grad/dosimetry). Initial review of applications for fall begins February 1; applications are accepted until all clinical placements are filled. At the time of application, students must submit a plan that demonstrates how the prerequisites and undergraduate degree requirements will be completed prior to the start of the program if they are not completed at the time of admission application. Applicants who are selected for the program and can demonstrate completion of these requirements prior to the start of the program will be issued letters of conditional admission, which will convert to full admission upon successful completion of the entire plan. A plan for completion should be submitted as an additional page to the application. There is not a form for this document.

### **Admission Requirements**

**Academic achievement:** A minimum grade of C must be attained in all prerequisite coursework. Applicants must demonstrate a minimum overall 3.0 grade point average (GPA). All prerequisite coursework and a bachelor's degree are required prior to the start of the program.

**Prerequisite course completion:** The Prerequisite Verification and GPA Calculation Worksheet should be completed and attached to the application.

**Health care experience:** Documentation of a minimum of 40 hours of volunteer/paid health care experience or eight hours of medical dosimetry job shadowing experience documented on a resume.

**Resume:** Resume detailing health care/job shadow experiences, work experiences, leadership and accomplishments.

**References:** Three recommendations from health professionals must be submitted on university recommended forms located within the graduate application. Separate letters from references are NOT required. Only three references will be accepted.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**Personal Statement:** Personal statement of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives.

**Internationally Trained Applicants:**

Students whose undergraduate education is from outside the U.S. must submit a transcript that has been translated by a professional translator or credential evaluation service, such as WES or ECE.

Students must demonstrate proficiency in English. Any one of the following test scores are required:

TOEFL: 80 (we do not accept "My Best" score)

IELTS: 6.5

PTE: 53

**International Students:**

Applicants requiring an F1 Visa, J1 Visa or M1 Visa are not eligible for the Medical Dosimetry program, due to federal U.S. immigration regulations of online education.

**Selection Factors**

Grand Valley State University is an affirmative action/equal opportunity institution. It encourages diversity and provides equal opportunity in education, employment, all of its programs, and the use of its facilities. Applicants are considered without regard to age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, sex/gender, sexual orientation, veteran status, or weight. Motivational factors, life experiences, patient care experience, maturity, and personal characteristics as assessed in the personal statement, interview, recommendations and resume are important factors in the selection process. An applicant's academic record is important as an indicator of ability to succeed in an intensive and rigorous medical curriculum.

Specific selection criteria:

Overall GPA

Academic GPA from prerequisite courses

Personal statement

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Interview

Health care experience

Recommendations

Additional leadership, employment, professional, scholarly, extracurricular and volunteer activities are valued and taken into consideration

## **Degree Requirements**

Demonstration of completion of the 38 credits in the professional curriculum is required for the student to be granted the M.S. in medical dosimetry degree. General graduate academic policies and regulations can be found elsewhere in this catalog or on the GVSU Graduate School Policies and Procedures webpage.

In addition, for each RMD course or discrete unit of instruction in the professional curriculum, a minimum proficiency level of 80 percent on all evaluations as described in each course syllabus is required. A minimum grade of B- or higher is required for passing all RMD courses. In addition, the GPA must never drop below 3.0 in any semester or the student may be placed on academic probation or dismissed from the program.

## **Professional Conduct**

The program also subscribes to a belief in continual advancement during the course of professional study in a compilation of abilities. Interpersonal skills, communication skills, responsibility, and professionalism, among others, are identified as being crucial for success in the profession. Advancement in skill and behavior applicable to such abilities is expected during the professional curriculum. Clinical evaluation includes measurement of affective skills which must continually be met through the clinical advising program for students to continue in clinical education courses. Failure to achieve adequate progress in the clinical advising program will result in a failing grade being issued for that course. All students in the program are expected to comply with the ethical principles that embody the practice of medicine and the medical dosimetry profession. Community service is also expected as are professional scholarship achievements while enrolled in the program.

A criminal background check and a drug screening is required prior to admission into the program. After enrollment, individual clinical education centers may require additional criminal background checks and drug screenings. These requirements for attendance at clinical education centers are carried out by the GVSU Compliance Office. Positive findings for any compliance office request may negatively impact the educational process at GVSU or future credentialing as a medical dosimetrist. The costs of these evaluations or any other required clinical placement evaluations are the responsibility of the applicant or student.

The Grand Valley State University medical dosimetry program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The program adheres to

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

JRCERT standards. Students have the right to notify the JRCERT if they believe the university is not adhering to these standards. The JRCERT is at 20 N. Wacker Dr., Suite 2850, Chicago, IL 60606-3182, phone (312) 704-5300 (jrcert.org). This accreditation meets eligibility requirements for program graduates to sit for the national Medical Dosimetrist Certification Board (MDCB) examination which, upon successful completion, confers the title certified medical dosimetrist (CMD).

## **Master of Science in Medical Dosimetry**

For additional information about opportunities your college offers, please refer to the College of Health Professions section of this catalog.

**Website:** [gvsu.edu/grad/dosimetry](http://gvsu.edu/grad/dosimetry)

### **Application Requirements**

For a comprehensive list of required application materials and admission criteria refer to program description.

### **Prerequisite Courses**

The following courses or their equivalents must be completed, with a minimum grade of C, prior to admission:

BMS 250 - Anatomy and Physiology I (4 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

RIT 302 - Radiation Protection Physics (2 credits)

RIT 322 - Radiation Biology (2 credits)

RIT 330 - Radiation Therapy Principles and Practices I (4 credits)

RIT 331 - Radiation Therapy Principles and Practices I Laboratory (1 credit)

RIT 332 - Radiation Therapy Principles and Practices II (3 credits)

RIT 333 - Radiation Therapy Principles and Practices II Laboratory (1 credit)

RIT 420 - Radiation Therapy Physics I (2 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

RIT 441 - Gross Human Sectional Anatomy (4 credits)

RIT 458 - Neoplasms (3 credits)

RIT 470 - Radiation Therapy Treatment Planning (2 credits)

RIT 471 - Radiation Therapy Treatment Planning Lab (1 credit)

RIT 472 - Introduction to Medical Dosimetry (2 credits)

RIT 473 - Introduction to Medical Dosimetry Lab (1 credit)

## **Program Curriculum**

The following courses comprise the medical dosimetry program (lock-step cohort):

Fall Semester (12 to 14 credits):

STA 610 - Applied Statistics for Health Professions (3 credits)

RMD 620 - Dosimetry Treatment Planning I (3 credits)

RMD 621 - Dosimetry Treatment Planning I Lab (1 credit)

RMD 661 - Medical Dosimetry Clinical Education I (1 to 4 credits)

RMD 693 - Medical Dosimetry Research Project (1 to 3 credits) **OR** RMD 695 - Medical Dosimetry Thesis (1 to 3 credits)

Winter Semester (11 to 13 credits):

RMD 622 - Dosimetry Treatment Planning II (3 credits)

RMD 623 - Dosimetry Treatment Planning II Lab (1 credit)

RMD 630 - Medical Dosimetry I (3 credits)

RMD 662 - Medical Dosimetry Clinical Education II (1 to 4 credits)

RMD 693 - Medical Dosimetry Research Project (1 to 3 credits) **OR** RMD 695 - Medical Dosimetry Thesis (1 to 3 credits)

Spring/Summer Semester (11 to 13 credits):

RMD 632 - Medical Dosimetry II (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

RMD 663 - Medical Dosimetry Clinical Education III (1 to 4 credits)

RMD 670 - Professional Issues in Medical Dosimetry (3 credits)

RMD 693 - Medical Dosimetry Research Project (1 to 3 credits) **OR** RMD 695 - Medical Dosimetry Thesis (1 to 3 credits)

RMD 696 - Continuation of Master's Project or Thesis Research (1 credit) If required.

### **TOTAL CREDITS: 38**

\*RMD 693 Medical Dosimetry Research Project and RMD 695 Medical Dosimetry Thesis may be taken at variable credit per semester of one to three credits for a required total of six credits. RMD 696 Continuation of Master's Project or Thesis Research enrollment may be required if the student does not successfully complete RMD 695 Medical Dosimetry Thesis course.

### **Part-time Option**

Students may apply to the program as a part-time student. Part-time students are required to enroll in all the didactic courses with the cohort they are admitted with and complete within the one-year time-frame. Part-time students are also required to begin their clinical education at the same time as their didactic courses, but are allowed to spread their clinical education (RMD 661 - Medical Dosimetry Clinical Education I, RMD 662 - Medical Dosimetry Clinical Education II, and RMD 663 - Medical Dosimetry Clinical Education III) over a longer period of time (up to two years).

Full-time students complete 32 hours per week of clinical education during the semester, and part-time students must complete a minimum of 16 hours per week of clinical education. Part-time students are given credit for the clinical education course once the clinical hours (112 clinical education hours per one credit ratio) and course requirements are achieved. Part-time students can complete the program in four, five or six semesters.

Each new cohort begins in the fall semester, and both didactic courses and clinical courses are started at the same time. Many part-time students continue to work as a radiation therapist while continuing their education.

## **Medical Laboratory Science**

For additional information about opportunities your college offers, please refer to the College of Health Professions section in this catalog.

**Website:** [gvsu.edu/mls](http://gvsu.edu/mls)

### **Degree Offered**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## B.S. in medical laboratory science

Medical laboratory science is an undergraduate field of study that prepares graduates to become certified medical laboratory scientists (MLS). Medical laboratory scientists are essential health care professionals; they perform clinical laboratory tests that aid in the detection, diagnosis, monitoring, and treatment of disease. Blood, tissue, urine, and other body fluids are examined and analyzed, and results of these complex chemical, biological, hematological, immunologic, microscopic, and bacteriological tests provide important decision-making information to a patient's medical team. Medical laboratory scientists work primarily in hospital settings, however, job opportunities exist in molecular, research, forensic, and veterinary labs, as well as in instrument training/sales, lab management, and education. Medical laboratory scientists are required to use significant analytical and independent judgment; their technical skills are in high demand.

### Accreditation

The medical laboratory science program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Contact information for NAACLS: [naacls.org](http://naacls.org); email: [info@naacls.org](mailto:info@naacls.org); telephone: (773) 714-8880; address: 5600 N. River Road, Suite 720, Rosemont, IL 60018.

### Admission to the Medical Laboratory Science Program

Admission to the medical laboratory science program is competitive, requiring completion of a secondary application. Please visit [gvsu.edu/mls](http://gvsu.edu/mls) and our CHPSS webpage for all admission/application information [gvsu.edu/chpss/medical-laboratory-science-112.htm](http://gvsu.edu/chpss/medical-laboratory-science-112.htm). Late applications will be considered assuming requirements are met and space is available in the program. Applicants must meet the following criteria:

**Academic achievement.** Students must have a minimum overall GPA of 2.8 and a science GPA of 2.8 or above. Completion of BMS 208, BIO 120, and CHM 109, and completion of 45 semester hours of credit.

**Communication and interpersonal skills.**

**Recommendations.** Three recommendations must be submitted on university forms; one from a chemistry faculty member, one from a science laboratory faculty member, and one from a source chosen by the applicant.

**Additional activities.** Additional educational, professional, leadership, scholarly, and volunteer activities are valued and should be documented.

Students should be aware that prior to the beginning of their clinical courses, they must complete comprehensive health compliance obligations including but not limited to a criminal background check and drug screening. It is the responsibility of the student to

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

comply. If there is a positive result, the clinical sites have the right to refuse a student's placement which may negatively impact a student's ability to progress in the medical laboratory science program. In addition, individuals who have been charged with or convicted of a crime may not be eligible for national certification by the American Society for Clinical Pathology - Board of Certification. Students to whom this may apply are strongly advised to work with the ASCP-BOC for pre-application review of eligibility for certification from their website at [ascp.org/Board-of-Certification](http://ascp.org/Board-of-Certification). The ASCP-BOC contact information: Phone: (800) 267-2727; Fax: (312)-541-4472.

## **Bachelor of Science in Medical Laboratory Science**

### **Requirements**

#### **Prerequisite Courses**

There are 46 credits required for a major in medical laboratory science, including:

AHS 100 - Medical Terminology (3 credits)

\*BIO 120 - General Biology I (4 credits)

BIO 355 - Human Genetics (3 credits)

BMS 208 - Human Anatomy (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 290 - Human Physiology (3 credits)

BMS 391 - Laboratory in Human Physiology (2 credits)

BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits) **OR** AHS 301 - Introduction to Health Care Research (3 credits) **OR** PSY 300 - Research Methods in Psychology (3 credits)

BMS 410 - Immunology (3 credits)

\*CHM 109 - Introductory Chemistry (4 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

CHM 232 - Biological Chemistry (4 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

PHY 200 - Physics for the Life Sciences (4 credits)

\*STA 215 - Introductory Applied Statistics (3 credits)

\*Also fulfills a general education requirement.

### **General Education Requirements**

Requires 35 credits of Foundations and Cultures courses, including:

General education Arts (3 credits)

General education Philosophy and Literature (3 credits)

General education Historical Perspectives (3 credits)

General education Global Perspectives (3 credits)

General education U.S. Diversity (3 credits)

General education Social and Behavioral Sciences (3 credits)

Two Issues courses (6 credits)

MTH 110 - Algebra (4 credits)

**EITHER** WRT 150 - Strategies in Writing (4 credits) **OR BOTH** WRT 120 - Strategies in Writing - Stretch I (3 credits) **AND** WRT 130 - Strategies in Writing - Stretch II (3 credits)

### **Medical Laboratory Science Courses**

Requires 47 credits, including;

MLS 102 - Introduction to Medical Laboratory Sciences (1 credit)

MLS 320 - General Laboratory Practice (2 credits)

MLS 350 - Management for Laboratory Science (2 credits)

MLS 370 - Parasitology and Mycology (4 credits)

MLS 371 - Parasitology and Mycology Lab (1 credit)

MLS 372 - Diagnostic Microbiology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MLS 373 - Diagnostic Microbiology Laboratory (1 credit)

MLS 400 - Molecular Diagnostics/Virology (3 credits)

MLS 410 - Clinical Immunoserology (3 credits)

MLS 416 - Hematology (3 credits)

MLS 417 - Clinical Hematology Laboratory (1 credit)

MLS 422 - Clinical Chemistry (4 credits)

MLS 423 - Clinical Chemistry Laboratory (2 credits)

MLS 450 - Clinical Practicum I (1 credit)

MLS 461 - Medical Laboratory Science Simulation Laboratory (2 credits)

MLS 462 - Transfusion Medicine (3 credits)

MLS 463 - Hemostasis (2 credits)

MLS 464 - Bacteriology and Antibiotics (1 credit)

MLS 490 - Clinical Practicum II (5 credits)

MLS 495 - Issues in Medical Laboratory Science (3 credits)

## **Suggested Order of Coursework**

### **Year One**

Fall Semester (15 credits):

General education course (3 credits)

CHM 109 - Introductory Chemistry (4 credits)

MTH 110 - Algebra (4 credits)

WRT 150 - Strategies in Writing (4 credits)

Winter Semester (15 credits):

General education courses (6 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 120 - General Biology I (4 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

MLS 102 - Introduction to Medical Laboratory Sciences (1 credit)

## **Year Two**

Fall Semester (16 credits):

General education courses (6 credits)

BIO 355 - Human Genetics (3 credits)

BMS 208 - Human Anatomy (3 credits)

CHM 232 - Biological Chemistry (4 credits)

Winter Semester (14 credits):

AHS 100 - Medical Terminology (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

PHY 200 - Physics for the Life Sciences (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

## **Year Three**

Fall Semester (16 credits):

General education courses (6 credits)

AHS 301 - Introduction to Health Care Research (3 credits) **OR** BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits) **OR** PSY 300 - Research Methods in Psychology (3 credits)

BMS 290 - Human Physiology (3 credits)

BMS 391 - Laboratory in Human Physiology (2 credits)

BMS 410 - Immunology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Winter Semester (15 credits):

Begin MLS program.

Issues course (3 credits)

MLS 320 - General Laboratory Practice (2 credits)

MLS 350 - Management for Laboratory Science (2 credits)

MLS 370 - Parasitology and Mycology (4 credits)

MLS 371 - Parasitology and Mycology Lab (1 credit)

MLS 400 - Molecular Diagnostics/Virology (3 credits)

Summer Semester (6 credits):

Issues course (3 credits)

MLS 410 - Clinical Immunoserology (3 credits)

## **Year Four**

Fall Semester (15 credits):

MLS 372 - Diagnostic Microbiology (3 credits)

MLS 373 - Diagnostic Microbiology Laboratory (1 credit)

MLS 416 - Hematology (3 credits)

MLS 417 - Clinical Hematology Laboratory (1 credit)

MLS 422 - Clinical Chemistry (4 credits)

MLS 423 - Clinical Chemistry Laboratory (2 credits)

MLS 450 - Clinical Practicum I (1 credit)

Winter Semester (16 credits):

MLS 461 - Medical Laboratory Science Simulation Laboratory (2 credits)

MLS 462 - Transfusion Medicine (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MLS 463 - Hemostasis (2 credits)

MLS 464 - Bacteriology and Antibiotics (1 credit)

MLS 490 - Clinical Practicum II (5 credits)

MLS 495 - Issues in Medical Laboratory Science (3 credits)

## **Microbiology**

Graduates from this major will be prepared to enter a graduate program in microbiology or biotechnology. It would be an appropriate degree for a premedical student interested in infectious disease. In addition, the laboratory-rich aspect of this major will prepare a graduate for becoming a microbiology/biotechnology laboratory technician. Because it is impossible to design one curriculum to fulfill the requirements of every graduate school or laboratory, it is the student's responsibility, in consultation with an advisor, to see that the requirements are fulfilled for the particular school(s)/job(s) in which the student is interested. This major, although directed, allows sufficient flexibility to accommodate specific requirements that various programs may have.

### **Bachelor of Science in Microbiology**

The major requires 71 to 72 credit hours for completion dependent on the math sequence chosen.

#### **Major Requirements**

##### **General University Degree Requirements**

As identified in the General Academic Policies section of the Grand Valley State University Undergraduate and Graduate Catalog.

##### **Required Microbiology Courses/Labs (21 credits)**

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 312 - Bacterial Genetics (3 credits)

BMS 313 - Bacterial Genetics Laboratory (1 credit)

BMS 412 - Medical Bacteriology (3 credits)

BMS 413 - Medical Bacteriology Laboratory (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 422 - Bacterial Physiology (3 credits)

BMS 423 - Bacterial Physiology Laboratory (2 credits)

MIC 495 - Microbiology and Infectious Disease (3 credits)

**Additional Required Courses (44 to 45 credits)**

BIO 120 - General Biology I (4 credits)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 241 - Organic Chemistry for Life Sciences I (5 credits)

CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

CHM 461 - Biochemistry I (4 credits)

**EITHER** MTH 124 - Precalculus: Functions and Models (5 credits)

**OR BOTH** MTH 122 - College Algebra (3 credits) **AND** MTH 123 - Trigonometry (3 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

STA 215 - Introductory Applied Statistics (3 credits)

**Biomedical Sciences Elective Courses (6 credits)**

Choose six additional hours of upper-division science courses from the following:

BIO 416 - Advanced Genetics Laboratory (2 credits)

BMS 394 - Laboratory Assistant in Microbiology (1 credit)

BMS 410 - Immunology (3 credits)

BMS 431 - Medical Virology (3 credits)

BMS 432 - Medical Mycology (3 credits)

BMS 433 - Medical Parasitology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 492 - Biomedical Sciences Internship (1 to 4 credits)

BMS 499 - Research in the Biomedical Sciences (1 to 3 credits)

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

CMB 414 - Molecular Biology of the Gene (3 credits)

CMB 426 - Research Applications in Nucleic Acids (4 credits)

CHM 462 - Techniques in Biochemistry (3 credits)

CHM 463 - Biochemistry II (3 credits)

## Middle East Studies

For additional information about opportunities your college offers, please refer to the Brooks College of Interdisciplinary Studies section in this catalog.

**Website:** [gvsu.edu/mes](http://gvsu.edu/mes)

In the tradition of liberal education at Grand Valley State University, courses in this minor introduce students to the heritage, problems, and perspectives of Middle Eastern cultures, thus helping them to better understand their own culture. Michigan, for example, is home to the nation's largest Arab American community, half Christian, half Muslim, with substantial Jewish congregations.

The Middle East studies program focuses on the area stretching from Morocco in the west to Oman in the east, from Iran and Turkey in the north to Sudan in the south. This region is inhabited by more than 350 million people. Not only does the history and art of this region form the basis of Western civilization, but the Middle East today is central to issues of global peace and prosperity. This area incorporates largely Muslim lands, but Christians and Jews have also made important contributions. All receive appropriate attention in this program.

Study abroad opportunities are available and encouraged. For more information, consult the Padnos International Center (PIC) or the coordinator of the Middle East studies program.

## Middle East Studies Minor

For additional information about opportunities your college offers, please refer to the Brooks College of Interdisciplinary Studies section in this catalog.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## Requirements

Students minoring in Middle East studies must complete 18 to 19 credit hours of course work. This includes seven credits of core courses and at least 12 credits of electives. Students entering the university competent in Arabic at the 102-level or higher will take one additional elective course in consultation with the program coordinator, for a total of 18 credits. Students have the option to fulfill some electives through study abroad in consultation with the program coordinator. Please note that study abroad is encouraged, but not required.

### **All minors are required to complete two core courses:**

ARA 102 - Beginning Arabic II: Language and Culture (4 credits)

MES 201 - Introduction to the Middle East (3 credits)

### **Minors will choose four from the following elective courses (at least 12 credits):**

Students with second-semester or higher competence in Hebrew, Persian, or Turkish may substitute that for the Arabic requirement but will likewise take one extra course from the list below.

Students will select four courses (at least 12 credits) from the following list:

ARA 202 - Intermediate Arabic II: Language and Culture (4 credits)

ARA 330/MES 330 - Arab Identity in Literature and Culture (3 credits)

ANT 330 - Anthropology of Selected World Areas (3 credits)

ANT 350 - Archaeology of Mid-East (3 credits)

HST 211 - History of Islamic Civilization (3 credits)

HST 337 - The Age of Islamic Empire (3 credits)

HST 338 - Modern Middle East (3 credits)

HST 339 - Modern Iran (3 credits)

MES 202 - Arab Americans (3 credits)

MES 333 - Study Abroad - Middle East Studies (1 to 6 credits)

MES 350 - Islam: Scripture and Ritual (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MES 370 - Contemporary Issues in the Middle East: The Model Arab League (3 credits)

MES 380 - Special Topics in Middle East Studies (3 credits)

MES 399 - Independent Studies (1 to 3 credits)

PLS 320 - Comparative Politics of the Middle East (3 credits)

## Modern Languages and Literatures

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/mll](http://gvsu.edu/mll)

The importance of foreign language study has never been more obvious than in today's global society. Leaders in business, government, and throughout the community are calling for increased awareness of the interrelatedness and interdependence of all nations and societies. One of the traditional barriers to understanding, and to the free flow of communication, has been a lack of informed citizens with competence in at least one foreign language. There is no better way to understand and appreciate cultures other than your own than to communicate with other people in their own language. What is more, the mastery of a foreign language inevitably improves your command of your native language. With such a high premium on communication skills in the world today, foreign language study is not a luxury, it is a necessity.

### Honors Societies

Pi Delta Phi (French), Delta Phi Alpha (German), Sigma Delta Pi (Spanish)

### Degree Requirements

A student working toward any B.A. degree must successfully complete the third semester course in a foreign language. The Department of Modern Languages and Literatures currently offers the following languages that fulfill this requirement: Arabic, Chinese, French, German, Italian, Japanese, Russian, and Spanish.

Transfer students who wish to major in a foreign language at Grand Valley must take a minimum of 12 credit hours of advanced-level coursework (300- or above) with the Department of Modern Languages and Literatures at Grand Valley to qualify for a major. For transfer students who wish to minor in a foreign language, a minimum of six credit hours of advanced coursework (300- or above) with the Department of Modern Languages and Literatures at Grand Valley is required. This requirement includes those who have graduated from other institutions and now seek teaching certification from Grand Valley.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students seeking secondary certification in foreign languages must take the foreign language methods seminar, Education 331, in order to be certified. Students may also choose to enroll in foreign language and literature courses on a credit/no-credit basis.

All French, German, and Spanish majors and minors seeking teaching licensure must demonstrate oral proficiency at the advanced-low level (or higher) prior to enrolling in the College of Education and Community Innovation. A study abroad experience is required for students seeking teaching licensure degrees (see individual program details).

The 380 special topics courses are available in all foreign languages. The independent study and research courses in language programs within the Department of Modern Languages and Literatures are available to qualified students for independent study in areas not covered by the regular foreign language offerings.

### **Placement in Language Courses**

Students who have studied a foreign language in high school or who have practical knowledge of a foreign language that is offered by MLL must take a placement examination prior to enrolling for further study of that language. Students must enroll in the course in which they place on the examination. Instructors who determine that students are inappropriately enrolled may direct them to move to the appropriate level. Students can count one placement test per semester (only the first attempt).

Transfer students with prior college language study are not eligible to take the placement examination in that language and must enroll in a course at the next appropriate level.

Students with non-college language learning may be able to earn college credit by achieving an appropriate score on an approved national test, such as Advanced Placement (see Credit by Examination).

Native speakers are not eligible to take the placement exam, nor are they eligible to enroll in 100- or 200-level language courses, except SPA 203. The students should talk to an advisor in the Department of Modern Languages and Literatures for proper placement.

### **150 Course**

This course is designed for students who have sufficient prior study to make placement in 101 inappropriate. The 150 course includes a review of first semester language (101) and covers the same material as 102. Completion of the course with a grade of C or higher prepares students for 201.

### **Foreign Language Resource Center (Laboratory)**

The Language Resource Center (LRC) offers access to state-of-the-art audio, video, and computer technologies. The LRC laboratories host 66 language-learning workstations, which are reserved exclusively for GVSU language students but closed to general campus use. All

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

elementary and intermediate language courses require a minimum of 50 minutes per week of lab attendance. The audio-visual and computer resources are used to enrich many upper-division courses, too. Foreign language students can also access most of the LRC audio resources from their homes, or elsewhere, via the Internet. LRC equipment and software are being constantly updated and expanded. Visit online at [gvsu.edu/lrc](http://gvsu.edu/lrc).

## **Study Abroad**

Grand Valley urges all students to seek study abroad experience. Foreign language majors and minors will make exceptional progress by combining study abroad with their formal coursework on the home campus. Moreover, approved study experiences of varying lengths, summer, semester, or academic year, carry full academic credit for all participants, including non-majors. The many programs currently offered take place during the summer and are led by a Grand Valley State University faculty member. Longer stays can be arranged, however, through Grand Valley's institutional ties with colleges and universities in most regions of the world.

For more information, students should contact the Padnos International Center at (616) 331-3898 or visit online at [gvsu.edu/pic](http://gvsu.edu/pic).

### **Regular accompanied programs include:**

**Chile:** Intensive Spanish language studies for fall and winter semesters or nine-week spring term at the University of Bío Bío in Chillán, Chile.

**China:** Faculty-led intensive Mandarin summer program in Nanjing; one- or two-semester programs at East China Normal University in Shanghai.

**Dominican Republic:** A faculty-led spring program in Santo Domingo. This program offers students the opportunity to expand their knowledge of the language and cultures of the Spanish-speaking world, while living in the oldest European settlement in the Americas.

**France:** A faculty-led summer school program in French language and culture located in Nice (southern France) and Paris.

**Germany:** A faculty-led summer program in German language and culture and a full-semester exchange at our partner institute in Schwäbisch Gmünd, Germany; semester exchange (primarily for business students) in Mosbach/Bad Mergentheim.

**Japan:** A faculty-led spring program in Tokyo and Osaka; semester or full-year programs at the Japan Center for Michigan Universities in Hikone and Ritsumeikan Asia Pacific University in Beppu; and full-year exchange program with International Christian University of Tokyo.

**Mexico:** Intensive Spanish language studies for fall or winter semesters at the University of the Americas - Puebla, Puebla, Mexico.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**Oman/United Arab Emirates:** A faculty-led spring program in Oman and Dubai. This program introduces students to the language, culture, and business practices of Oman and the UAE (Dubai).

**Spain:** Intensive Spanish language studies (all levels) for fall, winter, or summer semesters at the University of Deusto in Bilbao, Spain.

**Taiwan:** Semester programs at National Taiwan Normal University in Taipei.

### **Arabic, Chinese, Italian, Japanese, and Russian Language Instruction**

In addition to French, German, and Spanish, Grand Valley offers Arabic, Chinese, Italian, Japanese, and Russian courses of instruction to fulfill the B.A. degree requirement (201-level); the general education requirement (202-level); the language requirement for minors in Middle East studies (Arabic) and East Asian studies (Chinese and Japanese); and the international relations major language requirements. Arabic and Chinese offer a language minor program. A variety of 300-level language and culture courses are offered in Japanese.

## **Bachelor of Arts in German**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

### **Requirements for a Major in German**

Students majoring in German are required to complete 33 hours of GER 300- or 400-level courses beyond GER 202, including:

GER 301 - German Composition (3 credits)

GER 302 - German Conversation (3 credits)

GER 495 - Advanced Topics in German (3 credits)

**AND** one linguistics course selected from:

GER 321 - Improving German Pronunciation (3 credits)

GER 322 - Introduction to German Linguistics (3 credits)

GER 421 - History of the German Language (3 credits)

**AND** one advanced language course selected from:

GER 341 - Advanced German Grammar (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GER 342 - Advanced Speaking Strategies and Skills (3 credits)

GER 386 - German Culture and Society (3 credits) Study abroad or similar as approved by advisor.

**AND** one advanced literature/culture course selected from:

GER 401 - Modern German Literature (3 credits)

GER 402 - German Authors (3 credits)

GER 421 - History of the German Language (3 credits)

\*GER 421 may be used to satisfy both the linguistics and the advanced literature/culture requirements.

Capstone must be taken in the last year preceding graduation. Students should take careful note of the prerequisites for their chosen courses. All secondary education majors and minors must also complete an approved study abroad program (see as follows).

### **Electives Courses**

Six courses not selected from the previously listed, in addition to:

GER 331 - Business German (3 credits)

GER 341 - Advanced German Grammar (3 credits)

GER 385 - German Language (3 credits)

GER 386 - German Culture and Society (3 credits)

### **Oral Proficiency Requirement**

It is a requirement of the Michigan Department of Education and Grand Valley's College of Education and Community Innovation that teacher candidates achieve the advanced-low level on the Oral Proficiency Interview (OPI) in German before student teaching. The OPI should be taken right away after returning from a study abroad program. Information sessions on the OPI and other requirements for certification are provided each semester.

### **Study Abroad Requirement**

Students with a German secondary education major or minor must study abroad in a German-speaking country for a minimum of one semester (12 to 15 credits in German at the 300- or 400-level) in a departmentally approved program. Courses taken during the study abroad semester normally fulfill some of the courses required for the major, but these need to be determined

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ahead of time by a German advisor. Advising is critical. Students interested in pursuing a teaching degree in German are urged to meet with a German advisor as early as possible in their program.

Students are advised to complete at least two courses (six credits) of German at the 300-level prior to studying abroad in order to maximize proficiency gains abroad.

Students who cannot meet the study abroad requirement will need to complete an alternative plan approved by a German advisor.

### **Requirements for Secondary Education Major in German**

Students majoring and planning for certification in German are required to complete at least 36 hours in German beyond the 200 level (GER 202), including the following:

GER 301 - German Composition (3 credits)

GER 302 - German Conversation (3 credits)

GER 314 - Foreign Language Acquisition and Pedagogy (3 credits)

GER 322 - Introduction to German Linguistics (3 credits)

GER 341 - Advanced German Grammar (3 credits)

At least one course each in culture and literature, plus one additional linguistics course (9 credits)

One 400-level course (3 credits)

GER 495 - Advanced Topics in German (3 credits)

### **Elective Courses**

In addition to the previously listed, all students must complete two electives (six credits) at the 300- or 400-level, which may include additional courses in culture, linguistics, and literature, or some of the following:

GER 303 - Introduction to German Literature I (3 credits)

GER 304 - Introduction to German Literature II (3 credits)

GER 311 - The Long 19th Century (3 credits)

GER 315 - German Cinema (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GER 331 - Business German (3 credits)

GER 385 - German Language (3 credits)

### **Requirements for Certification in Secondary Education**

Students seeking teaching certification with a major or minor in German must attain a level of at least Advanced-Low in an official Oral Proficiency Interview (OPI) before applying to the College of Education and Community Innovation. We will provide information sessions on preparing for the Oral Proficiency Interview each year.

## **Bachelor of Arts in Spanish**

For additional information about opportunities your college offers, please refer to the College of Arts and Sciences section in this catalog.

### **Requirements for a Major in Spanish**

Students majoring in Spanish are required to complete a minimum of 33 credits in this subject beyond the 200-level, including SPA 321, SPA 322, one civilization and culture course (from SPA 310, SPA 311, SPA 312 or SPA 313), one Survey of Literature course (either SPA 331 OR SPA 332), SPA 330, one 400-level literature course, and SPA 495 (Capstone). All students are urged to declare the major at the beginning of their sophomore year and to take courses beyond the minimum number, particularly those in civilization and culture and literature. Students should also seriously contemplate taking advantage of the various semester and year-long study abroad opportunities, and they are encouraged to consider a minor that will complement the major such as Latin American studies, business, or another language.

Credits for SPA 101, SPA 102, SPA 150, SPA 201, SPA 202, SPA 203, or SPA 204 will not be counted toward the major or minor.

### **Suggested Order of Coursework for a Major in Spanish**

To complete the program in four years, work toward the major should begin in a student's second year. The suggested distribution of courses follows.

#### **Year Two**

Semester One:

SPA 321 - Composition and Conversation I (3 credits)

**AND** one from the following:

SPA 300 - Reading and Telling Stories (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

SPA 304 - Spanish for Health Professionals (3 credits)

SPA 305 - Spanish for Law Enforcement (3 credits)

SPA 306 - Spanish for Business (3 credits)

SPA 308 - Spanish Phonetics (3 credits)

SPA 315 - One-Act Hispanic Drama (3 credits)

SPA 350 - Spanish Laboratory Theatre (3 credits)

#### Semester Two:

SPA 322 - Composition and Conversation II (3 credits)

**AND** one from the following:

SPA 300 - Reading and Telling Stories (3 credits)

SPA 304 - Spanish for Health Professionals (3 credits)

SPA 305 - Spanish for Law Enforcement (3 credits)

SPA 306 - Spanish for Business (3 credits)

SPA 308 - Spanish Phonetics (3 credits)

SPA 350 - Spanish Laboratory Theatre (3 credits)

#### Year Three

##### Semester One:

SPA 331 - Survey of Spanish Literature (3 credits) **OR** SPA 330 - Introduction to Literary Analysis (3 credits)

**AND** one from the following:

SPA 310 - Spanish Civilization and Culture (3 credits)

SPA 311 - Latin American Civilization and Culture I (3 credits)

SPA 312 - Latin American Civilization and Culture II (3 credits)

SPA 313 - U.S. Latino/a Civilization and Culture (3 credits)

#### Semester Two:

SPA 330 - Introduction to Literary Analysis (3 credits) **OR** SPA 332 - Survey of Spanish American Literature (3 credits)

**AND** one from the following:

SPA 300 - Reading and Telling Stories (3 credits)

SPA 308 - Spanish Phonetics (3 credits)

SPA 309 - Advanced Spanish Grammar (3 credits)

SPA 329 - Sociolinguistics of Spanish (3 credits)

#### Year Four

##### Semester One:

One 400-level literature courses

**AND** one from the following:

SPA 303 - Professional Writing (3 credits)

A second culture and civilization course

A second survey of literature course

A second 400-level literature course

##### Semester Two:

SPA 495 - Cross-National Literary Movements (Capstone) (3 credits)

Note: Majors may also take any of the Spanish for the professions courses as electives at any time. Classes are conducted primarily in Spanish.

#### Requirements for a Spanish Secondary Education Major

Students choosing Spanish as a teachable major must complete a total of 36 credits in Spanish beyond the 200-level, including SPA 321, SPA 322, SPA 309, two civilization and culture courses (from SPA 310, SPA 311, SPA 312, SPA 313), SPA 314, one Survey of Literature course (either SPA 331 or SPA 332), SPA 330, SPA 335, one 400-level literature course, and SPA 495 (Capstone). In addition, students with a Spanish secondary education major must study abroad in a Spanish-speaking country for a minimum of one semester (12-15 credits in Spanish at the 300-level) in a departmentally approved program. Courses taken during the study abroad

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

semester may fulfill some of the courses required for the major. The semester abroad should take place after students have completed SPA 322. Students who cannot meet this requirement will need to complete an alternative plan approved by the Spanish section's study abroad committee. Students interested in pursuing a teaching degree in Spanish are urged to meet with a Spanish advisor as early as possible in their program.

It is a requirement of the Michigan Department of Education and Grand Valley's College of Education and Community Innovation that teacher candidates achieve the Advanced-Low level on the Oral Proficiency Interview (OPI) in Spanish before student teaching. Information sessions on the OPI and other requirements for certification are provided regularly, but students should work closely with their advisor in Spanish. Students planning to teach Spanish are strongly encouraged to fulfill the study abroad requirement before attempting the OPI.

Credits for SPA 101, SPA 102, SPA 150, SPA 201, SPA 202, SPA 203, or SPA 204 will **not** be counted toward the major or minor.

## **Suggested Order of Coursework for a Spanish Secondary Education Major**

To complete the program in four years, work toward the major should begin in a student's second year. The suggested distribution of courses follows.

### **Year Two**

Semester One:

SPA 321 - Composition and Conversation I (3 credits)

Semester Two:

SPA 322 - Composition and Conversation II (3 credits)

### **Year Three**

Semester One:

SPA 329 - Sociolinguistics of Spanish (3 credits)

**AND** one of the following:

SPA 310 - Spanish Civilization and Culture (3 credits)

SPA 311 - Latin American Civilization and Culture I (3 credits)

SPA 312 - Latin American Civilization and Culture II (3 credits)

SPA 313 - U.S. Latino/a Civilization and Culture (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Semester Two:

Recommended study abroad semester.

SPA 331 - Survey of Spanish Literature (3 credits) **OR** SPA 332 - Survey of Spanish American Literature (3 credits)

SPA 309 - Advanced Spanish Grammar (3 credits)  
**AND** one of the following:

SPA 310 - Spanish Civilization and Culture (3 credits)

SPA 311 - Latin American Civilization and Culture I (3 credits)

SPA 312 - Latin American Civilization and Culture II (3 credits)

SPA 300-level elective

## **Year Four**

Semester One:

One 400-level literature course  
**AND** one of the following:

SPA 314 - Teaching Methods (3 credits)

SPA 335 - Introduction to Spanish Linguistics (3 credits)

Semester Two:

SPA 495 - Cross-National Literary Movements (Capstone) (3 credits)  
**AND** one of the following:

SPA 314 - Teaching Methods (3 credits)

SPA 335 - Introduction to Spanish Linguistics (3 credits)

Note: Classes are conducted primarily in Spanish.

## **Chinese Language Minor**

### **Requirements for a Minor in Chinese Language**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHI 202 - Intermediate Chinese II: Language and Culture (4 credits)

CHI 301 - Advanced Intermediate Chinese I (3 credits)

CHI 302 - Advanced Intermediate Chinese II (3 credits)

Twelve credits of elective courses are required from the following, including at least one course from CHI 341 and CHI 351. Study abroad courses can count for no more than six of the 12 credits:

CHI 236 - Popular Chinese Fiction (3 credits)

CHI 321 - Ancient Chinese Culture (3 credits)

CHI 322 - Classical Chinese Culture (3 credits)

CHI 323 - Late Imperial Chinese Culture (3 credits)

CHI 324 - Contemporary Chinese Culture (3 credits)

CHI 341 - Introduction to Classical Chinese (3 credits)

CHI 351 - Practical Chinese (3 credits)

CHI 380 - Special Topics in Chinese (3 credits) with prior consent.

CHI 185/CHI 285/CHI 385 up to 3 credits (Study abroad course.)

CHI 386/CHI 387/CHI 380 up to 3 credits (Study abroad course.)

## **German Minor**

### **Requirements for a Minor in German**

Minors must take at least 21 credits of German beyond GER 201, including:

GER 202 - Intermediate German II: Language and Culture (4 credits)

GER 301 - German Composition (3 credits)

GER 302 - German Conversation (3 credits)

Four upper-level courses, only one of which may be GER 341, GER 342, or GER 385. (12 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Elective Courses**

In addition to the previously listed information, minors must complete two elective courses at the 300- or 400- level, which may include additional courses in culture, linguistics and literature, or other elective courses.

## **Requirements for a Secondary Education Minor in German**

Students minoring and planning for certification in German are required to complete at least 27 hours beyond the 200-level (GER 202), including:

GER 301 - German Composition (3 credits)

GER 302 - German Conversation (3 credits)

GER 314 - Foreign Language Acquisition and Pedagogy (3 credits)

GER 322 - Introduction to German Linguistics (3 credits)

GER 341 - Advanced German Grammar (3 credits)

One literature course from GER 303/GER 304/GER 401/GER 402 (3 credits)

One culture course from GER 311/GER 312/GER 315 (3 credits)

Two additional elective courses from literature, culture, or linguistics (GER 321/GER 421) categories **OR** GER 342 - Advanced Speaking Strategies and Skills (3 credits)

## **Additional Requirements**

All German secondary education minors must complete an approved study abroad program in a German-speaking country of at least of one semester in length. Students who cannot complete this requirement may work with a faculty advisor to complete one of several alternative programs, which may add additional credits. Students who have already spent considerable time abroad, especially in a German-language high school, may be exempt from the requirement. Please discuss your situation with an advisor as early in your program as possible.

German secondary education minors must achieve a rating of at least Advanced-Low on an official Oral Proficiency Interview to receive an endorsement to teach German.

## **Spanish Minor**

### **Requirements for a Minor in Spanish**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The minor in Spanish is designed for students majoring in the professions or other disciplines who wish to enhance their knowledge of the primary field by perfecting their Spanish language skills and comprehension of culture. Students choosing Spanish as a minor program must complete a total of 21 hours of Spanish beyond the 200-level. The minor is especially geared toward students in the professions; it is strongly recommended that minors take the appropriate courses for their field (from SPA 304, SPA 305, and SPA 306), as well as SPA 303 - Professional Writing. In addition, students choosing Spanish as a teachable minor must take two civilization and culture courses, SPA 314, and SPA 335. The total number of credits required for the minor is the same regardless of the emphasis.

Credits for SPA 101, SPA 102, SPA 150, SPA 201, SPA 202, SPA 203, or SPA 204 will **not** be counted toward the major or minor.

### **Requirements for a Spanish Secondary Education Minor**

Students choosing Spanish as a teachable minor must complete 21 credits including: two civilization and culture courses, SPA 314, and SPA 335. In addition, students with a Spanish Secondary Education minor must study abroad in a Spanish-speaking country for a minimum of one semester (12 to 15 credits in Spanish at the 300-level) in a departmentally-approved program. Courses taken during the study abroad semester may fulfill some courses required for the minor. The semester abroad should take place after students have completed SPA 322. Students who cannot meet this requirement will need to complete an alternative plan approved by the Spanish section's study abroad committee. Students interested in pursuing a teaching degree in Spanish are urged to meet with a Spanish advisor as early as possible in their program.

It is a requirement of the Michigan Department of Education and Grand Valley's College of Education and Community Innovation that teacher candidates achieve the Advanced-Low level on the Oral Proficiency Interview (OPI) in Spanish before student teaching. Information sessions on the OPI and other requirements for certification are provided regularly, but students should work closely with their advisor in Spanish. Students planning to teach Spanish are strongly encouraged to fulfill the study abroad requirement before attempting the OPI.

Credits for SPA 101, SPA 102, SPA 150, SPA 201, SPA 202, SPA 203, or SPA 204 will **not** be counted toward the major or minor.

### **Requirements for a Spanish Elementary Education Minor**

Students choosing Spanish as a teachable minor for elementary education certification (in conjunction with the comprehensive science and arts for teaching major) must complete 27 credits including:

SPA 309 - Advanced Spanish Grammar (3 credits)

Select two of the following three courses:

SPA 310 - Spanish Civilization and Culture (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

SPA 311 - Latin American Civilization and Culture I (3 credits)

SPA 312 - Latin American Civilization and Culture II (3 credits)

**AND** complete the following:

SPA 313 - U.S. Latino/a Civilization and Culture (3 credits) **OR** SPA 329 - Sociolinguistics of Spanish (3 credits) **OR** SPA 331 - Survey of Spanish Literature (3 credits) **OR** SPA 332 - Survey of Spanish American Literature (3 credits)

SPA 314 - Teaching Methods (3 credits)

SPA 321 - Composition and Conversation I (3 credits)

SPA 322 - Composition and Conversation II (3 credits)

SPA 335 - Introduction to Spanish Linguistics (3 credits)

SPA 395 - Advanced Speaking Strategies and Skills (3 credits)

A student who wishes to complete the Spanish elementary education minor must also complete the comprehensive science and arts for teaching (CSAT) major in the College of Liberal Arts and Sciences and the elementary education major in the College of Education and Community Innovation. Due to the complex and extensive nature of the combined programs, minors in Spanish elementary education should consult regularly with both CSAT and Spanish advisors. It is a requirement of the Michigan Department of Education and Grand Valley's College of Education and Community Innovation that teacher candidates achieve the Advanced-Low level on the oral proficiency interview (OPI) in Spanish before student teaching. Students interested in teaching in immersion or dual language programs should plan to develop advanced high oral proficiency. Information sessions on the OPI and other requirements for certification are provided regularly, but students should work closely with an advisor in Spanish. Students are urged to meet with a Spanish advisor as early as possible in their program and strongly encouraged to study abroad for at least one semester. Credits for SPA 101, SPA 102, SPA 150, SPA 201, SPA 202, SPA 203, or SPA 204 will **not** be counted toward the major or minor.

## Movement Science

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/move-sci](http://gvsu.edu/move-sci)

### Mission

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Department of Movement Science is a multidisciplinary unit where faculty and students critically examine and apply scientific, clinical, educational, and cultural aspects of sport and movement to promote healthy living across the lifespan.

## **Vision**

The Department of Movement Science aspires to be a center of excellence in the diverse study of sport and human movement. Faculty will adopt innovative teaching techniques, actively collaborate in scholarship, foster critical thinking and support experiential learning. With a dynamic, student-centered focus on success; faculty and students will excel as leaders in their profession.

## **Values**

**Innovative and diverse methods of teaching:** We promote multiple forms of content delivery through varied and innovative teaching techniques.

**Collaborative scholarly and creative activity:** We recognize that scholarly creative work is a high impact activity for students, and value the interaction between faculty and students in pursuing this form of inquiry.

**Physical literacy:** We value the ability, confidence, and desire to be physically active for a lifetime.

**Diversity and cultural competency:** We value diversity and inclusiveness in teaching, scholarship and service.

**Inclusive living-learning communities:** We value the opportunity for students to live in a shared community that allows for greater faculty and peer interaction and increases opportunities for coordinated activities and resources in a socially and academically supportive residential living environment.

**Experiential learning:** We promote experiential learning within our curricula. Students learn to apply knowledge by being immersed within the professional environment.

## **Degrees Offered**

B.S. in exercise science, B.S. in health and physical education, and B.S. in sport management. The B.S. in health and physical education is required to seek Michigan K-12 teacher certification in both health and physical education.

The Department of Movement Science serves the diverse preprofessional needs of Grand Valley State University students who seek careers in exercise science (clinical and health fitness instruction), K-12 health and physical education teacher education, and sport management. The department also supports the FIT Program, (fitness, skill, and activity classes) for all Grand

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Valley State University students to gain the skill, confidence and desire to be physically active for a lifetime.

The major programs in the Department of Movement Science provide students with broad theoretical and conceptual foundations for professional preparation in exercise science, health and physical education teacher education, and sport management. The programs are designed to encourage the examination of philosophical, historical, psycho-social, scientific, ethical, and legal constructs of the professions. In addition, the programs provide opportunities for majors to complete appropriate fieldwork, clinical, and internship experiences to fulfill program requirements.

The majors in movement science are designed for the professional preparation in the areas of exercise science, health and physical education, and sport management. This professional preparation may lead to graduate study and/or the following career opportunities: physical education teacher, health education teacher, coaching, athletics programming, marketing and management, exercise scientist, fitness/wellness instructor, health/fitness club administrator, intramural director, recreation leader, athletic official, camp administration, exercise physiologist, cardiac rehabilitation specialist, strength and conditioning specialist, personal trainer, outdoor-adventure activities programming, aquatics instructor, and corporate fitness administration.

## **Sport Coaching Undergraduate Certificate**

The certificate in sport coaching provides prospective coaches with theoretical knowledge and practical experiences in accordance with the National Standards for Sport Coaches. The focused coursework stresses the importance of developing an athlete-centered coaching philosophy and a scientifically based understanding of current issues in sports medicine, motor learning, and coaching theory. Students completing the certificate in sport coaching will have a record of this accomplishment on their academic transcript.

### **Requirements**

The following courses are required:

MOV 201 - Psychosocial Aspects of Physical Education and Sport (3 credits)

ATH 217 - Modern Principles of Athletic Training (2 credits)

SPM 355 - Contemporary Concepts of Coaching (3 credits)

SPM 360 - Practicum in Sport Coaching (3 credits)

## **Multimedia Journalism**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For additional information about opportunities your college offers, please refer to the School of Communications website.

**Website:** [gvsu.edu/soc](http://gvsu.edu/soc)

The multimedia journalism program offers majors a broadly based education in which the study of journalism is grounded in the liberal arts. The emphasis on critical thinking and historical perspective embraces the fundamental principle that a free press and an informed citizenry are essential for the success of a representative democracy.

The program explores the complex changes in both traditional media and evolving Internet-based, multimedia delivery of news and information. It offers a range of instruction in journalism theory, practice, history, and criticism. Students are guided to develop a thorough background in multimedia reporting and production skills.

The multimedia journalism program prepares majors to enter the job market as professional journalists. It offers students the opportunity to develop gateway skills of reporting, writing and production in print, television, radio and online-based media. As news outlets become increasingly diversified, our graduates require a broad exposure in order to be competitive with the demands of a changing marketplace.

Students have the opportunity to develop depth through courses offered in related majors such as film/video production and photography. Multimedia journalism majors may also earn a minor in related fields such as advertising and public relations. In addition, majors are encouraged to develop depth outside of journalism in related fields including the arts, computer science, economics, political science, and sociology.

### **Internships**

Multimedia journalism majors are required to take one internship in a professional media setting and are encouraged to do additional internships as well. Most local media have a need for interns to help with a variety of formats including print, broadcast and online, such that students can find a variety of opportunities. Students may apply up to 15 internship credits toward graduation. Students are urged to work closely with departmental advisors to identify internships that best suit their interest and career ambitions.

## **Bachelor of Arts or Bachelor of Science in Multimedia Journalism**

### **School of Communications Core (9 credits)**

All students majoring in the School of Communications must complete the following core courses, for a total of nine credits:

COM 101 - Concepts of Communication (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

COM 295 - Communication Theory (3 credits)

Select one of two:

COM 201 - Speech (3 credits) **OR** COM 215 - Story Making (3 credits)

All students majoring in the multimedia Journalism must take COM 495 during their senior year. This Capstone course offers a synthesis of ideas and theories about one or more current critical issues in multimedia journalism.

### **B.A. and B.S. Degree Requirements**

All undergraduate programs in the School of Communications offer both the B.A. degree and the B.S. degree. All students selecting majors in the School of Communications must choose either the B.A. degree requirements or the B.S. degree requirements for a particular undergraduate program.

#### **B.A. Degree Requirements**

The B.A. degree requires a third-semester proficiency in a foreign language of the student's choice.

#### **B.S. Degree Requirements**

COM 275 - Foundations of Communication Research (3 credits)

COM 375 - Communication Research (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

### **Multimedia Journalism Requirements (31 to 33 credits)**

CMJ 184 - Introduction to Multimedia Production (3 credits)

CMJ 236 - News in Society (3 credits)

CMJ 256 - News Reporting (3 credits)

CMJ 260 - Multimedia Journalism Workshop (3 credits)

CMJ 284 - Broadcast News (3 credits)

CMJ 290 - Media History (3 credits)

CMJ 310 - Advanced Reporting Techniques (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CMJ 316 - News Design and Layout (3 credits)

CMJ 325 - Issues in Journalism (3 credits)

CMJ 490 - Internship (1 to 6 credits) (Internships may be taken for one to six credits at a time based on number of hours completed, and up to 15 credits of internship may be applied towards the 120 total credits needed for graduation.)

CMJ 495 - Multimedia Journalism Capstone (3 credits)

### **Electives (6 credits)**

Students choose six credits from any of the following courses. Note that departmental advising will play an important role, as many students are likely to take additional credits in pursuit of skills and interests in line with their specific professional goals.

### **Print and Web-based Journalism**

CMJ 364 - Feature Journalism (3 credits)

CMJ 365 - Advanced Editing (3 credits)

CMJ 366 - Arts and Entertainment Journalism (3 credits)

CMJ 384 - Producing for Broadcasting (3 credits)

CMJ 385 - Advanced Radio (3 credits)

CMJ 390 - Technical Writing (3 credits)

CMJ 481 - Investigative Reporting (3 credits)

CMJ 484 - TV News Workshop (3 credits)

COM 376 - Communications Policy and Law (3 credits)

PHO 272 - Digital Photography 1 (3 credits)

## **Music**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/music](http://gvsu.edu/music)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Department of Music, Theatre, and Dance offers curricula leading to the Bachelor of Arts in music, Bachelor of Music, Bachelor of Music Education, certificate in piano pedagogy, Bachelor of Arts in theatre, Bachelor of Science in theatre, and the Bachelor of Arts in dance. Minors in music, theatre and dance are also offered. These degree programs provide personalized attention, career-building opportunities, and professional and extensive training in the various idioms of music, theatre, and dance. In the context of a broad liberal education that fosters critical thinking, creative problem solving, and cultural understanding, these degree programs prepare students well to answer the call of rewarding careers in music, theatre, and dance.

Grand Valley State University is an accredited institutional member of the National Association of Schools of Music.

## **Admission**

In addition to formal admission to Grand Valley, each applicant wanting to major or minor in music is required to arrange for a personal audition with the music department. When considerable geographical distance or extreme hardship prevents a personal audition, the applicant may, with the permission of the department, submit an audio recording of an appropriate performance. Entering first-year and transfer students will be required to take a theory placement exam on audition day. A student with two or more years of piano experience will also be required to take a keyboard musicianship placement exam\*. Audition appointments should be made at least one month in advance. Recommended audition repertoire and an application can be found at [gvsu.edu/music](http://gvsu.edu/music).

\*Students transferring from GRCC with a completed associate degree in music will not need to complete the placement testing in theory or keyboard musicianship.

## **Requirements for Major and Minor Programs**

In addition to requirements outlined in the programs, all music majors must fulfill the department recital and Music Major Seminar attendance requirements, fulfill the keyboard musicianship requirements, and perform one or two faculty-approved recitals, as appropriate to the degree program selected. Music majors and minors should consult the music department student handbook for additional information and helpful suggestions.

Transfer students are required to complete a minimum of 30 hours at Grand Valley, which includes at least eight hours in applied music, three hours in major ensembles, and nine additional hours in music to be determined by the advisor. Any exceptions to these requirements are left to the discretion of the music department.

## **Bachelor of Arts in Music**

The Bachelor of Arts in Music degree provides a course of study for students interested in a liberal arts degree with a major in music. The B.A. degree requires third-semester proficiency (201) in a classical or modern language. This degree, with its foreign language component, offers an appropriate background for prospective advanced-degree candidates who are preparing for

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

careers in composition, technology, music history, music theory, jazz studies, library science, or independent studio teaching. It also works well for students who want to study music but are aiming at careers in other fields, and for students with double majors. There is sufficient flexibility within the B.A. to provide an opportunity for acquisition of those skills that are necessary in the current technological environment. The culmination event of the B.A. is a senior project planned and carried out with the help of a faculty advisor. Students electing a B.A. in music must complete a minimum of 40 credit hours in music, planned with the approval of a faculty advisor in the department.

**MUS Credit Requirement:** 40 to 41

## **Requirements for a Major in Music**

### **Major Ensembles (4 credits)**

Choose from the following. Each can be taken more than once for credit.

MUS 101 - University Singers (1 credit)

MUS 102 - Concert Band (1 credit)

MUS 103 - Grand Valley Symphony Orchestra (1 credit)

MUS 104 - Chamber Music Ensembles (0.5 credits)

MUS 105 - Grand Valley Jazz Ensemble (1 credit)

MUS 107 - Grand Valley Marching Band (1 credit)

MUS 108 - New Music Ensemble (1 credit)

MUS 109 - Anima Vocal Ensemble (1 credit)

MUS 110 - Early Music Ensemble (1 credit)

MUS 112 - Wind Symphony (1 credit)

MUS 117 - Grand Valley University Arts Chorale (1 credit)

MUS 118 - Varsity Glee Club (1 credit)

### **Applied Music (4 credits)**

MUS 141 - Private Instruction in Voice and Instruments - Freshman (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 142 - Private Instruction in Voice and Instruments - Freshman (1 credit)

MUS 241 - Private Instruction in Voice and Instruments - Sophomore (1 credit)

MUS 242 - Private Instruction in Voice and Instruments - Sophomore (1 credit)

**Music Theory (15 credits)**

MUS 130 - Music Theory I (3 credits)

MUS 131 - Music Theory II (3 credits)

MUS 230 - Music Theory III (3 credits)

MUS 231 - Music Theory IV (3 credits)

MUS 495 - Analytical Techniques (Capstone) (3 credits)

**Keyboard Musicianship (2 credits)**

MUS 263 - Keyboard Musicianship I (1 credit)

MUS 264 - Keyboard Musicianship II (1 credit)

**Aural Perception and Sight-Singing (2 credits)**

MUS 133 - Aural Perception and Sight-Singing I (1 credit)

MUS 134 - Aural Perception and Sight-Singing II (1 credit)

**Music Literature (6 credits)**

MUS 119 - Survey of Music Literature I (3 credits)

MUS 120 - Survey of Music Literature II (3 credits)

**Music Electives (6 credits)**

Choose from the following:

MUS 218 - World Music (3 credits)

MUS 219 - Jazz History (3 credits)

MUS 300 - From Rag to Rock - Exploring American Music (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 302 - Music: Medieval and Renaissance Eras (3 credits)

MUS 303 - Music: Baroque Era (3 credits)

MUS 304 - Music: Classical Era (3 credits)

MUS 305 - Music: 19th Century (3 credits)

MUS 306 - Music from 1900-1960 (3 credits)

MUS 307 - Music Since 1960 (3 credits)

MUS 308 - Music History Seminar (3 credits)

MUS 310 - Piano Literature (2 credits)

MUS 320 - Introduction to Conducting (2 credits)

MUS 330 - Instrumentation/Orchestration (3 credits)

MUS 333 - Form and Analysis in Western Music (3 credits)

MUS 380 - Special Topics in Music (1 to 4 credits)

### **Final Project**

MUS 479 - B.A. Senior Project (1 to 2 credits)

## **Suggested Order of Coursework for a Major in Music**

### **Year One**

#### **Fall Semester**

Major ensemble (1 credit)

MUS 130 - Music Theory I (3 credits)

MUS 133 - Aural Perception and Sight-Singing I (1 credit)

MUS 141 - Private Instruction in Voice and Instruments - Freshman (1 credit)

MUS 263 - Keyboard Musicianship I (1 credit)

#### **Winter Semester**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Major ensemble (1 credit)

MUS 131 - Music Theory II (3 credits)

MUS 134 - Aural Perception and Sight-Singing II (1 credit)

MUS 142 - Private Instruction in Voice and Instruments - Freshman (1 credit)

MUS 264 - Keyboard Musicianship II (1 credit)

## **Year Two**

### Fall Semester

Major ensemble (1 credit)

MUS 119 - Survey of Music Literature I (3 credits)

MUS 230 - Music Theory III (3 credits)

MUS 241 - Private Instruction in Voice and Instruments - Sophomore (1 credit)

Foreign Language 101 (4 credits)

### Winter Semester

Major ensemble (1 credit)

MUS 120 - Survey of Music Literature II (3 credits)

MUS 231 - Music Theory IV (3 credits)

MUS 242 - Private Instruction in Voice and Instruments - Sophomore (1 credit)

Foreign Language 102 (4 credits)

## **Year Three**

### Fall Semester

Foreign Language 201 (4 credits)

Music electives (3 credits)

### Winter Semester

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Music electives (3 credits)

## **Year Four**

Fall Semester

MUS 479 - B.A. Senior Project (1 to 2 credits)

Winter Semester

MUS 495 - Analytical Techniques (Capstone) (3 credits)

## **Bachelor of Music**

The Bachelor of Music (B.M.) is designed for students who demonstrate exceptional preparation for college-level applied music and for whom graduate school is a realistic goal. Instruction in guitar, organ, piano, voice, and band and orchestral instruments is offered.

All Bachelor of Music students will need to complete the core courses, as well as requirements specific to their emphasis. Students' emphases will be approved at the music department auditions.

**Bachelor of Music with Instrumental Emphasis:** 86 to 87 credits

**Bachelor of Music with Keyboard Emphasis:** 84 to 85 credits

**Bachelor of Music with Vocal Emphasis:** 88 to 89 credits

## **Requirements for a Major in Music**

### **Music Theory and Aural Perception**

Requires 21 to 22 credits, including:

MUS 130 - Music Theory I (3 credits)

MUS 131 - Music Theory II (3 credits)

MUS 133 - Aural Perception and Sight-Singing I (1 credit)

MUS 134 - Aural Perception and Sight-Singing II (1 credit)

MUS 230 - Music Theory III (3 credits)

MUS 231 - Music Theory IV (3 credits)

MUS 233 - Aural Perception and Sight-Singing III (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 234 - Aural Perception and Sight-Singing IV (1 credit)

MUS 495 - Analytical Techniques (Capstone) (3 credits)

**AND** one of the following courses:

MUS 330 - Instrumentation/Orchestration (3 credits)

MUS 333 - Form and Analysis in Western Music (3 credits)

### **Music Literature and History**

Requires 12 to 15 credits, including:

MUS 119 - Survey of Music Literature I (3 credits)

MUS 120 - Survey of Music Literature II (3 credits)

MUS 218 - World Music (3 credits)

**AND** two of the following. B.M. vocal emphasis students only take one course.

MUS 302 - Music: Medieval and Renaissance Eras (3 credits)

MUS 303 - Music: Baroque Era (3 credits)

MUS 304 - Music: Classical Era (3 credits)

MUS 305 - Music: 19th Century (3 credits)

MUS 306 - Music from 1900-1960 (3 credits)

MUS 307 - Music Since 1960 (3 credits)

MUS 308 - Music History Seminar (3 credits)

### **Conducting**

Requires two credits:

MUS 320 - Introduction to Conducting (2 credits)

### **Applied Music**

There are 24 credits required, including:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 144 - Private Instruction in Voice and Instruments - Freshman (3 credits)

MUS 145 - Private Instruction in Voice and Instruments - Freshman (3 credits)

MUS 244 - Private Instruction in Voice and Instruments - Sophomore (3 credits)

MUS 245 - Private Instruction in Voice and Instruments - Sophomore (3 credits)

MUS 344 - Private Instruction in Voice and Instruments - Junior (3 credits)

MUS 345 - Private Instruction in Voice and Instruments - Junior (3 credits)

MUS 444 - Private Instruction in Voice and Instruments - Senior (3 credits)

MUS 445 - Private Instruction in Voice and Instruments - Senior (3 credits)

### **Chamber Music**

There is one credit required.

MUS 104 - Chamber Music Ensembles (0.5 credits)

### **Elective Course**

For students who wish to continue lessons beyond the 445 level (not required):

MUS 446 - Private Instruction in Voice and Instruments - Elective (3 credits)

### **Instrumental Emphasis**

#### **Major Ensembles**

There are eight credits required. To be selected according to major instrument and may be repeated for credit.

MUS 101 - University Singers (1 credit)

MUS 102 - Concert Band (1 credit)

MUS 103 - Grand Valley Symphony Orchestra (1 credit)

MUS 107 - Grand Valley Marching Band (1 credit)

MUS 112 - Wind Symphony (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 117 - Grand Valley University Arts Chorale (1 credit)

### **Pedagogy and Literature**

There are four credits required.

MUS 360 - Performance Literature (2 credits)

MUS 370 - Performance Pedagogy (2 credits)

### **Keyboard Musicianship**

There are three credits required.

MUS 263 - Keyboard Musicianship I (1 credit)

MUS 264 - Keyboard Musicianship II (1 credit)

MUS 283 - Keyboard Musicianship III (1 credit)

### **Music Electives**

There are eight credits required. Select after consultation with an advisor.

### **Keyboard Emphasis**

### **Major Ensembles**

There are two credits required. All of the following may be repeated for credit.

MUS 101 - University Singers (1 credit)

MUS 102 - Concert Band (1 credit)

MUS 103 - Grand Valley Symphony Orchestra (1 credit)

MUS 107 - Grand Valley Marching Band (1 credit)

MUS 108 - New Music Ensemble (1 credit)

MUS 112 - Wind Symphony (1 credit)

MUS 117 - Grand Valley University Arts Chorale (1 credit)

### **Collaborative Piano**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

There are seven credits required. Seven semesters of MUS 126. MUS 126 counts as corequisite ensemble credit for applied lessons for B.M. keyboard emphasis majors.

MUS 126 - Collaborative Piano (1 credit)

### **Pedagogy and Literature**

There are eight credits required.

MUS 310 - Piano Literature (2 credits)

MUS 361 - Piano Pedagogy I (3 credits)

MUS 371 - Piano Pedagogy II (3 credits)

### **Music Electives**

There are four credits required. Select after consultation with an advisor.

### **Vocal Emphasis**

### **Major Ensembles**

There are eight credits required. To be selected according to major instrument. May be repeated for credit.

MUS 101 - University Singers (1 credit)

MUS 102 - Concert Band (1 credit)

MUS 103 - Grand Valley Symphony Orchestra (1 credit)

MUS 107 - Grand Valley Marching Band (1 credit)

MUS 112 - Wind Symphony (1 credit)

MUS 117 - Grand Valley University Arts Chorale (1 credit)

### **Pedagogy and Literature**

There are six credits required.

MUS 359 - Diction for Singers (2 credits)

MUS 360 - Performance Literature (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 370 - Performance Pedagogy (2 credits)

### **Keyboard Musicianship**

There are four credits required.

MUS 263 - Keyboard Musicianship I (1 credit)

MUS 264 - Keyboard Musicianship II (1 credit)

MUS 283 - Keyboard Musicianship III (1 credit)

MUS 284 - Keyboard Musicianship IV (1 credit)

### **Additional Requirements**

There are 10 credits required.

MUS 170 - Stage Movement (1 credit)

MUS 267 - Opera Workshop (1 credit)

Foreign language for voice majors; two courses in differing languages (8 credits)

## **Bachelor of Music Education**

Students will be required to select one of two emphases: Choral/vocal emphasis or instrumental emphasis. Students must earn a minimum of 77 hours in music and 39 hours in professional education.

Choral/vocal majors typically choose an applied emphasis in voice or keyboard. Instrumental majors typically choose a standard band or orchestra instrument as their applied emphasis.

**MUS Requirements:** 69 to 73 credits (three are general education)

**Certification Requirements:** 39 credits (three are general education)

### **Requirements**

#### **Music Theory and Aural Perception**

There are 19 credits required, including:

MUS 130 - Music Theory I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 131 - Music Theory II (3 credits)

MUS 133 - Aural Perception and Sight-Singing I (1 credit)

MUS 134 - Aural Perception and Sight-Singing II (1 credit)

MUS 230 - Music Theory III (3 credits)

MUS 231 - Music Theory IV (3 credits)

MUS 233 - Aural Perception and Sight-Singing III (1 credit)

MUS 234 - Aural Perception and Sight-Singing IV (1 credit)

**AND** one course from:

MUS 330 - Instrumentation/Orchestration (3 credits)

MUS 333 - Form and Analysis in Western Music (3 credits)

### **Music Literature and History**

There are 12 credits required (three are general education):

MUS 119 - Survey of Music Literature I (3 credits)

MUS 120 - Survey of Music Literature II (3 credits)

MUS 218 - World Music (3 credits)

**AND** one of the following (all count as SWS general education):

MUS 302 - Music: Medieval and Renaissance Eras (3 credits)

MUS 303 - Music: Baroque Era (3 credits)

MUS 304 - Music: Classical Era (3 credits)

MUS 305 - Music: 19th Century (3 credits)

MUS 306 - Music from 1900-1960 (3 credits)

MUS 307 - Music Since 1960 (3 credits)

MUS 308 - Music History Seminar (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Keyboard Musicianship**

There are three instrumental or four choral/vocal credits required. Piano majors are exempt from this requirement.

MUS 263 - Keyboard Musicianship I (1 credit)

MUS 264 - Keyboard Musicianship II (1 credit)

MUS 283 - Keyboard Musicianship III (1 credit)

MUS 284 - Keyboard Musicianship IV (1 credit) Choral/Vocal only.

MUS 285 - Advanced Keyboard Musicianship (1 credit)

## **Music Education (Professional) Courses**

There are 23 instrumental credits or 21 choral/vocal credits required, including:

MUS 200 - Introduction to Music Education (1 credit)

MUS 253 - Woodwind Techniques (2 credits)

MUS 255 - Brass Techniques (2 credits)

MUS 257 - Class Percussion (1 credit)

MUS 258 - String Techniques (2 credits)

MUS 320 - Introduction to Conducting (2 credits)

MUS 338 - Techniques of Jazz Instruction (1 credit)

MUS 354 - Teaching the Developing Voice (2 credits) Choral/vocal majors only.

MUS 362 - Marching Band Techniques (2 credits) Instrumental majors only.

MUS 370 - Performance Pedagogy (2 credits)

MUS 456 - Teaching Music in the Elementary School (2 credits)

MUS 461 - Instrumental Music Methods and Materials (2 credits)

MUS 465 - Choral/General Music in the Secondary School (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Ensembles**

There are seven to nine credits required.

## **Instrumental Music Majors**

May be repeated for credit.

Students taking applied lessons in wind, brass, or percussion must also complete two semesters of MUS 107 - Marching Band.

MUS 102 - Concert Band (1 credit)

MUS 103 - Grand Valley Symphony Orchestra (1 credit)

MUS 105 - Grand Valley Jazz Ensemble (1 credit) Only counts as major ensemble for one year.

MUS 112 - Wind Symphony (1 credit)

## **Choral/Vocal Majors**

May be repeated for credit.

MUS 101 - University Singers (1 credit)

MUS 117 - Grand Valley University Arts Chorale (1 credit)

MUS 118 - Varsity Glee Club (1 credit)

## **Applied Music, Instrumental and Choral/Vocal**

There are seven credits required, including:

MUS 141 - Private Instruction in Voice and Instruments - Freshman (1 credit)

MUS 142 - Private Instruction in Voice and Instruments - Freshman (1 credit)

MUS 241 - Private Instruction in Voice and Instruments - Sophomore (1 credit)

MUS 242 - Private Instruction in Voice and Instruments - Sophomore (1 credit)

MUS 341 - Private Instruction in Voice and Instruments - Junior (1 credit)

MUS 342 - Private Instruction in Voice and Instruments - Junior (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 441 - Private Instruction in Voice and Instruments - Senior (1 credit)

### **Certification Requirements**

There are 39 credits required (three are general education), including:

PSY 301 - Child Development (3 credits)

EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits)

EDF 315 - Diverse Perspectives on Education (3 credits)

EDT 370 - Technology in Education (3 credits)

EDI 310 - Building and Sustaining Positive Learning Environments (3 credits)

EDR 321 - Content Area Literacy (3 credits)

EDS 379 - Universal Design for Learning: Secondary (3 credits)

EDI 331 - Methods and Strategies of Secondary Teaching (5 credits)

EDI 431 - Student Teaching, Secondary (8 credits)

EDI 432 - Student Teaching, Secondary Content Practicum (2 credits)

EDF 485 - The Context of Educational Issues (3 credits)

### **Music Minor**

The music minor program is designed for students with previous training in music seeking nonmusic degrees who desire to increase their knowledge of music or further develop their skills in music.

### **Requirements for a Minor in Music**

#### **Music Theory and Aural Perception**

There are eight credits required:

MUS 130 - Music Theory I (3 credits)

MUS 131 - Music Theory II (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 133 - Aural Perception and Sight-Singing I (1 credit)

MUS 134 - Aural Perception and Sight-Singing II (1 credit)

### **Music Literature and History**

There are six credits required:

MUS 119 - Survey of Music Literature I (3 credits)

MUS 120 - Survey of Music Literature II (3 credits)

### **Keyboard Musicianship**

There are two credits required (piano minors are exempt from this requirement):

MUS 263 - Keyboard Musicianship I (1 credit)

MUS 264 - Keyboard Musicianship II (1 credit)

### **Major Ensembles**

There are four credits required (select according to major instrument):

MUS 101 - University Singers (1 credit)

MUS 102 - Concert Band (1 credit)

MUS 103 - Grand Valley Symphony Orchestra (1 credit)

MUS 107 - Grand Valley Marching Band (1 credit)

MUS 112 - Wind Symphony (1 credit)

MUS 117 - Grand Valley University Arts Chorale (1 credit)

### **Applied Music**

There are four credits required.

MUS 141 - Private Instruction in Voice and Instruments - Freshman (1 credit)

MUS 142 - Private Instruction in Voice and Instruments - Freshman (1 credit)

MUS 241 - Private Instruction in Voice and Instruments - Sophomore (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 242 - Private Instruction in Voice and Instruments - Sophomore (1 credit)

### **Music Elective**

There are three credits required (select from the following in consultation with your advisor):

MUS 218 - World Music (3 credits)

MUS 219 - Jazz History (3 credits)

MUS 300 - From Rag to Rock - Exploring American Music (3 credits)

MUS 341 - Private Instruction in Voice and Instruments - Junior (1 credit)

MUS 320 - Introduction to Conducting (2 credits)

## **Piano Pedagogy Undergraduate Certificate**

Piano pedagogy certification (in the Department of Music, Theatre, and Dance at Grand Valley State University) will enable undergraduate piano majors and area piano teachers to focus on the skills necessary for successful piano teaching. Music majors who are not piano majors who are interested in honing their skills in piano teaching may also work towards this certification. Students learn how to teach beginner, intermediate, and early-advanced students. They learn how to teach precollege students, as well as music majors who take keyboard as their secondary instrument. They learn how to teach correct technique, how to develop musicianship and good sight-reading skills, how to select and teach repertoire, how to practice efficiently, and how to motivate. Students learn about the most important competitions and festivals in the state as well as in the nation.

To gain entrance into the program, an interview and a performance of one memorized piano work with the piano pedagogy professor will take place.

This certification provides teachers with theoretical knowledge and practical experiences in accordance with state and national piano teaching guidelines.

The piano pedagogy coursework includes guided teaching experiences.

Students completing the piano pedagogy certification will have a record of this accomplishment appear on their academic transcript, and a certificate for their piano studio.

### **Piano Pedagogy Certification**

The piano pedagogy certification is 12 credits; seven credits in piano pedagogy, two credits in piano literature, and three elective credits:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MUS 310 - Piano Literature (2 credits)

MUS 361 - Piano Pedagogy I (3 credits)

MUS 371 - Piano Pedagogy II (3 credits)

MUS 379 - Piano Pedagogy Masterclass (1 credit) To be taken after MUS 361 and MUS 371.

### **Elective Courses**

Students may choose three credits from the following elective courses:

MUS 104 - Chamber Music Ensembles (0.5 credits)

MUS 126 - Collaborative Piano (1 credit)

MUS 141 - Private Instruction in Voice and Instruments - Freshman (1 credit) **AND** MUS 142  
- Private Instruction in Voice and Instruments - Freshman (1 credit)

MUS 144 - Private Instruction in Voice and Instruments - Freshman (3 credits) **AND** MUS 145  
- Private Instruction in Voice and Instruments - Freshman (3 credits)

MUS 180 - Special Topics in Music (1 credit)

Other courses of interest:

PSY 301 - Child Development (3 credits)

PSY 331 - Adolescent Development (3 credits)

## **Natural Resources Management**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/biology/nrm](http://gvsu.edu/biology/nrm)

### **Degree Offered**

Bachelor of Science in natural resources management

As more users place demands on scarce environmental resources, the need for conservation and sustainability of our renewable natural assets is greater than ever. Natural resources management (NRM) students gain applied skills and knowledge of environmental stewardship through hands-

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

on, experiential learning in indoor and outdoor field-based classes. NRM graduates are prepared to care for the land and water-based ecosystems of Michigan and beyond, and to serve the people whose well-being depends on these resources.

Ecology is the foundational science of the NRM program. Students learn to combine ecological knowledge with quantitative methods, economics, and policy, and address local and global natural resource-related situations. In the interdisciplinary NRM courses, students examine sources of conflict leading to environmental degradation and learn methods of sustainable resource management. Students have opportunities to develop expertise in ecosystem restoration, soil and water conservation, watershed management, recreation management, forest management, wildlife management, environmental economics and policy, conservation biology, fisheries, and applications in geographic information systems. NRM graduates pursue careers with conservation agencies and organizations including local, state, and federal government, education and advocacy organizations, environmental consulting firms, and nonprofit organizations.

### **Mission**

The natural resources management program provides a broad-based natural resources management education in a liberal arts curriculum and serves the public interest through the scientific analysis of natural resources.

### **Related Programs**

#### **Bachelor of Arts or Bachelor of Science in Biology**

As a science, biology offers the opportunity to study and experiment with animals, plants, fungi, and bacteria in the laboratory and in the field. The biology major is designed to help students gain a comprehensive understanding of the biological sciences, while also specializing in a degree emphasis related to career interests in areas such as veterinary and human medicine, aquatic sciences, wildlife ecology, population genetics, animal behavior, evolutionary biology, genetic counseling, plant biology, microbiology, and sustainable agriculture.

For more information, visit [gvsu.edu/biology](http://gvsu.edu/biology).

#### **Master of Science in Biology**

Grand Valley State University's Master of Science degree in biology is designed to allow students the opportunity to study at a graduate level in broad areas such as genetics and cell biology, organismal biology, aquatic and terrestrial ecology, and natural resources.

For more information, visit [gvsu.edu/grad/biology](http://gvsu.edu/grad/biology).

## **Bachelor of Science in Natural Resources Management**

### **Requirements for a Major in Natural Resources Management**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Completion of at least 36 NRM course credits, including:

NRM 150 - Introduction to Natural Resources (3 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

NRM 281 - Principles of Soil Science (4 credits)

NRM 451 - Natural Resource Policy (3 credits)

**BOTH** NRM 496 - Trends in Western U.S. Natural Resource Management (2 credits) **AND**  
NRM 497 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits)  
**OR ONLY** NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits)

Students must select additional NRM courses from each of the following competency areas:

### **Analytical**

Complete at least three credits from the following courses:

NRM 320 - Introduction to Resource Systems (3 credits)

NRM 395 - GIS Applications in Resource Management (3 credits)

### **Upper-level Resource Management**

Complete at least 10 credits from the following courses:

NRM 330 - Environmental Pollution (3 credits)

NRM 386 - Ecological Restoration and Management (4 credits)

NRM 408 - Wildlife Management (4 credits)

NRM 420 - Wildland Recreation Management (3 credits)

NRM 452 - Watershed and Wetland Management (4 credits)

NRM 462 - Forest Ecosystem Management (4 credits)

Complete remaining NRM elective courses to total at least 36 credits.

### **NRM Cognate Requirements**

Completion of at least 35-36 course credits:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

BIO 215 - Ecology (4 credits)

BIO 460 - Terrestrial Ecosystem Ecology (4 credits)

CHM 109 - Introductory Chemistry (4 credits) **OR** CHM 115 - Principles of Chemistry I (4 credits)

ECO 211 - Introductory Microeconomics (3 credits)

ECO 345 - Environmental and Resource Economics (3 credits)

MTH 122 - College Algebra (3 credits) **OR** MTH 123 - Trigonometry (3 credits) **OR** MTH 125 - Survey of Calculus (3 credits) **OR** MTH 201 - Calculus I (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Complete one of the following plant identification courses:

BIO 243 - Plant Identification and Natural History (3 credits)

BIO 323 - Aquatic and Wetland Plants (3 credits)

BIO 333 - Systematic Botany (4 credits)

BIO 413 - Freshwater Algae (3 credits)

### **Limits**

No more than three (3) credits of NRM 399 - Readings in Resource Management (1 to 3 credits) may be applied to the major.

No more than three (3) credits of NRM 499 - Research in Resource Management (1 to 3 credits) may count towards the major.

No more than five (5) credits of NRM 490 - Internship in Resource Management (1 to 5 credits) **PLUS** NRM 499 - Research in Resource Management (1 to 3 credits) may be applied to the major.

### **B.S. Degree Requirements**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The Bachelor of Science degree in natural resources management requires the following three courses:

STA 215 - Introductory Applied Statistics (3 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

**BOTH** NRM 496 - Trends in Western U.S. Natural Resource Management (2 credits) **AND**  
NRM 497 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits)  
**OR ONLY** NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits)

### **Minors and Certificates (optional)**

All NRM majors are encouraged to complete a minor or certificate that complements their coursework in the NRM major. Examples include the biology minor, environmental studies minor, or geographic information systems technology certificate. Students may also complete additional NRM courses as electives.

### **Associate Wildlife Biologist Certification**

Students who intend to pursue a career in wildlife biology and management are encouraged to complete the necessary coursework for certification by The Wildlife Society ([wildlife.org](http://wildlife.org)) as an associate wildlife biologist. This coursework will also prepare students for entry-level positions in wildlife biology/management or entry into graduate school.

The curriculum is designed to provide a skill set based on a broad scientific knowledge, understanding of natural resource management principles, and communication skills. This base along with the hands-on skills learned in classes prepares students for a successful career as wildlife professionals. A sampling of wildlife career options can be found at [wildlife.org](http://wildlife.org).

Wildlife Society certification is a professional track rather than an academic emphasis. For a recommended schedule of courses to complete the certification, please see a regular NRM faculty advisor.

### **Suggested Order of Coursework**

#### **Year One**

General education courses

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

CHM 109 - Introductory Chemistry (4 credits) **OR** CHM 115 - Principles of Chemistry I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

MTH 122 - College Algebra (3 credits) **OR** MTH 123 - Trigonometry (3 credits) **OR** MTH 125 - Survey of Calculus (3 credits) **OR** MTH 201 - Calculus I (4 credits)

NRM 150 - Introduction to Natural Resources (3 credits)

WRT 150 - Strategies in Writing (4 credits)

## **Year Two**

General education courses

NRM elective courses

NRM 250 - Resource Measurement and Maps (3 credits)

NRM 281 - Principles of Soil Science (4 credits)

BIO 215 - Ecology (4 credits)

ECO 211 - Introductory Microeconomics (3 credits)

NRM 320 - Introduction to Resource Systems (3 credits) **OR** NRM 395 - GIS Applications in Resource Management (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

## **Year Three**

General education courses

General elective courses

NRM upper-level management courses

NRM elective courses

ECO 345 - Environmental and Resource Economics (3 credits)

NRM 451 - Natural Resource Policy (3 credits)

## **Year Four**

General education courses

Elective courses

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NRM upper-level management courses

NRM elective courses

BIO 460 - Terrestrial Ecosystem Ecology (4 credits)

**EITHER** NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits) **OR BOTH**  
NRM 496 - Trends in Western U.S. Natural Resource Management (2 credits) **AND** NRM  
497 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits)

## Natural Resources Management Minor

### Requirements

Students who wish to minor in natural resources management must complete a minimum of 24 credit hours in the program, including:

NRM 150 - Introduction to Natural Resources (3 credits)

10 credit hours of 300- and 400-level courses

### Limits

NRM 399 - Readings in Resource Management (1 to 3 credits) does not count toward the minor.

No more than three credits of NRM 499 - Research in Resource Management (1 to 3 credits) may be applied toward the minor.

No more than three credits of NRM 490 - Internship in Resource Management (1 to 5 credits) **PLUS** NRM 499 - Research in Resource Management (1 to 3 credits) may be applied to the minor.

## Bachelor of Science in Nursing

For additional information about opportunities the college offers, please refer to the Kirkhof College of Nursing section in this catalog.

**Website:** [gvsu.edu/kcon](http://gvsu.edu/kcon)

The Kirkhof College of Nursing (KCON) undergraduate nursing program curricula provide educational experiences that encourage intellectual achievement, critical thinking, and self-expression while maintaining emphasis on the importance of human values and cultures. KCON faculty educate their students to become nurses who promote health and wellness, share

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

resources and knowledge in both conventional and alternative approaches to health care, promote social justice and stewardship, and diagnose and treat a wide range of human responses to actual and potential health problems while holding the highest regard for those in their care. Graduates of the KCON Bachelor of Science in Nursing (B.S.N.) degree program function as generalists and provide comprehensive care to individuals, families, groups, and communities.

The B.S.N. degree prepares the graduate to fulfill the professional nursing roles of provider of care, designer/manager/coordinator of care, and member of the profession. It also provides the foundation for continued education in advanced practice through graduate nursing studies.

The KCON B.S.N. graduate will be prepared to do the following:

Provide nursing care based on expanding clinical judgment within parameters of functional capacity of individuals, families, groups, and communities in multiple settings that incorporate knowledge from the liberal arts and knowledge unique to nursing.

Coordinate health care with individuals, families, groups and communities across the life span, using communication skills, in collaboration with members of the health care team.

Assume ethical, legal, and professional accountability for the development and practice of nursing in a changing health care environment.

The KCON undergraduate program provides learning experiences in a variety of settings that integrate liberal arts, humanities and sciences with nursing theory and clinical practice. Clinical sites can consist of a variety of hospital and health care agency settings in the community, with placement at varying times of the day or week. Students are prepared to provide nursing interventions at a beginning generalist level to individuals, families, groups, and communities.

Prior to beginning KCON clinical courses, students must complete comprehensive health compliance requirements including, but not limited to, a criminal background check, fingerprinting, and drug screening. Clinical sites can refuse to accept students who have not successfully completed all GVSU health requirements. It is the responsibility of the student to establish and maintain all compliance requirements. Please note: If there is illegal activity in the background check/fingerprinting or if there is evidence of one or more prohibited substance(s) in the drug test, the clinical sites have the right to refuse a student's placement, which may negatively impact a student's ability to progress in the B.S.N. program and subsequently graduate.

With regard to licensure:

All State Boards of Nursing review records of all pre-licensure B.S.N. graduates who have completed a nursing program to determine eligibility to take the National Council Licensure Examination-RN (NCLEX-RN). All State Boards of Nursing retain the right to deny a B.S.N. graduate permission to take the NCLEX-RN licensure examination if convicted of a crime.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Post-licensure B.S.N. students must be licensed as a registered nurse (RN) in their state of residency before beginning the applied learning experiences through clinical practicum in the senior nursing sequence. The student's RN licensure must remain unencumbered while enrolled in the RN to B.S.N. program.

Nursing majors must complete core courses in the humanities and the social, physical, natural, and health sciences. These core courses provide a strong scientific and humanistic foundation fundamental to subsequently required clinical nursing courses. Before graduation, students must also complete the general education requirements of the university. (See Degree Requirements Undergraduate in the General Academic Regulations section in the Grand Valley State University Undergraduate and Graduate Catalog.)

### **States/Jurisdictions Where KCON's Prelicensure B.S.N. Curriculum Meets State Educational Requirements for Professional Licensure:**

The prelicensure (traditional and second degree) nursing programs at Grand Valley State University's Kirkhof College of Nursing (KCON) position you to earn your Bachelor of Science in nursing degree and thereby gain eligibility to take the National Council Licensure Examination-Registered Nurse (NCLEX-RN) in the State of Michigan. Upon successfully passing the NCLEX-RN, the KCON nursing graduate achieves legal authority to practice under the protected title of registered nurse in the State of Michigan.

KCON B.S.N. prelicensure graduates seeking to practice as an RN in a state other than Michigan must meet the requirements of that state. GVSU/KCON has not made a determination on whether its curriculum meets the educational requirements of all states/jurisdictions. To view board of nursing professional licensure requirements by state of interest, visit the National Council of State Boards of Nursing at [ncsbn.org/14730.htm](http://ncsbn.org/14730.htm).

## **Bachelor of Science in Nursing - RN to B.S.N.**

The Kirkhof College of Nursing's RN to B.S.N. program is specifically designed for individuals currently working on or having completed academic preparation as an associate degree prepared nurse. Classes include content on research, evidence-based practice, safety and quality, professional identity, informatics, emergency preparedness, leadership, community and population health nursing.

For many associate degree prepared registered nurses, completing a B.S.N. degree affords additional career opportunities and a broader scope of practice. The RN to B.S.N. program is designed at a part-time pace and is currently being offered as a fully online program with applied learning experiences through clinical practicum in the senior year. Individualized program plans based on previously completed coursework are created for each applicant.

### **Admission**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

You must complete the RN to B.S.N. application to Grand Valley State University and seek admission as a degree-seeking student. Upon admission to GVSU, you must participate in Transfer Student Advising and Registration.

To be admitted to the RN to B.S.N. program, a prospective student must have earned an overall GPA of 3.0 or have earned a 3.0 GPA within their last 15 credits. In addition, a student must demonstrate completion of the required prerequisite courses with a minimum grade of C (2.0).

Prior to beginning the senior sequence, NUR 400-level applied learning experiences through clinical practicum, students must do the following:

Complete comprehensive health compliance requirements including, but not limited to, a criminal background check, fingerprinting, and drug screening. Clinical sites can refuse to accept students who have not successfully completed all GVSU health requirements. It is the responsibility of the student to establish and maintain all compliance requirements. Please note: If there is illegal activity in the background check/fingerprinting or if there is evidence of one or more prohibited substance(s) in the drug test, the clinical sites have the right to refuse a student's placement which may negatively impact a student's ability to progress in the B.S.N. program and subsequently graduate.

Be licensed as a registered nurse (RN) in their state of residency before beginning the applied learning experiences through clinical practicum in the senior nursing sequence. The student's RN licensure must remain unencumbered while enrolled in the RN to B.S.N. program.

## **Requirements for a Major in Nursing**

RN to B.S.N. students are required to

fulfill the university general education requirements;

complete a minimum of 120 semester hours of credit for graduation; and

earn 58 credits at a four-year institution with the last 30 uninterrupted credits earned at GVSU.

### **Prerequisite Courses:**

BMS 310 - Basic Pathophysiology (3 credits)

PSY 101 - Introductory Psychology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://www.gvsu.edu/catalog) for the most current catalog information.

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits) **OR BOTH** WRT 120 - Strategies in Writing - Stretch I (3 credits) **AND** WRT 130 - Strategies in Writing - Stretch II (3 credits)

### **Required Courses**

One nursing elective: NUR 344, NUR 354, or NUR 500

NUR 265 - Introduction to Nursing Research and Evidence-based Practice (3 credits)

NUR 311 - Dimensions of Nursing Practice (2 credits)

NUR 312 - Professional Nursing Issues (2 credits)

NUR 411 - Community-based Nursing Care (4 credits)

NUR 412 - Nursing Care for Populations (4 credits)

NUR 414 - Collaboration for Nurses (2 credits)

NUR 456 - Transformative Nursing Leadership (4 credits)

### **Suggested Order of Coursework**

#### **Junior Level**

These nursing courses can be taken in any order and include:

NUR 311 - Dimensions of Nursing Practice (2 credits)

Prerequisite or general education course (3 credits)

NUR 312 - Professional Nursing Issues (2 credits)

Prerequisite or general education course (3 credits)

NUR 265 - Introduction to Nursing Research and Evidence-based Practice (3 credits)

Issues/elective (3 credits)

#### **Senior Level**

These nursing courses are offered once a year in a specific sequence of three semesters and include:

NUR 411 - Community-based Nursing Care (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 412 - Nursing Care for Populations (4 credits)

NUR 414 - Collaboration for Nurses (2 credits)

NUR 456 - Transformative Nursing Leadership (4 credits)

To progress in the B.S.N. program, a minimum grade of C (2.0) is required in the prerequisite, required, corequisite, and all nursing courses.

A grade less than a C (2.0) is considered a failure in all required B.S.N. courses. Students who fail more than one required course will not be allowed to remain in the program. Withdrawal from a course when "not in good standing" will be considered a course failure regardless of when the withdrawal occurs.

## **Bachelor of Science in Nursing - Second Degree**

### **Admissions Requirements**

Apply to and earn admission to Grand Valley State University

Declare nursing as a major

Earn a minimum cumulative grade point average of 3.0 (including transfer credits)

Complete with a grade of C (2.0) or better all admission prerequisites coursework by time of application

Earn a minimum prerequisite grade point average of 3.0 (including transfer credits)

Adhere to the KCON course repeat policy which states that a student may repeat three admission prerequisite courses and two of those courses can be BMS, CHM, or BIO. No prerequisite course may be repeated more than once.

Admission to the program is highly competitive and a student may not be admitted if only meeting the minimum requirements. Additional information about the admissions process, including application deadlines, can be found on the KCON website at [gvsu.edu/kcon](http://gvsu.edu/kcon).

Prior to beginning KCON clinical courses, students must complete comprehensive health compliance requirements including, but not limited to, a criminal background check, fingerprinting, and drug screening. Clinical sites can refuse to accept students who have not successfully completed all GVSU health requirements. It is the responsibility of the student to establish and maintain all compliance requirements. Please note: If there is illegal activity in the background check/fingerprinting or if there is evidence of one or more prohibited substance(s) in the drug test, the clinical sites have the right to refuse a student's placement which may

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

negatively impact a student's ability to progress in the B.S.N. program and subsequently graduate.

In addition, all State Boards of Nursing review records of all graduates who have completed a nursing program to determine eligibility to take the National Council Licensure Examination-RN (NCLEX-RN). All State Boards of Nursing retain the right to deny a B.S.N. graduate permission to take the NCLEX-RN licensure examination if convicted of a crime.

All courses listed as follows must be completed by B.S.N. students with a minimum grade of C (2.0). In addition, continued progression through the nursing major requires a minimum grade of C (2.0) in corequisite and nursing courses. All required courses for the nursing major must be taken for graded credit, with the exception of some clinical nursing courses that are designated as credit/no-credit.

### **Prerequisite Admission Courses**

Admission prerequisite courses that must be completed before applying to the nursing program (21 credits).

BIO 355 - Human Genetics (3 credits) (Prerequisites for BIO 355 are BIO 120 or both CMB 155 and CMB 156)

BMS 212 - Introductory Microbiology (3 credits) (Prerequisites for BIO 212 are BIO 120 OR CHM 155 with CMB 156; AND CHM 230)

BMS 250 - Anatomy and Physiology I (4 credits) (Prerequisites for BIO 355 are BIO 120 or both CMB 155 and CMB 156)

BMS 251 - Anatomy and Physiology II (4 credits) (Prerequisite for BMS 251 is BMS 250)

CHM 230 - Introduction to Organic and Biochemistry (4 credits) (Prerequisite for CHM 230 is CHM 109)

PSY 364 - Life Span Developmental Psychology (3 credits) (Prerequisite for PSY 364 is PSY 101)

Courses to be completed prior to the start of the professional nursing program.

BMS 305 - Clinical Nutrition (3 credits)

BMS 310 - Basic Pathophysiology (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

### **Corequisite and Nursing Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 322 - Theoretical Foundations for Health Assessment and Promotion (3 credits)

NUR 323 - Clinical Application of Health Assessment and Promotion (4 credits)

NUR 324 - Introduction to Professional Nursing Theory (3 credits)

NUR 325 - Clinical Judgment in Health Assessment and Promotion (1 credit)

NUR 328 - Clinical Pharmacology for Nursing (3 credits)

NUR 332 - Adult Health Theory (6 credits)

NUR 333 - Adult Health Clinical (5 credits)

NUR 335 - Clinical Judgment in Adult Health (1 credit)

NUR 336 - Research and Evidence Based Nursing Practice (3 credits) **OR** NUR 338 - Critical Appraisal of Evidence Based Practice in Nursing (1 credit)

NUR 442 - Childbearing and Childrearing Theory (4 credits)

NUR 443 - Childbearing and Childrearing Clinical (3 credits)

NUR 445 - Clinical Judgment in Childbearing, Childrearing, Community Health and Mental Health (1 credit)

NUR 446 - Community Health and Mental Health Theory (4 credits)

NUR 447 - Community Health and Mental Health Clinical (2 credits)

NUR 472 - Transitions to Professional Nursing (3 credits)

NUR 473 - Clinical Immersion (4 credits)

NUR 475 - Clinical Judgment in Immersion (1 credit)

NUR 476 - Population Health theory (3 credits)

NUR 477 - Population Health Clinical (2 credits)

## **Suggested Order of Coursework**

### **Semester One**

There are 14 credits required, including:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 322 - Theoretical Foundations for Health Assessment and Promotion (3 credits)

NUR 323 - Clinical Application of Health Assessment and Promotion (4 credits)

NUR 324 - Introduction to Professional Nursing Theory (3 credits)

NUR 325 - Clinical Judgment in Health Assessment and Promotion (1 credit)

NUR 328 - Clinical Pharmacology for Nursing (3 credits)

### **Semester Two**

There are 13-15 credits required, including:

NUR 332 - Adult Health Theory (6 credits)

NUR 333 - Adult Health Clinical (5 credits)

NUR 335 - Clinical Judgment in Adult Health (1 credit)

NUR 336 - Research and Evidence Based Nursing Practice (3 credits) **OR** NUR 338 - Critical Appraisal of Evidence Based Practice in Nursing (1 credit)

### **Semester Three**

There are 14 credits required, including:

NUR 442 - Childbearing and Childrearing Theory (4 credits)

NUR 443 - Childbearing and Childrearing Clinical (3 credits)

NUR 445 - Clinical Judgment in Childbearing, Childrearing, Community Health and Mental Health (1 credit)

NUR 446 - Community Health and Mental Health Theory (4 credits)

NUR 447 - Community Health and Mental Health Clinical (2 credits)

### **Semester Four**

There are 13 credits required, including:

NUR 472 - Transitions to Professional Nursing (3 credits)

NUR 473 - Clinical Immersion (4 credits)

NUR 475 - Clinical Judgment in Immersion (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 476 - Population Health theory (3 credits)

NUR 477 - Population Health Clinical (2 credits)

To progress in the B.S.N. program, a minimum grade of C (2.0) is required in the prerequisite, required, corequisite, and all nursing courses.

A grade less than a C (2.0) is considered a failure in all required B.S.N. courses. Students who fail more than one required course will not be allowed to remain in the program. Withdrawal from a course when "not in good standing" will be considered a course failure regardless of when the withdrawal occurs.

**Minimum Number of Hours for Graduation:** Completion of 56 credits in the professional nursing curriculum is required for the Bachelor of Science in Nursing (B.S.N.) degree. 54 credits if approved to take NUR 338 instead of NUR 336.

## **Bachelor of Science in Nursing - Traditional**

Grand Valley's traditional Bachelor of Science in Nursing (B.S.N.) degree program focuses on evidence-based nursing practice. Students are prepared to provide nursing interventions for individuals, families, groups, and communities at a beginning, generalist level and will complete five semesters of clinical coursework.

### **Admission**

Earn a minimum cumulative grade point average of 3.0 (including transfer credits).

Demonstrate successful completion with a grade of C (2.0) or better of all prerequisite coursework.

Adhere to the KCON course repeat policy which states that a student may repeat three admission prerequisite courses and two of those courses can be BMS, CHM, or BIO. No required course may be repeated more than once.

KCON admits two cohorts into the traditional B.S.N. program on an annual basis; one cohort in the fall semester and one cohort in the winter semester. Admission to the program is highly competitive and a student may not be admitted if only meeting the minimum requirements. Additional information about the admissions process, including application deadlines, can be found on the KCON website at [gvsu.edu/kcon](http://gvsu.edu/kcon).

Prior to beginning KCON clinical courses, students must complete comprehensive health compliance requirements including, but not limited to, a criminal background check, fingerprinting, and drug screening. Clinical sites can refuse to accept students who have not successfully completed all GVSU health requirements. It is the responsibility of the student to establish and maintain all compliance requirements. Please note: If there is illegal activity in the

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

background check/fingerprinting or if there is evidence of one or more prohibited substance(s) in the drug test, the clinical sites have the right to refuse a student's placement which may negatively impact a student's ability to progress in the B.S.N. program and subsequently graduate.

In addition, all State Boards of Nursing review records of all graduates who have completed a nursing program to determine eligibility to take the National Council Licensure Examination-RN (NCLEX-RN). All State Boards of Nursing retain the right to deny a B.S.N. graduate permission to take the NCLEX-RN licensure examination if convicted of a crime.

All courses listed as follows must be completed with a minimum grade of C (2.0). Continued progression through the nursing major requires a minimum grade of C (2.0) in corequisite and nursing courses. All required courses for the nursing major must be taken for graded credit with the exception of some clinical nursing courses that are designated as credit/no-credit.

### **Admission Prerequisite Courses**

BIO 120 - General Biology I (4 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

CHM 109 - Introductory Chemistry (4 credits)

CHM 230 - Introduction to Organic and Biochemistry (4 credits)

PSY 101 - Introductory Psychology (3 credits)

WRT 150 - Strategies in Writing (4 credits) **OR BOTH** WRT 120 - Strategies in Writing - Stretch I (3 credits)

**AND** WRT 130 - Strategies in Writing - Stretch II (3 credits)

One general education course (3+ credits)

### **Additional Required Courses**

The following required courses must be completed with a grade of C (2.0) or better before the start of the nursing program.

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 251 - Anatomy and Physiology II (4 credits)

PSY 364 - Life Span Developmental Psychology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

STA 215 - Introductory Applied Statistics (3 credits)

### **Corequisite Courses**

The following corequisite courses are designed for the student to take at a time that complements the nursing clinical courses.

BIO 355 - Human Genetics (3 credits)

BMS 305 - Clinical Nutrition (3 credits)

BMS 310 - Basic Pathophysiology (3 credits)

### **Transfer Students**

A student planning to transfer to GVSU from another college or university should work closely with their local academic advisor. As a transfer student, be sure to carefully review your GVSU transcript evaluation upon admission to the university.

To be considered for the B.S.N. program, a student must first be admitted to GVSU and declare nursing as a major prior to application.

Eligible applicants must

- earn a minimum cumulative grade point average of 3.0 (including transfer credits);

- demonstrate successful completion (with a grade of C (2.0) or better) of all prerequisite coursework; and

- adhere to the KCON course repeat policy which states that a student may repeat three prerequisite courses and two of those courses can be BMS, CHM, or BIO. No required course may be repeated more than once.

KCON admits two cohorts into the traditional B.S.N. program on an annual basis; one cohort in the fall semester and one cohort in the winter semester. Admission to the program is highly competitive and a student may not be admitted if only meeting the minimum requirements. Additional information about the admissions process, including application deadlines, can be found on the KCON website at [gvsu.edu/kcon](http://gvsu.edu/kcon).

Prior to beginning KCON clinical courses, students must complete comprehensive health compliance requirements including, but not limited to, a criminal background check, fingerprinting, and drug screening. Clinical sites can refuse to accept students who have not successfully completed all GVSU health requirements. It is the responsibility of the student to establish and maintain all compliance requirements. Please note: If there is illegal activity in the background check/fingerprinting or if there is evidence of one or more prohibited substance(s) in the drug test, the clinical sites have the right to refuse a student's placement, which may

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

negatively impact a student's ability to progress in the B.S.N. program and subsequently graduate.

In addition, all State Boards of Nursing review records of all graduates who have completed a nursing program to determine eligibility to take the National Council Licensure Examination-RN (NCLEX-RN). All State Boards of Nursing retain the right to deny a B.S.N. graduate permission to take the NCLEX-RN licensure examination if convicted of a crime.

All courses listed as follows must be completed with a minimum grade of C (2.0). Continued progression through the nursing major requires a minimum grade of C (2.0) in corequisite and nursing courses. All required courses for the nursing major must be taken for graded credit with the exception of some clinical nursing courses that are designated as credit/no-credit.

## **Traditional B.S.N. Program: Suggested Order of Coursework for a Major in Nursing**

### **Semester One**

There are 14 credits required, including:

BIO 120 - General Biology I (4 credits)

CHM 109 - Introductory Chemistry (4 credits)

PSY 101 - Introductory Psychology (3 credits)

General education (3 credits)

### **Semester Two**

There are 15 credits required, including:

CHM 230 - Introduction to Organic and Biochemistry (4 credits)

WRT 150 - Strategies in Writing (4 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

General education course (3 credits)

### **Semester Three**

There are 17 credits required, including:

BMS 212 - Introductory Microbiology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 251 - Anatomy and Physiology II (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

PSY 364 - Life Span Developmental Psychology (3 credits)

General education course (3 credits)

#### **Semester Four**

There are 14 credits required, including:

NUR 266 - Professional Nursing I (4 credits)

NUR 267 - Clinical Nursing I (4 credits)

BMS 305 - Clinical Nutrition (3 credits)

BMS 310 - Basic Pathophysiology (3 credits)

#### **Semester Five**

There are 16 credits required, including:

NUR 265 - Introduction to Nursing Research and Evidence-based Practice (3 credits)

NUR 316 - Professional Nursing II (4 credits)

NUR 317 - Clinical Nursing II (6 credits)

NUR 328 - Clinical Pharmacology for Nursing (3 credits)

#### **Semester Six**

There are 16 credits required, including:

BIO 355 - Human Genetics (3 credits)

NUR 366 - Professional Nursing III (4 credits)

NUR 367 - Clinical Nursing III (6 credits)

General education course (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Semester Seven**

There are 15 credits required, including:

IPE 407 - Integrated Team Health Care (2 credits)

NUR 416 - Professional Nursing IV (4 credits)

NUR 417 - Clinical Nursing IV (6 credits)

General education course (3 credits)

## **Semester Eight**

There are 13 credits required, including:

NUR 467 - Professional Nursing V (10 credits)

General education course (3 credits)

**Total Credits: 120**

To progress in the B.S.N. program, a minimum grade of C (2.0) is required in the prerequisite, required, corequisite, and all nursing courses.

A grade less than a C (2.0) is considered a failure in all required B.S.N. courses. Students who fail more than one required course will not be allowed to remain in the program. Withdrawal from a course when "not in good standing" will be considered a course failure regardless of when the withdrawal occurs.

Total number of program credits may vary and could exceed 120 (based on general education course selections).

# **Doctor of Nursing Practice**

**Website:** [gvsu.edu/kcon](http://gvsu.edu/kcon)

The changing demands of this nation's complex health care environment require the highest level of scientific knowledge and practical experience to assure high-quality patient outcomes. The Kirkhof College of Nursing (KCON) offers programs of graduate study leading to a Doctor of Nursing Practice (D.N.P.) degree. The D.N.P. programs prepare nurse leaders who will contribute to the nursing profession and improve the health of society with an emphasis on advanced practice nursing (APN) clinical primary care or health systems leadership (HSL).

KCON D.N.P. graduates are prepared to

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

provide advanced and complex nursing care within their chosen area of specialization that is scientific- and evidence-based and incorporates the science of nursing and other disciplines to optimize the functioning of individuals, families, and communities;

use organizational and systems leadership, information technology, interprofessional collaboration, and policy advocacy to improve and transform health care; and

contribute to the practice of nursing through clinical scholarship for evidence-based practice and active leadership in local and national professional groups.

## **Admission**

The D.N.P. program is designed for nurses that hold either a B.S.N. or M.S.N. All applicants must have earned their degree from a program accredited by the Commission on Collegiate Nursing Education (CCNE) or Commission for Nursing Education Accreditation (CNEA). Applicants who have not completed a B.S.N. must do so before enrolling.

Complete the GVSU graduate application available at [gvsu.edu/kcon](http://gvsu.edu/kcon) specifying the D.N.P. option.

Select one of three program emphases: child/adolescent primary care nurse practitioner, adult/older adult primary care nurse practitioner, or health systems leadership.

Submit transcripts from all previous undergraduate and graduate coursework outside of GVSU.

Have a minimum cumulative GPA of 3.0 (on a 4.0 scale) for all undergraduate and graduate coursework.

Educational and professional goal statement. Statement must articulate how attaining a graduate nursing degree will facilitate goal achievement. Statement should be approximately two typed, double-spaced pages.

Submit a current curriculum vitae/resume.

Submit a scholarly writing exercise, using the guidelines in the online application.

Participate in a qualifying interview with KCON faculty.

International student applicants must meet TOEFL (Test of English as a Foreign Language), or IELTS (International English Language Testing System), MELAB (Michigan English Language Assessment Battery) or PTE (Pearson Test of English Academic).

Additionally, full admission is contingent on successful completion of the following:

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Current licensure to practice as a registered nurse in Michigan.

Criminal background check and drug screen.

Compliance with health record, immunization, and other KCON graduate program requirements.

New D.N.P. program cohorts begin each fall semester. The application and supplemental materials must be received by February first of the calendar year in which the student desires entry. Applications received after February first will be considered based upon program capacity.

### **Nurse Executive Certification**

Students completing the health systems leadership track will be qualified for and encouraged to sit for national certification as a nurse executive.

### **Advanced Practice Certification**

Post-B.S.N. students pursuing an advanced practice primary care emphasis must complete the didactic and clinical courses in a selected population (child/adolescent or adult/older adult) which will qualify them to sit for national primary care specialty certification (pediatrics or adult gerontology).

## **Doctor of Nursing Practice**

The post-B.S.N. D.N.P. curriculum for advanced practice consists of 77 credits completed over eight semesters. The post-B.S.N. D.N.P. curriculum for health systems leadership consists of 75 credits completed over eight semesters. Because program plans are individualized for post-B.S.N. and M.S.N. students, the number of credits and semesters needed to complete the D.N.P. program will vary depending on previous coursework and program emphasis. D.N.P. students must complete all coursework with a grade of B (3.0) or above.

All students must complete 1,035 clinical hours to ensure compliance with the minimum standards as required by the American Association for Colleges of Nursing and the licensing division of the State of Michigan. The current distribution of clinical hours are indicated after each applicable course in the course listing.

The D.N.P. courses will be offered primarily on the Health Campus. State-of-the-art facilities support the use of technology to enhance student learning. The D.N.P. courses are offered in a hybrid format consisting of online and classroom learning..

All courses listed below must be completed with a minimum grade of B (83 percent). An overall grade point of 3.0 must be achieved for graduation.

Students must complete comprehensive health compliance requirements including, but not limited to, a criminal background check, fingerprinting, and drug screening. Clinical sites can

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

refuse to accept students who have not successfully completed all GVSU health requirements. It is the responsibility of the student to establish and maintain all compliance requirements. Please note: If there is illegal activity in the background check/fingerprinting or if there is evidence of one or more prohibited substance(s) in the drug test, the clinical sites have the right to refuse a student's placement which may negatively impact a student's ability to progress in the program and subsequently graduate. Evidence of unencumbered RN licensure in the state of residency is required prior to admission, as well as during enrollment in KCON graduate clinical courses.

All courses listed below must be completed with a minimum grade of B (83 percent). An overall grade point of 3.0 must be achieved for graduation.

### **Core Courses - D.N.P., All Tracks**

- NUR 605 - Theoretical Perspectives in Nursing (3 credits)
- NUR 607 - Health Care System, Policy and Politics (3 credits)
- NUR 608 - Leadership Roles in Complex Systems (3 credits)
- NUR 625 - Health Issues in Vulnerable Populations (4 credits)
- NUR 690 - Introduction to Scientific Inquiry (3 credits)
- NUR 691 - Evidence-Based Practice in Nursing (3 credits)
- NUR 703 - Health Care Informatics (3 credits)
- NUR 704 - Quality Management in Healthcare (3 credits)
- NUR 792 - Scholarly Inquiry in Nursing Practice I (1 to 2 credits)
- NUR 793 - Scholarly Inquiry in Nursing Practice II (2 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

### **Core Courses - APN Track**

- NUR 610 - Advanced Assessment and Diagnostic Reasoning (4 credits)
- NUR 620 - Clinical Pharmacology (3 credits)
- NUR 621 - Clinical Pathophysiology (4 credits)
- NUR 710 - D.N.P. Clinical Immersion I: Nurse Practitioner (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 711 - DNP Clinical Immersion II: Nurse Practitioner (2 credits)

NUR 712 - DNP Clinical Immersion III: Nurse Practitioner (1 credit)

NUR 750 - Mental Health for Primary Care Practitioners (3 credits)

### **APN Track: Pediatric Primary Care**

Students also complete the D.N.P. and advanced practice core courses.

NUR 629 - Developmental Health: Child/Adolescent (3 credits)

NUR 751 - Primary Care Mental Health Practicum: Child/Adolescent (2 credits)

NUR 760 - Health Promotion and Risk Management: Child/Adolescent (2 credits)

NUR 761 - NP Practicum I: Health Promotion-Risk Management: Child/Adolescent (2 credits)

NUR 762 - Common Health Problems: Child/Adolescent (2 credits)

NUR 763 - NP Practicum II: Common Health Problems: Child/Adolescent (3 credits)

NUR 764 - Complex Health Problems: Child/Adolescent (2 credits)

NUR 765 - NP Practicum III: Complex Health Problems - Child/Adolescent (3 credits)

NUR 766 - Care Transitions/Interprofessional Practice: Child/Adolescent (3 credits)

NUR 767 - NP Practicum IV: Care Transitions/Interprofessional Practice: Child/Adolescent (3 credits)

### **APN Track: Adult/Older Adult Primary Care**

Students also complete the D.N.P. and advanced practice core courses.

NUR 630 - Developmental Health: Adult/Older Adult (3 credits)

NUR 752 - Primary Care Mental Health Practicum: Adult/Older Adult (2 credits)

NUR 770 - Health Promotion and Risk Management in the Adult and Older Adult (2 credits)

NUR 771 - NP Practicum I: Health Promotion-Risk Management: Adult/Older Adult (2 credits)

NUR 772 - Common Health Problems in Adults and Older Adults (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 773 - NP Practicum II: Common Health Problems: Adult/Older Adult (3 credits)

NUR 774 - Complex Health Problems in the Adult and Older Adult (2 credits)

NUR 775 - NP Practicum III: Complex Health Problems: Adult/Older Adult (3 credits)

NUR 776 - Care Transitions Interprofessional Practice: AOA (3 credits)

NUR 777 - NP Practicum IV: Care Transitions: Adult/Older Adult (3 credits)

### **Psychiatric/Mental Health**

Students also complete the D.N.P. core courses.

NUR 628 - Psychopharmacology for Advanced Practice (3 credits)

NUR 631 - Human Development Across the Lifespan (3 credits)

NUR 676 - Health Perspectives: Mental Health (3 credits)

NUR 677 - Mental Health Practicum: Diagnosis and Treatment of Individuals (3 credits)

NUR 678 - Mental Health Practicum: Group and Family Therapy (3 credits)

NUR 679 - Advanced Psychiatric Mental Health Nurse Practitioner Practicum (4 credits)

NUR 706 - Telehealth (3 credits)

NUR 753 - Primary Care for Mental Health Practitioners (4 credits)

### **Health Systems Leadership**

Students also complete the D.N.P. core courses.

NUR 646 - Theories of Health Systems Leadership Part I (4 credits)

NUR 650 - Business and Quality in Nursing (3 credits)

NUR 702 - Nursing Leadership and Health Services Research (3 credits)

NUR 740 - Health Systems Leadership: Practicum I (4 credits)

NUR 741 - Health Systems Leadership: Practicum II (5 credits)

NUR 742 - Health Systems Leadership: Practicum III (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 743 - Health Systems Leadership: Practicum IV (5 credits)

PNH 632 - Health Services Financial Management (3 credits)

Health system leadership students will also take a nine credit public administration cognate, where they will choose three courses from the following:

PNH 634 - Health Care Law and Ethics (3 credits)

PNH 635 - Hospital Organization and Management (3 credits)

PNH 636 - Health Care Quality Improvement (3 credits)

PNH 639 - Community Benefits Assessment and Management (3 credits)

PNH 643 - Strategic Management and Planning (3 credits)

## **Post-M.S.N. Health Systems Leadership Doctor of Nursing Practice**

Grand Valley State University's Doctor of Nursing Practice (D.N.P.) is offered through the university's Kirkhof College of Nursing and is designed for nurses seeking a terminal degree in nursing practice. It is the only program of its type in West Michigan.

The D.N.P. curriculum is consistent with the national agenda to transform American health care through interprofessional collaboration, health care policy advocacy, patient-centered care, quality/safety initiatives, and use of informatics. The program offers two emphasis areas: advanced nursing practice (child/adolescent or adult/older Adult) and health systems leadership.

**Website:** [gvsu.edu/grad/dnp](http://gvsu.edu/grad/dnp)

The post-M.S.N. health systems leadership (HSL) Doctor of Nursing Practice (D.N.P.) program is designed for nurses who have earned an M.S.N. degree. The D.N.P. degree builds on the foundational knowledge, skills, and competencies of the M.S.N.-prepared nurse. Students must complete the assigned coursework with a grade of B (3.0) or better. The post-M.S.N. Doctor of Nursing Practice courses are offered in a hybrid format that includes online coursework with two-five classroom learning sessions on campus/semester. Applied learning experiences through clinical practicum occur in the final year. The courses are offered primarily on the Health Campus. State-of-the-art facilities support the use of technology to enhance student learning.

**Mission:** The mission of the Kirkhof College of Nursing is to provide quality nursing education to a diverse population of students. Kirkhof College of Nursing strives to improve the well-being of people through leadership in nursing education, professional practice and scholarship.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**Accreditation:** The D.N.P. program is accredited through the Commission on Collegiate Nursing Education (CCNE), a national accreditation agency.

**Minimum number of hours for graduation:** The post-M.S.N. HSL D.N.P. program consists of 38 credits completed over five semesters. An additional 8 credits will be granted in recognition of clinical practicums/courses that were completed in the M.S.N. degree (360 clinical hours; 1 credit = 45 clinical hours), meeting the university requirement of 45 earned credits for a doctoral degree.

**Admission:**

Complete the GVSU graduate application available at [gvsu.edu/kcon](http://gvsu.edu/kcon) specifying the D.N.P. option.

Select the Post-MSN HSL program

Transcripts from all undergraduate and graduate programs that verify completion of baccalaureate and master's program(s) in nursing from CCNE- or NLN-accredited schools. GPA will be calculated using all college coursework. 3.0/4.0 is required.

Current curriculum vitae or resume.

Full admission is contingent on the following:

Current licensure to practice in Michigan

Successful completion of a required criminal background check and drug screen

Compliance with health record, immunization, and other KCON graduate program requirements.

Educational and professional goal statement. Statement must articulate how attaining a graduate nursing degree will facilitate goal achievement. Statement should be approximately two typed, double-spaced pages.

Scholarly writing sample on a specified topic using the guidelines in the online application. Applicants will submit this electronically through the application system.

Participate in a qualifying interview with KCON faculty.

Test scores from the TOEFL (Test of English as a Foreign Language), or IELTS (International English Language Testing System), or MELAB (Michigan English Language Assessment Battery) for applicants whose native language is not English. Only original score reports will be accepted.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**Program Location:** The D.N.P. degree program is offered at the Health Campus in Grand Rapids, Michigan.

### **Nurse Executive Certification**

Students completing the health systems leadership track will be qualified for and encouraged to sit for national certification as a nurse executive.

## **Requirements**

### **Graduate Nursing Core (19 credits)**

NUR 607 - Health Care System, Policy and Politics (3 credits)

NUR 625 - Health Issues in Vulnerable Populations (4 credits)

NUR 691 - Evidence-Based Practice in Nursing (3 credits)

NUR 703 - Health Care Informatics (3 credits)

NUR 704 - Quality Management in Healthcare (3 credits)

STA 610 - Applied Statistics for Health Professions (3 credits)

### **Leadership Core (19 credits)**

NUR 742 - Health Systems Leadership: Practicum III (5 credits)

NUR 743 - Health Systems Leadership: Practicum IV (5 credits)

NUR 792 - Scholarly Inquiry in Nursing Practice I (1 to 2 credits)

NUR 793 - Scholarly Inquiry in Nursing Practice II (2 credits)

PNH 632 - Health Services Financial Management (3 credits)

# **Master of Science in Nursing**

**Website:** [gvsu.edu/kcon](http://gvsu.edu/kcon)

Grand Valley State University's Master of Science in nursing (M.S.N.) is offered through the university's Kirkhof College of Nursing. The M.S.N. program prepares professional nurses to serve as leaders at the point of care. Students who complete the M.S.N. are prepared as advanced generalists for practice across the continuum of care within any health care setting.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The M.S.N. curriculum is designed to provide students with leadership, quality improvement, and clinical outcomes management skills, advanced clinical knowledge, and an understanding of health care systems. These skills are essential for the integration of evidence-based practice into interprofessional care. Students become immersed in methods to monitor and improve the quality of care, and successfully coordinate care delivery processes to improve client outcomes in a cost-effective, fiscally responsible manner. Graduates are eligible to take the Clinical Nurse Leader certification examination.

## **Accreditation**

The M.S.N. program is accredited through the Commission on Collegiate Nursing Education (CCNE), a national accreditation agency. Graduating from a nationally accredited program is required for students to sit for the Clinical Nurse Leader certification exam.

## **Admission**

Admission to the M.S.N program requires the following:

Complete the **GVSU graduate application** specifying the M.S.N. option.

**Transcripts** from all undergraduate and graduate programs that verify completion of baccalaureate in nursing from a CONE-, CCNE, or NLN-accredited school. GPA will be calculated using all college coursework. 3.0/4.0 is required.

**Current curriculum vitae or résumé.**

**Educational and professional goal statement.** Statement must articulate an area of focus (advanced generalist) and describe how attaining a graduate nursing degree will facilitate goal achievement. Statement should be approximately two typed, double-spaced pages.

**Submit a scholarly writing exercise** using the guidelines in the online application.

**Participate in a qualifying interview** with KCON faculty.

**Test scores from the TOEFL** (Test of English as a Foreign Language), IELTS (International English Language Testing System), PTE (Pearson Test of English Academic), or MELAB (Michigan English Language Assessment Battery) for applicants whose native language is not English. Only original score reports will be accepted.

Full admission is contingent on the following:

Current licensure to practice in Michigan.

Successful completion of a required criminal background check and drug screen

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Compliance with health record, immunization, and other KCON graduate program requirements.

Students must complete comprehensive health compliance requirements including, but not limited to, a criminal background check, fingerprinting, and drug screening. Clinical sites can refuse to accept students who have not successfully completed all GVSU health requirements. It is the responsibility of the student to establish and maintain all compliance requirements.

Please note: If there is illegal activity in the background check/fingerprinting or if there is evidence of one or more prohibited substance(s) in the drug test, the clinical sites have the right to refuse a student's placement which may negatively impact a student's ability to progress in the program and subsequently graduate. Evidence of unencumbered RN licensure in the state of residency is also required prior to beginning as well as during enrollment in KCON graduate clinical courses.

## **Master of Science in Nursing**

### **Requirements**

The M.S.N. curriculum for an advanced generalist consists of 37 credits completed over five semesters. Students must complete the assigned coursework with a grade of B (3.0) or higher. M.S.N. courses are offered primarily on the Health Campus. State-of-the-art facilities support the use of technology to enhance student learning. The M.S.N. courses are offered in a hybrid format consisting of online and classroom learning.

All students must complete 405 clinical hours to ensure compliance with the minimum standards as required by the American Associate of Colleges of Nursing and the licensing division of the State of Michigan.

All courses listed below must be completed with a minimum grade of B (83 percent). An overall grade point of 3.0 must be achieved for graduation.

### **Graduate Nursing Core**

There are nine credits required.

NUR 607 - Health Care System, Policy and Politics (3 credits)

NUR 608 - Leadership Roles in Complex Systems (3 credits)

STA 610 - Applied Statistics for Health Professions (3 credits)

### **Clinical Nursing Core**

There are 13 credits required.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 500 - Comprehensive Health Assessment for Nurses (3 credits)

NUR 620 - Clinical Pharmacology (3 credits)

NUR 621 - Clinical Pathophysiology (4 credits)

NUR 703 - Health Care Informatics (3 credits)

### **Advanced Generalist Core**

There are 15 credits required.

NUR 612 - Quality Improvement and Clinical Outcomes in Nursing (4 credits)

NUR 613 - Nursing Research and Evidence-Based Practice (3 credits)

NUR 615 - Advanced Generalist Clinical Practicum I (4 credits)

NUR 616 - Advanced Generalist Clinical Practicum II (4 credits)

## **Palliative and Hospice Care Graduate Certificate**

### **Requirements**

The certificate content will be delivered in a series of three courses and a directed elective.

#### **Required Courses (9 credits)**

NUR 581 - Chronic and Terminal Illness: The Palliative/Hospice Model (3 credits)

NUR 582 - Complex Pain and Symptom Management (3 credits)

SW 669 - Responses to Loss and Death (3 credits)

#### **Elective Course (3 credits)**

Choose one of the following:

NUR 607 - Health Care System, Policy and Politics (3 credits)

NUR 620 - Clinical Pharmacology (3 credits)

SW 671 - Social Work Practice in Health Care (3 credits)

PNH 634 - Health Care Law and Ethics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Psychiatric Mental Health Nurse Practitioner Graduate Certificate

## Requirements for Admission

Graduate of an accredited Advanced Practice Registered Nurse (APRN), M.S.N., or D.N.P. program

Currently certified as a CNS, NP, CNM or CRNA

Minimum of 3.0 or higher on a 4.0 scale

Curriculum vitae or resume

Licensed as an RN in the State of Michigan

Educational and professional goal statement

Interview with KCON faculty

Test scores on TOEFL, PTE, IELTS, or MELAB for applicants whose native language is not English.

Successful completion of background check and drug screen

Compliance with health records, immunizations, and other KCON graduate program requirements

## Certificate Requirements

The following prerequisite courses must be completed before beginning the program:

NUR 610 - Advanced Assessment and Diagnostic Reasoning (4 credits)

NUR 620 - Clinical Pharmacology (3 credits)

NUR 621 - Clinical Pathophysiology (4 credits)

The certificate content will be delivered in a series of six courses that can be completed in four semesters:

NUR 628 - Psychopharmacology for Advanced Practice (3 credits)

NUR 631 - Human Development Across the Lifespan (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 676 - Health Perspectives: Mental Health (3 credits)

NUR 677 - Mental Health Practicum: Diagnosis and Treatment of Individuals (3 credits)

NUR 678 - Mental Health Practicum: Group and Family Therapy (3 credits)

NUR 679 - Advanced Psychiatric Mental Health Nurse Practitioner Practicum (4 credits)

## **Psychiatric Mental Health Nurse Practitioner Graduate Certificate**

Students wishing to pursue the psychiatric mental health nurse practitioner certificate must submit an official GVSU graduate degree seeking application indicating the certificate as the intended area of study. This post graduate certificate is designed for Advanced Practice Registered Nurses (APRN) who have a master's degree in nursing or a Doctor of Nursing Practice degree and who wish to expand their practice to manage the care of people, across the lifespan, with disruptions in their mental health. The certificate program will focus on the main treatment methods for mental health care, including medication management and interpersonal interventions for individuals, groups, and families.

### **Program Content**

Courses will engage students using multiple teaching strategies including lecture, discussions, case studies, simulation, and practicum experiences. Physiological and psychological theories of mental health and disruptions in mental health will be incorporated as the basis for comprehensive care of this population. Graduates of this psychiatric mental health nurse practitioner certificate will be prepared to manage patients across the lifespan within the mental health system and/or within a primary care environment.

### **Program Objectives**

At the completion of the certificate, learners will be able to do the following:

Apply advanced theoretical knowledge for using psychopharmacology and evidence-based and effective treatment modalities for persons with mental health disorders.

Provide evidence-based treatment to individuals, families, and groups with mental health disorders using advanced communication skills.

Design and implement age appropriate mental health treatment for persons with mental health disorders across the lifespan.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Demonstrate the ability to implement the role of the advanced practice nurse through the use of at least two psychiatric/mental health treatment modalities (individual, family, and/or group treatment) to persons with mental health disorders.

Use evidence-based measurements to determine effectiveness and modifications needed for treatment of mental health disorders.

Collaborate effectively with inter-professional teams that provide treatment to persons with mental health disorders.

### **Audience**

The certificate is designed for APRNs with a master's or doctor of nursing practice degree. Admission to Grand Valley State University is required to complete the certificate.

## **Occupational Safety and Health Management**

For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing section in this catalog.

**Website:** [gvsu.edu/osh](http://gvsu.edu/osh)

### **Degree Offered**

Bachelor of Science in occupational safety and health management

The occupational safety and health management (OSHM) curriculum is designed to fulfill the undergraduate educational requirements of those wishing to enter the professional safety field. Considerable federal and state legislation enacted during the past half century has firmly established safety as a fundamental goal for improving the quality of work life in this country. Occupationally related injuries and illnesses are extensive and profoundly affect every element of our society. The demand for competent, fully qualified safety professionals to assume positions within government, industry, and community agencies is increasing.

Grand Valley's B.S. in OSHM is structured to provide students with the proper balance of safety management and scientific training required in the field. The program prepares graduates for careers in both the private and public sectors.

The B.S. in OSHM is a secondary admission program. Because many of the occupational safety and health courses serve students in other majors or minors (as elective credit) students wishing to take particular OSH courses should seek instructor approval. The following courses are not open to non-OSH majors: OSH 390, OSH 416, OSH 440, OSH 490, or OSH 495. A student who has declared an OSH major is assigned an academic advisor from the professional advising staff in student services for the first two years and then from the faculty of the OSH Department after secondary admission.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Program Educational Objectives**

Graduates of the occupational safety and health program are expected within a few years of graduation to:

- apply a broad educational background to effectively lead, influence, and achieve the OSH goals and objectives of their employers;
- effectively communicate and collaborate inside a diverse work environment;
- work in an ethical and professional manner; and
- engage in professional development to continue to grow throughout their careers.

## **Student Outcomes**

Graduates will have the ability to

- apply knowledge of mathematics, science, and occupational safety and health;
- design and conduct experiments/investigations, as well as to analyze and interpret data in the field of occupational safety and health;
- design a system, process, or program to meet occupational safety and health needs;
- function on multidisciplinary teams;
- identify and solve occupational safety and health problems;
- understand professional and ethical responsibility in occupational safety and health;
- communicate effectively in a professional environment;
- understand the impact of occupational safety and health solutions in a global and societal context;
- recognize the need for and an ability to engage in professional development in pursuit of life-long learning;
- demonstrate knowledge of the contemporary issues surrounding occupational safety and health; and
- use techniques, skills, and modern scientific and technical tools necessary for professional practice of occupational safety and health.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Grand Valley's OSHM degree program has a firm foundation of industrial support. Michigan and local industries are sought out to contribute to the development of the OSH curriculum by providing both financial support and opportunities for internships and other experiential learning opportunities for students. The OSH program is served by an Industrial Advisory Board composed of OSH professionals from various industries in the local community.

### **Accreditation**

The occupational safety and health management major is accredited under the General Criteria and Safety Criteria by the Applied and Natural Sciences Accreditation Commission of ABET, 415 N. Charles St., Baltimore, MD 21201. Telephone (410) 347-7700, [abet.org](http://abet.org).

### **OSH Certifications Available Upon Graduation**

The Board of Certified Safety Professionals has deemed the OSHM degree program a Qualified Academic Program. This allows OSHM program graduates to receive, upon application, the Graduate Safety Practitioner (GSP) designation. Graduates obtaining the GSP designation will be recognized for being in a path toward the Certified Safety Professional (CSP) certification, recognized for the level of preparation for professional safety practice, and be granted a waiver of the ASP examination requirements for CSP eligibility.

The Institute of Hazardous Materials Management has approved the OSHM degree program as a qualified program. Graduates of the OSHM program can receive, upon application, the Associate of Safety and Health Management designation. This designation will put students on a path to obtain the Certified Safety and Health Manager certification.

## **Bachelor of Science in Occupational Safety and Health Management**

### **Requirements for a Major in Occupational Safety and Health Management**

Students planning to major in occupational safety and health management (OSHM) must complete the following requirements:

#### **Degree Requirements**

The general university degree requirements must be met as identified in the General Academic Policies section of the Grand Valley State University Undergraduate and Graduate Catalog. Note that some of the OSHM fundamentals courses listed as follows meet these requirements.

#### **Fundamentals**

Admission to major standing in the OSHM program requires approval of a secondary application. Applicants must meet at least the following:

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

GPA of 2.3 or above in the following OSHM fundamentals courses

Completion of each course in the OSHM fundamentals with a grade of C (2.0) or above with not more than one repeat

The OSHM fundamentals courses, 33 to 38 credits, are as follows:

**EITHER** BIO 105 - Environmental Science (3 credits) **OR** BIO 104 - Biology for the 21st Century (4 credits) **OR** BIO 120 - General Biology I (4 credits) **OR BOTH** CMB 155 - Introduction to Cell and Molecular Biology (3 credits) **AND** CMB 156 - Discoveries in Cell and Molecular Biology: A Research-based Laboratory Course (1 credit)

BMS 202 - Anatomy and Physiology (4 credits) **OR** BMS 208 - Human Anatomy (3 credits)

CHM 109 - Introductory Chemistry (4 credits) **OR** CHM 115 - Principles of Chemistry I (4 credits)

CHM 230 - Introduction to Organic and Biochemistry (4 credits) **OR** CHM 232 - Biological Chemistry (4 credits)

MTH 122 - College Algebra (3 credits) **OR** MTH 125 - Survey of Calculus (3 credits) **OR** MTH 201 - Calculus I (4 credits)

OSH 300 - Introduction to Occupational Safety and Health (3 credits)

PHY 200 - Physics for the Life Sciences (4 credits) **OR** PHY 220 - General Physics I (5 credits) **OR** PHY 230 - Principles of Physics I (5 credits)

PSY 101 - Introductory Psychology (3 credits)

STA 215 - Introductory Applied Statistics (3 credits) **OR** STA 220 - Statistical Modeling for Engineers (2 credits)

**EITHER** WRT 150 - Strategies in Writing (4 credits) **OR BOTH** WRT 120 - Strategies in Writing - Stretch I (3 credits) **AND** WRT 130 - Strategies in Writing - Stretch II (3 credits)

### **Core Courses**

A minimum of 37 semester hours are required, including:

OSH 310 - Hazard Control (3 credits)

OSH 316 - Health and Safety Techniques (3 credits)

OSH 326 - Principles of Industrial Hygiene (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

OSH 330 - Principles of Loss Control (3 credits)

OSH 350 - Behavioral Aspects of Safety (3 credits)

OSH 390 - OSH Internship Preparation (1 credit)

OSH 400 - Critical Incident Analysis (3 credits)

OSH 410 - Ergonomic Safety Engineering (3 credits)

OSH 414 - Environmental Safety and Health Regulations (3 credits)

OSH 424 - Fire Science (3 credits)

OSH 440 - Safety and Health Program Development (3 credits)

OSH 490 - Internship in Occupational Safety and Health Management (3 to 6 credits)

OSH 495 - Safety and Health Administration (3 credits)

### **Elective Courses**

In addition to the preceding, students must take nine hours of electives from the list as follows:

OSH 360 - Motor Fleet Safety (3 credits)

OSH 370 - Product Safety and Liability (3 credits)

OSH 416 - Advanced Industrial Hygiene (3 credits)

OSH 420 - Health Care Facility Safety (3 credits)

OSH 430 - Construction Safety (3 credits)

OSH 460 - Environmental Compliance Applications (3 credits)

### **Suggested Order of Coursework**

This suggested order of coursework for students pursuing a major in OSHM assumes that students will complete the fundamentals and general education courses with the help of their advisor and apply for admission by February 1 of the winter semester of their sophomore year.

### **Year One**

General education Foundations courses (9 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Free elective

BIO 105 - Environmental Science (3 credits) **OR** BIO 120 - General Biology I (4 credits)

CHM 109 - Introductory Chemistry (4 credits)

PSY 101 - Introductory Psychology (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

## **Year Two**

General education Foundations courses (9 credits)

Free elective

BMS 202 - Anatomy and Physiology (4 credits) **OR** BMS 208 - Human Anatomy (3 credits)

CHM 230 - Introduction to Organic and Biochemistry (4 credits)

MTH 125 - Survey of Calculus (3 credits)

OSH 300 - Introduction to Occupational Safety and Health (3 credits)

PHY 200 - Physics for the Life Sciences (4 credits)

## **Year Three**

OSHM electives (6 credits)

General education Issues (6 credits)

OSH 310 - Hazard Control (3 credits)

OSH 316 - Health and Safety Techniques (3 credits)

OSH 326 - Principles of Industrial Hygiene (3 credits)

OSH 390 - OSH Internship Preparation (1 credit)

OSH 400 - Critical Incident Analysis (3 credits)

OSH 414 - Environmental Safety and Health Regulations (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

OSH 424 - Fire Science (3 credits)

Summer Between Third and Fourth Years:

OSH 490 - Internship in Occupational Safety and Health Management (3 to 6 credits)

## **Year Four**

OSHM elective (3 credits)

Free electives as needed to complete 120 total credits

OSH 330 - Principles of Loss Control (3 credits)

OSH 350 - Behavioral Aspects of Safety (3 credits)

OSH 410 - Ergonomic Safety Engineering (3 credits)

OSH 440 - Safety and Health Program Development (3 credits)

OSH 495 - Safety and Health Administration (3 credits)

# **Occupational Safety and Health Minor**

## **Requirements**

A minor in occupational safety and health consists of 21 credits chosen with the consent of the OSH advisor.

Notes:

Many of the occupational safety and health courses serve students in other majors or minors as elective credit. These students should seek instructor approval for registration in each OSH course.

The following courses are not open to non-OSH majors: OSH 390, OSH 416, OSH 440, OSH 490, or OSH 495.

# **Occupational Therapy**

For additional information about opportunities your college offers, please refer to the College of Health Professions section of this catalog.

**Website:** [gvsu.edu/ot](http://gvsu.edu/ot)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Degree Offered**

Master of Science (M.S.) in occupational therapy

## **Mission**

The mission of the GVSU Occupational Science and Therapy Department is to educate and empower students to have a positive impact on the health of individuals and groups in our society through innovation and leadership in occupation-based practice.

## **Occupational Science**

Occupational science is an interdisciplinary field in the social and behavioral sciences dedicated to the study of the daily activities (known as occupations) of human beings. The word "occupation" refers to the goal-directed activities that are part of daily human life as well as the habits and patterned routines of purposeful activity that occur over the lifespan. The study of occupations includes how these various purposeful and productive patterns, habits, and activities affect health and well-being.

Occupational science began as an effort by several scholars in different disciplines, in order to understand better how people used their time, and how they made decisions about time use. The field was named and given additional credibility in 1989 by Elizabeth Yerxa, a visionary leader of occupational therapy and her team of faculty at the University of Southern California (USC). The vision of Dr. Yerxa was that occupational science would be the unique scientific and research base for evidence-based practice in occupational therapy. USC offers the premier Doctor of Philosophy degree in occupational science.

Occupational science now includes many other university-based academic programs leading to undergraduate and graduate degrees in the field. The disciplines that incorporate occupational scientists include architecture, education, marketing, psychology, sociology, anthropology, economics, occupational therapy, leisure science, public health, and geography. There are several national, regional, and international societies dedicated to promoting the continued evolution of occupational science, and several academic journals devoted heavily to occupational science including the *Journal of Occupational Science*, *Occupational Therapy Journal of Research: Occupation, Participation and Health*, *The Journal of Leisure Research*, *Journal of Happiness Studies*, *Quality of Life Research*, *Applied Research in Quality of Life*, and numerous international journals of occupational science and therapy.

## **Occupational Therapy**

Learning, growing, playing, working, managing our homes, and caring for our families are among the occupations of life. Unfortunately, physical, emotional, or other challenges often prevent people from fully participating in the job of living. Diseases, injuries, or developmental problems can make it difficult for people to do everyday tasks or be active and independent.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Occupational therapy uses meaningful and purposeful activity as a therapeutic intervention to help an individual with injuries or disabilities to reach his/her highest level of independent functioning. These meaningful and purposeful activities are referred to as occupations. Occupations include work skills, play/leisure activities, rest, and self-care activities such as preparing a meal or taking a shower.

Occupational therapists provide clients with services ranging from prevention/wellness to full rehabilitation, directed toward achieving maximum functional independence in daily life occupations. Occupational therapy may include the use of devices such as, but not limited to, adaptive silverware, computer access enhancers, environmental modifications, and writing aids to assist individuals to achieve a desired level of independence in any given occupation.

Occupational therapists interact and practice in collaboration with a variety of health professionals. They also educate the public and advocate for the clients. Occupational therapy makes it possible for people to achieve full participation in life. By choosing a career in occupational therapy, you will make a difference, improving the lives of people, from newborns to the oldest adults.

### **Accreditation**

The occupational therapy (OT) traditional program and the OT hybrid program are accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. ACOTE's phone number is (301) 652-AOTA and its web address is [acoteonline.org](http://acoteonline.org). Graduates of the program will be able to sit for the national certification examination for the occupational therapist, administered by the certifying body, National Board for Certification in Occupational Therapy (NBCOT), 800 S. Frederick Ave., Ste. 200, Gaithersburg, MD 20877-4150. After successful completion of this exam, the individual will be an occupational therapist, registered (OTR). Most states require licensure in order to practice. However, state licenses are usually based on the results of the NBCOT Certification Examination.

## **Master of Science in Occupational Therapy**

For additional information about opportunities your college offers, please refer to the College of Health Professions section in this catalog.

**Website:** [gvsu.edu/ot](http://gvsu.edu/ot)

The occupational therapy (OT) traditional program is a two-year graduate curriculum leading to an entry-level Master of Science degree. The occupational therapy hybrid program is a three-year graduate curriculum that also leads to an entry-level Master of Science degree. Both programs contain the same content, but the traditional program is intended for those students who can take 15 to 16 credits per semester and is totally in-seat, while the hybrid program is intended for students who wish to maintain full-time employment throughout the curriculum and take a reduced credit load of seven to 11 credits per semester.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The occupational therapy graduate curriculum is built around the science of occupation as the core knowledge base, which is predicated upon the assumption that occupational therapists must operate from a common base of knowledge, skills, values, and philosophy. The curriculum is designed to produce professional practitioners and socially conscious citizens who appreciate the unique perspective of individuals and the cultures that influence them, value a democratic perspective of health care and social services delivery, and apply problem-solving, critical thinking, and lifelong learning toward meeting the needs of society.

Incoming first-year students interested in occupational therapy should begin by selecting an undergraduate major in their first year. Suggested majors include allied health sciences, biology, behavioral neuroscience, psychology, or sociology. Although these degrees provide a well-rounded background, any undergraduate major may be selected as long as the required occupational therapy prerequisite courses are completed along with the undergraduate degree before beginning the professional program. Once a selection of major has been made, students should work with the academic advisor from that department and with an occupational therapy program advisor to ensure that all major requirements are completed, along with the required prerequisite courses. All of these required prerequisite courses must be taken for a letter grade. Students may apply for admittance to the occupational therapy programs during the year in which they attain senior status. All students accepted into the occupational therapy programs must have a completed baccalaureate degree from an accredited institution of higher learning prior to the beginning of the master's program coursework.

Admission to the occupational therapy graduate programs is competitive. Maximum traditional class size is 40; the maximum class size for the hybrid program is 22. For the traditional program, the candidates are ranked on a total score basis and our top 40 candidates (minus early admits from GVSU, CMU, U of M, and Hope and deferrals) are sent a letter offering them seats in the program. Each alternate candidate is offered admission one-for-one in rank order if any of the original 40 candidates decline admission. For the hybrid program, candidates are also ranked on a total score basis and the top 22 candidates are sent a letter offering seats in the program. Each alternate candidate is offered admission one-for-one in rank order if any of the original 22 candidates decline admission.

Admission decisions will be made in the first and second semesters of the calendar year. Once enrolled in one of the occupational therapy programs, students will take professional courses in individual and group interventions, clinical reasoning, occupational therapy theory and practice, advanced professional issues, and research.

All courses taken with the occupational therapy program must be taken for an earned letter grade, excluding fieldwork and research courses, unless otherwise specified by the occupational therapy department chair. Degree requirements include a final research project or thesis, three level I fieldwork assignments (60 to 80 hours each), and two full-time level II fieldwork assignments (480 hours each). The level II fieldwork assignments may be local or they may be in other areas of the country. It is important to note that level II fieldwork assignments must be completed within 24 months of completion of the didactic curriculum. Part-time level II fieldwork assignments are available if circumstances warrant.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Candidate Information**

A new class enters each year in late August. The traditional program admits 40 students per year. The hybrid program admits 22 students per year. By the application deadline, all candidates must have completed at least nine credit hours of the prerequisite requirements (the elective and statistics course do not count toward this total) and at least 50 hours of volunteer experience with a licensed OTR.

The application deadline is January 15 of the year you intend to start the program. There are two phases to the admission process.

### **Phase One**

Includes a review of the following:

Prerequisite GPA

GPA in last 60 credit hours earned

Achievement Profile form: A minimum score of 8.0 is required

Two recommendation forms; one from a professor or employer if degree is already completed and one from an OT you have volunteered with.

Documentation of OT Experience form(s)

### **Phase Two**

Includes the following:

An individual interview with a faculty member.

A 90-minute writing exercise.

All eligible candidates will be invited to take part in the interview and writing exercise. Phase two is typically conducted between late February and mid-March; all candidates are notified of the admission decisions by late March or early April.

### **Degree**

Many students who are admitted to the program are psychology majors. However, we have students who have degrees in behavioral sciences, health sciences, sociology, social work, anthropology, recreational therapy, and kinesiology. These are all excellent degrees that provide a solid background for occupational therapy. As long as the prerequisite courses are completed, the undergraduate degree may be in any field. We have had students with business, art, and information technology degrees, to name a few others.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Prerequisites**

The Prerequisite GPA Calculation Form details the prerequisite course requirements for the program and allows you to document your progress.

If you have any questions regarding the prerequisites, you may contact the College of Health Professions (CHP) Student Services office at [gvsu.edu/chpss](http://gvsu.edu/chpss). The OT program Admissions Committee must approve any prerequisite not posted on [gvsu.edu/ot/guide-list.htm](http://gvsu.edu/ot/guide-list.htm) or [gvsu.edu/studentapps/mtn](http://gvsu.edu/studentapps/mtn). The OT program accepts prerequisite courses that have been taken at accredited community colleges and/or universities. All non-GVSU prerequisite courses not found in either of these guides should be first reviewed by a Student Services advisor; a member of the OT program Admissions Committee may be consulted to ensure the course meets admissions standards. It is better to ask questions and have the prerequisite course reviewed/approved prior to your enrollment in the course. This will avoid potential barriers in the admission process.

Some prerequisites might be available through Michigan Colleges Online at [micollegesonline.org](http://micollegesonline.org).

## **Course Equivalencies**

Courses that fulfill GVSU's OT prerequisites for all Michigan four-year colleges/universities are located on the OT webpage under Prospective Students.

Course equivalencies for all Michigan four-year colleges/universities and community colleges can be found on the GVSU Registrar's webpage at [gvsu.edu/registrar](http://gvsu.edu/registrar); or by visiting [gvsu.edu/studentapps/mtn](http://gvsu.edu/studentapps/mtn).

To navigate the equivalency guide, do the following:

Select a college or university from the drop-down menu and click the submit button.

Press "CTRL" + "F" on your keyboard to search for a specific course.

Once you find the course you are looking for, the GVSU course will appear in the right column and the course equivalent from the selected school will appear in the left column.

## **GPA Requirements**

At a minimum, each candidate must have at least a 3.0 GPA average in the last 60 hours of coursework completed prior to the application. Additionally, each candidate must have at least a 3.0 GPA average in the prerequisite coursework with no individual course grade below a C. If a student elects to repeat a course, the program will use the higher grade of the two courses in the prerequisite GPA calculation. The program does not consider courses that have been repeated

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

more than once. The OT program Admissions Committee will not review applications with GPA scores lower than 3.0 in either category.

### **Five-Year Prerequisite Requirement**

Note: All prerequisite coursework must have been completed within five years of the year of application.

### **Competitive GPA**

To be most competitive for admission, a candidate should have a prerequisite GPA in the 3.6 to 3.8 range and a last 60-hour GPA in the 3.6 to 3.8 range. It is very difficult to gain admission to the program with a last-60 hour GPA and prerequisite GPA of between 3.0 to 3.3.

Grades account for approximately 30 percent of the total consideration for admission to the program. The GVSU admissions process looks at multiple factors besides grades for admission.

### **Admission**

A candidate can only apply to one program, either the traditional or hybrid program, each year and must indicate either the traditional or hybrid program on the graduate application. Maximum class size for the traditional program is 40 and for the hybrid program is 22.

Admission to either program within the occupational science and therapy department first requires completion of the Grand Valley State University graduate application, regardless of previous college attended. Candidates must complete all prerequisite courses and earn a bachelor's degree prior to entering the program. There will be no waivers or exceptions to this policy.

Completed applications should be submitted by January 15 for both traditional and hybrid programs. All paper application forms and supplemental application materials should be mailed to the Admissions Office, 1 Campus Dr., Allendale, MI 49401. It is the candidate's responsibility to ensure that all application materials are received and processed by Admissions by the January 15 deadline.

International student applicants should be able to communicate effectively in English and submit the following materials:

Original or certified original transcripts

Written TOEFL score minimum of 550; Minimum IELTS score of 6.5

Official transcript credential evaluation (e.g., WES, ECE)

For further details, please read:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Candidate Information Sheet

GVSU Department of Occupational Science and Therapy technical standards to ensure they are capable of meeting the requirements of the program prior to applying

## Admissions Policy

## Application Process

The GVSU Admissions Office must receive the following documents via OTCAS for your application to be complete. Applicant must do the following:

Complete The Graduate School application online within OTCAS.

Submit official transcripts from all colleges and universities attended through the fall semester prior to January 15 deadline via OTCAS. Students are responsible for sending official transcripts at the end of each semester for proof of completion of prerequisites and if admitted to the program, to demonstrate progress toward or completion of a bachelor's degree.

Submit two recommenders within OTCAS; One must be from an OTR and one must be from a professor or an employer if your degree is already completed.

Complete the Prerequisite GPA Calculation form and upload into OTCAS.

At least nine credit hours of prerequisite coursework must be completed at the time of application. The elective and the statistics course are not included in this requirement. Each individual prerequisite course must be completed with a grade of C or better.

GPA scores for the prerequisite courses and for the last 60 hours must both be at or above 3.0.

A plan for completion of prerequisites that are not fulfilled at the time of application must also be included in the Prerequisite GPA Calculation form.

Complete the Achievement Profile Form detailing student accomplishments that reflect the core values of the program and upload into OTCAS.

Complete the Documentation of OT Experience Form detailing minimum of 50 hours of experience under the supervision of an occupational therapist and upload into OTCAS. All hours must be included. A minimum of 50 hours must be completed for an application to be considered complete. Volunteer hours accrued outside the United States may only account for a maximum of 25 of the required 50 hours.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

After the application deadline, the OT Admissions Committee will meet to review all completed applications. The top 60 for the traditional program and the top 40 for the hybrid program will be invited to the next step of the application process.

## **Next Step**

An interview and an onsite writing sample.

Candidates are ranked on a total score basis.

**Traditional Program:** The top 40 candidates (minus early admits from Grand Valley State University, Central Michigan University, University of Michigan, and Hope College) are sent a letter offering them seats in the program. Candidates are asked to provide a written reply within a two-week deadline. Remaining candidates are considered alternates for admission, ranked according to total score. Each alternate candidate is offered admission one-for-one in rank order if any of the original 40 candidates decline admission.

**Hybrid Program:** The top 22 candidates (minus early admits from Grand Valley State University, Central Michigan University, University of Michigan, and Hope College) are sent a letter offering them seats in the program. They are asked to provide a written reply within a two-week deadline. Remaining candidates are considered alternates for admission, ranked according to total score. Each alternate candidate is offered admission one-for-one in rank order if any of the original 22 candidates decline admission.

Candidates who are not selected are informed once each cohort is filled and are welcome to request a meeting with a member of the OT Admissions Committee to discuss their application. This advising session is recorded and placed in the candidate's program file for future reference.

Candidates who are not selected may reapply the following year.

## **Prerequisite Courses**

<b>Prerequisite Course Name</b>	<b>GVSU Course Equivalent</b>
Anatomy and Physiology Sequence A	BMS 208 <b>AND</b> BMS 290 <b>AND</b> BMS 309

Foundations of Behavioral Neuroscience PSY 330

Neuropsychology **OR** PSY 431

Neuroanatomy **OR** BMS 427

Intro to Statistics STA 215

One elective from psychology, sociology, anthropology, public health, or related field (200-level or higher).

## **Degree Requirements**

Completion of 81 to 82 credits in the professional curriculum is required for the master's degree in occupational therapy. General graduate academic policies can be found in the Grand Valley State University Undergraduate and Graduate Catalog. General university degree requirements are in the Academic Regulations section of the catalog and the requirements for undergraduate majors are in the Academic Programs section.

Because the occupational therapy program prepares students to practice in a variety of settings, the department assumes the responsibility to assure the public that our students have met high standards of professional behavior, academic achievement, and consistent evidence of response to consumer needs. Criminal background checks and drug screens may be required prior to participation in certain clinical experiences. The cost of this evaluation is the responsibility of the student.

The program requires that students attain a minimum of 84-percent competency in each course. This requirement is reflected in each course syllabus across the professional curriculum.

OST 502 - Theoretical Foundations in Occupational Therapy (3 credits)

OST 503 - Group Occupations in Practice (3 credits)

OST 505 - Limitations on Occupation (3 credits)

OST 551 - Conceptual Foundations of Occupational Therapy (3 credits)

OST 660 Prerequisites: OST 558, OST 559, OST 651, OST 652, OST 653, and either OST 693 or OST 695.

OST 661 Prerequisite: OST 660.

## **Combined Master of Science in Occupational Therapy and Post-Professional Doctorate in Occupational Therapy**

Qualified M.S. in OT students may be admitted to a combined master's/doctoral program in order to obtain both a master's in occupational therapy (M.S. in OT) and a postprofessional doctorate in occupational therapy (Dr.O.T.) within an accelerated time frame. Students admitted to the combined degree program will count up to nine credits of doctoral work taken during their M.S. in OT degree in partial satisfaction of the requirements for the M.S. in OT. After completing 82 credits (to include the nine credits of Dr.O.T. courses) and all requirements for the M.S. OT degree, students are awarded their master's degree and will be eligible to continue with the Dr.O.T. coursework.

The Dr.O.T. degree constitutes 36 credits; the M.S. in OT-Dr.O.T. combined degree has a minimum of 27 credits remaining for the doctoral degree after completion of the 82 credits required for the M.S. in OT degree. All M.S. in OT requirements must be met, including the research project and completion of Level II Fieldwork experiences. Upon completion of the M.S. in OT, graduates will be qualified to sit for the professional certification exam offered by the National Board for Certification in Occupational Therapy (NBCOT). The OST Department recommends students pursuing the combined M.S. in OT/Dr.O.T. degree to take and pass the NBCOT certification exam prior to the start of full-time Dr.O.T. coursework. The department requires that the certification exam be successfully completed prior to the end of the second Dr.O.T. semester. Any student who has not passed the certification exam after the second Dr.O.T. semester will be granted a one semester leave of absence in order to achieve this program criteria.

Graduate students enrolled in the occupational science and therapy Master of Science traditional and hybrid programs will be eligible to apply for conditional admission in the combined degree program after completion of the first semester of coursework in the Master's program. Conditional admission will require M.S. in OT students to submit a letter of interest and commitment. Students will be assigned a Dr.O.T. faculty advisor throughout the M.S. in OT program to complete the application process. Students will complete the remaining Dr.O.T. application steps in the final semester of the M.S. in OT program, which consists of the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

completion of GVSU's graduate application, summative course documentation for the combined degree courses, a critical evaluation of an occupational therapy article, submission of a personal statement that includes goals for program completion, as well as an interview with Dr.O.T. faculty. This will be a two-step process (conditional admission and final approval) that ensures students have ample time to explore professional interests and gain insight into research opportunities prior to finalizing the decision to apply to the Dr.O.T. program. In addition, students who did not choose to apply early in the program for conditional admission, may still apply later in the program as long as they complete the necessary admission requirements and faculty advising.

### **Application Requirements to the Combined Degree:**

Students may apply to the Dr.O.T. program as early as the completion of their first semester in the M.S. in OT program; students in both the traditional and hybrid cohorts are eligible to apply. In order to take full advantage of the combined degree option, interested students will need to apply for the combined degree program prior to registering for any of the three M.S.O.T. courses that will be replaced. Based on the current M.S. in OT course sequence, traditional students would apply before the spring/summer I semester; hybrid students would apply before the winter I semester. Students may apply after this time frame, but the combined degree would be granted with three to six M.S. in OT course credits being replaced with Dr.O.T. course credits.

Requirements for application include:

- Good standing in the M.S. in O.T. program, minimum GPA of a 3.25 in M.S. in O.T. courses

- Critical evaluation of an occupational therapy article

- Submission of a personal statement, including specific goals and timelines for completion

- Interview with OST faculty members

- Three letters of support from professional colleagues, supervisors, or faculty

- Professional resume

Requirements for combined degree program students:

- Attainment of NBCOT certification following completion of Level II Fieldwork

- Continuous employment as an occupational therapist throughout doctoral coursework

### **Graduation Requirements for Combined Degree:**

Students who are accepted to the combined degree program will take courses in the M.S.in OT and apply three Dr.O.T. courses as a substitution for related M.S.in OT content areas. The students will complete the following Dr.O.T. courses during the M.S.in OT coursework:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

OST 710 - Health Disparities and Social Determinants of Health (3 credits)

OST 715 - Critical Analysis of Occupational Science (3 credits)

OST 735 - Public Policy and Advocacy (3 credits)

The combined degree course sequence guides at the bottom of this document contain the plans for completion of the M.S.in OT courses and fieldwork experiences with the three listed Dr.O.T. courses taken in lieu of three M.S.O.T. courses. Combined degree course sequence guides for completion of the M.S.in OT. and Dr.O.T. degrees through both the traditional and hybrid M.S.in OT course delivery options are included.

Students will graduate with their M.S. degree in occupational therapy at the conclusion of Level II Fieldwork part one (OST 660) and part two (OST 661), provided they meet all university and degree requirements for the M.S.in OT degree.

### **Graduation without completion of the Doctoral Program:**

For those students who are accepted to the combined degree program but decide to pursue the master's degree only, the OST Department will accept the three completed Dr.O.T. courses (OST 710, OST 715, and OST 735) as meeting the program requirements for the master's degree. The students taking the Dr.O.T. courses in lieu of three M.S.in OT courses will meet, and exceed, the M.S.in OT student learning outcomes from OST 555 - Professional Socialization in Occupational Therapy, OST 660 - Level II Fieldwork (Part 1), and PNH 535 - Grant Writing.

Students who complete the M.S.in OT degree with the three Dr.O.T. courses but elect to matriculate into the Dr.O.T. program at a later date are required to reapply to the Dr.O.T. and fulfill its General Admission Requirements, but can utilize the nine credits of OST 710, OST 715 and OST 735 toward the degree. Per GVSU's Graduate School policy, in order to be awarded the Dr.O.T. degree and credential the remainder of the Dr.O.T. coursework would need to be completed within a period of eight years from the date of entry in the initial Dr.O.T. course.

### **Occupational Therapy Traditional Delivery Sequence of Courses**

#### **Fall I**

OST 502 - Theoretical Foundations in Occupational Therapy (3 credits)

OST 551 - Conceptual Foundations of Occupational Therapy (3 credits)

OST 660 - Level II Fieldwork (Part 1) (9 credits)

**Spring/Summer III\*\***

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

OST 661 - Level II Fieldwork (Part 2) (9 credits)

**TOTAL: 82 credits**

\*Part-time fieldwork; \*\*Full-time fieldwork

Upon completion of these 82 credits, students will be awarded their M.S.in OT degree, will take and pass their NBCOT certification exam, and begin Dr.O.T. coursework listed as follows.

**Core Courses (All Dr.O.T. students will take):**

**Policy, Advocacy, and Leadership Courses**

OST 710 - Health Disparities and Social Determinants of Health (3 credits)

OST 725 - Leadership for Occupational Therapy (3 credits)

OST 735 - Public Policy and Advocacy (3 credits)

**Education Courses**

OST 750 - Critical Thinking and Transformative Learning (3 credits)

OST 754 - Curriculum Design in Occupational Therapy (3 credits)

**Advanced Practice Courses**

OST 715 - Critical Analysis of Occupational Science (3 credits)

OST 720 - Cultural and Contextual Influences on Occupational Performance (3 credits)

**Doctoral Project:**

OST 730 - Applied Research Strategies for Practice (3 credits)

OST 790 - Doctoral Project Preparation (3 credits)

OST 793 - Doctoral Project Defense (1 to 6 credits)

**Additional Credits**

All Dr.O.T. students will complete ONE of the following:

OST 780 - Special Topics in Occupational Therapy (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

OST 799 - Independent Study in Occupational Therapy (1 to 3 credits)

Elective

Upon completion of these 27 credits, students will be awarded their Dr.O.T. degree.

## **Postprofessional Doctorate in Occupational Therapy**

This program will be available to only master's prepared occupational therapists.

Master prepared occupational therapists admitted to the program are required to complete 36 credits of doctoral level coursework. All doctoral courses will have an advanced-practice focus, that may include service learning, problem-based learning, and/or global learning, to demonstrate applicability to a broad clientele. Additionally, a Capstone project grounded in theory and evidence-producing research will be required. Students completing this program will have sufficient understanding of research to be intelligent consumers of research publications and be able to use research findings to support evidence-based practice.

### **Accreditation**

Higher Learning Commission, 230 South LaSalle St, Suite 7-500, Chicago, IL 60604.  
Phone: (800) 621-7440.

### **Admission**

The following is required for admission to the doctorate in occupational therapy program:

A minimum of two years of practice as a registered occupational therapist.

Cumulative GPA for last 60 credit hours of 3.25.

Critical evaluation of an occupational therapy article selected by the OST Department faculty.

Identification of specific, individual goals and timelines for seeking the Dr.O.T. degree, within a personal statement.

Personal interview with two members of the OST Department faculty.

Three letters of support from professional colleagues, supervisors, or department heads.

Note: Students must maintain at least part-time employment throughout their matriculation in the doctoral program. Exceptions to this requirement will be addressed by a faculty committee on a case-by-case basis.

### **Dr.O.T. Curriculum**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Core Courses**

Required of all Dr.O.T. students.

### **Policy, Advocacy, and Leadership Courses**

OST 710 - Health Disparities and Social Determinants of Health (3 credits)

OST 725 - Leadership for Occupational Therapy (3 credits)

OST 735 - Public Policy and Advocacy (3 credits)

### **Advanced Practice Courses**

OST 715 - Critical Analysis of Occupational Science (3 credits)

OST 720 - Cultural and Contextual Influences on Occupational Performance (3 credits)

### **Education Courses**

OST 750 - Critical Thinking and Transformative Learning (3 credits)

OST 754 - Curriculum Design in Occupational Therapy (3 credits)

### **Doctoral Project**

OST 730 - Applied Research Strategies for Practice (3 credits)

OST 790 - Doctoral Project Preparation (3 credits)

OST 793 - Doctoral Project Defense (1 to 6 credits)

### **Additional Credits**

All Dr.O.T. students will complete one of the following courses:

OST 780 - Special Topics in Occupational Therapy (1 to 3 credits)

OST 799 - Independent Study in Occupational Therapy (1 to 3 credits)

### **Potential Elective Courses within the OST Department**

OST 738 - Outcome Measures for Occupational Performance (3 credits)

OST 740 - Best Practice in School-Based Occupational Therapy (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

OST 744 - Advanced Occupational Therapy Practice: Birth to 3 years (3 credits)

OST 758 - Evaluation in Occupational Therapy Education (3 credits)

OST 760 - Introduction to Hand Rehabilitation (3 credits)

Notes:

All electives in the OST department will be offered as three credit courses.

Electives from outside the program will be approved by the Dr.O.T program coordinator.

Students may consider courses from: education, public health, assistive technology certificate program, or other master's level courses offered at GVSU.

## **Full-Time Course Sequence**

### **Semester One**

OST 715 - Critical Analysis of Occupational Science (3 credits)

OST 730 - Applied Research Strategies for Practice (3 credits)

OST 750 - Critical Thinking and Transformative Learning (3 credits)

### **Semester Two**

OST 720 - Cultural and Contextual Influences on Occupational Performance (3 credits)

OST 725 - Leadership for Occupational Therapy (3 credits)

OST 790 - Doctoral Project Preparation (3 credits)\*

### **Semester Three**

OST 710 - Health Disparities and Social Determinants of Health (3 credits)

OST 754 - Curriculum Design in Occupational Therapy (3 credits)

OST 793 - Doctoral Project Defense (1 to 6 credits)\*

OST 780 - Special Topics in Occupational Therapy (1 to 3 credits) **OR** OST 799 - Independent Study in Occupational Therapy (1 to 3 credits),  
**OR** elective from outside program

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

\*OST 793 - Doctoral Project Defense (1 to 6 credits)

\* Designates a hybrid course

## **Part-Time Course Sequence**

### Semester One

OST 715 - Critical Analysis of Occupational Science (3 credits)

OST 750 - Critical Thinking and Transformative Learning (3 credits)

### Semester Two

OST 720 - Cultural and Contextual Influences on Occupational Performance (3 credits)

OST 725 - Leadership for Occupational Therapy (3 credits)

### Semester Three

OST 710 - Health Disparities and Social Determinants of Health (3 credits)

OST 730 - Applied Research Strategies for Practice (3 credits)

### Semester Four

OST 735 - Public Policy and Advocacy (3 credits)

\*OST 790 - Doctoral Project Preparation (3 credits)

### Semester Five

OST 780 - Special Topics in Occupational Therapy (1 to 3 credits) **OR** OST 799 - Independent Study in Occupational Therapy (1 to 3 credits), **OR** elective

\*OST 793 - Doctoral Project Defense (1 to 6 credits)

### Semester Six

OST 754 - Curriculum Design in Occupational Therapy (3 credits)

\*OST 793 - Doctoral Project Defense (1 to 6 credits)

\* Designates a hybrid course

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Operations Management

## Bachelor of Business Administration in Operations Management

This major is designed to prepare a student in the technical and strategic aspects of producing goods and services. Operations management involves the application of managerial, quantitative, and computer skills to areas of lean, six-sigma, ERP, inventory management, forecasting and scheduling, with the goal of giving students the tools to effectively manage service and manufacturing operations. Practical analytical tools, along with SAP® (the enterprise resource planning (ERP) software) and other software packages, are integrated into the operations management courses. SAP®, ERP software, and other software packages, are integrated into the majority of the operations management courses.

### Requirements for the B.B.A.

#### Core Courses

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses:

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)

**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course, other than ECO 490 (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable:

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division Seidman College of Business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Elective Courses**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

### **Required Courses**

In addition to the business core, the following courses are required:

MGT 361 - Management Science (3 credits)

MGT 362 - Computers in Operations Management (3 credits)

MGT 367 - Manufacturing Planning and Control (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Choose one of the following quantitative courses:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

Choose two of the following courses:

MGT 363 - Managing Quality (3 credits)

MGT 364 - Service Operations Management (3 credits)

MGT 365 - Strategic Management of Operations (3 credits)

Choose two of the following courses:

MGT 337 - Supply Chain Management (3 credits)

MGT 466 - International Management and Multinational Corporations (3 credits)

MGT 467 - Advanced Topics in Operations and Supply Chain Management (3 credits)

MKT 457 - Logistics and Transportation (3 credits)

## Palliative and Hospice Care

Students wishing to pursue the interprofessional certificate in palliative and hospice care must submit an official GVSU application. The postbaccalaureate graduate palliative/hospice certificate is designed to explore the growing discipline of palliative and hospice care as a health specialty and compassionate care option for persons with terminal or life-limiting illness. The certificate is designed for interested individuals across health and related helping professions who seek to develop focal expertise in the field. This certificate program will review and critique the growing field of hospice and palliative care and explore the common human experience of death and terminal illness from a personal, professional, and societal empathetic perspective.

### Program Content

Courses will engage students using multiple teaching strategies, including discussion and debate, case studies, and simulation to expose learners to common challenges surrounding death, dying, and loss in America and other societies. Philosophies of palliative/hospice care and common dilemmas in terminal illness will serve as focal points for discussion. Coursework will consist of in-depth discussions in end-of-life care as well as factors that serve as facilitators or barriers to palliative and/or hospice care utilization.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Program Objectives**

At the completion of the certificate, learners will be able to do the following:

Contrast the interdisciplinary philosophy and delivery of palliative and hospice care with existing traditional medical models.

Delineate common types of pain and pain syndromes that contribute to symptom burden in individuals with life-limiting illness.

Develop strategies to alleviate the complex symptoms of individuals with chronic and terminal illness using a team approach.

Incorporate behaviors that acknowledge grieving and loss into routine care planning for individuals seeking palliative and hospice care.

Assimilate evidence-based strategies into effective provider communication that integrates patients and families as the unit of care.

Utilize an interdisciplinary framework to support and develop a plan of care for individuals who require palliative and/or hospice care.

## **Audience**

The certificate is designed for an interdisciplinary audience. It is directed toward postbaccalaureate graduates of nursing, social work, pharmacy, spiritual care, occupational and recreational therapy, and others; as well as the roles of physician, nurse practitioner, and physician assistant who wish to gain focused knowledge of the discipline. Admission to Grand Valley State University is required to complete the certificate.

## **Requirements for Admission**

Earned baccalaureate degree from an accredited, qualifying university.

Cumulative grade point of 3.0 or higher (on a 4.0 scale), or permission of instructor.

Submission of a curriculum vitae/resume.

Application for admission to GVSU.

## **Badge in Palliative/Hospice Care Complex Symptom Management**

Learners will be able to do the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Analyze the total symptom burden of persons requiring palliative and/or end-of-life (EOL) care in the United States across disciplines.

Compare and contrast the diagnosis and evidence-based strategies to assess and manage pain in persons requiring hospice and/or palliative care.

Formulate a comprehensive, interdisciplinary approach to physical and supportive care needs of persons with life-limiting illness.

Interpret common symptom clusters and therapeutic approaches to improve symptom burden and quality of life from an interdisciplinary perspective.

Appraise cultural influences on pain, symptom burden, and perceptions of life-limiting illness.

### **Requirements**

NUR 582 - Complex Pain and Symptom Management (3 credits) with a B or better

## **Badge in Palliative/Hospice Care Model**

Learners will be able to do the following:

Analyze evolving demographics and healthcare economics that require an improved understanding of healthcare services for individuals who require palliative and/or hospice care.

Apply evidence-based practice strategies and research findings to design and implement interdisciplinary care to individuals requiring palliative and/or hospice care.

Differentiate and apply legal and ethical principles in the analysis of complex issues in palliative and hospice care.

Analyze common barriers and facilitators of timely and effective palliative and/or hospice care.

Examine the history, trends, and the global state of palliative/hospice care with the goal of defining a discipline-specific philosophy for practice.

Create culturally sensitive interdisciplinary healthcare based on awareness of socio-cultural preferences.

### **Requirements**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NUR 581 - Chronic and Terminal Illness: The Palliative/Hospice Model (3 credits) with a B or better

# **Pedagogical Content Knowledge for Elementary Teaching Major (BA/BS)**

The pedagogical content knowledge for elementary teaching (PCKET) major is designed for students seeking certification at the elementary level. Major courses meet professional and content-specific standards established in the Michigan Department of Education Standards for the Preparation of Teachers of Lower and Upper Elementary Education. Students in the PCKET program can earn certification for teaching prekindergarten through grade three (PK-3) and/or grade three through grade six (3-6). Students in either the PK-3 or 3-6 program also have the option of adding courses that will earn them an endorsement in teaching English as a second language, elementary Spanish, or special education (K-12). Students in the 3-6 program also concentrate in one of four content areas: English language arts, mathematics, integrated science, or social studies.

Regardless of emphasis area, the PCKET major provides a solid foundation in subject-matter knowledge and pedagogical approaches across all content areas taught at the elementary level: English language arts, mathematics, science, social studies, fine arts, and health and physical education. Students complete several field experiences in classrooms, and learn to plan instruction and assessments for diverse populations.

## **Associated Programs**

### **Educational Studies Major**

In order to achieve elementary-level certification, all students (other than special education; see as follows) must also complete the educational studies major through the College of Education and Community Innovation. Together with the PCKET major, this major offers courses that meet Michigan Department of Education Standards for the Preparation of Teachers of Early and Upper Elementary Education.

### **Special Education Program**

Students seeking special education teaching certification complete the PCKET major as well as a second major in special education through the College of Education and Community Innovation . Successful completion of both the PCKET major and the special education major certifies the student to teach the special education endorsement areas in kindergarten through grade 12.

### **Spanish Elementary Education**

Students seeking an endorsement in Spanish elementary education complete the PCKET major for PK-3 and/or 3-6, the educational studies major, and the Spanish elementary minor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Completion of these programs certifies the student to teach Spanish and other content areas in a self-contained classroom in PK-3 and/or 3-6 (as either a specialist or in a Spanish immersion classroom).

### **Applied Linguistics-English as a Second Language (ESL)**

The ESL track of the applied linguistics minor is designed for students seeking PK-3 and/or 3-6 certification. Completion of the PCKET major, the educational studies major, and the ESL minor leads to teacher certification and an endorsement in ESL.

## **Bachelor of Arts or Bachelor of Science in Pedagogical Content Knowledge for Elementary Teaching Major**

Students in the pedagogical content knowledge for elementary teaching major (PCKET) at Grand Valley State University must follow all general education requirements as defined in the Grand Valley State University Undergraduate and Graduate Catalog. Students seeking a Bachelor of Science should follow the curriculum as proposed. Students desiring the Bachelor of Arts in either PK-3 or 3-6 must complete the following courses to satisfy program requirements:

### **B.A. Course Requirements**

Students seeking a Bachelor of Arts in the PCKET major will have additional requirements. B.A. students must demonstrate third-semester proficiency in a foreign language by successfully completing a 201-level language course, passing a proficiency exam in the language chosen, or through AP credit.

### **PCKET Major Requirements for PK-3 Certification (44 credits)**

Students who would like to become certified to teach PK-3 must choose one of the following emphasis areas:

#### **PCKET for PK-3 Emphasis**

This emphasis is for students who plan to earn certification for teaching general populations in PK-3 classrooms. Though not required, students also have the option of adding a content area concentration in English Language Arts, Mathematics, Integrated Science, or Social Studies by taking the concentration courses listed under the 3-6 emphasis areas.

#### **PCKET for PK-3 Emphasis with a specialized teaching endorsement**

This emphasis is for students who would like to be certified to teach PK-3 and endorsed to teach specialized populations or content at the elementary level. Students with this emphasis will combine the PCKET for PK-3 major emphasis with an ESL minor, Spanish minor, or special education major.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Required coursework for PK-3 is as follows. Note that PSY 101 (3) and MTH 126 (2) are prerequisite courses not included in the major's core courses listed as follows. MTH 126 (2) taken in combination with STA 126 (2) will fulfill the Mathematical Sciences general education requirement:

**Fine Arts (3 credits)**

MUS 128 - Strum and Drum for Everyone (3 credits) **OR** ART 231 - Integrating the Visual Arts Across Disciplines (3 credits)

**Health and Physical Education (3 credits)**

HPE 267 - Health and Movement Education for Elementary Teachers (3 credits)

**English as a Second Language (3 credits)**

ENG 355 - Teaching English Learners, PK-6 (3 credits)

**Mathematics (10 credits)**

MTH 226 - Mathematics for PK-6: Whole Numbers and Operations (3 credits)

MTH 326 - Math for PK-6: Fractions, Decimals, and Proportional Reasoning (3 credits)

MTH 328 - Early Childhood Mathematics (PK-3) (3 credits)

MTH 428 - Teaching Math in the Elementary Grades (1 credit)

**English Language Arts (9 credits)**

ENG 201 - Foundations of Literacy Instruction (3 credits)

ENG 301 - Reading and Writing in the Elementary Classroom (3 credits)

ENG 401 - Languages, Literacies, and Cultures (3 credits)

**Social Studies (6 credits)**

HST 209 - History and Social Studies for Elementary Teachers (3 credits)

SST 308 - Teaching Elementary Social Studies: Grades PK-3 (3 credits)

**Integrated Science (7 credits)**

SCI 225 - Integrated Life Science for PK-3 Teachers (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

SCI 226 - Integrated Physical Science for PK-3 Teachers (3 credits)

**Capstone (3 credits)**

PCK 495 - Integrated Discipline-Based Research in the PK-6 Classrooms (Capstone) (3 credits)

Students with a PK-3 emphasis can also choose an optional content area concentration by taking the concentration courses listed under the 3-6 emphases. In addition, students can combine PK-3 certification with 3-6 certification.

**PCKET Major Requirements for 3-6 Certification (56 credits)**

Students who would like to become certified to teach 3-6 must choose one of the following emphasis areas:

**PCKET for 3-6 with Math, English Language Arts, Integrated Science, or Social Studies concentration**

This emphasis is for students who would like to be certified to teach grades three through six. The PCKET major for 3-6 certification requires a content area concentration in one of the four core content areas. Required coursework, along with coursework for each of the four concentration areas, is listed below.

**PCKET for 3-6 with specialized teaching endorsement**

This emphasis is for students who would like to be certified to teach 3-6 and endorsed to teach specialized populations or content at the elementary level. Those who choose this emphasis will combine 3-6 coursework with an ESL minor, Spanish minor, or special education major. Because students in this emphasis are choosing a specialization area, they will not be required to choose a content area concentration.

Required coursework for 3-6 emphases is as follows. Note that PSY 101 (3) and MTH 126 (2) are prerequisite courses not included in the major's core courses listed as follows. MTH 126 (2) taken in combination with STA 126 (2) will fulfill the Mathematical Sciences general education requirement:\*

**Fine Arts (3 credits)**

MUS 128 - Strum and Drum for Everyone (3 credits) **OR** ART 231 - Integrating the Visual Arts Across Disciplines (3 credits)

**Health and Physical Education (3 credits)**

HPE 267 - Health and Movement Education for Elementary Teachers (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**English as a Second Language (3 credits)**

ENG 355 - Teaching English Learners, PK-6 (3 credits)

**Mathematics (10 credits)**

MTH 226 - Mathematics for PK-6: Whole Numbers and Operations (3 credits)

MTH 326 - Math for PK-6: Fractions, Decimals, and Proportional Reasoning (3 credits)

MTH 428 - Teaching Math in the Elementary Grades (1 credit)

**English Language Arts (9 credits)**

ENG 201 - Foundations of Literacy Instruction (3 credits)

ENG 301 - Reading and Writing in the Elementary Classroom (3 credits)

ENG 401 - Languages, Literacies, and Cultures (3 credits)

**Social Studies (6 credits)**

HST 209 - History and Social Studies for Elementary Teachers (3 credits)

SST 309 - Teaching Elementary Social Studies: Grades 3-6 (3 credits)

And one of the following+:

HST 205 - American History to 1877 (3 credits)

SST 308 - Teaching Elementary Social Studies: Grades PK-3 (3 credits)

SST 311 - Data Literacy for Social Studies Teachers (3 credits)

**Integrated Science (7 credits)**

SCI 225 - Integrated Life Science for PK-3 Teachers (4 credits)

SCI 226 - Integrated Physical Science for PK-3 Teachers (3 credits)

SCI 227 - Integrated Life and Earth Science for 3-6 Teachers (3 credits)

**Capstone (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PCK 495 - Integrated Discipline-Based Research in the PK-6 Classrooms (Capstone) (3 credits)

Concentration Area<sup>+</sup> (Students not seeking endorsement in special education, Spanish elementary education, or ESL must choose one of the following).

**Math Concentration (9 credits):**

MTH 322 - Geometry for Elementary Teachers (3 credits)

MTH 323 - Probability and Statistics for Elementary Teachers (3 credits)

MTH 324 - Algebra for Elementary Teachers (3 credits)

**English Language Arts Concentration (9 credits; cannot double-count courses):**

One of the following:

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

And one of the following:

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

ENG 304 - International Literature for Children and Young Adults (3 credits)

ENG 334 - American Multicultural Literature for Children and Young Adults (3 credits)

ENG-prefix Issues course (3 credits)

And one of the following:

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ENG-prefix Philosophy and Literature General Education (3 credits)

**Integrated Science Concentration (9 credits):**

BIO 205 - Genetics for PK-6 Teachers (3 credits)

CHM 201 - Introduction to Chemical Sciences (3 credits)

SCI 495 - Teaching Science in the 21st Century (3 credits)

**Social Studies Concentration (9 credits; cannot double-count courses already taken for core required coursework):**

At least one geography course:

GPY 220 - Cultural Geography (3 credits) **OR** GPY 235 - Geography for a Changing World (3 credits)

At least one history course, which must include:

HST 205 - American History to 1877 (3 credits)

And one of the following:

SST 308 - Teaching Elementary Social Studies: Grades PK-3 (3 credits)

SST 311 - Data Literacy for Social Studies Teachers (3 credits)

HST 301 - Colonial America (3 credits)

HST 302 - Revolutionary America (3 credits)

HST 312 - History of American Women (3 credits)

HST 314 - African American History (3 credits)

HST 315 - Latinos: The Forging of Ethnic Identities (3 credits)

HST 318 - History of Democracy in America (3 credits)

HST 320 - American Indians (3 credits)

HST 323 - Michigan History (3 credits)

HST 328 - U.S. Constitutional and Legal History (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PLS 102 - American Government and Politics (3 credits)

PLS 203 - State Politics (3 credits)

PLS 206 - American Constitutional Foundations (3 credits)

Students with a 3-6 emphasis also have the option of combining with a PK-3 emphasis. Courses under the 3-6 emphasis marked with a + are courses that are not in the PK-3 emphasis.

### **PCKET Major Requirements for Combined PK-3 and 3-6 Certification (59 credits)**

Students who would like to become certified to teach both PK-3 and 3-6 must choose both of the following emphasis areas:

#### **PCKET for PK-3 Emphasis**

This emphasis is for students who plan to earn certification for teaching general populations in PK-3 classrooms. Though not required, students also have the option of adding a content area concentration in English language arts, mathematics, integrated science, or social studies by taking the concentration courses listed under the 3-6 emphasis areas.

#### **PCKET for 3-6 with Math, English Language Arts, Integrated Science, or Social Studies Concentration**

This emphasis is for students who would like to be certified to teach grades three through six. The PCKET major for 3-6 certification requires a content area concentration in one of the four core content areas. Required coursework, along with coursework for each of the four concentration areas is listed as follows.

Required coursework for 3-6 emphases is as follows. Note that PSY 101 (3) and MTH 126 (2) are prerequisite courses not included in the major's core courses listed as follows. MTH 126 (2) taken in combination with STA 126 (2) will fulfill the Mathematical Sciences general education requirement:\*

#### **Fine Arts (3 credits)**

MUS 128 - Strum and Drum for Everyone (3 credits) **OR** ART 231 - Integrating the Visual Arts Across Disciplines (3 credits)

#### **Health and Physical Education (3 credits)**

HPE 267 - Health and Movement Education for Elementary Teachers (3 credits)

#### **English as a Second Language (3 credits)**

ENG 355 - Teaching English Learners, PK-6 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Mathematics (10 credits)**

MTH 226 - Mathematics for PK-6: Whole Numbers and Operations (3 credits)

MTH 326 - Math for PK-6: Fractions, Decimals, and Proportional Reasoning (3 credits)

MTH 328 - Early Childhood Mathematics (PK-3) (3 credits)

MTH 428 - Teaching Math in the Elementary Grades (1 credit)

**English Language Arts (9 credits)**

ENG 201 - Foundations of Literacy Instruction (3 credits)

ENG 301 - Reading and Writing in the Elementary Classroom (3 credits)

ENG 401 - Languages, Literacies, and Cultures (3 credits)

**Social Studies (6 credits)**

HST 209 - History and Social Studies for Elementary Teachers (3 credits)

SST 308 - Teaching Elementary Social Studies: Grades PK-3 (3 credits)

SST 309 - Teaching Elementary Social Studies: Grades 3-6 (3 credits)

**Integrated Science (7 credits)**

SCI 225 - Integrated Life Science for PK-3 Teachers (4 credits)

SCI 226 - Integrated Physical Science for PK-3 Teachers (3 credits)

SCI 227 - Integrated Life and Earth Science for 3-6 Teachers (3 credits)

**Capstone (3 credits)**

PCK 495 - Integrated Discipline-Based Research in the PK-6 Classrooms (Capstone) (3 credits)

**Concentration Area (Choose one of the following concentrations)****Math concentration (9 credits):**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 322 - Geometry for Elementary Teachers (3 credits) **AND** MTH 323 - Probability and Statistics for Elementary Teachers (3 credits) **AND** MTH 324 - Algebra for Elementary Teachers (3 credits)

**English Language Arts Concentration (9 credits; cannot double-count courses):**

One of the following:

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

And one of the following:

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

ENG 304 - International Literature for Children and Young Adults (3 credits)

ENG 334 - American Multicultural Literature for Children and Young Adults (3 credits)

ENG-prefix Issues course (3 credits)

And one of the following:

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

ENG-prefix Philosophy and Literature General Education (3 credits)

**Integrated Science Concentration (9 credits):**

BIO 205 - Genetics for PK-6 Teachers (3 credits)

CHM 201 - Introduction to Chemical Sciences (3 credits)

SCI 495 - Teaching Science in the 21st Century (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Social Studies Concentration (9 credits; cannot double-count courses already taken for core required coursework):**

At least one geography course:

GPY 220 - Cultural Geography (3 credits) **OR** GPY 235 - Geography for a Changing World (3 credits)

At least one history course, which must include:

HST 205 - American History to 1877 (3 credits)

And one of the following:

SST 311 - Data Literacy for Social Studies Teachers (3 credits)

HST 301 - Colonial America (3 credits)

HST 302 - Revolutionary America (3 credits)

HST 312 - History of American Women (3 credits)

HST 314 - African American History (3 credits)

HST 315 - Latinos: The Forging of Ethnic Identities (3 credits)

HST 318 - History of Democracy in America (3 credits)

HST 320 - American Indians (3 credits)

HST 323 - Michigan History (3 credits)

HST 328 - U.S. Constitutional and Legal History (3 credits)

PLS 102 - American Government and Politics (3 credits)

PLS 203 - State Politics (3 credits)

PLS 206 - American Constitutional Foundations (3 credits)

**Suggested Order of Coursework for Pre-K-3 Emphasis**

College of Education and Community Innovation courses included; 110 credits total.

**Year One**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Fall

EDF 115 - Introduction to Education: An Exploration of Schooling in America (3 credits)

MTH 126 - Mathematics for Elementary Teachers (2 credits)

PSY 101 - Introductory Psychology (3 credits)

WRT 150 - Strategies in Writing (4 credits)

## **Philosophy**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

Philosophy is an activity, a practice, and a way of life that is intimately associated with the ideals of liberal education. Philosophy is also a discipline and a subject matter, one that arises from the history of its primary activity of asking and answering questions about reality, meaning, and value. Through both the activity and the discipline aspects, the study of philosophy contributes to the development of the whole person. Philosophy cuts across other disciplines by uncovering the basic assumptions of our various ways of understanding reality, making it possible for us to be alert and responsive at this level. This same inherently interdisciplinary quality also makes it possible for us to achieve a conception of the world as a whole, which supports an informed scale of value. The ongoing study of philosophy is not only informative, but transformative, enabling us to live an examined life and to grow toward the way of being that the liberally educated person and the philosopher exemplify.

**Website:** [gvsu.edu/philosophy](http://gvsu.edu/philosophy)

### **Philosophy Minors**

Students seeking a minor in philosophy are invited to work out an appropriate program with any member of the department. The program must include a minimum of 18 hours of philosophy, at least six hours of which must be upper-division (300- or 400-level), and at least one course must be chosen from PHI 400, PHI 420, PHI 430, PHI 440, PHI 450, PHI 460, or PHI 470.

The Department of Philosophy also offers the following interdisciplinary minors: STEM ethics, health care ethics, and ethics, culture, and society.

### **Graduate and Professional School Opportunities**

Any graduate, professional, or career program depending on a liberal arts curriculum will welcome work done in philosophy. Schools of law, theology, and religious studies are particularly enthusiastic about philosophy as an undergraduate major. Students interested in attending law school should contact Professor John Uglietta, the department's prelaw advisor.

### **Participating Programs**

#### **Special Programs**

Study abroad programs directed by philosophy faculty are especially beneficial for philosophy students. The GVSU Summer School in China represents a rare opportunity to study many aspects of Chinese culture, including Buddhist, Daoist, and Confucian philosophy, in China.

The undergraduate teaching apprentice program is directed toward philosophy majors planning to attend graduate school, and is designed to provide an opportunity for selected students to apprentice in teaching philosophy. For such students, experience in this aspect of the practice of philosophy is an important complement to the undergraduate major.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# **Bachelor of Arts in Philosophy**

## **Requirements for a Major in Philosophy**

In an era when many majors are inflated because of the influence of careerism, specialization, and external accrediting agencies, the credit-hour requirements for the philosophy major remain modest at only 30. This is because we take seriously the value of electives in the student's college program, the value of exploring and discovering one's real interests. The number of required hours in philosophy is also modest because we wish to encourage students to discover the importance of relating philosophy to other fields through double majors, minors, and clusters of elective courses indicating developed proficiencies.

The previous information emphasizes the importance of the advising relationship. In order to facilitate this relationship, the philosophy major requires a study plan through which the student's work can be consciously developed and articulated. A first draft of the study plan must be completed with the advisor by the beginning of the junior year, revised each successive semester, and completed in the Capstone course.

## **Degree Requirements**

The philosophy B.A. requires third-semester proficiency in a foreign language (201). We strongly encourage completing the fourth semester of the language (202) as well.

## **Major Course Requirements**

Students majoring in philosophy must complete a minimum of 30 hours in the department.

The following course is required for all philosophy majors:

PHI 103 - Logic (3 credits)

Choose four of the following courses:

PHI 311 - Origins of Western Thought: Ancient Philosophy (3 credits)

PHI 312 - Divine Revelation meets Greek Rationality: Medieval Philosophy (3 credits)

PHI 313 - Reason, Experience, Morality at the Dawn of Modernity: Early Modern Philosophy (3 credits)

PHI 314 - Capitalism, Secularism, Nationalism: 19th Century Philosophy (3 credits)

PHI 315 - Philosophy Now: Contemporary Great Philosophers (3 credits)

Choose one of the following courses:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PHI 210 - Eastern Philosophy (3 credits)

PHI 240 - Middle Eastern Philosophy (3 credits)

PHI 400 - Wisdom of the East: Advanced Topics in Asian Philosophy (3 credits)

The following Capstone course is required for all philosophy majors:

- PHI 495 - Reality, Knowledge, and Value (Capstone) (3 credits)

### **Elective Courses**

Students may choose electives from any other courses in the philosophy program course listings. At least one elective must be chosen from PHI 400, PHI 420, PHI 430, PHI 440, PHI 450, PHI 460, or PHI 470. Courses numbered PHI 311, PHI 312, PHI 313, PHI 314, PHI 315, and PHI 380 may be repeated for credit when their content varies.

### **Suggested Order of Coursework**

#### **Year One**

- PHI 103 - Logic (3 credits)
- PHI 101 - Introduction to Philosophy (3 credits) **OR** PHI 102 - Ethics (3 credits) **OR** PHI 220 - Aesthetics (3 credits)
- Beginning language course (101 and 102) for students seeking a B.A. degree.

#### **Years Two Through Four**

- Additional required PHI courses
- PHI electives
- Intermediate language course (201) for students seeking a B.A. degree; fourth semester language (202) is recommended.

#### **Final Year**

- PHI 495 - Reality, Knowledge, and Value (Capstone) (3 credits)

## **Philosophy Minor**

### **Requirements for a Minor in Philosophy**

Students seeking a minor in philosophy are invited to work out an appropriate program with any member of the department. The program must include a minimum of 18 hours of philosophy, at least six hours of which must be upper-division (300- or 400-level), and at least one course must

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

be chosen from PHI 400, PHI 420, PHI 430, PHI 440, PHI 450, PHI 460, or PHI 470. You can also choose a study of ethics from one of the practical ethics minors as follows.

### **Practical Ethics Minors**

Choosing one of these minors will add a complementary credential to students in any Grand Valley major program by providing them with a thorough grounding in philosophical thinking about ethics and value. Students can choose courses tailored to their specific area of study. A grounding in philosophical thinking, especially thinking about ethics and value, is of significant personal, practical, and professional value to students pursuing many different major programs.

Students from all majors can elect one and only one of these minors. A minimum of 18 credits are required for any of the minors. Two courses are required courses in each of the minors, PHI 102 and PHI 460. Additionally, the student must select four electives, two of which must be upper division courses (300- or 400-level).

### **Ethics, Culture, and Society Minor**

#### **Courses Required**

Students must complete the following:

- PHI 102 - Ethics (3 credits)
- PHI 460 - Rights, Duties, and the Meaning of Life: Moral Philosophy (3 credits)

#### **Elective Courses**

Select four courses (at least 12 credits) two of which must be upper division courses (300- or 400-level courses) from the list below. These four elective courses can include up to two courses noted with asterisks:

- BIO 338 - Environmental Ethics (3 credits)
- NRM 300 - Ethical Recreation: Leave No Trace (1 credit)
- \*PHI 101 - Introduction to Philosophy (3 credits)
- \*PHI 103 - Logic (3 credits)
- PHI 210 - Eastern Philosophy (3 credits)
- \*PHI 220 - Aesthetics (3 credits)
- PHI 230 - American Philosophy (3 credits)
- \*PHI 250 - Existentialism (3 credits)
- PHI 300 - Theories of Human Nature (3 credits)
- PHI 320 - Power, Justice, and Freedom: Social and Political Philosophy (3 credits)
- PHI 325 - Ethics in Professional Life (3 credits)
- PHI 341 - Philosophy of Death and Dying (3 credits)
- PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)
- PHI 440 - Perception, Hallucination, Trust: Perspectives on Knowledge (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Health Care Ethics Minor**

### **Courses Required**

Students must complete the following:

- PHI 102 - Ethics (3 credits)
- PHI 460 - Rights, Duties, and the Meaning of Life: Moral Philosophy (3 credits)

### **Elective Courses**

Select four courses (at least 12 credits) two of which must be upper division courses (300- or 400-level courses) from the list below. These four elective courses can include up to two courses noted with asterisks:

- AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)
- BIO 328 - Biomedical Ethics (3 credits)
- \*PHI 101 - Introduction to Philosophy (3 credits)
- \*PHI 103 - Logic (3 credits)
- PHI 202 - Philosophy and Ethics of Health (3 credits)
- PHI 210 - Eastern Philosophy (3 credits)
- \*PHI 220 - Aesthetics (3 credits)
- PHI 230 - American Philosophy (3 credits)
- \*PHI 250 - Existentialism (3 credits)
- PHI 300 - Theories of Human Nature (3 credits)
- PHI 320 - Power, Justice, and Freedom: Social and Political Philosophy (3 credits)
- PHI 325 - Ethics in Professional Life (3 credits)
- PHI 341 - Philosophy of Death and Dying (3 credits)
- PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)
- PHI 420 - Philosophy of Science (3 credits)
- PHI 440 - Perception, Hallucination, Trust: Perspectives on Knowledge (3 credits)

## **Ethics, Culture, and Society Minor**

### **Courses Required**

Students must complete the following:

- PHI 102 - Ethics (3 credits)
- PHI 460 - Rights, Duties, and the Meaning of Life: Moral Philosophy (3 credits)

### **Elective Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Select four courses (at least 12 credits) two of which must be upper division courses (300- or 400-level courses) from the list below. These four elective courses can include up to two courses noted with asterisks:

- BIO 338 - Environmental Ethics (3 credits)
- DS 360 - Ethics of Digital Culture (3 credits)
- \*PHI 101 - Introduction to Philosophy (3 credits)
- \*PHI 103 - Logic (3 credits)
- PHI 210 - Eastern Philosophy (3 credits)
- \*PHI 220 - Aesthetics (3 credits)

## Photography

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences website.

**Website:** [gvsu.edu/photography](http://gvsu.edu/photography)

Studies in photography at Grand Valley State University encompass the history, critical and aesthetic theory, and varied practice of photography as a medium of visual communication and expression in culture and society.

The photography program, in supporting the mission of the Department of Visual and Media Arts and the university, develops liberally educated professional image-makers and media scholars through student-centered inquiry and practice in visual communication and the history, theory, criticism, and production of photographic images using state-of-the-art methods, tools, and facilities.

Students are encouraged to explore a variety of photographic formats, including 35mm and 4x5 view camera, and to acquire experience in black and white, color, and digital imaging processes.

Working closely with a faculty advisor, students plan at least 37 semester credits directly relating to photography, plus the communications core (nine credits), and the Capstone (three credits). Students connect photography to related fields in the visual arts, performing arts, business, media and publications, and the humanities. The emphasis of the photography program is on the

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

students' growth as educated picture makers who not only know photography, but also know something about themselves, about the world around them, and about the culture that has shaped them. Students are expected to develop working knowledge in many areas of visual communication, and are encouraged to pursue elective studies in areas that provide a broad understanding of social and cultural issues and the role of the visual communicator in contemporary society.

Students beginning the photography curriculum with no prior credits toward the major are encouraged to take PHO 171 - Photo I and PHO 266 - History of Photography I in the fall semester, and PHO 172 - Photo II and ART 149 - Intro to Visual Composition in the winter semester of their first year. All others are encouraged to meet with their advisor before scheduling courses in the photography sequence. A 35mm film camera is required. A digital SLR and a laptop are recommended for the program.

### **Accreditation**

The photography program is accredited by the National Association of Schools of Art and Design (NASAD).

## **Bachelor of Arts or Bachelor of Science in Photography**

### **Requirements for a Major in Photography**

#### **Core Courses**

All students majoring in photography must complete the following core courses, for a total of nine credits:

- COM 101 - Concepts of Communication (3 credits)
- COM 295 - Communication Theory (3 credits)
- COM 201 - Speech (3 credits) **OR** COM 215 - Story Making (3 credits)

### **B.A. and B.S. Requirements**

#### **B.A. in Photography Degree**

The Bachelor of Arts degree in photography requires a third-semester proficiency in a foreign language of the student's choice.

#### **B.S. in Photography Degree**

The Bachelor of Science degree in photography requires the following three courses:

- STA 215 - Introductory Applied Statistics (3 credits)
- COM 275 - Foundations of Communication Research (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- COM 375 - Communication Research (3 credits)

### **Photography Core**

Nine courses, for a minimum of 31 credits.

- ART 149 - Introduction to Visual Composition (3 credits)
- PHO 171 - Photography I (4 credits)
- PHO 172 - Photography II (3 credits)
- PHO 266 - History of Photography I (3 credits)
- PHO 272 - Digital Photography 1 (3 credits)
- PHO 273 - Classic 4 x 5 Photography (3 credits)
- PHO 279 - Color Photography 1 (3 credits)
- PHO 366 - History of Photography II (3 credits)
- PHO 375 - Studio Photography (3 credits)
- PHO 495 - Photography Capstone and Thesis Seminar (1 to 6 credits)

### **Elective Courses**

A minimum of nine elective credits must be chosen from the following list of courses:

- PHO 371 - Experimental Black and White Photography (3 credits)
- PHO 373 - Digital Photography 2 (3 credits)
- PHO 374 - Color Photography 2 (3 credits)
- PHO 377 - The Social Eye (4 credits) (offered fall semester of even-numbered years)
- PHO 378 - Advanced Problems in Photography (3 credits)
- PHO 399 - Independent Study (1 to 6 credits)
- PHO 490 - Internship (1 to 6 credits)
- PHO 280/PHO 380/PHO 480 Special Topics (TBA) (3 credits)

### **Suggested Order of Coursework**

Students should complete the following courses during year one:

Semester One:

- PHO 171 - Photography I (4 credits)
- PHO 266 - History of Photography I (3 credits)

Semester Two:

- ART 149 - Introduction to Visual Composition (3 credits)
- PHO 172 - Photography II (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Photography Minor

## Required Courses

- PHO 171 - Photography I (4 credits) **OR** PHO 175 - Understanding Still Photography (3 credits)
- PHO 266 - History of Photography I (3 credits)
- PHO 272 - Digital Photography 1 (3 credits)

## Elective Courses

Choose four of the following courses:

- PHO 172 - Photography II (3 credits)
- PHO 273 - Classic 4 x 5 Photography (3 credits)
- PHO 279 - Color Photography 1 (3 credits)
- PHO 366 - History of Photography II (3 credits)
- PHO 371 - Experimental Black and White Photography (3 credits)
- PHO 373 - Digital Photography 2 (3 credits)
- PHO 374 - Color Photography 2 (3 credits)
- PHO 375 - Studio Photography (3 credits)
- PHO 377 - The Social Eye (4 credits)
- PHO 378 - Advanced Problems in Photography (3 credits)

# Physical Therapy

For additional information about opportunities your college offers, please refer to the College of Health Professions section in this catalog.

**Website:** [gvsu.edu/pt](http://gvsu.edu/pt)

## Degree Offered

Doctor of Physical Therapy

## Accreditation

The Doctor of Physical Therapy (D.P.T.) program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, Virginia 22314, Telephone: (703) 706-3245; Email: [accreditation@apta.org](mailto:accreditation@apta.org); Website: [capteonline.org](http://capteonline.org).

## Career Description

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Physical therapy is the care and services provided by or under the direction and supervision of a physical therapist, including examining clients with physical impairments, functional limitations, and disabilities or other health-related conditions in order to determine a diagnosis, prognosis, and intervention; designing, implementing and modifying therapeutic interventions to address impairments and functional limitations; preventing injury, impairments, functional limitations, and disability, including the promotion and maintenance of fitness, health, and quality of life in all age groups; and engaging in consultation, education, and research.

Physical therapists provide clients, infants through elderly adults, with services at the preventive, acute, and rehabilitative stages directed toward achieving enhanced functional independence. Physical therapists interact and practice in collaboration with a variety of health professionals. They educate and inform others about the services they offer and their effective and cost-efficient delivery. Physical therapists are required to be licensed by the states in which they practice.

### **Mission**

To prepare exceptional physical therapists who will optimize the health, well-being, and movement ability of individuals and society.

### **Vision**

The GVSU D.P.T. program will develop autonomous, collaborative and reflective physical therapists who are specialists in assessing, diagnosing, and treating the human movement system using evidence-based practice. Our graduates will be recognized in their communities as the provider of choice to prevent and manage movement related disorders across the lifespan, thereby optimizing health and function at both the individual and community levels. As life-long learners, they will be professional and community leaders who effect change in their organizations and communities to best meet the healthcare needs of a diverse, multicultural society.

The Department of Physical Therapy and Athletic Training upholds the following core values:

- Professional and ethical behavior
- Respect and appreciation for diversity in all forms
- Lifelong learning
- Excellence in teaching, scholarship, and practice
- Collegiality and collaboration
- Social responsibility
- Evidence based practice
- Reflective practice
- Advocacy
- Leadership

### **Undergraduates Interested in Physical Therapy**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Incoming freshmen should select a major and work with a faculty advisor in that department, as well as with the College of Health Professions Student Services prephysical therapy academic advisor. Suggested majors include but are not limited to allied health sciences, biology, biomedical science, behavioral neuroscience, exercise science, and athletic training. All of the physical therapy prerequisite curriculum course requirements must be taken for a letter grade.

### **Reasons to Attend PT at GVSU**

- Faculty credentials include 14 with doctoral degrees, and 11 with clinical specializations in orthopedics, neurology, geriatrics, manual therapy, pediatrics, and sports.
- More than 35 part-time instructors.
- Curriculum includes research experience for all students.
- Five advanced electives (sports PT, spinal manual therapy, neurologic PT, cardiopulmonary PT, and pediatric PT).
- Thirty-eight weeks of full-time clinical internship in five settings across the U.S. International opportunities may also be available.
- State-of-the-art facilities and equipment.
- Four major hospitals close by to provide educational experiences.
- A 98% ultimate pass rate on licensure examination.

### **Admission**

Grand Valley State University's clinical Doctorate of Physical Therapy (D.P.T.) program utilizes the Physical Therapist Centralized Application System (PTCAS) for the application process. Please refer to [ptcas.org](http://ptcas.org) to get general information about the PTCAS process. GVSU's specific information is posted on the PTCAS website. Students may begin applying when the application portal opens in July of each year.

All application and supporting documents for PTCAS and GVSU have a receipt deadline of October 15. It is strongly recommended that applicants submit application materials four to six weeks prior to October 15 to allow for PTCAS processing time.

### **Admission eligibility requires the following:**

#### University Requirements

- Baccalaureate degree from an accredited institution of higher education (must be completed by the first day of classes).
- Completion of GVSU supplemental form. This form is available through the PTCAS online application (PTCAS Supplemental Form).
- Thirty dollar application fee payable to GVSU. Application fee is waived for those who have previously applied to GVSU and paid the \$30 application fee.

#### Program Requirements

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- PTCAS online application (ptcas.org).
- Completion of prerequisite courses:

The prerequisites must be completed by the first day of classes of the professional program. All of the physical therapy prerequisite curriculum course requirements must be taken for a letter grade. The program does accept AP courses for prerequisites (scores of 3, 4, or 5). For each prerequisite course, a grade of C or better is required.

- To view courses from Michigan universities that fulfill GVSU D.P.T. prerequisites, please visit [gvsu.edu/pt/guide-list.htm](http://gvsu.edu/pt/guide-list.htm).

<b>Prerequisite Course Name</b>	<b>GVSU Course Equivalent</b>
Introductory biology (that includes cellular structure and function) with lab	BIO 120
Anatomy with lab	BMS 208 <b>AND</b> BMS 309, strongly preferred
Two chemistry courses with labs	Options include: CHM 109, CHM 115, CHM 116, CHM 230, CHM 231, CHM 232, CHM 241, CHM 242, CHM 461
Physiology with lab	BMS 290 <b>AND</b> BMS 391, strongly preferred
Anatomy and Physiology I and II may substitute for the preceding two requirements	BMS 250 <b>AND</b> BMS 251
Exercise physiology	MOV 304
College algebra or trigonometry or calculus	MTH 122 <b>OR</b> MTH 123 <b>OR</b> MTH 125 <b>OR</b> MTH 201
Statistics	STA 215
Two sequential courses in physics with lab	PHY 220 <b>AND</b> PHY 221
Introductory psychology	PSY 101
Lifespan developmental psychology	PSY 364
Introductory sociology or social problems or cultural anthropology	SOC 101 <b>OR</b> SOC 105 <b>OR</b> ANT 204

- Official transcripts from all colleges and universities attended.
- Students must have a minimum average GPA of 3.2 on a 4.0 scale in prerequisite course requirements, and a 3.2 overall GPA to be considered for admission.
- Official results from the Graduate Record Exam (GRE) general and written test.
- Subject tests are not required. GRE scores must be sent directly to PTCAS using GVSU's PTCAS GRE code 0282.
- Two recommendations, one of which must be completed by a licensed physical therapist with whom you have worked, job shadowed, or volunteered. Submit the names and email addresses of your two references on the PTCAS electronic application. Your references complete and return the electronic form directly to PTCAS. The deadline for receipt is October 15.
- PTCAS application fees.
- Documentation of volunteer/work/job shadow physical therapy hours on the PTCAS application.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- A minimum of 50 hours of observational experience in physical therapy is required at the time of application; the experience may be volunteer or paid. Observational experience in a variety of clinical settings is valued. Examples of clinical settings include in-patient, out-patient, extended care, and school. GVSU does not require students to submit PTCAS verification forms.
- Employment, professional, leadership, scholarly, extracurricular, and volunteer activities are valued and taken into consideration in the admission process. All activities should be documented on the PTCAS application.
- Ability to perform all essential functions of the physical therapy program.

### **International Student Admission Materials**

In addition to the required PTCAS and GVSU admissions materials, the following items must be sent directly to GVSU's Admission's Office:

- **Original or certified original transcripts\*.**
- **Official TOEFL test score\*.**

Minimum score of 610 (paper-based) or 253 (computer-based) or 102 (Internet-based) required

- **Statement of financial support\*** (refer to GVSU Physical Therapy Supplemental Form).
- **Official credential evaluation\*** (WES, ECE).

\*Test scores and documents must be sent directly to:

Grand Valley State University  
Admissions Office  
1 Campus Drive  
Allendale, MI 49401-9403

### **Degree Completion Requirements**

Demonstration of completion of the 119 credits in the professional curriculum is required for completion of the Doctor of Physical Therapy degree.

### **General Degree Requirements**

General graduate academic policies and regulations can be found in the GVSU Undergraduate and Graduate Catalog.

Criminal background check, drug screen check, proof of immunizations and antibody titer checks are required prior to participation in full-time clinical experiences. The cost of this evaluation will be the responsibility of the student.

### **Professional Conduct**

The physical therapy faculty values and mentors the following student abilities: commitment to learning, interpersonal skills, communication skills, effective use of time and resources, use of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

constructive feedback, problem solving, professionalism, responsibility, critical thinking, and stress management. Definitions and criteria provided upon entry into the program.

### **Graduate Assistantships**

Graduate assistants work with physical therapy faculty, administrators, and staff to provide quality education, research, and service. Qualified candidates are selected on the basis of aptitude, interest, and background.

### **Graduate Outcomes**

Students graduate in 36 months. Students may take the national licensing exam during their last semester or after graduation. Ninety percent of students pass the exam on the first attempt. Ninety-eight percent of students pass with subsequent attempts. One hundred percent of graduates are successful finding job placements in Michigan and across the United States.

### **Progression, Retention, and Termination**

A student must achieve passing grades in every course to meet the prerequisite requirement of the next semester's courses. Any course grade that results in probation may result in the student being held back one year. A grade of F always results in the student being held back a year. A graduate GPA less than 3.0 with nine or more hours for which a grade of less than B was earned will result in dismissal from the graduate school.

### **Grounds for Probation**

- A final grade below a 2.7 (B-) in any required course in the D.P.T. program. Note: An instructor, or the D.P.T. faculty at large, is afforded this option at his/her discretion and is not required to offer remediation.
- A cumulative graduate-level GPA less than 3.0 (B) after completion of nine or more hours of graduate level coursework (i.e., at the end of semester one).
- A GPA below 3.0 for any semester in the D.P.T. program.
- Failure to remediate a specific course requirement at the required level that leads to faculty recommendation for probation.
- A final grade of no credit in PT 636, PT 656, PT 675, PT 677, or PT 681.
- Issuance of three faculty letters of reprimand regarding professional conduct on file.
- Faculty recommendation to withhold student from clinical education experience due to deficient professional behavior.

### **Clinical Education**

Students will not be allowed to participate in clinical experiences if there is a reason to believe they are unprepared for this type of experience. Sufficient reasons include:

- Probationary status.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Questions about the student's ability to safely manage patients.
- Evidence of unethical or illegal behavior.
- Medical or psychological conditions that could endanger the safety of the student or the patients entrusted to them, or that prevent the student from fully participating in the clinical experience.
- Problems identified with professional behaviors may result in a student being regarded by faculty as unprepared for clinical assignment. With the assistance of faculty, the student must resolve the problem area prior to the clinical assignment.
- Clinical education courses are sequenced (I, II, III, IV, V). If a student does not satisfactorily complete one course, he/she may not progress to the next course without completion of remedial work or repeat of the course.

### **Grounds for Removal from the PT Program**

Any one of the following items may constitute grounds for removal from the program:

- Failure to complete required remedial work at the required level, and in a timely fashion, while on probation.
- Failure to complete items required in a remediation contract at the required level, and in a timely fashion, while on probation.
- Final grades in two semesters that result in probation.
- Failure to demonstrate "continued competency" per VII. B.
- At the time of application to physical therapy, and throughout matriculation as a PT student, failure to report a felony record or arrest for a crime for which criminal charges are pending.
- Evidence of unethical, illegal or dishonest behavior in academic or community life from the date that GVSU's offer of admission is accepted to the date of graduation.
- See IX for automatic removal.

### **Program Location**

- Semester one takes place in the Cook-DeVos Center for Health Sciences, Health Campus, located in downtown Grand Rapids, MI, and on Grand Valley's main campus in Allendale, MI.
- Semesters two through six and eight take place in the Cook-DeVos Center for Health Sciences, Health Campus, located in downtown Grand Rapids, MI.
- Clinical experiences take place in Michigan and other selected states during semesters three, five, seven, and nine.

## **Doctor of Physical Therapy**

**Website:** [gvsu.edu/gs](http://gvsu.edu/gs)

### **Professional Program Requirements**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Demonstration of completion of the 119 credits in the professional curriculum is required for completion of the Doctor of Physical Therapy.

- BMS 538 - Advanced Neuroscience (3 credits)
- BMS 561 - Prosected Regional Anatomy (4 credits)
- PSY 668 - Health Profession Disability Psychology (3 credits)
- PT 510 - Lifespan Motor Development (2 credits)
- PT 511 - Foundations in Physical Therapy Examination (3 credits)
- PT 512 - Introduction to Evidence Based Practice in Physical Therapy (1 credit)
- PT 513 - Clinical Science I (2 credits)
- PT 515 - Professional Topics I (1 credit)
- PT 517 - Kinesiology and Biomechanics I (3 credits)
- PT 521 - Musculoskeletal Examination (4 credits)
- PT 522 - Musculoskeletal Interventions (4 credits)
- PT 523 - Clinical Science II (3 credits)
- PT 526 - Clinical Seminar I (2 credits)
- PT 528 - Kinesiology and Biomechanics II (3 credits)
- PT 610 - Research in Physical Therapy (2 credits)
- PT 631 - Cardiopulmonary Physical Therapy I (2 credits)
- PT 632 - Integumentary Practice Management (2 credits)
- PT 634 - Clinical Seminar II (1 credit)
- PT 636 - Clinical Education I (4 credits)
- PT 641 - Neuromuscular Examination (4 credits)
- PT 642 - Interventions in Neuromuscular Physical Therapy (4 credits)
- PT 643 - Clinical Science III (3 credits)
- PT 644 - Clinical Seminar III (2 credits)
- PT 647 - Cardiopulmonary Physical Therapy II (2 credits)
- PT 651 - Spinal Exam and Intervention (4 credits)
- PT 654 - Applied Geriatric Practice (2 credits)
- PT 655 - Professional Topics II (1 credit)
- PT 656 - Clinical Education II (5 credits)
- PT 657 - Teaching for Physical Therapists (2 credits)
- PT 661 - Exam and Intervention for Rehabilitation (4 credits)
- PT 662 - Pediatric Practice Management (3 credits)
- PT 665 - Professional Topics III (2 credits)
- PT 675 - Clinical Education III (6 credits)
- PT 677 - Clinical Education IV (6 credits)
- PT 681 - Advanced Clinical Decision-Making (2 credits)
- PT 682 - Health, Wellness and Special Topics in Physical Therapy (3 credits)
- PT 685 - Professional Topics IV (2 credits)
- PT 698 - Clinical Education V (6 credits)
- PT 790 - Physical Therapy Research I (1 credit) (two semesters required)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PT 793 - Physical Therapy Research II (2 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

### **Elective Courses**

- PT 580 - Special Topics in Physical Therapy (1 to 3 credits)
- PT 680 - Special Topics in Physical Therapy (1 to 3 credits)
- PT 684 - Advanced Topics: Sports Physical Therapy (3 credits)
- PT 686 - Advanced Topics: Pediatric Physical Therapy (3 credits)
- PT 687 - Advanced Topics: Spinal Manual Therapy (3 credits)
- PT 688 - Advanced Topics: Neurologic Physical Therapy (3 credits)
- PT 689 - Advanced Topics: Cardiopulmonary Physical Therapy (2 credits)
- PT 699 - Independent Study in Physical Therapy (1 to 3 credits)

### **Suggested Order of Coursework for Doctor of Physical Therapy**

#### **Year One**

Fall Semester (14 credits):

- BMS 561 - Prosected Regional Anatomy (4 credits)
- PT 511 - Foundations in Physical Therapy Examination (3 credits)
- PT 512 - Introduction to Evidence Based Practice in Physical Therapy (1 credit)
- PT 513 - Clinical Science I (2 credits)
- PT 515 - Professional Topics I (1 credit)
- PT 517 - Kinesiology and Biomechanics I (3 credits)

Winter Semester (16 credits):

- PT 521 - Musculoskeletal Examination (4 credits)
- PT 522 - Musculoskeletal Interventions (4 credits)
- PT 523 - Clinical Science II (3 credits)
- PT 526 - Clinical Seminar I (2 credits)
- PT 528 - Kinesiology and Biomechanics II (3 credits)

Spring/Summer Semester (17 credits):

First five weeks.

- PT 636 - Clinical Education I (4 credits)

Next eight weeks.

- BMS 538 - Advanced Neuroscience (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PT 510 - Lifespan Motor Development (2 credits)
- PT 631 - Cardiopulmonary Physical Therapy I (2 credits)
- PT 632 - Integumentary Practice Management (2 credits)
- PT 634 - Clinical Seminar II (1 credit)
- STA 610 - Applied Statistics for Health Professions (3 credits)

## **Year Two**

Fall Semester (17 credits):

- PT 610 - Research in Physical Therapy (2 credits)
- PT 641 - Neuromuscular Examination (4 credits)
- PT 642 - Interventions in Neuromuscular Physical Therapy (4 credits)
- PT 643 - Clinical Science III (3 credits)
- PT 644 - Clinical Seminar III (2 credits)
- PT 647 - Cardiopulmonary Physical Therapy II (2 credits)

Winter Semester (15 credits):

First six weeks.

- PT 656 - Clinical Education II (5 credits)

Next eight weeks.

- PT 654 - Applied Geriatric Practice (2 credits)
- PT 655 - Professional Topics II (1 credit)
- PT 657 - Teaching for Physical Therapists (2 credits)
- PT 661 - Exam and Intervention for Rehabilitation (4 credits)
- PT 790 - Physical Therapy Research I (1 credit)

Spring/Summer Semester (13 credits):

- PSY 668 - Health Profession Disability Psychology (3 credits)
- PT 651 - Spinal Exam and Intervention (4 credits)
- PT 662 - Pediatric Practice Management (3 credits)
- PT 665 - Professional Topics III (2 credits)
- PT 790 - Physical Therapy Research I (1 credit)

## **Year Three**

Fall Semester (12 credits):

- PT 675 - Clinical Education III (6 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PT 677 - Clinical Education IV (6 credits)

Winter Semester (9 credits):

- PT 681 - Advanced Clinical Decision-Making (2 credits)
- PT 682 - Health, Wellness and Special Topics in Physical Therapy (3 credits)
- PT 685 - Professional Topics IV (2 credits)
- PT 793 - Physical Therapy Research II (2 credits)

Optional:

- PT 684 - Advanced Topics: Sports Physical Therapy (3 credits)
- PT 686 - Advanced Topics: Pediatric Physical Therapy (3 credits)
- PT 687 - Advanced Topics: Spinal Manual Therapy (3 credits)
- PT 688 - Advanced Topics: Neurologic Physical Therapy (3 credits)
- PT 689 - Advanced Topics: Cardiopulmonary Physical Therapy (2 credits)

Spring/Summer Semester (6 credits):

- PT 698 - Clinical Education V (6 credits)

## Physician Assistant Studies

For additional information about opportunities your college offers, please refer to the College of Health Professions section in this catalog.

**Website:** [gvsu.edu/pas](http://gvsu.edu/pas)

### Degree Offered

Master of Physician Assistant Studies

Physician assistants (PAs) are valued members of the health care team. PAs are currently certified and licensed in the United States by delegation or regulatory authority. Working in collaboration with doctors of allopathic medicine and/or doctors of osteopathic medicine, PAs obtain medical histories, perform physical examinations, establish diagnoses, treat illnesses, provide patient education, counsel patients, assist in surgery, dictate proper treatment orders, and interpret laboratory/diagnostic studies. In all 50 states, as well as the District of Columbia and Guam, laws are in place that authorize PAs to prescribe medications or transmit orders for dispensing medication, including controlled substances. Educated in the medical model, PAs have close working relationships with physicians and the other members of the health care team. PAs see many of the same types of patients and perform many of the same tasks as physicians. PA responsibilities will depend on state laws and regulations, years of experience and training, and the practice setting. These factors comprise a PAs scope of practice.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# Physician Assistant Studies at Grand Valley

Grand Valley State University established its physician assistant studies (PAS) program in the 1990s, accepting its first class for entry in 1995 and graduating the inaugural class into the profession in 1998. The program awards a Master of Physician Assistant Studies degree following completion of a 28-month (seven semesters) curriculum of professional studies.

Applicants to the PAS program must possess or be in the process of completing a baccalaureate degree from either GVSU or another institution of higher learning. All applicants must complete prerequisite courses, minimum health care experience hours, GRE, and submit recommendation rubrics (see application procedures [gvsu.edu/pas](https://gvsu.edu/pas)). Students begin the professional curriculum after they have been admitted to the program. During the PAS didactic phase, students take coursework in human anatomy, medical physiology, clinical applications, clinical medicine, pathophysiology, practical therapeutics, PA professional issues, hospital community experiences, clinical problem solving, and evidence-based medicine. The curriculum combines traditional classroom sessions with Web-based instruction, case studies, laboratory, and problem-based learning (PBL). Students spend the final three semesters completing rotations in various clinical specialties, by working in clinics, emergency departments, and hospitals throughout Michigan, out-of-state communities, and potentially international communities. This curriculum provides students with the knowledge base and clinical acumen to sit for their national certification examination and practice medicine competently upon graduation.

## Accreditation

The Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) has granted Accreditation-Continued status to the Grand Valley State University Physician Assistant Program sponsored by Grand Valley State University. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards.

Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the standards. The approximate date for the next validation review of the program by the ARC-PA will be September 2024. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy.

## Application Procedures

Admission to the PAS program is competitive. Please see detailed application requirements. Applicants may contact the PAS program at (616) 331-5700 or by visiting [gvsu.edu/pas](https://gvsu.edu/pas) to address additional questions. The PAS program utilizes the Centralized Application Service for Physician Assistants (CASPA) for processing applications.

Selected prerequisite courses, health care experience hours, GRE, and recommendation rubrics must be completed by the application deadline unless a rare extension has been granted by appeal to the PAS Admissions Committee (see as follows for details). All application criteria and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

completion of undergraduate degree requirements must be completed by the month of May before starting the professional program.

High school seniors interested in a PAS degree must complete an undergraduate application to GVSU. During their first year, students will begin their preprofessional studies and declare a major. The most common majors for students admitted to the program from GVSU are Biomedical Sciences (BMS) and Allied Health Sciences (AHS) although students may elect to choose a different major. Academic advisors in the College of Health Professions Student Services can assist students with the selection of a major.

Transfer students (from community or four-year colleges) must complete an undergraduate application to GVSU. We strongly encourage students to transfer by the beginning of their junior year to ensure completion of their undergraduate degree and preprofessional requirements. Transfer students are encouraged to consult with an academic advisor in the College of Health Professions Student Services Office before entering GVSU or very soon thereafter, in addition to consulting their assigned undergraduate faculty/advisor based upon the declared major.

The application deadline is September 1 during the calendar year preceding the year the student wishes to begin the program. CASPA applications must be complete by September 1 in the year of application. An application is considered complete when the online application and all supporting documents have been received by CASPA. The GVSU PAS Admissions Committee will review completed applications and choose candidates for interviews by mid-October. After interviews are complete, the GVSU PAS Admissions Committee will offer positions to qualified applicants.

### **Admission to the Master of Physician Assistant Studies Program**

- **Transcripts:** Applicants must submit official transcripts for all colleges and/or universities attended directly to CASPA.
- **Academic achievement:** Applicants must demonstrate a minimum 3.0 overall GPA, prerequisite course GPA, and last 60 hours of coursework GPA to be considered for admission. Please see [gvsu.edu/pas](http://gvsu.edu/pas) for a description of how each GPA is calculated.
- **Prerequisite coursework:** A minimum grade of C must be attained in each prerequisite course. Please see [gvsu.edu/pas](http://gvsu.edu/pas) for a complete list of prerequisite courses.
  - Human anatomy, human physiology, organic chemistry, biochemistry, and microbiology must be completed prior to application.
  - ALL prerequisite coursework and a bachelor's degree must be completed by the month of May prior to the start of the PAS program.
  - The following prerequisite courses must be completed within five calendar years preceding and including the year of application: human anatomy, human physiology, microbiology, and biochemistry.
  - **GRE:** Test scores are valid for five years. See the GRE website for additional details [ets.org/gre/revised\\_general/scoresets.org/gre/revised\\_general/scores](https://ets.org/gre/revised_general/scoresets.org/gre/revised_general/scores). The GRE code for GVSU on CASPA is 252.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- **Recommendations:** A minimum of two recommendation rubrics must be submitted. These rubrics will be emailed by CASPA to evaluators when the application is submitted. At least one recommendation rubric must be completed by a health care professional. The other recommendation rubric may be completed by either a second health care professional or a professor. Separate letters of reference are not acceptable substitutes for the recommendation rubrics.
- **Health care experience:** Applicants must show evidence of 500 hours of significant volunteer, work, and/or observational experience in a health care environment. Hands-on patient care activities are highly encouraged. Health care experiences are documented on the CASPA application. Further information about health care experience requirements can be found at the PAS website [gvsu.edu/pas](http://gvsu.edu/pas) under prospective students.
- **International students:** Students whose first language is not English should be able to speak and write in fluent English and submit the following materials.
  - Official test scores from TOEFL (Test of English as a Foreign Language), IELTS (International English Language Testing System), MELAB (Michigan English Language Assessment Battery), or PTE Academic (Pearson Tests of English Academic).
  - The minimum TOEFL score is 80 Internet-based, the minimum IELTS score is 6.5, the minimum MELAB score is 77, and the minimum PTE Academic score is 53.
  - Only original score reports will be accepted.
  - Students who completed higher education studies outside of the U.S. must also submit:
    - Original or certified original transcripts.
    - Official transcript credential information (e.g. WES, ECE).
    - Transcripts demonstrating 30 hours of higher education coursework taken at an established and accredited U.S. institution.
  - Note: Students who think they have highly unusual circumstances that impact their ability to meet the previously listed criteria may appeal in writing to the PAS Admissions Committee by submitting an Academic Request Form (ARF). An ARF only needs to be filled out if a student does NOT meet all application requirements and has extenuating circumstances that have either mitigated the necessary requirements (as in a five-year course waiver) or prevented the completion of a course (as in a course extension). An ARF expires after the completion of the cycle in which the student applies. All ARFs are due on or before July 15 in the year of application. No late ARF forms will be accepted.

## Selection Factors

Grand Valley State University is an affirmative action/equal opportunity institution. It encourages diversity and provides equal opportunity in education, employment, all of its programs, and the use of its facilities. Applicants are considered without regard to age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, sex/gender, sexual orientation, veteran status, or weight.

Factors used to select applicants for interview may include any or all of the following: GPA, GRE, recommendation rubrics, and health care experience hours. Motivational factors, life experiences, patient care experience, maturity, and personal characteristics are evaluated during the interview day. Applicants must meet health and technical standards that demonstrate their capacity to function as a physician assistant. Copies of these standards may be obtained from the PAS program office or from the PAS website: [gvsu.edu/pas](http://gvsu.edu/pas).

## **Degree Requirements**

Demonstration of completion of the 103 credits in the professional curriculum is required for the student to be granted the M.P.A.S. degree. General graduate academic policies and regulations can be found elsewhere in this catalog or in the GVSU graduate bulletin.

In addition, each PAS course or discrete unit of instruction within the professional curriculum has a minimum proficiency level established. A minimum of a grade B is required for passing all PAS courses. Additionally, the student's overall GPA must not fall below 3.0 in any semester or the student may be placed on academic probation, remediated, or dismissed from the PAS program.

## **Professional Conduct**

Interpersonal skills, communication skills, responsibility, and professionalism are crucial for success in the PA profession. These skills are tracked during the program; advancement in proficiency and behavior is expected. A complete copy of these skills is available from the program and may also be viewed on the program website under Core Competencies at [gvsu.edu/pas](http://gvsu.edu/pas).

All students in the program are expected to comply with the ethical principles that embody the practice of medicine and the PA profession. A complete copy of the PA profession's code of ethics are available from the program and may also be viewed under the PA profession tab at [gvsu.edu/pas](http://gvsu.edu/pas).

Degree following completion of a 28-month (seven semesters) curriculum study.

Criminal background checks and/or drug screens are required prior to admission into the PA studies program. After enrollment, certain clinical placements or state licensing requirements may require additional background checks and drug screens. Positive findings may negatively impact the educational process at GVSU or future licensure as a physician assistant. The cost of these evaluations are the responsibility of the applicant or student.

# **Master of Physician Assistant Studies**

**Website:** [gvsu.edu/grad/mpas](http://gvsu.edu/grad/mpas)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Preprofessional Curriculum Course Requirements**

One course in each of the following:

- biochemistry\*
- general biology
- general chemistry
- human anatomy\*
- human genetics
- human physiology\*
- microbiology
- organic chemistry
- physics
- psychology
- statistics

\*This course must have been completed within the last five years or must be retaken. Applicants may also take higher level courses or competency examinations for credit. Waivers of the five-year rule may be granted on a case-by-case basis for candidates with documented academic excellence and appropriate clinical experience at the discretion of the admissions committee or the PAS program director.

## **Professional Curriculum Course Recommendations\*\***

One course in each of the following:

- immunology
- medical ethics
- nutrition
- pathophysiology
- pharmacology

**AND** one lab course in:

- human cadaver anatomy

\*\*These courses have been found beneficial for success in the program, but are not required to apply.

## **Professional Curriculum Course Requirements**

- BMS 561 - Prosected Regional Anatomy (4 credits)
- PAS 501 - Clinical Applications I (2 credits)
- PAS 502 - Clinical Applications II (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PAS 503 - Clinical Applications III (1 credit)

- PAS 574 - Hospital Community Experience III (1 credit)
- PAS 582 - Evidence-based Medicine I (3 credits)
- PAS 583 - Evidence-based Medicine II (2 credits)
- PAS 584 - Evidence-Based Medicine III (2 credits)
- PAS 610 - Clinical Rotations I (12 credits)
- PAS 620 - Clinical Rotations II (12 credits)
- PAS 630 - Clinical Rotations III (12 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

## **Professional Level Curriculum**

### **Fall Semester One (17 credits):**

- BMS 561 - Prosected Regional Anatomy (4 credits)
- PAS 501 - Clinical Applications I (2 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)
- PAS 511 - Foundations of Clinical Medicine (4 credits)
- PAS 521 - Medical Physiology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PAS 561 - Clinical Applications Lab I (1 credit)

**Winter Semester Two** (17 credits):

- PAS 502 - Clinical Applications II (1 credit)
- PAS 512 - Clinical Medicine I (6 credits)
- PAS 522 - Clinical Pathophysiology I (1 credit)
- PAS 532 - Practical Therapeutics I (2 credits)
- PAS 542 - Clinical Problem Solving Sessions I (1 credit)
- PAS 551 - Physician Assistant Profession Issues I (1 credit)
- PAS 562 - Clinical Applications Lab II (1 credit)
- PAS 572 - Hospital Community Experience I (1 credit)
- PAS 582 - Evidence-based Medicine I (3 credits)

**Spring/Summer Semester Three** (15 credits):

- PAS 503 - Clinical Applications III (1 credit)
- PAS 513 - Clinical Medicine II (6 credits)
- PAS 523 - Clinical Pathophysiology II (1 credit)
- PAS 533 - Practical Therapeutics II (2 credits)
- PAS 543 - Clinical Problem Solving Sessions II (1 credit)
- PAS 563 - Clinical Applications Lab III (1 credit)
- PAS 573 - Hospital Community Experience II (1 credit)
- PAS 583 - Evidence-based Medicine II (2 credits)

**Fall Semester Four** (18 credits):

- PAS 504 - Clinical Applications IV (1 credit)
- PAS 514 - Clinical Medicine III (6 credits)
- PAS 524 - Clinical Pathophysiology III (3 credits)
- PAS 534 - Practical Therapeutics III (2 credits)
- PAS 544 - Clinical Problem Solving Sessions III (1 credit)
- PAS 554 - Physician Assistant Profession Issues II (1 credit)
- PAS 564 - Clinical Applications Lab IV (1 credit)
- PAS 574 - Hospital Community Experience III (1 credit)
- PAS 584 - Evidence-Based Medicine III (2 credits)

**Winter Semester Five** (12 credits):

- PAS 610 - Clinical Rotations I (12 credits)

**Spring/Summer Semester Six** (12 credits):

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PAS 620 - Clinical Rotations II (12 credits)

**Fall Semester Seven** (12 credits):

- PAS 630 - Clinical Rotations III (12 credits)

**Total Professional Curriculum:** 103 credits

## Physics

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/physics](http://gvsu.edu/physics)

Physicists are explorers of the physical universe. They seek to know and understand the fundamental behavior of nature, from elementary particles to the galaxies. Physicists must develop both experimental and analytical skills to carry out their search for a detailed description of the behavior of matter and energy.

The Physics Department offers a bachelor's degree with a major in physics. This is a well-defined program of observation, experimentation, and theoretical study of the various phenomena of nature. A highlight of our program is the senior project, which requires each student to perform an independent research project in collaboration with a faculty mentor.

The department also offers a minor in physics and the option for secondary teacher certification with the major or minor.

The undergraduate physics curriculum requires careful planning because most courses in physics and the required cognates can be taken only in sequence. Students who expect to major or minor in physics should consult a faculty member of the Physics Department to plan their programs at the earliest opportunity, preferably before registration for their first term. It is especially important that transfer students meet with a department faculty advisor to evaluate previous work and plan an appropriate program of study.

### Honors Organization

Sigma Pi Sigma is the national honor society of the SPS. Students who have 80 credits (with a minimum of one year of study at GVSU) may be elected to become Sigma Pi Sigma members based on academic achievement and service. An annual induction ceremony is held in April.

## Bachelor of Science in Physics

### Requirements for a Major in Physics

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The following courses fulfill the B.S. degree requirements:

- MTH 201 - Calculus I (4 credits)
- MTH 202 - Calculus II (4 credits)
- PHY 230 - Principles of Physics I (5 credits)

In addition, students must complete the general university degree requirements as identified in the General Academic Policies section of the catalog.

### **Core Courses**

Major students must complete 39 semester credit hours of required physics courses with a minimum grade of C (2.0) in each course.

Transfer students must complete at least 11 credit hours in physics courses taken at Grand Valley at the 300-level or above.

All physics majors must complete the following (39 credits):

- PHY 230 - Principles of Physics I (5 credits)
- PHY 231 - Principles of Physics II (5 credits)
- PHY 302 - Introduction to Modern Physics (4 credits)
- PHY 309 - Experimental Methods in Physics (4 credits)
- PHY 311 - Advanced Laboratory II (2 credits)
- PHY 330 - Intermediate Mechanics (4 credits)
- PHY 340 - Electromagnetic Fields (4 credits)
- PHY 350 - Introduction to Quantum Mechanics (4 credits)
- PHY 360 - Statistical Thermodynamics (4 credits)
- PHY 485 - Senior Physics Project (Capstone) (1 credit)
- PHY 486 - Senior Physics Project (Capstone) (2 credits)

### **Cognate Courses**

The following cognate courses must be completed with a minimum grade of C (2.0) in each course (25 to 28 credits):

- CHM 115 - Principles of Chemistry I (4 credits)
- CIS 162 - Computer Science I (4 credits)
- MTH 201 - Calculus I (4 credits)
- MTH 202 - Calculus II (4 credits)
- MTH 203 - Calculus III (4 credits)

Option One:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MTH 204 - Linear Algebra I (3 credits) **AND** MTH 304 - Analysis of Differential Equations (3 credits) Recommended, especially for graduate school bound students.

Option Two:

- MTH 302 - Linear Algebra and Differential Equations (4 credits)
- MTH 300 - Vector Analysis (3 credits) **OR** MTH 401 - Mathematics for the Physical Sciences (4 credits)

Note: Physics majors intending to go to graduate school should take MTH 204 and MTH 304 rather than the MTH 302 option.

### **Science Electives**

Six credits of science electives must be chosen from the following list and completed with a minimum grade of C (2.0) in each:

- CHM 351 - Introduction to Physical Chemistry (3 credits)
- CHM 352 - Physical Chemistry Laboratory (1 credit)
- CHM 356 - Physical Chemistry I (3 credits)
- CHM 358 - Physical Chemistry II (3 credits)
- PHY 105 - Descriptive Astronomy (3 credits)
- Any 300-level physics elective
- Any 400-level physics elective

### **Suggested Order of Coursework for a Major in Physics**

The following example assumes student has a good mathematics background.

- F indicates course should be taken in the fall semester
- W indicates course should be taken in the winter semester

#### **Year One**

- Three general education courses
- CHM 115 - Principles of Chemistry I (4 credits) (F)
- MTH 201 - Calculus I (4 credits) (F)
- MTH 202 - Calculus II (4 credits) (W)
- PHY 230 - Principles of Physics I (5 credits) (W)
- WRT 150 - Strategies in Writing (4 credits)

#### **Year Two**

- Two general education courses

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MTH 203 - Calculus III (4 credits) (F)
- **BOTH** MTH 204 - Linear Algebra I (3 credits) (F) **AND** MTH 302 - Linear Algebra and Differential Equations (4 credits) (W)
- OR ONLY** MTH 304 - Analysis of Differential Equations (3 credits) (W)
- PHY 231 - Principles of Physics II (5 credits) (F)
- PHY 302 - Introduction to Modern Physics (4 credits) (W)

### Year Three

- General education courses (Students should begin completing Issues courses.)
- One science elective course
- Elective course
- MTH 300 - Vector Analysis (3 credits) (F)
- PHY 309 - Experimental Methods in Physics (4 credits) (F)
- PHY 311 - Advanced Laboratory II (2 credits) (W)
- PHY 330 - Intermediate Mechanics (4 credits) (F)
- PHY 340 - Electromagnetic Fields (4 credits) (W)

### Year Four

- General education courses (Students should complete their second Issues course.)
- One science elective course
- Elective courses
- PHY 350 - Introduction to Quantum Mechanics (4 credits) (W)
- PHY 360 - Statistical Thermodynamics (4 credits) (F)
- PHY 485 - Senior Physics Project (Capstone) (1 credit) (F)
- PHY 486 - Senior Physics Project (Capstone) (2 credits) (W)

### Certification for Secondary Teaching

All students seeking certification to teach at the secondary level with a major in physics must complete the major requirements for a physics degree as noted previously, as well as four additional courses:

- BIO 120 - General Biology I (4 credits)
- PHY 105 - Descriptive Astronomy (3 credits)
- HSC 201 - The Scientific Revolution (3 credits) **OR** HSC 202 - The Technological Revolution (3 credits)
- One ethics course in science, such as BIO 328 - Biomedical Ethics (3 credits) **OR** BIO 338 - Environmental Ethics (3 credits)

A minimum GPA of 2.7 in the major is required to be recommended for teacher certification. Certification for secondary teaching also requires meeting the admission and professional

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

requirements of the College of Education and Community Innovation as outlined in this catalog. Note that the extra coursework necessary for teaching certification normally requires a full fifth year of work.

All students seeking teacher certification are required to clock at least 30 hours of assisting in the department's tutoring program or as a laboratory assistant setting up equipment and demonstrations and helping students in a laboratory setting, which includes required reading and experience in laboratory safety.

## **Integrated Science Major for the B.S. Degree**

The integrated science major is designed for students seeking certification to teach at the elementary school level. It provides the preservice teacher broad exposure in all the sciences and emphasizes the connections among the scientific disciplines, their relationship with technology, and their relevance to society. In order to be certified, students must complete this major and the elementary teaching minor with at least a 2.7 GPA in each. Students are advised to take the MDE subject area test after they have completed the major with a 2.7 GPA.

## **Integrated Science Secondary Endorsement**

Students who have declared or completed a major and minor in a science discipline may complete additional courses for an integrated science secondary endorsement. The Michigan Department of Education will allow teachers with the integrated science secondary endorsement to teach biology, chemistry, earth science, or physics at the secondary level.

## **Physics Minor**

### **Requirements**

A minimum of 24 credit hours in physics and a GPA of 2.0 in physics are required for a minor in physics.

### **Required Courses**

- PHY 230 - Principles of Physics I (5 credits)
- PHY 231 - Principles of Physics II (5 credits)
- PHY 302 - Introduction to Modern Physics (4 credits)

### **Elective Courses**

The remaining 10 hours required for a minor in physics must be selected from the following courses:

- PHY 309 - Experimental Methods in Physics (4 credits)
- PHY 311 - Advanced Laboratory II (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PHY 320 - Optics (3 credits)
- PHY 330 - Intermediate Mechanics (4 credits)
- PHY 340 - Electromagnetic Fields (4 credits)
- PHY 350 - Introduction to Quantum Mechanics (4 credits)
- PHY 360 - Statistical Thermodynamics (4 credits)
- PHY 370 - Solid State Physics (3 credits)

### **Certification to Teach at the Secondary Level with a Minor in Physics**

Students pursuing this certification must have a minimum GPA of 2.7 in the minor. Since students seeking certification for secondary teaching with a major in physics are required to take PHY 105 for certification, students seeking certification for secondary teaching with a minor in physics are also encouraged to take PHY 105. Therefore, PHY 105 may be counted as part of the additional 10 hours in physics courses for those students. This option is not open to students seeking a minor in physics in programs other than secondary education.

Note: Most of the physics courses require prerequisites in mathematics.

Those students seeking certification to teach at the secondary level with a minor in physics must have a minimum GPA of 2.7 in the minor. Students must also meet the same requirement for laboratory and tutoring experience as outlined for certification with a major in physics.

## **Political Science**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/polisci](http://gvsu.edu/polisci)

At GVSU, political science students learn to analyze political phenomena from the perspectives of the four major disciplinary subfields: political theory, American politics, comparative politics, and international relations.

The department offers a wide range of elective courses in each subfield. American politics courses include Congress and the presidency, environmental policy, state politics, American election campaigns, mass media, and constitutional law. The department also offers courses in international relations, including human rights, international political economy, and international law. Course offerings in comparative politics include European politics, Chinese politics, African politics, and politics of developing areas. Political theory courses include courses in classical, modern, contemporary, and U.S. political thought. In almost all cases, classes are small and students receive much individual attention.

### **Internships**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

In addition to classroom work, students participate in a variety of internship opportunities, including working in local law firms, the Michigan office of U.S. representatives and senators, or in a variety of political offices in Lansing, including the state house and state senate, the Governor's office, state political parties, and legislative research offices. Students also serve as interns for local, national, and international nonprofit organizations. Students can earn up to six credits in the intern program. The emphasis of the program is on broadening students' experiences and knowledge about politics through a practical involvement that is firmly founded on and tied to strong academic curricula.

A faculty member coordinates the internship program. Students also have the opportunity to perform an internship and learn in Washington, D.C., through our GV in DC program, a partnership program with The Washington Center.

GVSU political science and international relations majors have access to GVSU's Handshake (formerly Laker Jobs) at [gvsu.joinhandshake.com](https://gvsu.joinhandshake.com).

To get started, click on the internships link at [gvsu.edu/polisci](https://gvsu.edu/polisci).

For information on the GV in DC program, visit [gvsu.edu/gvdc](https://gvsu.edu/gvdc).

## **Honors Organizations**

Phi Sigma Alpha, the National Political Science Honor Society, was established at the University of Texas in 1920. It is the only national honor society for college and university students of government. There are currently 621 chapters of Pi Sigma Alpha around the United States, including the Kappa Phi chapter at Grand Valley State University. Visit them online at [pisigmaalpha.org](https://pisigmaalpha.org).

Initiation into Pi Sigma Alpha is a prestigious award for upper division students who have demonstrated consistent excellence in political science and related majors and minors. Initiation into Pi Sigma Alpha also establishes one's eligibility to participate in Pi Sigma Alpha scholarship and internship grant programs, and to publish research in the Pi Sigma Alpha Undergraduate Journal of Politics. For information about eligibility requirements and campus activities contact Paul J. Cornish, Advisor to the Kappa Phi chapter of Pi Sigma Alpha at (616) 331-3502 or [cornishp@gvsu.edu](mailto:cornishp@gvsu.edu).

## **Bachelor of Arts or Bachelor of Science in Political Science**

### **Requirements**

Students seeking the B.A. or B.S. degree are required to take at least 36 credits in political science, including PLS 102, PLS 103, PLS 211, PLS 231 or PLS 232, PLS 495, and seven additional courses, two of which must be in American politics; one in international relations; one in comparative politics; and one in political thought (200-level or higher). Please see a list of elective courses by category as follows. At least four of these courses must be at the 300-level; independent studies, internships, PLS 300, PLS 350, and PLS 495 do not count toward the 300-

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

level requirement. No more than nine credits of internship and independent study may count toward the major, with no more than six credits in either category. Public Administration (PA) 307 may count as an American politics elective.

Students seeking a B.A. degree must demonstrate third-semester proficiency in a foreign language. Students seeking a B.S. degree must complete the following courses: STA 215, PLS 300, and PLS 350. When taken for the B.S. degree, PLS 300 and PLS 350 do not count toward the 36 required credits for the major.

### **Required Courses**

- PLS 102 - American Government and Politics (3 credits)
- PLS 103 - Issues in World Politics (3 credits)
- PLS 211 - International Relations (3 credits)
- PLS 231 - Classical Political Thought (3 credits) **OR** PLS 232 - Modern Political Thought (3 credits)
- PLS 495 - Seminar in the Study of Politics (Capstone) (3 credits)

### **B.S. Degree Requirements** (additional)

- STA 215 - Introductory Applied Statistics (3 credits)
- PLS 300 - Political Analysis (3 credits)
- PLS 350 - Comparative Public Opinion (3 credits)

### **B.A. Degree Requirements** (additional)

- Third-semester proficiency in a foreign language.

### **Elective Courses**

#### **American Politics**

Choose at least two of the following:

- PLS 202 - American Election Campaigns (3 credits)
- PLS 203 - State Politics (3 credits)
- PLS 205 - The Policy Process (3 credits)
- PLS 206 - American Constitutional Foundations (3 credits)
- PLS 301 - Poverty, Inequality, and U.S. Public Policy (3 credits)
- PLS 302 - Women, Politics, and Public Policy (3 credits)
- PLS 303 - Introduction to U.S. Environmental Policy (3 credits)
- PLS 304 - Political Parties and Interest Groups (3 credits)
- PLS 305 - Congress and the Presidency (3 credits)
- PLS 306 - American Constitutional Law I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PLS 307 - American Constitutional Law II (3 credits)
- PLS 310 - Politics and Health Policy (3 credits)
- PLS 330 - Religion and Politics in America (3 credits)
- PLS 340 - Mass Media and American Politics (3 credits)
- PLS 341 - Elections and Voting Behavior (3 credits)

### **International Relations**

Choose at least one of the following:

- PLS 212 - Great Decisions (3 credits)
- PLS 215/GSI 215 - Global Migration (3 credits)
- PLS 311 - International Conflict and Conflict Resolution (3 credits)
- PLS 312 - U.S. Foreign Policy (3 credits)
- PLS 313 - International Organization (3 credits)
- PLS 314 - International Law (3 credits)
- PLS 315 - International Political Economy (3 credits)
- PLS 316 - Human Rights in International Politics (3 credits)
- PLS 321 - The European Union (3 credits)

### **Comparative Politics**

Choose at least one of the following:

- PLS 221 - Government and Politics of Western Europe (3 credits)
- PLS 240 - The Holocaust (3 credits)
- PLS 281 - Comparative Political Systems: Canada (3 credits)
- PLS 283 - Chinese Politics and U.S.-China Relations (3 credits)
- PLS 284 - Latin American Politics (3 credits)
- PLS 319 - African Politics (3 credits)
- PLS 320 - Comparative Politics of the Middle East (3 credits)
- PLS 325 - Human Rights and Democracy in Russia and the Post-Communist World (3 credits)
- PLS 327 - Politics of Developing Countries (3 credits)
- PLS 339 - Democracy and the Authoritarian Challenge (3 credits)

### **Political Thought**

Choose at least one of the following: if completing only one course, selected course must be at the 200- or 300-level:

- PLS 105 - Introduction to Human Rights (3 credits)
- PLS 231 - Classical Political Thought (3 credits)
- PLS 232 - Modern Political Thought (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PLS 333 - Contemporary Political Thought (3 credits)
- PLS 334/WGS 334 - Sex, Power, and Politics (3 credits)
- PLS 335/HRT 335 - Theory of Human Rights (3 credits)
- PLS 337 - U.S. Political Thought (3 credits)
- PLS 338 - Citizenship (3 credits)

### **Special Topics, Independent Study, Internship**

- PLS 380 - Special Topics in Political Science (3 credits)
- PLS 399 - Readings in Political Science (1 to 3 credits)
- PLS 490 - Internship (2 to 6 credits)
- PLS 499 - Independent Research (2 to 6 credits)

### **Suggested Order of Coursework for a Major in Political Science**

The flexibility in course selection makes it important for students to seek the advice of a faculty member in the department when choosing courses to fit their specific needs and interests. No sample curriculum will be appropriate for everyone, although these general guidelines should be helpful to nearly everyone. It is also assumed that some counseling will take place to match the curriculum with career plans. We strongly recommend study abroad and an internship. We also advise students to take elective courses in history, economics, and in other social science disciplines.

#### **Year One**

- WRT 150 and/or MTH 110
- One or two general education courses: Arts and/or Philosophy and Literature
- One or two general education courses in science
- Electives or foreign language. Choose foreign language if completing a B.A. degree. See B.A. section for requirements
- PLS 102 - American Government and Politics (3 credits)
- PLS 103 - Issues in World Politics (3 credits)
- One general education course in Social and Behavioral Science from another discipline
- ECO 210 - Introductory Macroeconomics (3 credits) **OR** ECO 211 - Introductory Microeconomics (3 credits) are recommended, as these courses provide background for PLS 315 - International Political Economy (3 credits)

#### **Year Two**

- PLS 211 - International Relations (3 credits)
- PLS 231 - Classical Political Thought (3 credits) **OR** PLS 232 - Modern Political Thought (3 credits)
- Two additional political science courses at the 200- or 300-level

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Two general education courses in U.S. Diversity and Mathematical Sciences. STA 215 - Introductory Applied Statistics (3 credits) Recommended for students choosing B.S. or any remaining requirements.
- Electives or foreign language
- Additional writing skills, if needed
- STA 215 - Introductory Applied Statistics (3 credits) If choosing B.S., this counts for general education Mathematical Sciences.
- PLS 300 - Political Analysis (3 credits) Note: Students must take STA 215 before PLS 300.

### **Year Three**

- Three or four political science courses at 200-300 level
- Completion of general education courses
- Electives
- Political science internship
- PLS 350 - Comparative Public Opinion (3 credits) Take this course if choosing B.S. and upon completion of STA 215 and PLS 300.

### **Year Four**

- PLS 495 - Seminar in the Study of Politics (Capstone) (3 credits)
- Political science internship
- Any remaining major or university requirements and electives

## **Legal Education Admission Program (LEAP), Legal Studies**

Students who are accepted into the Grand Valley School of Criminology, Criminal Justice, and Legal Studies and Michigan State College of Law (MSU COL) 3+3 program called LEAP complete a minimum of 91 credits comprising the required undergraduate courses in their first three years of study at Grand Valley. This includes all university-level requirements as well as the requirements for the legal studies major. Upon admission to the law school, legal studies students complete their undergraduate electives with law school courses. Up to 29 credits of MSU COL work in which the student has earned a 2.0 or above will be accepted. The B.S. or B.A. will be awarded upon satisfactory completion of the number of credits and requirements necessary for the undergraduate program.

LEAP is open only to those students who matriculate as first-year students at Grand Valley. Students may apply any time prior to their senior year for consideration under the program. A joint committee that is comprised of faculty from both institutions will admit students to the LEAP program on the basis of undergraduate record, ACT or SAT scores and other information deemed relevant. In order to be eligible for consideration for final admission to MSU COL, students enrolled in the 3+3 program must have earned a cumulative Grand Valley grade point average, not less than the median of the students admitted to MSU COL for the previous year, achieve an LSAT score not less than the median of the students admitted to MSU COL for the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

previous year (if taken multiple times, the highest of multiple scores will be relied on), and satisfy any other current MSU COL admission requirements.

## **Suggested Order of Coursework**

### **Year One**

- A writing skills course
- One or two humanities/arts general education courses
- One or two science general education courses
- Electives (or foreign language)
- ACC 212 - Principles of Financial Accounting (3 credits)
- LS 101 - Law in our Lives (3 credits)
- LS 226 - Civil Litigation I (3 credits)

### **Year Two**

- Three or four legal studies courses (such as LS 324, LS 428, and LS 320)
- CJ 300 and STA 215 (B.S. degree)
- IS 150
- One or two general education courses
- Electives or foreign language
- Additional writing skills if needed

### **Year Three**

- Two or three legal studies courses at 400-level (such as LS 320 and LS 322)
- Completion of general education courses
- LS 490 - Legal Studies Internship (1 to 6 credits)
- LS 495 - Legal Thought (Capstone) (3 credits)

## **Legal Education Admission Program (LEAP), Political Science**

The Legal Education Admission Program (LEAP) provides an opportunity for Grand Valley State University's political science undergraduate students to earn both a bachelor's degree and a Juris Doctor (J.D.) degree in about six years of full-time study (three years of political science studies plus three years of legal studies). The program was developed by Grand Valley State University's Political Science department and Michigan State University College of Law (MSU Law).

Students accepted into the program may combine their last year of political science undergraduate work at Grand Valley State University with their first year of law school at MSU

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Law, thereby saving a year in both time and money. Interested students complete a minimum of 91 credits comprising the required undergraduate courses in their first three years of study at Grand Valley State University. This includes all university-level requirements as well as the requirements for the political science major. Upon admission to the law school, PLS students complete their undergraduate electives with law school courses. Up to 29 credits of MSU Law work in which the student earned a 2.0 or above will be accepted. The B.S./B.A. will be awarded upon satisfactory completion of the number of credits and requirements necessary for the undergraduate program. It is anticipated that MSU Law will admit up to five Grand Valley State University PLS LEAP students per year.

Interested students may apply to LEAP after they have accumulated 30 credits or more with a GPA of 3.5 or higher. Students planning to apply to MSU Law under LEAP should plan to take the LSAT in the summer before their junior year, or in September of their junior year, and must not apply to MSU Law later than March 1 of their junior year. Applicants must also register with the LSDAS.

### **MSU Law Requirements for LEAP with Political Science**

- Complete at least 91 credits at GVSU
- Complete all GVSU university-level requirements
- Complete all GVSU PLS major and cognate requirements
- GPA of 3.6 or above
- LSAT score of 156 or above
- Any other current MSU Law requirements

### **LEAP Admission Requirements**

- Matriculate as a first-year student at GVSU
- Political science major (There are other LEAP programs for legal studies and business majors.)
- Accumulate at least 30 credits
- GPA of 3.5 or above
- To apply, send an e-mail to Professor Richards ([richardm@gvsu.edu](mailto:richardm@gvsu.edu)) with your name, major(s), current GPA and number of credits, e-mail address, and phone number

### **Suggested Order of Coursework**

#### **Year One**

- A writing skills course
- One or two humanities/Arts general education courses
- One or two science general education courses
- Electives (or foreign language)
- One PLS course at 200-level
- PLS 102 - American Government and Politics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- PLS 103 - Issues in World Politics (3 credits)

## **Year Two**

- Three or four PLS courses at 200- or 300- level
- One or two general education courses
- Electives (or foreign language)
- Additional writing skills if needed
- PLS 300 - Political Analysis (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits) B.S. majors.

## **Year Three**

- Two or three political science courses at the 200-or 300-level
- Completion of general education courses
- PLS internship
- PLS Capstone
- PLS 315 - International Political Economy (3 credits)
- OR** PLS 341 - Elections and Voting Behavior (3 credits)

# **Political Science and Law**

The Political Science Department and Michigan State University College of Law have partnered to offer a 3+3 program that gives Grand Valley political science students the opportunity to earn a B.A. or a B.S. and a Juris Doctor (J.D.) degree in approximately six years. For more information, refer to the Political Science - Legal Education Admission Program (LEAP) section of this catalog.

# **Political Science Minor**

## **Requirements**

Students minoring in political science are required to complete at least 21 credits in political science, including PLS 102 and one of the following: PLS 103 or PLS 211. Of the remaining 15 credits, there must be one course in each of the following four fields: American politics, comparative politics, international relations, and political thought.

Please see the list of elective courses by category in the political science B.A./B.S. section of the catalog. At least nine credit hours must be at the 300-level; independent studies, internships, PLS 495 and the B.S. degree requirements courses do not count toward the 300-level requirement. No more than six credits of internship or independent study may count toward the minor. PNH 307 may count as an American politics elective.

## **Requirements for Teachable Minor in Political Science**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students seeking a teachable minor in political science must take the following courses as part of the General Education Program: ECO 210 - Introductory Macroeconomics and GPY 235 - Geography for a Changing World. Students must also complete the political science teachable minor requirements. Requires 24 credits, including:

- PLS 102 - American Government and Politics (3 credits)
- PLS 103 - Issues in World Politics (3 credits)
- PLS 206 - American Constitutional Foundations (3 credits)
- PLS 303 - Introduction to U.S. Environmental Policy (3 credits)
- PLS 211 - International Relations (3 credits)
- PLS 232 - Modern Political Thought (3 credits)
- HST 204 - World History since 1500 (3 credits)
- SST 310 - Teaching Social Studies: Secondary (3 credits)

## Practical Ethics Minors

Choosing one of these minors will add a complementary credential to students in any Grand Valley major program by providing them with a thorough grounding in philosophical thinking about ethics and value. Students can choose courses tailored to their specific area of study. A grounding in philosophical thinking, especially thinking about ethics and value, is of significant personal, practical, and professional value to students pursuing many different major programs.

Students from all majors can elect one and only one of these minors. A minimum of 18 credits are required for any of the minors. Two courses are required courses in each of the minors, PHI 102 and PHI 460. Additionally, the student must select four electives, two of which must be upper division courses (300- or 400-level).

## Ethics, Culture, and Society Minor

### Courses Required

Students must complete the following:

- PHI 102 - Ethics (3 credits)
- PHI 460 - Rights, Duties, and the Meaning of Life: Moral Philosophy (3 credits)

### Elective Courses

Select four courses (at least 12 credits) two of which must be upper division courses (300- or 400-level courses) from the list below. These four elective courses can include up to two courses noted with asterisks:

- BIO 338 - Environmental Ethics (3 credits)
- NRM 300 - Ethical Recreation: Leave No Trace (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- \*PHI 101 - Introduction to Philosophy (3 credits)
- \*PHI 103 - Logic (3 credits)
- PHI 210 - Eastern Philosophy (3 credits)
- \*PHI 220 - Aesthetics (3 credits)
- PHI 230 - American Philosophy (3 credits)
- \*PHI 250 - Existentialism (3 credits)
- PHI 300 - Theories of Human Nature (3 credits)
- PHI 320 - Power, Justice, and Freedom: Social and Political Philosophy (3 credits)
- PHI 325 - Ethics in Professional Life (3 credits)
- PHI 341 - Philosophy of Death and Dying (3 credits)
- PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)
- PHI 440 - Perception, Hallucination, Trust: Perspectives on Knowledge (3 credits)

## **Health Care Ethics Minor**

### **Required Courses**

- PHI 102 - Ethics (3 credits)
- PHI 460 - Rights, Duties, and the Meaning of Life: Moral Philosophy (3 credits)

### **Elective Courses**

Select four courses (at least 12 credits) two of which must be upper division courses (300- or 400-level courses) from the list below. These four elective courses can include up to two courses noted with asterisks:

- AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)
- BIO 328 - Biomedical Ethics (3 credits)
- \*PHI 101 - Introduction to Philosophy (3 credits)
- \*PHI 103 - Logic (3 credits)
- PHI 202 - Philosophy and Ethics of Health (3 credits)
- \*PHI 210 - Eastern Philosophy (3 credits)
- \*PHI 220 - Aesthetics (3 credits)
- \*PHI 230 - American Philosophy (3 credits)
- \*PHI 250 - Existentialism (3 credits)
- PHI 300 - Theories of Human Nature (3 credits)
- PHI 320 - Power, Justice, and Freedom: Social and Political Philosophy (3 credits)
- PHI 325 - Ethics in Professional Life (3 credits)
- PHI 341 - Philosophy of Death and Dying (3 credits)
- PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)
- PHI 420 - Philosophy of Science (3 credits)
- PHI 440 - Perception, Hallucination, Trust: Perspectives on Knowledge (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## STEM Ethics Minor

The following courses are required:

- PHI 102 - Ethics (3 credits)
- PHI 460 - Rights, Duties, and the Meaning of Life: Moral Philosophy (3 credits)

Select four courses (at least 12 credits) two of which must be upper division courses (300- or 400-level courses) from the list below. These four elective courses can include up to two courses noted with asterisks:

- BIO 338 - Environmental Ethics (3 credits)
- DS 360 - Ethics of Digital Culture (3 credits)
- \*PHI 101 - Introduction to Philosophy (3 credits)
- \*PHI 103 - Logic (3 credits)
- \*PHI 210 - Eastern Philosophy (3 credits)
- \*PHI 220 - Aesthetics (3 credits)
- \*PHI 230 - American Philosophy (3 credits)
- \*PHI 250 - Existentialism (3 credits)
- PHI 300 - Theories of Human Nature (3 credits)
- PHI 320 - Power, Justice, and Freedom: Social and Political Philosophy (3 credits)
- PHI 325 - Ethics in Professional Life (3 credits)
- PHI 341 - Philosophy of Death and Dying (3 credits)
- PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)
- PHI 420 - Philosophy of Science (3 credits)
- PHI 440 - Perception, Hallucination, Trust: Perspectives on Knowledge (3 credits)

## Prelaw

For additional information about opportunities your particular college offers, please refer to that section in this catalog.

Grand Valley State University's prelaw program, in keeping with the recommendations of U.S. law schools, is not a single major that is defined as prelaw. As law school officials point out, students will learn the law in great detail once they attend law school. Grand Valley's approach to prelaw encourages students to pursue majors and elective courses that will complement their law degree while providing the diverse intellectual foundation necessary for success in the field of law. Grand Valley also recommends that students experience courses directly related to law (see list) in order to understand if they are suited for a career in law.

For more information, please contact Professors Mark J. Richards, Ph.D. (political science); Kristine Mullendore, J.D. (criminal justice/legal studies); John Uglietta, J.D., Ph.D. (philosophy); Star Swift, M.L.I.R., J.D. (business); or Richard Harris, M.B.A., J.D., LL.M.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

(accounting and tax), or MSU College of Law Admissions: (800) 844-9352, [admiss@law.msu.edu](mailto:admiss@law.msu.edu), or refer to [gvsu.edu/prelaw](http://gvsu.edu/prelaw).

**Website:** [gvsu.edu/prelaw](http://gvsu.edu/prelaw)

## **Choice of Major**

Students choose political science to gain an understanding of the politics of the institutions that make and implement the law. Students may choose legal studies to focus directly on the processes of law making, implementation, enforcement, and practice. The legal studies program also prepares students to be legal assistants, also known as paralegals, who may not provide legal services directly to the public, except as permitted by law. Students interested in corporate law choose majors such as business, economics, engineering, computer science, and biology, among others. For international law, students may consider majoring in international relations or a foreign language, such as Chinese, French, or Spanish. Students who want to work in corrections management combine our criminal justice major with a law degree. Social science disciplines such as economics, psychology, sociology, and anthropology explain human behavior. History and classics provide lawyers with the context necessary to understand the development of our common law legal tradition. Philosophy cultivates the logical reasoning skills that are integral to a successful legal career. Communications, English, and writing refine oral and written communication skills.

## **LEAP (Legal Education Admission Program)**

Business, political science, and legal studies majors at Grand Valley State University have the opportunity to participate in the Legal Education Admission Program, which enables students to earn a bachelor's degree from Grand Valley State University and a Juris Doctor from Michigan State University College of Law in about six years, saving a year of time and money. For more information, please consult the business, political science, and legal studies sections of the Grand Valley State University Undergraduate and Graduate Catalog.

## **Prelaw Advising**

Grand Valley has formal prelaw advising available to all students by professors Mark J. Richards, Kristine Mullendore, and John Uglietta, who advise students on Grand Valley courses and majors, the law school application process, the LSAT, and legal careers. For a detailed prelaw Frequently Asked Questions (FAQ) and contact information for the advisors, please visit [gvsu.edu/prelaw](http://gvsu.edu/prelaw).

## **Courses Related to Law**

Grand Valley advises prelaw students to take several classes related to law to gain a sense of the legal field and begin preparation for law school. Here are some examples of the many courses related to law at Grand Valley:

- CLA 367 - Thinking Like a (Roman) Lawyer

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- PHI 330 - Crime, Morality, Punishment: Philosophy of Law
- WGS 310 - LGBTQ Rights and the Law
- WGS 320/CJ 320 - Crimes Against Women
- WGS 370/LS 370 - Women and the Law

### **Criminal Justice and Legal Studies: Entire Curriculum**

Examples include:

- CJ 302 - Criminal Law
- CJ 305 - Constitutional Rights and Civil Liberties
- CJ 325 - Criminal Justice and Human Rights
- CJ 340 - Courts Process
- CJ 408 - White-Collar and Corporate Crime
- LS 101 - Law in our Lives
- LS 324 - Legal Research and Writing
- Graduate Course: CJ 619 - Legal Issues in Criminal Justice

### **Political Science:**

- PLS 206 - American Constitutional Foundations
- PLS 306 - American Constitutional Law I
- PLS 307 - American Constitutional Law II
- PLS 314 - International Law

Many other political science courses cover how laws and policies are made.

### **Seidman College of Business:**

- ACC 317 - Individual Income Taxation
- ACC 318 - Entity Taxation
- BUS 201 - Legal Environment for Business
- MGT 334 - Employment and Labor Law
- MGT 355 - The Diversified Workforce
- MGT 432 - Grievance Administration, Arbitration, and Collective Bargaining

### **Seidman College of Business Graduate Level Courses:**

- ACC 612 - The Accountant's Legal Environment
- ACC 624 - Corporate Tax I
- ACC 625 - Corporate Tax II
- BUS 531 - Legal Environment of Business

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Professional Science Masters

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section of this catalog.

**Website:** [gvsu.edu/psm](http://gvsu.edu/psm)

## Degrees Offered

Master of Science in health informatics and bioinformatics; Master of Science in cell and molecular biology: biotechnology emphasis; Master of Science in biostatistics; and Master of Science in data science and analytics.

The professional science master's (PSM) degree is characterized as postgraduate educational preparation that is more practical, applied, and focused on specific workforce needs than is a traditional master's degree. Currently, more than 300 PSM degree programs exist at more than 150 universities in the U.S., Canada, Australia, Republic of Korea, and United Kingdom ([sciencemasters.org](http://sciencemasters.org)).

The PSM degree is an innovative two-year graduate degree that offers advanced technical training while developing workplace skills business, communications, teamwork, ethics that employers are demanding.

A professional science master's degree has specific characteristics:

- Complete within itself, rather than a pathway to a Ph.D.
- Interdisciplinary or cross-disciplinary in nature
- Closely tied to the scientific workforce needs of business/industry
- Includes an intensive internship experience

## Professional Science Master's

### Admission

The following are required for admission to professional science master's (PSM) degree programs:

- Grade point average of 3.0 on a 4.0 scale from all undergraduate coursework or a satisfactory score on the GRE or GMAT
- Resume detailing work experiences and accomplishments
- Personal statement of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives
- Written recommendations from at least two individuals who are in positions to attest to the applicant's potential for successful completion of the program

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- A base of underlying knowledge relevant to graduate study in one of the appropriate disciplines: health informatics and bioinformatics, cell and molecular biology, biostatistics, or data science and analytics. This can be demonstrated by previous academic study or work experience. Consultation with a program faculty advisor is necessary to verify appropriateness of work experience as a substitute for academic preparation. Candidates without sufficient relevant background experience may satisfy any deficiency with appropriate graduate or undergraduate courses, as recommended by a faculty advisor in the program and approved by the Admissions Committee and the program director.

### **Graduate Assistantships**

Graduate assistants work with PSM program faculty and staff. Qualified, full-time candidates are selected on the basis of aptitude, interests, and background.

### **Graduate Programs**

Each of the four M.S. programs are interdisciplinary, share a common core of courses, have a similar curriculum design, and a mandatory business/industry internship component, and can be characterized as a professional science master's degree program a graduate degree closely related to scientific workforce needs of business/industry. Specific details of the programs and specific requirements for each of the PSM degrees can be found in the Grand Valley State University Undergraduate and Graduate Catalog under the individual school/department/program listings.

### **Health Informatics and Bioinformatics, M.S.**

#### **Bioinformatics Focus, Health Informatics Focus**

Health informatics and bioinformatics utilizes computer technology to manage and analyze information in the life and health sciences. This degree is granted by the School of Computing within the Seymour and Esther Padnos College of Engineering and Computing. More specific information about this program can be found in the Computer Information Systems section of the Grand Valley State University Undergraduate and Graduate Catalog.

### **Cell and Molecular Biology, M.S.**

#### **Biotechnology Emphasis**

Biotechnology involves the industrial use of living organisms to produce food, drugs, and other products. This degree is granted by the Cell and Molecular Biology Department within the College of Liberal Arts and Sciences. More specific information about this program can be found in the Cell and Molecular Biology section of the Grand Valley State University Undergraduate and Graduate Catalog.

### **Biostatistics, M.S.**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Biostatistics involves the application of statistical techniques to scientific research in the life and health sciences. This degree is granted by the statistics department within the College of Liberal Arts and Sciences. More specific information about this program can be found in the Statistics section of the Grand Valley State University Undergraduate and Graduate Catalog.

## **Data Science and Analytics, M.S.**

Data science and analytics provides students with the fundamental analytics background necessary to work with big and complex data sets in any discipline. This degree is granted by the School of Computing within the Seymour and Esther Padnos College of Engineering and Computing. More specific information about this program can be found in the computer information systems section of the Grand Valley State University Undergraduate and Graduate Catalog.

## **Requirements**

### **Common Core Courses**

Requires four courses (12 credits), including:

- CMB 610 - Foundations of Biotechnology (3 credits) (Not required for data science and analytics.)
- PSM 650 - Ethics and Professionalism in Applied Science (3 credits)
- CIS 661 - Introduction to Health and Bioinformatics (3 credits) (Not required for data science and analytics.)

**AND** one of the following biostatistics courses (3 credits):

- STA 610 - Applied Statistics for Health Professions (3 credits)
- **OR** STA 622 - Statistical Methods for Biologists (3 credits)

### **Common Seminar Course**

Requires two credits:

- PSM 662 - Seminar in Professional Science Practice (2 credits)

### **Internship**

Requires four credits:

- PSM 691 - Internship (1 to 9 credits)

# **Psychology**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section of this catalog.

**Website:** [gvsu.edu/psychology](http://gvsu.edu/psychology)

Psychology is the science of the mind and behavior. Psychological scientists specialize in many areas, such as clinical psychology, counseling psychology, developmental psychology, physiological psychology, neuropsychology, industrial/organizational psychology, educational psychology, experimental psychology, cognitive psychology, social psychology, behavioral psychology, school psychology, and cross-cultural psychology. Because the interests and training of the faculty members in the department cover all of these areas, we offer a wide range of courses in the undergraduate curriculum.

Students should plan their studies in consultation with an academic advisor early and throughout their college career. Students major in psychology for various reasons, and different sets of courses are likely to be appropriate for students with different goals.

### **Career Opportunities**

Students with undergraduate psychology majors attain an understanding of empirical and theoretical discoveries in the field, and methodological approaches in psychological science. These skills serve them in a variety of employment settings and graduate programs. Students who major in psychology and then seek employment with a bachelor's degree often find jobs in business, industry, and human services settings. The latter include such settings as hospitals, residential facilities, juvenile correctional facilities, clinics, and rehabilitation centers.

Many psychology majors pursue graduate studies in a wide variety of disciplines. Some obtain masters or doctorates in psychology, in specialties that cover the full range of psychological science, including clinical psychology, cognitive psychology, social psychology, human factors engineering, developmental psychology, industrial/organizational psychology, school psychology, psycholinguistics, developmental psychology, and behavioral neuroscience. Others pursue professional training in medicine or law, while still others complete graduate work in other disciplines, including social work, education, public health, business, occupational therapy, physical therapy, library science, human resources management, and nonprofit administration.

The psychology minor can be combined with a teachable major leading to secondary certification and the teaching of psychology at the high school level. Because human interaction is central to many careers, undergraduates often elect to add a psychology minor to their major field of study. Psychology minors gain increased understanding of how people perceive, think, feel, and act based on empirical findings in the field, skills which can support them in future careers.

## **Applied Behavior Analysis Graduate Certificate**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**Website:** [gvsu.edu/grad/aba](http://gvsu.edu/grad/aba)

The GVSU psychology department is offering an online graduate level certificate program in applied behavioral analysis (ABA) that will allow students to pursue certification as a Board Certified Behavior Analyst (BCBA). Students complete seven courses (21 credits) that meet the Fifth Edition Task List coursework requirements of the Behavior Analyst Certification Board (BACB). Go to [bacb.com](http://bacb.com) for more information.

Board Certified Behavior Analysts (BCBA) conduct comprehensive behavioral assessments and design and implement behavior analytic interventions. A BCBA will provide consultation across various settings, collaborate with other professionals to make socially significant improvements for individuals and groups, and train and supervise the work of Board Certified Assistant Behavior Analysts and Registered Behavior Technicians.

### **Applied Behavior Analysis at Grand Valley**

Students enrolled in the online program will earn a graduate certificate in applied behavior analysis verified by the BACB to meet coursework requirements to become a BCBA. To become a BCBA, students must 1) possess a graduate degree (master's or doctoral), 2) complete coursework that meets the BACB task list requirements, 3) complete Experience Standards defined by the BACB, and 4) pass the BCBA certification exam.

### **Admission**

Students may enter the ABA graduate certificate program in two ways:

1. Applicants to the ABA graduate certificate program must demonstrate completion of a master's degree with a minimum 3.0 grade point average. To be eligible for consideration, applications must include submission of the following materials:

- All graduate admission materials required by the university
- A professional vita or resume
- Three professional letters of recommendation
- A personal statement outlining interest in the field of applied behavior analysis and the program at Grand Valley State University, relevant experience, and educational and professional goals

2. Students in the GVSU school psychology graduate program are automatically admitted to the ABA graduate certificate program.

Applications are accepted at any time, but preference will be given to applications received by June 1 for fall admission. Applications need to be complete before they will be considered for admission.

### **Requirements for the ABA Graduate Certificate**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students who are admitted into the certificate program must complete 21 semester credit hours with a B- or better in each course and finish with a minimum 3.0 grade point average. All courses are offered online. The first course in the program sequence starts in the fall, and students may take up to two courses per semester. PSY 522 must be completed during the first semester of the program. The coursework for the program must be completed within four years. The required curriculum consists of the following courses:

- PSY 522 - Applied Behavior Analysis I (ABA): Foundational Concepts and Principles (3 credits)
- PSY 523 - Applied Behavior Analysis II: Application to Behavior Change (3 credits)
- PSY 525 - Behavior Analysis Applied to Autism Spectrum Disorders and Developmental Disorders (3 credits)
- PSY 527 - Ethics and Diversity in Professional Practice (3 credits)
- PSY 550 - Research in Applied Settings (3 credits)
- PSY 624 - Behavioral Assessment and Intervention (3 credits)
- PSY 658 - Advanced Concepts in Applied Behavior Analysis (3 credits)

### **Suggested Order of Coursework**

Fall Semester:

- PSY 522 - Applied Behavior Analysis I (ABA): Foundational Concepts and Principles (3 credits)
- PSY 525 - Behavior Analysis Applied to Autism Spectrum Disorders and Developmental Disorders (3 credits)
- PSY 624 - Behavioral Assessment and Intervention (3 credits)

Winter Semester:

- PSY 527 - Ethics and Diversity in Professional Practice (3 credits)
- PSY 523 - Applied Behavior Analysis II: Application to Behavior Change (3 credits)

Spring/Summer Semester:

- PSY 550 - Research in Applied Settings (3 credits)
- PSY 658 - Advanced Concepts in Applied Behavior Analysis (3 credits)

Optional Course:

- PSY 590 - Applied Behavior Analysis Practicum (1 to 3 credits)

## **Bachelor of Arts or Bachelor of Science in Behavioral Neuroscience**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Behavioral neuroscience is an interdisciplinary area of study where the area of interest is the relationship between physiological and psychological systems. This major is administered by the department of psychology and is for students who are interested in issues in the emerging field of neuroscience and behavior. Study focuses on the neural mechanisms of behavior and cognition, evolutionary development of the nervous system, and mechanisms of nervous system and their application to the treatment of disorders.

The behavioral neuroscience major prepares students for graduate study in neuroscience, neuropsychology, or related fields, and for careers requiring a solid foundation in science. Many students with a behavioral neuroscience degree may also pursue professional degrees in health-related fields such as clinical psychology.

**\*\*Students wishing to pursue graduate or professional studies are strongly advised to speak with their major advisor regarding additional courses in which to enroll.**

**\*\*Premed students are also strongly advised to speak with their major advisor regarding additional courses in which to enroll.**

## **Requirements for a Major in Behavioral Neuroscience**

Students majoring in behavioral neuroscience are required to take 50 to 57 credit hours.

### **Required Courses**

- BIO 120 - General Biology I (4 credits)
- BIO 352 - Animal Behavior (3 credits)
- BIO 355 - Human Genetics (3 credits) **OR** BIO 375 - Genetics (3 credits)
- BIO 376 - Genetics Laboratory (1 credit)
- BMS 250 - Anatomy and Physiology I (4 credits)
- PSY 101 - Introductory Psychology (3 credits)
- PSY 300 - Research Methods in Psychology (3 credits)
- PSY 330 - Foundations of Behavioral Neuroscience (3 credits)
- PSY 350 - Psychology Research and Data Applications (3 credits)
- PSY 435 - Advanced Neuroscience and Behavior (3 credits)
- PSY 492 - Advanced General: The Capstone (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

### **Chemistry**

Choose one of the following:

- CHM 109 - Introductory Chemistry (4 credits)
- CHM 115 - Principles of Chemistry I (4 credits) **AND** CHM 116 - Principles of Chemistry II (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

\*Premed students are advised to take CHM 115 and CHM 116 instead of CHM 109 toward the fulfillment of the chemistry requirement.

## **Psychology**

Choose one of the following:

- PSY 370 - Cognitive Neuroscience (3 credits)
- PSY 375 - Comparative Psychology (3 credits)
- PSY 431 - Introduction to Neuropsychology (3 credits)
- PSY 432 - Psychopharmacology (3 credits)

## **Additional Course Requirements**

Two additional courses must be taken from the following. Each course must be taken from a different department.

- BIO 121 - General Biology II (4 credits)
- BIO 302 - Comparative Vertebrate Anatomy (4 credits)
- BIO 329 - Evolution of Social Behavior (3 credits)
- BIO 432 - Comparative Animal Physiology (4 credits)
- BMS 251 - Anatomy and Physiology II (4 credits)
- CHM 230 - Introduction to Organic and Biochemistry (4 credits)
- CHM 231 - Introductory Organic Chemistry (4 credits)
- PHY 200 - Physics for the Life Sciences (4 credits)
- \*\*PHY 220 - General Physics I (5 credits)
- PSY 301 - Child Development (3 credits)
- PSY 303 - Psychopathology (3 credits)
- PSY 357 - Psychology of Language (3 credits)
- PSY 361 - Perception (3 credits)
- PSY 364 - Life Span Developmental Psychology (3 credits)
- PSY 365 - Cognition (3 credits)
- PSY 420 - Theories of Personality (3 credits)

\*\*Premed students are advised to take PHY 220 instead of PHY 200

## **B.A. and B.S. Degree Requirements**

Students may earn either a B.A. or B.S. degree.

### **B.A. Degree Requirements**

- Third-semester proficiency in a foreign language

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **B.S. Degree Requirements**

- STA 215 - Introductory Applied Statistics (3 credits)
- PSY 300 - Research Methods in Psychology (3 credits)
- PSY 435 - Advanced Neuroscience and Behavior (3 credits)

## **Suggested Order of Coursework**

This pattern of coursework is suggested for those who wish to pursue a B.S. degree.

### **Year One**

Fall Semester:

- PSY 101 - Introductory Psychology
- BIO 120 - General Biology I
- MTH 110 - Algebra
- General education course

Winter Semester:

- STA 215 - Introductory Applied Statistics (B.S. degree requirement.)
- WRT 150 - Strategies in Writing
- CHM 109 - Introductory Chemistry **OR** CHM 115 - Principles of Chemistry I
- General education course

### **Year Two**

Fall Semester:

- PSY 300 - Research Methods in Psychology
- PSY 330 - Foundations of Behavioral Neuroscience
- BMS 250 - Anatomy and Physiology I
- CHM 116 - Principles of Chemistry II (Only if CHM 115 was completed.)
- General education course

Winter Semester:

- BIO 352 - Animal Behavior
- BIO 355 - Human Genetics (Students should take this course only if they do not plan on taking BIO 375.)
- General education course
- General education course

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Year Three**

Fall Semester:

- PSY 435 - Advanced Neuroscience and Behavior
- BIO 375 - Genetics (Students who have taken BIO 355 should not take this course.)
- BIO 376 - Genetics Laboratory
- Additional major course
- General education course

Winter Semester:

- PSY 370 - Cognitive Neuroscience (3 credits)
- OR** PSY 375 - Comparative Psychology (3 credits)
- OR** PSY 431 - Introduction to Neuropsychology (3 credits)
- OR** PSY 432 - Psychopharmacology (3 credits)
- Additional major course
- Issues course
- Elective

## **Year Four**

Fall Semester:

- PSY 350 - Psychology Research and Data Applications (3 credits)
- Issues course
- Elective
- Elective
- Elective

Winter Semester:

- PSY 492 - Advanced General: The Capstone (3 credits)
- Elective
- Elective
- Elective

# **Bachelor of Arts or Bachelor of Science in Psychology**

## **Requirements for a Major in Psychology**

Requirements include a minimum of 13 courses in psychology totaling 39 hours of credit.

The following courses are required for all psychology majors:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PSY 101 - Introductory Psychology (3 credits)
- PSY 300 - Research Methods in Psychology (3 credits)
- PSY 350 - Psychology Research and Data Applications (3 credits)
- PSY 400 - Advanced Research in Psychology (3 credits)
- PSY 492 - Advanced General: The Capstone (3 credits)

### **Category Requirements**

In addition, one course must be taken from each of these six categories (18 credits):

#### **1. Biological**

- PSY 330 - Foundations of Behavioral Neuroscience (3 credits)
- PSY 375 - Comparative Psychology (3 credits)
- PSY 431 - Introduction to Neuropsychology (3 credits)
- PSY 432 - Psychopharmacology (3 credits)

#### **2. Developmental**

- PSY 301 - Child Development (3 credits)
- PSY 305 - Infant and Early Childhood Development (3 credits)
- PSY 331 - Adolescent Development (3 credits)
- PSY 364 - Life Span Developmental Psychology (3 credits)

#### **3. Personality/Clinical**

- PSY 303 - Psychopathology (3 credits)
- PSY 324 - Developmental Psychopathology (3 credits)
- PSY 420 - Theories of Personality (3 credits)
- PSY 452 - Counseling: Theories and Applications (3 credits)

#### **4. Social Context**

- PSY 355 - Psychology and Culture (3 credits)
- PSY 360 - Social Psychology: Psychology's View (3 credits)
- PSY 381 - Group Dynamics (3 credits)
- PSY 445 - Industrial/Organizational Psychology (3 credits)

#### **5. Cognitive**

- PSY 357 - Psychology of Language (3 credits)
- PSY 361 - Perception (3 credits)
- PSY 365 - Cognition (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## 6. General

- PSY 311 - Controversial Issues in Psychology (3 credits)
- PSY 362 - Environmental Psychology (3 credits)
- PSY 366 - Perspectives on Aging (3 credits)
- PSY 370 - Cognitive Neuroscience (3 credits)
- PSY 405 - History and Systems (3 credits)
- PSY 410 - Tests and Measurements (3 credits)

### **Elective Courses**

Students must choose two additional psychology course electives totaling six credits.

### **Course Restrictions in Major**

For students who take PSY 399 and/or PSY 499, no more than six credits in these courses may be counted toward the major. Psychology majors must take at least one-third of the psychology credits constituting their major from the Psychology Department. Students may earn either a B.A. or B.S. degree.

## **B.A. and B.S. Degree Requirements**

### **B.A. Degree Requirements**

The B.A. degree requires third-semester proficiency in a foreign language.

### **B.S. Degree Requirements**

The B.S. degree requires the following:

- PSY 300 - Research Methods in Psychology (3 credits)
- PSY 400 - Advanced Research in Psychology (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

## **Psychology Minor**

A minimum 2.0 GPA is required in the psychology minor. A minimum 2.7 GPA is required in the minor for students seeking teaching certification at the secondary level.

### **Requirements for a Minor in Psychology**

Psychology minors are required to take a minimum of six courses in psychology totaling at least 20 semester hours of credit. PSY 101 is required, as is a methods course chosen from PSY 300 **OR** if the student is a social work major: SW 430.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Category Requirements

Psychology minors must take one course from three of the six following categories totaling nine hours:

### 1. Biological

- PSY 330 - Foundations of Behavioral Neuroscience (3 credits)
- PSY 375 - Comparative Psychology (3 credits)
- PSY 431 - Introduction to Neuropsychology (3 credits)
- PSY 432 - Psychopharmacology (3 credits)

### 2. Developmental

- PSY 301 - Child Development (3 credits)
- PSY 305 - Infant and Early Childhood Development (3 credits)
- PSY 331 - Adolescent Development (3 credits)
- PSY 364 - Life Span Developmental Psychology (3 credits)

### 3. Personality/Clinical

- PSY 303 - Psychopathology (3 credits)
- PSY 324 - Developmental Psychopathology (3 credits)
- PSY 420 - Theories of Personality (3 credits)
- PSY 452 - Counseling: Theories and Applications (3 credits)

### 4. Social Context

- PSY 355 - Psychology and Culture (3 credits)
- PSY 360 - Social Psychology: Psychology's View (3 credits)
- PSY 381 - Group Dynamics (3 credits)
- PSY 445 - Industrial/Organizational Psychology (3 credits)

### 5. Cognitive

- PSY 357 - Psychology of Language (3 credits)
- PSY 361 - Perception (3 credits)
- PSY 365 - Cognition (3 credits)

### 6. General

- PSY 311 - Controversial Issues in Psychology (3 credits)
- PSY 362 - Environmental Psychology (3 credits)
- PSY 366 - Perspectives on Aging (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PSY 370 - Cognitive Neuroscience (3 credits)
- PSY 405 - History and Systems (3 credits)
- PSY 410 - Tests and Measurements (3 credits)

### **Electives**

Students choose two additional psychology courses, totaling six credit hours, as electives.

### **Course Restrictions in the Minor**

For students who choose to take PSY 399 and/or PSY 499, no more than three credit hours in these courses may be counted toward the minor. Psychology minors must take at least one-third of the credits constituting their minor from the Psychology Department.

## **Public and Nonprofit Administration**

For additional information about opportunities your college offers, please refer to the School of Public, Nonprofit, Health, Hospitality, and Tourism Management section in this catalog.

**Website:** [gvsu.edu/spnhtml](http://gvsu.edu/spnhtml)

The mission of the School of Public, Nonprofit, Health, Hospitality, and Tourism Management (SPNHTM) is to educate students for lives of active citizenship as contributing members of their local, regional, and global communities, and for professional careers in public and nonprofit organizations. We are committed to developing in undergraduate and graduate students the capabilities for ethical judgment, critical thinking, and the core competencies necessary to fulfill multiple roles as effective managers and public servants. We advance this mission with a faculty committed to teaching excellence and actively engaged in research and community service.

### **Internships**

All undergraduates are required to enroll in an internship class in the latter part of their studies. The internship provides an opportunity for the student to sample prospective employment and for the agency to observe potential applicants for employment. A major objective of the program is to establish a mutually beneficial and reinforcing experience for the student to "learn by doing" and for the sponsoring organization to use the apprentice in studying problems and testing new ground.

Interns work under the direct supervision of agency staff on assignments that help them gain meaningful understanding about the nature and functioning of the organization. Throughout the internship, the agency supervisor evaluates the intern's field service, while the academic component (written reports) is evaluated by the academic coordinator.

### **Honor Organization**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Pi Alpha Alpha is the national honor society for the field of public affairs and public administration. The purpose of this society is to encourage and recognize outstanding scholarship and accomplishment in public affairs and administration. The society seeks to promote the advancement of quality in the education and practice of the art and science of public affairs and administration.

### **Graduate School Opportunities**

Various professional master degree programs are available to students interested in public service with government, nonprofit, or health organizations. SPNHTM offers a Master of Public Administration (M.P.A.) and a Master of Health Administration (M.H.A.). For working professionals with at least three years of nonprofit administrative experience, SPNHTM offers a graduate certificate in nonprofit leadership and a Master of Philanthropy and Nonprofit Leadership (M.P.N.L.).

## **Bachelor of Arts or Bachelor of Science in Public and Nonprofit Administration**

The baccalaureate program provides professional orientation and career specialization upon a sound liberal arts foundation. It is an interdisciplinary program designed to provide students with the skills and knowledge necessary for successful careers in public and nonprofit organizations. The curriculum emphasizes general public and nonprofit administration knowledge but also requires students to concentrate in selected areas of emphasis.

Both freshmen and transfer students who are admitted to Grand Valley are eligible for admission to the program. Students interested in public and nonprofit administration should seek the advice of faculty in the program, especially when choosing courses to fit various needs and interests.

### **Requirements**

Prerequisite for public and nonprofit administration major:

- PLS 102 - American Government and Politics (3 credits)

Major consists of 36 credit hours including:

- PNH 490 - Public Administration Internship (3 credits)

Students must complete the following (24 credit hours):

- PNH 270 - Public and Nonprofit Administration (3 credits)
- PNH 307 - Local Politics and Administration (3 credits)
- PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PNH 375 - Public Budgeting and Finance Administration (3 credits)
- PNH 376 - Public Personnel Policy and Administration (3 credits)
- PNH 420 - Organization Theory and Dynamics (3 credits)
- PNH 495 - Community Analysis (Capstone) (3 credits)

Students must also complete one of the following electives (three credit hours):

- PNH 330 - Health Care Financing (3 credits)
- PNH 335 - Grant Writing (3 credits)
- PNH 372 - International and Comparative Administration (3 credits)
- PNH 395 - Emergency Management (3 credits)

## **B.A. and B.S. Degree Requirements**

### **B.A. Degree Requirements**

Majors seeking a B.A. degree must demonstrate third-semester proficiency in a foreign language.

### **B.S. Degree Requirements**

Majors seeking a B.S. degree must complete the following:

- STA 215 - Introductory Applied Statistics (3 credits)
- PNH 300 - Research Methods (3 credits)
- PNH 449 - Policy Research and Evaluation (3 credits)

## **Specialty Areas**

Students must select one specialty consisting of at least nine credit hours. **Some specialties also require that a specific PA course be taken as an elective.** PNH 372, PNH 380, PNH 490, and PNH 491 may count in any area with an academic advisor's approval.

### **Community Development and Planning**

- GPY 307 - Introduction to Geographic Information Systems (3 credits)
- GPY 209 - Introduction to Urban and Regional Planning (3 credits)
- HST 327 - History of United States Urban Society (3 credits)
- PNH 390 - Leadership Dynamics (3 credits)
- PLS 338 - Citizenship (3 credits)
- SOC 313 - Race and Ethnicity (3 credits)

**AND** the B.S. course requirement:

- PNH 449 - Policy Research and Evaluation (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Public Personnel Management**

- INT 331 - Person and Profession in a Global Environment (3 credits)
- MGT 334 - Employment and Labor Law (3 credits)
- MGT 355 - The Diversified Workforce (3 credits)
- MGT 432 - Grievance Administration, Arbitration, and Collective Bargaining (3 credits)
- PNH 390 - Leadership Dynamics (3 credits)
- PHI 325 - Ethics in Professional Life (3 credits)

## **Local Economic Development**

- BUS 201 - Legal Environment for Business (3 credits)
- CAP 220 - Fundamentals of Public Relations (3 credits)
- ECO 200 - Business Economics (3 credits)
- HTM 101 - Introduction to Hospitality and Tourism (3 credits)
- MGT 339 - Business and Society (3 credits)

## **Public and Nonprofit Budgeting and Finance**

- ACC 212 - Principles of Financial Accounting (3 credits)
- ACC 213 - Principles of Managerial Accounting (3 credits)
- CIS 231 - Problem Solving Using Spreadsheets (3 credits)
- ECO 210 - Introductory Macroeconomics (3 credits)
- ECO 211 - Introductory Microeconomics (3 credits)
- FIN 331 - Risk and Insurance (3 credits)
- PNH 335 - Grant Writing (3 credits)

## **Community Health**

- PH 222 - Public Health Concepts (3 credits)
- COM 209 - Health Communication Systems (3 credits)
- AHS 340 - Health Care Management (3 credits)
- MKT 350 - Marketing Management (3 credits)
- OSH 300 - Introduction to Occupational Safety and Health (3 credits)
- PLS 310 - Politics and Health Policy (3 credits)

**AND** this required elective:

- PNH 330 - Health Care Financing (3 credits)

## **Nonprofit Management**

- INT 341 - Leadership for Social Change (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MKT 350 - Marketing Management (3 credits)
- PNH 335 - Grant Writing (3 credits)
- PNH 370 - Human Dynamics of Nonprofit Organizations (3 credits)
- PNH 374 - Fundraising and Financial Management for Nonprofit Organizations (3 credits)
- PNH 390 - Leadership Dynamics (3 credits)

## **Master of Philanthropy and Nonprofit Leadership**

For additional information about opportunities your college offers, please refer to the School of Public, Nonprofit, Health, Hospitality, and Tourism Management (SPNHTM) section in this catalog.

**Website:** [gvsu.edu/grad/mpnl](http://gvsu.edu/grad/mpnl)

Grand Valley State University's Master of Philanthropy and Nonprofit Leadership (M.P.N.L.) is offered through the School of Public, Nonprofit, Health, Hospitality, and Tourism Management and develops both the general knowledge and specific abilities needed for leadership in a fast-changing world.

The M.P.N.L. curriculum is designed to prepare students to act ethically and effectively in leading and managing philanthropic and nonprofit organizations, and to transcend traditional boundaries in the pursuit of prosperous, safe, and healthy communities.

- **Versatile**

Students may choose from emphases in community impact, mission advancement, nonprofit healthcare, or they may create a custom emphasis area with the guidance and approval of their advisor.

- **Convenient**

Courses are offered on the Pew Grand Rapids Campus in downtown Grand Rapids, MI.

- **Flexible**

Available to full- or part-time students. Many classes are offered at times to accommodate working professionals, including evening and weekend courses and workshops, and Internet-enhanced learning.

The M.P.N.L. degree is available to working professionals with at least three years of full-time experience in management, or employment within the nonprofit sector. It consists of 36 credit hours of coursework, and students must meet with an advisor upon entry into the program to develop a program of study.

**Minimum Number of Hours for Graduation: 36**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## Admission

The admissions policies of the school follow the mission by our commitment to attract and educate a diverse student population that is dedicated to public service as a career. We seek students from diverse backgrounds, with various baccalaureate educations and professional experience in diverse public service activities.

A complete application to the M.P.N.L. program requires the following:

- A completed graduate application
- A nonrefundable application fee, unless the applicant has previously applied to Grand Valley State University and has paid this fee
- An official transcript from each undergraduate and graduate institution
- Three letters of reference from informed sources
- An essay on career and educational objectives (250 to 750 words)
- A resume
- Submission of an official TOEFL or IELTS score report is required of applicants whose native language is not English

Applications will not be reviewed until they are complete. The admissions committee may request additional information or a personal interview if it deems them appropriate and necessary.

The admissions committee is looking for the evidence that an applicant will be successful if admitted into the M.P.N.L. program. This evidence can take several forms. Furthermore, the admissions committee considers each applicant as a whole student. No decision is based solely on any single factor. A strong applicant for the M.P.N.L. program will have the following:

- A 3.0 grade point average from an accredited college or university, calculated on the last 60 credits of undergraduate work. (This GPA will include all courses, including those classes that may have been repeated or transferred.) Also, holding a graduate degree, a graduate certificate, or having successfully completed at least 12 semester hours in another graduate program, will be considered as strong evidence of an applicant's academic competency to do graduate level work in the M.P.A. program.
- The equivalent of three years of managerial experience.
- Three years of service with a nonprofit organization.
- Three positive recommendations from well-informed sources such as current and/or former professors or supervisors. These letters will address the applicant's academic skills, analytical and problem solving abilities, professionalism, reliability, and/or work ethic.
- A demonstrated commitment to community and public service. This would normally be in the form of three or more years of professional work experience since receiving a baccalaureate degree.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An applicant concerned about falling short on the preceding criteria may want to consider these recommendations for securing favorable evidence of their competency to do graduate-level work in the M.P.A. program.

- Submitting a GRE score is recommended for applicants who lack a 3.0 undergraduate GPA. The GRE is also recommended for applicants applying for a graduate assistantship with SPNHA. GRE scores of at least 550 verbal and 620 quantitative will be considered favorably.
- Successfully completing graduate-level coursework as a nondegree-seeking student is recommended for applicants who lack a 3.0 undergraduate GPA. However, 12 credits taken as a nondegree-seeking student is the limit that can be applied to the M.P.N.L. program upon admission. Receiving a B or better as a nondegree-seeking student will be considered favorably.

In some cases, an applicant that is seen as strong except for a specific area of deficiency may be offered admission on a condition that they take a course to rectify that deficiency before proceeding with the M.P.N.L. coursework.

## **Degree Requirements**

The M.P.N.L. degree consists of 36 credit hours for working professionals with at least three years of full-time experience in management or employment within the nonprofit sector.

### **Core Courses**

The program core includes 21 credit hours, as follows:

- PNH 611 - Research Methods (3 credits)
- PNH 612 - Human Resources in Organizations (3 credits)
- PNH 614 - Organization Theory (3 credits)
- PNH 660 - Philanthropy and the Nonprofit Sector: History and Ethics (3 credits)
- PNH 661 - Nonprofit Management: Practices (3 credits)
- PNH 662 - Nonprofit Financial Management (3 credits)
- PNH 667 - Fund Development (3 credits)
- PNH 669 - Leadership Capstone (3 credits)

## **Emphases**

Students select one emphasis area of study of nine credit hours. The choices of emphases are as follows.

### **Community Impact**

- MGT 672 - Creativity and Social Entrepreneurship (3 credits)
- PNH 666 - Foundations and Strategic Grantmaking (3 credits)
- PNH 664 - Program Evaluation (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Mission Advancement**

- PNH 643 - Strategic Management and Planning (3 credits)
- PNH 665 - Nonprofit and Foundation Boards, Trustees and Governance (3 credits)
- PNH 663 - Nonprofit Organizations, Advocacy and Public Policy (3 credits) **OR** PNH 670 - International NGO Management (3 credits)

## **Nonprofit Healthcare**

- PNH 630 - Health Administration and Service (3 credits)
- PNH 639 - Community Benefits Assessment and Management (3 credits)
- PNH 640 - Marketing Health and Human Services (3 credits)

## **Custom Emphases**

To meet specific learning and career goals, a student may create a custom emphasis area with the guidance and approval of their advisor.

## **Elective Courses**

Students choose three one-credit courses from the philanthropy topics, trends, and thought leaders workshop series.

- PNH 554 - Philanthropic Topics, Trends, and Thought Leaders Workshop (.5 to 3 credits)

# **Master of Public Administration**

For additional information about opportunities your college offers, please refer to the School of Public, Nonprofit, Health, Hospitality, and Tourism Management section in this catalog.

**Website:** [gvsu.edu/grad/mpa](http://gvsu.edu/grad/mpa)

Master of Public Administration (M.P.A.) graduates are leaders. They lead their communities and organizations on the basis of advanced administrative skills with a dedication to democratic values and public service. In today's global society, such leadership takes many forms and occurs in a variety of settings. The mission of the master of public administration is to develop both the general knowledge and specific abilities needed for professional careers in public service organizations. The curriculum is designed to prepare students to act ethically and effectively in state, regional, and local governance policy analysis, nonprofit management, criminal justice, and health care administration.

As a professional school in an urban setting, the Master of Public Administration is actively involved with the community in professional service activities and applied research. The program offers flexibility and innovation in curriculum design to meet the diverse educational needs of part-time and full-time students, including evening and weekend courses and

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

workshops, and hybrid and online learning. Because careers in administration are varied and include the public, private, and nonprofit sectors, the curriculum is designed to develop advanced executive abilities through a combination of core competencies and specialized areas of concentration. Satisfactory completion of the program of study leads to the award of the M.P.A. degree.

**Minimum Number of Hours for Graduation:** 39 (42 for pre-career students)

### **Accreditation**

Network of Schools of Public Policy, Affairs and Administration.

### **Admission**

Admission to the Master of Public Administration program requires the following:

- An undergraduate grade point average of at least 3.0 on a 4.0 scale, calculated on the last 60 credit hours of undergraduate coursework.
- Three letters of reference from informed sources.
- A detailed resume.
- An essay on career and educational objectives (250-750 words).
- A demonstrated commitment to community and public service.

Note: For applicants who have neither a 3.0 undergraduate GPA nor five years of professional experience, submitting a GRE score is recommended. The GRE is also recommended for applicants applying for a graduate assistantship with SPNHTM.

### **Transfer Credit**

A maximum of 12 semester hours of transfer credit will be given for appropriate graduate courses completed within the previous five-year period with a grade of B or better at another college or university. These transfer credits may be substituted for required courses or given general credit as determined by the faculty.

### **Requirements**

The M.P.A. degree consists of a minimum of 39 credit hours of coursework. Pre-career students must take three credit hours of internship in addition to the 39 required hours of coursework for a total of 42 credit hours. Students must meet with an advisor upon entry into the program to develop a program of study.

### **Core Courses**

The program core requires the following (18 credits):

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PNH 520 - Foundations of Public Service (3 credits)
- PNH 611 - Research Methods (3 credits)
- PNH 612 - Human Resources in Organizations (3 credits)
- PNH 614 - Organization Theory (3 credits)
- PNH 615 - Public Financial Administration (3 credits)
- PNH 619 - Public Management Seminar (3 credits)

### **Concentration Areas**

Students must select one concentration (15 credits) from the following five options.

#### **Criminal Justice**

- CJ 601 - Criminal Justice Leadership (3 credits)
- CJ 619 - Legal Issues in Criminal Justice (3 credits)
- CJ 604 - Criminal Justice Policy and Program Evaluation (3 credits)
- CJ 607 - Criminology (3 credits)

**AND** one of the following courses:

- PNH 620 - Metropolitan Politics and Administration (3 credits)
- PNH 621 - Administrative and Regulatory Law (3 credits)

#### **Health Administration**

- PNH 630 - Health Administration and Service (3 credits)
- PNH 631 - U.S. Health Policy and Politics (3 credits)

**AND** two of the following courses:

- PNH 632 - Health Services Financial Management (3 credits)
- PNH 633 - Health Economics (3 credits)
- PNH 634 - Health Care Law and Ethics (3 credits)
- PNH 639 - Community Benefits Assessment and Management (3 credits)
- PNH 640 - Marketing Health and Human Services (3 credits)
- PNH 645 - Opportunities in Aging Societies (3 credits)

#### **Nonprofit Management and Leadership**

- PNH 660 - Philanthropy and the Nonprofit Sector: History and Ethics (3 credits)
- PNH 661 - Nonprofit Management: Practices (3 credits)
- PNH 662 - Nonprofit Financial Management (3 credits)

**AND** two of the following courses:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PNH 641 - Economic and Community Development (3 credits)
- PNH 663 - Nonprofit Organizations, Advocacy and Public Policy (3 credits)
- PNH 664 - Program Evaluation (3 credits)
- PNH 665 - Nonprofit and Foundation Boards, Trustees and Governance (3 credits)
- PNH 666 - Foundations and Strategic Grantmaking (3 credits)
- PNH 667 - Fund Development (3 credits)
- PNH 670 - International NGO Management (3 credits)

#### Policy Analysis, Advocacy, and Evaluation

- PNH 616 - Public Policy Analysis (3 credits)
- PNH 664 - Program Evaluation (3 credits)

**AND** three of the following courses:

- PNH 621 - Administrative and Regulatory Law (3 credits)
- PNH 631 - U.S. Health Policy and Politics (3 credits)
- PNH 639 - Community Benefits Assessment and Management (3 credits)
- PNH 643 - Strategic Management and Planning (3 credits)
- PNH 663 - Nonprofit Organizations, Advocacy and Public Policy (3 credits)
- PNH 674 - Health Advocacy and Built Environment in Public Administration (3 credits)
- CJ 604 - Criminal Justice Policy and Program Evaluation (3 credits)

#### State, Regional, and Local Governance

- PNH 620 - Metropolitan Politics and Administration (3 credits)
- PNH 641 - Economic and Community Development (3 credits)
- PNH 643 - Strategic Management and Planning (3 credits)

**AND** two of the following courses:

- PNH 621 - Administrative and Regulatory Law (3 credits)
- PNH 642 - Conflict Management (3 credits)
- PNH 644 - GIS in the Public Service (3 credits)
- PNH 664 - Program Evaluation (3 credits)
- PNH 671 - Building Sustainable Communities (3 credits)

#### **Elective Courses**

Requires six credits; the remainder of the M.P.A. program credits come from electives.

The elective component of the M.P.A. degree can be made up of the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Three one-credit workshops **AND** one additional course from one other concentration (or outside the SPNHTM unit with prior approval)
- **OR** two three-credit courses from our curriculum.

The number of elective credits is reduced by three if the student completes a second three-credit internship.

Choose electives from the following list:

- Any PA course in a concentration listed previously
- PNH 535 - Grant Writing (3 credits)
- PNH 550 - Public Administration Workshop (.5 to 3 credits)
- PNH 551 - Public Administration Workshop (1 to 3 credits)
- PNH 635 - Hospital Organization and Management (3 credits)
- PNH 637 - Healthcare Practice Management (3 credits)
- PNH 638 - Continuing Care Organization and Management (3 credits)
- PNH 646 - Managerial Epidemiology for Health Administrators (3 credits)
- PNH 680 - Special Topics in Public and Nonprofit Administration (1 to 3 credits)

## **Internship**

All pre-career students are required to take at least one three-credit internship in addition to 39 hours of coursework. Students may choose to take a second internship for a total of six credits.

- PNH 690 - Public Administration Internship I (3 credits)
- PNH 691 - Public Administration Internship II (3 credits)

## **Capstone**

Students must take a three-credit culminating experience at the end of their studies.

Most students will take PNH 619 as their culminating experience. They must have completed 30 credits of coursework before registering for PNH 619. As an alternative to PNH 619, students may opt for a research project as their culminating experience.

- PNH 619 - Public Management Seminar (3 credits)
- PNH 693 - Research Project (3 or 6 credits)

## **Nonprofit Administration Minor**

What do neighborhood associations, local development corporations, children and youth groups, religious organizations, museums, advocacy and support groups, chambers of commerce, and community clinics all have in common? They are all nonprofit organizations that carry out important public service missions in health, recreation, culture, education, religion, or

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

philanthropy. Thousands of large and small nonprofit organizations in Michigan employ people to work in program and event planning, grant writing, fundraising, public relations, program evaluation, and marketing. The minor in nonprofit administration provides students with knowledge and skills useful in understanding and participating in the work of the nonprofit sector.

## **Requirements for a Minor in Nonprofit Administration**

### **Core Courses**

The minor in nonprofit administration consists of 21 credits, including:

- PNH 270 - Public and Nonprofit Administration (3 credits)
- PNH 335 - Grant Writing (3 credits)
- PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)
- PNH 420 - Organization Theory and Dynamics (3 credits)
- PNH 490 - Public Administration Internship (3 credits)

**AND** two courses from the following:

- MGT 355 - The Diversified Workforce (3 credits)
- MKT 350 - Marketing Management (3 credits)
- PNH 376 - Public Personnel Policy and Administration (3 credits)
- PNH 390 - Leadership Dynamics (3 credits)
- PNH 449 - Policy Research and Evaluation (3 credits)
- PNH 491 - Public Administration Internship II (3 credits)

## **Nonprofit Leadership Graduate Certificate**

The graduate certificate in nonprofit leadership provides a unique opportunity to pursue a theoretically based and practically oriented education in leadership for nonprofit professionals. This program offers nonprofit managers the up-to-date professional skills and perspectives required to lead their organizations in the rapidly changing and complex nonprofit sector of society.

The certificate in nonprofit leadership is designed for the experienced nonprofit manager who has an advanced degree or an undergraduate degree and several years of professional experience. It is intended for those holding or seeking executive positions that wish to further their education without pursuing the full requirements for a graduate degree. However, courses and workshops taken in the certificate program may be applied toward the master of public administration.

### **Admission**

Applicants for the graduate certificate program in nonprofit leadership must:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Apply to the School of Public, Nonprofit, Health, Hospitality, and Tourism Management
- Hold an advanced degree or a bachelor's degree with a minimum GPA of 3.0 in the last two years of undergraduate work
- Have at least three years of professional experience in nonprofit organizations
- Submit official transcripts and an application essay

The certificate requires the completion of 15 credit hours of graduate study.

### **Required Courses**

There are 15 credits required, including:

- PNH 661 - Nonprofit Management: Practices (3 credits)
- PNH 662 - Nonprofit Financial Management (3 credits)
- PNH 663 - Nonprofit Organizations, Advocacy and Public Policy (3 credits)
- PNH 665 - Nonprofit and Foundation Boards, Trustees and Governance (3 credits)

**AND** three credits from the following list:

- PNH 550 - Public Administration Workshop (.5 to 3 credits)
- PNH 551 - Public Administration Workshop (1 to 3 credits)
- PNH 667 - Fund Development (3 credits)

## **Public Administration Minor**

### **Requirements**

To earn a minor in public administration, students are required to complete the following (21 credits):

- PNH 270 - Public and Nonprofit Administration (3 credits)
- PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)
- PNH 375 - Public Budgeting and Finance Administration (3 credits)
- PNH 376 - Public Personnel Policy and Administration (3 credits)
- PNH 420 - Organization Theory and Dynamics (3 credits)
- PNH 495 - Community Analysis (Capstone) (3 credits)
- PNH 307 - Local Politics and Administration (3 credits) **OR** PLS 203 - State Politics (3 credits)

## **Combined B.S./B.A. in Public and Nonprofit Administration and Master of Public Administration Program**

Qualified undergraduate public administration students may be admitted to a combined bachelor's/master's program and obtain both a B.S. or a B.A. and an M.P.A. within an

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

accelerated time frame. Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 12 credits of graduate work may be used in partial satisfaction of the requirements for the undergraduate degree.

Undergraduates may apply to the program after:

- A student has reached junior standing or 75 credit hours with at least 30 credit hours completed at GVSU;
- A cumulative GPA of 3.3 or above with the expectation to maintain that throughout the current semester;
- Completion of PNH 270, PNH 300, PNH 307, PNH 360, PNH 375, PNH 449, STA 215, and MTH 215 with B or better; and
- PA 520: Foundations of Public Management taken during an undergraduate student's fifth or sixth semester with a grade of B or better.

<b>Graduate Course Substitution</b>	<b>Undergraduate Course</b>	<b>Credit Hours</b>
PNH 612	PNH 376	3 graduate credit hours
PNH 614	PNH 420	3 graduate credit hours
PNH 535, PNH 620, PNH 630, PNH 641, or PNH 660 (choose one)	Additional Elective	3 graduate credit hours

Note: PNH 535 requires no prerequisite but does require admission into M.P.A. program. PNH 520 must be taken in a student's fifth or sixth semester prior to enrolling in PNH 612, PNH 614, PNH 620, PNH 630, PNH 641, or PNH 660.

PNH 612 and PNH 614 fulfill the B.S./B.A. undergraduate core requirements in personnel management and organization theory, while the other courses fulfill the B.S undergraduate College of Education and Community Innovation elective requirements. No more than four 500- or 600-level courses can be counted toward the minimum 39 hours of the M.P.A. degree as a combined B.S. or B.A./M.P.A. student.

If students earn at least a grade of B in each of these graduate-level classes, they are able to continue in the Master of Public Administration program and must then complete an additional 27 credits (nine classes) to receive the master's degree.

All combined degree students will be required to take one, three-credit hour, graduate-level internship (PNH 690) prior to graduating with a master's degree. This internship requirement is in addition to the undergraduate internship requirement (PNH 490). After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree.

A minimum of 27 graduate credits must be completed after the 120 credits for the bachelor's degree have been completed. The M.P.A. program requires 39 hours, plus one three-credit internship for a total of 42 graduate credit hours for B.S./M.P.A. and B.A./M.P.A. students.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

B.S./M.P.A. and B.A./M.P.A. students should refer to the M.P.A. Program of Study for a list of courses required for the degree.

### **Admission**

Students will normally apply for the combined B.S./M.P.A. program during their third academic year. Acceptance recommendations will be made by the School of Public, Nonprofit, Health, Hospitality, and Tourism Management Admissions Committee after evaluation of the application and the completion of all application requirements. Other application requirements include:

- 3.3 overall undergraduate GPA at the time of application
- Curriculum vitae or resume
- Three letters of recommendation, applicants must include one letter from SPNHTM faculty
- Students must meet with M.P.A. graduate program director prior to applying to the program

### **Requirements during Undergraduate Studies**

An undergraduate student enrolled in the combined degree program is required to successfully complete a minimum of 12 credits each semester until all undergraduate courses required for the degree have been completed (except when completing an internship or other extenuating circumstances).

- Students will maintain a cumulative undergraduate GPA of at least 3.3, earning a C or better in each undergraduate course attempted; and
- Students will earn a B or better in each graduate course attempted.

All university requirements, including general education courses, must be completed before the final year of the combined B.S. or B.A./M.P.A. program.

### **Graduation without Completion of the Combined Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the School of Public, Nonprofit, Health, Hospitality, and Tourism Management will still recognize the graduate courses taken in lieu of undergraduate courses. Graduate credits used for the undergraduate degree cannot be used toward a graduate degree at a later date.

## **Public Health**

Housed in the Department of Public Health within the College of Health Professions.

**Website:** [gvsu.edu/grad/mph](https://gvsu.edu/grad/mph)

### **Degree Offered**

Master of Public Health

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Emphases**

- Epidemiology
- Health Promotion

The Master of Public Health (M.P.H.) program focuses on coursework and community-based, high-impact service learning to provide advanced service and care that includes health promotion, disease management and education, or epidemiology to communities and groups across the life span.

The M.P.H. program emphasizes evidence-based practice, critical thinking, and problem solving through rigorous research inquiry and project-based work. The program is designed to develop knowledge and skills necessary to prevent and manage complex health issues. Graduates of this program are prepared for direct roles in public health and to be leaders in improving population health through a diverse range of roles across multiple industries including local, state, and national sectors, nonprofit organizations, government, and research.

The M.P.H. program consists of 48 credit hours of coursework in a diverse learning environment that includes hybrid options and on-campus, face-to-face coursework that requires active and immersive, community-based learning. Students complete a 200-hour practicum experience which may be completed in a variety of settings including local, state, national, and global settings. In addition, students complete an individualized research project (or thesis option) as a culmination of the program.

Highlights of this program include an efficient completion time of 20 months as a full-time student, a comprehensive program offering two emphasis areas of choice: health promotion or epidemiology, and 100 percent community-based learning in every course throughout the public health curriculum.

## **Mission**

To transform students into public health leaders through application of practice-based skills.

## **Philosophy**

Advancing health by empowering future leaders, enhancing preventive practices, and promoting social justice.

## **Values**

The following values support the master of public health program and align with the university and College of Health Professions strategic goals:

- Community engagement
- Interprofessional practice
- Professional and ethical behavior

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Cultural humility and inclusiveness
- Respect for diversity
- Excellence in teaching, scholarship, and practice

### **Accreditation**

The M.P.H. program at GVSU is fully accredited by the Council on Education for Public Health (CEPH). CEPH accreditation assures students enrolled in institutions of higher education, which offer public health degree-granting programs, have programs that meet and maintain rigorous standards for teaching, research, and service. CEPH accreditation requires a rigorous self-study process by GVSU to assure that its proposed M.P.H. program will meet, monitor, and evaluate its adherence to providing quality teaching, research, and service for its curriculum and curricular areas of core concentrations. Further, CEPH assures prospective employers of graduates from accredited M.P.H. programs that these graduates have met the required competencies to be deemed as qualified to seek gainful employment in the range of public health occupations\*.

\*Council on Education for the Public Health. (2011). Accreditation Criteria for Public Health Programs (amended June 2011). CEPH: Washington, D.C. Retrieved from: [ceph.org](http://ceph.org).

### **Minimum Number of Hours in Program: 48**

### **Admission**

Students will be chosen for acceptance into the M.P.H. program based on the following program requirements:

- A minimum grade point average of 3.0 on a 4.0 scale for all undergraduate coursework is required. A bachelor's degree is required, in a health-related field is preferred.
- Written recommendations from at least two individuals who are in positions to attest to the applicant's successful completion of the program. An academic reference as well as a health care professional reference is preferred.
- Resume
- Personal Essay. A written statement that addresses the following questions: What would make you an excellent candidate for the Grand Valley State University M.P.H. program? What are your expectations for a future career in public health?

### **Considerations**

- The Application Review Committee reserves the right to require additional information it deems appropriate, including GRE test scores.

The following university requirements must also be met:

- A baccalaureate degree from an accredited institution of higher education.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- GVSU Graduate Application.
- Thirty-dollar application fee. Note: Students who have previously paid an undergraduate or graduate application fee to GVSU do not need to pay this fee again.
- Official copies of transcripts from all institutions of higher education previously attended, sent directly from those institutions to the GVSU Admissions Office. Note: We do not require official transcripts from Grand Valley.
- Test scores from the TOEFL (Test of English as a Foreign Language), or IELTS (International English Language Assessment Battery) for applicants whose native language is not English. Only original score reports will be accepted.

## **Retention and Termination**

### **Grounds for Probation**

- A final course grade below a 2.7 (B-) in a 500-, 600-, or 700-level course.
- A final grade below a 2.0 (C) in a 500- or 600-level course.
- A cumulative graduate level GPA less than 3.0 (B) after completion of twelve hours of graduate level coursework (i.e., at the end of semester one).
- Evidence of unethical or illegal behavior while matriculating as a student in the M.P.H. program.

### **Practicum Experience**

Students will not be allowed to participate in practicum experiences if there is a reason to believe that they are unprepared for this type of experience. Sufficient reasons include:

- Probationary status.
- Questions about the student's ability to safely work in the health care field.
- Evidence of unethical or illegal behavior.
- Medical or psychological conditions that could endanger the safety of the student or the patients entrusted to them, or that prevent the student from fully participating in the practicum experience.
- Problems identified with professional abilities may result in a student being regarded by faculty as unprepared for practicum. With the assistance of faculty, the student must resolve the problem area prior to the practicum assignment.
- If a student does not satisfactorily complete the core coursework, he/she may not progress to the thesis/project or practicum courses.

### **Dismissal from the Program**

Any one of the following items may constitute grounds for dismissal from the program:

- Failure to complete required remedial work at the required level.
- Failure to complete items required in a remediation contract.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Final grades that result in probation during two consecutive semesters.
- Failure to demonstrate "continued competency" of past course content.
- Evidence of unethical or illegal behavior while matriculating as a student in the M.P.H. program.
- Cumulative graduate GPA of less than 3.0.

### **Program Location**

Practicum experiences can be within Michigan, other select states, or globally during the final year of the M.P.H. curriculum.

## **Master of Public Health**

### **M.P.H. Curriculum**

- PH 500 - Introduction to Public Health (3 credits)
- PH 505 - Social and Behavioral Public Health (3 credits)
- PH 510 - Public Health Epidemiology (3 credits)
- PH 520 - Environmental and Occupational Health (3 credits)
- PH 525 - Quantitative Research Methods in Public Health (3 credits)
- PH 530 - Qualitative Research Methods in Public Health (3 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

### **Emphasis Area**

M.P.H. students will choose one of two available emphasis options to complement the core curriculum courses. Please note some electives may not be offered within a student's planned time to degree.

### **Epidemiology (Credits 21)**

Core courses (15 credits):

- PH 600 - Advanced Quantitative Research Methods in Public Health (3 credits)
- PH 602 - Chronic Disease Epidemiology (3 credits)
- PH 608 - Infectious Disease Epidemiology (3 credits)
- PH 610 - Cancer Epidemiology (3 credits)
- PH 612 - Public Health Genetics (3 credits)

Elective courses (6 credits):

- PH 603 - Epidemiology of Aging (3 credits)
- PH 604 - Women's and Children's Epidemiology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PH 605 - Pharmacoepidemiology (3 credits)
- PH 606 - Environmental and Occupational Epidemiology (3 credits)
- PH 613 - Psychiatric Epidemiology (3 credits)
- PH 633 - Public Health and Environmental Impact Assessment (3 credits)
- PH 643 - Environmental Risk and Society (3 credits)
- PH 660 - Public Health in a Global Setting (3 credits)

### **Health Promotion (21 credits)**

Core courses (15 credits):

- PH 620 - Health Education (3 credits)
- PH 622 - Health Behavior and Promotion (3 credits)
- PH 628 - Health Program Evaluation (3 credits)
- PH 630 - Health and Disease Disparities in Diverse Communities (3 credits)
- PH 632 - Public Health Social Campaigning and Distribution (3 credits)

Elective courses (9 credits):

- COM 624 - Public Health Communication (3 credits)
- PH 621 - Introduction to Urban Health Studies (3 credits)
- PH 623 - Food, Health, and Justice (3 credits)
- PH 625 - Urban Health Field Studies (3 credits)
- PH 626 - Health Advocacy and Literacy (3 credits)
- PH 627 - Public Health Interest Groups (3 credits)
- PH 629 - Advocacy Strategies in Public Health (3 credits)
- PH 631 - Critical Issues in Public Health Advocacy and Policy (3 credits)
- PH 633 - Public Health and Environmental Impact Assessment (3 credits)
- PH 645 - Global Environmental and Occupational Health (3 credits)
- PH 660 - Public Health in a Global Setting (3 credits)

### **Explanation of the Emphasis Options**

#### **Epidemiology**

Epidemiology emphasis prepares students to describe quantitative trends in health and disease for populations, with application in the biological, environmental, behavioral, and social sciences. Epidemiology specialty allows professionals to collaborate with multidisciplinary teams of health professionals, such as physicians, laboratory scientists, exercise physiologists, nutritionists, statisticians, veterinarians, and behavioral scientists.

#### **Health Promotion**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Health promotion emphasis prepares students to be public health leaders who can design, implement, advocate for, and evaluate efforts to promote healthy behaviors and social conditions for specific populations. Health promotion allows students to use social science theories and individual, community, and policy-based intervention strategies.

#### **Additional Courses Required by all M.P.H. Candidates:**

- PH 688 - Public Health Practicum (3 credits) **OR** PH 689 - Public Health Practicum in a Global Setting (3 credits)
- PH 693 - Public Health Master's Project (1 to 3 credits) **OR** PH 695 - Public Health Master's Thesis (3 credits)
- PH 696 - Continuation of Master's Project or Thesis Research (1 credit) If needed for extended time.

## **Combined Bachelor of Science in Allied Health Science General Emphasis and Master of Public Health**

Qualified undergraduates may be admitted to a combined bachelor's/master's program and obtain both a B.S. in allied health sciences (AHS) and a Master of Public Health (M.P.H.) within an accelerated time frame. Students admitted to the combined degree program will count up to 12 credits of graduate work in partial satisfaction of the requirements for the undergraduate degree. In alignment with university policy, a maximum of 12 credit hours of graduate work may count toward both the graduate and undergraduate degrees. After completing 120 credits (to include the 12 credits of M.P.H. graduate courses) and all requirements for the AHS degree, students are awarded a bachelor's degree and are eligible to continue with the M.P.H.

The M.P.H. degree constitutes a minimum of 48 credits; the AHS/M.P.H. combined degree has minimum of 30 credits remaining for the master's degree after completion of the bachelor's degree 120 credits. Note: The undergraduate degree only allows 12 credits to dual-count toward the combined degree, leaving 36 graduate credit hours remaining, six of which are completed in the student's (undergraduate) fourth year. Additionally, those six credits, cannot be used to fulfill undergraduate requirements. All M.P.H. requirements must be met, including the research project and practicum experience. Upon completion of the M.P.H. program, graduates will be qualified to sit for voluntary professional certification by taking the National Board of Public Health Examiners Certified in Public Health (CPH) exam and/or the Certified Health Education Specialist (CHES) exam for additional credentialing.

#### **Application Requirements to the Combined Degree**

Students may apply to the Master of Public Health program as early as the start of junior year. Requirements for the application include:

- Junior standing (after the completion of 55+ credit hours prior to application)
- Minimum overall GPA of a 3.0
- Two completed and received letters of recommendation

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Resume
- A written two-part essay as required by the M.P.H. program

### **Graduation Requirements for Combined Degree**

Students who are accepted to the combined degree program will take courses in the AHS general emphasis and use the M.P.H. courses as a substitution for the required minor. The students must complete the following M.P.H. courses in their senior year:

- PH 500 - Introduction to Public Health (3 credits)
- PH 505 - Social and Behavioral Public Health (3 credits)
- PH 510 - Public Health Epidemiology (3 credits)
- PH 520 - Environmental and Occupational Health (3 credits)
- PH 622 - Health Behavior and Promotion (3 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

This program requires 12 total semesters of coursework to complete. Please note this plan of study requires completion of two full spring/summer semesters.

Students will graduate with their B.S. degree in allied health sciences at the conclusion of year four, as long as they meet all university and degree requirements for a B.S. degree.

### **Plan of Study - Combined Degree with Master of Public Health: Health Promotion Emphasis**

#### **Allied Health Sciences Core Classes:**

- AHS 100 - Medical Terminology (3 credits)
- AHS 110 - Introduction to Health Care (3 credits)
- AHS 301 - Introduction to Health Care Research (3 credits)
- AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)
- AHS 340 - Health Care Management (3 credits)
- BIO 120 - General Biology I (4 credits)
- STA 215 - Introductory Applied Statistics (3 credits) (B.S. degree requirement)

#### **Emphasis Courses (General Allied Health Sciences):**

- AHS 495 - Issues in Health Professions (3 credits)
- BIO 355 - Human Genetics (3 credits)
- BMS 212 - Introductory Microbiology (3 credits)
- BMS 213 - Laboratory in Microbiology (1 credit)
- CHM 109 - Introductory Chemistry (4 credits)
- CHM 232 - Biological Chemistry (4 credits)
- PHY 200 - Physics for the Life Sciences (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Anatomy and Physiology Sequences:**

### Sequence A

- BMS 208 - Human Anatomy (3 credits)
- BMS 290 - Human Physiology (3 credits)
- BMS 391 - Laboratory in Human Physiology (2 credits)

### Sequence B

- BMS 250 - Anatomy and Physiology I (4 credits)
- BMS 251 - Anatomy and Physiology II (4 credits)

## **Combined Degree with Master of Public Health (Health Promotion Emphasis):**

- PH 500 - Introduction to Public Health (3 credits)
- PH 505 - Social and Behavioral Public Health (3 credits)
- PH 510 - Public Health Epidemiology (3 credits)
- PH 520 - Environmental and Occupational Health (3 credits)
- PH 622 - Health Behavior and Promotion (3 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

## **Master of Public Health Program Courses (Health Promotion Emphasis)**

- PH 525 - Quantitative Research Methods in Public Health (3 credits)
- PH 530 - Qualitative Research Methods in Public Health (3 credits)
- PH 620 - Health Education (3 credits)
- PH 623 - Food, Health, and Justice (3 credits)
- PH 626 - Health Advocacy and Literacy (3 credits)
- PH 628 - Health Program Evaluation (3 credits)
- PH 630 - Health and Disease Disparities in Diverse Communities (3 credits)
- PH 632 - Public Health Social Campaigning and Distribution (3 credits)
- PH 688 - Public Health Practicum (3 credits)
- PH 693 - Public Health Master's Project (1 to 3 credits) (take twice for a total of 3 credits)

## **Suggested Order of Coursework for the Combined Degree with Master of Public Health: Health Promotion Emphasis**

### **Year One**

#### Fall Semester:

- AHS 110 - Introduction to Health Care (3 credits)
- CHM 109 - Introductory Chemistry (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MTH 110 - Algebra (4 credits) **OR** a four-credit elective
- General education Arts (3 credits)
- Elective (1 to 2 credits)

Winter Semester:

- BIO 120 - General Biology I (4 credits)
- CHM 231 - Introductory Organic Chemistry (4 credits)
- WRT 150 - Strategies in Writing (4 credits)
- General education Philosophy and Literature (3 credits)

## **Year Two**

Fall Semester:

- AHS 100 - Medical Terminology (3 credits)
- BMS 208 - Human Anatomy (3 credits) **OR** BMS 250 - Anatomy and Physiology I (4 credits)
- General education Social and Behavioral Sciences (3 credits)
- General education Historical Perspectives (3 credits)
- Elective (3 credits)

Winter Semester:

- BIO 355 - Human Genetics (3 credits)
- BMS 290 - Human Physiology (3 credits) **OR** BMS 251 - Anatomy and Physiology II (4 credits)
- General education Social and Behavioral Sciences (3 credits)
- Elective (5 credits)

## **Year Three**

Fall Semester:

- AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)
- BMS 391 - Laboratory in Human Physiology (2 credits) **OR** Elective (2 credits) \*If using this sequence BMS 290 is taken in winter, year two
- CHM 232 - Biological Chemistry (4 credits)
- General education Global Perspectives (3 credits)
- Elective (2 credits)

Winter Semester:

- AHS 301 - Introduction to Health Care Research (3 credits)
- BMS 212 - Introductory Microbiology (3 credits)
- BMS 213 - Laboratory in Microbiology (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PHY 200 - Physics for the Life Sciences (4 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- General education U.S. Diversity (3 credits)

Spring/Summer Semester:

- Elective (3 credits)
- General education Issues (3 credits)

## **Year Four**

Fall Semester:

- AHS 340 - Health Care Management (3 credits)
- PH 500 - Introduction to Public Health (3 credits)
- PH 510 - Public Health Epidemiology (3 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)
- Elective (3 credits)

Winter Semester:

- AHS 490 - Health Care Internship (3, 6, or 12 credits)
- AHS 495 - Issues in Health Professions (3 credits)
- PH 505 - Social and Behavioral Public Health (3 credits)
- PH 520 - Environmental and Occupational Health (3 credits)
- PH 622 - Health Behavior and Promotion (3 credits)

Spring/Summer Semester:

- PH 525 - Quantitative Research Methods in Public Health (3 credits)
- PH 530 - Qualitative Research Methods in Public Health (3 credits)
- PH 620 - Health Education (3 credits)

## **Year Five**

Fall Semester:

- PH 623 - Food, Health, and Justice (3 credits)
- PH 628 - Health Program Evaluation (3 credits)
- PH 688 - Public Health Practicum (3 credits)
- PH 693 - Public Health Master's Project (1 to 3 credits)

Winter Semester:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PH 626 - Health Advocacy and Literacy (3 credits)
- PH 630 - Health and Disease Disparities in Diverse Communities (3 credits)
- PH 632 - Public Health Social Campaigning and Distribution (3 credits)
- PH 693 - Public Health Master's Project (1 to 3 credits)

### **Plan of Study for Combined Degree with Master of Public Health: Epidemiology Emphasis**

#### **Allied Health Sciences Core Classes:**

- AHS 100 - Medical Terminology (3 credits)
- AHS 110 - Introduction to Health Care (3 credits)
- AHS 301 - Introduction to Health Care Research (3 credits)
- AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)
- AHS 340 - Health Care Management (3 credits)
- BIO 120 - General Biology I (4 credits)
- STA 215 - Introductory Applied Statistics (3 credits) (B.S. degree requirement)

#### **Emphasis Courses (General Allied Health Sciences):**

- AHS 495 - Issues in Health Professions (3 credits)
- BIO 355 - Human Genetics (3 credits)
- BMS 212 - Introductory Microbiology (3 credits)
- BMS 213 - Laboratory in Microbiology (1 credit)
- CHM 109 - Introductory Chemistry (4 credits)
- CHM 232 - Biological Chemistry (4 credits)
- PHY 200 - Physics for the Life Sciences (4 credits)

#### **Anatomy and Physiology Sequences:**

##### Sequence A

- BMS 208 - Human Anatomy (3 credits)
- BMS 290 - Human Physiology (3 credits)
- BMS 391 - Laboratory in Human Physiology (2 credits)

##### Sequence B

- BMS 250 - Anatomy and Physiology I (4 credits)
- BMS 251 - Anatomy and Physiology II (4 credits)

#### **Combined Degree with Master of Public Health (Epidemiology Emphasis):**

- PH 500 - Introduction to Public Health (3 credits)
- PH 505 - Social and Behavioral Public Health (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PH 510 - Public Health Epidemiology (3 credits)
- PH 520 - Environmental and Occupational Health (3 credits)
- PH 602 - Chronic Disease Epidemiology (3 credits) (can only be counted as part of the M.P.H. degree)
- STA 610 - Applied Statistics for Health Professions (3 credits) (can only be counted as part of the M.P.H. degree)

### **Master of Public Health Program Courses (Epidemiology Emphasis)**

- PH 525 - Quantitative Research Methods in Public Health (3 credits)
- PH 530 - Qualitative Research Methods in Public Health (3 credits)
- PH 600 - Advanced Quantitative Research Methods in Public Health (3 credits)
- PH 604 - Women's and Children's Epidemiology (3 credits)
- PH 606 - Environmental and Occupational Epidemiology (3 credits)
- PH 608 - Infectious Disease Epidemiology (3 credits)
- PH 610 - Cancer Epidemiology (3 credits)
- PH 612 - Public Health Genetics (3 credits)
- PH 688 - Public Health Practicum (3 credits)
- PH 693 - Public Health Master's Project (1 to 3 credits) (take twice for a total of 3 credits)

### **Suggested Order of Coursework for the Combined Degree with Master of Public Health: Epidemiology Emphasis**

#### **Year One**

Fall Semester:

- AHS 110 - Introduction to Health Care (3 credits)
- CHM 109 - Introductory Chemistry (4 credits)
- MTH 110 - Algebra (4 credits) **OR** a four-credit elective
- General education Arts (3 credits)
- Elective (1 to 2 credits)

Winter Semester:

- BIO 120 - General Biology I (4 credits)
- CHM 231 - Introductory Organic Chemistry (4 credits)
- WRT 150 - Strategies in Writing (4 credits)
- General education Philosophy and Literature (3 credits)

#### **Year Two**

Fall Semester:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- AHS 100 - Medical Terminology (3 credits)
- BMS 208 - Human Anatomy (3 credits) **OR** BMS 250 - Anatomy and Physiology I (4 credits)
- General education Social and Behavioral Sciences (3 credits)
- General education Historical Perspectives (3 credits)
- Elective (3 credits)

Winter Semester:

- BIO 355 - Human Genetics (3 credits)
- BMS 290 - Human Physiology (3 credits) **OR** BMS 251 - Anatomy and Physiology II (4 credits)
- General education Social and Behavioral Sciences (3 credits)
- Elective (5 credits)

### **Year Three**

Fall Semester:

- AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)
- BMS 391 - Laboratory in Human Physiology (2 credits) **OR** Elective (2 credits) \*If using this sequence anatomy and physiology sequence A
- CHM 232 - Biological Chemistry (4 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- General education Global Perspectives (3 credits)
- Elective (2 credits)

Winter Semester:

- AHS 301 - Introduction to Health Care Research (3 credits)
- BMS 212 - Introductory Microbiology (3 credits)
- BMS 213 - Laboratory in Microbiology (1 credit)
- PHY 200 - Physics for the Life Sciences (4 credits)
- General education U.S. Diversity (3 credits)

Spring/Summer Semester:

- Elective (3 credits)
- General education Issues (3 credits)

### **Year Four**

Fall Semester:

- AHS 340 - Health Care Management (3 credits)
- PH 500 - Introduction to Public Health (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PH 510 - Public Health Epidemiology (3 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)
- Elective (3 credits)

Winter Semester:

- AHS 490 - Health Care Internship (3, 6, or 12 credits)
- AHS 495 - Issues in Health Professions (3 credits)
- PH 505 - Social and Behavioral Public Health (3 credits)
- PH 520 - Environmental and Occupational Health (3 credits)
- PH 602 - Chronic Disease Epidemiology (3 credits)

Spring/Summer Semester:

- PH 525 - Quantitative Research Methods in Public Health (3 credits)
- PH 530 - Qualitative Research Methods in Public Health (3 credits)
- PH 608 - Infectious Disease Epidemiology (3 credits)

## **Year Five**

Fall Semester:

- PH 600 - Advanced Quantitative Research Methods in Public Health (3 credits)
- PH 612 - Public Health Genetics (3 credits)
- PH 688 - Public Health Practicum (3 credits)
- PH 693 - Public Health Master's Project (1 to 3 credits)

Winter Semester:

- PH 604 - Women's and Children's Epidemiology (3 credits)
- PH 606 - Environmental and Occupational Epidemiology (3 credits)
- PH 610 - Cancer Epidemiology (3 credits)
- PH 693 - Public Health Master's Project (1 to 3 credits)

# **Radiation Therapy**

Radiation therapy is a radiologic and imaging sciences specialty that is one of the disciplines of radiation oncology. Radiation therapy is considered an entry-level profession in that students may enter GVSU without previous college experience and may aspire to complete the entire B.S. degree program in four years.

Radiation therapists practice in a collaborative effort between medical and radiation oncology physicians, medical physicists, dosimetrists, oncology nurses, dietitians, and social workers.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Radiation therapists are responsible for accurately recording, interpreting, and administering the treatment prescribed by radiation oncologists. These responsibilities require highly specialized clinical skills as well as complex critical thinking in order to effectively contribute to the team approach to patient treatment.

Students receive didactic, laboratory, and clinical experiences in both existing and emerging radiation therapy practices in the university's energized laboratories and through a clinical education system that requires students to attend full days of clinical practice under the direct supervision of registered radiation therapists at clinical education sites located as far as about three hours from GVSU (although most clinical assignments are within one hour from campus). Students must have transportation available to these sites.

Clinical experiences are available in both existing and emerging radiation therapy practices and procedures. These experiences may include treatment planning, computed tomography simulation, conventional simulation, quality assurance, brachytherapy, external beam therapy, stereotactic radiosurgery, intraoperative procedures, intensity modulated radiation therapy, image guided radiation therapy, and total body irradiation. Students will rotate through a minimum of three clinical facilities to ensure exposure to emerging technologies.

Students should be aware that prior to the beginning of their clinical courses, they must complete comprehensive health compliance obligations including but not limited to a criminal background check, finger printing, and drug screening. It is the responsibility of the student to comply. If there is illegal activity in the background check/finger printing or if there is evidence of one or more prohibited substances in the drug test, the clinical sites have the right to refuse a student's placement, which may negatively impact a student's ability to progress in the radiation therapy program. In addition, individuals who have been charged with or convicted of a crime may not be eligible for national certification by the American Registry of Radiologic Technologists (ARRT). Students to whom this may apply are strongly advised to work with the ARRT for preapplication review of eligibility for certification from their website at [arrt.org](http://arrt.org) (Ethics, Preapplication Process). The ARRT may be contacted by phone at (651) 687-0048 for more information.

Students who receive a B.S. degree in radiation therapy from GVSU are eligible for the ARRT examination in radiation therapy. Granting of the baccalaureate degree is not contingent on passing the ARRT examination.

The radiation therapy program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The program adheres to JRCERT standards. Students have the right to notify the JRCERT if they believe the university is not adhering to these standards. The JRCERT is at 20 N. Wacker Dr., Suite 2850, Chicago, IL 60606-3182; phone (312) 704-5300.

## **Bachelor of Science in Radiation Therapy**

### **Admission**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Grand Valley State University is an affirmative action/equal opportunity institution. It encourages diversity and provides equal opportunity in education, employment, all of its programs, and the use of its facilities. Applicants are considered without regard to age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, sex/gender, sexual orientation, veteran status, or weight. Motivational factors, life experiences, patient care experience, maturity, and personal characteristics as assessed in personal interviews and recommendations are important factors in the selection process.

An applicant's academic record is important as an indicator of ability to succeed in an intensive and rigorous medical curriculum. A degree in radiation therapy involves a competitive admission process and completion of a secondary application. There are no waiting lists for these programs. Applications are due February 1. Admissions occur once per year beginning in the fall semester (August).

The application requirements are listed as follows (or can be found online at [gvsu.edu/rad](http://gvsu.edu/rad)):

- GVSU undergraduate application (students must apply and be admitted to GVSU)
- RT application
- Resume to include a specific section listing health care experience
- One- to two-page statement of professional goals
- Two recommendations on specific forms
- Official copies of all non GVSU transcripts

Specific selection criteria are as follows:

- Academic grade point average from prerequisite courses (40 percent)
- Academic grade point average from last two calendar years in college or university (10 percent)
- Interview /writing assessment completed on-site at the College of Health Professions (30 percent)
- Health care experience: minimum of 16 hours volunteer or paid, recommended 2 to 3 hours job shadow (5 percent)
- Recommendations (5 percent)
- Additional leadership considerations (10 percent)

### **Prerequisite Courses**

Requires 47 credits, including:

- AHS 100 - Medical Terminology (3 credits)
- BMS 250 - Anatomy and Physiology I (4 credits) Prerequisite: \*BIO 120 - General Biology I (4 credits)
- BMS 251 - Anatomy and Physiology II (4 credits)
- MTH 122 - College Algebra (3 credits) Prerequisite: \*\*MTH 110 - Algebra (4 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- \*PHY 220 - General Physics I (5 credits) Prerequisite: MTH 123 - Trigonometry (3 credits)
- PHY 221 - General Physics II (5 credits)
- \*PSY 101 - Introductory Psychology (3 credits)
- PSY 300 - Research Methods in Psychology (3 credits) **OR** AHS 301 - Introduction to Health Care Research (3 credits) **OR** BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)
- \*SOC 105 - Social Problems (3 credits)
- \*STA 215 - Introductory Applied Statistics (3 credits)

\*Also fulfills general education requirements.

\*\*MTH 110 may not be required, dependent upon placement at time of admission.

## Requirements for a Major in Radiation Therapy

### Foundations and Cultures Courses

Remaining courses not covered in major coursework or prerequisites include (22 to 24 credits):

- General education Art (3 credits)
- General education History (3 credits)
- General education Philosophy (3 credits)
- General education Global Perspectives (3 credits)
- Issues (6 credits) Two courses must be taken when student has 55+ credits.
- **BOTH** WRT 120 - Strategies in Writing - Stretch I (3 credits) **AND** WRT 130 - Strategies in Writing - Stretch II (3 credits)
- OR ONLY** WRT 150 - Strategies in Writing (4 credits)

### Radiation Therapy Courses

Requires 66 credits, including:

- AHS 340 - Health Care Management (3 credits) Fulfills one of two Issues courses.
- RIT 302 - Radiation Protection Physics (2 credits)
- RIT 310 - Radiation Therapy Patient Care (3 credits)
- RIT 322 - Radiation Biology (2 credits)
- RIT 330 - Radiation Therapy Principles and Practices I (4 credits)
- RIT 331 - Radiation Therapy Principles and Practices I Laboratory (1 credit)
- RIT 332 - Radiation Therapy Principles and Practices II (3 credits)
- RIT 333 - Radiation Therapy Principles and Practices II Laboratory (1 credit)
- RIT 361 - Radiation Therapy Clinical Education I (2 credits)
- RIT 362 - Radiation Therapy Clinical Education II (4 credits)
- RIT 401 - Radiologic Information Technology (3 credits)
- RIT 420 - Radiation Therapy Physics I (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- RIT 422 - Radiation Therapy Physics II (2 credits)
- RIT 424 - Image Guided Principles of Radiation Therapy (4 credits)
- RIT 430 - Radiation Therapy Principles and Practices III (3 credits)
- RIT 431 - Radiation Therapy Principles and Practices III Lab (1 credit)
- RIT 432 - Radiation Therapy Principles and Practices IV (3 credits)
- RIT 433 - Radiation Therapy Principles and Practices Lab IV (1 credit)
- RIT 441 - Gross Human Sectional Anatomy (4 credits)
- RIT 458 - Neoplasms (3 credits)
- RIT 460 - Radiation Therapy Clinical Education III (3 credits)
- RIT 461 - Radiation Therapy Clinical Education IV (3 credits)
- RIT 470 - Radiation Therapy Treatment Planning (2 credits)
- RIT 471 - Radiation Therapy Treatment Planning Lab (1 credit)
- RIT 472 - Introduction to Medical Dosimetry (2 credits)
- RIT 473 - Introduction to Medical Dosimetry Lab (1 credit)
- RIT 495 - Advanced Clinical Problems in Radiation Therapy (3 credits)

## **Suggested Order of Coursework**

### **Year One**

Fall Semester (15 credits):

- BIO 120 - General Biology I (4 credits)
- MTH 110 - Algebra (4 credits)
- PSY 101 - Introductory Psychology (3 credits)
- WRT 150 - Strategies in Writing (4 credits)

Winter Semester (16 credits):

- General education Arts (3 credits)
- AHS 100 - Medical Terminology (3 credits)
- BMS 250 - Anatomy and Physiology I (4 credits)
- MTH 122 - College Algebra (3 credits)
- SOC 105 - Social Problems (3 credits)

Spring/Summer Semester (3 credits):

- MTH 123 - Trigonometry (3 credits)

### **Year Two**

Fall Semester (15 credits):

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- General education History (3 credits)
- BMS 251 - Anatomy and Physiology II (4 credits)
- PHY 220 - General Physics I (5 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

Winter Semester (14 credits):

- General education Philosophy (3 credits)
- General education Global Perspectives (3 credits)
- PHY 221 - General Physics II (5 credits)

**AND** one of the following:

- AHS 301 - Introduction to Health Care Research (3 credits)
- BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)
- PSY 300 - Research Methods in Psychology (3 credits)

### **Year Three**

Fall Semester (16 credits):

Enrollment in radiation therapy program.

- RIT 302 - Radiation Protection Physics (2 credits)
- RIT 310 - Radiation Therapy Patient Care (3 credits)
- RIT 330 - Radiation Therapy Principles and Practices I (4 credits)
- RIT 331 - Radiation Therapy Principles and Practices I Laboratory (1 credit)
- RIT 401 - Radiologic Information Technology (3 credits)
- RIT 458 - Neoplasms (3 credits)

Winter Semester (16 credits):

- RIT 332 - Radiation Therapy Principles and Practices II (3 credits)
- RIT 333 - Radiation Therapy Principles and Practices II Laboratory (1 credit)
- RIT 361 - Radiation Therapy Clinical Education I (2 credits)
- RIT 420 - Radiation Therapy Physics I (2 credits)
- RIT 424 - Image Guided Principles of Radiation Therapy (4 credits)
- RIT 441 - Gross Human Sectional Anatomy (4 credits)

Spring/Summer Semester (4 credits):

- RIT 362 - Radiation Therapy Clinical Education II (4 credits)

### **Year Four**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Fall Semester (15 credits):

- General education Issues elective (3 credits)
- RIT 422 - Radiation Therapy Physics II (2 credits)
- RIT 430 - Radiation Therapy Principles and Practices III (3 credits)
- RIT 431 - Radiation Therapy Principles and Practices III Lab (1 credit)
- RIT 460 - Radiation Therapy Clinical Education III (3 credits)
- RIT 470 - Radiation Therapy Treatment Planning (2 credits)
- RIT 471 - Radiation Therapy Treatment Planning Lab (1 credit)

Winter Semester (18 credits):

- AHS 340 - Health Care Management (3 credits)
- RIT 322 - Radiation Biology (2 credits)
- RIT 432 - Radiation Therapy Principles and Practices IV (3 credits)
- RIT 433 - Radiation Therapy Principles and Practices Lab IV (1 credit)
- RIT 461 - Radiation Therapy Clinical Education IV (3 credits)
- RIT 472 - Introduction to Medical Dosimetry (2 credits)
- RIT 473 - Introduction to Medical Dosimetry Lab (1 credit)
- RIT 495 - Advanced Clinical Problems in Radiation Therapy (3 credits)

## Master of Science in Recreational Therapy

The Master of Science in recreational therapy (RT) M.S. in RT degree is a graduate program, leading to an advanced practice degree. This master's degree program focuses on advanced practice issues and competencies to enhance the recreational therapist's skills and competencies to meet increasingly complex consumers in a variety of healthcare and community settings. The program is one year. The M.S. in RT is offered as a hybrid program, with the majority of coursework online and one to three in-seat classes per semester.

### Admission into the M.S. in RT

- **The one year Master's Degree Track** is for those who have a Bachelor of Science in therapeutic recreation and are already a Certified Therapeutic Recreation Specialist (CTRS) or CTRS eligible, who desire to pursue an M.S. in RT. It requires a total of 33 credits. Students are expected to complete the NCTRC exam after their undergraduate coursework, and prior to beginning their graduate coursework.

Admission into the Master of Science in recreational therapy is competitive. Maximum class size for hybrid classes is 20. Application materials are due by February 1 with courses beginning in August. Applications are reviewed by the recreational therapy faculty and ranked on a total score basis. The top 20 candidates are offered seats in the program. Each alternative candidate is offered admission based on total score if any of the original candidates declines admission.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Application Process into the One Year Master of Science in Recreational Therapy**

To be admitted to the one year MSRT track, applicants must:

- Hold a bachelor's degree in therapeutic recreation/recreation therapy/recreation with an emphasis in therapeutic recreation from an accredited university completed prior to the start of the MSRT program;
- Provide proof of certification as a Certified Therapeutic Recreation Specialist (CTRS) or prove to be CTRS eligible;
- Demonstrate coursework in research methods and introduction to statistics;
- Have an undergraduate GPA of 3.0 or higher for the last 60 credits in their undergraduate degree;
- Submit a resume demonstrating related work and/or volunteer experiences and accomplishments related to recreational therapy interventions, populations, programs, and/or processes;
- Write a personal statement describing:
  - Your goals for your graduate studies and your professional career. If appropriate, describe your relevant professional experience.
  - Why are you pursuing a graduate degree? In what ways would your degree contribute to your future and/or career?
  - Identification of your specialty/practice area of interest.
- Provide two graduate program recommendation forms, one from an instructor/professor and one from a professional; and
- Participate in an interview if requested.

## **Master of Science in Recreational Therapy**

Completion of 33 credits for the one year M.S. in RT program. General graduate academic policies can be found in the Grand Valley State University Undergraduate and Graduate Catalog.

Students must attain a minimum of 80 percent competency in each course to remain in the program. This requirement is reflected in course syllabi across the M.S. in RT program.

### **B.S./M.S. Combined Courses**

- RTX 300 - Foundations of Recreational Therapy (3 credits)
- RTX 302 - Leisure, Health, and Wellness (3 credits)
- RTX 304 - Diagnostic Groups in Recreational Therapy (3 credits)
- RTX 306 - Comprehensive Recreational Therapy Programming (3 credits)
- RTX 308 - Leadership for Recreational Therapy (3 credits)
- RTX 310 - Interventions in Recreational Therapy (3 credits)
- RTX 389 - Recreational Therapy Placement Preparation (1 credit)
- RTX 390 - Fieldwork in Recreational Therapy (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- RTX 407 - Assessment and Documentation in Recreational Therapy (3 credits)
- RTX 404/RTX 504 - Trends and Issues in Recreational Therapy (3 credits)
- RTX 405/RTX 505 - Management in Recreational Therapy (3 credits)
- RTX 410/RTX 510 - Research and Evaluation in Recreational Therapy (3 credits)

Two undergraduate electives from the following options:

- RTX 313 - Recreational Therapy for Physical Disability (3 credits)
- RTX 315 - Recreational Therapy for Mental Health (3 credits)
- RTX 316 - Therapeutic Recreation with the Elderly (3 credits)
- RTX 317 - Recreational Therapy for Pediatrics (3 credits)
- RTX 490 - Internship in Recreational Therapy (6 or 12 credits)
- RTX 606 - Program Development and Consulting in Recreational Therapy (3 credits)
- RTX 607 - Advanced Practice in Recreational Therapy Assessment and Evaluation (3 credits)
- RTX 673 - Integrated Evidence-Based Research in Recreational Therapy 1 (3 credits)
- RTX 675 - Integrated Evidence-based Research in Recreational Therapy 2 (3 credits)
- RTX 693 - Integrated Evidence-Based Research Project in Recreational Therapy 3 credit
- STA 610 - Applied Statistics for Health Professions (3 credits)

Two graduate electives from the following:

- PNH 535 - Grant Writing (3 credits)
- RTX 613 - Advanced Recreational Therapy Practice in Physical Rehabilitation (3 credits)
- RTX 615 - Advanced Recreational Therapy Practice in Behavioral Health (3 credits)
- RTX 616 - Advanced Recreational Therapy Practice with Older Adults (3 credits)

### **One Year Master of Science in Recreational Therapy Courses**

- RTX 606 - Program Development and Consulting in Recreational Therapy (3 credits)
- RTX 607 - Advanced Practice in Recreational Therapy Assessment and Evaluation (3 credits)
- RTX 673 - Integrated Evidence-Based Research in Recreational Therapy 1 (3 credits)
- RTX 675 - Integrated Evidence-based Research in Recreational Therapy 2 (3 credits)
- RTX 693 - Integrated Evidence-Based Research Project in Recreational Therapy (3 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

Two graduate electives from the following 4 options:

- PNH 535 - Grant Writing (3 credits)
- RTX 613 - Advanced Recreational Therapy Practice in Physical Rehabilitation (3 credits)
- RTX 615 - Advanced Recreational Therapy Practice in Behavioral Health (3 credits)
- RTX 616 - Advanced Recreational Therapy Practice with Older Adults (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Three additional electives must be selected from the Graduate Catalog for a total of nine credits - electives selections must be 500-level or higher RTX courses or 500- to 600-level courses from other programs approved by advisor.

## **Sample Curriculum**

### **B.S./M.S. Combined Track**

#### **Fall One (10 credits)**

- RTX 300 - Foundations of Recreational Therapy (3 credits)
- RTX 302 - Leisure, Health, and Wellness (3 credits)
- RTX 304 - Diagnostic Groups in Recreational Therapy (3 credits)
- RTX 389 - Recreational Therapy Placement Preparation (1 credit)

#### **Winter One (12 credits)**

- RTX 306 - Comprehensive Recreational Therapy Programming (3 credits)
- RTX 308 - Leadership for Recreational Therapy (3 credits)
- RTX 310 - Interventions in Recreational Therapy (3 credits)
- RTX elective (RTX 313, RTX 316, RTX 317)

#### **Spring/Summer One (3 credits)**

- RTX 390 - Fieldwork in Recreational Therapy (3 credits)

#### **Fall Two (9 credits)**

- RTX 315 - Recreational Therapy for Mental Health (3 credits)
- RTX 407 - Assessment and Documentation in Recreational Therapy (3 credits)
- RTX 504 - Trends and Issues in Recreational Therapy (3 credits)

#### **Winter Two (9 credits)**

- RTX 505 - Management in Recreational Therapy (3 credits)
- RTX 510 - Research and Evaluation in Recreational Therapy (3 credits)
- RTX elective (RTX 313, RTX 316, RTX 317)

#### **Spring/Summer Two (6 credits)**

- RTX 490 - Internship in Recreational Therapy (6 or 12 credits)

Students are expected to apply to and take the national credentialing exam for Certified Therapeutic Recreation Specialists (CTRS) by the National Council for Therapeutic Recreation

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Certification (NCTRC) after completion of their bachelor's coursework. Students must pass the exam prior to beginning graduate coursework.

**Fall Three (9 credits)**

- RTX 607 - Advanced Practice in Recreational Therapy Assessment and Evaluation (3 credits)
- RTX 673 - Integrated Evidence-Based Research in Recreational Therapy 1 (3 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

**Winter Three (9 credits)**

- RTX 606 - Program Development and Consulting in Recreational Therapy (3 credits)
- RTX 675 - Integrated Evidence-based Research in Recreational Therapy 2 (3 credits)
- RTX elective (RTX 613, RTX 615, RTX 616, PNH 535)

**Spring/Summer Three (6 credits)**

- RTX 693 - Integrated Evidence-Based Research Project in Recreational Therapy (3 credits)
- RTX elective (RTX 613, RTX 615, RTX 616, PNH 535)

Students in the M.S. in RT one year track are expected to have obtained their national credential as a Certified Therapeutic Recreation Specialist prior to beginning the program.

**Fall (9 credits)**

- RTX 607 - Advanced Practice in Recreational Therapy Assessment and Evaluation (3 credits)
- RTX 673 - Integrated Evidence-Based Research in Recreational Therapy 1 (3 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

**Winter (12 credits)**

- RTX 606
- RTX 675
- Non RT Elective
- Non RT Elective

**Spring/Summer (12 credits)**

- Two RTX electives (RTX 613, RTX 615, RTX 616, PNH 535)
- Non RT Elective
- RTX 693 - Integrated Evidence-Based Research Project in Recreational Therapy (3 credits)

# **Recreational Therapy**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For additional information about opportunities your college offers, please refer to the College of Health Professions section in this catalog.

**Website:** [gvsu.edu/tr](http://gvsu.edu/tr)

## **Degree Offered**

Bachelor of Science in recreational therapy

Recreational therapy is an allied health profession involved in the care of patients/clients with a variety of diagnoses and functional limitations across the lifespan. Recreational therapy uses a continuum of services which include recreational therapy (treatment), education, and adapted recreation. These services are provided by using a variety of recreation and leisure activities in order to improve functional abilities and maximize opportunities for persons with special needs to access and become engaged in their communities, thus impacting their overall quality of life.

## **Recreational Therapy at Grand Valley**

The recreational therapy major leads to a Bachelor of Science degree. The program offers a highly articulated and sequenced curriculum. All students must seek advising from a program faculty member before embarking on the program. The baccalaureate curriculum provides educational opportunities that prepare students for entry-level positions in therapeutic recreation. Graduates are prepared to meet patient/client health needs in a dynamic and culturally diverse world by completing a comprehensive curriculum that includes theoretical and practical experience and application. Students need to be able to use clinical reasoning skills such as problem solving, formulating concepts, making judgments, analyzing behaviors and tasks, and determining appropriate intervention. The following abilities are important for students to possess for the therapeutic recreation profession: commitment to learning, interpersonal skills, communication skills, effective use of time and resources, use of constructive feedback, professionalism, responsibility, critical thinking, and stress management skills.

## **Admission**

Students who have been accepted by Grand Valley State University through the Admissions Office will follow the outlined procedures: All undergraduate students interested in recreational therapy (RT) can declare therapeutic recreation as their designated major at Grand Valley. During their first and second years, students will make progress toward completing the general education and prerequisite coursework that are required of RT majors and that are pertinent to admission into the recreational therapy program. Students apply to the RT program during the winter semester of their second year through a 'secondary admission' process, at which time, if offered a seat in the program, the student's status will be updated from RT declared to RT admitted.

Transfer students will follow the same process and must meet the same application criteria. For a list of courses that will transfer to GVSU, transfer students from Michigan community colleges

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

can refer to: [gvsu.edu/admissions](http://gvsu.edu/admissions). Students should consult with the College of Health Professions Student Services Office to ensure selection of transferable coursework.

Transfer students who have completed specific recreation/therapeutic recreation prefixed courses at other universities should provide a copy of the course syllabus for any recreation/therapeutic recreation classes they want to transfer to Grand Valley. The RT program will review the course syllabus and determine course transferability on a case by case basis.

## **Application Information**

The recreational therapy (RT) program at Grand Valley State University (GVSU) is a secondary admission program which means that any person interested in taking courses within the RT program must first be admitted to GVSU and upon meeting admission prerequisites (see as follows), are required to submit a secondary application.

The admission process for therapeutic recreation consists of three phases. These phases are outlined as follows.

## **Secondary Application Instructions**

### **Phase One - Prerequisites**

The following prerequisites must be met or in progress at the time of application:

- Overall GPA of 2.7 or higher
- CHM 109 - Introductory Chemistry
- PSY 101 - Introductory Psychology
- BIO 120 - General Biology I

### **Phase Two - Application and Supplemental Materials**

The completed application and supplemental materials should be mailed or hand delivered to the College of Health Professions Student Services Office no later than **February 15** of the intended year of fall semester entry. The materials are described further in the **Application Packet** and include the following:

- RT application
- Essay explaining why the applicant has selected recreational therapy, including leadership and disability experience
- Statement of professional goals (one to two pages)
- Verification of completion of 50 hours (minimum) of volunteer or paid work in a therapeutic setting
- Note: 20 of those hours must be under the supervision of a Certified Therapeutic Recreation Specialist (CTRS)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- Two recommendation forms completed by a therapeutic recreation specialist/recreation therapist, or related health care practitioner with whom the applicant has completed volunteer and/or paid hours

### **Phase Three - Applicant Notification**

Upon completion of Phases I and II, applicants will be notified of provisional admission into the program and will be asked to set up an advising appointment with a member of the therapeutic recreation faculty to register for the first semester of RT coursework (RTX 300, RTX 302, RTX 304, and RTX 389). Upon successful completion of these four courses (80 percent competency/B- in each course), students will be granted full admission into the therapeutic recreation program.

Contact Valinda Stokes by phone: (616) 331-5900 or email: [stokesv@gvsu.edu](mailto:stokesv@gvsu.edu) with questions.

### **Submit application and supplemental materials by February 15 to:**

GVSU College of Health Professions  
**Attn: Valinda Stokes**  
Cook-DeVos Center for Health Sciences  
301 Michigan St. NE, Suite 113  
Grand Rapids, MI 49503

## **Bachelor of Science in Recreational Therapy**

### **Degree Requirements**

The curriculum for the bachelor's degree in recreational therapy is designed to provide the essential competencies and skills related to professional practice in therapeutic settings. Students desiring a major in recreational therapy must complete the following:

#### **University Degree Requirement**

As identified in the General Academic Policies section of the Grand Valley State University Undergraduate and Graduate Catalog.

#### **Core Courses**

- RTX 300 - Foundations of Recreational Therapy (3 credits)
- RTX 302 - Leisure, Health, and Wellness (3 credits)
- RTX 304 - Diagnostic Groups in Recreational Therapy (3 credits)
- RTX 306 - Comprehensive Recreational Therapy Programming (3 credits)
- RTX 308 - Leadership for Recreational Therapy (3 credits)
- RTX 310 - Interventions in Recreational Therapy (3 credits)
- RTX 389 - Recreational Therapy Placement Preparation (1 credit)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- RTX 390 - Fieldwork in Recreational Therapy (3 credits)
- RTX 404 - Trends and Issues in Recreational Therapy (3 credits)
- RTX 405 - Management in Recreational Therapy (3 credits)
- RTX 407 - Assessment and Documentation in Recreational Therapy (3 credits)
- RTX 410 - Research and Evaluation in Recreational Therapy (3 credits)
- RTX 490 - Internship in Recreational Therapy (6 or 12 credits)

### **Elective Courses**

Choose two courses from the following:

- RTX 313 - Recreational Therapy for Physical Disability (3 credits)
- RTX 315 - Recreational Therapy for Mental Health (3 credits)
- RTX 316 - Therapeutic Recreation with the Elderly (3 credits)
- RTX 317 - Recreational Therapy for Pediatrics (3 credits)

### **Cognate Courses**

- AHS 100 - Medical Terminology (3 credits)
- AHS 110 - Introduction to Health Care (3 credits)
- BMS 250 - Anatomy and Physiology I (4 credits) Prerequisite: BIO 120
- BMS 251 - Anatomy and Physiology II (4 credits)
- CHM 109 - Introductory Chemistry (4 credits)
- MOV 300 - Kinesiology (3 credits)
- MOV 304 - Introduction to Exercise Physiology (3 credits)
- PSY 101 - Introductory Psychology (3 credits)
- PSY 303 - Psychopathology (3 credits)
- PSY 325 - Educational Psychology (3 credits) **OR** PSY 365 - Cognition (3 credits)
- PSY 364 - Life Span Developmental Psychology (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

### **Academic Standards**

To embark on the fieldwork and internship placements, students must show academic competence. The criterion for competence is 80 percent (B-) in each RTX designated course. Additionally, students should be aware that prior to the beginning of the fieldwork and internship placements, they must complete comprehensive health compliance obligations including but not limited to a criminal background check, fingerprinting, and drug screening. It is the responsibility of the student to comply. If there is illegal activity in the background check/fingerprinting, or if there is evidence of one or more prohibited substance in the drug test, the clinical sites have the right to refuse a student's placement, which may negatively impact a student's ability to progress in the recreational therapy program. In addition, individuals who have been charged with, or convicted of a crime, may not be eligible for national certification by the National Council on Therapeutic Recreation Certification (NCTRC). Students to whom this

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

may apply are strongly advised to work with NCTRC for preapplication review of eligibility for certification. Contact information for NCTRC: [nctrc.org](http://nctrc.org); email: [nctrc@nctrc.org](mailto:nctrc@nctrc.org); telephone: (845) 639-1439; fax: (845) 639-1471.

## **Certifications**

- First aid/CPR certification and other health compliance certifications must be current before registering for RTX 390 - Fieldwork **OR** RTX 490 - Internship.
- Water safety instructor (W.S.I.) certification is often an internship requirement in a clinical rehabilitation setting. Students interested in physical rehabilitation or aquatics should consider pursuing this certification.

## **Credential**

National Council for Therapeutic Recreation Certification (NCTRC) Credential: It is the students' responsibility to be sure that they comply with NCTRC standards during their course of study. The certification process can only be pursued by the graduate. Universities and colleges are not permitted to enter into this process. Grand Valley's recreational therapy faculty can only advise the student on which courses to take to meet the qualifications required to sit for the credentialing exam. Upon application, the NCTRC board has the sole responsibility of reviewing the academic program and ascertaining whether a graduate is permitted to sit for the National Certification Examination. All decisions regarding certification are determined by the NCTRC Board.

## **Suggested Order of Coursework**

### **Year One**

Fall Semester (14 credits):

- General education course (3 credits)
- AHS 110 - Introduction to Health Care (3 credits)
- CHM 109 - Introductory Chemistry (4 credits)
- MTH 110 - Algebra (4 credits)

Winter Semester (14 credits):

- General education course (3 credits)
- BIO 120 - General Biology I (4 credits) Prerequisite for BMS 250.
- PSY 101 - Introductory Psychology (3 credits)
- WRT 150 - Strategies in Writing (4 credits)

### **Year Two**

Fall Semester (16 credits):

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- General education course (3 credits)
- General education course (3 credits)
- AHS 100 - Medical Terminology (3 credits)
- BMS 250 - Anatomy and Physiology I (4 credits)
- PSY 364 - Life Span Developmental Psychology (3 credits)

Winter Semester (16 credits):

- General education course (3 credits)
- General education course (3 credits)
- BMS 251 - Anatomy and Physiology II (4 credits)
- PSY 303 - Psychopathology (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

### **Year Three**

Fall Semester (16 credits):

- General education course (3 credits)
- RTX 300 - Foundations of Recreational Therapy (3 credits)
- RTX 302 - Leisure, Health, and Wellness (3 credits)
- RTX 304 - Diagnostic Groups in Recreational Therapy (3 credits)
- RTX 389 - Recreational Therapy Placement Preparation (1 credit)
- PSY 325 - Educational Psychology (3 credits)

Winter Semester (12 to 15 credits):

- General education course (3 credits)
- Issues course (3 credits)
- RTX 306 - Comprehensive Recreational Therapy Programming (3 credits)
- RTX 308 - Leadership for Recreational Therapy (3 credits)
- RTX 310 - Interventions in Recreational Therapy (3 credits)
- \*RTX elective (3 credits)
- RTX 313 - Recreational Therapy for Physical Disability (3 credits)
- RTX 316 - Therapeutic Recreation with the Elderly (3 credits)
- RTX 317 - Recreational Therapy for Pediatrics (3 credits)

Summer Semester (3 credits):

- RTX 390 - Fieldwork in Recreational Therapy (3 credits)

### **Year Four**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Fall Semester (12 to 15 credits):

- General education Issues (3 credits)
- MOV 300 - Kinesiology (3 credits)
- \*RTX elective (3 credits)
- RTX 315 - Recreational Therapy for Mental Health (3 credits)
- RTX 404 - Trends and Issues in Recreational Therapy (3 credits)
- RTX 407 - Assessment and Documentation in Recreational Therapy (3 credits)

Winter Semester (12 to 15 credits):

- MOV 304 - Introduction to Exercise Physiology (3 credits)
- \*RTX Elective (3 credits)
- RTX 313 - Recreational Therapy for Physical Disability (3 credits)
- RTX 317 - Recreational Therapy for Pediatrics (3 credits)
- RTX 317 - Recreational Therapy for Pediatrics (3 credits)
- RTX 405 - Management in Recreational Therapy (3 credits)
- RTX 410 - Research and Evaluation in Recreational Therapy (3 credits)

Summer Semester:

- RTX 490 - Internship in Recreational Therapy (6 or 12 credits)

\*Must complete a minimum of two elective courses to fulfill program requirements.

## Religious Studies

For additional information about opportunities your college offers, please refer to the Brooks College of Interdisciplinary Studies section in this catalog.

**Website:** [gvsu.edu/rel](http://gvsu.edu/rel)

The diverse and often contested religious/cultural perspectives in our contemporary world demonstrate the need for leaders who are educated in religious history and tradition and who have the capability of critically examining their own cultural assumptions while engaging in dialogue with global and local populations. An academic, critical understanding of the world's religions provides a foundation for understanding diverse ideas and cultures. This is particularly important in our post-9/11 culture, where religion is playing such a significant role in political movements and cross-cultural dialogue.

The religious studies minor provides core courses along with flexibility. Students have the option of focusing on particular religious traditions through electives in a range of global traditions and disciplinary perspectives. Students are encouraged to work closely with their advisor to determine the electives portion of the minor. Close collaboration with faculty in the program

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

through advising, student-centered coursework and independent study opportunities is an important part of the religious studies minor.

Religious studies strongly encourages students to take advantage of a wide range of study abroad programs offered by the university. Appropriate courses taken abroad can be credited toward the requirements for the minor. Contact the Padnos International Center or religious studies for more information.

## **Religious Studies Minor**

The REL program is part of the Integrative, Religious, and Intercultural Studies Department (IRIS), located in the Brooks College of Interdisciplinary Studies. With a curriculum grounded in the liberal arts, the religious studies curriculum offers a broad spectrum of courses that foster an understanding of religious issues, encourage critical thinking and exploration of religion, and address religion in relation to broad historical, political, cultural, and philosophical themes.

Religion is arguably one of the most significant forces in human life. Whether you are pursuing a career in a professional field like business, nursing, allied health sciences, education, or engineering, or if you are thinking about pursuing graduate study in the humanities or social sciences, religious studies provides transferrable skills and deepens understanding of the human experience, culture, and traditions both past and present. Students who are already majoring in another field may choose to complement their studies and bolster their dossiers by pursuing a minor in religious studies.

**Website:** [gvsu.edu/rel](http://gvsu.edu/rel)

### **Requirements for a Minor (19 credit hours)**

#### **Core Courses (10 credits)**

Students must complete the following courses (nine credits):

- REL 100 - Religions of the World (3 credits)
- REL 200 - Understanding Religions in Human Experience (3 credits)
- REL 300 - Religions in the World Today: Theories, Methods, and Issues (3 credits)
- REL 482 - Integrative Statement (1 credit)

#### **Elective Course Options (9 credits)**

- AHS 352 - Introduction to Holistic Health Care (3 credits)
- ANT 315 - Comparative Religions (3 credits)
- ANT 421 - Anthropology of Social Movements (3 credits)
- CJ 405 - Terrorism (3 credits)
- CLA 315 - Ancient Religion (3 credits)
- ENG 386 - Literary Responses to Death and Dying (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- HRT 335 - Theory of Human Rights (3 credits)
- HST 311 - History of Religion in the United States (3 credits)
- HST 337 - The Age of Islamic Empire (3 credits)
- HST 342 - History of Buddhism and East Asian Religions (3 credits)
- HST 376 - History of Witch Hunts (3 credits)
- HTM 368 - Geotourism (3 credits)
- INT 314 - Life Journeys (3 credits)
- INT 330 - The Idea of Nature (3 credits)
- INT 400 - Global Visionary Leadership (3 credits)/INT 401 - American Visionary Leadership (3 credits)
- IDS 350 - Civil Discourse (3 credits)
- MES 350 - Islam: Scripture and Ritual (3 credits)
- PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)
- PHI 312 - Divine Revelation meets Greek Rationality: Medieval Philosophy (3 credits)
- PHI 341 - Philosophy of Death and Dying (3 credits)
- PHI 343 - God, Faith, and Reason: Philosophy of Religion (3 credits)
- PHI 400 - Wisdom of the East: Advanced Topics in Asian Philosophy (3 credits)
- PLS 330 - Religion and Politics in America (3 credits)
- REL 305 - Christianity: Scriptures and Tradition (3 credits)
- REL 306 - Hinduism and South Asian Religions (3 credits)
- REL 310 - Jewish Scriptures and Traditions (3 credits)
- REL 335 - Sacred Words, Global Understanding (3 credits)
- REL 340 - Religion and Popular Culture in the United States (3 credits)
- REL 380 - Special Topics in Religious Studies (1 to 9 credits)
- REL 399 - Independent Readings in Religious Studies (1 to 4 credits)
- REL 499 - Independent Research in Religious Studies (1 to 4 credits)

Students can also use courses from the Meijer Honors Colleges "Alliance and Conflict" sequence (which includes HNR 151, HNR 152, HNR 153, and HNR 154) or one of the following upper-division honors courses to meet the elective requirement within the REL minor. Those upper-division courses include:

- HNR 350 - Textual Tease (3 credits)
- HNR 350 - Prophetic Critique in the Modern World (3 credits)
- HNR 350 - The Terror of Monotheism (3 credits)

## Respiratory Care

**Website:** [gvsu.edu/ahs](http://gvsu.edu/ahs)

The Bachelor of Science in respiratory care (RC) B.S. in RC degree advancement program resides within the Allied Health Sciences (AHS) Department. The program prepares respiratory

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

therapists with the knowledge, skills, and attributes to serve as educators, researchers, managers, and leaders within the profession and the health care industry. Students choose to complete the 45 required credits within one full year (three semesters) or choose to complete the program on a part-time basis. The format for the major courses is online and hybrid.

The program is designed for respiratory therapists who have graduated from a Commission on Accreditation for Respiratory Care (CoARC) associate degree or associate of applied science degree entry-level program and achieved at least the Certified Respiratory Therapist (CRT) credential. A minimum of 120 credits are required for a bachelor's degree. Students can transfer up to 80 credits from the respiratory care associate/associate of applied science degree program.

Current GVSU students interested in pursuing a bachelor's degree in respiratory care are encouraged to contact a College of Health Professions Student Services academic advisor: [gvsu.edu/chpss](http://gvsu.edu/chpss). The advisor can assist with setting up an academic plan to meet the qualifications to apply to the program.

Students admitted into the program as a CRT must achieve the advanced Registered Respiratory Therapist (RRT) credential as a graduation requirement. Therefore, prior to taking the capstone course - RSC 495 and in order to graduate with the B.S. in RC degree, students must successfully complete the RRT credential from the National Board for Respiratory Care (NBRC).

### **Admission to the Bachelor of Science in Respiratory Care Program**

The final program admission decision is made by the B.S. in RC program faculty. Applicants are reviewed for admission based on their cumulative GPA, all college transferable coursework, and their personal statement. Satisfactorily completing the minimum requirements does not guarantee admission into the program, as seats are limited. Students may reapply if not admitted.

- Associate degree in respiratory care from a CoARC accredited institution with a minimum GPA of 2.5
- Registered Respiratory Therapist (RRT) or Certified Respiratory Therapist (CRT) who is RRT eligible
- Application for admission to GVSU
- Submission of official transcripts from colleges/universities attended
- Completed BSRC program application
- Personal statement of career goals and how this program will help achieve educational and professional objectives

## **Bachelor of Science in Respiratory Care - Degree Advancement Program**

### **Respiratory Care Core (15 credits)**

- STA 215 - Introductory Applied Statistics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- AHS 301 - Introduction to Health Care Research (3 credits)
- AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits) (SWS)
- AHS 340 - Health Care Management (3 credits)
- General Education - Issues

### **Remaining General Education Courses** (credits vary)

**Note:** Many of these courses may have been fulfilled through the associate degree and/or with the Michigan Transfer Agreement (MTA).

- Art (3 credits)
- Historical Perspectives (3 credits)
- Global Perspectives (3 credits)
- Life Science (3 to 4 credits)
- Philosophy and Literature (3 credits)
- Physical Science (3 to 4 credits)
- Two courses in Social and Behavioral Sciences (6 credits)
- U.S. Diversity (3 credits)
- WRT 150 - Strategies in Writing (4 credits)

### **Respiratory Care Major Courses (30 credits)**

- RSC 315 - Quality Assessment and Health Outcomes (3 credits)
- RSC 316 - Health Care Informatics for the Respiratory Therapist (3 credits)
- RSC 318 - Gerontology for the Respiratory Therapist (3 credits)
- RSC 328 - Patient Assessment and Care Plans I (3 credits)
- RSC 401 - Evidence-Based Practice in Respiratory Care (3 credits)
- RSC 428 - Patient Assessment and Care Plans II (3 credits)
- RSC 438 - Respiratory Disease Management (3 credits)
- RSC 458 - Cardiopulmonary Diagnostics and Monitoring (3 credits)
- RSC 485 - Professionalism in Respiratory Care (3 credits)
- RSC 495 - Respiratory Care Capstone (3 credits)

### **Summary of Coursework**

<b>Coursework</b>	<b>Credit Count</b>
Associate or Associate of Applied Science in Respiratory Care	Up to 80 credits can transfer to GVSU
GVSU respiratory care core courses	15 credits
GVSU respiratory care major courses	30 credits
Remaining general education courses	Credits will vary depending on the associate program

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Total

Minimum of 120 credits

### **Suggested Order of Coursework for a Respiratory Care Major**

This is a one-year degree advancement program covering three semesters beginning in the winter semester. Students may complete the program on a full-time or part-time basis.

#### **Year One:**

##### **Winter Semester (18 credits)**

- RSC 315 - Quality Assessment and Health Outcomes (3 credits)
- RSC 318 - Gerontology for the Respiratory Therapist (3 credits)
- RSC 328 - Patient Assessment and Care Plans I (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- AHS 340 - Health Care Management (3 credits)
- General Education - Issues (3 credits)

##### **Summer Semester (12 credits)**

- RSC 316 - Health Care Informatics for the Respiratory Therapist (3 credits)
- RSC 428 - Patient Assessment and Care Plans II (3 credits)
- RSC 438 - Respiratory Disease Management (3 credits)
- AHS 301 - Introduction to Health Care Research (3 credits)

##### **Fall Semester (15 credits)**

- AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)
- RSC 401 - Evidence-Based Practice in Respiratory Care (3 credits)
- RSC 458 - Cardiopulmonary Diagnostics and Monitoring (3 credits)
- RSC 485 - Professionalism in Respiratory Care (3 credits)
- RSC 495 - Respiratory Care Capstone (3 credits)

## **School Psychology**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/psychology](http://gvsu.edu/psychology)

#### **Degree Offered**

Specialist in school psychology

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

School psychologists are licensed professionals who provide academic, behavioral, and mental health services within the school environment. Collaborating with teachers, school administrators, and other school professionals, they conduct evaluations and design intervention plans for students who are struggling with a range of academic and behavior problems. Recent legislative and financial shifts in education are driving schools to make significant systemic changes. Because of their training, school psychologists play crucial roles in transforming schools and evaluating outcomes for students, schools, and communities.

## **School Psychology at Grand Valley**

The three year, full-time school psychology program at Grand Valley is designed to create leaders and innovators in the field of education. Students will receive extensive training through coursework, practicum, and research experiences in the assessment, prevention, and intervention of academic, social, and mental health problems in a wide range of students. We aim to create school psychologists who are data-based problem solvers that make an impact on schools at the local, state, and national level.

Upon completion, students will earn a specialist degree in school psychology. Students are eligible for licensure at the state and national level. A marked distinction of our program is that upon graduation, following passing an examination and completing required supervision hours, students are also eligible to become Board Certified Behavior Analysts (BCBA).

### **Admission**

All admissions materials must be received by January 15. To be eligible for consideration, applicants must have

- Completed a bachelor's degree in psychology, special education, or a related field with a minimum 3.0 grade point average. Students with a bachelor's degree in an unrelated field are eligible for admission; however they may have to enroll in prerequisite courses (beyond those listed as follows) prior to beginning the program. The number and topic of courses will vary depending on the individual's degree and background experiences.
- Successfully completed undergraduate prerequisite courses (research methods, statistics, and child development).
- Achieved satisfactory GRE scores (verbal, quantitative, and writing).
- Submitted a personal statement.
- Provided a professional curriculum vitae or resume.
- Submitted three letters of recommendation.

## **Master of Science and Specialist in School Psychology**

### **Requirements for M.S. and Psy.S. in School Psychology**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students admitted into the graduate program in school psychology must complete 68 semester credit hours over the course of three years, including a full-time, yearlong internship. Students meet the requirements for the M.S. degree upon satisfactory completion of two years of coursework (six semesters) and are awarded the Psy.S. degree upon completion of the full year internship. The program accepts one cohort (beginning in the fall semester) each year. Students must enroll full time in the program. The required curriculum is as follows.

## **Year One**

### **Fall Semester:**

- PSY 500 - Introduction to School Psychology (3 credits)
- PSY 510 - Tests and Measurements (3 credits)
- PSY 522 - Applied Behavior Analysis I (ABA): Foundational Concepts and Principles (3 credits)
- PSY 622 - Educational Assessment (3 credits)
- PSY 642 - Assessment Practicum (1 credit)

### **Winter Semester:**

- PSY 523 - Applied Behavior Analysis II: Application to Behavior Change (3 credits)
- PSY 524 - Developmental Psychopathology (3 credits)
- PSY 623 - Intellectual Assessment (3 credits)
- PSY 642 - Assessment Practicum (1 credit)
- PSY 654 - School-based Intervention and Consultation (3 credits)

### **Spring/Summer Semester:**

- PSY 550 - Research in Applied Settings (3 credits)
- EDS 637 - Explicit Language Instruction (3 credits)

## **Year Two**

### **Fall Semester:**

- EDS 638 - Instructional Practices: Learning Disabilities II (3 credits)
- PSY 525 - Behavior Analysis Applied to Autism Spectrum Disorders and Developmental Disorders (3 credits)
- PSY 624 - Behavioral Assessment and Intervention (3 credits)
- PSY 675 - School Psychology Practicum (3 credits)

### **Winter Semester:**

- EDL 653 - Special Education Law (3 credits)
- PSY 527 - Ethics and Diversity in Professional Practice (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PSY 655 - School-based Consultation and Intervention II (3 credits)
- PSY 675 - School Psychology Practicum (3 credits)

Spring/Summer Semester:

- PSY 658 - Advanced Concepts in Applied Behavior Analysis (3 credits)
- Elective (3 credits)

### **Year Three**

Fall Semester:

- \*PSY 685 - School Psychology Internship (1 to 5 credits)

Winter Semester:

- PSY 685 - School Psychology Internship (1 to 5 credits)

\*Note: Students must complete six credits total of PSY 685 in their third year.

## **Social Innovation**

### **Admission**

The professional Master of Arts in social innovation requires 36 credit hours of coursework. There are no prerequisites, and students with any bachelor's degree may be accepted. Courses are offered in hybrid format, meeting both face-to-face and online. In-person courses meet at the Robert C. Pew Campus in downtown Grand Rapids. The program features courses in social innovation, public administration, social work, education, and management.

Housed in the Integrative, Religious, and Intercultural Studies Department (IRIS) within Brooks College of Interdisciplinary Studies, the social innovation program is designed to prepare individuals to foster and lead innovation throughout their organizations, businesses, and communities in ways that impact daily operations and strategic goals. Students are trained how to critically examine and address complex social problems such as childhood hunger, illiteracy, domestic violence, air pollution, food deserts, contaminated drinking water, poverty, homelessness, and racism, among others. The program combines internships, global learning experiences, and collaborative projects for a unique degree experience. Current students can access the student handbook and other program information through the SI Program website.

**Website:** [gvsu.edu/socialinnovation](https://gvsu.edu/socialinnovation)

Applications are accepted on a rolling basis. Additional requirements include:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- A minimum grade point average of 3.0 on a 4.0 scale for the last 60 hours of undergraduate coursework.
- Submitting a GRE score is not required. However, applicants who have neither a 3.0 GPA for the last 60 hours of undergraduate coursework or five years of professional experience may consider submitting a GRE score to strengthen their application.
- Personal statement of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives.
- Written recommendations from at least two individuals who are in positions to attest to the applicant's successful completion of the program.
- An official transcript from each undergraduate and graduate institution.
- TOEFL test scores (Test of English as a Foreign Language), or IELTS (International English Language Testing System), or MELAB (Michigan English Language Assessment Battery) for applicants whose native language is not English. The following minimum scores are expected: TOEFL is 80, IELTS is 6.5, and MELAB is 77.

Applications will not be reviewed until they are complete. Admissions may request additional information or request a personal interview. The Admission Committee is looking for evidence that a candidate will be successful if admitted into the program and considers each applicant as a whole student.

### **Accreditation**

The professional Master of Arts in social innovation is accredited through the Higher Learning Commission.

## **Professional Master of Arts in Social Innovation**

### **Requirements**

The SI Program requires 36 total hours of coursework. This includes:

#### **Core Courses (18 credits)**

All social innovation students are required to complete the following courses:

- PNH 660 - Philanthropy and the Nonprofit Sector: History and Ethics (3 credits)
- SI 600 - Cultures of Social Innovation (3 credits)
- SI 610 - Research Methods for Social Inquiry (3 credits)
- SI 620 - Case Studies in Social Innovation (3 credits)
- SI 630 - Engaging Diversity through Social Innovation (3 credits)
- SI 650 - Place and Environmental Justice (3 credits)

#### **Application Courses (9 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students choose three courses from the following list of electives for a total of nine credits:

- EDF 633 - Race, Class, and Language (3 credits)
- EDF 635 - Survey of Urban Education (3 credits)
- EDF 675 - Cultural and Educational Foundations of Ecological Issues (3 credits)
- EDF 676 - Introduction to Place-Based Education (3 credits)
- EDL 700 - Educational Leadership and Change (3 credits)
- EDL 705 - Organizational Behavior, Ethics and Decision-Making (3 credits)
- EDL 715 - Data-Based Decision-Making and Technology (3 credits)
- MGT 672 - Creativity and Social Entrepreneurship (3 credits)
- PNH 661 - Nonprofit Management: Practices (3 credits)
- PNH 662 - Nonprofit Financial Management (3 credits)
- PNH 663 - Nonprofit Organizations, Advocacy and Public Policy (3 credits)
- PNH 667 - Fund Development (3 credits)
- SW 600 - Cultural Competency for Social Work (3 credits)
- SW 631 - Social Work: U.S. Community-Based Service Learning (3 credits)
- SW 660 - Grant Writing and Resource Development (3 credits)
- SW 676 - Community and Social Planning (3 credits)

### **Synthesis Courses (9 credits)**

Requires nine credits, including:

- SI 661 - Social Innovation Internship (1 to 6 credits)
- SI 690 - Social Innovation Research Design (3 credits)
- SI 693 - Master's Project in Social Innovation (1 to 3 credits)

## **Social Work**

For additional information about opportunities your college offers, please refer to the School of Public, Nonprofit, Health, Hospitality, and Tourism Management section of this catalog.

**Website:** [gvsu.edu/ssw](http://gvsu.edu/ssw)

The Grand Valley State University School of Social Work exists to train competent social workers at the B.S.W. and M.S.W. levels. To that end, we partner actively, consistently, and intentionally with constituents to provide rigorous, ethical coursework and field experiences consistent with the 2015 Council on Social Work Education standards. These standards require that social work students at the foundation and advanced levels competently demonstrate the nine CSWE core competencies and their associated dimensions and observable behaviors. The B.S.W. and M.S.W. curricula combine with our ongoing, dynamic assessment process to assure that our graduates are competent, by CSWE standards, and in the contexts in which they practice. Our model is one of comprehensiveness, as we employ the Generalist and Advanced Generalist

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

models. These assure that social workers trained at GVSU are prepared to practice across contexts, within multiple systems simultaneously, and maintain a developmental, inclusive, and ecological stance. Our faculty and staff are committed to a learning environment that continuously challenges each of us to uphold the ethics of our profession, promotes diversity of all forms, incites a spirit of inquiry, and an environment of student mentoring and support. To that end, we share accountability for exchange of information and our behaviors as professionals and students; the pages that follow is our guide in this pursuit. Our policies are designed to be in service to our profession and our constituents in an effort to assure a competently trained workforce. The Master of Social Work and the Bachelor of Social Work programs are accredited by the Council on Social Work Education.

The School of Social Work B.S.W. and M.S.W. programs do not award academic credit for students' life experiences or previous work experiences.

Students enrolled in the School of Social Work curriculum must be cognizant of the fact that past or future criminal conduct may limit or prevent placement in a field practice agency. Because field practice is a B.S.W. and an M.S.W. curriculum imperative, the social work degree is awarded only after successful completion of all requirements. Furthermore, past or present criminal conduct may render an individual ineligible to secure a state license and the privilege to practice social work.

### **Honors Organization**

Phi Alpha Honor Society is a national social work academic honor society that is dedicated to high standards of scholarship and distinctive achievements within social work. Find more information on the National website at [phialpha.org](http://phialpha.org).

The purposes of Phi Alpha Honor Society are to provide a closer bond among students of social work and promote humanitarian goals and ideals. **Phi Alpha Chi Epsilon**, the Grand Valley State University (GVSU) chapter, offers membership to B.S.W. and M.S.W. students to be inducted based on your academic achievement and credit hours spent within the social work program.

## **Bachelor of Social Work**

Grand Valley State University's Bachelor of Social Work (B.S.W.) is offered through the School of Social Work (SSW) and prepares students for professional practice by laying the foundation for them to assume roles in society's institutions, organizations, and communities.

The program emphasizes human behavior, the interface between people and their social environment and institutions, and client strengths. Generalist social workers are concerned with societal conditions in their efforts to improve the quality of life and social and economic justice.

The mission of the B.S.W. program is to prepare generalist social workers who enhance and promote well-being and advocate for social, economic, and environmental justice of the citizens, organizations, and communities of West Michigan, the state, the nation, and the world, and to

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

further the goals of the university and of the social work profession in this region and beyond. West Michigan's unique setting consists of diverse cultural communities as well as urban and rural settings, creating significant potential for skilled social work professionals to make a profound impact on our community.

The B.S.W. program's goals are derived directly from its mission statement and are designed to meet the social service needs of its program locations and beyond. Program goals are as follows:

- To provide a generalist social work curriculum in a quality learning environment that prepares B.S.W. graduates for entry-level social work practice that promotes social, and economic justice and endeavors to address poverty and other social problems within organizational, individual, and community contexts within, but not limited to, West Michigan and the State of Michigan.
- To prepare generalist social workers who exhibit a professional commitment to enhancing social justice, promoting human rights, ensuring the dignity and worth of all individuals, practicing social work with integrity, upholding the NASW Code of Ethics, incorporating diversity into their practice, and advancing the profession's reputation and knowledge base.
- To prepare students for continued professional development opportunities throughout their careers, including graduate education.
- To contribute to the development of social work scholarship and human rights advocacy by supporting the engagement of students, faculty, and staff in local, regional, statewide, national, and international organizations focused on improving the quality of life for all persons.

The B.S.W. program starts in the fall semester and the SSW admits students one time per year.

### **Accreditation**

The Bachelor of Social Work program is accredited by the Council on Social Work Education (CSWE). Accreditor's Website: [cswe.org](http://cswe.org).

### **Organizations**

#### **Bachelor of Social Work Student Organization (BSWSO)**

This organization is committed to providing both volunteer opportunities and social activities for all social work students.

The organizations goals include the following:

- Enrichment of professional identity
- Advocacy for B.S.W. students
- Becoming a viable source for GVSU
- Increase positive recognition of GVSU in the surrounding area
- Enhancement of organizational skills through participation in group process

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- Encouragement of awareness of the various social issues that impact our profession and communities

### **National Honor Society for Social Work Students**

- Phi Alpha Honor Society is a national social work academic honor society that is dedicated to high standards of scholarship and distinctive achievements within social work. The purposes of Phi Alpha Honor Society are to provide a closer bond among students of social work and promote humanitarian goals and ideals.
- Phi Alpha Chi Epsilon, the Grand Valley State University chapter, offers membership to B.S.W. and M.S.W. students to be inducted based on your academic achievement and credit hours spent within the social work program. Find more information on the National website at [phialpha.org](http://phialpha.org).

### **Admission**

The B.S.W. degree requires successful completion of 120 semester hours of college credits. The program is built on a liberal arts foundation plus 34 hours of cognate and international courses. These required courses augment, complement, and supplement the 45 credit hours of professional social work courses, which include emphases on social work values and ethics, social and economic justice, diversity, and populations at risk in the human behavior and social environment, social welfare policy and services, generalist social work practice, social work research, and field education practice sequences.

The Bachelor of Social Work degree program is a secondary admission program, which only admits students one time per year. An eligible applicant must meet the following requirements:

- Have a minimum cumulative grade point average of 2.5 or above.
- Have all admission prerequisite coursework successfully completed or in progress at the time of application.
- Earn a C or better in all admission prerequisite coursework (excluding general education requirements and MTH 110).
- Adhere to the School of Social Work (SSW) course repeat policy which states that a student may not repeat a required course more than once.

The B.S.W. program starts in the Fall semester and the SSW admits students one time per year.

At the time of graduation, all students must have earned a minimum cumulative GPA of 2.5 and a 3.0 GPA in their social work major courses.

### **Prerequisite Courses**

All admission prerequisite courses must be completed with a C or better, and the cumulative grade point average for these course must a 2.5 or above. These courses may be repeated no more than once.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- Social Problems/Social Inequality elective (3 credits)
- \*BIO 104 - Biology for the 21st Century (4 credits)
- PLS 102 - American Government and Politics (3 credits)
- PSY 101 - Introductory Psychology (3 credits)
- PSY 303 - Psychopathology (3 credits) **OR** PSY 324 - Developmental Psychopathology (3 credits)
- SOC 101 - Introduction to Sociology (3 credits)
- SW 150 - Introduction to Social Work and Social Welfare (3 credits)

\* BIO 104 is the recommended Life Science choice for social work majors. Students must also demonstrate a MTH 110 proficiency and have completed their general education Foundations (excluding Mathematical Sciences); these requirements do not require C or better.

## **Required Courses**

### **For the Major**

The student must earn an overall G.P.A. of 3.0 in social work courses and not have repeated a course more than once. Also included are six credits from the list of social work electives, as well as three credits from the list of international program courses.

- SW 150 - Introduction to Social Work and Social Welfare (3 credits)
- SW 300 - Social Work and Difference, Diversity, and Privilege (3 credits)
- SW 316 - Interviewing in Social Work (3 credits)
- SW 317 - Generalist Practice I (3 credits)
- SW 318 - Generalist Practice II (3 credits)
- SW 319 - Social Welfare Policy and Services (3 credits)
- SW 340 - Human Behavior and the Social Environment I (3 credits)
- SW 341 - Human Behavior and the Social Environment II (3 credits)
- SW 348 - Professional Development in Social Work (3 credits)
- SW 430 - Social Work Research (4 credits)
- SW 490 - Social Work Field Education I (3 credits)
- SW 491 - Social Work Field Education II (3 credits)
- SW 492 - Social Work Field Seminar I (1 credit)
- SW 493 - Social Work Field Seminar II (1 credit)
- SW 495 - Social Work Capstone (3 credits)

### **Prior to Second Year of Social Work Program**

The following required courses must be completed by the student before starting field education:

- Culture and environment elective (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Prior to Graduation**

The following courses must be completed prior to graduating with their B.S.W.:

- Interprofessional practice elective (3 credits)
- Social work electives (6 credits)
- International relations elective (3 credits)

## **Course Lists**

### **Social Problems/Social Inequality**

Requires three credits:

- PH 222 - Public Health Concepts (3 credits)
- CJ 101 - Justice and Society (3 credits)
- ECO 210 - Introductory Macroeconomics (3 credits)
- ECO 211 - Introductory Microeconomics (3 credits)
- SOC 105 - Social Problems (3 credits)
- SOC 252 - Sociology of Drug Use and Abuse (3 credits)
- SOC 286 - Sociology of Health Care (3 credits)
- SOC 315 - Social Class Inequality (3 credits)
- SOC 381 - Class, Race, Gender, and Sexuality (3 credits)
- CJ 320/WGS 320 - Crimes Against Women (3 credits)

### **Culture and Environment Course**

Requires three credits. Must be completed prior to entering field education.

- ANT 204 - Peoples and Cultures of the World (3 credits)
- ANT 340 - Culture and Environment (3 credits)
- INT 350 - The Immigrant Experience in the U.S. (3 credits)
- PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)
- PLS 301 - Poverty, Inequality, and U.S. Public Policy (3 credits)
- PSY 355 - Psychology and Culture (3 credits)
- PSY 360 - Social Psychology: Psychology's View (3 credits)
- PSY 362 - Environmental Psychology (3 credits)
- SOC 287 - Sociology of Religion (3 credits)
- SOC 345 - Cultural Sociology (3 credits)
- SOC 351 - Urban Sociology (3 credits)
- SOC 360 - Social Psychology: Sociology's View (3 credits)
- \* SW 351 - Cross-Cultural Service Learning (3 credits)
- \* SW 354 - Global: Cross-Cultural Community Based Learning (3 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

\*Courses cannot be used to satisfy both the culture and environment and social work elective requirements.

### Interprofessional Practice

Requires three credits. Must be completed prior to entering field education.

- CJ 420 - Juvenile Correctional Counseling (3 credits)
- COM 302 - Small Group Communication (3 credits)
- IDS 350 - Civil Discourse (3 credits)
- INT 341 - Leadership for Social Change (3 credits)
- PNH 270 - Public and Nonprofit Administration (3 credits)
- PNH 335 - Grant Writing (3 credits)
- PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)
- PHI 325 - Ethics in Professional Life (3 credits)
- PSY 310 - Behavior Modification (3 credits)
- PSY 452 - Counseling: Theories and Applications (3 credits)

### Social Work Electives

Requires six credits from the following:

- SW 320 - Child Welfare Policy and Practice (3 credits)
- SW 322 - Responding to Chronic Illness (3 credits)
- SW 333 - Community Work with the Lesbian, Gay, Bisexual and Transgender Community (3 credits)
- SW 344 - Responding to Loss, Death, and Grief (3 credits)
- SW 351 - Cross-Cultural Service Learning (3 credits)
- SW 354 - Global: Cross-Cultural Community Based Learning (3 to 4 credits)
- SW 380 - Special Topics in Social Work (1 to 4 credits)
- SW 439 - The Family and Social Work Practice (3 credits)
- SW 499 - Independent Study in Social Work (1 to 4 credits)

### International Relations Program

Requires three credits. Students are not restricted to this list and can ask the B.S.W. director to consider additional courses.

- AAA 200 - Understanding Africa (3 credits)
- ANT 345 - Perspectives on Globalization (3 credits)
- GPY 235 - Geography for a Changing World (3 credits)
- HST 211 - History of Islamic Civilization (3 credits)
- HST 212 - India: History and Civilization (3 credits)
- HST 310 - Cultural and Social Topics in Nonwestern History (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- HST 319/INT 319 - Human Traffic and Trafficking (3 credits)
- HST 331 - Modern Latin America (3 credits)
- HST 337 - The Age of Islamic Empire (3 credits)
- HST 338 - Modern Middle East (3 credits)
- HST 386 - 20th Century Europe (3 credits)
- LAS 374 - Revolution in the Americas (3 credits)
- MES 201 - Introduction to the Middle East (3 credits)
- PLS 211 - International Relations (3 credits)
- PLS 313 - International Organization (3 credits)
- PLS 327 - Politics of Developing Countries (3 credits)
- WGS 350/SOC 350 - Family and Gender in the Developing World (3 credits)
- SW 354 - Global: Cross-Cultural Community Based Learning (3 to 4 credits)

### Elective Courses

Following are recommended electives. Students are not restricted to this list and can ask the B.S.W. director to consider additional courses.

- ANT 204 - Peoples and Cultures of the World (3 credits)
- PNH 270 - Public and Nonprofit Administration (3 credits)
- PNH 449 - Policy Research and Evaluation (3 credits)
- PHI 102 - Ethics (3 credits)
- PHI 325 - Ethics in Professional Life (3 credits)
- PSY 310 - Behavior Modification (3 credits)
- PSY 316 - The Psychology of Human Intimacy and Sexuality (3 credits)
- SOC 379 - Sociology of Love (3 credits)
- WGS 200 - Introduction to Gender Studies (3 credits)
- WGS 360 - Foundations of Feminism (3 credits)
- WGS 380 - Special Topics in Women Gender, and Sexuality Studies (1 to 4 credits)

### Transfer Students

A student planning to transfer to GVSU from another college or university should work closely with their local academic advisor. As a transfer student, be sure to carefully review your GVSU transcript evaluation upon admission to the university. To be considered for the Social Work program, a student must be admitted to GVSU and have declared social work as a major prior to application. Transfer students are able to declare Social Work as their major at transfer orientation.

An eligible applicant must meet the following requirements:

- Have a minimum cumulative grade point average of 2.5 (including transfer credits).
- Have all admission prerequisite coursework successfully completed or in-progress at the time of application.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Earn a C or better in all admission prerequisite coursework (excluding general education requirements and MTH 110).
- Adhere to the SSW course repeat policy which states that a student may not repeat a required course more than once.
- Successfully complete SW 300 within their first year of the B.S.W. program, as most transfer institutions do not offer an equivalent.
- Demonstrate MTH 110 proficiency via MTH Placement test, ACT or SAT scores, or through successful completion of a MTH 110 equivalent.

The B.S.W. program starts in the fall semester, and the SSW admits students one time per year.

Given extenuating circumstances, the director of the Bachelor of Social Work program reserves the right to work with students on a case by case basis when making admission decisions.

Once admitted into the School of Social Work, all transfer students must satisfy all university and major requirements prior to graduation.

## **Suggested Order of Coursework for Social Work Major**

Following is a sample curriculum guide. It may not be applicable for every student and is not a replacement for meetings with an academic advisor.

### **Year One**

Fall Semester (15 credits):

- WRT 150 - Strategies in Writing (4 credits)
- SW 150 - Introduction to Social Work and Social Welfare (3 credits) Social and Behavioral Science and SW core course.
- MTH 110 - Algebra (4 credits) Prerequisite for general education Mathematical Sciences.
- BIO 104 - Biology for the 21st Century (4 credits) General education Life Science with a lab and SW prerequisite.

Winter Semester (15 credits):

- SOC 101 - Introduction to Sociology (3 credits) Social and Behavioral Science and social work prerequisite.
- PSY 101 - Introductory Psychology (3 credits) Social and Behavioral Science and social work prerequisite.
- General education Art **OR** Philosophy and Literature **OR** History (3 credits)
- General education Art **OR** Philosophy and Literature **OR** History (3 credits)
- General education Physical Science non-lab (3 credits)

### **Year Two**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Fall Semester (15 credits):

- Social Problems/Social Inequality elective (3 credits)
- International relations program course (3 credits)
- General education course Art **OR** Philosophy and Literature **OR** History (3 credits)
- General education U.S. Diversity (3 credits)
- PLS 102 - American Government and Politics (3 credits)

Winter Semester (15 credits):

- General education Global Perspectives (3 credits)
- General elective (3 credits)
- PSY 303 - Psychopathology (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- SW 300 - Social Work and Difference, Diversity, and Privilege (3 credits)

### **Year Three**

Fall Semester (15 credits):

- Culture and environment elective (3 credits)
- SW 317 - Generalist Practice I (3 credits) SW core course.
- SW 319 - Social Welfare Policy and Services (3 credits) SW core course.
- SW 340 - Human Behavior and the Social Environment I (3 credits) SW core course.
- SW 348 - Professional Development in Social Work (3 credits) SW core course.

Winter Semester (15 credits):

- General education Issues (3 credits)
- General elective (3 credits)
- SW 316 - Interviewing in Social Work (3 credits) SW core course.
- SW 318 - Generalist Practice II (3 credits) SW core course.
- SW 341 - Human Behavior and the Social Environment II (3 credits) SW core course.

### **Year Four**

Fall Semester (15 credits):

- Social work elective (3 credits)
- Interprofessional practice elective (3 credits)
- General elective (1 credit)
- SW 430 - Social Work Research (4 credits) SW core course.
- SW 490 - Social Work Field Education I (3 credits) SW core course.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SW 492 - Social Work Field Seminar I (1 credit) SW core course.

Winter Semester (15 credits):

- Social work elective (3 credits)
- General education Issues (3 credits)
- General elective (2 credits)
- SW 491 - Social Work Field Education II (3 credits) SW core course.
- SW 493 - Social Work Field Seminar II (1 credit) SW core course.
- SW 495 - Social Work Capstone (3 credits) SW core course.

## Master of Social Work

**Website:** [gvsu.edu/grad/msw](http://gvsu.edu/grad/msw)

Grand Valley State University's Master of Social Work (M.S.W.) is offered through the School of Social Work and prepares students for advanced professional practice by laying the foundation for students to assume leadership roles in society's institutions, organizations, and communities.

The program emphasizes human behavior, interface between people and their social environment and institutions, and client strengths. Advanced generalist social workers are also concerned with societal conditions in their efforts to improve the quality of life and social and economic justice.

The mission of the M.S.W. program is to prepare advanced generalist social workers who enhance and sustain the welfare and well-being of the individuals, families, groups, organizations, and communities of West Michigan, the state, the nation, and the world; and who further the goals of the university and of the social work profession in this region and beyond. This is accomplished through professional leadership, advancement of the social work field's knowledge through research and evaluation, and a focus on diversity, social justice, and human rights.

The program's goals are derived directly from its mission statement and are designed to meet the social service needs of its program locations and beyond:

- To provide a foundational M.S.W. curriculum and an advanced generalist social work curriculum that prepares M.S.W. graduates for autonomous social work practice that promotes social, economic, and environmental justice and endeavors to address poverty and other social problems within individual, organizational, and community contexts within, but not limited to, West and Northern Michigan and the State of Michigan.
- To award the graduate degree to individuals who are skilled practitioners who adhere to the NASW Code of Ethics, incorporating diversity into their practice and are capable of assuming leadership and scholarly professional roles in the community, region, state, national, and global communities.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- To contribute to the ongoing development of professional social work knowledge and practice through research and scholarly inquiry that employ state-of-the-art technology.
- To prepare students for continued professional development opportunities throughout their careers, including doctoral education.

## **Advanced Generalist**

The advanced generalist model is built on a liberal education foundation that promotes critical thinking and the conscientious application of advanced practice social work knowledge, skills, values, ethics, and cognitive and affective processes. The features of this model are designed to

- enhance the depth and breadth of practice in a multi-method, multi-level, and theoretically grounded perspective;
- refine and shape advanced practitioners through acquisition of professional competencies to assess, intervene, and evaluate within all systems and within all practice environment;
- affirm that human problems derive from a complex interplay of psychological, social, cultural, economic, political, biological, and physical forces;
- prepare students to effectively intervene with individuals, families, groups, organizations, and communities;
- expand, extend, and enhance the foundation of generalist social work core competencies with advanced knowledge and practice behaviors; and
- promote the development of advanced knowledge, skills, values, and affective and cognitive processes in leadership, collaboration, administration, advocacy, assessment, problem solving, intervention, cultural competency, communication, collaboration, community building, program evaluation, organizational management, policy analysis, and scientific inquiry.

The integration of professional practice skills within the advanced generalist curriculum model culminates in the mastery of social work's core competencies, so that M.S.W. graduates are proficient in a wide range of settings, with a broad diversity of populations at all levels of professional practice in any geographic location.

## **Accreditation**

The Master of Social Work program is accredited by the Council on Social Work Education (CSWE). Accreditor's website: [cswe.org](http://cswe.org).

## **Regular Standing M.S.W. Degree**

The School of Social Work offers a 60 credit hour Master of Social Work (M.S.W.) degree program on both a full-time (two years) and part-time basis (three or four years).

## **Advanced Standing M.S.W. Degree**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The School of Social Work recognizes strong academic and professional performance by students who have graduated from a CSWE-accredited undergraduate social work program within five years prior to enrollment in the M.S.W. program and have met specified admissions criteria. Advanced standing students are exempt from the 22 hours of foundation courses and may accelerate their graduate study by completing the remaining 38 credit hours of MSW course requirements. The Advanced Standing M.S.W. program can be completed full-time (three semesters) or part-time (five semesters).

## **M.S.W. and M.P.A. Degree Programs**

The School of Social Work and the School of Public, Nonprofit, and Health Administration offer prospective students the option to pursue both graduate degrees offered by these units (M.S.W. and M.P.A.). This entails taking coursework in both disciplines in order to be well prepared to seek middle- and upper-level management positions in either public or private human service organizations. Those earning the two degrees will attain the knowledge, skills, values, and cognitive and affective processes of the social work profession with the advanced administrative and technical expertise developed through the study of public administration to become leaders in their organizations and communities.

For additional information about admission and curriculum regarding this combination of degrees, please visit our website online at [gvsu.edu/ssw/msw-mpa-program-111.htm](http://gvsu.edu/ssw/msw-mpa-program-111.htm).

Accreditation: The Master of Social Work program is accredited by the Council on Social Work Education (CSWE).

Accreditor's website: [cswe.org](http://cswe.org)

## **Organizations**

### **Master of Social Work Student Organization**

This organization is committed to providing both volunteer opportunities as well as social activities for all social work students. The organization's goals include:

- Enrichment of professional identity
- Advocacy for M.S.W. students
- Becoming a viable source for GVSU
- Increase positive recognition of GVSU in the surrounding area
- Enhancement of organizational skills through participation in group process
- Encouragement of awareness of the various social issues that impact our profession and communities.

### **National Honor Society for Social Work Students**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- Phi Alpha Honor Society is a national social work academic honor society that is dedicated to high standards of scholarship and distinctive achievements within social work.
- The purposes of Phi Alpha Honor Society are to provide a closer bond among students of social work and promote humanitarian goals and ideals. Find more information on the National website at [phialpha.org](http://phialpha.org). Phi Alpha Chi Epsilon, the Grand Valley State University chapter, offers membership to B.S.W. and M.S.W. students to be inducted based on your academic achievement and credit hours spent within the social work program.

## **Requirements**

The M.S.W. degree consists of a minimum of 60 credit hours.

### **Primary Foundation (all required)**

- SW 600 - Cultural Competency for Social Work (3 credits)
- \* SW 601 - Foundations of Social Work Practice (3 credits)

\*See your advisor: Not required for students with CSWE accredited B.S.W. undergraduate degrees or child welfare grantees. If waived, students take an SW elective in place of SW 601.

- SW 603 - Integrated Methods (3 credits)
- SW 610 - Social Welfare Policy and Services I (3 credits)
- SW 620 - Human Behavior and the Social Environment (3 credits)
- \*\* SW 690 - Social Research I (3 credits)

\*\*Test-out exam available.

### **Advanced Generalist Concentration (all required)**

- SW 622 - Clinical Diagnosis and Treatment Planning (3 credits)
- SW 662 - Substance Abuse and Social Work Practice (3 credits)
- SW 670 - Social Work Practice with Individuals (3 credits)
- SW 691 - Social Research II (3 credits)
- SW 640 - Seminar in Advanced Generalist Practice (Capstone) (3 credits)

### **Advanced Policy**

Choose one of three:

- SW 613 - Human Rights and Social Work (3 credits)
- SW 630 - Social Work: Global Service-Learning (3 credits)
- SW 631 - Social Work: U.S. Community-Based Service Learning (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

SW 630 or SW 631 may be selected as a substitute to SW 613 when the human rights/ advanced policy assignment and required readings are completed as part of the service learning coursework.

**Field Education Practice (all required)**

- SW 650 - Field Education I (3 credits)
- SW 651 - Field Education Seminar I (1 credit)
- SW 652 - Field Education II (3 credits)
- SW 653 - Field Education Seminar II (1 credit)
- SW 654 - Field Education III (3 credits)
- SW 655 - Field Education Seminar III (1 credit)

**Advanced Micro-core**

Choose one:

- SW 672 - Social Work Practice with Groups (3 credits)
- SW 674 - Social Work Practice: Families and Children (3 credits)

**Advanced Macro-core**

Choose two of six:

- SW 660 - Grant Writing and Resource Development (3 credits)
- SW 661 - Social Work in the School/ Educational Setting (3 credits)
- SW 677 - Principles of Supervision (3 credits)
- SW 676 - Community and Social Planning (3 credits)
- SW 678 - Human Services Administration (3 credits)
- SW 679 - Program Monitoring and Evaluation (3 credits)

**Electives**

Choose one course of at least three credits.

Any course from previous list not taken to satisfy requirements or from the following:

- SW 663 - Child and Adolescent Development/Practice (3 credits)
- SW 665 - Opportunities in Aging Societies (3 credits)
- SW 668 - Child and Adolescent Trauma (3 credits)
- SW 669 - Responses to Loss and Death (3 credits)
- SW 671 - Social Work Practice in Health Care (3 credits)
- SW 673 - Social Work Practice with Children and Adolescents (3 credits)
- SW 675 - Child Welfare and Family Services (3 credits)
- SW 680 - Special Topics in Social Work (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SW 695 - Master's Thesis (1 to 6 credits)

## **M.S.W. and M.P.A. Degree Programs**

The Schools of Social Work and Public, Nonprofit, and Health Administration offer prospective students the option to pursue both graduate degrees offered by these units (M.S.W and M.P.A). This entails taking coursework in both disciplines in order to be well prepared to seek middle and upper-level management positions in either public or private human service organizations. Those earning the two degrees will attain the knowledge, skills, and values of the social work profession with the advanced administrative and technical expertise developed through the study of public administration to become leaders in their organizations and communities. Currently, Grand Valley State University policies enable a student to pursue the M.S.W degree as the first master's degree and the M.P.A degree as a second master's degree by completing 21 credits in the M.P.A program.

Applicants must submit the following items to the Grand Valley State University Admissions Office in Allendale, Michigan:

- Completed graduate application for admission to both the M.S.W program and M.P.A program
- \$30 nonrefundable application fee
- Official copies of transcripts from all institutions of higher education attended, other than Grand Valley
- Three recommendation forms from individuals able to attest to the candidate's qualifications for graduate work and professional practice
- Current resume detailing work and volunteer experience
- Graduate admissions statement responding to the five questions detailed in the M.S.W. admissions packet
- Coursework Requirement Form

No further action on candidacy will be taken until all requested materials have been received by the Admissions Office. Applications may be obtained through the university or either school. Completed application files will be reviewed by members of the M.S.W program and the M.P.A program. Students must meet the basic requirements for graduate study as defined by each school. Either program may also request additional information from an applicant before granting full admissions status and a personal interview may be required.

### **M.S.W. and M.P.A. Requirements**

For students who are not seeking or do not qualify for Advanced Standing, 78 credit hours of study are required. For Advanced Standing students, 59 credits are required. Students must be willing to take a minimum of two courses per semester, including spring/summer, and are expected to complete coursework within four calendar years. A three-semester field education practice is required (two semesters for advanced standing); students will spend a major portion of the time applying the knowledge learned in the classroom regarding macro practice. Students

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

must complete a minimum of 21 credits of public administration courses along with the courses necessary to earn the M.S.W. degree.

#### **Foundation Core**

- SW 600 - Cultural Competency for Social Work (3 credits)
- \*SW 601 - Foundations of Social Work Practice (3 credits)

\*See your advisor: Not required for students with CSWE accredited B.S.W. undergraduate degrees or child welfare grantees. If waived, students take a SW elective in place of SW 601.

- SW 603 - Integrated Methods (3 credits)
- SW 610 - Social Welfare Policy and Services I (3 credits)
- SW 620 - Human Behavior and the Social Environment (3 credits)
- \*\* SW 690 - Social Research I (3 credits)

\*\* Test-out exam available.

(SW 600, SW 601, SW 603, SW 610, and SW 620 are waived for students with Advanced Standing status.)

#### **Advanced Generalist Concentration**

All required with two noted PA/SW options.

- SW 622 - Clinical Diagnosis and Treatment Planning (3 credits)
- SW 640 - Seminar in Advanced Generalist Practice (Capstone) (3 credits) **OR** PNH 619 - Public Management Seminar (3 credits)
- SW 662 - Substance Abuse and Social Work Practice (3 credits)
- SW 670 - Social Work Practice with Individuals (3 credits)
- SW 691 - Social Research II (3 credits) **OR** PNH 611 - Research Methods (3 credits)

#### **Public Administration Core**

All required:

- PNH 520 - Foundations of Public Service (3 credits)
- PNH 612 - Human Resources in Organizations (3 credits)
- PNH 614 - Organization Theory (3 credits)
- PNH 660 - Philanthropy and the Nonprofit Sector: History and Ethics (3 credits)
- PNH 662 - Nonprofit Financial Management (3 credits)
- PNH 663 - Nonprofit Organizations, Advocacy and Public Policy (3 credits)

#### **Field Education Practice**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

All required:

- \*SW 650 - Field Education I (3 credits)
- \*SW 651 - Field Education Seminar I (1 credit)
- SW 652 - Field Education II (3 credits)
- SW 653 - Field Education Seminar II (1 credit)
- SW 654 - Field Education III (3 credits)
- SW 655 - Field Education Seminar III (1 credit)

\*SW 650 and SW 651 are waived for students with Advanced standing status.

#### **Advanced Macro**

All required with two noted PA/SW options.

- SW 660 - Grant Writing and Resource Development (3 credits) **OR** PNH 535 - Grant Writing (3 credits)
- SW 678 - Human Services Administration (3 credits) **OR** PNH 661 - Nonprofit Management: Practices (3 credits)
- SW 679 - Program Monitoring and Evaluation (3 credits)

#### **Social Work Electives**

Choose One:

- SW 630 - Social Work: Global Service-Learning (3 credits)
- SW 631 - Social Work: U.S. Community-Based Service Learning (3 credits)
- SW 672 - Social Work Practice with Groups (3 credits)
- SW 674 - Social Work Practice: Families and Children (3 credits)

#### **Public Administration Electives**

Choose One:

- PNH 642 - Conflict Management (3 credits)
- PNH 643 - Strategic Management and Planning (3 credits)
- PNH 644 - GIS in the Public Service (3 credits)
- PNH 665 - Nonprofit and Foundation Boards, Trustees and Governance (3 credits)

## **School Social Work Certification**

The School of Social Work at Grand Valley is authorized by the State Board of Education in Michigan to provide training and make recommendations concerning practitioner certification

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

for school social work as provided in the Administrative Rules for School Social Work (Rule 340.1013) of the Michigan Department of Education.

## **Requirements for the Certification**

Students must consult with the school social work advisor. In addition to taking required foundation courses, the student seeking certification must complete the following courses with a grade of B or better in each course:

- SW 661 - Social Work in the School/ Educational Setting (3 credits)
- SW 663 - Child and Adolescent Development/Practice (3 credits)
- SW 664 - Social Work Practice in Schools (3 credits)

SW 661 qualifies as one of the two advanced macro-core courses and SW 663 satisfies the elective requirement for the M.S.W. program. These courses fulfill two of the three required courses for the school certification curriculum. The final course for school certification, SW 664, is required **in addition** to the 60 credit hours required for the M.S.W. degree (38 credits for advanced standing students).

## **Sociology**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/soc-dept](http://gvsu.edu/soc-dept)

The Sociology Department is a community of critical scholars who analyze the intersection of race, class, gender, and sexuality as the context of social interaction and the construction of difference in society. Faculty utilize qualitative and quantitative methods to develop insight into a wide range of substantive areas and to understand vital issues of the day.

The department seeks to engage students in critical examination of their own social world and those beyond their personal experience, and examine how society reproduces itself in the individual and how individuals think and behave within institutional contexts.

Departmental teaching and scholarship strive toward three main outcomes:

- Affirmation of pluralistic and democratic visions of society.
- Development of critical thinking and analytical skills in students, which are essential in governmental, corporate, and academic settings.
- Empowerment of community development and participation in civic society.

## **Minor in Aging and Adult Life**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The sociology department participates in a multidisciplinary minor in aging and adult life. See section on Aging and Adult Life for further information.

### **Honors Organization**

The Grand Valley State University Theta chapter of Alpha Kappa Delta, the International Sociology Honor Society, promotes excellence in scholarship in the study of sociology, research of social problems, and such other social and intellectual activities as will lead to an improvement in the human condition.

Membership in Alpha Kappa Delta is awarded each year to sociology majors who are juniors or seniors, have an overall GPA of 3.0 or above, and have maintained a 3.0 GPA in a minimum of 12 hours of sociology coursework at Grand Valley.

## **Bachelor of Arts or Bachelor of Science in Sociology**

### **Requirements for a Major in Sociology**

Students majoring in sociology are required to complete at least 45 credit hours for either a Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree.

- For the B.S. degree, the 45 credit hours will include 33 hours of core credit and 12 credit hours of electives chosen from courses in the sociology department.
- The B.A. degree requires 27 hours in the core, and six hours of electives chosen from courses in the sociology department and third-semester proficiency in a language (12 hours).

### **Requirements for B.S. Degree**

#### **Core Courses**

Requires 33 core credits, including:

- SOC 101 - Introduction to Sociology (3 credits) **OR** SOC 105 - Social Problems (3 credits)
- SOC 204 - Introduction to Social Theory (3 credits)
- SOC 304 - Quantitative Methods in Sociology (3 credits)
- SOC 305 - Qualitative Methods in Sociology (3 credits)
- SOC 313 - Race and Ethnicity (3 credits)
- SOC 315 - Social Class Inequality (3 credits)
- SOC 317 - Sociology of Gender (3 credits)
- SOC 319 - Classic Social Theory (3 credits) **OR** SOC 321 - Contemporary Sociological Theory (3 credits)
- SOC 495 - Senior Seminar in Sociology (Capstone) (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Elective Courses**

Requires 12 credits; any four additional courses in sociology.

Whichever of the following that was not taken for the core can also count as electives:

- SOC 101 **OR** SOC 105
- SOC 319 **OR** SOC 321

## **Requirements for B.A. Degree**

### **Core Courses**

Requires 39 credits, including:

- SOC 101 - Introduction to Sociology (3 credits) **OR** SOC 105 - Social Problems (3 credits)
- SOC 204 - Introduction to Social Theory (3 credits)
- SOC 305 - Qualitative Methods in Sociology (3 credits)
- SOC 313 - Race and Ethnicity (3 credits)
- SOC 315 - Social Class Inequality (3 credits)
- SOC 317 - Sociology of Gender (3 credits)
- SOC 319 - Classic Social Theory (3 credits) **OR** SOC 321 - Contemporary Sociological Theory (3 credits)
- SOC 495 - Senior Seminar in Sociology (Capstone) (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- Third-semester proficiency foreign language

### **Elective Courses**

Requires six credits: any two additional courses in sociology.

Whichever of the following that was not taken for the core can also count as electives:

- SOC 101 **OR** SOC 105
- SOC 319 **OR** SOC 321

## **Suggested Order of Coursework for a Major in Sociology**

### **B.S. Degree**

#### **Year One**

- MTH 110 - Algebra (4 credits)
- SOC 101 - Introduction to Sociology (3 credits) **OR** SOC 105 - Social Problems (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- WRT 150 - Strategies in Writing (4 credits)

## **Year Two**

- SOC 304 - Quantitative Methods in Sociology (3 credits)
- SOC 305 - Qualitative Methods in Sociology (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)

## **Year Three**

- SOC 313 - Race and Ethnicity (3 credits)
- SOC 315 - Social Class Inequality (3 credits)
- SOC 317 - Sociology of Gender (3 credits)
- SOC 319 - Classic Social Theory (3 credits) **OR** SOC 321 - Contemporary Sociological Theory (3 credits)

## **Year Four**

- Sociology elective
- Sociology elective
- Sociology elective
- Sociology elective
- SOC 495 - Senior Seminar in Sociology (Capstone) (3 credits)

## **B.A. Degree**

### **Year One**

- MTH 110 - Algebra (4 credits)
- SOC 101 - Introduction to Sociology (3 credits) **OR** SOC 105 - Social Problems (3 credits)
- SOC 204 - Introduction to Social Theory (3 credits)
- WRT 150 - Strategies in Writing (4 credits)
- Language 101
- Language 102

### **Year Two**

- SOC 304 - Quantitative Methods in Sociology (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- Language 201

### **Year Three**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SOC 313 - Race and Ethnicity (3 credits)
- SOC 315 - Social Class Inequality (3 credits)
- SOC 317 - Sociology of Gender (3 credits)
- SOC 319 - Classic Social Theory (3 credits) **OR** SOC 321 - Contemporary Sociological Theory (3 credits)

### **Year Four**

- Sociology elective
- Sociology elective
- Sociology elective
- SOC 495 - Senior Seminar in Sociology (Capstone) (3 credits)

## **Sociology Minor**

Students minoring in sociology are required to complete 21 credit hours in the department.

### **Requirements for the Minor**

The 21 credit hours required for a minor in sociology are composed of the following courses:

- SOC 101 - Introduction to Sociology (3 credits)
- SOC 204 - Introduction to Social Theory (3 credits)
- 15 elective credits (five courses) in sociology

## **Speech-Language Pathology**

**Website:** [gvsu.edu/csd](http://gvsu.edu/csd)

Speech-language pathologists (also referred to as speech therapists) are educated to assess speech and language development and to treat speech, language, and swallowing disorders. Speech-language pathologists often work as part of an interprofessional team, which may include teachers, physicians, audiologists, psychologists, social workers, rehabilitation counselors, and others.

### **Speech-Language Pathology at Grand Valley**

Speech-language pathology is an intensive program leading to a Master of Science degree. Students interested in studying speech-language pathology at the graduate level must complete a series of prerequisite courses at the undergraduate level. The profession of speech-language pathology is a licensed field of practice that typically requires completion of a graduate degree from an accredited institution. It is not possible to become licensed as a speech-language pathologist without the graduate degree. Professional certification is also available to

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

practitioners that demonstrate to the public that the speech-language pathologist has completed rigorous academic and clinical preparation and is considered competent to practice the profession. The master degree program at GVSU prepares students to qualify for licensure and validates that students have completed all academic preparation to qualify for national certification.

## **Admission**

All admissions materials, with the exception of the personal interview, must be received prior to the **application deadline of January 15**. Applications will be reviewed in accordance with slots that may be available. Using the submitted material, the program's admissions committee will rank eligible candidates for a limited number of admissions. To be eligible for consideration, applicants must have:

- Completion of a bachelor's degree with a minimum 3.0 cumulative undergraduate GPA.
- Successful completion of all undergraduate prerequisite coursework with a 3.2 GPA.
- General GRE scores (verbal, quantitative, and writing).
- Personal written statement.
- Professional vita or resume.
- Personal interview, if invited.
- Applicants must meet the eligibility requirements and be able to perform all essential functions specified by the program. A copy of the eligibility requirements and essential functions document will be provided to all prospective applicants.
- All non-native English speakers must demonstrate sufficient mastery of English proficiency to be able to succeed as a graduate student and to practice the profession of speech-language pathology. Minimum score on the TOEFL of 610 (253 on computer-based). Scores must be received by the institution prior to the admission deadline.

Students applying for admission to the M.S. program in speech-language pathology should be aware that some clinical placement sites in which students are required to complete clinical practica in order to graduate will require the student to produce a current criminal records check. It is the student's responsibility to arrange for the check, to keep it current in order to comply with the requirements of the various clinical sites, and to advise the university and program if the status of the student's criminal record changes at any time during the student's program of study.

## **Master of Science in Speech-Language Pathology**

### **Requirements**

Students admitted into the M.S. in speech-language pathology degree program must complete 60 semester credit hours of didactic and practical coursework.

### **Suggested Order of Coursework**

Refer to the online catalog [gvsu.edu/catalog](https://www.gvsu.edu/catalog) for the most current catalog information.

The suggested order of coursework for an M.S. in Speech-Language Pathology includes two options: track one and track two, detailed as follows.

### **Track One**

Track one is designed to serve students who have completed a bachelor's degree in speech-language pathology, or who have completed all prerequisite coursework for the master's degree. Prerequisite coursework includes anatomy and physiology of the speech and mechanism, language development, phonetics, hearing science, speech science, basic audiology, neurological foundations of communication, two courses in communication disorders areas, statistics, biological science, physical science, and social science. Students will earn clinical hours required for certification by the American Speech-Language-Hearing Association (ASHA) each semester. Students typically earn 15 to 30 hours during semester one, 60 to 90 hours in each of semesters two and three, and 200 to 220 hours in semester four.

### **Semester One**

- SLP 560 - School Age and Adolescent Language Disorders (3 credits)
- SLP 561 - Advanced Study of Phonological Disorders (3 credits)
- SLP 572 - Dysphagia (3 credits)
- SLP 581 - Cognitive Communication Disorders (3 credits)
- SLP 670 - Professional Seminar in Speech-Language Pathology (1 credit)
- SLP 681 - Clinical Practicum in Speech-Language Pathology I (3 credits)

### **Semester Two**

- SLP 562 - Aphasia and Related Disorders (3 credits)
- SLP 570 - Infant, Toddler, Preschool Language Disorders (3 credits)
- SLP 571 - Voice Disorders and Laryngectomy (3 credits)
- SLP 583 - Autism Spectrum Disorder in Speech-Language Pathology (2 credits)
- SLP 670 - Professional Seminar in Speech-Language Pathology (1 credit)
- SLP 682 - Clinical Practicum in Speech-Language Pathology II (4 credits)

### **Semester Three**

- SLP 510 - Applied Research in Speech-Language Pathology (1 credit)
- SLP 573 - Fluency Disorders (2 credits)
- SLP 582 - Motor Speech and Craniofacial Disorders (3 credits)
- SLP 584 - Augmentative and Alternative Communication (2 credits)
- SLP 670 - Professional Seminar in Speech-Language Pathology (1 credit)
- SLP 683 - Clinical Practicum in Speech-Language Pathology III (4 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

### **Semester Four**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SLP 684 - Clinical Internship in Speech-Language Pathology (12 credits)

## **Track Two**

Track two is designed to serve students who have earned a bachelor's degree, but have not taken the required prerequisite coursework for application for admission into the master's degree program in speech-language pathology. Prerequisite coursework includes anatomy and physiology of the speech and hearing mechanism, language development, phonetics, hearing science, speech science, basic audiology, neurological foundations of communication, two courses in communication disorders areas, statistics, biological science, physical science, and social science. Students will earn clinical hours required for certification by the American Speech-Language-Hearing Association (ASHA) each semester. Students typically earn 15 to 30 hours during semester three, 60 to 90 hours in each of semesters four and five, and 200 to 220 hours in semester six.

### **Semester One**

- CSD 200 - Introduction to Hearing Science (3 credits)
- CSD 220 - Communication Development (3 credits)
- CSD 302 - Anatomy and Physiology of the Speech and Hearing Mechanism (3 credits)
- CSD 304 - Phonetics (3 credits)
- CSD 306 - Speech Science (3 credits)

### **Semester Two**

- CSD 401 - Neurological Foundations of Communication Disorders (3 credits)
- CSD 404 - Audiologic Rehabilitation (3 credits)
- SLP 405 - Clinical Methods (3 credits)

**AND** one of the following:

- SLP 407 - Pediatric Language and Articulation Disorders (2 credits)
- SLP 420 - Adult Language and Cognitive Communication Disorders (2 credits)
- SLP 421 - Motor Speech and Fluency Disorders (2 credits)
- SLP 422 - Dysphagia and Voice Disorders (2 credits)

### **Semester Three**

- SLP 560 - School Age and Adolescent Language Disorders (3 credits)
- SLP 561 - Advanced Study of Phonological Disorders (3 credits)
- SLP 572 - Dysphagia (3 credits)
- SLP 581 - Cognitive Communication Disorders (3 credits)
- SLP 670 - Professional Seminar in Speech-Language Pathology (1 credit)
- SLP 681 - Clinical Practicum in Speech-Language Pathology I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Semester Four**

- SLP 562 - Aphasia and Related Disorders (3 credits)
- SLP 570 - Infant, Toddler, Preschool Language Disorders (3 credits)
- SLP 571 - Voice Disorders and Laryngectomy (3 credits)
- SLP 583 - Autism Spectrum Disorder in Speech-Language Pathology (2 credits)
- SLP 670 - Professional Seminar in Speech-Language Pathology (1 credit)
- SLP 682 - Clinical Practicum in Speech-Language Pathology II (4 credits)

## **Semester Five**

- SLP 510 - Applied Research in Speech-Language Pathology (1 credit)
- SLP 573 - Fluency Disorders (2 credits)
- SLP 582 - Motor Speech and Craniofacial Disorders (3 credits)
- SLP 584 - Augmentative and Alternative Communication (2 credits)
- SLP 670 - Professional Seminar in Speech-Language Pathology (1 credit)
- SLP 683 - Clinical Practicum in Speech-Language Pathology III (4 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

## **Semester Six**

- SLP 684 - Clinical Internship in Speech-Language Pathology (12 credits)

# **Sport Management**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/sportmanagement](http://gvsu.edu/sportmanagement)

The Department of Movement Science offers students the opportunity to obtain a B.S. in sport management. The sport management major offers students a unique program that will enable them to study managerial concepts while learning how to become transformational leaders. Students will learn to critically analyze the business and culture of sport to engage in innovative and socially responsible decision-making. The sport management major incorporates coursework that provides knowledge to carry out the necessary behind-the-scenes functions within a sport department or organization. Students gaining a B.S. in sport management are prepared to perform various management functions in many types and levels of sports, including: amateur sport, college-level athletics, professional sports, municipal recreation, private organizations, and social organizations.

In addition to the general university degree requirements as identified in the general academic policies section of the Grand Valley State University Undergraduate and Graduate Catalog, students will complete 60 to 66 credits of major requirements, including 18 credits of

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

coursework in Seidman College of Business. Students are also required to complete three 300- to 400-level electives in an area of academic and career interest. Students may also apply credits toward a declared minor to meet the elective requirement.

## **Bachelor of Science in Sport Management**

### **Requirements**

Students in the sport management program at Grand Valley must follow all general education requirements as defined in the Grand Valley State University Undergraduate and Graduate Catalog.

Note: ECO 211 - Introductory Microeconomics (3 credits) and PSY 101 - Introductory Psychology (3 credits) are suggested to fulfill Social and Behavioral Sciences Foundations requirements; BMS 202 - Anatomy and Physiology (4 credits) is required in the major and fulfills a Life Sciences with lab requirement; ECO 330 - Sports Economics (3 credits) fulfills an Issues requirement.

### **B.S. Major Requirements**

Requires 60 to 66 credits, including:

- ACC 212 - Principles of Financial Accounting (3 credits)
- BMS 202 - Anatomy and Physiology (4 credits)
- BUS 201 - Legal Environment for Business (3 credits)
- COM 201 - Speech (3 credits)
- ECO 330 - Sports Economics (3 credits)
- MGT 331 - Managing People and Organizations (3 credits)
- MKT 350 - Marketing Management (3 credits)
- MKT 352 - Marketing Research (3 credits)
- MOV 101 - Foundations of Human Movement Science (3 credits)
- MOV 102 - First Aid, CPR and AED (2 credits)
- MOV 201 - Psychosocial Aspects of Physical Education and Sport (3 credits)
- SPM 202 - Social Cultural Dimensions of Sport (3 credits)
- SPM 225 - Introduction to Sport Management (3 credits)
- SPM 356 - Current Topics in Sport Management (3 credits)
- SPM 376 - Sport Facility and Event Management (3 credits)
- SPM 390 - Practicum in Sport Management (3 credits)
- SPM 490 - Internship in Sport Management (6 to 12 credits)
- SPM 495 - Administration in Sport Management (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

### **Program Elective Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Requires nine credits. Choose three of the following sport management program elective courses:

- CAP 305 - Sports Promotion (3 credits)
- HST 322 - American Identity and Sports (3 credits)
- HTM 343 - Human Resource Management (4 credits)
- PNH 335 - Grant Writing (3 credits)
- PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)
- PNH 375 - Public Budgeting and Finance Administration (3 credits)
- PNH 376 - Public Personnel Policy and Administration (3 credits)
- PED 345 - Disability, Sport and Physical Activity (3 credits)
- SPM 355 - Contemporary Concepts of Coaching (3 credits)
- STA 345 - Statistics in Sports (3 credits)
- WRT 381 - Writing and Sports (3 credits)

Note: Additional courses may be substituted to satisfy program electives with faculty advisor approval, including 300- or 400-level courses taken towards completion of an approved minor. Program elective credit is not also granted for any class used to satisfy a sport management major requirement.

## **Suggested Order of Coursework**

### **Prerequisite Notes**

- WRT 150 or both WRT 120 and WRT 130 must be completed before SPM 225 and any SWS course
- MTH 110 must be completed before STA 215
- MKT 350 and STA 215 must be completed before MKT 352
- SPM 202 and SPM 225 must be completed before SPM 356
- MOV 102 and SPM 356 must be completed before SPM 390
- SPM 390 must be completed before SPM 490
- SPM 490 and SPM 495 are to be taken concurrently during the final semester

### **Year One**

- MOV 101 - Foundations of Human Movement Science (3 credits)
- MOV 201 - Psychosocial Aspects of Physical Education and Sport (3 credits)
- MTH 110 - Algebra (4 credits)
- PSY 101 - Introductory Psychology (3 credits) Suggested to fulfill Social and Behavioral Sciences Foundations course.
- SPM 225 - Introduction to Sport Management (3 credits)
- WRT 150 - Strategies in Writing (4 credits)
- General education Historical Perspectives

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- General education Philosophy and Literature
- General education Arts
- Elective

## **Year Two**

- ACC 202 - Accounting for Non-Business Majors 2 (1.5 credits) or ACC 212 - Principles of Financial Accounting (3 credits)
- BUS 201 - Legal Environment for Business (3 credits)
- COM 201 - Speech (3 credits)
- ECO 211 - Introductory Microeconomics (3 credits) Suggested to fulfill Social and Behavioral Sciences Foundations course.
- SPM 202 - Social Cultural Dimensions of Sport (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- SPM 356 - Current Topics in Sport Management (3 credits)
- General education Physical Sciences
- Elective

## **Year Three**

- BMS 202 - Anatomy and Physiology (4 credits) Fulfills Foundations Life Sciences with lab.
- ECO 330 - Sports Economics (3 credits)
- MGT 300 - Fundamentals of Management for Non-Business Majors (3 credits) **OR** MGT 331 - Managing People and Organizations (3 credits)
- MKT 350 - Marketing Management (3 credits)
- MKT 352 - Marketing Research (3 credits)
- MOV 102 - First Aid, CPR and AED (2 credits)
- SPM 376 - Sport Facility and Event Management (3 credits)
- SPM 390 - Practicum in Sport Management (3 credits)
- General education U.S. Diversity
- Program elective
- Program elective

## **Year Four**

Fall Semester:

- General education Global Perspectives
- General education Issues
- Supplemental Writing Skills (SWS)
- Program elective
- Elective

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Winter Semester:

- SPM 490 - Internship in Sport Management (6 to 12 credits)
- SPM 495 - Administration in Sport Management (3 credits)

## Statistics

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/stat](http://gvsu.edu/stat)

### Degrees Offered

Master of Science in biostatistics; Bachelor of Science or Bachelor of Arts in statistics; minors in applied statistics, mathematical statistics, and data science. The programs in statistics are offered by the Department of Statistics within the College of Liberal Arts and Sciences. All interested students are strongly encouraged to contact the Department of Statistics.

Statistics is the science of collecting, organizing, and interpreting data. Statistics is a scientific discipline through which researchers learn to make informed decisions in the face of uncertainty. Students learn to define problems, to think critically, to analyze, and to synthesize. Statistics students gain an appreciation for the integrity of data, the uncertainty of measurements, and the strengths and limitations of science. This background prepares them to explore widely throughout their professional lives, and to be creative and productive citizens regardless of the nature of their careers.

### Mission

The Department of Statistics informs and actively engages students and colleagues in the ethical practice of modern statistical science and further contributes to our society through active scholarship and effective service.

### Vision

The Department of Statistics is committed to advancing the science of statistics by maintaining an inclusive learning community that is characterized by:

- Faculty members who are dedicated to expanding the discipline of statistics, improving the pedagogy of statistics, and broadening the application of statistics.
- Students who are actively engaged in enhancing their understanding of statistics and its application.

All members of our community are encouraged to utilize their statistical skills to be ethical and productive professionals, lifelong learners, and responsible citizens.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Honors Organization**

Mu Sigma Rho

## **Applied Statistics Minor**

### **Requirements for a Minor in Applied Statistics**

The applied statistics minor is offered within the Department of Statistics and consists of seven courses (at least 21 credits).

One or two of the seven courses may be from a list of GVSU courses (called Application Cognate courses) that are accepted by the statistics department as applying statistical methodology.

### **Core Courses**

Requires six credits, including:

- STA 215 - Introductory Applied Statistics (3 credits) **OR** STA 312 - Probability and Statistics (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)

### **Elective Courses**

At least three courses (15 credits) must be completed from the following:

- STA 301 - Questionnaire Design and Execution (3 credits)
- STA 310 - Introduction to Biostatistics (3 credits)
- STA 311 - Introduction to Survey Sampling (3 credits)
- STA 314 - Statistical Quality Methods (3 credits)
- STA 315 - Design of Experiments (3 credits)
- STA 317 - Nonparametric Statistical Analysis (3 credits)
- STA 318 - Statistical Computing (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)
- STA 418 - Statistical Computing and Graphics with R (3 credits)
- STA 419 - Statistics Project (3 credits)
- STA 426 - Multivariate Data Analysis (3 credits)

The remaining two courses may be from the previous list or may be from the applications cognates course list, available from the statistics department.

Students are strongly advised to meet with a member of the statistics faculty as soon as they decide to minor in applied statistics to develop specific plans for the courses outside of statistics.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# **Bachelor of Arts or Bachelor of Science in Statistics**

## **Requirements for a Major in Statistics**

### **Without Actuarial Sciences Emphasis**

Students must complete the following requirements as outlined.

### **Degree Requirements**

Students must complete the general university degree requirements as identified in the General Academic Regulations section of the Grand Valley State University Undergraduate and Graduate Catalog.

### **Statistics Requirements**

Requires 29 credits as outlined.

### **Core Courses**

Requires 23 credits, including the following:

- STA 215 - Introductory Applied Statistics (3 credits) **OR** STA 312 - Probability and Statistics (3 credits)
  - STA 216 - Intermediate Applied Statistics (3 credits)
  - STA 412 - Mathematical Statistics I (4 credits)
  - STA 415 - Mathematical Statistics II (Capstone) (4 credits)
  - STA 419 - Statistics Project (3 credits)
- AND** two of the following courses:
- STA 311 - Introduction to Survey Sampling (3 credits)
  - STA 315 - Design of Experiments (3 credits)
  - STA 321 - Applied Regression Analysis (3 credits)

### **Elective Courses**

Requires six credits, including any two courses from the following:

- STA 301 - Questionnaire Design and Execution (3 credits)
- STA 310 - Introduction to Biostatistics (3 credits)
- STA 314 - Statistical Quality Methods (3 credits)
- STA 317 - Nonparametric Statistical Analysis (3 credits)
- STA 318 - Statistical Computing (3 credits)
- STA 418 - Statistical Computing and Graphics with R (3 credits)
- STA 421 - Bayesian Data Analysis (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- STA 426 - Multivariate Data Analysis (3 credits)
- The third course of STA 311, STA 315, and STA 321 that was not used to fulfill the core as listed previously.

### **B.S. and B.A. Degree Requirements**

Requires 14 credits as outlined.

#### **B.S. Degree Requirements**

Completion of MTH 201, MTH 202, **AND** MTH 204, and one of CIS 160, CIS 161, CIS 162 satisfies the B.S. degree requirements for statistics majors.

#### **B.A. Degree Requirements**

Completion of these courses, plus the foreign language requirement for a B.A., satisfies the B.A. degree requirements for statistics majors.

The following courses are required of all students majoring in statistics:

- MTH 201 - Calculus I (4 credits)
- MTH 202 - Calculus II (4 credits)
- MTH 204 - Linear Algebra I (3 credits)

**AND** one of the following:

- CIS 160 - Learn to Code in Python (3 credits)
- CIS 161 - Computational Science (3 credits)
- CIS 162 - Computer Science I (4 credits)

#### **Application Cognate Courses**

Requires a minimum of six credits.

Each major in statistics must select an area of application consisting of at least six credits from a list of GVSU courses (called Application Cognate courses) that are accepted by the statistics department as applying statistical methodology. Statistics courses on this list will not be one of the required or elective statistics courses listed previously.

Students are strongly encouraged to meet with their advisor as soon as their major in statistics is declared, both to plan their course schedule over the rest of their time at GVSU and to develop specific plans for their application cognate courses.

### **Suggested Order of Coursework for a Major in Statistics**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Without Actuarial Sciences Emphasis**

The following two sample statistics schedules assume the student is in contact with an advisor for the appropriate general education requirements and has a strong mathematical background. Students who do not begin their mathematical sequence with MTH 201 will need to make appropriate changes. Suggested order of coursework one assumes students take MTH 201 in the fall of their first year; suggested order of coursework two assumes students take MTH 201 in the fall of their second year.

Students majoring in statistics who plan to do graduate work are strongly encouraged to take MTH 203 - Calculus III in the fall of their second year, and MTH 204 - Linear Algebra I in the winter of their second year.

### **Schedule Option One**

#### **Year One**

- MTH 201 - Calculus I (4 credits)
- CIS 162 - Computer Science I (4 credits)
- MTH 202 - Calculus II (4 credits)

#### **Year Two**

- MTH 204 - Linear Algebra I (3 credits)
- STA 312 - Probability and Statistics (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)

#### **Year Three**

Choose two of the following:

- STA 311 - Introduction to Survey Sampling (3 credits)
- STA 315 - Design of Experiments (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)
- Two courses: either STA electives or application cognates

#### **Year Four**

- STA 412 - Mathematical Statistics I (4 credits)
- STA 415 - Mathematical Statistics II (Capstone) (4 credits)
- STA 419 - Statistics Project (3 credits)
- Two courses: either STA electives or application cognates

### **Schedule Option Two**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Year One**

- STA 215 - Introductory Applied Statistics (3 credits)

## **Year Two**

- CIS 161 - Computational Science (3 credits)
- MTH 201 - Calculus I (4 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)
- MTH 202 - Calculus II (4 credits)

## **Year Three**

- MTH 204 - Linear Algebra I (3 credits)

**AND** two of the following:

- STA 311 - Introduction to Survey Sampling (3 credits)
- STA 315 - Design of Experiments (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)
- Two courses: either STA electives or application cognates

## **Year Four**

- STA 412 - Mathematical Statistics I (4 credits)
- STA 415 - Mathematical Statistics II (Capstone) (4 credits)
- STA 419 - Statistics Project (3 credits)
- Two courses: either STA electives or application cognates

## **Requirements for a Major in Statistics**

### **With Actuarial Sciences Emphasis**

Requirements for the major with the actuarial sciences emphasis are more specific than the major without the emphasis. Students must complete the following:

### **Degree Requirements**

Students must meet the general university degree requirements as identified in the General Academic Regulations section of the Grand Valley State University Undergraduate and Graduate Catalog.

### **Statistics Requirements**

Requires 29 credits as outlined.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Core Courses

Requires 23 credits, including:

- STA 215 - Introductory Applied Statistics (3 credits) **OR** STA 312 - Probability and Statistics (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)
- STA 412 - Mathematical Statistics I (4 credits)
- STA 415 - Mathematical Statistics II (Capstone) (4 credits)
- STA 419 - Statistics Project (3 credits)
- STA 311 - Introduction to Survey Sampling (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)

## Elective Courses

Requires six credits, including:

- STA 318 - Statistical Computing (3 credits) **OR** STA 418 - Statistical Computing and Graphics with R (3 credits)
- STA 425 - Actuarial Probability and Statistics (3 credits)

## B.S. and B.A. Degree Requirements

Requires 14 credits as outlined.

### B.S. Degree Requirements

Completion of MTH 201, MTH 202, MTH 204, and one of CIS 160, CIS 162 or satisfies the B.S. degree requirements for statistics majors.

### B.A. Degree Requirements

Completion of these courses plus the foreign language requirement for a B.A. satisfies the B.A. degree requirements for statistics majors.

The following courses are required of all students majoring in statistics:

- MTH 201 - Calculus I (4 credits)
  - MTH 202 - Calculus II (4 credits)
  - MTH 204 - Linear Algebra I (3 credits)
- AND** one of the following:
- CIS 160 - Learn to Code in Python (3 credits)
  - CIS 161 - Computational Science (3 credits)
  - CIS 162 - Computer Science I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Application Cognates Courses**

Depending on whether a student takes the ECO 210 and ECO 211 sequence or ECO 200, 15 to 18 hours of cognate credits are required, including:

- ACC 212 - Principles of Financial Accounting (3 credits)
- FIN 320 - Managerial Finance (3 credits)
- FIN 321 - Investments (3 credits)
- FIN 331 - Risk and Insurance (3 credits)
- **BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)
- **OR ONLY** ECO 200 - Business Economics (3 credits)

## **Suggested Order of Coursework for a Major in Statistics**

### **With Actuarial Sciences Emphasis**

The following two sample statistics schedules assume the student is in contact with an advisor for the appropriate general education requirements and has a strong mathematical background. Students who do not begin their mathematical sequence with MTH 201 will need to make appropriate changes. Suggested order of coursework one assumes students take MTH 201 in the fall of their first year; suggested order of coursework two assumes students take MTH 201 in the fall of their second year.

Students majoring in statistics who plan to do graduate work are strongly encouraged to complete the three-semester calculus sequence by taking MTH 203 - Calculus and Analytic Geometry III in the fall of their second year before taking MTH 204 - Linear Algebra I in the winter of their second year.

Business courses in the application cognates have prerequisites that mandate some sequence in completing the courses. ACC 212 is required for FIN 320 and FIN 320 is required for FIN 321. The ECO courses require MTH 110, MTH 122, or MTH 201.

### **Schedule Option One**

#### **Year One**

- MTH 201 - Calculus I (4 credits)
- CIS 161 - Computational Science (3 credits)
- MTH 202 - Calculus II (4 credits)
- ACC 212 - Principles of Financial Accounting (3 credits)

#### **Year Two**

- MTH 204 - Linear Algebra I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- STA 216 - Intermediate Applied Statistics (3 credits)
- **BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits) **OR ONLY** ECO 200 - Business Economics (3 credits)

### **Year Three**

- STA 311 - Introduction to Survey Sampling (3 credits)
- STA 318 - Statistical Computing (3 credits) **OR** STA 418 - Statistical Computing and Graphics with R (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)
- FIN 320 - Managerial Finance (3 credits)
- FIN 321 - Investments (3 credits)

### **Year Four**

- STA 412 - Mathematical Statistics I (4 credits)
- STA 415 - Mathematical Statistics II (Capstone) (4 credits)
- STA 419 - Statistics Project (3 credits)
- STA 425 - Actuarial Probability and Statistics (3 credits)
- FIN 331 - Risk and Insurance (3 credits)

### **Schedule Option Two**

#### **Year One**

- STA 215 - Introductory Applied Statistics (3 credits)
- ACC 212 - Principles of Financial Accounting (3 credits)
- **BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits) **OR ONLY** ECO 200 - Business Economics (3 credits)

#### **Year Two**

- CIS 161 - Computational Science (3 credits)
- MTH 201 - Calculus I (4 credits)
- MTH 202 - Calculus II (4 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)

#### **Year Three**

- MTH 204 - Linear Algebra I (3 credits)
- STA 311 - Introduction to Survey Sampling (3 credits)
- STA 318 - Statistical Computing (3 credits) **OR** STA 418 - Statistical Computing and Graphics with R (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- FIN 320 - Managerial Finance (3 credits)
- FIN 321 - Investments (3 credits)

#### **Year Four**

- STA 412 - Mathematical Statistics I (4 credits)
- STA 415 - Mathematical Statistics II (Capstone) (4 credits)
- STA 419 - Statistics Project (3 credits)
- STA 425 - Actuarial Probability and Statistics (3 credits)
- FIN 331 - Risk and Insurance (3 credits) (Fall semester)

## **Combined Bachelor of Science in Statistics and Master of Science in Applied Statistics**

Grand Valley State University combined degree programs offer students the opportunity to complete both an undergraduate and graduate degree, meeting their unique personal, academic, and career goals. Pursuing a combined degree can reduce the cost and total time required to complete both.

The combined degree program (B.S./M.S.) offers qualified undergraduates the option to earn a B.S. and an M.S. in an accelerated time frame. Students admitted to this program may use up to 12 credit hours of graduate work as partial satisfaction of the requirements for the undergraduate degree. Since the master's degree in applied statistics is a Professional Science Master's program, four credit hours at the graduate level involve an industry internship experience.

Highlights of the addition of the combined degree program in applied statistics include:

- Enhance our comprehensive major of the B.S. degree in statistics with the hands-on approach of an applied Master's degree.
- An emphasis of both degrees in the application of statistical software to solve problems and interpret data.
- Learn advanced statistical techniques earlier within your academic and professional career.
- Obtain valuable internship experience in the fourth year of five total years to complete both degrees
- Accelerate your career trajectory and complete your degrees one step ahead of the competition.
- Explore career opportunities through partnerships in the West Michigan area.

Qualified undergraduates who choose this program enter an accelerated bachelor/master program and proceed to obtain both a B.S. degree (with appropriate undergraduate statistics coursework) and an M.S. in applied statistics. Students admitted to this program will count up to 12 credits of graduate work in partial satisfaction of the requirements for the undergraduate degree. An additional 24 credit hours will be taken at the graduate level according to the specific

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

requirements of the M.S. in applied statistics. The requirements for applying to the combined degree program in applied statistics are as follows:

- At least 65 hours of undergraduate academic credit have been completed or is in progress
- A cumulative GPA of at least 3.25 at the time of application.
- Completion of the following prior to application with at least B performance in each of the following courses: STA 215 (or STA 312), STA 216, at least one of STA 310, STA 321, STA 315.
- Two letters of recommendation
- Resume
- Letter of intent

Note that the application procedure is identical for the combined degree program in biostatistics and applied statistics.

Admission decisions for the combined degree program will be made by the applied statistics admissions committee and based on the student's application materials and criteria such as overall GPA and GPA in undergraduate statistics courses. Decisions will normally be communicated to students within three weeks of submitting a complete application to the combined degree program.

Registration for 600-level courses is to occur only after acceptance into the combined degree program.

### **Undergraduate Statistics Major Requirements and Shared Courses**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. If any shared courses (for both degrees) are dual-listed, students in the combined B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students. This combined degree will abide by all policies of the graduate school.

The Department of Statistics has identified the following list of courses from which students may choose four courses to potentially dual-count toward the B.S. degree and the M.S. degree in Applied Statistics. Up to 12 credit hours can be dual counted. Students are strongly encouraged to work with the graduate program director and their statistics department advisor to ensure all undergraduate and graduate requirements are met. The details on how each course may be shared in the two degrees are given as follows:

- One of STA 518 or STA 526 may count as both an applied statistics master's course (required or elective) and an undergraduate statistics elective.
- One of STA 518 or STA 526, not previously used, may count as both an applied statistics master's course (required or elective) and as free undergraduate credit hours.
- STA 610 (Section 03) may count as a required applied statistics master's required course and as free undergraduate credit hours.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- STA 628 may count as both applied statistics master's credit (required or elective) and as free undergraduate credit hours.
- PSM 650 may count as an applied statistics master's requirement and either in the undergraduate application cognate or as free undergraduate credit hours.

## **Requirements**

### **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree, or the completion of 120 credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, GVSU will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

### **Sample Order of Coursework**

This sample order of coursework assumes that students will complete the general education courses with the help of their advisor and have completed an appropriate sequence of undergraduate statistics courses to be admitted into the combined degree program. Students are strongly encouraged to work with the Graduate Program and their advisor in Statistics to ensure all undergraduate and graduate requirements are met, and to customize the combined program to their areas of interest.

#### **Year One**

##### **Fall**

- CIS 162 - Computer Science I (4 credits)
- MTH 201 - Calculus I (4 credits)
- General education course
- General education course
- General education course

##### **Winter**

- MTH 202 - Calculus II (4 credits)
- STA 312 - Probability and Statistics (3 credits) **OR** STA 315 - Design of Experiments (3 credits)

- Elective

#### Winter

- STA 415 - Mathematical Statistics II (Capstone) (4 credits)
- STA 526 - Multivariate Data Analysis (3 credits) (shared)
- STA 616 - Statistical Programming (3 credits) (not shared)
- STA 623 - Categorical Data Analysis (3 credits) (not shared)
- Elective

### **Year Five**

#### Fall

- STA 621 - Design of Experiments and Regression (4 credits)
- PSM 662 - Seminar in Professional Science Practice (2 credits)
- PSM 691 - Internship (1 to 9 credits)

#### Winter

- STA 628 - Survival Analysis (3 credits)
- STA 630 - Topics in Advanced Statistical Applications (3 credits)
- Graduate elective

The curriculum details listed previously (and sample course sequence) are stated as being specific to statistics major undergraduates, but one does not need to be an undergraduate statistics major to apply or complete the combined degree. The 12 shared credit hours chosen from the same specific bulleted list of five courses listed previously may be used as free credit hours in a student initiated combined degree (SICD) program with appropriate communication among the student, the undergraduate major advisor, and the statistics department. Other circumstances may also be considered on a case by case basis for shared courses in the undergraduate major (beyond the typical case of 12 undergraduate free credit hours from the given list of five courses).

## **Combined Bachelor of Science in Statistics and Master of Science in Biostatistics**

Grand Valley State University combined degree programs offer students the opportunity to complete both an undergraduate and graduate degree, meeting their unique personal, academic, and career goals. Pursuing a combined degree can reduce the cost and total time required to complete both.

The combined degree program (B.S./M.S.) offers qualified undergraduates the option to earn a B.S. and an M.S. in an accelerated time frame. Students admitted to this program may use up to

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

12 credit hours of graduate work as partial satisfaction of the requirements for the undergraduate degree. Since the Master's degree in biostatistics is a professional science master's program, four credit hours at the graduate-level involve an industry internship experience.

Highlights of the addition of the combined degree program in biostatistics include:

- Enhance our comprehensive major of the B.S. degree in statistics with the hands-on approach of an applied master's degree.
- An emphasis of both degrees in the application of statistical software to solve problems and interpret data.
- Learn advanced statistical techniques earlier within your academic and professional career.
- Obtain valuable internship experience in the fourth year of five total years to complete both degrees
- Accelerate your career trajectory and complete your degrees one step ahead of the competition.
- Explore career opportunities through partnerships in the West Michigan area.

Qualified undergraduates may choose an accelerated bachelor/master program and obtain both a B.S. degree (with appropriate undergraduate statistics coursework) and an M.S. in biostatistics. Students admitted to this program will count up to 12 credits of graduate work in partial satisfaction of the requirements for the undergraduate. An additional 25 credit hours will be taken at the graduate level according to the specific requirements of the M.S. in biostatistics. The requirements for applying to the combined degree program in biostatistics are as follows:

- At least 65 hours of undergraduate academic credit have been completed or is in progress
- A cumulative GPA of at least 3.25 at the time of application.
- Completion of the following prior to application with at least B performance in each course: STA 215 (or STA 312), STA 215, at least one of STA 310, STA 321, STA 315.
- Two letters of recommendation
- Resume
- Letter of intent

Note that the application procedure is identical for biostatistics and applied statistics.

Admissions decisions for the combined degree program will be made by the biostatistics admissions committee and based on the student's application materials. Criteria such as overall GPA and GPA in undergraduate statistics courses will be utilized. Decisions will normally be communicated to students within three weeks of submitting a complete application to the combined degree program.

Registration for 600-level courses is to occur only after acceptance into the combined degree program.

### **Undergraduate Statistics Major Requirements and Shared Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. If any shared courses (for both degrees) are dual-listed, students in the combined B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students. This combined degree will abide by all policies of the graduate school.

The Department of Statistics has identified the following list of courses from which students may choose four courses to potentially dual-count toward the B.S. degree and the M.S. degree in biostatistics. Up to 12 credit hours can be dual counted. Students are strongly encouraged to work with the graduate program director and their statistics department advisor to ensure all undergraduate and graduate requirements are met. The details on how each course may be shared in the two degrees are given as follows:

- One of STA 518 or STA 526 may count as both an applied statistics master's course (required or elective) and an undergraduate statistics elective.
- One of STA 518 or STA 526, not previously used, may count as both an applied statistics master's course (required or elective) and as free undergraduate credit hours.
- CIS 661 as a biostatistics master's requirement and either in the application cognate or as free undergraduate credit hours.
- CMB 610 as a biostatistics master's requirement and either in the application cognate or as free undergraduate credit hours.
- STA 610 (Section 03) may count as a required applied statistics master's required course and as free undergraduate credit hours.
- STA 628 may count as both applied statistics master's credit (required or elective) and as free undergraduate credit hours.
- PSM 650 may count as an applied statistics master's requirement and either in the undergraduate application cognate or as free undergraduate credit hours.

## **Requirements**

### **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree, or the completion of 120 credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, GVSU will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

### **Sample Order of Coursework**

This sample order of coursework assumes that students will complete the general education courses with the help of their advisor and have completed an appropriate sequence of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

undergraduate statistics courses to be admitted into the combined degree program. Students are strongly encouraged to work with the Graduate Program and their advisor in Statistics to ensure all undergraduate and graduate requirements are met, and to customize the combined program to their areas of interest.

Winter

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- CIS 661 - Introduction to Health and Bioinformatics (3 credits)
- STA 625 - Clinical Trials (2 credits)
- STA 628 - Survival Analysis (3 credits)
- STA 630 - Topics in Advanced Statistical Applications (3 credits)

The curriculum details listed previously (and sample course sequence) are stated as being specific to statistics major undergraduates, but one does not need to be an undergraduate statistics major to apply or complete the combined degree. The 12 shared credit hours chosen from the same specific bulleted list of seven courses listed previously may be used as free credit hours in a student initiated combined degree (SICD) program with appropriate communication among the student, the undergraduate major advisor, and the statistics department. Other circumstances may also be considered on a case by case basis for shared courses in the undergraduate major (beyond the typical case of 12 undergraduate free credit hours from the given list of seven courses).

## **Data Science Minor**

### **Requirements**

#### Statistics

- \*STA 216 - Intermediate Applied Statistics (3 credits) **OR** \*STA 318 - Statistical Computing (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)
- STA 426 - Multivariate Data Analysis (3 credits)

#### Computing

- CIS 162 - Computer Science I (4 credits) **OR** CIS 161 - Computational Science (3 credits)
- CIS 335 - Data Mining (3 credits)
- CIS 360 - Information Management and Science (3 credits)

\*Note: STA 216 and STA 318 have a prerequisite of STA 215 or STA 312. One additional three-credit course is required. This course must provide an appropriate application of data science or deepen knowledge in either statistics or computer science. Students should meet with a data science faculty member from the statistics or computing and information systems departments to determine an appropriate course meeting this requirement. Students are strongly encouraged to meet with a data science faculty member as soon as they decide to minor in data science.

### **Suggested Order of Coursework**

#### **Year One**

- MTH 110 - Algebra (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- STA 215 - Introductory Applied Statistics (3 credits)

### **Year Two**

- CIS 161 - Computational Science (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)

### **Year Three**

- CIS 335 - Data Mining (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)

### **Year Four**

- Program elective
- CIS 360 - Information Management and Science (3 credits)
- STA 426 - Multivariate Data Analysis (3 credits)

## **Mathematical Statistics Minor**

### **Requirements for a Minor in Mathematical Statistics**

The mathematical statistics minor is offered within the Department of Statistics and consists of six courses (at least 22 credits). The minor in mathematical statistics is a calculus-based program that focuses heavily on mathematical theory of statistics.

### **Core Courses**

All minors in mathematical statistics must complete the following core courses:

- MTH 201 - Calculus I (4 credits)
- MTH 202 - Calculus II (4 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)
- STA 312 - Probability and Statistics (3 credits)
- STA 412 - Mathematical Statistics I (4 credits)

### **Additional Course**

All mathematical statistics minors must complete one additional course, selected in consultation with a member of the statistics faculty, from the following list:

- STA 310 - Introduction to Biostatistics (3 credits)
- STA 311 - Introduction to Survey Sampling (3 credits)
- STA 314 - Statistical Quality Methods (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- STA 315 - Design of Experiments (3 credits)
- STA 317 - Nonparametric Statistical Analysis (3 credits)
- STA 318 - Statistical Computing (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)
- STA 415 - Mathematical Statistics II (Capstone) (4 credits)
- STA 419 - Statistics Project (3 credits)
- STA 426 - Multivariate Data Analysis (3 credits)

## Supply Chain Management

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog.

The field of supply chain management involves the acquisition of components and finished goods from original sources, production scheduling and manufacturing, and logistics functions necessary to flow components inbound to manufacturing and finished goods outbound to wholesalers, retailers, and/or directly to end users. Specific functions relate to purchasing, forecasting, production scheduling, manufacturing operations, inventory control, customer service, warehousing, and transportation. Students with this major are employed by manufacturers, wholesalers, retailers, third-party service providers, and transportation carriers.

## Bachelor of Business Administration in Supply Chain Management

### Requirements for the B.B.A.

A supply chain covers all the activities that go into creating a product or service. Managing a supply chain means making sure those activities generate maximum value for customers at minimum cost to the company, its partners, and the environment. That means supply chain management professionals touch every aspect of a business: from new product development to building relationships with suppliers, designing and improving production processes, and making goods and services available to customers. They need to have strong quantitative reasoning skills and be able to work effectively with people from across a business. Supply chain talent is in high demand and companies are willing to pay a premium for new hires. The Seidman supply chain program equips students with the skills and knowledge they need to succeed in this dynamic field and supercharge their company's value creating engine.

### Core Courses

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ACC 212 - Principles of Financial Accounting (3 credits)
- ACC 213 - Principles of Managerial Accounting (3 credits)
- BUS 201 - Legal Environment for Business (3 credits)
- **BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)
- **OR ONLY** ECO 200 - Business Economics (3 credits)
- Upper-division economics course; ECO 490 does not fulfill this requirement. (3 credits)
- FIN 320 - Managerial Finance (3 credits)
- MGT 268 - Business Processes and Management Information Systems (3 credits)
- MGT 331 - Managing People and Organizations (3 credits)
- MGT 366 - Operations Management (3 credits)
- MGT 495 - Administrative Policy (3 credits)
- MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable.

- ACC 333 - Corporate Governance and Accounting Ethics (3 credits)
- ECO 440 - Public Economics and Ethics (3 credits)
- FIN 330 - Ethics in Finance (3 credits)
- MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)
- MGT 438 - Business Ethics (3 credits)
- MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division Seidman courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Elective Courses**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

### **Requirements for a Major in Supply Chain Management**

The following courses are required:

- STA 215 - Introductory Applied Statistics (3 credits)
- MKT 354 - Distribution Institutions and Logistics (3 credits)
- MKT 457 - Logistics and Transportation (3 credits)
- MGT 337 - Supply Chain Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MGT 367 - Manufacturing Planning and Control (3 credits)
- MGT 467 - Advanced Topics in Operations and Supply Chain Management (3 credits)

Quantitative group - choose one course from the following:

- MTH 122 - College Algebra (3 credits)
- MTH 125 - Survey of Calculus (3 credits)
- MTH 201 - Calculus I (4 credits)
- MGT 361 - Management Science (3 credits)
- PHI 103 - Logic (3 credits)

Choose one course from the following:

- MKT 355 - International Logistics (3 credits)
- MGT 363 - Managing Quality (3 credits)

Choose one course from the following:

- MGT 351 - Enterprise Information Systems (3 credits)
- MGT 362 - Computers in Operations Management (3 credits)
- MGT 365 - Strategic Management of Operations (3 credits)
- MGT 466 - International Management and Multinational Corporations (3 credits)
- MKT 353 - Marketing Negotiations (3 credits)
- MKT 356 - Professional Selling (3 credits)
- MKT 357 - Retailing (3 credits)
- MKT 359 - Multinational Marketing (3 credits)

## Taxation

For additional information about opportunities your college offers, and for a listing of faculty, please refer to the Seidman College of Business section of this catalog.

### **Degree Offered**

Master of Science in Taxation (M.S.T.)

The M.S.T. program serves individuals who are interested in expanding or continuing their education in taxation. It is a specialized degree for tax professionals. Students examine substantive tax law and enhance their analytical and research skills, enabling them to identify relevant issues, and arrive at appropriate conclusions or courses of action.

### **School of Accounting Mission**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Seidman's School of Accounting educates students to become successful accounting and business professionals. The School contributes to the college, university, the profession, and society through quality teaching, scholarship, and service.

### **Accreditation**

The Master of Science in Taxation Program is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

### **Minimum Number of Hours for Graduation**

The M.S.T. program consists of 33 semester hours of 600-level coursework.

### **Program Location**

The M.S.T. program is offered in the L. William Seidman Center, Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

## **Badge in Advanced Tax Practice**

The School of Accounting's badge in advanced tax practice (not a degree or a certificate) is designed to prepare students for advanced level tax research and planning for a variety of situations, including tasks such as:

- Research and provide tax law conclusions for tax issues posited by various tax fact patterns regarding
- Employee benefit plans and executive compensation under the Internal Revenue Code and ERISA, with an in-depth review of the requirements for qualified retirement plans, for welfare plans (medical, dental, vision, disability, etc.), and applicable federal mandates (COBRA, HIPAA, etc.), and for nonqualified and stock-based plans
- Fundamental concepts applicable to tax accounting periods and to consolidated income tax returns, including income and expense recognition, the installment method, inventories, changes in accounting methods and periods, qualification and filing of consolidated tax returns, intercompany transactions, distributions, and basis calculations
- Federal tax practice and procedure, including tax return filing issues, interest and penalties, assessment and collection of tax deficiencies, IRS audits, appeals and enforcement activities, and professional and practical requirements for practice before the IRS

### **Program Format**

The advanced tax practice badge is comprised of three courses (9 credits).

### **Admission**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Successful completion of ACC 622 or permission of the program director. Applicants seeking this badge while undergraduate or dual enrolled students must specify whether each course will count toward their current undergraduate degree or a future graduate degree.

### **Program Location**

The advanced tax practice badge is offered on the Pew Campus in downtown Grand Rapids, MI.

### **Requirements for the Advanced Tax Practice Badge**

- ACC 631 - Employee Benefit Plans and Deferred Compensation (3 credits)
- ACC 632 - Tax Accounting (3 credits)
- ACC 639 - Federal Tax Practice and Procedure (3 credits)

## **Badge in Corporate Transactions**

The School of Accounting's badge in corporate transactions (not a degree or a certificate) is designed to prepare students for advanced level tax research and planning for corporate transactions, including tasks such as:

- Research and provide tax law conclusions for tax issues posited by various tax fact patterns regarding:
- Corporate liquidations, liquidation of subsidiaries, taxable and nontaxable acquisitive transactions including mergers and consolidations and corporate divisions, judicial doctrines, affiliated corporations, and carryover of tax attributes
- Key issues in multistate taxation, including the conditional nexus for includability, landmark and key court cases, and current versus past trends and future judicial direction
- United States jurisdiction to tax on the basis of citizenship, source of income, and other minimum contacts required by international or constitutional law, along with taxation of domestic corporations doing business abroad, entities that are either controlled foreign corporations or foreign personal holding companies, the foreign tax credit, U.S. possession corporations, domestic international sales corporations, and tax treaties

### **Program Format**

The corporate transactions badge is comprised of three courses (9 credits).

### **Admission**

Successful completion of ACC 622 and ACC 624 or equivalents. Applicants seeking this badge while undergraduate or dual enrolled students must specify whether each course will count toward their current undergraduate degree or a future graduate degree.

### **Program Location**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The corporate transactions badge is offered on the Pew Campus in downtown Grand Rapids, MI.

### **Requirements for the Corporate Transactions Badge**

- ACC 625 - Corporate Tax II (3 credits)
- ACC 630 - Multistate Taxation (3 credits)
- ACC 633 - International Tax Practice (3 credits)

## **Badge in Foundations of Tax Practice**

The School of Accounting's foundations of tax practice badge (not a degree or a certificate) is designed to prepare students for entry-level tax research, planning, and preparation for corporations, partnerships, estates, gifts, and trusts, including tasks such as:

- Explain the techniques of tax research and formal written communication.
- Explain the hierarchy of tax law sources, including the Internal Revenue Code, case law, administrative regulations, and administrative ruling.
- Research and provide tax law conclusions for tax issues posited by various tax fact patterns regarding:
  - taxability of corporations and their shareholders, corporate formation, non-liquidating distributions, and redemptions
  - transfer tax rules, including estate tax inclusion, marital deductions, exemption amounts, gift taxes, and annual exclusions, formation and operation of partnerships, including receipt of a partnership interest for services, liquidations, terminations, distributions and sales of partnership interest, calculation of basis, special basis adjustments, decedent partner issues, and LLCs

### **Program Format**

The foundations of tax practice badge is comprised of four courses (12 credits).

### **Admission**

Completion of a bachelor's degree in accounting, with at least a 3.0 cumulative GPA. Alternatively, Seidman College accounting students with senior standing who have completed ACC 310, ACC 311, and ACC 340 with a grade of B or better, who have no more than 35 credits left to complete their undergraduate degree requirements, and who have a cumulative GPA of at least 3.0. Applicants seeking this badge while undergraduate or dual enrolled students must specify whether each course will count toward their current undergraduate degree or a future graduate degree.

### **Program Location**

The foundations of tax practice badge is offered on the Pew Campus in downtown Grand Rapids, MI.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Requirements for the Foundations of Tax Practice**

- ACC 622 - Tax Research and Writing (3 credits)
- ACC 624 - Corporate Tax I (3 credits)
- ACC 627 - Estate, Gift, and Trust I (3 credits)
- ACC 629 - Partnership Taxation (3 credits)

## **Badge in Wealth Planning**

The School of Accounting's wealth planning badge (not a degree or a certificate) is designed to prepare students for advanced level tax research and planning for estates, gifts, and trusts, including tasks such as:

- Research and provide tax law conclusions for tax issues posited by various tax fact patterns regarding:
- Federal income taxation of trusts and estates and the generation-skipping transfer tax, including entity classification, determination of distributable net income, simple trusts, fiduciary accounting income, throwback rules, decedent income, and grantor trust rules
- Advanced transfer tax issues in estate and gift tax returns, discounts, special valuation rules, irrevocable life insurance trusts, gifting issues, marital deductions, buy-sell agreements, family limited partnerships, and charitable trusts

### **Program Format**

The wealth planning badge is comprised of two courses (6 credits).

### **Admission**

Successful completion of ACC 622 and ACC 627 or equivalents. Applicants seeking this badge while undergraduate or dual enrolled students must specify whether each course will count toward their current undergraduate degree or a future graduate degree.

### **Program Location**

The wealth planning badge is offered on the Pew Campus in downtown Grand Rapids, MI.

### **Requirements for the Wealth Planning Badge**

- ACC 628 - Fiduciary Income Tax (3 credits)
- ACC 641 - Advanced Estate and Gift Taxation (3 credits)

## **Master of Science in Taxation**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The Master of Science in Taxation (M.S.T.) program serves individuals who are interested in expanding or continuing their education in taxation. It is a specialized degree for tax professionals. Students examine substantive tax law and enhance their analytical and research skills, enabling them to identify relevant issues, and arrive at appropriate conclusions or courses of action.

## **Admission**

Admission to the M.S.T. program is based on an evaluation of the candidate's application and other submitted documentation. An undergraduate degree in accounting is not required, although those with limited undergraduate exposure to taxation are required to complete appropriate courses to provide a foundation for advanced study in taxation. Applicants must submit official documentation of all previous college coursework, including a baccalaureate degree (or equivalent international credential). Additionally, applicants must submit:

- GMAT score, unless waived
- Personal statement
- TOEFL score, required if English is not the applicant's first language

Candidates are admitted to the M.S.T. program based on an assessment of the candidate's potential to successfully complete the program. The Graduate Accounting Committee bases admission decisions on previous undergraduate and graduate academic performance and evidence of other competencies related to program and workplace success. Applicants with a cumulative GPA of at least 3.0 for the last 60 semester hours of undergraduate coursework and with grades of B or better in all intermediate accounting courses at an AACSB-accredited school are considered academically qualified for full admission and the GMAT requirement is waived. A TOEFL score of at least 80 (IBT) is required of applicants whose first language is not English. Work experience is not required but may be considered in the admissions decision.

For applicants with a cumulative GPA below 3.0 for the last 60 semester hours of undergraduate coursework, the Graduate Admissions Committee considers a scholastic index (SI) for M.S.T. applicants computed as follows:

$$SI = (\text{GPA for last 60 semester hours of undergraduate coursework} \times 200) + \text{GMAT score}.$$

Applicants with a scholastic index of 1100, and satisfactory evidence in their other credentials are considered academically qualified for full admission.

## **Conditional Admission**

Applicants may be conditionally admitted to the M.S.T. program due to deficiencies in the applicant's academic preparation or performance, or insufficient evidence to completely assess the applicant's potential for success. Students admitted under this status must meet specific requirements detailed in their letter of admission to be fully admitted to the program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

All application materials must be completely submitted at least one month before the semester begins. Individuals not yet admitted to the M.S.T. program may enroll in 500-level Foundation courses with permission from the Seidman Graduate Programs Office.

### **Dual Enrollment**

Enrollment in dual-listed courses at the 500- or in 600-level courses is generally restricted to students admitted to the respective program who have also completed the appropriate prerequisite courses. The exception to this policy is Seidman College accounting students with senior standing who meet all other admissions criteria. Such students will have completed ACC 310, ACC 311, and ACC 340 with a grade of B or better; no more than 35 credits left to complete their undergraduate degree requirements; and a cumulative GPA of at least 3.0. With permission of the Seidman Graduate Programs Office, such students may enroll in as many as four graduate-level accounting courses that may be applied toward the M.S.T. degree once admitted.

### **GMAT Waiver**

The following categories of applicants may request a waiver of the GMAT examination requirement:

- Applicants who have earned a master's degree from an AACSB-accredited business school.
- Applicants who have completed a U.S. Juris Doctor (J.D.) degree with a cumulative GPA of 3.0 or higher.
- A Certified Public Accountant registered or licensed in any U.S. jurisdiction.

Applicants seeking a GMAT waiver should contact the Seidman Graduate Programs Office for details. A GMAT waiver does not result in guaranteed admission; the admissions decision will be based on the applicant's application and other submitted materials.

### **Transfer Credit**

A maximum of nine semester hours of transfer credit will be given for appropriate graduate courses completed with a grade of B or better from another AACSB-accredited college. These credits may be substituted for required courses or elective courses as determined by the Seidman Graduate Programs Office. University policy on transfer of credit also governs such courses.

### **Academic Review**

A cumulative GPA of 3.0 or higher is required in all graduate-level courses. Additionally, a cumulative GPA of 3.0 is required in all 500-level dual-listed courses and 600-level courses that fulfill graduation requirements for the M.S.T. A grade of C or better must be earned in all graduate courses that fulfill graduation requirements for the M.S.T.

### **Graduate Outcomes**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The Seidman faculty have identified the following learning objectives for M.S.T students, and objectives are assessed regularly to ensure that they are being achieved.

Seidman M.S.T. graduates will be able to do the following:

- Write skillful tax communications.
- Be effective in analyzing and resolving tax problems.
- Be strategic tax planners.
- Master substantive tax law about the formation of a business entity in the context of real-world or simulated client situations.
- Be prepared to recognize and respond to ethical questions encountered in the practice of tax accounting.

## Requirements

All M.S.T. students must complete a minimum of 33 graduate credits that include at least 24 credits of 600-level courses and 21 credits in 600-level tax courses.

## Foundation

Foundation requirements must be completed before graduation. They may be completed as part of the student's undergraduate program prior to admission to the M.S.T. program or completed anytime between admission and program completion. Foundation requirements may be met by completion of the following undergraduate GVSU courses or their equivalents:

Area	Course
Accounting	<ul style="list-style-type: none"><li>• ACC 212 - Principles of Financial Accounting (3 credits)</li><li>• ACC 213 - Principles of Managerial Accounting (3 credits)</li></ul>
Legal Environment and Business	<ul style="list-style-type: none"><li>• BUS 201 - Legal Environment for Business (3 credits)</li></ul>
Statistics	<ul style="list-style-type: none"><li>• STA 215 - Introductory Applied Statistics (3 credits)</li></ul>
Finance	<ul style="list-style-type: none"><li>• FIN 320 - Managerial Finance (3 credits)</li></ul>
Economics	<ul style="list-style-type: none"><li>• ECO 210 - Introductory Macroeconomics (3 credits)</li><li>• ECO 211 - Introductory Microeconomics (3 credits)</li></ul>

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students who have completed GVSU undergraduate courses listed previously with a grade of B or better or the equivalent at another college or university are not required to complete additional coursework in the respective areas. A background assessment showing the status of the student's foundation requirements is provided to each student at the time of admission.

### **M.S.T. Core**

The following six core courses are required of all M.S.T. students:

- ACC 607 - Ethics for Accountants (3 credits)
- ACC 622 - Tax Research and Writing (3 credits)
- ACC 624 - Corporate Tax I (3 credits)
- ACC 627 - Estate, Gift, and Trust I (3 credits)
- ACC 629 - Partnership Taxation (3 credits)
- ACC 636 - Taxation Problems, Planning, and Current Issues (3 credits)

ACC 636 is the Capstone course and may not be taken until other core courses are complete.

### **M.S.T. Electives**

In addition, all M.S.T. students must complete at least two of the following tax elective courses:

- ACC 623 - Sales, Exchanges, and Other Property Dispositions (3 credits)
- ACC 625 - Corporate Tax II (3 credits)
- ACC 628 - Fiduciary Income Tax (3 credits)
- ACC 630 - Multistate Taxation (3 credits)
- ACC 631 - Employee Benefit Plans and Deferred Compensation (3 credits)
- ACC 632 - Tax Accounting (3 credits)
- ACC 633 - International Tax Practice (3 credits)
- ACC 639 - Federal Tax Practice and Procedure (3 credits)
- ACC 640 - S Corp and Limited Liability Co Taxation (3 credits)
- ACC 641 - Advanced Estate and Gift Taxation (3 credits)

The remaining three electives may be selected from among Seidman College M.S.T. courses or, with faculty advisor approval, other Seidman College graduate offerings or graduate program offerings outside the Seidman College of Business.

### **Program Plan**

The M.S.T. is a program designed for working professionals. Classes are offered in the evenings, and most students attend part time. Students who have completed the foundation requirements and enroll for six credits each semester graduate in two years. A student who has completed all foundation requirements prior to admission and who is enrolled full-time in at least two Fall semesters can complete the M.S.T. degree in a total of four full-time semesters. These semesters need not be contiguous.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students must complete a program plan with their faculty advisor prior to beginning coursework.

## **Master of Science in Taxation and Law**

The Seidman College of Business and Michigan State University College of Law (MSU COL) offer the dual M.S.T./J.D. The partnership enables students to transfer 12 credits of M.S.T. courses to the MSU Law J.D. program and 12 credits of J.D. credits to the M.S.T. program, thus reducing the total number of graduate credit hours required to complete both programs from 121 to 97. Prerequisites for both programs must be met in addition to the 97 graduate credits. Participating students must meet admission standards of each school and be admitted to both programs prior to registering for coursework that will be transferred to either program.

The transfer work from MSU COL must include at least two tax courses. Courses not eligible for transfer are those that are required for the M.S.T. degree. Thus, students pursuing this degree will complete, in addition to the M.S.T. prerequisites, the five required core courses and two constrained electives. Specific coursework to be transferred to the M.S.T. from MSU COL must be planned with the graduate programs director. Students are referred to the associate dean for Academic Affairs of MSU COL for advising with respect to the J.D. and the specific M.S.T. transfer courses.

## **Theatre**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences website.

**Website:** [gvsu.edu/theatre](http://gvsu.edu/theatre)

The Department of Music, Theatre, and Dance offers curricula leading to the Bachelor of Arts in music, Bachelor of Music, Bachelor of Music Education, certificate in piano pedagogy, Bachelor of Arts in theatre, Bachelor of Science in theatre, and the Bachelor of Arts in dance. Minors in music, theatre, and dance are also offered. These degree programs provide personalized attention, career building opportunities, and professional and extensive training in the various idioms of music, theatre, and dance. In the context of a broad liberal education that fosters critical thinking, creative problem solving, and cultural understanding, these degree programs prepare students well to answer the call of rewarding careers in music, theatre, and dance.

The theatre program provides quality student-centered education and performance experiences within Grand Valley State University's liberal education environment. The theatre program enables students to fully explore their potential as productive, literate, articulate, humane, and culturally engaged members of a global public through a close study of theatre theory and practice. Students so educated are able to bring highly developed aesthetic and critical skills, flexibility, and creativity to a wide range of graduate school and career opportunities.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students may use the major as a preparation for graduate or professional work; the required courses provide basic training in essential theatre areas, and students planning to pursue more advanced work should take well-chosen electives in areas designed to increase specific skills. All theatre majors are required to participate in university theatre productions as actors, designers, production technicians, and managers; academic credit is given for all such involvement. The program also supports students pursuing regional, national, and international internships as managers, publicists, technicians, and production assistants with major professional theaters and arts organizations. Theatre courses from overseas schools can substitute for GVSU theatre requirements for those students pursuing international studies.

Note: Theatre majors are encouraged to take ENG 112 in general education.

## **Bachelor of Arts or Bachelor of Science in Theatre**

### **Requirements for a Major in Theatre**

A bachelor's degree in theatre requires completion of (1) B.A. or B.S. degree requirements, (2) theatre core, (3) theatre electives, and (4) a theatre Capstone. The Bachelor of Arts requires between 50 and 62 credit hours depending on the number of courses required to demonstrate language proficiency, while the Bachelor of Science requires 59 credit hours.

### **B.A. and B.S. Degree Requirements**

All students selecting a theatre major must choose either the B.A. or the B.S. degree.

### **B.A. Degree Requirements**

The B.A. degree requires a third-semester proficiency in a classical or modern foreign language of the student's choice.

### **B.S. Degree Requirements**

- STA 215 - Introductory Applied Statistics (3 credits)

**AND** two of the following:

- HST 290 - Research Methods in History (3 credits)
- INT 301 - Interdisciplinary Research Methods (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)

### **Core Courses**

Theatre core courses require 35 credits as outlined.

### **Design/Tech/Management Area**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Requires eight credits, including two of the following:

- THE 250 - Theatre Management (3 credits)
- THE 261 - Stagecraft I (3 credits)
- THE 262 - Costume Construction (3 credits)

**AND** two (one-credit) sections of applied theatre practice corresponding to courses selected from design/tech/management areas listed previously:

- THE 298 - Applied Theatre Practice (1 to 3 credits)

### **Theatre Studies Area**

Requires 12 credits, including:

- THE 161 - Theatre Production (3 credits)
- THE 162 - Play Analysis (3 credits)
- THE 371 - Theatre History I (3 credits)
- THE 372 - Theatre History II (3 credits)

### **Performance Area**

Requires nine credits, including:

- THE 151 - Acting Process (3 credits)
- THE 252 - Acting Characterization (3 credits)
- THE 365 - Directing I (3 credits)

### **Advanced Theatre Study**

Requires six credits, including two of the following (one must be a design course selected from THE 367, THE 368, or THE 369):

- THE 362 - Production Dramaturgy (3 credits)
- THE 367 - Scenography (3 credits)
- THE 368 - Lighting Design (3 credits)
- THE 369 - Costume Design (3 credits)
- THE 465 - Directing II (3 credits)

### **Elective Courses**

Requires 12 credits. Electives must be taken in addition to courses taken in the theatre core. Courses not selected to fulfill the theatre core may be taken as electives once core requirements are met. Elective credit for THE 298 is available only after completing tech lab requirement.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- THE 152 - Voice for the Actor (3 credits)
- THE 198 - Rehearsal and Performance (1 to 3 credits)
- THE 250 - Theatre Management (3 credits)
- THE 261 - Stagecraft I (3 credits)
- THE 262 - Costume Construction (3 credits)
- THE 263 - Makeup (2 credits)
- THE 298 - Applied Theatre Practice (1 to 3 credits)
- THE 300 - Storytelling (3 credits)
- THE 325 - Theatre for Social Change (3 credits)
- THE 356 - Acting for the Camera (3 credits)
- THE 362 - Production Dramaturgy (3 credits)
- THE 366 - Drama in Education (3 credits)
- THE 367 - Scenography (3 credits)
- THE 368 - Lighting Design (3 credits)
- THE 369 - Costume Design (3 credits)
- THE 380 - Special Topics in Theatre (1 to 3 credits)
- THE 399 - Independent Reading (1 to 3 credits)
- THE 400 - Touring Theatre Production (3 credits)
- THE 454 - Acting Advanced Scene Study (3 credits)
- THE 455 - Shakespeare Performance (3 credits)
- THE 465 - Directing II (3 credits)
- THE 490 - Internship (1 to 6 credits)
- THE 499 - Independent Research (1 to 3 credits)

A maximum of three credits from THE 490 - Internship may be counted toward the required theatre elective credit. With advisor approval, students can also complete a maximum of six hours of credits in other disciplines related to theatre to apply toward elective requirements (non-THE prefix).

### **Capstone**

Requires three credits. All students majoring in theatre must take THE 495 as a senior. This course offers a synthesis of ideas and theories about one or more current critical issues in theatre.

- THE 495 - Theatre Capstone (3 credits)

### **Suggested Order of Coursework**

The following guidelines are for completing the theatre major. Students should verify specific major requirements with their advisor. This option assumes students will complete the required skills, general education, and required courses working toward a B.S. or B.A. degree. Theatre students are encouraged to avoid taking evening courses where possible, due to rehearsal conflicts in the cocurricular theatre program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Year One**

- THE 151 - Acting Process (3 credits)
- \*THE 161 - Theatre Production (3 credits)
- THE 162 - Play Analysis (3 credits)

\*THE 161 fulfills the general education Foundations Arts category and is required for the theatre major.

## **Year Two**

Requires two credits (one credit each) of THE 298 in concert with two technical theatre classes, as follows:

- THE 252 - Acting Characterization (3 credits)
- THE 298 - Applied Theatre Practice (1 to 3 credits)

**AND** two of the following:

- THE 250 - Theatre Management (3 credits)
- THE 261 - Stagecraft I (3 credits)
- THE 262 - Costume Construction (3 credits)

## **Years Three and Four**

Select one design course and either an additional design course or THE 362 or THE 465.

- THE 365 - Directing I (3 credits)
- THE 371 - Theatre History I (3 credits)
- THE 372 - Theatre History II (3 credits)

### **Design Course**

- THE 367 - Scenography (3 credits)
- THE 368 - Lighting Design (3 credits)
- THE 369 - Costume Design (3 credits)

The following courses can fulfill the additional course requirement:

- THE 362 - Production Dramaturgy (3 credits)
- THE 465 - Directing II (3 credits)
- THE 495 - Theatre Capstone (3 credits)
- Theatre electives (12 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Theatre Minor

## Requirements

Minors must complete 20 hours of theatre coursework. Minors must complete one course in the design/tech/management area, one in the theatre studies area, and one in the performance area. Most of these select courses also serve as prerequisite courses for more advanced theatre study. Minors must complete additional courses in any theatre area to fulfill the 20 hours minimum credit requirement.

## Required Courses

### Design/Tech/Management (D/T/M) Area

Requires four credits.

Choose one of the following:

- THE 250 - Theatre Management (3 credits)
- THE 261 - Stagecraft I (3 credits)
- THE 262 - Costume Construction (3 credits)

**AND** the following:

- THE 298 - Applied Theatre Practice (1 to 3 credits) Each D/T/M class requires a corresponding one-credit section of THE 298 as a theatre production lab.

### Theatre Studies Area

Requires three credits.

Choose one of the following:

- THE 101 - Introduction to Theatre (3 credits)
- THE 161 - Theatre Production (3 credits)
- THE 162 - Play Analysis (3 credits)

Note: THE 101 and THE 161 fulfill the general education Foundations Arts category.

### Performance Area

Requires three credits.

Choose one of the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- THE 151 - Acting Process (3 credits)
- THE 152 - Voice for the Actor (3 credits)

### **Elective Courses**

Requires 10 credits. Courses taken to fulfill the required courses cannot also count toward electives, but courses not selected from the required courses may be taken to complete theatre electives. For example, a student who completes THE 151 - Acting Process for the required performance area may elect to take THE 152 - Voice for the Actor as an elective.

- THE 101 - Introduction to Theatre (3 credits)
- THE 151 - Acting Process (3 credits)
- THE 152 - Voice for the Actor (3 credits)
- THE 161 - Theatre Production (3 credits)
- THE 162 - Play Analysis (3 credits)
- \*THE 198 - Rehearsal and Performance (1 to 3 credits)
- THE 250 - Theatre Management (3 credits)
- THE 261 - Stagecraft I (3 credits)
- THE 262 - Costume Construction (3 credits)
- THE 263 - Makeup (2 credits)
- \*THE 298 - Applied Theatre Practice (1 to 3 credits)
- THE 300 - Storytelling (3 credits)
- THE 356 - Acting for the Camera (3 credits)
- THE 362 - Production Dramaturgy (3 credits)
- THE 366 - Drama in Education (3 credits)
- THE 367 - Scenography (3 credits)
- THE 368 - Lighting Design (3 credits)
- THE 369 - Costume Design (3 credits)
- THE 380 - Special Topics in Theatre (1 to 3 credits)
- THE 399 - Independent Reading (1 to 3 credits)
- THE 400 - Touring Theatre Production (3 credits)
- THE 454 - Acting Advanced Scene Study (3 credits)
- THE 455 - Shakespeare Performance (3 credits)
- THE 465 - Directing II (3 credits)
- THE 490 - Internship (1 to 6 credits)
- THE 499 - Independent Research (1 to 3 credits)

\*No more than three total credit hours from THE 198 and THE 298 may be applied toward elective credit for the theatre minor.

## **Undergraduate Education**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

**Website:** [gvsu.edu/ceci](http://gvsu.edu/ceci)

## **Mission**

Teaching, leading, and learning in a democratic society.

## **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

## **Values**

The College of Education and Community Innovation values *expertise* to guide our practice, *equity* to guide our interactions, *liberal education* to guide our perspectives, and *social responsibility* to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

## **Undergraduate Teacher Education Description**

The teacher preparation program reflects a belief in strong backgrounds in the liberal arts, familiarity with learning theory, and practical experience in diverse settings. College of Education and Community Innovation faculty teach courses and seminars in educational philosophy and psychology, methods and materials, school organization and management, technology, and assessment. Faculty from the College of Liberal Arts and Science teach content-related courses.

## **Advising and Course Planning**

Teacher preparation is an upper-division professional program and second major. During the freshman and sophomore years, students work toward fulfilling degree requirements, major and minor requirements, and prerequisite courses in education to permit application to the College of Education and Community Innovation. Comprehensive Science and Arts for Teaching (CSAT) majors are strongly encouraged to pass the Michigan Test for Teacher Certification (MTTC) Elementary Certification exam during the semester of their CSAT Capstone course (SAT 495). Students will have two or more advisors: an advisor in the student's content area major and an education major advisor. Transfer students follow the same dual advising process. Students also consult with education faculty prior to admission. Students should discuss career and employment opportunities with their advisors and with the Career Center. Candidates should also review policies in the Undergraduate Teacher Education Student Advising Handbook, available

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

at advising sessions. In addition, advising materials and sample four-year course sequences are available in the College of Education and Community Innovation Student Information and Services Center.

## **Academic Policies**

Due to stringent requirements being set forth by the State of Michigan Department of Education, students pursuing initial certification, first or second renewal of their standard teaching certification, additional endorsement, school counseling license, and professional or administrator certification are now being held to a higher standard. Students who have certain misdemeanors, multiple misdemeanors, or a felony may be denied and/or not recommended for any level of certification by GVSU College of Education and Community Innovation and/or the State of Michigan. If a student is recommended to the Michigan Department of Education for standard teaching certification, additional endorsement, school counseling license, professional or administrator certification, the conviction could have an adverse effect on being granted a certificate. If a certificate is granted, there is no guarantee of employability.

## **Application Procedures**

Deadlines for application to undergraduate teacher education are September 15 for winter admission and field placement; February 1 for fall admission and field placement. Application packets are available on the College of Education and Community Innovation's website. Packets must be complete at the time of application. Students who postpone admission must reapply.

Students should apply during the semester before they expect to do their first field placement (EDI 330, EDS 332, EDS 332), except for the following:

- Students seeking a CSAT major with special education must apply during the winter semester (February 1) for fall admission.
- Students seeking a CSAT major are strongly encouraged to pass the MTTC Elementary Certification exam during the semester of their CSAT capstone course (SAT 495).

Students seeking a major in music education must apply during the winter semester (February 1) for fall admission (i.e. fall teacher assisting).

Students seeking a major in world languages must pass the Oral Proficiency Interview (OPI) prior to their student teaching semester.

Refer to [gvsu.edu/education/undergraduate](http://gvsu.edu/education/undergraduate) for more information on applying to the education programs at Grand Valley.

## **Program Location**

Programs are offered in the DeVos Center, Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Minimum Admission Criteria**

In keeping with the Council for the Accreditation of Educator Preparation Programs (CAEP) guidelines and unit policies, Undergraduate Teacher Education considers students who fulfill the following criteria. As a unit granting secondary admission, admission requirements are those that appear in the Grand Valley State University catalog at the time of application to the unit. Unless otherwise noted, all requirements must be complete at the time of application.

### **Academic Achievement**

- An established 2.7 Grand Valley GPA overall and in the teaching major, minor, and education major program. Currently, these content area majors require a 3.0 GPA: art education, language arts, social studies, English (major and minor), and history (major and minor). The minimum Grand Valley GPA must be established by the time of application.
- Most general education requirements completed.
- Significant progress in the content area minor as determined by the content area major advisor.
- Significant progress in the content area as determined by the content area advisor.
- For elementary education, completion of ENG 308 is required.
- For elementary education, completion of MTH 126 and MTH 226; or completion of MTH 223 is required.
- At least one meeting completed with assigned College of Education and Community Innovation advisor.
- All remaining requirements met.

### **Secondary Review Process**

- An established 2.699-2.5 Grand Valley GPA overall and in the content area major, minor, and education major program. Currently, these content area majors require an established 2.999-2.7 GPA for secondary review: art education, language arts, social studies, English (major and minor), and history (major and minor).
- Most general education requirements completed.
- Most requirements in the content area major completed, as determined by content area major advisor.
- Significant progress in the content area minor as determined by the content area major advisor.
- For elementary education, completion of ENG 308 is required.
- For elementary education, completion of MTH 126 and MTH 226; or completion of MTH 223 is required.
- Subject area and certification tests taken and passed during the semester application is submitted (e.g. September applicants take the October test; February applications take the January or April tests). Secondary candidates take the teaching major and minor tests. Elementary candidates take the elementary test and teaching major test. Special education candidates take the elementary test only.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Two meetings completed with assigned College of Education and Community Innovation advisor, including a signed Secondary Review Process form submitted with application.
- All remaining application requirements met.

### **Admission Test Requirement**

- Students seeking the Comprehensive Science and Arts for Teaching (CSAT) major are strongly encouraged to pass the MTTC Elementary Exam prior to application to the College of Education and Community Innovation.
- CSAT major students are strongly encouraged to pass the MTTC Elementary Exam prior to COE application.

### **Prerequisite Courses**

- Prerequisite courses may be in progress during the semester of application, but preference will be given to candidates who have completed the requirements at the time of application. A cumulative GPA of 2.7 or better must be established in these courses, with no grade lower than C and none of these courses recorded as credit or no credit.

### **General Education**

- EDF 315 - Diverse Perspectives on Education (3 credits)
- EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits) (elementary education) **OR** EDI 339 - Teachers as Decision Makers: Instruction and Assessment in Secondary Schools (3 credits) (secondary education)
- PSY 301 - Child Development (3 credits)
- Flex Course 1: This course is taken before **OR** after admission to the College of Education and Community Innovation. It must be completed before student teaching (grade B- or better).
- EDS 378 - Universal Design for Learning: Elementary (3 credits) **OR** EDS 379 - Universal Design for Learning: Secondary (3 credits)

### **Special Education**

- EDF 315 - Diverse Perspectives on Education (3 credits)
- PSY 304 - The Psychology and Education of the Exceptional Child (3 credits)
- PSY 325 - Educational Psychology (3 credits)
- PSY 310 - Behavior Modification (3 credits) **AND/OR** PSY 326 - Intellectual/Developmental Disabilities (3 credits) (Both courses are required for undergraduate endorsement)
- Additional required prerequisites for elementary and special education candidates:
- ENG 308 - Teaching Reading: The Necessary Skills (4 credits)
- MTH 126 and MTH 226; or completion of MTH 223 - Mathematics for Elementary Teachers I and II; or III.
- University requirements: Completion of university course requirements or test equivalents in Writing 150 and Mathematics 110.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Advisor recommendations: One from the content area major advisor/department and another from a College of Education and Community Innovation advisor. Students with dual majors must submit a major advisor recommendation form for each major/department.
- Positive recommendation: One from an unrelated individual who can address the candidate's ability as a prospective teacher.
- Experience: Documentation of 25 hours of experience with children or youth. The experience must be with the age group for which the applicant intends to seek certification. This would rule out, for example, working in the university tutoring center. Special education candidates should have experience working with persons with disabilities, e.g., camp experience, Special Olympics, respite care. For additional options, contact the Community Service Learning Center.
- Academic progress: Completion of at least 60 semester credits and junior status.
- Felony and misdemeanor conviction statement: Review procedures for those who have been convicted or pleaded no contest to a felony or certain misdemeanors are available from the College of Education and Community Innovation. Conviction or a plea of no contest may cause the candidate to be denied for admission, field placement, or final certification. Candidates are required to pay a fee for conducting a Live Scan criminal background check; information on conducting Live Scan will be provided while turning in your application for admission to the College of Education and Community Innovation.
- MyPath degree evaluation: Copy of myPath and current course listings of classes being taken at another college or university.
- Resume: Two copies of current resume on plain white paper with an objective stated and a minimum of three references listed.

All admissions decisions will be rendered by the dean of the College of Education and Community Innovation, based on faculty recommendations.

### **Field Placement Requirements**

Flex Course 2: EDT 370 - Technology in Education (3 credits) Grade B- or better. This course is taken after admission to the College of Education and Community Innovation. It must be taken before student teaching.

- EDT 370 prerequisites: Teacher assisting (education) include - EDI 330, EDI 331, and EDS 332

Upon admission to undergraduate teacher education, the student will be placed in teacher assisting for the following semester, contingent upon an interview and acceptance by the school administrator. Students who postpone their entrance after admission must reapply as new applicants if they seek readmission. Students must follow the holiday break schedule designated by the K-12 district for their school placement/assignment, not the GVSU holiday break schedule, for both teacher assisting and student teaching. Field placements are generally made within a 50-mile radius from campus unless further placement is deemed necessary for suitable supervision and effective use of unit resources. See the College of Education and Community Innovation Undergraduate Advising Handbook for additional placement policies. Student teaching courses (education) include - EDI 430, EDI 431 and EDI 432, EDS 471, and EDS 472.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Submission of completed application packet by September 15 for winter placement, February 1 for fall placement.
- Completion of teacher assisting with a grade of B- or better and positive recommendations.
- Completion of EDI 310 and EDR 320, or EDR 321 with a B- or better.
- Completion of EDT 370 and EDS 378, or EDS 379 (elementary and secondary general education students only) with a B- or better.
- Continued 2.7 GPA overall and in the content area major, minor, and education major sequence. Currently, these content area majors require a 3.0 GPA: art education, language arts, social studies, English (major and minor), and history (major and minor).
- Interview and acceptance by school administrator.

Students must inform the associate director for placement if they must withdraw from a field placement course. Notification must be immediate and in writing. Failure to do so will result in removal from the program.

### **Exit Requirements**

Recommendation for the Michigan Provisional Certificate requires the following:

- Completion of degree requirements and content area major, minor, and education major program requirements.
- An established 2.7 Grand Valley GPA overall and in the content area major, minor, and Education major program. Currently, these content area majors require a 3.0 GPA: art education, language arts, social studies, English (major and minor), and history (major and minor).
- Grades of B- or better and positive recommendations in professional fieldwork courses, EDI 310, EDR 320 or EDR 321, EDT 370, EDS 378 or EDS 379, EDI 330, EDI 331 and EDS 332, EDI 430, EDI 431 and EDI 432, EDS 471 and EDS 472, and EDF 485.
- Passing scores on Michigan Subject Area Tests. Elementary candidates must pass the elementary test; if they also pass subject area tests in their academic areas or special education endorsement areas, these will also be added to their certificates. Secondary candidates must pass subject area tests in their teaching major and minor.
- Current certification of CPR (adult/child) instruction and first aid (standard or basic).
- If your criminal background information has changed since you originally applied for admission to the College of Education and Community Innovation, contact the Student Information and Services Center (SISC) to confirm the change(s) are on file.

### **Postbaccalaureate Additional Endorsement Requirements**

Students may return to Grand Valley State University to obtain a postbaccalaureate endorsement to append to their teaching certificate by adding one or more content areas. Students may choose to add any endorsement for which Grand Valley State University has approval from the Michigan Department of Education (MDE). Students must meet all of the MDE requirements for an endorsement, which includes taking and passing all courses identified on the endorsement

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

planned program (course substitutions will be permitted with prior departmental approval), meeting GVSU GPA program requirements, taking and passing the associated subject area test for the endorsement through the Michigan Test for Teacher Certification, and meeting any and all other requirements, which might include, but not be limited to, a criminal background check and providing other university transcripts.

Please note: A student seeking a Grand Valley State University recommendation that the Michigan Department of Education add a content-area endorsement to an existing Michigan teaching certificate must be certified at the appropriate level. Six credits of the planned program minor and 12 credits of the planned program major must be earned at Grand Valley State University. For a complete list of the content area endorsements that Grand Valley offers, please refer to the CLAS Academic Advising Center website ([gvsu.edu/clasadvising/endorsements-87.htm](http://gvsu.edu/clasadvising/endorsements-87.htm)).

## Educator Certification Instructions

Students who are applying for educator certification must have an MEIS account and **initiate the application process by self-registering online** in the Michigan Online Educator Certification System (MOECS). For instructions on how to create an MEIS account and apply for the certificate, go to [michigan.gov/moeecs](http://michigan.gov/moeecs).

Candidates should apply for their Standard Teaching Certificate at the beginning of the semester in which they expect to complete all requirements. They should also be certain that they have met all university requirements for graduation and certification. Upon completion of program requirements, **candidates must initiate the process online** through the Michigan Online Educator Certification System (MOECS). For instructions on how to create an MEIS account and apply for additional endorsements or licensure, go to [michigan.gov/moeecs](http://michigan.gov/moeecs).

## Elementary Teacher Certification (General Education)

Michigan elementary standard teaching certification allows the holder to teach any subject in kindergarten through fifth grade; major subjects in sixth through eighth; all subjects in kindergarten through eighth in self-contained classrooms. In addition to degree requirements, candidates must complete the teaching major, minor, and education major program.

### Teaching Major - Elementary Certification

The Michigan State Board of Education sets elementary education standards that ensure teachers are prepared with depth and breadth of content knowledge. Students pursuing an elementary standard teaching certificate may select from the following four state approved major programs:

- Integrated science
- Mathematics
- Group social studies
- Language arts

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

In addition to selecting one of the listed teachable majors, education candidates must complete requirements for the elementary teaching minor and the education major program for elementary certification.

Students should meet with their advisor before selecting courses for the elementary minor.

## **Requirements**

Candidates must complete the following 31-credit program. At least one field semester must be completed in a multicultural setting.

### **English**

- ENG 308 - Teaching Reading: The Necessary Skills (4 credits)

### **Mathematics**

- MTH 126 - Mathematics for Elementary Teachers (2 credits) **AND** MTH 226 - Mathematics for PK-6: Whole Numbers and Operations (3 credits) **OR ONLY** MTH 223 - Mathematics for Elementary Teachers III (5 credits)

Elementary candidates must take each of the following courses, except the course listed in their chosen content major area.

### **Fine Arts**

- MAT 300 - Music, Art, and Theatre for Elementary Education (3 credits)

### **Language Arts**

- ENG 302 - Introduction to Language Arts: Teaching Writing and Children's Literature (3 credits)

### **Science**

- SCI 225 - Integrated Life Science for PK-3 Teachers (4 credits)
- SCI 226 - Integrated Physical Science for PK-3 Teachers (3 credits)

### **Physical Education/Health**

- PED 265 - Teaching Health in Elementary Schools (2 credits)
- PED 266 - Move-Dance-Learn! PE and Dance for Elementary Education (2 credits)

### **Social Studies**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SST 309 - Teaching Elementary Social Studies: Grades 3-6 (3 credits)

### **Requirements for the Education Major Program - Elementary Certification**

Candidates must complete the following 39-credit education major. At least one field semester must be completed in a multicultural setting.

The following must be taken prior to admission to undergraduate teacher education:

- EDF 315 - Diverse Perspectives on Education (3 credits)
- PSY 301 - Child Development (3 credits)
- EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits)

#### **Course One**

Taken before **OR** after admission to the College of Education and Community Innovation. It must be completed before student teaching.

- EDS 378 - Universal Design for Learning: Elementary (3 credits)

#### **Course Two**

Taken after admission to the College of Education and Community Innovation. It must be completed before student teaching.

- EDT 370 - Technology in Education (3 credits)

#### **Teacher Assisting Semester**

- EDI 310 - Building and Sustaining Positive Learning Environments (3 credits)
- EDR 320 - Emergent Literacy and the Development of Reading, Writing, and Language (3 credits)
- EDI 330 - Elementary Apprenticeship PK-6 (6 credits)

#### **Student Teaching Semester**

- EDI 430 - Student Teaching, Elementary (10 credits)
- EDF 485 - The Context of Educational Issues (3 credits) May be taken after EDI 430 but before certification.

## **Elementary Teacher Certification For Grades PK-3 and K-12 (PCKET) (Special Education)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Michigan PK-3 or 3-6 elementary teacher certification with special education endorsements allows the holder to teach the special education endorsement areas in kindergarten through 12th grade. It also permits teaching any subject in pre-kindergarten through grade three or grade three through grade six. Special education endorsement areas include:

- Autism Spectrum Disorder (ASD)
- Cognitive Impairment (CI)
- Emotional Impairment (EI)
- Learning Disabled (LD)

Special education teacher candidates choose **two** endorsement areas.

In addition to degree requirements, special education candidates must complete the PCKET major for either PK-3 or 3-6, certification core, elementary special education major, and endorsement requirements for two endorsements.

The PCKET major is designed for students seeking certification to teach in specialized areas at the elementary level. It provides a solid foundation in subject-matter knowledge and pedagogical approaches across all content areas taught at these levels; fine arts, health and physical education, integrated science, language arts, mathematics, and social studies. Students complete several field experiences in classrooms, as well as learning to plan instruction and assessments and to understand and work with diverse learners. Our graduates have a unique combination of skills and experiences that are highly valued.

The special education major is designed for students seeking certification to teach students with disabilities. The special education major prepares candidates to effectively teach students with disabilities in a variety of settings and to effectively manage the classroom by developing the ability to adjust teaching practices according to individual student needs. The program features highly trained faculty who value interaction with candidates, robust field placement opportunities, and content that is directly applicable to the K-12 classroom setting. The curriculum provides:

- knowledge of childhood development
- use of high leverage and inclusive teaching practices
- the ability to adapt content knowledge and present it according to individual needs
- extensive field experiences teaching in special education classrooms

### **Requirements for the Pedagogical Content Knowledge for Elementary Teaching (PCKET) PK-3 Major**

The 50-credit PCKET major consists of the following courses and must be planned with the student's PCKET advisor.

#### **Language Arts**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ENG 201 - Foundations of Literacy Instruction (3 credits)
- ENG 301 - Reading and Writing in the Elementary Classroom (3 credits)
- ENG 401 - Languages, Literacies, and Cultures (3 credits)

### **Mathematics**

- MTH 226 - Mathematics for PK-6: Whole Numbers and Operations (3 credits)
- MTH 326 - Math for PK-6: Fractions, Decimals, and Proportional Reasoning (3 credits)
- MTH 428 - Teaching Math in the Elementary Grades (1 credit)

### **Social Studies**

- HST 209 - History and Social Studies for Elementary Teachers (3 credits)
- SST 309 - Teaching Elementary Social Studies: Grades 3-6 (3 credits)

**AND** one of the following:

- HST 205 - American History to 1877 (3 credits)
- SST 308 - Teaching Elementary Social Studies: Grades PK-3 (3 credits)
- SST 311 - Data Literacy for Social Studies Teachers (3 credits)

### **Integrated Science**

- SCI 225 - Integrated Life Science for PK-3 Teachers (4 credits)
- SCI 226 - Integrated Physical Science for PK-3 Teachers (3 credits)
- SCI 227 - Integrated Life and Earth Science for 3-6 Teachers (3 credits)

### **World Languages**

- ENG 355 - Teaching English Learners, PK-6 (3 credits)

### **Fine Arts**

- ART 231 - Integrating the Visual Arts Across Disciplines (3 credits) **OR** MUS 128 - Strum and Drum for Everyone (3 credits)

### **Health/Physical Education**

- HPE 267 - Health and Movement Education for Elementary Teachers (3 credits)

### **Foundations**

- PSY 301 - Child Development (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Capstone

- PCK 495 - Integrated Discipline-Based Research in the PK-6 Classrooms (Capstone) (3 credits)

### **Requirements for the Certificate - Educational Studies Core 3-6 Major**

- EDF 115 - Introduction to Education: An Exploration of Schooling in America (3 credits)
- EDF 315 - Diverse Perspectives on Education (3 credits)
- EDF 320 - International Teaching Certificate Preparation (1 credit)
- EDT 476 - Teaching with Technology (3 credits)
- EDI 430 - Student Teaching, Elementary (10 credits)

### **Requirements for the Certificate - Elementary Special Education Major**

Teacher candidates will be placed in academically, culturally, linguistically, and economically diverse settings. Special education candidates must meet with their advisors for the exact sequence of courses.

The following are taken in the graduate special education program as part of the initial standard teaching certificate:

## **International Teaching Undergraduate Certificate**

The goal of this program is to recognize the importance of preparing teachers to be culturally competent in a global society. This program will recognize the candidate's interest in preparing to teach diverse populations in domestic or foreign settings. The courses required for completion of the certificate are typically accomplished in two semesters. All courses required for the certificate, except EDF 320 (1 credit), are also required for a degree in teacher education and Michigan teacher certification. Additional courses, beyond those required for the Certificate of International Teaching Experience, are required to earn a degree in teacher education and Michigan teaching certification. Admission into the College of Education and Community Innovation is required. Completion of coursework with grade of B- or better is required.

### **Courses Needed to Obtain Certification**

- EDI 310 - Building and Sustaining Positive Learning Environments (3 credits)
- EDF 320 - International Teaching Certificate Preparation (1 credit)
- EDF 485 - The Context of Educational Issues (3 credits)
- EDI 330 - Elementary Apprenticeship PK-6 (6 credits)
- OR** EDI 331 - Methods and Strategies of Secondary Teaching (5 credits)
- OR** EDI 430 - Student Teaching, Elementary (10 credits)
- OR BOTH** EDI 431 - Student Teaching, Secondary (8 credits) **AND** EDI 432 - Student Teaching, Secondary Content Practicum (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Participation in one of the following College of Education and Community Innovation study abroad programs:

- Teacher assisting in South Africa
- Teacher assisting in Spain
- Teacher assisting/student teaching in Germany
- Student teaching with the Consortium for Overseas Student Teaching (COST) program

Upon completion of requirements, the candidate will receive recognition on his/her transcript and a certificate of completion.

## Michigan Professional Certification

Candidates for Michigan Professional Certification must fulfill the following requirements:

- Hold a Michigan Provisional Certificate.
- Teach successfully for three years after the issuance of the provisional certificate and according to its validity.
- Show evidence of coursework in reading methods: six semester credits for elementary, three for secondary. In Michigan, if provisional certificate was issued after 1983, requirement is met in the initial provisional program.
- Complete an approved state-required course (reading diagnostic) in the diagnosis and remediation of reading disabilities and differentiated instruction, including field experiences, as part of the professional certificate requirement.
- Complete requirements from the professional development/coursework requirement options. Candidates should contact the College of Education and Community Innovation Certification Administrator or visit the College of Education and Community Innovation certification website at [gvsu.edu/education/apply-for-certification-208.htm](http://gvsu.edu/education/apply-for-certification-208.htm) for requirements.

If necessary, the provisional certificate may be renewed for a three-year period. Additional information is available at the College of Education and Community Innovation website at [gvsu.edu/education/renewals-205.htm](http://gvsu.edu/education/renewals-205.htm).

### Renewal of Professional Certificate

The Michigan Professional Certificate must be renewed every five years. Additional information is available on the College of Education and Community Innovation website at [gvsu.edu/coe/professional](http://gvsu.edu/coe/professional).

Students applying for professional certificate renewal must have an MEIS account and **initiate the application process by self-registering online** in the Michigan Online Educator Certification System (MOECS). For instructions on how to create your MEIS account and apply for your renewal, go to [michigan.gov/moecs](http://michigan.gov/moecs).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Applying for Certification and Endorsements**

Students applying for educator certificate must have an MEIS account and **initiate the application process by self-registering online** in the Michigan Online Educator Certification System (MOECS). For instructions on how to create your MEIS account and apply for your initial Standard Teaching Certificate, Professional Teaching Certificate, Administrative Certificate, renewals, or additional endorsements go to [michigan.gov/moeecs](http://michigan.gov/moeecs).

Candidates should apply for certificate and/or endorsement(s) at the beginning of the semester in which they expect to complete all requirements. They should also be certain that they have an approved planned program and have met all university requirements for certification. Upon completion of program requirements, **candidates must initiate the process online** through the Michigan Online Educator Certification System (MOECS). For instructions on how to create an MEIS account and apply for additional endorsements or licensure, go to [michigan.gov/moeecs](http://michigan.gov/moeecs).

## **Planned Program Options for Professional Certification**

It is recommended that candidates who select credit hours for professional development meet with an advisor in the College of Education and Community Innovation to select appropriate course(s).

### **Option One: Master's Degree**

Earning a master's degree from an approved teacher education institution with quality graduate education programs will enhance teacher skills at various levels. It is recommended that students meet with an appropriate College of Education and Community Innovation advisor to select a planned program that meets their needs.

See Graduate Programs in Education section in catalog for more information.

### **Option Two: Additional Major or Minor**

The applicant may earn additional endorsements consisting of at least 20 hours within the College of Education and Community Innovation or with approved subject area majors or minors: [gvsu.edu/clasadvising](http://gvsu.edu/clasadvising). For graduate endorsements, program advisors must approve all additional endorsements. Applicants adding additional subject area endorsements and endorsements at the graduate level must also pass Michigan subject area tests (MTTC).

### **Option Three: Additional Certificate Level**

This option is available for candidates who wish to become certified at a level other than that of their original certificate. For example, a secondary teacher who wants to become elementary certified.

Candidates may select from the following endorsements:

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- Early childhood endorsement
- Elementary endorsement
- Secondary endorsement

### **Option Four: Professional Development**

Candidates selecting credit hours for their professional certificate may select one of the previously listed options in an approved planned program with a College of Education and Community Innovation advisor or choose courses in subject matter related to the applicant's teaching grade level and content endorsement.

### **Reading Diagnostics Requirement**

Effective July 1, 2009, candidates for the Michigan Professional Certificate are required to complete a course in the diagnosis and remediation of reading disabilities and differentiated instruction. At Grand Valley State University, this requirement can be met with the following courses (choose one):

- EDR 612 - Reading Assessment: Elementary Teacher (3 credits)
- EDR 613 - Reading Assessment: Secondary Teacher (3 credits)
- EDR 626 - Field-based Literacy Assessment for Learning (3 credits) (This course is only for teachers admitted into GVSU master's in reading program.)
- EDS 636 - Diagnostic and Interpretative Procedures (3 credits) **AND** EDS 638 - Instructional Practices: Learning Disabilities II (3 credits) (This combination of courses is only for teachers admitted into the M.Ed. in Special Education - Learning Disabilities.)

Note: The reading diagnostics requirement mentioned previously for progression to the Professional Teaching Certificate **is different** from the reading methods requirement for the Michigan Standard Teaching Certificate.

### **Reading Methods Requirement**

If you completed an initial teaching certificate at a Michigan Institution of Higher Education after 1985, your coursework likely already meets the reading methods requirement.

If you completed your initial teaching certificate out of state, please verify that the reading methods requirement has been met by your previous coursework with the GVSU Teacher Certification Officer in the College of Education and Community Innovation Student Information and Services Center.

Completion of the reading methods and the reading diagnostics requirements are necessary to obtain a Professional Teaching Certificate.

Please note: All certification requirements are subject to change by the Michigan Department of Education.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# Visual and Media Arts

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/vma](http://gvsu.edu/vma)

The Department of Visual and Media Arts offers courses with degree programs leading to a B.A. or B.S. degree in art education and a B.A. in art history, B.A. or B.S. degree in film and video production, photography and studio art, a B.F.A. degree in studio art with an emphasis in ceramics, graphic design, illustration, jewelry and metalsmithing, painting, printmaking, sculpture, or visual studies. Minors are available in art history, photography, and studio art. The degree programs in Visual and Media Arts combine intensive studio training in the visual arts with a liberal arts education. The programs are designed to support students' acquisition of conceptual and technical skills while fostering their awareness of current issues, theoretical frameworks, as well as the historical and cultural contexts for visual and media arts production.

Coursework is augmented by field trips, a campus student exhibition program, campus and off campus student film screenings, visiting artists and filmmakers, and international programs. Internships and independent study also enhance coursework, especially in film and video production, graphic design, and photography, where off-campus field experience is required or recommended.

## Admission

Students admitted to Grand Valley State University who declare an interest in pursuing an art history, film and video production, or photography degree can begin to register for the introductory courses. Students admitted to Grand Valley who are pursuing the art education or studio arts degrees will receive a materials packet explaining the portfolio entrance. The student is then responsible for following the instructions in the packet. In addition, film and video production, graphic design, and illustration require a secondary admission. Students can find details on the website or consult with their academic advisor. Photography and several studio arts emphasis programs do not require a secondary admission. More information regarding application for studio art and art education admission is available online at [gvsu.edu/vma](http://gvsu.edu/vma).

## Transfer Students

- Transfer students pursuing film and video production and photography degrees will be able to receive transfer credit for those courses approved as an equivalent course from their previous institution. The Registrar's office will be able to provide course equivalency information.
- Transfer students pursuing art education or studio art will be able to receive transfer credit for those courses approved as an equivalent course from their previous institution. Other courses are evaluated by a transfer portfolio review at the time of admittance to the department. Contact the department for application information and specific details.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- Transfer students pursuing studio art and art education are required to take a minimum of 15 art credits within the department, including one art history course.
- Transfer students may take longer to graduate in the B.F.A. or art education programs because of the high number of professional courses required in those programs and the sequencing necessary for skill development.
- Admission information on how to apply to the Department of Visual and Media Arts is available online at [gvsu.edu/vma](http://gvsu.edu/vma).

### **Accreditation**

The department is accredited by the National Association of Schools of Art and Design (NASAD).

## **Art History Minor**

The minor in art history is a general introduction to the study of art history and its methods. It offers students from many disciplines, including studio art, the humanities, and professional degrees, the opportunity to examine the contexts for the production of the visual arts.

### **Survey Courses**

There are six credits required.

- ART 221 - Survey of Art History I (3 credits)
- ART 222 - Survey of Art History II (3 credits)

### **Distribution Courses**

There are nine credits required. Art history minors are required to take one course from each of the three following areas. Consult with art history faculty about new courses and special topics offerings for credit in the distribution and elective areas.

#### **Ancient through Early-Modern Art**

There are three credits required. Choose one of the following:

- CLA 250 - Classical Art and Archaeology (3 credits)
- ART 322 - Goths to Gothic: Medieval Art (3 credits)
- ART 323 - Rethinking Renaissance Art (3 credits)

#### **Modern and Contemporary Art**

There are three credits required. Choose one of the following:

- ART 327 - Art Since 1945 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- ART 421 - Surrealism (3 credits)
- ART 425 - Depicting a Nation: 19th Century American Art (3 credits)

### World Art

There are three credits required. Choose one of the following:

- ART 420 - Asian Art (3 credits)
- ART 422 - Art and the Worlds of Islam (3 credits)

### Art History Electives

There are six credits required. Select two courses:

- ART 218 - Design History (3 credits)
- ART 322 - Goths to Gothic: Medieval Art (3 credits)
- ART 323 - Rethinking Renaissance Art (3 credits)
- ART 327 - Art Since 1945 (3 credits)
- ART 380 - Special Topics in Art and Design (1 to 3 credits) (History emphasis.)
- ART 420 - Asian Art (3 credits)
- ART 421 - Surrealism (3 credits)
- ART 422 - Art and the Worlds of Islam (3 credits)
- ART 423 - Animals in Art (3 credits)
- ART 425 - Depicting a Nation: 19th Century American Art (3 credits)
- CLA 250 - Classical Art and Archaeology (3 credits)
- FVP 225 - Film Culture (3 credits)
- FVP 348 - Film Theories (3 credits)
- PHO 366 - History of Photography II (3 credits)
- PHI 220 - Aesthetics (3 credits)
- SOC 289 - Sociology of Art (3 credits)

## Bachelor of Arts in Art History

The art history major at Grand Valley State University offers students a broad-based knowledge of visual culture, its social and historical contexts of production, as well as an introduction to theoretical approaches. The major uses an interdisciplinary model, which offers students opportunities for intensive study within the Department of Visual and Media Arts while allowing them to select from courses offered in other departments across the GVSU campus.

### Requirements for a Major in Art History

All art history majors will earn a B.A. degree. Students are required to complete 39 credit hours in art history and studio art courses. Students will also meet the general education requirements, including third semester language proficiency.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Foundations Courses**

There are six credit hours required. All art history majors are required to take two introductory courses to provide them with an overview of the chronology and methods of the discipline of art history.

- ART 221 - Survey of Art History I (3 credits)
- ART 222 - Survey of Art History II (3 credits)

## **Distribution Courses**

There are 15 credit hours required. Art history majors are required to take classes covering a range of historical periods and cultures. Students take two courses in Ancient through Early-Modern Art as well as two courses in Modern and Contemporary Art categories for a total of 12 credit hours. In addition, one course is required from the World Art category for an additional three hours toward the distribution requirements.

### **Ancient through Early-Modern Art**

Choose two courses:

- ART 322 - Goths to Gothic: Medieval Art (3 credits)
- ART 323 - Rethinking Renaissance Art (3 credits)
- CLA 250 - Classical Art and Archaeology (3 credits)

### **Modern and Contemporary Art**

Choose two courses:

- ART 325 - Nineteenth-Century Art (3 credits)
- ART 327 - Art Since 1945 (3 credits)
- ART 421 - Surrealism (3 credits)
- ART 425 - Depicting a Nation: 19th Century American Art (3 credits)

### **World Art**

Choose one course:

- ART 420 - Asian Art (3 credits)
- ART 422 - Art and the Worlds of Islam (3 credits)

## **Studio Requirements**

There are six credit hours required. Select two courses:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ART 150 - Foundations: 2-D Design (3 credits)
- ART 151 - Foundations: 3-D Design (3 credits)
- ART 152 - Foundations: Color and Design (3 credits)
- ART 153 - Foundations: Making and Meaning in Art and Design (3 credits)
- ART 155 - Foundations: Introduction to Drawing I (3 credits)
- ART 157 - Foundations: Introduction to Drawing II (3 credits)
- 200-level studio course in any emphasis area

### **Capstone and Senior Thesis**

There are six credit hours required. After completion of other art history requirements, students take a Capstone seminar, which offers them a discussion-intensive classroom experience. During their final semester, students complete a senior thesis with the assistance of their academic advisor.

- ART 495 - Issues in Art (Capstone) (3 credits)

### **Art History Electives**

There are six credit hours required.

- ART 218 - Design History (3 credits)
- ART 322 - Goths to Gothic: Medieval Art (3 credits)
- ART 323 - Rethinking Renaissance Art (3 credits)
- ART 327 - Art Since 1945 (3 credits)
- ART 380 - Special Topics in Art and Design (1 to 3 credits) (History emphasis.)
- ART 420 - Asian Art (3 credits)
- ART 421 - Surrealism (3 credits)
- ART 422 - Art and the Worlds of Islam (3 credits)
- ART 423 - Animals in Art (3 credits)
- ART 425 - Depicting a Nation: 19th Century American Art (3 credits)
- CLA 250 - Classical Art and Archaeology (3 credits)
- FVP 225 - Film Culture (3 credits)
- FVP 348 - Film Theories (3 credits)
- PHO 366 - History of Photography II (3 credits)
- PHI 220 - Aesthetics (3 credits)
- SOC 289 - Sociology of Art (3 credits)

### **Distribution of General Education Requirements**

Students are strongly encouraged to work closely with their advisors and create individual study plans appropriate to their area of interest in the major. These courses allow students to enrich their understanding of the cultural contexts for art production. Students may combine these courses to meet other requirements in the art history and general education programs. Some

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

possible fields of exploration include sociology, anthropology, history, philosophy, literature, music history, theater history, and languages.

## **Suggested Order of Coursework for a Major in Art History**

### **Year One**

Fall Semester:

- ART 221 - Survey of Art History I (3 credits)
- WRT 150 - Strategies in Writing (4 credits)
- First semester foreign language (4 credits)
- One general education elective (3 credits)

Winter Semester:

- ART 222 - Survey of Art History II (3 credits)
- Second semester foreign language (4 credits)
- Two general education electives (6 credits)

### **Year Two**

Fall Semester:

- Two art history distribution courses (6 credits)
- Third semester foreign language (4 credits)
- One studio elective (3 credits)
- One general education elective (3 credits)

Winter Semester:

- Two art history distribution courses (6 credits)
- One Issues course (3 credits)
- Two general education electives (6 credits)
- Complete the second SWS course

### **Year Three**

Fall Semester:

- One art history distribution course (3 credits)
- One art history elective (3 credits)
- One Issues course (3 credits)
- One studio elective (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- One general education elective (3 credits)

Winter Semester:

- One art history elective (3 credits)
- Four electives: general education/additional art history/second major/minor (15 credits)

## **Year Four**

Fall Semester:

- ART 495 - Issues in Art (Capstone) (3 credits)
- Four electives: general education/additional art history/second major/minor (12 credits)

Winter Semester:

- Complete senior thesis requirement (3 credits)
- Four electives: general education/additional art history/second major/minor (12 credits)

## **Bachelor of Arts or Bachelor of Science in Art Education (Teacher Certification)**

The art education program enables students to meet certification requirements for teaching visual art in Michigan elementary and secondary schools.

### **Degree Requirements**

All students entering art education must follow the program leading to LQ certification (K-12 comprehensive with no teachable minor).

Entering students in art education, or degree-holding students wishing teacher certification must complete 75 credits in art, including four introductory studios and a studio emphasis chosen from ceramics, graphic design, illustration, jewelry/metalsmithing, painting, printmaking, sculpture, or visual studies.

### **General Education**

In the GVSU general education requirements, the Foundations section lists ART 101 - Introduction to Art as a choice. ART 101 is not required for the B.F.A., B.A., or B.S. in visual and media arts programs. Some of the material in Art 101 will be duplicated in the required coursework. Studio arts and art education majors are advised to take one of the other classes in the general education Arts category.

### **Requirements for a Major in Art Education**

Refer to the online catalog [gvsu.edu/catalog](https://www.gvsu.edu/catalog) for the most current catalog information.

## **B.A. Degree Requirements**

- Foreign language (third-semester proficiency in a foreign language)

## **B.S. Degree Requirements (Credits: 9)**

- CIS 150 - Introduction to Computing (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits) **OR** HST 290 - Research Methods in History (3 credits)

## **Foundations Review and Courses**

After completing the foundations program (ART 150, ART 151, ART 152, ART 153, ART 155, ART 157), all art students are evaluated for entrance into the design and fine arts programs. All art students are required to submit their collective work for faculty review.

## **Foundations**

Requires 18 credits. Must be taken during freshman year.

- ART 150 - Foundations: 2-D Design (3 credits)
- ART 151 - Foundations: 3-D Design (3 credits)
- ART 152 - Foundations: Color and Design (3 credits)
- ART 153 - Foundations: Making and Meaning in Art and Design (3 credits)
- ART 155 - Foundations: Introduction to Drawing I (3 credits)
- ART 157 - Foundations: Introduction to Drawing II (3 credits)

## **Art History**

Requires 12 credits.

- Art History electives (6 credits)
- ART 221 - Survey of Art History I (3 credits)
- ART 222 - Survey of Art History II (3 credits)

## **Requirements**

- ART 332 - Introduction to Art Education (3 credits)
- ART 333 - Curriculum Development and Practice (3 credits)
- ART 335 - Digital Creativity (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Note: Art methodology courses (ART 332, ART 333, and ART 335) must be taken before arranging for teacher assisting and directed teaching. Students should consult the College of Education and Community Innovation for the specific requirements concerning teacher assisting and student directed teaching.

Note: Completion of the art history requirements (see previous) of the B.A. or B.S. program is a prerequisite for ART 495.

Complete four courses (select corresponding coursework):

- ART 210 - Graphic Design I (3 credits)
- ART 245 - Introduction to Jewelry and Metalsmithing (3 credits)
- ART 260 - Introduction to Painting (3 credits)
- ART 265 - Introduction to Printmaking (3 credits)
- ART 270 - Introduction to Sculpture (3 credits)
- ART 275 - Introduction to Ceramics (3 credits)
- ART 281 - Introduction to Illustration (3 credits)

Two drawing courses:

- ART 257 - Life Drawing (3 credits)
- ART 258 - Intermediate Drawing (3 credits)
- ART 355 - Advanced Drawing I (3 credits)

Three studio courses (from one emphasis area):

- Two intermediate studio emphasis courses (6 credits)
- One advanced studio emphasis course (3 credits)

Two studio art or art education electives (6 credits)

### **Additional Requirements**

Prerequisite courses required prior to admission to undergraduate teacher education:

- PSY 301 - Child Development (3 credits)
- EDF 315 - Diverse Perspectives on Education (3 credits)
- EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits)
- EDI 339 - Teachers as Decision Makers: Instruction and Assessment in Secondary Schools (3 credits)
- Requirements for admission to assisted and student-directed teaching, please consult with art education/CEI advisor for specific requirements.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Note: These prerequisite courses require a 2.7 GPA or better, with no grade lower than a C.

Passing scores (reading and writing component must be passed with a score of 480 or higher, and mathematics component must be passed with a score of 530 or higher) on the SAT Evidence-based Test will be required prior to admission to the College of Education and Community Innovation. Passing scores on the Content Area, #95-Visual Arts Education, test will be required prior to obtaining certification. The Content Area (#95) test can be taken during teacher assisting, student teaching, or before graduation. MTTC website: [mttc.nesinc.com](http://mttc.nesinc.com).

**Prerequisites to College of Education and Community Innovation Application:** Nine credits

A 3.0 GPA in the major, passing score on the SAT Evidence-based Test, and completion of EDF 315, EDI 338, EDI 339, and PSY 301 with a grade of C or better are required before admission to College of Education and Community Innovation's Teacher Assisting semester.

**Certificate Requirement:** Pass the Michigan Test for Teacher Certification (MTTC) [mttc.nesinc.com](http://mttc.nesinc.com), #95-Visual Arts Education, in the content area before graduation.

## **Bachelor of Arts or Bachelor of Science in Studio Art**

The B.A. and B.S. programs emphasize breadth of experience over specialization in a single medium. Students complete a more diverse curriculum including coursework in two- and three-dimensional disciplines.

### **Requirements for a Major in Studio Art**

Art majors seeking a B.A. or B.S. degree must complete a minimum of 45 credits in art and design.

#### **General Education Courses**

In the GVSU general education requirements, the Foundations section lists ART 101 - Introduction to Art as a choice. ART 101 is not required for the B.A. or B.S. in studio art. Some of the material in ART 101 will be duplicated in the required coursework. B.A. and B.S. majors in studio art are advised to take one of the other classes in the general education Arts category.

#### **Foundations Courses**

After completing the Foundations program (ART 150, ART 151, ART 152, ART 155, and ART 157), all studio art and art education students are evaluated by the faculty during Foundations portfolio review for entrance into majors in the Department of Visual and Media Arts.

- ART 150 - Foundations: 2-D Design (3 credits)
- ART 151 - Foundations: 3-D Design (3 credits)
- ART 152 - Foundations: Color and Design (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- ART 155 - Foundations: Introduction to Drawing I (3 credits)
- ART 157 - Foundations: Introduction to Drawing II (3 credits)

### **Additional Requirements**

Students seeking a major in studio art can earn either the B.A. or B.S. degree. Requirements include completion of the following.

### **Art History Electives**

Requires nine credits.

Choose three courses from the following:

- ART 221 - Survey of Art History I (3 credits)
- ART 222 - Survey of Art History II (3 credits)
- ART 218 - Design History (3 credits)
- ART 322 - Goths to Gothic: Medieval Art (3 credits)
- ART 323 - Rethinking Renaissance Art (3 credits)
- ART 327 - Art Since 1945 (3 credits)
- ART 380 - Special Topics in Art and Design (1 to 3 credits)
- ART 420 - Asian Art (3 credits)
- ART 421 - Surrealism (3 credits)
- ART 422 - Art and the Worlds of Islam (3 credits)
- ART 423 - Animals in Art (3 credits)
- ART 425 - Depicting a Nation: 19th Century American Art (3 credits)

### **Studio Art 2-D Courses**

Requires six credits.

Choose two courses in different 2-D areas from the following:

- ART 210 - Graphic Design I (3 credits)
- ART 257 - Life Drawing (3 credits)
- ART 260 - Introduction to Painting (3 credits)
- ART 265 - Introduction to Printmaking (3 credits)
- ART 280 - Special Topics in Art and Design (3 credits)
- ART 393 - Image Studio (3 credits)

### **Studio Art 3-D Courses**

Requires six credits.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Choose two courses in different 3-D areas from the following:

- ART 245 - Introduction to Jewelry and Metalsmithing (3 credits)
- ART 270 - Introduction to Sculpture (3 credits)
- ART 275 - Introduction to Ceramics (3 credits)
- ART 395 - Space Studio (3 credits)

### **Studio Electives**

Requires six credits.

Choose two courses from the following:

- ART 307 - Digital Prepress (3 credits)
- ART 310 - Graphic Design III (3 credits)
- ART 312 - Graphic Design IV - Experience Design (3 credits)
- ART 313 - 3-D for Graphic Design (3 credits)
- ART 346 - Intermediate Jewelry and Metalsmithing I (3 credits)
- ART 347 - Intermediate Jewelry and Metalsmithing II (3 credits)
- ART 355 - Advanced Drawing I (3 credits)
- ART 356 - Advanced Drawing II (3 credits)
- ART 361 - Intermediate Painting I (3 credits)
- ART 362 - Intermediate Painting II (3 credits)
- ART 366 - Intermediate Printmaking I (3 credits)
- ART 367 - Intermediate Printmaking II (3 credits)
- ART 371 - Intermediate Sculpture 1: Fabrications (3 credits)
- ART 372 - Intermediate Sculpture 2: Replications (3 credits)
- ART 376 - Intermediate Ceramics 1: Wheel Throwing (3 credits)
- ART 377 - Intermediate Ceramics 2: Voice/Concept (3 credits)
- ART 380 - Special Topics in Art and Design (1 to 3 credits)
- ART 381 - Intermediate Illustration I (3 credits)
- ART 382 - Intermediate Illustration II (3 credits)
- ART 391 - Civic Studio (3 credits)
- ART 392 - Curatorial Studio (3 credits)
- ART 393 - Image Studio (3 credits)
- ART 394 - Interactive Studio (3 credits)
- ART 395 - Space Studio (3 credits)
- ART 396 - Time Studio (3 credits)

### **Capstone**

Requires three credits, including:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ART 495 - Issues in Art (Capstone) (3 credits)

Completion of the art history requirements of the B.A. or B.S. program is a prerequisite for ART 495. Students register for a section taught by an art history professor.

## **B.A. and B.S. Degree Requirements**

### **B.A. Degree Requirements**

Students must complete third-semester proficiency in a foreign language.

### **B.S. Degree Requirements**

Students must complete the following:

- CIS 150 - Introduction to Computing (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

**AND** one of the following:

- STA 216 - Intermediate Applied Statistics (3 credits)
- HST 290 - Research Methods in History (3 credits)

## **Suggested Order of Coursework for a Major in Studio Art**

This suggested order of coursework applies generally to the fine arts curriculum for students working toward a B.S. or a B.A. degree. Students should verify specific major requirements with their assigned advisor.

### **Year One**

Fall Semester:

- ART 150 - Foundations: 2-D Design (3 credits)
- ART 151 - Foundations: 3-D Design (3 credits)
- ART 155 - Foundations: Introduction to Drawing I (3 credits)
- Two general education courses

Winter Semester:

- ART 152 - Foundations: Color and Design (3 credits)
- ART 157 - Foundations: Introduction to Drawing II (3 credits)
- Three general education courses

### **Year Two**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Two courses from art history (6 credits)
- Four studio courses (12 credits)
- Four general education courses or electives

### **Year Three**

- One course from art history (3 credits)
- Two studio courses (6 credits)
- Seven general education courses or electives

### **Year Four**

- ART 495 - Issues in Art (Capstone) (3 credits)
- Nine general education courses or electives

## **Bachelor of Fine Arts in Studio Art**

The B.F.A. degree is designed for students interested in a professional degree in art or design. It will prepare students for a career as a professional artist or designer.

### **Requirements for a Major in Studio Art**

Students seeking a B.F.A. degree must complete a minimum of 84 credits in art and design, including completion of the foundation and art history component, as well as the specific emphasis requirements as follows. A 2.75 GPA must be maintained in the upper-level studio courses for a B.F.A.

### **General Education Requirements**

In the GVSU general education requirements, the Foundations section lists ART 101 - Introduction to Art as a choice. ART 101 is not required for the B.F.A., B.A., or B.S. in studio art. Some of the material in ART 101 will be duplicated in the required coursework. Majors are advised to take one of the other classes in the general education Arts category.

### **Foundations Courses**

After completing the Foundations program (ART 150, ART 151, ART 152, ART 153, ART 155, and ART 157), all majors are evaluated for entrance into the design and fine arts programs.

**Note: All majors are required to submit their collective work for faculty review.**

The following (18 credits) must be completed in year one:

- ART 150 - Foundations: 2-D Design (3 credits)
- ART 151 - Foundations: 3-D Design (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ART 152 - Foundations: Color and Design (3 credits)
- ART 153 - Foundations: Making and Meaning in Art and Design (3 credits)
- ART 155 - Foundations: Introduction to Drawing I (3 credits)
- ART 157 - Foundations: Introduction to Drawing II (3 credits)

## **Secondary Admission**

Students seeking either the graphic design or illustration emphasis, must participate in a secondary admission process after successful completion of the Foundations Review. Both programs prioritize admission based on a review of portfolio work from the foundations courses.

## **Junior Review**

Two semesters before their B.F.A. exhibition, all B.F.A. students are required to submit a sample of their work, completed since the foundations program, for faculty review and comment. Based on the review, students may be asked to do remedial work and submit to a second review. If a second review is unsuccessful, the student will be asked to leave his or her current program or the department. See the Department of Visual and Media Arts Student Handbook for scheduling details and specific requirements.

## **B.F.A. Exhibition**

Graduating seniors must have a B.F.A. show and a final acceptance of their work by art and design faculty, earning a grade of at least a C for their Senior Project (ART 498 or ART 415). The fine arts and illustration seniors will have a group exhibition. The graphic design seniors will have a group exhibit evaluated by graphic design faculty. See the Department of Visual and Media Arts Student Handbook for details.

## **Art History**

Requires 12 credits, including:

- Art history electives (6 credits)
- ART 221 - Survey of Art History I (3 credits)
- ART 222 - Survey of Art History II (3 credits)

## **Capstone**

- ART 495 - Issues in Art (Capstone) (3 credits)

Completion of the art history requirements of the B.F.A. program is a prerequisite for ART 495. Students register for a section taught by an art history professor.

## **Emphases**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Ceramics**

Ceramics emphasis requires 54 credits as outlined.

### **Studio Elective Courses**

Requires 18 credits.

### **Required Emphasis Courses**

Requires 36 credits, including:

- ART 245 - Introduction to Jewelry and Metalsmithing (3 credits)
- ART 270 - Introduction to Sculpture (3 credits)
- ART 275 - Introduction to Ceramics (3 credits)
- ART 376 - Intermediate Ceramics 1: Wheel Throwing (3 credits)
- ART 377 - Intermediate Ceramics 2: Voice/Concept (3 credits)
- ART 401 - Senior Seminar (3 credits)
- ART 477 - Advanced Ceramics 1 (3 credits)
- ART 478 - Advanced Ceramics 2 (3 credits)
- ART 479 - Glaze Calculation (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)
- ART 498 - Senior Project (6 credits)

## **Graphic Design**

Graphic design emphasis requires 54 to 55 credits as outlined.

### **Studio Elective Courses**

Requires 15 credits. Studio electives may be selected in art, photography, or film and video. Electives in other areas must be approved by graphic design faculty.

### **Required Emphasis Courses**

Requires 39 to 40 credits, including:

- ART 210 - Graphic Design I (3 credits)
- ART 211 - Graphic Design II (3 credits)
- ART 215 - Advanced Typography (3 credits)
- ART 258 - Intermediate Drawing (3 credits)
- ART 310 - Graphic Design III (3 credits)
- ART 312 - Graphic Design IV - Experience Design (3 credits)
- ART 410 - Graphic Design V (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ART 413 - Portfolio (3 credits)
- ART 415 - Senior Project: Graphics/Illustration (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)
- PHO 171 - Photography I (4 credits) **OR** PHO 175 - Understanding Still Photography (3 credits)

Note for PHO 171 or PHO 175: Consult advisor to make PHO course selection. Access to studio courses in the School of Communications cannot be guaranteed for art and design majors.

### **Business Practice Courses**

Select one course (three credits) from the following:

- BUS 201 - Legal Environment for Business (3 credits)
- MKT 350 - Marketing Management (3 credits)
- CAP 210 - Fundamentals of Advertising (3 credits)
- CAP 220 - Fundamentals of Public Relations (3 credits)

### **Internship**

An off-campus experience is required for internship credit.

- ART 491 - Internship in Studio Art (1 to 6 credits)

### **Design History Course**

Students must substitute ART 218 - Design History (3 credits) for one of the two art history elective courses.

### **Illustration**

Illustration emphasis requires 54 credits as outlined.

### **Studio Elective Courses**

Requires 15 credits.

### **Required Emphasis Courses**

Requires 39 credits, including:

- ART 212 - Graphic Design for Illustrators (3 credits)
- ART 257 - Life Drawing (3 credits)
- ART 258 - Intermediate Drawing (3 credits)
- ART 260 - Introduction to Painting (3 credits)
- ART 265 - Introduction to Printmaking (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ART 281 - Introduction to Illustration (3 credits)
- ART 381 - Intermediate Illustration I (3 credits)
- ART 382 - Intermediate Illustration II (3 credits)
- ART 413 - Portfolio (3 credits)
- ART 415 - Senior Project: Graphics/Illustration (3 credits)
- ART 482 - Advanced Illustration I (3 credits)
- ART 483 - Advanced Illustration II (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)

### **Jewelry/Metalsmithing**

Jewelry/metalsmithing emphasis requires 54 credits as outlined.

### **Studio Elective Courses**

Requires 18 credits.

### **Required Emphasis Courses**

Requires 36 credits, including:

- ART 245 - Introduction to Jewelry and Metalsmithing (3 credits)
- ART 270 - Introduction to Sculpture (3 credits)
- ART 275 - Introduction to Ceramics (3 credits)
- ART 345 - Relevant Skills for the Jeweler (3 credits)
- ART 346 - Intermediate Jewelry and Metalsmithing I (3 credits)
- ART 347 - Intermediate Jewelry and Metalsmithing II (3 credits)
- ART 401 - Senior Seminar (3 credits)
- ART 447 - Advanced Jewelry and Metalsmithing I (3 credits)
- ART 448 - Advanced Jewelry and Metalsmithing II (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)
- ART 498 - Senior Project (6 credits)

### **Painting**

Painting emphasis requires 54 credits as outlined.

### **Printmaking or Illustration Course**

Requires three credits.

### **Metals, Sculpture, or Ceramics Course**

Requires three credits.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Studio Elective Courses**

Requires 12 credits.

## **Required Emphasis Courses**

Requires 42 credits, including:

- ART 257 - Life Drawing (3 credits)
- ART 258 - Intermediate Drawing (3 credits)
- ART 260 - Introduction to Painting (3 credits)
- ART 355 - Advanced Drawing I (3 credits)
- ART 361 - Intermediate Painting I (3 credits)
- ART 362 - Intermediate Painting II (3 credits)
- ART 401 - Senior Seminar (3 credits)
- ART 462 - Advanced Painting I (3 credits)
- ART 463 - Advanced Painting II (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)
- ART 498 - Senior Project (6 credits)

## **Printmaking**

Printmaking emphasis requires 54 credits as outlined.

## **Metals, Sculpture, or Ceramics Course**

Requires three credits.

## **Studio Elective Courses**

Requires nine credits.

## **Required Emphasis Courses**

Requires 45 credits, including:

- ART 257 - Life Drawing (3 credits)
- ART 258 - Intermediate Drawing (3 credits)
- ART 260 - Introduction to Painting (3 credits)
- ART 265 - Introduction to Printmaking (3 credits)
- ART 355 - Advanced Drawing I (3 credits)
- ART 356 - Advanced Drawing II (3 credits)
- ART 366 - Intermediate Printmaking I (3 credits)
- ART 367 - Intermediate Printmaking II (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ART 401 - Senior Seminar (3 credits)
- ART 467 - Advanced Printmaking I (3 credits)
- ART 468 - Advanced Printmaking II (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)
- ART 498 - Senior Project (6 credits)

## **Sculpture**

Sculpture emphasis requires 54 credits as outlined.

### **Studio Elective Courses**

Requires 18 credits.

### **Required Emphasis Courses**

Requires 36 credits, including:

- ART 245 - Introduction to Jewelry and Metalsmithing (3 credits)
- ART 270 - Introduction to Sculpture (3 credits)
- ART 275 - Introduction to Ceramics (3 credits)
- ART 271 - Digital 3-D Modeling and Design (3 credits)
- ART 371 - Intermediate Sculpture 1: Fabrications (3 credits)
- ART 372 - Intermediate Sculpture 2: Replications (3 credits)
- ART 401 - Senior Seminar (3 credits)
- ART 472 - Advanced Sculpture 1 (3 credits)
- ART 473 - Advanced Sculpture 2 (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)
- ART 498 - Senior Project (6 credits)

## **Visual Studies**

Visual studies emphasis requires 54 credits as outlined.

### **Studio Elective Courses**

Requires 18 to 27 credits.

### **Required Emphasis Courses**

Requires 27 to 36 credits, including:

- ART 391 - Civic Studio (3 credits)
- ART 392 - Curatorial Studio (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ART 393 - Image Studio (3 credits)
- ART 394 - Interactive Studio (3 credits)
- ART 395 - Space Studio (3 credits)
- ART 396 - Time Studio (3 credits)
- ART 401 - Senior Seminar (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)
- ART 498 - Senior Project (6 credits)

Working with their advisor, undergraduates create individualized learning plans, which are evaluated every semester. Students take five to eight courses specific to visual studies in at least four different areas (ART 391, ART 392, ART 393, ART 394, ART 395, and ART 396). These may be repeated once. Students complete the remaining credits in the emphasis with the studio electives they have chosen for their learning plan for a total of 54 credits.

## **Suggested Order of Coursework for a B.F.A. in Studio Art**

### **Year One**

Fall Semester (15 credits):

- Two general education courses (6 credits)
- Three foundation studio courses:
  - ART 150 - Foundations: 2-D Design (3 credits)
  - ART 151 - Foundations: 3-D Design (3 credits) **OR** ART 153 - Foundations: Making and Meaning in Art and Design (3 credits)
  - ART 155 - Foundations: Introduction to Drawing I (3 credits)

Winter Semester (15 credits):

- Two general education courses credits (6 credits)
- Three foundation studio courses:
  - ART 151 - Foundations: 3-D Design (3 credits) **OR** ART 153 - Foundations: Making and Meaning in Art and Design (3 credits)
  - ART 152 - Foundations: Color and Design (3 credits)
  - ART 157 - Foundations: Introduction to Drawing II (3 credits)

### **Year Two**

Fall Semester (18 credits):

- Emphasis requirements (9 credits)
- Two general education courses (6 credits)
- ART 221 - Survey of Art History I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Winter Semester (18 credits):

- Emphasis requirements (9 credits)
- Two general education courses (6 credits)
- ART 222 - Survey of Art History II (3 credits)

### **Year Three**

Fall Semester (18 credits):

- Emphasis requirements and electives (9 credits)
- Art history elective (3 credits)
- Two general education Issues courses (6 credits)

Winter Semester (15 to 18 credits):

- Emphasis requirements and electives (9 credits)
- Art history elective (3 credits)
- One or two general education Issues courses (3 to 6 credits)

### **Year Four**

Fall Semester (12 credits):

- Emphasis requirements and electives (6 credits)
- ART 401 - Senior Seminar (3 credits) **OR** ART 413 - Portfolio (3 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)

Winter Semester (12 to 15 credits):

- Emphasis requirements and electives (3 credits)
- One or two general education courses (3 to 6 credits)
- ART 498 - Senior Project (6 credits)

## **Studio Art Minor**

The studio art minor offers students in other majors the opportunity to pursue their interests in the visual arts. Students choose eight courses for the minor, which can be structured for broad engagement or focused learning in studio art.

### **Requirements for Minor in Studio Art**

The minor in studio art requires 24 credits.

## **Studio Art**

Complete the following (18 credits) studio foundations courses:

- ART 151 - Foundations: 3-D Design (3 credits)
- ART 153 - Foundations: Making and Meaning in Art and Design (3 credits)
- ART 155 - Foundations: Introduction to Drawing I (3 credits)
- Choose two studio courses at the 200-level or above.
- Choose one studio course at the 300-level or above.

## **Art History**

- One art history course at the 200-level or above (3 credits)

## **Elective Course**

- One additional three-credit course with the ART designation.

Note: ART courses include studio art courses at any level (including 100-level foundation courses), ART 101, art history at any level, and art education courses at any level.

# **Women, Gender, and Sexuality Studies**

For additional information about opportunities your college offers, please refer to the Brooks College of Interdisciplinary Studies section in this catalog.

**Website:** [gvsu.edu/wgs](http://gvsu.edu/wgs)

## **Mission**

Creating and sustaining a community of scholar-activists who: understand systems of gender and sexuality; generate and apply intersectional feminist and queer perspectives; challenge structural inequalities; and work for social justice.

## **Program Information**

Students may earn a Bachelor of Arts or Bachelor of Science degree in Women, Gender, and Sexuality Studies (WGS). The program also offers a minor in WGS and a minor in Lesbian, Gay, Bisexual, Transgender, Queer Studies (LGBTQ).

The Women, Gender, and Sexuality Studies Department at GVSU offers an interdisciplinary curriculum that acquaints students with the scholarship on women, gender, and sexuality; raises awareness of how categories of gender and sexuality affect and are affected by our everyday lives, historical currents, social institutions, science, art,

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

and literature; and prepares students for graduate school and/or careers in which knowledge of these issues is relevant.

The WGS curriculum focuses on diversity and the integration of theory and practice within the field. Liberal education is central to WGS, and the department requires that students critically reflect on and recognize their own social and cultural environments and challenge prevailing ideas of privilege and inequality. These attributes encourage students to develop the skills of inquiry, reflection, critical analysis, dialogue, and expression central to the university's vision for undergraduate success.

Each semester, more than 500 students enroll in WGS courses, ranging from an introduction to gender studies to classes cross-listed with several other departments, to our high-impact courses that empower students to challenge gender stereotypes, understand feminist perspectives, and work actively for diverse gender justice through service learning and civic engagement at the community level and through an international lens.

### **Campus Engagement**

The WGS Department contributes to the experience of all students on campus by working in collaboration with the Gayle R. Davis Center for Women and Gender Equity, the Milton E. Ford LGBT Resource Center, the Office of Multicultural Affairs, student organizations and academic programs, and departments across the university to sponsor speakers and events that contribute to understanding women, gender, and sexuality in the contemporary world.

### **Study Abroad**

Students are encouraged to consider study abroad experiences with programs that examine issues and topics related to women, gender, and/or sexuality studies. WGS faculty currently facilitate a study abroad program in Cape Town, South Africa which combines academic curriculum with service to the community. Participants examine how issues such as reproductive health, education, violence, political representation, and Apartheid have intersected, and gain a deeper understanding of race and class through a global feminist perspective. Students learn about and visit several sites of historical and cultural significance in and around Cape Town and Johannesburg.

For more information about opportunities to study women, gender, and/or sexuality abroad, students should contact the Women, Gender, and Sexuality Studies Department or the Padnos International Center.

### **Honors Organizations**

Iota Iota Iota (Triota) is the academic honor society for the field of women and gender, gender, and sexuality studies. Triota strives to maintain feminist values central to WGS: egalitarianism, inclusiveness, and the celebration of the diversity of gendered experiences. The organization also works to enhance the experience of students by recognizing their

academic achievements and supporting scholarship in women, gender, and sexuality studies at Grand Valley. Students meeting eligibility criteria are inducted into GVSU's chapter of Iota Iota Iota each year.

## **Bachelor of Arts or Bachelor of Science in Women, Gender, and Sexuality Studies**

### **Requirements**

Students pursuing a major in women, gender, and sexuality studies are required to complete at least 30 credits, which includes five core courses. Students must also complete 15 credits in electives at the 200-level or higher, one of which must come from the high impact/civic engagement emphasis.

### **Required Courses**

- WGS 200 - Introduction to Gender Studies (3 credits)
- WGS 360 - Foundations of Feminism (3 credits)
- WGS 395 - Women and Gender Studies Research Methods (3 credits)
- WGS 450 - Global Feminisms (3 credits)
- WGS 495 - Capstone (3 credits)

### **High Impact/Civic Engagement Emphasis**

Civic engagement has long been a core value in the field of women, gender, and sexuality studies, reflecting the field's deep roots in activism. The high impact/civic engagement courses offer students the opportunity to engage in reflective application of theory through direct engagement with community partners or through developing a vision and a strategy for social justice activism.

- WGS 490 - WGS Internship (variable credits)
- WGS 491 - Contemporary Theory and Practicum (3 credits)
- WGS 492 - Community Collaborative (3 credits)
- WGS 493 - Community Collaborative in South Africa (3 credits)

### **Elective Courses**

For the remaining four electives, students can choose from a wide range of courses within WGS, courses cross-listed with and taught by other departments, and other approved electives.

Other courses that have significant content devoted to the study of women, gender, and/or sexuality during a particular semester may also be counted toward the major on an individual case basis with department chair approval.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Choose four courses (minimum of 12 credits) from the following:

- WGS 224 - Introduction to LGBTQ Studies (3 credits)
- WGS 255 - Gender and Popular Culture (3 credits)
- WGS 280 - Special Topics in Women Gender, and Sexuality Studies (3 credits)
- WGS 302 - Women, Politics, and Public Policy (3 credits)
- WGS 310 - LGBTQ Rights and the Law (3 credits)
- WGS 315/PSY 315 - Psychology of Sex Differences (3 credits)
- WGS 316/PSY 316 - The Psychology of Human Intimacy and Sexuality (3 credits)
- WGS 317/SOC 317 - Sociology of Gender (3 credits)
- WGS 318/SOC 318 - Sociology of Sexuality (3 credits)
- WGS 320/CJ 320 - Crimes Against Women (3 credits)
- WGS 325/CLA 325 - Body, Gender, Sexuality in Antiquity (3 credits)
- WGS 326/INT 326 - Sexuality, Justice, and Advocacy (3 credits)
- WGS 335 - Women, Health and Environment (3 credits)
- WGS 336/ENG 336 - Lesbian, Gay and Queer Literature (3 credits)
- WGS 343/AAA 343 - Black Feminist Thought (3 credits)
- WGS 350/SOC 350 - Family and Gender in the Developing World (3 credits)
- WGS 352/AAA 352 - Black Women's Culture and Communities (3 credits)
- WGS 358 - Women and Gender in South Africa (3 credits)
- WGS 370/LS 370 - Women and the Law (3 credits)
- WGS 371/HST 371 - Historical Perspectives on Gender and Sexualities (3 credits)
- WGS 380 - Special Topics in Women Gender, and Sexuality Studies (1 to 4 credits)
- WGS 399 - Independent Readings (1 to 3 credits)
- WGS 402 - Feminist Visionary Thinkers (3 credits)
- WGS 460/SPA 460 - Women Authors (3 credits)
- WGS 461/ENS 401 - Environmental Problem Solving (3 credits)
- WGS 490 - WGS Internship (variable credits)
- WGS 491 - Contemporary Theory and Practicum (3 credits)
- WGS 492 - Community Collaborative (3 credits)
- WGS 493 - Community Collaborative in South Africa (3 credits)
- WGS 499 - Independent Study and Research (1 to 4 credits)
- AAA 351 - Perspectives on African American Males (3 credits)
- ANT 370 - Cross-cultural Perspectives on Gender (3 credits)
- BIO 325 - Human Sexuality (3 credits)
- ECO 350 - Economics of Gender (3 credits)
- ENG 436 - Women and Literature (3 credits)
- PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)
- SOC 285 - Families in Society (3 credits)
- SOC 379 - Sociology of Love (3 credits)
- SOC 381 - Class, Race, Gender, and Sexuality (3 credits)
- SOC 389 - Child Maltreatment (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SW 333 - Community Work with the Lesbian, Gay, Bisexual and Transgender Community (3 credits)

## **B.A. and B.S. Degree Requirements**

### **B.A. Degree Requirements**

Candidates for the B.A. degree must demonstrate third-semester proficiency in a foreign language, either by successful completion of a 201-level language course or by passing a proficiency examination.

### **B.S. Degree Requirements**

Candidates for the B.S. degree must complete one of the following tracks.

#### **Track One**

- WGS 395 - Women and Gender Studies Research Methods (3 credits)
- MTH 122 - College Algebra (3 credits) **OR** MTH 201 - Calculus I (4 credits)
- CIS 231 - Problem Solving Using Spreadsheets (3 credits)

#### **Track Two**

- WGS 395 - Women and Gender Studies Research Methods (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

**AND** one of the following:

- AHS 301 - Introduction to Health Care Research (3 credits)
- BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)
- COM 375 - Communication Research (3 credits)
- HST 290 - Research Methods in History (3 credits)
- PLS 300 - Political Analysis (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)
- STA 314 - Statistical Quality Methods (3 credits)
- STA 318 - Statistical Computing (3 credits)
- STA 340 - Statistics in the Media (3 credits)
- STA 345 - Statistics in Sports (3 credits)

### **Double Major**

A double major in women, gender, and sexuality studies and another area of study carries many advantages for students with multiple interests. WGS faculty advisors are available to meet with

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

students to explore options for double majors or additional minors that align well with their academic and career interests.

## **Study Abroad**

Students are encouraged to consider study abroad experiences with programs that examine issues and topics related to women, gender, and/or sexuality studies. WGS faculty currently facilitate a study abroad program in Cape Town, South Africa which combines academic curriculum with service to the community. Participants examine how issues such as reproductive health, education, violence, political representation, and Apartheid have intersected and gain a deeper understanding of race and class through a global feminist perspective. Students learn about and visit several sites of historical and cultural significance in and around Cape Town and Johannesburg.

For more information about opportunities to study women, gender, and/or sexuality abroad, contact the Women, Gender, and Sexuality Studies Department or the Padnos International Center.

## **Suggested Order of Coursework**

### **Year One**

- Three general education Foundations courses
- Two foreign language courses (B.A. candidates)
- STA 215 - Introductory Applied Statistics (3 credits) **OR** CIS 160 - Learn to Code in Python (3 credits) (B.S. candidates)
- WGS 200 - Introduction to Gender Studies (3 credits)
- MTH 110 - Algebra (4 credits)
- WRT 150 - Strategies in Writing (4 credits)

### **Year Two**

- Four general education Foundations courses
- One foreign language course (B.A. candidates)
- One approved course that focuses on mathematics, statistics, quantitative reasoning or scientific analysis (B.S. candidates)
- WGS 360 - Foundations of Feminism (3 credits)
- WGS elective

### **Year Three**

- Four general education Foundations courses
- General education Issues courses
- WGS 395 - Women and Gender Studies Research Methods (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- WGS 450 - Global Feminisms (3 credits)

### **Year Four**

- Four general education Foundations courses
- General education Issues course
- WGS 495 - Capstone (3 credits)

## **Lesbian, Gay, Bisexual, Transgender, Queer Studies Minor**

### **Requirements**

Students who minor in lesbian, gay, bisexual, transgender, queer studies must complete at least 21 credit hours including:

- WGS 224 - Introduction to LGBTQ Studies (3 credits)
- WGS 365 - Queer Theory (3 credits)
- WGS 491 - Contemporary Theory and Practicum (3 credits)

### **Elective Courses**

The remaining four courses (minimum of 12 credits) must be selected from the electives listed as follows. Other courses that have significant content devoted to the study of LGBTQ topics during a particular semester may also be counted toward the minor on an individual case basis with department chair approval.

- WGS 310 - LGBTQ Rights and the Law (3 credits)
- WGS 315/PSY 315 - Psychology of Sex Differences (3 credits)
- WGS 316/PSY 316 - The Psychology of Human Intimacy and Sexuality (3 credits)
- WGS 318/SOC 318 - Sociology of Sexuality (3 credits)
- WGS 336/ENG 336 - Lesbian, Gay and Queer Literature (3 credits)
- WGS 371/HST 371 - Historical Perspectives on Gender and Sexualities (3 credits)
- WGS 399 - Independent Readings (1 to 3 credits)
- WGS 490 - WGS Internship (variable credits)
- WGS 499 - Independent Study and Research (1 to 4 credits)
- ANT 370 - Cross-cultural Perspectives on Gender (3 credits)
- BIO 325 - Human Sexuality (3 credits)
- INT 325 - LGBTQ Identities (3 credits)
- SOC 379 - Sociology of Love (3 credits)
- SOC 381 - Class, Race, Gender, and Sexuality (3 credits)
- SW 333 - Community Work with the Lesbian, Gay, Bisexual and Transgender Community (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Women, Gender, and Sexuality Studies Minor

## Requirements

Students who want to minor in women, gender, and sexuality studies must complete at least 21 credit hours as outlined.

## Required Courses

Requires nine credits, including:

- WGS 200 - Introduction to Gender Studies (3 credits)
- WGS 360 - Foundations of Feminism (3 credits)

**AND** one of the following:

- WGS 491 - Contemporary Theory and Practicum (3 credits)
- WGS 492 - Community Collaborative (3 credits)
- WGS 493 - Community Collaborative in South Africa (3 credits)

## Electives

The remaining four courses (minimum of 12 credits) must be selected from the electives listed under the Bachelor of Arts or Bachelor of Science in women, gender, and sexuality studies; students may also select courses required for the major as part of their program. Other courses that have significant content devoted to the study of women, gender and/or sexuality during a particular semester may also be counted toward the minor on an individual case basis with department chair approval.

# Writing

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/writing](http://gvsu.edu/writing)

The Department of Writing offers instruction in academic, creative, and professional writing genres. Knowing how to construct texts that appeal to different audiences is a critical skill for the 21st century. With the proliferation of online and accelerated communication, the ability to tell a story that engages and persuades an audience is more important than ever. A major or minor in writing can help students to develop this ability.

Students in writing will have opportunities to develop storytelling skills in a wide variety of genres and media. Whether they are interested in connecting storytelling to traditional genres

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

(academic, poetry, magazine, fiction, nonfiction) or to the latest writing technologies (document design software, content management systems), students can select courses that best prepare them for their future professional careers.

For students who choose to major in writing, the department offers coursework that will help students develop as strong writers in professional, literary, and civic contexts. The department also offers a minor in writing for students wishing to develop their writing abilities for personal or professional reasons.

## **Writing Major**

Through a unique modular curriculum that combines courses in professional, academic, and creative writing genres, students majoring in writing will learn how to create, shape, design, and share texts. These abilities will allow them to enter the world in a variety of careers. Students who pursue a major in writing can become a web writer, freelancer, document designer, magazine writer, editor, publisher, or technical writer, to name a few. The flexibility and the variety of courses offered lets students shape their educational experience and future professional identity.

Through the 42-credit B.A. or B.S. degree, writing majors develop the skillset to

- write fiction and nonfiction texts;
- develop and tailor content to both print and online media;
- work with the industry standard writing and design software;
- collaborate with other writers, editors, subject matter experts, and designers to prepare content for publication; and
- develop promotional materials to pitch and sell content.

## **Writing Minor**

The minor in writing is designed to serve students in a wide variety of disciplines, such as computer science, business, math, nursing, classics, and engineering, by giving them the opportunity to develop personal and workplace writing skills and greater rhetorical sensitivity. The minor requires 18 credits; the range of courses offered encourages students to tailor a program that augments their professional needs and personal talents as writers.

## **First-year Writing Requirement**

All Grand Valley students, regardless of major, must satisfy the general education Foundations first-year writing requirement (WRT 150 or WRT 120 and WRT 130). First-year writing courses focus on developing student fluency and skill, with special attention given to general forms of writing common in many academic settings. Students draw on personal experience and opinions, use library resources, conduct research, integrate sources into their writing, and become familiar with the Fred Meijer Center for Writing as an important campus resource. Students must complete general education Foundations first-year writing requirement with a grade of C (not C-)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

or better. If students feel confident in their writing skills and have experience writing researched essays, it is recommended they take WRT 150. If students have less experience writing in high school or they would like more practice and support to develop their writing skills, they should register for WRT 120 and WRT 130.

## Extracurricular Activities

The Department of Writing offers a rich community of writers and readers, including students, faculty, local professionals, and regional and national authors. Beyond their coursework, students have a number of opportunities to participate in extracurricular writing communities and organizations across campus.

- **AWP Intro Journal Awards.** A literary competition for the discovery and publication of the best new works by students currently enrolled in the programs of AWP.
- **Distinction in Writing.** A program that encourages majors to explore opportunities in addition to the regular curriculum. Interested students work with their advisors to plan and complete a series of extracurricular activities over a one-or two-year period. Successful students submit a final portfolio of work and are awarded the Distinction in Writing designation upon graduation.
- ***fishladder: A Student Journal of Art and Writing.*** The literary arts magazine publishes creative work of students once yearly and is edited by students under the guidance of a faculty advisor.
- **Grand Valley Writers Series.** This annual series brings regionally, nationally, and internationally known writers to campus for public readings and class visits.
- ***InWriting.*** A bi-annual newsletter about the faculty, students, alumni, and events from the Department of Writing that is written and edited by students under the guidance of a faculty advisor.
- **Oldenburg Writing Contest.** An annual writing contest, cosponsored with the English Department, carrying cash prizes for essays and creative writing in various categories.
- **Organization for Professional Writers.** An organization for students to further their understanding of professional writing as a field, utilize their skills outside of the classroom, and network with other writing majors, minors, and professionals.
- **Student Reading Series.** A public series of evening readings of promising student work from intermediate and advanced writing courses. Works typically include fiction, nonfiction, and poetry.

## Bachelor of Arts or Bachelor of Science in Writing

### Requirements

Students can pursue either a Bachelor of Arts or Bachelor of Science in writing. The writing major totals 42 credits.

### B.A. and B.S. Degree Requirements

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **B.A. Degree Requirements**

The Bachelor of Arts degree in writing requires third-semester proficiency in a foreign language of the student's choice.

## **B.S. Degree Requirements**

The Bachelor of Science degree in writing requires the following:

- CIS 238 - Internet Media and Programming (3 credits)
- ENG 261 - Foundations of Language Study (3 credits)
- STA 215 - Introductory Applied Statistics (3 credits)

## **Core Courses**

Requires 12 credits, including:

- WRT 200 - Introduction to Professional Writing (3 credits)
- WRT 210 - Introduction to Style (3 credits)
- WRT 219 - Introduction to Creative Writing (3 credits)
- WRT 253 - Document Production and Design (3 credits)

Note: Students should do their best to complete the four previously listed courses in the first two semesters as a major because

- the advanced WRT courses generally require some of the core courses as prerequisites;
- the core courses introduce students to a wide range of areas that could help them choose the better path as a major; and
- students cannot complete an internship or take the Capstone without first completing these four courses.

## **Modules**

**Students must choose three of the following eight modules and complete two courses in each (18 credits).**

When selecting three modules, think about which ones might help shape you as the writer you need to be for your future career. If you are uncertain as to which modules might best support your career goals, consult with your advisor. If you are uncertain what your career goals are, it would be good to talk with your advisor.

If you take a course in a module and decide the module is not for you, or perhaps change your career goals, you may use the single course to count toward the elective requirement.

## **Working with Writers and Manuscripts**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- WRT 307 - Consulting with Writers (3 credits)
- WRT 308 - Editing and Publishing (3 credits)

### **Style and Technique**

- WRT 316 - Style and Technique (3 credits)
- WRT 411 - Style and the Book (3 credits)

### **Poetry Writing**

- WRT 320 - Intermediate Poetry Workshop (3 credits)
- WRT 420 - Advanced Poetry Workshop (3 credits)

### **Fiction Writing**

- WRT 330 - Intermediate Fiction Workshop (3 credits)
- WRT 430 - Advanced Fiction Workshop (3 credits)

### **Writing for the Web**

- WRT 351 - Writing for the Web (3 credits)
- WRT 451 - Advanced Writing for the Web (3 credits)

### **Writing with Technologies**

- WRT 353 - Visual Rhetoric and Document Design (3 credits)
- WRT 455 - Multimodal Composing (3 credits)

### **Nonfiction Writing**

- WRT 360 - Intermediate Creative Nonfiction (3 credits)
- WRT 460 - Advanced Creative Nonfiction (3 credits)

### **Magazine Writing**

- WRT 365 - Intermediate Magazine Writing (3 credits)
- WRT 465 - Advanced Magazine Writing (3 credits)

### **Elective Courses**

The writing electives offer you further flexibility to design your curriculum to suit your future career. For example, you can choose WRT courses that are not part of the modules listed previously. In some instances, you may be able to choose elective courses that also count towards completion of another major or minor. Be sure to verify this by talking to advisors in both disciplines.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Choose any two from the following (six credits):

- Any WRT module course other than those being used to complete the module requirement.
- WRT 350 - Business Communication (3 credits)
- WRT 354 - Writing in the Global Context: Culture, Technology, and Language Practices (3 credits)
- WRT 380 - Special Topics in Writing (3 credits)
- WRT 381 - Writing and Sports (3 credits)
- **OR** any two preapproved writing electives from the approved list.
- **OR** two advisor-approved interdisciplinary electives. Talk to your advisor prior to selecting courses.

### **Internship and Capstone Courses**

Requires six credits.

Students must be in senior standing and have completed all the core classes before taking the Capstone. An internship is something that needs to be planned well in advance. Be sure to review the WRT Internship Guide to learn more.

- WRT 490 - Writing Internship (1 to 3 credits)
- WRT 495 - Genre and Writing (Capstone) (3 credits)

### **Workplace Technology and Badge**

This badge (not a degree or certificate) in workplace technology and communication gives students much needed workplace communication skills such as designing effective business documents, recognizing business communication ethical issues, using statistical analysis tools for effective decision making, and creating effective data displays and visualizations. Students earn this badge by successfully completing WRT 350 - Business Communication and CIS 231 - Problem Solving Using Spreadsheets. By completing this badge, students will have completed problem-solving projects that demonstrate these competencies:

- Composing business communications appropriate to specific audiences, purposes, and contexts.
- Designing effective business documents using commonly available office software.
- Communicating effectively in emails, written reports, and oral presentations.
- Recognizing ethical issues related to business communication.
- Building and manipulating Microsoft Excel spreadsheets.
- Using applicable statistical analysis tools for effective decision making.
- Designing data models using local decision-making functions.
- Building datasets by importing, cleansing, and organizing raw data.
- Creating effective data displays and visuals, using commonly available office software.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Admission**

Admission is available as a degree-seeking or nondegree-seeking student.

## **Program Location**

Courses will be online, hybrid, or face-to-face. Face-to-face courses will be offered in Allendale and Grand Rapids.

## **Requirements for the Workplace Technology and Communication Badge**

The digital badge is comprised of two courses (six credits), including:

- \*CIS 231 - Problem Solving Using Spreadsheets (3 credits)
- \*\*WRT 350 - Business Communication (3 credits)

\*Prerequisite of MTH 110, MTH 122, or MTH 201. \*\*Prerequisite of WRT 150 **OR BOTH** WRT 120 **AND** WRT 130.

## **Writing Minor**

The minor in writing is designed to serve students in a wide variety of disciplines, such as computer science, business, math, nursing, classics, and engineering, by giving them the opportunity to develop personal and workplace writing skills and greater rhetorical sensitivity. The range of courses offered encourages students to tailor a program that augments their professional needs and personal talents as writers.

## **Requirements**

The minor in writing requires 18 credits.

### **Core Courses**

Choose three courses (nine credits) from the following:

- WRT 200 - Introduction to Professional Writing (3 credits)
- WRT 210 - Introduction to Style (3 credits)
- WRT 219 - Introduction to Creative Writing (3 credits)
- WRT 253 - Document Production and Design (3 credits)

### **Additional Courses**

Choose three upper-division writing courses (nine credits) from the following:

- WRT 307 - Consulting with Writers (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- WRT 308 - Editing and Publishing (3 credits)
- WRT 316 - Style and Technique (3 credits)
- WRT 320 - Intermediate Poetry Workshop (3 credits)
- WRT 330 - Intermediate Fiction Workshop (3 credits)
- WRT 350 - Business Communication (3 credits)
- WRT 351 - Writing for the Web (3 credits)
- WRT 353 - Visual Rhetoric and Document Design (3 credits)
- WRT 354 - Writing in the Global Context: Culture, Technology, and Language Practices (3 credits)
- WRT 360 - Intermediate Creative Nonfiction (3 credits)
- WRT 365 - Intermediate Magazine Writing (3 credits)
- WRT 381 - Writing and Sports (3 credits)
- WRT 411 - Style and the Book (3 credits)
- WRT 420 - Advanced Poetry Workshop (3 credits)
- WRT 430 - Advanced Fiction Workshop (3 credits)
- WRT 451 - Advanced Writing for the Web (3 credits)
- WRT 455 - Multimodal Composing (3 credits)
- WRT 460 - Advanced Creative Nonfiction (3 credits)
- WRT 465 - Advanced Magazine Writing (3 credits)

## Courses

### **AAA 200 - Understanding Africa (3 credits)**

An introduction to the theoretical, conceptual, and historical framework that has shaped the study of Africa and a multidisciplinary survey of the main topics and issues facing the African continent as a vehicle for understanding African studies and making sense of Africa's evolution. Fulfills Foundations - Social and Behavioral Sciences. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters.

### **AAA 201 - Introduction to African American Studies (3 credits)**

Traces the historical development and examines the scope, theories, discourses, and methodologies defining African American studies and the critical responses to these studies. Surveys perspectives on African American history, religion, social organization, politics, economy, literature, and culture and social ideology. Fulfills Foundations - Social and Behavioral Sciences. Fulfills Cultures - U.S. Diversity. Offered fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **AAA 231 - Early African American Literature (3 credits)**

Analysis and discussion of discourse primarily written by African Americans during the formative years of this nation. Emphasis on literary discourse as a means of defining African American consciousness and community, understanding representations of African American's community of origin, and investigating how the communities African Americans inhabit shaped their discursive expression. Cross-listed with ENG 231. Students may not receive credit for both. Fulfills Foundations - Philosophy and Literature. Fulfills Cultures - Global Perspectives. Offered fall semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **AAA 232 - Modern African American Literature (3 credits)**

Analysis and discussion of discourse by and about African Americans written primarily during the 20th century. Emphasis on literary discourse as a means of defining African American consciousness and community and understanding how the communities African Americans inhabit shaped their discursive expression. Cross-listed with ENG 232. Offered winter semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **AAA 300 - U.S. - Africa Relations (3 credits)**

Examines the historical development of the relationship between the United States and Africa, and the broad range of issues, cultural, economic, political, security and social, that condition and shape the relationship. Fulfills Cultures - Global Perspectives. Offered every year.

## **AAA 302 - African Diaspora (3 credits)**

Overview of the history and culture of African societies throughout the world and the persistence of African culture among black populations outside of Africa. Chronicle of major events in the diasporic experience. Examines ethnocultural debate, African cultural values, artistic and intellectual traditions, and cultural continua of African forms in the New World. Fulfills Cultures - Global Perspectives. Offered winter semester.

## **AAA 315 - Field to Factory: African American Migration (3 credits)**

Examines the sociocultural, political, economic, psychological, and interpersonal consequences of the migration of over one million African Americans from the rural South to the industrialized North during the decades surrounding World Wars I and II. Offered fall semester.

## **AAA 319 - African Politics (3 credits)**

A study of social and economic forces that shape the political processes in Africa through a combination of individual cases and general themes. Topics include colonization, regional

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

integration, democratic transitions, state collapse and violence, politics of ethnicity, religion, gender and class, civil society, development, and Africa's role in world affairs. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Cross-listed with PLS 319. Offered fall semester. Prerequisite: Junior standing.

### **AAA 333 - Study Abroad - African/African American Studies (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credits may vary. Offered as needed. Prerequisites: Specific to course and instructor.

### **AAA 337 - Contemporary Black Literature (3 credits)**

Studies the importance and variety of literature by Black authors from Africa, the Americas and/or Afro-Europe since 1975. Texts written earlier than 1975 are used to consider influential historical and/or social events, trends and themes, literary styles, innovative uses of popular culture, and/or expression of the experience of marginality. Fulfills Cultures - Global Perspectives. Part of the Identity Issue. Cross-listed with ENG 337. Prerequisite: Junior standing.

### **AAA 340 - African American Culture and Social Thought (3 credits)**

A critical examination of African American cultural expression, several African American cultural and social movements, and the defining intellectual conversations and persons in African American culture and social thought. Part of the Identity Issue. Offered winter semester. Prerequisite: Junior standing.

### **AAA 343 - Black Feminist Thought (3 credits)**

Survey of the interdisciplinary field of black feminist studies. Focuses on the history, theoretical approaches, and interventions of black feminist studies through examination of the foundational topics and concerns of the field. Cross-listed with WGS 343. Offered fall semester.

### **AAA 351 - Perspectives on African American Males (3 credits)**

A critical examination of the socialization, life ways, status, and future of African American males. Historical perspectives, present status, cultural expression and social relationships, empowerment, masculinity, psychosocial development and coping, and the future of African American males. Offered winter semester of odd-numbered years.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **AAA 352 - Black Women's Culture and Communities (3 credits)**

A historical and theoretical analysis of the distinct identities African American women constructed for themselves (and had constructed for them) in response to the forces of patriarchal domination and political colonization. Fulfills U.S. Diversity requirement. Part of the Human Rights Issue. Cross-listed with WGS 352. Offered fall semester. Prerequisite: Junior standing.

## **AAA 355 - History of Underground Railroad (3 credits)**

An exploration of the historical, political, and cultural contexts out of which the American Underground Railroad and Abolitionists Movements emerged with emphasis on the important role the State of Michigan played in these movements due to its geographical proximity of Canada. Fulfills Cultures - U.S. Diversity. Offered fall semester. Prerequisite: Junior standing.

## **AAA 357 - The Black Diaspora and the Meaning of Sports, 1800 to the Present (3 credits)**

This course explores the Black Diaspora (1800-present) through the lens of the black athlete in order to help examine global issues such as race, politics, economics, and gender. Part of Globalization Issue. Cross-listed with HST 357. Offered winter semester. Prerequisite: Junior standing.

## **AAA 380 - Special Topics in African/African American Studies (1 to 3 credits)**

A seminar for the study of important topics not ordinarily covered in other courses. Course may be taken more than once when the topic is different. Offered on sufficient demand.

## **AAA 399 - Independent Readings (1 to 3 credits)**

Independent supervised readings in selected topics. A student may take only one reading course for one to three credits per term. No more than six credit hours of AAA 399 and AAA 499 combined may count toward the minor. Offered fall and winter semesters.

## **AAA 490 - Practicum: Career-Service in Community Building (1 to 6 credits)**

Agency experience in the community relating practical training and independent study in a specialized area in African American studies. Maximum of six credits. Nine hours of course

preparation and permission of instructor and program coordinator required. Offered fall and winter semesters.

### **AAA 499 - Independent Study and Research (1 to 4 credits)**

Research conducted individually with faculty supervision. Attention given to written and oral presentation of research findings. A student may take only one independent study course for one to four credits per term. No more than six credit hours of AAA 399 and AAA 499 combined may count toward the minor. Graded credit/no-credit. Offered fall and winter semesters. Prerequisites: Nine hours in the department and written permission of the instructor before registration.

### **ACC 201 - Accounting for Non-Business Majors 1 (1.5 credits)**

A working knowledge of financial statements and generally accepted accounting principles to demonstrate how managers make decisions with accounting information typically portrayed on income statements, balance sheets, and cash flow statements. Bachelor of Business Administration (B.B.A.) degree-seeking students will not be given credit toward degree completion for this course. Offered fall and winter semesters. Prerequisite: MTH 110.

### **ACC 202 - Accounting for Non-Business Majors 2 (1.5 credits)**

A working knowledge of product and labor cost behaviors, cost-volume-profit relationships, budgeting, relevant costing, and capital management to demonstrate how managers make decisions based on understanding of accounting and cost information. Bachelor of Business Administration (B.B.A.) degree-seeking students will not be given credit toward degree completion for this course. Offered fall and winter semesters. Prerequisites: ACC 201.

### **ACC 212 - Principles of Financial Accounting (3 credits)**

Introduction to financial accounting. Emphasizes the importance of accounting information, how accounting information is produced, and how this information is used in making decisions about organizations. Offered every semester.

### **ACC 213 - Principles of Managerial Accounting (3 credits)**

This course addresses accounting information in business. Topics include cost concepts and behavior, product and activity-based costing, cost-volume-profit relationships, variable costing, budgeting/performance analysis, standard costs/variance analysis, and relevant costs for decision-making. Knowledge of spreadsheets and college algebra is recommended as these tools will be used throughout the course. Offered every semester. Prerequisite: ACC 212. Knowledge of spreadsheets and college algebra recommended.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ACC 240 - Financial Accounting Applications (1 credit)**

A review of the financial accounting process and an introduction to financial accounting database and retrieval procedures. Offered every semester. Prerequisite: ACC 212.

## **ACC 280 - Special Topics in Accounting (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **ACC 310 - Intermediate Accounting I (3 credits)**

Theory and application of financial accounting. Topics include the accounting cycle, development of accounting standards, financial statement presentation, basic asset/liability/equity transactions, revenue recognition, and the time value of money. Offered every semester. Prerequisites: ACC 240 with a B- or better or both ACC 212 and ACC 213 with honors designations with a B- or better, and admission to Seidman College of Business, or by permit.

## **ACC 311 - Intermediate Accounting II (3 credits)**

Continuation of the theory and application of financial accounting. Topics include the recognition, measurement and presentation of liabilities, equity, deferred taxes, leases, and pensions as well as accounting changes and the cash flow statement. Offered every semester. Prerequisites: Grade of C or better in ACC 310 and admission to Seidman College of Business, or by permit.

## **ACC 317 - Individual Income Taxation (3 credits)**

Consideration of the basic theory and practice applicable to the determination of the taxable income of individuals. The course will cover the individual income tax formula including the determination of income, the role of deductions and credits, and simple and complex property transactions. Offered fall and winter semesters. Prerequisites: ACC 212 and admission to Seidman College of Business, or by permit.

## **ACC 318 - Entity Taxation (3 credits)**

Introduction to tax characteristics of various types of business entities including C and S corporations, partnerships, and limited liability companies. Topics covered include the tax consequences of entity formation, distributions, operations, and liquidations. The course will also cover federal estate and gift taxation. Offered fall and winter semesters. Prerequisites: ACC 212 and admission to Seidman College of Business, or by permit. ACC 317 recommended.

## **ACC 321 - Cost Strategy and Decision Making (3 credits)**

The course examines the use of cost management techniques and tools to enable better managerial decision making. The course topics include: cost concepts and cost behavior, product and activity-based costing, absorption and variable costing, cost of capacity utilization, transfer pricing, relevant costs for decision-making and strategic analysis of income. Offered fall and winter semesters. Prerequisites: ACC 213 and admission to Seidman College of Business, or by permit.

## **ACC 330 - International Accounting (3 credits)**

Survey of the major differences between accounting systems around the world and the business practices and environments within which these systems developed and function today. Basic study of the accounting issues affecting multinational companies, including consolidations, price changes, and inflation, foreign currency transactions and translation, transfer pricing, and international taxation. May be offered any semester. Prerequisites: ACC 212 and admission to Seidman College of Business, or by permit.

## **ACC 333 - Corporate Governance and Accounting Ethics (3 credits)**

The class examines ethical decision-making in professional accounting settings. The class focuses on ethical reasoning and the legal and professional environment that accountants work in. Students will apply ethical reasoning in the accounting environment, and evaluate others' decisions in that environment. Offered fall and winter semesters. Prerequisites: ACC 310 and admission to Seidman College of Business, or by permit.

## **ACC 340 - Accounting Systems (3 credits)**

A study of automated systems of processing data for accounting information. The accounting system is discussed from the perspective of developing and maintaining systems capable of producing information for internal decision-making and external reporting. Hands-on experience may include general ledger, ERP, flowcharting software, and other relevant computer technology. Offered fall and winter semesters. Prerequisites: ACC 240, MGT 268, and admission to Seidman College of Business, or by permit.

## **ACC 380 - Special Topics in Accounting (1 to 3 credits)**

To be arranged with a full-time faculty member with the approval of the department chairperson. A maximum of three hours of credit may be applied to the degree requirements. Offered as demand warrants. Prerequisite: Admission to Seidman College of Business, or by permit.

## **ACC 408 - Governmental and Not-for-Profit Accounting (3 credits)**

Introduction to accounting and auditing concepts related to state and local governmental and not-for-profit entities. Course will focus on financial reporting and transaction analysis related to these entities. Course emphasizes accountability in governmental and not-for-profit accounting and financial reporting regulations that guide financial reporting and transaction analysis. Cross-listed with ACC 508. Offered fall semester. Prerequisites: ACC 310 and admission to Seidman College of Business, or by permit.

## **ACC 413 - Internal Auditing (3 credits)**

This course covers the specialized area of internal auditing. The topics include the internal audit professional standards and other authoritative practice guidance, risk assessment and mitigation, internal control processes, governance, ethics, and operational, compliance, financial and information systems auditing. Auditing with generalized audit software such as ACL is also covered. Cross-listed with ACC 513. Offered fall semester. Prerequisites: Senior standing, ACC 212 or equivalent, and admission to Seidman College of Business.

## **ACC 414 - External Auditing (3 credits)**

Introduction to various principles, theories and concepts relating to financial statement audits. Topics include an overview of the profession, planning, risks, fraud, internal controls, substantive procedures, sampling, completion, reporting, and opinions. Course emphasizes the assertion level risks for various accounts and gathering/evaluating evidence to support audit opinions. Cross-listed with ACC 514. Offered fall semester. Prerequisites: ACC 310 and admission to Seidman College of Business, or by permit. ACC 340 strongly recommended.

## **ACC 416 - Information Systems Auditing (3 credits)**

This course covers the theory and practical application of information systems audit and control. Topics include authoritative information technology control frameworks, computer security, continuous auditing, and audit approaches to new and emerging technologies such as electronic commerce, the Internet, client/server networking, and enterprise systems. Cross-listed with ACC 516. Offered winter semester. Prerequisites: ACC 413/ACC 513 or ACC 414/ACC 514, and admission to Seidman College of Business, or by permit.

## **ACC 480 - Special Topics in Accounting (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program. Prerequisite: Admission to Seidman College of Business, or by permit.

## **ACC 490 - Accounting Internship (1 to 6 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course will be used to grant accounting credit to students who complete internships in the accounting field. Prerequisites: Junior standing, minimum 2.5 GPA, and admission to Seidman College of Business, or by permit. Graded credit/no-credit.

### **ACC 499 - Independent Research (1 to 3 credits)**

Students propose an independent study culminating in a written and oral report. The proposal must include learning outcomes and a reading list. Proposals involving primary research should include a detailed description of objectives and methodology. Students must find an interested faculty member to help them prepare the proposal and to supervise the independent research. Offered every semester. Prerequisite: Admission to Seidman College of Business, or by permit.

### **ACC 508 - Governmental and Not-for-Profit Accounting (3 credits)**

Introduction to accounting and auditing concepts related to state and local governmental and not-for-profit entities. Course will focus on financial reporting and transaction analysis related to these entities. Course emphasizes accountability in governmental and not-for-profit accounting and financial reporting regulations that guide financial reporting and transaction analysis. Cross-listed with ACC 408. Offered fall semester.

### **ACC 511 - Financial and Managerial Accounting Concepts (3 credits)**

An introduction to financial and managerial accounting. Financial accounting includes an examination of accounting concepts and understanding and interpreting financial statements. Managerial accounting includes examining the use of accounting information for planning, control, and decision-making in today's fast-changing business environment. No prior knowledge of accounting is required or assumed. Equivalent to ACC 212 and ACC 213. Offered fall and winter semesters.

### **ACC 513 - Internal Auditing (3 credits)**

This course covers the specialized area of internal auditing. The topics include the internal audit professional standards and other authoritative practice guidance, risk assessment and mitigation, internal control processes, governance, ethics, and operational, compliance, financial and information systems auditing. Auditing with generalized audit software such as ACL is also covered. Cross-listed with ACC 413. Offered fall semester.

### **ACC 514 - External Auditing (3 credits)**

Introduction to various principles, theories and concepts relating to financial statement audits. Topics include an overview of the profession, planning, risks, fraud, internal controls,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

substantive procedures, sampling, completion, reporting, and opinions. Course emphasizes the assertion level risks for various accounts and gathering/evaluating evidence to support audit opinions. Cross-listed with ACC 414. Offered fall semester.

### **ACC 516 - Information Systems Auditing (3 credits)**

This course covers the theory and practical application of information systems audit and control. Topics include authoritative information technology control frameworks, computer security, continuous auditing, and audit approaches to new and emerging technologies such as electronic commerce, the Internet, client/server networking, and enterprise systems. Cross-listed with ACC 416. Offered winter semester. Prerequisite: ACC 513 or ACC 514.

### **ACC 580 - Special Topics in Accounting (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

### **ACC 603 - Accounting and Auditing Research (3 credits)**

This course focuses on research using codified U.S. and international accounting and auditing standards as well as databases used by accounting professionals. Cases and exercises unite research techniques and technical accounting issues. Communication and critical thinking skills are developed through written assignments and oral presentations. Offered fall semester. Prerequisite: ACC 311 or equivalent.

### **ACC 607 - Ethics for Accountants (3 credits)**

This course covers stakeholder's ethical expectations of accountants, directors and officers, principles of corporate governance, philosophic and practical approaches to making ethical decisions, and an introduction to accountants' regulatory requirements and codes of conduct. Offered fall semester. Prerequisite: Admission to a Seidman College of Business graduate program.

### **ACC 608 - Forensic Accounting (3 credits)**

This course surveys concepts of forensic accounting and analyzes practical application in the conduct of day-to-day financial investigations. Course topics include detecting and fighting fraud in financial statements, the corporation, and other entities. There is a detailed examination of investigative auditing techniques, computers, criminology, and the relevant legal environment. Offered winter semester. Prerequisite: ACC 310 or equivalent.

### **ACC 611 - Contemporary Managerial Accounting (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Examines the use of information for cost management, decision-making, and performance evaluation and measurement. Topics include activity-based management, cost of unused resources, relevant costs for decision-making, productivity measurement, transfer pricing, theory of constraints, balanced scorecards, total quality management, and just-in-time. Offered fall and winter semesters. Prerequisite: Completion of M.B.A. or M.S.A. background equivalents.

### **ACC 612 - The Accountant's Legal Environment (3 credits)**

An intensive course in business law with emphasis on those subjects that relate to the accountant's legal environment, including accountant's legal liability, federal securities regulation, sales law, insurance suretyship, anti-trust law, secured transactions, bankruptcy, property law, etc. Offered winter semester. Prerequisite: ACC 310 or equivalent.

### **ACC 613 - Financial Statement Analysis (3 credits)**

The course focuses on financial performance analysis in the context of equity (share) valuation, with some attention given to credit analysis and the valuation of debt. Emphasis is placed on the persistence of earnings and the accounting choices made in financial statement preparation that affect earnings quality and comparisons. Offered fall and spring/summer semesters. Prerequisites: ACC 311 or equivalent, and completion of M.B.A. background equivalents.

### **ACC 615 - Entity Taxation-Theory and Practice (3 credits)**

Examination of the tax characteristics of various business entities, including the C and S corporation, partnerships, and limited liability companies. Topics covered include the tax consequences of forming, operating, and liquidating such business entities. Tax research and planning issues are also discussed. Course may not be taken for credit if student has received credit for ACC 318 or equivalent. Not available to M.S.T. students without permission of director of graduate programs. Prerequisite: ACC 212 or ACC 511 or equivalent.

### **ACC 616 - Structured Accounting Analytics and Emerging Technologies (3 credits)**

Development of skills and knowledge related to integration of information technology in accounting and business with a focus on structured accounting data creation, storage, analytics, and reporting within and across organizations. Prerequisite: ACC 340 or equivalent.

### **ACC 617 - International Accounting (3 credits)**

This course addresses accounting issues relevant to managers of a multinational company and to global investors. Topics include translation of foreign currency financial statements, accounting for foreign exchange derivatives, international financial reporting standards, comparative financial reporting, and corporate governance systems. Prerequisite: ACC 310 or equivalent.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ACC 618 - Advanced Accounting (3 credits)**

This course covers the theory, concepts, and methodologies underlying business combinations and consolidations, interim reporting, accounting for partnerships, and governmental and not-for-profit accounting. Offered fall and spring/summer semesters. Prerequisite: ACC 310 or equivalent.

## **ACC 620 - Accounting Theory (3 credits)**

This course examines the conceptual underpinnings of accounting thought and how accounting relates to valuation theory and capital markets. The role of accounting information is addressed from the points of view of management, auditors and investors. Additionally, selected topics are discussed. Offered fall and winter semesters. Prerequisites: ACC 613, ACC 616, ACC 617, and ACC 618. May be taken concurrently with any of these during the final semester.

## **ACC 622 - Tax Research and Writing (3 credits)**

Focuses on tools and techniques of tax research and the preparation of formal written communications common to tax practice. Emphasis on tax research methodology and skills in context of practical tax compliance and planning situations.

## **ACC 623 - Sales, Exchanges, and Other Property Dispositions (3 credits)**

Examines the federal income tax issues pertaining to the sale or exchange of property. Topics include like-kind exchanges, involuntary conversions, the disposition of a principle residence, the disposition of business assets, installment sales, unstated interest, and sale-leaseback transactions.

## **ACC 624 - Corporate Tax I (3 credits)**

Detailed analysis of the income taxation of corporations and their shareholders, including corporate formation, capital structure, dividends, and other nonliquidating distributions and stock redemptions. Also covered are subchapter S corporations and various penalties tax issues.

## **ACC 625 - Corporate Tax II (3 credits)**

Continues the discussion of the income taxation of corporations and their shareholders in Corporate Tax I. Includes corporate liquidations, liquidation of a subsidiary, taxable, and nontaxable acquisitive transactions including mergers and consolidations, and corporate divisions. Also judicial doctrines, affiliated corporations, and carryover of tax attributes. Prerequisite: ACC 624.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ACC 627 - Estate, Gift, and Trust I (3 credits)**

Examines the federal transfer tax system, including estate and gift tax statutes, regulations, rulings, and cases. Topics include the definition of a gift, disclaimers, the annual exclusion, calculation of gross estate, revocable transfers, jointly held property, annuities, powers of appointment, life insurance, the marital deduction, and valuation.

## **ACC 628 - Fiduciary Income Tax (3 credits)**

Examines the federal income taxation of trusts and estates and the generation-skipping transfer tax. Topics include entity classification, determination of distributable net income, simple trusts, fiduciary accounting income, the throwback rules, income in respect of a decedent, and the grantor trust rules. Prerequisite: Completion of M.S.T. background equivalents.

## **ACC 629 - Partnership Taxation (3 credits)**

Covers the federal taxation of partners and partnerships. Topics include formation and operation of a partnership including receipt of a partnership interest for services, liquidations and terminations, distributions and sales of a partnership interest, calculation of basis, and special basis adjustments. Decedent partner issues and LLCs are also covered.

## **ACC 630 - Multistate Taxation (3 credits)**

Conceptual issues and constitutional framework of multistate taxation are developed and explored. Current issues, including Michigan taxes, are presented.

## **ACC 631 - Employee Benefit Plans and Deferred Compensation (3 credits)**

Provides a survey of employee benefit plans and executive compensation under the Internal Revenue Code and ERISA, with an in-depth review of the requirements for qualified retirement plans, for welfare plans (medical, dental, vision, disability, etc.) and applicable federal mandates (COBRA, HIPAA, etc.), and for nonqualified and stock-based plans.

## **ACC 632 - Tax Accounting (3 credits)**

Covers fundamental concepts applicable to tax accounting methods and periods, and to consolidated income tax returns. Topics include income and expense recognition, the installment method, inventories, changes in accounting methods and periods, qualification and filing of consolidated tax returns, and intercompany transactions, distributions, and basis calculations.

## **ACC 633 - International Tax Practice (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

United States jurisdiction to tax on the basis of citizenship, source of income, and other minimum contacts required by international or constitutional law is treated, along with taxation of domestic corporations doing business abroad, entities that are either controlled foreign corporations or foreign personal holding companies, and the foreign tax credit. U.S. possession corporations, domestic international sales corporations, and tax treaties are also considered.

## **ACC 636 - Taxation Problems, Planning, and Current Issues (3 credits)**

Integrates the specific knowledge learned in the prior M.S.T. courses with sophisticated business/individual taxation problems. Students will be expected to research and defend their solutions to various taxation controversies. Last course prior to graduation. Prerequisites: ACC 622, ACC 624, ACC 627, and ACC 629.

## **ACC 639 - Federal Tax Practice and Procedure (3 credits)**

Course overviews federal tax practice and procedure under the Code and Regulations. Specific topics include tax return filing issues, interest and penalties, and assessment and collection of tax deficiencies. IRS audits, appeals, and enforcement activities are surveyed, as are the professional and practical requirements for practice before the IRS. Offered every other year. Prerequisite: ACC 622 or permission of the graduate business programs director.

## **ACC 640 - S Corp and Limited Liability Co Taxation (3 credits)**

Examines the federal tax issues of S corporations and limited liability companies. S corporation topics include eligibility and the S election, income taxation of the S corporation and its shareholders, determination of basis, and distributions. Limited liability company topics include formation, entity conversions, basis determinations, member taxation, distributions, and estate planning issues. Prerequisite: ACC 629 or permission of director.

## **ACC 641 - Advanced Estate and Gift Taxation (3 credits)**

The course focuses on more advanced transfer tax issues. Topics include estate and gift tax returns, discounts, the special valuation rules of Chapter 14, irrevocable life insurance trusts, gifting issues, the generation skipping tax, marital deductions, buy-sell agreements, family limited partnerships and charitable trusts. Prerequisite: ACC 627.

## **ACC 680 - Special Topics in Accounting (1 to 3 credits)**

Analysis and discussion of advanced topics, contemporary problems, new or controversial topics. Specific topics will reflect interest of students and instructors. Prerequisite: Permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ACC 690 - Accounting Internship (1 to 3 credits)**

Employment in an accounting capacity that is a new and significant experience for the student, including a minimum of 100 hours of work for every one credit of internship for a maximum of three credits. Students who have completed an internship at the undergraduate level will not be given credit for this course. The internship must be approved by the accounting chair.

Prerequisites: Admission to the M.S.A. program and completion of ACC 511 or the undergraduate equivalents, and at least one additional undergraduate or graduate accounting level course.

## **ACC 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **ACC 699 - Independent Study (1 to 3 credits)**

Independent research in the student's area of interest, supervised by a member of the Seidman College of Business faculty and culminating in a written and oral report. Written permission of supervising faculty required.

## **AFN 281 - Advocacy in Food and Nutrition (1 credit)**

This course will provide students with an overview of issues that impact America's nutrition and health status. History of food advocacy as a social movement and evaluation of advocacy activities will be covered. Students will be actively engaged in the development of an advocacy action plan. Offered winter semester.

## **AFN 300 - Food Protection Management (3 credits)**

This course will cover the historical development of food safety as a science, discuss human behavior and microbial issues resulting in food-borne illness, examine the intersection of food safety and food waste, and apply accepted food safety mechanisms (including allergen protection and identification) across various sectors. Prerequisite: BIO 120.

## **AFN 381 - Design Thinking in Applied Food and Nutrition (3 credits)**

Design thinking will be used to provide a solutions-based approach which allows the student to more fully examine difficult nutrition related issues. The students will seek to understand the user, challenge assumptions, and identify alternative strategies and solutions by working in teams in and outside of the classroom. Offered fall semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **AFN 400 - Applied Medical Nutrition Therapy (3 credits)**

Application of principles and techniques of nutrition care for patients at low to moderate nutrition risk. Includes practical application of evidence-based diets and menu editing for individuals with common chronic diseases. Nutrition screening, care planning for diagnosis and interventions, and evaluation for chronic diseases are included in the hybrid course. Offered winter semester. Prerequisites: BMS 105, BMS 250, BMS 251, and CHM 232.

## **AFN 401 - Emerging Issues in Food and Nutrition (2 credits)**

This course will review current issues in the economic, social, ethical, political, legal, technological, and ecological environment and the effect of these on dietetic-related practice. The course will prepare students for practice by discussing how food, nutrition and dietetic practice must adapt to a changing health landscape. Offered winter semester. Prerequisite: Admission to the applied food and nutrition program.

## **AFN 410 - Nutrition Care Delivery: Assessment, Implementation, and Evaluation (4 credits)**

This class provides didactic and experiential learning in three domains of nutrition care. Modules include nutrition care process, community-based intervention, and food service quality assurance and improvement. All modules relate to assessment of needs and evaluation of implementation using biometrics and documented outcomes. Offered winter semester. Prerequisite: Admission to the applied nutrition program.

## **AFN 416 - Applied Food and Culinary Science (3 credits)**

This course studies the scientific principles behind modern culinary techniques, with emphasis on preparation, nutrient quality, and health. Offered fall semester. Prerequisites: Admission to the applied food and nutrition program, AFN 300, and AFN 417.

## **AFN 417 - Food Service Practicum (1 to 2 credits)**

This course provides hands-on experiential learning in a variety of food systems management settings. Students will complete applicable competency standards required for eligibility to sit for the credentialing examination for Nutrition and Dietetic Technicians, Registered. Offered winter semester. Prerequisites: Admission to the applied food and nutrition program and AFN 300.

## **AFN 418 - Community Nutrition Practicum (1 to 3 credits)**

This course provides hands-on experiential learning in a variety of community settings. Students will complete competency standards in assessment, implementation, and evaluation of

community and population nutrition programs. Prerequisites: Admission to the applied food and nutrition program, BMS 304, AFN 400, and AFN 417.

### **AFN 419 - Clinical Nutrition Practicum (1 to 3 credits)**

This course provides hands-on experiential learning in a variety of clinical settings. Students will complete competency standards in application of the nutrition care process for individuals, including assessment, diagnosis, intervention, and monitoring and evaluation of care. Offered winter semester. Prerequisites: Admission to the applied food and nutrition program, AFN 400, and AFN 417.

### **AFN 460 - Nutrition Education with Vulnerable Populations (3 credits)**

This course will focus on building understanding and empathy for vulnerable populations in order to increase students' effectiveness in the provision of nutrition education to diverse groups. Topics will include behavior change strategies appropriate for various populations and the application of nutrition education delivery. Offered fall semester. Prerequisites: BMS 304 and COM 209.

### **AFN 495 - Applied Food and Nutrition Capstone (3 credits)**

This course will synthesize concepts from the applied food and nutrition core courses and enable students to write and present professional-quality communications. Through literature review, discussion, and research proposal development, emphasis will be placed on integrating knowledge and methods from other health and science-related disciplines with those from dietetics. Offered winter semester. Prerequisites: Senior standing and in the applied food and nutrition program.

### **AHS 100 - Medical Terminology (3 credits)**

This course offers a systematic approach to understanding medical terminology through the analysis and translation of medical terms. The focus is to enable students to practice and use this specialized language in preparation for work in the health care environment.

### **AHS 110 - Introduction to Health Care (3 credits)**

Provides students with an introduction to the U.S. health care system and health-related professions they might enter. Content includes how health care is provided in the U.S., organizations involved in providing health care, and an introduction to the various health professions that students may enter as a career. (2-1-0) Offered every semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **AHS 180 - Special Topics in Health Professions (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **AHS 301 - Introduction to Health Care Research (3 credits)**

Introduces students majoring in the health professions to the basic steps of conducting research, literature searching, critical reading of literature, experimental design, quantitative and qualitative data analysis, and scientific writing. Published literature relevant to the health professions will be analyzed. Students will write a variety of papers and reports. Offered every semester. Prerequisite: STA 215.

## **AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)**

This course presents an overview of the ethical and legal issues faced by health care consumers, practitioners, and administrators. Topics include professional and personal health care ethics, professional liability, consent, and medical records confidentiality (HIPAA, fraud, and abuse). Offered every semester.

## **AHS 330 - Health Care: A Global Perspective (3 credits)**

This course examines public health and its links between global health, social and economic development, and the impact on creating healthy societies. The course will provide students with an understanding of the risks that diseases pose to worldwide society and the burden of disease related costs on individual cultures. Part of the Globalization Issue. Offered every semester.

## **AHS 340 - Health Care Management (3 credits)**

An introduction to the basic concepts of health care management, including problem solving, planning, organization, motivation, leadership, and group process. Part of the Health Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **AHS 352 - Introduction to Holistic Health Care (3 credits)**

This course offers students the opportunity to critically examine holistic health beliefs and practices and their cultural position in American society. The philosophical and theoretical premises behind these beliefs and practices will be analyzed and compared to Western medicine and to one another. Part of the Health Issue. Offered every semester.

## **AHS 380 - Special Topics in Allied Health Science (1 to 12 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **AHS 480 - Special Topics in Allied Health Sciences (3 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of resource management. Prerequisites: Variable.

## **AHS 482 - Transcultural Health: China and U.S. (3 credits)**

Transcultural Health is designed to bring the student into a direct relationship with health care practices and attitudes from various cultural backgrounds. The course is presented as an immersion experience in, and examination of, health care clinics, practices, and classes from an international/domestic health care perspective.

## **AHS 490 - Health Care Internship (3, 6, or 12 credits)**

A structured learning opportunity for students to apply classroom knowledge in a health care setting. This internship is for students with a degree emphasis, other than histotechnology, and may be repeated up to six credits. The histotechnology emphasis requires a total of 24 credits and will also count as Capstone. Prerequisites: Junior standing, completion of 12 credits in the allied health sciences major, 2.5 GPA in major, and approval of internship by allied health sciences internship coordinator.

## **AHS 495 - Issues in Health Professions (3 credits)**

An overview of current issues impacting health care and health care delivery locally, nationally, and internationally. Students will be expected to synthesize materials learned in the health professions major core classes and cognates and to write and present professionally styled presentations. (3-0-0) Prerequisites: (AHS 301 or BMS 301 or PSY 300) and senior standing.

## **AHS 499 - Independent Study (1 to 3 credits)**

Students will complete a reading project or other approved activity building upon declared student interest. Tangible final product must be completed according to criteria developed by the student and the advisor. Prerequisites: One semester of professional curriculum and permission of professional curriculum director.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **AHS 580 - Special Topics in Allied Health Sciences (3 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of resource management. Prerequisites: Variable.

## **AHS 680 - Special Topics in Health Professions (3 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of resource management. Prerequisites: Variable.

## **AHS 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **AHS 699 - Independent Study (1 to 3 credits)**

Students will complete a reading project or other approved activity building upon declared student interest. Tangible final product must be completed according to criteria developed by the student and the advisor. Offered every semester. Prerequisites: Good standing after three semesters in one of the AHS professional programs and permission of the professional program director.

## **ANT 204 - Peoples and Cultures of the World (3 credits)**

Introduces the discipline of anthropology by examining the diversity of human cultures that have been described by anthropologists over the last 100 years. The principles of anthropology are explained with examples drawn from nonWestern culture. Comparisons are drawn with our own. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters.

## **ANT 206 - Human Origins (3 credits)**

Examines the dynamic interplay between human biology and culture through the study of human evolution. Grounded in the mechanisms of evolution, the class examines the emergence of our species and our relationship to nonhuman primates, among other topics. Fulfills Foundations - Life Sciences. Offered fall and winter semesters.

## **ANT 207 - Language and Culture (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Explores the interaction between language, communication, and culture, employing cross-cultural analysis to reveal cultural models and to understand how linguistic variation is linked to gender, age, region, ethnicity, and class. Several practical activities are used to apply analyses to anthropological problems. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - U.S. Diversity. Offered fall semester.

## **ANT 210 - History of Anthropological Theory (3 credits)**

Considers the major historical development and theoretical trends in anthropology since 1860. The approach is both topical and historical. Connections with developments in related disciplines are noted. Offered fall and winter semesters. Prerequisite: ANT 204 or ANT 206.

## **ANT 215 - Origins of Civilization (3 credits)**

This course examines the consequences of decisions made by our ancestors, the successes and failures of past civilizations, so that we may better understand our own behavior. Development of world civilizations is explored using historic, archaeological, and other perspectives that inform us about the past. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters.

## **ANT 220 - Introduction to Archaeology (4 credits)**

Introduction to the methods and techniques of archaeology, including the methods of excavation, analysis, dating techniques, and data presentation. Course has fieldwork opportunities and draws on examples from local and worldwide research. Fulfills one of the Foundations - Social and Behavioral Sciences. Offered fall and winter semesters.

## **ANT 305 - Methods in Biological Anthropology (3 credits)**

Overview of research methods used in biological anthropology, emphasizing living humans. It includes a discussion of current theoretical arguments within the field of physical anthropology and the techniques used to examine them. The course will introduce students to the process of research design, data analysis, and interpretation. Offered fall semester. Prerequisite: ANT 206.

## **ANT 307 - Field Techniques and Laboratory Methods in Anthropology (1 to 9 credits)**

Training in the application of research methods under field conditions to problems in major areas of anthropology; supervised instruction in anthropological laboratory techniques, including data collection and storage, analysis, and interpretation. Offered spring/summer semester. Prerequisite: Permission of instructor.

## **ANT 308 - Field Experience Abroad (1 to 6 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **ANT 311 - Native Peoples of North America (3 credits)**

A multifaceted examination of North American Indians and a comparison of that culture with the Americans'. Focus on origin, early history, and present disposition of American Indian populations. Fulfills Cultures - U.S. Diversity. Part of the Identity Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **ANT 312 - Human Osteology (4 credits)**

The course explores skeletal biology, growth and development, identification, and assessment of pathological and traumatic conditions. The course focuses on standard forms of data acquisition in traditional physical anthropology and for forensic anthropological applications, including bone identification, aging, sexing, stature, siding, biological affinity, pathology, taphonomy, trauma, and collection of metrics. Offered winter semester. Prerequisite: ANT 206.

## **ANT 313 - Primate Behavior and Ecology (3 credits)**

This course is an overview of the behavior of nonhuman primates within an ecological framework. Topics include a survey of living primates, constraints of body size on locomotion and diet, conservation, communication, conflict resolution, and the role of the environment in diet, on reproductive strategies, and in social interaction. Offered fall semester of odd-numbered years.

## **ANT 314 - Bioarchaeology (3 credits)**

Bioarchaeology is the study of human remains from archaeological settings. Its study encompasses the ethical treatment of human remains, reconstruction of patterns of subsistence, disease, activity, status, ethnicity, diet, and demography from the human skeleton to better understand the way that people chose to live in the past. Offered fall semester of even-numbered years. Prerequisite: ANT 206.

## **ANT 315 - Comparative Religions (3 credits)**

A cross-cultural study of contemporary religions. Examines the diversity of religious meanings through the lived experiences of cultures, traditions, and sects around the world. Exposes students to anthropological interpretations of religion through a range of methods, including ethnography. Themes include symbolisms, ritual, death, shamanism, healing, magic, pilgrimage, and interfaith movements. Fulfills Cultures - Global Perspectives. Part of the Identity Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ANT 317 - Advanced Cross-cultural Linguistics (3 credits)**

Survey and comparison of global linguistic diversity focusing on ways different cultures and languages represent, organize and express, through knowledge and emotion in life, political relations, rituals, and personal experience. Survey includes case studies from around the world with emphasis on languages and dialects other than standard English. Offered winter semester of even-numbered years. Prerequisite: ANT 207 or permission of instructor.

## **ANT 320 - Culture and Disease (3 credits)**

Introduces students to the anthropological study of disease ecology and medical systems cross-culturally. Explores the impact of disease, ecology, and sociocultural behavior throughout human evolution. Investigates the efficacy and nature of non-Western curing procedures and the cultural and psychodynamic features of illness. Part of the Health Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **ANT 325 - Archaeology of North America (3 credits)**

A survey of prehistoric developments from Alaska to Central America, including the Mesoamerican civilizations. Offered winter semester of even-numbered years. Prerequisite: ANT 220 or ANT 215 or instruction permission.

## **ANT 330 - Anthropology of Selected World Areas (3 credits)**

Current topics and methodology will be examined within one anthropological subdiscipline from the perspective of a particular geographic area. Focus will be on the fundamental question: What does anthropology contribute in terms of our understanding of people and cultures? Students may repeat provided each repeat is for a different area.

## **ANT 340 - Culture and Environment (3 credits)**

Compares different adaptive strategies of cultures from around the world and seeks understanding of ethical and social values different groups have related to the environment. Attention is focused on how humans relied on cultural mechanisms in the past to adapt and change their physical and natural environment. Fulfills Cultures - Global Perspectives. Part of the Sustainability Issue. Offered fall and winter semesters. Prerequisites: Junior standing, fulfillment of general education Foundations - Writing, and either Historical Perspectives or U.S. Diversity.

## **ANT 345 - Perspectives on Globalization (3 credits)**

The anthropology of globalization examines the emergence of "globalized local cultures." Students employ the ethnographic approach to understand globalization as the intensification of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

interconnectedness, in which anthropologists learn that fundamental problems of deep and universal concern to humans everywhere will need to be addressed at local, national, and global levels. Offered fall semester of even-numbered years. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Prerequisite: Junior standing.

### **ANT 350 - Archaeology of Mid-East (3 credits)**

The Middle East is recognized as the birthplace of several major cultural traditions. This course examines the evidence of archaeology that informs us on the origins and settlement of the Middle East from at least one million years ago to the seventh century A.D. from the perspective of cultural ecology. Offered winter semester of odd-numbered years. Prerequisite: ANT 215 or ANT 220 or MES 201 or prior approval of the instructor.

### **ANT 370 - Cross-cultural Perspectives on Gender (3 credits)**

Examines gender as a fundamental organizing theme of culture. Also emphasizes the sociocultural basis for gender differences using a cross-cultural and comparative approach. Discusses how gender relations affect all other aspects of human life. Offered winter semester of even-numbered years. Prerequisite: ANT 204 or ANT 206.

### **ANT 375 - Language, Identity, and Diversity (3 credits)**

Examines how language reflects and constitutes social identity and hierarchy. Language variation, with respect to place, gender, sexuality, class, race, and ethnicity, is explored in U.S. and global contexts from multiple disciplinary perspectives. Students learn to critically analyze their own and others' unique speaking and writing practices and related identities. Fulfills Cultures - U.S. Diversity. Part of the Identity Issue. Offered fall semester. Prerequisite: Junior standing.

### **ANT 380 - Special Topics in Anthropology (3 credits)**

A series of courses providing an in-depth study of a problem in anthropology and the methods of investigating it. Various topics of cross-cultural interest, such as human evolution, peasant cultures, preliterate societies, kinship pattern, and culture and personality will be examined. Offered on sufficient demand.

### **ANT 399 - Independent Readings (1 to 3 credits)**

Independent supervised readings in selected topics. A student may take only one reading course for one to three credits per semester. No more than six hours of ANT 399 and ANT 499 combined may count toward a major or three hours combined toward the minor. Offered every semester. Prerequisites: ANT 204 or ANT 206 and the written consent of the instructor before registration.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ANT 400 - Ethnographic Methods (3 credits)**

Students will examine and evaluate the practice of anthropological ethnography through hands-on exercises, collaborative workshops, discussions on conducting ethnographic field research, ethics, and applications of responsible ethnographic research. Through in-class simulations and assignments, students will develop skills in participant observation techniques, taking ethnographic field notes, conducting interviews, and recording and transcribing discourse. Offered winter semester. Prerequisite: ANT 204 or SOC 101 or CJ 101 or permission of the instructor.

## **ANT 405 - Contemporary Anthropological Theory (3 credits)**

This course surveys contemporary topics in anthropological theory. Included is an overview of current issues, topics and debates in archaeology, physical/biological, sociocultural, and linguistic anthropology. Students will gain an understanding of recent trends in anthropology and the trajectory of the discipline. Connections with developments in related disciplines are noted. Offered fall and winter semesters. Prerequisites: ANT 210 and senior standing in anthropology.

## **ANT 420 - Applied Anthropology (3 credits)**

The course engages students in contemporary anthropological practice. Students explore applied anthropology through anthropological theories, methods and practices for engaging communities and addressing "real world" problems. Topics may include the history of engaged anthropology, public and advocacy anthropology, action/participatory research, and the ethical issues of engagement and social change. Offered fall semester. Prerequisites: ANT 204 and junior standing.

## **ANT 421 - Anthropology of Social Movements (3 credits)**

This course overviews a wide range of processes and practices related to social movements, and anthropology's central role in expanding the definition of collective resistance beyond the scope of formalized protest (and strategic outcomes) to include and examine everyday forms and lived experience of resistance and dissent. Part of the Human Rights Issue. Offered winter semester. Prerequisite: Junior standing.

## **ANT 430 - Issues in Contemporary Anthropology (3 credits)**

This course is an upper-division examination of contemporary issues being explored in the field of anthropology. Topics may include advanced theory, controversies in the discipline, methodological questions and changing approaches to anthropological research. Offered fall semester. Prerequisites: ANT 210 and one of the following ANT 204 or ANT 206 or ANT 215; and junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ANT 431 - Historical Perspectives in Anthropology (3 credits)**

Students will explore historical, theoretical, and methodological developments from an anthropological perspective, focusing on trends in interpretation of material culture, cultural resources management, experimental archaeology, and the contribution of anthropology to understanding major social issues. Students will critically examine the practice and application of anthropological research from a historic perspective. Offered winter semester of even years. Prerequisites: Two upper-division anthropology courses.

## **ANT 490 - Practicum: Career-Service (1 to 9 credits)**

Agency experience in the community relating practical training and independent study in a specialized area. Limited to 10 credits maximum. Offered every semester. Graded credit/no-credit. Prerequisites: 15 hours of course preparation and permission of instructor.

## **ANT 495 - Practicing Anthropology (Capstone) (3 credits)**

Provides students with a broad and comprehensive perspective on the fundamental assumptions and issues in anthropology. Emphasis on the application of anthropological knowledge to solve social problems. Given the diverse dimensions of current trends in anthropology, students will work to establish their particular interests with the field. Offered fall and winter semesters. Prerequisites: Senior standing in anthropology and ANT 405.

## **ANT 498 - Honors Research in Anthropology (3 credits)**

Original research conducted individually with faculty supervision, based on a formal proposal. Project is the culmination of undergraduate research incorporating anthropological theory, methodology, data collection, and analysis. Research will be presented in a public forum. Syllabus and guidelines for honors research available from faculty. Offered every semester. Prerequisites: Acceptance of formal written proposal and permission of faculty member.

## **ANT 499 - Independent Study and Research (1 to 4 credits)**

Research conducted individually with faculty supervision. Attention given to written and oral presentation of research findings. A student may take only one independent study per term. No more than six hours of ANT 399/ANT 499 may count toward a major or three hours of ANT 399/ANT 499 toward the minor. Offered every semester. Prerequisites: Nine hours in the department and written permission of instructor before registration.

## **ARA 101 - Beginning Arabic I: Language and Culture (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An introduction to the Arabic language and to the cultures of the Arabic-speaking world. Practice in speaking, listening, reading, and writing at the beginning level. Supplemented by multimedia and the Language Resource Center. Offered fall semester.

## **ARA 102 - Beginning Arabic II: Language and Culture (4 credits)**

Continuation of ARA 101. Practice in speaking, listening, reading, and writing at the beginning level. Arabic culture integrated throughout. Supplemented by multimedia and the Language Resource Center. Offered winter semester. Prerequisite: C (not C-) or better in ARA 101 or credit.

## **ARA 180 - Special Topics in Arabic (1 to 4 credits)**

Expectations of students approximate those in other 100-level courses. May be repeated when content differs. Offered on sufficient demand.

## **ARA 201 - Intermediate Arabic I: Language and Culture (4 credits)**

Continuation of ARA 102. Practice in speaking, listening, reading, and writing at the intermediate level. Arabic culture integrated throughout. Supplemented by multimedia and the Language Resource Center. Students who did not complete ARA 102 at GVSU are strongly encouraged to take the free placement test in the Language Resource Center prior to registering. Counts toward the Arabic minor. Offered fall semester. Prerequisite: C (not C-) or better in ARA 102 or credit.

## **ARA 202 - Intermediate Arabic II: Language and Culture (4 credits)**

Continued practice in speaking, listening, reading, and writing at the intermediate level. Review of grammar and expansion of vocabulary. Focus on Arabic culture through authentic texts and multimedia materials. Continuation of ARA 201. Students who did not complete ARA 201 at GVSU are strongly encouraged to take the free placement test in the Language Resource Center prior to registering. Counts toward the Arabic minor and the Middle East studies minor. Fulfills Cultures - Global Perspectives. Offered winter semester. Prerequisite: C (not C-) or better in ARA 201, or credit, or appropriate placement test score.

## **ARA 280 - Special Topics in Arabic (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Course content varies. Expectations of students approximate those in other 200-level courses. May be repeated when content differs. No more than four credits can be applied to the minor or major. Offered on sufficient demand.

### **ARA 285 - Colloquial and Media Arabic (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

### **ARA 301 - Arabic Conversation (3 credits)**

This course provides extensive practice in colloquial Arabic, with a focus on every day practical language. The course also provides a brief overview of major dialects and their relationship to Modern Standard Arabic. Students are trained to recognize and use various layers of Arabic in their proper cultural context. Offered winter semester of even-numbered years. Prerequisite: ARA 102 or permission of instructor.

### **ARA 302 - Arabic Composition (3 credits)**

The course is intended to develop skills in writing correct Arabic sentences, paragraphs, and longer texts relating to various topics. Review of Arabic grammar through an analysis of various Arabic texts. Offered winter semester of odd-numbered years. Prerequisite: ARA 102 or permission of instructor.

### **ARA 310 - Media Arabic (3 credits)**

This course provides extensive practice in comprehending Media Arabic, including print and nonprint materials. The course trains students both in the idiom of the news media, but also in the broader media output, including cultural materials, songs, and how news is portrayed in various cultural contexts. Offered fall semester of odd-numbered years. Prerequisite: ARA 102 or permission of instructor.

### **ARA 312 - Contemporary Arabic Culture (3 credits)**

This course explores aspects of contemporary Arabic culture through a variety of Arabic materials, including autobiographies, literature (poetry, fiction, and drama), film, and music. Offered fall semester of even-numbered years. Prerequisite: ARA 102 or permission of instructor.

### **ARA 330 - Arab Identity in Literature and Culture (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course examines the complexities of forming, constructing, and shaping Arab identity within a vast Arab world. Such complexity will be examined through written and oral accounts, audio and visual sources, and literary authors from the Arab world. All materials read in English translation. Does not count toward Arabic minor. Part of the Identity Issue. Cross-listed with MES 330. Offered fall and winter semesters. Prerequisite: Junior standing.

### **ARA 380 - Special Topics in Arabic (1 to 4 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program. Offered on sufficient demand.

### **ARA 386 - Arabic through Culture and Customs (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

### **ARA 480 - Special Topics in Arabic (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 400-level courses. May be repeated when content differs. Offered on sufficient demand.

### **ARC 400 - Archaeological Methods and Research Design (3 credits)**

Provides advanced study of the practical and methodological aspects of research in archaeology. Students will learn how to develop independent projects and embed them in multistage regional research. Prerequisites: ANT 220 and one area course in archaeology (ANT 325, ANT 350, CLA 350).

### **ARC 401 - Archaeological Theory (3 credits)**

The history and evolution of archaeology and its theoretical frameworks are examined in a lecture/seminar/discussion format. The role and implications of theory in archaeological practice are explored from its origins to the present, emphasizing processual, postprocessual, and contemporary theoretical debate, ethics, and professionalism. Prerequisites: ANT 220, junior standing, and one regional archaeology course (ANT 325, ANT 350, CLA 350).

### **ARC 499 - Independent Study in Archaeology (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ART 101 - Introduction to Art (3 credits)**

Introduction to the visual arts. Examination of creative, social, historical, and aesthetic aspects of selected works of art. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **ART 149 - Introduction to Visual Composition (3 credits)**

Explores two-dimensional composition by applying visual elements and design principles. All work is computer generated. It is designed for any student outside the Department of Visual and Media Arts who requires or seeks a background in composition. Art majors and minors must take ART 150. Offered fall and winter semesters.

## **ART 150 - Foundations: 2-D Design (3 credits)**

Explores the theories and concepts of two-dimensional art forms. Basic visual design principles, their application, and comparison of contemporary and historical examples are presented through lectures and slides and applied to studio problems. Offered fall and winter semesters.

## **ART 151 - Foundations: 3-D Design (3 credits)**

Fundamentals of design with an emphasis upon projects that develop the language of art as applied to three-dimensional forms in space. Offered fall and winter semesters.

## **ART 152 - Foundations: Color and Design (3 credits)**

Fundamentals of design using more complex themes and including an in-depth study of color theory. Offered fall and winter semesters. Prerequisite: ART 150.

## **ART 153 - Foundations: Making and Meaning in Art and Design (3 credits)**

This course entails investigating contemporary practices of art and design, studying how images and objects acquire meaning, experimenting with basic studio processes, and learning to use digital media in combination with traditional media in making art. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **ART 155 - Foundations: Introduction to Drawing I (3 credits)**

A study of fundamental pictorial concepts of drawing. Experimentation with varied technical means and media directed toward both descriptive and expressive ends. Offered fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ART 157 - Foundations: Introduction to Drawing II (3 credits)**

A continuation of techniques and media from Introduction to Drawing I. Offered fall and winter semesters. Prerequisite: ART 155.

## **ART 159 - Drawing Fundamentals (3 credits)**

Drawing course designed for nonart and design majors and minors outside of the Department of Visual and Media Arts. Students will learn how to create observational and expressive drawings using the elements and principles of art, and how to develop ideas for drawing. Art and design majors/minors must take ART 155. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **ART 209 - Graphic Design Basics (3 credits)**

The course is designed for any nongraphic design student who requires or seeks an overview of the graphic design process and its application in visual composition, symbol development, typography, and layouts. Students produce solutions to visual communication problems and learn to articulate and present effectively their design choices. Offered fall and winter semesters.

## **ART 210 - Graphic Design I (3 credits)**

Extension of basic art and design fundamentals into a graphic design context, including computer-generated imagery. Stress is placed on problem solving through typographic imaging and the union of text and image. Offered fall semester. Prerequisite: Admission to graphic design.

## **ART 211 - Graphic Design II (3 credits)**

Graphic design is explored in its broadest applications, including symbology and logo design. Students learn to create visual messages that are aesthetically appealing as well as informative. Offered winter semester. Prerequisite: ART 210.

## **ART 212 - Graphic Design for Illustrators (3 credits)**

An introduction to printing methods, typography, layout, and paper choices as they relate to creating self-promotional materials and illustrations that print successfully. Offered winter semester.

## **ART 215 - Advanced Typography (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An application of typographic principles to applied communication design projects of increased formal and intellectual complexity. Increased awareness of the emotional properties of typography and the relation to message is emphasized. This course may be repeated once for credit. Offered winter semester. Prerequisite: ART 210.

## **ART 218 - Design History (3 credits)**

The history of design from the Industrial Revolution to the present. Discussions of the politics and ethics of design. Offered fall and winter semester.

## **ART 221 - Survey of Art History I (3 credits)**

A survey of art history from prehistoric times to the Renaissance. Offered fall semester.

## **ART 222 - Survey of Art History II (3 credits)**

A survey of art history from the Renaissance to the present day. Offered winter semester.

## **ART 231 - Integrating the Visual Arts Across Disciplines (3 credits)**

Art-based inquiry as an integrative approach to teaching in PK-6. Connections among art and other content areas emphasized to develop interdisciplinary approaches with a focus on big ideas and their relationships to the world through problem-solving, creative inquiry, and art-based activities. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **ART 245 - Introduction to Jewelry and Metalsmithing (3 credits)**

A study of the fundamentals of metalsmithing: fabrication techniques, surface embellishment, simple stone setting, and finishing placed within a conceptual context. Offered fall and winter semesters.

## **ART 257 - Life Drawing (3 credits)**

A continuation of techniques and media from Introduction to Drawing, with emphasis on the human figure. Offered fall and winter semesters. Prerequisite: ART 157.

## **ART 258 - Intermediate Drawing (3 credits)**

An exploration of pictorial concepts in drawing in a variety of media with the emphasis upon individual expression. Offered winter semester. Prerequisite: ART 157.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ART 260 - Introduction to Painting (3 credits)**

A painting course designed for art majors and nonart majors. Fundamentals of painting in opaque media with a variety of subjects and styles. Fulfills Foundations - Arts.

## **ART 265 - Introduction to Printmaking (3 credits)**

Experimentation with varied techniques and with different composition ideas related to some fundamental forms of printmaking. Work with wood/linoleum cut, intaglio, and collagraph. Offered fall and winter semesters.

## **ART 270 - Introduction to Sculpture (3 credits)**

A hands-on studio course designed for art majors and nonart majors. Introduction to basic sculpture techniques (mold making, metal working, wood working, and sewing). Creative project topics include lost wax bronze casting, found object assemblage, soft sculpture, and fibers. Critical thinking skills and studio safety will also be covered. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **ART 271 - Digital 3-D Modeling and Design (3 credits)**

A computer-based studio course designed for art majors and nonart majors. Introduction to basic digital fabrication techniques (3-D solid digital modeling and rendering, laser cutting, 3-D printing, and 3-D scanning). Creative project topics include prototypes and inventions, hybrids, digital artifice, and public art proposals. Fulfills Foundations - Arts. Offered fall semester.

## **ART 275 - Introduction to Ceramics (3 credits)**

A ceramics course designed for art majors and nonart majors. All basic ceramics (hand-building) techniques, glazing, and concepts relating to ceramics and pottery. Included will be historical background, some clay geology, clay making, and kiln loading and unloading. All other general studio practices and safety will also be covered. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **ART 280 - Special Topics in Art and Design (3 credits)**

A course built around a special project or media with limited or topical significance and offered on a very limited basis.

## **ART 281 - Introduction to Illustration (3 credits)**

An overview of the illustration field covering historical and contemporary perspectives, aesthetic sensitivity, and professional practicality. Offered fall semester. Prerequisite: Admission to illustration.

## **ART 307 - Digital Prepress (3 credits)**

This course is an in-depth exploration into the methods of commercial printing and corresponding software packages. This course will aid students in understanding how to manipulate digital technology and conventional printing techniques to their advantage, to increase the quality of their work utilizing this knowledge. Offered fall semester. Prerequisite: ART 211.

## **ART 310 - Graphic Design III (3 credits)**

An advanced studio course covering principles that guide the development of creative solutions for educational and communication design. The student learns to manipulate typography, symbolism, illustration, and photography in a given space, which may take the form of advertisements, newspapers, periodicals, books, annual reports, signs, or direct mail. Offered fall semester. Prerequisite: ART 211.

## **ART 312 - Graphic Design IV - Experience Design (3 credits)**

An advanced course to acquaint students with professional and technological components of creating and publishing interactive and motion programs. Includes an in-depth exploration of website design including interactivity, navigational systems, motion and typography, integrating both design methodologies and information architecture. Offered winter semester. Prerequisite: ART 310.

## **ART 313 - 3-D for Graphic Design (3 credits)**

Introduction to the fundamental development of dimensional construction which refines and integrates many design principles. Imaginative use of materials and surface graphics as well as marketing and production problems are explored. Offered winter semester. Prerequisite: ART 210.

## **ART 322 - Goths to Gothic: Medieval Art (3 credits)**

A thematic examination of the arts and visual culture created between the 6th and 15th centuries in Europe and the broader Mediterranean. Explores diverse media in relation to their political, religious, and social contexts. Also considers 19th century and contemporary reception of medieval art and ideas. Fulfills Cultures - Global Perspectives. Offered fall semester of even-numbered years.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ART 323 - Rethinking Renaissance Art (3 credits)**

Thematic examination of the visual arts produced between 1400 and 1650 focusing on intersections between Europe, Africa, and the Americas. Topics include the artist and society, civic and domestic contexts for the arts, and the representation of self and community. Explores concepts of Renaissance art in later eras. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Offered winter semester of odd-numbered years. Prerequisite: Junior standing.

## **ART 327 - Art Since 1945 (3 credits)**

This course highlights important moments of modernist and contemporary aesthetic development from the mid-20th century to the present. Offered winter of even-numbered years. Prerequisite: ART 222 or junior standing.

## **ART 332 - Introduction to Art Education (3 credits)**

An introduction to the field of art education, including the study of its historical, sociological, and theoretical foundations and their effect on its practice in the K-12 classroom. Offered fall semester. Prerequisites: ART 152 and ART 157.

## **ART 333 - Curriculum Development and Practice (3 credits)**

This course, designed for art education majors, provides experience in curriculum and teaching portfolio development, as well as classroom observation to provide the future art teacher with a firm foundation for teaching in the K-12 classroom. Offered winter semester. Prerequisite: ART 332.

## **ART 335 - Digital Creativity (3 credits)**

This course is a hands-on studio course that provides basic skills and an understanding of computer technology in the creative process. Emphasized exploration of digital media concepts and methods for supporting creativity through examination of the themes and issues in contemporary arts and culture. Part of the Information, Innovation, or Technology Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **ART 345 - Relevant Skills for the Jeweler (3 credits)**

An overview of the skills needed to function in the retail and wholesale jewelry industry. The course will cover such topics as stone setting, fabrication, assembly of standardized findings, rebuilding, restoring and repairing of various jewelry types. Sales and situational challenges of working with customers will be addressed. Offered fall semester every other year. Prerequisite: ART 245 or permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ART 346 - Intermediate Jewelry and Metalsmithing I (3 credits)**

The study of casting, related production techniques, mold making, gypsy stone setting, and die forming with continued stress on fabrication techniques and increased emphasis on the exploration of conceptual issues. Offered winter semester. Prerequisite: ART 245.

## **ART 347 - Intermediate Jewelry and Metalsmithing II (3 credits)**

The study of raising (angle and anticlastic), forging, patination, hinges, connections and findings, and introduction to specialized equipment placed with the context of personal exploration and research. Offered fall semester. Prerequisite: ART 245.

## **ART 350 - Learning to See: Visual Training for the Health Care Professional (3 credits)**

Interactive studio art course that trains visual thinking and analysis skills used in health care settings. Designed for the health care professional but open to all. Discussion, drawing, writing, meditation, visual training related to diagnostic thinking. No previous art experience or skill necessary. Part of the Health Issues. Offered fall and winter semesters. Prerequisite: Junior standing.

## **ART 355 - Advanced Drawing I (3 credits)**

Advanced exploration of drawing techniques with emphasis upon personal expression. Offered fall and winter semesters. Prerequisite: ART 258.

## **ART 356 - Advanced Drawing II (3 credits)**

Advanced exploration of drawing techniques with emphasis upon personal expression. Offered fall and winter semesters. Prerequisite: ART 355.

## **ART 361 - Intermediate Painting I (3 credits)**

Intermediate projects using a variety of styles, subjects, and techniques. Offered fall and winter semesters. Prerequisite: ART 260.

## **ART 362 - Intermediate Painting II (3 credits)**

Intermediate projects using a variety of styles, subjects, and techniques. Offered fall and winter semesters. Prerequisite: ART 361.

## **ART 366 - Intermediate Printmaking I (3 credits)**

A continuation of ART 265. Color and scale and combining printmaking media are emphasized. Offered fall and winter semesters. Prerequisite: ART 265.

## **ART 367 - Intermediate Printmaking II (3 credits)**

A continuation of ART 366. Color and scale and combining printmaking media are emphasized. Offered fall and winter semesters. Prerequisite: ART 366.

## **ART 368 - Alternative Photographic Print Processes (3 credits)**

An introduction to photographic-based printmaking processes such as cyanotype, polymer photogravure, and photo-stencil silkscreen. Emphasis is on the technical and aesthetic mastery of these media for the development of the student's creative visual work. Cross-listed with PHO 368. Offered fall semester.

## **ART 371 - Intermediate Sculpture 1: Fabrications (3 credits)**

Emphasis placed on techniques and concepts related to fabrication. Additive processes with wood and metal (wood joinery and construction, metal welding and finishing, surface treatments) are learned in conjunction with their application to projects exploring ideas related to fabricating such as function, invention, movement, narrative, and imagination. Offered winter semester.

## **ART 372 - Intermediate Sculpture 2: Replications (3 credits)**

Emphasis is placed on techniques and concepts related to replication. Molding and casting processes with clay, plaster, rubber, plastic, and metal are learned in conjunction with their application to projects exploring ideas related to multiples, hybrids, and questions of authenticity and originality. Offered fall semester.

## **ART 376 - Intermediate Ceramics 1: Wheel Throwing (3 credits)**

Beginning work on the potter's wheel. Basic throwing techniques, porcelain and white earthenware added to basic stoneware and terracotta. Colored clays, low fire glazing, under and overglazing and extended forming techniques not covered in ART 275 included. Firing theory and practice for gas kilns required. Offered winter semester. Prerequisite: ART 275.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ART 377 - Intermediate Ceramics 2: Voice/Concept (3 credits)**

Students will work on large-scale sculptures, while pursuing their own ideas. Students will work in small series of ideas and begin to research and explore concepts that are important to them. Students who wish to continue throwing must apply the same practice and research as students pursuing sculptural form. Offered fall and winter semesters. Prerequisite: ART 275.

## **ART 380 - Special Topics in Art and Design (1 to 3 credits)**

A course built around a special project or media with limited or topical significance and offered on a very limited basis. Students must seek special permission of the instructor for entry into any ART 380 course. Offered on sufficient demand.

## **ART 381 - Intermediate Illustration I (3 credits)**

Fundamentals of illustration with an emphasis on digital imaging methods. Offered winter semester. Prerequisite: ART 281.

## **ART 382 - Intermediate Illustration II (3 credits)**

Fundamentals of illustration with an emphasis on realistic representation. Offered fall semester. Prerequisite: ART 381.

## **ART 385 - Figure Painting (3 credits)**

Introduction to painting the figure, with an emphasis on perceptual accuracy. Offered winter semester. Prerequisite: ART 260.

## **ART 386 - Art History Study Abroad (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

## **ART 387 - Studio Art Abroad (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

## **ART 391 - Civic Studio (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Visual art methods are used to study, form, and present art in a specific public context. Includes the development of a project site, individual and collaborative work, and service learning. Studio operates "in public" presenting lectures, visual displays, and public gatherings. Part of the Identity Issue. May be repeated once for credit. Offered winter semester. Prerequisite: Junior standing.

## **ART 392 - Curatorial Studio (3 credits)**

Curatorial Studio explores presentational and critical practice and the theoretical discourse specific to such practice within a studio context. This involves the curation (study and creation of visual presentations) in exhibitions or projects. Part of the Information, Innovation, or Technology Issue. Offered fall semester. May be repeated once for credit. Prerequisite: Junior standing.

## **ART 393 - Image Studio (3 credits)**

Image studio explores the creation, use, and presentation of images and the theoretical discourse specific to such practices within a studio context. The studio incorporates uses of current image creation and presentation technologies. May be repeated once for credit. Offered fall semester.

## **ART 394 - Interactive Studio (3 credits)**

Interactive Studio addresses the study and creation of art works in which the audience is involved in an interactive exchange. Media explored include interactive situations, community collaborations, social/political interactions, and current electronic interactive interfaces. May be repeated once for credit. Part of the Information, Innovation, or Technology Issue. Offered winter semester. Prerequisite: Junior standing.

## **ART 395 - Space Studio (3 credits)**

Space Studio addresses the creation of site-specific works based in the primary form and experience of space typically referred to as installations. It includes studio considerations of space, site, installation, public art, presentational practices and the related theoretical discourse within a studio context. May be repeated once for credit. Offered winter semester.

## **ART 396 - Time Studio (3 credits)**

Time Studio explores temporal and presentational practices and the theoretical discourse specific to such practices within a studio context. Time-based works include time and change as central elements. This includes ephemeral and kinetic objects, performance, sound works, and works incorporating moving images. May be repeated once for credit. Offered fall semester.

## **ART 399 - Independent Readings in Art (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A course giving students with special interests an opportunity to explore texts, periodical, and reference materials under the guidance of an art faculty member. Offered fall and winter semesters. Prerequisite: Permission of the instructor.

## **ART 401 - Senior Seminar (3 credits)**

For studio artists and designers about to enter graduate school or professional design studios. Includes a required three-day field trip to Chicago, information concerning resume preparation, exhibitions, interviewing, portfolios, design agencies, galleries, museums, and analysis of the professional literature through written assignments. Students will learn how the professional art world works. Offered fall semester. Prerequisites: Art major and senior standing.

## **ART 410 - Graphic Design V (3 credits)**

Advanced layout problems involving brochures, annual reports, and corporate identity packages, as well as introduction to mixed media presentations. Stress is on individually conceived and developed projects. Offered fall semester. Prerequisites: ART 312 and passage of Junior Review.

## **ART 413 - Portfolio (3 credits)**

Refinement and development of a body of work constituting a professional portfolio. Offered fall semester. Prerequisite: ART 312 or ART 382.

## **ART 415 - Senior Project: Graphics/Illustration (3 credits)**

Development of a body of work focusing on a specific aspect of graphic design or illustration in which the student wishes to specialize. The work will be shown along with the student's portfolio at the senior show. Offered fall and winter semesters. Prerequisite: ART 410 or ART 483.

## **ART 420 - Asian Art (3 credits)**

This course will survey the visual arts of India, China, and Japan, focusing on the relationship between visual form and cultural ideology. Offered fall semester of odd-numbered years. Prerequisites: ART 221 and ART 222, or junior standing.

## **ART 421 - Surrealism (3 credits)**

This course provides an in-depth investigation of the Surrealism movement, addressing its artistic, historical, political, philosophical, and psychological implications. Offered winter of odd-numbered years. Prerequisite: ART 222 or junior standing.

## **ART 422 - Art and the Worlds of Islam (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Examines the arts and material culture produced in Islamic contexts between the 7th century and the present. Themes include patronage, materials, reception, cultures in contact, and plurality of meaning, as well as colonial and postcolonial circumstances. Also explores the work of contemporary artists in relation to transnational contexts. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Offered winter semester of even-numbered years. Prerequisite: Junior standing.

## **ART 423 - Animals in Art (3 credits)**

This class explores representations of animals and their varied functions in the visual arts. Using a thematic approach, the course considers works from prehistory to the present, incorporating imagery from cultural traditions throughout the world. Offered fall semester of even-numbered years. Prerequisite: Junior standing.

## **ART 425 - Depicting a Nation: 19th Century American Art (3 credits)**

A thematic approach to 19th century American arts and visual culture. Considers individual artists, but stresses works and their cultural contexts. Topics include portraiture, westward expansion, and the Civil War, as well as the role of visual culture and concepts of gender, race, ethnic identity, and socioeconomic class. Fulfills Cultures - U.S. Diversity. Offered fall semester of odd-numbered years. Prerequisite: ART 222 or junior standing.

## **ART 447 - Advanced Jewelry and Metalsmithing I (3 credits)**

The focus at this level is on ideas that challenge traditionally held concepts and perceptions in the search of a personal interpretation. Technical and material concerns will be addressed as needed for realization of the work. Work should begin to show a cohesive idea. Offered fall and winter semesters. Prerequisite: ART 347.

## **ART 448 - Advanced Jewelry and Metalsmithing II (3 credits)**

The focus of this course is the demonstration of the use of knowledge of metalsmithing materials, techniques, and design concepts to explore new ground and ask new questions in a search for a personal statement. A body of work exploring a particular idea is required. May be repeated for credit. Offered fall and winter semesters. Prerequisite: ART 447.

## **ART 462 - Advanced Painting I (3 credits)**

A continuation of ART 361 with advanced and more individual problems. Offered fall and winter semesters. Prerequisite: ART 362.

## **ART 463 - Advanced Painting II (3 credits)**

A continuation of ART 362 with advanced and more individual problems. May be repeated for credit. Offered fall and winter semesters. Prerequisite: ART 462.

## **ART 467 - Advanced Printmaking I (3 credits)**

A continuation of ART 367 with additional emphasis on quality printing, experimental printing, and content issues. Offered fall and winter semesters. Prerequisite: ART 367.

## **ART 468 - Advanced Printmaking II (3 credits)**

A continuation of ART 467 with additional emphasis on quality printing, experimental printing, and content issues. Course may be repeated for credit. Offered fall and winter semesters. Prerequisite: ART 467.

## **ART 472 - Advanced Sculpture 1 (3 credits)**

Builds on previous courses by emphasizing development of individual areas of creative investigation that combine material and conceptual concerns. Focus may be placed on a topic of sculptural relevance not previously covered (installation, public art, new media, etc.). Readings, presentations, and class trips relating to contemporary art complement studio work. Offered fall and winter semesters. Prerequisites: ART 371 and ART 372.

## **ART 473 - Advanced Sculpture 2 (3 credits)**

Continued focus on development of individual areas of creative investigation that combine material and conceptual concerns. Students work toward increasingly independent work and decision-making processes. Expectations for material and idea development are very high. Studio work is complemented with readings, presentations, and class trips relating to contemporary art. May be repeated for credit. Offered fall and winter semesters. Prerequisite: ART 472.

## **ART 477 - Advanced Ceramics 1 (3 credits)**

Students continue to develop their own concepts and methods for making them. They will do background research and develop artist mentors important to their work. The work should take on stronger suggestion of personal voice in this course. Students may pursue mixed media and found object additions for their work. Offered fall and winter semesters. Prerequisite: ART 377.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ART 478 - Advanced Ceramics 2 (3 credits)**

Students continue to define concepts with further individuality and creative solutions to forming, surface resolution, mixed media, combinations, installation and conceptual work. They may begin work for ART 498 if they are ready. Includes further reading and research in their areas of interest. ART 478 may be repeated for credit. Offered fall and winter semesters. Prerequisite: ART 477.

## **ART 479 - Glaze Calculation (3 credits)**

Students will learn ceramic materials that constitute general formulation of glazes at the temperature of stoneware and porcelain. They will mix tests, fire them and come to understand and recognize basic glaze components. Students will make test tiles and sample glaze batches. They will analyze and compare formula variations. Offered fall of odd-numbered years. Prerequisite: ART 376 or ART 377 or ART 477.

## **ART 482 - Advanced Illustration I (3 credits)**

Development of a personal style of illustration supported by an examination of historical trends. Offered winter semester. Prerequisite: ART 382.

## **ART 483 - Advanced Illustration II (3 credits)**

Development of personal styles of illustration supported by an examination of contemporary trends. Offered fall semester. Prerequisite: ART 482.

## **ART 490 - Internship in Art History (1 to 6 credits)**

This course involves placement in a position off campus in which the student gains professional experience in an institution such as an art museum. Internship arrangements follow campus policy and students must receive faculty permission before enrolling in the course. Offered every semester.

## **ART 491 - Internship in Studio Art (1 to 6 credits)**

A special study opportunity that allows for advanced students to work for academic credit in a professional shop, gallery, or studio. Internships are prearranged by the department, are limited in number, and follow prescribed campus internship policy. Offered on sufficient demand. Graded credit/no-credit. Prerequisite: Permission of department.

## **ART 495 - Issues in Art (Capstone) (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A seminar composed of lectures, discussions, papers, and assigned readings intended to give the student an understanding of his or her own place as a visual artist in the historical, social continuum of our time. Offered fall and winter semesters. Prerequisite: Senior standing in B.A., B.S., or B.F.A. program.

## **ART 498 - Senior Project (6 credits)**

This course is the final work toward the B.F.A. Senior Exhibition and must be taken in the semester in which students hang their degree shows. Students will work closely with their major professor in their emphasis area, and may have an additional course assigned from their Junior Review. Students must seek the advice of their major professor for the selection of works for their exhibition. They may also seek advice of any other faculty members with whom they have worked or from whom they would like additional feedback. Offered fall and winter semesters.

## **ART 499 - Independent Study in Art (1 to 6 credits)**

Advanced and independent work for students who have exhausted a regular course sequence and who wish to pursue a specialized project or medium under the guidance of the faculty. B.A. and B.S. students may not use ART 499 to fulfill their 45-credit major requirement. Offered fall and winter semesters. Prerequisite: Prior arrangement with a specific faculty member.

## **ASL 201 - American Sign Language 1 (3 credits)**

This is the first introductory course for sign vocabulary and grammar, nonverbal grammatical elements, and fingerspelling. Required for students planning to enroll in the American sign language (ASL) interpreting emphasis. Open to all students interested in learning ASL. Offered every semester.

## **ASL 202 - American Sign Language 2 (3 credits)**

Taught as an immersion course in American sign language (ASL), the medium of classroom instruction is ASL. This is the second of the three ASL immersion courses required for students planning to enroll in the American sign language interpreting emphasis. Open to all students interested in learning ASL. Offered each semester. Prerequisite: ASL 201.

## **ASL 203 - American Sign Language 3 (3 credits)**

A culmination of the three-semester introductory sequence of American sign language (ASL). Students will have mastery of basic ASL at the conclusion of this course. Required for students planning to enroll in the American sign language interpreting emphasis. Open to all students interested in learning ASL. Offered each semester. Prerequisite: ASL 202.

## **ASL 380 - Special Topics in American Sign Language (1 to 9 credits)**

Consideration of selected topics not ordinarily dealt with in other courses. Consult class schedule for specific topics. Offered occasionally.

## **ASL 421 - Deaf History and Culture (3 credits)**

The course gives students opportunities to understand basic concepts of American deaf history, to appreciate the culture of deaf people and to understand social and cultural factors causing diversity in the deaf community and in identity choice. Part of the Identity Issue. Offered fall semester. Prerequisite: Junior standing.

## **ASL 423 - ASL Interpreting Practicum (6 credits)**

This course is the second of two practicum experiences. Practicing sign language interpreters will supervise and teach students refined skills needed to be successful professionals in a variety of work settings. Offered winter semester.

## **ATH 210 - Directed Observation in AT (1 credit)**

A required directed observation experience for students wanting to apply to the athletic training education program at Grand Valley State University. Students will observe in a variety of athletic health care settings including clinical, high school, and collegiate settings followed by in-class discussions related to the observations and important entry-level athletic training topics. Prerequisite: MOV 101.

## **ATH 217 - Modern Principles of Athletic Training (2 credits)**

This course provides students with basic knowledge of the prevention, recognition, and management of conditions commonly experienced in a physically active population. Focus will also be on introducing students to the concept of evidence-based practice as it relates to decision-making.

## **ATH 218 - Modern Principles of Athletic Training Lab (1 credit)**

This course will provide laboratory experiences commonly experienced in athletic health care settings. Students will be introduced to basic preventative measures including taping, wrappings, and equipment fittings; basic injury evaluations; and management techniques to include basic

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

splinting and spine-boarding techniques. Offered every semester. Prerequisite: ATH 217 (may be taken concurrently).

## **ATH 506 - Intervention and Referral (2 credits)**

Discussion and literature review of critical issues related to psychosocial intervention and referral. Moral and ethical concerns related to these issues are explored. Prerequisite: Admission into the Master of Athletic Training.

## **ATH 514 - Assessment and Evaluation I (4 credits)**

Provides the necessary background to conduct a thorough clinical evaluation of lower extremity injuries, including related diagnostic testing. Students will formulate an impression of the injury/condition for the purposes of initial treatment and medical referral. Prerequisite: Admission into the Master of Athletic Training.

## **ATH 515 - Assessment and Evaluation II (4 credits)**

Provides the necessary background to conduct a thorough clinical evaluation of upper extremity and head and neck injuries/conditions, including diagnostic testing. Students will formulate an impression of the injury/condition for the purposes of initial treatment and medical referral. Prerequisite: ATH 514.

## **ATH 521 - Athletic Training Clinical I (3 credits)**

The first of four clinical experiences. The course requires students to be on-site at local clinical settings, while also having an in-class component to support and supplement their experiential learning. Emphasis is placed on interprofessional standards, health care administration, wound care, injury assessment, treatment, and equipment fitting and bracing/strapping. Prerequisite: Admission into the Master of Athletic Training.

## **ATH 522 - Athletic Training Clinical II (3 credits)**

The second of four clinical experiences. The course will require students to be on-site at local clinical settings, while also having an in-class component to support and supplement their experiential learning. Emphasis is placed on epidemiology, exercise and its role in fitness and wellness, injury assessment, and treatment. Prerequisite: ATH 521.

## **ATH 523 - Methods of Evidence-Based Practice in Athletic Training (3 credits)**

This course will introduce students pursuing the profession of athletic training to a clinical problem-solving approach common to the health professions. Fundamentals of evidence-based

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

practice, including utilizing research and appraising data will be used to answer clinically relevant questions in athletic training. Offered fall semester. Prerequisite: Admission into the Master of Athletic Training.

## **ATH 525 - Prehospital Care of the Injured Patient (4 credits)**

This course will teach appropriate responses to common emergent injuries and illnesses that athletic trainers will be exposed to in the clinical environment; including hands-on experience in the evaluation and treatment of both chronic and traumatic conditions. Prerequisite: Admission into the Master of Athletic Training.

## **ATH 530 - General Medical Conditions in Athletic Training (3 credits)**

A lecture course taking a systems approach to identifying and exploring the many conditions and diseases that athletic trainers may see in clinical practice. Knowledge of physical examination, diagnostic testing, patient monitoring, standard techniques, and procedures are applied to clinical decision-making. Offered winter semester. Prerequisite: Admission into the Master of Athletic Training.

## **ATH 575 - Therapeutic Interventions I (4 credits)**

Concepts and practical applications of therapeutic interventions. A comprehensive examination of therapeutic modalities and rehabilitation techniques used in recovery from common musculoskeletal injuries especially in the early stages of rehabilitation. Students will identify physiological effects of tissue trauma and develop an appropriate plan with special emphasis on modality application. Offered spring/summer semester. Prerequisite: ATH 515.

## **ATH 607 - Pharmacology in Athletic Training (3 credits)**

A lecture course designed to introduce athletic training students to the principles of pharmacology and pharmacological aspects of the major classes of drugs used in the treatment of injury and disease. Moral and ethical concerns related to these issues are explored. Offered fall semester. Prerequisites: BMS 310 or equivalent and admission into the Master of Athletic Training.

## **ATH 626 - Athletic Training Clinical III (4 credits)**

The third of four clinical experiences. The course requires students to be on-site at local or distance clinical settings, while also having an in-class component to support and supplement their experiential learning. Emphasis is placed on injury/illness assessment, therapeutic

intervention, psychosocial intervention and referral, pharmacology, and professional issues. Prerequisite: ATH 522.

## **ATH 628 - Athletic Training Clinical IV (4 credits)**

The last of four clinical experiences. The course requires students to be on-site at local or distance clinical settings, while also having an in-class component to support and supplement their experiential learning. Emphasis is placed on injury/illness assessment, therapeutic intervention, advanced techniques, and professional issues with certification exam preparation. Prerequisite: ATH 626.

## **ATH 675 - Therapeutic Interventions II (4 credits)**

The second of two courses exploring the concepts and practical applications of therapeutic interventions in athletic training. A comprehensive examination of therapeutic modalities and rehabilitation techniques used for common musculoskeletal injuries. Students will determine a rehabilitation plan consistent with patient-centered and functional outcomes. Emphasis will be on the rehabilitation process. Offered fall semester. Prerequisite: ATH 575.

## **ATH 685 - Advanced Techniques in Athletic Training (2 credits)**

A course that integrates advanced theoretical principles of athletic training into current clinical practice. Students will demonstrate their ability to analyze and synthesize research evidence while addressing various issues within the athletic training profession. Information will be reinforced and supported by current evidence-based practice standards. Offered fall and winter semesters. Prerequisite: ATH 626.

## **ATH 689 - Professional Topics in Athletic Training (3 credits)**

Professional topics in athletic training including leadership, strategic planning, organization and administration, and legislative issues will be discussed to prepare the entry-level athletic trainer to practice effectively in a variety of health care settings. Prerequisite: ATH 626.

## **ATH 693 - Project in Athletic Training (1 to 3 credits)**

Students complete a master's level project that requires them to demonstrate and apply skills learned in the athletic training program. This project may involve conducting a case study, systematic review, or original group research that will be orally presented at its completion. Guided by faculty mentors. Offered fall and winter semesters. Prerequisite: ATH 523.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ATH 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **BIO 104 - Biology for the 21st Century (4 credits)**

Introductory course for non-science majors designed to provide a biological literacy for making informed personal, social, and environmental decisions. Topics include cell biology, genetics and biotechnology, form and function of the human body, evolution and ecology. Does not count toward a biology major or minor. Fulfills Foundations - Life Sciences with a lab. Offered every semester.

## **BIO 105 - Environmental Science (3 credits)**

Study of natural ecosystems, their interrelationships, and human impacts and evolution of humans and environmental determinants of their cultures. Land use, resource and energy utilization, population trends and causative factors, air and water pollution, and economic factors influencing decision-making are emphasized. Does not count toward a biology major or minor. (3-0-0) Fulfills Foundations - Life Sciences. Offered every semester.

## **BIO 107 - Great Lakes and Other Water Resources (4 credits)**

A study of our region's water resources, including the Great Lakes, streams, and groundwater, and relationships between people and these systems. Does not count toward a biology major or minor. Designated lecture and laboratory sections are tailored for prospective elementary teachers. Fulfills Foundations - Life Sciences with a lab. (3-0-3) Offered fall semester.

## **BIO 109 - Plants in the World (4 credits)**

A nonmajors course that looks at the ways plants are used by humans as foods, flavorings, fibers, medicines, building materials, etc. Topics include biotechnology, environmental issues, and population issues. Fulfills Foundations - Life Sciences with a lab. (3-0-2) Offered fall and winter semesters.

## **BIO 120 - General Biology I (4 credits)**

Introduction to cell structure and physiology, growth and development, and genetics (3-0-3). Offered every semester. Fulfills Foundations - Life Sciences with a lab. Prerequisites: High school chemistry, CHM 109, or CHM 115 strongly recommended (CHM 109 or CHM 115 may be taken concurrently). For students with a strong science background or interest in science.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BIO 121 - General Biology II (4 credits)**

Students will be introduced to the diversity of living organisms, emphasizing fundamental biological processes operating at the scale of individual organisms. Form and function of organisms will be studied in ecological and evolutionary contexts. Students will explore and apply experimental design and quantitative analysis of data within these contexts (3-0-3). Offered every semester. Prerequisite: MTH 110 or higher (may be taken concurrently).

## **BIO 180 - Special Topics in Biology (1 to 4 credits)**

Readings, lecture, discussions, lab, or field experience (or any combination) on a specific biological topic. Prerequisites: Variable.

## **BIO 205 - Genetics for PK-6 Teachers (3 credits)**

Concepts of heredity for pre-service teachers emphasizing human traits. Includes Mendelian and non-Mendelian genetics, structure and replication of DNA, protein synthesis, and characteristics of cells. Course is for science concentration in PCKET major. Does not fulfill requirements for biology major or minor. Content reflects national and Michigan science standards. (1-0-2) Offered fall and winter semesters. Prerequisite: SCI 225.

## **BIO 210 - Evolutionary Biology (3 credits)**

Principles and mechanisms of the evolution of living organisms. Provides an understanding of evolutionary biology as the foundational underpinning of all of biology. Offered fall and winter semesters. Prerequisites: BIO 120 (or both CMB 155 and CMB 156) and BIO 121.

## **BIO 215 - Ecology (4 credits)**

Ecologists study how nature functions. Students will explore emergent properties of natural systems on scales ranging from individuals to ecosystems, and study the application of ecological principles to environmental problems caused by global climate change and other anthropogenic disturbances. Intended for biology and natural resources management majors. (3-0-3) Offered fall and spring/summer semesters. Prerequisites: BIO 120 (or both CMB 155 and CMB 156) and BIO 121 (BIO 120 may be taken concurrently).

## **BIO 222 - Natural History of Vertebrates (3 credits)**

A study of taxonomy, ecology, life histories, behavior, and distribution of vertebrates, with special emphasis on those of the local region. (2-0-3). Offered fall semester. Prerequisite: BIO 121.

## **BIO 232 - Natural History of Invertebrates (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Anatomy, physiology, embryology, evolution, and natural history of the major groups of invertebrate animals. Those of the Great Lakes region will be emphasized. (2-0-3) Offered winter semester. Prerequisite: BIO 121.

### **BIO 243 - Plant Identification and Natural History (3 credits)**

Examines the plants of West Michigan with emphasis on identification skills and natural history of the plants and communities in which they occur. Offered spring/summer semester. Prerequisite: BIO 121.

### **BIO 272 - Insect Biology and Diversity (3 credits)**

Anatomy and physiology, life histories, ecology and evolution, and classification of insects. Students will also gain expertise in the collection, curation, and identification of local insects. (2-0-3) Offered fall semester. Prerequisite: BIO 121 (BIO 215 recommended).

### **BIO 280 - Special Topics in Biology (1 to 4 credits)**

Readings, lecture, discussions, lab, or field experience (or any combination) on a specific biological topic. Prerequisites: variable.

### **BIO 302 - Comparative Vertebrate Anatomy (4 credits)**

Phylogeny and anatomy of vertebrates. (2-0-4) Offered winter semester. Prerequisite: BIO 121.

### **BIO 303 - Plant Morphology (4 credits)**

An in-depth study of the morphological evolution of land plants emphasizing key anatomical and reproductive adaptations to the terrestrial environment. Offered winter semester. Prerequisite: BIO 215.

### **BIO 308 - Wildlife Ecology (4 credits)**

This course provides an introduction to wildlife ecology including population ecology as it relates to wildlife management and conservation. Offered winter semester. Prerequisite: BIO 215.

### **BIO 309 - Plants and Human Health (3 credits)**

Examination of plants and fungi that are sources of medicines, herbal remedies, or are a regular part of people's diets and have been found to have specific health benefits. Only one of BIO 309,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 311, or BIO 329 may be counted toward a biology major or minor. Part of the Health Issue. Offered fall and winter semesters. Prerequisites: Junior standing and completion of the Life Sciences general education category.

## **BIO 311 - Who's Running Your Life: Genes, Evolution and Behavior (3 credits)**

The vast majority of human evolutionary history occurred while we lived in small hunter-gatherer groups. This course will examine if our genetically determined behavior from the past is still affecting us today. Only one of BIO 309, BIO 311, or BIO 329 may be counted toward a biology major or minor. Part of the Identity Issue. Prerequisites: Junior standing and completion of the Life Sciences general education requirement.

## **BIO 313 - Plants and Islands (4 credits)**

Explores the various roles of plants in island systems and their evolutionary histories and adaptations to these unique environments. This course has a required multiday field study in a coastal or international island setting. Offered winter semester. Prerequisites: BIO 121 and permission of instructor. BIO 215 is strongly recommended.

## **BIO 317 - Principles of Animal Nutrition (3 credits)**

The course covers basic principles of animal nutrition with a primary emphasis on agricultural animals and practices. Topics include analysis of foodstuffs, ration formulation, feeding, digestion, comparative anatomy of animal GI tracts, absorption and metabolism of the various food nutrients, measurement of body needs, and characteristics of nutrients. Offered winter semester. Prerequisites: BIO 120 (or both CMB 155 and CMB 156), CHM 115, and CHM 116.

## **BIO 319 - Global Agricultural Sustainability (3 credits)**

The expansion and collapse of societies throughout history has tracked the rise and fall of their agricultural productivity. We will explore how biological principles dictate long-term agricultural productivity and how knowledge of such principles can impact decisions of consumers, farmers, and policy makers. Part of the Sustainability Issue. Prerequisites: Junior standing and completion of the general education Life Science requirement.

## **BIO 323 - Aquatic and Wetland Plants (3 credits)**

Examines the plants and algae of the major aquatic habitats of the Great Lakes region with emphasis on taxonomy and ecology. Offered fall semester. Prerequisite: BIO 121.

## **BIO 325 - Human Sexuality (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduction to the biological dimensions of human sexuality from physiological, ecological, and evolutionary perspectives. Part of the Health Issue. (3-0-0) Offered each semester. Prerequisite: Junior standing.

### **BIO 328 - Biomedical Ethics (3 credits)**

Examination of ethical dilemmas encountered in medicine and biomedical research, with an emphasis on obligations of health care workers to their patients. Biology majors may not use both BIO 328 and BIO 338 as elective credit within the major. Part of the Health Issue. (3-0-0) Offered every semester. Prerequisite: Junior standing.

### **BIO 329 - Evolution of Social Behavior (3 credits)**

Social behavior links to an animal's quest for evolutionary fitness. Social behavior is rooted in genes, and shaped by development, learning, and environment. Through interdisciplinary lenses, we will explore social behavior in diverse vertebrate and invertebrate species, discover behavioral commonalities among species, and learn how scientists study animal behavior. Part of the Identity Issue. Prerequisite: Junior standing. One course in biology or psychology recommended.

### **BIO 333 - Systematic Botany (4 credits)**

Principles and methods of taxonomy of vascular plants. Offered fall semester. Prerequisite: BIO 121.

### **BIO 338 - Environmental Ethics (3 credits)**

Examines philosophical underpinnings of environmental ethics. Explores approaches for understanding sustainability issues, solving ongoing environmental problems, and developing a global environmental ethic. Biology majors may not use both BIO 328 and BIO 338 as elective credit within the major. Part of the Sustainability Issue. Prerequisites: Junior standing and fulfillment of general education Foundations - Writing.

### **BIO 342 - Ornithology (3 credits)**

Identification, classification, anatomy, physiology, behavior, and life histories of birds. (2-0-3) Offered winter and occasional spring/summer semesters. Prerequisite: BIO 121.

### **BIO 352 - Animal Behavior (3 credits)**

Behavior of invertebrates and vertebrates with emphasis on adaptive significance. (2-0-3) Offered winter semester. Prerequisites: Two courses in biology or psychology or permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BIO 355 - Human Genetics (3 credits)**

Principles of genetics with emphasis on human traits and disorders. Genetic counseling, ethical considerations, technological advances, and evolution in human populations are discussed. Will not count toward the biology major without permission. (3-0-0) Offered every semester. Prerequisite: BIO 120 (or both CMB 155 and CMB 156) or BIO 104, or permission of instructor.

## **BIO 357 - Environmental Microbiology (4 credits)**

An introduction to microbiology emphasizing the role of microorganisms in the environment. Surveys microbial lifestyles and the roles of microorganisms in food, water, soil, and industrial microbiology, and in nutrient recycling and energy flow. Will not substitute for BMS 212 and BMS 213. (3-0-3) Offered fall semester. Prerequisite: BIO 120 (or both CMB 155 and CMB 156), or permission of instructor.

## **BIO 362 - Biology and Diversity of Fishes (4 credits)**

Study of the anatomy, morphology, and classification of fishes and their biology, ecology, and evolution. Emphasis on species native to the Great Lakes region. (3-0-3) Offered fall semester. Prerequisite: BIO 215.

## **BIO 370 - Marine Biology (3 credits)**

An exploration into the function, biodiversity and ecology of life in the ocean - the largest of Earth's ecosystems. Marine biology will emphasize principles and processes that underlie and unify vastly different marine communities through ecological and evolutionary perspectives. Offered fall semester. Prerequisites: BIO 121 and BIO 215.

## **BIO 375 - Genetics (3 credits)**

Concepts of inheritance in plants, animals, and micro-organisms; both classical and modern investigative techniques are emphasized in lecture. (3-0-0) Offered fall and winter semesters. Prerequisite: BIO 120 (or both CMB 155 and CMB 156).

## **BIO 376 - Genetics Laboratory (1 credit)**

Laboratory exercises in classical and modern genetics. (0-0-3) Offered fall and winter semesters. Prerequisite: BIO 375 or BIO 355 (either may be taken concurrently).

## **BIO 380 - Special Topics in Biology (1 to 4 credits)**

Readings, lecture, discussions, lab, or field experience (or any combination) on a specific biological topic. Prerequisites: Variable and with permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BIO 383 - Plant-Fungal Interactions (4 credits)**

Overview of diverse plant-fungal symbiotic relationships from mutualistic to parasitic. Topics include the ecology, evolution, morphology, physiology, and development of plant-fungal associations spanning fungal diversity. Students will gain experience identifying fungi and researching plant-fungal interactions. Offered fall semester of even-numbered years.

Prerequisite: BIO 121.

## **BIO 386 - Ecological Restoration and Management (4 credits)**

This course will introduce students to ecological restoration and examines the practical methods and techniques used in ecosystem restoration and management. Cross-listed with NRM 386.

Offered fall semester. Prerequisite: BIO 215.

## **BIO 396 - Laboratory Assistant in Genetics (1 credit)**

This course provides an opportunity for students to assist genetics laboratory instructors while reinforcing their understanding of introductory genetic concepts and relevant experimental techniques. May be repeated, but only one credit may be applied toward the biology major electives requirements. Prerequisites: BIO 376 with a grade of B or better and permission of instructor.

## **BIO 399 - Selected Experiences in Biology (1 to 4 credits)**

Supervised independent laboratory, field, or other scholarly activity in biology. Topic and amount of credit must be arranged with faculty member and approved by department chair before registration. May be elected for up to five credits toward a biology degree. Offered every semester. Prerequisite: Permission of department chair.

## **BIO 402 - Aquatic Insects (3 credits)**

Advanced study of taxonomic diversity and ecology of aquatic insects, with emphasis on the fauna of local lakes and streams. The role of aquatic insects in stream function and bioassessment will be emphasized. Students will gain expertise in the scientific collection, curation, and identification of aquatic insects. (2-0-3) Cross-listed with BIO 502. Offered winter semester. Prerequisites: BIO 121 and BIO 215.

## **BIO 403 - Plant Structure and Function (4 credits)**

Anatomy and physiology of plants, including interrelationships of structure and function in growth, flowering, seed germination, photosynthesis, respiration, water relations, and mineral

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

nutrition. (3-0-2) Offered winter semester. Cross-listed with BIO 503. Prerequisites: BIO 120 (or both CMB 155 and CMB 156); and BIO 121; and CHM 231 or CHM 241.

## **BIO 407 - Biology and Society: Study Abroad (1 to 4 credits)**

Biological topics related to biodiversity, sustainability, alternative energy, environmental policy and economics, land use, climate change, historical influences, and cultural/societal attitudes conducted within an international context. The society-based experience is combined with readings, lectures, papers, and discussions.

## **BIO 408 - Wildlife Management (4 credits)**

An examination of techniques used in the management, research, and conservation of wildlife species. Introduces the fundamental concepts of wildlife management, including wildlife habitat requirements, evaluation of habitat suitability, interpretation of data analysis techniques, and applied techniques of habitat and population management. Cross-listed with BIO 508, NRM 408, and NRM 508. Offered fall semester. Prerequisite: BIO 308 or NRM 308.

## **BIO 412 - Mammalogy (4 credits)**

A survey of the class mammalia. Topics will include mammalian evolution, zoogeography, ecology, physiology, natural history, and behavior with emphasis on Michigan mammals. Students will gain practical experience in the techniques of field study, identification, and preservation of mammal specimens. (3-0-3) Cross-listed with BIO 512. Offered fall semester. Prerequisites: BIO 121 and BIO 215.

## **BIO 413 - Freshwater Algae (3 credits)**

Detailed study of the freshwater algae of the Great Lakes region. Topics will include the morphology, ecology, physiology, and evolutionary relationships of the major groups. Methods of collection will also be presented, and considerable emphasis given to identification of the regional flora. (2-0-4) Cross-listed with BIO 513. Offered winter semester. Prerequisites: BIO 121 and BIO 215.

## **BIO 415 - Fire Ecology and Management (3 credits)**

An examination of fire as an ecological and biophysical process, its interactions with and effects on a variety of ecosystem components, and use as a resource management tool. A National Wildfire Coordinating Group Certification (RX - 310 Introduction to Fire Effects) is granted upon successful course completion. Cross-listed with NRM 415, BIO 515, and NRM 515. Offered winter semester. Prerequisite: BIO 215.

## **BIO 416 - Advanced Genetics Laboratory (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Experiments with both prokaryotic and eukaryotic organisms will involve techniques of gene induction, ELISA, DNA extraction, isolation and cloning, transformation, protein translation and analysis of genes ligated into expression vectors. (0-0-4) Offered winter semester. Prerequisites: BIO 376; BIO 411 or BIO 414 recommended (may be taken concurrently).

## **BIO 417 - International Field Biology (1 to 4 credits)**

One- to three-week trips to international locations to study the fauna, flora, ecology of representative ecosystems, climate, geology, paleobiology, environmental problems, and/or human impacts upon the previously listed. The field-based experience is combined with readings, lectures, papers, and discussions. A maximum of six credits from BIO 417 may be applied to the elective credit requirements for the biology or NRM major. BIO 417 does not satisfy the plant or animal biology requirements, but may be repeated for credit. Offered every semester. Prerequisites: Variable and with permission of instructor.

## **BIO 422 - Embryology (3 credits)**

Development in animals from formation of gametes and fertilization through embryogenesis and birth or hatching to adulthood. Emphasis is on process and molecular control. Standard model organisms are studied in the laboratory component. (3-0-3) Cross-listed with BIO 522. Offered fall semester. Prerequisites: (BIO 121 or BMS 208 or BMS 250) and (BIO 355 or BIO 375), or permission of instructor.

## **BIO 423 - Plant Biotechnology (3 credits)**

Study of plant development and its control by hormones, environment and genome, and introduction to current techniques and topics in plant biotechnology, such as another culture, protoplast preparation and fusion, embryogenesis, organogenesis, genetic transformation, and developmental mutants. (2-0-2) Offered winter semester. Prerequisite: BIO 376.

## **BIO 430 - Advanced Wildland Fire Management (2 credits)**

This course provides students with advanced skills and knowledge related to wildland- and prescribed-fire ecology, behavior, and management. This is advanced training for all personnel seeking to become Wildland Firefighters under National Wildfire Coordinating Group (NWCG) certification standards. NWCG certification S-290 is granted upon successful course completion. Class is credit/no-credit. Cross-listed with NRM 430. Offered winter and spring/summer semesters. Prerequisite: NRM 230.

## **BIO 432 - Comparative Animal Physiology (4 credits)**

Functions of the organ systems of animals, including their regulatory mechanisms. (3-0-3) Offered fall semester. Prerequisites: (BIO 121 or BMS 208); BIO 120 (or both CMB 155 and CMB 156); and CHM 232 or CHM 242.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BIO 433 - Plant Ecology (4 credits)**

Exploration of plant adaptations and environmental processes governing species distribution and demography, community richness and structure, and ecosystem processes. Offered fall semester. Prerequisites: BIO120 (or both CMB 155 and CMB 156), BIO 121, and BIO 215.

## **BIO 440 - Limnology (4 credits)**

Ecology of freshwater ecosystems with emphasis on the physical, chemical, and biological factors affecting their structure and function. (2-0-4) Cross-listed with BIO 540. Offered fall semester. Prerequisite: BIO 215 or permission of instructor.

## **BIO 444 - Herpetology (4 credits)**

An overview of the biology and global diversity of amphibians and reptiles. Topics include amphibian and reptile evolution, morphology, physiology, ecology, behavior, and conservation. Students will gain field experience and learn to identify amphibians and reptiles, with emphasis on Michigan species. Cross-listed with BIO 544. Offered fall semester. Prerequisite: BIO 215.

## **BIO 451 - Stream Ecology (4 credits)**

Examines the structure and function of stream ecosystems, with emphasis on the physical, chemical, and biological factors that influence flowing-water habitats. Laboratory focuses on the methods of stream ecology, including collection and analysis of physical, chemical, and biological data. Field work emphasizes local stream ecosystems. (3-0-4) Offered every second fall semester. Cross-listed with BIO 551. Prerequisites: BIO 121 and BIO 215 or permission of instructor.

## **BIO 452 - Human Evolution (3 credits)**

An examination of the fossil, genetic, and behavioral evidence of human evolution within a Darwinian evolutionary perspective. (3-0-0) Offered fall semester of odd-numbered years. Prerequisites: BIO 120 (or both CMB 155 and CMB 156) and BIO 121; or ANT 206; or permission of instructor.

## **BIO 460 - Terrestrial Ecosystem Ecology (4 credits)**

Investigation of the structure and function of terrestrial ecosystems using a systems approach. Biotic and abiotic processes controlling interactions among biogeochemical cycles in ecosystems will be discussed and examined. Topics will include controls on primary production, evapotranspiration, decomposition, and herbivory, as well as potential for anthropogenic changes in ecosystem processes. (3-0-3) Offered fall and occasional spring/summer semesters. Prerequisite: BIO 215; NRM 281 recommended.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BIO 470 - Conservation Biology (3 credits)**

Theoretical concepts and research applications in the multidisciplinary and applied science of maintaining the planet's biodiversity at the genetic, species, and ecosystem levels. Topics include distribution, functions, and value of biodiversity; causes and consequences of biodiversity loss; conservation solutions; and social, political, legal, ethical, and economic aspects of biodiversity conservation. Cross-listed with BIO 572. Offered fall semester. Prerequisite: BIO 215.

## **BIO 473 - Ecology and Evolution of Plant-Animal Interactions (3 credits)**

An examination of the evolution and ecology of plant-animal interactions, focusing on herbivory, pollination, fruit and seed dispersal in both natural and agroecosystems. Course consists of lectures, presentations, and discussions of the primary literature. Suitable for advanced undergraduate and graduate students. Cross-listed with BIO 573. Offered winter semester of even-numbered years. Prerequisite: BIO 215.

## **BIO 475 - Population Genetics (3 credits)**

This course explores the theory and application of genetic mechanisms of inheritance to evolutionary biology. We will use evolutionary models to understand patterns of genetic variation within and between populations. Cross-listed with BIO 575. Offered fall of even-numbered years. Prerequisites: BIO 210 and (either BIO 355 or BIO 375), or by instructor's permission.

## **BIO 480 - Special Topics in Biology (1 to 4 credits)**

Readings, lecture, discussions, lab, or field experience (or any combination) on a specific biological topic. Prerequisites: Variable.

## **BIO 485 - Molecular Ecology (3 credits)**

This course provides an in-depth exploration of the integrative field of molecular ecology, which uses molecular genetic tools to study ecology and evolution. Concepts/theories are introduced in lecture and through discussion of scientific literature. Hands-on experience with analysis of genetic data is provided in computer laboratories. Cross-listed with BIO 585, CMB 485, and CMB 585. Offered winter semester. Prerequisite: BIO 375.

## **BIO 486 - Restoration Ecology (3 credits)**

This course will introduce students to the science of restoration ecology through an examination of underlying theories and contemporary research in ecosystem restoration. Cross-listed with

BIO 586, NRM 486, and NRM 586. Offered winter semester of even-numbered years.  
Prerequisites: BIO 215 and junior standing; or permission of instructor.

## **BIO 490 - Internship (1 to 6 credits)**

Practical and applied biology carried out as independent study in specialized areas of biology. Such work will be carried out under the supervision of a faculty advisor and a supervisor at the institution where the work is done. May be elected for up to six credits toward the major.  
Prerequisites: Major in biology and permission of the department chair.

## **BIO 495 - Perspectives in Biology (Capstone) (3 credits)**

Through literature review and discussion, students examine fundamental principles that drive biological inquiry, such as, the mechanisms determining phenotype, principles of ecological organization, and evolutionary change. Students complete a synthetic project, explore their own knowledge and skills, and develop effective communication and information literacy skills. (3-0-0) Offered fall and winter semesters. Prerequisite: Senior standing.

## **BIO 499 - Research in Biology (1 to 4 credits)**

Can be elected for up to five credits toward the biology major. Number of credit hours and topic to be arranged with faculty member involved. Offered every semester. Prerequisites: A minimum grade point average of 3.0 in biology and permission of the department.

## **BIO 502 - Aquatic Insects (3 credits)**

Advanced study of taxonomic diversity and ecology of aquatic insects, with emphasis on the fauna of local lakes and streams. The role of aquatic insects in stream function and bioassessment will be emphasized. Students will gain expertise in the scientific collection, curation, and identification of aquatic insects. (2-0-3) Cross-listed with BIO 402. Offered winter semester.

## **BIO 503 - Plant Structure and Function (4 credits)**

Anatomy and physiology of plants, including interrelationships of structure and function in growth, flowering, seed germination, photosynthesis, respiration, water relations, and mineral nutrition. (3-0-2) Offered winter semester. Cross-listed with BIO 403. Prerequisite: Graduate standing.

## **BIO 508 - Wildlife Management (4 credits)**

An examination of techniques used in the management, research, and conservation of wildlife species. Introduces the fundamental concepts of wildlife management, including wildlife habitat

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

requirements, evaluation of habitat suitability, interpretation of data analysis techniques, and applied techniques of habitat and population management. Cross-listed with BIO 408, NRM 508, and NRM 408. Offered fall semester. Prerequisite: Graduate standing.

## **BIO 512 - Mammalogy (3 credits)**

A survey of the class mammalia. Topics will include mammalian evolution, zoogeography, ecology, physiology, natural history, and behavior with emphasis on Michigan mammals. Students will gain practical experience in the techniques of field study, identification, and preservation of mammal specimens. (3-0-3) Cross-listed with BIO 412. Offered fall semester. Prerequisite: Graduate standing.

## **BIO 513 - Freshwater Algae (3 credits)**

Detailed study of the freshwater algae of the Great Lakes region. Topics will include the morphology, ecology, physiology, and evolutionary relationships of the major groups. Methods of collection will also be presented, and considerable emphasis given to identification of the regional flora. (2-0-4) Cross-listed with BIO 413. Offered winter semester. Prerequisite: Graduate standing.

## **BIO 515 - Fire Ecology and Management (3 credits)**

An examination of fire as an ecological and biophysical process, its interactions with and effects on a variety of ecosystem components, and use as a resource management tool. A National Wildfire Coordinating Group Certification (RX - 310 Introduction to Fire Effects) is granted upon successful course completion. Cross-listed with BIO 415, NRM 415, and NRM 515. Offered winter semester.

## **BIO 532 - Advanced Aquatic Ecology (3 credits)**

Knowledge of the processes occurring in aquatic ecosystems is required in order to understand their dynamic and vital role in the biosphere. This lecture-discussion course, with special emphasis on freshwater resources, will serve as a forum for learning about recent advances in aquatic ecology and its significance to Earth's ecosystems. Cross-listed with WAT 532. Offered fall semester of odd-numbered years. Prerequisite: Graduate standing in biology or permission of instructor.

## **BIO 540 - Limnology (4 credits)**

Ecology of freshwater ecosystems with emphasis on the physical, chemical, and biological factors affecting their structure and function. (2-0-4) Cross-listed with BIO 440. Offered fall semester. Prerequisite: Graduate standing.

## **BIO 544 - Herpetology (3 credits)**

An overview of the biology and global diversity of amphibians and reptiles. Topics include amphibian and reptile evolution, morphology, physiology, ecology, behavior, and conservation. Students will gain field experience and learn to identify amphibians and reptiles, with emphasis on Michigan species. Cross-listed with BIO 444. Offered fall semester. Prerequisite: Graduate standing.

## **BIO 551 - Stream Ecology (3 credits)**

Examines the structure and function of stream ecosystems, with emphasis on the physical, chemical, and biological factors that influence flowing-water habitats. Laboratory focuses on the methods of stream ecology, including collection and analysis of physical, chemical, and biological data. Field work emphasizes local stream ecosystems. (2-0-4) Cross-listed with BIO 451. Offered fall semester.

## **BIO 560 - Advanced Community Ecology (3 credits)**

Investigations of theoretical and experimental approaches to understanding the diversity, structure and function of aquatic and terrestrial ecological communities. Coursework consists of lectures and discussion of primary literature as well as an independent student project. Suitable for graduate students in biology, Annis Water Resources Institute, and natural resource management. Offered winter semester of odd-numbered years. Prerequisites: Graduate standing and an undergraduate course in ecology, or permission of the instructor.

## **BIO 570 - Landscape Ecology Theory and Application (3 credits)**

Landscape ecology explores the influence of landscape patterns on ecological processes. Topics include landscape patterns, dynamics, and heterogeneity; issues of scale; and spatial analysis. Students will examine various applications of landscape ecology concepts through discussions of peer-reviewed journal articles, computer-based assignments, and project work. Offered fall semester. Prerequisite: Graduate standing or permission of instructor.

## **BIO 572 - Conservation Biology (3 credits)**

Theoretical concepts and research applications in the multidisciplinary and applied science of maintaining the planet's biodiversity at the genetic, species, and ecosystem levels. Topics include distribution, functions, and value of biodiversity; causes and consequences of biodiversity loss; conservation solutions; and social, political, legal, ethical, and economic aspects of biodiversity conservation. Cross-listed with BIO 470. Offered fall semester. Prerequisite: Graduate standing.

## **BIO 573 - Ecology and Evolution of Plant-Animal Interactions (3 credits)**

An examination of the evolution and ecology of plant-animal interactions, focusing on herbivory, pollination, fruit and seed dispersal in both natural and agroecosystems. Course consists of lectures, presentations, and discussions of the primary literature. Suitable for advanced undergraduate and graduate students. Cross-listed with BIO 473. Offered winter semester of even-numbered years.

## **BIO 575 - Population Genetics (3 credits)**

This course explores the theory and application of genetic mechanisms of inheritance to evolutionary biology. We will use evolutionary models to understand patterns of genetic variation within and between populations. Cross-listed with BIO 475. Offered fall of even-numbered years.

## **BIO 580 - Special Topics in Biology (1 to 4 credits)**

Readings, lecture, discussions, lab, or field experience (or any combination) on a specific biological topic.

## **BIO 585 - Molecular Ecology (3 credits)**

This course provides an in-depth exploration of the integrative field of molecular ecology which uses molecular genetic tools to study ecology and evolution. Concepts/theories are introduced in lecture and through discussion of scientific literature. Hands-on experience with analysis of genetic data is provided in computer laboratories. Cross-listed with BIO 485, CMB 485, and CMB 585. Offered winter semester. Prerequisite: Graduate standing.

## **BIO 586 - Restoration Ecology (3 credits)**

This course will introduce students to the science of restoration ecology through an examination of underlying theories and contemporary research in ecosystem restoration. Cross-listed with BIO 486, NRM 486, and NRM 586. Offered winter semester of even-numbered years. Prerequisite: Graduate standing.

## **BIO 593 - Advanced Univariate Methods (3 credits)**

This course focuses on experimental design in biology, with an emphasis on interpretation of quantitative approaches, communication of quantitative outputs, and the ultimate structuring of experimentation that results in testable hypotheses using univariate tools, such as regression. Concepts are introduced through discussion of sampling regimes and scientific articles. Offered winter semester. Prerequisite: STA 622 or permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BIO 594 - Advanced Multivariate Methods (3 credits)**

This course focuses on experimental design in biology, with an emphasis on interpretation of quantitative approaches, communication of quantitative outputs, and the ultimate structuring of experimentation that results in testable hypotheses using multivariate tools, such as principal component analysis. Concepts are introduced through discussion of sampling regimes and scientific articles. Offered fall semester. Prerequisite: STA 622 or BIO 593 or permission of instructor.

## **BIO 610 - Scientific Methodology (3 credits)**

Contemporary skills of biological scientists including hypothesis development, experimental control, data management, critical interpretation of data, project organization and monitoring, collaborative work habits, and effective communication. Skills will be built as students' progress through case studies of landmark biological experiments, critiquing the primary literature, and creating their own scientific proposal. Offered fall semester. Prerequisite: Admission to the graduate program in biology.

## **BIO 651 - Emerging Issues in Water Resources (2 credits)**

The most pressing water resource-related issues facing the planet today will be discussed and analyzed. Particular emphasis will be placed on analyzing these problems from a variety of perspectives, including environmental, economic, societal, and political. Cross-listed with WAT 651. Offered fall semester of odd-numbered years. Prerequisite: BIO 440 or BIO 451.

## **BIO 680 - Special Topics in Biology (1 to 3 credits)**

Lecture and/or laboratory courses on topics of current interest to graduate students. Prerequisites: Variable and with permission of instructor.

## **BIO 691 - Graduate Internship (3 to 9 credits)**

Full-time, on-the-job work performed at a sponsoring entity under the supervision of an approved mentor in an area related to biological sciences. A written internship analysis and a public oral presentation are required. The student will defend the internship in front of their graduate committee. Offered every semester. Prerequisites: BIO 610 and successful completion of qualifying exams.

## **BIO 693 - Graduate Project (3 to 9 credits)**

Application of scientific knowledge to a problem in the biological sciences. Projects will be performed under the supervision of an approved mentor from the sponsoring entity. A written report and public oral presentation are required. The student will defend the results in front of

their graduate committee. Offered every semester. Graded credit/no-credit. Prerequisites: BIO 610, successful completion of qualifying exams, and completion of the Responsible Conduct of Research Training within last three years.

## **BIO 695 - Thesis Research (3 to 9 credits)**

Original research in an area related to the biological sciences. Work will be performed under the supervision of the graduate committee chair and/or mentor. A written thesis or publication and a public oral presentation are required. The student will defend the thesis in front of their graduate committee. Offered every semester. Graded credit/no-credit. Prerequisites: BIO 610, successful completion of qualifying exams, and completion of the Responsible Conduct of Research Training within last three years.

## **BIO 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **BIO 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **BIO 698 - Perspectives in Biology (3 credits)**

This graduate Capstone course provides an integrated examination of the contemporary biological sciences in the context of students' graduate theses, projects, or internship works. The course includes a discussion of scientific ethics, emphasizes the critical evaluation of scientific literature, and further develops students' scientific and professional writing and presentation skills. Offered winter semester. Prerequisites: BIO 610, STA 622, and completion or concurrent enrollment in BIO 691/NRM 691, BIO 693/NRM 693, or BIO 695/NRM 695.

## **BIO 699 - Independent Study (1 to 3 credits)**

Independent study in topics of special interest supervised by a faculty member approved by the student's graduate committee chair. One to three credits. May be elected for up to six credits toward an M.S. in biology or up to three credits toward an M.Ed. Offered each semester. Prerequisites: Permission of instructor, student's committee chair, and department chair.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BMS 100 - Human Health and Disease (3 credits)**

Presents the basic terminology and concepts of medicine and health maintenance for non-science students. Emphasis is on the interaction of technical concepts of health and disease with the political, economic, legal, and ethical aspects of American society. Fulfills Foundations - Life Sciences. Offered fall, winter, and occasionally spring/summer semesters.

## **BMS 105 - Basic Nutrition (3 credits)**

An investigation of the bases of nutrition, from a scientific and social-psychological viewpoint. Problems of malnutrition, food as a social phenomenon, and current controversies in nutrition will be discussed. Offered fall, winter, and occasionally spring/summer semesters.

## **BMS 180 - Special Topics in the Biomedical Sciences (1 to 4 credits)**

Special topics not regularly offered, but of interest to students in the biomedical sciences. Courses will be listed in the class schedule. Offered fall and winter semesters.

## **BMS 202 - Anatomy and Physiology (4 credits)**

An introduction to the human body, its form and function. With the study of each system, correlations between its function and the functions of other systems are emphasized. Lecture and laboratory. Fulfills Foundations - Life Sciences with a lab. (3-0-2) Offered fall and winter semesters.

## **BMS 208 - Human Anatomy (3 credits)**

A lecture course on the gross anatomy of human tissues and organ systems, including pertinent embryology. (3-0-0) Offered each semester. Prerequisite: BIO 120 or (both CMB 155 and CMB 156).

## **BMS 212 - Introductory Microbiology (3 credits)**

An introduction to the fundamental principles and techniques of bacteriology, immunology, and virology. Emphasis on the morphology, genetics, and physiology of microorganisms producing human disease and the human response to these agents. (3-0-0) Offered every semester. Prerequisites: BIO 120 or (both CMB 155 and CMB 156); and one of CHM 116, or CHM 230, or CHM 231.

## **BMS 213 - Laboratory in Microbiology (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Laboratory investigation into the morphology, isolation techniques, growth, and identification of bacteria. (0-0-4) Offered each semester. Prerequisite: BMS 212 (may be taken concurrently).

## **BMS 223 - Infectious Human Diseases; Prevention and Control (3 credits)**

An introduction to the strategies and tactics, both past and present, for the control and eradication of infectious and chronic diseases of humans. Offered winter semester.

## **BMS 250 - Anatomy and Physiology I (4 credits)**

The first semester of a two-semester anatomy and physiology sequence. Focus is on the basic principles of homeostasis, cells, and tissues. The structure and function of the skeletal, muscular, and nervous systems will also be covered. Not applicable to BMS major. Offered every semester. Prerequisite: BIO 120 or (both CMB 155 and CMB 156).

## **BMS 251 - Anatomy and Physiology II (4 credits)**

This is the second of a two-semester anatomy and physiology sequence. The structure and function of the endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems, as well as fluid and electrolyte balance, acid-base balance, and basic metabolism will be covered. Not applicable to the BMS major. Offered every semester. Prerequisite: BMS 250.

## **BMS 280 - Special Topics in Biomedical Sciences (1 to 4 credits)**

Special topics not regularly offered, but of interest to students in the biomedical sciences. Courses will be listed in the class schedule. Offered fall and winter semesters.

## **BMS 290 - Human Physiology (3 credits)**

An integrated study of physiological systems with major consideration given to the mechanisms involved in maintaining homeostasis. Normal function is emphasized, but clinical correlations are included where appropriate. (3-0-0) Offered every semester. Prerequisites: BMS 208 and two semesters of chemistry.

## **BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)**

Introduces students majoring in any of the science programs to basic steps in carrying out research, literature searching, critical reading of the literature, experimental design, data analysis,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

and scientific writing. Published papers and experiments will be analyzed. Students will write a variety of papers and reports. Offered fall and winter semesters. Prerequisites: STA 215 and sophomore standing.

### **BMS 304 - Community Nutrition (3 credits)**

Course covers the field of community nutrition characteristics, purpose, and job opportunities. It will discuss the following: methods used to assess a group or community's nutritional status; tools to evaluate community intervention programs; cultural diversity found in the community; and implications of such diversity for health professionals. Offered winter semester. Prerequisites: BMS 105 and junior standing.

### **BMS 305 - Clinical Nutrition (3 credits)**

This course has two objectives: to enable students to understand normal digestion, absorption, and metabolism of nutrients at a sophisticated level, and to make them aware of the nutritional needs of diseased patients. Pathophysiology of the gastrointestinal system will be considered. Offered fall and winter semesters. Prerequisites: BMS 290 or BMS 251 and (CHM 232 or CHM 230 or CHM 461).

### **BMS 306 - Advanced Human Nutrition (3 credits)**

An in-depth examination of the biochemical and physiological functions of nutrients and their relationships to health and disease. The digestion, absorption, and transport of nutrients are discussed. The integrated regulation of metabolism at the physiological, cellular, and molecular levels in response to altered nutritional and hormonal status is emphasized. Offered fall and spring/summer semesters. Prerequisites: (BMS 290 or MOV 304) and (CHM 232 or CHM 461).

### **BMS 309 - Laboratory in Human Anatomy (1 credit)**

A laboratory course covering the gross anatomy of the skeletal, muscular, nervous, circulatory, respiratory, digestive, reproductive, urinary, and endocrine systems through the use of human cadavers. (0-0-3) Offered each semester. Prerequisites: B or better in BMS 208 or BMS 251.

### **BMS 310 - Basic Pathophysiology (3 credits)**

Presentation of disease processes in terms of physiologic dysfunction. Pathophysiology emphasizes the disruption of normal steady state relationships and considers the minor, acute, and chronic aspects of disease. This provides a link between the basic medical sciences and their clinical application. Offered every semester. Prerequisite: BMS 290 or BMS 251.

### **BMS 311 - Pharmacological Aspects of Biomedical Sciences (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course introduces students to the principles of pharmacology and the pharmacological aspects of the major classes of drugs used in the treatment of disease. Patient care implications associated with the clinical use of the pharmacological agents will be discussed. Offered every semester. Prerequisite: BMS 310.

### **BMS 312 - Bacterial Genetics (3 credits)**

An advanced genetics course using microorganisms to analyze fundamental biological processes: mutation, replication, recombination, and transposition, along with the expression of genes and the processing of their products. (3-0-0) Offered fall semester of even-numbered years. Prerequisite: BMS 212 or BIO 357.

### **BMS 313 - Bacterial Genetics Laboratory (1 credit)**

A selected set of experiments to demonstrate important principles of bacterial genetics, including basic microbial methodology, mutagenesis, and gene transfer. (0-0-4) Offered fall semester of even-numbered years. Prerequisite: BMS 312 (may be taken concurrently).

### **BMS 355 - Anatomy of Joints (2 credits)**

Lecture and laboratory prosection study of the anatomy of synovial joints found in the human limbs, vertebral column, and skull. Emphasis on normal musculoskeletal anatomy. (1-0-2) Offered winter semester. Prerequisites: (Both BMS 208 and BMS 309, or equivalent human anatomy course), or (both BMS 251 and MOV 300).

### **BMS 374 - Physiological Aspects of Death and Dying (3 credits)**

An overview of the physiological processes connected with death and dying. Topics include body mechanisms associated with aging and common causes of death, autopsies, decomposition, modes of body disposition (and how they differ among cultures), and methods of body preservation (e.g., embalming and mummification). Not counted as an elective for biomedical sciences majors. Offered fall and spring/summer semesters upon demand.

### **BMS 375 - The Biology of Aging (3 credits)**

An introductory course in the anatomical and physiological aspects of the normal aging process, designed for students from a broad range of disciplines. Emphasis will be placed on the normal aging process as it occurs in the majority of the population. Offered fall semester. Prerequisites: BMS 208 and BMS 290.

## **BMS 380 - Special Topics in the Biomedical Sciences (1 to 6 credits)**

Special topics not regularly offered, but of interest to students in the biomedical sciences. Courses will be listed in the class schedule. Offered fall and winter semesters.

## **BMS 391 - Laboratory in Human Physiology (2 credits)**

Laboratory in Human Physiology is designed to investigate the principles that govern functions of the human body. This laboratory will provide hands-on experience in physiologic data collection and analysis. (1-0-2) Offered every semester. Prerequisites: BMS 290 or (BMS 251 and two semesters of chemistry).

## **BMS 392 - Laboratory Assistant in Physiology (1 credit)**

This course provides an opportunity for students to assist human physiology laboratory instructors while reinforcing their understanding of the mechanisms underlying human physiology (may be repeated, but only one credit may be applied toward the biomedical sciences major electives requirements). Offered every semester. Prerequisites: BMS 391 and permission of instructor.

## **BMS 393 - Laboratory Assistant in Human Anatomy (1 credit)**

This course provides an opportunity for students to assist in the cadaver-based anatomy laboratory while reinforcing their understanding of anatomical structures, relationships between structures, and functional roles these structures have in the human body. Offered fall and winter semesters. Prerequisites: BMS 309 and permission of instructor.

## **BMS 394 - Laboratory Assistant in Microbiology (1 credit)**

This course provides an opportunity for students to assist the introductory microbiology laboratory instructors while reinforcing their understanding of the various techniques and concepts discussed in introductory microbiology. Offered every semester. Prerequisites: Completion of BMS 213 and permission of instructor.

## **BMS 399 - Readings in the Biomedical Sciences (1 to 3 credits)**

Independent, supervised readings on selected topics prearranged with a faculty sponsor and approved by the program chairman. May be elected for one to three hours credit toward a major

in any biomedical sciences program, or with permission for group science or biology majors. Offered fall and winter semesters. Prerequisite: Permit only.

### **BMS 407 - Nutrition in the Life Cycle (3 credits)**

The course will cover nutritional aspects associated with each phase of the human cycle including prepregnancy, pregnancy, infancy, childhood, adolescence and late adulthood. Major pathological conditions that can occur throughout the life cycle will be discussed. Offered winter semester. Prerequisites: (BMS 105 or BMS 305 or BMS 306) and either (BMS 290/BMS 391 or BMS 251).

### **BMS 409 - Endocrinology (3 credits)**

An introduction to the field of endocrinology including general properties of endocrine systems and how hormones regulate physiological processes in the human body. Normal functioning is emphasized, but clinical conditions and comparative endocrinology are included where appropriate. Cross-listed with BMS 509. Offered fall semester. Prerequisite: BMS 290.

### **BMS 410 - Immunology (3 credits)**

An introduction to the immune response, including the properties of antigens, immunoglobulins, the theories of antibody formation, cell-mediated immunity, and hypersensitivity reactions. Offered fall semester. Prerequisites: BMS 212 and (CHM 232 or CHM 461); may be taken concurrently.

### **BMS 412 - Medical Bacteriology (3 credits)**

A study of the host-parasite relationships in bacterial disease. The theoretical basis of isolation and identification of medically important bacteria including anaerobic and newly identified pathogens will be included. Offered winter semester. Prerequisite: BMS 212.

### **BMS 413 - Medical Bacteriology Laboratory (2 credits)**

Isolation and identification of the more common bacterial pathogens with emphasis on current clinical methods and normal flora. (0-0-4) Offered winter semester. Prerequisite: BMS 412 (may be taken concurrently).

### **BMS 415 - Nutrition and Physical Performance (3 credits)**

After a brief introduction to the basic concepts of exercise physiology this course will explore how physical activity may alter nutrient needs, and the mechanisms by which nutrition influences physical performance. Emphasis will also be placed on the practical implementation

of dietary strategies to optimize exercise performance. Offered winter and spring/summer semesters. Prerequisites: (BMS 251 or BMS 290) and (CHM 232 or CHM 461).

## **BMS 422 - Bacterial Physiology (3 credits)**

An advanced microbiology course covering basic principles of prokaryotic physiology. Microorganisms will serve as a model system for understanding how an organism accomplishes life functions: bacterial growth, nutrition, response, and metabolic processes. Includes how microbial physiology is studied and applications to human physiology, disease, antibiotic production and resistance, and biotechnology. (3-0-0) Offered fall semester of odd-numbered years. Prerequisite: BMS 212 or BIO 357.

## **BMS 423 - Bacterial Physiology Laboratory (2 credits)**

Investigation of the physiology of bacteria. Analysis of bacterial growth, nutrition, responses to the environment, and metabolic processes. Techniques for analysis of bacterial physiology. (0-0-4) Offered fall semester of odd-numbered years. Prerequisite: BMS 422 (may be taken concurrently).

## **BMS 426 - Sensory Systems Neuroscience: Anatomy and Physiology (3 credits)**

Sensory systems neuroscience investigates the five basic human sensory systems: audition, gustation, olfaction, somatosensation and vision. The anatomy and physiology of each sensory system will be covered extensively with an emphasis on signal transduction processes of the senses. Offered winter semester. Prerequisite: BMS 251 or BMS 290.

## **BMS 427 - Neuroanatomy (1 credit)**

Covers the organization of the human nervous system with emphasis on the pathways and nuclei of the central nervous system. Offered fall semester. Prerequisite: BMS 251 or BMS 290.

## **BMS 428 - Neurosciences (3 credits)**

Covers the function of the human nervous system. Emphasis on somatosensory and somatomotor systems and the cranial nerve nuclei involved in disease. Offered spring/summer semester; winter on demand. Prerequisite: BMS 251 or BMS 290.

## **BMS 431 - Medical Virology (3 credits)**

A study of the important principles underlying the field of virology including viral architecture, nomenclature and genetics; mechanisms of entry and spread within the body; host resistance and viral evasion of the immune response; and the epidemiology of important viruses in the world

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

today. Cross-listed with BMS 531. Offered winter semester. Prerequisites: (BMS 212 and CHM 241) or their transfer equivalents from other institutions.

### **BMS 432 - Medical Mycology (3 credits)**

An advanced microbiology course that will provide comprehensive instruction on the classification, causative agents, pathogenesis, and treatment of fungal diseases that occur in humans. Emphasis will be placed on the molecular mechanisms of pathogenesis and human immune responses along with the methods of treatment of these problematic infectious agents. Cross-listed with BMS 532. Offered fall semester. Prerequisite: BMS 212.

### **BMS 433 - Medical Parasitology (3 credits)**

A study of host parasite relationships in humans. Significant human parasites and the pathogenesis and epidemiology of parasite infection. (2-0-2) Offered fall semester. Prerequisites: BMS 212 and CHM 241.

### **BMS 450 - Human Histology (4 credits)**

A lecture/laboratory course in normal human light microscopic anatomy. Students will learn the microanatomy of the primary tissue types, organs and organ systems. Includes discussion of relevant pathological conditions. (2-0-4) Offered fall semester. Prerequisite: BMS 208.

### **BMS 460 - Regional Human Anatomy (4 credits)**

A regional approach to the structure of the human body, concentrating on the interrelationships of different anatomical structures in the limbs, thorax, abdomen, pelvis, and head and neck. (2-0-4) Offered winter semester. Prerequisites: BMS 309 and permission of instructor.

### **BMS 480 - Special Topics in the Biomedical Sciences (1 to 4 credits)**

Special topics not regularly offered, but of interest to students in the biomedical sciences. Courses will be listed in the class schedule. Offered fall and winter semesters.

### **BMS 492 - Biomedical Sciences Internship (1 to 4 credits)**

The internship is a work experience at a faculty supervisor-approved location appropriate for the student's chosen field of interest. Internships will be experiences of a minimum 10 hours/week/credit. Only three credit hours of BMS 492 may count toward the major. Graded credit/no-credit. Offered every semester. Prerequisites: BMS 290, BMS 391; and (CHM 232 or CHM 461).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BMS 495 - Concepts in Wellness (Capstone) (3 credits)**

This biomedical sciences course will synthesize the materials students have learned from the biomedical sciences core and cognate courses and enable them to write and present professionally styled communications to an audience of their peers and instructors. (3-0-0) Offered for SWS credit. Offered fall, winter, and occasionally spring/summer semesters. Prerequisites: BMS 208, BMS 212, (BMS 290 or BMS 391), and senior standing.

## **BMS 499 - Research in the Biomedical Sciences (1 to 3 credits)**

Independent, supervised research in special areas of the biomedical sciences prearranged with a faculty sponsor and approved by the program chairman. May be elected for up to three hours credit toward a major in any biomedical sciences program or, with permission, for group science or biology majors. Offered fall and winter semesters.

## **BMS 501 - Graduate Seminar in Biomedical Sciences (1 credit)**

Students will explore a variety of research topics in biomedical science through faculty presentations, attendance at departmental seminars, and presentations of thesis work by second year students. Orientation to unit and campus resources and expectations of the program will also be provided. Offered fall semester. Prerequisite: Admission to the Master of Health Science.

## **BMS 508 - Advanced Human Physiology (3 credits)**

Emphasis on cellular and molecular mechanisms involved in the functioning of the body systems, with emphasis on central nervous system, cardiovascular, renal, and respiratory systems. Study includes the current research literature and current experimental knowledge. Offered fall semester and occasionally winter semester. Prerequisites: BMS 290 and graduate standing.

## **BMS 509 - Endocrinology (3 credits)**

An introduction to the field of endocrinology including general properties of endocrine systems and how hormones regulate physiological processes in the human body. Normal functioning is emphasized, but clinical conditions and comparative endocrinology are included where appropriate. Cross-listed with BMS 409. Offered fall semester. Prerequisite: Graduate standing.

## **BMS 510 - Immunology (3 credits)**

An introduction to the immune response, including the properties of antigens, immunoglobulins, the theories of antibody formation, cell-mediated immunity, and hypersensitivity reactions. Prerequisites: BMS 212; and (CHM 232 or CHM 461) (may be taken concurrently).

## **BMS 512 - Medical Bacteriology (3 credits)**

A study of the host-parasite relationships in bacterial disease. The theoretical basis of isolation and identification of medically important bacteria including anaerobic and newly identified pathogens will be included. Prerequisites: BMS 212, three semesters of chemistry, and graduate standing.

## **BMS 523 - Epidemiology (3 credits)**

An introduction to the study of the distribution and determinants of disease frequency in people. Offered fall semester. Prerequisites: STA 215 and graduate standing.

## **BMS 531 - Medical Virology (3 credits)**

A study of the important principles underlying the field of virology including viral architecture, nomenclature and genetics; mechanisms of entry and spread within the body; host resistance and viral evasion of the immune response; and the epidemiology of important viruses in the world today. Cross-listed with BMS 431. Offered winter semester.

## **BMS 532 - Medical Mycology (3 credits)**

An advanced microbiology course that will provide comprehensive instruction on the classification, causative agents, pathogenesis, and treatment of fungal diseases that occur in humans. Emphasis will be placed on the molecular mechanisms of pathogenesis and human immune responses along with the methods of treatment of these problematic infectious agents. Cross-listed with BMS 432. Offered fall semester.

## **BMS 538 - Advanced Neuroscience (3 credits)**

This course will cover the normal anatomy and physiology of the human nervous system. Selected disorders of the human nervous system will also be discussed. Offered spring/summer semester. Prerequisite: Acceptance into the physical therapy program.

## **BMS 540 - Molecular Ecology of Infectious Disease (3 credits)**

Molecular ecology of infectious disease provides students with instruction in the core techniques of molecular population genetics, molecular phylogenetics, molecular biology, genomics, and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

bioinformatics in order to answer questions dealing with the ecology and epidemiology of human pathogens. Offered winter semester. Prerequisite: Graduate standing or permission of instructor.

## **BMS 550 - Human Histology (4 credits)**

A lecture/laboratory course in normal human light microscopic anatomy. Students will learn the microanatomy of the primary tissue types, organs, and organ systems. Includes discussion of relevant pathological conditions. Prerequisite: BMS 208 or equivalent.

## **BMS 560 - Regional Human Anatomy (4 credits)**

A regional approach to the structure of the human body, concentrating on the interrelationships of different anatomical structures in the limbs, thorax, abdomen, pelvis, and head and neck. Prerequisites: BMS 208 and BMS 309 or equivalent anatomy courses.

## **BMS 561 - Prosected Regional Anatomy (4 credits)**

A regional approach to the gross anatomy of the human body through the use of prosected cadavers. (3-0-3) Offered fall semester. Prerequisite: Admission to the physical therapy or physician's assistant studies program.

## **BMS 601 - Experimental Design (3 credits)**

Investigation of the steps necessary to select and approach a research problem. Emphasis on the literature search, critical analysis of journal articles, and the preparation of written research proposals. Observation and inductive and deductive reasoning will be discussed. Offered fall semester. Prerequisites: BMS 501 and enrollment in the M.H.S. graduate program.

## **BMS 605 - Core Principles of Gross Anatomy (4 credits)**

A regional approach to the gross anatomy of the human body through the use of prosected cadavers, focusing on the spatial relationships among anatomical structures in the limbs, thorax, abdomen, pelvis, head and neck. Offered fall semester. Prerequisites: BMS 208 and graduate standing.

## **BMS 607 - Infection and Immunity (3 credits)**

An introduction to the human immune response, with particular emphasis on infectious disease. Bacterial, viral, fungal, and parasitic microbiology will be covered, with particular emphasis on virulence factors. The innate and adaptive immune system components and functions will be discussed and integrated into immune responses and pathogen outcomes. Offered fall semester. Prerequisites: BMS 212 or equivalent, and graduate standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BMS 608 - Pathologic Physiology (3 credits)**

A study of the disease processes in humans from the standpoint of physiologic dysfunction. Primary emphasis will be on the cardiovascular, renal, respiratory, and central nervous system. Other areas may be considered but in lesser depth. Offered winter semester and occasionally fall semester. Prerequisites: BMS 508 and graduate standing.

## **BMS 655 - Advanced Human Anatomy (3 credits)**

Students will complete comprehensive morphological study of selected regions of the human body. Methods include dissection and histologic, embryologic, or pathologic approaches. Offered on demand. Prerequisites: BMS 460, graduate standing, and registration permit.

## **BMS 679 - Clinical Practicum (3 to 6 credits)**

Experience in a field placement under a qualified supervisor. A final report and a seminar are required. Prerequisites: All other degree requirements must be completed before, or concurrent with, this course.

## **BMS 680 - Special Topics in the Biomedical Sciences (1 to 3 credits)**

Supervised study and research in special areas of the biomedical sciences. Must be prearranged with a faculty sponsor. Study may result in a proposal for independent research in the same area. May be elected for a maximum of three hours credit toward degree requirements. Offered fall and winter semesters. Prerequisites: BMS 601 and a signed contract must be submitted before registration.

## **BMS 693 - Project in Biomedical Sciences (3 credits)**

Definition and solution of a problem within the biomedical sciences. The problem may focus on such topics as the development of instructional processes or materials, evaluation or testing procedures and equipment, or other suitable areas of interest. Prerequisites: Completion of all other degree requirements before, or concurrent with, this course and completion of the Responsible Conduct of Research Training within last three years.

## **BMS 695 - Master's Thesis Research (3 or 6 credits)**

Research in the biomedical sciences directed toward the solution of a problem that has potential implications within the field. Preparation of a formal thesis and presentation of a seminar are required during the final year of the student's program. Six credits total, minimum of three per semester. Prerequisites: Permission of program director and completion of the Responsible Conduct of Research Training within last three years.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BMS 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **BMS 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **BMS 699 - Independent Study (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

## **BUS 101 - Introduction to Business (3 credits)**

Introduces the disciplines of business law, marketing, management, finance, accounting, and economics; seeks to synthesize them into a general view of business; and briefly explores business careers. Primarily for freshmen interested in business, it is open to all students except upper-division students in the Seidman College of Business. Offered fall semester.

## **BUS 180 - Special Topics in Business (1 to 3 credits)**

Topics covered will reflect special interests of students and/or instructor. Offered as demand warrants.

## **BUS 201 - Legal Environment for Business (3 credits)**

The legal, regulatory, and ethical environment in which business operates is explored, with emphasis on the regulation of business, international law, environmental law, ethics, the political and social factors influencing case and statutory law, contracts, employment law, and business organizations. Offered every semester.

## **BUS 280 - Special Topics in Business (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

### **BUS 301 - International Business and Culture (3 credits)**

Explores how business is done in a country or region, and how culture influences business and its environment. Reviews country's history, economics, politics, government, arts, or education. Explores how business practices may differ from U.S. practices. To be taught in that country as part of a study abroad program. Cross-listed with MES 301. Offered spring/summer semester. Prerequisite: Admission to Seidman College of Business or by permit.

### **BUS 380 - Special Topics in Business (1 to 3 credits)**

Topics covered will reflect special interests of the students and/or the instructor. Offered as demand warrants. Prerequisite: Admission to Seidman College of Business or by permit.

### **BUS 399 - Readings in Business (1 to 3 credits)**

Independent, supervised readings on specific, advanced areas of business. Must be prearranged with appropriate faculty members. May be elected for up to three hours credit toward a B.B.A. degree. Open to juniors and seniors only. Offered on sufficient demand. Prerequisite: Admission to Seidman College of Business or by permit.

### **BUS 470 - Applied Business Solutions (1 to 3 credits)**

Faculty directed experiential learning project using an active integration of knowledge, application, and reflection. The projects are in cooperation with corporate or nonprofit partners providing real-world applications that change from class to class. The basis of knowledge to be applied will be obtained through reading, simulation, exercises and instruction. Cross-listed with BUS 570. Offered fall and winter semesters. Prerequisites: MGT 366 or equivalent, junior standing, admission to the Seidman College of Business, and permission of instructor.

### **BUS 490 - Business Internship (1 to 6 credits)**

This course will be used to grant business credit to students who complete internships in business generally rather than in a specific discipline. Graded credit/no-credit. Prerequisites: Junior standing, minimum 2.5 GPA, and admission to Seidman College of Business or by permit.

### **BUS 499 - Independent Research (1 to 3 credits)**

Independent research in the student's area of interest, supervised by a member of the Seidman College of Business faculty and culminating in a written and oral report. Written permission of

instructor required. Offered each semester. Prerequisite: Admission to Seidman College of Business or by permit.

## **BUS 501 - Self-Management for Leaders (2 credits)**

The course introduces how to apply self-awareness toward the improvement of managerial leadership. Feedback through the application of a 360-degree evaluation tool will offer input to better understand an individual's leadership skills and potential. Principles of strategic thinking, emotional intelligence, and design thinking will help broaden perspective. Offered fall semester. Prerequisite: Admission to Seidman College of Business.

## **BUS 502 - Operational Alignment for Leaders (2.5 credits)**

This course provides frameworks to understand internal operational efficiencies for teams, departments, and organizational success. The course will focus on an understanding of how to optimize operations and generate profitable returns through exposure to operational best practices, managerial accounting, and budgeting. Offered fall semester. Prerequisite: Admission to Seidman College of Business.

## **BUS 503 - Leading and Empowering Teams (2.5 credits)**

This course provides the framework to apply best practices in building, motivating, empowering, and leading effective teams. Focus will be given to principles of leadership and influence, motivation, managing change, negotiations, and business communications. Offered winter semester. Prerequisites: BUS 501 and BUS 502.

## **BUS 504 - Essentials of Enterprise Leadership (3.5 credits)**

Students are provided with an understanding of how organizations are situated in the macro business context. A focus on how the organization beyond the unit level is impacted by broader forces such as economics, marketing, general business, and finance will prepare students to understand the different forces impacting an organization. Offered winter semester. Prerequisite: BUS 503.

## **BUS 505 - Implementing Principles of Strategic Leadership (3.5 credits)**

Examines strategic planning and decision-making frameworks to understand how to best implement strategy and influence the strategic direction of an organization. Provides a consulting experience to apply business knowledge acquired in previous courses to pre-identified strategic problems faced by organizations. Offered winter semester. Prerequisites: BUS 503 and BUS 504.

## **BUS 531 - Legal Environment of Business (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Explorations of the legal, regulatory, and ethical environment of business, with emphasis on the regulation of business and the political and social factors influencing case and statutory law. Topics covered include contracts, employment law, international law, environmental law, and business organizations. Equivalent to BUS 201. Offered fall and winter semesters.

## **BUS 570 - Applied Business Solutions (1 to 3 credits)**

Faculty directed experiential learning project using an active integration of knowledge, application, and reflection. The projects are in cooperation with corporate or nonprofit partners providing real-world applications that change from class to class. The basis of knowledge to be applied will be obtained through reading, simulation, exercises and instruction. Cross-listed with BUS 470. Offered fall and winter semesters. Prerequisite: Permission of instructor.

## **BUS 610 - Management Information Systems and Org Processes (3 credits)**

This course will examine common, operational-level organizational processes to understand the nature of such processes and the role of data and management information systems (MIS) in facilitating and integrating organizational processes. In addition, the course will provide an understanding of the strategic role of information systems in organizations and responsibilities of managers to effectively manage their information resources. Offered every semester. Prerequisite: Completion of all M.B.A. background equivalents.

## **BUS 631 - Leadership and Organizational Dynamics (3 credits)**

Leadership gives insight into organizational life from the perspective of the practicing manager in terms of individual, group and inter-group behavior. Course is designed to benefit persons in a variety of organizations. The goal of the course is to explore ways to achieve managerial success by becoming effective at utilizing individuals and groups as organizational resources. Special emphasis is given to assessment of personal strengths and weaknesses when dealing with situations of managerial responsibility. Offered every semester. Prerequisite: Completion of M.B.A. background equivalents.

## **BUS 634 - Sustainability Principles and Practices (1.5 credits)**

This course, which carries 1.5 credit hours, provides an introduction to, and analysis of, the fundamental theories, concepts, principles, and practices of sustainability in the global society in which we live. Students analyze and apply theories to real-world scenarios, including to their current employers and work assignments. Offered winter semester. Prerequisite: Completion of M.B.A. background equivalents.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BUS 656 - Management of Technology (3 credits)**

Teaches technological forecasting, auditing, and strategic planning methodologies. These tools aid managers in developing and maintaining their organizational competitive competencies. Prerequisite: Completion of all M.B.A. background equivalents.

## **BUS 671 - Global Competitiveness (3 credits)**

Explores how firms become global and how they sustain their global position. For many firms, selling in home markets no longer guarantees success. Internationalization forces affect firms' abilities to establish and conduct business in foreign markets. Covers knowledge and skills needed to manage firms operating in foreign business environments, and to work effectively with people of other cultures. Offered fall and winter semesters. Prerequisite: Completion of M.B.A. background equivalents.

## **BUS 677 - Business Ethical Problems and Perspectives (1.5 credits)**

The study of ethical problems commonly encountered in modern global business environments. Students will study the ethical issues of character, leadership, decision-making, organizational governance, and social responsibility. Prerequisite: Completion of M.B.A. background equivalents.

## **BUS 680 - Special Topics in Business (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics. Prerequisite: Admitted to SCB or permit.

## **BUS 681 - Strategy (3 credits)**

Focuses on the job of the general manager in formulating and implementing short- and long-run business strategy. An integrative course that draws on knowledge and skills acquired in other courses. Offered fall and winter semesters. Prerequisite: Completion of all other core courses or concurrently if taken in final semester.

## **BUS 685 - Study Abroad (3 credits)**

This course helps students prepare for, and complete, a study abroad experience. Students will research the social, cultural, and business environments of their destinations and assess and develop their global leadership skills. The study abroad experience provides firsthand observation of the complexities firms face when conducting business internationally. Offered winter semester. Prerequisite: Admission to the FIMBA or M.B.A. program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **BUS 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **BUS 698 - Washington Program (3 credits)**

Special intensive study in Washington, D.C., for one week during the summer. Principle topics are policy development in the executive branch, government regulation, Congress (interest groups) lobbying, and domestic and international economic policy issues. Open to graduate students. Special application forms available in the M.B.A. office. Prerequisite: Completion of M.B.A. background equivalents.

## **BUS 699 - Independent Study (1 to 3 credits)**

Independent research in the student's area of interest, supervised by a member of the Seidman College of Business faculty and culminating in a written and oral report. Written permission of supervising faculty required.

## **CAP 105 - Technology in Public Relations and Advertising (3 credits)**

This course familiarizes students with the technologies currently used in the public relations and advertising professions. Emphasis is on working with technical specialists including graphic designers, photographers, videographers, and website developers. Students learn technology terminology and gain hands-on experience with a variety of technical software and equipment. Offered fall and winter semesters.

## **CAP 115 - Research Basics for Advertising and Public Relations (3 credits)**

This course presents the basic techniques for finding, collecting, evaluating, and using primary data and secondary information relevant to solving communication problems. Explores library resources, search engines, government and commercial websites, corporate documents, and databases. Includes citation formats and presentation methods. Offered fall and winter semesters.

## **CAP 209 - Advertising Basics (3 credits)**

Presents the basics of advertising, including its socioeconomic role, the function and operation of advertising departments and agencies, the creative process, and media characteristics. Does not count as credit toward the advertising and public relations major or minor. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CAP 210 - Fundamentals of Advertising (3 credits)**

Basic principles of advertising, including its socioeconomic role; the function and operation of client advertising departments and the advertising agency; application of research, budgeting, and the creative process; media characteristics; and media selection. Offered every semester. Prerequisites: CAP 105, CAP 115, and fulfillment of general education Foundations - Writing. Restricted to advertising and public relations majors and minors.

## **CAP 219 - Public Relations Basics (3 credits)**

Covers the basic principles of public relations (PR), its role in society, where public relations is practiced, and specific applications, including identifying publics, campaigns, and evaluation. Does not count as credit toward advertising and public relations major or minor. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **CAP 220 - Fundamentals of Public Relations (3 credits)**

Basic principles covering the role of public relations in society, public relations principles and their application, procedures for planning and implementing public relations campaigns, the identification of publics and the strategies for influencing them. Offered every semester. Prerequisites: CAP 105, CAP 115, and fulfillment of general education Foundations - Writing. Restricted to advertising and public relations majors and minors.

## **CAP 305 - Sports Promotion (3 credits)**

Deals with the promotion and sponsorship of sports and the active lifestyle industry, including corporate motivation and involvement. Studies the effect of media on sports through critical analysis. Emphasis is placed on defining and applying communication theory, concepts, and strategies. Offered fall and winter semesters. Prerequisite: Junior standing.

## **CAP 310 - Advertising Management and Cases (3 credits)**

Management and direction of the advertising function as viewed and practiced by the client advertising manager, the advertising agency, and the media. Analysis of actual cases and presentation of findings and recommendations. Offered fall and winter semesters. Prerequisite: CAP 210.

## **CAP 315 - Advertising Copywriting (3 credits)**

Practice in the copywriting process, from conception of ideas to finished copy for product and corporate advertising objectives. Offered fall and winter semesters.

## **CAP 320 - Public Relations Management and Cases (3 credits)**

The public relations function viewed from the management, consultant, and employee positions through use of text material and case studies. Offered fall and winter semesters. Prerequisite: CAP 220.

## **CAP 321 - Media Relations Writing (3 credits)**

This course prepares public relations students with both knowledge and practice of writing skills used in the public relations profession, with special emphasis on media relations. Students will learn how the news media work in different settings, and how media relations fits into the broader public relations program. Offered fall and winter semesters. Prerequisite: CMJ 256.

## **CAP 325 - Advertising and Public Relations Ethics and Law (3 credits)**

Examination of ethical principles and key categories of law as applied specifically to the advertising and public relations professions. The course includes an overview of classical ethical viewpoints and applications to the contemporary practice. Key legal concepts and cases relevant to advertising and public relations are also discussed. Offered fall and winter semesters. Prerequisites: CAP 210 and CAP 220.

## **CAP 380 - Special Topics in Advertising and Public Relations (3 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of the student in this course approximate those in other 300-level courses. May be repeated for credit when content varies. Offered on sufficient demand. Prerequisite: Sophomore standing.

## **CAP 399 - Independent Study in Advertising/Public Relations (1 to 6 credits)**

Individually designed learning projects. Offered every semester. Prerequisites: Advertising/public relations major, junior standing, and permission of advisor.

## **CAP 413 - Media Planning (3 credits)**

Methods of analyzing and evaluating media, selection of media for target audiences, consideration of budget factors, and preparation of media plans. Offered fall and winter semesters. Prerequisites: CAP 210 and CAP 220 or permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CAP 423 - Writing Corporate Communications (3 credits)**

An advanced writing course on the research, development, and preparation of corporate communications. Uses desktop publishing. Includes brochures, annual reports, employee newsletters, executive speeches, position papers, backgrounders, corporate memos, customer letters, and crisis communications. Offered fall and winter semesters. Prerequisite: CAP 220.

## **CAP 425 - International Advertising and Public Relations (3 credits)**

Addresses the key issues that advertising and public relations practitioners must keep in mind to create effective communication programs for foreign markets: cultural norms and values, political environments, economic policies, legal considerations, and social contexts. Offered winter semester of odd-numbered years. Prerequisite: CAP 210 or CAP 220.

## **CAP 490 - Internship in Advertising/Public Relations (1 to 6 credits)**

Practical work-study involving supervised on-the-job experience in advertising and public relations. Offered every semester. Prerequisites: Advertising/public relations major, junior standing, and permission of advisor.

## **CAP 494 - Advertising and Public Relations Agency Experience (3 credits)**

Experiential learning course applying previous advertising/public relations and other coursework to a communications project for a community organization. Students meet and work on campus with occasional visits to client site as needed. Students work in teams with various roles and responsibilities based on an advertising and public relations agency model. Offered fall and winter semesters. Prerequisite: Permission of instructor.

## **CAP 495 - Advertising and Public Relations Campaign (3 credits)**

Planning and presentation of a response to an advertising/public relations problem or objective of an actual organization. Includes liaison with the client organization throughout the semester and presentation to the client at the conclusion of the semester's work. Offered fall and winter semesters. Prerequisites: (CAP 310 or CAP 320) and senior standing.

## **CBR 485 - Audio Production III (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Microphone use, mixing, and editing. Final project is an eight-track mix-down. The class uses the facilities of a professional recording studio. Offered fall semester. Prerequisite: CBR 382.

## **CD 501 - Emerging Professional Practice Issues in Clinical Dietetics (2 credits)**

This course will emphasize emerging professional practice issues in clinical dietetics. It will provide the application of ethical practice, critical thinking, and advocacy to current practice dilemmas. The course will stress the responsibilities of dietetic professionals and describe their interaction in an interdisciplinary health care delivery system. Offered winter semester.

Prerequisite: Admission to the clinical dietetics program.

## **CD 505 - Health Care Regulation and Policy in Dietetic Practice (2 credits)**

This thematic course will focus on social determinants and environment of health, health policies and politics in the United States, and the organization, regulation and financing of health services as it relates to the practice of clinical dietetics. Offered winter semester. Prerequisite: Admission to the clinical dietetics program.

## **CD 510 - Nutritional Assessment (3 credits)**

This class provides lecture and laboratory experience in anthropometric, biochemical, and dietary nutrition assessment techniques of individuals and populations. Students will utilize the human performance lab, simulation lab, medical laboratory science lab, and computer lab to augment hybrid lecture and discussion. Offered winter semester. Prerequisite: Admission to the clinical dietetics program.

## **CD 516 - Food and Culinary Science (4 credits)**

This course provides content related to the operation and management of therapeutic food service systems. Experiential and didactic learning will equip the student to better understand the role of palatable food production and service in clinical dietetics. Topics include basic management principles, food regulations, menu analysis, and sensory testing. Prerequisite: Admission to the clinical dietetics program.

## **CD 520 - Supervised Practice: Food Management Systems (3 credits)**

This course provides hands-on experiential learning in a variety of food service delivery systems. Students will rotate through several different food systems during this class including acute care, long-term care, schools, or community feeding programs. Each placement will address

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

specifically assigned competencies. Offered winter semester. Prerequisite: Admission to the clinical dietetics program. Corequisite: CD 516.

### **CD 530 - Supervised Practice: Community Nutrition I (3 credits)**

This course provides experiential learning in a variety of community settings such as gleaning and food recycling, community health centers, food hubs and pantries, WIC, health departments, and other community programs with a nutrition component. Offered spring/summer semester. Prerequisite: Admission to the clinical dietetics program.

### **CD 550 - Social Determinants in Food, Culture, and Environmental Justice (3 credits)**

This course is designed to explore the relationships that exist between race, ethnicity and culture as they pertain to environmental and food justice, and the critical role of the food and nutrition professional in mitigating these issues. Cross-listed with CD 450. Offered fall semester. Prerequisite: Admission to the clinical dietetics program.

### **CD 560 - Advanced Nutrition Education, Counseling, and Coaching (3 credits)**

This course will provide a science-based application of learning, motivation and behavioral change theories as they pertain to informal education, counseling, and coaching for the dietetic preprofessional. A variety of communication strategies will be implemented to facilitate healthy nutrition and behavior change. Offered spring/summer semester. Prerequisite: Admission to clinical dietetics program.

### **CD 600 - Advanced Medical Nutritional Therapy I (3 credits)**

This course will apply the nutrition care process to a variety of disease states including pathology of the neurological, gastrointestinal, cardiovascular, hormonal, and renal systems. Offered spring/summer semester. Prerequisite: Admission to the clinical dietetics program.

### **CD 610 - Advanced Medical Nutritional Therapy II (3 credits)**

This course will apply the nutrition care process to a variety of disease states including pathology of the liver, pancreas, and the immune system, terminally ill, artificial feeding across the lifespan, inheritable diseases and epigenetics, burns and wounds, obesity, and special needs of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

the acute and chronically ill pediatric patient. Offered every semester. Prerequisites: Admission to the clinical dietetics program and CD 600.

## **CD 620 - Micronutrient Metabolism and Genetic Considerations in Clinical Dietetics (3 credits)**

This course will present evidence-based research to help understand the complex effects of diet on health. Using a nutritional genomics model, students will learn how nutrients affect gene expression, how nutrients and genes interact through metabolic pathways, and how nutrients affect the process of aging and disease. Offered spring/summer semester. Prerequisites: Admission to the clinical dietetics program and CD 610.

## **CD 625 - Supervised Practice: Clinical Nutrition I (5 credits)**

This course provides hands-on experiential learning in a variety of chronic and acute settings. Students will complete competency standards in large/regional medical centers, community hospitals, dialysis centers, cardiac rehabilitation/heart centers, and skilled nursing facilities. Offered fall semester. Prerequisite: Admission to the clinical dietetics program.

## **CD 630 - Supervised Practice: Community Nutrition II (2 credits)**

This course provides hands-on experiential learning focusing on program planning, implementation, and assessment of diverse age groups and disease states in the community setting. Sixty hours of the 120 total hours of supervised practice rotation may be taken outside of the U.S. Offered fall semester. Prerequisite: Admission to the clinical dietetics program.

## **CD 640 - Supervised Practice: Clinical Nutrition II (5 credits)**

This course provides hands-on experiential learning in a variety of acute and chronic settings. Students will complete competency standards in large/regional medical centers, community hospitals, long-term care centers, pediatric hospitals, and dialysis units. Offered winter semester. Prerequisite: Admission to the clinical dietetics program.

## **CD 650 - Supervised Practice: Area of Specialization (2 credits)**

This course provides in-depth experiential learning in a selected area of clinical dietetics and will provide students with an opportunity to implement a group or individual research project. This 120-hour rotation requires prior approval and may be taken outside of the U.S. Offered winter semester. Prerequisite: Admission to the clinical dietetics program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CD 689 - Seminar in Clinical Dietetics (1 credit)**

This course will provide an intensive and comprehensive review of didactic material covered in the program. This course is established to meet the mission of the program in preparing students to be master's prepared registered dietitians/nutritionists. Offered winter semester. Prerequisites: Admission to the clinical dietetics program and approval of advisor.

## **CD 690 - Research Methodology in Clinical Dietetics (2 credits)**

This class provides an overview of research methods for undertaking research and program evaluation within food and nutrition organizations and systems. Students will acquire competencies in evaluating the scientific and clinical merit of published research, identify gaps in reviewed literature and use the literature review in crafting a research question. Offered winter and spring/summer semesters. Prerequisites: Admission to the clinical dietetics program and admission by instructor permit.

## **CD 693 - Master's Project (1 credit)**

Group research projects will be performed under the supervision of a faculty member and an approved mentor. A literature review, HSIRB determination, paper, and poster presentation are required. Students enroll in the one-credit course for three consecutive semesters for a total of three credits of CD 693 over three semesters. Offered fall and winter semesters. Prerequisites: Admission to the clinical dietetics program, CD 690 (may be taken concurrently), and completion of the Responsible Conduct of Research Training within the last three years.

## **CD 695 - Thesis Research in Clinical Dietetics (1 to 6 credits)**

Original research in an area of clinical dietetics. Work will be performed under the supervision of the graduate committee chair and/or mentor. A written thesis or publication and a public oral presentation are required. Credits one to six with at least six credits required. Offered each semester. Prerequisites: Admission to the clinical dietetics program, CD 690, and completion of the Responsible Conduct of Research Training within last three years.

## **CD 696 - Continuation of Master's Thesis or Project (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CD 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **CHI 101 - Beginning Chinese I: Language and Culture (4 credits)**

An introduction to the Chinese language. Practice in speaking, listening, reading, and writing at the beginning level. Introduction of Chinese culture integrated throughout. Supplemented by multimedia and the Language Resource Center. Offered fall semester.

## **CHI 102 - Beginning Chinese II: Language and Culture (4 credits)**

Continuation of CHI 101. Practice in speaking, listening, reading, and writing at the beginning level. Introduction of Chinese culture integrated throughout. Supplemented by multimedia and the Language Resource Center. Prerequisite: C (not C-) or better in CHI 101, or credit, or appropriate placement test score.

## **CHI 150 - Accelerated Beginning Chinese I and II: Language and Culture (4 credits)**

One semester accelerated review of beginning Chinese for students with prior study. The course covers the same material as CHI 101 and CHI 102. Prerequisite: Minimum of two years of high school Chinese or placement test.

## **CHI 180 - Special Topics in Chinese (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 100-level courses. May be repeated for credit when content differs. Offered on sufficient demand.

## **CHI 185 - Supplementary Elementary Chinese (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **CHI 201 - Intermediate Chinese I: Language and Culture (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Continuation of CHI 102. Practice in speaking, listening, reading, writing at the intermediate level. Chinese culture introduced through authentic texts and multimedia materials. Supplemented by multimedia and the Language Resource Center. Offered fall semester. Prerequisite: C (not C-) or better in CHI 102, or CHI 150, or credit, or appropriate placement test score.

## **CHI 202 - Intermediate Chinese II: Language and Culture (4 credits)**

Continued practice in speaking, listening, reading, and writing at the intermediate level. Chinese culture introduced through authentic texts and multimedia materials. Counts toward the Chinese minor, the East Asian studies minor, and the Chinese studies major. Fulfills Cultures - Global Perspectives. Prerequisite: C (not C-) or better in CHI 201, or credit, or appropriate placement test score.

## **CHI 236 - Popular Chinese Fiction (3 credits)**

This course is an overview of the most influential works of Chinese fiction in translation from pre-modern times to the present, focusing on the cultural messages embedded in them that have had a deep impact on Chinese culture and society today. Fulfills Foundations - Philosophy and Literature. Fulfills Cultures - Global Perspectives. Offered fall semester.

## **CHI 280 - Special Topics in Chinese (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 200-level courses. May be repeated for credit when content differs. No more than four credits can be applied to the minor or major. Offered on sufficient demand.

## **CHI 285 - Supplementary Intermediate Chinese (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **CHI 301 - Advanced Intermediate Chinese I (3 credits)**

This is a continuation of CHI 202 - Intermediate Chinese II. In this class, students continue to build vocabulary and sentence structures of Mandarin Chinese. More importantly, students shall become more proficient in the language, both written and spoken. Offered fall semester. Prerequisite: CHI 202.

## **CHI 302 - Advanced Intermediate Chinese II (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This is a continuation of CHI 301 - Advanced Intermediate Chinese I. In this class, students continue to build vocabulary and sentence structures of Mandarin Chinese. More importantly, students shall become more proficient in the language, both written and spoken. Offered winter semester. Prerequisite: CHI 301.

### **CHI 321 - Ancient Chinese Culture (3 credits)**

Explores the beautiful and rich lifestyle of ancient China through arts, music, and literature in translation. Covers archaic times (12th century B.C.) through post-Han dynasty (fifth century A.D.). Offered fall semester on demand.

### **CHI 322 - Classical Chinese Culture (3 credits)**

Explores the beautiful and rich lifestyle of classical China through art, music, and literature in translation. Covers the Sui-T'ang (sixth century A.D.) through the Ch'ing dynasty (19th century). Offered winter semester on demand.

### **CHI 323 - Late Imperial Chinese Culture (3 credits)**

This course offers an overview of different components of Chinese civilization in the last three imperial dynasties: Yuan (1279-1368), Ming (1368-1644) and Qing (1644-1912). The course materials include fiction, drama, prose, poetry, biography and autobiography, and various forms of traditional arts. Fulfills Cultures - Global Perspectives. Offered winter semester of odd-numbered years.

### **CHI 324 - Contemporary Chinese Culture (3 credits)**

An introduction to contemporary Chinese popular culture. Using a variety of primary source materials, including film, television dramas, reality shows, literature, art, and artifacts, it explores popular culture's relations to social change, public spaces, the state, individual freedom, collective justice, national and social identities, and globalization. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Offered winter semester. Prerequisite: Junior standing.

### **CHI 341 - Introduction to Classical Chinese (3 credits)**

The classical Chinese language, also known as literary Chinese, is the doorway into the fascinating world of Chinese culture. It has been the primary form of communication for at least 3,000 years. In this course, we will study the language through readings in early philosophical, historical, and poetic texts. Offered winter semester. Prerequisite: CHI 201.

### **CHI 351 - Practical Chinese (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Learning a language from a textbook is only the beginning of the journey to becoming proficient in that language. This course will explore the practical uses of Mandarin Chinese in such areas as different forms of mass media, advertising, nonfiction reference materials, packaging, entertainment, music, and the Internet. Offered fall semester. Prerequisite: CHI 202.

### **CHI 380 - Special Topics in Chinese (3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program. Offered on sufficient demand.

### **CHI 385 - Supplementary Advanced Intermediate Chinese (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **CHI 386 - Chinese Culture and Society - in Taiwan (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **CHI 387 - Chinese Culture and Society - in China (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **CHI 399 - Independent Reading (1 to 4 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department. Offered fall and winter semesters.

### **CHI 480 - Special Topics in Chinese (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 400-level courses. May be repeated for credit when content varies. Offered on sufficient demand.

### **CHM 100 - Preparatory Chemistry (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduction to topics covered in CHM 115, including atomic structure, formation of compounds, mass and mole relationships, chemical equations, stoichiometry, dimensional analysis, and significant figures. Appropriate for students who need additional preparation for CHM 115. Does not count toward a chemistry major or general education requirements. Prerequisites: MTH 110 (may be taken concurrently).

## **CHM 102 - Chemistry and Society (3 credits)**

A survey of some of the many ways in which chemistry is involved with people's day-to-day existence. This course is not applicable for a chemistry major or minor. Fulfills Foundations - Physical Sciences. (3-0-0) Offered fall and winter semesters.

## **CHM 109 - Introductory Chemistry (4 credits)**

An introductory study of general chemistry that presents the basic chemical principles and their applications. Designed for general education and students in programs that require a chemistry background but not the rigor of a full year of general chemistry. Does not count toward a chemistry major. Fulfills Foundations - Physical Sciences with a lab. (3-1-2) Offered every semester.

## **CHM 111 - Introduction to Green Chemistry (3 credits)**

Green chemistry, also known as sustainable chemistry, is the design of chemical products and processes that reduce or eliminate the use or generation of hazardous substances. The course presents basic concepts of green chemistry and engineering. It is not applicable for chemistry majors or minors. Fulfills Foundations - Physical Sciences.

## **CHM 115 - Principles of Chemistry I (4 credits)**

First semester of the two-semester general chemistry sequence for the sciences. Concepts of atomic structure, development of the principles of modern chemistry, connections between atomic/molecular structure, and observed behavior. Students continuing with CHM 116 should take MTH 122, MTH 124 or MTH 125 concurrently with CHM 115. (3-0-3) Fulfills Foundations - Physical Sciences with a lab. Offered every semester. Prerequisites: High school chemistry and MTH 110 (or equivalent by placement or exam).

## **CHM 116 - Principles of Chemistry II (5 credits)**

The second semester in the two-semester general chemistry sequence for the sciences. Builds on the theoretical foundation of CHM 115 to develop the concepts of equilibria, solubility, acids and bases, kinetics, and thermodynamics. (4-0-3) Offered every semester. Prerequisites: CHM 115 and (MTH 122 or MTH 124 or MTH 125 or equivalent by placement or exam).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CHM 180 - Special Topics in Chemistry (1 to 3 credits)**

Special topics for the first year in college chemistry. Offered upon sufficient demand.  
Prerequisite: Permission of chemistry department.

## **CHM 201 - Introduction to Chemical Sciences (3 credits)**

Introduction to chemical sciences emphasizing the descriptive approach. Lectures, demonstrations, discussions, experiments, and assignments illustrate concepts for PK-6 teaching. Classroom visits or curriculum/teaching projects arranged for PK-6 teaching students. Other students write a paper or complete other projects as a course requirement. Fulfills Foundation - Physical Sciences with lab. (3-0-2) Offered fall and winter semesters.

## **CHM 221 - Survey of Analytical Chemistry (4 credits)**

Survey course on classic wet chemical and instrumental methods of analysis with a focus on practical laboratory skills. Topics include gravimetric, titrimetric, and potentiometric techniques. Basic issues concerning UV-Vis and atomic absorption spectroscopy and gas and liquid chromatography are also covered. (3-0-4) Offered every semester. Prerequisite: CHM 116 or one full year of general chemistry.

## **CHM 230 - Introduction to Organic and Biochemistry (4 credits)**

A survey of organic and biochemistry. Topics include the biologically significant classes of organic compounds and their reactions, classes of biological compounds, and the major metabolic pathways. Does not apply to a chemistry major or minor. (3-0-2) Offered fall and winter semesters. Prerequisite: CHM 109 or equivalent.

## **CHM 231 - Introductory Organic Chemistry (4 credits)**

An introduction to organic chemistry. Topics include the classes of organic compounds, reactions, synthesis, and mechanisms. Includes laboratory. (3-1-2) Offered every semester. Prerequisite: CHM 109 or CHM 116.

## **CHM 232 - Biological Chemistry (4 credits)**

An introductory course in biochemistry. Topics include carbohydrates, proteins, lipids, nucleic acids, enzymes, metabolism, and protein synthesis. Includes laboratory. (3-1-2) Offered every semester. Prerequisite: CHM 231.

## **CHM 241 - Organic Chemistry for Life Sciences I (5 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The first semester of a two-semester sequence of organic chemistry designed to meet the specific needs of life science students. Topics include classes of organic compounds, nomenclature, transformations and reaction mechanisms, stereochemistry, and spectroscopy. This course emphasizes the importance and application of functional group organic chemistry in living systems. (4-0-3) Offered every semester. Prerequisite: CHM 116.

## **CHM 242 - Organic Chemistry for Life Sciences II (4 credits)**

A continuation of CHM 241. Topics include the nomenclature, organic transformations, mechanisms, stereochemistry, spectroscopy, and the chemistry of alcohols, carbonyls, carboxylic acid derivatives, amines, and carbohydrates. This course emphasizes the importance and application of functional group organic chemistry in living systems. (3-0-3) Offered every semester. Prerequisite: CHM 241 or (both CHM 245 and CHM 246).

## **CHM 245 - Principles of Organic Chemistry I (4 credits)**

A comprehensive overview of organic chemistry, focusing on nomenclature, chemical transformations (reactions), reaction energetics, and stereochemistry. In particular, this course will examine the chemistry of hydrocarbons and the use of spectroscopic techniques to determine chemical structures. A mechanistic approach in organic problem solving will be stressed. (4-0-0) Offered fall semester. Prerequisite: CHM 116. Corequisite: CHM 246.

## **CHM 246 - Principles of Organic Chemistry I Lab (1 credit)**

An introduction to laboratory techniques and procedures of synthetic organic chemistry including analysis of organic compounds using modern spectroscopic techniques. (0-0-4) Offered fall semester. Prerequisite: CHM 116. Corequisite: CHM 245.

## **CHM 247 - Principles of Organic Chemistry II (3 credits)**

An examination of the chemistry of alkyl halides, aromatic compounds, aldehydes, ketones, carboxylic acids, and derivatives of carboxylic acids. This course will build on the principles learned in CHM 245, emphasizing reaction energetics, stereochemistry, and spectroscopic analysis of reaction products. A mechanistic approach in organic problem solving will be stressed. (3-0-0) Offered winter semester. Prerequisite: CHM 245. Corequisite: CHM 248.

## **CHM 248 - Principles of Organic Chemistry II Lab (1 credit)**

A continuation of CHM 246, covering laboratory techniques and procedures of synthetic organic chemistry including analysis of organic compounds using modern spectroscopic techniques. (0-0-4) Offered winter semester. Prerequisites: CHM 245 and CHM 246. Corequisite: CHM 247.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CHM 273 - Principles of Inorganic Chemistry (3 credits)**

A one-semester introduction to the basics of inorganic chemistry through the application of descriptive models of atomic and molecular orbital theory. Students will be taken through a progression of structural topics, including molecular and extended solids, with a focus on d-block, and transition metal chemistry. Three hours of lecture per week. Offered fall semester. Prerequisite: CHM 116.

## **CHM 280 - Special Topics in Chemistry (1 to 3 credits)**

Special topics for the second year in college chemistry. Offered upon sufficient demand. Prerequisite: Permission of the chemistry department.

## **CHM 325 - Instrumental Analysis (4 credits)**

The theory and application of advanced analytical instrumentation. Emphasis is given to sample preparation methodology, liquid and gas chromatography, capillary electrophoresis, atomic spectroscopy, mass spectrometry, voltammetry, and writing instruction. The laboratory experience focuses on practical utilization of analytical techniques. Three hours of lecture and three hours of lab per week. Offered winter semester. Prerequisites: CHM 221 or CHM 222; fulfillment of general education Foundations - Writing.

## **CHM 351 - Introduction to Physical Chemistry (3 credits)**

A one-semester survey of the concepts of physical chemistry. Topics include the first and second laws of thermodynamics, free energy and equilibrium, kinetic theory of matter, reaction kinetics and mechanisms, and an introduction to quantum mechanics. Three hours of lecture per week. Offered fall semester. Prerequisites: CHM 116, MTH 201, and (PHY 220 or PHY 230); may be taken concurrently.

## **CHM 352 - Physical Chemistry Laboratory (1 credit)**

Experiments and techniques in physical chemistry. Topics will include thermodynamics, spectroscopy, and kinetics. Three hours of experimental work or other activities per week. Prerequisite: CHM 351 or CHM 356 (either may be taken concurrently).

## **CHM 356 - Physical Chemistry I (3 credits)**

Introduction to the mathematical-physical interpretation of chemical theory. Topics include quantum mechanics, atomic and molecular structure, spectroscopy, and chemical kinetics. (3-1-0) Offered fall semester. Prerequisites: CHM 116, MTH 202, and PHY 230.

## **CHM 358 - Physical Chemistry II (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Study of the mathematical-physical interpretation of chemical theory. Topics include kinetic-molecular theory of gases, thermodynamics, and statistical mechanics. (3-0-0) Offered winter semester. Prerequisites: CHM 356 and PHY 231 (may be taken concurrently).

## **CHM 380 - Special Topics in Chemistry (1 to 3 credits)**

Special topics for the third year in college chemistry. Offered upon sufficient demand. Prerequisite: Permission of chemistry department.

## **CHM 391 - Chemistry Seminar I (1 credit)**

Preparation and presentation of a short seminar based on a paper from the primary chemical literature, and observations of both student and external speakers. Class presentation and discussion of literature search techniques, professional development for chemists, laboratory safety practices, career opportunities, and job search skills. Offered fall and winter semesters. Prerequisites: 18 credits of chemistry (junior standing), chemistry major or minor, or biochemistry major.

## **CHM 399 - Readings in Chemistry (1 to 2 credits)**

Independent supervised reading in selected topics or supervised independent laboratory work in chemistry. The topics, hours, and amount of credit must be arranged with a faculty member and approved by the department chairman before registration. May be taken for a maximum of four credits. Offered on demand.

## **CHM 421 - Green Chemistry for Sustainable Environment (3 credits)**

Practical aspects of environmental and health issues are discussed following the principles of green chemistry. Environmental chemistry methods, application of green chemistry, benign design, and lifecycle analysis, through experimental design secure fundamental understanding of methodologies used in environmental laboratories and applications of green chemistry. Three hours of lecture per week. Offered fall semester. Prerequisite: One of CHM 231, CHM 242, or CHM 247.

## **CHM 427 - Green and Environmental Chemistry Laboratory (3 credits)**

Students are exposed to the methods used in environmental chemistry analysis and the application of green chemistry principles, benign design, life cycle analysis through experimental design, practical aspects of environmental, and human health issues. A solid understanding of methodology used in environmental laboratories and application of green chemistry is attained.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Offered fall semester. Prerequisites: CHM 221 and either (CHM 241) or both (CHM 245 and CHM 246).

### **CHM 441 - Advanced Topics in Organic Chemistry (3 credits)**

Advanced topics in organic chemistry selected from current examples in the scientific literature including reactions, mechanisms, and synthetic methods. Three hours of lecture per week. Prerequisite: CHM 242 or CHM 247.

### **CHM 442 - Synthetic Polymers: Life Cycle and Emerging Sustainable Technologies (3 credits)**

Synthetic and analytical approaches to polymer and materials development using the principles of green chemistry. Coverage of how chemists incorporate principles of green chemistry and sustainable technologies into their workflow to assess the life cycles of polymers and materials. Three hours of lecture per week. Offered winter semester of even-numbered years. Prerequisite: CHM 242 or CHM 247.

### **CHM 447 - Organic Synthesis and Characterization (3 credits)**

Advanced techniques in organic chemistry, including the synthesis and characterization of organic compounds. One hour of lecture and five hours of lab per week. Offered fall semester. Prerequisites: CHM 242 or (CHM 247 and CHM 248).

### **CHM 457 - Advanced Physical and Instrumental Chemistry Laboratory (3 credits)**

Advanced laboratory experiments in physical and analytical chemistry. Topics include chemical and physical equilibrium, chemical kinetics, spectroscopy and molecular structure, experimental design, and instrumental analysis. One hour of lecture and four hours of lab per week. Offered winter semester. Prerequisites: CHM 221 and CHM 352 (CHM 352 may be taken concurrently).

### **CHM 461 - Biochemistry I (4 credits)**

An introduction to biochemistry for science majors. Topics include the structure and function of biological molecules, bioenergetics, biochemical reaction mechanisms, and intermediary metabolism. Offered fall and winter semesters. Prerequisite: CHM 242 or CHM 247 or CHM 248.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CHM 462 - Techniques in Biochemistry (3 credits)**

Laboratory experiments and lectures covering techniques used in modern biochemical research. (1-0-6) Offered fall and winter semesters. Prerequisites: CHM 461; biochemistry, chemistry, or cell and molecular biology major, or permission of instructor.

## **CHM 463 - Biochemistry II (3 credits)**

A continuation of CHM 461. An in-depth coverage of advanced and recent topics in biochemistry, which may include amino acid, lipid, nucleotide metabolism, nucleic acid structure and function, and the control of biochemical processes at the protein and gene level. Offered winter semester. Prerequisite: CHM 461.

## **CHM 471 - Advanced Inorganic Chemistry (3 credits)**

A graduate-prep lecture course covering topics in inorganic chemistry, including chemical applications of group theory (molecular orbital analysis and symmetry selection rules), advanced topics in transition-metal chemistry, and a survey of organometallic synthesis and mechanisms. Offered fall semester. Prerequisites: (CHM 242 or CHM 248); CHM 273; and (CHM 351 or CHM 356). (CHM 351 or CHM 356, either may be taken concurrently).

## **CHM 475 - Electrochemistry (3 credits)**

This course introduces the basic concepts of electrochemistry. Course content builds upon chemical reactivity to include electron transfer and electromotive force. Topics focus on electroanalytical methods, energy storage electrochemistry, and chemical/electrical energy conversion. Applications to advanced energy systems will also be discussed. Offered winter semester of odd-numbered years. Prerequisites: CHM 115 and one of (PHY 221, PHY 231, or PHY 234); or permission of instructor.

## **CHM 477 - Synthetic Inorganic Chemistry (3 credits)**

A laboratory and lecture course extending student experience from organic chemistry to air-free handling techniques in chemical synthesis, structural analysis, and methods unique to the synthesis and characterization of inorganic and organometallic compounds. (1-0-5) Offered winter semester. Prerequisites: (CHM 273 or CHM 471) and (CHM 242 or CHM 248).

## **CHM 480 - Special Topics in Chemistry (1 to 3 credits)**

Special topics for the fourth year in college chemistry. Offered upon sufficient demand. Prerequisite: Permission of Chemistry Department.

## **CHM 490 - Chemistry Laboratory Internship (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Practical on-the-job training and independent study in specialized areas of chemistry. Offered on demand. Prerequisites: Chemistry major with a minimum of 20 hours in chemistry and permission of instructor. Can be taken for a maximum of four credits.

### **CHM 491 - Chemistry Seminar II (1 credit)**

Invited speaker and student presentation of topics from current chemical literature. Student presentations will be based on undergraduate research or a series of articles from the primary literature. Capstone for all chemistry and biochemistry majors. Offered fall and winter semesters. Prerequisites: CHM 391, senior standing, and chemistry or biochemistry major.

### **CHM 499 - Investigation Problems (1 to 5 credits)**

Supervised research in chemistry for junior and senior chemistry majors. Offered every semester. Prerequisite: Permission of instructor. Can be taken for a maximum of seven credits.

### **CHM 580 - Special Topics in Chemistry (1 to 3 credits)**

Special topics appropriate for graduate study in college chemistry. Offered upon sufficient demand.

### **CHM 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **CHS 380 - Special Topics in Chinese Studies (1 to 9 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 300-level courses. May be repeated for credit when the content varies.

### **CIS 101 - Thriving in our Digital World (3 credits)**

Computing technology has a profound influence in our society. Students work together to use technology for creative expression, write computer programs to solve problems, use digital tools to make meaning from vast amounts of information and to understand how the Internet supports modern communication. Fulfills Foundations - Mathematical Sciences. Offered fall and winter semesters. Prerequisite: MTH 110.

### **CIS 150 - Introduction to Computing (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Basic principles of computing, including study of the major components of a computer system. Introduction to software packages such as word processors, spreadsheets, databases, and languages. (3-0-0) Offered every semester.

## **CIS 159 - Java Programming for Engineers (1 credit)**

Introduction to object-oriented programming using Java for students with previous programming experience in a procedural language such as C. Topics include classes, objects, arrays, strings, selection and loop statements, I/O, graphical user interfaces (GUI), testing, unit testing tools, and debugging. Offered fall and winter semesters. Prerequisite: EGR 107 or EGR 185.

## **CIS 160 - Learn to Code in Python (3 credits)**

The ability to apply computation to address challenging problems is a critical skill in any discipline. Students will develop programming and computational skills emphasizing problem solving, logical inference, and algorithmic thinking to solve specific problems in the areas of the arts, humanities, health care, and business. Fulfills Foundations - Mathematical Sciences. (3-0-0) Offered every semester. Prerequisite: MTH 110.

## **CIS 161 - Computational Science (3 credits)**

Computational science is the field of study concerned with using computers to analyze, model, simulate, and solve problems in various mathematical and scientific disciplines. Offered winter semester. Prerequisite: MTH 201.

## **CIS 162 - Computer Science I (4 credits)**

Introduction to programming and computer science through lab and lecture. Simple and structured data types and program control structures. Problem analysis, algorithm design, and computer implementation using a high-level language. Offered every semester. Prerequisite: MTH 110.

## **CIS 163 - Computer Science II (4 credits)**

Intermediate object-oriented programming: inheritance, abstract classes, interfaces, and exception handling. Introduction to algorithms and data structures: basic analysis of performance using big O, recursion, searching, sorting, linked lists, stacks, queues, and basics of trees and tree traversal algorithms. (3-0-2) Offered every semester. Prerequisites: Either (MTH 122 or MTH 124 or MTH 201); and a C or better in either (CIS 159 or CIS 162).

## **CIS 180 - Special Topics in Computer Information Systems (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Readings, lectures, discussions, or labs (or any combination) in specific computer science topics at an introductory or elementary level. Offered on demand. Prerequisite: Permission of the instructor.

## **CIS 221 - Excel Concepts and Applications I (1.5 credits)**

Introduces students to fundamental concepts of spreadsheets using Microsoft Excel. It explores the structure of the Excel workbook; creating formulas and using functions; generating charts; and conducting data analysis. Practical business applications and business problem-solving techniques will be an integral part of this course. Offered every semester. Prerequisites: MTH 110, sophomore standing, declared business major or minor or CIS majors, or by permit.

## **CIS 230 - Hardware and Software (3 credits)**

Principles of computer hardware and software will be presented with the theoretical underpinnings, installation, and configuration. This course provides the hardware/software technology background to enable systems development personnel to understand tradeoffs in computer architecture for effective use in a business environment including system architecture for networked systems and operating systems. (3-0-0) Offered every semester. Prerequisite: CIS 150.

## **CIS 231 - Problem Solving Using Spreadsheets (3 credits)**

An introduction to Excel spreadsheets and its use as a tool in problem solving and applications. (3-0-0) Offered fall and winter semesters. Prerequisite: MTH 110 or MTH 115 or MTH 122 or MTH 201.

## **CIS 233 - Concepts of Database Systems (3 credits)**

Introduces key concepts of relational database management systems (DBMS) and database design. Provides hands-on experience in data modeling, database implementation, and the design of graphical user interfaces (GUI) suitable for querying and managing the database. Offered fall and winter semesters. Prerequisite: CIS 150 or CIS 160 or CIS 162.

## **CIS 237 - Introduction to Network Management (3 credits)**

An introduction to practical problems in network management such as reliability, performance, security, wire-line systems, wireless systems, data communications, local and wide-area networking protocols, SNMP protocol, and SNMP-based management. Offered winter semester. Prerequisite: CIS 150.

## **CIS 238 - Internet Media and Programming (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Study of the technology of Internet media, including graphics, video, audio, XML, and other emerging Internet technologies. Examines advanced features of the hardware and software requirements of those media. Also covers the implementation of those technologies through Web interface development. (3-0-0) Offered fall and winter semesters. Prerequisite: CIS 160 or CIS 162.

## **CIS 241 - System-level Programming and Utilities (3 credits)**

Introduction software infrastructure underlying development of computer programs. Topics include Linux utilities, shell scripting, processes, facilities for programming, the C programming language, libraries, structures, pointers, dynamic memory management, and system calls. Offered winter semester. Prerequisite: CIS 163 or CIS 260.

## **CIS 250 - Principles of Information Systems (3 credits)**

An introduction to, and exploration of, core Information Systems principles that prepare students to function more efficiently and effectively as professional workers, managers, decision makers, and organizational leaders. Students explore the challenging and changing role of the IS professional while examining the value Information Systems provide an organization. Offered every semester.

## **CIS 253 - COBOL (4 credits)**

Introduction to the COBOL language; file management techniques; mid-range computer processing; and program design, testing and implementation methodology with emphasis on structured programming. Topics include validation; reporting; file updating; tables; character manipulation; SORT and COPY statements; and the Report Writer feature. (4-0-0) Offered fall and winter semesters. Prerequisite: CIS 162.

## **CIS 258 - Introduction to Cybersecurity (3 credits)**

This course provides an introduction to all aspects of cybersecurity principles and technologies. Fundamental topics include cyber threats and vulnerabilities, information security frameworks, network security, cryptography, system defense, information security policy, legal issues, political issues and security management. The course includes hands-on learning through experiments, case studies, and projects. Offered fall and winter semesters. Prerequisite: CIS 162.

## **CIS 260 - Application Development in Visual Basic (4 credits)**

Builds on a student's knowledge of programming to explore applications designed for PCs and networks. Emphasis is placed on GUI development and accessing data in a legacy environment. Numerous programming assignments give experience using Visual Basic in a programming

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

environment, designing interactive forms, and using objects and controls to write applications. (3-0-2) Offered fall and winter semesters. Prerequisite: CIS 162.

## **CIS 263 - Data Structures and Algorithms (3 credits)**

Advanced data structures, including lists, trees, sets, and graphs. Analysis of algorithms. Emphasis on abstract data types, their representations, and role as models in the development of computer algorithms. (3-0-0) Offered fall and winter semesters. Prerequisites: CIS 241 and admitted to major (CS, IS, CE, CBS or IT).

## **CIS 280 - Special Topics in Computer Information Systems (1 to 3 credits)**

Readings, lectures, discussions, or labs (or any combination) in specific computer science topics. Permission of instructor required. Offered on demand.

## **CIS 290 - Professional Responsibilities and Practices (3 credits)**

History of the computing profession. Local and global impacts of computing technology on individuals, organizations and society. Professional ethics and responsibilities. Personal privacy, security and legal issues. Preparation for an internship in the computing field. Offered fall and winter semesters. Prerequisite: Admission to CIS major.

## **CIS 309 - Teaching Computer Science (3 credits)**

Emphasis on the use of the computer as an educational tool, including hardware and software selection, CAI, CMI, review of LOGO and BASIC. Discussion of social and personal issues, including legal, ethical, and economic concerns. (3-0-0) Offered winter semester of even-numbered years. Prerequisites: CIS 163 and ED 205.

## **CIS 310 - Introduction to the Structure and Mechanics of Social Networks (3 credits)**

A study of networks as implemented in typical online social network sites. This course examines a) the basics of representing and analyzing networks, b) the tools for implementing and managing an online social network, and c) the techniques for discovering and exploiting valuable information that resides in networks. Part of the Information, Innovation, or Technology Issue. Offered fall semester. Prerequisites: MTH 110 and junior standing.

## **CIS 320 - Visualization of Data and Information (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An introduction into the broad field of visualization and provides practical skills in developing engaging visuals (e.g., infographics, mapping, 3-D objects, animations, trees, graphs, illustrations, and document spaces). Design and create visual representations of quantitative and qualitative content using the breadth of visualization software that do not require technical backgrounds. Part of the Information, Innovation, or Technology Issue. Offered winter semester. Prerequisite: Junior standing.

## **CIS 321 - Excel Concepts and Applications II (1.5 credits)**

This course offers the opportunity to master the advanced functionality of Microsoft Excel, and to apply those skills to different business applications such as financial modeling, reporting, and the automation of accounting and financial tasks. Offered every semester. Prerequisite: CIS 221.

## **CIS 330 - Systems Analysis and Design (3 credits)**

Examines the system development and modification process. Emphasizes factors for effective communication with users and interpersonal skill development. Structured and object-oriented analysis and design, use of modeling (CASE) tools, methodological life cycle, and project management standards. (3-0-0) Offered fall and winter semesters. Prerequisites: CIS 162 and (either CIS 250 or MGT 268).

## **CIS 331 - Data Analysis Tools and Techniques (3 credits)**

This course will introduce the student to key technologies used for collecting, cleaning, manipulating, storing, analyzing, visualizing, and extracting useful information from large and diverse data sets. Upon completion of this course, students will be better prepared to assist organizations in facing the challenges of large-scale data analytics. Part of the Information, Innovation, or Technology Issue. (3-0-0) Offered fall semester. Prerequisites: STA 215 and junior standing.

## **CIS 333 - Database Management and Implementation (3 credits)**

Covers information systems design and implementation within a database management system environment. Students will design and construct a physical system using database management system software to implement the logical design. Examination of the system development and modification process. Emphasis on factors for effective communication with users and interpersonal skill development. (3-0-0) Offered every semester. Prerequisites: (CIS 162 or CIS 160) and (CIS 250 or MGT 268). Restrictions: Must be enrolled in Padnos College of Engineering and Computing or in the management major.

## **CIS 335 - Data Mining (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Data mining is the application of computational techniques to the discovery of useful information in large data sets. This course will provide a hands-on study of computational methods for such knowledge discovery. Topics include clustering, classification techniques, and selected data mining software. Offered winter semester. Prerequisites: (CIS 160 or CIS 161 or CIS 162) and STA 215.

## **CIS 337 - Network Systems Management (3 credits)**

Provides information systems students with the knowledge and skills necessary to manage the sophisticated Local Area Networks available today. It approaches the subjects of network design, installation, and management from the corporate view of networking. (2-0-2) Offered fall and winter semesters. Prerequisite: CIS 162.

## **CIS 338 - Wide Area Network Engineering (3 credits)**

Course covers the technologies, equipment and protocols of the Internet. Lectures cover the design principles of WAN transport and routing protocols, Internet addresses, subnetting, and the Internet Protocol/Transmission Control Protocol. A set of laboratory experiments will provide hands-on experience with engineering a wide-area network and extensive work with routing equipment. (2-0-2) Offered fall semester. Prerequisites: (CIS 237, CIS 337, or CIS 457) and admission to CIS major.

## **CIS 339 - Project Planning (3 credits)**

A structured approach to project planning. Topics covered emphasize the knowledge areas of the Project Management Body of Knowledge (PMBOK) that drive project initiation and definition leading to the development of a project schedule and budget. Students will prepare typical project management work products associated with initiating and planning projects. Offered winter semester.

## **CIS 340 - Health Care Information Systems (3 credits)**

Introduces principles of information systems in health care with focus on hospitals and ambulatory care. Individuals with various backgrounds can become familiar with computer applications in medicine and the fundamentals of electronic health records, medical decision-making, and other aspects of health informatics. A major project integrates different aspects of informatics. (3-0-2) Offered fall semester. Prerequisites: CIS 233, CIS 333, CIS 353, or CIS 360.

## **CIS 343 - Structure of Programming Languages (3 credits)**

Language definition structure. Data types and structures. Control structures and data flow. Lexical analysis and parsing. Interpretive languages. Run time considerations. Survey of programming languages. (3-0-0) Offered winter semester. Prerequisite: CIS 241 and admitted to CIS major (CS, IS, CE, CBS, IT).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CIS 349 - Agile Project Management (3 credits)**

This course goes beyond the planning of a project and explores what other factors, when well-managed, lead to project success. Topics include current trends in project management. A major emphasis will be placed on understanding agile project management principles and their relationship to the Project Management Body of Knowledge (PMBOK). Offered winter semester.

## **CIS 350 - Introduction to Software Engineering (3 credits)**

Systems development life cycle from project request through project implementation and evaluation. Systems analysis and design concepts, tools, and techniques are emphasized. Traditional and structured approaches. Project management. (3-0-0) Offered fall and winter semesters. Prerequisite: CIS 163.

## **CIS 351 - Computer Organization and Assembly Language (4 credits)**

Introduction to the logical structure of computers, including combinational and sequential logic, arithmetic, data paths, CPU control, caches, and basic pipelining. Introduction to assembly language including data movement, arithmetic, comparing and branching, bit manipulation, procedure calling, memory access, and implementation of high-level language constructs. (3-0-2) Offered fall and winter semesters. Prerequisites: MTH 225, CIS 241, and (admitted to major: CS, IS, IT, CBS, CE).

## **CIS 353 - Database (3 credits)**

The study and application of established sound principles in the modeling, design, implementation, and manipulation of databases using industrial-strength Database Management Systems (DBMS). Key features and services offered by a typical DBMS are also introduced. Offered fall and winter semesters. Prerequisite: CIS 163.

## **CIS 357 - Mobile Application Development (3 credits)**

Fundamental concepts and technologies underlying mobile application development. All aspects of developing and deploying conventional mobile applications are covered, including mobile user interfaces, location-based services, integration with social media and other cloud-based services. Also covered will be effective use of mobile analytics and privacy concerns. Offered fall semester. Prerequisite: CIS 163 or CIS 260.

## **CIS 358 - Information Assurance (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduction to security, privacy, and information assurance. Coverage will include not only security threats, attacks, and defenses, but also issues important to information assurance such as risk management, security planning, and ethical issues. Perspectives of computing professionals as well as computing users from other professions will be discussed. Part of the Information, Innovation, or Technology Issue. Offered winter semester. Prerequisite: Junior standing.

## **CIS 360 - Information Management and Science (3 credits)**

Introduction to information representation, modeling, storage, retrieval, processing, analysis, visualization, and science. Topics may include digital libraries, repositories, collections, metadata, databases, ontologies, vocabularies, dictionaries, and multimedia, as applied to complex and compound content at a large scale. Approaches will be discussed for business, medical, humanities, and scientific contexts. Offered fall semester. Prerequisites: (CIS 160 or CIS 161 or CIS 162) and (STA 215 or STA 312).

## **CIS 365 - Artificial Intelligence (3 credits)**

Introduction to the concepts of artificial intelligence using the LISP programming language. Knowledge representation and problem solving applied to expert systems, natural language understanding, machine learning, and vision. (3-0-0) Offered winter of even-numbered years. Prerequisite: Admission to CIS major.

## **CIS 367 - Computer Graphics (3 credits)**

Principles of computer graphics. I/O devices. Basic graphic primitives and attributes. Transformations: translation, scaling, and rotation. World and screen coordinates, windows and viewports, clipping. Circle drawing. Graphics and text modes. Raster graphics. Filling algorithms. 3-D graphics. Hidden line/surface elimination. (3-0-0) Offered winter semester of odd-numbered years. Prerequisites: CIS 263 and admission to CIS major.

## **CIS 368 - Usability Design and Evaluation (3 credits)**

The usability engineering design cycle. Discount usability evaluation techniques. Graphical user interface development. Technical communication skills. (3-0-0) Offered fall semester. Prerequisite: Admission to CIS major.

## **CIS 371 - Web Application Programming (3 credits)**

The tools and techniques for developing dynamic Web applications. Topics include scripting languages, markup languages, database connectivity, Web standards, and security issues. Offered winter semester. Prerequisites: (CIS 260 or CIS 163) and (CIS 333 or CIS 353).

## **CIS 373 - Pervasive Computing (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course introduces students to mobile, ubiquitous, pervasive, and Internet-of-Things (IoT) computing systems and services. Students will develop design skills for pervasive software development using different device platforms. It also provides an overview of future trends and ongoing research in these fast-growing areas. Offered fall and winter semesters. Prerequisites: CIS 162 and CIS 230.

## **CIS 375 - Wireless Networks and Security (3 credits)**

A multidisciplinary, hands-on oriented wireless networks and security course that integrates topics at all layers of wireless networks and mobile systems, starting from wireless physical layer through application layer. The course presents security techniques employed in common wireless systems and emphasizes hands-on learning through experiments, case studies, and design projects. Prerequisite: CIS 337 or CIS 457.

## **CIS 376 - Game Programming Techniques and Algorithms (3 credits)**

Techniques and algorithms often used in the construction of games and simulations. Core game loop and engine design considerations, 2-D and 3-D graphical concepts, game physics, collision detection, path-finding, and simple game artificial intelligence discussed. Offered fall and winter semesters. Prerequisite: CIS 263.

## **CIS 380 - Special Topics in Computer Information Systems (1 to 4 credits)**

Readings, lectures, discussions, or labs (or any combination) in specific computer science topics. Offered on demand. Prerequisite: CIS major standing or permission of the instructor.

## **CIS 399 - Independent Readings (1 to 4 credits)**

Hours, credit, topics, and time to be arranged with individual staff members with approval of the department. Offered fall and winter semesters.

## **CIS 418 - Secure Software Engineering (3 credits)**

This course explores characteristics that make software secure and less vulnerable to attacks. Basic techniques for securing applications such as input validation, output encoding, memory management, race conditions, vulnerability analysis and testing, authentication, access control, and secure database management will be covered in detail. Cross-listed with CIS 518. Prerequisite: CIS 350.

## **CIS 430 - Computer and Cyber Forensics (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduction to the fundamental concepts of digital forensics and cybercrime. The course covers the recovery and analysis of digital evidence, addressing both legal and technical issues. Hands on lab activities use primarily open source and commercial forensics toolkits and a variety of hardware to reinforce the concepts discussed in lecture. Offered fall and winter semesters. Prerequisite: CIS 237 or CIS 337 or CIS 457.

## **CIS 437 - Distributed Computing (4 credits)**

Foundations of distributed computing: modern operating systems and computer networks. Comparative discussions of commercially important OSs. Network programming paradigms, network applications, and client/server development. Laboratory exercises in network and client/server programming. (3-0-2) Offered fall and winter semesters. Prerequisites: (CIS 333 or CIS 353), and CIS 337, and admission to CIS major.

## **CIS 443 - Software Development Tools (3 credits)**

Advanced online programming, incorporating contemporary multiplatform computing technologies, application development environments, multi-and/or cross-platform database applications, and application data integration. The course may utilize one or more representative application development environments. Offered winter semester. Prerequisites: (CIS 330 or CIS 350), and (CIS 333 or CIS 353), and admission to CIS major.

## **CIS 450 - IS Project Management (3 credits)**

This course covers factors necessary for successful management of information systems development or enhancement projects. Both technical and behavioral aspects of project management are applied within the context of an information systems development project. (3-0-0) Offered fall semester. Prerequisites: CIS 330, CIS 333, and admission to CIS major.

## **CIS 451 - Computer Architecture (3 credits)**

This course will survey advanced computer architecture techniques such as branch prediction, super-scalar, multiprocessors and multicomputers. It will also compare CPU design options (such as CISC vs. RISC) and discuss the effects of these options on performance. Prerequisites: (CIS 351 or EGR 326) and admission to CIS major or EGR major standing.

## **CIS 452 - Operating Systems Concepts (4 credits)**

Fundamental operating systems concepts: processes and threads, CPU scheduling, coordination and synchronization, deadlock, memory management, input/output devices, file systems, distributed systems, protection and security. Case studies and lab exercises using modern operating systems. Offered fall and winter semesters. Prerequisites: CIS 241; and CIS 351 or (EGR 326 and EGR major standing).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CIS 455 - Applied Cryptography (3 credits)**

Applied modern cryptographic and cryptanalysis techniques. Emphasis on the use of cryptographic mechanisms to secure large systems, and ways in which cryptographic mechanisms can fall vulnerable to cryptanalysis in deployed systems. Topics include symmetric ciphers, asymmetric ciphers, digital signatures, message authentication, cryptographic protocols, cryptanalysis techniques, and public-key infrastructure. Cross-listed with CIS 555. Offered fall semester. Prerequisites: Admission to CIS major; CIS 241; and either CIS 337 or CIS 457.

## **CIS 456 - Reverse Engineering and Malware Analysis (3 credits)**

Software reverse engineering including analysis techniques and disassembly algorithms. Component life cycle and the impact of the security of system components on the security of the whole system. Malware analysis techniques including the application of software reverse engineering to malware analysis, and common methods used to protect malware against reverse engineering. Offered winter semester. Prerequisites: CIS 351 and CIS 258.

## **CIS 457 - Data Communications (4 credits)**

An introduction to data communications techniques, particularly as applied to computer networks. Physical media and devices, data link and network protocols, and other data communications topics will be studied. (3-0-2) Offered fall and winter semesters. Prerequisites: CIS 241 and (CIS major, CIS minor, or EGR major standing).

## **CIS 458 - System Security (3 credits)**

Security of computer systems, including operating system, database, and network security. Coverage includes common attacks and defensive techniques as well as system monitoring and methods to test system security. Theory and applications of various techniques will be explored. (2-0-2) Offered fall semester. Prerequisites: (CIS 337 or CIS 457); and admission to CIS major.

## **CIS 460 - Management of Information Systems (3 credits)**

This course integrates the information needs of the organization with the technology of information systems. Administration and policy are applied to specific areas of information systems management. (3-0-0) Offered fall and winter semesters. Prerequisites: CIS 330, MGT 331, and admission to CIS major.

## **CIS 461 - Compiler Design and Construction (3 credits)**

Basics of compiler construction. Topics include lexical analysis, grammars for programming languages, parsing algorithms, symbol table construction and management, code generation and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

optimization. A term project consists of writing a compiler for a specified language. (3-0-0)  
Offered fall semester of even-numbered years. Prerequisites: CIS 351, CIS 263, and admission to CIS major.

## **CIS 462 - Information Technology Project (3 credits)**

As a Capstone course of the information technology major, the student or a group of students will work collaboratively on a project using the school's laboratory facilities to demonstrate the skills and techniques learned in the program of study such as problem solving, critical thinking, research techniques, and technical writing. Offered fall and winter semesters. Prerequisites: CIS 437, CIS 458, and CIS major standing.

## **CIS 463 - Information Systems Project (3 credits)**

Formal evaluation of a software/hardware package or of a proposed or existing system, or the analysis, design, and implementation of an application system. Formal reports and presentations required. (3-0-0) Offered fall and winter semesters. Prerequisites: CIS 450 and admission to CIS major.

## **CIS 465 - Automata and Theory of Computation (3 credits)**

Introduction to basic mathematical models of computation and the finite representation of infinite objects. Finite automata, regular languages, nondeterminism, pushdown automata, context-free languages, Turing machines and variants, halting problem, time complexity of algorithms, and NP-complete problems. (3-0-0) Cross-listed with MTH 465. Offered fall semester of odd-numbered years. Prerequisites: MTH 325, CIS 162, and admission to CIS major.

## **CIS 467 - Computer Science Project (3 credits)**

Individual or group projects using the department's laboratory facilities. (3-0-0) Offered fall and winter semesters. Prerequisites: CIS 350, (either CIS 452 or CIS 457), and admission to CIS major.

## **CIS 468 - Cybersecurity Project (3 credits)**

As a Capstone course of the cybersecurity major, the student or a group of students will work collaboratively on a project using the school's laboratory facilities to demonstrate the skills and techniques learned in the program of study such as problem solving, critical thinking, research techniques, and technical writing. Offered fall and winter semesters. Prerequisites: CIS 418, CIS 430, CIS 458, and CIS major standing.

## **CIS 480 - Special Topics in Computer Information Systems (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Readings, lectures, discussions, or labs (or any combination) in specific computer science topics. Offered on demand. Prerequisites dependent upon topic selected. Permission of the instructor required.

## **CIS 490 - Internship (2 to 5 credits)**

Internship in a computing situation with individual faculty supervision to allow students to apply academic knowledge to actual and professional experience. A minimum of 16 hours of actual fieldwork per week under the supervision of a work supervisor is required. Offered every semester. Prerequisites: CIS 290, junior standing, and permission of instructor.

## **CIS 499 - Independent Study and Research (1 to 4 credits)**

Hours, credit, topics, and time to be arranged with individual staff members with approval of the department. Offered every semester.

## **CIS 500 - Fundamentals of Software Practice (3 credits)**

Focuses on advanced programming concepts, common data structures and collections, concurrency, software modeling, searching and sorting algorithms. Elements of discrete mathematics are integrated through lectures and programming projects. Offered fall semester. Prerequisite: Admission to the CIS program.

## **CIS 501 - Fundamentals of Modern Computer Systems (3 credits)**

Survey of the fundamental systems of computing: computer architectures, operating systems, networks, and databases. Offered winter semester. Prerequisite: Admission to the CIS program.

## **CIS 511 - Networking Fundamentals (1 credit)**

Survey of fundamental concepts of computer networking. Topics include protocols, protocol stacks, addressing, and routing. Focus is on TCP/IP (Transmission Control Protocol/Internet Protocol). Offered every semester. Prerequisite: Admission to the applied computer science program.

## **CIS 512 - Database Fundamentals (1 credit)**

Survey of fundamental concepts of relational databases. Topics include relationships, tables, primary and foreign keys, and query languages. Focus is on SQL (Structured Query Language). Offered every semester. Prerequisite: Admission to the applied computer science program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CIS 518 - Secure Software Engineering (3 credits)**

This course explores characteristics that make software secure and less vulnerable to attacks. Basic techniques for securing applications such as input validation, output encoding, memory management, race conditions, vulnerability analysis and testing, authentication, access control, and secure database management will be covered in detail. Cross-listed with CIS 418.

Prerequisite: CIS 500.

## **CIS 555 - Applied Cryptography (3 credits)**

Applied modern cryptographic and cryptanalysis techniques. Emphasis on the use of cryptographic mechanisms to secure large systems, as well as ways in which cryptographic mechanisms can fall vulnerable to cryptanalysis in deployed systems. Topics include symmetric ciphers, asymmetric ciphers, digital signatures, message authentication, cryptographic protocols, cryptanalysis techniques, and public-key infrastructure. Cross-listed with CIS 455. Offered fall semester. Prerequisites: Admission to one of the M.S. programs in CIS (CIS, cybersecurity, data science and analytics, and health informatics and bioinformatics), CIS 500, and CIS 501.

## **CIS 611 - Introduction to Software Engineering (3 credits)**

Examination of traditional and alternative software development life cycles and their associated systems analysis techniques. Models for data, process, and control are related both to information required by various life cycle models and to the development of traditional and object-oriented software. (3-0-0) Offered winter semester. Prerequisite: Admission to CIS program or permission of instructor.

## **CIS 612 - Requirements Specification (3 credits)**

Both the process and the product aspects of requirements specification are examined; the concepts are applicable to systems and to software. The advantages and limitations of several requirements specification techniques are presented. (3-0-0) Offered fall semester.

## **CIS 613 - Software Testing (3 credits)**

Discussion of the major techniques of software testing: software technical reviews, software testing techniques, proofs of correctness, and simulation/prototyping. Concludes with guidelines on organizational implications of software verification and validation activities. (3-0-0) Offered winter semester.

## **CIS 615 - Information Security Principles (3 credits)**

This course presents the principles of information security, and how to integrate these principles into the systems life cycle. Coverage includes a broad overview of information security concepts,

requirements, threats, vulnerabilities, and countermeasures, with an emphasis on designing for security, risk management, and security policies. Offered fall semester. Prerequisite: Admission to M.S.-CIS program.

## **CIS 616 - Data Security and Privacy (3 credits)**

This course covers advanced concepts and techniques to secure data and preserve privacy in a distributed multiuser environment. Topics include applied cryptography, network security, operating system security, and privacy preserving techniques. Offered fall and winter semesters. Prerequisite: CIS 501.

## **CIS 617 - Digital Forensics and Investigations (3 credits)**

An introduction to the application of digital forensics principles and practices to collect, examine, analyze and preserve digital evidence in support of cyber forensics investigations in various computing systems. This course is a blended mix of lecture and hands-on exercises to reinforce the concepts discussed in the lecture. Offered every semester. Prerequisite: CIS 501.

## **CIS 619 - Data Analytics for Cybersecurity (3 credits)**

This course addresses the needs for data mining and machine learning techniques for detecting and preventing cyber threats. The course surveys cybersecurity problems, machine learning and data mining solutions. It will cover the theory and practice of using data mining algorithms in the context of cybersecurity to detect intelligent adversaries. Offered every semester. Prerequisite: CIS 616.

## **CIS 622 - Software Design Methodologies (3 credits)**

Focuses on concepts, notations, and guiding principles for object-oriented design. Other design methods (such as structured design and data-oriented design) are discussed and compared to object-oriented design. (3-0-0) Offered winter semester. Prerequisite: CIS 500.

## **CIS 623 - Graphical User Interface Design (3 credits)**

Topics include basic concepts, models, and methods in graphical user interface (GUI) design, as well as underlying software architectures. In addition, students will gain practical experience with a typical GUI building tool. (3-0-0) Offered fall semester. Prerequisite: CIS 500.

## **CIS 635 - Knowledge Discovery and Data Mining (3 credits)**

A survey of computational methods for knowledge discovery in bioinformatics and medicine. Topics covered are dynamic programming (sequence alignment, BLAST search engine), Hidden Markov Models (phylogenetic trees, structure prediction), clustering and discriminations models

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

for micro-array analysis (Gene Expression Data), selected data mining software, and working with biological databases. Offered winter semester. Prerequisite: CIS 500.

## **CIS 641 - Systems Analysis and Design (3 credits)**

Models and techniques for the major phases of software development, with emphasis on requirements specification, design, testing, and software maintenance. Description of the roles of project management, quality assurance, and configuration management. (3-0-0) Offered fall semester. Prerequisite: Admission to CIS program or permission of instructor.

## **CIS 642 - IS Project Management (3 credits)**

Planning, organizing, staffing, controlling, and directing information systems projects. Major emphasis on project planning, techniques and tools for monitoring and controlling projects, and teamwork and leadership issues. A term project that involves the development of a project plan for a nontrivial IS project using project management tools is required. Offered winter semester. Prerequisite: CIS 611 or CIS 641.

## **CIS 643 - Information Systems Policy and Strategy (3 credits)**

Operational, strategic, and tactical facets of the planning cycle, with an emphasis on strategic planning, including hardware and software considerations, system migration, capacity and contingency planning, project selection and prioritization, and outsourcing, culminating in the creation of a strategic information systems plan. (3-0-0) Offered fall semester. Prerequisite: CIS 642.

## **CIS 654 - Computer Networking (3 credits)**

Data communications and computer networking concepts, Internet architecture and protocols. Selected examples of client/server applications to introduce the functional requirements of Internet working. Basic cryptography and its applications, introduction to network security (firewalls, IPsec, VPN and SSL). (3-0-0) Offered winter semester. Prerequisites: CIS 500 and CIS 501.

## **CIS 656 - Distributed Systems (3 credits)**

Fundamental principles of distributed systems: systems and software architectures, virtualization, code migration, threading, RPC, message-oriented middleware, multicast, distributed naming systems, DHTs, clock synchronization, logical clocks, consistency and replication, overview of distributed Web technologies, fault tolerance and security considerations. Exposure to current research topics in distributed systems, and hands-on experience building distributed systems. Offered fall semester. Prerequisites: CIS 500 and CIS 501.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CIS 657 - Mobile Application Development (3 credits)**

Fundamental concepts and technologies underlying mobile application development. Important aspects of developing and deploying conventional mobile applications are covered, such as mobile user interfaces, location-based services, integration with social media and other Web-based services. Effective use of mobile analytics and privacy concerns will also be covered. Offered spring/summer semester. Prerequisites: CIS 500 and 501.

## **CIS 658 - Web Architectures (3 credits)**

Current and emerging Web-based technologies, protocols, system architectures, development frameworks, and languages. Offered winter semester. Prerequisites: CIS 500 and CIS 501.

## **CIS 660 - Information Management and Science (3 credits)**

An introduction to information modeling, retrieval, analysis, visualization, and science as applied to large-scale content. Information access and utilization within the context of commonly used management and analysis methodologies. Offered winter semester. Prerequisite: CIS 500 or CIS 661.

## **CIS 661 - Introduction to Health and Bioinformatics (3 credits)**

A survey of fundamental concepts of medical and bioinformatics methods and techniques involved in the integration of computer systems in medical centers and life science industries. Introduction to biomedical information systems; data representation, modeling, management and mining; systems evaluation; project management practices for biomedical decision-making. Legal and ethical considerations. Offered fall and winter semesters.

## **CIS 665 - Clinical Information Systems (3 credits)**

Introduction to Clinical Information Systems (CLIS) important to the health care delivery process. The course covers the entire range from laboratory systems to electronic health records. Other topics covered are CLIS and health informatics, components and examples of CLIS, telemedicine, public health information systems, and modern developments. Offered fall semester. Prerequisite: CIS 500, or CIS 661, or PNH 630.

## **CIS 671 - Information Visualization (3 credits)**

Concepts of information visualization, principles in vision and perception, algorithms for building information spaces, and principles of user interface design. Case studies demonstrate information visualization used to solve specific retrieval and decision problems for biological data. Evolution of visual user interfaces and visualization tools, visual information retrieval, and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

knowledge representation. Offered winter semester. Prerequisite: CIS 500 or CIS 661 or equivalent.

## **CIS 672 - Computer Systems Architecture (3 credits)**

Provides a general understanding of computer architecture and the logical organization of modern digital computers. CPU organization and input/output subsystem organizations are emphasized. The relationship between the computer architecture and the operating system is studied. (3-0-0) Offered on demand. Prerequisite: CIS 500.

## **CIS 673 - Principles of Database Design (3 credits)**

Techniques and tools used in the design of applications that utilize database management systems. Detailed treatment of conceptual modeling, logical and physical design, and query languages. Services provided by database management systems to the level of detail needed by application designers. Introduces students to the scope of the database field. (3-0-0) Offered fall semester. Prerequisites: CIS 500 and CIS 501.

## **CIS 675 - Compiler Construction (3 credits)**

A study of language translation and interpretation. Existing tools such as lexical analyzer generators and parser generators to facilitate compilation are introduced. A substantial programming project is required that consists of writing a small compiler. (3-0-0) Offered on demand. Prerequisite: CIS 500.

## **CIS 676 - Database Management Systems (3 credits)**

This course covers the concepts, algorithms, and techniques used by typical relational database engines. Topics include performance measures, data storage and organization, query optimization, and concurrency. These concepts are also extended to cover parallel, distributed, and post-relational databases. Offered winter semester. Prerequisite: CIS 673.

## **CIS 677 - High-performance Computing (3 credits)**

Introduction to parallel and high-performance computing. Coverage includes modern scalable parallel and distributed architectures, design and analysis of algorithms, communication and synchronization issues, software development environments, and performance evaluation. Case studies include applications in bioinformatics, evolutionary computing, data mining of biological and clinical databases, and knowledge-based systems. Offered fall semester. Prerequisite: CIS 500 or CIS 661 or equivalent.

## **CIS 678 - Machine Learning (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Broad introduction to machine learning computer programs that improve their performance with experience. Topics include decision trees, neural networks, statistical methods, genetic algorithms, Bayesian learning methods, explanation-based goal regression, reinforcement learning, and learning frameworks. Includes an applied machine learning component that provides exposure to established algorithms and machine learning programs. Offered winter semester. Prerequisite: CIS 500 or CIS 661 or equivalent.

## **CIS 679 - Special Topics in Database Management (3 credits)**

This course covers emerging trends in database management systems in order to help students identify topics for research during and beyond the course. Specific contents and level of emphasis of each topic will be determined by the interests and expertise of faculty and students. Offered fall semester. Prerequisite: CIS 676.

## **CIS 680 - Special Topics in Computer Information Systems (3 credits)**

Discussion of current advances in computer information systems theory, methodologies, and support systems. (3-0-0) Offered on demand.

## **CIS 685 - Computing Practicum (1 credit)**

Field-based experience designed to provide professional experience for graduate students (especially full-time international students). Each practicum must be with approval by the graduate program chair, or the director of the School of Computing and Information Systems. Offered every semester.

## **CIS 690 - Thesis Research Preparation (3 credits)**

Faculty-supervised study and research on a suitable topic in computer information systems. Offered every semester. Prerequisite: Consent of thesis advisor.

## **CIS 691 - Medical and Bioinformatics Capstone (3 credits)**

An integrative Capstone that synthesizes topics covered in medical/bioinformatics. Promotes advanced writing and broad perspectives of issues in contemporary information systems. Students will demonstrate ability to integrate concepts to a practical situation by leading discussions and presenting a paper on a current topic. Offered winter semester. Prerequisite: Completion of directed courses in medical and bioinformatics.

## **CIS 692 - Master's Capstone (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An integrative Capstone course that promotes synthesis of topics in at least two content areas. Seminar for students having completed all courses in two content areas. Students will demonstrate ability to apply concepts to a practical situation by leading a critical discussion and presenting a paper on a current topic. Offered fall and winter semesters. Prerequisite: Completion of technical thread.

### **CIS 693 - Master's Project (3 credits)**

Individual student project involving the development or evaluation of a complex computing application or system. Offered every semester. Prerequisites: Program director approval and the completion of the Responsible Conduct of Research Training within last three years.

### **CIS 695 - Master's Thesis (3 credits)**

Continuation of faculty supervised study and research on topic identified in CIS 690. Offered every semester. Prerequisites: Consent of Thesis Committee and completion of the Responsible Conduct of Research Training within last three years.

### **CIS 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

### **CIS 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **CIS 699 - Directed Readings in Computer Science (1 to 3 credits)**

Independent supervised reading on selected topics in computer information systems or software engineering. Credits and topics must be prearranged with a faculty member and approved by the department. Offered every semester. Prerequisite: Consent of course advisor.

### **CJ 100 - Careers in Criminal Justice (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An introduction to criminal justice as a career. The major fields of criminal justice and the typical responsibilities of a criminal justice practitioner are introduced through the use of readings, discussions, and presentations. Offered every semester.

## **CJ 101 - Justice and Society (3 credits)**

This introduction to the study of crime and justice includes theories and methodologies from a variety of social science disciplines. The course also provides an introduction to the study of social control and to the origins of crime at individual, structural, and cultural levels. Fulfills one of the Foundations - Social and Behavioral Sciences. Offered fall and winter semesters.

## **CJ 201 - Criminology (3 credits)**

An analysis of crime, criminal behavior, punishment, and the theories of deviancy from historical perspectives. Offered fall and winter semesters. Prerequisite: CJ 101 (may be taken concurrently).

## **CJ 300 - Research Methods in Criminal Justice (3 credits)**

This course involves an examination of basic investigatory methods in criminal justice. Focus is on the logic and theory of criminological research, the formulation and testing of hypotheses, research design, sampling, modes of data production, and the ethics of conducting research in criminology and criminal justice. Offered fall and winter semesters. Prerequisites: STA 215, criminal justice or legal studies major standing, and junior standing.

## **CJ 302 - Criminal Law (3 credits)**

The sources, specific and general elements, and limitations of modern criminal laws, and the role of criminal law in the definition and control of deviant behavior in contemporary society. Offered fall and winter semesters.

## **CJ 305 - Constitutional Rights and Civil Liberties (3 credits)**

Survey of the nature and extent of protection of civil liberties and civil rights of the accused under the U.S. Constitution through examination of landmark Supreme Court decisions. Offered fall and winter semesters.

## **CJ 311 - Criminal Investigation (3 credits)**

Modern police field investigative techniques in collection and preservation of physical evidence and interrogation and preparation of formal statements of witnesses and suspects. Offered fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CJ 312 - Police Process (3 credits)**

Functions of law enforcement and the roles of the police in contemporary society. Study of the police from several perspectives: historical, sociological, psychological, organizational, and political. Issues, research, and trends pertinent to law enforcement organizations. Offered fall and winter semesters. Prerequisite: CJ 201.

## **CJ 315 - Principles of Security (3 credits)**

An in-depth analysis of the historical perspectives, current status components, and opportunities in private security. Special emphasis is placed on technology, internal and external threats, and fire prevention and safety. Offered fall semester.

## **CJ 320 - Crimes Against Women (3 credits)**

An in-depth study of crimes committed almost exclusively against women. Such crimes include sexual harassment, rape, and certain types of murder. The course is taught within the framework of feminist theory and research. Cross-listed with WGS 320. Offered fall semester.

## **CJ 325 - Criminal Justice and Human Rights (3 credits)**

A comparative study of criminal justice in relation to past, current, and emerging human rights claims, violations, protections and enforcement locally, regionally, nationally, and internationally. Part of the Human Rights Issue. Offered winter semester. Prerequisite: Junior standing.

## **CJ 330 - Correctional Process (3 credits)**

An examination and discussion of the American correctional process with emphasis on correctional institutions, inmate social system, institutional, and community programs and procedures, probation, parole, and contemporary issues. Offered fall and winter semesters. Prerequisite: CJ 201.

## **CJ 335 - Digital Crime, Media and Culture (3 credits)**

Examination of digital communication and media in relation to crime and victimization as it intersects with the United States and international criminal justice systems. Investigation of the use of digital spaces and media in relation to cultures of privacy, fraud, trafficking, emancipation, terror and perceptions of expanding and retracting democracy. Part of the Globalization Issue. Cross-listed with DS 335. Offered every semester. Prerequisite: Junior standing.

## **CJ 340 - Courts Process (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An examination of the federal, state, and juvenile court systems in the United States, emphasizing comparison of civil and criminal court systems; the roles and responsibilities of the legal actors; the dynamics of courthouse justice from pretrial through post-conviction processes; and historical and contemporary challenges to judicial branch authority. Offered fall and winter semesters. Prerequisite: CJ 201.

### **CJ 350 - Juvenile Justice Process (3 credits)**

An analysis of the historical and philosophical foundations of the juvenile justice process and system. Special attention is given to legal and administrative issues, reforms, and controversies. Offered fall and winter semesters. Prerequisite: CJ 201.

### **CJ 355 - Youth Culture and Crime (3 credits)**

The study of the emergence of youth subcultures over the course of the 20th century and its relationship to issues of crime and delinquency. Special attention will be given to the social and cultural context of youth, including the family, neighborhood, media drugs, gangs, guns, race, class, and gender roles. Offered fall and winter semesters.

### **CJ 360 - Inside-Out Prison Exchange Program (3 credits)**

An analysis of contemporary issues in criminal justice and corrections. Class is held inside a prison and allows for interaction between GVSU students and inmates in order for them to study and learn together. Special focus is placed on topics relevant to offending and corrections. Offered fall semester. Prerequisites: Criminal justice major or minor standing, CJ 330, GPA of 2.8 or above, instructor permission.

### **CJ 370 - Environmental Crime and Justice (3 credits)**

This course examines environmental crime, the laws designed to prevent and/or mitigate it, enforcement of those laws, and the relationship between race, class, and exposure to environmental harm around the world. Offered winter semester. Prerequisite: Junior standing.

### **CJ 380 - Special Topics in Criminal Justice and Legal Studies (1 to 3 credits)**

Focuses on topics not ordinarily dealt with in other courses. Topics will be determined by faculty interest and student request. While the course can be repeated, no more than six credits can be applied to a criminal justice or legal studies major. Offered on sufficient demand.

### **CJ 399 - Independent Readings in Criminal Justice (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Independent supervised readings on selected topics not dealt with in-depth in another course. Offered every semester. Graded credit/no credit. Prerequisites: Junior or senior standing and permission of instructor.

## **CJ 400 - Qualitative Methods (3 credits)**

This course examines qualitative methods focusing primarily on participant observation, asking questions, writing field notes, and the transformation of these primary field data into written ethnographic documents. Students will also explore unstructured and semistructured interviewing, direct observation, open-ended survey questions, and sampling from preexisting texts. Offered fall and winter semesters. Prerequisites: CJ 300 and junior standing.

## **CJ 405 - Terrorism (3 credits)**

A survey of modern domestic and international terrorism. Examines the structure and dynamics of terrorist groups, types of terrorist violence, and justification of violence. Analyses of geographical regions, religion, ideology, technology, counter measures, media, and mass destruction. Offered fall and winter semesters. Prerequisite: Junior standing.

## **CJ 408 - White-Collar and Corporate Crime (3 credits)**

An overview of the types, causes and implications of white-collar and corporate crime, and examines the political, physical and financial harm caused by wayward corporations, corporate officials and employees. Emphasis is placed on ethical and legal decision-making and regulatory monitoring and control of white-collar and corporate activity. Offered winter semester of even-numbered years. Prerequisite: Junior standing.

## **CJ 415 - Law Enforcement Physical Education, Defensive Tactics and Firearms (3 credits)**

A required course for Michigan Law Enforcement Certification. Ninety hours to ensure that basic state requirements are met in physical education, defensive tactics, and firearms. Offered spring/summer semester. Restricted enrollment.

## **CJ 416 - Special Operations and Training (3 credits)**

The skills and knowledge essential for the law enforcement officer to function effectively and professionally in the community. The course includes a wide range of subjects including police communications, domestic complaints, and human relations. Required for law enforcement certification. Offered spring/summer semester. Restricted enrollment.

## **CJ 417 - Criminal Investigations II (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An advanced class in techniques and theories of all aspects of the discovery and preservation of evidence to ensure the legal admissibility of such evidence under Michigan law. Required for law enforcement certification. Offered spring/summer semester. Restricted enrollment.

## **CJ 418 - Patrol and Traffic Administration and Procedure (3 credits)**

Designed to analyze the necessity for and the theory of regulatory laws to protect life and property and to promote theories of safety. Required for law enforcement certification. Offered spring/summer semester. Restricted enrollment.

## **CJ 419 - Michigan Criminal Law (3 credits)**

A study of the basic criminal statutes of Michigan. Promotes knowledge of the regulations to control criminal behavior and deviance from the norms of society. Required for law enforcement certification. Offered spring/summer semester. Restricted enrollment.

## **CJ 420 - Juvenile Correctional Counseling (3 credits)**

This class is designed to provide education and practice strategies for establishing rapport, gathering information, conducting assessment, modifying delinquent youths emotional state and maladaptive behaviors, assessing suicide risk, and making referrals. Specific techniques in addition to understanding specific counseling paradigms used with resistant and delinquent youth will be explored. Offered winter semester. Prerequisite: Junior standing.

## **CJ 442 - Victimology (3 credits)**

Examines patterns, current practice and trends concerning crime victims, including the role of victims in crime, their treatment by the criminal justice system, victims blaming arguments, victims' decisions to report crimes and help prosecute offenders, victim assistance programs, victim compensation and restitution, and victim empowerment. Offered fall semester of even-numbered years. Prerequisite: Junior standing.

## **CJ 464 - Security Management (3 credits)**

An in-depth analysis of critical issues in the administration and supervision of private security organizations with an emphasis on the related legal issues. Offered winter semester. Prerequisite: Junior standing.

## **CJ 482 - Culture, Crime and Justice (3 credits)**

An exploration of the relationships between culture, crime, and justice that seeks to increase students' cultural competence in relation to the administration of justice and the justice professions. Offered fall semester. Prerequisites: CJ 201 and junior standing.

### **CJ 490 - Criminal Justice Internship (1 to 9 credits)**

Internship in local agencies with individual faculty supervision to apply academic knowledge to actual and professional experience. May be repeated for up to nine credits. Offered each semester. Prerequisites: Junior standing and permission of internship coordinator.

### **CJ 492 - Social Justice Issues in the American Criminal Justice System (3 credits)**

This course examines contemporary social justice issues and their intersection with the American criminal justice system. Cross-listed with CJ 592. Prerequisite: Senior standing.

### **CJ 495 - Issues in Criminal Justice (Capstone) (3 credits)**

A Capstone course that will entail readings and discussion on contemporary criminal justice issues, ethics, and trends resulting in a senior paper/project. Offered fall and winter semesters. Prerequisites: CJ 201 and senior standing.

### **CJ 499 - Independent Study and Research (1 to 3 credits)**

An independent research project of an interdisciplinary nature based on knowledge acquired in other courses, the internship experience, or courses taken in the program. The research will be in the area of the student's interest. Offered every semester. Graded credit/no-credit. Prerequisites: Permission of the instructor and senior standing.

### **CJ 592 - Social Justice Issues in the American Criminal Justice System (3 credits)**

This course examines contemporary social justice issues and their intersection with the American criminal justice system. Cross-listed with CJ 492. Prerequisite: Admission to GVSU graduate program or permission of MCJ graduate director.

### **CJ 600 - Qualitative Methodology (3 credits)**

This course examines qualitative methods focusing primarily on participant observation, asking questions, writing field notes, and the transformation of these primary field data into written ethnographic documents. Students will also explore unstructured and semistructured interviewing, direct observation, open-ended survey questions, and sampling from pre-existing

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

texts. Cross-listed with SW 691. Offered fall and winter semesters. Prerequisite: Admission to GVSU graduate program or permission of the MCJ graduate program coordinator.

### **CJ 601 - Criminal Justice Leadership (3 credits)**

Addresses visionary leadership applied to the administration of criminal justice. Includes an orientation to criminal justice graduate studies. Offered fall semester. Prerequisite: Admission to GVSU graduate program or permission of MCJ graduate program coordinator.

### **CJ 604 - Criminal Justice Policy and Program Evaluation (3 credits)**

Survey of policy and program evaluation methods. Well-known criminal justice policy and program evaluation studies will be critiqued. Policy formulated models and strategies will be studied and applied to crime control and other criminal justice problems. Offered winter semester of odd-numbered years. Prerequisite: Admission to a GVSU graduate program or permission of the MCJ graduate director.

### **CJ 606 - Research Methodology and Data Analysis (3 credits)**

This course examines basic and advanced concepts of quantitative research methodology and data analysis. Students will become familiar with research and data analysis techniques necessary for review of criminal justice issues. Students will learn to critically evaluate research, and understand how to create professional, empirical, and evaluation research proposals. Offered winter semester. Prerequisite: Admission to a CCPS graduate program.

### **CJ 607 - Criminology (3 credits)**

This course focuses on defining crime, tracing the evolution of criminological theories, and identifying the role that theory plays in the operation of the criminal justice system. Offered fall semester of odd-numbered years. Prerequisite: Admission to a GVSU graduate program or permission of MCJ graduate program coordinator.

### **CJ 609 - Criminal Justice Systems (3 credits)**

This course provides an in-depth study of system development, management philosophies, and current issues within all the major criminal justice systems' components, including policing, courts, and corrections in the United States. Offered fall semester of odd-number years. Prerequisites: Admission to GVSU graduate program or permission of MCJ program graduate director.

## **CJ 610 - Race, Gender, and Class in the Criminal Justice System (3 credits)**

This course will examine the intersections of race, gender, and class in the criminal justice system. Emphasis will be placed on offending, victimization, and analysis regarding patterns of crime as related to race, gender, and class. Offered fall semester of even-numbered years.

Prerequisite: Admission to the Master of criminal justice graduate program at GVSU or permission of MCJ graduate director.

## **CJ 619 - Legal Issues in Criminal Justice (3 credits)**

Critical analysis of legal issues within the criminal justice system. Students will analyze the impact of constitutional, statutory, case, and/or administrative law at all levels of the criminal justice system, and consider important legal and ethical issues related to the system within personal, professional, and policy contexts. Prerequisite: Admission to a GVSU graduate program or permission of the MCJ graduate program coordinator.

## **CJ 620 - Policing and Society (3 credits)**

In-depth study of past and present policing, organizational and law enforcement system development, and current issues surrounding policing in the 21st century. Offered winter semester of odd-numbered years. Prerequisite: Admission to a GVSU graduate program or permission of MCJ graduate program coordinator.

## **CJ 621 - Corrections and Punishment (3 credits)**

In-depth study of past and present philosophies and systems of punishment and corrections, as well as management philosophies and current issues surrounding corrections and punishment in the United States. Offered fall semester of even-numbered years. Prerequisite: Admission to a GVSU graduate program or permission of MCJ graduate program coordinator.

## **CJ 622 - Juvenile Justice Systems and Issues (3 credits)**

In-depth study of juvenile justice organizations, organizational and system development, management philosophies and current issues of most concern to regional and national juvenile justice executives. Offered fall semester of odd-numbered years. Prerequisite: Admission to a GVSU graduate program or permission of MCJ graduate program coordinator.

## **CJ 640 - Graduate Internship (3 credits)**

A supervised criminal justice or private security agency administrative internship. This course is required of students who have no work experience in criminal justice or private security. Those who have prior work experience may earn internship credit with advisor approval. Credit/no-

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

credit. Offered every semester. Prerequisites: Admission to criminal justice graduate program and permission of instructor.

## **CJ 642 - Victimology (3 credits)**

Examines patterns, current practices and trends concerning crime victims, including the role of victims of crime, their treatment by the criminal justice system, victim blaming arguments, victims' decisions to report crimes and help prosecute offenders, victim assistance programs, victim compensation and restitution, and victim empowerment. Offered fall semester of even-numbered years. Prerequisite: Admission to a GVSU graduate program or permission of MCJ graduate program coordinator.

## **CJ 650 - Master's Capstone in Criminal Justice (3 credits)**

A graduate level seminar that will integrate learning from the core master's degree coursework. This course will synthesize material pertaining to criminal justice systems theories, criminology, empirical research, and program creation and implementation. The culminating outcome of the class will be a master's level research paper and presentation. Offered winter semester. Prerequisites: Admission to the MCJ program, with completion of 18 credits, including all MCJ core classes.

## **CJ 680 - Special Topics in Criminal Justice and Legal Studies (1 to 4 credits)**

A seminar for the study of important topics not ordinarily covered in other courses. Course may be taken more than once when topic is different. Offered on sufficient demand. Prerequisite: Admission to criminal justice graduate program or permission of graduate director.

## **CJ 691 - Issues in Research and Writing (3 credits)**

This course will focus on different writing strategies/styles necessary to advance graduate students in their academic and professional careers. This course focuses on preparing graduate students for their thesis or project. Offered winter semester. Prerequisite: Admission to a GVSU graduate program or permission of MCJ graduate director.

## **CJ 693 - Criminal Justice Project (3 credits)**

In accordance with program policies and procedures, students will design an original project to work with an agency to address a criminal justice issue or write a comprehensive overview of a body of scholarship addressing a criminal justice related issue. Formal presentation of finished product required. Prerequisites: Admission to MCJ graduate program, completion of 18 credits of graduate coursework, approved committee, permission of MCJ graduate program coordinator, and completion of the Responsible Conduct of Research Training within last three years.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CJ 695 - Criminal Justice Thesis (1 to 6 credits)**

Preparation of an extensive research and writing assignment under faculty supervision. Involves working with a thesis committee and formal defense of the thesis. Offered every semester.

Prerequisites: Admission to MCJ graduate program, completion of 18 credits of graduate coursework, permission of MCJ graduate program coordinator, and completion of the Responsible Conduct of Research Training within last three years.

## **CJ 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **CJ 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **CJ 699 - Directed Readings (1 to 3 credits)**

A library research or readings project, program proposal, research proposal, or other activity requiring extensive readings that enhance the student's knowledge. Offered every semester.

Prerequisite: Admission to a GVSU graduate program or permission of MCJ graduate program coordinator.

## **CLA 101 - Greek and Roman Mythology (3 credits)**

An introduction to the gods and heroes of ancient Greek and Roman myths in their cultural and historical contexts, as well as their modern influence. Fulfills Foundations - Philosophy and Literature. Offered fall semester.

## **CLA 121 - Greek Civilization (3 credits)**

An introduction to major cultural accomplishments of ancient Greece. Emphasis on Greek literature, art, philosophy, and political institutions both in their historical contexts and as achievements of continuing importance in the contemporary world. Topics may vary. Fulfills Foundations - Historical Perspectives. Offered fall semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CLA 131 - Roman Civilization (3 credits)**

An introduction to major accomplishments of ancient Rome. The course examines significant aspects of Roman political, social and cultural life, both in their primary context and in terms of their relevance to society today. Topics may vary. Fulfills Foundation - Historical Perspectives. Offered winter semester.

## **CLA 195 - Introduction to Ancient Greece and Rome (1 credit)**

Introduction to the study of the breadth and variety of ancient Greek and Roman culture, including languages and literatures, art and archaeology, religious and philosophical traditions, and social and legal forms - from the Bronze Age through the late Roman Empire and early Christianity. Offered fall semester.

## **CLA 201 - Classical Literature (3 credits)**

Great works from the ancient world in translation, selected from Homeric epics, plays of Aeschylus, Sophocles, Euripides, and Aristophanes, and from such other classic works as Virgil's Aeneid, the Bible, and Eastern epics such as Gilgamesh. Fulfills Foundations - Philosophy and Literature. Offered winter semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **CLA 231 - Health and Science in Antiquity (3 credits)**

An introduction to ancient Greek and Roman medical and other scientific practices in their cultural and historical contexts, as well as their modern influence. Topics include the human body and its relationship to its environment, theories of causality, and early astronomy. Fulfills Foundations - Philosophy and Literature. Offered winter semester.

## **CLA 250 - Classical Art and Archaeology (3 credits)**

Survey of the art and archaeology of the classical world from the Bronze Age through the dissolution of the Roman Empire. Emphasis on the development of the characteristic forms of classical art, the aesthetic and historical contexts of specific works, and the techniques of classical archaeology that have revealed them. Fulfills Foundations - Arts. Offered winter semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **CLA 280 - Special Topics in Classics (3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CLA 301 - Re-imagining the Classics (3 credits)**

Study of classical authors, genres, ideas, or aspects of visual culture and the ways they have been understood, adapted, and transformed in new cultural environments of later periods. The course may consider genres such as epic, lyric, or comedy; mythology or the history of ideas; styles of architecture or painting. Part of the Globalization Issue. Offered fall semester. Prerequisite: Junior standing.

## **CLA 302 - The Stages of Greek and Roman Drama (3 credits)**

Readings of Greek and Roman tragedies and comedies by playwrights such as Sophocles, Euripides, Aristophanes, and Plautus (in English translation) will be augmented by considerations of cultural contexts, both ancient and modern global, and staging or adaptation. The dramas engage issues from competing perspectives on violence, gender, class, and justice. Part of the Globalization Issue. Offered winter semester. Prerequisites: Junior standing and fulfillment of general education Foundations - Writing.

## **CLA 311 - Ancient Great Philosophers (3 credits)**

A study of one or several ancient great philosophers, such as the pre-Socratics, Plato, Aristotle, Lucretius. Focus will be on the philosophers' writings, but attention also will be given to context and tradition. Cross-listed with PHI 311. May be repeated for credit if content differs. Offered fall and winter semesters. Prerequisite: Prior work in philosophy or classics, or permission of the instructor.

## **CLA 315 - Ancient Religion (3 credits)**

A study of the religious beliefs and practices of the ancient world, emphasizing the religious traditions of Greece, Rome, Egypt, and the Near East. Topics include views of the afterlife, temples and sanctuaries, religion in daily life, "mystery" religions, and the rise of the monotheistic religions of Judaism and Christianity. Offered fall semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **CLA 325 - Body, Gender, Sexuality in Antiquity (3 credits)**

Introduction to views about the body, gender, and sexuality in ancient Greece and Rome. Special attention is given to ancient texts that inform feminist and queer theory. Topics include ancient medicine and modern dietetics, the figure of Antigone in feminist and postcolonial literature, Greek homosexuality, Victorian Hellenism, and American law. Part of the Identity Issue. Cross-listed with WGS 325. Offered fall semester. Prerequisite: Junior standing.

## **CLA 350 - Issues in Classical Archaeology (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Advanced study of current issues in classical archaeology, based on multidisciplinary approaches to topics such as ethnicity, cult, technology, economy, provincial identities and imperial propaganda. Particular attention to synthesis of archaeological, art-historical, literary, and anthropological models and interpretive methods. May be repeated for credit when content varies. Offered fall semester in odd-numbered years. Prerequisite: CLA 250 or (HNR 221 and HNR 222).

## **CLA 365 - Stoicism, Identity and the Happy Life (3 credits)**

This course will address, through the life and thought of prominent Stoics, both the evolution of self and the development of an individual's identity from the Stoic perspective. Through readings, writing, and journaling, students will explore the significance and relevance of key Stoic ideas about identity. Part of the Identity Issue. Offered fall semester of even-numbered years. Prerequisite: Junior standing.

## **CLA 367 - Thinking Like a (Roman) Lawyer (3 credits)**

Many legal concepts we take for granted come directly from Roman law, the influence of which continues to be felt worldwide today. This course introduces legal reasoning and analysis through a discussion-based, case-by-case approach focusing on primary sources in translation. Especially valuable for prelaw students. Part of the Human Rights Issue. Offered fall semester of odd-numbered years. Prerequisites: Junior standing and fulfillment of general education Foundations - Writing.

## **CLA 380 - Special Topics in Classics (3 credits)**

The study of special topics or areas in classics and the classical tradition not offered in the regular curriculum. May be repeated for credit when content varies.

## **CLA 385 - Study Abroad: Classical Civilization (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **CLA 395 - Research Methods in Classics (2 credits)**

Explores research methods in classics, focusing both on the multidisciplinary nature of classics and the primary methodologies employed across the discipline. Examines the ways that research questions are shaped, and the types of evidence used to address those questions, in classics and in the humanities more broadly. Offered fall semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CLA 399 - Independent Study in Classics (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

## **CLA 415 - Museum Studies (3 credits)**

Examines the history of museums; the organization, operation and multiple functions of museums; their contributions to public life; and the political, legal, ethical, and other contemporary debates concerning the roles of museums as cultural institutions. Also introduces practical skills such as collections management, exhibition design, and public outreach and education. Cross-listed with HST 415. Offered fall semester. Prerequisite: Junior standing.

## **CLA 495 - Notions of the Classics (Capstone) (3 credits)**

A critical examination of the concepts of "the classics" and "classicism" as a context for the contemporary field of classics, emphasizing the shifting range of the terms and the different ways both they and the classical world have been and can be understood, adapted, and transformed. Required for majors. Offered winter semester. Prerequisites: Senior standing and CLA 395.

## **CLA 499 - Independent Study and Research (1 to 3 credits)**

Supervised individual research in an area of interest to the student; culminates in a research paper. Prerequisites: Junior standing and the permission of the instructor supervising the research.

## **CMB 140 - Living Foods: Ferment Them Yourself! (4 credits)**

An introduction to fermentation as food preparation. For thousands of years, people have used fermentation to preserve food. The history, food preservation and safety aspects, and the science of fermentation related to food and health are covered. The laboratory includes hands-on fermentations such as breads, yogurt, kefir, sauerkraut, and kombucha. Fulfills Foundations - Life Sciences with a lab. Offered winter semester.

## **CMB 150 - Biotechnology and Society (4 credits)**

An introduction to biotechnology, focuses on its application in, and impacts on, our society. Scientific, ethical, economic, legal, social and historical aspects of biotechnology will be covered. Class discussions and laboratory investigations of current topics, including cloning, agricultural biotechnology, genetically modified foods, stem cells, and medical biotechnology highlight the course. Fulfills Foundations - Life Sciences with a lab. Offered every semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CMB 155 - Introduction to Cell and Molecular Biology (3 credits)**

An introduction to the science behind our current models of molecular, cellular, and developmental biology including genetics. Students will learn foundational concepts necessary for the life sciences and develop their skills in scientific reasoning. Fulfills Foundations - Life Sciences. Offered fall and winter semesters.

## **CMB 156 - Discoveries in Cell and Molecular Biology: A Research-based Laboratory Course (1 credit)**

This course is designed to provide students with a realistic research experience that prepares them for advanced research opportunities later in their academic careers. Students will complete one to three extended laboratory investigations throughout the semester. Students will design and execute experiments, analyze and synthesize data, and communicate their findings. Offered fall and winter semesters. Prerequisite: BIO 120 or CMB 155 (may be taken concurrently).

## **CMB 250 - Introduction to Biotechnology (4 credits)**

Introduction to basic principles, methodologies and applications of cell and molecular biology and biotechnology. Fundamentals of microbial growth, isolation, and manipulation; DNA cloning and recombination, hybridization, transformation and electrophoresis; protein expression and analysis will be covered. Reading and discussions will address the relationship of biotechnology with ethical and policy considerations. Offered fall and winter semesters. Prerequisites: BIO 120 or (CMB 155 and CMB 156); and CHM 116.

## **CMB 321 - Designing Our Future: Babies, Food, Medicine, and Biotechnology (3 credits)**

Issues course which introduces the concepts and theories of biotechnology, and includes an in-depth exploration of a biotechnology issue, such as designer babies, GMO food, and personalized medicine, within a group setting. Student groups will create a white paper and lead a discussion on the biotechnology issue of their choice. Part of the Information, Innovation, or Technology Issue. Offered fall semester. Prerequisite: Junior standing.

## **CMB 350 - Foundations of Brewing (3 credits)**

Introduction to history, culture, theory and practice of brewing. Students design and brew a beer of choice. Implications of beer consumption on social, psychological and biological health are emphasized. Effects of human migration, technological advances, economics, culture and globalization on beer production are also addressed. Part of the Health Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CMB 380 - Special Topics in Cell and Molecular Biology (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **CMB 405 - Cell and Molecular Biology (4 credits)**

Investigation of the structure and phenomena of cells at the macromolecular and cellular levels. (4-0-0) Offered each semester. Prerequisites: (BIO 375 or BIO 355), BIO 376, and (CHM 232 or CHM 242 or CHM 247 may be taken concurrently).

## **CMB 406 - Cell and Molecular Biology Laboratory (2 credits)**

A unified experimental approach to cell and molecular biology with emphasis on instrumentation and student initiative. Offered fall and winter semesters. Prerequisite: CMB 405 (may be taken concurrently).

## **CMB 409 - Responsible Conduct of Research (1 credit)**

Consists of modules covering the principles and rules for best practice in research using lectures, discussions, case studies, and interactive exercises. Provides students with professional and ethical reasoning skills needed for success in their research and scholarly inquiry. Cross-listed with CMB 509. Offered fall and winter semesters.

## **CMB 411 - Genetics of Development and Cancer (3 credits)**

An advanced genetics course, covering genetic mechanisms of normal and abnormal development, cancer production, and aging. Current research techniques will be highlighted. (3-0-0) Offered winter semester. Prerequisites: (BIO 375 and BIO 376) or (BIO 355 and CHM 232).

## **CMB 414 - Molecular Biology of the Gene (3 credits)**

Explores how genes are expressed and regulated so that tasks such as differentiation, development, homeostasis, and communication are accomplished, and how this is affected by evolution and biotechnology. (3-0-0) Offered fall semester. Prerequisites: BIO 375 and BIO 376.

## **CMB 426 - Research Applications in Nucleic Acids (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Investigation of an original problem in molecular biology using advanced molecular laboratory techniques found in most molecular academic and biotechnology laboratories. Introduction to computer DNA sequence analysis and bioinformatics. Offered fall and winter semesters. Prerequisite: CMB 406.

### **CMB 440 - Research Applications in Drosophila Genomics (3 credits)**

Collaborative research investigation of a contemporary genomics problem using the model organism *Drosophila*. Students participate in an inquiry-based genomics research project which includes manipulation of large data sets (such as improving sequence data from various *Drosophila* species) and computer-aided analysis of sequence data (annotating the DNA sequence). Offered winter semester. Prerequisite: CMB 250 or BIO 355 or BIO 376.

### **CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)**

In the age of genomics, bioinformatics has become an integral component of all life sciences. This course will focus on practical applications of bioinformatics resources and tools for solving problems in life sciences. Major topics include biological databases, sequence analysis, molecular phylogeny, microarray data analysis, proteomics and genomics. Cross-listed with CMB 551. Offered fall semester. Prerequisites: Junior standing, and either (CMB 250 or BIO 375), or permission of instructor.

### **CMB 452 - Computer Modeling and Drug Design (3 credits)**

Computational modeling plays a crucial role in developing quantitative models of biological systems and facilitates discovery of new therapeutics. This course covers three aspects of computational structural biology leading to rational drug design: protein structure analysis and prediction, molecular simulations, and methods of target- and ligand-based drug discovery. Cross-listed with CMB 552. Offered winter semester. Prerequisites: BIO 120 (or CMB 155 and CMB 156); (CHM 241 or CHM 245 or (CHM 231 and CHM 232)); PHY 220 or PHY 230; or permission of the instructor.

### **CMB 460 - Genomics and Molecular Diagnostics (3 credits)**

Provides principles and applications of genomics and molecular tools for disease diagnostics. Topics include molecular and computational tools of genomics, genome structure, diagnosis of disease, gene expression and biological networks. Cross-listed with CMB 560. Offered fall semester. Prerequisites: BIO 120 or (CMB 155 and CMB 156) and (either BIO 355 or BIO 375) or permission of instructor.

## **CMB 480 - Special Topics in Cell and Molecular Biology (1 to 9 credits)**

The study of special topics or areas in cell and molecular biology not offered in the regular curriculum. May be repeated for credit when content varies.

## **CMB 485 - Molecular Ecology (3 credits)**

This course provides an in-depth exploration of the integrative field of molecular ecology which uses molecular genetic tools to study ecology and evolution. Concepts/theories are introduced in lecture and through discussion of scientific literature. Hands-on experience with analysis of genetic data is provided in computer laboratories. Cross-listed with CMB 585, BIO 485, and BIO 585. Offered winter semester. Prerequisite: BIO 375.

## **CMB 490 - Internship (1 to 6 credits)**

A practical research experience in cell and molecular biology set in an external environment. Work is directed by a mentor at the internship site and supervised by a faculty advisor. Sixty hours of work per semester is required for each credit earned. May be repeated for up to six credits. Offered every semester. Prerequisite: Permission of the department chair.

## **CMB 495 - Perspectives in Cell and Molecular Biology (3 credits)**

Students will integrate the principles learned from the CMB core and the practical experiences of their own research by critically reading and reporting from the primary literature and by discussing current issues in cellular and molecular biology. The focus of these discussion themes will change each semester. Offered winter semester. Prerequisites: CMB 499, BIO 499, BMS 499 or CHM 499.

## **CMB 499 - Research in Cell and Molecular Biology (1 to 3 credits)**

Independent research in areas related to cell and molecular biology of special interest to the student. Research will be supervised by a CMB faculty member. Can be elected for up to six credits toward the CMB degree. Amount of credit and topic to be arranged with the supervising faculty member. Offered every semester. Prerequisites: Permission of the program director and instructor.

## **CMB 501 - Scientific Communication for the Life Sciences and Professional Science Master's (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students will discuss and practice extensively some of the most important communication skills for scientists, including preparing and delivering oral presentations and posters, writing scientific articles, participating in a scientific discussion, peer review, proper use of source materials and making the most of a scientific conference. Prerequisite: Admission to a GVSU graduate program.

### **CMB 505 - Advanced Cell Biology (3 credits)**

Focus on current research in several areas of study, including membrane transport, signal transduction, energetics, motility, protein synthesis and transport, cell division, and evolution of eukaryotic cells. Offered winter semester. Prerequisite: Admission to a graduate program in the life sciences.

### **CMB 506 - Advanced Molecular Biology (3 credits)**

Theory, history, techniques, and current research in selected areas of molecular biology. Topics include DNA replication, repair and recombination; control of gene expression; signal transduction; isolation, cloning, and sequencing of DNA. Offered fall semester. Prerequisite: Admission to a graduate school in the life sciences.

### **CMB 509 - Responsible Conduct of Research (1 credit)**

Consists of modules covering the principles and rules for best practice in research using lectures, discussions, case studies, and interactive exercises. Provides students with professional and ethical reasoning skills needed for success in their research and scholarly inquiry. Fulfills Responsible Conduct of Research Training requirements mandated by the NIH and NSF. Cross-listed with CMB 409. Offered fall and winter semesters.

### **CMB 520 - Laboratory Techniques in Cell and Molecular Biology (3 credits)**

A practical introduction to common techniques used in a cell and molecular biology lab. Students will develop several key laboratory skills necessary for further coursework and careers in cell and molecular biology through exercises and project-based practical work. Offered fall semester. Prerequisite: Admission to a graduate school in the life sciences.

### **CMB 551 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)**

In the age of genomics, bioinformatics became an integral component of all life sciences. This course will focus on practical applications of bioinformatics resources and tools for solving problems in life sciences, primarily biology. Major topics include biological databases, sequence

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

analysis, molecular phylogeny, microarray data analysis, proteomics, and genomics. Cross-listed with CMB 451. Offered fall semester. Prerequisite: Admission to a GVSU graduate program.

### **CMB 552 - Computer Modeling and Drug Design (3 credits)**

Computational modeling plays a crucial role in developing quantitative models of biological systems and facilitates discovery of new therapeutics. This course covers three aspects of computational structural biology leading to rational drug design: protein structure analysis and prediction, molecular simulations, and methods of target- and ligand-based drug discovery. Cross-listed with CMB 452. Offered winter semester. Prerequisite: Graduate standing or permission of instructor.

### **CMB 560 - Genomics and Molecular Diagnostics (3 credits)**

Provides principles and applications of genomics and molecular tools for disease diagnostics. Topics include molecular and computational tools of genomics, genome structure, diagnosis of disease, gene expression and biological networks. Cross-listed with CMB 460. Offered fall semester.

### **CMB 580 - Special Topics in Cell and Molecular Biology (1 to 4 credits)**

Readings, lecture, discussions, seminars, or lab experience (or any combination) on a specific topic related to cell and molecular biology. Offered on sufficient demand. Prerequisites: Variable; depends on topics.

### **CMB 585 - Molecular Ecology (3 credits)**

This course provides an in-depth exploration of the integrative field of molecular ecology which uses molecular genetic tools to study ecology and evolution. Concepts/theories are introduced in lecture and through discussion of scientific literature. Hands-on experience with analysis of genetic data is provided in computer laboratories. Cross-listed with CMB 485, BIO 485, and BIO 585. Offered winter semester. Prerequisite: Graduate standing.

### **CMB 610 - Foundations of Biotechnology (3 credits)**

Introduction to the methods and strategies used for the manipulation of biological systems to produce food, drugs, and other products. Topics include experimental systems, gene and protein analysis, genetic engineering, recombinant DNA technology, transgenic organisms, gene therapy, and plant biotechnology. Offered winter semester. Prerequisite: Admission to a professional science master's program.

### **CMB 620 - Cell Culture and Bioprocessing (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Theory and practice of eukaryotic and prokaryotic cell culture methodology, including the use of fermenters and bioreactors. The application of culture methods and bioprocessing for use in biotechnology will be stressed. Offered winter semester. Prerequisite: CMB 520 or equivalent.

### **CMB 626 - Advanced Research Applications in Nucleic Acids (4 credits)**

Theory and techniques involved in manipulating DNA and RNA. Students will investigate an original problem using advanced molecular laboratory techniques practiced in most molecular academic and biotechnology laboratories. Offered winter semester. Prerequisite: CMB 520.

### **CMB 680 - Special Topics in Cell and Molecular Biology (1 to 4 credits)**

Lectures and/or laboratory course on topics of current interest related to cell and molecular biology. Prerequisites: Variable; depends on topic.

### **CMB 695 - Thesis Research (1 to 9 credits)**

Under the guidance of a research mentor, students perform research that will lead to a publicly disseminated thesis. The thesis topic is determined by the student in consultation with the chair of the CMB Student Graduate Committee. The topic must be approved by the CMB Student Graduate Committee. Offered on demand. Prerequisites: Graduate standing in the research emphasis of the cell and molecular biology M.S., approval of the CMB graduate program coordinator, and completion of the Responsible Conduct of Research Training within last three years.

### **CMB 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

### **CMB 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CMB 699 - Grad Research in Cell and Molecular Biology (1 to 6 credits)**

Independent graduate research in an area of cell and molecular biology of special interest to the student. Research will be supervised by CMB faculty. Can be elected for up to six credits toward the M.S. in CMB. Amount of credit and topic to be arranged with the supervising faculty member. Offered every semester. Prerequisite: Permit required.

## **CMJ 184 - Introduction to Multimedia Production (3 credits)**

Introduces students to the three key areas of multimedia production - audio production, photography and digital imaging, and video production. Emphasis is on key concepts and hands-on practice. Offered every semester.

## **CMJ 236 - News in Society (3 credits)**

News as a social phenomenon. Who decides what news is and how it is perceived, collected, stored, selected, displayed, and distributed? Analysis, criticism, and some projects. Offered fall and winter semesters.

## **CMJ 256 - News Reporting (3 credits)**

Development of skills in reporting, writing, and copy-editing for multimedia presentation. Work on developing and organizing public affairs news stories, finding information, interviewing, and writing to meet deadlines. Offered every semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **CMJ 260 - Multimedia Journalism Workshop (3 credits)**

This course is designed to provide fundamental theories and lab experience to produce multimedia news stories that combine different media formats: text, hypertext, audio, and photo. Students will learn concepts and skills necessary for developing news judgment, and gathering and production of news in changing media environments. Offered fall and winter semesters. Prerequisite: CMJ 256.

## **CMJ 265 - Introduction to Radio (3 credits)**

A survey course covering multiple aspects of radio broadcasting. Emphasis on writing, performance, production, and general operations. Requires up to two hours per week lab work at on-campus student radio station. Offered fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CMJ 284 - Broadcast News (3 credits)**

News writing and producing for television news. Focus is on script format, broadcast writing style, developing sources, accuracy, field production, and editing. Projects include interviewing techniques, script writing, and producing television news stories. Offered winter semester.

Prerequisites: CMJ 256 or permission of instructor.

## **CMJ 290 - Media History (3 credits)**

In this course students will study historical aspects of print, broadcast and digital media with an emphasis on media used in the 20th and 21st centuries. Students will use archival materials and research historical events and publications through the original writings of the time. Fulfills Cultures - U.S. Diversity. Offered fall and winter semesters.

## **CMJ 310 - Advanced Reporting Techniques (3 credits)**

This class covers numerical and quantitative concepts and skills for news reporting and writing. Students will also learn computer-assisted research and analysis techniques using software programs for news stories based on public databases, records, and information. Offered fall and winter semesters. Prerequisite: CMJ 256 or permission of instructor.

## **CMJ 316 - News Design and Layout (3 credits)**

Students will learn the fundamentals of print and digital design, Web and mobile coding, and data visualization as they pertain to journalistic practice. Students complete individual training modules on software, learn about current industry practice and propose and execute a final project that involves journalistic reporting and technical production. Offered fall and winter semesters. Prerequisite: CMJ 256 or permission of instructor.

## **CMJ 325 - Issues in Journalism (3 credits)**

A seminar on two troublesome areas in contemporary journalism, spanning all media of mass communication: changes in journalism wrought by technology and techniques, and the rights and responsibilities of the press, involving ethical and legal issues. Offered fall semester of even-numbered years. Prerequisite: Junior standing.

## **CMJ 364 - Feature Journalism (3 credits)**

Practice in feature-length articles on factual subjects. Primary emphasis is on the intersection of human-interest and public affairs reporting; the impact of government policy on people. The goal is the writing and presentation of knowledgeable and readable material for print and digital outlets. Prerequisite: CMJ 256 or permission of instructor.

## **CMJ 365 - Advanced Editing (3 credits)**

Focuses on the style and delivery components of the editing process. Methods for technical delivery of the written product, including headlines, text, photos, and captions; story and page design and packaging; working with photos and art; color considerations; and generating infographics to accompany stories. Offered winter semester. Prerequisite: CMJ 316 or permission of instructor.

## **CMJ 366 - Arts and Entertainment Journalism (3 credits)**

A workshop in writing about the arts. The focus is on presenting information about artifacts, exhibits, and performance across multimedia. Film, video, theatre, music, dance, painting, sculpture, and other arts will be subjects, depending on the particular emphasis of the semester and the interests of the students. Offered fall semester of odd-numbered years. Prerequisite: CMJ 256 or permission of instructor.

## **CMJ 380 - Special Topics in Multimedia Journalism (1 to 9 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **CMJ 384 - Producing for Broadcasting (3 credits)**

This course explores how television and radio shows are produced with a focus on contemporary industry production and business practices. Students will develop original show concepts and pitch for review and feedback. Features practical application of real-world methods as well as problem solving, leadership, teamwork and communication. Offered fall and winter semesters. Prerequisite: CMJ 284.

## **CMJ 385 - Advanced Radio (3 credits)**

A study of long-form audio programming for radio and podcast. Students learn to write, record, and deliver documentary-style news, public service, and public affairs programming for radio and podcast. Students also study the history of long form audio and write and create pieces of dramatic production. Offered winter semester. Prerequisites: CMJ 265 or CMJ 284, or permission of instructor.

## **CMJ 390 - Technical Writing (3 credits)**

The interpretation, rewriting, and editing of specialized material for professional and general readers. Students read professional journals in a scientific or technical field. Practice in analyzing, organizing and presenting multimedia information to a variety of audiences for

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

different purposes. Assignments may include writing definitions, abstracts, and instruction guides. Offered winter semester. Prerequisite: CMJ 256 or permission of instructor.

## **CMJ 399 - Independent Study (1 to 6 credits)**

An experience of an essentially scholarly and/or creative nature undertaken by a student under the supervision of one or more faculty members. Initiated by the student who has a special interest in a subject that is not available in the current curriculum. The student and the faculty sponsor agree on the scope of the study, its components, and methods of evaluation. Offered every semester.

## **CMJ 460 - Multimedia Reporting (3 credits)**

Focus on intermediate and advanced reporting on multimedia platforms. Students will apply multimedia production skills and report news for a variety of online formats, blending text, photos, audio, video, and graphics. This course will also cover hands-on training and key theoretical and professional issues of journalism arising from new technologies. Offered fall and winter semesters. Prerequisites: CMJ 184 and CMJ 260.

## **CMJ 481 - Investigative Reporting (3 credits)**

Discusses the techniques as well as the problems and pitfalls of journalistic investigation. Develops skills in investigation and reporting through the use of classroom examples and individual and team assignments. Emphasis on real-life situations and submission of articles for publication on and off campus. Offered winter semester. Prerequisite: CMJ 316 or permission of instructor.

## **CMJ 484 - TV News Workshop (3 credits)**

Intensive involvement in the TV news process, building on concepts and skills developed in Broadcast News I and II. Researching, shooting, reporting, and editing stories for weekly campus cable TV newscast. Students serve as reporters, anchors, and producers. May be repeated once for credit. Offered fall and winter semesters. Prerequisite: CMJ 384.

## **CMJ 490 - Internship (1 to 6 credits)**

A supervised work experience in an area of a student's potential career interest. Initiated by the student, who plans the work experience with the advisor, the faculty sponsor chosen to supervise the internship, and the supervisor at the worksite. Credit is awarded only when the student, the faculty sponsor, and the work supervisor have completed evaluations of the internship. Offered every semester. Graded credit/no-credit. Prerequisite: Permission of internship coordinator.

## **CMJ 495 - Multimedia Journalism Capstone (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course addresses reporting on multimedia platforms, with a focus on the key theoretical and professional issues arising from new technologies, media formats, and digital platforms. As a Capstone course, it will also prepare students for the workplace through discussions of industry trends on the job market and portfolio creation. Offered fall and winter semesters. Prerequisites: CMJ 260, CMJ 310, and CMJ 325.

## **COM 101 - Concepts of Communication (3 credits)**

An introduction to concepts and principles that are fundamental to understanding the dynamics and consequences of communication. School of Communications majors must take COM 101 within the first three semesters of declaring their major. Offered every semester.

## **COM 201 - Speech (3 credits)**

Focuses on oral communication. The student will examine practical programs in speech preparation, delivery, informative and persuasive strategies, and listening and responding to messages of others. Most of what a student gains from this course will come not only from reading a text but also from in-class projects, simulation exercises, and skills training. Offered every semester.

## **COM 202 - Critical Interpretation (3 credits)**

Practice in the art of reading and listening with understanding. Stresses interpretation as an activity common to the writer, speaker, reader, and listener. Fulfills Foundations - Philosophy and Literature. Offered fall and winter semesters.

## **COM 203 - Argument and Analysis (3 credits)**

Being able, in speaking or writing, to present arguments for a position and to analyze the arguments of others are skills that are basic to almost any human activity. In this course, participants will practice the skills of argument and analysis in discussing the nature of argument itself. Offered fall semester.

## **COM 209 - Health Communication Systems (3 credits)**

A general systems approach applied to understanding the interplay of individuals, institutions, audiences, purposes, and tasks relevant to the health communication professional. Offered fall and winter semesters. Prerequisite: Sophomore standing.

## **COM 210 - Nonverbal Communication (3 credits)**

Introduction to sending and receiving nonverbal messages. Theory and skill development in thinking visually: in voice and articulation, body action, artifacts, time, space, and distance, and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

in listening. Emphasis on interpersonal, professional, and cross-culture applications. Offered fall and winter semesters.

## **COM 215 - Story Making (3 credits)**

How to create a story, scene, or image in your mind and render it in a variety of modes: oral story, written story, one-shot image told verbally, short script, previsualization for media, previsualization for dance, etc. Course includes discussion of the nature of narrative. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **COM 220 - Media Literacy (3 credits)**

Introductory course in the critical study of media. Students develop the ability to access, analyze, evaluate, and critique mediated communication in a variety of forms. Particular attention to how images, sounds, and words are combined to create meaning, and the economic determinants of the media in the United States. Offered every semester.

## **COM 275 - Foundations of Communication Research (3 credits)**

Examination of issues and topics associated with communication research conducted by scholars and practitioners. Introduction to research areas in the discipline, library research strategies, the ethics of research, qualitative and quantitative research methodologies. Prerequisite: COM 101.

## **COM 295 - Communication Theory (3 credits)**

A critical survey of major theories of human communication. Analysis and application of concepts from representative primary sources to understand what they presuppose, say and imply about the nature of communication. Offered every semester. Prerequisite: COM 101.

## **COM 301 - Interpersonal Communication (3 credits)**

Introduces students to theory, research, and practical issues involved in interpersonal communication, including topics such as language, nonverbal expression, face-to-face interaction, self-identity, and communication ethics. Stresses how everyday talk with one another is a cornerstone of ethics and human civilization. Offered spring/summer semester.

## **COM 302 - Small Group Communication (3 credits)**

The study of the committee, task force, panel, and class. Weekly practice in decision-making, conflict resolution, and socialization through class discussion groups. Offered on sufficient demand.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **COM 303 - Debate (3 credits)**

Instruction in techniques of argumentation and debate. Research methodology, logical analysis and argumentation, rhetorical strategies, and technique of public presentation. Intercollegiate competition will not be a part of this class. Offered on sufficient demand. Prerequisite: COM 201.

## **COM 320 - Vision and Culture (3 credits)**

A historical survey of the evolving modes and techniques of vision, visibility, and representation in art, science, and mass media in order to examine how those modes of vision have both reflected and influenced our ways of knowing ourselves and the world. Offered fall of even-numbered years.

## **COM 371 - Media and Society (3 credits)**

Examines the communications environment of societies and current issues affecting media. May be repeated for credit when content differs. Offered every semester.

## **COM 372 - Global Communications (3 credits)**

A global focus on the relationship between media and society. The nature of global media in a world community. Varieties of media technologies, contents, and effects. How media encourage cross-cultural unity or increase tensions within and between nations. Offered fall semester.

## **COM 375 - Communication Research (3 credits)**

Examination of empirical methodologies used in the evaluation of audiences, media, and products. Special attention given to the integration of empirically derived information in the communication process. Offered fall and winter semesters. Prerequisites: COM 275 and STA 215.

## **COM 376 - Communications Policy and Law (3 credits)**

A survey of key policies and recent developments in communication law that shape media industries (print, broadcast, cable, telephone, and the Internet) and communication practices in media environments. In this context, theories of policymaking, regulation, and the public interest are examined. Offered fall semester.

## **COM 378 - Intercultural Communication (3 credits)**

This course introduces a range of theories to examine the intersection of communication, culture, and identity. Students explore the challenges of intercultural interactions in the context of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

globalization. Topics include communication and culture; influence of culture on perceptions; national and cultural identity; intercultural conflict; and cross-cultural adaptation. Offered fall semester.

## **COM 380 - Special Topics in Communications (1 to 6 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of the student in this course approximate those in other 300-level courses. May be repeated for credit when content varies. Offered on sufficient demand. Prerequisite: Sophomore standing.

## **COM 399 - Independent Study (1 to 6 credits)**

An experience of an essentially scholarly and/or creative nature undertaken by a student under the supervision of one or more faculty members. Initiated by the student who has a special interest in a subject that is not available in the current curriculum. The student and the faculty sponsor agree on the scope of the study, its components, and methods of evaluation. Offered every semester.

## **COM 410 - Senior Seminar in Health Communication (3 credits)**

This course serves as a bridge between the student's academic and professional careers. The course helps students synthesize their communication education into a view of the dominant themes, issues, and trends of the health communication field. Offered winter semester. Prerequisites: COM 209 and senior standing.

## **COM 438 - Communication Ethics (3 credits)**

An upper-division course for the study of communications ethics. Students explore how language and innocence are mutually exclusive, examine how rhetoric, ideology, and information bear upon social and personal evil, and consider ethics issues relating specifically to communicative media. Focus is directed to the assessment and development of ethical sense-making. Part of the Identity Issue. Offered winter semester. Prerequisite: Junior standing.

## **COM 477 - History of Communications Technologies (3 credits)**

Introduces students to historical impacts communication technologies have had in shaping and sustaining civilization and modernity. Examines communicative media as extensions of the human habitat, and critically considers their social and personal consequences. At least half of

the course focuses on media prior to the telegraph. Offered winter semester. Prerequisite: COM 101.

## **COM 490 - Internship (1 to 6 credits)**

A supervised work experience in an area of a student's potential career interest. Initiated by the student, who plans the work experience with the advisor, the faculty sponsor chosen to supervise the internship, and the supervisor at the worksite. Credit is awarded only when the student, the faculty sponsor, and the work supervisor have completed evaluations of the internship. Offered every semester.

## **COM 495 - Issues in Communication (Capstone) (3 credits)**

Selected communications theories are examined in the context of contemporary issues/questions. Seminar-style analysis and application of concepts based on readings selected to support discussions about one or more current critical issues in communication. Topics vary with instructor/semester. Offered every semester. Prerequisites: Senior standing and School of Communications major.

## **COM 498 - Senior Thesis/Project (1 to 6 credits)**

The senior thesis/project demonstrates depth and sophistication in the major. Offered fall and winter semesters.

## **COM 600 - Systems Theory and Communication (3 credits)**

An advanced theory class that takes a systems theory approach to understanding human communication and professional communication problems and issues. Prerequisite: Admission to the Master of Science in communications.

## **COM 610 - Secondary Information and Analysis (3 credits)**

Examines available sources of information, how they are accessed, and how to interpret and analyze findings. Attention is also given to data retrieval, storage and analysis, creating files analysis of trends, and aggregating and collapsing information. Prerequisite: Prerequisite: Admission to the Master of Science in communications.

## **COM 620 - Empirical Methods in Communication (3 credits)**

The primary approaches to communication research with special emphasis on content analysis, survey research, focus groups, discourse analysis, projective techniques, sampling techniques,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

and proposal and report writing. Prerequisite: Prerequisite: Admission to the Master of Science in communications.

### **COM 624 - Public Health Communication (3 credits)**

Examines the fundamentals of public health communication, the role that it plays in health care delivery, disease prevention, and health promotion. Explores public health challenges and identifies strategies to confront them. Applies research-based models and theories of health assessment and promotion at individual, organizational, agency, governmental, and public levels. Offered each semester. Prerequisite: Admission to the Master of Public Health program or the Master of Science in communication.

### **COM 634 - Ethics in Professional Communication (3 credits)**

An examination of ethical issues and problems in professional communication. Special attention is given to understanding the connections between the communication industry and society, government, economics, and the law. Prerequisite: Admission to the Master of Science in communications.

### **COM 641 - Emerging Communication Technologies (3 credits)**

A graduate seminar exploring the nature of technological mediation, focusing upon the social and psychological impact of emerging communication technologies. Prerequisite: Admission to the Master of Science in communications.

### **COM 642 - Communication Law (3 credits)**

An examination of the law as it relates to communication. An appraisal of current thinking in communication law and future trends. Prerequisite: Admission to the Master of Science in communications.

### **COM 643 - Small Group Communication and Leadership (3 credits)**

Examines the life cycle and communication structure of the problem-solving group or task force. Emphasis on the emergence of roles and leadership as a result of the communication within the group. Also, communicative and behavioral patterns associated with leadership. Prerequisite: Admission to the Master of Science in communications.

### **COM 660 - Communication Management and Cases (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The conceptualization of communication problems, definition of terms, determination of information needs, conceptualization/operationalization of primary research where needed, and implementation of findings into the decision-making process. Prerequisites: COM 660 and the Responsible Conduct of Research Training within the last three years.

## **COM 680 - Special Topics in Communications (3 credits)**

A study of special topics not regularly covered in the curriculum. Prerequisite: Admission into the Master of Science in communications.

## **COM 693 - Master's Project (3 credits)**

Master's project completed in consultation with the student's advisor and committee. Prerequisites: COM 660 and completion of the Responsible Conduct of Research Training within last three years.

## **COM 695 - Master's Thesis (3 credits)**

Master's thesis completed in consultation with the student's advisor and committee. Prerequisites: COM 660 and completion of the Responsible Conduct of Research Training within last three years.

## **COM 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **COM 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **COM 699 - Independent Study (1 to 4 credits)**

Initiated by the student who has a special interest in a subject not available in the current curriculum. The student and the faculty sponsor agree on the scope of the study, its components, and methods of evaluation. Prerequisite: Admission into the Master of Science in communications program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **CSD 100 - Introduction to Communication Disorders (3 credits)**

An introduction to a variety of communication disorders. A review of two professions, speech-language pathology and audiology, an overview of the sciences associated with communication, and an introduction to how various disorders affect communication. Offered every semester.

## **CSD 200 - Introduction to Hearing Science (3 credits)**

An exploration of the physiologic and psychological aspects of human hearing including acoustics of sound and psychoacoustics. Offered fall and winter semesters.

## **CSD 220 - Communication Development (3 credits)**

Course of speech and language development in children who are typically developing, explored from infancy to late adolescence with cultural implications discussed. Includes semantic, syntactic, morphological, phonological, pragmatic and phonetic aspects of communication. Emphasis placed on language, preliteracy and speech in toddlers and preschoolers, and school-age language and literacy. Offered fall and winter semesters.

## **CSD 302 - Anatomy and Physiology of the Speech and Hearing Mechanism (3 credits)**

This course provides study of structure and function of the respiratory, phonatory, auditory, articulatory, and nervous systems and their contribution to speech, language, and hearing. Offered every semester.

## **CSD 304 - Phonetics (3 credits)**

This course will examine the use of the International Phonetic Alphabet symbols and phonetic theory in analyzing, categorizing, and transcribing the sounds of the world's languages, focusing on American English, its various dialects, and speech sound disorders. Offered fall semester. Prerequisite: Admission to the CSD major.

## **CSD 306 - Speech Science (3 credits)**

This course is the study of speech sound production, focusing on the speech mechanism, the nervous system and their role in the production and perception of human speech. An overview of acoustics and the basic acoustics of speech are presented. Offered fall and winter semesters.

## **CSD 309 - Basic Audiology (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An introduction to the identification and diagnosis of hearing impairment, with an emphasis on instrumentation and interpretation in clinical situations. Course covers an overview of the profession of audiology and test procedures related to specific practice settings. Offered every semester. Prerequisite: CSD 200.

## **CSD 401 - Neurological Foundations of Communication Disorders (3 credits)**

This course details the neurological foundations of communication disorders and includes an in-depth study of neuroanatomy as it pertains to the field of speech-language pathology. Offered winter semester.

## **CSD 404 - Audiologic Rehabilitation (3 credits)**

Introduction to audiologic rehabilitation across age groups, including speech/language development of individuals with hearing impairment, auditory perception, auditory training, speech reading, and psychosocial and education issues. The nature and accessibility of personal and educational amplification systems and assistive listening devices, counseling, and deaf culture are discussed. Prerequisites: CSD 305 and CSD 309.

## **DAN 175 - Freshman Company (1 credit)**

Rehearsal and performance of faculty or visiting-artist choreographed projects, production coursework, and technical crew assignments. May include touring, performance at school functions, and participation in off-campus events, annual concerts, or other programs. Must be taken twice by dance majors. Offered fall and winter semesters. Prerequisite: Restricted to dance majors and minors.

## **DAN 200 - Introduction to Dance (3 credits)**

An introduction to dance as an art form. This course is designed for the liberal arts student interested in learning to appreciate, understand, discuss, and write about dance. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **DAN 211 - Choreography and Improvisation (3 credits)**

Study and investigation of choreography and improvisation. Course will focus on developing choreographic principles, devices and inspirations through structured exercises in human movement. Improvisational practices that enhance and further develop choreographic ideas will also be studied. Offered winter semester. Prerequisite: Restricted to dance majors and minors.

## **DAN 231 - Ballet Partnering (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Sequential training in partnering technique, stressing the importance of strength and timing. Study of various performance styles as well as the relationship and harmony between male and female dancers. May be repeated for credit, up to a maximum of five credit hours. Offered fall semester. Prerequisite: Permission of the instructor.

## **DAN 241 - Ballet Technique 2 (2 credits)**

Sequential training in the technique and vocabulary of classical ballet with an emphasis on placement, alignment, coordination, flexibility, and movement quality. May be repeated for credit. Offered fall and winter semesters. Prerequisite: Restricted to dance majors and minors.

## **DAN 245 - Dance History: Evolving Traditions (3 credits)**

The interdisciplinary nature of dance as a cross-cultural phenomenon, tracing dance practices around the world including the early history of Western concert dance through writings and video from a variety of methodological backgrounds, including those from a historical, sociological, critical, aesthetic, and ethnological viewpoint. Course offered fall semester. Prerequisite: Restricted to dance majors and minors.

## **DAN 251 - Modern Technique 2 (2 credits)**

Sequential training in classical and postmodern dance techniques with an emphasis on breath, coordination, flexibility, movement dynamics, and musicality. May be repeated for credit. Offered fall and winter semesters. Prerequisite: Restricted to dance majors and minors.

## **DAN 262 - Pointe (1 credit)**

Sequential training in the principles of pointe technique and performance styles, emphasizing placement and strength of the feet and legs. May be repeated for credit, up to a maximum of five credit hours. Offered fall and winter semesters. Prerequisites: Audition and permission of the instructor.

## **DAN 271 - Men's Technique (1 credit)**

Sequential training in male ballet technique with concentration on turns, beats, and big jumps. May be repeated for credit, up to a maximum of five credit hours. Offered fall and winter semesters. Prerequisite: Permission of the instructor.

## **DAN 275 - Dance Company (1 credit)**

Rehearsal and performance of faculty or visiting artist-choreographed projects. May include touring, school functions, off-campus events, annual concerts, or other programs. Dance Company roles requiring pointe are restricted to DAN 262 students or students wearing pointe

shoes in Ballet Technique at least twice a week. Dance majors must take twice. Offered fall and winter semesters. Prerequisites: Restricted to dance majors and DAN 175 with a C or better. Corequisites: One of DAN 231, DAN 241, DAN 251, DAN 262, DAN 271, DAN 281, DAN 341, DAN 351, DAN 381, DAN 441, DAN 451, or DAN 481.

## **DAN 281 - Jazz Technique 2 (2 credits)**

Sequential training in jazz technique drawn from a variety of sources both classical and contemporary. Dancers will be expected to improve speed, stamina, strength, flexibility, and rhythm. May be repeated for credit. Offered fall and winter semesters. Prerequisite: Restricted to dance majors and minors.

## **DAN 311 - Choreography and Production (3 credits)**

Advanced study and investigation of choreography. Course will focus on developing choreographic principles, devices and inspirations through structured exercises in human movement. Technical theatre production practices that enhance and further develop choreographic ideas will also be studied. Offered winter semester. Prerequisites: Restricted to dance majors and minors and DAN 211 with a C or better.

## **DAN 333 - Dance Costuming (2 credits)**

Study of the principles of costume design as it applies to body form and dance performance. Offered winter semester. Prerequisite: Restricted to dance majors and minors.

## **DAN 341 - Ballet Technique 3 (2 credits)**

Sequential training in the technique and vocabulary of classical ballet with an emphasis on placement, alignment, coordination, flexibility, and movement quality. May be repeated for credit. Offered fall and winter semesters. Prerequisites: Restricted to dance majors and minors, DAN 241 with a C or better, and permission of the instructor.

## **DAN 345 - Dance History: Expanding Performance (3 credits)**

The interdisciplinary nature of dance as a cross-cultural phenomenon, investigating developments in concert dance in the modern era; writings and video from a variety of methodological backgrounds, including those from a historical, sociological, critical, aesthetic, and ethnological viewpoint. Offered fall semester. Prerequisites: Restricted to dance majors and minors and DAN 245 with a C or better.

## **DAN 351 - Modern Technique 3 (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Sequential training in classical and postmodern dance techniques with an emphasis on breath, coordination, flexibility, movement dynamics, and musicality. May be repeated for credit. Offered fall and winter semesters. Prerequisites: Restricted to dance majors and minors and DAN 251 with a C or better and permission of the instructor.

## **DAN 380 - Special Topics in Dance (1 to 4 credits)**

The opportunity to develop certain advanced skills or study material not regularly offered as part of the dance curriculum. Offered on sufficient demand. Prerequisite: Permission of instructor.

## **DAN 381 - Jazz Technique 3 (2 credits)**

Sequential training in jazz technique drawn from a variety of sources both classical and contemporary. Dancers will be expected to improve speed, stamina, strength, flexibility, and rhythm. May be repeated for credit. Offered fall and winter semesters. Prerequisites: Restricted to dance majors and minors and DAN 281 with a C or better, and permission of the instructor.

## **DAN 393 - Dance Conditioning (3 credits)**

An intensive practicum in conditioning for dance focusing on flexibility, coordination, strength, and endurance. Offered fall semester, every fourth year. Prerequisite: Restricted to dance majors and minors.

## **DAN 394 - Dance on Camera (3 credits)**

An intensive practicum in effective practices and principles of choreography for the camera, specifically focusing on camera techniques, video-editing software, and developing choreography viewed through the lens of a video camera. Course offered fall semester, every fourth year. Prerequisite: Restricted to dance majors and minors.

## **DAN 420 - Dance Pedagogy (3 credits)**

An intensive study of the theory and practice of dance teaching in arts education. Students will gain an understanding of current research and theories of dance education through readings, videos, and observations as a basis for developing a personal pedagogy. Offered winter semester. Prerequisites: Restricted to dance majors and minors and permission of instructor.

## **DAN 441 - Ballet Technique 4 (2 credits)**

Sequential training in the technique and vocabulary of classical ballet with an emphasis on placement, alignment, coordination, flexibility, and movement quality. May be repeated for credit. Offered fall and winter semesters. Prerequisites: Restricted to dance majors and minors, DAN 241 and DAN 341 with a C or better, and permission of the instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **DAN 451 - Modern Technique 4 (2 credits)**

Sequential training in classical and postmodern dance techniques with an emphasis on breath, coordination, flexibility, movement dynamics, and musicality. May be repeated for credit. Offered fall and winter semesters. Prerequisites: Restricted to dance majors and minors, DAN 251 and DAN 351 with a C or better, and permission of the instructor.

## **DAN 481 - Jazz Technique 4 (2 credits)**

Sequential training in jazz technique drawn from a variety of sources both classical and contemporary. Dancers will be expected to improve speed, stamina, strength, flexibility, and rhythm. May be repeated for credit. Offered fall and winter semesters. Prerequisites: Restricted to dance majors and minors, DAN 281 and DAN 381 with a C or better, and permission of the instructor.

## **DAN 495 - Senior Project (3 credits)**

Proposal and creation of an individualized student Capstone project and a professional portfolio. Offered on demand. Prerequisite: Permission of the instructor.

## **DAN 499 - Dance Independent Study and Research in Dance (1 to 4 credits)**

Advanced independent study in problems of dance and dance education. To be arranged with the instructor. Offered fall and winter semesters as needed. Prerequisite: Permission of the instructor.

## **DS 201 - Digital Identities and Communities (3 credits)**

Students will reflect on their participation in digital cultures and communities to examine the structure and function of digital environments. They will explore how digital platforms inform and are informed by self-understanding, identity performance, community membership, and material experiences. Fulfills one of the Foundations - Social and Behavioral Sciences. Offered fall and winter semesters.

## **DS 202 - Digital Data and Design (3 credits)**

Students will gain a fundamental understanding of how digital data is collected, analyzed, and visualized/represented on various platforms. They will learn to locate and assess sources of data, and effectively and ethically represent those data, using relevant communication tools. Offered fall and winter semesters.

## **DS 310 - Digital Preservation and Archiving (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Explores challenges in digitization and managing digital content over time. Analyzes the methods librarians, archivists, curators, and other information professionals use to preserve and make digital content accessible. Emphasizes the changing nature of digital content, digital loss and persistence, and how technology helps and hinders archiving and accessibility.

## **DS 314 - Digital Literacies (3 credits)**

Increasingly, literary production and consumption are occurring in digital spaces using digital tools. This course will foster students' abilities to critically interpret literary texts using digital tools. Students will study literary authorship, readership, and analysis from the inception of the printing press to the present. Part of the Information, Innovation, or Technology Issue. Course is cross-listed with ENG 314. Offered winter and spring/summer semesters. Prerequisite: Junior standing.

## **DS 330 - Game Culture (3 credits)**

An examination of digital games, design, and players, and their role in society and culture. The course investigates purposes of games, such as entertainment, education, defense, marketing, health, urban planning, and emergency management. Students explore game theory and how games shape and are shaped by culture, society, and exigency.

## **DS 335 - Digital Crime, Media and Culture (3 credits)**

Examination of digital communication and media in relation to crime and victimization as it intersects with the United States and international criminal justice systems. Investigation of the use of digital spaces and media in relation to cultures of privacy, fraud, trafficking, emancipation, terror and perceptions of expanding and retracting democracy. Part of the Globalization Issue. Cross-listed with CJ 335. Offered every semester. Prerequisite: Junior standing.

## **DS 340 - Identity and Representation in Digital Culture (3 credits)**

Students will examine the default norms of digital communication (e.g. whiteness, heterosexuality, binary gender) and explore intersectional identities online (e.g. race, class, gender, sexuality, nationality, ability status). The course will investigate dominant and marginalized communities' use of digital spaces and media, considering the ethics of online communication, research, and participation. Part of the Identity Issue. Prerequisite: Junior standing.

## **DS 350 - Social Media in Culture (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An examination of social media's role in shaping individuals and communities. Students evaluate how social media platforms express political, social, and cultural power. Students analyze how social media expands and limits conversations on issues concerning race, gender, sexuality, and diaspora. Part of the Information, Innovation, or Technology Issue. Prerequisite: Junior standing.

## **DS 360 - Ethics of Digital Culture (3 credits)**

This course will investigate the ethical concepts emerging alongside digital innovation. Students will explore topics including social media, issues of privacy and security, cyber warfare, virtual representation, and Internet access, plagiarism, and sustainability.

## **DS 380 - Special Topics in Digital Studies (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **DS 399 - Independent Study in Digital Studies (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with the approval of the department.

## **DS 490 - Internship in Digital Studies (3 credits)**

Internship experience in digital studies with individual faculty supervision focusing on either digital cultures or tools and production. Allows students the opportunity to apply theoretical digital studies knowledge to professional contexts. Course will include biweekly classroom discussion of assigned readings and workplace experiences. Offered every semester. Prerequisite: Director of digital studies permit required.

## **DS 495 - Digital Studies Capstone (3 credits)**

A culminating course in which students demonstrate their conceptual understanding and creative abilities as they relate to digital studies (DS). Each student completes digital project(s) for peer critique. Students critically reflect on their trajectory through the DS curriculum and explain how it relates to their future goals. Offered winter semester. Prerequisites: DS 201, DS 202, at least one course from the digital tools/production module, and one course from the digital culture module.

## **EAS 180 - Special Topics in East Asian Studies (1 to 4 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 100-level courses. May be repeated for credit when the content varies.

## **EAS 201 - East Asia in the Contemporary World (3 credits)**

Prepares students for encountering East Asia in various ways. Introduces East Asian cultures, political and economic systems, international relationships, recent developments, traditional customs and behavior patterns, differences between regions, and historical roots of some contemporary situations. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters.

## **EAS 280 - Special Topics in East Asian Studies (1 to 4 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 200-level courses. May be repeated for credit when the content varies.

## **EAS 301 - Masterpieces of East Asian Literature (3 credits)**

Explores the literary masterpieces of China and Japan. Students will sample representative genres, such as poetry, dramas, novels, and short stories, from various periods that introduce the East Asian ways of thinking and living, namely, Confucian, Taoist, Buddhist, and Shinto. Offered winter semester of even-numbered years. Prerequisite: EAS 201 or junior standing.

## **EAS 333 - Study Abroad - East Asian Studies (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credits may vary. Offered as needed. Prerequisites: Specific to course and instructor.

## **EAS 351 - Asian American Experiences (3 credits)**

This course examines the heterogeneous communities and experiences of Asian Americans. Students explore Asian American citizenship, belonging, and community formation. This course investigates how racialized and/or sexualized representations of Asian Americans in popular culture shape their engagement with the broader American culture. Part of the Identity Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **EAS 380 - Special Topics in East Asian Studies (1 to 4 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 300-level courses. May be repeated for credit when the content varies.

## **EAS 399 - Independent Studies (1 to 3 credits)**

Before registering, students must arrange for supervision by an East Asian Studies faculty member and submit a contract (available from the EAS coordinator) specifying the topic and scope of the study. Ordinarily, no more than three credits of EAS 399 may count toward the minor. Instructor approval required prior to registration. Offered every semester.

## **EAS 480 - Special Topics in East Asian Studies (1 to 4 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 400-level courses. May be repeated for credit when the content varies.

## **ECO 100 - Current Economic Issues (3 credits)**

Examination of current social issues from an economic perspective, such as drugs, rent control, environmental pollution, poverty, crime, and the distribution of medical care. Recommended for students interested in current issues. Students with any economics course at ECO 200 and above cannot take this course for credit. Fulfills Foundations - Social and Behavioral Sciences. Offered fall and winter semesters.

## **ECO 200 - Business Economics (3 credits)**

Analysis of business issues, including: demand and market pricing strategies, supply and production costs, profit maximization of firms in different markets, monetary and fiscal policy, and business cycles. Cannot be taken for credit if credit was obtained for either ECO 210 or ECO 211. Suitable only for students with strong analytical skills. Offered every semester. Prerequisite: MTH 110 or MTH 122 or MTH 201; sophomore standing recommended.

## **ECO 210 - Introductory Macroeconomics (3 credits)**

Introduction to the study of the national and global economies. Topics include the effects of government taxation and budget deficits on economic growth; ways to alleviate unemployment, inflation and international trade imbalances, and the importance of expectations and decision-

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

making in an uncertain world. Fulfills Foundations - Social and Behavioral Sciences. Offered every semester. Prerequisite: MTH 110 or MTH 122 or MTH 201; sophomore standing recommended.

## **ECO 211 - Introductory Microeconomics (3 credits)**

Focuses on the interactions among households, producers, and governments in market economies. Applies fundamental methods of economic analysis to topics such as household spending and saving patterns; producer pricing, profits, and organization; wages and income distribution; investment decisions; health care and insurance; government taxes, spending, and regulation of markets. Fulfills Foundation - Social and Behavioral Sciences. Offered every semester. Prerequisite: MTH 110 or MTH 122 or MTH 201; sophomore standing recommended.

## **ECO 300 - Data Analytics for Economics and Business (3 credits)**

An introduction to empirical methods in economics and business. Uses spreadsheets and econometric software to manage data and apply visual and statistical analyses using economics and business data. Offered winter semester of even numbered years. Prerequisites: Fulfillment of general education Foundations - Writing, STA 215, either (ECO 200 or ECO 210 or ECO 211), and admission to Seidman College of Business or by permit.

## **ECO 312 - Applied Microeconomics (3 credits)**

Applies microeconomic analysis to business, personal, and public decisions. Topics include business cost and output decisions; consumer demand; pricing and allocation of goods, services, labor, and other resources in competitive markets; strategic pricing across markets; impact of government policies, services, taxes, and regulations on market operations. Offered every year. Prerequisites: Either (ECO 211 or ECO 200) and admission to Seidman College of Business or by permit.

## **ECO 313 - Business Cycles and Growth (3 credits)**

Topics include analysis of economic fluctuations and their impact on corporations and consumers; different explanations for business cycles; monetary and fiscal policy for stabilizing economic fluctuations; effects of public debt, investment, employment, and trade policy on economic growth. Offered every year. Prerequisites: Either (ECO 210 or ECO 200) and admission to Seidman College of Business or by permit.

## **ECO 330 - Sports Economics (3 credits)**

Examination of economic issues pertaining to professional and collegiate sports, including analysis of industrial organization and antitrust issues, labor relations, discrimination, and the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

impact of franchises on local economies. Part of the Information, Innovation, or Technology Issue. Offered winter semester. Prerequisites: Junior standing, completion of Foundations - Social and Behavioral Sciences, and admission to Seidman College of Business or by permit.

### **ECO 336 - Urban and Real Estate Economics (3 credits)**

Applies economic models and methods for understanding urban real estate markets. Topics include urbanization and urban growth; determinants of land rents and urban spatial structure; characteristics and determinants of real estate markets; location choice; transportation, poverty, crime, and education in cities; relationship between real estate markets and business cycles. Offered winter semester. Prerequisites: Either (ECO 211 or ECO 200) and admission to Seidman College of Business or by permit.

### **ECO 343 - Health Economics (3 credits)**

Application of microeconomic tools to health and medical care issues. Topics include demand for health care, economic choices of medical care providers, insurance markets, economic justification for government involvement in the medical care system, various proposals for health care reform in the U.S. and different health care systems in the world. Part of the Health Issue. Offered fall semester. Prerequisites: Junior standing, either (ECO 211 or ECO 200), and admission to Seidman College of Business or by permit.

### **ECO 345 - Environmental and Resource Economics (3 credits)**

Develops a systematic economic framework to analyze market and government allocations of natural and environmental resources. Topics include relationships between population growth, land development, and environmental quality; regulatory versus market oriented environmental policies; supplies and prices of mineral and energy resources; harvest and protection of forests and fisheries. Part of the Sustainability Issue. Offered each year. Prerequisites: Junior standing, either (ECO 200 or ECO 211), and admission to Seidman College of Business or by permit.

### **ECO 349 - Emerging Markets Issues (3 credits)**

Important problems in emerging markets throughout the world, such as: policies to stimulate growth via international trade; foreign aid and multinational investment in transitional economics; the use of natural resources and agriculture in economic development; and the relationship of economic development to education, health and migration. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Offered every other year. Prerequisites: Junior standing, either (ECO 200 or ECO 210), and admission to Seidman College of Business or by permit.

### **ECO 350 - Economics of Gender (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Analysis of gender differences in employment and earnings. Topics include allocation of time between the household and the labor market, employment and family structure, theories of discrimination, antipoverty programs, comparable worth, parental leave, and affirmative action. Historical trends and cross-cultural comparisons are discussed along with current U.S. conditions. Part of the Identity Issue. Prerequisites: Junior standing and admission to Seidman College of Business or by permit.

## **ECO 355 - Markets, Strategy, and Government Policy (3 credits)**

Analysis of firms' market strategies and an introduction to government policy regarding market behavior. Topics include models of market structure, game theory, regulation, and anti-trust policy. Offered once a year. Prerequisites: Either (ECO 211 or ECO 200) and admission to Seidman College of Business or by permit.

## **ECO 360 - The Economics of Work and Family (3 credits)**

Economic analysis of families and family members, employment and earnings. Topics include allocation of time between the household and the labor market, employment and family structure, theories of discrimination, anti-poverty programs, and labor market policies related to gender and family structure. Offered every other year. Prerequisites: Either (ECO 211 or ECO 200) and admission to Seidman College of Business or by permit.

## **ECO 365 - Comparative Economic Systems (3 credits)**

Relative to such economic goals as economic freedom, full employment, growth, efficiency, consumer welfare, equitable distribution of income and security, how well do alternative economic systems perform? This course studies contemporary, evolving capitalist, socialist, and mixed systems in different countries. Part of the Globalization Issue. Offered every other year. Prerequisites: Junior standing, either (ECO 210 or ECO 200), and admission to Seidman College of Business or by permit.

## **ECO 369 - International Economic Issues (3 credits)**

Selected topics in both international trade and international finance. Includes preferential trading arrangements such as NAFTA and the European Union, analysis of barriers to trade and arguments for and against protectionism, the influence of exchange rates on capital flows, and the relationship between international trade and economic growth. Fulfills Cultures - Global Perspectives. Offered every year. Prerequisites: Either (ECO 200 or ECO 210) and admission to Seidman College of Business or by permit.

## **ECO 380 - Special Topics in Economics (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Studies of selected authors, concepts, movements, periods, theories or countries. Topics and prerequisites will be listed in the class schedule. Prerequisite: Admission to Seidman College of Business or by permit.

### **ECO 385 - GIS in Urban and Regional Analysis (3 credits)**

Focus on applications of Geographic Information Systems (GIS) techniques in urban and regional analysis. Using a hands-on approach, students will explore how to use GIS techniques and large data sets to analyze economic, demographic and social change in the knowledge-based economy. Part of the Information, Innovation, or Technology Issue. Cross-listed with GPY 385. Offered fall semester. Prerequisites: Junior standing and admission to Seidman College of Business or by permit.

### **ECO 400 - Econometrics and Forecasting (3 credits)**

Gives students a working knowledge of sources of economic and business data, empirical model building, and economic interpretation of statistical results. Topics include regression analysis, designing models, forecasting and hypothesis testing. Emphasis on business and policy applications. Prerequisites: One of (ECO 200, ECO 210 or ECO 211); (STA 215 or STA 312); one of (ECO 300, STA 216, or MTH 201); and admission to Seidman College of Business or by permit.

### **ECO 414 - Money and Banking (3 credits)**

Contemporary issues related to the role of money in a modern economy, regulation and performance of banks, and the Federal Reserve Bank's policy to control economic fluctuations and promote growth. Offered every year. Prerequisites: Either (ECO 210 or ECO 200) and admission to Seidman College of Business or by permit.

### **ECO 440 - Public Economics and Ethics (3 credits)**

The provision of goods and services in the public sector, government decision-making, and fair and efficient taxation will be analyzed in light of the interaction between ethics and economics. Offered fall semester. Prerequisites: Either (ECO 211 or ECO 200); and admission to Seidman College of Business or by permit.

### **ECO 450 - Advanced Economic Policy and Analysis (3 credits)**

This is a projects-based course in economics and economic data science. Students will analyze current macroeconomic conditions to determine optimal monetary policy. Students will also learn and apply foundational data analysis techniques using firm-level data. Designed for advanced students and/or those pursuing an honors minor or honors emphasis in economics.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Offered fall semester. Prerequisites: Either (ECO 313 or ECO 414), and either (ECO 300 or ECO 400), and 3.2 overall GPA (or with departmental permission).

## **ECO 480 - Special Topics in Economics (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **ECO 490 - Economics Internship (1 to 6 credits)**

This course will be used to grant economics credit to students who complete internships in the economics field. May not be used to fulfill the upper-division cognate requirement for business majors. Prerequisites: Junior standing, minimum 3.0 GPA, and admission to Seidman College of Business or by permit. Graded credit/no-credit.

## **ECO 495 - Senior Economic Project (Capstone) (3 credits)**

Seminar style course in empirical methods in economics. The nature of empirical methods and their relationship to economic theory is discussed. Presentation and discussion of empirical papers from the literature. Economics faculty may present own research. Students will design, conduct and present an empirical research paper. Offered winter semester. Prerequisites: ECO 300, (ECO 312 and ECO 313; one may be taken concurrently), and admission to Seidman College of Business or by permit.

## **ECO 499 - Independent Study and Research (1 to 4 credits)**

Independent study in an area of interest to the student, supervised by a member of the economics faculty and cumulating in a written and oral report. Offered fall and winter semesters. Prerequisite: Admission to Seidman College of Business or by permit.

## **ECO 542 - Economic Reasoning (3 credits)**

An examination of economic concepts, principles, definitions, and relationships. Designed to provide analytical micro and macroeconomic techniques and concepts necessary to reason from an economic point of view. Offered fall and winter semesters. Prerequisite: MTH 110. Equivalent to ECO 210 and ECO 211.

## **ECO 641 - Business Economics and Strategy (3 credits)**

Develops an analytical framework to identify and evaluate cost-cutting or revenue-enhancing strategies. Topics include economics of production costs and consumer demand, projections using supply/demand analysis, competitive labor markets and employee compensation strategies, cost benefit analysis of investment projects, decision-making under uncertainty, product pricing

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

strategies, make or buy decisions, economics of business organization. Offered fall and winter semesters. Prerequisite: Completion of M.B.A. background equivalents.

### **ECO 643 - Health Economics (3 credits)**

This course employs economic tools to understand issues related to health care. Students will learn how to evaluate cost-benefit analysis, assess cost effectiveness, and interpret regression analysis. Microeconomic issues include resource allocation, production efficiencies, market structure, and industry performance. Macroeconomic issues include national policy, equity, and health care reform. Cross-listed with PNH 633. Offered fall and winter semesters. Prerequisite: Admission to the M.B.A., M.S.A., or M.S.T. program, or permission of the graduate business programs director.

### **ECO 680 - Special Topics in Economics (1 to 3 credits)**

Analysis of contemporary and controversial issues in a specific area of economics. Although the course content is applications-oriented, it varies depending on students and faculty interests. Consult the current schedule of classes for details. Prerequisite: Completion of M.B.A. background equivalents.

### **ECO 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **EDC 601 - Content/Curriculum Workshop (1 to 3 credits)**

Advanced-level workshops that provide a breadth and depth of understanding in content and curriculum of educational programs. Topics may vary and prerequisites may be established.

### **EDC 621 - The Profession of School Counseling (3 credits)**

This course provides an introduction to the profession of school counseling and is the first course in the program. The philosophy, principles, and theories of school counseling are taught including national standards and ethical and legal issues. At least 15 supervised practicum hours must be completed in a school setting. Offered at least once a year.

### **EDC 623 - Social/Emotional Development (3 credits)**

This course provides students with knowledge and practice in developmental counseling appropriate for students within elementary, middle, high school, and higher education settings. The process of consultation with teachers, parents, and support personnel is taught. At least 20

supervised practicum hours must be completed in a school counseling setting. Offered winter semester. Prerequisite: EDC 621.

### **EDC 625 - Academic Development (3 credits)**

This course provides students with strategies to support academic success of students in schools. It includes the acquisition of skills in decision-making, problem solving, and goal setting, critical thinking, and interpersonal communication emphasizing small group counseling. At least 20 supervised practicum hours must be completed to support academic development. Offered winter semester. Prerequisite: EDC 621.

### **EDC 649 - Career Development (3 credits)**

This course examines the principles and processes involved in supporting career development. Students will explore a variety of theories, philosophies, and programs related to career development and its role in kindergarten through postsecondary educational settings. School counseling candidates must complete at least 20 supervised practicum hours to demonstrate educational development planning. Offered at least once a year.

### **EDC 651 - School Counseling Curriculum and Techniques (3 credits)**

This course examines the process of the school counseling. It includes basic principles related to assessing, interviewing, assisting, and referring students. Emphasis is placed on school counseling curriculum in affecting the positive mental health of students. At least 25 practicum hours are incorporated through counseling skills recordings and reflections. Offered at least once a year.

### **EDC 680 - Special Topics in School Counseling (1 to 3 credits)**

Study of selected topics in education. Offered upon sufficient demand.

### **EDC 685 - Internship in School Counseling (3 to 6 credits)**

A 600-hour, field-based learning experience in schools designed to provide comprehensive practice for school counseling candidates over one or two semesters. Each internship must be approved by the faculty coordinator/advisor. An internship seminar will meet weekly to provide university supervision. Offered fall and winter semesters. Prerequisites: EDC 621, EDC 623, EDC 649, EDC 651, and EDC 625 (EDC 625 may serve as a corequisite).

### **EDC 693 - Master's Project (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The student identifies a problem, reviews literature, creates a product based on applicable literature, research or theory that addresses the problem, and develops a plan for implementation and evaluation. Offered every semester. Prerequisites: Completion of 27 credit hours; EDF 660; application required (application deadline: fall May 15; winter September 15; spring/summer February 15); and completion of the Responsible Conduct of Research Training within the last three years.

## **EDC 695 - Master's Thesis (1 to 6 credits)**

Involves either theoretical research or empirical research that identifies an issue or question, reviews literature, designs a study, gathers and analyzes data or evidence, and presents interpretations or conclusions. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15; winter September 15; spring/summer February 15), and completion of the Responsible Conduct of Research Training within the last three years.

## **EDC 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **EDC 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **EDC 699 - Independent Study in School Counseling (1 to 3 credits)**

Individual study of a theoretical or applied problem in education. Offered each semester. Prerequisites: Consent of advisor and demonstrated ability to pursue special study or investigation proposed.

## **EDF 100 - Teaching and Learning in a Diverse Environment (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Designed to acquaint students with teaching and culture of schools through a 25-hour field experience. Students will learn fundamental instructional principles, engage in one-on-one academic support, and write/discuss their experiences. General knowledge of public schools and the foundations of American education will be addressed through readings and discussions. Offered fall and winter semesters.

## **EDF 115 - Introduction to Education: An Exploration of Schooling in America (3 credits)**

This field-based course explores the way schools work and introduces students to the professional roles and responsibilities of educators. Students learn principles of teaching and learning, including social and cultural factors that shape learning outcomes. Students spend up to 30 exploratory hours in various educational settings. Fulfills one of the Foundations - Social and Behavioral Studies. Offered fall and winter semesters.

## **EDF 215 - Introduction to Philosophies of Early Childhood (3 credits)**

Inquiry into the different and unique perspectives of early childhood education - including historical, social, theoretical, and philosophical foundations of the field. Course will examine how schools of philosophies impact how we see children, learning, and education and how they help us understand modern day movements, issues, and events. Fulfills Foundations - Philosophy and Literature. Offered fall and winter semesters.

## **EDF 260 - Educational Research and Assessment: Foundations of Practice (3 credits)**

Presents the basic principles, techniques and ethical considerations underlying educational research and assessment. Students will learn about the action research cycle and the ethical uses of empirical evidence and assessments to inform practice. Offered fall and winter semesters.

## **EDF 315 - Diverse Perspectives on Education (3 credits)**

This course will introduce the historical, philosophical, and sociological foundations of education in the United States. Emphasis will be placed on the changing purposes of education historically, the legal and procedural expansion of schooling to an increasingly diverse student population, and the cultural competencies needed to teach all students effectively. Fulfills Cultures - U.S. Diversity. Offered every semester. Prerequisite: Sophomore standing.

## **EDF 316 - Global Perspectives on Education (3 credits)**

Globalization is changing the purposes of education around the world, both increasing competition and enhancing global citizenship. This course will examine the interrelationship between sociocultural contexts and education in multiple countries, the impact of globalization on educational policies and practices, and global perspectives on these emerging challenges and opportunities. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Offered winter semester. Prerequisite: Junior standing.

## **EDF 320 - International Teaching Certificate Preparation (1 credit)**

This course will deliver pre-departure training and include destination specific exploration of culture, history, geography, and health/safety information. Students will define their own cultural and educational beliefs as they are challenged to expand their international and education awareness. Offered fall and winter semesters. Prerequisite: Admission into a College of Education and Community Education sponsored study/teach abroad program.

## **EDF 325 - Learning from Detroit: Education and Community Revitalization (3 credits)**

This course studies community revitalization efforts in the city of Detroit. Focusing on community-based initiatives that are strengthening neighborhoods, improving schools, and fostering the well-being of children, families, and neighborhoods in Detroit, this course invites students with diverse perspectives from across content areas. The class includes two visits to Detroit. Part of the Identity Issue. Cross-listed with IDS 325. Offered fall semester. Prerequisite: Junior standing.

## **EDF 380 - Special Topics in Foundations (1 to 3 credits)**

Independent supervised study on selected topics that are not dealt with in-depth in other courses. Offered upon sufficient demand.

## **EDF 399 - Independent Study in Foundations (1 to 3 credits)**

Independent supervised study on selected topics that are not dealt with in-depth in other courses. Offered upon sufficient demand.

## **EDF 485 - The Context of Educational Issues (3 credits)**

This culminating education course will explore the context of contemporary educational issues. Students will analyze and critique current educational practices and policies, and draw upon foundational perspectives in addressing such issues. Offered every semester. Prerequisite: EDI 430 or EDI 431 (may be taken concurrently).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDF 495 - Capstone: Reflective Inquiry and Practice (3 credits)**

Explores the context of contemporary educational issues. Students draw upon foundational perspectives to analyze and critique current educational practices and policies. To develop their professional capacities, students will use action research to integrate and apply their knowledge and skills when making curricular and instructional decisions. Offered fall and winter semesters. Corequisite: EDI 430 or EDI 431.

## **EDF 499 - Independent Study in Foundations (1 to 3 credits)**

Independent supervised research and study in special areas of education, prearranged with a faculty sponsor and approved by the director. Offered upon demand.

## **EDF 601 - Content/Curriculum Workshop (1 to 3 credits)**

Advanced-level workshops that provide a breadth and depth of understanding in content and curriculum of educational programs. Topics may vary and prerequisites may be established.

## **EDF 633 - Race, Class, and Language (3 credits)**

Interdisciplinary course incorporating the views of linguists, psychologists, sociologists, educators, and speech researchers. Exploration of the background literature and practical implications of the problems raised by social class and ethnic differences in language. Offered at least once a year.

## **EDF 634 - Teaching the At-Risk Student (3 credits)**

Issues and concerns and programs in implementing effective programs for students from at-risk backgrounds. Offered at least once a year.

## **EDF 635 - Survey of Urban Education (3 credits)**

Study of the historical, sociological, and educational bases of urban education.

## **EDF 650 - Classroom Management (K-12) (3 credits)**

An examination of the differentiation of the terms "discipline" and "classroom management." Review and study of such interrelated subjects as authority, rules, power, responsibility, types and degrees of control, and the many related attitudes, standards, and prejudices that combine to complicate a problem. Offered at least once a year.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDF 653 - School Learning (3 credits)**

Consideration of learning situations in the light of psychological findings and concepts. Development of a theory of learning and its applications to the teaching of attitudes, skills, concept formation, and understanding. Offered at least once a year.

## **EDF 660 - Educational Inquiry and Evaluation (3 credits)**

Introduces educational inquiry and explores the impact it can have on educational institutions. Investigates educational evaluation. Provides foundational research knowledge necessary for Capstone courses EDF 693 and EDF 695. Offered every semester.

## **EDF 661 - Educational Testing and Measurement (3 credits)**

Study of school testing, selection, and evaluation of norm-based and criterion-based instruments, informal assessment, norm-based profiles, descriptive statistical analysis, and survey research. Review of ethical and legal issues in testing minority and special needs populations. Offered every semester.

## **EDF 671 - Educational Policy and Practice (3 credits)**

Course offers an advanced examination of social foundations, theories, and perspectives in education in preparation for an analysis and critique of selected policy related issues and practices in U. S. education. Offered every semester.

## **EDF 672 - Social/Cultural Foundations of Education (3 credits)**

Examines education as a social and cultural phenomenon. Explores the implications of this perspective on educational experience in general and the processes of teaching and learning in particular. Offered every semester.

## **EDF 675 - Cultural and Educational Foundations of Ecological Issues (3 credits)**

The learner will develop an understanding of the intimate connection between social justice, environmental issues, and education through examination of the historical and philosophical foundations of Western culture and education and how these may undermine or enhance sustainable and equitable relations between humans and other living systems. Offered fall and spring/summer semesters.

## **EDF 676 - Introduction to Place-Based Education (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Place-based education is the process of using the local community and environment as the basis for curriculum and learning. This course will assist students in understanding the fundamental principles and practices of place-based education that nurture academic skills, strong ties to community, civic engagement, local-global connections, and sustainable practices. Offered winter and spring/summer semesters.

## **EDF 677 - Citizenship, Activism, and Community Problem-Solving (3 credits)**

Academic concepts learned in previous courses will be applied to address concrete social and environmental problems in real-world community contexts. Students will collaborate with community organizations, place-based education programs, or other initiatives to utilize their knowledge and skills in working with others to address issues specific to their place. Offered fall and spring/summer semesters. Prerequisites: EDF 675 and EDF 676.

## **EDF 680 - Special Topics in Foundations (1 to 3 credits)**

Study of selected topics in education. Offered upon sufficient demand.

## **EDF 693 - Master's Project (1 to 3 credits)**

The student identifies a problem, reviews literature, creates a product based on applicable literature, research or theory that addresses the problem, and develops a plan for implementation and evaluation. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within last three years.

## **EDF 695 - Master's Thesis (1 to 6 credits)**

Involves either theoretical research or empirical research that identifies an issue or question, reviews literature, designs a study, gathers and analyzes data or evidence, and presents interpretations or conclusions. Offered every semester. Prerequisites: Completion of 27 credit hour, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within last three years.

## **EDF 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

### **EDF 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **EDF 699 - Independent Study in Foundations (1 to 3 credits)**

Individual study of a theoretical or applied problem in education. Offered each semester. Prerequisites: Consent of advisor and demonstrated ability to pursue special study or investigation proposed.

### **EDH 181 - Navigating College Success (1 credit)**

Introduction to recommended academic, social and personal skills, highlighting the expectations and needs of successful college students in the context of Grand Valley State University's diverse community. Offered fall and winter semesters.

### **EDH 182 - Strategies for Academic Success (2 credits)**

Examines factors that influence the academic performance of college students. Identifies social, affective, and cognitive barriers negatively impacting learning. Introduces strategic approaches for improving academic performance, which are tailored to individual students, implemented and evaluated. Highlights university resources for supporting academic performance. Offered every semester.

### **EDH 601 - Content/Curriculum Workshop (1 to 3 credits)**

Advanced-level workshops that provide a breadth and depth of understanding in content and curriculum of educational programs. Topics may vary and prerequisites may be established.

### **EDH 647 - Theories of College Student Development (3 credits)**

This course examines the major student development theories used by college student affairs practitioners in the higher education environment. Offered at least once a year.

### **EDH 648 - The Adult Learner (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Emerging theories and techniques for teaching the adult learner. Focus upon the adult's deliberate efforts at learning, developing, growing, changing, and learning difficulties. Offered at least once a year.

## **EDH 650 - Materials and Methods for Adult and Continuing Education (3 credits)**

Materials and methods of teaching the adult learner in school and nonschool settings. Offered at least once a year.

## **EDH 651 - Higher Education and Student Affairs Functions (3 credits)**

Provides an overview of the historical development of American higher education and an introduction to the evolution of student affairs functions in the academy. Offered at least once a year.

## **EDH 652 - The American College Student (3 credits)**

Examines the characteristics, values, expectations, and needs of contemporary college students in the context of student development theory. Offered at least once a year.

## **EDH 653 - Administration of Student Affairs Programs (3 credits)**

Examines the philosophy, organization and delivery of support programs, services, and cocurricular learning experiences for college students. Offered at least once a year. Prerequisite: EDH 651.

## **EDH 654 - Student Affairs Administrators and the Law (3 credits)**

Provides an overview of the legal issues and challenges that confront student affairs administrators in the higher education environment. Offered at least once a year. Prerequisite: EDH 651.

## **EDH 655 - Intervention Strategies for Student Development (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Examines the interventions used by student affairs practitioners to facilitate students' learning about themselves, about other people, and about ideas. Offered at least once a year. Prerequisite: EDH 647.

## **EDH 656 - Organization and Administration in Higher Education (3 credits)**

Theory and models of organizational structure, administrative behavior, funding, governance and management of higher education; processes and factors influencing institutional decision-making and higher education planning. Offered once per year. Prerequisite: EDH 651.

## **EDH 657 - The Community College (3 credits)**

The community college will explore the organizational behaviors and administrative practices unique to community colleges. Drawing on current and historical research, the course will examine educational philosophy and curricular objectives, student demographics, faculty and staff development, governance and leadership, and financial management of community colleges. Offered once per year. Prerequisite: EDH 651.

## **EDH 658 - Critical Issues in Higher Education (3 credits)**

Critical issues in higher education will provide a study of contemporary higher education and will include an analysis of the changing needs and demands of society and how they impact higher education. Attention is centered on issues emphasizing organization and administration, curriculum, college students, faculty, and retention. Offered once per year.

## **EDH 659 - Gender and Sexuality in Higher Education (3 credits)**

This course provides an overview of how notions of gender and sexuality as they converge with additional categories of race or (dis)ability, for example, operate to structure the distribution of access and resources in higher education contexts. Offered once per year. Prerequisite: EDH 651.

## **EDH 680 - Special Topics in Higher Education (1 to 3 credits)**

Study of selected topics in education. Offered upon sufficient demand.

## **EDH 685 - Practicum/Graduate Field Experience in Higher Education I (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Field-based experience designed to provide clinical experience for graduate students. Each practicum shall be no less than the minimum requirements set forth by state and accrediting agencies and must be with approval by the appropriate program personnel. All practica will require seminars. Offered at least once a year. Prerequisites: Candidates must apply separately to the College of Education and Community Innovation by February 15 for spring/summer; May 15 for fall semester, and September 15 for winter semester.

## **EDH 686 - CSAL Practicum/Graduate Field Experience II (3 credits)**

Field-based experience designed to provide clinical experience for graduate students. Each practicum shall be no less than the minimum requirements set forth by state and accrediting agencies and must be approved by the appropriate program personnel. All practica will require seminars. Offered twice per year. Prerequisite: EDH 685.

## **EDH 693 - Master's Project (3 credits)**

The student identifies a problem, reviews literature, creates a product based on applicable literature, research or theory that addresses the problem, and develops a plan for implementation and evaluation. Offered every semester. Prerequisites: Completion of 27 credit hour, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15); and completion of the Responsible Conduct of Research Training within the last three years.

## **EDH 695 - Master's Thesis (1 to 6 credits)**

Involves either theoretical research or empirical research that identifies an issue or question, reviews literature, designs a study, gathers and analyzes data or evidence, and presents interpretations or conclusions. Offered every semester. Prerequisites: Completion of 27 credit hour, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within the last three years.

## **EDH 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **EDH 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **EDH 699 - Independent Study in Higher Education (1 to 3 credits)**

Individual study of a theoretical or applied problem in education. Offered each semester.

Prerequisites: Consent of advisor and demonstrated ability to pursue special study or investigation proposed.

## **EDI 310 - Building and Sustaining Positive Learning Environments (3 credits)**

Focuses on current theories and methodologies that build, develop, and sustain positive classroom learning environments and maximize productive behaviors for teaching and learning. Emphasis is on understanding personal and learning needs, structuring the environment, and recognizing and responding to children's behavior to meet learning needs. Offered fall and winter semesters. Corequisite: EDI 330.

## **EDI 311 - Assessing the Young Child (3 credits)**

Study of goals, benefits, uses, and methods of effective assessment of young children. Prepares candidates to assess and understand the development and learning of young children, and apply findings to plan, implement and evaluate effective curriculum. Requires some field-based work outside of class. Offered fall and winter semesters. Prerequisite: PSY 305 (may be taken concurrently).

## **EDI 312 - Child Guidance (3 credits)**

Focuses on understanding the child as a full person deserving of human rights as articulated in the UN Convention on the Rights of the Child treaty. Develops understanding of the social context, child development, needs and rights; diversity, vulnerabilities, methods and strategies that foster social emotional, physical, and cognitive development. Part of the Human Rights Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **EDI 313 - Programs for Children Birth to Age Three (3 credits)**

Prepares candidates to create and facilitate inclusive learning environments for children from birth-age to three years old. Focuses on comprehensive theories of child development, social

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

context, understanding and engaging diverse families, elements of quality programs and research-based practices, resources, professional guidelines/ethics, and policies and regulations for infant/toddler programs. Requires field-based assignments. Offered fall and winter semesters. Prerequisite: PSY 305.

### **EDI 314 - Teaching Young Children with High Needs (3 credits)**

This course prepares candidates to support the learning and development of children with a range of needs through effective assessment, responsive teaching strategies, and individualized curriculum. Emphasis on working in partnership with other professionals and families, and utilizing a range of resources, including assistive technology. Includes field-based assignments. Offered fall and winter semesters. Prerequisite: PSY 305.

### **EDI 315 - Curriculum and Learning in Pre-K/Primary Programs (3 credits)**

Focuses on relationships between developmental theory, developmentally and culturally relevant practices, curriculum, and authentic assessment for diverse groups of children in preschool and primary programs. Considers sociocultural contexts and family partnerships to create environments and learning experiences to support optimal learning and development. Requires field-based assignments. Offered fall and winter semesters. Prerequisite: PSY 305.

### **EDI 317 - Collaborating with Families and Professionals (3 credits)**

Prepares teacher candidates to engage families in respectful, reciprocal relationships that support learning and child development. Prepares candidates to work with a variety of professionals within school and local communities. Includes field-based assignments. Offered fall and winter semesters. Prerequisite: PSY 301 or PSY 305.

### **EDI 330 - Elementary Apprenticeship PK-6 (6 credits)**

Daily half-day experience in a PK-6 classroom as a teaching apprentice. Includes a weekly seminar covering content methodology and equitable instructional practices, professional development on current and critical topics in the field, and a one week (four mornings and one full day) intensive on-campus pedagogy workshop. Corequisites: EDI 310.

### **EDI 331 - Methods and Strategies of Secondary Teaching (5 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Half-day field experiences as teacher assistant in a secondary classroom for a minimum of 13 weeks. Includes two-hour weekly seminars covering content area methodology (with major field advisor) and instructional strategies. Offered fall and winter semesters. Note: Music majors complete teacher assisting fall semester only. Students must follow the holiday break schedule designated by the K-12 district for their school placement/assignment, not the GVSU holiday break schedule. Prerequisite: Admission to the College of Education and Community Innovation. Corequisites: EDI 310 and EDR 321.

### **EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits)**

An introductory course for pre-service educators focusing on P-6 classroom assessment beliefs and practices. Instruction focuses on understanding the learning theories within which the work in classroom assessment occurs, understanding and applying specific assessment methods and practices, and communicating assessment results about P-6 student achievement. Offered every semester. Prerequisite: Sophomore standing.

### **EDI 339 - Teachers as Decision Makers: Instruction and Assessment in Secondary Schools (3 credits)**

An introductory course for pre-service educators focusing on 7-12 classroom assessment beliefs and practices. Instruction focuses on understanding the learning theories within which the work in classroom assessment occurs, understanding and applying specific assessment methods, and communicating assessment results about 7-12 student achievement. Offered every semester. Prerequisite: Sophomore standing.

### **EDI 380 - Special Topics in Instruction and Curriculum (1 to 3 credits)**

Independent supervised study on selected topics that are not dealt with in depth in other courses. Offered upon sufficient demand.

### **EDI 399 - Independent Study in Instruction and Curriculum (1 to 3 credits)**

Independent supervised study on selected topics that are not dealt with in depth in other courses. Offered upon sufficient demand.

### **EDI 416 - Teaching Early Language and Literacy (3 credits)**

An in-depth, critical study of theories and methods for supporting early language and literacy during the ages from birth to age eight. Culturally and developmentally relevant assessment,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

curriculum, and pedagogy are emphasized as candidates apply knowledge of theory, research, and best practices. Requires field-based experience. Offered fall and winter semesters. Prerequisite: PSY 305.

## **EDI 418 - Administration and Supervision in Early Childhood Education (3 credits)**

A study of the organization, administration, and skills required in the direction of early childhood education programs. Knowledge base includes understanding of professional guidelines and ethics, as well as pertinent federal, state, and local standards of quality, regulations and support services. Requires field-based experiences. Offered fall and winter semesters. Prerequisite: PSY 305.

## **EDI 430 - Student Teaching, Elementary (10 credits)**

Daily full-day experience in a PK-6 classroom as a teaching intern. Includes a weekly seminar covering implementation of equitable instructional, assessment and management practices, professional development on current and critical topics in the field, and personal reflection. Prerequisite: EDI 330 grade of B- or better.

## **EDI 431 - Student Teaching, Secondary (8 credits)**

Secondary, full-time student teaching with a two-hour weekly seminar covering pedagogy, methodology, and instructional best practices. Students must follow the holiday break schedule designated by the K-12 district for their school placement/assignment, not the GVSU holiday break schedule. Corequisites: EDI 432, advancement to student teaching, and positive recommendations from prior fieldwork.

## **EDI 432 - Student Teaching, Secondary Content Practicum (2 credits)**

Secondary content practicum, full-time student teaching with three content area seminars covering pedagogy, methodology, and instructional best practices taken simultaneously with EDI 431. Offered fall and winter semesters. Prerequisites: Advancement to student teaching and positive recommendations from prior fieldwork. Corequisite: EDI 431.

## **EDI 470 - Directed Teaching in Early Childhood Education (3 credits)**

The directed teaching experience provides students the opportunity to implement the knowledge, skills, and best practices learned in their coursework related to teaching young children in an early childhood setting that serves infants/toddlers, preschoolers, or K-3 students. It meets the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

minimum requirements set by the state and accrediting agencies. Offered every semester.

Prerequisites: Completion of 15 credits toward the early childhood minor. Instructor permission required.

## **EDI 499 - Independent Study in Instruction and Curriculum (1 to 3 credits)**

Independent supervised research and study in special areas of education, prearranged with a faculty sponsor and approved by the director. Offered upon demand.

## **EDI 601 - Content/Curriculum Workshop (1 to 3 credits)**

Advanced-level workshops that provide a breadth and depth of understanding in content and curriculum of educational programs. Topics may vary and prerequisites may be established.

## **EDI 610 - Advanced Studies in Child Development Ages 0-8 (3 credits)**

Theories and research methods and findings related to the intellectual, emotional, perceptual, social, and personality development of the young school child. Offered at least once a year.

## **EDI 611 - Assessment of the Young School Child (3 credits)**

Instructional assessment procedures and prescriptive techniques for students in grades Pre-K-6. Offered at least once a year.

## **EDI 612 - Curriculum Development for Early Childhood Education (3 credits)**

Theoretical background and content of curricular approaches in early childhood programs. Analysis and evaluation of early childhood curricular materials. Experience in designing and sequencing activities for young children. Offered at least once a year.

## **EDI 613 - Administration and Supervision of Early Childhood Education (3 credits)**

A study of the organization, administration, and skills required in the direction of early childhood education programs. Review of the pertinent federal, state, and local regulations and support services. Offered at least once a year.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDI 614 - Infant and Toddler Development and Curriculum (3 credits)**

This course will include the history of education and research on the care of infants and toddlers, intervention activities for special needs, instructional strategies, developing and establishing collaborative partnerships with families, and designing and implementing developmentally appropriate environments for infants and toddlers (ages: conception through four years of age). Offered every semester.

## **EDI 630 - Teaching Mathematics: K-8 (3 credits)**

Study of content and instruction pedagogies used in teaching elementary and middle school mathematics. Consideration of the principles involved in developing a mathematics program and quality materials for classroom use. Offered at least once a year.

## **EDI 631 - Teaching Science: K-8 (3 credits)**

Designed to prepare teachers to teach elementary and middle-level science to all students. Emphasizes planning and teaching science, including laboratory inquiry and hands-on activities. Integration of process and content objectives, activities, and assessment will be addressed. Offered at least once a year.

## **EDI 632 - Teaching Creative and Performing Arts (3 credits)**

Explores theories of creativity and their application in the classroom. It provides students with an opportunity to learn more about developing the creative potential of their students within all disciplines and across all levels of education. Offered spring/summer semester.

## **EDI 633 - Teaching Social Studies and Diversity (3 credits)**

Emphasizes instructional methods for teaching and integrating social studies, economics, history, civics, geography, and diversity in elementary and middle schools. Focus is on problem solving, critical thinking, and democratic citizenship with strategies for valuing people with differences in learning styles, race, class, culture, gender, and disability. Offered at least once a year.

## **EDI 634 - Middle-Level Education (3 credits)**

A study of middle-level organization, curriculum, instruction, staffing, subject matter, and school-parent-community interaction as it supports the education and development of early adolescents (ages 9 through 14). Offered spring/summer semester.

## **EDI 635 - Development and Needs of Students (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course focuses on theories of development in cognitive, social, physical, and emotional domains as they relate to the education of elementary and secondary students. Offered at least once a year.

### **EDI 636 - Instruction in Middle and High Schools (3 credits)**

Multiple instructional strategies appropriate for teaching and assessing middle and high school curriculum; methods for addressing individual differences, incorporating students' ideas, developing thinking and problem-solving skills, facilitating groups, promoting student responsibility and planning lessons, units, interdisciplinary activities, and experiences that foster achievement of the curriculum. Offered at least once a year.

### **EDI 637 - Assessment: K-12 Models and Practices (3 credits)**

Study of standardized and authentic assessments used in K-12 classrooms. Students will define intended learning outcomes, select and construct assessment instruments, evaluate reliability and validity of varied instruments and understand current theory, problems, trends, and issues of assessment. Offered at least once a year.

### **EDI 638 - Facilitating School Environments (3 credits)**

Study of research-based methodologies related to the establishment of positive school environments that promote academic achievement for all students within a community of learners. Focus on teachers as change agents, leaders, and collaborators. Offered at least once a year.

### **EDI 639 - Curriculum Development (3 credits)**

A study of the various approaches of curriculum construction and organization in the schools. Examination of principles of curriculum improvement, change, and evaluation. Offered at least once a year.

### **EDI 640 - Fundamentals of Talent Development (3 credits)**

This course prepares students to develop their rationale for differentiation by studying the history of special provisions for talent development and contemporary approaches. It addresses both the cognitive and affective needs of students. Offered at least once a year.

### **EDI 641 - Teaching for Talent Development (3 credits)**

This course covers the principles and practices of designing curriculum that enhances the talents of students. Special attention is given to the development of instructional materials. Offered at least once a year.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDI 680 - Special Topics in Instruction and Curriculum (1 to 3 credits)**

Study of selected topics in education. Offered upon sufficient demand.

## **EDI 685 - Practicum/Graduate Field Experience (3 or 6 credits)**

Field-based experience designed to provide clinical experience for graduate students. Each practicum shall be no less than the minimum requirements set forth by state and accrediting agencies, and must be approved by the appropriate program personnel. All practica will require seminars.

EDI 685A Elementary Education  
EDI 685B Secondary Education  
EDI 685C Early Childhood Education  
EDI 685D Educational Differentiation

Candidates must apply separately to the College of Education and Community Innovation by February 15 for spring/summer, May 15 for fall semester, and September 15 for winter semester. Offered at least once a year.

## **EDI 693 - Master's Project (1 to 3 credits)**

The student identifies a problem, reviews literature, creates a product based on applicable literature, research or theory that addresses the problem, and develops a plan for implementation and evaluation. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15; winter September 15; spring/summer February 15), and completion of the Responsible Conduct of Research Training within the last three years.

## **EDI 695 - Master's Thesis (1 to 6 credits)**

Involves either theoretical research or empirical research that identifies an issue or question, reviews literature, designs a study, gathers and analyzes data or evidence, and presents interpretations or conclusions. Offered every semester. Prerequisites: Completion of 27 credit hour, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within the last three years.

## **EDI 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

### **EDI 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **EDI 699 - Independent Study in Instruction and Curriculum (1 to 3 credits)**

Individual study of a theoretical or applied problem in education. Offered each semester. Prerequisites: Consent of advisor and demonstrated ability to pursue special study or investigation proposed.

### **EDI 710 - Instructional Management and Supervision (3 credits)**

Systematic study of theories, models, research and multiplicity of influences on instructional effectiveness, instructional management, and supervision in school districts. The interrelationships of instructional supervision, curriculum alignment, instructional practices, assessment analysis, and school effectiveness will be explored with attention to characteristics of effective programs and research findings on effective leadership. Offered at least once a year, fall or spring/summer semesters.

### **EDI 797 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **EDI 799 - Independent Study Curriculum and Instruction (1 to 3 credits)**

Student-initiated advanced study or research in curriculum and instruction. The student and faculty supervisor agree on the scope of the study, its components, and methods of evaluation. Offered every semester. Prerequisite: Admission to educational specialist in leadership degree.

### **EDL 601 - Content/Curriculum Workshop (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Advanced-level workshops that provide a breadth and depth of understanding in content and curriculum of educational programs. Topics may vary and prerequisites may be established.

## **EDL 650 - Foundations of Special Education Administration (3 credits)**

Theories of educational leadership will be explored. Federal regulations and state rules pertinent to special education programming will be examined. Students will participate in simulations, presentations, and group discussions designed to provide information about, and insight into, effective leadership and management of special education programs and services. Offered at least once a year.

## **EDL 651 - Administration of Special Education Programs and Services (3 credits)**

Students will use knowledge of laws and rules, leadership/management theory and practices, and problem-solving skills to engage in simulations, presentations, and group discussions related to the delivery of special education programming. Students will develop a personal philosophy of leadership statement based on review of scholarly literature and self-examination. Offered at least once a year. Prerequisite: EDL 650.

## **EDL 652 - Curriculum and Instruction Leadership in Special Education Administration (3 credits)**

An examination of the leadership role of the special education administrator in curriculum, instruction, and assessment for students with disabilities. Students will engage in the study of current state curriculum content standards, the delivery of curriculum through effective instruction, and the assessment of student achievement. May be combined with EDL 666. Offered at least once a year.

## **EDL 653 - Special Education Law (3 credits)**

Federal and state laws governing the administration of special education programs and services will be discussed in detail. Students will examine the impact and application of the laws, and strategies for complying with them in the PK -12 setting.

## **EDL 654 - Special Education Finance (3 credits)**

Review and analysis of special education funding sources and formulas at the local, state, and national levels. School finance and special education funding will be highlighted. Financial management will be discussed with a focus on budgeting, accounting, auditing, reporting, support services, and personnel.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDL 665 - Educational Leadership (3 credits)**

Students will participate in a variety of self-assessment activities, simulations, and group discussions designed to provide information about and insight into effective leadership in schools. Offered at least once a year.

## **EDL 666 - Curriculum Leadership (3 credits)**

Study of a variety of organizational development approaches used in leading staff through curriculum development. Topics include preplanning, principles of curriculum decision-making, effective schools research, participatory strategies for curriculum problem solving, and the process of change. Emphasis on leadership skill building. May be combined with EDL 652. Offered at least twice a year.

## **EDL 667 - Elementary Supervision and Evaluation (3 credits)**

Emphasis on enabling leaders to generate the tools to improve elementary schools. Topics include organizational development, problem solving, goal setting, organizational change, employee motivation and communication, resolution of conflicts, and clinical supervision and evaluation. Analysis of topics will emphasize effects research and descriptive theory. Offered at least once a year.

## **EDL 668 - Personnel Administration (3 credits)**

Responsibilities in staff supervision, staffing needs, certification, selection, assignment, promotion, salaries, retirement, absences, teachers' organizations, grievances, collective bargaining, and supervision of student teachers. Offered once a year.

## **EDL 669 - School Finance (3 credits)**

The principles and theory underlying finance practice in public schools. Offered at least once a year.

## **EDL 670 - School Law (3 credits)**

General legal principles and laws that affect general and special education. Emphasis on sources and scope of school law, legal rights and responsibilities of teachers, pupils, and taxpayers. Procedural, historical, and jurisprudential dimensions of American law are stressed. Offered at least once a year.

## **EDL 671 - Secondary Supervision and Evaluation (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Emphasis on giving leaders the tools to make ongoing improvement in secondary schools. Topics include organizational development, problem solving, goal setting, organizational change, employee motivation, and communication, resolution of conflicts, and clinical supervision and evaluation. Analysis of topics will emphasize effects research and descriptive theory. Offered at least once a year.

## **EDL 677 - School and Community Relationships (3 credits)**

This course is designed to assist school leaders in developing an effective school community relations plan. Emphasis will be on creating effective communications formats to address internal and external populations. Candidates will be actively involved in the process of creating positive communication plans that will help gain support for the school's program.

## **EDL 680 - Special Topics in Leadership (1 to 3 credits)**

Study of selected topics in education. Offered upon sufficient demand.

## **EDL 685 - Practicum/Graduate Field Experience (3 to 6 credits)**

Field-based experience designed to provide clinical experience for teaching or administration majors. Each practicum shall meet the minimum requirements set forth by state and accrediting agencies, and must be with approval by the appropriate program personnel. All practica will require seminars. Not to be used for initial certification.

EDL 685A K-12 Principal  
EDL 685B Special Education Supervisor  
EDL 685C Special Education Director

Candidates must apply separately to the College of Education and Community Innovation by February 15 for spring/summer, May 15 for fall semester, and by September 15 for winter semester. Offered at least once a year.

## **EDL 687 - Administrative Internship (3 credits)**

The administrative internship provides significant opportunities for students to synthesize and apply the knowledge and practice gained in the classroom to real situations in authentic school settings, planned and guided cooperatively by the instructor and administrative mentor. Prerequisites: Completion of 21 credit hours (three in foundations and 18 in emphasis area) and EDL 685.

## **EDL 693 - Master's Project (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The student identifies a problem, reviews literature, creates a product based on applicable literature, research or theory that addresses the problem, and develops a plan for implementation and evaluation. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within last three years.

## **EDL 695 - Master's Thesis (1 to 6 credits)**

Involves either theoretical research or empirical research that identifies an issue or question, reviews literature, designs a study, gathers and analyzes data or evidence, and presents interpretations or conclusions. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within last three years.

## **EDL 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **EDL 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **EDL 699 - Independent Study in Leadership (1 to 3 credits)**

Individual study of a theoretical or applied problem in education. Offered each semester. Prerequisites: Consent of advisor and demonstrated ability to pursue special study or investigation proposed.

## **EDL 700 - Educational Leadership and Change (3 credits)**

This course is designed to develop understanding and skills associated with generating a school culture that is responsive to change/reform and embodies the philosophical underpinnings of systemic change. Students will research and discuss theories of organizational change and

explore various strategies to bring these theories into practice through administrative leadership. Offered at least once a year.

## **EDL 705 - Organizational Behavior, Ethics and Decision-Making (3 credits)**

This course discusses multiple approaches to the study of educational organizations including the application of organizational theory to improve decision-making and organizational outcomes. It examines the human behavior in educational organizations. The course also provides students with an understanding of the moral and ethical dimensions of leadership in education. Offered at least once a year.

## **EDL 715 - Data-Based Decision-Making and Technology (3 credits)**

Principles of data-based decision-making and their applications in educational settings will be explored through readings and case studies. Technology's use in addressing problems in management and instruction will be included. Offered at least once a year.

## **EDL 720 - Organizational and Community Relations (3 credits)**

This course is designed to provide a thorough examination of the school district as an organization and its interaction with the community. Consideration will be given to the internal and external communities and the relationship between and among these entities within the school district. Offered at least once a year.

## **EDL 725 - Educational Law, Policy, and Practice (3 credits)**

This course will review the legal framework of education and various legal issues that are imperative for educational leaders to be able to identify, understand, and incorporate within their administrative responsibilities. Emphasis is placed on the legal framework with a focus on discipline, equity, and personnel issues. Offered at least once a year.

## **EDL 740 - The Superintendency (3 credits)**

This course will provide a broad view of the roles and responsibilities of the superintendent of schools. Areas of study include developing a vision; establishing policies; decision-making; establishing relationships with the Board of Education, staff, students, and community; curriculum/instruction; human resources; politics and education in a larger context. Offered at least once a year.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDL 742 - School Board Relations (3 credits)**

This course focuses on the major factors that influence the relationship between the Board of Education and the superintendent of schools. Areas examined are the nature of policy development and administration, the influence of external factors on local control, and the discretionary authority boards grant their superintendents. Offered fall semester.

## **EDL 744 - Educational Finance and Economic Issues (3 credits)**

This course emphasizes theories of economics, finance, and taxation as applied to educational complexities pervasive in the fiscal management and operations of public schools. It focuses on current political and economic issues affecting public schools and is designed to promote thoughtful decision-making by school administrators with respect to school financial matters. Offered at least once a year.

## **EDL 770 - Leadership Theory into Practice (3 credits)**

This course is the culminating experience for the educational specialist in leadership degree. It includes an internship in a school district, practitioner research, and development of a professional portfolio. Offered at least once a year.

## **EDL 797 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **EDL 799 - Independent Study in Educational Leadership (1 to 3 credits)**

Student-initiated advanced study or research in educational leadership. The student and faculty supervisor agree on the scope of the study, its components, and methods of evaluation. Offered every semester. Prerequisite: Admission to educational specialist in leadership degree.

## **EDR 317 - Class-conscious: Popular Culture, Schooling, and Identity (3 credits)**

Challenges students to think critically, collaborate, and integrate multiple disciplines as they explore the role that popular culture and schooling play in forming their identities. Students will use critical reading skills to analyze films, television, music, and other aspects of popular culture and compare to prominent theories and their experiences. Part of the Identity Issue. Offered every semester. Prerequisite: Junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDR 320 - Emergent Literacy and the Development of Reading, Writing, and Language (3 credits)**

Offers students opportunities to gain knowledge about language development and the emergence of reading and writing. Students will apply this knowledge to implement oral language and emergent and early literacy assessments and research-based principles and practices to meet the developmental needs of children PK-6. Prerequisites: Admission to the College of Education and Community Innovation.

## **EDR 321 - Content Area Literacy (3 credits)**

This course will help secondary pre-service teachers learn strategies, theory, and research that support literacy in all disciplines. Students will engage in class discussions, prepare demonstrations, and in other ways explore effective methods for helping their students read, write, listen, speak, view, and represent in meaningful ways. Offered fall and winter semesters. Prerequisite: Admission to the College of Education and Community Innovation. Corequisites: EDI 310 and EDI 331.

## **EDR 323 - Teaching Students with Language and Literacy Learning Difficulties (3 credits)**

To meet the needs of PK-6 students, candidates will learn to select, enact, and evaluate evidence-based, inclusive and intensive literacy practices for the purpose of creating supportive and equitable learning environments. Course content and school-based fieldwork will attend particularly to students experiencing, or at-risk of experiencing, language-learning difficulties and disabilities. Cross-listed with EDS 323. Offered fall and winter semesters.

## **EDR 380 - Special Topics in Literacy Studies (1 to 3 credits)**

Independent supervised study on selected topics that are not dealt with in depth in other courses. Offered upon sufficient demand.

## **EDR 470 - Directed Teaching in ESL: Elementary (5 credits)**

The directed teaching experience provides elementary teacher candidates with opportunities to teach and assess multilingual learners using a variety of research-based practices. Candidates will create an engaging learning environment that is culturally responsible, differentiated, and based on the needs of those learning English as a second language. Prerequisites: EDI 330, ENG 261, ENG 363, ENG 364, ENG 365, ENG 366, ENG 465, and permit required. Students must apply to College of Education and Community Innovation by September 15 for winter term placements. Corequisite: EDI 430.

## **EDR 471 - Directed Teaching in ESL: Secondary (5 credits)**

The directed teaching experience provides secondary teacher candidates with opportunities to teach multilingual learners using research-based instructional strategies and assessments. Candidates will have the opportunity to implement pedagogy and related best instructional practices for secondary students learning English as a second language. Offered winter semester. Prerequisites: EDI 331, ENG 261, ENG 363, ENG 364, ENG 365, ENG 366, ENG 465, and permit required. Corequisites: EDI 431 and EDI 432. Students must apply to the College of Education and Community Innovation by September 15 for winter term placements.

## **EDR 499 - Independent Study in Literacy Studies (1 to 3 credits)**

Independent supervised research and study in special areas of education, prearranged with a faculty sponsor and approved by the director. Offered upon demand.

## **EDR 601 - Content/Curriculum Workshops (1 to 3 credits)**

Advanced-level workshops that provide a breadth and depth of understanding in content and curriculum of educational programs. Topics may vary and prerequisites may be established.

## **EDR 602 - Teaching English Language Learners Across Content (3 credits)**

Provides elementary and content area teachers with the skills and knowledge to effectively teach in a classroom setting where there are linguistically diverse learners. Participants will examine and apply strategies and skills for delivering instruction in the subject matter content areas to a variety of learners. Offered fall and spring/summer semesters (at least once a year). Prerequisite: Admission to the College of Education and Community Innovation graduate programs.

## **EDR 603 - Bi-literacy Development (3 credits)**

This course provides students with the knowledge and skills to explore and understand aspects of biliteracy development. It also seeks to explore specific biliteracy educational policy issues affecting classroom practice. Methods for providing effective biliteracy instruction will be taught. Offered winter semester at least once a year. Prerequisite: Admission to a graduate program in education.

## **EDR 612 - Reading Assessment: Elementary Teacher (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course examines classroom appropriate literacy assessments and differentiated instruction methods useful for meeting the needs of a diverse classroom student population grades K-8. The course content meets the state school code PA 118. Offered fall and winter semesters. Prerequisite: A K-8 teaching certificate is required to take this course.

### **EDR 613 - Reading Assessment: Secondary Teacher (3 credits)**

This course examines classroom appropriate literacy assessments and differentiated instruction methods useful for meeting the needs of a diverse classroom student population grades 6-12. The course content meets the state school code PA 118. Offered fall and winter semesters. Prerequisite: A 6-12 teaching certification is required to take this course.

### **EDR 620 - English as a Second Language Methodologies (3 credits)**

This course is designed to provide theory and application of second-language learning and teaching strategies for English learners. There is a field assignment of 25 hours required for this course. Offered each semester.

### **EDR 621 - Foundations of Literacy (3 credits)**

Foundations of Literacy centers on the introduction of the theoretical, conceptual, and historical foundations of literacy and language and the application of the foundational knowledge in PK-12 classroom settings. Students engage in evaluating and reflecting on the curricula and instructional practices in PK-12 classroom settings. Offered at least once a year. Prerequisite: Acceptance into a graduate certification program.

### **EDR 622 - Developmental Literacy for Children (3 credits)**

Developmental Literacy for Children is the study of the nature of the reading process and the analysis of factors influencing literacy development. Instruction and assessment appropriate to the developmental levels of children will be addressed. Communication with parents and professional development of teachers will also be explored. Offered at least once a year. Prerequisites: Admission into a graduate certification program.

### **EDR 623 - Developmental Literacy for Adolescents (3 credits)**

Course examines the developmental nature of literacy and its integration and application into secondary school curricula. Focus is on the integration among the variables: student prior knowledge, text, teaching methods, and strategies to enhance comprehension and learning. This

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

course is appropriate for middle school and secondary teachers. Offered at least once a year.  
Prerequisites: Admission into a graduate certification program.

## **EDR 624 - Elementary Literacy: Learners, Text, and the Environment (3 credits)**

Elementary Literacy: Learners, Text, and the Environment centers on teaching with text to meet the learning, developmental, and cultural needs of individual PK-6 learners. This course emphasizes the ways teachers can foster literacy-rich learning environments, while also highlighting the reciprocal relationship between reading and writing. Offered at least once a year.

## **EDR 625 - Secondary Literacy: Learners, Text, and the Environment (3 credits)**

Secondary Literacy: Learners, Text, and the Environment centers on teaching with text to meet the learning, developmental, and cultural needs of individual learners in grades 7 through 12. This course emphasizes the ways teachers can foster literacy-rich learning environments, while also highlighting the reciprocal relationship between reading and writing. Offered at least once a year.

## **EDR 626 - Field-based Literacy Assessment for Learning (3 credits)**

Field-based Literacy Assessment for Learning examines research, theory, and assessment practices appropriate for meeting the literacy needs of all PK-12 students. This course is designed to provide state-required clinical experience in diagnosing literacy strengths and needs and to meet PK-12 teacher certification renewal requirements.

## **EDR 627 - Literacy Strategies for Content Areas (3 credits)**

Course addresses methods and materials for assisting students' reading, studying, and learning in content area classrooms. Emphasis is placed on approaches that facilitate learning of content and process across the curriculum. This course is appropriate for elementary and middle school teachers. Secondary teachers should take EDR 623. Offered at least once a year.

## **EDR 628 - Literacy Instruction Across Disciplines (PK-6) (3 credits)**

Literacy Instruction Across Disciplines (PK-6) centers on the application of foundational knowledge to design, analyze, and implement PK-6 literacy curricula, instruction, and literacy-rich environments to meet learners' needs. Students will develop and articulate a holistic vision

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

for literacy curriculum and instruction that integrates content and disciplinary literacies. Offered at least once a year.

### **EDR 629 - Teaching Reading to Adults (3 credits)**

Analysis of the concept of illiteracy and characteristics of the adult learner. Methods and materials for teaching reading to the adult will be examined and evaluated. Offered every other year.

### **EDR 630 - Literacy Instruction Across Disciplines (7-12) (3 credits)**

Literacy Instruction Across Disciplines centers on the application of foundational knowledge to design, analyze, and implement literacy curricula for grades 7 through 12, instruction, and literacy-rich environments to meet learners' needs. Students will develop and articulate a holistic vision for literacy curriculum and instruction that integrates content and disciplinary literacies. Offered every semester.

### **EDR 631 - Writing, Teaching, and Learning (3 credits)**

Writing, Teaching, and Learning provides an overview of the research, relevant theories, pedagogies, and essential concepts of writing instruction, with attention to diversity and equity in PK-12 classrooms. Candidates will design, implement, and assess writing instructional practices in the context of student learning. Offered at least once a year. Prerequisite: Teaching experience or admission into a graduate certification program.

### **EDR 632 - Field-based Literacy and Language Interventions (3 credits)**

Literacy and Language Interventions engages candidates in the research around literacy instructional practices. In this course, candidates will select, adapt, design, and evaluate literacy interventions and approaches to meet the needs of PK-12 learners. This course is designed to provide clinical experience with literacy interventions. Offered fall and winter semesters. Prerequisites: EDR 621 and EDR 626.

### **EDR 634 - Linguistics for Teachers (3 credits)**

Focuses on language systems in instructional contexts and deals with U.S. English structure and language sound patterns emphasized in the four language macro-skills (i.e., reading, writing, speaking, and listening), grammar, pragmatics, and semantics as taught to speakers of other languages in the U.S. Offered winter semester. Prerequisite: Admission to the TESOL or reading program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDR 635 - Sociolinguistics: Language, Society, and Schooling (3 credits)**

Examines the role that social interactions and cultural traditions play in language, learning, and schooling with a specific focus on issues surrounding diversity, individual and cultural identity and values, and the relationship between home and school language. Offered winter semester. Prerequisite: Admission to a College of Education and Community Innovation graduate program.

## **EDR 680 - Special Topics in Literacy Studies (1 to 3 credits)**

Study of selected topics in education. Offered upon sufficient demand.

## **EDR 685 - Literacy Instruction Practicum (3 credits)**

Literacy Instruction Practicum requires candidates to demonstrate the ability to be reflective literacy professionals who apply foundational knowledge of literacy and language in PK-12 classroom settings. Practicum meets university and state requirements for completing supervised, integrated, extended clinical experiences in school-based settings. Offered at least once a year.

EDR 685A - Practicum for Reading Teachers  
EDR 685B - TESOL

Prerequisites: Not to be used for initial certification. Completion of emphasis area. Permit required.

## **EDR 687 - Reading/Literacy Specialist and Literacy Coach Practicum (3 credits)**

Reading/Literacy Specialist and Literacy Coach Practicum requires candidates to develop knowledge and skills needed to work with PK-12 learners and dispositions and techniques needed to work with PK-12 educators. Practicum meets university and state requirements for completing supervised, integrated, extended clinical experiences in school-based setting(s). Offered spring/summer semester. Prerequisite: EDR 685.

## **EDR 689 - Professional Development and Leadership Practicum (3 credits)**

Professional Development and Leadership Practicum requires candidates to plan and lead professional development informed by theory, research, and practice concerning PK-12 literacy development, literacy instruction, leadership, professional development, reflection, and reading/literacy specialist responsibilities. Practicum meets university and state requirements for completing supervised, integrated, extended clinical experiences in school-based setting(s).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Offered winter semester. Prerequisites: EDR 621, EDR 624 or EDR 625, EDR 626, EDR 628 or EDR 630, EDR 631, EDR 632, and EDR 685.

### **EDR 693 - Master's Project (1 to 3 credits)**

The student identifies a problem, reviews literature, creates a product based on applicable literature, research or theory that addresses the problem, and develops a plan for implementation and evaluation. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within last three years.

### **EDR 695 - Master's Thesis (1 to 6 credits)**

Involves either theoretical research or empirical research that identifies an issue or question, reviews literature, designs a study, gathers and analyzes data or evidence, and presents interpretations or conclusions. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required, and completion of the Responsible Conduct of Research Training within last three years.

### **EDR 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

### **EDR 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **EDR 699 - Independent Study in Literacy Studies (1 to 3 credits)**

Individual study of a theoretical or applied problem in education. Offered each semester. Prerequisites: Consent of advisor and demonstrated ability to pursue special study or investigation proposed.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDS 317 - The Myth of Normal: Disability Studies in the 21st Century (3 credits)**

A primary emphasis of the course will be on examining the ethical and moral issues raised by viewing disability from different perspectives. Students will increase their awareness of the complexity of the disability experience through in-depth examination of stigma, discrimination, individual and social representation of disability, and other psychosocial considerations. Part of the Identity Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **EDS 318 - Teaching Students with Learning and Behavior Difficulties (3 credits)**

Focus on access to the PK-6, general curriculum and supporting the academic, social/emotional, and behavioral needs of students with disabilities. Course content and fieldwork will include early intervention frameworks, special education procedures, and evidence-based practices for systematically and explicitly teaching skills/content, providing peer/group supports, and preventing/managing challenging behaviors. Offered fall and winter semesters.

## **EDS 323 - Teaching Students with Language and Literacy Learning Difficulties (3 credits)**

To meet the needs of PK-6 students, candidates will learn to select, enact, and evaluate evidence-based, inclusive and intensive literacy practices for the purpose of creating supportive and equitable learning environments. Course content and school-based fieldwork will attend particularly to students experiencing, or at-risk of experiencing, language-learning difficulties and disabilities. Cross-listed with EDR 323. Offered fall and winter semesters.

## **EDS 332 - Methods and Strategies of Special Education Teaching (5 credits)**

Half-day field experiences as a teacher assistant in a special education classroom for a minimum of 13 weeks, additional weeks provided for professional development and training to total 15 weeks. Includes a two-hour weekly seminar covering content area methodology and instructional strategies. Offered fall semester. Prerequisite: Admission to College of Education and Community Innovation. Corequisites: EDI 310, EDS 361, and EDS 495. Students must earn a minimum grade of B- to pass this field experience. In the event that a student is removed from EDS 332, withdrawal from EDS 361 and EDS 495 is required.

## **EDS 360 - Language and Reading Development (3 credits)**

Study of materials and curricula for use in assisting the special needs student in development of speech, language, reading, and writing. Offered fall semester. Prerequisite: Admission to the College of Education and Community Innovation (program outlines specify corequisites).

## **EDS 361 - Principles, Processes, and Methods in Special Education (3 credits)**

Processes and methods involved in identification, assessment, placement, programming, instruction, and evaluation of learning needs. Offered fall and winter semesters. Prerequisite: Admission to the College of Education and Community Innovation. Corequisites: EDI 310, EDS 332, and EDS 495. Successful completion of field experience (EDS 332) is required. In the event that a student is removed from EDS 332, withdrawal from EDS 361 is required.

## **EDS 378 - Universal Design for Learning: Elementary (3 credits)**

Universal design for learning is a means of improving students with special needs access to the general education curriculum. Candidates will learn universal design principles regarding multiple means of: representation, engagement, and expression and instructional practices specifically designed for elementary classrooms. Offered every semester. Prerequisite: Sophomore standing.

## **EDS 379 - Universal Design for Learning: Secondary (3 credits)**

Universal design for learning is a means of improving students with special needs access to the general education curriculum. Candidates will learn universal design principles regarding multiple means of representation, engagement, and expression and instructional practices specifically designed for secondary classrooms. Offered every semester. Prerequisite: Sophomore standing.

## **EDS 380 - Special Topics in Special Education (1 to 3 credits)**

Independent supervised study on selected topics that are not dealt with in-depth in other courses. Offered upon sufficient demand.

## **EDS 399 - Independent Study in Special Education (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Independent supervised study on selected topics that are not dealt with in depth in other courses. Offered upon sufficient demand.

### **EDS 441 - Curriculum for CI (3 credits)**

Study of the curricula used for the different levels of instruction. Includes prescribing materials appropriate for remedial activities, lesson and unit planning, and instructional techniques. Offered winter semester. Prerequisites: Successful completion of prior coursework and permission of advisor. Corequisite: EDS 471. Successful completion of field experience (EDS 471) is required. In the event that a student is removed from EDS 471, withdrawal from EDS 441 is required.

### **EDS 442 - Curriculum for EI (3 credits)**

Study of the curricula used for the different levels of instruction. Includes prescribing materials appropriate for remedial activities, lesson and unit planning, and instructional techniques. Offered winter semester. Prerequisites: Successful completion of prior coursework and permission of advisor. Corequisite: EDS 472. Successful completion of field experience (EDS 472) is required. In the event that a student is removed from EDS 472, withdrawal from EDS 442 is required.

### **EDS 463 - Educational Practices and Procedures: Cognitive Impairment (3 credits)**

In-depth exploration of strategies used throughout the life span for persons with cognitive impairments. Includes: accurate and unbiased assessment, creation of learning environments that foster enhanced life skills, communication skills and academic success, and development of transition services that span school and community settings. Offered winter semester. Prerequisite: Successful completion of prior coursework.

### **EDS 464 - Educational Practices and Procedures: Emotional Impairment (3 credits)**

In-depth exploration of strategies used throughout the life span for persons with emotional/behavior disorders. Includes: accurate and unbiased assessment, creation of learning environments that foster good mental health and academic success, and development of behavior management programs that span school and community settings. Offered winter semester. Prerequisite: Successful completion of prior coursework.

### **EDS 470 - Directed Teaching in Early Childhood Developmental Delay (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The directed teaching experience provides students the opportunity to implement the knowledge, skills, and best practices learned in their coursework related to teaching young children with special needs in an early childhood setting that serves infants/toddlers, preschoolers, or K-3 students. It meets requirements set by the state and accrediting agencies. Offered every semester. Prerequisite: Completion of 15 credits toward the early childhood minor, including EDI 314. Instructor permission required.

## **EDS 471 - Directed Teaching in Cognitive Impairment (9 credits)**

Student teaching in a classroom with students who have cognitive impairments. Accompanying seminars on methods of teaching and the organization and development of curriculum for students with cognitive impairments. Offered winter semester. Prerequisites: Successful completion of prior coursework and positive recommendations from prior fieldwork. Corequisite: EDS 441. Students must earn a minimum grade of B- to pass this field experience. In the event that a student is removed from EDS 471, withdrawal from EDS 441 is required. Students must follow the holiday break schedule designated by the K-12 district for their school placement/assignment, not the GVSU break schedule.

## **EDS 472 - Directed Teaching in Emotional Impairment (9 credits)**

Student teaching in a special education classroom under professional supervision with accompanying seminar on materials and curriculum for students with emotional impairments. Offered winter semester. Prerequisites: Successful completion of prior coursework and positive recommendations from prior fieldwork. Corequisite: EDS 442. Students must follow the holiday break schedule designated by the K-12 district for their school placement/assignment, not the GVSU break schedule. Students must earn a minimum grade of B- to pass this field experience. In the event that a student is removed from EDS 472, withdrawal from EDS 442 is required.

## **EDS 495 - Diagnostic and Interpretive Procedures (3 credits)**

Study of formal and informal assessment procedures with emphasis on test interpretation as it relates to performance objectives for exceptional students. Offered fall semester. Prerequisite: Admission to the College of Education and Community Innovation. Corequisites: EDI 310, EDS 332, and EDS 361. Successful completion of field experience (EDS 332) is required. In the event that a student is removed from EDS 332, withdrawal from EDS 495 is required.

## **EDS 497 - Educational Interventions: Cognitive Impairment (3 credits)**

Study of the educational interventions appropriate for students with cognitive impairments. Offered winter semester. Program outline specifies corequisites.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDS 498 - Educational Interventions: Emotional Impairment (3 credits)**

Study of the educational interventions appropriate for students with emotional impairments. Offered winter semester. Program outline specifies corequisites.

## **EDS 499 - Independent Study (1 to 3 credits)**

Independent supervised research and study in special areas of education, prearranged with a faculty sponsor and approved by the director. Offered upon demand.

## **EDS 550 - Preteaching and Methods of Teaching Special Education (6 credits)**

A supervised field experience of at least six weeks with exceptional children teaching in the area of CI, LD, or EI students must apply by February 15 for spring/summer and fall semesters.

## **EDS 601 - Content/Curriculum Workshops (1 to 3 credits)**

Advanced-level workshops that provide a breadth and depth of understanding in content and curriculum of educational programs. Topics may vary and prerequisites may be established.

## **EDS 609 - Understanding Students with Emotional Impairment (3 credits)**

A study of the characteristics associated with emotional impairments in children and adolescents. Emphasis is on identification, intervention, and collaboration with families and service providers. Offered winter semester.

## **EDS 610 - Positive Behavioral Interventions and Supports (3 credits)**

This course provides a basis for understanding and addressing behavior challenges of diverse learners through implementation of positive behavioral interventions and supports (PBIS) at the school-wide, classroom, and individual levels. Students will learn to utilize multi-tiered systems of support for behavior decision-making to improve outcomes for all students. Offered at least once a year.

## **EDS 611 - Curriculum and Instruction for Students with Emotional Impairment (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students will learn instructional practices for teaching children and adolescents considered at risk with challenging behaviors and those with high incidence disabilities. This includes learning about the influence of social and emotional disorders on student academic success and the multi-tiered systems of support that facilitates data-based instruction and assessment. Offered winter semester.

## **EDS 615 - Educational Assessment and Interventions for Autism (3 credits)**

This course will explore assessment strategies and implementation tools for supporting students with Autism Spectrum Disorder in educational settings. Focus is placed on individualized services, supports, and interventions that promote inclusion in general education settings and improve engagement and participation in the general education curriculum. A team-based approach is emphasized. Cross-listed with PSY 615. Offered spring/summer semester. Prerequisites: PSY 540 (may be taken concurrently); and admission to College of Education and Community Innovation or the school psychology program.

## **EDS 616 - Language and Communication Assessment and Instruction for Autism (3 credits)**

This course addresses the role of language and communication traits/characteristics in students with Autism Spectrum Disorder (ASD) and other developmental disabilities. Specific focus is placed on implementing language and communication interventions based on assessment data to improve the educational outcomes of individuals with ASD and other developmental disabilities. Prerequisites: Admission to a College of Education and Community Innovation graduate program.

## **EDS 618 - Understanding Students with Cognitive Impairment (3 credits)**

This course provides information about individuals with cognitive impairments including definitions, classifications, characteristics, causes, medical aspects, and prevention. Historical perspectives, impact of cultural diversity, placement options, current trends and issues and their implications for teaching students with cognitive impairments will be explored. Offered fall semester of odd-numbered years.

## **EDS 619 - Educational Interventions for Mild Cognitive Impairment (3 credits)**

This course examines instructional principles and evidence-based practices for teaching students with mild cognitive impairment. Emphasis is placed on curriculum development, instructional design, explicit instruction, access to and progress in the general curriculum, and development

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

and monitoring of Individualized education programs for students with mild cognitive impairment.

## **EDS 620 - Educational Interventions for Severe Cognitive Impairment (3 credits)**

This course examines instructional principles and evidence-based practices for teaching students with moderate and severe cognitive impairment. Emphasis is placed on curriculum development, instructional design, access to and progress in the general curriculum, and development and monitoring of individualized education programs for students with moderate and severe cognitive impairment. Offered in odd-numbered years. Prerequisite: Must be enrolled in the College of Education and Community Innovation or the school psychology program.

## **EDS 621 - Assistive Technology in Education (3 credits)**

This course provides participants with an overview of assistive and augmentative technology for students with cognitive impairments. Includes individualized educational programming considerations, use of high- and low-tech assistive and augmentative devices, Internet-based solutions, curriculum integration, and inclusion strategies. Offered fall semester of even-numbered years.

## **EDS 622 - Assessment for Placement and Program: CI (3 credits)**

This course provides exposure to assessment techniques and diagnostic procedures specifically used with individuals with cognitive impairments and the development of the Individualized Education Program (IEP). Offered spring/summer semester of even-numbered years.

## **EDS 623 - Collaboration in Special Education (3 credits)**

This course will provide theory, principles, and procedures for fostering collaborative partnerships among families and professionals that lead to mutual empowerment and positive outcomes for individuals with cognitive impairments. Offered winter semester of odd-numbered years. Prerequisite: Admission to the College of Education and Community Innovation or the school psychology program.

## **EDS 625 - Inclusive Practices (3 credits)**

Research validated planning and instructional routines designed for and tested in inclusive classrooms will be presented. Further, validated teaching approaches and curriculum designed for students with high incidence disabilities will be taught. Offered at least once a year. Prerequisite: Admission to the College of Education and Community Innovation or the school psychology program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDS 627 - Technology and Professional Practice (3 credits)**

In this course, students will learn about the use of technology as an instructional tool as well as a resource. Additionally, students will explore various roles of professional special educators and use technology to address aspects of professional practice such as ethics, research, and advocacy. Offered fall and winter semesters. Prerequisite: Admission to the College of Education and Community Innovation or the school psychology program.

## **EDS 629 - Transition Practices (3 credits)**

A study of the development of attitudes, skills, and supports that contribute to successful transitions of children and adolescents with disabilities. Offered fall semester.

## **EDS 636 - Diagnostic and Interpretative Procedures (3 credits)**

Review of evaluative instruments used for identification and programming for exceptional persons. Offered at least twice a year.

## **EDS 637 - Explicit Language Instruction (3 credits)**

Evidence-based practices for assessing and explicitly teaching foundational listening, speaking, reading, and writing skills to English language learners and students with high incidence disabilities. Offered fall and winter semesters. Prerequisite: Admission to the College of Education and Community Innovation or the school psychology program.

## **EDS 638 - Instructional Practices: Learning Disabilities II (3 credits)**

In this course, students will learn instructional practices for teaching reading, writing, mathematics, and social skills to children and adolescents with high incidence disabilities. Offered fall and winter semesters. Prerequisite: Admission to the College of Education and Community Innovation or the school psychology program.

## **EDS 640 - Diagnostic-Teaching Clinic (3 credits)**

In this clinic-based experience, each student will learn to apply diagnostic and interpretive procedures and instructional practices with a child with learning difficulties under the direct supervision of university faculty. Offered fall and winter semesters.

## **EDS 646 - Family and Community Collaboration in Early Childhood Education (3 credits)**

Remedial and preventive counseling strategies for parents of young children from birth through age eight. Preparation for assisting parents in settings that include parent education, atypical children, developmentally diverse children, and conditions requiring assistance from other professionals. Offered at least once a year.

## **EDS 647 - Serving Young Children with Diverse Needs (3 credits)**

Research implications, teaching strategies, and curricula for the instruction of special needs infants and preschool children. Offered at least once a year.

## **EDS 652 - Foundations of Special Education (3 credits)**

Study of the characteristics of exceptional students. Research-based effective instructional processes needed to provide the most appropriate education for meeting the needs of exceptional students in the least restrictive environment will be emphasized. Offered at least once a year.

## **EDS 680 - Special Topics in Special Education (1 to 3 credits)**

Study of selected topics in education. Offered upon sufficient demand.

## **EDS 685 - Practicum/Graduate Field Experience (3 or 6 credits)**

Field-based experience designed to provide clinical experience for teaching or administration majors. Each practicum shall be no less than the minimum requirements set forth by state and accrediting agencies, and must be with approval by the appropriate program personnel. All practica will require seminars. Not to be used for initial certification. Offered at least once a year.

EDS 685A - Emotional Impairment  
EDS 685B - Cognitive Impairment  
EDS 685C - Learning Disabilities  
EDS 685D - Early Childhood Developmental Delay  
EDS 685E - Autism

## **EDS 693 - Master's Project (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The student identifies a problem, reviews literature, creates a product based on applicable literature, research or theory that addresses the problem, and develops a plan for implementation and evaluation. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within last three years.

## **EDS 695 - Master's Thesis (1 to 6 credits)**

Involves either theoretical research or empirical research that identifies an issue or question, reviews literature, designs a study, gathers and analyzes data or evidence, and presents interpretations or conclusions. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within last three years.

## **EDS 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **EDS 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **EDS 699 - Independent Study in Special Education (1 to 3 credits)**

Individual study of a theoretical or applied problem in education. Offered each semester. Prerequisites: Consent of advisor and demonstrated ability to pursue special study or investigation proposed.

## **EDT 312 - Children and Technology (3 credits)**

Focused on the impact technology in its many forms is having on children, ages two through 12, including pre-school uses of technology, as well as incorporation of technology into instruction and assessment. Explores issues related to children's participation in an increasingly digital

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

society within the context of development, education, and society. Part of the Information, Innovation, or Technology Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

### **EDT 370 - Technology in Education (3 credits)**

Introduction to technologies used in the classroom. Focus on integrating technologies into the curriculum for teaching and learning. Lab-based practical and hands-on learning is emphasized. Offered every semester. Prerequisites: EDI 310, and (one of EDI 330, EDI 331 or EDS 332), and (either EDR 320 or EDR 321). All may be taken concurrently.

### **EDT 380 - Special Topics in Technology (1 to 3 credits)**

Independent supervised study on selected topics that are not dealt with in-depth in other courses. Offered upon sufficient demand.

### **EDT 399 - Independent Study in Technology (1 to 3 credits)**

Independent supervised study on selected topics that are not dealt with in-depth in other courses. Offered upon sufficient demand.

### **EDT 476 - Teaching with Technology (3 credits)**

PK-6 classroom-based teaching and assessing with technology. Focused on integrating available technologies into assessment and instruction in support of student learning. Students should be prepared to inventory available digital technologies for classroom use, support needs of all students and align instruction with relevant benchmarks and standards. Part of the Information, Innovation, or Technology Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

### **EDT 601 - Content/Curriculum Workshop (1 to 3 credits)**

Advanced-level workshops that provide a breadth and depth of understanding in content and curriculum of educational programs. Topics may vary and prerequisites may be established.

### **EDT 619 - Curricular Integration of Ed Technology (3 credits)**

Focusing on issues related to integrating educational technology into existing curricula, this course provides extensive experiences using the Internet and other resources for subject matter teaching and learning. Students will investigate learning theory and exemplary uses of technology in teaching and learning in educational settings.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDT 620 - Evaluating and Applying Instructional Media (3 credits)**

This course focuses on the evaluation, selection, and use of instructional media and online instructional resources in classroom teaching and learning. Exposure to a variety of educational software applications, as well as resources on the Internet, with a focus on the processes and products of design, evaluation, and implementation of technology-based learning environments. Offered fall semester.

## **EDT 621 - Topics in Educational Technologies (3 credits)**

Advanced study of the issues related to school-wide adoption of technology and the impact on teachers, administrators, and others involved in K-12 education. The course covers a broad range of topics, including theories of learning, ethical uses of technology, funding for technology, information literacy, and ubiquitous computing. Offered winter semester. Prerequisite: Completion of 12 graduate credits.

## **EDT 626 - Assessment/Evaluation with Educational Technology (3 credits)**

The use of educational technology provides opportunities for new forms of assessment and evaluation for student learning. This course focuses on models of educational assessment, strategies for assessment of learning in technology-based environments, uses of technology to support diversity and assessment, and alternative forms of assessment made possible with technology supporting student needs. Offered fall semester.

## **EDT 627 - Technology Integration for Secondary Teachers (3 credits)**

Focusing on issues related to integrating educational technology into secondary curricula, this course provides extensive experiences using the Internet and other resources for subject matter teaching and learning. Students will investigate exemplary uses of technology in teaching and learning in educational settings, learn how to develop and teach online courses, and support subject area learning with available technology.

## **EDT 629 - Online Instructional Design/Development (3 credits)**

This course is designed to provide educators with the ability to create instructional content on the Internet, paying attention to issues salient for instruction. These issues include theory and research in the area of Web-based instruction, online pedagogical design and development, Web design, and use of Web-based learning environments (like Blackboard). Offered winter semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EDT 634 - Planning/Managing Educational Technology (3 credits)**

Students will examine adoption and integration of educational technology from the standpoint of personnel, planning, and administration of equipment, infrastructure, software, and future developments. Drawing on the published literature on adoption and use of educational technology, and adoption of innovation models, the course addresses the issues related to planning for and managing these technologies in education settings.

## **EDT 635 - Instructional Systems Design (3 credits)**

Comprehensive examination of the process of instructional systems design, aimed at designing effective technology-mediated instruction following a systematic process and adopting a systemic perspective. Offered every semester.

## **EDT 680 - Special Topics in Technology (1 to 3 credits)**

Study of selected topics in education. Offered upon sufficient demand.

## **EDT 684 - Field Experience - Educational Technology (3 credits)**

Field-based experience designed to provide clinical experience for graduate students. Each field-based experience must be completed with approval by the appropriate faculty advisor. All practica will require participation in online seminar sessions. Offered fall and spring/summer semesters. Prerequisite: EDT 635.

## **EDT 685 - Practicum/Graduate Field Experience (3 credits)**

Field-based experience designed to provide supervised experience for teaching or administration majors. Each practicum shall meet the minimum requirements set forth by accrediting agencies and have the approval of appropriate program personnel. All practica will require participation in online seminars. Not to be used for initial certification. Offered all three semesters. Prerequisites: EDT 619, EDT 620, EDT 621, EDT 626, EDT 629, EDT 634, and EDT 635.

## **EDT 693 - Master's Project (1 to 3 credits)**

The student identifies a problem, reviews literature, creates a product based on applicable literature, research or theory that addresses the problem, and develops a plan for implementation and evaluation. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

February 15), and completion of the Responsible Conduct of Research Training within the last three years.

### **EDT 695 - Master's Thesis (1 to 6 credits)**

Involves either theoretical research or empirical research that identifies an issue or question, reviews literature, designs a study, gathers and analyzes data or evidence, and presents interpretations or conclusions. Offered every semester. Prerequisites: Completion of 27 credit hours, EDF 660, application required (application deadline: fall May 15, winter September 15, spring/summer February 15), and completion of the Responsible Conduct of Research Training within last three years.

### **EDT 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

### **EDT 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **EDT 699 - Independent Study in Educational Technology (1 to 3 credits)**

Individual study of a theoretical or applied problem in education. Offered each semester. Prerequisites: Consent of advisor and demonstrated ability to pursue special study or investigation proposed.

### **EGR 100 - Introduction to Engineering (1 credit)**

An introduction to the various engineering fields and the industries that these fields support. Study techniques for students to be successful in the engineering program will be presented. Group work, problem identification, brainstorming ideas, prototyping solutions, and communicating results will be emphasized. Offered fall semester.

### **EGR 106 - Introduction to Engineering Design I (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A first course in the principles and practice of multi-disciplinary engineering analysis, design, construction, and evaluation. Topics include graphical communication, solid modeling, computer-aided manufacturing, computer programming fundamentals, and structured programming. Professional skills such as problem solving and communication are emphasized. Offered fall and winter semesters. Corequisite: MTH 201.

## **EGR 107 - Introduction to Engineering Design II (3 credits)**

A second course in the principles and practice of multi-disciplinary engineering analysis, design, construction, and evaluation. Topics include design process, graphical communication, solid modeling, computer-aided manufacturing, computer programming, and principles of digital and analog electronics. Professional skills such as teamwork, problem-solving, and communication (oral and written) are emphasized. Prerequisites: Grade of C or higher in EGR 106 and grade of C or higher in MTH 201.

## **EGR 111 - Introduction to Engineering Graphics (1 credit)**

Provides principles of drafting used by engineers through a hands-on learning environment. Topics of instruction include drawing interpretation, visualization (including pictorials and orthographic drawings), geometric construction, sectioning, working drawings, and mechanical drawings (including but not limited to sectioning and working drawings). Offered fall and winter semesters.

## **EGR 112 - Applied Programming for Engineers (2 credits)**

An introduction to structured and modular programming for use in engineering applications. Numerous programming assignments, focusing on engineering concepts, develop the practical skills necessary to ensure students are capable of writing, testing, debugging, and validating programs. Offered fall and winter semesters. Prerequisite: MTH 123 or MTH 124 or placement into MTH 201 or above through Grand Valley math placement.

## **EGR 113 - Introduction to CAD/CAM (1 credit)**

Computer -aided design (CAD) and computer -aided manufacturing (CAM) theory and applications are introduced. Topics include CAD/CAM systems, geometric modeling, tool path generation, integration of CAD/CAM with the production machine, NC machining, and additive manufacturing. Offered fall and winter semesters.

## **EGR 124 - Introduction to Engineering Problem Solving (3 credits)**

This course provides a hands-on introduction to engineering problem solving with mathematics. Extensive examples of problems from core engineering courses are used to demonstrate how

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

math (algebra, trigonometry, and calculus) is applied in engineering. Offered fall semester. Corequisite: MTH 124 or MTH 123.

## **EGR 180 - Special Topics in Engineering (1 to 4 credits)**

Readings, lectures, discussions, or laboratories (or any combination) on specific engineering topics appropriate for freshman engineering students. Offered on sufficient demand.

Prerequisites: Variable depending on topic.

## **EGR 185 - First-year Engineering Design (2 credits)**

Principles and practice of multidisciplinary engineering analysis and design to construct a working physical prototype of an electromechanical system. The effective communication of design ideas is emphasized. Offered every semester. Prerequisites: EGR 100 (grade of C or higher), EGR 111, EGR 112 (grade of C or higher), and EGR 113 (EGR 111 and EGR 113 may be taken concurrently).

## **EGR 209 - Mechanics and Machines (4 credits)**

Forces and moment, equilibrium, free body diagrams. Introduction of machine elements: gears, belts, chains, shafts. Stress/strain: normal and shear stresses due to bending and torsion. Design and analysis of welds, fasteners: bolts and rivets in engineering structures. Principles of mechanical design: synthesis and selection methods of basic off-the-shelf machine components. Offered fall and winter semesters. Prerequisites: Grade of C or better in both MTH 202 and PHY 230, and declared as an engineering major.

## **EGR 210 - Solid Mechanics (1 credit)**

Designed for transfer students who have had a statics course but not a solid mechanics course. Topics include stress/strain diagrams, generalized Hooke's law, stress and strain due to axial, torsional shear, and flexural loads. Offered fall semester. Prerequisites: C or better in a sophomore level statics course (MTH 202 and PHY 230 are prerequisites to the statics course), and declared an engineering major.

## **EGR 214 - Circuit Analysis I (3 credits)**

Topics include Ohm's law, Kirchhoff's laws, node voltage and mesh current analysis, superposition, Thévenin's and Norton's theorems, operational amplifiers, capacitance, inductance, and time-domain analysis of first order circuits. Offered fall and winter semesters. Prerequisites: A grade of C or better in both MTH 202 and PHY 230, and declared as an engineering major. Corequisite: EGR 215.

## **EGR 215 - Circuit Analysis I Lab (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Laboratory activities associated with linear circuit analysis. Including the use of power supplies, multimeters, function generators, oscilloscopes, and electronic circuit CAD/CAM software packages. Offered every semester. Prerequisites: A grade of C or better in MTH 202 and PHY 230. Corequisite: EGR 214.

## **EGR 220 - Engineering Measurement and Data Analysis (1 credit)**

Measurement and data analysis lab that complements STA 220. This course uses hands-on engineering tests and experiments to build understanding of applied statistical analysis. The use of various measurement and data-acquisition tools and data analysis techniques are introduced. Technical writing in the form of lab reports is introduced and emphasized. Offered fall and winter semesters. Prerequisites: MTH 201 and fulfillment of general education Foundations - Writing (may take the Foundations - Writing requirement concurrently). Corequisite: STA 220.

## **EGR 223 - Probability and Signal Analysis (3 credits)**

An introduction to probability theory and signal analysis with applications. Topics covered include probability theory, random variables, properties of signals and systems, and applications to modeling physical systems and processes. Includes an active learning component to supplement the theory presented in lecture. Offered winter semester. Prerequisites: A grade of C or better in STA 220, EGR 220, EGR 214 (may be taken concurrently), MTH 302 (may be taken concurrently), and declared as an engineering major.

## **EGR 224 - Introduction to Digital System Design (3 credits)**

A first course in the analysis and design of digital systems. Provides an introduction to digital system design using schematic-based entry and hardware description language-based entry. Boolean algebra, combinational and sequential logic, state machine design, testbenches and various hardware modeling styles. Offered fall and winter semesters. Prerequisite: EGR 106 or EGR 112 with a C or better.

## **EGR 226 - Microcontroller Programming and Applications (3 credits)**

An introduction to digital systems and microcontroller programming including basic logic functions, microprocessor architecture, input and display devices, sensors, motors, and C programming for microcontrollers. The emphasis is on programming a microcontroller in C for practical applications. Offered fall and winter semesters. Prerequisites: Grade of C or better in EGR 107 or EGR 185 and declared as an engineering major or permit. Corequisite: EGR 227.

## **EGR 227 - Microcontroller Programming and Applications Lab (1 credit)**

Laboratory activities associated with using microcontroller along with various inputs/outputs (I/O) peripherals, display devices, sensors and motors. Use of software programming language and software integrated development packages (IDE). Offered every semester. Prerequisites: Grade of C or better in EGR 185 and declared as an engineering major. Corequisite: EGR 226.

## **EGR 250 - Materials Science and Engineering (3 credits)**

The internal structure, composition, and processing of metals, polymers, and ceramics are related to their properties, end use, performance, and application in engineering. Materials selection exercises are included. Laboratory. (3-0-3) Offered winter and spring/summer semesters. Prerequisites: A grade of C or better in CHM 115, either PHY 234 or PHY 231, and declared as an engineering major. Corequisite: EGR 251.

## **EGR 251 - Materials Laboratory (1 credit)**

The laboratory sessions will acquaint students with modern experimental techniques and devices used in: (i) the characterization of the microstructures and properties of engineering materials, and (ii) laboratory simulation of industrial manufacturing processes. Application of the scientific method and technical report writing will be emphasized. Offered every semester. Prerequisites: A grade of C or better in CHM 115, either PHY 234 or PHY 231, and declared as an engineering major. Corequisite: EGR 250.

## **EGR 257 - Electronic Materials and Devices (4 credits)**

An introduction to solid state electronic materials and devices. Topics include basic quantum mechanics, atomic structure, electrical, magnetic and optical properties of electronic materials, and fundamentals of semiconductor devices including diodes and transistors. Laboratory activities. Offered winter semester. Prerequisites: A grade of C or better in CHM 115, either PHY 231 or PHY 234, and declared as an engineering major.

## **EGR 280 - Special Topics in Engineering (1 to 4 credits)**

Readings, lectures, discussions, or laboratories (or any combination) on specific engineering topics appropriate for sophomore engineering students. Offered on sufficient demand. Prerequisites: Variable depending on topic.

## **EGR 289 - Engineering Professionalism (1 credit)**

Introduces potential engineering cooperative education students to the industrial environment, the manufacture of quality products, and the basic principles of leadership. Helps students

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

develop a better self-understanding through self-assessment and career development theory and prepares students for the co-op interview process. (1-0-0) Offered fall semester. Prerequisites: A grade of C or better in both MTH 202 and PHY 230 and declared as an engineering major.

## **EGR 290 - Engineering Co-op 1 (3 credits)**

The first full-time, four-month cooperative engineering work experience usually in a local industrial/manufacturing firm. Reading and writing assignments required. At least one evening meeting required. Offered spring/summer semester. Prerequisites: EGR 289, admitted (or pending admission) to an engineering major, and hired by an approved co-op employer.

## **EGR 301 - Analytical Tools for Product Design (4 credits)**

Analytic methods in product design are integrated into a coherent design process that includes: gathering customer requirements, establishing specifications, generating alternative concepts, estimating feasibility, concept selection, embodiment design, design refinement, prototyping, and project planning. Offered fall semester. Prerequisites: EGR 250, EGR 345 (may be taken concurrently), and admitted to biomedical, interdisciplinary, or product design and manufacturing engineering major.

## **EGR 302 - Engineering Decision-Making in Society (3 credits)**

Engineering decisions affect almost everyone in the modern world. This course studies the potential broad impacts of these decisions within social, economic, environmental, and global contexts. This course, through case-studies, places engineering in a wider context, emphasizing the application of ethical models to recognize professional responsibilities in engineering situations. Part of the Information, Innovation, or Technology Issue. Offered fall and winter semesters. Prerequisites: Junior standing and fulfillment of general education Foundations - Writing.

## **EGR 306 - Urban Sustainability (3 credits)**

Social, environmental, and economic points of view engaged to study how successful cities work. Study approached using assigned reading compared to direct observation and immersion into urban environments. Focus: interaction of built environment with social, natural environment. How engineering decisions about materials used in buildings impact structural integrity, energy use, and economics. Offered fall and winter semesters. Part of the Sustainability Issue. Prerequisites: Junior standing and MTH 110 (may be taken concurrently).

## **EGR 309 - Machine Design I (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Shear and bending stresses in beams, beam deflections, buckling of columns, statically indeterminate beams, planar combined loading, triaxial stress and strain transformations, static failure theories, and fatigue failure theories. Offered winter and spring/summer semesters. Prerequisites: A grade of C or better in EGR 209 and declared as an engineering major. Corequisite: EGR 310.

## **EGR 310 - Machine Design I Laboratory (1 credit)**

Introduction to finite element analysis for planar loading, strain gauges and rosettes, and experimental determination of state of stress in a body. Offered every semester. Prerequisites: Grade of C or better in EGR 209 and declared engineering major. Corequisite: EGR 309.

## **EGR 311 - Intermediate Computer Aided Design and Manufacturing (3 credits)**

CAD/CAM topics including the creation of advanced prototype drawings and physical models, the graphic manipulation of symbol libraries, the utilization of advanced dimensioning techniques, rapid prototyping, analysis skills using CAD/CAM, and applications of data sharing techniques. Offered winter semester. Prerequisite: Admitted to mechanical, or interdisciplinary, or product design and manufacturing engineering major.

## **EGR 312 - Dynamics (3 credits)**

Study of motion and the relationship between force, mass, and acceleration for particles and rigid bodies. Work-energy and impulse-momentum concepts. (3-0-0) Offered winter and spring/summer semesters. Prerequisites: A grade of C or better in EGR 209 and declared as an engineering major.

## **EGR 314 - Circuit Analysis II (4 credits)**

Continuation of EGR 214. Topics include first and second order system transient analysis, Laplace transform analysis, sinusoidal steady state analysis, Bode plots, resonance, first and second order filters, Fourier series, and use of computer aided design software. (3-0-3) Offered fall semester. Prerequisites: EGR 214, MTH 302, and admitted to biomedical, computer, electrical, or interdisciplinary engineering major.

## **EGR 315 - Electronic Circuits I (4 credits)**

The design of discrete and integrated electronic circuits. Topics include large and small signal modeling of diodes, bipolar junction transistors, and MOS transistors. Biasing, small and large signal amplifier design, feedback, oscillators, and the use of computer-aided design software. Laboratory. (3-0-3) Offered fall semester. Prerequisites: EGR 314 (may be taken concurrently) and admitted to biomedical, computer, electrical, or interdisciplinary engineering major.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EGR 323 - Signals and Systems Analysis (3 credits)**

A course in the engineering applications of transform methods. The processing of analog and digital signals is discussed, as well as the analysis and design of linear time invariant systems. Topics include signal and system classification, vector space representations, convolution, impulse response, Fourier Transform, DTFT, DFT, FFT, windowing, and time frequency tradeoff. (3-0-0) Offered spring/summer semester. Prerequisites: A grade of C or better in EGR 314 and admitted to biomedical, computer, electrical, or interdisciplinary engineering major.

## **EGR 326 - Embedded System Design (4 credits)**

A course in the design and implementation of embedded electronic systems. Topics include digital logic building blocks, programmable logic, microcontrollers, analog interface and support components, timing margin analysis, serial interfacing, signal integrity, heat sinks, and thermal resistance. A significant term project is required. Laboratory. (3-0-3) Offered fall semester. Prerequisites: EGR 214, EGR 224, EGR 226, and admitted to biomedical, computer, electrical, or interdisciplinary engineering major.

## **EGR 329 - Introduction to Finite Element Analysis (3 credits)**

Main topics: Modeling techniques, element technology, materials, loading, constraints, and results post processing using commercial software. Emphasis: Element behavior, planning of analyses, errors, critique of FE results. Course project is design oriented. Applications: Mainly structural analyses and elementary treatment of heat transfer, fluid mechanics, and dynamics. Offered spring/summer semester. Prerequisites: EGR 309. Admitted to biomedical, interdisciplinary or mechanical engineering major.

## **EGR 330 - Power Systems Analysis (4 credits)**

An introductory course on single-phase and poly-phase power systems. Topics include single-phase and poly-phase circuits, balanced and unbalanced systems, DC and AC power transmission and distribution systems, fault analysis and contemporary safety, and social and environmental issues. (3-0-3) Laboratory. Offered spring/summer semester. Prerequisite: EGR 314.

## **EGR 343 - Applied Electromagnetics (4 credits)**

Electromagnetic field equations and waves, signal spectra, transmission lines. Electromagnetic compatibility (EMC) issues, signal integrity, crosstalk, nonideal frequency dependent behavior of components, EMC requirements for electronic systems. Computer simulations, laboratory. Prerequisites: PHY 231 or PHY 234, a grade of C or better in EGR 314, and admitted to biomedical, electrical, or interdisciplinary engineering major.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EGR 345 - Dynamic System Modeling and Control (4 credits)**

An introduction to mathematical modeling of mechanical, thermal, fluid, and electrical systems. Topics include equation formulation, Laplace transform methods, transfer functions, system response and stability, Fourier methods, frequency response, feedback control, control actions, block diagrams, state variable formulation, and computer simulation. Emphasis on mechanical systems. Laboratory. (3-0-3) Offered fall semester. Prerequisites: EGR 214, MTH 302, and admitted to biomedical, interdisciplinary, mechanical, or product design and manufacturing engineering major.

## **EGR 346 - Mechatronic Systems Dynamics and Control (4 credits)**

This course includes dynamics modeling, analyzing, and control of mechanical and electrical systems. Modeling and analysis are carried out using differential equations, numerical methods, and Laplace transforms. Software tools are also employed to perform these tasks. Offered fall semester. Prerequisites: EGR 214, EGR 226, EGR 312, MTH 302, and admitted to biomedical, interdisciplinary, or mechanical engineering major.

## **EGR 350 - Vibration (4 credits)**

Study of mechanical vibration of structures and engineering components. Free and forced vibration of single, two, and multidegree of freedom systems. Modal analysis and mode summation. Elements of analytical dynamics. Approximate numerical methods. Random vibration. Vibration measurement, isolation, and control. (4-0-0) Offered spring/summer semester. Prerequisites: EGR 346 and admitted to interdisciplinary or mechanical engineering major.

## **EGR 352 - Kinematics and Dynamics of Machinery (4 credits)**

The kinematics of machines are analyzed explicitly and approximately using computer-based mathematical techniques. Topics covered include planar mechanisms, positions, velocities, accelerations, spatial mechanisms, cams, gears, planar dynamics, and spatial dynamics. (4-0-0) Offered winter semester. Prerequisites: EGR 312, MTH 302, and admitted to interdisciplinary or mechanical engineering major.

## **EGR 360 - Thermodynamics (4 credits)**

Basic concepts of thermodynamics and an introduction to heat transfer. Properties of pure substances, equation of state, work, heat, first and second laws of thermodynamics, closed

systems and control volume analysis, irreversibility and availability, refrigeration and power cycles, thermodynamic relations, introduction to conduction, convection, radiation, heat transfer, and heat exchanger design. (4-0-0) Offered fall semester. Prerequisites: (PHY 231 or PHY 234); MTH 302; and admitted to electrical, interdisciplinary, mechanical, or product design and manufacturing engineering major.

## **EGR 362 - Thermal and Fluid Systems (4 credits)**

Thermal system engineering is primarily a study of energy: its forms, transformations, the transfer of it, and efficiencies related to its transfer and use. This course includes the thermodynamic, fluid mechanics, and heat transfer principles required to understand the design of thermal systems found in product designs and manufacturing. Offered spring/summer semester. Prerequisite: Admission to the biomedical or product design and manufacturing engineering major.

## **EGR 365 - Fluid Mechanics (4 credits)**

Topics include fluid statics, control volume analysis, continuity, momentum, energy, Bernoulli equation, dimensional analysis and similitude, laminar and turbulent flows, boundary layers, differential analysis, external flow, lift and drag, internal flow, pump selection, introduction to turbomachinery, and open channel flow. Laboratory. (3-0-3) Offered spring/summer semester. Prerequisites: EGR 312, EGR 360, and admitted to interdisciplinary or mechanical engineering major.

## **EGR 367 - Manufacturing Processes (3 credits)**

The physics, operation, and application of manufacturing processes used for fabricating parts and devices from metals, polymers, ceramics, and composites in the manufacturing industry. The emphasis will be on the interactions between materials, process conditions, design, and economics. Offered fall and winter semesters. Prerequisites: A grade of C or better in EGR 250 and admitted to biomedical, interdisciplinary, mechanical, or product design and manufacturing engineering major. Corequisite: EGR 368.

## **EGR 368 - Manufacturing Processes Laboratory (1 credit)**

The laboratory experiments and exercises will involve careful investigation of the effects of the interactions between design, processing conditions, and materials on the quality and performance of fabricated products. Application of the scientific method in investigations, the principles of design of experiments (DOE), and statistics are reinforced. Offered fall and winter semesters. Prerequisites: A grade of C or better in EGR 250 and admitted to biomedical, interdisciplinary, mechanical, or product design and manufacturing engineering major. Corequisite: EGR 367.

## **EGR 380 - Special Topics in Engineering (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Lecture, discussion, and/or laboratory in specific areas of engineering. Topics will reflect the special interests of the students and/or the instructor. Offered upon demand. Prerequisites: Depends on the nature of the topic and admitted to an engineering major.

## **EGR 390 - Engineering Co-op 2 (3 credits)**

The second full-time, four-month cooperative engineering work experience usually in a local industrial/manufacturing firm. Reading, writing assignments required. At least one evening meeting required. Offered each semester. Prerequisites: EGR 290, admitted to an engineering major, and hired by an approved co-op employer.

## **EGR 399 - Readings in Engineering (1 to 4 credits)**

Independent supervised readings on selected topics. Offered every semester. Prerequisites: Permission of instructor and admitted to an engineering major.

## **EGR 401 - Advanced Product Design (4 credits)**

Advanced topics in product design are integrated to prepare students to develop a prototype into a manufacturable design. The course will cover topics such as analysis of competitive product, protection of intellectual property, product architecture, material and process selection, experimental design, advanced tolerance analysis, rapid prototyping, and risk amelioration. Course material will be reinforced with design project work. Prerequisites: A grade of C or better in EGR 301 and admitted to interdisciplinary or product design and manufacturing engineering major.

## **EGR 403 - Medical Device Design (3 credits)**

Students will learn to design equipment, products, and processes for the medical device industry. The course will cover topics such as standards and regulations, determining and documenting device requirements, hazard and risk analysis, liability, verification and validation testing, and manufacturing quality systems. Cross-listed with EGR 503. Prerequisites: EGR 345 and admitted to biomedical, interdisciplinary, mechanical, or product design and manufacturing engineering major.

## **EGR 404 - Polymer Science and Processing (4 credits)**

This course is a broad study of the structures, properties, processing, design, and selection of polymeric materials and polymer matrix composites. The effects of the unique properties of different polymers and polymer-based composites on the selection of processes used to fabricate them are critically examined. Offered winter semester. Prerequisite: EGR 250 with a grade of C or better.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EGR 405 - Materials Failure Analysis and Selection (3 credits)**

A study of the causes and modes of failure of engineering materials in service. The general procedures and analytical techniques employed in the investigation and analysis of material failures are discussed. Case studies are used to reinforce understanding of failure mechanisms and to develop appropriate materials and process selection methodologies. Offered spring/summer semester. Prerequisite: EGR 250.

## **EGR 406 - Renewable Energy Systems: Structure, Policy, and Analysis (3 credits)**

A survey of the technological as well as economic, societal, and public policy issues associated with renewable energy systems. Topics include generation using renewable resources such as solar, wind, hydropower, and biomass, as well as advanced energy storage systems and distribution. Energy research and analysis techniques are introduced. Fulfills Cultures - Global Perspectives. Part of the Sustainability Issue. Cross-listed with NRM 406. Offered winter semester. Prerequisites: Junior standing and (STA 215 or STA 220 or STA 312).

## **EGR 409 - Machine Design II (4 credits)**

Topics include design of screws, clutches, brakes, belts, gears, journal bearings, roller bearings, and planetary gear trains. (4-0-0) Offered spring/summer semester. Prerequisites: EGR 309 and admitted to biomedical, interdisciplinary, mechanical, or product design and manufacturing engineering major.

## **EGR 413 - Materials for Energy Storage (3 credits)**

Study of the materials for advanced energy storage. Topics include electrochemical reactions, anode and cathode materials, electrolyte materials, electrochemical testing of materials, typical responses of common materials, and life testing. In addition, tradeoffs in material performance are discussed. Cross-listed with EGR 513. Offered winter semester. Prerequisites: (EGR 250 or EGR 257) and admitted to interdisciplinary or product design and manufacturing engineering major.

## **EGR 415 - Communication Systems (4 credits)**

Study of the techniques and performance of analog and digital communication systems. Block diagram study of the transmitter and receiver, performance analysis for noisy channels, and the multiplexing of multiple channels. Topics include noise characterization, AM, FM, PCM, FSK, and PSK. Applications include radio, TV, telephony, wireless and modems. Laboratory. (3-0-3) Cross-listed with EGR 515. Offered alternating fall and winter semesters. Prerequisites: A grade of C or better in EGR 323 and admitted to electrical or interdisciplinary engineering major.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EGR 418 - Radio Frequency Systems (4 credits)**

Study of the limitations used in lumped element analysis and how to use distributive models and network theory to design common communication components found in wireless and wired systems. Topics include signal propagation, telegraph equation, scattering parameters, Smith charts, loading conditions, matching techniques, microstrip filters, microwave active devices. Cross-listed with EGR 518. Offered winter semester. Prerequisites: EGR 314 and EGR 315.

## **EGR 423 - Digital Signal Processing Systems (4 credits)**

The techniques and tools used for signal/system analysis and design in the digital domain. Filter design and frequency analysis are presented in the context of implementation on modern digital hardware. Hands-on experiments and design projects are a central component of the course. (3-0-3) Cross-listed with EGR 523. Offered alternating fall and winter semesters. Prerequisites: A grade of C or better in EGR 323. Admitted to computer, electrical, or interdisciplinary engineering major.

## **EGR 424 - Design of Microcontroller Applications (4 credits)**

The architecture and capabilities of single chip microcontrollers and the design of microcontroller applications. A/D and D/A conversion, I/O, timing, programming, expansion methods, and development systems. Design projects will be an integral part of both lecture and laboratory. Laboratory. (3-0-3) Cross-listed with EGR 524. Offered spring/summer semester. Prerequisites: A grade of C or better in EGR 326 and admitted to computer, electrical, or interdisciplinary engineering major.

## **EGR 425 - RISC Architecture (4 credits)**

Modern computer organization and implementation of RISC processor with emphasis on interaction between computer hardware and software at various levels. Students will learn the concepts of computer architecture, programmable device architecture, instruction set architecture, assembly language, and peripheral design using HDL, assembly and other programming languages. Cross-listed with EGR 425. Offered spring/summer semester. Prerequisite: EGR 326.

## **EGR 426 - Integrated Circuit Systems Design (4 credits)**

The design of digital circuits using behavioral modeling with VHDL. Topics include CPLD and FPGA architectures, the VHDL language, modeling of combinational logic, sequential logic, microcontrollers, state machines, and algorithms for numeric computation on integer and fixed-point numbers. Hands-on projects are a significant part of the course. Laboratory. (3-0-3) Cross-listed with EGR 526. Offered winter semester. Prerequisites: A grade of C or better in EGR 326 or graduate standing, and admitted to computer, electrical, or interdisciplinary engineering major.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EGR 430 - Electromechanics (4 credits)**

A course covering the engineering science and design of electrical to mechanical transducers. Topics include magnetic circuit design, solenoids, transformers, DC machines, induction machines, synchronous generators and motors, stepper motors, and an introduction to dynamic systems analysis. Laboratory. (3-0-3) Cross-listed with EGR 530. Offered winter semester. Prerequisites: A grade of C or better in EGR 330 and admitted to electrical or interdisciplinary engineering major.

## **EGR 432 - Biomedical Imaging and Image Processing (3 credits)**

Study of biomedical imaging modalities used in diagnostic imaging with an emphasis on physical principles and algorithms underlying X-ray imaging, computed X-ray tomography, magnetic resonance imaging, fluoroscopy, and ultrasound imaging. Topics also include multidimensional signal processing, image acquisition and filtering, reconstruction, qualification, segmentation, and pattern analysis. Cross-listed with EGR 532. EE/CE elective. Offered winter semester. Prerequisites: EGR 323. Admitted to biomedical, computer, electrical, or interdisciplinary engineering major.

## **EGR 433 - Electronic Instrumentation for Biomedical Applications (3 credits)**

Study of the operating principles of transducer devices and design of modern electronic instrumentation systems with emphasis on biomedical applications. Topics include electronic sensors and measurement principles, design of instrumentation amplifiers for sensors that transduce measured quantities into low level signals in noisy environments, and signal conditioning and display. Cross-listed with EGR 533. Offered winter semester. Prerequisites: EGR 315 and EGR 326; or permission of instructor (knowledge of basic electronics and microcontroller applications).

## **EGR 434 - Bioelectric Potentials (3 credits)**

Study of mechanisms governing the generation of bioelectrical signals focusing on measurement and analysis techniques in nerve and muscle electrophysiology. Topics include excitable membranes, plasma membrane characteristics, origin of electrical membrane potentials, action potentials, voltage clamp experiments, impulse propagation, membrane biophysics, and cardiac arrhythmias. Cross-listed with EGR 534. EE elective. Offered fall semester. Prerequisites: EGR 323 and admitted to biomedical, electrical, or interdisciplinary engineering major.

## **EGR 435 - Mathematical Modeling of Physiologic Systems (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course provides an introduction to mathematical modeling, numerical methods, model simulations, and regression analysis, as applied to biomedical systems at the cellular, tissue, and organ levels. Offered winter semester. Prerequisites: MTH 302 or (MTH 204 and MTH 304).

### **EGR 436 - Embedded Systems Interface (4 credits)**

Study of the interface between microcontrollers and sensors and actuators that enable programmed control of monitoring and interaction with the environment. Use of wired and wireless communications to link users to modern electronic systems either directly or through the Internet. Cross-listed with EGR 536. Offered winter semester. Prerequisites: A grade of C or better in EGR 315 and EGR 326, or permission of instructor.

### **EGR 440 - Introduction to Production (3 credits)**

An overview of production methods. Philosophies such as lean and quick response manufacturing. Organization for production and facilities layout. Elements of production including workstations and inventories with mathematical analysis. Introduction to flow control schemes as well as their analysis using discrete event simulation. A comprehensive case study is required. Offered spring/summer semester. Prerequisite: Admitted to biomedical, interdisciplinary, or product design and manufacturing engineering major.

### **EGR 441 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)**

This course explores selected topics from the fields of engineering economics, strategic decision making based on principles of operations management, quality control issues, method engineering and process improvement. The course examines complex interrelationships of the topics and introduces problem solving tools that are fundamentals to the manufacturing support system. Cross-listed with EGR 541. Offered spring/summer semester. Prerequisites: MTH 302 or equivalent; and admitted to any engineering major or graduate program.

### **EGR 443 - Electromagnetic Compatibility (4 credits)**

Electromagnetic Compatibility (EMC) of electronic systems. Topics include: signal spectra, inductive and capacitive coupling, common-impedance coupling, non-ideal circuit components, EMC filters, common-mode and differential-mode currents, electromagnetic wave shielding, EMC regulations and testing, radiated and conducted emissions and susceptibility, SMPS design for EMC compliance. Offered fall semester. Prerequisites: A grade of C or better in EGR 343 and admitted to electrical or interdisciplinary engineering major.

### **EGR 445 - Robotic Systems Engineering (4 credits)**

Introduction to the field of robotics and its scientific background from a practical perspective. Topics include robotic systems fundamentals, terminology, spatial description and manipulation, stationary manipulator kinematics, mobile robots, trajectory planning, and applications. Cross-listed with EGR 545. Offered spring/summer semester. Prerequisites: EGR 345 or 346 or admission to M.S.E. program, and admitted to biomedical, interdisciplinary, mechanical, or product design and manufacturing engineering major.

## **EGR 447 - Engineering Mechanics of Human Motion (3 credits)**

This course focuses on the applications of the principles of mechanics to the study of human movement. Students will learn to acquire and analyze human motion data using self-developed computer programs. Topics include biomechanics terminology, anthropometric measurement, joint kinematics and kinetics, electromyography, and hands-on clinical application of movement biomechanics. Cross-listed with EGR 547. Offered winter semester. Prerequisites: EGR 346 and admitted to biomedical, interdisciplinary, mechanical, or product design and manufacturing engineering major.

## **EGR 450 - Manufacturing Control Systems (4 credits)**

An introduction to the control of machines and processes widely used in manufacturing. Topics include programmable logic controllers, actuators and sensors for discrete and continuous systems, structured design techniques, memory structures, data handling functions, A/D and D/A converters, data communications, and hierarchical control. The technical issues involved in implementing control schemes are discussed. Laboratory. (0-3-3) Cross-listed with EGR 550. Offered spring/summer semester. Prerequisites: A grade of C or better in EGR 314, or EGR 345, or EGR 346 admission to the graduate program, and admitted to biomedical, interdisciplinary, mechanical, or product design and manufacturing engineering major.

## **EGR 453 - Biomedical Materials (3 credits)**

Study of the characteristics of materials used in medicine and dentistry and their interactions with living tissues. Topics may include biocompatibility, host responses, degradation of biomaterials in biological environments and their applications in artificial organs, implants, soft and hard tissue replacements, dentistry, drug delivery systems, medical equipment, etc. Cross-listed with EGR 553. Offered fall semester. Prerequisites: EGR 250 and admitted to biomedical, interdisciplinary, mechanical, or product design and manufacturing engineering major.

## **EGR 455 - Automatic Control (4 credits)**

An introduction to automatic control of physical systems. Topics include mathematical modeling of physical systems, analysis of control system characteristics, and compensator design and implementation. Laboratory. (3-0-3) Cross-listed with EGR 555. Offered alternating fall and

winter semesters. Prerequisites: A grade of C or better in EGR 323 and admitted to biomedical, electrical, or interdisciplinary engineering major.

## **EGR 457 - Fundamentals of Nanotechnology (4 credits)**

The course introduces students to the field of nanotechnology. Topics include sizes and scaling laws, characteristics of nanomaterials, growth, fabrication, and measurement techniques for nanostructures, applications in electronics, photonics, mechanics, chemistry, and medicine. In addition, the societal impact and ethical dimensions of nanotechnology are covered. Lecture and in-class lab activities. Cross-listed with EGR 557. Offered spring/summer semester. Prerequisite: EGR 315 or EGR 345 or equivalent.

## **EGR 458 - Introduction to Fiber Optics (4 credits)**

An introduction to fiber optics and optical fiber communications. Topics include fundamentals of fiber optics, properties of optical fibers, optical fiber testing, optical fiber cables, fiber-optic connectors, fiber-optic splices, transmitters, receivers, applications of fiber optics, and communication systems design. In-class activities. Cross-listed with EGR 558. Offered spring/summer semester. Prerequisites: EGR 315, EGR 323, and admitted to electrical or interdisciplinary engineering major.

## **EGR 463 - Alternative Energy Systems and Applications (4 credits)**

Introduction to the current issues of energy for sustainability. Principles of alternative and renewable energy sources including solar thermal, solar photovoltaic, wind, hydropower, biomass, geothermal, hydrogen, and nuclear energy. Fundamentals of combustion of hydrocarbon fuels and alternative fuels such as biofuels. Fuel cells and electrochemical energy storage units. Offered fall semester. Prerequisites: EGR 360 or EGR 362, or permission of instructor. Admitted to mechanical, interdisciplinary, or product design and manufacturing engineering major.

## **EGR 465 - Computational Fluid Dynamics (CFD) (4 credits)**

The fundamentals and applications of Computational Fluid Dynamics (CFD) using a commercially available software, featuring mesh generation, solver settings, numerical accuracy, and postprocessing. Fundamental topics such as governing equations, boundary conditions, and numerical solving schemes are also covered. Cross-listed with EGR 565. Offered winter semester. Prerequisites: EGR 365 and admitted to biomedical, interdisciplinary, or mechanical engineering major.

## **EGR 466 - Turbomachinery (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Application of energy, momentum, and continuity equations to turbomachinery. Fundamentals of axial and centrifugal compressors/pumps, axial/radial gas turbines, and hydraulic and wind turbines. Mean-line analysis, radial equilibrium, blade geometry, component design, losses, and design parameters. Offered winter semester. Prerequisites: EGR 365 or EGR 362, and admitted to the mechanical or product design and manufacturing engineering majors.

## **EGR 468 - Heat Transfer (4 credits)**

Study of the mechanisms by which heat is transferred in different media: conduction, convection, and radiation. One- and two-dimensional steady state conduction, transient conduction, finite differences, methods in conduction, forced and free convections, heat exchangers, radiation processing and properties, radiation exchange between surfaces. Laboratory. (3-0-3) Offered winter semester. Prerequisites: EGR 365 and admitted to biomedical, interdisciplinary, or mechanical engineering major.

## **EGR 475 - Design of HVAC Systems (4 credits)**

Application of thermodynamics and fluid mechanics to the design of heating, ventilation, and air conditioning systems. Topics include heat load calculations, hot water and forced air systems, comfort/health factors, applicable codes, regulations, controls, equipment choice, and plant layout. Offered spring/summer semester. Prerequisites: EGR 468 and admitted to interdisciplinary or mechanical engineering major.

## **EGR 477 - Hybrid Electric Battery Systems (3 credits)**

Students will learn to model and control hybrid electric battery systems, and will design a complete battery management system. The course will cover topics such as battery chemistry, vehicle power electronics and communication interfaces, cell balancing, thermal, mechanical, and small signal measurements in a noisy battery environment. Cross-listed with EGR 577. Offered winter semester of even-numbered years. Prerequisite: EGR 330.

## **EGR 480 - Special Topics in Engineering (1 to 4 credits)**

Readings, lectures, discussions, or laboratories (or any combination) on specific engineering topics appropriate for senior engineering students. Offered on sufficient demand. Prerequisites: Variable depending on topic and admitted to an engineering major.

## **EGR 485 - Senior Engineering Project I (Capstone) (1 credit)**

An independent investigation of theoretical or experimental design problems in engineering. The nature and scope of the project are determined by the student in consultation with the instructor and depend upon the facilities available. Normally this project is carried out during the entire

senior year, with one-hour of credit during the first semester and two hours of credit during the second semester. A written technical report is required. All seniors meet together each week to discuss their projects with each other and their supervisor. Laboratory. (1-0-4) Offered winter semester. Prerequisites: Acceptance into the B.S.E. degree program and completion of the prerequisite courses listed under the student's engineering major.

## **EGR 486 - Senior Engineering Project II (Capstone) (2 credits)**

Continuation of student's work in EGR 485. Both an oral report and a final written technical report are required. (1-0-8) Offered spring/summer semester. Prerequisite: EGR 485.

## **EGR 490 - Engineering Co-op 3 (3 credits)**

The third full-time, four-month cooperative engineering work experience usually in a local industrial/manufacturing firm. Reading and writing assignments required. At least one evening meeting required. Offered each semester. Prerequisites: EGR 390 and admitted to an engineering major and hired by an approved co-op employer.

## **EGR 499 - Research in Engineering (1 to 4 credits)**

Investigation of current ideas and techniques in engineering for upper-class students majoring in engineering. Content determined by the student in conference with professor. Completion of work includes a technical report and usually an oral presentation. Offered on demand. Prerequisites: Permission of the director of the School of Engineering and admitted to an engineering major.

## **EGR 503 - Medical Device Design (3 credits)**

Students will learn to design equipment, products, and processes for the medical device industry. The course will cover topics such as standards and regulations, determining and documenting device requirements, hazard and risk analysis, liability, verification and validation testing, and manufacturing quality systems. Cross-listed with EGR 403. Offered winter semester. Prerequisite: EGR 604.

## **EGR 513 - Materials for Energy Storage (3 credits)**

Study of the materials for advanced energy storage. Topics include electrochemical reactions, anode and cathode materials, electrolyte materials, electrochemical testing of materials, typical responses of common materials, and life testing. In addition, tradeoffs in material performance are discussed. Cross-listed with EGR 413. Offered winter semester. Prerequisite: EGR 250 or EGR 257 or by permit.

## **EGR 515 - Communication Systems (4 credits)**

Study of the techniques and performance of analog and digital communication systems. Block diagram study of the transmitter and receiver, performance analysis for noisy channels, and the multiplexing of multiple channels. Topics include noise characterization, AM, FM, PCM, FSK, and PSK. Applications include radio, TV, telephony, wireless and modems. Laboratory. (3-0-3) Cross-listed with EGR 415. Offered alternating fall and winter semesters. Prerequisites: A grade of C or better in EGR 323 and admitted to electrical or interdisciplinary engineering major.

## **EGR 518 - Radio Frequency Systems (4 credits)**

Study of the limitations used in lumped element analysis and how to use distributive models and network theory to design common communication components found in wireless and wired systems. Topics include signal propagation, telegraph equation, scattering parameters, Smith charts, loading conditions, matching techniques, microstrip filters, microwave active devices. Cross-listed with EGR 418. Offered winter semester. Prerequisites: EGR 314 and EGR 315.

## **EGR 523 - Digital Signal Processing Systems (4 credits)**

The techniques and tools used for signal/system analysis and design in the digital domain. Filter design and frequency analysis are presented in the context of implementation on modern digital hardware. Hands-on experiments and design projects are a central component of the course. (3-0-3) Cross-listed with EGR 423. Offered alternating fall and winter semesters. Prerequisites: A grade of C or better in EGR 323 and admitted to computer, electrical, or interdisciplinary engineering major.

## **EGR 524 - Design of Microcontroller Applications (4 credits)**

Students will explore a complex microcontroller architecture and develop the necessary firmware for implementing a rudimentary real-time operating system that effectively uses the microcontroller resources. Laboratory. (3-0-3) Cross-listed with EGR 424. Offered spring/summer semester. Prerequisites: A grade of C or better in EGR 326, programming proficiency (CIS 263 and CIS 361 are recommended) and/or graduate standing.

## **EGR 525 - RISC Architecture (4 credits)**

Modern computer organization and implementation of RISC processor with emphasis on interaction between computer hardware and software at various levels. Students will learn the concepts of computer architecture, programmable device architecture, instruction set architecture, assembly language, and peripheral design using HDL, assembly and other programming languages. Cross-listed with EGR 425. Offered spring/summer semester. Prerequisite: EGR 326.

## **EGR 526 - Integrated Circuit System Design (4 credits)**

The design of digital circuits using behavioral modeling with VHDL. Topics include CPLD and FPGA architectures, the VHDL language, modeling of combinational logic, sequential logic, microcontrollers, state machines, and algorithms for numeric computation on integer and fixed-point numbers. Hands-on projects are a significant part of the course. Laboratory. (3-0-3) Cross-listed with EGR 426. Offered winter semester. Prerequisites: A grade of C or better in EGR 326 or graduate standing. Admitted to computer, electrical, or interdisciplinary engineering major.

## **EGR 530 - Electromechanics (4 credits)**

A course covering the engineering science and design of electrical to mechanical transducers. Topics include magnetic circuit design, solenoids, transformers, DC machines, induction machines, synchronous generators and motors, stepper motors, and an introduction to dynamic systems analysis. Laboratory. (3-0-3) Cross-listed with EGR 430. Offered winter semester.

## **EGR 532 - Biomedical Imaging and Image Processing (3 credits)**

Study of biomedical imaging modalities used in diagnostic imaging with an emphasis on physical principles and algorithms underlying X-ray imaging, computed X-ray tomography, magnetic resonance imaging, fluoroscopy, and ultrasound imaging. Topics also include multidimensional signal processing, image acquisition and filtering, reconstruction, quantification, segmentation, and pattern analysis. Cross-listed with EGR 432. Offered winter semester. Prerequisites: Admission to M.S.E. program and permission of instructor.

## **EGR 533 - Electronic Instrumentation for Biomedical Applications (3 credits)**

Study of the operating principles of transducer devices and design of modern electronic instrumentation systems with emphasis on biomedical applications. Topics include electronic sensors and measurement principles, design of instrumentation amplifiers for sensors that transduce measured quantities into low level signals in noisy environments, and signal conditioning and display. Cross-listed with EGR 433. Offered winter semester.

## **EGR 534 - Bioelectric Potentials (3 credits)**

Study of mechanisms governing the generation of bioelectrical signals focusing on measurement and analysis techniques in nerve and muscle electrophysiology. Topics include excitable membranes, plasma membrane characteristics, origin of electrical membrane potentials, action potentials, voltage clamp experiments, impulse propagation, membrane biophysics, and cardiac arrhythmias. Cross-listed with EGR 434. Offered fall semester. Prerequisite: Admission to M.S.E. program and permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EGR 536 - Embedded Systems Interface (4 credits)**

Study of the interface between microcontrollers and sensors and actuators that enable programmed control of monitoring and interaction with the environment. Use of wired and wireless communications to link users to modern electronic systems either directly or through the Internet. Cross-listed with EGR 436. Offered winter semester. Prerequisites: A grade of C or better in EGR 315, EGR 326, or permission of instructor.

## **EGR 541 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)**

This course explores selected topics from the fields of engineering economics, strategic decision making based on principles of operations management, quality control issues, method engineering and process improvement. The course examines complex interrelationships of the topics and introduces problem solving tools that are fundamentals to the manufacturing support system. Cross-listed with EGR 441. Offered spring/summer semester. Prerequisites: MTH 302 or equivalent; and admitted to any engineering major or graduate program.

## **EGR 543 - Electromagnetic Compatibility (4 credits)**

Electromagnetic Compatibility (EMC) of electronic systems. Topics include: signal spectra, inductive and capacitive coupling, common-impedance coupling, non-ideal circuit components, EMC filters, common-mode and differential-mode currents, electromagnetic wave shielding, EMC regulations and testing, radiated and conducted emissions and susceptibility, SMPS design for EMC compliance. Offered fall semester. Prerequisites: EGR 343 or admission to M.S.E. program and permission of instructor.

## **EGR 545 - Robotic Systems Engineering (4 credits)**

Introduction to the field of robotics and its scientific background from a practical perspective. Topics include robotic systems fundamentals, terminology, spatial description and manipulation, stationary manipulator kinematics, mobile robots, trajectory planning, and applications. Cross-listed with EGR 445. Offered spring/summer semester. Prerequisite: Admission to M.S.E. program.

## **EGR 547 - Engineering Mechanics of Human Motion (3 credits)**

Applications of the principles of mechanics to the study of human movement. Students will learn to acquire and analyze human motion data using self-developed computer program. Topics include biomechanics terminology, anthropometric measurement, joint kinematics and kinetics, electromyography, and hands-on clinical application of movement biomechanics. Cross-listed

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

with EGR 447. Offered winter semester. Prerequisites: Admission to M.S.E. program and permission of instructor.

## **EGR 550 - Manufacturing Control Systems (4 credits)**

An introduction to the control of machines and processes widely used in manufacturing. Topics include programmable logic controllers, actuators and sensors for discrete and continuous systems, structured design techniques, memory structures, data handling functions, A/D and D/A converters, data communications, and hierarchical control. The technical issues involved in implementing control schemes are discussed. Laboratory. (0-3-3) Cross-listed with EGR 450. Offered spring/summer semester. Prerequisite: A grade of C or better in EGR 314, or EGR 345, or EGR 346, or admission to the graduate program.

## **EGR 553 - Biomedical Materials (3 credits)**

Study of the characteristics of materials used in medicine and dentistry and their interactions with living tissues. Topics may include biocompatibility, host responses, degradation of biomaterials in biological environments and their applications in artificial organs, implants, soft and hard tissue replacements, dentistry, drug-delivery systems, and medical equipment. Cross-listed with EGR 453. Offered fall semester. Prerequisites: Admission to the M.S.E. program and permission of the instructor.

## **EGR 555 - Automatic Control (4 credits)**

An introduction to automatic control of physical systems. Topics include mathematical modeling of physical systems, analysis of control system characteristics, and compensator design and implementation. Laboratory. (3-0-3) Cross-listed with EGR 455. Offered alternating fall and winter semesters. Prerequisite: Admitted to the M.S.E. program.

## **EGR 557 - Fundamentals of Nanotechnology (4 credits)**

The course introduces students to the field of nanotechnology. Topics include sizes and scaling laws, characteristics of nanomaterials, growth, fabrication, and measurement techniques for nanostructures, applications in electronics, photonics, mechanics, chemistry, and medicine. In addition, the societal impact and ethical dimensions of nanotechnology are covered. Lecture and in-class lab activities. Cross-listed with EGR 457. Offered spring/summer semester. Prerequisite: EGR 315 or EGR 345 or equivalent.

## **EGR 558 - Introduction to Fiber Optics (4 credits)**

An introduction to fiber optics and optical fiber communications. Topics include fundamentals of fiber optics, properties of optical fibers, optical fiber testing, optical fiber cables, fiber-optic connectors, fiber-optic splices, transmitters, receivers, applications of fiber optics, and

communication systems design. In-class activities. Cross-listed with EGR 458. Offered spring/summer semester. Prerequisites: EGR 315 and EGR 323.

## **EGR 565 - Computational Fluid Dynamics (CFD) (4 credits)**

The fundamentals and applications of Computational Fluid Dynamics (CFD) using a commercially available software, featuring mesh generation, solver settings, numerical accuracy, and postprocessing. Fundamental topics such as governing equations, boundary conditions, and numerical solving schemes are also covered. Cross-listed with EGR 465. Offered winter semester.

## **EGR 577 - Hybrid Electric Battery Systems (3 credits)**

Students will learn to model and control hybrid electric battery systems, and will design a complete battery management system. The course will cover topics such as battery chemistry, vehicle power electronics and communication interfaces, cell balancing, thermal, mechanical, and small signal measurements in a noisy battery environment. Cross-listed with EGR 477. Offered winter semester of even-numbered years.

## **EGR 580 - Special Topics in Engineering (1 to 4 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 500-level courses. May be repeated for credit when the content varies. Offered every semester. Prerequisite: Admitted to the M.S.E. program or permission.

## **EGR 600 - Advanced Engineering Analysis (3 credits)**

Mathematics, statistics, and other quantitative topics significant to the solution of advanced engineering problems using quantitative analytic thinking. Focus on project analysis, economic justification, risk analysis, and the behavior of engineering systems. Emphasis on computer-based solution techniques. Computers will be used extensively in an active learning environment. Offered fall semester. Prerequisite: Admission to the M.S.E. program.

## **EGR 601 - Principles of Computer Engineering (3 credits)**

This course provides introduction to basic principles of computer engineering discipline with emphasis on use of techniques as an aid to build modern embedded systems. Topics covered include: microcontroller-based design, programmable logic based design, communication interface and database management systems for data storage and retrieval. Offered fall semester. Prerequisite: Graduate standing.

## **EGR 602 - Professional Aspects of Engineering (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course will expose the students to a thorough examination of the qualitative issues and elements that are critical to advanced engineering practice and research. The course focuses on communication skills and techniques, especially writing, as well as research methods and techniques. Both elements are applied throughout the course in a context of engineering ethics and professional issues. These issues include contemporary topics such as law, ethics, globalization, societal impacts, environmental issues, and project management. Offered winter semester. Prerequisite: Admission to graduate school.

## **EGR 604 - Implementation and Measurement (3 credits)**

Emphasis on the ties between engineering theory and analysis, and the implementation of devices and mechanisms. Use of design and build procedures, designed experiments, data analysis, data modeling, reporting, and fabrication. Weekly activities and a major design project. Offered fall semester. Prerequisite: Admission to the M.S.E. program.

## **EGR 609 - Advanced Structural Analysis (3 credits)**

Three-dimensional stress and strain transformation will be introduced. Principal stresses and directions will be found by solving the eigenvalue problem. The theory of elasticity and Euler-Bernoulli beam theory will be used in axial, bending and torsion problems. Virtual work principles and energy methods will be applied to structural systems. Offered fall semester. Prerequisite: EGR 309, or equivalent, or permission of instructor.

## **EGR 610 - Engineering Design (3 credits)**

Application of various methods and approaches to engineering design using modern design tools. Design experiences are used throughout to develop designs. Mini design projects are assigned in interdisciplinary areas, machine design, heat transfer, and controls. Offered winter semester. Prerequisites: EGR 604 and EGR 520 (may be taken concurrently).

## **EGR 611 - Computer-Aided Design and Engineering (3 credits)**

Use of computer-aided methods for generating 3-D parametric, feature-based geometric models. Use of the associated database for calculating design parameters. Topics include solid and surface modeling, fundamentals of geometric elements, and design related issues. Design projects are emphasized using industry-standard computer applications. Offered fall semester. Prerequisites: EGR 600 and EGR 604.

## **EGR 612 - Analytical Dynamics (3 credits)**

Study of kinematics and kinetics of rigid, multi-body systems using momentum and energy conservation methods and analytical dynamics techniques such as D'Alembert's principle, virtual work, and Lagrange's equations. Offered fall semester.

## **EGR 614 - Opportunity Identification for Medical Devices (3 credits)**

Students will learn to seek out opportunities for new medical products and how to evaluate the technical and business potential of an opportunity. Students will produce a venture plan and a concept feasibility prototype suitable to attract investment. Offered fall and winter semester.

Prerequisite: EGR 503.

## **EGR 615 - Applied Finite Element Analysis (3 credits)**

Fundamentals of structural finite element modeling. Geometry creation, element types, material specification, and problem solution and results postprocessing. A focus is placed on modeling techniques and guidelines using commercially available software. Offered winter semester.

## **EGR 620 - Material and Process Selection (3 credits)**

A study of current topics in materials and manufacturing processes for engineering design. Topics selected from advanced metallic, polymeric, ceramic, and composite materials, surface treatment, and electrical materials. Offered fall semester. Prerequisite: Admission to the M.S.E. program.

## **EGR 627 - Advanced FPGA Implementation (3 credits)**

This course introduces the modern approach of designing and testing advanced digital systems using Field Programmable Gate Arrays (FPGAs). This approach emphasizes describing the circuit's intended behavior and verification using hardware description language. This course also discusses various FPGA architectures and design flow using FPGAs. Offered spring/summer semester. Prerequisites: EGR 426 and graduate standing or permission of instructor.

## **EGR 635 - Biomedical Signal Modeling (3 credits)**

This course introduces engineering graduate students to advanced signal processing techniques for analyzing complex physiological systems and processes. It provides a modeling-based approach for biomedical signal processing. Topics include auto-regressive moving average (ARMA) modeling, nonlinear modeling, stochastic modeling, time-frequency analysis, adaptive filtering, and wavelets. Offered fall semester. Prerequisite: Admission to M.S.E. program.

## **EGR 636 - Electronic Prototyping (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course is a project-based introduction to design and fabrication of PCB electronics. Students will apply modern industry tools and design standards to design, build, and test electronics. The course builds upon students' prerequisite circuit knowledge and engineering background to develop design experience and sound design habits. Prerequisite: Graduate standing.

## **EGR 637 - Application Development on Field Programmable Gate Arrays (3 credits)**

Developing and implementing applications on Field Programmable Gate Arrays (FPGAs) using software programming languages and overlays that are similar to software libraries. This course also introduces advanced programmable device architecture, digital design flow using field programmable gate arrays and verification of the systems using hardware descriptive languages. Offered winter semester. Prerequisites: EGR 601 or equivalent, graduate standing, or permission of instructor.

## **EGR 640 - Production Operation Models (3 credits)**

An overview of methods for creating and analyzing production flow including lean, quick response manufacturing, traditional production organizations, and facilities layout. Discussion of workstations and inventories with mathematical analysis. Introduction to flow control schemes as well as their analysis using discrete event simulation. A significant project is required. Offered fall semester. Prerequisite: STA 615 or permission of the instructor.

## **EGR 641 - Applied Optimization (3 credits)**

An introduction to the application of optimization models in product design and manufacturing. Topics include modeling, formulation, and computer-based solution methodologies. Emphasis on applications in manufacturing options, product management, and design. Cost-effective implementations including linear programming, nonlinear programming, and genetic algorithms are employed. Offered fall semester. Prerequisite: EGR 600.

## **EGR 642 - Materials Handling and Flow Control (3 credits)**

Comprehensive coverage of material movement in production including material handling equipment and strategies, material flow control and supply chain logistics. Topics include conveyor systems and AGV Systems; KANBAN, CONWIP, and one-piece flow; and supplier selection and material movement logistics. Emphasis on the application of discrete event modeling and experimentation. Offered winter semester. Prerequisite: EGR 640 with a grade of B or better.

## **EGR 643 - PCB Design and EMC (3 credits)**

A study of PCB design techniques for EMC compliance. Topics include digital circuit power distribution, effectiveness of decoupling capacitors and embedded capacitance, digital circuit grounding, ground plane current distribution and impedance, return current path, and PCB layout and stack-up. Students will design a PCB and evaluate its EMC performance. Prerequisite: Instructor's permission.

## **EGR 653 - Digital and Adaptive Systems (3 credits)**

An advanced course in topics encompassing signal processing, communication, and control. Material from previous courses is extended to model digital and adaptive behavior. Topics include digital control, adaptive filtering, adaptive control, and digital communications. Offered fall semester. Prerequisites: EGR 415, EGR 423, and EGR 455.

## **EGR 655 - Power Electronics (3 credits)**

The construction, characterization, and system realization of power switching devices. Specific topics include single-phase and three-phase rectifying circuits, DC chopper circuits, AC voltage controllers, frequency converters, and harmonic analysis. A significant course project is required. Offered fall semester. Prerequisites: EGR 315 and EGR 340.

## **EGR 656 - Electrical Drive Systems (3 credits)**

A second course in DC and AC machines and their industrial applications. Topics include adjustable speed drives, speed control of DC and AC machines, slip energy recovery, and synchronous machine drives. A significant course project is required. Offered winter semester. Prerequisite: EGR 655.

## **EGR 657 - Photovoltaic Systems (3 credits)**

This course introduces students to the fundamentals of photovoltaic (PV) systems. The topics include solar energy resources, PV system components, physics of PV cells, grid-connected PV systems, stand-alone PV systems, and economic/technical considerations in the design of PV systems. Offered winter semester of even-numbered years. Prerequisite: Admission to the M.S.E. program or instructor's permission.

## **EGR 665 - Advanced Power Electronics (3 credits)**

An advanced course in power electronics. Topics include active power factor correction, interleaving techniques, resonant converters and applications, soft-switching techniques and applications, bi-directional converters, application of power electronics in renewable energy systems, high voltage DC transmission system, DC distribution system, DC-to-AC inverters and applications, static VAR compensators and grid stability. Offered winter semester. Prerequisite: EGR 655.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **EGR 670 - Systems Physiology for Engineers (3 credits)**

The course provides an introduction to human anatomy and functional physiology, from the cellular to organ systems level, and from an engineering viewpoint. Topics covered include cellular and molecular physiology, nervous system, cardiovascular, renal, respiratory, endocrine, and gastrointestinal physiology. Offered fall semester. Prerequisite: Admission to the M.S.E. program or permission of instructor.

## **EGR 680 - Special Topics in Engineering (1 to 4 credits)**

Lecture, discussion, and/or laboratory in specific areas of engineering. Topics will reflect the special interests of the students and/or the instructor. Offered upon demand. Prerequisites: Depends on the nature of the topic. Admitted EGR or permit.

## **EGR 685 - Graduate Practicum (3 credits)**

A full-time cooperative education engineering work experience usually with a local industrial/manufacturing firm. Practical aspects of modern engineering and problem-solving culminating in a written report and formal presentation. Weekly reports and faculty supervisory meetings as required. Offered every semester. Prerequisites: Completion of 12 credit hours of EGR 600-level courses and permission of program administrator.

## **EGR 690 - Capstone Design Project (3 credits)**

Emphasis on team-based engineering design and realization procedures with application to an industrial or entrepreneurial design problem. Students will synthesize the knowledge and skills acquired in prior master's level engineering courses. The nature and scope of the problem is determined by the student teams in consultation with the instructor. Prerequisites: Successful completion of professional practice and emphasis courses.

## **EGR 693 - Master's Project (1 to 6 credits)**

Planning and execution of an individualized project involving the development of an engineered product or system which is proprietary to a company. The nature and scope of the project are determined by the student in consultation with an approval of the instructor. May be repeated. Offered every semester. Prerequisites: Permission of graduate program director and completion of the Responsible Conduct of Research Training within last three years.

## **EGR 695 - Master's Thesis (1 to 6 credits)**

Student plans and performs research, under the guidance of an advisor, that will involve work with a thesis committee and lead to a formally defended and publicly disseminated thesis. The thesis topic is determined by the student in consultation with the advisor. The topic must be

approved by a thesis committee. The course may be repeated. Offered every semester.  
Prerequisites: Permission of the graduate program director and completion of the Responsible Conduct of Research Training within last three years.

## **EGR 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **EGR 699 - Independent Study in Engineering (1 to 3 credits)**

Independent supervised study on selected topics. Offered upon demand. Prerequisite: Permission of instructor.

## **EMBA 601 - Financial Accounting for Executives (1.5 credits)**

Focuses on the interpretation and analysis of corporate financial statements as a source of information for executives. Emphasis will be placed on the evaluation of information in the financial statements - balance sheet, income statement, and statement of cash flows - for improved critical thinking and decision-making. Offered fall semester. Prerequisite: Admission to the EMBA program.

## **EMBA 610 - Strategic Information Systems for Executives (2 credits)**

Examines the role of data and information in the management and integration of systems processes. Students will explore strategic and sustainability related implications and the significance of effective management and analysis of internal and external information resources. Offered fall semester. Prerequisite: Admission to the EMBA program.

## **EMBA 611 - Managerial Accounting for Executives (1.5 credits)**

Emphasizes the use of accounting information for internal planning and control purposes. It is intended for individuals who will make business decisions and evaluate the performance of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

business units using accounting and managerial techniques. Offered winter semester.  
Prerequisite: EMBA 601 (may be taken concurrently).

### **EMBA 621 - Finance for Executives (3 credits)**

Focuses on the application of financial principles to optimize the value of the firm. Emphasis is placed on integrating academic and practitioner perspectives in the practice of financial management. Topics include financial statement analysis, risk and return, capital budgeting, capital structure, and distribution policy. Offered winter semester. Prerequisite: Admission to EMBA program.

### **EMBA 626 - Financial Policy for Executives (3 credits)**

Analyzes the evaluation and application of financial decision-making to optimize the value of the firm. Course focuses on advanced principles, including forecasting and valuation applied to mergers, acquisitions, divestitures, bankruptcy, reorganization, and multinational financial markets. Offered fall semester. Prerequisite: EMBA 621.

### **EMBA 635 - Organizational Change Management (2 credits)**

Analyzes the forces that drive organizations to change, evaluates the impediments to change, and examines the approaches or models of making change most effective. Special attention is given to managing the individual and organizational disruptions inherent in the change process. Prerequisite: Admission to the EMBA program.

### **EMBA 636 - Emerging Trends--Industry Disruptions and Firm Sustainability (3 credits)**

Explores current and future trends that are expected to challenge and impact businesses, industries, and society. Students will become better strategic leaders and managers as they examine and better understand the changing business environment. Topics will vary to align with contemporary issues. Offered fall and winter semesters. Prerequisite: Admission to EMBA program.

### **EMBA 641 - Business Economics for Executives (3 credits)**

Students will use economic tools to understand issues related to business including resource allocation, production and market structure, industry performance, and government policy. Students will learn how to analyze and evaluate empirical research related to an industry. Offered fall semester. Prerequisite: Admission to EMBA program.

## **EMBA 651 - Marketing Management for Executives (3 credits)**

Focuses on developing an understanding of the role of markets and marketing in the macroeconomic environment, providing the knowledge and tools needed to successfully analyze product or service markets and develop marketing strategies that will provide sustainable competitive advantages. Offered winter semester. Prerequisite: Admission to the EMBA program.

## **EMBA 652 - Negotiations for Executives (2 credits)**

Focuses on business negotiations environments and the development of related tactics to achieve value-added resolution. Students will explore models of negotiations and apply them to case studies and simulations. Offered fall semester. Prerequisite: Admission to the EMBA program.

## **EMBA 667 - Service and Value Chain Management (3 credits)**

Examines approaches for achieving operational competitiveness in a service business and provides students with the conceptual foundations and analytic tools to improve service delivery and value chain. The focus of this course is on the application of analytical tools to evaluate and improve the efficiency of service processes. Offered winter semester. Prerequisite: Admission to the EMBA program.

## **EMBA 675 - Law for Executives (3 credits)**

Focuses on the laws and regulations that affect business decisions. Students will develop an understanding of the legal and regulatory environment, compliance, and the assessment of risk. They will acquire sufficient fluency to determine when legal counsel is needed. Offered winter semester. Prerequisite: Admission to the EMBA program.

## **EMBA 678 - Executive Leadership and Ethics (3 credits)**

The indivisible interrelationship between leadership and ethics will be explored in the context of the leadership life cycle. Students will explore the intersections of their value structures, propensities, and experiences related to the world of work, regulations, and competing demands. Offered winter semester. Prerequisite: Admission to the EMBA program.

## **EMBA 680 - Special Topics in Executive MBA (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program. Students may repeat this course under different topics. Prerequisite: Admission to Seidman College of Business or permit.

### **EMBA 681 - Developing the Strategic Mindset (1 credit)**

Provides students with the framework to develop an executive-level strategic and systemic perspective for evaluating business options and decision-making. Offered fall semester. Prerequisite: Admission to the EMBA program.

### **EMBA 682 - Systems Thinking and Advanced Tactics (2 credits)**

Deepens student's capacity to simultaneously analyze and consider multiple strategic initiatives. Students learn to frame problems holistically, using judgment to make decisions on multiple (potentially conflicting) perspectives and develop a rigorous and resilient approach to solving complex business issues. Offered fall semester. Prerequisite: Admission to the EMBA program.

### **EMBA 683 - Corporate Strategy for Executives (3 credits)**

Examines strategic decision-making with an emphasis on the processes to improve competitiveness and sustainability in complex and uncertain corporate environments. The focus is on exploration of strategic management process models and applications to the unit and organization. Offered winter semester. Prerequisite: Admission to the EMBA program.

### **EMBA 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **ENG 100 - Reading for College in All Majors (3 credits)**

Students will learn to read college-level texts critically, analytically, and efficiently. Students will engage with texts from a variety of disciplines. Offered fall and winter semesters.

### **ENG 105 - Literatures in English (3 credits)**

An introduction to literatures written in English, organized around a theme, period, author, genre, or topic. All sections emphasize close reading, careful writing, and cultural understanding. Besides enhancing these foundational skills, the course will highlight the pleasures and excitements a lifetime of reading offers. Fulfills Foundations - Philosophy and Literature. Offered fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ENG 112 - Much Ado About Shakespeare (3 credits)**

Love and cruelty. Loyalty and betrayal. Ambition. Jealousy. Madness. Engage a vast range of human emotions by reading plays from Shakespeare's major genres, by experiencing his works as produced for modern audiences, and by exploring the wonders of his poetry. The course typically includes attending a live, local performance. Fulfills Foundations - Philosophy and Literature. Offered fall and winter semesters.

## **ENG 115 - Introduction to Science Fiction (3 credits)**

An introduction to science fiction literature, focusing primarily on texts from the late 19th, 20th, and 21st centuries. Examines the interaction between scientific change and the resulting ethical questions as depicted in fictional texts. Emphasis will be on short stories written by authors from diverse cultural backgrounds and contexts. Fulfills Foundations - Philosophy and Literature. Offered fall and winter semesters.

## **ENG 180 - Special Topics in English (1 to 9 credits)**

Studies of selected authors, concepts, movements, periods, theories, or genres. Topics will be announced in the class schedule and prerequisites may be listed. May be repeated for credit.

## **ENG 201 - Foundations of Literacy Instruction (3 credits)**

Study of the theoretical foundations of literacy instruction. Investigates current/historical theories of literacy, and contemporary trends in the practice of teaching literacy. Pedagogical application of linguistic and cognitive principles to decoding, encoding, and comprehension strategies for PK-6 children. Field experience required (five hours); students provide transportation; placements on bus line. Offered every semester.

## **ENG 203 - World Literature (3 credits)**

Readings of major drama, poetry, and novels from medieval times to the present, translated from major European and world languages. Authors such as Dante, Voltaire, Mann, Tolstoy, Kafka, Narayan, and Borges offer varied literary glimpses of foreign worlds. Fulfills Foundations - Philosophy and Literature. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 204 - World Mythology (3 credits)**

A comparative look at myths, folk tales, and fairy tales and how they derive from, and work on, the mind of a culture, both socially and aesthetically. Examines these tales as works of art in their own right and also as metaphors expressing a society's major values, themes, and

preoccupations. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 215 - Foundations of Literary Study: Genre (3 credits)**

The course examines a variety of literary genres (including fiction, poetry, drama, and nonfiction) within and across a range of historical periods and cultural and national contexts. In addition to learning about genres, students will develop skills of close reading, textual support, inter-textual analysis, and critical thinking. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)**

This course will examine literary texts through the prism of different literary theories and other critical approaches and prepare students to undertake advanced literary interpretation and to produce literary critical writing. This course will enable students to connect literary texts and critical approaches to their historical and social contexts. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 220 - British Literature I (3 credits)**

A survey of early British literature from Beowulf in the old English period through Chaucer in the middle English period, and such authors as Spenser, Marlowe, Shakespeare, Jonson, Donne, and Milton in the Renaissance. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 221 - British Literature II (3 credits)**

A survey of later British literature from the Restoration and the Eighteenth century, the Romantic and Victorian periods, modernism, and contemporary Anglophone literature. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 225 - American Literature I: to 1860 (3 credits)**

A survey of American literature from its beginnings to 1860. Significant attention will be given to the writings of women and minorities. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 226 - American Literature II: from 1860 (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A survey of American literature from the Realist period to the present. Significant attention will be given to the writings of women and minorities. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 231 - Early African American Literature (3 credits)**

Analysis and discussion of discourse written by and about African Americans during the formative years of this nation. Emphasis will be placed on literary discourse as one means of defining African American consciousness and community, and understanding how African Americans' communities of origin shaped African American discursive expression. Cross-listed with AAA 231. Students may not receive credit for both. Fulfills Foundations - Philosophy and Literature. Fulfills Cultures - Global Perspectives. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 232 - Modern African American Literature (3 credits)**

Analysis and discussion of discourse by and about African Americans primarily written during the twentieth century. Emphasizes literary discourse as a means of defining African American consciousness and community and understanding how the communities African Americans inhabit shaped their discursive expression. Cross-listed with AAA 232. Students may not receive credit for both. Offered winter semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 261 - Foundations of Language Study (3 credits)**

An introduction to the principles of linguistics and linguistic analysis, with a focus on the structure and use of English. Coverage includes phonology, morphology, syntax, descriptive and prescriptive grammar, language history, and language variation. Prerequisite for 300- to 400-level English courses in applied linguistics. Offered fall and winter semesters.

## **ENG 280 - Special Topics in English (1 to 9 credits)**

Studies of selected authors, concepts, movements, periods, theories, or genres. Topics will be announced in the class schedule and prerequisites may be listed. May be repeated for credit.

## **ENG 301 - Reading and Writing in the Elementary Classroom (3 credits)**

This course prepares teacher candidates to foster Pre-K to 6th grade students' reading comprehension, writing abilities, and academic vocabulary in interdisciplinary contexts across the content disciplines. Emphasizes the application of pedagogical content knowledge and assessment to inform instruction. Field experience required; students provide transportation. Offered every semester. Prerequisites: WRT 150 and ENG 201.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ENG 302 - Introduction to Language Arts: Teaching Writing and Children's Literature (3 credits)**

Introduces important educational research and theory, teaching strategies and materials related to both children's literature and the teaching of writing, particularly the connections between the two. Course may require a practicum or off-campus learning experience. Does not fulfill requirement or elective in English major or minor. Offered every semester. Prerequisites: Fulfillment of general education Foundations - Writing and one of: EDI 338, EDI 339, PED 265, or PED 266.

## **ENG 303 - Studies in World Literature (3 credits)**

An in-depth comparative study of texts, themes, genres, and authors from literatures of the world in translation, including one or more from the following areas: Africa, Middle East, Asia, India, Latin America, the Caribbean, and Europe. Prerequisites: Fulfillment of general education Foundations - Writing and one literature course.

## **ENG 304 - International Literature for Children and Young Adults (3 credits)**

A comparative study of texts, themes, and authors from children's and young adults' international literature in translation, including one or more texts from the following: Africa, Middle East, Asia, Latin America, Oceania, Canada, the Caribbean, and Eastern and Western Europe. A tutoring practicum or off-campus learning experience may be required. Prerequisites: Fulfillment of general education Foundations - Writing and one literature course.

## **ENG 307 - Teaching Writing: Elementary (3 credits)**

A study of the writing process and of current theories of rhetoric, discourse analysis, language acquisition, and reading, all applied to teaching writing on the elementary level. A tutoring practicum may be required, and students will also work on their own writing. Should be taken prior to College of Education and Community Innovation admission. Offered fall and winter semesters. Prerequisites: Fulfillment of general education Foundations - Writing and sophomore standing.

## **ENG 308 - Teaching Reading: The Necessary Skills (4 credits)**

Application of linguistic principles to decoding and comprehension skills and to theories underlying the developmental and the language-experience approaches to teaching reading. Each student is required to tutor a pupil, administer an informal diagnostic test, and report on outside readings. Other off-campus learning experiences may be required. Offered fall and winter

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

semesters. Prerequisites: Fulfillment of general education Foundations - Writing and junior standing.

### **ENG 309 - Teaching Literature to Children (3 credits)**

Introduces to students the important materials (classic and contemporary), teaching strategies, issues, and research related to children's literature, as well as guiding the reading of children. May include a practicum or off-campus learning experience. Should be taken prior to student teaching. Offered fall and winter semesters. Prerequisites: Fulfillment of general education Foundations - Writing and sophomore standing.

### **ENG 310 - Teaching Writing: Secondary (3 credits)**

A study of the writing process and of current theories of rhetoric, discourse analysis, language acquisition, and reading at the secondary level. A tutoring practicum or off-campus learning experience may be required, and students will also work on their own writing. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

### **ENG 311 - Teaching Literature to Adolescents (3 credits)**

Introduces to students the important classic and contemporary materials (including works by women and writers of color and/or ethnic diversity), teaching strategies, issues, and research related to adolescent literature, as well as the criteria for guiding the reading of adolescents. May include a practicum or off-campus learning experience. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

### **ENG 313 - British Literature: Shakespeare (3 credits)**

An in-depth study of the range of Shakespeare's work in its historical and critical context, including selections from comedy, tragedy, history, romance, and poetry. Prerequisites: Fulfillment of general education Foundations - Writing.

### **ENG 314 - Digital Literacies (3 credits)**

Increasingly, literary production and consumption are occurring in digital spaces using digital tools. This course will foster students' abilities to critically interpret literary texts using digital tools. Students will study literary authorship, readership, and analysis from the inception of the printing press to the present. Part of the Information, Innovation, or Technology Issue. Cross-listed with DS 314. Offered winter and spring/summer semesters. Prerequisite: Junior standing.

### **ENG 320 - Studies in Poetry (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Focuses upon the formal properties of poetry and studies the conventions of the genre as it develops within or across historical periods and/or cultures. Offered fall semester. Prerequisites: Two foundation courses or declared writing major or minor.

### **ENG 321 - British Literature: Medieval (3 credits)**

An in-depth study of selected texts, themes, and authors representative of British literature up to 1500. Topics vary by semester. May be repeated for credit if content varies. Offered fall semester of odd-numbered years. Prerequisites: ENG 215, ENG 216, and ENG 220.

### **ENG 322 - British Literature: Renaissance (3 credits)**

An in-depth study of selected texts, themes, and authors representative of British literature in the Renaissance. Topics vary by semester. May be repeated for credit if content varies. Offered winter semester of even-numbered years. Prerequisites: ENG 215, ENG 216, and ENG 220.

### **ENG 323 - British Literature: 18th-Romantic (3 credits)**

An in-depth study of selected texts, themes, and authors of British literature from the Restoration through the Romantic period. Topics vary by semester. May be repeated for credit if content varies. Offered fall semester of even-numbered years. Prerequisites: ENG 215, ENG 216, and ENG 221.

### **ENG 324 - British Literature: Victorian-Present (3 credits)**

An in-depth study of texts, themes, and authors representative of British literature and post-Colonial Anglophone literature from the Victorian period through the present. Topics vary by semester. May be repeated for credit if content varies. Offered winter semester of odd-numbered years. Prerequisites: ENG 215, ENG 216, and ENG 221.

### **ENG 325 - American Literature to 1800 (3 credits)**

Intensive study of major authors, literary movements, and themes from America's pre-Colonial beginnings through the Revolution. Topics may include Native American myth and poetry; literature of discovery and conquest; Puritan writings; autobiography; captivity and slave narratives; literature of Revolution and the new Republic; and early American poetry, drama, and fiction. May be repeated for credit if content varies. Offered fall semester of odd-numbered years. Prerequisites: ENG 215, ENG 216, and ENG 225.

### **ENG 326 - Nineteenth-Century American Literature (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Intensive study of major authors, literary movements, and themes from the post-Revolutionary War Period to 1900. Topics may include the American Renaissance, Transcendentalism, Realism, local color writers, African American slave narratives and autobiographies, the Civil War, naturalism, and developments in 19th-century literary genres. May be repeated for credit if the content varies. Offered winter semester of even-numbered years. Prerequisites: ENG 215, ENG 216, and ENG 225.

### **ENG 327 - Modern American Literature (3 credits)**

Intensive study of major authors, literary movements, and themes from 1900 to 1945. Topics may include Modernism, the Harlem Renaissance, the Wasteland Generation; Literature of American Expatriates; New York City; the South; the West; the Depression; World Wars I and II; and developments in modern literary genres. Offered fall semester of even-numbered years. Prerequisites: ENG 215, ENG 216, and ENG 226.

### **ENG 328 - Contemporary American Literature (3 credits)**

Study of established and emerging authors, literary movements, genres, or themes since 1945. Students will consider questions of what defines "American" through examination of cultural, historical, and political contexts that define U.S.-American contemporary period, e.g. Cold War, 9/11, borderlands/identities, globalization, social justice movements, race. Offered winter semester of odd-numbered years. Prerequisites: ENG 215, ENG 216 or ENG 261.

### **ENG 330 - Studies in Fiction (3 credits)**

Focuses on the formal properties of fiction and studies the conventions of the genre as it develops within or across historical periods and/or cultures. May be repeated for credit if the content varies. Offered fall and winter semesters. Prerequisites: Any two foundation courses or declared writing major or minor.

### **ENG 331 - Comics and Graphic Novels in Contemporary Culture (3 credits)**

This course examines the comics medium and its role in popular culture and academic studies. Students read and analyze historical and contemporary comics from varying genres, learn the formal elements of comics, consider the possibilities and limitations of the medium, and critique representations of race, class, and gender within comics. Part of the Information, Innovation, or Technology Issue. Offered spring/summer semester. Prerequisites: Fulfillment of general education Foundations - Writing and junior standing.

### **ENG 334 - American Multicultural Literature for Children and Young Adults (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An examination of American multicultural literature for children and young adults, such as African American, Asian American, Latino, and Native American literatures. This service-learning course requires service reading, dramatic presentations, or other creative ways of engaging the community with literature. Prerequisites: Fulfillment of general education Foundations - Writing and junior standing.

### **ENG 335 - Literature of American Minorities (3 credits)**

Studies the importance and variety of literature by American minorities, such as African American, Native American, Asian American, Hispanic American, and other minority or marginalized authors. Emphasis will be on multiplicity of literary voices, social-historical contexts, and themes of negotiating identity between/among majority and minority cultures. Fulfills Cultures - U.S. Diversity. Part of the Identity Issue. Offered fall and winter semesters. Prerequisites: Fulfillment of general education Foundations - Writing and junior standing.

### **ENG 336 - Lesbian, Gay and Queer Literature (3 credits)**

This interdisciplinary course makes use of literary, historical, and social scientific theories and methods in an in-depth study of lesbian, gay, and queer literature with attention to historical and cultural context. Literature may include literary classics, pulp fiction, post-Colonial literature, feminist fiction, and postmodern narratives. Cross-listed with WGS 336. Offered winter semester of even-numbered years.

### **ENG 337 - Contemporary Black Literature (3 credits)**

Studies the importance and variety of literature by Black authors from Africa, the Americas, and/or Afro Europe since 1975. Texts written earlier than 1975 are used to consider influential historical and/or social events, trends and themes, literary styles, innovative uses of popular culture, and/or expression of the experience of marginality. Fulfills Cultures - Global Perspectives. Part of the Identity Issue. Cross-listed with AAA 337. Prerequisite: Junior standing.

### **ENG 340 - Studies in Drama (3 credits)**

Focuses on the formal properties of drama and studies the conventions of the genre as it develops within or across historical periods and/or cultures. May be repeated for credit if the content varies. Offered winter semester. Prerequisites: Two foundation courses or declared writing major or minor.

### **ENG 355 - Teaching English Learners, PK-6 (3 credits)**

Prepares pre-service PK-6 teachers to meet the needs of English learners (EL). Focus on how second languages are learned; the cultural, linguistic, and affective factors that influence the process; and research-based pedagogy for promoting ELs' academic language and literacy

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

development across content areas. Field placement required. Fulfills Cultures - Global Perspectives. Offered every semester. Prerequisite: ENG 201.

### **ENG 360 - Studies in Nonfiction (3 credits)**

Focuses on the formal properties of one or more nonfictional genre as the genre develops within or across historical periods and/or cultures. May be repeated for credit if the content varies. Offered winter semester. Prerequisites: Two foundation courses or declared writing major or minor.

### **ENG 362 - History of the English Language (3 credits)**

Examination of the external and internal history of the English language from Old English to present day English. Investigation of regional and social varieties of English and the question of usage in the context of cultural change. Offered fall semester. Prerequisite: ENG 261.

### **ENG 363 - Applied Linguistics (3 credits)**

Application of contemporary linguistic theory and research to issues in language, literacy, and learning. Consideration of first and second language acquisition, literacy, bilingualism, ESL, language variation including gender and nonstandard dialects, language pedagogy, and language attitudes and their relevance to classroom practices. Offered fall and winter semesters. Prerequisite: ENG 261.

### **ENG 364 - Sociolinguistics (3 credits)**

Study of sociolinguistic theories investigating the interaction of language and society. An examination of the social and cultural aspects of language and language use: social stratification, power, gender, race, ethnicity, class, geographic origins, and networks. Offered fall semester. Prerequisite: ENG 261.

### **ENG 365 - Teaching English as a Second Language (3 credits)**

Examination of the relevant issues of language, culture, and methodology for teachers of ESL students. Consideration of first and second language acquisition theory, language politics, second language teaching methodologies, and the classroom application of these issues. Offered fall and winter semesters. Prerequisite: ENG 261.

### **ENG 366 - English Grammar and Usage (3 credits)**

A survey of the grammatical structure of English. The course helps students develop the ability to identify, understand, and analyze various syntactic properties of English, examines the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

historical and current contexts of teaching English in K-12/ESL settings, and explores the relationship between grammar and other areas of English study. Offered winter semester. Prerequisite: ENG 261 or permission of instructor.

## **ENG 378 - Contemporary Latin American Literature (3 credits)**

A survey of Latin American literature of the past three decades, in English translation, taking in a variety of nations, regions, and cultures, including Afro-Latin and indigenous voices. Genres include the novel, the short story, poetry, drama, testimonial narrative, speeches, folklore, and film. Cross-listed with SPA 378 and LAS 378. Students may not receive credit for more than one. Prerequisites: Fulfillment of general education Foundations - Writing and one literature course.

## **ENG 380 - Special Topics in English (1 to 3 credits)**

Studies of selected authors, concepts, movements, periods, theories, or genres. Topics will be announced in the class schedule and prerequisites may be listed. May be repeated for credit. Prerequisite: One literature foundation course.

## **ENG 382 - Literature and the Environment (3 credits)**

Focuses on literature that engages with the relationship between human beings and the natural world. Includes literary nonfiction, nature poetry, environmental fiction, and other forms of literature that illuminate both human and nonhuman nature. Attention is also given to the effects and consequences of human and non-human interaction. Part of the Sustainability Issue. Offered fall and winter semesters. Prerequisites: Fulfillment of general education Foundations - Writing and junior standing.

## **ENG 383 - "Make It New": Literary Modernism (3 credits)**

From the cafes and "little magazines" of Paris emerged writers forging a new way to express the new realities of the 20th century. Exploration of the literature in its cultural context. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 384 - Literature of War (3 credits)**

This course uses literary texts to explore the representations of war and conflict from a variety of perspectives. Works may include short stories, novels, poetry, nonfiction essays, or memoir. Ultimately, this course will examine how we write about war and ask how or if violence can become art. Part of the Human Rights Issue. Prerequisites: Fulfillment of general education Foundations - Writing and junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ENG 386 - Literary Responses to Death and Dying (3 credits)**

Study of literary texts that examine attitudes, practices, and beliefs surrounding death and dying, from multiple perspectives, including personal experience, across cultures, and historically. Studies associated issues such as illness, grief, mourning, memorials, and responses to national tragedies. Works may include poetry, memoir, drama, fiction, nonfiction, myth, and other arts. Part of the Health Issue. Prerequisites: Fulfillment of general education Foundations - Writing and junior standing.

## **ENG 388 - Emigration and Immigration in Contemporary World Literature (3 credits)**

This course examines how different kinds of emigration and immigration, from formerly colonized regions to the developed countries of the West and between formerly colonized countries, are depicted in 20th and 21st century world literature. Part of the Identity Issue. Prerequisite: Junior standing.

## **ENG 390 - Topics in Language and Rhetoric (3 credits)**

Variable content. Course will focus on a problem (or problems) in the history or structure of English, or on a specific problem in the practice or theory of rhetoric. Among such topics are the following: dialects, Black English, artificial languages (Esperanto-Newspeak), semantics, and language and politics. May be repeated for credit. Prerequisite: Fulfillment of general education Foundations - Writing.

## **ENG 392 - Language and Power (3 credits)**

Examines language as a means of achieving personal and cultural freedom and as a tool for controlling and oppressing others. Students study various theories of language use and explore the tension between our right to use language freely and our need to protect ourselves from the way others use language. Offered winter semester. Prerequisite: Fulfillment of general education Foundations - Writing and ENG 261.

## **ENG 399 - Independent Studies (1 to 4 credits)**

Before registration, the student must arrange for supervision by a faculty member and submit a contract (available in the English office) specifying the scope of the proposed study. No more than three credits in ENG 399 may be applied to the major or minor. Offered fall and winter semesters. Prerequisites: Fulfillment of general education Foundations - Writing and prior approval of instructor.

## **ENG 400 - Critical Issues in K-12 Literacy (3 credits)**

Integrates theories of teaching reading, writing, speaking, and listening for K-12 English Language Learners, African American Vernacular English or other dialect speakers, students of color, and students who live in poverty. May include a tutoring practicum or off-campus learning experience. Offered fall and winter semesters. Prerequisites: ENG 307 and ENG 308 for ELA; ENG 302 and ENG 308 for CSAT; ENG 310 for secondary.

## **ENG 401 - Languages, Literacies, and Cultures (3 credits)**

This course prepares students to provide culturally sustaining English Language Arts instruction. The course offers PK-6 teacher candidates the tools they need to build curricular bridges between students' home cultures, literacies, and languages and the English Language Arts. Field experience required; students provide transportation; some placements on bus line. Offered every semester. Prerequisites: ENG 301 and EDR 320.

## **ENG 436 - Women and Literature (3 credits)**

An in-depth study of major women writers and their historical, cultural, and artistic contributions. Significant attention will be given to the writings of minorities. Offered winter semester of even-numbered years. Prerequisites: Completion of foundation courses and one 300-level literature course.

## **ENG 440 - Studies in Major Author(s) (3 credits)**

An in-depth study of one or two major literary figures, with an emphasis on biography, major works, and influence. Offered fall semester of even-numbered years. Prerequisites: Completion of foundation courses and one 300-level literature course. May be repeated for credit if content varies.

## **ENG 445 - Studies in Literary Criticism and Theory (3 credits)**

An in-depth study of critical and theoretical approaches to literature, with an emphasis on the development of theories of literature from classicism to postmodernism. Offered winter semester of odd-numbered years. Prerequisites: Completion of foundation courses and one 300-level literature course.

## **ENG 461 - Language and Gender (3 credits)**

Examination of theoretical approaches to the dynamics of language and gender. Investigation of the relationship of language and gender with social categories such as age, ethnicity, class, and sexuality. Application of social and linguistic theories to analyses of data with particular

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

attention to contexts of the classroom, workplace, and media. Cross-listed with WGS 461.  
Offered winter semester. Prerequisite: ENG 261.

## **ENG 465 - Teaching Second Language Reading and Writing (3 credits)**

Examination of current theory, research, and practice in second language literacy development. Students will gain an understanding of the cognitive, linguistic, and sociocultural factors involved in learning to read and write in a second language, and develop informed practices for teaching second language readers and writers at different levels. Offered winter semester.  
Prerequisite: ENG 261.

## **ENG 467 - Language Disorders and English Literacy (3 credits)**

An examination of common speech/language disorders in the school-aged population having an impact on English literacy acquisition. Investigation of interface between ESL and language disorders, compounded by language attrition. Application to classroom communication skills, acquisition of literacy, and working with other school professionals. Offered fall semester.  
Prerequisite: Prerequisite: PSY 304 for CSAT majors, ENG 261 for ENG majors, and (ENG 261 or PSY 304 or PSY 305) for non-ENG and non-CSAT majors.

## **ENG 469 - ESL Teaching Practicum (3 credits)**

Practicum experience for those interested in teaching second language learners of English. Focus on integrating ESL theory with practice and implementing instructional approaches that support literacy and academic development of ESL learners. Emphasis on reflective practices and development of critical perspectives. Does not lead to State of Michigan teaching certification. Offered fall semester of odd-numbered years. Prerequisite: ENG 465.

## **ENG 490 - Internship (1 to 3 credits)**

A supervised work experience in an area of a student's potential career interest. Initiated by the student, who plans the work experience with the advisor, the faculty sponsor chosen to supervise the internship, and the supervisor at the worksite. As a rough guide, the student should expect to spend 45 hours per semester in the internship and supporting academic work for each credit awarded. Credit is awarded only when the student, the faculty sponsor, and the work supervisor have completed evaluations of the internship. Offered every semester.

## **ENG 495 - Language and Literature (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course will be a culminating experience for all English majors. Students will reflect on their experience as English majors, create a senior project, and present their findings at a departmental conference. Prerequisites: English foundation courses and senior standing.

## **ENG 499 - Advanced Scholarly Writing Project (1 to 3 credits)**

Advanced, supervised work on a substantial piece of scholarly writing, such as the conversion of a seminar paper to a publishable article. Students register for this course upon recommendation of a faculty member. May not be used to fulfill 400-level course requirement for language and literature emphasis. Offered fall and winter semesters. Prerequisite: Permission of instructor.

## **ENG 600 - Graduate Literary Studies Seminar (3 credits)**

This course will introduce graduate students to current literary studies by explicating historical changes in the field of English in both literary content and critical discourse. Students will explore these changes by studying key concepts in the discipline and by completing a research project. Offered every year.

## **ENG 603 - Seminar in British Literature (3 credits)**

Aims at a synthesis of the development of British literature through a study of important literary themes, examining them closely in major works representative of the periods of British literature. Seminar presentation and research paper are required of each student. Offered every other year. Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 605 - Seminar in American Literature (3 credits)**

Aims at a synthesis of the development of American literature through a study of important literary themes, examining them closely in major works representative of the periods of American literature. Seminar presentation and research paper are required of each student. Offered every other year. Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 612 - Women Writers (3 credits)**

An in-depth study of selected works of women writers with attention to the literary and social contexts in which they wrote. Issues concerning the development of literature written by women and its status with regard to the canon will be addressed. Offered every other year. Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 614 - Literature of American Ethnic Minorities (3 credits)**

An in-depth study of selected pieces of African American, Hispanic, Asian American, Native American or immigrant American literature. Issues concerning the development of minority literature and its status with regard to the canon will be addressed. Offered every other year. Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 616 - World Literature in English (3 credits)**

A varied and dynamic body of literary writing in English has emerged from formerly British territories in Africa, Asia, and the Americas. This course will explore the emergence and characteristics of world literature in English. It will also examine the latter's relationship to the canons of British and American literature. Offered every other year. Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 624 - Genre Studies (3 credits)**

Intensive study of the historical development of a selected genre (poetry, drama, fiction, literary nonfiction) and of the nature of the genre, focusing on selected works. May be repeated for credit when content varies. Offered every year. Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 632 - Summer Invitational Writing Institute (3 credits)**

The Summer Invitational Institute gathers teachers, grades K-16, to develop presentations based on their best practices in teaching writing to facilitate analysis of current research in the teaching of writing and to help teachers to better link their work as writers to work as teachers of writing. Offered spring/summer semester. Prerequisites: Application and interview.

## **ENG 633 - Advanced Writing (3 credits)**

An intensive writing course designed to help teachers develop their own writing using various forms of creative and expository writing. Offered every other year. Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 651 - Literary Period Seminar (3 credits)**

Intensive study of a period of British, American, or world literature. May be repeated for credit when content varies. Offered every year. Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 655 - History of Literary Criticism and Theory (3 credits)**

A study of literary criticism and theory from all major historical periods (Greek, Roman, medieval, Renaissance, 18th century, Romantic, late 19th century), and of the various modern and contemporary schools. Emphasis on philosophical assumptions underlying literary theories and on application of critical approaches to literary works. Offered every other year (odd-numbered years). Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 660 - Principles of Educational Linguistics (3 credits)**

An introduction to contemporary linguistics and how linguistic concepts are used in educational contexts. Major component areas of phonetics, phonology, morphology, semantics, syntax, pragmatics, language variation, and language acquisition will be examined. Pedagogical relevance and implications for teaching are an integral part of linguistic analysis. Offered fall semester. Prerequisite: Admission to M.A. in applied linguistics.

## **ENG 661 - Author or Topic Seminar (3 credits)**

Intensive study of a work (or works) of a single author or focused literary topic. Offered every year. Prerequisites: Completion of English major or minor or consent of instructor. May be repeated for credit when content varies.

## **ENG 662 - Pedagogical Grammar (3 credits)**

An advanced course in contemporary grammatical analysis of English. The course focuses on both descriptive and prescriptive properties of English, primarily in the generative-transformational framework, and addresses pedagogical issues in the teaching of grammar to English learners in various contexts. Offered winter semester. Prerequisite: ENG 660 or permission of instructor.

## **ENG 663 - Shakespeare (3 credits)**

An in-depth study of selected plays, focusing on historical context, interpretive methods, and the development of Shakespeare's genius. Offered every other year. Prerequisite: Completion of English major or minor or consent of instructor.

## **ENG 664 - Sociolinguistics and Language Teaching (3 credits)**

Introduction to major concepts, theories, findings, and research methods in sociolinguistics as they relate to second and foreign language teaching. Topics include language variation and

change; standards, attitudes, and ideologies; world Englishes; language policy and planning; identity; and socialization. Focus on implications for teaching English in domestic and international contexts. Offered winter semester. Prerequisite: ENG 667.

## **ENG 665 - Second Language Acquisition (3 credits)**

An examination of the major theories of second language acquisition (SLA) and various factors that influence the learning process among different age groups of learners from different first language backgrounds. The relationship between SLA research and its pedagogical implications for teachers is also addressed. Offered winter semester. Prerequisite: ENG 667.

## **ENG 667 - Introduction to Applied Linguistics Research (3 credits)**

An introduction to empirical research in applied linguistics. Critical reading of published research in the field, study of qualitative and quantitative research design, methodology and analysis, and writing of research reports are essential components of the course. Offered fall semester. Prerequisite: ENG 660 (may be taken concurrently).

## **ENG 668 - Second Language Assessment (3 credits)**

An examination of the basic concepts in language testing, with special focus on K-12 and adult learners of English as a second language (ESL). Areas of coverage include test selection, evaluation, development, and application. Both qualitative and quantitative methods will be addressed, though the latter are the primary concern. Required of those seeking Michigan ESL endorsement. Offered fall semester. Prerequisite: Completion of ENG 660 or equivalent.

## **ENG 669 - Teaching English as an Additional Language (EAL) (3 credits)**

Exploration of second language learning theories and pedagogy of teaching English as an additional language in domestic and international contexts. The course addresses theoretical foundations of language learning and the implications for instructional practice and considers critical issues in English language teaching. Offered fall semester. Prerequisite: ENG 660 (may be taken concurrently).

## **ENG 670 - World Englishes: History and Variation (3 credits)**

Examination of the external and internal history of the English language from Old English to present day English with emphasis on the development, change, and variation of regional and social varieties of World Englishes. Includes linguistic and textual analyses of corpora, social

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

media, dictionaries, grammars, and other resources. Offered every other year. Prerequisite: ENG 667.

## **ENG 675 - Second Language Reading and Writing (3 credits)**

Exploration of major issues in the teaching of second language (L2) reading and writing in a variety of instructional contexts. Students will gain insight into the characteristics and needs of diverse second language learners and develop informed practices for teaching second language reading and writing at different levels. Offered fall semester. Prerequisite: ENG 669.

## **ENG 679 - Practicum (3 credits)**

Practicum experience in teaching or administrative contexts, domestic or international, where students serve as English language specialists. Focus is on integrating theory and practice and the implementation of informed approaches to instruction, assessment, curriculum development, or program design. Emphasis is on reflection and development of critical perspectives. Offered fall semester. Prerequisites: ENG 669 and ENG 675 (ENG 675 may be taken concurrently).

## **ENG 680 - Special Topics in English (1 to 4 credits)**

Study of selected topics. Topics will be announced in the course schedule. May be repeated for credit. Offered upon sufficient demand.

## **ENG 693 - Master's Project (3 credits)**

The culminating experience for M.A. in applied linguistics candidates who choose the Capstone (nonthesis) option. Students will design and develop a project in applied linguistics, which they will present publicly at a departmental conference. Course offered winter semester. Prerequisites: Students must complete 27 credits of M.A. in applied linguistics coursework prior to taking ENG 693 and complete the Responsible Conduct of Research Training within last three years.

## **ENG 695 - Master's Thesis (1 to 3 credits)**

Preparation of thesis for M.A. degree, Track two. Carried out under supervision of thesis director. A student preparing a thesis must register for at least one credit per semester (including spring/summer) and must have registered for a total of at least six credits before scheduling thesis defense. Offered every semester. Prerequisites: Completion of 27 credits, approval of thesis proposal, and completion of the Responsible Conduct of Research Training within last three years.

## **ENG 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **ENG 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **ENG 699 - Independent Study (1 to 3 credits)**

Independent supervised study of selected topics not usually covered in available courses. Offered upon demand. Prior to registration, the student must arrange for supervision by a faculty member and submit a contract (available in the English Department) specifying the scope of the proposed study. No more than three credits of ENG 699 may be applied toward the M.A. degree. Prerequisite: Permission of the instructor.

## **ENS 180 - Special Topics in Environmental Studies (1 to 9 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **ENS 183 - Sustainability as a Lifestyle (1 credit)**

This course will provide a broad and comprehensive perspective of sustainability practices. Students will be introduced to the fundamentals of sustainability through lectures, readings, field study activities, and guest speakers. The emphasis of this course will be on helping students incorporate sustainability practices in their lifestyle and experience at GVSU. Offered fall and winter semesters.

## **ENS 201 - Introduction to Environmental and Sustainability Studies (3 credits)**

An introduction to interdisciplinary understanding of the multiple ways that human society influences, and is influenced by, its natural environment. The course uses frameworks such as

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

systems thinking and design thinking to integrate scientific, economic, political, and socio-cultural perspectives on topics in environmental and sustainability studies. Offered fall and winter semesters.

## **ENS 280 - Special Topics in Environmental Studies (1 to 9 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **ENS 300 - Principles of Sustainability (3 credits)**

An exploration of the history and meaning of concepts of sustainability. Special attention to the challenges of defining the term; its ethical, political, and descriptive meanings; its use in different sustainability models; its "strong" and "weak" versions; and its relation to concepts of development and growth. Offered fall and winter semesters. Prerequisite: ENS 201.

## **ENS 303 - Introduction to U.S. Environmental Policy (3 credits)**

This course examines the decision-making processes to cope with modern environmental problems. The course focuses on both domestic and international environmental issues with special attention to interests, ideas, and institutions. Part of the Sustainability Issue. Cross-listed with PLS 303. Offered winter semester. Prerequisite: Junior standing.

## **ENS 305 - Sustainability Assessment and Reporting (3 credits)**

Introduces methods of sustainability assessment and reporting. The course reviews the goals of sustainability initiatives in different types of organizations, and considers how assessment and reporting best practices are determined by type of organization and its sustainability goals. Sustainability professionals present on their use of assessment and reporting frameworks. Prerequisite: ENS 201.

## **ENS 310 - How Biosphere Works (3 credits)**

A forum for learning about the evolution, dynamics and change in earth's biosphere. Students will collaboratively explore the complex interplay between and among the earth system and humans for better understanding modern-day issues such as global environmental change and sustainability. Offered fall semester of odd-numbered years. Prerequisites: Junior standing, ENS 201, and completion of Foundations - Natural Sciences.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ENS 311 - To Bee or Not to Bee; Honey Bees and Social Impact (3 credits)**

This course explores the centuries-old relationship between humans, nature and honey bees from a cultural, historical, and agricultural context. Pillars of our modern food system and bioindicator of our environment, honey bees provide important scientific, economic, philosophical, and political perspectives relevant to our current global climate. Offered fall semester.

## **ENS 380 - Special Topics in Environmental Studies (1 to 9 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **ENS 392 - Sustainable Agriculture: Ideas and Techniques (3 credits)**

Students will study agricultural systems while being exposed to applied research at the sustainable agriculture project site. Students will investigate models of sustainable food systems that link production to economics, consumption, and nutrition. Part of the Sustainability Issue. Offered fall semester. Prerequisite: Junior standing.

## **ENS 399 - Independent Readings in Environmental Studies (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

## **ENS 401 - Environmental Problem Solving (3 credits)**

A problem-solving seminar in environmental studies. Attention will be given to vulnerabilities to environmental change, sustainable development, impact and risk assessment, and adaptations to and mitigation of environmental problems at various scales. Multidisciplinary student teams will conduct original research and design sustainable practices and solutions for real-life environmental problems. Offered fall and winter semesters. Prerequisites: ENS 201 and junior standing.

## **ENS 412 - Global Climate and Environmental Change (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course introduces students to natural and human causes of climate change and geographic patterns of climate change impacts, human vulnerabilities, and adaptation and mitigation strategies. Global climate modeling scenarios are examined in the context of international and national climate change policies, national security, climate preparedness, and resiliency planning. Part of the Sustainability Issue. Cross-listed with GPY 412. Offered winter semester. Prerequisites: Junior standing, and either GPY 100 or ENS 201 or at least one course from Foundations - Natural Sciences.

## **ENS 490 - Internship (1 to 6 credits)**

Supervised work experience in an area related to environmental studies. Offered each semester. May be repeated for credit. Prerequisite: Permission of the program director.

## **ENS 491 - Practicum (1 to 6 credits)**

Three or more hours a week of applying environmental and sustainability studies principles in a public or community setting. Possibilities include a case study, field involvement, or conference attendance, and will result in a statement evaluating the theory and practice of environmental and sustainability studies. May be repeated for credit. Offered every semester. Prerequisite: Permission of the program director.

## **ENT 150 - Entrepreneurial Quest (3 credits)**

Students will explore the entrepreneurial quest beginning with the myths and realities of entrepreneurs, student self-analysis through creativity and idea generation, and the concept of the business plan. Key motivators and the drivers for success will be analyzed. Students will be required to conceptualize a new venture idea. Offered fall and winter semesters.

## **ENT 151 - New Venture Feasibility (3 credits)**

This course focuses on the process of developing an idea from a product concept into a product design that has a market and commercial feasibility. Students will have hands-on and applied opportunities to develop their concepts within different environments including, graphics, design, and prototyping. Offered fall and winter semesters. Prerequisite: ENT 150.

## **ENT 350 - Entrepreneurial Business Plan (3 credits)**

Student teams will work with an entrepreneurial client in developing a business plan for client implementation. Each student will individually refine their own comprehensive business plan and submit it for competitive evaluation at a business plan competition to be judged by local entrepreneurs, investors, and faculty. Requires significant time commitment outside the classroom. Offered fall and winter semesters. Prerequisite: Admitted to Seidman College of Business or by permit.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ENT 351 - Entrepreneurial Project (3 credits)**

In this course, students will extend principles to real-world entrepreneurial projects. The course involves individual project work such as the launching and/or growing of the student business, conducting in-depth research on current entrepreneurial issues, or assisting area entrepreneurs. This course requires significant time commitment outside the classroom. Offered fall and winter semesters. Prerequisites: ENT 350 and admitted to Seidman College of Business or by permit.

## **ESL 98 - English as a Second Language (ESL): Composition (4 credits)**

Provides non-native speakers of English with a practical review of English grammar and instruction in paragraph and essay organization and writing. As part of the course, students work one hour per week with a peer consultant in the Writing Center. Four (nongraduation) credits. Offered fall semester.

## **EXS 209 - Research Methods in Exercise and Health Sciences (3 credits)**

This course will cover strategies to conduct responsible ethical research in the exercise science field, with emphasis on study design and measurement techniques. A significant focus is the evaluation, interpretation, and application of research in professional settings. Offered fall and winter semesters. Prerequisite: STA 215.

## **EXS 320 - Exercise Testing and Prescription (3 credits)**

Provides students the fundamental background for health and fitness assessment commonly used in fitness and clinical settings. Topics include epidemiology, cardiovascular assessment, strength assessment, weight control, body composition assessment, and exercise prescription. Prerequisite: MOV 304. Corequisite: EXS 321.

## **EXS 321 - Exercise Testing Lab (1 credit)**

Introduction to health and fitness assessments currently used in fitness, rehabilitation, and clinical settings. Prerequisite: MOV 304. Corequisite: EXS 320.

## **EXS 390 - Fieldwork in Exercise Science (2 credits)**

Students will gain an understanding of the exercise science profession through at least one observational experience (90 hours total) at pre-approved sites, in-class discussions, and reflections on their observations. Students must complete health compliance requirements prior

to enrolling and maintain requirements during fieldwork. Offered fall and winter semesters. Prerequisites: EXS 320 and EXS 321 with at least a B-.

## **EXS 420 - Laboratory Practicum in Exercise Science (3 credits)**

This course will provide the student with exposure to and experience of laboratory and field-based skills needed to investigate physiological mechanisms and responses to exercise, and to assess athletic fitness and performance. Offered fall and winter semesters. Prerequisite: EXS 390.

## **EXS 460 - Strength and Conditioning for Athletic Performance (3 credits)**

This course is designed to provide students with theoretical, practical, and applied knowledge of the physiological and biomechanical aspects of designing and implementing strength and conditioning programs for well-conditioned athletic populations. Offered fall and winter semesters. Prerequisite: EXS 420.

## **EXS 465 - Cardiopulmonary Rehabilitation for the Clinical Exercise Physiologist (3 credits)**

Covers the knowledge and skills required for the clinical exercise physiologist working in a cardiopulmonary rehabilitation setting. ECG rhythm and 12-lead recognition. Exercise testing and prescription for a range of cardiovascular, circulatory, and pulmonary conditions. Skills in clinical exercise stress testing developed. Lecture/lab. Offered fall and winter semesters. Prerequisites: EXS 320 and EXS 321.

## **EXS 470 - Exercise for Special Populations (3 credits)**

Presents information related to exercise for special populations found in clinical and health/fitness settings. Physiological background, health assessment, exercise evaluation, and exercise prescription are studied. Special populations include those with cardiovascular and pulmonary diseases, metabolic and musculoskeletal disorders, as well as youth, elderly, and pregnant populations. Prerequisites: EXS 320 and EXS 321.

## **EXS 490 - Internship in Exercise Science (6, 9, or 12 credits)**

Students will complete a semester-long supervised experience at a pre-approved clinical, health and wellness, or fitness facility, during which they are required to complete an independent activity. Completion of this experience will further students' entry-level knowledge, skills,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

competencies, and abilities required within their profession. Prerequisite: EXS 420 with a minimum grade of B-.

## **EXS 495 - Professionalism in Exercise Science (3 credits)**

This Capstone course is designed to enhance the professional awareness, professional literacy, and skills of the exercise science major. Students apply previous knowledge using oral, written, and computer literacy skills. Networking and involvement in professional organizations is stressed. Offered fall and winter semesters. Prerequisite: EXS 390.

## **FIN 221 - Personal Finance (3 credits)**

Designed for the nonfinance major who wants to improve the management of personal finances. Aspects of finance that individuals are likely to face will be discussed. Specific topics include credit buying and borrowing, insurance, home ownership, stock and bond investment, mutual funds, income taxes, and estate planning. Offered fall and winter semesters.

## **FIN 300 - Fundamentals of Finance for Non-Business Majors (3 credits)**

Introduction to financial concepts, policies, and practices for non-business majors. Major topics include financial statement analysis, time value of money, characteristics of securities, sources and costs of financing, capital budgeting, and risk and return. B.B.A. degree-seeking students may not take this class for credit. Offered every semester. Prerequisites: ACC 212 (or both ACC 201 and ACC 202), and one of MTH 110, MTH 122, MTH 123, MTH 124, MTH 125, or MTH 201.

## **FIN 301 - Personal Finance: Managing Your Money During a Crisis (1 credit)**

This course provides an overview of how to evaluate and improve your own financial planning and decision-making during crises such as a recession, natural disaster, or pandemic. Offered every semester. Prerequisites: ACC 201, or ACC 212, or FIN 221.

## **FIN 320 - Managerial Finance (3 credits)**

This course presents the financial policies and practices that lead to the maximization of the value of the firm. Major topics include financial statement analysis, time value of money, asset valuation, sources and costs of financing, capital budgeting analysis, and risk and return. Offered every semester. Prerequisites: ACC 212, and either CIS 221 or CIS 231, and one of MTH 110, MTH 122, MTH 123, MTH 124, MTH 125, or MTH 201, and admitted to Seidman College of Business or by permit.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **FIN 321 - Investments (3 credits)**

This course presents fundamental principles of investment and introduces students to characteristics of various financial assets. Major topics include bond valuation, interest rates, term structure, stock valuation, equity market and efficiency, analysis of risk and return, derivative securities, asset allocation and diversification, and behavioral finance. Offered each semester. Prerequisites: FIN 320, STA 215, and admitted to Seidman College of Business or by permit. Not to be taken concurrently with FIN 320.

## **FIN 322 - Intermediate Managerial Finance (3 credits)**

A second course in financial management required for all finance majors. Deepens concepts of FIN 320 and covers additional topics. Coverage includes analysis of financial statements, financial forecasting, corporate valuations, cost of capital, capital budgeting, and capital structure. The main learning objective is the estimation and maximization of corporate value. Offered each semester. Prerequisites: FIN 320, ACC 213, STA 215, and admitted to Seidman College of Business or by permit.

## **FIN 330 - Ethics in Finance (3 credits)**

This course relates ethical principles to issues faced by financial professionals in fields such as investment analysis, investment sales, corporate finance, and financial institutions. A general background in moral philosophies will be provided. Offered fall and winter semesters. Prerequisites: FIN 320 and admitted to Seidman College of Business or by permit.

## **FIN 331 - Risk and Insurance (3 credits)**

Risk analysis and insurance. Planning personal and business insurance. Business insurance as it relates to business risks and decision-making. Emphasis on business exposures, coverages, and problems of the risk manager. Offered fall and winter semesters. Prerequisites: Junior standing and admitted to Seidman College of Business or by permit.

## **FIN 350 - Real Estate Principles (3 credits)**

An introduction to the basic principles of real estate administration. The legal and economic characteristics of real estate, real estate markets, appraising methods, government and political trends, and regional and local economic influences. Offered fall and winter semesters. Prerequisites: FIN 320, junior standing, and admitted to Seidman College of Business or by permit.

## **FIN 380 - Special Topics in Finance (3 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics. Offered on demand. Prerequisite: Admitted to Seidman College of Business or by permit.

## **FIN 420 - Bank Management (3 credits)**

Financial management of commercial banks and other financial intermediaries. Examination of banking structure and current regulatory environment. Specific techniques of evaluating risks, liability management, and determining asset composition. Concepts of capital adequacy and liquidity management. Offered fall and winter semesters. Prerequisites: FIN 320 and admitted to Seidman College of Business or by permit.

## **FIN 422 - Advanced Managerial Finance (3 credits)**

The course demonstrates to students how managers maximize shareholder wealth within the constraints of a situation. This course applies the financial principles to the types of issues faced by managers and to current topics through a variety of financial cases. In addition, students use software to analyze and communicate findings. Offered fall and winter semesters. Prerequisites: FIN 322 and admitted to Seidman College of Business or by permit.

## **FIN 427 - Derivative Assets and Markets (3 credits)**

This course covers the fundamentals of the four important financial derivatives (options, forwards, futures, and swaps), workings of the derivative markets, models for pricing derivative assets, uses of derivatives, Option Greeks, and value at risk. Offered every winter. Prerequisites: FIN 321 and admitted to Seidman College of Business or by permit.

## **FIN 428 - Portfolio Management I (3 credits)**

This course focuses on the practical aspects of portfolio management by applying traditional investment/financial management topics to the management of an active portfolio provided by Grand Valley State University foundation. Topics include investment policy statements and fiduciary standards, financial statement analysis, economic and industry analyses, and security valuation. Offered winter semester. Prerequisites: FIN 321 and admitted to Seidman College of Business or by permit.

## **FIN 429 - International Financial Management (3 credits)**

The traditional areas of corporate finance are explored in an international setting. Topics include international currency markets, macroeconomic relationships between exchange rates and interest rates and inflation, types of economic exposure, and foreign investment strategies for multinational firms. Offered winter semester. Prerequisite: Admitted to Seidman College of Business or by permit.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **FIN 438 - Portfolio Management II (3 credits)**

This course emphasizes understanding cyclical macroeconomic trends in asset allocation and stock selection. Global aspects of investing using vehicles such as American Depositary Receipts are included along with U.S. stocks in portfolio creation. This course emphasizes report writing, oral presentations, and working in and leading small teams. Offered winter semester. Prerequisite: FIN 428.

## **FIN 480 - Special Topics in Finance (1 to 9 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics. Offered on demand. Prerequisite: Admitted to Seidman College of Business or by permit.

## **FIN 490 - Finance Internship (1 to 6 credits)**

This course will be used to grant finance credit to students who complete internships in the finance field. Graded credit/no credit. Prerequisites: Junior standing, minimum 2.5 GPA, and admitted to Seidman College of Business or by permit.

## **FIN 499 - Independent Research (1 to 3 credits)**

Students propose an independent study culminating in a written and oral report. The proposal must include learning outcomes and a readings list. Proposals involving primary research should include a detailed description of objectives and methodology. Students must find an interested faculty member to help them prepare the proposal and to supervise the independent research. Offered each semester. Prerequisites: Admitted to Seidman College of Business and written permission of the instructor required.

## **FIN 520 - Statistics and Mathematics of Finance (3 credits)**

Examines probability distributions, confidence intervals, hypothesis testing, analysis of variance, and linear regressions, as well as time value of money valuation models, including present and future cash flows, bond valuation, dividend discount models, NPV, IRR, discount rates, WACC, and the Capital Asset Pricing Model. Offered every semester. Prerequisite: Admission to a graduate business program or permit.

## **FIN 621 - Financial Policy for Managers (3 credits)**

Examines problem-solving, decision-making, and actions leading to optimizing the value of business firms. Methods of incorporating risk analysis into decisions concerning management of working capital, capital budgeting, and capital structure. Analysis of theories and procedures

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

regarding financial goals, portfolio concepts, cost of capital, and dividend policy. Offered every semester. Prerequisite: Completion of M.B.A. background equivalents.

## **FIN 624 - Investment and Portfolio Management (3 credits)**

This course examines investment opportunities including equities, derivatives, and debt instruments. Topics include asset markets, asset pricing models, portfolio management, valuation models, market efficiency, and investment strategies. Prerequisite: Completion of M.B.A. background equivalents.

## **FIN 626 - Advanced Managerial Finance (3 credits)**

Application of principles of finance to solving selected business case problems and analyzing current financial events. Prerequisite: FIN 621.

## **FIN 627 - Derivative Assets and Markets (3 credits)**

The course examines options and futures markets and instruments. Options topics include options markets, properties of options, option trading strategies, and derivation and application of various valuation models, including the binomial model and the Black-Scholes model. Other topics include valuation in the forwards, futures, and swaps markets. Offered winter semester of even-numbered years. Prerequisite: Completion of M.B.A. background equivalents.

## **FIN 629 - International Finance (3 credits)**

Consideration of the problems of a world monetary order, including fixed versus floating exchange rates, the role of gold, key currencies, SDRs, balance of payments, etc. Subjects cover the current monetary system and its evolution, including international monetary agencies and the pivotal role of the U.S. dollar. Investigation of the sources of financing for trade and foreign direct investment such as national capital markets, government programs, foreign capital markets, Eurocurrencies, and Eurobonds. Prerequisite: Completion of M.B.A. background equivalents.

## **FIN 680 - Special Topics in Finance (1 to 3 credits)**

Course content varies. Refer to schedule of classes to determine description and prerequisites. Students may repeat this course under different topics.

## **FIN 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **FIN 699 - Independent Study (1 to 3 credits)**

Independent research in the student's area of interest, supervised by a member of the Seidman faculty, and culminating in a written and oral report. Written permission of supervising faculty required.

## **FIT 100 - Self Defense (R.A.D.) for Women (1 credit)**

This course provides a basic introduction to women's self-defense skills, knowledge, and techniques to develop and enhance the options of self-defense. The primary purpose is for protection and risk reduction. This course utilizes the Rape, Aggression, and Defense (R.A.D.) curriculum. Graded credit/no-credit.

## **FIT 101 - Pilates (1 credit)**

This course provides knowledge, skill, and application of methods for basic Pilates techniques and exercises using a floor mat and occasional props. Instruction and activities are designed to strengthen the body within the trunk/torso (abdominal, back, and lumbopelvic regions) and enhance flexibility, posture, and body awareness using the Pilates principles. Graded credit/no-credit.

## **FIT 102 - Personal Self-Defense (1 credit)**

This course provides a basic introduction to skills, knowledge, and techniques to develop and enhance the options for self-defense. The primary purpose is for protection and risk reduction. Course is graded credit/no credit. Offered fall and winter semesters.

## **FIT 103 - Tae Kwon Do (1 credit)**

This course provides students with a survey of the knowledge, skill, and application of methods of Tae Kwon Do. Students will practice the correct breathing, power, balance, rhythm and timing necessary to perform basic movements comprised of blocks, punches, strikes, stretches, kicks, and turns. Graded credit/no-credit.

## **FIT 104 - Recreational Gymnastics (1 credit)**

This course focuses on knowledge, skill, and application of methods in beginning gymnastics. Through a planned, sequential, and safe progression students will learn skills on mats, balance beam, vault, and rings. Graded credit/no-credit.

## **FIT 105 - Boxing (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course provides students with the knowledge, skills and application of boxing. Students will learn basic boxing techniques, drills, and the rules of amateur competition. There will be no sparring. Hand wraps and mouthpiece are required. Graded credit/no-credit. Offered fall semester.

## **FIT 106 - Cardio Kickboxing (1 credit)**

This course combines fast-paced cardio and martial arts techniques for fitness. This fitness activity uses techniques from select martial art forms along with boxing to place an emphasis on a cardio workout. Punches and kicks emphasize technique and fitness as they are thrown in the air or onto focus mitts. Graded credit/no-credit. Offered fall and winter semester.

## **FIT 107 - Tai Chi (1 credit)**

This course provides a survey of the knowledge, skill, and application of Tai Chi. Key concepts, terms, and instruction in selected forms and styles will be applied in a basic martial arts context. Graded credit/no-credit.

## **FIT 109 - Yoga (1 credit)**

This course focuses on knowledge, skill, and application in the basic Yoga postures and breathing techniques intended to strengthen the body, relax, and increase concentration of the mind. Posture and breathing will be applied to improve fitness and reduce stress. This course is presented with a secular approach. Graded credit/no-credit.

## **FIT 111 - Training for a 5K Road Race (1 credit)**

This course provides the knowledge of training methods for distance running and the opportunity to apply this toward preparation for a 5K road race. Students will learn to balance training and recovery, running physiology, nutrition, and tapering needed for successful participation in a 5K road race. Graded credit/no-credit. Offered fall semester.

## **FIT 112 - Core Strength (1 credit)**

This course focuses on knowledge, skill, and application to maintain and enhance muscular endurance, strength, and flexibility of core muscles. Core muscles include the abdominal, back, and lumbopelvic regions. Activities incorporate body weight, hand weights, exercise bands, and other associated fitness activities. Graded credit/no-credit. Offered fall and winter semesters.

## **FIT 118 - Archery (1 credit)**

This course focuses on knowledge, skill, and application of target archery. Students will learn the fundamental skills, equipment maintenance, shooting range safety, and etiquette of the sport. Course fees will cover range rental. This course is held off campus. Graded credit/no-credit.

## **FIT 119 - Outdoor Skills (1 credit)**

This course provides instruction in knowledge, skill, and application of outdoor pursuits. Students will learn about proper equipment, navigation, fire building, trip planning, hiking and snowshoeing as the weather permits. This course is conducted in a variety of weather conditions and visits parks surrounding the Grand Valley State University campus. Graded credit/no-credit.

## **FIT 120 - Bowling (1 credit)**

This course provides instruction in knowledge, skill, and methods of bowling. Students will learn the physical and mechanical skills of bowling, as well as strategies, scoring, rules, and etiquette of the sport. Course fees will cover equipment and lane rental. This course meets off campus. Graded credit/no-credit.

## **FIT 121 - Golf: Fundamental Shots (1 credit)**

This course is designed for beginners and those who score 52 or more through nine holes. Students will learn proper grip, stance, and swing used for basic shots along with chipping, pitching, and putting. Students must provide golf clubs. Course fees will cover golf balls and range rental. Graded credit/no-credit.

## **FIT 123 - Golf: Shaping Shots (1 credit)**

This course is designed for golfers who regularly score 51 or less through nine holes on a regulation golf course. The student will learn specialty shots, major rules, and strategies and techniques for course management. Students must provide golf clubs. Course fees will cover golf balls and range rental. Graded credit/no-credit.

## **FIT 124 - Basics of Weight Training (1 credit)**

This course focuses on beginner level knowledge, skill, and application in the use of various machine and free weights in a noncompetitive environment. Attention will be paid to proper techniques, alignment, posture, breathing, and safety. Students will be guided through workout programs and routines to strengthen muscles using weights. Offered fall and winter semesters.

## **FIT 125 - Performance Weight Training (1 credit)**

This course focuses on the application of weight training knowledge and skill using machines and free weights for performance goals. A variety of programs will be presented to develop

muscular strength for activity specific skills. Students will learn how to develop a personalized workout.

## **FIT 126 - Conditioning and Flexibility (1 credit)**

This course provides knowledge, skill, and application of methods to maintain and improve the body's overall aerobic fitness and flexibility. Various cardiovascular activities, circuit training and static and dynamic stretching will be used. Programs such as high-intensity training, TRX, and other current exercise trends may be incorporated. Graded credit/no-credit.

## **FIT 128 - Rock Climbing (1 credit)**

This course provides knowledge, skill, and methods of rock climbing. This course is designed to develop the skills to move efficiently and safely on an artificial rock wall (specifically bouldering and top roping). Instruction will be given on safe and proper use of ropes, anchors, belay, and aid devices. Graded credit/no-credit.

## **FIT 130 - Volleyball (1 credit)**

This course provides knowledge, skill, and application of volleyball. Students will learn the tactics and fundamental skills including but not limited to passing, blocking, attacking, serving, and defending. Graded credit/no-credit.

## **FIT 131 - Basketball (1 credit)**

This course provides knowledge, skill, and application of basketball. Students will learn tactics and the fundamental skills including but not limited to passing, dribbling, shooting, faking, cutting, footwork, and defending. Graded credit/no-credit.

## **FIT 133 - Softball (1 credit)**

This course provides knowledge, skill, and application of softball. Students will learn tactics and the fundamental skills including but not limited to throwing, catching, position play, batting, and base running. Students must provide their own softball gloves. Graded credit/no-credit.

## **FIT 134 - Soccer (1 credit)**

This course teaches knowledge, tactics and the fundamental skills of soccer. Strategies include but are not limited to passing, receiving, shooting, dribbling, and goalkeeping. Graded credit/no-credit.

## **FIT 139 - Team Sports (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course provides instruction on a survey of non-traditional team sports such as Satryan ball, broomball, futsal/indoor soccer, floor hockey, speedball, goal ball, tchoukball, and team handball. Instruction will be on skill, tactics, and rules of the selected sports. Offered winter semester.

### **FIT 140 - Racquetball (1 credit)**

This course focuses on knowledge, skill, and application of racquetball. Students will learn tactics and the fundamental skills including but not limited to forehand, backhand, serve, passing shots, and backwall play. Students must provide own racquet, balls, and safety goggles. Graded credit/no-credit.

### **FIT 142 - Tennis (1 credit)**

This course focuses on instruction on basic skills and tactics of tennis. Students will learn tactics and the fundamental skills including but not limited to forehand, backhand, serve, lobs, and volleys. Students must provide own tennis racquet. Graded credit/no-credit.

### **FIT 143 - Core and Spin (1 credit)**

This course provides instruction on select indoor cycling and core strength methods. Combining a core workout and spin workout complements a well-rounded physical fitness program. Students will learn skills and knowledge in both cycling and core activities during the semester. This is a high intensity work-out. Graded credit/no-credit. Offered every semester.

### **FIT 144 - Badminton (1 credit)**

This course provides instruction on basic skills and tactics of badminton. Students will learn tactics and the fundamental skills including but not limited to forehand, backhand, serves, overhead clear, and the smash. Other net games to be taught may include pickle ball, Speedminton®, Takrawtakraw, and Eclipse Ball™. Graded credit/no-credit.

### **FIT 145 - Total Body Strength (1 credit)**

This course focuses on strengthening various muscle groups using personal body weight and equipment such as hand weights, bands, bars, tubes, balls, and gliders. Instruction includes function and proper use of muscle groups, body awareness and mechanics, and techniques to improve muscle endurance and function. Graded credit/no-credit.

### **FIT 147 - Olympic Weightlifting (1 credit)**

This course provides instruction for experienced lifters in the use of free weights for the proper technique of Olympic style weightlifting. Student will learn the snatch, clean, and jerk and their

variations. Proper form, breathing, progression, complementary lifts, and safety will be taught. Graded credit/no-credit.

## **FIT 148 - Indoor Fitness Cycling (1 credit)**

This course encompasses the background of a variety of indoor fitness cycling programs and how to implement them to develop personal fitness. Students will learn bike set up and safety, hydration, and measuring intensity of workouts using a variety of methods. Graded credit/no-credit.

## **FIT 150 - Swimming: Strokes and Drills (1 credit)**

This course is designed for beginning swimmers. Instruction will be given to develop techniques and knowledge for basic stroke competency. Water safety will also be taught. Students will engage in drills that will help to strengthen stroke proficiency. Students will need to provide their own swimsuit and goggles. Graded credit/no-credit.

## **FIT 151 - Fitness Swimming (1 credit)**

This course is designed for the intermediate and advanced swimmer with an emphasis on fitness swimming. Students will develop techniques for complex stroke competency in the competitive swim strokes and use these skills toward fitness applications. Students will need to provide their own swimsuit and goggles. Graded credit/no-credit.

## **FIT 152 - Rowing (1 credit)**

This course focuses on instruction on basic knowledge and skills of rowing. Students will learn skills, safety, strategies, rules, and equipment maintenance. The first day of class is held at the GVSU Rowing Training Center. The remaining classes are all held at the GVSU Boathouse on the Grand River. Graded credit/no-credit.

## **FIT 153 - Sailing-Large Boat (1 credit)**

This course focuses on skills, safety, tactics, equipment maintenance, and rules for sailing a large boat. The first two classes are held on campus. Remaining class time is held on the water. On-the-water instruction will be scheduled during the lecture days. There is a course fee. Graded credit/no-credit.

## **FIT 156 - Zumba (1 credit)**

This course focuses on knowledge, skills and application of Zumba. Zumba fuses body strengthening movements with Latin music. Routines feature aerobic interval training and

combines fast and slow rhythms. Course also incorporates resistance training to improve muscle fitness. Graded credit/no-credit. Offered fall and winter semesters.

### **FIT 157 - Belly Dance (1 credit)**

This course provides students instruction in belly dance history and skills as an artistic, traditional folk dance that strengthens the core and provides endurance and flexibility. Students will be able to apply belly dance as part of their fitness routines. Offered fall semester.

### **FIT 158 - Scuba - Open Water (1 credit)**

This course utilizes PADI Open Water Diver Course. Class meets on campus for four weeks and will be scheduled at inland lakes to qualify for open water certification. You must be able to swim 200 yards and provide your own mask, snorkel, and fins. Course fees cover equipment and certification. Graded credit/no-credit. Offered fall and winter semesters.

### **FIT 160 - Jazz Dance (1 credit)**

This course focuses on the theory, practice, and performance of jazz dance. Instruction consists of a series of stretching, alignment, and flexibility warm-ups in rhythmical application. Body isolations, basic jazz movements and turns, and a variety of these movements in combination are taught. Instructors will make recommendations for appropriate footwear. Graded credit/no-credit.

### **FIT 164 - Modern Dance (1 credit)**

This course focuses on theory, practice, and performance of modern dance. Instruction will take the students through a series of stretching, alignment, and flexibility warm-ups in rhythmical application. Technique and improvisation will be applied to choreography of modern dance. Instructors will make recommendations for appropriate footwear. Graded credit/no-credit.

### **FIT 166 - Ballet Dance (1 credit)**

This course provides theory, practice, and performance of classical ballet dance. Emphasis is placed upon vocabulary, proper posture, and correct body alignment. Warm-ups, barre footwork/sequencing, and center floor adagio and allegro dance will be taught. Instructors will make recommendations for appropriate footwear. Graded credit/no-credit.

### **FIT 168 - Dance for Fitness (1 credit)**

This course teaches dance techniques through a variety of genres to develop and improve fitness. Activities are designed to improve cardiorespiratory endurance, muscle endurance, rhythm, coordination, agility, and proper joint health while enjoying the application of dance skills.

Instructors will make recommendations for appropriate footwear. Course is graded credit/no-credit.

## **FIT 178 - Ballroom Dance (1 credit)**

This course provides theory, practice, and performance of ballroom dance. Students will learn basic steps, proper frame, follower/lead roles in the partnership, nuances of waiting, arm styling, and dance etiquette. Dances may include swing, rumba, cha cha, waltz, foxtrot, or tango. Instructors will make recommendations for appropriate footwear. Graded credit/no-credit.

## **FIT 180 - Selected Topics in Fitness, Skill, and Activity (1 to 9 credits)**

Lecture, discussion, laboratory, or field study on a topic related to physics education. Graded credit/no-credit. Offered on demand.

## **FIT 280 - Special Topics in Fitness (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **FRE 101 - Beginning French I: Language and Culture (4 credits)**

An introduction to the French language and to the cultures of the French-speaking world. Practice in speaking, listening, reading, and writing at the novice level. Supplemented by multimedia and the Language Resource Center. No more than two years of high school French, or permission of instructor. Students are strongly encouraged to take the free placement exam in the Language Resource Center prior to registering. Offered every semester.

## **FRE 102 - Beginning French II: Language and Culture (4 credits)**

Continuation of FRE 101. Practice in speaking, listening, reading, and writing at novice and intermediate levels. French and Francophone culture integrated throughout. Supplemented by multimedia and the Language Resource Center. Students who did not complete FRE 101 at GVSU are strongly encouraged to take the free placement test in the Language Resource Center prior to registering. Students may not receive credit for both FRE 150 and FRE 102. Offered every semester. Prerequisite: C (not C-) or better in FRE 101, or credit, or appropriate placement test score.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **FRE 150 - Accelerated Beginning French I and II: Language and Culture (4 credits)**

One semester accelerated review of beginning French for students with prior study. Covers the same material as FRE 101 and FRE 102. Not open to students with credit in FRE 101, FRE 102 or their equivalent. Offered fall and winter semesters. Prerequisites: Minimum of two years of high school French and appropriate placement test score (free in Language Resource Center).

## **FRE 180 - Special Topics in French (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 100-level courses. May be repeated for credit when content differs. Offered on sufficient demand.

## **FRE 201 - Intermediate French I: Language and Culture (4 credits)**

Continuation of FRE 102 or FRE 150. Practice in speaking, listening, reading, and writing at the intermediate level. French and Francophone cultures integrated throughout. Supplemented by multimedia and the Language Resource Center. Offered every semester. Prerequisite: C (not C-) or better in FRE 102 or FRE 150, or credit, or appropriate placement test score (free in the Language Resource Center).

## **FRE 202 - Intermediate French II: Language and Culture (4 credits)**

Continued practice in speaking, listening, reading, writing at the intermediate level. Review of grammar and expansion of vocabulary. Focus on French and Francophone culture through authentic texts and multimedia materials. Counts toward the French minor (noneducation). Fulfills Cultures - Global Perspectives. Offered fall and winter semesters. Prerequisite: C (not C-) or better in FRE 201, or credit, or appropriate placement test score (free in the Language Resource Center).

## **FRE 280 - Special Topics in French (1 to 6 credits)**

Course content varies. Expectations of students approximate those in other 200-level courses. May be repeated for credit when content differs. No more than four credits can be applied to the minor or major. Offered on sufficient demand. Prerequisite: FRE 201.

## **FRE 315 - French Conversation (3 credits)**

Extensive practice in oral communication through exposure to French and Francophone cultures. Introduction to the proficiency guidelines of ACTFL (American Council on the Teaching of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Foreign Languages). Course may be taken concurrently with FRE 316 - Advanced Grammar. Offered every semester. Prerequisite: C (not C-) or better in FRE 202 or permission of instructor.

## **FRE 316 - Advanced French Grammar (3 credits)**

Detailed study of French grammar with a focus on areas of difficulty for speakers of English. Extensive written and in-class oral practice. Course may be taken concurrently with FRE 315 - French Conversation. Prerequisite: C (not C-) or better in FRE 202, or permission of instructor.

## **FRE 317 - Writing in French (3 credits)**

Extensive practice in writing. Study of various stylistic techniques using texts from multiple sources. Review of the finer points of grammar and usage. Offered for SWS credit. Offered fall and winter semesters. Prerequisite: C (not C-) or better in FRE 202; recommended after FRE 315 and FRE 316.

## **FRE 318 - Introduction to French Literature (3 credits)**

An introduction to French and Francophone literature. Emphasis on development of reading strategies and learning to analyze literary texts and poetry. A French core curriculum course required for advanced study. Offered fall and winter semesters. Prerequisite: C (not C-) or better in FRE 202; recommended after FRE 315, FRE 316, and FRE 317.

## **FRE 321 - Survey of French Literature I (3 credits)**

A survey of French literature of the Middle Ages and the Renaissance. Offered winter semester in even-numbered years. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) or permission of instructor.

## **FRE 322 - Survey of French Literature II (3 credits)**

A survey of French literature of the 17th and 18th centuries. Offered winter semester of odd-numbered years. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) or permission of instructor.

## **FRE 323 - Survey of French Literature III (3 credits)**

A survey of French literature of the 19th, 20th, and 21st centuries. Offered fall semester in even-numbered years. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) or permission of instructor.

## **FRE 331 - French Phonetics (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Study of the basic principles of French phonetics with emphasis on improving pronunciation and aural comprehension. Introduction to the International Phonetic Alphabet and phonetic transcription. Intensive exposure to spoken French through a variety of media, including the Language Resource Center, and practice with each major phoneme. Offered fall semester. Prerequisites: FRE 202 and one other course at the 300-level with C (not C-) or permission of instructor.

## **FRE 332 - Introduction to French Linguistics (3 credits)**

Analysis of the evolution of the French language, phonology, sociolinguistics and dialectology, applied linguistics, bilingualism, and language contact. Prerequisites: C (not C-) or better in all: FRE 315, FRE 316, and FRE 317, or permission of instructor.

## **FRE 333 - Theory and Practice of Translation (3 credits)**

Theory and practice of translation with an emphasis on French to English. Course highlights theoretical concepts, specific translation problems, and development of techniques for dealing with certain structures. Topics may also include profession related issues such as reader's reports, queries, publishing, and strategies to establish and manage a translation business. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318), or permission of instructor.

## **FRE 334 - Foreign Language Acquisition and Pedagogy (3 credits)**

Provides prospective French and German high school teachers with an introduction to foreign language acquisition theory and practical applications of language teaching pedagogy. Students will also observe language teachers in local high schools. Cross-listed with GER 314. Offered winter semester. Prerequisite: Instructor permission.

## **FRE 341 - French History and Civilization (3 credits)**

A study of the main themes of French civilization and culture with their implications for contemporary France and their literary manifestations. Taught in French. Offered fall semester of even-numbered years. Prerequisite: C (not C-) or better in FRE 315 or permission of instructor.

## **FRE 342 - Contemporary French Culture and Society (3 credits)**

Analysis of French contemporary civilization and culture using a variety of multimedia sources. Discussion of current events. Offered winter semester of odd-numbered years. Prerequisite: C (not C-) or better in FRE 315 or permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **FRE 343 - Francophone Civilization (3 credits)**

The study of Francophone culture, including topics such as language and communication, marriage, the family and gender roles, immigration and colonization, sociopolitical institutions, and the arts. Materials are drawn from novels, short stories, plays, music, cinema, and multimedia. Offered fall semester of odd-numbered years. Prerequisites: C (not C-) or better in all French core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) or permission of instructor.

## **FRE 351 - Business French (3 credits)**

Study of the French economy and business practices. Focus on French business vocabulary, cultural differences, and new technologies. Preparation for the Chambre de Commerce et d'Industrie de Paris examination (French business proficiency: optional upon completion of course). Recommended for international business majors with a minor in French. Taught in French. Offered fall semester in odd-numbered years. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318), or permission of instructor.

## **FRE 380 - Special Topics in French (1 to 6 credits)**

Course content varies. Expectations of students approximate those in other 300-level courses. May be repeated for credit. Course offered on sufficient demand. Prerequisites: C (not C-) or better in core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) or permission of instructor.

## **FRE 385 - French Language (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **FRE 386 - French Culture Abroad (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. Takes place in France (or another French-speaking country) as part of an approved study abroad program. Course is conducted in French. By permit only.

## **FRE 387 - EUSA Paris-Language (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **FRE 388 - EUSA Paris-Internship (3 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **FRE 395 - Advanced Speaking Strategies and Skills (3 credits)**

Focus is on the development and assessment of speaking skills in French at the advanced level as defined by the American Council on the Teaching of Foreign Languages (ACTFL), with extensive practice in both interpersonal and presentational speaking. Offered winter semester of odd-numbered years. Prerequisites: C (not C-) or better in all French core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) or permission of the instructor.

### **FRE 399 - Independent Study (1 to 4 credits)**

Content is decided jointly by instructor and student. Student must arrange for supervision by a faculty member before registration.

### **FRE 421 - Medieval French Literature (3 credits)**

Study of representative French medieval works. Readings include poetry, courtly literature, fables, farces, and theater. Offered fall semester of even-numbered years. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) and completion of one 300-level literature elective, or permission of instructor.

### **FRE 422 - Renaissance French Literature (3 credits)**

Study of representative literary authors and texts of the French Renaissance period. This course also explores historical and cultural topics and their impact on the development of 16th century French literature. Offered fall semester. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) and completion of one 300-level literature elective, or permission of instructor.

### **FRE 423 - 17th Century French Literature (3 credits)**

Study of representative literary authors and texts from the 17th century. This course also explores historical and cultural topics and their impact on the development of 17th century

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

French literature. Offered winter semester. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) and completion of one 300-level literature elective, or permission of instructor.

### **FRE 424 - 18th Century French Literature (3 credits)**

Survey of French literature of the 18th century. Focus on writers whose ideas and militant prose provoked the intellectual and social ferment leading to the French Revolution. Criticism of the monarchy, the social order, education, and civilization. May not be repeated for credit. Offered fall semester of odd-numbered years. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) and completion of one 300-level literature elective, or permission of instructor.

### **FRE 425 - French Literature of the 19th Century (3 credits)**

Study of the literature of the 19th century with special emphasis on the novel. Offered winter semester in even-numbered years. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) and completion of one 300-level literature elective, or permission of instructor.

### **FRE 426 - Modern French Literature (3 credits)**

Study of 20th and 21st century French literature with representative works in poetry, theater, and novel. Offered winter semester in odd-numbered years. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) and completion of one 300-level literature elective, or permission of instructor.

### **FRE 427 - Francophone Literatures and Cultures (3 credits)**

Readings of novels, plays, and poetry from the Francophone world. Regions chosen vary according to instructor's field of specialization. Close readings emphasizing the distinctive cultures of the Francophone world and discussion of the important issues raised by these texts, in particular: racism, the colonial past, present corruption, and memory. Offered fall semester in even-numbered years. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318) and completion of one 300-level literature elective, or permission of instructor.

### **FRE 480 - Special Topics in French (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 400-level courses. May be repeated for credit when content differs. Offered on sufficient demand. Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318), and completion of one 300-level literature elective, or permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **FRE 495 - Advanced Topics in French (Capstone) (3 credits)**

Capstone course for the French major. Content varies according to the instructor: An in-depth exploration of French literature, linguistics, and civilization. Offered winter semester.

Prerequisites: C (not C-) or better in all core curriculum courses (FRE 315, FRE 316, FRE 317, and FRE 318), and senior standing or permission of instructor.

## **FRE 499 - Independent Research (1 to 4 credits)**

Content of the Independent Research is decided jointly by instructor and student upon special circumstances. FRE 499 involves in-depth research and/or extensive analysis on a specific linguistic, cultural, or literary topic. Offered every semester.

## **FVP 123 - Survey of Media Production Modes (3 credits)**

This introductory course in the critical study of the various modes of film/video/animation/new media production. examines distinctive formal elements of each mode as well as the economic and cultural context of production and reception. A prerequisite course for film and video production. Offered fall and winter semesters. Prerequisite: Restricted to film and video, communication studies, health communication, multimedia journalism, photography, advertising/public relations, and theatre majors.

## **FVP 125 - Media Production I (3 credits)**

The fundamentals of video production, including the techniques and the aesthetics of shooting, lighting, and editing are covered, with an emphasis on hands-on production experience using digital video. A preadmission course for film and video production. Offered fall and winter semesters. Prerequisite: Restricted to film and video, communication studies, health communication, multimedia journalism, photography, advertising/public relations, and theatre majors.

## **FVP 225 - Film Culture (3 credits)**

This is an introductory course on film as a significant cultural form. It examines the formal elements through which films tell stories, and the kind of stories they tell in response to audience needs and desires. Focuses on how audience interaction shapes narrative filmmaking. Fulfills Foundations - Arts. Offered every semester.

## **FVP 226 - Media Production II (3 credits)**

This is the second course in the video production sequence, emphasizing the techniques and aesthetics of shooting and editing. Additional emphasis placed on concept development and production management. Offered fall and winter semesters. Prerequisite: Admission to major.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **FVP 227 - Post-Production Techniques (3 credits)**

Intermediate-level post-production techniques are explored and applied including editing, motion graphics, visual effects, and color correction. Tutorials and workshops are designed to advance technical skills in support of course-related projects and upper-level production courses within the film and video production program. Offered fall and winter semesters. Prerequisite: Admission to the major.

## **FVP 261 - Scriptwriting I (3 credits)**

Writing for film, video, radio, and mixed media. Writing exercises include dramatic, informational, documentary, public service announcements, and commercial formats. Offered fall and winter semesters. Prerequisite: Restricted to film/video majors.

## **FVP 282 - Audio Production I (3 credits)**

Introduction to the general principles of sound, to the hardware and software of radio, and to other major media uses of sound. This is a production course. Offered every semester. Prerequisite: Restricted to film/video, communication studies, and multimedia journalism majors.

## **FVP 321 - Fiction Filmmaking I (3 credits)**

This is an intermediate-level production course using class members as the production unit focusing on fiction filmmaking, including story development, production/post techniques, directing, and interpretation of drama from script to screen. Offered fall and winter semesters. Prerequisites: FVP 226 and FVP 227.

## **FVP 322 - Documentary Production I (3 credits)**

Working in production teams, students produce a documentary video about a substantial topic of their choice. Includes viewings and readings. Offered every year. Prerequisite: FVP 226.

## **FVP 323 - Media Technologies (3 credits)**

Basic electronics theory, audio and video recording, synthesizing on audio or video signal, and signal processing are discussed. Offered fall semester. Prerequisite: FVP 226 or FVP 282.

## **FVP 324 - 3-D Computer Animation (3 credits)**

Introduction to 3-D modeling and animation using computers. Students will demonstrate proficiency at basic modeling skills, surfacing, lighting, and animation. There will be consideration of how color, shape, lighting, and texture influence meaning. Work in critical

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

analysis provides a context for the animation process. Offered winter semester. Prerequisite: Admission to FVP major or permission from instructor.

### **FVP 325 - Animation I (3 credits)**

An introductory course in animation filmmaking. Students will work in small groups on animation and movement exercises and will individually produce a short final film. Readings will be assigned; films will be viewed and discussed. Offered fall semester. Prerequisite: Admission to major.

### **FVP 326 - New Media I (3 credits)**

An introduction to theory and practice of new media production as a means for storytelling and creative expression. Explores the practice of user-testing and participation, image manipulation, and multimedia production with a focus on emerging and traditional forms of media production. Offered fall semester. Prerequisite: FVP 226 or permission from instructor.

### **FVP 327 - Film and Video Art (3 credits)**

A practical examination of the elemental codes and structures of film and video. Exercises in lighting, sequencing, sound, color, and composition are included. Viewings and readings. Offered winter semester. Prerequisites: Admission to major and FVP 226.

### **FVP 328 - Intermediate Film Practicum (3 or 6 credits)**

Explores the craft of narrative drama in motion pictures. Students with some background in film, video, and/or audio gain an understanding of the professional model of media production by assisting in the planning and shooting of a dramatic film. Offered spring/summer semester. Prerequisite: Permission of instructor.

### **FVP 330 - Digital Post Production (3 credits)**

Explores conceptual issues in editing images and sound in a digital production environment. Offered fall and winter semesters. Prerequisites: Admission to major and FVP 226.

### **FVP 348 - Film Theories (3 credits)**

This course will introduce various perspectives on the study of film in order to explore and explain how films generate meaning and pleasure. Students will gain a historical understanding of film, and learn to write in the language of scholarly film criticism. Offered fall and winter semesters. Prerequisite: FVP 123.

### **FVP 362 - Scriptwriting II (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A seminar in which students work on individual scripting projects of substantial length, using class and instructor for critical analysis. Offered fall semester. Prerequisites: Admission to the major and FVP 261.

## **FVP 368 - Lighting for Film and Video Productions (3 credits)**

The process of studio and location lighting for film and video, principles, instruments, measurement tools, filters/diffusers, and single/multiple setups. Offered fall and winter semesters. Prerequisites: Admission to major and FVP 226.

## **FVP 370 - American Cinema (3 credits)**

A historical survey of American cinema that examines the cultural and aesthetic significance of film, as well as the changing economic and technological contexts of the U.S. film industry. Offered fall semester. Prerequisite: FVP 123.

## **FVP 371 - History of Animation (3 credits)**

A global historical survey of animated film and video production that examines styles of animation, how animation techniques evolved as technology changed, and the economic determinants of the production and reception of animated films. Offered fall semester of even-numbered years. Prerequisite: FVP 123.

## **FVP 372 - History of Documentary Film (3 credits)**

A historical survey of nonfiction film and video that examines the theoretical context for documentary production, the varied functions and styles of documentary work, how documentary technique evolved as technology changed, and the economic determinants of documentary production. Offered fall semester of odd-numbered years. Prerequisite: FVP 123.

## **FVP 373 - Issues of Representation (3 credits)**

This course investigates the representation of gender, race and ethnicity, sexual orientation and identity, and class in contemporary cinema. It focuses on the role cinematic representation plays in the construction of identity and stereotypes, and ways in which film can also challenge conventional representations. Offered winter semester of odd-numbered years. Prerequisite: FVP 123.

## **FVP 374 - Experimental Film and Video (3 credits)**

This course examines the international history of experimental film and video and contemporary practice within the mode. The course emphasizes the theoretical and critical analysis of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

significant work in its historical context. Offered winter semester of even-numbered years.  
Prerequisite: FVP 123.

### **FVP 375 - World Cinema (3 credits)**

Explores the economic, historical, and cultural context for film production and exhibition in several countries to understand the relationship between cinema and national culture. Examines the influence and significance of films that have constituted alternatives to the Hollywood entertainment model. Close textual readings of foreign films. Offered winter semester.  
Prerequisite: FVP 123.

### **FVP 376 - Latin American Cinema (3 credits)**

A survey of cinema in Latin America. The course will analyze representative films as works of art and examine them as cultural, historical, political, and economic products that characterize and reveal diverse perspectives from significant film-producing countries in Latin America. Cross-listed with LAS 376. Offered fall semester.

### **FVP 380 - Special Topics in Film and Video (3 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of the student in this course approximate those in other 300-level courses. May be repeated for credit when content varies. Prerequisite: Admission to major.

### **FVP 382 - Audio Production II (3 credits)**

A two-part course: First, core topics that are the foundation of all audio production are covered. Second, topics of special interest, such as radio, TV, film, music recording, and digital audio are covered. Throughout the course, professionalism will be stressed both in the final products and in the individual performance. Offered winter and spring/summer semesters. Prerequisites: FVP 282 and restricted to film/video, communication studies, and multimedia journalism majors.

### **FVP 399 - Independent Study (1 to 6 credits)**

An experience of an essentially scholarly and/or creative nature undertaken by a student under the supervision of one or more faculty members. Initiated by the student who has a special interest in a subject that is not available in the current curriculum. The student and the faculty sponsor agree on the scope of the study, its components, and methods of evaluation. Prerequisite: Admission to major.

### **FVP 421 - Fiction Filmmaking II (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

In this advanced workshop, students will work in large production crews to produce short, dramatic fiction motion pictures from their original scripts. Offered fall and winter semesters. Prerequisites: Admission to major and FVP 321.

## **FVP 422 - Documentary Production II (3 credits)**

Working in production teams, students produce a documentary video about a socially significant topic of their choosing. Readings and assignments will develop an understanding of the methods for producing independent documentary and the accompanying issues commonly encountered. Offered winter semester. Prerequisites: Admission to the major and FVP 322.

## **FVP 425 - Animation II (3 credits)**

Continued work in animation production for character and graphic animation. Introduction to 3-D computer animation and current technologies for special effects in motion pictures. Students will design, storyboard, and complete an animation project. Offered winter semester. Admission to FVP major and FVP 325, or permission from instructor.

## **FVP 426 - New Media II (3 credits)**

A continuation of theory and practice of new media production as a means for storytelling and creative expression. This course further expands the focus on conceptual and technical skills in emerging and traditional forms of media production. Offered winter semester. Prerequisite: FVP 326 or permission of the instructor.

## **FVP 428 - Advanced Film Practicum (3 or 6 credits)**

Explores the craft of narrative drama in motion pictures. At an advanced level, film students gain theoretical and practical experience in the production of a dramatic film. Students fill skilled positions on the film's crew. Offered spring/summer semester. Prerequisites: Admission to major and FVP 421.

## **FVP 429 - Post Production Practicum (3 credits)**

The process of audio, film, and video postproduction, emphasizing the draft/revision process. Editing will proceed in a nonlinear digital environment. Offered fall semester. Prerequisites: FVP 261 and either FVP 330 or FVP 282.

## **FVP 470 - Producing for Clients (3 credits)**

Students produce media solutions to meet the goals of nonprofit clients. Projects are field-tested to ensure professional-level media production standards. Offered fall semester. Prerequisites: Admission to major and one intermediate video production course, FVP 320 or higher.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **FVP 482 - Sound Design for Film and Video (3 credits)**

In-depth study of recording and manipulating sound to enhance visual communications. Students sharpen their skills in adapting standard recording tools to the requirements of video/film. The class encourages critical thinking about how sounds convey meaning and transforms the meaning of the image. Offered winter semester. Prerequisites: Admission to major and FVP 282.

## **FVP 490 - Internship (1 to 6 credits)**

A supervised work experience in an area of a student's potential career interest. Initiated by the student, who plans the work experience with the advisor, the faculty sponsor chosen to supervise the internship, and the supervisor at the worksite. Credit is awarded only when the student, the faculty sponsor, and the work supervisor have completed evaluations of the internship. Offered every semester. Prerequisite: Admission to the major.

## **FVP 495 - Issues in Film and Media Arts (3 credits)**

A culminating course in which students demonstrate their conceptual understanding and creative abilities as they relate to film and media arts. Each student completes a thesis presentation for peer critique in a public forum and prepares a portfolio of creative or scholarly work. Offered fall and winter semesters. Prerequisites: Admission to the film and video major and senior standing.

## **FVP 498 - Senior Thesis/Project (1 to 6 credits)**

The senior thesis/project demonstrates both depth and sophistication in the major. Offered fall and winter semesters. Prerequisite: Admission to the major.

## **FVP 499 - Independent Study (1 to 5 credits)**

An independent research project of an interdisciplinary nature based on knowledge acquired in other courses, the internship experience, or courses taken in the program. The research will be in the area of the student's interest. Prerequisite: Permission of instructor.

## **GEO 100 - Environmental Geology (3 credits)**

The relationship between people and their physical geological environment. Topics include geologic hazards, hydrology and human health, mineral and energy resources, and land use planning. Primarily for non-science majors; not for geology or earth science majors. Lectures and field trips. Fulfills Foundations - Physical Sciences. (3-0-0) Offered every semester.

## **GEO 103 - Oceans (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Scientific investigation of the oceans and interactions among ocean, atmosphere, and lithosphere. Introduction to the chemistry of seawater, physics of water movement, coastal processes, geological oceanography, changes in the oceanic system through geologic time, and the role of oceans in earth's geologic evolution. Lectures and field trips. Fulfills Foundations - Physical Sciences. (3-0-0) Offered fall and spring/summer semesters.

## **GEO 105 - Living with the Great Lakes (3 credits)**

Introduction to earth science using the Great Lakes as a theme and Lake Michigan as a natural laboratory. Review of the lakes' geologic setting, origin, and history; climatology and lake levels; physical processes including erosion; water chemistry as a function of geology; human interactions with the lakes. Lectures and field trips. Fulfills Foundations - Physical Sciences. (3-0-0) Offered fall and spring/summer semesters.

## **GEO 111 - Exploring the Earth (4 credits)**

Introduction to the study of earth materials and processes, including minerals, rocks, mineral deposits, weathering, erosion, volcanism, and mountain building. Lectures, laboratories, and field trips. Fulfills Foundations - Physical Sciences with a lab. (3-0-2) Offered every semester.

## **GEO 112 - Earth History (4 credits)**

Introduction to major principles of geologic time, inferring the evolution of the solid and liquid Earth through the rock record using conceptual frameworks of sedimentation, stratigraphy, paleontology, and tectonics and developing spatial comprehension through 2-D and 3-D visualization of rock geometries. Lectures, laboratory, and required field trip. Prerequisite: GEO 111 (preferred) or GEO 100 or GEO 103 or GEO 105.

## **GEO 175 - Research Tools for Geosciences (1 credit)**

An introduction to the research tools and skills essential to a successful geoscientist. Emphasis on hands-on activities to develop information, numerical, and spatial literacy. Intended for first- or second-year students in geosciences-related disciplines. Projects and computer laboratories. Offered fall and winter semesters. Prerequisites: GEO 111 and GEO 112 (can be taken concurrently).

## **GEO 180 - Special Topics in the Geological Sciences (1 to 4 credits)**

Topics covered will reflect special interests of students and the instructor. Offered on sufficient demand. Prerequisites: Variable depending on topic.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **GEO 201 - The Geosphere for K-8 Pre-Service Teachers (4 credits)**

A study of those aspects of earth science that are related to the earth's lithosphere. Topics covered include geologic materials, geologic time, volcanoes, earthquakes, and plate tectonics. Hands-on investigation of the natural world is emphasized. Course is intended for integrated science majors. Does not count toward a geology major. (3-0-3) Offered fall and winter semesters.

## **GEO 202 - Hydrosphere for Teachers (4 credits)**

Introduction to how the hydrosphere works emphasizing a descriptive approach. Includes river, groundwater, glacial, ocean, and shoreline systems and human interaction with those systems. Course is intended for integrated science majors. Does not fulfill requirements for other majors or minors. Content reflects national and Michigan science standards. Lectures and laboratory (3-0-3). Offered fall and winter semesters.

## **GEO 203 - Weather and Climate for Pre-Service Teachers (3 credits)**

Introduction to weather and climate. Includes daily, seasonal, and long-term changes, weather patterns, mechanisms and evidence for climate change, and impact of human activities. Course is for integrated science and secondary science education majors and does not fulfill requirements for other majors or minors. Content reflects national and state standards. Lecture and laboratory (1-0-2). Offered fall and winter semesters.

## **GEO 214 - Solid Earth Materials and Systems (4 credits)**

Exploration of common rock-forming/economic minerals, igneous/metamorphic rocks comprising the solid earth in the context of evolving earth chemical and plate tectonic systems. Course develops skills and tools for observation, classification, interpretation of minerals and rocks. Lectures, laboratory, and required field trip. Offered fall and winter semesters. Prerequisites: GEO 111, CHM 115, GEO 112, and GEO 175 (GEO 112 and GEO 175 may be taken concurrently).

## **GEO 220 - Earth Surface Materials and Systems (4 credits)**

A comprehensive analysis of biogeochemical, pedological, hydrologic and geological systems that produce, maintain, and change the Earth's surface. Lecture, lab, and fieldwork. Offered fall and winter semesters. Prerequisites: GEO 111, CHM 115, GEO 112, and GEO 175 (GEO 112 and GEO 175 may be taken concurrently).

## **GEO 280 - Special Topics in the Geological Sciences (1 to 4 credits)**

Topics covered will reflect special interests of students and the instructor. Offered on sufficient demand. Prerequisites: Variable depending on topic.

## **GEO 311 - Structural Geology (4 credits)**

Fundamentals of deformation theory; description and origin of rock micro-, meso-, and macro-structures; and selected techniques of structural analysis. Lectures, laboratory, and three-day required field exercise. Offered fall semester. Prerequisites: GEO 214 and MTH 123.

## **GEO 312 - Sedimentation-Stratigraphy (4 credits)**

Principles and processes of sedimentation. Petrologic interpretation and basic laboratory techniques in the analysis of sediments. Study of layered rocks in terms of description of the local section, correlation of sections using petrology and paleontology, and reconstruction of paleoenvironments. Lectures, laboratory, and field trips (3-1-2). Offered winter semester. Prerequisite: GEO 112.

## **GEO 314 - Petrography: Mineral and Rock Analysis (2 credits)**

This course develops skills in mineral and rock description, identification and interpretation using polarizing light microscopy and X-ray diffraction as tools for mineral identification, textural descriptions and interpretation of igneous and metamorphic rocks, drawing on concepts of crystallography, crystal chemistry, and optical mineralogy. Laboratory and lecture/discussion. Offered winter semester. Prerequisite: GEO 214 or permission of instructor.

## **GEO 315 - Geological Field Methods (3 credits)**

This course provides students repeated practice in field mapping methods. Students will use common tools for field location, effectively making and recording field observations and creating and compiling accurate products (maps, cross sections, stratigraphic sections) and reports. Offered fall semester of even-numbered years. Prerequisites: GEO 112; GEO 214 or GEO 220; or permission of instructor.

## **GEO 320 - Geomorphology (4 credits)**

The patterns and genesis of landforms with emphasis on fluvial processes, climatic factors, and environmental implications. Independent study project or research paper required. Lectures,

laboratory, and field trips. (3-1-2) Offered winter semester of even-numbered years. Prerequisite: GEO 112.

## **GEO 360 - Earth Resources in Transition: Conventional to Sustainable (3 credits)**

Exploration of transition from conventional to sustainable earth resource issues, technologies, and science. Focuses on one, or a combination, of earth resources: water, energy, or earth materials (minerals and metals). Topics may include water resources, treatment and usage; oil and gas origins, exploration, recovery, and refining; and mining and metals recovery. Part of the Sustainability Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **GEO 380 - Special Topics in the Geological Sciences (1 to 4 credits)**

Topics covered will reflect special interests of students and the instructor. A maximum of three GEO 380 credits may be applied toward either the geology or earth science major or minor. Offered on sufficient demand. Prerequisites: Variable depending on topic.

## **GEO 399 - Readings in Geology (1 to 4 credits)**

Independent study of geological literature. Topics to be prearranged with appropriate staff members. Discussion and seminar. Term paper required. Must be prearranged with supervising faculty. Offered all semesters.

## **GEO 411 - Global Tectonics (3 credits)**

Principles and processes of continental drift, sea floor spreading, and plate tectonics, including paleomagnetic, geodetic, sedimentologic, paleontologic, seismic, petrologic, and structural approaches to the study of moving lithospheric plates. The relationships between plate tectonics and the evolution of selected mountain systems. (3-0-0) Offered winter semester. Prerequisites: GEO 214 and GEO 220.

## **GEO 414 - Advanced Petrology (2 credits)**

This course explores solid earth dynamics as the context for understanding petrologic systems, using principles of geochemistry and thermodynamics to understand and solve petrologic problems, with a focus on magmatic, volcanic, and metamorphic systems. Lecture/discussion, laboratory, and field trip. Offered winter semester. Prerequisites: CHM 116 and GEO 314 (may be taken concurrently)

## **GEO 415 - Invertebrate Paleontology (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A study of the invertebrate fossil record, including a systematic review of important phyla, types of fossilization, and specimen description. Lectures and laboratory. (2-1-2) Offered winter semester of even-numbered years. Prerequisite: GEO 112; GEO 312 strongly recommended.

## **GEO 420 - Glacial and Quaternary Geology (4 credits)**

A study of the physical characteristics of glaciers, their deposits, and their history. Lectures, laboratory, and field trips. (3-1-2) Offered winter semester of odd-numbered years. Prerequisite: GEO 112; GEO 312 strongly recommended.

## **GEO 425 - GIS Applications in Geology (3 credits)**

Applied geographic information systems (GIS) in geology. Students already familiar with GIS will learn advanced skills and apply GIS skills to specific geology problems in hydrology, field mapping, mineral and land resources, water quality, and other topics based on student interest and background. Offered winter semester of even-numbered years. Prerequisite: GPY 307 or NRM 395 or equivalent course.

## **GEO 430 - Oceanography (3 credits)**

A comprehensive analysis of oceanographic processes, systems, and the interaction of the ocean with the atmosphere and lithosphere in the modern world, as well as over geological time (paleoceanography). Emphasis on chemical, physical, and geological oceanography (3-0-0). Offered fall semester of even-numbered years. Prerequisite: GEO 112.

## **GEO 440 - Geohydrology (3 credits)**

A study of the geologic principles that govern the occurrence, movement, and quality of groundwater. Lectures, laboratory, and field trip. (3-0-0) Offered fall semester of odd-numbered years. Prerequisite: GEO 220.

## **GEO 445 - Introduction to Geochemistry (3 credits)**

Topics include crystal chemistry (nuclear/solid-state chemistry), water geochemistry (kinetics), and mineral stability (thermodynamics). Lectures and laboratory. (2-0-3) Offered fall semester of even-numbered years. Prerequisites: GEO 220; MTH 122 and CHM 116 (may be taken concurrently); MTH 201 strongly recommended.

## **GEO 470 - Geophysics (4 credits)**

Concepts of earth physics are introduced. The principles of physics are applied to explore the subsurface. Modern geophysical methods, including gravity, magnetism, seismics, magnetotellurics, radar, electrical, well-logging, and remote sensing are discussed in lecture and

applied in laboratory experiments and field measurements. (3-0-3) Offered winter semester of even-numbered years. Prerequisite: MTH 201 or permission of instructor; PHY 220 or PHY 230 recommended.

## **GEO 480 - Special Topics in the Geological Sciences (1 to 4 credits)**

Topics covered will reflect special interests of students and the instructor. Offered on sufficient demand. Prerequisites: Variable depending on topic.

## **GEO 485 - Geology Research and Writing Seminar (1 credit)**

Students master research skills and written and oral communication of a research problem that they define and explore with a faculty mentor. Problems are based on original investigation or literature review. Students must secure a mentor and define a research question before enrolling in the course. Permit required. Seminar and discussion. (0-1-0) Offered fall semester. Prerequisites: GEO 214, GEO 220; geology, geology-chemistry, or earth science major or geology minor; and junior standing in the major; or permission of instructor.

## **GEO 486 - Geology Reading Seminar (1 credit)**

Students master critical evaluation of the geologic literature through reading, writing, dialogue and presentation. Thematic elements during the semester may include exploration of paradigms, regional geology, classic/discovery papers, or hot topics/big ideas. The course will feature outside speakers and development of professional skills. Offered winter semester. Prerequisites: GEO 214, GEO 220; geology, geology-chemistry, or earth science major or geology minor; and junior standing; or permission of instructor.

## **GEO 490 - Geology Internship (1 to 10 credits)**

Practical and applied geology carried out as independent study in specialized areas of geology or earth science. Work will be carried out under the supervision of a faculty advisor and/or a supervisor at the institution where the work is done. Course structure must be arranged with faculty supervisor before registration. (GEO 490 may be substituted on approval for the field camp requirement of the major.) Offered on request. Prerequisites: Major in geology or earth science, GEO 112, and permission of supervisor.

## **GEO 493 - Applied Field Geology (1 to 8 credits)**

This course offers students hands on geological field experience to fulfill the field camp requirement for the geology major. This can be satisfied by participation in an external field camp or a field course offered through GVSU. May be repeated for credit. Offered

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

spring/summer semester. Prerequisites: Major in geology (geology B.S. or geology B.S. - environmental emphasis); registration permit required.

## **GEO 499 - Independent Study or Research in Geology (1 to 4 credits)**

Supervised experiments, discussions, and report writing. Topics and hours by arrangement. Recommended for geology and earth science majors. Offered each semester. Prerequisite: Permission of supervisor.

## **GEO 580 - Special Topics in the Geological Sciences (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **GEO 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **GER 101 - Beginning German I: Language and Culture (4 credits)**

An introduction to German language and culture. Practice in speaking, listening, reading, writing at the novice level. Supplemented by multimedia and the Language Resource Center. Offered fall and winter semesters.

## **GER 102 - Beginning German II: Language and Culture (4 credits)**

Continuation of GER 101. Practice in speaking, listening, reading, and writing at novice and intermediate levels. German culture integrated throughout. Supplemented by multimedia and the Language Resource Center. Students may not receive credit for both and GER 102. Prerequisite: C (not C-) or better in GER 101, credit, or appropriate placement test score.

## **GER 180 - Special Topics in German (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 100-level courses. May be repeated for credit when content differs. Offered on sufficient demand.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **GER 201 - Intermediate German I: Language and Culture (4 credits)**

Continuation of GER 102. Practice in speaking, listening, reading, and writing at the intermediate level. German culture integrated throughout. Supplemented by multimedia and the Language Resource Center. Offered fall and winter semesters. Prerequisite: C (not C-) or better in GER 102, credit, or appropriate placement test score.

## **GER 202 - Intermediate German II: Language and Culture (4 credits)**

Continuation of GER 201. Continued practice in speaking, listening, reading, and writing at the intermediate level. Review of grammar and expansion of vocabulary. Focus on German culture through authentic texts and multimedia materials. Students who did not complete GER 201 at GVSU are strongly encouraged to take the free placement test in the Language Resource Center prior to registering. Counts toward the German minor (non-Education). Fulfills Cultures - Global Perspectives. Offered fall and winter semesters. Prerequisite: C (not C-) or better in GER 201, credit, or appropriate placement test score.

## **GER 280 - Special Topics in German (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 200-level courses. May be repeated for credit when content differs. No more than four credits may be applied to the major or minor. Offered on sufficient demand. Prerequisite: GER 201.

## **GER 301 - German Composition (3 credits)**

This course provides extensive practice in written composition. Students review the finer points of German grammar and write texts in different genres. Students spend much of their time in class writing, peer editing, and revising their own work. Extensive reading assignments and work on reading strategies will expand reading skills. Offered fall and winter semesters. Prerequisite: GER 202 with a C (not C-) or better, or by appropriate placement.

## **GER 302 - German Conversation (3 credits)**

This course provides extensive practice in speaking and listening to German. Students will learn to negotiate a variety of social situations and make effective presentations. Vocabulary building and development of communicative strategies are also incorporated. Listening skills will also be expanded through regular exercises featuring a variety of media. Offered fall and winter semesters. Prerequisite: GER 202 with a grade of C (not C-) or better, or appropriate placement.

## **GER 303 - Introduction to German Literature I (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A brief survey of German literature from the Germanic period to the end of the 17th century. Offered winter semester in odd-numbered years. Prerequisites: GER 301 and/or GER 302. Corequisite: GER 301 or GER 302 should be taken concurrently if not already completed.

## **GER 304 - Introduction to German Literature II (3 credits)**

A survey of German literature from the 18th century to 1945. Offered winter semester in even-numbered years. Prerequisites: GER 301 and/or GER 302. Corequisite: GER 301 or GER 302 should be taken concurrently, if not already completed.

## **GER 311 - The Long 19th Century (3 credits)**

Examines Germany during the "long 19th century" -- from the French Revolution to the onset of World War I. Considers the "German Question" and the development of Germany from an agrarian-based economy and a fragmented conglomeration of small states into a technologically advanced, modern national state. Offered fall semester in odd-numbered years. Prerequisites: GER 301 and GER 302 (one can be taken concurrently).

## **GER 312 - Contemporary German Culture (3 credits)**

The study of aspects of the culture of German-speaking countries from the postwar period to the present day. Topics include the separate development and subsequent reunification of two German states, coming to terms with the past, changing family and gender roles, and the arts. Offered winter semester in even-numbered years. Prerequisites: GER 301 and/or GER 302. Corequisite: GER 301 or GER 302 should be taken concurrently, if not already completed.

## **GER 314 - Foreign Language Acquisition and Pedagogy (3 credits)**

Provides prospective French and German high school teachers with an introduction to foreign language acquisition theory and practical applications of language teaching pedagogy. Students will also observe language teachers in local high schools. Cross-listed with FRE 334. Offered winter semester. Prerequisite: Instructor permission.

## **GER 315 - German Cinema (3 credits)**

Examines major developments of German cinema, focusing primarily on postwar issues such as the separate West and East German states, reunified Germany, and coming to terms with the past. The course provides an overview of important movements, directors, and studios, and it introduces the tools of film analysis. Offered fall semester of even-numbered years. Prerequisites: GER 301 and/or GER 302. Corequisite: GER 301 or GER 302 should be taken concurrently, if not already completed.

## **GER 321 - Improving German Pronunciation (3 credits)**

This course is designed to help students sound more native like in their pronunciation of German. We will begin with difficult sounds and progress to word stress and sentence intonation. Listening comprehension will also be improved through targeted exercises. Offered fall semester. Prerequisite: GER 202 with a C (not C-) or better.

## **GER 322 - Introduction to German Linguistics (3 credits)**

An introduction to general linguistics through modern German. Covers phonology, morphology, syntax, applied linguistics, dialectology, sociolinguistics, and language change. Offered winter semester in odd-numbered years. Prerequisites: GER 301 and/or GER 302. Corequisite: GER 301 or GER 302 should be taken concurrently, if not already completed.

## **GER 331 - Business German (3 credits)**

Focuses on the language and culture of business in German-speaking countries in their European and global contexts. Topics covered include foreign trade, the European Union, globalization, commerce, banking, trade fairs, geographic aspects of business, and the environment. Practice in writing business documents such as resumes, letters, and company profiles. Offered fall semester of odd-numbered years. Prerequisites: GER 301 and GER 302 (one may be taken concurrently).

## **GER 341 - Advanced German Grammar (3 credits)**

This course focuses primarily on reinforcing command of basic grammar and increasing understanding and mastery of advanced structures. Students will also improve their written and spoken fluency and expression through vocabulary learning, in-class discussions, and extensive reading and writing. Offered winter semester. Prerequisites: GER 301 and GER 302.

## **GER 342 - Advanced Speaking Strategies and Skills (3 credits)**

Development and assessment of speaking skills in German at the advanced level. Students engage in intensive practice of advanced-level functions such as narrating in various time frames, producing extended discourse, stating and defending opinions, as well as advanced communicative strategies. Offered winter semester of odd-numbered years. Prerequisites: GER 301 and GER 302.

## **GER 380 - Special Topics in German (1 to 9 credits)**

Course content varies. Expectations of students approximate those in other 300-level courses. May be repeated for credit when content differs. Offered on sufficient demand. Prerequisites:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GER 301 and/or GER 302. Corequisite: GER 301 or GER 302 should be taken concurrently, if not already completed.

### **GER 385 - German Language (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

### **GER 386 - German Culture and Society (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

### **GER 399 - Independent Reading (1 to 4 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department. Offered fall and winter semesters.

### **GER 401 - Modern German Literature (3 credits)**

Continuation of GER 304. Covers writings from the latter half of the 20th century to the present day and places them in their socio-cultural context. Poems, short stories, novellas, and longer novels will be supplemented by clips from movies. Offered fall semester of even-numbered years. Prerequisites: Two 300-level courses beyond GER 301 and GER 302 or permission of the instructor.

### **GER 402 - German Authors (3 credits)**

Reading and analysis of selected German authors within their cultural and historical context. The course is conducted in German. Class discussion and written assignments advance students' language and cultural competency in German. This course may be repeated for credit if the content is different. Prerequisites: Two 300-level courses beyond GER 301 and GER 302 or permission of the instructor.

### **GER 421 - History of the German Language (3 credits)**

Presents the historical development of the German language and its dialects within the socio-historical context. Topics covered include the position of German within the Indo-European and Germanic language families, periods in the development of German, with representative literary genres and works, and the development of dialects of German. Offered fall semester of odd-

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

numbered years. Prerequisites: Two 300-level courses beyond GER 301 and GER 302 or permission of the instructor.

## **GER 480 - Special Topics in German (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 400-level courses. May be repeated for credit when content differs. Offered on sufficient demand.

## **GER 495 - Advanced Topics in German (3 credits)**

An in-depth exploration of German literature, linguistics, and/or civilization. The culminating course for the German major; content varies according to instructor. Offered winter semester. Prerequisites: Senior standing with a major in German.

## **GER 499 - Independent Study and Research (1 to 4 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department. Offered fall and winter semesters.

## **GPY 100 - Physical and Environmental Geography (3 credits)**

Explores the spatial patterns of weather and climate, landforms, vegetation, soils, and water resources, and their changes, interactions, and impacts on human life and society. Designed to increase awareness of the physical environment, geographic patterns of human environmental interactions, and the interrelationships of natural phenomena. Offered every semester.

## **GPY 101 - Sustainability and Place (1 credit)**

The concept of sustainability holds that the social, economic, and environmental factors within human communities must be viewed in the context of their geographic locations. Strategies and decisions for sustainable development require understanding of the spatial patterns of human-environmental interactions, scale, and place. GPY 101 provides important place-based perspectives on sustainability. Offered every semester.

## **GPY 111 - Cities, Towns, and Villages (3 credits)**

An investigation into cities, towns, and villages as physical phenomena, focusing on the role built environments play in the future of human civilization. Methods and theories from sustainability science are used to examine the relationship between the built environment and topics such as public health, economic inequality, and environmental quality. Fulfills one the Foundations - Social and Behavioral Sciences requirements.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **GPY 112 - Global Climate Crisis (1 credit)**

An introductory geographic survey of climate change impacts and vulnerabilities around the world. Attention will be given to causes of the unfolding global climate crisis, climate change scenarios through the end of this century, and mitigation, adaptation, and resiliency-planning strategies.

## **GPY 200 - Computer Cartography (3 credits)**

This course provides an introduction to the fundamentals of computer cartography. We explore various techniques for the analysis, manipulation, and visualization of spatial data. Topics include earth models, datums, map projection, coordinate systems, map types, spatial and statistical data analysis, cartographic generalization/symbolization, data classification, cartographic design, and thematic mapping. Fulfills Foundations - Mathematical Sciences. Offered fall and winter semesters. Prerequisite: MTH 110.

## **GPY 209 - Introduction to Urban and Regional Planning (3 credits)**

An introductory course for people interested in planning, sustainability, public administration, and community development. The course critically explores the practice of urban and regional development, the various barriers to effective practice, and the theories, techniques, and tools used. Cross-listed with PNH 209.

## **GPY 220 - Cultural Geography (3 credits)**

The distinctive spatial patterns of culture around the world will be investigated. Examines the distributions of population, language, religion, race, agriculture, industry, urbanization, and development and how these distributions change over time. Fulfills one of the Foundations - Social and Behavioral Sciences. Offered every semester.

## **GPY 235 - Geography for a Changing World (3 credits)**

Examines a world that is undergoing political, economic, social, and environmental changes at many different spatial scales. Using geographic concepts, this course examines national, regional, and global interaction and development, and the diverse and complex processes that both hinder and help forge a global community. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - Global Perspectives. Offered every semester.

## **GPY 307 - Introduction to Geographic Information Systems (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduces basic concepts and techniques of Geographic Information Systems (GIS) and their essential role in geographic research. Provides hands-on experience in spatial analysis and the use of GIS software. Offered every semester.

## **GPY 310 - Land Use Planning (3 credits)**

This course deals with the fundamental concepts, principles, strategies, and tools of city and regional land use planning. The focus is on the real-world and sustainable land use planning process and implementation. Cross-listed with PNH 313. Offered every semester.

## **GPY 312 - Urban and Regional Environmental Planning (3 credits)**

An introduction to the urban planning strategies that help towns and cities preserve, restore, and even capitalize on their natural resources. This course investigates threats to clean air, water, and healthy ecosystems in our communities and examines solutions in the form of governmental policies, green designs, and urban inventiveness. Offered winter semester of odd-numbered years.

## **GPY 314 - Land Use and Planning Law (3 credits)**

This course surveys federal and Michigan statutes relevant to planning. It provides a background of federal and Michigan statutory land use controls. Awareness and understanding of these statutes is essential when executing existing land use and planning policies or when altering or proposing new land use and planning policies. Offered winter semester of even-numbered years.

## **GPY 316 - Introduction to Transportation Planning (3 credits)**

This course is an introduction to transportation planning. It explores the planning, land use, and policy implications of city and regional transportation as it relates to urbanism, energy use, public health and safety, sustainability, and economic development. Offered winter semester of odd-numbered years.

## **GPY 324 - Urbanization (3 credits)**

Examines the process of urbanization, its impact on various cultures, and its long-term sustainability. Considers the rapid urbanization in the developing countries and the dynamic growth of global urban systems, emphasizing the evolution of cities over time, space, and vastly different social, political, and cultural environments. Fulfills Cultures - Global Perspectives. Part of the Sustainability Issue. Cross-listed with PNH 324. Offered fall semester. Prerequisite: Junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **GPY 335 - Globalization and Development (3 credits)**

Development involves positive and negative social, political, economic, cultural, and environmental changes for people living in a region or a country. GPY 335 explores the complex geography of the processes associated with development and in particular global development. Part of the Globalization Issue. Offered winter semester. Prerequisite: Junior standing.

## **GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)**

A survey of Michigan's physical resources, such as climate, soils, hydrology, and flora as related to land use and land use management, exemplified in settlement patterns, demography, economic development, infrastructures, industrialization, urbanization, and jurisdictional structures. Offered fall semester.

## **GPY 350 - Geopolitics, Energy and Environment of Russia and Central Eurasia (3 credits)**

This course examines the unique role of Russia and Central Eurasia in the world's energy, water, and food security and many global geopolitical processes of the 21st century. With its complex ethno-cultural composition and vast deposits of oil, gas, coal, and uranium, this region is strategically important for the U.S. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Offered fall semester. Prerequisite: Junior standing.

## **GPY 351 - Geography of Africa (3 credits)**

Africa is one of the most fascinating world regions yet paradoxically one of the least known. The focus of this course is on the rich cultural (language, religion, agriculture, cities, health, economy) and physical (climate, vegetation, landforms) geographies of this vast region and how they have changed over time. Fulfills Cultures - Global Perspectives. Offered winter semester of odd-numbered years.

## **GPY 352 - Geography of Latin America (3 credits)**

The growth and development of Latin America has a significant impact on most activities in North America. Examines those effects and studies the cultural and physical development of Latin America. Fulfills Cultures - Global Perspectives. Cross-listed with LAS 352. Offered winter semester.

## **GPY 353 - Geography of the United States and Canada (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A comparative study of the cultural and physical geographies of primarily the United States' population, cultural diversity, migration, resources, and economy, with those of Canada. Fulfills Cultures - U.S. Diversity. Offered winter semester.

### **GPY 354 - Geography and Globalization of Asia (3 credits)**

Introduction and survey of the physical and cultural geographies of Asia, their influence on the globalization of Asian economies, and the migration of Asian peoples. Part of the Globalization Issue. Offered fall semester. Prerequisite: Junior standing.

### **GPY 356 - The Geography, Culture and Land Use Management of Europe (3 credits)**

A survey of Europe's distribution and regional interactions of physical and human resources such as climate, soils, hydrology, and coastal geomorphology, along with cultural elements such as settlement patterns, language, ideology, economic development, infrastructure evolution, industrialization, urbanization, human capital, and jurisdictional developments and the associated land use management approaches. Fulfills Cultures - Global Perspectives. Offered winter semester.

### **GPY 361 - People, Environment, and Development in the Amazon (3 credits)**

This course explores natural resource use and human settlement over time in the Amazon Basin, from early tribal societies to the present. Topics include extractive economies, trade in animal and forest products, conservation and development initiatives, and the changing demands for resources in urban centers of Amazonia today. Part of the Sustainability Issue. Offered fall semester. Cross-listed with LAS 361. Prerequisite: Junior standing.

### **GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)**

A geography of the world's agricultural practices and development at different scales, from traditional methods to industrial agriculture with an emphasis on farming societies. Topics include indigenous agriculture and crop domestication, agroforestry and plantation systems, land use and rural societies, export crops, aquaculture and livestock, and drug cultivation. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Offered fall semester. Prerequisite: Junior standing.

### **GPY 363 - World Forests and Their Use (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Geography of the world's forests and their use, from traditional to industrial practices over space and time. Topics include the local, national, and international exploitation of forests, forest societies, foods, fuel and medicines, timber, protected areas, and the challenge of sustainable forest use in different regions and environments. Part of the Sustainability Issue. Offered fall semester. Prerequisite: Junior standing.

## **GPY 365 - GIS for Economic and Business Decision-Making (3 credits)**

Explores the use of Geographic Information Systems (GIS) technology in economic and business decision-making, including market area analysis, geodemographic segmentation, site selection, routing, customer profiling, sales territory management, and location strategies. Emphasis on hands-on activities. Problem-based learning approach. Part of the Information, Innovation, or Technology Issue. Cross-listed with MKT 365. Offered every semester. Prerequisite: Junior standing.

## **GPY 370 - Introduction to Remote Sensing (3 credits)**

This course provides an introduction to the fundamentals of remote sensing and digital image processing technology. Topics include the remote sensing process, physical principles of remote sensing, major remote sensing systems, remote sensing data formats, image processing, and remote sensing applications in geography and other social sciences. Offered every semester.

## **GPY 380 - Special Topics in Geography (3 credits)**

Provides an interdisciplinary opportunity for students to pursue advanced study in special topics related to geography. Topics vary each term. May be taken more than once when the topic is different. Offered on sufficient demand.

## **GPY 381 - Study Abroad I (3 to 9 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **GPY 385 - GIS in Urban and Regional Analysis (3 credits)**

Focus on applications of Geographic Information Systems (GIS) techniques in urban and regional analysis. Using a hands-on approach, students will explore how to use GIS techniques and large data sets to analyze economic, demographic and social change in the knowledge-based economy. Part of the Information, Innovation, or Technology Issue. Cross-listed with ECO 385. Offered every semester. Prerequisite: Junior standing.

## **GPY 399 - Independent Readings (1 to 3 credits)**

Independent supervised readings in selected topics. Offered every semester. Graded credit/no-credit. Prerequisite: Permission of program coordinator.

## **GPY 407 - Advanced GIS (4 credits)**

An advanced level GIS course emphasizing decision analysis through applications of spatial statistics and geospatial modeling. Topics include multivariate statistics, error assessment and propagation, fuzzy logic, uncertainty, and decision risk in GIS modeling, location analysis, and terrain modeling using industry standard GIS software. Offered winter semester. Prerequisite: GPY 307.

## **GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)**

This course examines applications of landscape ecology concepts in land-use, urban, and regional planning. Attention is given to system analysis, integration of physical, biological, and cultural elements in landscape systems. Applications of sustainable landscape design and resiliency planning through integration of green and blue infrastructure are examined through case studies. Part of the Sustainability Issue. Offered fall semester. Prerequisite: Junior standing.

## **GPY 412 - Global Climate and Environmental Change (3 credits)**

This course introduces students to natural and human causes of climate change and geographic patterns of climate change impacts, human vulnerabilities, and adaptation and mitigation strategies. Global climate modeling scenarios are examined in the context of international and national climate change policies, national security, climate preparedness, and resiliency planning. Part of the Sustainability Issue. Cross-listed with ENS 412. Offered winter semester.

Prerequisites: Junior standing, and either GPY 100 or ENS 201 or at least one course from Foundations - Natural Sciences.

## **GPY 470 - Digital Image Processing (3 credits)**

Provides theory and applications of digital image processing techniques. Focuses on the methodologies of thematic extraction of environmental information using computer-based image processing systems and interface between GIS and remote sensing. Topics include image enhancement, multispectral classification algorithms, and model development. Offered winter semester of odd-numbered years. Prerequisite: GPY 370.

## **GPY 490 - Internship (1 to 9 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Supervised work experience in an area related to geography. Offered every semester. Graded credit/no-credit. Prerequisite: Permission of program coordinator.

### **GPY 495 - Senior Thesis (3 credits)**

Working under the guidance of the course instructor, students will conduct original research in a topical area of their choice within the disciplines of geography and planning or their subdisciplines, write a senior thesis, and present their findings to a university audience. Offered winter semester. Prerequisite: Junior standing.

### **GPY 496 - Field Research Project (3 credits)**

Practical and applied geography carried out as a field research project. Emphasizes methods and techniques useful for professional geographers with application of interdisciplinary knowledge in an intercultural environment. Research skills built through field research in topics of special interest. Substitutes for Capstone GPY 495 - Senior Thesis. Offered spring/summer semester. Prerequisites: Junior standing and permission of instructor.

### **GPY 499 - Independent Research (1 to 3 credits)**

Research conducted individually with faculty supervision. Attention given to written and oral presentation of research findings. Offered every semester. Prerequisite: Permission of program coordinator. Graded credit/no-credit.

### **GRK 101 - Elementary Ancient Greek I (4 credits)**

An introduction to ancient Greek vocabulary, grammar, and syntax with an emphasis on reading works from the Homeric and classical periods. Offered fall semester.

### **GRK 102 - Elementary Ancient Greek II (4 credits)**

Continuation of GRK 101. Language work will be supplemented with discussions of ancient Greek history and culture. Offered winter semester. Prerequisite: GRK 101.

### **GRK 201 - Intermediate Ancient Greek I (4 credits)**

Continuation of GRK 102. Reading of an entire dialogue by Plato, such as the Apology or Crito. Offered fall semester. Prerequisite: GRK 102.

### **GRK 202 - Intermediate Ancient Greek II (3 credits)**

Readings from Homer's Iliad or Odyssey, supplemented by study of early Greek history and culture. Fulfills Cultures - Global Perspectives. Offered winter semester. Prerequisite: GRK 201.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **GRK 285 - Study Abroad: Intermediate Ancient Greek (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **GRK 350 - Greek Prose (3 credits)**

Reading of texts representative of such genres as the philosophical dialogue (Plato), forensic and political oratory (Demosthenes, Lysias), historiography (Thucydides, Xenophon), or pastoral/homiletic/apocalyptic (the Pauline epistles, Revelation). Emphasis on the forms of prose that helped shape the Western tradition. Offered fall semester of even-numbered years. May be repeated for credit when topics vary. Prerequisite: GRK 202.

## **GRK 351 - Greek Poetry (3 credits)**

Study of ancient Greek poetry such as the Homeric Hymn to Demeter, Hesiod's Theogony, Greek dramatic poets, or the lyric poetry of Archilochus, Sappho, and Simonides. Special attention to the meter, meaning, and context of poetry designed for public performance. May be repeated for credit when topics vary. Offered fall semester in odd-numbered years. Prerequisite: GRK 202.

## **GRK 385 - Study Abroad: Advanced Ancient Greek (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **GRK 399 - Independent Reading (1 to 3 credits)**

Supervised independent reading in Greek. Topic, credit, and time must be arranged with individual faculty member before registration. Offered fall and winter semesters.

## **GRK 400 - Advanced Greek Prose (3 credits)**

Reading of texts representative of such genres as the philosophical dialogue (Plato), forensic and political oratory (Demosthenes, Lysias), historiography (Thucydides, Xenophon), or pastoral/homiletic/apocalyptic (the Pauline epistles, Revelation). Emphasis on the forms of prose that helped shape the western tradition. Special attention to electronic resources in classics and to

textual criticism. May be repeated for credit when topics vary. Offered winter semester in odd-numbered years. Prerequisite: One 300-level Greek course.

## **GRK 401 - Advanced Greek Poetry (3 credits)**

Study of ancient Greek poetry such as the Homeric Hymn to Demeter, Hesiod's Theogony, Greek dramatic poets, or the lyric poetry of Archilochus, Sappho, and Simonides. Special attention to the meter, meaning, and context of poetry designed for public performance. Special attention to electronic resources in classics and textual criticism. May be repeated for credit when topics vary. Offered winter semester in even-numbered years. Prerequisite: One 300-level Greek course.

## **GSI 201 - (Dis)Order and (In)Justice: An Introduction to Global Studies (3 credits)**

An interdisciplinary introduction to global studies using themes of order/disorder and justice/injustice to explore problems and issues affecting people globally. Focuses on interconnectedness of global concerns and links between the local and global, primarily from a social science perspective. Possible topics: migration, human trafficking, food security, anti-globalization movements, and infectious disease. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters.

## **GSI 202 - History of Global Change and Social Transformation (3 credits)**

A historical inquiry into long-term processes of global change and social transformation. Focus is on increasing interconnectedness of human communities from the deep past to the present, including spread of cultural, market and ecological exchanges, transport and communication technologies, developing ideas of social justice, and their connections to contemporary times. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Cross-listed with HST 202. Offered fall and winter semesters.

## **GSI 215 - Global Migration (3 credits)**

An interdisciplinary analysis of the global movement of immigrants and refugees and its relationship with the economy, politics, development, and culture. Students learn about migration as a key feature of globalization. Possible topics: migration history, immigration policies, border control, integration, citizenship, migrant transnationalism, diaspora, remittances, child migrants, and migration theories. Fulfills Cultures - Global Perspectives. Fulfills one of the Foundations - Social and Behavioral Sciences. Cross-listed with PLS 215. Offered fall semester.

## **GSI 290 - Changemakers! Introduction to Social Impact (3 credits)**

This course gives a broad overview of global and local, formal and informal initiatives that are meant to tackle urgent issues such as poverty alleviation, gender equality, education, access to water, etc. It teaches basic skills to design interventions, measures the success/failure of initiatives, and develop advocacy for social change. Fulfills one of the Foundations - Social and Behavioral Sciences.

## **GSI 399 - Independent Reading (1 to 3 credits)**

Hours, credit, topics, and time to be arranged with individual faculty members with approval of the department.

## **GSI 490 - Global Studies Internship (1 to 3 credits)**

The global studies and social impact (GSI) internship places GSI majors with an organization that addresses global issues in fields such as immigration, the environment, public health, business, or media. Enables students to apply GSI theoretical knowledge to professional contexts. Up to three credits can be applied to the major. Offered every semester. Prerequisites: GSI major and permission of the GSI coordinator/Internship coordinator.

## **GSI 491 - Practicum: Immigrants and Refugees in the Community (3 credits)**

Students engage in experiential learning by working with immigrant and refugee community organizations. The practicum emphasizes a hands-on and grassroots approach to the complex dynamics and relationships between immigrants and the local community. Areas of experiential learning include: immigrant rights' advocacy, refugee resettlement, integration, economic empowerment, and cultural heritage. Offered every semester. Prerequisite: GSI 215 or PLS 215.

## **GSI 495 - Global Studies and Social Impact (3 credits)**

A culminating course for global studies and social impact majors and a venue for producing an original interdisciplinary research project. Taught in a seminar format, students will select, share, and discuss readings relevant to their research topics, and finish with oral and written versions of their research. Offered fall semester. Prerequisites: GSI 201, GSI 202, and senior standing in the global studies and social impact major.

## **HIM 301 - Introduction to Health Information Management (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course provides an overview of the health information management (HIM) profession. Topics include analysis, licensing, certification, and accreditation documentation standards. Explores topics of patient confidentiality, form design, numbering systems, health information storage and retention systems, and computerization of health records. Offered fall semester. Includes two hours laboratory time. Prerequisite: Admission to the health information management program.

## **HIM 302 - Health Care Law (3 credits)**

This course introduces the legal issues facing the health care industry. Topics include confidentiality, release of health information, subpoenas, liability issues, patient rights, fraud and abuse, and ethics of health information. Students will study federal and Michigan-specific laws and regulations related to protected health information through case studies. Offered spring/summer semester. Prerequisite: HIM 301.

## **HIM 304 - Advanced Med Terms of Disease (3 credits)**

This course will build upon the student's knowledge of medical terminology as it relates to disease processes. Students will study the terminology related to etiology, manifestations, comorbidities and complications, and treatment options that occur with disease processes. Offered fall semester. Prerequisites: AHS 100 and BMS 251.

## **HIM 310 - Functional and Administrative Practices in Health Information Management (3 credits)**

This course introduces the functional and administrative HIM practices including capital/operational budgeting, procurement, and regulatory issues of the HIM department. Students will analyze budgetary reports common to HIM and health care compliance needs. Students evaluate human resource positional analysis, recruitment, supervision/retention, and project management duties related to the HIM department. Offered fall semester. Prerequisite: HIM 301.

## **HIM 311 - CPT/HCPCS Coding (3 credits)**

This course introduces all aspects of CPT Coding and HCPCS Level II Coding. Coursework will focus on introductory outpatient coding with emphasis on Evaluation and Management (E and M) leveling and surgical procedures by interpreting chart documentation. Ethical coding principles will be presented along with 3M Encoder. Includes two hours laboratory time. Offered fall semester. Prerequisites: AHS 100, BMS 251, HIM 301, and HIM 304.

## **HIM 320 - Applications of Organizational Planning for Health Information Management (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduction to techniques involved in the departmental strategic and project planning processes in HIM, along with supply chain management specific to health care facilities. In addition, the techniques of benchmarking and evidence-based practice for quality improvement will be discussed. Offered fall semester. Prerequisite: HIM 301.

## **HIM 345 - Orientation to Health Information Management Practicum (1 credit)**

This course will provide students the expectations, responsibilities, and requirements of the field practicum. Students will create a cover letter and resume to obtain a field practicum within the health information management setting. Offered fall semester. Prerequisites: Senior standing and admission to health information management program.

## **HIM 361 - Disease Classification System I (3 credits)**

This course introduces students to the International Classification of Diseases 10 Edition, Clinical Modification (ICD-10-CM), and Procedural Classification System (ICD-10-PCS). Emphasis on understanding and applying the coding rules and guidelines for the specific body systems will be demonstrated through the hands-on practice of both inpatient and outpatient coding scenarios. Offered fall semester. Prerequisites: HIM 301 and HIM 304.

## **HIM 362 - Disease Classification System II (3 credits)**

This course is a continuation of HIM 361 - Disease Classification System I. The emphasis of understanding and applying the coding rules and guidelines for the specific chapters will continue. Students also gain knowledge of how properly code assignment impacts reimbursement and Medicare Severity Diagnostic Related Groups (MS-DRG) assignment. Offered winter semester. Prerequisite: HIM 361.

## **HIM 364 - Financial Reimbursement (3 credits)**

This course will provide an overview of how health care services are reimbursed through U.S. public and private third-party payers compared to reimbursement in international health care systems. Students will complete both paper and electronic claim forms showing how to maximize reimbursement through payer systems. Offered winter semester. Prerequisites: AHS 100 and HIM 301.

## **HIM 365 - Quality Management in Health Care (3 credits)**

This course will introduce students to the different techniques used to define, implement, and monitor total quality management (TQM) in health care. Students will learn the procedures that comprise the utilization review process. This course will provide students with the opportunity to

collect and analyze data through a team-based approach. Offered winter semester. Prerequisites: AHS 100 and HIM 301.

## **HIM 366 - Health Information Data Systems and Statistics (3 credits)**

This course will provide students with an overview of health information management practices, secondary data sources, registries, and indices. Students will also receive an overview of health information exchange, medical informatics, database design, health information technologies, electronic health record, and health information statistics. Offered fall semester. Prerequisites: AHS 100 and HIM 301.

## **HIM 402 - Health Information Management Review (1 credit)**

A comprehensive review of health information management concepts related to information technology, data security, quality management, revenue cycle and reimbursement, coding, health law, strategic planning, and project and operations management. This course will provide test-taking methods and preparation for the national registered health information administrator certification exam. Offered winter semester. Prerequisites: Senior standing and satisfactory completion of the HIM core courses.

## **HIM 470 - Field Practicum in Health Information Management (11 credits)**

The HIM practicum is a supervised professional practice experience within a health care setting. Students will engage in the management and supervision of the Health Information Management department by completing various projects. An appropriate faculty member and the placement site supervisor will evaluate the student's performance (Capstone). Offered winter semester. Prerequisites: Senior standing and satisfactory completion of all prior HIM core courses.

## **HNR 151 - First Year Interdisciplinary Sequence 1 (3 credits)**

The first course in an integrated two-semester sequence. Students explore a significant topic while making connections between ideas, disciplines, worldviews, and ways of engaging. The sequence as a whole emphasizes inquiry, integrity, inclusion, interdisciplinarity, innovation, and internationalization. Offered fall semester. Prerequisite: Enrollment in Meijer Honors College. Corequisite: HNR 152.

## **HNR 152 - First Year Interdisciplinary Sequence 2 (3 credits)**

The second course in an integrated two-semester sequence. Students explore a significant topic while making connections between ideas, disciplines, worldviews, and ways of engaging. The sequence as a whole emphasizes inquiry, integrity, inclusion, interdisciplinarity, innovation, and internationalization. Offered fall semester. Prerequisite: Enrollment in Meijer Honors College. Corequisite: HNR 151.

## **HNR 153 - First Year Interdisciplinary Sequence 3 (3 credits)**

The third course in an integrated two-semester sequence. Students explore a significant topic while making connections between ideas, disciplines, worldviews, and ways of engaging. The sequence as a whole emphasizes inquiry, integrity, inclusion, interdisciplinarity, innovation, and internationalization. Offered winter semester. Prerequisites: HNR 151 and HNR 152. Corequisite: HNR 154.

## **HNR 154 - First-Year Interdisciplinary Sequence 4 (3 credits)**

The fourth course in an integrated two-semester sequence. Students explore a significant topic while making connections between ideas, disciplines, worldviews, and ways of engaging. The sequence as a whole emphasizes inquiry, integrity, inclusion, interdisciplinarity, innovation, and internationalization. Offered winter semester. Prerequisites: HNR 151 and HNR 152. Corequisite: HNR 153.

## **HNR 200 - Campus/Community Engagement (3 credits)**

A second-year honors course. Students actively engage their surrounding communities in ways that promote listening to and understanding cultural differences, working with shared communal concerns, and promoting the importance of mutual understanding. Periodic discussions with coordinator of activity are included. Offered every semester. Prerequisite: Admission to Meijer Honors College.

## **HNR 201 - Live. Learn. Lead. (3 credits)**

Structured around a series of campus/community lectures, exhibits, or other events, this course exposes students to learning outside the classroom and provides the opportunity to think deeply and critically about those experiences, and to derive meaning from them. Students will learn to engage in and participate thoughtfully in public dialogues. Offered fall semester. Prerequisite: Acceptance into the honors program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HNR 209 - The Middle East Beyond the Headlines 1 (3 credits)**

Course examines the historical and literary context from the preIslamic period through the Ottoman era. It begins with a background of history, religions, and literature before the birth of Muhammad, then focuses on the impact of Islam in Arabia and, later, on the Middle East and beyond. Fulfills Foundations - Writing. Fulfills Foundations - Historical Perspectives. Offered fall semester. Corequisites: HNR 209 and HNR 210.

## **HNR 210 - The Middle East Beyond the Headlines 2 (3 credits)**

Course examines the historical and literary context from the pre-Islamic period through the Ottoman era. It begins with a background of history, religions, and literature before the birth of Muhammad, then focuses on the impact of Islam in Arabia and, later, on the Middle East and beyond. Fulfills Foundations - Philosophy and Literature. Offered fall semester. Corequisites: HNR 209 and HNR 210.

## **HNR 211 - The Worlds of Greece and Rome 1 (3 credits)**

Course deals with the history, literature, intellectual history, philosophy, and arts of the Classical period with emphasis on Greeks and Romans. Fulfills Foundations - Writing. Fulfills Foundations - Historical Perspectives. Offered fall semester. Corequisites: HNR 211 and HNR 212.

## **HNR 212 - The Worlds of Greece and Rome 2 (3 credits)**

Course deals with the history, literature, intellectual history, philosophy, and arts of the Classical period with emphasis on Greeks and Romans. Fulfills Foundations - Philosophy and Literature. Offered fall semester. Corequisites: HNR 211 and HNR 212.

## **HNR 213 - American Civilization 1 (3 credits)**

Course provides a survey of American history, literature, and intellectual progress from European Colonization through Reconstruction. Fulfills Foundations - Writing. Fulfills Foundations - Historical Perspectives. Offered fall semester. Corequisite: HNR 214.

## **HNR 214 - American Civilization 2 (3 credits)**

Course provides a survey of American history, literature, and intellectual progress from European Colonization through Reconstruction. Fulfills Foundations - Philosophy and Literature. Offered fall semester. Corequisite: HNR 213.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HNR 215 - Europe: The Center and the Margins 1 (3 credits)**

Course deals with European history, philosophy, and culture from the Middle Ages through the early modern period. The period emphasized varies with faculty expertise. Fulfills Foundations - Writing. Fulfills Foundations - Historical Perspectives. Offered fall semester. Corequisite: HNR 216.

## **HNR 216 - Europe: The Center and the Margins 2 (3 credits)**

Course deals with European history, philosophy, and culture from the Middle Ages through the early modern period. The period emphasized varies with faculty expertise. Fulfills Foundations - Philosophy and Literature. Offered fall semester. Corequisite: HNR 215.

## **HNR 219 - The Middle East Beyond the Headlines 3 (3 credits)**

This course, which is a continuation of HNR 209/210, covers the history, literature, philosophy, and art of the Islamic Middle East from the decline of the Ottoman period to the present. This time period is one of growth and uncertainty, with such major historical events as the fall of the Ottoman Empire, World Wars I and II, and the colonization of the Middle East. The course looks at how these historical events left their mark in philosophy, literature (including poetry and the birth of the Arabic novel and post-Colonial theory/criticism), and art. Fulfills Foundations - Arts. Offered winter semester. Prerequisites: HNR 209 and HNR 210. Must be taken concurrently with HNR 220.

## **HNR 220 - The Middle East Beyond the Headlines 4 (3 credits)**

This course, which is a continuation of HNR 209 and HNR 210, covers the history, literature, philosophy, and art of the Islamic Middle East from the decline of the Ottoman period to the present. This time period is one of growth and uncertainty, with such major historical events as the fall of the Ottoman Empire, World Wars I and II, and the colonization of the Middle East. The course looks at how these historical events left their mark in philosophy, literature (including poetry and the birth of the Arabic novel and postcolonial theory/criticism), and art. Fulfills Cultures - Global Perspectives. Fulfills one of the Issues requirements. Offered winter semester. Prerequisites: HNR 209 and HNR 210. Corequisite: HNR 219.

## **HNR 221 - The Worlds of Greece and Rome 3 (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Continues the study of history, philosophy, and culture of the Classical period begun in HNR 211. Fulfills Foundations - Arts. Offered winter semester. Prerequisite: HNR 211. Corequisite: HNR 222.

## **HNR 222 - The Worlds of Greece and Rome 4 (3 credits)**

Continues the study of history, philosophy, and culture of the Classical period begun in HNR 212. Fulfills Cultures - Global Perspectives. Fulfills one of the Issues requirements. Offered winter semester. Prerequisite: HNR 212. Corequisite: HNR 221.

## **HNR 223 - American Civilization 3 (3 credits)**

Continues the study of American Civilization begun in HNR 213. Emphasis is on philosophy and arts in American culture. Fulfills Foundations - Arts. Offered winter semester. Prerequisite: HNR 213.

## **HNR 224 - American Civilization 4 (3 credits)**

Course continues the study of American Civilization begun in HNR 214. Emphasis is on philosophy and arts in American culture. Fulfills Cultures - U.S. Diversity. Fulfills one of the Issues requirements. Offered winter semester. Prerequisite: HNR 214.

## **HNR 225 - Europe: The Center and the Margins 3 (3 credits)**

Course continues the study of European history, philosophy, and culture begun in HNR 215. Fulfills Foundations - Arts. Offered winter semester. Prerequisite: HNR 215.

## **HNR 226 - Europe: The Center and the Margins 4 (3 credits)**

Course continues the study of European history, philosophy, and culture begun in HNR 216. Fulfills Cultures - Global Perspectives. Fulfills one of the Issues requirements. Offered winter semester. Prerequisite: HNR 216.

## **HNR 231 - The Holocaust (3 credits)**

Investigates the psychological, social, political, historical, cultural, and economic sources of human aggression and cooperation by focusing on the Nazi destruction of European Jews in World War II. Fulfills Foundations - Social and Behavioral Sciences. LD. Cross-listed with PLS 240. Offered fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HNR 236 - Modern Art and Modernity (3 credits)**

HNR 236 addresses significant developments in art, literature, music, film, and thought between 1860 and 1960 and will be discussed within a social, historical, and cultural framework. This is a standalone arts course for honors students who did not fulfill the arts requirement in a sequence. Fulfills Foundations - Arts. Offered winter semester. Prerequisite: Restricted to honors students.

## **HNR 241 - The Earth, A Global View (4 credits)**

Course has two objectives: (1) understanding earth as one global, holistic, delicately balanced dynamic system; and (2) understanding the critical interdependence between humans and earth systems. Required field trip. Fulfills Foundations - Physical Sciences with a lab. See Meijer Honors College. (3-0-3) Offered fall and winter semesters.

## **HNR 242 - Plants and People (3 credits)**

Plants are the dominant organisms on the landscape and are often taken for granted. The ecology, structure, function, genetics, and variety of plants are studied in order to develop an appreciation of the dependence of humans upon them for food, oxygen, shelter, medicines, and pleasure. Fulfills Foundations - Life Sciences without a lab. Offered fall and winter semesters.

## **HNR 243 - The Human Body in Motion I (4 credits)**

The first semester in the two-semester sequence fulfilling the general education requirements in science for honors students. The structure and function of human movement as well as the nature of science will be examined from biological, chemical, and physical perspectives in order to develop an appreciation for the human body. Fulfills Foundations - Physical Sciences with a lab. Offered fall semester.

## **HNR 244 - The Human Body in Motion II (3 credits)**

The second semester in the two-semester sequence fulfilling the general education requirements in Natural Science for honors students. This course is centered around projects designed to apply the skills, knowledge, and understanding acquired in the preceding course. Fulfills Foundations - Life Sciences. Offered winter semester. Prerequisite: HNR 243.

## **HNR 245 - Microbes and Society (3 credits)**

This course addresses the fundamental nature of microorganisms, microbial diversity, microorganisms as agents of disease, the role of microorganisms in the biosphere, and the utilization of microorganisms by humankind. Since microbes can cause tremendous suffering or provide countless benefits, microbiology greatly affects our everyday lives. Fulfills Foundations - Life Sciences. Offered fall semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HNR 246 - Chemistry in Perspective (4 credits)**

A one-semester course partially fulfilling the general education requirements in science for non-science majors. The subject matter is the interplay between chemistry and important societal issues. Fulfills Foundations - Physical Sciences with a lab. Offered fall and winter semesters.

## **HNR 247 - Molecules of Life in Perspective (3 credits)**

An introduction to basic biological concepts in the context of human health and disease. These concepts will provide the foundation for understanding the interplay between biotechnology and emerging strategies in health care. The impact of biotechnology on the social, economic, cultural, political, and ethical aspects of society will be explored. Fulfills Foundations - Life Sciences without a lab. Offered winter semester.

## **HNR 250 - Project-Based Learning (3 credits)**

Content varies by section but always involves interdisciplinary learning and problem-solving skills. Teaches students through the pedagogy of project-based learning. Students learn how to delineate a problem or issue and its context, articulate any past efforts to address it, and produce a presentation or product that addresses the issue. Offered fall and winter semesters. Prerequisite: Enrollment to Meijer Honors College.

## **HNR 251 - Project-Based Learning/QL (3 credits)**

Content varies by section but always involves interdisciplinary learning and quantitative problem-solving skills. Teaches students through the pedagogy of project-based learning. Students learn how to delineate a problem or issue and its context, articulate any past efforts to address it, and produce a presentation/product that addresses the issue. Offered fall and winter semesters. Prerequisite: Enrollment to Meijer Honors College.

## **HNR 254 - Africa Seen Through African Eyes 1 (3 credits)**

This course surveys the history of African civilizations to the 19th century. It will concentrate on the political, economic, cultural, and social development of specific African societies before European conquest of the continent. The course will be more thematic than chronological. This course must be taken concurrently with HNR 255. Fulfills Foundations - Writing. Fulfills Foundations - Historical Perspectives. Offered fall semester. Prerequisite: Enrollment to Meijer Honors College. Corequisite: HNR 255.

## **HNR 255 - Africa Seen Through African Eyes 2 (3 credits)**

This course surveys African civilizations through the medium of African literary texts and explores the relationship between literature and other arts, such as film and music. Analyzes the

ways in which literature both reflects and interprets African societies from Pharaonic times through the 19th century. Must be taken concurrently with HNR 254. Fulfills Foundations - Philosophy and Literature. Offered fall semester. Prerequisite: Enrollment in Meijer Honors College. Corequisite: HNR 254.

## **HNR 256 - East Asia and the World: Ideas, Inventions, and Power 1 (3 credits)**

This course is the first part of a four-course foundational interdisciplinary sequence on the geography, history, and culture of east and central Asia. Surveys the history of China from c. 10,000 BCE to the end of the Tang Dynasty in 907 CE. Fulfills Foundations - Writing. Fulfills Foundations - Historical Perspectives. Offered fall semester. Prerequisite: Restricted to first-year students in Meijer Honors College. Corequisite: HNR 257.

## **HNR 257 - East Asia and the World: Ideas, Inventions, and Power 2 (3 credits)**

This course is the second part of a four-course, first-year interdisciplinary sequence specifically devised for first-year honors students. It surveys the literature and philosophy of China from c. 800 BCE (Zhou Dynasty) through to the modern period. Fulfills Foundations - Philosophy and Literature. Offered fall semester. Prerequisite: Restricted to first-year students in Meijer Honors College. Corequisite: HNR 256.

## **HNR 258 - History of Science I (3 credits)**

HNR 258 focuses on the development of European science and art from 1400 - 1650, including anatomy, astronomy and physics, Romanesque and Gothic architecture, and Renaissance painting. It is the first of an integrated four-course sequence. Taken concurrently with HNR 259, this course satisfies the writing credit in foundations. Fulfills Foundations - Writing. Fulfills Foundations - Historical Perspectives. Offered fall semester. Prerequisite: Enrollment in Meijer Honors College. Corequisite: HNR 259.

## **HNR 259 - History of Science II (3 credits)**

HNR 259 focuses on the development of European philosophy, theology, and literature, as these relate to developments in science from 1400 - 1650, including Dante, Luther, Galileo, and Descartes. It is the second of an integrated four-course sequence. Fulfills Cultures - Global Perspectives. Offered fall semester. Prerequisite: Enrollment in Meijer Honors College. Corequisite: HNR 258.

## **HNR 260 - Alliance and Conflict: World Construction in Religion and Society (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Starting from a social-scientific vantage point, this course focuses on the historical and cultural origins of monotheism in ancient Palestine/Judah and the Arabian Peninsula. This course provides the methodological groundwork for HNR 261 and HNR 262 by introducing historical method, social-scientific method, and methods from the sociology of religion. Fulfills Foundations - Writing. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Offered fall semester. Prerequisite: Enrolled in Meijer Honors College.

## **HNR 261 - Alliance and Conflict: World Construction in Religion and Society (3 credits)**

This course focuses on post 16th century trends, conservative and liberal, in monotheism as well as other religious influences on social-political intergroup relations (tolerance and intolerance). This course will also cover religious art and iconography as a form of social-political commentary and protest in the Western world. Fulfills Foundations - Arts. Offered winter semester. Prerequisite: HNR 260. Corequisite: HNR 262.

## **HNR 262 - Alliance and Conflict: World Construction in Religion and Society (3 credits)**

Beginning with Max Weber's secularization thesis, this course investigates the phenomenon of secularism as a response to modern forms of monotheistic religion within the Western world. It also addresses the conflict between secular-leaning cultures (such as France) and immigrating individuals of nonsecular cultures (such as Muslim immigrants to France). Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills one of the Issues requirements. Offered winter semester. Prerequisite: HNR 260. Corequisite: HNR 261.

## **HNR 263 - Theory and Practice of Rights 1 (3 credits)**

This is the first of a three-part foundational interdisciplinary sequence on the theory and practice of rights. It examines the historical origins and philosophical meaning of individual rights while exploring their importance to revolutionary political movements of the 18th, 19th, and 20th centuries in the United States and Europe. Fulfills Foundations - Writing. Fulfills Cultures - U.S. Diversity. Offered fall semester. Prerequisite: Restricted to first-year honors students. Corequisite: HNR 201.

## **HNR 264 - Theory and Practice of Rights 2 (3 credits)**

This is the second of a three-part foundational interdisciplinary sequence on the theory and practice of rights in the United States and around the globe. It examines debates about the meaning of human rights and their value for addressing injustices in western and non-Western contexts. Fulfills one of the Foundations - Social and Behavioral Sciences. Offered winter semester. Prerequisites: HNR 263 and first-year honors student. Corequisite: HNR 265.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HNR 265 - Theory and Practice of Rights 3 (3 credits)**

This is the third of a three-part honors foundational interdisciplinary sequence on the theory and practice of rights in the United States and around the globe. It explores the experience of and resistance to human rights violations in particular cultural contexts. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - Global Perspectives. Fulfills one of the Issues requirements. Offered winter semester. Prerequisites: HNR 263 and first-year honors student. Corequisite: HNR 264.

## **HNR 274 - Africa Seen Through African Eyes 3 (3 credits)**

This course surveys the history of Africa from the late 19th century to the present. It will concentrate on African societies before European conquest; transformation of African societies under Colonial rule; the rise of African Nationalism and the decolonization process; and the post independence political and economic developments. Fulfills Foundations - Arts. Offered winter semester. Prerequisites: Enrollment in the Meijer Honors College, HNR 254, and HNR 255. Corequisite: HNR 275.

## **HNR 275 - Africa Seen Through African Eyes 4 (3 credits)**

This course surveys modern African civilizations through the medium of African literary texts and explores the relationship between literature and other arts, such as film and music. Analyzes the ways in which literature both reflects and interprets African societies from conquest through colonialism to independence. Fulfills Cultures - Global Perspectives. Fulfills one of the Issues requirements. Offered winter semester. Prerequisites: Enrollment in Meijer Honors College, HNR 254, and HNR 255. Corequisite: HNR 274.

## **HNR 276 - East Asia and the World: Ideas, Inventions, and Power 3 (3 credits)**

This course is the third part of a four-course foundational interdisciplinary sequence specifically devised for first-year students in Meijer Honors College. It surveys the history and culture of east and SE from c. 900 CE to the present. Fulfills Foundations - Arts. Offered winter semester. Prerequisites: Fulfillment of general education Foundations - Writing, restricted to first-year students in Meijer Honors College. Corequisite: HNR 277.

## **HNR 277 - East Asia and the World: Ideas, Inventions, and Power 4 (3 credits)**

This course is the fourth part of a four-course, first-year interdisciplinary sequence specifically designed for first-year honors students. It surveys the arts, literature, and culture of Korea and Japan from c. 800 CE to the present. Fulfills Cultures - Global Perspectives. Fulfills one of the

Issues requirements. Offered winter semester. Prerequisite: Restricted to first-year honors students. Corequisite: HNR 276.

## **HNR 278 - History of Science II (3 credits)**

HNR 278 focuses on the development of European science and art from 1650-1850, with particular emphasis on Newton, chemistry, the Enlightenment, and Romanticism. It is the third of an integrated four-course sequence. Taken concurrently with HNR 279, this course satisfies the SWS requirement. Fulfills Foundations - Arts. Offered winter semester. Prerequisite: Enrollment in Meijer Honors College. Corequisite: HNR 279.

## **HNR 279 - History of Science II (3 credits)**

HNR 279 covers some of the methodological, metaphysical, and ethical issues of modern science from Newton through the 1800s and places these in their historical and cultural contexts. It is the fourth of an integrated four-course sequence. Taken concurrently with HNR 278, this course satisfies the SWS requirement. Fulfills Foundations - Philosophy and Literature. Fulfills one of the Issues requirements. Offered winter semester. Prerequisites: Enrollment in Meijer Honors College and junior standing. Corequisite: HNR 278.

## **HNR 280 - Honors Special Topics (1 to 3 credits)**

A study of special topics, areas, or experiences not covered in the curriculum. The selected focus will be described in the class schedule. Offered on demand. Prerequisites: Admission to Meijer Honors College; previous HNR coursework.

## **HNR 281 - Study Abroad - Ghana (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

## **HNR 311 - Honors Junior Seminar (3 credits)**

An intensive, in-depth study of a special problem or topic. The seminar, taken in the junior or senior year, is a Capstone for the liberal arts component of the student's education. It provides an occasion for considering the ways in which liberal arts disciplines impinge upon each other. Fulfills Cultures - Global Perspectives. Fulfills one of the Issues requirements. Prerequisite: Junior standing.

## **HNR 312 - Honors Junior Seminar (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An intensive, in-depth study of a special problem or topic. The seminar, taken in the junior or senior year, is a Capstone for the liberal arts component of the student's education. It provides an occasion for considering the ways in which liberal arts disciplines impinge upon each other. Fulfills Cultures - U.S. Diversity. Fulfills one of the Issues requirements. Prerequisite: Junior standing.

### **HNR 313 - Honors Junior Seminar (3 credits)**

An intensive, in-depth study of a special problem or topic. The seminar, taken in the junior or senior year, is a Capstone for the liberal arts and sciences component of the student's education. It provides an occasion for considering the ways in which liberal arts and sciences disciplines impinge upon each other. Fulfills one of the Issues requirements. Prerequisite: Junior standing.

### **HNR 350 - Integrative Seminar (3 credits)**

An intensive, interdisciplinary study of a prominent historical or contemporary issue. This seminar-style course provides students the opportunity to deeply engage the scholarship relevant to the issue, and produce their own original, scholarly analyses. Offered every semester. Prerequisite: Admission to the Honors College.

### **HNR 351 - Honors Integrative Seminar/QL (3 credits)**

An intensive, interdisciplinary study of a prominent historical or contemporary issue. This seminar-style course provides students the opportunity to deeply engage the scholarship relevant to the issue, using data to illustrate course topic, and to produce their own original scholarly analyses. Offered every semester. Prerequisite: Admission into the Honors College.

### **HNR 380 - Honors Advanced Special Topics (1 to 4 credits)**

Advanced study of special topics, areas, or experiences not covered in the curriculum. The selected focus will be described in the class schedule. Offered on demand. Prerequisite: Junior standing or 12 previous credits in HNR courses.

### **HNR 399 - Independent Study (1 to 4 credits)**

Intensive study of a topic under supervision of a faculty member. Offered upon demand. Prerequisites: Previous honors coursework and junior standing.

### **HNR 401 - Senior Project Proposal (1 credit)**

A workshopping course. Students will work through the honors project proposal process, work to connect the project to their overall college experience, and articulate ways in which the project can create opportunities beyond graduation. Students will identify a mentor and develop an

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

approved project proposal. Offered fall and winter semesters. Prerequisite: Enrollment in the Meijer Honors College.

## **HNR 499 - Honors Senior Project (1 to 4 credits)**

An individually designed project that is the culminating study in the student's major field. Offers an opportunity to do intensive study, writing, or research in the major or principal cognate field. Permit required.

## **HPE 195 - Introduction to Teaching Health and Physical Education (3 credits)**

This course will introduce prospective teachers to the profession of health and physical education. Students will develop an understanding of the national standards, engage in lesson/unit planning, observe effective teaching behaviors and discuss the history and philosophy of HPE. Students will engage in off-campus observations of teachers in PK-12 settings. Offered fall semester.

## **HPE 200 - Methods of Teaching Dance (2 credits)**

The purpose of this course is to prepare prospective teachers with the essential experiences needed for rhythmic movement competency in the PK-12 setting. This includes the pedagogy and skill required to design and implement learning experiences related to rhythm and dance. Observations are expected and may require travel off campus.

## **HPE 220 - Methods of Teaching Net/Wall/Target Activities (2 credits)**

The purpose of this course is to prepare prospective teachers to teach Net/Wall/Target activities in the PK-12 setting. Emphasis is placed on planning and implementing developmentally appropriate lessons. Topics may include: badminton, handball, bowling, peteca, archery and golf and associated lead up skills necessary. Prerequisite: HPE 195.

## **HPE 230 - Methods of Teaching Invasive Games (2 credits)**

The purpose of this course is to prepare prospective teachers to teach invasion games in the PK-12 setting. Emphasis is placed on planning and implementing developmentally appropriate lessons. Topics may include: rugby, lacrosse, team handball, and field hockey. Sport education and teaching games for understanding are the featured curriculum models. Prerequisite: HPE 195.

## **HPE 240 - Methods for Teaching Health Related Fitness (3 credits)**

This course will introduce prospective teachers to fitness instruction and assessment in the PK-12 school setting. Topics include effects of physical activity and inactivity, nutrition, fitness assessment procedures, principles, and guidelines for developing health-related and skill-related fitness, and providing a safe learning environment. Observations may include travel off campus. Offered fall and winter semesters.

## **HPE 260 - Methods of Teaching Outdoor Pursuits (3 credits)**

This course will prepare prospective teachers with the knowledge, skills, and competencies necessary to teach a variety of outdoor pursuits to PK-12 students. Topics may include: navigation, survival skills, rock climbing, fishing, and snowshoeing. Cooperative learning and outdoor education curricular models will be featured throughout this course. Offered winter semester.

## **HPE 264 - Methods of Teaching Early Childhood Movement and Health (2 credits)**

The purpose of this course is to prepare prospective teachers to create developmentally appropriate learning experiences for young children. Emphasis will be on play-based movement experiences, understanding safety, identifying essential health habits of the young child, and exploring appropriate teaching methodologies for young learners. Observations may include travel off campus. Offered winter semester.

## **HPE 267 - Health and Movement Education for Elementary Teachers (3 credits)**

This course will prepare prospective elementary school teachers to incorporate quality health and physical activity content into the PK-6 school setting. The course will focus on the important role educators play in educating the whole child. Advocacy, content knowledge, skill building, and pedagogy will be highlighted. Offered every semester.

## **HPE 270 - Methods of Teaching Skills-Based Health Education (3 credits)**

The course will prepare prospective teachers for teaching skills-based health instruction and assessment in the PK-12 school setting. Emphasis will be placed on planning and implementing developmentally appropriate health lessons according to the national and state health standards. Prerequisite: HPE 195.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HPE 272 - Methods of Teaching Reproductive Health (2 credits)**

An overview of curriculum content and information appropriate for implementing sexuality education courses in secondary schools. Emphasis will be placed on research-based sexuality education including: puberty, HIV/AIDS, education, curriculum planning, current sex education laws, educational resources, and developing a safe classroom environment. Offered fall and spring/summer semesters.

## **HPE 301 - Methods of Teaching Secondary Health Education (3 credits)**

This course will prepare prospective teachers to implement a variety of pedagogical practices for secondary health education. Emphasis will be placed on the creation and implementation of lessons, units, assessments, and the integration of technology. Observations may include travel off campus. Must be taken prior to student teaching. Prerequisites: PED 207, HPE 270, and HPE 272.

## **HPE 302 - Methods of Teaching Adapted Physical Education (3 credits)**

The purpose of this course is to provide prospective teachers with theoretical and practical knowledge to plan and implement appropriate physical education for students with disabilities in integrated settings. This course focuses on the needs of students with physical, intellectual, emotional, and sensory disabilities. Field-work may include travel off campus.

## **HPE 306 - Methods of Teaching Elementary Physical Education (3 credits)**

The purpose of this course is to prepare prospective teachers to implement a variety of pedagogical practices for elementary physical education. Emphasis is on the creation and implementation of lessons, units, assessments and the integration of technology. Observations may include travel off campus. Must be completed prior to student teaching. Prerequisites: HPE 200, HPE 220, and HPE 264.

## **HPE 307 - Methods of Teaching Secondary Physical Education (3 credits)**

The purpose of this course is to prepare prospective teachers to implement a variety of pedagogical practices for secondary physical education. Emphasis is on the creation and implementation of lessons, units, assessments and the integration of technology. Observations

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

may include travel off campus. Must be completed prior to student teaching. Prerequisites: HPE 220, HPE 230, and HPE 240.

## **HPE 309 - Assessment in Health and Physical Education (3 credits)**

The purpose of this course is to prepare prospective teachers to assess PK-12 students in health and physical education. Emphasis is placed on the benefits, uses, methods, and practical application of effective standards-based assessments. Prerequisites: HPE 230, HPE 240, HPE 270, and STA 215.

## **HPE 401 - Professionalism in Health and Physical Education (Capstone) (3 credits)**

The purpose of this course is for prospective teachers to focus on professional development and advocacy for health and physical education. Students will reflect on their experience as health and physical educators, identify ethical behaviors necessary to become effective professionals and focus on current issues in the field. Prerequisites: HPE 301, HPE 306, and HPE 309. Corequisite: HPE 307.

## **HRG 501 - Anatomy and Physiology of Hearing and Balance (3 credits)**

A study of the anatomy and physiology of the peripheral and central auditory and balance systems. Knowledge in this area will provide the basis for evaluation and treatment of individuals with hearing and/or balance disorders. Offered fall semester. Prerequisite: Admission to the audiology program.

## **HRG 504 - Instrumentation and Hearing Science (3 credits)**

A study of topics and procedures of instrumentation and hearing science that are fundamental to clinical practice including electronics, filters, acoustical impedance, analog and digital signals, and acoustics. Offered winter semester. Prerequisite: Admission to the audiology program.

## **HRG 508 - Psychoacoustics (2 credits)**

Psychoacoustics is the study of the relationship between a sound stimulus and the behavioral response it produces in a listener. Research methodology in the field will be discussed and applied to current measures of the physical and psychological characteristics of sound and perception. Applications to clinical audiology will be addressed. Offered spring/summer semester. Prerequisites: Admission to the audiology program and successful completion of HRG 504.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HRG 521 - Audiologic Assessment (3 credits)**

This course is designed to provide a foundation of assessment tools used in clinical audiology. Information gathered from this course will form the basis for audiologic test procedures used in clinical experiences. Offered fall semester. Prerequisite: Admission to the audiology program.

## **HRG 525 - Neurophysiologic Measures I (3 credits)**

The first course of a two-course sequence on neurophysiologic measures, including physiological and electrophysiological measurements used for assessment of the human auditory system. Focus will be on the principles of measurement, clinical applications, and clinical measurement of auditory evoked potentials and otoacoustic emissions. Offered fall semester. Prerequisite: Admission to the audiology program.

## **HRG 526 - Neurophysiologic Measures II (3 credits)**

The second of a two-course sequence on neurophysiologic measures, covering current and proposed physiological and electrophysiological measurements used for clinical assessment of the human auditory system. Topics will include advanced treatment of the auditory brainstem response, auditory steady-state response, middle latency evoked response, electroneuronography, and vestibular evoked myogenic potentials. Offered winter semester. Prerequisite: HRG 525.

## **HRG 527 - Vestibular Assessment and Rehabilitation (3 credits)**

Study of concepts in clinical testing, treatment, and mechanisms of rehabilitation of disorders of the vestibular and balance system including an advanced study of the anatomy and physiology of the oculomotor and vestibular systems. Offered spring/summer semester. Prerequisite: HRG 501.

## **HRG 541 - Amplification I (3 credits)**

An introduction to issues and technologies that are important in the area of amplification. Topics will be related to hearing aid technology and assistive listening devices. Prerequisite: Admission to the audiology program.

## **HRG 542 - Amplification II (3 credits)**

This course provides a treatment of the issues and technologies that are important in the area of amplification, with a particular focus on the appropriate selection, programming, and fitting of devices for pediatric, adult, and geriatric populations. Offered winter semester. Prerequisite: HRG 541.

## **HRG 545 - Auditory Habilitation and Rehabilitation (3 credits)**

This course addresses the impact of hearing loss on human communication across the lifespan. Contemporary aural habilitation and rehabilitation procedures for individuals with hearing loss will be considered. Offered spring/summer semester. Prerequisites: HRG 541 and HRG 542.

## **HRG 562 - Professional Issues in Audiology (1 credit)**

Professional issues relevant to the practice of audiology. Includes contemporary diagnostic and rehabilitation issues affecting the profession. Course offered winter semester. Prerequisite: Admission to the audiology program.

## **HRG 566 - Evidence-Based Practice in Audiology (1 credit)**

This course addresses the application of evidence-based practice to the field of audiology with consideration of diverse patient populations and ethical practice. Content is treated with emphasis upon problem solving using evidence-based practice and the integration of information across didactic and practical knowledge bases toward clinical skill development. Offered spring/summer semester. Prerequisite: Admission to the audiology program.

## **HRG 570 - Audiology Fieldwork (1 credit)**

This is the first-year supervised audiology practical experience and will be taken each semester of the first year of the program. Students participate in basic audiology clinical practice under the supervision of professional audiologists. Offered spring/summer semester. Prerequisite: Admission to the Au.D. program.

## **HRG 606 - Auditory Pathophysiology and Heredity (2 credits)**

A study of the disorders of the external, middle, and inner ears, the central auditory system, and the vestibular system, including an examination of heredity as related to disorders of the human auditory and vestibular systems. Offered winter semester. Prerequisites: Admission to the audiology program and successful completion of all previously required courses in the Au.D. curricular sequence.

## **HRG 607 - Radiographic Imaging and Pharmacology for Audiology (2 credits)**

This course addresses topics of particular relevance to audiology practice in a medical setting. The role of radiographic imaging for audiologic diagnosis will be considered as well as the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

mechanisms of pharmacology and mechanisms of ototoxicity. Offered spring/summer semester. Prerequisites: Admission to the audiology program and successful completion of all previously required courses in the Au.D. curricular sequence.

## **HRG 623 - Hearing Across the Lifespan (3 credits)**

This course focuses on the nature, assessment, and treatment of hearing disorders with pediatric through geriatric populations. Students will learn evaluation techniques and treatment strategies for patients across the lifespan with hearing impairment. Legal and professional implications of practice with these patient populations will be discussed. Offered fall semester. Prerequisites: Admission to the audiology program and successful completion of all previously required courses in the Au.D. curricular sequence.

## **HRG 629 - Clinical Decision Making in Audiology (2 credits)**

This course serves as a Capstone experience during which students are provided the opportunity to synthesize their knowledge and skills in audiology across disorder areas and the lifespan using a case study approach. Offered spring/summer semester. Prerequisites: Admission to the audiology program and successful completion of all previously required courses in the Au.D. curricular sequence.

## **HRG 642 - Educational Audiology and Auditory Processing Disorders (2 credits)**

A study of educational audiology, including the role of the educational audiologist, the educational difficulties of children with hearing impairments, and the methods to address those problems. Auditory processing disorders, as well as the assessment, treatment, and neuroanatomy and physiology of these disorders will be discussed. Offered winter semester. Prerequisites: Admission to the audiology program and successful completion of all previously required courses in the Au.D. curricular sequence.

## **HRG 645 - Cochlear Implants and Tinnitus (3 credits)**

A study of cochlear implants including selection criteria for candidacy, steps in cochlear implantation, pre- and post-implant audiological procedures, and habilitation and rehabilitation of patients with cochlear implants. Characterization, assessment, and treatment of tinnitus will also be discussed. Offered fall semester. Prerequisites: Admission to the audiology program and successful completion of all previously required courses in the Au.D. curricular sequence.

## **HRG 648 - Mentoring and Counseling in Audiology (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course addresses the principles and practices of counseling patients with hearing impairment and their families as part of clinical practice. How to communicate and interact effectively with patients experiencing hearing loss will be discussed. Best practices of mentoring other professionals and preceptors is also discussed. Offered winter semester. Prerequisites: Admission to the audiology program and successful completion of all previously required courses in the Au.D. curricular sequence.

## **HRG 661 - Hearing Conservation (2 credits)**

This course addresses issues regarding hearing conservation in industry and the community, including noise abatement. Focus will be placed on advocacy and intervention for hearing risks in occupational, recreational, educational, and home settings. Noise assessment, risk factors, hearing protectors, audiometric testing, employee training, and record keeping will be discussed. Offered fall semester. Prerequisites: Admission to the audiology program and successful completion of all previously required courses in the Au.D. curricular sequence.

## **HRG 664 - Audiology Practice Management (2 credits)**

Issues regarding the management of an audiology practice will be discussed. Topics include professional ethics and the legalities of practice, employee/employer laws and regulation, current status of the healthcare system services and reimbursement, and development of an audiology practice. Offered winter semester. Prerequisites: Admission to the audiology program and successful completion of all previously required courses in the Au.D. curricular sequence.

## **HRG 670 - Audiology Practicum (2 credits)**

This is the second-year supervised audiology practical experience. Students gain clinical experience working with patients across a range of ages, disorder areas, and type of clinical setting. Professionals in the community will supervise and instruct students in basic audiology clinical practice. Offered every semester. Prerequisites: HRG 570 and all previously required courses in the Au.D. curricular sequence.

## **HRG 690 - Research Preparation in Audiology (3 credits)**

This course addresses principles and practices of basic and applied research in audiology. Topics include experimental design, evidence-based practice, overview of statistical methods, and application to clinical populations. Students should develop skills to make informed decisions about the relevance of research to clinical practice. Offered spring/summer semester. Prerequisites: Admission to the audiology program, successful completion of all previously required courses in the Au.D. curricular sequence, and a prior course in statistics. The requirement is for an undergraduate statistics course, but this prerequisite may also be fulfilled by a graduate-level statistics course.

## **HRG 697 - Professional Learning (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **HRG 760 - Special Topics in Audiology (1 credit)**

This course addresses advanced topics in audiology not ordinarily covered in other courses, with an emphasis upon problem solving and integration of information across didactic and practical knowledge. Offered every semester. Prerequisite: Successful completion of all previously required courses in the Au.D. curricular sequence. Students enroll in this course each semester of their final year of the program.

### **HRG 770 - Audiology Internship (6 credits)**

This is the final supervised sequence of audiology practical experiences which allows a variety of clinical placements across the lifespan. Professionals in the community will supervise and instruct students in preparation for entry-level clinical practice. May be repeated for credit. Offered every semester. Prerequisite: HRG 670.

### **HRG 797 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **HRG 799 - Independent Study in Audiology (1 to 6 credits)**

This course provides opportunity for in-depth study in an area of special interest as directed by a faculty member. Offered every semester. Prerequisites: Admission to the audiology program. Requires department chair and faculty supervisor approval.

### **HRT 105 - Introduction to Human Rights (3 credits)**

Introduction to the historical and conceptual development of human rights as moral, legal, and cultural constraints on the behavior of states in relation to their citizens. Analysis is theoretical, exploring philosophical arguments surrounding the historical development of human rights and their current role in legal, cultural, literary, and political products. Fulfills Foundations - Philosophy and Literature. Cross-listed with PLS 105. Offered fall and winter semesters.

### **HRT 316 - Human Rights in International Politics (3 credits)**

An analysis of human rights as an increasingly influential principle in international relations, and the friction between sovereignty and international standards of behavior. Topics covered within class may include the theoretical origins of human rights, international norms, international law, sovereignty, interventionism, particularly viewed through historical and contemporary human

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

rights cases. Cross-listed with PLS 316. Offered fall semester. Prerequisite: PLS 103 or PLS 211 or junior standing.

### **HRT 319 - Human Traffic and Trafficking (3 credits)**

Drawing on interdisciplinary approaches to globalization, the course critically examines the forced and/or coercive global transfer of people, the traffic and trafficking of humans, through historical and contemporary perspectives. Topics may include migrant smuggling, forced labor, slave trade, sex workers, voices of survival workers, and self-advocacy in survival communities. Part of the Globalization Issue. Cross-listed with HST 319 and INT 319. Offered fall and winter semesters. Prerequisite: Junior standing.

### **HRT 320 - Voices of the Civil Rights Movement in the United States (3 credits)**

This interdisciplinary course integrates numerous expressive genres, including autobiographies, oral histories, and music, to examine how activists challenged human rights violations. Narrations of individual transformations show how shared experiences, ideologies, and opposition expanded understandings of human rights nationally and globally during the civil rights movements in the United States. Part of the Human Rights Issue. Fulfills Cultures - U.S. Diversity. Cross-listed with INT 320. Offered every other year. Prerequisite: Junior standing.

### **HRT 335 - Theory of Human Rights (3 credits)**

Critical examination of theories of human rights, with emphasis on classical ethical and political thought and the development of modern rights theory. Assessment of arguments both supporting and denying human rights, and applications to contemporary issues of slavery and trafficking, torture, genocide, and rights of women and sexual minorities. Cross-listed with PLS 335. Offered fall semester. Prerequisite: PLS 105, or PLS 231, or PLS 232, or HNR 263.

### **HRT 389 - Study Abroad in Human Rights (3 credits)**

Coursework completed by student in study abroad programs. Course offered each semester. Prerequisite: Instructor permission.

### **HRT 399 - Independent Studies in HRT (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

### **HRT 450 - Reflection on Human Rights (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Directed reflection upon and integration of the student's work in human rights coursework and research. Students will prepare a final project that reflects learning from their whole body of work in the human rights minor. Offered fall and winter semesters. Prerequisites: Human rights minors only and junior standing.

### **HRT 490 - Internship in Human Rights (3 credits)**

Internship experience in the wider human rights world combined with biweekly classroom discussion of ongoing service work and some assigned reading. Students will prepare a portfolio documenting their term's work and reflections. Offered each semester. Prerequisite: Permission of instructor.

### **HRT 499 - Independent Study in HRT (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

### **HSC 201 - The Scientific Revolution (3 credits)**

What are the origins of modern science? This course explores the emergence of scientific ideas and institutions during the Scientific Revolution (1450-1800) by examining how scientists built on the work of earlier thinkers, how their work was fostered and/or constrained by religion and politics, and why their ideas endured. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Offered fall, winter, and occasional spring/summer semesters. Offered for SWS credit during the spring/summer semester.

### **HSC 202 - The Technological Revolution (3 credits)**

How has technology evolved? Why has it changed? With what consequences? This course examines the development of technological systems from the 1700s to the 2000s by considering their influence on the cultural values of everyday people, their economic and environmental effects, and their shaping of our current technological society. Occasionally offered for SWS credit. Fulfills Foundations - Historical Perspectives. Offered fall, winter, and occasional spring/summer semesters.

### **HSC 399 - Readings in the History of Science (1 to 3 credits)**

Offers students the opportunity to explore a topic in the history of science in depth under the supervision of a staff member. Offered fall and winter semesters. Prerequisites: Two history of science courses and permission of instructor.

### **HST 101 - Introduction to World Civilizations (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course examines the long-term trajectory of world history. Taking a global approach, students think beyond national boundaries and consider themes that bind disparate regions together, such as trade, migration, the environment, state formation, and imperialism. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Offered every semester.

## **HST 102 - Introduction to European Civilizations (3 credits)**

This course examines the long-term trajectory of European civilizations, focusing on the development of Europe and the complex interrelationships between political, economic, social, and cultural aspects over time. Students may consider themes such as the emergence of nation-states, trade, migration, religion, class conflict, gender, racism, genocide, nationalism, or demographic change. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Offered every semester.

## **HST 103 - Introduction to American Civilizations (3 credits)**

How did we get here? Explore the long-term development of American history from precolonial origins to European colonies to a world power. Investigate how social, cultural, political, and economic forces have shaped our lives. Topics and thematic approach will vary by section. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - U.S. Diversity. Offered every semester.

## **HST 180 - Special Topics in History (3 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **HST 200 - Introduction to the Study of History (3 credits)**

This gateway course introduces students to basic research, analytical, and methodological skills through explorations of primary and secondary sources. In addition, students learn how to create a historical argument by developing a research question, annotated bibliography, and a research prospectus or research paper. Topics will vary from semester to semester. Offered each semester.

## **HST 202 - History of Global Change and Social Transformation (3 credits)**

A historical inquiry into long-term processes of global change and social transformation. Focus is on increasing interconnectedness of human communities from the deep past to the present, including spread of cultural, market, and ecological exchanges, transport and communication technologies, developing ideas of social justice, and their connections to contemporary times.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Cross-listed with GSI 202. Offered fall and winter semesters.

## **HST 203 - World History to 1500 A.D. (3 credits)**

Basic content and methods of history through an introductory study of world cultures before 1500. The course focuses on specific societies in Africa, Asia, Europe, and the Western Hemisphere, analyzing and comparing the ways in which political, economic, social, cultural, and demographic factors influenced the development of these various cultures. Required for majors. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Offered every semester.

## **HST 204 - World History since 1500 (3 credits)**

Basic content and methods of history through an introductory study of world cultures from 1500 to present. The course focuses on specific societies in Africa, Asia, Europe, and the Western hemisphere, analyzing and comparing the ways in which political, economic, social, cultural, and demographic factors influenced the development of these various cultures. Required for majors. Fulfills Cultures - Global Perspectives. Fulfills Foundations - Historical Perspectives. Offered every semester.

## **HST 205 - American History to 1877 (3 credits)**

The development of the United States from the Colonial Period to the end of Reconstruction with an emphasis on the role that race, ethnicity, culture, political thought, economics, and gender played in shaping American values and institutions. Fulfills Cultures - U.S. Diversity. Fulfills Foundations - Historical Perspectives. Offered every semester.

## **HST 206 - American History since 1877 (3 credits)**

Explore how race, gender, politics, and economics shaped American history since 1877. Topics include civil rights, foreign policy, immigration, industrialization, changing visions of our nation's mission, the growth of its global influence, and shifts in the distribution of people and power. Fulfills Cultures - U.S. Diversity. Fulfills Foundations - Historical Perspectives. Offered every semester.

## **HST 207 - European Civilization to the Later Middle Ages (3 credits)**

A historical survey focusing on the development of European civilization from Classical Greece to the Later Middle Ages. This course will explore the intellectual, social, religious, political, and cultural aspects of the formation of Europe. Topics include the rise and fall of Greece and Rome, and the formation of Europe. Fulfills Foundations - Historical Perspectives.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HST 208 - European Civilization since the Later Middle Ages (3 credits)**

Examines major events in European history from the Later Middle Ages to the present, including social, political, economic, and cultural developments. Topics will include the Reformation and Renaissance, the Age of Revolutions, the rise of fascism and communism, the two world wars and the Holocaust, and events since 1945. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives.

## **HST 209 - History and Social Studies for Elementary Teachers (3 credits)**

Introduces the basic content and methods of inquiry of history and social studies for students who plan to teach at the PK-6 grade levels. Students will develop knowledge, understanding, and application of the major concepts and modes of inquiry from the social studies disciplines with particular emphasis on history. Fulfills Foundations - Historical Perspectives. Offered fall and winter semester.

## **HST 211 - History of Islamic Civilization (3 credits)**

An introduction to the history of Islamic civilization and the development of its relationships with Western Europe and the United States. Fulfills Cultures - Global Perspectives. Fulfills Foundations - Historical Perspectives.

## **HST 212 - India: History and Civilization (3 credits)**

Examines the history, culture, and civilization of India from ancient to early modern period. It covers the rise and fall of civilizations, kingdoms, and dynasties. In tracing historical developments, the course emphasizes the rich and diverse culture of human experiences that have shaped a relatively unique civilization in South Asia. Fulfills Cultures - Global Perspectives. Fulfills Foundations - Historical Perspectives. Offered fall semester of even-numbered years.

## **HST 230 - Latin America in World History (3 credits)**

This is a broad survey of Latin American history from the pre-Colombian period to the present. The course will focus on major issues and themes in Latin American history. Topics include Amerindians, conquest, slavery, independence, national identity, foreign intervention, revolutions, and inequality. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives.

## **HST 240 - A History of East Asia to 1800 (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduces major themes of the history of East Asia (China, Japan, Korea, and Vietnam) from prehistory to 1800. Explores cultural interactions among East Asian countries as well as their indigenous cultural traits. Some basic skills, such as critical reading and writing, will also be practiced. Fulfills Cultures - Global Perspectives. Fulfills Foundations - Historical Perspectives.

## **HST 241 - A History of East Asia since 1800 (3 credits)**

A broad overview of East Asian political systems, social changes, economic transformation, regional relations, and cultural interaction since 1800. Major historical events and trends along with cultural differences and interactions will be examined. Emphasis is given to China and Japan, though Korea and Vietnam are also covered. Fulfills Cultures - Global Perspectives. Fulfills Foundations - Historical Perspectives.

## **HST 290 - Research Methods in History (3 credits)**

Explores historical research methods and focuses on how historians challenge dominant theories of knowledge and the major methodologies employed in the social sciences and humanities; examines the ways in which historians shape research questions and determine the types of materials used. Prerequisite: STA 215 or STA 312.

## **HST 301 - Colonial America (3 credits)**

A history of the British North American colonies through the conclusion of the Seven Years War. Topics include the origins of the colonies, relations with the Native Americans, British colonial policy, the origins of slavery, and social, political, and cultural development of the colonies.

## **HST 302 - Revolutionary America (3 credits)**

A study of the American Revolution. Topics may include the causes and consequences of the American Revolution, and social/political/economic developments in the United States through the War of 1812.

## **HST 303 - Era of Sectional Conflict, Civil War, and Reconstruction (3 credits)**

This course focuses on the rise in sectional tensions, the conduct of the Civil War, and the tensions over the postwar/Reconstruction period in the United States.

## **HST 305 - America Confronts Modernity (3 credits)**

Analysis of topics in the Gilded Age and progressive era. Topics may include the modernization of technology, agriculture, and industry; urbanization; immigration; labor relations; international

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

trade; military ventures; race relations at home and abroad; Progressivism and Populism; and the 1920s.

## **HST 306 - The 'American Century': From the Great Depression to Vietnam (3 credits)**

Thematic survey of the United States from the 1930s through the Vietnam War with focus on political, social, cultural, intellectual, and economic trends, in particular the Great Depression, the development of the welfare state, World War II, the Cold War, the civil rights movement, and the tumult of the 1960s.

## **HST 307 - United States since 1970 (3 credits)**

Thematic survey of the United States since the Vietnam War, with focus on political, social, cultural, intellectual, and economic trends. Particularly the impact of globalization and the end of the Cold War, industrial and technological change, multiculturalism, consumerism and the mass media, and the ascendancy of conservatism.

## **HST 308 - Cultural and Social Topics in U.S. History (3 credits)**

Examines various topics in U.S. social and cultural history. Course explores a specific topic defined by the instructor. May be repeated for credit if content varies. Part of the Identity Issue. Prerequisite: Junior standing.

## **HST 309 - Cultural and Social Topics in European History (3 credits)**

Examines various topics in European social and cultural history. Course explores a specific topic defined by the instructor. May be repeated for credit if content varies.

## **HST 310 - Cultural and Social Topics in Nonwestern History (3 credits)**

Examines various topics in non-Western cultural and social history. Course explores a specific topic defined by the instructor. May be repeated for credit if content varies. Fulfills Cultures - Global Perspectives.

## **HST 311 - History of Religion in the United States (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course is a study of the major developments in the religious history of the United States from the first North American colonies to the start of the 21st century, concentrating on the relationship between religion and other aspects of American history. Part of the Identity Issue. Prerequisite: Junior standing.

## **HST 312 - History of American Women (3 credits)**

Analysis of the political, social, economic, and cultural history of women in American society from the Colonial era through the present. Topics include domesticity, suffrage, health, employment, race, war, and feminism.

## **HST 314 - African American History (3 credits)**

Examines the history of African Americans from forced migration through the civil rights movement. Issues studied include race relations, black culture in slavery, emancipation, the origins of segregation, the "great migration," and the civil rights movement. Fulfills Cultures - U.S. Diversity.

## **HST 315 - Latinos: The Forging of Ethnic Identities (3 credits)**

Examination of the ways in which Mexicans, Cubans, Puerto Ricans, Central Americans, and others have over time created ethnic identities in the United States out of their transnational experiences. Also explores the impact of this process on American political, economic, and social structures.

## **HST 316 - U.S. Civil Rights Movement History (3 credits)**

This course will focus on United States civil rights leaders and their rhetoric of resistance, and focus on the social and cultural formations that undermined racial segregation. It will also examine the events and forces that created space for a successful movement.

## **HST 317 - History of American Foreign Relations (3 credits)**

Historical development of United States relations with foreign powers focusing on issues of war and peace. Concentration on significant periods of policy formation and change, with attention to factors determining policy.

## **HST 318 - History of Democracy in America (3 credits)**

Examines the historical development of democratic principles, ideologies, and practices in American history through case studies of particular crises in American democracy. Focuses on limits of democracy and debates among Americans and between scholars about practice of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

democracy in a variety of areas and from a multiplicity of viewpoints. Part of the Human Rights Issue. Prerequisite: Junior standing.

## **HST 319 - Human Traffic and Trafficking (3 credits)**

Drawing on interdisciplinary approaches to globalization, the course critically examines the forced and/or coercive global transfer of people, the traffic and trafficking of humans, through historical and contemporary perspectives. Topics may include migrant smuggling, forced labor, slave trade, sex workers, voices of survival workers, and self-advocacy in survival communities. Part of the Globalization Issue. Cross-listed with INT 319 and HRT 319. Offered fall and winter semesters. Prerequisite: Junior standing.

## **HST 320 - American Indians (3 credits)**

An examination of selected topics and peoples from among the diverse Native American peoples north of Mexico, from the mythic beginnings to the modern era. Topics include problems of writing Indian history, ethnohistory, Indian-white relations, environmentalism, survival, assimilation, and Indian perspectives on American history.

## **HST 322 - American Identity and Sports (3 credits)**

The course examines American sports and how sports have helped construct ideas of race, ethnicity, gender, and class, and how individuals use sports to prove Americanness. Part of the Identity Issue. Prerequisite: Junior standing.

## **HST 323 - Michigan History (3 credits)**

A survey of the major economic, political, and social themes in Michigan. Special emphasis will be placed on the urban development of Detroit and Grand Rapids, the auto industry, race relations, and modern political trends.

## **HST 325 - Topics in the History of Sport (3 credits)**

Examines sports history in different regions and chronological periods. Topics will vary, but all sections will explore sport within the broader contexts of social, political, cultural, and economic trends. In addition, particular interest will be paid to issues such as race, class, sexuality, and gender in sport.

## **HST 327 - History of United States Urban Society (3 credits)**

A historical analysis of American urban structures including the commercial city, the industrial city, the suburbs, and the edge city. These structures will be seen as metaphorical theatrical

stages upon which ethnic, racial, gender, and economic groups create social and cultural formations.

## **HST 328 - U.S. Constitutional and Legal History (3 credits)**

Introduction to the constitutional and legal history of the United States, with particular emphasis on the social, political, and economic contexts of the law and Constitution, the origins of the Constitution, and evolution of constitutional jurisprudence, the development of legal practices, and the relationship between the citizen and the state.

## **HST 329 - U.S. Intellectual History (3 credits)**

Examines the major trends in American thought from the colonial period to the present. Examples of topics covered include evangelicalism, republicanism, the transcendentalists, feminism, the impact of Darwin and science on social thought, race, pragmatism, modernist criticism, liberalism, conservatism, and postmodern critical theory.

## **HST 330 - Colonial Latin America (3 credits)**

This course will focus on specific themes related to Latin American civilization and culture from preconquest times to the 19th century. Topics include Amerindian civilizations; encounters between Amerindians, Europeans, and Africans; makings of a colonial society; collapse of colonial rule; and wars of independence. Cross-listed with LAS 330.

## **HST 331 - Modern Latin America (3 credits)**

This course will focus on themes related to Latin America from the independence period to the present day. Major themes will include patterns of state formation and models of economic development; United States intervention; the origins and course of radicalism and counter-revolution; and the problems of peaceful reform. Part of the Identity Issues. Cross-listed with LAS 331. Prerequisite: Junior standing.

## **HST 332 - Emergence of Modern India and South Asia (3 credits)**

This course examines the emergence of modern India and South Asia from the 17th century to the present. Topics include: tradition, modernity, imperialism, culture, religion, women and gender, migration, globalization, human rights, nationalism, Indian diaspora, and conflict and cooperation between the South Asian countries and between India and major world powers. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Prerequisite: Junior standing.

## **HST 333 - Modern China (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduction to modern Chinese history from the late Ch'ing Dynasty to the present. Particular emphasis will be on China's two revolutions in 1911 and 1949 and the rise of Communism.

### **HST 334 - The Making of the Caribbean (3 credits)**

A survey of Caribbean history from the pre-Colonial era to the rise of nationalism and independence. Course will emphasize specific islands and will cover a wide range of topics, such as the rise of the plantation system, slavery and emancipation, cultural retention, resistance, migration, and inter-regional relations.

### **HST 335 - Africa Before 1870 (3 credits)**

The course will focus on specific themes and characteristics of selected cultures and civilizations in Africa before European conquest. Topics will include economic activity, culture, social organization, indigenous religions, gender and sexuality, textiles and clothing, African slavery, and state formation.

### **HST 336 - Africa After 1870 (3 credits)**

The course will focus on specific themes related to European conquest of Africa and the transformation of selected African cultures under Colonial rule. Topics include scramble for partition, military conquest, missionary activity, Colonial economy and social changes, genocide and forced labor, resistance and nationalism, decolonization, and liberation.

### **HST 337 - The Age of Islamic Empire (3 credits)**

A historical and cultural examination of the Islamic peoples from preIslamic Arabia to the end of World War I. Emphasis on social, religious, economic, and political factors during each phase in Islam's development since the eighth century.

### **HST 338 - Modern Middle East (3 credits)**

A survey of cultural, economic, and political developments in the Middle East and North Africa from the end of World War I, with particular attention to the rise of nationalism and issues of modernization.

### **HST 339 - Modern Iran (3 credits)**

This course is a study of the major developments in the history of Iran from the Qajar shahs to the current Islamic Republic, concentrating on the relationship between state and society by highlighting religious, political, and cultural developments in modern Iran.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HST 342 - History of Buddhism and East Asian Religions (3 credits)**

Examines Buddhism and major religious traditions of East Asia and their modern developments through historical perspectives. Explores the visions, values, and activities of people in India, Tibet, China and Japan, and how their religious traditions have shaped their life experiences. Studies religious interactions among East Asian countries and their indigenous traits. Fulfills Cultures - Global Perspectives. Part of the Identity Issue. Prerequisite: Junior standing.

## **HST 343 - History of South Africa (3 credits)**

Examines the political, social, and economic history of South Africa from the late 17th century to the early 1990s. The course will analyze the forces that created modern South Africa, particularly European conquest and colonization, mineral discoveries, industrialization, Apartheid, religion and the Dutch Reformed Church, and African resistance. Prerequisite: HST 204 or junior standing.

## **HST 350 - Ancient Greece (3 credits)**

Greek history during the Archaic and Classical Periods. Emphasis on the development of historical writing in the Greek World, a critical examination of ancient and modern historiography, and significant aspects of Greek political and social history.

## **HST 351 - Ancient Rome (3 credits)**

Roman history from the foundation of the city of Rome through the reign of Augustus. Emphasis on the development of historical writing in the Roman World, a critical examination of ancient and modern historiography, and significant aspects of Roman political and social history.

## **HST 355 - Medieval Europe (3 credits)**

This course will explore the intellectual, political, religious, and cultural aspects of medieval Europe from the waning of the Roman Empire to the arrival of the Black Death in the 14th century. Emphasis will be placed on the intellectual, social, and spiritual uniqueness of medieval European civilization.

## **HST 357 - The Black Diaspora and the Meaning of Sports, 1800 to the Present (3 credits)**

This course explores the Black Diaspora (1800-present) through the lens of the black athlete in order to help examine global issues such as race, politics, economics, and gender. Part of the

Globalization Issue. Cross-listed with AAA 357. Offered winter semester. Prerequisite: Junior standing.

## **HST 360 - Tudor and Stuart England (3 credits)**

English history from 1485 to 1714 with appropriate attention to political, constitutional, and religious issues.

## **HST 361 - Modern Britain (3 credits)**

Examines Britain's social, political, and economic history from 1688 to the present. Topics include industrialization, building and collapse of empire, two world wars, and other major political and social changes in modern British history.

## **HST 364 - Renaissance and Reformation Europe (3 credits)**

Survey of European history from 1350 to 1560. Topics include political, social, cultural, intellectual, and religious history, with emphasis on major changes in these areas in Renaissance Italy and Reformation Germany, and on the connections between these changes.

## **HST 370 - History of Medicine and Health (3 credits)**

Interdisciplinary exploration of the diverse ways that western societies from Ancient Greece to the modern era have defined health and disease, provided health care, managed the environment, and sought to prevent illness. Examines the strengths and limits of past solutions to health questions and their applicability to modern society. Part of the Health Issue. Prerequisite: Junior standing.

## **HST 371 - Historical Perspectives on Gender and Sexualities (3 credits)**

Variable topics centering on the history of gender and sexuality. Topics include historical understandings of gender identity and sexual orientation and may vary by region and era. May be repeated if content varies. Part of the Identity Issue. Cross-listed with WGS 371. Prerequisite: Junior standing.

## **HST 372 - From Slavery to Freedom (3 credits)**

Ironically, modern concepts of freedom emerged from societies deeply invested in its opposite, slavery. This course looks at the history of slavery and its abolition in three Latin American societies, Haiti, Cuba, and Brazil, to distinguish the distinctive ways in which each of them defined and constructed freedom. Part of the Human Rights Issue. Cross-listed with LAS 372. Prerequisite: Junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HST 374 - Revolution in the Americas (3 credits)**

Men and women make history, sometimes through gradual, passive means and sometimes through sudden, active means. In the Americas, both categories of history-making have been common. This course explores international relations in the hemisphere by comparing revolutionary and evolutionary processes of change from Tierra del Fuego to the Northwest Territories. Cross-listed with LAS 374.

## **HST 375 - History of Mexico (3 credits)**

This course surveys the history of Mexico from the earliest human inhabitation to the present. It will introduce students to the major political, social, and cultural forces that have shaped the modern nation of Mexico. Cross-listed with LAS 375.

## **HST 376 - History of Witch Hunts (3 credits)**

Examines witch trials in various places and times across history, from a variety of perspectives, with emphasis on the marginalization of the accused witches within their communities. Geographical and chronological focus will vary, but may include early modern Europe, Colonial North America, or contemporary Africa. Part of the Identity Issue. Prerequisite: Junior standing.

## **HST 377 - History of Warfare (3 credits)**

Survey of the role of warfare in world history from prehistory to the beginning of the industrial era. Uses a variety of media and sources to examine why and how humans have fought wars and how warfare has affected different aspects of human experience in different world regions and eras.

## **HST 378 - Contesting Human Rights (3 credits)**

This course takes a game-based approach, based on written and oral analyses of primary sources, to explore key historical moments when human rights and questions of who should have them were contested. Students engage through collaborative role-play with complex historical situations in which rights were defined and fought over. Part of the Human Rights Issue. Prerequisite: Junior standing.

## **HST 380 - Special Topics in History (1 to 4 credits)**

A study of special topics, areas, or periods of history not offered in the regular curriculum. The selected focus will be described in the class schedule. Expectations of students in this course approximate those of other 300-level history courses.

## **HST 386 - 20th Century Europe (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Examines Europe in the 20th century, including the age of total war; the Holocaust and its legacy; postwar recovery; the Cold War; social, political, and cultural developments in East and West; the rise of the European Union; the end of communism; and contemporary Europe.

### **HST 387 - Modern Germany (3 credits)**

A survey of German history and culture since 1870, including the Imperial period of Bismarck and Wilhelm II, World War I, the Weimar Republic, Hitler's Third Reich, World War II, post-war division, and reunified Germany.

### **HST 389 - Russian History (3 credits)**

From the ninth through the 19th century. Topics include the origins of Russian expansion, the development of Russian civilization, and the origins of Revolution.

### **HST 390 - Soviet History (3 credits)**

From the Russian Revolution to the recent past. Topics include Lenin, Stalin, World War II, and the Cold War.

### **HST 393 - Study Abroad: Jamaica (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **HST 399 - Independent Study (1 to 3 credits)**

Intensive study of a topic, arranged as to credit and content with a member of the department. No more than three credits of HST 399 may be applied to the major or minor. Offered on arrangement. Prerequisite: Junior standing.

### **HST 400 - Junior Seminar in History (3 credits)**

Enables students to hone skills developed in HST 200 and honed in 300-level courses. Students discuss and evaluate a common body of readings on a chosen topic and develop specific research questions that will grow into significant research projects. May be repeated if content varies. Prerequisites: HST 200 and junior standing.

### **HST 405 - Local and Community History (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A seminar focused on the techniques of using material from local archives and other nearby sources for historical research. Offered spring/summer semester of even-numbered years. Prerequisite: Junior standing.

## **HST 410 - History Journal (3 credits)**

The primary goal of this course is to maintain and publish the Grand Valley Journal of History. Students work collaboratively to review and publish journal articles, as well as to advertise the journal. Course offered fall semester. Prerequisite: Permission of instructor. Prerequisite can be demonstrated in one of two ways: (1) demonstration of a basic working knowledge in the discipline of history through previously taken courses, (2) demonstration of a basic working knowledge through a one- to two-page essay describing the student's understanding of the discipline of history, including its methods and areas of focus.

## **HST 415 - Museum Studies (3 credits)**

Examines the history of museums; the organization, operation and multiple functions of museums; their contributions to public life; and the political, legal, ethical, and other contemporary debates concerning the roles of museums as cultural institutions. Also introduces practical skills such as collections management, exhibition design, and public outreach and education. Cross-listed with CLA 415. Offered fall semester. Prerequisite: Junior standing.

## **HST 420 - Public History (3 credits)**

Provides students with the practical and theoretical frameworks of public history, which is the use of the historical method outside of academia, in places such as museums, government, historical societies, and the business world. Students will learn to develop public history projects to serve local institutions in collaborative groups. Offered winter semester. Prerequisite: Junior standing.

## **HST 490 - History Internship (1 to 3 credits)**

Supervised work experience in a history-related field, initiated by the student, who must prepare a proposal in consultation with a faculty advisor and a worksite supervisor. The student will submit a final report, and both the worksite supervisor and the faculty advisor will evaluate the internship. Offered every semester. Prerequisites: 15 hours of coursework in history and permission of the department chair.

## **HST 495 - Varieties of History (Capstone) (3 credits)**

The Capstone serves as a culminating experience for students trained in historiography. It builds upon students' growing sophistication in historical practice by emphasizing foundational concerns of the profession. Professor's field of expertise determines the area of focus for the

course. Offered fall and winter semesters. Prerequisites: HST 400 and senior standing. For history majors only, except by permission of the chair. Required for majors.

## **HST 498 - Senior Thesis (3 credits)**

Working with a faculty advisor, the student conceives and completes an individualized historical research project resulting in a written paper evaluated by the faculty advisor. Prerequisite: Senior standing.

## **HST 680 - Special Topics in History (1 to 3 credits)**

Study of selected historical topics or periods not offered in the regular curriculum. Topics vary between United States and world history. Offered every year.

## **HST 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **HTM 100 - Career Readiness for the Business World (1 credit)**

A study of eight of the most common characteristics employers are looking for in employees, seen through the business of hospitality management. students will explore ways to develop skills in these areas to help them transition smoothly into the work world. Offered fall and winter semesters. Prerequisite: First year students only.

## **HTM 101 - Introduction to Hospitality and Tourism (3 credits)**

Explores the hospitality and tourism industry, including, but not limited to, lodging, food and beverage, and meeting and event planning. This course enables students to explore career options, see parts of the industry firsthand, and understand this dynamic global industry through a community-based learning perspective. Offered fall and winter semesters.

## **HTM 175 - International Food and Culture (3 credits)**

An exploration of world cultures via an examination of foods, focusing each semester on a different international cuisine. Demonstrates the ways in which intellectual, social, religious, political, economic, and geographic factors affect the development of regional cuisines. Exploration of culture and tastings of the region's food and beverages are included. Fulfills Cultures - Global Perspectives. Offered winter semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HTM 180 - Special Topics in Hospitality and Tourism Management (1 to 4 credits)**

Consideration of selected topics not ordinarily dealt with in other courses. Topics to be determined by faculty interest and student request. Offered on sufficient demand.

## **HTM 190 - Field Preparation (1 credit)**

An orientation course preparing hospitality and tourism management majors and those who wish to minor in hospitality and tourism management by means of a cooperative education program for entry into the hospitality and tourism management work environment. This course must be taken prior to the student's registering for the first field experience. Offered fall and winter semesters.

## **HTM 201 - Good Food Gone Bad: Food Safety for Everyone (1 credit)**

This course covers food safety best practices in food production, manufacturing, and preparation to different situational contexts, such as: agriculture, food recovery projects, and commercial and/or charitable food distribution sites. Offered fall semester.

## **HTM 202 - International Tourism (3 credits)**

Introduction to international tourism focusing on the socioeconomic effects of international tourism along with the inherent public-private interaction. International tourism is more than a set of industries, but rather an activity that encompasses human behavior, uses of resources (public and private), and interaction with other people, economies, and environments. Fulfills Cultures - Global Perspectives. Offered fall semester. Prerequisite: HTM 101 suggested.

## **HTM 213 - Introduction to Food and Beverage Management (3 credits)**

An introduction to the operation, management, and control of food and beverage organizations, with emphasis on operational efficiency, productivity, profitability, and service. Prerequisite: HTM 101 (may be taken concurrently, if junior standing).

## **HTM 222 - Introduction to Lodging Management (3 credits)**

This course provides students with an introduction to lodging operations. Central components include guest service, front desk operations, housekeeping duties, basics of food and beverage, sales and marketing, and facility engineering and maintenance. Prerequisite: HTM 101 (may be taken concurrently, if junior standing).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HTM 235 - Tourism and Recreation Management (3 credits)**

An introduction to the dynamic domestic (U.S.) tourism and recreation/leisure industries, focusing on their strong linkages to both nonprofit and for-profit oriented providers. Emphasis is given to entrepreneurship, economic development, sustainability, career opportunities, and the management of organizations. Offered on sufficient demand.

## **HTM 237 - Fundamentals of Recreation and Leisure Programming (3 credits)**

An analysis of concepts and principles of recreation and leisure services program development, with attention to examination of recreation activity taxonomies, methods of assessing needs, the process of program planning, and development and evaluation of a program plan. Includes principles of learning for adult and other age groups. Offered winter semester. Prerequisite: HTM 101.

## **HTM 240 - Introduction to Meeting and Event Management (3 credits)**

An introduction to the planning, implementation, and follow-up of professional meetings, events, conferences, and conventions. Offered fall and winter semesters. Prerequisite: HTM 101 or permission.

## **HTM 242 - Cannabis Regulations and Tourism (3 credits)**

In states which have legalized cannabis, reforms have sparked lively debates in the hospitality and tourism industry about the content of competing regulations. This course examines the impact of legalized cannabis upon various disciplines within the industry, including food service and lodging, tour operators, meeting and events, and various franchisees. Offered fall semester.

## **HTM 250 - Food Production and Kitchen Management (4 credits)**

The application of managerial practices and processes to food preparation, production, safety, and sanitation.

## **HTM 253 - Convention Sales and Service (3 credits)**

An introductory course exploring sales in the convention and meetings industry from the supplier's perspective. Focus will be placed on examining the needs of the supplier's clientele base and the importance of service management skills. Students will demonstrate skills in

selling, negotiating, marketing, planning, organizing, and servicing. Offered winter semester. Prerequisite: HTM 101.

### **HTM 268 - Adventure Tourism (3 credits)**

An introductory course exploring the rapidly growing and diverse market for activity-based tourism. This class reviews the provision, management, and philosophy of outdoor activities and controlled adventure, as well as identifying the motives and characteristics of the adventure traveler.

### **HTM 273 - Hospitality and Tourism Financial Decision Making (3 credits)**

Fundamental financial principles and procedures applied to the hospitality and tourism industry. Includes applications of income statements, statement of cash flows, balance sheet and statement of owners' equity, nature and behavior of costs, labor costs, role and types of operations budgeting, and working capital management. Offered fall and winter semesters. Prerequisites: MTH 110 and either HTM 213 or HTM 222. Corequisites: ACC 201 and ACC 202.

### **HTM 275 - Culinary Tourism (3 credits)**

Engages learners in the process of understanding the rich and complex food traditions of the United States of America and how an understanding of these traditions contributes to the management of culinary tourism programs. Offered fall semester.

### **HTM 280 - Special Topics in Hospitality and Tourism Management (1 to 4 credits)**

Consideration of selected topics not ordinarily dealt with in other courses. Topics to be determined by faculty interest and student request. Offered on sufficient demand.

### **HTM 281 - Disney College Program I (2 credits)**

This course is a complement to the experience while participating in the Walt Disney World/Land College Program. Central components include recognizing the need to network and exploring the "Wonderful World of Disney" so students learn how to provide better service to guests, and clarifying student career goals. Offered fall and winter semesters. Prerequisite: Permission of instructor.

### **HTM 282 - Disney College Program II (2 credits)**

This course is a complement to the experience while participating in the Walt Disney World/Land College Program. Central components include advanced implementation of Disney's successful guest service standards, identifying proven techniques, and application of these techniques in other enterprises, as well as participating in service learning opportunities. Offered fall and winter semesters. Prerequisite: Permission of instructor.

## **HTM 290 - HTM Field Experience I (2 credits)**

A semi-structured experience in which students receive basic training in selected entry level positions consistent with their career preference. Emphasis is on job competence and performance, professionalism, and work relations. Management instruction in selected basic operational tasks will also be required. Offered every semester. Prerequisites: HTM 190 and permission.

## **HTM 318 - Responsible Beverage Management (3 credits)**

A look at the responsibilities and demands made of the contemporary beverage manager and ways to address them. Attention will be given to legal aspects, liability, social concerns, product knowledge, controls and operations, and responsible service. Certification in a recognized server training program will be required. Offered fall semester. Prerequisites: HTM 213 and HTM 361.

## **HTM 323 - Festival and Special Event Management (3 credits)**

This introductory course is a comprehensive overview of the theory and procedures associated with managing festivals and special events. The role of marketing and communication, environmental planning, creation of event strategies, governmental involvement, and entrepreneurial perspectives of event management are augmented with experiential learning in a real-time regional festival or special event. Offered fall and spring/summer semesters. Prerequisite: HTM 101.

## **HTM 330 - International Event Management (3 credits)**

An overview of the theory and practices associated with managing a festival and special event in an international setting. The application of theoretical concepts allows students to better understand the festival and events industry, the complexity of designing, delivering, and evaluation of such experiences, and application of a festival/events model. Offered spring/summer semester. Prerequisite: Permission of instructor.

## **HTM 333 - Hospitality Facilities Management (3 credits)**

The management of the hospitality facility with emphasis on preventive maintenance, energy, sustainability, and security. Offered fall semester. Prerequisite: HTM 101.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HTM 343 - Human Resource Management (4 credits)**

A study of the relationship among work, human conduct, and human and organizational development fundamental to the service concern. A systems approach to staffing, training, scheduling, evaluating, and accounting for the human element in hospitality operations. Offered fall and winter semesters. Prerequisites: HTM 101 or permission, fulfillment of general education Foundations - Writing, and junior standing.

## **HTM 350 - Banquet and Catering Management (3 credits)**

A course focused on the creative, logistical, and business aspects of planning and implementing banquets and catered events. Offered winter semester. Prerequisite: HTM 213.

## **HTM 361 - Hospitality Law and Legislation (3 credits)**

A study of hospitality and travel law with emphasis on current legislative and lobbying activities. Consideration given to societal leverage in influencing and initiating legal and political activity and policy. Offered fall and winter semesters. Prerequisite: BUS 201.

## **HTM 368 - Geotourism (3 credits)**

A study of geotourism, tourism that sustains or enhances the geographic character of a place. Topics include community development, land use and planning, conservation of resources, and tourist satisfaction and marketing, with the purpose of sustaining or enhancing the environment, culture, aesthetics, heritage, and the well-being of a place's residents. Part of the Sustainability Issue. Offered fall and winter semesters. Prerequisites: Junior standing and HTM 202 (recommended).

## **HTM 373 - Hospitality Information Analysis (4 credits)**

A systematic approach to the gathering and analysis of data from operations. Structured to take the student from accounting system basics through the production of a variety of reports and budgets. Emphasis is on the utilization of the data for improved financial and objective-based, proactive decision-making. Offered fall and winter semesters. Prerequisites: HTM 213, HTM 222, HTM 273, CIS 150, ACC 201, ACC 202, and junior standing.

## **HTM 375 - Hospitality and Tourism Research (3 credits)**

An examination of the relationship between generic theory and applied research in the hospitality and tourism industry. This course examines the purposes, applications, procedures, constraints, and management of applied research utilizing community-based learning. Examples of quantitative and qualitative research are compared and contrasted. Offered fall and winter semesters. Prerequisites: HTM 101 and STA 215.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **HTM 380 - Special Topics in Hospitality and Tourism Management (1 to 4 credits)**

Study of significant topics and issues not addressed in other courses. Previous topics have included beverage management, professional development, etiquette, club management, business and industry, food service, etc. Offered fall and winter semesters. Prerequisite: Permission.

## **HTM 390 - HTM Field Experience II (2 credits)**

A semi-structured experience in which the student will receive basic training and work experience in selected, preferably rotational, entry-level positions, consistent with the student's career choice. Emphasis is on job performance, professionalism, work relations and self-management. Offered every semester. Prerequisites: HTM 290 and permission.

## **HTM 399 - Independent Study (1 to 4 credits)**

Study of an advanced topic of interest in hospitality and tourism management. Offered every semester. Prerequisite: Permission.

## **HTM 402 - Tourism Policy Issues (3 credits)**

This course provides a comprehensive overview of tourism development theories as well as an analytical approach to worldwide development issues. The roles of stakeholders are evaluated with a focus on applied theoretical discussions regarding development and sustainable management of tourism destinations and attractions through a community-based learning framework. Offered winter semester. Prerequisite: HTM 202 or permission of instructor.

## **HTM 413 - Advanced Food and Beverage Management (3 credits)**

This advanced course builds on fundamentals acquired in prior food and beverage curriculum and internships. Utilizing a community-based learning format, central components include leadership theory; planning, control, and analysis of food and beverage operations; customer expectations and service. Examination of current trends will vary by semester. Offered winter semester. Prerequisites: CIS 150, HTM 213, and HTM 290.

## **HTM 422 - Advanced Lodging Management (3 credits)**

This advanced course in lodging management builds on fundamentals acquired in prior lodging curriculum and field internship experience. Utilizing a community-based learning format, central components include multiple unit property management, franchising, budgeting and labor,

environmental design, risk management, and leadership theory. Examination of current trends vary by semester. Offered fall and winter semesters. Prerequisites: HTM 222 and HTM 290.

### **HTM 437 - Leadership in Recreation and Leisure (3 credits)**

Fundamentals of theoretical and applied leadership questions, major leadership theories and paradigms, identification of primary leadership antecedents and consequences, discussion of important measurement issues, comparing the effectiveness of the most influential leadership development strategies, and an experiential application of leadership theory in a community-based recreation or leisure organization. Offered winter semester. Prerequisites: HTM 235 and HTM 237.

### **HTM 440 - Advanced Meeting and Event Management (3 credits)**

This advanced course in meeting and event management builds on fundamentals acquired in prior sales and events curriculum and internships. Students will learn leadership theory, ethics, program design and logistics for myriad events, destination marketing, event sponsorship, and risk management through a community-based lens. Examination of current trends. Offered fall semester. Prerequisites: HTM 240, HTM 253, and HTM 290.

### **HTM 452 - Hospitality and Tourism Marketing (3 credits)**

Applications of basic marketing principles and strategies to hospitality, tourism, and leisure services. Discussions will define specific market segments and address the various marketing, promotional, and communication mix tools available to the hospitality and tourism industry. Offered fall and winter semesters. Prerequisites: STA 215 and either MKT 300 or MKT 350.

### **HTM 480 - Special Topics in Hospitality and Tourism Management (3 credits)**

A senior seminar designed to assess critical issues in hospitality and tourism and the impact of current events, trends, and developments on hospitality and tourism administration. Open to senior hospitality and tourism management majors and to others by permission of instructor. Offered on sufficient demand.

### **HTM 490 - HTM Senior Internship (2 credits)**

A structured experience in which the student will receive basic training and work experience in selected, preferably rotational, entry-level positions, consistent with the student's career choice. This course is designed to encourage more supervisory/managerial opportunities to aid in the student's professional development, and their determining a career path at graduation. Offered

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

every semester. Prerequisites: HTM 290 and HTM 390 or their equivalents, senior standing, and permission.

## **HTM 495 - Hospitality Management (Capstone) (3 credits)**

Capstone class providing a framework to view the discipline, industry, and management from a perspective incorporating the economic, social, cultural, environmental, political, technological, and physical aspects. Emphasis on a broad managerial perspective to critically assess the issues facing the profession. Offered fall and winter semesters. Prerequisites: HTM 343, HTM 373, and HTM 375.

## **HTM 499 - Independent Research (1 to 4 credits)**

Supervised research in hospitality and tourism management for junior and senior majors. Offered every semester. Prerequisite: Permission.

## **IDS 180 - Interdisciplinary Studies Special Topics (1 to 3 credits)**

This is an interdisciplinary special topics course. Focus will vary by semester and instructor. Offered fall and winter semesters.

## **IDS 181 - Intercultural Competence Through Study Abroad (1 credit)**

The course will introduce students to the challenges and opportunities of international travel, study, and living, and provide them with basic tools for ensuring a successful study abroad experience. Offered fall semester.

## **IDS 182 - Community Reading Project (1 credit)**

This course engages students in an interdisciplinary examination of issues raised by the GVSU community read. The book is selected annually, so the topics of this course will vary. Students will analyze the book and attend cocurricular programming to extend learning beyond the classroom. Offered fall and winters semesters.

## **IDS 325 - Learning from Detroit: Education and Community Revitalization (3 credits)**

This course studies community revitalization efforts in the city of Detroit. Focusing on community-based initiatives that are strengthening neighborhoods; improving schools; and fostering the well-being of children, families, and neighborhoods in Detroit. This course invites

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

students with diverse perspectives, from across content areas. The class includes two visits to Detroit. Part of the Identity Issue. Cross-listed with EDF 325. Offered fall semester. Prerequisite: Junior standing.

## **IDS 350 - Civil Discourse (3 credits)**

This topical course familiarizes students with communication tools of civil discourse. Students analyze the role of discourse in solving social problems and learn dialogic strategies for constructively engaging with diverse perspectives. Using the civil discourse skills of reasoning and respect, students collaborate with people of divergent views. Topical information: [gvsu.edu/civildiscourse](http://gvsu.edu/civildiscourse). Part of the Identity Issue. Offered fall semester. Prerequisite: Junior standing.

## **IDS 380 - Special Topics in Interdisciplinary Studies (1 to 12 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **IDS 399 - Independent Readings (1 to 3 credits)**

Hours, credit, topics, and time to be arranged with the individual faculty members with approval of the department.

## **IDS 400 - Liberal Education and Problem Solving in the Workplace (2 credits)**

Applied learning that focuses on the practical uses of a liberal education in a corporate/professional setting. Explores various problem-solving approaches to help students develop innovative change management skills applicable to a variety of organizational settings. LEPS Leadership Portfolios will be finalized. Offered fall and winter semesters.

## **INT 100 - Reflect, Connect, Engage (3 credits)**

Can education transform your life and change your world? Explore how liberal education empowers students to question themselves and their society, through critical engagement with classical and contemporary philosophical and literary texts. Discover how liberal education teaches skills that can help you develop your personal, professional, and civic lives. Fulfills Foundations - Philosophy and Literature. Offered every semester.

## **INT 180 - Special Topics in Liberal Studies (1 to 6 credits)**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Readings, lectures, and/or discussions, in specific topics not normally covered by the other courses in the program.

## **INT 201 - Diversity in the United States (3 credits)**

Explores how the intersections of race, ethnicity, gender, sexual orientation, class, religion, and physical abilities affect the material lives and media representations of various cultural groups in the United States. Engages historical and current debates regarding issues of immigration, meritocracy, segregation, the economy, the environment, and identity. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - U.S. Diversity. Offered fall and winter semesters.

## **INT 301 - Interdisciplinary Research Methods (3 credits)**

This course is a survey of selected interdisciplinary research methods. It includes comparative analysis of research methods used in natural and life sciences, social sciences, and the humanities, with a focus on integrative and problem-solving methodologies. Procedures for evaluating data, sources, and findings are reviewed. Offered every semester.

## **INT 310 - Creativity and Innovative Problem-Solving (3 credits)**

An interdisciplinary study of those ideas that stimulate the creative processes and innovation in information and technology in a diversity of human practices, including, but not limited to, artistic, philosophical, scientific, and entrepreneurial endeavors, with a focus on practicing innovativeness and creativity in a variety of areas. Part of the Information, Innovation, or Technology Issue. Offered every year. Prerequisite: Junior standing.

## **INT 311 - Meaning: The Humanities Resource (3 credits)**

Introduction to concepts related to the construction, expression, propagation, and understanding of meaning in a diverse society. Emphasis on multidisciplinary perspectives underpinning authentic individual and/or collective agency per dialogue, democracy, and other critical forms of praxis. Offered once or twice per year, depending on demand.

## **INT 312 - Collaborative Communication (3 credits)**

An interdisciplinary examination of the basic interpretations of dialogue in a diverse world. This course engages the theory and practice of dialogue through personal reflection, integration, and action. Students develop this relational art for personal, professional, and civic lives, and understand its implication for the possibility of a democratic life. Offered fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **INT 314 - Life Journeys (3 credits)**

Students will examine their own identity by means of personal and critical reflection through works selected from literature, mythology, philosophy, art, film, and music. Students will gain insight into their own life journey and the life journeys of others, empowering them to be themselves more fully in the world. Part of the Identity Issue. Offered every semester.

Prerequisites: Junior standing and fulfillment of general education Foundations - Writing.

## **INT 319 - Human Traffic and Trafficking (3 credits)**

Drawing on interdisciplinary approaches to globalization, the course critically examines the forced and/or coercive global transfer of people, the traffic and trafficking of humans, through historical and contemporary perspectives. Topics may include migrant smuggling, forced labor, slave trade, sex workers, voices of survival workers, and self-advocacy in survival communities. Part of the Globalization Issue. Cross-listed with HST 319 and HRT 319. Offered fall and winter semesters. Prerequisite: Junior standing.

## **INT 320 - Voices of the Civil Rights Movement in the United States (3 credits)**

This interdisciplinary course integrates numerous expressive genres, including autobiographies, oral histories, and music, to examine how activists challenged human rights violations.

Narrations of individual transformations show how shared experiences, ideologies, and opposition expanded understandings of human rights nationally and globally during the civil rights movements in the United States. Part of the Human Rights Issue. Fulfills Cultures - U.S. Diversity. Cross-listed with HRT 320. Offered every other year. Prerequisite: Junior standing.

## **INT 322 - Wicked Problems of Sustainability (3 credits)**

Sustainability, as a wicked problem, is an intractable, on-going, and high-stakes issue. This course engages students in participatory research on the inextricably linked dimensions of sustainability, such as economics, environment, and social equity. Students will work with community partners to address specific interdisciplinary problems of sustainability. Part of the Sustainability Issue. Offered every semester. Prerequisite: Junior standing.

## **INT 323 - Design Thinking to Meet Real-World Needs (3 credits)**

Design Thinking is an iterative, project-based, problem-solving process valued in organizations both locally and internationally. As interdisciplinary teams, students in this course will use the Design Thinking process to better facilitate the chaos of innovation by collaborating with stakeholders to meet real-world needs. Part of the Information, Innovation, or Technology Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **INT 325 - LGBTQ Identities (3 credits)**

This interdisciplinary course draws on scholarship in the fields of sociology, literature, history, anthropology, LGBTQ, cultural, and gender studies in order to teach students about lesbian, gay, bisexual, transgender, intersex, and queer complex identities (identity formation and development), identifications, and the social, political, historical, and cultural problems underpinning these constructions. Part of the Identity Issue. Offered once a year. Prerequisite: Junior standing.

## **INT 326 - Sexuality, Justice, and Advocacy (3 credits)**

An exploration of sexuality through an interdisciplinary lens. Topics include adult sexual development, public policy, and methods of advocacy for sexual health and justice. Through various learning activities, including field study with campus and community organizations, students will increase their knowledge and facilitation skills related to sexual health education. Part of the Health Issue. Course cross-listed with WGS 326. Course offered every semester. Prerequisite: Junior standing.

## **INT 330 - The Idea of Nature (3 credits)**

How do our ideas about nature shape our relationships to the natural world? This course examines global influences on ideas of nature, as expressed in science, religion, philosophy, literature and art, and the resulting effects on human relationships with the natural world, and on natural systems globally and locally. Part of the Sustainability Issue. Offered winter semester. Prerequisite: Junior standing.

## **INT 331 - Person and Profession in a Global Environment (3 credits)**

A study of how professional identities and work lives develop globally and historically as well as throughout ones' individual lifespan, looking at how professional choices are shaped by intersectional identities and global social/economic forces as portrayed in literature, film, art, and social analysis. Part of the Globalization Issue. Offered every other year. Prerequisite: Junior standing.

## **INT 341 - Leadership for Social Change (3 credits)**

An examination of the theory and practice of leadership in social change movements, focused on developing personal and organizational capacities for leadership in a liberal education context. Students identify a contemporary social issue and create an action plan for resolution, addressing that issue with at least one action step. Part of the Information, Innovation, or Technology Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **INT 342 - Food Matters (3 credits)**

This course offers an interdisciplinary exploration of the relationship between power structures and food. In navigating social, historical and environmental factors that shape current food systems, the course examines political dimensions of food from differing cultural perspectives. Part of the Health Issue. Offered every semester. Prerequisite: Junior standing.

## **INT 350 - The Immigrant Experience in the U.S. (3 credits)**

An interdisciplinary course framing immigration in the United States as part of a global struggle for human rights. Students develop an understanding of the experiences of diverse immigrants and how migrations shape the U.S. historically, economically, politically, and culturally. Examines policies and perspectives about citizenship and human rights. Part of the Human Rights Issue. Fulfills Cultures - U.S. Diversity. Offered fall semester. Prerequisite: Junior standing.

## **INT 366 - American Society and Media (3 credits)**

An interdisciplinary approach to the ways in which mediated mass culture produces meaning in contemporary American society as examined through a variety of critical lenses such as political economy and sociocultural analyses of the organization of the mass media, media content, and audience reception studies of film, television, and/or music cultures. Part of the Information, Innovation, or Technology Issue. Cross-listed with SOC 366. Offered every year. Prerequisite: Junior standing.

## **INT 380 - Special Topics in Liberal Studies (3 credits)**

A variable topics course emphasizing the practice of liberal studies in relation to a contemporary problem, issue, or theme. May be repeated for credit.

## **INT 382 - LEADS Portfolio Development (1 credit)**

Reflective inquiry and readings develop and demonstrate prior learning skills like organizational communication, problem-solving, among others. The course provides a structure that builds on and synthesizes learning in an e-portfolio to be used for prior learning assessment and/or future classes or employment opportunities. Offered fall and winter semesters.

## **INT 399 - Independent Reading (1 to 6 credits)**

A scholarly or creative project initiated by the student who has a special interest in a subject not available in the current curriculum. Student, faculty, and advisors agree on the scope of the study, its components, and methods of evaluation. Offered every semester.

## **INT 400 - Global Visionary Leadership (3 credits)**

This variable topics course examines the life and work of a visionary person or persons outside the U.S. whose theories and/or actions have effected deep change. The impact of these visionary ideas and actions result in paradigm shifts within global cultures, institutions, societies, and worldviews. May be repeated for credit. Fulfills Cultures - Global Perspectives. Offered once a year.

## **INT 401 - American Visionary Leadership (3 credits)**

A variable topics course that focuses on the life and work of a significant contributor to the American mosaic and thereby the United States' vision of diversity. Fulfills Cultures - U.S. Diversity. May be repeated for credit. Offered winter semester.

## **INT 402 - Feminist Visionary Thinkers (3 credits)**

This variable topics course examines the life and work of a significant feminist visionary thinker or thinkers whose theories, work, and/or actions have effected deep change in the world resulting in paradigm shifts within global cultures, institutions, societies, and worldviews. Cross-listed with WGS 402. May be repeated for credit. Offered winter semester.

## **INT 480 - Special Topics in Liberal Studies (1 credit)**

Features a person who has done significant work in several areas and whose life and career we can usefully study. Students meet in discussion groups before and after lecturer's visit. May be repeated for credit. Offered winter semester.

## **INT 490 - Internship (1 to 6 credits)**

A supervised work experience through which students can relate liberal studies principles, academic work, and practice. Student, faculty, and advisors agree on the scope of the study, its components, and methods of evaluation. Offered every semester.

## **INT 491 - Practicum (1 to 6 credits)**

Three or more hours a week of applying liberal studies principles in a public or community setting. This might take the form of a case study, field involvement, or conference attendance, and should result in a statement evaluating the theory and practice of liberal studies. Offered every semester.

## **INT 495 - Senior Seminar (Capstone) (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students will contrast classical and contemporary statements on liberal education in relation to the principles and core courses on which the program rests. Students will develop and present their senior theses. Offered winter semester. Prerequisite: INT 301.

## **INT 499 - Independent Research (1 to 6 credits)**

Independent research and investigation from an interdisciplinary perspective. Offered every semester.

## **IPE 407 - Integrated Team Health Care (2 credits)**

Interprofessional education focused on integrated patient-centered practice is key to building effective health care teams that improve the experiences and the outcomes of participants. This course will apply principles of interprofessional education, which include collaborative, egalitarian, group-directed, experiential, reflective, and applied learning with, from, and about multiple health professions students. Cross-listed with IPE 507. Offered fall and winter semester. Prerequisites: Nursing - NUR 366, NUR 367; Corequisites: NUR 416, NUR 417. Occupational Therapy - OST 558, OST 571, and the first three semesters of didactic curriculum. Physician Assistant - PAS 515, PAS 551; Corequisite: PAS 552. Physical Therapy - PT 675, PT 677, two previous clinical experiences. Social work - Corequisite: SW 671.

## **IPE 507 - Integrated Team Health Care (2 credits)**

Interprofessional education focused on integrated patient-centered practice is key to building effective health care teams that improve the experiences and the outcomes of participants. This course will apply principles of interprofessional education, which include collaborative, egalitarian, group-directed, experiential, reflective, and applied learning with, from, and about multiple health professions students. Cross-listed with IPE 407. Offered fall and winter semesters. Prerequisites: Nursing - NUR 366, NUR 367; Corequisites: NUR 416, NUR 417. Occupational Therapy - OST 558, OST 571, and the first three semesters of didactic curriculum. Physician Assistant - PAS 515, PAS 551; Corequisite: PAS 552. Physical Therapy - PT 675, PT 677, two previous clinical experiences. Social work - Corequisite: SW 671.

## **IPE 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **IR 380 - Special Topics in International Relations (1 to 3 credits)**

Examination of topics not ordinarily dealt with in other courses. Topics will be determined by faculty interest and student request. Consult class schedule for specific topics. IR 380 can be repeated for credit when the topic differs. Offered on sufficient demand.

### **IR 399 - Independent Readings (1 to 3 credits)**

Independent readings on a selected topic of particular interest to the student. Existing courses are not ordinarily offered as independent study. IR 399 requires a literature review of the reading required for the course. Offered fall and winter semesters. Graded credit/no credit. Prerequisite: Approval of instructor before registration.

### **IR 490 - International Relations Internship (2 to 6 credits)**

Supervised field experience in the U.S. or with an international organization, executive agency, interest group, legislative office, or nonprofit institution. The purpose is to allow the student to apply academic knowledge to a work experience. Offered every semester. Prerequisites: Junior standing and permission of the sponsoring institution.

### **IR 495 - Seminar in International Relations (Capstone) (3 credits)**

Interdisciplinary exploration of a major theme or current topic in international relations. Seminars and independent research will help students identify research questions and generate hypotheses relevant to this theme. Offered fall and winter semesters. Prerequisite: Senior standing with a major in IR.

### **IR 499 - Independent Research (1 to 3 credits)**

Independent study and research into an area of mutual interest to the student and faculty member. Course culminates in a research paper on the approved topic. Offered fall and winter semesters. Prerequisite: Permission from the instructor.

### **ITA 101 - Beginning Italian I: Language and Culture (4 credits)**

An introduction to Italian language and culture. Practice in speaking, listening, reading, and writing at the novice level. Supplemented by multimedia and the Language Resource Center. No more than two years of high school Italian, or permission of instructor. Students are strongly encouraged to take the free placement exam in the Language Resource Center prior to registering. Offered fall semester.

## **ITA 102 - Beginning Italian II: Language and Culture (4 credits)**

Continuation of ITA 101. Practice in speaking, listening, reading, and writing at novice and intermediate levels. Italian culture integrated throughout. Supplemented by multimedia and the Language Resource Center. Students who did not complete ITA 101 at GVSU are strongly encouraged to take the free placement test in the Language Resource Center prior to registering. Offered winter semester. Prerequisite: C (not C-) or better in ITA 101, or credit, or appropriate placement test score.

## **ITA 201 - Intermediate Italian I: Language and Culture (4 credits)**

Continuation of ITA 102. Practice in speaking, listening, reading, and writing at the intermediate level. Italian culture integrated throughout. Supplemented by multimedia and the Language Resource Center. Offered fall semester. Prerequisites: C (not C-) or better in ITA 102, or credit, or appropriate placement test score (free in the Language Resource Center).

## **ITA 202 - Intermediate Italian II: Language and Culture (4 credits)**

Continued practice in speaking, listening, reading, and writing at the intermediate level. Emphasis on real-life communication. Review of grammar and expansion of vocabulary. Focus on Italian culture through authentic texts and multimedia materials. Fulfills Cultures - Global Perspectives. Prerequisite: C (not C-) or better in ITA 201, or credit, permission of the instructor, or appropriate placement test score (free in the Language Resource Center).

## **ITA 280 - Special Topics in Italian (1 to 4 credits)**

Class offered on a special topic related to Italian.

## **ITA 299 - Independent Study (1 to 4 credits)**

Hours, credit, topics, and time to be arranged with individual faculty members with approval of the department.

## **ITA 380 - Special Topics in Italian (1 to 9 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **ITC 100 - Introduction to Intercultural Competence (3 credits)**

This course introduces students to the concept of cultural competence and provides them with the knowledge and application of skills necessary to succeed in diverse settings. This course examines theories of intercultural engagement and then requires students to consider how they might apply knowledge in diverse practical settings. Fulfills Cultures - U.S. Diversity.

## **ITC 480 - Special Topics in ITC (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **ITC 490 - Practicum: Intercultural Learning Experience (1 to 6 credits)**

The course is an application of intercultural principles in a public or community setting. Students will engage in both cohort learning activities, as well as individual experiential placements. Students on qualifying semester study abroad programs can complete the practicum concurrently with participation in the cohort. Offered fall and winter semester. Prerequisites: ITC 100 and filing of application for certificate in intercultural competence.

## **ITC 495 - Culminating Seminar in Intercultural Competence (3 credits)**

This is the culminating course required for completion of the intercultural competence certificate. Students identify issues of cultural conflict in their communities or academic disciplines, and develop plans for how these issues might be addressed through cultural understanding or training. Offered winter semester. Prerequisites: ITC 490, completion of elective courses, and approved application for the cultural competence certificate (apply prior to taking ITC 490).

## **JPN 101 - Beginning Japanese I: Language and Culture (4 credits)**

An introduction to Japanese language and the culture in which it is embedded. Practice in speaking, listening, reading, writing, and culture at the beginning level. Supplemented by multimedia and the Language Resource Center. Offered fall semester.

## **JPN 102 - Beginning Japanese II: Language and Culture (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Continuation of JPN 101. Further study in speaking, listening, reading, writing, and culture at the beginning level. Supplemented by multimedia and the Language Resource Center. Prerequisite: C (not C-) or better in JPN 101 or instructor approval based on interview.

## **JPN 150 - Accelerated Beginning Japanese I and II: Language and Culture (4 credits)**

One semester accelerated beginning Japanese for students with prior study. Requires prior ability to actively use hiragana and katakana. Covers the same material as JPN 101 and JPN 102. Offered fall semester. Prerequisite: Permission of instructor.

## **JPN 180 - Special Topics in Japanese (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 100-level courses. May be repeated for credit when content differs. Offered on sufficient demand.

## **JPN 201 - Intermediate Japanese I: Language and Culture (4 credits)**

Continuation of JPN 102 or JPN 150. Continued study of speaking, listening, reading, writing, and culture at the intermediate level. Supplemented by multimedia and the Language Resource Center. Offered fall semester. Prerequisite: C (not C-) or better in JPN 102 or instructor approval based on interview.

## **JPN 202 - Intermediate Japanese II: Language and Culture (4 credits)**

Continuation of JPN 201. Continued study of speaking, listening, reading, writing, and culture at the intermediate level. Supplemented by multimedia and the Language Resource Center. Fulfills Cultures - Global Perspectives. Offered winter semester. Prerequisite: C (not C-) or better in JPN 201.

## **JPN 221 - Pre-modern Japanese Literature and Culture (to 1600) (3 credits)**

This course explores Japanese literature and culture from antiquity to 1600. Readings will consist primarily of primary sources in English translation, including literature, history, philosophy, religion, art, and theater. No prior knowledge of Japanese is required. Fulfills foundations - Philosophy and Literature. Fulfills Cultures - Global Perspectives. Offered winter semester, every third year.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **JPN 222 - Early Modern Japanese Literature and Theatre (1600-1868) (3 credits)**

This course explores Japanese literature and theatre during the Edo Period, from 1600 through the end of the 19th century. Readings will consist primarily of literary and theatrical works in English translation as well as history, philosophy, religion, art, etc. No prior knowledge of Japanese is required. Fulfills Foundations - Arts. Fulfills Cultures - Global Perspectives. Offered winter semester, every third year.

## **JPN 224 - Post-World War II Japan through Literature and Film (3 credits)**

This course examines contemporary Japan through the lens of literature and film from the end of the Pacific War in 1945 to the present. Readings consist mainly of primary sources in English translation. No prior knowledge of Japanese is necessary. Fulfills Foundations - Philosophy and Literature. Fulfills Cultures - Global Perspectives. Offered fall semester, every other year.

## **JPN 280 - Special Topics in Japanese (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 200-level courses. May be repeated for credit when content differs. No more than four credits can be applied to the minor or major. Offered on sufficient demand.

## **JPN 301 - Advanced Intermediate Japanese (3 credits)**

As a continuation of Japanese 202 - Intermediate Japanese II, students will use the basic language skills developed in the first two years to discuss Japanese culture in the target language, developing linguistic accuracy and sophistication, expanding their range of familiar topics and vocabulary, and enhancing cultural awareness and sensitivity. Offered fall semester. Prerequisite: JPN 202 or appropriate placement test score.

## **JPN 302 - Advanced Intermediate Japanese II (3 credits)**

This course is a continuation of JPN 301 - Advanced Intermediate Japanese. Offered winter semester. Prerequisite: JPN 301 or appropriate placement test score.

## **JPN 323 - Modern Japanese Literature and Film (to WWII) (3 credits)**

This course examines Japan's modern period through the lens of literature and film from the Meiji Restoration in 1868 until the end of the Pacific War in 1945. Readings consist mainly of primary sources in English translation. No prior knowledge of Japanese is necessary. Fulfills

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Cultures - Global Perspectives. Part of the Identity Issue. Offered winter semester, every third year. Prerequisite: Junior standing.

### **JPN 380 - Special Topics in Japanese (3 credits)**

Offered on sufficient demand.

### **JPN 386 - Traditional Japanese Theater (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

### **JPN 399 - Independent Reading (1 to 4 credits)**

Offered fall and winter semesters.

### **JPN 480 - Special Topics in Japanese (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 400-level courses. May be repeated for credit when content differs. Offered on sufficient demand.

### **KOR 180 - Special Topics in Korean (1 to 9 credits)**

Course content varies. Expectations of students approximate those in other 100-level courses. May be repeated for credit when content varies. Variable credit. Offered on sufficient demand.

### **KOR 280 - Special Topics in Korean (1 to 9 credits)**

Course content varies. Expectations of students approximate those in other 200-level courses. May be repeated for credit when content varies. Variable credit. Offered on sufficient demand.

### **LAS 210 - Exploring Latin America (3 credits)**

This course introduces students to the interdisciplinary study of the origins and development paths of Latin American and Caribbean societies, with attention to the interrelationship between these societies and the United States. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters.

### **LAS 220 - Introduction to Latino/a Studies (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An interdisciplinary introduction to the diversity and complexity of the U.S. Latino/a population, with attention to intraethnic and interracial relations, formation of social identities, and issues of assimilation and cultural conflict. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - U.S. Diversity. Offered winter semester.

## **LAS 320 - Model Organization of American States (3 credits)**

This course prepares students to represent a Latin American country at the Model Organization of American States conference in Washington, D.C. Students learn about contemporary Latin American issues, study relevant international relations theory, master OAS and parliamentary procedures, and improve their public speaking and leadership skills. Offered winter semester. Prerequisites: LAS 210 and either PLS 211 or PLS 284.

## **LAS 325 - Human Rights in Latin America (3 credits)**

An interdisciplinary exploration of human rights in Latin America, with a focus on regimes indicted for human rights violations during the Cold War, and subsequent efforts to reform repressive political systems and resolve difficult questions of how to define and enact justice. Part of the Human Rights Issue. Offered fall semester. Prerequisites: Junior standing and one of the following: LAS 210, PLS 105, PLS 211, or PLS 284.

## **LAS 330 - Colonial Latin America (3 credits)**

This course will focus on specific themes related to Latin American civilization and culture from preconquest times to the 19th century. Topics include Amerindian civilizations; encounters between Amerindians, Europeans, and Africans; makings of a colonial society; collapse of colonial rule; wars of independence. Cross-listed with HST 330.

## **LAS 331 - Modern Latin America (3 credits)**

This course will focus on themes related to Latin America from the independence period to the present day. Major themes will include patterns of state formation and models of economic development; United States intervention; the origins and course of radicalism and counter-revolution; and the problems of peaceful reform. Part of the Identity Issue. Cross-listed with HST 331. Prerequisite: Junior standing.

## **LAS 333 - Study Abroad - Latin America (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credits may vary. Offered as needed. Prerequisite: Specific to instructor and course.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **LAS 352 - Geography of Latin America (3 credits)**

The growth and development of Latin America has a significant impact on most activities in North America. Examines those effects and studies the cultural and physical development of Latin America. Fulfills Cultures - Global Perspectives. Cross-listed with GPY 352. Offered winter semester.

## **LAS 361 - People, Environment, and Development in the Amazon (3 credits)**

This course explores natural resource use and human settlement over time in the Amazon Basin, from early tribal societies to the present. Topics include extractive economies, trade in animal and forest products, conservation and development initiatives, and the changing demands for resources in urban centers of Amazonia today. Part of the Sustainability Issue. Offered fall semester. Cross-listed with GPY 361. Prerequisite: Junior standing.

## **LAS 372 - From Slavery to Freedom (3 credits)**

Ironically, modern concepts of freedom emerged from societies deeply invested in its opposite, slavery. This course looks at the history of slavery and its abolition in three Latin American societies, Haiti, Cuba, and Brazil, to distinguish the distinctive ways in which each of them defined and constructed freedom. Part of the Human Rights Issue. Cross-listed with HST 372. Prerequisite: Junior standing.

## **LAS 373 - Latinos/as in West Michigan (3 credits)**

An interdisciplinary examination of demographic, socioeconomic, political, and cultural trends in the growing, diverse Latino/a community in the West Michigan area. Students have the option of conducting an original research project or engaging in service-learning. Part of the Identity issue. Fulfills Cultures - U.S. Diversity. Offered fall semester of even-numbered years. Prerequisite: Junior standing.

## **LAS 374 - Revolution in the Americas (3 credits)**

Men and women make history, sometimes through gradual, passive means and sometimes through sudden, active means. In the Americas, both categories of history-making have been common. This course explores international relations in the hemisphere by comparing revolutionary and evolutionary processes of change from Tierra del Fuego to the Northwest Territories. Cross-listed with HST 374. Offered winter semester. Prerequisite: LAS 210.

## **LAS 375 - History of Mexico (3 credits)**

This course surveys the history of Mexico from the earliest human inhabitation to the present. It will introduce students to the major political, social, and cultural forces that have shaped the modern nation of Mexico. Cross-listed with HST 375.

### **LAS 376 - Latin American Cinema (3 credits)**

A survey of cinema in Latin America. The course will analyze representative films as works of art and examine them as cultural, historical, political, and economic products that characterize and reveal diverse perspectives from significant film producing countries in Latin America. Cross-listed with FVP 376. Offered fall semester.

### **LAS 378 - Contemporary Latin American Literature (3 credits)**

A survey of Latin American literature of the past three decades, in English translation, taking in a variety of nations, regions, and cultures, including Afro Latin and indigenous voices. Genres to be studied include the novel, the short story, poetry, dramas, testimonial narrative, speeches, folklore, and film. Cross-listed with ENG 378 and SPA 378. Offered winter semester of even-numbered years. Prerequisite: LAS 210.

### **LAS 380 - Special Topics in Latin American Studies (1 to 3 credits)**

Consideration of selected topics not ordinarily dealt with in the regular curriculum. Topics will be determined by faculty interest and student request and announced in the class schedule. Can be repeated for credit when the topic differs. Offered winter semester.

### **LAS 399 - Independent Studies (1 to 3 credits)**

Before registering, students must arrange for supervision by a Latin American studies faculty member and submit a contract (available from the LAS coordinator) specifying the topic and scope of the study. Ordinarily no more than three credits of LAS 399 may count toward the minor. Offered every semester. Prerequisite: Permit required.

### **LAS 490 - Latin American Studies Internship (1 to 3 credits)**

Supervised work experience in a Latin American studies-related field, initiated by the student, who must prepare a proposal in consultation with a faculty advisor and a worksite supervisor. The student will submit a final report and both the worksite supervisor and the faculty advisor will evaluate the internship. Offered every semester. Prerequisites: Nine hours of LAS-related coursework and permission of the program coordinator.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **LAT 101 - Elementary Latin I (4 credits)**

An introduction to Latin vocabulary, grammar, and syntax with emphasis on the language of the classical period. Offered fall semester.

## **LAT 102 - Elementary Latin II (4 credits)**

Continuation of LAT 101. Offered winter semester. Prerequisite: LAT 101.

## **LAT 199 - Independent Study (1 to 4 credits)**

Hours, credit, topics, and time to be arranged with individual faculty members with approval of the department.

## **LAT 201 - Intermediate Latin I (4 credits)**

Continuation of LAT 102. Introduction to the study of selected ancient authors. Offered fall semester. Prerequisite: LAT 102 or appropriate high school background.

## **LAT 202 - Intermediate Latin II (3 credits)**

Readings in Virgil's Aeneid, supplemented by study of the history and culture of Augustan Rome. Fulfills Cultures - Global Perspectives. Offered winter semester. Prerequisite: LAT 201 or appropriate high school background.

## **LAT 285 - Study Abroad: Intermediate Latin (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **LAT 350 - Latin Prose (3 credits)**

Readings from the works of authors such as Cicero, Livy, Pliny, Tacitus, in genres such as oratory, history, philosophy, and epistolary writing. Attention to the development of genre and to the ways in which Latin prose has helped shape the Western tradition. May be repeated for credit when topics vary. Offered fall semester of odd-numbered years. Prerequisite: LAT 202.

## **LAT 351 - Roman Epic (3 credits)**

Readings from epic works such as Vergil Aeneid, Ovid Metamorphoses, and Lucan Bellum Civile. Attention to the development of the genre and the ways in which Latin epic has helped

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

shape the Western tradition. May be repeated for credit when topics vary. Offered fall semester of even-numbered years. Prerequisite: LAT 202.

### **LAT 352 - Roman Poetry (3 credits)**

An introduction to Roman poetry other than epic through a close reading of works such as the comedies of Plautus or Terence; the love poetry of Tibullus, Catullus, Propertius, or Ovid; the lyric poetry of Horace; and the minor poetry of Ovid, Martial, or Juvenal. May be repeated for credit when topics vary. Offered winter semester in alternating, even-numbered years. Prerequisite: One 300-level Latin course.

### **LAT 353 - Latin Prose Composition (3 credits)**

Study of Latin syntax and prose style, with emphasis on introductory prose composition and reading select prose models (Sallust, Cicero, Seneca, Pliny, and Tacitus). Special attention to broad grammatical structures, complex syntax, and stylistic variations. May be repeated for credit when topics vary. Offered winter semester of odd-numbered years. Prerequisite: LAT 351.

### **LAT 380 - Special Topics in Latin (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

### **LAT 385 - Study Abroad: Advanced Latin (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

### **LAT 399 - Independent Reading (1 to 3 credits)**

Supervised independent reading in Latin. Topic, credit, and time must be arranged with individual faculty member before registration. Offered fall and winter semesters.

### **LAT 400 - Advanced Latin Prose (3 credits)**

Advanced study of Latin prose authors such as Caesar, Cicero, Sallust, Livy, Seneca, Pliny, and Tacitus. Special attention to electronic resources in classics and elements of textual criticism. Offered winter semester of even-numbered years. Prerequisite: One 300-level Latin course.

### **LAT 401 - Advanced Roman Poetry (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Advanced study of Roman poets such as Plautus, Catullus, Lucretius, Virgil, Horace, Ovid, and Juvenal. Special attention to electronic resources in classics and elements of textual criticism. May be repeated for credit when topics vary. Offered fall semester. Prerequisite: One 300-level Latin course.

## **LS 101 - Law in our Lives (3 credits)**

Examination of the law's impact on our lives. An introduction to law and legal reasoning including the legal profession, roles and responsibilities, and major substantive areas of U.S. law including criminal law and civil law areas including torts, contracts, real and personal property, wills and estates, and business law. Fulfills Foundations - Social and Behavioral Sciences. Offered fall and winter semesters.

## **LS 224 - Legal Research (3 credits)**

Introduction to legal research methods, including state and federal reported cases, statutes, cite-checking, administrative regulations, and computerized legal research; introduction to legal citation and writing briefs of court decisions and legal memoranda. Offered fall and winter semesters. Prerequisite: LS 101 with grade of C or higher.

## **LS 226 - Civil Litigation I (3 credits)**

An exploration of all phases of the pretrial litigation process in civil matters, including procedures at the federal and state level. Students will develop an understanding of the attorney-client relationship, investigation of claims, jurisdiction, venue, pleadings, motion practice, discovery, and litigation strategy. Offered fall and winter semesters. Prerequisite: LS 301 or LS 101 (may be taken concurrently) or permission of instructor.

## **LS 320 - Property and Probate Law (3 credits)**

A study of property and probate law through the examination of key concepts, case law, statutory law, and documents. Fact-gathering techniques and drafting considerations will be highlighted. Topics include real estate, personal property, environmental law, wills, and probate. Offered fall and winter semesters. Prerequisite: LS 101 (may be taken concurrently).

## **LS 322 - Commercial Law (3 credits)**

A study of commercial law through the examination of key concepts, case law, statutory law, and documents. Fact-gathering techniques and drafting considerations will be highlighted. Topics include partnerships, corporations, employment law, bankruptcy, and consumer protection law. Offered winter and summer semesters. Prerequisite: LS 101 (may be taken concurrently).

## **LS 324 - Legal Research and Writing (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduction to and overview of legal writing, including advanced citation issues and techniques for preparation of multi-issue legal memoranda, trial and appellate briefs, legal correspondence, and contracts. Offered fall and winter semesters. Prerequisite: LS 224 with a grade of C or better.

### **LS 350 - Family Law (3 credits)**

This course studies family law by examining key concepts, case law, statutory law, and documents along with fact-gathering techniques and drafting considerations. Topics covered include marriage, dissolution of marriage, adoption, child support and custody, parental rights and obligations, nontraditional families, and property law. Offered fall and winter semesters.

### **LS 370 - Women and the Law (3 credits)**

Overview of legal limitations on sex discrimination in the United States and efforts to end discrimination, marriage and divorce, relationships outside of marriage, reproductive rights and biological factors impacting these rights, violence against women, and employment discrimination focusing on gender-based influences that contribute to these human rights violations. Part of the Human Rights Issue. Cross-listed with WGS 370. Offered fall and winter semesters. Prerequisite: Junior standing.

### **LS 380 - Special Topics in Legal Studies (1 to 4 credits)**

Focuses on topics not ordinarily dealt with in other courses. Topics will be determined by faculty interest and student request. Although the course can be repeated, no more than six credits can be applied to a legal study major. Offered on sufficient demand.

### **LS 399 - Independent Reading in Legal Studies (1 to 3 credits)**

Independent supervised readings on selected topics not dealt with in-depth in another course. Offered every semester. Graded credit/no credit.

### **LS 428 - Civil Litigation II (3 credits)**

An in-depth exploration of trial preparation, the conduct of civil trials, post-trial matters, and alternative dispute resolution. Particular attention is paid to methods of organizing and analyzing discovery materials, evidentiary issues, trial strategy and practice, and post-trial matters. Offered fall and winter semesters. Prerequisites: LS 101 and LS 226.

### **LS 490 - Legal Studies Internship (1 to 6 credits)**

Internship in a government, private, or corporate law office or other law-related setting under individual faculty supervision to allow students to apply academic knowledge to professional

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

experience. May be repeated for up to six credits. Graded credit/no-credit. Offered every semester. Prerequisites: Senior standing, LS 101, LS 324, and LS 226 (may be taken concurrently).

## **LS 495 - Legal Thought (Capstone) (3 credits)**

Explores the philosophy, politics, and ethics of law and legal reasoning. Study of the major schools of thought that have informed jurisprudence in the United States and its modern critiques. Familiarity with the fundamentals of legal reasoning and the structure and operation of the legal system will be assumed. Offered fall and winter semesters. Prerequisites: LS 101, LS 324, and senior standing.

## **LS 499 - Independent Study and Research (1 to 3 credits)**

An independent study and research project based on knowledge acquired in other courses, internships, or other legal studies courses. The research will be in the area of the student's interest. Graded credit/no-credit. Offered every semester. Prerequisites: Senior standing and permission of instructor.

## **LSS 180 - Laker Strategies for Success (0 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **MAT 300 - Music, Art, and Theatre for Elementary Education (3 credits)**

A practical course for elementary-teacher candidates introducing creative principles, methods, and materials for teaching music, art, and theatre pertinent to elementary instruction. Closed to music, art, and theatre majors and minors.

## **MAT 380 - Special Topics in Music, Art, and Theatre (1 to 9 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **MBA 601 - Applied Data Analysis and Decision Making (1 credit)**

Provides formal analytical tools useful in identifying business problems and identifying and choosing from a variety of solutions. Emphasis is placed on data analysis, goal and stakeholder

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

identification, and conceptualizing, conducting, and evaluating data-based decisions. Offered spring/summer semester. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 610 - Management Information Systems and Business Intelligence (2 credits)**

Examines the role of information, business intelligence, and management information systems in facilitating and integrating organizational processes. Also, provides an understanding of the strategic role of information systems in organizations and responsibilities of managers to effectively manage their information resources. Offered every semester. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 611 - Accounting for Managers (3 credits)**

Provides an overview of financial and managerial accounting tools and information. Focuses on interpreting and analyzing financial statements as a source of information for managers, evaluating information from financial statements for improved critical thinking and decision-making, and using accounting information for internal planning and control purposes. Offered fall and winter semesters. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 621 - Financial Management (3 credits)**

Focuses on the application of financial techniques, issues, and concepts to optimize the value of the firm. Emphasis is placed on problem-solving and decision-making in the practice of financial management. Topics include financial statement analysis, risk and return, capital budgeting and structure, and the role of global financial markets. Offered fall and winter semesters. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 631 - Leading People and Organizations (3 credits)**

Explores how to improve as a leader through diagnosing organizational problems and developing solutions with individuals and groups as organizational resources. The course also addresses issues of individual, group, and organizational change from a strategic, problem-solving perspective. Offered fall and winter semesters. Prerequisites: Admission to the M.B.A. program and permission of the Graduate Program Director.

## **MBA 641 - Applied Business Economics (3 credits)**

Develops an analytical framework to understand the economics of production, consumer demand, supply and demand analysis, industry structure and performance, pricing strategies, the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

economics of business organizations, and government policy. Offered fall and winter semesters. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 651 - Marketing for Professionals (3 credits)**

Examines the role of markets and marketing in the business environment. Provides the knowledge and tools needed to analyze product and service markets and develop marketing strategies to create sustainable competitive advantages. Offered fall and winter semesters. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 660 - Operations and Supply Chain Management (3 credits)**

Examines how organizations execute sourcing, operations, logistics, and marketing and sales to maximize value for the business and its exchange partners. Emphasis is placed on operational performance, customer service outcomes, financial profitability, and organizational learning. Offered fall and winter semesters. Prerequisites: Admission to the M.B.A. program and permission of the Graduate Program Director.

## **MBA 674 - Self-Awareness and Leadership Style for MBAs (1 credit)**

Provides students with tools to assess and develop their strengths and areas of improvement as a leader. Class is credit/no-credit. Offered every semester. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 675 - Legal Environment for Business (1 credit)**

Focuses on the laws and regulations that affect business decisions. Students will develop an understanding of the legal and regulatory environment, compliance, and the assessment of risk. Offered every semester. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 676 - Leading People and Teams (1 credit)**

Provides a framework for understanding teams and will improve students' ability to work in groups. Illustrates areas of team development, participant roles, and culture. Offered every semester. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 677 - Advanced Leadership and Ethics (1.5 credits)**

Explores ethics and leadership as they are commonly encountered in modern business settings. Students will study ethics and leadership from historical, philosophical points of view with attention to issues of decision-making, organizational governance, and social responsibility. Offered winter semester. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 678 - Advanced Leadership and Ethics (1.5 credits)**

This course builds on the material presented in MBA 677 and explores ethics and leadership as they are commonly encountered in modern business settings. Students will study ethics and leadership from psychological points of view with greater attention to issues of character and social responsibility. Offered spring/summer semester. Prerequisites: MBA 677, admission to the M.B.A. program, and permission of the graduate program director.

## **MBA 679 - Effective Leadership (1 credit)**

Students learn about the specific tasks for which all leaders are responsible and apply them to their current work situation. Students also learn about leadership aspects such as community leadership, how to have difficult conversations with team members, change management, communication skills, and conflict resolution. Class is credit/no-credit. Offered every semester. Prerequisites: MBA 674 and admission to the M.B.A. program and permission of the graduate program director.

## **MBA 680 - Special Topics in MBA (1 to 9 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics. Prerequisite: Admission to Seidman College of Business or permit.

## **MBA 681 - Strategic Mindset and Customer Centricity (1 credit)**

Provides students with the framework to develop a managerial-level strategic, customer-centric, and systemic perspective for evaluating business options and decision-making. Offered every semester. Prerequisites: Admission to the M.B.A. program and permission of the graduate program director.

## **MBA 683 - Strategic and Global Competitiveness (6 credits)**

Examines strategic decision-making to improve organizational competitiveness and sustainability. Develops an analytical toolkit of concepts, frameworks, and techniques for an

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

integrative strategic analysis. Provides a faculty-supervised consulting experience where students will apply business knowledge acquired in the M.B.A. program to pre-identified strategic problems faced by local, regional, or global organizations. Offered every semester. Prerequisites: Admission to the M.B.A. program and permission of the Graduate Program Director.

## **MBA 684 - Professional Consulting and Communications (1 credit)**

This course provides the opportunity for oral and written presentation of the projects completed in MBA 683 to the companies involved and faculty. A written report and oral presentation are required. Offered every semester. Prerequisites: MBA 683, admission to the M.B.A. program, and permission of the graduate program director.

## **MBA 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **MES 201 - Introduction to the Middle East (3 credits)**

An entry-level course introducing students to the variety and complexity of the Middle East. Provides a broad view of the region from the perspective of several disciplines and is especially suitable for students having little familiarity with the region. Fulfills Foundations - Historical Perspectives. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters.

## **MES 202 - Arab Americans (3 credits)**

Introduces students to the Arab American community in the United States, and its historical experiences, and to other salient social and political issues. Topics include such issues as immigration, race and ethnicity, gender, political behavior, economic development, education, media coverage, and civil rights. Fulfills Cultures - U.S. Diversity. Offered winter semester.

## **MES 301 - International Business and Culture (3 credits)**

Explores how business is done in a country or region, and how culture influences business and its environment. This course reviews the country's history, economics, politics, government, arts, or education. It also explores how business practices may differ from U.S. practices. To be taught in that country as part of a study abroad program. Cross-listed with BUS 301. Offered spring/summer semester.

## **MES 330 - Arab Identity in Literature and Culture (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course examines the complexities of forming, constructing, and shaping Arab identity within a vast Arab world. Such complexity will be examined through written and oral accounts, audio and visual sources, and literary authors from the Arab world. All materials read in English translation. Does not count toward Arabic minor. Part of the Identity Issue. Cross-listed with ARA 330. Offered fall and winter semesters. Prerequisite: Junior standing.

## **MES 333 - Study Abroad - Middle East Studies (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credits may vary. Offered as needed. Prerequisite: Specific to instructor and course.

## **MES 350 - Islam: Scripture and Ritual (3 credits)**

The purpose of this course is to deepen the students' understandings of Islam in its religious, social, and historical contexts, i.e., to understand how Muslims live and what they believe. Offered winter semester.

## **MES 370 - Contemporary Issues in the Middle East: The Model Arab League (3 credits)**

Students in this course will learn about the current political, environmental, economic, social, cultural, military, and international affairs of Middle Eastern countries. They will research these issues and participate in the Model Arab League simulation as part of the course. May be repeated for credit if content differs. Part of the Human Rights Issue. Offered winter semester. Prerequisite: Junior standing.

## **MES 380 - Special Topics in Middle East Studies (3 credits)**

Consideration of selected topics not ordinarily dealt with in the regular curriculum. Topics will be determined by faculty interest and student request and will be announced in the class schedule. Can be repeated for credit when the topic differs.

## **MES 386 - Arabic through Culture and Customs (3 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

## **MES 399 - Independent Studies (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Before registering, students must arrange for supervision by a Middle East studies faculty member and submit a contract (available from the MES coordinator) specifying the topic and scope of the study. Instructor approval required prior to registration. Offered every semester.

## **MGT 268 - Business Processes and Management Information Systems (3 credits)**

This course is designed to give the student an understanding of the importance of common business processes and their relationship with information systems in modern companies. Gaining insight into the integration that good information systems, specifically Enterprise Resource Planning (ERP) systems, foster in an organization. Offered every semester.

## **MGT 300 - Fundamentals of Management for Non-Business Majors (3 credits)**

The management process is explained by examining its functions of business planning, organizing, leading, and controlling strategy. Theoretical concepts and applications through the use of selected case materials. Business degree-seeking students will not be given credit toward the undergraduate business degree for completion of this course. Offered every semester.

## **MGT 303 - International Business and Culture (3 credits)**

An introduction to the issues that a company will experience when doing business in a global economy. Emphasis is on the influence of culture on business practices. Topics will include economic structures, marketing approaches, accounting and financial issues, management and organization issues, and distribution issues. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Offered winter semester. Prerequisites: Junior standing and admitted to Seidman College of Business or by permit.

## **MGT 305 - Managerial Skills (3 credits)**

This course is focused on developing useful managerial skills such as business information literacy, business research skills, critical thinking, interpersonal conflict management, problem solving, and decision-making, or a business technology skill. Theory is heavily supplemented with application through exercises and projects. May be repeated if content differs. Offered fall semester of even-numbered years. Prerequisites: Junior standing and admitted to Seidman College of Business or by permit.

## **MGT 330 - Entrepreneurship and Small Business Management (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An exploration of opportunities for self-employment and product development. The course features a comprehensive survey of the entrepreneurship process: recognizing opportunities, evaluating business potential, sources of financing, launching a new business venture, and issues related to managing growth. Application of management principles to operating issues of small, evolving businesses. Offered fall and winter semesters. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 331 - Managing People and Organizations (3 credits)**

Explore the management process through an examination of its functions of planning, organizing, motivating, and controlling work and work performance in a business organization. Students learn about theoretical concepts and applications through the use of selected case materials. Offered every semester. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 333 - Human Resource Management (3 credits)**

Focuses on the work of human resource departments in acquiring, training, developing, appraising, compensating, and managing employees. Strong focus on legal requirements of HR practices. Introduces the growing role of strategic human resource management. Prerequisites: MGT 331 and admitted to Seidman College of Business or by permit.

## **MGT 334 - Employment and Labor Law (3 credits)**

Analysis of major employment and labor laws affecting management and employee rights. Specific topics include tort; contract and negligence law; constitutional law; administrative laws prohibiting discrimination, data theft, and invasion of privacy; and litigation, mediation, and arbitration. International employment laws will be addressed for comparison purposes. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 336 - Compensation and Benefits Management (3 credits)**

Provides students with an understanding of the compensation system. Emphasis on the design, development, and implementation of a total compensation system that balances internal consistence with external competitiveness. Prerequisites: MGT 333 and admitted to Seidman College of Business or by permit.

## **MGT 337 - Supply Chain Management (3 credits)**

Examines the organization of a purchasing department, its objectives, functions, and personnel. Purchasing specifications, standards, bidding, ordering, and sources are among the topics covered. Discussion and analysis of the duties and responsibilities of the materials handling

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

manager in a typical manufacturing firm. Specifically, the handling of materials in the manufacturing process is discussed, including coordination between manufacturing departments and plants within a firm. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)**

This course explores the relationship between business development, social justice, and the growing emphasis on sustainable business practices (e.g., "conscious capitalism"). Business will be studied in a way that includes the study of community, commitment to the common good, and one's own values. Offered each semester. Prerequisites: MGT 331, junior standing, and admitted to Seidman College of Business or by permit.

## **MGT 345 - Team Building (3 credits)**

A class which integrates theory and application by teaching students how to be effective members of a work team. Emphasis on both logical and creative problem solving. Dynamics and processes within teams serve as the focus of analysis, learning, and practice. Offered every year. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 350 - Principles of Electronic Commerce (3 credits)**

This course introduces students to the fundamental concepts and frameworks of electronic commerce (EC). Topics include strategic role of EC, impact on an organization and its value system, assessment of available business models, overview of the technological infrastructure, and a discussion of critical legal, societal, and management issues. Offered winter semester. Prerequisites: MGT 268 and admitted to Seidman College of Business or by permit.

## **MGT 351 - Enterprise Information Systems (3 credits)**

This course provides a comprehensive understanding of Enterprise Information Systems (EIS) focusing on Enterprise Resource Planning (ERP) systems and the key role they play in modern organizations. Students will gain an understanding of ERP systems from both a functional (business process) and implementation perspective using SAP R/3 software. Offered fall and winter semester. Prerequisites: MGT 268 and admitted to Seidman College of Business or by permit.

## **MGT 355 - The Diversified Workforce (3 credits)**

An examination of the experiences of different groups in the U.S. workforce, including race, ethnicity, gender, age, disability, and sexual orientation. Cultural differences are explored, and consideration is given to the ways in which organizational norms operate to include or

marginalize different groups of people. Fulfills Cultures - U.S. Diversity. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 361 - Management Science (3 credits)**

Application of the scientific, mathematical, and quantitative methods to managerial decision-making under conditions of certainty, risk, and uncertainty. Specific topics include linear programming, transportation, assignment, project management, queuing theory, decision analysis, and simulation. Offered every semester. Prerequisites: STA 215 and admitted to Seidman College of Business or by permit.

## **MGT 362 - Computers in Operations Management (3 credits)**

Familiarizes students with the modeling, methodologies, and software used in developing operations management systems. Offered every year. Prerequisites: MGT 268, MGT 366, and admitted to Seidman College of Business or by permit.

## **MGT 363 - Managing Quality (3 credits)**

Provides students with an overview of total quality management. Emphasis on philosophy, tools, and the integrated systems for the continuous improvement of process and product quality. Offered every year. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 364 - Service Operations Management (3 credits)**

An overview of the planning, controls, and designs of operations in the service industry. Emphasis on the application of economic principles, decision tools, and models to solve problems encountered in the service environment. Offered every year. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 365 - Strategic Management of Operations (3 credits)**

Designed to enhance comprehension of the operations management function at the strategic level to gain experience in identifying and analyzing strategic problem situations and to develop recommendations for action. Offered every year. Prerequisites: MGT 366 and admitted to Seidman College of Business or by permit.

## **MGT 366 - Operations Management (3 credits)**

Application of strategic and quantitative tools and techniques in manufacturing and service organizations. Specific topics include manufacturing strategy formulation, forecasting, aggregate planning, scheduling, Just In Time management and assurance of quality, inventory

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

management, and advanced technologies, including Enterprise Resource Planning (ERP) systems. Offered every semester. Prerequisites: STA 215, MGT 268, and admitted to Seidman College of Business or by permit.

## **MGT 367 - Manufacturing Planning and Control (3 credits)**

Basic course in manufacturing planning and control. Topics include capacity planning, forecasting, production activity control, master production scheduling, production planning, independent demand inventory management, material requirements planning, and Just In Time. Offered fall semester. Prerequisites: MGT 268, MGT 366, and admitted to Seidman College of Business or by permit.

## **MGT 371 - Systems Analyses and Design (3 credits)**

Provides a comprehensive presentation of the concepts, procedures, and tools necessary for analyzing and designing management information systems. Students will develop skills necessary throughout the systems development cycle, e.g., project management, data collection, analysis, design, testing, and documentation. Students will apply course concepts and skills in a team project. Offered fall semester. Prerequisites: MGT 268 and admitted to Seidman College of Business or by permit.

## **MGT 380 - Special Topics in Management (3 credits)**

Analysis and discussion of advanced topics, contemporary problems, and new or controversial topics. Specific topics will reflect interest of students and instructors. Offered on sufficient demand. Prerequisites: Admitted to Seidman College of Business and by permit.

## **MGT 429 - Staffing and Development (3 credits)**

This course addresses the concepts, practices, trends, and techniques related to the strategic acquisition and development of talent. Legal, ethical, and global issues in human resources staffing and development are explored throughout the course. Students convert concepts into practice through integrative case studies and/or projects. Offered fall and winter semesters. Prerequisites: MGT 333 and admitted to Seidman College of Business or by permit.

## **MGT 430 - Organizational Development (3 credits)**

Examines change as a dynamic and essential process in organizations and explores the manager's role as a change agent. Emphasis is given to the ability to plan, initiate, and implement changes with the potential to improve the functioning of organizations and their members. Prerequisites: MGT 331 and admitted to Seidman College of Business or by permit.

## **MGT 431 - Strategic Human Resources Management (3 credits)**

The consideration of human resource management from a strategic perspective. Includes discussion and analysis of the emerging use of the human resource function as a strategic tool. Students convert concepts into practice through the use of strategic cases and/or professional projects and exercises. Prerequisites: MGT 333 and admitted to Seidman College of Business or by permit.

## **MGT 432 - Grievance Administration, Arbitration, and Collective Bargaining (3 credits)**

Problems and issues in the negotiation of collective bargaining agreements in the public and private sectors. Grievance procedures and arbitration under a union contract. The resolution of disputes over wages, seniority, work assignments, and other common employment relations topics will be covered. Prerequisites: MGT 334 and admitted to Seidman College of Business or by permit.

## **MGT 433 - International Human Resource Management (3 credits)**

Focus on the effects of globalization on human resource activities and facilitates development of a set of skills essential for a successful career as a global manager. Prerequisites: MGT 333 and admitted to Seidman College of Business or by permit.

## **MGT 437 - Family Business (3 credits)**

Develops the intricate connections between management, ownership, and family dynamics that characterize family business. Its intention is to do this primarily by bringing together established members of the local family-owned business community and students with family business backgrounds or interests. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 438 - Business Ethics (3 credits)**

An inquiry into the relevance of the classical ethical literature to the resolution of everyday business problems. Particular emphasis will be placed on the practical usefulness of the Socratic tradition. That tradition requires that we attend to clarifying our own values, as well as those of others. We will read a number of Socratic dialogues, respond to a variety of business cases, and attend to the relationship between them and the process of understanding ourselves. Prerequisites: MGT 331 and admitted to Seidman College of Business or by permit.

## **MGT 466 - International Management and Multinational Corporations (3 credits)**

A study of the managerial challenges of conducting business in a global economy. Emphasis on cultural differences and their impact on the situations and issues managers confront when working internationally. Fulfills Cultures - Global Perspectives. Prerequisites: Senior standing and admitted to Seidman College of Business or by permit.

## **MGT 467 - Advanced Topics in Operations and Supply Chain Management (3 credits)**

This course is designed to familiarize students with strategic planning, modeling, and developing practical applications in operations and supply chain management. Cost-effective distribution policies for multi-echelon inventory systems, transportation and routing management and location planning are also covered. Prerequisites: MGT 366 and admitted to Seidman College of Business or by permit.

## **MGT 471 - Enterprise Systems Configuration (3 credits)**

Students will learn about business processes in modern organizations, managing change to those processes, and configuring an Enterprise Resource Planning (ERP) system to implement business process changes. Project organizational skills will be enhanced as students work on cross-functional teams to implement changes. Offered fall semester. Prerequisites: MGT 351 and admitted to Seidman College of Business or by permit.

## **MGT 475 - Customized ERP Solutions (3 credits)**

Students will learn how to customize Enterprise Resource Planning (ERP) software using programming languages like ABAP, SAP's proprietary language. Students will learn generalized programming concepts as well as the specifics of programming with ABAP. Students will explore the difficulties associated with making changes to "off-the-shelf" software. Offered winter semester. Prerequisites: MGT 351, CIS 160, CIS 333, and admitted to Seidman College of Business or by permit.

## **MGT 477 - Applied Business Intelligence (3 credits)**

This course equips the student with skills for business intelligence and analytics to support managerial decision making. Emphasis will be on the application of tools and techniques to analyze business data and communicate findings to business stakeholders. Students will use SAP and other analytics tools throughout the course. Offered fall and winter semesters. Prerequisite: MGT 268.

## **MGT 478 - Business Intelligence Development (3 credits)**

In this course, students will acquire knowledge and skills in developing customized business intelligence systems to support data analytics and decision-making in modern businesses. Emphasis will be on the design and implementation of enterprise data warehouses. Students will use SAP and other data analytics tools throughout the course. Offered fall and winter semesters. Prerequisite: MGT 477.

## **MGT 480 - Special Topics in Management (3 credits)**

Provides students, regardless of major, with opportunities to work under faculty supervision as part of a student team on actual projects for organizations and corporations and to learn and practice technical and communication skills and ethical considerations. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 490 - Management Internship (1 to 6 credits)**

This course will be used to grant management credit to students who complete internships in the management field. Graded credit/no-credit. Prerequisites: Junior standing, minimum 2.5 GPA, and admitted to Seidman College of Business or by permit.

## **MGT 495 - Administrative Policy (3 credits)**

The study of functions and responsibilities of general management in terms of analyzing problems that affect the performance, character, and success of the total business enterprise. Emphasis on corporate strategy and its implementation. International aspects of corporate strategy are included. Offered every semester. Prerequisites: Senior standing, all core classes, and admitted to Seidman College of Business or by permit.

## **MGT 499 - Independent Research (1 to 3 credits)**

Students propose an independent study culminating in a written and oral report. The proposal must include learning outcomes and a readings list. Proposals involving primary research should include a detailed description of objectives and methodology. Students must find an interested faculty member to help them prepare the proposal and to supervise the independent research. Offered every semester. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MGT 580 - Special Topics in Management (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **MGT 660 - Operations and Supply Chain Management (3 credits)**

Develops an understanding and appreciation of the conceptual and quantitative aspects of operations management as a core business competency in manufacturing and service environments. Emphasis is placed on specific operations management concepts/methods such as supply chain management, lean operations/just-in-time, inventory management, MRP/ERP, aggregate planning, and total quality management/SPC. Offered every semester. Prerequisite: Completion of M.B.A. background equivalents.

## **MGT 665 - Enterprise Information Systems (3 credits)**

This course enables students to experience enterprise information systems (EIS) from the perspectives of end users and designers using EIS. Various software modules are explored - financial accounting, cost management, materials management, production planning and control, and sales and distribution - with particular focus on underlying processes that they support. Offered winter semester. Prerequisite: BUS 610 or equivalent.

## **MGT 672 - Creativity and Social Entrepreneurship (3 credits)**

This course provides applied sustainable development tools and best practices that businesses and nonprofit organizations can use to address social entrepreneurship issues using innovative, interdisciplinary, and sustainable approaches. Offered fall semester. Prerequisite: Admission to a graduate program.

## **MGT 680 - Special Topics in Management (1 to 3 credits)**

Analysis and discussion of advanced topics, contemporary problems, and new or controversial topics. Specific topics will reflect interest of students and instructors. Prerequisite: Permission of instructor.

## **MGT 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **MGT 699 - Independent Study (1 to 3 credits)**

Independent research in the student's area of interest, supervised by a Seidman faculty member and culminating in a written and oral report. Written permission of supervising faculty required.

## **MIC 495 - Microbiology and Infectious Disease (3 credits)**

This microbiology course will synthesize the materials students have learned from the microbiology core and cognate courses and enable them to write and present professionally styled communications to an audience of their peers and to instructors. Offered fall and winter semesters. Prerequisites: Senior standing and one of the following pairings: BMS 312 and BMS 313; or BMS 412 and BMS 413; or BMS 422 and BMS 423.

## **MKT 300 - Fundamentals of Marketing for Non-Business Majors (3 credits)**

Introduction to marketing for the non-business major. Discusses activities, institutions, and processes involved in marketing products and services across various contexts. Highlights marketing's role in society and in individuals' lives. Bachelor of Business Administration (B.B.A.) degree-seeking students will not be given credit toward degree completion for this course. Offered every semester.

## **MKT 350 - Marketing Management (3 credits)**

An introduction to marketing. Provides a general understanding and appreciation of the forces operating, institutions employed, and methods followed in marketing products and services both domestically and internationally. Offered every semester. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MKT 351 - Consumer Behavior (3 credits)**

An overall view of some of the basic perspectives of consumer motivation and behavior. Offered fall and winter semesters. Prerequisites: MKT 350 and admitted to Seidman College of Business or by permit.

## **MKT 352 - Marketing Research (3 credits)**

Detailed examination of business research procedures and applications. Problem definition, research design, data collection, sampling techniques, costs, etc. Case problems and projects. Offered fall and winter semesters. Prerequisites: MKT 350, STA 215, and admitted to Seidman College of Business or by permit.

## **MKT 353 - Marketing Negotiations (3 credits)**

This course develops an understanding and appreciation of the negotiation process. Definitions, concepts, strategies, and practical tactics encompassed in marketing negotiation are examined in circumstances involving pricing, products, distribution, promotion, and packaging. The course

includes face-to-face negotiation projects. Offered fall and winter semesters. Prerequisite: Admission to Seidman College of Business or with permission.

## **MKT 354 - Distribution Institutions and Logistics (3 credits)**

An integrated study of supply chain and distribution channels and their institutions in the global marketplace. Topics include an introduction to the supply chains, system design, advantages and disadvantages of various channel institution types, and the functional dimensions of supply chain and distribution management. Offered fall and winter semesters. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MKT 355 - International Logistics (3 credits)**

Studies global trade management and logistics issues. Trade management issues will focus on documentation requirements, customs administration, and security issues. International logistics topics will include system design, intermediaries, legal, customer service, transportation, warehousing, and inventory. The course also deals with logistics operations within selected foreign markets. Offered fall semester. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MKT 356 - Professional Selling (3 credits)**

The principles of professional salesmanship and their practical application in the marketing mix. Actual sales presentations by students are included. Offered fall and winter semesters. Prerequisites: MKT 350 and admitted to Seidman College of Business or by permit.

## **MKT 357 - Retailing (3 credits)**

Introduction to retailing with emphasis on profit elements, pricing and merchandising policies, inventory, and merchandise control. Offered fall and winter semesters. Prerequisites: MKT 350 and admitted to Seidman College of Business or by permit.

## **MKT 358 - Advertising and Marketing Communications (3 credits)**

A managerial analysis and examination of the nonpersonal demand generating element of the firm's marketing efforts. Includes study of communication theory; advertising; market, audience, and target segmentation and selection; media analysis; public relations; publicity; and most other nonpersonal communications activities. These elements are strongly related to personal selling in the private sector firm. Offered fall and winter semesters. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MKT 359 - Multinational Marketing (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Emphasizes global marketing decision-making from the manager's point of view. Examines how successful international companies, both large and small, decide which goods and services to market in specific parts of the world. Evaluates the strategies and tactics necessary for multinational marketing success. Part of the Globalization Issue. Offered fall and winter semesters. Prerequisites: Admitted to Seidman College of Business or by permit, and junior standing.

## **MKT 360 - Digital Marketing (3 credits)**

Introduction to the strategic use of digital tools for marketing goods and services across a range of categories. How digital media is used to increase effectiveness, efficiency, and competitiveness. Specific areas of focus include market and marketing research, competitive monitoring, customer service, new product testing, and internal and external communications. Offered fall semester. Prerequisites: MKT 350 and admitted to Seidman College of Business or by permit.

## **MKT 361 - Sports Marketing (3 credits)**

An examination of the unique marketing strategies within the sporting industry. The course will explore these strategies from a variety of stakeholder perspectives. This course places special emphasis on the local sporting scene, which will include group and individual projects, case studies, and field trips. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MKT 365 - GIS for Economic and Business Decision-Making (3 credits)**

Explores the use of geographic information systems (GIS) technology in economic and business decision-making, including market area analysis, geodemographic segmentation, site selection, routing, customer profiling, sales territory management, and location strategies. Emphasis on hands-on activities. Problem-based learning approach. Part of the Information, Innovation, or Technology Issue. Course is cross-listed with GPY 365. Prerequisites: Junior standing and admitted to Seidman College of Business or by permit.

## **MKT 369 - Creativity in Marketing Innovation (3 credits)**

Focused on learning about, and improving, individual and team creativity in the workplace. Factors that encourage and discourage creativity, including the work environment and employee attitudes, are also examined. Exploration of the Design Thinking Model is used to highlight the understanding of the role of creativity in marketing innovation processes. Offered fall and winter semesters. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MKT 370 - New Product Development (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course teaches students how to develop a successful new product or service. Student teams experience the whole process involved in bringing a new product from idea to launch. Emphasis is on the application of fundamental marketing and entrepreneurial principles required to achieve continuous innovation and sustainable competitive advantage. Offered fall and winter semesters. Prerequisites: MKT 350 and admitted to Seidman College of Business or by permit.

## **MKT 375 - Marketing Ethics (3 credits)**

The ethical implications of several current marketing public policy issues will be discussed, including consideration of each issue with regard to the responsibility of business in society. Guidelines for ethical decision-making, principles of ethical leadership, and ethical behavior in corporate governance will also be reviewed. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MKT 380 - Special Topics in Marketing (3 credits)**

Analysis and discussion of advanced topics, contemporary problems, and new or controversial topics. Specific topics will reflect interest of students and instructors. Prerequisite: Admitted to Seidman College of Business or by permit.

## **MKT 425 - Brand Management (3 credits)**

Strategies for building and measuring brand equity are discussed. Other topics to be covered include the management of brands on the Web, cobranding, and brand extensions. All students will complete a brand audit as part of the course. Offered fall semester. Prerequisites: MKT 350 and admitted to Seidman College of Business or by permit.

## **MKT 451 - Marketing Strategy (3 credits)**

A methodical analysis of a significant number of marketing cases selected from actual business experience to illustrate the application of sound principles to market planning, sales forecasting, and market management. Offered fall and winter semesters. Prerequisites: MKT 350, senior standing, and admitted to Seidman College of Business or by permit.

## **MKT 452 - Marketing Analytics (3 credits)**

Examination of businesses' use of consumer data for business decisions in highly turbulent market environments. Drawing on techniques learned in MKT 352 - Marketing Research, students will apply analytical software tools to case studies of marketing challenges, improving their ability to make business recommendations based on statistical analysis. Offered winter semester. Prerequisites: MKT 352 and admitted to Seidman College of Business or by permit.

## **MKT 456 - Sales Management (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Application of management functions to the selling structure and sales problems of companies. Behavioral and quantitative disciplines are used in case study analyses. Organizing sales operations, sales planning, analysis, and evaluation are covered. Offered fall and winter semesters. Prerequisites: MKT 356 and admitted to Seidman College of Business or by permit.

### **MKT 457 - Logistics and Transportation (3 credits)**

Studies the role of transportation in the global supply chain and distribution channel, and the interaction of transportation with other supply chain logistics activities such as inventory control. Topics include logistics system design, transportation policy and infrastructure, each mode of freight transportation, and the management of transportation. Offered every other semester. Prerequisites: MKT 350 and admitted to Seidman College of Business or by permit.

### **MKT 490 - Marketing Internship (1 to 6 credits)**

This course will be used to grant marketing credit to students who complete internships in the marketing field. Graded credit/no-credit. Prerequisites: Junior standing, minimum 2.5 GPA, and admitted to Seidman College of Business or by permit.

### **MKT 499 - Independent Research (1 to 3 credits)**

Students propose an independent study culminating in a written and oral report. The proposal must include learning outcomes and a readings list. Proposals involving primary research should include a detailed description of objectives and methodology. Students must find an interested faculty member to help them prepare the proposal and to supervise the independent research. Offered every semester. Prerequisite: Admitted to Seidman College of Business or by permit.

### **MKT 651 - Marketing Management (3 credits)**

Focuses on developing an understanding of the role of markets and marketing in the macroeconomic environment, and on providing marketing managers with the knowledge and tools they will need to successfully analyze product markets and develop marketing strategies that will provide sustainable competitive advantage. Offered fall and winter semesters. Prerequisite: Completion of M.B.A. background equivalencies.

### **MKT 680 - Special Topics in Marketing (1 to 3 credits)**

In-depth analysis of selected current topics and problems in marketing. Content will vary from semester to semester among the many subareas of marketing management, physical distribution, systems analysis/design, application, model building, and theory. Prerequisite: Admission to the M.B.A. program.

### **MKT 697 - Professional Learning (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **MKT 699 - Independent Study (1 to 3 credits)**

Independent research in student's area of interest, supervised by a member of the Seidman faculty and culminating in a written and oral report. Written permission of supervising faculty required.

## **MLL 100 - How to Learn a Foreign Language (1 credit)**

This course is designed to teach beginning world language students how to become successful language learners. Students will be introduced to strategies for understanding, learning, and producing language and functioning in a foreign culture. They will also learn to set their own goals and assess their own progress. Corequisite: Concurrent enrollment in any world or classical language (Arabic, Chinese, French, German, Greek, Italian, Japanese, Latin, Russian, or Spanish) 101, 102, 150, or 201.

## **MLL 300 - What's Language Got To Do With It?: Exploring Identity Through Language, Culture, and Literature (3 credits)**

Students will discover the impact of language, literature, and culture in the formation of identity. Discussion will be based on literary works and films from the different languages and regions of the world taught in the Department of Modern Languages and Literatures. All materials are in translation. Part of the Identity Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **MLL 380 - Special Topics in Modern Languages and Literature (1 to 9 credits)**

Consideration of selected topics not ordinarily dealt with in other courses. Topics to be determined; consult class schedule for specific topics. Can be repeated. Offered occasionally. Prerequisites: Variable.

## **MLS 102 - Introduction to Medical Laboratory Sciences (1 credit)**

An introduction to principles and practices of cytotechnology, histotechnology, and medical technology and the professionals in these fields as members of the health care team. Restricted to freshmen, sophomore, or transfer students, or by permit.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MLS 320 - General Laboratory Practice (2 credits)**

An introduction to laboratory sciences, including laboratory safety, instrumentation, quality control, specimen collection, and processing. An emphasis will be placed on urine analysis and the clinical application of urine examination. Offered winter semester. Prerequisites: BMS 250, BMS 251, CHM 232, and admission into the MLS program.

## **MLS 350 - Management for Laboratory Science (2 credits)**

This course is designed to teach the principles of laboratory management. It will focus on underlying managerial concepts that will assist the learner in application of this information to real-life situations. Learning units will cover four areas of management: basic principles and organizational structure, human resources, finance, and operations. Offered winter semester.

## **MLS 370 - Parasitology and Mycology (4 credits)**

A study of the structure, function, and diagnostic characteristics of clinically significant parasites and fungi. Emphasis will include discussion of pathogenicity, transmission, and control of these microbes, along with related host response. Offered winter semester. Prerequisites: BMS 212 and BMS 213.

## **MLS 371 - Parasitology and Mycology Lab (1 credit)**

Parasitology and Mycology laboratory will focus on the study of the structure, function, and diagnostic characteristics of clinically significant parasites and fungi. Specimen collection, microscopic observation, and diagnostic procedures for the identification of pathogenic microbes will be emphasized. Offered winter semester. Prerequisites: BMS 212 and 213. Corequisite: MLS 370.

## **MLS 372 - Diagnostic Microbiology (3 credits)**

A study of the epidemiology, pathogenesis, and clinical significance of medically important bacterial agents involved in infectious disease processes. Discussion of diagnostic characteristics and methods used for laboratory identification of these organisms will also be emphasized. Offered fall semester. Prerequisites: BMS 212 and BMS 213.

## **MLS 373 - Diagnostic Microbiology Laboratory (1 credit)**

Diagnostic Microbiology Laboratory will focus on medical bacteriology specimen collection and diagnostic testing procedures used for the identification of clinically significant bacteria. Emphasis will be placed on application and integration of theory, practical application, and technical performance of laboratory skills in clinical bacteriology. Offered fall semester. Prerequisites: BMS 212 and BMS 213. Corequisite: MLS 372.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MLS 380 - Special Topics in Medical Laboratory Science (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **MLS 399 - Readings in Medical Laboratory Science (1 to 4 credits)**

Independent supervised readings on selected topics or supervised independent medical laboratory work. The topics, hours, and number of credits must be arranged with a faculty sponsor and approved by the program director. May be elected for one to four credit hours toward the major in medical laboratory science.

## **MLS 400 - Molecular Diagnostics/Virology (3 credits)**

This course is an introduction to the principles, theory, and laboratory techniques used in the rapidly expanding field of molecular diagnostics. Laboratory application of molecular testing, including DNA extraction and Polymerase Chain Reaction, will be practiced. The course will cover the structure, function, and diagnostic characteristics of clinically significant viruses. Offered winter semester. Prerequisites: BIO 355, BMS 212, and BMS 410.

## **MLS 410 - Clinical Immunoserology (3 credits)**

Principles of the immune response, immunological disorders, the methodology used in the detection of immunological disorders, and the correlation of test results to these disorders are presented through lecture, demonstration, and practical experience. Offered fall semester. Prerequisite: MLS 320.

## **MLS 416 - Hematology (3 credits)**

A study of normal and abnormal blood cell development, morphology, and function. Blood dyscrasias will be studied with emphasis on the biochemical and morphological changes involved in disease. Prerequisites: BMS 250, BMS 251, and CHM 232.

## **MLS 417 - Clinical Hematology Laboratory (1 credit)**

An introduction to a wide variety of hematology medical laboratory procedures with an emphasis on accurate performance, theoretical basis of tests, and correlation of data to disease. Prerequisite: MLS 416 (may be taken concurrently).

## **MLS 422 - Clinical Chemistry (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Biochemical, physiological, and analytic aspects of organic and inorganic substances of medical interest, including electrolytes, blood gases, proteins, enzymes, lipids, drugs, and hormones, are presented through lecture, demonstration, and practical experience. Offered fall semester. Prerequisite: MLS 320.

### **MLS 423 - Clinical Chemistry Laboratory (2 credits)**

Biochemical, physiological, and analytic aspects of organic and inorganic substances of clinical interest, including electrolytes, blood gases, proteins, enzymes, lipids, drugs, and hormones, are presented through demonstration, laboratory exercises, and practical experience. Offered fall semester. Prerequisite: MLS 320.

### **MLS 450 - Clinical Practicum I (1 credit)**

The first of two full-time medical experiences. Practicing medical laboratory scientists will supervise and teach students in basic laboratory procedures, including urinalysis, immunoserology, hematology, and medical chemistry. The students will be exposed to patients and typical workload in the hospital laboratory. Offered fall semester. Prerequisite: MLS 320. Corequisites: MLS 372, MLS 410, MLS 422, MLS 416, and MLS 417.

### **MLS 461 - Medical Laboratory Science Simulation Laboratory (2 credits)**

This laboratory course is designed to simulate the clinical laboratory setting and provide students with the hands-on experience and practice needed to build their skill and competency in pre-analytical, analytical, and post-analytical testing. Emphasis is placed on the following disciplines: hemostasis, transfusion medicine, hematology, urinalysis, clinical chemistry, immunoserology, and microbiology. Course is graded credit/no-credit. Prerequisites: MLS 372, MLS 422, and MLS 417.

### **MLS 462 - Transfusion Medicine (3 credits)**

In transfusion medicine, students will study human blood group antigens and antibodies. This lecture and laboratory course will examine cellular antigen systems, and teach the principles and techniques required for compatibility testing for blood transfusion and other important transfusion practices. Blood component collection, processing, and distribution will also be discussed. Offered winter semester. Prerequisite: MLS 410.

### **MLS 463 - Hemostasis (2 credits)**

This lecture and laboratory course provides an overview of theory and practical application of hemostasis (coagulation), as it relates to the medical laboratory. The coagulation cascade, intrinsic and extrinsic pathways, thrombosis, and fibrinolysis will be covered, as well as

coagulation laboratory principles and correlation of results with disease states. Offered winter semester. Prerequisite: MLS 410.

### **MLS 464 - Bacteriology and Antibiotics (1 credit)**

This lecture and laboratory course is an advanced bacteriology course with a focus on antimicrobial susceptibility testing. Medically important pathogens requiring unusual detection and identification methods, as well as contemporary topics in microbiology will be discussed. Offered winter semester. Prerequisite: MLS 372.

### **MLS 490 - Clinical Practicum II (5 credits)**

The second of two full-time medical experiences. Practicing medical laboratory scientists will supervise and teach students in advanced laboratory procedures, including hemostasis, medical chemistry, microbiology, and transfusion service. Students will be exposed to patients and typical workload in the hospital laboratory. Offered winter semester. Prerequisites: MLS 372, MLS 373, MLS 422, and MLS 450. Corequisite: MLS 461.

### **MLS 495 - Issues in Medical Laboratory Science (3 credits)**

Exploration of issues that impact health care, particularly the laboratory professional. Includes in-depth discussions of research literature and its relevance to medical laboratory science. Students will work individually and in groups to prepare a paper, presentation, and a poster. Offered winter semester. Prerequisite: Senior standing in the medical laboratory science program. Corequisite: MLS 490.

### **MOV 101 - Foundations of Human Movement Science (3 credits)**

Exploration of the past, present, and future of human movement science highlighting professional preparation and opportunities.

### **MOV 102 - First Aid, CPR and AED (2 credits)**

Emergency care for the teacher, recreation leader, and allied health professional. Preparation for first aid, CPR (cardiopulmonary resuscitation), and AED (automated external defibrillation) certification.

### **MOV 180 - Special Topics in Movement Science (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Lecture, discussion, laboratory, or field study on a topic related to movement science. Offered on sufficient demand.

## **MOV 201 - Psychosocial Aspects of Physical Education and Sport (3 credits)**

A study of the psychosocial and cultural context of sports and physical education. The role of education and other institutional social and cultural forces that are integral to the sporting milieu, the psychological and behavioral factors that influence the sport setting, and participation will be studied.

## **MOV 280 - Special Topics in Movement Science (1 to 4 credits)**

Lecture, discussion, laboratory, or field study on a topic related to movement science. Offered on sufficient demand.

## **MOV 300 - Kinesiology (3 credits)**

Laws and principles of mechanics as they apply to the use of the human body, human mechanism, and its process of motor function. (2-1-0) Prerequisite: BMS 202 or BMS 208 or BMS 250.

## **MOV 304 - Introduction to Exercise Physiology (3 credits)**

The physiological responses to an acute bout of exercise, adaptations to exercise training, and the mechanisms responsible for them in relation to health, fitness, and athletic performance. Prerequisite: BMS 202 or BMS 251 or BMS 290.

## **MOV 310 - Motor Skill Development (3 credits)**

The study of the acquisition of motor skills. The class investigates principles and theory of motor skill development as applied to the teaching and coaching of skilled performance. Offered fall and winter semesters; spring/summer on sufficient demand.

## **MOV 350 - The Obesogenic Environment (3 credits)**

Obesity is a global health issue. This course will examine obesity within the context of behavioral choices, and physical and social environments (e.g., public health policy, sociocultural influences, food accessibility, media, marketing). Obesity prevention and intervention strategies will also be explored. Part of the Health Issue. Offered fall semester. Prerequisites: Junior standing and either PSY 101 or SOC 101.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MOV 365 - Clinical Exercise Physiology (3 credits)**

The health professional will apply the knowledge base of anatomy, physiology, biochemistry, and the practical application within a clinical exercise environment. Practical application, problem solving and integration of exercise physiology and exercise program design are stressed. Offered fall and winter semesters. Prerequisites: BMS 251 or BMS 290; and MOV 304.

## **MOV 380 - Special Topics in Movement Science (1 to 4 credits)**

Lecture, discussion, laboratory, or field study on a topic related to movement science. Offered on sufficient demand.

## **MOV 399 - Independent Readings (1 to 3 credits)**

Special studies in movement science upon consultation with faculty advisor and approval of department chair.

## **MOV 435 - Measurement in Biomechanics (3 credits)**

Introduction to bioinstrumentation systems used in biomechanics research and rehabilitation practice. Biomechanical and measurement theory will be examined. Students will develop entry-level skills in methods of data collection and processing using instruments to measure human movement and balance. Cross-listed with MOV 535, and PT 435, PT 535. Offered fall semester. Prerequisite: Registration permit required.

## **MOV 480 - Special Topics in Movement Science (1 to 3 credits)**

Lecture, discussion, laboratory, or field study on a topic related to movement science. Offered on sufficient demand.

## **MOV 499 - Independent Study and Research (1 to 3 credits)**

Special studies in movement science in consultation with advisor and approval of department chair.

## **MOV 535 - Measurement in Biomechanics (3 credits)**

Introduction to bioinstrumentation systems used in biomechanics research and rehabilitation practice. Biomechanical and measurement theory will be examined. Students will develop entry-level skills in methods of data collection and processing using instruments to measure human

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

movement and balance. Cross-listed with MOV 435, and PT 435, PT 535. Offered fall semester. Prerequisite: Registration permit required.

## **MOV 580 - Special Topics in Movement Science (1 to 3 credits)**

Lecture, discussion, laboratory, or field study on a topic related to movement science.

## **MOV 680 - Special Topics in Movement Science (1 to 3 credits)**

Lecture, discussion, laboratory, or field study on a topic related to movement science.

## **MOV 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **MSL 101 - Military Science and Leadership Introduction to the Army (3 credits)**

Introduction to the Army, basic soldier skills, and the profession of arms. Development of basic knowledge and comprehension of the Army leadership requirements model. Cadets also develop as Army leaders and soldiers through performance of basic field survival environment skills. This course is offered through Western Michigan University's ROTC program. Offered fall and winter semesters.

## **MSL 201 - Leadership and Decision Making (2 credits)**

This course focuses on increasing cadets' understanding of Army leadership and decision-making demonstrated through critical, creative thinking and applying troop leading procedures to solutions and problems. The Army profession is stressed through leadership forums, self-assessment, and weekly performance-oriented labs. This course is offered through Western Michigan University's ROTC program. Offered fall and winter semesters.

## **MSL 202 - Army Doctrine and Team Development (2 credits)**

Focuses on Army doctrine and team development through emphasis on Army values, teamwork, and warrior ethos and their relationship to the law of land warfare and philosophy of military

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

service. This course is offered through Western Michigan University's ROTC program. Offered fall and winter semesters. Prerequisite: MSL 201.

## **MSL 299 - Independent Studies in MSL (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

## **MSL 301 - Training Management and Warfighting Functions I (3 credits)**

Training management and the warfighting functions is a course in the study, practice, and apply the fundamentals of Army leadership, the profession, Army values and ethics, personal development, and small unit tactics at the platoon level. This course is offered through Western Michigan University's ROTC program. Offered fall and winter semesters. Prerequisites: MSL 201 and MSL 202.

## **MSL 302 - Training Management and Warfighting Functions II (3 credits)**

Applied leadership in small unit operations focusing on the study, practice, and apply the fundamentals of direct level leadership and small unit tactics at the platoon level. This course is offered through Western Michigan University's ROTC program. Offered fall and winter semesters. Prerequisite: MSL 301.

## **MSL 401 - Mission Command and the Army Profession (3 credits)**

Focuses on development Army Officer knowledge, skills, and abilities to plan, resource, and assess training at the small unit level. Students will learn about Army programs that support counseling subordinates and evaluating performance, values, ethics, career planning, and legal responsibilities. This course is offered through Western Michigan University's ROTC program. Offered fall and winter semesters. Prerequisites: MSL 301 and MSL 302.

## **MSL 402 - Company Grade Leadership (3 credits)**

Focuses on developing Army junior officer and company grade officer knowledge, skills, and abilities in unified land operations. Successful completion of this course will assist in preparing you for your BOLC B course and is a mandatory requirement for commissioning. This course is offered through Western Michigan University's ROTC program. Offered fall and winter semesters. Prerequisite: MSL 401.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MSL 499 - Independent Studies in MSL (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

## **MTH 097 - Elementary Algebra (4 credits)**

Introduction to topics covered in MTH 110. A symbolic, numeric, and graphic approach to elementary algebra. Topics include linear equations and inequalities, properties of exponents, factoring, quadratic equations, and radicals. Designed for students who need additional preparation for MTH 110. Does not count toward graduation.

## **MTH 110 - Algebra (4 credits)**

A symbolic, numeric, and graphic approach to intermediate algebra with an emphasis on applications. Topics include operations, equations, and inequalities of linear, exponential, logarithmic, quadratic, rational, and radical functions. Please see the mathematics program for placement test details. Offered every semester. Prerequisite: MTH 097 or assignment through Grand Valley math placement.

## **MTH 122 - College Algebra (3 credits)**

A culminating experience in algebra for conceptual understanding and application in other fields. Primary topics include families of functions (polynomial, rational, exponential, logarithmic, and their compositions), algebraic skills for making and using mathematical models, and multiple representations of algebraic relationships. Fulfills Foundations - Mathematical Sciences. Offered every semester. Prerequisite: MTH 110 or assignment through Grand Valley math placement. Please see the mathematics program for placement details. Graphing calculator required: TI83 or TI84 recommended.

## **MTH 123 - Trigonometry (3 credits)**

A study of the trigonometric functions with an emphasis on graphing, identities, inverse trigonometric functions, and solving equations. Additional topics include solving triangles, vectors, complex numbers, and polar coordinates. Fulfills Foundations - Mathematical Sciences. Please see the mathematics program for placement details. Offered every semester. Prerequisite: MTH 122 (may be taken concurrently) or assignment through Grand Valley math placement. Graphing calculator required: TI83 or TI84 recommended.

## **MTH 124 - Precalculus: Functions and Models (5 credits)**

Study of preparatory material for calculus using symbolic algebra and trigonometry for solving equations, representing functions, and modeling, plus appropriate technology. Core topics:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

concept of function, average rate of change of a function, inverse and composite functions, trigonometric functions, exponential and logarithmic functions, and right triangle trigonometry. Fulfills Foundations - Mathematical Sciences. Offered fall and winter semesters. Prerequisite: MTH 110.

## **MTH 125 - Survey of Calculus (3 credits)**

A study of the concepts of calculus for students majoring in business, economics, life sciences, and social sciences. Differentiation and integration of algebraic, exponential, and logarithmic functions. Emphasis on applications. Fulfills Foundations - Mathematical Sciences. Please see the mathematics program for placement details. Offered fall and winter semesters. Prerequisite: MTH 110 or assignment through Grand Valley math placement.

## **MTH 126 - Mathematics for Elementary Teachers (2 credits)**

Exploration of the teaching and learning of geometry and measurement in elementary school mathematics, emphasizing development of mathematical representations and communication. Concepts are developed through hands-on experiences exploring mathematical models, strategies, relationships, and problem solving. MTH 126 and STA 126 fulfills Foundations - Mathematical Sciences. Prerequisites: MTH 110 or equivalent.

## **MTH 131 - Introduction to Mathematics (3 credits)**

A survey for nonmathematics majors. Topics selected from inductive and deductive reasoning, geometry, statistics, computers, modeling, number theory, numeration systems, the mathematics of decision-making, and applications. Fulfills Foundations - Mathematical Sciences. Please see the mathematics program for placement details. Offered winter semester. Prerequisite: MTH 110 or assignment through Grand Valley math placement.

## **MTH 180 - Special Topics in Mathematics (1 to 3 credits)**

Readings, lectures, discussions, or lab (or any combination) in specific mathematics topics at an introductory or elementary level. Offered on sufficient demand. Prerequisite: Permission of the instructor.

## **MTH 201 - Calculus I (4 credits)**

A development of the fundamental concepts of calculus using graphical, numerical, and analytical methods with algebraic and trigonometric functions of a single variable. Limits and continuity, derivatives, indefinite integrals, definite integrals, and the Fundamental Theorem of Calculus; applications of derivatives and integrals. Please see the mathematics program for placement details. Fulfills Foundations - Mathematical Sciences. Offered every semester. Prerequisites: Both MTH 122 and MTH 123; or MTH 124; or assignment through Grand Valley math placement.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MTH 202 - Calculus II (4 credits)**

Continuation of MTH 201 using graphical, numerical, and analytic methods to study exponential, logarithmic, hyperbolic, and inverse trigonometric functions. Indeterminate forms, improper integrals, integration techniques, sequences and series, Taylor polynomials, and power series. Offered every semester. Prerequisite: MTH 201.

## **MTH 203 - Calculus III (4 credits)**

Continuation of MTH 202 using graphical, numerical, and analytic methods to study parametric equations, polar coordinates, vector algebra in two and three dimensions, differentiation and integration of vector functions of a single variable, and scalar functions of several variables. Offered every semester. Prerequisite: MTH 202.

## **MTH 204 - Linear Algebra I (3 credits)**

An introduction to systems of linear equations emphasizing conceptual understanding and computational thinking. Primary topics include solutions to linear systems, vector and matrix algebra, span and linear independence, bases, eigenvectors, and eigenvalues. Applications will be integrated throughout the course. Offered fall and winter semesters. Prerequisites: MTH 122 and MTH 123; or MTH 124; or assignment through Grand Valley math placement.

## **MTH 205 - Linear Algebra II (3 credits)**

A study of linear algebra centered on orthogonality and the singular value decomposition emphasizing conceptual understanding and computational thinking. Primary topics include orthogonality, the eigenvalue decomposition, the singular value decomposition, applications, and select topics in numerical linear algebra. Offered fall and winter semesters. Prerequisites: MTH 204 or MTH 302.

## **MTH 210 - Communicating in Mathematics (4 credits)**

A study of proof techniques used in mathematics. Intensive practice in reading mathematics, expository writing in mathematics, and constructing and writing mathematical proofs. Mathematical content includes elementary logic, congruence arithmetic, set theory, functions, equivalence relations, and equivalence classes. Offered fall and winter semesters. Prerequisites: MTH 201 and fulfillment of general education Foundations - Writing.

## **MTH 223 - Mathematics for Elementary Teachers III (5 credits)**

Explores teaching and learning of number and operations, geometry, measurement, patterns and functions, probability and statistics in elementary school mathematics, emphasizing development

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

of number sense, unitizing, mathematical representations, and communication. Exploration through models, strategies, relationships, algorithms, and problem-solving. Fieldwork: Evaluating and tutoring children. Equivalent: MTH 126 and MTH 226. Prerequisite: MTH 201.

## **MTH 225 - Discrete Structures: Computer Science (3 credits)**

Introduction to the mathematical foundations of computer science. Topics include: number bases and modular arithmetic; symbolic logic, propositions, and quantification; sets, set operations, and functions; combinatorics and combinatorial proof; and recurrence relations and mathematical induction. Offered fall and winter semesters. Prerequisite: CIS 162, and one of the following: MTH 122 or MTH 123 or MTH 124 or MTH 125 or assignment through Grand Valley math placement.

## **MTH 226 - Mathematics for PK-6: Whole Numbers and Operations (3 credits)**

In-depth explorations of the mathematical content and methods relevant to the development of Grade PK-6 children's understanding, thinking processes, strategies, and problem-solving skills in the area of whole number concepts and operations. Field experience with children held in an elementary school. Prerequisite: MTH 126.

## **MTH 229 - Mathematical Activities for Secondary Teachers (3 credits)**

In-depth study of mathematical content suitable to secondary classrooms. Integrated discussions of student's learning, pedagogy, secondary curricula, NCTM Standards, and relevant research. Service learning includes 20 hours of active classroom observations, including lesson design and implementation. Within the mathematics major or minor, applies only to secondary certification emphasis. Offered fall semester. Prerequisites: MTH 201 or equivalent and sophomore standing.

## **MTH 300 - Vector Analysis (3 credits)**

Multivariable calculus and vector analysis including the change of variables formula, line integrals, surface integrals, Green's theorem, Stokes' theorem, and the divergence theorem. Applications in physics. Offered fall and winter semesters. Prerequisite: MTH 203.

## **MTH 302 - Linear Algebra and Differential Equations (4 credits)**

Matrix algebra and determinants. Introduction to the theory of differential equations. Methods of solution (including Laplace transform techniques) of linear equations, as well as some special

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

types of nonlinear equations. Applications in physical, biological, and social sciences. Offered fall and winter semesters. Prerequisite: MTH 203.

### **MTH 304 - Analysis of Differential Equations (3 credits)**

Solution methods for first order and second order linear equations (including power series and numerical methods). The linear algebra of linear systems and their solutions. Qualitative analysis of linear and nonlinear systems: phase plane; existence and uniqueness; stability, and applications in physical, biological, and social sciences. Offered fall and winter semesters. Prerequisites: MTH 203 and MTH 204.

### **MTH 305 - Mathematical Modeling (3 credits)**

Introduction to the mathematical modeling process. Students will gain experience in the construction, computational implementation, and analysis of mathematical models arising from various applications. Models will be developed in mathematical contexts including linear algebra, calculus, discrete dynamical systems, and differential equations. Offered fall and winter semesters. Prerequisites: MTH 302 or MTH 304; and CIS 161 or CIS 162.

### **MTH 312 - Cryptography and Privacy (3 credits)**

An introduction to cryptography and information security with a focus on applications and issues from diverse areas. Topics will include a study of cryptographic primitives, historical cipher systems, symmetric and public-key cryptography, hash functions, digital signatures, electronic voting, and contemporary issues in privacy and security. Part of Information, Innovation, or Technology Issue. Offered winter semester. Prerequisites: Junior standing and successful completion of any Foundations - Mathematical Sciences course.

### **MTH 315 - Discrete Mathematics (3 credits)**

Basic and advanced counting techniques, including the Pigeonhole Principle and inclusion-exclusion; recurrence relations; partial orderings; and graph theory, special paths, planarity, chromatic number, networks, trees, traversals, and digraphs. Algorithms and proof techniques. Offered fall and winter semesters. Prerequisite: MTH 210.

### **MTH 322 - Geometry for Elementary Teachers (3 credits)**

Analyze characteristics and properties of geometric objects, transformations and representations, visualization and spatial reasoning, measurement systems and tools, and dynamic geometric software. Integrated discussion of children's learning, curricula, standards, and research for K-8. Fieldwork is focused on lesson design and implementation and includes visits to a local elementary school. Offered at least one semester per year. Prerequisite: MTH 226.

## **MTH 323 - Probability and Statistics for Elementary Teachers (3 credits)**

Analyze data and chance. Gathering, organizing, constructing, and interpreting data displays, distributions and models, making inferences and predictions. Integrated discussions of children's learning, pedagogy, curricula, assessment, standards, and relevant research for K-8. Fieldwork is focused on unit-planning and assessment and includes visits to a local elementary school. (2-0-2) Offered at least one semester per year. Prerequisites: MTH 226.

## **MTH 324 - Algebra for Elementary Teachers (3 credits)**

Analyze characteristics and properties of number systems, patterns, proportions, functions, variables, and algebraic structures. Integrated discussions of children's learning, pedagogy, elementary and middle school curricula, NCTM Standards, and relevant research. Field work is focused on writing lessons/problems and observing/eliciting students' mathematical thinking through visits to a local elementary school. Offered at least one semester per year. Prerequisite: MTH 326.

## **MTH 325 - Discrete Structures: Computer Science 2 (3 credits)**

Continuation of MTH 225 with emphasis on mathematical proof and graph-related structures. Review of mathematical induction; strong induction and structural induction; direct proof, proof by contraposition, and proof by contradiction; graphs and their representations and properties; relations, equivalence relations, and partial orderings; trees and tree traversals. Offered fall and winter semesters. Prerequisite: MTH 225.

## **MTH 326 - Math for PK-6: Fractions, Decimals, and Proportional Reasoning (3 credits)**

In-depth explorations of mathematical content and methods relevant to the development of grade PK-6 children's understanding, thinking processes, strategies, and problem-solving skills in the areas of fractions, decimals, and proportional reasoning. Field experience with children held in an elementary school. Offered fall and winter semesters. Prerequisite: MTH 226.

## **MTH 328 - Early Childhood Mathematics (PK-3) (3 credits)**

In-depth explorations of mathematical content and methods relevant to the development of young children's early mathematical understanding, thinking processes, strategies, and problem-solving skills. Emphasis on grade PK-1 and exploring high-leverage topics (attribution-geometry-measurement, counting, early fractions, whole numbers) through strategic teaching

tasks. Field experience with children held in an elementary school. Offered fall and winter semesters. Prerequisite: MTH 226.

## **MTH 329 - Teaching Middle Grades Mathematics (3 credits)**

Emphasis on what mathematics is, how students learn mathematics, planning and instruction, assessment, and professional decision-making. Conceptual, constructivist, and cooperative activities assist middle grade teachers in helping their students learn mathematics connecting algebra, geometry, number, measurement, statistics, and probability. Twenty hours of service-learning with middle grade students required. Offered winter semester. Prerequisites: C or better in MTH 202, MTH 210, and one of MTH 229, MTH 322, MTH 323, or MTH 324; junior standing.

## **MTH 331 - Euclidean Geometry (3 credits)**

Critical analysis of Euclidean geometry from transformational, algebraic, and synthetic perspectives. Coordinate and vector geometry relating transformational geometry to linear algebra. Informal study of historical development of Euclidean and non-Euclidean geometries and the questions relating to the parallel postulate to develop understanding of axiomatic systems. Offered fall and winter semesters. Prerequisites: MTH 210 and either MTH 204 or MTH 322.

## **MTH 350 - Modern Algebra I (3 credits)**

Algebraic properties of the integers and the development of the rational, real, and complex number systems as algebraic structures. Topics from modern algebra include rings, integral domains, fields, and ring isomorphisms. Further study of algebraic structures using congruence arithmetic and factorization in the ring of integers and polynomial rings. Offered fall and winter semesters. Prerequisites: MTH 210 and either MTH 225 or MTH 204.

## **MTH 360 - Operations Research (3 credits)**

Mathematical modeling under conditions of certainty and uncertainty. Linear programming, duality, and sensitivity analysis. Markov chains and other stochastic processes. Applications to problems in transportation, scheduling, and resource allocation. Offered every year. Prerequisites: MTH 204 or MTH 302.

## **MTH 380 - Special Topics in Mathematics (1 to 4 credits)**

Readings, lectures, discussions, or lab (or any combination) in specific mathematics topics. Permission of the instructor required. Offered on sufficient demand. Prerequisite: Dependent upon topic selected.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MTH 386 - Study Abroad in Mathematics Education (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight mathematics education perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **MTH 399 - Independent Readings (1 to 4 credits)**

Hours, credit, topics, and time to be arranged with individual staff members with approval of the department. Offered fall and winter semesters.

## **MTH 401 - Mathematics for the Physical Sciences (4 credits)**

An introduction to the mathematics most relevant for the physical sciences and physical problems that demonstrate its need. Topics include vector analysis, including line and surface integrals, complex differentiable functions, and partial differential equations and Sturm-Liouville problems. Offered every year. Prerequisites: MTH 302 or MTH 304; PHY 231; or permission of instructor.

## **MTH 402 - Complex Variables (3 credits)**

Complex arithmetic derivatives and integrals of functions of a complex variable. Infinite series. Residue calculus. Applications to real integration and fluid flows. Prerequisites: MTH 203 and either MTH 204 or MTH 302.

## **MTH 405 - Numerical Analysis (3 credits)**

Numerical methods in solving equations of a single variable, matrix algebra, numerical differentiation and integration, numerical solution to differential equations, polynomial approximations, and error estimates. Prerequisites: Either CIS 161 or CIS 162, and either MTH 302 or MTH 304.

## **MTH 406 - Linear Algebra III (3 credits)**

A theoretical presentation of linear algebra incorporating a proof-based study of vector spaces, inner product spaces, bases, linear transformations, isomorphisms, canonical forms, and applications to topics such as wavelets, quadratures, and Fourier transforms. Offered fall semester. Prerequisites: MTH 205 and MTH 210.

## **MTH 408 - Real Analysis 1 (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The goal of this course is to develop the intuitive and theoretical foundations necessary to study differentiation of real-valued functions. Topics include Cauchy sequences, convergence of sequences, series, limits, continuity, and construction of the real numbers. Students will extend and apply proof techniques from previous courses. Offered every year. Prerequisites: (MTH 203 and one of the following: MTH 315, MTH 331, MTH 350, or MTH 431) or (MTH 210 and permission of instructor).

## **MTH 409 - Real Analysis 2 (3 credits)**

This course is an in-depth study of differentiation and integration, with additional topics such as sequences and series of functions, measure theory, and metric spaces. Prerequisite: MTH 408.

## **MTH 428 - Teaching Math in the Elementary Grades (1 credit)**

Elementary math seminar to support student teachers as they critique and reflect upon their mathematical instruction. Emphasis on: assessment-driven instruction; communicating with children, caregivers, and communities; and effective use of instructional materials to support children's mathematics learning. Supported by current research in mathematics education. Offered fall and winter semesters. Corequisite: EDI 430.

## **MTH 431 - Non-Euclidean Geometry (3 credits)**

A critical examination of several non-Euclidean geometries, including finite geometries, hyperbolic geometry, and spherical geometry; their relationships to Euclidean geometry; and the historical and philosophical significance of the development of non-Euclidean geometries. Prerequisites: MTH 210 and either MTH 331 or permission of the instructor.

## **MTH 441 - Topology (3 credits)**

An introduction to the fundamental concepts of topology. The topology of the real number system and its generalizations to metric spaces and topological spaces. Topics include subspaces, neighborhood spaces, open and closed sets, interior and boundary of sets, continuity and homeomorphisms, connected and locally connected spaces, compact sets and spaces. Prerequisites: MTH 203, MTH 210, and MTH 204.

## **MTH 450 - Modern Algebra II (3 credits)**

An introduction to groups, including homomorphisms and isomorphisms, Lagrange's Theorem, quotient groups, finite groups, and the Sylow Theorems. Additional topics from ring theory including polynomial rings, ideals, and quotient rings. Prerequisite: MTH 350.

## **MTH 465 - Automata and Theory of Computation (3 credits)**

Introduction to basic mathematical models of computation and the finite representation of infinite objects. Finite automata, regular languages, nondeterminism, pushdown automata, context-free languages, Turing machines and variants, halting problems, time complexity of algorithms, and NP-Complete problems. Cross-listed with CIS 465. Prerequisites: CIS 162 and either MTH 315 or MTH 325.

## **MTH 480 - Special Topics in Mathematics (1 to 4 credits)**

Readings, lectures, discussions, or lab (or any combination) in specific mathematics topics. Permission of the instructor required. Offered on sufficient demand. Prerequisite: Dependent upon topic selected.

## **MTH 490 - Mathematics Internship Seminar (2 credits)**

Offered fall and winter semesters. Prerequisites: Approval of the department and junior standing.

## **MTH 495 - The Nature of Modern Mathematics (Capstone) (3 credits)**

A study of mathematics as a human intellectual endeavor impacting our culture, history, and philosophy. Includes an in-depth investigation, including analyses from the mathematical, historical, and philosophical perspectives, of several significant developments from various fields of mathematics. The specific developments considered will vary from semester to semester. Offered every year. Prerequisites: MTH 210, MTH 204, MTH 350, and at least three other 300- to 400-level mathematics courses.

## **MTH 496 - Senior Thesis (Capstone) (3 credits)**

A senior thesis is written to demonstrate depth and sophistication in the major. Independent library research is conducted under the supervision of a faculty member. Students produce full-fledged, professional, oral and written presentations on this research. Offered upon arrangement. Prerequisites for students using MTH 496 as the Capstone course in the major: Completion of at least 27 credits of mathematics courses in the major, a GPA in the major of 3.0 or better, and consent of the instructor. For majors not using the course as the Capstone course: MTH 495 with a grade of B and consent of the instructor. For mathematics minors: Completion of the minor with a GPA of at least 3.0 and consent of the instructor.

## **MTH 498 - Project-Based Applied Mathematics (Capstone) (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Teams of students will solve real-world problems originating in business, industry, or government. Teams will research and analyze solution strategies, implement a strategy using software, interpret their findings, and communicate their results to their partner. Communication in a business environment, teamwork, and project planning will be emphasized. Offered winter semester. Prerequisites: MTH 205, MTH 210, MTH 305, permission of instructor, and restricted to mathematics majors.

## **MTH 499 - Independent Study and Research (1 to 4 credits)**

Hours, credit, topics, and time to be arranged with individual staff members with approval of the department. Offered fall and winter semesters.

## **MTH 625 - Number Theory (3 credits)**

The mathematical treatment of the properties and the structure of the set of integers. Topics include prime numbers, divisibility, number-theoretic functions, the algebra of congruence classes, and applications. Prerequisite: Certification in secondary mathematics.

## **MTH 641 - Modern Geometry (3 credits)**

The study of geometry as a mathematical system, explorations of different geometries and their relations to physical space and as sources of mathematical models, investigations of geometrical thinking in problem solving in mathematics, and areas outside of mathematics. Computer applications appropriate to school classrooms. Prerequisite: Certification in secondary mathematics.

## **MTH 645 - Discrete Mathematics (3 credits)**

A study of discrete mathematical structures, including sets, logic, algebraic structures, relations; graphs and digraphs, trees, and networks. Prerequisite: Certification in mathematics.

## **MTH 680 - Special Topics in Mathematics (1 to 4 credits)**

Readings, lectures, discussions, or lab (or any combination) in specific topics in mathematics or mathematics education. Offered on sufficient demand. Prerequisite: Permit required.

## **MTH 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **MTH 699 - Directed Readings in Mathematics (1 to 3 credits)**

Independent supervised reading on selected topics in mathematics. Credits and topics must be prearranged with a faculty member and approved by the department. Offered fall and winter semesters.

## **MUS 100 - Introduction to Music Literature (3 credits)**

Basic course in music, designed especially for liberal arts students. Study of musical forms, style, media and materials, coupled with the development of intelligent listening habits. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **MUS 101 - University Singers (1 credit)**

The principal university choir. Fulfills degree requirements for major ensemble participation. Prerequisites: Successful audition and permission of instructor.

## **MUS 102 - Concert Band (1 credit)**

Develop aesthetic sensitivity, musical knowledge, and ensemble performance skills through performance of standard wind band music. Meets degree requirements for major ensemble participation. Prerequisites: Major or minor in music or permission of instructor. Audition Required.

## **MUS 103 - Grand Valley Symphony Orchestra (1 credit)**

String, wind, and percussion instrumentalists perform a variety of symphony orchestral repertoire. Fulfills degree requirements for major ensemble participation. Prerequisites: Major or minor in music or permission of instructor. Audition Required.

## **MUS 104 - Chamber Music Ensembles (0.5 credits)**

Chamber music groups such as string quartet, woodwind quintet, vocal ensembles, or brass quartet. Will be taken over two semesters for one credit.

## **MUS 105 - Grand Valley Jazz Ensemble (1 credit)**

Jazz instrumentalists perform a variety of large jazz ensemble repertoire. Prerequisite: Permission of instructor.

## **MUS 107 - Grand Valley Marching Band (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The university marching band. Two semesters required of B.M.E. woodwind, brass, and percussion majors. Fulfills degree requirements for major ensemble participation. Offered fall semester. Prerequisite: Successful audition at band camp.

### **MUS 108 - New Music Ensemble (1 credit)**

A performing ensemble dedicated to the music of our time. Solo, chamber, and large ensemble works drawn from the broad spectrum of contemporary music are performed. Activities include an annual commissioning program in which the ensemble works with a notable composer in the creation and realization of a new composition. Offered fall and winter semesters. Prerequisites: Audition and permission of instructor.

### **MUS 109 - Anima Vocal Ensemble (1 credit)**

A treble voice ensemble open to campus and community singers. This group learns a variety of repertoire and participates in concerts on campus each semester. Offered fall and winter semesters. Prerequisites: Major or minor in music or permission of instructor. Audition Required.

### **MUS 110 - Early Music Ensemble (1 credit)**

Performance of older music (mainly before 1700) by students, either singing or playing on period instruments. Prerequisite: Permission of instructor.

### **MUS 111 - Grand Valley Basketball Pep Band (1 credit)**

This ensemble performs at every home basketball game and, like the Laker Marching Band, is an integral support unit for Athletics. Offered winter semester. Prerequisites: Audition and permission of instructor.

### **MUS 112 - Wind Symphony (1 credit)**

The goals of this course are to develop the instrumental performance skills, music reading abilities, and interpretive capabilities of the class members within a concert ensemble setting. The course is designed for those students who have advanced performance skills on standard wind and percussion instruments. Prerequisites: Major or minor in music or permission of instructor. Audition Required.

### **MUS 113 - Grand Valley Percussion Ensemble (1 credit)**

The Grand Valley Percussion Ensemble provides students with the opportunity to learn percussion techniques and literature through rehearsal and performance in a chamber setting. The

literature performed is selected from the best available compositions for this instrumentation and performed without a conductor. Prerequisites: Audition and permission of instructor.

## **MUS 115 - Grand Valley Chamber Orchestra (1 credit)**

Qualified string players from the Grand Valley Symphony Orchestra perform a variety of works for small orchestra. They may perform as a pit orchestra for operas, accompany faculty artists, or perform works on their own. Prerequisite: Permission of the instructor.

## **MUS 116 - Cantate Chamber Ensemble (1 credit)**

Sixteen-voice SATB ensemble performing a cappella madrigals and motets of the early periods of music. Prerequisites: Audition and permission of instructor.

## **MUS 117 - Grand Valley University Arts Chorale (1 credit)**

Forty-five voice SATB ensemble performing choral repertoire from the Renaissance through the 21st century. Fulfills degree requirements for major ensemble participation. Prerequisites: Major or minor in music or permission of instructor. Audition Required.

## **MUS 118 - Varsity Glee Club (1 credit)**

Varsity Glee Club is an auditioned ensemble that performs intermediate and advanced TTBB choral music of all musical styles. The ensemble frequently performs on campus, in the community, and regularly appears at regional and national choral and music education conferences. Prerequisites: Major or minor in music or permission of instructor. Audition Required.

## **MUS 119 - Survey of Music Literature I (3 credits)**

A survey of music literature from the Middle Ages through the mid-18th centuries. Required of all music majors and minors. Offered fall semester. Prerequisites: Acceptance and registration in Bachelor of Music Education, Bachelor of Music, Bachelor of Arts (music) or music minor.

## **MUS 120 - Survey of Music Literature II (3 credits)**

A survey of music literature of the late 18th through early 20th centuries, concluding with a brief introduction to the study of non-Western musical cultures. Required of all music majors and minors. Offered winter semester. Prerequisite: MUS 119.

## **MUS 121 - University Band (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The University Band performs quality standard band literature and presents one concert at the end of the semester. Designed specifically for the nonmajor, the University Band meets during the winter semester and is open to all students. No audition is required for participation. Class may be repeated for credit. Offered winter semester.

## **MUS 126 - Collaborative Piano (1 credit)**

Preparation for performance of piano accompaniments for appropriate soloists or ensembles. Offered fall and winter semesters.

## **MUS 128 - Strum and Drum for Everyone (3 credits)**

Study of basic performance skills on ukulele and percussion designed for the general student. Students will engage in discussion about the role of community music making in today's society. Requires students to have a soprano or concert ukulele and a hand drum or five gallon bucket with drum sticks. Fulfills Foundations - Arts. Offered spring/summer semester.

## **MUS 129 - Fundamentals of Music (3 credits)**

Beginning study of music notation, sight-singing, keyboard, and music terminology. Designed for the general student who wishes to learn the fundamentals of music as well as for the prospective music major or minor who has had no theoretical training. Fulfills Foundations - Arts.

## **MUS 130 - Music Theory I (3 credits)**

Music fundamentals for music majors and minors. Musical notation using four clefs, simple, compound, and asymmetric meter, all scales, tertian harmonies to seventh chords, figured bass, and four-part writing. Required of all music majors. Offered fall semester.

## **MUS 131 - Music Theory II (3 credits)**

Continuation of 130. Secondary harmonies, harmonization of melodies, and instrumental transposition. Harmonic and melodic analyses of selected Baroque and Classical works using the following forms and techniques: fugue, figured bass, variation, minuet and trio, sonata, rondo, concerto grosso, and binary form. Required of music majors. Offered winter semester. Prerequisite: MUS 130.

## **MUS 133 - Aural Perception and Sight-Singing I (1 credit)**

Introduction of solfeggio and rhythmic syllables, singing with one-line accompaniments, use of four clefs, two- and four-part dictation, improvisation with syllables, and error detection. Listening for meter, bass lines, and melodic techniques. Required of all music majors. Offered

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

fall semester. Prerequisites: Acceptance and registration in Bachelor of Music Education, Bachelor of Music, Bachelor of Arts (music) or music minor, and MUS 130 (may be taken concurrently).

## **MUS 134 - Aural Perception and Sight-Singing II (1 credit)**

Continuing development of musicianship through intervallic drill, dictation and singing exercises with subdivision of the beat and syncopation. Aural recognition of cadence types, melodic techniques, and tonal forms as studied in MUS 131. Sing and play exercises with chordal accompaniment. Required of music majors. Offered winter semester. Prerequisite: MUS 133 and MUS 131 (MUS 131 may be taken concurrently).

## **MUS 140 - Developmental Applied Music (1 credit)**

Lessons for music majors or minors who have been accepted conditionally because of their developmental musical proficiency on their major instrument or voice. May be repeated for credit. Prerequisite: Permission of instructor. Corequisite: Registration in an appropriate ensemble.

## **MUS 141 - Private Instruction in Voice and Instruments - Freshman (1 credit)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Students will be required to register in an appropriate ensemble as outlined in the current year Department of Music, Theatre, and Dance Handbook. Offered fall and winter semesters. Prerequisites: Permission of instructor. Registration in an appropriate ensemble.

## **MUS 142 - Private Instruction in Voice and Instruments - Freshman (1 credit)**

The course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Students will be required to register in an appropriate ensemble as outlined in the current year Department of Music, Theatre, and Dance Handbook. Prerequisites: MUS 141. Students must also be registered in an appropriate ensemble.

## **MUS 144 - Private Instruction in Voice and Instruments - Freshman (3 credits)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

practice. Students will be required to register in an appropriate ensemble as outlined in the current year Department of Music, Theatre, and Dance Handbook. Offered fall and winter semesters. Prerequisites: Acceptance and registration into the Bachelor of Music.

## **MUS 145 - Private Instruction in Voice and Instruments - Freshman (3 credits)**

The course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Students will be required to register in an appropriate ensemble as outlined in the current year Department of Music, Theatre, and Dance Handbook. Prerequisites: MUS 144. Students must also be registered in an appropriate ensemble.

## **MUS 170 - Stage Movement (1 credit)**

Movement training for actors and singers, using techniques of ballet, jazz, and modern dance. This class will produce flexible, coordinated bodies that will respond to the creative demands of the stage. Offered fall and winter semesters.

## **MUS 180 - Special Topics in Music (1 credit)**

An exploration of theatre, dance, and musical arts through lectures and attendance of professional performances. Offered fall and winter semesters.

## **MUS 182 - Arts at Noon (1 credit)**

An exploration of musical arts through lectures and attendance at professional performances. Course offered fall and winter semesters.

## **MUS 200 - Introduction to Music Education (1 credit)**

This course is designed to provide students with rudimentary experiences in and theoretical knowledge of music education curriculum, facilities and program design and knowledge of instructional techniques for all types of school-aged learners. Offered winter semester.

## **MUS 218 - World Music (3 credits)**

An exploration of non-Western music and western folk music. Develops listening skills and ability to describe musical sounds and structures. Introduces an ethnomusicological perspective that considers music in relation to other aspects of society and culture. Fulfills Foundations - Arts. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MUS 219 - Jazz History (3 credits)**

Survey of jazz from 1900 to present; including Dixieland, blues, swing, be-bop, cool jazz, jazz fusion, free jazz and the avant-garde, and the so-called "third stream." Music background is helpful but not mandatory. Fulfills Cultures - U.S. Diversity. Offered fall semester.

## **MUS 230 - Music Theory III (3 credits)**

A study of nineteenth-century harmonic, melodic, and formal techniques, including alternate resolutions of diatonic and chromatic seventh chords, altered and expanded tertian harmonies. Analyses of works in a variety of mediums. Introduction to species and harmonically governed counterpoint. Required of music majors. Offered fall semester. Prerequisite: MUS 131.

## **MUS 231 - Music Theory IV (3 credits)**

A study of post-1900 musical techniques: extended chromatic and higher-numbered harmonies, their use and resolutions, including those in jazz and pop music. Study of nontertian harmonies, bi-tonality, use of pitch sets, and serialism. Notation and reading of contemporary scores. Analysis of selected jazz improvisation. Required of music majors. Offered winter semester. Prerequisite: MUS 230.

## **MUS 233 - Aural Perception and Sight-Singing III (1 credit)**

Further development of musicianship using rhythmic and melodic dictation and singing using ties and chromaticism and modulation, harmonic dictation using secondary harmonies, two-part bicinia for sing-and-play exercises. Improvisation using typical jazz progressions. Interval singing, critical listening with four-voice examples. Required of music majors. Offered fall semester. Prerequisite: MUS 134.

## **MUS 234 - Aural Perception and Sight-Singing IV (1 credit)**

Intervallic singing and dictation using post-1900 melodies. Aural recognition of contemporary musical techniques. Required of music majors. Offered winter semester. Prerequisite: MUS 233.

## **MUS 241 - Private Instruction in Voice and Instruments - Sophomore (1 credit)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Prerequisites: MUS 142. Students must also be registered in an appropriate ensemble.

## **MUS 242 - Private Instruction in Voice and Instruments - Sophomore (1 credit)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Prerequisites: MUS 241. Students must also be registered in an appropriate ensemble.

## **MUS 244 - Private Instruction in Voice and Instruments - Sophomore (3 credits)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Prerequisites: MUS 145. Students must also be registered in an appropriate ensemble.

## **MUS 245 - Private Instruction in Voice and Instruments - Sophomore (3 credits)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Prerequisites: MUS 244. Students must also be registered in an appropriate ensemble.

## **MUS 248 - Singing for Non-Majors (1 credit)**

This course is designed to provide vocal performance skills to nonmusic majors. The focus will be on building a basic technical foundation and skills for musical theatre auditioning. Course content and repertoire selection will be designed for the needs of the individual student group. Offered every semester.

## **MUS 253 - Woodwind Techniques (2 credits)**

Instruction in basic playing skills for the clarinet, saxophone, flute, oboe, and bassoon. Offered fall semester.

## **MUS 255 - Brass Techniques (2 credits)**

Instruction in basic playing skills on the trumpet, French horn, trombone, euphonium, and tuba. Offered winter semester.

## **MUS 257 - Class Percussion (1 credit)**

Instruction in basic performing skills on percussion instruments. Offered winter semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MUS 258 - String Techniques (2 credits)**

Instruction in basic playing skills on the violin, viola, violoncello, and string bass. Offered fall semester.

## **MUS 263 - Keyboard Musicianship I (1 credit)**

Introductory keyboard skills, scales, chords, easy pieces, transpositions, improvisations, and basic theory at the keyboard. Offered fall semester. Prerequisites: MUS 130 (may be taken concurrently) and acceptance and registration in the following majors: Bachelor of Music Education, Bachelor of Music, Bachelor of Arts (music) or music minor.

## **MUS 264 - Keyboard Musicianship II (1 credit)**

A continuation of MUS 263, emphasis is on early- intermediate keyboard skills, accompaniments to melodies, sequential and free transposition, improvisation, and other creative skills at the keyboard. Offered winter semester. Prerequisite: MUS 263 and MUS 131 (MUS 131 may be taken concurrently).

## **MUS 267 - Opera Workshop (1 credit)**

Opera Workshop is designed specifically for the Bachelor of Music voice emphasis student. The singer/actor process will be explored through text study, theater games, and movement exercises. The singer/actor relationship to songs, arias, and scenes from opera and music theater will be the source of study. Offered fall semester. Prerequisite: MUS 144.

## **MUS 283 - Keyboard Musicianship III (1 credit)**

Intermediate keyboard skills, accompaniments to melodies, sequential and free transposition, improvisation, open-score reading, and other creative skills at the keyboard. Required of all majors. Offered fall and winter semesters. Prerequisite: MUS 264.

## **MUS 284 - Keyboard Musicianship IV (1 credit)**

A continuation of MUS 283. Required of all music majors whose primary instrument is voice. Offered fall and winter semesters. Prerequisite: MUS 283.

## **MUS 285 - Advanced Keyboard Musicianship (1 credit)**

Advanced piano study, designed for non-piano music majors. Emphasis on sight-reading and accompanying skills. Develops technique needed to play advanced repertoire and ability to adjust sounds when working with soloists or ensembles. Offered fall and winter semesters. Prerequisites: MUS 284 and permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MUS 300 - From Rag to Rock - Exploring American Music (3 credits)**

Introduction to a variety of American musical styles drawn from many cultures, including Native American, African American, Latino, and European American traditions. Topics may include folk music, religious music, Broadway, country, jazz, rock, and American classical music. Fulfills Cultures - U.S. Diversity. Part of the Identity Issues. Offered fall semester. Prerequisite: Junior standing.

## **MUS 301 - History of Rock and Roll (3 credits)**

This course presents an overview of how rock music has evolved from the latter half of the 20th century through current musical representations. Additionally, it is expected that students will learn the ways in which rock music of the past and present represents social commentary and has influenced societal change. Part of the Human Rights Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **MUS 302 - Music: Medieval and Renaissance Eras (3 credits)**

A comprehensive study of the early development of European art music beginning with the musicalization of the mass, through the late Renaissance (1600). Focus on the emergence of compositional techniques, theoretical writings, and the development of musical forms. Offered fall semester of odd-numbered years on sufficient demand. Prerequisite: MUS 120.

## **MUS 303 - Music: Baroque Era (3 credits)**

A comprehensive examination of vocal and instrumental music from 1600 to 1750. Major forms studied will include concerto, opera, oratorio, cantata, and fugue. Principle composers studied will include Monteverdi, Scarlatti, Corelli, Vivaldi, Telemann, Handel, and J.S. Bach. An analytical and historical approach with emphasis on listening. Offered fall semester of even-numbered years on sufficient demand. Prerequisite: MUS 120.

## **MUS 304 - Music: Classical Era (3 credits)**

A comprehensive examination of vocal and instrumental music from 1750 to 1825. Large and small forms will be included with emphasis on the compositions of Mozart, Haydn, and Beethoven. Offered winter semester of even-numbered years. Prerequisite: MUS 120.

## **MUS 305 - Music: 19th Century (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A study of 19th century music by composers of Europe and North America, considering examples of symphonic poems, lieder, character pieces, chamber music, and nationalistic music. Study of "classical" forms as altered in opera and symphonic music. Offered winter semester of odd-numbered years. Prerequisite: MUS 120.

### **MUS 306 - Music from 1900-1960 (3 credits)**

A survey of the development of the new and unique forms of expressive and intellectual 20th century musical style from circa 1900 to 1960, including the exploration of impressionism, atonality, serialism, neo-classicism, and other innovations of 20th century master composers. Offered fall or winter semester. Prerequisite: MUS 120.

### **MUS 307 - Music Since 1960 (3 credits)**

A study of stylistic developments in music since 1960, with an emphasis on major compositional figures, the increasing influence of vernacular styles, the development of new electronic media, and developments outside of Europe and North America. Offered winter semester of even-numbered years. Prerequisites: MUS 120 and MUS 231.

### **MUS 308 - Music History Seminar (3 credits)**

Examines a particular topic in music history, such as the development of a genre, the work of a composer, or a significant work. Regardless of topic, all sections will explore music in relation to historical, social, intellectual, and artistic developments. May be repeated for credit when content varies. Offered fall semester. Prerequisite: MUS 120.

### **MUS 310 - Piano Literature (2 credits)**

A study of music written for the keyboard from the Renaissance to the present time. Offered on sufficient demand. Prerequisite: Permission of instructor.

### **MUS 320 - Introduction to Conducting (2 credits)**

Fundamentals of baton technique: laboratory experience in conducting, choral and instrumental works, cuing, score reading, and terminology. Offered fall semester. Prerequisites: MUS 231 and MUS 234.

### **MUS 330 - Instrumentation/Orchestration (3 credits)**

A practical course in the arrangement of music for instruments of the orchestra and band, as well as vocal scoring. Offered fall semester every other year.

### **MUS 333 - Form and Analysis in Western Music (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A study of the principle formal types used in both instrumental and vocal music from 1700 to the present. Formal types discussed will include binary and ternary forms; rondo, sonata and sonata-rondo forms; ritornello in the concerto, and variation types. Offered fall semester. Prerequisite: MUS 231.

### **MUS 338 - Techniques of Jazz Instruction (1 credit)**

Technique and practice in basic instructional, playing and improvisation skills appropriate to teaching American Jazz in public schools. Offered winter semester. Prerequisites: MUS 200 and MUS 341.

### **MUS 341 - Private Instruction in Voice and Instruments - Junior (1 credit)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Prerequisites: MUS 242 and students must also be registered in an appropriate ensemble.

### **MUS 342 - Private Instruction in Voice and Instruments - Junior (1 credit)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Prerequisites: MUS 341 and students must also be registered in an appropriate ensemble.

### **MUS 344 - Private Instruction in Voice and Instruments - Junior (3 credits)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Prerequisites: MUS 245 and students must also be registered in an appropriate ensemble.

### **MUS 345 - Private Instruction in Voice and Instruments - Junior (3 credits)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Students will be required to register in an appropriate ensemble and complete a half recital. Prerequisite: MUS 344.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MUS 354 - Teaching the Developing Voice (2 credits)**

Principles of voice building as applied to the voices of children and adolescents; a course for prospective choral music teachers. Research-based readings, guided one-on-one instruction of singers from area school music programs, and discussion of issues related to young singers. Restricted to music education majors. Offered winter semester. Prerequisite: MUS 200.

## **MUS 357 - Opera Theatre (1 credit)**

An ensemble course for voice students who have been assigned major roles in Opera Theatre mainstage productions. Emphasis on practical aspects of studio voice work, acting, and movement classes. Offered every semester. Prerequisite: Permission of instructor.

## **MUS 359 - Diction for Singers (2 credits)**

Develops a basis for proper pronunciation and understanding of foreign language songs. Offered fall semester. Prerequisites: FRE 101 and GER 101.

## **MUS 360 - Performance Literature (2 credits)**

Survey of solo musical literature representing the style periods typically associated with the students' applied area of musical study. Students will summarize, study, and examine appropriate vocal or instrumental repertoire for their applied area of musical study. Offered fall and winter semesters. Prerequisite: Permission of instructor.

## **MUS 361 - Piano Pedagogy I (3 credits)**

A study of fundamentals of piano playing designed for prospective teachers. Includes a practicum in which students do guided teaching. Required of Bachelor of Music students whose primary instrument is piano. Offered fall semester.

## **MUS 362 - Marching Band Techniques (2 credits)**

Designed to acquaint B.M.E. majors with all aspects of today's marching band. Offered fall semester. Required of all B.M.E. instrumental majors.

## **MUS 370 - Performance Pedagogy (2 credits)**

Performance Pedagogy focuses on teaching fundamentals, pedagogical traditions and techniques, interpretation of selected repertoire and musical progress, current pedagogical research pertaining to student's major performance area, and the maintenance and adjustment of the equipment/body for a successful performance. Offered fall and winter semesters. Prerequisite: Permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **MUS 371 - Piano Pedagogy II (3 credits)**

A study of intermediate and early-advanced materials for use in private and small group studio teaching. Includes review of journals, current technology, group strategies, and guided teaching. Required of B.M. students whose primary instrument is piano. Offered winter semester.

## **MUS 379 - Piano Pedagogy Masterclass (1 credit)**

A course which focuses on the performance and interpretation of pedagogical repertoire as well as pedagogical research. Designed for those interested in a lifelong career of teaching. Offered fall semester.

## **MUS 380 - Special Topics in Music (1 to 4 credits)**

The opportunity to develop certain advanced skills or study material not regularly offered as part of the music curriculum. Prerequisite: Permission of instructor.

## **MUS 399 - Special Readings in Music (1 to 4 credits)**

Independent study in problems of music and music education. To be arranged with the instructor. Offered fall and winter semesters.

## **MUS 441 - Private Instruction in Voice and Instruments - Senior (1 credit)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Students will be required to register in an appropriate ensemble and complete a half recital. Prerequisite: MUS 342.

## **MUS 442 - Private Instruction in Voice and Instruments - Senior (1 credit)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Students will be required to register in an appropriate ensemble. This course may be repeated for credit. Prerequisites: MUS 441 and students must also be registered in an appropriate ensemble.

## **MUS 444 - Private Instruction in Voice and Instruments - Senior (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Offered fall and winter semesters. Prerequisites: MUS 345 and students must also be registered in an appropriate ensemble.

### **MUS 445 - Private Instruction in Voice and Instruments - Senior (3 credits)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments, and consistent daily practice. Offered fall and winter semesters. Prerequisite: MUS 444 and students must also be registered in an appropriate ensemble.

### **MUS 446 - Private Instruction in Voice and Instruments - Elective (3 credits)**

This course is a weekly tutorial with an assigned instructor in the particular instrument or voice. Emphasis is on skill building, expressive capabilities, weekly assignments and consistent daily practice. This course may be repeated for credit. Offered fall and winter semesters. Prerequisites: MUS 445 and students must also be registered in an appropriate ensemble.

### **MUS 456 - Teaching Music in the Elementary School (2 credits)**

Techniques and methods of teaching music to children in elementary schools. Students will explore developmentally appropriate music pedagogy and repertoire for the elementary music classroom. Restricted to music education majors. Offered fall semester. Prerequisite: MUS 200.

### **MUS 461 - Instrumental Music Methods and Materials (2 credits)**

Includes a brief survey of current practices in music education, techniques and methods of instrumental music education, and introduction to materials of the music industry designed for school use. Restricted to music education majors. Offered winter semester. Prerequisite: MUS 200.

### **MUS 465 - Choral/General Music in the Secondary School (2 credits)**

Techniques, trends, and materials in secondary general and choral music. Topics include: the adolescent voice, choral programming, the budget process, musicals, and contests and elective

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

music classes. Restricted to music education majors. Offered winter semester. Prerequisites: MUS 200 and MUS 354.

### **MUS 479 - B.A. Senior Project (1 to 2 credits)**

The B.A. senior project is an intensive individual experience in one or more aspects of music. It can take several forms, such as an academic paper, a lecture-recital, the direction of a performance, or a music-related internship. Offered fall and winter semesters. Prerequisite: Permission of instructor.

### **MUS 495 - Analytical Techniques (Capstone) (3 credits)**

A comprehensive course in analysis, pursued through examination of scores, drawn from a wide range of periods, styles, media, and genres, with an emphasis on structural analysis, tonal relationships, motivic growth and development, and on the exploration of the aesthetic similarities of all music. Prerequisite: Completion of one upper-level music elective MUS 302-MUS 308, MUS 330-MUS 337.

### **MUS 499 - Independent Study and Research in Music (1 to 4 credits)**

Advanced independent study in problems of music and music education. To be arranged with the instructor. Offered fall and winter semesters.

### **MUS 643 - Applied Music (3 credits)**

Private instruction on one's principal performing instrument. Offered fall and winter semesters.

### **MUS 680 - Special Topics in Music (1 to 3 credits)**

Specialized topics ranging from specific genres of music to specific pedagogical issues in teaching. Offered on demand.

### **MUS 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **MUS 699 - Independent Study and Research (1 to 4 credits)**

Independent, graduate research or study in an area of music of special interest to the student. Prior to registration, the student must arrange for supervision by a faculty member and submit a

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

contract (available in the Department of Music, Theatre, and Dance) specifying the scope of the proposed study. Offered every semester. Prerequisite: Permission of instructor and music department chair.

## **NRM 140 - The Climatic Factor (4 credits)**

A study of the atmosphere, broad aspects of weather and climate, microclimatology, and the geography of climate and effects on terrain, vegetation, and people. Does not count toward the NRM major. Fulfills Foundations - Physical Sciences with a lab (3-0-2). Offered fall and winter semesters.

## **NRM 150 - Introduction to Natural Resources (3 credits)**

An overview of the natural resources field, exploring how humans use and manage renewable natural resources and the associated ecosystems. Topics will include soils, wetlands, watersheds, fisheries, forestry, wildlife, resource policy and economics, restoration ecology, ecosystem management, and natural resource careers. Required in the NRM major and minor. (0-3-0) Offered fall and winter semesters.

## **NRM 180 - Special Topics in Natural Resources Management (1 to 4 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of resource management.

## **NRM 230 - Introduction to Wildland Fire Management (2 credits)**

This course provides students with a basic introduction to wildland and prescribed fire ecology, behavior, and management. This is required training for all personnel seeking to become wildland firefighters under National Wildfire Coordinating Group (NWCG) certification standards. NWCG certifications S-130, S-190, and L-180 are granted upon successful course completion. Offered winter and spring/summer semesters.

## **NRM 240 - Principles of Climatology (4 credits)**

The atmosphere, broad aspects of weather and climate, microclimatology, and paleoclimatology. Instrumentation, data presentation, ecoclimate, and microclimatological field observations. Lecture, laboratory, and field trips. (3-0-2)

## **NRM 250 - Resource Measurement and Maps (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Techniques of resource measurement including understanding spatial relationships and tools associated with data analysis. Introduction to navigation with compass, vegetation sampling, use of geographic information systems, global positioning systems, remote sensing, and their integration. (2-0-3) Offered fall semester.

## **NRM 263 - Forest Vegetation of the Great Lakes Region (2 credits)**

Nomenclature, classification, and identification of woody plants based on leaf, twig, bud, bark, fruit, and growth form. The course will focus on vegetation found in forests within the Great Lakes and Northeastern regions of the United States, and frequently planted ornamentals. Offered fall semester. Prerequisite: BIO 121.

## **NRM 280 - Special Topics in Natural Resources Management (1 to 4 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of resource management. Prerequisites: Variable.

## **NRM 281 - Principles of Soil Science (4 credits)**

Aspects of the physical, chemical, and biological properties of soils. (3-0-3) Offered fall semester. Prerequisite: CHM 109 or CHM 115.

## **NRM 300 - Ethical Recreation: Leave No Trace (1 credit)**

Learn how to reduce the impact of wildland recreation on nature and other visitors' experience. Students will apply the principles and practices of the Leave No Trace program in a two-day backpacking trip. LNT certification upon successful completion of the course. Offered spring/summer semester. Prerequisites: Completion of Foundations - Life Sciences requirement, junior standing, and permit required.

## **NRM 308 - Wildlife Ecology (4 credits)**

This course provides an introduction to wildlife ecology including population ecology as it relates to wildlife management and conservation. Offered winter semester. Prerequisite: BIO 215.

## **NRM 320 - Introduction to Resource Systems (3 credits)**

Basic principles, terminology, and methodology for the analysis and modeling of resource systems, including natural environments and human ecosystems. (2-0-3) Offered winter semester. Prerequisites: BIO 215 and MTH 122.

### **NRM 330 - Environmental Pollution (3 credits)**

Investigation of causes and effects of water, soil, and air pollution. Prevention and management of pollution will be discussed and examined from natural and social science perspectives. Design of impact assessment studies, data interpretation, and laboratory methods. Topics may include waste disposal, acid deposition, climate change, toxicology, and risk assessment. (2-0-3) Offered winter semester. Prerequisite: CHM 109 or CHM 116.

### **NRM 380 - Special Topics in Natural Resources Management (1 to 4 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of resource management. Prerequisites: Variable.

### **NRM 386 - Ecological Restoration and Management (4 credits)**

This course will introduce students to ecological restoration and examines the practical methods and techniques used in ecosystem restoration and management. Cross-listed with BIO 386. Offered fall semester. Prerequisite: BIO 215.

### **NRM 395 - GIS Applications in Resource Management (3 credits)**

Explores applications of geographic information systems (GIS) in natural resources management. Students will work on projects and examine several case studies in which GIS is used for the management of natural resources, including watershed analysis, environmental impact of timber sales, habitat loss, and endangered species conservation. (2-0-3) Offered winter semester. Prerequisite: GPY 307 or NRM 250.

### **NRM 399 - Readings in Resource Management (1 to 3 credits)**

Independent readings on selected topics. Credit and topic must be arranged with the appropriate staff member before registering. No more than three credits can be applied to the major, none to the minor. Offered every semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **NRM 406 - Renewable Energy Systems: Structure, Policy, and Analysis (3 credits)**

A survey of the technological as well as economic, societal, and public policy issues associated with renewable energy systems. Topics include generation using renewable resources such as solar, wind, hydropower, and biomass, as well as advanced energy storage systems and distribution. Energy research and analysis techniques are introduced. Fulfills Cultures - Global Perspectives. Part of the Sustainability Issue. Cross-listed with EGR 406. Offered winter semester. Prerequisites: Junior standing and (STA 215 or STA 220 or STA 312).

## **NRM 407 - Natural Resources and Society: Study Abroad (1 to 4 credits)**

Natural resources topics related to biodiversity, sustainability, alternative energy, environmental policy and economics, land use, climate change, historical influences, and cultural/societal attitudes conducted within an international context. The society-based experience is combined with readings, lectures, papers, and discussions.

## **NRM 408 - Wildlife Management (4 credits)**

An examination of techniques used in the management, research, and conservation of wildlife species. Introduces the fundamental concepts of wildlife management, including wildlife habitat requirements, evaluation of habitat suitability, interpretation of data analysis techniques, and applied techniques of habitat and population management. Cross-listed with BIO 408, BIO 508, and NRM 508. Offered fall semester. Prerequisite: BIO 308 or NRM 308.

## **NRM 415 - Fire Ecology and Management (3 credits)**

An examination of fire as an ecological and biophysical process, its interactions with and effects on a variety of ecosystem components, and use as a resource management tool. A National Wildfire Coordinating Group Certification (RX - 310 Introduction to Fire Effects) is granted upon successful course completion. Cross-listed with BIO 415, BIO 515, and NRM 515. Offered winter semester. Prerequisite: BIO 215.

## **NRM 417 - International Field Studies in Resource Ecology and Management (1 to 4 credits)**

Intensive field work related to natural resources ecology, conservation, preservation, and management conducted within an international context. The field-based experience is combined with readings, lectures, papers, and discussions.

## **NRM 420 - Wildland Recreation Management (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Learn about the challenges of managing wildland recreation that both meets the needs of users and preserves the ecological health of ecosystems. Learn techniques to manage dispersed recreation that occurs on public lands and waters and how to limit their impact on visitors and soil, vegetation, water, and wildlife. (3-0-0) Offered fall semester.

### **NRM 430 - Advanced Wildland Fire Management (2 credits)**

This course provides students with advanced skills and knowledge related to wildland- and prescribed-fire ecology, behavior, and management. This is advanced training for all personnel seeking to become Wildland Firefighters under National Wildfire Coordinating Group (NWCG) certification standards. NWCG certification S-290 is granted upon successful course completion. Class is credit/no-credit. Cross-listed with BIO 430. Offered winter and spring/summer semesters. Prerequisite: NRM 230.

### **NRM 450 - Applied Spatial Analysis of Natural Resources (3 credits)**

The course focuses on environmental and natural resource applications of computer-based spatial analysis concepts and techniques. Students will analyze contemporary environmental challenges using, for example, advanced geographic information systems (GIS) tools, image interpretation and analysis, simulation modeling, and spatial analysis. Offered fall semester. Prerequisite: NRM 395 or GPY 307.

### **NRM 451 - Natural Resource Policy (3 credits)**

Study of how natural resource policy is developed and implemented in the United States. Focuses on public policies toward renewable resources such as forests, biodiversity, land, recreation, and water. Includes foundations of the American legal system, choice of policy instruments, and basic methods of policy analysis. Part of the Sustainability Issue. (4-0-0) Cross-listed with NRM 551. Offered fall and winter semesters. Prerequisites: Junior standing and completion of Foundations - Natural Sciences; or permission of instructor.

### **NRM 452 - Watershed and Wetland Management (4 credits)**

Theory and application of urban, rural, and wildland hydrology, including the management of watersheds and wetlands to improve water quality, stabilize stream flows, and conserve stream and wetland biota. (3-0-3) Offered fall semester. Prerequisites: MTH 122, NRM 150, and NRM 250.

### **NRM 462 - Forest Ecosystem Management (4 credits)**

An introduction of traditional and contemporary forestry practices including tree identification, silviculture, and vegetation measurements. Course emphasizes integration of established

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

practices with the concepts of sustainable forestry and ecosystem management. The presentation, discussion, and synthesis of new approaches to the management of forest ecosystems will be especially stressed. (3-0-3) Cross-listed with NRM 562. Offered winter semester. Prerequisites: NRM 150 and NRM 250.

## **NRM 480 - Special Topics in Natural Resources Management (1 to 4 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of resource management.

## **NRM 486 - Restoration Ecology (3 credits)**

This course will introduce students to the science of restoration ecology through an examination of underlying theories and contemporary research in ecosystem restoration. Cross-listed with NRM 586, BIO 486, and BIO 586. Course offered winter semester of even-numbered years. Prerequisites: BIO 215 and junior standing; or permission of instructor.

## **NRM 490 - Internship in Resource Management (1 to 5 credits)**

Internships are available in all areas of specialization. Location of placement and credit must be arranged with the appropriate faculty before registration. No more than five credits in NRM 490 and NRM 499 can be applied to the major; three to the minor. Offered each semester. Prerequisite: Junior standing in natural resource management.

## **NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits)**

A comprehensive and integrative analysis of the fundamental assumptions, issues, and problems of natural resources management. Examines the historical roots of natural resource management, identifies factors that caused natural resource management to change, and explores proposals for managing natural resources in the future. (0-4-0) Offered fall and winter semesters. Prerequisites: Senior standing, STA 215, NRM 150, and one of the following: NRM 330, NRM 386, NRM 408, NRM 420, NRM 452, NRM 462.

## **NRM 496 - Trends in Western U.S. Natural Resource Management (2 credits)**

This course provides a comprehensive perspective on the fundamental assumptions, problems, and solutions to natural resources management issues in the Western U.S. We will examine the historical roots of management and explore new paradigms for managing natural resources. Must

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

be taken prior to NRM 497 to fulfill the Capstone requirement. Offered winter semester.  
Prerequisites: Senior standing, STA 215, NRM 150, and one of the following: NRM 330, NRM 386, NRM 408, NRM 420, NRM 452, NRM 462.

## **NRM 497 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits)**

This field trip will provide a broad and comprehensive perspective on natural resource management issues in the Western United States. We will meet with public land management officials, representatives from nongovernment organizations, and private individuals to explore the challenges of managing public land and water resources. Cross-listed with NRM 597. Offered spring/summer semester. Prerequisite: NRM 496 or permission of instructor.

## **NRM 499 - Research in Resource Management (1 to 3 credits)**

Research conducted individually with faculty supervision and/or in cooperation with other majors in resource management. Research projects and credit hours must be approved by the appropriate faculty before registration. Limits: Three credits toward major or minor; five credits of NRM 490 plus NRM 499 toward major or three toward minor. Prerequisite: Junior standing in resource management.

## **NRM 508 - Wildlife Management (4 credits)**

An examination of techniques used in the management, research, and conservation of wildlife species. Introduces the fundamental concepts of wildlife management, including wildlife habitat requirements, evaluation of habitat suitability, interpretation of data analysis techniques, and applied techniques of habitat and population management. Cross-listed with BIO 408, BIO 508, and NRM 408. Offered fall semester. Prerequisite: Graduate standing.

## **NRM 515 - Fire Ecology and Management (3 credits)**

An examination of fire as an ecological and biophysical process, its interactions with and effects on a variety of ecosystem components, and use as a resource management tool. A National Wildfire Coordinating Group Certification (RX - 310 Introduction to Fire Effects) is granted upon successful course completion. Cross-listed with NRM 415, BIO 415, and BIO 515. Offered winter semester.

## **NRM 551 - Natural Resource Policy (3 credits)**

Study of how natural resource policy is developed and implemented in the United States. Focuses on public policies toward renewable resources such as forests, biodiversity, land, recreation, and water. Includes foundations of the American legal system, choice of policy

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

instruments, and basic methods of policy analysis. Part of the Sustainability Issue. (4-0-0) Cross-listed with NRM 451. Offered fall and winter semesters. Prerequisite: Graduate standing.

### **NRM 552 - Fisheries Management (3 credits)**

An introduction to the principles of fisheries science and management, focusing on the process and tools for managing fish populations and their habitat as well as emphasizing quantitative methods for fisheries assessment. Prerequisite: Graduate standing or (BIO 362, STA 215, and permission of instructor).

### **NRM 562 - Forest Ecosystem Management (4 credits)**

An introduction to traditional and contemporary forestry practices including tree identification, silviculture, and vegetation measurements. Course emphasizes integration of established practices with the concepts of sustainable forestry and ecosystem management. The presentation, discussion, and synthesis of new approaches to the management of forest ecosystems will be especially stressed. Cross-listed with NRM 462. Offered winter semester.

### **NRM 576 - Aquatic Ecosystem Management (3 credits)**

Wise management of aquatic ecosystems is a pressing need with societal demands on freshwater increasing. This class allows for hands-on experience developing and implementing a management plan in a local setting by linking an understanding of aquatic ecosystem structure and function with management, restoration, and protection. Cross-listed with WAT 576. Offered winter of even-numbered years. Prerequisite: Graduate standing or permission of instructor.

### **NRM 580 - Special Topics in Natural Resources Management (1 to 4 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of resource management.

### **NRM 586 - Restoration Ecology (3 credits)**

This course will introduce students to the science of restoration ecology through an examination of underlying theories and contemporary research in ecosystem restoration. Cross-listed with NRM 486, BIO 486, and BIO 586. Offered winter semester of even-numbered years. Prerequisite: Graduate standing.

### **NRM 597 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This field trip will provide a broad and comprehensive perspective on natural resource management issues in the western United States. We will meet with public land management officials, representatives from nongovernment organizations, and private individuals to explore the challenges of managing public land and water resources. Cross-listed with NRM 497. Offered spring/summer semester. Prerequisite: Graduate standing.

## **NRM 680 - Special Topics in Natural Resources Management (1 to 4 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of resource management.

## **NRM 691 - Graduate Internship (3 to 9 credits)**

Half- to full-time, on-the-job work performed at a sponsoring entity under the supervision of an approved mentor in an area related to natural resources or environmental science. A written internship analysis and a public oral presentation are required. The student will defend the internship analysis in front of the student's graduate committee. Offered every semester. Prerequisites: BIO 610 and successful completion of qualifying exams.

## **NRM 693 - Graduate Project (3 to 9 credits)**

Application of scientific knowledge to a problem in natural resources or environmental science. Projects will be performed under the supervision of an approved mentor from the sponsoring entity. A written report and public oral presentation are required. The student will defend the project report in front of the student's graduate committee. Offered every semester. Prerequisites: BIO 610, successful completion of qualifying exams and completion of the Responsible Conduct of Research Training within last three years.

## **NRM 695 - Graduate Thesis Research (3 to 9 credits)**

Original research related to natural resources or environmental science. Work will be performed under the supervision of the student's graduate committee chair or an approved research mentor. A written thesis and a public oral presentation are required. The student will defend the thesis in front of the student's graduate committee. Offered every semester. Prerequisites: BIO 610, successful completion of qualifying exams and completion of the Responsible Conduct of Research Training within last three years.

## **NRM 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

### **NRM 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **NRM 699 - Independent Study (1 to 3 credits)**

Independent study in areas related to natural resources or environmental science of special interest to the student. Studies will be supervised by a faculty member approved by the student's graduate committee chair. May be elected for up to a maximum of six credits toward the M.S. in biology. Offered every semester. Prerequisite: Permission of the student's graduate committee chair, instructor, and department chair.

### **NUR 180 - Special Topics in Nursing (1 to 3 credits)**

Readings, lecture, discussion, or lab in specific nursing topics.

### **NUR 265 - Introduction to Nursing Research and Evidence-based Practice (3 credits)**

Foundation for integration of evidence-based concepts into the provision of nursing care. An introduction to the process of developing research evidence leading to acquisition of skills, knowledge, and attitudes necessary for an effective consumer of research. Evidence sources are identified and explored for their contribution to evidence-based practice. Offered fall and winter semesters. Prerequisites: Admission to the Kirkhof College of Nursing and STA 215 (may be taken concurrently).

### **NUR 266 - Professional Nursing I (4 credits)**

The key concepts for nursing practice are introduced with an emphasis on communication, health promotion, and health restoration at the individual level. Professional nurse roles of provider of care, coordinator/manager/designer of care, and member of the profession are introduced. Offered fall and winter semesters. Prerequisites: Admission to the Kirkhof College of Nursing and STA 215 (may be taken concurrently).

### **NUR 267 - Clinical Nursing I (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Knowledge from core courses, liberal arts, and nursing is used to provide the development of nursing skills and the beginning application in the care of an individual patient. Emphasis is on communication, health promotion, health restoration, health assessment, and physical examination skills. Offered fall and winter semesters. Prerequisites: Admission to the Kirkhof College of Nursing, BMS 310, and NUR 266 (may be taken concurrently).

## **NUR 280 - Special Topics in Nursing (1 to 3 credits)**

Readings, lecture, discussion, or lab in specific nursing topics.

## **NUR 311 - Dimensions of Nursing Practice (2 credits)**

This course is one of two transition courses that students in the RN to B.S.N. program take for the baccalaureate degree. It focuses on concepts that are client oriented for the baccalaureate-prepared nurse level. Concepts to be emphasized include quality and safety, informatics, nursing roles, social, cultural, and ethical issues in nursing. Offered spring/summer semester. Prerequisites: Admission to the RN to B.S.N. program and/or permission to register.

## **NUR 312 - Professional Nursing Issues (2 credits)**

This course is one of two transition courses for the RN to B.S.N. program. It expands upon knowledge gleaned in the associate degree program, exploring concepts related to professional identity and communication in nursing. Professional identity includes accountability and nursing roles. Communication includes interpersonal and professional communication. Offered fall semester. Prerequisites: Admission to the RN to B.S.N. program and/or permission to register.

## **NUR 316 - Professional Nursing II (4 credits)**

Professional nurse roles of provider and coordinator/manager/designer of care, and member of a profession are expanded. Emphasis is on health promotion, health restoration, and risk reduction for adults/older adults and their families. Offered fall and winter semesters. Prerequisites: NUR 266 and NUR 267. The following courses may be taken concurrently: BMS 305, BMS 311, NUR 265, and NUR 317.

## **NUR 317 - Clinical Nursing II (6 credits)**

Knowledge from core courses, liberal arts, and nursing is used to formulate clinical judgments for adults/older adults and their families. Students collaborate with health team members to further refine skills in clinical reasoning, therapeutic nursing interventions, and communication in various settings. Offered fall and winter semesters. Prerequisites: NUR 266 and NUR 267. The following courses may be taken concurrently: BMS 305, BMS 311, NUR 265, and NUR 316.

## **NUR 322 - Theoretical Foundations for Health Assessment and Promotion (3 credits)**

This course focuses on the assessment of well and ill patients in various health settings. Applications of liberal arts and sciences to health promotion, disease prevention, and risk reduction will be incorporated into health assessment and promotion. Offered fall and spring/summer semesters. Prerequisites: BIO 355, BMS 250, BMS 251, CHM 230, BMS 212, PSY 364, BMS 305, BMS 310, and STA 215. Corequisites: NUR 323 and NUR 325.

## **NUR 323 - Clinical Application of Health Assessment and Promotion (4 credits)**

Knowledge from core courses, liberal arts, and nursing is used to provide the development of nursing skills, clinical judgment, and the beginning application in the care of the individual patient. Emphasis on communication, health promotion, health assessment, physical examination skills, and basic nursing skills. Offered fall and spring/summer semesters. Prerequisites: BIO 355, BMS 212, BMS 250, BMS 251, BMS 305, BMS 310, CHM 230, PSY 364, and STA 215. Corequisites: NUR 322 and NUR 325.

## **NUR 324 - Introduction to Professional Nursing Theory (3 credits)**

This course focuses on the definitions and theories of professional nursing. The nursing process, nursing and health care theory, and health care settings will be explored. Foundational professional documents and competencies will be introduced. Offered fall and spring/summer semesters. Prerequisites: BIO 355, BMS 212, BMS 250, BMS 251, BMS 305, BMS 310, CHM 230, PSY 364, and STA 215.

## **NUR 325 - Clinical Judgment in Health Assessment and Promotion (1 credit)**

The concept of clinical judgment is introduced and explored in a variety of simulated clinical experiences that correlate with content in corequisite nursing courses. Intentional patient experiences focus on building the foundations for safe, quality nursing care. Offered fall and spring/summer semesters. Prerequisites: BIO 355, BMS 212, BMS 250, BMS 251, BMS 305, BMS 310, CHM 230, PSY 364, and STA 215. Corequisites: NUR 322 and NUR 323.

## **NUR 328 - Clinical Pharmacology for Nursing (3 credits)**

A lecture/discussion course designed to introduce nursing students to the principles of pharmacology for major classes of medications used in the treatment of disease. Application of these principles will be used in nursing clinical decision-making to promote safe and effective

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

patient care. Offered every semester. Prerequisites: Admission into Kirkhof College of Nursing, BMS 310, and NUR 267 (may be taken concurrently).

## **NUR 332 - Adult Health Theory (6 credits)**

Professional nurse roles such as provider and coordinator/manager/designer of care, and member of the profession are expanded. Emphasis is on using the nursing process to build an understanding of concepts in the human experience of illness in adult/older adult patients. Offered fall and winter semesters. Prerequisites: NUR 322, NUR 323, NUR 324, NUR 325, and NUR 328. Corequisites: NUR 333 and NUR 335.

## **NUR 333 - Adult Health Clinical (5 credits)**

Knowledge from liberal arts/sciences and nursing courses promotes clinical judgment to care of adults/older adults. Students collaborate with the interprofessional healthcare team in acute care settings to refine skills in communication and the nursing process to ensure safe and effective patient outcomes (including Quality and Safety Education for Nurses). Offered fall and winter semesters. Prerequisites: NUR 322, NUR 323, NUR 324, NUR 325, and NUR 328. Corequisites: NUR 332 and NUR 335.

## **NUR 335 - Clinical Judgment in Adult Health (1 credit)**

The Clinical Judgment Model is used to further develop nursing skills in a variety of simulated patient experiences that correlate with content in corequisite nursing courses. Intentional patient experiences focus on the integration of concepts from NUR 332 and NUR 333 in the care of adults and older adults. Offered fall and winter semesters. Prerequisites: NUR 322, NUR 323, NUR 324, NUR 325, and NUR 328. Corequisites: NUR 332 and NUR 333.

## **NUR 336 - Research and Evidence Based Nursing Practice (3 credits)**

This course provides a foundation for integration of research, evidence-based practice into the delivery of quality nursing care. Emphasis is on understanding how research, evidence and data analytics lead to acquisition of skills, knowledge, and attitudes necessary for safe, comprehensive, evidence-based practice and impact patient outcomes. Offered fall and winter semesters. Prerequisites: NUR 322, NUR 323, NUR 324, NUR 325, and NUR 328.

## **NUR 338 - Critical Appraisal of Evidence Based Practice in Nursing (1 credit)**

This course will augment the knowledge of the research process demonstrated in prior coursework by applying those research principles to nursing evidence and practice. Offered fall and winter semesters. Prerequisite: Permission of the college.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **NUR 344 - Healthy Aging: A Lifelong Journey (3 credits)**

Healthy aging is a lifelong process. This course will explore factors that affect physical, mental, biological, and spiritual aspects of human aging. Emphasis will be placed on achieving and maintaining optimal health and well-being across the life course. Part of the Health Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **NUR 354 - Living with Life-Limiting Illness (3 credits)**

This course is intended for persons interested in exploring issues surrounding death and dying. Content will explore common physical, psychosocial, spiritual, and culturally-specific needs of the dying, as well as ethical and legal considerations surrounding death. Standards of care from the discipline of hospice and palliative care are explored. Part of the Health Issue. (3-0-0-0) Offered every semester. Prerequisite: Junior standing.

## **NUR 362 - Professional Nursing III - Foundations (2 credits)**

Professional nurse roles of 1) provider, 2) coordinator/manager/designer of care, and 3) member of the profession are expanded further with a focus on the childbearing and childrearing families. Emphasis is on promotion and maintenance of family health, including family as client, to ensure optimal childbearing and childrearing. Offered fall semester. Prerequisites: NUR 265, NUR 266, and NUR 267. Corequisites: NUR 316, NUR 317, and NUR 363.

## **NUR 363 - Clinical Nursing III - Foundations (3 credits)**

Knowledge from liberal education and the discipline of nursing is used to inform family centered care for childbearing and childrearing populations. Students collaborate with health team members to further refine skills in clinical reasoning, therapeutic nursing interventions, and communication through experiences in various clinical settings. Offered fall semester. Prerequisites: NUR 265, NUR 266, and NUR 267. Corequisites: NUR 316, NUR 317, and NUR 362.

## **NUR 364 - Embracing Wicked Problems in Healthcare (3 credits)**

Wicked problems in healthcare are chronic, reoccurring issues that require both problem solving and polarity thinking. Students across disciplines work in groups applying principles of dialogue and polarity management to address polarizing tensions, where both sides are right and need each other's wisdom to create sustainable positive health outcomes. Part of the Health Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **NUR 366 - Professional Nursing III (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Professional nurse roles of provider and coordinator/manager/designer of care, and member of the profession are expanded further with a focus on the childbearing and childrearing families. Emphasis is on promotion and maintenance of family health to ensure optimal childbearing and childrearing. Offered fall and winter semesters. Prerequisites: BMS 311, NUR 316, and NUR 317. The following courses may be taken concurrently: BIO 355 and NUR 367.

### **NUR 367 - Clinical Nursing III (6 credits)**

Knowledge from liberal education and the discipline of nursing is used to inform clinical reasoning for childbearing and childrearing families. Students collaborate with health team members to further refine skills in clinical reasoning, therapeutic nursing interventions, and communication through laboratory practice and experiences in various settings. Offered fall and winter semesters. Prerequisites: NUR 316 and NUR 317. The following courses may be taken concurrently: BIO 355 and NUR 366.

### **NUR 380 - Special Topics in Nursing (1 to 4 credits)**

Readings, lecture, discussion, or lab in specific nursing topics.

### **NUR 381 - Perioperative Nursing Care (2 credits)**

This course focuses on the roles of the baccalaureate prepared nurse applying the nursing process while caring for individuals/populations undergoing surgical intervention. Course themes include: perioperative health, patient-centered care, quality and safety, communications, and professional identity. Content is informed by nationally accepted guidelines for perioperative nursing practice. Offered fall and winter semesters. Prerequisite: NUR 317 or proof of RN licensure.

### **NUR 399 - Readings in Nursing (1 to 4 credits)**

Independent supervised readings on selected topics. Credits and topic must be prearranged with faculty sponsor(s).

### **NUR 411 - Community-based Nursing Care (4 credits)**

This course focuses on the role of the baccalaureate prepared nurse in the application of the nursing process while caring for individuals and families in the community. Course concepts include development over the lifespan, group dynamics, systems, nursing roles, interdisciplinary behaviors and professional communication. Offered spring/summer semester. Prerequisites: NUR 311 and NUR 312.

### **NUR 412 - Nursing Care for Populations (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course focuses on the role of the baccalaureate-prepared nurse in assessing, planning, intervening and evaluating health care needs for populations. Concepts such as culture, social justice and vulnerability will be examined as to their effects on population health. Genetics, health promotion, and risk reduction will be emphasized. Offered fall semester. Prerequisites: NUR 311, NUR 312, and NUR 411.

## **NUR 414 - Collaboration for Nurses (2 credits)**

Post licensure nurses in professional practice have foundational and shared knowledge of interprofessional education and collaborative practice (IPECP) in terms of values and ethics, and roles and responsibilities of other healthcare professionals. This course applies the remaining principles of IPECP through the lenses of interprofessional communication and team collaboration. Offered every semester. Corequisite: NUR 411.

## **NUR 416 - Professional Nursing IV (4 credits)**

Professional nurse roles of provider and coordinator/manager/designer of care, and member of the profession are integrated. Emphasis is on restoration, maintenance, and promotion of health in individuals and families with long term physical and mental health limitations. Community as client will be introduced. Offered fall and winter semesters. Prerequisites: NUR 366 and NUR 367. Corequisites: NUR 417 and IPE 407.

## **NUR 417 - Clinical Nursing IV (6 credits)**

Knowledge from liberal education and the discipline of nursing is used to inform clinical reasoning for individuals, families, groups, and communities with complex mental and physical health issues. Students collaborate with health team members to further refine skills in nursing interventions and communication. Offered fall and winter semesters. Prerequisite: NUR 366. Corequisites: NUR 416 and IPE 407.

## **NUR 442 - Childbearing and Childrearing Theory (4 credits)**

Professional nurse roles of provider of care, designer/manager/coordinator of care, and member of the professional are expanded to childbearing and childrearing families. The stage of physical and psychosocial development is applied to care of families. Offered winter and spring/summer semesters. Prerequisites: NUR 332, NUR 333, NUR 335, and either NUR 336 or NUR 338. Corequisites: NUR 443 and NUR 445.

## **NUR 443 - Childbearing and Childrearing Clinical (3 credits)**

Knowledge from liberal education and the discipline of nursing is applied to the care of childbearing and childrearing families. Students collaborate with health team members in a

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

variety of obstetric and pediatric settings to expand skills in clinical reasoning, therapeutic nursing interventions, and communication. Offered winter and spring/summer semesters. Prerequisites: NUR 332, NUR 333, NUR 335, and either NUR 336 or NUR 338. Corequisites: NUR 442 and NUR 445.

### **NUR 445 - Clinical Judgment in Childbearing, Childrearing, Community Health and Mental Health (1 credit)**

Students will utilize the clinical judgment model to expand understanding and skill in the care of childbearing and childrearing families as well as caring for those with mental health challenges in acute and community settings. Intentional patient experiences focus on the integration of concepts from NUR 442 and NUR 446. Offered winter and spring/summer semesters. Prerequisites: NUR 332, NUR 333, NUR 335, and either NUR 336 or NUR 338. Corequisites: NUR 442, NUR 443, NUR 446, and NUR 447.

### **NUR 446 - Community Health and Mental Health Theory (4 credits)**

This course builds knowledge of the roles of community health nursing in various settings, caring for individuals and aggregates, from culturally diverse backgrounds, across developmental stages and along the health-illness continuum. The nursing process facilitates applying concepts of the human experience of mental health and illness through the lifespan. Offered winter and spring/summer semesters. Prerequisites: NUR 332, NUR 333, NUR 335, and either NUR 336 or NUR 338. Corequisites: NUR 445 and NUR 447.

### **NUR 447 - Community Health and Mental Health Clinical (2 credits)**

Students care for individuals and aggregates in various settings, emphasizing collaboration with interprofessional health care teams, and using nursing process that incorporates social determinants of health to assess, implement nursing interventions and promote effective patient outcomes. Importance is placed on mental health/illness concerns and refining skills in communication. Offered winter and spring/summer semesters. Prerequisites: NUR 332, NUR 333, NUR 335, and either NUR 336 or NUR 338. Corequisites: NUR 445 and NUR 446.

### **NUR 456 - Transformative Nursing Leadership (4 credits)**

This Capstone course expands on the RN/B.S.N. preparation in the areas of member of the profession and coordinator of care. Through application of key concepts, this course further develops the student's professional identity, understanding of quality and health care systems, and the mechanisms for effective professional communication. Offered winter semester. Prerequisite: NUR 412.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **NUR 467 - Professional Nursing V (10 credits)**

Knowledge, skills, attitudes necessary for professional leadership and provision of care for individuals, families, groups, and communities are synthesized. Nursing care at the community level and a clinical immersion experience, which serves as the Capstone activity, facilitates transition into practice as a member of the profession. Offered fall and winter semesters. Prerequisites: NUR 416 and NUR 417. IPE 407 may be taken concurrently.

## **NUR 472 - Transitions to Professional Nursing (3 credits)**

In this course, students prepare to enter the nursing profession. The knowledge, skills, and attitudes necessary for professional leadership and provision of care for individuals, families, and groups are synthesized. Offered fall and spring/summer semesters. Prerequisites: NUR 442, NUR 443, NUR 445, NUR 446, and NUR 447. Corequisites: NUR 473 and NUR 475.

## **NUR 473 - Clinical Immersion (4 credits)**

In this course, students complete a clinical immersion experience that facilitates the transition into practice as a member of the profession. Application of the knowledge, skills and attitudes necessary for professional leadership and provision of care are synthesized. Prerequisites: NUR 442, NUR 443, NUR 445, NUR 446, and NUR 447. Corequisites: NUR 472 and NUR 475.

## **NUR 475 - Clinical Judgment in Immersion (1 credit)**

Simulated experiences will provide opportunities for exploring the role of the manager, delegator, member of a team. Offered fall and spring/summer semesters. Prerequisites: NUR 442, NUR 443, NUR 445, NUR 446, and NUR 447. Corequisites: NUR 472 and NUR 473.

## **NUR 476 - Population Health theory (3 credits)**

This course integrates nursing and public health concepts/trends to assess community health needs and program planning. Nursing process will be fully utilized at the community level to examine social, political, legal-ethical and environmental issues. Theory and research are emphasized to include collaborative practice, health policy, and interdisciplinary teamwork. Offered fall and spring/summer semesters. Prerequisites: NUR 442, NUR 443, NUR 445, NUR 446, and NUR 447. Corequisite: NUR 477.

## **NUR 477 - Population Health Clinical (2 credits)**

This Capstone course examines the essential competencies of the professional nurse in addressing population-focused and global public health issues. Students apply public health science, epidemiology, systems-level assessment, health policy development and program planning. Strategies to promote health and prevent disease in diverse populations through

collaborative efforts are emphasized. Offered fall and winter semesters. Prerequisites: NUR 442, NUR 443, NUR 445, NUR 446, and NUR 447. Corequisite: NUR 476.

## **NUR 480 - Special Topics in Nursing (1 to 4 credits)**

Readings, lecture, labs, or discussions (or any combination) in specific nursing topics. Prerequisites dependent upon topic selected. May be repeated for credit when content varies. Graded credit/no-credit.

## **NUR 481 - Critical Care: Infants and Children (2 credits)**

The purpose of this course is to provide students with an opportunity to study concepts from nursing and the sciences specific to the care of critically ill infants and children. Offered every semester. Prerequisites: NUR 366 and NUR 367. Corequisites: NUR 416, NUR 417, and NUR 467.

## **NUR 499 - Research in Nursing (1 to 4 credits)**

Independent supervised research in special areas of nursing. Credits and topics must be prearranged with faculty sponsor(s).

## **NUR 500 - Comprehensive Health Assessment for Nurses (3 credits)**

This course builds upon the health assessment skills, knowledge, and experiences of practicing nurses. It is designed to enhance the knowledge and skills of the learner in the performance of comprehensive health histories and systematic physical examination. Offered every semester. Prerequisite: RN status.

## **NUR 580 - Special Topics in Nursing (1 to 3 credits)**

Readings, lecture, discussion, or lab in specific nursing topics.

## **NUR 581 - Chronic and Terminal Illness: The Palliative/Hospice Model (3 credits)**

Explores the trajectory of dying in America from multiple perspectives and disciplines. Content will be presented from theoretical, sociocultural, and political frameworks as they apply to care of those with life-limiting disease and palliative and/or hospice care within the U.S. health care system. Ethical, legal and sociocultural dilemmas will be examined. Offered fall semester. Prerequisite: Postbaccalaureate standing or permission of instructor.

## **NUR 582 - Complex Pain and Symptom Management (3 credits)**

Explores common pain and symptom management issues in palliative and end-of-life care including utilization of complex therapies using a patient-centered, interdisciplinary approach. Offered winter semester. Prerequisite: Postbaccalaureate standing or permission of the instructor.

## **NUR 605 - Theoretical Perspectives in Nursing (3 credits)**

This course focuses on applying theory in nursing practice. Emphasis will be on the structure, types, and levels of theory, along with the use of theory in clinical situations, organizational change, implementation projects and research.

## **NUR 607 - Health Care System, Policy and Politics (3 credits)**

This course focuses on policy decisions related to the organization, financing, and delivery of health care in the global community. It provides a basis for understanding political and social forces that shape nursing practice and health care delivery. Ethical dimensions of public policy formulations and implementation will be highlighted. Prerequisite: NUR 605.

## **NUR 608 - Leadership Roles in Complex Systems (3 credits)**

In this course, students analyze and evaluate theories and research that influence leadership in complex systems. Leadership is explored in complex system domains. Core competencies and strategies for leadership effectiveness are examined and evaluated. Prerequisites: NUR 607 (may be taken concurrently).

## **NUR 610 - Advanced Assessment and Diagnostic Reasoning (4 credits)**

Students will demonstrate advanced assessment skills to detect and differentiate abnormal findings and to generate potential diagnoses. Through case study analysis and use of simulation with standard patients, students will use selected theoretical frameworks to guide clinical decision-making for patient encounters. Offered winter semester. Prerequisites: NUR 620, NUR 621, and NUR 691.

## **NUR 612 - Quality Improvement and Clinical Outcomes in Nursing (4 credits)**

The course introduces the role of the M.S.N.-prepared nurse in quality improvement and outcomes management for patients at the microsystem level. Content includes assessment of the microsystem, quality improvement models and theory, data management, strategies to improve patient outcomes, and the role of the advanced generalist nurse. Offered winter semester. Prerequisite: NUR 613.

## **NUR 613 - Nursing Research and Evidence-Based Practice (3 credits)**

In this course students will relate research to evidence-based practice and explore ways to select, read, and critique the literature in order to address health care problems. In addition, they will explore methods to apply evidence-based practice models for selected health problems. Prerequisite: STA 610.

## **NUR 614 - Nursing Research and Evidence-Based Practice II (1 credit)**

Students work with a faculty mentor to finalize the evidence-based protocol developed in NUR 613. Students will include an implementation, evaluation and dissemination process with implications for nursing practice. This two-part course series serves as the culminating scholarly project for the M.S.N. Offered winter semester. Prerequisite: NUR 613. Corequisite: NUR 612.

## **NUR 615 - Advanced Generalist Clinical Practicum I (4 credits)**

This mentored advanced generalist practicum is the first in a two-course sequence of the clinical immersion experience. Students will apply previously applied knowledge/skills to implement the M.S.N. essential competencies. Using these competencies, they will plan and propose a quality improvement project to stakeholders. Offered spring/summer semester. Graded credit/no-credit. Prerequisite: NUR 612.

## **NUR 616 - Advanced Generalist Clinical Practicum II (4 credits)**

This mentored generalist practicum is the second in a two-course sequence of clinical immersion experiences. Students will apply previously acquired knowledge/skills to implement the M.S.N. essential competencies. Using these competencies, they will enact and evaluate a quality improvement project and disseminate the results. Offered fall semester. Graded credit/no-credit. Prerequisite: NUR 615.

## **NUR 620 - Clinical Pharmacology (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Explores pharmacological categories of drugs used by practitioners with a variety of patient groups. Selected drugs within categories are presented and compared on parameters such as indications, therapeutic and/or adverse effects, monitoring, doses, and common drug interactions. (3-0-0-0) Numbers in parentheses indicate the number of classroom-seminar-skills laboratory-clinical laboratory hours per week. Offered spring/summer semester. Prerequisite: BMS 608.

## **NUR 621 - Clinical Pathophysiology (4 credits)**

This course utilizes the scientific underpinnings of the biologic basis of disease to understand the pathophysiology, clinical assessment and treatment of clinical conditions across the lifespan. Content includes: cellular injury, inflammation, immunity, genetics, and various disease states in oncology, endocrinology, cardiovascular, pulmonary, neurology, gastroenterology, hematology, nephrology, and gynecology. Offered fall semester. Prerequisite: Admission to a graduate nursing program or permission of the instructor.

## **NUR 625 - Health Issues in Vulnerable Populations (4 credits)**

This course incorporates epidemiologic methods in addressing health disparities in vulnerable populations. Course content will explore issues in health access and disparity in U.S. populations and examine current trends, societal consequences, contributory cause(s), and potential advance practice nurse roles. Offered every year. Prerequisites: STA 610 and NUR 690.

## **NUR 628 - Psychopharmacology for Advanced Practice (3 credits)**

Therapeutic use of psychotropic medications including biological mechanisms of action, safety issues, advanced treatments, as well as common side effects and adverse reactions, will be explored. The neurobiological components important in understanding symptom etiology and effective treatments of commonly occurring mental health conditions across the lifespan are incorporated. Offered spring/summer semester upon demand. Prerequisites: NUR 620 and NUR 621, or the equivalent.

## **NUR 629 - Developmental Health: Child/Adolescent (3 credits)**

Exploration of theoretical concepts and advanced nursing strategies related to health of infants, children, adolescents and families. Provides theoretical base for pediatric advanced practice nursing. (3-0-0-0) Numbers in parentheses indicate the number of classroom-seminar-skills laboratory-clinical laboratory hours per week. Offered winter semester every third year. Prerequisites: NUR 610, NUR 704, and NUR 750.

## **NUR 630 - Developmental Health: Adult/Older Adult (3 credits)**

Exploration of theoretical concepts and advanced nursing strategies related to the health of adults and older adults. Provides the theoretical base for adult/older adult advanced practice nursing. Offered spring/summer semester. Prerequisites: NUR 610, NUR 620, NUR 628, NUR 677, and NUR 691. Corequisite: NUR 625.

## **NUR 631 - Human Development Across the Lifespan (3 credits)**

Exploration of concepts and advanced nursing strategies related to human development across the lifespan. Provides the theoretical basis for advanced nursing practice. Offered winter semester. Prerequisite: Admission to psych mental health NP certificate or permission of instructor.

## **NUR 646 - Theories of Health Systems Leadership Part I (4 credits)**

Theories of health systems leadership will be explored. Identified theories will be utilized to assess, diagnose, plan, and evaluate nurse leader organizational strategies for health care systems through the development and evaluation of an organizational assessment. Offered winter semester, odd-numbered years. Prerequisites: NUR 608 and NUR 691.

## **NUR 650 - Business and Quality in Nursing (3 credits)**

Provides students in the health systems leadership emphasis area with knowledge and expertise in organizational and systems leadership for optimal business functioning, in sustaining change through the processes of quality improvement, and in assuring that the business of nursing is conducted in a safe, ethical, and efficient manner. Prerequisites: PNH 614, PNH 632, NUR 607, and NUR 608.

## **NUR 676 - Health Perspectives: Mental Health (3 credits)**

Theoretical concepts related to the health of individuals and families. Focus is on the application of theories to clinical practice of mental health. Students will examine psychosocial theories that provide explanations for individual and family responses that affect health. (2-0-0-0) Numbers in parentheses indicate the number of classroom-seminar-skills laboratory-clinical laboratory hours per week. Offered fall semester. Prerequisite: NUR 605.

## **NUR 677 - Mental Health Practicum: Diagnosis and Treatment of Individuals (3 credits)**

Prepares the advanced psychiatric mental health nurse practitioner student to care for individuals with mental health disorders. Explores the differential diagnoses and etiologies of mental illnesses across the lifespan. Examines selected theories of psychopathology and scientific findings. Integrates analysis and application of selected clinical modalities within a clinical practicum. Offered fall semester every third year. Prerequisites: NUR 610, NUR 628, and NUR 676.

## **NUR 678 - Mental Health Practicum: Group and Family Therapy (3 credits)**

Exploration and application of advanced clinical nursing strategies in group and family treatment. Focus is on development, implementation, and evaluation of the comprehensive advanced psychiatric mental health nurse practitioner role with individuals in groups and families experiencing acute or chronic disruptions in mental health across the lifespan. Offered fall semester. Prerequisite: NUR 677.

## **NUR 679 - Advanced Psychiatric Mental Health Nurse Practitioner Practicum (4 credits)**

Students gain independence in managing selected acute and chronic disruptions in mental health using advance mental health treatment strategies (individual, group, and family). Focus is on continued development, implementation and evaluation of the comprehensive advanced psychiatric mental health nurse practitioner role treating mental health disruptions across the lifespan. Offered winter semester. Prerequisite: NUR 678.

## **NUR 680 - Special Topics in Nursing (1 to 6 credits)**

Lecture, discussion, and/or clinical laboratory course on topics of special interest to graduate nursing students.

## **NUR 690 - Introduction to Scientific Inquiry (3 credits)**

An in-depth examination of the research process in health care. Includes the use of quantitative and qualitative methodology to explore researchable problems. Students use a systematic approach to develop a clinical research or project proposal and acquire competencies to evaluate the scientific and clinical merit of published research reports. Offered fall and winter semesters. Prerequisite: NUR 605. Corequisite: STA 610.

## **NUR 691 - Evidence-Based Practice in Nursing (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course focuses on the review, analysis, synthesis, and application of scientific evidence for nursing and health care. Emphasis is placed on integrative and systematic reviews as tools to achieve evidence-based practice. Consideration is given to the ethical, legal, cultural, and financial implications of evidence-based advanced nursing practice. Prerequisites: NUR 690 and STA 610.

### **NUR 696 - Continuation of Nursing Inquiry M.S.N. Project (1 credit)**

This course serves as the continuation of the M.S.N. scholarly project course allowing students to complete their M.S.N. inquiry project. It requires completion of the M.S.N. project that translates evidence into practice. Offered every semester. Prerequisites: NUR 616.

### **NUR 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **NUR 699 - Readings in Nursing (1 to 3 credits)**

Independent supervised reading on selected topics. Credits and topic must be prearranged with faculty.

### **NUR 702 - Nursing Leadership and Health Services Research (3 credits)**

Examines methods for evaluating the effectiveness, efficiency, and equity of health care services. Approaches to evaluating relevant structure, process, and outcome variables used to address effectiveness, efficiency, and equity issues are explored. Linkages are made between specific health care policies, systems leadership practice, organizational planning, patient outcomes, and nursing. Prerequisites: NUR 608, NUR 691, and STA 610. Corequisite: NUR 646.

### **NUR 703 - Health Care Informatics (3 credits)**

This course provides an in-depth introduction to information systems and technologies that support systems of practice in health care. Relevant theories, as well as informatics issues and standards including ethical and privacy concerns will be addressed. Tools and strategies for building and managing information system components will also be incorporated. Offered fall semester. Prerequisite: Admission to the D.N.P. program or permission of instructor.

### **NUR 704 - Quality Management in Healthcare (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course provides knowledge and expertise in the application of key concepts from quality improvement (QI), implementation science (IS) and project management as a foundation for the development of the D.N.P. Scholarly Project. A project plan will be designed integrating key course areas of emphasis, including outcomes for project evaluation. Offered fall semester. Prerequisites: NUR 607, NUR 608, NUR 625 and NUR 691.

## **NUR 705 - Healthcare Decision Support (3 credits)**

Offers practical experience in the technical and user-friendly design of electronic solutions to support decisions in healthcare, using relevant theoretical and evidence-based principles. Creation and use of products promoting quality, safety, and efficiency in health care processes will be emphasized. Offered every semester. Prerequisites: Admission to the health informatics certificate program and either CIS 665 or NUR 703. Students in a nursing, health professions, or health informatics degree program may enroll for elective credit with instructor permission.

## **NUR 706 - Telehealth (3 credits)**

This course prepares the interprofessional team in evidence-based design, telehealth technologies and etiquette to promote quality, safety and efficiency in health care processes, the patient-provider relationship, and population health. Offered every semester. Prerequisite: PNH 630 or permission of instructor (for students with health care related backgrounds).

## **NUR 710 - D.N.P. Clinical Immersion I: Nurse Practitioner (1 credit)**

Provides opportunity for the enactment of the advanced practice role in the implementation of evidence-based strategies in the delivery of health care to the population of interest. Integration of clinical knowledge and skills as the student progresses through the curriculum. Offered spring/summer semester. Prerequisites: NUR 629; NUR 751; NUR 752; NUR 760; NUR 761 or NUR 630; NUR 770; and NUR 771. Corequisites: NUR 763 or NUR 773.

## **NUR 711 - DNP Clinical Immersion II: Nurse Practitioner (2 credits)**

Provides ongoing opportunity for the enactment of the D.N.P. advanced practice role in the implementation of evidence-based strategies in the delivery of health care to the population of interest. Integration of clinical knowledge and skills as the student progresses through the curriculum. Offered fall semester. Prerequisites: NUR 703; NUR 710; NUR 762; and NUR 763 OR NUR 703; NUR 710; NUR 772; and NUR 773. Corequisite: NUR 765 or NUR 775.

## **NUR 712 - DNP Clinical Immersion III: Nurse Practitioner (1 credit)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Provides continued opportunity of the enactment of the advanced practice role in the implementation of evidence-based strategies through delivery of health care to the population of interest. Clinical knowledge and skills are integrated at the proficient level at this point in the curriculum. Offered spring/summer semester. Prerequisites: NUR 711; and both NUR 764 and NUR 765, or both NUR 774 and NUR 775. Corequisites: NUR 767 or NUR 777.

## **NUR 722 - Management of Chronic Conditions: Child/Adolescent (3 credits)**

Expands the theoretical foundations for management of primary health care to include chronic conditions in children, adolescents, and their families across the health care continuum.

## **NUR 723 - Chronic Care Practicum: Child/Adolescent (4 credits)**

Clinical application of knowledge and advanced nursing strategies for management of health care needs of children, adolescents, and their families who have chronic conditions and long-term alterations in functional health patterns. Prerequisite: NUR 722 (may be taken concurrently).

## **NUR 724 - Chronic and Complex Care: Child/Adolescent (3 credits)**

This course provides theoretical foundations for management of chronic and complex health dysfunctions of children and adolescents, and related family needs, across the health care delivery system. Offered spring/summer semester. Prerequisites: NUR 722 and NUR 723.

## **NUR 725 - Chronic and Complex Care Practicum: Child/Adolescent (4 credits)**

This course prepares students to apply knowledge and advanced nursing strategies in the management of chronic and complex health dysfunctions of children/adolescents, and related family needs, across the health care delivery system. Offered spring/summer semester. Prerequisites: NUR 722, NUR 723, and NUR 724 (may be taken concurrently).

## **NUR 726 - Complex Behavioral Problems: Child/Adolescent (3 credits)**

Intensive study of the enactment of advance practice nursing (APN) roles in managing the health care of infants, children, adolescents, and families throughout the health care system. Management of children/families with complex behavioral issues is addressed. The impact of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

health systems, policies, and health innovations in selecting appropriate nursing strategies is emphasized. Prerequisites: NUR 724 and NUR 725.

### **NUR 732 - Management of Chronic Conditions in Adults and Older Adults (3 credits)**

Expands the theoretical foundations for management of primary health care to include chronic conditions in adults/older adults across the health care continuum. Offered winter semester. Prerequisite: NUR 630.

### **NUR 733 - Chronic Care Practicum: Adult/Older Adult (4 credits)**

Clinical application of knowledge and advanced nursing strategies for management of health care needs of adults/older adults with chronic illness and long-term alterations in functional health patterns. Offered winter semester. Prerequisite: NUR 732 (may be taken concurrently).

### **NUR 734 - Transitions and Complex Care of the Adult/Older Adult (3 credits)**

Provides theoretical foundations for management of complex health dysfunctions of adult/older adults and transitions of care within their social context across the care delivery system. Offered spring/summer semester. Prerequisites: NUR 732 and NUR 733.

### **NUR 735 - Transitions and Complex Care Practicum: Adult/Older Adult (4 credits)**

Students apply knowledge and advanced nursing strategies in the management of complex health care needs of adults and older adults, focusing on primary care and transitions of care throughout the care continuum. Offered spring/summer semester. Prerequisites: NUR 732, NUR 733, and NUR 734 (may be taken concurrently).

### **NUR 736 - Complex Behavioral Problems: Adult/Older Adult (3 credits)**

Intensive study of enactment of advance practice nursing (APN) roles in managing the health care of adults/older adults throughout the health care system. The impact of health systems, policies, and health innovations in selecting nursing strategies is emphasized. Addresses management of adults/older adults with complex and behavioral issues. Offered fall semester. Prerequisites: NUR 734 and NUR 735.

## **NUR 740 - Health Systems Leadership: Practicum I (4 credits)**

In this beginning leadership practicum, students apply theories of health systems leadership in an agency setting and analyze the administrative structure within the context of the health care system. An organizational assessment is developed after a theoretically based analysis with recommendations for an advanced health systems leadership intervention. Prerequisites: NUR 646, NUR 702, and NUR 704.

## **NUR 741 - Health Systems Leadership: Practicum II (5 credits)**

A preceptor experience with a health systems nurse leader at a health care organization or system is completed. Students utilize advanced strategies with the guidance of health systems leaders to address organizational priorities and enact selected competencies essential to the practice of health systems leadership. Offered spring/summer semester. Prerequisite: NUR 650 and NUR 740.

## **NUR 742 - Health Systems Leadership: Practicum III (5 credits)**

In this practicum, students enhance their performance of competencies essential to the doctor of nursing practice prepared health systems nurse leader. Prerequisites: NUR 703 and NUR 741.

## **NUR 743 - Health Systems Leadership: Practicum IV (5 credits)**

In this practicum, students enhance their performance of competencies essential to the Doctor of Nursing Practice-prepared health systems nurse leader to the proficient level. Offered winter semester. Prerequisite: NUR 742.

## **NUR 750 - Mental Health for Primary Care Practitioners (3 credits)**

Mental health conditions that are typically identified and often treated in primary care will be explored. Mental health conditions that also require comprehensive primary care management will be examined. Integrated behavioral health and primary care models will be analyzed. Current best practices and evidence-based treatment methods will be investigated. Prerequisites: NUR 620 and NUR 621.

## **NUR 751 - Primary Care Mental Health Practicum: Child/Adolescent (2 credits)**

Application of advanced nursing strategies in managing psychiatric-mental health care for children and adolescents in a primary care or an integrated primary/behavioral health practice, including strategies for providing comprehensive primary care for individuals with chronic mental health conditions and for addressing frequent mental health conditions in primary care practices. Offered winter semester. Prerequisites: NUR 610, NUR 704, and NUR 750. Corequisite: NUR 761.

## **NUR 752 - Primary Care Mental Health Practicum: Adult/Older Adult (2 credits)**

Application of advanced nursing strategies in managing psychiatric-mental health care for adults and older adults in a primary care or an integrated primary/behavioral health practice, including strategies for providing comprehensive primary care for individuals with chronic mental health conditions and for addressing frequent mental health conditions in primary care practices. Offered winter semester. Prerequisites: NUR 610, NUR 704, and NUR 750.

## **NUR 753 - Primary Care for Mental Health Practitioners (4 credits)**

Prevention and treatment of health issues encountered by the psych/mental health nurse practitioner will be discussed and analyzed in the context of the interplay between primary care and mental health settings. Integrated behavioral health and primary care models and best practices from an interdisciplinary perspective will be investigated. Offered winter semester. Prerequisites: NUR 610, NUR 620, NUR 621, and NUR 628.

## **NUR 760 - Health Promotion and Risk Management: Child/Adolescent (2 credits)**

This course provides application of theories, advanced nursing strategies and evidence-based practices in health promotion and management of common health problems in care for infants, children, adolescents and their families. It incorporates principles of epidemiology for the improvement of population health outcomes, and provides foundation for pediatric primary care. Offered winter semester. Prerequisites: NUR 610, NUR 704, and NUR 750. Corequisite: NUR 761.

## **NUR 761 - NP Practicum I: Health Promotion-Risk Management: Child/Adolescent (2 credits)**

Clinical application of theory, knowledge, and evidence-based clinical skills necessary to provide primary health care to infants, children and adolescents through the completion of required clinical hours. This course introduces the Doctor of Nursing Practice (D.N.P.) student to health promotion and risk management in children and adolescents. Offered winter semester. Prerequisites: NUR 610, NUR 704, and NUR 750. Corequisites: NUR 751 and NUR 760.

## **NUR 762 - Common Health Problems: Child/Adolescent (2 credits)**

This course provides theoretical foundations and advanced nursing strategies for management of common health problems of children and adolescents including related family needs across the care delivery system. Offered spring/summer semester. Prerequisites: NUR 629 and NUR 760. Corequisite: NUR 763.

## **NUR 763 - NP Practicum II: Common Health Problems: Child/Adolescent (3 credits)**

Clinical application of theory, knowledge and evidence-based clinical skills necessary to provide primary health care to infants, children and adolescents through the completion of required clinical hours. This course introduces the Doctor of Nursing Practice (D.N.P.) student to common health problems in children and adolescents. Offered spring/summer semester. Prerequisites: NUR 629, NUR 751, NUR 760, and NUR 761. Corequisite: NUR 762.

## **NUR 764 - Complex Health Problems: Child/Adolescent (2 credits)**

This course provides theoretical foundations and advanced nursing strategies for management of complex health problems of infants, children, and adolescents, and related family needs, across the health care delivery system. Offered fall semester. Prerequisites: NUR 703, NUR 762, and NUR 763. Corequisite: NUR 765.

## **NUR 765 - NP Practicum III: Complex Health Problems - Child/Adolescent (3 credits)**

Clinical application of theory, knowledge, and evidence-based clinical skills necessary to provide primary health care to infants, children and adolescents through the completion of required clinical hours. This course introduces the Doctor of Nursing Practice (D.N.P.) student to complex health problems in children and adolescents. Prerequisites: NUR 703, NUR 762, and NUR 763. Corequisite: NUR 764.

## **NUR 766 - Care Transitions/Interprofessional Practice: Child/Adolescent (3 credits)**

Students apply advanced nursing strategies using transitional and interprofessional concepts regarding development of the nurse practitioner role in primary care. This course provides theoretical foundations, evidence-based, and advanced nursing strategies for management of complex problems of infants, children, adolescents, and families, through interdisciplinary care transitions across the care delivery system. Offered winter semester. Prerequisites: NUR 764 and NUR 765. Corequisite: NUR 767.

## **NUR 767 - NP Practicum IV: Care Transitions/Interprofessional Practice: Child/Adolescent (3 credits)**

Clinical application of theory, knowledge, and evidence-based clinical skills necessary to provide primary health care to infants, children and adolescents through the completion of required clinical hours. This course incorporates the Doctor of Nursing Practice (D.N.P.) role across care delivery systems through care transitions and collaborative, interprofessional practice. Offered winter semester. Prerequisites: NUR 764 and NUR 765. Corequisite: NUR 766.

## **NUR 770 - Health Promotion and Risk Management in the Adult and Older Adult (2 credits)**

This course provides application of interdisciplinary theories, advanced nursing strategies and practices in health promotion and risk management for adults/older adults. It will introduce the nurse practitioner role to students while incorporating principles of epidemiology, improvement of population outcomes, and foundations for providing care for this population. Offered winter semester. Prerequisites: NUR 610, NUR 704, and NUR 750. Corequisite: NUR 771.

## **NUR 771 - NP Practicum I: Health Promotion-Risk Management: Adult/Older Adult (2 credits)**

Clinical application of theory, knowledge, and evidence-based skills to provide primary health care to adults/older adults. Introduction to the D.N.P.-prepared nurse practitioner (NP) role in primary care. Focus is on development of the D.N.P.-prepared NP role in health promotion and risk management of selected adult/older adult problems in primary care. Offered winter semester. Prerequisites: NUR 610, NUR 704, and NUR 750. Corequisite: NUR 752.

## **NUR 772 - Common Health Problems in Adults and Older Adults (2 credits)**

This course provides theoretical foundations and advanced nursing strategies for management of common health problems of adults and older adults including related family needs across the health care delivery system. Offered spring/summer semester. Prerequisites: NUR 630 and NUR 770. Corequisite: NUR 773.

### **NUR 773 - NP Practicum II: Common Health Problems: Adult/Older Adult (3 credits)**

Clinical application of theory, knowledge, and evidence-based skills to provide primary health care to adults and older adults. Focus is on continued development of the D.N.P.-prepared nurse practitioner (NP) role in primary care with a focus on managing common health problems of adult/older adults. Offered spring/summer semester. Prerequisites: NUR 630, NUR 752, NUR 770, and NUR 771. Corequisite: NUR 772.

### **NUR 774 - Complex Health Problems in the Adult and Older Adult (2 credits)**

This course provides theoretical foundations and advanced nursing strategies for management of complex health problems of adults and older adults including related family needs across the health care delivery system. Offered fall semester. Prerequisites: NUR 703, NUR 772, and NUR 773. Corequisite: NUR 775.

### **NUR 775 - NP Practicum III: Complex Health Problems: Adult/Older Adult (3 credits)**

Clinical application of theory, knowledge, and evidence-based skills to provide primary health care to adults and older adults. Focus is on continued development of the D.N.P.-prepared nurse practitioner (NP) role in primary care with a focus on managing complex health problems of adult/older adults. Offered fall semester. Prerequisites: NUR 703, NUR 772, and NUR 773. Corequisite: NUR 774.

### **NUR 776 - Care Transitions Interprofessional Practice: AOA (3 credits)**

This course provides theoretical foundations and advanced nursing strategies for management of complex health problems of adult/older adults and including social support needs. Focus is on refinement of the D.N.P. prepared nurse practitioner (NP) role in managing care transitions and interprofessional practice with adults and older adults within primary care. Prerequisites: NUR 774 and NUR 775. Corequisite: NUR 777.

## **NUR 777 - NP Practicum IV: Care Transitions: Adult/Older Adult (3 credits)**

Clinical application of theory, knowledge and evidence-based skills to provide primary health care to adults/older adults. Continuing development in the D.N.P.-prepared nurse practitioner (NP) role in primary care. Focus is on development of the NP skills in managing care transitions and interprofessional practice with adult/older adults in primary care. Offered winter semester. Prerequisites: NUR 774 and NUR 775. Corequisite: NUR 776.

## **NUR 792 - Scholarly Inquiry in Nursing Practice I (1 to 2 credits)**

This course offers a scholarly immersion experience linking practice and scholarship for the D.N.P. student. Identification of a project is required for the translation of evidence into practice. This course is taken for three consecutive semesters and prepares students to complete the scholarly project in NUR 793. Prerequisites: NUR 646, NUR 702, and NUR 704; or NUR 610 and NUR 704; and completion of the Responsible Conduct of Research Training within last three years.

## **NUR 793 - Scholarly Inquiry in Nursing Practice II (2 credits)**

This course offers a culminating project-based immersion experience linking practice and scholarship for the Doctor of Nursing Practice (D.N.P.) student. Implementation and completion of the developed D.N.P. project is required to exemplify proficient application of the D.N.P. essentials. Offered every semester. Prerequisites: NUR 792 and completion of the Responsible Conduct of Research Training within last three years.

## **NUR 796 - Continuation of Doctoral Project or Dissertation Research (1 credit)**

Continuation of work related to the doctoral project or dissertation phase of the graduate student's program. Registration is required after all respective project or dissertation credits are completed and the project or dissertation is not completed. Work will be performed under the supervision of the project advisor or dissertation committee chair. Offered every semester. Prerequisites: Completion of all required project or dissertation credits and completion of the Responsible Conduct of Research Training within last three years.

## **NUR 797 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **OSH 180 - Special Topics in Occupational Safety and Health (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **OSH 300 - Introduction to Occupational Safety and Health (3 credits)**

An overview of safety and health concepts (accidents, legal accountability, hazard recognition/remediation, countermeasures, and risk) as they apply in a variety of occupational settings. (3-0-0)

## **OSH 310 - Hazard Control (3 credits)**

A study of general and mechanical hazards found in the workplace and methods of controlling them to limit employee exposure. (3-0-0) Prerequisite: Admitted to the OSHM major.

## **OSH 316 - Health and Safety Techniques (3 credits)**

Laboratory experience designed to expose students to various monitoring tools used in the development and maintenance of a comprehensive safety program in an occupational setting. (2-0-2). Prerequisite: Admitted to the OSHM major.

## **OSH 326 - Principles of Industrial Hygiene (3 credits)**

A study of industrial hygiene methods, measurement, and equipment. Prerequisites: CHM 230 or CHM 232; and STA 215 or (STA 220 and MTH 201), and admitted to the OSHM major.

## **OSH 330 - Principles of Loss Control (3 credits)**

A study of methods, tools, and techniques used to administer loss control programs in occupational settings. (3-0-0) Prerequisite: Admitted to the OSHM major.

## **OSH 350 - Behavioral Aspects of Safety (3 credits)**

An examination of various pathways in psychology, their impact on the individual, on safety, and the application of basic psychological principles in the safety profession. (3-0-0) Prerequisite: Admitted to the OSHM major.

## **OSH 360 - Motor Fleet Safety (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An analysis of motor fleet safety problems and programs in the United States. The course offers a detailed study of the truck transportation industry, motor carrier responsibilities, federal regulations, and safety supervision programs. Offered winter semester of odd-numbered years. (3-0-0) Prerequisite: Admitted to the OSHM major.

## **OSH 370 - Product Safety and Liability (3 credits)**

An analysis of the product safety and liability issues. Emphasis will be on legal requirements of product safety to include design, warranty, warnings, and labels. Landmark litigation providing the basis for case law will be covered. (3-0-0) Offered fall semester of odd-numbered years. Prerequisite: Admitted to the OSHM major.

## **OSH 380 - Special Topics in Occupational Safety and Health (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **OSH 390 - OSH Internship Preparation (1 credit)**

Introduces potential occupational safety and health internship students to the industrial environment and the basic principles of leadership. Helps students develop a better self-understanding through self-assessment and career development theory and prepares students for the internship interview process as well as the internship experience. Offered fall semester. Prerequisites: OSH 300 and admitted to the OSHM major.

## **OSH 400 - Critical Incident Analysis (3 credits)**

An examination of fundamental techniques for conducting a critical incident analysis. Special attention will be given to the concept of accident investigation in occupational settings. (3-0-0) Prerequisite: Admitted to the OSHM major.

## **OSH 410 - Ergonomic Safety Engineering (3 credits)**

An examination of various ergonomic engineering and human factors engineering methods used by safety specialists to reduce injury producing work conditions. Topics covered include systems safety analysis, fault tree analysis, MORT, as these tools relate to an effective ergonomic program. (3-0-0) Prerequisite: Admitted to the OSHM major.

## **OSH 414 - Environmental Safety and Health Regulations (3 credits)**

A study of laws addressing environmental pollution and hazardous waste management. (3-0-0)

### **OSH 416 - Advanced Industrial Hygiene (3 credits)**

A study of chemical hazards found in the workplace, their toxicological influence, and methods of controlling them to limit employee exposure. Offered winter semester. Prerequisites: OSH 326 and admitted to the OSHM major.

### **OSH 420 - Health Care Facility Safety (3 credits)**

An examination of the critical aspects of protecting the employees, patients, and assets in health care settings. Topics include JCAHO, OSHA, EPA and state health care facility regulations, environment of care, emergency and contingency planning, and policy and procedures development. (3-0-0) Offered winter semester of even-numbered years. Prerequisite: Admitted to the OSHM major.

### **OSH 424 - Fire Science (3 credits)**

An examination into key fire science principles and issues in the work environment. Course will examine topics that include fundamental of building design, life safety codes, human behavior and fire, and characteristics and behavior of fire. (3-0-0) Prerequisite: Admitted to the OSHM major.

### **OSH 430 - Construction Safety (3 credits)**

An examination of the practices of managing occupational safety and health programs in the construction industry. The course provides an understanding of how the regulatory and financial responsibilities of accident prevention, health preservation, and loss reduction in the construction industry are met. (3-0-0) Offered fall semester of even-numbered years. Prerequisite: Admitted to the OSHM major.

### **OSH 440 - Safety and Health Program Development (3 credits)**

An examination of the concepts and tools used in safety program development and implementation for a variety of work settings (3-0-0) Prerequisite: Admitted to the OSHM major.

### **OSH 460 - Environmental Compliance Applications (3 credits)**

Instruction in the professional management of environmental regulations, utilizing classroom and practical applications. Offered winter semester. Prerequisite: OSH 414 or permission of instructor.

## **OSH 480 - Special Topics in Occupational Safety and Health (1 to 9 credits)**

A field study conducted in a selected industry. The student will be expected to identify a cooperating company and conduct an investigation addressing a safety problem, including development of appropriate countermeasures. The study will produce a paper following a modified research format. Prerequisite: Permission of OSHM advisor.

## **OSH 485 - Field Case Study (1 to 3 credits)**

A field study conducted in a selected industry. The student will be expected to identify a cooperating company and conduct an investigation addressing a safety or health problem, including development of appropriate countermeasures. The study will produce a paper following a modified research format. Credits repeatable to a maximum of three credits. Prerequisite: Permission of OSHM advisor.

## **OSH 490 - Internship in Occupational Safety and Health Management (3 to 6 credits)**

A structured opportunity for students to make practical application of classroom theory to an actual work situation. Prerequisites: Permission of intern advisor and admitted to the OSHM major.

## **OSH 495 - Safety and Health Administration (3 credits)**

An integrative exploration of the administrative function of a comprehensive safety program with emphasis on operations analysis, design, implementation, and evaluation. (3-0-0)  
Prerequisites: OSH 490 (may be taken concurrently), senior standing, and admitted to the OSHM major.

## **OSH 499 - Independent Study in Occupational Safety and Health (1 to 3 credits)**

An individually designed learning project in the field of occupational safety and health. Prerequisite: Permission of instructor.

## **OST 502 - Theoretical Foundations in Occupational Therapy (3 credits)**

Introduces the conceptual and scientific theories that underlie occupational therapy interventions. These include theories related to occupational science, as well as those related to the therapeutic use of occupation. Incorporates an introduction to theory analysis, along with concepts of application and evaluation. Offered fall semester. Prerequisite: Admission to the occupational therapy program.

## **OST 503 - Group Occupations in Practice (3 credits)**

Provides basic information about the use of groups in occupational therapy. Two different approaches to group work will be studied. Students will have an opportunity to develop and facilitate a group intervention, selecting an approach, justifying that choice, and describing the value of the group to participating clients. Offered fall and spring/summer semesters.

## **OST 505 - Limitations on Occupation (3 credits)**

This course will examine the impact of inherent and acquired conditions and medical problems on occupational performance components. The course will analyze how the completion of occupational performance areas may be affected as etiology and symptoms are considered. Course will include potential intervention strategies for covered conditions. Offered fall semester. Prerequisite: Admission to occupational therapy program.

## **OST 551 - Conceptual Foundations of Occupational Therapy (3 credits)**

Conceptual foundations for understanding the scope of occupational therapy practice. Reviews common health care concepts as well as foundational patient assessments. Examines health care knowledge in relation to daily activities and performance contexts, through the perspective of individuals, groups/families, and communities/populations. (0-3-0) Offered fall semester. Corequisite: OST 552.

## **OST 552 - Practical Foundations of Occupational Therapy (3 credits)**

Practical foundations for understanding the scope of occupational therapy practice. Reviews common occupational therapy assessments as well as foundational patient intervention strategies. Serves as an introduction to occupational therapy constructs that are woven throughout the remainder of the M.S. in occupational therapy curriculum. Offered fall and winter semesters. Corequisite: OST 551.

## **OST 553 - Level I Fieldwork (Part 1) (2 credits)**

This experience is designed to provide students familiarity with a variety of clients, diagnoses, age ranges, and contexts and to see the roles or potential roles of occupational therapy. It provides the opportunity to observe the occupational therapy process and interact with clients, which complements the didactic experience. (0-2-8) Offered fall semester.

## **OST 555 - Professional Socialization in Occupational Therapy (3 credits)**

Addresses the theories and issues of professional socialization, the process of taking on the identity of an occupational therapist, and internalizing professional norms. Content will include the role of the professional association; personal responsibility to the profession in the forms of advocacy, education, leadership, and research; and responsibility to society. Offered fall semester. Prerequisite: Admission to the OT program.

## **OST 557 - Research Design in Occupational Therapy (2 credits)**

Course will focus on several qualitative and quantitative research designs used in studies in the field of occupational therapy. The most common designs will be selected with intent to focus on most appropriate designs using mixed qualitative and quantitative methods together in a single research study. Offered fall and spring/summer semesters.

## **OST 558 - Mental Health Services in Occupational Therapy (3 credits)**

This course will address the nature of occupational therapy intervention with clients having mental health diagnoses. The content will include approaches to use with different diagnoses, client and therapist safety, ethics related to mental health treatment, settings for mental health treatment, referrals, and documentation. Offered fall and spring/summer semesters.

## **OST 559 - Mental Health Laboratory (2 credits)**

This is the coordinating laboratory course for OST 558 - Mental Health Services in Occupational Therapy. In this course, students will practice activities and interventions that are used with clients having mental health diagnoses. Activities will include ADLs, small and moderate sized crafts, prevocational activities, and appropriate play/leisure occupations. Offered spring/summer and winter semesters.

## **OST 561 - Child and Adolescent Practice (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Theoretical and practice concepts, assessment and intervention methods are developed for OT services at individual, group, and population levels for children and adolescents. Students learn to identify barriers to occupational performance at all levels and address barriers through selecting and conducting assessments, designing interventions, conducting advocacy, research, education, and documentation. (0-3-0) Offered winter semester. Prerequisite: OST 560. Corequisites: OST 562 and OST 563.

## **OST 562 - Child and Adolescent Laboratory (2 credits)**

Laboratory sessions to experience and practice occupational therapy assessments and interventions learned in concurrent occupational opportunities course. (0-0-4) Offered winter semester. Prerequisite: OST 560. Corequisites: OST 561 and OST 563.

## **OST 563 - Level I Fieldwork (Part 2) (1 credit)**

This experience is designed to provide students familiarity with the child and adolescent population and the associated diagnoses and contexts. It provides the opportunity to observe the occupational therapy (OT) process, interact with clients, and to see the role of an OT in a specific setting, which complements the didactic experience. Offered winter semester. Prerequisite: OST 553. Corequisites: OST 561 and OST 562.

## **OST 564 - Occupational Therapy Research Proposal (2 credits)**

This course will focus on development of a research proposal including three chapters, an introduction, a focused literature review, and methodology. Students will review successful proposals and have an opportunity to submit drafts before final proposal is due. Successful proposal defense and HRRC approval required to complete course. Offered winter semester. Prerequisites: Admission to the occupational therapy program and STA 610.

## **OST 565 - Occupational Therapy Services Administration (3 credits)**

This course stresses understanding and applying concepts of evidence-based practice to management and leadership in occupational therapy. Includes study of organizational behaviors, structures, systems, leadership theories, ethics, evaluation, and quality assurance. Focuses on competencies needed for administrative roles and responsibilities. Prerequisites: OST 551, OST 552, and OST 553.

## **OST 571 - Adult Practice (3 credits)**

Theoretical and practice concepts, assessment and intervention methods are developed for OT services at individual, group and population levels for adults. Students learn to identify barriers

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

to occupational performance at all levels and address barriers through selecting and conducting assessments, designing interventions, conducting advocacy, research, education, and documentation. (0-3-0) Offered spring/summer semester. Prerequisite: OST 563. Corequisites: OST 572 and OST 573.

### **OST 572 - Adult Laboratory (3 credits)**

Laboratory sessions to experience and practice occupational therapy assessments and interventions learned in the concurrent Adult Practice course. Offered spring/summer semester. Prerequisite: OST 563. Corequisites: OST 571 and OST 573.

### **OST 573 - Level I Fieldwork (Part 3) (1 credit)**

This is the third of four Level I Fieldwork experiences in the curriculum. It is designed to provide students familiarity with the adult population and the associated diagnoses and contexts which complements the didactic experience. Offered spring/summer semester. Prerequisite: OST 563.

### **OST 599 - Independent Study in Occupational Therapy (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

### **OST 600 - Occupational Science for Therapy (2 credits)**

Introduces the science of occupation. Discusses the scope, practice, language, culture, and inquiry process for the study of occupation. Includes the relationship of occupation to health and wellness, domestic and global occupation inequities, how occupations are shaped by social and political processes, and ways in which people engage in occupation. Offered fall semester. Prerequisite: Students must be admitted to the occupational therapy program.

### **OST 651 - Older Adult Practice (3 credits)**

Theoretical and practice concepts, assessment and intervention methods are developed for occupational therapy services at individual, group, and populations levels for older adults. Students learn to identify barriers to occupational performance at all levels and address barriers through selecting and conducting assessments, designing interventions, conducting advocacy, research, education, and documentation. (0-3-0) Offered fall semester. Prerequisite: OST 573. Corequisites: OST 652 and OST 653.

### **OST 652 - Older Adult Laboratory (3 credits)**

Laboratory sessions to experience and practice occupational therapy assessments and interventions learned in the concurrent Older Adult Practice course. Offered fall semester. Prerequisites: OST 571, OST 572, and OST 573.

### **OST 653 - Level I Fieldwork (Part 4) (1 credit)**

This course is designed to provide students familiarity with the older adult population and the associated diagnoses and contexts. Opportunities are provided to observe and participate in the occupational therapy (OT) process, interact with clients, and see the role of an OT in various settings, which complements the didactic experience. Offered fall semester. Prerequisite: OST 573.

### **OST 660 - Level II Fieldwork (Part 1) (9 credits)**

The first half of the final practice experience in the curriculum. Designed to assist students in making the student/therapist transition, it is completed in a practice setting supervised by an experienced occupational therapist. Experience includes a variety of diagnoses and age ranges to complement the didactic experience. (0-0-40) Offered winter semester.

### **OST 661 - Level II Fieldwork (Part 2) (9 credits)**

The second full-time practice experience in the curriculum is designed to assist students making the student/therapist transition. Each student will be supervised by a qualified occupational therapist. This experience includes exposure to a variety of diagnoses and age ranges, allowing students to apply content from the didactic experience. (0-0-4) Offered spring/summer semester. Prerequisite: OST 660.

### **OST 680 - Special Topics in Occupational Therapy (1 to 6 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics. Prerequisite: Admitted to occupational therapy program.

### **OST 693 - Occupational Therapy Research Project (1 to 3 credits)**

The final course of the four-course research sequence, this course focuses on the organization and synthesis of the results of the research project. Following analysis of results, students report these and then discuss findings as related to occupational therapy theory, practice, and education in a document suitable for publication. Offered spring/summer semester. Prerequisites: STA 610 and OST 564.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **OST 695 - Occupational Therapy Master's Thesis (2 to 4 credits)**

This course focuses on the execution of an approved research topic as an independent master's thesis. Following data collection and analysis, the student will report and defend results and conclusions, then discuss findings as related to occupational therapy theory, practice, and education in a five chapter format. Offered spring/summer semester. Prerequisites: STA 610 and OST 564.

## **OST 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within the last three years.

## **OST 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **OST 699 - Independent Study in Occupational Therapy (1 to 3 credits)**

Students will complete a reading project or other approved activity building upon identified student interest that is approved by the department chair. Tangible final product must be completed according to a written agreement developed by the student and the instructor, and signed by both individuals. Offered every semester. Prerequisite: Good standing in the occupational therapy program.

## **OST 710 - Health Disparities and Social Determinants of Health (3 credits)**

Course introduces the concept of social determinants of health, specifically social inequalities and patterns of inequity in health status and care as related to occupational therapy. Theory and practice approaches to participatory justice will be studied. Topics include race, class, education, family, neighborhood, media influence, gender, and global concerns. Offered winter semester. Prerequisite: Admission to the Dr.O.T. program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **OST 715 - Critical Analysis of Occupational Science (3 credits)**

Course will focus on principles and tenets of occupational science as related to occupational therapy and global occupational justice. Will include a history of occupational science, concepts and research that support occupational therapy practice, with application and reflection on one's own practice from an occupational science perspective. Offered fall semester. Prerequisite: Admission to the Dr.O.T. program.

## **OST 720 - Cultural and Contextual Influences on Occupational Performance (3 credits)**

Course will further student understanding and application of various influences on the profession of occupational therapy from macro, meso, and micro perspectives. These new perspectives will be used to address the influence these factors have on therapy outcomes within practice settings and occupational performance for clients. Offered winter semester. Prerequisite: Admission to the Dr.O.T. program.

## **OST 725 - Leadership for Occupational Therapy (3 credits)**

Considers leadership practices that transcend professional boundaries as applied to the disability community and emphasizes relationships with other professionals, governing boards, regulatory bodies, and key stakeholders. Concepts of change in organizational, community, political, and social action/social movement contexts will be included, along with exploration of personal styles of leadership. Offered spring/summer semester. Prerequisite: Admission to the Dr.O.T. program.

## **OST 730 - Applied Research Strategies for Practice (3 credits)**

Course is designed to enhance current practice through the application of evidence-based interventions. Includes development of line of inquiry, based on clinical scenarios, with intent to demonstrate population-specific outcomes, validity of intervention, and cost effectiveness of service delivery. Offered fall and winter semesters. Prerequisite: Admission to the Dr.O.T. program or consent of instructor.

## **OST 735 - Public Policy and Advocacy (3 credits)**

Reviews the historical impact of major legislation on occupational therapy practice, the ramifications of political decisions on health care delivery, and the importance of professional advocacy. U.S. political process and roles of stakeholders in health care policy development are

analyzed, including lobbyists, professional associations, and individual members of the profession. Offered winter semester. Prerequisite: Admission to the Dr.O.T. program.

## **OST 738 - Outcome Measures for Occupational Performance (3 credits)**

Course will further student understanding and ability to select relevant assessment tools and outcome measures for clinical practice. Content covers development of these tools and the evaluation of their psychometric properties. Students will be able to apply materials to daily clinical practice for clinical and research applications. Offered winter and spring/summer semesters. Prerequisite: Admission to the Dr.O.T. program.

## **OST 740 - Best Practice in School-Based Occupational Therapy (3 credits)**

Course covers current education initiatives and laws related to occupational therapy services provided to general and special education students, best practices applying the occupational therapy practice framework in schools, and advanced topics including system-level issues, population-based planning, performance-based considerations, and activity-based considerations for enhancing and increasing student participation. Offered fall and winter semesters. Prerequisite: Admission to the Dr.O.T. program.

## **OST 744 - Advanced Occupational Therapy Practice: Birth to 3 years (3 credits)**

This course will explore advanced topics related to birth to three: development, occupational engagement, limitations, family-centered implications, and quality of life, community-based programs, assistive technologies, impact of federal legislation, and ways to articulate and demonstrate our expertise in transitioning birth to three development into occupational engagement in natural contexts. Offered fall and spring/summer semesters. Prerequisite: Admission to the Dr.O.T. program or consent of instructor.

## **OST 750 - Critical Thinking and Transformative Learning (3 credits)**

Course is designed to enhance current practice through the application of evidence-based interventions. Includes development of line of inquiry, based on clinical scenarios, with intent to demonstrate population-specific outcomes, validity of intervention, and cost effectiveness of service delivery. Offered fall and winter semesters. Prerequisite: Admission to the Dr.O.T. program or consent of instructor.

## **OST 754 - Curriculum Design in Occupational Therapy (3 credits)**

This course will address the process of curriculum design that is progressive and includes the challenge of engaging students in critical thinking to develop reasoned judgment. Focuses on the philosophical roots of curriculum design, purpose of program, selection of educational experiences, organization and sequencing of content, and program assessment. Offered fall semester. Prerequisite: Admission to the Dr.O.T. program or consent of the instructor.

## **OST 758 - Evaluation in Occupational Therapy Education (3 credits)**

This course is focused on evaluation processes used in occupational therapy education. Expectations from the Accreditation Council for Occupational Therapy Education (ACOTE) for content, appropriate philosophical underpinnings, rigor, and organization, will be included. The course will stress current trends and practical application of research techniques and skills in program evaluation. Offered winter and spring/summer semesters. Prerequisite: Admission to the Dr.O.T. program or consent of instructor.

## **OST 760 - Introduction to Hand Rehabilitation (3 credits)**

This course will include an introduction to the science of examination, evaluation, and clinical intervention of specific hand conditions. Some of these conditions will include nerve injuries, tendon injuries, hand stiffness, arthritis, and bone injuries. Offered winter and spring/summer semesters. Prerequisite: Admission to the Dr.O.T. program or consent of instructor.

## **OST 780 - Special Topics in Occupational Therapy (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **OST 790 - Doctoral Project Preparation (3 credits)**

First course in the Dr.O.T. doctoral sequence, this course will focus on topic development, nature and scope of project, and identification of community partners as needed. Students who are selecting a research-oriented project will also be expected to complete an IRB proposal and gain approval before implementation. Offered spring/summer semester. Prerequisite: Admission to the Dr.O.T. program.

## **OST 793 - Doctoral Project Defense (1 to 6 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The final course in the Dr.O.T. project sequence, students will complete implementation of project, and publicly defend the results and assessment of the project. Students will also display their project results in a poster format, which will be on exhibit at the time of the defense. Offered every semester. Prerequisite: Admission to the Dr.O.T. program.

## **OST 797 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **OST 799 - Independent Study in Occupational Therapy (1 to 3 credits)**

Hours, credits, topics, and time to be arranged with individual faculty members with approval of the department.

## **PAS 501 - Clinical Applications I (2 credits)**

This is the first of four sequential courses designed to facilitate the development of medical history taking, physical examination skills, patient communication, clinical problem solving, clinical procedures, and ethical/legal considerations for the physician assistant. This first course focuses on history taking and physical examination in the healthy adult. Offered fall semester and other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program. Corequisite: PAS 561.

## **PAS 502 - Clinical Applications II (1 credit)**

This is the second of four sequential courses designed to facilitate the development of medical history taking, physical examination skills, patient communication, clinical problem solving, clinical procedures, and ethical/legal considerations for the physician assistant. Focus is on physical examination skills and procedures that coincide with topics in Clinical Medicine I. Offered winter semester and other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program. Corequisite: PAS 562.

## **PAS 503 - Clinical Applications III (1 credit)**

This is the third of four sequential courses designed to facilitate the development of medical history taking, physical examination skills, patient communication, clinical problem solving, clinical procedures, and ethical/legal considerations for the physician assistant. Focus is on physical examination skills and procedures that coincide with topics in Clinical Medicine II. Offered spring/summer and other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program. Corequisite: PAS 563.

## **PAS 504 - Clinical Applications IV (1 credit)**

This is the fourth of four sequential courses designed to facilitate the development of medical history taking, physical examination skills, patient communication, clinical problem solving, clinical procedures, and ethical/legal considerations for the physician assistant. Focus is on physical examination skills and procedures that coincide with topics in Clinical Medicine III. Offered fall semester. Prerequisite: Admission to the physician assistant studies program. Corequisite: PAS 564.

## **PAS 511 - Foundations of Clinical Medicine (4 credits)**

Designed as an introduction to clinical medicine topics, this course will lay the foundation for future clinical medicine courses by helping the student understand and apply fundamental concepts to patient care. Topics presented include historical medicine, epidemiology, oncology, infectious disease, laboratory studies, imaging, and preventative and genetic principles. Offered fall or other semesters as approved by the director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 512 - Clinical Medicine I (6 credits)**

This course is the first of a three-course sequence that provides students with a systematic approach to the etiology, epidemiology, manifestations, laboratory and diagnostic studies, and prognosis and treatment of disease. This course will focus on but is not limited to the hematological, cardiovascular, pulmonary, gastrointestinal, and renal systems. Offered winter semester and other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 513 - Clinical Medicine II (6 credits)**

This course is the second of a three-course sequence that provides students with a systematic approach to the etiology, epidemiology, manifestations, laboratory and diagnostic studies, and prognosis and treatment of specific diseases. This course will focus on but is not limited to the dermatologic, endocrine, neurologic, psychiatric, musculoskeletal, and rheumatologic systems. Offered spring/summer and other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 514 - Clinical Medicine III (6 credits)**

This course is the third of a three-course sequence that provides students with a systematic approach to the etiology, epidemiology, manifestations, laboratory and diagnostic studies, prognosis and treatment of specific diseases. This course will focus on but is not limited to women's health, pediatrics, ENT/ophthalmology/allergy, surgery, and emergency medicine. Offered fall or other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PAS 521 - Medical Physiology (3 credits)**

This course is designed for graduate students to learn and gain knowledge in the physiological principles. These concepts are essential for further progress in understanding mechanisms of disease and body systems. This understanding is essential for clinical medicine. Weekly problem-solving discussions will emphasize clinical application of physiologic concepts. Offered fall and other semesters as determined by the program director. Prerequisite: Admission into the physician assistant studies program or permission of instructor.

## **PAS 522 - Clinical Pathophysiology I (1 credit)**

This is the first of three pathophysiology courses offered concurrently with the clinical medicine series. Pathophysiology at the molecular, cellular, organ, and total body levels will be applied in each organ system. Systems covered include, but are not limited to, hematologic, cardiovascular, pulmonary, gastrointestinal, and renal. Offered winter or other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 523 - Clinical Pathophysiology II (1 credit)**

This is the second of three pathophysiology courses offered concurrently with the clinical medicine series. Pathophysiology at the molecular, cellular, organ, and total body levels will be discussed in each body system. Systems covered include, but are not limited to, dermatologic, endocrine, neurologic, psychiatric, and musculoskeletal/rheumatologic. Offered spring/summer or other semesters as determined by the program director. Prerequisite: Admission to the PAS program.

## **PAS 524 - Clinical Pathophysiology III (3 credits)**

This is the third of three pathophysiology courses offered concurrently with the clinical medicine series. Pathophysiology at the molecular, cellular, organ, and total body levels will be discussed in each body system. Systems covered include, but are not limited to, women's health, pediatrics, ENT/ophthalmology/allergy, and multisystem disorders. Offered fall or other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 532 - Practical Therapeutics I (2 credits)**

This is the first course in a series of three clinical pharmacology courses taught in a systems-based approach with the clinical medicine series. The course explores clinical implications of pharmacology for these topics (but is not limited to) hematologic, cardiovascular, pulmonary, gastrointestinal, and renal. Offered winter or other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 533 - Practical Therapeutics II (2 credits)**

This is the second course in a series of three clinical pharmacology courses taught in a systems-based approach with the clinical medicine series. The course explores clinical implications of pharmacology for these topics (but not limited to) dermatologic, endocrine, neurologic, psychiatric, and musculoskeletal/rheumatologic. Offered spring/summer or other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 534 - Practical Therapeutics III (2 credits)**

This is the third course in a series of three clinical pharmacology courses taught in a systems-based approach with the clinical medicine series. The course explores clinical implications of pharmacology focusing on but not limited to women's health, pediatrics, surgery, ENT/ophthalmology/allergy, and emergency medicine. Offered fall or other semesters as determined by the program director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 542 - Clinical Problem Solving Sessions I (1 credit)**

Designed for first-year physician assistant studies (PAS) students, this laboratory course is the first of three labs for development of PAS students' clinical problem-solving and decision-making skills. Using problem-based learning methods, this course corresponds with modules of PAS clinical medicine and exposes students to an array of clinical health care issues. Offered winter semester, or as approved by the program director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 543 - Clinical Problem Solving Sessions II (1 credit)**

Developed for first-year physician assistant studies (PAS) students, this laboratory course is the second of three courses for development of PAS students' clinical problem-solving and decision-making skills. Using problem-based learning methods, this course supplements the modules of PAS clinical medicine and exposes students to an array of clinical health care issues. Offered spring/summer or as approved by the program director. Prerequisite: Admission to the physician assistant studies program.

## **PAS 544 - Clinical Problem Solving Sessions III (1 credit)**

Specifically for physician assistant studies (PAS) students, this laboratory course will facilitate the development of PAS students' clinical problem-solving and decision-making skills. Utilizing problem-based learning methods, this course encompasses all of the modules of the PAS clinical medicine series through active learning for an array of clinical health care issues. Offered fall semester or as approved by the program director. Prerequisite: Admission to the PAS program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PAS 551 - Physician Assistant Profession Issues I (1 credit)**

Designed for first-year graduate physician assistant studies (PAS) students, this introductory course is the first of two professional issues courses to develop PAS students' awareness and professional attributes. Professional history, certification, physician assistant (PA) professional organizations, and other health delivery topics will be discussed. Offered fall semester or as approved by the program director. Prerequisite: Admission to the PAS program.

## **PAS 554 - Physician Assistant Profession Issues II (1 credit)**

Designed for second-year physician assistant studies (PAS) students, this course is the second of two professional issues courses to develop PAS students' skills in office and professional procedures prior to clerkships. Socioeconomic issues, billing and coding, risk management, and other legal issues in the PA profession will be explored. Offered fall semester, or as approved by the program director. Prerequisite: Admission to the PAS program.

## **PAS 561 - Clinical Applications Lab I (1 credit)**

The first in a four-part lab series focused on the development of history and physical examination skills. The lab will focus on well patients and occasionally special patient populations (pregnant female, pediatric, and the geriatric population). The topics will correspond with PAS 501 lecture material. Offered fall semester. Prerequisite: Admission to the physician assistant studies program. Corequisite: PAS 501.

## **PAS 562 - Clinical Applications Lab II (1 credit)**

The second in a four-part lab series on history, physical examination, and procedures. This lab will focus on advanced history and physical examination techniques in the ill population. The topics will correspond with PAS 502 lecture material. Clinical problem solving will be utilized. Offered winter semester. Prerequisite: Admission to the physician assistant studies program. Corequisite: PAS 502.

## **PAS 563 - Clinical Applications Lab III (1 credit)**

The third in a four-part lab series on history, physical examination, and procedures. The focus of this course will be on advanced history taking and physical examination techniques in the ill population. The topics will correspond with PAS 503 lecture material. Offered spring/summer semester. Prerequisite: Admission to the physician assistant studies program. Corequisite: PAS 503.

## **PAS 564 - Clinical Applications Lab IV (1 credit)**

Final in a four-part lab series on history, physical examination, and procedures. The focus of this lab will be advanced history taking and physical examination techniques in the ill, pediatric, female, and surgical patients. Some review, also learning new advanced physical exam tests in correspondence with PAS 504 lecture material. Offered fall semester. Prerequisite: Admission to the physician assistant studies program. Corequisite: PAS 504

### **PAS 572 - Hospital Community Experience I (1 credit)**

The first course in a three-part series. This course is designed to expose students to a variety of health care related hospital and community experiences. Learning opportunities may include, but are not limited to, long-term care, clinical job shadowing, public health, research, and virtual and simulated patient experiences. Offered winter semester. Prerequisite: Admission to the physician assistant studies program.

### **PAS 573 - Hospital Community Experience II (1 credit)**

The second in a three-part series. Designed to provide students with continued exposure to a variety of health care related hospital and community experiences. Learning opportunities may include, but are not limited to, long-term care, clinical job shadowing, public health, research, and virtual and simulated patient experiences. Offered spring/summer semester. Prerequisite: Admission to the physician assistant studies program.

### **PAS 574 - Hospital Community Experience III (1 credit)**

The third in a three-part series. Designed to provide students with continued exposure to a variety of health care related hospital and community experiences. Learning opportunities may include, but are not limited to, long-term care, clinical job shadowing, public health, research, and virtual and simulated patient experiences. Offered fall semester. Prerequisite: Admission to the physician assistant studies program.

### **PAS 580 - Special Topics in Physician Assistant Studies (1 to 3 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 500-level courses. May be repeated for credit when the content varies. Prerequisites: Variable depending upon the semester in which the special topics course is utilized; admission to the physician assistant studies program.

### **PAS 582 - Evidence-based Medicine I (3 credits)**

This course introduces students to evidence-based medicine and research design concepts, while emphasizing the examination of the best available evidence as a basis for clinical decision-making. Students will develop the skills to perform medical literature searches yielding

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

evidence-based results. Methods for appraising the medical literature will be emphasized. Offered winter semester. Prerequisite: Admission to the physician assistant studies program.

## **PAS 583 - Evidence-based Medicine II (2 credits)**

This course builds upon the prerequisite evidence-based medicine (EBM) course (PAS 582) through continued implementation of the EBM strategies introduced in PAS 582. Students will use concepts introduced in PAS 582 and apply them to help solve clinical problems. Methods for appraising the medical literature will be emphasized. Offered spring/summer semester. Prerequisite: PAS 582.

## **PAS 584 - Evidence-Based Medicine III (2 credits)**

This course builds upon the prerequisite evidence-based medicine (EBM) courses (PAS 582 and PAS 583) through continued implementation of the EBM strategies introduced. Students will use concepts introduced in PAS 582/PAS 583 and apply them to help solve clinical problems. Methods for appraising the medical literature will be emphasized. Offered fall semester. Prerequisites: PAS 582 and PAS 583.

## **PAS 610 - Clinical Rotations I (12 credits)**

First course to transition students from didactic to clinical training. Students will be assigned to a combination of clinical rotations selected from: family practice, internal medicine, OB/GYN, geriatric medicine, pediatrics, psychiatric medicine, emergency medicine, surgery, rural medicine, underserved medicine, and clinical electives. (4-3-45) Offered winter semester, other semesters with director approval. Prerequisite: Successful completion of all professional didactic coursework.

## **PAS 620 - Clinical Rotations II (12 credits)**

Second course to transition students from didactic to clinical training. Students will be assigned to a combination of clinical rotations selected from family practice, internal medicine, OB/GYN, geriatric medicine, pediatrics, psychiatric medicine, emergency medicine, surgery, rural medicine, underserved medicine, and clinical electives. (4-3-45) Offered spring/summer semester, other semesters with director approval. Prerequisite: Successful completion of all professional didactic coursework.

## **PAS 630 - Clinical Rotations III (12 credits)**

Third course to transition students from didactic to clinical training. Students will be assigned to a combination of clinical rotations selected from family practice, internal medicine, OB/GYN, geriatric medicine, pediatrics, psychiatric medicine, emergency medicine, surgery, rural medicine, underserved medicine, and clinical electives. (4-3-45) Offered fall semester, other

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

semesters with director approval. Prerequisite: Successful completion of all professional didactic coursework.

## **PAS 680 - Special Topics in Physician Assistant Studies (1 to 3 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 600-level courses. May be repeated for credit when the content varies. Prerequisites: Variable depending upon the semester in which the special topics course is utilized; admission to the physician assistant studies program.

## **PAS 690 - Master's Thesis Proposal (1 credit)**

The individual student will select a significant and original research question pertinent to the physician assistant profession. Coursework involves literature review, research design, and submission of a research proposal with the guidance of a faculty committee. Prerequisites: PAS 610 and good standing in the physician assistant studies professional program.

## **PAS 693 - Physician Assistant Research II (3 credits)**

Second of two courses in which a group of students defines a problem within physician assistant studies. Coursework involves data collections, analysis, and interpretation. Students will present written and oral reports discussing pertinent findings. Research studies will be guided by appropriate faculty. Prerequisites: Good standing in one of the PAS professional programs and completion of the Responsible Conduct of Research Training within the last three years.

## **PAS 695 - Master's Thesis (3 credits)**

Continuation of research activity developed in PAS 690. The individual student will conduct a significant and original proposed study. Coursework involves data collection, analysis and interpretation. The student will present written and oral reports discussing pertinent findings. Research will be guided by a faculty committee. Prerequisites: PAS 690, good standing in the physician assistant studies program, and completion of the Responsible Conduct of Research Training within the last three years.

## **PAS 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of

all required project or thesis credits and completion of the Responsible Conduct of Research Training within the last three years.

### **PAS 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **PAS 699 - Independent Study - Physician Assistant Studies (1 to 3 credits)**

Students will complete a reading project or other approved activity building upon identified student interest that is approved by the department chair. Tangible final product must be completed according to a written agreement developed by the student and the instructor and signed by both individuals. Prerequisite: Good standing in the physician assistant studies professional program.

### **PCK 495 - Integrated Discipline-Based Research in the PK-6 Classrooms (Capstone) (3 credits)**

This course will address problems of practice in the disciplinary and interdisciplinary content of elementary education. Students will reflect on their program experience, address issues in pedagogical content knowledge for teaching, and create a thesis paper and presentation. Content will come from the language arts, mathematics, science, and social studies. Offered fall and winter semesters. Prerequisites: Pedagogical content knowledge for elementary teaching major and junior standing.

### **PED 180 - Special Topics in Physical Education (1 to 3 credits)**

Lecture, discussion, laboratory, or field study on a topic related to physical education. Offered on demand.

### **PED 207 - Personal Health and Wellness (3 credits)**

Provides students with the knowledge, skills, and ability to assess personal health status and reduce risk behaviors. Social and behavioral models facilitating physical activity, health, and wellness are explored. Students will analyze physical, social, emotional, spiritual, intellectual, and environmental wellness. Fulfills Foundations - Social and Behavioral Sciences.

### **PED 218 - Officiating Seasonal Sports (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Theory, skills, and practice of officiating seasonal sports: fall-football, basketball, volleyball; winter-wrestling, baseball, and softball. A study of rules and procedures used in sports officiating as prescribed by the Michigan High School Athletic Association. (1-1-0)

## **PED 265 - Teaching Health in Elementary Schools (2 credits)**

This course provides the knowledge and skills necessary for teaching health education content in elementary schools. Particular attention is given to curriculum sequence, resource materials, and learning activities. The course is required of all elementary education students. Offered every semester.

## **PED 266 - Move-Dance-Learn! PE and Dance for Elementary Education (2 credits)**

Provides knowledge and skills for elementary classroom teachers to utilize best practices in physical education and dance to enhance their teaching. Focuses on developmentally appropriate elementary physical education and dance content and instruction, curriculum resources, classroom management, and cross-curricular integration. Required of all elementary education students. Offered every semester.

## **PED 280 - Special Topics in Physical Education (1 to 3 credits)**

Lecture, discussion, laboratory, or field study on a topic related to physical education.

## **PED 345 - Disability, Sport and Physical Activity (3 credits)**

This course is designed to explore the issues related to persons with disabilities and their participation in physical activity. Topics will include risks and benefits of physical activity, legal issues related to participation, the historical context of disability sport, inclusion versus segregation, and opportunities for activity across the lifespan. This course will require students to synthesize and apply content information. Students will work independently and in groups to better understand how individuals with disabilities participate in sport and physical activity. Part of the Identity Issue. Offered fall semester. Prerequisite: Junior standing.

## **PED 380 - Special Topics in Physical Education (1 to 3 credits)**

Study of special problems in physical education upon consultation with advisor and approval of department chair. Offered on demand.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PED 399 - Independent Readings (1 to 3 credits)**

Special studies in physical education upon consultation with faculty advisor and approval of department chair.

## **PED 480 - Special Topics in Physical Education (1 to 3 credits)**

Lecture, discussion, laboratory, or field study on a topic related to physical education.

## **PED 499 - Independent Study and Research (1 to 3 credits)**

Special studies in physical education upon consultation with advisor and approval of department chair.

## **PED 580 - Special Topics in Physical Education (1 to 3 credits)**

Lecture, discussion, laboratory, or field study on a topic related to physical education.

## **PED 680 - Special Topics in Physical Education (1 to 3 credits)**

Lecture, discussion, laboratory, or field study on a topic related to physical education.

## **PED 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **PH 222 - Public Health Concepts (3 credits)**

Introduction to the history, philosophy, current concepts, practice, and administration of public health in the United States. Offered fall semester.

## **PH 500 - Introduction to Public Health (3 credits)**

A survey of the basic principles of public health practice, including an introduction to the infrastructure of public health, the analytical tools employed by public health practitioners, health promotion and prevention of disease and injury, quality in public health, and legal and ethical concerns. Offered fall semester. Prerequisite: Admission to the Master of Public Health.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PH 505 - Social and Behavioral Public Health (3 credits)**

This course examines the broad foundation in public health theory and tools for its application within the larger scope of public health research and practice. The course will provide an understanding of how both social and behavioral theory is essential in the creation of effective intervention approaches. Offered winter semester. Prerequisite: Admission to the Master of Public Health.

## **PH 510 - Public Health Epidemiology (3 credits)**

Basic concepts of epidemiology including measurement of disease occurrence and intervention strategies within a public health/community context. This course will introduce students to study designs commonly utilized in public health, as well as their application to evaluation and policy. Offered fall semester. Prerequisite: Admission to the Master of Public Health.

## **PH 520 - Environmental and Occupational Health (3 credits)**

Presents basic concepts of environmental health and occupational health. Students will explore the biological, chemical, and physical factors from the environment (community and occupational) that impact the health of the public at a global and local level. Topics covered include air and water quality and industrial hygiene. Offered winter semester. Prerequisite: Admission to the Master of Public Health.

## **PH 525 - Quantitative Research Methods in Public Health (3 credits)**

Focuses on data collection and management, study design, selection of study subjects, evaluation of bias, confounding, interaction for randomized trials, prospective and retrospective cohort studies, and case-control studies. Offered winter semester. Prerequisites: PH 510 and admission to the Master of Public Health.

## **PH 530 - Qualitative Research Methods in Public Health (3 credits)**

Provides students with an understanding of the characteristics of qualitative research by utilizing methods to gain insight into health problems. Students will gain experience in various qualitative methods, techniques, and software. Offered fall semester. Prerequisite: Acceptance into the Master of Public Health or clinical dietetics program.

## **PH 540 - Public Health Law and Ethics (3 credits)**

This course investigates elements of legal and ethical theories in public health. Students will use a case study approach to scrutinize ethical and legal issues in public practice, administration, and research. Offered spring/summer semester. Prerequisite: Admission to the Master of Public Health.

## **PH 580 - Special Topics in Public Health (1 to 9 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of public health. Prerequisites: Variable.

## **PH 600 - Advanced Quantitative Research Methods in Public Health (3 credits)**

Focus on advanced epidemiology and statistical methods used in clinical and public health research. This course will focus on analysis of categorical data, survival data, and longitudinal data with an emphasis on the interpretation and application of results obtained. Offered winter semester. Prerequisite: PH 525.

## **PH 602 - Chronic Disease Epidemiology (3 credits)**

Promotes a research-based approach to the prevention and management of chronic diseases from a public health standpoint. This course will educate students on the determinants of chronic diseases in populations and will emphasize interventions that have effectively reduced morbidity and mortality associated with chronic diseases. Offered spring/summer semester. Prerequisite: Admission to the Master of Public Health.

## **PH 603 - Epidemiology of Aging (3 credits)**

Introduces the epidemiology of aging and age-related disorders from a public health perspective with a specific focus on epidemiologic methods and their application to the study of function and disease in older adults. Course offered spring/summer semester. Prerequisite: PH 602.

## **PH 604 - Women's and Children's Epidemiology (3 credits)**

Provides students with a broad understanding of the influences on health and disease among women and children, including reproductive issues, infant, child, and maternal morbidity and mortality, abnormal growth and development, and early life factors. Offered fall semester. Prerequisite: Admission to the Master of Public Health program.

## **PH 605 - Pharmacoepidemiology (3 credits)**

Introduces the basic concepts of pharmacoepidemiology from a public health perspective with a specific focus on epidemiologic methods and their application to pharmacoepidemiologic studies. Offered spring/summer semester. Prerequisite: PH 510.

## **PH 606 - Environmental and Occupational Epidemiology (3 credits)**

Environmental and occupational epidemiology will introduce students to the epidemiologic methods utilized in studying health effects of environmental and occupational agents. This course will also provide students with an understanding of how these agents affect the health of workers, as well as the health of the community. Offered spring/summer semester. Prerequisite: Admission to the Master of Public Health.

## **PH 608 - Infectious Disease Epidemiology (3 credits)**

Will introduce students to the principles, concepts, and methods of conducting an epidemiologic investigation, including epidemiologic study designs and laboratory methods used in infectious disease research. This course will also provide students with a broad understanding of public health surveillance for infectious diseases. Offered spring/summer semester. Prerequisite: Admission to the Master of Public Health.

## **PH 610 - Cancer Epidemiology (3 credits)**

Will promote a research-based approach to the understanding of cancer etiology. This course will provide students with a broad understanding of the prevalence of cancer, ranging from the distribution of susceptibility markers, cancer screening, and related health services in a population setting to cancer control and prevention programs. Offered fall semester. Prerequisite: Admission to the Master of Public Health.

## **PH 612 - Public Health Genetics (3 credits)**

Application of advances in genetics and molecular biotechnology to improve public health and prevent disease. This course provides an introduction to the field of genomics, integrating findings from genetic epidemiology and genetic screening, with the goal of preventing disease at the population level. Offered winter semester. Prerequisite: Admission to the Master of Public Health.

## **PH 613 - Psychiatric Epidemiology (3 credits)**

Introduces the epidemiology of psychiatric disorders from a public health perspective with a specific focus on epidemiologic methods and their application to the study of mental disorders of childhood, adulthood, and late adult life. Offered winter semester. Prerequisites: PH 602 and PH 612.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PH 620 - Health Education (3 credits)**

Focuses on the design of effective learning programs to include specification of objectives, selection and organization of learning activities, and program assessment. Moves between theoretical bases for program development and application examinations. Offered spring/summer semester. Prerequisite: Admission to the Master of Public Health.

## **PH 621 - Introduction to Urban Health Studies (3 credits)**

Urban settings have unique assets and problems that are often different from traditional health demands. In this course, students will develop the skill set needed to understand and improve the health of those residing in urban environments. Offered fall semester. Prerequisite: Admission to the Master of Public Health.

## **PH 622 - Health Behavior and Promotion (3 credits)**

Provides students with the background on health-related behavior theories and health status, to develop and evaluate educational activities designed to improve individual and community health and quality of life. Offered spring/summer semester. Prerequisite: Admission to the Master of Public Health.

## **PH 623 - Food, Health, and Justice (3 credits)**

This course provides students with an introduction to the urban food movement. Concepts such as access to food, quality of food, affordability of food, and food-related policies are explored through both traditional and nontraditional learning opportunities, leaving students with a unique perspective of food in the urban environment. Offered winter semester. Prerequisite: Admission to the Master of Public Health.

## **PH 625 - Urban Health Field Studies (3 credits)**

The Urban Health Field Studies course will provide students an opportunity to couple their knowledge of the urban environment with interdisciplinary research in an urban community setting. Offered winter semester. Prerequisite: PH 621.

## **PH 626 - Health Advocacy and Literacy (3 credits)**

This course examines public health patient advocacy and health literacy methods and provides an understanding of the relationship between how literacy and advocacy effect the overall health of the population. Offered fall semester. Prerequisite: Admission to the Master of Public Health.

## **PH 627 - Public Health Interest Groups (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course provides a critical assessment of the impact that public health interest groups have on the American political system and public health policy. Public health interest groups will be categorized and explored as to goals, functionality, and impact on health policy. Offered spring/summer semester. Prerequisite: Admission to the Master of Public Health.

### **PH 628 - Health Program Evaluation (3 credits)**

Presents methods for the identification of population-based needs for public health intervention, development of programs to meet those needs, and evaluation of the effectiveness of these public health interventions. It integrates several knowledge and skill areas including: research methods, epidemiology, biostatistics, proposal writing, and health disparities. Offered winter semester. Prerequisite: Admission to the Master of Public Health.

### **PH 629 - Advocacy Strategies in Public Health (3 credits)**

This course provides students with the opportunity to critique and analyze case studies from a variety of both successful and unsuccessful public health advocacy examples. There will be an emphasis on how online environments and social media tools contribute to public health advocacy debates and campaigns. Offered winter semester. Prerequisite: Admission to the Master of Public Health.

### **PH 630 - Health and Disease Disparities in Diverse Communities (3 credits)**

Presents patterns, causes, and possible solutions to health disparities. The course will identify the role of race, ethnicity, and socioeconomic status in health research and access and utilization of health services. Offered winter semester. Prerequisite: Admission to the Master of Public Health.

### **PH 631 - Critical Issues in Public Health Advocacy and Policy (3 credits)**

This course provides students with the skills to analyze and evaluate current controversial topics in public health and challenges the student to develop problem-solving, communication, influence and collaborative skills to effect public policy. Offered spring/summer semester. Prerequisites: PH 500, PH 505, PH 510, and PH 520.

### **PH 632 - Public Health Social Campaigning and Distribution (3 credits)**

Analysis of the components and applications of public health social campaigning and distribution: theoretical foundations, research methods, strategy development, program design

and implementation, material pretesting, and ethics. Offered winter semester. Prerequisite: Admission to the Master of Public Health.

### **PH 633 - Public Health and Environmental Impact Assessment (3 credits)**

The course will emphasize related concepts, theory, assessment methods, and integration and evaluation of models to examine contamination due to air, water, and soil pollution. Offered spring/summer semester. Prerequisite: PH 520.

### **PH 634 - Environmental Justice (3 credits)**

This course addresses the unequal burdens of environmental contamination and health disparities affecting marginalized communities across the U.S. and internationally. Environmental health/justice theories and illness and disease related to environmental atrocities will be discussed. Offered spring/summer semester. Prerequisite: PH 520.

### **PH 645 - Global Environmental and Occupational Health (3 credits)**

This course addresses environmental and occupational health in respect to developed, emerging, and less developed countries. Students are educated from an international perspective to analyze global trends in core areas of environment-human interaction with emphasis on vulnerable populations. Offered fall semester. Prerequisite: PH 520.

### **PH 660 - Public Health in a Global Setting (3 credits)**

This course will compare the practices and venues of public health education in a global setting to those within the United States. It will include extensive hands-on public health experiences in health education design, program planning, implementation, evaluation, resource availability, and application of research principles. Offered spring/summer semester.

### **PH 680 - Special Topics in Public Health (1 to 9 credits)**

Lecture, discussion, laboratory, or field experience (or any combination of the preceding) in specific areas of public health. Prerequisites: Variable.

### **PH 688 - Public Health Practicum (3 credits)**

The public health practicum experience provides a comprehensive and integrated application of the curriculum that allows students to demonstrate professional competency in public health in a practice setting. Offered each semester. Prerequisites: All core public health courses must be

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

complete prior to enrolling in the practicum course and be in good standing within the public health program. The core curriculum includes: PNH 650, PH 500, PH 505, PH 510, PH 520, PH 525, PH 530, and STA 610.

## **PH 689 - Public Health Practicum in a Global Setting (3 credits)**

Students will complete a global public health experience by pursuing their practicum in an international setting, building upon identified student interest that is approved by the program coordinator. Tangible final product must be completed according to a written agreement developed by the student and the instructor. Offered each semester. Prerequisites: All core public health courses must be completed prior to enrolling in the practicum course and be in good standing within the public health program. The core curriculum includes: PNH 650, PH 500, PH 505, PH 510, PH 520, PH 525, PH 530, and STA 610.

## **PH 693 - Public Health Master's Project (1 to 3 credits)**

Guided research project development in public health. This course may be taken in sections and be repeated for up to three credits. Offered every semester. Prerequisites: Students must complete the core curriculum prior to enrollment and complete the Responsible Conduct of Research Training within the last three years.

## **PH 695 - Public Health Master's Thesis (3 credits)**

The individual student will select a significant and original research question pertinent to the public health profession and will complete six continuous credits to complete the thesis. Offered every semester. Prerequisites: Good standing in the public health program, completion of the core curriculum, approval of the program director, and completion of the Responsible Conduct of Research Training within last three years.

## **PH 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **PH 697 - Professional Learning (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **PHI 101 - Introduction to Philosophy (3 credits)**

Inquiry into different perspectives on reality, reason, experience, and human excellence. Intensive reading of at least one classical text and its implications for life in the present. Fulfills Foundations - Philosophy and Literature. Offered fall and winter semesters.

## **PHI 102 - Ethics (3 credits)**

What is good? What is evil? Are there objective standards for right and wrong? What are these objective standards? How can they be applied to important contemporary moral problems? This course considers the answers philosophers give to these and related questions. Fulfills Foundations - Philosophy and Literature. Offered fall and winter semesters.

## **PHI 103 - Logic (3 credits)**

What does it mean to think clearly and correctly? What rules govern classification and definition? What is the nature of propositions? What are the rules for correct reasoning? How can we improve our reasoning skills? This course addresses these questions with the help of a standard textbook in classical logic. Fulfills Foundations - Mathematical Sciences. Offered fall and winter semesters. Prerequisite: MTH 110 or equivalent.

## **PHI 202 - Philosophy and Ethics of Health (3 credits)**

What is health and what ethical issues surround the care of health? Explore classic theories about the nature of physical and mental health through primary texts and philosophize about key issues in health care, such as consent, augmentation, distribution, and the value of health. Fulfills Foundations - Philosophy and Literature. Offered every semester.

## **PHI 203 - Intermediate Logic (3 credits)**

A thorough introduction to classical quantificational logic. This course develops the syntax and semantics of the language of quantificational logic, assesses its relation to English, and introduces proof methods for, and some of meta-logic of, quantificational logic. The course also introduces some extensions of, or alternatives to, classical quantificational logic. Offered fall semester, even-numbered years. Prerequisite: PHI 103 or CIS 160 or CIS 162 or MTH 110 or MTH 122 or MTH 201.

## **PHI 204 - Knowledge, Politics, and Social Media (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An introduction to philosophy focused on humans as knowing beings and as social-political beings. The course explores classical philosophical issues concerning how these facets of human existence interact, and applies the understanding gained to analyze how these interactions affect and are affected by the Internet and social media. Fulfills Foundations - Philosophy and Literature. Offered fall and winter semesters.

## **PHI 210 - Eastern Philosophy (3 credits)**

Because the world is getting smaller, the scope of our knowledge and vision must expand. This course introduces students to major philosophies of the East, such as Hinduism, Buddhism, Confucianism, and Daoism, through the study of classic texts. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters.

## **PHI 220 - Aesthetics (3 credits)**

An inquiry into the nature, criteria, and significance of the fine arts and/or artistic creation and response. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **PHI 230 - American Philosophy (3 credits)**

Focuses on the history and context of American philosophy, from the precolonial indigenous wisdom traditions to contemporary philosophers. Special emphasis on American Pragmatism, as a distinctively American philosophical movement, and on the issues of race as a common theme in American philosophy. Fulfills Cultures - U.S. Diversity. Offered fall semester of odd-numbered years.

## **PHI 240 - Middle Eastern Philosophy (3 credits)**

This course introduces students to Middle Eastern philosophy from the medieval period through the contemporary era. The course will give students a thorough understanding of what Middle Eastern philosophy is, what makes it unique, and how both medieval and modern thinkers tackle philosophical problems of their day. Fulfills Cultures - Global Perspectives. Offered winter semester of even-numbered years. Prerequisite: Prior work in philosophy or permission of instructor.

## **PHI 250 - Existentialism (3 credits)**

An investigation of a major philosophical and literary movement in the 19th and 20th century. Important existentialists include Dostoevsky, Kierkegaard, Nietzsche, Heidegger, Sartre, and Camus. Topics include authenticity, freedom, consciousness, commitment, our relations to others and God, how emotions provide insights unavailable to reason, and the limits of philosophy. Fulfills Cultures - Global Perspectives. Offered fall semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PHI 300 - Theories of Human Nature (3 credits)**

Survey of philosophical, scientific, and religious conceptions of the human being, from past and present and from various cultures. Issues include meaning of life, destiny of humanity, relations between humans, human development and evolution, relations of humans to their creator/origins and to their environments, and methodologies for investigating human nature. Part of the Identity Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **PHI 311 - Origins of Western Thought: Ancient Philosophy (3 credits)**

A study of one or several ancient great philosophers, such as the pre-Socratics, Plato, Aristotle, and Lucretius. Focus will be on the philosophers' writings, but attention also will be given to context and tradition. Cross-listed with CLA 311. May be repeated for credit if content varies. Prerequisite: Prior work in philosophy or permission of instructor.

## **PHI 312 - Divine Revelation meets Greek Rationality: Medieval Philosophy (3 credits)**

A study of one or several medieval great philosophers, such as: Plotinus, Augustine, Thomas Aquinas, and Maimonides. Focus will be on the philosophers' writings, but attention will also be given to context and tradition. May be repeated for credit, if content differs. Prerequisite: Prior work in philosophy or permission of instructor.

## **PHI 313 - Reason, Experience, Morality at the Dawn of Modernity: Early Modern Philosophy (3 credits)**

A study of one or several modern great philosophers, up to Kant, such as Descartes, Spinoza, Leibniz, Berkeley, Hume, and Kant. Focus will be on the philosophers' writings, but attention also will be given to context and tradition. May be repeated for credit if content differs. Prerequisite: Prior work in philosophy or permission of instructor.

## **PHI 314 - Capitalism, Secularism, Nationalism: 19th Century Philosophy (3 credits)**

A study of one or several later modern great philosophers beginning with Kant, such as Fichte, Schelling, Hegel, Kierkegaard, Nietzsche, and Marx. Focus will be on the philosopher's writings, but attention will also be given to context and tradition. May be repeated if content differs. Prerequisite: Prior work in philosophy or permission of instructor.

## **PHI 315 - Philosophy Now: Contemporary Great Philosophers (3 credits)**

A study of one or several recent great philosophers, such as James, Wittgenstein, Heidegger, Dewey, Arendt, Merleau-Ponty, Peirce, Whitehead. Focus will be on the philosophers' writings, but attention also will be given to context and tradition. May be repeated for credit if content varies. Prerequisite: Prior work in philosophy or permission of instructor.

## **PHI 320 - Power, Justice, and Freedom: Social and Political Philosophy (3 credits)**

Analyzes the intellectual appropriation of the concept of freedom over time. Emphasis will be given to the dynamic interaction between freedom and social control in classics of Western philosophy from ancient times to modernity. Authors include Plato, Epicurus, Aristotle, Aurelius, Augustine, Hobbes, Rousseau, and Marx. Part of Human Rights Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **PHI 325 - Ethics in Professional Life (3 credits)**

Examination of ethical principles and practice in business, medicine, education, law, and government. This course aims at providing students with the intellectual framework for an ethical analysis of situations which arise within various professions. Also seeks to foster mutual understanding across professional lines. Part of the Human Rights Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **PHI 330 - Crime, Morality, Punishment: Philosophy of Law (3 credits)**

Laws create and preserve rights. We will explore the nature, formation and interpretation of laws. What are they? Where do they come from? And how do we tell what they mean? We will also consider specific issues such as equality and affirmative action, and punishment and the death penalty. Part of the Human Rights Issue. Offered fall semester of even-numbered years. Prerequisite: Junior standing.

## **PHI 341 - Philosophy of Death and Dying (3 credits)**

A philosophical exploration of ethical, religious, and metaphysical questions about death and dying, such as care for the dying, euthanasia, suicide, life after death. What is a human being? The meaning of life? Our place in the universe? Classical and contemporary writings, East and West, will be examined. Offered fall semester.

## **PHI 343 - God, Faith, and Reason: Philosophy of Religion (3 credits)**

Does God exist? Is there a life after death? How did evil enter the world? Is there any place for reason in religion, or is religious faith only a matter of subjective experience? Questions like these will be considered, as well as the answers that have been given to them by some important religious philosophers. Part of the Identity Issue. Prerequisites: Junior standing and prior work in philosophy or permission of instructor.

## **PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)**

Sex and gender are central to our identity. The course explores these concepts within the intersection of race, class, sexualities, and ethnicities. Philosophical analyses will be used to investigate how gendered biases infuse the structures of thought and action such that sex is a central component of our lives. Part of the Identity Issue. Offered fall semester. Prerequisite: Junior standing.

## **PHI 380 - Special Topics in Philosophy (3 credits)**

A variable topics course on a problem, theme, or figure of importance to the practice of philosophy in the present. Offered as needed. Prerequisite: Prior work in philosophy or permission of instructor.

## **PHI 399 - Independent Readings (1 to 4 credits)**

Reading on a topic or a philosopher, arranged both as to credit and content with a member of the department. Offered fall and winter semesters. Prerequisite: Prior work in philosophy or permission of instructor.

## **PHI 400 - Wisdom of the East: Advanced Topics in Asian Philosophy (3 credits)**

Study of one or more Hindu, Buddhist, Confucian, or Taoist philosophers (The Buddha, Nagarjuna, Lao Zi, Zhuangzi, Confucius, etc.) Topics include human nature, society and individual, moral practice, suffering and liberation, and religiosity. Fulfills Cultures - Global Perspectives. Repeatable for credit, if content differs. Offered winter semester. Prerequisite: Prior coursework in philosophy or permission of instructor.

## **PHI 420 - Philosophy of Science (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Scientific knowledge is compared with that acquired in other disciplines. Topics common to the physical, biological, and social sciences, such as discovery, explanation, confirmation, and the nature of scientific models and laws are also considered. Offered fall semester of even-numbered years. Prerequisite: Prior coursework in philosophy or permission of instructor.

### **PHI 430 - Mind, Brain, Consciousness: Philosophy of Mind (3 credits)**

A study of classical and contemporary philosophical perspectives on the human mind. Topics may include materialistic vs. nonmaterialistic conceptions of thought and consciousness; relation between mind and brain, body, behavior, and environment; artificial intelligence; animal cognition; mental illness; altered states of consciousness, self-consciousness, and personhood. Offered fall semester of even-numbered years. Prerequisite: Prior coursework in philosophy or permission of instructor.

### **PHI 440 - Perception, Hallucination, Trust: Perspectives on Knowledge (3 credits)**

What is knowledge? What is the relation of knower to known? How is knowledge distinguished from belief? What are the nature and ground of certainty? Varieties of objectivism and subjectivism, ancient and modern, will be considered. Offered winter semester. Prerequisite: Prior work in philosophy or permission of instructor.

### **PHI 450 - Reality, Identity, Change: Metaphysics (3 credits)**

A study of representative metaphysical systems and problems through the writings of the classical, medieval, modern and recent periods. Topics include being, substance, causation, essence, matter, form, space, time, relation, etc. Some attention to non-Western metaphysical thought. Offered fall semester of odd-numbered years. Prerequisite: Prior work in philosophy or permission of instructor.

### **PHI 460 - Rights, Duties, and the Meaning of Life: Moral Philosophy (3 credits)**

This course is dedicated to some of the most fundamental questions about value: What is value? Where does it come from? How many kinds of it are there? What are the relationships between the different kinds of value? Readings will be drawn from classical and contemporary philosophical literature. Offered winter semester of odd-numbered years. Prerequisite: Prior work in philosophy or permission of instructor.

### **PHI 470 - Truth, Meaning, Communication: Philosophy of Language (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A survey course in the philosophy of language. Topics include theories of meaning, truth, and reference; meaning and interpretation; semantics vs. pragmatics; speech acts; language and thought; knowledge of language. Offered winter semester of even-numbered years. Prerequisite: One philosophy course or permission of the instructor.

## **PHI 480 - Special Topics in Philosophy (3 credits)**

According to the needs of the students, seminars in historical and systematic studies in areas, philosophers, and movements, of which the following are examples: Aristotle, Thomas, Hume, Kant, Hegel, Hellenistic philosophy, philosophy of history, advanced logic, advanced ethics, theory of knowledge, philosophy of science, advanced political philosophy, and philosophy of education.

## **PHI 495 - Reality, Knowledge, and Value (Capstone) (3 credits)**

The purpose is -- by a review of basic presuppositions about knowledge, reality, and value to make clear what unites and what separates the main traditions in people's search for wisdom. Offered fall and winter semesters. Prerequisites: Major or minor in philosophy and senior standing.

## **PHO 171 - Photography I (4 credits)**

An introductory course in the use of the still camera and in the essentials of black-and-white darkroom photography. Emphasis on the basic aesthetics and techniques that underlie photographic communication. Offered every semester. Access to a 35mm film camera, with manual control option, required.

## **PHO 172 - Photography II (3 credits)**

The aesthetic and technical concepts beyond basic photography. Emphasis on fine-tuning black-and-white negative and printing methods, including the zone system. Students register for one lab section in addition to lecture. Access to 35mm camera, with manual control option, required. Offered every semester.

## **PHO 175 - Understanding Still Photography (3 credits)**

An introductory course in still photography. Covers camera operation, composition, aesthetics, post-production, and visual communication. Access to a digital camera with manual exposure controls is required. Counts toward the photography minor, but not the major. Fulfills Foundations - Arts. Offered fall and winter semesters.

## **PHO 266 - History of Photography I (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A survey of the origins and developmental phases of photography. Technical innovations will be examined, but emphasis will be on the historical motivations and changing climates of aesthetic intent, philosophical rationale, and visual experimentation in the history of photography from the early 19th century to the present. Offered fall semester.

## **PHO 272 - Digital Photography 1 (3 credits)**

Introduction to the use of computers in photography with emphasis on digital image processing. Students will gain experience with hardware and software used to access, manipulate, and output photographs for use in display, print, and the digital environment. Offered every semester. Prerequisites: ART 149 or ART 150 and one of the following: PHO 175, PHO 172, FVP 226, or permission of instructor.

## **PHO 273 - Classic 4 x 5 Photography (3 credits)**

Emphasis upon the use and application of the large format camera, the zone system of previsualization and exposure/development control, and the production of the classic black and white print. Subject areas represent the classic themes drawn from the history of photography. Offered fall and winter semesters. Prerequisite: PHO 172 or permission of instructor.

## **PHO 279 - Color Photography 1 (3 credits)**

Introduction to color theory and expressive use of color in photography. Offered fall and winter semesters. Prerequisite: PHO 272.

## **PHO 280 - Special Topics in Photography (1 to 3 credits)**

A study of topics not regularly covered in the curriculum. May be repeated for credit when topic varies. Prerequisite: Sophomore standing or permission of instructor.

## **PHO 366 - History of Photography II (3 credits)**

An examination of the principal theories and debates in photography from the early 19th century to the present, their social and political contexts, and their expression in both photographic practice and critical writings. Offered winter semester. Prerequisites: PHO 266 and junior standing; or permission of the instructor.

## **PHO 368 - Alternative Photographic Print Processes (3 credits)**

An introduction to photographic-based printmaking processes such as cyanotype, polymer photogravure, and photo-stencil silkscreen. Emphasis is on the technical and aesthetic mastery of

these media for the development of the student's creative visual work. Cross-listed ART 368. Offered fall semester.

## **PHO 371 - Experimental Black and White Photography (3 credits)**

An advanced production course that investigates experimental and nontraditional applications of black-and-white imaging materials and processes. Historical and contemporary experimental work will be examined. Emphasis is on the expressive and visual significance of experimentally generated imagery. Offered winter semester. Prerequisite: PHO 273.

## **PHO 373 - Digital Photography 2 (3 credits)**

An exploration of the history, contemporary trends, and future possibilities of digital imaging processes. Includes an examination of visual communication within the digital environment. Student readings and discussions will be augmented with digital imaging projects. Offered winter semester. Prerequisite: PHO 272 or permission of instructor.

## **PHO 374 - Color Photography 2 (3 credits)**

An advanced course emphasizing various approaches to color photographic image making. Areas of investigation include color theory, color and perception, color and light, color strategies, and color as image, as well as contemporary trends in color photography. Offered winter semester. Prerequisite: PHO 279 or permission of instructor.

## **PHO 375 - Studio Photography (3 credits)**

Creation of studio still-lives, artificial studio lighting, and principles of studio portraiture. All work done with digital photography. Prerequisite: PHO 272.

## **PHO 377 - The Social Eye (4 credits)**

Explores the photographic tradition of the social documentary. Practical emphasis on black-and-white image making depicting people: their activities, relationships, and conditions. Color slides optional with permission of instructor. Photo essays will be produced. Lab to be arranged. Offered fall semester of even-numbered years. Prerequisite: PHO 272.

## **PHO 378 - Advanced Problems in Photography (3 credits)**

An intensive investigation and a sustained image-making activity in one area of photographic practice. Examines both historical and contemporary approaches, as well as aesthetic and cultural attitudes that have informed them. Students will produce various solutions within the course theme. Offered fall semester. Prerequisite: PHO 272.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PHO 380 - Special Topics in Photography (1 to 3 credits)**

A study of advanced topics not regularly covered in the curriculum. May be repeated for credit when topic varies. Prerequisite: Junior standing or permission of instructor.

## **PHO 399 - Independent Study (1 to 6 credits)**

An experience of an essentially scholarly and/or creative nature undertaken by a student under the supervision of one or more faculty members. Initiated by the student who has a special interest in a subject that is not available in the current curriculum. The student and the faculty sponsor agree on the scope of the study, its components, and methods of evaluation. Offered every semester.

## **PHO 480 - Special Topics in Photography (1 to 3 credits)**

A study of advanced topics not regularly covered in the curriculum. May be repeated for credit when topic varies. Prerequisite: Senior standing or permission of instructor.

## **PHO 490 - Internship (1 to 6 credits)**

A supervised work experience in an area of a student's potential career interest. Initiated by the student, who plans the work experience with the advisor, the faculty sponsor chosen to supervise the internship, and the supervisor at the worksite. Credit is awarded only when the student, the faculty sponsor, and the work supervisor have completed evaluations of the internship. Offered every semester.

## **PHO 495 - Photography Capstone and Thesis Seminar (1 to 6 credits)**

A culminating course in which students demonstrate their conceptual understanding and creative abilities in photography and visual communication. Each student develops a coherent body of work and a thesis paper reflecting on that work from a personal, historical, and critical perspective. Offered fall and winter semesters, but not necessarily in the summer. Prerequisites: PHO 266 with a grade of C or better and PHO 366.

## **PHY 105 - Descriptive Astronomy (3 credits)**

A general survey of astronomy topics, including the motion of celestial objects, light and telescopes, information about the solar system, its formation, and stellar evolution. The class includes lecture, laboratory, and night observations. Fulfills Foundations - Physical Sciences with a lab.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PHY 180 - Special Topics in Physics (1 to 4 credits)**

Exploration at the introductory level of topics not addressed at the same level in other physics courses.

## **PHY 200 - Physics for the Life Sciences (4 credits)**

Physics topics particularly applicable to occupations in safety, health science, biology, medicine, and industry. A practical survey of physics also applicable to humanities and non-science majors. Includes a laboratory. Background course for making decisions about science and technology. Mechanics, fluids, sound, heat, basic electricity, light optics, and nuclear radiation. (3-1-2) Offered every semester. Prerequisite: MTH 110 or MTH 122 or MTH 201.

## **PHY 201 - Inquiry: The Mechanical and Thermal World (4 credits)**

Course stresses understanding physical science to allow one to explain concepts to others, whatever the audience. Focus is on the development of fundamental concepts, reasoning, and critical-thinking skills through discovery learning and Socratic dialogue in the laboratory setting. Topics include mass, volume, density, buoyancy, heat, temperature, and electric circuits. Ideal for students preparing for careers in education. Fulfills Foundations - Physical Sciences with a lab. (0-0-6) Offered fall semester.

## **PHY 202 - Physics for K-8 Teachers, Motion, Energy, and Forces (2 credits)**

A study of motion, its descriptions, and causes. Includes energy models and force models. Develops the ability to explain concepts to a range of audiences. Course is intended for integrated science majors. Content reflects national and Michigan science education standards. Offered fall semester.

## **PHY 203 - Physics for K-8 Teachers, Light, Sound, and Electromagnetism (2 credits)**

Introduction to sound, light, electricity, and magnetism. Includes electric and magnetic forces, simple electric circuits, ray models of light, and wave models of sound. Develops the ability to explain concepts to a range of audiences. Course is intended for integrated science majors. Content reflects national and Michigan science standards. Offered winter semester.

## **PHY 205 - Astronomy for K-8 Pre-Service Teachers (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduction to astronomy. Includes origin, evolution, characteristics, and motion of objects in the solar system, galaxy, and universe. Course is intended for integrated science majors. Course is not intended for science majors or minors. Content reflects national and Michigan science standards. Offered fall and winter semesters.

## **PHY 216 - Physics of Sports (4 credits)**

A biomechanically oriented physics course about sporting activities. Topics include real projectile motion, forces including the ground reaction force, energy conservation and transformation, and other traditional mechanics topics. Students will use college level algebra (multiple equations and unknowns) and develop skills in right triangle trigonometry. Designed for exercise science majors. Offered fall and winter semesters. Prerequisite: MTH 110.

## **PHY 220 - General Physics I (5 credits)**

The first half of a two-semester noncalculus sequence with a laboratory; recommended for life science majors. Kinematics, vectors, Newtonian mechanics, gravity, work, conservation of energy and momentum, fluids, and properties of matter. Fulfills Foundations - Physical Sciences with a lab. (2-2-3). Offered every semester. Prerequisites: MTH 122 and MTH 123.

## **PHY 221 - General Physics II (5 credits)**

The second half of a standard one-year noncalculus sequence with a laboratory; recommended for life science majors. Electricity and magnetism, fields, simple electrical circuits, light and optics, and introduction to quantum and nuclear phenomena. (2-2-3) Offered every semester. Prerequisite: PHY 220.

## **PHY 230 - Principles of Physics I (5 credits)**

The first course in a two-course calculus-based sequence for students of science, mathematics, and engineering with a laboratory. Topics include vectors, kinematics, dynamics, work, conservation of energy, linear and angular momentum, gravitation, mechanical waves and oscillations, and sound. Fulfills Foundations - Physical Sciences with a lab. Offered every semester. Prerequisite: MTH 201. Corequisite: MTH 202.

## **PHY 231 - Principles of Physics II (5 credits)**

The second course in a two-semester sequence for students of science and engineering, with a laboratory. Topics include thermodynamics, Coulomb's law, electric fields and potential energy, Gauss's law, circuits, electrical waves and oscillations, Maxwell's equations, and optics. Offered every semester. Prerequisites: PHY 230 and MTH 202.

## **PHY 234 - Engineering Physics (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A second course in calculus-based physics designed for engineering majors. Topics include electromagnetic theory, optics, and atomic and nuclear physics. Course content emphasizes areas of physics not covered in-depth by the engineering curriculum while minimizing areas of overlap. (3-0-2) Offered fall semester. Prerequisites: PHY 230 and MTH 202.

## **PHY 280 - Special Topics in Physics (1 to 4 credits)**

Exploration at a moderate level of topics not addressed at the same level in other physics courses.

## **PHY 302 - Introduction to Modern Physics (4 credits)**

A course in modern physics for students in science, math, and engineering, with a laboratory. Special relativity, particle-like properties of radiation, wave-like properties of matter, atomic models, and the Schrödinger equation with applications. (3-0-3) Offered fall and winter semesters. Prerequisite: PHY 231.

## **PHY 309 - Experimental Methods in Physics (4 credits)**

Course consists of four modules: instrumentation, statistics pertaining to physics, electronics, and an introduction to machine shop methods. Course culminates in a final project that includes the design, implementation, analysis, and written and oral report of an experiment geared toward student interest. (2-0-4) Offered fall semester. Prerequisites: PHY 302 and a Supplemental Writing Skills course.

## **PHY 311 - Advanced Laboratory II (2 credits)**

Experimental laboratory activities related to physics at the intermediate level. The experiments assigned are dependent on student interest and goals. (0-0-6) Offered winter semester. Prerequisites: PHY 309 and a Supplemental Writing Skills course.

## **PHY 320 - Optics (3 credits)**

Geometric optics, including intermediate study of reflection and refraction. Physical optics, including intermediate study of interference and diffraction. Includes lasers and other applications. Offered fall of odd-numbered years. Prerequisite: PHY 231.

## **PHY 330 - Intermediate Mechanics (4 credits)**

An intermediate-level study of Newtonian classical mechanics for students in science, math and engineering. Newton's laws of motion, conservation laws, and applications, including conservative and nonconservative forces, velocity-dependent forces, work and energy, linear

oscillations, central forces, and noninertial reference frames. Offered fall semester. Prerequisites: PHY 230 and (either MTH 302 or MTH 304) or permission of the instructor.

## **PHY 340 - Electromagnetic Fields (4 credits)**

An intermediate-level study of electricity and magnetism for students in science, math, and engineering. Vector calculus, electrostatic and magnetostatic fields in vacuum and in matter, and Maxwell's equations and applications. Offered winter semester. Prerequisites: PHY 231 and (either MTH 302 or MTH 304).

## **PHY 350 - Introduction to Quantum Mechanics (4 credits)**

An introduction to quantum physics for students in science, math, and engineering. Vector spaces, orbital and spin angular momentum, time-independent and time-dependent Schrödinger equation, operators, and eigenvectors and eigenvalues. Applications include tunneling, the hydrogen atom, and the simple harmonic oscillator. Offered fall semester. Prerequisites: PHY 302 and (either MTH 302 or MTH 304). MTH 300 recommended.

## **PHY 360 - Statistical Thermodynamics (4 credits)**

Basic concepts of heat, thermodynamics, and statistical physics for students of applied and theoretical physics. Temperature, equations of state, laws of thermodynamics, properties and behavior of pure substances, ideal gases, and mixtures. Introduction to statistical physics including statistical ensembles, probability, kinetic theory, heat capacity, and ideal gas velocity distributions. (4-0-0) Offered winter semester. Prerequisite: PHY 231.

## **PHY 370 - Solid State Physics (3 credits)**

A first course on the physics of solids. Topics may include crystal structure and x-ray diffraction; lattice vibrations and phonons; free electron Fermi gas; energy bands; properties of metals, semiconductors, and insulators; superconductivity; magnetism and magnetic materials. Offered winter semester of odd-numbered years. Prerequisites: PHY 302 and (either MTH 302 or MTH 304).

## **PHY 380 - Special Topics in Physics (1 to 4 credits)**

Lecture, discussion, and/or laboratory in specific areas of physics. Topics will reflect the special interests of the students and/or the instructor. Prerequisite: Permission of instructor.

## **PHY 399 - Readings in Physics (1 to 4 credits)**

Independent supervised readings on selected topics. Offered fall and winter semesters. Prerequisite: Permission of instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PHY 430 - Advanced Mechanics (3 credits)**

Study of classical mechanics at an advanced mathematical level. Systems of particles, rotating coordinate systems, generalized coordinates, virtual work, and Lagrange's and Hamilton's equations. Offered winter semester of even-numbered years. Prerequisites: PHY 330 and MTH 300.

## **PHY 440 - Advanced Electricity and Magnetism (3 credits)**

Study of Maxwell's equations at an advanced mathematical level. Electromagnetic wave propagation in free space and in materials. Reflection and refraction of electromagnetic waves, waveguides and coaxial lines, and electromagnetic radiation. Offered fall semester. Prerequisites: PHY 340 and MTH 300.

## **PHY 450 - Quantum Mechanics (3 credits)**

Addition of angular momenta, scattering, and approximation methods. Pauli principle, applications to transitions, molecular, and solids. Offered winter semester of odd-numbered years. Prerequisites: PHY 350 and MTH 300.

## **PHY 475 - General Relativity (3 credits)**

A comprehensive treatment of special relativity including the notion of four vectors on Minkowski space time. An introduction to curved space time including Geodesics and classic tests of General Relativity. Applications include black hole physics, cosmology, Einstein's equations and more. Offered winter semester. Prerequisites: MTH 304, PHY 302, and PHY 330.

## **PHY 480 - Special Topics in Physics (1 to 4 credits)**

Exploration at the advanced undergraduate level of topics not addressed at the same level in other physics courses.

## **PHY 485 - Senior Physics Project (Capstone) (1 credit)**

An independent investigation of theoretical or experimental physics. The nature and scope of the project are determined by the student in consultation with the instructor. Normally this project is carried out during the entire senior year-one hour credit during the fall semester and two hours credit during the winter semester. A written technical report is required. All seniors meet each week to discuss their projects with each other and their supervisor. Open only to senior physics students in good standing. (1-0-4) Offered fall semester.

## **PHY 486 - Senior Physics Project (Capstone) (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Continuation of student's work in PHY 485. Both an oral report and a final written technical report are required. (1-0-8) Offered winter semester. Prerequisite: PHY 485.

### **PHY 499 - Research in Physics (1 to 4 credits)**

Investigation of current ideas in physics for upper class students majoring in physics. Content determined by the student in conference with tutor. Completion of a substantial paper based upon the work. Offered fall and winter semesters. Prerequisites: 25 credits in physics and permission of the department chair.

### **PHY 670 - Modern Physics with Computer Visualization (3 credits)**

Uses visual quantum mechanics instructional units to integrate interactive computer programs with hands-on, minds-on activities to learn modern physics and quantum principles. Visualization techniques will replace higher level mathematics. The important historical experiments done at the turn of the century will also be reproduced and studied. (2-0-2) Offered fall semester of odd-numbered years. Prerequisites: PHY 220 and PHY 221 or equivalent.

### **PHY 680 - Special Topics in Physics (1 to 4 credits)**

Exploration at the advanced level of topics not addressed at the same level in other physics courses.

### **PHY 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **PLS 102 - American Government and Politics (3 credits)**

A prerequisite to all courses listed in the subfield of American Government and Politics. Examines American political values, governmental functions, political processes, policy issues, and decision-making processes. Fulfills Foundations - Social and Behavioral Sciences. Offered every semester.

### **PLS 103 - Issues in World Politics (3 credits)**

Analysis and discussion of contemporary issues in world politics as a vehicle for introducing core concepts in comparative politics, such as democracy, dictatorship, civil society, power, nationalism, political economy, social policy, identity politics, and development. Students will gain basic familiarity with the institutions, actors, and processes that influence world politics.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Fulfills Foundations - Social and Behavioral Sciences. Fulfills Cultures - Global Perspectives. Offered every semester.

## **PLS 105 - Introduction to Human Rights (3 credits)**

Introduction to the historical and conceptual development of human rights as moral, legal, and cultural constraints on the behavior of states in relation to their citizens. Analysis is theoretical, exploring philosophical arguments surrounding the historical development of human rights and their current role in legal, cultural, literary, and political products. Fulfills Foundations - Philosophy and Literature. Cross-listed with HRT 105. Offered fall and winter semesters.

## **PLS 180 - Special Topics in Political Science (3 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **PLS 202 - American Election Campaigns (3 credits)**

An examination of the strategies and tactics of American election campaigns. Particular focus on the role of the mass media and computer technology as instruments of campaign communication and persuasion. Offered fall semester of even-numbered years. Prerequisite: PLS 102 or junior standing.

## **PLS 203 - State Politics (3 credits)**

Examines the relationship between the states and the national government (federalism), state political institutions, and the politics and policies that characterize contemporary state governing. Emphasizes devolution (the shift of responsibility from the national government to the states), the relationship between governing and the economy, and Michigan politics and policy. Offered fall semester. Prerequisite: PLS 102 or junior standing.

## **PLS 205 - The Policy Process (3 credits)**

An introduction to the study of public policy. Examines the politics of the policy-making process in the United States. Students will gain an understanding of how issues emerge and ultimately become policies, how politics shapes public policies, and how these policies affect people's lives. Offered winter semester. Prerequisite: PLS 102 or junior standing.

## **PLS 206 - American Constitutional Foundations (3 credits)**

Integrates the perspectives of political science and constitutional law to examine the principles and institutional structures of the American political system. Analyzes political and constitutional sources of presidential, congressional, state and national power. Investigates

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

federalism, voting, parties, interest groups, civil rights, and civil liberties. Primarily for social studies majors. Offered every semester.

## **PLS 211 - International Relations (3 credits)**

This introductory course in international relations (IR) examines interactions among states and non-state actors in the international environment. Class focuses on military, economic, ethnic, and religious conflict. Topics include power, organizations, nationalism, and economic integration. Major IR theories are exemplified by current topics, such as terrorism, poverty, trafficking, and climate change. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - Global Perspectives. Offered every semester.

## **PLS 212 - Great Decisions (3 credits)**

Defining moments in international relations and foreign policy decision-making are used to illustrate the impact of leaders, institutions, and public opinion on foreign policy. Students attend the "Great Decisions" lecture series and hear high-ranking foreign policy analysts discuss controversial issues in contemporary world affairs. Offered winter semester.

## **PLS 215 - Global Migration (3 credits)**

An interdisciplinary analysis of the global movement of immigrants and refugees and its relationship with the economy, politics, development, and culture. Students learn about migration as a key feature of globalization. Possible topics: migration history, immigration policies, border control, integration, citizenship, migrant transnationalism, diaspora, remittances, child migrants, and migration theories. Fulfills Cultures - Global Perspectives. Fulfills Foundations - Social and Behavioral Sciences. Cross-listed with GSI 215. Offered fall semester.

## **PLS 221 - Government and Politics of Western Europe (3 credits)**

A comparative analysis of government and politics in France, Germany, Italy, the United Kingdom, and other European countries. Topics include political participation, parties and elections, interest groups, political economy, social welfare policy, and the European Union. Offered fall semester.

## **PLS 231 - Classical Political Thought (3 credits)**

Survey of selected classical political theorists, including Plato, Aristotle, Cicero, Aquinas, and Machiavelli. Emphasis on the concepts of justice, human nature, and the state. Offered fall and winter semesters.

## **PLS 232 - Modern Political Thought (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Survey of selected modern political theorists, including Hobbes, Locke, Rousseau, Mill, and Marx. Emphasis on the concepts of the role of government, nature of justice, human nature, property, and political change. Offered fall and winter semesters.

### **PLS 240 - The Holocaust (3 credits)**

Investigates the psychological, social, political, historical, cultural, and economic sources of human aggression and cooperation by focusing on the Nazi destruction of European Jews in World War II. Cross-listed with HNR 231. Offered winter semester.

### **PLS 281 - Comparative Political Systems: Canada (3 credits)**

An analysis of the socioeconomic factors that influence the political processes, through a comparison of the political system in the United States with Canada. Fulfills Cultures - Global Perspectives. Offered fall semester of even-numbered years.

### **PLS 283 - Chinese Politics and U.S.-China Relations (3 credits)**

A historical and thematic survey of Chinese politics by examining the patterns and dynamics of its political, economic, and social developments, as well as its interaction with the United States. Fulfills Cultures - Global Perspectives. Offered fall semester.

### **PLS 284 - Latin American Politics (3 credits)**

The course analyzes the socioeconomic factors that influence political processes in Latin American countries, combining themes and case studies. Topics include theories of development, the historical role played by various political actors, and the current nature of development, inequality, democracy, and the politics of gender and race relations in the region. Fulfills Cultures - Global Perspectives. Offered fall semester.

### **PLS 300 - Political Analysis (3 credits)**

Empirical analysis of domestic and international political issues. Topics include data collection strategies and problems, statistical techniques for analyzing small and large data sets, as well as other formal methods of political analysis. Offered fall and winter semesters. Prerequisite: STA 215.

### **PLS 301 - Poverty, Inequality, and U.S. Public Policy (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course examines poverty and inequality in the United States. Topics include definitions of poverty and inequality, historical trends, and policy responses. Diverse perspectives, including international comparisons, will be presented. Students will explore various dimensions of inequality through small group activities. Part of the Identity Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **PLS 302 - Women, Politics, and Public Policy (3 credits)**

This course explores the ways that gender influences government and policy decisions. Students will explore many gendered issues and the relevant policy responses. Topics include domestic violence, reproductive policies, divorce and the family, marriage and the family, poverty, class, and compensation. Cross-listed with WGS 302. Offered fall semester. Prerequisite: PLS 102 or junior standing.

## **PLS 303 - Introduction to U.S. Environmental Policy (3 credits)**

This course examines the decision-making processes to cope with modern environmental problems. The course focuses on both domestic and international environmental issues with special attention to interests, ideas, and institutions. Part of the Sustainability Issue. Cross-listed with ENS 303. Offered fall and winter semesters. Prerequisite: Junior standing.

## **PLS 304 - Political Parties and Interest Groups (3 credits)**

A theoretical examination of the roles that these two different types of groups play in politics and an empirical examination of what they do and how they do it. Although the primary focus is on the U.S. political system, some comparative material will be presented. Offered winter semester. Prerequisite: PLS 102 or junior standing.

## **PLS 305 - Congress and the Presidency (3 credits)**

An examination of the interrelationships among the modern president, Congress, and the federal bureaucracy, stressing contemporary forces and personalities affecting the relationship. Offered fall semester. Prerequisite: PLS 102 or junior standing.

## **PLS 306 - American Constitutional Law I (3 credits)**

This course examines the constitutional foundations of the power relationship between the federal government and the states, among the three branches of the federal government, and between the government and the individual, with special emphasis given to the role of the Supreme Court in a democratic political system. Offered fall semester. Prerequisite: PLS 102 or junior standing.

## **PLS 307 - American Constitutional Law II (3 credits)**

Civil liberties and civil rights. Constitutional principles, theories of constitutional interpretation, Supreme Court rulings, political consequences of rulings, and political and legal factors that influence Supreme Court decisions, especially civil rights decisions. Offered winter semester. Prerequisite: PLS 102 or junior standing.

## **PLS 310 - Politics and Health Policy (3 credits)**

Explores contemporary issues in health policy and politics. The course will present the historical context, institutions, participants, and issues that structure health policy. Cross-listed with PNH 310. Offered fall semester. Prerequisite: PLS 102 or PNH 270 or junior standing.

## **PLS 311 - International Conflict and Conflict Resolution (3 credits)**

Analysis of the causes of war and conditions for peace. Topics also include peacekeeping operations and the outcomes and ethics of war. Offered winter semester. Prerequisite: PLS 211 or junior standing.

## **PLS 312 - U.S. Foreign Policy (3 credits)**

Survey of factors and forces that shape the making and implementation of U.S. foreign and defense policy. Emphasis on the perceptions of decision-makers, the impact of the policy-making process on decisions, and actual policies made since World War II. Offered fall and winter semesters. Prerequisite: PLS 102 or PLS 211 or junior standing.

## **PLS 313 - International Organization (3 credits)**

Analysis of the major global and regional institutions that promote order and cooperation in the international system, including the United Nations, World Bank, European Union, and NATO. Explores the theory and practice of government and nongovernment organizations in addressing issues such as poverty, human rights, and the environment. Offered winter semester of even-numbered years. Prerequisite: PLS 211 or junior standing.

## **PLS 314 - International Law (3 credits)**

A study of the general principles of international law with emphasis on the role of law in political and economic relations of nations. Offered winter semester of odd-numbered years. Prerequisite: PLS 211 or junior standing.

## **PLS 315 - International Political Economy (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Analysis of the politics of international economic relations, with an emphasis on globalization, regional integration, trade, foreign investment, debt, and foreign aid. Offered winter semester. Prerequisite: One of PLS 211, ECO 200, ECO 210, or ECO 211.

### **PLS 316 - Human Rights in International Politics (3 credits)**

An analysis of human rights as an increasingly influential principle in international relations, and the friction between sovereignty and international standards of behavior. Topics covered within class may include the theoretical origins of human rights, international norms, international law, sovereignty, interventionism, particularly viewed through historical and contemporary human rights cases. Cross-listed with HRT 316. Offered fall semester. Prerequisite: PLS 103 or PLS 211 or junior standing.

### **PLS 319 - African Politics (3 credits)**

A study of social and economic forces that shape the political processes in Africa through a combination of individual cases and general themes. Topics include colonization, regional integration, democratic transitions, state collapse and violence, politics of ethnicity, religion, gender and class, civil society, development, and Africa's role in world affairs. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Cross-listed with AAA 319. Offered fall semester. Prerequisite: Junior standing.

### **PLS 320 - Comparative Politics of the Middle East (3 credits)**

This course presents a survey of current Middle East comparative politics. Students will be introduced to the most salient political issues in the Middle East. It will focus on examining the region's political institutions, actors, regime types, gender politics, political economy, civil society organizations, and political processes. Offered winter semester.

### **PLS 321 - The European Union (3 credits)**

An examination of politics and policies in the European Union that includes participation in an international political simulation. Students spend three days in Indianapolis in April to take part in the Midwest Model EU. Topics include integration theory, institutional reform, enlargement, and economic, social, environmental, and security policies. Offered winter semester of odd-numbered years. Prerequisite: PLS 221 or permission of instructor.

### **PLS 325 - Human Rights and Democracy in Russia and the Post-Communist World (3 credits)**

A comparative analysis of the intersection of human rights and political regimes in Russia, the former Soviet Union, and post-communist Europe. Emphasis will be placed on the different

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

levels of state repression and protections as well as civil, political, social, and economic rights across the broader post-communist region. Offered winter semester. Prerequisite: PLS 103 or junior standing.

### **PLS 327 - Politics of Developing Countries (3 credits)**

An examination of government and political economy in developing countries. Topics include nation and state building, authoritarianism and democratization, and contemporary policy issues, including population growth, urbanization, hunger, and economic structural adjustment. Offered winter semester. Prerequisite: PLS 103 or junior standing.

### **PLS 330 - Religion and Politics in America (3 credits)**

Explores the interaction of politics and religion in the United States. Surveys the political beliefs, behaviors, and organizations within major religious traditions. Other topics include the role of religion in crafting public policy, the politics of church and state, and general theories of religion and public life. Offered winter semester of odd-numbered years. Prerequisite: PLS 102 or junior standing.

### **PLS 333 - Contemporary Political Thought (3 credits)**

An examination of political thought from roughly the beginning of the 20th century to present. Schools of thought under study may include pragmatism, neoconservatism, critical theory, poststructuralism, philosophical hermeneutics, feminism, neoliberalism, and communitarianism. Offered winter semester. Prerequisite: PLS 231 or PLS 232 or junior standing.

### **PLS 334 - Sex, Power, and Politics (3 credits)**

Explores the ways that gender identity and sexual orientation matter politically, intersect with race and class issues, and impact human flourishing. Examines these issues from a philosophical perspective, sets them in historical and contemporary political contexts, and investigates the role public policy and social norms play in the process. Part of the Identity Issue. Cross-listed with WGS 334. Offered winter semester. Prerequisite: Junior standing.

### **PLS 335 - Theory of Human Rights (3 credits)**

Critical examination of theories of human rights, with emphasis on classical ethical and political thought and the development of modern rights theory. Assessment of arguments both supporting and denying human rights, and applications to contemporary issues of slavery and trafficking, torture, genocide, and rights of women and sexual minorities. Cross-listed with HRT 335. Offered winter semester. Prerequisite: PLS 105 or PLS 231 or PLS 232 or HNR 263.

### **PLS 337 - U.S. Political Thought (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An examination of U.S. political thought from the colonial period to the present. Readings may include Federalist and Antifederalist papers, and works by Thoreau, Emerson, Cady Stanton, Anthony, Calhoun, DuBois, Dewey, Addams, King, and Malcolm X. Special attention is paid to political ideas emerging from the struggles for equal rights for all citizens. Offered fall semester. Prerequisite: Junior standing.

## **PLS 338 - Citizenship (3 credits)**

Citizenship addresses a core political issue, defining membership in a political community. Course studies classic statements about citizenship, the approach to citizenship taken historically in the U.S., a nation of immigrants, and several different contemporary visions of ethically appropriate citizenship. Offered fall and winter semesters. Prerequisite: Junior standing.

## **PLS 339 - Democracy and the Authoritarian Challenge (3 credits)**

Comparative examination of theories of democratization and resilience of authoritarianism. Explores regime definitions, theoretical debates of democracy and dictatorship, factors associated with democratic deepening, and the consequences for human rights protection. Includes contemporary case studies from Africa, East and South Asia, Europe and Eurasia, Latin America, and the Middle East. Part of the Human Rights Issue. Offered fall semester. Prerequisite: Junior standing.

## **PLS 340 - Mass Media and American Politics (3 credits)**

An examination of the role of the mass media in American politics, including the news media as a political institution, the news media as policy makers, media influence on political leaders, and media impact on public opinion. Offered winter semester. Prerequisite: PLS 102 or junior standing.

## **PLS 341 - Elections and Voting Behavior (3 credits)**

An empirical analysis of the electoral systems through which citizens in democracies select leaders and influence public policy and factors that influence how and whether people vote; considers major recent changes in the United States' electoral system and alternatives to it. Offered winter semester. Prerequisites: PLS 102, STA 215, and PLS 300.

## **PLS 350 - Comparative Public Opinion (3 credits)**

This course examines the methodology and application of international survey research in the comparative analysis of public opinion. The primary emphasis is the comparison of mass politics in the United States of America to other advanced industrial democracies. Subjects studied

include electoral behavior, civic involvement, political attitudes, and ideologies. Offered fall and winter semesters. Prerequisites: STA 215 and PLS 300; or permission of the instructor.

### **PLS 380 - Special Topics in Political Science (3 credits)**

The study of special and interesting problems, domestic and/or international, will be scheduled from time to time. Offered on sufficient demand.

### **PLS 399 - Readings in Political Science (1 to 3 credits)**

Independent advanced readings on selected topics. Offered fall and winter semesters. Prerequisites: Previous coursework in the area of interest and permission of the instructor supervising the reading. A maximum of six credits in PLS 399 and PLS 499 and no more than nine credits in PLS 399, PLS 499, and PLS 490 may be taken. Graded credit/no-credit.

### **PLS 490 - Internship (2 to 6 credits)**

Supervised field experience with a legislative office, executive agency, political campaign organization, interest group, lobbying organization, legal office, or international organization. The purpose is to allow the student to apply academic knowledge to a work experience. Offered every semester. Prerequisites: Junior standing and permission of sponsoring instructor. A maximum of six credits in PLS 490 and no more than nine credits in PLS 399, PLS 499, and PLS 490 may be taken. Graded credit/no-credit.

### **PLS 495 - Seminar in the Study of Politics (Capstone) (3 credits)**

Review of the political science discipline; consideration of special problems in the study of politics (subject to be announced at least one term in advance). Research paper, readings, and discussions. Offered fall and winter semesters. Prerequisites: Senior standing in political science.

### **PLS 499 - Independent Research (2 to 6 credits)**

Supervised individual research in an area of interest to the student which culminates in a research paper and oral report. Offered fall and winter semesters. Prerequisites: Junior standing and permission of the instructor supervising the research. A maximum of six credits in PLS 399 and PLS 499 and no more than nine credits in PLS 399, PLS 499, and PLS 490 may be taken. Graded credit/no-credit.

### **PNH 150 - Careers in the Nonprofit Sector (1 credit)**

The purpose of this course is to introduce students to careers that are available in the nonprofit sector, with an emphasis on the management and administrative positions that are available.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Specific areas of interest include careers in fundraising, program management, and volunteer management. Graded credit/no-credit. Offered fall and winter semesters.

### **PNH 151 - Careers in the Public Sector (1 credit)**

The purpose of this course is to introduce students to careers that are available in the public sector at the local, state, or federal level. Students will learn about the skills needed for successful careers in government, public policy or advocacy. Graded credit/no-credit. Offered fall and winter semesters.

### **PNH 152 - Careers in Health Administration (1 credit)**

This course will introduce students to careers that are available in healthcare administration. Students will learn about the exceptional career opportunities available in health administration, hospital leadership, and health care management, in both the private and public sector, including the skills necessary to secure and maintain these positions. Graded credit/no-credit. Offered fall and winter semesters.

### **PNH 209 - Introduction to Urban and Regional Planning (3 credits)**

An introductory course for people interested in careers in planning and public administration. The course explores the relationship between the goals of a community and the techniques needed to implement long term and sustainable strategies. Cross-listed with GPY 209. Offered fall semester.

### **PNH 220 - Organizing to Make a Difference (3 credits)**

The purpose of this course is to provide an introduction to community organizing, outreach and advocacy; specifically, the knowledge, skill and value base underpinning community organizing, planning, development and change. It will emphasize the myriad roles, goals, and strategies in effecting social change in the public and nonprofit sectors. Offered fall and winter semesters.

### **PNH 270 - Public and Nonprofit Administration (3 credits)**

A survey of what is involved in the administration of public and nonprofit entities. How to hire, evaluate, and reward the right people, developing and carrying out public policies, preparing and interpreting budgets, dealing with various pressure groups and governmental agencies, and organizing human resources to carry out the public's business honestly and effectively. Several case studies will be used. Fulfills one of the Foundations - Social and Behavioral Sciences. Offered every semester.

### **PNH 300 - Research Methods (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course involves an examination of basic investigatory methods in public administration. Focus is on logic, theory, and ethics of research; the formulation and testing of hypotheses; research designs and sampling procedures; data collection and analysis; and the communication of findings. Prerequisites: STA 215, junior standing, and PA major.

## **PNH 307 - Local Politics and Administration (3 credits)**

Comparative study of government systems, rural and urban. Students specialize in their own governments. Offered every semester.

## **PNH 310 - Politics and Health Policy (3 credits)**

Explores contemporary issues in health policy and politics. The course will present the historical context, institutions, participants, and issues that structure health policy. Cross-listed with PLS 310. Offered fall semester. Prerequisite: PLS 102 or PNH 270 or junior standing.

## **PNH 313 - Land Use Planning (3 credits)**

This course deals with the fundamental concepts, principles, strategies, and tools of city and regional land use planning. The focus is on the real-world and sustainable land use planning process and implementation. Cross-listed with GPY 310. Offered every semester.

## **PNH 324 - Urbanization (3 credits)**

Examines the process of urbanization, its impact on various cultures, and its long-term sustainability. Considers the rapid urbanization in the developing countries and the dynamic growth of global urban systems, emphasizing the evolution of cities over time, space, and vastly different social, political, and cultural environments. Fulfills Cultures - Global Perspectives. Part of the Sustainability Issue. Cross-listed with GPY 324. Offered fall semester. Prerequisite: Junior standing.

## **PNH 330 - Health Care Financing (3 credits)**

Explores the complexity of the financing of health care in the U.S. with emphasis on its impact on the delivery of services. Offered winter semester.

## **PNH 335 - Grant Writing (3 credits)**

Provides instruction in writing grants, evaluating grant proposals, and in researching and cultivating funding sources. Students will gain an understanding of the link between organizational mission and program development by preparing a full proposal to meet a real-life community need. Offered fall semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)**

A survey of voluntarism and the nonprofit sector in America. Historical development, policy questions, funding issues and trends of major subsectors (religion, education, health, social services, the arts) are examined. The sector's interdependence with government and business and its basis in philanthropy and democracy are interwoven throughout the topics. Offered fall and winter semesters.

## **PNH 370 - Human Dynamics of Nonprofit Organizations (3 credits)**

This course is designed to provide students with an understanding of the important roles that staff, board members and volunteers play in successful nonprofit organizations. Topics covered in the course include: nonprofit personnel management; board organization and governance; and volunteer motivation and management. Offered every semester. Prerequisites: PNH 360 and PNH 376.

## **PNH 372 - International and Comparative Administration (3 credits)**

An examination of administrative structures in selected countries; the relationship of administrative structures to political, economic, and cultural systems; comparative administration and developmental models. Case studies from the U.S., Europe, Latin America, and Asia may be used. Offered on sufficient demand. Part of the Globalization Issue. Prerequisite: Junior standing.

## **PNH 374 - Fundraising and Financial Management for Nonprofit Organizations (3 credits)**

This course is designed to provide students with an understanding of the important roles that resource development and financial management play in the success of a nonprofit organization. Key topics include: securing contributed revenue; special events fundraising; grant writing and grants management; financial reporting; evaluating financial performance; and budgeting. Offered every semester. Prerequisite: PNH 360.

## **PNH 375 - Public Budgeting and Finance Administration (3 credits)**

The content, tools, and techniques of budgeting from the perspectives of the manager, legislator, and citizen. A survey of revenue raising methods and administration. Applicable to public jurisdictions and nonprofit agencies of all sizes. Includes accounting principles essential to public management. Offered fall and winter semesters.

## **PNH 376 - Public Personnel Policy and Administration (3 credits)**

Managing the human resources of government and nonprofit agencies. An examination of public personnel functions (recruitment, training, employee relations, remuneration, conduct, and organization) and special issues such as collective bargaining and equal opportunity employment. Offered fall and winter semesters.

## **PNH 380 - Special Topics in Public and Nonprofit Administration (1 to 3 credits)**

Consideration of selected topics not ordinarily dealt with in other courses. Topics to be determined by faculty interest and student request. Offered on sufficient demand.

## **PNH 390 - Leadership Dynamics (3 credits)**

Examines and applies leadership issues, concepts, and situations that are evident in various community and public or nonprofit organizational contexts. Offered once a year.

## **PNH 395 - Emergency Management (3 credits)**

Students develop crisis/emergency management and preparedness skills for themselves, for disaster volunteers, for workplaces, and for government agencies. Students study a comprehensive approach to emergency planning, response, and recovery, with roles for federal, state, and local governments, nonprofit agencies, and private sector organizations. Offered winter semester.

## **PNH 399 - Independent Readings in Public Administration (1 to 3 credits)**

Independent, supervised readings on selected topics that are not dealt with in-depth in another course. Offered every semester. Graded credit/no-credit. Prerequisite: Permit only.

## **PNH 420 - Organization Theory and Dynamics (3 credits)**

An exploration of the various theories that inform the structures of organizations and the resulting dynamics of accommodation, direction, control, permission, and ethical dilemmas that are set in place within and between the public structures of our society. Offered fall and winter semesters.

## **PNH 449 - Policy Research and Evaluation (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course uses a policy studies framework to examine systematically the nature, causes, and effects of alternative public policies, with an emphasis on implementation. Offered fall and winter semesters. Prerequisite: Senior standing or permission of instructor.

## **PNH 480 - Special Topics in Public Administration (1 to 9 credits)**

Consideration of selected topics not ordinarily dealt with in other courses. Topics to be determined by faculty interest and student request. Offered on sufficient demand.

## **PNH 490 - Public Administration Internship (3 credits)**

Supervised internship in a local or state agency, program, or legislative body. The purpose of the internship is to allow the student to apply academic knowledge of professional skills to a work situation. Offered every semester. Graded credit/no-credit. Prerequisite: Permit only.

## **PNH 491 - Public Administration Internship II (3 credits)**

A second internship, to be taken concurrently with PNH 490 when field experience warrants it, or may be taken after PNH 490 by those taking an additional fieldwork experience. Offered every semester. Graded credit/no-credit. Prerequisite: Permit only.

## **PNH 495 - Community Analysis (Capstone) (3 credits)**

Basic analytical concepts, including group dynamic skills, housing and land use surveys, historic district analysis, and neighborhood identification. Offered every semester. Prerequisite: Senior standing.

## **PNH 499 - Independent Study and Research in Public Administration (1 to 3 credits)**

Independent research in the student's area of interest, supervised by public administration faculty and culminating in a written and oral report. Offered every semester. Graded credit/no-credit. Prerequisite: Permit only.

## **PNH 520 - Foundations of Public Service (3 credits)**

This course includes a history of ideas about public service; a definition and analysis of the governmental sector, the nonprofit sector, and their intersection; a study of classic and contemporary debates within the public service field; and an examination of how public-serving organizations adapt to changing environments. Offered fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PNH 535 - Grant Writing (3 credits)**

Instruction in finding grant sources, writing grants, developing grant budgets and evaluating grant proposals. As part of this course, students will be expected to write and submit at least one actual grant proposal. Offered once a year.

## **PNH 550 - Public Administration Workshop (.5 to 3 credits)**

Advanced-level workshop directed toward public sector professionals focusing on specific public sector problems and policies. Format and scheduling are flexible and may include weekend sessions. Topics will vary and prerequisites may be established. Offered on sufficient demand. Graded credit/no-credit.

## **PNH 551 - Public Administration Workshop (1 to 3 credits)**

Advanced-level workshop directed toward public sector professionals focusing on specific public sector problems and policies. Format and scheduling are flexible and may include weekend sessions. Topics will vary and prerequisites may be established. Offered on sufficient demand. Graded credit/no-credit. Prerequisite: Admission to the M.P.A. program or permit.

## **PNH 554 - Philanthropic Topics, Trends, and Thought Leaders Workshop (.5 to 3 credits)**

These workshops provide students with timely, interesting, and diverse content that complements learning in their graduate courses and exposes them with the topics, trends and thought leadership currently engaging the Johnson Center for Philanthropy. Through the workshops, students have the opportunity to interact with both local and visiting practitioners and thought leaders. Offered fall and winter semesters. Prerequisite: Admission to a graduate program or as a nondegree-seeking graduate student.

## **PNH 611 - Research Methods (3 credits)**

An advanced survey of the most important and frequently used methods and techniques of research and analysis used by administrators and planners. Course also will familiarize students with the use of computers for such research and analysis. Emphasizes the application of research and analysis in public administration. Offered every semester. Prerequisite: PNH 520 or PNH 630 or PNH 660 (may be taken concurrently).

## **PNH 612 - Human Resources in Organizations (3 credits)**

A survey of policies and issues in human resource management in public, nonprofit, and healthcare contexts, including volunteer management. The focus is on values, behavior, ethics, and human interactions in organizations. Offered spring/summer and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Prerequisite: Admission to a master's program in the School of Public, Nonprofit, and Health Administration.

## **PNH 614 - Organization Theory (3 credits)**

Explores the various theories of organizations. Focus is on the process of structural development and the impact each structure has on individuals and groups. Offered fall and winter semesters. Prerequisite: PNH 520 or PNH 630 or PNH 660 (may be taken concurrently).

## **PNH 615 - Public Financial Administration (3 credits)**

Practices and problems of public fiscal management with special attention to budgetary concepts and analytical techniques: the budget as an instrument of planning and control; organizing to ensure fiscal accountability; the public economy; financial decision-making; planning, programming, and budgeting systems; and allocation of scarce government resources in government and nonprofit agencies and programs. Offered fall semester. Prerequisite: PNH 520 or PNH 630 (may be taken concurrently).

## **PNH 616 - Public Policy Analysis (3 credits)**

An exploration of theories advanced to explain policy formation; examination of how needs are identified, communicated to policy makers, evaluated and converted into formal policy, and implemented by administrative actions. Emphasis is on policy analysis in the public sector. Offered winter semester. Prerequisites: PNH 520 or PNH 630; and PNH 611.

## **PNH 619 - Public Management Seminar (3 credits)**

Examines the structure and dynamics of organizations; problems of financing, staffing, and program implementation; administrative reform and reorganization; qualitative and quantitative methods for managerial decision-making; goal-directed processes and effective planning. Uses a case study approach emphasizing management problems. Offered fall and winter semesters. Prerequisite: Completion of 30 credit hours in M.P.A. or M.H.A. program.

## **PNH 620 - Metropolitan Politics and Administration (3 credits)**

Examines theories and practice of metropolitan politics and administration, including studies of intergovernmental relations, suburbia and the multicentered metropolis, economic development and managing metropolitan services. Structures of politics and power, both formal and informal, are investigated. Offered spring/summer and fall semesters. Prerequisite: PNH 520 (may be taken concurrently).

## **PNH 621 - Administrative and Regulatory Law (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An intensive study of administrative and regulatory law as it relates to the public sector. Requirements for, and limits on, the exercise of power by elected and appointed official and liability of public managers are covered. Offered fall semester. Prerequisite: PNH 520 or PNH 630 (may be taken concurrently).

### **PNH 630 - Health Administration and Service (3 credits)**

Overview of the current management, organization, and delivery of U.S. health care. Current management and organization theories are compared in relation to the health care system. Major system components are defined and studied. Included are discussions of staffing, dealing with internal and external constituencies, and identification of hospital types. Offered every other year.

### **PNH 631 - U.S. Health Policy and Politics (3 credits)**

Examines public policy-making in the health care sector since 1900. Emphasizes policy, the process of government regulation, and the character of health settings at the federal, state, and local levels with attention to the constitutional foundations, legislative policies, and bureaucratic implementation features of the system in a political context. Offered fall semester. Prerequisite: PNH 520 or PNH 630 (may be taken concurrently).

### **PNH 632 - Health Services Financial Management (3 credits)**

Provides detailed understanding of the health services financial framework for decision-making. Microcomputer applications that serve to facilitate operational and financial planning and analysis, third party reimbursement, regulation, cost containment, rate settings, operating budgets, capital budgets, project budgeting, cash budgeting, and financial feasibility. Offered winter semester. Prerequisite: PNH 611.

### **PNH 633 - Health Economics (3 credits)**

Examines the principles and application of economic analysis in the health industry. Provides insights offered by economic analysis of relevant data specific to health issues and problems such as failures of the market system, large gaps in access, cost containment, regulation, and extensive growth of private insurance and government programs. Cross-listed with ECO 643. Offered winter semester. Prerequisite: PNH 520 or PNH 630 (may be taken concurrently).

### **PNH 634 - Health Care Law and Ethics (3 credits)**

Examines current and historical legal and ethical issues impacting health administration, including malpractice and other liability issues, licensing and regulation, professional ethics, contracts and property, insurance, corporate, taxation, anti-trust, fraud and abuse, medical staff, confidentiality, health care access, peer review, ethics committees, legal and ethical aspects of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

patient care decision-making and consent. Offered winter semester. Prerequisite: PNH 520 or PNH 630 (may be taken concurrently).

### **PNH 635 - Hospital Organization and Management (3 credits)**

Discussions of various types of hospitals. Study of their organization and management, including clinical, support and administrative functions, analysis of special operational problems, and administrative ethics. Requirements of the Joint Commission of Accreditation of Hospitals and other accrediting agencies are emphasized. Offered on sufficient demand. Prerequisite: PNH 520 or PNH 630 (may be taken concurrently).

### **PNH 636 - Health Care Quality Improvement (3 credits)**

This course focuses on methods and tools used to manage quality in a variety of health care settings, including hospitals, clinics, physician practices, managed care, and long-term care. It addresses developments in health care quality assurance and improvement, data sources and analysis tools, staffing and management, accreditation, and public relations. Offered winter semester. Prerequisites: PNH 611, PNH 612, PNH 630, and PNH 631.

### **PNH 637 - Healthcare Practice Management (3 credits)**

In this course students will gain a comprehensive understanding of the complexities of healthcare practice management. Study of their organization and management, including clinical, support and administrative functions, analysis of special operational problems, and administrative ethics. Requirements of accrediting agencies are emphasized. Offered fall semester. Prerequisite: PNH 520 or PNH 630 (may be taken concurrently).

### **PNH 638 - Continuing Care Organization and Management (3 credits)**

Overview of organization and management of continuing care organizations, including community-based, home health, adult daycare, hospices, mental health, and residential care options like senior living, assisted living, and skilled nursing facilities. Examines management and funding of institutional and noninstitutional settings serving the chronically, terminally, or mentally ill, or disabled elderly. Offered winter semester. Prerequisite: PNH 520 or PNH 630 (may be taken concurrently).

### **PNH 639 - Community Benefits Assessment and Management (3 credits)**

Covers community assessment, program planning, and program management techniques with an emphasis on health. Community relations and coordination will be addressed. Prepares students for IRS, grant planning, and reporting. Course offered fall semester. Prerequisite: PNH 611 (for M.H.A. and M.P.N.L. students) or STA 610 (for M.P.H. students).

## **PNH 640 - Marketing Health and Human Services (3 credits)**

Explores and applies marketing and public relations concepts to a variety of health and human service functions. Included are the integration of marketing and public relations planning and programs in organizations. Focuses on social and ethical issues of promoting wellness and health care, as well as communication with the community and media. Offered on sufficient demand. Prerequisite: PNH 520 or PNH 630 or PNH 660 (may be taken concurrently).

## **PNH 641 - Economic and Community Development (3 credits)**

Describes and evaluates ways to coordinate the efforts of public agencies, private businesses, and nonprofit organizations to address planning, economic development, and employment issues more comprehensively. Included in this analysis are public and private programs basic to economic development, state and federal enabling legislation and regulations, and local ordinance and public/private partnership alternatives. Offered winter semester. Prerequisite: PNH 520 or PNH 630 (may be taken concurrently).

## **PNH 642 - Conflict Management (3 credits)**

Provides an overview of theories of social conflict. Develops an understanding of the conceptual issues involving conflict and conflict management on many levels in diverse settings. Introduces specific dispute resolution skills such as negotiation and mediation. Offered on sufficient demand. Prerequisite: Admission to the M.P.A. or M.H.A. program.

## **PNH 643 - Strategic Management and Planning (3 credits)**

Planning as a decision-making process, methods for defining goals in public and private planning programs, role of planning in policy formulation, planning for human environment relationships. Offered fall and winter semesters. Prerequisite: PNH 520 or PNH 630 or PNH 660 (may be taken concurrently).

## **PNH 644 - GIS in the Public Service (3 credits)**

Examines the management and application of geographic information systems (GIS) in the public and nonprofit sectors. Lectures and readings emphasize the organizational, managerial, and ethical issues of interagency/intergovernmental GIS projects. Hands-on lab instruction

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

provides training in desktop GIS software. Offered fall semester. Prerequisite: Admission to the M.P.A. or M.H.A. program.

## **PNH 645 - Opportunities in Aging Societies (3 credits)**

Analyses of population aging, the longevity revolution, and their impacts on individuals, families, organizations, communities and society. Critical evaluation of theories and controversies of aging, together with practices to address aging realities. Uses strength-based approaches. Attention given to key social and health policies and programs for older adults and their families. Cross-listed with SW 665. Offered fall semester.

## **PNH 646 - Managerial Epidemiology for Health Administrators (3 credits)**

This course provides future health administrators with a firm grounding in the history and purpose of public health, population health, and the extensive variety of programming for improving population health. It also provides a grounding in managerial epidemiology. Offered fall semester.

## **PNH 650 - Health Administration, Services, and Policy (3 credits)**

This is an overview of current U.S. health care organizational leadership, types, and trends including comparison of current management, organization theories, and global health systems. Health care public policy making is analyzed and described emphasizing the historical, philosophical, and political aspects of public policy including policy development, analysis, and constituent advocacy. Offered fall semester. Prerequisite: Admission into the Master of Public Health.

## **PNH 660 - Philanthropy and the Nonprofit Sector: History and Ethics (3 credits)**

A comprehensive survey of philanthropic traditions and practices in the nonprofit sector, its history, philosophy, character, governance, and legal status. Emphasis on the role and tradition of philanthropy and voluntarism in America and on the special fundraising, resource development, and ethical practices of the sector. Prerequisite: Admission to the M.P.A., M.H.A., or M.P.N.L. programs.

## **PNH 661 - Nonprofit Management: Practices (3 credits)**

Explores the assumptions and practice of nonprofit organization management. Examines how these issues differ in different types of nonprofits. Topics include issues of public accountability,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ethics, evaluating organizational effectiveness, personnel motivation, board and staff relationships, volunteers, and the meaning of service. Offered winter semester. Prerequisites: PNH 660 and (PNH 520 or PNH 630).

## **PNH 662 - Nonprofit Financial Management (3 credits)**

This course will examine nonprofit finance and accounting from the management perspective. Topics include financial policies and internal controls, financial statement presentation and analysis, audit and tax reporting, and budgeting. Offered winter semester. Prerequisite: PNH 520 or PNH 660.

## **PNH 663 - Nonprofit Organizations, Advocacy and Public Policy (3 credits)**

An introduction to the public policy making process as it applies to nonprofit organizations. Explores how nonprofit organizations both shape and are shaped by public policy. Focus is on the intersection of nonprofit and government actions and services. Offered fall semester. Prerequisites: PNH 660 and either PNH 520 or PNH 630.

## **PNH 664 - Program Evaluation (3 credits)**

Program evaluation is an important component of management and quality improvement. This course draws from the leading scholars in evaluation to establish a foundation of knowledge in program evaluation and evaluation capacity building. Offered fall semester. Prerequisites: PNH 611 and PNH 614.

## **PNH 665 - Nonprofit and Foundation Boards, Trustees and Governance (3 credits)**

Examines perspectives on, models for, and functions of board governance and the way governance and management are intertwined in the operation and leadership of foundations and nonprofit organizations. Explores specific functions of trustees within their legal, ethical, and fiduciary obligations. Offered every other year. Prerequisites: PNH 520 and PNH 660 or PNH 630 (may be taken concurrently).

## **PNH 666 - Foundations and Strategic Grantmaking (3 credits)**

This course explores the implementation of strategic grantmaking and the application of theories of change by charitable foundations, nonprofit organizations, and governments as they aim to achieve measurable community impacts. Through field journal readings, case studies, and visiting practitioner presentations, students will gain practical knowledge in the evaluation of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

grant applications, the role of foundation program officers, and the effective execution of grantmaking strategies. Offered winter semester. Prerequisites: PNH 660 and PNH 667.

### **PNH 667 - Fund Development (3 credits)**

This course will examine fund development in theory, process, and implementation within nonprofit organizations. The course is designed and taught primarily from the development manager's perspective; however, the course will also briefly cover development from the grantmaking perspective. Offered fall and winter semesters. Prerequisites: PNH 660 and PNH 661 (PNH 661 may be taken concurrently).

### **PNH 669 - Leadership Capstone (3 credits)**

Leadership has many meanings and many different theories. This class will explore the concept of leadership in a theoretical and practical sense. We will challenge typical assumptions of leadership and explore leadership theories and practice in nonprofit organizational settings. Offered fall and winter semesters. Prerequisites: PNH 660 and PNH 661. Must complete 30 credits in the M.P.N.L. before enrolling in this course.

### **PNH 670 - International NGO Management (3 credits)**

Theory and cases in international nongovernmental organizations (INGO) management. Analysis of various types and various roles played by INGOs. Relationship between INGOs and other actors in international development such as multilateral and bilateral donors, host governments, local NGOs, and local communities. Resource generation and management. Assessment and improvement of INGO performance. Offered winter and spring/summer semesters. Prerequisite: PNH 520 or with permission.

### **PNH 671 - Building Sustainable Communities (3 credits)**

Provides an overview of ecological, energy, climatic, and consumption issues impacting local communities. Through a multidisciplinary approach, students study the relationship among society, organizations, and the natural environment. Students examine how local governments and nonprofit organizations develop sustainable built landscapes, educate about sustainable best practices, and foster green economic development. Offered fall semester. Prerequisite: Admission to the sustainability certificate or M.P.A. programs.

### **PNH 674 - Health Advocacy and Built Environment in Public Administration (3 credits)**

This course explores the relationship between advocacy and the built environment and its influence on community health in the fields of public health and urban planning. This course will examine such issues as theories and concepts of behavior and design, health disparities, social

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

capital, physical activity, transportation, and food systems. Offered winter semester. Prerequisite: Admission to the M.P.H. program or PNH 520 or PNH 630.

## **PNH 680 - Special Topics in Public and Nonprofit Administration (1 to 3 credits)**

A seminar for the study of important topics not ordinarily covered in other courses. Course may be taken more than once when the topic is different. Offered on sufficient demand. Prerequisite: Admission to the M.P.A. or M.H.A. program.

## **PNH 690 - Public Administration Internship I (3 credits)**

Open to preservice students and those without public service employment experiences. Students will be given the opportunity to test and apply classroom knowledge to an actual professional position in a public agency or nonprofit organization. Offered every semester. Graded credit/no-credit. Prerequisite: Admission to the M.P.A. or M.H.A. program and permit.

## **PNH 691 - Public Administration Internship II (3 credits)**

A second internship. May be taken concurrently with PNH 690 when field experience warrants it, or may be taken after PNH 690 by those taking an additional fieldwork experience. Offered every semester. Graded credit/no-credit. Prerequisites: PNH 690 and permit.

## **PNH 693 - Research Project (3 or 6 credits)**

Course requires preparation of an extensive research and writing assignment under faculty supervision. Offered on sufficient demand. Graded credit/no-credit. Prerequisites: Faculty approval of research proposal and completion of the Responsible Conduct of Research Training within the last three years.

## **PNH 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **PNH 699 - Directed Readings (3 credits)**

A research or reading project, program proposal, or other approved activity that builds in the student's area of specialization. Offered fall and winter semesters. Graded credit/no-credit. Prerequisite: Permission of advisor.

## **POL 101 - Elementary Polish I (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An introduction to the language with emphasis on listening, speaking, reading, and writing. Complementary taped material available in the language laboratory. Not for credit for students with prior college Polish or more than two semesters of high school Polish. Offered fall semester.

## **POL 102 - Elementary Polish II (4 credits)**

Continuation of POL 101 with emphasis on listening, speaking, reading, and writing. Complementary taped material is available in the language lab. Offered winter semester. Prerequisite: POL 101 with C (not C-) or better, or permission of instructor.

## **POL 180 - Special Topics in Polish (1 to 4 credits)**

Readings, lectures, and/or discussions in special topics not normally covered by other courses in the program.

## **POL 201 - Intermediate Polish I (4 credits)**

Continuation of POL 102. Continued study of grammar and vocabulary. Special emphasis on oral and reading practice based on literary texts; review of grammar supplemented with taped materials in the language laboratory. Conducted almost exclusively in Polish, with extensive use of authentic materials: literature, newspapers, videos, tapes, and the Internet. Offered fall semester. Prerequisite: POL 102 with C (not C-) or better, or permission of instructor.

## **POL 202 - Intermediate Polish II (4 credits)**

Continuation of POL 201. The course enhances students' competency in the Polish language (listening, speaking, reading, and writing) and culture skills, with an emphasis on real-life communication. Conducted almost exclusively in Polish, with extensive use of authentic materials: literature, newspapers, videos, tapes, and the Internet. Fulfills Cultures - Global Perspectives. Prerequisite: POL 201 with C (not C-) or better, or permission of instructor.

## **POL 380 - Special Topics in Polish (1 to 6 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **PSM 650 - Ethics and Professionalism in Applied Science (3 credits)**

Ethical and professional issues and problems facing practicing scientists. Emphasizes the role of scientists in public and private sectors, their responsibilities, and emerging ethical and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

professional issues. Offered every semester. Prerequisite: Admission to a professional science master's (PSM) program.

## **PSM 662 - Seminar in Professional Science Practice (2 credits)**

A seminar course designed to broaden the student's professional foundation in the practice of applied sciences following industry "best practices." Project management practice; intellectual property and proprietary issues; industrial policies and procedures; and governmental regulatory issues are examined. Focus on team building, networking, and communication and presentation skills. Offered fall and spring/summer semesters. Prerequisites: Admission to one of the four PSM M.S. programs: M.S. in cell and molecular biology-biotechnology emphasis; M.S. in biostatistics; M.S. in health informatics and bioinformatics; or M.S. in data science and analytics.

## **PSM 691 - Internship (1 to 9 credits)**

Full-time or part-time, on-the-job work performed at a sponsoring entity while under the supervision of an approved mentor in an area related to applied sciences. Offered every semester. Prerequisites: Satisfactory completion of PSM common course requirements and completion or enrollment in PSM 662.

## **PSM 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **PSY 101 - Introductory Psychology (3 credits)**

General survey of psychology, the scientific study of behavior and experience, including overt actions and mental activity. Covers how psychologists think and act as scientists and how the study of its subject matter may be integrated at the biological, psychological, and social levels of analysis. Fulfills one of the Foundations - Social and Behavioral Sciences. Offered every academic year.

## **PSY 300 - Research Methods in Psychology (3 credits)**

Examination of basic research methods in psychology. Emphasis on the logic of psychological research, the formulation and testing of hypotheses, research design, sampling procedures, data collection and analysis, and the ethics of conducting research. Offered every academic year. Prerequisites: PSY 101 and (STA 215 or STA 312).

## **PSY 301 - Child Development (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Explores the development of the child from conception to adolescence in the home, school, and society. Interactions among physical, cognitive, personality, and social developments are considered. Practical implications for child development of theories and research on these topics will be emphasized. Field observation required. Offered every academic year. Prerequisite: PSY 101.

### **PSY 303 - Psychopathology (3 credits)**

The study of a wide range of psychological disorders that affect people, especially adults. The detailed analysis of the symptoms, effects, etiology, and treatments of selective psychological disorders. Offered every academic year. Prerequisite: PSY 101.

### **PSY 304 - The Psychology and Education of the Exceptional Child (3 credits)**

Study of exceptional children and their problems. Emphasis on understanding the nature and extent of problems of various types of exceptionalities and on possible ways of dealing with them. Offered every academic year. Prerequisites: PSY 101 and (PSY 301 or PSY 364).

### **PSY 305 - Infant and Early Childhood Development (3 credits)**

Examines the development of the child from conception through age five. Theories and research in the areas of biological, perceptual, physical, cognitive, social, and emotional development, as well as their interrelationships, will be presented and discussed. Field observation required. Offered every academic year. Prerequisite: PSY 101.

### **PSY 310 - Behavior Modification (3 credits)**

Study of the application of learning principles, techniques, and procedures to the understanding and treatment of human psychological problems in a wide range of settings. Offered every academic year. Prerequisite: PSY 101.

### **PSY 311 - Controversial Issues in Psychology (3 credits)**

Develops the skills of critical thinking (analyzing the arguments of other people and forming one's own reasoned judgments) about controversial issues. Skills are applied to selected psychological issues, such as "Is intelligence inherited?" and "Can suicide be rational?" Offered every academic year.

### **PSY 315 - Psychology of Sex Differences (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A critical examination of the psychological research regarding purported mental, emotional, and behavioral differences between women and men, theories of the development of gender identity, and the etiology of differences. Issues discussed will include the construction of difference and the cultural and ideological uses of the rhetorics of difference. Cross-listed with WGS 315. Offered every academic year.

## **PSY 316 - The Psychology of Human Intimacy and Sexuality (3 credits)**

A comparative analysis of sexual practices, reproductive strategies, and intimate relationships using competing viewpoints (e.g., cultural psychology and evolutionary psychology). Topics may include comparing dating and cohabiting; married and gay and lesbian couples; factors in relationship stability and divorce; and the social control of sexuality and reproduction. Cross-listed with WGS 316. Offered every academic year. Prerequisite: PSY 101.

## **PSY 324 - Developmental Psychopathology (3 credits)**

Examination of a wide range of childhood and adolescent disorders using developmental theory and research to inform issues related to classification, assessment, and intervention. Explores the biological basis of behavior and the role of broader systems (e.g., family, school, community) in the development and alleviation of psychopathology. Offered every academic year. Prerequisites: PSY 101 and (PSY 301 or PSY 364).

## **PSY 325 - Educational Psychology (3 credits)**

Study of psychological principles applied to classroom instruction, including development, nature and conditions of learning, motivation, individual differences, home and school adjustment, evaluation, and test construction. Offered every academic year. Prerequisite: PSY 101.

## **PSY 326 - Intellectual/Developmental Disabilities (3 credits)**

An overview of historical perspectives, current practices, and lifespan issues for individuals with intellectual and developmental disabilities. The course covers diagnostic and assessment practices, etiology, and prevention and intervention strategies. Offered every academic year. Prerequisites: PSY 101 and (PSY 301 or PSY 364).

## **PSY 330 - Foundations of Behavioral Neuroscience (3 credits)**

This course provides an introduction to behavioral neuroscience, the scientific study of the interaction between biological processes and behavior. Topics covered include the basic structure of the nervous system, research methods in behavioral neuroscience, psychopharmacology,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

neural mechanisms involved in sensory and perceptual processes, and psychiatric disorders. Offered every academic year. Prerequisite: PSY 101.

### **PSY 331 - Adolescent Development (3 credits)**

Adolescence seen as a developmental stage; an examination of the complexities of the adolescent experience, the development of identity, intellect, and relationships with the adult world. An examination of historical and cultural variables as well as consideration of problem behaviors. Offered every academic year. Prerequisite: PSY 101.

### **PSY 349 - Psychology Applied to Media (3 credits)**

Focuses on two major content areas in the analysis of media: 1) study of the ways in which humans receive and interpret visual and auditory information (an understanding of perception will be emphasized in projects and analyses of media materials and 2) study of communication theory in media as it relates to persuasion, attitude, and opinion change. Offered every academic year.

### **PSY 350 - Psychology Research and Data Applications (3 credits)**

Examination and application of data analysis techniques used in the psychological sciences. Emphasis on interpretation of published research, best practices in analyzing data from correlational and experimental designs, assessing reliability and validity quantitatively, probability theory, statistical significance, effect sizes, and exposure to statistical software. Offered every semester. Prerequisites: PSY 101, STA 215, PSY 300 (PSY 300 may be taken concurrently).

### **PSY 355 - Psychology and Culture (3 credits)**

Exploration of the interaction between ecological and cultural variables and psychological processes. Topics include cultural influences on perception and cognition, personality, cognitive and social development, social relations, interpersonal and intergroup behavior, and psychopathology. Fulfills Cultures - Global Perspectives. Offered every academic year. Prerequisite: PSY 101.

### **PSY 357 - Psychology of Language (3 credits)**

Psychology of language is a discipline that focuses on psychology's insights into human language. Topics include biological bases of language; human language and other communication systems; lexical, sentence, and discourse processing; speech production and perception; acquisition of spoken and written language; bilingualism; and the relationship between language and thought. Offered every academic year. Prerequisite: PSY 101.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PSY 360 - Social Psychology: Psychology's View (3 credits)**

Relation of the individual to the social environment with emphasis on personality development and role behavior. Analysis of interpersonal behavior with reference to problems of conformity and influence. Offered every academic year. Prerequisite: PSY 101.

## **PSY 361 - Perception (3 credits)**

Study of how humans organize and interpret stimulation arising from objects in the environment. Review of theory, methodology, and research findings will be emphasized. Offered every academic year. Prerequisite: PSY 101.

## **PSY 362 - Environmental Psychology (3 credits)**

Study of the relationships between the physical environment, natural and human-made, and the behavior of human beings. The course focuses on the perceptual, cognitive, and motivational aspects of the human-environmental interaction. Offered occasionally.

## **PSY 364 - Life Span Developmental Psychology (3 credits)**

A survey of theories and research on human development from conception through death. Physical, perceptual, cognitive, personality, social, and emotional changes are reviewed and their interrelationships are discussed. Does not satisfy the requirements for teacher certification. Offered every academic year. Prerequisite: PSY 101.

## **PSY 365 - Cognition (3 credits)**

Study of methodology and research findings concerning human and animal information processing. Includes a review of literature pertinent to subject and task variables as they relate to attention, memory, and decision behavior during thinking. Laboratory. Offered every academic year. Prerequisite: PSY 101.

## **PSY 366 - Perspectives on Aging (3 credits)**

This course examines the perception of the elderly from a multidisciplinary perspective. It is first approached from historical and philosophical perspectives, and then from a psychological perspective using contemporary empirical studies. Offered every academic year. Prerequisite: PSY 101 or PHI 101.

## **PSY 367 - Health Psychology (3 credits)**

Explores the relationships among psychology, health, and illness and behavioral medicine. Considers important contemporary health issues from biopsychological and psychosocial

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

perspectives and the role of psychology in health promotion. Part of the Health Issue. Offered every academic year. Prerequisites: PSY 101 and junior standing.

### **PSY 370 - Cognitive Neuroscience (3 credits)**

Explores the neuroscience of cognitive processes, including mechanisms of attention, memory, language, knowledge, and executive control. This course considers contemporary theories and evidence from methods such as functional neuroimaging, neuropsychological impairment, cognitive electrophysiology, and analysis of behavioral performance. Offered every academic year. Prerequisites: Completion of PSY 101 and junior standing.

### **PSY 375 - Comparative Psychology (3 credits)**

Study of the relationship between human and animal behavior. Includes discussion of mind in nonhumans, the sociobiology debate, natural selection and human behavior, including language and sexual behavior, and implications for child development and schooling. Includes zoo or field observations. Lecture and field study. Offered every academic year. Prerequisite: PSY 101.

### **PSY 380 - Special Topics in Psychology (1 to 4 credits)**

Consideration of selected topics not ordinarily dealt with in other courses. Topics to be determined by faculty interest and student request. Consult class schedule for specific topics. Can be repeated, but no more than six credits in PSY 380 can be applied toward a psychology major. Offered occasionally. Prerequisites: Variable.

### **PSY 381 - Group Dynamics (3 credits)**

Contemporary concepts, hypotheses, and research in small-group theory. Students will study the ways groups affect the behavior, thinking, motivation, and adjustment of individuals as well as the effect of an individual's characteristics on groups. Principles will be applied to particular kinds of groups, including therapy groups and family groups. Offered every academic year. Prerequisite: PSY 101 or SOC 101.

### **PSY 386 - Study Abroad (1 to 9 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Offered occasionally.

### **PSY 399 - Independent Readings (1 to 3 credits)**

Independent readings in a selected topic encountered in a previous course or not covered in any existing course. Courses in the existing curriculum are not ordinarily offered as independent

study. Students may not apply more than six credits (singly or combined) of PSY 399 and PSY 499 toward a major in psychology. Offered every academic year. Prerequisites: PSY 101 and permission of instructor.

## **PSY 400 - Advanced Research in Psychology (3 credits)**

Research in designated areas (e.g., perception, cognition, social, developmental, etc.). See current schedule of classes for areas offered. Original research project required. Formal presentations of research proposals and project reports, following APA style is required. Offered every academic year. Prerequisites: PSY 101, PSY 300, and course in relevant content area.

## **PSY 405 - History and Systems (3 credits)**

A systematic historical coverage of the theoretical foundations of psychology. The contributions of the major schools of psychology, as well as the influence of related areas will be emphasized. Offered every academic year. Prerequisites: PSY 101 and PSY 300.

## **PSY 410 - Tests and Measurements (3 credits)**

A survey of test construction principles and psychological-educational measurement. The principles of normative data, reliability, and validity are emphasized. Issues involving the appropriate and ethical use of tests are also explored. Some commonly used tests are reviewed and evaluated according to these principles. Offered every academic year. Prerequisites: PSY 101 and (STA 215 or STA 312).

## **PSY 420 - Theories of Personality (3 credits)**

Critical exploration of major contemporary theories of personality and related research. Relative merits of each approach will be discussed with special emphasis on questions of structure, dynamics, and development of individuality. Offered every academic year. Prerequisite: PSY 101.

## **PSY 431 - Introduction to Neuropsychology (3 credits)**

The physiology, organization, and functions of the human brain will be examined. Current problems and findings in sleep and dreaming, memory, consciousness, learning, and perception will be explored. Offered upon sufficient demand. Prerequisites: PSY 101; and one of PSY 300, BMS 301, CJ 300, PLS 300, NUR 435, or SW 430.

## **PSY 432 - Psychopharmacology (3 credits)**

Study of the effects of drugs on the brain and behavior. The course introduces students to the principle of neurotransmission in the brain, how the neurotransmission becomes disturbed in the

psychological/behavioral disorder, psychopharmacologic treatments of psychological/behavioral disorders, and the actions of psychoactive drugs on the brain and behavior. Offered every academic year. Prerequisites: PSY 101; and one of PSY 300, BMS 301, CJ 300, PLS 300, NUR 435, or SW 430.

### **PSY 435 - Advanced Neuroscience and Behavior (3 credits)**

This course emphasizes the study of bodily structures, processes, and mechanisms related to various aspects of the organism's interactions with the environment. Topics covered include neurophysiological correlates of cognition, memory, motivation, emotion, attention, and sensory processes. Offered every academic year. Prerequisite: PSY 330.

### **PSY 445 - Industrial/Organizational Psychology (3 credits)**

The application of psychological facts and principles to business and industry. Topics include selection, placement, and evaluation of employees; work motivation; job satisfaction; leadership and management; organization and behavior; and organization development. Offered occasionally. Prerequisite: PSY 101.

### **PSY 452 - Counseling: Theories and Applications (3 credits)**

Survey of varying theoretical viewpoints: psychodynamic, behavioral, humanistic, and eclectic. Analysis of and experiential exposure to techniques and methods of application in a variety of settings, such as public school activities, personal and vocational counseling, social work, public service activities, personnel work, etc. Offered every academic year. Prerequisite: PSY 101.

### **PSY 490 - Practicum (1 to 6 credits)**

Work in a psychologically relevant capacity at one of many possible professional agencies for up to 20 hours a week. Prearranged tutorials and work-log of hours completed required. Six credit total course limit. Graded credit/no-credit. Offered every academic year. Prerequisites: PSY 101 and permission of instructor.

### **PSY 492 - Advanced General: The Capstone (3 credits)**

Survey of major viewpoints on research findings in contemporary scientific psychology. Emphasis on integration of those viewpoints and their relations to other disciplines, such as biology, medicine, social sciences, and philosophy. Offered every academic year. Prerequisites: PSY 300, senior standing, and a major in psychology or behavioral neuroscience or behavioral science.

### **PSY 499 - Independent Study and Research (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Independent study and research in an area of mutual interest to the student and faculty member. Students may not apply more than six credit hours (singly or combined) of PSY 399 and PSY 499 toward a major in psychology. Offered every academic year. Prerequisites: PSY 101 and permission of instructor.

## **PSY 500 - Introduction to School Psychology (3 credits)**

This course will present an introduction to the theory, role, and function of school psychology as an academic and scientific discipline, as well as a professional field. Emphasis will be placed on understanding a behaviorally oriented, intervention-focused, and empirically driven view of school psychology. Offered every academic year. Prerequisite: Admission to the school psychology program or instructor's approval.

## **PSY 510 - Tests and Measurements (3 credits)**

A survey of test construction principles and psychological-educational measurement. The principles of normative data, reliability, and validity are emphasized. Issues involving the appropriate and ethical use of tests are also explored. Some commonly used tests are reviewed and evaluated according to these principles. Offered every academic year. Prerequisite: Admission to the school psychology graduate program.

## **PSY 522 - Applied Behavior Analysis I (ABA): Foundational Concepts and Principles (3 credits)**

Students will study the foundational concepts, principles, and practices of applied behavior analysis. Students will gain an understanding of factors that govern behavior, processes for measuring behavior, and methods for minimizing behavioral problems and improving learning and performance. Offered each academic year. Prerequisite: Admission to the school psychology program or instructor's approval.

## **PSY 523 - Applied Behavior Analysis II: Application to Behavior Change (3 credits)**

Students will study the philosophical underpinnings of applied behavior analysis and explore the applications of behavior analytic principles and practices to behavior change, including strengthening and weakening behaviors. Selection and application of strategies to different contexts, populations, and age groups will be discussed. Offered each academic year. Prerequisite: PSY 522.

## **PSY 524 - Developmental Psychopathology (3 credits)**

This course examines research on etiology, diagnosis, and intervention for children with psychopathology, with the major focus of the course emphasizing disorders that are observed in

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

applied settings. Students will become familiar with school and community-based prevention and intervention strategies to address difficulties of children in their environments. Offered each academic year. Prerequisite: Admission to the school psychology program or instructor permission.

## **PSY 525 - Behavior Analysis Applied to Autism Spectrum Disorders and Developmental Disorders (3 credits)**

This course covers assessment and intervention strategies for working with individuals with autism and other neurodevelopmental disorders from a behavior analytic perspective to teach, strengthen, generalize, and maintain behaviors. Students will learn how to provide behaviorally based training and supervision. Offered spring/summer semester. Prerequisite: Admission to the school psychology program or instructor's approval.

## **PSY 527 - Ethics and Diversity in Professional Practice (3 credits)**

Introduction to the ethical and professional delivery of psychological and educational services to a diverse group of clients. This course will introduce the ethical guidelines of major psychological professional organizations and the application of those principles to a variety of situations. Offered every academic year. Prerequisite: Admission to the graduate program in school psychology, or to the graduate certificate program in applied behavior analysis, or instructor approval.

## **PSY 532 - Psychopharmacology (3 credits)**

Study of the effects of drugs on the brain and behavior. The course introduces students to the principle of neurotransmission in the brain, how the neurotransmission becomes disturbed in the psychological/behavioral disorder, psychopharmacologic treatments of psychological/behavioral disorders, and the actions of psychoactive drugs on the brain and behavior. Offered every academic year. Prerequisite: Admission to the school psychology program or instructor permission.

## **PSY 540 - Introduction to Autism Spectrum Disorder (3 credits)**

This course addresses characteristics of Autism Spectrum Disorder (ASD), including diagnosis and special education eligibility. A specific emphasis is placed on using intervention approaches that address the unique learning and social needs of children with ASD. Various evidence-based interventions that promote inclusive opportunities and improved outcomes are covered. Offered on sufficient demand. Prerequisite: Admission to the College of Education and Community Innovation or instructor permission.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PSY 542 - Behavior Support for Students with Autism Spectrum Disorder (3 credits)**

This course examines the behavioral characteristics of students with Autism Spectrum Disorder and overviews interventions to reduce problem behavior. Topics include data collection and functional behavior assessment, as well as the development of behavior intervention plans based on knowledge of functions. Interventions include preventative, skill development-based, and reinforcement strategies. Offered on sufficient demand. Prerequisites: PSY 540, admission to the College of Education and Community Innovation, or instructor permission

## **PSY 550 - Research in Applied Settings (3 credits)**

This course focuses on behavioral research methodologies to evaluate interventions in applied settings. Students will be taught to use single-case study methodologies to assess various dimensions of behavior and to evaluate the effects of treatment interventions on those behaviors. Offered spring/summer semester. Prerequisite: Admission to the school psychology graduate program or instructor's approval.

## **PSY 580 - Special Topics in Psychology (1 to 9 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 500-level courses. May be repeated for credit when the content varies. Offered occasionally.

## **PSY 590 - Applied Behavior Analysis Practicum (1 to 3 credits)**

The Applied Behavior Analysis (ABA) practicum is designed to meet the supervision requirements for the Board Certified Behavior Analyst (BCBA) certification. The course addresses principles, strategies, and ethical considerations related to the practice of behavior analysis. Students will use behavioral assessment and intervention, collect and submit data, and evaluate progress. Offered every semester. Prerequisites: Instructor approval and enrollment in or completion of an approved course sequence in applied behavior analysis.

## **PSY 615 - Educational Assessment and Interventions for Autism (3 credits)**

This course will explore assessment strategies and implementation tools for supporting students with Autism Spectrum Disorder in educational settings. Focus is placed on individualized services, supports, and interventions that promote inclusion in general education settings and improve engagement and participation in the general education curriculum. A team-based approach is emphasized. Cross-listed with EDS 615. Offered spring/summer semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Prerequisites: PSY 540 (may be taken concurrently); and must be enrolled in College of Education and Community Innovation or the school psychology program.

## **PSY 622 - Educational Assessment (3 credits)**

An introduction to a conceptual framework for assessing and evaluating a wide range of academic concerns within a problem-solving approach, a variety of assessment techniques, and methods for selecting assessment techniques with high treatment utility. Students will become proficient in administering and interpreting a range of assessment devices. Course offered each academic year. Prerequisite: Admission to the school psychology graduate program or instructor approval. Corequisite: PSY 642.

## **PSY 623 - Intellectual Assessment (3 credits)**

This course will provide a theoretical and practical foundation in intellectual assessment techniques including selecting assessments, interpreting assessments, and integrating results from various measures. Students will become proficient in administering and interpreting a range of intellectual assessments for children. Students will learn ethical standards as they relate to intellectual assessment. Offered each academic year. Prerequisites: PSY 510 and admission to the school psychology program. Corequisite: PSY 642.

## **PSY 624 - Behavioral Assessment and Intervention (3 credits)**

This course provides an introduction to the theoretical foundations and practical applications of behavioral assessment and intervention. The focus is on evidence-based assessment and intervention strategies that lead to socially significant, durable outcomes for students, educators, and families. The course uses functional behavior assessment as a framework for understanding behavior. Offered every academic year. Prerequisite: Admission to the school psychology program or instructor's approval.

## **PSY 642 - Assessment Practicum (1 credit)**

Students provide school psychological services in a school under the supervision of a practicing psychologist. Students will be actively involved, with increasing independence, in the administration, scoring, and interpretation of a variety of behavioral, educational, and intellectual assessment tools. Offered each academic year. Corequisite: PSY 622 or PSY 623.

## **PSY 644 - Clinical Practicum (1 credit)**

Students collaborate with licensed professionals in clinical settings (e.g., hospitals, clinics, group treatment programs, etc.). Students will be actively involved, under appropriate supervision, in the process of assessment, data collection, and intervention administration, in ways that are

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

appropriate to the setting and needs of the children and families being served. Offered each academic year. Corequisite: PSY 524.

### **PSY 654 - School-based Intervention and Consultation (3 credits)**

An overview of the theories and processes of psychological and educational consultation at the individual and systems level. Students will learn and apply consultation skills within a problem-solving model of service delivery. Students will learn to attend to cultural factors, values, and community context during consultation. Offered each academic year. Prerequisite: Admission to the school psychology graduate program or instructor's approval.

### **PSY 655 - School-based Consultation and Intervention II (3 credits)**

An overview of systems and program-level school-based consultation and intervention strategies. Students will learn and apply school wide academic and behavioral interventions, crisis prevention and intervention strategies, and program evaluation methods for evaluating outcomes. Offered winter semester. Prerequisite: PSY 654.

### **PSY 658 - Advanced Concepts in Applied Behavior Analysis (3 credits)**

This course will explore the advanced applications of the theory, principles, concepts, and practices of applied behavior analysis (ABA), and their application to educational and clinical settings. Students will also learn to use supervision and management practices based in behavior principles. Offered winter and spring/summer semesters. Prerequisites: Enrollment in the ABA graduate certificate program and PSY 523.

### **PSY 668 - Health Profession Disability Psychology (3 credits)**

This course assists students in the health professions in understanding psychosocial issues relevant to physical disabilities. It emphasizes key psychological factors that influence coping with physical disability and ways in which an understanding of psychosocial issues can increase the efficacy of a standard therapeutic regimen and facilitate adaptation and coping. Offered spring/summer semester. Prerequisite: Permission of the respective program directors or the psychology department chair.

### **PSY 675 - School Psychology Practicum (3 credits)**

Students provide school psychological services in a school under the supervision of a licensed school psychologist. Students will be actively involved in assessment, consultation, prevention,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

and intervention. A weekly seminar is required. Offered each academic year. Prerequisite: Admission to the school psychology program.

### **PSY 680 - Special Topics in Psychology (1 to 9 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 600-level courses. May be repeated for credit when the content varies. Offered occasionally.

### **PSY 685 - School Psychology Internship (1 to 5 credits)**

The final supervised clinical experience. Under the supervision of a school psychologist, students will work with teachers, families, and students from K-12 schools. Students will engage in different aspects of the practice of school psychology including case management, assessment, prevention and intervention, and consultation. Offered each academic year. Prerequisites: Admission to the school psychology program and instructor's approval.

### **PSY 693 - Master's Project (3 credits)**

Students complete a master's level project that requires them to demonstrate and apply skills learned in the school psychology program. This project may involve conducting a single-subject design research study, analyzing existing data from a school program, and/or completing a program review and data report for a school building/district. Offered each academic year. Prerequisites: Admission to the school psychology program and completion of the Responsible Conduct of Research Training within last three years.

### **PSY 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **PSY 699 - Independent Study (1 to 3 credits)**

Students complete an in-depth study of a topic related to the field of school psychology. Offered occasionally. Prerequisites: Admission to the school psychology program and faculty approval.

### **PT 435 - Measurement in Biomechanics (3 credits)**

Introduction to bioinstrumentation systems used in biomechanics research and rehabilitation practice. Biomechanical and measurement theory will be examined. Students will develop entry-level skills in methods of data collection and processing using instruments to measure human movement and balance. Cross-listed with MOV 435, MOV 535, and PT 535. Offered fall semester. Prerequisite: Registration permit required.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PT 510 - Lifespan Motor Development (2 credits)**

A lifespan view of motor development. Included will be basic principles of motor control and in-depth coverage of motor development. Key body systems development will be related to function throughout the lifespan. Offered spring/summer semester. Prerequisites: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 511 - Foundations in Physical Therapy Examination (3 credits)**

Introduction to clinical measurement theory, basic examination techniques, interviewing, chart review, clinical documentation, and systems review in physical therapy. Addresses basic examination techniques for the musculoskeletal, neuromuscular, cardiopulmonary, and integumentary systems. Incorporates simulated clinical experiences. Offered fall semester. Prerequisite: Admission to the physical therapy program.

## **PT 512 - Introduction to Evidence Based Practice in Physical Therapy (1 credit)**

Provides an introduction to evidence-based practice in physical therapy. Critical thinking skills and the ability to concisely summarize thought in written form are emphasized. Assigned readings will provide the opportunity to examine varied types of research utilized in physical therapy. Offered fall semester. Prerequisite: Admission to the physical therapy program.

## **PT 513 - Clinical Science I (2 credits)**

Study of physiological responses to pathology of the endocrine, hepatic, immune, integumentary, gastrointestinal, renal, and reproductive systems, including mechanisms basic to inflammation, neoplasia, tissue repair and regeneration, and pain across the four major systems of PT practice. Systems screening, physical therapy practice patterns, and medical management, including pharmacotherapy is emphasized. Offered fall semester. Prerequisite: Admission to physical therapy program.

## **PT 515 - Professional Topics I (1 credit)**

Introduces the roles of physical therapists in a changing health care system and the following professional topics: APTA; guide to PT practice; ethics, conduct and informed consent; communication; diversity; involvement of the patient; systems perspectives; documentation; reimbursement; and literature. Offered fall semester. Prerequisite: Admission to physical therapy program.

## **PT 517 - Kinesiology and Biomechanics I (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The study of functional musculoskeletal anatomy, including arthrokinematics, osteokinematics, muscular actions and control, and kinesiological concepts that govern motion concerns. Course content will focus on normal human motion; pathological human motion will be introduced. Students will use living subject models for surface anatomy palpation and functional analysis of movement patterns. Offered fall semester. Prerequisite: Admission to physical therapy program.

## **PT 521 - Musculoskeletal Examination (4 credits)**

Diagnostic procedures for patients with a variety of musculoskeletal conditions that affect the upper and lower extremities, and spine. Includes: patient screening for medical disease, physical examination for impairments and functional limitations, clinical decision-making, and referral strategies. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 522 - Musculoskeletal Interventions (4 credits)**

Students will learn the basic, evidence-based intervention and establishment of prognosis skills for musculoskeletal extremity and spinal pathologies. An eclectic approach to patient management is presented so that manual and therapeutic exercise techniques may be applied clinically. Basic issues of injury prevention and wellness will be addressed. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 523 - Clinical Science II (3 credits)**

Study of pathology associated with the musculoskeletal system due to disease conditions and trauma across the lifespan. Topics also include principles in diagnostic imaging, orthopedic surgical and medical management, and pharmacology, where appropriate. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 526 - Clinical Seminar I (2 credits)**

Students will be exposed to an array of clinical issues associated with decision-making for patients with primary musculoskeletal disorders. Issues such as reimbursement, access to the clinician, effective communication, confidentiality, cultural diversity, and effective utilization of community resources will be explored as the student becomes involved in total case management. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 528 - Kinesiology and Biomechanics II (3 credits)**

Rigid and deformable body mechanical principles will be used to understand normal human function and pathomechanics related to dysfunction. Application of principles to understand

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

examination, evaluation, diagnosis, prognosis, and intervention for impairments, functional limitations, and disability will be emphasized. Methods of kinematic, kinetic, and electromyographic investigation will be introduced. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 535 - Measurement in Biomechanics (3 credits)**

Introduction to bioinstrumentation systems used in biomechanics research and rehabilitation practice. Biomechanical and measurement theory will be examined. Students will develop entry-level skills in methods of data collection and processing using instruments to measure human movement and balance. Cross-listed with MOV 435, MOV 535, and PT 435. Offered fall semester. Prerequisite: Registration permit required.

## **PT 580 - Special Topics in Physical Therapy (1 to 3 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 500-level courses. May be repeated for credit when the content varies. Prerequisites: Variable depending upon the semester in which the special topics course is utilized; admission to the D.P.T. program.

## **PT 610 - Research in Physical Therapy (2 credits)**

This course reviews methods, designs, and analyses commonly used in physical therapy research (from PT 512 and STA 610). Emphasis is placed on critical appraisal of research reports with new emphasis on the design and writing of research proposals. Students begin to explore a research topic with a faculty mentor. Prerequisites: PT 512 and good standing in D.P.T. program.

## **PT 631 - Cardiopulmonary Physical Therapy I (2 credits)**

The physiologic and pathophysiologic basis for physical therapy management of individuals with secondary cardiovascular and pulmonary dysfunction as seen in general physical therapy practice. Emphasis is placed on assessment and interpretation of physiologic responses during therapeutic activities and on associated clinical decision-making. Offered spring/summer semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 632 - Integumentary Practice Management (2 credits)**

Examination, evaluation, and multiple interventions for acute and chronic integumentary pathologies in various patient populations. Interventions will include wound cleansing, debridement, contemporary uses of dressings and products, and mechanical and thermal modalities. A multisystem approach for wound prevention and wound treatment will be presented. Offered spring/summer semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **PT 634 - Clinical Seminar II (1 credit)**

Clinical issues pertaining to physical therapy management of medically complex patients and clients are introduced through case-oriented presentations and advanced study. Students explore treatment strategies in response to changes in physiology, and consider the broader perspectives of the family, the health care system, and the community. Offered spring/summer semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 636 - Clinical Education I (4 credits)**

One five-week full-time clinical experience in physical therapy practice settings followed by weekly discussion. Emphasis is on managing patients/clients with musculoskeletal impairments and related functional limitations. Offered spring/summer semester. Graded credit/no-credit. Prerequisite: D.P.T. faculty recommendation.

## **PT 641 - Neuromuscular Examination (4 credits)**

Addresses examination procedures used by physical therapists in managing neuromuscular dysfunction resulting from injury to the nervous system. The evidence supporting examination procedures is addressed. Evaluation of examination findings and differential diagnosis are emphasized. Offered fall semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 642 - Interventions in Neuromuscular Physical Therapy (4 credits)**

This course provides foundation in theoretical basis and techniques of neurologic rehabilitation, based on principles of motor control and learning and evidence-based practice. Students learn to design a comprehensive plan of care and apply interventions targeted to the remediation of disabilities, functional limitations, and impairments in clients with neurologic diagnoses. Offered fall semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 643 - Clinical Science III (3 credits)**

Health care management of neurological clients. Orthopedic concerns of these populations will be included. Health care management will include physical therapy diagnosis and prognosis, medical management and pharmacological management of the previously listed groups. Offered fall semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 644 - Clinical Seminar III (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Provides students insight into complex case management issues in neurologic physical therapy practice. Case-based discussion and active clinical experiences facilitate students to analyze from a system-based perspective factors that influence the development of a plan of care for neurologic patients. Emphasis on effective advocacy for clients and health promotion behaviors. Offered fall semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 647 - Cardiopulmonary Physical Therapy II (2 credits)**

Students integrate physiologic and pathophysiologic principles in physical therapy management of individuals with primary cardiovascular and pulmonary dysfunction seen in specific practice settings. Knowledge of medical and surgical interventions, diagnostic testing, and cardiopulmonary physical therapy tests and measures are applied to clinical decision-making. Offered fall semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 651 - Spinal Exam and Intervention (4 credits)**

Students will learn the basic, evidence-based examination, evaluation, intervention, and prognosis skills for musculoskeletal spinal pathologies. An eclectic approach to patient management is presented so that manual and nonmanual based therapeutic approaches may be applied clinically. Issues of injury prevention, including basic workplace and ergonomic issues will be addressed. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 654 - Applied Geriatric Practice (2 credits)**

An in-depth study of the geriatric population and geriatric physical therapy practice with regard to the four major systems addressed in PT practice. Encounters with an older adult designed to apply skills from other courses will be integrated. Collaboration with other professionals and advocacy will be stressed. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 655 - Professional Topics II (1 credit)**

Introduces students to the health care delivery system including managed care, government funded and private insurance, and basic reimbursement methods utilized in each system. Examination of the American Physical Therapy Association Guide for Professional Conduct with clinical application to bioethics and research. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 656 - Clinical Education II (5 credits)**

One six-week, full-time clinical experience in physical therapy practice settings followed by weekly discussion, and synthesis of clinical experiences after return to campus. Students are academically prepared to provide physical therapy, with supervision, to patients/clients with neuromuscular, cardiovascular/pulmonary, integumentary, and musculoskeletal impairments and related functional limitations. Graded credit/no-credit. Prerequisites: Physical therapy faculty recommendation.

## **PT 657 - Teaching for Physical Therapists (2 credits)**

Educational theory, assessment/evaluation, behavioral objectives, and teaching methods. Planning for teaching situations common to physical therapist practice, including patients/clients, families, peers, students, and other health care professionals. Emphasis on tailoring learning to the unique needs of learners from diverse backgrounds. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 661 - Exam and Intervention for Rehabilitation (4 credits)**

This course deals with the long-term physical therapy examination and intervention for the rehabilitation patient. Areas discussed include adaptive equipment, recreation, wheelchairs, architectural barriers, orthotics, prosthetics, and spinal cord injuries. Offered spring/summer semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 662 - Pediatric Practice Management (3 credits)**

In-depth study of pediatric physical therapy (PT). PT management, including diagnosis, prognosis, intervention, and medical/pharmacological management will be explored. Offered spring/summer semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 665 - Professional Topics III (2 credits)**

Students will be exposed to laws related to the practice of physical therapy. Analysis will include concepts of licensure, disciplinary action, and professional liability. Students will be introduced to concepts of social responsibility, citizenship, and advocacy available in the legislative process. Offered spring/summer semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 675 - Clinical Education III (6 credits)**

Full-time (defined as 36- to 40 hours per week) nine-week clinical experience for third-year physical therapy students, with a variety of practice settings available. Students are academically

prepared to manage patients/clients with musculoskeletal, neuromuscular, cardiopulmonary and integumentary disorders. Offered fall semester. Prerequisites: PT 656 and PT faculty recommendation.

## **PT 677 - Clinical Education IV (6 credits)**

Full-time (defined as 36- to 40 hours per week) nine-week clinical experience for third-year physical therapy students, with a variety of practice settings available. Each student will experience a different type setting or different patient problems than in PT 675. Students are academically prepared to manage patients/clients with musculoskeletal, neuromuscular, cardiopulmonary, and integumentary disorders. Offered fall semester. Prerequisites: PT 675 (may be taken concurrently) and physical therapy faculty recommendation.

## **PT 680 - Special Topics in Physical Therapy (1 to 3 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of this course approximate those in other 600-level courses. May be repeated for credit when the content varies. Prerequisites: Variable depending upon the semester in which the special topics course is utilized; admission to the D.P.T. program.

## **PT 681 - Advanced Clinical Decision-Making (2 credits)**

Students will review and analyze the diagnostic and intervention strategies used in complex case studies and design other strategies based on evidence from an extensive review of the literature. Patient cases with problems involving multiple systems, and the roles of other health care providers, will be emphasized. Graded credit/no-credit. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 682 - Health, Wellness and Special Topics in Physical Therapy (3 credits)**

This course provides principles of physical therapy in health promotion and wellness, pelvic health, home health, cancer treatment, ergonomics, alternative and complementary health, nutrition, health literacy and other special topics. Students learn strategies to examine diseases, injuries, impairments, functional limitations, and disabilities due to various health conditions in various settings. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

## **PT 684 - Advanced Topics: Sports Physical Therapy (3 credits)**

In-depth, evidence-based study of examination, evaluation and intervention related to sports physical therapy. Includes anatomical, physiological, and biomechanical approaches to

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

understanding and management of sport-related injury and surgery for multiple sports and clients. Focus on prevention and wellness in susceptible populations. Graded credit/no-credit. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence or licensed as a physical therapist.

### **PT 685 - Professional Topics IV (2 credits)**

The emphasis is on practice management and professional development. Addresses human resource management, facility planning, marketing, quality measures, and financial management as related to the role of the physical therapist. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence.

### **PT 686 - Advanced Topics: Pediatric Physical Therapy (3 credits)**

This course critically examines pediatric physical therapist practice in a variety of clinical settings across the continuum of care. Included are in-depth study of evidence-based examination, evaluation, and intervention for patients with complex developmental or medical issues, ages birth to 21. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curriculum or licensed as a physical therapist.

### **PT 687 - Advanced Topics: Spinal Manual Therapy (3 credits)**

This comprehensive course utilizes evidence-based practice in the assessment, evaluation, and intervention of patients with spinal movement dysfunction. Topics will include prognosis and prevention, manual therapy techniques, and differential diagnosis of spinal dysfunction. Graded credit/no-credit. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence or licensed as a physical therapist.

### **PT 688 - Advanced Topics: Neurologic Physical Therapy (3 credits)**

This course will critically examine evidence-based practice in neurologic rehabilitation. Current trends in practice will be analyzed from a theoretical, clinical, and neuroscience perspective. Students will apply foundational motor control theories for diagnosing and treating movement dysfunction, including advanced clinical practice skills for management of vestibular, balance and gait dysfunction. Graded credit/no-credit. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence or licensed as a physical therapist.

## **PT 689 - Advanced Topics: Cardiopulmonary Physical Therapy (2 credits)**

This course emphasizes physical therapist clinical decision-making for critically ill patients receiving advanced medical and surgical interventions for primary and secondary cardiovascular and pulmonary disease. This includes patients with advanced cardiopulmonary disease requiring mechanical ventilation, ventricular assist devices, extracorporeal life support, and heart/lung transplantation. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the D.P.T. curricular sequence or licensed physical therapist.

## **PT 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **PT 698 - Clinical Education V (6 credits)**

Full-time (36- to 40 hours per week) nine-week clinical experience for third year physical therapy students. As available, students will experience a different type setting or different patient problems than in PT 675 and PT 677. Students are prepared to manage patients/clients with musculoskeletal, neuromuscular, cardiopulmonary, and integumentary disorders. Graded credit/no-credit. Offered spring/summer semester. Prerequisites: PT 677 and physical therapy faculty recommendation.

## **PT 699 - Independent Study in Physical Therapy (1 to 3 credits)**

Students will complete a reading project or other approved activity building upon declared student interest. Tangible final product must be completed according to criteria developed by the student and advisor. Offered every semester. Prerequisite: Permission of program.

## **PT 790 - Physical Therapy Research I (1 credit)**

This is the first of two courses in which physical therapy students fulfill research requirements. Students study the available evidence and apply foundational research concepts. Students propose a method for conducting a research project or complete a case report of systematic review. Guided by faculty mentors. Offered winter and spring/summer semesters. Prerequisite: Successful completion of previous D.P.T. curriculum requirements.

## **PT 793 - Physical Therapy Research II (2 credits)**

Second of two courses in which physical therapy students fulfill research requirements. Students apply foundational concepts, collect data, analyze, and describe results in the context of a research project, case report, or systematic review. Guided by faculty mentors. Offered winter semester. Prerequisite: Successful completion of previous D.P.T. curricular requirements.

## **PT 797 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **REL 100 - Religions of the World (3 credits)**

An interdisciplinary study of multiple world religions in their cultural, historical, and political context. Students will investigate topics including belief structures, ritual systems, sacred literature, social dimensions, and historical development of various religious traditions. The course will include identification and comparison of key aspects of religion across traditions. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - Global Perspectives. Offered every semester.

## **REL 200 - Understanding Religions in Human Experience (3 credits)**

An interdisciplinary introduction to how religion has been understood and has shaped human experience, past and present. Students will also learn to identify and apply basic terminology, conceptual frameworks, and analytical methods in the field of religious studies. Fulfills Foundations - Historical Perspectives. Offered fall and winter semesters.

## **REL 300 - Religions in the World Today: Theories, Methods, and Issues (3 credits)**

This course explores the intersection of religion with human life, law, politics, and public culture, focusing on contemporary religions' roles in the secular world. Topics may include: human rights, fundamentalism, migration/immigration, social and political movements, gender/sexuality, nationalism, contemporary religious movements or phenomena, and environmentalism, among others. Fulfills Cultures - Global Perspectives. Part of the Human Rights Issue. Offered winter semester. Prerequisite: Junior standing.

## **REL 305 - Christianity: Scriptures and Tradition (3 credits)**

This course examines the sacred stories, rituals and historical development of the three major traditions of the Christian religion: Eastern Orthodox, Roman Catholicism, and Protestantism. It surveys the development of Christianity from its Jewish and Hellenistic roots through contemporary attempts to translate the Christian faith for the 21st century. Offered fall semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **REL 306 - Hinduism and South Asian Religions (3 credits)**

Hinduism is the world's third largest religion with approximately one billion adherents and has given birth to three other religions: Jainism, Buddhism, and Sikhism. This course explores the origins and development of Hinduism, examining key concepts like karma, yoga, and reincarnation in our discussion of Hindu worldviews, cultures, and practices. Fulfills Cultures - Global Perspectives. Part of the Identity Issue. Offered every semester. Prerequisite: Junior standing.

## **REL 310 - Jewish Scriptures and Traditions (3 credits)**

Focusing in the textual heritage of Judaism, the ancestor of Islam and Christianity as well as a vibrant religion today, this course explores Jewish traditions and rituals as they originated throughout history and as practiced today in the world's diverse Jewish communities. Offered alternate years.

## **REL 335 - Sacred Words, Global Understanding (3 credits)**

A comparative study of sacred texts as literary masterpieces that shape and influence their respective cultural expressions and literary traditions. This interdisciplinary course will examine the multiple intersections of sacred texts with the many faces of globalization. Readings may include selections from: Rig Veda, Upanishad, Bible, Qur'an, and Tao Te Ching. Fulfills Cultures - Global Perspectives. Part of the Globalization Issue. Offered fall semester. Prerequisite: Junior standing.

## **REL 340 - Religion and Popular Culture in the United States (3 credits)**

An interdisciplinary study of religion and popular culture in the United States. Students will employ religious studies approaches to critically examine cultural forms such as music, art, cinema, social media, sports, and virtual reality in order to analyze the diversity of U.S. popular culture. Fulfills Cultures - U.S. Diversity. Part of the Information, Innovation, or Technology Issue. Offered every semester. Prerequisite: Junior standing.

## **REL 380 - Special Topics in Religious Studies (1 to 9 credits)**

Various topics courses emphasizing the practice of religious studies in relation to a contemporary problem, issue, or theme. May be repeated for credit if content differs. Offered fall semester.

## **REL 399 - Independent Readings in Religious Studies (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An interdisciplinary and scholarly or creative project initiated by the student who has special interest in religious studies not available in the current curriculum. Student, faculty, and advisors agree on the scope of the study, its components, and methods of evaluation. May be repeated for credit if content differs.

## **REL 482 - Integrative Statement (1 credit)**

In this course, students develop a digital portfolio in which they apply key concepts, methods and theories within religious studies to real-world situations, including their chosen careers. Offered fall and winter semester. Course is graded credit/no-credit. Prerequisites: REL 100 and REL 200, or by permission of the department.

## **REL 495 - Religious Studies Senior Seminar (3 credits)**

An integration of various disciplinary and/or contemporary approaches to the academic study of religions, including the role of religious studies in professional and cultural settings. Students will develop and present a problem-based senior thesis on a contemporary problem or issue. Offered fall and winter semesters. Prerequisites: Senior standing, REL 200, and REL 300.

## **REL 499 - Independent Research in Religious Studies (1 to 4 credits)**

Independent research and investigation in religious studies from an interdisciplinary perspective. May be repeated for credit if content differs. Offered fall and winter semesters.

## **RIE 330 - Echocardiography I (4 credits)**

This course will cover basic echocardiography terminology, anatomy, instrumentation, and physical principles necessary for the student to understand the principles of two-dimensional and M-mode scanning of the normal heart. Students will also investigate basic systolic and diastolic dysfunctions. Offered fall semester. Corequisites: RIU 320, RIU 321, and RIE 331.

## **RIE 331 - Echocardiography I Laboratory (2 credits)**

This course provides laboratory activities correlated to the anatomic and pathologic details presented in RIE 330. Students perform procedures on model patients following demonstrations and must achieve a high level of competency to proceed in the program to clinical education. Offered fall semester. Corequisite: RIE 330.

## **RIE 332 - Echocardiography II (3 credits)**

This course will cover advanced echocardiography anatomy, pathophysiology, instrumentation, physical principles, and advanced echocardiographic procedures. This course also addresses

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

complex anomalies and pathological conditions of the abnormal heart. Offered winter semester. Prerequisites: RIE 330, RIE 331, RIE 320, RIE 321, and RIE 360. Corequisite: RIE 333.

### **RIE 333 - Echocardiography II Laboratory (1 credit)**

This course provides advanced echocardiographic procedures, including detection of complex anomalies and pathological cardiac conditions, in a laboratory setting. Students perform procedures following demonstrations and must achieve a high level of competency. Offered winter semester. Prerequisite: RIE 331. Corequisite: RIE 332.

### **RIE 340 - Cardiac and Vascular Hemodynamics (2 credits)**

Study of cardiac and vascular hemodynamics in relation to various hemodynamic measurement methods. Special attention is focused on performing hemodynamic calculations. Offered fall semester. Prerequisite: Admission to the cardiovascular sonography major.

### **RIE 341 - ECG in Radiologic and Imaging Sciences (2 credits)**

Study of basic electrocardiography including analysis of 12-lead basic cardiac rates and rhythms. Offered fall semester. Prerequisite: Admission to any radiologic and imaging science major.

### **RIE 360 - Introduction to Echocardiography Clinical (2 credits)**

This course provides an overview of the foundations of diagnostic medical sonography in echocardiography and vascular sonography and encompasses the practitioner's role in the health care delivery system, including principles, practices and policies of the educational program, health care organizations, principles of ultrasound, and health safety. Offered fall semester. Prerequisite: Admission to the cardiovascular sonography major.

### **RIE 361 - Echocardiography Clinical Education I (2 credits)**

Basic entry-level content and clinical practice designed for sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in adult echocardiographic diagnostic medical sonography. Content is supported by a weekly discussion session at the university. Offered winter semester. Prerequisites: RIE 331 and RIE 360. Corequisite: RIE 333.

### **RIE 362 - Echocardiography Clinical Education II (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Continuing content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in adult echocardiographic diagnostic medical sonography. Content is supported by a weekly discussion session at the university. Offered spring/summer semester. Prerequisites: RIE 330, RIE 331, and RIE 361.

### **RIE 363 - Pediatric Echo Clinical Education I (2 credits)**

Entry-level content and clinical practice experiences designed for sequential development application, analysis, integration, synthesis, and evaluation of concepts and theories in pediatric echocardiographic diagnostic medical sonography. Content is supported by a weekly discussion session at the university. Offered spring/summer semester. Prerequisites: RIU 320, RIU 321, RIE 330, RIE 331, and RIE 361.

### **RIE 366 - Vascular Sonography Clinical Education I (2 credits)**

Beginning level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in vascular sonography. Content is supported by a weekly discussion session at the university. Offered spring/summer semester. Prerequisites: RIE 332 and RIE 333. Corequisite: RIE 362.

### **RIE 380 - Special Topics in Echo and Vascular Sonography (1 to 5 credits)**

Special topics in echocardiography and vascular sonography. Offered every semester. Prerequisite: Faculty approval to assure students have appropriate experiential backgrounds in didactic, laboratory, and/or clinical areas of study.

### **RIE 432 - Vascular Sonography I (2 credits)**

This course is a study of concepts in noninvasive vascular ultrasound imaging and physiological testing of the cerebrovascular and lower extremity arterial and venous systems. Anatomy, physiology, pathophysiology, scanning techniques, differential diagnoses, and correlative imaging necessary for the clinical practice of vascular sonography will be emphasized. Offered winter semester. Prerequisites: RIU 320 and RIU 321. Corequisite: RIE 433.

### **RIE 433 - Vascular Sonography I Laboratory (1 credit)**

This lab integrates demonstrations, practice, and scanning competencies in noninvasive vascular ultrasound imaging and physiological testing of the cerebrovascular, aortoiliac, and lower extremity arterial and venous systems. Offered winter semester. Prerequisites: RIU 320 and RIU 321. Corequisite: RIE 432.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **RIE 434 - Pediatric Echocardiography I (3 credits)**

This didactic course will cover principles of echocardiography including cardiac anatomy, pediatric echocardiography instrumentation, basic congenital cardiac pathology, and physical principles necessary for the student to begin two-dimensional and M-mode scanning of the pediatric heart. Offered fall semester. Prerequisites: RIU 320 and RIU 321. Corequisite: RIE 435.

## **RIE 435 - Pediatric Echocardiography I Laboratory (1 credit)**

Demonstrations, practice, and laboratory evaluation of pediatric echocardiography with a focus on live patient models who have normal pediatric anatomy, as well as measurements and images necessary for demonstration of abnormal cardiac pathology. Offered fall semester. Prerequisite: RIE 333. Corequisite: RIE 434.

## **RIE 436 - Vascular Sonography II (2 credits)**

Continuation of study from RIE 432 in noninvasive vascular ultrasound imaging and physiological testing to include upper extremity vascular systems, intracranial arteries, lower extremity venous insufficiency, and aortoiliac arteries. Anatomy, physiology, pathophysiology, scanning techniques, differential diagnoses, and correlative imaging necessary for the clinical practice of vascular sonography will be emphasized. Offered fall semester. Prerequisite: RIE 432. Corequisite: RIE 437.

## **RIE 437 - Vascular Sonography II Laboratory (2 credits)**

This lab integrates demonstrations, practice, and scanning competencies in noninvasive vascular ultrasound imaging and physiological testing of the upper extremity vascular systems, intracranial arteries, lower extremity venous insufficiency, and aortoiliac arteries. Offered fall semester. Prerequisite: RIE 433. Corequisite: RIE 436.

## **RIE 438 - Pediatric Echocardiography II (3 credits)**

This course will cover anatomical variations, instrumentation, and physical principles necessary for the student to perform advanced two-dimensional and M-mode scanning of the abnormal pediatric heart. Offered winter semester. Prerequisites: RIE 340 and RIE 434.

## **RIE 439 - Vascular Sonography III (2 credits)**

This course focuses on advanced concepts in vascular imaging to include invasive and noninvasive sonographic procedures with emphases in hepatoportal, mesenteric, and renal artery systems necessary for the clinical practice of vascular sonography. Analysis of scanning

techniques and differential diagnoses postvascular interventional procedures and advanced technologies will be discussed. Offered winter semester. Prerequisite: RIE 436. Corequisite: RIE 440.

### **RIE 440 - Vascular Sonography III Laboratory (1 credit)**

This lab integrates demonstrations, practice, and scanning competencies in noninvasive vascular ultrasound imaging of the hepatoportal, mesenteric, and renal artery systems and advanced sonography technologies. Offered winter semester. Prerequisite: RIE 437. Corequisite: RIE 439.

### **RIE 457 - Cardiovascular Image Evaluation (2 credits)**

This course is designed to facilitate critical analysis of anatomic and pathologic imaging information related to echocardiography and noninvasive vascular sonography. This course will focus on multimodality cardiovascular diagnostic procedures in correlation with noninvasive cardiac and vascular sonography. Offered winter semester. Prerequisites: RIE 434 and RIE 436.

### **RIE 463 - Pediatric Echocardiography Clinical Education II (3 credits)**

This course will provide content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in pediatric echocardiographic diagnostic medical sonography. Content is supported by a weekly discussion session at the university. Offered fall semester. Prerequisite: RIE 363. Corequisite: RIE 435.

### **RIE 464 - Pediatric Echocardiography Clinical Education III (3 credits)**

Continuation of advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in pediatric echocardiographic diagnostic medical sonography. Content is supported by a weekly discussion session at the university. Offered winter semester. Prerequisites: RIE 434 and RIE 435.

### **RIE 466 - Vascular Sonography Clinical Education II (3 credits)**

Advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in vascular sonography. Content is supported by a weekly discussion session at the university. Offered fall semester. Prerequisite: RIE 366. Corequisite: RIE 433.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **RIE 467 - Vascular Sonography Clinical Education III (3 credits)**

Continuation of advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in vascular sonography. Content is supported by a weekly discussion session at the university. Offered winter semester. Prerequisite: Permission of instructor.

## **RIE 480 - Special Topics in Echocardio and Vascular Sonography (1 to 9 credits)**

Special topics in echocardiography and vascular sonography. Prerequisite: Faculty approval to assure students have appropriate experiential backgrounds in didactic, laboratory, and/or clinical areas of study.

## **RIE 495 - Advanced Clinical Problems in Echocardiography and Vascular Sonography (3 credits)**

SWS Capstone in diagnostic medical sonography exploring diverse clinical problems in the profession. Includes reflection and contemplation on ethical and legal issues. Requires final rewriting of professional portfolio showcasing past didactic, laboratory, clinical, professional learning, and community service. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the major. Corequisite: RIE 464 or RIE 467.

## **RIT 302 - Radiation Protection Physics (2 credits)**

This introductory course will cover the principles governing production of radiation, interaction of radiation with matter, protection of the radiation worker and patient from exposure, and use of various types of radiation (ionizing, sound, radio) to create radiologic, sonographic, and magnetic resonance images. Offered fall semester. Prerequisite: Admission to the radiation therapy program.

## **RIT 310 - Radiation Therapy Patient Care (3 credits)**

Patient care procedures and interactive skills used in physical and psychological care of the patient during radiation therapy, with emphasis on assessment, identification of emergencies, and specific patient care skills for patients undergoing radiation therapy. Patient education, advocacy, and independent/team roles in patient care are also addressed. Offered fall semester. Prerequisite: Admission to radiation therapy program.

## **RIT 322 - Radiation Biology (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This lecture course considers the radiobiologic areas of radiation interactions, radiosensitivity, radiation dose/response relationships, early and late radiation effects, radiation protection, and health physics. Offered winter semester. Prerequisite: RIS 322.

## **RIT 330 - Radiation Therapy Principles and Practices I (4 credits)**

Overview of cancer and the basic foundations of radiation therapy including: basic treatment techniques and patient setup, an introduction to patient simulation, an introduction to intensity modulated radiation therapy (IMRT) and special procedures, as well as identification and application of ethical and legal issues. Offered fall semester. Prerequisite: Admission to the radiation therapy program. Corequisite: RIT 331.

## **RIT 331 - Radiation Therapy Principles and Practices I Laboratory (1 credit)**

Introductory lab on treatment and simulation techniques with patient setups specific for brain, lung, pelvis, abdomen, lumbar spine, and safe patient transfer techniques. Offered fall semester. Prerequisite: Admission to the radiation therapy program. Corequisite: RIT 330.

## **RIT 332 - Radiation Therapy Principles and Practices II (3 credits)**

Lecture and discussion sessions presenting intermediate concepts of radiation therapy treatment principles and practices for photon and electron dosimetry, neoplasms of the skin, genitourinary system, gynecologic system, gastrointestinal system, circulatory, endocrine, and respiratory systems. Offered winter semester. Prerequisite: RIT 331. Corequisite: RIT 333.

## **RIT 333 - Radiation Therapy Principles and Practices II Laboratory (1 credit)**

This course provides intermediate laboratory sessions presenting concepts of radiation therapy treatment principles and practices for photon and electron dosimetry, skin, genitourinary, gynecologic, gastrointestinal, endocrine and respiratory neoplasms. Offered winter semester. Prerequisite: RIT 331. Corequisite: RIT 332.

## **RIT 361 - Radiation Therapy Clinical Education I (2 credits)**

A clinical education course on basic treatment procedures in the clinical setting, under direct supervision. Individualized evaluation of performance and analysis of results obtained are an inherent part of this course. Content is supported by a weekly discussion session at the university. Offered winter semester. Prerequisites: RIS 302, RIT 330, and RIT 331.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **RIT 362 - Radiation Therapy Clinical Education II (4 credits)**

A clinical education course in intermediate level treatment procedures in the clinical setting under direct supervision, further perfecting clinical expertise and judgment of student in clinical radiation therapy. Individualized evaluation of performance and analysis of results are part of this course. Content is supported by a weekly discussion session at the university. Offered spring/summer semester. Prerequisites: RIT 302, RIT 330, and RIT 331.

## **RIT 380 - Special Topics in Radiation Therapy (1 to 5 credits)**

Special topics in radiation therapy. Offered every semester. Prerequisites: Faculty approval to assure students have appropriate experiential backgrounds in didactic, laboratory, and/or clinical areas of study. Offered every semester.

## **RIT 401 - Radiologic Information Technology (3 credits)**

This course provides information related to fundamental concepts of medical and health informatics methods and techniques involved in the integration of computer systems in medical centers, specifically radiologic centers. Students will be introduced to health information systems, data representation and standards, privacy, security, and management of health information. Offered fall semester. Prerequisite: Admission radiation therapy program.

## **RIT 420 - Radiation Therapy Physics I (2 credits)**

Radiation therapy involves the use of ionizing radiation using various energies, particles, and techniques to treat malignancies and benign conditions, either curatively or palliatively. This course describes the principles of physics for the radiation therapist to understand the purpose of multiple radiation energies and the need for photons and electrons. Offered winter semester. Prerequisite: Admission to the radiation therapy major.

## **RIT 422 - Radiation Therapy Physics II (2 credits)**

Radiation therapy involves the use of ionizing radiation to treat malignancies and benign conditions, either curatively or palliatively. The purpose of this course is to familiarize the radiation therapist with the nature of ionizing radiation that allows it to be exploited for its desired characteristics while minimizing potentially undesirable effects. Offered fall semester. Prerequisite: Admission to the radiation therapy major.

## **RIT 424 - Image Guided Principles of Radiation Therapy (4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course is designed to teach competent operation of current imaging equipment within the field of radiation oncology, including knowledge in factors that govern and influence the production and recording of radiographic images for patient simulation, treatment planning, and treatment verification within the field. Offered winter semester. Prerequisite: RIT 330.

### **RIT 430 - Radiation Therapy Principles and Practices III (3 credits)**

Lecture sessions presenting advanced concepts of radiation therapy treatment principles and practices for pathology, radiobiology, brachytherapy, quality assurance, neoplasms of lymphoreticular system, head and neck, CNS, and breast. Offered fall semester. Prerequisite: RIT 331. Corequisite: RIT 431.

### **RIT 431 - Radiation Therapy Principles and Practices III Lab (1 credit)**

Laboratory sessions presenting advanced concepts of radiation therapy treatment, patient nutrition, set ups, and procedures for breast, head and neck region, lymphoma, and central nervous system tumors. Offered fall semester. Prerequisite: RIT 331. Corequisite: RIT 430.

### **RIT 432 - Radiation Therapy Principles and Practices IV (3 credits)**

Clinical details of specific skill practices in radiation therapy with special attention to pediatric tumors, GI, bone and soft tissue sarcomas, emerging technologies, detection/diagnosis, clinical trials, and treatment of benign conditions. Common chemotherapy agents and current clinical trials. Offered winter semester. Prerequisite: RIT 331. Corequisite: RIT 433.

### **RIT 433 - Radiation Therapy Principles and Practices Lab IV (1 credit)**

This radiation therapy laboratory course will include patient setup instructions, immobilization techniques, traditional field designs, and patient care skills for simulations of pediatric tumors, GI tumors, bone tumors, adult sarcomas, and benign conditions. Offered winter semester. Prerequisite: RIT 331. Corequisite: RIT 432.

### **RIT 441 - Gross Human Sectional Anatomy (4 credits)**

This course is a study of human sectional anatomy as visualized by radiologic and imaging sciences modalities in planes relevant to the demonstration of head, thorax, abdomen, pelvic, spine, and extremity anatomy. Cadaver correlation to diagnostic medical sonography, echocardiography, diagnostic radiology, computed tomography, and magnetic resonance

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

imaging is emphasized. Offered winter semester. Prerequisite: Admission to the radiation therapy program, diagnostic medical sonography program, or cardiovascular sonography program.

### **RIT 458 - Neoplasms (3 credits)**

Overview of the epidemiological, etiological, diagnostic, and treatment foundations of common malignant and benign lesions. Anatomical sites of exploration include: breast, prostate, ovary, colon, stomach, lymphoma, CNS, and skin. Offered fall semester. Prerequisite: Admission to the radiation therapy program, diagnostic medical sonography program, or cardiovascular sonography program.

### **RIT 460 - Radiation Therapy Clinical Education III (3 credits)**

Clinical education course in which the student gains additional radiation therapy experience in the clinical setting, under direct supervision, and further perfects clinical expertise and judgment. Individualized evaluation of performance and analysis of results obtained are included in this course. Content is supported by a weekly discussion session. Offered fall semester. Prerequisites: RIT 302, RIT 330, and RIT 331.

### **RIT 461 - Radiation Therapy Clinical Education IV (3 credits)**

Students continue to progress toward executing treatment procedures in the clinical setting, under direct supervision, further perfecting clinical expertise and judgment. Individualized evaluation of performance and analysis of results obtained are part of this course. Content is supported by a weekly discussion session. Offered winter semester. Prerequisites: RIT 330, RIT 331, RIT 332, RIT 333, RIT 361, RIT 362, RIT 420, RIT 422, RIT 430, RIT 431, and RIT 460.

### **RIT 470 - Radiation Therapy Treatment Planning (2 credits)**

Fundamentals of clinical radiation oncology treatment planning. Precise descriptive methods are presented for a wide range of typical patient conditions. Offered fall semester. Prerequisites: (RIT 330 and RIT 331) or (RIT 332, and RIT 333); and RIT 420. Corequisites: RIT 422 and RIT 471.

### **RIT 471 - Radiation Therapy Treatment Planning Lab (1 credit)**

Concepts in medical dosimetry as they are applied to clinical radiation oncology treatment planning. Presentations, demonstrations, and evaluations using laboratory treatment planning software are correlated to the lectures. Offered fall semester. Corequisite: RIT 470.

## **RIT 472 - Introduction to Medical Dosimetry (2 credits)**

Medical dosimetry concepts as they are applied to clinical radiation oncology treatment planning. Examples are given from clinical education sites that will be correlated with the corequisite laboratory. Offered winter semester. Prerequisites: RIT 470 and RIT 471. Corequisite: RIT 473.

## **RIT 473 - Introduction to Medical Dosimetry Lab (1 credit)**

Application of medical dosimetry concepts as they are applied to clinical radiation oncology treatment planning. Examples will be used from clinical education sites that will be correlated from the corequisite lecture course. Offered winter semester. Prerequisites: RIT 470 and RIT 471. Corequisite: RIT 472.

## **RIT 495 - Advanced Clinical Problems in Radiation Therapy (3 credits)**

SWS Capstone in radiation therapy exploring diverse clinical problems from frameworks of reflection and contemplation on ethical legal issues relating technical philosophic foundations of radiation therapy procedures and radiation physics, bioeffects, patient interaction, anatomy, and pathophysiology. Requires final rewriting of professional portfolio showcasing past didactic, laboratory, clinical, professional learning, and community service. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the major. Corequisite: RIT 461.

## **RIU 301 - DMS Image Evaluation I (1 credit)**

This course is designed to facilitate critical analysis of anatomic and pathologic imaging information related to diagnostic medical sonographic procedures for the imaging of abdominal structures. Offered winter semester. Prerequisites: Admission to diagnostic medical sonography - general concentration, RIU 330, RIU 331, and RIU 360. Corequisite: RIU 361.

## **RIU 302 - DMS Image Evaluation II (1 credit)**

Anatomic and pathologic imaging details and correlations between the accepted diagnostic medical sonographic procedures and clinical data specific to the imaging of obstetrical and gynecological structures including related small parts (breast, thyroid, testicles, prostate). Practical skills and clinical knowledge specific to anatomic and pathologic information will be discussed. Offered fall semester. Prerequisites: RIU 301, RIU 332, RIU 333, and RIU 362.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **RIU 320 - Applied Ultrasound Physics Instruction I (2 credits)**

This course will provide theoretical foundations and clinical applications of ultrasound physics and instrumentation, necessary for laboratory and clinical scanning, including an introduction to Doppler principles, performance testing, artifacts, and bioeffects. Offered fall semester.

Prerequisites: Admission to the diagnostic medical sonography major or cardiovascular sonography major. Corequisite: RIU 321.

## **RIU 321 - Applied Ultrasound Physics Instruction I Lab (1 credit)**

This course will provide correlated laboratory experiences relevant to theoretical foundations and clinical applications of ultrasound physics and instrumentation, necessary for clinical scanning, including an introduction to Doppler principles, performance testing, artifacts, and bioeffects. Offered fall semester. Prerequisite: Admission to the diagnostic medical sonography major or cardiovascular sonography major. Corequisite: RIU 320.

## **RIU 322 - Principles of Radiologic Imaging Sciences (3 credits)**

This course will cover the principles governing production of radiation, interaction of radiation with matter, protection of the radiation worker and patient from exposure, and use of various types of radiation (ionizing, sound, radio) to create radiologic, sonographic, and magnetic resonance images. Offered winter semester. Prerequisite: Admission to diagnostic medical sonography - general concentration.

## **RIU 324 - Applied Doppler Ultrasound Physics (2 credits)**

Theoretical foundations and clinical applications of applied Doppler diagnostic medical sonographic physics and instrumentation for abdominal, obstetric-gynecology, echocardiography, vascular, and breast imaging. Quality assurance testing and introduction to bioeffects are included. An emphasis on the American Registry of Diagnostic Medical Sonographers' examination is part of this course. Offered winter semester. Prerequisites: RIU 320 and RIU 321.

## **RIU 330 - Abdominal Sonography I (4 credits)**

This course is designed to introduce the student to abdominal diagnostic medical sonography. This course will cover specific protocols for the investigation of the abdomen through the use of sonography. Specific anatomic and pathologic information necessary for the clinical practice of abdominal diagnostic medical sonography will be discussed. Offered fall semester. Prerequisite:

Admission to diagnostic medical sonography major - general concentration. Corequisites: RIU 320, RIU 321, RIU 331, and RIU 360.

### **RIU 331 - Abdominal Sonography I Lab (2 credits)**

This course provides laboratory activities in abdominal sonography and includes demonstrations and return demonstrations for competency evaluations. There is a practical application that correlates to the anatomic and pathologic details presented in RIU 330 - Abdominal Sonography I. Offered fall semester. Prerequisite: Admission to diagnostic medical sonography major - general concentration. Corequisites: RIU 320, RIU 321, RIU 330, and RIU 360.

### **RIU 332 - Obstetrics-Gynecology Sonography I (3 credits)**

This course will introduce students to normal and abnormal sonographic clinical procedures of nongravid uterus and of the normal gravid uterus. Clinical data relative to related anatomic, physiologic, and pathological conditions will be emphasized. Offered winter semester. Prerequisite: RIU 360 and admission to diagnostic medical sonography program general concentration (abdominal and obstetrics-gynecology). Corequisite: RIU 333.

### **RIU 333 - Obstetrics-Gynecology Sonography Lab (1 credit)**

This course will include anatomic and pathologic imaging details and correlations in the relationships of diagnostic medical sonographic procedures for the imaging of obstetric and gynecologic structures. Clinical data relative to related anatomic, physiologic, and pathologic conditions will be emphasized by interactive live sonographic evaluation. Offered winter semester. Prerequisite: RIU 360. Corequisite: RIU 332.

### **RIU 360 - Introduction to Clinical Ultrasound (2 credits)**

This course will provide an overview of the basics of diagnostic medical sonography and the practitioner's role in the health care delivery system to include principles, practices, and policies of the educational program, health care organizations, principles of ultrasound and health safety, and basic patient care. Offered fall semester. Prerequisite: Admission to the diagnostic medical sonography major - general concentration.

### **RIU 361 - Clinical Ultrasound Education I (2 credits)**

Beginning level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in abdominal and obstetrical and gynecologic diagnostic medical sonography. Content is supported by a weekly discussion session at the university. Offered winter semester. Prerequisites: RIU 320, RIU 321, RIU 330, RIU 331, and RIU 360.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **RIU 362 - Clinical Ultrasound Education II (4 credits)**

Continuation of Clinical Education I level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in abdominal and obstetrical and gynecologic diagnostic medical sonography.

Content is supported by a weekly discussion session at the university. Offered spring/summer semester. Prerequisites: RIU 330, RIU 331, and RIU 360.

## **RIU 380 - Special Topics in Diagnostic Medical Sonography (1 to 5 credits)**

Special topics in diagnostic medical sonography. Offered every semester. Prerequisite: Faculty approval to assure students have appropriate experiential backgrounds in didactic, laboratory, and/or clinical areas of study.

## **RIU 420 - Applied Ultrasound Physics Instruction II (2 credits)**

A course in diagnostic medical sonographic physics and instrumentation that explores diverse problems in ultrasound physics from a framework of previous physics courses, clinical experiences, other sonographic didactic coursework, and expectations students have for national ARDMS examinations in physics, as well as their future professional career plans. Offered fall semester. Prerequisite: RIU 320 or RIU 324.

## **RIU 430 - Abdominal Sonography II (2 credits)**

Continuation from RIU 330 which includes anatomic and pathologic imaging details and correlations in the relationships of diagnostic medical sonographic procedures for the imaging of abdominal structures, including the designation of small parts (such as thyroid, breast) and abdominal Doppler procedures. Offered fall semester. Prerequisites: RIU 324, RIU 330, and RIU 331. Corequisite: RIU 431.

## **RIU 431 - Abdominal Sonography II Lab (1 credit)**

This course is a continuation of RIU 331, which will include anatomic and pathologic imaging details and correlations in the relationships of diagnostic medical sonographic procedures for the imaging of abdominal structures including small parts classification. Clinical data relative to related anatomic, physiologic, and pathologic conditions will be emphasized. Offered fall semester. Prerequisites: RIU 324, RIU 330, and RIU 331. Corequisite: RIU 430.

## **RIU 434 - Breast Sonography Procedures (2 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course is designed to introduce the student to diagnostic medical sonography of the breast. In this course, the student will study specific protocols for the investigation of the breast and related structures. Specific anatomic and pathologic information necessary for the clinical practice of breast sonography will be discussed. Offered winter semester. Prerequisite: Permission of instructor.

## **RIU 435 - Obstetrics-Gynecology Sonography II (2 credits)**

This course will continue from RIU 332 and include advanced imaging procedures and clinical data that is related to pathologic conditions of the obstetric-gynecologic patient. At the conclusion of this course, the student should have a strong knowledge base of the ob-gyn patient as it applies to diagnostic medical sonography. Prerequisite: RIU 332.

## **RIU 436 - Vascular Technology Procedures I For General Ultrasound (2 credits)**

Noninvasive vascular testing of the abdominal and peripheral arterial system with relevant hemodynamics pertaining to a general sonography perspective. Clinical data pertinent anatomic, physiologic, and pathologic conditions will be emphasized. Prerequisites: RIU 320 and RIU 321. Corequisite: RIU 437.

## **RIU 437 - Vascular Technology Procedures I For General Ultrasound Lab (1 credit)**

Application of the noninvasive vascular testing of the abdominal and peripheral arterial system with relevant hemodynamics pertinent to a general sonography perspective in the laboratory. Clinical data relative to related anatomic, physiologic, and pathologic conditions will be emphasized. Prerequisites: RIU 320 and RIU 321. Corequisite: RIU 436.

## **RIU 438 - Vascular Technology Procedures II for General Ultrasound (2 credits)**

Noninvasive vascular testing of the abdominal and peripheral venous system with relevant hemodynamics pertaining to a general sonography perspective. Clinical data relative to related anatomic, physiologic, and pathologic conditions will be emphasized. Prerequisites: RIU 436 and RIU 437. Corequisite: RIU 439.

## **RIU 439 - Vascular Technology Procedures II for General Ultrasound Lab (1 credit)**

Laboratory component of noninvasive vascular testing of the abdominal and peripheral venous system with relevant hemodynamics pertaining to a general sonography perspective. Clinical

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

data relative to related anatomic, physiologic, and pathologic conditions will be emphasized. Prerequisites: RIU 436 and RIU 437. Corequisite: RIU 438.

### **RIU 454 - Advanced Obstetric-Gynecologic Sonography (3 credits)**

The course will provide the student with lectures from current practicing physicians and various medical professionals who are involved in the assessment and evaluation of gynecologic and obstetric patients in the clinical setting. The role of sonographic imaging of obstetric and gynecologic patients will be explored. Offered winter semester. Prerequisite: Admission to diagnostic medical sonography - general concentration.

### **RIU 460 - Clinical Ultrasound Education III (3 credits)**

Continuation of content and clinical practice experiences designed for development, application, analysis, integration, synthesis, and evaluation of concepts and theories in abdominal and obstetrical gynecological diagnostic medical sonography. Content is supported by a weekly discussion session at the university. Offered fall semester. Prerequisites: RIU 330, RIU 331, and RIU 360.

### **RIU 461 - Clinical Ultrasound Education IV (3 credits)**

Continuation of content and clinical practice experiences preparing the student to perform successfully in the clinical setting through sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in abdominal and obstetrical gynecological diagnostic medical sonography. Content is supported by a weekly discussion at the university. Offered winter semester. Prerequisites: RIU 361, RIU 362, and RIU 460.

### **RIU 495 - Advanced Clinical Problems in Ultrasound (3 credits)**

SWS Capstone in radiologic and imaging exploring diverse clinical problems from frameworks of reflection and contemplation on ethical legal issues relating technical philosophic foundations of sonographic procedures and ultrasound physics, bioeffects, patient interaction, anatomy, and pathophysiology. Requires final rewriting of professional portfolio showcasing past didactic, laboratory, clinical, professional learning, and community service. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the major. Corequisite: RIU 461.

### **RMD 620 - Dosimetry Treatment Planning I (3 credits)**

Examines the pathophysiology and oncology management of gastrointestinal, breast, brain, head and neck, and metastatic cancer. The content will include relevant anatomy, dosimetry treatment

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

planning techniques and dose limitations. Offered fall semester. Prerequisite: Acceptance into the medical dosimetry program.

### **RMD 621 - Dosimetry Treatment Planning I Lab (1 credit)**

This is the concurrent laboratory course for RMD 620 - Dosimetry Treatment Planning I. In this course, students will learn and apply treatment planning techniques for gastrointestinal, breast, brain, head and neck, and metastatic cancer. Offered fall semester. Prerequisite: Acceptance into the medical dosimetry program.

### **RMD 622 - Dosimetry Treatment Planning II (3 credits)**

Examines the pathophysiology and oncology management of genitourinary, thoracic, gynecological, skin, and miscellaneous cancer. The content will include relevant anatomy, dosimetry treatment planning techniques and dose limitations. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the medical dosimetry program's curricular sequence.

### **RMD 623 - Dosimetry Treatment Planning II Lab (1 credit)**

This is the concurrent laboratory course for RMD 622 - Dosimetry Treatment Planning II. In this course, students will learn and apply treatment planning techniques for genitourinary, thoracic, gynecological, skin, and miscellaneous cancers. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the medical dosimetry program's curricular sequence.

### **RMD 630 - Medical Dosimetry I (3 credits)**

This course will cover the principles governing production of radiation, radiation protection, interaction of radiation with matter, radiation dose distribution (photon and electron), and external beam dose calculations. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the medical dosimetry program's curricular sequence.

### **RMD 632 - Medical Dosimetry II (3 credits)**

This course will cover the principles governing production of radiation, radiation protection, interaction of radiation with matter, radiation dose distribution (photon and electron), and external beam dose calculations. Offered winter semester. Prerequisite: Successful completion of all previously required courses in the medical dosimetry program's curricular sequence.

### **RMD 661 - Medical Dosimetry Clinical Education I (1 to 4 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Clinical education experience in medical dosimetry in a university affiliated clinical education center is the focus of the course. The student will concentrate on beginning level application of core competencies in medical dosimetry practice. Offered fall semester. Prerequisite: Acceptance into the medical dosimetry program.

### **RMD 662 - Medical Dosimetry Clinical Education II (1 to 4 credits)**

Clinical education experience in medical dosimetry in a university affiliated clinical education center is the focus of the course. The student will concentrate on refining medical dosimetry clinical reasoning and treatment planning skills in collaboration with health care team members. Offered winter semester. Prerequisite: RMD 661.

### **RMD 663 - Medical Dosimetry Clinical Education III (1 to 4 credits)**

Clinical education experience in medical dosimetry in a university affiliated clinical education center is the focus of the course. The student will concentrate on advanced level skills and transitioning into medical dosimetry practice as a member of the profession. Offered spring/summer semester. Prerequisite: RMD 662.

### **RMD 670 - Professional Issues in Medical Dosimetry (3 credits)**

Investigation of healthcare ethics, professional conduct, and psychologic aspects in oncology. Students also explore electronic medical records and charting, computer networking, treatment error corrections, quality improvement, advanced emerging technologies and legal issues. Preparation for the Medical Dosimetry Certification exam is conducted. Prerequisite: Successful completion of all previously required courses in the medical dosimetry program's curricular sequence.

### **RMD 693 - Medical Dosimetry Research Project (1 to 3 credits)**

Students work individually with faculty mentors on research activities, scholarly writing, and presentation skills to complete all steps of their research project. Training modules in research topics guide the student during their project. This course must be repeated for a total of six credits. Offered each semester. Prerequisites: Acceptance into the medical dosimetry program.

### **RMD 695 - Medical Dosimetry Thesis (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students work individually with faculty mentors on a thesis and defense. Training modules in research topics guide the student during their thesis. Students are required to remain continuously enrolled in RMD 695 once the thesis is started, until the end of the semester of graduation, for minimum of six credits. Prerequisites: Admission to the medical dosimetry program and completion of the Responsible Conduct of Research Training within last three years.

## **RMD 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within last three years.

## **RSC 315 - Quality Assessment and Health Outcomes (3 credits)**

This course provides knowledge in health care organizational and systems leadership, sustaining change through the process of quality improvement, and ensuring that patients are cared for in a safe, ethical, and efficient manner. Students will learn how to apply this knowledge to patients receiving respiratory care. Offered winter semester. Prerequisite: Admission to the respiratory care (BSRC) degree advancement program.

## **RSC 316 - Health Care Informatics for the Respiratory Therapist (3 credits)**

This course provides students with the fundamental knowledge of health care informatics. Focus is on how to integrate informatics principles into respiratory care practice and its use in improving patient care. Offered spring/summer semester. Prerequisite: Admission to the respiratory care (BSRC) degree advancement program.

## **RSC 318 - Gerontology for the Respiratory Therapist (3 credits)**

This course provides students with knowledge of biopsychosocial factors associated with aging and age-related issues of the older adult. Students will examine the health care needs of older patients from both an interprofessional viewpoint and from the specific role of the respiratory therapist in a variety of health care settings. Offered winter semester. Prerequisite: Admission to the respiratory care (BSRC) degree advancement program.

## **RSC 328 - Patient Assessment and Care Plans I (3 credits)**

This course provides students with enhanced knowledge in patient assessment and application of assessment skills to the development, implementation, and evaluation of evidence-based care plans for respiratory patients with common respiratory conditions. Offered winter semester.

Prerequisite: Admission to the respiratory care (BSRC) degree advancement program.

## **RSC 401 - Evidence-Based Practice in Respiratory Care (3 credits)**

This course focuses on evidenced-based practice in respiratory care. Critical thinking skills, how to incorporate evidence and best practices into professional work, and analysis of the practice and application of research within the field of respiratory care are emphasized. Offered fall semester. Prerequisites: AHS 301 and admission to the respiratory care (BSRC) degree advancement program.

## **RSC 428 - Patient Assessment and Care Plans II (3 credits)**

Students integrate physiologic and pathophysiologic principles, along with the application of assessment skills, to develop, implement, and evaluate evidence-based care plans for the management of medically complex respiratory patients and patients requiring mechanical ventilation. Offered spring/summer semester. Prerequisite: RSC 328.

## **RSC 438 - Respiratory Disease Management (3 credits)**

This course provides a comprehensive study of respiratory diseases. Focus is on the role of the respiratory therapist in disease treatment and management. Health disparities, along with other current and emerging issues in disease management, will be explored. Offered spring/summer semester. Prerequisite: Admission to the respiratory care (BSRC) degree advancement program.

## **RSC 458 - Cardiopulmonary Diagnostics and Monitoring (3 credits)**

This course provides a study of invasive and non-invasive diagnostics and patient monitoring techniques for the cardiopulmonary systems from prenatal through adult. Focus is on the role of the respiratory therapist in performing these diagnostic and monitoring techniques. Offered fall semester. Prerequisite: Admission to the respiratory care (BSRC) degree advancement program.

## **RSC 485 - Professionalism in Respiratory Care (3 credits)**

This course focuses on what it means to be a professional respiratory therapist and the relationship between professional and personal growth. Students will examine their own

professional identity by means of personal and critical reflection. Offered fall semester.  
Prerequisite: Admission to the respiratory care (BSRC) degree advancement program.

### **RSC 495 - Respiratory Care Capstone (3 credits)**

Students will explore current issues and trends impacting the respiratory care profession locally, nationally, and internationally. Synthesizing knowledge acquired from the major core courses and reflecting on their career goals, students will develop a project in an area of interest culminating in a professionally written paper and presentation. Offered fall semester.  
Prerequisites: Completion of general education Foundations - Writing, senior standing, and achievement of the Registered Respiratory Therapist (RRT) credential through the National Board for Respiratory Care (NBRC).

### **RST 180 - Special Topics in Russian Studies (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

### **RST 280 - Special Topics in Russian Studies (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

### **RST 380 - Special Topics in Russian Studies (1 to 9 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

### **RST 399 - Independent Reading (1 to 3 credits)**

Independent reading in Russian studies.

### **RST 480 - Special Topics in Russian Studies (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

### **RST 499 - Independent Study and Research (1 to 4 credits)**

Independent study and research in Russian studies.

### **RTX 300 - Foundations of Recreational Therapy (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduces students to the history, philosophy, theories and models of recreational therapy and factors influencing service delivery. Offered fall semester. Prerequisite: Admission into the recreational therapy program.

## **RTX 302 - Leisure, Health, and Wellness (3 credits)**

Addresses the concept of leisure and its use in achieving and maintaining good health and well-being of individuals, families, and societies. Leisure education and complementary health promotion strategies to achieve health and wellness are integrated throughout the course. Part of the Health Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **RTX 304 - Diagnostic Groups in Recreational Therapy (3 credits)**

Explores the delivery of recreational therapy for persons with illnesses, disabilities, and other populations. Focus on symptomology, etiology, prognosis, and treatment using recreational therapy interventions; includes an overview of the impact of illness and disability on the individual and family. Service learning enables students to apply course content. Offered winter semester. Prerequisite: Admission into the recreational therapy program.

## **RTX 306 - Comprehensive Recreational Therapy Programming (3 credits)**

Emphasis on systematic program planning in various settings utilizing recreational therapy service delivery models. Important components in program planning include assessment program planning, implementation and program evaluation. Offered fall semester. Prerequisite: RTX 300.

## **RTX 308 - Leadership for Recreational Therapy (3 credits)**

An introduction to theories and principles of leadership, group dynamics, and facilitation of interventions for persons with special needs will be presented. Developing individual therapeutic relationships and building rapport with groups will be a focus. The emphasis will be on practical experiences in recreational therapy leadership roles in various settings. Offered fall semester. Prerequisite: RTX 304.

## **RTX 310 - Interventions in Recreational Therapy (3 credits)**

An in-depth study of the intervention techniques and modalities used in implementing recreational therapy programs. Topics include treatment approaches, counseling techniques, and the facilitation process. Offered winter semester. Prerequisite: RTX 302.

## **RTX 313 - Recreational Therapy for Physical Disability (3 credits)**

Provides students with the knowledge and skills related to the delivery of recreational therapy services for persons with physical disabilities and other chronic conditions. Focuses on rehabilitation and community reintegration, inpatient and outpatient services. Offered winter semester. Prerequisite: RTX 304.

## **RTX 315 - Recreational Therapy for Mental Health (3 credits)**

An introduction to recreational therapy practice related to mental health. Emphasis on characteristics of the group, activities to facilitate change in different behavioral domains, therapeutic interventions for adults and children, treatment settings and services, and trends in programming. Offered fall semester. Prerequisite: RTX 304.

## **RTX 316 - Therapeutic Recreation with the Elderly (3 credits)**

Provides an overview of aging, the needs of older adults, and continuum of older adult services. The role of the recreational therapist and interventions commonly used with older adults will be explored. Service learning and practice experiences related to working with older adults are included. Offered winter semester. Prerequisite: RTX 304.

## **RTX 317 - Recreational Therapy for Pediatrics (3 credits)**

Examines recreational therapy practice with pediatric patients from birth through adolescence. Includes pediatric diagnosis, conditions and issues, and assessment, as well as recreational therapy interventions and treatment modalities. Offered winter semester. Prerequisite: RTX 304.

## **RTX 380 - Special Topics in Therapeutic Recreation (1 to 4 credits)**

Provides an opportunity for students to pursue advanced or specialist study in topics related to the field of therapeutic recreation. The selected topics are not ordinarily dealt with in other courses. Can be repeated. Offered on sufficient demand. Prerequisite: Permission of instructor.

## **RTX 389 - Recreational Therapy Placement Preparation (1 credit)**

Prepare students for fieldwork and internship placements. Topics will include self-exploration, preparation for successful placement selection, portfolio development, interviewing skills, development of professional behaviors, placement expectations, and completing health compliance requirements. Prerequisite: Admission into the recreational therapy program.

### **RTX 390 - Fieldwork in Recreational Therapy (3 credits)**

To be taken in an agency offering a recreational therapy program or in a community setting for persons with special needs. Involves practical experience of 300 hours in a supervised program under the direction of an off-campus cooperating agency. Prerequisite: RTX 310.

### **RTX 399 - Independent Readings and Special Activities (1 to 3 credits)**

Special studies in therapeutic recreation upon consultation with faculty advisor and approval of director of the therapeutic recreation program. Offered every semester.

### **RTX 404 - Trends and Issues in Recreational Therapy (3 credits)**

This course examines trends in recreational therapy. Issues are examined from historical, present, and future perspectives. Trends and issues will be examined critically and through reflective analysis at the undergraduate and graduate levels. Additional graduate coursework will emphasize professional trends regarding advanced-practice in recreational therapy. Cross-listed with RTX 504. Offered winter semester. Prerequisite: RTX 310.

### **RTX 405 - Management in Recreational Therapy (3 credits)**

Principles of management and organization will be applied to recreational therapy practice. Content includes plans of operations, quality improvement, risk management, budgeting and fiscal management, staff and volunteer management, facility management, payment systems, accreditation/regulatory agencies, and leadership of departments and programs. Cross-listed with RTX 505. Offered winter semester. Prerequisite: RTX 407.

### **RTX 407 - Assessment and Documentation in Recreational Therapy (3 credits)**

Examines assessment tools and the systematic assessment process used in the profession. Practical experience in the assessment, planning, implementation, and evaluation (APIE) process with attention to documentation for outcomes and accountability. Offered fall semester. Prerequisite: RTX 310.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **RTX 410 - Research and Evaluation in Recreational Therapy (3 credits)**

This course introduces the research process with an emphasis on evidence-based practice in recreational therapy. Program evaluation is discussed as a means of producing measurable outcomes related to recreational therapy interventions. Undergraduate projects are presented at Student Scholars Day, while graduate projects are presented at a professional forum. Cross-listed with RTX 510. Prerequisites: RTX 404 and STA 215.

## **RTX 490 - Internship in Recreational Therapy (6 or 12 credits)**

Fifteen-week (600 hour) full-time internship. Must be taken under the supervision of a certified therapeutic recreation specialist (CTRS). Offered every semester. Prerequisites: Senior standing, last semester of program, and satisfactory completion of the recreational therapy core.

## **RTX 499 - Independent Study and Research (1 to 3 credits)**

Special studies in therapeutic recreation upon consultation with faculty advisor and director of the therapeutic recreation program. Offered every semester.

## **RTX 502 - Classification of Functioning and Diagnosis in Recreational Therapy (3 credits)**

This class emphasizes application of the recreational therapy process and services to underserved populations and individuals with disabilities or chronic conditions. This includes identifying and understanding the symptoms, characteristics, etiology, and prognosis of disabilities and illnesses, as well as the impact on overall function and quality of life. Offered fall semester. Prerequisite: Admission to the Master of Science in recreational therapy.

## **RTX 504 - Trends and Issues in Recreational Therapy (3 credits)**

This course examines trends in recreational therapy. Issues are examined from historical, present, and future perspectives. Trends and issues will be examined critically and through reflective analysis at the undergraduate and graduate levels. Additional graduate coursework will emphasize professional trends regarding advanced-practice in recreational therapy. Cross-listed with RTX 404. Offered winter semester.

## **RTX 505 - Management in Recreational Therapy (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Principles of management and organization will be applied to recreational therapy practice. Content includes plans of operations, quality improvement, risk management, budgeting and fiscal management, staff and volunteer management, facility management, payment systems, accreditation/regulatory agencies, and leadership of departments and programs. Cross-listed with RTX 405. Offered winter semester. Prerequisites: RTX 507.

## **RTX 507 - Recreational Therapy Assessment and Documentation (3 credits)**

This course provides an overview of assessment as the foundation of the recreational therapy process. The course focus is on techniques and skills for conducting assessments as well as an examination of existing assessment tools, the development of new assessment protocols, and documentation related to the treatment planning process. Offered fall semester. Prerequisite: Admission into the Master of Science in recreational therapy.

## **RTX 508 - Recreational Therapy Interventions and Techniques (3 credits)**

This course will examine the intentional use of interventions as part of a comprehensive recreational therapy program. Additionally, leadership techniques, activity analysis and modification, and available resources will be considered as related to the use of interventions to address identified treatment needs. Offered winter semester. Prerequisite: RTX 507.

## **RTX 510 - Research and Evaluation in Recreational Therapy (3 credits)**

This course introduces the research process with an emphasis on evidence-based practice in recreational therapy. Program evaluation is discussed as a means of producing measurable outcomes related to recreational therapy interventions. Undergraduate projects are presented at Student Scholars Day, while graduate projects are presented at a professional forum. Cross-listed with RTX 410. Prerequisite: RTX 504.

## **RTX 590 - Clinical Internship in Recreational Therapy (6 credits)**

This course offers students a 15-week, full-time (600 hour) clinical internship in recreational therapy. It must be completed under the supervision of a Certified Therapeutic Recreation Specialist (CTRS). The placement must meet specific criteria for credit and to be eligible to take the national CTRS certification exam. Class is credit/no-credit. Offered every semester. Prerequisite: RTX 510.

## **RTX 606 - Program Development and Consulting in Recreational Therapy (3 credits)**

The focus of this course is on practice, techniques, and theories related to program development, program evaluation, and consulting in recreational therapy. Students will develop advanced skills in management and consulting related to recreational therapy services. Offered winter semester. Prerequisite: RTX 607.

## **RTX 607 - Advanced Practice in Recreational Therapy Assessment and Evaluation (3 credits)**

Identification of advanced-practice and emerging issues related to recreational therapy assessment will be evaluated. Critical analysis of existing assessment processes, development of new assessment tools, and implementation of new assessment processes will be studied. Principles of evidenced-based practice as related to assessment will be applied. Offered fall semester. Prerequisite: RTX 590 for Master of Science in recreational therapy (two-year program) or admission into the Master of Science in recreational therapy (one-year program).

## **RTX 613 - Advanced Recreational Therapy Practice in Physical Rehabilitation (3 credits)**

Identification and evaluation of advanced and emerging practice in recreational therapy within the physical rehabilitation setting are discussed. Advanced techniques, facilitation and evidence-based practice will be examined. Management and reimbursement issues within the setting will be assessed. Assessment tools, evaluation measures and documentation issues will be detailed. Offered winter and spring/summer semester. Prerequisite: RTX 607.

## **RTX 615 - Advanced Recreational Therapy Practice in Behavioral Health (3 credits)**

Identification of advanced-practice and emerging issues in recreational therapy within the behavioral health setting/population will be evaluated. Advanced intervention techniques, facilitation skills, and evidence-based practice will be examined. Management and reimbursement issues within the setting will be assessed. Assessment tools, evaluation measures, and documentation issues will be detailed. Offered winter and spring/summer semester. Prerequisite: RTX 607.

## **RTX 616 - Advanced Recreational Therapy Practice with Older Adults (3 credits)**

Advanced-practice and emerging issues in recreational therapy working with older adults in a variety of settings will be the focus of this course, including advanced intervention techniques, facilitation skills, and evidence-based practice. Management, reimbursement, and general practice issues will be discussed. Offered winter and spring/summer semester. Prerequisite: RTX 607.

### **RTX 673 - Integrated Evidence-Based Research in Recreational Therapy 1 (3 credits)**

This course provides an introduction to the development of evidence-based practice for recreational therapy. Students will learn how to use this information as a practitioner and manager to make treatment decisions and develop improved practice interventions. Offered fall semester. Prerequisites: STA 610 and either admission into the Master of Science in recreational therapy (one-year program) or RTX 590 for students in the Master of Science in recreational therapy (two-year program).

### **RTX 675 - Integrated Evidence-based Research in Recreational Therapy 2 (3 credits)**

Using knowledge and skills developed in Integrated Evidence-based Research 1, students will develop an evidence base for a specific intervention or diagnosis, including a knowledge translation plan for implementation within a recreational therapy program. Offered winter semester. Prerequisite: RTX 673.

### **RTX 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **RTX 698 - Integrated Evidence-Based Research in Recreational Therapy 3 (3 credits)**

This course serves as the Capstone of the Master of Science in recreational therapy. Focusing on the development of a professional product, students will work closely with faculty to develop a professional manuscript or conference presentation related to their evidence-based research project. Offered spring/summer semester. Prerequisite: RTX 675.

### **RUS 101 - Beginning Russian I: Language and Culture (4 credits)**

An introduction to Russian language and the culture in which it is embedded. Practice in speaking, listening, reading, writing, and culture at the beginning level. Supplemented by multimedia and the Language Resource Center. Offered fall semester.

## **RUS 102 - Beginning Russian II: Language and Culture (4 credits)**

Continuation of RUS 101. Further study in speaking, listening, reading, writing, and culture at the beginning level. Supplemented by multimedia and the Language Resource Center. Offered winter semester. Prerequisite: C (not C-) or better in RUS 101, or credit.

## **RUS 180 - Special Topics in Russian (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 100-level courses. May be repeated for credit when content differs. Offered on sufficient demand.

## **RUS 201 - Intermediate Russian I: Language and Culture (4 credits)**

Continuation of RUS 102. Continued study of speaking, listening, reading, writing, and culture at the intermediate level. Supplemented by multimedia and the Language Resource Center. Offered fall semester. Prerequisite: RUS 102 with a grade of C (not C-) or better, or credit.

## **RUS 202 - Intermediate Russian II: Language and Culture (4 credits)**

Continuation of RUS 201. Continued study of speaking, listening, reading, writing, and culture at the intermediate level. Supplemented by multimedia and the Language Resource Center. Fulfills Cultures - Global Perspectives. Offered winter semester. Prerequisite: RUS 201 with a grade of C (not C-) or better, or credit.

## **RUS 280 - Special Topics in Russian (3 to 4 credits)**

Course content varies. Expectations of students approximate those in other 200-level courses. May be repeated for credit when content differs. No more than four credits can be applied to the minor or major. Offered on sufficient demand.

## **RUS 380 - Special Topics in Russian (1 to 6 credits)**

Offered on sufficient demand.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **RUS 399 - Independent Reading (1 to 4 credits)**

Offered fall and winter semesters.

## **RUS 480 - Special Topics in Russian (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 400-level courses. May be repeated for credit when content varies. Offered on sufficient demand.

## **RUS 499 - Independent Study and Research (1 to 4 credits)**

Offered fall and winter semesters.

## **SAT 495 - Teaching Sciences and Arts in Elementary Classrooms (3 credits)**

Students will prepare and practice teaching interdisciplinary lessons for elementary students that meet national and state standards. Thematic content will integrate language arts, mathematics, science, and social studies. Offered winter semester. Prerequisites: Comprehensive sciences and arts for teaching major, and junior standing.

## **SCI 225 - Integrated Life Science for PK-3 Teachers (4 credits)**

Course promotes mastery of life and earth science concepts necessary to teach PK-3 science. Through inquiry and group discussions students develop reasoning and thinking skills critical to science while also developing mastery of science content. Fulfills Foundation - Life Sciences with a lab. Prerequisite: MTH 126 (may be taken concurrently).

## **SCI 226 - Integrated Physical Science for PK-3 Teachers (3 credits)**

Course promotes mastery of physical and earth science concepts necessary to teach PK-3 science. Through inquiry and discussions students develop reasoning and thinking skills. The course focuses on science teaching and learning that is connected to the other science disciplines. Fulfills Foundations - Physical Sciences with a lab. Prerequisite: MTH 126 (may be taken concurrently).

## **SCI 227 - Integrated Life and Earth Science for 3-6 Teachers (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Integration of Earth and Life Science concepts for preservice teachers. Includes Earth and space systems, major concepts in biology, scientific investigations, and engineering design. This course integrates content with crosscutting concepts and science and engineering practices. Content reflects National and Michigan Science Standards. Intended for PCKET majors only. Offered every semester. Prerequisites: SCI 225 and SCI 226.

### **SCI 319 - Science in Elementary Education (2 credits)**

Students will create and present a lesson plan, test hands-on activities, develop a deeper understanding of physical science concepts, and explore classroom safety issues related to teaching science at the K-8 level. Scientific misconceptions commonly held by teachers and students will be discussed. Prerequisites: BIO 120 and (either CHM 109 or CHM 201) and (either PHY 200 or PHY 201) and GEO 201.

### **SCI 336 - Ecology for K-8 Pre-Service Teachers (4 credits)**

Ecological concepts for preservice teachers. Includes ecosystems, energy flow, evolution, population dynamics, community ecology, and human impacts on the environment. This course is intended to integrate concepts from biology, physics, chemistry, and earth science. Content reflects National and Michigan Science Standards. Course is intended for integrated science majors only. Prerequisites: BIO 205, (either CHM 109 or CHM 201), GEO 202, GEO 203, and PHY 201 (GEO 201 recommended).

### **SCI 380 - Special Topics in Science (1 to 4 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

### **SCI 440 - Physics and Chemistry in Secondary Education (3 credits)**

Introduces students to evidence based, physical science pedagogy, science education standards, and science safety practices. Students apply these ideas to lesson plan development and facilitation for physical science content. Offered fall semester. Prerequisites: Junior standing, CHM 116 and (either PHY 221 or PHY 231) or permission of the instructor.

### **SCI 450 - Earth and Life Science in Secondary Education (3 credits)**

Designed to introduce students to evidence based, earth and life science teaching pedagogy, science education standards, and science safety practices. Students apply these ideas to lesson plan development and facilitation for earth and life science content. Offered winter semester. Prerequisites: Junior standing and either (BIO 120 and BIO 121) or (GEO 111 and GEO 112).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SCI 495 - Teaching Science in the 21st Century (3 credits)**

A study of how biology, chemistry, earth science, and physics can be integrated into effective curriculum for teaching science in PK-6 classrooms. Constructivist and inquiry-based science techniques emphasized. Course is the Capstone for science concentration in the PCKET major. Prerequisites: Senior standing, CHM 201, and BIO 205.

## **SCI 580 - Special Topics in Science (1 to 3 credits)**

Lecture and/or laboratory courses or workshops in interdisciplinary studies relating to more than one science and/or mathematics discipline.

## **SCI 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **SI 600 - Cultures of Social Innovation (3 credits)**

This foundational course introduces students to diverse interdisciplinary perspectives and models for social innovation. Students learn to identify and evaluate structural inequalities and power relationships across a variety of sectors (forprofit, nonprofit, and governmental). They will develop a vocabulary for engaging with diverse communities and explore models of community engagement. Offered fall and winter semesters. Prerequisite: Admission to PMASI.

## **SI 610 - Research Methods for Social Inquiry (3 credits)**

Providing a survey of interdisciplinary and multiple method research approaches with a focus on the complexities of in-depth social inquiry including theoretical approaches to social problems. Course includes a discussion of the assumptions shaping interdisciplinary research questions and design, practical exercises in research techniques, and analysis of methodology in practice. Offered fall and winter semesters. Prerequisite: Graduate standing.

## **SI 620 - Case Studies in Social Innovation (3 credits)**

This course provides a macro- and microview of social innovation through case studies focused on change agents and strategies for innovation. Students will examine social innovation processes, movements, and complex adaptive systems of change across and between nonprofit, for-profit, and governmental sectors including a variety of case studies. Offered winter semester. Prerequisite: SI 610.

## **SI 630 - Engaging Diversity through Social Innovation (3 credits)**

Designed to reinforce students' abilities to identify and critically evaluate structural inequalities, implicit values, and power relations across for-profit, nonprofit, and governmental sectors that shape the communities with which they engage. Includes discussion of theoretical frameworks for understanding equality/inequality as well as mechanisms for assessing inclusion and equity. Offered fall semester. Prerequisite: SI 600 or SI 610 or SI 620.

## **SI 650 - Place and Environmental Justice (3 credits)**

This course explores the creation of sustainable human communities, through the critical frameworks of place and environmental justice. Grounded in careful exploration of lived experience and the development of interdisciplinary place-based frameworks, students will develop critical tools for and perspectives on integrated ecologies of social innovation. Offered winter semester. Prerequisite: SI 600 or SI 610 or SI 620.

## **SI 661 - Social Innovation Internship (1 to 6 credits)**

Full-time or part-time, on-the-job social innovation work performed at a sponsoring entity while under the supervision of an approved mentor in a nonprofit, for-profit or governmental organization. Offered every semester. Prerequisites: Graduate standing, admission to PMASI program, and six credits completed in PMASI, or permission of the instructor

## **SI 690 - Social Innovation Research Design (3 credits)**

In this course students will work collaboratively with peers to develop and design a research project addressing a complex local/regional social problem. The project design will integrate social innovation research theory and practice, and iterative and adaptive project modeling. Students will share their project design in a culminating presentation. Offered winter semester. Prerequisites: SI 610 and SI 661 (SI 661 may be taken concurrently).

## **SI 693 - Master's Project in Social Innovation (1 to 3 credits)**

Supervised preparation of final research project for the professional Master of Arts in social innovation degree. Project research will be conducted under the supervision of faculty project supervisor. Offered every semester. Prerequisite: SI 690.

## **SI 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **SLP 308 - Articulation and Phonological Disorders (3 credits)**

Disorders of articulation and phonology are explored within a multicultural framework of normal patterns of acquisition and use. Supplemental Writing Skills course. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **SLP 402 - Voice and Fluency (3 credits)**

This course will focus on the theories, characteristics, etiologies, and clinical management of voice and fluency. Physical, cognitive, and affective attributes of fluency/voice disorders will be presented. Offered fall and winter semesters.

## **SLP 403 - Diagnostics in Communication Disorders (3 credits)**

The procedures for the evaluation (differential diagnosis) of communication disorders in children and adults with emphasis on the case history and diagnostic interviews. The use of diagnostic instruments, informal and standardized, will be addressed. Multicultural and ethical considerations will be highlighted. Offered winter and spring/summer semesters.

## **SLP 405 - Clinical Methods (3 credits)**

Principles and techniques of case management, including designing individualized programs for persons with a variety of impairments. Emphasis on writing objectives, prioritizing goals, developing therapy strategies, analyzing behavior management strategies, assessing learning outcomes, and writing clinical reports. A clinical observation experience is integrated with classroom instruction. Offered winter and spring/summer semesters.

## **SLP 407 - Pediatric Language and Articulation Disorders (2 credits)**

This course provides study of language and articulation disorders in children and adolescents, including differential diagnosis, intervention, and working with individuals from culturally and linguistically diverse backgrounds. Offered fall semester. Prerequisites: CSD 220 and CSD 304.

## **SLP 420 - Adult Language and Cognitive Communication Disorders (2 credits)**

This course will provide study of the disorders of language and cognitive communication in adults, including aphasia, dementia, traumatic brain injury, and right hemisphere syndrome. Offered winter semester. Prerequisites: CSD 220 and CSD 401.

## **SLP 421 - Motor Speech and Fluency Disorders (2 credits)**

This course will examine the assessment and treatment of motor speech and fluency disorders across the lifespan. Offered fall semester. Prerequisites: CSD 302 and CSD 401.

## **SLP 422 - Dysphagia and Voice Disorders (2 credits)**

This course will focus on the theories, characteristics, etiologies, and clinical management of voice and swallowing. Anatomy and physiology of the normal and disordered systems related to the function of voice and swallowing will be addressed. Offered fall semester. Prerequisites: CSD 302 and CSD 401.

## **SLP 480 - Special Topics in Speech Language Pathology (1 to 9 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **SLP 510 - Applied Research in Speech-Language Pathology (1 credit)**

Study of research specific to speech-language pathology with emphasis on the evaluation and critical analyses of applied single subject design, case study, and other areas of clinical research. Independent thought and critical thinking skills will be addressed. Offered fall and winter semesters. Prerequisite: Admission to the speech-language pathology program.

## **SLP 560 - School Age and Adolescent Language Disorders (3 credits)**

This course examines the nature, assessment, and treatment of language disorders in children aged kindergarten through high school. Receptive and expressive language differences and disorders, including reading and writing disorders, will be studied in depth. Prerequisite: Admission to the speech-language pathology program.

## **SLP 561 - Advanced Study of Phonological Disorders (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Advanced study of the nature, assessment, and treatment of speech disorders in children. Topics include normal aspects of articulation and phonological development, the causes for speech sound disorders, and phonological assessment practices and treatment strategies that are developmentally appropriate for children. Offered fall and winter semesters. Prerequisite: Admission to the speech-language pathology program.

### **SLP 562 - Aphasia and Related Disorders (3 credits)**

Specific study of the nature, assessment, and treatment of acquired language disorders in adults, including aphasia, alexia, agraphia, and other related disorders. Offered fall and winter semesters. Prerequisite: Admission to the speech-language pathology program.

### **SLP 570 - Infant, Toddler, Preschool Language Disorders (3 credits)**

This course focuses on the nature, assessment, and treatment of language disorders in infants and children from birth through five years of age. Students will learn evaluation techniques and treatment strategies for improving the receptive and expressive language abilities for infants, toddlers, and preschool-aged children. Offered winter and spring/summer semesters. Prerequisite: Successful completion of all previously required courses in the speech-language pathology curricular sequence.

### **SLP 571 - Voice Disorders and Laryngectomy (3 credits)**

This course is a theoretical and applied study of the diagnosis and treatment of voice disorders including laryngectomy. This course includes the functional and organic disorders of voice, diagnostic procedures including clinical evaluation and standardized assessments, interviewing and counseling principles, and voice therapy techniques for children and adults. Offered winter and spring/summer semesters. Prerequisite: Successful completion of all previously required courses in the speech-language pathology curricular sequence.

### **SLP 572 - Dysphagia (3 credits)**

Advanced study of the prevention, etiology, diagnosis, and treatment of swallowing disorders in adults and children. Offered winter and spring/summer semesters. Prerequisite: Successful completion of all previously required courses in the speech-language pathology curricular sequence.

### **SLP 573 - Fluency Disorders (2 credits)**

Study of the etiology, diagnosis, treatment, and prevention of fluency disorders in adults and children. Offered spring/summer semester. Prerequisite: Successful completion of all previously required courses in the speech-language pathology curricular sequence.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SLP 580 - Special Topics in Speech Language Pathology (1 to 9 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **SLP 581 - Cognitive Communication Disorders (3 credits)**

Study of the etiology and neuropathology of different communication disorders following dementia and other cognitive disorders and corresponding diagnostic and management options. Offered fall and spring/summer semesters. Prerequisite: Successful completion of all previously required courses in the speech-language pathology curricular sequence.

## **SLP 582 - Motor Speech and Craniofacial Disorders (3 credits)**

Study of the etiology and neuropathology of different dysarthric syndromes and corresponding diagnostic and management options. Students will also learn about the development, characteristics, evaluation, and treatment of children with cleft lip and/or palate and other craniofacial syndromes that affect speech, language, hearing, and swallowing. Offered fall and spring/summer semesters. Prerequisite: Successful completion of all previously required courses in the speech-language pathology curricular sequence.

## **SLP 583 - Autism Spectrum Disorder in Speech-Language Pathology (2 credits)**

This course involves the study of the communication abilities, differences and disorders associated with autism spectrum disorder. Students will learn evidence-based methods of assessment and treatment of communication disorders for individuals with autism spectrum disorder. Offered fall and spring/summer semesters. Prerequisite: Successful completion of all previously required courses in the speech-language pathology curricular sequence.

## **SLP 584 - Augmentative and Alternative Communication (2 credits)**

In this course, students will learn about types and use of augmentative and alternative communication (AAC). Evaluation for AAC device selection and the evaluation of communication using AAC will be explored. Students will learn principles of AAC intervention for individuals across the lifespan. Society's perceptions of AAC will be addressed. Offered winter and spring/summer semesters. Prerequisite: Admission to the speech-language pathology program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SLP 670 - Professional Seminar in Speech-Language Pathology (1 credit)**

This course addresses selected topics, issues, and other content designed to prepare students for clinical practice in speech-language pathology. Content is treated on an expert level with emphasis upon problem solving and integration of information across didactic and practical knowledge toward clinical skill development. Offered every semester. Prerequisite: Admission to the speech-language pathology program. Students enroll in this course each semester of their academic program for which they are on campus. Continuing students must show successful completion of all previously required courses in the speech-language pathology curricular sequence.

## **SLP 681 - Clinical Practicum in Speech-Language Pathology I (3 credits)**

This is the first supervised speech-language pathology practicum. The three-course practical experience is designed to provide opportunities for students to develop and hone their clinical skills as they progress from less complex cases under close supervision to more complex cases and greater autonomy. Offered fall and winter semesters. Prerequisite: Admission to the speech-language pathology program.

## **SLP 682 - Clinical Practicum in Speech-Language Pathology II (4 credits)**

This is the second supervised speech-language pathology practicum. The three-course practical experience is designed to provide opportunities for students to develop and hone their clinical skills as they progress from less complex cases under close supervision to more complex cases and greater autonomy. Offered winter and spring/summer semesters. Prerequisite: SLP 681.

## **SLP 683 - Clinical Practicum in Speech-Language Pathology III (4 credits)**

This is the third supervised speech-language pathology practicum. The three-course practical experience is designed to provide opportunities for students to develop and hone their clinical skills as they progress from less complex cases under close supervision to more complex cases and greater autonomy. Offered fall and spring/summer semesters. Prerequisite: SLP 682.

## **SLP 684 - Clinical Internship in Speech-Language Pathology (12 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This is the final supervised speech-language pathology practicum. Professionals will supervise and teach students in speech-language clinical practice. Students will continue to gain experience and refine their clinical skills in various aspects of the practice of speech-language pathology.

## **SLP 695 - Master's Thesis in Speech-Language Pathology (1 to 6 credits)**

Designed to allow graduate students to pursue research in the areas of speech, language, and hearing under appropriate faculty supervision, culminating in the defense of a written thesis. Students choose the thesis option in lieu of the written comprehensive examination. Students should talk with their adviser prior to enrolling. Offered every semester. Prerequisites: Successful completion of all previously required courses in the speech-language pathology curricular sequence and completion of the Responsible Conduct of Research Training within the last three years.

## **SLP 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisites: Completion of all required project or thesis credits and completion of the Responsible Conduct of Research Training within the last three years.

## **SLP 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **SLP 699 - Independent Study in Speech-Language Pathology (1 to 3 credits)**

This course provides opportunities for in-depth study in an area of special interest as directed by a faculty member. Offered every semester. Prerequisite: Admission to the speech-language pathology program. Requires department chair and faculty supervisor approval.

## **SOC 101 - Introduction to Sociology (3 credits)**

Introduction to the fundamental questions, concepts, theories, and general principles of sociological thought. Inquiries into culture, socialization, norms, power relations, social institutions, and group interaction. Illustrates how human action transforms society, and how

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

social and cultural forces constrain human action. Fulfills one of the Foundations - Social and Behavioral Sciences. Offered every semester.

## **SOC 105 - Social Problems (3 credits)**

Examines a range of social conditions, arrangements, and behaviors typically defined as problems in modern society. Applies sociological analysis to understand how problems arise from the organization of society, and the processes by which conditions become identified as social problems, and how ideology and power shape responses to social problems. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - U.S. Diversity. Offered every semester.

## **SOC 180 - Special Topics in Sociology (3 credits)**

Course content varies. Refer to schedule of classes to determine course description and prerequisites. Students may repeat this course under different topics.

## **SOC 204 - Introduction to Social Theory (3 credits)**

Builds the intellectual sophistication necessary to understand and work with theoretical concepts. Teaches imaginative assessment and creative construction of theoretical dialogues from classical theory, race and ethnicity, sex, gender and sexuality, recent developments in theory, and other areas, with application to real-life social events. Emphasis on reading primary texts. Offered fall and winter semesters.

## **SOC 250 - Perspectives on Madness (3 credits)**

Focus is on the social construction of madness. Compares the different ways madness has been defined and treated throughout history and in different cultures. Relationship between those labeled mad, those who label, and the sociocultural context will be examined. Offered fall semester.

## **SOC 251 - Criminology (3 credits)**

An analysis of crime, criminal behavior, and punishment through a variety of historical and contemporary theoretical perspectives. Offered on sufficient demand.

## **SOC 252 - Sociology of Drug Use and Abuse (3 credits)**

Covers the etiologies and use and abuse of alcohol, tobacco, and other drugs (ATOD) in the U.S. Also studies past and present patterns of ATOD, their causes, social and legal aspects, treatment, and the political economy of drug trafficking. Offered every semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SOC 285 - Families in Society (3 credits)**

An examination of the basic concepts of culture and their application, first to the American family and then to the family in other cultures. Fulfills Cultures - U.S. Diversity. Offered every semester.

## **SOC 286 - Sociology of Health Care (3 credits)**

In this course, we draw on sociological and interdisciplinary frameworks to examine comparative health care systems, social origins of disease and health inequalities, biomedicine as a cultural system, social construction of disease, medicalization and social control, and alternative healing practices, perspectives, and politics. Offered fall and winter semesters.

## **SOC 287 - Sociology of Religion (3 credits)**

Critically analyzes religion as an institutional structure and belief system and explores the relationship of religion to social change and organization. Emphasis on religion in the contemporary United States, both the uniquely American aspects of religion and in comparison to the broader diversity of religious expression globally. Fulfills one of the Foundations - Social and Behavioral Sciences. Fulfills Cultures - U.S. Diversity. Offered fall semester.

## **SOC 288 - Sociology of Food (3 credits)**

Considers the way in which values and ideas are socially constructed, with specific focus on the relationship between food and society. A comparative, cross-cultural analysis that examines food production, distribution, preparation, and consumption. Includes nutrition, social eating disorders, religious prescriptions and proscriptions, food and poverty, fast food, and world hunger. Offered on sufficient demand.

## **SOC 289 - Sociology of Art (3 credits)**

Explores the ways that public debates over art, aesthetics, and taste mask fundamental conflicts of culture, class, race, ethnicity, and gender. Examines controversies over the public funding of historical and contemporary cultural projects as well as the fluid boundaries between the taste for high and popular culture. Offered fall semester.

## **SOC 304 - Quantitative Methods in Sociology (3 credits)**

Examination of the basic methods of quantitative empirical research in sociology. Focus on collection, analysis, and interpretation of data. Offered fall and winter semesters. Prerequisites: STA 215 and (either SOC 101 or SOC 105) and three additional credits in sociology.

## **SOC 305 - Qualitative Methods in Sociology (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Examination of the basic methods of qualitative empirical research in sociology. Focus on collection, analysis, and interpretation of data. Offered fall and winter semesters. Prerequisites: STA 215 and (either SOC 101 or SOC 105) and three additional credits in sociology.

## **SOC 306 - The Sociology of Human Rights (3 credits)**

This course uses a sociological framework to examine how human rights are socially determined, theorized, conceptualized, designed, interpreted, adjudicated, implemented, enforced, violated, and contested. It does so by looking at specific human rights regimes, categories, and violations in both national and global terms. Part of the Human Rights Issue. Offered alternating fall and winter semesters each year. Prerequisite: Junior standing.

## **SOC 313 - Race and Ethnicity (3 credits)**

Analysis of cultural, historical, and social construction of race and ethnicity in the U.S. and cross-culturally. Assesses theories of prejudice, discrimination, and racism. Grounds the examination of the interplay of group privilege and disadvantage within the context of contemporary issues related to race and ethnicity. Fulfills Cultures - U.S. Diversity. Part of the Human Rights Issue. Offered every semester. Prerequisite: Junior standing.

## **SOC 315 - Social Class Inequality (3 credits)**

Focus on the historical, socioeconomic, and political construction of class inequality in the United States from a critical perspective. Includes attention to cultural and global context. Offered fall and winter semesters. Prerequisite: Junior standing.

## **SOC 317 - Sociology of Gender (3 credits)**

Explores gender as a socially constructed system of stratification. Topics may include how ideas about gender shape childhood, families, education, work, violence, science, and social inequality. Examines how gender intersects with other socially constructed systems of stratification, including race, sexuality, class, age, and ability. Fulfills Cultures - U.S. Diversity. Part of the Identity Issue. Cross-listed with WGS 317. Offered fall semester. Prerequisite: Junior standing.

## **SOC 318 - Sociology of Sexuality (3 credits)**

Explores sexuality as a socially constructed system of stratification. Topics may include the production of sexual identities and desires, and how ideas about sexuality shape the media, violence, social movements, and work. Examines how sexuality intersects with other socially constructed systems of stratification, including race, gender, class, age, and ability. Fulfills Cultures - U.S. Diversity. Part of the Identity Issue. Cross-listed with WGS 318. Offered winter semester. Prerequisite: Junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SOC 319 - Classic Social Theory (3 credits)**

A critical survey of social theorists who shaped early sociology and remain relevant today. Covers theory from the early modern period to World War II. Offered fall semester. Prerequisites: SOC 204 and six additional hours in sociology.

## **SOC 321 - Contemporary Sociological Theory (3 credits)**

A critical survey of social theorists who extended and sometimes challenged the sociological perspective. Emphasizes the development and application of theory in relationship to contemporary issues. Covers theorists from post-World War II to the present. Offered winter semester. Prerequisites: SOC 204 and six additional credits in sociology.

## **SOC 322 - Sociology of Community (3 credits)**

Examines sociology's community studies tradition and concerns with the modern fate of close-knit, cohesive communities. Readings focus on the field's intellectual origins, contrasts between small towns and cities, major theories, research methods, and contemporary communities. Fulfills Cultures - U.S. Diversity. Part of the Identity Issue. Offered winter semester. Prerequisites: SOC 101 and junior standing.

## **SOC 333 - Sociology of the Civil Rights Movement (3 credits)**

This course applies multiple sociological models of social movements to the American civil rights movement from 1940-1970s. Offered fall semester.

## **SOC 345 - Cultural Sociology (3 credits)**

Examines the symbolic processes in the production and circulation of meanings within society and the sociocultural context in the construction and interpretation of social behavior, social identity, and location. Offered odd-numbered years. Prerequisite: SOC 101 or ANT 204 or permission from the instructor.

## **SOC 350 - Family and Gender in the Developing World (3 credits)**

A comparative examination of the impact of development on families and gender roles in third world countries. Will include consideration of general issues (e.g., factors affecting family reproduction decisions, women in the formal and informal labor force, etc.) and in-depth study of gender and family in one or more countries. Fulfills Cultures - Global Perspectives. Part of the

Identity Issue. Cross-listed with WGS 350. Offered fall and winter semesters. Prerequisites: Fulfillment of general education Foundations - Writing and junior standing.

## **SOC 351 - Urban Sociology (3 credits)**

Explores urban theory (Chicago School, political economy, and cultural approaches), the evolution of cities, suburbanization, race relations, street life, sustainability (economic, social, and environmental), redevelopment, urban politics, and international comparisons. Readings focus on theory, specific cities, and environmental concerns. Part of the Sustainability Issue. Offered fall semester. Prerequisites: SOC 101 and junior standing.

## **SOC 355 - Sociology of Work and Employment (3 credits)**

Provides an understanding of the current labor market through an examination of the changing dynamics of work, occupational structure, and labor relations in the U.S. and globally. Analyzes the impact of globalization on workers, and the efforts of workers' movements to respond to new economic challenges. Part of the Globalization Issue. Prerequisite: Junior standing.

## **SOC 360 - Social Psychology: Sociology's View (3 credits)**

Studies how individual's perceptions, belief systems, moralities, identities, and behaviors are influenced by their place in society relevant to institutions and structural context. Also studies how individuals, as actors, influence our social world. Offered every semester. SOC 360 is not equivalent to PSY 360, students may receive credit for both courses. Prerequisite: Any three credits in sociology or psychology.

## **SOC 366 - American Society and Media (3 credits)**

Interdisciplinary approach to the ways in which mediated mass culture produces meaning in contemporary American society as examined through a variety of critical lenses such as political economy and sociocultural analyses of the organization of the mass media, media content, and audience reception studies of film, television, and/or music cultures. Part of the Information, Innovation, or Technology Issue. Cross-listed with INT 366. Offered every year. Prerequisite: Junior standing.

## **SOC 377 - Globalization: Structures and Movements (3 credits)**

Examines and critiques the historical origins, economic and technological foundations, institutional arrangements, ideological underpinnings, collective movements, and controversial outcomes of "transnationalism" and "globalization." Sociological analysis emphasizes macrolevel institutions that shape globalization, social conflicts arising from its effects, and the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

consequences of global change on individuals, groups, and organizations. Part of the Globalization Issue. Offered winter semester. Prerequisite: Junior standing.

### **SOC 379 - Sociology of Love (3 credits)**

An investigation of love from a sociological perspective, including the following: the social construction of love, love and intimacy in relation to the social construction of gender and sexualities, and cross-cultural comparisons. Offered fall semester. Prerequisite: Junior standing.

### **SOC 380 - Special Topics in Sociology (1 to 3 credits)**

A seminar for the study of important topics not ordinarily covered in other courses. This course may be taken more than once when the topic is different. Offered on sufficient demand.

### **SOC 381 - Class, Race, Gender, and Sexuality (3 credits)**

Focus is on the social, historical, and cultural meanings of class, race, and gender. Gives students a better understanding of the interrelationship of class, race, and gender within the context of family life, schooling, and work. Fulfills Cultures - U.S. Diversity. Offered fall and winter semesters. Prerequisite: SOC 101 or SOC 105.

### **SOC 386 - Death and Dying (3 credits)**

Considers the way in which ideas and values are socially constructed and contextually grounded. Specific focus on the historical, socioeconomic, psychological, and political construction of death and dying in the United States. A comparative aspect is also provided. Offered winter semester. Prerequisite: Junior standing.

### **SOC 387 - Sociology of Childhood (3 credits)**

Explores sociological issues, theory and research on the social and cultural worlds of children. Focuses on the institution of childhood and the study of children as social actors. Main attention devoted to the social lives of children and their families. Offered fall and winter semesters. Prerequisite: SOC 101.

### **SOC 388 - Middle Age and Aging (3 credits)**

Examines the social context of mid-life aging in contemporary society in areas such as work, family, health, and politics. Applies social theories and primarily historical analysis of the sociopolitical issues and myths regarding aging in a rapidly aging society and social world. Offered fall semester.

### **SOC 389 - Child Maltreatment (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An examination of the individual, familial, community, and sociocultural causes of child maltreatment in this country. Focus is on the analysis and integration of theory, research, and practice. Offered fall and winter semesters.

## **SOC 392 - Social Deviance and Social Control (3 credits)**

An analysis of deviant behavior: its causes, manifestations, prevention, and programs of control. Special attention is given to the role of social norms in generating as well as controlling deviance. Emphasis is put on ways in which social structures generate and label deviants. Offered fall semester.

## **SOC 399 - Independent Readings (1 to 3 credits)**

Independent supervised readings in selected topics. A student may take only one reading course for one to three credits per term. No more than six hours of SOC 399 and SOC 499 combined may count toward a major or three hours of SOC 399 and SOC 499 combined toward the minor. Offered every semester. Prerequisites: SOC 101 and consent of the instructor before registration.

## **SOC 490 - Practicum: Career-Service (1 to 9 credits)**

Agency experience in the community relating practical training and independent study in a specialized area. Limited to nine credits maximum. Offered every semester. Prerequisites: 15 hours of course preparation and permission of instructor. Graded credit/no-credit.

## **SOC 495 - Senior Seminar in Sociology (Capstone) (3 credits)**

Critiques contemporary debates in sociology. Through active reading, discussion, and production of a milestone statement, students will reflect on the meaning and application of the sociological imagination, which may include a research project or critical thinking project. Offered fall and winter semesters. Prerequisites: Senior standing and (either SOC 304 or SOC 305) and (either SOC 319 or SOC 321) and prior approval.

## **SOC 499 - Independent Study and Research (1 to 3 credits)**

Research conducted individually with faculty supervision. Attention given to written and oral presentation of research findings. A student may take only one independent study course for one to four credits per term. No more than six hours of SOC 399 and SOC 499 combined may count toward a major or three hours of SOC 399 and SOC 499 combined toward the minor. Offered every semester. Graded credit/no-credit. Prerequisites: Nine hours in major and prior approval.

## **SPA 101 - Beginning Spanish I: Language and Culture (4 credits)**

An introduction to the Spanish language and to the cultures of the Spanish-speaking world. Practice in speaking, listening, reading, and writing for students at the novice level. Supplemented by multimedia and the Language Resource Center. Intended for students with no previous study of Spanish. Offered fall and winter semesters.

## **SPA 102 - Beginning Spanish II: Language and Culture (4 credits)**

Continuation of SPA 101. Continued development of speaking, listening, reading, and writing for students at the novice level. Cultures of the Spanish-speaking world integrated throughout. Supplemented by multimedia and the Language Resource Center. Students may not receive credit for both SPA 102 and SPA 150. Offered fall and winter semesters. Prerequisite: C (not C-) or better, or credit, in SPA 101, or appropriate placement test score.

## **SPA 150 - Accelerated Beginning Spanish: Language and Culture (4 credits)**

One semester accelerated review of beginning Spanish for students with prior study. Covers the same material as SPA 101-102. Development of speaking, listening, reading, writing, and cultural competencies. Supplemented by multimedia and the Language Resource Center. Students cannot receive credit for both SPA 102 and SPA 150. Prerequisite: Prior study of Spanish.

## **SPA 180 - Special Topics in Spanish (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 100-level courses. May be repeated for credit when content differs. Offered on sufficient demand.

## **SPA 201 - Intermediate Spanish I: Language and Culture (4 credits)**

Continued development of speaking, listening, reading, and writing for students at the intermediate level. Cultures of the Spanish-speaking world integrated throughout. Supplemented by multimedia and the Language Resource Center. Offered fall and winter semesters. Prerequisite: C (not C-) or better, or credit, in SPA 102 or SPA 150, or appropriate placement test score.

## **SPA 202 - Intermediate Spanish II: Language and Culture (4 credits)**

Continued development of speaking, listening, reading, and writing for students at the intermediate level. Review of grammar and expansion of vocabulary. Focus on cultures of the Spanish-speaking world through authentic texts. Supplemented by multimedia and the Language Resource Center. Fulfills Cultures - Global Perspectives. Offered fall and winter semesters. Prerequisite: C (not C-) or better, or Credit, in SPA 201, or appropriate placement test score.

## **SPA 203 - Spanish for Heritage Speakers (4 credits)**

An intermediate Spanish course for students who grew up listening to and/or speaking Spanish. Focus on developing all four language skills, with special emphasis on the needs of heritage learners. Offered fall semester. Prerequisite: Permission of instructor.

## **SPA 204 - Supplemental Spanish Grammar (4 credits)**

An intermediate-level review of Spanish grammar designed for students who have weak language skills. This course provides a rigorous grammar review of the entire verb system (tense, mood, voice, and aspect), clause structure, and the pronominal system. Offered winter semester. Prerequisite: SPA 202.

## **SPA 280 - Special Topics in Spanish (1 to 4 credits)**

Course content varies. Expectations of students approximate those in other 200-level courses. May be repeated for credit when content differs. Offered on sufficient demand.

## **SPA 285 - Intermediate Spanish in Mexico (4 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **SPA 286 - Mexican Culture (2 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **SPA 300 - Reading and Telling Stories (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This course introduces some of the most important short story writers from Spain and Latin America of the late 19th and 20th centuries. It is designed to aid students to develop reading strategies, as well as to become more skilled storytellers. Offered fall and winter semesters. Prerequisite: C (not C-) or better in SPA 202, or credit, or appropriate placement test score.

### **SPA 303 - Professional Writing (3 credits)**

Builds practical writing skills in written Spanish to enable students to produce documents pertinent to their future professional careers. Designed for the Spanish minor, with an emphasis on linguistic and cultural registers of written Spanish and on specialized vocabulary. Contains a service-learning component. Offered fall semester. Prerequisite: SPA 322 with a grade of C (not C-) or better.

### **SPA 304 - Spanish for Health Professionals (3 credits)**

A third-year Spanish course designed to prepare students in the health professions to successfully communicate with Spanish-speaking clientele. Offered winter semester. Prerequisite: SPA 202 with a grade of C (not C-) or better.

### **SPA 305 - Spanish for Law Enforcement (3 credits)**

This course is designed to teach the specialized vocabulary and terminology necessary for law enforcement professionals to communicate in Spanish. A review of relevant grammatical structures will also be presented. In addition, cross-cultural differences, cultural sensitivity, and language variation as they relate to issues of law enforcement will be central themes of this course. Offered fall semester. Prerequisite: SPA 202 with a grade of C (not C-) or better.

### **SPA 306 - Spanish for Business (3 credits)**

The purpose of this class is to introduce students to the Spanish business terminology and to teach the fundamentals of practical commercial correspondence (oral and written) in advertising, insurance, transportation, banking, and foreign trade. Special attention will be paid to cross-cultural differences and similarities in specific countries. Offered winter semester. Prerequisite: SPA 202 with a grade of C (not C-) or better.

### **SPA 307 - Death and Dying in Hispanic Literature (3 credits)**

Examines the literary representations of and responses to death and dying within the historical and cultural context of Spain and Latin America through the reading and discussion of representative poetic, dramatic, and narrative works. Offered winter semester. Prerequisite: SPA 321 with a C (not C-).

## **SPA 308 - Spanish Phonetics (3 credits)**

Introduction to the sound system of Spanish. Phonetic transcription of texts in Spanish. Offered fall and winter semesters. Prerequisite: SPA 202 with a grade of C (not a C-) or better.

## **SPA 309 - Advanced Spanish Grammar (3 credits)**

A study of the syntax and morphology of Spanish designed to give students a deeper understanding of the language and to increase their accuracy and range in the use of it. Offered fall and winter semesters. Prerequisite: SPA 322 with a grade of C (not C-) or better.

## **SPA 310 - Spanish Civilization and Culture (3 credits)**

Introduction to the complexity of peoples and cultures of Spain against the backdrop of cultural, political and economic forces. This course will draw on a variety of cultural texts (e.g., art, architecture, and music) to showcase the diversity that has shaped contemporary Spain. Offered fall and winter semesters. Prerequisite: SPA 322 with a grade of C (not C-) or better.

## **SPA 311 - Latin American Civilization and Culture I (3 credits)**

An introduction to the political, social, economic, and cultural history of Latin America up to the 1800s. Offered fall semester. Prerequisite: SPA 322 with a grade of C (not C-) or better.

## **SPA 312 - Latin American Civilization and Culture II (3 credits)**

Designed to provide students with the knowledge of major historical, literary, and cultural moments in Latin America from Independence to the present day. Offered winter semester. Prerequisite: SPA 322 with a grade of C (not C-) or better.

## **SPA 313 - U.S. Latino/a Civilization and Culture (3 credits)**

An introduction to the political, social, economic, and cultural history of Latinos/as in the United States that leads to an appreciation and awareness of the cultural roots and current lifestyles of these groups. Fulfills Cultures - U.S. Diversity. Offered fall and winter semesters. Prerequisite: SPA 322 with a grade of C (not C-) or better.

## **SPA 314 - Teaching Methods (3 credits)**

This course provides future Spanish teachers with an introduction to the basic concepts of Spanish pedagogy with particular emphasis on the communicative approach. Students will learn

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

to write lesson plans, design and teach communicative activities, and create appropriate evaluation materials such as exams and quizzes. Offered fall and winter semesters. Prerequisites: Completion of SPA 322 with a grade of C (not C-) and (either SPA 310 or SPA 311 or SPA 312 or SPA 313).

## **SPA 315 - One-Act Hispanic Drama (3 credits)**

This introduction to the study of Spanish-American and peninsular drama through one-act plays focuses on textual analysis as well as practicing Spanish oral and written skills via informal performances, creative writing, and analytical projects. The course is based primarily in discussion and active-learning activities. Offered fall semester of odd-numbered years. Prerequisite: SPA 202.

## **SPA 320 - Composition and Conversation for Spanish Heritage Speakers (3 credits)**

This course focuses on developing the academic language skills of heritage learners of Spanish, defined as those who have acquired Spanish through cultural connections with family, community, or country of origin. SPA 320 is designed for heritage speakers who have intermediate-high or advanced proficiency. Offered fall and winter semesters. Prerequisite: SPA 203 or permission of the instructor.

## **SPA 321 - Composition and Conversation I (3 credits)**

First of a two-part sequence designed to improve proficiency in oral skills and academic writing in Spanish as well as listening and reading skills. Course will present a systematic review of grammar and promote the acquisition of new vocabulary in the context of Hispanic culture. Offered fall and winter semesters. Prerequisite: SPA 202 with a grade of C (not C-) or better, or credit, or appropriate placement test score.

## **SPA 322 - Composition and Conversation II (3 credits)**

Second of a two-part sequence designed to improve proficiency in oral skills and academic writing in Spanish as well as listening and reading skills. Course will present a systematic review of grammar and promote the acquisition of new vocabulary in the context of Hispanic culture. Offered fall and winter semesters. Prerequisite: SPA 321 with a grade of C (not C-) or better.

## **SPA 327 - The History of the Spanish Language (3 credits)**

An introduction to the phonological, morphological, and syntactic evolutions and changes that took place as Spanish developed from spoken Latin. Offered winter semester of odd-numbered years. Prerequisites: SPA 308 and SPA 309 with a grade of C (not C-) or better.

## **SPA 329 - Sociolinguistics of Spanish (3 credits)**

An introduction to the relationship between Spanish language and society, including the evolution of Spanish in Spain and Latin America, dialectal variation, Spanish in contact with other languages, and Spanish as a component of individual and group identity. Offered fall semester. Prerequisite: SPA 322 with a grade of C (not C-) or better, or permission of instructor.

## **SPA 330 - Introduction to Literary Analysis (3 credits)**

Introduction to the literary analysis of the narrative, poetry, and drama of Spain and Spanish America. Offered fall and winter semesters. Prerequisites: SPA 322 plus three credits at the 300-level with a grade of C (not C-) or better.

## **SPA 331 - Survey of Spanish Literature (3 credits)**

A historically grounded survey of the principle literary works and movements of Spain. Offered fall and winter semesters. Prerequisites: SPA 322 plus three credits at the 300-level with a grade of C (not C-) or better. May be taken concurrently with SPA 300.

## **SPA 332 - Survey of Spanish American Literature (3 credits)**

A historically grounded survey of the principle literary works and movements of Spanish America. Offered fall and winter semesters. Prerequisites: SPA 322 plus three credits at the 300-level with a grade of C (not C-) or better. May be taken concurrently with SPA 330.

## **SPA 335 - Introduction to Spanish Linguistics (3 credits)**

A general introduction to modern linguistic concepts, applied especially to the Spanish language. Includes the sound system (phonetics and phonology), word formation (morphology), the structure of utterances (syntax), meaning and usage (semantics and pragmatics), and language variation. Offered fall and winter semesters. Prerequisite: SPA 309 with a grade of C (not C-) or better or permission of instructor.

## **SPA 350 - Spanish Laboratory Theatre (3 credits)**

Consists of rehearsal and public performance of a full-length play or a group of one-act plays. Plays selected from contemporary peninsular and Spanish-American authors. Offered winter semester of even-numbered years. Prerequisite: SPA 202 with a grade of C (not C-) or better.

## **SPA 360 - Perspectives on Hispanic Culture and Society (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A multidisciplinary study of Spanish-American and peninsular culture and society, as represented in architecture, food, music, sports, the visual arts, and other cultural expressions. Special emphasis is placed on the historical and sociopolitical contexts of the examined material. Offered fall and winter semesters. Prerequisite: SPA 321 with a C or better.

### **SPA 361 - Spanish/Latin American Culture Through Film (3 credits)**

A study of language and culture that emphasizes the relationships among society, politics, and history through the lens of Latin American and/or Peninsular filmmakers and their film production. Prerequisite: One of the following courses (SPA 310, SPA 311, SPA 312, or SPA 313) with a grade of C or better.

### **SPA 378 - Contemporary Latin American Literature (3 credits)**

A survey of Spanish literature of the past three decades in English translations, taking in a variety of nations, regions, and cultures, including Afro-Latin and indigenous voices. Genres to be studied include the novel, the short story poetry, drama, testimonial narrative, speeches, folklore, and film. Cross-listed with ENG 378 and LAS 378. Offered winter semester of even-numbered years. Prerequisites: Fulfillment of general education Foundations - Writing and one literature course (SPA 330 for Spanish majors).

### **SPA 380 - Special Topics in Spanish (1 to 6 credits)**

Offered on sufficient demand.

### **SPA 385 - Advanced Spanish in Mexico (4 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **SPA 386 - Mexican Culture (2 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **SPA 387 - EUSA Madrid-Language (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **SPA 388 - EUSA Madrid-Internship (3 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only.

### **SPA 395 - Advanced Speaking Strategies and Skills (3 credits)**

Development and assessment of speaking skills in Spanish at the advanced level as defined by the American Council on the Teaching of Foreign Languages (ACTFL). Course offered fall and winter semesters. Prerequisite: SPA 314.

### **SPA 399 - Independent Reading (1 to 4 credits)**

Offered fall and winter semesters.

### **SPA 410 - Spanish American Narrative (3 credits)**

Study of some of the major prose writers of the 20th century. Offered fall semester. Prerequisites: SPA 330 and SPA 332 with a grade of C (not C-) or better, or permission of instructor.

### **SPA 420 - Topics in Early Spanish Literature (3 credits)**

Study of Spanish literature before 1700, centered around a thematic or genetic framework relevant to the cultural climate of early Spain. Topics may include The Evolution of Early Spanish Literature, Love and Honor in Golden Age Drama, Imaginative Fiction before Cervantes, or The Language of Desire in Early Prose and Poetry. Offered winter semester of odd-numbered years. Prerequisites: SPA 330 and SPA 331 with a grade of C (not C-) or better.

### **SPA 430 - U.S. Latino/a Literature (3 credits)**

An in-depth study of Latino/a literature produced in the United States. Texts will be closely examined from a cultural and historical perspective as well as within the history of narrative forms in order to facilitate an appreciation and awareness of the cultural roots and current lifestyle of Latinos/as in the United States. Offered winter of even-numbered years. Prerequisites: SPA 330 and SPA 332 with a grade of C (not C-) or better.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SPA 440 - Cervantes (3 credits)**

Survey of Cervantes' masterwork, Don Quixote de la Mancha. Offered winter semester of even-numbered years. Prerequisites: SPA 330 and SPA 331 with a grade of C (not C-) or better.

## **SPA 450 - Modern Spanish Novel (3 credits)**

Study of the novel in 19th and 20th century Spain. Special emphasis on the realists and the generation of 1898. Offered fall semester of odd-numbered years. Prerequisites: SPA 330 and SPA 331 with a grade of C (not C-) or better.

## **SPA 460 - Women Authors (3 credits)**

An in-depth study of Spanish and Spanish American women authors whose literature, across the centuries, has dealt with a particular historical, cultural, social, and philosophical experience. Cross-listed with WGS 460. Offered fall semester of even-numbered years. Prerequisites: Completion of SPA 330 and SPA 331 or SPA 332 with grades of C (not C-) or better.

## **SPA 480 - Special Topics in Spanish (1 to 6 credits)**

Course content varies. Expectations of students approximate those in other 400-level courses. May be repeated for credit when content varies. Variable credit. Offered on sufficient demand.

## **SPA 495 - Cross-National Literary Movements (Capstone) (3 credits)**

Interdisciplinary exploration of a major literary period or genre such as romanticism, rationalism, or symbolism from a cross-national perspective. Offered fall and winter semesters. Prerequisites: Completion of three credits at 400-level (literature) with a C (not C-) or better and senior standing with a major in Spanish. Required of all Spanish majors.

## **SPA 499 - Independent Study and Research (1 to 4 credits)**

Offered fall and winter semesters.

## **SPM 202 - Social Cultural Dimensions of Sport (3 credits)**

Introduction to sport from a social and cultural perspective. In accordance with national certification standards, contemporary issues such as gender, race/ethnicity, disability, international cultures, the Olympics, sport education, professionalization of sport, societal stratification, youth sport, social problems in sport, and societal beliefs and values in sport will be examined. Offered every semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SPM 225 - Introduction to Sport Management (3 credits)**

This course provides an overview of the diverse leadership opportunities in the sports industry. The student will be provided information about the structure and function of sport organizations, trends in the industry, professional preparation, and career opportunities. Offered each semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **SPM 355 - Contemporary Concepts of Coaching (3 credits)**

A study of contemporary coaching issues related to the implementation of scientific coaching principles. Topics include the development of an effective coaching philosophy, growth and development, sports medicine, psychology, instructional techniques, and sport management issues. Offered fall semester.

## **SPM 356 - Current Topics in Sport Management (3 credits)**

Students will examine contemporary issues in sport management as they relate to ethics in sport, social responsibility, stakeholder identification, decision-making, communication, sport governance, and other diverse aspects of the profession. Offered fall and winter semesters. Prerequisites: SPM 202 and SPM 225 with a grade of C or better.

## **SPM 360 - Practicum in Sport Coaching (3 credits)**

Supervised, part-time work experience in a school, university, community, or business setting involving observation and assistance to a sport coaching professional. This experience is directed and evaluated by a faculty member and on-site professional. Course offered each semester. Prerequisite: SPM 355.

## **SPM 376 - Sport Facility and Event Management (3 credits)**

This course examines the principles of facility operations and event management in the industry of sport management. This class provides students with an in-depth investigation of the unique challenges and opportunities that are routinely faced by a business manager in the context of events at sport and entertainment venues. Offered fall semester.

## **SPM 380 - Special Topics in Sport Management (1 to 3 credits)**

Readings, lectures, and/or discussions in specific topics not normally covered by other courses in the program.

## **SPM 390 - Practicum in Sport Management (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Supervised observation of and assistance to sport manager in a professional setting. Students will reflect on practical knowledge in classroom meetings. Student performance is directed and evaluated by a faculty member in consultation with an on-site professional. Offered every semester. Prerequisites: MOV 102 or equivalent, SPM 356, and permission of the instructor.

### **SPM 399 - Independent Study in Sport Management (1 to 3 credits)**

Hours, credit, topics, and time to be arranged with individual faculty members with approval of the department.

### **SPM 490 - Internship in Sport Management (6 to 12 credits)**

Culminating experience designed to provide management training in a sport related organization. Internship is a structured experience that will support career goals and supplement material taught in courses. Offered fall and winter semesters. Prerequisite: SPM 390. Corequisite: SPM 495.

### **SPM 495 - Administration in Sport Management (3 credits)**

Develop a thorough and fundamental knowledge of administrative principles in sport management including organizational behavior, leadership philosophy and ethics, human resource management, workplace culture, interpersonal and team communication, governance and policy development, technology, professional presentations, and time management. Students are required to generate a final project. Capstone course. Offered every semester. Prerequisites: Senior standing and SPM 390. Corequisite: SPM 490.

### **SPM 499 - Independent Study in Sport Management (1 to 3 credits)**

Hours, credit, topics, and time to be arranged with individual faculty members with approval of the department.

### **SST 308 - Teaching Elementary Social Studies: Grades PK-3 (3 credits)**

Designed for students seeking PK-3 elementary grade band certification. Introduces students to methods, strategies, and issues that are related to teaching social studies at the early elementary level. Students design standards-based units of instruction that provide elementary students with foundational content knowledge and skills in the social studies disciplines. Offered fall and winter semesters. Prerequisites: HST 209 and admission to pedagogical content knowledge for elementary teaching (PCKET) major.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SST 309 - Teaching Elementary Social Studies: Grades 3-6 (3 credits)**

Designed for students seeking 3-6 elementary grade band certification. Introduces students to methods, strategies, and issues that are related to teaching social studies at the upper-elementary level. Students design standards-based units of instruction that strengthen and develop elementary students' content knowledge and skills in the social studies disciplines. Offered fall and winter semesters. Prerequisite: HST 209 and admission to pedagogical content knowledge for elementary teaching (PCKET) major.

## **SST 310 - Teaching Social Studies: Secondary (3 credits)**

Introduces students to strategies, methods, and issues that are related to teaching social studies content at the secondary level. Students will study current standards and design units and lessons to achieve appropriate objectives. Must be taken before student assisting. Offered every semester. Prerequisite: Junior standing or consent of the instructor.

## **SST 311 - Data Literacy for Social Studies Teachers (3 credits)**

Students will investigate K-12 students' understanding of data and data visualizations such as maps, graphs, and timelines; learn methods for analyzing, interpreting, and using data visualizations in social studies; and explore tools for creating data visualizations. Students will also develop project-based lessons aimed at building data literacy in social studies. Part of the Information, Innovation, or Technology Issue. Offered fall and winter semester. Prerequisite: MTH 110 or equivalent and junior standing.

## **SST 495 - Education in Plural Societies (Capstone) (3 credits)**

Examines the models used to interpret and explain the role of social studies education in the United States and the world. Explores questions related to social studies as a transmitter of social/cultural values and how these values transform across disciplines and time, both in and out of the classroom. Offered every semester. Prerequisites: SST 309 or SST 310.

## **STA 126 - Statistics for Elementary Teachers (2 credits)**

Learn practices and pedagogy in support of statistical knowledge for elementary teachers. Topics include posing actionable research questions, measuring/collecting data, understanding variability, interpreting results in context, and analyzing data through visualizations, numerical summaries, and statistical inference. Topics will be reinforced through meaningful experiences

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

in applied contexts. MTH 126 and STA 126 fulfills Foundations - Mathematical Sciences. Offered fall and winter semesters. Prerequisite: MTH 110 or equivalent.

### **STA 185 - Statistics Study Abroad (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

### **STA 215 - Introductory Applied Statistics (3 credits)**

A technique-oriented approach to data analysis using statistical techniques. Graphical and numerical summaries of data, multivariable thinking, confidence interval estimation, regression and correlation, testing hypotheses including chi-square tests and one-way analysis of variance. A statistical software package will provide computational assistance. Fulfills Foundations - Mathematical Sciences. Offered every semester. Prerequisite: MTH 110 or equivalent.

### **STA 216 - Intermediate Applied Statistics (3 credits)**

Project-oriented introduction to major statistical techniques using a statistical package such as SAS or SPSS. Hypothesis testing, t-test, multivariate regression, analysis of variance, analysis of covariance, chi-square tests, and nonparametric statistics. Offered every semester. Prerequisite: STA 215 or STA 312.

### **STA 220 - Statistical Modeling for Engineers (2 credits)**

This is a first course in statistics using modeling as the unifying framework upon which to build understanding of applied statistical analysis. Focus is on applications of statistical modeling with real and simulated data. Topics include descriptive statistics, probability, data management, statistical modeling, and inference. Open only for engineering students. Offered fall and winter semesters. Prerequisite: MTH 201. Corequisite: EGR 220.

### **STA 285 - Statistics Study Abroad (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

### **STA 301 - Questionnaire Design and Execution (3 credits)**

An activity and project-oriented overview of factors involved in the development of self-administered questionnaires. Topics include ethics and regulations related to research involving human subjects, item construction, response options/scaling, scale scoring, layout considerations,

survey administration, reliability and validity, and subscale determination. Offered winter semester. Prerequisite: STA 215 or STA 312.

### **STA 310 - Introduction to Biostatistics (3 credits)**

An introduction to the statistical methods commonly encountered in medical, biological, and health science problems using a statistical package such as SAS or SPSS. Longitudinal data analysis, repeated measures ANOVA, Friedman test, categorical data analysis, odds ratios, sensitivity and specificity, McNemar's test, logistic regression, survival analysis, and reliability. Offered winter semester on sufficient demand. Prerequisite: STA 216.

### **STA 311 - Introduction to Survey Sampling (3 credits)**

A project-oriented overview of topics related to survey sampling. Topics include sampling and nonsampling errors, questionnaire design, nonprobability and probability sampling, commonly used sampling methods (e.g., simple random, stratified, systematic, cluster), estimating population sizes, and random response models. SAS or a sampling package software will be used. Offered winter semester. Prerequisite: STA 216.

### **STA 312 - Probability and Statistics (3 credits)**

Introduction to the basic concepts of probability and statistics using calculus; discrete and continuous probability distributions, sampling, estimation, confidence intervals, tests of hypotheses, regression and correlation, applications, and problem solving. Offered fall and winter semesters. Prerequisite: MTH 201.

### **STA 314 - Statistical Quality Methods (3 credits)**

Statistical techniques applicable to problems of product quality. Methods and philosophy of statistical process control such as reduction of random variability, control charts, and process capability studies. Modern methods for quality control and improvement, including online and offline procedures. Various management philosophies of quality improvement. Applications and projects. Offered on sufficient demand. Prerequisite: STA 215.

### **STA 315 - Design of Experiments (3 credits)**

Application-oriented overview of designed experiments. Students will learn about planning and conducting experiments and about analyzing the resulting data using a major statistical package. Simple comparative experiments concerning means and variances, experiments with single or multiple factors, factorial designs, and response surface methodology. Offered fall semester. Prerequisite: STA 216 or STA 314.

### **STA 317 - Nonparametric Statistical Analysis (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Applied statistical analysis when the distributions of the populations are unknown. Students will learn how to test for location, test for distributions, compare populations, and calculate measures of association. A statistical software package will be used. Offered winter semester on sufficient demand. Prerequisite: STA 216.

### **STA 318 - Statistical Computing (3 credits)**

A detailed study of the advanced features of major statistical packages used in statistical computing, such as SAS and SPSS. Emphasis on the data entry, data manipulation, data storage, data simulation, and graphical display features of these packages. Offered on sufficient demand. Prerequisite: STA 215.

### **STA 321 - Applied Regression Analysis (3 credits)**

Multivariate regression analysis with emphasis on application using a statistical software package. Topics include method of least squares, residual analysis, collinearity, data transformation, polynomial regression, general linear model, selecting a best regression model, and logistic regression. Offered fall semester on sufficient demand. Prerequisite: STA 216.

### **STA 323 - Predictive Analytics (3 credits)**

An introduction to applications and the conceptual framework for predictive analytics and modeling, using a statistical programming language such as R. Topics include preparing data for predictive modeling, exploratory data analysis and visualizations, multiple linear regression, logistic regression for classification, and methods for model selection and evaluation. Offered winter semester. Prerequisite: STA 215 or STA 312.

### **STA 340 - Statistics in the Media (3 credits)**

An examination of statistics reported in the media. Students will read news stories and published research to critically evaluate the conclusions made, recognizing when assertions are and are not supported by evidence. Common fallacies and misconceptions will be covered. Part of the Information, Innovation, or Technology Issue. Offered fall and winter semesters. Prerequisites: STA 215 and junior standing.

### **STA 341 - Demographic Methods (3 credits)**

An application-oriented overview of procedures and techniques for the collection, evaluation, and analysis of demographic data. Topics include sources of, and problems with, vital statistics data, data registries and surveys, measures of population growth, composition, fertility, mortality, and migration. Part of the Globalization Issue. Offered winter semester. Prerequisites: STA 215 or STA 312; junior standing.

## **STA 345 - Statistics in Sports (3 credits)**

An application-oriented overview of the statistical methodology that can be utilized to describe and evaluate the performance of individuals or teams participating in sports. Emphasis will be on data collection, descriptive statistics, and statistical inference and modeling utilized in sports. Part of the Information, Innovation, or Technology Issue. Offered fall and winter semesters. Prerequisites: Junior standing and either STA 215 or STA 312.

## **STA 380 - Special Topics in Statistics (1 to 3 credits)**

Readings, lectures, discussions, or lab (or any combination) in specific statistics topics. Permission of the instructor required. Offered on sufficient demand. Prerequisites: Dependent upon the topic selected.

## **STA 385 - Statistics Study Abroad (1 to 6 credits)**

Of varying focus, the course makes use of the history, culture, and society of a host country in order to highlight disciplinary perspectives in context. To be taught in that country (or countries) as part of an approved study abroad program. By permit only. Credit may vary.

## **STA 412 - Mathematical Statistics I (4 credits)**

A theoretical study of the following topics: sample space, conditional probability, independence, Bayes' Theorem, Bernoulli Trials, and discrete and continuous random variables and their distributions, Chebyshev's inequality, joint distribution, expectation, variance, and moment generating functions. Offered fall semester. Prerequisites: (STA 215 or STA 312) and MTH 202.

## **STA 415 - Mathematical Statistics II (Capstone) (4 credits)**

A theoretical study of the following topics: the Law of Large Numbers, the Central Limit Theorem, the nature of statistical inference, tests of hypotheses, sampling theory, point and interval estimation, linear models, analysis of categorical data, and distribution-free methods. Offered winter semester. Prerequisites: STA 412 and MTH 204.

## **STA 418 - Statistical Computing and Graphics with R (3 credits)**

An introduction to statistical programming and graphics using the object-oriented statistical language R. Skills in writing R code to perform statistical analyses, graphics, and simulations are developed. Emphasis will be on solving real problems with hands-on work including randomization statistics, time series, data mining, and big data analysis. Cross-listed with STA 518. Offered fall semester. Prerequisites: (STA 215 or STA 220 or STA 312) and (STA 216 or CIS 162).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **STA 419 - Statistics Project (3 credits)**

Students will learn a systematic approach to statistical consulting, how to communicate with nonmathematical audiences, and develop the ability to apply appropriate statistical techniques to research questions. Actual experience with current university and industry research projects and SAS/SPSS is given. Offered fall and winter semesters. Prerequisites: STA 216 and two of the following courses: STA 301, STA 310, STA 311, STA 314, STA 315, STA 317, STA 318, and STA 321.

## **STA 421 - Bayesian Data Analysis (3 credits)**

An introduction to Bayesian data analysis utilizing the Gibbs Sampler and Metropolis-Hastings algorithm (Markov Chain Monte Carlo method). Estimating posterior distribution parameters, evaluating model effectiveness, hypothesis testing, and bivariate regression modeling. Appropriate computer programs will be used for analysis of real data sets. Offered winter semester on sufficient demand. Prerequisites: STA 312 and MTH 202.

## **STA 425 - Actuarial Probability and Statistics (3 credits)**

An intensive exploration and practice of techniques and concepts similar to those expected to be found in problems related to actuarial science. Offered winter semester. Prerequisite: STA 412.

## **STA 426 - Multivariate Data Analysis (3 credits)**

Multivariate analysis with emphasis on application using a statistical package such as SAS or SPSS. Topics include principle components analysis, factor analysis, discriminant analysis, logistic regression, cluster analysis, multivariate analysis of variance, and canonical correlation analysis. Cross-listed with STA 526. Offered fall semester on sufficient demand. Prerequisite: STA 216.

## **STA 430 - History of Statistics (1 credit)**

An overview of the people, events, and ideas that shaped the development of modern statistics. Advancements in the 20th century are emphasized, as well as the mathematical geniuses who made them happen. Contributions of legendary figures such as Fisher, Pearson, Deming, Bayes, Cox, and Neyman are discussed. Offered winter semesters in the odd-numbered years. Prerequisites: Two statistics courses and junior standing.

## **STA 490 - Statistics Internship (1 to 3 credits)**

Internship in a statistical situation with individual faculty supervision to allow students to apply academic knowledge to actual and professional experiences. Offered fall and winter semesters. Prerequisites: Junior standing and permission of the instructor. Graded credit/no-credit.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **STA 499 - Independent Study and Research (1 to 3 credits)**

Independent research in an area of interest to the students, supervised by a member of the statistics faculty. Hours, credits, topics, and time to be arranged by the student in conference with professor. Approval of the department required. Offered fall and winter semesters.

## **STA 518 - Statistical Computing and Graphics with R (3 credits)**

An introduction to statistical programming and graphics using the object-oriented statistical language R. Skills in writing R code to perform statistical analyses; graphics and simulations are developed. Emphasis will be on solving real problems with hands-on work including randomization statistics, time series, data mining, and big data analysis. Cross-listed with STA 418. Offered fall semester. Prerequisite: Admission to a graduate program in biostatistics, computer information systems, data science, or health informatics and bioinformatics.

## **STA 526 - Multivariate Data Analysis (3 credits)**

Multivariate analysis with emphasis on application using a statistical package such as SAS or SPSS. Topics include principle components analysis, factor analysis, discriminant analysis, logistic regression, cluster analysis, multivariate analysis of variance, and canonical correlation analysis. Cross-listed with STA 426. Offered fall semester on sufficient demand.

## **STA 580 - Special Topics in Statistics (1 to 4 credits)**

Readings, lectures, discussions, or labs (or any combination of these) in special topics in statistics or biostatistics. Prerequisite: Depends on the topic.

## **STA 610 - Applied Statistics for Health Professions (3 credits)**

Project-oriented overview of major statistical techniques commonly used in problems encountered in health professions. Students will learn to use a major statistical computing package. Hypothesis testing, t-tests, regression, analysis of variance, analysis of covariance, categorical data analysis, and nonparametric statistics. Offered every semester.

## **STA 615 - Design of Experiments for Engineers (3 credits)**

Application-oriented overview of designed experiments commonly encountered in engineering. Students will learn about planning and conducting experiments and about analyzing the resulting data using a major statistical package. Simple comparative experiments concerning means and variances, experiments with single or multiple factors, factorial designs, Taguchi designs, and

response surface methodology. Offered fall semester on sufficient demand. Prerequisite: Graduate standing.

## **STA 616 - Statistical Programming (3 credits)**

Provides intensive instruction in the use of SAS to prepare data for statistical analysis. Topics include importing/exporting data in various formats; character and numeric manipulation; merging, setting and combining datasets; effective programming skills using arrays, loops and macros; creating graphs; and producing reports. Offered winter semester. Prerequisite: STA 610 or STA 631.

## **STA 620 - Applied Multivariate Methods for Health Care (3 credits)**

An applications-oriented overview of statistical methods commonly used in multivariate analyses of health care data. Students will develop skill in understanding published reports of multivariate analyses. Techniques include canonical correlation analysis, multivariate analysis of variance, covariance and repeated measures, principle components analysis, factor analysis, discriminant analysis, and cluster analysis. Offered fall semester. Prerequisite: STA 610 or STA 622.

## **STA 621 - Design of Experiments and Regression (4 credits)**

Design and analysis of single and multiple-factor experiments. Includes block designs, repeated measures, factorial and fractional factorial experiments, and response surface experimentation. Techniques include simple and multiple linear regression, repeated measures, generalized linear models, correlation, and model building diagnosis. Applications in biological and biomedical problems. A computer package will be used. Offered fall semester. Prerequisite: STA 616.

## **STA 622 - Statistical Methods for Biologists (3 credits)**

Design of experiments and application of statistical techniques commonly used by biologists. Emphasis on techniques for count data, correlation and regression, analysis of variance, multivariate analysis, and nonparametric methods using biological data. A computing package will be utilized throughout the course. Offered fall semester.

## **STA 623 - Categorical Data Analysis (3 credits)**

Study of the methodology and application of statistical techniques for categorical data. Methods include binomial and multinomial models, Poisson and logistic regression, and contingency tables. Additional topics which may be covered include repeated measures and random effect models. Model interpretation and the application of statistical software will be emphasized. Offered winter semester. Prerequisite: STA 616 (may be taken concurrently).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **STA 625 - Clinical Trials (2 credits)**

This course is designed for individuals with a quantitative background who are interested in the scientific, policy, design, and management aspects of clinical trials. Topics include types of treatment allocation and randomization, patient recruitment and adherence, power and sample size, interacting with monitoring committees, administering multicenter trials, and study closeout. Offered winter semester. Prerequisites: STA 610 and one of the following (PSM 650, BIO 610, BMS 601, or NUR 690).

## **STA 628 - Survival Analysis (3 credits)**

An applied introduction to analyzing time to event data with emphasis on data analysis and corresponding interpretations. Topics include survivor and hazard functions, censoring, Kaplan-Meier estimation, log-rank and related tests, Cox proportional hazards model, time-dependent covariates, and parametric models. SAS will be used. Offered winter semester of odd-numbered years. Prerequisite: STA 616 (prerequisite or corequisite).

## **STA 630 - Topics in Advanced Statistical Applications (3 credits)**

Reflecting on the knowledge and skills acquired throughout the applied statistics and biostatistics programs and internships, this course examines the responsibilities of a professional applied statistician or biostatistician. This course will examine current topics in applied statistics and biostatistics with an emphasis on industry applications and current trends. Offered winter semester. Prerequisite: STA 621.

## **STA 631 - Statistical Modeling and Regression (3 credits)**

Traditional and modern computationally-intensive statistical modeling techniques. Basics of probability theory, including conditional probability, Bayes' Theorem, and univariate probability models. Regression modeling and prediction including simple linear, multiple, logistic, Poisson, and nonlinear and nonparametric regression. Methods for model selection and shrinkage. Emphasis is on application and interpretation using statistical software. Offered fall semester. Prerequisite: Admission into the data science professional science master's program.

## **STA 680 - Special Topics in Statistics (1 to 4 credits)**

Readings, lecture, discussions, or labs (or any combination of these) in special topics in statistics or biostatistics. Prerequisites: Depends on the topic.

## **STA 697 - Professional Learning (1 to 3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **STA 699 - Independent Study (1 to 4 credits)**

Independent research in an area of statistics or biostatistics that is of interest to the student and the supervising faculty member. Readings and discussions may be appropriate. Hours, credits, meeting times, and the topic(s) in statistics or biostatistics are determined by the student and faculty mentor. Offered fall and winter semesters. Prerequisite: Departmental approval is required.

## **SW 150 - Introduction to Social Work and Social Welfare (3 credits)**

Social work practice, ethics, and values, in the context of social welfare policy in the United States are discussed. Topics in social welfare are examined including social policy, service delivery, research, theory, and practice. Basic social work values and concepts are interpreted. Offered every semester. Note: SW 150 is a prerequisite for all social work courses.

## **SW 300 - Social Work and Difference, Diversity, and Privilege (3 credits)**

This course explores multiple dimensions of diversity. It examines issues of identity, culture, privilege, stigma, prejudice and discrimination. Students are expected to use course material to explore their personal values, biases, family backgrounds, culture, and formative experiences in order to deepen their self-awareness and develop interpersonal skills in bridging differences. Offered fall and winter semesters.

## **SW 316 - Interviewing in Social Work (3 credits)**

This course provides students with the principles and techniques associated with the successful interview. Consideration is given to understanding the interviewee, oneself as the interviewer, and the implications of sociocultural backgrounds for the interview and its participants. Offered winter semester. Prerequisites: SW 317, SW 319, SW 340, and SW 348. Corequisites: SW 318 and SW 341.

## **SW 317 - Generalist Practice I (3 credits)**

This course provides students with knowledge, values, and skills for multilevel generalist practice. It prepares students for direct and indirect service delivery involving intervention model; micro, mezzo, and macro skills; planning; risk management and crisis intervention; termination, evaluation, and follow-up. Offered fall semester. Corequisites: SW 319, SW 340, and SW 348.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SW 318 - Generalist Practice II (3 credits)**

This course focuses on mezzo and macro social work practice and assists students in developing engagement, assessment and intervention skills with individuals, families, and small groups. Taught from a strengths-based perspective, this course integrates content on diversity, multiculturalism, and values and ethics. Offered winter semester. Prerequisites: SW 317, SW 319, SW 340, and SW 348. Corequisites: SW 316 and SW 341.

## **SW 319 - Social Welfare Policy and Services (3 credits)**

This course reviews local, state, and federal level social welfare policies and services, including historical, social, cultural, economic, organizational, environmental, and global influences. Concepts of human rights and social justice, along with a basic analysis of policies and services, teaches the skills necessary to translate policy into social work practice. Offered fall semester. Corequisites: SW 317, SW 340, and SW 348.

## **SW 320 - Child Welfare Policy and Practice (3 credits)**

Synthesizes, deepens, and integrates generalist social work practice content with a focus on professional foundation knowledge, values, and skills as these apply to services for children and their families in the child welfare system. Reviews policies and programs that affect children and families and considers related multicultural issues. Offered fall semester. Prerequisites: SW 150 and SW 317; SW 318 and SW 341 (may be taken concurrently); or with permission.

## **SW 322 - Responding to Chronic Illness (3 credits)**

Investigates the chronic illness through a biological, social and psychological lens. Chronic illness affects individuals, groups and communities resulting in a need for a variety of ways to assess how health professionals can best respond to the challenges of living a good quality of life. Part of the Health Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **SW 333 - Community Work with the Lesbian, Gay, Bisexual and Transgender Community (3 credits)**

This course aims to prepare students for community work with lesbian, gay, bisexual, and transgender (LGBT) people by providing a deeper understanding of LGBT history identities, families, health and mental health challenges, and issues of political advocacy. The course will examine a variety of issues that affect LGBT people. Part of the Identity Issue. Offered fall and winter semesters. Prerequisite: Junior standing.

## **SW 340 - Human Behavior and the Social Environment I (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduces theories and perspectives of human behavior and the social environment necessary to social work practice with individuals, families, groups, organizations, and communities, based on the person-environment construct and biopsychosocial-spiritual assessment models. Special attention will be given to the effects of diversity and difference, along with macro and mezzo practice settings. Offered fall semester. Corequisites: SW 317, SW 319, and SW 348.

## **SW 341 - Human Behavior and the Social Environment II (3 credits)**

This course provides knowledge about human development in social environment necessary to social work practice with individuals, families, groups, organizations, and communities, based on the person-environment construct and biopsychosocial-spiritual assessment models. Special attention will be given to the effects of diversity and difference, along with micro and mezzo practice settings. Offered winter semester. Prerequisites: SW 317, SW 319, SW 340, and SW 348. Corequisites: SW 316 and SW 318.

## **SW 344 - Responding to Loss, Death, and Grief (3 credits)**

Explores death and loss in U.S. society from diverse theoretical, cultural, and social perspectives. Grief as a human response to death and other significant loss is examined emphasizing the diversity of grief reactions among individuals, groups, and communities and exploring helpful and meaningful interventions. Part of the Health Issue. Offered fall and spring/summer semesters. Prerequisite: Junior standing.

## **SW 348 - Professional Development in Social Work (3 credits)**

The course provides students with knowledge, values, and skills associated with professionalism and identifying with the social work profession. Emphasis is focused on self-awareness, personal reflection, attention to professional roles/boundaries, advocacy, and ethics in social work. Offered fall semester. Corequisites: SW 317, SW 319, and SW 340.

## **SW 351 - Cross-Cultural Service Learning (3 credits)**

The focus of this course is on the unique culture(s) within the United States and taught using a service-learning approach. Students explore the themes of social welfare development, social services, politics, policies, and the history of the assigned culture. The course includes a two or three-week experiential learning component in a specific location in the United States. The advanced practice social worker will recognize the interconnectedness between social work, social justice, and civic/global responsibility. Offered spring/summer semester. Prerequisite: Accepted into the B.S.W. program.

## **SW 354 - Global: Cross-Cultural Community Based Learning (3 to 4 credits)**

The course focuses upon diverse global cultures using an experiential service-learning approach. Students explore themes of social welfare development, social services, politics, policies, and the history of the cultures of focus. Students will recognize the interconnectedness between social work, social justice, and civic/global responsibility. Offered spring/summer semester. Prerequisite: Permission of instructor.

## **SW 355 - Addressing Ageism and Health (3 credits)**

Analyzes the impact of historical, economic, and societal responses to population aging in the United States on pervasive ageism against older adults, based on the human rights framework. Special attention given to professional ageism in health and human services systems and its impact on minority older adults' health and well-being. Fulfills Cultures - U.S. Diversity. Part of the Health Issue. Prerequisite: Junior standing.

## **SW 380 - Special Topics in Social Work (1 to 4 credits)**

The study of issues and concerns important to the social work community not ordinarily covered in other courses. Offered in response to the special interests of faculty and student majors. Topics to be announced. Offered every other fall semester. Prerequisite: Permission of instructor.

## **SW 430 - Social Work Research (4 credits)**

The foundational course in social work research presents ethical considerations and basic principles and techniques of social science research in relation to generalist practice in social work settings. The organizing principle for the course is the research cycle, including problem identification design, research methods, analysis, and implications for practice. Offered fall semester. Prerequisite: STA 215.

## **SW 439 - The Family and Social Work Practice (3 credits)**

An elective course that deepens, broadens, and integrates professional foundation knowledge, values, and skills as these apply to generalist practice with diverse families. Examines issues related to assessment, intervention, evaluation, including variables related to programs and services for families in America. Offered winter semester. Prerequisite: SW 317.

## **SW 490 - Social Work Field Education I (3 credits)**

This course requires 225 hours of involvement in social work activities per semester in a School of Social Work approved field education site. Students have opportunities to apply theories, techniques, and concepts through observation and participation in supervised assignments and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

show evidence of skill acquisition through supervisor assessment and evaluation. Offered fall semester. Prerequisite: SW 317. Corequisite: SW 492.

## **SW 491 - Social Work Field Education II (3 credits)**

This course requires 225 hours of involvement in social work activities per semester in a School of Social Work approved field education site. Students have opportunities to apply theories, techniques, and concepts through observation and participation in supervised assignments and show evidence of skill acquisition through supervisor assessment and evaluation. Offered winter semester. Prerequisite: SW 490. Corequisites: SW 493 and SW 495.

## **SW 492 - Social Work Field Seminar I (1 credit)**

This course assists students in understanding and achieving competence in the social work skills taught and practiced in their field practicum setting. The course requires students to report and analyze field activities with faculty and peers, including the assessment and evaluation of client populations. Offered fall semester. Corequisite: SW 490.

## **SW 493 - Social Work Field Seminar II (1 credit)**

This course assists students in understanding and achieving competence in the social work skills taught and practiced in their field practicum setting. The course requires students to report and analyze field activities with faculty and peers, including the assessment and evaluation of client populations. Offered winter semester. Corequisites: SW 491 and SW 495.

## **SW 495 - Social Work Capstone (3 credits)**

This course is designed to provide students with the opportunity to demonstrate and reflect on their mastery of the core competencies and their cumulative learning throughout the B.S.W. program, while considering their identities as professional social workers. Offered winter semester. Prerequisite: SW 490. Corequisites: SW 491 and SW 493.

## **SW 499 - Independent Study in Social Work (1 to 4 credits)**

Student and/or faculty initiated special projects that explore some aspect of social work theory or practice. A maximum of four credits in independent study may be taken during undergraduate social work education. Prerequisites: Senior standing and advanced permission of instructor.

## **SW 600 - Cultural Competency for Social Work (3 credits)**

This course examines cross-cultural practices and values, with emphasis on the commonalities and differences among individuals, groups, organizations, and communities. Emphasis is given

to critical analyses of people based on age, ethnicity, race, gender, religion, spirituality, sexual orientation, socioeconomic status, veteran, and/or disability status. Offered every semester.

## **SW 601 - Foundations of Social Work Practice (3 credits)**

Examines social welfare as an institution, and social work as a profession in American society. Included are basic knowledge, values, and skills required for advanced generalist practice. Emphasis is on values and ethics, populations-at-risk, social and economic justice, and engagement with individuals, families, groups, organizations, and communities. Offered fall and winter semesters.

## **SW 603 - Integrated Methods (3 credits)**

This foundation course for advanced generalist social work practice includes training in engagement, assessment and intervention with individuals, families, groups, organizations, and communities. Using a strengths-based perspective with respect to diversity, this course focuses on micro, mezzo, and macro theories relevant to practice. Offered fall and winter semesters. Prerequisite: SW 601.

## **SW 610 - Social Welfare Policy and Services I (3 credits)**

This course examines social services delivery systems in the United States, including the profession of social work and an analysis of the historical development in economic, political, and social contexts. Offered fall and winter semesters.

## **SW 612 - Social Policy: Families and Children (3 credits)**

This course examines the history and influence of the major contemporary public policies and programs on the welfare of children and families. Emerging trends and issues and their implications for future social policy, programs, and services are examined. Interventions via advanced practice skills are discussed. Offered spring/summer semester. Prerequisite: SW 610.

## **SW 613 - Human Rights and Social Work (3 credits)**

The course is structured to provide students with a basis for literacy about modern human rights, including core principles, key documents, institutions, and practices. A framework for the analysis of social work/human rights interactions is utilized and systematically applied, including but not limited to the effect of social, political and economic policies, and programs on human rights; health and social consequences of human rights violations; and the inextricable linkage between promoting and protecting mental and physical health, community well-being and family functioning, and promoting and protecting human rights. Prerequisite: SW 610.

## **SW 614 - Social Policy and Mental Health (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Examines the development of mental health policies and services in the United States and in Michigan. Public policies and organizations are analyzed and evaluated in relation to trends, impacts, and outcomes on the problem of mental illness in society. Offered spring/summer semester. Prerequisite: SW 610.

## **SW 620 - Human Behavior and the Social Environment (3 credits)**

The course synthesizes and applies theories of human behavior and the social environment into social work practice with individuals, families, groups, organizations, and communities, based on the person-environment construct and biopsychosocial-spiritual assessment models. Special attention will be on the effects of diversity and difference, and lifespan development. Offered fall and winter semesters.

## **SW 622 - Clinical Diagnosis and Treatment Planning (3 credits)**

Provides a comprehensive body of knowledge, organized and integrated in both theoretical and practical terms. Includes an awareness of the dimensions of mental health and mental disorders in adulthood. Provides a bio-psychosocial spiritual strength-based perspective on engagement with, assessment of, and intervention in normal and abnormal behavior. Offered winter and spring/summer semesters. Prerequisites: SW 600 and SW 620.

## **SW 629 - Communities and Organizations: Engagement, Assessment, Intervention, and Evaluation (3 credits)**

This course provides an orientation to macro social work as a core method for advanced generalist practice. Students learn foundational theories and practice skills for engaging, planning, implementing, and evaluating change in communities and organizations. This course emphasizes principles of inclusion, social and economic justice, human rights, and empowerment. Offered every semester. Prerequisite: SW 603.

## **SW 630 - Social Work: Global Service-Learning (3 credits)**

The focus of this course is on international social work policy and practice. Students interact with various communities using a service-learning approach. The students explore the themes of social services politics, policies, and the history of the assigned culture. The course includes a two or three-week experiential learning component in an international location. The advanced practice social worker will recognize the interconnectedness between social work, social justice, and civic/global responsibility. Offered spring/summer semester. Prerequisites: SW 610 and permission of instructor.

## **SW 631 - Social Work: U.S. Community-Based Service Learning (3 credits)**

The focus of this course is on the unique culture(s) within the United States and taught using a service-learning approach. Students explore the themes of social welfare development, social services, politics, policies, and the history of the assigned culture. The course includes a two or three-week experiential learning component in a specific location in the United States. The advanced practice social worker will recognize the interconnectedness between social work, social justice, and civic/global responsibility. Offered spring/summer semester. Prerequisites: SW 610 and permission of instructor.

## **SW 640 - Seminar in Advanced Generalist Practice (Capstone) (3 credits)**

A broadening of student knowledge of the professional foundation for practice across populations-at-risk. Students will identify and develop individual topics. May only be taken once. Offered winter semester. Corequisites: SW 654 and SW 655.

## **SW 650 - Field Education I (3 credits)**

The first in a series of applied field education courses involving 300-clock-hours in a university approved and supervised social work field setting. Emphasis is on the application of core competencies within M.S.W. generalist perspective. Taken concurrently with one credit field seminar SW 651. Prerequisites: SW 600, SW 601, SW 603, and SW 620. Corequisite: SW 651.

## **SW 651 - Field Education Seminar I (1 credit)**

Field seminar focused on integrating coursework with foundation field experiences. One credit course (for a total of 15 class hours) that meets biweekly with students concurrently enrolled in SW 650. Corequisite: SW 650.

## **SW 652 - Field Education II (3 credits)**

A continuation of SW 650. A 300-clock-hour applied field practicum that has been contracted for by students. Emphasis on the advanced application of assessment, intervention, and evaluation skills within advanced generalist framework. Offered fall semester. Prerequisites: SW 650 and SW 651. Corequisite: SW 653.

## **SW 653 - Field Education Seminar II (1 credit)**

Field seminar focused on integrating coursework with second semester advanced field experiences. One credit course (for a total of 15 class hours) that meets biweekly with students concurrently enrolled in SW 652. Prerequisites: SW 650 and SW 651. Corequisite: SW 652.

### **SW 654 - Field Education III (3 credits)**

A continuation of SW 652. A 300-clock-hour applied field practicum that has been contracted by students. Emphasis on the advanced application of assessment, intervention, and evaluation skills within the advanced generalist framework. Prerequisites: SW 652 and SW 653. Corequisites: SW 655 and SW 640.

### **SW 655 - Field Education Seminar III (1 credit)**

Field seminar focused on integrating coursework with third semester advanced field experiences. One credit course (for a total of 15 class hours) that meets biweekly with students concurrently enrolled in SW 654. Offered winter semester. Prerequisite: SW 652. Corequisites: SW 654 and SW 640.

### **SW 660 - Grant Writing and Resource Development (3 credits)**

Instruction in how to find grant resources, develop grant proposals and associated budgets, and evaluate outside proposals. Students will learn to diversify agency financial resources through planned giving, corporate requests, endowment campaigns, and special events. Offered winter semester.

### **SW 661 - Social Work in the School/ Educational Setting (3 credits)**

This course will include emphasis on governmental statutes and regulations that govern school systems and directly impact teachers, administrators, and other members of the professional team, community agencies, and groups. Offered spring/summer semester. Prerequisites: SW 600, SW 603, SW 610, SW 620, and permission of instructor.

### **SW 662 - Substance Abuse and Social Work Practice (3 credits)**

Examines the impact of the social work profession on substance abuse problems. Considers etiology, epidemiology, prevention, methods of treatment and policy issues, as well as the relationship between race, gender, age, social class, and substance abuse. Offered winter semester. Prerequisites: SW 600 and SW 620.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SW 663 - Child and Adolescent Development/Practice (3 credits)**

This course provides students with the understanding of child and adolescent development through various developmental lenses. Students will develop an understanding of assessment, diagnosis, and practice as it relates to issues facing children and adolescents. Offered fall and spring/summer semesters. Prerequisites: SW 603, SW 610, and SW 622.

## **SW 664 - Social Work Practice in Schools (3 credits)**

Required for social work practitioners in Michigan public schools. This course provides an overview of social work practice in a host setting as it relates to general and special education. Offered winter and spring/summer semesters. Prerequisites: SW 600, SW 603, SW 610, and SW 620.

## **SW 665 - Opportunities in Aging Societies (3 credits)**

Analyses of population aging, the longevity revolution, and their impacts on individuals, families, organizations, communities, and society. Critical evaluation of theories and controversies of aging, and practices to address aging realities, uses strength-based approaches. Attention given to key social and health policies and programs for older adults and their families. Cross-listed with PNH 645. Offered fall semester.

## **SW 668 - Child and Adolescent Trauma (3 credits)**

This course explores intervention with traumatized children and adolescents. Assessment foci include the role of development, culture, and evidence-based, trauma-specific practice with children, adolescents, and their families. Other topics include: trauma-focused CBT, identification of risk and protective factors that foster resiliency, caregiver interventions, and strengths-based practice. Offered winter and spring/summer semesters. Prerequisite: SW 670.

## **SW 669 - Responses to Loss and Death (3 credits)**

This course examines death, grief, and loss in America, including theories, cultural rituals, social traditions, and taboos before and after death. Psychological and spiritual foundations of death, grief, and loss are explored from multiple perspectives and cultures including the experience of grief and bereavement for individuals, groups, and communities. Offered winter semester. Prerequisite: Postbaccalaureate status or permission of instructor.

## **SW 670 - Social Work Practice with Individuals (3 credits)**

Focuses on selected knowledge and skills from a person-in-environment perspective and approaches working with individual clients, the cognitive/behavioral and psychosocial models

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

and their application to social work practice. Emphases on approaches that enhance social function, strengthen problem-solving capacities, and support the coping capacities on individual adults. Offered fall and winter semesters. Prerequisites: SW 603 and SW 622.

### **SW 671 - Social Work Practice in Health Care (3 credits)**

Social work skills pertinent to health care settings, including assessment of the impact of illness, treatments, and interprofessional health care work are examined. Students appraise the effects of illness on patients and families. Models of the intervention process and health care theories are compared and applied to practice. Offered winter semester. Prerequisite: SW 603.

### **SW 672 - Social Work Practice with Groups (3 credits)**

This experiential course helps students increase their awareness of group dynamics and processes, and integrate underlying theories and concepts of both task and personal change group structures. Includes content on treatment groups with diverse populations, group planning in a variety of situations, task groups, educational groups, and crisis groups. Offered fall semester. Prerequisite: SW 603.

### **SW 673 - Social Work Practice with Children and Adolescents (3 credits)**

The course prepares students for direct practice with children and adolescents who are experiencing developmental stress, disruptions and challenges, life crises, trauma, separations, and mental health risks. Content encompasses multiple perspectives in the advanced application of theories, models, and skills utilized in various treatment models. Offered fall semester. Prerequisites: SW 603 and SW 622.

### **SW 674 - Social Work Practice: Families and Children (3 credits)**

Examines an integrated model of family practice focusing on family development and dysfunction at various stages in the family life cycle. Using a family system and ecological systems perspective, students are taught specific assessment and intervention knowledge and skills. Concepts from several current models of family practice are studied and drawn upon. Offered fall and winter semesters. Prerequisite: SW 603.

### **SW 675 - Child Welfare and Family Services (3 credits)**

This course prepares students for advanced practice in child welfare and family services in the public or private sector. Addresses social work's historic mission to serve poor and vulnerable families with a variety of direct practice methods from an advanced generalist perspective. Offered winter semester. Prerequisite: SW 603.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **SW 676 - Community and Social Planning (3 credits)**

A review of professional practice in social planning and community organization. Exploration of a range of theories, concepts, and applications. Includes focus on power, influence, interorganizational relationships and action strategies, as well as development and use of structure and leadership. Offered fall semester. Prerequisite: SW 603.

## **SW 677 - Principles of Supervision (3 credits)**

Examines the various tasks and techniques related to supervision in social service agencies. Supervision is introduced as an educational process, an administrative function, and a development tool. Dimensions of the supervisor/worker relationship will be discussed, with particular attention to the impact of gender and race on the process. Offered winter and spring/summer semesters. Prerequisite: SW 603.

## **SW 678 - Human Services Administration (3 credits)**

Provides a conceptual, theoretical, and methodological foundation in the organization and administration of human services. Inter- and intraorganizational variables and characteristics that undergird and impinge upon the effective delivery of human services are examined. Issues and forces affecting the social welfare enterprise will be analyzed along with those factors. Offered fall semester. Prerequisite: SW 603.

## **SW 679 - Program Monitoring and Evaluation (3 credits)**

Provides a comprehensive examination of all phases of program development, from the point when an idea is first generated through the process of determining the nature of the program, the steps taken to ensure the effort is proceeding as planned, and the assessment of outcomes and impact. Offered winter semester. Prerequisite: SW 603.

## **SW 680 - Special Topics in Social Work (1 to 4 credits)**

Students study issues and concerns important to the social work profession not ordinarily covered in other courses. Offered in response to the special interests of faculty and students. Topic(s) to be announced in advance of registration. Offered fall semester. Prerequisites: SW 600, SW 601, SW 603, SW 610, and SW 620.

## **SW 690 - Social Research I (3 credits)**

This course is the first of two in social work research. The foundational concepts and methodology used for scientific practice, including the investigation and evaluation of social work practice problems, an understanding of techniques and issues in measurements, options in research designs, data collection and analysis, and the development of new knowledge in

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

agencies and programs with particular reference to the advanced generalist perspective. Offered winter and spring/summer semesters.

### **SW 691 - Social Research II (3 credits)**

Examines qualitative research methods in a small-scale project, including interviewing and observational data collection methods, with attention to research ethics and the protection of human subjects. Qualitative data analysis techniques, the generation of conclusions, and writing in-depth implications for social work will be addressed. Cross-listed with CJ 600. Offered spring/summer and fall semesters. Prerequisite: SW 690.

### **SW 695 - Master's Thesis (1 to 6 credits)**

Faculty-supervised research and writing on a subject approved by the student's advisor and committee. Prerequisites: SW 690, SW 691, consent of thesis committee, and completion of the Responsible Conduct of Research Training within the last three years.

### **SW 696 - Continuation of Master's Project or Thesis Research (1 credit)**

Continuation of work related to the master's project or thesis phase of the graduate student's program. Registration is required after all respective project or thesis credits are completed and the project or thesis is not completed. Work will be performed under the supervision of the project advisor or thesis committee chair. Offered every semester. Prerequisite: Completion of all required project or thesis credits.

### **SW 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

### **SW 699 - Independent Study (1 to 3 credits)**

Independent study of an issue related to social welfare or social work theory or practice. Offered every semester. Prerequisites: Approval of advisor and faculty member directing the study.

### **THE 101 - Introduction to Theatre (3 credits)**

Basic course in theatre. Emphasis upon contemporary stage practice and theory, not theatre history. Students will experience a wide variety of live, filmed, and taped performances, analyze their reactions to them, and present two reports on them. Fulfills Foundations - Arts. Offered every semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **THE 151 - Acting Process (3 credits)**

An introduction to the process of acting through improvisation, freeing the natural performer by means of physical, intellectual, emotional, and intuitive exercises and games. Extensive experiential work and subsequent evaluation. Offered fall and winter semesters.

## **THE 152 - Voice for the Actor (3 credits)**

This course develops basic techniques of strengthening vocal, verbal, and movement resources for performance. It focuses on developing skills with voice phonation, relaxation, and projection; strengthening movement skills for scene and monolog presentations; and improving interpretation skills. Students will participate in lecture/discussions, class exercises, lab experiences, and studio performances. Offered winter semester of odd-numbered years.

## **THE 161 - Theatre Production (3 credits)**

An introduction to the collaborative nature of the theatrical process, production practices, and theatrical operations. The course examines the duties and responsibilities of the various collaborative artists, such as actors, directors, designers, producers, and managers. Students will participate in the production activities of the college. Course is required for theatre majors. Fulfills Foundations - Arts. Offered fall semester.

## **THE 162 - Play Analysis (3 credits)**

Develops abilities to read and interpret play texts. Students examine conventions of dramatic art as they learn to approach a text, both verbally and nonverbally. Frequent short writing assignments and several video recordings supplement class lectures and discussions. Required attendance at two university play performances. Offered winter semester of odd-numbered years.

## **THE 198 - Rehearsal and Performance (1 to 3 credits)**

Participation as a performer (acting, dance) in the college's production program. Offered every semester. Prerequisite: Permission of instructor. May be repeated for credit.

## **THE 250 - Theatre Management (3 credits)**

An introduction to theatre management, including production management, stage management and front of house management. Class lectures and discussions are augmented by work on projects and actual performance. The course covers the structure and business of the theatre and duties and responsibilities of production, stage, and house managers. Offered winter semester.

## **THE 252 - Acting Characterization (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Methods of developing a character for the stage. Free exercises, improvisations, analysis, and scene (or project) presentations. Emphasis on the total integration of all the actor's resources. Offered fall and winter semesters. Prerequisite: THE 151.

## **THE 261 - Stagecraft I (3 credits)**

A study of the basic techniques for constructing and painting stage scenery and simple stage properties. Additional emphasis on the principle of stage lighting. Offered on sufficient demand.

## **THE 262 - Costume Construction (3 credits)**

A laboratory course in beginning sewing techniques, including instruction in basic pattern drafting and draping for costumes (depending on the students' level of sewing experience). Final project includes the construction of a complete garment. Offered on sufficient demand.

## **THE 263 - Makeup (2 credits)**

A laboratory course dealing with the principles of makeup application and design. Demonstration and practice in makeup techniques and in the use of makeup equipment and materials, including crepe hair, prosthetics, and masks. Course taught from the performer's point of view. Offered on sufficient demand.

## **THE 298 - Applied Theatre Practice (1 to 3 credits)**

Participation in a technical or design capacity (scenery, lighting, costumes, stage management, etc.) in the college's production program. Offered every semester. Prerequisite: Permission of instructor. May be repeated for credit.

## **THE 300 - Storytelling (3 credits)**

Exploration of stories and their possible uses through the oral tradition. Students will locate, create, and share stories; explore stories as a reflection of culture; and engage in practical activities that will provide a plethora of ideas for understanding and using storytelling in multiple aspects of one's life. Offered fall of even-numbered years. Prerequisite: Junior standing.

## **THE 325 - Theatre for Social Change (3 credits)**

Examines performance theory, theatre practice, and educational drama methods used to investigate systems of power, notions of community, identity, and political action. Students will learn about theatrical productions, artistic processes and technology-based communication techniques that help actor-activists initiate social change. Students will create group performances for a chosen community. Part of the Information, Innovation, or Technology Issue. Offered fall semester. Prerequisite: Junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **THE 356 - Acting for the Camera (3 credits)**

Introduction to special techniques of performing for the camera, including script preparation, studio rehearsals, and actual camera performance. Essays, journals, and on-camera projects such as resume/interviews, advertisements, news reports, and dramatic scenes are required. Offered winter semester. Prerequisites: Two courses in acting.

## **THE 362 - Production Dramaturgy (3 credits)**

Study and practice in production dramaturgy. Specific theatre topics and production focus will vary. The course integrates play analysis and theatre research with production practices in order to prepare research and production materials to assist with upcoming theatre production work. May be repeated for credit. Offered fall semester. Prerequisite: Sophomore standing.

## **THE 365 - Directing I (3 credits)**

Study and practical application of the fundamental concepts of play directing: play selection, script analysis and interpretation, artistic choices, articulation of ideas, communication with actors, and critique. Rehearsal and presentation of realistic scenes. Offered winter semester of even-numbered years. Prerequisites: THE 151, THE 161, and (either THE 250 or THE 261) or by permission of instructor.

## **THE 366 - Drama in Education (3 credits)**

An orientation to the function of dramatics in education. Workshop exercises combined with background studies and theory. Skills for conducting creative dramatic activities with elementary and secondary students, exploring theatre games, and improvisations with ensemble. Offered winter semester.

## **THE 367 - Scenography (3 credits)**

An introduction to the basic theoretical and artistic concepts and procedures for designing a live performance. Physical scenery, lighting, projections, costumes, and makeup are considered as integrated parts of a unified design. Individual projects exploring varied design contexts. Students will participate in the production activities of the college. Offered winter semester of odd-numbered years. Prerequisites: THE 161 and THE 261 or permission of instructor.

## **THE 368 - Lighting Design (3 credits)**

An exploration of the theory and techniques of lighting live performances. The basics of theatre electrics, including instrumentation, color, control systems, and paperwork techniques. Principles of lighting design, exploration of the qualities of light, and their manipulation in theatrical situations. Offered fall semester of odd-numbered years. Prerequisite: THE 161.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **THE 369 - Costume Design (3 credits)**

Study of the principles of costume design, including figure drawing and rendering techniques. An introduction to the history of costume. Final project will include the design of costumes for an assigned play. Offered fall semester of odd-numbered years. Prerequisites: THE 161 and THE 262 or permission of instructor.

## **THE 371 - Theatre History I (3 credits)**

The study of the development of theatre from its origins up to the 17th century. The course emphasizes dramatic theory, playwriting styles, theatrical production styles, physical theatres, and the impact of theatre on society. Specifically, the course examines Asian theatre and the development of Western theatre. Offered winter semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **THE 372 - Theatre History II (3 credits)**

The study of the development of theatre from the Restoration period to the present with emphasis on dramatic theory, playwriting styles, theatrical production styles, physical theatres, and the impact of theatre on society. Offered winter semester. Prerequisite: Fulfillment of general education Foundations - Writing.

## **THE 380 - Special Topics in Theatre (1 to 3 credits)**

A study of special topics not regularly covered in the curriculum. Expectations of the student in this course approximate those in other 300-level courses. Offered on sufficient demand. Prerequisite: Sophomore standing. May be repeated for credit when content varies.

## **THE 399 - Independent Reading (1 to 3 credits)**

Directed readings or research work in theatre literature or theatrical practice. Offered every semester. Prerequisites: Junior standing and permission of the instructor.

## **THE 400 - Touring Theatre Production (3 credits)**

An eight-week course in the study, rehearsal, performance, and production of a touring play. Students gain a broad understanding of Shakespeare and the theatrical touring process through four weeks of rehearsals and four weeks of touring to outreach audiences. May be repeated for credit. Prerequisite: Permission of instructor, by audition only.

## **THE 454 - Acting Advanced Scene Study (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Scene and monologue work with emphasis on auditioning. Practice with prepared and unprepared material. Training in selecting, editing, rehearsing, resume writing, and performing. Offered winter semester. Prerequisites: Two of the following: THE 151, THE 252, or THE 356 or equivalent.

## **THE 455 - Shakespeare Performance (3 credits)**

A six-week course in acting skills in conjunction with Shakespeare Festival productions. Students must audition for roles during the semester prior to the course. Lectures and studio work focus on characterization, vocal skills, text interpretation, and scene work. May be repeated for credit. Prerequisite: Permission of instructor, by audition only.

## **THE 465 - Directing II (3 credits)**

Includes study of directing for proscenium, thrust, and the round. Special attention paid to directing plays from other periods, children's plays, musicals, and placing plays in a transferred period. Students will direct a one-act play for public performance. Offered on sufficient demand. Prerequisite: THE 365 or by permission of instructor.

## **THE 490 - Internship (1 to 6 credits)**

Practical work and study in the area of acting, arts management, or technical production with a professional regional theatre. Offered every semester. Prerequisites: Senior standing, selected coursework in background to the specific area of the internship, and permission of theatre chairman.

## **THE 495 - Theatre Capstone (3 credits)**

The theatre Capstone is designed to be a culminating experience for theatre majors. Selected theatre practices are examined in the context of contemporary issues/questions. Seminar-style analysis and application of concepts based on readings selected to support discussions about one or more current critical issues in theatre. Prerequisites: Senior standing, declared theatre major or minor, and completion of 100- to 200-level core courses.

## **THE 499 - Independent Research (1 to 3 credits)**

Scholarly library project and critical essay in some area of theatre. Seniors majoring in theatre and dance. Offered every semester.

## **US 102 - Career Education Class (1 credit)**

Designed for students seeking assistance in developing a career and educational plan suited to their needs, goals, and career choices. Emphasis and activities will be placed on personal and career assessment, career and occupational information, planning, and decision-making.

## **US 280 - Special Topics in University Studies (3 credits)**

A variable topics course emphasizing the study of university-wide topics in relation to a contemporary problem, issue, or theme. May be repeated for credit. Offered as needed.

## **US 301 - Internship and Job Search Strategies (1 credit)**

Provides a structured approach to organizing and executing a job search campaign for an internship or employment following graduation. Topics include skill identification, job market research, resume writing, effective networking, interviewing, negotiating offers, and job survival skills. Offered fall and winter semesters.

## **US 380 - Special Topics in University Studies (3 credits)**

A variable topics course emphasizing the study of university-wide topics in relation to a contemporary problem, issue, or theme. May be repeated for credit. Offered as needed.

## **US 480 - Environmental Sustainability (1 to 9 credits)**

Readings, lectures, and/or discussions in special topics not normally covered by other courses in the program.

## **WAT 532 - Advanced Aquatic Ecology (3 credits)**

Knowledge of the processes occurring in aquatic ecosystems is required in order to understand their dynamic and vital role in the biosphere. This lecture-discussion course, with special emphasis on freshwater resources, will serve as a forum for learning about recent advances in aquatic ecology and its significance to Earth's ecosystems. Cross-listed with WAT 532. Offered fall semester of odd-numbered years. Prerequisite: Graduate standing in biology or permission of instructor.

## **WAT 545 - Theoretical Perspectives in Aquatic Science (3 credits)**

Current theoretical and technical aspects of aquatic science will be reviewed and analyzed from a variety of perspectives. Designed for students with a non-science background. Offered fall semester. Prerequisite: Admission to the M.S. in water resource policy or permission of the instructor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **WAT 565 - Water Policy and Science (3 credits)**

This course will engage students through an advanced analysis of water resource policy. Students will also evaluate the relationship between water resource policy and science. Offered winter semester. Prerequisite: Admission to the M.S. in water resource policy or permission of the instructor.

## **WAT 576 - Aquatic Ecosystem Management (3 credits)**

Wise management of aquatic ecosystems is a pressing need with societal demands on freshwater increasing. This class allows for hands-on experience developing and implementing a management plan in a local setting by linking an understanding of aquatic ecosystem structure and function with management, restoration, and protection. Cross-listed with NRM 576. Offered winter of even-numbered years. Prerequisite: Graduate standing or permission of instructor.

## **WAT 651 - Emerging Issues in Water Resources (2 credits)**

The most pressing water resource-related issues facing the planet today will be discussed and analyzed. Particular emphasis will be placed on analyzing these problems from a variety of perspectives, including environmental, economic, societal, and political. Cross-listed with BIO 651. Offered fall semester of odd-numbered years. Prerequisite: BIO 440 or BIO 451.

## **WAT 691 - Internship (6 to 9 credits)**

A culminating experience performed at a sponsoring entity/agency. Internships are six to nine credits and between 18 to 27 hours/week. Program director approval requires successfully completing required courses (at minimum) and maintaining good academic standing. Internships include the work outlined by the sponsoring entity/agency, a written analysis, and public oral presentation. Offered every semester. Prerequisite: Permission of the program director.

## **WAT 697 - Professional Learning (1 to 3 credits)**

Graduate credit awarded for professional learning acquired through non-credit courses, structured, non-credit professional development programs, and professional work experiences.

## **WGS 180 - Special Topics in Women, Gender, and Sexuality Studies (1 to 3 credits)**

Special topics in women, gender, and sexuality studies. Focus will vary by semester and instructor. May be repeated for credit when content differs. Offered every semester.

## **WGS 200 - Introduction to Gender Studies (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Examines gender, sex, sexuality, and race as they relate to other categories of difference from an interdisciplinary perspective including disciplines in the social sciences and humanities. Fulfills Cultures - U.S. Diversity. Fulfills one of the Foundations - Social and Behavioral Sciences. Offered fall and winter semesters.

## **WGS 224 - Introduction to LGBTQ Studies (3 credits)**

Introduces LGBTQ histories, cultures, and theoretical perspectives in the context of race, class, gender, sexuality, age, religion, ability, and nation. Topics include literary and artistic expression, biological investigations, health matters, policy and politics, community life, and other issues relevant to studying gay, lesbian, bisexual, transgender, intersex, and queer life. Fulfills Foundations - Historical Perspectives. Offered winter semester.

## **WGS 255 - Gender and Popular Culture (3 credits)**

Introduction to historical and contemporary U.S. popular and everyday culture, arts, and entertainment as mechanisms that produce and reinforce ideologies about gender, race, and sexuality. Analyzes formal elements and aesthetics of various popular arts, modes of production and distribution, and the role of popular arts in activism and resistance. Fulfills Foundations - Arts. Fulfills Cultures - U.S. Diversity. Offered fall and winter semesters.

## **WGS 280 - Special Topics in Women Gender, and Sexuality Studies (3 credits)**

A variable course emphasizing the study of women, gender, and sexuality studies topics in relation to a contemporary problem, issue, or theme. May be repeated for credit when content differs. Offered upon sufficient demand.

## **WGS 302 - Women, Politics, and Public Policy (3 credits)**

This course explores the ways that gender influences government and policy decisions. Students will explore many gendered issues and the relevant policy responses. Topics include domestic violence, reproductive policies, divorce and the family, marriage and the family, poverty, class, and compensation. Cross-listed with PLS 302. Offered winter semester. Prerequisite: PLS 102 or junior standing.

## **WGS 310 - LGBTQ Rights and the Law (3 credits)**

An examination of U.S. law and policy issues related to sexual orientation and gender identity as they correspond to international human rights principles. Topics may include hate crime and anti-discrimination law, employment, family, and marriage law, HIV/AIDS policy, adoption bans, "bathroom bills," and immigration and refugee/asylum law. Part of the Human Rights Issue. Offered winter semester. Prerequisite: Junior standing.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **WGS 315 - Psychology of Sex Differences (3 credits)**

A critical examination of the psychological research regarding purported mental, emotional, and behavioral differences between women and men, theories of the development of gender identity, and the etiology of differences. Issues discussed will include the construction of difference and the cultural and ideological uses of the rhetorics of difference. Cross-listed with PSY 315. Offered winter semester.

## **WGS 316 - The Psychology of Human Intimacy and Sexuality (3 credits)**

A comparative analysis of sexual practices, reproductive strategies, and intimate relationships using competing viewpoints (e.g., cultural psychology and evolutionary psychology). Topics covered may include comparing dating, cohabiting, married and gay and lesbian couples; factors in relationship stability and divorce; and the social control of sexuality and production. Cross-listed with PSY 316. Prerequisite: PSY 101.

## **WGS 317 - Sociology of Gender (3 credits)**

Explores gender as a socially constructed system of stratification. Topics may include how ideas about gender shape childhood, families, education, work, violence, science, and social inequality. Examines how gender intersects with other socially constructed systems of stratification, including race, sexuality, class, age, and ability. Fulfills Cultures - U.S. Diversity. Part of the Identity Issue. Cross-listed with SOC 317. Offered fall semester. Prerequisite: Junior standing.

## **WGS 318 - Sociology of Sexuality (3 credits)**

Explores sexuality as a socially constructed system of stratification. Topics may include the production of sexual identities and desires, and how ideas about sexuality shape the media, violence, social movements, and work. Examines how sexuality intersects with other socially constructed systems of stratification, including race, gender, class, age, and ability. Fulfills Cultures - U.S. Diversity. Part of the Identity Issue. Cross-listed with SOC 318. Offered winter semester. Prerequisite: Junior standing.

## **WGS 320 - Crimes Against Women (3 credits)**

An in-depth study of crimes committed almost exclusively against women. Such crimes include sexual harassment, rape, and certain types of murder. The course is taught within the framework of feminist theory and research. Cross-listed with CJ 320. Offered fall semester.

## **WGS 325 - Body, Gender, Sexuality in Antiquity (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Introduction to views about the body, gender, and sexuality in ancient Greece and Rome. Special attention is given to ancient texts that inform feminist and queer theory. Topics include ancient medicine and modern dietetics, the figure of Antigone in feminist and postcolonial literature, Greek homosexuality, Victorian Hellenism, and American law. Part of the Identity Issue. Offered fall semester. Cross-listed with CLA 325. Prerequisite: Junior standing.

### **WGS 326 - Sexuality, Justice, and Advocacy (3 credits)**

An exploration of sexuality through an interdisciplinary lens. Topics include adult sexual development, public policy, and methods of advocacy for sexual health and justice. Through various learning activities, including field study with campus and community organizations, students will increase their knowledge and facilitation skills related to sexual health education. Part of the Health Issue. Cross-listed with INT 326. Offered every semester. Prerequisite: Junior standing.

### **WGS 334 - Sex, Power, and Politics (3 credits)**

Explores the ways that gender identity and sexual orientation matter politically, intersect with race and class issues, and impact human flourishing. Examines these issues from a philosophical perspective, sets them in historical and contemporary political contexts, and investigates the role public policy and social norms play in the process. Part of the Identity Issue. Cross-listed with PLS 334. Offered winter semester. Prerequisite: Junior standing.

### **WGS 335 - Women, Health and Environment (3 credits)**

This course is an overview of contemporary women's health issues focusing on the interconnectedness between health and the environment. Topics include reproductive issues, pesticides, sustainable development, occupational hazards, health insurance, and breast cancer. Discussions and readings will focus on the impact of race, class, and sexuality on women's health. Part of the Sustainability Issue. Offered fall semester in even-numbered years. Prerequisite: Junior standing.

### **WGS 336 - Lesbian, Gay and Queer Literature (3 credits)**

This interdisciplinary course makes use of literary, historical, and social scientific theories and methods in an in-depth study of lesbian, gay, and queer literature with attention to historical and cultural context. Literature may include literary classics, pulp fiction, postcolonial literature, feminist fiction, and postmodern narratives. Cross-listed with ENG 336. Offered winter semester of even-numbered years.

### **WGS 343 - Black Feminist Thought (3 credits)**

Survey of the interdisciplinary field of black feminist studies. Focuses on the history, theoretical approaches, and interventions of black feminist studies through examination of the foundational topics and concerns of the field. Cross-listed with AAA 343. Offered fall semester.

### **WGS 350 - Family and Gender in the Developing World (3 credits)**

A comparative examination of the impact of development on families and gender roles in third world countries. Will include consideration of general issues (e.g., factors affecting family reproduction decisions, women in the formal and informal labor force, etc.) and in-depth study of gender and family in one or more countries. Fulfills Cultures - Global Perspectives. Part of the Identity Issue. Cross-listed with SOC 350. Offered fall and winter semesters. Prerequisites: Fulfillment of general education Foundations - Writing and junior standing.

### **WGS 352 - Black Women's Culture and Communities (3 credits)**

A historical and theoretical analysis of the distinct identities African American women constructed for themselves (and had constructed for them) in response to the forces of patriarchal domination and political colonization. Fulfills U.S. Diversity requirement. Part of the Human Rights Issue. Cross-listed with AAA 352. Offered fall semester. Prerequisite: Junior standing.

### **WGS 358 - Women and Gender in South Africa (3 credits)**

This course will cover current debates in social and political issues for women and gender in South Africa. Topics may include history, education, labor, government, women's activism, family, violence, HIV/AIDS, health and reproductive issues, environmental issues, social entrepreneurship, and nongovernmental organizations. This course will be taught in South Africa. Offered spring/summer semester. Prerequisites: Permission of the instructor and minimum GPA of 2.5. Corequisite: WGS 493.

### **WGS 360 - Foundations of Feminism (3 credits)**

Focuses on the historical development of feminist thought. Interdisciplinary examination of the theoretical approaches to feminism and gender. Designed for, but not limited to, WGS students. Offered winter semester. Prerequisite: WGS 200 or permission of instructor.

### **WGS 365 - Queer Theory (3 credits)**

Engages in an interdisciplinary examination of theoretical approaches to sexuality and gender. Focuses on contemporary queer theory, including its historical development. Offered fall semester. Prerequisite: WGS 200 or WGS 224.

## **WGS 370 - Women and the Law (3 credits)**

Overview of legal limitations on sex discrimination in the United States and efforts to end discrimination; marriage and divorce, relationships outside of marriage, reproductive rights and biological factors impacting these rights; violence against women, and employment discrimination focusing on gender-based influences that contribute to these human rights violations. Part of the Human Rights Issue. Cross-listed with LS 370. Offered winter semester. Prerequisite: Junior standing.

## **WGS 371 - Historical Perspectives on Gender and Sexualities (3 credits)**

Variable topics centering on the history of gender and sexuality. Topics include historical understandings of gender identity and sexual orientation and may vary by region and era. May be repeated if content varies. Part of the Identity Issue. Cross-listed with HST 371. Prerequisite: Junior standing.

## **WGS 380 - Special Topics in Women Gender, and Sexuality Studies (1 to 4 credits)**

Provides an interdisciplinary opportunity for students to pursue advanced study in special topics related to women and women's roles in this and other cultures. Topics vary each term. May be taken more than once when the topic is different. Offered on sufficient demand.

## **WGS 395 - Women and Gender Studies Research Methods (3 credits)**

Explores dominant epistemologies and familiarizes students with research methods commonly used in women and gender studies. Examines ways in which feminist and gender theories inform research questions, shape research practice, and define relationships with research participants. Offered fall semester. Prerequisite: WGS 360.

## **WGS 399 - Independent Readings (1 to 3 credits)**

Independent supervised readings in selected topics. Offered every semester. Prerequisite: Permission of program coordinator.

## **WGS 402 - Feminist Visionary Thinkers (3 credits)**

This variable topics course examines the life and work of a significant feminist visionary thinker or thinkers whose theories, work and/or actions have effected deep change in the world resulting

in paradigm shifts within global cultures, institutions, societies, and worldviews. Cross-listed with INT 402. May repeat for credit. Offered winter semester.

### **WGS 450 - Global Feminisms (3 credits)**

This course offers a comparative analysis of local/global feminisms through history, activism, development and forms of feminism in different countries as well as an examination of the status of women in those countries as it impacts feminist activism. Fulfills Cultures - Global Perspectives. Part of the Human Rights Issue. Offered fall semester. Prerequisite: Junior standing.

### **WGS 460 - Spanish Women Authors (3 credits)**

An in-depth study of Spanish and Spanish American women authors whose literature, across the centuries, has dealt with a particular historical, cultural, social, and philosophical experience. Cross-listed with SPA 460. Offered fall semester in even-numbered years. Prerequisites: Completion of SPA 330, plus SPA 331 or SPA 332 with a grade of C (not C-) or better.

### **WGS 461 - Language and Gender (3 credits)**

Examination of theoretical approaches to the dynamics of language and gender. Investigation of the relationship of language and gender with social categories such as age, ethnicity, class, and sexuality. Application of social and linguistic theories to analyses of data with particular attention to contexts of the classroom, workplace, and media. Cross-listed with ENG 461. Offered winter semester. Prerequisite: ENG 261.

### **WGS 490 - WGS Internship (variable credits)**

Work experience in the community relating practical training and independent study in a specialized area, initiated by the student, who prepares a proposal in consultation with a faculty advisor and a work site supervisor. The student submits a final report. Fifty hours internship/credit hour. Offered every semester. Prerequisite: 12 hours of WGS coursework.

### **WGS 491 - Contemporary Theory and Practicum (3 credits)**

Examination and application of contemporary feminist, gender, and queer theory. Includes student-designed practicum which might be an internship, case study, or activist project. Final paper locates student-designed practicum within contemporary feminist, gender, and queer theory. Offered fall semester. Prerequisite: WGS 360 or WGS 365.

### **WGS 492 - Community Collaborative (3 credits)**

This course combines an analytical component with the practical field experience of working with a community agency that serves women and girls. Using an interdisciplinary perspective, the coursework draws upon the fields of gender studies, feminist theory, women's studies, business administration, nonprofit theory, and sociology. Offered winter semester. Prerequisite: Junior standing or permission of instructor.

## **WGS 493 - Community Collaborative in South Africa (3 credits)**

This course combines the practical field experience of working with a nongovernmental organization in South Africa with an analytical component focusing on gender, global feminist theory, nonprofit theory, and social entrepreneurship. Students will combine internship hours with training, contextual lectures, and reflection. Offered spring/summer semester. Prerequisites: Permission of the instructor and minimum GPA of 2.5. Corequisite: WGS 358.

## **WGS 495 - Capstone (3 credits)**

Explores examples of past and present scholarship to reaffirm the interdisciplinary nature of the field and to highlight the relationships among feminist theory, intellectual practice, and social change. Students complete an individual project on topic of their own choosing. Offered every semester. Prerequisites: WGS 360 and WGS 395.

## **WGS 499 - Independent Study and Research (1 to 4 credits)**

Research conducted individually with faculty supervision. Attention given to written and oral presentation of research findings. No more than six credit hours of WGS 399 and WGS 499 combined may count toward the WGS major, WGS minor, or LGBTQ minor. Prerequisites: WGS 360 or WGS 365; written permission of faculty.

## **WRT 120 - Strategies in Writing - Stretch I (3 credits)**

The first course in a two-course sequence designed for students who desire more time, practice, and support to complete the first-year writing requirement. Students will practice drafting and researching strategies and gain confidence in their writing and research skills. Students develop fluency and master conventions of standard academic writing. WRT 120 and WRT 130 fulfill Foundations - Writing. Offered fall semester.

## **WRT 130 - Strategies in Writing - Stretch II (3 credits)**

Continuation of WRT 120. Students learn strategies for research-based writing. They practice writing processes to build well-supported arguments and incorporate sources. Students must earn a grade of C (not C-) or better to fulfill the Foundations - Writing requirement. WRT 120 and

WRT 130 or WRT 150 are prerequisites to SWS courses. Offered winter semester. Prerequisite: WRT 120.

## **WRT 150 - Strategies in Writing (4 credits)**

Students practice different kinds of academic writing and learn strategies for rhetorical research-based writing. They practice writing processes to build well-supported arguments and incorporate sources. Students must receive a grade of C (not C-) or better to fulfill the Foundations - Writing requirement. Fulfillment of general education Foundations - Writing is a prerequisite for any SWS course.

## **WRT 180 - Special Topics in Writing (3 credits)**

Topics will be announced in the class schedule and prerequisites may be listed. May be repeated for credit.

## **WRT 200 - Introduction to Professional Writing (3 credits)**

This course serves as an introduction to professional writing, providing the skills necessary for writing, presenting, and interacting in professional contexts. This course introduces students to some of the most common genres in professional writing and emphasizes the importance of audience and context for composing effective professional documents. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **WRT 210 - Introduction to Style (3 credits)**

Students will identify and analyze stylistic techniques and the rhetorical effects of style in writing. The course will help students discover and examine the intersections among style, genre, historical and cultural contexts, and technology. Students will also experiment with stylistic techniques for different audiences, purposes, genres, and effects. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **WRT 219 - Introduction to Creative Writing (3 credits)**

Introduction to the theory and practice of various forms of creative writing. Students may write poetry, fiction, or creative nonfiction and also read literature in each genre. Fulfills Foundations - Arts. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **WRT 253 - Document Production and Design (3 credits)**

This course provides an introduction to electronic layout, design, and typographic principles, as well as the technical foundation and practical experience to produce documents for print

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

production. Students will work from a foundation in rhetoric and basic graphic design principles to write, design, and produce a range of document types. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **WRT 305 - Writing in the Disciplines (3 credits)**

Designed to enable students to sharpen their writing skills and begin exploring writing form and styles specific to their academic interests. Sections listed by academic area in the class schedule. Students must receive a grade of C (not C-) or better.

## **WRT 306 - Seminar for Writing Tutors (1 credit)**

A workshop for tutors employed by the Grand Valley Writing Center. Covers topics related to the process of individualized tutoring of students for improvement of writing skills. Offered fall semester. Prerequisites: Fulfillment of general education Foundations - Writing and current employment by the Writing Center. May be repeated one time for credit.

## **WRT 307 - Consulting with Writers (3 credits)**

Examines the role consultants play in the development of writers and writing. Students will observe and analyze situations in which writers work together, as well as practice response techniques. Readings and assignments focus on different kinds of work associated with assisting writers: consulting, responding, collaborating, and ghostwriting. Offered winter semester. Prerequisites: WRT 200 and WRT 219; or by permission of instructor.

## **WRT 308 - Editing and Publishing (3 credits)**

This course helps students work with other writers' manuscripts intended for publication in various venues. Students will assess a manuscript's potential and make editorial recommendations about the content, structure, length, style, and techniques appropriate to a manuscript's genre and potential audience. Students will also learn copyediting techniques and conventions. Offered fall and winter semesters. Prerequisites: WRT 200 or WRT 219; and WRT 210.

## **WRT 316 - Style and Technique (3 credits)**

Students will study the rhetorical and artistic dimension of writing techniques in multiple genres from fiction, nonfiction, and poetry. This class focuses particular attention on forms and techniques on the microlevel of the line, paragraph, chapter, scene, and section. Offered winter semester. Prerequisites: WRT 210 and WRT 219.

## **WRT 320 - Intermediate Poetry Workshop (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students will read and write poems. The class will feature analysis of published poetry as a path to learning the craft elements that make up successful poems. Students will learn to provide feedback on classmates' poetry in peer-review workshops. Offered fall and winter semesters. Prerequisite: WRT 219.

### **WRT 330 - Intermediate Fiction Workshop (3 credits)**

Students will read and write fiction. The class will feature analysis of published work as a path to learning the craft elements that make up successful fiction. Students will learn to provide feedback on classmates' writing in peer-review workshops. Offered fall and winter semesters. Prerequisite: WRT 219.

### **WRT 350 - Business Communication (3 credits)**

Training in communication skills for business and the professions. Assignments cover varieties of information management, including handling research, gathering data, writing reports, manuals, directions, and correspondence, and making oral presentations. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

### **WRT 351 - Writing for the Web (3 credits)**

Emphasizes learning rhetorical structures best suited for writing for the Web. Students practice professional writing as they learn to build Web documents for community and commercial Internet audiences. Additional topics will include designing with HTML/CSS, building websites with content management systems, user experience design, and search engine optimization. Offered fall and winter semesters. Prerequisites: CIS major standing or WRT 253 and one of the following: WRT 200, WRT 350, DS 201, or DS 202.

### **WRT 353 - Visual Rhetoric and Document Design (3 credits)**

Visual rhetoric and document design enhances the basic principles of writing learned in WRT 253. Drawing upon aesthetics, practical methods, and research in visual rhetoric, the course examines document design as an audience-oriented form of writing. This course also introduces students to cross-cultural iconography and the quantitative display of information. Offered winter semester. Prerequisites: WRT 200 and WRT 253.

### **WRT 354 - Writing in the Global Context: Culture, Technology, and Language Practices (3 credits)**

This course prepares students for the challenges of writing in the global context. Through analysis and practice, students will learn to write and design documents that respond to the needs of local and global audiences in the 21st century workplace. Focus is on communication

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

competence and the cultural dimension of language and design. Part of the Globalization Issue. Offered fall semester. Prerequisite: Junior standing.

## **WRT 357 - Professional Writing in International Contexts (3 credits)**

This course helps students understand the theory, principles, and research of effective professional writing in international contexts while studying abroad. Students will address and solve communication problems typically encountered by international non-governmental organizations through the writing and researching of professional writing genres (grants, proposals, brochures, and other workplace documents). Offered spring/summer semester of even years. Prerequisites: WRT 150 and instructor permission.

## **WRT 360 - Intermediate Creative Nonfiction (3 credits)**

Students will read and write creative nonfiction. The class will feature analysis of published work as a path to learning the craft elements that make up successful creative nonfiction. Students will learn to provide feedback on classmates' writing in peer-review workshops. Offered fall and winter semesters. Prerequisites: Fulfillment of general education Foundations - Writing and WRT 219.

## **WRT 365 - Intermediate Magazine Writing (3 credits)**

This course will introduce students to common forms of magazine and long-form nonfiction. Students will pitch and develop article ideas and replicate magazine page layouts for their writing. Offered fall semester of even-numbered years. Prerequisites: WRT 210 and WRT 219.

## **WRT 380 - Special Topics in Writing (3 credits)**

Topics will be announced in the class schedule and prerequisites may be listed. May be repeated for credit.

## **WRT 381 - Writing and Sports (3 credits)**

Examines sports and culture from a range of perspectives in a range of genres, including those related to journalistic forms, commentary, the personal essay, fiction, and poetry. The theory and practice of these genres will be emphasized through student writing. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **WRT 399 - Independent Studies (1 to 4 credits)**

Before registration, the student must arrange for supervision by a faculty member and submit a contract (available in the writing office) specifying the scope of the proposed study. No more

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

than three credits in WRT 399 may be applied to the major or minor. Offered fall and winter semesters. Prerequisite: Fulfillment of general education Foundations - Writing.

## **WRT 411 - Style and the Book (3 credits)**

Students will study the rhetorical and artistic dimension of writing techniques in multiple genres from fiction, nonfiction, and poetry. This class focuses particular attention on forms and techniques on the macrolevel of book-length works by notable contemporary writers, genre conventions, and cultural and commercial concerns related to publishing. Offered fall semester. Prerequisites: WRT 210 and WRT 219.

## **WRT 420 - Advanced Poetry Workshop (3 credits)**

The class will feature advanced analysis of published poetry as models for students' own original work. Students will participate in peer review, reflect on their creative processes and artist aesthetic, and learn revision techniques as they write poems appropriate for a portfolio or publication. May be repeated once for credit. Offered winter semester. Prerequisite: WRT 320.

## **WRT 430 - Advanced Fiction Workshop (3 credits)**

The class will feature advanced analysis of published fiction as models for students' own original work. Students will participate in peer review, reflect on their creative processes and artist aesthetic, and learn revision techniques as they write fiction appropriate for a portfolio or publication. May be repeated once for credit. Offered fall and winter semesters. Prerequisite: WRT 330.

## **WRT 451 - Advanced Writing for the Web (3 credits)**

Emphasizes writing and designing websites using Web content management systems (CMS). Students will learn to configure the CMS for drafting, revising, managing, and organizing documents, and they will use the CMS to create websites for various types of communities and different organizational needs. Offered winter semester of even-numbered years. Prerequisite: WRT 351.

## **WRT 455 - Multimodal Composing (3 credits)**

Multimodal composing prepares students to create texts that include different modes of meanings such as visuals, sounds, words, and motion. Working across genres (animated poems, podcasts, and kinetic typography), students use a variety of software programs and learn how to make informed choices to produce texts for different contexts and audiences. Prerequisites: WRT 253 and (either WRT 200 or DS 201 or DS 202).

## **WRT 460 - Advanced Creative Nonfiction (3 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The class will feature advanced analysis of published nonfiction as models for students' own original work. Students will participate in peer review, reflect on their creative processes and artist aesthetic, and learn revision techniques as they write nonfiction appropriate for a portfolio or publication. May be repeated once for credit. Offered winter semester. Prerequisite: WRT 360.

## **WRT 465 - Advanced Magazine Writing (3 credits)**

This course expands on students' knowledge of magazine and long-form periodical writing and focuses on tailoring their writing and designs to specific markets and magazine styles. Offered winter semester of even-numbered years. Prerequisite: WRT 365.

## **WRT 490 - Writing Internship (1 to 3 credits)**

Student-initiated supervised work experience in potential career interest area, planned with internship coordinator and worksite supervisor. Student spends 45 field hours per semester for each credit in addition to a weekly academic seminar. The internship must be at least 50 percent writing/editing. Credit is awarded when student, coordinator, and supervisor complete evaluations. Offered every semester. Prerequisites: WRT 200, WRT 210, WRT 219, WRT 253, writing major, junior standing, minimum 2.75 major GPA, and internship coordinator permission. Writing minors may only take this course with internship coordinator permission.

## **WRT 495 - Genre and Writing (Capstone) (3 credits)**

Capstone course required of all writing majors. Explores the historical and ideological boundaries that define conventional writing genres: poetry and prose, fiction and nonfiction, literary fiction and genre fiction, academic writing and professional writing, text and hypertext, and so on. The course will consider disciplinary and professional influences on genre definition, as well as various ethnic, gender, and economic conceptualizations of genre. Offered fall and winter semesters. Prerequisites: Writing core courses and senior standing.

# **Glossary of Terms**

**Academic advisor:** A university employee who helps the student make informed and responsible decisions in the pursuit of the student's academic goals.

**Academic dismissal:** Dismissal from a college or program for not maintaining the minimum required grade point average (GPA).

**Advanced placement:** Eligibility to enroll in courses beyond the entry level through transfer credit or examination.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Auditing:** Registering for and attending class(es) regularly without being held responsible for the work required for credit. (No credit hours are earned and full tuition must be paid. The grade AU appears on the record.)

**Bachelor of Arts degree:** Distinguished by its concentration in liberal arts; typically focused on culture, arts, philosophy, and language.

**Bachelor of Science degree:** Grounded in the liberal arts and distinguished by its focus on mathematics, statistics, quantitative reasoning, and scientific analysis.

**Bachelor's degree:** An undergraduate degree awarded by colleges and universities upon completion of a course of study, traditionally comprising the equivalent of four years of full-time academic study beyond the completion of high school.

**Badge:** A digital badge, or badge, is a record of achievement that recognizes a student's completion of a coherent and meaningful academic experience. A badge includes anywhere from 0.5 to 15 academic credits, and may include additional noncredit criteria. Badges are digital credentials and are posted to the academic transcript.

**Board:** A term used for the meal plan (e.g., room and board) at a college or university.

**Capstone course:** A senior-level culminating course within each undergraduate major. Normally it is among the last courses taken for degree completion. See Academic Policies and Regulations for more detail.

**Certificate:** A certificate is a record of achievement that recognizes a student's completion of a coherent and meaningful academic experience. A certificate includes anywhere from 9 to 18 academic credits and is posted to the academic transcript.

**Class standing:** A classification based on the number of credit hours earned to classify a student at the freshman, sophomore, junior, or senior level. One's classification, e.g., freshman, sophomore, junior, or senior.

**Cocurricular:** Being outside of but usually complementing the regular curriculum.

**Cognate:** A course related to the courses in a major program or to a degree requirement.

**Commencement:** The formal ceremony of conferring degrees at the end of the semester or academic year.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Concentration:** A subset of courses within a major.

**Concluding period:** A period at the end of a semester when final examinations are given.

**Concurrent enrollment:** A term describing a student who is attending two higher education institutions simultaneously (e.g., GVSU and GRCC or MCC).

**Corequisite:** A requirement, usually another course that must be undertaken at the same time.

**Credit hour:** A unit of academic credit measured in semester hours or quarter hours. One credit hour usually represents one hour of class time per week.

**Credit load:** The total number of credits for which a student registers during a semester or session.

**Credit/no-credit:** A method used to evaluate performance in courses, separate from the grade point system.

**Deadline:** The date by which certain information must be received by any given office or unit. (Current deadline dates are listed in the Annual Class Schedule.)

**Dean:** An administrator in charge of a division of a university or college.

**Dean's list:** A public announcement, at the end of each semester, listing students who have achieved a specified grade point average (GPA) or level of achievement established by the dean of the unit.

**Declaration of major/minor:** To state formally one's intention to pursue a specific major or minor, typically done through the university Record's/Registrar's Office.

**Degree analysis:** A report that shows the requirements for specific degree programs and details a student's progress toward completion of the degree.

**Degree-seeking student:** An applicant who has been granted admission to a degree program under full, provisional, or conditional status.

**Drop and add:** The process of making certain changes (dropping and adding classes) in a student's schedule of courses during the first five class days of the semester. Adding courses is possible only in this five-day period. See the class schedule listed on the Web for deadlines to drop courses.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Dual credit:** An option applying to courses that may be taken for either graduate or undergraduate credit provided the student obtains special permission.

**Dual enrollment:** Concurrent enrollment in high school and college or university courses.

**Elective:** A course that will count as general credit toward a degree but is not a specific program requirement.

**Emphasis:** A defined subset of courses within a major that appears as an official designation on the transcript.

**Encumbrance:** A hold placed on a student's record as a result of an unfulfilled monetary obligation to the university or of a disciplinary action by the university.

**Full-time student:** An undergraduate student taking 12 or more hours each semester, or a graduate student taking nine or more hours each semester. Undergraduates who are planning to complete a bachelor's degree in four years need to average 15 hours per semester.

**General education requirements:** A defined selection of courses from all divisions of the university, making up the liberal arts base of each baccalaureate degree. The General Education Program is a required component of each bachelor's degree.

**Good standing:** A designation that signifies that a student is eligible to continue, to return, or to transfer elsewhere. It implies good academic standing.

**Grade point average (GPA):** A student's scholastic average, computed by dividing total quality points by quality hours attempted.

**Graduate:** One who has received an academic or professional degree; one who has completed the prescribed course of study in any school or institution of higher learning.

**Graduation:** The actions of receiving or conferring an academic degree after all requirements have been met.

**Graduation audit:** The final review of a student's academic record that determines eligibility to graduate.

**Grant:** Financial assistance that is awarded to students and does not have to be repaid, usually based on need.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Guest student:** A degree student from another college or university who is taking courses at Grand Valley for one semester. The credits earned are usually transferred back to the student's home institution.

**GVSU hybrid online course:** A course that blends online and face-to-face on-campus meetings. At least 50 percent of the instruction and interaction is online.

**GVSU online course:** A course where all of the instruction and interaction is online. There are no face-to-face on-campus meetings.

**GVSU traditional course:** A course where the instruction and interaction is face-to-face on campus during class meetings. Web technologies may be incorporated into the course delivery.

**Honors:** Designation indicated on the university degree and transcript to reflect outstanding scholarship.

**Honors courses:** Special courses offered by the Grand Valley State University Frederik Meijer Honors College designed to offer intellectual challenge and personal attention to particularly able students.

**Incomplete:** The grade I, sometimes granted when a student is temporarily unable to complete course requirements because of unusual circumstances.

**Independent study:** A course of study undertaken by a student under the supervision of one or more faculty members outside the classroom.

**Interdisciplinary:** Designating a combination of subject matter from two or more disciplines within a course or program.

**Internship:** Work in a firm or agency related to a student's major program and/or career plans. Involves earning university credit and may or may not involve receiving payment.

**Issues:** The two-course upper-division component of the General Education Program in which students develop their ability to draw on previous knowledge and experience, collaborate with others, and address problems that connect to important world issues.

**Loan:** Financial assistance to students that must be repaid. Low-interest loans are available and financial need may or may not be a factor.

**Major:** A collection of related courses generally consisting of 30 to 50 semester hours of credit.

**Master's degree:** A degree granted upon the completion of at least one year of graduate-level work beyond the bachelor's degree.

**Michigan residence requirements:** The requirements for identifying or establishing permanent residency in Michigan for tuition assessment purposes.

**Minor:** A collection of courses generally consisting of a minimum of 20 semester hours of credit.

**myPath:** A Web-based tool that provides an opportunity for students to monitor the progress toward their academic credentials.

**Nondegree-seeking student:** A student who has been admitted to a nondegree-seeking category (sometimes referred to as a continuing education student) and is not currently seeking a bachelor's or master's degree.

**Part-time student:** An undergraduate student who takes fewer than 12 hours during a semester or a graduate student who takes fewer than nine hours during a semester.

**Portfolio:** A collection of work (e.g., paintings, writings, etc.) that may be used to demonstrate competency in an academic area.

**Prerequisite:** A requirement, usually the completion of another course, that must be met before a student may register for a course.

**Provost:** A senior academic administrator at an institution of higher education.

**Quality point:** The numerical value given to letter grades. For example an A is equivalent to four points per semester hour, a B to three points, a C to two points, a D to one point, and an F to zero points.

**Readmission:** An admission procedure followed by a student who was previously enrolled at Grand Valley and then dismissed.

**Reentry:** An enrollment procedure followed by a student who was previously enrolled in good standing at Grand Valley but whose attendance was interrupted for two consecutive semesters, including the summer session.

**Registration:** The process of signing up and paying tuition and fees for courses each semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Residence requirement:** The requirement that the final 30 semester hours of coursework before the bachelor's degree be completed at Grand Valley. Graduate students must complete a minimum of 24 hours in residency at Grand Valley.

**Scholarship:** Financial assistance to students awarded on the basis of academic achievement. Financial need may or may not be a factor.

**Semester:** A unit of time, 15 weeks long, in the academic calendar.

**Semester hour:** The unit of academic credit, usually meaning the pursuit of a subject for one period a week for one semester.

**Senior institution:** An institution of higher education offering baccalaureate programs. Grand Valley is a public senior institution.

**Service-learning:** A method of teaching, learning, and reflecting that combines academic classroom curriculum with meaningful service throughout the community.

**Student employment:** Part-time jobs made available to students with financial need through federally funded programs (work-study) and to students without need through the Student Employment Office.

**Study abroad:** An arrangement by which GVSU students complete part of their degree program studying in another country.

**SWS section:** A section of a Grand Valley course that requires extensive writing to teach students to distinguish writing conventions and expectations in their major field from those in other fields while still recognizing that all writing depends on communicating purposefully with an audience.

**Teachable major:** A state-approved major program for teacher certification at the secondary and/or elementary level.

**Thesis:** An extensive written discourse on a new point of view resulting from research, usually a requirement for an advanced academic degree.

**Time limit:** The length of time within which a graduate degree must be completed. At Grand Valley the time limit is eight years.

**Transcript:** A copy of a student's permanent academic record at a particular institution. This term is also used to identify the financial aid form that indicates the amount and type of financial aid a student received from a college or university.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Transfer credit:** Credit earned at another accredited institution and accepted toward a Grand Valley degree.

**Tuition:** The amount of money that must be paid for courses based on the number of credits for which one registers.

**Undergraduate:** A university student who has not yet received a first degree.

**Upper division:** Classification of students or courses beyond the second year.

**Withdrawal:** Withdrawal from a course or the university. The grade assigned will depend upon the time in the semester in which the student withdrew.

## **Board of Trustees**

**Mikyia S. Aaron, J.D., Taylor**

**Victor M. Cardenas, M.P.A., Novi**

**Randall S. Damstra, M.B.A., Ada**

**Elizabeth C. Emmitt, B.A., Byron Center**

**Susan M. Jandernoa, B.S., West Olive, Vice Chair of the Board**

**Noreen K. Myers, J.D., East Grand Rapids**

**Megan S. Rydecki, M.P.A., Grand Rapids, Chair of the Board**

**Kate Pew Wolters, M.S.W., Grand Rapids**

**Donna K. Brooks, L.H.D., Honorary Life Member, Holland**

**Dorothy A. Johnson, L.H.D., Honorary Life Member, Grand Haven**

**John C. Kennedy, D.P.S., Honorary Life Member, Grand Rapids**

**Philomena V. Mantella, Ph.D., Ex Officio, President of the University**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **President**

**Philomena V. Mantella**, B.S., M.S.W., Syracuse University; Ph.D., Michigan State University.

## **Provost and Executive Vice President for Academic and Student Affairs**

**Maria Cimitile**, B.A., College of the Holy Cross; M.A., Villanova University; Ph.D., University of Memphis.

## **Vice President for Finance and Administration and Treasurer of the Board of Trustees**

**Gregory Sanial**, B.S., U.S. Coast Guard Academy; M.B.A., Pennsylvania State University; M.A., Naval War College; Ph.D., Northcentral University.

## **Vice President for Enrollment Development**

**Brenclveton "Donta" Truss**, Ed.D., M.S., B.S., Alabama State University.

## **Vice President for University Relations**

**Matthew E. McLogan**, B.A., M.A., Western Michigan University.

## **Chief of Staff to the President & Vice President for Inclusion and Equity**

**Jesse Bernal**, B.S., Westmont College; M.A., Ph.D., University of California at Santa Barbara.

## **Associate Vice President for Academic Affairs**

**Edward Aboufadel**, B.S., Michigan State University; Ph.D., Rutgers University.

## **Associate Vice President for Academic Affairs**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Suzeanne Benet**, B.S., Jacksonville State University; Ph.D., University of North Carolina.

## **Associate Vice President for Academic Affairs**

**Bonnie Bowen**, B.B.A., Grand Valley State University. M.Ed., Grand Valley State University.

## **Associate Vice President for Academic Affairs**

**Christopher Plouff**, B.S., M.S., Michigan Technological University; Ed.D., Eastern Michigan University.

## **Assistant Vice President for Academic Affairs**

**Ellen Schendel**, B.A., Birmingham Southern College; M.A., Florida State University; Ph.D., University of Louisville.

## **Vice President for Graduate and Lifetime Learning**

**Kara Van Dam**, Vice Provost for Graduate and Lifetime Learning. B.F.S., University of Michigan; M.B.A., Kaplan University; M.A., Ph.D., University of North Carolina at Chapel Hill.

## **Vice Provost for Instructional Development and Innovation**

**Christine Rener**, B.S., Michigan State University; Ph.D., Northwestern University.

## **Vice Provost for Research Administration**

**Robert Smart**, B.A., Albion College; Ph.D., Michigan State University.

## **Dean of the Seidman College of Business**

**Diana R. Lawson**, B.S., State University of New York at Cortland; M.A., M.B.A., Ph.D., Kent State University.

## **Dean of the College of Education and Community Innovation**

**Sherril Soman**, Dean of College of Education. B.Sc., Prairie View A&M University; Ph.D., Purdue University.

## **Dean of the Seymour and Esther Padnos College of Engineering and Computing**

**Paul D. Plotkowski**, B.S., M.S., Ph.D., Oakland University.

## **Dean of the College of Health Professions**

**Teresa Beck**, Acting Dean. B.S., Indiana University; M.S., Florida State University; Ph.D., University of North Texas.

## **Dean of the College of Liberal Arts and Sciences**

**Jennifer A. Drake**, B.A., Brown University; M.A., State University of New York at Binghamton; Ph.D., State University of New York at Binghamton.

## **Dean of the Kirkhof College of Nursing**

**Lola Coke**, Interim Dean. B.S., Nazareth College; Ph.D., Rush University.

## **Dean of the Brooks College of Interdisciplinary Studies**

**Mark Schaub**, Interim Dean of the Brooks College of Interdisciplinary Studies. B.A., Lakeland University; M.F.A., Wichita State University; Ph.D., Purdue University.

## **Dean of University Libraries**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Annie Bélanger**, B.A., York University; M.L.I.S., University of Western Ontario.

## **Emeritus Faculty and Administrative Emeriti**

**Adamopolous, John**, Professor Emeritus of Psychology. B.A., Yale University; M.A., Ph.D., University of Illinois at Urbana-Champaign. Employed August 1992 through December 2020.

**Adamski, Joseph**, Associate Professor Emeritus of Computer Science and Information Systems. B.A., University of Connecticut; M.S., Rensselaer Polytechnic Institute.

**Alkema, Chester**, Professor Emeritus of Art and Design. A.B., Calvin College; M.A., M.F.A., Michigan State University.

**Alston, Brenda Lorraine**, Associate Professor Emerita of Education. B.S., M.A., Hampton University; Ph.D., Bowling Green University.

**Andersen, Daniel**, Professor Emeritus of Physics. B.S., Union College; M.A., Columbia University.

**Arendsen, Carl**, Professor Emeritus of Mathematics. B.A., M.A., Western Michigan University; Ph.D., Michigan State University.

**Armstrong, Dorothy**, Professor Emerita of Teaching and Learning. B.A., Wheaton College; M.A., University of Wisconsin Green Bay; Ph.D., The Union Institute.

**Bacon, Sandra**, Director Emerita of Laboratory Services. A.B., University of Rochester; M.S., Michigan State University.

**Bajema, Carl**, Professor Emeritus of Biology. B.S., M.A., Western Michigan University; Ph.D., Michigan State University.

**Balfour, Dan**, Professor Emeritus of Public Administration. B.A., Michigan State University; Ph.D., Florida State University.

**Balkema, K. Laurel**, Senior Librarian Emerita. B.A., Wheaton College, Illinois; A.M.L.S., University of Michigan.

**Barber, Mary Ellen**, Assistant Professor Emerita of Mathematics. A.B., Albion College; M.A., Central Michigan University.

**Barnes, Karen**, Associate Professor Emerita of Education. B.A., Michigan State University; M.Ed., Wright State University; Ph.D., University of North Texas.

**Bernstein, David**, Professor Emeritus of Psychology. B.A., Memphis State University; M.A., Ph.D., University of Virginia.

**Bijkerk, Roelof**, Professor Emeritus of Psychology. Dr. Phil., Dr. Psych., Free University of Amsterdam.

**Blose, Laurance**, Professor Emeritus of Finance. B.S., M.B.A., Gannon University; Ph.D., University of Texas Austin. Employed from August 1997 through December 2019.

**Blue, Lynn "Chick"**, Vice President Emeritus for Enrollment Development. M.P.A., Grand Valley State University.

**Boand, Joan**, Associate Professor Emerita of Physical Education. B.S., M.A., Michigan State University.

**Bond, Linda**, Professor Emerita of Nursing. B.S.Ed., M.S.N., Wayne State University; Ph.D., Michigan State University.

**Bornhofen, John O.**, Professor Emeritus of Economics and Finance. B.S., M.S., Ph.D., University of Illinois.

**Brintnall, Ruth Ann**, Associate Professor Emerita of Nursing. B.A., Aquinas College; M.S.N., Grand Valley State University; Ph.D., Rush University.

**Britton, Agnes**, Assistant Professor Emerita of Nursing. B.S.N., Wayne State University; M.S., University of Michigan.

**Butcher, Thomas**, Vice President Emeritus and General Counsel. B.S., Ferris State University; J.D., Thomas M Cooley Law School.

**Callahan, Johnine L.**, Professor Emerita of Biomedical and Health Sciences. B.S., Eastern Illinois University; M.A., Western Michigan University; Ph.D., Bowling Green State University.

**Carpenter, Craig**, Professor Emeritus of Education. B.A., M.A., Michigan State University; Ed.D., University of Michigan.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Chown, Linda**, Professor Emerita of English. B.A., University of California; M.A., San Francisco State University; Ph.D., University of Washington.

**Clark, Patricia**, Professor Emerita of Writing. B.A., University of Washington; M.A., University of Montana; Ph.D., University of Houston. Employed August 1989 through May 2020.

**Cole, Edward Alan**, Professor Emeritus of History. B.A., M.A., University of Nebraska; Ph.D., University of California at Berkeley.

**Coviak, Cynthia**, Professor Emerita of Nursing. B.S.N., Michigan State University; M.S.N., Grand Valley State University; Ph.D., University of Michigan.

**Cross, Robert**, Professor Emeritus of Education. B.A., M.A., Ph.D., Michigan State University.

**Curry, Brian**, Professor Emeritus of Biomedical and Health Sciences. B.Sc., St. Luke's College, Exeter University; M.S., University of Massachusetts; Ph.D., Michigan State University.

**Davis, Gayle R.**, Provost and Executive Vice President for Academic and Student Affairs Emerita. B.A., Muskingum College; M.A., Ph.D., Michigan State University.

**Davis, Gilbert**, Professor Emeritus of English. B.A., M.A., Ph.D., Wayne State University.

**Densmore, Max L.**, Professor Emeritus of Marketing. B.A., Michigan State University; M.B.A., Western Michigan University; Ph.D., Michigan State University.

**Devlin, Dennis**, Professor Emeritus of History. B.A., University of Texas; Ph.D., University of Chicago.

**deYoung, Mary**, Professor Emerita of Sociology. B.S., Grand Valley State University; M.A., University of Chicago; Ph.D., Western Michigan University.

**de la Rosa, Denise**, Associate Professor Emerita of Accounting. B.A., Wayne State University; M.A., University of Southern California; M.S. Ferris State University; Ph.D., University of North Texas.

**Droste-Bielak, Emily**, Associate Professor Emerita of Nursing. B.S.N., Wayne State University; M.S., University of Colorado; Ph.D., University of Michigan.

**Dwelle, Ronald**, Associate Professor Emeritus of Writing. A.B., Augustana College; M.A., University of Michigan.

**Flaschenriem, Barbara**, Associate Professor Emerita of Classics. Ph.D., The University of California at Berkeley.

**Foote, Walter**, Associate Professor Emeritus of English. B.A., M.A., University of Illinois.

**Franklin, Ursula**, Professor Emerita of Modern Languages and Literatures. B.A., M.A., Ph.D., Michigan State University.

**Frerichs, Catherine**, Professor Emerita of Writing. B.A., St. Olaf College; M.A., The University of Chicago; D.A., University of Michigan.

**Frey, Robert**, Assistant Professor Emeritus of Management. B.S., Colorado State University; J.D., Duke University School of Law; AMP, Harvard University.

**Gardner, Mary Catherine**, Associate Professor Emerita of Mathematics. B.S., M.S., Ed.D., Ball State University.

**Garey, Carol**, Senior Librarian Emerita. B.A., A.M.L.S., University of Michigan.

**Gendler, Phyllis**, Professor Emerita of Nursing. B.S.N., University of Michigan; M.N., Ph.D., Michigan State University.

**Godwin, Joseph**, Professor Emeritus of Accounting. B.S., Southeast Missouri State University; B.B.A., M.B.A., M.ACC., Ph.D., University of Wisconsin.

**Golensky, Martha**, Professor Emerita of Social Work. B.A., State University of New York, Albany; M.A., University of Wisconsin; M.S.W., Hunter College; D.S.W., City University of New York.

**Gonce, Richard**, Professor Emeritus of Economics. B.B.A., M.B.A., Ph.D., University of Wisconsin.

**Good, David J.**, Professor Emeritus of Marketing. B.S., Southwest Missouri State University; M.B.A., Central Missouri State University; Ph.D., University of Arkansas.

**Goode, James**, Professor Emeritus of History. B.S., Georgetown University; M.A., University of Massachusetts; Ph.D., Indiana University.

**Goossen, Linda**, Professor Emerita of Diagnostic and Treatment Sciences. B.S., The Ohio State University; M.H.S., Grand Valley State University; Ph.D., Western Michigan University.

**Gracki, John**, Professor Emeritus of Chemistry. B.Ae.Eng., University of Detroit; Ph.D., Brown University.

**Grant, George**, Dean Emeritus of the College of Community and Public Service. B.A., Marygrove College; M.S.W., Grand Valley State University; Ph.D. Western Michigan University. Employed January 1996 through December 2020.

**Grimm, Lucille**, Associate Professor Emerita of Nursing. B.S.N., Michigan State University; M.S.N., Sp.C.N.Ad., Wayne State University; Ed.D., Western Michigan University.

**Grinstead, Linda**, Professor Emerita of Nursing. B.S., University of Wisconsin-Milwaukee; M.N., University of Florida; Ph.D., Michigan State University.

**Haas, Thomas**, President Emeritus. M.S., University of Michigan; M.S., Rensselaer Polytechnic Institute; Ph.D., University of Connecticut.

**Hall, Donald**, Professor Emeritus of Physics. B.S., M.S., Michigan State University.

**Harpold, Judith**, Associate Professor Emerita of Education.

**Hecht, Steven**, Associate Professor Emeritus of Biomedical Sciences (Posthumously). B.S., Emporia State University; Ph.D., Tufts University; Employed from August 1999 through April 2017.

**Harper, Earl**, Professor Emeritus of Management. B.S., M.S., M.B.A., Sp.A., Western Michigan University; Ph.D., Texas Technological University.

**Harris, Richard**, Professor Emeritus of Accounting. B.S., M.B.A., J.D., University of Maryland; LL.M., Georgetown University Law Center; C.P.A.

**Haynes, Alphonso**, Professor Emeritus of Social Work. B.A., Long Island University; M.A., M.S., Ed.D., Columbia University.

**Hendersen, Robert**, Professor Emeritus of Psychology. B.A., Reed College; Ph.D., University of Pennsylvania.

**Hendrix, Thomas**, Professor Emeritus of Geology. B.S., Franklin and Marshall College; M.S., Ph.D., University of Wisconsin.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Herrera, Antonio**, Professor Emerita of Education. B.A., Universidad Pedagogica y Technologica de Colombia; M.A., Ph.D., University of Oregon.

**Herzog, Thomas**, Professor Emeritus of Psychology. B.A., M.A., Ph.D., University of Michigan.

**Horan, Mary**, Professor Emerita of Nursing. B.S.N., Mercy College of Detroit; M.S.N., Wayne State University; Ph.D., University of Michigan.

**Huisman, David**, Professor Emeritus of English. A.B., Calvin College; M.A., Ph.D., University of Michigan.

**Huizenga, Paul**, Associate Professor Emeritus of Biology. A.B., Hope College; M.S., University of Michigan.

**Hull, Cindy**, Professor Emerita of Anthropology. B.A., Grand Valley State University; M.A., Ph.D., Wayne State University.

**IsHak, Samir**, Professor Emeritus of Management. B.Comm., M.B.A., Ein Shams University; Dipl., Cairo University; M.P.A., M.A., Harvard University; Ph.D., Indiana University.

**Jellema, Jon**, Associate Professor Emeritus of English. B.A., Calvin College; M.A., Michigan State University.

**Jensen, Susan**, Associate Professor Emerita of Nursing. B.S., Grand Valley State University; M.S.N., Michigan State University; Ph.D., Western Michigan University.

**Jewell, Gayla**, Associate Professor Emerita of Nursing. B.S., West Virginia Wesleyan College; M.S., The Ohio State University; Ph.D., Michigan State University.

**Johnson, Jacquelin**, Professor Emerita of Sociology. B.A., Macalester College; M.S., Ph.D., Purdue University.

**Johnson, Kenneth P.**, Professor Emeritus of Computing and Information Systems. B.A., Franklin and Marshall College; M.A., University of Michigan; Ph.D., Western Michigan University.

**Jones, Constance**, Professor Emerita of English. B.S., Western Michigan University; M.A., Michigan State University.

**Jones, Curtis**, Professor Emeritus of Sociology. B.A., M.A., Western Michigan University; Ph.D., Michigan State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Kennedy, Devereaux**, Professor Emeritus of Sociology. B.A., Washington University in St. Louis; M.A., Binghamton University. Employed August 2003 through December 2019.

**Kim, Katherine**, Professor Emerita of Nursing. B.S., Hartwick College; M.Ed., University of Minnesota; M.S.N., Ph.D., University of Illinois.

**King, Erika**, Professor Emerita of Political Science. B.A., Oberlin College; M.A. and Ph.D., Northwestern University.

**Kingshott, Brian**, Professor Emeritus of Criminal Justice. B.A., Open University; M.A., Ph.D., University of Exeter. Employed August 2002 through April 2020.

**Klein, Bruce**, Professor Emeritus of Computer Science and Information Systems. B.S., City College of New York; M.S., Trinity College.

**Klein, Donald**, Professor Emeritus of Accounting. B.S., Rockhurst College; M.B.A., University of Detroit; D.B.A., Michigan State University; C.M.A., C.P.A.

**Klein, Georgianna**, Associate Professor Emerita of Mathematics and Statistics. B.A., Berea College; M.S., Purdue University; Ph.D., Michigan State University.

**Klein, Helen**, Associate Professor Emerita of Management. B.A., Wayne State University; M.B.A., Michigan State University; Ph.D., University of Michigan.

**Kline, Kay Setter**, Professor Emerita of Nursing. B.S.N., B.A., Nazareth College; M.S.N., Wayne State University; Ph.D., Case Western Reserve University.

**Klingler, Gary**, Assistant Professor Emeritus of Mathematics. B.A., Michigan State University; M.A., Northern Michigan University; Ph.D., Michigan State University.

**Konecki, Loretta**, Professor Emerita of Education. B.A., Albion College; M.A.T., Ph.D., University of Chicago.

**Kopperl, Sheldon**, Professor Emeritus of Biomedical Sciences. B.S., Case Institute of Technology; Ph.D., University of Wisconsin.

**Kountz, Carol**, Associate Professor Emerita of Writing. B.A., University of Michigan; M.A., Harvard University; Ph.D., University of New Hampshire.

**Kraft, Frederic**, Professor Emeritus of Marketing. B.A., Wabash College; M.B.A., Washington University; D.B.A., Indiana University.

**Lai, Sufen**, Professor Emerita of English. B.A., Tunghai University; M.A., Ph.D., University of Illinois.

**Larson, Donna**, Professor Emerita of Nursing. B.S., California State University; M.S., University of California; Ph.D., Michigan State University.

**Larson, Harold**, Professor Emeritus of Engineering. B.A., California State University; M.S., Ph.D., California Institute of Technology.

**Larson, Lars**, Professor Emeritus of Management. B.S., M.B.A., Ph.D., University of Illinois, Urbana.

**Leder, Sharon**, Associate Professor Emerita of Nursing. B.S.N., M.S.N., Wayne State University; D.S.N., University of Alabama at Birmingham.

**Leeling, Norman**, Professor Emeritus of Biology. B.S., M.S., Oregon State University; Ph.D., University of Wisconsin.

**Levin, Martin**, Professor Emeritus of Computing and Information Systems. B.S., Pennsylvania State University; M.S., New York University.

**Levitan, William**, Professor Emeritus of Classics. B.A., Yale University; Ph.D., University of Texas.

**Lindquist, Stanton**, Professor Emeritus of Accounting. B.A., Luther College; M.A., University of Iowa; Ph.D., University of Missouri; C.P.A.

**Loth, Karen**, Vice President Emerita for Development. B.A., Michigan State University; M.A., Western Michigan University.

**Losey, Teri**, Executive Associate to the President and Secretary to the Board of Trustees Emeritus. B.S., Ferris State University.

**Lubbers, Arend D.**, President Emeritus. B.A., Hope College; M.A., Rutgers University; Litt.D., Central College; D.S., University of Sarajevo; L.H.D., Hope College; D.S., Academy of Economics, Krakow; HonDUniv., Kingston.

**Mack, Faite R-P**, Professor Emeritus of Leadership and Learning. B.S., Indiana University; M.A., Roosevelt University; Ed. Spec., Michigan State University; Ph.D., University of Illinois.

**Mader, Cynthia**, Professor Emerita of Special Education, Foundations, and Technology. B.A., M.A., Aquinas; M.A., University of Michigan; M.A., Ph.D., Michigan State University.

**Mapes, Lynn**, Professor Emeritus of History. B.A., Roosevelt University; M.A., Ph.D., University of Rochester.

**Margulus, Lisabeth**, Associate Professor Emerita of Educational Leadership and Counseling. B.S., University of Missouri St, Louis; M.A., Western Michigan University.

**Margulis, Stephen**, Professor Emeritus of Management. B.A., The City College of New York; M.A., Clark University; Ph.D., University of Minnesota.

**Martin, Jean**, Associate Professor Emerita of Nursing. B.S.N., University of Michigan; M.S., Boston University; Ph.D., Rush University.

**Masselink, Linda**, Senior Librarian Emerita. B.S., Grand Valley State University; A.M.L.S., University of Michigan.

**McCrea, Frances**, Professor Emeritus of Sociology. B.A., Grand Valley State University; M.A., Ph.D., Western Michigan University.

**McCrea, Linda D.**, Professor Emerita of Education. B.S., Eastern Michigan University; M.A., Ed.D., Western Michigan University.

**McGee, J. David**, Associate Professor Emeritus of Honors. B.S., University of Kansas; M.B.A., California State University at Long Beach; M.A., Ph.D., Indiana University.

**McGhee, Betty**, Associate Professor Emerita of Psychology. B.A., University of South Carolina; M.Ed., University of Toledo; Ph.D., University of Chicago.

**Menning, Daleene**, Professor Emerita of Art and Design. B.S., M.S.A., University of Michigan.

**Merkle, Anne W.**, Associate Librarian Emerita. B.A., Hope College; M.S.L., Western Michigan University.

**Merkle, Bart**, Vice Provost for Student Affairs and Dean of Students. B.A., Hope College; M.Ed., Western Michigan University.

**Meyers, Karen**, Director Emerita of the Regional Math and Science Center. B.S., M.A., Michigan State University.

**Mishra, Jitendra**, Professor Emeritus of Management. B.A., Delhi University; M.S., Northern Michigan University; M.B.A., Western Michigan University; F.Ph.S., Philosophical Society of England, London; Ph.D., Lucknow University.

**Morse, Deanna**, Professor Emerita of Communications. B.S., Iowa State University; M.A., Goddard College; M.F.A., School of the Art Institute of Chicago.

**Moyer, James**, Associate Vice President Emeritus. B.A.R.C.H., Howard University.

**Mullendore, Kristine**, Professor Emerita of Criminal Justice. B.S., Michigan State University; J.D. Boston University. Employed August 1995 through December 2020.

**Muraski, Virginia**, Professor Emerita of Mathematics and Computer Science. A.B., B.S., Jacksonville State College; M.A.T., Michigan State University; M.A., University of Illinois; Ph.D., Michigan State University.

**Murray, Diane**, Senior Librarian Emerita. B.A., Hope College; M.S.L., Western Michigan University; M.M., Aquinas College.

**Muskovitz, Rosalyn**, Professor Emerita of Art and Design. B.A., Oakland University; M.A., Michigan State University; M.F.A., Kent State University.

**Neal, William J.**, Professor Emeritus of Geology. B.S., University of Notre Dame; M.A., Ph.D., University of Missouri at Columbia.

**Niemeyer, Glenn A.**, Provost and Vice President for Academic Affairs Emeritus. A.B., Calvin College; M.A., Ph.D., Michigan State University; L.H.D., Grand Valley State University.

**O'Connor, Christine**, Professor Emerita of Psychology. B.A., University of Connecticut; M.A., Ph.D., Michigan State University.

**Orosz, Joel**, Distinguished Professor Emeritus of Public, Nonprofit, and Health Administration. B.A., Kalamazoo College; M.A., Ph.D., Case Western Reserve University.

**Osborn, William P.**, Professor Emeritus of English. B.A., University of California-San Diego; M.F.A., Bowling Green State University; Ph.D., State University of New York at Binghamton.

**Osmun, Gregory**, Associate Professor Emeritus of Education. B.A., M.A., Michigan State University; Ed.D., University of Michigan.

**Ostroot, Nathalie M.**, Professor Emerita of Sociology. B.A., M.A., Ph.D., University of Chicago.

**Ott, Michael R.**, Associate Professor Emeritus of Sociology. B.A., Western Michigan University; M. Div., Princeton Theological Seminary; Ph.D., Western Michigan University.

**Pace, Diana**, Associate Dean of Students Emerita. B.A., Duke University; M.A., Ph.D., University of North Dakota.

**Pare, Eileen**, Associate Professor Emerita of Chemistry. B.A., Rosary College; M.S., University of Illinois; Ph.D., University of Windsor.

**Paschke, Richard E.**, Professor Emeritus of Psychology. B.S., University of Illinois; M.A., Northern Illinois University; Ph.D., Purdue University.

**Pettengill, Glenn**, Professor Emeritus of Finance. B.A., Fort Hayes Kansas State University; M.S., University of California, Davis; Ph.D., University of Arkansas.

**Poitras, Ronald**, Associate Professor Emeritus of Geography and Urban Planning. B.A., California State University/Northridge; M.U.P., University of Oregon.

**Pottorff, Donald**, Professor Emeritus of Education. B.S., M.S., Central Missouri State University; Ph.D., Michigan State University.

**Pratt, Philip**, Professor Emeritus of Mathematics. B.A., M.A., Ph.D., Michigan State University.

**Preston, Joseph P.**, Professor Emeritus of History. B.A., Park College; M.S., University of Wisconsin; Ph.D., University of Missouri.

**Pryor, Sherril**, Associate Professor Emerita of Education. B.S., M.A., Sp. In Arts, Ed.D., Eastern Michigan University.

**Randall, Virginia**, Associate Dean of Students Emerita. B.A., M.B.A., Grand Valley State University; Ph.D., Michigan State University.

**Rathbun, David**, Professor Emeritus of Communications. B.A., Wheaton College.

**Reick, Kay**, Assistant Professor Emerita of Nursing. B.S.N., M.S., University of Michigan.

**Reifel, John**, Professor Emeritus of Economics. B.A., University of Notre Dame; M.A., Ph.D., Michigan State University.

**Reinken, Barbara**, Associate Professor Emerita of Education. B.S., Indiana University; M.S., University of Wisconsin; Ph.D., Michigan State University.

**Richardson, Scott D.**, Vice President Emeritus. B.S., M.S., Central Michigan University.

**Richmond, Gary**, Professor Emeritus of Chemistry. G.A., Washington and Jefferson College; Ph.D., The Ohio State University.

**Rivera-Muniz, Pedro**, Associate Professor Emeritus of Mathematics and Statistics. B.A., M.A., Syracuse University.

**Rogers, Joyce A. French**, Associate Professor Emerita of Nursing. B.S.N., Michigan State University; M.S.N., Wayne State University; Ph.D., Michigan State University.

**Rogers, Karel**, Professor Emerita of Biology. B.S., M.S., Ph.D., Michigan State University.

**Rowe, Patricia**, Professor Emerita of Movement Science. B.S., M.A., Central Michigan University; Ph.D., Michigan State University.

**Rowe, Stephen**, Stephen Rowe, Professor Emeritus of Philosophy. B.A., Colgate University; M.A., University of Chicago. Employed September 1972 through December 2019.

**Royer, Daniel**, Professor Emeritus of Writing. B.A., Washburn University of Topeka; M.A., Kansas State University; Ph.D., University of Kansas. Employed August 1995 through December 2020.

**Rudolph, Bennett**, Professor Emeritus of Marketing. B.S., Roosevelt University; M.S., Ph.D., University of Illinois.

**Rynbrandt, Linda**, Associate Professor Emerita of Sociology. B.A., Grand Valley State University; M.A., Ph.D., Western Michigan University.

**Salazar, Laura**, Professor Emerita of Communications. B.S., Wisconsin State University; M.A., Kent State University; Ph.D., University of Michigan.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Scott, James**, Associate Professor Emeritus of Movement Science. B.S., M.A., P.E.S., Central Michigan University.

**Seeger, Mary**, Professor Emerita of Modern Language and Literature.

**Seeger, Wilhelm**, Professor Emeritus of Modern Languages and Literatures. A.B., M.A., University of Michigan; Ph.D., University of Wisconsin.

**Seley, Beverly**, Professor Emerita of Visual and Media Arts. B.S., B.F.A., M.F.A., Michigan State University.

**Shedd, Joan**, Assistant Professor Emerita of Nursing.

**Sheline, Mary Ann**, Director Emerita of the Regional Math and Science Center. B.S., Chatham College; M.A., Carnegie Mellon University; Ed.S., University of Nebraska at Kearney.

**Shontz, John**, Professor Emeritus of Biology. B.S.Ed., Edinboro State College; M.A., Miami University; Ph.D., Duke University.

**Shroyer, Jan**, Associate Professor Emerita of Mathematics. B.S., Knox College; M.A.T., Ph.D., Michigan State University.

**Simone, Roberta**, Professor Emerita of English. B.S., Northern Illinois University; M.A., Bowling Green University; Ph.D., University of Illinois.

**Singleton, Harriet**, Senior Counselor Emerita of Counseling and Career Development Center. B.A., M.A., Michigan State University.

**Stark, Gary D.**, Professor Emeritus of History. B.A., Hamline University; M.A., Ph.D., The Johns Hopkins University.

**Stevenson, John**, Professor Emeritus of Physical Therapy. B.A., Vassar College; M.S., The Pennsylvania State University; M.S., Central Michigan University; Ph.D., Indiana University.

**Strickland, James**, Professor Emeritus of Physics. B.S., Franklin and Marshall College; Ph.D., Massachusetts Institute of Technology.

**Strickler, Timothy**, Professor Emeritus of Biomedical Sciences. B.S., Pennsylvania State University; Ph.D., University of Chicago.

**Sundstrom, Theodore**, Professor Emeritus of Mathematics. B.A., Western Michigan University; M.A., Ph.D., University of Massachusetts.

**Swanson, Jane**, Professor Emerita of Social Work. B.A., M.A., Ph.D., Michigan State University.

**Swartzlander, Susan**, Professor Emerita of Honors. B.S., Bloomsberg State College; M.A., Ph.D., Pennsylvania State University.

**Tanis, Dave**, Associate Professor Emeritus of Chemistry. B.A., Calvin College; M.S., Western Reserve University.

**Ten Brink, Norman**, Professor Emeritus of Geology. B.S., University of Michigan; M.S., Franklin and Marshall College; Ph.D., University of Washington.

**Ten Eyck, Allan**, Professor Emeritus of Education. A.B., Aquinas College; A.M., Ed.D., University of Michigan.

**Terry, M. Nancy**, Senior Librarian Emerita. A.B., A.M.L.S., University of Michigan.

**Thimmesch, Tim**, Associate Vice President Emeritus, Facilities Services Allendale. B.S., Newman University; M.S., Grand Valley State University. Employed from January 1995 through April 2021.

**Thomas, Lorelle Otis**, Professor Emerita of Visual and Media Arts. B.A., Eastern Michigan University; M.F.A., Syracuse University.

**Toot, Jane**, Professor Emerita of Honors. B.S., University of Michigan; M.A., George Washington University; Ph.D., Wayne State University.

**Travis, Anthony**, Professor Emeritus of History. B.S., Loyola University of Chicago; M.S., Ph.D., Michigan State University.

**Trier, Terry M.**, Associate Professor Emeritus of Biology. B.S., Purdue University; Ph.D., Michigan State University.

**Tucker, Veta Smith**, Professor Emerita of English. B.A., M.A., Michigan State University; A.D., University of Michigan.

**Tyson, Lois**, Professor Emerita of English. B.A., Rutgers University; M.Ed., M.A., Ohio University; Ph.D., The Ohio State University.

**Underwood, Kathleen**, Associate Professor Emeritus of History and Women, Gender, and Sexuality Studies. B.A., University of Colorado; M.A., Ph.D., University of California at Los Angeles.

**Vail, Janet**, Research Scientist Emerita of the Annis Water Resources Institute. B.S. University of Michigan; M.A., University of California, Santa Barbara; Ph.D., Western Michigan University. Employed August 1990 through December 2020.

**Van Orsdel, Lee**, Dean Emerita of University Libraries. B.A., Samford University; M.A., Florida State University; M.S.L.S., University of Alabama.

**VanAntwerp, Jill**, Associate Professor Emerita of English. B.A., M.A., Ph.D., Michigan State University.

**Vandenberg, Phyllis**, Professor Emerita of Philosophy. B.A., Marquette University; M.A., Western Michigan University; Ph.D., University of Utah.

**VanderWerf, Marilyn**, Assistant Professor Emerita of Nursing. B.S.N., Northern Illinois University; M.S.N., Grand Valley State University.

**VanSteeland, Ronald**, Vice President for Finance and Administration Emeritus. B.A., Michigan State University; L.H.D., Grand Valley State University.

**Videtich, Patricia**, Professor Emerita of Geology. B.S., Grand Valley State University; M.Sc., Ph.D., Brown University.

**Waggoner, Kathryn**, Senior Librarian Emerita. B.A., Ball State University; M.A.T., M.L.S., Indiana University.

**Ward, Ronald**, Director Emeritus of the Annis Water Resources Institute. Sc.D., The Johns Hopkins University.

**Wardrop, Maribeth**, Vice President Emeritus. B.A.G.E., Aquinas College.

**Watson, Robert**, Associate Professor Emeritus of English. B.A., Princeton University; M.A., Ph.D., University of Wisconsin-Madison.

**Wenner, Wendy**, Dean Emerita of the Brooks College of Interdisciplinary Studies. B.A., Carlton College; M.A.T., Northwestern University; Ph.D., Marquette University.

**Westra, Helen**, Associate Professor Emerita of English. B.A., Calvin College; M.A., University of Michigan; Ph.D., University of Notre Dame.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Whipps, Judy**, Professor Emerita of Integrative, Religious and Intercultural Studies. B.A., Grand Valley State University; M.A., University of Chicago; Ph.D., Union Institute. Employed August 1996 through August 2019.

**White, Jonathan**, Professor Emeritus of Honors. B.A., M.A., Western Michigan University; M.Div., Western Theological Seminary; Ph.D., Michigan State University.

**Whitehill, Sharon**, Professor Emerita of English. B.A., Grand Valley State University; M.A., Ph.D., University of Illinois.

**Williams, Donald**, Professor Emeritus of Sociology. B.A., Western Michigan University; M.A., Michigan State University; Ph.D., Western Michigan University.

**Williams, Sr., Donald**, Dean Emeritus of Minority Affairs. B.S., Eastern Michigan University; M.A., West Virginia University.

**Wissink, John**, Associate Professor Emeritus of Education. B.A., Calvin College; M.A., Western Michigan University; Ph.D., University of Arizona.

**Wojciakowski, Claudia Sowa**, Professor Emerita of Leadership and Learning. B.S., M.A., Ph.D., Michigan State University.

**Wolter, James**, Professor Emeritus of Marketing. B.A., Indiana University; M.S., Ball State University; M.B.A., Indiana University; Ph.D., Michigan State University.

**Yackish, Thomas**, Associate Professor Emeritus of Engineering. B.S., Purdue University; M.S., University of Illinois.

**Zaugra, John**, Senior Counselor Emeritus of Counseling and Career Development Center. B.S., Southern Illinois University; M.S., Illinois State University; M.A., Roosevelt University; Ed.D., University of Montana.

## **Administrative Staff**

### **Office of the President**

**Philomena V. Mantella**, President. B.S., M.S.W., Syracuse University; Ph.D., Michigan State University.

**Jill Craig**, Director of Special Events. B.S., M.P.A., Grand Valley State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Cori Kahler**, Project Specialist for Presidential Initiatives and Board Relations. B.S., Michigan Technological University; M.Ed., Grand Valley State University.

**Patricia Waring**, Community Relations Director. B.S., Western Michigan University.

## **Charter Schools Office**

**Donald Cooper, II**, Associate Vice President for Charter Schools. B.A., Hillsdale College; M.P.A., Central Michigan University.

**Steven Hodas**, Executive Director of GV NextEd Accelerator. B.A., Sarah Lawrence College.

**Elliot Avis**, School Support Specialist. B.A., Wittenberg University; M.P.A., Northwestern University.

**Rajeshri Bhatia**, Deputy Director for School Performance. B.S., University of Michigan.

**Michael Cousins**, Manager of Communications. B.A., Grand Valley State University.

**Barry Hall, II**, Assistant Director for Charter through College Programs. B.S., Michigan State University; M.B.A., University of Phoenix; M.Ed., Grand Valley State University.

**Steven Hodas**, Executive Director of GV NextEd Accelerator. B.A., Sarah Lawrence College.

**Jayne Lesperance**, Manager of Teacher Development. B.A., Grand Valley State University.

**Jeffrey Maxwell**, School Support Specialist. B.S., Michigan State University; M.A., Dominican University.

**Wendy Miller**, Director of Targeted Learning Institute. B.A., University of Iowa; M.Ed., Grand Valley State University.

**Alyson Murphy**, Deputy Director for School Accountability. B.A., Purdue University; J.D., Thomas M. Cooley Law School.

**Maniramprasad Ravikumar**, Manager of Data Analytics. B.S., Anna University; M.S., University of Michigan Flint.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Alissa Thelen**, Acceleration Manager. B.A., University of Minnesota at Duluth; M.Ed., Grand Canyon University.

**Amirah Vosburgh**, Acceleration Manager. B.S., Grand Valley State University.

**Jill Weber**, Reading Intervention Specialist. B.S., Grand Valley State University.

## **Office of the Employee Ombuds**

**Elisa Salazar**, Employee Ombuds Officer. B.A., Hope College; M.S., M.S.W., Grand Valley State University.

## **Education Opportunity and Access**

**Robert Kimball**, Associate Vice President for Education Innovation & School Services and Executive Associate to the President and Equity. B.A., University of Michigan; M.A., Northwestern University; Ed.D., Michigan State University.

## **NextEd Accelerator**

**Alissa Thelen**, Acceleration Manager. B.A., University of Minnesota at Duluth; M.Ed., Grand Canyon University.

**Amirah Vosburgh**, Acceleration Manager. B.S., Grand Valley State University.

## **Legal Affairs Office**

**Patricia Smith**, General Counsel. B.S., Belmont College; J.D., Marquette University.

**Anne Jbara**, Associate General Counsel and Freedom of Information Act Coordinator. B.A., Illinois Wesleyan University; J.D., Indiana University.

## **Academic and Student Affairs**

**Maria Cimitile**, Provost and Executive Vice President for Academic and Student Affairs. B.A., College of the Holy Cross; M.A., Villanova University; Ph.D., University of Memphis.

**Edward Aboufadel**, Associate Vice President for Academic Affairs. B.S., Michigan State University; Ph.D., Rutgers University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Mary Albrecht**, Executive Associate for Administrative Operations. B.S., Cornerstone University.

**Suzanne Benet**, Associate Vice President for Academic Affairs. B.S., Jacksonville State University; Ph.D., University of North Carolina.

**Bonnie Bowen**, Associate Vice President for Academic Affairs. B.B.A., Grand Valley State University. M.Ed., Grand Valley State University.

**Taylor Boyd**, Assessment Specialist. B.S., Appalachian State University; M.Ed., Grand Valley State University.

**Travis Burton**, Director for Civic Learning and Community Engagement. B.A., Saginaw Valley State University; M.A., Central Michigan University.

**Christopher Plouff**, Senior Associate Vice President for Academic Affairs. B.S., M.S., Michigan Technological University; Ed.D., Eastern Michigan University.

**Ellen Schendel**, Assistant Vice President of Academic Affairs. B.A., Birmingham Southern College; M.A., Florida State University; Ph.D., University of Louisville.

**Kara Van Dam**, Vice Provost for Graduate and Lifetime Learning. B.G.S., University of Michigan; M.B.A., Kaplan University; M.A., Ph.D., University of North Carolina at Chapel Hill.

**Daniel Weller**, Health Equipment and Systems Manager. B.A., M.S., Grand Valley State University.

## **Art Gallery**

**Alison Christensen**, Project Manager. B.F.A., Grand Valley State University.

**Andrew King**, Art Gallery Preparator. B.F.A., Grand Valley State University; M.F.A., Kendall College of Art and Design.

**Nathan Kemler**, Director of Galleries and Collections. B.A., Calvin College; M.A., Eastern Illinois University.

**Nicole Webb**, Collections Manager. B.A., Grand Valley State University; M.A., Eastern Illinois University.

**Joel Zwart**, Curator of Exhibitions. B.A., Calvin College; M.A., Eastern Illinois University.

## **Center for Adult and Continuing Studies**

**Simone Jonaitis**, Executive Director of the Center for Adult and Continuing Studies. B.A., University of Michigan; M.A., Western Michigan University; Ph.D., Michigan State University.

**Melissa Peraino**, Director of Educational Outreach. B.A., Alma College; M.A., Ball State University.

## **Lakeshore Center**

**Shawntain Jenkins**, Director, Muskegon Center Program. B.B.A., M.P.A., Grand Valley State University.

## **Holland Center**

**Lisa Miller, Director**, Meijer Holland Campus. B.A., Alma College; M.Ed., Grand Valley State University.

**Katherine VanDerKolk**, Student Services Coordinator, Meijer Holland Campus. B.A., Hope College; M.Ed., Grand Valley State University.

## **Traverse Center**

**Jacquelyn Abeyta**, Student Services Coordinator, Traverse City Regional Campus. B.S., M.Ed., Grand Valley State University.

**Shannon Owen**, Director of Northern Michigan Programs. B.S., M.A., Eastern Michigan University.

## **Center for Scholarly and Creative Excellence**

**Robert Smart**, Vice Provost for Research Administration and Executive Director. B.A., Albion College; Ph.D., Michigan State University.

**Linda Chamberlain**, Director, Technology Commercialization. B.S., Ph.D., Purdue University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Stacey Gardner**, Research Compliance Specialist. B.B.A., Davenport University.

**James Seufert**, Director of Laboratory Safety. B.S., Purdue University.

**Benjamin Vesper**, Director of Research Compliance Integrity. B.S., Central Michigan University; M.S., Ph.D., Northwestern University; M.B.A., University of Illinois at Chicago.

## **Office of Sponsored Programs**

**Robby Michael Gouin-Hart**, Director, Office of Sponsored Programs. B.A., Kalamazoo College; M.P.A., Grand Valley State University.

**Michele Quick**, Grants and Contracts Specialist. B.B.A., M.B.A., Cornerstone University.

**Melissa Wright**, Grants and Contracts Specialist. B.S., Ferris State University.

**Barbara Wygrant**, Grants and Contracts Specialist. B.A., M.P.A., Western Michigan University.

## **Office of Undergraduate Research and Scholarship**

**Susan Mendoza**, Director, Office of Undergraduate Research and Scholarship. B.S., M.A., Michigan State University; Ph.D., Western Michigan University.

**Brenda Tooley**, Associate Director of Undergraduate Scholar Engagement. B.A., M.A., Fort Hays State University. Ph.D., University of Notre Dame.

## **Robert and Mary Pew Faculty Teaching and Learning Center**

**Christine Rener**, Vice Provost for Instructional Development and Innovation/Director. B.S., Michigan State University; Ph.D., Northwestern University.

**Raquel Ramirez**, Project Coordinator. B.A., University of Michigan.

## **Student Academic Success Center (SASC)**

**Damon Arnold**, Director, Laker Academic Success Center/Special Associate to Athletic Director. B.A., M.A., California State University at Chico; M.S., University of Idaho; Ph.D., Washington State University.

**Michael Messner**, Director of Student Success Programs. B.S., M.Ed., Grand Valley State University.

**Myesha Melvin-Gholston**, Academic Advisor, Student Academic Success Center. B.S., California State Polytechnic University; M.A., National University

**Matthew Musser**, Student Success Software Specialist. B.S., M.Ed., Grand Valley State University.

**Gabriel Pena**, Student Success Coach. B.A., University of Michigan; M.Ed., Grand Valley State University.

## **Student Affairs**

**Aaron Haight**, Associate Dean of Students. B.A.A., Central Michigan University; M.P.A., Grand Valley State University; Ed.D., Eastern Michigan University.

**Elizabeth Chase**, Student Retention and Special Projects Coordinator. B.A., Michigan State University; M.Ed., Grand Valley State University.

**Emily First**, Student Support Manager. B.A., Taylor University; M.Ed. Baylor University.

**Takeelia Garrett**, Student Ombuds. B.A., M.Ed., Grand Valley State University.

## **Career Center**

**Troy Farley**, Director of Career Center. B.S., Grand Valley State University.

**Christopher Babbitt**, Assistant Director of Career Center. B.A., Michigan State University; M.Ed., Grand Valley State University; M.A., Western Michigan University.

**Rachel Becklin**, Senior Associate Director of Career Center. B.A., Western Michigan University; M.Ed., Grand Valley State University.

**Stephanie Dombrowski**, Assistant Director of Career Center. B.S., Grand Valley State University; M.A., Western Michigan University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Lisa Knapp**, Associate Director of Career Center. B.A., Hope College; M.Ed., Grand Valley State University.

**Susan Proctor**, Employer Development Manager. B.S., Grand Valley State University.

**Grace Pushman**, Assistant Director of Career Center. B.S., M.Ed., Grand Valley State University.

**Megan Riksen**, Assistant Director of Career Center. B.A., University of Michigan; M.Ed., Grand Valley State University.

**Kristie Scanlon**, Employer Relations Coordinator. B.S.W., Grand Valley State University; M.S.W., Western Michigan University.

**Lori Staggs**, Associate Director of Career Center. B.A., Hope College; M.A., California State University, San Bernardino.

**Meghan Veltri**, Assistant Director of Career Center. B.S., M.Ed., Grand Valley State University.

## **Children's Enrichment Center**

**Daphnea Sutherland**, Director of Children's Enrichment Center. B.S., M.Ed., Grand Valley State University.

## **Housing and Residence Life**

**Andrew Beachnau**, Associate Vice Provost for Student Affairs and Director of Housing and Health Services. B.A., Alma College; M.Ed., Grand Valley State University; Ph.D., Michigan State University.

**Justin Bean**, Living Center Director. B.A., University of Maine; M.Ed., Grand Valley State University.

**Kyle Boone**, Director of Housing & Residence Life. B.A., University of Louisville; M.A., University of Pacific; Ph.D., Louisiana State University.

**Colleen Lindsay-Bailey**, Associate Director, Residence Education. B.S., M.A., Michigan State University.

**Allison Brown**, Living Center Director. B.A., Hope College; M.Ed., Union University.

**JaJuan Collins**, Living Center Director. B.S., M.S., Concordia University-Ann Arbor.

**Madison Creutz**, Living Center Director. B.S., Grand Valley State University.

**Shanikwa Cruickshank**, Living Center Director.

**Kristen Evans**, Assistant Director of Housing. B.S., Western Michigan University; M.Ed., Grand Valley State University.

**Abigail Forbes**, Financial Manager of Housing. B.A., M.A., Michigan State University.

**Catera Greer**, Living Center Director. B.A., Oakland University.

**Melanie Grover**, Assistant Director of Housing. B.S., M.Ed., Grand Valley State University.

**Taylor Guss**, Living Center Director. B.S., Central Michigan University; M.S., Mississippi State University.

**Jamillya Hardley**, Living Center Director. B.A., University of Michigan; M.Ed., Grand Valley State University.

**Suzanne Herman**, Residence Life Coordinator. B.A., Dominican University; M.Ed. Grand Valley State University.

**Zachary Jacobs**, Living Center Director. B.A.; DePauw University, M.Ed., Grand Valley State University.

**Jasmine Padin**, Living Center Director. B.S., M.Ed., Grand Valley State University.

**Michele Renaud**, Living Center Director. B.S., Central Michigan University; M.A., University of Nevada-Reno.

**Jonathan Richards**, Residence Life Coordinator. B.S., Florida Gulf Coast University; M.S., Florida International University.

**Adam Tate**, Facilities Manager. B.B.A., Western Michigan University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Brandie Tenney**, Assistant Director of Housing. B.B.A., Western Michigan University; M.Ed., North Carolina State University.

**Robert Zinger**, Living Center Director. B.S., Grand Valley State University.

## **Recreation and Wellness**

**Katharine Harmon**, Director of Recreation and Student Wellness. B.S., Northern Michigan University; M.A., Central Michigan University.

**Joseph Bitely**, Assistant Director of Campus Recreation. B.S., Western Michigan University.

**Amy Campbell**, Associate Director of Campus Recreation. B.S., Hillsdale College; M.Ed., Grand Valley State University.

**Mitchell Eastlick**, Assistant Director of Campus Recreation. B.A., San Jose State University; M.S., Ohio University.

**Katie Jourdan**, Student Health Promotions Coordinator. B.S., Central Michigan University; M.P.H., University of Michigan.

**John Offerman**, Assistant Director. B.S., Eastern Illinois University; M.A., Gonzaga University.

**Michael Przydzial**, Associate Director in Campus Recreation. B.S., Grand Valley State University; M.E.D., University of Arkansas.

## **Student Conduct**

**Anthony Williams Jr.**, Director of Student Conduct. M.S., Illinois State University.

## **Student Life and Event Services**

**Melissa Baker-Boosamra**, Associate Director of Student Life. B.A., M.P.A., Grand Valley State University.

**Christopher McQueen**, Associate Director of Student Life. B.A., Virginia Commonwealth University; M.Ed., Walden University.

**Valerie Guzman**, Director of Student Life. B.A., Central Michigan University; M.Ed., Grand Valley State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Kellie Pnacek-Carter**, Assistant Director of Events Services. B.A., Grand Valley State University.

**Eric Stevens**, Assistant Director of Student Organization. B.A., Spring Arbor University; M.Ed., Grand Valley State University.

## **University Counseling Center**

**Amber Roberts**, Director of University Counseling Center. B.S., Grand Valley State University; M.A., Michigan State University; Ph.D., Purdue University.

**Maha Baalbaki**, Psychologist. B.A., University of Wisconsin-Madison; M.S., Ph.D., Marquette University.

**Brian Bossick**, Psychologist and Assistant Director of University Counseling Center. B.S., John Carroll University; M.A., Ph.D., University of Akron.

**Nicholas Debenardi**, Psychologist. B.S., Michigan State University; M.A., Ph.D., University of Missouri-Kansas City.

**Bonnie Dykstra**, Psychologist/Coordinator of Alcohol and Other Drug Prevention Services. B.S., M.A., Central Michigan University; Ph.D., Walden University.

**Abraham Eapen**, Psychologist. B.A., Mahatma Gandhi University; M.A., Psy.D., Wright State University.

**Eric Klingensmith**, Psychologist and Associate Director of University Counseling Center. B.S., University of Central Florida; Psy.D., Antioch University.

**Nicole Marganti**, Psychologist. B.A., Alma College; M.A., Psy.D., University of Indianapolis.

**Latrece McDaniel**, Assistant Director of Alcohol and Other Drugs Campus Education Services. B.S., B.A., M.S.W., Michigan State University.

**Pamela Miller**, Psychologist and Associate Director of University Counseling Center. B.S., Michigan State University; M.S.W., Washington University; Ph.D., Georgia State University.

**Dayna Phillips**, Counselor. B.S., Michigan State University; M.Ed., DePaul University.

**Melissa Selby-Theut**, Social Worker. B.A., Concordia University; M.S.W., Grand Valley State University.

**Michelle Stahl**, Psychologist. B.S., Central Michigan University; M.A., Central Michigan University.

**Kelsey Wenzel**, Mental Health Outreach Specialist. B.S., M.P.A., Grand Valley State University.

**Leslie White**, Clinical Social Worker. B.A., Calvin College; M.S.W., Western Michigan University.

## **University Libraries**

**Annie Bélanger**, Dean of University Libraries. B.A., York University; M.L.I.S., University of Western Ontario.

**Robert Beasecker**, Curator, Rare & Distinguished Collections. A.B., Hillsdale College; A.M.L.S., University of Michigan.

**Stacey Burns**, Programs and Operations Manager. B.A., Western Michigan University.

**Cara Cadena**, Head of Collections & Digital Scholarship. B.A., Montana State University; M.L.S., University of Arizona.

**Sara Chan**, Access Services Manager. B.A., Biola University; M.L.I.S., Kent State University.

**Jeffrey Daniels**, Associate Dean of Curation, Publishing, and Preservation Services. B.S., Grand Valley State University; M.L.I.S., Wayne State University.

**Jason Durham**, Libraries Business Administrator. B.S., M.P.A., Grand Valley State University.

**Kyle Felker**, Library Applications Developer. B.A., University of Southern Mississippi; M.L.I.S., Louisiana State University.

**Jon Jeffries**, Head of Professional Programs. B.A., Grinnel College; M.A., University of Wisconsin-Madison

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Hazel McClure**, Head of Liberal Arts Programs. B.S., Central Michigan University; M.F.A., St. Mary's College of California; M.L.S., State University of New York-Buffalo.

**Brian Merry**, Head of Operations & User Services, . B.S., Grand Valley State University.

**Gabrielle Miller**, Digital Student Experience Coordinator. B.S., Oklahoma State University.

**Mary Morgan**, Library Technology Manager. B.S., Jordan College Energy Institute.

**Jacklyn Rander**, Publishing Services Manager. B.A., Grand Valley State University.

**Cassandra Rollins**, Manager of Library Services for the Van Andel Research Institute. B.A., Western Michigan University; A.M.L.S., University of Kentucky.

**Patrick Roth**, Head of Technology and Systems. B.S., Grand Valley State University; M.L.I.S., Wayne State University.

**Jennifer Torreano**, Library Knowledge Market Manager. B.A., Grand Valley State University; M.Ed., Grand Valley State University.

## **Vice Provost for Health**

**Jean M. Nagelkerk**, Vice Provost for Health. B.S.N., Nazareth College; M.S.N., Wayne State University; Ph.D., University of Florida.

**Douglas Ayers**, Simulation Coordinator. B.S., Grand Valley State University

**Sharon Baker**, Standardized Patient Program Coordinator. B.S.N., Spring Arbor University.

**Tina Barnikow**, Senior Director for Health. B.S.N., Michigan State University.

**Kathrine Branch**, Director of Simulation. B.S.N, University of Missouri Columbia; M.S.N., Michigan State University.

**Matthew Bozzo**, Career Navigator. B.A., University of Michigan.

**Sara Burtis**, Special Projects Coordinator. B.A., Western Michigan University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Christine Daily**, Health Compliance Specialist. B.S., Ferris State University.

**Sally Hoekzema**, Health Compliance Specialist. B.S.N., Grand Valley State University.

**Kathryn King**, Standardized Patient Program Assistant Coordinator. B.S.N., Grand Valley State University.

**Kelly Klerk**, Multimedia Coordinator. B.A., University of Southern Mississippi; M.Ed., William Carey University.

**Mary Kooyer**, Learning Resource Coordinator. B.A., Calvin College; B.S.N., Grand Valley State University.

**Kimberly Muma**, Health Compliance Coordinator. B.S.N., Grand Valley State University; B.S., M.S., Ferris State University.

**Lisa Naymick**, Clinical Simulation and Learning Resource Specialist. B.A., Michigan State University; M.S., Marquette University.

**Rebekah Sabo**, Clinical Initiatives Specialist. B.S.N., Pensacola Christian College.

**Al Shifflett III**, Director of Community Engagement. B.B.A., Western Michigan University.

**John Sterling**, Multimedia Coordinator. B.S., Indiana University of Pennsylvania.

**Jeffery Trytko**, Program Director (Scribe Training Program). B.A., Hope College; M.S., DePaul University.

**Brian Ulrich**, Director of Interprofessional Education Office and Special Projects. B.S., Western Michigan University; M.A., Central Michigan University; M.A., Ph.D., Michigan State University.

## Colleges

### Brooks College of Interdisciplinary Studies

**Mark Schaub**, Interim Dean of the Brooks College of Interdisciplinary Studies. B.A., Lakeland University; M.F.A., Wichita State University; Ph.D., Purdue University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Melanie Shell-Weiss**, Interim Associate Dean of Brooks College of Interdisciplinary Studies. B.A., University of Michigan; M.A, Ph.D., Michigan State University

**Majd Al-Mallah**, Program Coordinator of Middle Eastern Studies. B.A., University of Jordan; M.A., Ph.D., Indiana University.

**Krista Benson**, Program Coordinator of Leadership. B.A., Gonzaga University; M.A., University of Manchester; Ph.D., The Ohio State University.

**Meredith Fedewa**, Writing Center Specialist. B.A., Grand Valley State University.

**Coeli Fitzpatrick**, Chair of Honors Faculty. B.A., Regis University; M.A., Ph.D., Binghamton University.

**Roger Gilles**, Director of Frederik Meijer Honors College. B.A., Carnegie-Mellon University; M.F.A., Ph.D., University of Arizona.

**Carol Griffin**, Director of General Education. B.S., North Dakota State University; M.S., Indiana University; M.S., Ph.D., State University of New York.

**Michael Hinkle**, Farm Manager and Educator. Office of Sustainability Practices. B.S., Grand Valley State University.

**Azfar Hussain**, Interim Graduate Program Director. B.A., M.A., Dhaka University; M.A., Ph.D., Washington State University. **Yumiko Jakobcic**, Director of the Office of Sustainability Practices. B.S., Grand Valley State University; M.E.M., Duke University; Ph.D., University of Vermont.

**Jennifer Jameslyn**, Director of Brooks College Advising Center. B.A., Kalamazoo College; M.A., University of Iowa.

**Patrick Johnson**, Director of Fred Meijer Center for Writing and Michigan Authors. B.A., M.A., Washington State University.

**Kin Ma**, Program Coordinator of East Asian Studies. B.A., Williams College; M.S., Ph.D., Michigan State University.

**Jack Mangala**, Chair of Area and Global Studies. B.A., University of Kinshasa; M.A., L.L.M., Ph.D., Catholic University of Louvain, Belgium.

**Diane Maodush-Pitzer**, Program Coordinator of Religious Studies. B.S., Northern Illinois University; M.Div., Western Theological Seminary; M.A., University of Notre Dame; Ph.D., Eastern Michigan University.

**Amy McFarland**, Interim Chair of Environmental and Sustainability Studies. B.A., Rice University; M.Ed., Texas State University; Ph.D., Texas A&M University.

**Andrea Riley-Mukavetz**, Program Coordinator of Intercultural Competence and Communication. B.S., Central Michigan University; M.A., Illinois State University; Ph.D., Michigan State University.

**Lisa Perhamus**, Director of the Padnos-Sarosik Center for Civil Discourse. B.A., William Smith College; M.A., The New School for Social Research; Ph.D., University of Rochester.

**Nora Salas**, Director of the Kutsche Office of Local History. B.A., University of Michigan; M.S.W., Michigan State University. **Jerry Stinnett**, Director of Writing Across the Curriculum and Faculty Writing Support. B.A., M.A., Northeastern State University; Ph.D., University of Oklahoma.

**Deana Weibel**, Interim Chair of Integrative, Religious, and Intercultural Studies. B.A., University of California, Irvine; M.A., Ph.D., University of California, San Diego.

**Karen Zivi**, Interim Chair of Human Rights. B.A., University of Virginia; M.A., Ph.D., Rutgers University.

## **Barbara and Stuart Padnos International Center**

**Elizabeth Jawish**, Coordinator of International Student Services. B.A., Grand Valley State University.

**Ehren Kuzekov**, Coordinator of Study Abroad and International Partnerships. B.S., Grand Valley State University; M.Ed., Seattle University.

**Alissa Lane**, Coordinator of Outreach and International Students. B.F.A., Michigan State University; M.Ed., Grand Valley State University.

**Rebecca Morrissey**, Director of Study Abroad and International Partnerships. B.S., M.Ed., Grand Valley State University.

**Elena Selezneva**, Intercultural Faculty/Coordinator of Faculty-led Programs. M.A., Michigan State University.

**Meaghann Smith**, Study Abroad Advisor. B.A., M.Ed., Grand Valley State University.

**Katherine Stoetzner**, Director of International Student and Scholar Services. B.A., Kalamazoo College; M.Ed., Grand Valley State University.

## **Dorothy A. Johnson Center for Philanthropy**

**Teresa Behrens**, Executive Director. B.A., Case Western Reserve University; M.S., Ph.D., North Carolina State University.

**Kallie Bauer**, Project Coordinator, Community Research Institute. B.B.A., M.B.A., Grand Valley State University.

**Julie Couturier**, Operations Director. B.S., Central Michigan University.

**Jamie DeLeeuw**, Research Manager. B.S., Grand Valley State University; M.A., Ph.D., Wichita State University.

**Patricia Flannery Robinson**, Associate Director for Special Projects, Community Research Institute. B.S., M.P.A., Grand Valley State University..

**Carol Glanville**, Program Manager, B.A., Western Michigan University; M.Ed. University of Phoenix.

**Brian Herron**, Web Developer. B.S. Grand Valley State University.

**Karen Hoekstra**, Marketing and Communication Coordinator.

**Michael Layton**, W.K. Kellogg Community Philanthropy Chair. B.A., Haverford College; M.A., Ph.D., Duke University.

**Victoria Martin**, Director of Communications and Engagement. B.A., University of Virginia; M.A., Georgetown University.

**Michael Moody**, Frey Chair for Family Foundations and Philanthropy. B.A., Indiana University; M.A., University of Chicago; Ph.D., Princeton University.

**Juan Olivarez**, Distinguished Scholar in Residence, Diversity, Equity, and Inclusion. B.S., Aquinas College; Ph.D., Michigan State University.

**Adriana Paz Santos**, Senior Database Administrator.. B.S., Universidad Francisco Marroquin; M.S., Grand Valley State University.

**Kevin Peterson**, Program Coordinator, Nonprofit Services. B.S., Grand Valley State University.

**Amanda Sharp**, Program Manager. B.S., Michigan State University; M.S., DePaul University.

**Tamela Spicer**, Program Manager, Nonprofit Services. B.A., B.S., Aquinas College; M.A., Spring Arbor University.

**Leslie Staroneck**, Director of Learning Services. B.A., State University of New York; M.A., University of Pittsburgh.

**Melyssa Tsai**, Research Manager. B.A. Occidental College; M.P.H., University of Michigan.

**Aaron Van Oosterhout**, Research Manager. B.A., University of Notre Dame; Ph.D., Michigan State University.

**Jeff Williams**, Director of Community Data and Research Labs. B.S., Michigan State University; M.A., University of Minnesota; M.B.A., University of Michigan.

## **College of Education and Community Innovation**

**Sherril Soman**, Dean, College of Education and Community Innovation. B.Sc., Prairie View A&M University; Ph.D., Purdue University.

**Erika Bailey**, Academic Advisor. B.S., M.S.W., M.P.A., Grand Valley State University.

**David Bair**, Director, Center for Educational Partnerships. B.A., The College of Wooster; Ed.D., University of Michigan.

**Mary Bair**, Chair, Educational Foundations. B.S., University of Delhi, India; M.S., University of Calicut, India; Ph.D., University of Michigan.

**Scott Berlin**, Director, School of Social Work. B.S., Michigan State University; M.S.W., Wayne State University; Ph.D., Michigan State University.

**Trenton Beamon**, Academic Advisor. B.S., M.Ed., Grand Valley State University.

**Suzanne C. Bierlein**, Assistant to the Dean for Academic Scheduling and Enrollment. B.A., M.Ed., Grand Valley State University.

**Jason Cronkrite**, Associate Director, Student Information and Services Center. B.S., M.B.A., Ferris State University.

**Amy Dunn**, Educational Specialist Student Services Coordinator. B.S., Aquinas College; M.Ed., Grand Valley State University.

**Tom Fellows**, Academic Advisor. B.S., M.Ed., Grand Valley State University.

**Patrick Gerkin**, Director, School of Criminal Justice. B.A., M.A., Ph.D., Western Michigan University.

**Breeann Gorham**, Director of CCPS Undergraduate Advising Center. B.S., M.A., Central Michigan University.

**Raymond Higbea**, Chair, Department of the School of Public, Nonprofit, and Health Administration. B.S., Bob Jones University; M.H.A., University of Florida; Ph.D., Western Michigan University.

**Mark Hoffman**, Associate Dean. B.A., College of Wooster; M.A., Ph.D., Cleveland State University.

**Katie Humphrey**, Assistant Dean, College of Education and Community Innovation. B.A., Grand Valley State University.

**Alexander Jacobsson**, Assistant Director, Administrative Services. B.A., Aquinas College.

**Sean Lancaster**, Chair, Department of Literacy and Technology. B.S., M.S., Ph.D., University of Kansas.

**Sharon Mah**, Associate Director, Center for Educational Partnerships. B.F.A., Michigan State University; M.S., Teachers College, Columbia University.

**Denise McConnell-Brown**, Field Placement Coordinator, Student Information and Services Center. B.S., Central Michigan University; M.Ed., Grand Valley State University; M.Ed., Western Michigan University.

**Catherine Meyer-Looze**, Department Chair, Educational Leadership and Counseling. B.A., Saginaw Valley State University; M.A., Central Michigan University; Ed.D., Eastern Michigan University.

**Cray Mulder**, Director, M.S.W. Program. B.A., Calvin College; M.S.W., Grand Valley State University; Ph.D., University of Illinois at Urbana-Champaign.

**Lisa Rene Norris**, Field Placement Coordinator, Student Information and Services Center. B.S., Wayne State University; M.Ed., Ed.S., Grand Valley State University.

**Kimberly Pawelka**, Field Placement Coordinator, Student Information and Services Center. B.A., Hope College; M.Ed., Western Michigan University.

**Clayton Pelon**, Associate Director, Center for Educational Partnerships. B.A., M.A., Michigan State University.

**Melissa Pierczynski**, Project Coordinator. B.S., Eastern Illinois University; M.Ed., Saint Xavier University; Ph.D. George Mason University.

**Jeffrey Rollins**, Database and Reporting Specialist, Student Information and Services Center.

**Deborah Ronk**, Field Education Coordinator, B.S.W. Program. B.S., Central Michigan University; M.S.W., Grand Valley State University.

**Scott Rood**, Chair, Department of Hospitality and Tourism Management. B.S., University of Michigan; M.P.A., Central Michigan University.

**Amy Schelling**, Associate Dean College of Education and Community Innovation. M.Ed., Grand Valley State University; Ed.D., Western Michigan University.

**Ellen Schiller**, Chair, Department of Teaching and Learning. B.S., M.Ed., Grand Valley State University; Ph.D., Michigan State University.

**Katie Scheuerle**, Field Education Coordinator, B.S.W. Program. B.A., Hope College; M.S.W., Grand Valley State University.

**Michele Shannon-Wildt**, Coordinator of Graduate Field Practica and Advising, Student Information and Services Center. B.S., Michigan State University; M.A., Western Michigan University; M.Ed., Grand Valley State University.

**Robin Smith Colton**, Director, B.S.W. Program. B.S., M.S.W., Grand Valley State University; Ph.D., Loyola University-Chicago.

**Amanda Stansbie**, Hospitality and Tourism Management Internship Coordinator. B.S., Southern New Hampshire University.

**Paul Stansbie**, Associate Dean. B.S., Southern New Hampshire University; M.B.A., University of Nottingham; Ph.D., The University of Plymouth.

**Annukka Thelen**, Director, Student Information and Services Center. B.B.A., M.Ed., Grand Valley State University.

**Lucas Treadwell**, Certification Officer, Student Information and Services Center. B.B.A., Davenport University; M.Ed., Grand Valley State University.

**Williamson Wallace**, Director of Criminal Justice Training. B.S., University of North Carolina-Charlotte; J.D., Thomas M. Cooley Law School.

**Quincy Williams**, Undergraduate and Internship Program Coordinator. B.A., Missouri Valley College; M.A., Lindenwood University.

## College of Health Professions

**Teresa Beck**, Acting Dean of the College of Health Professions. B.S., Indiana University; M.S., Florida State University; Ph.D., University of North Texas.

**Theresa Bacon-Baguley**, Associate Dean of the College of Health Professions. B.S.N., Michigan State University; Ph.D., Wayne State University.

**Ranelle Brew**, Chair, Public Health. B.S., Southern Connecticut State; M.A., M.S., Ed.D., Columbia University.

**Paul Christensen**, Chair, Physician Assistant Studies. B.A., M.D., University of Minnesota.

**Christine Dailey**, Health Compliance Coordinator. B.S., B.S.N., Ferris State University.

**Jennie Glynn**, Academic Advisor, Student Services. B.S., Grand Valley State University; M.A., Central Michigan University.

**Julie Hall**, Assistant Dean of the College of Health Professions. B.S., Ferris State University; M.S., Grand Valley State University.

**Dan Halling**, Chair, Communication Sciences and Disorders. B.S., Utah State University; M.A., University of Northern Colorado; Ph.D., Indiana University.

**Jonathan Hodge**, Chair, Allied Health Sciences. B.S., Calvin College; M.S., California State University-Dominguez Hills; Ph.D., Western Michigan University.

**Michelle Johnson**, Senior Academic Advisor. B.A., Siena Heights University; M.Ed., Grand Valley State University.

**Brianne Perez**, Senior Academic Advisor. B.A., M.Ed., Grand Valley State University.

**Michael Saldana**, Senior Academic Advisor, Student Services. B.A., M.Ed., Grand Valley State University.

**Todd C. Sander**, Chair, Physical Therapy. B.S., Central Michigan University; MPT, U.S. Army-Baylor University; Ph.D., University of Virginia.

**Scott Truskowski**, Chair, Occupational Science and Therapy. B.S., M.S., Grand Valley State University; Ph.D., Nova Southeastern University.

**J. Randy Wyble**, Chair, Diagnostic and Treatment Sciences. B.S., M.S., Michigan State University; D.H.Ed., A.T. Still University.

**Darlene Zwart**, Director of College of Health Professions Student Services. B.A., Calvin College; M.Ed., Grand Valley State University.

## **College of Liberal Arts and Sciences**

**Jennifer A. Drake**, Dean. B.A., Brown University; M.A., State University of New York at Binghamton; Ph.D., State University of New York at Binghamton.

**Donovan Anderson**, Associate Dean for Personnel, Faculty and Staff Development, and Community Engagement. B.A., University of Kansas; M.A., Ph.D., University of Michigan.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Zachary Hancock**, Laboratory IT Specialist. B.B.A., Grand Valley State University.

**Monica Johnstone**, Director of College of Communications and Advancement. B.A., M.A., Ph.D., University of California at Berkeley.

**George McBane**, Associate Dean for Facilities, Scheduling, Research and Analytics. B.S., North Carolina State University; Ph.D., Cornell University.

**Michelle McCloud**, Assistant Dean for Finance and Project Management. B.B.A., M.B.A., Davenport University.

**Aaron Perry**, Director of Laboratory Services. B.S., Central Michigan University.

**Elizabeth Schaner**, Assistant Dean for Advising and Student Services. B.A., Aquinas College; M.Ed., Grand Valley State University.

**Tamara Shreiner**, Associate Dean for Curriculum and Instruction. B.S., Eastern Michigan University; M.A., Ph.D., University of Michigan.

## **Annis Water Resources Institute, Robert B.**

**Alan Steinman**, Director. B.S., University of Vermont; M.S., University of Rhode Island; Ph.D., Oregon State University.

**Christina Catanese**, Education Specialist. B.S., M.S., University of Pennsylvania.

**Anthony Fiore Jr.**, Fleet Captain.

**Michael Hassett**, Scientific Technician II. B.S., Michigan State University; M.S., Loyola University of Chicago.

**Richard Rediske**, Distinguished Research Fellow. Ph.D., University of Michigan.

**Brian Scull**, Research Lab Supervisor. A.S., Santa Fe Community College; B.S., Grand Valley State University.

## **Anthropology Department**

**Heather Van Wormer**, Chair. B.A., University of Nevada; Ph.D., Michigan State University.

**Wesley Jackson**, Collections and Information Management Specialist. B.S., Grand Valley State University; M.A., Southern Illinois University, Carbondale.

## **Autism Education Center**

**Jana Benjamin**, Grant Project Manager. B.A., J.D., University of Michigan.

**Lisonn Delcamp**, Autism Training Intervention Specialist. B.A., Madonna University; M.A., Eastern Michigan University.

**Kellie Fitzgerald**, Project Coordinator of Logistics and Communications. B.A., North Central College.

## **Biology Department**

**Janet Vigna**, Chair. B.S., University of Michigan; Ph.D., University of Iowa.

**Christina Hipshier**, Greenhouse Supervisor. B.S., Michigan State University.

**Diane Laughlin**, Lead Laboratory Supervisor. B.S., Michigan Technological University.

**Star Santiago**, Laboratory Supervisor. B.S., University of Michigan.

## **Biomedical Sciences Department**

**Dan Bergman**, Chair. B.S., Ph.D., Bowling Green State University.

**Kimberly Hendricks**, Laboratory Supervisor, Gross Anatomy. B.S., Michigan State University; M.S., College of Charleston.

**Jeffrey Kozal**, Laboratory Supervisor, Anatomy and Physiology. B.S., Michigan State University.

**Joshua Stickney**, Lead Laboratory Supervisor, Microbiology. B.A., B.S., M.S., Grand Valley State University.

## **Cell and Molecular Biology Department**

**Mark Staves**, Chair. B.S., M.S., Ph.D., University of Texas at Austin.

**Jodi DenUyl**, Laboratory Supervisor. B.S., M.S., Grand Valley State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Chemistry Department

**Deborah Herrington**, Chair. B.S., Wilfrid Laurier University; M.S., University of Waterloo; Ph.D., Purdue University.

**Stephanie Bilinovich**, Laboratory Instrumentation Specialist. B.S., Walsh University; Ph.D., University of Akron.

**Michelle DeWitt**, Lead Laboratory Supervisor. B.S., Aquinas College.

**Mary Jo Smith**, Laboratory Instructional Coordinator. B.S., Ferris State University.

**Nicholas Olle**, Laboratory Instructional Coordinator. B.S., Grand Valley State University.

## CLAS Academic Advising Center

**Michelle Redmond**, Director. B.A., Oklahoma State University; M.S., Kansas State University.

**Julie Amon-Mattox**, Assistant Director. B.S., M.Ed., Grand Valley State University.

**Kiara Conway**, Academic Advisor. B.A., M.Ed., Grand Valley State University.

**Emily Davis**, Academic Advisor. B.A., Central Michigan University; M.Ed., Grand Valley State University.

**Brian Eikenhout**, Senior Academic Advisor. B.S., M.Ed., Grand Valley State University.

**Daniel Lauer**, Academic Advisor. B.A., Central Michigan University; M.A., Grand Rapids Theological Seminary.

**Doris Penn**, Academic Advisor. B.B.A., M.Ed., Grand Valley State University.

**Jason Prowant**, Academic Advisor. B.S., M.Ed., Grand Valley State University.

**Jackie Rautio**, Senior Academic Advisor. B.S., Central Michigan University; M.A., Western Michigan University.

**Alexis Schewe**, Senior Academic Advisor. B.S., Central Michigan University; M.S., St. Cloud State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Nicholas Woodward**, Academic Advisor. B.A., Central Michigan University; M.Ed., Grand Valley State University.

## **Classics Department**

**Melissa Morison**, Chair. B.A., University of Virginia; M.A., Indiana University; Ph.D., Boston University.

## **Communications, School of**

**Richard Besel**, Director. B.A., North Central College; M.A., University of Illinois, Chicago; Ph.D., University of Illinois, Urbana-Champaign.

## **English Department**

**Ashley Shannon**, Chair. B.A., M.A., University of Notre Dame; Ph.D., University of Texas.

## **Geology Department**

**Figen Mekik**, Chair. B.S., M.S., Middle East Technical University; Ph.D., Northern Illinois University.

**Gregory C. Wilson**, Laboratory Supervisor. B.S., Grand Valley State University; M.S., Southern Illinois University.

## **History Department**

**Michael Huner**, Chair. B.A., Valparaiso University; M.A., Ph.D., University of North Carolina at Chapel Hill.

## **Modern Languages and Literatures Department**

**Veronica Clapp**, Assistant Coordinator of Languages Resource Center. B.A., Universidad De Deusto; B.A., Grand Valley State University.

**David Shultz**, Coordinator of Language Resource Center. B.A., Principia College; M.A., Berklee School of Music, Webster University.

## **Movement Science Department**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Christina Beaudoin**, Chair. B.A., Brandeis University; M.S., Kansas State University; Ph.D., University of North Carolina Greensboro.

**Karol Tiemersma**, Fitness Skill and Activity Course Coordinator. B.S., Aquinas College; M.A., Western Michigan University.

## **Music, Theatre, and Dance, Department of**

**Danny Phipps**, Chair. B.M., The Curtis Institute of Music; M.M., D.M.A., The Catholic University of America.

**Nathaniel Bliton**, Equipment and Space Coordinator. B.M., M.M., Michigan State University.

**Cassandra DeHaan**, Box Office and Performance Curriculum Coordinator. B.A., M.A., Central Michigan University.

**Christopher Mahlmann**, Equipment and Space Supervisor. B.A., Hope College.

**Catherine O'Callaghan**, Costume Shop Coordinator.

**Russell Staples**, Scene Shop Specialist. B.F.A., Central Michigan University.

**Bridgett Vanderhoof**, Publicity and Recruitment Coordinator. B.A., Grand Valley State University; M.A., Ph.D. (ABD), University of Wisconsin-Madison.

## **Philosophy Department**

**John Uglietta**, Chair. A.B., University of Chicago; J.D., University of Michigan Law School; Ph.D., The Johns Hopkins University.

## **Political Science Department**

**Darren Walhof**, Chair. B.A., Calvin College; Ph.D., University of Minnesota.

## **Physics Department**

**Richard Vallery**, Chair. B.A., Gustavus Adolphus College; M.S., Ph.D., University of Michigan.

**Timothy A. Evans**, Laboratory Supervisor. B.S., M.S., Michigan State University.

## **Psychology Department**

**Michael Wolf**, Chair. B.A., University of California; M.A., Ph.D., University of Colorado.

## **Regional Math and Science Center**

**Kristofer Pachla**, Director. B.S., B.A., M.A., Grand Valley State University. Ph.D., George Mason University.

**Kathy Agee**, Science Program Coordinator. B.S., M.A., Western Michigan University.

**Natalie Lowell**, MiStem Project Director. B.G.S., M.P.A., University of Michigan.

**Diane Miller**, Business Community and Education Liaison. B.S., M.P.A., Grand Valley State University.

**Chelsea Ridge**, Program Coordinator. B.A., Hope College; M.A., Grand Valley State University.

**Ginger Rohwer**, STEM Education Coordinator. B.A., Cornerstone University; M.A., Western Michigan University.

**Larry Wyn**, MiSTEM Project Manager. B.S., M.Ed., Grand Valley State University.

## **Sociology Department**

**George Lundskow**, Chair. B.A., Boston University; M.A., University of New Orleans; Ph.D., University of Kansas.

## **Statistics Department**

**Paul Stephenson**, Chair. B.S., Bob Jones University; M.S., Ph.D., Clemson University.

## **Visual and Media Arts, Department of**

**Merritt DeLano-Taylor**, interim Chair. B.S., B.A., University of Rochester; Ph.D., University of Michigan

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Giles Hefferan**, 3-D Technical Supervisor. B.F.A., Grand Valley State University; M.F.A., Temple University.

**Yin-Fen Pao**, Visual Resource Curator. B.A., Tamkang University; M.A., The Ohio State University; M.L.I.S., Wayne State University.

**James Schaub**, Communication System Technician. B.A., Michigan State University; B.S., M.S., Grand Valley State University.

## **Writing Department**

**Christopher Toth**, Chair. B.A., Hiram College; M.A., Ph.D., Iowa State University.

## **Frederik Meijer Honors College**

**Roger Gilles**, Director, Frederik Meijer Honors College. B.A., Carnegie-Mellon University; M.F.A., Ph.D., University of Arizona.

**Coeli Fitzpatrick**, Chair, Frederik Meijer Honors College. B.A., Regis University; M.A., Ph.D., Binghamton University.

**Megan Marshall**, Academic and Enrichment Advisor. B.A., University of Rhode Island; M.A., Loyola University Chicago.

## **Kirkhof College of Nursing**

**Lola Coke**, Interim Dean. B.S., Nazareth College; Ph.D., Rush University.

**Emily Bembem**, Psychiatric Mental Health Nurse Practitioner. B.A., Occidental College; M.S.N., University of Texas at Austin.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Theresa Rowland**, Title IX Coordinator/Equity Officer/Director. B.A., Trevecca Nazarene University; M.Ed., Grand Valley State University.

**Michael Szydlowski**, Deputy Title IX Coordinator. B.A., M.A., Central Michigan University.

## **Information Technology**

**Milos Topic**, Vice President of Information Technology and Chief Digital Officer. B.S., M.B.A., Montclair State University; M.S., Ph.D., Stevens Institute of Technology.

**Benjamin Rapin**, Chief Technology Officer. B.S., Grand Valley State University; M.S., Ferris State University.

**William Fisher**, Associate Director, Technical Services. B.S., Grand Valley State University.

**Joy Seeley**, Senior Network Systems Engineer. B.S., Grand Valley State University.

## **Data and Analytics**

**Maria Thelen**, Director, Data and Analytics. B.S., Ferris State University.

## **eLearning Technologies**

**Kimberly Kenward**, Director of e-Learning Technologies. B.A., Aquinas College; M.I.L.S., University of Michigan.

**Hunter Bridwell**, Digital Media Developer. B.F.A., Kendall College of Art and Design; M.S., Grand Valley State University.

**Colleen Cameron**, Systems Analyst. B.F.A., M.B.A., Grand Valley State University.

**Noah Campbell**, Digital Media Developer. B.S., Grand Valley State University.

**Katherine Clark**, Systems Analyst. B.S., Baker College.

**Glenna Decker**, Instructional Design Specialist. B.S., Eastern Michigan University; M.Ed., Grand Valley State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Justin Melick**, Instructional Design Specialist. B.S., M.Ed., Grand Valley State University.

**David Nivala**, Instructional Technology Project Specialist. B.A., Nazareth College; M.A., California State University.

**Matthew Roberts**, Instructional Design Specialist. B.A., Calvin College; Ph.D., University of Minnesota.

**Vincent St. Germain**, eLearning and Instructional Technology Specialist. B.S., M.Ed., Grand Valley State University.

**Barbara Stevens**, Instructional Technology Project Specialist. B.A., Spring Arbor University; M.B.A., Baker College.

**Stephanie Webber**, Instructional Technology Project Specialist. B.B.A., Grand Valley State University.

## **Enterprise Applications**

**Nick Nelson**, Systems Analyst. B.S., Grand Valley State University.

**Irene Bhaskaran**, Database Administrator. B.E., Government College of Engineering.

**John Cook**, Systems Analyst. B.S., Central Michigan University.

**Michael Grannan**, Systems Analyst. B.S., Lawrence Technological University; M.A., Wayne State University; M.B.A., Grand Valley State University.

**Shannon Hatch**, Systems Analyst. B.S., Davenport University.

**Susan Johnson**, Systems Analyst. B.S., Bemidji State University.

**Todd Michalski**, Systems Analyst. B.S., Aquinas College; M.S., Ferris State University.

**Eleanor Ohm**, Systems Analyst. B.S., Ferris State University.

**Pamela Potter**, Administrative Systems Specialist. B.S., Grand Valley State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Kenneth Radlick**, Administrative Systems Architect. B.S., University of Michigan. M.S., Grand Valley State University.

**Brandon Ridge**, Systems Analyst. B.S., Grand Valley State University.

**Jesse Roe**, Systems Analyst. B.S., Grand Valley State University.

**Brian Snyder**, Systems Analyst. B.S., Western Michigan University.

## **Enterprise Architecture**

**Jason Kunnen**, Director of Enterprise Architecture. B.B.A., B.S., Grand Valley State University.

**Daniel Barricklow**, Senior Network Systems Engineer. B.S., Grand Valley State University.

**Thomas Beukema**, Infrastructure Project Engineer.

**Yvonne Bird**, Network Systems Engineer. A.S., Davenport College.

**Cody Eding**, Network Systems Engineer. B.S., Grand Valley State University.

**Patrick Kemp**, Network Systems Engineer. B.S., Central Michigan University.

**David Krueger**, Senior Network Systems Engineer. B.S., Western Michigan University.

**James McPherson**, Network Systems Supervisor-Infrastructure and Telecommunications. B.S., Lake Superior State University.

**Kyle Nielsen**, Senior Network Systems Engineer. B.S., Baker College.

**William "Jud" Scott**, Network Systems Engineer. B.S., Baker College.

**Bogdan Teodorescu**, Senior Systems Database Administrator. B.S., Davenport University.

**Robert VanDusen**, Network Systems Engineer. B.S., Baker College.

**David Van Sweden**, Senior Network Systems Engineer. B.A., Oakland University; M.P.A., Western Michigan University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Information Security

**Luke DeMott**, Chief Information Security Officer. B.S., Ferris State University.

**Gregory Vedders**, Information Security Analyst. B.S., Aquinas College.

**Christopher Voorheis**, Information Security Analyst. M.S., Central Michigan University

## IT Innovation and Research

**Eric Kunnen**, Senior Director, IT Innovation and Research. B.S., M.Ed., Grand Valley State University.

## IT Operations

**Melissa Cunningham**, Senior Director, IT Operations. B.S., Methodist College; M.Ed., Grand Valley State University.

**Heather Hardy**, Technology Supply Specialist. B.A., Western Michigan University; M.P.A., Grand Valley State University.

## IT Services

**Kenneth Cott**, Director of IT Services. B.A., Grand Valley State University.

**Scott Benjamin**, Academic Systems Specialist. B.B.A., Cleary University.

**Karen Burchard**, Academic Systems Specialist. B.S., Grand Valley State University.

**Jayne Disette**, Academic Systems Supervisor. B.S., M.B.A., Grand Valley State University.

**Robin Getz**, Laboratory Supervisor. B.S., University of Montevallo.

**Paul Harmelink**, Helpdesk Specialist. B.A., Kalamazoo College.

**Robert Holcomb**, Desktop Support Supervisor. B.A., Central Michigan University.

**Samantha McLaughlin**, Computer Operations Supervisor. B.S. Kent State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Eric Persing**, Helpdesk Specialist. B.F.A., Kendall College of Art and Design.

**Kelsey Welling**, IT Services Technician. B.S., Grand Valley State University.

## **Project Management**

**Katherine Fay**, Director, Project Management Office. B.S., Illinois State University.

**John Klein**, Associate Director and Program Manager. B.S., M.S., Grand Valley State University.

## **Enrollment Development**

**Brencleveton "Donta" Truss**, Vice President for Enrollment Development. Ed.D., M.S., B.S., Alabama State University.

**V'Lecea Hunter**, Enrollment Development Counselor. B.A., M.Ed., Grand Valley State University.

**Rachel Dziabuda**, Victim Advocate, B.A., Grand Valley State University.

## **Admissions**

**Jodi Chycinski**, Associate Vice President and Director of Admissions. B.B.A., Davenport College; M.B.A., Western Michigan University.

**Lauren DeHaan**, Data Communications Specialist. B.S., Grand Valley State University.

**Mike Eichberger**, Assistant Director of Admissions. B.S., Grand Valley State University; M.P.A., Grand Valley State University.

**Maegan Frierson**, Admissions Counselor. B.A., Western Michigan University; M.Ed., Grand Valley State University.

**Michael Guerra**, Admissions Counselor. B.A., University of Texas at San Antonio.

**Alyssa Gunn**, Program Advisor. B.A., Western Michigan University; M.Ed., Grand Valley State University.

**E. Chris Hendree**, Associate Director of Admissions. B.A., Taylor University; M.A., Webster University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Wallace Holder**, Assistant Director of Admissions. B.A., M.S., Grand Valley State University.

**Tracey James-Heer**, Associate Director of Admissions. B.A., Grand Valley State University; M.A., Michigan State University.

**Astin Martin**, Assistant Director of Admissions. B.S., Grand Valley State University.

**Rachel Martin**, Admissions Counselor. B.S., Grand Valley State University; M.A., Eastern Michigan University.

**Elizabeth Martinez**, Admissions Counselor. B.A., Grand Valley State University.

**Melanie Retberg**, Associate Director of Admissions. B.S., M.Ed., Grand Valley State University.

**Jackson Strick**, Admissions Counselor. B.S., Grand Valley State University.

**Sarah Tibbe**, Admissions Counselor. B.S., M.Ed., Grand Valley State University.

**Bonnie Ulmer-DeGraves**, Associate Director of Admissions. B.S., M.B.A., Grand Valley State University.

**Rachel Van Den Broek**, Recruiter, Graduate Programs. B.A., Northwestern College; M.L.I.S., University of Iowa.

**Joshua Ware**, Admissions Counselor. A.A., Grand Rapids Community College; B.S., Grand Valley State University.

## **Financial Aid Office**

**Michelle Rhodes**, Associate Vice President for Financial Aid. B.B.A., Western Michigan University; M.B.A., Grand Valley State University.

**Kelly Berg**, Financial Aid Counselor. B.S., M.Ed., Grand Valley State University.

**Nicholas Bromley**, Associate Director of Financial Aid. B.A., University of Texas at Austin; M.Ed., Grand Valley State University.

**Javier Carrillo**, Financial Aid/Admissions Counselor. B.S., Grand Valley State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Danielle Carter**, Assistant Director of Financial Aid. B.S., Marquette University.

**Yug Gill**, Assistant Director of Financial Aid. B.S. Calvin College; M.Ed. Grand Valley State University.

**Francesca Golden**, Associate Director of Financial Aid. B.A., Grand Valley State University.

**Melissa Horning**, Assistant Director of Financial Aid. B.A.S., Davenport University.

**Anna Johnson**, Assistant Director of Financial Aid. B.A., Columbia College; M.A., Gordon-Conwell Theological Seminary.

**Stephanie Menendez**, Financial Aid Counselor. B.S., Grand Valley State University.

**Joseph Montney**, Financial Aid Counselor. B.A., Grand Valley State University.

**Samantha Mulder**, Assistant Director of Financial Aid. B.S., Grand Valley State University.

**Jenna Poll**, Associate Director of Financial Aid. B.A., Hope College.

**Benjamin Rhodes**, Assistant Director of Financial Aid. B.A., Cornerstone University.

**Alfany Rosales-Muro**, Financial Aid Counselor. B.S., Grand Valley State University.

**Ashlee Thayer**, Financial Aid Counselor. B.A., Aquinas College.

**Marylise White**, Assistant Director of Financial Aid. B.A., Michigan State University.

## **Gayle R. Davis Center for Women and Gender Equity**

**Sharalle Moore**, Associate Director of Center for Women and Gender Equity. B.A., California State University; M.A., Washington State University.

**Rachel Dziabuda**, Victim Advocate. B.A., Grand Valley State University. M.S.W., Michigan State University.

**Beasecker, Robert** (1970), Senior Librarian. A.B., Hillsdale College; A.M.L.S., University of Michigan.

**Beasley, Jeanine A.** (2004), Professor of Occupational Therapy. B.A., Western Michigan University; M. Ed., Grand Valley State University; Ed.D., Eastern Michigan University.

**Beaudoin, Christina M.** (2008), Professor of Movement Science. B.A., Brandeis University; M.S., Kansas State University; Ph.D., University of North Carolina at Greensboro.

**Beck, Teresa** (1995), Professor of Therapeutic Recreation. B.S., Indiana University; M.S., Florida State University; Ph.D., University of North Texas.

**Bélanger, Annie** (2017), Dean of University Libraries. B.A., York University; M.L.I.S., University of Western Ontario.

**Bell, James** (2007), Associate Professor of Theatre. B.A., Brigham Young University; Ph.D., Florida State University.

**Bender, John** (1998), Professor of Chemistry. B.S., Baldwin-Wallace College; Ph.D., Brown University.

**Bender, Stephanie** (2012), Senior Affiliate Professor of Biomedical Sciences. B.S., Northern Arizona University; M.S., Wright State University.

**Benefiel, Andrea** (2017), Assistant Librarian, Archivist for Collection Management and Digital Collections Librarian. B.A., Ball State University; M.S.L.I.S., Simmons College.

**Benet, Suzeanne B.** (1992), Associate Professor of Marketing. B.S., Jacksonville State University; Ph.D., University of North Carolina.

**Benson, Krista** (2017), Assistant Professor of Integrative, Religious, and Intercultural Studies. B.A., Gonzaga University; M.A., University of Manchester; Ph.D., The Ohio State University.

**Bergman, Daniel A.** (2007), Associate Professor of Biomedical Sciences. B.S., Ph.D., Bowling Green State University.

**Berlin, Scott** (2006), Professor of Social Work. B.S., Michigan State University; M.S.W., Wayne State University; Ph.D., Michigan State University.

**Besel, Richard** (2019), Professor and Director of the School of Communications. B.A. North Central College; M.A., University of Illinois; Ph.D. University of Illinois.

**Bhagwat, Yatin, N.** (1992), Professor of Finance. B.Sc., M.M.S., University of Bombay; M.Sc., University of Baroda; M.B.A., University of Akron; Ph.D., University of Tennessee at Knoxville.

**Bhuse, Vijay** (2016), Associate Professor of Computing. B.T., Dr. Babasaheb Ambedkar Technological University, Lonere, India; Ph.D., Western Michigan University.

**Biby, Roberta L.** (2019), Affiliate Faculty of Instruction in Economics. B.A., Michigan State University; M.B.A., Western Michigan University.

**Biddanda, Bopi** (2002), Professor of Water Resources. B.Sc., St. Joseph's College; M.S., Karnatak University; Ph.D., University of Georgia.

**Billings, Esther M.** (1998), Professor of Mathematics. B.S., Wheaton College; M.S., Ph.D., Northern Illinois University.

**Biros, Shannon M.** (2008), Professor of Chemistry. B.A., B.S., Grand Valley State University; Ph.D., The Scripps Research Institute.

**Bishop, Joshua** (2019), Assistant Professor of Social Work. B.S.W., Michigan State University; M.S.W., Michigan State University; Ph.D., Michigan State University.

**Blackman, Sheila A.** (1998), Professor of Biology and Cell and Molecular Biology. B.Sc., University of Calgary; Ph.D., Queen's University.

**Bliss, Rosalynn** (2019), Frederik Meijer Endowed Honors Chair in Entrepreneurship and Innovation. B.A., University of South Alabama; M.S.W., Michigan State University.

**Blockett, Reginald** (2018), Assistant Professor of Education. B.A., Saginaw Valley State University; M.Ed., Iowa State University; Ph.D., Indiana University Bloomington.

**Bloem, Patricia** (2000), Professor of English. B.A., Calvin College; M.Ed., Harvard University; Ph.D., Kent State University.

**Blumreich, Kathleen** (1988), Professor of English. B.A., M.A., Ph.D., Michigan State University.

**Bobeldyk, Denton** (2020), Assistant Professor of Computing. B.S., Calvin College; M.S., Grand Valley State University; Ph.D., Michigan State University.

**Boelkins, Matthew R.** (1998), Professor of Mathematics. B.S., Geneva College; M.S., Western Washington University; Ph.D., Syracuse University.

**Boit, Sorio** (2020), Assistant Professor of Computing. B.S., Moii University; M.S., College of St. Scholastica; Ph.D., Dakota State University.

**Bolea, Patricia Stow** (1997), Professor of Social Work. B.S., Ball State University; M.S.W., Indiana University; Ph.D., Michigan State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Bolen, Brett** (2009), Associate Professor of Physics. B.S., University of Evansville; M.S., Ph.D., University of Mississippi.

**Booth, Andrew** (2007), Assistant Professor of Physician Assistant Studies. D.H.Ed., M.S., Central Michigan University.

**Born, Timothy** (2013), Associate Professor of Occupational Safety and Health. B.S., Calvin College; Ph.D., Mayo Graduate School.

**Borst, Joan** (2003), Professor of Social Work. B.A., Calvin College; M.S.W., Grand Valley State University. Ph.D., Michigan State University.

**Borti, Adeline** (2019), Assistant Professor of English. B.Ed., University of Cape Coast, Ghana; M.A., University of Ghana; Ghana; Ph.D., University of Wyoming.

**Bourbina, Jennifer** (2019), Affiliate Professor of Biomedical Sciences. B.S., Muskingum College; M.S., Grand Valley State University.

**Bowdle, Brian** (2005), Associate Professor of Psychology. B.S., University of Michigan; M.S., Ph.D., Northwestern University.

**Bowman, Nathan** (2019), Assistant Professor of Computing. B.S., Grand Valley State University; Ph.D., University of Illinois at Urbana-Champaign.

**Boyden, Adam** (2019), Affiliate Faculty of Chemistry. B.S., Grand Valley State University; M.S., Wayne State University.

**Bradley, Sarah** (2016), Affiliate Faculty of Therapeutic Recreation. B.S., Michigan State University; M.Ed., University of Georgia.

**Brakora, Karl** (2014), Assistant Professor of Engineering. B.S., M.S., Ph.D., University of Michigan.

**Brechbiel, Mattie** (2020), Clinical Faculty of Medical Laboratory Science. B.S., M.S., Grand Valley State University.

**Brege, Brad** (2006), Affiliate Faculty of Computing. B.S., Northern Michigan University; M.S., Pacific Lutheran University.

**Brew, Ranelle** (2009), Associate Professor of Public Health. B.S., Southern Connecticut State University; M.A., M.S., Ed.D., Columbia University.

**Brice, Colleen** (2003), Associate Professor of English. B.S., Bowling Green University; M.A., Ph.D., Purdue University.

**Brink, Kyle** (2019), Associate Professor of Management. B.S., Grand Valley State University; M.S., Ph.D., University of Georgia.

**Britsch, Richard** (2010), Senior Professor of Music. B.A., University of South Florida at Tampa.

**Brown, Daniel** (2017), Assistant Professor of English. B.B.A., Loyola College; M.A., University of Hawai'i at Manoa; Ph.D., Northern Arizona University.

**Brown Bayus, Debra** (2004), Affiliate Faculty of Nursing. B.S.N., Ursuline College; M.S.N., Grand Valley State University.

**Brown, Carl** (2014), Assistant Professor of Communications. B.A., M.A., East Tennessee State University; Ph.D., University of Southern Mississippi.

**Buckridge, Steeve** (1998), Professor of History. B.A., Barry College; M.A., University of Miami; Ph.D., Ohio State University.

**Buckwalter, Neal D.** (2012), Associate Professor of Public Administration. B.A., M.P.A., Brigham Young University; Ph.D., Indiana University.

**Buday, Amanda** (2019), Assistant Professor of Environmental and Sustainability Studies and Sociology. B.A., Indiana University; M.A., Ph.D., Southern Illinois University.

**Buist, Carrie** (2016), Assistant Professor of Criminal Justice. B.S., M.A., Eastern Michigan University; Ph.D., Western Michigan University.

**Bullock, Kurt** (2003), Professor of English. B.A., B.S., Taylor University; M.A., Ph.D., Ball State University.

**Bultsma, Shawn** (2006), Associate Professor of Education. B.A., Calvin College; M.Ed., William Patterson University; Ph.D., Western Michigan University.

**Burd, Geoff** (2006), Affiliate Professor of Visual and Media Arts. B.A., University of Washington; M.F.A., Central Michigan University.

**Burg, Debra L.** (1999), Associate Professor of Biomedical Sciences. B.A., Hope College; Ph.D., University of Iowa.

**Burg, Martin G.** (2001), Professor of Biomedical Sciences. B.A., Hope College; Ph.D., University of Iowa.

**Burns, Lawrence R.** (1996), Professor of Psychology. B.S., California Maritime Academy; M.A., Ph.D., State University of New York at Stony Brook.

**Burritt, Karen** (2011), Associate Professor of Nursing. B.S.N., M.S.N., Ph.D., Michigan State University.

**Byrnes, Jeffrey** (2018), Assistant Professor of Philosophy. BA., Ozark Christian College; M.A., University of Arkansas; Ph.D., University of Essex, United Kingdom

**Cadena, Cara** (2014), Associate Librarian. B.A., Montana State University; M.L.S., University of Arizona.

**Cai, Meghan** (2016), Assistant Professor of Chinese, East Asian Studies, and Chinese Studies. B.S., University of Minnesota; M.A., University of Wisconsin-Madison; Ph.D., Arizona State University-Tempe.

**Caillaud, Anne** (1990), Associate Professor of French. M.A., Ph.D., Michigan State University.

**Calkins, Michelle** (2019), Affiliate Professor of Writing. B.A., Grand Valley State University; M.F.A., Virginia Tech.

**Callahan, Caitlin** (2015), Assistant Professor of Geology. B.A., Mount Holyoke College; M.S., University of New Mexico; Ph.D., Western Michigan University.

**Calvillo, Mandy** (2015) Affiliate Instructor of Mathematics. B.S., Grand Valley State University; M.A., University of Arizona.

**Campbell, Amy** (2008), Associate Professor of Psychology. B.S., Grand Valley State University; M.S., Ph.D., University of Oregon.

**Campbell, Arthur** (1997), Professor of Music. B.M., Mount Allison University; M.M., D.M., Northwestern University.

**Campbell, Rachel** (2009), Associate Professor of Sociology. B.A., M.A., Ph.D., University of Alberta.

**Cao, Xiang** (2017), Assistant Professor of Computing. B.E., M.S., Nanjing Normal University, Nanjing, China; M.S., Ph.D., University of Minnesota.

**Capodilupo, John G.** (1996), Professor of Biomedical Sciences. B.S., Mercy College of Detroit; M.S., Ph.D., Wayne State University.

**Carlson, Nancy G.** (2006), Affiliate Faculty of Nursing. A.D.N., Kalamazoo Valley Community College; B.S.N., University of Michigan; M.S.N., University of California.

**Carlson, Paul** (2012), Assistant Professor of Music. B.M., University of Illinois; M.M., University of New Mexico; D.M., Indiana University Jacobs School of Music.

**Carlson, Todd A.** (1986), Professor of Chemistry. B.S., Valparaiso University; Ph.D., Michigan State University.

**Carrier, Erin** (2019), Assistant Professor of Computing. B.S., Grand Valley State University; Ph.D., University of Illinois at Urbana-Champaign.

**Castelão-Lawless, Teresa** (1993), Professor of Philosophy. B.A., M.A., Classic University of Lisboa; M.S., Ph.D., Virginia Polytechnic Institute and State University.

**Castellanos, Rebeca** (2012), Associate Professor of Spanish. B.A., M.A., Florida International University; Ph.D., University of Texas at Austin.

**Cata, Isabelle M.** (1993), Professor of French. B.A., Université de Paris III; M.A., Ph.D., University of Southern California.

**Cataldo, Jeremiah** (2011), Associate Professor of History, Frederik Meijer Honors College. B.A., M.A., Bethel College; Ph.D., Drew University.

**Centers, David** (2008), Senior Affiliate Faculty of Instruction. B.B.A., M.B.A., Western Michigan University.

**Chang, George Y.** (2007), Professor of Finance. B.S., Chung-Yuan University, Taiwan; M.A., M.B.A., The Ohio State University; Ph.D., University of Iowa.

**Chapin, Krisanne B.**, (2015) Assistant Professor of Movement Science. A.B., Mount Holyoke College; M.S., Purdue University; Ph.D., University of Oregon

**Chapin, Krisanne** (2020), Assistant Professor of Movement Science. B.A., Mount Holyoke College; M.S., Purdue University; Ph.D., University of Oregon.

**Chapman, Alice** (2006), Associate Professor of History. B.A., Utah State University; M.A.R., Yale; Ph.D., Cambridge.

**Chen, Hsiao-Ping** (2006), Associate Professor of Visual and Media Arts-Art Education. B.A., Zhong Guo Gon Shan College, Taipei, Taiwan; B.A., M.A., and Ph.D., The Ohio State University.

**Chen, Jing** (1999), Associate Professor of Psychology. B.A., Beijing Normal University; M.A., Ph.D., Washington University.

**Chesser, Brianna** (2016), Assistant Professor of Physical Therapy. B.S., Loyola University of Chicago; M.P.T., Northwestern University.

**Cho, Sookyung** (2015), Associate Professor of Music. B.M., The Juilliard School; M.M., The Johns Hopkins University; D.M.A., The Juilliard School.

**Choi, Beomyku** (2017), Assistant Professor of Education. B.A., Chuncheon National University of Education; M.A., Korea National University of Education; Ph.D., The University of Connecticut.

**Choudhuri, Shabbir** (2004), Professor of Engineering. B.S., Bangladesh University of Engineering and Technology; M.S., Ph.D., Pennsylvania State University.

Christensen, Paul (2018), Associate Professor of Physician Assistant Studies. B.A., M.D., University of Minnesota.

**Christians, Matthew J.** (2013), Associate Professor of Cell and Molecular Biology. B.S., Calvin College; Ph.D., University of California-Riverside.

**Chycinski, Breanna** (2014), Assistant Professor in Occupational Science and Therapy. B.S., M.S., Grand Valley State University.

**Cid, Ernesto** (2008), Affiliate Faculty in Spanish. B.A., M.A., University of South Florida.

**Cimitile, Maria C.** (1999), Provost and Executive Vice President for Academic and Student Affairs. B.A., College of the Holy Cross; M.A., Villanova University; Ph.D., University of Memphis.

**Clark, David** (2014), Associate Professor of Mathematics. B.S., Michigan Technological University; M.A., University of Waterloo; Ph.D., Michigan Technological University.

**Clark, Sarah** (2014), Affiliate Faculty of Chemistry. B.S., Michigan Technological University; M.S., University of Wisconsin-Madison.

**Cleary, Ian** (2016), Associate Professor of Biomedical Sciences. B.S., University of Alberta; Ph.D., University of Alberta.

**Cleghorn, Susan** (2008), Associate Professor of Occupational Therapy. B.S., Illinois State University; M.S., Grand Valley State University; Dr. OT, Creighton University.

**Cleveland, Rosemary** (2002), Affiliate Professor of Education. B.A., Nazareth College; M.A., Ed.D., Western Michigan University.

**Cline, Gregory** (2008), Assistant Professor of Public and Health Administration. B.S., University of Toledo; Ph.D., Michigan State University.

**Coffey, David** (2000), Professor of Mathematics. B.S., Pepperdine University; M.S., University of Michigan; Ph.D., Western Michigan University.

**Cole, Kevin C.** (1989), Associate Professor of Geology. B.S., M.S., University of Washington; Ph.D., University of Arizona.

**Coles, Jonathon** (2018), Assistant Professor of Movement Science. B.A., Valparaiso University; M.A., Central Michigan University; Ph.D., Northcentral University.

**Colgan, Patrick** (2003), Professor of Geology. B.S. University of Missouri-Kansas City; M.S., University of Kansas; Ph.D., University of Wisconsin-Madison.

**Colley, Brett** (2004), Associate Professor of Visual and Media Arts-Studio Art. B.F.A., Grand Valley State University; M.A., M.F.A., University of Iowa.

**Constantelos, John** (1996), Professor of Political Science. B.A., Tufts University; M.A., The Johns Hopkins University; M.S., Tufts University; Ph.D., Duke University.

**Cook, Paul** (2013), Associate Professor of Chemistry. B.S., Grand Valley State University; Ph.D., University of Wisconsin-Madison.

**Cooley, Richard** (2001), Associate Professor of History. B.A., State University at Cortland, NY; M.A., Wichita State University; Ed.D., Kansas State University.

**Coolidge, Grace** (2001), Professor of History. B.A., Saint Olaf College; M.A., Ph.D., Indiana University.

**Cooper, Kristin M.** (2004), Affiliate Faculty of Nursing. B.S.N., M.S.N., Grand Valley State University.

**Copeland, Adrian** (2019), Assistant Professor of Criminal Justice. B.A., Eastern Michigan University; J.D., Michigan State University College of Law.

**Corker, Katherine S.** (2016), Associate Professor of Psychology. BA., University of Northern Iowa; M.A., Ph.D., Michigan State University.

**Corneal, Lindsay** (2011), Associate Professor of Engineering. B.A.Sc., University of Windsor; M.B.A., Lawrence Technological University; Ph.D., Michigan State University

**Cornelius, Tara** (2004), Professor of Psychology. B.S., Santa Clara University; M.A., Ph.D., Western Michigan University.

**Cornish, Paul J.** (2003), Associate Professor of Political Science. B.A., Geneseo State College; M.A., Ph.D., State University of New York at Buffalo.

**Crampton, Suzanne** (1994), Professor of Management. B.B.A., M.B.A., Grand Valley State University; Ph.D., Michigan State University.

**Crane, David C.** (2014), Assistant Professor of Classics. A.B., University of Chicago; M.A., Ph.D., University of California, Berkeley.

**Crawford, Brett** (2020), Assistant Professor of Management. B.B.A., Rochester College; M.B.A., University of Massachusetts-Amherst; Ph.D., Copenhagen Business School.

**Crouthamel, Jason**, (2003), Professor of History. B.A., University of California Santa Cruz; M.A., Ph.D., Indiana University.

**Crow, Taylor** (2019) Affiliate Instructor of Mathematics. B.A., M.A., Western Michigan University.

**Crowell, Gregory** (2008), Senior Affiliate Professor of Music. D.M.A., M.M., University of Cincinnati College-Conservatory of Music; B.M., New England Conservatory of Music.

**Cruz, Christopher John F.** (2019), Assistant Professor of Economics. B.S., M.S., University of the Philippines Diliman; M.A., Ph.D., University of Illinois at Chicago.

**Curtiss, Phyllis J.** (1998), Professor of Statistics. B.S., M.S., Western Michigan University; Ph.D., Bowling Green State University.

**Cwick, Jaclyn** (2016), Assistant Professor of Criminal Justice. B.A., Eastern Illinois University; M.A., Northern Illinois University.

**Dalela, Vivek** (2009), Associate Professor of Marketing. B.S., St. Stephen's College; M.S., University of Lucknow, India; Ph.D., University of Alabama.

**Daley, Matthew** (2004), Professor of History. B.A., University of Detroit Mercy; M.A., Wayne State University; Ph.D., Bowling Green State University.

**Dalmia, Sonia** (1999), Professor of Economics. B.A., M.A., B.Ed., University of Delhi; M.A., University of Oklahoma; Ph.D., University of Iowa.

**D'Amour, Catherine** (2013), Affiliate Faculty of Nursing. B.S.N., University of Michigan; M.S.N., Michigan State University.

**Damstra, Kelli M.** (2009), Associate Professor of Nursing. B.S.N., University of Michigan; M.S.N., University of Texas.

**Daniels, Jeffrey** (2010), Associate Dean and Associate Librarian. B.S., Grand Valley State University; M.L.I.S., Wayne State University.

**Danielson, Sigrid** (2004), Associate Professor of Visual and Media Arts-Art History. B.A., Macalaster College; M.A., Ph.D., Indiana University.

**Danko, Dori** (2001), Instructor of Accounting. B.S., Michigan State University; M.B.A., Grand Valley State University.

**Davis, Alisha** (2010), Associate Professor of Allied Health Sciences. B.S., M.A., Ph.D., Western Michigan University.

**Davis, Rebecca** (2001), Interim Associate Dean for Research and Scholarship and Professor of Nursing. B.S.N., Georgia State University; M.S.N., Grand Valley State University; Ph.D., University of Michigan.

**De, Kuhelika** (2017), Assistant Professor of Economics. B.A., University of Delhi; M.A., University of Manchester; Ph.D., University of Georgia.

**Dean, Kristy** (2009), Associate Professor of Psychology. B.A., Michigan State University; M.S., Ph.D., Northwestern University.

**Deaner, Robert** (2006), Professor of Psychology. B.A., Colgate University; Ph.D., Duke University.

**DeBruine, Marinus** (1991), Associate Professor of Accounting. B.B.A., Grand Valley State University; Ph.D., The Ohio State University.

**DeFrance, Nancy** (2009), Associate Professor of Education. B.S., Ohio University; M.A., Cleveland State University; Ph.D., University of Michigan.

**DeKorver, Brittlund K.** (2017), Assistant Professor of Chemistry. B.A., Grand Valley State University; Ph.D., Purdue University.

**DeLano-Taylor, Merritt K.** (2007), Professor of Biomedical Sciences. B.S., B.A., University of Rochester; Ph.D., University of Michigan.

**DeMuth, Danielle** (2006), Associate Professor of Women, Gender, and Sexuality Studies. B.A., Heidelberg College; M.A., Ph.D., University of Toledo.

**DeVasto, Danielle** (2019), Assistant Professor of Writing. B.S., M.A., Ph.D., University of Wisconsin-Milwaukee.

**DeVries, Byron** (2017), Assistant Professor of Computing. B.C.S., Calvin College; M.S., Grand Valley State University; Ph.D., Michigan State University.

**DeVries, Dawn** (2013), Associate Professor of Therapeutic Recreation and Program Chair. B.S.R., Calvin College; M.P.A., Grand Valley State University; D.H.A., Central Michigan University.

**DeWilde, Michael** (2000), Professor of Management. B.A., William James College; M.T.S., Harvard University.

**DeWildt, Christine** (2018), Assistant Professor of Education. B.S., Eastern Michigan University; M.Ed., Grand Valley State University; Ed.D., Western Michigan University.

**Deyo, Brian** (2013), Associate Professor of English. B.A., Miami University; M.A., University of Chicago; Ph.D., Vanderbilt University.

**Diarrassouba, Nagnon** (2008), Assistant Professor of Education, B.A., M.A., University of Abidjan; Ed.D., Northern Arizona University.

**Dickinson, William** (2000), Professor of Mathematics. B.A., Cornell University; M.S.E., Ph.D., University of Pennsylvania.

**Dierking, Amber** (2019), Assistant Librarian. B.A., University of Denver; M.L.I.S., University of British Columbia.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Dillard, Amanda** (2009), Associate Professor of Psychology. B.A., The Ohio State University; M.S., Ph.D., North Dakota State University.

**Dimkoff, Gregg K.** (1975), Professor of Finance. B.S., Michigan State University; M.B.A., Saint Louis University; Ph.D., Michigan State University.

**Dimkoff, Victoria** (2017), Affiliate Faculty of Nursing. B.S.N., Ferris State University; M.S.N., University of Michigan.

**Diven, Polly** (1994), Professor of Political Science. B.A., Hamilton College; M.A.L.D., Fletcher School of Law and Diplomacy, Tufts University; Ph.D., University of North Carolina at Chapel Hill.

**Dobson, Christopher** (2003), Professor of Biology. B.S., Oregon State University; M.S., Portland State University; D.A., Idaho State University.

**Doru, Filiz** (2003), Professor of Mathematics. B.S., Ankara University; M.S., Brown University; M.S., Virginia Tech University; M.A., University of Toledo; Ph.D., Pennsylvania State University.

**Dondzila, Christopher J.** (2015), Associate Professor of Movement Science. B.S., Grand Valley State University; M.S., Ph.D., University of Wisconsin.

**Dowling, Michelle** (2020), Assistant Professor of Computing. B.S., Grand Valley State University; M.S., Ph.D., Virginia Polytech Institute and State University.

**Downer, Robert** (2005), Professor of Statistics. B.Sc., Memorial University; MMath, University of Waterloo; Ph.D., Dalhousie University.

**Doyon-Martin, Jacquelynn** (2012), Associate Professor of Criminal Justice. B.A., Carthage College; M.A., Ph.D., Western Michigan University.

**Drake, Brian** (2009), Associate Professor of Mathematics. B.A., University of Michigan; Ph.D., Brandeis University.

**Drake, Jennifer** (2020), Dean of the College of Liberal Arts and Sciences and Professor of English. B.A., Brown University; M.A., Ph.D., State University of New York at Binghamton.

**Driscoll, Rachel** (2015), Affiliate Faculty of Chemistry. B.S., Michigan State University; M.S., Central Michigan University.

**Du, Jie** (2013), Associate Professor of Computing. B.S., Southwest Jiaotong University; M.S., Beijing Jiaotong University; M.S., Ph.D., University of Maryland Baltimore County.

**Dueker, Gwenden** (2002), Professor of Psychology. B.A., Quincy University; M.S., Ph.D., Duke University.

**Dueweke, Thomas** (2012), Affiliate Faculty of Chemistry. B.A., Kalamazoo College; Ph.D., University of Illinois.

**Duitman, Henry** (2008), Associate Professor of Music. B.M.E., Florida State University; M.A., University of South Florida; Ph.D., The Ohio State University.

**Dulimarta, Hans** (2002), Associate Professor of Computing. B.S., Institute of Technology Bandung, Indonesia; M.S., Ph.D., Michigan State University.

**Dunn, Cheryl** (2005), Professor of Accounting. B.A., M.B.A., Ph.D., Michigan State University.

**Dunne, Bruce** (2003), Professor of Engineering. B.S.E.E., M.S.E.E., University of Illinois; Ph.D., Illinois Institute of Technology.

**Dykes, Bradford** (2017), Assistant Professor of Statistics. M.A., Ph.D., Western Michigan University.

**Eaton, David** (2009), Associate Professor of History. B.A., Trent University; M.A., Queen's University; Ph.D., Dalhousie University.

**Eddens, Aaron** (2019), Assistant Professor of Area and Global Studies. B.A., Western Colorado University; Ph.D., University of Minnesota.

**Edwards, Susan** (2000), Associate Professor of Finance. B.S., Purdue University; M.B.A., Ph.D., Kent State University.

**Eggers, Jill** (2000), Associate Professor of Visual and Media Arts-Painting. B.F.A., Western Michigan University; M.F.A., Yale University.

**Eick, David** (2020), Professor of Modern Languages. B.A., Central College; M.A., Ph.D., University of Iowa.

**Ellenberger, Kurt** (2005), Professor of Music, Frederik Meijer Honors College. B.A., University of Windsor; M.M., University of Northern Colorado; D.M.A., University of Texas at Austin.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Ellis, Jill** (2012), Associate Professor of Physician Assistant Studies. B.S., M.P.A.S., Grand Valley State University; D.H.Sc., A.T. Still University.

**Ellis, Lindsay M.** (2007), Associate Professor of English. B.A., Wheaton College; M.A., University of Chicago; Ph.D., University of Michigan.

**Elrod, Genevieve** (2016), Assistant Professor of Nursing. B.S.N., Grand Valley State University; Ph.D., University of Kansas.

**El-Said, Mostafa M.** (2004), Professor of Computing. B.E.E., M.E.E., Zagazig University; M.S., Ph.D., University of Louisville.

**Engelsma, Jonathan R.** (2009), Professor of Computing. B.S., Grand Valley State University; M.S., Ph.D., Michigan State University.

**Espitia-Fonseca, H. Fabio** (2004), Affiliate Faculty in Spanish. B.A., Universidad Pedagógica Nacional, Bogota, Colombia; M.A., Carthage College.

**Essila, Jean C.** (2020), Assistant Professor of Management. Ph.D., George Washington University; Ph.D., California Intercontinental University.

**Evans, Timothy** (2008), Associate Professor of Biology. B.S., M.S., University of Wyoming, Laramie; Ph.D., University of Wisconsin-Madison.

**Fairman, Kate** (2020), Affiliate Faculty of Integrative, Religious, and Intercultural Studies. B.S., University of Vermont; M.S., University of Michigan.

**Fan, Lei** (2020), Assistant Professor of Management. Ph.D., M.B.A., University of Houston.

**Faraz, M. Iftikhar** (2020), Assistant Professor of Engineering. B.S.c., University of Engineering and Technology Taxila, Pakistan; M.S.c., University of Engineering and Technology Lahore, Pakistan; Ph.D., Delft University of Technology.

**Farris, John** (1998), Professor of Engineering. B.S., M.S., Lehigh University; Ph.D., University of Rhode Island.

**Fateye, Babasola** (2017), Assistant Professor of Biomedical Sciences. B.S., University of Ibadan; M.S., University of Ibadan; Ph.D., Philadelphia College of Pharmacy.

**Fausone, Elizabeth A.** (2013), Affiliate Instructor of Speech-Language Pathology. B.S., Western Michigan University; M.S., University of Michigan.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Feedback, Matthew R.** (2016), Assistant Professor of Movement Science. B.S., Kent State University; M.S., The University of Akron; Ph.D., Kent State University.

**Fenik, Anton** (2015), Assistant Professor of Marketing. B.S., M.B.A., University of South Carolina; Ph.D., University of Tennessee.

**Ferdininandt, Amy** (2016), Associate Professor of Writing. B.A., St. Norbert College; M.A., Marquette University; Ph.D., Purdue University.

**Ferguson, Roger C.** (1998), Professor of Computing. B.S., Michigan Technological University; M.S., Central Michigan University; Ph.D., Wayne State University.

**Fernández-Tardani, Sandra L.** (2008), Affiliate Faculty in Spanish. B.A., Universidad Pedagógica Nacional, Bogotá, Colombia; M.A., Michigan State University.

**Feurzeig, Lisa** (1998), Professor of Music. B.A., Harvard College; M.M., University of Maryland; Ph.D., University of Chicago.

**Fidalgo-Eick, Maria** (2003), Associate Professor of Spanish. M.A., Ph.D., University of Iowa.

**Fifi, Mario** (2011), Associate Professor of Psychology. B.A., University of Belgrade; M.A., Ph.D., Indiana University.

**Fishback, Paul** (1993), Professor of Mathematics. A.B., Hamilton College; Ph.D., University of Wisconsin.

**Fisher, Joseph B.** (1996), Professor of Education. B.S., M.Ed., Grand Valley State University; Ph.D., University of Kansas.

**Fisher, Timothy** (2000), Associate Professor of Visual and Media Arts-Drawing. B.A., M.A., Central Washington University; M.F.A., University of Cincinnati.

**Fitzpatrick, Coeli** (2002), Professor of Philosophy and Middle East Studies, and Chair of Frederik Meijer Honors College. B.A., Regis University; M.A., Ph.D., Binghamton University.

**Flandreau, Elizabeth I.** (2015), Assistant Professor of Psychology. B.A., Lawrence University; Ph.D., Emory University.

**Fleischmann, Shirley T.** (1989), Professor of Engineering. B.S., M.S., Ph.D., University of Maryland.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Flint, Ann** (2020), Assistant Professor of Allied Health Sciences. B.S., University of Michigan; M.S., Ed.D., Ferris State University.

**Floyd-Slabough, Carla** (2015), Assistant Professor of Occupational Science and Therapy. B.S., Northeast Louisiana University; Dr.OT., Chatham University.

**Ford, James** (2018), Assistant Professor of Communications. B.S., Michigan State University; M.Ed., M.S., Grand Valley State University.

**Ford, Jennifer** (2018), Assistant Professor of Clinical Dietetics. B.S., Western Michigan University; M.A., Western Michigan University

**Fortes Gonzalez, Mayra** (2009), Associate Professor of Spanish. B.A., Universidad de las Américas-Puebla, México; M.A., Ph.D., Vanderbilt University.

**Forslund, Catherine** (2016), Affiliate Faculty of Nursing. B.S.N., St. Mary's College; M.S.N., Sacred Heart University.

**Fortuna, Jennifer** (2020), Assistant Professor of Occupational Therapy. B.S., Walden University; M.S. Grand Valley State University.

**Fowler, Josie S.** (2015), Affiliate Instructor of Speech-Language Pathology. B.A., University of Toledo; M.A., Ohio State University.

**Fox, Laura** (2000), Assistant Professor of Spanish. B.A., College of Wooster; M.A., Indiana University.

**Fox, Meghan E.** (2017), Assistant Professor of Movement Science. B.S., Lincoln Memorial University; B.S., Athens State University; M.S., Ohio University; Ph.D., Michigan State University.

**Franciosi, Robert** (1988), Professor of English and Faculty in Residence, Frederik Meijer Honors College. B.A., New York University; M.A., Ph.D., University of Iowa.

**Frederick, Chad** (2020), Assistant Professor of Geography and Sustainable Planning.

**Fredricks, Daisy** (2017), Assistant Professor of Education. B.A., Grand Valley State University; M.Ed., Ph.D., Arizona State University.

**Fredericks, Erik** (2020), Assistant Professor of Computing. B.S., Lake Superior State University; M.S., Oakland University; Ph.D., Michigan State University.

**Freudigmann, Megan** (2012), Affiliate Professor of Education. B.A., Hope College; M.S., Walden University.

**Friedlmeier, Mihaela** (2007), Associate Professor of Psychology. M.A., Cuza University; Ph.D., University of Konstanz.

**Friedlmeier, Wolfgang** (2004), Professor of Psychology. M.A., University of Bamberg; Ph.D., University of Konstanz.

**Summers, Jennifer** (2015). Assistant Professor of Occupational Science and Therapy. B.S., Grand Valley State University; M.S., OTD, University of Illinois-Chicago.

**Frigo, Emily** (2007), Senior Librarian. B.A., M.L.I.S., University of Wisconsin-Madison.

**Frobish, Daniel J.** (2006), Professor of Statistics. B.S., University of Illinois, Urbana; M.S., Illinois State University, Normal; Ph.D., Northern Illinois University.

**Frobish, Marcia** (2006) Senior Affiliate Instructor of Mathematics. B.A., Wright State University; M.S., Northern Illinois University.

**Froncek, Timothy** (2002), Affiliate Professor of Music.

**Fulton, Anna** (2020), Assistant Professor of Music, Theatre, and Dance.

**Furton, Douglas** (2002), Professor of Physics. B.E., M.S., Ph.D., University of Toledo.

**Gabrosek, John** (1999), Professor of Statistics. B.A., M.S., University of Akron; Ph.D., Iowa State University.

**Galen, Luke** (1999), Professor of Psychology. B.A., University of Nebraska; M.A., Ph.D., Wayne State University.

**Galvan, Angela Scarlet** (2019) Assistant Librarian. B.S., Southern Oregon University; M.L.I.S., Kent State University.

**Gansen, Elizabeth** (2016), Professor of Spanish. B.A., M.S., University of Illinois, Urbana; M.A., M. Phil., Ph.D., Yale University.

**Garcia, Sheila** (2019), Assistant Librarian. B.A. Grand Valley State University; M.L.I.S., Wayne State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Gasim, Gamal** (2009), Associate Professor of Middle East Studies and Political Science. B.Sc. (Honors), University of Khartoum, Sudan; M.A., International Institute of Islamic Thought and Civilization, Kuala Lumpur, Malaysia; M.A., Kansas State University; Ph.D., Texas Tech University.

**Gautreau, Abigail** (2017), Assistant Professor of History. B.A., Randolph-Macon Woman's College; M.St., University of Oxford; Ph.D., Middle Tennessee State University.

**Geenen, David L.** (2013) Associate Professor of Physician Assistant Studies. B.S., Calvin College; Ph.D., University of Michigan.

**Geisel, Rick** (2002), Professor of Education. B.S., Liberty University; M.A., Aquinas College; J.D., Ph.D., Regent University.

**Gerkin, Patrick** (2007), Professor of Criminal Justice. Ph.D., Western Michigan University.

**German, Mandy** (2012), Affiliate Faculty, Clinical Coordinator, B.S., Oakland University; M.S., Central Michigan University.

**Gerson, Hope** (2012), Associate Professor of Mathematics. B.A., Whittier College; M.S., University of Iowa; Ph.D., University of New Hampshire.

**Ghiasvand, Noor** (2006), Assistant Professor of Biology. B.S., Tabriz University; Ph.D., University of California-Davis.

**Giardina, Nancy M.** (1999), Professor of Movement Science. B.S., University of Rhode Island; M.A., Montclair State College; Ed.D., Columbia University.

**Gibbons, Teresa** (2002), Senior Affiliate Professor of Writing. B.A., M.A.E., Ball State University.

**Gibbs, Beth** (2009), Associate Professor of Music. B.S., The Pennsylvania State University; M.M., The Hartt School, University of Hartford; Ph.D., The Pennsylvania State University.

**Giedeman, Daniel C.** (2001), Professor of Economics. B.A., M.S., Southern Illinois University; M.A., Ph.D., Washington University in St. Louis.

**Gilles, Roger** (1992), Professor of Writing, and Director of Frederik Meijer Honors College. B.A., Carnegie-Mellon University; M.F.A., Ph.D., University of Arizona.

**Gipson, Karen** (1999), Associate Dean of Brooks College and Professor of Physics. B.S., North Texas State University; M.S., University of North Texas; Ph.D., Washington State University.

**Glass, Stephen** (2001), Professor of Movement Science. B.S., North Dakota State University; M.A., Ball State University; Ph.D., Southern Illinois University.

**Glupker, Christian G.** (2015), Affiliate Faculty of Practice in Economics. B.B.A., Grand Valley State University; M.B.A., Western Michigan University.

**Goehring, Meri T.** (2010), Associate Professor of Physical Therapy. B.S.P.T., M.H.S., Wichita State University; Ph.D., Nova Southeastern University.

**Goerisch, Denise** (2016), Assistant Professor of Integrative, Religious, and Intercultural Studies. B.A., University of California, Riverside; M.A., San Diego State University; Ph.D., San Diego State University and University of California, Santa Barbara.

**Golden, John** (1998), Professor of Mathematics. B.S., Michigan State University; M.S., University of Pennsylvania; Ph.D., Pennsylvania State University.

**Goldstein, Julie** (2016), Assistant Professor of Visual and Media Arts-Film and Video Production. B.A. University of Wisconsin; M.F.A., The School of the Art Institute Chicago; Wharton Small Business Development Center, Philadelphia, PA.

**Golembeski, Dan** (1999), Associate Professor of Modern Languages. B.S., B.A., Oakland University; M.A., Ph.D., Indiana University.

**Gomez, Natalia** (2000), Associate Professor of Spanish. B.A., Western Michigan University; M.A., Arizona State University; Ph.D., Indiana University.

**Gondhalekar, Vijay** (2003), Professor of Finance. B.S., University of Bombay, India; M.B.A., University of Akron; Ph.D., University of Pittsburgh.

**Gonzalez, Ana** (2016), Assistant Professor of Management. B.S., Universidad de los Andes; M.S., Universidad de los Andes and Tulane University; Ph.D., Tulane University.

**Good, Valerie** (2020), Assistant Professor Marketing. B.S., Millersville University; M.B.A., Alvernia University; Ph.D. Michigan State University.

**Gopal, Yasmin** (2016), Assistant Professor of Communications. B.A., M.A., Patna University, India; M.A., Bowling Green State University; Ph.D., University of Georgia.

**Goss, Margaret** (2020), Affiliate Faculty of Writing. B.A., College of Wooster; M.A., Ph.D., Carnegie Mello University.

**Gottlieb, Gabriele** (2005), Associate Professor of History. B.A. University of Augsburg; M.A., Ph.D., University of Pittsburgh.

**Gracias, Meridell** (2017), Affiliate Faculty of Nursing. B.S.N., University of Michigan; M.Ed., M.S.N., D.N.P., Grand Valley State University.

**Graham, Douglas** (2003), Professor of Biomedical Sciences. B.A., Denison University; M.A., University of Florida; Ph.D., Colorado State University.

**Grant Jr., George** (1996), Associate Professor of Social Work. B.S.W., Marygrove College; M.S.W., Grand Valley State University; Ph.D., Western Michigan University.

**Grapczynski, Cynthia A.** (1995), Professor of Occupational Therapy. B.S., Wayne State University; M.S., University of Wisconsin; Ed.D., Teachers College-Columbia University.

**Graser, Dan** (2014), Associate Professor of Music. B.M., SUNY Potsdam; M.M., D.M.A., The University of Michigan.

**Green, Mary** (1996), Assistant Professor of Physical Therapy. B.A., LeMoyne College; M.S., Beaver College; J.D., Michigan State University, College of Law.

**Green-Smith, Dianne** (2002), Professor of Social Work. B.A., Xavier University; M.S.W., Tulane University; Ph.D., Loyola University-Chicago.

**Greer, Gary** (2003), Professor of Biology and Faculty in Residence, Frederik Meijer Honors College. B.A., University of Northern Colorado; M.A., Humboldt State University; Ph.D., Ohio University.

**Griffin, Carol B.** (1996), Professor of Biology and Natural Resources Management. B.S., North Dakota State University; M.S., Indiana University; M.S., Ph.D., State University of New York.

**Grissom, Scott B.** (1999), Professor of Computing. B.E.D., Texas A&M University; M.S., Ph.D., The Ohio State University.

**Gross, Evan** (2004) Senior Affiliate Instructor of Mathematics. B.S., Alma College; M.S., Western Michigan University.

**Gross, Jennifer** (1998), Professor of Psychology. B.A., Oakland University; M.A., Ph.D., Wayne State University.

**Guevara, Julia A.** (1989), Professor of Social Work. B.S., Grand Valley State University; M.S.W., Western Michigan University; Ph.D., Michigan State University.

**Gu, Wei** (2006), Associate Professor of Education. B.A., Nanjing University; M.A., Ph.D., Pennsylvania State University.

**Gui, Gabriela** (2017), Assistant Professor of Education. B.A., University of Oradea; M.A., Ed.S., Ed.D., Wayne State University.

**Gulgin, Heather** (2008), Professor of Movement Science. B.S., M.A.E., University of Alabama at Birmingham; Ph.D., University of Toledo.

**Haïdar, Salim M.** (1992), Professor of Mathematics. B.S., St. Vincent College; M.S., Ph.D., Carnegie-Mellon University.

**Haley, Kathryn** (2016), Assistant Professor of Biomedical Sciences. B.S., Edinboro University; Ph.D., Vanderbilt University.

**Hall, Julie S.** (2007), Assistant Professor of Medical Laboratory Science. B.S., Ferris State University; M.S., Grand Valley State University.

**Halling, Dan C.** (2011), Professor of Audiology. B.A., Utah State University; M.A., University of Northern Colorado; Ph.D., Indiana University.

**Ham, Charles** (2015), Assistant Professor of Classics. B.A., Grand Valley State University; Ph.D., University of Pennsylvania.

**Hamilton, Erica** (2014), Assistant Professor of Education. B.A., M.A., Ph.D., Michigan State University.

**Hammer, Elisabeth** (2009) Senior Affiliate Instructor of Mathematics. B.A., Calvin College; M.Ed., Grand Valley State University.

**Hammersmith, Anna** (2018), Assistant Professor of Sociology. B.A., Denison University; M.A., Ph.D., Bowling Green State University.

**Hamsher, Sarah** (2018), Assistant Professor of Biology and Water Resources. B.S., Juniata College; M.S., Ohio University; Ph.D., University of New Brunswick.

**Harper, Christopher** (2014), Affiliate Faculty of Practice. B.B.A., Grand Valley State University; M.B.A., Michigan State University.

**Harrington, Susan** (2012), Associate Professor of Nursing. B.S.N., College of St. Teresa; M.S.N., Oakland University; Ph.D., Wayne State University.

**Harris, Monica** (2008), Associate Professor of Education. B.S., M.A., Eastern Michigan University; Ph.D., University of Kansas.

**Harro, Cathy** (2006), Assistant Professor of Physical Therapy. B.S., University of Illinois; M.S., University of North Carolina-Chapel Hill; D.P.T., Arcadia University.

**Hart, Dawn** (2008), Associate Professor of Cell and Molecular Biology. B.S., University of Michigan; Ph.D., Wayne State University.

**Hart, Matthew** (2005), Associate Professor of Chemistry. B.S., Michigan State University; Ph.D., University of California, Irvine.

**Hasenbank, Jon** (2012), Associate Professor of Mathematics. B.S., Michigan Technological University; M.S., Ph.D., Montana State University.

**Harvey, Barbara** (2013), Associate Librarian. B.S., M.A., University of Northern Iowa; M.A., University of Iowa.

**Harvey, Eric** (2015), Assistant Professor of Communications. B.A., M.A., Ph.D., Indiana University.

**Hatzel, Brian** (2002), Professor of Movement Science. B.S., University of Florida; M.S., Ball State University; Ph.D., University of Florida.

**Haven, Chris** (2002), Associate Professor of Writing. B.A., M.A., University of Kansas; M.F.A., Southwest Texas State University; Ph.D., University of Houston.

**Hawk, Laura M.** (2017), Assistant Professor of Chemistry. B.S., University of Wisconsin-Madison; Ph.D., University of Chicago.

**Hedges, Kristin** (2016), Assistant Professor of Anthropology. B.S., West Virginia University; M.A., Oregon State University; Ph.D., University of Arizona.

**Hefferan, Tara** (2015), Affiliate Professor of Anthropology. B.A., Grand Valley State University; M.A., University of Denver; M.A., Ph.D., Michigan State University.

**Heid, Kelly** (2012), Affiliate Professor of Geology. B.A., University of Missouri-Kansas City; M.Ed., Cambridge College; M.S., Mississippi State University.

**Helder, Doreen** (2002), Affiliate Professor of Education. B.A., M.A., Calvin College.

**Henderleiter-Aldrich, Julie** (2002), Associate Professor of Chemistry. B.S., University of Wisconsin-Madison; Ph.D., University of Northern Colorado.

**Henderson-King, Donna H.** (1997), Professor of Psychology. B.A., Simon Fraser University; M.A., Ph.D., University of Michigan.

**Henderson-King, Eaaron I.** (1997), Associate Professor of Psychology. B.A., University of California at Santa Barbara; M.A., Ph.D., University of Michigan.

**Henke, Dellas R.** (1985), Professor of Visual and Media Arts-Printmaking. B.S., State University of New York; M.A., M.F.A., University of Iowa.

**Henshaw, Michael T.** (2007), Associate Professor of Biology. B.S., Grand Valley State University; M.A., Ph.D., Rice University.

**Herlands, Jason** (2013), Associate Professor of Japanese. B.A., Middlebury College; Ph.D., University of Michigan.

**Herrington, Deborah** (2003), Professor of Chemistry. B.Sc., Wilfrid Laurier University; M.S., University of Waterloo; Ph.D., Purdue University.

**Higbea, Raymond** (2014), Associate Professor of Health Administration. B.S., Bob Jones University; M.H.A., University of Florida; Ph.D., Western Michigan University.

**Hillman, Paul** (2019), Affiliate Faculty of Practice in Management. B.A., Michigan State University; M.B.A., Western Michigan University.

**Hindeleh, Firas** (2009), Associate Professor of Mathematics. B.A., The University of Jordan; M.A., Ph.D., The University of Toledo.

**Hinsch, Andrew Christian** (2011), Associate Professor of Marketing. B.S., M.B.A., University of Missouri-St. Louis; Ph.D., University of Missouri-Columbia.

**Hittepole, Philip** (2017), Affiliate Faculty of Engineering. B.S., Illinois Institute of Technology; M.S., Michigan Technological University; M.S., University of South Florida.

**Hobscheid, Maya** (2018), Assistant Librarian. B.S., Grinnell College; M.S.L.I.S., University of Illinois at Urbana-Champaign.

**Hoffert, Darleen** (2016), Assistant Professor of Nursing. B.S.N., Ferris State University; D.N.P., Grand Valley State University.

**Hoffman, Mark C.** (1999), Associate Professor of Public and Nonprofit Administration. B.A., College of Wooster; M.A., Ph.D., Cleveland State University.

**Holder, Benjamin P.** (2013), Associate Professor of Physics. B.A., Wesleyan University; Ph.D., University of Texas at Austin.

**Hollister, Robert** (2006), Professor of Biology. B.S., M.S., Ph.D., Michigan State University.

**Holohan, Kevin** (2012), Assistant Professor of Education. B.A., DePaul University; Ph.D., Michigan State University.

**Hoogenboom, Barbara** (2000), Professor of Physical Therapy. B.S., Calvin College; M.H.S., Grand Valley State University; Ed.D., Eastern Michigan University.

**Hooper, Barbara L.** (2008), Associate Professor of Nursing. B.S.N., Nazareth College; M.S.N., D.N.P., Grand Valley State University.

**Hoogstra, Eric** (2012), Senior Affiliate Faculty of Practice in Finance. B.S., Aquinas College; M.B.A., Grand Valley State University; Ph.D., Capella University.

**Horrocks, Caitlin** (2008), Professor of Writing. B.A., Kenyon College; M.F.A., Arizona State University.

**Hoss, Brenda** (2013), Affiliate Faculty of Nursing. B.S.N., University of Evansville; M.S.N., University of Cincinnati.

**Hosterman, William** (2001), Associate Professor of Visual and Media Arts-Studio Art. B.F.A., The Pennsylvania State University; M.F.A., Indiana University.

**Hotaling, Kara A.** (2014), Affiliate Instructor of Audiology. B.S., State University of New York at Plattsburgh; M.A., University of North Carolina at Greensboro; Au.D., University of Florida.

**Houghton-Rahrig, Lori** (2012), Associate Professor of Nursing. B.S.N., M.S.N., Grand Valley State University; Ph.D., Michigan State University.

**Hu, Xiangling** (2008), Associate Professor of Management. B.S., Fudan University; M.A., Tongji University; M.S., Ph.D., Washington State University.

**Huang, Lihua** (2012), Associate Professor of Social Work. B.A., Nanjing University; M.A., Nanjing University; M.S.W., Grand Valley State University; Ph.D., Michigan State University.

**Huey, Amorak** (2011), Associate Professor of Writing. B.A., Birmingham-Southern College; M.F.A., Western Michigan University.

**Hughes Carter, Della** (2017), Assistant Professor of Nursing. B.S.N., D.N.P., University of Southern Indiana.

**Huizen, David L.** (2009), Assistant Professor of Occupational Safety and Health Management. B.A., Hope College; M.P.H.A., University of Michigan; Ph.D., Western Michigan University.

**Hulst, Craig** (2002), Senior Affiliate Professor of Writing. B.A., Grand Valley State University; M.A., Western Michigan University; Ph.D., Indiana University of Pennsylvania.

**Huner, Michael** (2012), Associate Professor of History. B.A., Valparaiso University; M.A., Ph.D., University of North Carolina at Chapel Hill.

**Hunt, Jodee** (1995), Professor of Biology. B.S., University of Arizona; M.S., San Diego State University; Ph.D., University of Kansas.

**Hussain, Azfar** (2010), Associate Professor of Integrative, Religious, and Intercultural Studies. B.A., M.A., Dhaka University; M.A., Ph.D., Washington State University.

**Iadonisi, Rick** (2002), Senior Affiliate Professor of Writing. B.A., Framingham State College; M.A., Boston College; Ph.D., Indiana University.

**Isely, Paul** (1997), Professor of Economics. B.S., University of Wisconsin-Madison; M.S., Ph.D., Purdue University.

**Jack, Kristen** (2003), Assistant Professor of Hospitality and Tourism Management. B.S., M.Ed., CHA, Grand Valley State University; Ph.D., Western Michigan University.

**Jacobsen, Kylie** (2019), Assistant Professor of Writing. B.A., Southwest Minnesota State University; M.A., Iowa State University; Ph.D., Texas Tech University.

**Jacquot, Joseph J.** (1999), Professor of Biology. B.S., M.S., Bowling Green State University; Ph.D., Miami University.

**Jafari, Farid** (2020), Assistant Professor of Engineering. B.s.c., M.S.C., Sharif University; Ph.D., Virginia Tech.

**Jager, Lorie** (2009), Senior Affiliate Professor of Communications. B.A., Central Michigan University; M.A., Western Michigan University.

**James, Jennifer** (2014), Affiliate Professor of Psychology. B.A., Hope College; M.Ed., Ph.D., Loyola University.

**Janes, Patricia** (2012), Professor of Hospitality and Tourism Management. B.A., M.S.A., Central Michigan University; Ph.D., Michigan State University.

**Jaskiewicz, Lara J.** (2012), Associate Professor of Health Administration. B.A., University of Illinois; M.B.A., M.P.H., University of Minnesota; Ph.D., University of Illinois-Chicago.

**Jeffryes, Jon** (2017), Assistant Librarian. B.A., Grinnell College; M.L.I.S., University of Wisconsin-Madison.

**Jelier, Richard W.** (1995), Professor of Public Administration. B.A., B.S., M.A., Ph.D., Michigan State University.

**Jenkins, Virginia** (2008), Professor of Visual and Media Arts-Studio Art. B.F.A., Michigan State University; M.F.A., University of Utah.

**Jiang, Randi** (2020), Assistant Professor of Accounting. B.S., Florida State University; M.A., Florida State University; D.B.A., Louisiana Tech University.

**Jiao, Lihong** (2004), Professor of Engineering. B.S., M.S., Nankai University; Ph.D., Pennsylvania State University.

**Johnson, Brian** (1994), Professor of Criminal Justice. B.A., University of Wisconsin; M.S., M.L.I.R., Ph.D., Michigan State University.

**Johnson, Ingrid L.** (2009), Professor of Movement Science. B.S., M.Ed., University of Minnesota; Ph.D., University of New Mexico.

**Johnson, Jerry L.** (1997), Associate Professor of Social Work. M.S.W., Grand Valley State University; Ph.D., Western Michigan University.

**Johnson, Paul** (1986), Professor of Engineering. B.A., Houghton College; M.S., Ph.D., University of Notre Dame.

**Johnson, Sherry R.** (2010), Associate Professor of English. B.Ed., B.A., York University; M.A., Ph.D., University of Wisconsin-Madison.

**Jones, John** (2002) Senior Affiliate Instructor of Mathematics. A.B., Albion College; M.A.T., Michigan State University.

**Jones, Tonisha** (2012), Associate Professor of Criminal Justice. B.A., M.A., Ph.D., Washington State University.

**Jones-Rikkers, Catherine** (1994), Associate Professor of Management. B.S., M.B.A., Grand Valley State University; J.D., University of Notre Dame Law School.

**Joo, Sunghwan** (2008), Associate Professor of Engineering. B.Eng., Dong-A University; M.S., Ph.D., University of Oklahoma.

**Jordan, Tessa M.** (2015), Assistant Professor of Psychology. B.A., M.S., Ph.D., University of New Mexico.

**José, Laurence** (2010), Associate Professor of Writing. M.A., University Marc Bloch; Ph.D., Michigan Technological University.

**Kalafut, Andrew** (2010), Associate Professor of Computing. B.S., Bradley University; M.S., Ph.D., Indiana University.

**Kanaboshi, Naoki** (2012), Associate Professor of Criminal Justice. B.A., Aoyama Gakuin University; M.A., Waseda University; M.L.I., LL.M., S.J.D., University of Wisconsin.

**Kandalajt, Nabeeh** (2016), Assistant Professor of Engineering, B.A., Iowa State University; M.S., Iowa State University; Ph.D., University of Windsor.

**Kaneko, Todd** (2009), Associate Professor of Writing. B.A., University of Washington; M.F.A., Arizona State University.

**Kang, Leanne** (2017), Assistant Professor of Education. B.A., M.Ed., M.A., Rutgers University; Ph.D., University of Michigan.

**Kantner, Christopher** (2011), Affiliate Professor of Music. M.M., State University of New York-Stony Brook; B.M., University of Michigan.

**Kapitula, Laura** (2011), Associate Professor of Statistics. B.A., State University of New York at Fredonia; M.S., M.A., Ph.D., University of New Mexico.

**Karabinus, Alisha** (2020), Assistant Professor of Writing. B.A., University of Arkansas; M.F.A., Ph.D., Purdue University.

**Karampagia, Sofia** (2017), Assistant Professor of Physics. MSc, Ph.D., National Technical University of Athens.

**Karabinus, Alisha** (2020), Assistant Professor of Writing. B.A., University of Arkansas at Little Rock; M.F.A., Ph.D., Purdue University.

**Karasinski, Courtney** (2011), Associate Professor of Speech-Language Pathology. B.S., Illinois State University; M.A., Western Michigan University; Ph.D., University of Wisconsin-Madison.

**Karpen, Mary E.** (1995), Professor of Chemistry. B.S., Clarkson University; B.A., State University of New York; M.S., Ph.D., Case Western Reserve University.

**Karsten, Amanda M.** (2021), Assistant Professor of Psychology. B.A., M.A., Ph.D., Western Michigan University.

**Kasmer, Lisa** (2010), Professor of Mathematics. B.A., Michigan State University; M.A., Ph.D., Western Michigan University.

**Kautz, Cheryl** (2014), Affiliate Professor of Computing. B.S., University of Wisconsin-Stout; M.B.A., Cornerstone University.

**Keegan, Cáel** (2014), Assistant Professor of Women, Gender, and Sexuality Studies and Integrative, Religious, and Intercultural Studies. B.A., St. Bonaventure University; M.A., Ph.D., University at Buffalo.

**Keider, R. Charles** (2012), Instructor and Clinical Coordinator of Radiation Therapy. B.S., M.S., Grand Valley State University; R.T. (Certificate), William Beaumont School of Radiation Therapy.

**Keenlance, Paul W.** (2007), Associate Professor of Biology and Natural Resources Management. B.S., M.S., University of Wisconsin-Stevens Point; Ph.D., Michigan State University.

**Keeney, Jeriel T. R.** (2017), Affiliate Professor of Chemistry. B.A., University of Michigan; Ph.D., University of Kentucky.

**Kegley, Anthony** (2009), Associate Professor of Biomedical Sciences. B.A., Arizona State University; M.S., Ph.D., University of the Witwatersrand.

**Kelder, Shaunna** (2013), Assistant Professor of Occupational Therapy. B.S., Eastern Michigan University; OTD, Chatham University.

**Kelley-Lafata, Kim** (2002), Affiliate Professor of Writing. B.A., Hope College; M.A., Western Michigan University.

**Kelly Lowenstein, Jeffrey** (2016), Assistant Professor of Communications. B.A., Stanford University; M.S., Northwestern University.

**Kenyon, Lisa K.** (2010), Associate Professor of Physical Therapy. B.S., University of Vermont; M.H.S., University of Indianapolis; Ph.D., DPT, Nova Southeastern University.

**Keough, Lauren** (2016), Assistant Professor of Mathematics. B.A., Hofstra University; M.S., Ph.D., University of Nebraska-Lincoln

**Kessler, Lara** (2007), Professor of Accounting. B.A., Northern Arizona University; M.S.A., Grand Valley State University; J.D., Vanderbilt University School of Law; C.P.A.

**Khoo, Sok Kean** (2016), Associate Professor of Cell and Molecular Biology. B.Sc., M.Sc., University of Science, Malaysia; Ph.D., Tokyo University of Marine Science and Technology.

**Kierkus, Christopher** (2004), Professor of Criminal Justice. M.A., University of Western Ontario; M.A., Ph.D., SUNY Albany.

**Kierzek, Jennifer** (2008), Senior Affiliate Professor of Writing. B.A., University of Washington; M.F.A., Arizona State University.

**Kilbourne, John** (2004), Professor of Movement Science. B.A., California State University-Long Beach; M.A., UCLA; Ph.D., The Ohio State University.

**Kilburn, Howard W.** (2007), Associate Professor of Political Science. B.A., Grinnell College; M.P.Aff., University of Texas at Austin; Ph.D., University of North Carolina at Chapel Hill.

**Kim, Min-Young** (2018), Assistant Professor of Education. B.A., M.A., Seoul National University; Ph.D., The Ohio State University.

**Kimboko, Priscilla** (2000), Professor of Public and Health Administration. B.A., M.A., Ph.D., Portland State University.

**Kindschi, Douglas P.** (1976), Professor of Mathematics and Philosophy. B.A., Houghton College; M.A., Ph.D., University of Wisconsin.

**King, Caryn M.** (1991), Professor of Education. B.A., Alfred University; M.A., Slippery Rock University; Ph.D., University of Pittsburgh.

**Kinne, Bonni L.** (2010), Associate Professor of Physical Therapy. B.S., M.A., Western Michigan University; M.S., P.T., Grand Valley State University; DHSc., A.T. Still University.

**Kipp, Brian** (2002), Professor of Biomedical Sciences. B.S., Saginaw Valley State University; Ph.D., Wayne State University.

**Klee, Sherie** (2001), Associate Professor of Education. B.S., Eastern Michigan University; M.A., Michigan State University; Ph.D., Western Michigan University.

**Kneeshaw, Tara** (2014), Assistant Professor of Geology. B.A., Albion College; Ph.D., Texas A&M University.

**Koch, Bradley** (2007), Professor of Management. Associate degree, Illinois Central College; B.S., M.B.A., Virginia Commonwealth University; M.A., Ph.D., University of Arizona.

**Kocharian, Ted** (2016), Affiliate Professor of Engineering. B.Sc., Tehran Polytechnic (Amir Kabir) University; M.S.E., University of Toronto.

**Kong, Haiying** (2010), Associate Professor of Communications. B.A., Liaoning Normal University; M.A., Missouri State University; Ph.D., University of Oklahoma.

**Kopacki, Nicholas B.** (2014), Affiliate Professor of Physician Assistant Studies, B.S., M.P.A.S., Grand Valley State University.

**Kosalge, Parag Uma** (2003), Professor of Management. B.E., College of Engineering, Aurangabad, India; Ph.D., Indian Institute of Management, Bangalore, India.

**Koste, Lori** (1999), Associate Professor of Management. B.A., University of Virginia; M.B.A., Clemson University; Ph.D., University of South Carolina.

**Kotman, Larry** (1985), Associate Professor of Computing. A.B., Calvin College; M.S., Ph.D., Purdue University.

**Kovacs, Dalila** (2003), Professor of Chemistry. B.S., Babes-Bolyai University; Ph.D., Michigan State University.

**Krauss, Ryan** (2016), Associate Professor of Engineering. B.S., Michigan Technological University; M.S., Virginia Polytechnic Institute & State University; Ph.D., Georgia Institute of Technology.

**Krcmar, Maja** (2006), Professor of Physics. B.S., University of Belgrade; M.S., Ph.D., Texas A&M University.

**Krug, Brian** (2017), Assistant Professor of Engineering. B.S., University of Michigan; M.S., University Illinois Chicago; Ph.D., Western Michigan University.

**Krull, Heather** (2019), Assistant Professor of Nursing. B.S.E., Hannibal LaGrange College; M.S.N., Ball State University; D.N.P., Ball State University.

**Kubik, Mark** (2017), Affiliate Faculty of Practice, Marketing. B.B.A., Grand Valley State University; M.B.A., University of Michigan.

**Kurby, Christopher** (2010), Associate Professor of Psychology. B.S., M.A., Ph.D., Northern Illinois University.

**Kurjiaka, David** (2009), Professor of Biomedical Sciences. B.S., Lebanon Valley College; M.S., University of Oklahoma; Ph.D., Pennsylvania State University.

**Kurmas, Zachary A.** (2004), Associate Professor of Computing. B.S./B.A., Grand Valley State University; M.S., Ph.D., Georgia Institute of Technology.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Kurthen, Hermann** (2004), Professor of Sociology. B.A., M.A., Ph.D., Freie Universitat Berlin.

**LaFreniere, Diane** (2014), James R. Sebastian Chair Assessment, Accreditation, and Cooperative Education, School of Engineering. B.S.E.E., Michigan Technological University.

**LaGuardia-LoBianco, Alycia** (2019), Assistant Professor of Philosophy. B.A., Stony Brook University; M.A., Ph.D., University of Connecticut.

**Laidlaw-McCreery, Susan** (2009), Senior Affiliate Professor of Writing. B.A., Hope College; M.Ed., Aquinas College; M.A., Colorado State University.

**Lahey, Brian** (2005), Professor of Psychology. B.A., Arizona State University; Ph.D., Indiana University.

**Lancaster, Sean J. C.** (2000), Professor of Education. B.S., M.S., Kansas University; Ph.D., University of Kansas.

**Lane, Paul M.** (1998), Professor of Marketing. B.A., Earlham College; M.B.A., Stetson University; Ph.D., Michigan State University.

**Lange, David K.** (2001), Instructor of Computing. B.S., University of Iowa; M.B.A., University of Phoenix.

**Langlois, Jamie J.** (2019), Assistant Professor of Social Work. B.S.W., University of Tennessee; M.S.W., University of Michigan; D.S.W., Saint Catherine University and the University of Saint Thomas.

**Lanier, Jolanta** (2014), Affiliate Professor of Biomedical Sciences. B.S., M.S., Grand Valley State University.

**Larson, Matthew** (2011), Affiliate Faculty of Instruction of Management. B.B.A., M.A., M.B.A., Western Michigan University.

**Lantz, Andrew W.** (2007), Associate Professor of Chemistry. B.A., St. Olaf College; Ph.D., Iowa State University.

**Lawrence, Christopher** (2004), Professor of Chemistry. B.S., University of California-Los Angeles; Ph.D., University of Wisconsin-Madison.

**Lawson, Diana R.** (2014), Professor of Marketing. B.S., State University of New York at Cortland; M.A., M.B.A., Ph.D., Kent State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Lee, Hoon** (2004), Associate Professor of Visual and Media Arts-Ceramics. B.A., M.A., Seoul National University of Technology; M.F.A., New York State College of Ceramics at Alfred University.

**Lee, Jina** (2017), Assistant Professor of Criminal Justice. B.A., M.A., Kyonggi University-Suwon; Ph.D., Michigan State University.

**Lee, Marcia** (2019) Assistant Librarian. B.A.A., Central Michigan University; M.L.I.S., University of Alabama Online.

**Lee, Yunju** (2018), Assistant Professor School of Engineering and Physical Therapy. B.S., Busan National University; M.S., Korea Advanced Institute of Science and Technology; Ph.D., University of Michigan.

**Lee, Sungchul** (2020), Assistant Professor of Computing. B.S., Konkuk University; M.S., Ph.D., University of Nevada, Las Vegas.

**Lehnert, Kevin** (2010), Associate Professor of Marketing. B.A., Saint Louis University; M.A., Boston College; M.B.A., Loyola University; Ph.D., Saint Louis University.

**Leidig, Jonathan P.** (2012), Associate Professor of Computing. B.S., Grand Valley State University; M.S., Ph.D., Virginia Polytechnic Institute and State University.

**Leidig, Paul M.** (1991), Professor of Computing. B.S., Eastern Mennonite College; M.B.A., James Madison University; Ph.D., Virginia Commonwealth University.

**Lenkey, Laura E.** (2017), Assistant Professor of Speech-Language Pathology. B.S., M.A., Northern Illinois University; Ph.D., Florida State University.

**Lenters, Geoffrey** (2003), Professor of Physics. B.S., Calvin College; M.S., Ph.D., University of Alabama in Huntsville.

**Leon, Paola (Mirta)** (2012), Associate Professor of Social Work. B.S., University of Puerto Rico; M.S.W., Ph.D., University of Illinois Urbana-Champaign.

**Leonard, David A.** (1998), Professor of Chemistry. B.S., Bucknell University; Ph.D., Cornell University.

**Leonard, Susan** (2013), Senior Affiliate Professor of Biomedical Sciences. B.S., Cornell University; M.S., State University of New York College at Cortland.

**Lerma, Nicholas** (2018), Assistant Professor of Movement Science. B.A., Albion College; M.A., Central Michigan University; Ph.D., University of Wisconsin-Milwaukee.

**Lewis, Colleen A.** (2007), Professor of Movement Science. B.S., Denison University; M.S., Wright State University; Ph.D., Indiana University.

**Li, Huafang** (2017). Assistant Professor of Nonprofit Administration. B.A., Zhejiang University; M.P.A., American University; Ph.D., Rutgers University.

**Liang, Yan.** (2009), Associate Professor of Chinese, East Asian Studies, and Chinese Studies. B.A., Nankai University, Tianjin, China; M.A., Peking University, Beijing, China; Ph.D., University of California, Santa Barbara.

**Libman, Karen** (1999), Professor of Theatre. B.F.A., Virginia Commonwealth University; M.F.A., Arizona State University.

**Licari, Gisella** (2007), Affiliate Professor of Italian. M.A., University of Palermo, Italy.

**Lima, Vinicius** (2014), Associate Professor of Visual and Media Arts-Graphic Design. B.Arch., Federal University of Rio de Janeiro; M.A., M.F.A., The University of Iowa.

**Linford, Bret G.** (2015), Assistant Professor of Spanish. B.S., Brigham Young University; M.A. University of Montana; M.A., Ph.D., Indiana University.

**Lingwood, Chad** (2000), Associate Professor of History. B.A., University of Colorado at Boulder; M.A., Washington University in St. Louis; Ph.D., University of Toronto.

**Linn, David** (2004), Associate Professor of Biomedical Sciences. Ph.D., University of Texas.

**Lioubimtseva, Elena** (2000), Professor of Geography and Sustainable Planning. B.S., M.S., Ph.D., Moscow State University.

**Lipford, John** (2011), Affiliate Professor of Hospitality and Tourism Management. B.A., Miami University (OH); J.D., Michigan State University College of Law.

**Little, Joseph** (2010), Associate Professor of Marketing. B.G.S., M.B.A., Indiana University Southeast; Ph.D., Saint Louis University.

**Liu, Haixia** (2020), Affiliate Faculty of Integrative, Religious, and Intercultural Studies. B.A., Central South University; M.A., Sun Yat-Sen University; M.A., Guangdong Foreign Studies University; Ph.D., Michigan State University.

**Liu, Ruijie** (2016), Assistant Professor of Biomedical Sciences. B.S., Qufu Normal University; M.S., Wuhan University; Ph.D., University of Illinois at Urbana Champaign.

**Locher, Alexandra** (2011), Associate Professor of Biology and Natural Resources Management. B.S., M.S., Ph.D., Michigan State University.

**Loeffler, Ronald** (2004), Associate Professor of Philosophy. M.A., University of London; M.A., Free University Berlin; Ph.D., Northwestern University.

**Lombardo, Michael** (1991), Professor of Biology. B.S., The Ohio State University; M.S., Ph.D., Rutgers University.

**Lopez-Arias, Salvador** (2006), Associate Professor of Social Work. B.S.W., M.S.W., Grand Valley State University; Ph.D., Western Michigan University.

**Lord, Richard** (2012), Associate Professor of Chemistry. B.S., University of Southern Indiana; Ph.D., Indiana University.

**Lorenz, Shannon.** (2013), Affiliate Instructor of Speech-Language Pathology. B.S., M.A., Western Michigan University.

**Losey, Kay** (2004), Professor of Writing. B.A., Michigan State University; M.A., Ph.D., University of California, Berkeley.

**Lou, Leon L.** (2001), Associate Professor of Psychology. B.S., Fudan University; M.A., Institute of Psychology, Chinese Academy of Science; Ph.D., University of California, San Diego.

**Lowell, Rodd** (2014), Affiliate Professor of Computing. B.S., Michigan State University; M.S., Grand Valley State University.

**Lowen, Aaron** (2003), Professor of Economics. B.A., University of Northern Iowa; M.A., Ph.D., University of Iowa.

**Lubic, Barbara** (1999), Associate Professor of Education. B.A., M.A., Michigan State University; Ed.D., University of Cincinnati.

**Lubic, Tamara** (2002), Senior Affiliate Professor of Writing. B.A., Western Michigan University; M.A., University of Minnesota.

**Ludwig, Denise A.** (2013), Professor of Speech-Language Pathology. B.S., Western Michigan University; M.S. University of Michigan; M.Ed., Grand Valley State University; Ph.D., Western Michigan University.

**Lundskow, George** (1999), Professor of Sociology. B.A., Boston University; M.A., University of New Orleans; Ph.D., University of Kansas.

**Luttenton, Mark** (1989), Professor of Biology and Water Resources. B.S., Central Michigan University; M.S., University of Wisconsin-La Crosse; Ph.D., Bowling Green State University.

**Luttenton-Knoll, Meagan** (2006), Affiliate Faculty of Practice in Management. B.A., Grand Valley State University; M.B.A., Spring Arbor University.

**Ma, Kin** (2003), Associate Professor of Geography and Sustainable Planning. B.A., Williams College; M.S., Ph.D., Michigan State University.

**Macauley, Beth L.** (2010), Associate Professor of Speech-Language Pathology. B.A., M.A., Ph.D., University of Florida.

**Machnik, Kelly** (2014), Assistant Professor of Occupational Science and Therapy. B.S., M.S., Grand Valley State University.

**Mack, Nancy** (2001), Professor of Mathematics. B.S., M.A., University of Texas; Ph.D., University of Wisconsin-Madison.

**MacQuillan, Elizabeth** (2016), Assistant Professor of Clinical Dietetics. B.S., Michigan State University; M.A., Ph.D., Western Michigan University.

**Madden, Gwyn** (2006), Professor of Anthropology. B.A., M.A., Oregon State University; Ph.D., University of Nevada.

**Magal, Simha** (2000), Professor of Management. B.Com., University of Delhi; M.B.A., Valdosta State College; Ph.D., University of Georgia.

**Mahave-Veglia, Pablo** (2003), Professor of Music. B.M., The Eastman School of Music; M.M., Indiana University; D.M.A., University of Wisconsin-Madison.

**Majumdar, Kingshuk** (2007), Professor of Physics. B.S., Presidency College; M.S., University of Calcutta; Ph.D., University of Florida.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Malaret, Dennis** (1995), Associate Professor of Sociology. B.S., University of Puerto Rico; M.A., Ph.D., Western Michigan University.

**Manderscheid, Amy** (2015), Assistant Professor of Nursing. B.S.N., M.S.N., Grand Valley State University; D.N.P., Rush University.

**Mangala, Jack**, (2005), Chair and Associate Professor of Area and Global Studies and of Political Science. B.A., University of Kinshasa; M.A., L.L.M., Ph.D., Catholic University of Louvain, Belgium.

**Mannard, Lynne** (2009) Senior Affiliate Instructor of Mathematics. B.S., Michigan Technological University; M.S., Ferris State University.

**Manoharan, Sanjivan** (2017), Assistant Professor of Engineering. B.S., M.S., Embry-Riddle Aeronautical University; Ph.D., University of Cincinnati.

**Mansour, Samah** (2008), Assistant Professor of Computing. B.A., Ain Shams University; M.S., Grand Valley State University; Ph.D., University of Louisville.

**Maodush-Pitzer, Diane** (2003), Senior Affiliate Faculty of Integrative, Religious, and Intercultural Studies. B.S., Northern Illinois University; M.Div. Western Theological Seminary; M.A., University of Notre Dame; Ph.D., Eastern Michigan University.

**Maouene, Josita** (2009), Associate Professor of Psychology. B.A., Ph.D., University of Lausanne.

**Margot, Kelly** (2017), Assistant Professor of Education. B.S., M.S., Texas A&M University; Ph.D., University of North Texas.

**Marini, Daniela** (2020), Assistant Professor of Integrative, Religious, and Intercultural Studies. B.A., Río Cuarto National University, Argentina; M.Sc., Yale University.

**Marlais, Helen** (1998), Professor of Music. B.M., University of Toledo; M.F.A., Carnegie Mellon University; D.M., Northwestern University.

**Marson, Jennifer** (2018), Assistant Professor of Criminal Justice. B.A., Lake Superior State University; M.A., Central Michigan University; Ph.D., Western Michigan University.

**Martin, Barry** (1994), Professor of Music. B.M.E., University of Akron; M.S.M.E., University of Illinois.

**Martin, John T.** (2009), Associate Professor of Music. B.M., M.M., University of Tennessee; D.M.A., University of Southern Mississippi.

**Masko, Amy** (2003), Professor of English. B.S., Eastern Michigan University; M.Ed., Lesley University; Ph.D., University of Denver.

**Mason, Julia** (2007), Associate Professor of Women, Gender, and Sexuality Studies. B.A., William Smith College; M.A., The University of Arizona; Ph.D., Bowling Green State University.

**Mason, Julia R.** (2019), Affiliate Professor of Writing. B.A., Calvin College; M.A., University of Edinburgh.

**Mather, Sarah** (2010), Affiliate Faculty of Spanish. B.S., Florida State University; M.A., University of South Florida.

**Matthews, Amy** (1998), Director of ABA Graduate Program and Professor of Psychology. B.A., University of California at Santa Barbara; M.A., Ph.D., Binghamton University.

**Mattox, Stephen R.** (1998), Professor of Geology. B.S., Indiana University; M.S., Ph.D., Northern Illinois University.

**Mayers, Leifa** (2016), Assistant Professor of Women, Gender, and Sexuality Studies. B.S., University of California, Davis; M.S., Ph.D., University of California, Santa Cruz.

**Mazid, Imran** (2019), Assistant Professor of Communications. M.S.S., University of Dhaka; M.A., Edinboro University; M.Ed., Ph.D., Ohio University.

**Mboko, Swithina** (2018), Assistant Professor of Management. BCom., MBA., Ph.D., University of Zimbabwe.

**McBane, George** (2001), Associate Dean for Facilities, Scheduling, Research, and Analytics and Professor of Chemistry. B.S., North Carolina State University; Ph.D., Cornell University.

**McCann, Dana** (2016), Affiliate Faculty of Practice in Management. B.B.A., Saginaw Valley State University; M.B.A., Central Michigan University; D.B.A., Argosy University; Ph.D. (ABD), Central Michigan University.

**McClure, Hazel** (2009), Associate Librarian. B.S., Central Michigan University; M.F.A., St. Mary's College of California; M.L.S., State University of New York-Buffalo.

**McCrum, Theresa** (2017), Affiliate Faculty of Nursing. M.S.N., University of Arizona.

**McCurren, Cynthia A.** (2007), Dean and Professor of Nursing. B.S.N., M.S.N., University of Missouri; Ph.D., University of Kentucky.

**McFarland, Amy** (2014), Associate Professor of Environmental and Sustainability Studies. B.A., Rice University; M.Ed., Texas State University; Ph.D., Texas A&M University.

**McKay, Anne M.** (2018), Assistant Professor of Nursing. B.S.N., Delaware State University; M.S., University of Virginia; D.N.P., University of Michigan.

**McKee, Kimberly** (2014), Associate Professor of Liberal Integrative, Religious, and Intercultural Studies. B.A., George Washington University; M.Sc., London School of Economics; Ph.D., The Ohio State University.

**McKendall, Marie A.** (1988), Professor of Management. B.B.A., M.B.A., Grand Valley State University; Ph.D., Michigan State University.

**McLeod, Corinna** (2003), Professor of English. B.A., University of Tulsa; M.A., Ph.D., University of South Carolina, Columbia.

**McKnight, Ashley** (2020), Assistant Professor of Occupational Therapy. B.S., Michigan State University; M.S., Grand Valley State University; Dr.O.T., Chatham University.

**McNair, James** (2009), Associate Professor of Water Resources. B.A., Davidson College; Ph.D., University of Pennsylvania.

**Mehall, Christopher** (2014), Affiliate Professor of Education. B.S., Eastern Illinois University; M.Ed., Northern Arizona University.

**Mekik, Figen** (2000), Professor and Chair of Geology. B.S., M.S., Middle East Technical University; Ph.D., Northern Illinois University.

**Metz, Allison** (2010), Associate Professor of Theatre. B.A., Ph.D., University of Wisconsin-Madison; M.F.A., University of Texas at Austin.

**Meyer, Anthony** (2020), Affiliate Faculty of Integrative, Religious, and Intercultural Studies. B.A., Grand Valley State University; M.A., Trinity Western University; Ph.D., McMaster University.

**Meyer, Kristin** (2015), Assistant Librarian. B.S., Grand Valley State University; M.L.I.S., Wayne State University.

**Meyering, Ruth** (2009) Senior Affiliate Instructor of Mathematics. B.A., M.A., Western Michigan University.

**Meyer-Looze, Catherine** (2013), Assistant Professor of Education. B.A., Saginaw Valley State University; M.A., Central Michigan University; Ed.D., Eastern Michigan University.

**Miller, Blair E.** (1990), Professor of Chemistry. B.A., Manchester College; Ph.D., Miami University.

**Miller, Jo** (1991), Associate Professor of English. B.A., University of Oregon; M.A., Colorado State University; Ph.D., University of Utah.

**Miller-Adams, Michelle** (2006), Professor of Political Science. B.A., University of California; M.A., Ph.D., Columbia University.

**Minnis, Samantha** (2019), Assistant Librarian. B.A., Central Michigan University; M.S.L.I.S. Kent State University.

**Moes, Mark M.** (1991), Professor of Philosophy. B.A., University of Notre Dame; M.A., Aquinas Institute School of Theology; Ph.D., University of Notre Dame.

**Mohammadzadeh, Alireza** (1985), Associate Professor of Engineering. B.S., Aryamehr University; M.S., Ph.D., University of Michigan.

**Mohney, Kerry** (2015), Assistant Professor of Allied Health Sciences. B.S., M.A., Western Michigan University.

**Moiles, Roger** (2010), Senior Affiliate Professor of Political Science. B.A., Saginaw Valley State University; M.A., Michigan State University.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Mokhtar, Wael** (2009), Professor of Engineering. B.S., M.S., Alexandria University; Ph.D., Old Dominion University.

**Molla, Azizur** (2008), Professor of Public Health. B.S.S., University of Dhaka, Bangladesh; M.P.H., University of North Carolina-Chapel Hill; M.A., Ph.D., Pennsylvania State University.

**Montagna, Douglas** (2003), Associate Professor of History. B.A., Hamilton College; M.A., Northern Illinois University; M.B.A., SUNY Binghamton, Ph.D., Northern Illinois University.

**Montanera, Daniel** (2020), Assistant Professor of Economics. B.A., King's University College at the University of Western Ontario; M.A., Queens University; Ph.D., The University of Western Ontario.

**Moore, Jared** (2016), Associate Professor of Computing. B.S., M.S., Central Michigan University; Ph.D., Michigan State University.

**Moore, Jennifer** (2012), Assistant Professor of Biology and Natural Resources Management. B.S., Northern Michigan University; M.S., Central Michigan University; Ph.D., University of Wellington, New Zealand.

**Moore, Louis** (2008), Associate Professor of History and African/African American Studies. B.A., M.A., California State University, Sacramento; Ph.D., University of California, Davis.

**Moran, Katherine** (2018), Associate Dean for Graduate Programs and Associate Professor. B.S.N., M.S.N., University of Phoenix; D.N.P., Madonna University.

**Morgan, Roderick M.** (1997), Professor of Biology. B.S., M.S., Central Michigan University; Ph.D., Virginia Commonwealth University.

**Morison, Melissa** (2001), Associate Professor of Classics. B.A., University of Virginia; M.A., Indiana University; Ph.D., Boston University.

**Morison, William** (2004), Associate Professor of History. Ph.D., University of California Santa Barbara.

**Morris, Carrie** (2011), Associate Professor of Dance. B.A., Kenyon College; M.F.A., Temple University.

**Morris, Jill** (2008), Senior Affiliate Professor of Chemistry. B.S., Central Michigan University; M.S., Michigan State University.

**Morrow, Debbie** (1991), Senior Librarian. B.A., Earlham College; M.S.L.I.S., University of Illinois at Urbana-Champaign.

**Mothersell, William M.** (2002), Professor of Management. B.S., M.L., Ph.D., Michigan State University.

**Motwani, Jaideep G.** (1990), Professor of Management. B.B.A., Bombay University; M.B.A., Sam Houston State University; Ph.D., University of North Texas.

**Mudde, Paul A.** (2002), Associate Professor of Management. B.S., Calvin College; M.S., Ph.D., Purdue University.

**Mueller, Aiman** (2016), Affiliate Professor of Writing. B.A., M.Ed., Grand Valley State University

**Mukherjee, Oindrila** (2011), Associate Professor of Writing. B.A., Jadavpur University, India; B.A., M.A., University of Cambridge, UK; M.F.A., University of Florida; Ph.D., University of Houston.

**Mulally, Dauvan** (2002), Senior Affiliate Professor of Writing. B.A., M.Ed., Grand Valley State University; Ph.D., Indiana University of Pennsylvania.

**Mulder, Cray** (2005), Professor of Social Work. B.A., Calvin College; M.S.W., Grand Valley State University; Ph.D., University of Illinois at Urbana-Champaign.

**Mullins, Sarah** (2010), Senior Affiliate Faculty of Biomedical Sciences. B.S., Ferris State University; M.A., Wayne State University.

**Muller, Leslie** (2013), Associate Professor of Economics. B.A., Calvin College; Ph.D., Michigan State University.

**Munk, Dana** (2004), Professor of Movement Science. B.S., Grand Valley State University; M.A., Central Michigan University; Ph.D., Michigan State University.

**Mupepi, Sylvia** (2005), Professor of Nursing. B.Ed., M.Ed., University of Zimbabwe; Ph.D., University of Michigan.

**Murphy, Paul** (1999), Professor of History. B.A., Hanover College; M.A., Ph.D., Indiana University.

**Nandamudi, Srihimaja** (2019), B.S., M.S., Osmania University; Ph.D., Bowling Green State University.

**Nandigam, Jagadeesh** (2003), Professor of Computing. B.S., Sri. Venkateswara; B.S., Grambling State University; M.S., Ph.D., University of Louisiana at Lafayette.

**Navarro, Janet** (2010), Affiliate Professor of English. B.A., Ohio Wesleyan University; M.A., Ph.D., Michigan State University.

**Nechuta, Sarah** (2019), Assistant Professor of Public Health. B.S., Michigan State University; M.P.H., University of Michigan; Ph.D., Michigan State University.

**Neitzert, Kevin** (2009), Affiliate Faculty in German. B.A., M.A., Michigan State University.

**Nelson, Lilianne** (2016), Clinical Faculty of Medical Laboratory Science. B.S., Grand Valley State University.

**Nesterenko, Alexander** (1984), Professor of Communications. B.A., M.A., Ph.D., University of Iowa.

**Ngassa, Felix** (2004), Professor of Chemistry. B.S., University of Yaounde I; Ph.D., University of North Dakota.

**Ni, Peimin** (1992), Professor of Philosophy. B.A., M.A., Fudan University; Ph.D., University of Connecticut.

**Nichols, Emily M.** (2017), Assistant Professor of Social Work. B.S., Michigan State University; M.S.W., Michigan State University; Ph.D., Michigan State University.

**Niemchick, Karen** (2017), Assistant Professor of Public Health. B.S., University of Toledo; M.H.S., Grand Valley State University; Ph.D., Walden University.

**Nikitin, Alexey** (2001), Professor of Biology. M.S., Kiev State University; Ph.D., Bowling Green State University.

**Niu-Cooper, Rui** (2017), Associate Professor of Education. B.A., Sichuan University; M.A., Acadia University; Ph.D., Michigan State University.

**Nochera, Carmen L.** (1989), Professor of Biomedical Sciences. B.A., College of Notre Dame; R.D., M.A., Ph.D., University of Rhode Island.

**Nordman, Erik** (2006), Professor of Biology and Natural Resources Management. B.S., M.S., Ph.D., State University of New York.

**Norkus, Amy** (2013), Senior Affiliate Professor of Writing. B.A., M.F.A., Western Michigan University.

**Norouzi, Mahdi** (2017), Assistant Professor of Engineering. B.S.C., Sharif University of Technology; M.Sc., Iran University of Science and Technology; Ph.D., The University of Toledo.

**Norris, Charles E.** (1998), Professor of Music. B.S., Indiana State University; M.S., Ed.D., University of Illinois.

**Nowak, Brent M.** (2013), Associate Professor of Engineering. B.S., University of Illinois, Urbana; M.S., Illinois Institute of Technology; Ph.D., University of Texas, Austin.

**Nyamai, Priscilla A.** (2015), Assistant Professor of Biology and Natural Resources Management. B.S., Egerton University; M.S., University of Idaho; Ph.D., The Ohio State University.

**Ogura, Laudo** (2005), Associate Professor of Economics. B.A., University of Sao Paulo, Brazil; M.A., University of Brasilia, Brazil; Ph.D., University of Illinois at Urbana-Champaign.

**Ohle, Kathryn** (2019), Associate Professor of Education. B.S., Michigan State University; M.A.T., Tufts University; Ph.D., University of North Carolina at Chapel Hill.

**O'Kelly, Leonard A.** (2015), Associate Professor of Communications. B.E.S., Lewis University; M.S., Grand Valley State University; Ph.D., Michigan State University.

**Oliver, Keith** (2004), Associate Professor of Physics. B.S., Utah State University; Ph.D., The Ohio State University.

**Olsson Jr., Roy H.** (2008), Professor of Therapeutic Recreation. B.S., M.S., Kansas State College of Pittsburgh; Ph.D., University of Oregon.

**O'Neill, Sean** (1991), Professor of History. B.A., University of California, Berkeley; M.S., Ph.D., University of California, Santa Barbara.

**Ortiz-Robinson, Norma** (2018), Associate Professor of Mathematics. B.S., University of Louisiana, Lafayette; M.S., Ph.D. Louisiana State University.

**Oostdyk, Amy** (2018) Affiliate Instructor of Mathematics. B.S., Grand Valley State University; M.A., Western Michigan University.

**Ostrow, Bruce** (2002), Professor of Biology. B.A., Boston University; Ph.D.; Northwestern University.

**Otieno, Sango** (2003), Associate Professor of Statistics. B.S., M.S., Egerton University; Ph.D., Virginia Polytechnic Institute and State University.

**Owen-DeSchryver, Jamie** (2004), Associate Professor of Psychology. B.A., Kalamazoo College; M.S., The Johns Hopkins University; M.A., Ph.D., State University of New York at Stony Brook.

**Ozga, Karen L.** (1990), Assistant Professor of Physical Therapy. B.S., Wayne State University; M.M.Sc., Emory University; D.P.T., Wayne State University.

## Faculty Directory P-Z

**Pacey, Janna** (2016), Assistant Professor of Health Information Management. B.S., Ferris State University; M.S., Ferris State University; D.H.A., Capella University.

**Palmer, Zsuzsanna** (2017), Assistant Professor of Writing. B.A., Grand Valley State University; M.A., Eötvös Lóránd University; M.A., Central Michigan University; Ph.D., Old Dominion University.

**Palmer Jones, LeShell** (2011), Assistant Professor and Program Director of Radiation Therapy. B.S., Virginia Commonwealth University; M.S., Thomas Jefferson University; M.S., Grand Valley State University.

**Pandel, Dirk** (2010), Associate Professor of Physics. B.S., Humboldt University of Berlin; M.S., University of California, Irvine; Ph.D., University of California, Santa Barbara.

**Parikh, Chirag** (2007), Professor of Engineering. B.E., Fr. Agnel College of Engineering, Mumbai, University; M.S., Ph.D., University of Texas at San Antonio.

**Park, Ernest** (2011), Associate Professor of Psychology. B.A., University of Virginia; M.A., University of Oregon; Ph.D., Michigan State University.

**Parker, Darren** (2009), Associate Professor of Mathematics. B.A., Ph.D., University of Wisconsin.

**Parker, Kelly A.** (1992), Professor of Philosophy and Environmental and Sustainability Studies. B.A., Texas A&M University; M.A., Ph.D., Vanderbilt University.

**Parker, Tonya** (2006), Professor of Movement Science. B.S., Texas Christian University; M.S., Ph.D., University of Oregon.

**Partridge, Charlyn** (2015), Assistant Professor of Water Resources. B.S., Nicholls State University; M.S. University of South Alabama; Ph.D., Texas A&M University.

**Patil, Rajvardhan** (2020), Assistant Professor of Computing. B.E., Walchand College; M.S., Ph.D., University of Nebraska Omaha.

**Patel, Osman** (2008), Associate Professor of Cell and Molecular Biology. B.S., University of Zambia; M.S. University of Glasgow; Ph.D., University of Tokyo.

**Patro, Sukesh K.** (2019), Associate Professor of Finance. BTech., M.B.A., Ph.D., University of Pittsburgh.

**Paulson, Molly** (2011), Associate Professor of Physician Assistant Studies. B.S., MT, University of Wisconsin Superior; B.M., PAC, Western Michigan University; M.P.A.S., University of Nebraska; D.H.Sc., A.T. Still University.

**Pawloski, Janice** (2007), Assistant Professor of Engineering. B.S., Michigan Technological University; M.S., Iowa State University; Ph.D., Iowa State University.

**Pazdernik, Charles F.** (2001), Professor of Classics. B.A., Cornell University; M.Phil., Oxford University; M.A., Ph.D., Princeton University.

**Pearl, Christopher** (2015), Associate Professor of Biomedical Sciences. B.S., Saint Mary's College of California; M.S., University of the Pacific; Ph.D., University of California, Davis.

**Pearson, Christen** (2000), Professor of English. B.M., University of Miami; M.A., Southern Illinois University; Ph.D., Indiana University.

**Pearson, Robert** (2016), Associate Professor of Statistics. B.S., University of Minnesota-Duluth; M.S., Ph.D., University of Northern Colorado.

**Pednekar-Magal, Vandana** (1999), Professor of Communications. M.A., Bombay University; Ph.D., Bowling Green State University.

**Pellathy, Daniel A.** (2016), Assistant Professor of Management. B.A., Cornell University; M.P.I.A., M.B.A., University of Pittsburgh; Ph.D., University of Tennessee-Knoxville.

**Pelon, Sally** (2013), Associate Professor of Social Work. B.A., Hope College; M.S.W., Western Michigan University; Ph.D., Michigan State University.

**Penn, James** (2003), Professor of Geography and Sustainable Planning. B.A., University of Illinois; M.A., Ph.D., University of Florida.

**Penning, Timothy** (2001), Professor of Communications. B.A., Central Michigan University; M.A., Western Michigan University; Ph.D., Michigan State University.

**Pentecost, Thomas** (2009), Associate Professor of Chemistry. B.S., University of Tennessee-Martin; M.S., Louisiana State University; Ph.D., University of Northern Colorado.

**Pentinga-Brown, Lisa** (2016), Affiliate Faculty of Nursing. B.S.N., Grand Valley State University; M.S.N., Aspen University.

**Perhamus, Lisa** (2011), Assistant Professor of Education. B.A., William Smith College; M.A., The New School for Social Research; Ph.D., University of Rochester.

**Pestana, Mark S.** (1990), Professor of Philosophy. B.A., Colby College; M.A., University of Kentucky; Ph.D., University of Chicago.

**Peters, Steven G.** (2012), Affiliate Faculty in Visual and Media Arts. B.F.A., Ball State University; M.F.A., Southern Illinois University at Carbondale.

**Peterson, Bethany** (2014), Associate Professor of Writing. B.A., University of Wisconsin-Eau Claire; M.A., Wheaton College; M.F.A., University of Wyoming; Ph.D., University of Missouri.

**Peterson, Luke J.** (2020), Affiliate Faculty of Chemistry. B.S., Hope College; M.S., Ph.D., University of Michigan.

**Peterson, Rachel** (2008), Associate Professor of Integrative, Religious, and Intercultural Studies. B.A., Southern Illinois University; M.A., Washington State University; Ph.D., University of Michigan.

**Peterson, Valerie** (2004), Professor of Communications. B.A., University of Virginia; M.A., University of Virginia; Ph.D., University of Iowa.

**Peterson, Virginia** (2003), Professor of Geology. B.A., Grand Valley State University; M.S., Ph.D., University of Massachusetts.

**Pettes Guikema, Janel** (2006), Professor of French. B.A., Calvin College; M.A., Bowling Green State University; Ph.D., Pennsylvania State University.

**Pettibone, Justin** (2012), Affiliate Faculty of Integrative, Religious, and Intercultural Studies. B.A., Grand Valley State University; M.A., Miami University, Ohio.

**Phillips, Brian** (2000), Professor of Sociology. B.A., State University of New York, Utica; M.A., Rutgers University; Ph.D., State University of New York, Binghamton.

**Phipps, Danny** (2006), Professor and Chair of Music. B.M., Curtis Institute of Music; M.M., D.M.A., Catholic University of America.

**Picard, Joerg** (2016), Assistant Professor of Finance. M.S.C.E., University of Technology Aachen, Germany; M.B.A., University of California Irvine; Ph.D., Michigan State University.

**Pickett, Linda** (2012), Associate Professor of Education. B.A., M.A., Ph.D., University of New Mexico.

**Place, Mitchell D.** (2006), Affiliate Faculty in German. B.A., Central Michigan University; M.A., The Ohio State University; Ph.D., Michigan State University.

**Plotkowski, Paul D.** (1991), Professor of Engineering. B.S., M.S., Ph.D., Oakland University.

**Plouff, Christopher.** (2008), Associate Professor of Engineering. B.S., M.S., Michigan Technological University; Ed.D., Eastern Michigan University.

**Ponischil, Susan** (2018), Assistant Librarian. B.A., Michigan State University; M.L.I.S., Wayne State University.

**Pope, Jennifer** (2003), Associate Professor of Marketing. B.A., College of Wooster; M.B.A., Ph.D., University of Texas-Pan American.

**Posada, Ana** (2002), Affiliate Faculty of Computing. B.S., Universidad EAFIT; M.S., Western Michigan University.

**Potteiger, Jeffrey** (2010), Dean of Graduate Studies. B.S., Indiana University of Pennsylvania; M.S., McDaniel College; Ph.D., Auburn University.

**Powers, Rachel** (2006), Professor of Chemistry. B.S.T., Michigan State University; Ph.D., Northwestern University Medical School.

**Pozzi, Gabriela** (1994), Professor of Spanish. B.A., McGill University; M.A., Ph.D., University of Pennsylvania.

**Preston, Marilyn** (2013), Associate Assistant Professor of Integrative, Religious, and Intercultural Studies. B.A., Goddard College; M.A., Ph.D., University of Missouri.

**Psyck, Elizabeth** (2009), Associate Librarian. B.A., Barnard College, Columbia University; M.L.I.S., University of Pittsburgh.

**Pung, Christopher** (2007), Associate Professor of Engineering. B.S., M.S., Michigan State University; Ph.D., Lawrence Technological University.

**Qi, Ji** (2018), Assistant Professor of Marketing. B.S., Dalian Medical University; M.S., Ph.D., University of Alabama.

**Quamme, Joel R.** (2008), Associate Professor of Psychology. B.A., Jamestown College; M.A., Ph.D., University of California.

**Raaymakers, Susan A.** (2005), Associate Professor of Physician Assistant Studies. D.H.Sc., A.T. Stills University; M.P.A.S., Grand Valley State University; B.S.I.B., Aquinas College.

**Rabourn, Karyn** (2016), Assistant Professor of Education. B.A., M.A., Michigan State University; Ph.D., Indiana University.

**Rafiq, Rahat** (2020), Assistant Professor of Computing. B.S., Bangladesh University of Engineering and Technology; Ph.D. University of Colorado Boulder.

**Rahman, M. Azizur** (2002), Professor of Engineering. B.S., M.S., Bangladesh University Engineering and Technology; Ph.D., University of Victoria.

**Rakovic, Milun** (2003), Professor of Physics. B.S., M.S., Ph.D., University of Belgrade.

**Ramey, Emma** (2007), Affiliate Professor of Writing. B.A., Western Washington University; M.F.A., University of Alabama.

**Ramos, Santos** (2018), Assistant Professor of Integrative, Religious, and Intercultural Studies. B.A., Michigan State University; M.A., Virginia Commonwealth University; Ph.D., Michigan State University.

**Ramsson, Eric** (2011), Associate Professor of Biomedical Sciences. B.S., Bradley University; Ph.D., Illinois State University.

**Ranger, Kim** (1990), Senior Librarian. B.A., Western Michigan University; M.I.L.S., University of Michigan.

**Rankinen, Wil A.** (2015), Assistant Professor of Speech-Language Pathology. B.A., Michigan State University; M.A., Ph.D., Indiana University.

**Reddy, Amanda** (2014), Affiliate Faculty, Clinical Coordinator, B.S., Central Michigan University; M.S., Central Michigan University.

**Rediske, Richard** (1994), Professor of Water Resources. B.S., Bowling Green State University; M.S., Ph.D., University of Michigan.

**Reed, J. Christopher** (2007), Associate Professor of Biomedical Sciences. B.A., Mississippi State University; M.A., University of South Carolina; Ph.D. University of Pittsburgh.

**Reffeor, Wendy** (2012), Professor of Engineering. B.S., Kettering University; M.S., Purdue University; Ph.D., Michigan State University.

**Reidsma, Matthew** (2010), Associate Librarian. B.A., Grand Valley State University; M.T.S., Harvard Divinity School; S.O.I.S., University of Wisconsin-Milwaukee.

**Reinhold, Martina** (2011), Associate Professor of Physician Assistant Studies. B.S., University of Michigan; Ph.D., Washington University.

**Reischman, Diann** (1998), Professor of Statistics. B.S., Clarke College; M.S., University of Iowa; Ph.D., University of Missouri.

**Remlinger, Kathryn A.** (1995), Professor of English. B.A., M.A., Moorehead State University; Ph.D., Michigan Technological University.

**Renner, Christine** (2009), Professor of Chemistry. B.S., Michigan State University; Ph.D., Northwestern University.

**Renkema, Kristin** (2018), Assistant Professor of Biomedical Sciences. B.A., Anderson University; Ph.D., University of Arizona.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Reynolds, John** (2002), Associate Professor of Computing. B.R.E., Th.B., A.A., Hannibal-LaGrange College; M.A., Criswell College; Ph.D., University of Northern Texas.

**Reynolds, Ross A.** (1990), Professor of Physics. B.S., Michigan State University; M.S., Ph.D., University of Oregon.

**Rhodes, Samhita** (2008), Professor of Engineering. B.E., Maharashtra Institute of Technology; M.S., Ph.D., Marquette University.

**Richards, Mark J.** (1999), Professor of Political Science. M.S., University of Oregon; B.S., M.A., Ph.D., University of Wisconsin.

**Richards, Suzanne** (2015), Affiliate Professor of Education. B.S., M.Ed., Michigan State University.

**Richardson, Mary** (2002), Professor of Statistics. B.S., Southwest Missouri State University; M.A., Ph.D., University of Missouri.

**Richiert, Dawn** (2006), Associate Professor of Biomedical Sciences. B.S., Oakland University; Ph.D., Wayne State University.

**Richter, Jessalyn** (2012), Senior Affiliate Professor of Writing. B.A., Michigan State University; M.A., Ph.D., University of Wisconsin-Madison.

**Riemersma, Peter E.** (1999), Associate Professor of Geology. B.S., University of Michigan; M.S., University of Utah; Ph.D., University of Wisconsin-Madison.

**Riley-Mukavetz, Andrea** (2017), Assistant Professor of Integrative, Religious, and Intercultural Studies. B.S., Central Michigan University; M.A., Illinois State University; Ph.D., Michigan State University.

**Rinker, Donna** (2015), Affiliate Faculty of Nursing. B.S.N., Saginaw Valley State University; M.S.N., Michigan State University.

**Ripple, Darien** (2020), Assistant Professor of Integrative, Religious, and Intercultural Studies. B.A., Salisbury University; M.A., West Chester University; Ph.D., Prescott College.

**Roberts, Kim** (2000), Professor of Visual and Media Arts-Film and Video Production. B.F.A., Kendall College of Art and Design; M.F.A., The School of the Art Institute of Chicago.

**Robbins, Donijo** (2001), Professor of Public Administration. B.S., Central Michigan University; M.A., Ph.D., Rutgers University.

**Robideaux, Douglas** (2001), Associate Professor of Marketing. B.A., M.B.A., Northeast Louisiana University; D.B.A., Louisiana Tech University.

**Robins, Robert R.** (2008), Senior Affiliate Professor of Hospitality and Tourism Management. A.A., B.B.A., Northwood University; M.S.A., Central Michigan University.

**Robinson, Jeremy** (2008), Associate Professor of Japanese, East Asian Studies, and Chinese Studies. B.A., M.A., University of Colorado, Boulder; Ph.D., University of Michigan.

**Rohn, Amy** (2010), Affiliate Faculty of Nursing. B.S.N., M.S.N., Michigan State University.

**Rood, A. Scott** (2005), Assistant Professor of Hospitality and Tourism Management. B.S., University of Michigan; M.P.A., Central Michigan University.

**Rose, Jonathan** (2013), Assistant Professor of Physical Therapy. B.A., Boston University; M.S., Eastern Illinois University; Certificate of Study in Physical Therapy, Ohio State University.

**Rosener, Ashley** (2012), Associate Librarian. B.A., Iowa State University; M.L.I.S., University of Illinois, Urbana-Champaign.

**Ross, Sally** (2012), Associate Professor of Sport Management. B.S., M.S., Ph.D., University of Illinois.

**Roth, Patrick** (2010), Associate Librarian. B.S., Grand Valley State University; M.L.I.S., Wayne State University.

**Rothstein, Jeffrey S.** (2007), Professor of Sociology. B.A., University of London; M.A., Ph.D., University of Wisconsin-Madison.

**Rozema, Robert** (2004), Professor of English. B.A., Calvin College; M.A., Michigan State University; Ph.D., Western Michigan University.

**Ruen, Matthew** (2014), Associate Librarian. B.A., Carleton College; M.L.I.S., M.A.S., University of British Columbia.

**Ruetz III, Carl** (2002), Professor of Water Resources. B.S., Lake Superior State University; M.S., University of Georgia; Ph.D., University of Minnesota.

**Rupinski, Leigh** (2017), Assistant Librarian, Archivist for Public Services and Community Engagement. B.A., Grand Valley State University; M.S.I., University of Michigan.

**Russa, Mary E. Bower** (1997), Assistant Chair and Professor of Psychology. B.S., Michigan State University; M.A., Ph.D., University of Iowa.

**Russell, Amy** (2008), Associate Professor of Biology. B.S., M.S., Bowling Green State University; Ph.D., University of Tennessee, Knoxville.

**Rutecki, Dawn M.** (2019), Assistant Professor of Integrative, Religious, and intercultural Studies. B.A., University of Pittsburgh; M.A., SUNY at Buffalo; Ph.D., Indiana University.

**Ryan, Bill** (2005), Professor of Music. B.M. SUNY Potsdam; M.M., D.M.A., University of Illinois at Urbana-Champaign.

**Ryan, Maureen** (1990), Assistant Professor of Nursing. B.S.N., St. Mary's College; M.S.N., Michigan State University; Ed.D., Eastern Michigan University.

**Ryan, Sheila** (2006), Senior Affiliate Faculty of Chemistry. B.S., Purdue University; M.S., Indiana University.

**Rybczynski, Stephen** (2012), Associate Professor of Biology. B.S., M.S., Northern Michigan University; Ph.D., Miami University.

**Ryefield, Misti** (2017), Assistant Professor of Allied Health Sciences. B.A., Siena Heights University; M.S., Capella University.

**Sá, Walter** (1999), Associate Professor of Psychology. B.A., University of Western Ontario; M.A., Ph.D., University of Toronto.

**Salas, Nora** (2014), Associate Professor of History. B.A., University of Michigan; M.S.W., Michigan State University.

**Sanford, James** (1980), Professor of Business Law. B.S., J.D., Indiana University; C.P.A.

**Santana, Michael** (2016), Assistant Professor of Mathematics. A.A., Palomar Community College; B.S., M.S., California State University; Ph.D., University of Illinois at Urbana-Champaign.

**Sass, Georgette** (2008), Associate Professor of Biology. B.S., Kent State University; Ph.D., University of North Carolina, Chapel Hill.

**Scantlebury, Michael** (2010), Associate Professor of Hospitality and Tourism Management. B.A., M.Phil., University of the West Indies Mona; Ph.D., University of Waterloo.

**Schaertel, Stephanie** (1994), Associate Professor of Chemistry. B.A., Swarthmore College; M.S., Ph.D., Cornell University.

**Schaub, Gayle** (2013), Associate Librarian. B.A., Lakeland College; M.A., American University in Cairo; M.L.I.S., University of Wisconsin-Milwaukee.

**Schaub, Mark F.** (1999), Dean of Brooks College and Professor of Writing. B.A., Lakeland College; M.F.A., Wichita State University; Ph.D., Purdue University.

**Schelling, Amy** (2007), Associate Professor of Education. B.S., M.Ed., Grand Valley State University; Ed.D., Western Michigan University.

**Schendel, Ellen** (2000), Professor of Writing. B.A., Birmingham Southern College; M.A., Florida State University; Ph.D., University of Louisville.

**Schiller, Ellen** (2001), Professor of Education. B.S., M.Ed., Grand Valley State University; Ph.D., Michigan State University.

**Schlewitz, Andrew** (2008), Assistant Professor of Latin American and Latino/a Studies and Political Science. B.A., Oregon State University; M.A., Ph.D., New School University.

**Schlicker, Steven** (1991), Professor of Mathematics. B.A., Michigan State University; M.A., Ph.D., Northwestern University.

**Schmit, John**, (2002) Associate Professor of Visual and Media Arts-Film and Video Production. B.A., Prescott College; M.A., The University of Iowa; M.F.A., The University of Iowa.

**Schneider, Laura** (2008), Associate Professor of Political Science, B.A., Skidmore College; M.A., Ph.D., Purdue University.

**Schnyders, Harold S.** (2004), Professor of Physics. B.S., Calvin College; Ph.D., Michigan State University.

**Schrauben, Kristen S.** (2014), Director of School Psychology Graduate Program and Associate Professor of Psychology. B.A., Fairfield University; M.A., Ph.D., Michigan State University.

**Schriemer, Dale** (1988), Professor of Music. B.M., North Carolina School of the Arts; B.A., Michigan State University.

**Schuurman, Shelley D.** (2008), Associate Professor of Social Work. B.A., Calvin College; M.S.W., Western Michigan University; Ph.D., Michigan State University.

**Schwartz, Mark** (2004), Professor of Anthropology. B.A., Swarthmore College; M.A., Ph.D., Northwestern University.

**Schymik, Gregory B.** (2012), Associate Professor of Computing. B.S.E., University of Michigan; M.S., University of Detroit-Mercy; Ph.D., Arizona State University.

**Sciarini, Michael** (2011), Professor of Hospitality and Tourism Management. B.S., MA., Ph.D., Michigan State University.

**Scott-Tunstall, Crystal** (2020), Affiliate Professor of Environmental and Sustainability Studies. B.S., M.S., Southern Illinois University.

**Scripps, Jerry** (2001), Associate Professor of Computing. B.A, Taylor University; M.B.A., Boston College; M.S., Ph.D., Michigan State University.

**Seidel, Hannah** (2015), Associate Professor of Dance. B.A., Pomona College; M.F.A., The College of Brockport, SUNY.

**Sergeant, Anne** (2008), Associate Professor of Accounting. B.S., State University of New York, Buffalo; M.B.A., University of Washington; Ph.D., University of Arizona.

**Serrata, Médar** (2009), Associate Professor of Spanish. B.A., Florida International University; M.A., Ph.D., University of Texas at Austin.

**Shabani, Shkelzen** (2018), Assistant Professor of Biomedical Sciences. B.S., Oklahoma State University; Ph.D., Georgia State University.

**Shaffer, Christopher** (2014), Assistant Professor of Anthropology. B.S., Emory University; M.A., Ph.D., Washington University-St. Louis.

**Shah, Anal** (2014), Associate Professor of Visual and Media Arts-Film and Video Production. B.F.A., Maharaja Sayajirao University, India; B.A., M.F.A., California Institute of the Arts.

**Shan, Patrick Fuliang**, (2003), Professor of History. B.A., Henan University; M.A., Liaoning University; M.A., Ph.D., McMaster University.

**Shang, Geling** (2001), Associate Professor of Philosophy. B.A., Fudan University; M.A., Old Dominion University; Ph.D., Temple University.

**Shannon, Ashley** (2005), Associate Professor of English. B.A., M.A., University of Notre Dame; Ph.D., University of Texas.

**Shapiro-Shapin, Carolyn G.** (1993), Professor of History. B.A., Adelphi University; M.A., Ph.D., Yale University.

**Shaw, Luanne, M.** (2003), Affiliate Faculty of Nursing. B.S.N., Calvin College; M.A., Trinity Theological Seminary; M.S.N., Indiana State University; D.N.P., Grand Valley State University.

**Sheffer, Joshua** (2016), Assistant Professor of Criminal Justice. B.A., Calvin College; J.D., Notre Dame Law School.

**Sheffield, Alfred** (1997), Associate Professor of Theatre. B.F.A., Illinois Wesleyan University; M.F.A., Northwestern University.

**Shell-Weiss, Melanie** (2011), Associate Professor and Chair of Integrative, Religious, and Intercultural Studies. B.A., University of Michigan; M.A., Ph.D., Michigan State University.

**Sherman, Ross** (2008), Associate Professor of Movement Science. B.Sc., University of Sunderland; M.Sc. Loughborough University; Ph.D., University of Bath.

**Shoemaker, Michael J.** (2006), Associate Professor of Physical Therapy. B.S., Calvin College; D.P.T., Slippery Rock University; Ph.D., Western Michigan University.

**Short, Taylor** (2017), Assistant Professor of Mathematics. B.S., College of William and Mary; M.S., Virginia Commonwealth University; Ph.D., University of South Carolina.

**Shoultz, Gerald** (2005), Associate Professor of Statistics. B.S., University of Alabama; M.S., Texas Tech University; M.S., Florida State University; Ph.D., University of South Carolina.

**Shreiner, Tamara** (2015), Associate Dean for Curriculum and Instruction and Associate of History. B.S., Eastern Michigan University; M.A., Ph.D., University of Michigan.

**Shupe, Ellen** (1997), Professor of Psychology. B.S., Eckerd College; M.A., Ph.D., University of Illinois at Urbana-Champaign.

**Sicilian, Paul** (1987), Professor of Economics. B.A., Tulane University; M.S., Ph.D., University of Illinois.

**Simons, Gerald** (1995), Professor of Economics. B.Soc.Sci., University of Birmingham, England; M.A., Ph.D., University of Kansas.

**Simpson, Thuy H.** (2012), Associate Professor of Finance. B.S., B.A., Ph.D., University of Nebraska-Lincoln.

**Singer, Cara M.** (2019), Assistant Professor of Speech-Language Pathology. B.A., University of Michigan; M.A., University of Iowa; Ph.D., Vanderbilt University.

**Slager, Dianne** (2015), Assistant Professor of Nursing. B.S.N., University of Michigan; M.S.N., Grand Valley State University; D.N.P., University of Michigan-Flint.

**Slater, Angela L.** (2014), Affiliate Faculty of Integrated Science. B.S., Hope College; M.Ed., Grand Valley State University.

**Smart, Robert** (1996), Professor of Chemistry. B.A., Albion College; Ph.D., Michigan State University.

**Smith, Brent A.** (2012), Associate Professor of Integrative, Religious, and Intercultural Studies. B.A., Hanover College; M.A., Divinity School of the University of Chicago; D. Min., Meadville Lombard Theological School.

**Smith, Brian A.** (2019), Assistant Professor of Chemistry. B.S., Grand Valley State University; Ph.D., Ohio State University.

**Smith, Christine** (1995), Assistant Chair and Professor of Psychology. B.A., Indiana University; M.A., Ph.D., Loyola University.

**Smith, Cynthia** (2008), Associate Professor of Education. B.S., Grand Valley State University; M.A., Ph.D., Michigan State University.

**Smith, Regina M.** (2002), Associate Professor of German. B.A., Washington University in St. Louis; M.A., Ph.D., University of Wisconsin-Madison.

**Smith, Robert** (1996), Professor of Chemistry. B.A., Albion College; Ph.D., Michigan State University.

**Smith, Shelly** (2004), Professor of Mathematics. B.A., Willamette University; B.A., Portland State University; M.A., Ph.D., Arizona State University.

**Smith, Stafford Hiroshi** (2008), Associate Professor of Visual and Media Arts - Photography. B.A., Wesleyan University; M.F.A., Cornell University.

**Smith, Steven** (2005), Professor of Social Work. B.A., Indiana University; M.S.W., Ph.D., Western Michigan University.

**Smith-Colton, Robin L.** (2000), Professor of Social Work. B.S., M.S.W., Grand Valley State University; Ph.D., Loyola University-Chicago.

**Smith Kelly, Claudia** (2006), Associate Professor of Economics. B.A., M.S., University of the West Indies, Jamaica; Ph.D., Syracuse University.

**Smither, James** (1990), Professor of History. B.A., University of Chicago; M.A., Ph.D., Brown University.

**Snedeker, Jonathan** (2018), Affiliate Faculty of Communications. B.A., Michigan State University; M.S. Grand Valley State University.

**Snyder, Eric** (2002), Professor of Biology. B.S., Manchester College; M.S., Central Michigan University; Ph.D., Idaho State University.

**Sobeck, Corey M.** (2008), Assistant Professor of Physical Therapy. B.S., M.S., Grand Valley State University; O.M.P.T., D.Sc.P.T., Oakland University.

**Soman, Sherril** (2000), Dean, College of Education and Professor of Chemistry. B.Sc., Prairie View A&M University; Ph.D., Purdue University.

**Sozen, Mehmet** (2007), Professor of Engineering. B.S., Middle East Technical University; M.S., University of Petroleum and Minerals; Ph.D., The Ohio State University.

**Spear, Andrew** (2008), Associate Professor of Philosophy. B.A., University of Wisconsin-Green Bay; M.A., State University of New York; Ph.D., State University of Buffalo.

**Spencer, Anthony** (2020), Assistant Professor of Communication. B.J., University of Texas; M.J., University of North Texas; Ph.D., University of Oklahoma.

**Spring, Robin** (2014), Associate Professor of Communications. B.A., M.S., Grand Valley State University.

**Spoelstra, Sandra** (2015), Associate Professor of Nursing. B.S.N., Northern Michigan University; M.S.N., Northern Michigan University; Ph.D., Michigan State University.

**Srinivasan, Sailakshmi** (2004) Senior Affiliate Instructor of Mathematics. B.S., M.S., Madras University.

**Stabler, Scott** (2004), Professor of History. M.A., University of Houston; Ph.D., Arizona State University.

**Stansbie, Paul** (2003), Associate Dean and Professor of Hospitality and Tourism Management. B.S., Southern New Hampshire University; M.B.A., University of Nottingham; Ph.D., The University of Plymouth.

**Stark, David** (2001), Professor of History and Coordinator for Latin American and Latino/a Studies. B.A., M.A., Ph.D., Indiana University.

**Staves, Mark P.** (1996), Professor of Biology and Cell and Molecular Biology. B.S., M.S., Ph.D., University of Texas at Austin.

**Steinman, Alan D.** (2001), Professor of Water Resources. B.S., University of Vermont; M.S., University of Rhode Island; Ph.D., Oregon State University.

**Stephens, Ronald** (2003), Associate Professor of African/American Studies. B.A., M.A., Wayne State University; M.A., Ph.D., Temple University.

**Stephenson, Paul** (1995), Professor of Statistics. B.S., Bob Jones University; M.S., Ph.D., Clemson University.

**Stevens, Terry** (2016), Affiliate Professor of Engineering. B.S.E.E., University of Michigan.

**Stevenson, John** (2000), Professor of Physical Therapy. B.A., Vassar College; M.S., The Pennsylvania State University; M.S., Central Michigan University; Ph.D., Indiana University.

**Stewart, Jennifer** (2001), Associate Professor of Sociology. B.A., Michigan State University; M.A., Ph.D., University of South Carolina.

**Stickler, Laurie G.** (2009), Associate Professor of Physical Therapy. B.S., M.S., Grand Valley State University; D.H.S., University of Indianapolis.

**Stieler, Kathryn** (2003), Professor of Music. B.M., Western Michigan University; M.M., Bowling Green State University; D.M.A., Cincinnati College-Conservatory of Music.

**Stillerman, Joel P.** (2002), Professor of Sociology and Faculty in Residence, Frederik Meijer Honors College. B.A., Bennington College; M.A., Ph.D., New School for Social Research.

**Stinnett, Jerry** (2018), Assistant Professor of Writing. B.A., M.A., Northeastern State University; Ph.D., University of Oklahoma.

**Stockdale, Sally S.** (2007), Affiliate Faculty of Nursing. B.S.N., M.S.N., Grand Valley State University.

**Stockton, Terry** (2009), Affiliate Professor of Education. B.S., Grand Valley State University; M.Ed., Aquinas College.

**Stolle, Elizabeth** (2007), Associate Professor of Education. B.A., University of Michigan; M.Ed., Arizona State University; Ph.D., Arizona State University.

**Stolley, Amy Ferdinandt** (2016), Associate Professor of Writing. B.A., St. Norbert College; M.A., Marquette University; Ph.D., Purdue University.

**Stolze-Rybczynski, Jessica** (2020), Affiliate Professor of Biomedical Sciences. B.S., Michigan Technological University; M.S., Northern Michigan University; Ph.D., Miami University.

**Stone, Amy** (2002) Senior Affiliate Instructor of Mathematics. B.S., Michigan Technological University; M.A., Western Michigan University.

**Storey, Elizabeth** (1987), Assistant Professor of Education. B.A., M.Ed., Arizona State University.

**Stroik, Laura** (2014), Associate Professor of Biomedical Sciences. B.S., University of San Diego; M.A., Ph.D., Arizona State University.

**Strom, Kirsten** (2000), Professor of Visual and Media Arts - Art History. B.A., University of Illinois; M.A., School of the Art Institute of Chicago; Ph.D., University of Iowa.

**Strouse, Susan** (2013), Associate Professor of Nursing. B.S.N., Michigan State University; M.S.N., Saginaw Valley State University; Ph.D., Duquesne University School of Nursing.

**Strychar, Kevin** (2012), Professor of Water Resources. B.S., M.S., University of New Brunswick; Ph.D., Central Queensland University.

**Suh, Jiyeon** (2008), Associate Professor of Mathematics. M.S., Ph.D., University of Illinois.

**Sultana, Rahat** (2016), Affiliate Professor of Engineering. M.S.E., Grand Valley State University.

**Sun, Wei** (2005), Professor of Economics. B.A., Beijing Foreign Studies University, China; M.S., Ph.D., University of Kentucky.

**Sun, Wanxiao** (2006), Professor of Geography and Sustainable Planning. B.S., Nanjing University; M.S., Chinese Academy of Sciences; Ph.D., Johannes Gutenberg University of Mainz.

**Sunden, Susan** (2012), Assistant Professor of Therapeutic Recreation. B.S., M.Ed., Grand Valley State University.

**Swantek, Paul** (2008), Senior Affiliate Professor of Music. B.M., Boston University; M.M., The Catholic University of America.

**Swets, Benjamin** (2008), Professor of Psychology. B.A., Hope College; M.A., Ph.D., Michigan State University.

**Swieringa, Robert** (2005), Assistant Professor of Communications. B.A., M.A., Ph.D., University of Illinois.

**Swift, Maris** (2000), Associate Professor of Business Law. B.S.W., Nazareth College; M.L.I.R., Michigan State University; J.D., Cooley Law School.

**Syfert, Timothy J.** (2006), Affiliate Faculty of Practice in Management. B.S., Oklahoma State University; M.B.A., Rensselaer Polytechnic Institute; Ph.D., Capella University.

**Sylvester, Frank** (2004), Professor of Biomedical Sciences. B.S., Cornell University; M.A., Drake University; Ph.D., Medical College of Wisconsin.

**Szarecka, Agnieszka** (2009), Associate Professor of Cell and Molecular Biology. M.Sc., Ph.D., Adam Mickiewicz University.

**Tafel, Heather Leigh** (2004), Associate Professor of Political Science. B.A., Eckerd College; A.M., Ph.D., University of Illinois at Urbana-Champaign.

**Talbert, Robert** (2011), Professor of Mathematics. B.S., Tennessee Technological University; M.S., Ph.D., Vanderbilt University.

**Tallman, Melissa** (2012), Associate Professor of Biomedical Sciences. B.A., George Washington University; Ph.D., City University of New York.

**Talon, Durwin** (2015), Associate Professor of Visual and Media Arts - Illustration. B.F.A., Savannah College of Art and Design; M.A., Syracuse University; M.F.A., University of Hartford.

**Tao, Yonglei** (1990), Professor of Computing. B.S., Beijing University; M.S., North China Institute of Computing Technology; M.S., Ph.D., University of Iowa.

**Tate, Sarah** (2016), Affiliate Professor of History. B.A., Western Michigan University; M.A., Central Michigan University.

**Tefera, Akalu** (2000), Professor of Mathematics. B.Sc., M.Sc., Addis Ababa University; Ph.D., Temple University.

**Terry, Geraldine** (2012), Associate Professor of Nursing. B.S.N., Southern Illinois University at Edwardsville; M.S.N., University of Michigan; M.D., Michigan State University.

**Thomas, Derek** (2010), Associate Professor of Biomedical Sciences. B.Sc., Ph.D., University of Wales, Swansea.

**Thomas, Tricia** (2017), Associate Dean for Practice and Associate Professor. B.S.N, M.S.N, University of Michigan; PhD, Waldon University.

**Thompson, Anthony W.** (1997), Professor of Visual and Media Arts - Photography. B.S., University of Dallas; M.F.A., Washington University Saint Louis.

**Thompson, Cynthia** (2013), Associate Professor of Biomedical Sciences. B.S., University of California Davis; M.A., Ph.D., Kent State University.

**Thompson, Elizabeth Guinevere** (2014), Associate Professor of Visual and Media Arts - Illustration. B.A., Indiana University; M.F.A., University of Hartford.

**Thorgaard, Scott N.** (2014), Associate Professor of Chemistry. B.S., University of Wisconsin-Eau Claire; Ph.D., University of Minnesota.

**Thorpe, Patrick A.** (1988), Professor of Biology and Cell and Molecular Biology. B.S., Texas Lutheran College; M.S., Ph.D., University of Texas.

**Thull, Greg** (2002), Senior Affiliate Instructor of Mathematics. B.S., M.Ed. Aquinas College; M.S., Michigan State University.

**Tian, Lin** (2009), Senior Affiliate Professor of Communications. B.A., Nankai University; M.A., Indiana University.

**Tiernan, Chelsea** (2020), Affiliate Professor of Biomedical Sciences. B.A., Western State College; Ph.D., Michigan State University.

**Topper, Andrew** (1999), Associate Professor of Education. B.S., Grand Valley State University; Ph.D., Michigan State University.

**Toth, Christopher** (2009), Associate Professor of Writing. B.A., Hiram College; M.A., Ph.D., Iowa State University.

**Towse, Theodore** (2017), Associate Professor of Biomedical Sciences. B.S., University of Massachusetts Amherst; M.S., University of Massachusetts Amherst; Ph.D., Michigan State University.

**Trefftz, Christian** (2002), Professor of Computing. B.S., Universidad; M.S., Western Michigan University; Ph.D., Michigan State University.

**Tripp, Steven** (1990), Professor of History. B.A., University of California, Berkeley; M.A., University of California, Davis; Ph.D., Carnegie Mellon.

**Truskowski, Scott** (2009), Associate Professor of Occupational Science and Therapy. B.S., M.S., Grand Valley State University; Ph.D., Nova Southeastern University.

**Tsou, Pei-Lan** (2006), Associate Professor of Cell and Molecular Biology. B.S., National Taiwan University; Ph.D., North Carolina State University.

**Tunstall, Dwayne** (2008), Associate Professor of Philosophy. A.A.S., Rappahannock Community College; B.A., Christopher Newport University; M.A., Ph.D., Southern Illinois University at Carbondale.

**Tusch, Guenter** (2001), Professor of Computing. M.S., University of Hanover, Germany; Ph.D., Medical School Hanover.

**Tutt, Kevin** (2003), Professor of Music. B.S., M.M., Ph.D., Pennsylvania State University.

**Tuma, Lorie** (2014), Assistant Professor of Hospitality and Tourism Management. B.S., M.S., Central Michigan University; Ed.D., Walden University.

**Tynes, Jennifer** (2015), Affiliate Professor of Writing. B.A., Knox College; M.F.A., Brown University; Ph.D., University of Denver.

**Uglietta, John** (2004), Professor and Chair of Philosophy. B.A., University of Chicago; J.D., University of Michigan Law School; M.A., Ph.D., The Johns Hopkins University.

**Valdez, Glenn** (2006), Professor of Psychology. B.A., Tufts University; M.A., Ph.D., University of California.

**Vallery, Richard** (2008), Associate Professor of Physics. B.A., Gustavus Adolphus College; M.S., Ph.D., University of Michigan.

**VandenBerg, Neal** (2016), Assistant Professor of Accounting. B.B.A., M.B.A., Grand Valley State University; Ph.D., Temple University.

**VandenPlas, Jessica** (2011), Associate Professor of Chemistry. B.S., University of Wisconsin-Madison; M.S., The George Washington University; Ph.D., The Catholic University of America.

**VanderKooi, Marie** (2015), Assistant Professor of Nursing. B.S.N., University of Michigan; M.S.N., D.N.P., Grand Valley State University.

**VanderMolen, Julia** (2013), Associate Professor of Public Health. B.S., Western Michigan University; M.S., Clemson University; M.A., University of Alabama; M.Ed., Grand Valley State University; Ph.D., Western Michigan University.

**Vandermolen, Rick** (2016), Assistant Professor of Education. B.A., University of Western Ontario; M.A., Michigan State University; Ed.D., Eastern Michigan University.

**VanderPoel, Jennifer** (2006), Instructor of Radiologic and Imaging Sciences. B.S., Grand Valley State University.

**Van Wormer, Heather** (2006), Associate Professor of Anthropology. B.A., University of Nevada; Ph.D., Michigan State University.

**Vaughan, Dana** (2018), Clinical Faculty of Medical Laboratory Science. B.S., Northern Michigan University.

**Vavrikova, Marlen** (2005), Professor of Music. Diploma, Janacek Conservatory of Music, Ostrava; M.M., Eastman School of Music; D.M.A., University of Illinois at Urbana-Champaign.

**Veasy, Joshua** (2014), Assistant Professor of Physics. B.S., University of Rochester; M.S., and Ph.D., Michigan State University.

**Veenstra, Victoria** (2000), Associate Professor of Visual and Media Arts - Photography. B.F.A., M.F.A., University of Michigan.

**Vèlez Ortiz, Melba** (2009), Associate Professor of Communications. B.A., M.A., Purdue University-Calumet; Ph.D., University of Illinois at Urbana-Champaign.

**Vessey, David** (2008), Professor of Philosophy. B.A., St. Olaf College; M.A., Ph.D., University of Notre Dame.

**Vigna, Janet** (2002), Professor of Biology. B.S., University of Michigan; Ph.D., University of Iowa.

**Villarreal, Melissa** (2015), Assistant Professor of Social Work. B.A., Hope College; M.S.W., Ph.D., Western Michigan University.

**Villatoro, Daphne** (2010), Affiliate Faculty in Spanish. B.A., Grand Valley State University; M.A., Western Michigan University.

**Viviano, Norwood** (2005), Associate Professor of Visual and Media Arts-Sculpture. B.F.A., New York State College of Ceramics at Alfred University; M.F.A., Cranbrook Academy of Art.

**Vlietstra, Sheryl** (2012), Affiliate Professor of Education. B.S., Central Michigan University; M.Ed., Grand Valley State University.

**Vogelzang, Jody** (2011), Associate Professor of Clinical Dietetics. B.S., Michigan State University; M.S., Grand Valley State University; M.A.T., Miami University; Ph.D., Waldon University.

**Vrooman, Michael** (2003), Associate Professor of Spanish. B.A., University of Toledo; M.A., Bowling Green State University; Ph.D., University of Massachusetts-Amherst.

**Vu, Kristen** (2015), Assistant Professor and Program Director of Medical/Dosimetry Educational Coordinator and RT Faculty. B.S., M.S., Grand Valley State University; M.S., Dosimetry Certificate, The University of Texas MD Anderson Cancer Center School of Health Professions.

**Wagendorp, Jeroen** (2004), Associate Professor of Geography and Sustainable Planning. B.S., Aquinas College; M.A., Western Michigan University; Ph.D., University of Oklahoma; AICP, GISP.

**Walhof, Darren R.** (2003), Professor of Political Science. B.A., Calvin College; Ph.D., University of Minnesota.

**Walker, Thomas** (2010), Associate Professor of Political Science. M.A., University of Michigan; M.A., University of Kent at Canterbury; Ph.D., Rutgers University.

**Wallace, Adrienne** (2016), Assistant Professor of Communications. B.S., M.S., Grand Valley State University; Ph.D., Western Michigan University.

**Wallace, Heather** (2011), Associate Professor of Public Health. B.A., Indiana University-Purdue University, IUPUI; M.P.H., Ph.D., University of Kentucky, Lexington.

**Wallace, Kody** (2019), Assistant Professor of Music. B.M.E., University of Florida; M.M.E., Florida State University; Ph.D., Florida State University.

**Wallar, Brad** (2003), Professor of Chemistry. B.S., University of Michigan-Flint; Ph.D., University of Minnesota.

**Walsh, Benjamin** (2020), Assistant Professor of Management. B.A., Augustana College; M.A., University of Northern Iowa; M.A., Ph.D., University of Connecticut.

**Walsh, John** (2010), Associate Professor of Criminal Justice. B.A., M.A., Southern Illinois University at Carbondale; Ph.D., Indiana University, Bloomington.

**Walz, Anna** (2009), Associate Professor of Marketing. B.S., M.B.A., University of Southern Indiana; Ph.D., Louisiana State University.

**Wampler, Peter** (2004), Professor of Geology, Frederik Meijer Honors College. B.S., Western Washington State University; M.S., Oregon State University; Ph.D., Oregon State University.

**Wang, Xinli** (2017), Assistant Professor of Computing. B.S., Nanjing Institute of Meteorology; M.S., Ph.D., Michigan Technological University.

**Wangdi, Yosay** (2003), Professor of History. B.A., Loreto College; M.A., Jadavpur University; M.S., Ph.D., University of Nevada, Reno.

**Ward, Jeffrey** (2013), Professor of Engineering. B.S., Brigham Young University; M.S., Ph.D., Utah State University.

**Ward, Séverine** (2011), Affiliate Faculty of French. Maîtrise en L.E.A., La Sorbonne Paris IV; M.A., Ph.D., Michigan State University.

**Warkoczeski, Larry** (2019), Affiliate Faculty of Health Administration. B.S., Western Michigan University; J.D., Valparaiso University; M.H.S.A., University of Michigan, Ann Arbor.

**Warsen, Gregory** (2017), Assistant Professor of Education. B.A., Calvin College; M.Ed., Ph.D., Western Michigan University.

**Watts, Keith E.** (1996), Associate Professor of Spanish. B.A., Eastern Mennonite College; M.A., University of Virginia; Ph.D., University of New Mexico.

**Weber, John C.** (1995), Professor of Geology. B.S., M.S., Southern Illinois University; Ph.D., Northwestern University.

**Weekley, Ayana K.** (2010), Associate Professor of Women, Gender, and Sexuality Studies. B.A., Truman State University; Ph.D., University of Minnesota.

**Weibel, Deana** (2003), Professor of Anthropology and Integrative, Religious, and Intercultural Studies. B.A., University of California, Irvine; M.A., Ph.D., University of California, San Diego.

**Weis, Richard** (1991), Associate Professor of Art and Design. B.F.A., Kansas City Art Institute; M.F.A., Indiana University.

**Welling, Bethany** (2008), Affiliate Instructor of Mathematics. B.S., Indiana Wesleyan University.

**Wells, Clark** (1997), Associate Professor of Mathematics. B.S., University of Kentucky; M.S., Purdue University; Ph.D., University of Kentucky.

**Wells, Pamela** (1995), Professor of Mathematics. B.S., University of Wisconsin-Oshkosh; M.S., Purdue University; Ph.D., University of Kentucky.

**Wendland-Liu, Joel** (2013), Associate Professor of Integrative, Religious, and Intercultural Studies. B.A., The Evergreen State College; M.A., University of Texas at El Paso; Ph.D., Washington State University.

**Werner, R. Marshall** (2020), Affiliate Faculty of Chemistry. B.S., Cornell University; Ph.D., University of Maryland College Park.

**Westbrook, Laurel** (2009), Associate Professor of Sociology. B.A., M.A., Ph.D., University of California, Berkeley.

**White, Anna** (2018), Assistant Librarian; B.A., Grand Valley State University; M.S., University of Illinois at Urbana-Champaign.

**White, Brian** (1990), Professor of English. B.A., M.A., Ph.D., University of Wisconsin-Madison.

**White, Julie** (2002), Senior Affiliate Professor of Writing. B.A., M.A., University of Toledo.

**Whitman, Heather** (2015), Affiliate Faculty of Biology. B.S., Grand Valley State University; M.S., Ohio State University.

**Willey, Mikhila N.** (2015), Assistant Professor of Psychology. B.S., M.A., Ph.D., Michigan State University.

**Wiljanen, Dan** (2016), Affiliate Faculty of Practice in Management. B.A., M.A., University of West Florida; Ph.D., Capella University.

**Wiley, Kristin** (2016), Assistant Professor of Occupational Science and Therapy. B.S., Western Michigan University; M.S., University of Indianapolis.

**Willey, Thomas** (1999), Associate Professor of Finance. B.S.B.A., University of Kansas; M.B.A., University of Houston; D.B.A., Mississippi State University.

**Williams, Elizabeth** (Betsy) (2014), Assistant Librarian. B.S., Texas A&M; M.L.I.S., University of Illinois, Urbana-Champaign.

**Williams, Judy** (2017), Affiliate Faculty in Education. M.S., East Texas State University.

**Williams, Mark** (2008), Professor and Associate Chair of Music. B.M., Michigan State University; M.M., D.M.A., The University of Texas at Austin.

**Williams, Olivia** (2005), Associate Professor of Education. B.A., M.A., Oakland University; Ph.D., Michigan State University.

**Williams, Todd J.** (2008), Associate Professor of Psychology. B.A., Ph.D., University of Alberta.

**Wilson, Alex** (2017), Assistant Professor of Music. B.M., Grand Valley State University; M.M., Arizona State University.

**Wilson, Carol** (2008), Affiliate Faculty in French. B.A., M.A., University of Northern Iowa.

**Winchester, Randy** (2002), Associate Professor of Chemistry. B.A., New College; Ph.D., University of Florida.

**Winter, Janet** (2012), Associate Dean of Undergraduate Programs and Associate Professor of Nursing. B.S.N., University of Michigan; M.P.A., Grand Valley State University; D.N.P., Rush University.

**Winther, Jennifer** (2011), Associate Professor of Biology. B.A., University of Chicago; Ph.D., University of Colorado, Boulder.

**Wittenbraker, Paul** (1997), Professor of Visual and Media Arts-Visual Studies. B.A., Wabash College; M.F.A., Cranbrook Academy of Art.

**Witucki, Laurie** (2000), Professor of Chemistry. B.S., Cedar Crest College; M.A., Ph.D., Princeton University.

**Wolf, Michael** (2000), Chair and Professor of Psychology. B.A., University of California; M.A., Ph.D., University of Colorado.

**Wolffe, Gregory S.** (1998), Professor of Computing. B.S., Michigan State University; M.S., Ph.D., University of Wisconsin.

**Woller-Skar, M. Megan** (2009), Associate Professor of Biology. B.S., Miami University; M.S., Central Michigan University; Ph.D., Bowling Green State University.

**Wolverton, Maureen** (2001), Senior Affiliate Faculty of Integrative, Religious, and Intercultural Studies. B.A., Michigan State University; M.A., Pacifica Graduate Institute.

**Wooddell, Michelle** (2014), Assistant Professor of Nonprofit Management. B.A., University of Michigan; M.P.A., New York University; Ph.D., Wayne State University.

**Woodman, Alisha** (2016), Affiliate Faculty of Computing. B.S., M.S., Grand Valley State University.

**Woodring, Ira** (2016), Affiliate Faculty of Computing. B.S., M.S., Grand Valley State University.

**Woznicki, Sean** (2019), Assistant Professor of Water Resources. B.S., M.S., Ph.D., Michigan State University.

**Wright, Diane** (1992), Professor of Spanish. B.A., Aquinas College; M.A., Ph.D., Michigan State University.

**Wroblewski, Michael** (2012), Associate Professor of Anthropology. B.A., Middlebury College; M.A., Ph.D., University of Arizona.

**Wu, Mingyu** (2009), Associate Professor of Occupational Safety and Health Management. B.S., China University of Geosciences; M.S., Indiana University; Ph.D., West Virginia University.

**Wu, Shinian** (1998), Professor of English. B.A., Xi'an Institute of Foreign Languages; M.A., Ph.D., Northern Arizona University.

**Wyble, J. Randy** (2008), Associate Professor of Therapeutic Recreation and Department Chair of Diagnostic and Treatment Sciences. B.S., M.S., Michigan State University; D.H.Ed., A.T. Still.

**Xu, Gang** (2006), Associate Professor of Geography and Sustainable Planning. B.S., Nanjing University; M.S., Chinese Academy of Sciences; Ph.D., Johannes Gutenberg University of Mainz.

**Xu, Xiaojuan (Xandra)** (1994), Professor of Psychology. B.S., Beijing University; M.S., Ph.D., University of Michigan.

**Yalda, Christine** (2004), Associate Professor of Criminal Justice. B.A., University of Michigan; J.D., Boston University Law School; M.S., Ph.D., Arizona State University.

**Yancey, Jason E.** (2009), Associate Professor of Spanish. B.A., M.A., Brigham Young University; Ph.D., University of Arizona.

**Yang, Fang** (2016). Associate Professor of Communications. B.A., Sichuan University, China; M.A., University of Alabama; Ph.D., Michigan State University.

**Yen, Huei Lan** (2012), Associate Professor of Spanish. B.A., Jinan University; M.A., Ph.D., University of Oklahoma.

**Yidana, Richard** (2006), Associate Professor of Sociology and African/African American Studies. B.A., Clark University; M.A., Ph.D., Binghamton University.

**Youker, Brandon W.** (2012), Assistant Professor of Social Work. B.A.S.W., Michigan State University; M.S.S.W., Columbia University; Ph.D., Western Michigan University.

**Ysasi, Raul** (2013), Affiliate Professor of Education. B.A., M.A., Grand Valley State University; M.A., Michigan State University; Ed.D., Wayne State University.

**Yu, Yan** (1998), Professor of Sociology. B.A., M.A., Beijing University; Ph.D., Florida State University.

**Yu, Paul Woo Dong** (2003), Professor of Mathematics. B.S., University of Illinois at Urbana; M.S., Ph.D., Illinois State University.

**Yuhás, Michael** (1985), Professor of Accounting and Taxation. B.A., University of Notre Dame; J.D., Indiana University; LL.M., Georgetown University; LL.M., University of Miami; C.P.A.

**Zack, Suzanne** (2014), Affiliate Professor of Visual and Media Arts, Film and Video Production. B.S. William James College; M.F.A., Temple University.

**Zaszlavik, Katalin** (2003), Associate Professor of Visual and Media Arts-Art Education. Diploma, Hungarian College of Applied Arts; M.A., Ph.D., University of Illinois.

**Zemmel, Gail** (2008), Affiliate Professor of Hospitality and Tourism Management. M.A., Michigan State University.

---

Grand Valley State University is an affirmative action, equal opportunity institution. It encourages diversity and provides equal opportunity in education, employment, all of its programs, and the use of its facilities. It is committed to protecting the constitutional and statutory civil rights of persons connected with the university.

Unlawful acts of discrimination or harassment by members of the campus community are prohibited. In addition, even if not illegal, acts are prohibited if they harass or discriminate against any university

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

community member(s) through inappropriate limitation of access to, or participation in, educational, employment, athletic, social, cultural, or other university activities on the basis of age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, sex/gender, sexual orientation, veteran status, or weight. Limitations are lawful if they are: directly related to a legitimate university purpose, required by law, lawfully required by a grant or contract between the university and the state or federal government, or addressing domestic partner benefits.
