# 2021-2022 Undergraduate & Graduate Catalog

[gvsu.edu/catalog](https://gvsu.edu/catalog)

## Welcome to Grand Valley State University

We're so glad you have decided to join our community of Lakers for a Lifetime.

There is a spirit at Grand Valley that bonds students, faculty members, staff members, and alumni. You'll discover it in our campus traditions. You'll find it in our classrooms and corridors. You'll carry it with you as you go through life. It is this bond, this spirit, that makes you a Laker for a Lifetime.

If you ask our alumni what it means to be a Laker, you'll consistently hear that all Lakers share traits, such as a diverse perspective and a willingness to embrace new ideas. They also have a curiosity and passion for learning, which is often inspired by working closely with a professor who became a personal mentor. You'll also hear about the value of service to others and giving back, learned as much outside the classroom as in it, through the West Michigan community, clubs or organizations, study abroad experiences, or simply engaging in campus life.

The roots of this spirit run deep, back to our founding in 1960. Grand Valley was started by visionary entrepreneurs and West Michigan citizens who wanted to make a difference in the community. Our first students were educational pioneers, willing to take a chance on a different type of college so that they could make a difference in the world.

Now it's your turn to contribute to our campus with your talents and your passions, to be fully engaged in your communities, and to care for those around you, your Laker family.

Then when it is time for you to graduate and give back, you'll be prepared to carry the torch for the students who will follow you. You'll lead by example, so that they can look to you and say, "That's what it means to be a Laker."

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Thank you for choosing to be a Laker and for your commitment to being a Laker for a Lifetime.

## **About Grand Valley**

A strong liberal education serves as the foundation for Grand Valley's wide array of undergraduate and graduate programs, fostering critical thinking, creative problem solving, and cultural understanding that prepares students for responsibility as local, national, and global citizens. Through personalized learning enhanced by active scholarship, we accomplish our mission of educating students to shape their lives, their professions, and their societies.

## **Mission**

Grand Valley State University educates students to shape their lives, their professions, and their societies. The university contributes to the enrichment of society through excellent teaching, active scholarship, and public service.

## **Vision**

Grand Valley State University demonstrates its commitment to providing an inclusive learning environment where all students can explore new directions, find their niches, and develop skills for life and productive careers. Grand Valley is known for increasingly innovative and outstanding teaching, recognized scholarship, significant community engagement, and excellent stewardship of its resources. Our university inspires and equips students to be active lifelong learners and global citizens. Grand Valley strives to be a model public university shaping leaders for success.

## **Values**

At Grand Valley State University, the primary focus is on the success of students. To that end, the principles of liberal education permeate all programs and areas of study. This broad educational perspective provides students with the general knowledge and transferable skills necessary to positively influence their communities, their professions, and the broader world. The institution is characterized by and known for its superior student-centered teaching and learning. Students acquire new knowledge and explore its application through artistic expression, scholarly activity, and active engagement in a variety of communities. To students, we are a big university with a small-college feel. Our mission, vision, and strategic outcomes reflect the seven core values that define students, faculty, and staff members. These core values provide a foundation and framework for all of Grand Valley's decision-making processes. We

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

use them as touchstones in developing the strategies and tactics that lead to the attainment of the institutional outcomes and strategic priority areas and objectives of our strategic plan. We translate our values into actions institution wide; they are reflected in the policies, practices, and assessments we implement every day. These core values are described as follows:

### **Excellence**

Grand Valley State University values excellence in all aspects of its enterprise. Our students' levels of performance in learning, scholarship, and community service; our stewardship of resources; our regular assessment and refinement of instructional and operational processes; and our shared dedication to excellence compel us to strive for exemplary and responsible outcomes in all that we do. Within our academic community, we individually and collectively celebrate our successes and the difference our commitment to excellence makes to individuals and communities in West Michigan, the state, the nation, and the world.

### **Integrity**

Grand Valley State University values honesty, fairness, and openness in its actions, transactions, and communications. Our emphasis on integrity compels us to respect and teach the fundamental tenets of a liberal education that remain central to our identity and reputation. We moreover value the incorporation of ethics into critical thinking and decision making institution wide. The value we place on integrity underscores our intention to be trustworthy, dependable, and adhere to legal and regulatory requirements; we aspire to set an example for others in our words and actions. Our stakeholders and the public can count on Grand Valley to make wise decisions and carry them out transparently and with fidelity to the university's mission and vision for its future. As members of the Grand Valley community, we hold ourselves accountable to each other, the institution, and the broader public that we serve.

### **Inquiry**

Grand Valley State University values inquiry, which encourages the lifelong pursuit of knowledge to improve the human condition and expand our understanding of the world. Consistent with our historical commitment to liberal education, we invest our resources to promote intellectual growth, creativity, scholarship, and critical thinking in our students, our faculty and staff, and the communities we serve. We promote global education and an internationalization of our curriculum that celebrates and encourages intellectual exploration, open discourse, and the unfettered expression that characterizes the academy. We celebrate and promote freedom of speech as foundational to the creation and dissemination of knowledge in every discipline. We are committed to learning as a means of preparing individuals for academic success, meaningful careers, and exemplary community service.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Inclusiveness**

Grand Valley State University values all identities, perspectives, and backgrounds and is dedicated to incorporating multiple voices and experiences into every aspect of its operations. We believe that diversity competencies are an intellectual asset and that a range of thoughtful perspectives and a commitment to open inquiry strengthens our liberal education tradition. We recognize that the long-term viability of the institution depends upon anticipating and meeting the needs of emerging constituent groups, especially our changing student body. Therefore, the institution seeks to include, engage, and support diverse groups of students, faculty and staff members, as well as community members. Grand Valley is committed to strengthening our living, learning, and working environment by recognizing and removing the barriers to full participation and providing a safe, inclusive, vibrant community for all.

## **Community**

Grand Valley State University values its connections to, participation with, and responsibility to local communities, West Michigan, the state, the nation, and the world. We value the collaboration of faculty members, staff members, and students with external partners in addressing mutual interests and community needs. The university offers the communities it serves resources and inspiration in their own lifelong pursuit of knowledge. Faculty and staff members are encouraged to contribute their expertise and service working in partnership with communities. Students are encouraged to take part in various service learning and volunteer opportunities in their communities and abroad. To foster and expand these community connections, the institution and its members promote, value, and honor diverse perspectives.

## **Sustainability**

Grand Valley State University values the guiding principles of sustainability in helping to meet the current needs of our faculty members, staff members, and students without compromising the needs and resources of future generations. We are committed to working with our community partners to create a sustainable future for our university, our community, our region, our state, our nation, and the world. We model applied sustainability best practices in our campus operations and administration, education for sustainable development, student involvement, and community engagement by promoting social responsibility, practicing fiscal responsibility, and encouraging environmental stewardship. We provide our students with excellence in education for sustainable development by imbedding theory, systems-oriented thinking, and service learning into our curricular and extracurricular programs.

## **Innovation**

Grand Valley State University encourages and appreciates innovation. We value entrepreneurship and integrative interdisciplinary collaboration that solves local,

regional, and global problems and advances the common good. We strive for the development of innovative products, systems, and services that contribute to improvements in the well-being of individuals and our world. We trust that scholarship and the new knowledge it produces are worthy of our investments in their creation and proliferation. We manage our resources and structure our university to encourage new ideas, creativity in all its forms, and novel approaches to answering the most important and challenging questions of our time.

**Affirmative Action:** Grand Valley State University does not discriminate against students, faculty, or staff in any of its employment practices or in its educational programs or activities. Grand Valley State University is guided by values for inclusiveness and community, which are integral to our mission to educate students to shape their lives, their professions, and their societies, and to enrich the community through excellent teaching, active scholarship, and public service. The university is an affirmative action, equal opportunity institution. It encourages diversity and provides equal opportunity in education, employment, all of its programs, and the use of its facilities. Members of the university community, including candidates for employment or admissions, and visitors or guests, have the right to be free from acts of harassment and discrimination, which are prohibited if they discriminate or harass on the basis of age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, veteran or active duty military status, or weight. In addition, Grand Valley is required by Title IX of the Education Amendments of 1972 to ensure that none of its education programs and activities discriminate on the basis of sex/gender. Sex includes sex stereotypes, gender identity, gender expression, sexual orientation, and pregnancy or parenting status. The Office for Title IX and Institutional Equity serves as a resource for the GVSU community and assists individuals who may have been impacted by discrimination or harassment in connecting with resources, imposes measures that protect or support access to programs and activities, and oversees the university's grievance process for allegations of discrimination and harassment. Inquiries regarding the application of Title IX may be referred to the Title IX coordinator, 4015 Zumberge Hall, [titleix@gvsu.edu](mailto:titleix@gvsu.edu), (616) 331-9530.

**Notice:** All material in this catalog applies to the 2021-2022 academic year and reflects information available on the publication date. Grand Valley State University reserves the right to revise all announcements contained in this publication and, at its discretion, to make reasonable changes in requirements to improve or upgrade academic and nonacademic programs.

## Academic Excellence

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The university's highest priority is to offer outstanding teaching grounded in the liberal tradition in all of its undergraduate and graduate programs and vigorous engagement of students in the classroom and other learning environments. Grand Valley is known for excellence in student-centered teaching and learning. Ninety-four percent of regular faculty members have earned doctoral degrees or other appropriate terminal degrees. They are supported by a high-quality nonteaching professional staff and Grand Valley's exceptionally fine teaching facilities. The quality of instruction is enhanced further by small class size, individual student advising, and career counseling.

Our instructional offerings encompass more than 300 areas of study, including 96 undergraduate and 46 graduate programs.

## **Accreditation**

Grand Valley is accredited by the Higher Learning Commission ([hlcommission.org](http://hlcommission.org)), a regional accreditation agency recognized by the U.S. Department of Education.

Other accreditations and approvals include:

## Tutoring

College Reading and Learning Association - International Tutor Training  
Program Certification

## University Counseling Center

International Association of Counseling Services (IACS)

## Grand Valley Equals Grand Value

At Grand Valley State University, we recognize that the more quickly students complete their degrees the less their educations will cost. Grand Valley has a long-standing practice of supporting and helping students make regular progress toward graduation, making the excellent education they receive at Grand Valley also a "Grand Value."

Nearly all of Grand Valley's undergraduate degrees can be completed in four years of full-time study.\* Full-time students who select a degree program requiring completion of 120 credit hours will be able to count on a four-year graduation when they

- tell their advisor that they plan to study full-time and intend to graduate in four years;
- obtain a list of prerequisites and required classes and fulfill it;
- visit regularly with their advisor to ensure their course selections are timely and correct;
- maintain the same major and minor; and
- successfully complete at least 30 credit hours of coursework every academic year without repeating courses.

\*Some undergraduate programs, primarily in education and select professional fields, require more than 120 hours for the baccalaureate degree, usually to meet state or national accreditation requirements. Please consult our catalog for degree requirements, which are listed by department in the Academic Programs section of the catalog.

## University Facts

Visit [gvsu.edu/quickfacts](http://gvsu.edu/quickfacts) for facts about Grand Valley State University.

## Visiting the Campuses

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Prospective students are always welcome to visit the campus and talk with staff members in Admissions or Financial Aid. The Admissions Office is happy to make arrangements to tour the campus and meet with an admissions counselor.

The Admissions Office is open Monday through Thursday from 8 a.m. to 6 p.m. and on Fridays from 8 a.m. to 5 p.m. from September through April. Appointments are available on Saturdays from 9 a.m. to 4 p.m. during Grand Valley's academic year. Summer hours are from 8 a.m. to 5 p.m. Monday through Friday.

Prospective students should make an appointment with the Admissions Office, especially for Saturday visits, by contacting:

### **Admissions**

Grand Valley State University  
300 Arend and Nancy Lubbers Student Services Center  
Allendale, Michigan 49401-9403  
Telephone: (616) 331-2025  
Toll free: (800) 748-0246 (for Admissions, Financial Aid, Housing, and Records)  
Email: [admissions@gvsu.edu](mailto:admissions@gvsu.edu)

### **Allendale Campus**

The 1,300-acre **Allendale Campus** is located 12 miles west of Grand Rapids and is home to state-of-the-art facilities that include 134 classrooms, 158 research laboratories, 15 teaching labs, 20 lab prep rooms, 23 computer labs, and the Mary Idema Pew Library Learning and Information Commons. The university currently has 6,012 beds, the majority of them on the Allendale Campus.

For detailed information regarding these locations, please see The Campuses section of the online catalog.

### **Grand Rapids Campuses**

The Grand Rapids campuses total 64-acres in downtown Grand Rapids, MI.

The principal buildings on the **Robert C. Pew Grand Rapids Campus** are the Richard M. DeVos Center, L.V. Eberhard Center, John C. Kennedy Hall of Engineering, Fred M. Keller Engineering Laboratories, Innovation Design Center and the L. William Seidman Center. These state-of-the-art facilities include 78 classrooms, seven computer labs, 37 laboratories, and the Steelcase library.

The Cook-DeVos Center for Health Sciences is located at the top of Grand Rapids' Medical Mile and was the initial building on the **GVSU Health Campus**. Raleigh J.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Finkelstein Hall was the next building and was completed in 2018. The newest addition to the Health Campus is the Daniel and Pamella DeVos Center for Interprofessional Health. Together, the buildings provide 25 classrooms, six computer labs, 49 teaching and research labs, and a Simulation Center.

### **Meijer Campus in Holland**

The Holland Campus, located at 515 Waverly Road, has 15 classrooms and labs, including a science lab, two computer labs, and an interactive television room. In 2008, Grand Valley partnered with Grand Rapids Community College to expand program offerings in Holland. For more information on the Holland campus, contact us by phone (616) 331-3910 or email us at [Holland@gvsu.edu](mailto:Holland@gvsu.edu).

For detailed information regarding these locations, please see The Campuses section of the online catalog.

### **Regional Centers:**

#### **Muskegon Campus**

The Robert B. Annis Water Resources Institute, which is housed in Lake Michigan Center located on Muskegon Lake, conducts research with a primary focus on the water quality of Michigan and the region. The Muskegon Innovation Hub, located in the Muskegon Lakeshore SmartZone on Muskegon Lake, is a business innovation center that provides coaching, funding, networking, and a synergistic work environment to help businesses and entrepreneurs.

Through facilities at the Stevenson Center for Higher Education on the campus of Muskegon Community College and the **Regional Center in Traverse City** located at Northwestern Michigan College University Center, Grand Valley offers graduate and undergraduate programs and provides on-site student services. Admission and registration information, academic advising, bookstore services, tuition payment, library resources, and computer technology are all available in each of the Grand Valley centers. For more information, please contact our Muskegon office at 221 S. Quarterline Road or by phone at (231) 777-0505. The Traverse City office is located at 2200 Dendrinis Drive and can be reached by calling (231) 995-1785.

The **Detroit Center** located at 163 Madison Street in downtown Detroit contains classrooms, offices, and support spaces used primarily by the Grand Valley Charter Schools Office and the College of Education.

# The Colleges

## Brooks College of Interdisciplinary Studies

### Administration

Dean: Schaub

Interim Associate Dean: Shell-Weiss

### Website

[gvsu.edu/brooks](http://gvsu.edu/brooks)

### Mission

The Brooks College of Interdisciplinary Studies provides Grand Valley and the community with experiences, expertise, and programming that deepens our understanding of the world around us. The college does this through its innovative curriculum and by providing students with high-impact learning experiences like service-learning projects, study abroad opportunities, internships, living and learning communities, and intensive writing and research opportunities. The mission of the Brooks College is cultivating engaged global citizens through innovative interdisciplinary programs and diverse community partnerships.

### Program Information

The Brooks College of Interdisciplinary Studies challenges students to tackle the important issues of the day by integrating the perspectives, knowledge, and methodologies of multiple fields of study. The college offers majors in environmental and sustainability studies; global studies and social impact; integrative studies; and women, gender, and sexuality studies. Minors are available in African/African American studies; digital studies; East Asian studies; environmental and sustainability studies; human rights; Latin American and Latino/a studies; LGBTQ studies; Middle East studies; religious studies; and women, gender, and sexuality studies. The college also offers a graduate degree in social innovation and certificate programs in sustainable food systems, Latino/a studies, leadership, and intercultural competence and communication. Most of these academic programs have social justice components to them.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The centers, initiatives, service units, and university-wide programs in Brooks College provide the expertise of highly qualified faculty and staff to Grand Valley and the West Michigan communities, helping people to become more skilled and experienced with internationalism, intercultural communication, sustainability, local history, social justice, creative problem-solving, and the goals of a liberal education.

What is interdisciplinarity? Interdisciplinarity is the integration of knowledge and methodologies from across the university to better understand the world around us. The most complex issues of the world - environmental stewardship, human rights, poverty, and the migration of people, to name a few - can only be addressed effectively if we pose questions, test hypotheses, and apply knowledge from different perspectives. In an interdisciplinary program, the focus is on improving critical-thinking skills by prompting students to integrate knowledge from among the humanities, social sciences, natural sciences, performing arts, and the professional programs. The interdisciplinary courses and programs in Brooks College are taught by faculty whose own research is interdisciplinary as well as by teams of faculty from across the disciplines who are skilled at helping students see different fields of study as parts of a whole. The goals of our classes and programs are to help students integrate perspectives from a variety of disciplines in order to problem-solve in a global context, take-action in their communities, and connect learning to their future professions.

## **Academic Units**

### **Area and Global Studies**

The Area and Global Studies Department includes interdisciplinary programs that focus on the history, politics, geography, and culture of various world regions as well as on current global issues such as human migration, climate change, and changing economies. The department offers the following programs:

- African/African American studies (minor)
- East Asian studies (minor)
- Global studies and social impact (major)
- Latin American and Latino/a studies (minor) and a Latino/a studies certificate
- Middle East studies (minor)

### **Digital Studies**

The digital studies minor provides students with skills to understand and use digital technologies. Regardless of their specialized major, today's students will work in areas that increasingly rely on digital tools and platforms to create and share information. Through theory and practice, the minor provides opportunities to gain experience in using digital tools and develop a complex understanding of the cultural, social, and ethical dimensions of a digitized world. Visit [gvsu.edu/ds](http://gvsu.edu/ds).

### **Environmental and Sustainability Studies**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Environmental and sustainability studies draws upon a variety of disciplines - arts and humanities, physical and life sciences, and economic and policy studies - to develop a holistic, place-based, and solutions-oriented understanding of environmental and sustainability challenges. While all aspects of humans' interaction with their environments may be relevant to environmental and sustainability studies, areas of particular interest include sustainable food systems, energy and climate change, water quality, and the cultural and built environment.

The major combines academic foundations in various disciplines with practical experience in interdisciplinary research and problem-solving to prepare graduates to work effectively in business, nonprofit, civic, or governmental roles that support sustainability and environmental responsibility. Students pursue either a B.A. or B.S. degree. The minor is structured for students in any major who have a strong interest in environmental and sustainability issues. The sustainable food systems certificate provides skills and experience necessary to address the role of food in community life. For more information, visit [gvsu.edu/ens](http://gvsu.edu/ens).

## **Human Rights**

The human rights program offers an interdisciplinary minor that provides students with both intellectual and practical opportunities to engage with a broad range of 21st century human rights issues both locally and globally. Students have opportunities to participate in high-impact practices such as study abroad, internships, and a Capstone project. The study of human rights provides insights and skills that are relevant to careers in humanitarian organizations and NGOs, businesses, health care, politics, and the law. For more information about the program, go to the website at [gvsu.edu/humanrights](http://gvsu.edu/humanrights).

## **Integrative, Religious, and Intercultural Studies**

The Integrative, Religious, and Intercultural Studies Department at Grand Valley State University ([gvsu.edu/iris](http://gvsu.edu/iris)) provides students with the opportunity to design programs that suit their specific interests, talents, and career aspirations utilizing courses throughout the university. The program begins with a core of required courses. Then, with the help of a faculty advisor, students develop a major area of study based on a specific theme, issue, problem, or career interest. Students interested in exploring the integrative studies option might begin by taking one of the core courses in conjunction with the Grand Valley State University general education requirement or one of the integrative or interdisciplinary electives. Interested students are invited to write or meet with any integrative studies faculty member. The department also offers a certificate and a badge in intercultural training, giving students skills to interact effectively with people who differ from themselves in values, culture, and life experiences.

## **Religious Studies**

Housed within the Integrative, Religious, and Intercultural Studies Department, the religious studies (REL) minor prepares students to think critically and creatively, connecting differing perspectives as an essential foundation for intercultural civic engagement. The REL minor offers students flexibility to tailor their studies to fit within a larger degree program, including the option to complete all needed courses online. Enhancing ones understanding of religious issues is

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

a good complement to any major and provides a strong foundation for careers in areas as diverse as the law, criminal justice, business, journalism, public policy, government, international development, education, and humanitarian services.

### **Women, Gender, and Sexuality Studies**

The Women, Gender, and Sexuality Studies (WGS) Department at Grand Valley ([gvsu.edu/wgs](http://gvsu.edu/wgs)) offers an interdisciplinary major and minor based on the study of women, gender, and sexuality, as well as a minor in LGBTQ studies. WGS has close relationships with the Integrative, Religious, and Intercultural Studies Department and the African/African American, Middle Eastern, Latin American and Latino/a, and East Asian programs. The WGS Department works closely with the Gayle R. Davis Center for Women and Gender Equity, Milton E. Ford LGBT Resource Center, and Office of Multicultural Affairs to cosponsor a variety of speakers, events, and internships. For students selecting the major or minor in women, gender, and sexuality studies, there are more than 30 courses that fulfill the required 21 hours. More than 40 faculty members across the campus support WGS through teaching, research, and service.

### **Barbara and Stuart Padnos International Center**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Padnos International Center (PIC) serves as the university clearinghouse for study abroad opportunities for students from all academic programs. Students can choose to take faculty-led classes abroad, spend a semester abroad, intern at an international site, or participate in virtual exchange opportunities. In addition, grants are available for faculty and staff to travel abroad to aid in the internationalization of Grand Valley and its curriculum. PIC hosts international scholars as well as incoming international students. For more information, visit [gvsu.edu/pic](http://gvsu.edu/pic).

### **Frederik Meijer Honors College**

The Frederik Meijer Honors College provides academically talented students from all majors with the opportunity to work with excellent teaching faculty in a small college environment. The mission of the honors college is to provide a challenging interdisciplinary liberal education and a living/learning environment that prepares students to be intellectually curious lifelong learners and leaders in their communities and a changing world. Additional honors college information is available in the honors college section of the catalog. Honors courses are team-taught, blocked sequentially, and offer an interdisciplinary approach to general education. For more information, visit [gvsu.edu/honors](http://gvsu.edu/honors).

### **Kutsche Office of Local History**

The Kutsche Office of Local History fosters dialogue, understanding, and empowerment through local history. Guided by its mission, "giving voice to diverse communities through history," the Kutsche Office supports local history and cultural heritage institutions, organizations, and practitioners in West Michigan through expertise, networking, and collaborative projects. This is done in a variety of ways including, but not limited to, interdisciplinary research and teaching initiatives; serving as a resource to more fully document, preserve, and make known the histories of underrepresented/marginalized groups in West Michigan; supporting high impact practices (e.g., internships, research assistantships) for Grand Valley students; an internship program that places Grand Valley students in opportunities both on and off campus; and annual programming that supports the office's mission and connects Grand Valley faculty and students with community members around areas of common interest. Current programs include the annual Local History Roundtable, digital program series, Engaging the Community Series, and Youth Leadership Initiative. Information about programs and upcoming events can be found on the Kutsche Office website at [gvsu.edu/kutsche](http://gvsu.edu/kutsche).

### **Brooks College of Advising Center**

The Brooks College Advising Center offers a variety of programs and resources to fully engage students in their lifelong educational journeys and assist them in making connections between school, work, and other spheres of their everyday lives.

Some of the hallmark programs of the Office of Integrative Learning and Advising:

- **Brooks College Advising Support Services** coordinates and assists in providing services and resources supporting academic advising for students majoring or minoring in Brooks College academic programs.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- **Brooks Professional Series** offers students the opportunity to connect their academic program to professional skills and opportunities. Students learn how to articulate their majors, develop a professional "brand," and make connections through networking events.

## **Office of Sustainability Practices**

The Office of Sustainability Practices supports Grand Valley administration, faculty, staff, students, and community members to foster a culture of sustainability by designing and implementing programs, while supporting policies to encourage sustainable behaviors and responsible global citizen-stewards. Social responsibility, cultural values, economic prosperity, and environmental stewardship are the core values of sustainability, aimed at the preservation of society for future generations. The Office of Sustainability Practices helps to ensure projects are informed by sustainable best practices through advocating for awareness, education, and engagement in all topics related to sustainability, including water, energy, transportation, purchasing, and others. To learn more, please visit [gvsu.edu/sustainability](http://gvsu.edu/sustainability).

## **Sustainable Agriculture Project**

The Sustainable Agriculture Project (SAP) is a collaborative initiative to seed sustainable practices, foster leadership and learning, and grow community. Housed in the Brooks College, the SAP serves the entire campus community by providing a farm on the Allendale Campus to stimulate experiential education, where faculty, staff, students, and community members are invited to get hands-on involvement in all aspects related to sustainable agriculture. Environmental stewardship, efficient production, food justice, and food literacy are core components to the SAP's philosophy. To learn more about opportunities for internships, research grants, class visits, tours, and purchasing produce from the farm, visit [gvsu.edu/sustainableagproject](http://gvsu.edu/sustainableagproject).

## **Student Services and Campuswide Programs**

### **Fred Meijer Center for Writing and Michigan Authors**

The Fred Meijer Center for Writing and Michigan Authors provides all university writers with the resources and services they need to meet their writing goals. Students, faculty, and staff can receive feedback on any writing project, at any stage of the writing process. The center's well-trained peer consultants can help brainstorm ideas, organize content, integrate research, and/or polish a draft. The goal of these writing consultations is to help writers help themselves, not just with that single piece of writing, but also to become better writers overall. Information regarding writing center services can be found in the Undergraduate Information section of the catalog or online at [gvsu.edu/wc](http://gvsu.edu/wc).

### **Supplemental Writing Skills Program**

The Supplemental Writing Skills (SWS) program is a pedagogical component of the Grand Valley general education requirements. SWS courses are writing-intensive, meaning the

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

development of writing skills through critique and revision is a major component of course assignments and grading. Grand Valley requires students to complete two SWS courses to graduate. Specific courses are listed as SWS. Additional information regarding SWS requirements can be found under Academic Policies and Regulations or at [gvsu.edu/sws](http://gvsu.edu/sws).

321C DEV, (616) 331-6890, ccpsadvisor@gvsu.edu

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Undergraduate academic advising within the College of Community and Public Service (CCPS) is a collaborative partnership between students, faculty members, and staff members committed to developing meaningful educational plans aligned with students' values, goals, and interests. We engage students as active participants in their educational experience and empower them to successfully navigate the university in pursuit of their personal, academic, and professional goals.

The CCPS Undergraduate Advising Center (UAC) provides advising assistance and information for the following undergraduate programs:

- Criminal justice
- Hospitality and tourism management
- Legal studies
- Public and nonprofit administration
- Social work

Here are some of the ways the CCPS-UAC can help you achieve your degree goals:

- **Degree planning.** Academic advisors help students make informed choices about degree and graduation requirements. They can help clarify curriculum, course content, and optimal course sequences. Advisors will also enhance student awareness of diverse educational experiences to further enrich the academic plan.
- **Goal setting.** Academic advisors can assist students with the clarification of career and life goals, development of decision-making skills, reinforcement of self-direction, and evaluation of student progress toward established goals.
- **Outreach and support.** Academic advisors can assist students with academic support needs through individual sessions, group workshops, and connections with educational resources across the university.
- **Policies and procedures.** Students are responsible for their role in the academic process and navigating the university system. Academic advisors can help clarify university policies and procedures to enhance the student's ability to participate in the academic process.
- **Referrals.** Academic advisors can refer students to faculty mentors, other campus services, and student success resources.

## Graduate Assistantships

Graduate assistantships exist in the Undergraduate Advising Center; the School of Criminal Justice (SCJ); Hospitality and Tourism Management (HTM); the School of Public, Nonprofit, and Health Administration (SPNHA); and the School of Social Work, as well as the Johnson Center for Philanthropy.

**Undergraduate Advising:** This is a position available for a College Student Affairs Leadership or adult and higher education program student interested in gaining experience in the academic advising profession. The position assists the staff of the CCPS Advising Center in answering

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

questions via phone or electronic communication, meeting with students one-on-one and in groups, reviewing degree requirements, developing academic plans, assisting with registration, and other academic support projects.

Graduate assistants in SCJ, HTM, and SPNHA provide support to faculty with their teaching responsibilities, research and grant activities, and also provide departmental support.

Social work graduate assistants assist with both the B.S.W. and M.S.W. programs, as well as community projects. Graduate assistants at the Johnson Center are Community Research Institute and Nonprofit Services research assistants.

## **College of Education**

### **Administration**

Dean: Soman

Associate Dean: King

Associate Dean: Shinsky

### **Website**

[gvsu.edu/coe](http://gvsu.edu/coe)

### **Mission**

Teaching, leading, and learning in a democratic society.

### **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

### **Values**

The College of Education values *expertise* to guide our practice, *equity* to guide our interactions, *liberal education* to guide our perspectives, and *social responsibility* to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

### **Program Information**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The College of Education offers programs leading to initial certification (Michigan standard teaching certification) both at the undergraduate and graduate level. Certification is available at the undergraduate level in elementary and secondary general education and special education. Candidates complete a teachable major in one of the content areas and a second major in education. The graduate-level initial certification program, graduate teacher certification (GTC), is for candidates who already possess an approved baccalaureate degree.

The teacher preparation program reflects a belief in strong backgrounds in the liberal arts, familiarity with learning theory, and practical experience in diverse settings. College of Education faculty members teach courses and seminars in educational philosophy and psychology, methods and materials, school organization and management, and technology and assessment. Faculty members from the College of Liberal Arts and Sciences teach content area courses.

Graduate level programs offer the Master of Education (M.Ed.) degree, Michigan standard teaching certification, administrator certification, school counseling license and endorsement, certification renewal, and programs leading to approvals, endorsements, and professional development.

The major function of the graduate program is to create opportunities for professional renewal and development. The graduate program attempts to increase knowledge and understanding of the learning process and the repertoire of teaching methods and skills. The graduate program offers the M.Ed. degree in seven major areas: educational technology, higher education, instruction and curriculum, educational leadership, literacy studies, school counseling, and special education.

Beyond the graduate program, the College of Education offers the educational specialist degree in leadership (Ed.S.). This degree program builds on the master's degree and develops leadership practitioners for school and/or central office administrative positions. The program provides district leaders with meaningful clinical experiences, case methods of teaching, and pragmatic curriculum geared to the specific knowledge and skills required by district leaders and superintendents at different career stages. See the Education section under Academic Programs in this catalog for specific program requirements.

## **Units**

### **Academic Departments**

- Educational Foundations
- Educational Leadership and Counseling
- Literacy and Technology
- Teaching and Learning

### **Administrative Departments**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Student Information and Services Center

## **TRIO**

Educational Talent Search  
Teacher Preparation Student Support Services  
Upward Bound

All offices are located at the Richard M. DeVos Center on the Pew Grand Rapids Campus, with the exception of the Educational Talent Search office which is located at the Depot on the Pew Grand Rapids Campus.

## **Accreditation**

The College of Education is an upper-division and graduate unit. Programs are approved by the Michigan Department of Education and follow the Council for the Accreditation of Educator Preparation (CAEP) guidelines.

## **Admission**

### **Graduate Admission**

For specific graduate College of Education admission requirements, see the Graduate Teacher Education Program Description.

### **Secondary Admission for Undergraduates**

For specific undergraduate College of Education initial certification admission requirements, see the Undergraduate Teacher Education Program Description.

## **Student Services**

The College of Education Student Information and Services Center (SISC) provides advising and information that supports undergraduate and graduate students through a variety of transitions within the College of Education. The service center offers centralized services for admissions, placement, advising, and certification. A full service professional staff is available for advising and assistance. Contact [coeserve@gvsu.edu](mailto:coeserve@gvsu.edu) or phone (616) 331-6650.

### **Graduate Assistantships**

Graduate assistant positions are available in the College of Education to assist with research, writing, data collection and analysis, grant proposal development, student services, computer projects, and serving on graduate committees.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Refer to [gvsu.edu/gs/policies-and-procedures-58.htm](http://gvsu.edu/gs/policies-and-procedures-58.htm) or The Graduate School section in this catalog for additional information on Graduate Assistantships.

## Scholarships

Each year, the College of Education assists students through the generosity of individuals and organizations dedicated to the preparation of educators. All scholarship awards require formal admission to the College of Education. Please refer to the university's scholarship website at [gvsu.edu/scholarships](http://gvsu.edu/scholarships) for more information or to apply through myScholarships, the online application database.

- Baldwin Foundation Scholarship Endowment Fund
- Greta and Arthur DeLong Scholarship for Teacher Education
- Kenneth and Irene Fridsma Endowed Special Education Scholarship
- Faculty Teaching and Learning Center Scholarship for Minority Students in Education
- Mack-Jackson African American Teacher Scholarship
- Joe E. Reid Memorial Scholarship
- Telephone Pioneers of America Scholarship
- J. Patrick Sandro Education Scholarship
- Graduate Teacher Certification Scholarship
- The David G. and Mary L. Annis Education Scholarship
- Paul '81 and Pamela '80 Schweitzer Scholarship
- College of Education Future Teacher Scholarship
- PNC Early Childhood Education Scholarship

Refer to [gvsu.edu/financialaid](http://gvsu.edu/financialaid) or the Costs and Financial Aid section in this catalog for scholarship details.

## Student Organizations

**Kappa Delta Pi** (KDP) is an international honor society in education that fosters excellence in education and promotes fellowship among those dedicated to teaching. The Grand Valley KDP Student Chapter provides service opportunities in schools and throughout the community to positively impact the education of all children.

The **Grand Valley National Science Teachers Association** (NSTA) Student Chapter provides professional opportunities for students wishing to pursue careers in K-12 science education.

The Grand Valley Student Chapter of Phi Delta Kappa is **Teachers of Tomorrow** (TOT), which is under the umbrella of Phi Delta Kappa's **Future Educators Association**. Monthly meetings concentrate on topics of interest for future educators and service-learning/volunteer opportunities. Grand Valley is recognized as a Phi Delta Kappa International member with all the opportunities afforded by that organization.

## College of Health Professions

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Administration**

Dean: Beck

Senior Associate Dean for Graduate Studies: Open

Associate Dean for Research: Bacon-Baguley

Assistant Dean for Undergraduate Studies: Hall

## **Website**

[gvsu.edu/chp](http://gvsu.edu/chp)

## **Mission**

The College of Health Professions strives to be a model of excellence in health care education in the 21st century. The mission of the college is to prepare reflective professionals with the foundation necessary to serve and guide health care.

## **Program Information**

The College of Health Professions houses 20 majors and programs in the following 13 disciplines.

### **Doctorate Degrees**

Audiology

Physical Therapy

### **Master's Degrees**

Clinical Dietetics

Medical Dosimetry

Occupational Therapy

Physician Assistant Studies

Public Health

Speech-Language Pathology

### **Baccalaureate Degrees**

Allied Health Sciences with selection of an emphasis

American Sign Language Interpreting

General Allied Health Science (minor required)

Health Professional Degree Completion

Histotechnology

Prehealth Physical Therapy

Prehealth Physician Assistant Studies

Respiratory Care

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Cardiovascular Sonography  
Communication Sciences and Disorders  
Diagnostic Medical Sonography  
Abdominal and OB/GYN  
Health Information Management  
Medical Laboratory Science  
Radiation Therapy  
Therapeutic Recreation

## **Accreditation**

The medical laboratory science program is accredited by the National Accrediting Agency for Clinical Laboratory Science. The radiation therapy program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The cardiovascular sonography program is accredited under the Commission on Accreditation of Allied Health Education Program (CAAHEP) and programmatically through the Joint Review Committee on Education in Cardiovascular Technology (JRC-CVT). The diagnostic medical sonography program is accredited by the Joint Review Committee on Education in Diagnostic Medical Sonography (JRCDMS). The health information management program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). The occupational therapy program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA). The physician assistant studies program is accredited by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). The physical therapy program is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association. The speech-language pathology M.S. program is a candidate for accreditation by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association. The clinical dietetics program is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), which is the accrediting agency for the Academy of Nutrition and Dietetics (AND). The public health program is accredited by the Council on Education for Public Health (CEPH). The therapeutic recreation program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) through its Committee on Accreditation of Recreational Therapy Education (CARTE).

## **Admission**

### **Undergraduate Secondary Admission**

Five undergraduate majors in the College of Health Professions require a selective secondary admissions/application process: communication sciences and disorders, medical laboratory science, therapeutic recreation, health information management, and allied health sciences in the following emphases: health professional degree completion, histotechnology, and respiratory care. See the Academic Programs section of the catalog for details.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Admission into diagnostic medical sonography, cardiovascular sonography, and radiation therapy involves a competitive secondary admissions/application process. See appropriate Academic Program description for detailed information on undergraduate admission.

## **Graduate Admission**

The doctorate of audiology, as well as the master's degree programs in clinical dietetics, medical dosimetry, occupational therapy, physician assistant studies, public health, and speech-language pathology require completion of a baccalaureate degree and submission of a graduate application and corresponding materials; admission into these programs is competitive. See appropriate Academic Program description for detailed information on the admission requirements.

## **Student Services**

The CHP Student Services office (CHPSS) is a key resource for academic advising services and admissions to Grand Valley's CHP programs and majors. Grand Valley students who declare a major within the College of Health Professions are each assigned to a professional academic advisor and encouraged to meet with their advisor at a minimum once per year but preferably each semester. The majority of programs in CHP are competitive; it is in the student's best interest to get academic advising throughout the college career.

Prospective and admitted students can expect to receive the following services and support from the CHP Student Services director, admissions coordinator, office coordinator, and four academic advisors.

- Academic plans: Development of achievable academic plans and access to resources for parallel plans.
- Admissions: Invitation for prospective students to visit the Cook-DeVos Center for Health Sciences (CHS) and learn about the CHP programs.
- Advisor access: Academic advisors are available to students at Grand Valley's Allendale Campus and in Grand Rapids at the Cook-DeVos Center for Health Sciences.
- Program application: Navigation through CHP's undergraduate secondary admissions process and graduate program applications.
- Orientation: Academic advising during freshmen and transfer orientation.
- Policies and procedures: Clarification of university policies that pertain to and support degree completion.
- Referrals: Introduction to and utilization of Grand Valley's campus resources, student success services, and faculty support.

The College of Health Professions encourages students to consider participation in any one of the following clubs as it pertains to program interest and eligibility.

Doctorate of Physical Therapy Organization  
National Student Speech Language Hearing Association  
Preoccupational Therapy Club

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Prephysician Assistant Club  
Prephysical Therapy Club  
Preradiologic and Imaging Sciences Student Organization  
Public Health Society  
Radiologic and Imaging Sciences Student Organization  
Student Occupational Therapy Association  
Therapeutic Recreation Student Organization

### **Scholarship Resources**

Numerous scholarship opportunities are available to students in their respective programs. Information regarding scholarships is available through the College of Health Profession's program websites or through Grand Valley's Office of Financial Aid and Scholarships at [gvsu.edu/financialaid](http://gvsu.edu/financialaid).

## **Student Services**

### **College of Liberal Arts and Sciences Academic Advising Center**

The CLAS Academic Advising Center serves as a key resource for students pursuing majors and/or minors in the College of Liberal Arts and Sciences and for Grand Valley's Exploratory Study (undecided) students. The goal is to complement faculty advising with professional advising services and serve students by

- providing initial academic advising through first-year, transfer, and international student advising and registration sessions;
- assisting in the development of an achievable academic plan;
- sharing resources and opportunities for exploration of academic options;
- disseminating Grand Valley policies and procedures as they pertain to degree completion in the College of Liberal Arts and Sciences;

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- offering a central location for students seeking information on preprofessional programs such as premedical, predental, prepharmacy studies, and many other postbaccalaureate programs;
- assisting students interested in attaining teacher certification through the undergraduate programs or the graduate teacher certification program, as well as current teachers seeking an additional endorsement in a CLAS-related area; and
- providing support for nontraditional students and students returning to Grand Valley after an absence.

The CLAS Academic Advising Center's location is C-1-140 and C-1-120 Mackinac Hall and can be reached by calling (616) 331-8585 or via email at [advstu@gvsu.edu](mailto:advstu@gvsu.edu). Additional information also can be found on the center's website at [gvsu.edu/clasadvising](http://gvsu.edu/clasadvising).

## **Kirkhof College of Nursing**

### **Administration**

Acting Dean: Coke

Associate Dean, Undergraduate Programs: Winter

Associate Dean, Graduate Programs: Moran

### **Website**

[gvsu.edu/kcon](http://gvsu.edu/kcon)

### **Mission**

The mission of the Kirkhof College of Nursing is to provide quality nursing education to a diverse population of students. The Kirkhof College of Nursing strives to improve the well-being of people through leadership in nursing education, professional practice, and scholarship.

### **Kirkhof Legacy**

The Kirkhof College of Nursing was named in recognition of Russel Kirkhof, a self-taught electrician. His avid interest in finding solutions to manufacturing problems through the application of electricity developed into an international business enterprise. His life paralleled the American dream of becoming a self-made millionaire through the virtues of hard work, talent, and personal determination. Kirkhof was a humble man who conducted his life without fanfare and he was happiest when he was working with his hands. Today, his life story serves as an inspiration to others in making meaningful contributions to their communities. KCON embodies the values espoused by Kirkhof through professional education that teaches the importance of making significant contributions as nurses to surrounding communities and society-at-large.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Program Information**

Bachelor of Science in Nursing (B.S.N.): Traditional

Bachelor of Science in Nursing (B.S.N.): Second Degree (for students with degrees in other disciplines)

Bachelor of Science in Nursing (B.S.N.): R.N. to B.S.N. (for individuals currently working on or having completed academic preparation as an associate degree prepared nurse)

Master of Science in Nursing (M.S.N.)

Doctor of Nursing Practice (D.N.P.): Primary Care Adult /Older Adult Nurse Practitioner;

Primary Care Child/Adolescent Nurse Practitioner; Health Systems Leadership

Interprofessional Palliative and Hospice Care (certificate)

Interprofessional Health Informatics (certificate)

Psychiatric/Mental Health Nurse Practitioner (certificate)

## **Accreditation**

KCON is recognized for outstanding teaching, scholarship, and service. The Bachelor of Science in Nursing program, the Master of Science in Nursing program, and the Doctor of Nursing Practice program at Grand Valley State University (GVSU) Kirkhof College of Nursing (KCON) are accredited by the Commission on Collegiate Nursing Education

([www.ccneaccreditation.org](http://www.ccneaccreditation.org)). The Bachelor of Science in Nursing (B.S.N.) program is also approved by the Michigan Board of Nursing, P.O. Box 30004, Lansing, MI 48909; Telephone: (517) 241-0199. KCON offices are housed on the GVSU Health Campus in the DeVos Center for Interprofessional Health at 333 Michigan St. N.E. in Grand Rapids, MI 49503; Telephone: (616) 331-3558.

Graduates of the KCON Traditional or Second Degree Bachelor of Science in Nursing (B.S.N.) degree programs are qualified to take the National Council Licensure Examination R.N. (NCLEX-RN) to obtain licensure to practice as a registered nurse. Students completing the advanced generalist Master of Science in Nursing (M.S.N.) degree will be eligible for national certification as a clinical nurse leader. Students completing the Doctor of Nursing Practice (D.N.P.) degree in one of the nurse practitioner tracks will be prepared for national primary care specialty certification in either pediatrics or adult-gerontology. Students completing the D.N.P. health systems leadership track will be eligible for and encouraged to sit for national certification as a nurse executive.

## **Admissions**

Information regarding undergraduate and graduate admissions is outlined under the respective academic program section of the catalog. For questions or clarification, please call the Kirkhof College of Nursing Office of Student Services at (616) 331-7160.

## **Graduate Assistantships**

The Kirkhof College of Nursing employs graduate students in full- and part-time assistantships to support student engagement in faculty scholarship, teaching, and academic activities.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Assistantships provide tuition and stipend support for graduate education. For more information, please contact KCON at (616) 331-7160.

## **Honors Organizations**

Sigma Theta Tau International (STTI) is recognized as the honor society of nursing with over 135,000 members in more than 100 countries worldwide. Members serve as agents and catalysts for change throughout the world. Sigma members include clinicians, educators, administrators and researchers who are leaders in the scientific journey toward advancing world health by recognizing and promoting nursing excellence in scholarship, leadership, and service. Sigma's local Chapter, Kappa-Epsilon-at-Large, was organized in 1996. Potential candidates for membership may be students in undergraduate or graduate nursing programs or may be nursing professionals or community leaders. The society challenges members to become better nurses and offers support through continuing education, networking opportunities, access to nursing research, mentoring opportunities, and many other avenues.

## **Student Organizations**

The Kirkhof College of Nursing is proud to hold the All College Membership status within the National Student Nurses' Association (NSNA) at [www.nsna.org](http://www.nsna.org). All undergraduate students are encouraged to actively participate in the Grand Valley chapter of the NSNA. The benefits of joining the GVSU Student Nurses' Association (SNA) include opportunities for leadership, networking, and volunteering in the community.

Students taking prerequisite courses are encouraged to join the GVSU Pre-Nursing Association (PNA) by visiting online at [gvsu.edu/kcon/oss/pre-nursing-association-63.htm](http://gvsu.edu/kcon/oss/pre-nursing-association-63.htm). This organization is student-run and open to all pre-nursing students. The benefits of membership include leadership, networking, social connections, and opportunities to learn more about the nursing profession. Additional information about PNA is available through the Student Life Office ([gvsu.edu/studentlife](http://gvsu.edu/studentlife)).

The Graduate Student Organization (GSO) is a university wide student organization dedicated to Grand Valley graduate students. Its goals include intellectual, professional, and social development while fostering interprofessional communication, collaboration, and community. Because this organization represents all graduate students, M.S.N. and D.N.P. students are encouraged to participate. The annual meeting schedule is posted on the GSO Blackboard site in September of each year. Additional information about GSO is available at [gvsu.edu/gsa](http://gvsu.edu/gsa).

All graduate nursing students are encouraged to join the American Association of Colleges of Nursing Graduate Nursing Student Academy (GNSA). The GNSA provides high value programs, services, and resources to graduate nursing students enrolled in master's and doctoral programs at AACN member schools, of which GVSU is a member. The GNSA is committed to supporting graduate students preparing for careers as faculty members, researchers, advanced practice registered nurses, clinical nurse leaders, policy experts, and health care administrators, among other roles (AACN, 2020). Additional information about GNSA is available at [www.aacnnursing.org/gnsa](http://www.aacnnursing.org/gnsa).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Scholarships**

Numerous scholarship opportunities are available to undergraduate and graduate nursing students. Information regarding specific scholarships is available through the Kirkhof College of Nursing website at [gvsu.edu/kcon](http://gvsu.edu/kcon) and the Office of Financial Aid website at [gvsu.edu/financialaid](http://gvsu.edu/financialaid).

## **Office of Student Services**

The mission of the Kirkhof College of Nursing Office of Student Services (OSS) is to recognize individuality and establish collaborative partnerships with students and those interested in our nursing programs. To do this, OSS advisors engage in intentional and holistic advising through proactive outreach toward individuals seeking a nursing degree at Grand Valley. The OSS strives to promote diversity and foster student connections within KCON, Grand Valley, the broader community, and the nursing profession. The OSS provides a wide range of services to support undergraduate and graduate nursing students, including degree-planning in consideration of general education and major or minor requirements, as well as development and review of degree-progress plans to promote academic success. Students are assigned to a professional advisor once they declare nursing as their intended major. For individual and group appointments, students may call the Kirkhof College of Nursing Office of Student Services at (616) 331-7160.

## **Seidman College of Business**

### **Administration**

Dean: Lawson

### **Website**

[gvsu.edu/seidman](http://gvsu.edu/seidman)

### **Mission**

Seidman develops business talent that advances sustainable growth in West Michigan and the Great Lakes Region. Through the exchange and application of knowledge from global and diverse perspectives, we prepare learners to make ethically-informed decisions that positively impact the economy, environment, and society. Our distinctiveness is grounded in strong community collaborations, applied scholarly contribution, innovative approaches to learning, and a supportive culture.

### **The Legacy of Seidman**

### **Program Information**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Seidman College of Business was named in honor of the late Frank Edward Seidman, who for more than 50 years was a distinguished member of the Grand Rapids business community and a partner in the national accounting firm of BDO Seidman. He was nationally recognized as a business and civic leader, an economist, and a philanthropist. For many years, he wrote a newspaper column on business and economics and contributed to numerous professional journals. He was also the co-author of three technical books, including *Legislative History of the Federal Income Tax Law*, *Financing the War*, and *Accounting Handbook*.

F.E. Seidman worked for both his bachelor's and master's degrees in commercial science by attending night classes at New York University. He placed a high value on education and was devoted to improving educational opportunities for people from all backgrounds. F.E. Seidman was especially dedicated to improving the level of competence in the business and public sectors, not only in his own firm, but also in all of the organizations it audited.

F.E. Seidman was, in every sense, a creative businessman. He was chairman of the Citizens' Advisory Committee on the Michigan Tax Study and of the Michigan State Board of Accountancy. He was a director of the Grand Rapids Community Chest and the Community Services of Kent County for 25 years and was a long-time director of the Grand Rapids Foundation, the largest philanthropic organization of its kind in the area. As a trustee of the Thomas Erler Seidman Foundation, named for a deceased son, he was instrumental in providing youth-building and educational opportunities for thousands of young people in the Grand Rapids area, as well as providing funds for the Seidman House at Grand Valley.

In establishing the Seidman College of Business, Grand Valley intended to embody the philosophy, ideas, and spirit of Seidman and to provide a place to gain an education in business and administration in West Michigan.

Just as quality was the hallmark of F.E. Seidman's efforts, so, too, is quality in education the touchstone of Seidman College of Business. Grand Valley's purpose has been to honor the man not merely by affixing his name to the college, but by perpetuating the high ideals to which he personally dedicated himself.

The Seidman College of Business offers programs in business and economics leading to a Bachelor of Business Administration (B.B.A.), a Master of Business Administration (M.B.A.), a Master of Science in accounting (M.S.A.), and a Master of Science in taxation (M.S.T.). The Seidman College of Business in partnership with Michigan State University College of Law also offers the opportunity to participate in a "3+3" legal education admission program leading to a B.B.A. and J.D. in approximately six years. For a description of the B.S. and B.A. economics program, see the Economics section. Please contact the Seidman College of Business Student Academic Services Office for additional information.

Through these programs, the college helps students learn to gather the information upon which effective management is based, make rational decisions on the basis of that information, plan for the effective implementation of those decisions, and monitor their consequences. Students develop an understanding of the functional areas of business, the dynamics of competitive and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

cooperative group process, formal and informal organizational behavior, and the culture of business.

Students also gain knowledge of the external environment of business, developing a perspective on contemporary global business through historical and international comparisons. Students understand the ways in which business and management are responding to current social, economic, political, international, and technological challenges.

Undergraduate students may major in accounting, business economics, economics, entrepreneurship, finance, general business, general management, human resources management, international business, marketing, operations management, and supply chain management. An emphasis in management information systems is available in the management program. Emphases in general marketing, distribution and logistics, and sales are available in the marketing program. There are also opportunities for students who do not wish to enter a degree program to take courses that apply to their professional interests.

The college makes every effort to accommodate the varying needs of its students. People employed full-time, for example, can enroll in many evening classes. Those who are not employed can gain valuable experience through internships with area businesses and government agencies.

Graduate students may pursue master's degrees in accounting, business administration, or taxation.

### **Dean's Early Access Invitation**

#### **Eligibility Criteria**

- High school (HS) seniors who have been admitted to GVSU
- 3.500 or higher overall HS GPA
- 26 or higher ACT score or 1240 SAT

Those who have applied to Grand Valley State University and meet the above criteria will automatically be sent information regarding the steps necessary to accept the dean's early access invitation. If you have updated test scores or ACT/SAT scores that meet the criteria, please notify the Admissions Office at (616) 331-2025.

#### **Advantages of Dean's Early Access Invitation**

Early access to upper-level business courses:

Typically, students begin their 200-level business courses in their sophomore year and their 300-level business courses in their junior year. When students accept their early access invitation from the dean, they are eligible for 200-level business courses in their first year as a student and 300-level business courses prior to junior standing. The 200-level Seidman courses include ACC 212, BUS 201, ECO 210, ECO 211, MGT 268, plus STA 215.

Early access to a faculty advisor:

When students accept the invitation, they will be assigned a faculty advisor in their business major. Faculty advisors assist with questions regarding career, elective course selection, and graduate school guidance.

Students must also meet with a professional advisor in the Seidman Undergraduate Programs Office each semester. The professional advising staff assists students with degree progression toward graduation.

#### **Seidman Success Standards**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The Seidman College of Business permits access to 300- and 400-level business courses after meeting the following Seidman College of Business success standards.

1. 55 earned semester hours (junior status)
2. 2.5 or higher overall GPA
3. Completion of the following courses with a 2.5 or higher combined GPA: ACC 212, BUS 201, ECO 210, ECO 211, MGT 268, STA 215

Once a student has met the Seidman College of Business success standards, they must maintain a 2.5 minimum overall GPA to remain eligible for 300- and 400-level business courses.

For graduation, Seidman College of Business majors must have an overall GVSU GPA and business major GPA of 2.5 or higher.

### **Catalog Year Stipulations**

Students admitted to GVSU under a catalog year prior to 2016-2017 will follow the Seidman College of Business' secondary admission criteria:

1. Established 2.750 overall GPA
2. 55 earned semester hours (junior status)

All eligible students are admitted upon meeting both criteria and must maintain a 2.5 overall GPA and a 2.5 Seidman GPA to graduate.

### **General Education**

All business students must complete the general education requirements (see section on General Education). This program will develop a base of general education upon which business administration education will rest. Included is a broad spectrum of liberal arts, mathematics, and science courses. During their junior and senior years, students will take a variety of business administration courses in different areas that provide a strong general business and administration background. Additionally, they will complete courses applicable to one of the specific majors offered.

### **Graduate Admission**

The graduate business programs are open to qualified individuals with a bachelor's degree from accredited colleges and universities.

No particular undergraduate major is necessary for students selecting the M.B.A., M.S.A., or M.S.T. programs, although candidates may be required to show proof of foundational competencies in business subjects before attempting advanced work. It is recommended that M.S.T. students have a background in accounting or law.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Candidates are admitted to the master's degree programs in business administration, accounting, or taxation based on criteria that have been shown to predict success in graduate business programs, including previous academic performance, career history, performance on the Graduate Management Admission Test (GMAT) if required, and evidence of other competencies related to academic program and workplace success. A TOEFL score of at least 80 (IBT) is also required of applicants whose first language is not English.

## **M.B.A. Admission**

The Seidman College of Business seeks individuals who want to build a meaningful career. Admission to the Seidman M.B.A. program is competitive as the M.B.A. Admissions Committee carefully considers each applicant. The M.B.A. Admissions Committee takes a holistic approach to candidate evaluation with consideration of relevant professional experience, potential for career growth, academic ability, leadership qualities, communication and interpersonal skills, and motivation for success. Applicants with managerial, operational, or decision-making experience receive preference for admission. Seidman purposefully maintains a relatively small class size and values candidates with diverse backgrounds, skill sets, cultures, and talents. No particular undergraduate major is necessary for students applying to the M.B.A. program. Instead, candidates must demonstrate competency in background business subjects.

To apply, students should

1. complete the M.B.A. application (including essay/personal statement);
2. submit official transcripts;
3. submit a recent resume;
4. provide two graduate references; and
5. provide official GMAT scores (if applicable).

International students may be required to submit additional documents as part of their admission materials.

Individuals who submit all required documents may be selected for an interview as part of the admission process.

## **Waiver of the Graduate Management Admission Test (GMAT) Requirement**

Most prospective graduate business students take the GMAT. The GMAT is strongly recommended and may be used to strengthen the applicant's profile. A GMAT waiver is an option for highly qualified individuals.

To be considered for a GMAT waiver, candidates must meet one of the following criteria:

- Document at least three years of relevant professional experience that shows increased responsibilities over that period.
- Document having earned an acceptable score on the Graduate Record Examination (GRE); other graduate exams may be considered by request.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- A transcribed undergraduate GPA of 3.2 or higher from an AACSB-accredited business program.
- A transcribed undergraduate GPA of 3.4 or higher from a regionally accredited university in any major.
- Documented having earned a master's degree or higher from a regionally accredited program.

Meeting the criteria to waive the GMAT does not guarantee admission to the M.B.A. program. Even those who are eligible to waive should consider taking the GMAT because a strong score increases the likelihood of admission.

## **Executive M.B.A.**

EMBA (Executive Master of Business Administration) serves experienced professionals. Applicants are evaluated on professional experience, leadership potential, prior academic performance, and employer recommendation.

## **Student Programs**

### **Graduate Independent Study**

Individualized study may be available for candidates interested in pursuing relevant special interests in areas in which regular courses are not offered. These may consist of research projects, theses, problem-solving projects, or other appropriate endeavors related to the candidate's current job and intellectual or career interests.

No independent study or individualized courses will be allowed in areas in which courses exist and are taught at least once per year.

Only graduate degree-seeking candidates who have completed the core requirements or have special permission from the program director may take individualized graduate courses or conduct graduate-level independent projects.

All independent study topics and the amount of credit to be earned must be approved by the faculty member who agrees to supervise the project. A maximum of three hours of credit can be granted for independent study. The conditions, meeting times, workload, and subject matter concerned with the project are mutually agreed to by the initiating candidate and the assenting faculty member, consistent with standards of quality education. Request forms can be obtained from the assistant dean for Seidman Student Services.

### **Graduate Study Abroad**

Seidman College of Business offers special topic business courses that generally include a two-week summer study abroad session.

### **Washington Campus Program**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Seventeen universities have recognized the importance of training private sector managers and leaders in the art of working with the federal government and have established the Washington Campus Program. These colleges and universities are Grand Valley State University, Arizona State University, University of California at Berkley, Colorado State University, Emory University, Georgetown University, Howard University, Indiana University, University of Michigan, University of New Mexico, University of North Carolina at Chapel Hill, Northeastern University, The Ohio State University, Purdue University, Rice University, University of Texas at Austin, and Texas A&M University.

The Washington Campus Program offers a unique opportunity for current and future leaders in business and government to gain a basic understanding of how to deal with the problems inherent in business/government relationships by working with policy makers, politicians, regulatory agency personnel, and others who make up the teaching staff and resource persons for the programs.

Participating graduate students spend a week in Washington, D.C., where they hear from Washington insiders, visit government and public policy institutions, and engage in real-world case studies on the interaction of business, politics, and public policy. Participants earn three credit hours and a certificate of completion from the Washington Campus Program. For additional information, graduate students can contact the assistant dean for Seidman Student Services.

## **Student Services**

### **Practice Interviews**

To assist students in preparing for career placement, the Seidman College of Business collaborates with the Career Center to offer mock interview opportunities for Seidman College juniors and seniors who meet the college's minimum grade point average requirements. The primary purpose of mock interviews is to give students a chance to practice their interviewing skills and build self-confidence. Students are matched with companies so that they interview with and receive feedback from business professionals in their major areas of study.

## **Awards and Scholarships**

### **Accounting Awards**

The Beene Garter Institute of Management Accountants, Ernst and Young Accounting Senior Excellence Award, and Clipper Belt Lacer accounting awards are presented at the annual spring accounting awards dinner. These awards honor outstanding academic and leadership excellence.

### **Delta Sigma Pi Scholarship Key**

Each year, the international fraternity of Delta Sigma Pi awards the Delta Sigma Pi Scholarship Key to the graduating student with the highest academic average for the four years of study in business administration. All business students are eligible for this award.

### **Graduate Assistantships**

Graduate assistants work with Seidman College of Business faculty and staff members. Qualified full-time candidates are selected on the basis of aptitude, interest, and background.

### **Advisory Boards and Associations**

#### **Seidman Dean's Advisory Board**

The Seidman Dean's Advisory Board, composed of the dean and three dozen leaders from local, national, and international companies, serves to create and sustain a partnership between the Seidman College and the business community. The board meets to advise the Seidman College

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

of Business on goals, curriculum, and other matters that are of benefit to the continued enhancement of the student body, the college, and the business and public communities.

### **Seidman College of Business Alumni Association Board**

The Seidman Alumni Association Board consists of up to 30 graduates of the Seidman College of Business who represent the alumni of the college. The board's purpose is to promote, assist, and perpetuate the aims and objectives of the college.

### **Accounting Advisory Board**

The Accounting Advisory Board is composed of accountants and meets as needed to advise the college on all matters pertaining to the accounting curriculum and alumni events.

Representatives of national, regional, and local accounting firms, presidents of local accounting associations, and corporate accountants are members of this board.

### **Accounting Alumni and Friends Advisory Board**

The Accounting Alumni and Friends Advisory Board provides a way for alumni to interact with accounting faculty members and students. Upon graduation, accounting students are encouraged to join this advisory board.

### **Business Ethics Center Advisory Board**

The Business Ethics Center (BEC) Advisory Board consults with the director on matters of expansion, programming, community relations, and budget. Board members also act as advocates for the BEC in the community and nationally.

### **Economics Department Advisory Board**

The Economics Department Advisory Board is comprised of local leaders from a broad range of sectors, including banking, manufacturing, real estate, and nonprofit and government organizations. The board provides feedback and support for department initiatives.

### **Finance Department Advisory Board**

The Finance Department Advisory Board is comprised of 15 representatives from the areas of investment, corporate finance, banking, and financial planning. The board's main goals are to facilitate collaboration with the finance industry and to receive input on curriculum and related issues.

### **Human Resource Management Advisory Board**

The purpose of the Seidman Human Resource Management Advisory Board is to develop, maintain, and promote a working relationship between human resources professionals and the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

stakeholders of the Management Department of the Seidman College of Business, including current students, faculty members, and alumni.

### **International Business Advisory Board**

The International Business Advisory Board consists of business leaders of local and international companies who want to support international business education at Seidman College.

### **Marketing Advisory Board**

The Marketing Advisory Board was formed to help align the interests of the students, faculty members, alumni, and communities Seidman College serves. The board meets routinely with marketing faculty members. Board members are from diverse, prestigious firms, including Amway, Axios Inc., Bissell Homecare Inc., Cynthia Kay & Co. Media Production, Daymon Worldwide, Gordon Food Service, Holton Research, Meijer, SoundOff Signal, Stryker Medical, and TransCorr.

### **M.S.T. Advisory Board**

The M.S.T. Advisory Board is comprised of attorneys and accountants from the professional community who actively support, teach in, and refer students to the M.S.T. program.

### **Supply Chain Management Advisory Board**

The purpose of the Seidman Supply Chain Management Advisory Board is to develop, maintain, and promote a working relationship between supply chain/logistics professionals and the stakeholders of the Management Department of the Seidman College of Business, including current students, faculty, and alumni.

### **Endowed Chairs**

#### **L. William Seidman Accounting Chair**

The L. William Seidman Chair in Accounting was established to provide financial support to one distinguished accounting faculty member who would advance the accounting profession through teaching, research, and professional outreach activities.

This endowed chair was established to recognize and honor L. William Seidman, who was the former chairman of the Federal Deposit Insurance Corp. (FDIC). Seidman received his undergraduate degree from Dartmouth, his law degree from Harvard Law School, and his M.B.A. from the University of Michigan. He was also a C.P.A. and a noted author. He served as dean of the College of Business at Arizona State University, as vice chairman of Phelps Dodge Corporation, and as an assistant to the president of the United States for economic affairs.

#### **Esther Seidman Chair**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The Esther Seidman Chair was established to provide financial support to one distinguished faculty member who would advance the initiatives and goals of the Seidman College of Business. This endowed chair was established to recognize and honor the late Esther Seidman who, along with her husband Frank Edward Seidman, was a distinguished member of the Grand Rapids business and civic community.

## **Seymour and Esther Padnos College of Engineering and Computing**

### **Administration**

Dean: Plotkowski

Associate Dean: Born

Assistant Dean: Thelenwood

### **Website**

[gvsu.edu/pcec](http://gvsu.edu/pcec)

### **Mission**

The mission of the Seymour and Esther Padnos College of Engineering and Computing is to prepare undergraduate and graduate students in engineering, computing, and occupational safety and health to become accomplished professionals; to contribute to our professions through active scholarship in all of its forms; and to support the university and society with expertise, leadership, and service.

To achieve our mission, we

- prepare students to compete in today's global economy by emphasizing experiential learning in a contemporary technical environment;
- prepare students for the future by emphasizing sound principles;
- emphasize a strong technical background enhanced by effective communication skills;
- provide working professionals with the opportunity for continuous professional development;
- imbue students with a strong sense of "the public good" and their own professional responsibility to the public good; and
- strive to be an example and an inspiration to develop competence, courage, and compassion with unquestioned integrity.

### **The Padnos Legacy**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Grand Valley State University has named the Padnos College of Engineering and Computing in honor of Seymour and Esther Padnos to recognize their commitment to creating an environment where students and faculty can reach their full potential in the fields of engineering, computing, and occupational safety and health. It is the aim of the university to inspire these future professionals to live up to the personal and professional ideals of the Padnos family.

## **Program Information**

The college offers undergraduate programs in biomedical engineering, computer engineering, electrical engineering, interdisciplinary engineering, mechanical engineering, product design and manufacturing engineering, computer science, cybersecurity, information systems, information technology, and occupational safety and health management. Master's degree programs are offered in health informatics and bioinformatics, data science and analytics, cybersecurity, computer information systems, biomedical engineering, electrical and computer engineering, product design and manufacturing engineering, manufacturing operations, and mechanical engineering.

The college also provides courses in support of nonengineering and computing students through minor programs in biomedical engineering, computer science, computer engineering, data science, engineering science, health care information systems, information security systems, information systems, information technology, and occupational safety and health management, as well as general education and service course offerings.

Specific information on admission, curriculum, and graduation requirements can be found in each program section.

## **Experiential Learning**

The Padnos College of Engineering and Computing is committed to the role of experiential learning in preparing professionals for careers in engineering, computing, and occupational safety and health management. All students completing undergraduate degrees in engineering complete the integrated cooperative education program. All students completing undergraduate degrees in the school of computing and information systems, occupational safety and health management, and the professional science master's programs, complete the integrated internship program. Internship opportunities are available, but not required, of students in the Master of Science in engineering program and the Master of Science in computing and information systems programs.

## **Academic Units**

School of Computing and Information Systems: [cis.gvsu.edu](http://cis.gvsu.edu)

Professional Science Master's (coordination function): [gvsu.edu/psm](http://gvsu.edu/psm)

## Accreditation

- The **Computer Science Major** is accredited under the General Criteria and Computer Science Criteria by the Computing Accreditation Commission of ABET, 415 N. Charles St., Baltimore, MD 21201. Telephone: (410) 347-7700, [www.abet.org](http://www.abet.org).
- The **Information Systems Major** is accredited under the General Criteria and Information Systems Criteria by the Computing Accreditation Commission of ABET, 415 N. Charles St., Baltimore, MD 21201. Telephone: (410) 347-7700, [www.abet.org](http://www.abet.org).
- The **Computer Engineering Major** is accredited under the General Criteria and Computer Engineering Criteria by the Engineering Accreditation Commission of ABET, 415 N. Charles St., Baltimore, MD 21201. Telephone: (410) 347-7700, [www.abet.org](http://www.abet.org).
- The **Electrical Engineering Major** is accredited under the General Criteria and Electrical Engineering Criteria by the Engineering Accreditation Commission of ABET, 415 N. Charles St., Baltimore, MD 21201. Telephone: (410) 347-7700, [www.abet.org](http://www.abet.org).
- The **Interdisciplinary Engineering Major** is accredited under the General Criteria by the Engineering Accreditation Commission of ABET, 415 N. Charles St., Baltimore, MD 21201. Telephone (410) 347-7700, [www.abet.org](http://www.abet.org).
- The **Mechanical Engineering Major** is accredited under the General Criteria and Mechanical Engineering Criteria by the Engineering Accreditation Commission of ABET, 415 N. Charles St., Baltimore, MD 21201. Telephone: (410) 347-7700, [www.abet.org](http://www.abet.org).
- The **Product Design and Manufacturing Engineering Major** is accredited under the General Criteria and Manufacturing Engineering Criteria by the Engineering Accreditation Commission of ABET, 415 N. Charles St., Baltimore, MD 21201. Telephone (410) 347-7700, [www.abet.org](http://www.abet.org).
- The **Occupational Safety and Health Management Major** is accredited under the General Criteria and Safety Criteria by the Applied and Natural Sciences Accreditation Commission of ABET, 415 N. Charles St., Baltimore, MD 21201. Telephone (410) 347-7700, [www.abet.org](http://www.abet.org).

## Advisory Boards

The advisory boards for the Padnos College of Engineering and Computing and each academic program are composed of the dean and many leaders from local, national, and international companies, who serve to create and sustain an active partnership between the college, schools, and industry. The boards provide advice concerning goals, curriculum, and other matters that strengthen the student experience. The advisory boards also work to strengthen the partnerships that benefit industry and the broader community.

## Admission

### Secondary Admission for Undergraduates

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

All undergraduate programs require secondary admission as described in their specific academic program information.

### **Graduate Admission**

See appropriate academic program description for information on graduate admission.

### **Advising**

Academic advising, including major selection, meeting secondary admission requirements, career direction, and course scheduling, is provided by the professional staff of the advising center on both the Pew Grand Rapids Campus and the Allendale Campus. Advisors work primarily with presecondary admission undergraduate students. Inquiries from prospective students are welcome. See [gvsu.edu/pcec/advising](http://gvsu.edu/pcec/advising) for additional information.

### **Outreach**

K-12 outreach strives to attract the next generation of students to the computing, engineering, and occupational safety and health professions. Staff direct summer camps, provide building tours to prospective students, and support curricular and co-curricular activities for students both at Grand Valley and in schools. See [gvsu.edu/pcec/outreach](http://gvsu.edu/pcec/outreach) for more information.

### **Professional Society Student Chapters**

ACM - Association for Computing Machinery

ASME - American Society of Mechanical Engineers

ASSE - American Society of Safety Engineers

IEEE - Institute of Electrical and Electronic Engineers

NSBE - National Society of Black Engineers

SAE - Society of Automotive Engineers

SME - Society of Manufacturing Engineers

SWE - Society of Women Engineers

### **Honor Societies**

Tau Beta Pi National Engineering Honors Society

Upsilon Pi Epsilon International Honor Society for Computing and Information Disciplines

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

### **Graduate Fellowships and Assistantships**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Qualified full-time fellowship and assistantship candidates are selected on the basis of aptitude, interest, and background.

Industry graduate fellows gain practical experience by working closely with a local company to solve practical problems related to the chosen area of graduate study.

Graduate assistants work with appropriate school faculty and staff members. Graduate assistant positions are available to assist in the Padnos College of Engineering and Computing with research, writing, data collection and analysis, and student services.

Graduate assistantships are typically available in support of the following areas:

- Data Science and Analytics
- Engineering
- Computer Science
- Professional Science Masters FIRST Robotics
- K-12 Outreach
- PCEC Advising

# **Frederik Meijer Honors College**

## **Administration**

Director: Roger Gilles

## **Website**

[gvsu.edu/honor](http://gvsu.edu/honor)

## **Mission**

The mission of the Frederik Meijer Honors College is to inspire and empower motivated students to be intellectually curious lifelong learners who make positive contributions to their local and global communities, and serve as capable leaders and active global citizens.

## **Program Information**

The Frederik Meijer Honors College is an alternative general education program for students who desire to challenge themselves academically. The focus of the college is

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

to bridge the gaps between traditional academic disciplines and allow students a chance to see the impact each discipline has on the others.

To fulfill this goal, many of our classes are interdisciplinary and team-taught while utilizing smaller class sizes to elicit greater discussion. We understand that sometimes the moments of greatest learning are unplanned. These smaller classes, coupled with the fact that many professors hold office hours nearby, foster a deeper personal connection between students and professors. Another feature of our curriculum is an active schedule of co-curricular activities, both on campus and off.

The greater student-faculty interaction, as well as classes specially designed to foster advanced writing and speaking skills, critical thinking, and analysis, prepare students to be competitive for graduate and professional programs. Our students develop high levels of proficiency in research, writing, critical thinking, synthesizing material from multiple disciplines, and applying critical skills to primary sources. Because of these advanced skills, honors students have more opportunities to participate in and present research as undergraduates at Student Scholars Day, regional honors conferences, the National Collegiate Honors Council annual meeting, and other professional meetings.

The Meijer Honors College encourages its students to engage in extracurricular activities to develop leadership skills and an appreciation of the richness and diversity of university life. Honors students frequently engage in service and volunteer projects at the university or in the community. They also have unique cultural experiences and travel opportunities such as subsidized museum visits and faculty-led trips to Chicago, Detroit, and other cities. There are annual summer service-learning programs to Ghana, Haiti, and Israel, and students are also encouraged to take advantage of other study abroad opportunities offered by the university.

Completion of the Meijer Honors College program should not be confused with "Graduation with Honors," which is determined strictly by final grade point average. The Meijer Honors College requires not only a high grade point average but also successful completion of a special series of challenging courses. Completion of all Meijer Honors College requirements results in the "Meijer Honors College Graduate" designation on both the baccalaureate diploma and the college transcript. Graduates are eligible to wear a special medallion and stole at Commencement.

## **Academic Standing**

To attain the Meijer Honors College designation, students must graduate with an overall grade point average of 3.2 or above. Students below 3.2 may complete the honors curriculum in order to satisfy their university general education requirements,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

but they will not earn the honors designation. Honors courses may be repeated only with the consent of both the director and the faculty member involved.

Students may voluntarily withdraw from honors at any time but will be responsible for completing the regular General Education Program if they do so. Meijer Honors College advisors are available to assist students transitioning out of the program. Likewise, students may apply to transfer into Honors from the regular General Education Program, or from another college or university, and honors advisors are available to help with the transition.

Students who earn any additional baccalaureate diplomas using the honors curriculum to fulfill the university's general education requirements will receive the honors designation on the new diplomas and transcripts.

## **Accreditation**

There is no accrediting body for honors, though the National Collegiate Honors Council sets guidelines and offers resources for honors programs. Grand Valley is an active member of the National Collegiate Honors Council.

## **Admission**

Applicants must first be accepted to Grand Valley before they apply to the Meijer Honors College. We employ a holistic application process, which means that we consider the whole student, not just static indicators. In the application, we look for demonstrations of strong academic motivation and ability to achieve on a high level. The application asks students to show these through completing a self-assessment, listing academic and leadership accomplishments, writing a strong essay, and submitting a significant analytical or creative paper from high school. Our normal expectation of high school applicants entering college for the first time is a 3.5 high school GPA and an ACT score of 28 or an SAT score of 1300. These are not firm requirements, however.

Meijer Honors College also welcomes applications from students transferring from another college or university or from within Grand Valley. Our normal expectation is that transfer students will have a 3.5 college GPA. The application is available at [gvsu.edu/honors](http://gvsu.edu/honors).

## **Frederik Meijer Office of Fellowships**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Frederik Meijer Office of Fellowships, assists Grand Valley students who show extraordinary potential in disciplines all across campus in preparing and applying for nationally competitive scholarships and fellowships including the Boren, Fulbright, Gates Cambridge, Gilman, Goldwater, Marshall, Rhodes, Truman, Udall, and more. The staff matches opportunities with students' strengths, interests, and ambitions; helps students design a plan to attain their goals; and provides support throughout the application process. To learn more, visit [gvsu.edu/fellowships](http://gvsu.edu/fellowships).

## Learning and Living Community

One of the hallmarks of the Meijer Honors College is its rich learning and living community. For this reason, honors students, especially first-year students are encouraged to live in one of the two honors housing centers, so that they strengthen the bonds of community and reinforce each other's commitment to academic excellence.

**The Glenn A. Niemeyer Learning and Living Center** is a state-of-the-art residential and academic center with two- and four-bedroom apartments, lounges and study areas, and a computer lab. Most honors classrooms are also in the building.

**The Holton-Hooker Learning and Living Center** is a residential and academic center that provides optimal housing for first-year honors students because it builds rich and deep community.

## Scholarships

**Arend D. and Nancy Lubbers Scholarship.** Those who are awarded presidential scholarships are eligible for a prestigious honors-only scholarship, the Lubbers Scholarship. This award can add as much as \$2,000 onto merit-based scholarships and is renewable for up to 10 semesters. It is a significant honor to receive this scholarship, **but a student is only eligible for this award if he or she has qualified for and participated in the scholarship competition and has applied to and been accepted by the Meijer Honors College prior to the last scholarship competition of the year.**

**Frederik Meijer First Generation Honors College Student Scholarship.** This is a full-tuition scholarship for a select number of extraordinary first-year students who are the first in their immediate family to pursue a college degree. Candidates must be eligible to participate in the scholarship competition, must have been accepted to the university and the Meijer Honors College, and must enroll full-time as a degree-seeking student. The scholarship is renewable up to a maximum of eight semesters.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Recipients must stay in good standing in Meijer Honors College to renew this scholarship.

**Felix V. and Gladys A. Zukaitis Honors Scholarship.** Those who are awarded presidential or faculty scholarships are eligible for a prestigious honors-only scholarship, the Zukaitis Honors Scholarship. This award can add as much as \$1,000 onto merit-based scholarships and is renewable for up to eight semesters. It is a significant honor to receive this scholarship, but a student is only eligible for this award if he or she has qualified for and participated in the scholarship competition and has applied to and been accepted by the Meijer Honors College prior to the last scholarship competition of the year.

**Ruth Chamberlain Global Issues Scholarship.** This scholarship was initiated by John ("Jack") Chamberlain in memory of his wife Ruth. The scholarship provides support for one or more students in the Meijer Honors College who have shown significant promise, growth, or improvement, and have demonstrated a research or career interest in solving global problems (for example, issues of climate change, natural disasters, energy, population change, sustainability, etc.). Areas of study may include, but are not limited to, natural resources, biology, chemistry, or related sciences. The scholarship may be awarded for a maximum of two semesters, but may be renewable.

**Jonathan and Marcia White Endowed Honors College Scholarship.** This scholarship continues Jonathan's legacy of public service and commitment to advancing homeland security. It rewards bright students in the Meijer Honors College who are pursuing careers in national security or public service. The scholarship was established in recognition of Colonel Ralph Hauenstein's record of military and civilian service. Candidates must be in honors and enrolled for at least 12 credit hours per semester. The scholarship is renewable up to a total of six semesters.

For more information on applying and competing for the Lubbers, Meijer First Generation, or Zukaitis scholarships, contact an admissions counselor at [admissions@gvsu.edu](mailto:admissions@gvsu.edu) or (616) 331-2025 or (800) 748-0246. For the Chamberlain, White, and other scholarships, visit [gvsu.edu/financialaid](http://gvsu.edu/financialaid) or call (616) 331-3234 or (800) 748-0246.

## Student Organizations

**Honors Student Council** The HSC is responsible for contributing to Meijer Honors College governance and provides all honors students, not just those living in honors living centers, opportunities to be heard. HSC provides input to the university,

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

develops programming and student activities, and works to build community within the Meijer Honors College. It is an excellent place for honors students to make a difference in and outside of honors, as well as to develop leadership skills and experience.

### **Peer Mentor Program**

Upperclass honors students may apply to be peer mentors to incoming first-year students. Mentors assist students with the transition to the Meijer Honors College and university life in general, and act as ambassadors for the Meijer Honors College.

## **The Graduate School**

### **Administration**

Associate Vice Provost: Jeff Potteiger

### **Website**

[gvsu.edu/gs](http://gvsu.edu/gs)

### **Mission**

To define, support, and advance excellence in graduate education and the scholarly and research activities associated with it. To articulate a vision of excellence in our actions and policies that affect students, faculty, and curriculum. To advocate for graduate education and graduate students, faculty, and staff within the university in terms of resources, services, and other activities that support graduate student endeavors and goals; and encourage a diverse, inclusive, and connected graduate community.

## **Graduate Degree Programs Offered at Grand Valley**

Refer to the Graduate Information section of this catalog for a listing of all graduate degrees.

### **Overview**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Graduate School is located in the Richard M. DeVos Center, Robert C. Pew Grand Rapids Campus, located in downtown Grand Rapids, MI. The Pew Grand Rapids Campus is home base for most of Grand Valley State University's graduate degree programs. Many graduate programs and courses are offered in Grand Rapids so that they are more accessible to adult learners living or working throughout the Grand Rapids metropolitan area. Additionally, many graduate programs offer classes in outlying communities throughout northern, central, and southern Michigan.

The associate vice provost for The Graduate School works on behalf of all graduate students to ensure that Grand Valley's graduate programs are of the highest quality, that faculty members teaching graduate courses are well-qualified to teach at the graduate level, and that university policies and procedures are applied appropriately to graduate students. The associate vice provost for The Graduate School and staff members work closely with the Office of the Provost, the Graduate Council, the Office of Admissions, academic deans, department chairs, graduate program directors, the Center for Adult and Continuing Studies, the Office of the Registrar, the Division of Inclusion and Equity, the Student Services Division, and the Office of Financial Aid and Scholarships to advocate on behalf of graduate students and to provide leadership and vision for graduate education at Grand Valley.

Currently enrolled graduate students or those interested in graduate studies at Grand Valley are welcome to visit The Graduate School in DeVos Center for assistance, advice, or to provide feedback on any aspect of their graduate education. The phone number is (616) 331-7105. For general questions about the admission process for graduate students at Grand Valley, students should contact the associate director for graduate admissions at (616) 331-2025. For questions about a specific graduate degree program, contact the graduate program director for that program. Contact information for graduate program directors may be found on The Graduate School website.

## Awards

**Graduate School Citations for Academic Excellence:** The associate vice provost for The Graduate School presents awards to outstanding graduate students recognized for their academic achievement. Nominations for the awards are submitted to The Graduate School by the graduate program director in the student's area of study. Awards are presented twice per year at the Graduate Student Celebration, held at the end of the fall semester for students who graduated the previous spring/summer and in the fall semester, and in April for students graduating at the end of the winter semester. Awardees receive a certificate and an honors cord, which can be worn at the Commencement ceremony. The Graduate School Citations for Academic Excellence include university-wide recognition for excellence in the following categories:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Academic Excellence in a Degree Program Award
- Outstanding Doctoral Dissertation Award
- Outstanding Master's Thesis Award
- Outstanding Final Project Award
- Outstanding Publication Award
- Award for Excellence Service to the Community or Profession
- Award for Excellence in Leadership and Service to Grand Valley
- Award for Excellence in Promoting Inclusion and Diversity at Grand Valley
- Award for Excellence in Sustainability

## **Graduate Assistantships**

The Graduate School is responsible for the overall administration of the university's graduate assistantship (GA) program and policies. Assistantships provide graduate students with part-time, paid work experiences in their field of study and allow them to expand and apply the knowledge and skills they learn in the classroom in a work setting. Graduate assistants typically work either 10 or 20 hours per week, depending on the terms of their appointment. Under the GA program, faculty and university staff members benefit as well, in that they receive assistance with research activities, special projects, and assignments that require the advanced skills that graduate students possess. Students receive tuition support as well as a stipend, which may help them lower the overall cost of attending graduate school.

Students interested in a graduate assistantship should first discuss their interest with their academic advisor or graduate program director, as students often find assistantships within their programs. Other academic and nonacademic units may have positions available as well. While The Graduate School administers the policies and makes the final determination as to the students' eligibility for an assistantship appointment, the advertisement of positions and the selection process are performed by the hiring unit. More information on graduate assistantships may be found in the Costs and Financial Aid and Graduate Information sections of the catalog or on The Graduate School's website.

## **Graduate Council**

The Graduate School provides administrative support to the Graduate Council, which is part of university faculty governance. The Graduate Council is responsible for oversight of university policies relating to graduate education, graduate academic program review, and the review and approval of the graduate curriculum. The Graduate Council's voting membership is made up of elected faculty representatives from each college and the university library, along with two graduate students who are elected by the Graduate Student Association.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Graduate Student Association**

The Graduate School actively supports the Graduate Student Association (GSA), the universitywide organization for graduate students at Grand Valley. This includes cohosting many professional development events, promoting social events, and providing guidance for the GSA. The GSA appoints two graduate students to serve as voting members of the Graduate Council, a university governance body that provides graduate program review and develops graduate-level academic policies. The GSA also appoints graduate student representatives to serve on the following University Standing Committees: Academic Standards and Policies Committee, Campus Life Committee, Equity and Inclusion Committee, Faculty Salary and Budget Committee, Faculty Teaching and Learning Center Advisory Committee, Faculty Facilities and Planning Advisory Committee, Online Education Council, University Assessment Committee, University Academic Senate, and University Library Advisory Committee. Each year, the GSA awards outstanding faculty in three categories: inclusion, mentorship, and teaching. The collaboration between The Graduate School and the GSA provides all graduate students with opportunities for success beyond the classroom.

## **Center for Adult and Continuing Studies**

### **Administration**

Executive Director: Simone Jonaitis

### **Website**

[gvsu.edu/learn](http://gvsu.edu/learn)

### **Mission**

The Center for Adult and Continuing Studies provides lifelong learners with access to relevant, inclusive, high-quality educational opportunities by responding to lifelong learning needs of individuals and communities.

## **Program Information**

The Center for Adult and Continuing Studies coordinates academic programs, services, and professional development for learners throughout the state of Michigan and beyond. For more information about programs and services available at Grand

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Valley's campuses and regional sites throughout Michigan, please contact us by phone at (616) 331-7180 or on the Web at [gvsu.edu/learn](http://gvsu.edu/learn).

Additional details about professional development opportunities can be found in the Community Resources section of the catalog.

**Pre-admission and transfer advising:** The staff at the center recognize the unique needs of the nontraditional student and the multiple time constraints and demands of an individual's experience. Professional advisors are available to help students with individual support prior to and while attending GVSU. Services include transfer advising, adult and veteran support, and help with navigating the academic and cultural landscape of the university.

**Accelerated degree completion for adults:** The center also manages and supports a unique accelerated degree completion program specifically designed for the adult learner. The degree completion is offered online in six-week sessions. Details can be found online at [gvsu.edu/complete](http://gvsu.edu/complete).

For more information, please contact (616) 331-7180, email [ceinfo@gvsu.edu](mailto:ceinfo@gvsu.edu), or schedule an appointment online at [gvsu.edu/complete/lets-get-started-2.htm](http://gvsu.edu/complete/lets-get-started-2.htm).

### **Traverse City**

Grand Valley State University offers degree completion and a full range of services to Northern Michigan. The Traverse City Regional Center, located at the Northwestern Michigan College University Center, offers undergraduate degrees in allied health and integrative studies. Students can earn a master's degree in education and physician assistant studies. Individuals and organizations seeking additional information about Grand Valley in Northern Michigan can call (231) 995-1785 or visit [gvsu.edu/learn/traverse](http://gvsu.edu/learn/traverse).

## **Scholarships**

### **Grand Forum Scholarship for Continuing Education**

This scholarship provides financial assistance to persons whose college education was interrupted for one or more reasons and who wish to continue to pursue earning a college degree at Grand Valley. Candidates must be returning as undergraduate students. Candidates must have a minimum of 24 prior credits at Grand Valley and be enrolled as a degree-seeking student with at least three credit hours. They must demonstrate financial need as defined by filing the Free Application for Federal Student Aid (FAFSA). Scholarship amount varies and cannot exceed the cost of three credits.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# University Libraries

## Administration

Dean: Annie Bélanger

Associate Dean of Curation, Publishing, and Preservation Services: Jeffrey Daniels

Interim Associate Dean of Curriculum, Research, and User Services: Jon Jeffryes

## Website

[gvsu.edu/library](http://gvsu.edu/library)

## Mission

Grand Valley State University Libraries purposefully collect, teach, display, discover, disseminate, and preserve information, in all its forms, to support the university curriculum and fuel the intellectual life of the university. We connect scholars and learners to resources. We create spaces and programs that inspire the university community and promote inquiry as an essential life skill.

## About University Libraries

University Libraries offers dynamic and diverse opportunities for research, collaboration, and individual study. From four unique locations, the libraries serve the entire Grand Valley community. Each library is uniquely tailored to its location and the programs it serves, with daily deliveries of physical materials between all university library locations.

University Libraries are committed to inclusion, diversity, equity, and accessibility. We strive to provide an environment in which all members of the campus community feel welcome, safe, supported, respected, and valued. All library staff and faculty are active in the ongoing work of identifying and eliminating barriers to ensure that all members of the library community are able to fully participate in library spaces and services. We work to ensure that our tools, devices, services, and environments are available and usable by as many people as possible.

### Allendale Campus Libraries

- **Mary Idema Pew Library Learning and Information Commons:** Collections, library services, group and individual study spaces, Knowledge Market (peer support), café,

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

popular reading, learn labs, events and exhibits, IT Help Desk, Technology Showcase, Center for Undergraduate Scholar Engagement

- **Seidman House:** Special Collections and University Archives contain rare books, manuscripts, photographs, archives; quiet study spaces with natural light and scenic views of the ravines

## **Robert C. Pew Grand Rapids Campus Library**

- **Steelcase Library in the Richard M. DeVos Center, Building A:** Specialized services and collections for professional programs, Knowledge Market (peer support), collaborative workspaces, reading room, popular reading, learn lab
- **Curriculum Materials Collection in the Steelcase Library:** K-12 educational resources, equipment, and services

## **Health Campus Library**

- **Frey Foundation Learning Commons in the Daniel and Pamella DeVos Center for Interprofessional Health:** Specialized collections and services for nursing and health professional programs, includes study spaces

## **Library Collections**

University Libraries house a rich and robust collection of resources in multiple formats that support the research and scholarship activities of students, faculty, and staff, including more than 400,000 physical resources, over 1,000,000 e-book titles, more than 120,000 e-journal titles, over 250,000 streaming media files and more than 300 databases. [gvsu.edu/library/find-materials-2.htm](https://gvsu.edu/library/find-materials-2.htm)

- **Special Collections and University Archives:** Seidman House on the Allendale Campus contains both the University Archives and Special Collections, including rare books, Michigan novels, the Harvey Lemmen Collection on Lincoln and the Civil War, the Johnson Center Philanthropy Archives, and the papers of acclaimed Michigan author Jim Harrison, among others.
- **Scholarly Communications and Open Education Resources:** ScholarWorks@GVSU is an open-access repository maintained by Grand Valley libraries that showcases and maintains works by Grand Valley faculty and student researchers. Open Educational Resources (OER) are textbooks and other educational materials that are open and free to use. Scholarworks currently hosts 25 open textbooks and 26 open journals.
- **Curriculum Materials:** The Curriculum Materials Library at the Steelcase Library in the DeVos Center holds a diverse collection of high-quality instructional materials for preschool through grade 12. This specialized collection also includes puppets, an Ellison die-cut machine, and a laminator.
- **Digital Collections:** University Libraries' Digital Collections contain a selection of photographs, correspondence, diaries, interviews, and publications from the holdings of the libraries' Special Collections and University Archives and other university entities.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

This expanding resource makes unique or rare materials from Grand Valley collections available electronically to students, faculty members, administrators, researchers, and the general public. [gvsu.edu/library/digitalcollections](http://gvsu.edu/library/digitalcollections)

- **Government Documents:** Grand Valley has been a part of the Federal Depository Library Program since 1963.

### **Document Delivery**

University Libraries' Document Delivery and Interlibrary Loan service can locate resources that are within and outside of the University Libraries' collections. Electronic copies of articles and book chapters can be requested via the libraries' discovery system and delivered to email within a few days. Books and other items can be borrowed from other libraries, with delivery usually within a week to a selected library location or home address.

### **Knowledge Market**

The Knowledge Market has highly trained student employee/peer consultants who can help students improve their skills. Consultants work one-on-one with individual students or small student groups to develop research strategies, analyze data, improve writing, or polish presentations. Knowledge Market services are available at the Mary Idema Pew Library and the Steelcase Library and online at [gvsu.edu/library/km/online-support-41.htm](http://gvsu.edu/library/km/online-support-41.htm).

### **Distance and Hybrid Learning**

University Libraries knows that distance education students have different needs than on-campus students. Library services at Grand Valley are available to the distance education community; the libraries also work hard to meet the needs of all distance learners through remote services such as chat/text help, online consultations, and off-campus book delivery.

### **Liaison Librarians**

Liaison librarians provide specialized instruction and consultations for all Grand Valley majors and programs. Students can schedule an appointment to meet with a liaison librarian to learn more about how to use the libraries and for specific research or assignment-related assistance. Liaison librarians work closely with faculty throughout the university to develop and provide course-specific information literacy instruction, both in-person and online.

The University Libraries has desktop and laptop computers, as well as printing, scanning, and copy stations.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Library users can request materials online via the libraries' website; connect with library staff via chat, email, text, or phone; or visit in person at the service desk. Students can make an appointment with a liaison librarian for research assistance.

Group study, collaborative group work areas, mobile and wall whiteboards, quiet study areas, reading rooms, desk carrels, and soft seating are available in a variety of options across locations. Check with each library location for specific availability.

The **IT HelpDesk** is located in the Mary Idema Pew Library, Atrium Level. Students can receive hardware and software troubleshooting services.

The **Center for Undergraduate Scholar Engagement**, located in room 230 of the Mary Idema Pew Library, provides support for undergraduates to pursue the research and creative practice in their discipline. Curious students are connected with ways to discover, research, and explore. Students work with faculty on student- or faculty-initiated research.

The **Technology Showcase**, located on the Atrium level of the Mary Idema Pew Library, provides faculty, staff, and students with an interactive and engaging environment to discover, learn, and share how innovative, emerging technologies can enhance teaching and improve student learning at Grand Valley. The showcase also offers 3-D printing.

## Admissions

### Undergraduate Admissions

#### Freshman Applicants

Grand Valley State University welcomes qualified students to submit their applications. Admission decisions are selective based on the secondary school record, grades earned as well as courses selected, the personal data submitted on the application, and ACT or SAT results. Incoming freshmen for Fall 2022 may apply as a test optional applicant and submit test scores as a supplement to their application at a later date.

Freshmen are normally expected to be graduates of accredited high schools or preparatory schools. A strong high school background in basic academic subjects is important in a student's preparation for college study. The admission requirements are designed to ensure that students who are admitted to Grand Valley have the ability to

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

successfully complete academic work and fully use the educational opportunities available.

Grand Valley grants admission to students who are prepared to meet the challenges of a rigorous university curriculum. Admission at Grand Valley is selective. Each application for admission is carefully reviewed and academic performance, as well as other criteria presented by prospective students, is considered in the evaluation. Applicants will be reviewed using a combination of high school courses completed, cumulative grade point average, standardized test scores (when presented for Fall 2022 applicants), grade point trend, rank in class, and other factors.

A total of 20 units is required (a unit is the satisfactory completion of one year's work). Exceptions to these requirements will be considered in relation to other credentials presented.

## Admissions

A single deficiency in an academic area will not necessarily mean a student is refused admission. However, students who are missing a number of courses will be at a disadvantage. We recommend that high school students who plan to attend Grand Valley prepare by completing the following high school program. **High school coursework is the single most important factor in consideration for freshman admission.** High school preparation should include the following:

- Four years of English, including composition
- Three years of science, including two years of laboratory science
- Three years of college preparatory mathematics, including two years of algebra
- Three years of social sciences
- Two years of a single foreign language

Further, we recommend elective courses in computer science and the fine arts. We also strongly recommend a fourth year of mathematics and additional science courses. Results of the ACT or SAT will be required before an admission decision is rendered unless the applicant has graduated from high school three or more years previously or is an applicant for the class beginning Fall 2021 and chooses to submit a test-optional application.

The requirement of high school graduation may be waived for adults, provided there is evidence that they are likely to be successful in college. This evidence will in most cases take the form of the General Educational Development (GED) test.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students are encouraged to apply early in the fall of their senior year. The admissions counseling staff welcomes the opportunity to meet with prospective students. Appointments should be arranged in advance at [gvsu.edu/visit](http://gvsu.edu/visit). Please contact the Admissions Office at (616) 331-2025 or toll-free (800) 748-0246 with questions.

### **Admissions Office**

Grand Valley State University  
1 Campus Drive  
300 Arend and Nancy Lubbers Student Services Center  
Allendale, MI 49401-9403  
Web: [gvsu.edu/admissions](http://gvsu.edu/admissions)  
Email: [admissions@gvsu.edu](mailto:admissions@gvsu.edu)

To be considered for freshman admission, you must submit:

- Completed undergraduate application
- \$30 nonrefundable application fee
- Official high school transcript
- Official results of the ACT or SAT (optional for the class applying for Fall 2022 admission)

Applications will be reviewed as soon as all information has arrived, and the applicant can expect a decision shortly thereafter. The Admissions Office may withhold a decision for additional information or for further testing. Applicants will be notified to provide any additional information. Applications for admission must be completed at least 30 days before the final day of registration. However, admission to any semester is subject to earlier closing without notice.

All documents and supporting data required for admission become the property of Grand Valley State University and will not be returned to the applicant.

## **Concurrent Enrollment with Community Colleges**

Concurrent enrollment allows students at both Grand Valley State University and community colleges to make full use of the variety of courses offered by both institutions. Through concurrent enrollment, students have more scheduling options, more choice of course locations, and many more courses available. Students may take courses at both institutions simultaneously or alternate enrollment between them. Financial aid may also be available to students who qualify.

Students must be admitted to both institutions. Please refer to the Transfer Applicant or Nondegree-seeking Applicants section of the Grand Valley State University

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Undergraduate and Graduate Catalog for specific admissions requirements to Grand Valley State University.

## **Frederik Meijer Honors College**

The Grand Valley State University Frederik Meijer Honors College is intended for students who, in their previous academic pursuits, have demonstrated a distinctly high level of intelligence, motivation, creativity, and academic achievement. The college provides its students with special academic opportunities and challenges.

High school students admitted to Grand Valley are typically invited to join the Meijer Honors College if they have a 3.5 or better high school GPA and an ACT score of at least 28 or an SAT score of 1300 (test scores are optional for the class applying for Fall 2021 admission).

Transfer students who wish to enter the Meijer Honors College may apply for admission if they have a 3.5 or better college GPA. Applicants should contact the director of the Meijer Honors College.

For more information about the Meijer Honors College, consult the Frederik Meijer Honors College section in the catalog.

## **High School Dual-enrollment Program**

Some high school students may be eligible for concurrent enrollment in Grand Valley courses. Qualification and admission will be based on the following factors:

- An appointment with an admissions counselor is required each semester prior to enrollment
- Completed nondegree-seeking application
- Official high school transcript
- An overall GPA of 3.0 or above in high school coursework
- Official results of ACT or SAT if available
- Completed Grand Valley Dual Enrollment Form including all appropriate signatures
- Limitation of two classes per semester
- Permission from the Admissions Office must be obtained for future semesters at Grand Valley while still in high school
- Students qualifying for dual-enrollment assistance from their high school must present a dual-enrollment authorization form prior to enrollment
- Students must earn at least a 2.0 in each dual-enrollment class if they wish to continue taking dual-enrollment courses at Grand Valley State University

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A decision on admission will be made when all information has arrived. The Admissions Office may withhold a decision for further information or until an interview has been held. Applicants will be notified to submit any additional information.

## International Students

Grand Valley hosts more than 300 international students from more than 70 countries. Students will find a safe and welcoming environment with many on-campus activities. To be considered for admission, international applicants must submit all of the following documents to the Admissions Office by **October 15 for the winter semester (January)** or by **May 1 for the fall semester (August)**:

- Completed international admission application
- \$30 nonrefundable application fee
- Record of English proficiency. Students may satisfy the English proficiency requirements with these tests:
  - Duolingo: 105
  - IELTS: 6.5
  - PTE: 53
  - TOEFL: 80
  - ELS Level 112: (undergraduate and the following graduate programs: computer and information systems, cell and molecular biology, health informatics and bioinformatics, biostatistics)
- Undergraduate students from the following countries do not need to take the TOEFL or IELTS but will need to take the SAT or ACT exams:
  - Antigua and Barbuda
  - Australia
  - Bahamas
  - Barbados
  - Belize
  - Bermuda
  - Botswana
  - Canada
  - Dominica
  - Fiji
  - Gambia
  - Ghana
  - Grand Cayman Islands
  - Grenada
  - Guyana
  - Ireland
  - Jamaica
  - Kenya
  - Lesotho

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Liberia
- Malawi
- New Zealand
- Nigeria
- Sierra Leone
- South Africa
- Saint Kitts and Nevis
- Saint Lucia
- Saint Vincent and the Grenadines
- Swaziland
- Tanzania
- Trinidad and Tobago
- Uganda
- United Kingdom
- British Virgin Islands
- Zambia
- Zimbabwe
- Verification of financial support: Applicants and their sponsor must complete and sign the Financial Support Form and submit original bank statements verifying that the necessary amount of support is available. Applicants must demonstrate that they have full financial support as part of the application process.
- Original or certified true copies of all certificates and grade reports of secondary and postsecondary work. If the credentials are not in English, they must be accompanied by an English translation. Typically, transcript evaluations are not considered an official transcript. However, some graduate departments will require a transcript evaluation along with an official transcript for admission.
- Personal statement: Please write a one- to two-page personal statement about your goals and reasons for wanting to enter Grand Valley State University.

Please note some graduate programs may require additional tests or documents for admission. Additional graduate requirements can be found on The Graduate School website at [gvsu.edu/gs](http://gvsu.edu/gs).

Partial tuition scholarships are available to qualified admitted international students. Students who apply for fall admission and submit all required admission documents by May 1 will be considered for scholarships. Graduate students can be considered for graduate assistantships after admission.

All documents and supporting data required for admission become the property of Grand Valley State University and will not be returned to the applicant.

## **Transfer Applicants**

A transfer applicant is someone who has attended another college or university after graduation from high school. The applicant will be evaluated on previous coursework

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

at the college level. High school performance will also be reviewed for those who have earned fewer than 30 semester hours (45 quarter hours) of college-level coursework.

To be considered for transfer admission, you must submit the following:

- Completed undergraduate application
- \$30 nonrefundable application fee
- Official transcripts from *all* previous colleges (transcripts must be sent directly from the colleges to the Grand Valley State University Admissions Office)

Applicants who have earned fewer than 30 semester hours (45 quarter hours) at the time of application must also submit the following:

- Official high school transcript
- Official results of ACT or SAT

Applications will be reviewed as soon as all information has arrived, and the applicant can expect a decision shortly thereafter. The Admissions Office may withhold a decision for additional information. Applicants will be notified to provide any additional information. Applications for admission must be completed at least 30 days before the final day of registration. However, admission to any semester is subject to earlier closing without notice.

All documents and supporting data required for admission become the property of Grand Valley State University and will not be returned to the applicant.

Transfer students must complete a minimum of 12 hours in the unit conferring the major (six for the minor). Some programs have higher requirements; transfer students should consult descriptions of specific major requirements.

## **Reverse Transfer Agreement**

Grand Valley State University has signed agreements with all Michigan community colleges whereby students who transferred to Grand Valley from a participating community college without receiving their associate degree may qualify to complete this degree while attending Grand Valley. An email will be sent from the registrar at the end of each semester to students who meet the following criteria:

- Transferred a minimum of 45 credit hours from the community college to Grand Valley
- Have a combined total of at least 55 credits completed, including both those from the community college and Grand Valley
- Are in good academic standing

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students who want to request their record be reviewed by a community college official should complete the Reverse Transfer Agreement Transcript Release form available on the registrar's website. Degree program advisors at the community college will

- audit the record to see if the student qualifies for the award of the associate degree and
- notify the student of the results of the review.

Additional information or questions should be directed to the Student Assistance Center at (616) 331-3327 or sent by email to [regdept@gvsu.edu](mailto:regdept@gvsu.edu).

## **Transfer of Credit**

Grand Valley makes every effort to transfer credit for academic work completed at other institutions. In general, courses completed with a D grade at a regionally or nationally accredited institution will transfer when the overall GPA of all previous work, as calculated by Grand Valley, is C or better. Transfer credit is typically determined by the offering of an equivalent course at Grand Valley. Limited transfer credit may be awarded from technical or terminal associate degree programs. Credit from nonaccredited colleges may, under special circumstances, be granted if it is germane to a student's program. Approval for such credit must be given by the director of the Student Academic Success Center. Such credit will be validated after 15 semester hours of satisfactory work have been completed at Grand Valley (2.0 GPA or higher). Transfer credit will be granted only to those students admitted as degree-seeking.

Transfer students admitted as degree-seeking will receive a Transfer Credit Statement/Degree Audit, which indicates how coursework completed at other colleges and universities will transfer to Grand Valley on a course-by-course basis. Total credits transferred are recorded on the student's academic record and will apply toward Grand Valley degree requirements; grades are not transferred.

For information governing the use of transfer credit to fulfill degree requirements, see the Academic Policies and Regulations section of the Grand Valley State University Undergraduate and Graduate Catalog.

## **Transfers from Michigan Community Colleges**

Grand Valley State University is a member of the Michigan Association of Collegiate Registrars and Admissions Officers (MACRAO), which has formulated an agreement between two- and four-year institutions. Students who transfer to Grand Valley and have fulfilled the Michigan Transfer Agreement (MTA) or the MACRAO transfer

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

agreement through a Michigan public community college have satisfied the Foundations categories of the General Education Program and one Supplemental Writing Skills (SWS) course. However, transfer students with an MTA or MACRAO will still need to complete the following requirements: one SWS course in their major or division, the General Education Program's two-course Cultures requirement, and the two-course Issues requirement. For specific course information, please refer to [gvsu.edu/gened](http://gvsu.edu/gened).

## **Undergraduate Guest Student Applicants**

Nondegree-seeking admissions status is for degree-seeking students from another college or university who want to transfer the credits earned at Grand Valley to their home institution.

Application requirements and limitations:

- Eligible to reenroll at their home institution
- Completed official Guest Application

## **Undergraduate Nondegree-seeking Applicants**

The nondegree-seeking admission status is designed for persons who, at the time of admission, are not interested in obtaining a degree from Grand Valley.

Application requirements and limitations:

- Graduation from high school three or more years previous to their first enrollment
- A maximum of 30 semester hours earned as a nondegree-seeking undergraduate student may apply toward a Grand Valley degree program
- Applications must be complete at least 30 days before the final day of registration

## **Credit by Examination**

In some cases, students may be granted advanced placement or receive college credit by examination. Tests are available to determine levels of competence in certain subject areas. Grand Valley encourages prospective students to investigate their use.

Additional information on credit by examination can be found in the General Academic Regulations section of the Grand Valley State University Undergraduate and Graduate Catalog.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## Special Entrance Requirements for Certain Undergraduate and Graduate Programs

The standards for entry into the following majors and programs exceed the minimum requirements for admission to Grand Valley. Students must fulfill the additional requirements before they may declare a major in any of these noted areas. Please refer to the department entries for admission requirements and application deadline.

Allied health sciences (certain emphases only)	Medical laboratory science
Applied food and nutrition	Music
Art education	Nursing
Athletic training, MAT	Occupational safety and health management
Audiology, Au.D.	Occupational therapy (M.S.)
Cardiovascular sonography	Physical therapy (D.P.T.)
Communication sciences and disorders	Physician assistant studies (M.P.A.S.)
Computer science	Police academy (MCOLES)
Cybersecurity	Professional science masters (M.S.)
Dance	Radiation therapy
Diagnostic medical sonography	Recreational therapy
Education	Respiratory care
Engineering	Seidman College of Business programs
Film and video production	Social work
Health information management	Studio art (all emphases)
Information systems	
Information technology	

## Undergraduate Appeal of Admissions Decisions

Applicants denied admission may appeal that decision in writing to the director of admissions within 30 days of notification. It is important to note that an appeal will be heard only when new or additional information is present.

## Graduate Admissions

The graduate degree programs at Grand Valley are designed for students who are interested in expanding their professional preparation and development or continuing

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

their education. Applicants for graduate admission must meet the following university minimum requirements to be considered:

- Earned a baccalaureate degree from a regionally accredited college or university in the United States, or the equivalent of this degree from another country.
- Demonstrated ability to pursue graduate work successfully. Graduate programs generally require an undergraduate grade point average of at least 3.0 on a 4.0 scale.

## **Degree-seeking Domestic Students**

Students who meet the following university requirements and the additional requirements of their chosen program will be considered for degree-seeking status:

1. A baccalaureate degree from an accredited institution of higher education.
2. Submission of all required admission materials, including:
  - a. Completed graduate application for admission.
  - b. \$30 nonrefundable application fee (unless applicant has previously applied to Grand Valley State University).
  - c. Official copies of transcripts from all institutions of higher education previously attended. Transcripts must be sent from those institutions directly to the Grand Valley Admissions Office. GVSU does not require official transcripts from GVSU.
  - d. Record of English proficiency for applicants whose native language is not English. Students may satisfy the English proficiency requirements with these tests:
    - Duolingo: 105
    - TOEFL: 80
    - IELTS: 6.5
    - MELAB: 77
    - PTE Academic: 53
3. Additional requirements and application materials specific to the graduate program.

## **Degree-seeking International Students**

Students who meet the following university requirements and the additional requirements of their chosen program will be considered for degree-seeking status:

1. Completed international admission application.
2. Submission of all required admission materials, including:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

a. \$30 nonrefundable application fee (unless applicant has previously applied to Grand Valley State University).

b. Record of English proficiency for applicants whose native language is not English. Students may satisfy the English proficiency requirements with these tests:

- Duolingo: 105
- TOEFL: 80
- IELTS: 6.5
- MELAB: 77
- PTE Academic: 53

c. Verification of financial support.

d. Original or certified true copies of all certificates and grade reports of secondary and postsecondary work. If the credentials are not in English, they must be accompanied by an English translation.

3. Additional requirements and application materials specific to the graduate program.

You must submit a completed application form and all required documentation to the Admissions Office before your application file receives admissions consideration. Applicants whose files are incomplete will not be considered for full admission. The webpage for graduate admission information is [gvsu.edu/admissions/graduate](http://gvsu.edu/admissions/graduate).

You can monitor your application status by calling the Admissions Office at (800) 748-0246 or (616) 331-2025. All documents and supporting data required for admittance become the property of Grand Valley State University and will not be returned to the applicant.

## Graduate Admissions Status

**Full Admission:** Indicates that applicants fully meet all the entrance criteria, including degree(s) required, GPA requirement(s), test score requirement(s), letters of recommendation, and official transcript(s) of all previous coursework completed. Only graduate degree candidates who have achieved full admission status will be granted their degree. This status signifies that all required documents (including final transcripts) are on file with the university.

**Provisional Admission:** Applicants who must submit additional application document(s) before achieving full admission status. The deadline for submitting missing documents is the last day of classes of their first semester of enrollment. Examples of missing documents may include:

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- a. Official transcripts or admission test scores.
- b. Certified copies or official verification of professional licenses or certifications.
- c. Letters of recommendation.
- d. Other documents required by their department.

**Conditional Admission:** Applicants who must meet specific conditions set by the degree program before attaining full admission status. Individual graduate programs determine the parameters of conditional admission and set the deadline(s) by which the conditions need to be met. Examples of specific conditions include:

**a. Curriculum deficiencies:** Applicants who are not admissible or are marginally admissible to a graduate program because they have not completed prerequisites or background courses required for success in the graduate program.

**b. Academic deficiencies:** Applicants whose credentials may be marginally acceptable. Although the graduate program may agree to admit such a candidate with reservation, the program may identify grade conditions that need to be met.

**c. Nonstandard evidence of the potential for success in graduate work:** Applicants do not meet the standard admission criteria, but other significant evidence exists of candidates' potential for success in a graduate program. Examples of such evidence include:

- Candidates' maturation subsequent to their previous academic record.
- Candidates' significant professional and other accomplishments related to the program's discipline(s) and subsequent to a marginal academic record.
- Standardized admission test scores that are not representative of a candidates' aptitude for graduate work.
- Candidates' prior academic performance was negatively affected by significant nonacademic factors or influences that are no longer present.

**Denied Admission:** Indicates that applicants are not granted admission to a degree program under any status.

**Degree-seeking Student:** Applicants who have been granted admission to a degree program under full, provisional, or conditional status.

**Nondegree-seeking Student:** Applicants who have earned a bachelor's degree and are not enrolled in a graduate program can take classes at Grand Valley as a nondegree-seeking student. Information about course offerings can be found in the GVSU Undergraduate and Graduate Catalog.

- Students should complete the nondegree-seeking graduate application
  - for personal development without completing a graduate degree nor receiving a graduate certificate or
  - for completion of prerequisites required for admission to their chosen graduate program.
- Nondegree-seeking students are not eligible for federal or state financial assistance.
- A maximum of six to 12 credit hours taken as nondegree may be applied to a graduate degree, depending on the program of interest. Refer to the GVSU Undergraduate and Graduate Catalog for specific requirements.
- All College of Education students seeking a degree, endorsement, approval, licensure, or certificate change must be formally admitted to graduate study by applying for degree-seeking graduate admission.

### **Changing Status from Nondegree-seeking to Degree-seeking**

You may seek a change in status by

1. submitting all required admission materials and
2. submitting a degree-seeking application form to the Admissions Office.
  - Students may complete the graduate application by submitting a graduate online application or printing, filling out, and mailing the graduate paper application.

### **Appeal of Admissions Decisions - Graduate**

Admissions decisions may be appealed to the director of the graduate program and then to the dean of the college in which the program resides. Students who are nondegree-seeking may appeal an admissions decision to the associate vice provost for The Graduate School.

### **Petition to Return**

Following a voluntary absence of two or more consecutive semesters or sessions, a graduate student must complete a Petition to Return form. Graduate students are reminded that following a voluntary absence of 24 consecutive months they must follow the Grand Valley State University Undergraduate and Graduate Catalog requirements in effect at the time of their return to Grand Valley. Such students should meet with their graduate program advisor to revise their plan of study.

Graduate students who wish to return to Grand Valley following an academic dismissal must submit a written appeal to the dean of the academic college in which the graduate program resides.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Graduate students who wish to change to a different graduate degree program within Grand Valley must complete the application process for that program and be formally accepted into the program. No additional application fee is required, and the applicant need not supply duplicate copies of official transcripts already on file.

## **Costs and Financial Aid**

### **Costs**

Tuition is based on the classification of the student and the course: undergraduate or graduate, lower or upper division, resident or nonresident of Michigan.

Tuition rates and fees are set by the Board of Trustees. The rates listed here are for the 2021-2022 academic year and can also be found online at [gvsu.edu/tuition](https://gvsu.edu/tuition). A per credit hour or per course surcharge will be assessed for certain classes to offset higher costs. For more information about special course charges, go to [gvsu.edu/tuitionExt.htm](https://gvsu.edu/tuitionExt.htm).

Tuition for lower division (0-54 earned credits) undergraduate students who are Michigan residents taking anywhere from 12 to 15 credit hours is \$6,780 per semester. Tuition is \$570 per credit hour for fewer than 12 credits and for each credit over 15. Tuition for upper division (55 or more earned credits) undergraduate students who are Michigan residents taking anywhere from 12 to 15 credit hours is \$7,120 per semester. Tuition is \$598 per credit hour for fewer than 12 credits and for each credit over 15.

For lower division (0-54 earned credits) nonresident undergraduate students, tuition is \$9,648 total per semester for anywhere from 12 to 15 credits and \$811 per credit for fewer than 12 credits and for each credit over 15. For upper division (55 or more earned credits) nonresident undergraduate students, tuition is \$9,980 total per semester for anywhere from 12 to 15 credits and \$838 per credit for fewer than 12 credits and for each credit over 15.

Master's-level tuition ranges from \$708-\$773 per credit hour. Doctoral-level tuition ranges from \$867-\$894 per credit hour. Rates are based on academic program and there are no separate rates based on residency status. Visit [gvsu.edu/tuition](https://gvsu.edu/tuition) for a listing of graduate and doctoral program tuition rates.

The previously listed tuition rates apply to all students registering for credit courses, including guests, visitors, and all categories of students who are not pursuing a degree

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

at Grand Valley State University. Rates for noncredit courses in special programs apart from the regular university curriculum are published with the announcements of such programs.

Rates of tuition and fees are those in effect at the time of publication of the Grand Valley State University Undergraduate and Graduate Catalog. They are subject to change at any time by Grand Valley's Board of Trustees.

## **Fees**

Late registration (allowed only in the first five days of the semester) requires a \$50 late fee. Fees for resident and nonresident are the same.

Schedule revision, or drop/add, is held concurrently with all registrations. A student may drop or add any course for which prerequisites have been met and capacity permits. Additional tuition charges are due when a student adds a credit. Under exceptional circumstances, a student may be allowed to add a course after the deadline. The completed transaction, accompanied by support from the instructor, department chair, and collegial dean, must include a \$25 late add fee and any additional tuition. Specific dates and times for all registrations are set by the registrar and listed in the schedule of courses. For more information on financial regulations regarding late registration and dropping or withdrawing from classes, click on the Policies section on the Office of Financial Aid and Scholarships website at [gvsu.edu/financialaid](http://gvsu.edu/financialaid).

## **Parking**

Students wishing to park on either the Allendale or Grand Rapids campuses must purchase a parking permit. Permits can be ordered electronically at [gvsu.edu/parking](http://gvsu.edu/parking). The permit costs range from \$105 to \$240 per semester, depending on the student's choice of parking permit. The permit charge will be billed directly to the student account and the charge will be based on the credit hours enrolled per semester.

## **Residency**

Because students normally come to Grand Valley State University for the primary or sole purpose of attending the institution, rather than establishing a domicile in Michigan, those who enroll as nonresident students will continue to be classified as such throughout their attendance unless they demonstrate that they have permanently abandoned their previous home and permanently established Michigan residency. See

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

section on Michigan Residence Requirements for Grand Valley's policy for determining residency.

## **Tuition and Fees Refund Policy**

Students who reduce their number of credit hours or withdraw from Grand Valley may be eligible, upon application to the office of the registrar, to receive a refund of tuition. The amount of refund will be based on the following schedule:

1. Students withdrawing before the start of the semester and during the first week of classes are eligible for a full 100-percent refund of the applicable credit hours assessed. All financial aid awarded to the student will be reduced based on the required federal Return of Title IV (R2T4) calculation. Students should expect to have a portion of their financial aid returned. (See Financial Aid and Complete Enrollment Withdrawal section.)
2. Students withdrawing during the second week of classes in a shortened session (spring or summer) and in the second, third, and fourth weeks of classes in a full session are eligible for a 75-percent tuition refund of the applicable credit hours assessed.
3. Students withdrawing after the second week of classes in a shortened session (spring or summer) and the fourth week of classes in a full session are not eligible for a tuition refund.
4. Students who withdraw completely and are eligible for a 100-percent refund of tuition will be eligible for a full refund of their assessed credit hours and other mandatory fees. Students withdrawing completely during the 75-percent refund period will be eligible for a 75-percent refund of their assessed credit hours and other mandatory fees. There will be no refund of these fees after the last date for a 75-percent refund as stated in the Annual Class Schedule online.

Students who have financial aid should talk to the Office of Financial Aid and Scholarships before dropping/withdrawing from classes to understand how their aid will be affected.

A specific schedule of refunds, with qualifying dates, is published each semester in Grand Valley's official Annual Class Schedule.

The refund is based on the date of receipt of the completed class drop or withdrawal form in the office of the registrar. If a course does not begin during the first week of the start of the semester, refunds will be based on the date of the first class meeting.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

When Grand Valley State University cancels a course or when it is determined that a student has registered for a course he or she was not eligible to take, a full refund will be made regardless of the date.

In cases in which financial aid was used to pay for all or part of tuition, the refund will be used to repay the sponsor first and then the student, when appropriate. Refer to the Repayment of Unearned Federal Student Aid section of this catalog for details of this procedure.

## **Tuition Refund Appeals**

Student applications for refund of tuition are reviewed weekly by the Tuition Refund Appeals Committee. The applicant is notified in writing following the meeting. Approved refunds will follow the normal refund process returning federal and institutional funds as dictated by policy.

## **Financial Aid**

### **Financial Aid and Complete Enrollment Withdrawal from University/Repayment of Unearned Federal Student Aid**

For any student who officially withdraws, federal regulations require that any unearned funds be returned based on the withdrawal (R2T4) calculation as soon as possible but no later than 45 days after being notified of your complete withdrawal. This federal calculation will determine the amount of unearned federal financial aid funds that must be returned to the Department of Education. The statute makes clear that federal funds are awarded to a student under the assumption that the student will attend for the entire period for which the assistance is awarded. When a student ceases academic attendance before the end of that period, the student has not earned all of the federal financial aid and therefore may not be eligible for the full amount of the federal funds awarded. The Office of Financial Aid and Scholarships must determine that the student began attendance in the courses for which they were paid Title IV aid. Examples of academic activity which show that the student commenced attendance include: attending class, completing an assignment, participating in an online discussion, etc. The amount of federal funds earned by the student is determined by multiplying the percentage of the enrollment period completed by the total amount of federal loans and grants disbursed. If a student completely withdraws before 60 percent of the semester is completed, the student may be required to repay a portion of the federal financial aid. If the percentage of the enrollment period completed is more than 60 percent, the student has earned 100 percent of the aid. Students who

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

completely withdraw will be billed for any institutional charges that remain as well as the amount of the unearned federal student aid that has been given to them.

If the student performs an official complete withdrawal during the drop/add (100-percent refund) period, Grand Valley will return all financial aid funds prior to releasing any refund of tuition. A student may contact our office to request an R2T4 calculation for the purposes of receiving earned Title IV aid up to the date of withdrawal. This request must be made in time for us to perform the calculation before the 30th day following official notification of withdrawal. For each applicable course, the student must submit written documentation confirming that academic activity began. In cases where a student owes a balance, we will complete the calculation, if requested, and apply any earned aid toward their semester balance if applicable.

Students who stop attending but do not officially go through withdrawal procedures are considered to have unofficially withdrawn. If an unofficial complete withdrawal is determined to have taken place, federal regulation requires that we complete a federal Return of Title IV (R2T4) calculation to determine the amount of unearned federal financial aid funds that must be returned to the Department of Education. The calculation will be completed within 30 days of identifying the unofficial complete withdrawal. In many cases, this would be the end of the semester after grades have been reported by faculty and are published. Grand Valley faculty report a last date of academic activity (LDAA) for all students who completely withdraw. Our office will use the LDAA to calculate the amount of unearned aid.

## **Receiving Financial Aid for Repeated Courses**

The Office of Financial Aid and Scholarships is required to monitor and adjust a student's enrollment level for federal student aid if, or when, they repeat coursework for credit that they have already earned.

- A student may receive aid when repeating a course for the first time.
- A student may receive aid when repeating a course that was previously failed, regardless of the number of times the course was attempted and failed.
- A student may receive aid to repeat a previously passed course one additional time. For this purpose, a passing grade is defined as D- or better.
- If a student retakes a course that is not aid eligible, the credit hours will be excluded from the total enrollment for the semester.
- Students will receive an e-mail notification from our office if they are enrolled in a course that would need to be excluded from their eligible enrollment.

## **Financial Aid for Students**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

At Grand Valley State University, more than \$300 million in financial aid was awarded to more than 22,200 students. More than \$99 million of that was in the form of scholarships and grant assistance. Even though Grand Valley believes that the responsibility for financing a college education rests with students and their families, large amounts of aid are available. A student who receives a scholarship or grant may need to be willing to borrow and work to cover the remainder of his or her educational costs. In fact, because no one program can cover all college expenses, aid programs are usually combined in "packages" suited to the student's needs. This means that students receive aid in a variety of forms. Rarely would a student receive all one type of aid, a grant for example, but may receive a mixture of grant, scholarship, student employment, and loan.

To be considered for aid, students must be admitted as degree-seeking students. The financial aid students receive is based on their enrollment status each semester. Financial aid awards will be adjusted based on the number of enrolled credits. The majority of financial aid programs require at least half-time enrollment (six credits per semester for undergraduate students and four and one-half credits per semester for graduate students).

To maintain and renew aid, students must make satisfactory academic progress. For most federal and state aid, need must be demonstrated by submitting a Free Application for Federal Student Aid (FAFSA). Students are encouraged to visit [studentaid.ed.gov/sa](http://studentaid.ed.gov/sa) to file the FAFSA online and utilize the IRS Data Retrieval Tool to import their tax information. Contact the Office of Financial Aid and Scholarships if you need assistance in accessing or completing this application.

## **Application Procedure**

All financial aid is awarded for the academic year beginning with the fall semester. Students must reapply for financial aid every year.

We encourage students to file the FAFSA for the following academic year by the Grand Valley State University priority deadline of March 1. Students who file after March 1 may not receive full grant funds (see application dates in the next section). An individual must be a degree-seeking student to be eligible to receive financial assistance. Most aid is awarded to students attending at least half-time (six or more credit hours for undergraduate students), although students attending less than half-time may be considered for the Federal Pell Grant program. Continuing education students (part-time, nondegree-seeking students) are not eligible for federal financial aid; however, they may apply for and receive some types of alternative loan programs. These students, and all others, can also utilize the Grand Valley State University

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

tuition payment plan offered by the Student Accounts office. For additional information on alternative loan programs, contact the Office of Financial Aid and Scholarships. Financial aid for international students is limited based on federal guidelines.

Additional aid may be awarded for the spring/summer session depending on the availability of funds. If you are seeking a spring/summer award, you must complete the spring/summer application, which is available on the Office of Financial Aid and Scholarships website each February at [gvsu.edu/financialaid/summer](http://gvsu.edu/financialaid/summer).

If you wish to be considered for financial aid, please refer to the deadline dates listed and follow the four basic steps outlined here.

1. If you are a new student, you must submit application forms for admission to Grand Valley. It is recommended that you submit a complete application for admission by December 31 for the fall semester.
2. A Free Application for Federal Student Aid (FAFSA) form must be completed by you and/or your parents and/or your spouse. Applications must be submitted online at [studentaid.ed.gov/sa](http://studentaid.ed.gov/sa). In order for us to receive your FAFSA, you must list Grand Valley State University among your choice of schools. Our federal school code is 002268. The FAFSA is the only application for aid that Grand Valley requires.
3. In some cases, you or your parent may be required to submit additional information to the Office of Financial Aid and Scholarships to verify the accuracy of your financial aid application. The Office of Financial Aid and Scholarships may request additional information if, upon reviewing data you have presented, we believe further clarification of your financial situation is needed. Such additional information may include information about your household size, assets, or income.
4. Award notifications for new students will be mailed to your permanent address beginning in mid-January. Returning students will receive their award notification in May through myBanner.

## **Application Dates to Remember**

### **October 1**

- Free Application for Federal Student Aid (FAFSA) becomes available at [studentaid.ed.gov/sa](http://studentaid.ed.gov/sa).
- Grand Valley scholarship cycle begins. To apply for Grand Valley endowed and department scholarships, visit [gvsu.edu/myscholarships](http://gvsu.edu/myscholarships).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **December 31**

- Incoming freshman applicants must submit a completed admission application by this date to be considered for the major scholarship programs offered by Grand Valley.

## **January**

- Entering freshman students and transfer students receive notification of their financial aid award.

## **February**

- The Spring/Summer Financial Aid Application becomes available to all students interested in receiving aid for the spring/summer semester. The online form is available at [gvsu.edu/financialaid/summer](http://gvsu.edu/financialaid/summer).

## **March 1**

- Incoming community college transfer applicants must submit a completed admission application by March 1 to be considered for Grand Valley incoming transfer merit scholarships.
- This is the priority deadline for filing the Free Application for Federal Student Aid (FAFSA). All students who want to receive federal financial aid must file this application and list Grand Valley as a college choice. Our federal school code is 002268.

## **May**

- Returning upperclass and graduate students receive notification of their financial aid award through myBanner.

## **Cost of Attendance and Student Budgets**

Before applying for financial aid, students and parents should assess all of the costs associated with attending Grand Valley. The following tables estimate the typical nine-month (two-semester) academic year expenses for single residents (living anywhere on or off campus except with parents or relatives) and commuting undergraduate students (living with parents or relatives). Some of the following expenses are discretionary (personal and miscellaneous, transportation, books, and supplies), therefore an average is used to determine the costs associated for such expenses. For more information regarding costs for graduate and doctoral level students, please visit [gvsu.edu/financialaid/budgets](http://gvsu.edu/financialaid/budgets).

### **Residential Students**

### **On-Campus**

### **Off-Campus**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Tuition and fees* (Michigan resident)	\$13,642	\$13,642
Books and supplies	\$740	\$740
Personal and miscellaneous	\$2,086	\$2,086
Housing and dining*	\$9,880	\$7,264
Total	\$26,348	\$23,732

#### **Commuting Students**

Tuition and fees*	\$13,642
Books and supplies	\$740
Personal and miscellaneous	\$2,086
Housing and dining*	\$1,872
Total	\$18,340

<b>Out-of-State Students</b>	<b>On-campus</b>	<b>Off-campus</b>
Tuition and fees* (Non-Michigan resident)	\$19,410	\$19,410
Books and supplies	\$740	\$740
Personal and miscellaneous	\$2,086	\$2,086
Housing and dining*	\$9,880	\$7,264
Total	\$32,116	\$29,500

\*Estimated tuition and fees and housing and dining charges. Actual charges are determined by the Grand Valley State University Board of Trustees. The rates listed here may change for the 2020-2021 academic year.

## **Financial Aid for Study Abroad**

Financial aid is available to assist in financing the cost of approved study abroad programs. Students may receive assistance for Grand Valley summer programs, as well as full-year and one-semester programs through exchanges and other individualized programs.

Students participating in study abroad programs receive financial aid in the amount they normally would receive if remaining on campus; however, students are generally able to borrow loan funds to assist in covering the additional costs. Limited scholarships and grants are available for some study abroad programs. Meeting with a financial aid counselor is highly encouraged. This helps facilitate discussions to ensure your study abroad is fully covered.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students interested in a study abroad experience must contact the Padnos International Center regarding available program options and are encouraged to apply early for financial aid.

## Financial Aid Programs

At Grand Valley, financial aid includes scholarships, grants, loans, and student employment. This aid is usually combined in a "package" to offer the student flexibility in meeting their educational costs. This includes a combination of the various types of aid loans, jobs, scholarships, and grants put together for an award rather than just one of these sources. If you wish to apply for or renew financial assistance, you should review the following information on the types of available financial aid.

**1. Programs not based on need.** Each program requires different application procedures. Eligibility is determined jointly by the Office of Financial Aid and Scholarships and the agency or department funding the program.

**2. Programs based on need.** These require students to complete the Free Application for Federal Student Aid (FAFSA). Eligibility is determined by the Office of Financial Aid and Scholarships.

**3. Special programs.** These require students to apply directly to the agency or department responsible for determining eligibility and funding.

## Scholarships (Not Need-based)

### Incoming Merit Scholarships

Scholarship eligibility criteria indicated as follows are for freshman or transfer students entering in the 2021-2022 academic year. Scholarship information for future academic years may be found on our scholarship webpages at [gvsu.edu/scholarships](https://gvsu.edu/scholarships). Grand Valley offers a merit-based scholarship program. We determine initial eligibility for these scholarships at the time of admission, although final award decisions and the amount of some scholarships are made by the scholarship committee after the student has completed all required application materials. To be considered for the incoming freshman and incoming transfer scholarships, the Admissions Office must receive the student's completed admissions application and all supporting documents by December 31 for fall admission for incoming freshman and by March 1 for fall admission for incoming transfer scholarships. Final scholarship decisions are made by May 1.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Complete applications consist of an application for admission, official transcripts, official results of the ACT or SAT test, and a \$30 application fee. The merit-based scholarships are described as follows.

## **Incoming Freshmen Merit Scholarships**

**1. Awards of Distinction.** This group of scholarships includes Grand Valley's highest merit-based scholarships, ones that many students aspire to receive. They generally require high academic achievement and top scores on the ACT or SAT. Additional amounts of up to \$2,000 are awarded to students who are National Merit Finalists. Scholarship competitions typically take place in December and January.

**a. Presidential Scholarships.** To be considered for a presidential scholarship, you must have a 3.8 high school cumulative grade point average, a minimum 32 composite ACT score or a score of 1430 or higher on the SAT combined Evidence-based Reading and Writing and Math, and attend a scholarship competition. Awards range from \$4,000-\$7,000. Awards are made up to \$9,000-\$12,000 in combination with the Award for Excellence. Grand Valley must be the first institution you attend after graduation from high school. This award is renewable for three additional consecutive years provided you maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

**b. Faculty Scholarships.** To be considered for a faculty scholarship, you must have a 3.6 high school grade point average, a minimum 30 composite ACT score or a score of 1370 or higher on the SAT combined Evidence-based Reading and Writing and Math, and attend a scholarship competition. Awards range from \$1,000-\$3,000. Awards are made up to \$6,000-\$8,000 in combination with the Award for Excellence. Grand Valley must be the first institution you attend after graduating from high school. This award is renewable for three additional consecutive years provided you maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

## **2. Award for Excellence**

**a. Award for Excellence Scholarship.** This scholarship provides awards of \$5,000. You must be a graduate of a high school in Michigan and Grand Valley must be the first college you attend after graduation. All admitted freshman students will be considered for this scholarship. Students who receive this award must have a 3.5 or higher high school cumulative grade point average and a composite ACT score of 26 or higher or a score of 1240 or higher on the SAT combined Evidence-based Reading and Writing and Math. This scholarship is

renewable for three additional consecutive years provided you maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

**b. Out-of-State Award for Excellence.** This scholarship provides awards of \$5,000 plus the difference between full-time Michigan resident tuition and nonresident tuition. Grand Valley must be the first college you attend after high school graduation. All admitted freshman students will be considered for this scholarship. Students who receive this award must have a 3.5 or higher high school cumulative grade point average and a composite ACT score of 26 or higher or a score of 1240 or higher on the SAT combined Evidence-based Reading and Writing and Math. This scholarship is renewable for three additional consecutive years provided you maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

### **3. Laker Scholarship**

**a. Laker Scholarship.** This scholarship provides awards of \$2,000. You must be a graduate of a high school in Michigan and Grand Valley must be the first college you attend after graduation. All admitted freshman students will be considered for this scholarship. Students who receive this award must have a 3.3 or higher high school cumulative grade point average. This scholarship cannot be combined with the Award for Excellence, faculty, or presidential scholarships. This scholarship is renewable for three additional consecutive years provided you maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

**b. Out-of-State Laker Scholarship.** This scholarship provides awards of \$2,000 plus the difference between full-time Michigan resident tuition and nonresident tuition. Grand Valley must be the first college you attend after high school graduation. All admitted freshman students will be considered for this scholarship. Students who receive this award must have a 3.3 or higher high school cumulative grade point average. This scholarship cannot be combined with Award for Excellence, faculty, or presidential scholarships. This scholarship is renewable for three additional consecutive years provided you maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

**4. "Lakers Go Abroad!" Scholarship.** This is a one-time \$2,000 award that recipients may use toward the cost of an approved, for-credit study abroad program outside of the U.S. within four years after initial enrollment at Grand Valley. GVSU must be the first institution students attend after graduating from high school. All admitted freshman students will be prompted to write an essay to be considered for

this scholarship when they complete a General Application in GVSU's myScholarships portal ([gvsu.edu/myscholarships](http://gvsu.edu/myscholarships)). Students must be meeting Financial Aid Satisfactory Academic Progress standards and be enrolled full-time during the semester they study abroad in order to use this scholarship.

**5. Early Awareness Scholarship.** Recipients of this scholarship will have at least two years of participation in one of the following programs: The Detroit Compact, Wade H. McCree Jr. Incentive Scholarship, Introspect Youth Services Inc., Ada S. McKinley Community Services Inc., TRIO Upward Bound, TRIO Talent Search, or GEAR UP while in high school. Students must have a completed admission application submitted by December 31 for the following fall semester. This scholarship cannot be combined with the Urban Schools Scholarship or a Native American Tuition Grant.

**a. Early Awareness Scholarship.** This scholarship provides awards of \$3,000. Students who receive this award must have a 3.3 or higher high school cumulative grade point average. This scholarship is renewable for three additional consecutive years provided the student maintains full-time attendance and meets Financial Aid Satisfactory Academic Progress standards.

**b. Out-of-State Early Awareness Scholarship.** This scholarship provides awards of \$3,000 plus the difference between full-time Michigan resident tuition and nonresident tuition. Students who receive this award must have a 3.3 or higher high school cumulative grade point average. This scholarship is renewable for three additional consecutive years provided the student maintains full-time attendance and meets Financial Aid Satisfactory Academic Progress standards.

**c. Early Awareness Transfer Scholarship.** This scholarship provides awards of \$3,000. Transfer students must have at least two years of participation in one of the programs listed previously. Students who receive this award must have a 3.0 community college cumulative grade point average and have completed 30 college credit hours at the time of application review. Students must have a completed admission application by March 1 and transfer directly from the community college. This scholarship is renewable for one consecutive year provided the student maintains full-time attendance and meets Financial Aid Satisfactory Academic Progress.

**6. Urban Schools Scholarship.** This scholarship is for students graduating from one of the following high schools. **Michigan:** Grand Rapids Public Schools, Detroit Public Schools, Arthur Hill, Benton Harbor High School, Detroit High School of Fine and Performing Arts, Detroit University Prep Academy, Detroit University Science

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

and Math, Flint Northern High School, Flint Northwestern High School, Flint Southwestern Classical Academy, John Pershing, JW Sexton, Northwestern, Pontiac High School, Saginaw High School, Southfield Arts and Technology High School, University High School, and University Prep Academy of Art & Design, and Western International. **Non-Michigan:** Chicago High School Agricultural, Curie, Gwendolyn Brooks, Hillcrest, Hyde Park Academy, John Hope College Preparatory, Jones College Prep, Kenwood Academy, Lane Tech, Morgan Park, Percy Julian, Proviso East, Proviso West, South Shore International College Prep High School, Thornridge, Thornton Fractional North High School, Thornwood, Westinghouse High School, and Whitney Young. This scholarship cannot be combined with the Early Awareness Scholarship or a Native American Tuition Grant.

**a. Urban Schools Scholarship.** This scholarship provides awards of \$3,000 to students graduating from one of the high schools previously listed. Students must have a 3.3 or higher high school cumulative grade point average. This scholarship is renewable for three additional consecutive years provided the student maintains full-time attendance and meets Financial Aid Satisfactory Academic Progress standards.

**b. Out-of-State Urban Schools Scholarship.** This scholarship provides awards of \$3,000 plus the difference between full-time Michigan resident tuition and nonresident tuition to students graduating from one of the high schools previously listed. Students must have a 3.3 or higher high school cumulative grade point average. This scholarship is renewable for three additional consecutive years provided the student maintains full-time attendance and meets Financial Aid Satisfactory Academic Progress standards.

**7. Alumni Heritage Scholarship.** The amount of this scholarship varies. This is a scholarship awarded to a child of a Grand Valley alumni. One or both parents must have graduated from Grand Valley with a bachelor or master's degree. Students who have stepparents or grandparents who are alumni are not eligible. Must be entering as a freshman with GVSU being the first college or university attended after high school, have at least a 3.3 high school cumulative grade point average, full-time enrollment and must not be the recipient of merit scholarships\* offered by Grand Valley. This scholarship is renewable for three additional consecutive years provided you maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

\*Merit scholarships offered by GVSU are classified as the Laker, Award for Excellence, faculty, presidential, early awareness, and urban scholarships.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

\*If you are awarded more than one scholarship listed here that covers the difference between resident and nonresident tuition, you will only receive this differential once.

The previously listed scholarships are only for use in fall and winter semesters. The Office of Financial Aid and Scholarships will review each scholarship recipient at the end of winter semester for renewal for the next academic year. If a student fails to meet the renewal requirements, the scholarship will be canceled for the following academic year. A student can petition for reinstatement once they again meet the minimum requirements. The appeal for reinstatement form is available online at the Office of Financial Aid and Scholarships website ([gvsu.edu/financialaid](http://gvsu.edu/financialaid)).

## **Incoming Transfer Merit Scholarships**

**1. Awards for Excellence Transfer Scholarship.** This scholarship provides awards of \$2,000. You must have only attended an accredited community college in Michigan and completed 30 college credit hours at the time of application review. All credits earned must be from a Michigan Community College. All admitted transfer students with a completed admission application by March 1 for fall admission and November 1 for winter admission will be considered for this scholarship. Students who receive this scholarship must have a 3.5 or higher college cumulative grade point average. This scholarship is renewable for one additional consecutive year provided you maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

**2. Transfer Student Early Awareness Scholarship.** Recipients of this scholarship will have at least two years of participation in one of the following programs: The Detroit Compact, Wade H. McCree Jr. Incentive Scholarship, Introspect Youth Services Inc., Ada S. McKinley Community Services Inc., TRIO Upward Bound, TRIO Talent Search, or GEAR UP while in high school. This scholarship cannot be combined with the Urban Schools Scholarship or a Native American Tuition Grant.

Schools, Detroit Public Schools, Arthur Hill, Benton Harbor High School, Detroit High School of Fine and Performing Arts, Detroit University Prep Academy, Detroit University Science and Math, Flint Northern High School, Flint Northwestern High School, Flint Southwestern Classical Academy, John Pershing, JW Sexton, Northwestern, Pontiac High School, Saginaw High School, Southfield Arts and Technology High School, University High School, and Western International. **Non-Michigan:** Chicago High School Agricultural, Curie, Gwendolyn Brooks, Hillcrest, Hyde Park Academy, John Hope College Preparatory, Jones College Prep, Kenwood Academy, Lane Tech, Morgan Park, Percy Julian, Proviso East, Proviso West, South Shore International College Prep High School, Thornridge, Thornton Fractional North High School, Thornwood, Westinghouse High School, and Whitney Young. This scholarship cannot be combined with the Early Awareness Scholarship or a Native American Tuition Grant.

This scholarship provides awards of \$3,000 to students graduating from one of the high schools previously listed. Students must have a 3.0 or higher community college cumulative grade point average and completed 30 college credit hours at the time of application review. They must have a completed admission application by March 1 and transfer directly from the community college. This scholarship is renewable for one additional consecutive year provided you maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

**4. Phi Theta Kappa (PTK) Scholarships.** New entering transfer students who are members of the PTK Honor Society are eligible to apply for this scholarship, up to \$1,200. Applicants must possess a 3.5 cumulative grade point average or higher, be a member of the PTK fraternity, be a graduate of an accredited community college and have earned an associate degree, be admitted to Grand Valley, and enroll as a full-time student. Applicants must have a completed application for admission by March 1. Scholarship applications are submitted through myScholarships, the online scholarship portal at [gvsu.edu/myscholarships](http://gvsu.edu/myscholarships). Applicants include a letter of application indicating their educational and career goals, a letter of recommendation from their PTK chapter advisor, and a resume. The scholarship is renewable for one additional consecutive year provided the student maintains full-time attendance and meets Financial Aid Satisfactory Academic Progress standards.

**5. Distinguished Community College Graduate Scholarship.** This \$1,000 scholarship is awarded to select graduates of all Michigan community colleges. The respective community colleges select the recipients. Students must have at least a 3.5 cumulative grade point average, be completing their associate degree, matriculate directly to Grand Valley, and have a completed application for admission by March 1. This scholarship is renewable for one additional consecutive year provided you

maintain full-time attendance and meet Financial Aid Satisfactory Academic Progress standards.

The previously listed scholarships are only for use in fall and winter semesters. The Office of Financial Aid and Scholarships will review each scholarship recipient at the end of winter semester for renewal for the next academic year. If a student fails to meet the renewal requirements, the scholarship will be canceled for the following academic year. A student can petition for reinstatement once they again meet the minimum requirements. The appeal for reinstatement form is available online at the Office of Financial Aid and Scholarships website ([gvsu.edu/financialaid](http://gvsu.edu/financialaid)).

## **Additional Grand Valley Scholarship Opportunities**

**1. Upperclass Honor Scholarships.** A limited number of scholarships up to \$1,000 are awarded annually to upperclass students not receiving scholarships from other sources. Students must be full-time undergraduates, have at least a 3.5 cumulative grade point average, and have completed at least 40 semester hours at Grand Valley, or if a transfer student, must have completed at least 15 hours at Grand Valley. Scholarship applications are submitted through myScholarships, the online scholarship portal at [gvsu.edu/myscholarships](http://gvsu.edu/myscholarships). Selection of upperclass honor award recipients are made by the Grand Valley Scholarship Committee. These scholarships may be renewed for one additional consecutive year for students who enroll full-time and meet Financial Aid Satisfactory Academic Progress standards. Students must have a completed application for admission by the March 1 deadline.

**2. Athletic Scholarships.** Scholarships are given to students participating in varsity sports. Awards are determined by the coaches. Athletic scholarships are awarded in all men's and women's varsity sports. Men: baseball, basketball, cross-country, football, golf, swimming and diving, track, and tennis. Women: basketball, cross-country, golf, lacrosse, softball, soccer, swimming and diving, tennis, track, and volleyball. If you think you would be eligible for athletic aid assistance, you should contact the appropriate Grand Valley coach for more information.

**3. Music and Dance Scholarships.** Talent awards are available to outstanding instrumentalists, pianists, singers, and dancers attending Grand Valley State University and participating in various performance groups, regardless of financial need or academic major. Contact the chair of the music department for more information.

**4. Fine Arts Scholarships.** These scholarships are for students majoring in the fine arts program at Grand Valley. Information and application forms for these

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

scholarships are available from the departmental offices. Selection of scholarship winners is made by a committee of fine arts faculty members.

**5. Detroit Promise Scholarships.** The four-year Detroit Promise is last dollar funding provided to eligible students to cover the costs of tuition and fees. Detroit Promise funding is not competitive. To qualify, students must: reside in the city of Detroit from ninth grade through 12th grade; attend all four years and graduate from any Detroit high school (DPS, EAA, charter, private, parochial, home school, etc.); have a 3.0 cumulative GPA as of February 1 of their senior year; have a minimum 21 ACT/1060 SAT as of senior year (can re-test through February); and meet Grand Valley admission requirements. Students must complete an official registration form online at [detroitchamber.com/profile](http://detroitchamber.com/profile). For more information, please contact the Detroit Chamber at (313) 964-4000.

**6. International Scholarships.** International students attending Grand Valley with an F-1 visa may qualify for scholarship funding. Students must submit applications to the Padnos International Center. For more information, visit [gvsu.edu/istudents](http://gvsu.edu/istudents).

**7. Laker Lifetime Learning (L3) Account.** All Grand Valley State University graduates who have been conferred a bachelor's, master's, or doctoral degree from GVSU are eligible. Each GVSU alum will have a \$1,000 lifetime award available to use to pay charges toward credit-bearing coursework for all future GVSU programs, including badges, certificates, advanced degrees, and additional bachelor's degrees. Funds will automatically be applied to a student's bill as they are enrolled. Current GVSU employees and graduate assistants receiving a tuition waiver or reduction are not eligible to receive funds from the account. For more information, visit [gvsu.edu/l3](http://gvsu.edu/l3).

**8. Grand Valley Pledge.** Undergraduate degree-seeking freshman (beginning with Fall 2021) who meet the following qualifications will be automatically awarded full undergraduate tuition and course fees, renewable for up to four years in the form of institutional grants and/or scholarships. Students must live in one of the following Michigan counties: Calhoun, Grand Traverse, Kent, Muskegon, Ottawa, or Wayne. The FAFSA must show the following: family adjusted gross Income (AGI) of \$0-\$50,000 and family assets of \$50,000 or less. The Grand Valley Pledge is renewable for an additional three years as long as students maintain Satisfactory Academic Progress, file a FAFSA annually, and continue to meet the family AGI and asset requirements as outlined previously. For more information and a list of frequently asked questions, please visit [gvsu.edu/gvpledge](http://gvsu.edu/gvpledge).

**9. LEADS Credit.** The Grand Valley LEADS program will help you take control of your future and reach your goals. Earn a bachelor's degree PLUS an online certificate

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

in one of four high-demand areas: leadership, data analytics, project management, or global communications. Take six-week classes with one rate for in-state or out-of-state students. Classes are three credits; \$500 per credit. Complete one class and the second class is free. The bachelors degree can be completed online with the option of two in-person, on-campus Saturday visits.

**10. Other Grand Valley State University Scholarship Programs.** Grand Valley offers an ever-increasing number of endowed, departmental, and annually funded scholarships. Please refer to our scholarship website at [gvsu.edu/scholarships](http://gvsu.edu/scholarships) for more information or to apply through myScholarships, our online application database. The scholarship cycle begins October 1 and ends March 1 for most scholarships.

## **Grants (Need-based Aid)**

Grant programs are considered "gift" assistance and do not require repayment.

**1. Grand Valley Need-based Grant Programs.** These grants are available to full-time undergraduate students with exceptional unmet need after all other financial aid is awarded and is based on availability of funds. To apply, you must complete the FAFSA. Priority given to students who file their FAFSA by March 1 each year.

**2. Federal Pell Grant.** This program is the main source of need-based federal financial aid grant funds. To apply for a Federal Pell Grant, you must submit the FAFSA and indicate on this form that you wish Grand Valley State University to receive your application. The Office of Financial Aid and Scholarships in turn will notify you of the exact amount of the grant, which is determined from a payment schedule published by the U.S. Department of Education. No specific GPA is required for renewal; however, students must be making Financial Aid Satisfactory Academic Progress to remain eligible.

**3. Federal Supplemental Educational Opportunity Grants (SEOG).** These federal grants are awarded to undergraduate students with exceptional unmet financial need. No specific GPA is required for renewal; however, students must be making Financial Aid Satisfactory Academic Progress to remain eligible. Priority is given to students who qualify for the Federal Pell Grant program.

**4. Michigan Competitive Scholarship.** This state scholarship program is available to undergraduate students pursuing their first degree. Students must demonstrate both financial need and merit. Eligible applicants must complete the FAFSA by March 1 for priority consideration. Ending with the Class of 2016, students must achieve a qualifying ACT score of at least 23 (composite). Starting with the Class of 2017, an ACT score will not be considered. Students must achieve a qualifying score of at least

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

1200 on the SAT. Please visit [michigan.gov/missg](http://michigan.gov/missg) for all eligibility requirements. Awards from this program are subject to state funding.

**5. Federal TEACH Grant.** The federal Teacher Education Assistance for College and Higher (TEACH) Education Grant program provides grants of up to \$4,000 per year to students who intend to teach in specified content areas in a public or private elementary or secondary school that serves students from low-income families. Contact the Office of Financial Aid and Scholarships for more information.

**6. Native American Tuition Benefit.** Students who are certified by the Michigan Intertribal Council to be a member of a federally recognized tribe and a Michigan resident are eligible for a tuition benefit equal to their tuition costs. Students who believe they are eligible Native Americans can contact the Michigan Intertribal Council at (800) 562-4957 for an application and additional information. Students must be meeting institutional eligibility requirements to qualify.

## **Student Loans (Need-based)**

Student loans are a resource available to those who qualify to provide financial support for earning a college degree. Student loans require repayment for the amount borrowed plus interest.

**1. Federal Direct Subsidized Loan.** Subsidized loans are awarded based on students financial need. Interest does not accrue on these loans when students enrollment status is at least half-time or greater and during the grace period. Students who complete the Free Application for Federal Student Aid (FAFSA) and are eligible will be notified by the Office of Financial Aid and Scholarships. For more information regarding student eligibility, interest rates, origination fees, repayment, loan limits, and other requirements for borrowing subsidized loans please visit [studentaid.gov/understand-aid/types/loans/subsidized-unsubsidized](http://studentaid.gov/understand-aid/types/loans/subsidized-unsubsidized).

**2. Federal Nursing Loan.** These federal loans are to assist with educational expenses for undergraduate and graduate students who are admitted to the Kirkhof College of Nursing at Grand Valley, have financial need, are U.S. citizens, meet Financial Aid Satisfactory Academic Progress requirements, and are not in default on previous federal loan programs. The interest rate is fixed at 5 percent and does not accrue while you are enrolled at least half-time in most institutions of higher education. Students must complete the Free Application for Federal Student Aid (FAFSA). The Grand Valley Office of Financial Aid and Scholarships will notify eligible students.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## Student Loans (Not Need-based)

**1. Federal Direct Unsubsidized Loan.** Unsubsidized loans are not awarded based on student's financial need. Interest accrues immediately following disbursement regardless of a student's enrollment status or grace period. Eligibility is determined by taking the cost of attendance and subtracting all need-based aid awarded. Students must complete the Free Application for Federal Student Aid (FAFSA) and list Grand Valley as a college choice. For more information regarding student eligibility, interest rates, origination fees, repayment, loan limits, and other requirements for borrowing unsubsidized loans please visit [studentaid.gov/understand-aid/types/loans/subsidized-unsubsidized](http://studentaid.gov/understand-aid/types/loans/subsidized-unsubsidized).

**2. Federal Direct Parent PLUS/Grad PLUS Loan.** PLUS loans are not based on student's financial need. PLUS loans are federal loans that parents of dependent undergraduate students or graduate or professional students can use to help pay for college or career school. Interest accrues immediately following disbursement regardless of a student's enrollment status or grace period. Students must complete a Free Application for Federal Student Aid (FAFSA) to qualify. For more information regarding student eligibility, interest rates, origination fees, repayment, loan limits, and other requirements for borrowing PLUS loans, please visit [studentaid.gov/understand-aid/types/loans/plus](http://studentaid.gov/understand-aid/types/loans/plus).

**3. Alternative Loan Programs.** Alternative loans are nonfederal loans to supplement financial aid for students and their families. A student, parent, or sponsor may borrow a loan up to the cost of attendance minus other financial aid awarded. Fixed and variable interest rates are subject to a credit check, and the repayment plan and grace periods are at the discretion of the lender. Students have the option to pay on the loan and interest while in school to help reduce loan debt or to defer repayment until after graduation.

Contact the Office of Financial Aid and Scholarships or visit our website [gvsu.edu/financialaid](http://gvsu.edu/financialaid) for more information.

## Student Employment

Student Employment assists students in obtaining employment that will help finance their education and develop valuable work skills for their future career choice. Student Employment works with all university departments and the community to create part-time and summer employment opportunities for students. The Student Employment Office is part of the Office of Financial Aid and Scholarships and administers the Federal Work-Study Program at Grand Valley.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Federal Work-Study Program:**

Federal Work-Study is a federally funded program that is awarded to students based on demonstrating financial need by filing the FAFSA. Students awarded Federal Work-Study must apply and be hired for Federal Work-Study positions through Handshake. If a student does not have Federal Work-Study on their financial aid award, they can still apply for jobs on campus. Many jobs do not require Federal Work-Study. All student employees receive biweekly paychecks. Federal Work-Study awards do not pay toward a student's bill.

Students considering on-campus jobs should search and apply for jobs under on-campus student employment in Handshake. Students can visit [gvsu.edu/studentjobs](https://gvsu.edu/studentjobs) to create a new login or use an existing login to access Handshake. Handshake is the job-sharing platform that GVSU uses to help students find jobs and connect with their future employers. For more information, contact Student Employment at (616) 331-3238, [studentjobs@gvsu.edu](mailto:studentjobs@gvsu.edu), or visit us at 100 Arend and Nancy Lubbers Student Services Center.

## **MoneySmart Lakers**

MoneySmart Lakers is a financial education program on campus specifically focused on educating students about financial skills for their future. This program provides students with the tools and resources to help them understand their personal finances and to help them develop their money management skills. MoneySmart Lakers provides on-demand presentations, interactive events, and individual appointments to address the financial literacy needs of the community.

Topics addressed by MoneySmart Lakers include:

- Creating a spending plan/budget
- Learning how to build and maintain good credit
- Understanding loans
- Financing your education
- Wealth building

For more information, please visit the MoneySmart Lakers website at [gvsu.edu/moneysmart](https://gvsu.edu/moneysmart), email [moneysmart@gvsu.edu](mailto:moneysmart@gvsu.edu), or call the office at (616) 331-3234.

## **Payment Options**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The Student Accounts Office is responsible for all student accounts, billing, collections, and Perkins Loan repayment. Payment options are as follows:

- Credit card (\$20 fee)
- Electronic check (no fee)
- Cash
- Check or money order

### **Additional Payment Options**

- **Grand Valley Deferment Plan.** The deferment plan covers all current semester charges on the student account after financial aid has been applied. Past due balance cannot be included in the deferment plan and must be paid on or before the payment due date. There is a \$40 nonrefundable fee to utilize the deferment plan. Students can enroll in myBanner under Student Account. Contact the Student Accounts Office for more information at (616) 331-2209 or toll-free at (800) 789-1923.
- **Company Deferment Plan.** This plan is for students who qualify for their employer's tuition reimbursement program and allows the amount of tuition and fees paid for by the employer to be deferred until the end of the semester. Any amount of tuition, fees, and other charges (including parking permits) not paid for by the employer must be received by the tuition deadline and included with an application for enrollment in the deferment plan. For more information, visit [gvsu.edu/studentaccounts](http://gvsu.edu/studentaccounts).
- **Western Union Payments for International Students.** This payment option allows students to pay their student account balance in the currency of their choice and provides a simple and reliable way of initiating payments electronically. For payment support, contact Western Union Business Solutions at (402) 884-3041 or [studentinquiries@westernunion.com](mailto:studentinquiries@westernunion.com).

### **Guardian/Family Access (Proxy)**

Students are able to grant proxy access to allow secure payments through Guardian/Family Access. If someone other than the student typically makes a payment on the student account, we highly recommend they set up proxy access so the proxy can make a payment with their own login and password. For more information, please visit [gvsu.edu/registrar/family](http://gvsu.edu/registrar/family).

### **Emergency Student Options**

**Grand Valley Short-term Loans.** For a small service fee, short-term loans of up to \$500 are available for books and other emergencies. Repayment dates are determined by the Office of Financial Aid and Scholarships at the time of application but do not

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

exceed 60 days or the end of the semester (whichever comes first). Students need to be in good standing with the institution to apply for this loan. Applications and general policies regarding short-term loans are available at the Office of Financial Aid and Scholarships.

## **Special Programs**

### **Michigan Works!**

The workforce development system, Michigan Works!, provides financial assistance designed to prepare individuals for entry into the labor force. Go to [michiganworks.org](http://michiganworks.org) to find out more about these funding options and the steps necessary to receive this financial assistance.

### **Private Scholarships**

A limited number of scholarships are available from private sources. Contact organizations in your community that may provide scholarships, especially those in which you and/or your parents are active. Your local high school guidance office is also a source of this information. Scholarships may have deadlines beginning as early as October 1 for the following year, so it is important to begin your search as early as possible.

### **Tribal Grants**

Financial assistance may be available for Native American students who are affiliated with a tribe. For more information on requirements and application materials, contact your tribal higher education officer.

### **Veterans Benefits**

**Chapter 31 and Chapter 33 Penalty Waiver:** Pursuant to the Servicemembers Improved Transition through Reforms for Ensuring Progress (SIT-REP) Act, any student who receives educational assistance under Chapter 31 or 33 through the Department of Veterans Affairs will not be assessed any late fees, denied of access to classes, libraries, or other instructional facilities, or be required to borrow additional funds because of the student's inability to meet their financial obligations to Grand Valley State University as a result of the delayed disbursement of any payment provided through the Department of Veterans Affairs.

**Michigan Public Act 245** provides partial tuition payment to students from Michigan who are children of veterans who died in service or were totally disabled because of service causes. You can request an application and review further information at [michigan.gov/mistudentaid](http://michigan.gov/mistudentaid).

**Veterans Administration Benefits:** Information about education benefits offered by the U.S. Department of Veterans Affairs (VA) is available at the official U.S. government website: [benefits.va.gov/gibill](http://benefits.va.gov/gibill). The GI Bill® is a registered trademark of the VA.

**Veterans Readjustment Benefits Act (GI Bill)** provides educational benefits for servicemen and women who have served on active duty. You can obtain further information from the Veterans Administration office nearest your home or by calling them. They also have a website you can go to for more information, visit [va.gov](http://va.gov).

## **Vocational Rehabilitation**

The Michigan Department of Education, Bureau of Rehabilitation Services, provides services and financial assistance to students with certain disabilities. You can obtain information by calling your local Bureau of Rehabilitation office or writing to Michigan Rehabilitation Services, Box 30010, Lansing, MI 48909 or calling (517) 373-3390. For a listing of district offices, call (800) 605-6722. To renew vocational rehabilitation assistance, you must submit the necessary financial aid forms each year and make arrangements for a review of your case with your vocational rehabilitation counselor.

## **Enrollment Requirements for Disbursement of Aid**

Your financial aid award is based on full-time enrollment, regardless of the plans you indicated on the FAFSA. Specific funds, however, have enrollment requirements and will apply toward your bill and be backed off your bill as your enrollment changes (i.e. as you drop and add credits). For more information, please visit: [gvsu.edu/financialaid/enrollment](http://gvsu.edu/financialaid/enrollment).

The following funds will pay on your bill as long as you are enrolled for at least one credit:

- Grand Finish grant
- Some private (nonfederal) loans

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- Some private scholarships

The following funds will pay on your bill as long as you are enrolled at least half-time (six or more credits as an undergraduate; four and one-half credits or more as a graduate):

- Federal Direct Subsidized Loans
- Federal Direct Unsubsidized Loans
- Federal Direct PLUS Loans
- Some private loans

The following funds will be prorated based on your enrollment:

- Michigan Competitive Scholarship
- Federal Work-Study
- Federal Pell Grant
- Federal TEACH Grant
- Federal Supplemental Educational Opportunity Grant

The remaining funds require full-time enrollment of 12 or more credits to pay on your bill:

- Federal nursing loan
- Grand Valley grants
- Grand Valley scholarships
- Some private scholarships

## **Satisfactory Academic Progress (SAP)**

Federal regulations require institutions to monitor the academic progress of financial aid recipients. Grand Valley's Satisfactory Academic Progress policy is to provide financial aid to students capable of remaining in good academic standing and who make adequate progress toward a degree. Students must meet the academic requirements as follows to remain eligible for financial aid.

### **Undergraduate Students**

- Maintain a minimum 1.5 cumulative GVSU grade point average for 0-24 credits completed
- Maintain a minimum 1.8 cumulative GVSU grade point average for 25-54 credits completed
- Maintain a minimum 2.0 cumulative GVSU grade point average for 55+ credits completed

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Complete and pass a minimum of two-thirds of all attempted credit hours (will include only credits enrolled in at the end of the 100 percent drop/add period each semester)
- Complete all degree requirements within 150 percent of the minimum number of credit hours required to graduate (based on 120 credit hours required to graduate  $\times 1.5 = 180$  attempted cumulative credit hours)

## **Second Undergraduate Students**

- Maintain a minimum 2.0 cumulative GVSU grade point average
- Complete and pass a minimum of two-thirds of all attempted undergraduate credit hours (will include only credits enrolled in at the end of the 100-percent drop/add period each semester)
- Complete all subsequent undergraduate degree requirements within 270 attempted cumulative credit hours. An additional 90 credits will be allowed for a subsequent undergraduate degree. First bachelor degree students must not exceed 180 attempted cumulative credit hours, which is 150 percent of the minimum requirement to obtain an undergraduate degree.

## **Graduate Students**

- Maintain a minimum 3.0 cumulative GVSU grade point average
- Complete and pass a minimum of two-thirds of all attempted graduate credit hours (will include only credits enrolled in at the end of the 100 percent drop/add period each semester)
- Complete all degree requirements within 150 percent of the minimum number of credit hours required to graduate (based on 60 credit hours required to graduate  $\times 1.5 = 90$  attempted cumulative credit hours)

## **Doctoral Students**

- Maintain a minimum 3.0 cumulative GVSU grade point average
- Complete and pass a minimum of two-thirds of all attempted credit hours (will include only credits enrolled in at the end of the 100 percent drop/add period each semester)
- Complete all degree requirements within 150 percent of the minimum number of credit hours required to graduate (based on 120 credits required to graduate  $\times 1.5 = 180$  attempted cumulative credit hours)

## **General Provisions and Information**

- Grand Valley must take into consideration all attempted credits, regardless if financial aid was received for those credits.
- Transfer credits accepted at GVSU are used to calculate the student's remaining eligibility under the maximum time frame and included in the completion rate calculation. Transfer credits accepted at GVSU are counted as both attempted and earned in the calculation of completion rate. Transfer courses are not used in the calculation of cumulative GVSU GPA.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Satisfactory academic progress will be determined at the end of each semester for all enrolled students regardless of whether or not financial aid was received that semester.
- Repeat classes increase the total attempted hours, but do not increase the total number of credits completed.
- All courses, including incomplete credits, repeated credits, and remedial credits are evaluated for completion rate.
- For all students, grades of W, NC, F, X, or I will be considered as hours attempted, but not considered as successfully completed credits.
- Credit hours earned by testing or other nonstandard means will be included in calculating the 150-percent required credit limit for undergraduate, graduate, and doctoral students.
- All credit hours attempted through international programs and through concurrent enrollment agreements count in both attempted and earned calculations.
- If a student notifies the Office of Financial Aid and Scholarships that a grade from a prior-term course has been changed retroactively, we will conduct a review of the student's SAP status, in light of the updated grade information.
- If a student elects to double major, complete more than one degree at a time, and/or start a degree and then change majors, all classes previously taken will still be used in the evaluation of SAP. Each time a degree is conferred, the student's SAP status resets and only classes taken from that point forward are included in SAP calculations.

## Appeal Process and Definitions

**Financial Aid Warning.** Students who fail to meet the previously listed academic progress standards will be placed on SAP financial aid warning for **one semester**. Students receive a warning status after having been in a SAP eligible status. If a student is unable to regain eligibility by meeting the minimum SAP requirements after one semester (while on warning status), they will no longer be eligible for aid and have the option of completing the Satisfactory Academic Progress Appeal Form. All appeal forms should be turned in to the financial aid office by the last day of the fourth week of classes to allow the committee time to review the request prior to the end of the drop/add period of the semester which the appeal is being requested. The form is available on the financial aid website. Students must submit the form, an Academic Plan (myPath), and a statement explaining why the student failed to meet the requirements, what steps the student has taken to be successful, and the student's goals for the future. A student may submit an appeal based on the death of a relative, an injury or illness of the student, or other special circumstance.

**Financial Aid Probation.** Students who were placed on SAP warning status who were unable to meet the minimum requirements will be given the option of appealing to the SAP Appeals Committee to request an exception to receive financial aid for one additional semester. While on probation, a student must meet the following requirements to maintain financial aid eligibility:

- Undergraduate: Earn a 2.5 semester GPA or a 2.0 cumulative GPA

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Graduate/Doctoral: Earn a 3.0 semester GPA or a 3.0 cumulative GPA
- Complete all credits the student is still registered for at the end of the drop/add period

Failure to meet the financial aid probationary GPA and/or credit completion requirement while on financial aid probation will result in the loss of eligibility for continued financial aid.

**Financial Aid Academic Plan.** Students who were unable to regain and meet overall SAP standards after having been on Warning and Probation status may be placed in an Academic Plan status. An Academic Plan is intended to support and encourage students to successfully progress toward earning their degree, and can be met by adhering to the following:

- Undergraduate: Earn a 2.5 semester GPA or a 2.0 cumulative GPA
- Graduate/Doctoral: Earn a 3.0 semester GPA or a 3.0 cumulative GPA
- Complete all credits the student is still registered for at the end of the drop/add period

**Financial Aid Ineligible.** If students were unable to meet overall eligibility or the minimum required of their Probation or Academic Plan, they will not be eligible to receive aid for subsequent semesters without an additional appeal, which may require a meeting with a financial aid administrator. Students may regain financial aid eligibility by achieving the minimum requirements at their own expense.

Note: Refer to the Academic Policies and Regulations for the Academic Review Policy. These are separate from and different than the financial aid satisfactory academic progress requirements discussed previously.

## **Terms and Conditions Governing Acceptance of Award**

Grand Valley State University's Office of Financial Aid and Scholarships makes every effort to provide timely and accurate information in your award notification. The university also reserves the right to change without notice any award due to federal, state, or university changes in policies, procedures, or regulations.

In accepting your financial aid award offer, you are stating that you have met and will continue to meet all the following conditions of acceptance set by federal regulations and Grand Valley policies:

- The information submitted on your aid application is correct and complete.
- You will notify Grand Valley's Office of Financial Aid and Scholarships if you receive assistance not originally on your award notification (e.g. an outside scholarship). A reduction of other aid may be necessary even if funds have already been disbursed.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- You will use the financial aid awarded to you only for payment of tuition, books, housing costs, transportation, and other related educational expenses.
- Financial aid disbursements will begin on the 10th day preceding the first day of classes of any given semester. After this day, semester financial aid disbursements will be applied to student accounts daily.
- You agree that financial aid awarded to you may be used as a credit toward payment of all tuition, fees, room, board, and all other charges that may be due or past due on your student account.
- You will maintain Satisfactory Academic Progress toward your degree according to the policy of the Grand Valley Office of Financial Aid and Scholarships.
- You will maintain the minimum credit hour(s) that you have registered for after the 100-percent refund period each semester. Your award will be based on full time attendance and will be adjusted after the 100-percent tuition refund period each semester. If you drop below the number of credit hours upon which your award was based or withdraw completely from your courses, you may be expected to repay all or part of your award.
- You will notify the Office of Financial Aid and Scholarships if you do not plan to enroll in a semester for which you have been awarded aid.
- You are not in default on educational loans and do not owe a balance as a result of returned aid for any federal funds received at GVSU or elsewhere.
- You must meet all the requirements regarding registering for selective service, citizenship status, and drug conviction status.
- You will respond promptly to any requests for additional information. Failure to do so may result in you being billed for a portion or all of the aid disbursed to you or will delay additional disbursements.
- You will immediately notify the Grand Valley Registrar's Office if you withdraw from the university. You may be billed for part or all of your financial aid. The bill will depend on the date of your withdrawal and the percentage and amount of institutional refund to be received.
- You agree to repay to GVSU any financial aid funds disbursed to you in error. If a mistake was made, whether by you, GVSU, or another agency, federal regulations require that the mistake be corrected and funds be billed back as necessary.
- If you are incarcerated or become incarcerated while you are in attendance at GVSU and receiving financial aid, you must notify the Office of Financial Aid and Scholarships. If your parent participates in the Federal Direct PLUS Loan program, and your parent is incarcerated or becomes incarcerated during an academic year in which he/she has borrowed the PLUS on your behalf, your parent must notify the Office of Financial Aid and Scholarships.

# **Academic Policies and Regulations**

## **General Academic Policies**

### **Application for Degree**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Grand Valley State University awards baccalaureate, master's, and doctoral degrees four times each year: at the conclusion of the fall semester (December), at the conclusion of the winter semester (April), at the conclusion of the spring session (June), and at the conclusion of the summer session (August).

Degree candidates must notify the registrar of their intention to graduate by completing an electronic application in myBanner prior to the semester in which their degree requirements will be complete.

Degree candidates will be allowed 30 business days after the last day of the semester or session to complete all requirements and provide evidence of satisfactory completion to the registrar. No degree will be awarded until all temporary grades are removed. After the 30-day deadline, all remaining candidates will be dropped from candidacy status, and those students must reapply for some subsequent degree date. The candidacy deadline for each semester is listed in the schedule of classes on the Web. Exceptions to this policy will be based solely on extenuating circumstances beyond the control of the student. Any request for an exception must be made in writing to the registrar.

## **Commencement**

Information concerning Commencement announcements, caps and gowns, invitations, tickets, time and place, assembling, and other relevant items will be mailed to all eligible degree candidates (see Application for Degree section, previously listed) by the Office of Student Life prior to the event.

## **Definitions**

### **Credit Hour**

Courses at Grand Valley are categorized into one of several course "activity" types. For each course activity type, the university has identified the number of hours students are expected to devote to the course per semester per credit. The definitions do not include homework, reading, studying, or other student preparatory activities. Furthermore, the definitions do not cover faculty workload expectations. In the definitions, a semester is assumed to be a typical 15-week instructional semester. Courses offered in other time frames can be scaled accordingly. As an example, the most common course is a three-credit lecture/discussion. According to the definition, the university expects 45 student contact hours per semester for this course. For additional information, please view the UCC definition at [gvsu.edu/facultygov](http://gvsu.edu/facultygov).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The University Curriculum Committee (UCC) makes exceptions to the policy based on accreditation standards and practice in the discipline. Please view the UCC definition and programmatic exceptions for additional information at [gvsu.edu/facultygov](http://gvsu.edu/facultygov).

## Semester Hour

The unit of credit is the semester hour; the number of semester hours of credit given for a course generally indicates the number of periods a class meets each week.

## Grading System

Grade	Quality Points	Grade	Significance
A	4	CR	Credit
A-	3.7	NC	No Credit
B+	3.3	I	Incomplete
B	3	W	Withdrawal
B-	2.7	AU	Audit
C+	2.3	X	Deferred
C	2	NR	No Report
C-	1.7	P	Pass
D+	1.3	PS	Pass
D	1	PD	Pass with Distinction
F	0	R	Research

determine academic standing, eligibility to participate in certain curricular and cocurricular programs, academic honors, and academic standing, which may include probation, jeopardy of dismissal, or dismissal. A minimum GPA of 2.0 for undergraduate students and 3.0 for graduate students is required for graduation. Some programs require a GPA in excess of the minimum to satisfy major requirements.

Credit at the graduate student level will be awarded for grades of C (2.0) or better. This includes all graduate coursework and core, background, and foundation courses. Grades below C will be calculated in a student's GPA, but the credits will not count toward the degree.

Please refer to each academic section for specific requirements.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Auditing a Course**

Any student may register to take a course on an audit or noncredit basis, provided admission and course prerequisites have been met. Students who wish to audit a course must indicate their intent to the Registrar's Office during the first five class days of the semester. Changes from credit to audit and vice versa will not be allowed after the first week of the semester. Tuition costs for auditing are the same as for credit.

## **Credit/No-Credit Grade**

All coursework will be graded (A through F) unless the appropriate faculty body within a college, the dean of the college, and the Curriculum Committee have approved proposals on an individual course basis that the course be conducted on a credit/no-credit basis.

Undergraduate students may elect certain undergraduate coursework on a credit/no-credit basis. A maximum of 10 semester hours of major, minor, or cognate courses within the major may be taken on a credit/no-credit basis only with the consent of the student's major department. A maximum of 25 percent of a student's hours of Grand Valley courses earned to fulfill graduation requirements may be taken on a credit/no-credit basis (credit = C or above for undergraduate courses, credit = B or above for graduate courses). Courses that are graded CR/NC as the standard grading scheme (e.g., internships) do not count in the maximums stated previously. Consent is unnecessary if the course is an elective, a general education course, or a B.S. or B.A. degree requirement. Changes from a grade to credit/no-credit and vice versa will not be allowed after the first week of the semester.

## **Deferred Grade**

The grade of X (deferred) is a temporary grade that may be given only in a course that cannot be completed in one semester. Such courses are usually research projects. This grade is given only for work that is satisfactory in every respect but for which students need more than one semester to complete. An X grade must be removed within two calendar years from the date of assignment. If not, it will be changed to NC. A student cannot graduate with an X grade on their record.

## **Graduate Project, Thesis, and Dissertation Grades**

The grades PS (pass), PD (pass with distinction), W (withdrawal), and NC (no credit) are the only grades that may be assigned as the final grade for a graduate project,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

thesis, or dissertation. The withdrawal grade is available only for students who wish to voluntarily and permanently terminate their degree program. The pass with distinction grade may only be awarded for a project, thesis, or dissertation that is exceptional in its significance and presentation and unanimously recommended by the project, thesis, or dissertation committee.

## **Incomplete Grade**

The grade of I, incomplete, indicates that a student was doing satisfactory work, but due to nonacademic reasons beyond the student's control, the student was unable to complete the remaining requirements of the course. A student cannot graduate with an incomplete on their record. The grade of incomplete is only appropriate when all of the following conditions are met: (a) the student is doing satisfactory work in the course and the unfinished requirements can be clearly delineated, (b) the unfinished requirements constitute a relatively small part of the course, and the incomplete is requested in the last 20 percent of the semester, and (c) the student has justifiable reason(s) why the work cannot be completed by the end of the semester.

An Incomplete Grade Form must be submitted to the department chair and to the Dean's Office. A student is expected to complete course requirements according to the following schedule: fall semester incompletes, end of winter semester; winter and spring/summer incompletes, end of fall semester. Instructors are required to file a change of grade form or request an extension of the I grade at the end of each semester. An extension may be granted by the instructor under exceptional circumstances, such as illness or call to military service.

The Registrar's Office will notify the student, the instructor, and the appropriate dean's office six weeks prior to deadline for a grade change. If the instructor is not available during the process for removing the incomplete, the unit head shall decide on how to proceed. A student for whom the incomplete course was a prerequisite may take a subsequent course only if the instructor of the course and the instructor who granted the incomplete both grant permission.

## **Research Grade**

The grade of R (research) is the only grade that may be assigned each semester to a continuous enrollment course for a graduate project, thesis, or dissertation (xxx-696, xxx-796). The R grade is permanent and not affected by the final grade assigned to the project, thesis, or dissertation.

## **Registration**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**New undergraduate students:** Course selection is completed during the New Student Advising and Registration program. Complete orientation/registration information is mailed to all new students before their intended term of entry.

**New graduate students:** Complete registration information is sent to all new students before their intended term of entry.

**Advance registration:** Intended primarily for all currently enrolled and former students and is normally held mid-to-late March for the upcoming spring/summer, fall, and winter semesters.

**Late registration:** Occurs once the semester has begun. Any student who adds a new schedule (without existing registrations) at that time will be assessed a \$50 nonrefundable late registration fee. Courses beginning after the fifth class day and workshops or similar offerings without a prescribed registration process will be free of the late fee assessment on the first class day.

**Schedule revision or drop/add:** This is held concurrently with all registrations. A student may drop or add any course for which prerequisites have been met and capacity permits. Additional tuition charges may be due when a student adds credits. Under exceptional circumstances, a student may be allowed to add a course after the deadline. The completed transaction, accompanied by support from the instructor, department chair, and college dean, must include a \$25 late add fee and any additional tuition. Specific dates and times for all registrations are set by the registrar and listed in the schedule of courses and in the academic calendar. For more information on the financial regulations regarding late registration and dropping or withdrawing from classes, click on the Important Policies section on the Financial Aid website.

**Registering for two sections of the same course:** Students may not be simultaneously enrolled in two sections of the same course unless specifically designated as repeatable for credit by a department or unit.

## **Duplicate Registration**

Students who register for the same class in multiple future semesters will be dropped from the class(es) for all subsequent terms.

## **Electronic Overrides**

If a course requires a registration permit, is closed, or prevents registration based on major, class, prerequisite etc., students may request a registration override through the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

myBanner system. The department offering the course evaluates the request for an electronic override and determines if an override will be granted. Once the electronic override is entered into the Banner system, the student can register for that class. The issuance of an electronic override does not automatically register the student in the course.

## Prerequisites

Prerequisite courses provide the background necessary for successful performance in a course. The university uses an automated check of students' records, including transfer work and test scores at the time of registration to determine whether students have successfully completed the prerequisites for certain courses. The online catalog lists prerequisites in the course descriptions.

**Prerequisite checking applies to all students regardless of their level or college. Prerequisites are enforced by the Banner student information system at the time of registration.**

Students will be permitted to register if they have satisfactorily completed or are currently enrolled in the prerequisites for the course or have departmental approval to be in the course.

### **Satisfactory completion means**

- meeting the minimum acceptable passing grade requirement as indicated in the course description by completion of a Grand Valley State University course or an equivalent transfer class or
- having a test score that meets the requirement.

If you have **not satisfactorily** completed or are **not registered** for the prerequisite, you will receive a prerequisite error message when you attempt to register for the class.

## Residence Requirements - Michigan

The following brief summary of the policy adopted by the Board of Trustees of Grand Valley State University applies to all students.

Because students normally come to Grand Valley State University for the primary or sole purpose of attending the institution rather than establishing a domicile in Michigan, those who enroll in Grand Valley as nonresidents will

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

continue to be so classified throughout their attendance as students unless and until they demonstrate that their previous domicile has been abandoned and a Michigan domicile established. No students shall be eligible for classification or reclassification as a resident unless they shall be domiciled in Michigan and have resided in Michigan continuously for not less than six months immediately preceding the first day of classes of the semester for which classification or reclassification is sought.

For purposes of the regulations, resident students are defined as students domiciled in the State of Michigan. Nonresident students are defined as those whose domicile is elsewhere. Students shall not be considered domiciled in Michigan unless they are in continuous physical residence in this state and intend to make Michigan their permanent home, not only while in attendance at Grand Valley but indefinitely thereafter as well, and have no domicile or intent to be domiciled elsewhere.

The residence of a student who otherwise would be classified as a nonresident will follow that of his or her spouse if the spouse is classified as a resident, after the student has met the six-month domicile requirement.

Non-U.S. citizens who have been lawfully admitted for permanent residence in the United States shall not, by reason of that status alone, be disqualified from classification or reclassification as resident. However, non-U.S. citizens who are present in the United States on a temporary or student visa shall not be eligible for classification or reclassification as residents.

- Individuals who are on active duty service in the U.S. military, reservists of the same, or U.S. veterans and their spouses or dependents are considered residents for tuition purposes.
- Certain individuals may be eligible for consideration as resident students if they graduated from a Michigan high school after attending three years and are not legal residents of the United States; this eligibility extends for 28 months following high school or community college graduation.

It is the responsibility of the student to register under the proper residence classification, to advise the registrar of possible changes in residence, and to furnish all requested information pertinent thereto.

Application for reclassification must be filed no later than 10 calendar days following the first day of classes of the semester for which such reclassification is sought. Such application shall set forth in writing a complete statement of the facts upon which the application is based, together with affidavits or other supporting documentary

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

evidence. Failure to file such an application on time shall constitute a waiver of all claims to reclassification or rebates for such semester.

Copies of the complete policy are available upon request from the registrar. Address all questions, concerns, and appeals of status to the registrar. The Residency Appeal Board will hear appeals of reclassification decisions.

## **Dual-level Enrollment Policy**

Undergraduate students at Grand Valley State University may register for graduate credit prior to completing a baccalaureate degree. To do so, students must have earned a minimum of 85 semester hours, have a minimum 3.0 grade point average, demonstrated potential to succeed at the graduate level as determined by the graduate program director of the graduate program offering the course or be admitted to a graduate degree program, and receive approval from their undergraduate advisor, the course instructor, and the graduate program director of the graduate program offering the course.

Students wishing to apply for dual enrollment must obtain a Dual-level Enrollment Request form from the registrar's webpage and indicate on the form that they are currently

- (1) an undergraduate student requesting the designation of a graduate course as part of the undergraduate program (this course may not be used as part of some future graduate program at Grand Valley) or
- (2) an undergraduate student requesting enrollment in a graduate course to be designated as part of a future program (a student may count a maximum of nine graduate credits toward the graduate degree).

The completed form must be submitted to the Registrar's Office by the close of business on the fifth day of the semester in which the student wishes to enroll in the course.

## **Repeat Course Policy**

A student may repeat any course one time. When repeating a course, the grade earned shall be the grade of record but the grades of all courses attempted will remain on a student's official transcript.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students who repeat a course will have only the grade and credit of the most recent instance of the course counted toward their GPA and earned hours, regardless of whether the most recent grade is lower or higher. Grades of I, W, AU, CR, or NC do not replace an earlier grade.

Repeating a course more than once is allowed only with the approval of the student's academic advisor. In cases when the course is not in the student's academic advisor's unit, approval to repeat the course must be approved by the appropriate unit head of the department where the course is offered.

Please note: Many undergraduate secondary admission programs and postgraduate professional programs routinely recalculate students' undergraduate GPAs to include repeated coursework. The inclusion of repeated grades may lower your overall GPA when applying to such programs. Students should consult with prospective programs regarding their policies before applying.

Students working toward completion of a program of study at GVSU can count courses transferred in as a repeat for an equivalent course taken at GVSU. In this case, the grade earned at GVSU will be excluded from GPA calculations. GVSU will not post transfer coursework to a GVSU transcript after a degree has been completed, unless the coursework pertains to a GVSU program of study at the same level (undergraduate or graduate) to which the student has already been admitted.

For additional information regarding changes in federal regulations and impacts on financial aid for repeating courses, please check the Important Policies section on the Financial Aid website.

## **Course Repeat Appeal Process**

If an advisor for undergraduate students/programs declines a student's request to repeat a course more than once, the student may appeal the decision by putting the request and the rationale for the request in writing and submitting both to the unit head of the program in which the course is located. If the unit head declines the appeal, or is the original decision maker, the student may then submit the appeal to the dean of the college in which the course is located.

## **Reporting**

### **End-of-Term Grades**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Final grades are reported at the conclusion of each academic term and become part of the official record of the student. Final grade reports are available on the Web within one week of the last day of the examination period unless interrupted by university closure for holidays.

## **Midterm Grades**

Grades are reported by the registrar at midterm and at the conclusion of the semester. Midterm grades are reported for all undergraduate students who are in their first two semesters at Grand Valley and for any undergraduate student in other than good standing. Midterm grades will be available on the Web but not recorded on the student's official transcript.

## **Transcripts**

Transcripts of students' academic records are available from the Registrar's Office. Requests for an official transcript bearing the signature of the registrar and the university seal will be prepared and processed electronically or mailed within one business day. Unofficial transcripts will be prepared immediately for currently enrolled students. Unofficial transcripts are available at any time on the Web at no charge through myBanner. No transcripts will be released if a student has an encumbrance or indebtedness to Grand Valley State University. To comply with the federal mandate, transcripts will not be released without a signed, written request from the student.

## **Student Information**

### **Academic Grievance Procedures**

Academic grievances are generally defined as those involving (a) procedures, policies, and grades in courses, (b) major, minor, or program (graduate or undergraduate) degree requirements, (c) general undergraduate university graduation requirements, such as general education, total credit, or residency requirements, or (d) graduate degree requirements, such as total credit or residency requirements. Filing of a grievance is required by the end of the following regular semester after notification of grade or receipt of adverse decision. Appeals of decisions must take place 30 days after receipt of notification.

**A. Resolution of an academic grievance involving procedures, policies, and grades in individual courses.** The resolution of academic grievances is based on two

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

principles: first, that the resolution of a grievance should be sought at the lowest possible level, and second, that pathways for appeal exist for both faculty members and students. Resolution should be pursued as follows:

1. An appeal to the instructor. Normally, the instructor must respond to an appeal within 30 days of receipt of the appeal.
2. If the grievance is not resolved to the student's satisfaction, a further appeal could be made to the unit head who may request that the appeal be put in writing. Both the student and the faculty member will be notified in writing of the unit head's decision, within 30 days of receipt of the appeal.
3. If the disposition by the unit head is not acceptable to either party, an appeal in writing may be made by either party to the dean of the college. If the dean feels that there is some merit in the written grievance, he or she may establish a committee to review the grievance and make a recommendation within 30 days to the dean. Such a committee may include a representative of the dean's office, a faculty representative from the college of the course under appeal, and a student representative. If a student representative is to be included in the committee, the student that is a party to the appeal must sign a FERPA release/waiver prior to the committee convening. Within 30 days of receiving the committee's recommendation in the latter procedure, the dean shall rule on the grievance. Both the student and the faculty member will be notified in writing of the dean's decision. The dean's review and judgment in the case will be final.

**B. Resolution of an academic grievance involving fulfillment of program, major, or minor degree requirements** should be pursued as follows:

1. An appeal to the unit head or graduate program director.
2. If the grievance is not resolved to the student's satisfaction at this level, an appeal to the dean of the college would be possible, in the same manner as outlined in (A).

**C. Resolution of an academic grievance involving fulfillment of general undergraduate university requirements**, should be pursued as follows:

1. a) For general education, an appeal should be made to the general education director.  
b) For residency requirements, students should contact their academic advisor to request the appropriate approvals for the student's program.  
c) For supplemental writing skills (SWS) requirements, an appeal should be made to the director of SWS.
2. If at this point the grievance is still not resolved to the student's satisfaction, a further written appeal could be made to the provost or the provost's designate. In this case, the provost or designate may establish a committee to review the grievance and make a recommendation within 30 days. Such a committee shall include a representative of the provost's office, a faculty representative related to the student's

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

major, and a faculty representative from outside the student's college. Upon receiving the committee's recommendation, the provost will render a final judgment in the case.

**D. Exceptions to institutional graduate degree requirements sought by individual students will be determined by the dean and the provost or the provost's designate.**

The student filing the grievance may have an observer from the Dean of Students Office or a person of their choice attend any meeting at which the student appears. The faculty member involved in the grievance may have an observer of their choice attend any meeting at which the faculty member appears.

## **Academic Honesty**

### **Integrity of Scholarship and Grades**

#### **Truth and Honesty**

The principles of truth and honesty are recognized as fundamental to a community of teachers and scholars. The university expects that both faculty members and students will honor these principles and in so doing protect the validity of university grades. This means that all academic work will be done by the student to whom it is assigned without unauthorized aid of any kind. Instructors, for their part, will exercise care in the planning and supervision of academic work, so that honest effort will be positively encouraged. Compliance shall include compliance with the following specific rules:

1. No student shall knowingly, without authorization, procure, provide, or accept any materials that contain questions or answers to any examination or assignment.
2. No student shall, without authorization, complete, in part or in total, any examination or assignment for another person.
3. No student shall, without authorization, allow any examination or assignment to be completed, in part or in total, by another person.
4. No student shall knowingly plagiarize or copy the work of another person and submit it as his or her own.
5. No student shall submit work that has been previously graded or is being submitted concurrently to more than one course without authorization from the instructor(s) of the class(es) to which the student wishes to submit it.

#### **Plagiarism**

Any ideas or material taken from another source for either written or oral presentation must be fully acknowledged. Offering the work of someone else as one's own is plagiarism. The language or ideas taken from another may range from isolated formulas, sentences, or paragraphs to entire articles copied from books, periodicals, speeches, or the writing of other students. The offering of materials assembled or collected by others in the form of projects or collections without acknowledgment also

is considered plagiarism. Any student who fails to give credit in written or oral work for the ideas or materials that have been taken from another is guilty of plagiarism.

Such activity may result in failure of a specific assignment, an entire course, or, if flagrant, dismissal from Grand Valley. For further information, see the Student Code.

### **Policy on Research Integrity**

The university has developed policies and procedures to comply with the federal government regulations regarding dealing with and reporting possible research misconduct. Allegations of misconduct should be referred to the appropriate dean or appointing officer or the provost and vice president for Academic Affairs, or the research integrity officer (excerpted from Grand Valley State University Policy and Procedures for Handling Allegations of Misconduct in Research, for the complete policy refer to the Faculty Handbook). Students involved in research, who suspect that an incident of misconduct has occurred, should report the incident to the dean of their academic college or the research integrity officer.

### **Complaints**

A student who has a concern that has not been addressed by a policy in this section may present their case in writing to the registrar. The registrar will acknowledge receipt of the complaint and respond regarding the disposition and assignment of resolution within 10 calendar days.

### **Health Insurance Portability and Accountability Act Law**

Health Insurance Portability and Accountability Act (HIPAA) law is a federal law related to health insurance and medical privacy. Students who have access to protected health information through clinical placements must be trained in HIPAA compliance. Students who have access to certain health-related information through their placements are required to receive training on HIPAA privacy practices. If you are not sure whether you should receive training in this area, please contact your major advisor.

### **Records: Statement of Policy**

It is the charge of the registrar to maintain complete and accurate academic records for Grand Valley State University and its past and current student populations. Much of the record keeping is required by either state or federal mandate. Grand Valley adheres to the compliance guidelines of the Family Educational Rights and Privacy

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Act (FERPA) of 1974, as amended. A statement of the compliance policy is available in the Registrar's Office.

## Responsibilities

Each student must fulfill all general and specific requirements and abide by all pertinent academic regulations to earn a degree at Grand Valley State University. It is the responsibility of the student to learn the requirements, policies, and procedures governing the program being followed and to act accordingly.

## Uniform Course Numbering System

### 1. Uniform Course Numbering Guidelines

Category	Description
000-099	Credit in these courses does not apply to the minimum 120 credits required for the baccalaureate degree.
100-199	Introductory courses, generally without prerequisites, primarily for first-year undergraduate students.
200-299	Courses primarily for second-year undergraduate students.
300-399	Courses primarily for third- and fourth-year undergraduate students.
400-499	Advanced courses primarily for fourth-year undergraduate students.
500-599	Courses primarily for first-year graduate students or prerequisites for 600- and 700-level courses.
600-699	Courses primarily for graduate students admissible to graduate programs or prerequisites for 700-level courses.
700-799	Courses primarily for advanced graduate students in postgraduate, graduate, and postdoctoral programs.

### 2. Reserved Undergraduate Course Numbers

- a. The numbers 180, 280, 380, and 480 are reserved for use only as special topics courses.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- b. The numbers 399 and 499 are reserved for use only as independent study and research courses.
- c. The number 490 is reserved for use only as an internship or practicum course.
- d. The number 495 is reserved for use only as a Capstone course.

### **3. Reserved Graduate Course Numbers**

- a. The numbers 680 and 780 are to be used for graduate special topics courses.
- b. The numbers 690 and 790 are to be used for graduate research preparation courses.
- c. The numbers 693 and 793 are to be used for graduate project courses.
- d. The numbers 695 and 795 are to be used for graduate thesis/dissertation courses.
- e. The numbers 696 and 796 are to be used for graduate thesis/dissertation continuous enrollment courses.
- f. The numbers 697 and 797 are to be used for professional learning credit.
- g. The numbers 699 and 799 are to be used for graduate independent study courses.

## **U.S. Department of Veterans Affairs: Certification for Benefits**

Grand Valley complies in full with all reporting requirements outlined by the U.S. Department of Veterans Affairs. Enrollment, academic status, progress toward degree, conduct, attendance, and graduation requirements are monitored and reported for all benefit recipient students. All eligibility and certifications are handled through the Registrar's Office. Questions should be directed to that office.

## **Withdrawal From Grand Valley State University**

Students withdrawing from Grand Valley during an academic term must obtain a Complete Withdrawal Form from the Registrar's Office and, if applicable, have it

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

signed by the director of the Student Academic Success Center. The completed form must be returned to the Registrar's Office. Any refunds will be based on the date the completed form is filed with the Registrar's Office.

Graduate students must follow the Graduate Academic Policy on Course Withdrawals.

Students in good standing who wish to return to Grand Valley after an absence of two or more semesters must submit a Petition to Return form to the Registrar's Office prior to registration. The form can be obtained from the Office of Admissions, the Registrar's Office, or the Registrar's Office website.

## **Withdrawal From a Graduate Course**

For information on withdrawal from a graduate course, please refer to the section in the catalog on Graduate Academic Policies and Regulations.

## **Withdrawal From an Undergraduate Course**

A student may withdraw from a course and receive a grade of W when the completed Registration and Drop/Add Form is presented to the registrar by the end of the ninth week or dropped through self-service Banner. Students who do not withdraw before the deadline must accept a grade other than W depending on the instructor's judgment of their performance in the course(s) and any mitigating circumstances. Students who request an exception of the withdrawal deadline due to extenuating circumstances must present their explanation of appeal attached to a Registration and Drop-Add Form signed by their professor and department chair along with at least one statement of support from the professor or department chair to the director of the Student Academic Success Center. Students should continue attending class until notification of a final decision about their appeal is received.

For additional information regarding late registration and dropping or withdrawing from classes throughout the academic year, please check the Important Policies section on the Financial Aid website.

# **Undergraduate Academic Policies and Regulations**

## **Classification of Students**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Freshman: 0 to 24.99 semester credits  
Sophomore: 25 to 54.99 semester credits  
Junior: 55 to 84.99 semester credits  
Senior: 85 or more semester credits

## Academic Review Policy

Beginning with the fall semester 2002, the following system has been used to evaluate the academic progress of all undergraduate students. Using either the narrative or the table that follows, students can check their credits earned, cumulative grade point average (GPA), and current GPA to readily determine their academic standing. The table that follows lists semester hours earned (including hours in transfer) and the minimum GPA for good standing, probation, jeopardy of dismissal, and dismissal.

1. **Good Standing:** Each student must have a cumulative GPA of a 2.000 or higher to be in good standing.
2. **Academic Probation:** A freshman with a cumulative GPA between 1.501 and 1.999 will be placed on probation. A sophomore with a cumulative GPA between 1.801 and 1.999 will be placed on probation.
3. **Jeopardy of Dismissal:** A freshman whose cumulative GPA is 1.500 or lower and a sophomore whose cumulative GPA is 1.800 or lower will be placed in jeopardy of dismissal. Juniors and seniors whose cumulative GPA is below 2.000 will be placed in jeopardy of dismissal.
4. **Dismissal:** Students in jeopardy of dismissal have one semester to raise their cumulative GPA above the dismissal level. If the student's cumulative GPA does not rise above the dismissal level and if the current semester GPA is less than a 2.500, the student will be dismissed.
5. **Readmission Following Dismissal:** A dismissed student may apply for readmission after a period of one calendar year. Evidence of maturity and improved attitude toward academics and the written support of the student's academic advisor must accompany the application for readmission. The Petition to Return form and supporting documentation must be submitted to the registrar not less than 10 days before the first day of classes for the semester of intended return. Petitions are reviewed by the Academic Review Committee on a continual basis. Approval of a petition allows the student to enroll on a conditional basis, as stipulated by the committee. The academic standing for a readmitted student will be jeopardy of dismissal.
6. **Due Process Through Appeal:** If a student believes that his or her academic status is in error, he or she may submit a written appeal including written support of his or her academic advisor to the Academic Review Committee, c/o the registrar. It is in the student's interest to appeal immediately if he or she intends to do so, but a student may do so no later than the first class day of the subsequent semester. All appeals will be considered by the Academic Review Committee.

\*Including transfer credit hours.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# Undergraduate Academic Forgiveness Policy

This program is intended to supplement and not replace other mechanisms that already exist (withdrawals, faculty mentoring program, etc.). Student must choose their best option in consultation with an advisor.

## Eligibility for the Program

1. Student has not performed well in a major they have selected (abandoned major) and wishes to change or has already changed to a different major (new major). **Additional eligibility criteria apply as described in the following section.**
2. Student must demonstrate, through developing an academic plan in consultation with a professional advisor, how they intend to progress in a new major.
3. The courses that may be subject to academic forgiveness must meet the criteria specified in the Terms of Academic Forgiveness. Students should consult an advisor to determine if academic forgiveness is an appropriate option.

## Terms of Academic Forgiveness

1. Academic forgiveness can be granted only once in the student's undergraduate experience.
2. A student granted academic forgiveness will benefit from their improved GPA. The new GPA will include all courses taken by the student except for the forgiven courses, which will be entirely excluded from the GPA calculation.
3. Application must list a minimum of two different courses qualifying for academic forgiveness.
4. Academic forgiveness can be granted for a maximum of 16 unique credit hours.
5. All instances of a forgiven repeated course will be excluded from GPA. The number of forgiven credits will be equal to a single instance of this course in the transcript.
6. Forgiven courses must be required or prerequisite for the abandoned major and not required or prerequisite for the final major. Courses taken only to fulfill general education or Meijer Honors College requirements do not qualify.
7. Forgiven courses (if passing grade was earned) will no longer count toward general education, SWS, or other university degree requirements (such as 120 credit hours for graduation).
8. Academic forgiveness cannot be used for courses in which academic misconduct occurred.

## Dean's List

Undergraduates who earn 12 or more grade point credits with a grade point average of 3.5 or higher in any semester earn a place on the Grand Valley State University Dean's List. (A grade of CR does not count toward the total credits required.) The

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

deans send each student a personal letter and the honor is noted on the student's permanent record.

## Graduation Honors

Graduation honors will be based on the cumulative grade point average, including the final semester. The following scale is in effect for bachelor's degrees awarded Fall 2021, Winter 2022, and Summer 2022:

**Summa cum laude:** 4.000

**Magna cum laude:** 3.928-3.999

**Cum laude:** 3.849-3.927

Cut-off points are determined based on the distribution of GPAs for baccalaureate graduates in the previous calendar year (e.g. 2021-2022 cut-off points are set by examining final GPAs from 2020 graduates). **Summa cum laude** requires a GPA of 4.000. **Magna cum laude** requires a GPA above the previous year's 95th percentile (but below 4.000). **Cum laude** requires a GPA above the previous year's 90th percentile (but below the magna cum laude cut-off).

## Class Attendance

At Grand Valley, regular attendance in class and other course activities is considered an essential part of the students' educational experience and a requirement for an adequate evaluation of student academic progress.

Coursework missed because of excused absences should be made up to the satisfaction of the instructor. Although makeup work will not remove the full adverse effect of the absence in all cases, faculty members will make reasonable accommodations for students when an absence is excused. The accommodations available will vary with course and program. The degree of the effect upon grades will vary with the nature and amount of work missed and must be measured according to the instructor's best judgment. In case of excessive absences, the instructor may refuse to grant credit for the course. Under some circumstances, an incomplete grade followed by a resolution according to university policy, or withdrawal from the course, is appropriate.

Absences due to the following reasons should be treated as excused: 1) absences of students who miss class due to active participation in an intercollegiate event; 2) absences due to the observance of religious holidays, see PC 9.6, Religious Inclusion Policy; 3) absences due to military duty; 4) absences due to jury duty, or appearance

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

in court or other government hearings; 5) student medical conditions that preclude class attendance; 6) birth or adoption of child; and 7) absences due to attendance at an academic and/or professional conference. Instructors have discretion to determine whether absences for other reasons should be treated as excused (e.g. study abroad program).

## Student Credit Load

Most courses carry three hours of credit. To complete a bachelor's degree in four years, a student should carry a minimum of 15 hours each semester. First-semester freshmen and students on academic probation may not carry loads greater than 20 credits per semester.

Students who elect to take an extended course load of 20 credits or more must acquire approval from the director of the Student Academic Success Center.

## Advising/Degree Audit

All undergraduate programs recommend that their degree-seeking students meet with an assigned faculty advisor or advising center professional advisor at least once per year, to ensure that there is a clear understanding of program requirements. Students can view their progress toward graduation at any time by using the myPath degree audit system.

## Credit by Examination

In some cases, degree-seeking students may be granted advanced placement or receive college credit by examination. Tests are available to determine levels of competence in certain subject areas. The following tests are available:

**Advanced Placement Program (AP):** AP is a program sponsored by the College Entrance Examination Board (CEEB). Generally, credit is granted for scores of 3, 4, or 5 but is determined by the appropriate academic department.

**College Level Examination Program (CLEP):** Credit is granted for subject examinations offered by CLEP; however, no credit is granted for the CLEP general examinations. Required minimum scores are available on request from the Admissions Office or the Registrar's Office. Native speakers of a language other than English will not be granted CLEP or AP exam credit for that language.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Defense Activity for Nontraditional Educational Support (DANTES):** Grand Valley will accept for credit certain DANTES college-level courses and college subject matter examinations. Specifics are available upon request from the office of Admissions or the Registrar's Office. There is no limit to the number of DANTES credits that can be applied.

**International Baccalaureate (IB):** Credit is granted for higher level IB exam results (in most subjects). The minimum score is 4. Details of the credit granted are available from the Admissions Office or the Registrar's Office.

Credit by examination in any of the noted programs has the following limitations:

1. Examination credit will be awarded if the student has not previously registered for the course in question at Grand Valley or elsewhere.
2. The credits, while counting toward graduation, will not be used in computing the GPA.
3. Students must earn the last 30 credits toward their degree at Grand Valley; therefore, a student nearing graduation must get a Residency Waiver approved before the CLEP exam is taken.
4. The maximum amount of credit by examination that may be applied toward the baccalaureate is 32 hours. This is inclusive of any combination from Advanced Placement, CLEP, and International Baccalaureate credits awarded.

## **Concurrent Enrollment with Michigan Community Colleges**

Concurrent enrollment allows students at both Grand Valley State University and those attending Michigan community colleges to make full use of the variety of courses offered by both institutions. Through concurrent enrollment, students have more scheduling options, more choice of course locations, and many more courses available. Students may take courses at both institutions simultaneously or alternate enrollment between them. Financial aid may also be available to students who qualify.

Students must be admitted to both institutions. Students will follow the policies in place at each school they attend. Grand Valley has waived the rule that requires a student to have satisfied the Michigan Transfer Agreement (MTA) degree prior to taking their first course at Grand Valley. The benefits of the MTA agreement will be honored upon verification of completion of the degree. Refer to the General Education Requirements section for further clarification.

## **Internships**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An internship is experiential learning for credit taking place outside the classroom and directed by a field supervisor and a Grand Valley State University faculty member. A student may enroll for a maximum of 15 credits of internship. An internship must be planned with a faculty advisor the semester before it takes place.

## **New Student Advising and Registration**

Attendance at an orientation program is required of all degree-seeking undergraduate students before their first semester of attendance. The purposes are to welcome new students, to introduce them to each other and to faculty members with whom they will be working, and to assist them in planning programs of study. The final step of new student advising and registration is the preparation of a schedule of classes approved by a faculty advisor and completion of the registration process. A schedule of the new student advising and registration dates is mailed to all new students well in advance of their term of entrance.

## **Transitions**

All new students are expected to participate in Transitions, the fall orientation program offered prior to the first day of classes. This exciting program helps students meet new people, get acclimated to campus, and prepare for a successful university experience.

## **Degree Requirements**

The following requirements apply to all undergraduate degree-seeking students:

1. A minimum of 120 semester hours
2. A cumulative GPA of at least 2.0
3. A graduation major with at least a 2.0 average
4. A minor, if elected, with a 2.0 GPA
5. General education requirements
6. Cognate for Bachelor of Arts or core for Bachelor of Science degree
7. Capstone course
8. The last 30 semester hours toward a baccalaureate degree must be earned in Grand Valley courses
9. A minimum of 58 semester hours must be earned at a senior institution
10. A minimum of 12 Grand Valley earned semester hours must be included in the major (six for the minor)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

### **1. Semester Hours Requirements**

Students are required to complete at least 120 semester hours of credit for graduation. Courses taken after summer 1983 numbered below 100 do not apply toward the 120 needed for graduation.

### **2. Cumulative**

For graduation, a student must earn a cumulative GPA of at least a 2.0 based on all coursework attempted at Grand Valley. Some major programs stipulate a GPA requirement exceeding the minimum. Refer to the department entries for specifics.

### **3. Major**

A student must elect a major in one or more of the academic units empowered to present candidates for the undergraduate degree. A cumulative GPA of 2.0 in the major is the required minimum for graduation. Some majors stipulate requirements exceeding the minimum. Refer to the department entries for program specifics.

### **4. Minor**

A minor is required for select programs for graduation. Any student may choose to complete a minor. If a student chooses to complete a minor, a cumulative GPA of 2.0 is the required minimum for graduation. Some minors stipulate requirements that exceed the minimum. Refer to the department entries for program specifics.

### **5. General Education Requirements**

Ensuring that undergraduate students receive a broad general education has been a primary goal of colleges and universities since their inception. In this era of increasing specialization and growing demand for professional expertise, it is vital that we continue to emphasize the value of general learning.

### **6. B.A. and B.S. Degree Requirements**

All Bachelor of Arts degree programs must include at least three courses that focus on culture, arts, philosophy, or language. At least two courses must be outside of the general education Foundations category. All Bachelor of Arts programs must require third-semester proficiency in a classical or modern language.

All Bachelor of Science degree programs must include at least three courses that focus on mathematics, statistics, quantitative reasoning, or scientific analysis. At least two courses must be outside of the general education Foundations category. At least one course must build upon the expertise developed in the general education Mathematical Sciences category by requiring a general education Mathematical Sciences course as a prerequisite.

## **7. Capstone Course**

Each undergraduate major curriculum must include a Capstone experience (generally a senior-level course of three credits) with four general criteria: breadth (students must draw on several courses within their major), integration/synthesis (students combine different skills and areas of knowledge into a single experience), application (e.g., students use their knowledge and skills to examine an issue and produce a substantial outcome), and transition (e.g., students reflect on and gain knowledge and skills that prepare them to move from college to the world beyond).

## **8. Required Hours at Grand Valley**

Graduation from Grand Valley State University requires that the completion of the last 30 semester hours toward a baccalaureate degree must be earned at Grand Valley or in Grand Valley programs and courses taught off campus by Grand Valley faculty members.

## **9. Senior Institution Requirement**

Regardless of the number of transfer credits accepted by Grand Valley from junior or community colleges, a baccalaureate degree must include a minimum of 58 semester hours from a senior (four-year, degree-granting) institution.

## **10. Transfer Hours for Major and Minor**

Regardless of the number of transfer hours accepted by Grand Valley from other institutions, transfer students must complete a minimum of 12 hours in the unit conferring the major (six for the minor).

Grand Valley maintains that a complete education involves more than preparation for a particular career. A career occurs in the context of a life, and a sound general education helps one "make a life" as well as "make a living." The university remains committed to assuring that all undergraduate students, regardless of academic major or intended profession, receive a broad education rooted in the arts and sciences.

The focus of our General Education Program is to provide students with an education that balances depth with breadth, the specialized with the general. The General Education Program helps students become literate in a sophisticated way in a number of disciplines, and it fosters their ability to make connections across various domains of knowledge. Such preparation will provide students with the general knowledge and skills necessary to participate intelligently in the discourses that shape local, national, professional, and global communities.

Teaching in the liberal tradition is at the heart of Grand Valley's identity, and this focus is critical in our General Education Program. Liberal education transcends the acquisition of information; it goes beyond the factual to ask important evaluative and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

philosophical questions. Liberal learning holds the fundamental principles and suppositions of a body of knowledge up to inquiry, question, and discussion. It helps a person recognize the assumptions under which he/she operates and encourages the examination and questioning of those assumptions. Liberal learning begins in the General Education Program and continues through more specialized studies comprising each student's major and minor areas of study.

Grand Valley is dedicated to making sure that our students, via their academic majors, become competent specialists in their fields of endeavor. An equally pressing priority is that our graduates also possess the marks of a generally educated person and that they will have acquired the broad knowledge and life skills that will allow them to be informed and thoughtful people. These ideals co-exist within our institution, and together they produce people who can contribute to their own well-being, their communities, their professions, and the world in which they live.

The General Education Program provides a broad-based liberal education experience that fosters lifelong learning and informed citizenship. The program prepares students for intelligent participation in public dialogs that consider the issues of humane living and responsible action in local, national, and global communities.

Refer to [gvsu.edu/gened](http://gvsu.edu/gened) for more information.

## **Student Learning Outcomes of The General Education Program**

The General Education Program teaches the knowledge and skills needed to intelligently participate in public discourse.

### **Knowledge Outcomes**

Graduates will know:

1. about the major areas of human investigation and accomplishment the arts, the humanities, the mathematical sciences, the natural sciences, and the social sciences.
2. about their own culture and the culture of others; and
3. how academic study connects to issues in the world.

### **Skills Outcomes**

Graduates are proficient in the following:

1. Collaboration: Effectively work on a team.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

2. Critical Thinking: Comprehensively evaluate issues, ideas, artifacts, or events before forming a conclusion.
3. Ethical Reasoning: Apply ethical principles and codes of conduct to decision making.
4. Information Literacy: Identify the need for information; access, evaluate, and use information effectively, ethically, and legally.
5. Integration: Apply knowledge from experiences and multiple disciplines to new, complex situation.
6. Oral Communication: Effectively prepare and deliver a formal oral presentation.
7. Problem Solving: Design and evaluate an approach to answer an open-ended question or achieve a desired goal.
8. Quantitative Literacy: Work effectively with numerical data.
9. Written Communication: Write effectively for multiple purposes and audiences.

## **Requirements of The General Education Program**

### **Foundations**

Courses in the Foundations category introduce you to the major areas of human thought and endeavor. These courses present the academic disciplines as different ways of looking at the world, they introduce you to the varied methods used to create knowledge, and they acquaint you with major questions and principles of the field.

Requirements include the following:

1. Arts (one course)
2. Historical Perspectives (one course)
3. Mathematical Sciences (one course)
4. Life Sciences (one course, either the Life Sciences or the Physical Sciences course must contain a lab)
5. Physical Sciences (one course, either the Physical Sciences or the Life Sciences course must contain a lab)
6. Philosophy and Literature (one course)
7. Social and Behavioral Sciences (two courses from two different disciplines)
8. Writing (one course)

### **Cultures**

Courses in the Cultures category prompt you to recognize yourself as a cultural being, and to understand the diverse ways in which people organize life and perceive the world. It enhances your ability to live and work intelligently, responsibly, and cooperatively in a multicultural nation and an interdependent world.

Requirements include the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

1. U.S. Diversity (one course)
2. Global Perspectives (one course)

Courses with a Cultures designation may count for Foundations or Issues credit in addition to Cultures credit. See the specific course for details.

## **Issues**

Courses in the Issues category provide you with opportunities to integrate learning and cocurricular experiences and then to build connections between prior understanding and new learning. Issues courses are problem-solving courses that encourage cross-disciplinary collaboration within each class. They also develop your understanding of some of the most compelling issues of our time: globalization, health, human rights, identity, sustainability, and the connected topics of information, innovation, or technology.

Requirements include the following:

- Two courses (two courses from two different disciplines)
- Courses can be within the same Issue or be from different Issues
- If a course is cross-listed in two disciplines/course prefixes, your second course must be taken from a third discipline/course prefix.
- Issues courses must be taken at GVSU (except study abroad, see [gvsu.edu/studyabroad](http://gvsu.edu/studyabroad)).
- Issues courses have a junior standing prerequisite (you must have completed at least 55 credits prior to taking an Issues course; you can register for the class while the final credits are in progress).

## **I. Foundations**

Arts\*

(One course)

ART 101 - Introduction to Art

ART 153 - Making and Meaning in Art and Design

ART 159 - Drawing Fundamentals

ART 231 - Integrating the Visual Arts Across Disciplines

ART 260 - Introduction to Painting

ART 270 - Introduction to Sculpture

ART 271 - Digital 3D Modeling and Design

ART 275 - Introduction to Ceramics

CLA 250 - Classical Art and Archaeology

DAN 200 - Introduction to Dance

FVP 225 - Film Culture

JPN 222 - Early Modern Japanese Literature and Theatre

MUS 100 - Introduction to Music Literature

MUS 128 - Strum and Drum for Everyone

MUS 129 - Fundamentals of Music

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

MUS 218 - World Music  
PHI 220 – Aesthetics  
PHO 175 - Understanding Still Photography  
THE 101 - Introduction to Theatre  
THE 161 - Theatre Production  
WGS 255 - Gender and Popular Culture  
WRT 219 - Introduction to Creative Writing

Philosophy and Literature\*

(One course)

CHI 236 - Popular Chinese Fiction  
CLA 101 - Greek and Roman Mythology  
CLA 201 - Classical Literature  
CLA 231 - Health and Science in Antiquity  
COM 202 - Critical Interpretation  
EDF 215 - Introduction to Philosophies of Early Childhood  
ENG 105 - Literatures in English  
ENG 112 - Much Ado About Shakespeare  
ENG 115 - Introduction to Science Fiction  
ENG 203 - World Literature  
ENG/AAA 231 - Early African American Literature  
INT 100 - Introduction to Liberal Education  
JPN 221 - Pre-modern Japanese Literature and Culture (to 1600)  
JPN 224 - Post-World War II Japan through Literature and Film  
PHI 101 - Introduction to Philosophy  
PHI 102 - Ethics  
PHI 202 - Ethics of Health  
PHI 204 - Knowledge, Politics, and Social Media  
PLS/HRT 105 - Introduction to Human Rights

Historical Perspectives\*

(One course)

ANT 215 - Origins of Civilization  
CLA 121 - Greek Civilization  
CLA 131 - Introduction to Roman Civilization  
EAS 201 - East Asia in the Contemporary World  
GSI/HST 202 - History of Global Change and Social Transformation  
HSC 201 - The Scientific Revolution  
HSC 202 - The Technological Revolution  
HST 101 - Introduction to World Civilizations  
HST 102 - Introduction to European Civilizations  
HST 103 - Introduction to American Civilizations  
HST 203 - World History to 1500 A.D.  
HST 204 - World History since 1500  
HST 205 - American History to 1877  
HST 206 - American History since 1877

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 207 - European Civilization to the Later Middle Ages  
HST 208 - European Civilization since the Later Middle Ages  
HST 211 - History of Islamic Civilization  
HST 212 - India: History and Civilization  
HST 230 - Latin America in World History  
HST 240 - A History of East Asia to 1800  
HST 241 - A History of East Asia since 1800  
MES 201 - Introduction to the Middle East  
REL 200 - Understanding Religions in Human Experience  
WGS 224 - Introduction to LGBTQ Studies

#### Mathematical Sciences\*

(One course or MTH 126 + STA 126)

CIS 101 - Thriving in Our Digital World  
CIS 160 - Learn to Code in Python  
GPY 200 - Computer Cartography  
MTH 122 - College Algebra  
MTH 123 - Trigonometry  
MTH 124 - Precalculus: Functions and Models  
MTH 125 - Survey of Calculus  
MTH 126 - Mathematics for Elementary Teachers  
MTH 131 - Introduction to Mathematics  
MTH 201 - Calculus I  
PHI 103 - Logic

STA 126 - Statistics for Elementary Teachers

STA 215 - Introductory Applied Statistics

The prerequisite to all Mathematical Sciences courses is MTH 110 or its equivalent.

You must take both MTH 126 and STA 126 in order to receive Mathematical Sciences credit.

#### Physical Sciences\*

(One course, either the Physical Science or the Life Science must contain a lab)

CHM 102 - Chemistry and Society  
CHM 111 - Introduction to Green Chemistry  
GEO 100 - Environmental Geology  
GEO 103 - Oceans  
GEO 105 - Living with the Great Lakes

#### Lab Courses:

CHM 109 - Introductory Chemistry  
CHM 115 - Principles of Chemistry I  
CHM 201 - Introduction to Chemical Sciences  
GEO 111 - Exploring the Earth  
NRM 140 - The Climatic Factor  
PHY 105 - Descriptive Astronomy  
PHY 201 - Inquiry: The Mechanical and Thermal World  
PHY 220 - General Physics I

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PHY 230 - Principles of Physics I  
SCI 226 - Integrated Physical Science for K-8 Teachers

Life Sciences\*

(One course, either the Life Science or the Physical Science must contain a lab)

ANT 206 - Human Origins  
BIO 105 - Environmental Science  
BMS 100 - Human Health and Disease  
CMB 155 - Introduction to Cell and Molecular Biology

Lab Courses:

BIO 104 - Biology for the 21st Century  
BIO 107 - Great Lakes and Other Water Resources  
BIO 109 - Plants in the World  
BIO 120 - General Biology I  
BMS 202 - Anatomy and Physiology  
CMB 140 - Living foods: Ferment them yourself!  
CMB 150 - Biotechnology and Society  
SCI 225 - Integrated Life Science for K-8 Teachers

Social and Behavioral Sciences\*

(Two courses, each from a different discipline/course prefix)

AAA 200 - Understanding Africa  
AAA 201 - Introduction to African American Studies  
ANT 204 - Introduction to Cultural Anthropology  
ANT 207 - Language and Culture  
ANT 220 - Introduction to Archaeology  
CJ 101 - Justice and Society  
DS 201 - Digital Identities and Communities  
ECO 100 - Current Economic Issues  
ECO 210 - Introductory Macroeconomics  
ECO 211 - Introductory Microeconomics  
EDF 115 - Introduction to Education: A critical exploration of schooling in America  
GPY 111 - Cities, Towns, and Villages  
GPY 220 - Cultural Geography  
GPY 235 - World Regional Geography  
GSI 201 - (Dis)Order and (In)Justice: An Introduction to Global Studies  
GSI/PLS 215 - Global Migration  
GSI 290 - Changemakers! Introduction to Social Impact  
INT 201 - Diversity in the United States  
LAS 210 - Exploring Latin America  
LAS 220 - Introduction to Latino/a Studies  
LS 101 - Law in Our Lives  
PNH 270 - Public and Nonprofit Administration  
PED 207 - Personal Health and Wellness  
PLS 102 - American Government and Politics

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PLS 103 - Issues in World Politics  
PLS 211 - International Relations  
PSY 101 - Introductory Psychology  
REL 100 - Religions of the World  
SOC 101 - Introduction to Sociology  
SOC 105 - Social Problems  
SOC 287 - Sociology of Religion  
SW 150 - Human Needs in a Complex Society  
WGS 200 - Introduction to Gender Studies

## Writing

(One course)

Students must receive a grade of C (not C–) or better to fulfill this requirement.

WRT 130 - Strategies in Writing - Stretch II

WRT 150 - Strategies in Writing

## II. Cultures

Global Perspectives\*\*

(One course)

AAA 200 - Understanding Africa

AAA 300 - U.S.-Africa Relations

AAA 302 - African Diaspora

AAA/PLS 319 - African Politics

AAA/ENG 337 - Contemporary Black Literature

ANT 204 - Introduction to Cultural Anthropology

ANT 215 - Origins of Civilization

ANT 315 - Comparative Religions

ANT 340 - Culture and Environment

ANT 345 - Perspectives on Globalization

ARA 202 - Intermediate Arabic II: Language and Culture

ART 322 - Goths and Gothic: Medieval Art

ART 323 - Rethinking Renaissance Art

ART 422 - Art and the Worlds of Islam

CHI 202 - Intermediate Chinese II: Language and Culture

CHI 236 - Popular Chinese Fiction

CHI 323 - Late Imperial Chinese Culture

CHI 324 - Contemporary Chinese Culture

EAS 201 - East Asia in the Contemporary World

ECO 349 - Emerging Markets Issues

ECO 369 - International Economic Issues

EDF 316 - Global Perspectives on Education

EGR/NRM 406 - Renewable Energy Systems: Structure, Policy, and Analysis

ENG 204 - World Mythology

ENG/AAA 231 - Early African American Literature

ENG 355 - Teaching English Learners, PK-6

FRE 202 - Intermediate French II: Language and Culture

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GER 202 - Intermediate German II: Language and Culture  
GPY 235 - World Regional Geography  
GPY/PNH 324 - Urbanization  
GPY 350 - Geography of Russia and Its Neighbors  
GPY 351 - Geography of Africa  
GPY/LAS 352 - Geography of Latin America  
GPY 356 - Geography of Europe  
GPY/ENS 362 - Farmers, Crops, and our Challenging Agricultural World  
GRK 202 - Intermediate Greek II  
GSI 201 - (Dis)Order and (In)Justice: An Introduction to Global Studies  
GSI/HST 202 - History of Global Change and Social Transformation  
GSI/PLS 215 - Global Migration  
HSC 201 - The Scientific Revolution  
HST 101 - Introduction to World Civilizations  
HST 102 - Introduction to European Civilizations  
HST 203 - World History to 1500 A.D.  
HST 204 - World History Since 1500  
HST 208 - European Civilization since the Later Middle Ages  
HST 211 - History of Islamic Civilization  
HST 212 - India: History and Civilization  
HST 230 - Latin America in World History  
HST 240 - A History of East Asia to 1800  
HST 241 - A History of East Asia since 1800  
HST 310 - Cultural and Social Topics in Nonwestern History  
HST 332 - Emergence of Modern India and South Asia  
HST 342 - History of Buddhism and East Asian Religions  
HTM 175 - International Food and Culture  
HTM 202 - International Tourism  
INT 400 - Global Visionary Thinkers  
ITA 202 - Intermediate Italian II: Language and Culture  
JPN 202 - Intermediate Japanese II: Language and Culture  
JPN 221 - Pre-modern Japanese Literature and Culture (to 1600)  
JPN 222 - Early Modern Japanese Literature and Theatre  
JPN 224 - Post-World War II Japan through Literature and Film  
JPN 323 - Modern Japanese Literature and Film  
LAS 210 - Exploring Latin America  
LAT 202 - Intermediate Latin II  
MES 201 - Introduction to the Middle East  
MGT 303 - International Business and Culture  
MGT 466 - International Management and Multinational Corporations  
MUS 218 - World Music  
PHI 210 - Eastern Philosophy  
PHI 240 - Middle Eastern Philosophy  
PHI 250 - Existentialism  
PHI 400 - Wisdom of the East: Advanced Topics in Asian Philosophy  
PLS 103 - Issues in World Politics

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PLS 211 - International Relations  
PLS 281 - Comparative Political Systems: Canada  
PLS 283 - Chinese Politics and U.S.-China Relations  
PLS 284 - Latin American Politics  
PSY 355 - Psychology and Culture  
REL 100 - Religions of the World  
REL 300 - Religions in the World Today: Theories, Methods, and Issues  
REL 306 - Hinduism and South Asian Religions  
REL 335 - Sacred Texts – Global Contexts  
RUS 202 - Intermediate Russian II: Language and Culture  
SOC/WGS 350 - Family and Gender in the Developing World  
SPA 202 - Intermediate Spanish II: Language and Culture  
WGS 450 - Global Feminisms

U.S. Diversity\*

(One course)

AAA 201 - Introduction to African American Studies  
AAA/WGS 352 - Black Women's Culture and Communities  
AAA 355 - History of the Underground Railroad  
ANT 207 - Language and Culture  
ANT 311 - Native Peoples of North America  
ANT 375 - Language, Identity, and Diversity  
ART 425 - Depicting a Nation: 19th Century American Art  
CMJ 290 - Media History

SPA 313 - U.S.-Latino/a Civilization and Culture  
SW 355 - Addressing Ageism in Health and Human Services  
WGS 255 - Gender and Popular Culture

### **III. Issues**

The following rules apply to Issues courses:

- You may choose your Issues courses from the same category (Globalization, Health, etc.) or from two different categories.
- You must choose two courses from two different disciplines/course prefixes.
- If a course is cross-listed in two disciplines/course prefixes, your second course must be taken from a third discipline/course prefix.
- Issues courses must be taken at Grand Valley State University (except for study abroad, see [gvsu.edu/studyabroad](http://gvsu.edu/studyabroad)).

Issues courses have a junior standing prerequisite. For class standing, a junior is defined as a student who has earned 55 to 84 credits. For prerequisite checking, a student must have completed or will have completed at least 55 credits prior to taking the course. However, they can register for the class while the final credits are in progress.

Issue: Globalization\*

AAA/HST 357 - The Black Diaspora and the Meaning of Sports, 1800 to the Present  
AAA/PLS 319 - African Politics  
AHS 330 - Health Care: A Global Perspective  
ANT 345 - Perspectives on Globalization  
ART 323 - Rethinking Renaissance Art  
ART 422 - Art and the Worlds of Islam  
CHI 324 - Contemporary Chinese Culture  
CJ/DS 335 - Digital Crime, Media and Culture  
CLA 301 - Re-imagining the Classics  
CLA 302 - The Stages of Greek and Roman Drama  
ECO 349 - Emerging Markets Issues  
ECO 365 - Comparative Economic Systems  
EDF 316 - Global Perspectives on Education  
GPY 335 - Globalization and Development  
GPY 350 - Geopolitics, Energy, and Environment of Russia and Central Eurasia  
GPY 354 - Geography and Globalization of Asia  
GPY/ENS 362 - Farmers, Crops and Our Challenging Agricultural World  
HST 332 - Emergence of Modern India and South Asia  
INT/HST/HRT 319 - Human Traffic and Trafficking  
INT 331 - Person and Profession in a Global Environment  
MGT 303 - International Business and Culture

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

MKT 359 - Multinational Marketing

WGS 335 - Women, Health and Environment

Issue: Study Abroad

Details on completing a study abroad Issues course can be found at [gvsu.edu/studyabroad](http://gvsu.edu/studyabroad).

## **Supplemental Writing Skills (SWS)**

The university requires that all students take two Supplemental Writing Skills courses. These courses, which have Writing 150 or Writing 130 with a grade of C (not C-) or better as a prerequisite, are designated SWS in each semester's course schedule. Please read the schedule carefully, because not all sections of a multisection course are necessarily SWS sections. Those that are not designated SWS do not result in SWS credit. The SWS courses need not add to a student's program because they may also count as courses in general education or the major. Transfer students with a MACRAO must take one SWS course (normally in the student's major).

Courses that have received the SWS designation are not merely courses that require written assignments; they adhere to certain guidelines. Students turn in a total of at least 3,000 words of writing during the term. Part of that total may be essay exams, but a substantial amount of it is made up of finished essays or reports or research papers. The instructor works with the students on revising drafts of their papers, rather than simply grading the finished piece of writing. At least four hours of class time are devoted to writing instruction. For a three-credit course, at least one-third of the final grade is based on the writing assignments.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students must pass the writing skills courses (Writing 150 or Writing 130 and the two SWS courses) with a grade of C or better in each course. Students with a grade of C- or lower in an SWS course may repeat the course or pass another SWS course with a grade of C or better before graduation. Transfer students with the MACRAO must pass one SWS course with a grade of C or better. Students may receive SWS credit for courses taken as credit/no-credit as long as the course has already been officially approved and designated as an SWS course.

Questions regarding the SWS program should be addressed to the University Writing Skills Committee.

[gvsu.edu/sws](http://gvsu.edu/sws)

## **Frederik Meijer Honors College**

Frederik Meijer Honors College students may satisfy their general education requirements through the Meijer Honors College curriculum.

## **Transfer Students**

Students who transfer to Grand Valley with the MACRAO approved associate of arts or science degree from a Michigan public community college have satisfied the Foundations of the General Education Program and one Supplemental Writing Skills (SWS) course. Transfer students with an MTA are required to complete the following requirements: one SWS course in their major or college and the Capstone course in that major and the B.A. or B.S. degree requirement where applicable. In addition, transfer students with an MTA must also fulfill the following general education requirements: the two-course Cultures requirement and two Issues courses.

## **Dual Majors**

In order to have dual majors recorded on the official record, a student must meet fully the requirements of each major. Students may complete a single course and that course may be applied to both majors. Dual majors may be awarded as long as there is a minimum of 60 credits across both majors. Students need to complete requirements for both majors. When course overlap occurs, students should see their advisor, who can help them obtain the proper approvals if substitution is appropriate.

## **Multiple Minors**

For a multiple minor, each minor must contain 20 credits that are not duplicated in the other.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Minor**

In order to have a minor recorded on the official record, a student must meet fully the requirements of the select minor. A minor must have a minimum of 20 required credits. The required 20 credits in the minor must also be unduplicated in relationship to the major.

## **Second Bachelor's Degree**

Under certain circumstances a student may earn two baccalaureate degrees. Students with a Grand Valley baccalaureate degree or Grand Valley students pursuing two degrees simultaneously at Grand Valley should note the following information:

1. They must meet all specified requirements for both degree programs.
2. They must complete a minimum of 30 semester hours in residence at Grand Valley beyond that required for the first degree.
3. A student who meets the separate requirements for each of the two degree programs but not the additional residence requirement may have both majors recorded on his/her academic record.
4. A student holding a baccalaureate degree from Grand Valley may not modify their undergraduate GPA for degree by pursuing additional coursework.

Students holding a baccalaureate degree from another regionally accredited institution should note the following information:

1. They must meet all specified requirements for a new major degree program.
2. General education requirements are regarded as satisfied by the first degree.
3. They must complete a minimum of 30 semester hours in residence at Grand Valley.
4. Transfer students must complete a minimum of 12 hours in the unit conferring the major (six for the minor).

## **Catalog Limitations and Guarantees**

A student may graduate under the catalog in effect at the time of his or her initial registration as a degree-seeking student at Grand Valley or under any succeeding catalog. However, no student may graduate under the requirements of a catalog that is more than eight years old. A student cannot declare a course, program, or degree once it has been discontinued even if it existed at the time of the student's entry.

## **Graduate Academic Policies and Regulations**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Credit Load

Full-time graduate students register for nine or more credit hours per semester. For financial aid purposes, half-time graduate students register for four and one-half credit hours per semester. Permission from the dean of the appropriate college is required for more than 15 credit hours per semester.

## Independent Study

No independent study or individualized courses will be allowed in areas where courses exist and are taught at least once per year.

Only graduate degree-seeking students who have completed the core requirements or have special permission from the appropriate academic dean's office may take individualized graduate courses or do graduate-level independent projects.

All independent study topics and the amount of credit to be earned must be approved by the faculty member who agrees to supervise the work. A maximum of six hours of credit can be granted for independent study. The conditions, meeting times, workload, and subject matter concerned with the project are mutually agreed to by the initiating student and the assenting faculty member and are consistent with standards of quality education. Request forms can be obtained from the faculty member or the academic program office. Some departments may have further restrictions regarding independent study.

## Degree Requirements

In each of the graduate degree programs offered by Grand Valley, the university seeks to provide its students with intellectual challenge and opportunity for scholarly and professional growth. A graduate degree program is a carefully structured combination of courses and research designed on the whole to serve specific needs of the student.

Specific details of the graduate degree programs and regulations governing graduate work may be found in the department entries in this catalog or on the graduate degree program webpage. The following information briefly summarizes the institutional minimums for the master's, specialist, and doctoral degrees. In those graduate degree programs where the department requires more than the university minimum, the department requirements take precedence.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Credit at the graduate level will only be awarded for grades of C or better. This includes all graduate coursework and core, background, and foundation courses. Grades below C will be calculated in a student's GPA, but the credits will not count toward the graduate degree. Graduate students are expected to maintain a cumulative GPA of 3.0 (B) at all times. Additional information on GPA and grading requirements can be found in the Academic Review for Graduate Students section that follows.

# **Graduate Academic Policies**

## **Combined Degree Programs**

A student shall be considered a graduate student for purposes of rights (e.g. library privileges) and responsibilities (e.g. RCR training) at the time of admittance in a combined degree program.

A student shall be considered a graduate student for all purposes upon fulfillment of one of the following events: the award of a baccalaureate degree, the completion of 12 graduate credit hours or at the request of the graduate program director with the approval of the academic dean.

No more than six graduate credits of coursework taken prior to admission to a combined degree program may be counted toward the combined degree.

## **Graduate Academic Policy for the Award of a Graduate Degree**

1. The university may award a graduate degree only when a student meets all program requirements and their graduate program grade point average (GPA) is equal to or greater than a 3.0 (B) average.
2. Credit at the graduate level will only be awarded for grades of C or better. Grades below C will be calculated in a student's GPA, but the credits will not count toward the degree. Individual programs may have more stringent requirements, please refer to your specific program policies for more information.
3. The student must fulfill all requirements for the degree within a period of eight consecutive years. The date of entry into the first graduate course counted toward the degree is viewed as the starting point of the eight-year period.

4. Master's programs may include some courses that are dual-numbered at the senior undergraduate and graduate level (maximum of nine credits may be counted toward the graduate degree). Such courses must be approved for dual listing and must follow the dual-listed course policy. Graduate students may not repeat for graduate credit dual-listed courses that were taken in their undergraduate program. If such a course is a master's program requirement, the department will make an appropriate substitution.

5. Candidates for advanced degrees must demonstrate not only their mastery of the subject matter but their ability to integrate and synthesize it. They must also demonstrate their ability to generate new knowledge and/or apply existing knowledge to specific practical situations in a culminating experience. This demonstration must take the form of a project, thesis, dissertation, internship, comprehensive examination, or a culminating experience course.

## **Graduate Academic Policy on the Minimum Number of Credits Required for the Award of a Master's Degree**

1. A minimum of 33 graduate-level credits must be earned for a master's degree to be awarded. Graduate-level credits for the master's degree are earned in those courses that are numbered 500 and above that do not meet the definition of a leveling\* course.
2. A cumulative GPA of at least a 3.0 is required of all candidates for the master's degree.
3. At least 24 credits must be earned at Grand Valley.
4. The following types of credit are NOT considered to be graduate-level credit for the purpose of this policy:

- a. Credit earned for completion of a leveling course (defined as follows)
- b. Credit that was earned more than eight years prior to the award of the degree

Exceptions to this provision may be granted for courses over eight-years old based on evidence provided by the student that demonstrates currency in the content of the course, and on the recommendation of the graduate program director for the degree sought, and with the approval of the associate vice provost for The Graduate School.

5. No more than nine credits earned from a dual-listed graduate course may be applied toward the graduate degree.

\*Definition: A leveling course is a course that is intended to provide knowledge skills and competencies expected of students entering a specific graduate degree program and that is routinely waived or not required for students with sufficient undergraduate coursework in the discipline or program area.

## **Graduate Academic Policy on the Minimum Number of Hours Required for the Specialist Degree**

1. A specialist degree program shall require a minimum of sixty (60) graduate credits beyond the baccalaureate degree.
2. Additionally, if a student has earned a master's degree prior to matriculating in the specialist program, the student must earn a minimum of thirty (30) graduate credits beyond the master's degree.
3. Credit earned in a leveling course as defined in the Graduate Academic Policy on the Minimum Number of Credits Required for the Master's Degree may not be counted toward the minimum credit required.
4. A minimum of twenty-four (24) of the required graduate credits must be earned at the university.

## **Graduate Academic Policy on the Minimum Number of Hours Required for an Earned Doctoral Degree**

1. Except as provided as follows, a graduate degree program shall require the following minimum number of graduate credits to award a doctoral degree:
  - a. Ninety (90) graduate credits beyond a baccalaureate degree
  - b. Additionally, if a student has earned a master's degree prior to matriculation in the doctoral program, at least forty-five (45) graduate credits beyond the master's degree
  - c. A minimum of forty-five (45) graduate credits earned at the university
2. A doctoral degree program may require fewer credits than specified previously only if consistent with academic and discipline-based norms.
  - a. Consistency with academic and discipline-based norms may be demonstrated by offering
    - i. authoritative evidence, such as accreditation, professional/academic association standards; and/or
    - ii. documentation of prevailing practices among similar degree titles and programs; or
    - iii. a thorough and convincing rationale for a new innovative doctoral degree program where similar programs do not exist.
  - b. A doctoral degree may NOT be awarded to a student who has earned fewer than

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- i. seventy-five (75) graduate credits beyond a baccalaureate degree; or
- ii. thirty (30) graduate credits beyond the master's degree, if a student has earned a master's degree prior to matriculating in the doctoral program; or
- iii. thirty (30) graduate credits at the university.

3. Credit earned in a leveling course as defined in the Graduate Academic Policy on the Minimum Number of Credits Required for the Master's Degree may not be counted toward the minimums specified in this policy.

## **Graduate Academic Policy on the Transfer of Credit to a Graduate Program**

1. Graduate credit from accredited institutions will be considered for transfer to a degree program where the credit
  - a. is relevant to the student's degree program as determined by the graduate program director of the program to which the credit would be applied; and
  - b. for which a grade of B (3.0) or above was earned; and
  - c. is applicable to any graduate degree at the institution from which the credit was awarded; and
  - d. is not a culminating experience; and
  - e. is not an independent learning, project, or similar experience.

Practicums, internships, clinical experiences, or fieldwork that are required of the program may be transferred upon approval of the graduate program director.

2. The acceptance of credit in transfer is at the discretion of the graduate program director of the degree program to which the credit will be applied.
3. The following is the maximum amount of transfer credit that may be applied to a graduate degree:
  - a. Nine credits for a degree program with a length of 33 credits
  - b. Thirty percent of the degree program for a degree program longer than 33 credits
4. Exceptions to this policy must be recommended by the graduate program director and approved by the associate vice provost for The Graduate School.
5. Definitions

- a. A culminating experience is a project, thesis, dissertation, internship, comprehensive examination, or a culminating experience course.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

b. The equivalent of graduate academic credit from an accredited institution is credit

- i. earned from an institution which the university has a formal agreement to accept the credit in transfer; or
- ii. earned from an institution outside the United States that has been evaluated on a course-by-course basis as equivalent to graduate credit earned from an accredited institution. The evaluation must have been performed by a foreign transcript evaluation service approved by the associate vice provost for The Graduate School; or
- iii. earned from an institution outside the United States, where the institution is recognized by the associate vice provost for The Graduate School as equivalent to a United States accredited institution. Transcripts of foreign institutions issued in languages other than English must be accompanied by a certified translation of the transcript in English.

## **Graduate Academic Policy on the Award of Academic Credit for Study Abroad Experiences**

1. Graduate academic credit may be awarded to a student enrolled in a graduate degree program for a study abroad experience for which the student received the prior approval of the graduate program director.

- a. The graduate program director, in consultation with the Padnos International Center, shall consider whether the study abroad experience
  - i. is consistent with the amount of credit to be awarded and
  - ii. is consistent in level and rigor with typical academic experiences for which graduate credit is awarded by a United States accredited institution.

b. The acceptance of study abroad credit to meet a requirement or as an elective in a graduate degree program is at the discretion of the graduate program director.

**Exception:** This provision (paragraph 1) does not apply to a GVSU-sponsored study abroad experience for which credit is specifically awarded for a university course that is listed as a requirement or elective in the graduate degree program.

2. The graduate program director, in consultation with the Padnos International Center, shall consider whether the student's academic performance in a completed study abroad experience is equivalent to a grade of B or higher at a United States

regionally accredited institution.

3. Graduate academic credit awarded by the university for a study abroad experience for which the student has obtained the prior approval of the graduate program director is deemed to be graduate credit earned in residence at the university regardless of whether another (e.g., host) institution has awarded credit for the same experience.

4. This policy does not apply to a completed study abroad experience for which the student has not obtained the prior approval of the graduate program director. The applicable policy in such cases is the Graduate Academic Policy for the Transfer of Credit to a Graduate Program.

5. Except for courses meeting the exception in 1.b. as listed previously, the graduate program director shall report each award of graduate credit for a study abroad experience to the associate vice provost for The Graduate School for final approval.

## **Converting Microcredentials Into Graduate Degree Credit**

1. A graduate student may convert graduate credit earned at GVSU as part of a microcredential (e.g. badge or certificate) into credits required for a graduate degree with approval of the graduate program director.

2. Students must be graduate degree candidates in good academic standing to have the credits from the microcredential counted toward a graduate degree.

3. Any credits from microcredentials counted toward a graduate degree must abide by the eight-year time limit for degree completion.

4. Students must complete all degree requirements (e.g. culminating experience, internship, clinical practicum) in order to receive a graduate degree.

## **Converting Professional Learning Into Graduate Degree Credit**

1. A student may earn a maximum of 20 percent of the total graduate credits required for the graduate degree for professional learning acquired through non-credit courses; structured, non-credit professional development program; and professional work experiences to fulfill required or elective courses.

2. A student must be a graduate degree candidate to have the approved credits recorded on the GVSU transcript. Credits for professional learning will count toward graduation but will not be used in computing the grade point average.

3. To be accepted as credits for professional learning (\*XXX 697 - Professional Learning), the dates for the non-credit coursework, professional development programs, and professional work experiences must abide by the eight-year time limit for degree completion.

4. Professional learning credits may not be used for a culminating experience.

5. Students are required to demonstrate competency in professional learning via one or both of the following mechanisms:

- a. Challenge Exam:  
A graduate program may offer oral, practical, and/or written challenge exams approved by their department curriculum committees to assess students' mastery and application of graduate level knowledge and skills.
  - b. Individualized Assessment:  
A graduate program may appoint a committee to conduct an individualized assessment. Such an assessment is to be based upon department and college criteria for demonstration of mastery and application of graduate level knowledge and skills. This type of assessment may include portfolio review, performance-based assessment, and demonstration.
6. The decision by the unit head and the graduate program director on the outcome of the graduate program's Challenge Exam or Individualized Assessment is final.
  7. With approval of the associate vice provost for The Graduate School, graduate programs may elect not to accept professional learning credits or have additional restrictions.

\*XXX refers to the standard discipline-based course prefix (e.g., CMB for Cell and Molecular Biology)

## **Policy for the Award of Two or More Graduate Degrees at the Same Level**

The university may award more than one graduate degree at the same level where

1. all stated requirements are met for each degree;
2. a minimum of two-thirds of the total graduate credits must be unique to each degree sought;
3. culminating experiences including courses, internships, clinicals, practica, projects, theses, or dissertations may not apply to both degrees; and
4. the award of two or more graduate degrees must be supported by the graduate program directors of the respective programs and approved by the associate vice provost for The Graduate School.

This policy does not apply to dual-degree programs within the university or offered in conjunction with another graduate institution under formal agreement with Grand Valley which have been specifically approved through the university curriculum approval process.

## **Responsible Conduct of Research for Graduate Students Policy**

Each graduate student must complete Responsible Conduct of Research (RCR) training prior to completion of 50 percent of the graduate degree program or prior to

engaging in any research activity (e.g. voluntary, independent, or supervised research, projects, theses, or dissertations).

Individual graduate programs must identify what type of minimal RCR training is required and when it will be required, with approval by the dean of The Graduate School. The following options are available:

- Online training from a Grand Valley State University approved provider
- An approved research methodology course
- An approved workshop or series of workshops
- An approved RCR course
- Additional RCR training may be required by individual graduate programs

## **Masters' Theses and Doctoral Dissertations Policy**

1. Masters' theses must be overseen and approved by a committee consisting of at least three members. Doctoral dissertations must be overseen and approved by a committee consisting of at least four members.
2. For the master's thesis, at least one committee member must be from outside the candidate's specific research topic of study. For the doctoral dissertation, at least one committee member must be from outside the candidate's program of study.
3. All committee members must hold graduate faculty member status (full, associate, or adjunct). The chair of the committee must hold full graduate faculty member status.
4. The associate vice provost for The Graduate School must approve individuals external to Grand Valley as members for thesis or dissertation committees. Qualified individuals will be given nontenure track graduate faculty status for three years from the time of approval to serve on thesis or dissertation committees.
5. Committee membership must be reviewed and approved by the graduate program director and unit head of the graduate program in which the student is enrolled.
6. The Graduate School will review the committee membership for adherence to policy.
7. Upon registering for the initial credit of 695 or 795, the student must complete a graduate school-sponsored thesis or dissertation workshop during the concurrent semester.
8. There must be an announced, public proposal of the thesis or dissertation.
9. There must be an announced, public defense of the completed thesis or dissertation.
10. All graduate students who are working on their thesis or dissertation and have completed all other credit requirements for their degree program must remain in continuous enrollment by enrolling in at least one thesis or dissertation credit for each subsequent semester until the completion of the thesis or dissertation.
11. The completed thesis or dissertation must adhere to the Grand Valley State University guidelines for the preparation of theses and dissertations as regularly

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

reviewed and approved by the Graduate Council.

12. After obtaining final approval from the committee and the appropriate academic dean, the completed thesis or dissertation is reviewed by The Graduate School for adherence to the Grand Valley State University guidelines for the preparation of theses and dissertations. Approval of The Graduate School is required before the thesis or dissertation is accepted by Grand Valley State University.

13. An electronic version of the completed approved thesis or dissertation must be submitted for inclusion in the Grand Valley institutional repository managed by the university library.

14. Exceptions to this policy require the approval of the associate vice provost for The Graduate School.

## **Continuous Enrollment Requirement for the Project, Thesis, or Dissertation Phase of Degree Programs**

### **Master's Programs**

To complete requirements for the degree, students in master's programs may select either a project or a thesis.<sup>1</sup>

1. Master's project: Students begin the master's project phase of their program by enrolling in xxx-693 (project). Thereafter, they must continue to enroll in either xxx<sup>2</sup>-693 or xxx-696 (continuous enrollment) for at least one credit every semester until they have completed all requirements for the project.

2. Master's thesis: Students begin the master's thesis phase of their program by enrolling in xxx-695 (thesis). Thereafter, they must continue to enroll in either xxx-695 or xxx-696 (continuous enrollment) for at least one credit every semester until they have completed all requirements for the thesis.

### **Doctoral Programs**

To complete requirements for the degree, students in a doctoral program may select either a project or a dissertation.<sup>1</sup>

1. Doctoral project: Students begin the doctoral project phase of their program by enrolling in xxx-793 (project). Thereafter, they must continue to enroll in either xxx<sup>2</sup>-793 or xxx-796 (continuous enrollment) for at least one credit every semester until they have completed all requirements for the project.

2. Doctoral dissertation: Students begin the doctoral dissertation phase of their program by enrolling in xxx-795 (dissertation). Thereafter, they must continue to enroll in either xxx-795 or xxx-796 (continuous enrollment) for at least one credit every semester until they have completed all requirements for the dissertation.

<sup>1</sup>Where it is an available option, students may formally select a nonproject, nonthesis, or nondissertation option for completing their degree program.

<sup>2</sup>xxx refers to the standard discipline-based course prefix (e.g., CMB for cell and molecular biology).

## **Graduate Academic Policy on Course Withdrawals**

A graduate student may seek a timely withdrawal or late withdrawal from a course and receive a grade of W if the request is approved. For a full semester course, this policy differentiates between requests for a withdrawal made before the end of the ninth week of classes or after the ninth week. The university registrar shall determine the equivalent of the end of the ninth week of classes for a partial-semester (e.g., five week, six week) course. A withdrawal from one or more courses does not remove the student from the graduate program. To completely withdraw from a graduate degree program, a student must execute a program withdrawal request.

### **1. Course withdrawal in the first nine weeks of the semester**

A graduate student may withdraw from a course and receive a grade of W up to the end of the ninth week of class.

### **2. Course withdrawal after the first nine weeks of the semester (late withdrawal)**

After the ninth week of the semester, a degree-seeking graduate student may only withdraw from one or more courses and receive a grade of W with the approval of the course instructor, the director of the graduate program in which they are enrolled, and the associate vice provost for The Graduate School. After the ninth week of the semester, a nondegree-seeking graduate student may only withdraw from one or more courses and receive a grade of W with the approval of the course instructor and the associate vice provost for The Graduate School.

### **3. Program withdrawal**

A graduate student may elect to withdraw from a graduate program. Each program shall have a process for reviewing a program withdrawal request that has been approved by and filed with the associate vice provost for The Graduate School. A graduate student who has been granted a program withdrawal shall normally receive a W for the current semester courses, be classified by the university as a nondegree-seeking student, and must reapply for admission to the graduate degree program, if they desire to return. If the student wishes to apply to a different graduate program, they must meet all admission requirements for the new program.

## **Graduate Academic Policy on Leave of Absence**

1. A graduate student may request a leave of absence for a maximum of two years from a graduate degree program for good cause. Examples of cause include, but are

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

not limited to, medical issues, caring for family members, nonoptional military commitments, maternity, and work requirements.

2. The graduate student shall explain in writing to the graduate program director the reason for seeking a leave of absence and must specify the period for which the leave of absence is sought. The graduate student may provide materials supporting their request (e.g., military orders) if it is deemed necessary.

3. The graduate program director shall review the graduate student's written explanation and supporting materials, relevant circumstances and documentation, academic performance, and history in the program. After considering the results of this review, the graduate program director shall recommend to the associate vice provost for The Graduate School whether a leave of absence should be granted and the terms and conditions for return to the program.

4. The associate vice provost for The Graduate School shall render a decision after reviewing the graduate student's written request and the recommendation of the graduate program director. The decision by the associate vice provost for The Graduate School shall be final.

5. If the student is granted an immediate leave of absence, it shall have the effect of a course withdrawal for all courses in which the student is enrolled. Requesting a tuition reimbursement must be completed following university policy.

6. The student shall follow the graduate program and catalog requirements in effect at the time of re-enrollment.

7. At the discretion of the associate vice provost for The Graduate School, a leave of absence may be extended beyond the original time granted at the written request of the student. A student who does not enroll in classes or requests an extension at the end of the leave of absence may be required to reapply for admission at the discretion of their desired graduate program.

8. A leave of absence does not extend the eight-year time limit for the applicability of a graduate course toward a degree. Requesting an extension of the time limit must be completed following university policy.

9. A student in the dissertation or thesis phase of their graduate program is not required to maintain continuous enrollment in any semester for which a leave of absence has been granted.

10. Students who wish to take a semester away from their program and are not part of a cohort or structured program may not need to complete a Leave of Absence request and should contact the graduate program director prior to completing the request.

## **Graduate Academic Policy on the Incomplete Grade**

This is a temporary grade given for work that is lacking in quantity to meet course objectives. It may be assigned when illness, necessary absence, or other reasons generally beyond the control of the graduate student prevent completion of the course

requirements by the end of the semester. This incomplete (I) grade may not be given as a substitute for a failing grade or withdrawal. A graduate student is expected to complete course requirements according to the following schedule: fall semester incompletes, no later than the end of the subsequent winter semester; winter and spring/summer incompletes, no later than the end of the subsequent fall semester. Earlier deadlines can be set by the instructor or the graduate program director and must be communicated to the student in writing.

Instructors are required to file a change of grade form or request an extension of the I grade at the end of each semester. A student cannot graduate with an I grade on his/her record.

## **Academic Review for Graduate Students**

1. All graduate students are expected to maintain a minimum of a 3.0 graduate program grade point average at all times.

2. The academic review process will be conducted by the appropriate graduate program director for degree-seeking graduate students or by The Graduate School for nondegree graduate students. Academic review is applicable to a graduate student under any of the following conditions:

a. Earns any of the following grades in the previous semester:

- i. A grade of **D** or **F**.
- ii. The second or subsequent grade of **C** or lower in graduate courses in the student's program.
- iii. The second or subsequent grade of **NC** in graduate courses in the student's program.

b. Performance is evaluated as unsatisfactory in a required clinical experience, internship, or practicum.

c. Earns semester or cumulative program grade point average below 3.0.

d. Has not met the conditions of a previously imposed academic probation with the time limits imposed.

e. By the end of the semester has more than two unresolved grades of **I** (incomplete) that were assigned in a previous semester.

3. Academic review may result in an academic warning, academic probation, or dismissal.

## **Graduate Dismissal**

A graduate student **shall** be dismissed from a graduate program under either of the following conditions:

- a. Earns a second or subsequent grade of **F** in any graduate course, including repeated courses.
- b. Has less than a 3.0 graduate program grade point average **AND** has accumulated nine or more hours for which a grade less than a **B-** was earned.

A graduate student who has been dismissed from a Grand Valley graduate program may not be admitted to a different graduate program and may not enroll in graduate courses without the permission of the associate vice provost for The Graduate School.

## **Appeals of Action Taken Under this Policy**

1. A degree-seeking or certificate-seeking graduate student may appeal an action taken under this policy using the graduate program's published process for appeals of academic decisions. If the program does not have a published appeals process, the appeal shall be to the dean of the college in which the graduate program is housed. The student may appeal the decision of the dean of the college and to the provost or the provost's designee. The result of each appeal shall be reported to the associate vice provost for The Graduate School.

2. A nondegree graduate student may petition the associate vice provost for The Graduate School for reconsideration of a decision. If such reconsideration is unsuccessful, the student may appeal the decision to the provost or provost's designee.

## **Effect of Grade Change**

If a review of the student's record or dismissal from graduate study is based on a grade that is subsequently changed, the student may appeal any adverse action taken.

## **Timing of Decisions**

All parties to the decision to take action under this policy shall act expeditiously to arrive at and communicate a decision to the student as soon as practicable. However, in order to afford due process and full consideration of the graduate student's record and circumstances, a decision to dismiss a student under this policy may occur in the semester after the student's performance or actions warranted dismissal. If the graduate student is enrolled in graduate courses at the time of the dismissal, the decision shall have the effect of a withdrawal from Grand Valley State University.

## **Graduate Academic Policy on Academic Renewal**

A graduate student may request a "fresh start" when changing to a new graduate program leading to a graduate degree at Grand Valley State University. A fresh start is defined as beginning a new graduate program and having the prior graduate record exempt from the new graduate program grade point average (GPA) and academic review process. All graduate courses previously taken at Grand Valley State University, however, will remain on the student's academic record.

To be considered for a fresh start, the student must submit a petition to the associate vice provost for The Graduate School seeking readmission and must meet the following criteria:

1. The student has been recommended for admission into the new graduate program by the appropriate graduate program director.
2. A period of no less than one semester has passed since the student withdrew or was dismissed from a Grand Valley State University graduate program.
3. The student's previous graduate GPA is below the minimum required to earn a graduate degree (3.0 on a 4.0 scale).

The student will be subject to the following rules:

1. No courses completed in a previous Grand Valley State University graduate program will transfer or be applied to the requirements of the new program.
2. Only one fresh start will be granted to any one graduate student at Grand Valley State University.
3. Final approval for a fresh start resides with the associate vice provost for The Graduate School.

## Requests for Exception to Graduate Policies

**Requests for Exception to Graduate Policy:** The associate vice provost for The Graduate School is responsible for the review and final approval or denial of Petitions for Exception to graduate education policies. The student's academic advisor, graduate program director, or dean of the college where the program resides, must support all exceptions in order for the associate vice provost for The Graduate School to approve them. Information on Requests for Exceptions can be found on The Graduate School website.

Please refer to the Graduate Education Policies and Procedures Manual ([gvsu.edu/gs/manual](http://gvsu.edu/gs/manual)) or Graduate Academic Policies and Regulations section of the Grand Valley State University Undergraduate and Graduate Catalog for further information on academic review, probation, and dismissal.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**Petition for Exception to 12-credit-hour Limit:** Grand Valley policy allows graduate students to take a maximum of 12 graduate credit hours without being admitted to a specific graduate program. Once the student gains admission to a graduate program, any credit hours beyond the limit must be granted an exception to the policy in order to be counted toward the degree. The student seeking this exception should contact his or her academic advisor to initiate the Petition for Exception.

**Petition for Exception to Eight-year Time Limit to Degree Completion:** All courses to be counted for a graduate degree at Grand Valley must be completed within eight years. This time limit is a way of ensuring the student's validity and currency of knowledge at the time of graduation. The student will be required to either repeat the course or take an approved substitute, if unable to demonstrate currency of knowledge. The start date for the eight-year time limit begins with the first course taken toward the degree planned program.

**Petition for Exception to Graduate Student Policies:** Students seeking to appeal other graduate academic policies must complete the appropriate Petition for Exception form as provided on The Graduate School webpage. The student's academic advisor, graduate program director, or dean of the college where the program resides must support all exceptions before approval by the associate vice provost for The Graduate School.

**Credit Overload:** Full-time graduate students register for nine to 15 credit hours per semester. Permission from the dean of the appropriate academic college is required for more than 15 hours per semester.

**Petition to Return:** Following a voluntary absence of two or more consecutive semesters, a graduate student must complete a Petition to Return form. Graduate students are reminded that following a voluntary absence of 24 consecutive months they must follow the Grand Valley State University Undergraduate and Graduate Catalog requirements in effect at the time of their return to Grand Valley. Such students should meet with their program advisor to revise their study plan.

Graduate students who wish to return to Grand Valley following an academic dismissal must submit a written appeal to the dean of the appropriate academic college. Graduate students who wish to change to a different program within Grand Valley must complete the application process for that program. No additional application fee is required, and the applicant need not supply duplicate copies of official transcripts already on file.

# Catalog Limitations and Guarantees

Graduate students follow the requirements in the Grand Valley catalog at the time they were originally admitted into a program as degree-seeking students. Students who have not enrolled in Grand Valley for 24 consecutive months must follow the requirements in the Grand Valley catalog in effect at the time of their re-entry. All students have the option of using the program requirements in effect at the time of graduation. Any exceptions must be approved in writing by the faculty advisor and program director and filed in the appropriate program office.

## Undergraduate Information

## Undergraduate Policies and Regulations

Refer to the General and Undergraduate sections of the Academic Policies and Regulations section of this catalog for Undergraduate Policies and Regulations.

## Academic Advising and Student Instructional Support Information

### Academic Advising Mission

Academic advising engages students in the process of exploring and defining their academic and career goals and in creating effective strategies to achieve these goals.

" Through collaborative relationships with academic advisors, students are encouraged and supported as they develop the skills necessary to take responsibility for their own development and success.

" Academic advisors educate students by providing accessible, accurate, and timely information regarding academic requirements, university resources, and opportunities to develop critical thinking skills and enrich the college experience and their personal lives.

### Definition of Academic Advising

Academic advising is an integral part of a college education, establishing a collaborative relationship between students and their advisors to map out a meaningful and successful educational experience and help guide the students' paths

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

to graduation and a career. Academic advising centers and offices are listed as follows.

## **Academic Advising Centers/Offices**

### **Exploratory Study (Undecided) Advising**

C-1-140 MAK, (616) 331-8585, majors@gvsu.edu, gvsu.edu/exploratory

Exploratory advisors are available to help students who have not yet declared a major or are transitioning from one major to another. Advisors assist students with the process of choosing a major, monitor students' academic progress, and discuss other academically related concerns with students. Once students declare their major, they are referred to their major department for advising.

Contact information for academic advising centers and offices for each college are listed as follows and on the website at gvsu.edu/advising. Students interested in programs in a particular college can contact the advising center or office to learn more about specific programs or courses.

### **Brooks College of Interdisciplinary Studies - Brooks College Advising Center**

260 LMH, (616) 331-8200, brooksadvising@gvsu.edu, gvsu.edu/integrativelearning

### **College of Community and Public Service - Undergraduate Advising Center**

321C DEV, (616) 331-6890, ccpsadvisor@gvsu.edu, gvsu.edu/ccpsadvising

### **College of Education - Student Information and Services Center**

401C DEV, (616) 331-6650, gvsu.edu/coe/sisc

### **College of Health Professions - Student Services Office**

113 CHS, (616) 331-5900, chpss@gvsu.edu, gvsu.edu/chpss

### **College of Liberal Arts and Sciences - Academic Advising Center**

C-1-140 MAK and C-1-120 MAK, (616) 331-8585, advstu@gvsu.edu, gvsu.edu/clasadvising

### **Kirkhof College of Nursing - Office of Student Services**

326 CHS, (616) 331-7160 or (800) 480-0406, kcon@gvsu.edu

B-3-259 MAK, (616) 331-7160, gvsu.edu/kcon/oss

### **Seidman College of Business - Seidman Undergraduate Programs**

1041 SCB, (616) 331-7500, go2gvbiz@gvsu.edu

B-3-226 MAK, (616) 331-7500, gvsu.edu/seidman/undergraduateprograms

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Seymour and Esther Padnos College of Engineering and Computing**

### **Declared Major Advising** (prior to secondary admission)

#### **Advising Center**

101 EC and B-3-241 MAK, (616) 331-6025, pcecadvising@gvsu.edu,  
gvsu.edu/pcec/advising

### **Admitted Major Advising** (after secondary admission)

Students should contact their respective school.

#### **Faculty Advising**

##### **School of Engineering**

136 KEN, (616) 331-6750, engineer@gvsu.edu

##### **School of Computing and Information Systems**

C-2-100 MAK, (616) 331-2060, info@cis.gvsu.edu

##### **Department of Occupational Safety and Health**

618 EC, (616) 331-6300, oshdept@gvsu.edu

## **Academic Success Resources**

### **Support Services and Programs**

#### **Academic Coaching**

200 Lubbers Student Services Center, (616) 331-3588, gvsu.edu/sasc

Individual academic coaching is available from both professional and peer coaches. Academic coaching sessions focus on topics, including general college learning strategies, test preparation and post-test reflection, organization and time management, note taking, motivation, and goal setting. Academic coaches can assist students in identifying their academic challenges and develop a plan for improvement using campus resources for support. Group presentations about academic success topics are also available to help students improve their academic performance and confidence.

#### **Disability Support Resources**

215 The Blue Connection, (616) 331-2490, dsrgvsu@gvsu.edu, gvsu.edu/dsr

Disability Support Resources (DSR) provides support services and accommodations that enhance the environment for persons with disabilities and helps educate the university community on disability issues. The office also provides access to

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

programs and facilities for faculty members, staff members, and students. Grand Valley promotes the full inclusion of individuals with varying abilities as part of our commitment to creating a diverse, inclusive community. It is the policy of Grand Valley to comply with the Americans with Disabilities Act as amended by the ADA Amendment Act (2008), Section 504 of the Rehabilitation Act of 1973, and other applicable federal and state laws that prohibit discrimination on the basis of disability. Grand Valley will provide reasonable accommodations to qualified individuals with a documented disability upon request.

### **Fred Meijer Center for Writing and Michigan Authors**

For locations, please visit [gvsu.edu/wc](http://gvsu.edu/wc).

The Writing Center offers one-to-one peer feedback on writing in Allendale, downtown, and online. This free service is for all Grand Valley graduate and undergraduate students. The center is an integral part of WRT 150, and it provides weekly small group activities, embedded consultants in computerized classrooms, and peer review workshops as requested by faculty members. Students can work with a consultant on any kind of writing, including creative, professional, and academic work, and receive detailed feedback and revision suggestions at any stage of the writing process. Every hour of operation offers appointments and drop-in consultations.

### **GVSU McNair Scholars Program**

230 Mary Idema Pew Library, (616) 331-8100, [gvsu.edu/ours/mcnair](http://gvsu.edu/ours/mcnair)

The Ronald E. McNair Postbaccalaureate Achievement program's goal is to increase the number of minoritized students in Ph.D. programs and careers across the country. That is first-generation students with significant financial need (Pell Grant-eligible), or members of racial and ethnic groups that are traditionally underrepresented in careers that require a Ph.D. The program accepts students from all disciplines. Scholars participate in a 15-month program that includes academic and career counseling, tutoring, GRE preparation, graduate school application preparation, and academic writing preparation, as well as a stipend and subsidized housing during an intensive summer research program. Scholars will also have access to funding for conference travel and graduate school visits.

### **Laker Academic Success Center**

152 Fieldhouse, (616) 331-5272, [gvsu.edu/lakeracademiccenter](http://gvsu.edu/lakeracademiccenter)

The Laker Academic Success Center academic advisors provide one-on-one academic advising and support to student athletes. Students maintain a regular schedule of appointments to help with academic success and ensure athletic eligibility.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Office of Undergraduate Research and Scholarship**

230 Mary Idema Pew Library, (616) 331-8100, [gvsu.edu/ours](http://gvsu.edu/ours)

The Office of Undergraduate Research and Scholarship (OURS) offers a variety of opportunities and resources for undergraduates to pursue creative practice, scholarship, and research in various disciplines under the direction of a faculty mentor. These intensive opportunities enrich students' academic experiences and challenge them to strengthen their critical thinking, problem-solving, analytical, and writing skills. OURS provides support to undergraduate students and faculty through programs such as the Academic Conference Fund, the GVSU McNair Scholars program, the Student Summer Scholars program, and Student Scholars Day, to name a few. More information about OURS programs can be found on our websites: [gvsu.edu/ours/mcnair](http://gvsu.edu/ours/mcnair), [gvsu.edu/ours/ssp](http://gvsu.edu/ours/ssp), and [gvsu.edu/ours/ssd](http://gvsu.edu/ours/ssd).

## **Oliver Wilson Scholars Program**

4000 James H. Zumberge Hall (JHZ), (616) 331-5200, [ows@gvsu.edu](mailto:ows@gvsu.edu)

The Oliver Wilson Scholars Program, formerly known as the Freshman Academy, is a comprehensive academic support program for students who have demonstrated a strong potential to be successful at Grand Valley. The program provides multidimensional student support that can be broken down into two components: academic support and personal development.

## **Student Academic Success Center (SASC)**

200 Lubbers Student Services Center, (616) 331-3588, [gvsu.edu/sasc](http://gvsu.edu/sasc)

The Student Academic Success Center is committed to helping students reach their academic and personal goals. We foster student development and academic success by providing support resources for students to assist them in achieving their educational goals. Programs include: academic coaching, academic skills workshops, Academic Success Camp, Laker Strategies for Success, Oliver Wilson Freshman Academy, TRIO Student Support Services, and TRIO Student Support Services STEM - Health Sciences, McNair Scholars Program, Student Ombuds, and EAB Navigate.

## **EAB Navigate**

200 Lubbers Student Services Center, [navigate@gvsu.edu](mailto:navigate@gvsu.edu), [gvsu.edu/navigate](http://gvsu.edu/navigate)

Grand Valley State University has partnered with the Educational Advisory Board (EAB) to bring you Navigate, a student success software that assists with appointment making and access to services on campus.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **McNair Scholar Program**

200 Lubbers Student Services Center, (616) 331-2668, [gvsu.edu/mcnair](http://gvsu.edu/mcnair)

The GVSU McNair Scholars Program provides support to first-generation students with significant financial need or members of racial and ethnic groups that are traditionally underrepresented in careers that require a Ph.D.

## **Student Ombuds**

[ombuds@gvsu.edu](mailto:ombuds@gvsu.edu), [gvsu.edu/ombuds](http://gvsu.edu/ombuds)

The Student Ombuds strives to promote fairness and foster a positive campus environment by assisting students with conflict resolution and problem-solving related to their university working, learning, or living experiences.

## **TRIO Student Support Services (SSS)**

200 Lubbers Student Services Center, (616) 331-3401, [gvsu.edu/ssss](http://gvsu.edu/ssss)

TRIO Student Support Services provide academic advising, study skills instruction, and career planning to first-generation, financially eligible college students at Grand Valley.

## **TRIO Student Support Services STEM - Health Sciences**

200 Lubbers Student Services Center, (616) 331-5430, [gvsu.edu/triostem](http://gvsu.edu/triostem)

TRIO STEM advisors provide specialized services developed to support first-generation, financially eligible college students in science, technology, engineering, mathematics, and health sciences.

## **Tutoring**

### **Tutoring Center**

Main office: Second floor, Kleiner Commons, (616) 331-3451, [tutoring@gvsu.edu](mailto:tutoring@gvsu.edu), [gvsu.edu/tc](http://gvsu.edu/tc)

The Tutoring Center at Grand Valley provides small group, scheduled peer-to-peer tutoring free of charge. Subject-specific tutoring is provided for many 100- and 200-level courses and a select number of upper-level courses. These weekly sessions encourage student success by providing a collaborative learning environment in which students can ask questions, clarify material, and benefit from course-appropriate learning strategies shared by students who have successfully completed the course. Students are encouraged to request tutors online through the tutoring website early in the semester for best options.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**Drop-in Tutoring:** Drop-in (unscheduled) tutoring is offered campus-wide for additional support. These discipline-specific spaces provide both peer-to-peer and faculty-to-student support for many challenging courses.

Anatomy Tutor Lab

BIO and BMS Drop-in Tutoring

Chemistry Success Center

CIS Student Success Center

Engineering Success Center

Math Center

Physics Help Corner

Seidman College of Business Tutoring

Stats Center

For specific locations and hours, visit [gvsu.edu/tc](http://gvsu.edu/tc).

### **Structured Learning Assistance (SLA) and Peer-assisted Study Sessions (PASS)**

For more information, visit [gvsu.edu/sla-pass](http://gvsu.edu/sla-pass).

SLA and PASS offer an embedded tutoring approach to typically challenging courses. Students who select an SLA section of a course will be provided with additional weekly study and practice workshops led by upper-level students who have been successful in the course. PASS facilitators provide optional content review sessions, exam practice, and/or group tutoring for PASS-identified courses. These student facilitators work closely with faculty members to provide direct assistance with course content and practice.

## **Academic Standards and Other Services**

200 Lubbers Student Services Center, (616) 331-3588

### **Academic Review Committee**

Review appeals of the withdrawal deadline, Petition to Return, and Academic Forgiveness process.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

### **Course Evaluations and Substitutions**

Responsible for course evaluations and substitutions for general education Foundations/Cultures requirements.

### **Credit Overload Appeals**

Review appeals to enroll in more than 20 credits in a semester.

### **Academic Forgiveness**

Review appeals for Academic Forgiveness from undergraduate students who wish to change or have already changed to a different major.

### **Emergency Notification**

It is the responsibility of students to notify their professors of attendance issues. The SASC will email students' professors in cases of extended illness, death, or family emergencies, etc. This process does not excuse students from classes, but serves as an official notification to professors. Students are responsible for making arrangements with professors about missed work.

### **Residency Waiver Requests**

Review appeals to take a course or courses at another institution during the final 30 semester hours of a student's degree program.

## **Undergraduate Academic Programs**

Grand Valley State University has more than 300 areas of study, 96 undergraduate degrees, and 46 graduate degrees.

## **Graduate Information**

### **Graduate Academic Policies and Regulations**

Refer to the general and graduate sections of the Academic Policies and Regulations for graduate policies and regulations.

### **Advising**

At the graduate level, students are advised by faculty members and professional advisors within their program of study. Students should contact the graduate program director or the academic departmental office to identify the name of their advisor and arrange for an initial advising session.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Academic advising for graduate students is highly individualized for each student as they work with an advisor to select an emphasis within a degree program, develop an educational plan, register for and complete courses, and where required, develop a research proposal, conduct the research, and write a research report. Those students selecting to complete a research project, thesis, or dissertation work very closely with the faculty advisor and other appropriate faculty members.

Please note that some programs require a faculty advisor to agree to work with a student in a research area before the student can be admitted to the degree program. To learn more about academic advising for graduate students, please contact the support services noted as follows.

## **Graduate Student Support Services**

**Fred Meijer Center for Writing and Michigan Authors:** (616) 331-2922, (616) 331-6407, [gvsu.edu/wc](http://gvsu.edu/wc)

With locations on the Allendale Campus, Pew Grand Rapids Campus, and Meijer Campus in Holland, the Fred Meijer Center for Writing and Michigan Authors assists all writers at any stage of their writing processes.

**Student Assistance Center:** (616) 331-3327

Student Assistance Centers are located in the Lubbers Student Services Center on the Allendale Campus and in the DeVos Center Plaza on the Pew Grand Rapids Campus. The centers provide services for registering for classes, tuition payments, Grand Valley ID cards, transcripts and degree progress reports, applications for graduation, processing loan deferments, check cashing, and distributing student payroll checks.

**The Graduate School:** (616) 331-7105, [gvsu.edu/gs](http://gvsu.edu/gs)

Currently enrolled graduate students or persons interested in graduate studies at Grand Valley State University are welcome to visit with the associate vice provost for The Graduate School for assistance, advice, or to provide feedback on any aspect of their graduate education.

## **Academic Programs**

Grand Valley State University has more than 300 areas of study, 96 undergraduate degrees, and 44 graduate degrees.

# Student Life and Services

## Student Life

### Office of Student Life

Student life at Grand Valley State University reaches far beyond the typical college activity list to make life on campus exciting and enjoyable, and to help students get involved outside the classroom. The Office of Student Life, located in the Kirkhof Center, challenges students to engage through a department campaign: "Become More." Students can take advantage of a great variety of clubs and organizations, including cultural organizations, performing arts groups, recreational clubs, interfaith groups, social organizations, fraternities and sororities, professional associations, special interest groups, leadership groups, and community service organizations.

On average, only 30 percent of a student's time on campus is spent in the classroom. To maximize their college experience, students should develop a plan for how to spend the remaining 70 percent of their time. Through the broad range of opportunities provided by the Office of Student Life, students have a chance to make connections and gain valuable competencies, increasing their marketability to employers upon graduation.

A comprehensive electronic calendar of Grand Valley sponsored events is available online for easy reference. The calendar is a great resource for the campus community to stay current on the many events and programs scheduled throughout the year. Check out the campus events calendar at [gvsu.edu/events](http://gvsu.edu/events). Students can follow the Office of Student Life on Twitter @GVSUStudentLife and on Facebook by searching Grand Valley Student Life. More information is available on the website ([gvsu.edu/studentlife](http://gvsu.edu/studentlife)) or by calling (616) 331-2345.

### **Campus Activities Board** **[gvsu.edu/cab](http://gvsu.edu/cab)**

Many traditional Grand Valley events, such as Family Weekend, Homecoming, Winterfest, Sibs and Kids Weekend, Intercultural Festival, and ExtravaGRANDza, along with special events including comedy and magic shows, mini concert series, and weekly movies in the Kirkhof Center, are coordinated by a committee of students, along with their staff advisors. The Campus Activities Board (CAB) produces these high-profile events, providing students with quality entertainment, and CAB team

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

members with event planning and marketing experience and collaboration skills that will transfer to their professional lives.

### **Campus Events Calendar**

A comprehensive electronic calendar of Grand Valley sponsored events is available online for easy reference. The calendar is a great resource for the campus community to stay current on the many events and programs scheduled throughout the year. Check out the campus events calendar at [gvsu.edu/events/](http://gvsu.edu/events/).

For additional information on campus events, contact the Office of Student Life at (616) 331-2345 or call (616) 331-8800 for athletic event information.

### **Campus Life Night**

#### **[gvsu.edu/campuslifefight](http://gvsu.edu/campuslifefight)**

Campus Life Night provides students with the opportunity to find out about their extensive choices for involvement on campus. Student organizations, campus departments, volunteer agencies, and area businesses set up displays and provide information. This popular event is the best way for students to learn about all the ways to get involved on campus. Campus Life Night takes place in parking lot H, across from the Mary Idema Pew Library in late August.

### **Festivals and Events**

Student organizations and special committees work with professional staff in sponsoring and planning campus events such as the Renaissance Festival, Make a Difference Day, Community Outreach Week (COW), and Relay for Life. In addition, many other cultural celebrations are held throughout the year.

- **Asian Festival:** Each February, the Asian Student Union sponsors a variety of events, the most celebrated being the annual celebration honoring the Asian New Year. An authentic and diverse type of Asian food is prepared for festival participants. In addition, the festival coordinators provide traditional New Year's dances and songs presented by professional artists.
- **Black History Month:** Each February, the campus community offers a comprehensive series of programs to celebrate black history.
- **Hispanic Heritage Month:** Each fall, the university community celebrates Hispanic history and culture with a variety of events. Students, faculty members, and staff members educate attendees on the diversity within the culture, offer campus-wide celebrations featuring traditional foods, and present and teach music and dance.
- **Pow Wow:** The annual spring event celebrates Native American culture. The Native American Student Association, with leadership and permission of the Ottawa Tribal Council, shares an entire day of ceremony and trade with the campus and the general public.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# Russel H. Kirkhof Center

Named in honor of Russel H. Kirkhof, this student center provides opportunities to gather in both formal and informal settings. Kirkhof Center supports the educational, cultural, social, and recreational needs of Grand Valley State University. Located within the center are the Office of Student Life, Event Services, 2020 Information Desk, Office of Multicultural Affairs, Milton E. Ford LGBT Resource Center, Gayle R. Davis Center for Women and Gender Equity, Laker Military Resource Center, and Dining Services. There are three ATM machines located near the lobby for convenience.

## **2020 Information Desk**

**[gvsu.edu/2020](http://gvsu.edu/2020)**

Located in the main lobby of Kirkhof Center, the 2020 Information Desk provides up-to-date information regarding campus events. Student staff members operate the desk and are there to answer questions and assist students. Contact the 2020 Information Desk staff at (616) 331-2020.

## **Area 51**

Also located within Kirkhof Center, **Area 51** provides a venue for students to coordinate musical events and showcase student performers. There is also a big screen and projector to watch television or movies and to participate in video game tournaments.

## **Community Service Learning Center**

**[gvsu.edu/service](http://gvsu.edu/service)**

The Community Service Learning Center (CSLC), located in 1108 Kirkhof Center, prepares students to become active, global citizens and challenges them to be committed to a life of community engagement and democratic participation. This is accomplished through campus-wide volunteer/service activities, community issues education, community agency partnerships, and various civic learning initiatives. Students are encouraged to become a part of the activities of the CSLC to enhance their understanding of civic responsibility now and in the future. Every student can become an active citizen and can connect with the CSLC by coming into the center or visiting the website.

## **Promotions Office**

**[gvsu.edu/promotions](http://gvsu.edu/promotions)**

The Promotions Office provides graphic design and advertising services to assist student organizations in promoting their events. The Video Team produces a variety

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

of videos promoting campus events and educating students. Services are also available for creating and producing videos. Contact (616) 331-2340 for more information.

## Leadership Programs

### First-year Leadership Experience

The first-year leadership experience program is designed to assist newer leaders as they create and enhance their personal philosophy of leadership while developing basic leadership skills and learning about leadership opportunities the Grand Valley community has to offer. All students, especially first-year and transfer students, are encouraged to be a part of this program, particularly those who are interested in future leadership roles.

### Laker Leadership [gvsu.edu/leadership](http://gvsu.edu/leadership)

Laker leadership programs provide opportunities for leadership development that encourage growth as lifelong leaders of integrity and social change in students' lives, professions, and societies.

### Leadership Summit

Leadership Summit is a one-day conference that provides student leaders throughout the state the opportunity to come together to discuss leadership topics with national and regional leaders, while networking and sharing ideas. With topic areas such as fraternities and sororities, student government, cultural programming, campus-wide programming, service learning, and many others, Leadership Summit is one of the largest multifocused gatherings in the State of Michigan. Leadership Summit provides excellent networking and developmental opportunities for student leaders at any level.

## Student Organizations

The Office of Student Life is proud to host more than 300 student organizations to help you "Become More." Student organizations may be identified in any of the following ways.

- **Academic and professional** organizations focus on academic disciplines or are related to a specific professional field.
- **Cultural** organizations educate the campus community about world cultures to enhance students' perspectives. They also provide students with an avenue to explore and celebrate their own cultural heritage and provide programs and services designed to support students of various cultural heritages at the university.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- **Fraternities and sororities** provide lifelong opportunities for leadership, service, academic achievement, and social involvement through association with a national organization. Learn more about fraternity and sorority life at [gvsu.edu/greeklife](http://gvsu.edu/greeklife).
- **Graduate student** organizations are associated with a graduate program.
- **Honor societies** serve to recognize students for high achievement on campus.
- **Interfaith organizations** serve to enhance students' spiritual lives while providing fellowship and outreach opportunities.
- **Media organizations** provide an opportunity for students to gain hands-on experience with media, including newspaper, television production, and radio. The student campus media entities listed as follows are all located on the lower level of the Kirkhof Center.
  - **GVTV:** Grand Valley State University's own student-run broadcasting channel offers hands-on experience in technical areas of producing as well as writing, reporting, promoting, directing, and acting. The channel is noncommercial and broadcasts on cable access channel 46.1 or on the Web at [grandvalleytv.org](http://grandvalleytv.org). Contact GVTV at (616) 331-4888 for more information.
  - **The Lanthorn:** The *Lanthorn* is an award-winning, twice-weekly student newspaper that gives students an opportunity to gain experience in the production of a newspaper. The *Lanthorn* team includes editorial, advertising, business, graphic art, staff writing, and staff photography positions. Read the *Lanthorn* online at [lanthorn.com](http://lanthorn.com) or call (616) 331-2460 for more information.
  - **WCKS The Whale:** The student-run campus radio station provides opportunities for all aspects of radio production. Listen on the Web at [whaleradio.org](http://whaleradio.org). Call (616) 331-2356 for more information.
- **Performing arts** organizations provide opportunities for involvement and exposure to the performing arts.
- **Service and advocacy** organizations are focused on positive student engagement and social change through community service and educational programming. These organizations hope to raise awareness on social issues.
- **Special interest** organizations serve to enhance student life through the cocurricular involvement of special interests and hobbies.
- **Sports** organizations provide opportunities for competition, personal fitness, recreational activities, and/or school spirit support. These organizations are broken down into competitive and noncompetitive groups.
- **Student government** organizations serve as governing bodies in various aspects of campus life.

## Student Senate

[gvsu.edu/studentsenate](http://gvsu.edu/studentsenate)

The Student Senate is an elected body of 50 students. The senate conveys student opinion to the Grand Valley administration and the Board of Trustees in matters of institutional policy. The senate also provides a forum for discussion, investigation, and resolution of student ideas and concerns.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The senate is responsible for the allocation of the Student Life Fund and for the appointment of student representatives to all university standing committees and advisory boards. Call (616) 331-2333 for more information.

## **Student Services**

### **Athletics, Intercollegiate**

Grand Valley is a member of the Great Lakes Intercollegiate Athletic Conference (GLIAC). Membership in the GLIAC includes Ashland, Davenport, Ferris, Grand Valley, Lake Superior, Michigan Tech, Northern Michigan, Northwood, Purdue Northwest, Saginaw Valley, Wayne State, and Wisconsin-Parkside. Grand Valley is also a member of the National Collegiate Athletic Association (NCAA Division II).

Since the creation of the GLIAC in 1972, Grand Valley has won the President's Cup, the conference all-sports trophy, 26 times. In the past 18 years, Grand Valley has placed as a top two finisher, including 13 titles, in the Directors' Cup, the NCAA Division II all-sports trophy and symbol of athletic excellence. Grand Valley's men's teams have won conference championships in football 17 times; basketball, nine; baseball, 20; wrestling, six; tennis, one; golf, eight; indoor track, 18; swimming and diving, eight; outdoor track, 13; and cross-country, 17.

In women's sports, Grand Valley has won championships in basketball eight times; cross-country, 19; soccer, 14; softball, 16; tennis, four; volleyball, 10; swimming and diving, three; indoor track, 20; outdoor track, 20; women's lacrosse, four; and golf, 15.

Grand Valley's teams have earned 23 national championships as follows: men's football, four; men's cross-country, one; women's basketball, one; women's cross-country, six; women's indoor track, two; women's outdoor track, two; women's soccer, six; and women's volleyball, one.

Scholarships are offered in all men's and women's sports.

Grand Valley competes in 20 sports, including men's baseball, basketball, cross-country, football, golf, swimming and diving, tennis, and indoor and outdoor track, as well as women's basketball, cross-country, golf, lacrosse, soccer, softball, swimming and diving, tennis, indoor and outdoor track, and volleyball.

## **Barbara and Stuart Padnos International Center**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Grand Valley's mission, values, and vision statement includes references to educating students in the global community beyond Michigan or the U.S. Grand Valley recognizes that a foundation to a strong university education includes an understanding of other cultures as well as a global vision. The mission of the Padnos International Center is to engage the university community in meaningful international experiences, which foster an appreciation and awareness of diverse cultures, people, and ideas.

New populations, environmental challenges, and global interdependence add to the agenda for global competency skills. Individuals, businesses, agencies, and organizations need employees who are culturally and linguistically capable. Second-language fluency and the ability to work with various cultures are critical to the future of West Michigan.

The Padnos International Center is the centralized unit that leads and supports international education efforts across the entire university. The center welcomes, orients, and supports international students at Grand Valley, whether they are pursuing degrees or are studying for a short-term exchange. Education abroad activities, including study abroad, internships abroad, and other academic, credit-earning experiences outside the U.S. are coordinated or supported by the unit, with the input and advice of the faculty governance advisory body, the International Education Committee (IEC).

The Padnos International Center supports internationalization through coordination of international institutional partnerships and exchanges, grants for faculty and staff activities in cooperation with counterparts at partner institutions, by supporting faculty Fulbright Core Scholar awards, and by hosting the Peace Corps campus recruiting office for the West Michigan area.

### **International Partnership Agreements**

Partnerships with overseas institutions create meaningful opportunities for students, faculty members, and staff members and allow for educational and living experiences in other nations. Partnerships also increase the presence of international students and faculty at Grand Valley. Currently, Grand Valley has institution-to-institution agreements with the following institutions, which offer a variety of study abroad opportunities for students:

Austria: FH Joanneum University of Applied Sciences, Graz

Australia: University of the Sunshine Coast, Queensland; Macquarie University, Sydney

China: East China Normal University, Shanghai

Chile: Universidad del Bío Bío, Chillan and Concepcion

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

England: Kingston University, Kingston-on-Thames; University of Brighton, Brighton  
France: Groupe ESC Grenoble, Grenoble; L'Ecole Supérieure Des Sciences Commerciales of Angers l'Université, Angers; Catholique de L'Ouest, Angers  
Germany: Duale Hochschule Baden Württemberg, Mosbach; Pädagogische Hochschule Schwabisch Gmünd Fakultät I, Schwabisch Gmünd  
Ghana: University of Cape Coast  
Italy: Università degli Studi di Perugia, Perugia  
Japan: International Christian University, Mitaka; Ritsumeikan Asia Pacific University, Beppu  
Mexico: Universidad de las Américas-Puebla  
Poland: Cracow University of Economics, Cracow  
Romania: Babes-Bolyai University  
Spain: Universidad Carlos III de Madrid, Madrid  
South Korea: Seoul National University of Science and Technology, Seoul  
Switzerland: Zurich University of Applied Sciences, Winterthur  
Taiwan: National Taiwan Normal University, Taipei  
Turkey: Middle East Technical University, Ankara

### **Consortia Programs**

Japan Center for Michigan Universities (JCMU), Hikone, Japan  
Consortium for Overseas Student Teaching (COST), various locations

### **Affiliate Programs**

University of Deusto (CIDE), Bilbao, Spain  
University Studies Abroad Consortium (USAC), various locations

### **International Student Services Program**

Grand Valley recognizes the importance of international students to the campus community. Accordingly, the program serves as the organizer, promoter, and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

facilitator of various cross-cultural exchange activities. Also, the program provides support services that include extensive orientation, cross-cultural adjustment seminars, housing assistance, and oversees immigration regulations and work authorization.

### **Study Abroad**

The Padnos International Center (PIC) supports the academic programs in all departments, divisions, and schools by offering and coordinating study abroad opportunities in countries around the world. Semester and year-long academic programs are available to all degree-seeking students in all academic majors and minors.

Grand Valley offers various scholarship and grant opportunities, including the Barbara H. Padnos Study Abroad Scholarship (year-long study with preference given to majors in the arts and humanities), The Mark A. and Elizabeth E. Murray Study Abroad Scholarship (related to financial need), the PIC Study Abroad Grant (open to both graduate and undergraduate students), and the faculty-led grant (for students participating in a faculty-led program). The Padnos International Center also maintains a roster of other scholarships and grants for study abroad.

The Padnos International Center maintains a fully staffed resource room, where students can explore participation in overseas opportunities throughout the world. Guidance, enrollment support, financial aid coordination, and credit transfers are services offered by PIC staff members. Students are encouraged to visit the center's resource room early in their academic studies, so that appropriate planning can be undertaken.

### **IS 380**

International Studies 380 is the special topics course in which students enroll when they study abroad. Students on study abroad programs enroll in this "placeholder" course until the transcript arrives from the overseas institution, at which time the course is converted to an equivalent Grand Valley course (replacing IS 380 on the transcript). In cases where there is no comparable Grand Valley course, the original IS 380, with an appropriate subtitle, remains on the transcript. Students may enroll in one to 16 credits of IS 380 per academic term, if approved for study abroad through an application process administered by the Padnos International Center.

### **IS 680**

International Studies 680 is similar to IS 380, but serves the role of placeholder for graduate credit, for Grand Valley graduate students participating in study abroad programs.

## **Faculty-led Programs**

Students can acquire international experience through a variety of short-term, Grand Valley-sponsored programs, generally led by Grand Valley faculty members. GVSU out-of-state and international students pay tuition at in-state rate plus \$25 per credit for these programs. There are more than 50 programs with 27 to 30 offered per year. Summer programs may include the following.

Austria: Vienna and Czech Republic, Prague, and Ostrava: Music

Belize: San Ignacio, Master's of Clinical Dietetics

Chile: Chillán, TRIO

China: Shanghai, Summer School; Nanjing, Chinese Modern Languages and Literature; Costa Rica: San Jose, Hospitality Tourism Management

Dominican Republic: Santiago, Movement Science; Santo Domingo, Spanish Modern Languages and Literature

Ecuador: Ibarra, Occupational Therapy; Quito, Biology

El Salvador: San Salvador and Santa Marta, and Santiago, Guatemala, Social Work

France: Paris and Bordeaux, Intensive French, Modern Languages and Literature

Germany: Schwäbisch Gmünd, German Modern Languages and Literature

Guatemala: Zacapa, Occupational Therapy

Ghana: Accra, Social Work; Cape Coast, Nursing; Cape Coast, English; Winneba, Honors

Haiti: Deschapelles, Honors

Iceland: Geology

Ireland: Dublin and Galway, Social Work

Israel: Tell es-Safi/Gath, Anthropology; Jerusalem, Honors

Japan: Tokyo & Osaka, Japanese Modern Languages and Literature

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Namibia: Windhoek, African/African American studies, History, Hospitality Tourism Management

Netherlands: Maastricht, English Education; Meppel, Geography, Sociology, Public Administration

South Africa: Cape Town, Women and Gender Studies; Hoedspruit (Kruger National Park), Biology; Cape Town, Writing

Spain: Ourense, Teacher Assisting; Ourense, Education; Ourense, Madrid, Santiago de Compostela, Intercultural Communication, Service Learning and GVSU Laker Athletics; Seville, Spanish Modern Languages and Literature

Switzerland: Zurich, Computer Information Systems

Tanzania: Arusha, Teaching, Learning and Culture

Ukraine: Borshchiv, Anthropology

United Kingdom: London, Communication; London, Art; London, Anthropology; Ormskirk, English; Derry and Belfast U.K. Northern Ireland, Psychology

### **GVSU Internship Programs**

Madrid, Spain: (Two tracks, Spanish for all majors and internships in English for engineering and computer science majors)

Paris, France (French-speaking internships)

Prague, Czech Republic; London, U.K.; Dublin, Ireland, English-speaking internships in all disciplines.

PIC assists students with their plans and participation in these programs. It coordinates programs with the financial aid and registrar's offices to ensure academic credit and financial aid for program participation. It also maintains a comprehensive file of authorized international study programs throughout the world, assists with the coordination of faculty exchanges, and provides information on opportunities for research, teaching, and working abroad.

### **Academic Activities**

The Padnos International Center organizes various academic activities, including lecture series, break roundtables, conversation series, and research forums during fall and winter semesters.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For more information, visit the Padnos International Center at 130 Lake Ontario Hall or call (616) 331-3898.

## **Career and Employment Resources**

### **Career Center**

The Career Center helps you explore career options, develop short- and long-term career plans, and connect with employers and professionals in your field of study. Through a variety of programs and one-on-one appointments, we can help you develop strategies that will lead to meaningful careers.

#### **Individual Assistance**

Career Center advisors work with undergraduate students, graduate students, and alumni to determine their interests and values as they relate to career choices and provide career guidance or job/internship search assistance..

Services include:

- Career testing and self-assessment
- Career planning
- Career and major exploration
- Graduate and professional school exploration
- Internships and cooperative education
- Interviewing and resume/cover letter writing skills
- Job and internship search strategies
- Networking strategies

Appointments, both in person and virtually, can be requested through our online posting system, Handshake, or you can call or stop by one of our two primary locations: 200 Lubbers Student Services Center and 101B DeVos Center, (616) 331-3311, [careers@gvsu.edu](mailto:careers@gvsu.edu). Drop-in sessions are also available in our CareerLab. CareerLab is a peer-to-peer drop-in program, located at both office locations, as well as virtually, that allows individual consultation without an appointment during fall and winter academic sessions. You are encouraged to bring a copy of your resume, your laptop, and stay as long as you need. Services are also available at the L. William Seidman Center, L.V. Eberhard Center, and at the Cook-DeVos Center for Health Sciences in Grand Rapids, as well as the Traverse City Regional Center by appointment. Visit our website at [gvsu.edu/careers](http://gvsu.edu/careers).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Handshake**

Handshake is an online job search tool for students and alumni that contains thousands of internships, part- and full-time career opportunities, as well as volunteer opportunities with Grand Valley partners. New opportunities are posted daily and it is free to use.

Login with your GVSU network ID and password online at [gvsu.edu/handshake](https://gvsu.edu/handshake).

You can also use Handshake for any of the following:

- Get information on and register for upcoming career fairs, workshops, and information sessions.
- Participate in on-campus interviews.
- Make your resume available to employers through resume books.
- Receive notification of opportunities that fit your preferences.
- Research employers who recruit at Grand Valley.
- Schedule career advising appointments.

## **PathwayU**

PathwayU is a free, personalized career and education planning tool. It is designed to help you explore careers and majors by identifying those that best fit your career interests, values, personality, and skills. From the results, you can explore in-depth information related to specific careers.

Create an account at [gvsu.edu/careers/pathwayu](https://gvsu.edu/careers/pathwayu).

## **Employer Connections**

Engaging with employers early and throughout a student's college career is critical to successful career development, along with gaining experience, and obtaining postgraduate employment. The Career Center has dedicated resources to help you discover and nurture local, regional, and national employer connections. This is done through on- and off-campus events offering opportunities to meet and network with a wide variety of employers.

## **Career Courses**

The Career Center offers both career exploration (US 102) and job and internship search (US 301) classes.

## **Employment Statistics for 2019-2020**

Grand Valley State University is focused on ways to enhance the success of our graduates, with success defined as advancing graduates to the next step along the career path of their choice. For students whose immediate postgraduation plans are to

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

enter the workforce, success is securing a paid position that allows them to advance toward their long-term career goals. For students whose career choice requires an advanced degree, success is gaining admission to graduate or professional school. For other students, the next step may be military service, volunteer work, a focus on family, or some other activity that is unique to achieving their chosen personal and professional goals. It is important for the university to get feedback on how we are doing in preparing students for success in achieving their postgraduation plans. One source of feedback is responses to our annual First Destination Survey.

Results of this survey show that placement rates for Grand Valley graduates continue to be high; 90 percent of 2019-2020 graduates report being employed and/or enrolled in graduate school.

A breakdown of placement rates by academic college at Grand Valley is as follows. For more detailed information on reported statistics or assistance with preparation for the employment search, please contact the Career Center at [career@gvsu.edu](mailto:career@gvsu.edu) or (616) 331-3311.

<b>Destination Rate By College</b>	<b>Undergraduate</b>	<b>Graduate</b>
Brooks College of Interdisciplinary Studies	89%	N/A
College of Community and Public Service	85%	88%
College of Education	86%	92%
College of Health Professions	88%	94%
College of Liberal Arts and Sciences	85%	94%

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Kirkhof College of Nursing	98%	78%*
Padnos College of Engineering and Computing	97%	95%
Seidman College of Business	93%	100%

\*Based on sample size less than 10.

## **Internships, Cooperative Education, and Experiential Education Programs**

Grand Valley employer partners agree students benefit from having career-related experience in addition to a college degree. The Career Center provides assistance in preparing for and obtaining internships and other meaningful work experiences.

### **Internships**

An internship is a supervised work experience directly related to an academic discipline taking place outside of the classroom and directed by a field supervisor. An internship typically lasts one semester, may be full- or part-time, a paid or unpaid work experience, and may be completed for-credit or not-for-credit.

### **Cooperative Education (co-op)**

A co-op is a specific type of work training experience in which students have at least two full- or part-time supervised and paid work experiences related to their major, each lasting at least one semester. The co-op program is specifically designated as such by the academic department.

### **Benefits**

In addition to the possibility of earning college credit, internships/co-ops provide opportunities to learn new skills and apply learned theory to the world of work. Other benefits include exploring available career options, developing realistic career goals and expectations, building relationships with professionals and employers, gaining

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

career-related experience, supplementing grades, and receiving possible employment offers or recommendations for future employment.

### **Academic Requirements and Credits**

Each academic department determines the academic requirements for internships and cooperative education experiences. Unless an academic department requires completion of an internship/co-op, it is up to an individual student to decide whether or not they wish to pursue receiving credit for their experience; occasionally, employers require interns to receive college credit for their experience. When seeking credit for an experience, a faculty advisor within each academic department is responsible for final approval of internships/co-ops to ensure that the experience meets specific departmental criteria. A maximum of 15 internship/cooperative education credits may be applied toward graduation. The nature of the academic component of an internship/cooperative education experience is defined by the academic department. A student may not use a single work experience to generate both internship/cooperative education credit and other forms of credit, e.g., independent study credit.

### **Criteria**

Internships and co-ops may be initiated by a faculty advisor, employer, student, or the Career Center. The work setting for internships/co-ops must provide an opportunity for learning that is relevant to the student's academic field as well as a field supervisor to oversee and evaluate the work.

The length of the internship/co-op is determined prior to the beginning of the internship by the employer, the student, and the internship coordinator. An internship/cooperative education experience can be terminated prior to completion by the internship coordinator, field supervisor, or student. However, permission for course withdrawal is vested exclusively in the faculty for credit-bearing internships. In 2019-2020, there were 7,392 students who participated in some type of experiential education program.

## **Children's Enrichment Center**

The Children's Enrichment Center enriches the lives of Grand Valley's youngest students. Located on West Campus Drive, the center serves young children 2 ½ to 12 years of age from the Allendale Campus and the nearby community. The program is designed to help children nurture habits of intellectual growth, curiosity, and a love for learning. To learn more about enrollment or volunteer opportunities, call (616) 331-KIDS (5437) or visit the website at [gvsu.edu/child/](http://gvsu.edu/child/). Hours are from 7 a.m. to 6 p.m., Monday through Friday, year-round.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# Communications

WGVU Public Media is a multiplatform public media organization licensed to the Board of Trustees, Grand Valley State University. WGVU Public Media provides content across television, radio, mobile, and Web, and throughout the community while offering hands-on experience for students in broadcasting, communications, journalism, marketing, business, and nonprofit leadership.

WGVU-TV 35/WGVU-DT 11 and WGVK-TV 52/WGVK-DT 5, affiliated with the Public Broadcasting Service (PBS), is an integral part of our community's landscape. Its mission is to educate, inform, and entertain with quality programming and community engagement activities as the PBS affiliate for West and Southwest Michigan. WGVU television is among the highest quality stations. It is most authoritative on topics including science, arts, history, and public affairs, and it includes the most respected educational programs for children in the country. WGVU provides the only public television, news, and emergency information for 2.5 million people living throughout 28 counties in Michigan. WGVU television provides local news and current events through our local productions, including WGVU Newsmakers, Community Connection, West Michigan Week, and Mutually Inclusive. WGVU-TV programming and outreach is made possible by citizens who willingly provide financial and volunteer support and have done so continuously since the station began in 1972.

WGVU 88.5/95.3 FM Grand Rapids and 95.3 FM Whitehall are National Public Radio (NPR) stations licensed to the Board of Trustees, Grand Valley State University. The stations broadcast news and information programs from NPR, PRI, and Michigan Public Radio Network. With a strong commitment to local news, WGVU Public Media is the only local affiliate of NPR with an award-winning, Grand Rapids-based news team that offers daily local programming and interviews. WGVU radio broadcasts to more than 1.5 million listeners in West and Southwest Michigan. Along with news, WGVU radio produces a wide variety of specialty programs that highlight and focus on the community. WGVU radio is distinctive, offering its listeners a unique music selection with locally produced jazz shows and blues programming during evenings and weekends, along with the loyal listeners of our Real Oldies 1480 AM Grand Rapids and 850 AM Muskegon stations. Radio programming and outreach is made possible by citizens who willingly provide financial and volunteer support and have done so continuously since 1983.

WGVU.org provides news, local information, and community outreach as well as local and national PBS programming. WGVU Public Media also produces and facilitates a variety of community engagement initiatives and events throughout the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

year by delving into the areas of inclusion, health, arts, veterans, and education. WGVU continues to expand its reach through new platforms, exploring digital media. WGVU Digital Studios provides engaging short form content in science, art, food and beverage, sports, and entertainment.

Our television and radio stations also provide employment opportunities and professional experience for students. Two annual Grand Valley tuition scholarships are awarded. The offices and studios are located in the Meijer Public Broadcast Center on the Robert C. Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

You can learn more at [WGVU.org](http://WGVU.org) or by calling WGVU Public Media at (616) 331-6666 or (800) 442-2771.

## **Computer Support**

Grand Valley has more than 50 instructional computer labs with Windows and Macintosh computers running more than 270 software applications. Virtual computer lab access to courseware is available through the GVSU website. In accordance with the Americans with Disabilities Act (ADA), accessible stations are available in most computer labs. There are more than 500 classrooms and computer labs with technology equipped instructor stations that include a computer, LCD projector, document camera, and webcam to facilitate virtual/hybrid instruction. There is wireless connectivity in all academic buildings and housing locations. All classroom and student living areas are networked for Internet access, email, courseware, and many other student services. Digital media assistance is available to students and faculty members. Printing is available in the labs, as well as cloud printing services from on/off campus. Microsoft Office 365 is available for all students, faculty, and staff members free of charge. The Information Technology Service Desk is available to support all students, faculty, and staff members.

## **Division of Inclusion and Equity**

Through collaboration, consultation, and leadership with students, faculty and staff members, administrators, and community partners, the Division of Inclusion and Equity advances Grand Valley's social justice framework for equity and inclusion. The division coordinates sustainable and strategic institutional efforts to engage all members of the community, while also intentionally supporting and advocating for historically underrepresented communities. The division's work furthers the university's liberal education and student-centered mission. The offices across the university fall under three main areas:

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- Equity and Compliance
- Social Justice Education
- Inclusion, Services, and Social Justice Centers

The office of the vice president of the Division of Inclusion and Equity is located in 4035 Zumberge Hall. Contact us by phone at (616) 331-3296, visit our website at [gvsu.edu/inclusion](http://gvsu.edu/inclusion), or email us at [inclusion@gvsu.edu](mailto:inclusion@gvsu.edu).

## **Equity and Compliance**

The Equity and Compliance unit ensures the university's compliance with all federal and state laws related to civil rights; investigates complaints of discrimination, harassment, and sexual misconduct in accordance with university policy; provides consultation to university departments on accessible, equitable, and inclusive practices and processes; and oversees the division's strategic planning process. Equity and Compliance includes the Affirmative Action and Equal Employment Opportunity office, the Title IX office, and Disability Support Resources. This unit is supported by the Division of Inclusion and Equity.

## **Affirmative Action and Equal Employment Opportunity**

The Affirmative Action and Equal Employment Opportunity (AA/EEO) office provides leadership to the campus for all facets of promoting and monitoring equal employment opportunity and the university's affirmative action program. The AA/EEO officer also monitors the implementation of the Board of Trustees' Equal Opportunity/Affirmative Action Policy, develops educational programs on affirmative action and equal opportunity laws, policies, and procedures, as well as issues of harassment and discrimination, and investigates and addresses related complaints. AA/EEO is supported by the Division of Inclusion and Equity and is located at 4000 Zumberge Hall. Contact us by phone at (616) 331-2242, visit our website at [gvsu.edu/affirmative](http://gvsu.edu/affirmative), or email us at [aaeeo@gvsu.edu](mailto:aaeeo@gvsu.edu).

## **Disability Support Resources**

Disability Support Resources (DSR) provides support services and accommodations that enhance the environment for persons with disabilities and helps educate the university community on disability issues. The office also provides access to programs and facilities for faculty members, staff members, and students. Grand Valley promotes the full inclusion of individuals with varying abilities as part of our commitment to creating a diverse, inclusive community. It is the policy of Grand Valley to comply with the Americans with Disabilities Act as amended by the ADA Amendment Act (2008), Section 504 of the Rehabilitation Act of 1973, and other

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

applicable federal and state laws that prohibit discrimination on the basis of disability. Grand Valley will provide reasonable accommodations to qualified individuals with disabilities upon request. DSR is supported by the Division of Inclusion and Equity and is located at 215 The Blue Connection. Contact us by phone at (616) 331-2490, visit our website at [gvsu.edu/dsr](http://gvsu.edu/dsr), or email us at [dsrgvsu@gvsu.edu](mailto:dsrgvsu@gvsu.edu).

## **Office for Title IX**

Office for Title IX and Institutional Equity (TIXIE) protects any person from sex-based discrimination, regardless of their real or perceived sex, gender identity, and/or gender expression. Female, male, and gender nonconforming students, faculty members, and staff members are protected from any sex-based discrimination, harassment, and violence. Grand Valley State University is committed under Title IX to address incidents involving sex-based discrimination, which includes sexual and gender-based harassment, sexual assault, intimate partner violence, stalking, and exploitation against students, faculty members, and staff members.

The Title IX coordinator is responsible for the monitoring and oversight of the overall implementation of the university's Title IX compliance, including the coordination of training, education, communications, and the administration of grievance procedures for faculty and staff members, students, and other members of the university community. The TIXIE office is supported by the Division of Inclusion and Equity and is located at 4000 Zumberge Hall. The Title IX coordinator and equity officer/director can be reached by calling (616) 331-9530 or emailing [titleix@gvsu.edu](mailto:titleix@gvsu.edu). You may also visit the TIXIE website at [gvsu.edu/titleix/](http://gvsu.edu/titleix/).

## **Social Justice Education**

Social Justice Education (SJE) works to advance the application of Grand Valley's framework for inclusion and equity through engaging and supporting community members in efforts to cultivate capacity for building and maintaining inclusive and just communities. This office provides regularly scheduled training opportunities and fulfills requests for workshops tailored to the specific needs of a department, class, or campus group. In addition, SJE collaborates with many campus and community partners to increase knowledge and skills related to creating positive change.

SJE is supported by the Division of Inclusion and Equity and is located in 4035 Zumberge Hall. Contact us by phone at (616) 331-9202, visit our website [gvsu.edu/socialjustice](http://gvsu.edu/socialjustice) to request a training and view scheduled opportunities, or email us at [sje@gvsu.edu](mailto:sje@gvsu.edu).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# **Inclusion, Services, and Social Justice Centers**

## **Gayle R. Davis Center for Women and Gender Equity**

The mission of the Gayle R. Davis Center for Women and Gender Equity is to create meaningful learning about women and gender and to advocate for gender justice through the education, engagement, and empowerment of students and the greater Grand Valley community. The center creates an environment where students and faculty, staff, and community members can increase self-awareness about gender justice, connect with resources, apply skills through conducting research or internships, and perform service learning.

The center works to achieve the following:

### **Make connections to campus and community resources.**

The center serves as a welcome starting place for any student needing assistance with personal and/or academic challenges. Staff members are trained to help connect students with those who can best assist them. The center also offers food resources, as well as personal care items, at no cost to support students dealing with food and financial insecurity. The center also offers service to students previously in foster care through the Fostering Laker Success program.

### **Engage the campus community in antiviolence work.**

The center houses the campus victim advocate who provides resources and support for victim/survivors of gender-based violence. It collaborates with numerous campus partners to work toward ending instances of sexual assault, dating/domestic violence, and stalking. The violence prevention and education coordinator oversees campuswide violence efforts.

### **Provide internship and service-learning opportunities.**

The center works with numerous nonprofits in the community that seek to advance gender justice. Through Activate (the Intersections social justice service learning training system) and numerous days of service, students can make a meaningful difference by engaging with the center, campus, and community.

### **Foster leadership and advocacy.**

The center engages students in leadership development and works with students to advocate for gender justice. This is done through the ATHENA leadership program, the ambassador program, the Gender Justice House (a living/learning residential community), Niara (a leadership program for women of color), and internship experiences in the center.

The Center for Women and Gender Equity is supported by the Division of Enrollment Development and Educational Outreach and is located at 1201 Kirkhof Center. Contact us by phone at (616) 331-2748, visit our website at [gvsu.edu/cwge](http://gvsu.edu/cwge), or email us at [cwge@gvsu.edu](mailto:cwge@gvsu.edu).

## **Milton E. Ford Lesbian, Gay, Bisexual, and Transgender (LGBT) Resource Center**

The Milton E. Ford LGBT Resource Center advocates for institutional equity, promotes community-building, and provides educational opportunities to create an informed, cohesive, and just campus where community members of diverse sexual orientations, gender identities, and gender presentations are supported and welcome.

The center's advocacy work advances Grand Valley's commitment to inclusion and equity. Using an intersectional framework, the center seeks to be a partner in creating a more equitable campus, region, and world that values social justice and centers the needs of the most vulnerable people.

The Ford LGBT Resource Center offers educational programming and community-building opportunities to help students and employees connect with each other, the center, and the university. The center offers a variety of programs throughout the year, including featured guest speakers in honor of Transgender Day of Remembrance and Transgender Day of Visibility, Queer Connections mentoring program, educational trainings and workshops, Lavender Graduation, and more. The center also supports four student-facilitated evening programs: First-year Queer Alliance helps first-year LGBTQIA+ and allied students develop strategies for a successful first year by creating meaningful connections to each other and the campus community. Colors of Pride is a program for LGBTQIA+ students of color where participants have an opportunity to celebrate the unique experiences of LGBTQIA+ people of color while building community and strengthening connections to each other, the LGBT Resource Center, and the university. T2 is a weekly group for transgender and nonbinary students, as well as those questioning their gender, and Ace of Clubs provides supportive space for students who identify on the asexual or aromantic spectrums.

The LGBT Resource Center is supported by the Division of Enrollment Development and Educational Outreach and is located at 1161 Kirkhof Center. Contact us by phone at (616) 331-2530, visit our website at [gvsu.edu/lgbtrc](http://gvsu.edu/lgbtrc), or email us at [lgbtcenter@gvsu.edu](mailto:lgbtcenter@gvsu.edu).

## **Office of Multicultural Affairs**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Office of Multicultural Affairs (OMA) is committed to building an inclusive campus that promotes acceptance and appreciation of the diversity, background, and perspective of each individual. Through our signature Professionals of Color Lecture Series, cultural heritage celebrations, and social justice programs, OMA enhances student learning and development by fostering an appreciation for the history, tradition, and culture of different ethnic groups and empowering students to be active and engaged learners.

OMA also provides retention programs that engage all students, while also intentionally advocating for students from historically underrepresented communities. These programs assist students in achieving personal and academic success by promoting a smooth transition from high school to college, creating a sense of belonging, and connecting students to resources and mentors. High-impact learning outcomes are integrated into programs' activities to offer an array of opportunities for students to develop lifelong skills that will benefit their lives and careers after college.

The Office of Multicultural Affairs is supported by the Division of Enrollment Development and Educational Outreach and offers a welcoming environment with a gathering space at 1240 Kirkhof Center. Contact us by phone at (616) 331-2177, visit our website at [gvsu.edu/oma](http://gvsu.edu/oma), or email us at [oma@gvsu.edu](mailto:oma@gvsu.edu).

## **Sylvia and Richard Kaufman Interfaith Institute**

The Kaufman Interfaith Institute at Grand Valley works to promote interfaith understanding and mutual respect in West Michigan through programs and conferences. As a community-focused organization housed at the university, the Kaufman Interfaith Institute organizes events, service opportunities, and trainings in the community and works closely with religious and nonprofit organizations in West Michigan. The Kaufman Interfaith Institute seeks to promote a vibrant and diverse community, benefiting people of all generations, through interfaith dialogue and service.

Grand Valley also provides opportunities for positive interfaith engagement around the religious, secular, and spiritual diversity of students, staff members, and faculty members. The aim of this work is to foster a campus climate inclusive of various identities and communities to ensure that students are able to develop their worldviews in an affirming environment and to promote an open and pluralist understanding of our increasingly diverse schools, workplaces, and communities.

Some of the religious and interfaith services and resources at Grand Valley:

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

- Faith-based, spiritual, and secular student organizations include Hillel, Mindfulness and Meditation, Muslim Students Association, and Center for Inquiry. Numerous Christian groups include Campus Ministry, Catholic Student Ministries, and many more.
- Interfaith reflection rooms located at 2243 Kirkhof Center, 309E DeVos, and 166 CHS are available as open, silent spaces for all students, staff members, and faculty members.
- Site visits to various local houses of worship in the greater Grand Rapids area.
- Ongoing opportunities for interfaith dialogue.
- Interfaith leadership conferences and workshops.

## **Veterans Upward Bound**

Veterans Upward Bound (VUB) provides free academic support to veterans to enroll in postsecondary education (degree or vocational/technical programs) at any institution. VUB provides an academic skill-building program that is coupled with individualized attention and a flexible teaching and tutoring schedule. VUB is supported by the Division of Inclusion and Equity and a five-year grant from the U.S. Department of Education.

VUB is supported by the Division of Enrollment Development and Educational Outreach and is located at 708 L.V. Eberhard Center in Grand Rapids. Contact us by phone at (616) 331-8387, visit our website at [gvsu.edu/vub](http://gvsu.edu/vub), or email us at [veterans@gvsu.edu](mailto:veterans@gvsu.edu).

## **Division of Student Affairs**

The Division of Student Affairs provides services, programs, and environments that enhance the personal, social, and intellectual lives of students. The division is dedicated to the belief that positive growth and development of students occurs best when in-class and out-of-class experiences are harmonious. The division strives to provide assistance to students and faculty that will foster the development of meaningful relationships between students and others. The division is organized to provide necessary support and facilities for students which enable them to live, learn, and become mature, self-directed and responsible members of the university community and society. The vice provost for student affairs and dean of students serves as the senior student affairs officer and provides leadership for the Division of Student Affairs. In turn, the vice provost for student affairs and dean of students reports to the provost and executive vice president for academic and student affairs.

## **Dean of Students Office**

The Dean of Students Office serves as an information resource for students and campus colleagues, provides advocacy for student issues, programs to serve students,

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

and represents the Division of Student Affairs to constituencies within and beyond the university. The main office is located in the Lubbers Student Services Center on the Allendale Campus, but division staff provide additional support on the Robert C. Pew Grand Rapids Campus, as well as the Health Campus in Grand Rapids, and the Holland, Muskegon, and Traverse City campuses.

### **CARE Team**

The CARE Team supports students through social, emotional, physical and mental challenges; connects them to appropriate campus and community resources; promotes growth in self-advocacy and empowers students to build confidence in their ability to navigate toward their own solutions. One way in which students are supported is through our CARE referral system. The student support manager works collaboratively across the institution to develop support plans that provide a caring and comprehensive student experience. The student support manager will meet one-on-one with students who are referred through the CARE system to help identify stressors and make a plan for well-being outside the classroom to enable success within the classroom.

For more information, please visit us online at [gvsu.edu/care](http://gvsu.edu/care).

### **Office of Student Conduct and Conflict Resolution**

The Office of Student Conduct and Conflict Resolution (OSCCR) provides an educational and restorative process to address student misconduct. All Grand Valley students and registered student organizations are held accountable to the The Statement of Student Rights and Responsibilities. The statement is a published document that provides the GVSU community with information regarding prohibited conduct and the student conduct process. In addition to addressing student misconduct, OSCCR supports students by providing a spectrum of resolution pathways to address conflict through dialogue and self-advocacy. Lastly, OSCCR offers a variety of presentations and workshops to proactively assist the GVSU community with positive decision-making, healthy relationships, and conflict management. For more information, visit us online at [gvsu.edu/conduct](http://gvsu.edu/conduct).

### **Student Ombuds**

The ombuds strives to promote fairness and foster a positive campus environment by offering students a number of mechanisms for early conflict resolution and problem-solving. Students may contact the Student Ombuds for assistance with resources if they have a conflict. The ombuds will listen, help them come up with next steps, and discuss other resources that might be helpful. Typical concerns brought to the student

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

ombuds include disciplinary concerns, academic concerns, discrimination, harassment, cultural conflicts, financial concerns, administrative issues (procedural questions), roommate concerns, housing issues, supervisor/employee concerns, workplace issues, professionalism (or lack thereof), and interpersonal communications.

## Grand Valley Department of Public Safety

Grand Valley State University Department of Public Safety (GVDPS) is a multidisciplinary department that provides police, security, and emergency management services to the campus community. The mission of the department is to provide a safe and secure environment in which to learn, live, and work.

The Grand Valley Police Department (GVPD) is a full-service law enforcement agency responsible for the enforcement of laws of the State of Michigan and the rules and regulations of the university. Officers have full police authority and are licensed by the Michigan Commission on Law Enforcement Standards. Services provided by GVPD include, but are not limited to, criminal investigations, traffic enforcement, community policing, medical response, and educational programming. Additionally, the department provides emergency management for the university with respect to preparedness, awareness, and education.

Safety on the Grand Rapids campuses is provided by GVPD and the Grand Valley Security Department. Grand Valley police provide a presence on the Grand Rapids campuses during operational hours of the academic day while security staff provide 24/7 coverage. GVDPS also partners with the Grand Rapids Police Department for law enforcement services on the Grand Rapids campuses when GVPD is not available.

The police department for the Grand Rapids campuses is located at 609 Watson Ave. Both the GVPD and security personnel can be reached for nonemergency service calls at (616) 331-3255. **In the event of an emergency, always dial 911.**

On the Allendale Campus, GVPD provides 24/7 patrol coverage and is housed in the Service Building.

To learn more about our department and the services we offer, please visit our website at [gvsu.edu/dps](http://gvsu.edu/dps). To view our Annual Security and Fire Safety Report, go online to [gvsu.edu/safety](http://gvsu.edu/safety).

## GVSU Laker Store

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

### **[lakerstore.gvsu.edu](http://lakerstore.gvsu.edu)**

Textbooks for classes taught at Grand Valley State University are available through the GVSU Laker Store with locations in Allendale and Grand Rapids. Students attending classes on the Allendale Campus will find their textbooks and required supplies at the store in The Marketplace located across from the Lubbers Student Services Center. In addition, the GVSU Laker Store offers a large selection of Grand Valley imprinted clothing and gifts, as well as classroom supplies, computers, and technology. The Allendale store also provides textbooks for students who attend Grand Valley classes at locations throughout Michigan. Textbooks and merchandise may be ordered on the Web at [lakerstore.gvsu.edu/](http://lakerstore.gvsu.edu/).

During the academic year, GVSU Laker Store in Allendale is open from 8 a.m. to 6 p.m. Monday through Thursday, 8 a.m. to 5 p.m. on Friday, and 10 a.m. to 5 p.m. on Saturday. Hours are extended the first week of the semester.  
Phone (616) 331-2450.

Students who attend classes on the Robert C. Pew Grand Rapids Campus and the Health Campus can purchase textbooks at the GVSU Laker Store, adjacent to the plaza on the first floor of the Richard M. DeVos Center. During the academic year, hours are 8 a.m. to 6 p.m. Monday through Thursday, 8 a.m. to 5 p.m. on Friday, and 8 a.m. to 2 p.m. on Saturday.  
Phone (616) 331-6602.

## **Health Services**

The Campus Health Center on the Allendale Campus provides convenient medical care for GVSU students and faculty through University of Michigan-Metro Health. Medical staff include physicians and mid-level providers. For more information, visit [gvsu.edu/campushealth](http://gvsu.edu/campushealth).

The GVSU Family Health Center, operated by the Kirkhof College of Nursing, provides accessible, quality health care through an academic nurse-managed approach. Located five minutes from the GVSU Robert C. Pew Grand Rapids Campus, free parking is available. For more information, visit us online at [gvsu.edu/fhc](http://gvsu.edu/fhc).

## **Housing and Residence Life and Campus Dining**

Grand Valley considers residential living to be beneficial in helping all students become oriented and adjusted to college life. Our data mirrors that of institutions across the globe, showing that students who live on campus are more successful in

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

their college experience. On campus residents are retained and graduate at higher rates, have higher GPAs, and graduate more quickly than students who live off campus. That is the foundational purpose of the first-year residency requirement, which begins in Fall 2021. The residential experience contributes to that success. Our staff arrange educational, diverse, and recreational programs that foster and maintain pleasant living and study conditions. Each living center has a housing team consisting of a full-time, live-in staff member, graduate assistant(s), and student resident assistants. There are a variety of housing options on campus.

## **Freshman Housing**

**Traditional-style living centers** accommodate approximately 900 students. The centers house two people per room with semiprivate bathrooms in the hallway for all floormates.

**Suite-style living centers** accommodate approximately 1,000 students. The centers are divided into suites of two double rooms (for four students) and a shared private bathroom.

**A Cluster-style living center** accommodates approximately 500 students. The center offers student rooms that are similar to traditional-style (but are the size of suite-style units) and feature two- and three-person units. Resident rooms are clustered around shared semi-private bathroom and lounge spaces.

**Apartment-style living centers** accommodate approximately 1,000 students. The centers provide two students with either private bedrooms or a shared bedroom, a private bathroom, and a kitchenette.

**Efficiency/studio apartments** accommodate approximately 200 students on our Robert. C. Pew Grand Rapids Campus. They feature private bathroom and kitchenettes in configurations of one person singles, two person shared bedroom, or private bedroom efficiencies for two residents. These units are similar to the apartment-style living centers in Allendale. Meal plans are optional for students in this community and not required.

**Apartment living** options accommodate approximately 300 students. Apartments include two and four private bedroom units and two shared bedroom options (for four students). These units feature full-size kitchens with standard size appliances, as well as living rooms. Meal plans are optional for students in apartment communities and are not required.

Room and board may be paid in full at the beginning of each semester or, for a service charge, in four installments. All room-and-board rates are subject to change by action of the Board of Trustees.

Admission to Grand Valley does not guarantee housing of any kind, and students must make their own arrangements by applying online via myHousing on myBanner. Students may apply for housing immediately upon acceptance to GVSU. Assignments for first year students begin in late Spring and placement information is available in June. Returning students and incoming transfer students are placed on a rolling basis and the application opens in September. Students who apply prior to May 1 are given priority placement but not guaranteed requested style. Applications, contracts, and housing information are available at [gvsu.edu/housing](http://gvsu.edu/housing). Approximately 3,000 spaces in the living centers are reserved for freshmen; the remaining spaces are available for upperclass students. All rooms are smoke-free.

On campus residency is required for all incoming first year students. All first year students must either submit a housing application or receive a residency exemption. Students who are not in compliance with the residency policy will be charged a noncompliance fee in the amount equal to traditional housing and base meal plan costs. Exemptions are available for those who are two years post high school graduation, are veterans, have custody of minor dependents, are married, or who will be commuting from the permanent home of a parent or guardian. For more information on the requirement and exemption request process, visit [gvsu.edu/housing](http://gvsu.edu/housing).

### **Living-learning Communities**

Students living in these communities have chosen to expand their education through shared learning experiences. Each community is built upon a specific theme, major, or area of interest. Professional and graduate staff members work closely with a faculty coordinator in these communities to provide a rich living-learning experience that extends outside of the classroom (programs, events, field trips, research, etc.). The living-learning communities (LLC) offered on the Allendale Campus include the Meijer Honors College, International House, Movement Science House, W.I.S.E (Women in Science, Engineering, and Math), and the Gender Justice House. The LLC on our Grand Rapids campus include the Social Work Living-Learning Community, Engineering Living-Learning Community, Seidman Business Living-Learning Community, and the Momentum House.

All of our units resemble privately developed apartments, but are conveniently located right on campus and offer support services that are highly beneficial to residents. Students must apply for housing each year. We accept applications daily and

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

encourage any interested student to apply for housing. Applications and contracts are available online at [gvsu.edu/housing](http://gvsu.edu/housing).

### **Upperclass Housing**

Grand Valley has apartment living available on both our Allendale Campus and the Robert C. Pew Grand Rapids Campus.

**Allendale Campus:** There are four-bedroom, two-bedroom, one-bedroom, and efficiency apartments. Each living center has a housing team that arranges educational, diversity, and recreational programs that foster pleasant living and study conditions. Each living center's housing team consists of a full-time, live-in staff member, graduate assistant(s), and student resident assistants.

Our apartments range from town home communities to more traditional apartment living, each providing a community building or lounge/common area. Apartments include a stove and refrigerator, beds, dresser, desks, chairs, and a sofa. Students may provide other furnishings to suit their personal style. All apartments are smoke-free. Room fees may be paid in full at the beginning of the semester or, for a service charge, spread out in four installments.

**Pew Grand Rapids Campus:** Apartments located on the Pew Grand Rapids Campus include furnished one-, two-, three-, four-bedroom, and single/double efficiency units. Winter Hall offers an on-site fitness center that may be utilized by Secchia and Winter Hall residents. Students residing here may purchase a meal plan at an additional cost.

### **Housing Application Process**

New students who want to live on campus should apply to the Office of Housing and Residence Life upon acceptance to Grand Valley. All first-year students are encouraged to apply before May 1 for the fall semester in which they plan to attend. To seek on-campus residency, students must submit a housing application, contract, and \$150 security deposit. Housing applications are accepted and encouraged at any time and are available at [gvsu.edu/housing](http://gvsu.edu/housing).

Grand Valley offers housing options 12 months per year, with applications available for fall and winter, winter only, and spring/summer semesters. Specific building availability varies from fall/winter to summer semesters; housing options are offered on both campuses year-round. Residents may cancel their contract with written notice and will be charged according to our cancellation breakage schedule. This schedule is available on our website.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Non-Grand Valley Housing**

There are other living accommodations near the campus, including rooms, apartments, houses, and mobile homes that are available at a wide variety of costs. Grand Valley does not involve itself in negotiations for off-campus rentals. The university does not inspect the units available, and students are encouraged to research carefully and read rental agreements closely to be sure they understand all stipulations, included amenities, and details regarding signing bonuses. First year students are strongly discouraged from signing off-campus leases until they have requested and been approved for an exemption from the residency requirement. Without exemption approval, students risk being responsible for the noncompliance fee as well as their lease commitments off-campus.

## **Campus Dining**

### **gvsufood.com**

Ten meal plans are available to GVSU students. Students living on North Campus will receive the 14 Plus as part of their housing contract and have the option to change to the 10 Plus or upgrade to the Unlimited Fresh plan. Other on-campus and commuting students can select any plan.

### **Meals**

Meals are offered in eight of the meal plan options. Meals can be used to enjoy all-you-care-to-eat dining in the Fresh Food Company and/or to purchase meal combos at other dining locations. One meal is subtracted from the meal balance each time a meal is eaten in the Fresh Food Company or a meal combo is used. Students on weekly meal plans may use up to four meals per day.

### **Dining Dollars**

All 10 meal plans offer Dining Dollars. Dining Dollars are a debit account specific to food purchases on the Allendale and Grand Rapids campuses. Dining Dollars are accepted in all Campus Dining restaurants, C-Stores, coffee shops, and some concession stands. It works like a debit card and can be used for beverages, snacks, or full meals at any time. Students can check account balances online, at Campus Dining registers, or by using the GV mobile app. Students may add dollars at gvsufood.com or by visiting the Campus Dining office in 100 Commons on the Allendale Campus. Dining Dollars carry over from the fall to winter semester. Meals and Dining Dollars must be used before they expire at the end of the academic year. Purchases are nonrefundable. Visit gvsufood.com for more information.

### **Resources**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Visit [gvsufood.com](http://gvsufood.com) to learn about: meal plans, dining on campus with food allergies, vegan and vegetarian offerings, nutrition support resources, food locations, hours, jobs and more.

## **Meal Plan Options 2021-2022**

**Weekly Plans:** Meals are per week and do not transfer to the next week.

**Unlimited Fresh:** Unlimited meals available at Fresh Food Company and \$125 Dining Dollars

**14+:** 14 meals/week plus \$225 Dining Dollars (included with north campus housing contract)

**10+:** 10 meals/week plus \$500 Dining Dollars

**7+:** 7 meals/week plus \$400 Dining Dollars

**5+:** 5 meals/week plus \$225 Dining Dollars

**3+:** 3 meals/week plus \$100 Dining Dollars

**Semester Plans:** Meals can be used at your discretion throughout the semester.

**VALUE+:** 90 meals plus \$475 Dining Dollars

**CASUAL+:** 45 meals plus \$475 Dining Dollars

**CASUAL:** \$900 Dining Dollars

**EXPRESS:** \$200 Dining Dollars

Meals and Dining Dollars must be used before they expire at the end of the academic year. Purchases are nonrefundable. Visit [gvsufood.com](http://gvsufood.com) for more information.

## **Allendale Campus Dining Locations**

**Au Sable Hall:** Corner Store

**Commons:** Fresh Food Company, Fuel (Oath Pizza, 42nd Street Deli, Freshens, Spice Kitchen)

**Holton Hooker Learning and Living Center:** Einstein Bros. Bagels

**Kirkhof Center:** Ciao, Croutons, Grille Works, Lobby Shop, Panda Express, Subway, Zoca

**Kleiner:** Bene, Center Plate, P.O.D. C-Store, Croutons, Grille Works, Late Night, Montague's Deli, Qdoba, The Bistro

**Mackinac Hall:** P.O.D. Express

**Mary Idema Pew Library:** GV Brew

## **Pew Grand Rapids Campus Dining Locations**

**DeVos Center:** Grille Works, Erbert & Gerbert's, Starbucks

**Seidman College of Business:** Seidman Cafe

# **Office of Undergraduate Research and Scholarship**

The Office of Undergraduate Research and Scholarship (OURS) offers a variety of opportunities and resources for undergraduates to pursue research and scholarship in various disciplines under the direction of a faculty mentor. These intensive research and scholarship opportunities enrich students' academic experiences and challenge them to strengthen their critical, analytical, and writing skills.

Some of the hallmark programs of OURS:

- Student Summer Scholars is an opportunity for mentored, student-driven research and reflection on diverse and intersecting disciplines
- Student Scholars Day is a year-end discussion and celebration of the academic and creative accomplishments of Grand Valley students
- OURS Grant is a mini-grant opportunity designed to encourage collaborative scholarly research and creative work between undergraduate students and faculty on a semester project
- Academic Conference Fund is a grant program established to provide travel funds for Grand Valley students to present/perform at an academic conference
- Academic and Professional Enrichment Fund is a grant program established to provide travel funds for Grand Valley students to accompany an eligible faculty member to an academic conference

Participating in undergraduate research and scholarship will expand your academic experience at Grand Valley. Research is a process of careful inquiry leading to the discovery of new information. Although there are some differences in how research is conducted across disciplines, research is not restricted to certain disciplines and occurs in all programs at GVSU.

For more information, visit [gvsu.edu/ours/](https://gvsu.edu/ours/).

## **Parking Services**

Parking on the Allendale and Grand Rapids campuses requires a permit, unless opting to park at pay by app spaces on both campuses or conveniently located pay stations on the Allendale Campus. Annual permits are available for students to purchase online or

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

from Grand Valley Parking Services beginning in August of each year. Student daily parking permits are available for purchase online or at Parking Services throughout the year. Temporary permits are also available to visitors at no cost. Permits may be obtained from Parking Services on the Allendale Campus at the Service Building or on the Pew Grand Rapids Campus in the L.V. Eberhard Center.

## **Americans with Disabilities Act (ADA) Parking**

A State of Michigan ADA plate or tag and a GVSU parking permit are required to park on campus in any nonvisitor ADA space. In addition to allocating a number of designated ADA parking spaces, Grand Valley has instituted a shuttle service through Disability Support Resources. There are designated lots on both the north and south sides of the Allendale Campus to accommodate a "park and ride" service for those needing ADA accommodations. For additional information, please visit our website and select the Disability Parking tab or call Disability Support Resources at (616) 331-2490.

Parking Services strives to provide excellent customer service and communicate changes concerning parking to the Grand Valley community. For more information about parking, including hours of operation, please visit our website at [gvsu.edu/parking](http://gvsu.edu/parking) or call (616) 331-PARK (7275).

## **Recreation and Wellness**

Grand Valley Recreation and Wellness (RecWell) brings together multiple university resources and services to provide the campus community with a wide variety of recreation, fitness, wellness, and social opportunities at all levels of ability, competition, and interest. Our values include providing inclusive and diverse recreational opportunities that inspire participation, promote health and well-being, and encourage student development and success.

RecWell offers something for everyone! From sports and outdoor adventures to group exercise, training services, and adult swim lessons, there are plenty of ways to get involved, be active, and live healthy. In addition to ongoing programs and services, RecWell also hosts annual events throughout the year and employs approximately 130 student employees each semester. A full list of opportunities and employment opportunities can be found on our website at [gvsu.edu/rec](http://gvsu.edu/rec).

Get connected with the RecWell community by following **@gvsurecwell** on Instagram, Facebook, Twitter, or Pinterest!

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Club Sports**

Club sports provide an exciting athletic alternative that bridges the gap between intramural play and varsity athletics. There are more than 40 club sports that range from recreational to highly competitive levels. Many of our team sports are affiliated with national associations and compete on a regional and national level. Competitive teams often have coaches, as well as faculty advisors, travel regularly, and some are nationally ranked.

If you are interested in joining a club sport, you can visit [gvsuclubsports.com](http://gvsuclubsports.com) and complete the Recruit Me form, which will be sent to the team leadership to let their representatives know that you are interested. Some club teams hold try-outs, depending on the level of play. You can also visit the Office of Student Life to view various sports, health, dance, and recreation organizations that are offered at Grand Valley.

## **Fitness Services**

Learn how to safely and effectively train, be active, and live a healthy lifestyle. We offer a variety of programs and services, including group exercise, personal training, small group training, equipment orientation, fitness assessments, adult swim lessons, and CPR/first aid classes. Programs and services offered are created to be inclusive and accommodate various levels of experience, ability, and skill. We offer a free UFit program for students that assists individuals in a variety of health and wellness goals. Plans can be created to increase wellness, strength, flexibility, and cardiovascular functioning based on preference or ability level. Group exercise classes are offered during the fall and winter semesters. Certified instructors teach more than 50 group exercise classes weekly, including mind/body and spinning. Passes are available for purchase to students, faculty, and staff members.

For more information and hours, visit [gvsu.edu/rec/fitness](http://gvsu.edu/rec/fitness).

## **Intramural Sports**

RecWell offers a variety of sports and events for student, faculty, and staff participants of all skill levels in an inclusive, fun, and recreational environment. Sports are offered in leagues, tournaments, or contests, and participants can join co-rec, men's, women's, or open competition. Participants typically play one to two games a week per sport. More than 15 sports are offered, including basketball, flag football, softball, soccer, and volleyball. Participants need to purchase an Intramural Sports Pass to participate.

For more information and a full list of sports offered, visit [gvsu.edu/rec/imsports](http://gvsu.edu/rec/imsports).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Injury Care Clinic**

The Injury Care Clinic (ICC) exists to provide free injury care services to the campus community. RecWell, the Department of Movement Science, and Metro Health University of Michigan have teamed up to offer athletic training services right on campus. The ICC provides injury assessment and evaluations, acute injury care, short-term rehabilitation services, preventative measures, stretching techniques, and professional referrals as needed. Individuals can opt to bring their own supplies for treatment or supplies are available on site for a minimal cost.

For more information and hours, visit [gvsu.edu/icc](https://gvsu.edu/icc).

## **Outdoor Adventures**

The Outdoor Adventures (OA) program through RecWell strives to empower and inspire the Grand Valley community through outdoor and adventure-based activities, inspiring lifelong adventure. We offer a variety of programs and services, including climbing workshops and training, outdoor trips, equipment and gear rental, and bike services. Whether you're looking for gear for your next epic adventure, a fun trip with friends, or an educational clinic to improve future outdoor experiences, OA can help!

OA oversees the 26.5-foot-tall artificial climbing wall inside the Fieldhouse, which offers three styles of climbing and accommodates participants of all abilities. The Climbing Center is open to everyone students, faculty, staff, and the general public and is free to Grand Valley students! The Climbing Center is also home to OA's outdoor gear rental inventory, which covers all the basic needs for a camping trip with friends at unbelievable prices. Items include hammocks, backpacks, tents, sleeping bags, snowshoes, and more!

For more information, visit [gvsu.edu/rec/outdoors](https://gvsu.edu/rec/outdoors).

## **Student Wellness**

Life as a GVSU student is fun and exciting, but the college experience and lifestyle may present new challenges and different types of stress. Understanding the eight dimensions of wellness (emotional, environmental, financial, intellectual, occupational, physical, social and spiritual) can help you with your well-being during college and beyond. And, RecWell is here to support you! Connect with peer educators from the Wellness Information Team (WIT) through presentations, social media, or the AskWIT service online to learn more about nutrition, stress, sleep, rest, sexual health, and more. We also offer a variety of sexual wellness services, including free condoms on campus and monthly STI testing in partnership with the local health department.

For more information, visit [gvsu.edu/studentwellness](https://gvsu.edu/studentwellness).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Recreation Facilities**

Recreation facilities at Grand Valley include the Aquatic Center, Climbing Center, Injury Care Clinic, Fieldhouse Arena, Kelly Family Sports Center, and Recreation Center. Access to the Rec Center, Aquatic Center, and Climbing Center is free to students for drop-in use when they present their student ID card. The Rec Center features multisport courts, strength training equipment, functional fitness areas, cardiovascular machines, an elevated track, a spinning room, and locker rooms. There is also a dance studio, racquetball courts, locker rooms, and many academic classrooms. The Kelly Family Sports Center is available for use of the indoor turf field space and the track. There are also many outdoor facilities available, including multiple turfed fields, tennis courts, basketball courts, sand volleyball courts, roller hockey space, an outdoor track, softball fields, walking and running trails, the ravines, and The Meadows golf course.

For more information and hours, visit [gvsu.edu/sportsfacilities](http://gvsu.edu/sportsfacilities).

## **Transportation Services**

Transportation between, within, and around the Grand Rapids Campuses and the Allendale Campus is easy, convenient, and free.

Grand Valley State University offers five designated routes for students, faculty members, and staff members. All Grand Valley and The Rapid routes are free to ride with your student or faculty/staff ID card. All Grand Valley routes are listed as follows. Please view other routes at [www.ridetherapid.org](http://www.ridetherapid.org).

### **Laker Line (LL)**

The Laker Line provides service between the Allendale Campus and Grand Rapids Campuses seven days a week during fall, winter, and spring/summer semesters. The Laker Line makes round trips from the Cook-DeVos Center for Health Sciences (CHS) to Russel H. Kirkhof Center on the Allendale Campus with stops in downtown Grand Rapids, along Lake Michigan Drive, and at Mackinac Hall. Connections to The Rapid Central Station can be made through several routes including the Silver Line and Route 12.

### **North Campus Apartment Shuttle (Route 37)**

The North Campus Express provides service between a variety of private apartment complexes immediately adjacent to the northwest portion of the Allendale Campus. The North Campus Apartment Shuttle runs Monday through Friday during fall and winter semesters only.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**South Apartment Shuttle (Route 48)**

The South Campus Express provides service between a variety of private apartment complexes immediately adjacent to the southwest portion of the Allendale Campus. The South Campus Apartment Shuttle runs Monday through Friday during fall and winter semesters only.

**Apartment Connector (Route 85)**

On early mornings and weekends, the two apartment shuttles combine into one loop, called Route 85. The Apartment Connector (Route 85) is only offered during fall and winter semesters.

Schedules and frequencies for all services are subject to change. Current schedules can be found online at [gvsu.edu/transportation/](http://gvsu.edu/transportation/). Please note that frequencies of service are reduced during spring/summer semesters and Grand Valley State University break periods. Questions about the shuttle bus services should be directed to the Facilities Services Grand Rapids office at (616) 331-6700 or to [bus@gvsu.edu](mailto:bus@gvsu.edu).

## University Counseling Center

The University Counseling Center supports the well-being of individual students and the campus community through a broad spectrum of services, including individual counseling, group counseling, and outreach. The center is staffed by a diverse team of professional counselors committed to recognizing the unique needs and experiences of each student.

Concerns that might benefit from counseling:

- Feelings of anxiety or depression
- Thoughts of harming yourself or someone else
- Problems in relationships
- Issues related to cultural, sexual, or gender identity
- Recent or past trauma
- Death or loss of a loved one
- Drug or alcohol use
- Academic difficulties

**Individual and Group Counseling Services**

The University Counseling Center offers counseling services on both the Allendale Campus and the Pew Grand Rapids Campus at no cost to enrolled Grand Valley students. Counselors and students work together to determine the best course of treatment, which may include individual counseling, group counseling, or referral to a

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

community provider. Students can schedule an initial screening appointment by phone at (616) 331-3266 or in person on the Allendale Campus in 204 STU.

The center also offers urgent care services for students experiencing a mental health crisis. More information about urgent care and emergency mental health resources is available on the University Counseling Center website at [gvsu.edu/counsel](http://gvsu.edu/counsel) or by calling the center during business hours.

## **Outreach Services**

Outreach workshops and events are scheduled throughout the academic year and equip students with the knowledge, skills, and resources necessary to maximize their emotional and physical health. Presentations related to well-being may also be requested on behalf of a student group or organization at any time. To view the outreach calendar or to submit a request for a presentation, please visit the University Counseling Center website at [gvsu.edu/counsel](http://gvsu.edu/counsel). In addition, counselors are available to provide consultation to students with concerns about a roommate, classmate, or other member of the Grand Valley community.

More information about the University Counseling Center and its services can be found at [gvsu.edu/counsel](http://gvsu.edu/counsel).

## **Alcohol and Other Drugs (AOD) Services**

Alcohol and other drug use can affect all aspects of a student's life. AOD Services is devoted to developing and promoting opportunities for students to increase knowledge and skills necessary to make healthy and responsible choices regarding alcohol and other drugs.

AOD Services provides fun and interactive educational programming and supports students who

- want to be informed about the facts regarding substance use;
- may be struggling with alcohol or other drug issues;
- want to explore ways to have fun and enjoy life without substances; and
- are concerned or impacted by someone else's behavior and wish to help.

AOD Services has three main areas of focus: 1) prevention and education, 2) intervention, and 3) recovery. Our staff provides presentations on campus to various groups and organizations. Presentations may be requested through our website at [gvsu.edu/aod/outreach](http://gvsu.edu/aod/outreach). We facilitate alcohol and marijuana education workshops, consultations, and one-on-ones for students interested in learning more or students

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

who need to fulfill a legal or university sanction. Students can utilize our online assessment tools that provide individualized feedback on alcohol, nicotine, marijuana, and other substance use. These online tools can be found on our website at [gvsu.edu/aod](http://gvsu.edu/aod).

Currently enrolled students who may need substance abuse counseling can access counseling services at the University Counseling Center located in 206 Lubbers Student Services Center. The counseling center has staff members who specialize in individual and group substance abuse counseling. Please contact the University Counseling Center for the most current information at (616) 331-3266. AOD Services can provide community referral information if more intensive or longer-term services are needed or if counseling services have been court-ordered or mandated. Additional information regarding community services can be found at [gvsu.edu/aod/community](http://gvsu.edu/aod/community).

The AOD Services office supports recovery meetings on campus for students and the community. These meetings include Alcoholics Anonymous, SMART Recovery, and Adult Children of Alcoholics. For the most up-to-date information about recovery meetings, visit [gvsu.edu/aod/recovery](http://gvsu.edu/aod/recovery). Our website also provides listings of other local counseling and recovery services.

If you have additional questions, please contact us by calling (616) 331-2537 or emailing [aod@gvsu.edu](mailto:aod@gvsu.edu). Additional information can be found on our website including the university's Alcohol and Drug Policy Handbook.

## **Military and Veterans Resource Center**

The Military and Veterans Resource Center provides support services and resources to active duty service members, military veterans, guards/reservists, spouses, and family members. With a single point of contact serving military-connected students, our goal is to ensure we connect student veterans and their families to relevant resources, address emerging issues, and provide the necessary information to help them succeed. Some of the services we offer include:

- Peer Advisor for Veteran Education (PAVE) mentors  
[gvsu.edu/veterans/pave-peer-advisors-56.htm](http://gvsu.edu/veterans/pave-peer-advisors-56.htm)
- Two dedicated veterans' lounges (Allendale and Downtown Grand Rapids)
- Laker Vets: GVSUs award-winning chapter of the Student Veterans of America  
[gvsu.campuslabs.com/engage/organization/student-veterans-of-america](http://gvsu.campuslabs.com/engage/organization/student-veterans-of-america)
- Deployment support
- Free laptop for veterans/active duty
- Veteran-specific scholarships and financial aid counseling
- Housing, employment, and mental health services

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

To contact the Military and Veterans Resource Manager, call (616) 331-2369, email [vets@gvsu.edu](mailto:vets@gvsu.edu), or visit us online at [gvsu.edu/veterans](http://gvsu.edu/veterans).

# **Community Resources**

## **Centers, Institutes, and Offices**

### **Applied Medical Device Institute**

The applied Medical Device Institute (aMDI) serves the medical device community as a focused service enterprise. Medical device innovation begins with an idea. The idea, often in the form of a napkin sketch, must cross a "development valley of death." Ideas need preseed funding; resources in the form of research clinicians, engineers, medical professionals, technicians, and their associated infrastructure; and an integrated process that includes technical, intellectual property, business review, and mentoring.

The aMDI exists as a bridge that spans the development valley of death by providing a means for the idea to be tested and, if technically feasible, a proof-of-concept prototype can be realized. Innovation is then furthered in collaboration with aMDI and other entrepreneurial, regulatory, investment, and business architecture entities. The aMDI provides design and development for manufacturing engineering as the prototype is productized, as well as connects to the regions existing commercialization and financing organizations. In addition to the physicians, nurses, and clinicians, the institute serves small companies as a contract research and development department and serves large companies by providing responsive intellectual capacity to meet the demands of unforeseen business cycles or emerging technologies.

The aMDI differentiates itself with an applied focus, where proof-of-principle and go/no-go criteria are balanced with a risk mitigation plan. This approach provides expedient response time, where cost models provide high value for early concept development and proof-of-principle answers that determine technical feasibility and commercially viability.

The aMDI services the medical device community, which is broad and includes many stakeholders, including but not limited to clinicians, interns, inventors, commercial researchers, engineering firms, integrators, medical device manufacturers and suppliers, research academicians, and students. Strategically located along Grand Rapids Medical Mile, the aMDI is immediately accessible to this broad community. The aMDI will build development teams across the academic, health care, and

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

business communities to pursue funding at federal and state levels (NIH, NSH, DoD agencies, etc.).

The aMDI is West Michigan's medical device technology innovation hub that leverages the vast potential of the Grand Rapids region's academic, medical, technology, industry, and economic development resources. The aMDI's goal is to provide services at every stage of the invention-to-commercialization continuum.

## **Autism Education Center**

The focus of the Autism Education Center (AEC) is to partner with families, educational providers, health care professionals, and community stakeholders to ensure that individuals with Autism Spectrum Disorder (ASD) have access to resources, services, and opportunities so they can have a rich, meaningful life while being fully integrated in their communities.

The primary work of the AEC is conducted through the Statewide Autism Resources and Training (START) Project, a state-funded grant project designed to provide training and technical assistance to educators in Michigan who serve students with ASD. The START Project has been in place since 2001 through the support of the Michigan Department of Education, Office of Special Education. The START Project serves as a coordinating and supporting entity for schools across the State of Michigan to better serve students with ASD. One major emphasis of the START Project is coordination of 16 regional collaborative networks that serve as the infrastructure for collaboration and coordination across school districts and with community stakeholders. This allows shared training and resources and systemic planning on a broad scale that leads to more effective educational programming for students with ASD. The START Project addresses both the individual and system-wide needs of students with ASD including in the classrooms and buildings, as well as at the district and regional levels. All students with ASD deserve a high-quality education and services that enhance their potential to become fully participating citizens. School professionals working with students with ASD learn to implement and promote evidence-based practices such as early intervention, educational supports and strategies, positive behavioral interventions and supports, teaming and collaboration, and peer supports. Educators also need to provide programming that prepares students with ASD for paid work and community integration in adulthood through early job experiences in the community. Throughout the educational process, parents are included as active, contributing members of any team supporting a student with ASD.

The AEC is involved in other projects to support individuals with ASD in the community, including facilitation of summer camp integration, the GVSU Campus

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Links program for students with ASD, implementation of the Michigan ASD State Plan, program development with state autism organizations, and applied research projects. Presentations are provided to the community on various topics related to ASD.

The Autism Education Center's website is [gvsu.edu/autismcenter/](http://gvsu.edu/autismcenter/).

## **Center for Adult and Continuing Studies**

### **Center for Adult and Continuing Studies**

Through an ever-changing, ever-evolving array of programs, the Center for Adult and Continuing Studies (ACS) serves a broad continuum of adult learners. Offerings range from a full degree completion program to short noncredit professional development programs. To learn more about programs offered, visit [gvsu.edu/learn](http://gvsu.edu/learn), email [learn@gvsu.edu](mailto:learn@gvsu.edu) or call (616) 331-7180.

### **Noncredit Professional Development**

ACS noncredit professional development serves adults who are looking to refresh their skills, renew their license, or earn a certificate primarily from the following fields: education, marketing, physical therapy, safety or social work. ACS typically partners with academic departments, licensing agencies, or external content experts to provide market relevant programs. A complete list of programs offered can be found at [gvsu.edu/learn/professional](http://gvsu.edu/learn/professional).

### **Educational Outreach**

The Center for Adult and Continuing Studies expands and supports community and university partnerships. We build mutually beneficial relationships with institutions and organizations that are aligned with academic initiatives. One of our newest professional development programs helps individuals master technologies needed for today's job market. These programs do not award academic credit. To learn more, visit [gvsu.edu/learn/professional](http://gvsu.edu/learn/professional) or contact us by phone at (616) 331-7180.

### **Professional Development Partnership Program (PDP)**

Coordinated through the Center for Adult and Continuing Studies, the PDP creates and maintains partnerships with schools, agencies, and businesses throughout the State of Michigan. PDP offers the opportunity to receive graduate academic credit or state approved continuing education credits for teachers, social workers, and physical therapists. New professional development topics and modalities are being developed to provide our workforce knowledge in advancing skills to increase employability. For more information, call (616) 331-7180 or visit [gvsu.edu/pdp](http://gvsu.edu/pdp).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# Center for Scholarly and Creative Excellence

**Vice Provost for Research Administration and Executive Director:** Robert P. Smart, Ph.D.

**Website:** [gvsu.edu/csce](http://gvsu.edu/csce)

The Center for Scholarly and Creative Excellence (CSCE) promotes a culture of active, engaged, and ethical scholarship through supporting innovative faculty and student research and collaborative partnerships across disciplines and in the broader community. The CSCE encourages innovation and enterprise, facilitates collaborations, and serves as an advocate for university scholarship and creative practice. The CSCE provides help with developing a scholarly agenda, mentoring by senior faculty members, assistance in finding collaborations, and publishing as a scholar.

The center coordinates the efforts of the following units within Grand Valley.

- The **Office of Sponsored Programs** serves faculty and staff members by identifying funding opportunities to resource their scholarly and creative activity and by supporting them in the development, submission, and nonfinancial administration of their externally sponsored programs.
- The **Office of Research Compliance and Integrity** supports faculty, staff, and students by providing guidance and oversight in the areas of research compliance: human subjects research, animal care and use in research and educational activities, export controls, responsible conduct of research, and conflicts of interest in research.
- The **Center for Undergraduate Scholar Engagement (CUSE)** serves students interested in pursuing academic and creative feats outside the classroom. CUSE houses the **Office of Undergraduate Research and Scholarship (OURS)** and the Frederik Meijer Office of Fellowships (FMoF). OURS provides support for undergraduates to pursue the research and creative practice in their discipline. The FMoF supports students and alumni in their exploration and pursuit of nationally competitive scholarships and fellowships.
- The **Technology Commercialization Office** is a resource and partner for university faculty, staff, and students developing technologies with commercial potential. The office acts as a bridge to coordinate efforts between industry and the Grand Valley community by advancing ideas through partnerships.
- The **Office of Laboratory Safety** is responsible for ensuring compliance with federal, state, local and institutional environmental, health, and safety standards in its academic and research activity in labs, studios, shops, classrooms, and field studies.
- The **High-Performance Computing team** provides server-class computing resources for university researchers and offers technical support for secure research data management.

## Design, Optimization, Evaluation, and Redesign Center

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Design, Optimization, Evaluation, and Redesign (DOER) Center was founded in 2006 to draw upon the diverse knowledge of the School of Engineering to benefit local industry and to foster engagement in the community. The DOER Center matches industry partners with expert faculty members and students in short- to medium-term contracts in the furtherance of the School of Engineering's educational mission and to provide an avenue to directly engage expert faculty and students in projects of varying length, schedule, budget, and level of effort.

The DOER Center matches clients with a team of faculty members and students who apply their knowledge to solve advanced industrial problems. Students involved in the DOER Center gain experience in product development and applied research while clients enjoy top quality, highly supervised support at a negotiated, low university rate. In addition to helping prepare the next generation of engineers by providing real-world learning experiences, businesses enjoy valuable and tangible benefits. More information is available by contacting [doer@gvsu.edu](mailto:doer@gvsu.edu).

## **EMC Center**

The EMC Center is a unique facility that has been made possible by an equally unique collaboration between Grand Valley and EMC practitioners from our community.

The intent of the center:

- Provide a one-of-a-kind facility for teaching EMC principles and practices
- Provide GVSU students with the opportunity to gain hands-on experience in the regulatory and testing requirements for EMC compliance
- Support the local industrial community with design/redesign assistance and precompliance testing for products during the development cycle. (Such capabilities are beyond the scope of our local companies.)
- Support continuing education in EMC for practicing professionals
- Support practicing professionals via the IEEE EMC Chapter in West Michigan

Find more information at [gvsu.edu/emccenter/](http://gvsu.edu/emccenter/).

## **Dorothy A. Johnson Center for Philanthropy**

The Dorothy A. Johnson Center for Philanthropy (Johnson Center) is an academic center of Grand Valley, established in 1992 with support from the W.K. Kellogg Foundation. The Johnson Center's mission is to be a global leader in helping individuals and organizations understand, strengthen, and advance philanthropy. The vision of this work is to support a smart, adaptive sector that helps create strong, inclusive communities.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Johnson Center is proud to play a central role in preparing emerging professionals to pursue distinguished careers in the nonprofit sector, as well as to support current professionals and organizations worldwide. Through a variety of student positions, graduate assistantships, and fellowship programs, the Johnson Center provides practical experiences for students seeking degrees in GVSU's School of Public, Nonprofit, and Health Administration and other departments.

The Johnson Center's core work includes the following:

- **Competency-based professional development and capacity building for individuals and organizations.** Programs include: The Grantmaking School, nonprofit workshops, LearnPhilanthropy Academy, and others.
- **Applied research and evaluation of products and services,** including program and strategy evaluation and primary data collection designed to help organizations and individuals bridge the gap between the information they need and the change they want to make. This work includes publication of *The Foundation Review*, the nation's first peer-reviewed journal of philanthropy.
- **Resources and tools to make data and research useful to practitioners and students,** providing context and insight for philanthropy. Through blog posts, webinars, articles, speaking engagements, data tools, and more, Johnson Center staff share core concepts and new frameworks to explore key questions that shape the sector. Community Insight, an online data platform for visualizing communities and advancing equity, is a key offering.

The Johnson Center also operates several affiliate sites serving community leaders, practitioners, students, and scholars:

- **LearnPhilanthropy** is a hub for grantmaker learning, built by and for professionals working in the field. More than 70 content partners contribute to this online information exchange.
- **Our State of Generosity** is an online platform that preserves and shares more than 40 years of history from Michigan's philanthropic sector.
- **Our archives and special collections** provide scholarly resources related to philanthropy and philanthropists in Michigan. The collections support the research interests of visiting scholars; Grand Valley faculty; students in the School of Public, Nonprofit, and Health Administration; and the general public.

## Hauenstein Center for Presidential Studies

Inspired by **Ralph Hauenstein's** life of leadership and service, the Hauenstein Center for Presidential Studies at Grand Valley State University is dedicated to raising a community of ethical, effective leaders for the 21st century. Our first-class initiatives and resources include the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The **Peter C. Cook Leadership Academy** serves university students of all disciplines at all levels of their development. We strive to transform learners into leaders by having them master leadership competencies throughout a rigorous yearlong curriculum exhibited by the digital badges they receive upon completion of the program. Emerging leaders work to become more ethical and effective in their communities through group and personal reflection, mentorship, and frequent engagement with experienced professionals. The Cook Leadership Academy, within the Hauenstein Center for Presidential Studies, has become one of the Midwest's preeminent centers for the exploration and development of leadership excellence. Students interested in applying can find more information on our website.

Our Common Ground Initiative is the oldest such initiative in American higher education. Each year we host programs that encourage progressives and conservatives to work with one another to find common ground for the common good. Our initiative puts our students and community face-to-face with impactful leaders who can meet our increasingly diverse communities political and cultural challenges. Partnering with organizations at Grand Valley and around the state and nation, we host first-class lectures, conversations, debates, panels, and conferences. Launched with support from the National Endowment for the Humanities, these programs challenge leading scholars, writers, and public officials to explore the possible common ground between left and right. In short, in today's hyper-polarized public square, we seek common ground for the common good.

Our website and social media presence opens a worldwide window onto the scholarship we have produced as a presidential studies center, as well as the programs we have offered to the West Michigan community. More than 30 years' worth of videos, transcripts, and original scholarship grows daily. Our website and social media efforts have drawn more than 31 million impressions from around the globe.

The Library of Congress has recognized our book collection as "a uniquely valuable resource." Thanks to J. Randall Bergers, the Hauenstein Center is the only organization in the world to house in one room a complete collection of books written by U.S. presidents. We are also proud to have one of the Midwest's leading espionage and intelligence collections, along with a number of books authored by many of our first ladies.

Working with the Midwestern History Association, the Hauenstein Center has helped revive an academic discipline that for decades had languished. Since 2015, we have hosted annual conferences and contributed to a number of books about the Midwest. The region has once again become the focus of much national discussion surrounding presidential elections, international trade, economic revival, and the nation's intellectual and cultural history.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Since the beginning of time -- at least since *Homer's Iliad* -- veterans and their families have struggled with the silent epidemic of post-traumatic stress and traumatic brain injuries sustained during combat and other difficult situations that arise in military service. The Hidden Wounds of War Conference, hosted by the Hauenstein Center for Presidential Studies, brings awareness and education to the community about treatments and resources.

The Colonel Ralph W. Hauenstein Fellowship is inspired by Colonel Hauenstein's extraordinary life, which exemplified the service and leadership that Grand Valley seeks to cultivate in its lifelong learners and graduates. The Colonel Ralph W. Hauenstein Fellowship honors distinguished individuals whose leadership and public service have shaped the policies that have profoundly influenced the course of our nation and the world. Past recipients include President Gerald R. Ford, Secretary of State Madeleine Albright, Secretary of State James A. Baker III, National Security Advisor Brent Scowcroft, Secretary of Defense William S. Cohen, Secretary of Housing and Urban Development Carla A. Hills, Secretary of Defense Robert Gates, and General Wesley K. Clark.

## **Kutsche Office of Local History**

The Kutsche Office of Local History is a humanities-based learning initiative that blends academics with community engagement. Through this office, students studying in all disciplines are offered opportunities to blend classroom knowledge with hands-on experience in the field of public, local history. Our mission is to use history to foster an earnest appreciation of our common challenges, common destiny, and common humanity.

Our strategy for achieving our mission is three-dimensional. First, the office assists groups that have been understudied and underrecognized to document, preserve, and disseminate their knowledge of history. Second, the office reinforces Grand Valley students' understanding of public, local history by engaging students in hands-on, history-driven, and community-based learning projects and internships.

Finally, the office will support the work of local history institutions and organizations in West Michigan by providing faculty and student research assistance, opportunities for networking and collaboration, and providing information to help local history organizations improve their delivery of public history to the citizens in West Michigan and beyond. For more information, call (616) 331-8099 or email [kutsche@gvsu.edu](mailto:kutsche@gvsu.edu).

## **Mobile Applications and Services Laboratory**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Mobile Applications and Services Laboratory (MASL) is an interdisciplinary initiative hosted by the GVSU School of Computing and Information Systems. MASL offers a unique environment to faculty and students who have interests in emerging mobile technologies from both a research and educational perspective. The emergence of open mobile platforms and thriving mobile application deployment ecosystems makes it possible to explore a variety of experimental in situ research themes in a number of different mobile application domains.

Our approach is unique in that while we engage in academic research in the traditional sense, we are also focused on creating an environment for our undergraduate and graduate students that approximates as much as possible the "real world" outside of the academy. To that end, we are engaged in a number of projects with external industry partners in which students and faculty members are working together to understand how mobile technology can be effectively applied in a variety of real-world situations. We like to call this "application research." Our research has ranged from building apps for patients with traumatic brain injuries to apps that are helping entomologists better understand the declining honeybee populations.

More information on current projects can be found on the laboratory's website at [masl.cis.gvsu.edu](http://masl.cis.gvsu.edu) or by contacting [jonathan.engelsma@gvsu.edu](mailto:jonathan.engelsma@gvsu.edu).

## **Muskegon Innovation Hub**

The Muskegon Innovation Hub at Grand Valley serves as a beacon that celebrates the innovative spirit of entrepreneurs in West Michigan. The hub provides coaching, funding, networking, and a synergistic work environment to help businesses and entrepreneurs maximize their growth potential. As a key partner in the region's innovation ecosystem, the Muskegon Innovation Hub supports startup businesses, entrepreneurs, and corporate innovation teams. Through our business incubator, CoLaunch coworking space, we offer the breadth of support necessary for success, including funding assistance programs and training and event spaces!

The hub's business incubator fosters emerging entrepreneurs to transform their ideas into successful companies through support of a dynamic team specializing in an array of critical business skills. Clients of the incubation program receive ongoing support to spur innovative business growth, which may also include office space located at the hub when required. We understand that every entrepreneur and early-stage company has unique needs requiring customized solutions, which is why we provide tailored programming specific to each of our clients.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**CoLaunch** is a popular feature at the hub. Within the 4,200 square feet of CoLaunch space, members can experience an innovative workplace community culture. Whether you are a freelancer, entrepreneur, or a remote corporate professional, CoLaunch offers creative thinkers a community-driven work environment to spur individual or collaborative projects. Grand Valley students and alumni are always welcome to use CoLaunch for free during regular business hours. Visit us online at [www.colaunch.works](http://www.colaunch.works) to find out more or stop by to experience firsthand our on-site business training tools and resources designed to turn your idea into a business.

As an additional benefit, CoLaunch members receive access to an array of innovative programs and events at the hub. From creative conversations with highly successful entrepreneurs to collaborative workshops and networking opportunities, CoLaunch creates the innovative atmosphere perfect for inventors and business owners at any stage.

Funding is always one of the most challenging, yet vital, parts of building a new business. The hub's funding assistance programs uniquely position us to help clients pursue competitive funding through programs such as the **Business Accelerator Fund** for high-tech and advanced technology companies and other state funding channels. With a history of guiding businesses from startup to success, the hub team welcomes entrepreneurs, inventors, and startups alike.

The hub is also proud to offer a more than 3,000-square-foot training and event space that area organizations and corporations can rent. Ready to be configured to meet your event needs, the hub's meeting spaces are equipped with state-of-the-art technology necessary to conduct modern presentations effectively.

To learn more about the Muskegon Innovation Hub's services and resources, visit [gvsu.edu/mihub](http://gvsu.edu/mihub), email [mihubinfo@gvsu.edu](mailto:mihubinfo@gvsu.edu), or call (616) 331-6900.

## **Regional Math and Science Center**

The Regional Math and Science Center (RMSC) serves the science and mathematics education needs of elementary and secondary schools in West Michigan. The center focuses on providing professional development opportunities for practicing teachers and enrichment activities for precollege students. Preservice teachers are also encouraged to participate in center activities. The Regional Math and Science Center supports the Michigan K-12 curriculum and standards in science and mathematics. The center's staff is available for consultation, professional development resources, and collaboration on grants and science and mathematics programs.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The center administers such popular programs as Science Olympiad, Discovering STEM kits, and STEM summer camps for students as well as the Fall Science Update and professional development opportunities for teachers. These offerings are content-rich and utilize best practice in science and mathematics teaching and learning.

In conjunction with professional development offerings, the RMSC can provide graduate credit for participants: **SCI 580 - Special Topics in Science and Mathematics (1 to 3 credits)**. These are lecture and/or laboratory courses or workshops in interdisciplinary studies relating to more than one science and/or mathematics discipline.

## **Robert and Mary Pew Faculty Teaching and Learning Center**

Guided by the ideals of liberal education and the principles of inclusive excellence, the Robert and Mary Pew Faculty Teaching and Learning Center supports the university in carrying out its primary mission of teaching and learning. The center presents programs for faculty throughout the calendar year, including workshops, mentoring programs, conferences, and consultations. Its staff offers leadership on teaching and learning issues across the university, promotes scholarly and reflective approaches to teaching, and provides support to full-time and part-time faculty. The Pew Faculty Teaching and Learning Center also provides tangible support and recognition of teaching excellence through a grants program and campus-wide teaching awards. The Pew Faculty Teaching and Learning Center is located in Zumerge Hall. For more information, call (616) 331-3498.

## **Robert B. Annis Water Resources Institute**

The Robert B. Annis Water Resources Institute (AWRI) is a multidisciplinary research organization committed to the study of freshwater resources. The mission of the institute is to integrate research, education, and outreach to enhance and preserve freshwater resources.

AWRI seeks to accomplish this mission through

- research into major questions about our water resources, including ecosystem structure and function; contaminants and toxicology; hydrology; land use; watershed, stream, and wetland ecology; water quality; and basic and applied limnology;
- public education for a variety of groups ranging from school children to adults; and
- outreach to ensure that decision makers are equipped with the best available knowledge on environmental and water resource-related issues, to reduce the uncertainty associated with their resource management decisions.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The institute occupies the Lake Michigan Center and Annex on Muskegon Lake in Muskegon, MI. Facilities include classrooms, conference areas, analytical labs, research labs, mesocosms, dockage, and ship support and storage. AWRI also promotes collaborative research and educational programming and offers research space and equipment, as well as ship support facilities to advance such collaborative efforts. AWRI operates its own research vessels, the D.J. Angus and the W.G. Jackson, and offers the Water Resources Outreach Education Program for K-12 schools and community groups.

The institute consists of three main programmatic areas:

- (1) The Ecological Research Program consists of environmental biology and environmental chemistry groups, and it addresses questions about water resources, hydrology, watershed ecology and management, environmental chemistry and toxicology, aquatic ecosystem structure and function, aquatic conservation, land use change, pollution prevention, and aquatic food webs.
- (2) The Information Services Center uses state-of-the-art geospatial technology to collect and analyze data, and condense it into useful information for those who make critical decisions about natural resource management.
- (3) The Education and Outreach Program includes the use of AWRI's two research vessels and provides scientific information to K-12 students, policymakers, educators, college students, and community groups.

Grand Valley students and faculty members have the opportunity to participate in AWRI activities as volunteers, paid assistants, interns, research associates, or graduate students. The AWRI office is located at the Lake Michigan Center, 740 West Shoreline Drive, Muskegon, MI 49441. Telephone (231) 728-3601. More information can be obtained online at [gvsu.edu/wri/](http://gvsu.edu/wri/).

## **Seidman Business Services**

The center provides a forum for members of the local business community and Grand Valley faculty members to exchange ideas on ethical questions for the benefit of the university, business community, and the West Michigan community in general. Entrepreneurs, corporate managers, and faculty members interested in participating in the dialog groups should contact Michael DeWilde by email at [dewildem@gvsu.edu](mailto:dewildem@gvsu.edu).

## **Family Owned Business Institute**

The mission of Grand Valley's Family Owned Business Institute (FOBI) is to champion and serve family owned businesses through scholarship, education, and

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

advocacy. The creation of the institute was born out of the collective belief that family businesses are the cornerstone of a community's prosperity and a vital ingredient in its quality of life. Our national and regional history has demonstrated that it is in the best interest of communities to foster the creation, growth, and continuation of family businesses because they are the leaders in job creation, innovation, and in providing stable employment opportunities with superior wages and benefits to their employees.

Despite their tremendous contributions, family businesses face a unique set of challenges that can limit their impact and threaten their very survival. By providing support through research, curriculum, and knowledge management, FOBI serves to develop, retain, and expand the influence of family businesses within our communities. The institute fosters scholarship through its research programs, its professional relationships and data sources, and its affiliation with local organizations such as the Grand Rapids Family Business Alliance, as well as national and international organizations, like the STEP Project for Family Enterprising.

### **Michigan Small Business Development Center-West Michigan Region**

The Michigan Small Business Development Center (MI-SBDC) West Michigan Region helps entrepreneurs launch and grow their businesses by providing no-cost business consulting, training, and market research. Examples of assistance provided by the SBDC include: business plan development, market research, raising capital, technology commercialization, financial management, export strategy, strategic planning, and cybersecurity training. Michigan SBDC consultants provide professional consulting services at no cost through a partnership between the U.S. Small Business Administration, Michigan Economic Development Corporation, and Grand Valley State University. The West Michigan Region serves small businesses in Kent, Ottawa, Muskegon, Allegan, Ionia, Barry, Montcalm, Mecosta, Newaygo, Oceana, Mason, Lake, and Osceola counties. Entrepreneurs and small business owners can access the services of the West Michigan Region SBDC by calling (616) 331-7370 or visiting the website at [www.sbdcmichigan.org](http://www.sbdcmichigan.org).

### **Michigan Small Business Development Center-Lead Center**

In 2001, Grand Valley became the host of the State Headquarters, now the Lead Center, for the Michigan Small Business Development Center (MI-SBDC). As host of the MI-SBDC Lead Center, the Seidman College of Business oversees the 11-region MI-SBDC statewide network. SBDC regional offices provide one-on-one business consulting, training, market research, and technology commercialization to Michigan businesses. Examples of assistance provided by the SBDC statewide network include: business plan development, market research, raising capital, business workshops, technology commercialization, financial management, export strategy, strategic planning, and cybersecurity training. These services are available at no cost through the support of the U.S. Small Business Administration, the Michigan Economic

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Development Corporation, and Grand Valley State University. Entrepreneurs and small business owners can access the services of their nearest Michigan SBDC office by visiting the website at [www.sbdc-michigan.org](http://www.sbdc-michigan.org).

### **Richard M. and Helen DeVos Center for Entrepreneurship and Innovation**

The Richard M. and Helen DeVos Center for Entrepreneurship and Innovation (CEI) in the Seidman College of Business is dedicated to developing best practices in entrepreneurship education and community engagement that enhance and impact the creation of new ventures and opportunities.

**Student support:** Through a combination of courses, curriculum, peer-to-peer networking, competitions, and mentorship, CEI provides all students an environment that fosters entrepreneurship and enhances entrepreneurial activities.

**Community support:** CEI is committed to supporting and enriching the entrepreneurial community by providing an essential hub where entrepreneurs can connect to resources, mentorship, networking opportunities, regional and national conferences, and workshops, and gain access to capital.

Full descriptions of CEI's activities can be found at [gvsu.edu/cei/](http://gvsu.edu/cei/).

### **U.S. Department of Commerce Export Assistance Center**

The U.S. Department of Commerce Export Assistance Center (USEAC) provides practical international trade information and export counseling throughout West Michigan. The Grand Rapids office of USEAC is located in the Seidman College of Business at Grand Valley. The USEAC regularly hosts student interns and works with the Van Andel Global Trade Center to hold trade education events for businesses such as the annual West Michigan World Trade Week.

### **Van Andel Global Trade Center**

The Van Andel Global Trade Center is an outreach center of the Seidman College of Business. The mission of the Van Andel Global Trade Center (VAGTC) is to strengthen the community through increased global business by providing international consulting, training, and resources. Grand Valley founded the center in 1999, and it is located in the L. William Seidman Center on the Pew Grand Rapids Campus.

VAGTC is recognized as an effective source of international resources, educational training, and assistance services for business and academic communities across Michigan. The center works in strategic partnerships with state and federal

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

organizations; a majority of the time is spent working directly with the business community across the state to accomplish global objectives supporting international growth.

VAGTC services include a series of seminars, workshops, programs, and conferences encompassing many different international business topics. In addition, the center provides vital customized import/export and consulting services for all types of businesses. The center has created global reference materials utilizing many international trade resources to assist businesses with international growth. VAGTC also offers a membership program that provides high-value, high-quality networking opportunities and services to businesses within Michigan and beyond.

Since its inception, VAGTC has assisted more than 9,733 businesses and more than 28,410 individuals through its services. In May 2019, U.S. Secretary of Commerce Wilbur Ross presented the President's "E" Award to the VAGTC. The President's "E" Award is the highest recognition any U.S. entity can receive for making a significant contribution to the expansion of U.S. exports. With a growing membership base, the VAGTC is poised to continue expanding its international impact.

The center is a conduit for students, providing international career opportunities through employment at the center as student assistants and by providing internships within VAGTC, as well as with its clients. In addition, students are exposed to networking opportunities with businesses during center-sponsored events and programs offered to the community.

Benefits to businesses and the university:

- Increased competency within organizations to be globally successful
- Strategic partnerships both inside and outside the university that enhance constituents and stakeholders
- Increased economic development of the region by growing international business

Services to the community:

- International consulting services, training services, resource development, and facilities; job opening connector
- Cultural education, language center, and matchmaking/trade missions/business development
- Provider of foreign trade missions, speaker series, business referral source, and intermediary of international businesses
- Advocacy, service-provider broker, statewide resource center, and research provider

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- Educating Grand Valley's student community on the importance of creating international business relationships, bringing hands-on experience to students who conduct international market research to help Michigan businesses

The Van Andel Legacy: As the founder and pioneer of international trade for Amway, Jay Van Andel was an inspiration for those in Michigan seeking to prosper in expanding overseas markets. It is in this spirit that the Van Andel Global Trade Center is named after Jay Van Andel and is quickly becoming the core facility dedicated to advancing international trade and supporting Michigan businesses as they prepare to enter and prosper in growing global competition.

While leading Amway to record growth through international expansion, Jay Van Andel became convinced the global marketplace would be pivotal in enhancing the prosperity of the region where he began his business. Recognizing that the Grand Rapids campus would be a focal point for international business education and activity, Van Andel became a major benefactor of the building where the VAGTC originally resided. Named in his honor and dedicated to international business assistance for local companies, the Van Andel Global Trade Center is the university's commitment to fulfilling the global vision of one of Michigan's most outstanding global leaders and entrepreneurs.

## Degree Types

Doctor of Audiology (Au.D.)  
 Bachelor of Arts (B.A.)  
 Bachelor of Business Administration (B.B.A.)  
 Bachelor of Fine Arts (B.F.A.)

- ART 333 - Curriculum Development and Practice (3 credits)
- ART 335 - Digital Creativity (3 credits)
- ART 345 - Relevant Skills for the Jeweler (3 credits)
- ART 346 - Intermediate Jewelry and Metalsmithing I (3 credits)
- ART 347 - Intermediate Jewelry and Metalsmithing II (3 credits)
- ART 350 - Learning to See: Visual Training for the Health Care Professional (3 credits)
- ART 355 - Advanced Drawing I (3 credits)
- ART 356 - Advanced Drawing II (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ART 361 - Intermediate Painting I (3 credits)
- ART 362 - Intermediate Painting II (3 credits)
- ART 366 - Intermediate Printmaking I (3 credits)
- ART 367 - Intermediate Printmaking II (3 credits)
- ART 368 - Alternative Photographic Print Processes (3 credits)
- ART 371 - Intermediate Sculpture 1: Fabrications (3 credits)
- ART 372 - Intermediate Sculpture 2: Replications (3 credits)
- ART 376 - Intermediate Ceramics 1: Wheel Throwing (3 credits)
- ART 377 - Intermediate Ceramics 2: Voice/Concept (3 credits)
- ART 380 - Special Topics in Art and Design (1 to 3 credits)
- ART 381 - Intermediate Illustration I (3 credits)
- ART 382 - Intermediate Illustration II (3 credits)
- ART 385 - Figure Painting (3 credits)
- ART 386 - Art History Study Abroad (3 credits)
- ART 387 - Studio Art Abroad (3 credits)
- ART 391 - Civic Studio (3 credits)
- ART 392 - Curatorial Studio (3 credits)
- ART 393 - Image Studio (3 credits)
- ART 394 - Interactive Studio (3 credits)
- ART 395 - Space Studio (3 credits)
- ART 396 - Time Studio (3 credits)
- ART 399 - Independent Readings in Art (1 to 4 credits)
- ART 401 - Senior Seminar (3 credits)
- ART 410 - Graphic Design V (3 credits)
- ART 413 - Portfolio (3 credits)
- ART 415 - Senior Project: Graphics/Illustration (3 credits)
- ART 420 - Asian Art (3 credits)
- ART 421 - Surrealism (3 credits)
- ART 422 - Art and the Worlds of Islam (3 credits)
- ART 423 - Animals in Art (3 credits)
- ART 425 - Depicting a Nation: 19th Century American Art (3 credits)
- ART 447 - Advanced Jewelry and Metalsmithing I (3 credits)
- ART 448 - Advanced Jewelry and Metalsmithing II (3 credits)
- ART 462 - Advanced Painting I (3 credits)
- ART 463 - Advanced Painting II (3 credits)
- ART 467 - Advanced Printmaking I (3 credits)
- ART 468 - Advanced Printmaking II (3 credits)
- ART 472 - Advanced Sculpture 1 (3 credits)
- ART 473 - Advanced Sculpture 2 (3 credits)
- ART 477 - Advanced Ceramics 1 (3 credits)
- ART 478 - Advanced Ceramics 2 (3 credits)
- ART 479 - Glaze Calculation (3 credits)
- ART 482 - Advanced Illustration I (3 credits)
- ART 483 - Advanced Illustration II (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ART 490 - Internship in Art History (1 to 6 credits)
- ART 491 - Internship in Studio Art (1 to 6 credits)
- ART 495 - Issues in Art (Capstone) (3 credits)
- ART 498 - Senior Project (6 credits)
- ART 499 - Independent Study in Art (1 to 6 credits)

## **American Sign Language (ASL)**

### **Courses**

- ASL 201 - American Sign Language 1 (3 credits)
- ASL 202 - American Sign Language 2 (3 credits)
- ASL 203 - American Sign Language 3 (3 credits)
- ASL 380 - Special Topics in American Sign Language (1 to 9 credits)
- ASL 421 - Deaf History and Culture (3 credits)
- ASL 423 - ASL Interpreting Practicum (6 credits)

## **Athletic Training (ATH)**

### **Courses**

- ATH 210 - Directed Observation in AT (1 credit)
- ATH 217 - Modern Principles of Athletic Training (2 credits)
- ATH 218 - Modern Principles of Athletic Training Lab (1 credit)
- ATH 506 - Intervention and Referral (2 credits)
- ATH 514 - Assessment and Evaluation I (4 credits)
- ATH 515 - Assessment and Evaluation II (4 credits)
- ATH 521 - Athletic Training Clinical I (3 credits)
- ATH 522 - Athletic Training Clinical II (3 credits)
- ATH 523 - Methods of Evidence-Based Practice in Athletic Training (3 credits)
- ATH 525 - Prehospital Care of the Injured Patient (4 credits)
- ATH 530 - General Medical Conditions in Athletic Training (3 credits)
- ATH 575 - Therapeutic Interventions I (4 credits)
- ATH 607 - Pharmacology in Athletic Training (3 credits)
- ATH 626 - Athletic Training Clinical III (4 credits)
- ATH 628 - Athletic Training Clinical IV (4 credits)
- ATH 675 - Therapeutic Interventions II (4 credits)
- ATH 685 - Advanced Techniques in Athletic Training (2 credits)
- ATH 689 - Professional Topics in Athletic Training (3 credits)
- ATH 693 - Project in Athletic Training (1 to 3 credits)
- ATH 697 - Professional Learning (1 to 3 credits)

## **Biology (BIO)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Courses

- BIO 104 - Biology for the 21st Century (4 credits)
- BIO 105 - Environmental Science (3 credits)
- BIO 107 - Great Lakes and Other Water Resources (4 credits)
- BIO 109 - Plants in the World (4 credits)
- BIO 120 - General Biology I (4 credits)
- BIO 121 - General Biology II (4 credits)
- BIO 180 - Special Topics in Biology (1 to 4 credits)
- BIO 205 - Genetics for PK-6 Teachers (3 credits)
- BIO 210 - Evolutionary Biology (3 credits)
- BIO 215 - Ecology (4 credits)
- BIO 222 - Natural History of Vertebrates (3 credits)
- BIO 232 - Natural History of Invertebrates (3 credits)
- BIO 243 - Plant Identification and Natural History (3 credits)
- BIO 272 - Insect Biology and Diversity (3 credits)
- BIO 280 - Special Topics in Biology (1 to 4 credits)
- BIO 302 - Comparative Vertebrate Anatomy (4 credits)
- BIO 303 - Plant Morphology (4 credits)
- BIO 308 - Wildlife Ecology (4 credits)
- BIO 309 - Plants and Human Health (3 credits)
- BIO 311 - Who's Running Your Life: Genes, Evolution and Behavior (3 credits)
- BIO 313 - Plants and Islands (4 credits)
- BIO 317 - Principles of Animal Nutrition (3 credits)
- BIO 319 - Global Agricultural Sustainability (3 credits)
- BIO 323 - Aquatic and Wetland Plants (3 credits)
- BIO 325 - Human Sexuality (3 credits)
- BIO 328 - Biomedical Ethics (3 credits)
- BIO 329 - Evolution of Social Behavior (3 credits)
- BIO 333 - Systematic Botany (4 credits)
- BIO 338 - Environmental Ethics (3 credits)
- BIO 342 - Ornithology (3 credits)
- BIO 352 - Animal Behavior (3 credits)
- BIO 355 - Human Genetics (3 credits)
- BIO 357 - Environmental Microbiology (4 credits)
- BIO 362 - Biology and Diversity of Fishes (4 credits)
- BIO 370 - Marine Biology (3 credits)
- BIO 375 - Genetics (3 credits)
- BIO 376 - Genetics Laboratory (1 credit)
- BIO 380 - Special Topics in Biology (1 to 4 credits)
- BIO 383 - Plant-Fungal Interactions (4 credits)
- BIO 386 - Ecological Restoration and Management (4 credits)
- BIO 396 - Laboratory Assistant in Genetics (1 credit)
- BIO 399 - Selected Experiences in Biology (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- BIO 402 - Aquatic Insects (3 credits)
- BIO 403 - Plant Structure and Function (4 credits)
- BIO 407 - Biology and Society: Study Abroad (1 to 4 credits)
- BIO 408 - Wildlife Management (4 credits)
- BIO 412 - Mammalogy (4 credits)
- BIO 413 - Freshwater Algae (3 credits)
- BIO 415 - Fire Ecology and Management (3 credits)
- BIO 416 - Advanced Genetics Laboratory (2 credits)
- BIO 417 - International Field Biology (1 to 4 credits)
- BIO 422 - Embryology (3 credits)
- BIO 423 - Plant Biotechnology (3 credits)
- BIO 430 - Advanced Wildland Fire Management (2 credits)
- BIO 432 - Comparative Animal Physiology (4 credits)
- BIO 433 - Plant Ecology (4 credits)
- BIO 440 - Limnology (4 credits)
- BIO 444 - Herpetology (4 credits)
- BIO 451 - Stream Ecology (4 credits)
- BIO 452 - Human Evolution (3 credits)
- BIO 460 - Terrestrial Ecosystem Ecology (4 credits)
- BIO 470 - Conservation Biology (3 credits)
- BIO 473 - Ecology and Evolution of Plant-Animal Interactions (3 credits)
- BIO 475 - Population Genetics (3 credits)
- BIO 480 - Special Topics in Biology (1 to 4 credits)
- BIO 485 - Molecular Ecology (3 credits)
- BIO 486 - Restoration Ecology (3 credits)
- BIO 490 - Internship (1 to 6 credits)
- BIO 495 - Perspectives in Biology (Capstone) (3 credits)
- BIO 499 - Research in Biology (1 to 4 credits)
- BIO 502 - Aquatic Insects (3 credits)
- BIO 503 - Plant Structure and Function (4 credits)
- BIO 508 - Wildlife Management (4 credits)
- BIO 512 - Mammalogy (3 credits)
- BIO 513 - Freshwater Algae (3 credits)
- BIO 515 - Fire Ecology and Management (3 credits)
- BIO 532 - Advanced Aquatic Ecology (3 credits)
- BIO 540 - Limnology (4 credits)
- BIO 544 - Herpetology (3 credits)
- BIO 551 - Stream Ecology (3 credits)
- BIO 560 - Advanced Community Ecology (3 credits)
- BIO 570 - Landscape Ecology Theory and Application (3 credits)
- BIO 572 - Conservation Biology (3 credits)
- BIO 573 - Ecology and Evolution of Plant-Animal Interactions (3 credits)
- BIO 575 - Population Genetics (3 credits)
- BIO 580 - Special Topics in Biology (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- BIO 585 - Molecular Ecology (3 credits)
- BIO 586 - Restoration Ecology (3 credits)
- BIO 593 - Advanced Univariate Methods (3 credits)
- BIO 594 - Advanced Multivariate Methods (3 credits)
- BIO 610 - Scientific Methodology (3 credits)
- BIO 651 - Emerging Issues in Water Resources (2 credits)
- BIO 680 - Special Topics in Biology (1 to 3 credits)
- BIO 691 - Graduate Internship (3 to 9 credits)
- BIO 693 - Graduate Project (3 to 9 credits)
- BIO 695 - Thesis Research (3 to 9 credits)
- BIO 696 - Continuation of Master's Project or Thesis Research (1 credit)
- BIO 697 - Professional Learning (1 to 3 credits)
- BIO 698 - Perspectives in Biology (3 credits)
- BIO 699 - Independent Study (1 to 3 credits)

## **Biomedical Sciences (BMS)**

### **Courses**

- BMS 100 - Human Health and Disease (3 credits)
- BMS 105 - Basic Nutrition (3 credits)
- BMS 180 - Special Topics in the Biomedical Sciences (1 to 4 credits)
- BMS 202 - Anatomy and Physiology (4 credits)
- BMS 208 - Human Anatomy (3 credits)
- BMS 212 - Introductory Microbiology (3 credits)
- BMS 213 - Laboratory in Microbiology (1 credit)
- BMS 223 - Infectious Human Diseases; Prevention and Control (3 credits)
- BMS 250 - Anatomy and Physiology I (4 credits)
- BMS 251 - Anatomy and Physiology II (4 credits)
- BMS 280 - Special Topics in Biomedical Sciences (1 to 4 credits)
- BMS 290 - Human Physiology (3 credits)
- BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)
- BMS 304 - Community Nutrition (3 credits)
- BMS 305 - Clinical Nutrition (3 credits)
- BMS 306 - Advanced Human Nutrition (3 credits)
- BMS 309 - Laboratory in Human Anatomy (1 credit)
- BMS 310 - Basic Pathophysiology (3 credits)
- BMS 311 - Pharmacological Aspects of Biomedical Sciences (3 credits)
- BMS 312 - Bacterial Genetics (3 credits)
- BMS 313 - Bacterial Genetics Laboratory (1 credit)
- BMS 355 - Anatomy of Joints (2 credits)
- BMS 374 - Physiological Aspects of Death and Dying (3 credits)
- BMS 375 - The Biology of Aging (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- BMS 380 - Special Topics in the Biomedical Sciences (1 to 6 credits)
- BMS 391 - Laboratory in Human Physiology (2 credits)
- BMS 392 - Laboratory Assistant in Physiology (1 credit)
- BMS 393 - Laboratory Assistant in Human Anatomy (1 credit)
- BMS 394 - Laboratory Assistant in Microbiology (1 credit)
- BMS 399 - Readings in the Biomedical Sciences (1 to 3 credits)
- BMS 407 - Nutrition in the Life Cycle (3 credits)
- BMS 409 - Endocrinology (3 credits)
- BMS 410 - Immunology (3 credits)
- BMS 412 - Medical Bacteriology (3 credits)
- BMS 413 - Medical Bacteriology Laboratory (2 credits)
- BMS 415 - Nutrition and Physical Performance (3 credits)
- BMS 422 - Bacterial Physiology (3 credits)
- BMS 423 - Bacterial Physiology Laboratory (2 credits)
- BMS 426 - Sensory Systems Neuroscience: Anatomy and Physiology (3 credits)
- BMS 427 - Neuroanatomy (1 credit)
- BMS 428 - Neurosciences (3 credits)
- BMS 431 - Medical Virology (3 credits)
- BMS 432 - Medical Mycology (3 credits)
- BMS 433 - Medical Parasitology (3 credits)
- BMS 450 - Human Histology (4 credits)
- BMS 460 - Regional Human Anatomy (4 credits)
- BMS 480 - Special Topics in the Biomedical Sciences (1 to 4 credits)
- BMS 492 - Biomedical Sciences Internship (1 to 4 credits)
- BMS 495 - Concepts in Wellness (Capstone) (3 credits)
- BMS 499 - Research in the Biomedical Sciences (1 to 3 credits)
- BMS 501 - Graduate Seminar in Biomedical Sciences (1 credit)
- BMS 508 - Advanced Human Physiology (3 credits)
- BMS 509 - Endocrinology (3 credits)
- BMS 510 - Immunology (3 credits)
- BMS 512 - Medical Bacteriology (3 credits)
- BMS 523 - Epidemiology (3 credits)
- BMS 531 - Medical Virology (3 credits)
- BMS 532 - Medical Mycology (3 credits)
- BMS 538 - Advanced Neuroscience (3 credits)
- BMS 540 - Molecular Ecology of Infectious Disease (3 credits)
- BMS 550 - Human Histology (4 credits)
- BMS 560 - Regional Human Anatomy (4 credits)
- BMS 561 - Prosected Regional Anatomy (4 credits)
- BMS 601 - Experimental Design (3 credits)
- BMS 605 - Core Principles of Gross Anatomy (4 credits)
- BMS 607 - Infection and Immunity (3 credits)
- BMS 608 - Pathologic Physiology (3 credits)
- BMS 655 - Advanced Human Anatomy (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- BMS 679 - Clinical Practicum (3 to 6 credits)
- BMS 680 - Special Topics in the Biomedical Sciences (1 to 3 credits)
- BMS 693 - Project in Biomedical Sciences (3 credits)
- BMS 695 - Master's Thesis Research (3 or 6 credits)
- BMS 696 - Continuation of Master's Project or Thesis Research (1 credit)
- BMS 697 - Professional Learning (1 to 3 credits)
- BMS 699 - Independent Study (1 to 3 credits)

## **Business (BUS)**

### **Courses**

- BUS 101 - Introduction to Business (3 credits)
- BUS 180 - Special Topics in Business (1 to 3 credits)
- BUS 201 - Legal Environment for Business (3 credits)
- BUS 280 - Special Topics in Business (1 to 3 credits)
- BUS 301 - International Business and Culture (3 credits)
- BUS 380 - Special Topics in Business (1 to 3 credits)
- BUS 399 - Readings in Business (1 to 3 credits)
- BUS 470 - Applied Business Solutions (1 to 3 credits)
- BUS 490 - Business Internship (1 to 6 credits)
- BUS 499 - Independent Research (1 to 3 credits)
- BUS 501 - Self-Management for Leaders (2 credits)
- BUS 502 - Operational Alignment for Leaders (2.5 credits)
- BUS 503 - Leading and Empowering Teams (2.5 credits)
- BUS 504 - Essentials of Enterprise Leadership (3.5 credits)
- BUS 505 - Implementing Principles of Strategic Leadership (3.5 credits)
- BUS 531 - Legal Environment of Business (2 credits)
- BUS 570 - Applied Business Solutions (1 to 3 credits)
- BUS 610 - Management Information Systems and Org Processes (3 credits)
- BUS 631 - Leadership and Organizational Dynamics (3 credits)
- BUS 634 - Sustainability Principles and Practices (1.5 credits)
- BUS 656 - Management of Technology (3 credits)
- BUS 671 - Global Competitiveness (3 credits)
- BUS 677 - Business Ethical Problems and Perspectives (1.5 credits)
- BUS 680 - Special Topics in Business (1 to 4 credits)
- BUS 681 - Strategy (3 credits)
- BUS 685 - Study Abroad (3 credits)
- BUS 697 - Professional Learning (1 to 3 credits)
- BUS 698 - Washington Program (3 credits)
- BUS 699 - Independent Study (1 to 3 credits)

## **Advertising/Public Relations (CAP)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Courses**

- CAP 105 - Technology in Public Relations and Advertising (3 credits)
- CAP 115 - Research Basics for Advertising and Public Relations (3 credits)
- CAP 209 - Advertising Basics (3 credits)
- CAP 210 - Fundamentals of Advertising (3 credits)
- CAP 219 - Public Relations Basics (3 credits)
- CAP 220 - Fundamentals of Public Relations (3 credits)
- CAP 305 - Sports Promotion (3 credits)
- CAP 310 - Advertising Management and Cases (3 credits)
- CAP 315 - Advertising Copywriting (3 credits)
- CAP 320 - Public Relations Management and Cases (3 credits)
- CAP 321 - Media Relations Writing (3 credits)
- CAP 325 - Advertising and Public Relations Ethics and Law (3 credits)
- CAP 380 - Special Topics in Advertising and Public Relations (3 credits)
- CAP 399 - Independent Study in Advertising/Public Relations (1 to 6 credits)
- CAP 413 - Media Planning (3 credits)
- CAP 423 - Writing Corporate Communications (3 credits)
- CAP 425 - International Advertising and Public Relations (3 credits)
- CAP 490 - Internship in Advertising/Public Relations (1 to 6 credits)
- CAP 494 - Advertising and Public Relations Agency Experience (3 credits)
- CAP 495 - Advertising and Public Relations Campaign (3 credits)

## **Broadcasting (CBR)**

### **Courses**

- CBR 485 - Audio Production III (3 credits)

## **Clinical Dietetics (CD)**

### **Courses**

- CD 501 - Emerging Professional Practice Issues in Clinical Dietetics (2 credits)
- CD 505 - Health Care Regulation and Policy in Dietetic Practice (2 credits)
- CD 510 - Nutritional Assessment (3 credits)
- CD 516 - Food and Culinary Science (4 credits)
- CD 520 - Supervised Practice: Food Management Systems (3 credits)
- CD 530 - Supervised Practice: Community Nutrition I (3 credits)
- CD 550 - Social Determinants in Food, Culture, and Environmental Justice (3 credits)
- CD 560 - Advanced Nutrition Education, Counseling, and Coaching (3 credits)
- CD 600 - Advanced Medical Nutritional Therapy I (3 credits)
- CD 610 - Advanced Medical Nutritional Therapy II (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- CD 620 - Micronutrient Metabolism and Genetic Considerations in Clinical Dietetics (3 credits)
- CD 625 - Supervised Practice: Clinical Nutrition I (5 credits)
- CD 630 - Supervised Practice: Community Nutrition II (2 credits)
- CD 640 - Supervised Practice: Clinical Nutrition II (5 credits)
- CD 650 - Supervised Practice: Area of Specialization (2 credits)
- CD 689 - Seminar in Clinical Dietetics (1 credit)
- CD 690 - Research Methodology in Clinical Dietetics (2 credits)
- CD 693 - Master's Project (1 credit)
- CD 695 - Thesis Research in Clinical Dietetics (1 to 6 credits)
- CD 696 - Continuation of Master's Thesis or Project (1 credit)
- CD 697 - Professional Learning (1 to 3 credits)

## Chinese (CHI)

### Courses

- CHI 101 - Beginning Chinese I: Language and Culture (4 credits)
- CHI 102 - Beginning Chinese II: Language and Culture (4 credits)
- CHI 150 - Accelerated Beginning Chinese I and II: Language and Culture (4 credits)
- CHI 180 - Special Topics in Chinese (1 to 4 credits)
- CHI 185 - Supplementary Elementary Chinese (3 credits)
- CHI 201 - Intermediate Chinese I: Language and Culture (4 credits)
- CHI 202 - Intermediate Chinese II: Language and Culture (4 credits)
- CHI 236 - Popular Chinese Fiction (3 credits)
- CHI 280 - Special Topics in Chinese (1 to 4 credits)
- CHI 285 - Supplementary Intermediate Chinese (3 credits)
- CHI 301 - Advanced Intermediate Chinese I (3 credits)
- CHI 302 - Advanced Intermediate Chinese II (3 credits)
- CHI 321 - Ancient Chinese Culture (3 credits)
- CHI 322 - Classical Chinese Culture (3 credits)
- CHI 323 - Late Imperial Chinese Culture (3 credits)
- CHI 324 - Contemporary Chinese Culture (3 credits)
- CHI 341 - Introduction to Classical Chinese (3 credits)
- CHI 351 - Practical Chinese (3 credits)
- CHI 380 - Special Topics in Chinese (3 credits)
- CHI 385 - Supplementary Advanced Intermediate Chinese (3 credits)
- CHI 386 - Chinese Culture and Society - in Taiwan (3 credits)
- CHI 387 - Chinese Culture and Society - in China (3 credits)
- CHI 399 - Independent Reading (1 to 4 credits)
- CHI 480 - Special Topics in Chinese (1 to 4 credits)

## Chemistry (CHM)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Courses

- CHM 100 - Preparatory Chemistry (3 credits)
- CHM 102 - Chemistry and Society (3 credits)
- CHM 109 - Introductory Chemistry (4 credits)
- CHM 111 - Introduction to Green Chemistry (3 credits)
- CHM 115 - Principles of Chemistry I (4 credits)
- CHM 116 - Principles of Chemistry II (5 credits)
- CHM 180 - Special Topics in Chemistry (1 to 3 credits)
- CHM 201 - Introduction to Chemical Sciences (3 credits)
- CHM 221 - Survey of Analytical Chemistry (4 credits)
- CHM 230 - Introduction to Organic and Biochemistry (4 credits)
- CHM 231 - Introductory Organic Chemistry (4 credits)
- CHM 232 - Biological Chemistry (4 credits)
- CHM 241 - Organic Chemistry for Life Sciences I (5 credits)
- CHM 242 - Organic Chemistry for Life Sciences II (4 credits)
- CHM 245 - Principles of Organic Chemistry I (4 credits)
- CHM 246 - Principles of Organic Chemistry I Lab (1 credit)
- CHM 247 - Principles of Organic Chemistry II (3 credits)
- CHM 248 - Principles of Organic Chemistry II Lab (1 credit)
- CHM 273 - Principles of Inorganic Chemistry (3 credits)
- CHM 280 - Special Topics in Chemistry (1 to 3 credits)
- CHM 325 - Instrumental Analysis (4 credits)
- CHM 351 - Introduction to Physical Chemistry (3 credits)
- CHM 352 - Physical Chemistry Laboratory (1 credit)
- CHM 356 - Physical Chemistry I (3 credits)
- CHM 358 - Physical Chemistry II (3 credits)
- CHM 380 - Special Topics in Chemistry (1 to 3 credits)
- CHM 391 - Chemistry Seminar I (1 credit)
- CHM 399 - Readings in Chemistry (1 to 2 credits)
- CHM 421 - Green Chemistry for Sustainable Environment (3 credits)
- CHM 427 - Green and Environmental Chemistry Laboratory (3 credits)
- CHM 441 - Advanced Topics in Organic Chemistry (3 credits)
- CHM 442 - Synthetic Polymers: Life Cycle and Emerging Sustainable Technologies (3 credits)
- CHM 447 - Organic Synthesis and Characterization (3 credits)
- CHM 457 - Advanced Physical and Instrumental Chemistry Laboratory (3 credits)
- CHM 461 - Biochemistry I (4 credits)
- CHM 462 - Techniques in Biochemistry (3 credits)
- CHM 463 - Biochemistry II (3 credits)
- CHM 471 - Advanced Inorganic Chemistry (3 credits)
- CHM 475 - Electrochemistry (3 credits)
- CHM 477 - Synthetic Inorganic Chemistry (3 credits)
- CHM 480 - Special Topics in Chemistry (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- CHM 490 - Chemistry Laboratory Internship (1 to 4 credits)
- CHM 491 - Chemistry Seminar II (1 credit)
- CHM 499 - Investigation Problems (1 to 5 credits)
- CHM 580 - Special Topics in Chemistry (1 to 3 credits)
- CHM 697 - Professional Learning (1 to 3 credits)

## **Chinese Studies (CHS)**

### **Courses**

- CHS 380 - Special Topics in Chinese Studies (1 to 9 credits)

## **Computer Information Systems (CIS)**

### **Courses**

- CIS 101 - Thriving in our Digital World (3 credits)
- CIS 150 - Introduction to Computing (3 credits)
- CIS 159 - Java Programming for Engineers (1 credit)
- CIS 160 - Learn to Code in Python (3 credits)
- CIS 161 - Computational Science (3 credits)
- CIS 162 - Computer Science I (4 credits)
- CIS 163 - Computer Science II (4 credits)
- CIS 180 - Special Topics in Computer Information Systems (1 to 4 credits)
- CIS 221 - Excel Concepts and Applications I (1.5 credits)
- CIS 230 - Hardware and Software (3 credits)
- CIS 231 - Problem Solving Using Spreadsheets (3 credits)
- CIS 233 - Concepts of Database Systems (3 credits)
- CIS 237 - Introduction to Network Management (3 credits)
- CIS 238 - Internet Media and Programming (3 credits)
- CIS 241 - System-level Programming and Utilities (3 credits)
- CIS 250 - Principles of Information Systems (3 credits)
- CIS 253 - COBOL (4 credits)
- CIS 258 - Introduction to Cybersecurity (3 credits)
- CIS 260 - Application Development in Visual Basic (4 credits)
- CIS 263 - Data Structures and Algorithms (3 credits)
- CIS 280 - Special Topics in Computer Information Systems (1 to 3 credits)
- CIS 290 - Professional Responsibilities and Practices (3 credits)
- CIS 309 - Teaching Computer Science (3 credits)
- CIS 310 - Introduction to the Structure and Mechanics of Social Networks (3 credits)
- CIS 320 - Visualization of Data and Information (3 credits)
- CIS 321 - Excel Concepts and Applications II (1.5 credits)
- CIS 330 - Systems Analysis and Design (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- CIS 331 - Data Analysis Tools and Techniques (3 credits)
- CIS 333 - Database Management and Implementation (3 credits)
- CIS 335 - Data Mining (3 credits)
- CIS 337 - Network Systems Management (3 credits)
- CIS 338 - Wide Area Network Engineering (3 credits)
- CIS 339 - Project Planning (3 credits)
- CIS 340 - Health Care Information Systems (3 credits)
- CIS 343 - Structure of Programming Languages (3 credits)
- CIS 349 - Agile Project Management (3 credits)
- CIS 350 - Introduction to Software Engineering (3 credits)
- CIS 351 - Computer Organization and Assembly Language (4 credits)
- CIS 353 - Database (3 credits)
- CIS 357 - Mobile Application Development (3 credits)
- CIS 358 - Information Assurance (3 credits)
- CIS 360 - Information Management and Science (3 credits)
- CIS 365 - Artificial Intelligence (3 credits)
- CIS 367 - Computer Graphics (3 credits)
- CIS 368 - Usability Design and Evaluation (3 credits)
- CIS 371 - Web Application Programming (3 credits)
- CIS 373 - Pervasive Computing (3 credits)
- CIS 375 - Wireless Networks and Security (3 credits)
- CIS 376 - Game Programming Techniques and Algorithms (3 credits)
- CIS 380 - Special Topics in Computer Information Systems (1 to 4 credits)
- CIS 399 - Independent Readings (1 to 4 credits)
- CIS 418 - Secure Software Engineering (3 credits)
- CIS 430 - Computer and Cyber Forensics (3 credits)
- CIS 437 - Distributed Computing (4 credits)
- CIS 443 - Software Development Tools (3 credits)
- CIS 450 - IS Project Management (3 credits)
- CIS 451 - Computer Architecture (3 credits)
- CIS 452 - Operating Systems Concepts (4 credits)
- CIS 455 - Applied Cryptography (3 credits)
- CIS 456 - Reverse Engineering and Malware Analysis (3 credits)
- CIS 457 - Data Communications (4 credits)
- CIS 458 - System Security (3 credits)
- CIS 460 - Management of Information Systems (3 credits)
- CIS 461 - Compiler Design and Construction (3 credits)
- CIS 462 - Information Technology Project (3 credits)
- CIS 463 - Information Systems Project (3 credits)
- CIS 465 - Automata and Theory of Computation (3 credits)
- CIS 467 - Computer Science Project (3 credits)
- CIS 468 - Cybersecurity Project (3 credits)
- CIS 480 - Special Topics in Computer Information Systems (1 to 4 credits)
- CIS 490 - Internship (2 to 5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- CIS 499 - Independent Study and Research (1 to 4 credits)
- CIS 500 - Fundamentals of Software Practice (3 credits)
- CIS 501 - Fundamentals of Modern Computer Systems (3 credits)
- CIS 511 - Networking Fundamentals (1 credit)
- CIS 512 - Database Fundamentals (1 credit)
- CIS 518 - Secure Software Engineering (3 credits)
- CIS 555 - Applied Cryptography (3 credits)
- CIS 611 - Introduction to Software Engineering (3 credits)
- CIS 612 - Requirements Specification (3 credits)
- CIS 613 - Software Testing (3 credits)
- CIS 615 - Information Security Principles (3 credits)
- CIS 616 - Data Security and Privacy (3 credits)
- CIS 617 - Digital Forensics and Investigations (3 credits)
- CIS 619 - Data Analytics for Cybersecurity (3 credits)
- CIS 622 - Software Design Methodologies (3 credits)
- CIS 623 - Graphical User Interface Design (3 credits)
- CIS 635 - Knowledge Discovery and Data Mining (3 credits)
- CIS 641 - Systems Analysis and Design (3 credits)
- CIS 642 - IS Project Management (3 credits)
- CIS 643 - Information Systems Policy and Strategy (3 credits)
- CIS 654 - Computer Networking (3 credits)
- CIS 656 - Distributed Systems (3 credits)
- CIS 657 - Mobile Application Development (3 credits)
- CIS 658 - Web Architectures (3 credits)
- CIS 660 - Information Management and Science (3 credits)
- CIS 661 - Introduction to Health and Bioinformatics (3 credits)
- CIS 665 - Clinical Information Systems (3 credits)
- CIS 671 - Information Visualization (3 credits)
- CIS 672 - Computer Systems Architecture (3 credits)
- CIS 673 - Principles of Database Design (3 credits)
- CIS 675 - Compiler Construction (3 credits)
- CIS 676 - Database Management Systems (3 credits)
- CIS 677 - High-performance Computing (3 credits)
- CIS 678 - Machine Learning (3 credits)
- CIS 679 - Special Topics in Database Management (3 credits)
- CIS 680 - Special Topics in Computer Information Systems (3 credits)
- CIS 685 - Computing Practicum (1 credit)
- CIS 690 - Thesis Research Preparation (3 credits)
- CIS 691 - Medical and Bioinformatics Capstone (3 credits)
- CIS 692 - Master's Capstone (3 credits)
- CIS 693 - Master's Project (3 credits)
- CIS 695 - Master's Thesis (3 credits)
- CIS 696 - Continuation of Master's Project or Thesis Research (1 credit)
- CIS 697 - Professional Learning (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- CIS 699 - Directed Readings in Computer Science (1 to 3 credits)

## **Criminal Justice (CJ)**

### **Courses**

- CJ 100 - Careers in Criminal Justice (1 credit)
- CJ 101 - Justice and Society (3 credits)
- CJ 201 - Criminology (3 credits)
- CJ 300 - Research Methods in Criminal Justice (3 credits)
- CJ 302 - Criminal Law (3 credits)
- CJ 305 - Constitutional Rights and Civil Liberties (3 credits)
- CJ 311 - Criminal Investigation (3 credits)
- CJ 312 - Police Process (3 credits)
- CJ 315 - Principles of Security (3 credits)
- CJ 320 - Crimes Against Women (3 credits)
- CJ 325 - Criminal Justice and Human Rights (3 credits)
- CJ 330 - Correctional Process (3 credits)
- CJ 335 - Digital Crime, Media and Culture (3 credits)
- CJ 340 - Courts Process (3 credits)
- CJ 350 - Juvenile Justice Process (3 credits)
- CJ 355 - Youth Culture and Crime (3 credits)
- CJ 360 - Inside-Out Prison Exchange Program (3 credits)
- CJ 370 - Environmental Crime and Justice (3 credits)
- CJ 380 - Special Topics in Criminal Justice and Legal Studies (1 to 3 credits)
- CJ 399 - Independent Readings in Criminal Justice (1 to 3 credits)
- CJ 400 - Qualitative Methods (3 credits)
- CJ 405 - Terrorism (3 credits)
- CJ 408 - White-Collar and Corporate Crime (3 credits)
- CJ 415 - Law Enforcement Physical Education, Defensive Tactics and Firearms (3 credits)
- CJ 416 - Special Operations and Training (3 credits)
- CJ 417 - Criminal Investigations II (3 credits)
- CJ 418 - Patrol and Traffic Administration and Procedure (3 credits)
- CJ 419 - Michigan Criminal Law (3 credits)
- CJ 420 - Juvenile Correctional Counseling (3 credits)
- CJ 442 - Victimology (3 credits)
- CJ 464 - Security Management (3 credits)
- CJ 482 - Culture, Crime and Justice (3 credits)
- CJ 490 - Criminal Justice Internship (1 to 9 credits)
- CJ 492 - Social Justice Issues in the American Criminal Justice System (3 credits)
- CJ 495 - Issues in Criminal Justice (Capstone) (3 credits)
- CJ 499 - Independent Study and Research (1 to 3 credits)
- CJ 592 - Social Justice Issues in the American Criminal Justice System (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- CJ 600 - Qualitative Methodology (3 credits)
- CJ 601 - Criminal Justice Leadership (3 credits)
- CJ 604 - Criminal Justice Policy and Program Evaluation (3 credits)
- CJ 606 - Research Methodology and Data Analysis (3 credits)
- CJ 607 - Criminology (3 credits)
- CJ 609 - Criminal Justice Systems (3 credits)
- CJ 610 - Race, Gender, and Class in the Criminal Justice System (3 credits)
- CJ 619 - Legal Issues in Criminal Justice (3 credits)
- CJ 620 - Policing and Society (3 credits)
- CJ 621 - Corrections and Punishment (3 credits)
- CJ 622 - Juvenile Justice Systems and Issues (3 credits)
- CJ 640 - Graduate Internship (3 credits)
- CJ 642 - Victimology (3 credits)
- CJ 650 - Master's Capstone in Criminal Justice (3 credits)
- CJ 680 - Special Topics in Criminal Justice and Legal Studies (1 to 4 credits)
- CJ 691 - Issues in Research and Writing (3 credits)
- CJ 693 - Criminal Justice Project (3 credits)
- CJ 695 - Criminal Justice Thesis (1 to 6 credits)
- CJ 696 - Continuation of Master's Project or Thesis Research (1 credit)
- CJ 697 - Professional Learning (1 to 3 credits)
- CJ 699 - Directed Readings (1 to 3 credits)

## **Journalism (CJR)**

## **Classics (CLA)**

### **Courses**

- CLA 101 - Greek and Roman Mythology (3 credits)
- CLA 121 - Greek Civilization (3 credits)
- CLA 131 - Roman Civilization (3 credits)
- CLA 195 - Introduction to Ancient Greece and Rome (1 credit)
- CLA 201 - Classical Literature (3 credits)
- CLA 231 - Health and Science in Antiquity (3 credits)
- CLA 250 - Classical Art and Archaeology (3 credits)
- CLA 280 - Special Topics in Classics (3 credits)
- CLA 301 - Re-imagining the Classics (3 credits)
- CLA 302 - The Stages of Greek and Roman Drama (3 credits)
- CLA 311 - Ancient Great Philosophers (3 credits)
- CLA 315 - Ancient Religion (3 credits)
- CLA 325 - Body, Gender, Sexuality in Antiquity (3 credits)
- CLA 350 - Issues in Classical Archaeology (3 credits)
- CLA 365 - Stoicism, Identity and the Happy Life (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- CLA 367 - Thinking Like a (Roman) Lawyer (3 credits)
- CLA 380 - Special Topics in Classics (3 credits)
- CLA 385 - Study Abroad: Classical Civilization (1 to 6 credits)
- CLA 395 - Research Methods in Classics (2 credits)
- CLA 399 - Independent Study in Classics (1 to 3 credits)
- CLA 415 - Museum Studies (3 credits)
- CLA 495 - Notions of the Classics (Capstone) (3 credits)
- CLA 499 - Independent Study and Research (1 to 3 credits)

## **Cell and Molecular Biology (CMB)**

### **Courses**

- CMB 140 - Living Foods: Ferment Them Yourself! (4 credits)
- CMB 150 - Biotechnology and Society (4 credits)
- CMB 155 - Introduction to Cell and Molecular Biology (3 credits)
- CMB 156 - Discoveries in Cell and Molecular Biology: A Research-based Laboratory Course (1 credit)
- CMB 250 - Introduction to Biotechnology (4 credits)
- CMB 321 - Designing Our Future: Babies, Food, Medicine, and Biotechnology (3 credits)
- CMB 350 - Foundations of Brewing (3 credits)
- CMB 380 - Special Topics in Cell and Molecular Biology (1 to 4 credits)
- CMB 405 - Cell and Molecular Biology (4 credits)
- CMB 406 - Cell and Molecular Biology Laboratory (2 credits)
- CMB 409 - Responsible Conduct of Research (1 credit)
- CMB 411 - Genetics of Development and Cancer (3 credits)
- CMB 414 - Molecular Biology of the Gene (3 credits)
- CMB 426 - Research Applications in Nucleic Acids (4 credits)
- CMB 440 - Research Applications in Drosophila Genomics (3 credits)
- CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)
- CMB 452 - Computer Modeling and Drug Design (3 credits)
- CMB 460 - Genomics and Molecular Diagnostics (3 credits)
- CMB 480 - Special Topics in Cell and Molecular Biology (1 to 9 credits)
- CMB 485 - Molecular Ecology (3 credits)
- CMB 490 - Internship (1 to 6 credits)
- CMB 495 - Perspectives in Cell and Molecular Biology (3 credits)
- CMB 499 - Research in Cell and Molecular Biology (1 to 3 credits)
- CMB 501 - Scientific Communication for the Life Sciences and Professional Science Master's (3 credits)
- CMB 505 - Advanced Cell Biology (3 credits)
- CMB 506 - Advanced Molecular Biology (3 credits)
- CMB 509 - Responsible Conduct of Research (1 credit)
- CMB 520 - Laboratory Techniques in Cell and Molecular Biology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- CMB 551 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)
- CMB 552 - Computer Modeling and Drug Design (3 credits)
- CMB 560 - Genomics and Molecular Diagnostics (3 credits)
- CMB 580 - Special Topics in Cell and Molecular Biology (1 to 4 credits)
- CMB 585 - Molecular Ecology (3 credits)
- CMB 610 - Foundations of Biotechnology (3 credits)
- CMB 620 - Cell Culture and Bioprocessing (3 credits)
- CMB 626 - Advanced Research Applications in Nucleic Acids (4 credits)
- CMB 680 - Special Topics in Cell and Molecular Biology (1 to 4 credits)
- CMB 695 - Thesis Research (1 to 9 credits)
- CMB 696 - Continuation of Master's Project or Thesis Research (1 credit)
- CMB 697 - Professional Learning (1 to 3 credits)
- CMB 699 - Grad Research in Cell and Molecular Biology (1 to 6 credits)

## **Multi-Media Journalism (CMJ)**

### **Courses**

- CMJ 184 - Introduction to Multimedia Production (3 credits)
- CMJ 236 - News in Society (3 credits)
- CMJ 256 - News Reporting (3 credits)
- CMJ 260 - Multimedia Journalism Workshop (3 credits)
- CMJ 265 - Introduction to Radio (3 credits)
- CMJ 284 - Broadcast News (3 credits)
- CMJ 290 - Media History (3 credits)
- CMJ 310 - Advanced Reporting Techniques (3 credits)
- CMJ 316 - News Design and Layout (3 credits)
- CMJ 325 - Issues in Journalism (3 credits)
- CMJ 364 - Feature Journalism (3 credits)
- CMJ 365 - Advanced Editing (3 credits)
- CMJ 366 - Arts and Entertainment Journalism (3 credits)
- CMJ 380 - Special Topics in Multimedia Journalism (1 to 9 credits)
- CMJ 384 - Producing for Broadcasting (3 credits)
- CMJ 385 - Advanced Radio (3 credits)
- CMJ 390 - Technical Writing (3 credits)
- CMJ 399 - Independent Study (1 to 6 credits)
- CMJ 460 - Multimedia Reporting (3 credits)
- CMJ 481 - Investigative Reporting (3 credits)
- CMJ 484 - TV News Workshop (3 credits)
- CMJ 490 - Internship (1 to 6 credits)
- CMJ 495 - Multimedia Journalism Capstone (3 credits)

## **Communications (COM)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Courses

- COM 101 - Concepts of Communication (3 credits)
- COM 201 - Speech (3 credits)
- COM 202 - Critical Interpretation (3 credits)
- COM 203 - Argument and Analysis (3 credits)
- COM 209 - Health Communication Systems (3 credits)
- COM 210 - Nonverbal Communication (3 credits)
- COM 215 - Story Making (3 credits)
- COM 220 - Media Literacy (3 credits)
- COM 275 - Foundations of Communication Research (3 credits)
- COM 295 - Communication Theory (3 credits)
- COM 301 - Interpersonal Communication (3 credits)
- COM 302 - Small Group Communication (3 credits)
- COM 303 - Debate (3 credits)
- COM 320 - Vision and Culture (3 credits)
- COM 371 - Media and Society (3 credits)
- COM 372 - Global Communications (3 credits)
- COM 375 - Communication Research (3 credits)
- COM 376 - Communications Policy and Law (3 credits)
- COM 378 - Intercultural Communication (3 credits)
- COM 380 - Special Topics in Communications (1 to 6 credits)
- COM 399 - Independent Study (1 to 6 credits)
- COM 410 - Senior Seminar in Health Communication (3 credits)
- COM 438 - Communication Ethics (3 credits)
- COM 477 - History of Communications Technologies (3 credits)
- COM 490 - Internship (1 to 6 credits)
- COM 495 - Issues in Communication (Capstone) (3 credits)
- COM 498 - Senior Thesis/Project (1 to 6 credits)
- COM 600 - Systems Theory and Communication (3 credits)
- COM 610 - Secondary Information and Analysis (3 credits)
- COM 620 - Empirical Methods in Communication (3 credits)
- COM 624 - Public Health Communication (3 credits)
- COM 634 - Ethics in Professional Communication (3 credits)
- COM 641 - Emerging Communication Technologies (3 credits)
- COM 642 - Communication Law (3 credits)
- COM 643 - Small Group Communication and Leadership (3 credits)
- COM 660 - Communication Management and Cases (3 credits)
- COM 680 - Special Topics in Communications (3 credits)
- COM 693 - Master's Project (3 credits)
- COM 695 - Master's Thesis (3 credits)
- COM 696 - Continuation of Master's Project or Thesis Research (1 credit)
- COM 697 - Professional Learning (1 to 3 credits)
- COM 699 - Independent Study (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# **Communication Sciences and Disorders (CSD)**

## **Courses**

- CSD 100 - Introduction to Communication Disorders (3 credits)
- CSD 200 - Introduction to Hearing Science (3 credits)
- CSD 220 - Communication Development (3 credits)
- CSD 302 - Anatomy and Physiology of the Speech and Hearing Mechanism (3 credits)
- CSD 304 - Phonetics (3 credits)
- CSD 306 - Speech Science (3 credits)
- CSD 309 - Basic Audiology (3 credits)
- CSD 401 - Neurological Foundations of Communication Disorders (3 credits)
- CSD 404 - Audiologic Rehabilitation (3 credits)

# **Dance (DAN)**

## **Courses**

- DAN 175 - Freshman Company (1 credit)
- DAN 200 - Introduction to Dance (3 credits)
- DAN 211 - Choreography and Improvisation (3 credits)
- DAN 231 - Ballet Partnering (1 credit)
- DAN 241 - Ballet Technique 2 (2 credits)
- DAN 245 - Dance History: Evolving Traditions (3 credits)
- DAN 251 - Modern Technique 2 (2 credits)
- DAN 262 - Pointe (1 credit)
- DAN 271 - Men's Technique (1 credit)
- DAN 275 - Dance Company (1 credit)
- DAN 281 - Jazz Technique 2 (2 credits)
- DAN 311 - Choreography and Production (3 credits)
- DAN 333 - Dance Costuming (2 credits)
- DAN 341 - Ballet Technique 3 (2 credits)
- DAN 345 - Dance History: Expanding Performance (3 credits)
- DAN 351 - Modern Technique 3 (2 credits)
- DAN 380 - Special Topics in Dance (1 to 4 credits)
- DAN 381 - Jazz Technique 3 (2 credits)
- DAN 393 - Dance Conditioning (3 credits)
- DAN 394 - Dance on Camera (3 credits)
- DAN 420 - Dance Pedagogy (3 credits)
- DAN 441 - Ballet Technique 4 (2 credits)
- DAN 451 - Modern Technique 4 (2 credits)
- DAN 481 - Jazz Technique 4 (2 credits)
- DAN 495 - Senior Project (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- DAN 499 - Dance Independent Study and Research in Dance (1 to 4 credits)

## **Digital Studies (DS)**

### **Courses**

- DS 201 - Digital Identities and Communities (3 credits)
- DS 202 - Digital Data and Design (3 credits)
- DS 310 - Digital Preservation and Archiving (3 credits)
- DS 314 - Digital Literacies (3 credits)
- DS 330 - Game Culture (3 credits)
- DS 335 - Digital Crime, Media and Culture (3 credits)
- DS 340 - Identity and Representation in Digital Culture (3 credits)
- DS 350 - Social Media in Culture (3 credits)
- DS 360 - Ethics of Digital Culture (3 credits)
- DS 380 - Special Topics in Digital Studies (1 to 3 credits)
- DS 399 - Independent Study in Digital Studies (1 to 3 credits)
- DS 490 - Internship in Digital Studies (3 credits)
- DS 495 - Digital Studies Capstone (3 credits)

## **East Asian Studies (EAS)**

### **Courses**

- EAS 180 - Special Topics in East Asian Studies (1 to 4 credits)
- EAS 201 - East Asia in the Contemporary World (3 credits)
- EAS 280 - Special Topics in East Asian Studies (1 to 4 credits)
- EAS 301 - Masterpieces of East Asian Literature (3 credits)
- EAS 333 - Study Abroad - East Asian Studies (1 to 6 credits)
- EAS 351 - Asian American Experiences (3 credits)
- EAS 380 - Special Topics in East Asian Studies (1 to 4 credits)
- EAS 399 - Independent Studies (1 to 3 credits)
- EAS 480 - Special Topics in East Asian Studies (1 to 4 credits)

## **Economics (ECO)**

### **Courses**

- ECO 100 - Current Economic Issues (3 credits)
- ECO 200 - Business Economics (3 credits)
- ECO 210 - Introductory Macroeconomics (3 credits)
- ECO 211 - Introductory Microeconomics (3 credits)
- ECO 300 - Data Analytics for Economics and Business (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ECO 312 - Applied Microeconomics (3 credits)
- ECO 313 - Business Cycles and Growth (3 credits)
- ECO 330 - Sports Economics (3 credits)
- ECO 336 - Urban and Real Estate Economics (3 credits)
- ECO 343 - Health Economics (3 credits)
- ECO 345 - Environmental and Resource Economics (3 credits)
- ECO 349 - Emerging Markets Issues (3 credits)
- ECO 350 - Economics of Gender (3 credits)
- ECO 355 - Markets, Strategy, and Government Policy (3 credits)
- ECO 360 - The Economics of Work and Family (3 credits)
- ECO 365 - Comparative Economic Systems (3 credits)
- ECO 369 - International Economic Issues (3 credits)
- ECO 380 - Special Topics in Economics (1 to 3 credits)
- ECO 385 - GIS in Urban and Regional Analysis (3 credits)
- ECO 400 - Econometrics and Forecasting (3 credits)
- ECO 414 - Money and Banking (3 credits)
- ECO 440 - Public Economics and Ethics (3 credits)
- ECO 450 - Advanced Economic Policy and Analysis (3 credits)
- ECO 480 - Special Topics in Economics (1 to 3 credits)
- ECO 490 - Economics Internship (1 to 6 credits)
- ECO 495 - Senior Economic Project (Capstone) (3 credits)
- ECO 499 - Independent Study and Research (1 to 4 credits)
- ECO 542 - Economic Reasoning (3 credits)
- ECO 641 - Business Economics and Strategy (3 credits)
- ECO 643 - Health Economics (3 credits)
- ECO 680 - Special Topics in Economics (1 to 3 credits)
- ECO 697 - Professional Learning (1 to 3 credits)

## **Education Counseling (EDC)**

### **Courses**

- EDC 601 - Content/Curriculum Workshop (1 to 3 credits)
- EDC 621 - The Profession of School Counseling (3 credits)
- EDC 623 - Social/Emotional Development (3 credits)
- EDC 625 - Academic Development (3 credits)
- EDC 649 - Career Development (3 credits)
- EDC 651 - School Counseling Curriculum and Techniques (3 credits)
- EDC 680 - Special Topics in School Counseling (1 to 3 credits)
- EDC 685 - Internship in School Counseling (3 to 6 credits)
- EDC 693 - Master's Project (1 to 3 credits)
- EDC 695 - Master's Thesis (1 to 6 credits)
- EDC 696 - Continuation of Master's Project or Thesis Research (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EDC 697 - Professional Learning (1 to 3 credits)
- EDC 699 - Independent Study in School Counseling (1 to 3 credits)

## **Education Foundation (EDF)**

### **Courses**

- EDF 100 - Teaching and Learning in a Diverse Environment (2 credits)
- EDF 115 - Introduction to Education: An Exploration of Schooling in America (3 credits)
- EDF 215 - Introduction to Philosophies of Early Childhood (3 credits)
- EDF 260 - Educational Research and Assessment: Foundations of Practice (3 credits)
- EDF 315 - Diverse Perspectives on Education (3 credits)
- EDF 316 - Global Perspectives on Education (3 credits)
- EDF 320 - International Teaching Certificate Preparation (1 credit)
- EDF 325 - Learning from Detroit: Education and Community Revitalization (3 credits)
- EDF 380 - Special Topics in Foundations (1 to 3 credits)
- EDF 399 - Independent Study in Foundations (1 to 3 credits)
- EDF 485 - The Context of Educational Issues (3 credits)
- EDF 495 - Capstone: Reflective Inquiry and Practice (3 credits)
- EDF 499 - Independent Study in Foundations (1 to 3 credits)
- EDF 601 - Content/Curriculum Workshop (1 to 3 credits)
- EDF 633 - Race, Class, and Language (3 credits)
- EDF 634 - Teaching the At-Risk Student (3 credits)
- EDF 635 - Survey of Urban Education (3 credits)
- EDF 650 - Classroom Management (K-12) (3 credits)
- EDF 653 - School Learning (3 credits)
- EDF 660 - Educational Inquiry and Evaluation (3 credits)
- EDF 661 - Educational Testing and Measurement (3 credits)
- EDF 671 - Educational Policy and Practice (3 credits)
- EDF 672 - Social/Cultural Foundations of Education (3 credits)
- EDF 675 - Cultural and Educational Foundations of Ecological Issues (3 credits)
- EDF 676 - Introduction to Place-Based Education (3 credits)
- EDF 677 - Citizenship, Activism, and Community Problem-Solving (3 credits)
- EDF 680 - Special Topics in Foundations (1 to 3 credits)
- EDF 693 - Master's Project (1 to 3 credits)
- EDF 695 - Master's Thesis (1 to 6 credits)
- EDF 696 - Continuation of Master's Project or Thesis Research (1 credit)
- EDF 697 - Professional Learning (1 to 3 credits)
- EDF 699 - Independent Study in Foundations (1 to 3 credits)

## **Education Higher Education (EDH)**

### **Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EDH 181 - Navigating College Success (1 credit)
- EDH 182 - Strategies for Academic Success (2 credits)
- EDH 601 - Content/Curriculum Workshop (1 to 3 credits)
- EDH 647 - Theories of College Student Development (3 credits)
- EDH 648 - The Adult Learner (3 credits)
- EDH 650 - Materials and Methods for Adult and Continuing Education (3 credits)
- EDH 651 - Higher Education and Student Affairs Functions (3 credits)
- EDH 652 - The American College Student (3 credits)
- EDH 653 - Administration of Student Affairs Programs (3 credits)
- EDH 654 - Student Affairs Administrators and the Law (3 credits)
- EDH 655 - Intervention Strategies for Student Development (3 credits)
- EDH 656 - Organization and Administration in Higher Education (3 credits)
- EDH 657 - The Community College (3 credits)
- EDH 658 - Critical Issues in Higher Education (3 credits)
- EDH 659 - Gender and Sexuality in Higher Education (3 credits)
- EDH 680 - Special Topics in Higher Education (1 to 3 credits)
- EDH 685 - Practicum/Graduate Field Experience in Higher Education I (3 credits)
- EDH 686 - CSAL Practicum/Graduate Field Experience II (3 credits)
- EDH 693 - Master's Project (3 credits)
- EDH 695 - Master's Thesis (1 to 6 credits)
- EDH 696 - Continuation of Master's Project or Thesis Research (1 credit)
- EDH 697 - Professional Learning (1 to 3 credits)
- EDH 699 - Independent Study in Higher Education (1 to 3 credits)

## **Education Instruction (EDI)**

### **Courses**

- EDI 310 - Building and Sustaining Positive Learning Environments (3 credits)
- EDI 311 - Assessing the Young Child (3 credits)
- EDI 312 - Child Guidance (3 credits)
- EDI 313 - Programs for Children Birth to Age Three (3 credits)
- EDI 314 - Teaching Young Children with High Needs (3 credits)
- EDI 315 - Curriculum and Learning in Pre-K/Primary Programs (3 credits)
- EDI 317 - Collaborating with Families and Professionals (3 credits)
- EDI 330 - Elementary Apprenticeship PK-6 (6 credits)
- EDI 331 - Methods and Strategies of Secondary Teaching (5 credits)
- EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits)
- EDI 339 - Teachers as Decision Makers: Instruction and Assessment in Secondary Schools (3 credits)
- EDI 380 - Special Topics in Instruction and Curriculum (1 to 3 credits)
- EDI 399 - Independent Study in Instruction and Curriculum (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EDI 416 - Teaching Early Language and Literacy (3 credits)
- EDI 418 - Administration and Supervision in Early Childhood Education (3 credits)
- EDI 430 - Student Teaching, Elementary (10 credits)
- EDI 431 - Student Teaching, Secondary (8 credits)
- EDI 432 - Student Teaching, Secondary Content Practicum (2 credits)
- EDI 470 - Directed Teaching in Early Childhood Education (3 credits)
- EDI 499 - Independent Study in Instruction and Curriculum (1 to 3 credits)
- EDI 601 - Content/Curriculum Workshop (1 to 3 credits)
- EDI 610 - Advanced Studies in Child Development Ages 0-8 (3 credits)
- EDI 611 - Assessment of the Young School Child (3 credits)
- EDI 612 - Curriculum Development for Early Childhood Education (3 credits)
- EDI 613 - Administration and Supervision of Early Childhood Education (3 credits)
- EDI 614 - Infant and Toddler Development and Curriculum (3 credits)
- EDI 630 - Teaching Mathematics: K-8 (3 credits)
- EDI 631 - Teaching Science: K-8 (3 credits)
- EDI 632 - Teaching Creative and Performing Arts (3 credits)
- EDI 633 - Teaching Social Studies and Diversity (3 credits)
- EDI 634 - Middle-Level Education (3 credits)
- EDI 635 - Development and Needs of Students (3 credits)
- EDI 636 - Instruction in Middle and High Schools (3 credits)
- EDI 637 - Assessment: K-12 Models and Practices (3 credits)
- EDI 638 - Facilitating School Environments (3 credits)
- EDI 639 - Curriculum Development (3 credits)
- EDI 640 - Fundamentals of Talent Development (3 credits)
- EDI 641 - Teaching for Talent Development (3 credits)
- EDI 680 - Special Topics in Instruction and Curriculum (1 to 3 credits)
- EDI 685 - Practicum/Graduate Field Experience (3 or 6 credits)
- EDI 693 - Master's Project (1 to 3 credits)
- EDI 695 - Master's Thesis (1 to 6 credits)
- EDI 696 - Continuation of Master's Project or Thesis Research (1 credit)
- EDI 697 - Professional Learning (1 to 3 credits)
- EDI 699 - Independent Study in Instruction and Curriculum (1 to 3 credits)
- EDI 710 - Instructional Management and Supervision (3 credits)
- EDI 797 - Professional Learning (1 to 3 credits)
- EDI 799 - Independent Study Curriculum and Instruction (1 to 3 credits)

## **Education Leadership (EDL)**

### **Courses**

- EDL 601 - Content/Curriculum Workshop (1 to 3 credits)
- EDL 650 - Foundations of Special Education Administration (3 credits)
- EDL 651 - Administration of Special Education Programs and Services (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EDL 652 - Curriculum and Instruction Leadership in Special Education Administration (3 credits)
- EDL 653 - Special Education Law (3 credits)
- EDL 654 - Special Education Finance (3 credits)
- EDL 665 - Educational Leadership (3 credits)
- EDL 666 - Curriculum Leadership (3 credits)
- EDL 667 - Elementary Supervision and Evaluation (3 credits)
- EDL 668 - Personnel Administration (3 credits)
- EDL 669 - School Finance (3 credits)
- EDL 670 - School Law (3 credits)
- EDL 671 - Secondary Supervision and Evaluation (3 credits)
- EDL 677 - School and Community Relationships (3 credits)
- EDL 680 - Special Topics in Leadership (1 to 3 credits)
- EDL 685 - Practicum/Graduate Field Experience (3 to 6 credits)
- EDL 687 - Administrative Internship (3 credits)
- EDL 693 - Master's Project (1 to 3 credits)
- EDL 695 - Master's Thesis (1 to 6 credits)
- EDL 696 - Continuation of Master's Project or Thesis Research (1 credit)
- EDL 697 - Professional Learning (1 to 3 credits)
- EDL 699 - Independent Study in Leadership (1 to 3 credits)
- EDL 700 - Educational Leadership and Change (3 credits)
- EDL 705 - Organizational Behavior, Ethics and Decision-Making (3 credits)
- EDL 715 - Data-Based Decision-Making and Technology (3 credits)
- EDL 720 - Organizational and Community Relations (3 credits)
- EDL 725 - Educational Law, Policy, and Practice (3 credits)
- EDL 740 - The Superintendency (3 credits)
- EDL 742 - School Board Relations (3 credits)
- EDL 744 - Educational Finance and Economic Issues (3 credits)
- EDL 770 - Leadership Theory into Practice (3 credits)
- EDL 797 - Professional Learning (1 to 3 credits)
- EDL 799 - Independent Study in Educational Leadership (1 to 3 credits)

## **Education Reading (EDR)**

### **Courses**

- EDR 317 - Class-conscious: Popular Culture, Schooling, and Identity (3 credits)
- EDR 320 - Emergent Literacy and the Development of Reading, Writing, and Language (3 credits)
- EDR 321 - Content Area Literacy (3 credits)
- EDR 323 - Teaching Students with Language and Literacy Learning Difficulties (3 credits)
- EDR 380 - Special Topics in Literacy Studies (1 to 3 credits)
- EDR 470 - Directed Teaching in ESL: Elementary (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EDR 471 - Directed Teaching in ESL: Secondary (5 credits)
- EDR 499 - Independent Study in Literacy Studies (1 to 3 credits)
- EDR 601 - Content/Curriculum Workshops (1 to 3 credits)
- EDR 602 - Teaching English Language Learners Across Content (3 credits)
- EDR 603 - Bi-literacy Development (3 credits)
- EDR 612 - Reading Assessment: Elementary Teacher (3 credits)
- EDR 613 - Reading Assessment: Secondary Teacher (3 credits)
- EDR 620 - English as a Second Language Methodologies (3 credits)
- EDR 621 - Foundations of Literacy (3 credits)
- EDR 622 - Developmental Literacy for Children (3 credits)
- EDR 623 - Developmental Literacy for Adolescents (3 credits)
- EDR 624 - Elementary Literacy: Learners, Text, and the Environment (3 credits)
- EDR 625 - Secondary Literacy: Learners, Text, and the Environment (3 credits)
- EDR 626 - Field-based Literacy Assessment for Learning (3 credits)
- EDR 627 - Literacy Strategies for Content Areas (3 credits)
- EDR 628 - Literacy Instruction Across Disciplines (PK-6) (3 credits)
- EDR 629 - Teaching Reading to Adults (3 credits)
- EDR 630 - Literacy Instruction Across Disciplines (7-12) (3 credits)
- EDR 631 - Writing, Teaching, and Learning (3 credits)
- EDR 632 - Field-based Literacy and Language Interventions (3 credits)
- EDR 634 - Linguistics for Teachers (3 credits)
- EDR 635 - Sociolinguistics: Language, Society, and Schooling (3 credits)
- EDR 680 - Special Topics in Literacy Studies (1 to 3 credits)
- EDR 685 - Literacy Instruction Practicum (3 credits)
- EDR 687 - Reading/Literacy Specialist and Literacy Coach Practicum (3 credits)
- EDR 689 - Professional Development and Leadership Practicum (3 credits)
- EDR 693 - Master's Project (1 to 3 credits)
- EDR 695 - Master's Thesis (1 to 6 credits)
- EDR 696 - Continuation of Master's Project or Thesis Research (1 credit)
- EDR 697 - Professional Learning (1 to 3 credits)
- EDR 699 - Independent Study in Literacy Studies (1 to 3 credits)

## **Education Special Education (EDS)**

### **Courses**

- EDS 317 - The Myth of Normal: Disability Studies in the 21st Century (3 credits)
- EDS 318 - Teaching Students with Learning and Behavior Difficulties (3 credits)
- EDS 323 - Teaching Students with Language and Literacy Learning Difficulties (3 credits)
- EDS 332 - Methods and Strategies of Special Education Teaching (5 credits)
- EDS 360 - Language and Reading Development (3 credits)
- EDS 361 - Principles, Processes, and Methods in Special Education (3 credits)
- EDS 378 - Universal Design for Learning: Elementary (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EDS 379 - Universal Design for Learning: Secondary (3 credits)
- EDS 380 - Special Topics in Special Education (1 to 3 credits)
- EDS 399 - Independent Study in Special Education (1 to 3 credits)
- EDS 441 - Curriculum for CI (3 credits)
- EDS 442 - Curriculum for EI (3 credits)
- EDS 463 - Educational Practices and Procedures: Cognitive Impairment (3 credits)
- EDS 464 - Educational Practices and Procedures: Emotional Impairment (3 credits)
- EDS 470 - Directed Teaching in Early Childhood Developmental Delay (3 credits)
- EDS 471 - Directed Teaching in Cognitive Impairment (9 credits)
- EDS 472 - Directed Teaching in Emotional Impairment (9 credits)
- EDS 495 - Diagnostic and Interpretive Procedures (3 credits)
- EDS 497 - Educational Interventions: Cognitive Impairment (3 credits)
- EDS 498 - Educational Interventions: Emotional Impairment (3 credits)
- EDS 499 - Independent Study (1 to 3 credits)
- EDS 550 - Preteaching and Methods of Teaching Special Education (6 credits)
- EDS 601 - Content/Curriculum Workshops (1 to 3 credits)
- EDS 609 - Understanding Students with Emotional Impairment (3 credits)
- EDS 610 - Positive Behavioral Interventions and Supports (3 credits)
- EDS 611 - Curriculum and Instruction for Students with Emotional Impairment (3 credits)
- EDS 615 - Educational Assessment and Interventions for Autism (3 credits)
- EDS 616 - Language and Communication Assessment and Instruction for Autism (3 credits)
- EDS 618 - Understanding Students with Cognitive Impairment (3 credits)
- EDS 619 - Educational Interventions for Mild Cognitive Impairment (3 credits)
- EDS 620 - Educational Interventions for Severe Cognitive Impairment (3 credits)
- EDS 621 - Assistive Technology in Education (3 credits)
- EDS 622 - Assessment for Placement and Program: CI (3 credits)
- EDS 623 - Collaboration in Special Education (3 credits)
- EDS 625 - Inclusive Practices (3 credits)
- EDS 627 - Technology and Professional Practice (3 credits)
- EDS 629 - Transition Practices (3 credits)
- EDS 636 - Diagnostic and Interpretative Procedures (3 credits)
- EDS 637 - Explicit Language Instruction (3 credits)
- EDS 638 - Instructional Practices: Learning Disabilities II (3 credits)
- EDS 640 - Diagnostic-Teaching Clinic (3 credits)
- EDS 646 - Family and Community Collaboration in Early Childhood Education (3 credits)
- EDS 647 - Serving Young Children with Diverse Needs (3 credits)
- EDS 652 - Foundations of Special Education (3 credits)
- EDS 680 - Special Topics in Special Education (1 to 3 credits)
- EDS 685 - Practicum/Graduate Field Experience (3 or 6 credits)
- EDS 693 - Master's Project (1 to 3 credits)
- EDS 695 - Master's Thesis (1 to 6 credits)
- EDS 696 - Continuation of Master's Project or Thesis Research (1 credit)
- EDS 697 - Professional Learning (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EDS 699 - Independent Study in Special Education (1 to 3 credits)

## **Educational Technology (EDT)**

### **Courses**

- EDT 312 - Children and Technology (3 credits)
- EDT 370 - Technology in Education (3 credits)
- EDT 380 - Special Topics in Technology (1 to 3 credits)
- EDT 399 - Independent Study in Technology (1 to 3 credits)
- EDT 476 - Teaching with Technology (3 credits)
- EDT 601 - Content/Curriculum Workshop (1 to 3 credits)
- EDT 619 - Curricular Integration of Ed Technology (3 credits)
- EDT 620 - Evaluating and Applying Instructional Media (3 credits)
- EDT 621 - Topics in Educational Technologies (3 credits)
- EDT 626 - Assessment/Evaluation with Educational Technology (3 credits)
- EDT 627 - Technology Integration for Secondary Teachers (3 credits)
- EDT 629 - Online Instructional Design/Development (3 credits)
- EDT 634 - Planning/Managing Educational Technology (3 credits)
- EDT 635 - Instructional Systems Design (3 credits)
- EDT 680 - Special Topics in Technology (1 to 3 credits)
- EDT 684 - Field Experience - Educational Technology (3 credits)
- EDT 685 - Practicum/Graduate Field Experience (3 credits)
- EDT 693 - Master's Project (1 to 3 credits)
- EDT 695 - Master's Thesis (1 to 6 credits)
- EDT 696 - Continuation of Master's Project or Thesis Research (1 credit)
- EDT 697 - Professional Learning (1 to 3 credits)
- EDT 699 - Independent Study in Educational Technology (1 to 3 credits)

## **Engineering (EGR)**

### **Courses**

- EGR 100 - Introduction to Engineering (1 credit)
- EGR 106 - Introduction to Engineering Design I (3 credits)
- EGR 107 - Introduction to Engineering Design II (3 credits)
- EGR 111 - Introduction to Engineering Graphics (1 credit)
- EGR 112 - Applied Programming for Engineers (2 credits)
- EGR 113 - Introduction to CAD/CAM (1 credit)
- EGR 124 - Introduction to Engineering Problem Solving (3 credits)
- EGR 180 - Special Topics in Engineering (1 to 4 credits)
- EGR 185 - First-year Engineering Design (2 credits)
- EGR 209 - Mechanics and Machines (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EGR 210 - Solid Mechanics (1 credit)
- EGR 214 - Circuit Analysis I (3 credits)
- EGR 215 - Circuit Analysis I Lab (1 credit)
- EGR 220 - Engineering Measurement and Data Analysis (1 credit)
- EGR 223 - Probability and Signal Analysis (3 credits)
- EGR 224 - Introduction to Digital System Design (3 credits)
- EGR 226 - Microcontroller Programming and Applications (3 credits)
- EGR 227 - Microcontroller Programming and Applications Lab (1 credit)
- EGR 250 - Materials Science and Engineering (3 credits)
- EGR 251 - Materials Laboratory (1 credit)
- EGR 257 - Electronic Materials and Devices (4 credits)
- EGR 280 - Special Topics in Engineering (1 to 4 credits)
- EGR 289 - Engineering Professionalism (1 credit)
- EGR 290 - Engineering Co-op 1 (3 credits)
- EGR 301 - Analytical Tools for Product Design (4 credits)
- EGR 302 - Engineering Decision-Making in Society (3 credits)
- EGR 306 - Urban Sustainability (3 credits)
- EGR 309 - Machine Design I (3 credits)
- EGR 310 - Machine Design I Laboratory (1 credit)
- EGR 311 - Intermediate Computer Aided Design and Manufacturing (3 credits)
- EGR 312 - Dynamics (3 credits)
- EGR 314 - Circuit Analysis II (4 credits)
- EGR 315 - Electronic Circuits I (4 credits)
- EGR 323 - Signals and Systems Analysis (3 credits)
- EGR 326 - Embedded System Design (4 credits)
- EGR 329 - Introduction to Finite Element Analysis (3 credits)
- EGR 330 - Power Systems Analysis (4 credits)
- EGR 343 - Applied Electromagnetics (4 credits)
- EGR 345 - Dynamic System Modeling and Control (4 credits)
- EGR 346 - Mechatronic Systems Dynamics and Control (4 credits)
- EGR 350 - Vibration (4 credits)
- EGR 352 - Kinematics and Dynamics of Machinery (4 credits)
- EGR 360 - Thermodynamics (4 credits)
- EGR 362 - Thermal and Fluid Systems (4 credits)
- EGR 365 - Fluid Mechanics (4 credits)
- EGR 367 - Manufacturing Processes (3 credits)
- EGR 368 - Manufacturing Processes Laboratory (1 credit)
- EGR 380 - Special Topics in Engineering (1 to 4 credits)
- EGR 390 - Engineering Co-op 2 (3 credits)
- EGR 399 - Readings in Engineering (1 to 4 credits)
- EGR 401 - Advanced Product Design (4 credits)
- EGR 403 - Medical Device Design (3 credits)
- EGR 404 - Polymer Science and Processing (4 credits)
- EGR 405 - Materials Failure Analysis and Selection (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EGR 406 - Renewable Energy Systems: Structure, Policy, and Analysis (3 credits)
- EGR 409 - Machine Design II (4 credits)
- EGR 413 - Materials for Energy Storage (3 credits)
- EGR 415 - Communication Systems (4 credits)
- EGR 418 - Radio Frequency Systems (4 credits)
- EGR 423 - Digital Signal Processing Systems (4 credits)
- EGR 424 - Design of Microcontroller Applications (4 credits)
- EGR 425 - RISC Architecture (4 credits)
- EGR 426 - Integrated Circuit Systems Design (4 credits)
- EGR 430 - Electromechanics (4 credits)
- EGR 432 - Biomedical Imaging and Image Processing (3 credits)
- EGR 433 - Electronic Instrumentation for Biomedical Applications (3 credits)
- EGR 434 - Bioelectric Potentials (3 credits)
- EGR 435 - Mathematical Modeling of Physiologic Systems (3 credits)
- EGR 436 - Embedded Systems Interface (4 credits)
- EGR 440 - Introduction to Production (3 credits)
- EGR 441 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)
- EGR 443 - Electromagnetic Compatibility (4 credits)
- EGR 445 - Robotic Systems Engineering (4 credits)
- EGR 447 - Engineering Mechanics of Human Motion (3 credits)
- EGR 450 - Manufacturing Control Systems (4 credits)
- EGR 453 - Biomedical Materials (3 credits)
- EGR 455 - Automatic Control (4 credits)
- EGR 457 - Fundamentals of Nanotechnology (4 credits)
- EGR 458 - Introduction to Fiber Optics (4 credits)
- EGR 463 - Alternative Energy Systems and Applications (4 credits)
- EGR 465 - Computational Fluid Dynamics (CFD) (4 credits)
- EGR 466 - Turbomachinery (4 credits)
- EGR 468 - Heat Transfer (4 credits)
- EGR 475 - Design of HVAC Systems (4 credits)
- EGR 477 - Hybrid Electric Battery Systems (3 credits)
- EGR 480 - Special Topics in Engineering (1 to 4 credits)
- EGR 485 - Senior Engineering Project I (Capstone) (1 credit)
- EGR 486 - Senior Engineering Project II (Capstone) (2 credits)
- EGR 490 - Engineering Co-op 3 (3 credits)
- EGR 499 - Research in Engineering (1 to 4 credits)
- EGR 503 - Medical Device Design (3 credits)
- EGR 513 - Materials for Energy Storage (3 credits)
- EGR 515 - Communication Systems (4 credits)
- EGR 518 - Radio Frequency Systems (4 credits)
- EGR 523 - Digital Signal Processing Systems (4 credits)
- EGR 524 - Design of Microcontroller Applications (4 credits)
- EGR 525 - RISC Architecture (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EGR 526 - Integrated Circuit System Design (4 credits)
- EGR 530 - Electromechanics (4 credits)
- EGR 532 - Biomedical Imaging and Image Processing (3 credits)
- EGR 533 - Electronic Instrumentation for Biomedical Applications (3 credits)
- EGR 534 - Bioelectric Potentials (3 credits)
- EGR 536 - Embedded Systems Interface (4 credits)
- EGR 541 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)
- EGR 543 - Electromagnetic Compatibility (4 credits)
- EGR 545 - Robotic Systems Engineering (4 credits)
- EGR 547 - Engineering Mechanics of Human Motion (3 credits)
- EGR 550 - Manufacturing Control Systems (4 credits)
- EGR 553 - Biomedical Materials (3 credits)
- EGR 555 - Automatic Control (4 credits)
- EGR 557 - Fundamentals of Nanotechnology (4 credits)
- EGR 558 - Introduction to Fiber Optics (4 credits)
- EGR 565 - Computational Fluid Dynamics (CFD) (4 credits)
- EGR 577 - Hybrid Electric Battery Systems (3 credits)
- EGR 580 - Special Topics in Engineering (1 to 4 credits)
- EGR 600 - Advanced Engineering Analysis (3 credits)
- EGR 601 - Principles of Computer Engineering (3 credits)
- EGR 602 - Professional Aspects of Engineering (3 credits)
- EGR 604 - Implementation and Measurement (3 credits)
- EGR 609 - Advanced Structural Analysis (3 credits)
- EGR 610 - Engineering Design (3 credits)
- EGR 611 - Computer-Aided Design and Engineering (3 credits)
- EGR 612 - Analytical Dynamics (3 credits)
- EGR 614 - Opportunity Identification for Medical Devices (3 credits)
- EGR 615 - Applied Finite Element Analysis (3 credits)
- EGR 620 - Material and Process Selection (3 credits)
- EGR 627 - Advanced FPGA Implementation (3 credits)
- EGR 635 - Biomedical Signal Modeling (3 credits)
- EGR 636 - Electronic Prototyping (3 credits)
- EGR 637 - Application Development on Field Programmable Gate Arrays (3 credits)
- EGR 640 - Production Operation Models (3 credits)
- EGR 641 - Applied Optimization (3 credits)
- EGR 642 - Materials Handling and Flow Control (3 credits)
- EGR 643 - PCB Design and EMC (3 credits)
- EGR 653 - Digital and Adaptive Systems (3 credits)
- EGR 655 - Power Electronics (3 credits)
- EGR 656 - Electrical Drive Systems (3 credits)
- EGR 657 - Photovoltaic Systems (3 credits)
- EGR 665 - Advanced Power Electronics (3 credits)
- EGR 670 - Systems Physiology for Engineers (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- EGR 680 - Special Topics in Engineering (1 to 4 credits)
- EGR 685 - Graduate Practicum (3 credits)
- EGR 690 - Capstone Design Project (3 credits)
- EGR 693 - Master's Project (1 to 6 credits)
- EGR 695 - Master's Thesis (1 to 6 credits)
- EGR 696 - Continuation of Master's Project or Thesis Research (1 credit)
- EGR 699 - Independent Study in Engineering (1 to 3 credits)

## **Executive MBA (EMBA)**

### **Courses**

- EMBA 601 - Financial Accounting for Executives (1.5 credits)
- EMBA 610 - Strategic Information Systems for Executives (2 credits)
- EMBA 611 - Managerial Accounting for Executives (1.5 credits)
- EMBA 621 - Finance for Executives (3 credits)
- EMBA 626 - Financial Policy for Executives (3 credits)
- EMBA 635 - Organizational Change Management (2 credits)
- EMBA 636 - Emerging Trends--Industry Disruptions and Firm Sustainability (3 credits)
- EMBA 641 - Business Economics for Executives (3 credits)
- EMBA 651 - Marketing Management for Executives (3 credits)
- EMBA 652 - Negotiations for Executives (2 credits)
- EMBA 667 - Service and Value Chain Management (3 credits)
- EMBA 675 - Law for Executives (3 credits)
- EMBA 678 - Executive Leadership and Ethics (3 credits)
- EMBA 680 - Special Topics in Executive MBA (1 to 3 credits)
- EMBA 681 - Developing the Strategic Mindset (1 credit)
- EMBA 682 - Systems Thinking and Advanced Tactics (2 credits)
- EMBA 683 - Corporate Strategy for Executives (3 credits)
- EMBA 697 - Professional Learning (1 to 3 credits)

## **English (ENG)**

### **Courses**

- ENG 100 - Reading for College in All Majors (3 credits)
- ENG 105 - Literatures in English (3 credits)
- ENG 112 - Much Ado About Shakespeare (3 credits)
- ENG 115 - Introduction to Science Fiction (3 credits)
- ENG 180 - Special Topics in English (1 to 9 credits)
- ENG 201 - Foundations of Literacy Instruction (3 credits)
- ENG 203 - World Literature (3 credits)
- ENG 204 - World Mythology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ENG 215 - Foundations of Literary Study: Genre (3 credits)
- ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)
- ENG 220 - British Literature I (3 credits)
- ENG 221 - British Literature II (3 credits)
- ENG 225 - American Literature I: to 1860 (3 credits)
- ENG 226 - American Literature II: from 1860 (3 credits)
- ENG 231 - Early African American Literature (3 credits)
- ENG 232 - Modern African American Literature (3 credits)
- ENG 261 - Foundations of Language Study (3 credits)
- ENG 280 - Special Topics in English (1 to 9 credits)
- ENG 301 - Reading and Writing in the Elementary Classroom (3 credits)
- ENG 302 - Introduction to Language Arts: Teaching Writing and Children's Literature (3 credits)
- ENG 303 - Studies in World Literature (3 credits)
- ENG 304 - International Literature for Children and Young Adults (3 credits)
- ENG 307 - Teaching Writing: Elementary (3 credits)
- ENG 308 - Teaching Reading: The Necessary Skills (4 credits)
- ENG 309 - Teaching Literature to Children (3 credits)
- ENG 310 - Teaching Writing: Secondary (3 credits)
- ENG 311 - Teaching Literature to Adolescents (3 credits)
- ENG 313 - British Literature: Shakespeare (3 credits)
- ENG 314 - Digital Literacies (3 credits)
- ENG 320 - Studies in Poetry (3 credits)
- ENG 321 - British Literature: Medieval (3 credits)
- ENG 322 - British Literature: Renaissance (3 credits)
- ENG 323 - British Literature: 18th-Romantic (3 credits)
- ENG 324 - British Literature: Victorian-Present (3 credits)
- ENG 325 - American Literature to 1800 (3 credits)
- ENG 326 - Nineteenth-Century American Literature (3 credits)
- ENG 327 - Modern American Literature (3 credits)
- ENG 328 - Contemporary American Literature (3 credits)
- ENG 330 - Studies in Fiction (3 credits)
- ENG 331 - Comics and Graphic Novels in Contemporary Culture (3 credits)
- ENG 334 - American Multicultural Literature for Children and Young Adults (3 credits)
- ENG 335 - Literature of American Minorities (3 credits)
- ENG 336 - Lesbian, Gay and Queer Literature (3 credits)
- ENG 337 - Contemporary Black Literature (3 credits)
- ENG 340 - Studies in Drama (3 credits)
- ENG 355 - Teaching English Learners, PK-6 (3 credits)
- ENG 360 - Studies in Nonfiction (3 credits)
- ENG 362 - History of the English Language (3 credits)
- ENG 363 - Applied Linguistics (3 credits)
- ENG 364 - Sociolinguistics (3 credits)
- ENG 365 - Teaching English as a Second Language (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ENG 366 - English Grammar and Usage (3 credits)
- ENG 378 - Contemporary Latin American Literature (3 credits)
- ENG 380 - Special Topics in English (1 to 3 credits)
- ENG 382 - Literature and the Environment (3 credits)
- ENG 383 - "Make It New": Literary Modernism (3 credits)
- ENG 384 - Literature of War (3 credits)
- ENG 386 - Literary Responses to Death and Dying (3 credits)
- ENG 388 - Emigration and Immigration in Contemporary World Literature (3 credits)
- ENG 390 - Topics in Language and Rhetoric (3 credits)
- ENG 392 - Language and Power (3 credits)
- ENG 399 - Independent Studies (1 to 4 credits)
- ENG 400 - Critical Issues in K-12 Literacy (3 credits)
- ENG 401 - Languages, Literacies, and Cultures (3 credits)
- ENG 436 - Women and Literature (3 credits)
- ENG 440 - Studies in Major Author(s) (3 credits)
- ENG 445 - Studies in Literary Criticism and Theory (3 credits)
- ENG 461 - Language and Gender (3 credits)
- ENG 465 - Teaching Second Language Reading and Writing (3 credits)
- ENG 467 - Language Disorders and English Literacy (3 credits)
- ENG 469 - ESL Teaching Practicum (3 credits)
- ENG 490 - Internship (1 to 3 credits)
- ENG 495 - Language and Literature (3 credits)
- ENG 499 - Advanced Scholarly Writing Project (1 to 3 credits)
- ENG 600 - Graduate Literary Studies Seminar (3 credits)
- ENG 603 - Seminar in British Literature (3 credits)
- ENG 605 - Seminar in American Literature (3 credits)
- ENG 612 - Women Writers (3 credits)
- ENG 614 - Literature of American Ethnic Minorities (3 credits)
- ENG 616 - World Literature in English (3 credits)
- ENG 624 - Genre Studies (3 credits)
- ENG 632 - Summer Invitational Writing Institute (3 credits)
- ENG 633 - Advanced Writing (3 credits)
- ENG 651 - Literary Period Seminar (3 credits)
- ENG 655 - History of Literary Criticism and Theory (3 credits)
- ENG 660 - Principles of Educational Linguistics (3 credits)
- ENG 661 - Author or Topic Seminar (3 credits)
- ENG 662 - Pedagogical Grammar (3 credits)
- ENG 663 - Shakespeare (3 credits)
- ENG 664 - Sociolinguistics and Language Teaching (3 credits)
- ENG 665 - Second Language Acquisition (3 credits)
- ENG 667 - Introduction to Applied Linguistics Research (3 credits)
- ENG 668 - Second Language Assessment (3 credits)
- ENG 669 - Teaching English as an Additional Language (EAL) (3 credits)
- ENG 670 - World Englishes: History and Variation (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ENG 675 - Second Language Reading and Writing (3 credits)
- ENG 679 - Practicum (3 credits)
- ENG 680 - Special Topics in English (1 to 4 credits)
- ENG 693 - Master's Project (3 credits)
- ENG 695 - Master's Thesis (1 to 3 credits)
- ENG 696 - Continuation of Master's Project or Thesis Research (1 credit)
- ENG 697 - Professional Learning (1 to 3 credits)
- ENG 699 - Independent Study (1 to 3 credits)

## **Environmental and Sustainability Studies (ENS)**

### **Courses**

- ENS 180 - Special Topics in Environmental Studies (1 to 9 credits)
- ENS 183 - Sustainability as a Lifestyle (1 credit)
- ENS 201 - Introduction to Environmental and Sustainability Studies (3 credits)
- ENS 280 - Special Topics in Environmental Studies (1 to 9 credits)
- ENS 300 - Principles of Sustainability (3 credits)
- ENS 303 - Introduction to U.S. Environmental Policy (3 credits)
- ENS 305 - Sustainability Assessment and Reporting (3 credits)
- ENS 310 - How Biosphere Works (3 credits)
- ENS 311 - To Bee or Not to Bee; Honey Bees and Social Impact (3 credits)
- ENS 380 - Special Topics in Environmental Studies (1 to 9 credits)
- ENS 392 - Sustainable Agriculture: Ideas and Techniques (3 credits)
- ENS 399 - Independent Readings in Environmental Studies (1 to 3 credits)
- ENS 401 - Environmental Problem Solving (3 credits)
- ENS 412 - Global Climate and Environmental Change (3 credits)
- ENS 490 - Internship (1 to 6 credits)
- ENS 491 - Practicum (1 to 6 credits)

## **Entrepreneurship (ENT)**

### **Courses**

- ENT 150 - Entrepreneurial Quest (3 credits)
- ENT 151 - New Venture Feasibility (3 credits)
- ENT 350 - Entrepreneurial Business Plan (3 credits)
- ENT 351 - Entrepreneurial Project (3 credits)

## **English as a Second Language (ESL)**

### **Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- ESL 98 - English as a Second Language (ESL): Composition (4 credits)

## **Exercise Science (EXS)**

### **Courses**

- EXS 209 - Research Methods in Exercise and Health Sciences (3 credits)
- EXS 320 - Exercise Testing and Prescription (3 credits)
- EXS 321 - Exercise Testing Lab (1 credit)
- EXS 390 - Fieldwork in Exercise Science (2 credits)
- EXS 420 - Laboratory Practicum in Exercise Science (3 credits)
- EXS 460 - Strength and Conditioning for Athletic Performance (3 credits)
- EXS 465 - Cardiopulmonary Rehabilitation for the Clinical Exercise Physiologist (3 credits)
- EXS 470 - Exercise for Special Populations (3 credits)
- EXS 490 - Internship in Exercise Science (6, 9, or 12 credits)
- EXS 495 - Professionalism in Exercise Science (3 credits)

## **Finance (FIN)**

### **Courses**

- FIN 221 - Personal Finance (3 credits)
- FIN 300 - Fundamentals of Finance for Non-Business Majors (3 credits)
- FIN 301 - Personal Finance: Managing Your Money During a Crisis (1 credit)
- FIN 320 - Managerial Finance (3 credits)
- FIN 321 - Investments (3 credits)
- FIN 322 - Intermediate Managerial Finance (3 credits)
- FIN 330 - Ethics in Finance (3 credits)
- FIN 331 - Risk and Insurance (3 credits)
- FIN 350 - Real Estate Principles (3 credits)
- FIN 380 - Special Topics in Finance (3 credits)
- FIN 420 - Bank Management (3 credits)
- FIN 422 - Advanced Managerial Finance (3 credits)
- FIN 427 - Derivative Assets and Markets (3 credits)
- FIN 428 - Portfolio Management I (3 credits)
- FIN 429 - International Financial Management (3 credits)
- FIN 438 - Portfolio Management II (3 credits)
- FIN 480 - Special Topics in Finance (1 to 9 credits)
- FIN 490 - Finance Internship (1 to 6 credits)
- FIN 499 - Independent Research (1 to 3 credits)
- FIN 520 - Statistics and Mathematics of Finance (3 credits)
- FIN 621 - Financial Policy for Managers (3 credits)
- FIN 624 - Investment and Portfolio Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- FIN 626 - Advanced Managerial Finance (3 credits)
- FIN 627 - Derivative Assets and Markets (3 credits)
- FIN 629 - International Finance (3 credits)
- FIN 680 - Special Topics in Finance (1 to 3 credits)
- FIN 697 - Professional Learning (1 to 3 credits)
- FIN 699 - Independent Study (1 to 3 credits)

## **Fitness, Skill, & Activity (FIT)**

### **Courses**

- FIT 100 - Self Defense (R.A.D.) for Women (1 credit)
- FIT 101 - Pilates (1 credit)
- FIT 102 - Personal Self-Defense (1 credit)
- FIT 103 - Tae Kwon Do (1 credit)
- FIT 104 - Recreational Gymnastics (1 credit)
- FIT 105 - Boxing (1 credit)
- FIT 106 - Cardio Kickboxing (1 credit)
- FIT 107 - Tai Chi (1 credit)
- FIT 109 - Yoga (1 credit)
- FIT 111 - Training for a 5K Road Race (1 credit)
- FIT 112 - Core Strength (1 credit)
- FIT 118 - Archery (1 credit)
- FIT 119 - Outdoor Skills (1 credit)
- FIT 120 - Bowling (1 credit)
- FIT 121 - Golf: Fundamental Shots (1 credit)
- FIT 123 - Golf: Shaping Shots (1 credit)
- FIT 124 - Basics of Weight Training (1 credit)
- FIT 125 - Performance Weight Training (1 credit)
- FIT 126 - Conditioning and Flexibility (1 credit)
- FIT 128 - Rock Climbing (1 credit)
- FIT 130 - Volleyball (1 credit)
- FIT 131 - Basketball (1 credit)
- FIT 133 - Softball (1 credit)
- FIT 134 - Soccer (1 credit)
- FIT 139 - Team Sports (1 credit)
- FIT 140 - Racquetball (1 credit)
- FIT 142 - Tennis (1 credit)
- FIT 143 - Core and Spin (1 credit)
- FIT 144 - Badminton (1 credit)
- FIT 145 - Total Body Strength (1 credit)
- FIT 147 - Olympic Weightlifting (1 credit)
- FIT 148 - Indoor Fitness Cycling (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- FIT 150 - Swimming: Strokes and Drills (1 credit)
- FIT 151 - Fitness Swimming (1 credit)
- FIT 152 - Rowing (1 credit)
- FIT 153 - Sailing-Large Boat (1 credit)
- FIT 156 - Zumba (1 credit)
- FIT 157 - Belly Dance (1 credit)
- FIT 158 - Scuba - Open Water (1 credit)
- FIT 160 - Jazz Dance (1 credit)
- FIT 164 - Modern Dance (1 credit)
- FIT 166 - Ballet Dance (1 credit)
- FIT 168 - Dance for Fitness (1 credit)
- FIT 178 - Ballroom Dance (1 credit)
- FIT 180 - Selected Topics in Fitness, Skill, and Activity (1 to 9 credits)
- FIT 280 - Special Topics in Fitness (1 to 3 credits)

## **French (FRE)**

### **Courses**

- FRE 101 - Beginning French I: Language and Culture (4 credits)
- FRE 102 - Beginning French II: Language and Culture (4 credits)
- FRE 150 - Accelerated Beginning French I and II: Language and Culture (4 credits)
- FRE 180 - Special Topics in French (1 to 4 credits)
- FRE 201 - Intermediate French I: Language and Culture (4 credits)
- FRE 202 - Intermediate French II: Language and Culture (4 credits)
- FRE 280 - Special Topics in French (1 to 6 credits)
- FRE 315 - French Conversation (3 credits)
- FRE 316 - Advanced French Grammar (3 credits)
- FRE 317 - Writing in French (3 credits)
- FRE 318 - Introduction to French Literature (3 credits)
- FRE 321 - Survey of French Literature I (3 credits)
- FRE 322 - Survey of French Literature II (3 credits)
- FRE 323 - Survey of French Literature III (3 credits)
- FRE 331 - French Phonetics (3 credits)
- FRE 332 - Introduction to French Linguistics (3 credits)
- FRE 333 - Theory and Practice of Translation (3 credits)
- FRE 334 - Foreign Language Acquisition and Pedagogy (3 credits)
- FRE 341 - French History and Civilization (3 credits)
- FRE 342 - Contemporary French Culture and Society (3 credits)
- FRE 343 - Francophone Civilization (3 credits)
- FRE 351 - Business French (3 credits)
- FRE 380 - Special Topics in French (1 to 6 credits)
- FRE 385 - French Language (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- FRE 386 - French Culture Abroad (3 credits)
- FRE 387 - EUSA Paris-Language (3 credits)
- FRE 388 - EUSA Paris-Internship (3 to 6 credits)
- FRE 395 - Advanced Speaking Strategies and Skills (3 credits)
- FRE 399 - Independent Study (1 to 4 credits)
- FRE 421 - Medieval French Literature (3 credits)
- FRE 422 - Renaissance French Literature (3 credits)
- FRE 423 - 17th Century French Literature (3 credits)
- FRE 424 - 18th Century French Literature (3 credits)
- FRE 425 - French Literature of the 19th Century (3 credits)
- FRE 426 - Modern French Literature (3 credits)
- FRE 427 - Francophone Literatures and Cultures (3 credits)
- FRE 480 - Special Topics in French (1 to 4 credits)
- FRE 495 - Advanced Topics in French (Capstone) (3 credits)
- FRE 499 - Independent Research (1 to 4 credits)

## **Film and Video Production (FVP)**

### **Courses**

- FVP 123 - Survey of Media Production Modes (3 credits)
- FVP 125 - Media Production I (3 credits)
- FVP 225 - Film Culture (3 credits)
- FVP 226 - Media Production II (3 credits)
- FVP 227 - Post-Production Techniques (3 credits)
- FVP 261 - Scriptwriting I (3 credits)
- FVP 282 - Audio Production I (3 credits)
- FVP 321 - Fiction Filmmaking I (3 credits)
- FVP 322 - Documentary Production I (3 credits)
- FVP 323 - Media Technologies (3 credits)
- FVP 324 - 3-D Computer Animation (3 credits)
- FVP 325 - Animation I (3 credits)
- FVP 326 - New Media I (3 credits)
- FVP 327 - Film and Video Art (3 credits)
- FVP 328 - Intermediate Film Practicum (3 or 6 credits)
- FVP 330 - Digital Post Production (3 credits)
- FVP 348 - Film Theories (3 credits)
- FVP 362 - Scriptwriting II (3 credits)
- FVP 368 - Lighting for Film and Video Productions (3 credits)
- FVP 370 - American Cinema (3 credits)
- FVP 371 - History of Animation (3 credits)
- FVP 372 - History of Documentary Film (3 credits)
- FVP 373 - Issues of Representation (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- FVP 374 - Experimental Film and Video (3 credits)
- FVP 375 - World Cinema (3 credits)
- FVP 376 - Latin American Cinema (3 credits)
- FVP 380 - Special Topics in Film and Video (3 credits)
- FVP 382 - Audio Production II (3 credits)
- FVP 399 - Independent Study (1 to 6 credits)
- FVP 421 - Fiction Filmmaking II (3 credits)
- FVP 422 - Documentary Production II (3 credits)
- FVP 425 - Animation II (3 credits)
- FVP 426 - New Media II (3 credits)
- FVP 428 - Advanced Film Practicum (3 or 6 credits)
- FVP 429 - Post Production Practicum (3 credits)
- FVP 470 - Producing for Clients (3 credits)
- FVP 482 - Sound Design for Film and Video (3 credits)
- FVP 490 - Internship (1 to 6 credits)
- FVP 495 - Issues in Film and Media Arts (3 credits)
- FVP 498 - Senior Thesis/Project (1 to 6 credits)
- FVP 499 - Independent Study (1 to 5 credits)

## Geology (GEO)

### Courses

- GEO 100 - Environmental Geology (3 credits)
- GEO 103 - Oceans (3 credits)
- GEO 105 - Living with the Great Lakes (3 credits)
- GEO 111 - Exploring the Earth (4 credits)
- GEO 112 - Earth History (4 credits)
- GEO 175 - Research Tools for Geosciences (1 credit)
- GEO 180 - Special Topics in the Geological Sciences (1 to 4 credits)
- GEO 201 - The Geosphere for K-8 Pre-Service Teachers (4 credits)
- GEO 202 - Hydrosphere for Teachers (4 credits)
- GEO 203 - Weather and Climate for Pre-Service Teachers (3 credits)
- GEO 214 - Solid Earth Materials and Systems (4 credits)
- GEO 220 - Earth Surface Materials and Systems (4 credits)
- GEO 280 - Special Topics in the Geological Sciences (1 to 4 credits)
- GEO 311 - Structural Geology (4 credits)
- GEO 312 - Sedimentation-Stratigraphy (4 credits)
- GEO 314 - Petrography: Mineral and Rock Analysis (2 credits)
- GEO 315 - Geological Field Methods (3 credits)
- GEO 320 - Geomorphology (4 credits)
- GEO 360 - Earth Resources in Transition: Conventional to Sustainable (3 credits)
- GEO 380 - Special Topics in the Geological Sciences (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- GEO 399 - Readings in Geology (1 to 4 credits)
- GEO 411 - Global Tectonics (3 credits)
- GEO 414 - Advanced Petrology (2 credits)
- GEO 415 - Invertebrate Paleontology (3 credits)
- GEO 420 - Glacial and Quaternary Geology (4 credits)
- GEO 425 - GIS Applications in Geology (3 credits)
- GEO 430 - Oceanography (3 credits)
- GEO 440 - Geohydrology (3 credits)
- GEO 445 - Introduction to Geochemistry (3 credits)
- GEO 470 - Geophysics (4 credits)
- GEO 480 - Special Topics in the Geological Sciences (1 to 4 credits)
- GEO 485 - Geology Research and Writing Seminar (1 credit)
- GEO 486 - Geology Reading Seminar (1 credit)
- GEO 490 - Geology Internship (1 to 10 credits)
- GEO 493 - Applied Field Geology (1 to 8 credits)
- GEO 499 - Independent Study or Research in Geology (1 to 4 credits)
- GEO 580 - Special Topics in the Geological Sciences (1 to 4 credits)
- GEO 697 - Professional Learning (1 to 3 credits)

## German (GER)

### Courses

- GER 101 - Beginning German I: Language and Culture (4 credits)
- GER 102 - Beginning German II: Language and Culture (4 credits)
- GER 180 - Special Topics in German (1 to 4 credits)
- GER 201 - Intermediate German I: Language and Culture (4 credits)
- GER 202 - Intermediate German II: Language and Culture (4 credits)
- GER 280 - Special Topics in German (1 to 4 credits)
- GER 301 - German Composition (3 credits)
- GER 302 - German Conversation (3 credits)
- GER 303 - Introduction to German Literature I (3 credits)
- GER 304 - Introduction to German Literature II (3 credits)
- GER 311 - The Long 19th Century (3 credits)
- GER 312 - Contemporary German Culture (3 credits)
- GER 314 - Foreign Language Acquisition and Pedagogy (3 credits)
- GER 315 - German Cinema (3 credits)
- GER 321 - Improving German Pronunciation (3 credits)
- GER 322 - Introduction to German Linguistics (3 credits)
- GER 331 - Business German (3 credits)
- GER 341 - Advanced German Grammar (3 credits)
- GER 342 - Advanced Speaking Strategies and Skills (3 credits)
- GER 380 - Special Topics in German (1 to 9 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- GER 385 - German Language (3 credits)
- GER 386 - German Culture and Society (3 credits)
- GER 399 - Independent Reading (1 to 4 credits)
- GER 401 - Modern German Literature (3 credits)
- GER 402 - German Authors (3 credits)
- GER 421 - History of the German Language (3 credits)
- GER 480 - Special Topics in German (1 to 4 credits)
- GER 495 - Advanced Topics in German (3 credits)
- GER 499 - Independent Study and Research (1 to 4 credits)

## Geography (GPY)

### Courses

- GPY 100 - Physical and Environmental Geography (3 credits)
- GPY 101 - Sustainability and Place (1 credit)
- GPY 111 - Cities, Towns, and Villages (3 credits)
- GPY 112 - Global Climate Crisis (1 credit)
- GPY 200 - Computer Cartography (3 credits)
- GPY 209 - Introduction to Urban and Regional Planning (3 credits)
- GPY 220 - Cultural Geography (3 credits)
- GPY 235 - Geography for a Changing World (3 credits)
- GPY 307 - Introduction to Geographic Information Systems (3 credits)
- GPY 310 - Land Use Planning (3 credits)
- GPY 312 - Urban and Regional Environmental Planning (3 credits)
- GPY 314 - Land Use and Planning Law (3 credits)
- GPY 316 - Introduction to Transportation Planning (3 credits)
- GPY 324 - Urbanization (3 credits)
- GPY 335 - Globalization and Development (3 credits)
- GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)
- GPY 350 - Geopolitics, Energy and Environment of Russia and Central Eurasia (3 credits)
- GPY 351 - Geography of Africa (3 credits)
- GPY 352 - Geography of Latin America (3 credits)
- GPY 353 - Geography of the United States and Canada (3 credits)
- GPY 354 - Geography and Globalization of Asia (3 credits)
- GPY 356 - The Geography, Culture and Land Use Management of Europe (3 credits)
- GPY 361 - People, Environment, and Development in the Amazon (3 credits)
- GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)
- GPY 363 - World Forests and Their Use (3 credits)
- GPY 365 - GIS for Economic and Business Decision-Making (3 credits)
- GPY 370 - Introduction to Remote Sensing (3 credits)
- GPY 380 - Special Topics in Geography (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- GPY 381 - Study Abroad I (3 to 9 credits)
- GPY 385 - GIS in Urban and Regional Analysis (3 credits)
- GPY 399 - Independent Readings (1 to 3 credits)
- GPY 407 - Advanced GIS (4 credits)
- GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)
- GPY 412 - Global Climate and Environmental Change (3 credits)
- GPY 470 - Digital Image Processing (3 credits)
- GPY 490 - Internship (1 to 9 credits)
- GPY 495 - Senior Thesis (3 credits)
- GPY 496 - Field Research Project (3 credits)
- GPY 499 - Independent Research (1 to 3 credits)

## **Greek (GRK)**

### **Courses**

- GRK 101 - Elementary Ancient Greek I (4 credits)
- GRK 102 - Elementary Ancient Greek II (4 credits)
- GRK 201 - Intermediate Ancient Greek I (4 credits)
- GRK 202 - Intermediate Ancient Greek II (3 credits)
- GRK 285 - Study Abroad: Intermediate Ancient Greek (1 to 6 credits)
- GRK 350 - Greek Prose (3 credits)
- GRK 351 - Greek Poetry (3 credits)
- GRK 385 - Study Abroad: Advanced Ancient Greek (1 to 6 credits)
- GRK 399 - Independent Reading (1 to 3 credits)
- GRK 400 - Advanced Greek Prose (3 credits)
- GRK 401 - Advanced Greek Poetry (3 credits)

## **Global Studies & Social Impact (GSI)**

### **Courses**

- GSI 201 - (Dis)Order and (In)Justice: An Introduction to Global Studies (3 credits)
- GSI 202 - History of Global Change and Social Transformation (3 credits)
- GSI 215 - Global Migration (3 credits)
- GSI 290 - Changemakers! Introduction to Social Impact (3 credits)
- GSI 399 - Independent Reading (1 to 3 credits)
- GSI 490 - Global Studies Internship (1 to 3 credits)
- GSI 491 - Practicum: Immigrants and Refugees in the Community (3 credits)
- GSI 495 - Global Studies and Social Impact (3 credits)

## **Health Information Management (HIM)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Courses**

- HIM 301 - Introduction to Health Information Management (3 credits)
- HIM 302 - Health Care Law (3 credits)
- HIM 304 - Advanced Med Terms of Disease (3 credits)
- HIM 310 - Functional and Administrative Practices in Health Information Management (3 credits)
- HIM 311 - CPT/HCPCS Coding (3 credits)
- HIM 320 - Applications of Organizational Planning for Health Information Management (3 credits)
- HIM 345 - Orientation to Health Information Management Practicum (1 credit)
- HIM 361 - Disease Classification System I (3 credits)
- HIM 362 - Disease Classification System II (3 credits)
- HIM 364 - Financial Reimbursement (3 credits)
- HIM 365 - Quality Management in Health Care (3 credits)
- HIM 366 - Health Information Data Systems and Statistics (3 credits)
- HIM 402 - Health Information Management Review (1 credit)
- HIM 470 - Field Practicum in Health Information Management (11 credits)

## **Honors College (HNR)**

### **Courses**

- HNR 151 - First Year Interdisciplinary Sequence 1 (3 credits)
- HNR 152 - First Year Interdisciplinary Sequence 2 (3 credits)
- HNR 153 - First Year Interdisciplinary Sequence 3 (3 credits)
- HNR 154 - First-Year Interdisciplinary Sequence 4 (3 credits)
- HNR 200 - Campus/Community Engagement (3 credits)
- HNR 201 - Live. Learn. Lead. (3 credits)
- HNR 209 - The Middle East Beyond the Headlines 1 (3 credits)
- HNR 210 - The Middle East Beyond the Headlines 2 (3 credits)
- HNR 211 - The Worlds of Greece and Rome 1 (3 credits)
- HNR 212 - The Worlds of Greece and Rome 2 (3 credits)
- HNR 213 - American Civilization 1 (3 credits)
- HNR 214 - American Civilization 2 (3 credits)
- HNR 215 - Europe: The Center and the Margins 1 (3 credits)
- HNR 216 - Europe: The Center and the Margins 2 (3 credits)
- HNR 219 - The Middle East Beyond the Headlines 3 (3 credits)
- HNR 220 - The Middle East Beyond the Headlines 4 (3 credits)
- HNR 221 - The Worlds of Greece and Rome 3 (3 credits)
- HNR 222 - The Worlds of Greece and Rome 4 (3 credits)
- HNR 223 - American Civilization 3 (3 credits)
- HNR 224 - American Civilization 4 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- HNR 225 - Europe: The Center and the Margins 3 (3 credits)
- HNR 226 - Europe: The Center and the Margins 4 (3 credits)
- HNR 231 - The Holocaust (3 credits)
- HNR 236 - Modern Art and Modernity (3 credits)
- HNR 241 - The Earth, A Global View (4 credits)
- HNR 242 - Plants and People (3 credits)
- HNR 243 - The Human Body in Motion I (4 credits)
- HNR 244 - The Human Body in Motion II (3 credits)
- HNR 245 - Microbes and Society (3 credits)
- HNR 246 - Chemistry in Perspective (4 credits)
- HNR 247 - Molecules of Life in Perspective (3 credits)
- HNR 250 - Project-Based Learning (3 credits)
- HNR 251 - Project-Based Learning/QL (3 credits)
- HNR 254 - Africa Seen Through African Eyes 1 (3 credits)
- HNR 255 - Africa Seen Through African Eyes 2 (3 credits)
- HNR 256 - East Asia and the World: Ideas, Inventions, and Power 1 (3 credits)
- HNR 257 - East Asia and the World: Ideas, Inventions, and Power 2 (3 credits)
- HNR 258 - History of Science I (3 credits)
- HNR 259 - History of Science I (3 credits)
- HNR 260 - Alliance and Conflict: World Construction in Religion and Society (3 credits)
- HNR 261 - Alliance and Conflict: World Construction in Religion and Society (3 credits)
- HNR 262 - Alliance and Conflict: World Construction in Religion and Society (3 credits)
- HNR 263 - Theory and Practice of Rights 1 (3 credits)
- HNR 264 - Theory and Practice of Rights 2 (3 credits)
- HNR 265 - Theory and Practice of Rights 3 (3 credits)
- HNR 274 - Africa Seen Through African Eyes 3 (3 credits)
- HNR 275 - Africa Seen Through African Eyes 4 (3 credits)
- HNR 276 - East Asia and the World: Ideas, Inventions, and Power 3 (3 credits)
- HNR 277 - East Asia and the World: Ideas, Inventions, and Power 4 (3 credits)
- HNR 278 - History of Science II (3 credits)
- HNR 279 - History of Science II (3 credits)
- HNR 280 - Honors Special Topics (1 to 3 credits)
- HNR 281 - Study Abroad - Ghana (3 credits)
- HNR 311 - Honors Junior Seminar (3 credits)
- HNR 312 - Honors Junior Seminar (3 credits)
- HNR 313 - Honors Junior Seminar (3 credits)
- HNR 350 - Integrative Seminar (3 credits)
- HNR 351 - Honors Integrative Seminar/QL (3 credits)
- HNR 380 - Honors Advanced Special Topics (1 to 4 credits)
- HNR 399 - Independent Study (1 to 4 credits)
- HNR 401 - Senior Project Proposal (1 credit)
- HNR 499 - Honors Senior Project (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# **Health and Physical Education (HPE)**

## **Audiology (HRG)**

### **Courses**

- HRG 501 - Anatomy and Physiology of Hearing and Balance (3 credits)
- HRG 504 - Instrumentation and Hearing Science (3 credits)
- HRG 508 - Psychoacoustics (2 credits)
- HRG 521 - Audiologic Assessment (3 credits)
- HRG 525 - Neurophysiologic Measures I (3 credits)
- HRG 526 - Neurophysiologic Measures II (3 credits)
- HRG 527 - Vestibular Assessment and Rehabilitation (3 credits)
- HRG 541 - Amplification I (3 credits)
- HRG 542 - Amplification II (3 credits)
- HRG 545 - Auditory Habilitation and Rehabilitation (3 credits)
- HRG 562 - Professional Issues in Audiology (1 credit)
- HRG 566 - Evidence-Based Practice in Audiology (1 credit)
- HRG 570 - Audiology Fieldwork (1 credit)
- HRG 606 - Auditory Pathophysiology and Heredity (2 credits)
- HRG 607 - Radiographic Imaging and Pharmacology for Audiology (2 credits)
- HRG 623 - Hearing Across the Lifespan (3 credits)
- HRG 629 - Clinical Decision Making in Audiology (2 credits)
- HRG 642 - Educational Audiology and Auditory Processing Disorders (2 credits)
- HRG 645 - Cochlear Implants and Tinnitus (3 credits)
- HRG 648 - Mentoring and Counseling in Audiology (2 credits)
- HRG 661 - Hearing Conservation (2 credits)
- HRG 664 - Audiology Practice Management (2 credits)
- HRG 670 - Audiology Practicum (2 credits)
- HRG 690 - Research Preparation in Audiology (3 credits)
- HRG 697 - Professional Learning (1 to 3 credits)
- HRG 760 - Special Topics in Audiology (1 credit)
- HRG 770 - Audiology Internship (6 credits)
- HRG 797 - Professional Learning (1 to 3 credits)
- HRG 799 - Independent Study in Audiology (1 to 6 credits)

## **Human Rights (HRT)**

### **Courses**

- HRT 105 - Introduction to Human Rights (3 credits)
- HRT 316 - Human Rights in International Politics (3 credits)
- HRT 319 - Human Traffic and Trafficking (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MKT 356 - Professional Selling (3 credits)
- MKT 357 - Retailing (3 credits)
- MKT 358 - Advertising and Marketing Communications (3 credits)
- MKT 359 - Multinational Marketing (3 credits)
- MKT 360 - Digital Marketing (3 credits)
- MKT 361 - Sports Marketing (3 credits)
- MKT 365 - GIS for Economic and Business Decision-Making (3 credits)
- MKT 369 - Creativity in Marketing Innovation (3 credits)
- MKT 370 - New Product Development (3 credits)
- MKT 375 - Marketing Ethics (3 credits)
- MKT 380 - Special Topics in Marketing (3 credits)
- MKT 425 - Brand Management (3 credits)
- MKT 451 - Marketing Strategy (3 credits)
- MKT 452 - Marketing Analytics (3 credits)
- MKT 456 - Sales Management (3 credits)
- MKT 457 - Logistics and Transportation (3 credits)
- MKT 490 - Marketing Internship (1 to 6 credits)
- MKT 499 - Independent Research (1 to 3 credits)
- MKT 651 - Marketing Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MKT 680 - Special Topics in Marketing (1 to 3 credits)
- MKT 697 - Professional Learning (1 to 3 credits)
- MKT 699 - Independent Study (1 to 3 credits)

## **Modern Languages and Literature (MLL)**

### **Courses**

- MLL 100 - How to Learn a Foreign Language (1 credit)
- MLL 300 - What's Language Got To Do With It?: Exploring Identity Through Language, Culture, and Literature (3 credits)
- MLL 380 - Special Topics in Modern Languages and Literature (1 to 9 credits)

## **Medical Laboratory Science (MLS)**

### **Courses**

- MLS 102 - Introduction to Medical Laboratory Sciences (1 credit)
- MLS 320 - General Laboratory Practice (2 credits)
- MLS 350 - Management for Laboratory Science (2 credits)
- MLS 370 - Parasitology and Mycology (4 credits)
- MLS 371 - Parasitology and Mycology Lab (1 credit)
- MLS 372 - Diagnostic Microbiology (3 credits)
- MLS 373 - Diagnostic Microbiology Laboratory (1 credit)
- MLS 380 - Special Topics in Medical Laboratory Science (1 to 4 credits)
- MLS 399 - Readings in Medical Laboratory Science (1 to 4 credits)
- MLS 400 - Molecular Diagnostics/Virology (3 credits)
- MLS 410 - Clinical Immunoserology (3 credits)
- MLS 416 - Hematology (3 credits)
- MLS 417 - Clinical Hematology Laboratory (1 credit)
- MLS 422 - Clinical Chemistry (4 credits)
- MLS 423 - Clinical Chemistry Laboratory (2 credits)
- MLS 450 - Clinical Practicum I (1 credit)
- MLS 461 - Medical Laboratory Science Simulation Laboratory (2 credits)
- MLS 462 - Transfusion Medicine (3 credits)
- MLS 463 - Hemostasis (2 credits)
- MLS 464 - Bacteriology and Antibiotics (1 credit)
- MLS 490 - Clinical Practicum II (5 credits)
- MLS 495 - Issues in Medical Laboratory Science (3 credits)

## **Movement Science (MOV)**

### **Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MOV 101 - Foundations of Human Movement Science (3 credits)
- MOV 102 - First Aid, CPR and AED (2 credits)
- MOV 180 - Special Topics in Movement Science (1 to 4 credits)
- MOV 201 - Psychosocial Aspects of Physical Education and Sport (3 credits)
- MOV 280 - Special Topics in Movement Science (1 to 4 credits)
- MOV 300 - Kinesiology (3 credits)
- MOV 304 - Introduction to Exercise Physiology (3 credits)
- MOV 310 - Motor Skill Development (3 credits)
- MOV 350 - The Obesogenic Environment (3 credits)
- MOV 365 - Clinical Exercise Physiology (3 credits)
- MOV 380 - Special Topics in Movement Science (1 to 4 credits)
- MOV 399 - Independent Readings (1 to 3 credits)
- MOV 435 - Measurement in Biomechanics (3 credits)
- MOV 480 - Special Topics in Movement Science (1 to 3 credits)
- MOV 499 - Independent Study and Research (1 to 3 credits)
- MOV 535 - Measurement in Biomechanics (3 credits)
- MOV 580 - Special Topics in Movement Science (1 to 3 credits)
- MOV 680 - Special Topics in Movement Science (1 to 3 credits)
- MOV 697 - Professional Learning (1 to 3 credits)

## **Military Science and Leadership (MSL)**

## **Mathematics (MTH)**

### **Courses**

- MTH 097 - Elementary Algebra (4 credits)
- MTH 110 - Algebra (4 credits)
- MTH 122 - College Algebra (3 credits)
- MTH 123 - Trigonometry (3 credits)
- MTH 124 - Precalculus: Functions and Models (5 credits)
- MTH 125 - Survey of Calculus (3 credits)
- MTH 126 - Mathematics for Elementary Teachers (2 credits)
- MTH 131 - Introduction to Mathematics (3 credits)
- MTH 180 - Special Topics in Mathematics (1 to 3 credits)
- MTH 201 - Calculus I (4 credits)
- MTH 202 - Calculus II (4 credits)
- MTH 203 - Calculus III (4 credits)
- MTH 204 - Linear Algebra I (3 credits)
- MTH 205 - Linear Algebra II (3 credits)
- MTH 210 - Communicating in Mathematics (4 credits)
- MTH 223 - Mathematics for Elementary Teachers III (5 credits)
- MTH 225 - Discrete Structures: Computer Science (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MTH 226 - Mathematics for PK-6: Whole Numbers and Operations (3 credits)
- MTH 229 - Mathematical Activities for Secondary Teachers (3 credits)
- MTH 300 - Vector Analysis (3 credits)
- MTH 302 - Linear Algebra and Differential Equations (4 credits)
- MTH 304 - Analysis of Differential Equations (3 credits)
- MTH 305 - Mathematical Modeling (3 credits)
- MTH 312 - Cryptography and Privacy (3 credits)
- MTH 315 - Discrete Mathematics (3 credits)
- MTH 322 - Geometry for Elementary Teachers (3 credits)
- MTH 323 - Probability and Statistics for Elementary Teachers (3 credits)
- MTH 324 - Algebra for Elementary Teachers (3 credits)
- MTH 325 - Discrete Structures: Computer Science 2 (3 credits)
- MTH 326 - Math for PK-6: Fractions, Decimals, and Proportional Reasoning (3 credits)
- MTH 328 - Early Childhood Mathematics (PK-3) (3 credits)
- MTH 329 - Teaching Middle Grades Mathematics (3 credits)
- MTH 331 - Euclidean Geometry (3 credits)
- MTH 350 - Modern Algebra I (3 credits)
- MTH 360 - Operations Research (3 credits)
- MTH 380 - Special Topics in Mathematics (1 to 4 credits)
- MTH 386 - Study Abroad in Mathematics Education (1 to 6 credits)
- MTH 399 - Independent Readings (1 to 4 credits)
- MTH 401 - Mathematics for the Physical Sciences (4 credits)
- MTH 402 - Complex Variables (3 credits)
- MTH 405 - Numerical Analysis (3 credits)
- MTH 406 - Linear Algebra III (3 credits)
- MTH 408 - Real Analysis 1 (3 credits)
- MTH 409 - Real Analysis 2 (3 credits)
- MTH 428 - Teaching Math in the Elementary Grades (1 credit)
- MTH 431 - Non-Euclidean Geometry (3 credits)
- MTH 441 - Topology (3 credits)
- MTH 450 - Modern Algebra II (3 credits)
- MTH 465 - Automata and Theory of Computation (3 credits)
- MTH 480 - Special Topics in Mathematics (1 to 4 credits)
- MTH 490 - Mathematics Internship Seminar (2 credits)
- MTH 495 - The Nature of Modern Mathematics (Capstone) (3 credits)
- MTH 496 - Senior Thesis (Capstone) (3 credits)
- MTH 498 - Project-Based Applied Mathematics (Capstone) (3 credits)
- MTH 499 - Independent Study and Research (1 to 4 credits)
- MTH 625 - Number Theory (3 credits)
- MTH 641 - Modern Geometry (3 credits)
- MTH 645 - Discrete Mathematics (3 credits)
- MTH 680 - Special Topics in Mathematics (1 to 4 credits)
- MTH 697 - Professional Learning (1 to 3 credits)
- MTH 699 - Directed Readings in Mathematics (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Music (MUS)

## Courses

- MUS 100 - Introduction to Music Literature (3 credits)
- MUS 101 - University Singers (1 credit)
- MUS 102 - Concert Band (1 credit)
- MUS 103 - Grand Valley Symphony Orchestra (1 credit)
- MUS 104 - Chamber Music Ensembles (0.5 credits)
- MUS 105 - Grand Valley Jazz Ensemble (1 credit)
- MUS 107 - Grand Valley Marching Band (1 credit)
- MUS 108 - New Music Ensemble (1 credit)
- MUS 109 - Anima Vocal Ensemble (1 credit)
- MUS 110 - Early Music Ensemble (1 credit)
- MUS 111 - Grand Valley Basketball Pep Band (1 credit)
- MUS 112 - Wind Symphony (1 credit)
- MUS 113 - Grand Valley Percussion Ensemble (1 credit)
- MUS 115 - Grand Valley Chamber Orchestra (1 credit)
- MUS 116 - Cantate Chamber Ensemble (1 credit)
- MUS 117 - Grand Valley University Arts Chorale (1 credit)
- MUS 118 - Varsity Glee Club (1 credit)
- MUS 119 - Survey of Music Literature I (3 credits)
- MUS 120 - Survey of Music Literature II (3 credits)
- MUS 121 - University Band (1 credit)
- MUS 126 - Collaborative Piano (1 credit)
- MUS 128 - Strum and Drum for Everyone (3 credits)
- MUS 129 - Fundamentals of Music (3 credits)
- MUS 130 - Music Theory I (3 credits)
- MUS 131 - Music Theory II (3 credits)
- MUS 133 - Aural Perception and Sight-Singing I (1 credit)
- MUS 134 - Aural Perception and Sight-Singing II (1 credit)
- MUS 140 - Developmental Applied Music (1 credit)
- MUS 141 - Private Instruction in Voice and Instruments - Freshman (1 credit)
- MUS 142 - Private Instruction in Voice and Instruments - Freshman (1 credit)
- MUS 144 - Private Instruction in Voice and Instruments - Freshman (3 credits)
- MUS 145 - Private Instruction in Voice and Instruments - Freshman (3 credits)
- MUS 170 - Stage Movement (1 credit)
- MUS 180 - Special Topics in Music (1 credit)
- MUS 182 - Arts at Noon (1 credit)
- MUS 200 - Introduction to Music Education (1 credit)
- MUS 218 - World Music (3 credits)
- MUS 219 - Jazz History (3 credits)
- MUS 230 - Music Theory III (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MUS 231 - Music Theory IV (3 credits)
- MUS 233 - Aural Perception and Sight-Singing III (1 credit)
- MUS 234 - Aural Perception and Sight-Singing IV (1 credit)
- MUS 241 - Private Instruction in Voice and Instruments - Sophomore (1 credit)
- MUS 242 - Private Instruction in Voice and Instruments - Sophomore (1 credit)
- MUS 244 - Private Instruction in Voice and Instruments - Sophomore (3 credits)
- MUS 245 - Private Instruction in Voice and Instruments - Sophomore (3 credits)
- MUS 248 - Singing for Non-Majors (1 credit)
- MUS 253 - Woodwind Techniques (2 credits)
- MUS 255 - Brass Techniques (2 credits)
- MUS 257 - Class Percussion (1 credit)
- MUS 258 - String Techniques (2 credits)
- MUS 263 - Keyboard Musicianship I (1 credit)
- MUS 264 - Keyboard Musicianship II (1 credit)
- MUS 267 - Opera Workshop (1 credit)
- MUS 283 - Keyboard Musicianship III (1 credit)
- MUS 284 - Keyboard Musicianship IV (1 credit)
- MUS 285 - Advanced Keyboard Musicianship (1 credit)
- MUS 300 - From Rag to Rock - Exploring American Music (3 credits)
- MUS 301 - History of Rock and Roll (3 credits)
- MUS 302 - Music: Medieval and Renaissance Eras (3 credits)
- MUS 303 - Music: Baroque Era (3 credits)
- MUS 304 - Music: Classical Era (3 credits)
- MUS 305 - Music: 19th Century (3 credits)
- MUS 306 - Music from 1900-1960 (3 credits)
- MUS 307 - Music Since 1960 (3 credits)
- MUS 308 - Music History Seminar (3 credits)
- MUS 310 - Piano Literature (2 credits)
- MUS 320 - Introduction to Conducting (2 credits)
- MUS 330 - Instrumentation/Orchestration (3 credits)
- MUS 333 - Form and Analysis in Western Music (3 credits)
- MUS 338 - Techniques of Jazz Instruction (1 credit)
- MUS 341 - Private Instruction in Voice and Instruments - Junior (1 credit)
- MUS 342 - Private Instruction in Voice and Instruments - Junior (1 credit)
- MUS 344 - Private Instruction in Voice and Instruments - Junior (3 credits)
- MUS 345 - Private Instruction in Voice and Instruments - Junior (3 credits)
- MUS 354 - Teaching the Developing Voice (2 credits)
- MUS 357 - Opera Theatre (1 credit)
- MUS 359 - Diction for Singers (2 credits)
- MUS 360 - Performance Literature (2 credits)
- MUS 361 - Piano Pedagogy I (3 credits)
- MUS 362 - Marching Band Techniques (2 credits)
- MUS 370 - Performance Pedagogy (2 credits)
- MUS 371 - Piano Pedagogy II (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- MUS 379 - Piano Pedagogy Masterclass (1 credit)
- MUS 380 - Special Topics in Music (1 to 4 credits)
- MUS 399 - Special Readings in Music (1 to 4 credits)
- MUS 441 - Private Instruction in Voice and Instruments - Senior (1 credit)
- MUS 442 - Private Instruction in Voice and Instruments - Senior (1 credit)
- MUS 444 - Private Instruction in Voice and Instruments - Senior (3 credits)
- MUS 445 - Private Instruction in Voice and Instruments - Senior (3 credits)
- MUS 446 - Private Instruction in Voice and Instruments - Elective (3 credits)
- MUS 456 - Teaching Music in the Elementary School (2 credits)
- MUS 461 - Instrumental Music Methods and Materials (2 credits)
- MUS 465 - Choral/General Music in the Secondary School (2 credits)
- MUS 479 - B.A. Senior Project (1 to 2 credits)
- MUS 495 - Analytical Techniques (Capstone) (3 credits)
- MUS 499 - Independent Study and Research in Music (1 to 4 credits)
- MUS 643 - Applied Music (3 credits)
- MUS 680 - Special Topics in Music (1 to 3 credits)
- MUS 697 - Professional Learning (1 to 3 credits)
- MUS 699 - Independent Study and Research (1 to 4 credits)

## **Natural Resources Management (NRM)**

### **Courses**

- NRM 140 - The Climatic Factor (4 credits)
- NRM 150 - Introduction to Natural Resources (3 credits)
- NRM 180 - Special Topics in Natural Resources Management (1 to 4 credits)
- NRM 230 - Introduction to Wildland Fire Management (2 credits)
- NRM 240 - Principles of Climatology (4 credits)
- NRM 250 - Resource Measurement and Maps (3 credits)
- NRM 263 - Forest Vegetation of the Great Lakes Region (2 credits)
- NRM 280 - Special Topics in Natural Resources Management (1 to 4 credits)
- NRM 281 - Principles of Soil Science (4 credits)
- NRM 300 - Ethical Recreation: Leave No Trace (1 credit)
- NRM 308 - Wildlife Ecology (4 credits)
- NRM 320 - Introduction to Resource Systems (3 credits)
- NRM 330 - Environmental Pollution (3 credits)
- NRM 380 - Special Topics in Natural Resources Management (1 to 4 credits)
- NRM 386 - Ecological Restoration and Management (4 credits)
- NRM 395 - GIS Applications in Resource Management (3 credits)
- NRM 399 - Readings in Resource Management (1 to 3 credits)
- NRM 406 - Renewable Energy Systems: Structure, Policy, and Analysis (3 credits)
- NRM 407 - Natural Resources and Society: Study Abroad (1 to 4 credits)
- NRM 408 - Wildlife Management (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- NRM 415 - Fire Ecology and Management (3 credits)
- NRM 417 - International Field Studies in Resource Ecology and Management (1 to 4 credits)
- NRM 420 - Wildland Recreation Management (3 credits)
- NRM 430 - Advanced Wildland Fire Management (2 credits)
- NRM 450 - Applied Spatial Analysis of Natural Resources (3 credits)
- NRM 451 - Natural Resource Policy (3 credits)
- NRM 452 - Watershed and Wetland Management (4 credits)
- NRM 462 - Forest Ecosystem Management (4 credits)
- NRM 480 - Special Topics in Natural Resources Management (1 to 4 credits)
- NRM 486 - Restoration Ecology (3 credits)
- NRM 490 - Internship in Resource Management (1 to 5 credits)
- NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits)
- NRM 496 - Trends in Western U.S. Natural Resource Management (2 credits)
- NRM 497 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits)
- NRM 499 - Research in Resource Management (1 to 3 credits)
- NRM 508 - Wildlife Management (4 credits)
- NRM 515 - Fire Ecology and Management (3 credits)
- NRM 551 - Natural Resource Policy (3 credits)
- NRM 552 - Fisheries Management (3 credits)
- NRM 562 - Forest Ecosystem Management (4 credits)
- NRM 576 - Aquatic Ecosystem Management (3 credits)
- NRM 580 - Special Topics in Natural Resources Management (1 to 4 credits)
- NRM 586 - Restoration Ecology (3 credits)
- NRM 597 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits)
- NRM 680 - Special Topics in Natural Resources Management (1 to 4 credits)
- NRM 691 - Graduate Internship (3 to 9 credits)
- NRM 693 - Graduate Project (3 to 9 credits)
- NRM 695 - Graduate Thesis Research (3 to 9 credits)
- NRM 696 - Continuation of Master's Project or Thesis Research (1 credit)
- NRM 697 - Professional Learning (1 to 3 credits)
- NRM 699 - Independent Study (1 to 3 credits)

## **Nursing (NUR)**

### **Courses**

- NUR 180 - Special Topics in Nursing (1 to 3 credits)
- NUR 265 - Introduction to Nursing Research and Evidence-based Practice (3 credits)
- NUR 266 - Professional Nursing I (4 credits)
- NUR 267 - Clinical Nursing I (4 credits)
- NUR 280 - Special Topics in Nursing (1 to 3 credits)
- NUR 311 - Dimensions of Nursing Practice (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- NUR 312 - Professional Nursing Issues (2 credits)
- NUR 316 - Professional Nursing II (4 credits)
- NUR 317 - Clinical Nursing II (6 credits)
- NUR 322 - Theoretical Foundations for Health Assessment and Promotion (3 credits)
- NUR 323 - Clinical Application of Health Assessment and Promotion (4 credits)
- NUR 324 - Introduction to Professional Nursing Theory (3 credits)
- NUR 325 - Clinical Judgment in Health Assessment and Promotion (1 credit)
- NUR 328 - Clinical Pharmacology for Nursing (3 credits)
- NUR 332 - Adult Health Theory (6 credits)
- NUR 333 - Adult Health Clinical (5 credits)
- NUR 335 - Clinical Judgment in Adult Health (1 credit)
- NUR 336 - Research and Evidence Based Nursing Practice (3 credits)
- NUR 338 - Critical Appraisal of Evidence Based Practice in Nursing (1 credit)
- NUR 344 - Healthy Aging: A Lifelong Journey (3 credits)
- NUR 354 - Living with Life-Limiting Illness (3 credits)
- NUR 362 - Professional Nursing III - Foundations (2 credits)
- NUR 363 - Clinical Nursing III - Foundations (3 credits)
- NUR 364 - Embracing Wicked Problems in Healthcare (3 credits)
- NUR 366 - Professional Nursing III (4 credits)
- NUR 367 - Clinical Nursing III (6 credits)
- NUR 380 - Special Topics in Nursing (1 to 4 credits)
- NUR 381 - Perioperative Nursing Care (2 credits)
- NUR 399 - Readings in Nursing (1 to 4 credits)
- NUR 411 - Community-based Nursing Care (4 credits)
- NUR 412 - Nursing Care for Populations (4 credits)
- NUR 414 - Collaboration for Nurses (2 credits)
- NUR 416 - Professional Nursing IV (4 credits)
- NUR 417 - Clinical Nursing IV (6 credits)
- NUR 442 - Childbearing and Childrearing Theory (4 credits)
- NUR 443 - Childbearing and Childrearing Clinical (3 credits)
- NUR 445 - Clinical Judgment in Childbearing, Childrearing, Community Health and Mental Health (1 credit)
- NUR 446 - Community Health and Mental Health Theory (4 credits)
- NUR 447 - Community Health and Mental Health Clinical (2 credits)
- NUR 456 - Transformative Nursing Leadership (4 credits)
- NUR 467 - Professional Nursing V (10 credits)
- NUR 472 - Transitions to Professional Nursing (3 credits)
- NUR 473 - Clinical Immersion (4 credits)
- NUR 475 - Clinical Judgment in Immersion (1 credit)
- NUR 476 - Population Health theory (3 credits)
- NUR 477 - Population Health Clinical (2 credits)
- NUR 480 - Special Topics in Nursing (1 to 4 credits)
- NUR 481 - Critical Care: Infants and Children (2 credits)
- NUR 499 - Research in Nursing (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- NUR 500 - Comprehensive Health Assessment for Nurses (3 credits)
- NUR 580 - Special Topics in Nursing (1 to 3 credits)
- NUR 581 - Chronic and Terminal Illness: The Palliative/Hospice Model (3 credits)
- NUR 582 - Complex Pain and Symptom Management (3 credits)
- NUR 605 - Theoretical Perspectives in Nursing (3 credits)
- NUR 607 - Health Care System, Policy and Politics (3 credits)
- NUR 608 - Leadership Roles in Complex Systems (3 credits)
- NUR 610 - Advanced Assessment and Diagnostic Reasoning (4 credits)
- NUR 612 - Quality Improvement and Clinical Outcomes in Nursing (4 credits)
- NUR 613 - Nursing Research and Evidence-Based Practice (3 credits)
- NUR 614 - Nursing Research and Evidence-Based Practice II (1 credit)
- NUR 615 - Advanced Generalist Clinical Practicum I (4 credits)
- NUR 616 - Advanced Generalist Clinical Practicum II (4 credits)
- NUR 620 - Clinical Pharmacology (3 credits)
- NUR 621 - Clinical Pathophysiology (4 credits)
- NUR 625 - Health Issues in Vulnerable Populations (4 credits)
- NUR 628 - Psychopharmacology for Advanced Practice (3 credits)
- NUR 629 - Developmental Health: Child/Adolescent (3 credits)
- NUR 630 - Developmental Health: Adult/Older Adult (3 credits)
- NUR 631 - Human Development Across the Lifespan (3 credits)
- NUR 646 - Theories of Health Systems Leadership Part I (4 credits)
- NUR 650 - Business and Quality in Nursing (3 credits)
- NUR 676 - Health Perspectives: Mental Health (3 credits)
- NUR 677 - Mental Health Practicum: Diagnosis and Treatment of Individuals (3 credits)
- NUR 678 - Mental Health Practicum: Group and Family Therapy (3 credits)
- NUR 679 - Advanced Psychiatric Mental Health Nurse Practitioner Practicum (4 credits)
- NUR 680 - Special Topics in Nursing (1 to 6 credits)
- NUR 690 - Introduction to Scientific Inquiry (3 credits)
- NUR 691 - Evidence-Based Practice in Nursing (3 credits)
- NUR 696 - Continuation of Nursing Inquiry M.S.N. Project (1 credit)
- NUR 697 - Professional Learning (1 to 3 credits)
- NUR 699 - Readings in Nursing (1 to 3 credits)
- NUR 702 - Nursing Leadership and Health Services Research (3 credits)
- NUR 703 - Health Care Informatics (3 credits)
- NUR 704 - Quality Management in Healthcare (3 credits)
- NUR 705 - Healthcare Decision Support (3 credits)
- NUR 706 - Telehealth (3 credits)
- NUR 710 - D.N.P. Clinical Immersion I: Nurse Practitioner (1 credit)
- NUR 711 - DNP Clinical Immersion II: Nurse Practitioner (2 credits)
- NUR 712 - DNP Clinical Immersion III: Nurse Practitioner (1 credit)
- NUR 722 - Management of Chronic Conditions: Child/Adolescent (3 credits)
- NUR 723 - Chronic Care Practicum: Child/Adolescent (4 credits)
- NUR 724 - Chronic and Complex Care: Child/Adolescent (3 credits)
- NUR 725 - Chronic and Complex Care Practicum: Child/Adolescent (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- NUR 726 - Complex Behavioral Problems: Child/Adolescent (3 credits)
- NUR 732 - Management of Chronic Conditions in Adults and Older Adults (3 credits)
- NUR 733 - Chronic Care Practicum: Adult/Older Adult (4 credits)
- NUR 734 - Transitions and Complex Care of the Adult/Older Adult (3 credits)
- NUR 735 - Transitions and Complex Care Practicum: Adult/Older Adult (4 credits)
- NUR 736 - Complex Behavioral Problems: Adult/Older Adult (3 credits)
- NUR 740 - Health Systems Leadership: Practicum I (4 credits)
- NUR 741 - Health Systems Leadership: Practicum II (5 credits)
- NUR 742 - Health Systems Leadership: Practicum III (5 credits)
- NUR 743 - Health Systems Leadership: Practicum IV (5 credits)
- NUR 750 - Mental Health for Primary Care Practitioners (3 credits)
- NUR 751 - Primary Care Mental Health Practicum: Child/Adolescent (2 credits)
- NUR 752 - Primary Care Mental Health Practicum: Adult/Older Adult (2 credits)
- NUR 753 - Primary Care for Mental Health Practitioners (4 credits)
- NUR 760 - Health Promotion and Risk Management: Child/Adolescent (2 credits)
- NUR 761 - NP Practicum I: Health Promotion-Risk Management: Child/Adolescent (2 credits)
- NUR 762 - Common Health Problems: Child/Adolescent (2 credits)
- NUR 763 - NP Practicum II: Common Health Problems: Child/Adolescent (3 credits)
- NUR 764 - Complex Health Problems: Child/Adolescent (2 credits)
- NUR 765 - NP Practicum III: Complex Health Problems - Child/Adolescent (3 credits)
- NUR 766 - Care Transitions/Interprofessional Practice: Child/Adolescent (3 credits)
- NUR 767 - NP Practicum IV: Care Transitions/Interprofessional Practice: Child/Adolescent (3 credits)
- NUR 770 - Health Promotion and Risk Management in the Adult and Older Adult (2 credits)
- NUR 771 - NP Practicum I: Health Promotion-Risk Management: Adult/Older Adult (2 credits)
- NUR 772 - Common Health Problems in Adults and Older Adults (2 credits)
- NUR 773 - NP Practicum II: Common Health Problems: Adult/Older Adult (3 credits)
- NUR 774 - Complex Health Problems in the Adult and Older Adult (2 credits)
- NUR 775 - NP Practicum III: Complex Health Problems: Adult/Older Adult (3 credits)
- NUR 776 - Care Transitions Interprofessional Practice: AOA (3 credits)
- NUR 777 - NP Practicum IV: Care Transitions: Adult/Older Adult (3 credits)
- NUR 792 - Scholarly Inquiry in Nursing Practice I (1 to 2 credits)
- NUR 793 - Scholarly Inquiry in Nursing Practice II (2 credits)
- NUR 796 - Continuation of Doctoral Project or Dissertation Research (1 credit)
- NUR 797 - Professional Learning (1 to 3 credits)

## **Occupational Safety and Health (OSH)**

### **Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- OSH 180 - Special Topics in Occupational Safety and Health (1 to 4 credits)
- OSH 300 - Introduction to Occupational Safety and Health (3 credits)
- OSH 310 - Hazard Control (3 credits)
- OSH 316 - Health and Safety Techniques (3 credits)
- OSH 326 - Principles of Industrial Hygiene (3 credits)
- OSH 330 - Principles of Loss Control (3 credits)
- OSH 350 - Behavioral Aspects of Safety (3 credits)
- OSH 360 - Motor Fleet Safety (3 credits)
- OSH 370 - Product Safety and Liability (3 credits)
- OSH 380 - Special Topics in Occupational Safety and Health (1 to 4 credits)
- OSH 390 - OSH Internship Preparation (1 credit)
- OSH 400 - Critical Incident Analysis (3 credits)
- OSH 410 - Ergonomic Safety Engineering (3 credits)
- OSH 414 - Environmental Safety and Health Regulations (3 credits)
- OSH 416 - Advanced Industrial Hygiene (3 credits)
- OSH 420 - Health Care Facility Safety (3 credits)
- OSH 424 - Fire Science (3 credits)
- OSH 430 - Construction Safety (3 credits)
- OSH 440 - Safety and Health Program Development (3 credits)
- OSH 460 - Environmental Compliance Applications (3 credits)
- OSH 480 - Special Topics in Occupational Safety and Health (1 to 9 credits)
- OSH 485 - Field Case Study (1 to 3 credits)
- OSH 490 - Internship in Occupational Safety and Health Management (3 to 6 credits)
- OSH 495 - Safety and Health Administration (3 credits)
- OSH 499 - Independent Study in Occupational Safety and Health (1 to 3 credits)

## **Occupational Science and Therapy (OST)**

### **Courses**

- OST 502 - Theoretical Foundations in Occupational Therapy (3 credits)
- OST 503 - Group Occupations in Practice (3 credits)
- OST 505 - Limitations on Occupation (3 credits)
- OST 551 - Conceptual Foundations of Occupational Therapy (3 credits)
- OST 552 - Practical Foundations of Occupational Therapy (3 credits)
- OST 553 - Level I Fieldwork (Part 1) (2 credits)
- OST 555 - Professional Socialization in Occupational Therapy (3 credits)
- OST 557 - Research Design in Occupational Therapy (2 credits)
- OST 558 - Mental Health Services in Occupational Therapy (3 credits)
- OST 559 - Mental Health Laboratory (2 credits)
- OST 561 - Child and Adolescent Practice (3 credits)
- OST 562 - Child and Adolescent Laboratory (2 credits)
- OST 563 - Level I Fieldwork (Part 2) (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- OST 564 - Occupational Therapy Research Proposal (2 credits)
- OST 565 - Occupational Therapy Services Administration (3 credits)
- OST 571 - Adult Practice (3 credits)
- OST 572 - Adult Laboratory (3 credits)
- OST 573 - Level I Fieldwork (Part 3) (1 credit)
- OST 599 - Independent Study in Occupational Therapy (1 to 3 credits)
- OST 600 - Occupational Science for Therapy (2 credits)
- OST 651 - Older Adult Practice (3 credits)
- OST 652 - Older Adult Laboratory (3 credits)
- OST 653 - Level I Fieldwork (Part 4) (1 credit)
- OST 660 - Level II Fieldwork (Part 1) (9 credits)
- OST 661 - Level II Fieldwork (Part 2) (9 credits)
- OST 680 - Special Topics in Occupational Therapy (1 to 6 credits)
- OST 693 - Occupational Therapy Research Project (1 to 3 credits)
- OST 695 - Occupational Therapy Master's Thesis (2 to 4 credits)
- OST 696 - Continuation of Master's Project or Thesis Research (1 credit)
- OST 697 - Professional Learning (1 to 3 credits)
- OST 699 - Independent Study in Occupational Therapy (1 to 3 credits)
- OST 710 - Health Disparities and Social Determinants of Health (3 credits)
- OST 715 - Critical Analysis of Occupational Science (3 credits)
- OST 720 - Cultural and Contextual Influences on Occupational Performance (3 credits)
- OST 725 - Leadership for Occupational Therapy (3 credits)
- OST 730 - Applied Research Strategies for Practice (3 credits)
- OST 735 - Public Policy and Advocacy (3 credits)
- OST 738 - Outcome Measures for Occupational Performance (3 credits)
- OST 740 - Best Practice in School-Based Occupational Therapy (3 credits)
- OST 744 - Advanced Occupational Therapy Practice: Birth to 3 years (3 credits)
- OST 750 - Critical Thinking and Transformative Learning (3 credits)
- OST 754 - Curriculum Design in Occupational Therapy (3 credits)
- OST 758 - Evaluation in Occupational Therapy Education (3 credits)
- OST 760 - Introduction to Hand Rehabilitation (3 credits)
- OST 780 - Special Topics in Occupational Therapy (1 to 3 credits)
- OST 790 - Doctoral Project Preparation (3 credits)
- OST 793 - Doctoral Project Defense (1 to 6 credits)
- OST 797 - Professional Learning (1 to 3 credits)
- OST 799 - Independent Study in Occupational Therapy (1 to 3 credits)

## **Public Administration (PA)**

## **Physician Assistant Studies (PAS)**

### **Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PAS 501 - Clinical Applications I (2 credits)
- PAS 502 - Clinical Applications II (1 credit)
- PAS 503 - Clinical Applications III (1 credit)
- PAS 504 - Clinical Applications IV (1 credit)
- PAS 511 - Foundations of Clinical Medicine (4 credits)
- PAS 512 - Clinical Medicine I (6 credits)
- PAS 513 - Clinical Medicine II (6 credits)
- PAS 514 - Clinical Medicine III (6 credits)
- PAS 521 - Medical Physiology (3 credits)
- PAS 522 - Clinical Pathophysiology I (1 credit)
- PAS 523 - Clinical Pathophysiology II (1 credit)
- PAS 524 - Clinical Pathophysiology III (3 credits)
- PAS 532 - Practical Therapeutics I (2 credits)
- PAS 533 - Practical Therapeutics II (2 credits)
- PAS 534 - Practical Therapeutics III (2 credits)
- PAS 542 - Clinical Problem Solving Sessions I (1 credit)
- PAS 543 - Clinical Problem Solving Sessions II (1 credit)
- PAS 544 - Clinical Problem Solving Sessions III (1 credit)
- PAS 551 - Physician Assistant Profession Issues I (1 credit)
- PAS 554 - Physician Assistant Profession Issues II (1 credit)
- PAS 561 - Clinical Applications Lab I (1 credit)
- PAS 562 - Clinical Applications Lab II (1 credit)
- PAS 563 - Clinical Applications Lab III (1 credit)
- PAS 564 - Clinical Applications Lab IV (1 credit)
- PAS 572 - Hospital Community Experience I (1 credit)
- PAS 573 - Hospital Community Experience II (1 credit)
- PAS 574 - Hospital Community Experience III (1 credit)
- PAS 580 - Special Topics in Physician Assistant Studies (1 to 3 credits)
- PAS 582 - Evidence-based Medicine I (3 credits)
- PAS 583 - Evidence-based Medicine II (2 credits)
- PAS 584 - Evidence-Based Medicine III (2 credits)
- PAS 610 - Clinical Rotations I (12 credits)
- PAS 620 - Clinical Rotations II (12 credits)
- PAS 630 - Clinical Rotations III (12 credits)
- PAS 680 - Special Topics in Physician Assistant Studies (1 to 3 credits)
- PAS 690 - Master's Thesis Proposal (1 credit)
- PAS 693 - Physician Assistant Research II (3 credits)
- PAS 695 - Master's Thesis (3 credits)
- PAS 696 - Continuation of Master's Project or Thesis Research (1 credit)
- PAS 697 - Professional Learning (1 to 3 credits)
- PAS 699 - Independent Study - Physician Assistant Studies (1 to 3 credits)

## **Pedagogical Content Knowledge (PCK)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Physical Education (PED)

## Courses

- PED 180 - Special Topics in Physical Education (1 to 3 credits)
- PED 207 - Personal Health and Wellness (3 credits)
- PED 218 - Officiating Seasonal Sports (2 credits)
- PED 265 - Teaching Health in Elementary Schools (2 credits)
- PED 266 - Move-Dance-Learn! PE and Dance for Elementary Education (2 credits)
- PED 280 - Special Topics in Physical Education (1 to 3 credits)
- PED 345 - Disability, Sport and Physical Activity (3 credits)
- PED 380 - Special Topics in Physical Education (1 to 3 credits)
- PED 399 - Independent Readings (1 to 3 credits)
- PED 480 - Special Topics in Physical Education (1 to 3 credits)
- PED 499 - Independent Study and Research (1 to 3 credits)
- PED 580 - Special Topics in Physical Education (1 to 3 credits)
- PED 680 - Special Topics in Physical Education (1 to 3 credits)
- PED 697 - Professional Learning (1 to 3 credits)

# Public Health (PH)

## Courses

- PH 222 - Public Health Concepts (3 credits)
- PH 500 - Introduction to Public Health (3 credits)
- PH 505 - Social and Behavioral Public Health (3 credits)
- PH 510 - Public Health Epidemiology (3 credits)
- PH 520 - Environmental and Occupational Health (3 credits)
- PH 525 - Quantitative Research Methods in Public Health (3 credits)
- PH 530 - Qualitative Research Methods in Public Health (3 credits)
- PH 540 - Public Health Law and Ethics (3 credits)
- PH 580 - Special Topics in Public Health (1 to 9 credits)
- PH 600 - Advanced Quantitative Research Methods in Public Health (3 credits)
- PH 602 - Chronic Disease Epidemiology (3 credits)
- PH 603 - Epidemiology of Aging (3 credits)
- PH 604 - Women's and Children's Epidemiology (3 credits)
- PH 605 - Pharmacoepidemiology (3 credits)
- PH 606 - Environmental and Occupational Epidemiology (3 credits)
- PH 608 - Infectious Disease Epidemiology (3 credits)
- PH 610 - Cancer Epidemiology (3 credits)
- PH 612 - Public Health Genetics (3 credits)
- PH 613 - Psychiatric Epidemiology (3 credits)
- PH 620 - Health Education (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PH 621 - Introduction to Urban Health Studies (3 credits)
- PH 622 - Health Behavior and Promotion (3 credits)
- PH 623 - Food, Health, and Justice (3 credits)
- PH 625 - Urban Health Field Studies (3 credits)
- PH 626 - Health Advocacy and Literacy (3 credits)
- PH 627 - Public Health Interest Groups (3 credits)
- PH 628 - Health Program Evaluation (3 credits)
- PH 629 - Advocacy Strategies in Public Health (3 credits)
- PH 630 - Health and Disease Disparities in Diverse Communities (3 credits)
- PH 631 - Critical Issues in Public Health Advocacy and Policy (3 credits)
- PH 632 - Public Health Social Campaigning and Distribution (3 credits)
- PH 633 - Public Health and Environmental Impact Assessment (3 credits)
- PH 634 - Environmental Justice (3 credits)
- PH 645 - Global Environmental and Occupational Health (3 credits)
- PH 660 - Public Health in a Global Setting (3 credits)
- PH 680 - Special Topics in Public Health (1 to 9 credits)
- PH 688 - Public Health Practicum (3 credits)
- PH 689 - Public Health Practicum in a Global Setting (3 credits)
- PH 693 - Public Health Master's Project (1 to 3 credits)
- PH 695 - Public Health Master's Thesis (3 credits)
- PH 696 - Continuation of Master's Project or Thesis Research (1 credit)
- PH 697 - Professional Learning (1 to 3 credits)

## **Philosophy (PHI)**

### **Courses**

- PHI 101 - Introduction to Philosophy (3 credits)
- PHI 102 - Ethics (3 credits)
- PHI 103 - Logic (3 credits)
- PHI 202 - Philosophy and Ethics of Health (3 credits)
- PHI 203 - Intermediate Logic (3 credits)
- PHI 204 - Knowledge, Politics, and Social Media (3 credits)
- PHI 210 - Eastern Philosophy (3 credits)
- PHI 220 - Aesthetics (3 credits)
- PHI 230 - American Philosophy (3 credits)
- PHI 240 - Middle Eastern Philosophy (3 credits)
- PHI 250 - Existentialism (3 credits)
- PHI 300 - Theories of Human Nature (3 credits)
- PHI 311 - Origins of Western Thought: Ancient Philosophy (3 credits)
- PHI 312 - Divine Revelation meets Greek Rationality: Medieval Philosophy (3 credits)
- PHI 313 - Reason, Experience, Morality at the Dawn of Modernity: Early Modern Philosophy (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PHI 314 - Capitalism, Secularism, Nationalism: 19th Century Philosophy (3 credits)
- PHI 315 - Philosophy Now: Contemporary Great Philosophers (3 credits)
- PHI 320 - Power, Justice, and Freedom: Social and Political Philosophy (3 credits)
- PHI 325 - Ethics in Professional Life (3 credits)
- PHI 330 - Crime, Morality, Punishment: Philosophy of Law (3 credits)
- PHI 341 - Philosophy of Death and Dying (3 credits)
- PHI 343 - God, Faith, and Reason: Philosophy of Religion (3 credits)
- PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)
- PHI 380 - Special Topics in Philosophy (3 credits)
- PHI 399 - Independent Readings (1 to 4 credits)
- PHI 400 - Wisdom of the East: Advanced Topics in Asian Philosophy (3 credits)
- PHI 420 - Philosophy of Science (3 credits)
- PHI 430 - Mind, Brain, Consciousness: Philosophy of Mind (3 credits)
- PHI 440 - Perception, Hallucination, Trust: Perspectives on Knowledge (3 credits)
- PHI 450 - Reality, Identity, Change: Metaphysics (3 credits)
- PHI 460 - Rights, Duties, and the Meaning of Life: Moral Philosophy (3 credits)
- PHI 470 - Truth, Meaning, Communication: Philosophy of Language (3 credits)
- PHI 480 - Special Topics in Philosophy (3 credits)
- PHI 495 - Reality, Knowledge, and Value (Capstone) (3 credits)

## Photography (PHO)

### Courses

- PHO 171 - Photography I (4 credits)
- PHO 172 - Photography II (3 credits)
- PHO 175 - Understanding Still Photography (3 credits)
- PHO 266 - History of Photography I (3 credits)
- PHO 272 - Digital Photography 1 (3 credits)
- PHO 273 - Classic 4 x 5 Photography (3 credits)
- PHO 279 - Color Photography 1 (3 credits)
- PHO 280 - Special Topics in Photography (1 to 3 credits)
- PHO 366 - History of Photography II (3 credits)
- PHO 368 - Alternative Photographic Print Processes (3 credits)
- PHO 371 - Experimental Black and White Photography (3 credits)
- PHO 373 - Digital Photography 2 (3 credits)
- PHO 374 - Color Photography 2 (3 credits)
- PHO 375 - Studio Photography (3 credits)
- PHO 377 - The Social Eye (4 credits)
- PHO 378 - Advanced Problems in Photography (3 credits)
- PHO 380 - Special Topics in Photography (1 to 3 credits)
- PHO 399 - Independent Study (1 to 6 credits)
- PHO 480 - Special Topics in Photography (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PHO 490 - Internship (1 to 6 credits)
- PHO 495 - Photography Capstone and Thesis Seminar (1 to 6 credits)

## Physics (PHY)

### Courses

- PHY 105 - Descriptive Astronomy (3 credits)
- PHY 180 - Special Topics in Physics (1 to 4 credits)
- PHY 200 - Physics for the Life Sciences (4 credits)
- PHY 201 - Inquiry: The Mechanical and Thermal World (4 credits)
- PHY 202 - Physics for K-8 Teachers, Motion, Energy, and Forces (2 credits)
- PHY 203 - Physics for K-8 Teachers, Light, Sound, and Electromagnetism (2 credits)
- PHY 205 - Astronomy for K-8 Pre-Service Teachers (2 credits)
- PHY 216 - Physics of Sports (4 credits)
- PHY 220 - General Physics I (5 credits)
- PHY 221 - General Physics II (5 credits)
- PHY 230 - Principles of Physics I (5 credits)
- PHY 231 - Principles of Physics II (5 credits)
- PHY 234 - Engineering Physics (4 credits)
- PHY 280 - Special Topics in Physics (1 to 4 credits)
- PHY 302 - Introduction to Modern Physics (4 credits)
- PHY 309 - Experimental Methods in Physics (4 credits)
- PHY 311 - Advanced Laboratory II (2 credits)
- PHY 320 - Optics (3 credits)
- PHY 330 - Intermediate Mechanics (4 credits)
- PHY 340 - Electromagnetic Fields (4 credits)
- PHY 350 - Introduction to Quantum Mechanics (4 credits)
- PHY 360 - Statistical Thermodynamics (4 credits)
- PHY 370 - Solid State Physics (3 credits)
- PHY 380 - Special Topics in Physics (1 to 4 credits)
- PHY 399 - Readings in Physics (1 to 4 credits)
- PHY 430 - Advanced Mechanics (3 credits)
- PHY 440 - Advanced Electricity and Magnetism (3 credits)
- PHY 450 - Quantum Mechanics (3 credits)
- PHY 475 - General Relativity (3 credits)
- PHY 480 - Special Topics in Physics (1 to 4 credits)
- PHY 485 - Senior Physics Project (Capstone) (1 credit)
- PHY 486 - Senior Physics Project (Capstone) (2 credits)
- PHY 499 - Research in Physics (1 to 4 credits)
- PHY 670 - Modern Physics with Computer Visualization (3 credits)
- PHY 680 - Special Topics in Physics (1 to 4 credits)
- PHY 697 - Professional Learning (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Political Science (PLS)

## Courses

- PLS 102 - American Government and Politics (3 credits)
- PLS 103 - Issues in World Politics (3 credits)
- PLS 105 - Introduction to Human Rights (3 credits)
- PLS 180 - Special Topics in Political Science (3 credits)
- PLS 202 - American Election Campaigns (3 credits)
- PLS 203 - State Politics (3 credits)
- PLS 205 - The Policy Process (3 credits)
- PLS 206 - American Constitutional Foundations (3 credits)
- PLS 211 - International Relations (3 credits)
- PLS 212 - Great Decisions (3 credits)
- PLS 215 - Global Migration (3 credits)
- PLS 221 - Government and Politics of Western Europe (3 credits)
- PLS 231 - Classical Political Thought (3 credits)
- PLS 232 - Modern Political Thought (3 credits)
- PLS 240 - The Holocaust (3 credits)
- PLS 281 - Comparative Political Systems: Canada (3 credits)
- PLS 283 - Chinese Politics and U.S.-China Relations (3 credits)
- PLS 284 - Latin American Politics (3 credits)
- PLS 300 - Political Analysis (3 credits)
- PLS 301 - Poverty, Inequality, and U.S. Public Policy (3 credits)
- PLS 302 - Women, Politics, and Public Policy (3 credits)
- PLS 303 - Introduction to U.S. Environmental Policy (3 credits)
- PLS 304 - Political Parties and Interest Groups (3 credits)
- PLS 305 - Congress and the Presidency (3 credits)
- PLS 306 - American Constitutional Law I (3 credits)
- PLS 307 - American Constitutional Law II (3 credits)
- PLS 310 - Politics and Health Policy (3 credits)
- PLS 311 - International Conflict and Conflict Resolution (3 credits)
- PLS 312 - U.S. Foreign Policy (3 credits)
- PLS 313 - International Organization (3 credits)
- PLS 314 - International Law (3 credits)
- PLS 315 - International Political Economy (3 credits)
- PLS 316 - Human Rights in International Politics (3 credits)
- PLS 319 - African Politics (3 credits)
- PLS 320 - Comparative Politics of the Middle East (3 credits)
- PLS 321 - The European Union (3 credits)
- PLS 325 - Human Rights and Democracy in Russia and the Post-Communist World (3 credits)
- PLS 327 - Politics of Developing Countries (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PLS 330 - Religion and Politics in America (3 credits)
- PLS 333 - Contemporary Political Thought (3 credits)
- PLS 334 - Sex, Power, and Politics (3 credits)
- PLS 335 - Theory of Human Rights (3 credits)
- PLS 337 - U.S. Political Thought (3 credits)
- PLS 338 - Citizenship (3 credits)
- PLS 339 - Democracy and the Authoritarian Challenge (3 credits)
- PLS 340 - Mass Media and American Politics (3 credits)
- PLS 341 - Elections and Voting Behavior (3 credits)
- PLS 350 - Comparative Public Opinion (3 credits)
- PLS 380 - Special Topics in Political Science (3 credits)
- PLS 399 - Readings in Political Science (1 to 3 credits)
- PLS 490 - Internship (2 to 6 credits)
- PLS 495 - Seminar in the Study of Politics (Capstone) (3 credits)
- PLS 499 - Independent Research (2 to 6 credits)

## **Public, Nonprofit, and Health (PNH)**

## **Polish (POL)**

### **Courses**

- POL 101 - Elementary Polish I (4 credits)
- POL 102 - Elementary Polish II (4 credits)
- POL 180 - Special Topics in Polish (1 to 4 credits)
- POL 201 - Intermediate Polish I (4 credits)
- POL 202 - Intermediate Polish II (4 credits)
- POL 380 - Special Topics in Polish (1 to 6 credits)

## **Professional Science Master's (PSM)**

### **Courses**

- PSM 650 - Ethics and Professionalism in Applied Science (3 credits)
- PSM 662 - Seminar in Professional Science Practice (2 credits)
- PSM 691 - Internship (1 to 9 credits)
- PSM 697 - Professional Learning (1 to 3 credits)

## **Psychology (PSY)**

### **Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PSY 101 - Introductory Psychology (3 credits)
- PSY 300 - Research Methods in Psychology (3 credits)
- PSY 301 - Child Development (3 credits)
- PSY 303 - Psychopathology (3 credits)
- PSY 304 - The Psychology and Education of the Exceptional Child (3 credits)
- PSY 305 - Infant and Early Childhood Development (3 credits)
- PSY 310 - Behavior Modification (3 credits)
- PSY 311 - Controversial Issues in Psychology (3 credits)
- PSY 315 - Psychology of Sex Differences (3 credits)
- PSY 316 - The Psychology of Human Intimacy and Sexuality (3 credits)
- PSY 324 - Developmental Psychopathology (3 credits)
- PSY 325 - Educational Psychology (3 credits)
- PSY 326 - Intellectual/Developmental Disabilities (3 credits)
- PSY 330 - Foundations of Behavioral Neuroscience (3 credits)
- PSY 331 - Adolescent Development (3 credits)
- PSY 349 - Psychology Applied to Media (3 credits)
- PSY 350 - Psychology Research and Data Applications (3 credits)
- PSY 355 - Psychology and Culture (3 credits)
- PSY 357 - Psychology of Language (3 credits)
- PSY 360 - Social Psychology: Psychology's View (3 credits)
- PSY 361 - Perception (3 credits)
- PSY 362 - Environmental Psychology (3 credits)
- PSY 364 - Life Span Developmental Psychology (3 credits)
- PSY 365 - Cognition (3 credits)
- PSY 366 - Perspectives on Aging (3 credits)
- PSY 367 - Health Psychology (3 credits)
- PSY 370 - Cognitive Neuroscience (3 credits)
- PSY 375 - Comparative Psychology (3 credits)
- PSY 380 - Special Topics in Psychology (1 to 4 credits)
- PSY 381 - Group Dynamics (3 credits)
- PSY 386 - Study Abroad (1 to 9 credits)
- PSY 399 - Independent Readings (1 to 3 credits)
- PSY 400 - Advanced Research in Psychology (3 credits)
- PSY 405 - History and Systems (3 credits)
- PSY 410 - Tests and Measurements (3 credits)
- PSY 420 - Theories of Personality (3 credits)
- PSY 431 - Introduction to Neuropsychology (3 credits)
- PSY 432 - Psychopharmacology (3 credits)
- PSY 435 - Advanced Neuroscience and Behavior (3 credits)
- PSY 445 - Industrial/Organizational Psychology (3 credits)
- PSY 452 - Counseling: Theories and Applications (3 credits)
- PSY 490 - Practicum (1 to 6 credits)
- PSY 492 - Advanced General: The Capstone (3 credits)
- PSY 499 - Independent Study and Research (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PSY 500 - Introduction to School Psychology (3 credits)
- PSY 510 - Tests and Measurements (3 credits)
- PSY 522 - Applied Behavior Analysis I (ABA): Foundational Concepts and Principles (3 credits)
- PSY 523 - Applied Behavior Analysis II: Application to Behavior Change (3 credits)
- PSY 524 - Developmental Psychopathology (3 credits)
- PSY 525 - Behavior Analysis Applied to Autism Spectrum Disorders and Developmental Disorders (3 credits)
- PSY 527 - Ethics and Diversity in Professional Practice (3 credits)
- PSY 532 - Psychopharmacology (3 credits)
- PSY 540 - Introduction to Autism Spectrum Disorder (3 credits)
- PSY 542 - Behavior Support for Students with Autism Spectrum Disorder (3 credits)
- PSY 550 - Research in Applied Settings (3 credits)
- PSY 580 - Special Topics in Psychology (1 to 9 credits)
- PSY 590 - Applied Behavior Analysis Practicum (1 to 3 credits)
- PSY 615 - Educational Assessment and Interventions for Autism (3 credits)
- PSY 622 - Educational Assessment (3 credits)
- PSY 623 - Intellectual Assessment (3 credits)
- PSY 624 - Behavioral Assessment and Intervention (3 credits)
- PSY 642 - Assessment Practicum (1 credit)
- PSY 644 - Clinical Practicum (1 credit)
- PSY 654 - School-based Intervention and Consultation (3 credits)
- PSY 655 - School-based Consultation and Intervention II (3 credits)
- PSY 658 - Advanced Concepts in Applied Behavior Analysis (3 credits)
- PSY 668 - Health Profession Disability Psychology (3 credits)
- PSY 675 - School Psychology Practicum (3 credits)
- PSY 680 - Special Topics in Psychology (1 to 9 credits)
- PSY 685 - School Psychology Internship (1 to 5 credits)
- PSY 693 - Master's Project (3 credits)
- PSY 697 - Professional Learning (1 to 3 credits)
- PSY 699 - Independent Study (1 to 3 credits)

## **Physical Therapy (PT)**

### **Courses**

- PT 435 - Measurement in Biomechanics (3 credits)
- PT 510 - Lifespan Motor Development (2 credits)
- PT 511 - Foundations in Physical Therapy Examination (3 credits)
- PT 512 - Introduction to Evidence Based Practice in Physical Therapy (1 credit)
- PT 513 - Clinical Science I (2 credits)
- PT 515 - Professional Topics I (1 credit)
- PT 517 - Kinesiology and Biomechanics I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- PT 521 - Musculoskeletal Examination (4 credits)
- PT 522 - Musculoskeletal Interventions (4 credits)
- PT 523 - Clinical Science II (3 credits)
- PT 526 - Clinical Seminar I (2 credits)
- PT 528 - Kinesiology and Biomechanics II (3 credits)
- PT 535 - Measurement in Biomechanics (3 credits)
- PT 580 - Special Topics in Physical Therapy (1 to 3 credits)
- PT 610 - Research in Physical Therapy (2 credits)
- PT 631 - Cardiopulmonary Physical Therapy I (2 credits)
- PT 632 - Integumentary Practice Management (2 credits)
- PT 634 - Clinical Seminar II (1 credit)
- PT 636 - Clinical Education I (4 credits)
- PT 641 - Neuromuscular Examination (4 credits)
- PT 642 - Interventions in Neuromuscular Physical Therapy (4 credits)
- PT 643 - Clinical Science III (3 credits)
- PT 644 - Clinical Seminar III (2 credits)
- PT 647 - Cardiopulmonary Physical Therapy II (2 credits)
- PT 651 - Spinal Exam and Intervention (4 credits)
- PT 654 - Applied Geriatric Practice (2 credits)
- PT 655 - Professional Topics II (1 credit)
- PT 656 - Clinical Education II (5 credits)
- PT 657 - Teaching for Physical Therapists (2 credits)
- PT 661 - Exam and Intervention for Rehabilitation (4 credits)
- PT 662 - Pediatric Practice Management (3 credits)
- PT 665 - Professional Topics III (2 credits)
- PT 675 - Clinical Education III (6 credits)
- PT 677 - Clinical Education IV (6 credits)
- PT 680 - Special Topics in Physical Therapy (1 to 3 credits)
- PT 681 - Advanced Clinical Decision-Making (2 credits)
- PT 682 - Health, Wellness and Special Topics in Physical Therapy (3 credits)
- PT 684 - Advanced Topics: Sports Physical Therapy (3 credits)
- PT 685 - Professional Topics IV (2 credits)
- PT 686 - Advanced Topics: Pediatric Physical Therapy (3 credits)
- PT 687 - Advanced Topics: Spinal Manual Therapy (3 credits)
- PT 688 - Advanced Topics: Neurologic Physical Therapy (3 credits)
- PT 689 - Advanced Topics: Cardiopulmonary Physical Therapy (2 credits)
- PT 697 - Professional Learning (1 to 3 credits)
- PT 698 - Clinical Education V (6 credits)
- PT 699 - Independent Study in Physical Therapy (1 to 3 credits)
- PT 790 - Physical Therapy Research I (1 credit)
- PT 793 - Physical Therapy Research II (2 credits)
- PT 797 - Professional Learning (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# **Religious Studies (REL)**

## **Courses**

- REL 100 - Religions of the World (3 credits)
- REL 200 - Understanding Religions in Human Experience (3 credits)
- REL 300 - Religions in the World Today: Theories, Methods, and Issues (3 credits)
- REL 305 - Christianity: Scriptures and Tradition (3 credits)
- REL 306 - Hinduism and South Asian Religions (3 credits)
- REL 310 - Jewish Scriptures and Traditions (3 credits)
- REL 335 - Sacred Words, Global Understanding (3 credits)
- REL 340 - Religion and Popular Culture in the United States (3 credits)
- REL 380 - Special Topics in Religious Studies (1 to 9 credits)
- REL 399 - Independent Readings in Religious Studies (1 to 4 credits)
- REL 482 - Integrative Statement (1 credit)
- REL 495 - Religious Studies Senior Seminar (3 credits)
- REL 499 - Independent Research in Religious Studies (1 to 4 credits)

# **Radiology and Imaging Echocardiogram (RIE)**

## **Courses**

- RIE 330 - Echocardiography I (4 credits)
- RIE 331 - Echocardiography I Laboratory (2 credits)
- RIE 332 - Echocardiography II (3 credits)
- RIE 333 - Echocardiography II Laboratory (1 credit)
- RIE 340 - Cardiac and Vascular Hemodynamics (2 credits)
- RIE 341 - ECG in Radiologic and Imaging Sciences (2 credits)
- RIE 360 - Introduction to Echocardiography Clinical (2 credits)
- RIE 361 - Echocardiography Clinical Education I (2 credits)
- RIE 362 - Echocardiography Clinical Education II (3 credits)
- RIE 363 - Pediatric Echo Clinical Education I (2 credits)
- RIE 366 - Vascular Sonography Clinical Education I (2 credits)
- RIE 380 - Special Topics in Echo and Vascular Sonography (1 to 5 credits)
- RIE 432 - Vascular Sonography I (2 credits)
- RIE 433 - Vascular Sonography I Laboratory (1 credit)
- RIE 434 - Pediatric Echocardiography I (3 credits)
- RIE 435 - Pediatric Echocardiography I Laboratory (1 credit)
- RIE 436 - Vascular Sonography II (2 credits)
- RIE 437 - Vascular Sonography II Laboratory (2 credits)
- RIE 438 - Pediatric Echocardiography II (3 credits)
- RIE 439 - Vascular Sonography III (2 credits)
- RIE 440 - Vascular Sonography III Laboratory (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- RIE 457 - Cardiovascular Image Evaluation (2 credits)
- RIE 463 - Pediatric Echocardiography Clinical Education II (3 credits)
- RIE 464 - Pediatric Echocardiography Clinical Education III (3 credits)
- RIE 466 - Vascular Sonography Clinical Education II (3 credits)
- RIE 467 - Vascular Sonography Clinical Education III (3 credits)
- RIE 480 - Special Topics in Echocardio and Vascular Sonography (1 to 9 credits)
- RIE 495 - Advanced Clinical Problems in Echocardiography and Vascular Sonography (3 credits)

## **Radiology and Imaging Therapy (RIT)**

### **Courses**

- RIT 302 - Radiation Protection Physics (2 credits)
- RIT 310 - Radiation Therapy Patient Care (3 credits)
- RIT 322 - Radiation Biology (2 credits)
- RIT 330 - Radiation Therapy Principles and Practices I (4 credits)
- RIT 331 - Radiation Therapy Principles and Practices I Laboratory (1 credit)
- RIT 332 - Radiation Therapy Principles and Practices II (3 credits)
- RIT 333 - Radiation Therapy Principles and Practices II Laboratory (1 credit)
- RIT 361 - Radiation Therapy Clinical Education I (2 credits)
- RIT 362 - Radiation Therapy Clinical Education II (4 credits)
- RIT 380 - Special Topics in Radiation Therapy (1 to 5 credits)
- RIT 401 - Radiologic Information Technology (3 credits)
- RIT 420 - Radiation Therapy Physics I (2 credits)
- RIT 422 - Radiation Therapy Physics II (2 credits)
- RIT 424 - Image Guided Principles of Radiation Therapy (4 credits)
- RIT 430 - Radiation Therapy Principles and Practices III (3 credits)
- RIT 431 - Radiation Therapy Principles and Practices III Lab (1 credit)
- RIT 432 - Radiation Therapy Principles and Practices IV (3 credits)
- RIT 433 - Radiation Therapy Principles and Practices Lab IV (1 credit)
- RIT 441 - Gross Human Sectional Anatomy (4 credits)
- RIT 458 - Neoplasms (3 credits)
- RIT 460 - Radiation Therapy Clinical Education III (3 credits)
- RIT 461 - Radiation Therapy Clinical Education IV (3 credits)
- RIT 470 - Radiation Therapy Treatment Planning (2 credits)
- RIT 471 - Radiation Therapy Treatment Planning Lab (1 credit)
- RIT 472 - Introduction to Medical Dosimetry (2 credits)
- RIT 473 - Introduction to Medical Dosimetry Lab (1 credit)
- RIT 495 - Advanced Clinical Problems in Radiation Therapy (3 credits)

## **Radiology and Imaging Ultrasound (RIU)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Courses**

- RIU 301 - DMS Image Evaluation I (1 credit)
- RIU 302 - DMS Image Evaluation II (1 credit)
- RIU 320 - Applied Ultrasound Physics Instruction I (2 credits)
- RIU 321 - Applied Ultrasound Physics Instruction I Lab (1 credit)
- RIU 322 - Principles of Radiologic Imaging Sciences (3 credits)
- RIU 324 - Applied Doppler Ultrasound Physics (2 credits)
- RIU 330 - Abdominal Sonography I (4 credits)
- RIU 331 - Abdominal Sonography I Lab (2 credits)
- RIU 332 - Obstetrics-Gynecology Sonography I (3 credits)
- RIU 333 - Obstetrics-Gynecology Sonography Lab (1 credit)
- RIU 360 - Introduction to Clinical Ultrasound (2 credits)
- RIU 361 - Clinical Ultrasound Education I (2 credits)
- RIU 362 - Clinical Ultrasound Education II (4 credits)
- RIU 380 - Special Topics in Diagnostic Medical Sonography (1 to 5 credits)
- RIU 420 - Applied Ultrasound Physics Instruction II (2 credits)
- RIU 430 - Abdominal Sonography II (2 credits)
- RIU 431 - Abdominal Sonography II Lab (1 credit)
- RIU 434 - Breast Sonography Procedures (2 credits)
- RIU 435 - Obstetrics-Gynecology Sonography II (2 credits)
- RIU 436 - Vascular Technology Procedures I For General Ultrasound (2 credits)
- RIU 437 - Vascular Technology Procedures I For General Ultrasound Lab (1 credit)
- RIU 438 - Vascular Technology Procedures II for General Ultrasound (2 credits)
- RIU 439 - Vascular Technology Procedures II for General Ultrasound Lab (1 credit)
- RIU 454 - Advanced Obstetric-Gynecologic Sonography (3 credits)
- RIU 460 - Clinical Ultrasound Education III (3 credits)
- RIU 461 - Clinical Ultrasound Education IV (3 credits)
- RIU 495 - Advanced Clinical Problems in Ultrasound (3 credits)

## **Radiation Medical Dosimetry (RMD)**

### **Courses**

- RMD 620 - Dosimetry Treatment Planning I (3 credits)
- RMD 621 - Dosimetry Treatment Planning I Lab (1 credit)
- RMD 622 - Dosimetry Treatment Planning II (3 credits)
- RMD 623 - Dosimetry Treatment Planning II Lab (1 credit)
- RMD 630 - Medical Dosimetry I (3 credits)
- RMD 632 - Medical Dosimetry II (3 credits)
- RMD 661 - Medical Dosimetry Clinical Education I (1 to 4 credits)
- RMD 662 - Medical Dosimetry Clinical Education II (1 to 4 credits)
- RMD 663 - Medical Dosimetry Clinical Education III (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- RMD 670 - Professional Issues in Medical Dosimetry (3 credits)
- RMD 693 - Medical Dosimetry Research Project (1 to 3 credits)
- RMD 695 - Medical Dosimetry Thesis (1 to 3 credits)
- RMD 696 - Continuation of Master's Project or Thesis Research (1 credit)

## **Respiratory Care (RSC)**

Respiratory Care

## **Russian Studies (RST)**

### **Courses**

- RST 180 - Special Topics in Russian Studies (1 to 4 credits)
- RST 280 - Special Topics in Russian Studies (1 to 4 credits)
- RST 380 - Special Topics in Russian Studies (1 to 9 credits)
- RST 399 - Independent Reading (1 to 3 credits)
- RST 480 - Special Topics in Russian Studies (1 to 4 credits)
- RST 499 - Independent Study and Research (1 to 4 credits)

## **Recreational Therapy (RTX)**

### **Courses**

- RTX 300 - Foundations of Recreational Therapy (3 credits)
- RTX 302 - Leisure, Health, and Wellness (3 credits)
- RTX 304 - Diagnostic Groups in Recreational Therapy (3 credits)
- RTX 306 - Comprehensive Recreational Therapy Programming (3 credits)
- RTX 308 - Leadership for Recreational Therapy (3 credits)
- RTX 310 - Interventions in Recreational Therapy (3 credits)
- RTX 313 - Recreational Therapy for Physical Disability (3 credits)
- RTX 315 - Recreational Therapy for Mental Health (3 credits)
- RTX 316 - Therapeutic Recreation with the Elderly (3 credits)
- RTX 317 - Recreational Therapy for Pediatrics (3 credits)
- RTX 380 - Special Topics in Therapeutic Recreation (1 to 4 credits)
- RTX 389 - Recreational Therapy Placement Preparation (1 credit)
- RTX 390 - Fieldwork in Recreational Therapy (3 credits)
- RTX 399 - Independent Readings and Special Activities (1 to 3 credits)
- RTX 404 - Trends and Issues in Recreational Therapy (3 credits)
- RTX 405 - Management in Recreational Therapy (3 credits)
- RTX 407 - Assessment and Documentation in Recreational Therapy (3 credits)
- RTX 410 - Research and Evaluation in Recreational Therapy (3 credits)
- RTX 490 - Internship in Recreational Therapy (6 or 12 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- RTX 499 - Independent Study and Research (1 to 3 credits)
- RTX 502 - Classification of Functioning and Diagnosis in Recreational Therapy (3 credits)
- RTX 504 - Trends and Issues in Recreational Therapy (3 credits)
- RTX 505 - Management in Recreational Therapy (3 credits)
- RTX 507 - Recreational Therapy Assessment and Documentation (3 credits)
- RTX 508 - Recreational Therapy Interventions and Techniques (3 credits)
- RTX 510 - Research and Evaluation in Recreational Therapy (3 credits)
- RTX 590 - Clinical Internship in Recreational Therapy (6 credits)
- RTX 606 - Program Development and Consulting in Recreational Therapy (3 credits)
- RTX 607 - Advanced Practice in Recreational Therapy Assessment and Evaluation (3 credits)
- RTX 613 - Advanced Recreational Therapy Practice in Physical Rehabilitation (3 credits)
- RTX 615 - Advanced Recreational Therapy Practice in Behavioral Health (3 credits)
- RTX 616 - Advanced Recreational Therapy Practice with Older Adults (3 credits)
- RTX 673 - Integrated Evidence-Based Research in Recreational Therapy 1 (3 credits)
- RTX 675 - Integrated Evidence-based Research in Recreational Therapy 2 (3 credits)
- RTX 697 - Professional Learning (1 to 3 credits)
- RTX 698 - Integrated Evidence-Based Research in Recreational Therapy 3 (3 credits)

## **Russian (RUS)**

### **Courses**

- RUS 101 - Beginning Russian I: Language and Culture (4 credits)
- RUS 102 - Beginning Russian II: Language and Culture (4 credits)
- RUS 180 - Special Topics in Russian (1 to 4 credits)
- RUS 201 - Intermediate Russian I: Language and Culture (4 credits)
- RUS 202 - Intermediate Russian II: Language and Culture (4 credits)
- RUS 280 - Special Topics in Russian (3 to 4 credits)
- RUS 380 - Special Topics in Russian (1 to 6 credits)
- RUS 399 - Independent Reading (1 to 4 credits)
- RUS 480 - Special Topics in Russian (1 to 4 credits)
- RUS 499 - Independent Study and Research (1 to 4 credits)

## **Sciences and Arts for Teaching (SAT)**

### **Courses**

- SAT 495 - Teaching Sciences and Arts in Elementary Classrooms (3 credits)

## **Science (SCI)**

### **Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SCI 225 - Integrated Life Science for PK-3 Teachers (4 credits)
- SCI 226 - Integrated Physical Science for PK-3 Teachers (3 credits)
- SCI 227 - Integrated Life and Earth Science for 3-6 Teachers (3 credits)
- SCI 319 - Science in Elementary Education (2 credits)
- SCI 336 - Ecology for K-8 Pre-Service Teachers (4 credits)
- SCI 380 - Special Topics in Science (1 to 4 credits)
- SCI 440 - Physics and Chemistry in Secondary Education (3 credits)
- SCI 450 - Earth and Life Science in Secondary Education (3 credits)
- SCI 495 - Teaching Science in the 21st Century (3 credits)
- SCI 580 - Special Topics in Science (1 to 3 credits)
- SCI 697 - Professional Learning (1 to 3 credits)

## **Social Innovation (SI)**

### **Courses**

- SI 600 - Cultures of Social Innovation (3 credits)
- SI 610 - Research Methods for Social Inquiry (3 credits)
- SI 620 - Case Studies in Social Innovation (3 credits)
- SI 630 - Engaging Diversity through Social Innovation (3 credits)
- SI 650 - Place and Environmental Justice (3 credits)
- SI 661 - Social Innovation Internship (1 to 6 credits)
- SI 690 - Social Innovation Research Design (3 credits)
- SI 693 - Master's Project in Social Innovation (1 to 3 credits)
- SI 697 - Professional Learning (1 to 3 credits)

## **Speech and Language Pathology (SLP)**

### **Courses**

- SLP 308 - Articulation and Phonological Disorders (3 credits)
- SLP 402 - Voice and Fluency (3 credits)
- SLP 403 - Diagnostics in Communication Disorders (3 credits)
- SLP 405 - Clinical Methods (3 credits)
- SLP 407 - Pediatric Language and Articulation Disorders (2 credits)
- SLP 420 - Adult Language and Cognitive Communication Disorders (2 credits)
- SLP 421 - Motor Speech and Fluency Disorders (2 credits)
- SLP 422 - Dysphagia and Voice Disorders (2 credits)
- SLP 480 - Special Topics in Speech Language Pathology (1 to 9 credits)
- SLP 510 - Applied Research in Speech-Language Pathology (1 credit)
- SLP 560 - School Age and Adolescent Language Disorders (3 credits)
- SLP 561 - Advanced Study of Phonological Disorders (3 credits)
- SLP 562 - Aphasia and Related Disorders (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SLP 570 - Infant, Toddler, Preschool Language Disorders (3 credits)
- SLP 571 - Voice Disorders and Laryngectomy (3 credits)
- SLP 572 - Dysphagia (3 credits)
- SLP 573 - Fluency Disorders (2 credits)
- SLP 580 - Special Topics in Speech Language Pathology (1 to 9 credits)
- SLP 581 - Cognitive Communication Disorders (3 credits)
- SLP 582 - Motor Speech and Craniofacial Disorders (3 credits)
- SLP 583 - Autism Spectrum Disorder in Speech-Language Pathology (2 credits)
- SLP 584 - Augmentative and Alternative Communication (2 credits)
- SLP 670 - Professional Seminar in Speech-Language Pathology (1 credit)
- SLP 681 - Clinical Practicum in Speech-Language Pathology I (3 credits)
- SLP 682 - Clinical Practicum in Speech-Language Pathology II (4 credits)
- SLP 683 - Clinical Practicum in Speech-Language Pathology III (4 credits)
- SLP 684 - Clinical Internship in Speech-Language Pathology (12 credits)
- SLP 695 - Master's Thesis in Speech-Language Pathology (1 to 6 credits)
- SLP 696 - Continuation of Master's Project or Thesis Research (1 credit)
- SLP 697 - Professional Learning (1 to 3 credits)
- SLP 699 - Independent Study in Speech-Language Pathology (1 to 3 credits)

## **Sociology (SOC)**

### **Courses**

- SOC 101 - Introduction to Sociology (3 credits)
- SOC 105 - Social Problems (3 credits)
- SOC 180 - Special Topics in Sociology (3 credits)
- SOC 204 - Introduction to Social Theory (3 credits)
- SOC 250 - Perspectives on Madness (3 credits)
- SOC 251 - Criminology (3 credits)
- SOC 252 - Sociology of Drug Use and Abuse (3 credits)
- SOC 285 - Families in Society (3 credits)
- SOC 286 - Sociology of Health Care (3 credits)
- SOC 287 - Sociology of Religion (3 credits)
- SOC 288 - Sociology of Food (3 credits)
- SOC 289 - Sociology of Art (3 credits)
- SOC 304 - Quantitative Methods in Sociology (3 credits)
- SOC 305 - Qualitative Methods in Sociology (3 credits)
- SOC 306 - The Sociology of Human Rights (3 credits)
- SOC 313 - Race and Ethnicity (3 credits)
- SOC 315 - Social Class Inequality (3 credits)
- SOC 317 - Sociology of Gender (3 credits)
- SOC 318 - Sociology of Sexuality (3 credits)
- SOC 319 - Classic Social Theory (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SOC 321 - Contemporary Sociological Theory (3 credits)
- SOC 322 - Sociology of Community (3 credits)
- SOC 333 - Sociology of the Civil Rights Movement (3 credits)
- SOC 345 - Cultural Sociology (3 credits)
- SOC 350 - Family and Gender in the Developing World (3 credits)
- SOC 351 - Urban Sociology (3 credits)
- SOC 355 - Sociology of Work and Employment (3 credits)
- SOC 360 - Social Psychology: Sociology's View (3 credits)
- SOC 366 - American Society and Media (3 credits)
- SOC 377 - Globalization: Structures and Movements (3 credits)
- SOC 379 - Sociology of Love (3 credits)
- SOC 380 - Special Topics in Sociology (1 to 3 credits)
- SOC 381 - Class, Race, Gender, and Sexuality (3 credits)
- SOC 386 - Death and Dying (3 credits)
- SOC 387 - Sociology of Childhood (3 credits)
- SOC 388 - Middle Age and Aging (3 credits)
- SOC 389 - Child Maltreatment (3 credits)
- SOC 392 - Social Deviance and Social Control (3 credits)
- SOC 399 - Independent Readings (1 to 3 credits)
- SOC 490 - Practicum: Career-Service (1 to 9 credits)
- SOC 495 - Senior Seminar in Sociology (Capstone) (3 credits)
- SOC 499 - Independent Study and Research (1 to 3 credits)

## Spanish (SPA)

### Courses

- SPA 101 - Beginning Spanish I: Language and Culture (4 credits)
- SPA 102 - Beginning Spanish II: Language and Culture (4 credits)
- SPA 150 - Accelerated Beginning Spanish: Language and Culture (4 credits)
- SPA 180 - Special Topics in Spanish (1 to 4 credits)
- SPA 201 - Intermediate Spanish I: Language and Culture (4 credits)
- SPA 202 - Intermediate Spanish II: Language and Culture (4 credits)
- SPA 203 - Spanish for Heritage Speakers (4 credits)
- SPA 204 - Supplemental Spanish Grammar (4 credits)
- SPA 280 - Special Topics in Spanish (1 to 4 credits)
- SPA 285 - Intermediate Spanish in Mexico (4 credits)
- SPA 286 - Mexican Culture (2 credits)
- SPA 300 - Reading and Telling Stories (3 credits)
- SPA 303 - Professional Writing (3 credits)
- SPA 304 - Spanish for Health Professionals (3 credits)
- SPA 305 - Spanish for Law Enforcement (3 credits)
- SPA 306 - Spanish for Business (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SPA 307 - Death and Dying in Hispanic Literature (3 credits)
- SPA 308 - Spanish Phonetics (3 credits)
- SPA 309 - Advanced Spanish Grammar (3 credits)
- SPA 310 - Spanish Civilization and Culture (3 credits)
- SPA 311 - Latin American Civilization and Culture I (3 credits)
- SPA 312 - Latin American Civilization and Culture II (3 credits)
- SPA 313 - U.S. Latino/a Civilization and Culture (3 credits)
- SPA 314 - Teaching Methods (3 credits)
- SPA 315 - One-Act Hispanic Drama (3 credits)
- SPA 320 - Composition and Conversation for Spanish Heritage Speakers (3 credits)
- SPA 321 - Composition and Conversation I (3 credits)
- SPA 322 - Composition and Conversation II (3 credits)
- SPA 327 - The History of the Spanish Language (3 credits)
- SPA 329 - Sociolinguistics of Spanish (3 credits)
- SPA 330 - Introduction to Literary Analysis (3 credits)
- SPA 331 - Survey of Spanish Literature (3 credits)
- SPA 332 - Survey of Spanish American Literature (3 credits)
- SPA 335 - Introduction to Spanish Linguistics (3 credits)
- SPA 350 - Spanish Laboratory Theatre (3 credits)
- SPA 360 - Perspectives on Hispanic Culture and Society (3 credits)
- SPA 361 - Spanish/Latin American Culture Through Film (3 credits)
- SPA 378 - Contemporary Latin American Literature (3 credits)
- SPA 380 - Special Topics in Spanish (1 to 6 credits)
- SPA 385 - Advanced Spanish in Mexico (4 credits)
- SPA 386 - Mexican Culture (2 credits)
- SPA 387 - EUSA Madrid-Language (3 credits)
- SPA 388 - EUSA Madrid-Internship (3 to 6 credits)
- SPA 395 - Advanced Speaking Strategies and Skills (3 credits)
- SPA 399 - Independent Reading (1 to 4 credits)
- SPA 410 - Spanish American Narrative (3 credits)
- SPA 420 - Topics in Early Spanish Literature (3 credits)
- SPA 430 - U.S. Latino/a Literature (3 credits)
- SPA 440 - Cervantes (3 credits)
- SPA 450 - Modern Spanish Novel (3 credits)
- SPA 460 - Women Authors (3 credits)
- SPA 480 - Special Topics in Spanish (1 to 6 credits)
- SPA 495 - Cross-National Literary Movements (Capstone) (3 credits)
- SPA 499 - Independent Study and Research (1 to 4 credits)

## **Sport Management (SPM)**

### **Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SPM 202 - Social Cultural Dimensions of Sport (3 credits)
- SPM 225 - Introduction to Sport Management (3 credits)
- SPM 355 - Contemporary Concepts of Coaching (3 credits)
- SPM 356 - Current Topics in Sport Management (3 credits)
- SPM 360 - Practicum in Sport Coaching (3 credits)
- SPM 376 - Sport Facility and Event Management (3 credits)
- SPM 380 - Special Topics in Sport Management (1 to 3 credits)
- SPM 390 - Practicum in Sport Management (3 credits)
- SPM 399 - Independent Study in Sport Management (1 to 3 credits)
- SPM 490 - Internship in Sport Management (6 to 12 credits)
- SPM 495 - Administration in Sport Management (3 credits)
- SPM 499 - Independent Study in Sport Management (1 to 3 credits)

## **Social Studies (SST)**

### **Courses**

- SST 308 - Teaching Elementary Social Studies: Grades PK-3 (3 credits)
- SST 309 - Teaching Elementary Social Studies: Grades 3-6 (3 credits)
- SST 310 - Teaching Social Studies: Secondary (3 credits)
- SST 311 - Data Literacy for Social Studies Teachers (3 credits)
- SST 495 - Education in Plural Societies (Capstone) (3 credits)

## **Statistics (STA)**

### **Courses**

- STA 126 - Statistics for Elementary Teachers (2 credits)
- STA 185 - Statistics Study Abroad (1 to 6 credits)
- STA 215 - Introductory Applied Statistics (3 credits)
- STA 216 - Intermediate Applied Statistics (3 credits)
- STA 220 - Statistical Modeling for Engineers (2 credits)
- STA 285 - Statistics Study Abroad (1 to 6 credits)
- STA 301 - Questionnaire Design and Execution (3 credits)
- STA 310 - Introduction to Biostatistics (3 credits)
- STA 311 - Introduction to Survey Sampling (3 credits)
- STA 312 - Probability and Statistics (3 credits)
- STA 314 - Statistical Quality Methods (3 credits)
- STA 315 - Design of Experiments (3 credits)
- STA 317 - Nonparametric Statistical Analysis (3 credits)
- STA 318 - Statistical Computing (3 credits)
- STA 321 - Applied Regression Analysis (3 credits)
- STA 323 - Predictive Analytics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- STA 340 - Statistics in the Media (3 credits)
- STA 341 - Demographic Methods (3 credits)
- STA 345 - Statistics in Sports (3 credits)
- STA 380 - Special Topics in Statistics (1 to 3 credits)
- STA 385 - Statistics Study Abroad (1 to 6 credits)
- STA 412 - Mathematical Statistics I (4 credits)
- STA 415 - Mathematical Statistics II (Capstone) (4 credits)
- STA 418 - Statistical Computing and Graphics with R (3 credits)
- STA 419 - Statistics Project (3 credits)
- STA 421 - Bayesian Data Analysis (3 credits)
- STA 425 - Actuarial Probability and Statistics (3 credits)
- STA 426 - Multivariate Data Analysis (3 credits)
- STA 430 - History of Statistics (1 credit)
- STA 490 - Statistics Internship (1 to 3 credits)
- STA 499 - Independent Study and Research (1 to 3 credits)
- STA 518 - Statistical Computing and Graphics with R (3 credits)
- STA 526 - Multivariate Data Analysis (3 credits)
- STA 580 - Special Topics in Statistics (1 to 4 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)
- STA 615 - Design of Experiments for Engineers (3 credits)
- STA 616 - Statistical Programming (3 credits)
- STA 620 - Applied Multivariate Methods for Health Care (3 credits)
- STA 621 - Design of Experiments and Regression (4 credits)
- STA 622 - Statistical Methods for Biologists (3 credits)
- STA 623 - Categorical Data Analysis (3 credits)
- STA 625 - Clinical Trials (2 credits)
- STA 628 - Survival Analysis (3 credits)
- STA 630 - Topics in Advanced Statistical Applications (3 credits)
- STA 631 - Statistical Modeling and Regression (3 credits)
- STA 680 - Special Topics in Statistics (1 to 4 credits)
- STA 697 - Professional Learning (1 to 3 credits)
- STA 699 - Independent Study (1 to 4 credits)

## **Social Work (SW)**

### **Courses**

- SW 150 - Introduction to Social Work and Social Welfare (3 credits)
- SW 300 - Social Work and Difference, Diversity, and Privilege (3 credits)
- SW 316 - Interviewing in Social Work (3 credits)
- SW 317 - Generalist Practice I (3 credits)
- SW 318 - Generalist Practice II (3 credits)
- SW 319 - Social Welfare Policy and Services (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- SW 320 - Child Welfare Policy and Practice (3 credits)
- SW 322 - Responding to Chronic Illness (3 credits)
- SW 333 - Community Work with the Lesbian, Gay, Bisexual and Transgender Community (3 credits)
- SW 340 - Human Behavior and the Social Environment I (3 credits)
- SW 341 - Human Behavior and the Social Environment II (3 credits)
- SW 344 - Responding to Loss, Death, and Grief (3 credits)
- SW 348 - Professional Development in Social Work (3 credits)
- SW 351 - Cross-Cultural Service Learning (3 credits)
- SW 354 - Global: Cross-Cultural Community Based Learning (3 to 4 credits)
- SW 355 - Addressing Ageism and Health (3 credits)

- SW 695 - Master's Thesis (1 to 6 credits)
- SW 696 - Continuation of Master's Project or Thesis Research (1 credit)
- SW 697 - Professional Learning (1 to 3 credits)
- SW 699 - Independent Study (1 to 3 credits)

## **Theatre (THE)**

### **Courses**

- THE 101 - Introduction to Theatre (3 credits)
- THE 151 - Acting Process (3 credits)
- THE 152 - Voice for the Actor (3 credits)
- THE 161 - Theatre Production (3 credits)
- THE 162 - Play Analysis (3 credits)
- THE 198 - Rehearsal and Performance (1 to 3 credits)
- THE 250 - Theatre Management (3 credits)
- THE 252 - Acting Characterization (3 credits)
- THE 261 - Stagecraft I (3 credits)
- THE 262 - Costume Construction (3 credits)
- THE 263 - Makeup (2 credits)
- THE 298 - Applied Theatre Practice (1 to 3 credits)
- THE 300 - Storytelling (3 credits)
- THE 325 - Theatre for Social Change (3 credits)
- THE 356 - Acting for the Camera (3 credits)
- THE 362 - Production Dramaturgy (3 credits)
- THE 365 - Directing I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- THE 366 - Drama in Education (3 credits)
- THE 367 - Scenography (3 credits)
- THE 368 - Lighting Design (3 credits)
- THE 369 - Costume Design (3 credits)
- THE 371 - Theatre History I (3 credits)
- THE 372 - Theatre History II (3 credits)
- THE 380 - Special Topics in Theatre (1 to 3 credits)
- THE 399 - Independent Reading (1 to 3 credits)
- THE 400 - Touring Theatre Production (3 credits)
- THE 454 - Acting Advanced Scene Study (3 credits)
- THE 455 - Shakespeare Performance (3 credits)
- THE 465 - Directing II (3 credits)
- THE 490 - Internship (1 to 6 credits)
- THE 495 - Theatre Capstone (3 credits)
- THE 499 - Independent Research (1 to 3 credits)

## **University Studies (US)**

### **Courses**

- US 102 - Career Education Class (1 credit)
- US 280 - Special Topics in University Studies (3 credits)
- US 301 - Internship and Job Search Strategies (1 credit)
- US 380 - Special Topics in University Studies (3 credits)
- US 480 - Environmental Sustainability (1 to 9 credits)

## **Water (WAT)**

### **Courses**

- WAT 532 - Advanced Aquatic Ecology (3 credits)
- WAT 545 - Theoretical Perspectives in Aquatic Science (3 credits)
- WAT 565 - Water Policy and Science (3 credits)
- WAT 576 - Aquatic Ecosystem Management (3 credits)
- WAT 651 - Emerging Issues in Water Resources (2 credits)
- WAT 691 - Internship (6 to 9 credits)
- WAT 697 - Professional Learning (1 to 3 credits)

## **Women/Gender/ Sexuality Studies (WGS)**

### **Courses**

- WGS 180 - Special Topics in Women, Gender, and Sexuality Studies (1 to 3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- WGS 200 - Introduction to Gender Studies (3 credits)
- WGS 224 - Introduction to LGBTQ Studies (3 credits)
- WGS 255 - Gender and Popular Culture (3 credits)
- WGS 280 - Special Topics in Women Gender, and Sexuality Studies (3 credits)
- WGS 302 - Women, Politics, and Public Policy (3 credits)
- WGS 310 - LGBTQ Rights and the Law (3 credits)
- WGS 315 - Psychology of Sex Differences (3 credits)
- WGS 316 - The Psychology of Human Intimacy and Sexuality (3 credits)
- WGS 317 - Sociology of Gender (3 credits)
- WGS 318 - Sociology of Sexuality (3 credits)
- WGS 320 - Crimes Against Women (3 credits)
- WGS 325 - Body, Gender, Sexuality in Antiquity (3 credits)
- WGS 326 - Sexuality, Justice, and Advocacy (3 credits)
- WGS 334 - Sex, Power, and Politics (3 credits)
- WGS 335 - Women, Health and Environment (3 credits)
- WGS 336 - Lesbian, Gay and Queer Literature (3 credits)
- WGS 343 - Black Feminist Thought (3 credits)
- WGS 350 - Family and Gender in the Developing World (3 credits)
- WGS 352 - Black Women's Culture and Communities (3 credits)
- WGS 358 - Women and Gender in South Africa (3 credits)
- WGS 360 - Foundations of Feminism (3 credits)
- WGS 365 - Queer Theory (3 credits)
- WGS 370 - Women and the Law (3 credits)
- WGS 371 - Historical Perspectives on Gender and Sexualities (3 credits)
- WGS 380 - Special Topics in Women Gender, and Sexuality Studies (1 to 4 credits)
- WGS 395 - Women and Gender Studies Research Methods (3 credits)
- WGS 399 - Independent Readings (1 to 3 credits)
- WGS 402 - Feminist Visionary Thinkers (3 credits)
- WGS 450 - Global Feminisms (3 credits)
- WGS 460 - Spanish Women Authors (3 credits)
- WGS 461 - Language and Gender (3 credits)
- WGS 490 - WGS Internship (variable credits)
- WGS 491 - Contemporary Theory and Practicum (3 credits)
- WGS 492 - Community Collaborative (3 credits)
- WGS 493 - Community Collaborative in South Africa (3 credits)
- WGS 495 - Capstone (3 credits)
- WGS 499 - Independent Study and Research (1 to 4 credits)

## Writing (WRT)

### Courses

- WRT 120 - Strategies in Writing - Stretch I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

- WRT 130 - Strategies in Writing - Stretch II (3 credits)
- WRT 150 - Strategies in Writing (4 credits)
- WRT 180 - Special Topics in Writing (3 credits)
- WRT 200 - Introduction to Professional Writing (3 credits)
- WRT 210 - Introduction to Style (3 credits)
- WRT 219 - Introduction to Creative Writing (3 credits)
- WRT 253 - Document Production and Design (3 credits)
- WRT 305 - Writing in the Disciplines (3 credits)
- WRT 306 - Seminar for Writing Tutors (1 credit)
- WRT 307 - Consulting with Writers (3 credits)
- WRT 308 - Editing and Publishing (3 credits)
- WRT 316 - Style and Technique (3 credits)
- WRT 320 - Intermediate Poetry Workshop (3 credits)
- WRT 330 - Intermediate Fiction Workshop (3 credits)
- WRT 350 - Business Communication (3 credits)
- WRT 351 - Writing for the Web (3 credits)
- WRT 353 - Visual Rhetoric and Document Design (3 credits)
- WRT 354 - Writing in the Global Context: Culture, Technology, and Language Practices (3 credits)
- WRT 357 - Professional Writing in International Contexts (3 credits)
- WRT 360 - Intermediate Creative Nonfiction (3 credits)
- WRT 365 - Intermediate Magazine Writing (3 credits)
- WRT 380 - Special Topics in Writing (3 credits)
- WRT 381 - Writing and Sports (3 credits)
- WRT 399 - Independent Studies (1 to 4 credits)
- WRT 411 - Style and the Book (3 credits)
- WRT 420 - Advanced Poetry Workshop (3 credits)
- WRT 430 - Advanced Fiction Workshop (3 credits)
- WRT 451 - Advanced Writing for the Web (3 credits)
- WRT 455 - Multimodal Composing (3 credits)
- WRT 460 - Advanced Creative Nonfiction (3 credits)
- WRT 465 - Advanced Magazine Writing (3 credits)
- WRT 490 - Writing Internship (1 to 3 credits)
- WRT 495 - Genre and Writing (Capstone) (3 credits)

## Accounting

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Website:** [gvsu.edu/seidman](http://gvsu.edu/seidman)

Students who elect to major in accounting may prepare themselves for a variety of accounting careers and fulfill the education requirements for taking the Certified Public Accountant (CPA) and/or the Certified Management Accountant (CMA) examination. Accountancy also provides an excellent undergraduate background for a degree in law.

## **Accounting Minor**

### **Requirements for a Minor in Accounting**

Eligible business majors who elect to complete one of the business minors may be required to extend their degree programs beyond the minimum 120-semester hour university requirement.

The undergraduate accounting minor program is open to all students except accounting majors. The minor complements major fields of study in other departments or schools and enables students to choose a concentration of courses in a particular area of accounting, such as financial, managerial, and tax.

The accounting minor consists of 18 credit hours. The six courses are made up of two required courses (ACC 212 and ACC 213) and four upper-division accounting courses. Transfer students must complete at least three upper-division accounting courses at the Seidman College of Business. Independent research and internship credits do not count toward requirements for the minor. Only upper-division accounting courses in which the student has earned a C- or better may be used to satisfy requirements for the accounting minor. Students must achieve a cumulative 2.5 GPA in these courses to receive the accounting minor designation. Courses cannot be taken on a credit/no-credit basis.

## **Bachelor of Business Administration in Accounting**

### **Requirements for the B.B.A.**

#### **Core Courses**

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)  
**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course (not ECO 490) Credits: 3

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable. Note: While B.B.A. requires one from the following list, accounting majors are required to take ACC 333 (see Requirements for a Major in Accounting).

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division Seidman courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

With permission, qualifying accounting majors who will otherwise exceed the minimum 120-credit requirement for the B.B.A. can fulfill this requirement by enrolling in 500-/600- level graduate accounting courses. Such qualifying students will have: 1) completed ACC 310, ACC 311, and ACC 340 with a grade of B or better; 2) no more than 35 credits left to complete their undergraduate degree requirements; 3) a cumulative GPA of at least 3.0; and 4) a GMAT score of at least 500 (or qualify for a GMAT waiver).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Electives**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no credit basis.

## **Requirements for a Major in Accounting**

Accounting majors must complete all requirements for the B.B.A. degree (the business core, three business electives, and one ethics requirement course) and take additional credit hours, as follows:

STA 215 - Introductory Applied Statistics (3 credits)

ACC 240 - Financial Accounting Applications (1 credit)

ACC 310 - Intermediate Accounting I (3 credits)

ACC 311 - Intermediate Accounting II (3 credits)

ACC 321 - Cost Strategy and Decision Making (3 credits)

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ACC 340 - Accounting Systems (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

One of the following two courses:

ACC 317 - Individual Income Taxation (3 credits)

ACC 318 - Entity Taxation (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

And one of the following two courses:

ACC 413 - Internal Auditing (3 credits)

ACC 414 - External Auditing (3 credits)

The required course from the auditing group (ACC 413 or ACC 414) will be waived for students who have completed ACC 513 or ACC 514 with a grade of 3.0 or higher.

### **Additional Requirements**

To graduate, these requirements must be met:

Accounting students must achieve a 2.5 minimum GPA for upper-division accounting courses.

Students must receive at least a B- in ACC 240 to enroll in ACC 310 and at least a C in ACC 310 to enroll in ACC 311.

If the GPA for upper-division accounting courses falls below 2.5 (after nine hours are completed) the student will not be permitted to take additional upper-division accounting courses. However, such students may repeat upper-division accounting courses for which they received a low grade.

Only upper-division accounting courses in which the student has earned a C- or better may be used to satisfy requirements for an accounting degree.

Accounting students must also meet other requirements of the undergraduate business program.

Students entering the accounting program are expected to have a basic knowledge of spreadsheets before enrollment in upper-division accounting courses. Taking the intermediate sequence courses ACC 310 and ACC 311 in contiguous semesters is highly recommended. Internships are strongly encouraged.

## **Combined Bachelor of Business Administration in Accounting and Master of Science in Accounting**

Qualified undergraduate accounting students may be conditionally admitted to a combined bachelor's/master's program and obtain both a B.B.A. and an M.S. in accounting within an accelerated time frame. Students admitted to this program may take graduate courses after completing 85 undergraduate credits, and up to 12 credits of graduate work may be used in partial satisfaction of the requirements for the undergraduate degree (in alignment with university policy, a maximum of 12 credit hours of graduate work will count toward both the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

graduate and undergraduate degrees). During their fourth-year students can select up to four courses from the following graduate accounting courses:

ACC 508 - Governmental and Not-for-Profit Accounting (3 credits)

ACC 513 - Internal Auditing (3 credits)

ACC 514 - External Auditing (3 credits)

ACC 516 - Information Systems Auditing (3 credits)

ACC 612 - The Accountant's Legal Environment (3 credits)

ACC 615 - Entity Taxation-Theory and Practice (3 credits)

ACC 618 - Advanced Accounting (3 credits)

ACC 513 - Internal Auditing (3 credits) or ACC 514 - External Auditing (3 credits)

ACC 513 or ACC 514 fulfill the B.B.A.'s undergraduate auditing requirement, while the other courses fulfill the B.B.A.'s undergraduate Seidman College of Business electives requirement. No more than three 500-level courses can be counted toward the minimum 33 hours of the M.S.A. degree. Note: NASBA (National Association of State Boards of Accountancy) requires candidates to have taken External Auditing to be eligible to sit for the CPA exam, so students who plan to take the CPA exam should certainly take ACC 514 and may additionally take ACC 513.

If students earn at least a grade of B in each of these classes, they are granted full admission to the master's program and must then complete an additional 21 credits to receive the master's degree. All other master's degree requirements must be met. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 120 credits for the bachelor's degree are completed (the M.S.A. program requires 33 hours).

Undergraduate accounting majors with an overall GPA of at least 3.25 may apply to the combined bachelor's/master's program after completion of the following:

Business core requirements with a grade of B or higher in each: ECO 210 and ECO 211, BUS 201, and MGT 268

Undergraduate accounting requirements with a grade of B or higher in each: ACC 212, ACC 213, ACC 240, ACC 310, and any other 300- or 400-level accounting course(s)

70 hours of academic credit, with at least 15 credits at GVSU that have been completed or are in progress

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Admission**

Students will normally apply for the combined B.B.A./M.S. in accounting degree program during their third academic year (for a complete list of application requirements and to apply, see [gvsu.edu/msa](http://gvsu.edu/msa)). Acceptance recommendations will be made by the School of Accounting's Admissions Committee after evaluation of the application and the completion of all application requirements.

## **Requirements**

### **Requirements During Undergraduate Studies**

An undergraduate student enrolled in the combined degree program is required to successfully complete, as defined as follows, a minimum of 12 credits each regular semester until all undergraduate courses required for the degree have been completed (except when completing an internship or other extenuating circumstances).

Students will maintain a cumulative undergraduate GPA of at least 3.25, earning a C or higher in each undergraduate course attempted; and

Students will earn a B or higher in each graduate course attempted.

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.B.A./M.S. in accounting program. In the final undergraduate year, students will take 12 credits of graduate-level courses.

Students will be considered undergraduates for tuition, academic requirements, and financial aid purposes until all requirements for the undergraduate degree are completed. Following this, they will be considered graduate students, will pay graduate tuition, and will be eligible for graduate financial aid.

### **Graduation Without Completion of the Combined Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the School of Accounting will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

## **Master of Science in Accounting**

**Website:** [gvsu.edu/msa](http://gvsu.edu/msa)

The Master of Science in accounting degree is intended for students pursuing careers in public, corporate, and not-for-profit accounting, including those with limited undergraduate accounting education. The M.S.A. degree meets current educational requirements for public accounting

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

certification (CPA) in Michigan as of this catalog publication date. Students should verify current educational requirements at [Michigan.gov/lara](http://Michigan.gov/lara).

## **Admission**

Admission to the M.S.A. program is based on an evaluation of the candidate's application and other submitted documentation. An undergraduate degree in accounting is not required, but those with limited undergraduate business education are required to complete business and accounting courses that provide a foundation for advanced study in accounting.

Applicants must submit official documentation of all previous college coursework, including a baccalaureate degree (or equivalent international credential). Additionally, applicants must submit:

GMAT score (unless waived)

Personal statement

TOEFL score (if English is not the applicant's first language)

The Graduate Accounting Committee bases admission decisions on previous undergraduate and graduate academic performance and evidence of other competencies related to program and workplace success. Applicants with a cumulative GPA of at least 3.0 for the last 60 semester hours of undergraduate coursework and with grades of B or better in all intermediate accounting courses at an AACSB-accredited school are considered academically qualified for full admission and the GMAT requirement is waived. A TOEFL score of at least 80 (IBT) is required of applicants whose first language is not English. Work experience is not required but may be used in the admission decision.

For applicants with a cumulative GPA below 3.0 for the last 60 semester hours of undergraduate coursework, the Graduate Admissions Committee considers a scholastic index (SI) for M.S.A. applicants computed as follows:

$$SI = (\text{GPA for last 60 semester hours of undergraduate coursework} \times 200) + \text{GMAT score.}$$

Applicants with a scholastic index of at least 1100, and satisfactory evidence in their other credentials are considered academically qualified for full admission.

## **Conditional Admission**

Students admitted under this status must meet specific requirements detailed in their letter of admission to be fully admitted to the program.

If an otherwise qualified applicant has not completed prerequisite or foundational courses including intermediate accounting (or received a grade below a B in any intermediate accounting course), it is likely that the applicant will be offered conditional admission. Full admission to the

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

M.S.A. program will be granted upon meeting specified conditions. The conditional admission status is described in detail in the Graduate Admissions section of the catalog.

Individuals not yet admitted to the M.S.A. program may enroll in Foundation courses. Candidates who have not completed Intermediate Accounting I (ACC 310 or equivalent) with a grade of B or higher may only enroll in foundation or undergraduate accounting exposure courses until ACC 310 is completed with a grade of B or higher. Accordingly, the student is advised to take ACC 310 as soon as its prerequisites are met. Foundation courses do not count toward the 33 graduate-credit minimum for the M.S.A. degree. Candidates who have not completed Intermediate Accounting II (ACC 311 or equivalent) with a grade of B or better should take this course in the first semester of attendance after the ACC 310 prerequisite has been met.

### **Dual Enrollment**

Enrollment in dual-listed 500-level courses or 600-level courses is generally restricted to students admitted to the respective program who have also completed the appropriate prerequisite courses. The exception to this policy is Seidman College of Business accounting students with senior standing who meet all other admissions criteria. Such students will have: 1) completed ACC 310, ACC 311, and ACC 340 with a grade of B or better; 2) no more than 35 credits left to complete their undergraduate degree requirements; and 3) a cumulative GPA of at least 3.0. With permission of the Seidman Graduate Programs Office, such students may enroll for as many as four graduate-level accounting courses that may be applied toward the M.S.A. degree once they are admitted.

### **GMAT Waiver**

The following categories of applicants may request a waiver of the GMAT examination requirement:

Applicants who have earned a master's degree from an AACSB-accredited business school.

Applicants who have completed a U.S. Juris Doctor (J.D.) degree with a cumulative GPA of 3.0 or higher.

A certified public accountant registered or licensed in any U.S. jurisdiction.

Applicants seeking a GMAT waiver should contact the Seidman Graduate Programs Office for details. A GMAT waiver does not result in guaranteed admission; the admissions decision will be based on the applicant's application materials.

### **Transfer Credit**

A maximum of nine semester-hours of transfer credit will be given for appropriate graduate courses completed with a grade of B or better from an AACSB-accredited college. These credits

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

may be substituted for required or elective courses as determined by the Seidman Graduate Programs Office. University policy on transfer of credit also governs such courses.

### **Academic Review**

A cumulative GPA of 3.0 or higher is required in all graduate-level courses. Additionally, a cumulative GPA of 3.0 is required in all 600-level courses that fulfill graduation requirements for the M.S.A. A grade of C or better must be earned in all graduate courses that fulfill graduation requirements for the M.S.A.

### **Graduate Outcomes/Time to Program Completion**

The School of Accounting faculty has identified the following learning objectives for M.S.A. students, and objectives are assessed regularly to ensure that they are being achieved.

M.S.A. graduates will be

technically competent;

effective accounting researchers;

effective communicators;

internationally literate; and

prepared to recognize and respond to ethical questions encountered in the practice of accounting.

Students with an undergraduate degree in accounting or business can generally complete the program in one calendar year. Students with no or limited accounting coursework can complete the program in two calendar years.

### **Program Location**

The M.S.A. program is offered at the Pew Grand Rapids Campus in downtown Grand Rapids, Michigan. Most courses are located in the L. William Seidman Center, home of the Seidman College of Business.

### **Requirements**

All M.S.A. students must complete a minimum of 33 graduate credits that include at least:

24 credits of 600-level courses

18 credits of graduate accounting courses

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Foundation Requirements

Foundation requirements may be met by completion of the following GVSU undergraduate courses or their equivalents.

Area	Course
Accounting	ACC 212 - Principles of Financial Accounting (3 credits)
	ACC 213 - Principles of Managerial Accounting (3 credits)
	ACC 310 - Intermediate Accounting I (3 credits)
	ACC 311 - Intermediate Accounting II (3 credits)
	ACC 321 - Cost Strategy and Decision Making (3 credits)
Legal Environment for Business	ACC 340 - Accounting Systems (3 credits)
	BUS 201 - Legal Environment for Business (3 credits)
Statistics	STA 215 - Introductory Applied Statistics (3 credits)
Finance	FIN 320 - Managerial Finance (3 credits)
Economics	ECO 210 - Introductory Macroeconomics (3 credits)
	ECO 211 - Introductory Microeconomics (3 credits)

ACC 310 and ACC 340 have a prerequisite of ACC 240 - Financial Accounting Applications. This prerequisite may be waived for a graduate student based on employment experience or a satisfactory demonstration of competency in the application of financial accounting concepts. Please contact the Seidman Graduate Programs Office for information on specific requirements for a waiver. ACC 340 also has a prerequisite of MGT 268 that is waived for admitted M.S.A. students.

Students who have completed the preceding GVSU undergraduate courses listed or the equivalent courses at another university may not enroll in the content-equivalent graduate-level course unless required as a condition of admission, or are granted permission by the Seidman Graduate Programs Office.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Core Courses**

All M.S.A. students must complete a minimum of 18 credits in graduate accounting courses including the following courses:

ACC 607 - Ethics for Accountants (3 credits)

ACC 613 - Financial Statement Analysis (3 credits)

ACC 616 - Structured Accounting Analytics and Emerging Technologies (3 credits)

ACC 617 - International Accounting (3 credits)

ACC 620 - Accounting Theory (3 credits)

ACC 620 is the Capstone course and may not be taken until other core courses have been completed; however, concurrent enrollments may be granted with permission from the Seidman Graduate Programs Office.

## **Elective Courses**

Courses to fulfill the elective credits are selected with guidance from the Seidman Graduate Programs Office and the faculty advisor. Graduate courses both within and outside of accounting can be selected if deemed appropriate and aligned with the student's career goals.

## **Accounting Exposure Courses**

Accounting exposure courses may be taken at either the undergraduate level prior to or while enrolled in the M.S.A. program. Their purpose is to ensure that all M.S.A. graduates have basic competencies in each major area of accounting. For the exposure requirement, all students are required to complete, with a grade of C or better, at least one three credit course in cost or managerial accounting, corporate taxation, external auditing, advanced accounting, and accountant's legal environment. All non-GVSU courses used to meet this requirement must be evaluated by GVSU accounting faculty as equivalent to the appropriate GVSU course.

At the discretion of the faculty advisor, a combination of courses may be used to satisfy the requirement for a course in advanced accounting. Students who have completed accounting exposure courses at the undergraduate level or equivalent courses at another university may not enroll in content equivalent graduate level courses unless required as a condition of admission, or are granted permission by the Seidman Graduate Programs Office. An accounting exposure course taken at the undergraduate level is not counted toward the 33 graduate credit requirement.

## **Individualized Plan of Study/Time to Program Completion**

All admitted students must meet with a faculty advisor prior to or during their first semester of graduate coursework to obtain an individualized plan of study (IPS) specifying the coursework

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

required for the M.S.A. degree and any emphases elected by the student. The IPS will be developed by the student's advisor based upon review of the student's previous coursework, program requirements, and the student's interests. Any subsequent changes to the IPS must be approved by the faculty advisor.

Students generally fall into one of the following categories:

#### **Undergraduate Degree in Accounting**

Students entering the M.S.A. program with an undergraduate degree in accounting may generally expect to complete a 33-credit program. These students must take the accounting core and 18 credits of approved 500- and 600-level electives selected from among Seidman graduate offerings or, with permission of the student's faculty advisor, from graduate program offerings outside the Seidman College of Business courses.

#### **Nonaccounting Business Degree**

Students entering the program with an undergraduate degree in business, but with six or fewer hours in accounting, may expect an IPS listing all accounting core and exposure courses with a program length of 33 to 42 credits.

#### **Nonbusiness Degree**

Students entering the program with a nonbusiness undergraduate degree and no prior coursework in business or accounting will receive a standard IPS totaling approximately 62 semester hours.

### **Emphases**

A student may elect to complete the M.S.A. degree with an emphasis in auditing or taxation. These emphases are intended for students who desire advanced knowledge and skills in auditing or taxation. The emphasis will be listed on the student's transcript.

#### **Auditing Emphasis**

The student electing the auditing emphasis must complete the following courses:

ACC 513 - Internal Auditing (3 credits)

ACC 516 - Information Systems Auditing (3 credits)

ACC 603 - Accounting and Auditing Research (3 credits)

ACC 608 - Forensic Accounting (3 credits)

#### **Taxation Emphasis**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The student electing the taxation emphasis must complete the following courses:

ACC 622 - Tax Research and Writing (3 credits)

ACC 624 - Corporate Tax I (3 credits)

ACC 627 - Estate, Gift, and Trust I (3 credits)

ACC 629 - Partnership Taxation (3 credits)

At least three of the courses in an emphasis must be completed at GVSU. These courses may be used to either fulfill required electives in the program or extend the number of hours required for the degree, depending on the student's individual circumstances. For students with undergraduate accounting degrees, it may be possible to complete the degree with an emphasis in 36 credits. Other students desiring an emphasis should expect to complete additional credits beyond what is required for the degree. With the approval of the student's faculty advisor, a different 600-level course in auditing or taxation may be substituted for one of the preceding courses. **To elect the emphasis, the student must request that their faculty advisor add the emphasis to the student's individualized plan of study.**

## Combined B.B.A./M.S. in Accounting

Qualified undergraduate accounting students may be conditionally admitted to a combined bachelor's/master's program and obtain both a B.B.A. and an M.S. in accounting within an accelerated time frame. Students admitted to this program may take graduate courses after completing 85 undergraduate credits, and up to 12 credits of graduate work may be used in partial satisfaction of the requirements for the undergraduate degree (in alignment with university policy, a maximum of 12 credit hours of graduate work will count toward both the graduate and undergraduate degrees). During their fourth year, students can select up to four courses from the following graduate accounting courses:

ACC 508 - Governmental and Not-for-Profit Accounting (3 credits)

ACC 513 - Internal Auditing (3 credits)

ACC 514 - External Auditing (3 credits)

ACC 516 - Information Systems Auditing (3 credits)

ACC 612 - The Accountant's Legal Environment (3 credits)

ACC 615 - Entity Taxation-Theory and Practice (3 credits)

ACC 618 - Advanced Accounting (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ACC 513 or ACC 514 fulfills the BBA's undergraduate auditing requirement, while the other courses fulfill the BBA's undergraduate Seidman College of Business electives requirement. No more than three 500-level courses can be counted toward the minimum 33 hours of the M.S.A. degree.

If students earn at least a grade of B in each of these classes, they are granted full admission to the master's program and must then complete an additional 21 credits to receive the master's degree. All other master's degree requirements must be met. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 120 credits for the bachelor's degree are completed (the M.S.A. program requires 33 hours).

Undergraduate accounting majors with an overall GPA of at least 3.25 may apply to the combined bachelor's/master's program after completion of the following:

Business core requirements with a grade of B or higher in each: ECO 210 and ECO 211, BUS 201, and MGT 268

Undergraduate accounting requirements with a grade of B or higher in each: ACC 212, ACC 213, ACC 240, ACC 310, and any other 300- or 400-level accounting course(s)

70 hours of academic credit, with at least 15 credits at GVSU that have been completed or are in progress

## **Admission**

Students will normally apply for the combined B.B.A./M.S. in accounting degree program during their third academic year (for a complete list of application requirements and to apply, see [gvsu.edu/msa](http://gvsu.edu/msa)). Acceptance recommendations will be made by the School of Accounting's Admissions Committee after evaluation of the application and the completion of all application requirements.

## **Requirements**

### **During Undergraduate Studies**

An undergraduate student enrolled in the combined degree program is required to successfully complete, as defined as follows, a minimum of 12 credits each regular semester until all undergraduate courses required for the degree have been completed (except when completing an internship or other extenuating circumstances).

Students will maintain a cumulative undergraduate GPA of at least 3.25, earning a C or higher in each undergraduate course attempted; and

Students will earn a B or higher in each graduate course attempted.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.B.A./M.S. in accounting program. In the final undergraduate year, students will take 12 credits of graduate-level courses.

Students will be considered undergraduates for tuition, academic requirements, and financial aid purposes until all requirements for the undergraduate degree are completed. Following this they will be considered graduate students, will pay graduate tuition, and will be eligible for graduate financial aid.

### **Graduation Without Completion of the Combined Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the School of Accounting will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

## **Advertising and Public Relations**

For additional information about opportunities your college offers, please refer to the School of Communications or the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/soc/apr](http://gvsu.edu/soc/apr)

The advertising and public relations major values integrating theory with practice. Our curriculum follows the recommendations of industry organizations such as the American Advertising Federation (AAF) and the Commission on Education in Public Relations (CEPR). Also, students work with actual clients from the community on a regular basis in four different courses. The program also requires at least one three-credit internship to gain experience.

## **Advertising and Public Relations Minor**

### **Requirements**

Requirements for a minor in advertising and public relations is 21 credits, including the following courses:

CAP 105 - Technology in Public Relations and Advertising (3 credits)

CAP 115 - Research Basics for Advertising and Public Relations (3 credits)

CAP 210 - Fundamentals of Advertising (3 credits)

CAP 220 - Fundamentals of Public Relations (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

CAP 310 - Advertising Management and Cases (3 credits) **OR** CAP 320 - Public Relations Management and Cases (3 credits)

In addition, the minor requires six credits (two courses) of electives, which must be approved by a faculty advisor. Often, courses in the APR major not required for the minor are a good choice (e.g. CAP 315, CAP 321, CAP 413, CAP 423). Additional suggested electives are listed under the advertising and public relations link on the School of Communications website at [gvsu.edu/soc](http://gvsu.edu/soc).

## **Bachelor of Arts or Bachelor of Science in Advertising and Public Relations**

The School of Communications core, B.A./B.S. degree requirements, and emphasis requirements total 57 credits.

### **Requirements for a Major in Advertising and Public Relations**

#### **B.A./B.S. Degree Requirements**

There are nine credits required. All undergraduate programs in the School of Communications offer both the B.A. degree and the B.S. degree. All students selecting majors in the School of Communications must choose either the B.A. or B.S. degree requirement that is intended for a particular undergraduate program.

#### **B.A. Degree**

The B.A. degree requires a third semester proficiency in a foreign language of the student's choice.

#### **B.S. Degree**

STA 215 - Introductory Applied Statistics (3 credits)

COM 275 - Foundations of Communication Research (3 credits)

COM 375 - Communication Research (3 credits)

#### **School of Communications Core**

All students majoring in the School of Communications must complete the following core courses, for a total of nine credits:

COM 101 - Concepts of Communication (3 credits)

COM 201 - Speech (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

COM 295 - Communication Theory (3 credits)

## **Advertising Emphasis**

Advertising core, electives, and Capstone require 39 credits.

### **Core Courses**

There are 30 credits required.

ART 209 - Graphic Design Basics (3 credits)

CAP 105 - Technology in Public Relations and Advertising (3 credits)

CAP 115 - Research Basics for Advertising and Public Relations (3 credits)

CAP 210 - Fundamentals of Advertising (3 credits)

CAP 220 - Fundamentals of Public Relations (3 credits)

CAP 310 - Advertising Management and Cases (3 credits)

CAP 315 - Advertising Copywriting (3 credits)

CAP 413 - Media Planning (3 credits)

CAP 490 - Internship in Advertising/Public Relations (1 to 6 credits) Minimum of three credits are required for the major.

WRT 219 - Introduction to Creative Writing (3 credits)

PHI 325 - Ethics in Professional Life (3 credits) **OR** CAP 325 - Advertising and Public Relations Ethics and Law (3 credits)

### **Elective Courses**

There are a minimum of six credits required.

With advisor approval, select a minimum of two courses at the 200-level or above that complement your studies in advertising and public relations. Courses may be from other departments. See list of suggested electives at [gvsu.edu/soc/advertising-public-relations-major-47.htm](http://gvsu.edu/soc/advertising-public-relations-major-47.htm).

### **Capstone**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

There are three credits required.

CAP 495 - Advertising and Public Relations Campaign (3 credits)

## **Public Relations Emphasis**

Public relations core, electives, and Capstone require 39 credits.

### **Core Courses**

There are 30 credits required.

ART 209 - Graphic Design Basics (3 credits)

CAP 105 - Technology in Public Relations and Advertising (3 credits)

CAP 115 - Research Basics for Advertising and Public Relations (3 credits)

CAP 210 - Fundamentals of Advertising (3 credits)

CAP 220 - Fundamentals of Public Relations (3 credits)

CAP 320 - Public Relations Management and Cases (3 credits)

CAP 321 - Media Relations Writing (3 credits)

CAP 423 - Writing Corporate Communications (3 credits)

CAP 490 - Internship in Advertising/Public Relations (1 to 6 credits) Minimum of 3 credits required for the major.

CMJ 256 - News Reporting (3 credits)

PHI 325 - Ethics in Professional Life (3 credits) **OR** CAP 325 - Advertising and Public Relations Ethics and Law (3 credits)

### **Elective Courses**

There are a minimum of six credits required.

With advisor approval, select a minimum of two courses at the 200-level or above that complement your studies in advertising and public relations. Courses may be from other departments. See list of suggested electives at [gvsu.edu/soc/advertising-public-relations-major-47.htm](http://gvsu.edu/soc/advertising-public-relations-major-47.htm).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Capstone**

There are three credits required.

CAP 495 - Advertising and Public Relations Campaign (3 credits)

# **African/African American Studies**

For additional information about opportunities your college offers, please refer to the Brooks College of Interdisciplinary Studies section in this catalog.

**Website:** [gvsu.edu/aaas](http://gvsu.edu/aaas)

In keeping with Grand Valley's liberal education commitment, the African and African American studies program administers an interdisciplinary minor whose goal is to academically prepare students for a better understanding of the variety and complexity of Africa, a deep appreciation of the African American experience and, more generally, an enriching knowledge of the various historical trajectories and contributions of the global African diaspora.

A minor in African and African American studies is an ideal complement to many disciplinary majors. Two tracks or areas of emphasis are possible, allowing students to tailor the minor to their own interests and needs. Students can choose to minor either in Track One: Africa or in Track Two: African American.

Students minoring in African and African American studies are encouraged to take full advantage of excellent study abroad opportunities available through GVSU partner institutions or COUNCIL programs. For more information, please consult the Padnos International Center or the program director. As a socially engaged discipline, African and African American studies is committed to fostering social and civic engagement, particularly in Grand Rapids communities.

## **African/African American Studies Minor**

### **Requirements**

Students seeking a minor in African and African American studies are required to complete 21 to 22 credit hours. Students will be required to choose between Track One (Africa) and Track Two (African American).

### **Core Courses**

All minors will be required to complete two core courses for a total of six credits:

AAA 200 - Understanding Africa (3 credits) **OR** AAA 201 - Introduction to African American Studies (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

AAA 302 - African Diaspora (3 credits)

**Track One: Africa**

Students choosing the Africa track will be required to successfully complete the following:

FRE 202 - Intermediate French II: Language and Culture (4 credits) **OR** ARA 202 - Intermediate Arabic II: Language and Culture (4 credits) or higher.

Note: Students who enter the university competent in French or Arabic at the 202-level or higher will take one extra elective course for a total of 21 credits.

**PLUS** four elective courses (12 credits) from the following:

AAA 319 - African Politics (3 credits)

AAA 300 - U.S. - Africa Relations (3 credits)

AAA 333 - Study Abroad - African/African American Studies (1 to 6 credits)

AAA 337 - Contemporary Black Literature (3 credits)

AAA 343 - Black Feminist Thought (3 credits)

AAA 380 - Special Topics in African/African American Studies (1 to 3 credits)

AAA 399 - Independent Readings (1 to 3 credits)

AAA 499 - Independent Study and Research (1 to 4 credits)

GPY 351 - Geography of Africa (3 credits)

HST 335 - Africa Before 1870 (3 credits)

HST 336 - Africa After 1870 (3 credits)

**Track Two: African American**

Students choosing the African American track will be required to successfully complete the following:

AAA 490 - Practicum: Career-Service in Community Building (1 to 6 credits)

**PLUS** four elective courses (12 credits) from the following:

AAA 231 - Early African American Literature (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

AAA 232 - Modern African American Literature (3 credits)

AAA 315 - Field to Factory: African American Migration (3 credits)

AAA 333 - Study Abroad - African/African American Studies (1 to 6 credits)

AAA 340 - African American Culture and Social Thought (3 credits)

AAA 351 - Perspectives on African American Males (3 credits)

AAA 352 - Black Women's Culture and Communities (3 credits)

AAA 355 - History of Underground Railroad (3 credits)

AAA 357/HST 357 - The Black Diaspora and the Meaning of Sports, 1800 to the Present (3 credits)

AAA 380 - Special Topics in African/African American Studies (1 to 3 credits)

AAA 399 - Independent Readings (1 to 3 credits)

AAA 499 - Independent Study and Research (1 to 4 credits)

INT 320 - Voices of the Civil Rights Movement in the United States (3 credits)

HST 314 - African American History (3 credits)

HST 372 - From Slavery to Freedom (3 credits)

HST 316 - U.S. Civil Rights Movement History (3 credits)

SOC 333 - Sociology of the Civil Rights Movement (3 credits)

SOC 313 - Race and Ethnicity (3 credits)

Note: No more than two courses from any department other than African and African American studies can be counted toward the minor for the students who choose the African American track.

### **Additional Information**

No more than three credit hours of AAA 399 - Independent Readings (1 to 3 credits) **OR** AAA 499 - Independent Study and Research (1 to 4 credits) may count toward the minor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

New African or African American-related courses in each of the two tracks may count toward the minor as they become available. Please consult the program director concerning the eligibility of any particular course. Students should be particularly alert to the presence of courses offered through the vehicle of special topics courses (AAA 380 and AAA 390).

Transfer credits from approved study abroad programs and from other U.S. colleges and universities may be counted toward the minor upon verification by the program director. However, of the 21 to 22 credits required, a minimum of six credits must be taken in residence at GVSU.

## **Aging and Adult Life**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

Knowledge of aging can improve your interactions with older people; it also can prepare you to make sound plans for your own later life. It can help you understand what public policy development is needed for the elderly and prepare you for employment in the field of aging. The courses in the sequence described below are designed to be taken by undergraduates as well as interested persons from the community at large.

This minor is designed to appeal to students whose major academic preparation is in sociology, psychology, social work, business, education, nursing, public administration, biology, economics, political science, health sciences, or recreation.

### **Aging and Adult Life Minor**

Knowledge of aging can improve interactions with those at various and different stages in the adult life course. In the process, it can help individuals understand and anticipate their own adult lives. The available courses in the minor open the world of public policy development in preparation for employment in fields related to aging or that work with aging populations. They also include the biological and cultural aspects of aging and the end of life that teaches students about the complex interaction of individual perspective, sociocultural contexts, and the physical realities of the human body through the latter part of the life course.

This minor is designed to appeal to students whose major academic preparation is in any field that may work with older populations. Examples include sociology, psychology, social work, business, education, nursing, public administration, biology, economics, political science, health sciences, or recreation.

For more information, please contact the Sociology Department at 2172 AuSable Hall, (616) 331-3730.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Requirements**

Students who wish to minor in aging and adult life are required to complete 21 hours in the minor. At least three credit hours (one course) must be completed in each category.

### **Category One: Aging**

BMS 375 - The Biology of Aging (3 credits)

NUR 344 - Healthy Aging: A Lifelong Journey (3 credits)

PSY 366 - Perspectives on Aging (3 credits)

RTX 316 - Therapeutic Recreation with the Elderly (3 credits)

SOC 388 - Middle Age and Aging (3 credits)

### **Category Two: End of Life**

BMS 374 - Physiological Aspects of Death and Dying (3 credits)

ENG 386 - Literary Responses to Death and Dying (3 credits)

PHI 341 - Philosophy of Death and Dying (3 credits)

SOC 386 - Death and Dying (3 credits)

SPA 307 - Death and Dying in Hispanic Literature (3 credits)

### **Category Three: Health Care Institutions and Policy**

AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)

AHS 340 - Health Care Management (3 credits)

COM 209 - Health Communication Systems (3 credits)

ECO 343 - Health Economics (3 credits)

HST 370 - History of Medicine and Health (3 credits)

PNH 310/PLS 310 - Politics and Health Policy (3 credits)

PNH 330 - Health Care Financing (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

SOC 286 - Sociology of Health Care (3 credits)

# Allied Health Sciences

**Degree Offered:** Bachelor of Science in Allied Health Sciences

**Website:** [gvsu.edu/ahs](http://gvsu.edu/ahs)

The B.S. in allied health sciences (AHS) degree serves two functions:

Prepares students for entry into graduate programs in health professions with preparatory emphases (e.g., prehealth professional emphases preparing students to apply for graduate programs in physician assistant studies and physical therapy).

Prepares students for a career in the health care field, should students decide not to pursue a graduate level program. Additional emphases are offered to prepare students to advance into a health care career. These include health information and reimbursement and histotechnology. These aforementioned emphases each have a competitive secondary admission requirement for students to meet. Declaration of allied health sciences as a major does not assure acceptance into these emphases. There is also a "general" allied health sciences emphasis, which is not preparatory for any particular graduate or specific undergraduate career route. It is for those who are truly undecided about their health career path. It is strongly recommended that all students discuss their options with their assigned advisor to determine what emphasis to select.

## Allied Health Sciences Goals

Prepare students with an educational foundation to succeed in the allied health sciences professions.

Instill in students the general abilities required for professional conduct.

Instill in students the critical thinking and problem-solving skills necessary to be effective in providing interventions and services.

Instill in students the understanding of the role of research and scientific inquiry as applied to the practice, education, and leadership of their chosen profession.

Grand Valley State University is ideally suited to educate a wide variety of health care professionals. The university's geographic location, access to high quality clinical environments, strong relationships with the regional medical education community, excellent faculty, supportive administration, experience in the education of health care professionals, and a growing student population all combine to form an ideal environment for allied health care professional education programs.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Badge in Advanced American Sign Language**

This badge represents advanced capability in conversational ASL and understanding of deaf culture. Successful learners will be able to have extended low-stakes exchanges with deaf consumers in workplaces, e.g., ongoing rehab and therapy activities, check-in/-out procedures, and daily interactions with hospital in-patients; they will also be able to explain key features of deaf culture. This badge is not an ASL interpreting credential. MI-LARA administers interpreting credentials in Michigan.

Learning Objectives or Competencies: Learning objectives and competencies should be measurable and use action verbs. Students who complete the requirements for this badge will be able to:

- Sign approximately 2000 signs

- Engage in extended conversations using correct ASL grammar and language features

- Express cohesive narratives in ASL that incorporate suitable vocabulary choices and grammatical structures

- Analyze unique features of Deaf culture

- Identify examples of autism

- Explain connections between cultural influences and identity formation

### **Requirements**

- ASL 203 - American Sign Language 3 (3 credits)

- ASL 421 - Deaf History and Culture (3 credits)

## **Badge in Foundational American Sign Language**

This badge signifies competency in the foundational expressive/receptive language skills required to communicate in American Sign Language. A basic knowledge of ASL is a helpful communication tool in many employment settings that include interaction with the public, like retail locations, restaurants, and reception/check-in areas. GVSU is not authorized to issue interpreting credentials. The Michigan Department of Licensing and Regulatory Affairs administers credentials for interpreting in Michigan.

Learning objectives and competencies should be measurable and use action verbs. Students who complete the requirements for this badge will be able to:

- Sign approximately 1,500 signs

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Express complex sentences in correct ASL grammatical structure

Translate complex sentences from ASL into written English

## Requirements

ASL 201 - American Sign Language 1 (3 credits)

ASL 202 - American Sign Language 2 (3 credits)

## Bachelor of Science in Allied Health Science

### Requirements for a Major in Allied Health Sciences

The allied health sciences degree requires a minimum of 120 credits and includes general education requirements, Bachelor of Science course requirements, AHS core courses, and required courses for the completion of an emphasis. Once students declare the allied health sciences major, typically during their sophomore year, they will be assigned a major academic advisor who will assist in selecting the AHS emphasis that best meets their career goals. An approved internship/practicum/clinical experience may be required in a specific emphasis or will be strongly recommended for students not planning to attend graduate school. A minor may be required as a part of the emphasis the student elects or is secondarily admitted into (see table). If the student is in an emphasis that does not require a minor, the student may, under advisement, declare a minor if he or she has sufficient elective credit available or chooses to earn credits beyond the number required for graduation.

Emphasis Within AHS Major	Minor Required	Secondary Admission Required	Capstone Course
General Allied Health Science Emphasis	Yes	No	
Prehealth Professional Emphasis in Physical Therapy	No	No	
Prehealth Professional Emphasis in Physician Assistant Studies	No	No	
Health Professional Degree Completion	No	Yes	
Histotechnology Emphasis	No	Yes	(Winter Semester, Year Four)
Respiratory Care Emphasis	No	Yes	

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **B.S. in Allied Health Sciences**

### **Core Courses**

Major core courses include 22 credits:

BIO 120 - General Biology I (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

AHS 100 - Medical Terminology (3 credits)

AHS 110 - Introduction to Health Care (3 credits)

AHS 301 - Introduction to Health Care Research (3 credits)

AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)

AHS 340 - Health Care Management (3 credits)

Individual emphases require a Capstone course:

AHS 495 - Issues in Health Professions (3 credits) for the prehealth professional emphasis in physical therapy, the prehealth professional emphasis in physician assistant studies, general allied health sciences emphasis, and health information and reimbursement emphasis.

AHS 490 - Health Care Internship (3, 6, or 12 credits) for the histotechnology emphasis.

### **B.S. Courses**

Required courses include:

BIO 120 - General Biology I (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

AHS 301 - Introduction to Health Care Research (3 credits) **OR** PSY 300 - Research Methods in Psychology (3 credits)

### **Selection of an Emphasis in the AHS Program**

In order to graduate with a B.S. in allied health sciences, each student is required to select or apply to an emphasis in the AHS program. Each emphasis is designed to be either preparatory to

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

apply to a graduate level professional health care program or to prepare students for career entry upon bachelor's degree completion.

## **Emphasis in General Allied Health Sciences**

### **Minor Required, Secondary Admission not Required**

The general emphasis is for students who are undecided as to their career/education/employment goals. A minor, selected and approved by the student's academic advisor, is required.

### **Emphasis Courses**

AHS 495 - Issues in Health Professions (3 credits)

BIO 355 - Human Genetics (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

CHM 109 - Introductory Chemistry (4 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

CHM 232 - Biological Chemistry (4 credits)

PHY 200 - Physics for the Life Sciences (4 credits)

### **Students should choose one of the following anatomy and physiology sequences:**

#### **Sequence A**

BMS 208 - Human Anatomy (3 credits)

BMS 391 - Laboratory in Human Physiology (2 credits)

#### **Sequence B**

BMS 250 - Anatomy and Physiology I (4 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

**Minor:** There are 18 or more credits (a minor is required for this emphasis); 21 credits are used in calculation.

**Electives:** 12 to 15 credits (This is based on a 21-credit minor -- if MTH 110 is taken or not --

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

and includes a six credit AHS 490 elective internship; 15 credits used in calculation.)

**Emphasis total:** 70 credits

**AHS core:** 22 credits

**General education (unduplicated):** 28 credits

**Total:** 120 credits (121 credits if MTH 110 is taken)

### **Suggested Order of Coursework**

The suggested order of coursework assumes a 21-credit minor.

### **Year One**

Fall Semester:

AHS 110 - Introduction to Health Care (3 credits)

CHM 109 - Introductory Chemistry (4 credits)

## **Prehealth Professional Physical Therapy Emphasis**

### **Minor not Required, Secondary Admission not Required**

Physical therapists (PTs) are health care professionals who diagnose and treat individuals with health-related conditions, illnesses, or injuries that limit their ability to move and perform normal daily activities. Employment projections are far greater than normal growth (30-percent growth between 2008 and 2018) based on changes in health care laws and the aging American population. The American Physical Therapy Association's (APTA) accrediting body, The Commission on Accreditation of Physical Therapy Education (CAPTE), only accredits graduate programs; however, a baccalaureate degree and the necessary undergraduate preparation is highly recommended for admission into a Doctor of Physical Therapy program. The courses in this emphasis were developed in cooperation with GVSU's graduate Doctor of Physical Therapy (D.P.T.) program. This emphasis also provides a curriculum that generally aligns with entrance recommendations for graduate physical therapy programs across the country. Students need to consult the prerequisites of D.P.T. programs outside of GVSU for specific requirements. Students will be advised that the GVSU D.P.T. program requires a minimum GPA of 3.2 and that GVSU, as do most D.P.T. programs in other institutions, admits students with an overall and science GPA far in excess of 3.2. Students are strongly encouraged to meet periodically with their academic advisor to determine their eligibility for continuing the prehealth professional PT emphasis.

The student should be advised that progression through the prehealth professional physical therapy emphasis does not represent the only route of preparation for application to this graduate program. Other majors are also suitable, so long as the student closely follows the prerequisite science curriculum set forth by the GVSU D.P.T. graduate program.

### **Prehealth Professional Physical Therapy Emphasis Curriculum**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

AHS 495 - Issues in Health Professions (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

CHM 109 - Introductory Chemistry (4 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

CHM 232 - Biological Chemistry (4 credits)

MOV 304 - Introduction to Exercise Physiology (3 credits)

MTH 122 - College Algebra (3 credits)

MTH 123 - Trigonometry (3 credits) **OR** MTH 125 **OR** MTH 201

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

PSY 101 - Introductory Psychology (3 credits)

PSY 364 - Life Span Developmental Psychology (3 credits)

SOC 101 - Introduction to Sociology (3 credits) (ANT 204 or SOC 105 acceptable here to fulfill general education Social and Behavioral Sciences.)

**Students should choose one of the following anatomy and physiology sequences:**

Sequence A

BMS 290 - Human Physiology (3 credits) BMS 391 - Laboratory in Human Physiology (2 credits) Students may consider BMS 309 - Laboratory in Human Anatomy (1 credit) as a recommended elective in this sequence.

Sequence B

BMS 250 - Anatomy and Physiology I (4 credits)/BMS 251 - Anatomy and Physiology II (4 credits) (8 credits)

**Electives:** 21 credits (a minor can be elected with advisement, if desired)

**Emphasis total:** 76 credits

**AHS core:** 22 credits

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**General education (unduplicated):** 22 credits

Elective

## **Prehealth Professional Physician Assistant Studies Emphasis**

### **Minor not Required, Secondary Admission not Required**

Physician assistants (PAs) are health care professionals who practice under the supervision of physicians. PAs are formally trained to provide diagnostic, therapeutic, and preventative health care services as well as treating minor injuries. The Bureau of Labor Statistics predicts that the PA profession will grow much faster than average between 2008 and 2018. Physician assistant programs provide this graduate-level education. The prehealth professional emphasis in physician assistant studies provides those courses necessary to enhance a student's science background needed for applicant consideration. The courses in this emphasis were developed in cooperation with GVSU's graduate physician assistant studies (PAS) program. This emphasis also provides a curriculum that generally aligns with entrance recommendations for graduate physician assistant programs across the country. Students need to consult the course entry requirements of PAS programs outside of GVSU for specific requirements. Students will be advised that while most PAS graduate programs require an overall and science GPA of 3.0 for application, a GPA far in excess of 3.0 is usually needed for admission. Students are strongly encouraged to periodically meet with their academic advisors to determine their eligibility for continuing the pre-PAS emphasis.

The student should be advised that progression through the prehealth professional physician assistant studies emphasis does not represent the only route of preparation for application to this graduate program. Other majors are also suitable, so long as the student closely follows the prerequisite science curriculum set forth by the GVSU PAS graduate program.

### **Prehealth Professional Physician Assistant Studies Emphasis Courses**

AHS 495 - Issues in Health Professions (3 credits)

BIO 328 - Biomedical Ethics (3 credits)

BIO 355 - Human Genetics (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

## **Health Professional Degree Completion Emphasis**

### **Minor not Required, Secondary Admission Required**

Health professionals whose disciplines have an entry-level education preparation at the Associate or Associate of Applied Science degree level constitute an important population of health care workers today. These professions include medical assisting, occupational therapy assistant, surgical technology, dental hygiene, and dozens more. The health professional degree completion emphasis is designed to complement associate degree professionals' education with a path to earn a Bachelor's of Science in allied health sciences (AHS), using both students' professional education and the essential components of upper division baccalaureate education to maximum effectiveness and efficiency. Not only is there career enhancement for the health care professional with a Bachelor's of Science, but also earning a baccalaureate provides the prerequisite knowledge for the expansion of skills to graduate programs.

Eligibility Criteria: A transfer student wishing to enter the AHS health professional degree completion emphasis must meet three criteria for admissions consideration to the emphasis:

Possess an earned Associate of Science or Associate of Applied Science from a school accredited by the Higher Learning Commission.

The Associate of Science or Associate of Applied Science must be in a health profession program requiring external accreditation by the professional body regulating that particular profession.

The health profession offers national voluntary credentialing or requires state licensing and the student either possesses or is eligible for earning that credential or license.

**All students in the AHS health professional degree completion emphasis are required to complete the following core courses:**

BIO 120 - General Biology I (4 credits) (fulfilled by the associate degree)

STA 215 - Introductory Applied Statistics (3 credits)

AHS 301 - Introduction to Health Care Research (3 credits)

AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)

AHS 340 - Health Care Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A Capstone course is also required for the health professional degree completion emphasis:  
AHS 495 - Issues in Health Professions (3 credits)

A minor is not required in the AHS health professional degree completion emphasis.

Students in the AHS health professional degree completion emphasis must also complete all general education foundation categories, with the upper division general education Issues requirements being taken at GVSU.

The AHS bachelor's degree requires that 40 of the 120 credits are taken at a senior institution with 30 credits being taken at GVSU. During the GVSU application process students will submit official transcripts from all colleges and universities attended. Upon acceptance to GVSU, the admissions offer will provide a formal evaluation of credits for transfer. The student may then submit the AHS-HPD application. Upon acceptance to the AHS-HPD emphasis, the academic advisor and student will use evaluation of credits for transfer to build an academic plan outlining courses required for completion of the allied health sciences emphasis and general education components of the degree. The remaining credits applied toward the Bachelor of Science degree in allied health sciences (up to 80 total) will come from the professional coursework successfully completed in the respective associate or Associate of Applied Science health profession. Since each student's transcript will be different, depending on the school attended and the health profession pursued, the planning of what courses are required to earn the baccalaureate degree will be individually determined.

The AHS department recognizes that many students earning a bachelor's degree through this emphasis are concurrently working in their respective health profession. Every effort will be made to advise students to enroll in online/hybrid and evening course sections to lessen commuting and/or daytime presence.

The course of studies as follows is intended only as an example. It is formatted as a full-time student schedule. A part-time schedule would be different. Each individual student's plan of progress will vary as to the exact courses being taken each semester.

### **Suggested Order of Coursework**

Semester One (GVSU):

STA 215 - Introductory Applied Statistics (3 credits)

General education (3 credits)

General education (3 credits)

General education (3 credits)

Semester Two (GVSU):

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

General education (3 credits)

General education (3 credits)

Semester Three (GVSU):

AHS 495 - Issues in Health Professions (3 credits) Capstone

Issues (3 credits)

General education (3 credits)

Elective (4 credits)

Total Credits: 40

## **Histotechnology Emphasis**

### **Minor not Required, Secondary Admission Required**

Histology is a laboratory science concerned with the demonstration of cellular morphology, chemical composition, and function of normal and abnormal tissue. The histotechnologist cuts tissues removed through surgical procedures, mounts the tissue sections on glass slides, and stains them with special dyes to make the cell details visible under the microscope. With the information learned from the section of tissue biopsy, the pathologist and the patient's physician can make appropriate diagnoses and determine the best course of treatment for the patient.

The histotechnologist emphasis requires students to complete a minimum of 96 credits at GVSU and 24 credits of clinical practicum (AHS 490) at an affiliated hospital that has a nationally accredited histotechnology program, e.g., William Beaumont Hospital in Royal Oak, MI.

National certification in histotechnology requires the completion of a baccalaureate degree and completion of clinical training in a nationally accredited program. The accredited program at William Beaumont Hospital is a 10-month, 40-hour-per-week educational experience. Students spend their senior year at the hospital (known as the 3+1 model). This 3+1 educational model is used by a number of universities for their laboratory-based programs; e.g., medical laboratory science, histotechnology, cytotechnology, and cytogenetics technology. The 24 credits of AHS 490 serves as the student's Capstone course in the major.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

To become a certified histotechnologist (HTL), students must complete a baccalaureate degree that includes a clinical practicum in a NAACLS-accredited histotechnology program (National Accrediting Agency for Clinical Laboratory Sciences; 5600 N. River Rd. Suite 720; Rosemont, IL 60018-5119.) Upon completion of the baccalaureate degree requirements and the clinical requirements, students are eligible to take the American Society for Clinical Pathology (ASCP) certification exam for histotechnology (HTL).

Acceptance into an accredited histotechnology program for the required clinical education experience (AHS 490) is a competitive process that includes applying to the clinical site at William Beaumont Hospital. Availabilities are limited and the Beaumont program officials will determine those admitted to the clinical phase. A cumulative grade point average and a science/math grade point average of 3.0 are required for admission into the clinical program. Applicants are also required by NAACLS to complete the following courses prior to the start of their clinical experience: anatomy, physiology, microbiology, immunology, organic chemistry, biochemistry, and intermediate algebra. The application process occurs during the sophomore year. Students must work closely with their academic advisor regarding the application process.

### **Required Courses for the AHS B.S. with Histotechnology Emphasis**

BIO 355 - Human Genetics (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 208 - Human Anatomy (3 credits)

## **Allied Health Sciences with Respiratory Care Emphasis**

### **Minor not Required, Secondary Admission Required**

Respiratory therapists provide direct patient care for those who have trouble breathing across a broad scope of reasons. The patients of respiratory therapists range from premature infants with undeveloped lungs, children and adolescents with asthma, to elderly patients with emphysema. Respiratory therapists work in hospitals, clinics, rehabilitation facilities, and in-home care, where they provide emergency care to patients suffering from pulmonary failure, heart attacks, drowning, trauma, or shock.

The allied health sciences (AHS) respiratory care emphasis is conducted in collaboration with Muskegon Community College's (MCC) fully accredited program in respiratory therapy. There are two ways to be admitted to this emphasis:

Up to 18 qualified GVSU students will be admitted to the respiratory care emphasis each year (fall) after completing GVSU's first year science prerequisite and general education courses. The curriculum sequence is listed as follows. Admitted students will complete the professional respiratory therapy curriculum at MCC during their second and third year. Following the completion of the MCC professional respiratory therapy curriculum, students return to GVSU to complete their fourth year, simultaneously earning an Associate of Science degree from MCC and a Bachelor's of Science degree from GVSU in allied health sciences - emphasis in respiratory care. The program sequence would include: one year GVSU + two years MCC + one year GVSU.

Graduates of an accredited Committee on Accreditation for Respiratory Care (CoARC) associates or Associate of Applied Science degree respiratory therapy program may apply to the respiratory care emphasis. Up to 80 undergraduate transfer credits can apply to the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

AHS bachelor's degree. Transferability of credit will be done on an individual basis through transcript evaluation.

## **Secondary Admission Requirements**

### **Admission to the GVSU-MCC Respiratory Care Program**

Overall GPA of 2.5

Completion of BIO 120 - General Biology I (4 credits) with a passing grade

Completion of the following with at least a C (not C-) grade

CHM 109 - Introductory Chemistry (4 credits)

MTH 110 - Algebra (4 credits)

(A three-credit general education course can be taken in place of MTH 110 if advanced math placement is achieved.)

General education - Social and Behavioral Sciences course (recommend PSY 101)

By the fall after admission, students must have completed the following with no course grade less than a C (not C-) and an overall GPA of 2.5 in order to begin the MCC professional respiratory therapy courses.

BMS 250 - Anatomy and Physiology I (4 credits)

WRT 150 - Strategies in Writing (4 credits)

General education Foundations requirement Credits: 3

General education Foundations requirement Credits: 3

**Application process:** Students must complete and submit the following materials by March 15 for fall admission of the year of application.

Application for admission to the respiratory care emphasis (online at [gvsu.edu/ahs](http://gvsu.edu/ahs))

Demonstrated completion of and enrollment in the courses listed previously

Demonstrated fulfillment of minimum grade requirements for courses completed

Submission of two letters of professional reference

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students who are accepted into the emphasis must successfully complete the first-year sciences and general education courses prior to starting the professional respiratory therapy courses in fall of year two.

**Financial aid plans:** Students in the GVSU cohort receiving financial aid will need to meet with a designated GVSU financial aid advisor to coordinate aid between GVSU and Muskegon Community College. This is necessary because there are two consecutive semesters where students take courses only at Muskegon Community College.

### **Students with an Earned Associate or Associate of Applied Science Degree in Respiratory Therapy (Care)**

Students who are graduates of an accredited respiratory therapy (care) program and have an Associate of Science or Associate of Applied Science may apply for admission to the AHS respiratory care emphasis. A total of 80 credits in science and general education courses that have an equivalency with GVSU courses in addition to the professional respiratory therapy courses can transfer to GVSU in fulfilling the AHS bachelor's degree requirements. The maximum transferable credits to GVSU is 80 credits; an additional 40 credits must be taken at GVSU to meet the minimum graduation requirement of 120 credits. Transcript evaluation of applicants for transfer credit will be done on an individual basis and are subject to GVSU credit transfer policies. Students are responsible for consulting with their advisor to ensure all GVSU general education Foundation, Issues, and Supplemental Writing Skills requirements are met.

### **Allied Health Science Core Course Requirements**

All students in the AHS respiratory care emphasis, whether in the GVSU cohort or transferring with an earned associate or associate in applied science degree in respiratory therapy (care), are required to complete or transfer the following AHS core courses:

AHS 100 - Medical Terminology (3 credits)

AHS 301 - Introduction to Health Care Research (3 credits)

AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)

AHS 340 - Health Care Management (3 credits)

AHS 495 - Issues in Health Professions (3 credits)

BIO 120 - General Biology I (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

### **Suggested Order of Coursework**

**GVSU Student Cohort (1 + 2 + 1)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Year One (GVSU)**

Fall Semester (14 to 15 credits):

BIO 120 - General Biology I (4 credits)

CHM 109 - Introductory Chemistry (4 credits)

MTH 110 - Algebra (4 credits) **OR** three-credit general education course

PSY 101 - Introductory Psychology (3 credits)

Winter Semester (14 credits):

BMS 250 - Anatomy and Physiology I (4 credits)

WRT 150 - Strategies in Writing (4 credits)

General education (3 credits)

General education (3 credits)

Spring/Summer Semester (6 credits):

AHS 100 - Medical Terminology (3 credits)

General education (3 credits)

## **Year Two (GVSU and MCC)**

Fall Semester (14 GVSU credits):

BMS 251 - Anatomy and Physiology II (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

General education (3 credits)

RT 101 - Respiratory Therapy Physics (1 credit)

RT 102 - Basic Patient Care Skills (3 credits)

General education (3 credits)

RT 110 - Equipment and Procedures I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

RT 111 - Introduction to Respiratory Therapy (3 credits)

RT 120 - Equipment and Procedures II (3 credits)

RT 121 - Pharmacology (2 credits)

RT 122 - Clinical I (2 credits)

RT 130 - Equipment and Procedures III (3 credits)

RT 131 - Physiology (3 credits)

RT 132 - Clinical II (3 credits)

RT 134 - Introduction to Mechanical Ventilation (1 credit)

RT 141 - Pulmonary Pathophysiology (2 credits)

RT 144 - Adult Mechanical Ventilation (3 credits)

RT 154 - Clinical III (5 credits)

RT 162 - Clinical IV (7 credits)

### **Year Three (GVSU and MCC)**

Fall Semester (14 credits):

AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)

General education (3 credits)

RT 210 - Cardiovascular and Renal Physiology (4 credits)

RT 220C Peds and Neonatal Care (4 credits)

AHS 301 - Introduction to Health Care Research (3 credits)

### **Year Three (GVSU and MCC)**

Spring/Summer Semester (10 credits):

AHS 340 - Health Care Management (3 credits) Issues course

AHS 495 - Issues in Health Professions (3 credits) Capstone/SWS

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Issues - non-AHS course

RT 222A - Advanced Clinical Rotation II (3 credits)

RT 230A - Pulmonary Diagnostics and Rehabilitation (2 credits)

RT 240 - The Health Care Environment (1 credit)

### **Muskegon Community College Transfer Students**

Students who have earned an associate degree in respiratory therapy or a care program can transfer 80 credits in science and general education courses that have an equivalency with GVSU courses in addition to the professional respiratory therapy courses in fulfilling the AHS bachelor's degree requirements. An additional 40 credits must be completed at GVSU to meet the minimum graduation requirements of 120 credits.

### **Suggested Order of Coursework**

#### **MCC Respiratory Care Emphasis**

##### **Year One to Year Three**

Fall Semester to Fall Semester:

Eighty credits transfer to GVSU.

#### **Muskegon Community College Associate in Respiratory Therapy**

The following coursework can be completed on a full-time or part-time basis at GVSU.

##### **Year Three**

Winter Semester (13 to 14 credits):

General education (3 credits)

BIO 120 - General Biology I (4 credits) Option: Take three-credit course if student has equivalent of BMS 250 and BMS 251.

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits) unless student completed the equivalent of ENG I and ENG II in the associate degree.

AHS 301 - Introduction to Health Care Research (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Year Four**

Fall Semester (15 credits):

AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)

AHS 340 - Health Care Management (3 credits) Issues course

General education (3 credits)

Issues - non-AHS course (3 credits)

Winter Semester (12 credits):

AHS 495 - Issues in Health Professions (3 credits) Capstone/SWS

General education (3 credits)

General education (3 credits)

Electives (3 credits)

## **Minors Recommended for the AHS Major**

If the emphasis admitted to or selected allows the election of a minor, the following are popular choices among allied health sciences students:

Aging and adult life, biology

Business

Philosophy

Psychology

Sociology

Spanish

Women, gender, and sexuality studies

Other minors may be applicable to the student's need. Please coordinate this choice with your major advisor. Be sure to contact the minor department and meet with an advisor to create a plan for the minor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# **Bachelor of Science in Applied Food and Nutrition**

## **General Education Requirements:**

Students in the applied food and nutrition program at Grand Valley State University must follow all general education requirements as defined in the Grand Valley State University Undergraduate and Graduate Catalog.

## **Applied Food and Nutrition Major Course Requirements (78 credits):**

AHS 301 - Introduction to Health Care Research (3 credits)

AHS 340 - Health Care Management (3 credits) (also fulfills an Issues course)

BIO 120 - General Biology I (4 credits) (also fulfills a Life Science course)

BMS 105 - Basic Nutrition (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 250 - Anatomy and Physiology I (4 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

BMS 304 - Community Nutrition (3 credits)

BMS 407 - Nutrition in the Life Cycle (3 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

CHM 232 - Biological Chemistry (4 credits)

AFN 281 - Advocacy in Food and Nutrition (1 credit)

AFN 300 - Food Protection Management (3 credits)

AFN 381 - Design Thinking in Applied Food and Nutrition (3 credits)

AFN 400 - Applied Medical Nutrition Therapy (3 credits)

AFN 401 - Emerging Issues in Food and Nutrition (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

AFN 410 - Nutrition Care Delivery: Assessment, Implementation, and Evaluation (4 credits)

AFN 416 - Applied Food and Culinary Science (3 credits)

AFN 417 - Food Service Practicum (1 to 2 credits)

AFN 418 - Community Nutrition Practicum (1 to 3 credits)

AFN 419 - Clinical Nutrition Practicum (1 to 3 credits)

AFN 495 - Applied Food and Nutrition Capstone (3 credits)

COM 209 - Health Communication Systems (3 credits)

STA 215 - Introductory Applied Statistics (3 credits) (also fulfills a Math course)

## **Suggested Order of Coursework**

### **Year One**

Fall (14 credits)

AHS 110 - Introduction to Health Care (3 credits)

MTH 110 - Algebra (4 credits)

General education - Art

General education - Physical Science

Winter (15 credits)

BIO 120 - General Biology I (4 credits) (General Education - Life Science)

CHM 231 - Introductory Organic Chemistry (4 credits)

General education - Writing

General education - Philosophy and Literature

### **Year Two**

Fall (16 credits)

AHS 100 - Medical Terminology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 105 - Basic Nutrition (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

General education - Social and Behavioral Sciences

General education - Historical Perspectives

Winter (15 credits) Apply to the AFN program

BMS 251 - Anatomy and Physiology II (4 credits)

AFN 281 - Advocacy in Food and Nutrition (1 credit)

CHM 232 - Biological Chemistry (4 credits)

General education - Social and Behavioral Sciences

General education - Global Perspectives

### **Year Three**

Fall (16 credits)

AHS 340 - Health Care Management (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

AFN 381 - Design Thinking in Applied Food and Nutrition (3 credits)

COM 209 - Health Communication Systems (3 credits)

General education - U.S. Diversity

Winter (14 credits)

BMS 304 - Community Nutrition (3 credits)

AFN 300 - Food Protection Management (3 credits)

AFN 400 - Applied Medical Nutrition Therapy (3 credits)

AFN 417 - Food Service Practicum (1 to 2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

STA 215 - Introductory Applied Statistics (3 credits) (General education - Math)

## **Year Four**

Fall (15 credits)

AHS 301 - Introduction to Health Care Research (3 credits) (SWS)

AFN 416 - Applied Food and Culinary Science (3 credits)

AFN 418 - Community Nutrition Practicum (1 to 3 credits)

AFN 460 - Nutrition Education with Vulnerable Populations (3 credits)

General education - Issues

Winter (15 credits)

BMS 407 - Nutrition in the Life Cycle (3 credits)

AFN 401 - Emerging Issues in Food and Nutrition (2 credits)

AFN 410 - Nutrition Care Delivery: Assessment, Implementation, and Evaluation (4 credits)

AFN 419 - Clinical Nutrition Practicum (1 to 3 credits)

AFN 495 - Applied Food and Nutrition Capstone (3 credits) (SWS)

# **Annis Water Resources Institute**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

The Robert B. Annis Water Resources Institute (AWRI) is an academic unit within the College of Liberal Arts and Sciences (CLAS) committed to the study of freshwater resources. The mission of the institute is to integrate research, education, and outreach to enhance and preserve water resources.

**Website:** [gvsu.edu/wri](http://gvsu.edu/wri)

AWRI seeks to accomplish this mission through:

Research into major questions about our water resources, including ecosystem structure and function; contaminants and toxicology; fisheries; hydrology; invasive species;

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

genomics; climatology; land use; geospatial analysis; watershed, stream, and wetland ecology; water quality; water policy; and basic and applied limnology.

Public education for a variety of groups, including K-12, university students, and the community.

Outreach to ensure that decision makers are equipped with the best available knowledge on environmental and water resource-related issues, to reduce the uncertainty associated with their resource management decisions.

Students interested in pursuing an aquatic sciences emphasis within the Master of Science in biology degree program at Grand Valley State University may do so at the AWRI. These students can select a faculty member at AWRI as their major advisor or as committee members for their thesis research in the aquatic sciences. Broad areas of research at AWRI include aquatic biogeochemistry, algal ecology, benthic ecology, climatology and global warming, ecological modeling, ecosystem restoration, environmental chemistry, environmental toxicology, fisheries ecology and management, invasive species, limnology and stream ecology, marine ecology, microbial ecology, geospatial ecology, molecular ecology, and watershed management. Students are encouraged to contact individual faculty members to learn more about specific areas of research.

### **Fieldwork and Research Opportunities**

AWRI is housed in three buildings at its Muskegon, MI, campus on the Muskegon Lake waterfront. The Lake Michigan Center features a full analytical chemistry laboratory, research laboratories, offices, a geospatial technologies information center, and classrooms and conference space. The R.B. Annis Field Station houses experimental mesocosm tanks, research laboratories, offices, and conference space. A storage building houses our vehicles and trailered boat fleet. Vessels at AWRI include two research vessels, as well as a variety of smaller boats including an electrofishing boat. Students working at AWRI are encouraged to work in a collaborative environment, taking advantage of the physical resources and our nine principal investigators (seven faculty members and one associate research scientist), who have a passion for research and education and represent a broad spectrum of focus areas within aquatic science. This collaborative spirit at AWRI stimulates student learning, promotes an interdisciplinary research environment, and promises a rewarding experience.

### **Participating Programs**

AWRI works closely with faculty from other departments on campus, including biology, chemistry, geology, geography, statistics, and economics. We encourage multidisciplinary approaches, and graduate committees often include faculty from other universities or scientists from state agencies.

## **Anthropology**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/anthropology](http://gvsu.edu/anthropology)

### **Fieldwork and Research Opportunities**

The anthropology program regularly sponsors field schools in archaeology and cultural anthropology. These programs are locally based and are accessible to commuters as well as on-campus students. Occasional opportunities for fieldwork abroad are also available. Postfield independent research opportunities are available through individual faculty and the anthropology lab, which houses a collection of more than 200,000 artifacts from more than 200 archaeological and historic sites. Students interested in fieldwork should contact the department.

### **Participating Programs**

Interdepartmental minor in archaeology (Director Elizabeth Arnold): Students with an anthropology major might want to pursue a minor in this interdisciplinary program. For additional information, view the archaeology minor.

## **Anthropology Minor**

A student who minors in anthropology is required to complete 21 to 22 hours in the department, including:

ANT 204 - Peoples and Cultures of the World (3 credits)

ANT 206 - Human Origins (3 credits)

ANT 215 - Origins of Civilization (3 credits)

ANT 207 - Language and Culture (3 credits) **OR** ANT 220 - Introduction to Archaeology (4 credits)

### **Additional Courses**

The remaining nine credit hours must come from 300- or 400-level courses.

ANT 305 - Methods in Biological Anthropology (3 credits)

ANT 307 - Field Techniques and Laboratory Methods in Anthropology (1 to 9 credits)

ANT 311 - Native Peoples of North America (3 credits)

ANT 312 - Human Osteology (4 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

ANT 314 - Bioarchaeology (3 credits)

ANT 315 - Comparative Religions (3 credits)

ANT 317 - Advanced Cross-cultural Linguistics (3 credits)

ANT 320 - Culture and Disease (3 credits)

ANT 325 - Archaeology of North America (3 credits)

ANT 330 - Anthropology of Selected World Areas (3 credits)

ANT 340 - Culture and Environment (3 credits)

ANT 345 - Perspectives on Globalization (3 credits)

ANT 350 - Archaeology of Mid-East (3 credits)

ANT 370 - Cross-cultural Perspectives on Gender (3 credits)

ANT 380 - Special Topics in Anthropology (3 credits)

ANT 399 - Independent Readings (1 to 3 credits)

ANT 400 - Ethnographic Methods (3 credits)

ANT 405 - Contemporary Anthropological Theory (3 credits)

ANT 420 - Applied Anthropology (3 credits)

ANT 421 - Anthropology of Social Movements (3 credits)

ANT 430 - Issues in Contemporary Anthropology (3 credits)

ANT 431 - Historical Perspectives in Anthropology (3 credits)

ANT 490 - Practicum: Career-Service (1 to 9 credits)

ANT 495 - Practicing Anthropology (Capstone) (3 credits)

ANT 498 - Honors Research in Anthropology (3 credits)

ANT 499 - Independent Study and Research (1 to 4 credits)

# **Applied Anthropology, Undergraduate Certificate**

## **Requirements**

A certificate in applied anthropology is a strong curricular addition to the degrees offered at GVSU. This 15-credit-hour certificate in applied anthropology provides students at Grand Valley with a foundational knowledge of applied anthropology, its principles, and actual experience through an internship. This certificate can be completed in three semesters (winter, summer, fall), if all prerequisites were completed previously.

A certificate in applied anthropology is neither a major nor a minor; it is a focused investigation into an area of cultural resource management, medical anthropology, development, or conservation. Anthropology accepts applications for the certificate in applied anthropology on October 15 and March 15 of each year.

## **Core Courses**

ANT 400 - Ethnographic Methods (3 credits)

ANT 420 - Applied Anthropology (3 credits)

ANT 490 - Practicum: Career-Service (1 to 9 credits)

## **Additional Course**

Select one of the following courses:

ACC 408 - Governmental and Not-for-Profit Accounting (3 credits)

ANT 421 - Anthropology of Social Movements (3 credits)

ANT 430 - Issues in Contemporary Anthropology (3 credits)

ANT 431 - Historical Perspectives in Anthropology (3 credits)

BUS 301 - International Business and Culture (3 credits)

ECO 343 - Health Economics (3 credits)

ECO 345 - Environmental and Resource Economics (3 credits)

ECO 349 - Emerging Markets Issues (3 credits)

ECO 365 - Comparative Economic Systems (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 369 - International Economic Issues (3 credits)

ENS 401 - Environmental Problem Solving (3 credits)

GPY 335 - Globalization and Development (3 credits)

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

GPY 363 - World Forests and Their Use (3 credits)

AHS 330 - Health Care: A Global Perspective (3 credits)

AHS 352 - Introduction to Holistic Health Care (3 credits)

MGT 303 - International Business and Culture (3 credits)

NRM 320 - Introduction to Resource Systems (3 credits)

PLS 301 - Poverty, Inequality, and U.S. Public Policy (3 credits)

PLS 302 - Women, Politics, and Public Policy (3 credits)

PLS 304 - Political Parties and Interest Groups (3 credits)

PLS 310/PNH 310 - Politics and Health Policy (3 credits)

PLS 313 - International Organization (3 credits)

PLS 316 - Human Rights in International Politics (3 credits)

PLS 327 - Politics of Developing Countries (3 credits)

PSY 362 - Environmental Psychology (3 credits)

PSY 367 - Health Psychology (3 credits)

PNH 335 - Grant Writing (3 credits)

PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)

PNH 372 - International and Comparative Administration (3 credits)

WGS 335 - Women, Health and Environment (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# **Bachelor of Arts or Bachelor of Science in Anthropology**

## **Requirements**

The wide scope and holistic nature of anthropology mean that students should have opportunities to experience three kinds of coursework: (1) courses concerned with the discipline; (2) courses specializing in a subdiscipline of anthropology; and (3) courses in disciplines related to anthropology. Students majoring in anthropology may earn either a B.A. or a B.S. degree.

Majors must complete at least 39 to 41 hours in the following:

### **Core Courses**

ANT 204 - Peoples and Cultures of the World (3 credits)

ANT 206 - Human Origins (3 credits)

ANT 210 - History of Anthropological Theory (3 credits)

ANT 215 - Origins of Civilization (3 credits)

ANT 405 - Contemporary Anthropological Theory (3 credits)

ANT 495 - Practicing Anthropology (Capstone) (3 credits)

**AND** one of the following research methods courses:

ANT 305 - Methods in Biological Anthropology (3 credits)

ANT 317 - Advanced Cross-cultural Linguistics (3 credits)

ANT 400 - Ethnographic Methods (3 credits)

ARC 400 - Archaeological Methods and Research Design (3 credits)

### **B.A. and B.S. Degree Requirements**

#### **Bachelor of Arts (B.A.) Degree**

Third-semester proficiency in a foreign language.

Select one course from the following (may not be used as an elective):

ANT 315 - Comparative Religions (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ANT 345 - Perspectives on Globalization (3 credits)

ANT 370 - Cross-cultural Perspectives on Gender (3 credits)

### **Bachelor of Science (B.S.) Degree**

STA 215 - Introductory Applied Statistics (3 credits)

**AND** one year of science courses from the following pairs:

BIO 120 - General Biology I (4 credits) **AND** BIO 121 - General Biology II (4 credits)

CHM 115 - Principles of Chemistry I (4 credits) **AND** CHM 116 - Principles of Chemistry II (5 credits)

GEO 111 - Exploring the Earth (4 credits) **AND** GEO 112 - Earth History (4 credits)

GPY 200 - Computer Cartography (3 credits) **AND** GPY 307 - Introduction to Geographic Information Systems (3 credits)

NRM 140 - The Climatic Factor (4 credits) **AND** NRM 150 - Introduction to Natural Resources (3 credits)

PHY 220 - General Physics I (5 credits) **AND** PHY 221 - General Physics II (5 credits)

Select one course from the following (may not be used as an elective):

ANT 312 - Human Osteology (4 credits)

ANT 313 - Primate Behavior and Ecology (3 credits)

ANT 314 - Bioarchaeology (3 credits)

### **Required for Both the B.A. and B.S. Degrees**

Choose one of the following:

ANT 207 - Language and Culture (3 credits)

ANT 220 - Introduction to Archaeology (4 credits)

Choose one of the following practical and/or research experiences:

ANT 307 - Field Techniques and Laboratory Methods in Anthropology (1 to 9 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ANT 308 - Field Experience Abroad (1 to 6 credits)

ANT 490 - Practicum: Career-Service (1 to 9 credits)

### **Practical and Research Experiences**

No more than six hours of ANT 307, ANT 308, and ANT 490 combined may count toward the major, though students are encouraged to acquire as many practical experience credits as possible. Field experiences can be obtained in any of the four subdisciplines, or students can arrange a practicum/internship in a specific field setting of their interest. Students are strongly encouraged to consult with their advisors at an early point to begin discussing their choice of field experience. Majors are strongly encouraged to complete courses in related cognate areas, to complete an internship, and to participate in career planning events.

A major in anthropology can acquire additional experience in applied, ecological, economic, medical, or urban anthropology, ethnohistory, or a regional emphasis (e.g., Latin America, Middle East, Africa, Great Lakes archaeology). This can be arranged through the advising process, independent study courses (ANT 399 and ANT 499), a practicum (ANT 490) or Honors Research (ANT 498). No more than six hours of ANT 399, ANT 498, and ANT 499 combined may count toward the major.

### **Electives**

ANT 305 - Methods in Biological Anthropology (3 credits)

ANT 311 - Native Peoples of North America (3 credits)

ANT 312 - Human Osteology (4 credits)

ANT 313 - Primate Behavior and Ecology (3 credits)

ANT 314 - Bioarchaeology (3 credits)

ANT 315 - Comparative Religions (3 credits)

ANT 317 - Advanced Cross-cultural Linguistics (3 credits)

ANT 320 - Culture and Disease (3 credits)

ANT 325 - Archaeology of North America (3 credits)

ANT 330 - Anthropology of Selected World Areas (3 credits)

ANT 340 - Culture and Environment (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ANT 345 - Perspectives on Globalization (3 credits)

ANT 350 - Archaeology of Mid-East (3 credits)

ANT 370 - Cross-cultural Perspectives on Gender (3 credits)

ANT 400 - Ethnographic Methods (3 credits)

ANT 420 - Applied Anthropology (3 credits)

ANT 421 - Anthropology of Social Movements (3 credits)

ANT 430 - Issues in Contemporary Anthropology (3 credits)

ANT 431 - Historical Perspectives in Anthropology (3 credits)

Note: Repeated ANT 380s, ANT 330, and ANT 430s may meet elective requirements. Consult an anthropology faculty advisor. ANT 420 and ANT 421 can be used to meet elective requirements for the major, but not both the major and certificate in applied anthropology. If ANT 305, ANT 317, or ANT 400 are taken to meet the research methods requirement, the course cannot also be used to meet an elective requirement, although a second research methods course can be taken to meet the elective requirement.

## **Suggested Order of Coursework for a Major in Anthropology (B.A.)**

### **Year One**

Electives/general education

ANT 204 - Peoples and Cultures of the World (3 credits)

ANT 215 - Origins of Civilization (3 credits)

Electives/general education

ANT 206 - Human Origins (3 credits)

ANT 207 - Language and Culture (3 credits) **OR** ANT 220 - Introduction to Archaeology (4 credits)

### **Year Two**

First semester language

Electives/general education

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ANT 210 - History of Anthropological Theory (3 credits)

Second semester language

Electives/general education

ANT elective requirement

### **Year Three**

Third semester language

Electives/general education

ANT 305 - Methods in Biological Anthropology (3 credits) **OR** ANT 317 - Advanced Cross-cultural Linguistics (3 credits) **OR** ANT 400 - Ethnographic Methods (3 credits) **OR** ARC 400 - Archaeological Methods and Research Design (3 credits)

Electives/general education

ANT elective requirement

ANT 315 - Comparative Religions (3 credits) **OR** ANT 345 - Perspectives on Globalization (3 credits) **OR** ANT 370 - Cross-cultural Perspectives on Gender (3 credits)

### **Year Four**

Spring/Summer Semester:

ANT 307 - Field Techniques and Laboratory Methods in Anthropology (1 to 9 credits) **OR** ANT 308 - Field Experience Abroad (1 to 6 credits) **OR** ANT 490 - Practicum: Career-Service (1 to 9 credits)

Fall Semester:

ANT 405 - Contemporary Anthropological Theory (3 credits)

Winter Semester:

ANT 495 - Practicing Anthropology (Capstone) (3 credits)

### **Suggested Order of Coursework for a Major in Anthropology (B.S.)**

#### **Year One**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Electives/general education

Winter Semester:

ANT 495 - Practicing Anthropology (Capstone) (3 credits)

# **Applied Computer Science**

For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing section of this catalog.

## **Degrees Offered**

The Master of Science degree in applied computer science is offered in the School of Computing. It provides a solid foundation in computer information systems for working professionals and those with prior experience in computer science and information systems.

The primary purpose of the program is to make educational opportunities available to the professional computing community in West Michigan. It is intended for computer professionals who are already working in industry. Because the Master of Science degree in computer information systems is offered for the working professional, the courses are scheduled in a one night per week (6 to 9 p.m.) format and located downtown at the Pew Grand Rapids Campus in Kennedy Hall.

The program is comprised of 11 three-credit courses (33 credit hours), consisting of two content areas (nine credits each), electives, and either a Capstone course, a project course, or a thesis option. The content areas available are biomedical informatics, database management, distributed computing, information systems management, software design and development, and software engineering. The last two courses in the content area must be completed at Grand Valley State University.

## **Mission**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The mission of the School of Computing is to provide the GVSU student community with the intellectual foundations and experiences necessary to use information technology effectively in their chosen careers.

To enable students to attain this goal, computing faculty members have two primary responsibilities. First, a solid conceptual foundation is required for a career in information technology. Second, direct, experiential knowledge of technology is necessary to be a productive user/producer of information technology.

To achieve these goals, we

- work continuously to keep our curriculum relevant to our mission;

- ensure that work-relevant experience is part of every class;

- establish and nurture industrial contacts;

- establish an integrated, supported co-op experience for computing majors; and

- provide all students, regardless of their major interests, fundamental knowledge of computers and information processing.

## **Admission**

In addition to the requirements listed in the Graduate Admission section, candidates must satisfy all of the following:

- U.S. students with a GPA below 3.0 from all of their undergraduate coursework must contact the School of Computing for advising.

- Submit acceptable recommendations from at least two individuals attesting to the likelihood of the candidate's successful completion of the program.

- Submit a resume detailing work experiences and accomplishments.

- Submit a link to a video (no more than three minutes) where you briefly describe your career goals, background experiences, and previous projects, including an explanation of how this program will help you achieve educational and professional objectives. Please be sure the video is available to people without needing to log in, and for at least a 30 day period after submission of your application.

- After admission, students will take a placement test to determine prior computing knowledge. The results of the placement test will help in the creation of a plan of study.

## **Minimum Number of Hours for Graduation**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Eleven three-credit courses (33 credit hours) comprise the Master of Science in applied computer science degree.

### **Program Location**

Courses are normally scheduled in the evenings from 6 to 9 p.m. downtown at the Pew Grand Rapids Campus in Eberhard Center.

## **Badge in Biomedical Informatics**

The School of Computing's biomedical informatics badge (not a degree or certificate) is designed to prepare students to accomplish the following tasks:

- Evaluate the requirements for biomedical information systems.

- Engage in project management practices for biomedical decision-making.

- Describe the legal and ethical considerations for biomedical informatics.

- Utilize computational methods for knowledge discovery in bioinformatics and medicine.

- Create visualizations for complex data sets.

- Design parallel and high-performance computing algorithms.

- Develop machine learning algorithms.

### **Program Format**

The biomedical informatics badge is comprised of three courses (nine credits).

### **Admission**

Completion of a bachelor's degree and evidence of object-oriented programming skill are required for admission.

### **Program Location**

The biomedical informatics badge is offered on the Pew Grand Rapids Campus in downtown Grand Rapids, MI.

## **Requirements for the Biomedical Informatics Badge**

- CIS 661 - Introduction to Health and Bioinformatics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 665 - Clinical Information Systems (3 credits)

**AND** one of the following:

CIS 635 - Knowledge Discovery and Data Mining (3 credits)

CIS 660 - Information Management and Science (3 credits)

CIS 671 - Information Visualization (3 credits)

## **Badge in Database Management**

The School of Computing's database management badge (not a degree or certificate) is designed to prepare students to accomplish tasks such as:

Creating relational and nonrelational databases.

Utilizing computational methods for knowledge discovery in bioinformatics and medicine.

Describing challenges posed by clinical information systems.

Creating visualizations for complex data sets.

Tuning the performance of relational database management systems.

Utilizing emerging nonrelational databases such as object-oriented and XML databases.

### **Admission**

Completion of a bachelor's degree and evidence of object-oriented programming skill are required for admission.

### **Program Location**

The database management badge is offered on the Pew Grand Rapids Campus in downtown Grand Rapids, MI.

### **Requirements**

The database management badge is comprised of three courses (nine credits).

Students must take:

CIS 673 - Principles of Database Design (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**AND** two of the following:

CIS 635 - Knowledge Discovery and Data Mining (3 credits)

CIS 660 - Information Management and Science (3 credits)

CIS 665 - Clinical Information Systems (3 credits)

CIS 671 - Information Visualization (3 credits)

CIS 676 - Database Management Systems (3 credits)

CIS 679 - Special Topics in Database Management (3 credits)

## **Badge in Distributed Computing**

The School of Computing's distributed computing badge (not a degree or certificate) is designed to prepare students to accomplish the following:

Describe how TCP/IP enable the Internet to function.

Set up network firewalls.

Evaluate different virtualization architectures.

Understand issues posed by distributed systems such as clock synchronization, naming, and consistency.

Write a Web-based application.

## **Admission**

Completion of a bachelor's degree and evidence of object-oriented programming skill are required for admission.

## **Requirements**

The distributed computing badge is comprised of three courses (nine credits), including:

CIS 654 - Computer Networking (3 credits)

CIS 656 - Distributed Systems (3 credits)

CIS 658 - Web Architectures (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Program Location**

The distributed computing badge is offered on the Pew Grand Rapids Campus in downtown Grand Rapids, MI.

## **Badge in Information Systems Management**

The School of Computing's information systems management badge (not a degree or certificate) is designed to prepare students to accomplish tasks such as:

- Analyze the business needs that drive the need for IS solutions

- Compare and contrast stakeholder roles in IS development

- Explain a typical IS project life cycle

- Evaluate and choose appropriate system development life cycles and methodologies

- Explain the interaction between the process groups, knowledge areas, and processes

- Adapt basic tools, templates, and techniques to the planning, organization, and management of an information systems project

- Apply the principles defined in the Agile Manifesto to IS project management

- Discriminate between Agile and traditional approaches to IS project management

## **Program Format**

The information systems management badge is comprised of three courses (9 credits).

## **Admission**

Completion of a bachelor's degree, and evidence of object-oriented programming skill are required for admission.

## **Program Location**

The information systems management badge is offered on the Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

## **Requirements**

The information systems management badge consists of three courses (9 credits), including:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 641 - Systems Analysis and Design (3 credits)

CIS 642 - IS Project Management (3 credits)

CIS 643 - Information Systems Policy and Strategy (3 credits)

## **Badge in Software Design and Development**

The School of Computing's software design and development badge (not a degree or certificate) is designed to prepare students to accomplish tasks such as:

Engage in modern software engineering processes.

Analyze the requirements for a software project.

Design a solution for a software project.

Develop a mobile application.

Create a relational database and learn how applications use databases for persistent storage.

The software design and development badge is comprised of three courses (nine credits).

### **Admission**

Completion of a bachelor's degree and evidence of object-oriented programming skills are required for admission.

### **Program Location**

The software design and development badge is offered at Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

### **Requirements for the Software Design and Development Badge**

CIS 611 - Introduction to Software Engineering (3 credits)

CIS 641 - Systems Analysis and Design (3 credits)

**AND** choose one of the following:

CIS 657 - Mobile Application Development (3 credits)

CIS 673 - Principles of Database Design (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Badge in Software Engineering**

The School of Computing's software engineering badge (not a degree or certificate) is designed to prepare students to accomplish tasks such as:

Engaging in modern software engineering processes.

Analyzing the requirements for a software project.

Designing a test plan for a software project.

Applying software security principles to reduce cybersecurity threats.

### **Program Location**

The software engineering badge is offered on Pew Grand Rapids Campus in downtown Grand Rapids, MI.

### **Admission**

Completion of a bachelor's degree, and evidence of object-oriented programming skill is required for admission.

### **Requirements**

The software engineering badge is comprised of three courses (nine credits).

Students must choose three of the following:

CIS 611 - Introduction to Software Engineering (3 credits)

CIS 612 - Requirements Specification (3 credits)

CIS 613 - Software Testing (3 credits)

CIS 618 - Secure Software Engineering (3 credits)

## **Badge in Web and Mobile Computing**

The School of Computing's Web and mobile computing badge (not a degree or certificate) is designed to prepare students in the following areas:

Design a stand-alone native mobile application on a modern mobile platform.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Develop a Web-based application using a modern Web stack.

Explain the primary challenges and tradeoffs in designing distributed systems.

Specify the requirements for a database application and then implement it using EER modeling, schema design and normalization, SQL/DDDL, SQL/DML, stored procedures, and database triggers.

Describe details of data communications and computer networks including TCP/IP protocol stack.

Analyze security threats to computer networks and know how to protect against threats.

## **Admission**

Completion of a bachelor's degree, and evidence of object-oriented programming skills are required for admission.

## **Program Location**

The Web and mobile computing badge is offered on the Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

## **Requirements**

The Web and mobile computing badge consists of three courses (9 credits), including:

CIS 657 - Mobile Application Development (3 credits)

CIS 658 - Web Architectures (3 credits)

# **Master of Science in Applied Computer Science**

## **Requirements for the M.S. in Applied Computer Science**

All candidates for the degree must complete a total of 33 credits, including the following:

Core courses (9 credits)

Concentration course (9 credits)

Electives (6 or 12 credits)

Capstone (3 or 6 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Core Courses

Students are required to complete one course in three of the following areas for a total of nine credits:

### 1. Data Engineering

CIS 660 - Information Management and Science (3 credits)

CIS 673 - Principles of Database Design (3 credits)

### 2. Management of Systems Development

CIS 641 - Systems Analysis and Design (3 credits)

CIS 642 - IS Project Management (3 credits)

### 3. Software Engineering

CIS 518 - Secure Software Engineering (3 credits)

CIS 612 - Requirements Specification (3 credits)

CIS 613 - Software Testing (3 credits)

CIS 622 - Software Design Methodologies (3 credits)

### 4. Networking

CIS 654 - Computer Networking (3 credits)

CIS 656 - Distributed Systems (3 credits)

## Concentrations

All candidates are required to complete one of the following concentrations:

### 1. Biomedical Informatics

CIS 661 - Introduction to Health and Bioinformatics (3 credits)

**AND** two of the following:

CIS 635 - Knowledge Discovery and Data Mining (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 660 - Information Management and Science (3 credits)

CIS 665 - Clinical Information Systems (3 credits)

CIS 671 - Information Visualization (3 credits)

CIS 677 - High-performance Computing (3 credits)

CIS 678 - Machine Learning (3 credits)

## 2. Cybersecurity

CIS 615 - Information Security Principles (3 credits)

**AND** two of the following:

CIS 518 - Secure Software Engineering (3 credits)

CIS 555 - Applied Cryptography (3 credits)

CIS 616 - Data Security and Privacy (3 credits)

CIS 617 - Digital Forensics and Investigations (3 credits)

CIS 619 - Data Analytics for Cybersecurity (3 credits)

## 3. Database Management

CIS 673 - Principles of Database Design (3 credits)

**AND** two of the following:

CIS 635 - Knowledge Discovery and Data Mining (3 credits)

CIS 660 - Information Management and Science (3 credits)

CIS 665 - Clinical Information Systems (3 credits)

CIS 671 - Information Visualization (3 credits)

CIS 676 - Database Management Systems (3 credits)

CIS 679 - Special Topics in Database Management (3 credits)

## 4. Distributed Computing

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 654 - Computer Networking (3 credits)

CIS 656 - Distributed Systems (3 credits)

CIS 658 - Web Architectures (3 credits)

#### 5. Information Systems Management

CIS 641 - Systems Analysis and Design (3 credits)

CIS 642 - IS Project Management (3 credits)

CIS 643 - Information Systems Policy and Strategy (3 credits)

#### 6. Software Design and Development

CIS 611 - Introduction to Software Engineering (3 credits)

CIS 641 - Systems Analysis and Design (3 credits)

**AND** elective (choose one):

CIS 657 - Mobile Application Development (3 credits)

CIS 673 - Principles of Database Design (3 credits)

#### 7. Software Engineering

Choose three of the following:

CIS 611 - Introduction to Software Engineering (3 credits)

CIS 612 - Requirements Specification (3 credits)

CIS 613 - Software Testing (3 credits)

CIS 518 - Secure Software Engineering (3 credits)

#### 8. Web and Mobile Computing

CIS 657 - Mobile Application Development (3 credits)

CIS 658 - Web Architectures (3 credits)

**AND** one of the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 654 - Computer Networking (3 credits)

CIS 656 - Distributed Systems (3 credits)

CIS 673 - Principles of Database Design (3 credits)

### **Additional Elective Courses**

Any 500- or 600-level CIS course can be used as an elective toward the M.S./ACS degree. Current electives include:

CIS 623 - Graphical User Interface Design (3 credits)

CIS 672 - Computer Systems Architecture (3 credits)

CIS 675 - Compiler Construction (3 credits)

### **Capstone**

Each candidate must complete either the Capstone course, the project course, or the thesis sequence. Please contact the graduate program director one semester prior to starting any of these.

CIS 690 - Thesis Research Preparation (3 credits)

CIS 692 - Master's Capstone (3 credits)

CIS 693 - Master's Project (3 credits)

CIS 695 - Master's Thesis (3 credits)

## **Applied Food and Nutrition**

**Website:** [gvsu.edu/ahs](http://gvsu.edu/ahs)

### **Faculty**

Libby MacQuillan, PhD, RDN, CHSE, Program Director

Jody Vogelzang, PhD, RDN, FAND, CHES

Kris Baird, MS, RDN, FAND, CNSC

Jennifer Ford, MS, RDN, CSO

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

This undergraduate program in applied food and nutrition (AFN) has been developed to meet the accreditation requirements in preparing students to qualify as nutrition dietetic technicians, registered (NDTR). The program provides classes geared toward employment in community, food service, or clinical food and nutrition areas, and includes supervised practice rotations in food service, community and clinical nutrition. The use of simulation with standard patients and manikins is an integral part of preparing graduates for employment in many diverse organizations.

NDTRs are employed in a variety of health care and nutrition settings, with most working in acute care hospitals, long term care sites, and in community and public health organizations. NDTRs are equipped to educate, monitor and advise clients and groups participating in federally funded nutrition programs to promote well-being and improved quality of life through eating habits and lifestyle behaviors. They are valued for their scientific understanding of nutrition and dietetics and for their empathetic approach when interacting with clients. NDTRs work in a complementary role to the registered dietitian nutritionist (RDN) and treat less acute, less complex nutrition-related diseases and disorders compared to the scope of practice of the RDN.

The B.S. in applied food and nutrition will use problem-based learning, meaningful and sustainable group projects, and multiple opportunities to demonstrate critical thinking as the students emerge as highly trained and sought after nutrition and dietetic professionals.

**Accreditation:** The AFN program is pursuing accreditation with the Accreditation Council for Education in Nutrition and Dietetics (ACEND) as a future model bachelor's degree program. Designed to meet the newest standards for accredited bachelor's degree programs, GVSU's AFN program has applied to be designated as a demonstration program with ACEND.

**Academic Advising:** Students are strongly encouraged to meet periodically with their academic advisor to determine progress toward and eligibility for admission into the Applied Food and Nutrition program. Students are assigned to a College of Health Professions Student Services academic advisor prior to program admission: [gvsu.edu/chpss](http://gvsu.edu/chpss). Upon admission into the program students are assigned to an AFN faculty advisor.

## **Application Process for Applied Food and Nutrition**

### **Phase I - Prerequisites**

Phase I consists of having the following prerequisites complete or currently enrolled at the time of application. The prerequisites are:

Overall and science GPA of 2.7 or above

BIO 120

BMS 105

BMS 250 and BMS 251

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

CHM 231

Completion of 45 hours

CHM 232 must be completed with a C+ or better prior to the start of the 400-level AFN courses.

## **Phase II - Application Requirements**

Applicants must submit all materials to the director of the applied food and nutrition program. The application consists of the following components, all of which must be completed and submitted by February 1, prior to the intended fall (August) entry. Late applications will be considered assuming requirements are met and space is available in the program. All forms are available on the program website:

GVSU Undergraduate Application - students must be admitted and eligible to start classes in the year of application

Completed AFN application

Resume

Unofficial transcripts from all colleges/universities attended

One to two page statement of professional philosophy: Why have you chosen AFN as a profession?

Three completed recommendations using GVSU's online reference forms.

Completed applications will be evaluated on a continuous basis beginning February 1 each year until the program's space is filled. After evaluation of the above application documents, offers of interviews with program faculty will be made. Completion of an interview is required for program admission.

## **Phase III - Official Admission Notification**

Upon successful completion of Phase I and II, applicants will be notified of admission into the program and will be asked to set up an advising appointment with a faculty member.

# **Applied Statistics**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The Master of Science in applied statistics is one of five professional science master (PSM) degree programs at Grand Valley State University. All five programs emphasize teamwork, problem-solving, communication, scientific knowledge, and technical skills. Each program is designed to integrate university coursework with business/industrial internships to better prepare students for a variety of career pathways in their chosen field. The overall objectives and interactions of these programs are described in the PSM section of the Grand Valley State University Undergraduate and Graduate Catalog.

The Master of Science in applied statistics is a practical hands-on program that provides graduates with a comprehensive set of applied statistical techniques. Upon graduation, graduates are career ready and immediately contribute as applied statisticians. The diverse comprehensive statistics curriculum is data oriented with an emphasis on the application of statistical software. The required internship with community partners provides valuable professional industry experience to complement the curriculum. Potential students should discuss their statistical career interests with the graduate director for specific advising regarding the choice of the applied statistics or biostatistics PSM program.

### **Admission to Master of Science in Applied Statistics Program**

Admission to the PSM in applied statistics will be based on a set of application materials. An undergraduate major or minor is not required but strong performance in several undergraduate courses will strengthen the possibility of a successful application. Prerequisite material may be suggested prior to program acceptance. Relevant work experience is also considered in the evaluation of an application. In conjunction with satisfying general graduate GVSU admission policies, the following requirements must be satisfied or included as part of the application:

Grade point average of 3.0 on a 4.0 scale from all undergraduate coursework or a satisfactory score on the GRE

Resume detailing work experiences and accomplishments

Personal statement of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives

Letters of recommendations from at least two individuals who are in positions to attest to the applicant's successful completion of the program

## **Master of Science in Applied Statistics**

Overall requirements for the M.S. in applied statistics (PSM) will consist of 36 credits, with a minimum cumulative GPA of 3.0. Consistent with Grand Valley policy, all courses must be completed within eight consecutive years from entry into the first graduate course. Please consult the graduate school catalog for other general GVSU policies regarding graduate program requirements. The specific course requirements are as follows:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Seven directed courses in statistics (22 credits)

STA 610 - Applied Statistics for Health Professions (3 credits)

STA 616 - Statistical Programming (3 credits)

STA 621 - Design of Experiments and Regression (4 credits)

STA 623 - Categorical Data Analysis (3 credits)

STA 630 - Topics in Advanced Statistical Applications (3 credits)

Two courses from the following list of three courses:

STA 518 - Statistical Computing and Graphics with R (3 credits)

STA 526 - Multivariate Data Analysis (3 credits)

STA 628 - Survival Analysis (3 credits)

Two courses in professional science (5 credits)

PSM 650 - Ethics and Professionalism in Applied Science (3 credits)

PSM 662 - Seminar in Professional Science Practice (2 credits)

PSM 691 - Internship (1 to 9 credits) (minimum of 4 credits)

Electives (5 credits minimum) are selected, with advisor approval, from graduate courses that are appropriate to each student's interests and goals. Examples include:

BMS 523 - Epidemiology (3 credits)

CIS 665 - Clinical Information Systems (3 credits)

CIS 677 - High-performance Computing (3 credits)

STA 625 - Clinical Trials (2 credits)

## Arabic

Arabic is spoken in the area stretching from Morocco in the west to Oman in the east, from Syria in the north to Sudan and Yemen in the south. The Arab world is a region inhabited by more than 300 million people. However, Arabic speakers are also found outside this region with large

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

populations in the United States, across Europe, West Africa, and Latin America. Because of its religious significance to Islam, Arabic is widely used among Muslims all over the world. In fact, Michigan is home to the nation's largest Arab American community with a diverse mix of Christians and Muslims.

In the tradition of education in modern languages and literatures at Grand Valley, courses in this minor teach different ways to reach linguistic proficiency and cultural competence in Arabic. The ability to listen, speak, write, and read in Arabic expands the range of students' communication skills and extends the breadth of students' world views.

The minor in Arabic concentrates on the two main vernaculars of Arabic, the standard language (Modern Standard Arabic) and some regional spoken varieties. However, proficiency can only be reached when students are competent in the culture as well. In response to this call, the Arabic minor offers coursework that specifically targets cultural aspects and encourages students to immerse themselves in Arabic culture. GVSU currently offers a faculty-led study abroad program in Oman and Dubai, where students can study Arabic language and culture for five weeks.

Arabic minor students are encouraged to participate in the Model Arab League simulation held annually in February and in field trips to points of cultural interest locally and in the Detroit area.

## **Arabic Minor**

### **Requirements**

Students minoring in Arabic must complete a minimum of 20 credit hours of coursework. This includes eight credits of core courses and 12 credits of electives. Students have the option to fulfill three credits of electives through the Oman/United Arab Emirates study abroad program (which includes taking either ARA 285 or ARA 386).

### **Core Courses**

ARA 201 - Intermediate Arabic I: Language and Culture (4 credits)

ARA 202 - Intermediate Arabic II: Language and Culture (4 credits)

### **Electives**

Choose four:

ARA 285 - Colloquial and Media Arabic (3 credits)

ARA 301 - Arabic Conversation (3 credits)

ARA 302 - Arabic Composition (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ARA 310 - Media Arabic (3 credits)

ARA 312 - Contemporary Arabic Culture (3 credits)

ARA 380 - Special Topics in Arabic (1 to 4 credits)

ARA 386 - Arabic through Culture and Customs (3 credits)

ARA 480 - Special Topics in Arabic (1 to 4 credits)

## Archaeology

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

Archaeology is the study of the scope and diversity of human cultural experience through analysis of material culture, from the earliest appearance of humankind to the recent past. Students gain insights into their own society and cultural heritage through comparisons with ancient cultures. The archaeology minor at Grand Valley is a collaborative interdepartmental program and is open to students from any academic major.

The archaeology program encourages student participation with local and national groups such as the Michigan Archaeological Society and Archaeological Institute of America, both of which have local chapters that welcome student members. Students are also encouraged to take part in faculty and student-directed research projects.

Opportunities for participation in archaeological field projects, both local and international, are numerous. Scholarships and other forms of financial aid may be available for some programs. Students interested in archaeological fieldwork should consult program advisors for a list of approved field programs that fulfill field research requirements for the minor.

Anthropology Department ([gvsu.edu/anthropology](http://gvsu.edu/anthropology))

Classics Department ([gvsu.edu/classics](http://gvsu.edu/classics))

History Department ([gvsu.edu/history](http://gvsu.edu/history))

## Archaeology Minor

### Requirements

Students pursuing the minor in archaeology will complete seven courses (minimum 22 credits) distributed as follows:

Three core courses (10 hours total)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Two regional issues courses (six hours total)

One cross-disciplinary elective (three, four, or five hours depending on chosen course)

One field research practicum (three hours minimum)

### **Core Courses**

The following three courses are required:

ANT 220 - Introduction to Archaeology (4 credits)

ARC 400 - Archaeological Methods and Research Design (3 credits)

ARC 401 - Archaeological Theory (3 credits)

### **Regional Issues Courses**

Select two:

ANT 325 - Archaeology of North America (3 credits)

ANT 350 - Archaeology of Mid-East (3 credits)

CLA 350 - Issues in Classical Archaeology (3 credits)

### **Cross-disciplinary Electives**

Select one:

ARA 202 - Intermediate Arabic II: Language and Culture (4 credits) or other modern language at intermediate level.

ART 420 - Asian Art (3 credits)

BIO 311 - Who's Running Your Life: Genes, Evolution and Behavior (3 credits) **OR** BIO 452 - Human Evolution (3 credits)

CHM 115 - Principles of Chemistry I (4 credits) for non-CHM, BIO, or GEO majors.

GPY 307 - Introduction to Geographic Information Systems (3 credits)

GEO 112 - Earth History (4 credits) **OR** GEO 312 - Sedimentation-Stratigraphy (4 credits) **OR** GEO 320 - Geomorphology (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

LAT 350 - Latin Prose (3 credits) **OR** other ancient language at 300-level.

### **Field Practicum**

All students must complete a minimum of three credits of field research, under the direction of the archaeologists on the CLAS faculty or in another preapproved program.

ANT 307 - Field Techniques and Laboratory Methods in Anthropology (1 to 9 credits) **OR** CLA 499 - Independent Study and Research (1 to 3 credits)  
**OR** HST 490 - History Internship (1 to 3 credits) **OR** GEO 315 - Geological Field Methods (3 credits) **OR** equivalent course

## **Athletic Training**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/athletictraining](http://gvsu.edu/athletictraining)

### **Accreditation**

The athletic training program holds full accreditation status from the Commission on Accreditation of Athletic Training Education (CAATE).

## **Master of Athletic Training**

Athletic trainers (ATs) are highly qualified, multiskilled health care professionals who collaborate with physicians to provide preventative services, emergency care, clinical diagnosis, therapeutic intervention, and rehabilitation of injuries and medical conditions.

Professional training education in athletic training uses a competency-based approach in both the classroom and clinical settings. Using a medical-based education model, athletic training students are educated to provide comprehensive patient care in five domains of clinical practice: prevention; clinical evaluation and diagnosis; immediate and emergency care; treatment and rehabilitation; and organization and professional health and well-being. The educational requirements for CAATE-accredited athletic training education programs include acquisition of knowledge, skills, and clinical abilities along with a broad scope of foundational behaviors of professional practice. Students complete an extensive clinical learning requirement that is embodied in the clinical integration proficiencies (professional, practice-oriented outcomes) as identified in the athletic training education competencies.

This program is a professional program in athletic training that will have two routes of entry:

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students may earn the MAT through admission directly to the MAT program. This route would be for students who have earned a bachelor's degree and meet all the preadmissions/admissions requirements. These students would apply during the fall semester of the year before they plan on beginning the program. If accepted, they would start during the fall semester and have two full years to complete the master's degree.

A student may begin the program at GVSU as a first-year student. Students interested in this program would follow a program that will award a student a B.S. in exercise science with an emphasis in clinical exercise science (CES) after three and a half years and an MAT when completed after five years. These students will meet all the preadmissions/admissions requirements and apply to the MAT program during the fall semester of their third year. If accepted, the student will then start the MAT curriculum the following fall semester and complete the professional program during their fourth and fifth years. These students will have earned the B.S. in CES upon completion of the fall semester of the fourth year.

All students, regardless of their entry point will go through the program as a cohort and will take the same courses in the same sequence. All students will be required to be full-time students to meet the didactic and clinical demands of the program.

## **Requirements**

The degree is comprised of 59 credits.

ATH 506 - Intervention and Referral (2 credits)

ATH 514 - Assessment and Evaluation I (4 credits)

ATH 515 - Assessment and Evaluation II (4 credits)

ATH 521 - Athletic Training Clinical I (3 credits)

ATH 522 - Athletic Training Clinical II (3 credits)

ATH 523 - Methods of Evidence-Based Practice in Athletic Training (3 credits)

ATH 525 - Prehospital Care of the Injured Patient (4 credits)

ATH 530 - General Medical Conditions in Athletic Training (3 credits)

ATH 575 - Therapeutic Interventions I (4 credits)

ATH 607 - Pharmacology in Athletic Training (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ATH 626 - Athletic Training Clinical III (4 credits)

ATH 628 - Athletic Training Clinical IV (4 credits)

ATH 675 - Therapeutic Interventions II (4 credits)

ATH 685 - Advanced Techniques in Athletic Training (2 credits)

ATH 689 - Professional Topics in Athletic Training (3 credits)

ATH 693 - Project in Athletic Training (1 to 3 credits) Requires four credits for degree.

IPE 507 - Integrated Team Health Care (2 credits)

STA 610 - Applied Statistics for Health Professions (3 credits)

## **Suggested Order of Coursework**

### **Year One**

ATH 506 - Intervention and Referral (2 credits)

ATH 514 - Assessment and Evaluation I (4 credits)

ATH 515 - Assessment and Evaluation II (4 credits)

ATH 521 - Athletic Training Clinical I (3 credits)

ATH 522 - Athletic Training Clinical II (3 credits)

ATH 523 - Methods of Evidence-Based Practice in Athletic Training (3 credits)

ATH 525 - Prehospital Care of the Injured Patient (4 credits)

ATH 530 - General Medical Conditions in Athletic Training (3 credits)

ATH 575 - Therapeutic Interventions I (4 credits)

IPE 507 - Integrated Team Health Care (2 credits)

STA 610 - Applied Statistics for Health Professions (3 credits)

### **Year Two**

ATH 607 - Pharmacology in Athletic Training (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ATH 626 - Athletic Training Clinical III (4 credits)

ATH 628 - Athletic Training Clinical IV (4 credits)

ATH 675 - Therapeutic Interventions II (4 credits)

ATH 685 - Advanced Techniques in Athletic Training (2 credits)

ATH 689 - Professional Topics in Athletic Training (3 credits)

ATH 693 - Project in Athletic Training (1 to 3 credits)

## Audiology

For additional information about opportunities your college offers, please refer to the College of Health Professions section in this catalog.

**Website:** [gvsu.edu/csd](http://gvsu.edu/csd)

An audiologist is a licensed allied health practitioner focused on the ear and hearing. The entry-level degree to practice as an audiologist is the doctorate. A Doctor of Audiology (Au.D.) is a professional who specializes in diagnosing, managing, and treating hearing- and balance-related disorders, treating patients from birth through adulthood.

### Accreditation

The accrediting body for programs in audiology is the Council for Academic Accreditation in Audiology and Speech-Language Pathology (CAA), which is affiliated with the American Speech-Language-Hearing Association (ASHA). The entry-level for practitioners of audiology is a doctoral degree, and only doctoral-level programs are accredited by CAA. Programs desiring accreditation must first apply for candidacy status, which must be granted prior to enrolling students. Candidacy is a preaccreditation status with the CAA, awarded to developing or emerging programs for a maximum period of five years. The rationale for the candidacy program is that CAA standards include a number of student outcome measures that would be impossible to demonstrate without any students. Applicant programs must be able to demonstrate sufficient resources and commitment on behalf of the institution, and a plan must be in place for complying with all of the standards. During the candidacy period, the program demonstrates that the plan has been implemented and that students are achieving the required outcomes. At that point, a program must apply for full accreditation status.

The profession of audiology is a licensed field of practice that requires completion of a doctoral degree from an accredited institution. It is not possible to become licensed as a new audiologist without the doctoral degree. The Doctor of Audiology degree program at Grand Valley will prepare students to qualify for licensure.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**Minimum Number of Hours in Program: 84**

## **Admission**

**Completion of a bachelor's degree from an accredited institution of higher education.**

Generally, a 3.0 cumulative grade point average is the minimum required for admission. The Graduate School will allow programs to admit students who do not meet this requirement if they are exceptional in other ways (please see number six as follows).

**Prerequisites:** The program is designed as a self-contained program with very few prerequisites. Applicants with a background in communication sciences and disorders (speech and hearing) have an advantage in the program's coursework, but neither the major nor any speech and hearing coursework are required to apply. The program also encourages applicants from diverse majors to apply as they frequently bring perspectives and experiences that enrich the learning of all students. If applicants from other majors wish to take a few leveling courses prior to starting the program, they should contact the program director who can customize some suggestions. All applicants, regardless of major background, must have completed coursework in:

**Basic Sciences** (e.g., biology, chemistry, physics, statistics)

**Basic Science Skills** (e.g., scientific methods, critical thinking)

Students at most institutions will have completed similar courses as part of their bachelor degree programs.

**Professional vitae/resume.**

**Essential Functions:** Applicants must be able to perform all essential functions specified by the program.

**English Proficiency:** Test scores from the TOEFL (Test of English as a Foreign Language), or IELTS (International English Language Testing System), or MELAB (Michigan English Language Assessment Battery), or PTE (Pearson Test of English Academic) for applicants whose native language is not English. The following minimum scores are expected: TOEFL = 80; IELTS = 6.5; MELAB = 77; PTE Academic = 53. Exceptions can be requested but are not usually granted.

**Exceptional Qualifications:** The program is providing students with the opportunity to demonstrate to the faculty why the applicant should be admitted. The Graduate Records Examination (GRE) is not required, but is one of many ways in which an individual with high scores could demonstrate that they are an exceptional candidate. Letters of Reference are not required, but a candidate with particularly strong references could submit letters of recommendation. (Note: CSDCAS requires that all

applicants enter contact information for three references; those individuals can disregard the email request sent by CSDCAS if the applicant chooses not to use references as demonstration of exceptionality.) Candidates who have participated in research, particularly if it resulted in a product (manuscript, paper, poster) could submit this as evidence of exceptionality. Each applicant could use any one or more of those mentioned or anything of their choosing that would demonstrate to the faculty that they are an exceptional candidate for this degree program. In other words, it is the responsibility of the applicant to demonstrate to the program that they should be considered for admission.

**Personal Interview:** Interviews are scheduled for selected finalists upon invitation by the program, not the applicant, after the application deadline and review of applications by the faculty.

## **Doctor of Audiology (Au.D.)**

### **Requirements**

Students admitted into the Doctor of Audiology degree program must complete 84 semester credit hours of didactic and practical coursework spread over nine consecutive semesters (three years).

### **Suggested Order of Coursework**

#### **Semester One**

Fall:

HRG 501 - Anatomy and Physiology of Hearing and Balance (3 credits)

HRG 521 - Audiologic Assessment (3 credits)

HRG 525 - Neurophysiologic Measures I (3 credits)

HRG 541 - Amplification I (3 credits)

HRG 570 - Audiology Fieldwork (1 credit)

Winter:

HRG 504 - Instrumentation and Hearing Science (3 credits)

HRG 526 - Neurophysiologic Measures II (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HRG 542 - Amplification II (3 credits)

HRG 562 - Professional Issues in Audiology (1 credit)

HRG 570 - Audiology Fieldwork (1 credit)

Spring/Summer:

HRG 508 - Psychoacoustics (2 credits)

HRG 527 - Vestibular Assessment and Rehabilitation (3 credits)

HRG 545 - Auditory Habilitation and Rehabilitation (3 credits)

HRG 566 - Evidence-Based Practice in Audiology (1 credit)

HRG 570 - Audiology Fieldwork (1 credit)

## **Semester Two**

Fall:

HRG 623 - Hearing Across the Lifespan (3 credits)

HRG 645 - Cochlear Implants and Tinnitus (3 credits)

HRG 661 - Hearing Conservation (2 credits)

HRG 670 - Audiology Practicum (2 credits)

Winter:

HRG 606 - Auditory Pathophysiology and Heredity (2 credits)

HRG 642 - Educational Audiology and Auditory Processing Disorders (2 credits)

HRG 648 - Mentoring and Counseling in Audiology (2 credits)

HRG 664 - Audiology Practice Management (2 credits)

HRG 670 - Audiology Practicum (2 credits)

Spring/Summer:

HRG 607 - Radiographic Imaging and Pharmacology for Audiology (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HRG 629 - Clinical Decision Making in Audiology (2 credits)

HRG 670 - Audiology Practicum (2 credits)

HRG 690 - Research Preparation in Audiology (3 credits)

### **Semester Three**

Fall:

HRG 760 - Special Topics in Audiology (1 credit)

HRG 770 - Audiology Internship (6 credits)

Winter:

HRG 760 - Special Topics in Audiology (1 credit)

HRG 770 - Audiology Internship (6 credits)

Spring/Summer:

HRG 760 - Special Topics in Audiology (1 credit)

HRG 770 - Audiology Internship (6 credits)

## **Biochemistry**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

The biochemistry program is administered by the Chemistry Department.

**Website:** [gvsu.edu/chem](http://gvsu.edu/chem)

Biochemistry is a fascinating and diverse field that affects almost every area of our lives. The medicines we take and the food we eat are all affected by discoveries made through the study of biochemistry. Increasingly, biochemistry is being applied to other technologies, such as the production of biofuels and material development.

A biochemistry major is excellent preparation for students interested in attending biochemistry graduate school or in obtaining employment in biochemical and biomedical laboratories. This major is also appropriate for students interested in attending professional schools in the health professions, such as medical, dental, pharmacy, or veterinary schools.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The biochemistry program is housed within the Chemistry Department, which also offers a B.S. in chemistry as well as a B.S. in chemistry with an education emphasis for students interested in teaching high school chemistry.

For any degree program in chemistry or biochemistry, it is important to start the proper sequence of chemistry courses as soon as possible. Students who wish to major in biochemistry should meet with their Chemistry Department faculty advisors as soon as possible to plan programs that match their academic interests and career goals.

The Chemistry Department also offers a green chemistry certificate. This option can be added to any major or minor. It shows that students have taken a series of classes where they learn the principles of green chemistry and the production of chemicals and design of chemical processes in a manner that is environmentally sustainable.

The Chemistry Department also offers a chemistry minor. Students from other departments can add a chemistry minor to enhance their knowledge of chemistry and laboratory experience.

### **Accreditation**

The Chemistry Department is approved by the Committee on Professional Training of the American Chemical Society and offers ACS certified degrees in chemistry and biochemistry to qualified graduates.

### **Degrees Offered**

The College of Education and Community Innovation offers an M.Ed. in general education with a concentration in science. This program is called target inquiry. Contact the chemistry office for more information.

### **Participating Programs**

The College of Education offers a M.Ed. in general education with a concentration in science. This program is called Target Inquiry. Contact the chemistry office for more information.

The dual geology-chemistry major is offered by the Geology Department in cooperation with the Chemistry Department. For details, see the program description.

## **Bachelor of Science in Biochemistry**

The B.S. biochemistry major prepares students for entry-level employment in biotechnical or biomedical laboratories or for entry into professional health schools or biochemical graduate programs.

A summary of all degree requirements, as well as other departmental information is available in the Chemistry Department Handbook. All biochemistry majors should obtain a copy from the department office.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Requirements for a B.S. Major in Biochemistry

### 1. Degree Requirements

General university degree requirements are as identified in the General Academic Policies section of the Grand Valley State University Undergraduate and Graduate Catalog.

### 2. Chemistry Courses

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 245 - Principles of Organic Chemistry I (4 credits)

CHM 246 - Principles of Organic Chemistry I Lab (1 credit)

CHM 247 - Principles of Organic Chemistry II (3 credits)

CHM 248 - Principles of Organic Chemistry II Lab (1 credit)

CHM 351 - Introduction to Physical Chemistry (3 credits) **OR BOTH** CHM 356 - Physical Chemistry I (3 credits) **AND** CHM 358 - Physical Chemistry II (3 credits)

CHM 352 - Physical Chemistry Laboratory (1 credit)

CHM 391 - Chemistry Seminar I (1 credit)

CHM 461 - Biochemistry I (4 credits)

CHM 462 - Techniques in Biochemistry (3 credits)

CHM 463 - Biochemistry II (3 credits)

CHM 491 - Chemistry Seminar II (1 credit)

### 3. Required Cognate Courses

BIO 120 - General Biology I (4 credits) **OR BOTH** CMB 155 - Introduction to Cell and Molecular Biology (3 credits) **AND** CMB 156 - Discoveries in Cell and Molecular Biology: A Research-based Laboratory Course (1 credit)

BIO 375 - Genetics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 376 - Genetics Laboratory (1 credit)

MTH 201 - Calculus I (4 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

#### **4. Electives**

Take eight additional credits from the following choices:

BIO 357 - Environmental Microbiology (4 credits)

BIO 416 - Advanced Genetics Laboratory (2 credits)

BIO 423 - Plant Biotechnology (3 credits)

BIO 432 - Comparative Animal Physiology (4 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 290 - Human Physiology (3 credits)

BMS 391 - Laboratory in Human Physiology (2 credits)

BMS 306 - Advanced Human Nutrition (3 credits)

BMS 312 - Bacterial Genetics (3 credits)

BMS 313 - Bacterial Genetics Laboratory (1 credit)

BMS 410 - Immunology (3 credits)

BMS 422 - Bacterial Physiology (3 credits)

BMS 423 - Bacterial Physiology Laboratory (2 credits)

BMS 431 - Medical Virology (3 credits)

CHM 421 - Green Chemistry for Sustainable Environment (3 credits)

CHM 427 - Green and Environmental Chemistry Laboratory (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 441 - Advanced Topics in Organic Chemistry (3 credits)

CHM 442 - Synthetic Polymers: Life Cycle and Emerging Sustainable Technologies (3 credits)

CHM 447 - Organic Synthesis and Characterization (3 credits)

CHM 457 - Advanced Physical and Instrumental Chemistry Laboratory (3 credits)

CHM 471 - Advanced Inorganic Chemistry (3 credits)

CHM 475 - Electrochemistry (3 credits)

CHM 477 - Synthetic Inorganic Chemistry (3 credits)

CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

CMB 411 - Genetics of Development and Cancer (3 credits)

CMB 414 - Molecular Biology of the Gene (3 credits)

CMB 426 - Research Applications in Nucleic Acids (4 credits)

CMB 452 - Computer Modeling and Drug Design (3 credits)

### **Additional Information**

Students in the biochemistry major interested in graduate school are advised to consult with their advisor about selecting these optional courses:

PHY 230/PHY 231 instead of PHY 220/PHY 221

CHM 356 and CHM 358 instead of CHM 351

MTH 202 in addition to MTH 201

Students in the biochemistry major who transfer or change majors may make these substitutions with advisor approval:

CHM 241 may replace CHM 245 and CHM 246

CHM 242 may replace CHM 247 and CHM 248

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 355 may replace BIO 375

Students in the biochemistry major seeking a degree certified by the American Chemical Society (ACS) must also complete

at least 106 lab hours in additional elective CHM courses above the 200-level (CHM 490 and CHM 499 lab hours may be used to satisfy this requirement); and

CHM 273, plus two credits of CHM courses above the 200-level in addition to the minimum requirements.

### **Suggested Order of Coursework**

This option assumes students will complete the required general education courses and select electives with the help of their advisor.

#### **Year One**

BIO 120 - General Biology I (4 credits)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

MTH 201 - Calculus I (4 credits)

PHY 220 - General Physics I (5 credits) **OR** PHY 230 - Principles of Physics I (5 credits)

#### **Year Two**

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 245 - Principles of Organic Chemistry I (4 credits)

CHM 246 - Principles of Organic Chemistry I Lab (1 credit)

CHM 247 - Principles of Organic Chemistry II (3 credits)

CHM 248 - Principles of Organic Chemistry II Lab (1 credit)

PHY 221 - General Physics II (5 credits) **OR** PHY 231 - Principles of Physics II (5 credits)

#### **Year Three**

BIO 375 - Genetics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 376 - Genetics Laboratory (1 credit)

CHM 391 - Chemistry Seminar I (1 credit)

CHM 461 - Biochemistry I (4 credits)

CHM 462 - Techniques in Biochemistry (3 credits)

Cognate electives

## **Year Four**

CHM 351 - Introduction to Physical Chemistry (3 credits) **OR** CHM 356 - Physical Chemistry I (3 credits)

CHM 352 - Physical Chemistry Laboratory (1 credit)

CHM 463 - Biochemistry II (3 credits)

CHM 491 - Chemistry Seminar II (1 credit) Capstone course.

Cognate electives

# **Biology**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/biology](http://gvsu.edu/biology)

The study of animals and plants has fascinated people for thousands of years. All of us have wondered at some time about how animals are put together and how they function, why plants flower, how organisms interact with each other and respond to the environment, or why some bacteria cause disease and others do not. Biology is an exciting and dynamic field filled with the satisfaction of answers to many questions and the challenge of others waiting to be explained.

As a science, biology offers the opportunity to study and experiment with animals, plants, fungi, and bacteria in the laboratory and outdoors. Biologists make contributions in widely varying areas, including medicine, aquatic ecology, biotechnology, botany, conservation biology, evolutionary biology, genetics, microbiology, molecular biology, terrestrial ecology, and zoology.

## **Degrees Offered**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Master of Science in biology, Bachelor of Science or Bachelor of Arts in biology, biology major and minor for secondary teaching certification, biology minor.

### **Preparation for Graduate School**

Students planning to do graduate work in biology should consult early with their advisors. There is no absolute list of courses required for admission to graduate school. Generally, in addition to mathematics, students will need a full year of physics and two full years of chemistry, including CHM 241 and CHM 242.

### **Related Program**

#### **Natural Resources Management Major**

**[gvsu.edu/biology/nrm](http://gvsu.edu/biology/nrm)**

The natural resources management program prepares students to care for the land- and water-based ecosystems of Michigan and beyond, as well as to service the people whose well-being depends on these resources.

### **Honors Organizations**

Beta Beta Beta (TriBeta) is an honor society for students, particularly undergraduates, dedicated to improving the understanding and appreciation of biological study and extending boundaries of human knowledge through scientific research.

Requirements: Undergraduates shall have completed at least one term of the second year of a four-year curriculum, completed at least three courses in biological science, of which at least one is not an introductory course, with an average grade of B or its equivalent in those biology courses, and shall be in good academic standing.

## **Bachelor of Arts or Bachelor of Science in Biology**

The biology major is designed to help students gain a comprehensive understanding of the biological sciences. The biology faculty believe it is vital for undergraduate students to understand the unifying concepts and fundamental principles within the breadth of biology. Thus, the core biology curriculum introduces the diverse areas of biology. All students are required to complete an emphasis. Each of the five emphases provides breadth and depth in biology, while allowing students flexibility to specialize in areas of particular interest. In consultation with their biology advisor, students can tailor programs to meet their unique interests, educational goals, and career needs. A biology degree can support students intending to pursue graduate or professional degrees in the life sciences, including veterinary and human medicine, as well as careers in highly diverse fields, such as conservation biology, genetic counseling, plant biology, population genetics, aquatic sciences, wildlife ecology, animal behavior, evolutionary biology, microbiology, and sustainable agriculture.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The biology major requires fulfillment of general university degree requirements, biology core requirements (including chemistry, physics, cell and molecular biology, and math/statistics requirements), and biology elective requirements outlined as follows for each emphasis. All majors must complete at least 41 credits in biology.

## **Requirements for a Major in Biology**

### **Core Courses**

Requires 28 to 30 credits, including:

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

BIO 210 - Evolutionary Biology (3 credits)

BIO 215 - Ecology (4 credits)

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

BIO 495 - Perspectives in Biology (Capstone) (3 credits)

Complete one course from each of the following biology elective categories:

Category I - Plant Organismal Biology (3 to 4 credits)

Category II - Animal Organismal Biology (3 to 4 credits)

Biology B.S. students must complete the courses listed previously. Biology B.A. students must complete the courses listed previously and demonstrate third-semester proficiency in a foreign language.

Students must complete a minimum of 41 credits of biology coursework. If students still do not have 41 credits of biology coursework after completing both the biology core requirements (listed previously) and the requirements for their chosen emphasis (as follows), they should select additional biology courses from the elective categories, BIO Issues courses, credits in research (BIO 499), or internship credit (BIO 490). Students should consult with a biology advisor prior to selecting elective courses.

### **Additional Requirements for the Biology Major (26 to 28 credits)**

#### **1. Chemistry**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

**AND EITHER**

CHM 231 - Introductory Organic Chemistry (4 credits) **AND** CHM 232 - Biological Chemistry (4 credits)

**OR BOTH**

CHM 241 - Organic Chemistry for Life Sciences I (5 credits) **AND** CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

Note: Some professional and graduate schools require a year of organic chemistry, others a semester; some require one to two semesters of biochemistry. Students should consult an advisor and check requirements of particular programs of interest prior to selecting chemistry courses.

**2. Statistics and Mathematics**

Choose one of the following:

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Professional and graduate schools generally require a semester of statistics and/or completion of math through trigonometry or calculus. Students should consult an advisor and check requirements of particular programs of interest prior to selecting math and statistics courses.

**3. Physics**

Students planning to seek secondary teaching certification or acceptance to graduate or professional programs (e.g., Ph.D. programs and medical or veterinary school) should complete PHY 220 and PHY 221 **OR** PHY 230 and PHY 231.

Choose one:

PHY 200 - Physics for the Life Sciences (4 credits)

PHY 220 - General Physics I (5 credits)

PHY 230 - Principles of Physics I (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Excluded and Restricted Courses**

The following courses are excluded from the biology major.

BIO 104 - Biology for the 21st Century (4 credits)

BIO 105 - Environmental Science (3 credits)

BIO 107 - Great Lakes and Other Water Resources (4 credits)

BIO 109 - Plants in the World (4 credits)

BIO 205 - Genetics for PK-6 Teachers (3 credits)

**AND** any other biology course whose description prevents it from being used in the major.

The following course may only count toward the biology major with advisor's permission.

BIO 355 - Human Genetics (3 credits)

Students may count BIO 357 or BMS 212/BMS 213 toward the biology degree, but not both.

## **Biology Issues Courses**

The following courses have been approved to satisfy part of the general education Issues requirement. These courses may count toward the biology major after elective-category requirements are satisfied for the student's selected emphasis.

BIO 309 - Plants and Human Health (3 credits)

BIO 311 - Who's Running Your Life: Genes, Evolution and Behavior (3 credits)

BIO 319 - Global Agricultural Sustainability (3 credits)

BIO 328 - Biomedical Ethics (3 credits)

BIO 329 - Evolution of Social Behavior (3 credits)

BIO 338 - Environmental Ethics (3 credits)

## **Emphases**

All biology majors must complete an emphasis within the major (general biology, biomolecular processes, ecology and evolutionary biology, preveterinary medicine, or teacher certification). Students pursuing certification to teach biology in grades 6 through 12 must complete the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

emphasis in teacher certification. Students pursuing enrollment in veterinary school should select the emphasis in preveterinary medicine.

Students are encouraged to complete BIO courses of interest beyond the minimum required; these may include BIO courses not listed in the elective categories as follows. Unrestricted elective credits, i.e., those beyond the 41-credit minimum, will apply toward the GVSU 120 credit-hour baccalaureate degree requirement and additionally may help satisfy general education requirements (e.g., Issues courses). For students desiring more breadth or depth in their major, any additional BIO courses (except those specifically excluded elsewhere) are suggested and will contribute to credits completed in the BIO major.

Students may wish to pursue more specialized study within biology, such as aquatic biology, plant biology, microbiology, animal behavior, evolution, genetics, or conservation biology. The two specialized emphases -- ecology and evolutionary biology (EEB) and biomolecular processes -- can support many such interests when elective courses are selected carefully. Prior to selecting an emphasis, students should consult with one or more biology faculty members whose expertise supports their interests.

Students should also pursue hands-on professional development through research, internship, volunteer, and other opportunities in field and laboratory settings. Early consultation with an appropriate academic advisor in the biology department is strongly encouraged.

## **- General Biology**

The general biology emphasis is appropriate for preprofessional students, other than preveterinary, and students who are interested in exploring biology broadly. In addition to the requirements outlined previously, students in this emphasis must complete the following requirements. Elective courses may only count in one category.

Complete the following:

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

Complete one course from one of the following categories:

Category III (Principles of Ecology and Evolutionary Biology; 3 to 4 credits) **OR** Category IV (Applied Ecology and Evolution; 3 to 4 credits)

Complete one course from the following category:

Category V (Biomolecular Processes; 2 to 4 credits)

## **- Biomolecular Processes**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The emphasis in biomolecular processes is appropriate for students interested in microbiology, genetics, cellular biology and molecular biology. It supports students pursuing careers as laboratory technicians, seeking entry into medical or other health-related professional schools or graduate programs in genetics, microbiology, molecular and cellular biology or related fields, and those wishing to complete a broad biology degree with some specialization in genetics, microbiology, or cellular and molecular biology. In addition to the requirements outlined previously, students in this emphasis must complete the following requirements. Elective courses may only count in one category.

Complete the following:

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

Complete two courses from the following category:

Category V (Biomolecular Processes: 2 to 4 credits each)

### **- Ecology and Evolutionary Biology**

The emphasis in ecology and evolutionary biology is appropriate for students pursuing careers in professions such as aquatic and fisheries biology, animal behavior, wildlife ecology, plant biology, zoology, marine biology, and conservation biology. It is especially appropriate for students intending to apply to graduate programs in ecology, evolutionary biology (including systematics), and related fields. In addition to the requirements outlined previously, students in this emphasis must complete the following requirements. Elective courses may only count in one category.

Complete one of the following:

BIO 485 - Molecular Ecology (3 credits) **OR** CMB 405 - Cell and Molecular Biology (4 credits)

Complete one course from the following category:

Category III (Principles of Ecology and Evolutionary Biology: 3 to 4 credits)

Complete one course from one of the following categories:

Category III (Principles of Ecology and Evolutionary Biology: 3 to 4 credits) **OR** Category IV (Applied Ecology and Evolution: 3 to 4 credits)

### **- Preveterinary Medicine**

Students planning careers in veterinary medicine or related fields may prepare for application to professional schools with a biology major by selecting the emphasis in preveterinary medicine

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

after completion of the introductory sequences in biology and chemistry (previously mentioned). Early consultation with an appropriate preprofessional advisor within the biology department is strongly encouraged.

Entrance requirements vary among veterinary schools at different universities. The emphasis in preveterinary medicine is tailored to satisfy application requirements at MSU; students should peruse the application requirements of the specific programs they are considering to ensure requirements are met prior to applying. Entry requirements for particular programs are available on university websites and through the Association of American Veterinary Medical Colleges. Because entry into professional programs is highly competitive, students should complete the entry requirements for programs in veterinary medicine offered at multiple universities and be prepared to apply for admission to several. In addition to the requirements outlined previously, students in this emphasis must complete the following requirements. Elective courses may only count in one category.

Complete the following:

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

**AND**

BIO 357 - Environmental Microbiology (4 credits)

**OR BOTH**

BMS 212 - Introductory Microbiology (3 credits) **AND** BMS 213 - Laboratory in Microbiology (1 credit)

Complete the following:

CHM 241 - Organic Chemistry for Life Sciences I (5 credits)

CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

CHM 461 - Biochemistry I (4 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

Beyond coursework, preveterinary students must gain experience in the profession through volunteer work, internships, or employment; most schools of veterinary medicine require completion of specific hours of small- and large-animal experience prior to application. Research experience, community service (especially involving animal handling or welfare), leadership,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

and customer service are also strongly encouraged. Consultation with a biology advisor is highly recommended throughout your academic career.

## **- Teacher Certification**

Students majoring in biology may obtain Michigan certification to teach biology in grades 6 through 12. In addition to the requirements outlined previously, students pursuing certification to teach biology must complete all the requirements listed as follows. Elective courses may only count in one category. These are the same requirements as listed in the general biology emphasis, but declaring the teacher certification emphasis is important so that students are identified for advising purposes. Additionally, those seeking teacher certification must complete a teaching minor and a 39-credit professional education program from the College of Education and Community Innovation (see the GVSU College of Education and Community Innovation website for more information). Secondary admission to the College of Education and Community Innovation requires at least a 2.7 GPA in the major.

Complete the following:

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

Complete one course from one of the following categories:

Category III (Principles of Ecology and Evolutionary Biology: 3 to 4 credits) **OR** Category IV (Applied Ecology and Evolution: 3 to 4 credits)

Complete one course from the following category:

Category V (Biomolecular Processes: 2 to 4 credits)

## **Premedical and other Preprofessional Students**

Students planning careers in clinical professions, such as physicians, dentists, and physical therapists may prepare for entry into professional school with a biology major. Students are encouraged to complete the general biology or biomolecular processes emphasis and to pursue opportunities in laboratory-based research and/or clinical experience to best support preparation for such professional studies. Early consultation with an appropriate preprofessional advisor within the biology department or CLAS Academic Advising Center is strongly encouraged. Entrance requirements vary among universities, but most require completion of the following:

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 241 - Organic Chemistry for Life Sciences I (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

Additional coursework required for admission to professional programs may include biochemistry, microbiology, embryology, nutrition, anatomy, physiology, statistics, and/or mathematics beyond college algebra. Entry requirements for particular professional programs are available on university websites. Biology advisors and the CLAS preprofessional advisors can assist students in selecting appropriate courses. Because entry into professional programs is highly competitive, students should complete the entry requirements for programs offered at multiple universities and be prepared to apply for admission to several programs.

Beyond coursework, applicants are typically required to gain experience in the profession prior to seeking admission. For example, admission requirements for most medical schools require practical experience in a clinical or health care setting. Research experience and community service (especially in areas related to the profession) are also strongly encouraged. Consultation with a biology advisor is essential.

## **Elective Course Categories**

Elective courses must be selected to satisfy emphasis requirements, but also should be selected deliberately, carefully, and in consultation with a biology advisor to support a student's specific educational and career objectives. Students should meet with their advisor prior to completion of elective coursework.

Note: Some courses appear in more than one category, but a particular course may only satisfy one biology degree requirement.

### **Category One: Plant Organismal Biology**

These courses include a field and/or laboratory component and address the structure, function, development, taxonomy, evolution, or ecology of plants. All students (regardless of emphasis) must complete at least one course from the following:

BIO 243 - Plant Identification and Natural History (3 credits)

BIO 303 - Plant Morphology (4 credits)

BIO 313 - Plants and Islands (4 credits)

BIO 323 - Aquatic and Wetland Plants (3 credits)

BIO 333 - Systematic Botany (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 383 - Plant-Fungal Interactions (4 credits)

BIO 403 - Plant Structure and Function (4 credits)

BIO 413 - Freshwater Algae (3 credits)

BIO 423 - Plant Biotechnology (3 credits)

BIO 433 - Plant Ecology (4 credits)

### **Category Two: Animal Organismal Biology**

These courses include a laboratory or field component and significant content addressing the anatomy, physiology, development, and/or lifecycles of animals. All biology majors (regardless of emphasis) must complete at least one course from the following:

BIO 222 - Natural History of Vertebrates (3 credits)

BIO 232 - Natural History of Invertebrates (3 credits)

BIO 272 - Insect Biology and Diversity (3 credits)

BIO 302 - Comparative Vertebrate Anatomy (4 credits)

BIO 342 - Ornithology (3 credits)

BIO 362 - Biology and Diversity of Fishes (4 credits)

BIO 402 - Aquatic Insects (3 credits)

BIO 412 - Mammalogy (4 credits)

BIO 422 - Embryology (3 credits)

BIO 432 - Comparative Animal Physiology (4 credits)

BIO 444 - Herpetology (4 credits)

BMS 208 - Human Anatomy (3 credits) **AND** BMS 309 - Laboratory in Human Anatomy (1 credit)

BMS 290 - Human Physiology (3 credits) **AND** BMS 391 - Laboratory in Human Physiology (2 credits)

### **Category Three: Principles of Ecology and Evolutionary Biology (EEB)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

These courses include significant content addressing principles of ecology and/or evolutionary biology; these courses may or may not include a laboratory component. See requirements for specific emphases.

BIO 303 - Plant Morphology (4 credits)

BIO 313 - Plants and Islands (4 credits)

BIO 333 - Systematic Botany (4 credits)

BIO 352 - Animal Behavior (3 credits)

BIO 370 - Marine Biology (3 credits)

BIO 433 - Plant Ecology (4 credits)

BIO 440 - Limnology (4 credits)

BIO 451 - Stream Ecology (4 credits)

BIO 452 - Human Evolution (3 credits)

BIO 460 - Terrestrial Ecosystem Ecology (4 credits)

BIO 473 - Ecology and Evolution of Plant-Animal Interactions (3 credits)

BIO 475 - Population Genetics (3 credits)

#### **Category Four: Applied Ecology and Evolution**

These courses include significant content addressing the application of ecological and evolutionary principles to environmental concerns and human endeavors. See elective requirements for specific emphases.

BIO 308/NRM 308 - Wildlife Ecology (4 credits)

BIO 357 - Environmental Microbiology (4 credits) \*

BIO 362 - Biology and Diversity of Fishes (4 credits)

BIO 370 - Marine Biology (3 credits)

BIO 386/NRM 386 - Ecological Restoration and Management (4 credits)

BIO 402 - Aquatic Insects (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 407 - Biology and Society: Study Abroad (1 to 4 credits) with advisor's permission.

BIO 408/NRM 408 - Wildlife Management (4 credits)

BIO 415/NRM 415 - Fire Ecology and Management (3 credits)

BIO 417 - International Field Biology (1 to 4 credits) with advisor's permission.

BIO 440 - Limnology (4 credits)

BIO 451 - Stream Ecology (4 credits)

BIO 470 - Conservation Biology (3 credits)

BIO 473 - Ecology and Evolution of Plant-Animal Interactions (3 credits)

BIO 475 - Population Genetics (3 credits)

BIO 486/NRM 486 - Restoration Ecology (3 credits)

\*Note: Students may count BIO 357 or BMS 212/BMS 213 toward the biology degree, but not both.

### **Category Five: Biomolecular Processes**

These courses include significant content addressing gene function and regulation, microbiology, cellular biology, and/or molecular biology. See elective requirements for specific emphases.

BIO 317 - Principles of Animal Nutrition (3 credits)

BIO 357 - Environmental Microbiology (4 credits)\*

BIO 396 - Laboratory Assistant in Genetics (1 credit)

BIO 403 - Plant Structure and Function (4 credits)

BIO 416 - Advanced Genetics Laboratory (2 credits)

BIO 422 - Embryology (3 credits)

BIO 423 - Plant Biotechnology (3 credits)

BIO 485 - Molecular Ecology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 212 - Introductory Microbiology (3 credits) **AND** BMS 213 - Laboratory in Microbiology (1 credit)\*

CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits) Elective for EEB emphasis only.

CMB 411 - Genetics of Development and Cancer (3 credits)

CMB 414 - Molecular Biology of the Gene (3 credits)

CMB 426 - Research Applications in Nucleic Acids (4 credits)

\*Note: Students may count BIO 357 or BMS 212/BMS 213 toward the biology degree, but not both.

### **Suggested Order of Coursework for a Major in Biology**

The following plan may need to be adjusted on a case-by-case basis. Students should work with an academic advisor to create an academic plan that best suits their circumstances.

#### **Year One**

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

MTH/STA requirements/prerequisite courses as needed

WRT 150 - Strategies in Writing (4 credits)

#### **Year Two**

BIO 210 - Evolutionary Biology (3 credits)

BIO 215 - Ecology (4 credits)

BIO elective course Credits: 3-4

MTH/STA requirements/prerequisite courses as needed

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

One of the following chemistry cognate options:

CHM 231 - Introductory Organic Chemistry (4 credits) **AND** CHM 232 - Biological Chemistry (4 credits)

**OR BOTH** CHM 241 - Organic Chemistry for Life Sciences I (5 credits) **AND** CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

### **Year Three**

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

BIO elective course

BIO elective course

PHY cognate course

### **Year Four**

BIO 495 - Perspectives in Biology (Capstone) (3 credits)

BIO elective course

BIO elective course as needed

One of the following options:

CMB 405 - Cell and Molecular Biology (4 credits) **AND** CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

**OR** CMB 485 - Molecular Ecology (3 credits) Elective for EEB emphasis only.

## **Biology Minor**

### **Requirements**

The biology minor consists of a minimum of 24 credits in biology. CHM 109 or CHM 115 is a required cognate in addition to the 24 credits. Following standard university policy, students must ensure that they complete 30 unduplicated credits in their major and 20 unduplicated credits in the minor to fulfill the requirements for both. Requirements of the biology minor:

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Cognate course: CHM 109 - Introductory Chemistry (4 credits) **OR** CHM 115 - Principles of Chemistry I (4 credits)

An additional 16 credits selected from BIO courses numbered BIO 210 and above, except noted as follows.

The following may not be used in minor: BIO 104, BIO 105, BIO 107, BIO 109, BIO 205, and any other biology course whose course description prevents it from being used in the minor.

Only one of the following courses may be counted in the biology minor: BIO 309, BIO 311, or BIO 329. CMB 405, CMB 406, CMB 411, CMB 414, or CMB 426 may be counted as electives in the biology minor with approval of the biology unit head.

Students may count up to eight credits from the following BMS-designated courses toward the required 24 credits in biology.

BMS 202 - Anatomy and Physiology (4 credits) **OR** the following two courses: BMS 208 - Human Anatomy (3 credits) **AND** BMS 309 - Laboratory in Human Anatomy (1 credit)

BMS 212 - Introductory Microbiology (3 credits) **AND** BMS 213 - Laboratory in Microbiology (1 credit)

BMS 250 - Anatomy and Physiology I (4 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

BMS 290 - Human Physiology (3 credits) **AND** BMS 391 - Laboratory in Human Physiology (2 credits)

Since specific BMS course requirements vary among majors, students should seek the advice of their major advisors on which of these BMS courses to take and the appropriate sequence in which to take them. Students should contact the Biology Department if they have questions on how the specified BMS courses may be applied to the biology minor.

### **Teacher Certification Requirements**

Students selecting the biology minor for teacher certification are strongly advised to consult either the CLAS Academic Advising Center or the Biology Department for guidance on which BIO courses to complete to satisfy the State Standards for Teaching Biology and to prepare for the Michigan Test for Teacher Certification (MTTC) in biology. To assure both breadth and depth in the teaching minor, in addition to completing BIO 120 - General Biology I and BIO 121 - General Biology II, students should complete BIO 210 - Evolutionary Biology, BIO 215 - Ecology, either BIO 355 - Human Genetics or BIO 375 - Genetics, and BMS 202 - Anatomy and Physiology. Students considering the integrated science secondary endorsement should choose BIO 375 and the CHM 115 cognate.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Bachelor of Science in Fisheries and Aquatic Sciences

**Website:** [gvsu.edu/biology](http://gvsu.edu/biology)

**Degree Offered:** Bachelor of Science in fisheries and aquatic sciences

Our global and local freshwater resources are essential to both ecosystem stability and viability, as well as the many goods and services upon which we all depend. These natural freshwater resources are under increasing threat. Our ability to successfully understand, protect, and manage these resources for future generations demands scientific insight and understanding that can be used to inform wise management decisions. This major is intended for students interested in shaping this future through the specific lens of hands-on scientific and taxonomic training, the ability to gain certification through the American Fisheries Society, developing expertise in molecular ecology and mapping/global information skills, and through understanding of relevant public policies. The major is designed to provide students with the opportunity to participate in research projects and to develop identification skills for freshwater plants and/or algae, aquatic insects, and fish. We also provide detailed field sampling experiences and the contemporary ecological theory that best guides wise management for both river and lake ecosystems. Students with this major will be competitive for employment with state and federal agencies, environmental consulting firms, Tribal and nongovernmental organizations, nonprofit conservation groups, and for graduate-level research.

## Major Requirements (73 credits)

### Fisheries and Aquatic Sciences Core (42 to 43 credits)

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

BIO 215 - Ecology (4 credits)

BIO 323 - Aquatic and Wetland Plants (3 credits)

BIO 362 - Biology and Diversity of Fishes (4 credits)

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

BIO 402 - Aquatic Insects (3 credits)

BIO 451 - Stream Ecology (4 credits)

BIO 495/NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

NRM 150 - Introduction to Natural Resources (3 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

**Fisheries and Aquatic Sciences Electives (Complete at least 12 credits from the following courses)**

Students pursuing American Fisheries Society certification should take NRM 395, NRM 451, and NRM 472. Students interested in aquatic sciences are recommended to select at least one genetics course (BIO 475 or BIO 485) and NRM 452. Students interested in marine biology are advised to take BIO 232, BIO 370, GEO 430, and a field course in marine studies.

BIO 210 - Evolutionary Biology (3 credits)

BIO 232 - Natural History of Invertebrates (3 credits)

BIO 323 - Aquatic and Wetland Plants (3 credits)

BIO 370 - Marine Biology (3 credits)

BIO 413 - Freshwater Algae (3 credits)

BIO 417 - International Field Biology (1 to 4 credits)

BIO 470 - Conservation Biology (3 credits)

BIO 475 - Population Genetics (3 credits)

BIO 485 - Molecular Ecology (3 credits)

CHM 221 - Survey of Analytical Chemistry (4 credits)

GEO 430 - Oceanography (3 credits)

NRM 395 - GIS Applications in Resource Management (3 credits)

NRM 451 - Natural Resource Policy (3 credits)

NRM 452 - Watershed and Wetland Management (4 credits)

NRM 462 - Forest Ecosystem Management (4 credits)

**Additional Requirements for the Wildlife Biology Major (15 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Physical Sciences**

Complete at least nine credits from the following courses

CHM 109 - Introductory Chemistry (4 credits) **AND** CHM 231 - Introductory Organic Chemistry (4 credits)

**OR**

CHM 115 - Principles of Chemistry I (4 credits) **AND** CHM 116 - Principles of Chemistry II (5 credits) **AND** CHM 231 - Introductory Organic Chemistry (4 credits)

Select at least one additional course from the following to reach 12 credits, if necessary:

CHM 232 - Biological Chemistry (4 credits)

GEO 111 - Exploring the Earth (4 credits)

PHY 200 - Physics for the Life Sciences (4 credits)

PHY 220 - General Physics I (5 credits)

**Mathematics and Statistics** (6 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Complete one of the following courses:

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

**Suggested Order of Coursework****First Year**

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

NRM 150 - Introduction to Natural Resources (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

General education courses

## **Second Year**

BIO 215 - Ecology (4 credits)

CHM 109 - Introductory Chemistry (4 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

MTH 125 - Survey of Calculus (3 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

General education courses

## **Third Year**

BIO 323 - Aquatic and Wetland Plants (3 credits) **OR** elective course

BIO 362 - Biology and Diversity of Fishes (4 credits)

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

BIO 402 - Aquatic Insects (3 credits) **OR** BIO 413 - Freshwater Algae (3 credits)

BIO 440 - Limnology (4 credits) **OR** BIO 450 Stream Ecology (4 credits)

Physical science elective course

General education courses

## **Fourth Year**

BIO 402 - Aquatic Insects (3 credits) **OR** BIO 413 - Freshwater Algae (3 credits)

BIO 440 - Limnology (4 credits) **OR** BIO 450 Stream Ecology (4 credits)

BIO 495 - Perspectives in Biology (Capstone) (3 credits) **OR** NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits)

General education courses

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Master of Science in Biology

For additional information about opportunities your college offers, please refer to your college's section in this catalog.

**Website:** [gvsu.edu/biology](http://gvsu.edu/biology)

The Master of Science in biology is a versatile graduate program designed to produce outstanding graduates. Versatility in the program will allow students to achieve individual goals while serving a diversity of student interests. Students have the opportunity to pursue graduate programs in broad areas such as genetics and cell biology, organismal biology, aquatic and terrestrial ecology, and natural resources. As a focus for these M.S. programs, we offer internship, project, and thesis pathways. Students may choose an emphasis (but not required) in either aquatic sciences or natural resources. The Master of Science in biology degree program is designed to meet the needs of baccalaureate-trained professionals who will be more competitive with a master's degree as they seek job placement or advancement, secondary teachers who prefer a science master's, and baccalaureate graduates who wish to earn a master's degree before continuing their graduate education at the doctoral level.

The Master of Science in biology helps candidates extend their knowledge in their discipline, extend their professional skills, gain experience in the application of their knowledge and skills, and develop their abilities as leaders and team members. Graduates will be professionals who have progressed from learning about science to doing science, and graduates will be able to use their knowledge and abilities to solve problems and answer questions in the complex and interactive context of local, regional, and global issues and concerns. The optional emphasis in natural resources is offered to meet the more specific needs of natural resources management professionals, while the aquatic sciences emphasis highlights the importance of aquatic ecosystems of the region. Both aquatic sciences and natural resources emphases offer students opportunities to work with faculty from the Annis Water Resources Institute in Muskegon as well as with Biology Department faculty at the Allendale Campus.

### Admission

Admission to the M.S. in biology requires the following:

Satisfactory GRE score

A 500-word essay detailing educational and professional goals and your area of interest in biology

Three letters of reference

An overall undergraduate of at least 3.0 GPA on a 4.0 scale

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Prospective candidates to contact the biology graduate program coordinator to begin the process of identifying a prospective graduate committee chair. Candidates will only be admitted if a faculty member has consented to serve as the committee chair.

An interview with faculty either via telecommunication or by visiting campus to determine compatibility and interests.

The Biology Graduate Committee will begin reviewing applications in January for admission during the following fall semester.

### **Transfer Credits**

See the Transfer of Credit portion of the Graduate Admission section in the Grand Valley State University Undergraduate and Graduate Catalog for general provisions. If a candidate wishes any courses taken prior to admission to the Master of Science in biology program to be counted toward the required credits, the request must be made at the time of application. The decision to allow credits to transfer will be made by the departmental graduate program committee and the student's graduate committee chair.

### **Departmental Contact**

Biology Department graduate program coordinator, 3300a Kindschi Hall of Science, Biology Department, Grand Valley State University, Allendale, MI, 49401-9403. Telephone (616) 331-2470.

### **Program Location**

The program is offered on the Allendale Campus and at the Robert B. Annis Water Resources Institute.

## **Course Listing**

BIO 502 - Aquatic Insects (3 credits)

BIO 503 - Plant Structure and Function (4 credits)

BIO 508/NRM 508 - Wildlife Management (4 credits)

BIO 512 - Mammalogy (3 credits)

BIO 513 - Freshwater Algae (3 credits)

BIO 515/NRM 515 - Fire Ecology and Management (3 credits)

BIO 532/WAT 532 - Advanced Aquatic Ecology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 540 - Limnology (4 credits)

BIO 544 - Herpetology (3 credits)

BIO 560 - Advanced Community Ecology (3 credits)

BIO 570 - Landscape Ecology Theory and Application (3 credits)

BIO 572 - Conservation Biology (3 credits)

BIO 573 - Ecology and Evolution of Plant-Animal Interactions (3 credits)

BIO 575 - Population Genetics (3 credits)

BIO 580 - Special Topics in Biology (1 to 4 credits)

BIO 585 - Molecular Ecology (3 credits)

BIO/NRM 586 - Restoration Ecology (3 credits)

BIO 593 - Advanced Univariate Methods (3 credits)

BIO 594 - Advanced Multivariate Methods (3 credits)

BIO 610 - Scientific Methodology (3 credits)

BIO 651 - Emerging Issues in Water Resources (2 credits)

BIO 680 - Special Topics in Biology (1 to 3 credits)

BIO/NRM 691 - Graduate Internship (3 to 9 credits)

BIO/NRM 693 - Graduate Project (3 to 9 credits)

BIO/NRM 695 - Graduate Thesis Research (3 to 9 credits)

BIO/NRM 696 - Continuation of Master's Project or Thesis Research (1 credit)

BIO/NRM 699 - Independent Study (1 to 3 credits)

NRM 552 - Fisheries Management (3 credits)

NRM 562 - Forest Ecosystem Management (4 credits)

NRM 576/WAT 576 - Aquatic Ecosystem Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NRM 580 - Special Topics in Natural Resources Management (1 to 4 credits)

NRM 597 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits)

NRM 680 - Special Topics in Natural Resources Management (1 to 4 credits)

## **Requirements**

The Master of Science in biology is a highly individualized, planned program of study. Early advising is essential because the student's graduate committee chair must approve all coursework in advance. Requirements for each student will be individually predetermined at the time the program plan is established. The degree will be earned upon the successful completion of all requirements outlined in the Grand Valley State University Undergraduate and Graduate Catalog. The program of study will include a qualifying exam administered by the student's graduate committee and a minimum of 33 approved credits with a cumulative GPA of 3.0. All program plans will include the following three components:

Nine credits common to all students in the program. These will consist of an experimental design/statistics course, the introductory course (BIO 610 - Scientific Methodology), and the Capstone (BIO 698 - Perspectives in Biology).

Fifteen to 18 credits in the student's interest area, all of which must be approved by the student's graduate committee chair. Specific coursework, which may include a focus in a secondary area, will be developed by the candidate with the guidance and approval of the student's graduate committee chair.

Six to nine credits of BIO 695 - Thesis Research, BIO 693 - Graduate Project, or BIO 691 - Graduate Internship (for those selecting the optional natural resources emphasis, the corresponding course numbers are NRM 695, NRM 693, or NRM 691). Note that the credits may not be mixed in this category. This component will be conducted under the supervision of the student's graduate committee chair and with the approval of the student's graduate committee. No course-only option is available.

Successful progress toward completion of the degree and continued enrollment requires that the student's graduate committee chair be determined before admission, and the student's graduate committee be appointed before the end of the second semester of enrollment. In addition, the student must pass the qualifying exam before registering for thesis, project, or internship credits. The purpose of the qualifying exam is to ensure that students have adequate science knowledge and background to successfully complete their thesis, project, or internship. All students will be limited to a five-year period to complete their degree.

The variable credits in components two and three are designed to allow for an extended thesis, project, or internship. The graduate program will consist of a minimum of 33 credits.

## **Natural Resources Emphasis (optional)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Corresponding to the existing undergraduate degree program in natural resources management, the Master of Science in biology includes an optional natural resources emphasis. Candidates choosing this optional emphasis have the same admissions criteria and degree requirements as other M.S. students, but will focus their coursework, thesis, project, and internship activities in an area related to the management, conservation, or protection of atmospheric, aquatic, or terrestrial resources. Students in this emphasis will develop interdisciplinary studies involving CLAS faculty, as well as other collaborating agencies and groups in the West Michigan area. Students in this emphasis will have opportunities to work with faculty and conduct research at the Annis Water Resources Institute located in Muskegon, as well as at the Allendale Campus of Grand Valley State University.

### **Aquatic Sciences Emphasis (optional)**

The Master of Science in biology includes an optional aquatic sciences emphasis. Candidates choosing this optional emphasis have the same admissions criteria and degree requirements as other M.S. students, but will focus their coursework, thesis, project, and internship activities in an area related to research, management, conservation, or protection of aquatic resources. Students in this emphasis will develop interdisciplinary studies involving CLAS faculty as well as other collaborating agencies and entities in the West Michigan area. Students in this emphasis will have opportunities to work with faculty and conduct research at the Annis Water Resources Institute located in Muskegon, as well as at Grand Valley State University's Allendale Campus.

### **Financial Assistance**

Prospective students should review the Costs and Financial Aid section of the Grand Valley State University Undergraduate and Graduate Catalog in full detail. A limited amount of funding is available on a competitive basis for candidates who need assistance. Those who receive departmental assistantships will work with faculty at a variety of departmental tasks that provide support to the undergraduate programs in the biology department. Candidates who wish to instruct laboratory or lecture sections must apply separately for the adjunct teaching position, which are not linked to their status as graduate students. Additional assistance in the form of research assistantships may be available through faculty research grants. Candidates are encouraged to seek external support for their work by submitting grant proposals to external funding agencies. Assistance from faculty is available to candidates seeking external funding.

**Departmental Contact:** Biology Department graduate program coordinator, 3300a Kindschi Hall of Science, Biology Department at Grand Valley State University, Allendale, Michigan, 49401-9403. Telephone (616) 331-2470.

## **Master of Science in Water Resource Policy**

### **Requirements**

#### **Master of Science in Water Resource Policy**

For students with non-STEM background.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Core Courses (24 to 27 credits)

NRM 451/NRM 551 - Natural Resource Policy (3 credits)

PNH 520 - Foundations of Public Service (3 credits)

PNH 611 - Research Methods (3 credits)

PNH 616 - Public Policy Analysis (3 credits)

WAT 545 - Theoretical Perspectives in Aquatic Science (3 credits)

WAT 565 - Water Policy and Science (3 credits)

WAT 691 - Internship (6 to 9 credits)

**Master of Science in Water Resource Policy**

For students with STEM background.

Core Courses (21 to 24 credits)

NRM 451/NRM 551 - Natural Resource Policy (3 credits)

PNH 520 - Foundations of Public Service (3 credits)

PNH 611 - Research Methods (3 credits)

PNH 616 - Public Policy Analysis (3 credits)

WAT 565 - Water Policy and Science (3 credits)

WAT 691 - Internship (6 to 9 credits)

**Electives**

Students with non-STEM background (6 to 9 credits)

Students with STEM background (9 to 12 credits)

BIO 530/WAT 530 - Aquatic Ecosystems and Processes (3 credits)

WAT 651 - Emerging Issues in Water Resources (2 credits)

BIO 560 - Advanced Community Ecology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 570 - Landscape Ecology Theory and Application (3 credits)

NRM 552 - Fisheries Management (3 credits)

NRM 576/WAT 576 - Aquatic Ecosystem Management (3 credits)

PNH 535 - Grant Writing (3 credits)

PNH 614 - Organization Theory (3 credits)

PNH 621 - Administrative and Regulatory Law (3 credits)

PNH 641 - Economic and Community Development (3 credits)

PNH 642 - Conflict Management (3 credits)

PNH 671 - Building Sustainable Communities (3 credits)

#### **Suggested Order of Coursework**

#### **Non-STEM Sample Sequence**

##### **Year One**

###### **Fall**

PNH 520 - Foundations of Public Service (3 credits)

PNH 611 - Research Methods (3 credits)

WAT 545 - Theoretical Perspectives in Aquatic Science (3 credits)

###### **Winter**

PNH 616 - Public Policy Analysis (3 credits)

NRM 551 - Natural Resource Policy (3 credits)

WAT 565 - Water Policy and Science (3 credits)

##### **Year Two**

###### **Fall**

Elective course (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Elective course (3 credits)

Elective course (3 credits)

Winter

WAT 691 - Internship (6 to 9 credits)

Elective course (3 credits)

## **STEM Sample Sequence**

### **Year One**

Fall

PNH 520 - Foundations of Public Service (3 credits)

PNH 611 - Research Methods (3 credits)

WAT 545 - Theoretical Perspectives in Aquatic Science (3 credits)

Winter

PNH 616 - Public Policy Analysis (3 credits)

NRM 551 - Natural Resource Policy (3 credits)

WAT 565 - Water Policy and Science (3 credits)

### **Year Two**

Fall

Elective course (3 credits)

Elective course (3 credits)

Elective course (3 credits)

Winter

WAT 691 - Internship (6 to 9 credits)

Elective course (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Bachelor of Science in Wildlife Biology

**Website:** [gvsu.edu/biology](http://gvsu.edu/biology)

**Degree Offered:** Bachelor of Science in wildlife biology

The wildlife biology major prepares students to attain and succeed in positions focused on maintaining sustainable populations of wildlife species at the local, regional, state, federal, and international level. The program requires students to gain an understanding of both the wildlife they study and of the ecosystems in which they live. Students earning this degree will be qualified for positions working with state and federal wildlife agencies as well as non-governmental organizations, and by choosing the correct general education classes, for certification as an Associate Wildlife Biologist by The Wildlife Society. The degree focuses on preparing students for careers as wildlife biologists, but due to the diverse skill set required, the coursework in this major prepares students for entry level positions in a variety of related fields. Students completing the degree will meet the federal requirements for positions as wildlife biologist, wildlife technician, biological science technician, plant protection technician, range technician, forestry technician, and soil conservation technician. Through a curriculum that emphasizes hands-on and lab-based learning, the program prepares students to join a profession dedicated to meeting the challenges of maintaining wildlife diversity in the face of growing threats.

## Major Requirements (73 credits)

### Wildlife Core (34 credits)

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

BIO 215 - Ecology (4 credits)

BIO 308/NRM 308 - Wildlife Ecology (4 credits)

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

BIO 408/NRM 408 - Wildlife Management (4 credits)

NRM 150 - Introduction to Natural Resources (3 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits) **OR BOTH** NRM 496 - Trends in Western U.S. Natural Resource Management (2 credits) **AND** NRM 497 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits)

### **Wildlife Theory and Application Electives**

Complete at least six credits from the following courses:

BIO 210 - Evolutionary Biology (3 credits)

BIO 386/NRM 386 - Ecological Restoration and Management (4 credits)

BIO 415/NRM 415 - Fire Ecology and Management (3 credits)

BIO 470 - Conservation Biology (3 credits)

BIO 475 - Population Genetics (3 credits)

BIO 485 - Molecular Ecology (3 credits)

NRM 395 - GIS Applications in Resource Management (3 credits)

NRM 462 - Forest Ecosystem Management (4 credits)

### **Animal Electives**

Complete at least nine credits from the following courses:

BIO 222 - Natural History of Vertebrates (3 credits)

BIO 232 - Natural History of Invertebrates (3 credits)

BIO 272 - Insect Biology and Diversity (3 credits)

BIO 342 - Ornithology (3 credits)

BIO 412 - Mammalogy (4 credits)

BIO 444 - Herpetology (4 credits)

### **Plant Electives**

Complete at least nine credits from the following courses:

BIO 243 - Plant Identification and Natural History (3 credits)

BIO 303 - Plant Morphology (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 313 - Plants and Islands (4 credits)

BIO 323 - Aquatic and Wetland Plants (3 credits)

BIO 333 - Systematic Botany (4 credits)

BIO 383 - Plant-Fungal Interactions (4 credits)

BIO 403 - Plant Structure and Function (4 credits)

BIO 433 - Plant Ecology (4 credits)

NRM 263 - Forest Vegetation of the Great Lakes Region (2 credits)

**Additional Requirements for the Wildlife Biology Major (15 credits)**

**Physical Sciences**

Complete at least nine credits from the following courses:

CHM 109 - Introductory Chemistry (4 credits) **OR** CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

CHM 232 - Biological Chemistry (4 credits)

GEO 111 - Exploring the Earth (4 credits)

NRM 281 - Principles of Soil Science (4 credits)

PHY 200 - Physics for the Life Sciences (4 credits) **OR** PHY 220 - General Physics I (5 credits)

**Mathematics and Statistics (6 credits)**

STA 215 - Introductory Applied Statistics (3 credits)

Complete at least three credits from the following courses:

MTH 122 - College Algebra (3 credits)

MTH 123 - Trigonometry (3 credits)

MTH 124 - Precalculus: Functions and Models (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 125 - Survey of Calculus (3 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

The Wildlife Biology major fulfills the B.S. degree requirements with the completion of BIO 215 - Ecology (4 credits), STA 215 - Introductory Applied Statistics (3 credits) and NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits) **OR BOTH** NRM 496 - Trends in Western U.S. Natural Resource Management (2 credits) and NRM 497 - Field Trip - Issues in Western U.S. Natural Resources Management (2 credits).

### **Suggested Order of Coursework**

#### **First Year**

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

NRM 150 - Introduction to Natural Resources (3 credits)

General education courses

Physical science elective (e.g., CHM 109 or CHM 115)

#### **Second Year**

BIO 215 - Ecology (4 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

General education courses

Physical science elective course

Wildlife elective courses

#### **Third Year**

BIO 308 - Wildlife Ecology (4 credits) **OR** NRM 308 - Wildlife Ecology (4 credits)

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

General education courses

Wildlife elective courses

Physical science elective course

#### **Fourth Year**

BIO 408 - Wildlife Management (4 credits) **OR** NRM 408 - Wildlife Management (4 credits)

NRM 495 - Trends in Natural Resource Management (Capstone) (4 credits)

MTH/STA elective course

General education courses

Wildlife elective courses

## **Biomedical Sciences**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/bms](http://gvsu.edu/bms)

The biomedical sciences major consists of courses prescribed by professional schools (medical, dental, osteopathic, veterinary, pharmacy, graduate) as essential to the successful completion of a professional school curriculum, plus electives necessary to provide educational breadth and maturity. In short, the biomedical sciences major is designed to aid students in gaining a comprehensive understanding of human life sciences and is a gateway to many exciting and meaningful career paths.

The four general areas of significance in the biomedical sciences curriculum are anatomy, physiology, microbiology, and nutrition. Faculty in the Biomedical Sciences Department are involved in a wide variety of research projects, providing numerous opportunities for undergraduate and graduate students to gain real laboratory experience. Areas of research include bacterial genetics, cancer biology, cardiovascular disease, epidemiology, human anatomy, immunology, neuroscience, obesity, parasitology, physiological biochemistry, stem cell biology, and toxicology to name a few.

#### **Degrees Offered**

Bachelor of Science in biomedical sciences, Bachelor of Science in microbiology, Master of Health Science in biomedical sciences, and emphasis in nutrition sciences.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## Participating Programs

Study Abroad ([gvsu.edu/studyabroad](http://gvsu.edu/studyabroad))

Students have an opportunity to spend a semester or a year studying at Kingston University (KU) in the United Kingdom. The School of Life Sciences at KU offers a number of courses that will be accepted as part of the biomedical sciences degrees.

## Bachelor of Science in Biomedical Sciences

### Requirements

#### Degree Requirements

Students must complete the general university degree requirements as identified in the General Academic Policies section of the Grand Valley State University Undergraduate and Graduate Catalog.

#### Required Biomedical Sciences Courses

BMS 208 - Human Anatomy (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 290 - Human Physiology (3 credits)

BMS 391 - Laboratory in Human Physiology (2 credits)

BMS 495 - Concepts in Wellness (Capstone) (3 credits)

#### Additional Required Courses

BIO 120 - General Biology I (4 credits)

BIO 355 - Human Genetics (3 credits) **OR BOTH** BIO 375 - Genetics (3 credits) **AND** BIO 376 - Genetics Laboratory (1 credit)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 241 - Organic Chemistry for Life Sciences I (5 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

CHM 461 - Biochemistry I (4 credits)

MTH 122 - College Algebra (3 credits)

MTH 123 - Trigonometry (3 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

STA 215 - Introductory Applied Statistics (3 credits)

### **Biomedical Sciences Electives**

Nine additional hours of upper-division (BMS 300-level and higher) biomedical sciences courses, excluding BMS 374 and BMS 495.

In addition, the following courses outside of BMS may also be included in these nine hours:

BIO 302 - Comparative Vertebrate Anatomy (4 credits)

BIO 416 - Advanced Genetics Laboratory (2 credits)

BIO 422 - Embryology (3 credits)

CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

CMB 411 - Genetics of Development and Cancer (3 credits)

CMB 414 - Molecular Biology of the Gene (3 credits)

CMB 426 - Research Applications in Nucleic Acids (4 credits)

CMB 440 - Research Applications in Drosophila Genomics (3 credits)

CMB 452 - Computer Modeling and Drug Design (3 credits)

CMB 460 - Genomics and Molecular Diagnostics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 462 - Techniques in Biochemistry (3 credits)

CHM 463 - Biochemistry II (3 credits)

## **Nutrition Science Emphasis**

Graduates from this emphasis will be prepared to pursue graduate training in many disciplines within the biomedical sciences, especially nutrition or physiology. Students who wish to become a registered dietitian can do so by completing an accredited didactic program in dietetics at the graduate level and an approved dietetic internship program. The nutrition emphasis also offers outstanding preparation for premedical or prephysician assistant students who are interested in understanding the mechanisms by which diet influences health and disease. In addition, this emphasis will prepare graduates for career opportunities as a laboratory technician. Because it is impossible to design one curriculum to fulfill the requirements of every graduate school or career choice, it is the student's responsibility, in consultation with an advisor, to see that requirements are met for the graduate schools or careers in which the student is interested.

## **Required Biomedical Sciences Courses**

BMS 105 - Basic Nutrition (3 credits)

BMS 208 - Human Anatomy (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 290 - Human Physiology (3 credits)

BMS 391 - Laboratory in Human Physiology (2 credits)

BMS 495 - Concepts in Wellness (Capstone) (3 credits)

**AND** any four of the following five nutrition courses (12 credits):

BMS 305 - Clinical Nutrition (3 credits)

BMS 306 - Advanced Human Nutrition (3 credits)

BMS 304 - Community Nutrition (3 credits)

BMS 407 - Nutrition in the Life Cycle (3 credits)

BMS 415 - Nutrition and Physical Performance (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Additional Required Courses**

BIO 120 - General Biology I (4 credits)

BIO 355 - Human Genetics (3 credits) **OR BOTH** BIO 375 - Genetics (3 credits) **AND** BIO 376 - Genetics Laboratory (1 credit)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 241 - Organic Chemistry for Life Sciences I (5 credits)

CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

CHM 461 - Biochemistry I (4 credits)

MTH 122 - College Algebra (3 credits)

MTH 123 - Trigonometry (3 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

STA 215 - Introductory Applied Statistics (3 credits)

## **Combined Bachelor of Science and Master of Health Science in Biomedical Sciences**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/grad/biomed](http://gvsu.edu/grad/biomed)

Qualified undergraduates may be admitted to an accelerated bachelor's/master's program and obtain both a B.S. and an M.H.S. in biomedical sciences within an accelerated time frame. Up to 12 credits of graduate work may be used in partial satisfaction of the requirements for the undergraduate degree (in alignment with university policy, a maximum of 12 credit hours of graduate work will count toward both the graduate and undergraduate degrees). If students earn at least a grade of B in each of these classes, they are granted advanced standing in the master's program. All other master's degree requirements must be met, including research and a thesis. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Application Procedure**

Students typically apply directly to the Department of Biomedical Sciences graduate program director for the combined B.S./M.H.S. program during the first semester of their third academic year. Separate application to the graduate school may be required. Complete applications will be reviewed by the graduate committee and be acknowledged within four weeks.

Application requirements include:

75 hours of academic credit completed or in progress

GPA of 3.25 or greater

Completion of BMS 208, BMS 290 and BMS 212 with a grade of B or better

Grade of C+ or better in all other science courses (e.g. BIO 120, CHM 115, CHM 116, CHM 241, CHM 242, STA 215)

One letter of recommendation from a potential research mentor

One additional letter of recommendation

Academic transcripts (unofficial transcripts are acceptable)

Letter of intent

## **Requirements During Undergraduate Studies**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.H.S. program. In the final undergraduate year, students will take 12 to 15 credits of graduate-level courses. If any courses are dual-listed, students in the combined B.S./M.H.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

Students will earn 12 graduate credits during their undergraduate program.

A student shall be considered a graduate student for all purposes upon fulfillment of one of the following events: the award of a baccalaureate degree, the completion of 12 graduate credit hours or at the request of the graduate program director with the approval of the academic dean.

## **Requirements During Graduate Studies**

After successful completion of their undergraduate program, students will be eligible to take the second year of the M.H.S. curriculum. At this point, students will be treated as graduate students

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

for purposes of tuition and fees, financial aid, etc. Students must complete all requirements for M.H.S. research concentration.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the Department of Biomedical Sciences will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

## **Master of Health Sciences in Biomedical Sciences**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/grad/biomed](http://gvsu.edu/grad/biomed)

Grand Valley's Master of Health Science (M.H.S.) in biomedical sciences provides graduate-level coursework and training for career advancement beyond that provided by a bachelor's degree.

### **General Studies (Non-Thesis)**

The general M.H.S. degree is for students who want to further their knowledge in biomedical sciences and prepare for professional schools in healthcare. This program may also address the needs of students pursuing non-research careers.

### **Research (Thesis)**

The research concentration is for students who want additional knowledge and experience before applying to doctoral programs or pursuing careers involving biomedical-related research. This option may also be chosen by students who want additional preparation for professional schools. Performance of original research and completion of a thesis is required.

### **Combined Degree**

The BMS department also offers a combined B.S. and M.H.S. degree that can be completed in five years. The combined degree is limited to the research concentration for the M.H.S.

### **Admission**

GPA of 3.0 on a 4.0 scale from all undergraduate courses

Three recommendations

Completion of undergraduate courses in anatomy, physiology, microbiology, and statistics

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Coursework in chemistry is highly recommended

Application questionnaire

## **1. Requirements for General Studies Emphasis**

Students must complete a minimum of 33 semester hour credits, including the biomedical sciences graduate core.

### **Core Courses (16 credits)**

BMS 508 - Advanced Human Physiology (3 credits)

BMS 523 - Epidemiology (3 credits)

BMS 605 - Core Principles of Gross Anatomy (4 credits) **OR BMS 560 - Regional Human Anatomy (4 credits)**

BMS 607 - Infection and Immunity (3 credits)

STA 610 - Applied Statistics for Health Professions (3 credits) **OR STA 622 - Statistical Methods for Biologists (3 credits)**

### **Additional Required Classes (3 credits)**

BMS 693 - Project in Biomedical Sciences (3 credits)

### **Electives (At least 14 credits)**

Courses to fulfill the elective credits are selected with guidance from the graduate program director. Graduate courses both within and outside of biomedical sciences can be selected if deemed appropriate and aligned with the student's career goals.

### **Integrative Written Exam**

Successful completion of an integrative written examination after completion of 18 credits including all core courses. Students who fail any part of the examination may take another examination within 12 months of the original effort.

## **2. Requirements for Research Emphasis**

Students must complete a minimum of 33 semester hour credits, including the biomedical sciences graduate core and formal thesis.

### **Core Courses (16 credits)**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 508 - Advanced Human Physiology (3 credits)

BMS 605 - Core Principles of Gross Anatomy (4 credits) **OR** BMS 560 - Regional Human Anatomy (4 credits)

BMS 607 - Infection and Immunity (3 credits)

BMS 523 - Epidemiology (3 credits)

STA 610 - Applied Statistics for Health Professions (3 credits) **OR** STA 622 - Statistical Methods for Biologists (3 credits)

### **Additional Required Classes (10 credits)**

BMS 501 - Graduate Seminar in Biomedical Sciences (1 credit)

BMS 601 - Experimental Design (3 credits)

BMS 695 - Master's Thesis Research (3 or 6 credits)

BMS 696 - Continuation of Master's Project or Thesis Research (1 credit) (if needed after completion of BMS 695)

### **Electives (At least 7 credits)**

Courses to fulfill the elective credits are selected with guidance from the graduate program director. Graduate courses both within and outside of biomedical sciences can be selected if deemed appropriate and aligned with the student's career goals.

### **3. Electives**

Courses to fulfill the elective credits are selected with guidance from the graduate program director. Graduate courses both within and outside of biomedical sciences can be selected if deemed appropriate and aligned with the student's career goals. Common elective with BMS include:

BMS 509 - Endocrinology (3 credits)

BMS 512 - Medical Bacteriology (3 credits)

BMS 526 - Sensory Systems Neuroscience (3 credits)

BMS 531 - Medical Virology (3 credits)

BMS 532 - Medical Mycology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 538 - Advanced Neuroscience (3 credits)

BMS 540 - Molecular Ecology of Infectious Disease (3 credits)

BMS 550 - Human Histology (4 credits)

BMS 608 - Pathologic Physiology (3 credits)

BMS 655 - Advanced Human Anatomy (3 credits)

BMS 679 - Clinical Practicum (3 to 6 credits)

BMS 699 - Independent Study (1 to 3 credits)

## Biostatistics

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/biostat](http://gvsu.edu/biostat)

Statistics is a discipline that develops and utilizes tools for making decisions in the presence of uncertainty. Statistics is utilized in many fields; however, when data is collected in the life sciences and medicine, we use the term biostatistics to distinguish this particular application of statistical concepts and methods. A biostatistician has academic training and/or work experience in defining research problems, formulating rational methods of inquiry, and gathering, analyzing, and interpreting data in the life sciences and medicine.

Research activities for a biostatistician cover the full range of studies that take place within the life sciences and medicine. These include clinical trials, as well as data from other preclinical, genetic, and epidemiology studies. Also included are population-based health surveys of various types and evaluations of health promotion programs. Opportunities are also available for biometrical research related to problems in agriculture wildlife and natural resources (e.g., data analyses for ongoing wildlife and water quality studies).

The objective of the M.S. program in biostatistics is to prepare professional biostatisticians who are capable of taking leadership in the application of statistical methods to the design and analysis of health research and biomedical studies and to the planning and evaluation of health services programs. Career opportunities are found in government, private industry, medical research institutions, and universities. Demand for biostatisticians is high, and graduates have their choice of a variety of attractive job offers.

Students can enter the M.S. program from a variety of academic and professional backgrounds. Some applicants pursue a degree in biostatistics directly after completing undergraduate studies. Other applicants pursue the study in biostatistics after years of experience as a medical or health

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

professional. To the extent possible, the curriculum of each student will be tailored to their background and interests.

Upon completion of the M.S. in biostatistics, the student will be prepared to function as a statistical consultant in the application of statistics to the health or medical research. This will necessitate that they receive training in both statistical methodology and the life sciences. As a result, our biostatistics program incorporates coursework in biology, computer science and information systems, and the health professions and sciences. In addition to building upon the strengths of the Grand Valley faculty and existing curricula, the program also integrates the regional health providers and scientific community through the required internship experience. Additionally, graduates will be trained in the preparation of reports, presentations, and publications resulting from health science studies.

## **Master of Science in Biostatistics**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

The M.S. in biostatistics is one of four synergistic professional science master's (PSM) degree programs at Grand Valley State University. The four programs (health informatics and bioinformatics, biotechnology, data science and analytics, and biostatistics) are interdisciplinary and involve both the university and its industry partners. All four programs emphasize teamwork, problem-solving, communication, scientific knowledge, and technical skills. Each program is designed to integrate university coursework with business/industrial internships to better prepare students for the variety of career pathways associated with the life science and health science industries. The overall objectives and interactions of these three new programs are described in the PSM section of the Grand Valley State University Undergraduate and Graduate Catalog.

The requirements for the M.S. in biostatistics consist of 37 credits with a minimum cumulative GPA of 3.0. Consistent with Grand Valley State University policy, all courses must be completed within eight consecutive years from entry into the first graduate course.

### **Admission**

To be admitted into the M.S. in biostatistics, the following is required:

Grade point average of 3.0 on a 4.0 scale from all undergraduate coursework or a satisfactory score on the GRE

Resume detailing work experiences and accomplishments

Personal statement of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Letters of recommendations from at least two individuals who are in positions to attest to the applicant's successful completion of the program

## **Requirements**

Students must complete the following requirements.

### **1. PSM Core Courses**

Twelve credits are required, including:

CMB 610 - Foundations of Biotechnology (3 credits)

CIS 661 - Introduction to Health and Bioinformatics (3 credits)

PSM 650 - Ethics and Professionalism in Applied Science (3 credits)

STA 610 - Applied Statistics for Health Professions (3 credits) **OR** STA 622 - Statistical Methods for Biologists (3 credits)

### **2. Directed Courses for Biostatistics Program**

Requires 19 credits. At least four elective credits are selected with advisor approval from graduate courses that are appropriate to each student's interests and goals. Students are strongly encouraged to meet with their advisor during their first semester to develop specific plans for their elective coursework.

STA 616 - Statistical Programming (3 credits)

STA 621 - Design of Experiments and Regression (4 credits)

STA 623 - Categorical Data Analysis (3 credits)

STA 625 - Clinical Trials (2 credits)

STA 630 - Topics in Advanced Statistical Applications (3 credits)

### **3. PSM Seminar Course**

PSM 662 - Seminar in Professional Science Practice (2 credits)

### **4. Internship**

Requires at least four credits.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PSM 691 - Internship (1 to 9 credits)

## Business (General)

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog.

The 18-credit-hour major in general business provides a broad curriculum in business for the student who desires to be a generalist. The major allows students to take courses in several business disciplines instead of concentrating on a specific emphasis. The major is designed for students who wish to work in a family-owned business or any small business that would need an employee with a broad background. In addition, the general business major may serve the interests of a student who wishes to be an entrepreneur.

## Bachelor of Business Administration

### Requirements for the Major in Business Administration

To complete the requirements for graduation with a B.B.A. degree, the following course requirements for a total of 120 undergraduate hours must be met: general education; business core; business major, major requirements listed with information on individual majors; cognates; and electives.

### Core Courses

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits) **OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course (not ECO 490) Credits: 3

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits) (required of all accounting majors)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Electives**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no credit basis.

### **Suggested Order of Coursework**

#### **Year One**

Begin general education Foundations and Cultures requirements

Begin and complete 100- and 200-level business major requirements

#### **Year Two**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Complete general education Foundations and Cultures requirements

Include at least one course designated as Supplemental Writing Skills

Begin and complete 200-level business cognate and core requirements

Complete the required Seidman Success Standard courses prior to the third year for access to 300-level business courses (all GPA and credit hour requirements criteria apply)

### **Year Three**

Begin 300-level cognate and core requirements

Begin business major and elective courses (please see a Seidman College faculty mentor for guidance on elective courses)

Begin Issues required courses in the General Education curriculum

### **Year Four**

Complete Seidman College of Business major and elective courses

Complete the Seidman College of Business Capstone

Complete Issues requirements

Complete second Supplemental Writing Skills course

## **Bachelor of Business Administration in General Business**

The 18-credit-hour major in general business provides a broad curriculum in business for the student who desires to be a generalist. The major allows students to take courses in several business disciplines instead of concentrating on a specific emphasis. The major is designed for students who wish to work in a family-owned business or any small business that would need an employee with a broad background. In addition, the general business major may serve the interests of a student who wishes to be an entrepreneur.

### **Requirements for the B.B.A.**

#### **Core Courses**

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits) **OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course - not ECO 490 (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division Seidman College courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Electives**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

## **Requirements for a Major in General Business**

In addition to the business core, the requirements are as follows.

MGT 330 - Entrepreneurship and Small Business Management (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

One of the following:

ACC 317 - Individual Income Taxation (3 credits)

ACC 318 - Entity Taxation (3 credits)

One of the following:

FIN 321 - Investments (3 credits)

FIN 322 - Intermediate Managerial Finance (3 credits)

FIN 331 - Risk and Insurance (3 credits)

One of the following:

MKT 351 - Consumer Behavior (3 credits)

MKT 352 - Marketing Research (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MKT 451 - Marketing Strategy (3 credits)

One of the following:

ACC 330 - International Accounting (3 credits)

ECO 349 - Emerging Markets Issues (3 credits)

ECO 365 - Comparative Economic Systems (3 credits)

ECO 369 - International Economic Issues (3 credits)

ENT 350 - Entrepreneurial Business Plan (3 credits)

FIN 429 - International Financial Management (3 credits)

MGT 303 - International Business and Culture (3 credits)

MGT 437 - Family Business (3 credits)

MGT 466 - International Management and Multinational Corporations (3 credits)

MKT 359 - Multinational Marketing (3 credits)

**AND** one three-credit internship in any business discipline.

Students with business experience may meet with an advisor to discuss substituting an alternative course for their internship experience.

The upper division economics course selected as part of the business requirements cannot double count in a general business major.

## **Bachelor of Business Administration in International Business**

### **Requirements for the B.B.A.**

#### **Core Courses**

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)

**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course - not ECO 490 (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following. This course may count toward the major or minor if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Elective Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

## **Requirements for a Major in International Business**

International business majors must complete all requirements for the B.B.A. degree, plus the specific requirements for the major noted as follows.

### **Background Component**

Required course:

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

### **International Business Component**

Four courses from the following group:

ACC 330 - International Accounting (3 credits)

ECO 369 - International Economic Issues (3 credits)

FIN 429 - International Financial Management (3 credits)

MGT 433 - International Human Resource Management (3 credits)

MGT 466 - International Management and Multinational Corporations (3 credits)

MKT 359 - Multinational Marketing (3 credits)

One course from the following group:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 349 - Emerging Markets Issues (3 credits)

ECO 365 - Comparative Economic Systems (3 credits)

PLS 315 - International Political Economy (3 credits)

### **Cultural Component**

Students must take six hours of course credit that may be completed by taking EITHER of the following options.

#### **OPTION A**

Take two courses from the following:

BUS 301 - International Business and Culture (3 credits)

EAS 201 - East Asia in the Contemporary World (3 credits)

GPY 220 - Cultural Geography (3 credits)

GPY 235 - Geography for a Changing World (3 credits)

GPY 350 - Geopolitics, Energy and Environment of Russia and Central Eurasia (3 credits)

GPY 352 - Geography of Latin America (3 credits)

LAS 210 - Exploring Latin America (3 credits)

PLS 211 - International Relations (3 credits)

PLS 221 - Government and Politics of Western Europe (3 credits)

PLS 283 - Chinese Politics and U.S.-China Relations (3 credits)

PLS 327 - Politics of Developing Countries (3 credits)

Other courses in a variety of disciplines may be used to fulfill this group as approved by the advisor.

#### **OPTION B**

At least six hours of international internship credit. This option is highly recommended.

## **Business Fundamentals, Undergraduate Certificate**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Requirements

ACC 201 - Accounting for Non-Business Majors 1 (1.5 credits)

ACC 202 - Accounting for Non-Business Majors 2 (1.5 credits)

FIN 300 - Fundamentals of Finance for Non-Business Majors (3 credits)

MGT 300 - Fundamentals of Management for Non-Business Majors (3 credits)

MKT 300 - Fundamentals of Marketing for Non-Business Majors (3 credits)

## Business Minor

Eligible business majors who elect to complete one of the business minors may be required to extend their degree programs beyond the minimum 120-semester-hour university degree requirement.

The undergraduate minor program in business is for nonbusiness majors and includes 18 credit hours of courses listed below. This minor is designed to complement major fields of study in other departments or schools. It is not designed to satisfy the requirements for teacher certification.

### Requirements for a Minor in Business

Students must achieve a minimum 2.5 GPA in these courses to receive the business minor designation. Courses cannot be taken on a credit/no-credit basis.

**Both** ACC 212 - Principles of Financial Accounting (3 credits) and ACC 213 - Principles of Managerial Accounting (3 credits)

**OR** ACC 201 - Accounting for Non-Business Majors 1 (1.5 credits), ACC 202 - Accounting for Non-Business Majors 2 (1.5 credits), and HTM 273 - Hospitality and Tourism Financial Decision Making (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

FIN 300 - Fundamentals of Finance for Non-Business Majors (3 credits) **OR** FIN 320 - Managerial Finance (3 credits)

MGT 300 - Fundamentals of Management for Non-Business Majors (3 credits) **OR** MGT 331 - Managing People and Organizations (3 credits)

MKT 300 - Fundamentals of Marketing for Non-Business Majors (3 credits) **OR** MKT 350 - Marketing Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Digital Micro Master's Badge in Emerging Leadership

The digital Micro-Master's badge in emerging leadership is designed to prepare emerging leaders for the challenges they will experience as they gain greater levels of responsibility. The badge (not a degree or certificate) will prepare students for success as

effective leaders; students will learn how to influence others based on their own leadership style and the fundamentals of effective leadership at the supervisory level;

integrative thinkers; they will gain an understanding of how all the different functions in a firm fit together as a whole; and

strategic analyzers; students will be able to provide strategic recommendations to specific organizational problems.

## Admission

Completion of a bachelor's degree is required for admission. Strong preference will be given to candidates with at least three years of experience and company support.

Contact for admissions/inquiries:

Seidman Graduate Services Office: [gvsu.edu/seidmangrad](http://gvsu.edu/seidmangrad)

Assistant Dean, Student Engagement and Graduate Program Operations: Koleta Moore.

## Requirements

The digital badge is cohort based, comprised of five courses (14 credits), and concludes with an applied project that is part of the coursework.

## Courses

Students must complete the following (14 credits):

BUS 501 - Self-Management for Leaders (2 credits)

BUS 502 - Operational Alignment for Leaders (2.5 credits)

BUS 503 - Leading and Empowering Teams (2.5 credits)

BUS 504 - Essentials of Enterprise Leadership (3.5 credits)

BUS 505 - Implementing Principles of Strategic Leadership (3.5 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

In addition to courses, students will participate in coaching and professional mentoring. One-on-one coaching is designed for students' professional development and is not an internship. This will be done with industry mentors who will be available for the duration of the program; students will be able to collaborate with them for professional networking and guidance. The mentors will be arranged by the Seidman College of Business and will be available for guidance and coaching for about five hours during completion of the 14 credits.

## **Master of Business Administration**

**Website:** [gvsu.edu/seidmangrad](http://gvsu.edu/seidmangrad)

### **Master of Business Administration (Professional M.B.A.)**

The professional M.B.A. serves primarily working professionals. Most students attend classes part-time while working full-time. This facilitates a synergistic connection between the classroom and the workplace. M.B.A. students bring diversity of academic and professional backgrounds, making the classroom a dynamic environment for the exchange of perspectives and ideas.

### **Admission**

The Seidman College of Business seeks individuals who want to build a meaningful career. Admission to the M.B.A. program is competitive because the M.B.A. Admissions Committee carefully considers each applicant. The M.B.A. Admissions Committee takes a holistic approach to candidate evaluation with consideration of relevant professional experience, potential for career growth, academic ability, leadership qualities, communication and interpersonal skills, and motivation for success. Applicants with managerial, operational, or decision-making experience receive preference for admission. Seidman purposefully maintains a relatively small class size and values candidates with diverse backgrounds, skill sets, cultures, and talents. No particular undergraduate major is necessary for students applying to the M.B.A. program. Instead, candidates must demonstrate competency in background business subjects.

To apply, students should

- complete the M.B.A. application (including essays/personal statement);

- submit official transcripts;

- submit a recent resume;

- provide two graduate references; and

- provide official GMAT scores (if applicable).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

International students may be required to submit additional documents as part of their admission materials.

Individuals who submit all required documents may be selected for an interview as part of the admission process.

### **Waiver of the Graduate Management Admission Test (GMAT) Requirement**

Most prospective graduate business students take the GMAT. The GMAT is strongly recommended and may be used to strengthen the applicant's profile. A GMAT waiver is an option for highly qualified individuals.

To be considered for a GMAT waiver, candidates must meet one of the following criteria:

Document at least three years of relevant professional experience that shows increased responsibilities over that period.

Document having earned an acceptable score on the Graduate Record Examination (GRE); other graduate exams may be considered by request.

A transcript showing undergraduate GPA of 3.2 or higher from an AACSB-accredited business program.

A transcript showing undergraduate GPA of 3.4 or higher from a regionally accredited university in any major.

Document having earned a master's degree or higher from a regionally accredited program.

Meeting the criteria to waive the GMAT does not guarantee admission to the M.B.A. program. Even those who are eligible to waive should consider taking the GMAT because a strong score increases the likelihood of admission.

### **Transfer Credit**

No transfer credit is accepted for the M.B.A. program.

### **Academic Review**

A cumulative GPA of 3.0 is required in all graduate level courses that fulfill graduation requirements for the M.B.A. A grade of C or better must be earned in all graduate courses that fulfill graduation requirements for the M.B.A.

### **Program Location**

The M.B.A. program is offered on the Pew Grand Rapids Campus in the L. William Seidman Center in downtown Grand Rapids, MI.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Graduate Outcomes/Time to Program Completion**

The Seidman College of Business faculty has identified the following learning goals for M.B.A. students. Objectives related to each goal are assessed regularly to ensure that they are being achieved.

Effective business communications

Business acumen and strategic decision making

Global and intercultural competence

Value-driven leadership

The cohort-based program is typically completed in 22 months.

The Seidman College of Business faculty has adopted APA as the standard citation style for M.B.A. coursework. Unless a faculty member indicates otherwise, students are expected to use this citation method where appropriate in their written coursework.

## **Requirements for the Professional M.B.A.**

The M.B.A. program consists of 36 semester hours of graduate coursework. Foundational competencies may need to be proven by students based on undergraduate major and performance.

### **Foundational Business Competencies**

Foundational competencies may be met by

completion of courses;

successful completion of the test-out exams for each area; and

completion of accelerated self-study segments and exams.

Please see the Seidman College of Business Graduate Programs office for specific foundational tests.

### **M.B.A. Courses**

The following courses (36 credits) are required of all professional M.B.A. students.

#### **Summer Starter Courses**

M.B.A. Boot Camp:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MBA 601 - Applied Data Analysis and Decision Making (1 credit)

MBA 675 - Legal Environment for Business (1 credit)

MBA 676 - Leading People and Teams (1 credit)

MBA 681 - Strategic Mindset and Customer Centricity (1 credit)

### **Semester One**

Fall:

MBA 611 - Accounting for Managers (3 credits)

MBA 641 - Applied Business Economics (3 credits)

Winter:

MBA 621 - Financial Management (3 credits)

MBA 651 - Marketing for Professionals (3 credits)

Spring/Summer:

MBA 677 - Advanced Leadership and Ethics (1.5 credits)

MBA 674 - Self-Awareness and Leadership Style for MBAs (1 credit)

### **Semester Two**

Fall:

MBA 631 - Leading People and Organizations (3 credits)

MBA 660 - Operations and Supply Chain Management (3 credits)

MBA 679 - Effective Leadership (1 credit)

Winter:

MBA 610 - Management Information Systems and Business Intelligence (2 credits)

MBA 683 - Strategic and Global Competitiveness (6 credits)

Spring/Summer:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MBA 678 - Advanced Leadership and Ethics (1.5 credits)

MBA 684 - Professional Consulting and Communications (1 credit)

The M.B.A. culminates with a real-world, integrative project that takes place during the final two semesters of the program. It is facilitated by the program's academic director and evaluated by the academic director and supporting faculty.

### **Master of Business Administration (Executive M.B.A.)**

The executive M.B.A. serves experienced professionals. The program is cohort-based, and classes meet primarily on select Fridays and Saturdays throughout a 22-month period. The curriculum is highly strategic and systems oriented. It culminates in a real-world project.

### **Admission to the Executive M.B.A.**

A bachelor's degree and at least five years of significant professional experience are required for consideration, and final selection is based on prior academic performance, potential for leadership, and employer recommendation. Applicants must submit official documentation of all previous college coursework, and personal statements, recommendations, and resumes. Any major is acceptable.

### **Transfer Credit**

No transfer credit is accepted for the EMBA program.

### **Academic Review**

A cumulative GPA of at least 3.0 is required in all 600-level courses that fulfill graduation requirements for the executive M.B.A. A grade of C or better must be earned in all graduate courses that fulfill graduation requirements for the EMBA.

### **Program Location**

The executive M.B.A. program is offered in the L. William Seidman Center on the Pew Grand Rapids Campus, located downtown in Grand Rapids, MI.

### **Graduate Outcomes/Time to Program Completion**

The Seidman Center faculty has identified learning goals for executive M.B.A. students, which are listed previously in the traditional Master of Business Administration section of this catalog.

The program is four semesters and meets throughout 22 months.

### **Requirements for the Executive M.B.A.**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The EMBA program consists of 39 semester hours in a lock-step format. Preparation for M.B.A. coursework in areas of accounting, finance, business law, and economics can be fulfilled through GVSU courses and/or established online courses. Individualized program plans inform each student which foundation area(s) need to be completed and provide direction for completion. Also required is a series of workshops that integrate the academic curriculum and provide executive, focused professional development.

### **Core Courses**

The following core courses are required of all EMBA students (39 credits).

#### **Semester One**

EMBA 601 - Financial Accounting for Executives (1.5 credits)

EMBA 610 - Strategic Information Systems for Executives (2 credits)

EMBA 611 - Managerial Accounting for Executives (1.5 credits)

EMBA 641 - Business Economics for Executives (3 credits)

EMBA 681 - Developing the Strategic Mindset (1 credit)

#### **Semester Two**

EMBA 621 - Finance for Executives (3 credits)

EMBA 651 - Marketing Management for Executives (3 credits)

EMBA 652 - Negotiations for Executives (2 credits)

EMBA 675 - Law for Executives (3 credits)

#### **Semester Three**

EMBA 626 - Financial Policy for Executives (3 credits)

EMBA 635 - Organizational Change Management (2 credits)

EMBA 636 - Emerging Trends--Industry Disruptions and Firm Sustainability (3 credits)

EMBA 667 - Service and Value Chain Management (3 credits)

EMBA 682 - Systems Thinking and Advanced Tactics (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Semester Four**

EMBA 678 - Executive Leadership and Ethics (3 credits)

EMBA 683 - Corporate Strategy for Executives (3 credits)

## **Additional Professional Development**

Approximately 130 hours of professional development over four semesters will be facilitated by the program's executive director. It is integral to the program's overall goals and is required of all students.

## **Semester One**

Team building

Innovation

Content integration

## **Semester Two**

Content integration

## **Semester Three**

Action learning Capstone project\*

Content integration

## **Semester Four**

Action learning Capstone project\*

Content integration

## **\*Culminating Experience**

The executive M.B.A. culminates with a real-world, integrative project that takes place during the final two semesters of the program. It is facilitated by the program's executive director and evaluated by the executive director and academic director.

# **Business Administration**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog.

**Website:** [gvsu.edu/seidman](http://gvsu.edu/seidman)

The undergraduate business program provides students with business education that blends liberal arts and professional courses with practical application. The programs are designed to prepare students for careers in various business areas as well as for admission into graduate and professional schools.

## **Admission**

Refer to Seidman College of Business in the Colleges section of this catalog.

## **Academic Review**

In order to graduate, business students must achieve a 2.5 minimum cumulative GPA and a 2.5 minimum cumulative GPA in all Seidman College business and economics courses. If the cumulative GPA falls below 2.5, students will be considered to be on an academic contract with Seidman College. Students will not be permitted to take additional 300- and 400-level business and economics courses. However, such students may repeat 300- and 400-level Seidman College business and economics courses for which they received a low grade. Students are advised to contact the Seidman Undergraduate Programs Office for assistance. Once students reestablish themselves in good standing with Seidman College by improving their grade point average to a 2.50 or higher, they can be reassigned to their Seidman College major.

Students may repeat up to three different business and economics courses in their undergraduate career, but no single business or economics course can be repeated more than once. Exceptions are made only with the approval of the assistant dean for Seidman Academic Student Services.

It is the policy of the Seidman College of Business that no credit shall be earned for any course if, at any time, it is found that the student has not met the prerequisites as determined by the head of the unit offering the course.

## **Academic Advising**

All routine advising for program requirements and scheduling for undergraduate students is provided by the Seidman Undergraduate Programs Office, 1041 SCB, L. William Seidman Center. Appointments are available at either the Seidman Center or in Allendale by calling (616) 331-7500. It is the student's responsibility to contact the office for program planning. First year and sophomore business students are encouraged to contact any faculty member or the Seidman Undergraduate Programs Office concerning business career opportunities and advice. A faculty advisor will be assigned when a student is admitted to the upper-division program.

## **Internship Opportunities**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Undergraduate business students are encouraged to become involved in, and receive academic credit for, a work experience directly related to their major. Junior and senior students who wish to apply must have completed at least nine hours of the core program requirements and should have an overall GPA of 2.5 or higher to be eligible. Internship application forms are available at the Seidman Undergraduate Programs Office. Students selected will intern for a varied number of hours each week depending on the number of credits of the internship. Coordination of each internship is provided by the Seidman Internship Coordinator. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements.

## **Transfer Students**

Transfer students may receive transfer credit for basic courses in accounting, business law, computing, economics, management, marketing, mathematics, and statistics completed at their junior or community college.

In all cases, transfer students may apply a maximum of 24 hours of transfer credit for business courses toward their Seidman College of Business degree and four of the six business major courses required for the degree at the Seidman College of Business. It is extremely important that transfer students meet with an advisor in the Seidman Undergraduate Programs Office before registering for classes.

## **Graduate Business Program**

The graduate business programs are open to qualified individuals with bachelor's degrees from accredited colleges and universities.

## **Participating Programs**

### **B.B.A./J.D.**

The Seidman College of Business and Michigan State University College of Law (MSU COL) have partnered to offer a "3+3" program (Legal Education Admission Program - LEAP) that gives Grand Valley business students the opportunity to earn a B.B.A. and a Juris Doctor (J.D.) in approximately six years.

Interested students complete a minimum of 96 credits comprised of the required undergraduate courses in their first three years of study at Grand Valley. This includes all university-level requirements as well as the requirements for the specific business major. Upon admission to the law school, Seidman College students complete their undergraduate electives with law school courses. Up to 24 credits of MSU COL work in which the student earned a 2.0 or above will be accepted. MSU COL courses may be applied to the four upper-division elective courses (12 credits) required for the B.B.A. The B.B.A. will be awarded upon satisfactory completion of the number of credits and requirements necessary for the undergraduate program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students may apply anytime during their junior year for admission to LEAP. GVSU students interested in LEAP must have a minimum grade-point average of 3.60, and a score of 156 or higher on the Law School Admission Test (LSAT) is highly recommended. A Joint Committee comprised of faculty from both institutions will admit students to the LEAP program on the basis of undergraduate record, ACT scores, and other information deemed relevant. Additionally, applicants to the program must obtain letters of recommendation from the GVSU LEAP advisor and a second recommendation from another GVSU faculty member, with both recommenders commenting on the applicant's preparedness for this accelerated program.

## **Honors Organizations**

### **Beta Alpha Psi: Kappa Beta Chapter**

Beta Alpha Psi is a national scholastic and professional honors society. The primary objective of the society is to encourage and give recognition to scholastic and professional excellence in the field of accounting, finance, and information systems. Grand Valley's chapter of Beta Alpha Psi is dedicated to enhancing career opportunities and providing a social environment for persons of similar life goals. The chapter has regular meetings, sponsors speakers, participates in outreach programs such as the VITA (Volunteer Income Tax Assistance) program, and holds numerous social events. Members have the opportunity to attend regional and national meetings held in different cities each year. Membership allows students to learn firsthand about elements of a successful accounting career and ensures multiple network opportunities with practicing professional accountants.

Membership is open to any part- or full-time student majoring in accounting and finance at Grand Valley with an upper level cumulative GPA in declared area of concentration of at least a 3.0 (based on a 4.0 scale) and a cumulative overall GPA of at least 3.0 (or an overall GPA of 3.25 for the last 35 credits).

### **Beta Gamma Sigma**

The Grand Valley State University chapter of Beta Gamma Sigma is the international national honor society serving business programs accredited by AACSB International, The Association to Advance Collegiate Schools of Business, in business administration, promotes high scholarship in business education by recognizing and rewarding scholastic attainment in business subjects.

Membership in Beta Gamma Sigma is awarded once each year to undergraduate and graduate students who are in the top 10 percent of the second semester sophomore class, the top 10 percent of the junior class, the top 10 percent of the senior class, and the top 20 percent of graduating masters' students. Induction occurs annually near the end of the winter semester.

### **Omicron Delta Epsilon**

Grand Valley is home to Omicron Delta Epsilon's Rho Chapter of Michigan. Omicron Delta Epsilon is the international honor society for economics and is one of the world's largest academic honor societies. The objectives of Omicron Delta Epsilon include recognition of scholastic attainment, the honoring of outstanding achievement in economics and the

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

establishment of closer ties between students and faculty in economics within and among colleges and universities.

Membership is open primarily to economics majors (although nonmajors who have a significant interest in economics will also be considered) who have completed at least 12 credit hours of economics courses, have at least an overall B average at Grand Valley and a minimum 3.0 GPA in their economics courses, and be ranked in the top third of their class. Induction occurs annually near the end of the winter semester.

## **Bachelor of Business Administration in General Management**

This major is recommended for students interested in more diverse areas of management and allows for combining interests in areas such as human resource management, management information systems, and operations management by selecting from a range of courses.

### **Requirements for the B.B.A.**

#### **Core Courses**

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)

**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course - not ECO 490 (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major, if one is declared.

### **Elective Courses**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no credit basis.

### **Required Courses**

In addition to the two courses required as follows, six additional management courses are required at or above the 300-level.

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

## **Combined Bachelor of Business Administration and Juris Doctor**

Seidman College of Business and Michigan State University College of Law (MSU Law) have partnered to offer a 3+3 program (Legal Education Admission Program - LEAP) that gives Grand Valley business students the opportunity to earn a B.B.A. and a Juris Doctor (J.D.) in approximately six years.

Interested students complete a minimum of 96 credits comprised of the required undergraduate courses in their first three years of study at Grand Valley. This includes all university-level requirements as well as the requirements for the specific business major. Upon admission to the law school, Seidman College students complete their undergraduate electives with law school courses. Up to 24 credits of MSU Law work in which the student earned a 2.0 or above will be accepted. MSU Law courses may be applied to the four upper-division elective courses (12 credits) required for the B.B.A. The B.B.A. will be awarded upon satisfactory completion of the number of credits and requirements necessary for the undergraduate program.

The Legal Education Admission Program (LEAP) is open only to students who matriculate as first-year students at Grand Valley. Students may apply any time prior to their senior year for consideration for the program. A Joint Committee comprised of faculty from both institutions will admit students to the LEAP program on the basis of undergraduate record, ACT scores, and other information deemed relevant. In order to be eligible for consideration for final admission to MSU Law, 3+3 students must have earned an aggregate Grand Valley GPA of 3.5 or above, scored 156 or above on the LSAT, and satisfied any other current MSU College of Law admission requirements.

## **Business Economics**

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog.

### **Bachelor of Business Administration in Business Economics**

#### **Requirements for a Major in Business Economics**

Because economics is a department in the Seidman College of Business, students pursuing a B.B.A. in economics must achieve a 2.5 or higher cumulative GPA, have completed 55 semester hours, and achieved a 2.5 or higher combined GPA in ACC 212, BUS 201, ECO 210, ECO 211, MGT 268, and STA 215 to be admitted to the business economics program. To graduate, upper-division economics majors must achieve a 2.5 minimum cumulative GPA and a 2.5 minimum

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPA in all economics courses. A student whose cumulative GPA falls below 2.5 will not be permitted to take additional 300- and 400-level economics or business courses. However, such students may repeat 300- and 400-level economics and business courses for which they received a low grade. Students may repeat up to three different economics and business courses in their undergraduate career, but no single economics or business course can be repeated more than once. Exceptions are made only with the approval of the associate dean of the Seidman College of Business. Business economics majors are eligible to participate in the business internship program.

Students who plan to enter a graduate program in economics or a related field are highly encouraged to take the following courses: MTH 201, MTH 202, MTH 203, and MTH 204. These students should also consider a mathematics or statistics minor and consult with their advisors at an early date to explore alternatives and plan their coursework.

## **Requirements for the B.B.A.**

### **Core Courses**

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)  
**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course (not ECO 490) (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Electives**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

### **General Business Economics**

General business economics students will focus on applications in business and public policy issues. General business economics supports careers in fields such as banking, business analysis, insurance services, and marketing research. This emphasis is also a solid foundation for graduate programs.

### **Required Courses**

The upper-division economics course selected as part of the core requirements cannot count as an economics major course.

ECO 300 - Data Analytics for Economics and Business (3 credits)

ECO 312 - Applied Microeconomics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 313 - Business Cycles and Growth (3 credits)

ECO 495 - Senior Economic Project (Capstone) (3 credits)

ECO elective at the 300- or 400-level (3 credits)

ECO elective at the 300- or 400-level (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

## **Real Estate Business Economics**

This emphasis supports careers such as real estate agent, commercial and residential appraiser, mortgage broker, commercial lender, urban planner, title examiner, location specialist, REIT manager, and regional developer. In addition to the required courses listed as follows, it is highly recommended that students take ECO 490 - Economics Internship in real estate work and ECO 385/GPY 385. Students who obtain the economics B.B.A. with the real estate emphasis must take the following courses.

### **Required Courses**

The upper-division economics course selected as part of the core requirements cannot count as an economics major course.

STA 215 - Introductory Applied Statistics (3 credits)

ECO 300 - Data Analytics for Economics and Business (3 credits)

ECO 312 - Applied Microeconomics (3 credits)

ECO 313 - Business Cycles and Growth (3 credits)

ECO 336 - Urban and Real Estate Economics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 495 - Senior Economic Project (Capstone) (3 credits)

FIN 350 - Real Estate Principles (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

### **Requirements for an Honors Emphasis in Business Economics**

The undergraduate honors emphasis in economics is for students pursuing a B.B.A. degree in business economics. Students must achieve a minimum 3.2 GPA in their economics courses and a 3.2 GPA in their overall degree to receive the honors emphasis designation. Courses cannot be taken on a credit/no-credit basis. Students are required to complete the following classes:

ECO 210 - Introductory Macroeconomics (3 credits)

ECO 211 - Introductory Microeconomics (3 credits)

ECO 300 - Data Analytics for Economics and Business (3 credits)

ECO 312 - Applied Microeconomics (3 credits)

ECO 313 - Business Cycles and Growth (3 credits)

ECO 450 - Advanced Economic Policy and Analysis (3 credits)

ECO 495 - Senior Economic Project (Capstone) (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

# Cardiovascular Sonography

**Website:** [gvsu.edu/cvs](http://gvsu.edu/cvs)

Sonographers specialized in echocardiography and vascular sonography utilize sound waves to produce diagnostic images and guide invasive and noninvasive procedures of the body. Sonographers work collaboratively with cardiologists, radiologists, and vascular surgeons to diagnose a diverse range of conditions related to the heart and circulatory system. A sonographer practicing in the field of echocardiography and vascular sonography must be well-versed in sectional anatomy, clinical medicine, cardiovascular pathology, and ultrasound physics.

## Skills Required for Cardiovascular Sonography

Comprehensive understanding of cardiovascular anatomy and physiology

Effective communication and interpersonal skills with patients and other health care professionals

Critical thinking

Time management

Ability to master new fine-motor physical skills

Compassionate and effective interaction with the sick or injured

## Career Opportunities

Career opportunities for sonographers in adult echocardiography, pediatric echocardiography, and vascular sonography are vast, ranging from inpatient to outpatient settings, large hospitals to private doctors' offices, as well as the ability to travel. Sonographers will work in collaboration with other medical professionals such as doctors, nurses, stress technicians, and surgeons to provide diagnostic services. Career advancement opportunities exist in education, administration, research, and in commercial companies such as education/application specialists, sales representatives, and technical advisors.

## Cardiovascular Sonography Program

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students receive didactic, laboratory, and clinical experiences in the university's laboratories and through a clinical education system. Clinical education sites are located as far as three hours from GVSU. Students must have transportation available to these sites. Students should be aware that prior to the beginning of their clinical courses, they must complete comprehensive health compliance obligations including but not limited to a criminal background check, fingerprinting, and drug screening. It is the responsibility of the student to comply. If there is illegal activity in the background check/fingerprinting, or if there is evidence of one or more prohibited substances in the drug test, the clinical sites have the right to refuse a student's placement, a factor which may negatively impact a student's ability to progress in the cardiovascular sonography (CVS) program. In addition, individuals who have been charged with or convicted of a crime may not be eligible for national certification by the American Registry for Diagnostic Medical Sonography (ARDMS). Students to whom this may apply are strongly advised to work with the ARDMS for preapplication review of eligibility for certification from their website at [ardms.org](http://ardms.org). ARDMS contact information: Telephone (301) 738-8401 or (800) 541-9754; Fax (301) 738-0312. Students who complete the cardiovascular sonography major from GVSU may become eligible for the ARDMS examinations, upon completion of specific clinical requirements that are promulgated by the credentialing organizations. Information on these requirements changes from time to time and is available on the credentialing organization websites. Granting of the baccalaureate degree is not contingent on taking ARDMS examinations.

## **Accreditation**

The cardiovascular sonography program is accredited under the Commission on Accreditation of Allied Health Education Program (CAAHEP) and programmatically through the Joint Review Committee on Education in Cardiovascular Technology (JRC-CVT). For more information, please visit [jrccvt.org](http://jrccvt.org).

## **Admission Criteria**

### **Selection Factors**

Admission to the cardiovascular sonography (CVS) program is a competitive selective process that requires a secondary application. Prospective students can access the application at [gvsu.edu/cvs](http://gvsu.edu/cvs). The CVS program is administered through the College of Health Professions: [gvsu.edu/chp](http://gvsu.edu/chp). Students who complete the prerequisite and general education courses by August of the year they start the program are eligible to apply **February 1** of the same year. This coursework is typically completed by the end of the sophomore year. Applicants are selected to enroll based on the following criteria.

Academic grade point average from completed prerequisite courses.

AHS 100 - Medical Terminology (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

MTH 122 - College Algebra (3 credits)

PHY 220 - General Physics I (5 credits)

PSY 101 - Introductory Psychology (3 credits)

SOC 105 - Social Problems (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

**AND** one of the following research methods courses:

AHS 301 - Introduction to Health Care Research (3 credits)

PSY 300 - Research Methods in Psychology (3 credits)

BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)

#### Admission Considerations:

Academic grade point average from prerequisite courses (40%)

Academic grade point average from previous two calendar years (10%)

Interview and/or writing assessment completed on-site at the College of Health Professions (30%)

Health care experience: Minimum of 16 hours volunteer or paid and two to three hours job shadow (5%)\*

Recommendations (5%)

Additional leadership considerations (10%)

Physical performance requirements and technical standards

Grade of C (2.0) or higher for each prerequisite course

Two SWS courses are required for graduation. It is the responsibility of the student to select courses that will fulfill all writing requirements.

There are no waiting lists for this program. Program class size limit is based on clinical availability.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Once admitted to the CVS program students are expected to achieve a grade of B- or higher in all major courses to continue in the program.

## **Bachelor of Science in Cardiovascular Sonography**

### **Requirements for a Major in Cardiovascular Sonography**

#### **Prerequisite Courses (35 credits)**

Note: A grade C (2.0) or higher is required for each prerequisite course.

AHS 100 - Medical Terminology (3 credits)

BIO 120 - General Biology I (4 credits)

BMS 250 - Anatomy and Physiology I (4 credits) prerequisite BIO 120\*

BMS 251 - Anatomy and Physiology II (4 credits)

MTH 122 - College Algebra (3 credits) prerequisite MTH 110

PHY 220 - General Physics I (5 credits) prerequisite MTH 123

PSY 101 - Introductory Psychology (3 credits)\*

SOC 105 - Social Problems (3 credits)\*

STA 215 - Introductory Applied Statistics (3 credits)\*

**AND** one of the following:

AHS 301 - Introduction to Health Care Research (3 credits)

PSY 300 - Research Methods in Psychology (3 credits)

BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)

\*Also fulfills general education requirements

#### **General Education Requirements: Foundations and Cultures (12 credits + 6 Issues credits)**

Remaining general education courses not covered in the major coursework or major prerequisites:

General education Arts (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

General education Philosophy and Literature (3 credits)

General education Historical Perspectives (3 credits)

General education Global Perspectives (3 credits)

Issues (Two courses that can be taken when student has 55+ credits.) (6 credits)

AHS 340 is a required program and Issues course

WRT 150 - Strategies in Writing (4 credits) **OR BOTH** WRT 120 - Strategies in Writing - Stretch I (3 credits) **AND** WRT 130 - Strategies in Writing - Stretch II (3 credits)

Students are strongly encouraged to meet periodically with their academic advisor to determine their progress toward and eligibility for admission into the cardiovascular program: [gvsu.edu/chpss](http://gvsu.edu/chpss). Students are assigned to a College of Health Professions Student Services academic advisor prior to program admission. Upon admission into the program students are assigned to a CVS faculty advisor.

### **B.S. Program Requirements (10 credits)**

BMS 250 - Anatomy and Physiology I (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

**AND** one of the following:

AHS 301 - Introduction to Health Care Research (3 credits)

BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)

PSY 300 - Research Methods in Psychology (3 credits)

Note: STA 215 is a prerequisite for the three previously listed research courses.

### **Cardiovascular Sonography Courses (68 credits includes Issues course)**

The cardiovascular sonography major prepares students for clinical practice in adult echocardiography, pediatric echocardiography, and vascular sonography. Cardiovascular sonographers work collaboratively with cardiologist, radiologists, vascular surgeons, or other specialized physicians to diagnose a diverse range of conditions involving invasive and noninvasive procedures using complex computerized high-frequency sound wave and Doppler signal equipment. The sonographer must acquire excellent knowledge of sectional anatomy, clinical medicine, pathology, and the use of sonographic instrumentation.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## Major Coursework

AHS 340 - Health Care Management (3 credits) Required Issues course.

RIE 330 - Echocardiography I (4 credits)

RIE 331 - Echocardiography I Laboratory (2 credits)

RIE 332 - Echocardiography II (3 credits)

RIE 333 - Echocardiography II Laboratory (1 credit)

RIE 340 - Cardiac and Vascular Hemodynamics (2 credits)

RIE 341 - ECG in Radiologic and Imaging Sciences (2 credits)

RIE 360 - Introduction to Echocardiography Clinical (2 credits)

RIE 361 - Echocardiography Clinical Education I (2 credits)

RIE 362 - Echocardiography Clinical Education II (3 credits)

RIE 363 - Pediatric Echo Clinical Education I (2 credits) **OR** RIE 366 - Vascular Sonography Clinical Education I (2 credits)

RIE 432 - Vascular Sonography I (2 credits)

RIE 433 - Vascular Sonography I Laboratory (1 credit)

RIE 434 - Pediatric Echocardiography I (3 credits)

RIE 435 - Pediatric Echocardiography I Laboratory (1 credit)

RIE 436 - Vascular Sonography II (2 credits)

RIE 437 - Vascular Sonography II Laboratory (2 credits)

RIE 438 - Pediatric Echocardiography II (3 credits)

RIE 439 - Vascular Sonography III (2 credits)

RIE 440 - Vascular Sonography III Laboratory (1 credit)

RIE 457 - Cardiovascular Image Evaluation (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

RIE 463 - Pediatric Echocardiography Clinical Education II (3 credits) **OR** RIE 466 - Vascular Sonography Clinical Education II (3 credits)

RIE 464 - Pediatric Echocardiography Clinical Education III (3 credits) **OR** RIE 467 - Vascular Sonography Clinical Education III (3 credits)

RIE 495 - Advanced Clinical Problems in Echocardiography and Vascular Sonography (3 credits)

RIT 441 - Gross Human Sectional Anatomy (4 credits)

RIU 320 - Applied Ultrasound Physics Instruction I (2 credits)

RIU 321 - Applied Ultrasound Physics Instruction I Lab (1 credit)

RIU 324 - Applied Doppler Ultrasound Physics (2 credits)

RIU 420 - Applied Ultrasound Physics Instruction II (2 credits)

## **Suggested Order of Coursework**

### **Year One**

Fall Semester (15 credits):

BIO 120 - General Biology I (4 credits)

MTH 110 - Algebra (4 credits) **OR** Math Placement Test

WRT 150 - Strategies in Writing (4 credits) **OR** WRT 120 - Strategies in Writing - Stretch I (3 credits)

General education Arts (3 credits)

Winter Semester (16 credits):

AHS 100 - Medical Terminology (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

MTH 122 - College Algebra (3 credits)

PSY 101 - Introductory Psychology (3 credits)

SOC 105 - Social Problems (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Year Two**

Fall Semester (14-15 credits):

BMS 251 - Anatomy and Physiology II (4 credits)

MTH 123 - Trigonometry (3 credits) Prerequisite for PHY 220 **OR** Math Placement Test

STA 215 - Introductory Applied Statistics (3 credits)

General education Philosophy and Literature (3 credits)

Electives (1-2 credits)

Winter Semester (15 credits):

Students apply to CVS by deadline.

PHY 220 - General Physics I (5 credits)

PSY 300 - Research Methods in Psychology (3 credits)

General education Historical Perspectives (3 credits)

General education Global Perspectives (3 credits)

Elective (1 credit)

## **Year Three**

Fall Semester (15 credits):

Students admitted to CVS.

RIU 320 - Applied Ultrasound Physics Instruction I (2 credits)

RIU 321 - Applied Ultrasound Physics Instruction I Lab (1 credit)

RIE 330 - Echocardiography I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

RIE 331 - Echocardiography I Laboratory (2 credits)

RIE 340 - Cardiac and Vascular Hemodynamics (2 credits)

RIE 341 - ECG in Radiologic and Imaging Sciences (2 credits)

RIE 360 - Introduction to Echocardiography Clinical (2 credits)

Winter Semester (15 credits):

RIU 324 - Applied Doppler Ultrasound Physics (2 credits)

RIE 332 - Echocardiography II (3 credits)

RIE 333 - Echocardiography II Laboratory (1 credit)

RIE 361 - Echocardiography Clinical Education I (2 credits)

RIE 432 - Vascular Sonography I (2 credits)

RIE 433 - Vascular Sonography I Laboratory (1 credit)

RIT 441 - Gross Human Sectional Anatomy (4 credits)

Spring/Summer Semester (5 credits):

RIE 362 - Echocardiography Clinical Education II (3 credits)

RIE 363 - Pediatric Echo Clinical Education I (2 credits) **OR** RIE 366 - Vascular Sonography Clinical Education I (2 credits)

## **Year Four**

Fall Semester (16 credits):

RIU 420 - Applied Ultrasound Physics Instruction II (2 credits)

RIE 434 - Pediatric Echocardiography I (3 credits)

RIE 435 - Pediatric Echocardiography I Laboratory (1 credit)

RIE 436 - Vascular Sonography II (2 credits)

RIE 437 - Vascular Sonography II Laboratory (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

RIE 463 - Pediatric Echocardiography Clinical Education II (3 credits) **OR** RIE 466 - Vascular Sonography Clinical Education II (3 credits)

Issues course (3 credits)

Winter Semester (17 credits):

AHS 340 - Health Care Management (3 credits)

RIE 438 - Pediatric Echocardiography II (3 credits)

RIE 439 - Vascular Sonography III (2 credits)

RIE 440 - Vascular Sonography III Laboratory (1 credit)

RIE 457 - Cardiovascular Image Evaluation (2 credits)

RIE 464 - Pediatric Echocardiography Clinical Education III (3 credits) **OR** RIE 466 - Vascular Sonography Clinical Education II (3 credits)

RIE 495 - Advanced Clinical Problems in Echocardiography and Vascular Sonography (3 credits)

## Cell and Molecular Biology

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/cmb](http://gvsu.edu/cmb)

Cell and molecular biology (CMB) is for students with a passion for the life sciences who want to prepare for employment in their field or for graduate/professional training. This interdisciplinary subject draws on diverse fields such as biochemistry, biophysics, computational biology, genetics and developmental biology and is the basis for many applied fields including biotechnology, pharmacology, and biomedicine. CMB is focused on determining how cells develop and function and the significance of those functions in the living organism. The Bachelor of Science in cell and molecular biology at Grand Valley prepares students for employment or graduate training in the critically important and dynamic fields of cell and molecular biology, biotechnology, evolutionary development, and biomedical research. In addition, the B.S. in CMB provides excellent preparation for successful application to professional programs. The major requires core courses that address issues specific to cell and molecular biology, which are supplemented by courses from the biology, biomedical sciences, chemistry and physics departments. A unique and defining part of Grand Valley's CMB degree is the student's participation in independent research/internship. Each student will have a research mentor from CMB or another participating GVSU department or from an area business or

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

research institute, ensuring that students will get practical experience conducting original research in their area of interest. This practical experience, in addition to the rigorous curriculum, has been demonstrated to contribute to our graduates' success in the workforce as well as in graduate and professional programs.

Many upper-level classes in the CMB degree have several prerequisites, thus it is important for students to begin their chemistry, biology, and physics course sequences as early as possible. Students who wish to major in cell and molecular biology should see a member of the CMB faculty to plan their program of study as soon as possible.

## **Participating Programs**

Faculty members from the Annis Water Resources Institute, biology, biomedical science, and chemistry departments contribute to the CMB program.

Faculty members from the CMB program contribute to the Professional Science Master's program at GVSU.

# **Bachelor of Science in Cell and Molecular Biology**

## **Requirements**

### **1. Core Courses**

All students majoring in cell and molecular biology must complete the following core courses, for a total of 56 credits.

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 241 - Organic Chemistry for Life Sciences I (5 credits)

CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

CHM 461 - Biochemistry I (4 credits)

CHM 462 - Techniques in Biochemistry (3 credits)

CMB 155 - Introduction to Cell and Molecular Biology (3 credits) **OR** BIO 120 - General Biology I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://www.gvsu.edu/catalog) for the most current catalog information.

CMB 156 - Discoveries in Cell and Molecular Biology: A Research-based Laboratory Course (1 credit)

CMB 250 - Introduction to Biotechnology (4 credits)

CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

CMB 409 - Responsible Conduct of Research (1 credit)

CMB 426 - Research Applications in Nucleic Acids (4 credits)

CMB 495 - Perspectives in Cell and Molecular Biology (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

## **2. Major Course Requirements**

### **Math/Physics Sequences**

#### **Option A**

Requires 13 credits, including:

MTH 125 - Survey of Calculus (3 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

#### **Option B**

Requires 18 credits, including:

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

PHY 230 - Principles of Physics I (5 credits)

PHY 231 - Principles of Physics II (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Independent Research Experience**

A choice between an independent research experience at a private industry or research lab or at Grand Valley State University. Choose one of the options that follow.

### **Option A**

CMB 490 - Internship (1 to 6 credits)

### **Option B**

CMB 499 - Research in Cell and Molecular Biology (1 to 3 credits)

## **3. Electives**

With the required courses listed previously, most students will need additional credits to satisfy the 120-credit hour baccalaureate degree requirement. These additional credits will be comprised of electives. The elective credits are unrestricted; students may choose whatever elective courses they wish. For those students who desire more science in their CMB curriculum, the following is a list of suggested electives.

BIO 357 - Environmental Microbiology (4 credits)

BIO 403 - Plant Structure and Function (4 credits)

BIO 416 - Advanced Genetics Laboratory (2 credits)

BIO 422 - Embryology (3 credits)

BIO 423 - Plant Biotechnology (3 credits)

BIO 432 - Comparative Animal Physiology (4 credits)

BMS 208 - Human Anatomy (3 credits)

BMS 212 - Introductory Microbiology (3 credits)

BMS 213 - Laboratory in Microbiology (1 credit)

BMS 290 - Human Physiology (3 credits)

BMS 391 - Laboratory in Human Physiology (2 credits)

BMS 310 - Basic Pathophysiology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 311 - Pharmacological Aspects of Biomedical Sciences (3 credits)

BMS 312 - Bacterial Genetics (3 credits)

BMS 313 - Bacterial Genetics Laboratory (1 credit)

BMS 410 - Immunology (3 credits)

BMS 422 - Bacterial Physiology (3 credits)

BMS 423 - Bacterial Physiology Laboratory (2 credits)

BMS 427 - Neuroanatomy (1 credit)

BMS 428 - Neurosciences (3 credits)

BMS 431 - Medical Virology (3 credits)

CHM 351 - Introduction to Physical Chemistry (3 credits)

CHM 463 - Biochemistry II (3 credits)

CMB 321 - Designing Our Future: Babies, Food, Medicine, and Biotechnology (3 credits)

CMB 411 - Genetics of Development and Cancer (3 credits)

CMB 414 - Molecular Biology of the Gene (3 credits)

CMB 440 - Research Applications in Drosophila Genomics (3 credits)

CMB 452 - Computer Modeling and Drug Design (3 credits)

CMB 499 - Research in Cell and Molecular Biology (1 to 3 credits)

PHY 320 - Optics (3 credits)

## **Suggested Order of Coursework**

### **Year One**

MTH/STA

Three general education classes

CHM 115 - Principles of Chemistry I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 116 - Principles of Chemistry II (5 credits)

CMB 155 - Introduction to Cell and Molecular Biology (3 credits)

CMB 156 - Discoveries in Cell and Molecular Biology: A Research-based Laboratory Course (1 credit)

WRT 150 - Strategies in Writing (4 credits)

## **Year Two**

MTH/STA

Three general education classes

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

CHM 241 - Organic Chemistry for Life Sciences I (5 credits)

CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

CMB 250 - Introduction to Biotechnology (4 credits)

CMB 409 - Responsible Conduct of Research (1 credit)

## **Year Three**

CMB elective

General education course

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CHM 461 - Biochemistry I (4 credits)

CHM 462 - Techniques in Biochemistry (3 credits)

PHY 220 - General Physics I (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PHY 221 - General Physics II (5 credits)

## **Year Four**

Three CMB electives

Three general education courses

CMB 426 - Research Applications in Nucleic Acids (4 credits)

CMB 495 - Perspectives in Cell and Molecular Biology (3 credits)

CMB 499 - Research in Cell and Molecular Biology (1 to 3 credits) **OR** CMB 490 - Internship (1 to 6 credits)

## **Bioinformatics and Genomics Graduate Certificate**

Bioinformatics and genomics have become crucial components of life science research and industry (including biotechnology, medicine, and the pharmaceutical industry). Career options are already numerous and will become more plentiful in the future as part of the big data analytics field. Students trained in these novel techniques will be more competitive in their applications for jobs and graduate programs.

### **Admission**

A baccalaureate degree from an accredited institution of higher education is required, in addition to the following.

Undergraduate life science experience (e.g. biology, genetics, or biochemistry).

Submission of all required admission materials, including:

Completed graduate application for admission

Official copies of transcripts from all institutions of higher education previously attended (other than GVSU) Transcripts must be sent from those institutions directly to the GVSU Admissions Office

Resume

Personal statement of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For applicants whose native language is not English: Test scores from the TOEFL (Test of English as a Foreign Language), or IELTS (International English Language Testing System), or MELAB (Michigan English Language Assessment Battery) or PTE Academic (Pearson Test of English Academic). The following minimum scores are expected: TOEFL is 80, IELTS is 6.5, MELAB is 77, and PTE Academic is 53. Alternatively, we will accept the successful completion of ELS 112 as demonstration of English language proficiency.

## **Requirements for the Certificate in Bioinformatics and Genomics**

The certificate in bioinformatics and genomics requires a minimum of 12 credits (nine credits in the core and at least three credits of electives).

### **Core Courses**

CMB 551 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 552 - Computer Modeling and Drug Design (3 credits)

CMB 560 - Genomics and Molecular Diagnostics (3 credits)

### **Elective Courses**

Choose at least one:

BIO 585/CMB 585 - Molecular Ecology (3 credits)

CIS 611 - Introduction to Software Engineering (3 credits)

CIS 635 - Knowledge Discovery and Data Mining (3 credits)

CIS 673 - Principles of Database Design (3 credits)

CIS 677 - High-performance Computing (3 credits)

CIS 678 - Machine Learning (3 credits)

## **Bioinformatics and Genomics Undergraduate Certificate**

Bioinformatics and genomics have become crucial components of life science research and industry (including biotechnology, medicine, and the pharmaceutical industry). Career options are numerous and will become more plentiful in the future as part of the big data analytics field. Students trained in these novel techniques will be more competitive in their applications for jobs and graduate programs.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Requirements for the Certificate in Bioinformatics and Genomics**

The certificate in bioinformatics and genomics requires a minimum of 12 credits (nine credits in the core and at least three credits of electives).

### **Core Courses**

CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 452 - Computer Modeling and Drug Design (3 credits)

CMB 460 - Genomics and Molecular Diagnostics (3 credits)

### **Elective Courses**

Choose at least one:

CIS 160 - Learn to Code in Python (3 credits)

CIS 161 - Computational Science (3 credits)

CIS 162 - Computer Science I (4 credits)

CMB 440 - Research Applications in Drosophila Genomics (3 credits)

CMB 485 - Molecular Ecology (3 credits)

STA 312 - Probability and Statistics (3 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

STA 318 - Statistical Computing (3 credits)

While these courses are all distinct in their scopes and objectives, they share a common theme of providing knowledge and hands-on experience with computer and mathematical models helping to solve diverse problems in biology or medicine. With permission, other courses may be applied toward the required elective for the certificate in bioinformatics and genomics.

### **Transfer Students**

A maximum of one course can be credited by transfer toward completion of the certificate in bioinformatics and genomics. Students must complete at least three of the courses for the certificate at GVSU.

## **Cell and Molecular Biology Minor**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The minor in cell and molecular biology is designed for students who wish to expand their skills and opportunities in life-science research, graduate or professional work. It consists of a minimum of 20 credits, 14 credits of required courses and at least six credits of electives.

## **Requirements for the Minor in CMB**

### **Required Courses**

Fourteen credits required.

CMB 156 - Discoveries in Cell and Molecular Biology: A Research-based Laboratory Course (1 credit)

CMB 250 - Introduction to Biotechnology (4 credits)

CMB 451 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 405 - Cell and Molecular Biology (4 credits)

CMB 406 - Cell and Molecular Biology Laboratory (2 credits)

### **Electives**

Six credits required.

BIO 423 - Plant Biotechnology (3 credits)

CHM 461 - Biochemistry I (4 credits)

CHM 463 - Biochemistry II (3 credits)

CMB 409 - Responsible Conduct of Research (1 credit)

CMB 411 - Genetics of Development and Cancer (3 credits)

CMB 426 - Research Applications in Nucleic Acids (4 credits)

CMB 440 - Research Applications in Drosophila Genomics (3 credits)

CMB 452 - Computer Modeling and Drug Design (3 credits)

CMB 460 - Genomics and Molecular Diagnostics (3 credits)

CMB 485 - Molecular Ecology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CMB 499 - Research in Cell and Molecular Biology (1 to 3 credits) A maximum of three credits of CMB 499 may count toward the minor.

## **Combined Bachelor of Science and Master of Science in Cell and Molecular Biology**

Qualified undergraduates may be admitted to an accelerated bachelor's/master's program and obtain both a B.S. and an M.S. in cell and molecular biology within an accelerated time frame. Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 12 credits of graduate work may be used in partial satisfaction of the requirements for the undergraduate degree (in alignment with university policy, a maximum of 12 credit hours of graduate work will count toward both the graduate and undergraduate degrees). If students earn at least a grade of B in each of these classes, they are granted advanced standing in the master's program and must then complete an additional 23 credits to receive the master's degree. All other master's degree requirements must be met, including an internship and the graduate Capstone. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 23 graduate credits must be completed after the 120 credits for the bachelor's degree are completed (the M.S. program requires 35 hours).

Students with an overall GPA of at least 3.25 may apply to the combined bachelor's/master's program after

completion of the lower division core requirements: BIO 375, BIO 376; CHM 115, CHM 116, CHM 241, CHM 242; MTH 125; CMB 155 (or BIO 120); CMB 156; CMB 250;

75 hours of academic credit have been completed or are in progress; and

completion or registration for CMB 499 or CMB 490.

Note: While students may count BIO 120 for CMB 155, CMB 156 will be required for all CMB majors.

### **Admission**

Students typically apply directly to the Department of Cell and Molecular Biology for the combined B.S./M.S. program during their third academic year.

Application requirements include:

GPA of 3.25 or greater

Completion of the nine core courses listed previously with a grade of at least B in five of the nine courses and no less than a C+ in any of the nine courses

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Two letters of recommendation

Academic transcripts (unofficial transcripts are OK)

Letter of intent

Cover letter

All students who submit complete applications will be interviewed by two to three faculty members. Admission decisions will be made by a departmental admissions committee based on the student's previous academic success in CMB, as indicated by GPA and grades in the core CMB curriculum, as well as potential success in the graduate program, as indicated by the letters of recommendation, the student's letter of intent, and the interview. Decisions will normally be communicated to students within four weeks of submitting a complete application to the combined degree program in CMB.

## **Requirements**

### **During Undergraduate Studies (First Eight Semesters)**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. In the final undergraduate year, students will take 12 to 15 credits of graduate-level courses. If any courses are dual-listed, students in the accelerated B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

Students will earn 12 graduate credits during their undergraduate program.

Students will be considered undergraduates for tuition, academic requirements, and financial aid purposes until all requirements for the undergraduate degree are completed. Following this, they will be considered graduate students, will pay graduate tuition, and will be eligible for graduate financial aid.

At least three credits of independent research (CMB 499) or internship (CMB 490), as well as the undergraduate Capstone course, will be required during the undergraduate part of the program.

### **During Graduate Studies**

After successful completion of the undergraduate program, students will be eligible to take the second year of the M.S. in CMB curriculum. At this point, students will be treated as graduate students for purposes of tuition and fees, financial aid, etc.

Students must complete an internship (or research). This could be completed during the summer immediately following the undergraduate program or during the graduate year.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Graduation Without Completion of the Program

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the Department of Cell and Molecular Biology will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

## Suggested Order of Coursework

### Year One

Fall Semester:

CMB 155 -  
Introduction to Cell  
and Molecular Biology  
(3 credits)

CMB 156 -  
Discoveries in Cell and  
Molecular Biology: A  
Research-based  
Laboratory Course (1  
credit)

CHM 115 - Principles  
of Chemistry I (4  
credits)

MTH 122 - College  
Algebra (3 credits)

General education  
elective (3 credits)

Total 15 credits

### Year Two

Fall Semester:

BIO 375 - Genetics (3  
credits)

BIO 376 - Genetics  
Laboratory (1 credit)

CMB 250 -  
Introduction to  
Biotechnology (4  
credits)

Winter Semester:

CHM 116 - Principles  
of Chemistry II (5  
credits)

MTH 123 -  
Trigonometry (3  
credits)

STA 215 - Introductory  
Applied Statistics (3  
credits)

General education  
elective (3 credits)

Total 14 credits

Winter Semester:

CMB elective (3  
credits)

PHY 220 - General  
Physics I (5 credits)

CHM 242 - Organic  
Chemistry for Life  
Sciences II (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 241 - Organic  
Chemistry for Life  
Sciences I (5 credits)  
MTH 125 - Survey of  
Calculus (3 credits)  
Total 15 credits

**Year Three**

Fall Semester:

CHM 461 -  
Biochemistry I (4  
credits)  
PHY 221 - General  
Physics II (5 credits)

CMB 451 -  
Bioinformatics: Tools  
and Techniques for  
Life Scientists (3  
credits)  
Two general education  
electives (6 credits)

Total 15 credits

**Year Four**

Fall Semester:

CMB 626 - Advanced  
Research Applications  
in Nucleic Acids (4  
credits)  
CMB 610 -  
Foundations of  
Biotechnology (3  
credits)  
CMB 501 - Scientific  
Communication for the  
Life Sciences and  
Professional Science  
Master's (3 credits)

Two general education  
electives (6 credits)

Total 15 credits

CMB 409 -  
Responsible Conduct  
of Research (1 credit)  
General education  
elective  
Total 16 credits  
Winter Semester:

CHM 462 - Techniques  
in Biochemistry (3  
credits)  
CMB 405 - Cell and  
Molecular Biology (4  
credits)  
CMB 406 - Cell and  
Molecular Biology  
Laboratory (2 credits)

CMB 499 - Research  
in Cell and Molecular  
Biology (1 to 3 credits)

Total 15 credits

Winter Semester:

CMB 506 - Advanced  
Molecular Biology (3  
credits)

CMB 495 -  
Perspectives in Cell  
and Molecular Biology  
(3 credits)

CMB 552 - Computer  
Modeling and Drug  
Design (3 credits)

Two general education  
electives (6 credits)

Total 15 credits

## Year Four

Summer Semester:

PSM 691 - Internship  
(1 to 9 credits)

Total 4 credits

## Year Five

Fall Semester:

CMB 505 - Advanced  
Cell Biology (3  
credits)

CIS 661 - Introduction  
to Health and  
Bioinformatics (3  
credits)

PSM 650 - Ethics and  
Professionalism in  
Applied Science (3  
credits)

PSM 662 - Seminar in  
Professional Science  
Practice (2 credits)

Total 11 credits

Winter Semester:

CMB 620 - Cell  
Culture and  
Bioprocessing (3  
credits)

STA 622 - Statistical  
Methods for Biologists  
(3 credits)

Total 8 credits

**Total Credits: 143**

Note that all undergraduate general education requirements will be fulfilled.

Undergraduate credits that count toward B.S. 105 credits

Graduate credits that count toward B.S. 3 credits

Graduate credits that count toward B.S. and  
M.S. 12 credits

Graduate credits that count toward M.S. 23 credits

Undergraduate courses 105 credits

Graduate courses 38 credits

## Master of Science in Cell and Molecular Biology

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The M.S. in cell and molecular biology requires a minimum of 35 credits for the research emphasis and 37 credits for the professional science master's, biotechnology emphasis. A minimum grade of B is required for all courses.

There are separate admissions committees for the research emphasis and the biotechnology emphasis degree programs. The research emphasis is a thesis-based master's degree. The biotechnology emphasis is one of the four internship-based professional science master's (PSM) programs at GVSU.

## **Admission**

A minimum grade point average of 3.0 on a 4.0 scale for all undergraduate coursework is required.

Satisfactory GRE score.

Extensive undergraduate life science experience.

Personal statement of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives.

Written recommendations from at least two individuals who are in positions to attest to the applicant's successful completion of the program.

Telecommunications interview with program faculty.

## **Requirements for the M.S. in Cell and Molecular Biology**

### **Biotechnology Emphasis (PSM)**

#### **Core Cell and Molecular Biology Emphasis Courses**

Requires 22 credits, including:

CMB 501 - Scientific Communication for the Life Sciences and Professional Science Master's (3 credits)

CMB 505 - Advanced Cell Biology (3 credits)

CMB 506 - Advanced Molecular Biology (3 credits)

CMB 520 - Laboratory Techniques in Cell and Molecular Biology (3 credits)

CMB 610 - Foundations of Biotechnology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://www.gvsu.edu/catalog) for the most current catalog information.

CMB 620 - Cell Culture and Bioprocessing (3 credits)

CMB 626 - Advanced Research Applications in Nucleic Acids (4 credits)

### **Interdisciplinary Courses**

Shared with PSM degree programs. Requires six credits, including:

CIS 661 - Introduction to Health and Bioinformatics (3 credits)

STA 622 - Statistical Methods for Biologists (3 credits) **OR** STA 610 - Applied Statistics for Health Professions (3 credits)

### **Core PSM Courses**

Requires five credits, including:

PSM 650 - Ethics and Professionalism in Applied Science (3 credits)

PSM 662 - Seminar in Professional Science Practice (2 credits)

### **PSM Internship**

Requires four credits, including:

PSM 691 - Internship (1 to 9 credits) No more than four credits can be applied toward degree completion.

### **Research Emphasis**

#### **Core Cell and Molecular Biology Courses**

Requires 12 credits, including:

CMB 501 - Scientific Communication for the Life Sciences and Professional Science Master's (3 credits)

CMB 505 - Advanced Cell Biology (3 credits)

CMB 506 - Advanced Molecular Biology (3 credits)

CMB 520 - Laboratory Techniques in Cell and Molecular Biology (3 credits)

#### **Research and Thesis Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Requires six to nine credits.

CMB 695 - Thesis Research (1 to 9 credits)

### **Biostatistics Course**

STA 622 - Statistical Methods for Biologists (3 credits)

### **Electives**

BIO 580 - Special Topics in Biology (1 to 4 credits)

BIO 585/CMB 585 - Molecular Ecology (3 credits)

BIO 680 - Special Topics in Biology (1 to 3 credits)

BMS 680 - Special Topics in the Biomedical Sciences (1 to 3 credits)

CMB 551 - Bioinformatics: Tools and Techniques for Life Scientists (3 credits)

CMB 552 - Computer Modeling and Drug Design (3 credits)

CMB 560 - Genomics and Molecular Diagnostics (3 credits)

CMB 580 - Special Topics in Cell and Molecular Biology (1 to 4 credits)

CMB 620 - Cell Culture and Bioprocessing (3 credits) Elective for research emphasis.

CMB 626 - Advanced Research Applications in Nucleic Acids (4 credits) Elective for research emphasis.

CMB 680 - Special Topics in Cell and Molecular Biology (1 to 4 credits)

CMB 699 - Grad Research in Cell and Molecular Biology (1 to 6 credits)

STA 616 - Statistical Programming (3 credits)

## **Chemistry**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/chem](http://gvsu.edu/chem)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Chemistry is a fascinating and diverse field that affects almost every area of our lives. The clothes we wear, the medicines we take, the food we eat, the fuel we burn, and the environmental impact of living in a modern society are all affected by discoveries made through the study of chemistry.

The chemistry major is excellent preparation for any student interested in the molecular and environmental sciences. This program offers a well-rounded education in chemistry and provides a strong background for employment at the bachelor level or entry into chemistry graduate school. By selecting the appropriate electives within the chemistry major, students can earn a degree certified by the American Chemical Society.

Students interested in teaching high school chemistry may choose the chemistry major with an education emphasis. This emphasis includes courses in teaching methods and other science courses required for teacher certification. To be certified, students will also be required to complete a teachable minor and the education major from the College of Education and Community Innovation.

The Department of Chemistry also offers a B.S. in biochemistry. Students interested in attending biochemistry graduate school or in obtaining employment in biochemical or biomedical laboratories may choose the biochemistry major. This major is also appropriate for students interested in attending professional health schools, such as medical, dental, pharmacy, or veterinary schools.

For any degree program in chemistry or biochemistry, it is important to start the proper sequence of chemistry courses as soon as possible. Students who wish to major in chemistry should meet with their Chemistry Department faculty advisors as soon as possible to plan programs that match their academic interests and career goals.

The Chemistry Department also offers a green chemistry certificate. This option can be added to any major or minor. It shows that students have taken a series of classes where they learn the principles of green chemistry and the production of chemicals and design of chemical processes in a manner that is environmentally sustainable.

The Chemistry Department also offers a chemistry minor. Students from other departments can add a chemistry minor to enhance their knowledge of chemistry and laboratory experience.

### **Accreditation**

The Chemistry Department is approved by the Committee on Professional Training of the American Chemical Society and offers ACS certified degrees in chemistry and biochemistry to qualified graduates.

### **Degrees Offered**

Bachelor of Science in chemistry, Bachelor of Science in biochemistry, Bachelor of Science in chemistry with an education emphasis (secondary education certified major). Green chemistry

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

certificate. Minor in chemistry (secondary education certified major). Master of Education (general education, middle and high school emphasis, with a concentration in science) offered in cooperation with the College of Education and Community Innovation.

## **Participating Programs**

The College of Education and Community Innovation offers a M.Ed. in general education with a concentration in science. This program is called target inquiry. Contact the chemistry office for more information.

The dual geology-chemistry major is offered by the Geology Department in cooperation with the Chemistry Department. For details, see the program description.

## **Bachelor of Science in Chemistry**

A summary of all degree requirements, as well as other departmental information, is available in the Chemistry Department Handbook. All chemistry majors should obtain a copy from the department office.

A degree in chemistry will require chemistry and cognate courses that add up to 69 credits.

### **Requirements for a Major in Chemistry (B.S.)**

#### **1. Degree Requirements**

Students are required to complete the general university degree requirements as identified in the General Academic Policies section of the Grand Valley State University Undergraduate and Graduate Catalog.

#### **2. Chemistry Courses**

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 245 - Principles of Organic Chemistry I (4 credits)

CHM 246 - Principles of Organic Chemistry I Lab (1 credit)

CHM 247 - Principles of Organic Chemistry II (3 credits)

CHM 248 - Principles of Organic Chemistry II Lab (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 273 - Principles of Inorganic Chemistry (3 credits)

CHM 325 - Instrumental Analysis (4 credits)

CHM 352 - Physical Chemistry Laboratory (1 credit)

CHM 356 - Physical Chemistry I (3 credits)

CHM 358 - Physical Chemistry II (3 credits)

CHM 391 - Chemistry Seminar I (1 credit)

CHM 461 - Biochemistry I (4 credits)

CHM 491 - Chemistry Seminar II (1 credit)

### **3. Elective Courses**

Take any three.

CHM 421 - Green Chemistry for Sustainable Environment (3 credits)

CHM 427 - Green and Environmental Chemistry Laboratory (3 credits)

CHM 441 - Advanced Topics in Organic Chemistry (3 credits)

CHM 442 - Synthetic Polymers: Life Cycle and Emerging Sustainable Technologies (3 credits)

CHM 447 - Organic Synthesis and Characterization (3 credits)

CHM 457 - Advanced Physical and Instrumental Chemistry Laboratory (3 credits)

CHM 462 - Techniques in Biochemistry (3 credits)

CHM 463 - Biochemistry II (3 credits)

CHM 471 - Advanced Inorganic Chemistry (3 credits)

CHM 475 - Electrochemistry (3 credits)

CHM 477 - Synthetic Inorganic Chemistry (3 credits)

### **4. Cognate Courses**

MTH 201 - Calculus I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 202 - Calculus II (4 credits)

PHY 230 - Principles of Physics I (5 credits)

PHY 231 - Principles of Physics II (5 credits)

### **Additional Information**

Students in the chemistry major who transfer or change majors may make these substitutions with advisor approval:

CHM 241 may replace CHM 245/CHM 246

CHM 242 may replace CHM 247/CHM 248

CHM 351 may replace CHM 358

PHY 220 may replace PHY 230

PHY 221 may replace PHY 231

Students in the chemistry major seeking a degree certified by the American Chemical Society (ACS) must also complete

at least 148 lab hours in additional elective CHM courses above the 200-level, which could include CHM 490 **OR** CHM 499, and

CHM 462 **OR** CHM 477 as one of their upper-level electives.

### **Suggested Order of Coursework**

This option for a major (B.S.) in chemistry assumes students will complete the required skills and general education courses and select electives with the help of their advisor.

#### **Year One**

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

PHY 230 - Principles of Physics I (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Year Two**

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 245 - Principles of Organic Chemistry I (4 credits)

CHM 246 - Principles of Organic Chemistry I Lab (1 credit)

CHM 247 - Principles of Organic Chemistry II (3 credits)

CHM 248 - Principles of Organic Chemistry II Lab (1 credit)

CHM 273 - Principles of Inorganic Chemistry (3 credits)

PHY 231 - Principles of Physics II (5 credits)

## **Year Three**

CHM electives

CHM 325 - Instrumental Analysis (4 credits)

CHM 352 - Physical Chemistry Laboratory (1 credit)

CHM 356 - Physical Chemistry I (3 credits)

CHM 358 - Physical Chemistry II (3 credits)

CHM 391 - Chemistry Seminar I (1 credit)

## **Year Four**

CHM electives

CHM 461 - Biochemistry I (4 credits)

CHM 491 - Chemistry Seminar II (1 credit) Capstone course

## **Requirements for a Major in Chemistry (B.S.) - Education Emphasis**

The education emphasis is designed specifically for students who plan to teach chemistry at the secondary level.

The B.S. degree in chemistry with an education emphasis will require chemistry and cognate courses that add up to 79 credits.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **1. Degree Requirements**

Students are required to complete the general university degree requirements as identified in the General Academic Policies section of the Grand Valley State University Undergraduate and Graduate Catalog.

## **2. Chemistry Courses**

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 245 - Principles of Organic Chemistry I (4 credits)

CHM 246 - Principles of Organic Chemistry I Lab (1 credit)

CHM 247 - Principles of Organic Chemistry II (3 credits)

CHM 248 - Principles of Organic Chemistry II Lab (1 credit)

CHM 273 - Principles of Inorganic Chemistry (3 credits)

CHM 351 - Introduction to Physical Chemistry (3 credits)

CHM 352 - Physical Chemistry Laboratory (1 credit)

CHM 391 - Chemistry Seminar I (1 credit)

CHM 461 - Biochemistry I (4 credits)

CHM 491 - Chemistry Seminar II (1 credit)

## **3. Science Cognate Courses**

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

GEO 111 - Exploring the Earth (4 credits)

MTH 201 - Calculus I (4 credits)

PHY 220 - General Physics I (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PHY 221 - General Physics II (5 credits)

#### **4. Psychology and Education Courses**

EDF 315 - Diverse Perspectives on Education (3 credits)

EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits)

EDS 379 - Universal Design for Learning: Secondary (3 credits)

PSY 101 - Introductory Psychology (3 credits)

PSY 301 - Child Development (3 credits)

SCI 440 - Physics and Chemistry in Secondary Education (3 credits)

#### **Additional Information**

Students in the education emphasis who transfer or change majors may make these substitutions with advisor approval:

CHM 241 may replace CHM 245/ CHM 246

CHM 242 may replace CHM 247/ CHM 248

Students in the education emphasis seeking a degree certified by the American Chemical Society must also

complete at least 190 lab hours in additional elective CHM courses above the 200-level.  
CHM 490 and CHM 499 lab hours may be used to satisfy this requirement and

eight additional credits of CHM courses above the 200-level, which must include either CHM 462 or CHM 477.

#### **Suggested Order of Coursework**

This option for a major in chemistry (B.S.) with an education emphasis assumes students will complete the required skills and general education courses and select electives with the help of their advisors.

#### **Year One**

BIO 120 - General Biology I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

MTH 201 - Calculus I (4 credits)

PHY 220 - General Physics I (5 credits)

PSY 101 - Introductory Psychology (3 credits)

## **Year Two**

BIO 121 - General Biology II (4 credits)

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 245 - Principles of Organic Chemistry I (4 credits)

CHM 246 - Principles of Organic Chemistry I Lab (1 credit)

CHM 247 - Principles of Organic Chemistry II (3 credits)

CHM 248 - Principles of Organic Chemistry II Lab (1 credit)

CHM 273 - Principles of Inorganic Chemistry (3 credits)

PHY 221 - General Physics II (5 credits)

## **Year Three**

CHM 351 - Introduction to Physical Chemistry (3 credits)

CHM 352 - Physical Chemistry Laboratory (1 credit)

CHM 391 - Chemistry Seminar I (1 credit)

EDS 379 - Universal Design for Learning: Secondary (3 credits)

GEO 111 - Exploring the Earth (4 credits)

PSY 301 - Child Development (3 credits)

## **Year Four**

CHM 461 - Biochemistry I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 491 - Chemistry Seminar II (1 credit)

EDF 315 - Diverse Perspectives on Education (3 credits)

EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits)

SCI 440 - Physics and Chemistry in Secondary Education (3 credits)

## Chemistry Minor

### Requirements for a Minor in Chemistry

#### 1. Minimum Requirements

A minor in chemistry requires the following courses:

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 241 - Organic Chemistry for Life Sciences I (5 credits) **OR BOTH** CHM 245 - Principles of Organic Chemistry I (4 credits) **AND** CHM 246 - Principles of Organic Chemistry I Lab (1 credit)

CHM 242 - Organic Chemistry for Life Sciences II (4 credits) **OR BOTH** CHM 247 - Principles of Organic Chemistry II (3 credits) **AND** CHM 248 - Principles of Organic Chemistry II Lab (1 credit)

**PLUS** one elective course from the following:

CHM 232 - Biological Chemistry (4 credits)

CHM 273 - Principles of Inorganic Chemistry (3 credits)

CHM 351 - Introduction to Physical Chemistry (3 credits)

CHM 421 - Green Chemistry for Sustainable Environment (3 credits)

CHM 442 - Synthetic Polymers: Life Cycle and Emerging Sustainable Technologies (3 credits)

CHM 461 - Biochemistry I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

SCI 440 - Physics and Chemistry in Secondary Education (3 credits) for teacher certification only

## **2. GPA Requirement**

A minimum GPA (grade point average) of 2.0 across all courses applied to the minor is required.

## **3. Teacher Certification**

A chemistry minor for teacher certification also requires the following:

SCI 440 - Physics and Chemistry in Secondary Education (3 credits) as the elective course listed previously.

A minimum GPA (grade point average) of 2.7 across all courses applied to the minor.

# **Green Chemistry Undergraduate Certificate**

A certificate in green chemistry will be a strong curricular addition to the degrees offered at GVSU. This 13 to 14 credit hour certificate in green chemistry provides students at Grand Valley State University with a foundational knowledge of green, benign chemistry and its principles. This certificate can be completed in one calendar year, if all prerequisites were completed previously.

A certificate in green chemistry is neither a major nor a minor; it can/should be used as a focus investigation area of chemistry, environmental sciences, engineering, environmental studies, or sustainability.

## **Requirements for a Certificate in Green Chemistry**

Students must earn a bachelor's degree to earn this certificate. Students who seek a certificate in green chemistry are required to complete 12 to 13 credits from the courses as follows:

CHM 421 - Green Chemistry for Sustainable Environment (3 credits)

CHM 442 - Synthetic Polymers: Life Cycle and Emerging Sustainable Technologies (3 credits)

CHM 399 - Readings in Chemistry (1 to 2 credits)\* **OR** CHM 490 - Chemistry Laboratory Internship (1 to 4 credits)\* **OR** CHM 499 - Investigation Problems (1 to 5 credits)\*

**AND** one of the following courses:

CHM 427 - Green and Environmental Chemistry Laboratory (3 credits)

ECO 345 - Environmental and Resource Economics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GEO 445 - Introduction to Geochemistry (3 credits)

GPY 412 - Global Climate and Environmental Change (3 credits)

NRM 330 - Environmental Pollution (3 credits)

NRM 451 - Natural Resource Policy (3 credits)

\*CHM 399 - Readings in Chemistry, CHM 490 - Chemistry Laboratory Internship, and CHM 499 - Investigation Problems are variable credit independent study courses. Any combination of independent projects approved by the advisor adding up to three credits satisfies this requirement.

## Classics

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/classics](http://gvsu.edu/classics)

Classics is the interdisciplinary study of ancient Greece and Rome, which stand among the world's most exciting civilizations. The program in classics spans the many different aspects of the Greek and Roman world -- mythology, art and archaeology, history, languages and literatures, religious and philosophical traditions, and social and legal forms. Classics students also explore connections between the world of ancient Greece and Rome and the cultures of other places and other times. Examples of this process can be seen all around us and range from the paintings of Botticelli and Raphael in the Italian renaissance, to the works of Luis Alfaro and the West African playwrights Efua Sutherland and Wole Soyinka, to the ideas behind the American Constitution.

Classics faculty work closely with students to encourage success in all walks of life. The department is large enough to offer a complete preparation for students seeking a wide range of postgraduate and career opportunities, yet it remains small enough to allow our faculty and staff to get to know all of our students individually and to work with them one-on-one. This student-centered, community approach fosters collaboration and mutual respect and promotes cooperation, discussion, and intellectual interaction.

Courses and programs in classics are designed to meet the needs of a variety of students. Today's challenges call for leaders and managers who take words and ideas seriously, who are capable of looking outside of their own cultural and historical assumptions and approaching problems from every angle, and whose choices are informed by long-term perspectives and a concern for the judgment of posterity. Classics has long been recognized as among the most engaging academic programs and an excellent preparation for a wide range of professions and careers.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Classical Civilization (CLA)**

All of the courses offered in classics share an emphasis on encountering the classical world through primary sources, both material and textual. Complementing this emphasis is the study of the living tradition that has shaped -- and continues to shape -- the many diverse ways in which we construct our world today.

Classical civilization courses offer students opportunities to acquire and refine analytical and communications skills that make them better able to approach any problem creatively and successfully. Classics students distinguish themselves as scholars, work on archaeological excavations, organize and participate in cultural events, demonstrate leadership and committed citizenship, and travel and study abroad. The study habits and work ethic they develop are those needed for success in demanding graduate and professional programs and in real-world careers.

The department offers elementary, intermediate, and advanced instruction in classical civilization (courses marked CLA through the 400-level). Many satisfy general education Foundations or Issues requirements.

## **Ancient Greek (GRK) and Latin (LAT)**

Access to the languages in which the seminal works of the ancient world were composed provides students with a special perspective on ancient culture and gives them a unique insight into the foundations of poetry, drama, history, philosophy, religion, law, and the sciences. Training in the classical languages involves a serious engagement that is an excellent training for a variety of careers.

### **Ancient Greek**

Greek is the language of Homer and Sappho, of Aeschylus and Aristophanes, of Herodotus and Thucydides, of Plato and Aristotle, and (in its koinê or "common" form) of the Christian New Testament.

The department offers elementary, intermediate, and advanced instruction (courses marked GRK through the 400-level) in ancient Greek. Note, however, that the department does not offer instruction in modern Greek.

Ancient Greek is especially important for students of literature and philosophy and for those who are preparing for seminary or who wish to examine the origins and context of early Christianity.

### **Latin**

Latin was the language of ancient Rome. Even after the Roman Empire collapsed, Latin continued as the language of literature, science, philosophy, medicine, law, and religion for more than a thousand years: John Milton, Isaac Newton, Baruch Spinoza, and Thomas Aquinas all wrote in the same language as Cicero, Virgil, Caesar, and Plautus.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The department offers elementary, intermediate, and advanced instruction (courses marked LAT through the 400-level) in Latin, including Latin composition.

Latin will benefit students of literature and history, prelaw and premedical students, students of modern Romance languages, and those who are interested in the culture of medieval and renaissance Europe.

## **B.A. Degree Requirements in Language Study**

In addition to general education requirements, the B.A. (Bachelor of Arts) degree requires a third-semester proficiency in a foreign language. Completion or placement out of GRK 201 or LAT 201 fulfills this requirement.

## **General Education Requirements**

GRK 202 and LAT 202 fulfill the Global Perspectives requirement of the General Education Program. Many classical civilization (CLA) courses satisfy general education Foundations, SWS, and Issues requirements.

## **Placement in Language Courses**

Students who have studied Latin in high school should take a placement evaluation prior to enrolling in Latin courses. Transfer students with prior college study in Latin or ancient Greek should also seek advice from the department about the appropriate level at which to enroll. Please contact the Classics Department for the proper placement.

## **Study Abroad**

Students are encouraged to seek study abroad experience in a program emphasizing the civilizations of the classical world, such as those offered by the Intercollegiate Center for Classical Studies in Rome and the College Year in Athens. Summer internships at archaeological excavations of classical sites are also available. For more information about opportunities to study classics abroad, students should contact the Classics Department and the Padnos International Center.

## **Participating Programs**

Classics faculty regularly staff courses in the Frederik Meijer Honors College.

The Classics Department also cooperates with the Departments of Anthropology and History in offering the interdepartmental archaeology minor (ARC).

Through the Classics Department, Grand Valley holds institutional memberships in The Society for Classical Studies, The Classical Association of the Middle West and South, The American School of Classical Studies at Athens, The American Academy in Rome, and The Intercollegiate Center for Classical Studies in Rome.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# **Bachelor of Arts in Classics**

## **Requirements for a Major in Classics**

Students majoring in classics are required to complete at least 30 credits. They must satisfy the cultural core and language core requirements and select one of three emphases: classical languages, classical studies, or Latin secondary education.

### **Core Requirements**

There are six to nine credits required. Six credits in cultural core and zero to three credits in language core are required beyond fulfillment of the Bachelor of Arts degree requirement.

### **Cultural Core Requirement (including Capstone)**

Students majoring in classics complete six credits of instruction in a sequence of courses intended to introduce them to the interdisciplinary dimension of classics and to provide detailed instruction in selected methods of inquiry and particular aspects of Greco-Roman civilization.

All classics majors take:

CLA 195 - Introduction to Ancient Greece and Rome (1 credit) ordinarily by the end of their sophomore year.

CLA 395 - Research Methods in Classics (2 credits) by the end of their junior year.

CLA 495 - Notions of the Classics (Capstone) (3 credits) during their senior year.

### **Language Core Requirement**

Students majoring in classics complete intermediate language study in either ancient Greek or Latin, typically by taking GRK 202 - Intermediate Ancient Greek II (3 credits) **OR** LAT 202 - Intermediate Latin II (3 credits). Those commencing language study typically fulfill the Bachelor of Arts degree requirement through three semesters of study in GRK/ LAT 101, LAT 102, LAT 201 (12 credits). Others may satisfy the requirements through language placement administered by the Department of Classics; they must complete the 30-credit minimum through additional coursework in the major.

### **Emphases**

#### **Classical Languages Emphasis**

A minimum of 21 credits are required beyond completion of the core requirements.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The classical languages emphasis offers a course of undergraduate study in classics that stresses the languages and literature of the classical world. Students electing the classical languages emphasis ordinarily study one language (either ancient Greek or Latin) to an advanced level and the other language to at least the intermediate level.

Requirements in addition to core requirements:

At least 18 credits of instruction in ancient Greek (GRK) and Latin (LAT), including at least six credits in one language at the 300-level or above.

At least three credits of instruction in any course in Classics (CLA), in HNR 222 - The Worlds of Greece and Rome 4 (3 credits), or in an approved substitute.

### **Classical Studies Emphasis**

A minimum of 21 credits are required beyond completion of core requirements.

The classical studies emphasis offers a course of undergraduate study in classics that investigates Greco-Roman civilization from a range of perspectives and subject areas. Students electing the classical studies emphasis select courses at an advanced level across the program curriculum.

Requirements in addition to core requirements:

At least 15 credits of instruction at the 300-level or above in at least two of the following areas.

Archaeology:

CLA 350 - Issues in Classical Archaeology (3 credits)

Cultural studies:

CLA 301 - Re-imagining the Classics (3 credits)

CLA 302 - The Stages of Greek and Roman Drama (3 credits)

CLA 311/PHI 311 - Origins of Western Thought: Ancient Philosophy (3 credits)

CLA 315 - Ancient Religion (3 credits)

CLA 325/WGS 325 - Body, Gender, Sexuality in Antiquity (3 credits)

CLA 365 - Stoicism, Identity and the Happy Life (3 credits)

CLA 367 - Thinking Like a (Roman) Lawyer (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Ancient Greek (GRK) or Latin (LAT) at the 300-level or above.

At least six credits of instruction in any courses in classics (CLA), in HNR 221 - The Worlds of Greece and Rome 3 (3 credits) and HNR 222 - The Worlds of Greece and Rome 4 (3 credits), or in an approved substitute.

### **Latin Secondary Education Emphasis**

A minimum of 21 credits are required beyond completion of core requirements.

The Latin secondary education emphasis offers prospective Latin teachers preparation in Latin comprehension and instruction and in classical civilization at a level consistent with state and national norms. These students work within both the Department of Classics and the College of Education and Community Innovation. While the College of Education and Community Innovation is ultimately responsible for overseeing the certification process for students, the Department of Classics is responsible for overseeing the major and for recommending qualified students for admission to the College of Education and Community Innovation.

Students with a baccalaureate degree and a major in classics from another institution can be certified to teach by earning at least three credits of instruction in Latin in the classics department and completing the professional education requirements of the College of Education and Community Innovation. The required courses in Latin must be approved by the department chair or designee.

Requirements in addition to core requirements:

At least 18 credits of instruction in Latin (LAT) at the 300-level or above, three of which must be LAT 353 - Latin Prose Composition (3 credits).

At least three credits of instruction in any course in Classics (CLA), in HNR 222 - The Worlds of Greece and Rome 4 (3 credits), or in an approved substitute.

### **Suggested Order of Coursework**

The major (B.A. in classics) is designed to be flexible. Declaring classics as a double major or a minor is an effective way of enhancing one's transcript and drawing the attention of employers and postgraduate programs.

To ensure timely progress toward graduation, commencing study in either ancient Greek or Latin at an early stage is key. Prospective majors are encouraged to contact the Department of Classics in order to receive individualized advising. The following is merely a suggestion. Consult your advisor about completing required basics skills and general education requirements.

### **Year One**

GRK 101 - Elementary Ancient Greek I (4 credits) **OR** LAT 101 - Elementary Latin I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CLA 101 - Greek and Roman Mythology (3 credits) A general education Philosophy and Literature Foundations

Honors students

HNR 211 - The Worlds of Greece and Rome 1 (3 credits)/ HNR 212 - The Worlds of Greece and Rome 2 (3 credits) An alternative general education curriculum

WRT 150 - Strategies in Writing (4 credits), if required

CLA 195 - Introduction to Ancient Greece and Rome (1 credit)

GRK 102 - Elementary Ancient Greek II (4 credits) **OR** LAT 102 - Elementary Latin II (4 credits)

CLA 121 - Greek Civilization (3 credits) **OR** CLA 131 - Roman Civilization (3 credits) A general education Historical Perspectives Foundations

Honors students

HNR 221 - The Worlds of Greece and Rome 3 (3 credits)/ HNR 222 - The Worlds of Greece and Rome 4 (3 credits) An alternative general education curriculum; prerequisite for CLA 350.

## **Year Two**

Continue second year of language study: GRK 201 - Intermediate Ancient Greek I (4 credits) and GRK 202 - Intermediate Ancient Greek II (3 credits)  
**OR** LAT 201 - Intermediate Latin I (4 credits) and LAT 202 - Intermediate Latin II (3 credits)  
Fulfills B.A. degree requirement and general education Global Perspectives requirements; Fulfills language core requirement.

Classical languages emphasis: Commence first year of study in the second classical language.

CLA 201 - Classical Literature (3 credits) A general education Philosophy and Literature Foundations; Supplemental Writing Skills.

CLA 250 - Classical Art and Archaeology (3 credits) A general education Arts Foundations; prerequisite for CLA 350.

## **Year Three**

Classics majors are strongly encouraged to consider spending a semester or academic year in a study abroad program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CLA 395 - Research Methods in Classics (2 credits)

Honors students

Many CLA 300+ courses are cross-listed as honors junior seminars.

Classical languages emphasis: Continue third year of language study (GRK 300+ or LAT 300+); continue second year of study in the second classical language.

Classical studies emphasis: Select elective courses (CLA 300+; three credits; many fulfill general education Issues and other requirements).

## **Year Four**

Classics majors are strongly encouraged to explore opportunities for undergraduate research projects.

CLA 495 - Notions of the Classics (Capstone) (3 credits)

Classical languages emphasis, or majors contemplating postgraduate study in Classics: Continue language study (GRK 300+/400+ or LAT 300+/400+ three credits).

Classical studies emphasis: Select elective courses (CLA 300+; three credits many fulfill general education Issues and other requirements).

Honors student

Senior project

## **Classics Minor**

A minimum of 21 credits are required.

The classics minor is designed to be flexible and to serve students with an interest in the classical world whose plans do not allow them to complete the major. At the same time, work done toward the minor is completely and seamlessly transferable toward the major, should an opportunity arise to do so.

### **Requirements for a Minor in Classics**

All classics minors take:

CLA 195 - Introduction to Ancient Greece and Rome (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CLA 395 - Research Methods in Classics (2 credits)

At least six credits of instruction in either ancient Greek or Latin at 200-level or above.

At least nine credits of instruction at the 300-level or above in at least two of the following areas.

Archaeology:

CLA 350 - Issues in Classical Archaeology (3 credits)

Cultural studies:

CLA 301 - Re-imagining the Classics (3 credits)

CLA 302 - The Stages of Greek and Roman Drama (3 credits)

CLA 311/PHI 311 - Origins of Western Thought: Ancient Philosophy (3 credits)

CLA 315 - Ancient Religion (3 credits)

CLA 325/WGS 325 - Body, Gender, Sexuality in Antiquity (3 credits)

CLA 365 - Stoicism, Identity and the Happy Life (3 credits)

CLA 367 - Thinking Like a (Roman) Lawyer (3 credits)

Ancient Greek (GRK) or Latin (LAT) at the 300-level or above.

At least three credits of instruction in any course in classics (CLA), in HNR 222 - The Worlds of Greece and Rome 4 (3 credits), or in an approved substitute.

## Clinical Dietetics

The clinical dietetics program is part of Grand Valley's Allied Health Sciences department (AHS) and College of Health Professions (CHP).

**Website:** [gvsu.edu/grad/clinicaldiet](https://gvsu.edu/grad/clinicaldiet)

**Degree Offered:** Master of Science in clinical dietetics

Clinical dietetics is a systematic approach to treating medical conditions, complex disease processes and their associated symptoms through medical nutrition therapy (MNT). The

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

registered dietitian nutritionist (RDN) uses and applies advanced nutrition knowledge, MNT, and the nutrition care process to promote health and prevent disease.

### **Program Mission Statement**

To develop high-potential students into exceptional masters' prepared, entry-level registered dietitians/RDNs who positively impact the health of their clients, profession, and communities.

The program's supervised practice sites are diverse, providing access to different health systems, and a wide demographic of patients. These practice sites are available locally and regionally. In addition to the supervised practice sites, clinical applications will be taught in technologically superior simulation laboratories. The M.S. in clinical dietetics will use problem-based learning, meaningful and sustainable group projects, and multiple opportunities to demonstrate critical thinking as they emerge as highly trained and sought after entry level registered dietitians/nutritionists. The program is 52-55 credits.

Track A is accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics (ACEND®) 120 South Riverside Plaza, Suite 2190 Chicago, IL 60606-6995. Phone: (312) 899-0040 ext. 5400. Fax: (312) 899-4817. Email: ACEND@eatright.org. eatright.org/ACEND

### **Admission Requirements**

Minimum overall undergraduate grade point average of 3.0 on a 4.0 scale.

B- or better in undergraduate courses listed: biochemistry, pathophysiology, pharmacology, and advanced nutrition or medical nutrition therapy (MNT).

Personal statement of career goals and background experiences.

Written recommendations from at least two individuals who are in positions to attest to the applicant's ability to successfully complete the program.

Personal interview with the Admissions Committee.

**Program Prerequisites\*** Course marked \* require B- (2.7) grade or better. Recommend C or better in remaining prerequisites.

BIO 120 - General Biology I (4 credits)

BMS 105 - Basic Nutrition (3 credits)

BMS 212 - Introductory Microbiology (3 credits) **AND** BMS 213 - Laboratory in Microbiology (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 250 - Anatomy and Physiology I (4 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

BMS 304 - Community Nutrition (3 credits)

BMS 305 - Clinical Nutrition (3 credits)\* **OR** BMS 306 - Advanced Human Nutrition (3 credits)\* **OR** AFN 400 - Applied Medical Nutrition Therapy (3 credits)

BMS 407 - Nutrition in the Life Cycle (3 credits)

CHM 109 - Introductory Chemistry (4 credits) **OR BOTH** CHM 115 - Principles of Chemistry I (4 credits) **AND** CHM 116 - Principles of Chemistry II (5 credits)

CHM 231 - Introductory Organic Chemistry (4 credits) **OR BOTH** CHM 241 - Organic Chemistry for Life Sciences I (5 credits) **AND** CHM 242 - Organic Chemistry for Life Sciences II (4 credits)

CHM 232 - Biological Chemistry (4 credits) **OR** CHM 461 - Biochemistry I (4 credits)

HTM 250 - Food Production and Kitchen Management (4 credits) **OR** Current Serv-Safe Manager Certification **OR** AFN 300 - Food Protection Management (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

**\*In place of these program prerequisites, students may qualify for admissions with a verification statement from an ACEND-accredited undergraduate (DPD) dietetics program.**

### **Program Location**

Our program is located on the Health Campus in Raleigh Finkelstein Hall within the College of Health Professions in Grand Rapids, MI.

## **Master of Science in Clinical Dietetics**

### **Requirements**

Demonstration of completion of the 52 to 55 credits in the professional curriculum is required for the student to be granted the M.S. degree. General graduate academic policies and regulations can be found on The Graduate School website ([gvsu.edu/gs](http://gvsu.edu/gs)).

In addition, for each CD course or a discrete unit of instruction in the profession, a minimum proficiency level is described in each course syllabus. A minimum grade of 80 percent is required for passing all CD courses; additionally, the student's overall G.P.A. must never drop

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

below the 3.0 minimum in any semester or the student may be placed on academic probation or dismissed from the CD program.

## **Suggested Order of Coursework**

### **Semester One**

Requires 12 credits, 180 hours supervised practice.

CD 501 - Emerging Professional Practice Issues in Clinical Dietetics (2 credits)

CD 516 - Food and Culinary Science (4 credits)

CD 520 - Supervised Practice: Food Management Systems (3 credits) (180 hours)

CD 560 - Advanced Nutrition Education, Counseling, and Coaching (3 credits)

### **Semester Two**

Requires 12 credits, 180 hours supervised practice.

CD 510 - Nutritional Assessment (3 credits)

CD 530 - Supervised Practice: Community Nutrition I (3 credits) 180 hours.

CD 600 - Advanced Medical Nutritional Therapy I (3 credits)

CD 690 - Research Methodology in Clinical Dietetics (2 credits)

### **Semester Three**

Variable credits, 120 hours supervised practice required.

CD 610 - Advanced Medical Nutritional Therapy II (3 credits)

CD 630 - Supervised Practice: Community Nutrition II (2 credits) 120 hours; **60 hours may be taken internationally.**

CD 693 - Master's Project (1 credit) **OR** CD 695 - Thesis Research in Clinical Dietetics (1 to 6 credits)

STA 610 - Applied Statistics for Health Professions (3 credits)

### **Semester Four**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Variable credits, 300 hours supervised practice required.

CD 505 - Health Care Regulation and Policy in Dietetic Practice (2 credits)

CD 550 - Social Determinants in Food, Culture, and Environmental Justice (3 credits)

CD 625 - Supervised Practice: Clinical Nutrition I (5 credits)

CD 693 - Master's Project (1 credit) **OR** CD 695 - Thesis Research in Clinical Dietetics (1 to 6 credits)

### **Semester Five**

Variable credits; 420 hours supervised practice required.

CD 640 - Supervised Practice: Clinical Nutrition II (5 credits)

CD 650 - Supervised Practice: Area of Specialization (2 credits)

CD 689 - Seminar in Clinical Dietetics (1 credit)

CD 693 - Master's Project (1 credit) **OR** CD 695 - Thesis Research in Clinical Dietetics (1 to 6 credits)

Total credits: 52 (55) clinical experience: 1,200 hours, including 180 optional international hours.

## **Communication Sciences and Disorders**

**Website:** [gvsu.edu/csd](http://gvsu.edu/csd)

This undergraduate major prepares students for admission into a graduate program in speech-language pathology or audiology. Speech-language pathologists assess, diagnose, and treat disorders related to speech and language as well as cognitive-communication, voice, swallowing, and fluency. Audiologists identify hearing and balance disorders, provide rehabilitative services, assess amplification devices and instruct patients in their care. They also consult with industry and the government regarding noise and hearing conservation. Speech and hearing scientists conduct research seeking to improve our understanding of speech, language, and hearing so as to improve the quality of services provided to those with communication impairments.

### **Accreditation**

Undergraduate programs in communication sciences and disorders are not accredited. Graduate programs in speech-language pathology and audiology are accredited by the Council on

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Academic Accreditation in Audiology and Speech Language Pathology. Grand Valley's master's program in speech-language pathology was accredited in July 2013.

## **Admission**

Students typically apply for admission the second semester of the sophomore year. Prerequisites include a 3.0 GPA, application form, and official transcript(s) from all non-GVSU colleges/universities attended. Application forms can be found on the department of Communication Sciences and Disorders (CSD) website. All completed materials must be sent directly to the CSD department. Admitted students begin the emphasis in the fall semester. The emphasis must be completed over a minimum of two academic years.

# **Bachelor of Science in Communication Sciences and Disorders**

## **Required Courses**

AHS 301 - Introduction to Health Care Research (3 credits)

AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)

BIO 120 - General Biology I (4 credits)

CSD 100 - Introduction to Communication Disorders (3 credits)

CSD 200 - Introduction to Hearing Science (3 credits)

CSD 220 - Communication Development (3 credits)

CSD 302 - Anatomy and Physiology of the Speech and Hearing Mechanism (3 credits)

CSD 304 - Phonetics (3 credits)

CSD 306 - Speech Science (3 credits)

CSD 309 - Basic Audiology (3 credits)

CSD 401 - Neurological Foundations of Communication Disorders (3 credits)

CSD 404 - Audiologic Rehabilitation (3 credits)

EDF 315 - Diverse Perspectives on Education (3 credits)

PHY 200 - Physics for the Life Sciences (4 credits)

## Communication Studies

For additional information about opportunities your college offers, please refer to the School of Communications website.

**Website:** [gvsu.edu/soc](http://gvsu.edu/soc)

Because our lives -- publicly, privately, and professionally -- vitally depend upon various communication processes, the communication studies major fosters in students a broad-based multidisciplinary orientation, believing that this best prepares them for lifelong learning, promotes professional and personal development, and helps them take fuller ownership of their responsibilities as citizens of local, national, and global communities. Students are brought to understand communication as a practice as well as a reflective inquiry into that practice.

Communication studies stresses fundamental capacities for expression and comprehension, including learning how to analyze difficult texts, articulate nuanced questions, cultivate aesthetic and ethical sensibilities, build persuasive appeals, and develop critical sensitivities to the persuasive appeals of others. The major in communication studies is designed to combine a broad overview of the field of communications with practice in other majors (emphasis areas) in the School of Communications. The aim is for students to become adaptable, artful, resourceful, and generally educated communicators who can draw upon all the ways of looking at communication embodied in and beyond the curriculum.

## Internships

The School of Communications faculty believes that an internship can be a significant part of the individual's undergraduate program. Students may elect to take multiple internships. Students are strongly urged to work closely with their faculty advisor or internship coordinator in identifying internships that best suit their interests and career ambitions.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# **Bachelor of Arts or Bachelor of Science in Communication Studies**

## **Requirements**

### **1. Core Courses**

All students majoring in the School of Communications must complete the following core courses, for a total of 12 credits:

COM 101 - Concepts of Communication (3 credits)

COM 295 - Communication Theory (3 credits)

COM 201 - Speech (3 credits)

Capstone requirement:

COM 495 - Issues in Communication (Capstone) (3 credits)

All students majoring in communication studies must take COM 495 (three credits) during their senior year. This Capstone course offers a synthesis of ideas and theories about one or more current critical issues in communication.

## **B.A. and B.S. Degree**

All undergraduate programs in the School of Communications offer both the B.A. degree and the B.S. degree. All students selecting majors in the School of Communications must choose either the B.A. degree requirement or the B.S. degree requirement intended for a particular undergraduate program.

### **B.A. Degree Requirement**

The B.A. degree requires a third-semester proficiency in a foreign language of the student's choice.

### **B.S. Degree Requirement**

The B.S. degree requirement for communication studies:

STA 215 - Introductory Applied Statistics (3 credits)

COM 275 - Foundations of Communication Research (3 credits)

COM 375 - Communication Research (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## 2. Communication Studies Core

Students must complete the following core courses, for a total of 24 credits:

COM 202 - Critical Interpretation (3 credits) **OR** COM 203 - Argument and Analysis (3 credits)

Choose at least three credits from the following:

COM 498 - Senior Thesis/Project (1 to 6 credits) **OR** COM 490 - Internship (1 to 6 credits)

Choose at least 18 unduplicated credits from the following communication studies courses (courses with the COM prefix), at least 12 credits of which must be at the 300-level or above:

COM 202 - Critical Interpretation (3 credits)

COM 203 - Argument and Analysis (3 credits)

COM 209 - Health Communication Systems (3 credits)

COM 210 - Nonverbal Communication (3 credits)

COM 215 - Story Making (3 credits)

COM 220 - Media Literacy (3 credits)

COM 301 - Interpersonal Communication (3 credits)

COM 302 - Small Group Communication (3 credits)

COM 303 - Debate (3 credits)

COM 320 - Vision and Culture (3 credits)

COM 371 - Media and Society (3 credits)

COM 372 - Global Communications (3 credits)

COM 376 - Communications Policy and Law (3 credits)

COM 378 - Intercultural Communication (3 credits)

COM 380 - Special Topics in Communications (1 to 6 credits)

COM 399 - Independent Study (1 to 6 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

COM 438 - Communication Ethics (3 credits)

COM 477 - History of Communications Technologies (3 credits)

Note: Students can include more than one COM 380, no more than three credits in COM 399, and up to six COM 490 credits are allowed in the core/major.

### **3. Elective Credits\***

Students must complete at least nine elective credits. Choose from any of the following courses or other advisor-approved course(s) from across the university:

#### Advertising and Public Relations

CAP 209 - Advertising Basics (3 credits)

CAP 219 - Public Relations Basics (3 credits)

CAP 310 - Advertising Management and Cases (3 credits)

CAP 315 - Advertising Copywriting (3 credits)

CAP 320 - Public Relations Management and Cases (3 credits)

CAP 321 - Media Relations Writing (3 credits)

#### Multimedia Journalism

CMJ 184 - Introduction to Multimedia Production (3 credits)

CMJ 236 - News in Society (3 credits)

CMJ 256 - News Reporting (3 credits)

CMJ 284 - Broadcast News (3 credits)

CMJ 290 - Media History (3 credits)

CMJ 316 - News Design and Layout (3 credits)

#### Film and Video Production

FVP 123 - Survey of Media Production Modes (3 credits)

FVP 125 - Media Production I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

FVP 225 - Film Culture (3 credits)

FVP 373 - Issues of Representation (3 credits)

FVP 376 - Latin American Cinema (3 credits)

#### Photography

PHO 171 - Photography I (4 credits)

PHO 172 - Photography II (3 credits)

PHO 175 - Understanding Still Photography (3 credits)

PHO 266 - History of Photography I (3 credits)

PHO 272 - Digital Photography 1 (3 credits)

PHO 279 - Color Photography 1 (3 credits)

#### Theatre

THE 151 - Acting Process (3 credits)

THE 161 - Theatre Production (3 credits)

THE 162 - Play Analysis (3 credits)

THE 261 - Stagecraft I (3 credits)

THE 362 - Production Dramaturgy (3 credits)

THE 371 - Theatre History I (3 credits)

THE 372 - Theatre History II (3 credits)

#### Health Communication

COM 209 - Health Communication Systems (3 credits)

CAP 220 - Fundamentals of Public Relations (3 credits)

COM 410 - Senior Seminar in Health Communication (3 credits)

\*Courses cannot count for both elective credits and communication studies core credits. COM prefix courses not otherwise applied to the major may be eligible for substitution as elective course credits, pending advisor approval. Other courses may qualify for application to the major but may not be listed; see your advisor.

## **Suggested Order of Coursework**

This option assumes students will complete the required skills, general education, and cognate courses.

### **Year One**

COM 101 - Concepts of Communication (3 credits)

COM 201 - Speech (3 credits)

COM 2XX

### **Year Two**

COM 202 - Critical Interpretation (3 credits) **OR** COM 203 - Argument and Analysis (3 credits) Both are SWS.

COM 295 - Communication Theory (3 credits)

COM 2XX

One class elective credit area

One class elective credit area

### **Year Three**

COM 3/4XX

COM 3/4XX

COM 3/4XX

One class elective credit area

### **Year Four**

COM 3/4XX

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

COM 495 - Issues in Communication (Capstone) (3 credits)

COM 498 - Senior Thesis/Project (1 to 6 credits) **OR** COM 490 - Internship (1 to 6 credits)

## **Combined Degree Programs in Communication**

Qualified undergraduate students majoring in advertising/public relations, communication studies, health communication, or multi-media journalism who are pursuing either a B.A. or B.S. degree may be admitted to a combined degree program (CDP) to obtain both their undergraduate degree and master's degree in communication (MCom) within an accelerated time frame.

### **Overview**

Students with a GPA of 3.3 (B+), or greater, may apply to the CDP in their junior year.

A minimum of 85 semester credits must be completed or in progress in order to apply to the CDP.

Students must have completed, or are registered for, their major's undergraduate capstone.

Students accepted into the CDP are eligible to take up to 12 credits of graduate-level communication (COM) courses in their senior year. These graduate credits will count toward the fulfillment of requirements for both their baccalaureate and graduate degrees.

Students must maintain a minimum 3.0 GPA to remain in good standing in the CDP. Each graduate course taken during this time must receive a grade of B or better (not B-) in order to continue in the MCom graduate program beyond the initial 12 credits.

In the second year of the program, students will be defined as graduate students for purposes of tuition and fees as well as financial aid and other matters pertaining to graduate students. Please see [gvsu.edu/financialaid/tuition-fees-68.htm](https://gvsu.edu/financialaid/tuition-fees-68.htm) for more information.

The specific 12 credits of graduate coursework to be taken and applied toward the fulfillment of the undergraduate/graduate programs are COM 600, COM 620, COM 634, and COM 642. If a student decides to pursue only the undergraduate portion of the CDP, the graduate credits completed will satisfy requirements for the undergraduate major. In this situation, these graduate credits from the undergraduate degree may not be used toward a graduate degree at a later time.

### **Application**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Apply at [gvsu.edu/admissions/graduate-application-24.htm](https://gvsu.edu/admissions/graduate-application-24.htm). You are required to submit an online application, GVSU transcript, current resume, two letters of recommendation, and a 500-word essay that addresses your career goals and how the MScM graduate program is relevant to these goals. Deadline for application is April 1. Applicants are encouraged to meet with the graduate program director in advance of the deadline to discuss the CDP.

Alex Nesterenko, Ph.D.

BMS 202 - Anatomy and Physiology (4 credits)

CAP 321 - Media Relations Writing (3 credits)

B.A./B.S. cognate course

General Education

General Education

#### **Winter**

AHS 340 - Health Care Management (3 credits)

CMJ 390 - Technical Writing (3 credits)

General Education

General Education

Free elective

### **Year Four**

#### **Fall**

CAP 495 - Advertising and Public Relations Campaign (3 credits)

MKT 350 - Marketing Management (3 credits)

COM 600 - Systems Theory and Communication (3 credits)

COM 620 - Empirical Methods in Communication (3 credits)

HCO elective

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Winter

COM 410 - Senior Seminar in Health Communication (3 credits)

COM 490 - Internship (1 to 6 credits)

COM 634 - Ethics in Professional Communication (3 credits)

COM 642 - Communication Law (3 credits)

Free elective

## Year Five

### Fall

COM 610 - Secondary Information and Analysis (3 credits)

COM 660 - Communication Management and Cases (3 credits)

Graduate elective

Graduate elective

### Winter

PNH 520 - Foundations of Public Service (3 credits)

COM 641 - Emerging Communication Technologies (3 credits)

COM 693 - Master's Project (3 credits)/COM 695 - Master's Thesis (3 credits)

Graduate elective

The number of credits taken each semester will vary depending on the particular courses taken. A minimum of 120 credits is required to complete the undergraduate degree. In the sample above, at least one required course, such as a lab science course, would bring the total number of credits to 120.

## Sample Schedule for the Accelerated MScCom Program: Multi-media Journalism

### Year One

#### Fall

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CMJ 184 - Introduction to Multimedia Production (3 credits)

COM 101 - Concepts of Communication (3 credits)

MTH 110 - Algebra (4 credits)

WRT 150 - Strategies in Writing (4 credits)

#### Winter

CMJ 236 - News in Society (3 credits)

CMJ 256 - News Reporting (3 credits)

General Education

# **Communications**

## **Master of Science in Communications**

**Website:** [gvsu.edu/soc](http://gvsu.edu/soc)

As the field of communications has matured, the value of empirically based decision-making has become increasingly clear. Communication professionals must be knowledgeable about acquiring and assessing relevant information and integrating the analysis of that information into the decision-making process.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The Master of Science degree in the School of Communications is a versatile program that meets the needs of various aspects of professional communication. Individuals in public relations, advertising, journalism, and broadcasting, to name a few, as well as those seeking a degree that will enhance their effectiveness and leadership skills within an organization, find this to be a rewarding and beneficial program. Communication professionals who become managers and decision-makers will increasingly be selected because they have leadership skills, knowledge of theory and research and their application, the ability to access information to solve communication problems, and the ability to effectively implement information into the decision-making process. The curriculum of the master's program is attendant to these skills.

The 36-credit master's program is designed with working professionals in mind. Courses are scheduled during evenings and offered at Grand Valley's Pew Grand Rapids Campus. Taken part-time, the Master of Science in communications is completed in two to three years.

## **Admission**

For admission to the Master of Science in communications, applicants must provide all information required by the university. This includes official transcripts of all previous college/university coursework, a baccalaureate degree or equivalent international credential, and a 500-word essay that addresses the candidate's career goals and how the GVSU graduate program in communications is relevant to these goals. Please note the following additional criteria for admission:

Undergraduate GPA of 3.0 on a 4.0 scale for the last 60 credits of undergraduate work.

Applicants with less than a 3.0 GPA may meet alternate admissions criteria such as professional work experience, personal interview, or academic success in specified courses.

Background coursework in communication theory and research methods advisable.

Two letters of recommendation.

A phone interview with a representative from the School of Communications.

## **Course Requirements**

The following courses (27 credits) are required of all students for the Master of Science in Communications.

COM 600 - Systems Theory and Communication (3 credits)

COM 610 - Secondary Information and Analysis (3 credits)

COM 620 - Empirical Methods in Communication (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

COM 634 - Ethics in Professional Communication (3 credits)

COM 641 - Emerging Communication Technologies (3 credits)

COM 642 - Communication Law (3 credits)

COM 660 - Communication Management and Cases (3 credits)

COM 693 - Master's Project (3 credits)\* **OR** COM 695 - Master's Thesis (6 credits)\*

PNH 520 - Foundations of Public Service (3 credits) **OR** BUS 631 - Leadership and Organizational Dynamics (3 credits)

\*Note: Students choosing to complete a project (COM 693) must complete a minimum of 9 elective credits. Students choosing to complete a thesis (COM 695) must complete a minimum of 6 elective credits.

### **Elective Courses**

Students must complete 6 to 9 elective courses from the following list, from 600-level courses in business and public administration, and from other programs for which students are eligible. See the School of Communications graduate program director for approval.

COM 643 - Small Group Communication and Leadership (3 credits)

COM 680 - Special Topics in Communications (3 credits)

COM 699 - Independent Study (1 to 4 credits)

### **Suggested Order of Coursework**

For the M.S. in communications, the following schedule assumes the student has satisfied all background courses. For more information about the program, contact the School of Communications.

#### **Year One**

Fall Semester:

COM 600 - Systems Theory and Communication (3 credits)

Winter Semester:

COM 610 - Secondary Information and Analysis (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Spring/Summer Semester:

Elective course

## **Year Two**

Fall Semester:

COM 620 - Empirical Methods in Communication (3 credits)

Winter Semester:

PNH 520 - Foundations of Public Service (3 credits) **OR** BUS 631 - Leadership and Organizational Dynamics (3 credits)

COM 634 - Ethics in Professional Communication (3 credits)

Spring/Summer Semester:

Elective course

## **Year Three**

Fall Semester:

Elective course

COM 641 - Emerging Communication Technologies (3 credits)

Winter Semester:

COM 642 - Communication Law (3 credits)

COM 660 - Communication Management and Cases (3 credits)

Spring/Summer Semester:

COM 693 - Master's Project (3 credits) **OR** COM 695 - Master's Thesis (3 credits)

# **Computer Science**

For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing section in this catalog.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Website:** [cis.gvsu.edu/computer-science-major](http://cis.gvsu.edu/computer-science-major)

## **Degrees Offered**

Undergraduate and graduate computing programs at Grand Valley are offered by the School of Computing. Computing programs prepare students for a rewarding career that is in high-demand.

One of the strengths of the computing programs at Grand Valley is flexibility. We offer B.S. degrees in computer science, cybersecurity, information systems, and information technology. All programs share faculty, courses, and laboratory resources. Also, by choosing electives and minors in related subject areas, students can further tailor their degrees to fit their individual needs and career goals. We offer minors in computer engineering, computer science, data science, health care information systems, information security systems, information systems, and information technology.

Two key elements in computer education are a theoretical foundation and practical experience. Computer science major prepares students to design and implement software, discover new uses of computing, and to solve computing problems.

Theoretical and practical aspects of computing are emphasized. Operating systems, software engineering, data communications, programming languages and their implementation, and the analysis of algorithms are among the topics covered. Cognate courses emphasize communication and analytical reasoning.

## **Mission**

The mission of the School of Computing is to provide the GVSU student community with the intellectual foundations and experiences necessary to use information technology effectively in their chosen careers.

To enable students to attain this goal, the computing faculty have two primary responsibilities. First, we offer a solid conceptual foundation required for a career in computing. Second, we provide direct, experiential knowledge of technology necessary to be a productive user/producer of information technology.

To achieve these goals, we

- work continuously to keep our curriculum relevant to our mission;

- ensure that work-relevant experience is part of every class;

- establish and nurture industrial contacts;

- establish an integrated, supported co-op experience for computing majors; and

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

provide all students, regardless of their major interests, fundamental knowledge of computers and information processing

## **Computer Science Program Goals**

By the time of graduation, computer science students will demonstrate the ability to perform the following:

Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.

Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.

Communicate effectively in a variety of professional contexts.

Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.

Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.

Apply computer science theory and software development fundamentals to produce computing-based solutions.

Three years after graduation, our typical computer science alumni are expected to be computing professionals who perform as follows:

Use technical communication and teamwork skills to solve problems and develop software systems.

Continue to develop their professional knowledge and skills.

Behave ethically while contributing to their profession and to society.

## **Accreditation**

The computer science major is accredited under the General Criteria and Computer Science Criteria by the Computing Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD, 21202-4012. Telephone: (410) 347-7700, [abet.org](http://abet.org).

## **Advisory Board**

The School of Computing Advisory Board (CISAB) is composed of the school's director and leading computing experts in West Michigan. The board meets twice each year and advises the

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

school on curriculum development and continuing education. It serves as an important interface between the school and the computing community.

## **Admission**

Admission to major standing in computer science (CS) is competitive and requires an application for admittance into the major. Applicants must meet the following criteria:

Overall GPA of 2.5 or above in all Grand Valley State University coursework.

Completion of each course in the CS foundation with a grade of C or above (C- is not sufficient).

GPA of 2.5 or above in the CS foundation.

The CS foundation includes CIS 162 and CIS 163; MTH 225; STA 215 or STA 312; and COM 201. Completing the CS foundation courses require programming, analytical reasoning, and communication skills. These skills are important to excel in the computing field.

The CS foundation GPA is calculated on no more than one repeat per course. Achievement of the minimum requirements does not guarantee admission to the major. The School of Computing will also consider internship availability and the applicant's suitability for internships before granting admission. Transfer students must complete at least six hours of CIS coursework before applying, but should consult with a School of Computing advisor before scheduling their first semester.

While admission to major standing in computer science may be achieved with completion of the cybersecurity, information systems or information technology foundation instead of the CS foundation, it is still necessary to complete all the required courses in the computer science major.

## **Bachelor of Science in Computer Science**

### **Requirements for a Major in Computer Science**

Students who wish to major in computer science must complete the following.

#### **1. Degree Requirements**

Students must complete the general university degree requirements as identified in the General Academic Regulations section of the catalog.

#### **2. Admission**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Admission to major standing in computer science is competitive and requires an application for admittance into the major. See the computer science program description for more information regarding admission to the major.

### **3. Computer Science Major**

Computer science majors must complete the following CIS courses with a minimum 2.0 GPA.

#### **Required Computer Science Courses**

- CIS 162 - Computer Science I (4 credits)
- CIS 163 - Computer Science II (4 credits)
- CIS 241 - System-level Programming and Utilities (3 credits)
- CIS 263 - Data Structures and Algorithms (3 credits)
- CIS 290 - Professional Responsibilities and Practices (3 credits)
- CIS 343 - Structure of Programming Languages (3 credits)
- CIS 350 - Introduction to Software Engineering (3 credits)
- CIS 351 - Computer Organization and Assembly Language (4 credits)
- CIS 353 - Database (3 credits)
- CIS 452 - Operating Systems Concepts (4 credits)
- CIS 457 - Data Communications (4 credits)
- CIS 467 - Computer Science Project (3 credits) (Capstone course)
- CIS 490 - Internship (2 to 5 credits)

#### **Elective Computer Science Courses**

Computer science majors must select three electives from the following:

- CIS 335 - Data Mining (3 credits)
- CIS 357 - Mobile Application Development (3 credits)
- CIS 360 - Information Management and Science (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 365 - Artificial Intelligence (3 credits)

CIS 367 - Computer Graphics (3 credits)

CIS 368 - Usability Design and Evaluation (3 credits)

CIS 371 - Web Application Programming (3 credits)

CIS 373 - Pervasive Computing (3 credits)

CIS 375 - Wireless Networks and Security (3 credits)

CIS 380 - Special Topics in Computer Information Systems (1 to 4 credits)

CIS 418 - Secure Software Engineering (3 credits)

CIS 430 - Computer and Cyber Forensics (3 credits)

CIS 443 - Software Development Tools (3 credits)

CIS 451 - Computer Architecture (3 credits)

CIS 455 - Applied Cryptography (3 credits)

CIS 458 - System Security (3 credits)

CIS 461 - Compiler Design and Construction (3 credits)

CIS 465 - Automata and Theory of Computation (3 credits)

CIS 480 - Special Topics in Computer Information Systems (1 to 4 credits)

#### **4. Cognate Courses**

Computer science majors must complete the following cognate courses:

COM 201 - Speech (3 credits)

MTH 201 - Calculus I (4 credits)

MTH 225 - Discrete Structures: Computer Science (3 credits)

MTH 325 - Discrete Structures: Computer Science 2 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

STA 215 - Introductory Applied Statistics (3 credits) **OR** STA 312 - Probability and Statistics (3 credits)

WRT 350 - Business Communication (3 credits)

Select one math elective:

MTH 202 - Calculus II (4 credits)

MTH 204 - Linear Algebra I (3 credits)

MTH 465 - Automata and Theory of Computation (3 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

STA 418 - Statistical Computing and Graphics with R (3 credits)

Select two science electives:

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

BMS 202 - Anatomy and Physiology (4 credits)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

GEO 111 - Exploring the Earth (4 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

PHY 230 - Principles of Physics I (5 credits)

PHY 231 - Principles of Physics II (5 credits)

## **Suggested Order of Coursework**

This suggested order of coursework assumes that students will complete the CS foundation and general education courses with the help of their advisor and apply for admission at the end of the winter semester of their first year. The following course sequence also assumes a strong

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

mathematics background for the entering student. If mathematics deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

Recommended course of study plans may be found on the PCEC Advising website: [gvsu.edu/pcec/advising/program-plans-computer-science-cs-67.htm](http://gvsu.edu/pcec/advising/program-plans-computer-science-cs-67.htm).

### **Year One**

CIS 162 - Computer Science I (4 credits)

MTH 124 - Precalculus: Functions and Models (5 credits)

STA 215 - Introductory Applied Statistics (3 credits)

CIS 163 - Computer Science II (4 credits)

COM 201 - Speech (3 credits)

MTH 225 - Discrete Structures: Computer Science (3 credits)

WRT 150 - Strategies in Writing (4 credits)

Appropriate general education coursework

### **Year Two**

CIS 241 - System-level Programming and Utilities (3 credits)

CIS 290 - Professional Responsibilities and Practices (3 credits)

MTH 201 - Calculus I (4 credits)

MTH 325 - Discrete Structures: Computer Science 2 (3 credits)

CIS 263 - Data Structures and Algorithms (3 credits)

CIS 351 - Computer Organization and Assembly Language (4 credits)

Math elective

Appropriate general education coursework

### **Year Three**

CIS 350 - Introduction to Software Engineering (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

CIS 353 - Database (3 credits)

CIS 457 - Data Communications (4 credits)

CIS 343 - Structure of Programming Languages (3 credits)

Computer science elective

Science electives

Appropriate general education coursework

#### **Year Four**

CIS 452 - Operating Systems Concepts (4 credits)

WRT 350 - Business Communication (3 credits)

CIS 467 - Computer Science Project (3 credits)

CIS 490 - Internship (2 to 5 credits)

Computer science electives

Appropriate general education coursework

## **Combined Bachelor of Science in Computer Science and Master of Science in Applied Computer Science**

Qualified undergraduates may be admitted to a combined bachelor's/master's program and obtain both a B.S. in computer science and an M.S. in applied computer science within an accelerated time frame. Students admitted to this program will count up to 12 credits of graduate work in partial satisfaction of the requirements for the undergraduate degree. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 120 credits of the bachelor's degree. All other master's degree requirements must be met, including a graduate Capstone.

### **Admission**

We encourage students to apply for the combined B.S./M.S. program in their second year. It is also possible to apply in the third year, but students in their fourth year typically do not receive the benefits of the combined program.

Application requirements include:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Overall GPA of 3.25 or greater

Student must have been admitted to the computer science program

60 hours of academic credit have been completed or are in progress

Two letters of recommendation

Academic transcripts (unofficial transcripts are allowable)

Admission decisions will be made by the school admissions committee based on the student's previous academic success in the School of Computing, as indicated by GPA and grades in the foundation CS courses, as well as potential success in the graduate program, as indicated by the letters of recommendation, and the student's letter of intent. Decisions will typically be communicated to students within four weeks of submitting a complete application to the combined degree program.

## **Requirements**

### **During Undergraduate Studies**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. In the final undergraduate year, students will normally take nine credits of graduate-level courses. If any courses are dual-listed, students in the combined B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

Students will be considered undergraduates for tuition, academic requirements and financial aid purposes until all requirements for the undergraduate degree are completed. Following this they will be considered graduate students, will pay graduate tuition, and will be eligible for graduate financial aid.

The school has identified the following courses that students may dual-count toward the B.S. and M.S. degrees. Up to 12 credits can be dual counted. Students are strongly encouraged to work with the graduate program director in ACS to ensure all undergraduate and graduate requirements are met.

CIS 611 in lieu of CIS 350\*

CIS 616 in lieu of CIS 458

CIS 617 in lieu of CIS 430

CIS 635 in lieu of CIS 335

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 657 in lieu of CIS 357

CIS 658 in lieu of CIS 371

CIS 660 in lieu of CIS 360

CIS 672 in lieu of CIS 351

CIS 673 in lieu of CIS 353

CIS 654 in lieu of CIS 457

CIS 693 in lieu of CIS 467

\*CIS 350 is an SWS course but CIS 611 is not. Students are reminded that a bachelor's degree requires two SWS courses.

### **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree or the completion of 120 credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the school will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

Please note that awarding of the B.S. in computer science requires a Capstone course, either CIS 467 or CIS 693, or both CIS 690 and CIS 695. Awarding of the M.S. in applied computer science requires a graduate Capstone course: CIS 693, or both CIS 690 and CIS 695.

### **Suggested Order of Coursework**

This sample order of coursework assumes that students will complete the ACS foundation and general education courses with the help of their advisor and apply for undergraduate admission at the end of the winter semester of their second year. The following course sequence also assumes a strong mathematics background for the entering student. If mathematics deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

Note: This is only one of many possible sequences of courses. Students are strongly encouraged to work with the graduate program director in CIS to ensure all undergraduate and graduate requirements are met, and to customize the combined program to their areas of interest.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The sequence as follows makes no attempt to minimize credit load. For example, the sequence assumes that all general education courses are distinct, and no "double dipping" is done.

### **Year One**

No change from CS sample curriculum (33 credits).

General education course (A)

General education course (PL)

CIS 162 - Computer Science I (4 credits)

CIS 163 - Computer Science II (4 credits)

COM 201 - Speech (3 credits)

MTH 122 - College Algebra (3 credits)

MTH 123 - Trigonometry (3 credits)

MTH 225 - Discrete Structures: Computer Science (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

### **Year Two**

No change from CS sample curriculum (30 credits).

Three general education courses (SBS1, HP, GP)

CIS 241 - System-level Programming and Utilities (3 credits)

CIS 263 - Data Structures and Algorithms (3 credits)

CIS 290 - Professional Responsibilities and Practices (3 credits)

CIS 353 - Database (3 credits)

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 325 - Discrete Structures: Computer Science 2

### **Year Three**

Includes 21 undergraduate credits and six graduate credits (27 credits).

Computer science elective (3 credits)

General education Natural Sciences course - NS1 (3 credits)

General education Natural Sciences lab - NS2 (3 credits)

Two general education courses - SBS2, US (6 credits)

CIS 343 - Structure of Programming Languages (3 credits)

CIS 351 - Computer Organization and Assembly Language (4 credits)

CIS 611 - Introduction to Software Engineering (3 credits)

CIS 654 - Computer Networking (3 credits)

### **Year Four**

Includes 18 to 21 undergraduate credits and nine graduate credits (27 to 30 credits).

Computer science elective (3 credits)

General education Issues course 1 (3 credits)

General education Issues course 2 (3 credits)

CIS 452 - Operating Systems Concepts (4 credits)

CIS 490 - Internship (2 to 5 credits)

CIS 613 - Software Testing (3 credits)

CIS 641 - Systems Analysis and Design (3 credits)

CIS 657 - Mobile Application Development (3 credits)

WRT 350 - Business Communication (3 credits)

### **Year Five**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Includes 18 graduate credits.

CIS 623 - Graphical User Interface Design (3 credits)

CIS 656 - Distributed Systems (3 credits)

CIS 658 - Web Architectures (3 credits)

CIS 661 - Introduction to Health and Bioinformatics (3 credits)

CIS 677 - High-performance Computing (3 credits)

CIS 693 - Master's Project (3 credits)

### **Credits**

Undergraduate credits that count toward B.S.	102 to 105 credits
Graduate credits that count toward B.S. and M.S.	12 credits
Graduate credits that count toward M.S.	21 credits
Total Credits	135 to 138 credits

## **Combined Bachelor of Science in Computer Science and Master of Science in Cybersecurity**

Qualified undergraduates may be admitted to a combined bachelor's/master's program and obtain both a B.S. in computer science and an M.S. in cybersecurity within an accelerated time frame. Students admitted to this program will count up to 12 credits of graduate work in partial satisfaction of the requirements for the undergraduate. After completing 121 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 121 credits of the bachelor's degree. All other master's degree requirements must be met.

### **Admission**

We encourage computer science students to apply for the combined B.S./M.S. program in computer science and cybersecurity in their second year. It is also possible to apply in the third year but students in their fourth year typically do not receive the benefits of the combined program. Application requirements include:

Overall GPA of 3.25 or greater

Student must have been admitted to the computer science program

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

60 hours of academic credit have been completed or are in progress

Two letters of recommendation

Academic transcripts (unofficial transcripts are allowable)

Admission decisions will be made by the school admissions committee based on the student's previous academic success in computer science, as indicated by GPA and grades in the foundation computer science courses, as well as potential success in the graduate program, as indicated by the letters of recommendation. Decisions will normally be communicated to students within four weeks of submitting a complete application to the combined degree program.

## **Requirements**

### **During Undergraduate Studies**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. In the final undergraduate year, students will normally take 12 credits of graduate-level courses. If any courses are dual-listed, students in the combined B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

The school has identified the following courses that students may dual-count toward the B.S. and M.S. degrees. Up to 12 credits can be dual counted. Students are strongly encouraged to work with the graduate program director in cybersecurity to ensure all undergraduate and graduate requirements are met.

CIS 518 in lieu of CIS elective

CIS 555 in lieu of CIS elective

CIS 617 in lieu of CIS elective

CIS 654 in lieu of CIS 457

### **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree, or the completion of 12 graduate credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the School will still recognize the graduate courses taken in lieu of undergraduate

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

The student will still be responsible for completing all of their other computer science degree requirements.

## **Suggested Order of Coursework**

This sample order of coursework assumes that students will complete the CS foundation and general education courses with the help of their advisor and apply for graduate admission at the end of the winter semester of their second year. The following course sequence also assumes a strong mathematics background for the entering student. If mathematics deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

This is only one of many possible sequences of courses. Students are strongly encouraged to work with the graduate program director in cybersecurity to ensure all undergraduate and graduate requirements are met, and to customize the combined program to their areas of interest. The following sequence makes no attempt to minimize credits. For example, the sequence assumes that all general education courses are distinct, and no "double dipping" is done.

### **Year One**

CIS 162 - Computer Science I (4 credits)

CIS 163 - Computer Science II (4 credits)

COM 201 - Speech (3 credits)

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits) **OR** MTH 204 - Linear Algebra I (3 credits)

**OR** MTH 465 - Automata and Theory of Computation (3 credits) **OR** STA 216 - Intermediate Applied Statistics (3 credits)

**OR** MTH 225 - Discrete Structures: Computer Science (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

### **Year Two**

CIS 241 - System-level Programming and Utilities (3 credits)

CIS 263 - Data Structures and Algorithms (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 290 - Professional Responsibilities and Practices (3 credits)

CIS 351 - Computer Organization and Assembly Language (4 credits)

MTH 325 - Discrete Structures: Computer Science 2 (3 credits)

General education Arts

General education Social and Behavioral Sciences

General education History

General education Social and Behavioral Sciences

### **Year Three**

CIS 343 - Structure of Programming Languages (3 credits)

CIS 350 - Introduction to Software Engineering (3 credits)

CIS 353 - Database (3 credits)

CIS 490 - Internship (2 to 5 credits)

CIS 617 - Digital Forensics and Investigations (3 credits)

CIS 654 - Computer Networking (3 credits)

WRT 350 - Business Communication (3 credits)

General education Global Perspectives

General education Natural Science

General education Natural Science with lab

### **Year Four**

CIS 452 - Operating Systems Concepts (4 credits)

CIS 467 - Computer Science Project (3 credits)

CIS 518 - Secure Software Engineering (3 credits)

CIS 555 - Applied Cryptography (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 616 - Data Security and Privacy (3 credits)

Graduate elective (3 credits)

General education U.S. Diversity

General education Issues

General education Issues

General education Philosophy and Literature

### **Year Five**

CIS 615 - Information Security Principles (3 credits)

CIS 619 - Data Analytics for Cybersecurity (3 credits)

CIS 693 - Master's Project (3 credits)

Graduate elective (3 credits)

Graduate elective (3 credits)

Graduate elective (3 credits)

## **Combined Bachelor of Science in Computer Science and Master of Science in Data Science and Analytics**

Qualified undergraduates may be admitted to a combined bachelor's/master's program and obtain both a B.S. in computer science (CS) and an M.S. in data science and analytics (DSA) within an accelerated time frame. Students admitted to this program will count up to 12 credits of graduate work in partial satisfaction of the requirements for the undergraduate. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 120 credits of the bachelor's degree. All other master's degree requirements must be met.

### **Admission**

Students will normally apply directly to the School of Computing for the combined B.S./M.S. program during their second academic year. Application requirements include:

Overall GPA of 3.25 or greater

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Student must have been admitted to the computer science program

60 hours of academic credit have been completed or are in progress

Two letters of recommendation

Academic transcripts (unofficial transcripts are allowable)

Admission decisions will be made by the school admissions committee based on the student's previous academic success in computer science, as indicated by GPA and grades in the foundation computer science courses, as well as potential success in the graduate program, as indicated by the letters of recommendation, and the student's letter of intent. Decisions will normally be communicated to students within four weeks of submitting a complete application to the combined degree program.

## **Requirements**

### **During Undergraduate Studies**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. In the final undergraduate year, students will normally take 12 credits of graduate-level courses. If any courses are dual-listed, students in the combined B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

Students will be considered undergraduates for tuition, academic requirements and financial aid purposes until all requirements for the undergraduate degree are completed. Following this they will be considered graduate students, will pay graduate tuition, and will be eligible for graduate financial aid.

The school has identified the following courses that students may dual-count toward the B.S. and M.S. degrees. Up to 12 credits can be dual counted. Students are strongly encouraged to work with the graduate program director in DSA to ensure all undergraduate and graduate requirements are met.

CIS 635 as both a DSA requirement and a CS elective

CIS 660 as both a DSA requirement and a CS elective

CIS 671 as both a DSA requirement and a CS elective

PSM 691 as both the DSA internship and the CS internship (CIS 490)

Note: DSA students normally take 4-credit internships, while CS students only need two credits. To keep the number of dual counted credits to 12, only three of the credits for PSM 691 will be counted toward CIS 490.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

It is recommended that students interested in the combined CS/DSA degree choose STA 216 as their math/statistics cognate elective, as STA 216 is the prerequisite for all of the DSA statistics courses.

### **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree or the completion of 120 credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the school will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

The student will still be responsible for completing all of their CS electives and the internship: CIS 490.

### **Suggested Order of Coursework**

This sample order of coursework assumes that students will complete the CS foundation and general education courses with the help of their advisor and apply for undergraduate admission at the end of the winter semester of their second year. The following course sequence also assumes a strong mathematics background for the entering student. If mathematics deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

Note: This is only one of many possible sequences of courses. Students are strongly encouraged to work with the graduate program director in DSA to ensure all undergraduate and graduate requirements are met, and to customize the combined program to their areas of interest. The following sequence makes no attempt to minimize credits. For example, the sequence assumes that all general education courses are distinct, and no "double dipping" is done.

### **Year One**

Fall Semester:

CIS 162 - Computer Science I (4 credits)

MTH 122 - College Algebra (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

General education

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Winter Semester:

CIS 163 - Computer Science II (4 credits)

COM 201 - Speech (3 credits)

MTH 204 - Linear Algebra I (3 credits)

MTH 225 - Discrete Structures: Computer Science (3 credits)

General education

## **Year Two**

Science cognate

## **Year Four**

Fall Semester:

CIS 452 - Operating Systems Concepts (4 credits)

CIS 660 - Information Management and Science (3 credits)

CIS 671 - Information Visualization (3 credits)

General education

Winter Semester:

CIS 467 - Computer Science Project (3 credits)

STA 616 - Statistical Programming (3 credits)

PSM 662 - Seminar in Professional Science Practice (2 credits)

General education

Spring/Summer Semester:

PSM 691 - Internship (1 to 9 credits)

## **Year Five**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Fall Semester:

PSM 650 - Ethics and Professionalism in Applied Science (3 credits)

STA 518 - Statistical Computing and Graphics with R (3 credits)

STA 631 - Statistical Modeling and Regression (3 credits)

Winter Semester:

CIS 677 - High-performance Computing (3 credits)

CIS 678 - Machine Learning (3 credits)

STA 526 - Multivariate Data Analysis (3 credits)

Undergraduate credits that count toward B.S.	107
Graduate credits that count toward B.S. and M.S.	12 (Note: Only three credits of PSM 691 apply to B.S.)
Graduate credits that count toward M.S.	24
Total credits	143

## Computer Science Minor

### Requirements for a Minor in Computer Science

The following minor requires a minimum GPA of 2.0 to be approved.

CIS 162 - Computer Science I (4 credits)

CIS 163 - Computer Science II (4 credits)

CIS 241 - System-level Programming and Utilities (3 credits)

CIS 263 - Data Structures and Algorithms (3 credits)

CIS 350 - Introduction to Software Engineering (3 credits)

CIS 353 - Database (3 credits)

MTH 225 - Discrete Structures: Computer Science (3 credits)

Select one of the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 343 - Structure of Programming Languages (3 credits)

CIS 351 - Computer Organization and Assembly Language (4 credits)

CIS 457 - Data Communications (4 credits)

# Criminal Justice

For additional information about opportunities, please refer to the College of Community and Public Service section in this catalog.

**Website:** [gvsu.edu/cj](http://gvsu.edu/cj)

The School of Criminal Justice offers a bachelor of science or bachelor of arts and a master's degree in criminal justice. Students take a variety of required and elective courses to educate themselves as critical thinkers and to gain a comprehensive knowledge of the field. The school also offers an undergraduate major in legal studies for students seeking to become paralegals. For information about the paralegal program, consult the legal studies section in the Grand Valley State University Undergraduate and Graduate Catalog. Summer course offerings will be determined on an annual basis. Please check the schedule of courses.

## Vision

The School of Criminal Justice educates students to become knowledgeable, competent, and ethical leaders in the criminal justice and legal professions.

## Mission

To promote the growth of students through teaching, mentoring, creative scholarship, and community engagement.

Graduates will possess a solid foundation of knowledge and performance skills in the criminal justice field and legal system and will also have the ability to make ethically sound and appropriate decisions in response to the challenges presented to them in their professional and personal lives.

Faculty and staff of the School of Criminal Justice will demonstrate, model, and promote a respect for diversity and commitments to integrity, intellectual and moral virtues, and lifelong learning through effective teaching, active scholarship, and service.

## Requirements for Licensure in Law Enforcement

The School of Criminal Justice at Grand Valley State University operates a Michigan Commission on Law Enforcement Standards (MCOLES) approved Police Academy during the summer months. The program leads to eligibility for law enforcement licensing in Michigan. The

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

courses taken in this program can also be used for graduation. Non-Grand Valley students who meet the MCOLES minimum eligibility requirements may apply. The Grand Valley Police Academy has a proven reputation for excellence. Entry is extremely competitive and is not guaranteed. Those wishing to apply will be required to pass the MCOLES pre-enrollment Reading and Writing and Physical Fitness tests and meet the minimum state employment standards as part of the application process. Grand Valley State University students may apply for the academy during their senior year. Non-Grand Valley students must possess at least an associate degree prior to the start date of the academy. Application packets will be available on our website ([gvsu.edu/cj/policeacademy](http://gvsu.edu/cj/policeacademy)) during the yearly application process. MCOLES requirements can be found at [mcoles.org](http://mcoles.org) under the Licensure and Professional Development section.

Grand Valley offers two unique police academy programs: a 16-week Basic Police Academy and an abbreviated eight-week Military Police Basic Training Program (MPBTP) designed specifically for military police veterans. Both academy programs are conducted during the spring and summer semester. Upon successful completion of either program and the state law enforcement licensing examination, participants will be eligible to be licensed as a law enforcement officer in the State of Michigan. Students selected to attend the 16-week Basic Police Academy must enroll in the following courses (15 credits): CJ 415, CJ 416, CJ 417, CJ 418, and CJ 419. Students selected to attend the eight-week MPBTP must enroll in the following courses (6 credits): CJ 415 and CJ 416.

Eligibility for the MPBTP requires that a candidate must have performed as a military police officer (in any branch of the U.S. Military) for a minimum of 2,080 hours in a specified law enforcement MOS, have satisfactorily completed military police training at a federal service school, possess an honorable discharge or be currently serving, and not be separated from employment in a specified law enforcement MOS for more than five years.

## **Internships**

The School of Criminal Justice allows selected students to complete internships at specified job sites. Upper-division undergraduate students may elect from one to nine hours of CJ 490 if they are approved by the internship coordinator and a job site supervisor unless otherwise specified by a particular organization. Students taking three credits of CJ 490, are normally expected to put in 15 hours at the internship site per week. Credit hours are based on site requirements. Graduate students without prior criminal justice or private security work experience are highly encouraged to complete CJ 640 - Graduate Internship (see Criminal Justice Master Degree Requirements). No more than six credit hours may be applied to the undergraduate major; no more than three credit hours may be applied to the graduate internship. To apply for an internship, contact the internship coordinator.

## **Honors Organizations**

Alpha Phi Sigma is the nationally recognized honor society for students in the criminal justice sciences. The society recognizes academic excellence by undergraduates and graduate students

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

of criminal justice. Members participate in many activities, including community service, career workshops, and fundraisers.

## **Bachelor of Arts or Bachelor of Science in Criminal Justice**

### **Requirements for a Major in Criminal Justice**

To complete the requirements for graduation with a bachelor's degree in criminal justice or legal studies, students must fulfill the general education requirements. While most courses taken at accredited colleges and universities are transferable for full credit, only four courses will be considered toward criminal justice major programs. Students should take at least two-thirds of the credits constituting their major from Grand Valley State University.

### **Bachelor of Arts or Bachelor of Science Degree Requirements**

#### **Requirements for B.A. Degree**

The B.A. degree requires third-semester proficiency in a foreign language

#### **Requirements for B.S. Degree**

STA 215 - Introductory Applied Statistics (3 credits)

CJ 300 - Research Methods in Criminal Justice (3 credits)

CJ 400 - Qualitative Methods (3 credits)

#### **Core Courses**

### **Major Degree Requirements for B.A. and B.S. Degrees**

All majors must take the following nine courses for a total of 27 credits:

CJ 101 - Justice and Society (3 credits)

CJ 201 - Criminology (3 credits)

CJ 305 - Constitutional Rights and Civil Liberties (3 credits)

CJ 312 - Police Process (3 credits)

CJ 330 - Correctional Process (3 credits)

CJ 340 - Courts Process (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CJ 350 - Juvenile Justice Process (3 credits)

CJ 482 - Culture, Crime and Justice (3 credits)

CJ 495 - Issues in Criminal Justice (Capstone) (3 credits)

## **Electives**

In addition, majors must select 12 credit hours of electives from criminal justice courses, not including the B.S. degree course requirements CJ 300 and CJ 400 or police academy courses (CJ 415, CJ 416, CJ 417, CJ 418, and CJ 419). Choose from:

CJ 302 - Criminal Law (3 credits)

CJ 311 - Criminal Investigation (3 credits)

CJ 315 - Principles of Security (3 credits)

CJ 320 - Crimes Against Women (3 credits)

CJ 325 - Criminal Justice and Human Rights (3 credits)

CJ 335/DS 335 - Digital Crime, Media and Culture (3 credits)

CJ 355 - Youth Culture and Crime (3 credits)

CJ 360 - Inside-Out Prison Exchange Program (3 credits)

CJ 370 - Environmental Crime and Justice (3 credits)

CJ 380 - Special Topics in Criminal Justice and Legal Studies (1 to 3 credits)

CJ 399 - Independent Readings in Criminal Justice (1 to 3 credits)

CJ 405 - Terrorism (3 credits)

CJ 408 - White-Collar and Corporate Crime (3 credits)

CJ 420 - Juvenile Correctional Counseling (3 credits)

CJ 442 - Victimology (3 credits)

CJ 464 - Security Management (3 credits)

CJ 490 - Criminal Justice Internship (1 to 9 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CJ 499 - Independent Study and Research (1 to 3 credits)

## **Grand Valley Police Academy**

The GVSU Basic Police Academy is an annual 16-week intensive program that meets the Michigan Commission on Law Enforcement Standards (MCOLES) training requirements and prepares students for the Michigan Law Enforcement Licensing Examination. Upon completion of the program, participants will have all of the qualifications necessary to be eligible for licensure as a law enforcement officer in the State of Michigan. Students enrolled in the GVSU police academy must take the following courses (a total of 15 credits).

### **Core Courses**

CJ 415 - Law Enforcement Physical Education, Defensive Tactics and Firearms (3 credits)

CJ 416 - Special Operations and Training (3 credits)

CJ 417 - Criminal Investigations II (3 credits)

CJ 418 - Patrol and Traffic Administration and Procedure (3 credits)

CJ 419 - Michigan Criminal Law (3 credits)

### **Courses Recommended for Prospective Police Academy Applicants**

CJ 302 - Criminal Law (3 credits)

CJ 305 - Constitutional Rights and Civil Liberties (3 credits)

CJ 311 - Criminal Investigation (3 credits)

CJ 490 - Criminal Justice Internship (1 to 9 credits)

## **Grand Valley Military Police Basic Training Program**

The GVSU Military Police Veteran's Academy is an annual eight-week intensive program designed to transition eligible candidates to a civilian law enforcement career. The program meets the Michigan Commission on Law Enforcement Standards (MCOLES) training requirements and prepares students for the Michigan Law Enforcement Licensing Examination.

To be eligible for consideration, a candidate must have performed as a military police officer (in any branch of the U.S. Military) for a minimum of 2,080 hours in a specified law enforcement MOS; have satisfactorily completed military police training at a federal service school; possess an honorable discharge or be currently serving; and not be separated from employment in a specified law enforcement MOS for more than five years.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Upon completion of the program, participants will have all of the qualifications necessary to be eligible for licensure as a law enforcement officer in the State of Michigan. Students enrolled in the GVSU military police basic police training program must take the following courses (a total of six credits):

CJ 415 - Law Enforcement Physical Education, Defensive Tactics and Firearms (3 credits)

CJ 416 - Special Operations and Training (3 credits)

## **Suggested Order of Coursework for a Major in Criminal Justice (B.A.)**

### **Year One**

WRT 150 - Strategies in Writing (4 credits)

CJ 101 - Justice and Society (3 credits) General education Social and Behavioral Science and CJ core

General education Art, Philosophy and Literature, Social and Behavior Sciences, or Math (3 credits)

Foreign language 101 (4 credits) To ensure proper placement, contact the Department of Modern Languages and Literatures for testing

MTH 110 - Algebra (4 credits)

General education Art, Philosophy and Literature, Social and Behavior Sciences, or Math (3 credits)

General education Art, Philosophy and Literature, Social and Behavior Sciences, or Math (3 credits)

Foreign language 102 (4 credits)

### **Year Two**

General education science course with lab (4 to 5 credits)

CJ 201 - Criminology (3 credits) CJ core.

General education Arts, Philosophy and Literature, Social and Behavioral Science, or Math (3 credits)

Foreign language 201 (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Minor or general elective (3 credits)

## **Criminal Justice Minor**

### **Requirements for a Minor in Criminal Justice**

Minors are required to complete the following nine credit hours of core courses:

CJ 101 - Justice and Society (3 credits)

CJ 201 - Criminology (3 credits)

CJ 305 - Constitutional Rights and Civil Liberties (3 credits)

They must also complete an additional 12 credit hours from any criminal justice course(s).

## **Juvenile Justice Minor**

The juvenile justice minor, offered by the School of Criminal Justice, is a 21-credit interdisciplinary program open to all students. This minor is designed to promote an awareness and understanding of juvenile offenders and at-risk youth. This minor is also designed to provide students with a comprehensive education that will prepare them for careers in the field of human services as it relates to juvenile offenders and at-risk youth.

Only nine credits maximum may apply to both the criminal justice major and juvenile justice minor. Seek advising for assistance.

### **Requirements for a Minor in Juvenile Justice**

There are 21 credits required, including:

CJ 101 - Justice and Society (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CJ 201 - Criminology (3 credits)

CJ 355 - Youth Culture and Crime (3 credits)

CJ 420 - Juvenile Correctional Counseling (3 credits)

Elective courses:

CJ 350 - Juvenile Justice Process (3 credits)

LS 350 - Family Law (3 credits)

SOC 285 - Families in Society (3 credits)

SOC 252 - Sociology of Drug Use and Abuse (3 credits)

SOC 389 - Child Maltreatment (3 credits)

PSY 301 - Child Development (3 credits)

SW 150 - Introduction to Social Work and Social Welfare (3 credits)

SW 320 - Child Welfare Policy and Practice (3 credits)

RTX 302 - Leisure, Health, and Wellness (3 credits)

See the director of the School of Criminal Justice for additional information.

## **Master of Science in Criminal Justice**

**Website:** [gvsu.edu/grad/cj](http://gvsu.edu/grad/cj)

The 36 credit hour Master of Science degree in criminal justice at Grand Valley State University is designed to provide graduate students with the necessary education and practical skills to become natural leaders and academicians in the field. The program's mission is to develop highly ethical and capable leaders, specialists, and scholars, with an advanced and practical knowledge in criminology and criminal justice to prepare them for future work in their careers, classrooms, and/or communities. Our program also seeks to create a dynamic community of criminal justice professionals and scholars who will work in concert to critique, challenge, and advance the study and practice of criminal justice. Our faculty believe that professional education is best reinforced by concrete application of theoretical concepts. Graduate courses will provide students the opportunity to apply to their agencies or professional endeavors the skills, concepts, and knowledge acquired in the program. The result of this applied process is a bridge between theory and practice and between the classroom and the professional field.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The criminal justice curriculum encompasses applied concepts of ethics, political and social justice, historical analysis of institutions and policy, leadership and management, and theories and research. The curriculum also prepares students who plan to apply to a doctoral program with appropriate theoretical, research, analytical, and critical interpretation skills.

## **Mission**

To develop highly ethical and capable leaders, specialists, and scholars, with an advanced and practical knowledge in criminology and criminal justice to prepare them for future work in their careers, classrooms, and/or communities.

## **Admission**

To apply for the Master of Science degree in criminal justice, please note the following requirements:

Undergraduate GPA of at least a 3.0 on a 4.0 scale calculated from the last 60 hours of undergraduate work.

If applying for student admission into the SCJ undergraduate/graduate combined degree program, an undergraduate GPA of at least a 3.25 on a 4.0 scale calculated from the last 60 hours of undergraduate work.

Three letters of recommendation (at least two from current or former professors).

A personal statement/essay detailing academic preparation, background experiences and professional, educational, and career goals for entry into a master's program in criminal justice, and any special topic areas that you would like to pursue at the master's level.

The Graduate Committee reserves the right to require additional information it deems appropriate, including GRE test scores and writing samples. The committee may also require applicants to appear for an oral interview. The decisions of the Graduate Committee are final.

Students who have not earned a degree in criminal justice or criminology may be required to take undergraduate criminal justice courses at the discretion of the MCJ graduate program director. Approved courses such as introduction to criminal justice, criminology, research methods, and statistics are highly recommended.

Applications for fall admission should be received by May first; winter admission applications should be received by November first.

## **Transfer Credit**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Up to 12 hours of transfer credit may be applied to the degree program. Such credit must meet the requirements specified in the Transfer of Credit section of this catalog, be recommended as applicable to the degree program by a graduate faculty advisor, and be approved for transfer application by the MCJ graduate program director.

### **Program Location**

The program is offered in the DeVos Center, Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

### **Requirements for the M.S. in Criminal Justice**

Students must complete a minimum of 36 graduate credit hours:

18 credit hours of core courses

12-15 credit hours of elective courses (12 credit hours if completing a thesis; 15 credit hours if completing the MCJ Capstone course)

Three to six hours of culminating experience.

### **Core Courses**

Core of required courses consists of 18 credit hours as follows:

CJ 604 - Criminal Justice Policy and Program Evaluation (3 credits)

CJ 606 - Research Methodology and Data Analysis (3 credits)

CJ 607 - Criminology (3 credits)

CJ 609 - Criminal Justice Systems (3 credits)

CJ 610 - Race, Gender, and Class in the Criminal Justice System (3 credits)

CJ 642 - Victimology (3 credits)

### **Electives**

Choose from the following courses (15 credits if completing the capstone seminar (CJ 650) or 12 if completing the thesis (CJ 695)):

CJ 600 - Qualitative Methodology (3 credits)

CJ 619 - Legal Issues in Criminal Justice (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CJ 620 - Policing and Society (3 credits)

CJ 621 - Corrections and Punishment (3 credits)

CJ 622 - Juvenile Justice Systems and Issues (3 credits)

CJ 640 - Graduate Internship (3 credits)

CJ 680 - Special Topics in Criminal Justice Credits: 3

CJ 699 - Directed Readings (1 to 3 credits)

### **Capstone Seminar**

The Capstone Seminar option requires students to complete 33 hours of coursework. The three credit Capstone Seminar serves as a culminating experience within the graduate program in lieu of the six-credit-hour thesis option. Students must complete a minimum of 18 credits before registering for the Capstone course. This class should normally be taken in the students final semester of study.

CJ 650 - Master's Capstone in Criminal Justice (3 credits)

CJ 695 - Criminal Justice Thesis (1 to 6 credits)

## **Cybersecurity (Graduate)**

For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing section in this catalog.

**Website:** [gvsu.edu/grad/cybersecurity](https://gvsu.edu/grad/cybersecurity)

The master's degree in cybersecurity is a blend of theory and applications to deliver a cutting-edge program. The curriculum is designed to provide students with the knowledge and skills needed to successfully evaluate information security needs, identify appropriate countermeasures, and implement security solutions. Moreover, the program introduces students to various cybersecurity areas such as secure coding, network security, and digital forensics, as well as having students practice with different tools and techniques to identify potential threats to the network infrastructure and computer systems.

### **Admission to the Master of Science in Cybersecurity Program**

In addition to the university requirements of admission, all students seeking a degree for the M.S. in cybersecurity must also meet the following requirements:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Grade point average of 3.0 (B)** from all undergraduate coursework or a satisfactory score on the GRE or GMAT test

**Resume** detailing work experiences and accomplishments

**Personal statement** of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives

**Recommendations:** Two professional or academic recommendations received online, addressing the candidate's potential for graduate study completion. You will provide the emails of two references in your account at [gvsu.edu/gradapply](https://gvsu.edu/gradapply), and they will be sent a link to fill out for their online recommendation

Admission to the M.S. in cybersecurity status may be full or conditional; conditional admission may be granted to applicants with deficiencies in their background. Candidates without sufficient relevant background experience may satisfy any deficiency with appropriate graduate or undergraduate courses, as recommended by a faculty advisor in the program and approved by the cybersecurity program director.

### **Minimum Number of Hours for Graduation**

11 three-credit courses (33 credit hours) comprise the Master of Science in cybersecurity degree.

### **Program Location**

Courses are normally scheduled in the evenings from 6 p.m. to 9 p.m. downtown at the Pew Grand Rapids Campus.

## **Master of Science in Cybersecurity**

### **Requirements for the M.S. in Cybersecurity**

All candidates for the degree must complete a total of 33 credits, indicated as follows:

Foundation courses (6 credits)

Core (21 credits)

Electives (0 or 3 credits)

Capstone (3 or 6 credits)

### **Foundation Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

All candidates are expected to complete the two foundation courses, CIS 500 and CIS 501, for a total of six credits. However, a placement exam can be taken to demonstrate proficiency in the topics covered by the foundation courses. A successful score on the placement exam will result in waiving the requirement of the foundation courses (33 credits are still required for the degree and may be achieved through taking additional electives).

CIS 500 - Fundamentals of Software Practice (3 credits)

CIS 501 - Fundamentals of Modern Computer Systems (3 credits)

### **Core Courses**

Students are required to complete the following courses for a total of 21 credits:

CIS 518 - Secure Software Engineering (3 credits)

CIS 555 - Applied Cryptography (3 credits)

CIS 615 - Information Security Principles (3 credits)

CIS 616 - Data Security and Privacy (3 credits)

CIS 617 - Digital Forensics and Investigations (3 credits)

CIS 619 - Data Analytics for Cybersecurity (3 credits)

CIS 654 - Computer Networking (3 credits)

### **Elective Courses**

Students must complete three elective credits; Any 500- or 600-level CIS course (other than foundations courses) can be used as an elective toward the M.S. in cybersecurity degree.

### **Capstone**

Each candidate must complete either the project course or the thesis sequence for a total of three or six credits. Please contact the graduate program director one semester prior to starting any of these.

CIS 690 - Thesis Research Preparation (3 credits)

CIS 693 - Master's Project (3 credits)

CIS 695 - Master's Thesis (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Cybersecurity (Undergraduate)

For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing section in this catalog.

**Website:** [cis.gvsu.edu/cybersecurity-major](http://cis.gvsu.edu/cybersecurity-major)

## Degrees Offered

Undergraduate and graduate computing programs at Grand Valley are offered by the School of Computing. Computing programs prepare students for a rewarding career that is in high-demand.

One of the strengths of the computing programs at Grand Valley is flexibility. We offer B.S. degrees in computer science, cybersecurity, information systems, and information technology. All programs share faculty, courses, and laboratory resources. Also, by choosing electives and minors in related subject areas, students can further tailor their degrees to fit their individual needs and career goals. We offer minors in computer engineering, computer science, data science, health care information systems, information security systems, information systems, and information technology.

The cybersecurity degree will prepare students to design and implement defenses for a wide variety of cybersecurity threats. Students will be prepared to identify threats and vulnerabilities, identify and implement appropriate controls, and recover from security breaches. A wide range of cybersecurity application areas are covered including software security, network security, data security, and system security, as well as human and organizational issues, in order to prepare students broadly to address a variety of threats.

GVSU's cybersecurity program contains hands-on lab activities throughout the program to prepare students with the practical skills to deal with today's cybersecurity issues. Cybersecurity theory is also emphasized, to prepare students to recognize and address the security problems of tomorrow. Cognate courses emphasize analytical reasoning and legal issues.

## Mission

The mission of the School of Computing is to provide the GVSU student community with the intellectual foundations and experiences necessary to use information technology effectively in their chosen careers.

To enable students to attain this goal, the School of Computing faculty have two primary responsibilities. First, we offer a solid conceptual foundation required for a career in computing. Second, we provide direct, experiential knowledge of technology necessary to be a productive user/producer of information technology.

To achieve these goals, we

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

work continuously to keep our curriculum relevant to our mission;

ensure that work-relevant experience is part of every class;

establish and nurture industrial contacts;

establish an integrated, supported co-op experience for computing majors; and

provide all students, regardless of their major interests, fundamental knowledge of computers and information processing.

### **Cybersecurity Program Goals**

By the time of graduation, cybersecurity students will demonstrate the ability to perform the following:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply security principles and practices to maintain operations in the presence of risks and threats.

Three years after graduation, our typical alumni are expected to be computing professionals who:

- use technical, communication, and teamwork skills to apply cybersecurity principles and to protect systems and data from a variety of threats.
- continue to develop their professional knowledge and skills.
- behave ethically while contributing to their profession and to society.

### **Advisory Board**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The School of Computing Advisory Board (CISAB) is composed of the school's director and leading computing experts in West Michigan. The board meets twice each year and advises the school on curriculum development and continuing education. It serves as an important interface between the school and the computing community.

## **Admission**

Admission to major standing in cybersecurity (CBS) is competitive and requires an application for admittance into the major. Applicants must meet the following criteria:

Overall GPA of 2.5 or above in all Grand Valley State University coursework.

Completion of each course in the CBS foundation with a grade of C or above (C- is not sufficient).

GPA of 2.5 or above in the CBS foundation.

The CBS foundation includes CIS 162 and CIS 258; MTH 225; STA 215 or STA 312; and COM 201. Completing the CBS foundation courses require programming, analytical reasoning, and communication skills. These skills are important to excel in the computing field.

The CBS foundation GPA is calculated on no more than one repeat per course. Achievement of the minimum requirements does not guarantee admission to the major. The School of Computing will also consider internship availability and the applicant's suitability for internships before granting admission. Transfer students must complete at least six hours of CIS coursework before applying, but should consult with a School of Computing advisor before scheduling their first semester.

Note: While admission to major standing in cybersecurity may be achieved with completion of the computer science foundation, information systems foundation or information technology instead of the CBS foundation, it is still necessary to complete all the required courses in the cybersecurity major.

# **Bachelor of Science in Cybersecurity**

## **Requirements for a Major in Cybersecurity**

### **Degree Requirements**

Students must complete the university degree requirements as identified in the General Academic Regulations section of the catalog.

## **Admission**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Admission to major standing in cybersecurity is competitive and requires an application for admittance into the major. See the cybersecurity program description for more information regarding admission to the major.

## **Cybersecurity Major**

### **Required Courses**

Cybersecurity majors must complete the following CIS courses with a minimum 2.0 GPA.

- CIS 162 - Computer Science I (4 credits)
- CIS 163 - Computer Science II (4 credits)
- CIS 241 - System-level Programming and Utilities (3 credits)
- CIS 258 - Introduction to Cybersecurity (3 credits)
- CIS 290 - Professional Responsibilities and Practices (3 credits)
- CIS 331 - Data Analysis Tools and Techniques (3 credits)
- CIS 337 - Network Systems Management (3 credits)
- CIS 350 - Introduction to Software Engineering (3 credits)
- CIS 351 - Computer Organization and Assembly Language (4 credits)
- CIS 353 - Database (3 credits)
- CIS 358 - Information Assurance (3 credits)
- CIS 375 - Wireless Networks and Security (3 credits)
- CIS 418 - Secure Software Engineering (3 credits)
- CIS 430 - Computer and Cyber Forensics (3 credits)
- CIS 437 - Distributed Computing (4 credits)
- CIS 455 - Applied Cryptography (3 credits)
- CIS 456 - Reverse Engineering and Malware Analysis (3 credits)
- CIS 458 - System Security (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 468 - Cybersecurity Project (3 credits)

CIS 490 - Internship (2 to 5 credits)

### **Elective Courses**

Cybersecurity majors must select six or more credits of elective courses from the following:

CIS 310 - Introduction to the Structure and Mechanics of Social Networks (3 credits)

CIS 335 - Data Mining (3 credits)

CIS 338 - Wide Area Network Engineering (3 credits)

CIS 357 - Mobile Application Development (3 credits)

CIS 365 - Artificial Intelligence (3 credits)

CIS 368 - Usability Design and Evaluation (3 credits)

CIS 371 - Web Application Programming (3 credits)

CIS 373 - Pervasive Computing (3 credits)

CIS 380 - Special Topics in Computer Information Systems (1 to 4 credits)

CIS 451 - Computer Architecture (3 credits)

CIS 452 - Operating Systems Concepts (4 credits)

CIS 480 - Special Topics in Computer Information Systems (1 to 4 credits)

CJ 408 - White-Collar and Corporate Crime (3 credits)

MTH 312 - Cryptography and Privacy (3 credits)

### **Cognate Courses**

Cybersecurity majors must complete the following cognate courses:

CJ 315 - Principles of Security (3 credits)

CJ 335 - Digital Crime, Media and Culture (3 credits)

COM 201 - Speech (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 122 - College Algebra (3 credits) **OR** MTH 124 - Precalculus: Functions and Models (5 credits) **OR** MTH 201 - Calculus I (4 credits)

MTH 225 - Discrete Structures: Computer Science (3 credits)

STA 215 - Introductory Applied Statistics (3 credits) **OR** STA 312 - Probability and Statistics (3 credits)

WRT 350 - Business Communication (3 credits)

## **Suggested Order of Coursework**

This suggested order of coursework for a major in cybersecurity assumes that students will complete the cybersecurity foundation and general education courses with the help of their advisor and apply for admission at the end of the winter semester of their first year.

### **Year One**

CIS 162 - Computer Science I (4 credits)

CIS 163 - Computer Science II (4 credits)

CIS 258 - Introduction to Cybersecurity (3 credits)

COM 201 - Speech (3 credits)

MTH 201 - Calculus I (4 credits)

MTH 225 - Discrete Structures: Computer Science (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

Appropriate general education coursework

### **Year Two**

CIS 241 - System-level Programming and Utilities (3 credits)

CIS 290 - Professional Responsibilities and Practices (3 credits)

CIS 337 - Network Systems Management (3 credits)

CIS 350 - Introduction to Software Engineering (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 351 - Computer Organization and Assembly Language (4 credits)

CIS 375 - Wireless Networks and Security (3 credits)

CJ 315 - Principles of Security (3 credits)

Appropriate general education coursework

### **Year Three**

CIS 331 - Data Analysis Tools and Techniques (3 credits)

CIS 353 - Database (3 credits)

CIS 358 - Information Assurance (3 credits)

CIS 437 - Distributed Computing (4 credits)

CIS 456 - Reverse Engineering and Malware Analysis (3 credits)

CIS 458 - System Security (3 credits)

CJ 335 - Digital Crime, Media and Culture (3 credits)

Cybersecurity elective

Appropriate general education coursework

### **Year Four**

CIS 418 - Secure Software Engineering (3 credits)

CIS 430 - Computer and Cyber Forensics (3 credits)

CIS 455 - Applied Cryptography (3 credits)

CIS 468 - Cybersecurity Project (3 credits)

CIS 490 - Internship (2 to 5 credits)

WRT 350 - Business Communication (3 credits)

Cybersecurity elective

Appropriate general education coursework

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# **Badge in Cybersecurity**

The School of Computing's cybersecurity badge (not a degree or certificate) is designed to prepare students in the following areas:

Analyzing risk, using a variety of risk evaluation techniques.

Discussing legal and ethical issues related to information security.

Securing a network against attack.

Applying principles of ethical hacking to harden an Operating System.

Applying tools and techniques to cyber forensic investigations and examinations

Describing software vulnerabilities.

## **Program Format**

The cybersecurity badge is comprised of three courses (nine credits).

## **Admission**

Completion of a bachelor's degree and evidence of object-oriented programming skills are required for admission.

## **Program Location**

The cybersecurity badge is offered on the Pew Grand Rapids Campus in downtown Grand Rapids, MI.

## **Requirements**

CIS 615 - Information Security Principles (3 credits)

And two of the following:

CIS 555 - Applied Cryptography (3 credits)

CIS 616 - Data Security and Privacy (3 credits)

CIS 617 - Digital Forensics and Investigations (3 credits)

CIS 518 - Secure Software Engineering (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Combined Bachelor of Science in Cybersecurity and Master of Science in Cybersecurity**

Qualified undergraduates may be admitted to a combined bachelor's/master's program and obtain both a B.S. in cybersecurity and an M.S. in cybersecurity within an accelerated time frame. Students admitted to this program will count up to 12 credits of graduate work in partial satisfaction of the requirements for the undergraduate. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 120 credits of the bachelor's degree. All other master's degree requirements must be met.

### **Admission**

We encourage cybersecurity students to apply for the combined B.S./M.S. program in cybersecurity and cybersecurity in their second year. It is also possible to apply in the third year but students in their fourth year typically do not receive the benefits of the combined program. Application requirements include:

Overall GPA of 3.25 or greater

Student must have been admitted to the cybersecurity program

60 hours of academic credit have been completed or are in progress

Two letters of recommendation

Academic transcripts (unofficial transcripts are allowable)

Admission decisions will be made by the school admissions committee based on the student's previous academic success in cybersecurity, as indicated by GPA and grades in the foundation cybersecurity courses, as well as potential success in the graduate program, as indicated by the letters of recommendation. Decisions will typically be communicated to students within four weeks of submitting a complete application to the combined degree program.

### **Requirements**

#### **During Undergraduate Studies**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. In the final undergraduate year, students typically take 12 credits of graduate-level courses. If any courses are dual-listed, students in the combined B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The school has identified the following courses that students may dual-count toward the B.S. and M.S. degrees. Up to 12 credits can be dual-counted. Students are strongly encouraged to work with the graduate program director in cybersecurity to ensure all undergraduate and graduate requirements are met.

CIS 518 in lieu of CIS 418

CIS 555 in lieu of CIS 455

CIS 616 in lieu of CIS 458

CIS 617 in lieu of CIS 430

### **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree, or the completion of 12 graduate credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the school will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

The student will still be responsible for completing all of their other undergraduate cybersecurity degree requirements.

### **Sample Order of Coursework**

This sample order of coursework assumes that students will complete the cybersecurity foundation and general education courses with the help of their advisor and apply for graduate admission at the end of the winter semester of their second year. The following course sequence also assumes a strong mathematics background for the entering student. If mathematics deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

Notes: This is only one of many possible sequences of courses. Students are strongly encouraged to work with the graduate program director in cybersecurity to ensure all undergraduate and graduate requirements are met, and to customize the combined program to their areas of interest. The following sequence makes no attempt to minimize credits. For example, the sequence assumes that all general education courses are distinct, and no "double dipping" is done.

### **Year One**

CIS 162 - Computer Science I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 163 - Computer Science II (4 credits)

CIS 258 - Introduction to Cybersecurity (3 credits)

COM 201 - Speech (3 credits)

MTH 201 - Calculus I (4 credits)

MTH 225 - Discrete Structures: Computer Science (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

Appropriate general education coursework

## **Year Two**

CIS 241 - System-level Programming and Utilities (3 credits)

CIS 290 - Professional Responsibilities and Practices (3 credits)

CIS 337 - Network Systems Management (3 credits)

CIS 351 - Computer Organization and Assembly Language (4 credits)

CIS 375 - Wireless Networks and Security (3 credits)

CJ 315 - Principles of Security (3 credits)

Appropriate general education coursework

Appropriate general education coursework

Appropriate general education coursework

Appropriate general education coursework

## **Year Three**

CIS 331 - Data Analysis Tools and Techniques (3 credits)

CIS 350 - Introduction to Software Engineering (3 credits)

CIS 353 - Database (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 358 - Information Assurance (3 credits)

CIS 437 - Distributed Computing (4 credits)

CIS 456 - Reverse Engineering and Malware Analysis (3 credits)

CIS 490 - Internship (2 to 5 credits)

CIS 617 - Digital Forensics and Investigations (3 credits)

CJ 335 - Digital Crime, Media and Culture (3 credits)

Appropriate general education coursework

Cybersecurity elective

#### **Year Four**

CIS 468 - Cybersecurity Project (3 credits)

CIS 518 - Secure Software Engineering (3 credits)

CIS 555 - Applied Cryptography (3 credits)

CIS 616 - Data Security and Privacy (3 credits)

# Dance

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

In addition to the full-time faculty, several distinguished dance educators with extensive professional experience teach classes on a part-time basis.

**Website:** [gvsu.edu/dance](http://gvsu.edu/dance)

## Degrees Offered

The Department of Music, Theatre, and Dance offers curricula leading to the Bachelor of Arts in music, Bachelor of Music, Bachelor of Music Education, certificate in piano pedagogy, Bachelor of Arts in theatre, Bachelor of Science in theatre, and the Bachelor of Arts in dance. Minors in music, theatre and dance are also offered. These degree programs provide personalized attention, career building opportunities, and professional and extensive training in the various idioms of music, theatre, and dance. In the context of a broad liberal education that fosters critical thinking, creative problem solving, and cultural understanding, these degree programs prepare students well to answer the call of rewarding careers in music, theatre, and dance.

The B.A. in dance provides students extensive training to develop and refine techniques in various idioms of dance. Students develop their abilities through a wide range of courses combining practical and theoretical skills that emphasize critical thought and growth as an artist. The department encourages collaboration across disciplines and provides opportunities to explore innovative areas in dance history, theory, dance and technology, choreography, pedagogy, anatomy and physiology, and production. We highlight performance opportunities in the work of world-renowned guest artists, maintain currency in the dance community at large, and graduate informed members of the dance community. Class sizes are small and offer each student individual attention from dance faculty.

## Admission

Participation in the dance program is by audition only. An audition schedule and application form can be found at [gvsu.edu/dance](http://gvsu.edu/dance). When considerable geographical distance prevents a personal audition, the applicant may, with the permission of the program, submit a DVD or link to online video containing ballet barre and center classroom work and modern or jazz center classroom work along with a resume. Scholarships are awarded on the basis of individual talent and potential, and are renewable annually if performance and academic standards are maintained. Auditions will consist of a ballet technique class, a modern technique class, performance of a short solo, and meeting with the faculty.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

# **Bachelor of Arts in Dance**

## **Requirements for a Major in Dance**

Students in the dance major must complete a minimum of 47 credit hours in dance.

### **Dance Core**

Students must complete 42 core credit hours as follows:

DAN 241 **OR** DAN 341 **OR** DAN 441 - Ballet technique (Eight credits from a combination of DAN 241, DAN 341, and DAN 441, which are two credits each.)

DAN 251 **OR** DAN 351 **OR** DAN 451 - Modern technique (Eight credits from a combination of DAN 251, DAN 351, and DAN 451, which are two credits each.)

DAN 281 **OR** DAN 381 **OR** DAN 481 - Jazz technique (2 credits)

DAN 175 - Freshman Company (1 credit)

DAN 275 - Dance Company (1 credit)

The preceding courses must be repeated for credit.

DAN 211 - Choreography and Improvisation (3 credits)

DAN 245 - Dance History: Evolving Traditions (3 credits)

DAN 311 - Choreography and Production (3 credits)

DAN 333 - Dance Costuming (2 credits)

DAN 345 - Dance History: Expanding Performance (3 credits)

DAN 420 - Dance Pedagogy (3 credits)

DAN 495 - Senior Project (3 credits)

### **Dance Theory**

Choose one course from the following (three credit hours):

DAN 393 - Dance Conditioning (3 credits)

DAN 394 - Dance on Camera (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Dance Electives**

Students must complete two credit hours of electives:

Two credits can be taken as any currently listed dance course except DAN 200. For technique courses, this would be any course taken beyond the required eight credits.

## **Suggested General Education Courses**

The following seven credit hours of general education courses are suggested:

BMS 202 - Anatomy and Physiology (4 credits)

MUS 100 - Introduction to Music Literature (3 credits)

## **Mid-program Review**

At the end of the sophomore year, students enrolled in the dance major program will sign-up for a Mid-program Review to determine if they can proceed to upper-division courses. The Mid-program Review is reviewed and adjudicated by the dance faculty.

The following courses must be successfully completed by the end of the semester the student completes the Mid-program Review: two semesters in ballet (DAN 241, DAN 341, or DAN 441); two semesters in modern dance (DAN 251, DAN 351, or DAN 451); DAN 175, DAN 275, DAN 211, and DAN 245.

## **Suggested Order of Coursework**

### **Year One**

DAN 175 - Freshman Company (1 credit)

DAN 241 - Ballet Technique 2 (2 credits) Two semesters for a total of four credits.

DAN 251 - Modern Technique 2 (2 credits) Two semesters for a total of four credits.

MTH 110 - Algebra (4 credits)

WRT 150 - Strategies in Writing (4 credits)

General education courses (13 credits)

Total: 30 credits

### **Year Two**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 202 - Anatomy and Physiology (4 credits)

DAN 211 - Choreography and Improvisation (3 credits)

DAN 245 - Dance History: Evolving Traditions (3 credits)

DAN 275 - Dance Company (1 credit)

DAN 281 or DAN 381 or DAN 481 Jazz Technique (2 credits)

DAN 341 - Ballet Technique 3 (2 credits)

DAN 351 - Modern Technique 3 (2 credits)

Dance theory (3 credits)

General education courses in addition to BMS 202 (2 credits)

Foreign language (8 credits)

Total: 30 credits

### **Year Three**

DAN 275 - Dance Company (1 credit)

DAN 311 - Choreography and Production (3 credits)

DAN 333 - Dance Costuming (2 credits)

DAN 345 - Dance History: Expanding Performance (3 credits)

DAN 441 - Ballet Technique 4 (2 credits)

DAN 451 - Modern Technique 4 (2 credits)

General education courses (13 credits)

Foreign language (4 credits)

Total: 30 credits

### **Year Four**

DAN 420 - Dance Pedagogy (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

DAN 441 - Ballet Technique 4 (2 credits)

DAN 451 - Modern Technique 4 (2 credits)

DAN 495 - Senior Project (3 credits)

MUS 100 - Introduction to Music Literature (3 credits)

General education courses in addition to MUS 100 (16 credits)

Total: 29 credits

## **Dance Minor**

### **Requirements for a Minor in Dance**

A student choosing to minor in dance must complete a minimum of 23 credit hours in dance:

DAN 175 - Freshman Company (1 credit) Repeat for two credits total.

DAN 211 - Choreography and Improvisation (3 credits)

DAN 241 or DAN 341 or DAN 441 - Ballet Technique (4 credits)

DAN 251 or DAN 351 or DAN 451 - Modern Dance (4 credits)

DAN 281 or DAN 381 or DAN 481 - Jazz Technique (2 credits)

DAN 245 - Dance History: Evolving Traditions (3 credits)

DAN 345 - Dance History: Expanding Performance (3 credits)

Dance electives (2 credits) All dance courses count as dance electives.

Total: 23 credits

## **Data Science and Analytics**

**Website:** [gvsu.edu/grad/dsa](https://gvsu.edu/grad/dsa)

This Professional Science Master's degree in data science and analytics provides students from various disciplines with the fundamental analytics background and tools necessary to understand and work with big and complex data sets in any discipline. It is designed to allow a statistics or computing student to gain additional cross-disciplinary background, or for a student of any

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

discipline to develop the necessary skills and knowledge to solve complex data intensive problems. Students take courses in both computer science and statistics, leading to a Capstone that applies skills in both disciplines to interdisciplinary problems.

## **Admission**

In addition to the university requirements of admission, all students seeking a degree for the M.S. in data science and analytics must also meet the following requirements:

**Grade point average:** 3.0 (B) from all undergraduate coursework or a satisfactory score on the GRE or GMAT test.

**Resume:** Include detailed work experiences and accomplishments.

**Personal statement:** Include career goals and background experiences, along with an explanation of how this program will help achieve educational and professional objectives.

**Recommendations:** Two professional or academic recommendations received online, addressing the candidate's potential for graduate study completion. You provide two email addresses of references in your account at [gvsu.edu/gradapply](https://gvsu.edu/gradapply) and they will be sent a link to complete their online recommendation.

Applicants for the Professional Science Master's in data science and analytics must have an underlying base of knowledge relevant to graduate studies in the statistics and computing fields. This knowledge can be demonstrated by previous academic study or work experience. Consultation with a program faculty advisor will be necessary to verify appropriateness of work experience as a substitute for academic preparation.

## **Minimum Number of Hours for Graduation**

12 courses (36 credit hours) comprise the Master of Science in data science and analytics degree.

## **Badge in Data Analytics**

The School of Computing's data analytics badge (not a degree or certificate) is designed to prepare students to accomplish the following tasks:

Utilize computational methods for knowledge discovery.

Create visualizations for complex data sets.

Design parallel and high-performance computing algorithms.

Develop machine learning algorithms.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Program Format**

The data analytics badge is comprised of three courses (9 credits).

## **Admission**

Completion of a bachelor's degree, and evidence of object-oriented programming skills are required for admission.

## **Program Location**

The data analytics badge is offered on the Pew Grand Rapids Campus in downtown Grand Rapids, MI.

## **Requirements for the Data Analytics Badge**

CIS 635 - Knowledge Discovery and Data Mining (3 credits)

CIS 671 - Information Visualization (3 credits)

**AND** one of the following:

CIS 677 - High-performance Computing (3 credits)

CIS 678 - Machine Learning (3 credits)

## **Applied Data Analytics, Undergraduate Certificate**

The applied data analytics certificate focuses on understanding how to interpret, use, and apply data and statistics in the workplace. Students learn foundational computing and statistical skills like visualization, predictive analytics tools, and computer coding in Python and R. Certificates demonstrate the skills necessary to pursue a career path. Earning this undergraduate certificate in applied data analytics will enhance student's career skills by using data to

improve decision-making;

enhance productivity; and

predict and define emerging trends.

## **Requirements for the Certificate (18 credits)**

### **Required Courses (18 credits)**

CIS 160 - Learn to Code in Python (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 320 - Visualization of Data and Information (3 credits)

CIS 331 - Data Analysis Tools and Techniques (3 credits) **OR** MGT 477 - Applied Business Intelligence (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

STA 323 - Predictive Analytics (3 credits)

STA 340 - Statistics in the Media (3 credits) **OR** ECO 300 - Data Analytics for Economics and Business (3 credits)

## **Master of Science in Data Science and Analytics**

The M.S. in data science and analytics is one of five synergistic professional science master's (PSM) degree programs at Grand Valley State University. The five programs (applied statistics, biostatistics, cell and molecular biology (biotechnology), data science and analytics, and health informatics and bioinformatics) are interdisciplinary and involve both the university and its industry partners. All five programs emphasize teamwork, problem-solving, communication, scientific knowledge, and technical skills. Each program is designed to integrate university coursework with business/industrial internships to better prepare students for the variety of career pathways associated with the life science and health science industries. The overall objectives and interactions of these five programs are described in the PSM section of the Grand Valley State University Undergraduate and Graduate Catalog.

The data science and analytics (M.S.) program requires a minimum of 36 credits. Requisite courses from statistics, computer science, and professional science provide students with a strong foundation in data science. This is an applied program for the working professional.

The program features the following:

Four courses in computer information systems

Four courses in statistics

One elective

Three professional science courses (including an internship)

Students are expected to complete field experiences and collaborative assignments and projects.

### **Admission**

In addition to Grand Valley's admission requirements, all students seeking the M.S. degree in data science and analytics must also meet the following requirements:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Grade point average of 3.0 (B) from all undergraduate coursework or a satisfactory score on the GRE or GMAT test

Resume detailing work experiences and accomplishments

Personal statement of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives

Recommendations from two professional or academic references received online, addressing the candidate's potential for graduate study completion. You will provide the emails of two references in your account at [gvsu.edu/gradapply](https://gvsu.edu/gradapply) and they will be sent a link to fill out for their online recommendation

Prerequisite courses: CIS 500 or equivalent, STA 216 or equivalent

## **Requirements**

### **CIS Courses**

A total of four courses (12 credits) are required, including:

CIS 635 - Knowledge Discovery and Data Mining (3 credits)

CIS 660 - Information Management and Science (3 credits)

CIS 671 - Information Visualization (3 credits)

**PLUS** one of the following:

CIS 677 - High-performance Computing (3 credits)

CIS 678 - Machine Learning (3 credits)

### **Statistics Courses**

A total of four courses (12 credits) are required, including:

STA 518 - Statistical Computing and Graphics with R (3 credits)

STA 616 - Statistical Programming (3 credits)

STA 631 - Statistical Modeling and Regression (3 credits)

**PLUS** one of the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

STA 526 - Multivariate Data Analysis (3 credits)

STA 623 - Categorical Data Analysis (3 credits)

### **Electives Course**

One elective course approved by an advisor for a total of three credits is required.

### **PSM Courses**

The following courses are required:

PSM 650 - Ethics and Professionalism in Applied Science (3 credits)

PSM 662 - Seminar in Professional Science Practice (2 credits)

PSM 691 - Internship (1 to 9 credits)

# **Diagnostic Medical Sonography**

**Program Director:** Tatyana Beaves, MD, RDMS, RDCS

**Clinical Coordinator/Instructor:** Miriam, Teft M.B.A., RDMS, RVT

**Website:** [gvsu.edu/dms](http://gvsu.edu/dms)

Diagnostic medical sonography is a medical procedure that uses an ultrasound to produce visual images of organs, tissues, or blood flow inside the body through high frequency sound waves (ultrasound) that create dynamic images. A diagnostic medical sonographer is a highly skilled professional who uses specialized equipment to create sonograms or ultrasound scans of structures inside the human body and collaboratively works with radiologists or other specialized physicians verbally and in writing to assist effectively toward a medical diagnosis.

Grand Valley offers a program to students who wish to complete a bachelor's degree in diagnostic medical sonography that is specific for clinical practice in abdominal and obstetrics-gynecology. Vascular sonography and breast sonography are additional courses that are taken concurrently to broaden the knowledge and experiences and prepare students for the variety of examinations in the field of diagnostic medical sonography.

### **Skills Required for Diagnostic Medical Sonography - General**

Comprehensive understanding of anatomy and physiology

Effective communication and interpersonal skills with patients and other health care professionals

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Critical thinking

Time management

Ability to master new fine-motor-based physical skills

Compassion and effective interaction with the sick or injured

## **Career Opportunities**

Sonography is a dynamic profession that has grown significantly over the past 20 years. With rapidly developing new technologies and increased use of diagnostic ultrasound procedures, growth is projected to continue in the future with employment opportunities for qualified sonographers in both urban and rural areas nationwide. Sonographers and vascular technologists can choose to work in clinics, hospitals, private practice physician offices, public health facilities, laboratories, and other medical settings performing examinations in their areas of specialization. Career advancement opportunities exist in education, administration, research, and in commercial companies as education/application specialists, sales representatives, technical advisors, etc.

## **Program Content**

Students will study anatomy, physiology, and pathophysiology of scanned organ systems (for example: liver, gallbladder spleen, breast thyroid, female reproductive tract), recognize the sonographic patterns of the organs, learn protocols for a logical and thorough survey of the organs, and provide accurate and technical findings to the interpreting physician. Students receive didactic, laboratory, and clinical experiences in both existing and emerging diagnostic medical sonography practices in the university's state-of-the-art laboratories and through a clinical education system that requires students to attend full days of clinical practice under the supervision of registered sonographers at clinical education sites located up to three hours from GVSU (although most clinical assignments are within one hour from campus). Students must have reliable transportation available for their clinical rotations.

## **Program Accreditation**

This diagnostic medical sonography program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) in association with the Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS). The program adheres to the JRC-DMS standards. Individuals and students have the right to notify the JRC-DMS if they believe the university is not adhering to those standards. The JRC-DMS is at 6021 University Boulevard, Suite 500, Ellicott City, MD 21043. Phone: (443)-973-3251. Fax (866)-738-3444. Web: [jrcdms.org](http://jrcdms.org).

Students working toward a B.S. degree in diagnostic medical sonography from GVSU become eligible for the American Registry of Diagnostic Medical Sonographers (ARDMS) examinations specific to the specialties. Eligibility for ARDMS examinations is achieved upon completion of

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

1,680 contact hours (which occurs in November or December of the senior year before graduation the following April). Granting of the baccalaureate is not contingent upon passing ARDMS examinations. Students must complete all coursework for the baccalaureate degree for the ARDMS certifications awarded to hold under the requirements of prerequisites 3B application for taking the ARDMS certification examination(s). Failure to complete the baccalaureate degree will be reported by the university and will result in removal of the certification(s) by the ARDMS.

Students should be aware that prior to the beginning of their clinical courses, they must complete comprehensive health compliance obligations including but not limited to a criminal background check, fingerprinting, and drug screening. It is the responsibility of the student to comply. If there is an illegal activity in the background check/fingerprinting, or if there is evidence of one or more prohibited substances in the drug test, the clinical sites have the right to refuse a student's placement, a factor which may negatively impact a student's ability to progress in the diagnostic medical sonography program.

In addition, individuals who have been charged with or convicted of a crime may not be eligible for national certification by the American Registry for Diagnostic Medical Sonography (ARDMS). Students to whom this may apply are strongly advised to work with the ARDMS for preapplication review of eligibility for certification from their website at [ardms.org](http://ardms.org). Contact the ARDMS by phone at (301) 738-8401 or (800) 541-9754 or by fax at (301) 738-0312.

## **Admission**

### **Selection Factors**

Admission to the diagnostic medical sonography program is a competitive process that requires a secondary application. Please contact the College of Health Professions for the secondary application package, which can also be found at [gvsu.edu/dms](http://gvsu.edu/dms). Applications are due February 1 of the year the student starts the program (August). Applicants are invited to apply based on the following criteria:

**40 percent:** Academic grade point average from completed prerequisite courses.

AHS 100 - Medical Terminology (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

MTH 122 - College Algebra (3 credits)

PHY 220 - General Physics I (5 credits)

PSY 101 - Introductory Psychology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

SOC 105 - Social Problems (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

One research methods course:

AHS 301 - Introduction to Health Care Research (3 credits) (recommended)

BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)

PSY 300 - Research Methods in Psychology (3 credits) \*

\*Fulfills one Supplemental Writing Skills course

**10 percent:** Academic grade point average from the most recent 45 credit hours completed.

**30 percent:** Interview and/or writing assessment completed on-site at the College of Health Professions.

**5 percent:** Completion of 16 hours of documented work or volunteer time in a health field.

**5 percent:** Two letters of recommendation on university forms.

**10 percent:** Educational, leadership, scholarly, or work experience and/or volunteer activities are valued and may impact selection decisions.

## **Bachelor of Science in Diagnostic Medical Sonography**

### **Requirements for a Major in Diagnostic Medical Sonography**

#### **Prerequisite Courses**

Consists of 42 credits; includes MTH 110, BIO 120, MTH 123. Admission to the program requires a minimum grade of C in each prerequisite course.

AHS 100 - Medical Terminology (3 credits)

\*BMS 250 - Anatomy and Physiology I (4 credits) BIO 120 is the prerequisite.

BMS 251 - Anatomy and Physiology II (4 credits)

MTH 122 - College Algebra (3 credits) \*\*MTH 110 is the prerequisite.

PHY 220 - General Physics I (5 credits) \*MTH 123 is the prerequisite.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

\*PSY 101 - Introductory Psychology (3 credits)

\*SOC 105 - Social Problems (3 credits)

\*STA 215 - Introductory Applied Statistics (3 credits)

**AND** one of the following:

AHS 301 - Introduction to Health Care Research (3 credits)

BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)

PSY 300 - Research Methods in Psychology (3 credits)

\*Also fulfills general education requirement. \*\*Math 110 may not be required based upon placement at time of admission

### **General Education Requirements**

Foundations and Cultures requirements total 22 credits. Remaining general education courses not covered in the major coursework or major prerequisites:

General education Art (3 credits)

General education Philosophy (3 credits)

General education History (3 credits)

General education Global Perspectives (3 credits)

Issues (6 credits) Two courses that can be taken when student has 55+ credits.

WRT 150 - Strategies in Writing (4 credits)

### **B.S. Program Requirements**

STA 215 - Introductory Applied Statistics (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

**AND** one of the following:

PSY 300 - Research Methods in Psychology (3 credits)

AHS 301 - Introduction to Health Care Research (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)

Note: STA 215 is a prerequisite for the three previously listed research courses.

Students are strongly encouraged to meet periodically with their academic advisor to determine their progress toward and eligibility for admission into the diagnostic medical sonography program: [gvsu.edu/chpss](http://gvsu.edu/chpss). Students are assigned to a College of Health Professions Student Services academic advisor prior to program admission.

Upon admission into the program students are assigned to a DMS faculty advisor.

## **Diagnostic Medical Sonography**

General (abdomen and obstetrics-gynecology) courses total 68 credits.

The diagnostic medical sonography general prepares students for clinical practice in abdominal and obstetrics-gynecology. Vascular sonography and breast sonography are additional courses that are taken concurrently to prepare students to the variety of examinations in the field of diagnostic medical sonography.

General (abdominal and obstetrics-gynecology) sonographers work collaboratively with radiologists or other specialized physicians to diagnose a diverse range of conditions using invasive and noninvasive procedures utilizing complex computerized high frequency sound wave and Doppler signal equipment. The sonographer must acquire excellent knowledge of sectional anatomy, clinical medicine, pathology, and the use of sonographic instrumentation.

## **Major Coursework**

Issues (3 credits) Students are responsible for completing the second Issues course.

AHS 340 - Health Care Management (3 credits) Fulfills one of two Issues courses.

RIU 301 - DMS Image Evaluation I (1 credit)

RIU 302 - DMS Image Evaluation II (1 credit)

RIU 320 - Applied Ultrasound Physics Instruction I (2 credits)

RIU 321 - Applied Ultrasound Physics Instruction I Lab (1 credit)

RIU 322 - Principles of Radiologic Imaging Sciences (3 credits)

RIU 324 - Applied Doppler Ultrasound Physics (2 credits)

RIU 330 - Abdominal Sonography I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

RIU 331 - Abdominal Sonography I Lab (2 credits)

RIU 332 - Obstetrics-Gynecology Sonography I (3 credits)

RIU 333 - Obstetrics-Gynecology Sonography Lab (1 credit)

RIU 360 - Introduction to Clinical Ultrasound (2 credits)

RIU 361 - Clinical Ultrasound Education I (2 credits)

RIU 362 - Clinical Ultrasound Education II (4 credits)

RIU 420 - Applied Ultrasound Physics Instruction II (2 credits)

RIU 430 - Abdominal Sonography II (2 credits)

RIU 431 - Abdominal Sonography II Lab (1 credit)

RIU 434 - Breast Sonography Procedures (2 credits)

RIU 435 - Obstetrics-Gynecology Sonography II (2 credits)

RIU 436 - Vascular Technology Procedures I For General Ultrasound (2 credits)

RIU 437 - Vascular Technology Procedures I For General Ultrasound Lab (1 credit)

RIU 438 - Vascular Technology Procedures II for General Ultrasound (2 credits)

RIU 439 - Vascular Technology Procedures II for General Ultrasound Lab (1 credit)

RIT 441 - Gross Human Sectional Anatomy (4 credits)

RIU 454 - Advanced Obstetric-Gynecologic Sonography (3 credits)

RIT 458 - Neoplasms (3 credits)

RIU 460 - Clinical Ultrasound Education III (3 credits)

RIU 461 - Clinical Ultrasound Education IV (3 credits)

RIU 495 - Advanced Clinical Problems in Ultrasound (3 credits)

## **Suggested Order of Coursework**

### **Year One**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Fall Semester (15 credits):

BIO 120 - General Biology I (4 credits)

MTH 110 - Algebra (4 credits)

PSY 101 - Introductory Psychology (3 credits)

WRT 150 - Strategies in Writing (4 credits)

Winter Semester (16 credits):

AHS 100 - Medical Terminology (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

MTH 122 - College Algebra (3 credits)

MTH 123 - Trigonometry (3 credits)

SOC 105 - Social Problems (3 credits)

## **Year Two**

Fall Semester (15 credits):

BMS 251 - Anatomy and Physiology II (4 credits)

PHY 220 - General Physics I (5 credits)

STA 215 - Introductory Applied Statistics (3 credits)

General education History (3 credits)

Winter Semester (12 to 15 credits):

Applications for the program are due February 1. Choose one of the following:

AHS 301 - Introduction to Health Care Research (3 credits)

BMS 301 - Introduction to Research in the Biomedical Sciences (3 credits)

PSY 300 - Research Methods in Psychology (3 credits) SWS

**AND** the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

General education Arts (3 credits)

General education Philosophy (3 credits)

General education Global Perspectives (3 credits)

### **Year Three**

Fall Semester (16 credits):

Students admitted to diagnostic medical sonography program (general). Courses include:

RIU 320 - Applied Ultrasound Physics Instruction I (2 credits)

RIU 321 - Applied Ultrasound Physics Instruction I Lab (1 credit)

RIU 330 - Abdominal Sonography I (4 credits)

RIU 331 - Abdominal Sonography I Lab (2 credits)

RIU 360 - Introduction to Clinical Ultrasound (2 credits)

RIU 434 - Breast Sonography Procedures (2 credits)

RIU 322 - Principles of Radiologic Imaging Sciences (3 credits)

Winter Semester (16 credits):

RIT 441 - Gross Human Sectional Anatomy (4 credits)

RIU 301 - DMS Image Evaluation I (1 credit)

RIU 324 - Applied Doppler Ultrasound Physics (2 credits)

RIU 332 - Obstetrics-Gynecology Sonography I (3 credits)

RIU 333 - Obstetrics-Gynecology Sonography Lab (1 credit)

RIU 361 - Clinical Ultrasound Education I (2 credits)

RIU 420 - Applied Ultrasound Physics Instruction II (2 credits)

Spring/Summer Semester (7 credits):

RIU 362 - Clinical Ultrasound Education II (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

AHS 340 - Health Care Management (3 credits)

## **Year Four**

Fall Semester (15 credits):

RIU 302 - DMS Image Evaluation II (1 credit)

RIU 420 - Applied Ultrasound Physics Instruction II (2 credits)

RIU 430 - Abdominal Sonography II (2 credits)

RIU 431 - Abdominal Sonography II Lab (1 credit)

RIU 435 - Obstetrics-Gynecology Sonography II (2 credits)

RIU 436 - Vascular Technology Procedures I For General Ultrasound (2 credits)

RIU 437 - Vascular Technology Procedures I For General Ultrasound Lab (1 credit)

RIU 460 - Clinical Ultrasound Education III (3 credits)

Winter Semester (12 credits):

RIU 438 - Vascular Technology Procedures II for General Ultrasound (2 credits)

RIU 439 - Vascular Technology Procedures II for General Ultrasound Lab (1 credit)

RIU 454 - Advanced Obstetric-Gynecologic Sonography (3 credits)

RIU 461 - Clinical Ultrasound Education IV (3 credits)

RIU 495 - Advanced Clinical Problems in Ultrasound (3 credits) SWS

## **Summary of Coursework**

Diagnostic medical sonography (general prerequisites): 42 credits

Remaining general education courses: 22 credits

Diagnostic medical sonography (general): 62 credits

Total: 126 credits

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# East Asian Studies

For additional information about opportunities your college offers, please refer to the Brooks College of Interdisciplinary Studies section in this catalog.

**Website:** [gvsu.edu/eas](http://gvsu.edu/eas)

The East Asian studies program at Grand Valley State University explores languages, cultures, histories, politics, and economics of China and Japan. The program recognizes the complex traditions and historical contributions of these countries, while acknowledging the essential roles they play in the world today.

China, with 5,000 years of civilization, more than a billion people, and a fast-growing economy, and Japan, with its unparalleled economic success and its unique geopolitical position, command the attention of the world. The East Asian studies curriculum provides students with a balanced liberal arts and professional perspective on the study of the rich cultural resources, economic potentials, and comparative politics of these two countries. Students gain intercultural knowledge and competence that benefit them in this increasingly globalized world.

Students who minor in East Asian studies can participate in the study abroad programs at East China Normal University in Shanghai, Nanjing University in Nanjing, National Taiwan Normal University in Taipei, Japanese studies program at International Christian University (ICU), or the Japan Center for Michigan Universities (JCMU). Consult the Padnos International Center or the director of the East Asian studies program for more information.

Completion of the minor in East Asian studies requires a total of 21 to 22 credit hours. Normally this includes nine credits of core courses, four credits of either Chinese or Japanese above the 201 level, and nine credits of electives, for a total of 22 credits.

Students who enter the university competent in Japanese or Chinese at the 202 level or higher will take one extra elective course for a total of 21 credits. No more than two courses from any department other than EAS may be counted toward the minor. There is no limit on the courses designated EAS that may apply to the minor.

## Participating Programs

Grand Valley students majoring in areas such as business, communications, English, history, international relations, philosophy, and political science, among others, will find that this program provides a unique perspective on these two dynamic countries and a valued complement to their major programs. Students studying Chinese or Japanese at the primary or secondary level, transfer students who began studying these languages at other two- and four-year institutions, and study abroad participants may also choose to minor in East Asian studies.

## East Asian Studies Minor

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Requirements**

### **Core Courses**

Students must complete all three:

EAS 201 - East Asia in the Contemporary World (3 credits)

EAS 301 - Masterpieces of East Asian Literature (3 credits)

PHI 210 - Eastern Philosophy (3 credits)

### **Additional Required Courses**

In addition to the three required courses, students will choose nine credit hours of elective courses from the following list:

CHI 321 - Ancient Chinese Culture (3 credits)

CHI 322 - Classical Chinese Culture (3 credits)

CHI 323 - Late Imperial Chinese Culture (3 credits)

CHI 380 - Special Topics in Chinese (3 credits)

EAS 180 - Special Topics in East Asian Studies (1 to 4 credits)

EAS 280 - Special Topics in East Asian Studies (1 to 4 credits)

EAS 333 - Study Abroad - East Asian Studies (1 to 6 credits)

EAS 351 - Asian American Experiences (3 credits)

EAS 380 - Special Topics in East Asian Studies (1 to 4 credits)

EAS 399 - Independent Studies (1 to 3 credits)

EAS 480 - Special Topics in East Asian Studies (1 to 4 credits)

ENG 204 - World Mythology (3 credits) when taught by EAS faculty.

GPY 354 - Geography and Globalization of Asia (3 credits)

HST 240 - A History of East Asia to 1800 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 241 - A History of East Asia since 1800 (3 credits)

HST 310 - Cultural and Social Topics in Nonwestern History (3 credits)

HST 333 - Modern China (3 credits)

HST 342 - History of Buddhism and East Asian Religions (3 credits)

PHI 400 - Wisdom of the East: Advanced Topics in Asian Philosophy (3 credits)

PLS 283 - Chinese Politics and U.S.-China Relations (3 credits)

### **Additional Information**

Current and potential special topics include classical Chinese poetry, classical Chinese prose, Japanese theater and cinema, Chinese theater and cinema, women in Chinese/Japanese literature, Japanese management and corporations, and strategic Japanese communications.

Current and past study abroad courses that are also acceptable for electives include Contemporary Chinese Culture and Society, Advanced Readings in Japanese, Modern Japanese Literature in English Translation, Modern Japanese International Relations, Introduction to Asian Religions, Japanese Linguistics, and Strategic Japanese Communications.

Students may choose one course for their elective requirement from comparative international courses taught at Grand Valley. These comparative courses must have a minimum of 25 percent of their content devoted to East Asia. Following are examples of some courses that may qualify. Check with the director of the East Asian studies program for a current list of acceptable courses.

ANT 204 - Peoples and Cultures of the World (3 credits)

ECO 365 - Comparative Economic Systems (3 credits)

SOC 350 - Family and Gender in the Developing World (3 credits) Cross-listed with WGS 351.

### **Transfer Credits**

Credits transferred from study abroad programs will be evaluated and applied where appropriate to the EAS minor. However, of the 21 to 22 credits required, a minimum of six credits must be taken in residence at Grand Valley.

## **Economics**

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Website:** [gvsu.edu/economics](http://gvsu.edu/economics)

The economics program, part of the Seidman College of Business, is designed to give students an understanding of the structure and operations of the United States and international economies and an opportunity to develop a specialty within economics or in a related field, such as finance, mathematics, or political science.

## **Bachelor of Arts or Bachelor of Science in Economics**

### **Requirements for a Major in Economics**

Economics majors may earn a B.S. or B.A., while business economic majors may earn a B.B.A. degree. Completion of the B.A. degree requires demonstrated third-semester proficiency in a foreign language. Students who wish to earn a B.B.A. in business economics should consult the business section of the Grand Valley State University Undergraduate and Graduate Catalog. Majors earning a B.S. or B.A. must complete 30 hours of economics, including ECO 210, ECO 211, ECO 300, ECO 312, ECO 313, and ECO 495. All B.A. and B.S. economics majors are required to take STA 215 - Introductory Applied Statistics as a degree requirement. In addition, students must take either PHI 103 - Logic, MTH 122 - College Algebra, MTH 125 - Survey of Calculus, or MTH 201 - Calculus I.

Because economics is a department in the Seidman College of Business, students must achieve a 2.5 or higher cumulative GPA, have completed 55 semester hours, and achieved a 2.5 or higher combined GPA in ECO 210, ECO 211, and STA 215 to be admitted to the economics program. To graduate, upper-division economics majors must achieve a 2.5 minimum cumulative GPA and a 2.5 minimum GPA in all economics courses. A student whose cumulative GPA falls below 2.5 will not be permitted to take additional 300- and 400-level economics or business courses. However, such students may repeat 300- and 400-level economics and business courses for which they received a low grade. Students may repeat up to three different economics and business courses in their undergraduate career, but no single economics or business course can be repeated more than once. Exceptions are made only with the approval of the associate dean of the Seidman College of Business. Economics majors are eligible to participate in the business internship program.

Students who plan to enter a graduate program in economics or a related field are highly encouraged to take the following courses: MTH 201, MTH 202, MTH 203, and MTH 204. These students should also consider a mathematics or statistics minor and consult with their advisors at an early date to explore alternatives and plan their coursework.

Social studies group majors who choose an emphasis area in economics should make their economics course selections with the advice of an economics faculty member.

### **Requirements for an Honors Emphasis in Economics**

The undergraduate honors emphasis in economics is for students pursuing a B.S., B.A., or B.B.A. degree in economics. Students must achieve a minimum 3.2 GPA in their economics

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

courses and a 3.2 GPA overall to receive the honors emphasis designation. Courses cannot be taken on a credit/no-credit basis. Students are required to complete the following classes, with an honors section of either ECO 210, ECO 211, or both (honors-designated sections require good standing with the Meijer Honors College or a 3.5 GPA overall):

ECO 210 - Introductory Macroeconomics (3 credits)

ECO 211 - Introductory Microeconomics (3 credits)

ECO 300 - Data Analytics for Economics and Business (3 credits)

ECO 312 - Applied Microeconomics (3 credits)

ECO 313 - Business Cycles and Growth (3 credits)

ECO 450 - Advanced Economic Policy and Analysis (3 credits)

ECO 495 - Senior Economic Project (Capstone) (3 credits)

## **Economics Minor**

Eligible business majors who elect to complete one of the business minors may be required to extend their degree programs beyond the minimum 120-semester hour university degree requirement. Students seeking to complete an economics minor are required to complete at least 21 hours in economics, including ECO 210 and ECO 211. Students must achieve a minimum 2.5 grade point average in these courses to receive the economics minor designation. Courses may not be taken on a credit/no-credit basis.

### **Requirements for a Minor in Economics**

The undergraduate minor program in economics is for both business and nonbusiness students with the exception of those majoring in business economics or economics. Students must achieve a minimum 2.5 GPA in these courses to receive the economics minor designation. Courses cannot be taken on a credit/no-credit basis. Students are required to complete at least 21 hours in economics, including:

ECO 210 - Introductory Macroeconomics (3 credits)

ECO 211 - Introductory Microeconomics (3 credits)

Completion of ECO 300 is highly recommended.

### **Requirements for an Honors Minor in Economics**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The undergraduate honors minor program in economics is for both business and nonbusiness students with the exception of those majoring in business economics or economics. Students must achieve a minimum 3.2 GPA in these courses and a 3.2 GPA overall to receive the economics honors minor designation. Courses cannot be taken on a credit/no-credit basis. Students are required to complete at least 21 hours in economics, including the following:

ECO 210 - Introductory Macroeconomics (3 credits)

ECO 211 - Introductory Microeconomics (3 credits)

ECO 300 - Data Analytics for Economics and Business (3 credits)

ECO 312 - Applied Microeconomics (3 credits)

ECO 313 - Business Cycles and Growth (3 credits)

ECO 450 - Advanced Economic Policy and Analysis (3 credits)

ECO 495 - Senior Economic Project (Capstone) (3 credits)

## **Real Estate Undergraduate Certificate**

The certificate in real estate is designed for Bachelor of Business Administration (B.B.A.) and business minor students seeking knowledge and skills related to career opportunities in the real estate industry. Students in this program may find careers in real estate development, appraisal, sales, property management, loan origination, credit analysis, investment analysis, financial consultancy, portfolio management, city government, title examination, and location analysis. The certificate can also strengthen studies in business, finance, economics, resource management, urban planning, public policy, insurance, and construction management.

### **Required Courses**

Students who seek a certificate in real estate must earn a Bachelor of Business Administration (B.B.A.) degree or a business minor designation and are required to complete the following courses:

ECO 300 - Data Analytics for Economics and Business (3 credits) **OR** ECO 495 - Senior Economic Project (Capstone) (3 credits)

ECO 336 - Urban and Real Estate Economics (3 credits)

FIN 350 - Real Estate Principles (3 credits)

**AND** two of the following courses:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 414 - Money and Banking (3 credits)

ECO 490 - Economics Internship (1 to 6 credits)\*

FIN 321 - Investments (3 credits)

FIN 331 - Risk and Insurance (3 credits)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

GPY 209 - Introduction to Urban and Regional Planning (3 credits)

GPY 310 - Land Use Planning (3 credits)

GPY 312 - Urban and Regional Environmental Planning (3 credits)

GPY 314 - Land Use and Planning Law (3 credits)

GPY 385/ECO 385 - GIS in Urban and Regional Analysis (3 credits)

HTM 333 - Hospitality Facilities Management (3 credits)

MKT 353 - Marketing Negotiations (3 credits)

MKT 356 - Professional Selling (3 credits)

MKT 360 - Digital Marketing (3 credits)

MKT 365/GPY 365 - GIS for Economic and Business Decision-Making (3 credits)

MKT 456 - Sales Management (3 credits)

\*Internship must be in work related to real estate.

## **Teacher Certification in Economics**

### **Requirements for the Teacher Certification in Economics**

Students seeking teacher certification in economics should note that besides economics, the new standards established by the Michigan State Board of Education require basic knowledge of geography, history, and political science. Students can qualify for certification by taking the following coursework.

### **Economics Minor with Teacher Certification**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 210 - Introductory Macroeconomics (3 credits)

ECO 211 - Introductory Microeconomics (3 credits)

ECO 312 - Applied Microeconomics (3 credits)

ECO 313 - Business Cycles and Growth (3 credits)

ECO 349 - Emerging Markets Issues (3 credits) **OR** ECO 369 - International Economic Issues (3 credits)

### **Additional Courses**

In addition, students must take the following or equivalent to obtain basic knowledge in political science, history, and geography:

GPY 235 - Geography for a Changing World (3 credits)

HST 206 - American History since 1877 (3 credits)

PLS 102 - American Government and Politics (3 credits)

### **Michigan Test for Teacher Certification**

Besides coursework, students are required to obtain a satisfactory score in the Michigan Test for Teacher Certification (MTTC) in economics. For further details, please contact the chair of the department.

## **Educational Studies**

The educational studies major is designed for students seeking certification at the elementary level. The Michigan State Board of Education sets standards for the preparation of teachers of lower and upper elementary education. Students in the educational studies program can earn certification for teaching pre-kindergarten through 3rd grade (PK-3) and/or 3rd grade through 6th grade (3-6). Students in either the PK-3 or 3-6 program also have the option of adding courses that will earn them an endorsement in special education (K-12), teaching English as a second language, or elementary Spanish.

Regardless of emphasis area, the educational studies major is designed to ensure that novice teachers are prepared to address the needs of the whole child; use relevant, research-based criteria to establish a supportive, engaging environment that fosters learning; and use practices that meet individual children's needs. Students complete several structured field experiences embedded throughout the program.

### **ASSOCIATED PROGRAMS**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Pedagogical Content Knowledge for Elementary Teaching Major**

In order to achieve elementary level certification, all students must also complete the pedagogical content knowledge for elementary teaching major through the College of Liberal Arts and Sciences. Together with the educational studies major, this major offers courses that meet Michigan Department of Education Standards for the Preparation of Teachers of Early and Upper Elementary Education.

## **Special Education Major**

Students seeking special education teaching certification complete the PCKET major as well as an additional major in special education through the College of Education and Community Innovation. Successful completion of both the PCKET major and the special education major certifies the student to teach all subjects kindergarten through grade five, special education endorsement areas Kindergarten through 12<sup>th</sup> grade, and special education programs for adults with disabilities up to age 26. This major offers courses that meet the Michigan Administrative Rules for Special Education teacher preparation.

## **Spanish Elementary Education**

Students seeking an endorsement in Spanish elementary education complete the PCKET major for PK-3 and/or 3-6, the educational studies major, and the Spanish elementary minor. Completion of these programs certifies the student to teach Spanish and other content areas in a self-contained classroom in PK-3 and/or 3-6 (as either a specialist or in a Spanish immersion classroom).

## **Applied Linguistics-English as a Second Language (ESL)**

The ESL track of the applied linguistics minor is designed for students seeking PK-3 and/or 3-6 certification. Completion of the PCKET major, the educational studies major, and the ESL minor leads to teacher certification and an endorsement in ESL.

## **Educational Studies Major - Elementary Teacher Certification: PK-3 and 3-6 Emphases (General Education)**

### **Requirements for Educational Studies Major - Elementary Teacher Certification: PK-3 and 3-6 Emphases (General Education)**

Students in the educational studies program at Grand Valley State University must follow all general education requirements as defined in the Grand Valley State University Undergraduate and Graduate Catalog. Students seeking a Bachelor of Science or Bachelor of Arts in either PK-3 or 3-6 must complete the following courses to satisfy program requirements:

### **BA Course Requirements**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students seeking a Bachelor of Arts in the educational studies major will have additional requirements. B.A. students must demonstrate third-semester proficiency in a foreign language by successfully completing a 201-level language course, passing a proficiency exam in the language chosen, or through AP credit.

### **Education Studies Major Requirements for PK-3 Emphasis (55 credits)**

A Michigan PK-3 standard teaching certification allows the holder to teach any subject Prekindergarten through third grade. Required coursework for the PK-3 emphasis includes all of the following:

EDF 115 - Introduction to Education: An Exploration of Schooling in America (3 credits)

EDF 215 - Introduction to Philosophies of Early Childhood (3 credits)

EDF 260 - Educational Research and Assessment: Foundations of Practice (3 credits)

EDF 315 - Diverse Perspectives on Education (3 credits)

EDI 312 - Child Guidance (3 credits)

EDI 317 - Collaborating with Families and Professionals (3 credits)

EDR 320 - Emergent Literacy and the Development of Reading, Writing, and Language (3 credits)

EDS 318 - Teaching Students with Learning and Behavior Difficulties (3 credits)

EDS 323/EDR 323 - Teaching Students with Language and Literacy Learning Difficulties (3 credits)

EDT 476 - Teaching with Technology (3 credits)

PSY 301 - Child Development (3 credits)

### **Clinical Apprenticeship Semester**

EDI 310 - Building and Sustaining Positive Learning Environments (3 credits)

EDI 330 - Elementary Apprenticeship PK-6 (6 credits) (application required)

### **Clinical Internship Semester**

EDI 430 - Student Teaching, Elementary (10 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDF 495 - Capstone: Reflective Inquiry and Practice (3 credits) (may be taken after EDI 430 but before certification) (application required)

Teacher candidates will be placed in academically, culturally, linguistically, and economically diverse settings.

### **Education Studies Major Requirements for 3-6 Emphasis (49 credits)**

A Michigan 3-6 standard teaching certification allows the holder to teach any subject third through sixth grade. Required coursework for the 3-6 emphasis includes all of the following:

EDF 115 - Introduction to Education: An Exploration of Schooling in America (3 credits)

EDF 260 - Educational Research and Assessment: Foundations of Practice (3 credits)

EDF 315 - Diverse Perspectives on Education (3 credits)

EDI 317 - Collaborating with Families and Professionals (3 credits)

EDR 320 - Emergent Literacy and the Development of Reading, Writing, and Language (3 credits)

EDS 318 - Teaching Students with Learning and Behavior Difficulties (3 credits)

EDS 323/EDR 323 - Teaching Students with Language and Literacy Learning Difficulties (3 credits)

EDT 476 - Teaching with Technology (3 credits)

PSY 301 - Child Development (3 credits)

### **Clinical Apprenticeship Semester**

EDI 310 - Building and Sustaining Positive Learning Environments (3 credits)

EDI 330 - Elementary Apprenticeship PK-6 (6 credits) (application required)

### **Clinical Internship Semester**

EDI 430 - Student Teaching, Elementary (10 credits)

EDF 495 - Capstone: Reflective Inquiry and Practice (3 credits) (may be taken after EDI 430 but before certification) (application required)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Teacher candidates will be placed in academically, culturally, linguistically, and economically diverse settings.

### **Education Studies Major Requirements for Combined PK-3 and 3-6 Certification**

Students with a PK-3 emphasis who would like to also obtain the 3-6 emphasis are not required to take any additional educational studies major courses to obtain a 3-6 emphasis. There is a minimum of an additional 50 hours of clinical fieldwork required in the second area of licensure. There are additional courses in the pedagogical content knowledge for elementary teachers major required to combine the PK-3 and 3-6 emphases. See the pedagogical content knowledge for elementary teachers major for additional information on combining emphases.

Students with a 3-6 emphasis who would like to also obtain the PK-3 emphasis are required to take six additional Educational Studies major credits. The courses are as follows;

EDF 215 - Introduction to Philosophies of Early Childhood (3 credits)

EDI 312 - Child Guidance (3 credits)

There is a minimum of an additional 50 hours of clinical fieldwork required in the second area of licensure.

There are additional courses in the pedagogical content knowledge for elementary teachers major required to combine the PK-3 and 3-6 emphases. See the pedagogical content knowledge for elementary teachers major for additional information on combining emphases.

## **Engineering**

For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing section in this catalog.

**Website:** [gvsu.edu/engineering](http://gvsu.edu/engineering)

### **Vision**

GVSU's School of Engineering aspires to be a premier education-oriented engineering school focused on applied engineering practice that is informed by research and scholarship.

### **Mission**

Our mission is to prepare students to meet the challenges of the modern world as engineering professionals who have the potential to become innovative leaders.

We fulfill our mission with a curriculum that is firmly based in the theoretical foundation of science and mathematics in application to real-world problems. The curriculum also provides for

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

experiences in engineering design, analysis, and professional practice. Students develop technical competency through course and laboratory work, project work, and the co-operative education experience in industry or in research.

Our mission is realized by a shared commitment to continual improvement, scholarship and research, and refinement through critical review. Such review requires both close contact with current engineering practice and a commitment to liberal education that enhances the practice of engineering in global societies through a deep understanding of the human condition and the relationship of engineering practice to the natural environment.

## **Undergraduate Engineering Degree Programs**

The School of Engineering offers four-year programs leading to the degree of Bachelor of Science in engineering (B.S.E.) with majors in computer, electrical, interdisciplinary, mechanical, and product design and manufacturing engineering. During the first two years, students take fundamental courses in engineering in preparation for admission to the B.S.E. degree in their major area and cooperative education experience in the industry. Integrated cooperative engineering education allows students the opportunity to gain industrial experience before graduation. During the last two years of the program, students alternate periods of cooperative education in industry with academic study. The interdisciplinary engineering program transcends traditional engineering and allows students to tailor their engineering education to their specific educational interests. All engineering majors are capped by a multidisciplinary two-semester senior design project requiring initiative, planning, and design to solve engineering problems for local companies.

### **B.S.E. Degree Goal and Objectives**

The goal of the B.S.E. degree is to prepare students to assume engineering positions in industry with the potential to advance to leadership positions. In pursuing this goal, students may major in one or more engineering disciplines: computer, electrical, product design and manufacturing, or mechanical engineering; or they may pursue an interdisciplinary major tailored to their specific interest.

The program educational objectives are that a student graduating from the B.S.E. program must

demonstrate technical competency in their careers;

function effectively in an industrial or academic environment;

engage in professional development; and

shape their professions and societies.

### **Engineering Design**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Design is central to the practice of engineering. The curriculum has been developed to integrate design education throughout all four years of the program. The student's experience begins in the freshman year with instruction and practice in computer-aided design and product realization, the design of computer software, and engineering problem-solving using current computer software and hardware tools. Design instruction continues in the sophomore year through activities such as design projects, materials selection exercises, electronics design, and quality assurance methods. Building upon the fundamental engineering science and design knowledge developed in the first two years and the experience gained in the integrated cooperative education program, students are then prepared to tackle substantially more mature design experiences beginning in the junior year. The cooperative education program, which continues through the junior and senior years, also contributes substantially to student preparation for the two-semester Capstone senior design experience. The majority of the senior design projects each year are performed for companies in west Michigan. Exercises that address environmentally responsible design are integrated throughout the curriculum.

### **Industry Involvement**

Grand Valley's B.S.E. degree programs have wide community and industrial support. Michigan residents and industries have contributed to the development of these programs by providing both financial support and opportunities for cooperative engineering education for students. Each program is served by an Industrial Advisory Board composed of engineering leaders and other professionals. Additional interaction between the engineering program and industry is effectively provided by Grand Valley's Career Center.

### **Student Preparation and Guidance**

The B.S.E. degree programs are highly structured. Careful planning by students, in consultation with their engineering advisor, is essential. Students considering an engineering career should consult an engineering advisor at the earliest possible opportunity, preferably before registering for their first semester. A consultation meeting with an advisor can be arranged by contacting the Padnos College of Engineering and Computing student services office. A student who has declared an engineering major is assigned an academic advisor from the professional advising staff in student services for the first two years and then from the faculty of the School of Engineering after secondary admission.

High school students considering an engineering career are urged to take a college preparatory program consisting of at least three years of laboratory science, including one year of physics and one year of chemistry; four years of mathematics, including two years of algebra, one year of geometry, and one half year of trigonometry; one half year of computer programming; four years of English, including composition; two years of a single foreign language; and three years of social studies.

Properly prepared students can complete the B.S.E. degree in four calendar years. Students who are not prepared to begin the B.S.E. degree with Mathematics 201 (Calculus I), or who prefer to not carry the average course load of 16 credit hours per semester, will need a longer period of study to complete their engineering degree. Students who wish to pursue the B.S.E. degree after

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

transferring from a two-year school should normally enroll in a pre-engineering program before transferring to Grand Valley and contact student services for advising as soon as possible.

## **Admission**

Students with no previous college credit, or those who have not completed the 64-semester-hour engineering foundations course sequence, are premajors. The engineering foundations course sequence spans the freshman and sophomore years and develops the fundamental knowledge on which an engineering program is built.

Students who intend to pursue the B.S.E. degree are urged to declare an engineering major as soon as possible, preferably before they first register for courses at Grand Valley. Students must formally declare an engineering major before the end of the drop-add period of the fall semester of the academic year in which they are seeking admission to major standing.

The School of Engineering admits students directly to major standing as freshmen. This honor is reserved for students who have both a 29 or higher composite score and a 32 or higher mathematics score on the ACT and a 3.6 or higher high school GPA. In order to continue direct-admit status, students must maintain an overall GPA of 2.7 and earn at least a C (2.0) in each course. Students whose GPA falls below 2.7 no longer have direct-admit status and will need to apply to the School of Engineering via the normal admission process to gain admission to major standing.

Admission to major standing in the B.S.E. program requires a secondary application. Applicants must meet at least the following: (1) a GPA of 2.7 or above in the engineering foundations course sequence, (2) completion of each course in the engineering foundations course sequence with a grade of C (2.0) or above with not more than one repeat in each foundation course, and (3) completion of EGR 289 in preparation for placement in cooperative engineering education. Transfer students must also complete at least eight semester hours of engineering courses at Grand Valley before they can be admitted to major standing.

Once admitted to major standing in the B.S.E. degree, students are expected to devote sufficient time to complete the work assigned in each course. Students are expected to maintain the highest ethical standards at all times. Students may be dismissed from the program for violations of ethical standards or unsatisfactory academic progress.

Students must apply directly to the School of Engineering before the last day of classes of the fall semester of the academic year in which they are seeking admission to major standing. Application forms are available on the School of Engineering website (within Forms under the Co-op Education link). Notification letters are promptly issued to students after the processing of their applications is complete.

## **Accreditation**

The following majors are accredited by the Engineering Accreditation Commission of ABET (available online at [abet.org](http://abet.org)):

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Computer engineering

Electrical engineering

Interdisciplinary engineering

Mechanical engineering

Product design and manufacturing engineering

### **Cooperative Education**

Cooperative education is a university and industry partnership program that provides a student with engineering work experience that complements and supplements engineering education at GVSU. Cooperative education is an integral component of the curriculum normally consisting of three semesters of work within an applied engineering environment. The program is designed to provide the student with a depth of experience with one host/employer (optimally) for all three co-op semesters. The student will have the opportunity to apply the knowledge and skills learned in the academic environment and needed to be a successful practicing engineer, including technical hands-on engineering problem solving, professional self-management, interpersonal skills (verbal and written communication, working in teams, customer/client relations, etc.), and leadership.

Students must enroll in EGR 289 during the fall semester prior to their first cooperative education experience in the following spring/summer semester. The Career Services office helps students find cooperative education positions in industry. Grand Valley will make a concerted effort to offer every student admitted to major standing a number of invitations for interviews for cooperative education positions with various potential employers. Students who are not accepted for employment through the prescribed cooperative education interview process, do not obtain positive evaluations during their cooperative education experiences, or do not maintain satisfactory progress toward the B.S.E. degree cannot meet the graduation requirements of the program and must withdraw from the B.S.E. program. Such students do have numerous other options to complete a bachelor's degree in one of Grand Valley's other programs.

### **Honors Organization**

Grand Valley State University hosts the Michigan Lambda Chapter of Tau Beta Pi, the National Engineering Honors Society.

### **Scholarships**

For more information visit [gvsu.edu/engineering](http://gvsu.edu/engineering).

## **Bachelor of Science in Engineering**

### **Requirements for a Major in Engineering**

To graduate with a B.S.E. degree, students must meet the following course requirements: general education, engineering foundations courses, cooperative engineering education, engineering design Capstone, major specific courses, and engineering electives. These course requirements involve a minimum of 138 to 143 credit hours depending on the chosen engineering program. All required and elective courses in the engineering majors must be taken for a letter grade; students are not permitted to take these courses as credit/no-credit. The program requirements are listed with the information on the individual program. A minimum of 24 credit hours in engineering courses must be completed at Grand Valley at the 300-level or above. These courses must include EGR 485 and EGR 486.

### **General Education**

As identified in the General Academic Regulations section of the Grand Valley State University Undergraduate and Graduate Catalog, with the exception that the General Education Program for engineering students includes the following courses:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 210 - Introductory Macroeconomics (3 credits) **OR** ECO 211 - Introductory Microeconomics (3 credits).

PHI 102 - Ethics (3 credits) **OR** one course from the following: BIO 328, BIO 338, COM 438, EGR 302, MGT 340, MGT 438, MKT 375, PHI 325, or PLS 338.

### **Engineering Foundation**

The following courses (engineering, science, mathematics, and communications) prepare students for further work in engineering. Students must complete the following courses with a minimum grade of C (2.0) with not more than one repeat in each course:

CHM 115 - Principles of Chemistry I (4 credits)

EGR 100 - Introduction to Engineering (1 credit)

EGR 111 - Introduction to Engineering Graphics (1 credit)

EGR 112 - Applied Programming for Engineers (2 credits)

EGR 113 - Introduction to CAD/CAM (1 credit)

EGR 185 - First-year Engineering Design (2 credits)

EGR 214 - Circuit Analysis I (3 credits)

EGR 215 - Circuit Analysis I Lab (1 credit)

EGR 220 - Engineering Measurement and Data Analysis (1 credit)

EGR 226 - Microcontroller Programming and Applications (3 credits)

EGR 227 - Microcontroller Programming and Applications Lab (1 credit)

EGR 289 - Engineering Professionalism (1 credit)

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

MTH 203 - Calculus III (4 credits)

MTH 302 - Linear Algebra and Differential Equations (4 credits)

PHY 230 - Principles of Physics I (5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PHY 231 - Principles of Physics II (5 credits) **OR** PHY 234 - Engineering Physics (4 credits)

STA 220 - Statistical Modeling for Engineers (2 credits)

WRT 150 - Strategies in Writing (4 credits) **OR BOTH** WRT 120 - Strategies in Writing - Stretch I (3 credits) **AND** WRT 130 - Strategies in Writing - Stretch II (3 credits)

**Additional Required Biomedical Engineering Major Foundations Courses:**

EE emphasis:

EGR 223 - Probability and Signal Analysis (3 credits)

EGR 224 - Introduction to Digital System Design (3 credits)

EGR 257 - Electronic Materials and Devices (4 credits)

ME emphasis:

EGR 209 - Mechanics and Machines (4 credits)

EGR 309 - Machine Design I (3 credits)

EGR 310 - Machine Design I Laboratory (1 credit)

EGR 312 - Dynamics (3 credits)

PDM emphasis:

EGR 209 - Mechanics and Machines (4 credits)

EGR 250 - Materials Science and Engineering (3 credits)

EGR 251 - Materials Laboratory (1 credit)

EGR 309 - Machine Design I (3 credits)

EGR 310 - Machine Design I Laboratory (1 credit)

**Additional Required Computer Engineering Major Foundations Courses:**

CIS 159 - Java Programming for Engineers (1 credit)

CIS 163 - Computer Science II (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 223 - Probability and Signal Analysis (3 credits)

EGR 224 - Introduction to Digital System Design (3 credits)

**Additional Required Electrical Engineering Major Foundations Courses:**

EGR 223 - Probability and Signal Analysis (3 credits)

EGR 224 - Introduction to Digital System Design (3 credits)

EGR 257 - Electronic Materials and Devices (4 credits)

**Additional Required Interdisciplinary Engineering Major Foundations Courses:**

EGR 209 - Mechanics and Machines (4 credits)

EGR 223 - Probability and Signal Analysis (3 credits) **OR BOTH** EGR 309 - Machine Design I (3 credits) **AND** EGR 310 - Machine Design I Laboratory (1 credit)

**BOTH** EGR 250 - Materials Science and Engineering (3 credits) **AND** EGR 251 - Materials Laboratory (1 credit) **OR** EGR 257 - Electronic Materials and Devices (4 credits)

**Additional Required Mechanical Engineering Major Foundations Courses:**

EGR 209 - Mechanics and Machines (4 credits)

EGR 309 - Machine Design I (3 credits)

EGR 310 - Machine Design I Laboratory (1 credit)

EGR 312 - Dynamics (3 credits)

**Additional Required Product Design and Manufacturing Engineering Major Foundations Courses:**

EGR 209 - Mechanics and Machines (4 credits)

EGR 309 - Machine Design I (3 credits)

EGR 310 - Machine Design I Laboratory (1 credit)

EGR 250 - Materials Science and Engineering (3 credits)

EGR 251 - Materials Laboratory (1 credit)

## **Admission**

Admission to major standing in the B.S.E. program requires a secondary application. Applicants must meet at least the following:

A GPA of 2.7 or above in the engineering foundation courses

Completion of each course in the engineering foundation with a grade of C (2.0) or above with not more than one repeat in each foundation course

Completion of preparation for placement in cooperative engineering education: EGR 289

Transfer students must also complete at least eight credit hours in engineering courses taken at Grand Valley before they can be admitted to major standing

## **Completion of Cooperative Engineering Education**

The cooperative education program begins with EGR 289 - Engineering Professionalism, a course designed to prepare students to enter the culture of professional work as an engineer. This is followed by 1,500 to 2,000 hours of co-op work consisting of three semester-long work experiences, preferably with the same host company/organization. Students must enroll in EGR 290, EGR 390, and EGR 490 during the co-op work semesters. This is the expected path to be followed by all students and, after secondary admission, is the only path that does not require prior approval from faculty. Students with a GPA of at least 2.7 may be considered for an international co-op experience.

## **Capstone**

Students must complete the required senior design project course sequence with a minimum grade of C (2.0) in each course:

\*EGR 485 - Senior Engineering Project I (Capstone) (1 credit)

EGR 486 - Senior Engineering Project II (Capstone) (2 credits)

\*The prerequisites for EGR 485 are acceptance into the B.S.E. degree program and completion of the prerequisite courses listed under the student's engineering major. These courses are listed for each major in the corresponding section of this catalog.

## **Engineering Electives**

In addition to the required courses, a student must select engineering electives in his/her chosen program to form a coherent plan of study. The approval of the student's academic advisor is required to ensure the course choices meet the requirements of the program. No more than two courses with a grade of less than C (2.0) may be counted toward the major.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Suggested Order of Coursework**

A sample curriculum for the foundations of engineering course sequence completed during freshman and sophomore years is presented as follows. A sample curriculum for the junior and senior years in each program is presented in the section addressing that program.

The following course sequence assumes an appropriate mathematics background for the entering student.

### **Year One**

Fall Semester:

CHM 115 - Principles of Chemistry I (4 credits)

EGR 100 - Introduction to Engineering (1 credit)

EGR 111 - Introduction to Engineering Graphics (1 credit)

EGR 112 - Applied Programming for Engineers (2 credits)

MTH 201 - Calculus I (4 credits)

WRT 150 - Strategies in Writing (4 credits)

Winter Semester:

EGR 113 - Introduction to CAD/CAM (1 credit)

EGR 185 - First-year Engineering Design (2 credits)

EGR 220 - Engineering Measurement and Data Analysis (1 credit)

MTH 202 - Calculus II (4 credits)

PHY 230 - Principles of Physics I (5 credits)

STA 220 - Statistical Modeling for Engineers (2 credits)

### **Year Two**

Fall Semester:

Computer Engineering Major

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 159 - Java Programming for Engineers (1 credit)

EGR 224 - Introduction to Digital System Design (3 credits)

#### Electrical Engineering Major

EGR 224 - Introduction to Digital System Design (3 credits)

#### Mechanical or Product Design and Manufacturing Engineering Major

EGR 209 - Mechanics and Machines (4 credits)

EGR 226 - Microcontroller Programming and Applications (3 credits)

EGR 227 - Microcontroller Programming and Applications Lab (1 credit)

EGR 289 - Engineering Professionalism (1 credit)

MTH 203 - Calculus III (4 credits)

PHY 231 - Principles of Physics II (5 credits) **OR** PHY 234 - Engineering Physics (4 credits)

#### Winter Semester:

Apply for admission to major standing in the B.S.E. program at this time.

EGR 214 - Circuit Analysis I (3 credits)

EGR 215 - Circuit Analysis I Lab (1 credit)

MTH 302 - Linear Algebra and Differential Equations (4 credits)

#### Computer Engineering Major

CIS 163 - Computer Science II (4 credits)

EGR 223 - Probability and Signal Analysis (3 credits)

#### Electrical Engineering Major

EGR 223 - Probability and Signal Analysis (3 credits)

EGR 257 - Electronic Materials and Devices (4 credits)

#### Mechanical Engineering Major

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 309 - Machine Design I (3 credits)

EGR 310 - Machine Design I Laboratory (1 credit)

EGR 312 - Dynamics (3 credits)

#### Product Design and Mechanical Engineering Major

EGR 250 - Materials Science and Engineering (3 credits)

EGR 251 - Materials Laboratory (1 credit)

EGR 309 - Machine Design I (3 credits)

EGR 310 - Machine Design I Laboratory (1 credit)

## **Bachelor of Science in Engineering, Biomedical Engineering**

By applying engineering methods to solve medical and biological problems, biomedical engineers aim to improve our quality of life. The National Institute of Health's working definition of biomedical engineering adopted on July 24, 1997, states:

"Biomedical engineering integrates physical, chemical, mathematical, and computational sciences and engineering principles to study biology, medicine, behavior, and health. It advances fundamental concepts; creates knowledge from the molecular to the organ systems level; and develops innovative biologics, materials, processes, implants, devices and informatics approaches for the prevention, diagnosis, and treatment of disease for patient rehabilitation and for improving health."

A biomedical engineer applies the design, analytical, and problem-solving skills acquired in engineering training to improve health and quality of human life. Biomedical engineers are able to collaborate with health care professionals such as physicians and nurses to apply advanced technological solutions to clinical problems. Their abilities to apply mathematical models and computational simulation to the study of complex physiologic systems are invaluable to the medical science and research community.

Biomedical engineering is a broad discipline with many areas of specialization. Grand Valley offers programming in three emphasis areas:

**Electrical Emphasis:** Students who elect this emphasis will be prepared to apply fundamental electrical engineering principles to health care. Examples include modeling cardiac physiology to understand arrhythmogenesis, or developing better measurement and diagnostic devices like cardioverter-defibrillators and MRI scanning systems.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Mechanical Emphasis:** Students who elect this emphasis will be prepared to apply fundamental engineering mechanics to understanding musculoskeletal systems and transport phenomena in vasculature. Biomechanical engineers help develop better rehabilitation and therapeutic devices like prosthetic limbs, artificial hips, and wheelchairs.

**Product Design and Manufacturing Emphasis:** Students who elect this emphasis will research and develop ideas and processes for new medical products, improve the performance and design of existing medical products, plan production, and manage production facilities.

Integral to all four years of the program is a "design and build" educational philosophy incorporated through extensive laboratory and project activities as preparation for professional practice. Students engage in design at all levels of the curriculum. At each level, they must realize their designs and proceed with testing, validation, and redesign. This approach allows students to experience many real-world constraints, such as project economics, project planning and scheduling, environmental considerations, manufacturability/producibility of the designs, laboratory and product safety, and product reliability.

### **Program Educational Objectives**

Graduates of the biomedical engineering program are expected within a few years of graduation to

- demonstrate technical competency in their careers;
- function effectively in an industrial or academic environment;
- engage in professional development; and
- shape their professions and societies.

### **Student Outcomes and Assessment**

Graduates will demonstrate an ability to

- identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
- apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
- communicate effectively with a range of audiences;

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;

function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;

develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions; and

acquire and apply new knowledge as needed, using appropriate learning strategies.

## **Degree Requirements**

Biomedical engineering students must complete all requirements for the B.S.E. degree including the general education requirements, the foundations of engineering courses, cooperative education, the engineering design Capstone, and the following courses.

Required courses for all biomedical engineering emphases:

BMS 202 - Anatomy and Physiology (4 credits)

CHM 230 - Introduction to Organic and Biochemistry (4 credits)

EGR 403 - Medical Device Design (3 credits)

EGR 435 - Mathematical Modeling of Physiologic Systems (3 credits)

Students must also complete an emphasis from the three options outlined as follows.

## **Emphases**

Three emphases to choose from include: electrical, mechanical, and product design and manufacturing. Each emphasis has required courses and elective courses that are chosen from an approved list.

### **Electrical Emphasis**

Students choosing the electrical emphasis should complete the foundations course for the electrical engineering major.

Required Courses:

EGR 314 - Circuit Analysis II (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 315 - Electronic Circuits I (4 credits)

EGR 323 - Signals and Systems Analysis (3 credits)

EGR 326 - Embedded System Design (4 credits)

EGR 434 - Bioelectric Potentials (3 credits)

Elective Courses (choose three):

EGR 343 - Applied Electromagnetics (4 credits)

EGR 418 - Radio Frequency Systems (4 credits)

EGR 432 - Biomedical Imaging and Image Processing (3 credits)

EGR 433 - Electronic Instrumentation for Biomedical Applications (3 credits)

EGR 436 - Embedded Systems Interface (4 credits)

EGR 455 - Automatic Control (4 credits)

EGR 457 - Fundamentals of Nanotechnology (4 credits)

### **Mechanical Emphasis**

Students choosing the mechanical emphasis should complete the foundations course for the mechanical engineering major.

Required Courses:

EGR 250 - Materials Science and Engineering (3 credits)

EGR 251 - Materials Laboratory (1 credit)

EGR 346 - Mechatronic Systems Dynamics and Control (4 credits)

EGR 362 - Thermal and Fluid Systems (4 credits)

EGR 447 - Engineering Mechanics of Human Motion (3 credits)

EGR 453 - Biomedical Materials (3 credits)

Elective Courses (choose two):

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 329 - Introduction to Finite Element Analysis (3 credits)

EGR 409 - Machine Design II (4 credits)

EGR 445 - Robotic Systems Engineering (4 credits)

EGR 465 - Computational Fluid Dynamics (CFD) (4 credits)

EGR 468 - Heat Transfer (4 credits)

### **Product Design and Manufacturing Emphasis**

Students choosing the product design and manufacturing emphasis should complete the foundations course for the product design and manufacturing engineering major.

Required Courses:

EGR 301 - Analytical Tools for Product Design (4 credits)

EGR 345 - Dynamic System Modeling and Control (4 credits)

EGR 362 - Thermal and Fluid Systems (4 credits)

EGR 367 - Manufacturing Processes (3 credits)

EGR 453 - Biomedical Materials (3 credits)

Elective Courses (choose two):

EGR 440 - Introduction to Production (3 credits)

EGR 445 - Robotic Systems Engineering (4 credits)

EGR 450 - Manufacturing Control Systems (4 credits)

EGR 465 - Computational Fluid Dynamics (CFD) (4 credits)

### **Suggested Order of Coursework for the Biomedical Engineering Major - Electrical Emphasis**

#### **Junior and Senior Years**

#### **First Co-op Semester**

Spring/Summer:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

General education World Perspectives (3 credits)

EGR 290 - Engineering Co-op 1 (3 credits)

### **Fifth Academic Semester**

Fall:

CHM 230 - Introduction to Organic and Biochemistry (4 credits)

EGR 314 - Circuit Analysis II (4 credits)

EGR 315 - Electronic Circuits I (4 credits)

EGR 326 - Embedded System Design (4 credits)

### **Second Co-op Semester**

Winter:

General education Issues (3 credits)

EGR 390 - Engineering Co-op 2 (3 credits)

### **Sixth Academic Semester**

Spring/Summer:

General education History (3 credits)

General education Philosophy and Literature (3 credits) PHI 102 is recommended.

General education Issues (3 credits)

BMS 202 - Anatomy and Physiology (4 credits)

EGR 323 - Signals and Systems Analysis (3 credits)

### **Third Co-op Semester**

Fall:

EGR 434 - Bioelectric Potentials (3 credits)

EGR 490 - Engineering Co-op 3 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Seventh Academic Semester**

Winter:

Electrical emphasis elective

Electrical emphasis elective

EGR 403 - Medical Device Design (3 credits)

EGR 435 - Mathematical Modeling of Physiologic Systems (3 credits)

EGR 485 - Senior Engineering Project I (Capstone) (1 credit)

The prerequisites for EGR 485 are acceptance into the B.S.E. degree program and completion of the prerequisite courses listed under the student's engineering major. For the biomedical engineering major with electrical emphasis, the prerequisite courses are: EGR 315, EGR 323, EGR 326, EGR 434, and EGR 390.

## **Eighth Academic Semester**

Spring/Summer:

Electrical emphasis elective

General education Social and Behavioral Sciences (3 credits)

ECO 210 - Introductory Macroeconomics (3 credits) **OR** ECO 211 - Introductory Microeconomics (3 credits)

EGR 486 - Senior Engineering Project II (Capstone) (2 credits)

## **Bachelor of Science in Engineering, Computer Engineering Major**

Computer engineers are innovators whose designs enhance people's lives. They integrate electrical engineering with computer science to analyze and solve problems involving computers. They can design, build, and test versatile computer equipment such as computer chips, the next smart phone, tablet, and embedded systems to control myriad machines from sophisticated vehicles to jet aircraft.

Integral to all four years of the program is a "design and build" educational philosophy incorporated through extensive laboratory and project activities as preparation for professional practice. Students engage in design at all levels of the curriculum. At each level, they must realize their designs and proceed with testing, validation, and redesign. This approach allows

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

students to experience many real-world constraints such as project economics, project planning and scheduling, environmental considerations, manufacturability/producibility of the designs, laboratory and product safety, and product reliability.

The junior and senior years of the computer engineering program build upon the foundation courses to provide greater depth in engineering science, engineering design, and the program areas of computer engineering. Students complete seven required courses and three computer engineering elective courses distributed in electric circuits, embedded systems, algorithms, and software engineering. Computer engineering students also fulfill the educational requirements for taking the Fundamentals of Engineering professional examinations before graduation.

### **Accreditation**

The computer engineering major is accredited by the Engineering Accreditation Commission of ABET, [abet.org](http://abet.org).

### **Program Educational Objectives**

Graduates of the computer engineering program are expected within a few years of graduation to

- demonstrate technical competency in their careers;
- function effectively in an industrial or academic environment;
- engage in professional development; and
- shape their professions and societies.

### **Student Outcomes and Assessment**

The graduate will demonstrate an ability to

- identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
- apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
- communicate effectively with a range of audiences;
- recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;

develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions; and

acquire and apply new knowledge as needed, using appropriate learning strategies.

## **Degree Requirements**

Computer engineering students must complete all requirements for the B.S.E. degree including the general education requirements, foundations of engineering courses, cooperative education, engineering design Capstone and the following computer and electrical engineering courses.

### **Required Courses**

CIS 241 - System-level Programming and Utilities (3 credits)

CIS 263 - Data Structures and Algorithms (3 credits)

CIS 350 - Introduction to Software Engineering (3 credits)

CIS 452 - Operating Systems Concepts (4 credits)

EGR 314 - Circuit Analysis II (4 credits)

EGR 315 - Electronic Circuits I (4 credits)

EGR 326 - Embedded System Design (4 credits)

### **Elective Courses**

Choose three of the following:

CIS 451 - Computer Architecture (3 credits)

CIS 457 - Data Communications (4 credits)

EGR 323 - Signals and Systems Analysis (3 credits)

EGR 423 - Digital Signal Processing Systems (4 credits)

EGR 424 - Design of Microcontroller Applications (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 426 - Integrated Circuit Systems Design (4 credits)

EGR 432 - Biomedical Imaging and Image Processing (3 credits)

EGR 436 - Embedded Systems Interface (4 credits)

## **Suggested Order of Coursework**

### **Junior and Senior Years**

#### **First Co-op Semester**

Spring/Summer:

General education Social and Behavioral Sciences

EGR 290 - Engineering Co-op 1 (3 credits)

#### **Fifth Academic Semester**

Fall:

EGR 314 - Circuit Analysis II (4 credits)

EGR 315 - Electronic Circuits I (4 credits)

EGR 326 - Embedded System Design (4 credits)

General education Global Perspectives

#### **Second Co-op Semester**

Winter:

General education Issues

EGR 390 - Engineering Co-op 2 (3 credits)

#### **Sixth Academic Semester**

Spring/Summer:

CIS 263 - Data Structures and Algorithms (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 350 - Introduction to Software Engineering (3 credits)

General education Arts

ECO 200 - Business Economics (3 credits) **OR** ECO 211 - Introductory Microeconomics (3 credits)

### **Third Co-op Semester**

Fall:

EGR 490 - Engineering Co-op 3 (3 credits)

General education Issues

### **Seventh Academic Semester**

Winter:

Computer engineering elective

Computer engineering elective

CIS 452 - Operating Systems Concepts (4 credits)

EGR 485 - Senior Engineering Project I (Capstone) (1 credit) \*

PHI 102 - Ethics (3 credits) General education Philosophy and Literature

\*The prerequisites for EGR 485 are acceptance into the B.S.E. degree program and completion of the prerequisite courses listed under the student's engineering major. For the computer engineering major, these prerequisite courses are: EGR 315, EGR 326, CIS 350, and EGR 390.

### **Eighth Academic Semester**

Spring/Summer:

Computer engineering elective

General education Life Sciences

EGR 486 - Senior Engineering Project II (Capstone) (2 credits)

General education U.S. Diversity (Can be double dipped with SBS.)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Bachelor of Science in Engineering, Electrical Engineering Major**

Electrical engineering encompasses the development, design, and testing of a wide range of electrical and electronic technologies. Applications of these designs include consumer electronics, power generation and delivery, telecommunications, aviation and aerospace systems, and electric vehicles. Students who elect the electrical engineering program may prepare themselves for a variety of electrical engineering careers and fulfill the educational requirements for taking the Fundamentals of Engineering professional examination before graduation.

The junior and senior years of the electrical engineering program build upon the foundations courses to provide greater depth in engineering science, engineering design, and the program areas of electrical engineering. Students complete six required courses and four electrical engineering elective courses distributed in electrical and electronic circuits, digital and embedded systems, applied electromagnetics, power systems, solid state devices and nanotechnology, and signals and systems.

Integral to all four years of the program is a "design and build" educational philosophy incorporated through extensive laboratory and project activities as preparation for professional practice. Students engage in design at all levels of the curriculum. At each level, they must realize their designs and proceed with testing, validation, and redesign. This approach allows students to experience many real-world constraints such as project economics, project planning and scheduling, environmental considerations, manufacturability/producibility of the designs, laboratory and product safety, and product reliability.

### **Accreditation**

The electrical engineering major is accredited by the Engineering Accreditation Commission of ABET, [abet.org](http://abet.org).

### **Program Educational Objectives**

Graduates of the electrical engineering program are expected within a few years of graduation to

- demonstrate technical competency in their careers;
- function effectively in an industrial or academic environment;
- engage in professional development; and
- shape their professions and societies.

### **Student Outcomes and Assessment**

## **Degree Requirements**

Electrical engineering students must complete all requirements for the B.S.E. degree including the general education requirements, the foundations of engineering courses, cooperative education, the engineering design Capstone and the following electrical engineering courses:

### **Required Courses**

EGR 314 - Circuit Analysis II (4 credits)

EGR 315 - Electronic Circuits I (4 credits)

EGR 323 - Signals and Systems Analysis (3 credits)

EGR 326 - Embedded System Design (4 credits)

EGR 330 - Power Systems Analysis (4 credits)

EGR 343 - Applied Electromagnetics (4 credits)

### **Elective Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Choose four courses from the following:

EGR 415 - Communication Systems (4 credits)

EGR 418 - Radio Frequency Systems (4 credits)

EGR 423 - Digital Signal Processing Systems (4 credits)

EGR 424 - Design of Microcontroller Applications (4 credits)

EGR 426 - Integrated Circuit Systems Design (4 credits)

EGR 430 - Electromechanics (4 credits)

EGR 432 - Biomedical Imaging and Image Processing (3 credits)

EGR 433 - Electronic Instrumentation for Biomedical Applications (3 credits)

EGR 434 - Bioelectric Potentials (3 credits)

EGR 436 - Embedded Systems Interface (4 credits)

EGR 443 - Electromagnetic Compatibility (4 credits)

EGR 450 - Manufacturing Control Systems (4 credits)

EGR 455 - Automatic Control (4 credits)

EGR 457 - Fundamentals of Nanotechnology (4 credits)

EGR 458 - Introduction to Fiber Optics (4 credits)

EGR 477 - Hybrid Electric Battery Systems (3 credits)

## **Suggested Order of Coursework for the Electrical Engineering Major**

### **Junior and Senior Years**

#### **First Co-op Semester**

Spring/Summer:

Electrical engineering elective

Electrical engineering elective

EGR 485 - Senior Engineering Project I (Capstone) (1 credit)

The prerequisites for EGR 485 are acceptance into the B.S.E. degree program and completion of the prerequisite courses listed under the student's engineering major.

The prerequisites for the electrical engineering major are: EGR 315, EGR 323, EGR 326, EGR 330, EGR 343, and EGR 390.

### **Eighth Academic Semester**

Spring/Summer:

Electrical engineering elective

General education Historical Perspectives (3 credits)

General education Life Sciences (3 credits)

EGR 486 - Senior Engineering Project II (Capstone) (2 credits)

## **Bachelor of Science in Engineering, Interdisciplinary Engineering Major**

The interdisciplinary engineering program allows the student to focus his/her studies in a disciplinary area that may transcend traditional disciplines. The interdisciplinary engineering areas often encompass emerging technologies. Plans of study for such students often include coursework outside of engineering.

The interdisciplinary program maintains the educational philosophy of all B.S.E. degree programs at Grand Valley to provide the student with a broad engineering background first and then an area of specialization later in the program. This provides students with the diversity of preparation to work in the interdisciplinary environment that is prevalent today.

Integral to all four years of the program is a "design and build" educational philosophy incorporated through extensive laboratory and project activities as preparation for professional practice. Students engage in design at all levels of the curriculum. At each level, they must realize their designs and proceed with testing, validation, and redesign. This approach allows

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

students to experience many real-world constraints such as project economics, project planning and scheduling, environmental considerations, manufacturability/producibility of the designs, laboratory and product safety, and product reliability.

The interdisciplinary program provides the student with the broad foundation common to all of the engineering programs at Grand Valley, followed in the junior and senior years by required courses that provide preparation in each of the following areas:

Energy

Engineering design

Systems and control

This core is then complemented by an interdisciplinary engineering emphasis consisting of 29 minimum credits of elective courses. The proposed electives must ensure that the entire program includes:

32 credits of engineering science content

16 credits of engineering design content

Ensure that the elective courses include not less than 14 credits in STEM subjects, of which 11 must be upper-division engineering credits.

Together, the student and the interdisciplinary engineering chair develop a cohesive plan of study meeting the requirements of the interdisciplinary engineering program. If the plan includes coursework to be taken from outside the School of Engineering, then the chair of the appropriate unit is consulted. The plan must be approved by the Interdisciplinary Engineering Curriculum Committee.

### **Accreditation**

The interdisciplinary engineering major is accredited by the Engineering Accreditation Commission of ABET at [abet.org](http://abet.org).

### **Program Educational Objectives**

Graduates of the interdisciplinary engineering program are expected within a few years of graduation to

demonstrate technical competency in their careers;

function effectively in an industrial or academic environment;

engage in professional development; and

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

shape their professions and societies.

## **Student Outcomes and Assessment**

Graduates will demonstrate an ability to

identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;

apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;

communicate effectively with a range of audiences;

recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;

function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;

develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions; and

acquire and apply new knowledge as needed, using appropriate learning strategies.

## **Degree Requirements**

Interdisciplinary engineering students must complete all requirements for the B.S.E. degree including the general education requirements, the foundations of engineering courses, an interdisciplinary emphasis, cooperative education, the engineering design Capstone and the following engineering courses:

### **Required Courses**

EGR 314 - Circuit Analysis II (4 credits) **OR** EGR 360 - Thermodynamics (4 credits) **OR** EGR 362 - Thermal and Fluid Systems (4 credits)

EGR 326 - Embedded System Design (4 credits) **OR** EGR 345 - Dynamic System Modeling and Control (4 credits) **OR** EGR 346 - Mechatronic Systems Dynamics and Control (4 credits)

## **Emphasis Areas**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Must complete a minimum of 29 credits.

### **Data Science Emphasis**

Students choosing this emphasis will take EGR 250, EGR 251, EGR 309 and EGR 310 in their foundations and EGR 345 and EGR 362 as their interdisciplinary engineering required courses.

CIS 161 - Computational Science (3 credits) **OR** CIS 162 - Computer Science I (4 credits)

CIS 335 - Data Mining (3 credits)

CIS 360 - Information Management and Science (3 credits)

EGR 367 - Manufacturing Processes (3 credits)

EGR 368 - Manufacturing Processes Laboratory (1 credit)

EGR 440 - Introduction to Production (3 credits)

EGR 441 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

STA 314 - Statistical Quality Methods (3 credits) **OR** EGR 641 - Applied Optimization (3 credits) **OR** EGR 642 - Materials Handling and Flow Control (3 credits)

STA 321 - Applied Regression Analysis (3 credits) **OR** EGR 435 - Mathematical Modeling of Physiologic Systems (3 credits)

STA 426 - Multivariate Data Analysis (3 credits)

### **Design and Innovation Emphasis**

Delivered in cooperation with Cornerstone University. Courses taken at Cornerstone University are indicated (Cornerstone) as follows. Students choosing this emphasis will take EGR 250, EGR 251, EGR 309 and EGR 310 in their foundations and EGR 345 and EGR 362 as their interdisciplinary engineering required courses.

EGR 301 - Analytical Tools for Product Design (4 credits)

EGR 367 - Manufacturing Processes (3 credits)

IDS 101 (Cornerstone) Creativity, Innovation, and Problem Solving (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

IDS 312 (Cornerstone) Science of Human Innovation (3 credits)

IDS 313 (Cornerstone) Design Thinking and Innovation II (3 credits)

IDS 413 (Cornerstone) Design Thinking III (3 credits)

INT 310 - Creativity and Innovative Problem-Solving (3 credits)

INT 323 - Design Thinking to Meet Real-World Needs (3 credits)

MDA 112 (Cornerstone) Design Drawing I (3 credits)

Interdisciplinary engineering elective (3 or 4 credits) Must be an upper-division engineering course.

### **Engineering Management Emphasis**

Students choosing this emphasis will take EGR 250, EGR 251, EGR 309 and EGR 310 in their foundations and EGR 345 and EGR 362 as their interdisciplinary engineering required courses.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

EGR 367 - Manufacturing Processes (3 credits)

EGR 440 - Introduction to Production (3 credits)

EGR 441 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MKT 350 - Marketing Management (3 credits)

### **Environmental Engineering Emphasis**

Delivered in cooperation with Cornerstone University. Courses taken at Cornerstone University are indicated (Cornerstone) as follows. Students choosing this emphasis will take EGR 250, EGR 251, EGR 309 and EGR 310 in their foundations and EGR 345 and EGR 362 as their interdisciplinary engineering required courses.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 105 - Environmental Science (3 credits)

BIO 120 - General Biology I (4 credits)

BIO 215 - Ecology (4 credits)

CHM 230 - Introduction to Organic and Biochemistry (4 credits)

EGR 365 - Fluid Mechanics (4 credits)

EGR 437 - Environmental Engineering (Cornerstone) (4 credits)

EGR 463 - Alternative Energy Systems and Applications (4 credits)

GEO 360 - Earth Resources in Transition: Conventional to Sustainable (3 credits)

### **Interdisciplinary Emphasis**

The student and the interdisciplinary engineering chair will jointly develop a cohesive plan of electives that addresses the intent of the field of interest. This plan must

- be cohesive and have demonstrable employment opportunities;

- contain a minimum of 29 credit hours of courses;

- be approved by the Interdisciplinary Engineering Curriculum Committee;

- ensure that the program includes not less than 16 credits of engineering design;

- ensure that the program includes not less than 32 credits of engineering science; and

- ensure that the elective courses include not less than 14 credits in STEM subjects, of which 11 must be upper-division engineering credits.

### **Mechatronics Engineering Emphasis**

All mechatronics engineering emphasis students are required to complete the following courses:

- EGR 312 - Dynamics (3 credits)

- EGR 315 - Electronic Circuits I (4 credits)

- EGR 445 - Robotic Systems Engineering (4 credits)

- EGR 455 - Automatic Control (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**AND** one of the following tracks:

mechanical or sensors and controls

### **Mechanical Track**

Students choosing this emphasis will take EGR 250, EGR 251, EGR 309 and EGR 310 in their foundations and EGR 345 and EGR 362 as their interdisciplinary engineering required courses.

EGR 224 - Introduction to Digital System Design (3 credits) **OR** EGR 436 - Embedded Systems Interface (4 credits) **OR** EGR 424 - Design of Microcontroller Applications (4 credits) **OR** EGR 350 - Vibration (4 credits)

EGR 352 - Kinematics and Dynamics of Machinery (4 credits)

EGR 409 - Machine Design II (4 credits)

EGR 450 - Manufacturing Control Systems (4 credits)

### **Sensors and Controls Track**

Students choosing this emphasis will take EGR 250, EGR 251, EGR 309 and EGR 310 in their foundations and EGR 345 and EGR 362 as their interdisciplinary engineering required courses.

EGR 224 - Introduction to Digital System Design (3 credits)

EGR 309 - Machine Design I (3 credits)

EGR 310 - Machine Design I Laboratory (1 credit)

EGR 409 - Machine Design II (4 credits) **OR** EGR 450 - Manufacturing Control Systems (4 credits) **OR** EGR 352 - Kinematics and Dynamics of Machinery (4 credits) **OR** EGR 424 - Design of Microcontroller Applications (4 credits)

EGR 436 - Embedded Systems Interface (4 credits)

### **Renewable Energy Engineering Emphasis**

Foundation and required course selections for this emphasis should be made in cooperation with the IE chairperson as the plan of study is developed and approved.

BIO 105 - Environmental Science (3 credits)

EGR 406 - Renewable Energy Systems: Structure, Policy, and Analysis (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 413 - Materials for Energy Storage (3 credits)

EGR 463 - Alternative Energy Systems and Applications (4 credits)

GEO 360 - Earth Resources in Transition: Conventional to Sustainable (3 credits)

**AND** four electives from the following:

EGR 314 - Circuit Analysis II (4 credits)

EGR 315 - Electronic Circuits I (4 credits)

EGR 326 - Embedded System Design (4 credits)

EGR 345 - Dynamic System Modeling and Control (4 credits) **OR** EGR 346 - Mechatronic Systems Dynamics and Control (4 credits) Only if not taken to fulfill required courses; no double dipping allowed.

EGR 352 - Kinematics and Dynamics of Machinery (4 credits)

EGR 405 - Materials Failure Analysis and Selection (3 credits)

EGR 430 - Electromechanics (4 credits)

EGR 435 - Mathematical Modeling of Physiologic Systems (3 credits)

EGR 450 - Manufacturing Control Systems (4 credits)

EGR 455 - Automatic Control (4 credits)

EGR 465 - Computational Fluid Dynamics (CFD) (4 credits)

## **Suggested Order of Coursework for the Interdisciplinary Engineering Major**

### **Junior and Senior Years**

#### **First Co-op Semester**

Spring/Summer:

General education Global Perspectives **OR** EGR 312 - Dynamics (3 credits)

EGR 290 - Engineering Co-op 1 (3 credits)

#### **Fifth Academic Semester**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Fall:

Interdisciplinary engineering elective

ECO 210 - Introductory Macroeconomics (3 credits) **OR** ECO 211 - Introductory Microeconomics (3 credits)

EGR 326 - Embedded System Design (4 credits) **OR** EGR 345 - Dynamic System Modeling and Control (4 credits) **OR** EGR 346 - Mechatronic Systems Dynamics and Control (4 credits)

EGR 314 - Circuit Analysis II (4 credits) **OR** EGR 360 - Thermodynamics (4 credits) **OR** Interdisciplinary elective

SOC 105 - Social Problems (3 credits)

General education Social Sciences

### **Second Co-op Semester**

Winter:

General education Issues

EGR 390 - Engineering Co-op 2 (3 credits)

### **Sixth Academic Semester**

Spring/Summer:

General education Arts

Interdisciplinary engineering elective

Interdisciplinary engineering elective

Interdisciplinary engineering elective **OR** EGR 362 - Thermal and Fluid Systems (4 credits)

### **Third Co-op Semester**

Fall:

General education Issues

EGR 490 - Engineering Co-op 3 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Seventh Academic Semester**

Winter:

Interdisciplinary engineering elective

Interdisciplinary engineering elective

Interdisciplinary engineering elective

EGR 485 - Senior Engineering Project I (Capstone) (1 credit)

The prerequisites for EGR 485 are acceptance into the B.S.E. degree program and completion of the prerequisite courses listed under the student's engineering major.

For the interdisciplinary engineering major, these prerequisites are the interdisciplinary engineering required courses plus a minimum of nine credits of the student's interdisciplinary engineering electives. Students must also have a plan to graduate no later than the fall semester following their enrollment in EGR 485 with a maximum of one interdisciplinary elective being taken in the terminal semester. Interdisciplinary engineering students may register in EGR 485 by permit only to allow consultation with the interdisciplinary engineering chairperson to ensure they meet these prerequisites.

## **Eighth Academic Semester**

Spring/Summer:

Interdisciplinary engineering elective

Interdisciplinary engineering elective

General education Historical Perspectives

BIO 105 - Environmental Science (3 credits) Life Sciences

EGR 486 - Senior Engineering Project II (Capstone) (2 credits)

## **Bachelor of Science in Engineering, Mechanical Engineering Major**

Mechanical engineering encompasses the analysis, development, design, and testing of a wide range of mechanical systems including machines that involve mechanics, motion, and energy: alternative energy systems, biomedical devices, robotic systems, vehicles, aircraft, engines, HVAC systems, and industrial equipment.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Integral to all four years of the program is a "design and build" educational philosophy incorporated through extensive laboratory and project activities as preparation for professional practice. Students engage in design at all levels of the curriculum. At each level, they must realize their designs and proceed with testing, validation, and redesign. This approach allows students to experience many real-world constraints such as project economics, project planning and scheduling, environmental considerations, manufacturability/producibility of the designs, laboratory and product safety, and product reliability.

The junior and senior years of the mechanical engineering program build upon the freshman and sophomore courses to provide greater depth in mechanical design, and dynamic systems as well as additional background in thermal-fluid sciences and engineering. Students complete required courses in these areas and select from electives in the same areas, and/or manufacturing, and emerging fields including biomedical engineering, and alternative energy systems.

Students who elect the mechanical engineering program may prepare themselves for a wide range of engineering careers and fulfill the educational requirements for taking the Fundamentals of Engineering examination before graduation.

### **Accreditation**

The mechanical engineering major is accredited by the Engineering Accreditation Commission of ABET, [abet.org](http://abet.org).

### **Program Educational Objectives**

Graduates of the mechanical engineering program are expected within a few years of graduation to

- demonstrate technical competency in their careers;
- function effectively in an industrial or academic environment;
- engage in professional development; and
- shape their professions and societies.

### **Student Outcomes and Assessment**

The graduate will demonstrate an ability to

- identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
- apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

communicate effectively with a range of audiences;

recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;

function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;

develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions; and

acquire and apply new knowledge as needed, using appropriate learning strategies.

## **Degree Requirements**

Mechanical engineering students must complete all requirements for the B.S.E. degree including the general education requirements, the foundations of engineering courses, cooperative education, the engineering design Capstone, and the following mechanical engineering courses.

### **Required Courses**

EGR 250 - Materials Science and Engineering (3 credits)

EGR 251 - Materials Laboratory (1 credit)

EGR 329 - Introduction to Finite Element Analysis (3 credits)

EGR 346 - Mechatronic Systems Dynamics and Control (4 credits)

EGR 360 - Thermodynamics (4 credits)

EGR 365 - Fluid Mechanics (4 credits)

EGR 409 - Machine Design II (4 credits)

EGR 468 - Heat Transfer (4 credits)

### **Electives Courses**

Choose a total of three elective courses from the lists as follows: core ME electives, manufacturing engineering electives, and biomedical engineering electives. No more than two courses from the manufacturing engineering electives may be used toward the three.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Core ME Electives**

Choose three:

EGR 350 - Vibration (4 credits)

EGR 352 - Kinematics and Dynamics of Machinery (4 credits)

EGR 445 - Robotic Systems Engineering (4 credits)

EGR 463 - Alternative Energy Systems and Applications (4 credits)

EGR 465 - Computational Fluid Dynamics (CFD) (4 credits)

EGR 475 - Design of HVAC Systems (4 credits)

EGR 311 - Intermediate Computer Aided Design and Manufacturing (3 credits)

## **Manufacturing Engineering Electives**

No more than two of the following courses may be applied toward fulfilling the elective requirements of the ME major.

EGR 367 - Manufacturing Processes (3 credits) and EGR 368 - Manufacturing Processes Laboratory (1 credit)

EGR 405 - Materials Failure Analysis and Selection (3 credits)

EGR 450 - Manufacturing Control Systems (4 credits)

## **Biomedical Engineering Electives**

EGR 447 - Engineering Mechanics of Human Motion (3 credits)

## **Suggested Order of Coursework**

### **Junior and Senior Years**

#### **First Co-op Semester**

Spring/Summer:

General education Global Perspectives

EGR 290 - Engineering Co-op 1 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Fifth Academic Semester**

Fall:

ECO 211 - Introductory Microeconomics (3 credits)

EGR 250 - Materials Science and Engineering (3 credits)

EGR 251 - Materials Laboratory (1 credit)

EGR 346 - Mechatronic Systems Dynamics and Control (4 credits)

Mechanical engineering elective

Mechanical engineering elective

EGR 468 - Heat Transfer (4 credits)

EGR 485 - Senior Engineering Project I (Capstone) (1 credit)

The prerequisites for EGR 485 are acceptance into the B.S.E. degree program and completion of the prerequisite courses listed under the student's engineering major.

For the mechanical engineering major, prerequisite courses are: EGR 250, EGR 251, EGR 329, EGR 346, EGR 365, EGR 390, and EGR 409. Corequisite: EGR 468.

### **Eighth Academic Semester**

Spring/Summer:

Mechanical engineering elective

General education Historical Perspectives

BIO 105 - Environmental Science (3 credits) Life Sciences

EGR 486 - Senior Engineering Project II (Capstone) (2 credits)

## **Bachelor of Science in Engineering, Product Design and Manufacturing Engineering Major**

Product design and manufacturing engineering focuses on all the processes needed to develop products, from design and planning to production and delivery of finished products. To this end, this branch of engineering involves a wide range of topics, such as ergonomics, needs identification, manufacturing processes, robotic systems, materials selection, programmable controllers, industrial engineering, and vision systems.

Students who select the product design and manufacturing engineering major prepare themselves for a variety of engineering careers and fulfill the educational requirements for taking the Fundamentals of Engineering professional examination before graduation.

The junior and senior years of the product design and manufacturing engineering program build upon the foundation courses to provide greater depth in engineering science, engineering design, and the focused areas of product design and manufacturing engineering. Students complete required and elective courses distributed in product design materials and manufacturing processes; process, assembly, and product engineering; manufacturing competitiveness and manufacturing systems design.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Integral to all four years of the program is a "design and build" educational philosophy incorporated through extensive laboratory and project activities as preparation for professional practice. Students engage in design at all levels of the curriculum. At each level, they must realize their designs and proceed with testing, validation, and redesign. This approach allows students to experience many real-world constraints such as project economics, project planning and scheduling, environmental considerations, manufacturability/producibility of the designs, laboratory and product safety, and product reliability.

### **Accreditation**

The product design and manufacturing engineering major is accredited by the Engineering Accreditation Commission of ABET, [abet.org](http://abet.org).

### **Program Educational Objectives**

Graduates of the product design and manufacturing engineering program are expected within a few years of graduation to

- demonstrate technical competency in their careers;
- function effectively in an industrial or academic environment;
- engage in professional development; and
- shape their professions and societies.

### **Student Outcomes and Assessment**

The graduate will demonstrate an ability to

- identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
- apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
- communicate effectively with a range of audiences;
- recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;

develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions; and

acquire and apply new knowledge as needed, using appropriate learning strategies.

## **Degree Requirements**

Product design and manufacturing (PDM) engineering program students must complete all requirements for the B.S.E. degree including the general education requirements, the foundations of engineering courses, cooperative education, the engineering design Capstone, and the following manufacturing engineering courses.

PDM majors must complete an emphasis. Four emphases are offered, general, design, manufacturing systems, and robotics and controls. Each emphasis has required courses and elective courses that are chosen from an approved list. The design, manufacturing systems, and robotics and controls emphases have three required emphasis classes.

## **Emphases**

Product design engineers are responsible for the process of creating and developing new products. They research and develop ideas and processes for new products, improve the performance and design of existing products, and plan production and manage production facilities.

### **Required For All Emphases**

EGR 301 - Analytical Tools for Product Design (4 credits)

EGR 345 - Dynamic System Modeling and Control (4 credits)

EGR 362 - Thermal and Fluid Systems (4 credits)

EGR 367 - Manufacturing Processes (3 credits)

EGR 368 - Manufacturing Processes Laboratory (1 credit)

EGR 440 - Introduction to Production (3 credits)

## **Design Emphasis**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The design emphasis allows students to focus on combining their engineering skills and knowledge with their creativity to create innovative products that will succeed in the global marketplace. Students learn how to integrate design methods such as gathering customer requirements, establishing specifications, generating alternative concepts, estimating feasibility, concept selection, embodiment design, design refinement, prototyping, and project planning into a coherent product development strategy.

**Required Courses:**

EGR 329 - Introduction to Finite Element Analysis (3 credits)

EGR 401 - Advanced Product Design (4 credits)

EGR 405 - Materials Failure Analysis and Selection (3 credits)

**Electives (choose two):**

EGR 311 - Intermediate Computer Aided Design and Manufacturing (3 credits)

EGR 326 - Embedded System Design (4 credits)

EGR 403 - Medical Device Design (3 credits)

EGR 404 - Polymer Science and Processing (4 credits)

EGR 409 - Machine Design II (4 credits)

EGR 441 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)

EGR 453 - Biomedical Materials (3 credits)

STA 315 - Design of Experiments (3 credits)

**General Emphasis**

The general emphasis provides a student with an overview of knowledge and skills required to transform a societal need into a finished product for a price that people in the intended market are willing to pay.

**Required Courses:**

EGR 401 - Advanced Product Design (4 credits)

EGR 450 - Manufacturing Control Systems (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Electives (choose three):

EGR 403 - Medical Device Design (3 credits)

EGR 405 - Materials Failure Analysis and Selection (3 credits)

EGR 409 - Machine Design II (4 credits)

EGR 413 - Materials for Energy Storage (3 credits)

EGR 441 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)

EGR 445 - Robotic Systems Engineering (4 credits)

EGR 447 - Engineering Mechanics of Human Motion (3 credits)

EGR 453 - Biomedical Materials (3 credits)

EGR 463 - Alternative Energy Systems and Applications (4 credits)

STA 315 - Design of Experiments (3 credits)

### **Manufacturing Systems Emphasis**

The manufacturing systems emphasis allows students to focus on the design, operation, and integration of systems for the production of high-quality, economically competitive products. These systems include computer networks, robots, machine tools, and materials-handling equipment. Students will learn engineering economics, strategic decision making based on principles of operations management, quality control concepts, method engineering, and process improvement techniques to accomplish the goal of designing and managing world-class manufacturing systems.

Required Courses:

EGR 404 - Polymer Science and Processing (4 credits)

EGR 441 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)

EGR 450 - Manufacturing Control Systems (4 credits)

Electives (choose two):

EGR 413 - Materials for Energy Storage (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 445 - Robotic Systems Engineering (4 credits)

MGT 337 - Supply Chain Management (3 credits)

STA 314 - Statistical Quality Methods (3 credits) **OR** STA 315 - Design of Experiments (3 credits)

### **Robotics and Controls Emphasis**

The robotics and controls emphasis allows students to focus on the design and development of modern, automated systems to manufacture products as well as to perform tasks that are dangerous, repetitive or time consuming for humans. Students learn how to integrate many types of sensors, actuators, and computer control techniques to design and build these systems.

Required Courses:

EGR 409 - Machine Design II (4 credits)

EGR 445 - Robotic Systems Engineering (4 credits)

EGR 450 - Manufacturing Control Systems (4 credits)

Electives (choose two):

EGR 312 - Dynamics (3 credits)

EGR 352 - Kinematics and Dynamics of Machinery (4 credits)

EGR 405 - Materials Failure Analysis and Selection (3 credits)

EGR 441 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)

### **Suggested Order of Coursework**

#### **Junior and Senior Years**

#### **First Co-op Semester**

Spring/Summer:

General education Global Perspectives

EGR 290 - Engineering Co-op 1 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Fifth Academic Semester**

Fall:

EGR 301 - Analytical Tools for Product Design (4 credits)

EGR 345 - Dynamic System Modeling and Control (4 credits)

EGR 367 - Manufacturing Processes (3 credits)

EGR 368 - Manufacturing Processes Laboratory (1 credit)

General education Social and Behavioral Sciences

## **Second Co-op Semester**

Winter:

General education Issues

EGR 390 - Engineering Co-op 2 (3 credits)

## **Sixth Academic Semester**

Spring/Summer:

General education Arts

ECO 210 - Introductory Macroeconomics (3 credits) **OR** ECO 211 - Introductory Microeconomics (3 credits)

EGR 362 - Thermal and Fluid Systems (4 credits)

EGR 440 - Introduction to Production (3 credits)

Product design and manufacturing engineering elective

## **Third Co-op Semester**

Fall:

General education Issues

EGR 490 - Engineering Co-op 3 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Seventh Academic Semester**

Winter:

Product design and manufacturing engineering elective

EGR 401 - Advanced Product Design (4 credits)

EGR 450 - Manufacturing Control Systems (4 credits)

EGR 485 - Senior Engineering Project I (Capstone) (1 credit)

The prerequisites for EGR 485 are acceptance into the B.S.E. degree program and completion of the prerequisite courses listed under the student's engineering major.

For the product design and manufacturing engineering major, these prerequisite courses are: EGR 301, EGR 345, EGR 367, and EGR 368.

## **Eighth Academic Semester**

Spring/Summer:

Product design and manufacturing engineering elective

General education Historical Perspectives

General education Life Sciences

EGR 486 - Senior Engineering Project II (Capstone) (2 credits)

## **Biomedical Engineering Minor**

A biomedical engineer applies the design, analytical, and problem-solving skills acquired in engineering training to improve health and quality of human life. Biomedical engineers are able to collaborate with health care professionals, such as physicians and nurses, and to apply advanced technological solutions to clinical problems. Their ability to apply mathematical models and computational simulation to the study of complex physiologic systems are invaluable to the medical science and research community.

The areas of specialization in biomedical engineering include bioelectrical and bioinstrumentation, biomechanics, biomaterials, and biocomputing. Bioelectrical and bioinstrumentation involve the application of fundamental electrical engineering and measurement principles to develop better measurement and diagnostic devices. Biomechanical engineering applies fundamental engineering mechanics to understanding musculoskeletal systems, blood rheology, and transport phenomena for drug delivery. Biomaterial engineering

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

involves the study of synthetic and natural materials that are used to replace, augment, or restore function to body tissues. These materials need to be in constant intimate contact with living tissues without adversely affecting the living organism and its components. These include materials used in implants, heart valves, and prosthetic applications.

## **Requirements for a Minor in Biomedical Engineering**

The requirements for the minor in biomedical engineering are fulfilled as follows.

### **Courses**

BMS 202 - Anatomy and Physiology (4 credits)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 230 - Introduction to Organic and Biochemistry (4 credits)

EGR 435 - Mathematical Modeling of Physiologic Systems (3 credits)

### **Electives**

Choose any two of the following:

EGR 403 - Medical Device Design (3 credits)

EGR 432 - Biomedical Imaging and Image Processing (3 credits)

EGR 433 - Electronic Instrumentation for Biomedical Applications (3 credits)

EGR 434 - Bioelectric Potentials (3 credits)

EGR 447 - Engineering Mechanics of Human Motion (3 credits)

EGR 453 - Biomedical Materials (3 credits)

EGR 465 - Computational Fluid Dynamics (CFD) (4 credits)

## **Combined Bachelor of Science and Master of Science in Engineering**

The School of Engineering offers a combined B.S.E. and M.S.E degree program for high achieving students, allowing students to efficiently complete both the B.S.E and M.S.E. in a timely manner.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The combined program allows the use of two courses from the graduate program to fulfill the requirements for two undergraduate electives, while also applying these courses to the graduate program. Similarly, the combined program utilizes an integrated culminating experience that fulfills the requirements of both the B.S.E. and M.S.E. programs. Through this articulation, the student completes both programs through a reduction of nine to 11 credit hours.

The study plans for the combined B.S.E./M.S.E. program are very aggressive and academically demanding. Undergraduate students who maintain a GPA of 3.3 through their junior year are encouraged to apply for the program. For more information, please contact the graduate program director.

## **Combined Bachelor of Science in Computer Engineering and Master of Science in Applied Computer Science**

Qualified undergraduates may be admitted to a combined bachelor's/master's program and obtain both a B.S.E. in computer engineering and an M.S. in applied computer science within an accelerated time frame. Students admitted to this program will count up to 12 credits of graduate work in partial satisfaction of both undergraduate and graduate degree requirements. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 120 credits of the bachelor's degree. All other master's degree requirements must be met, including a graduate Capstone.

### **Admission**

Students will normally apply directly to the School of Computing for the combined B.S.E./M.S. program during their second academic year. Application requirements include:

Overall GPA of 3.25 or greater

Student must have been admitted to the computer engineering program

60 hours of academic credit have been completed or are in progress

Two letters of recommendation

Academic transcripts (unofficial transcripts are allowable)

Admission decisions will be made by the school admissions committee based on the student's previous academic success in computer engineering, as indicated by GPA and grades in the foundation computer engineering courses, as well as potential success in the graduate program, as indicated by the letters of recommendation, and the student's letter of intent. Decisions will normally be communicated to students within four weeks of submitting a complete application to the combined degree program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Requirements**

### **During Undergraduate Studies**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S.E./M.S. program. In the final undergraduate year, students will normally take nine credits of graduate-level courses. If any courses are dual-listed, students in the combined B.S.E./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

Students will be considered undergraduates for tuition, academic requirements, and financial aid purposes until all requirements for the undergraduate degree are completed. Following this, they will be considered graduate students, will pay graduate tuition, and will be eligible for graduate financial aid.

The school has identified the following courses that students may dual-count toward the B.S.E. and M.S. degrees. Up to 12 credits can be dual counted. Students are strongly encouraged to work with the graduate program director in ACS to ensure all undergraduate and graduate requirements are met.

CIS 611 in lieu of CIS 350

CIS 654 in lieu of CIS 457

CIS 656 in lieu of CIS 452

CIS 672 in lieu of CIS 451

CIS 693 in lieu of EGR 485/EGR 486

### **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree or the completion of 120 credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the school will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

Please note that awarding of the B.S.E. in computer engineering requires a Capstone course, either EGR 485 and EGR 486, or CIS 693, or both CIS 690 and CIS 695. Awarding of the M.S.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

in applied computer science requires a graduate Capstone course: CIS 693, or both CIS 690 and CIS 695.

## **Suggested Order of Coursework**

This sample order of coursework assumes that students will complete the CE core and general education courses with the help of their advisor and apply for undergraduate admission at the end of the winter semester of their second year. The following course sequence also assumes a strong mathematics background for the entering student. If mathematics deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

Please note: This is only one of many possible sequences of courses. Students are strongly encouraged to work with the graduate program director in ACS to ensure all undergraduate and graduate requirements are met, and to customize the combined program to their areas of interest.

The following sequence makes no attempt to minimize credit load. For example, the sequence assumes that all general education courses are distinct and no double dipping is done.

### **Year One**

No change from CE sample curriculum (31 credits).

CHM 115 - Principles of Chemistry I (4 credits)

EGR 100 - Introduction to Engineering (1 credit)

EGR 111 - Introduction to Engineering Graphics (1 credit)

EGR 112 - Applied Programming for Engineers (2 credits)

EGR 113 - Introduction to CAD/CAM (1 credit)

EGR 185 - First-year Engineering Design (2 credits)

EGR 220 - Engineering Measurement and Data Analysis (1 credit)

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

PHY 230 - Principles of Physics I (5 credits)

STA 220 - Statistical Modeling for Engineers (2 credits)

WRT 150 - Strategies in Writing (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Year Two**

No change from CE sample curriculum (46 to 47 credits).

CIS 162 - Computer Science I (4 credits) **OR** CIS 159 - Java Programming for Engineers (1 credit)

CIS 163 - Computer Science II (4 credits)

EGR 214 - Circuit Analysis I (3 credits)

EGR 215 - Circuit Analysis I Lab (1 credit)

EGR 224 - Introduction to Digital System Design (3 credits)

EGR 226 - Microcontroller Programming and Applications (3 credits)

EGR 227 - Microcontroller Programming and Applications Lab (1 credit)

EGR 289 - Engineering Professionalism (1 credit)

EGR 290 - Engineering Co-op 1 (3 credits)

EGR 223 - Probability and Signal Analysis (3 credits)

MTH 203 - Calculus III (4 credits)

MTH 302 - Linear Algebra and Differential Equations (4 credits)

PHY 231 - Principles of Physics II (5 credits) **OR** PHY 234 - Engineering Physics (4 credits)

PHY 234 - Engineering Physics (4 credits)

Generation education Social and Behavioral Sciences Credits: 3

## **Year Three**

Includes 33 undergraduate credits plus three graduate credits (36 credits).

CIS 241 - System-level Programming and Utilities (3 credits)

CIS 263 - Data Structures and Algorithms (3 credits)

CIS 611 - Introduction to Software Engineering (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ECO 210 - Introductory Macroeconomics (3 credits)

ECO 211 - Introductory Microeconomics (3 credits)

EGR 314 - Circuit Analysis II (4 credits)

EGR 315 - Electronic Circuits I (4 credits)

EGR 326 - Embedded System Design (4 credits)

EGR 390 - Engineering Co-op 2 (3 credits)

General education Arts (3 credits)

General education Issues (3 credits)

General education Global Perspectives (3 credits)

#### **Year Four**

Includes 21 to 22 undergraduate credits plus six graduate credits (27 to 28 credits).

CIS 452 - Operating Systems Concepts (4 credits)

CIS 654 - Computer Networking (3 credits)

CIS 672 - Computer Systems Architecture (3 credits)

EGR 490 - Engineering Co-op 3 (3 credits)

CE elective (3 or 4 credits)

General education History (3 credits)

General education Issues (3 credits)

General education Life Sciences (3 credits)

General education Philosophy and Literature (3 credits)

#### **Year Five**

Includes 24 graduate credits.

CIS 656 - Distributed Systems (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 658 - Web Architectures (3 credits)

CIS 673 - Principles of Database Design (3 credits)

CIS 693 - Master's Project (3 credits)

Graduate electives (12 credits)

## **Computer Engineering Minor**

### **Requirements for a Minor in Computer Engineering**

Students must achieve a minimum GPA of 2.0 in the following courses (26-30 hours):

CIS 159 - Java Programming for Engineers (1 credit) **OR** CIS 162 - Computer Science I (4 credits)

CIS 163 - Computer Science II (4 credits)

CIS 241 - System-level Programming and Utilities (3 credits)

EGR 100 - Introduction to Engineering (1 credit)

EGR 111 - Introduction to Engineering Graphics (1 credit)

EGR 112 - Applied Programming for Engineers (2 credits)

EGR 113 - Introduction to CAD/CAM (1 credit)

EGR 185 - First-year Engineering Design (2 credits)

EGR 214 - Circuit Analysis I (3 credits)

EGR 215 - Circuit Analysis I Lab (1 credit)

EGR 224 - Introduction to Digital System Design (3 credits)

EGR 226 - Microcontroller Programming and Applications (3 credits)

EGR 227 - Microcontroller Programming and Applications Lab (1 credit)

Select two of the following electives:

CIS 263 - Data Structures and Algorithms (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 351 - Computer Organization and Assembly Language (4 credits)

CIS 451 - Computer Architecture (3 credits)

CIS 452 - Operating Systems Concepts (4 credits)

CIS 457 - Data Communications (4 credits)

EGR 326 - Embedded System Design (4 credits)

EGR 424 - Design of Microcontroller Applications (4 credits)

EGR 426 - Integrated Circuit Systems Design (4 credits)

## **Badge in Electromagnetic Compatibility (Graduate)**

This badge certifies that its wearer has learned the electromagnetic compatibility (EMC) principles necessary to design or redesign electronic products that can be successfully tested for EMC compliance.

Successful completion of:

EGR 543 - Electromagnetic Compatibility (4 credits) (B or better)

EGR 643 - PCB Design and EMC (3 credits) (B or better)

## **Badge in Electromagnetic Compatibility (Undergraduate)**

This badge certifies that its wearer has learned the electromagnetic fundamentals and electromagnetic compatibility (EMC) principles to design and test electronic products for EMC compliance.

Successful completion of:

EGR 343 - Applied Electromagnetics (4 credits) passing three exams and the laboratory part with a C or better.

EGR 443 - Electromagnetic Compatibility (4 credits) successful completion of the laboratory assignments and the design project with a C or better.

## **Badge in Embedded Systems**

### **Requirements**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 524 - Design of Microcontroller Applications (4 credits)

EGR 536 - Embedded Systems Interface (4 credits)

## **Engineering Science Minor**

### **Requirements for a Minor in Engineering Science**

The minor in engineering science requires a minimum GPA of 2.0 in eight courses (24-26 credit hours) as follows.

#### **Required Courses**

EGR 100 - Introduction to Engineering (1 credit)

EGR 111 - Introduction to Engineering Graphics (1 credit)

EGR 112 - Applied Programming for Engineers (2 credits)

EGR 113 - Introduction to CAD/CAM (1 credit)

EGR 185 - First-year Engineering Design (2 credits)

EGR 209 - Mechanics and Machines (4 credits) **OR** EGR 224 - Introduction to Digital System Design (3 credits)

EGR 214 - Circuit Analysis I (3 credits)

EGR 215 - Circuit Analysis I Lab (1 credit)

EGR 220 - Engineering Measurement and Data Analysis (1 credit)

EGR 226 - Microcontroller Programming and Applications (3 credits)

EGR 227 - Microcontroller Programming and Applications Lab (1 credit)

STA 220 - Statistical Modeling for Engineers (2 credits)

#### **Elective Courses**

Choose one of the following:

CIS 163 - Computer Science II (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 209 - Mechanics and Machines (4 credits) **IF** EGR 224 - Introduction to Digital System Design (3 credits) was taken as the required course

EGR 223 - Probability and Signal Analysis (3 credits)

EGR 224 - Introduction to Digital System Design (3 credits) **IF** EGR 209 - Mechanics and Machines (4 credits) was taken as the required course

EGR 250 - Materials Science and Engineering (3 credits) **AND** EGR 251 - Materials Laboratory (1 credit)

EGR 257 - Electronic Materials and Devices (4 credits)

EGR 309 - Machine Design I (3 credits) **AND** EGR 310 - Machine Design I Laboratory (1 credit)

EGR 312 - Dynamics (3 credits)

## Master of Science in Engineering

**Website:** [gvsu.edu/grad/mse](http://gvsu.edu/grad/mse)

The Master of Science in engineering (M.S.E.) degree program graduates engineers with the sophisticated education needed to design complex engineered systems. These engineers drive innovations, explain the value of high-technology systems, and sustain their employer's global competitiveness. This degree program is available with the following emphases:

Biomedical engineering

Electrical and computer engineering

Manufacturing operations

Mechanical engineering

Product design and manufacturing

Offered by the School of Engineering in the Seymour and Esther Padnos College of Engineering and Computing, the M.S.E. program is designed to meet the technical and professional development needs of practicing engineers, as well as of students interested in applied research and in preparation for advanced study. The program focuses on engineering design, development, and manufacturing, as well as production, and capitalizes on the industrial experiences of the students. Plans of study, as well as course and culminating projects, can be tailored to the needs of each student to provide a richer, personalized educational experience.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Many courses are offered in a one-night-per-week format during the fall, winter, and spring/summer semesters; some courses are offered on Saturday or in the late afternoon. Students completing two courses per semester can complete the degree in two calendar years of part-time study. Full-time students can complete the M.S.E. degree in as little as four semesters. For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing in this catalog.

### **Program Location**

The M.S.E. is offered on the Pew Grand Rapids Campus in the John C. Kennedy Hall of Engineering located in downtown Grand Rapids, MI.

### **Admission**

The School of Engineering seeks motivated and intellectually inquisitive graduate students who desire to deepen their professional education in engineering. The School of Engineering expects candidates to make effective use of opportunities to obtain academic and program advice from the faculty and to make maximum use of program flexibility in selecting options that further their professional objectives. Candidates can be admitted to the program in any semester; no application deadline is imposed. Applications are reviewed just as soon as they are complete.

Application requirements and admission standards:

A Bachelor of Science degree from a four-year undergraduate program in engineering or closely related field. For students graduating from a program in the United States, the program must be accredited by the EAC of ABET Inc. Applications must include official, original academic transcripts and degree certificates from all secondary schools or universities previously attended.

U.S. students must have a cumulative grade point average of at least 3.0 on a 4.0 scale in all undergraduate coursework. At their discretion, they may elect to present additional evidence of academic achievement through high GRE scores.

International students must have a cumulative grade point average (GPA) that is equivalent to at least 3.0, when linearly scaled on a 0.0 - 4.0 scale, in all undergraduate coursework. They must also submit GRE scores, which must be satisfactory, independent of their cumulative undergraduate GPA.

International students must also show evidence of proficiency in the English language. GVSU recognizes the following English proficiency tests:

TOEFL: 80 or better

International English Language Test System (IELTS): 6.5 or better

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Three confidential letters of recommendation from informed sources such as current and/or former professors and employers. The letters should address the applicant's academic skills, analytical and problem-solving abilities, professionalism, maturity, integrity, and potential for success in graduate studies.

An essay, not exceeding two pages in length, detailing an applicant's career plans and academic goals. International applicants are requested to add an essay, not exceeding two pages in length, on the following topic: "What will I do to bring cultural and international perspectives to Grand Valley that will enhance the learning environment for the entire GVSU community?"

Candidates should have a base of underlying knowledge relevant to graduate study in the chosen area. This can be demonstrated by previous academic records or relevant work experience. Consultation with the graduate program director may be necessary to verify the appropriateness of technical work training as a substitute for academic preparation.

Once admitted to the M.S.E. program, students are expected to demonstrate initiative as well as effective teamwork, and to devote sufficient time to complete the work assigned in each course. They must be willing to imaginatively and creatively engage academic challenges. Although the demands are rigorous, the results can be exciting and rewarding. Students are expected to maintain the highest ethical standards at all times.

### **Academic Advising**

Candidates seeking the M.S.E. degree can meet with the graduate program director to discuss career interests, professional objectives, and program plans.

### **Transfer Credit**

A maximum of nine semester hours of transfer credit may be given for appropriate graduate courses completed with a grade of B (3.0) or above at another college or university.

### **Good Standing**

A cumulative grade point average of 3.0 or higher is required in all graduate-level courses. A candidate must receive a grade of C or better in all courses used to fulfill graduation requirements for the M.S.E. degree. If a student earns a grade lower than a C in any such course, the student must take remedial action depending on whether the course is required or elective. If the course is required, the student must repeat that course until an acceptable grade is earned. If the course is an elective, the student may repeat that course or take another approved graduate elective and earn a grade of at least C in the course.

### **Graduate Assistantships**

Graduate assistantships are available. In return for their assistantships, graduate assistants work with the School of Engineering faculty and staff to provide quality education, research, and

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

service. Qualified full-time candidates are selected for the available graduate assistantships on the basis of aptitude, interest, and background.

## **Requirements**

The M.S.E. program requires a minimum of 33 semester hours of graduate coursework for each of the available M.S.E. emphases. Every semester, an appropriate set of courses is scheduled to allow students to complete their M.S.E. degree programs in the stated number of semesters or calendar years. In each emphasis, the coursework is distributed in the following clusters.

### **Professional Practice**

The courses in this cluster transcend specific majors.

### **Emphasis-specific Courses**

Students select five graduate courses from a list of emphasis-specific courses. Within these courses in the M.S.E. emphases on biomedical engineering, electrical and computer engineering, manufacturing operations, mechanical engineering, and product design and manufacturing engineering, students may also select special topics courses with approval of the graduate program director. The emphasis-specific courses are chosen by students in consultation with their respective advisors to achieve a coherent selection.

### **Elective Graduate Courses**

The elective graduate courses may be chosen from any of the available graduate engineering courses, including the emphasis-specific courses, or other graduate courses from different disciplines. The graduate electives from disciplines other than engineering must be preapproved by the graduate program director of the School of Engineering.

### **Culminating Experience**

The culminating experience requires one of three routes:

A culminating design project, EGR 690, for three academic credits.

A culminating M.S.E. project for six academic credits.

A culminating M.S.E. thesis for six academic credits.

The culminating experience route for each student must be approved by the graduate program director. From among the three routes, students typically select either the culminating M.S.E. project or the culminating M.S.E. thesis, which are equivalent culminating experiences. Students will select the master's project route if they work on proprietary industry projects; they will select the master's thesis route if they work on nonproprietary projects. Students continuously register for either EGR 693 - Master's Project or EGR 695 - Master's Thesis, in either case, for a total of

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

six credits. If after completing these six credits, students need additional time to finish their culminating work, they must continuously register for a continuation course, EGR 696, of which the credits, following university policies, do not count toward the required minimum of 33 M.S.E. credits.

The courses in these clusters are at the 500- and 600-level and depend on the specific M.S.E. emphasis. In any M.S.E. emphasis, students may take up to three 500-level courses and no more than nine credits from dual-listed courses may be applied toward the M.S.E. degree, in consonance with university standards. Students should follow the sequence of courses recommended for each emphasis, yet substitutions are possible depending on students' backgrounds and specific interests. Students may apply for such substitutions with the graduate program director. Students select one of the following emphases for their M.S.E. program.

## **Emphases**

### **Biomedical Engineering Emphasis**

In this emphasis, students should complete the following courses.

Professional Practice (6 credits):

EGR 604 - Implementation and Measurement (3 credits)

PSM 650 - Ethics and Professionalism in Applied Science (3 credits) **OR** EGR 602 - Professional Aspects of Engineering (3 credits)

Emphasis-specific Courses (21 credits):

In the biomedical engineering emphasis, students take the focus courses specified as follows, which consist of five required courses and two elective courses.

Required Courses:

EGR 503 - Medical Device Design (3 credits)

EGR 614 - Opportunity Identification for Medical Devices (3 credits)

EGR 635 - Biomedical Signal Modeling (3 credits)

EGR 670 - Systems Physiology for Engineers (3 credits)

STA 615 - Design of Experiments for Engineers (3 credits)

Elective Courses in the Biomechanical Stream (choose two):

EGR 547 - Engineering Mechanics of Human Motion (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 553 - Biomedical Materials (3 credits)

EGR 565 - Computational Fluid Dynamics (CFD) (4 credits)

Elective Courses in the Bioelectrical Stream (choose two):

EGR 532 - Biomedical Imaging and Image Processing (3 credits)

EGR 534 - Bioelectric Potentials (3 credits)

EGR 533 - Electronic Instrumentation for Biomedical Applications (3 credits)

Culminating Experience (three to six credits)

The culminating experience route for each student must be approved by the graduate program director. From among the three culminating experience routes, students typically select the Capstone M.S.E. project route for six credits or the culminating M.S.E. thesis route for six credits. The project and thesis routes are equivalent: the master's project is reserved for proprietary work, whereas the master's thesis is reserved for nonproprietary work. The culminating experience requires the following courses:

EGR 690 - Capstone Design Project (3 credits) **OR** EGR 693 - Master's Project (1 to 6 credits) Maximum of six. **OR** EGR 695 - Master's Thesis (1 to 6 credits) Maximum of six.

Students may register for EGR 693 more than once, for a combined total of six credits.

Students may register for EGR 695 more than once, for a combined total of six credits. Students who need to complete their culminating thesis after finishing the six credits of EGR 695 must continuously register for EGR 696 - Continuation of Master's Project or Thesis Research (1 credit)

### **Electrical and Computer Engineering Emphasis**

In this emphasis, students should complete the following courses.

Professional Practice (nine credits):

EGR 600 - Advanced Engineering Analysis (3 credits)

EGR 602 - Professional Aspects of Engineering (3 credits)

EGR 604 - Implementation and Measurement (3 credits)

Emphasis Area Courses (five courses):

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students select five required emphasis-specific courses from the following list in any coherent combination. These courses are typically offered in a two-year rotation to allow students to complete their M.S.E. program in the stated number of semesters or calendar years.

EGR 518 - Radio Frequency Systems (4 credits)

EGR 523 - Digital Signal Processing Systems (4 credits)

EGR 526 - Integrated Circuit System Design (4 credits)

EGR 530 - Electromechanics (4 credits)

EGR 536 - Embedded Systems Interface (4 credits)

EGR 543 - Electromagnetic Compatibility (4 credits)

EGR 557 - Fundamentals of Nanotechnology (4 credits)

EGR 558 - Introduction to Fiber Optics (4 credits)

EGR 577 - Hybrid Electric Battery Systems (3 credits)

EGR 627 - Advanced FPGA Implementation (3 credits)

EGR 636 - Electronic Prototyping (3 credits)

EGR 643 - PCB Design and EMC (3 credits)

EGR 653 - Digital and Adaptive Systems (3 credits)

EGR 655 - Power Electronics (3 credits)

EGR 657 - Photovoltaic Systems (3 credits)

EGR 580 - Special Topics in Engineering (1 to 4 credits)

EGR 677 - Hybrid Electric Vehicles (3 credits)

EGR 680 - Special Topics in Engineering (1 to 4 credits)

EGR 699 - Independent Study in Engineering (1 to 3 credits)

Elective Graduate Courses:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The elective graduate courses may be chosen from any of the available graduate engineering courses, including the emphasis-specific courses, or other graduate courses from different disciplines. The graduate electives from disciplines other than engineering must be preapproved by the graduate program director of the School of Engineering.

Culminating Experience (3 to 6 credits):

The culminating experience route for each student must be approved by the graduate program director. From among the three culminating experience routes, students typically select the Capstone M.S.E. project route for six credits or the culminating M.S.E. thesis route for six credits. The project and thesis routes are equivalent: the master's project is reserved for proprietary work, whereas the master's thesis is reserved for nonproprietary work. The culminating experience requires the following courses:

EGR 690 - Capstone Design Project (3 credits) **OR** EGR 693 - Master's Project (1 to 6 credits) Maximum of six. **OR** EGR 695 - Master's Thesis (1 to 6 credits) Maximum of six.

Students may register for EGR 693 more than once for a combined total of six credits.

Students may register for EGR 695 more than once for a combined total of six credits. Students who need to complete their culminating thesis after finishing the six credits of EGR 695 must continuously register for

EGR 696 - Continuation of Master's Project or Thesis Research (1 credit)

### **Manufacturing Operations Emphasis**

In this emphasis, students should complete the following courses.

Professional Practice (9 credits):

EGR 600 - Advanced Engineering Analysis (3 credits)

EGR 602 - Professional Aspects of Engineering (3 credits)

EGR 604 - Implementation and Measurement (3 credits)

Emphasis Area (five courses):

Students select five required emphasis-specific courses from the following list in any coherent combination. These courses are typically offered in a two-year rotation to allow students to complete their M.S.E. program in the stated number of semesters or calendar years.

EGR 541 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)

EGR 580 - Special Topics in Engineering (1 to 4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 640 - Production Operation Models (3 credits)

EGR 641 - Applied Optimization (3 credits)

EGR 642 - Materials Handling and Flow Control (3 credits)

EGR 680 - Special Topics in Engineering (1 to 4 credits)

EGR 699 - Independent Study in Engineering (1 to 3 credits)

STA 615 - Design of Experiments for Engineers (3 credits)

#### Elective Graduate Courses:

The elective graduate courses may be chosen from any of the available graduate engineering courses, including the emphasis-specific courses, or other graduate courses from different disciplines. The graduate electives from disciplines other than engineering must be preapproved by the graduate program director of the School of Engineering.

#### Culminating Experience (3 to 6 credits):

The culminating experience route for each student must be approved by the graduate program director. From among the three culminating experience routes, students typically select the culminating M.S.E. project route for six credits or the culminating M.S.E. thesis route for six credits. The project and thesis routes are equivalent: the master's project is reserved for proprietary work, whereas the master's thesis is reserved for nonproprietary work. The culminating experience requires the following courses:

EGR 690 - Capstone Design Project (3 credits) **OR** EGR 693 - Master's Project (1 to 6 credits) maximum of six. **OR** EGR 695 - Master's Thesis (1 to 6 credits) maximum of six.

Students may register for EGR 693 more than once for a combined total of six credits.

Students may register for EGR 695 more than once for a combined total of six credits. Students who need to complete their culminating thesis after finishing the six credits of EGR 695 must continuously register for

EGR 696 - Continuation of Master's Project or Thesis Research (1 credit)

#### **Mechanical Engineering Emphasis**

In this emphasis, students should complete the following courses.

#### Professional Practice (nine credits):

EGR 600 - Advanced Engineering Analysis (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 602 - Professional Aspects of Engineering (3 credits)

EGR 604 - Implementation and Measurement (3 credits)

Emphasis Area (five courses):

Students select five required emphasis-specific courses from the following list in any coherent combination. These courses are typically offered in a two-year rotation to allow students to complete their M.S.E. program in the stated number of semesters or calendar years.

EGR 547 - Engineering Mechanics of Human Motion (3 credits)

EGR 550 - Manufacturing Control Systems (4 credits)

EGR 580 - Special Topics in Engineering (1 to 4 credits)

EGR 610 - Engineering Design (3 credits)

EGR 611 - Computer-Aided Design and Engineering (3 credits)

EGR 612 - Analytical Dynamics (3 credits)

EGR 615 - Applied Finite Element Analysis (3 credits)

EGR 620 - Material and Process Selection (3 credits)

EGR 680 - Special Topics in Engineering (1 to 4 credits)

EGR 699 - Independent Study in Engineering (1 to 3 credits)

Elective Graduate Courses:

The elective graduate courses may be chosen from any of the available graduate engineering courses, including the emphasis-specific courses, or other graduate courses from different disciplines. The graduate electives from disciplines other than engineering must be preapproved by the graduate program director of the School of Engineering.

Culminating Experience (three to six credits):

The culminating experience route for each student must be approved by the graduate program director. From among the three culminating experience routes, students typically select the culminating M.S.E. project route for six credits or the culminating M.S.E. thesis route for six credits. The project and thesis routes are equivalent: the master's project is reserved for proprietary work, whereas the master's thesis is reserved for nonproprietary work. The culminating experience requires the following courses:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 690 - Capstone Design Project (3 credits) **OR** EGR 693 - Master's Project (1 to 6 credits) Maximum of six. **OR** EGR 695 - Master's Thesis (1 to 6 credits) Maximum of six.

Students may register for EGR 693 more than once for a combined total of six credits.

Students may register for EGR 695 more than once for a combined total of six credits. Students who need to complete their culminating thesis after finishing the six credits of EGR 695 must continuously register for EGR 696 - Continuation of Master's Project or Thesis Research (1 credit)

### **Product Design and Manufacturing Engineering Emphasis**

In this emphasis, students should complete the following courses.

Professional Practice (nine credits):

EGR 600 - Advanced Engineering Analysis (3 credits)

EGR 602 - Professional Aspects of Engineering (3 credits)

EGR 604 - Implementation and Measurement (3 credits)

Emphasis Area (five courses):

EGR 503 - Medical Device Design (3 credits)

EGR 513 - Materials for Energy Storage (3 credits)

EGR 541 - Engineering Economics, Quality Control, and Manufacturing Operations (4 credits)

EGR 547 - Engineering Mechanics of Human Motion (3 credits)

EGR 550 - Manufacturing Control Systems (4 credits)

EGR 553 - Biomedical Materials (3 credits)

EGR 580 - Special Topics in Engineering (1 to 4 credits)

EGR 610 - Engineering Design (3 credits)

EGR 611 - Computer-Aided Design and Engineering (3 credits)

EGR 620 - Material and Process Selection (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 641 - Applied Optimization (3 credits)

EGR 642 - Materials Handling and Flow Control (3 credits)

EGR 680 - Special Topics in Engineering (1 to 4 credits)

EGR 699 - Independent Study in Engineering (1 to 3 credits)

STA 615 - Design of Experiments for Engineers (3 credits)

#### Elective Graduate Courses:

The elective graduate courses may be chosen from any of the available graduate engineering courses, including the emphasis-specific courses, or other graduate courses from different disciplines. The graduate electives from disciplines other than engineering must be preapproved by the graduate program director of the School of Engineering.

#### Culminating Experience (three to six credits):

The culminating experience route for each student must be approved by the graduate program director. From among the three culminating experience routes, students typically select the culminating M.S.E. project route for six credits or the culminating M.S.E. thesis route for six credits. The project and thesis routes are equivalent: the master's project is reserved for proprietary work, whereas the master's thesis is reserved for nonproprietary work. The culminating experience requires the following courses:

EGR 690 - Capstone Design Project (3 credits) **OR** EGR 693 - Master's Project (1 to 6 credits) Maximum of six. **OR** EGR 695 - Master's Thesis (1 to 6 credits) Maximum of six.

Students may register for EGR 693 more than once for a combined total of six credits.

Students may register for EGR 695 more than once for a combined total of six credits. Students who need to complete their culminating thesis after finishing the six credits of EGR 695 must continuously register for

EGR 696 - Continuation of Master's Project or Thesis Research (1 credit)

## English

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences in this catalog.

**Website:** [gvsu.edu/english](http://gvsu.edu/english)

The primary aim of the English program is to contribute directly to the liberal education of our majors by developing an awareness of the richness of literature, past and present; of the power

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

and complexity of language; and of the value of critical reading, informed interpretation, and effective writing. Thus, English majors learn to read and interpret literature from different historical periods and from different parts of the world, to write clearly, persuasively and analytically, and to study a variety of critical approaches to literature and language. Many of our majors also study English education, learning how to teach the skills of reading, writing, and interpretation to the next generation of English and language arts students.

The study of English at Grand Valley extends beyond the classroom, as well. Among other extracurricular activities, the department sponsors visits to campus by writers and critics and organizes faculty-led play-readings. Students who achieve a GPA of 3.0 or better and rank in the top 35 percent of their class are invited to join Grand Valley's Chapter of Sigma Tau Delta, the National English Honor Society, which fosters interest in literature and language scholarship and in creative writing. The department also organizes an annual writing contest and holds a ceremony at which students are awarded prizes for excellent writing and other academic accomplishments. In addition, the department grants scholarships to English majors who demonstrate scholastic achievement and writing excellence.

Students who graduate from our department with a major or minor in English pursue careers in a variety of fields, including library science, law, teaching, writing, and publishing.

The English Department offers two emphasis areas: literature and language and secondary English education. All majors choose one of the two areas.

## **Literature and Language**

Students in the literature and language emphasis area study American, British, and international literature including literature in translation. They study the development of the English language, as well as critical approaches to literature and language, including modern literary, linguistic, and critical theories. In addition, literature and language students learn how to write analytic interpretations of literary texts and of linguistic phenomena.

## **Secondary English Education**

The secondary English education emphasis area, in conjunction with the College of Education and Community Innovation, certifies students to teach English in Michigan secondary schools (grades 6-12). Courses in the secondary English education emphasis area emphasize the teaching of literature and the teaching of writing and are rooted in the theory, research, and best practices of the English education field. Students learn how to engage adolescents in reading and responding to texts ranging from classics to contemporary and young adult works. Students also assimilate strategies for teaching the writing process to adolescents, learning how to design and assess meaningful writing assignments. Finally, the secondary English education program equips students to teach in today's schools by focusing on current issues such as standardized testing, urban education, English as a second language, censorship, technology, and more.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Note: Students seeking certification in secondary English education must have a 3.0 minimum GPA in English in order to be eligible to enter the College of Education and Community Innovation for teacher assisting and student teaching.

### **Lake Michigan Writing Project (LMWP)**

This National Writing Project site offers practicing teachers the opportunity to study the teaching of writing and hone their own writing skills during a Summer Invitational Institute, held annually. The LMWP Institute is listed as ENG 632 and will substitute for EDR 631 in M.A. degree programs. Prospective students should apply online at [lmwritingproject.org](http://lmwritingproject.org). Those accepted will receive fellowships to cover the cost of tuition for ENG 632 and ENG 633.

## **Applied Linguistics Minor**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/english](http://gvsu.edu/english)

The applied linguistics minor has two tracks: The general track (21 credits) and the ESL track for those seeking K-12 ESL teaching certification (23 credits).

### **General Track**

The general track of the applied linguistics minor is designed for students who are interested in pursuing a systematic study of language and applied issues in language teaching, language learning, and language use. Students with a minor in applied linguistics/general track are well prepared to teach English internationally as well as to work in such settings as adult literacy, refugee services, nonprofit/NGO services, and electronic and print publishing. The minor is an excellent disciplinary complement to majors such as anthropology, classics, communications, computing and information systems, English, education, modern languages, philosophy, psychology, and writing.

### **Requirements for the General Track**

The general track requires three foundation courses and four electives for a total of 21 credits. Three electives must be chosen from English. The fourth elective must be chosen from the cross-departmental elective list or be approved by an English linguistics advisor.

### **Foundation Courses**

There are nine credits required, including:

ENG 261 - Foundations of Language Study (3 credits)

ENG 363 - Applied Linguistics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

ENG 364 - Sociolinguistics (3 credits)

### **English Electives**

There are nine credits required:

ENG 362 - History of the English Language (3 credits)

ENG 365 - Teaching English as a Second Language (3 credits)

ENG 366 - English Grammar and Usage (3 credits)

ENG 390 - Topics in Language and Rhetoric (3 credits)

ENG 392 - Language and Power (3 credits)

ENG 461 - Language and Gender (3 credits)

ENG 465 - Teaching Second Language Reading and Writing (3 credits)

ENG 467 - Language Disorders and English Literacy (3 credits)

ENG 469 - ESL Teaching Practicum (3 credits)

### **Cross-departmental Electives**

There are three credits required:

ANT 207 - Language and Culture (3 credits)

CIS 343 - Structure of Programming Languages (3 credits)

CIS 365 - Artificial Intelligence (3 credits)

CIS 461 - Compiler Design and Construction (3 credits)

FRE 331 - French Phonetics (3 credits)

FRE 332 - Introduction to French Linguistics (3 credits)

GER 321 - Improving German Pronunciation (3 credits)

GER 322 - Introduction to German Linguistics (3 credits)

GER 421 - History of the German Language (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PHI 203 - Intermediate Logic (3 credits)

PHI 470 - Truth, Meaning, Communication: Philosophy of Language (3 credits)

PSY 305 - Infant and Early Childhood Development (3 credits)

PSY 357 - Psychology of Language (3 credits)

PSY 365 - Cognition (3 credits)

SPA 308 - Spanish Phonetics (3 credits)

SPA 309 - Advanced Spanish Grammar (3 credits)

SPA 327 - The History of the Spanish Language (3 credits)

SPA 329 - Sociolinguistics of Spanish (3 credits)

SPA 335 - Introduction to Spanish Linguistics (3 credits)

## **ESL Track**

The ESL track of the applied linguistics minor is designed for students seeking elementary (including PCKET) or secondary teacher certification in the U.S. The curriculum meets Michigan Department of Education (MDE) standards for a teachable minor for elementary and secondary certification and leads to ESL endorsement, an add-on credential to a Michigan teaching license. To qualify for ESL endorsement, students must also pass the Michigan Test for Teacher Certification (MTTC) in ESL.

## **Course Requirements**

There are 23 credits required. Students must complete 18 credits of coursework in English and a supervised teaching practicum through the College of Education and Community Innovation to fulfill the applied linguistics minor/ESL track.

## **English Courses**

There are 18 credits required.

ENG 261 - Foundations of Language Study (3 credits)

ENG 363 - Applied Linguistics (3 credits)

ENG 364 - Sociolinguistics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ENG 365 - Teaching English as a Second Language (3 credits)

ENG 366 - English Grammar and Usage (3 credits)

ENG 465 - Teaching Second Language Reading and Writing (3 credits)

### **COE Practicum**

There are 5 credits required.

EDR 470 - Directed Teaching in ESL: Elementary (5 credits) **OR** EDR 471 - Directed Teaching in ESL: Secondary (5 credits)

Note about extended practicum schedule: EDR 470/EDR 471 is offered in winter semesters only, during an extended (20-week) semester that ends approximately mid-June. Students must register for EDR 470/EDR 471 concurrently with their major subject area student teaching (EDI 430/EDI 431).

In addition to the required coursework, the MDE requires all candidates pursuing ESL endorsement to have documented experience learning a second language equivalent to two semesters' worth of college-level study. Students pursuing a B.A. from GVSU fulfill this state requirement by completion of the degree requirement that requires third semester proficiency in a second language. Students pursuing a B.S. from GVSU can fulfill the state requirement in one of the following ways:

Two semesters of second language study at the college level

Second semester proficiency in a second language as demonstrated by the appropriate proficiency exam(s) administered by the Modern Languages and Literatures Department or the Classics Department

Certificate from an intensive language institute verifying at least 15 weeks of intensive second language study

Note to students in the following areas of teacher certification:

If you are seeking elementary certification in a core subject (language arts, social studies, science, or math), you will need to complete two minors: the elementary distributed minor and the applied linguistics minor/ESL track.

If you are seeking elementary certification with a Pedagogical Content Knowledge for Elementary Teaching (PCKET) major, the applied linguistics minor/ESL track fulfills the required "student-centered" minor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

If you are seeking secondary certification in any of the state-approved teachable majors, the applied linguistics minor/ESL track fulfills the requirement for a teachable minor for initial certification.

## **Bachelor of Arts in English**

### **Requirements for a Major in English**

All English majors will earn the B.A. degree, which in addition to general education course requirements mandates third-semester proficiency in a foreign language of the student's choice. (A placement test is available to students who desire advanced placement or waiver of the foreign language requirement.) All English majors must choose an emphasis within the major and complete the three English foundation courses and the Capstone course, ENG 495 - Language and Literature.

### **Foundation Courses**

There are nine credits required at the 200-level, including:

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

### **Requirements for the Emphases**

All English majors must choose one of the following emphases:

Language and literature

Secondary English education

Each emphasis requires different options from the six course categories that follow.

Note: ENG 215 - Foundations of Literary Study: Genre and ENG 216 - Foundations of Literary Study: Critical Approaches serve as prerequisites for all 300- and 400-level literature courses not offered in the General Education Program. ENG 261 - Foundations of Language Study serves as a prerequisite for all 300- and 400-level linguistics courses not offered in the General Education Program. **\*Courses marked with an asterisk are courses that belong to general education Issues.**

### **A. American Literature**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The courses in this category focus on important periods, themes, and fields in American literary history. They seek to define, explore, and broaden our understanding of literature in the context of its historical moment.

ENG 225 - American Literature I: to 1860 (3 credits)

ENG 226 - American Literature II: from 1860 (3 credits)

ENG 231 - Early African American Literature (3 credits)

ENG 232 - Modern African American Literature (3 credits)

ENG 325 - American Literature to 1800 (3 credits)

ENG 326 - Nineteenth-Century American Literature (3 credits)

ENG 327 - Modern American Literature (3 credits)

ENG 328 - Contemporary American Literature (3 credits)

ENG 334 - American Multicultural Literature for Children and Young Adults (3 credits)

\* ENG 335 - Literature of American Minorities (3 credits)

## **B. British Literature**

The courses in this category focus on important periods, themes, and fields in British literary history. They seek to define, explore, and broaden our understanding of literature in the context of its historical moment.

ENG 220 - British Literature I (3 credits)

ENG 221 - British Literature II (3 credits)

ENG 313 - British Literature: Shakespeare (3 credits)

ENG 321 - British Literature: Medieval (3 credits)

ENG 322 - British Literature: Renaissance (3 credits)

ENG 323 - British Literature: 18th-Romantic (3 credits)

ENG 324 - British Literature: Victorian-Present (3 credits)

## **C. International Literature**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The courses in this category focus on a variety of international literatures in translation as well as on global literatures written in English. They seek to define, explore, and broaden our understanding of literature in the context of its historical moment.

ENG 204 - World Mythology (3 credits)

ENG 303 - Studies in World Literature (3 credits)

ENG 304 - International Literature for Children and Young Adults (3 credits)

ENG 378 - Contemporary Latin American Literature (3 credits)

\*ENG 388 - Emigration and Immigration in Contemporary World Literature (3 credits)

#### **D. Approaches to Literature**

The courses in this category focus on different genres, methods, topics, and concepts through which to approach, analyze, and interpret literature.

ENG 314/DS 314 - Digital Literacies (3 credits)

ENG 320 - Studies in Poetry (3 credits)

ENG 330 - Studies in Fiction (3 credits)

ENG 331 - Comics and Graphic Novels in Contemporary Culture (3 credits)

ENG 336/WGS 336 - Lesbian, Gay and Queer Literature (3 credits)

ENG 337/AAA 337 - Contemporary Black Literature (3 credits)

ENG 340 - Studies in Drama (3 credits)

ENG 360 - Studies in Nonfiction (3 credits)

ENG 380 - Special Topics in English (1 to 3 credits)

\*ENG 382 - Literature and the Environment (3 credits)

\*ENG 383 - "Make It New": Literary Modernism (3 credits)

\*ENG 384 - Literature of War (3 credits)

\*ENG 386 - Literary Responses to Death and Dying (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ENG 436 - Women and Literature (3 credits)

ENG 440 - Studies in Major Author(s) (3 credits)

ENG 445 - Studies in Literary Criticism and Theory (3 credits)

### **E. Approaches to Language**

The courses in this category focus on major topics in linguistics and introduce students to fundamental principles of linguistic theory and research. ENG 261 serves as a prerequisite for 300- and 400-level language courses.

ENG 362 - History of the English Language (3 credits)

ENG 363 - Applied Linguistics (3 credits)

ENG 364 - Sociolinguistics (3 credits)

ENG 365 - Teaching English as a Second Language (3 credits)

ENG 366 - English Grammar and Usage (3 credits)

ENG 390 - Topics in Language and Rhetoric (3 credits)

\* ENG 392 - Language and Power (3 credits)

ENG 461 - Language and Gender (3 credits)

ENG 465 - Teaching Second Language Reading and Writing (3 credits)

ENG 467 - Language Disorders and English Literacy (3 credits)

ENG 469 - ESL Teaching Practicum (3 credits)

### **F. Approaches to Pedagogy**

The courses in this category focus on the teaching of the language arts in English secondary schools. The courses introduce students to literatures, concepts, theories, and practices of relevance to the elementary and secondary classrooms.

ENG 310 - Teaching Writing: Secondary (3 credits)

ENG 311 - Teaching Literature to Adolescents (3 credits)

ENG 400 - Critical Issues in K-12 Literacy (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Language and Literature Emphasis Requirements**

### **Foundation Courses** (9 credits)

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

### **Elective Requirements** (27 credits)

Category requirements include:

One course each from course categories A-E

Historical requirements include:

At least one course on literature before 1700

At least one course in 18th or 19th century literature

At least one course in 20th or 21st century literature

300-level+ courses include:

At least 15 credits of 300-level+ courses in categories A-E, plus at least one 400-level literature course (categories A-D).

### **Capstone** (3 credits):

ENG 495 - Language and Literature (3 credits)

Total: 39 credits

## **Secondary English Education Emphasis Requirements**

### **Foundation Courses** (9 credits)

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Track Requirements (12 credits)**

ENG 310 - Teaching Writing: Secondary (3 credits)

ENG 311 - Teaching Literature to Adolescents (3 credits)

ENG 313 - British Literature: Shakespeare (3 credits)

ENG 400 - Critical Issues in K-12 Literacy (3 credits)

**Elective Requirements (15 credits)**

One course from category A

One course from category B

One course from category C

One course from category E

One course from category A-F

**Capstone (3 credits)**

ENG 495 - Language and Literature (3 credits)

Total: 39 credits

**Suggested Order of Coursework for a Major in English Language and Literature**

The following schedule assumes that students will consult with an advisor to make appropriate choices in general education courses.

**Year One**

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

MTH 110 - Algebra (4 credits)

WRT 150 - Strategies in Writing (4 credits)

Foreign language 101 and/or 102

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

General education Foundations (four courses)

## **Year Two**

ENG 261 - Foundations of Language Study (3 credits)

English elective at the 200-level (two courses)

English elective at the 200- or 300-level

Electives (three courses)

Foreign language 201

General education Foundations (three courses)

## **Year Three**

English elective at the 300-level (three courses)

English elective at the 300- or 400-level

General education Foundations (two courses)

General education Issues

Electives (three courses)

## **Year Four**

English elective (300- or 400-level)

English elective (400-level)

General education Issues (two courses)

Electives (four courses)

ENG 495 - Language and Literature (3 credits)

## **Suggested Order of Coursework for a Major in Secondary English Education**

### **Year One**

Foreign language 101 and/or 102

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

General education Foundations (four courses)

English Department foundation course

One course in teachable minor

MTH 110 - Algebra (4 credits)

PSY 101 - Introductory Psychology (3 credits) Prerequisite for PSY 301 plus social studies foundation.

WRT 150 - Strategies in Writing (4 credits)

## **Year Two**

Foreign language 201

General education Foundations (four courses)

English Department foundation (two courses)

Three courses in teachable minor

PSY 301 - Child Development (3 credits)

## **Year Three**

English Department major track (five courses)

General education Foundations (final two courses)

One or two courses in teachable minor (One can be in general education.)

EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits)

EDF 315 - Diverse Perspectives on Education (3 credits)

## **Year Four**

English Department major track (four courses)

One, two, or three courses in teachable minor

General education Issues (May double count in English major track.)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDI 331 - Methods and Strategies of Secondary Teaching (5 credits)

EDI 310 - Building and Sustaining Positive Learning Environments (3 credits)

EDR 321 - Content Area Literacy (3 credits)

## **Year Five**

General education Issues

ENG 495 - Language and Literature (3 credits)

EDT 370 - Technology in Education (3 credits)

EDS 379 - Universal Design for Learning: Secondary (3 credits)

EDI 431 - Student Teaching, Secondary (8 credits)

EDF 485 - The Context of Educational Issues (3 credits)

## **English Minor**

The English minor is designed for the student who desires a general study of English through literature and linguistics. The secondary teachable minor is designed for those seeking minor certification in English.

## **Requirements for a Minor in English**

The minor in English requires 21 credits.

### **Courses Required**

Students must take the following (nine credits):

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

### **Elective Courses**

Students must take 12 elective credits, including:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Four English courses, three of which must be at the 300-level or above.

## **Requirements for a Secondary Teachable Minor in English**

There are 24 credits required for the secondary teachable minor in English.

### **Courses Required**

There are 15 credits required, including:

ENG 215 - Foundations of Literary Study: Genre (3 credits)

ENG 216 - Foundations of Literary Study: Critical Approaches (3 credits)

ENG 261 - Foundations of Language Study (3 credits)

ENG 310 - Teaching Writing: Secondary (3 credits)

ENG 311 - Teaching Literature to Adolescents (3 credits)

### **Elective Courses**

There are nine credits required, choose one course from each of the following:

Category A: American

Category B: British

Any category at or above 300-level

## **Master of Arts in English**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/english/mastersofartsinenglish](https://gvsu.edu/english/mastersofartsinenglish)

The Master of Arts in English offers students and professionals an opportunity to deepen literary knowledge, sharpen critical skills, and strengthen expository writing. It teaches students a humanistic approach to literature as they analyze diverse national and international literatures. The overall goal of the program is to train students in reading and writing about a range of British, American, and world literatures with emphasis on literary history, history of genre, close analysis of individual authors and themes, cultural context, and critical theory. It meets the needs of any professional that is required to synthesize complex data through analysis, like those in

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

business, law, statistics and/or nonprofit organizations, teachers who want to strengthen their content expertise, and/or those who wish to pursue a Ph.D. in literature.

The program offers the option of two tracks: 1) an M.A. qualifying examination and 2) a thesis project. Both tracks require 33 credit hours of work. Regardless of the track chosen, all students must take courses in an author or topic, a literary period, and a genre. Additionally, the curriculum requires the Graduate Literary Studies Seminar, a course that gives instruction in research methods, as it provides students with the conceptual and critical vocabulary of the discipline.

## **Admission**

Applications are considered throughout the year on a rolling basis. Deadline for:

Fall semester: July 15

Winter semester: November 15

Spring/summer semester: March 15.

To be considered, the candidate must submit the following:

**Personal Statement:** A brief statement of purpose explaining the applicant's academic preparation, interest in this program, and professional goals.

**Writing Sample:** An original essay writing sample of 10 to 15 pages (approximately) that demonstrates the writer's potential for literary analysis, including the use of sources. (It may be a paper written for a previous course.)

**References:** Contact information for three people who can assess the applicant's academic preparation.

## **Program Course Requirements**

Track One: 33 credit hours of coursework plus qualifying examinations

Track Two: 27 credit hours of coursework plus a six-credit-hour thesis

## **Core Courses**

All degree-seeking students require the following core courses:

ENG 600 - Graduate Literary Studies Seminar (3 credits) Note: For degree-seeking students this seminar must be taken within the first 9 credit hours (i.e. three courses) in the program.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ENG 624 - Genre Studies (3 credits)

ENG 651 - Literary Period Seminar (3 credits)

ENG 661 - Author or Topic Seminar (3 credits) **OR** ENG 663 - Shakespeare (3 credits)

These core requirement credits give students a solid understanding of key areas in the field of literary study.

### **Electives Courses**

In addition to the program core requirements, the program offers a variety of elective graduate courses:

ENG 600 - Graduate Literary Studies Seminar (3 credits)

ENG 603 - Seminar in British Literature (3 credits)

ENG 605 - Seminar in American Literature (3 credits)

ENG 612 - Women Writers (3 credits)

ENG 614 - Literature of American Ethnic Minorities (3 credits)

ENG 616 - World Literature in English (3 credits)

ENG 624 - Genre Studies (3 credits)

ENG 651 - Literary Period Seminar (3 credits)

ENG 655 - History of Literary Criticism and Theory (3 credits)

ENG 661 - Author or Topic Seminar (3 credits)

ENG 663 - Shakespeare (3 credits)

ENG 680 - Special Topics in English (1 to 4 credits)

ENG 695 - Master's Thesis (1 to 3 credits)

ENG 699 - Independent Study (1 to 3 credits)

The course offerings vary yearly to ensure students leave the program understanding the breadth of literary studies.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Transfer Courses**

Students may apply to transfer a maximum of six credits for courses taken at another prior institution and/or program. To earn transfer credit, the courses must have been completed no earlier than four years prior to the time of application (or eight years prior to the time of graduation) and they must be equivalent to those offered in GVSU's M.A. in English literature (except the core requirement courses). Contact the program director to determine course equivalency.

## **Responsible Conduct of Research Training**

Each graduate student must complete Responsible Conduct of Research (RCR) training prior to completion of nine credit hours of the graduate program or prior to engaging in any research activity (e.g. voluntary, independent, or supervised research, projects, theses, and dissertations).

## **Tracks**

### **Qualifying Examination Track**

The examination track is appropriate for students who wish to focus on coursework.

Students who elect the examination track must complete 33 credit hours of coursework in the program, including the required core courses. After completing all course work, students must pass their qualifying examination to finally earn the degree.

**The Exam:** Consists of two essays written in a total of four hours. The purpose of the exam is for students to demonstrate a range of skills and knowledge in literary study, including familiarity with a variety of approaches to literature. Students choose to focus on two of a possible four areas, each of which corresponds with the core courses in the program:

Major author

Literary historical period

Literary genre

Criticism and theory

**Examination Committee:** The exam committee consists of the graduate program director and two professors chosen by students. By the completion of 18 credits, students consult with both faculty members, each specializing in one of the selected examination areas. The student will ask one of these faculty members to serve as the principal exam advisor. All committee members must hold full graduate faculty status in The Graduate School.

**Reading Lists:** The reading lists consist of major primary texts, as well as significant critical works in the field. In consultation with the exam committee, students draw up separate reading

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

lists for each chosen area. Although students should consult with their committee during this process, it is the students responsibility to develop these lists based on their research into each of their chosen areas. Students submit the preliminary reading lists to the committee, which may request revisions should they be necessary. After the revision process is complete, the principal exam advisor will then submit the lists to the graduate director for final approval. (This step helps to ensure consistency among the various exam committees over time.)

**Exam Deadlines:** The Graduate School sets exam deadlines each semester. The graduate program director shares the dates with students and exam committees. The exam must be scheduled by the third week of the semester in which students wish to sit for the exam. The exam may not take place during the last three weeks of the semester. On the day of the exam students choose two questions from a list: one from each selected area.

Students write for either

a single four-hour period or

two (two-hour) periods separated by a 30-minute break.

**Evaluation:** The exam committee reads both exam essays. Readers assign to each essay a grade: High Pass, Pass, or Fail. If the two readers disagree on their rating, the graduate program director will serve as the third reader.

Unsuccessful students have another opportunity to write the exam in the following semester.

Students who do not earn a passing grade after two attempts will not receive the degree and cannot retake the exam. However, in consultation with the exam committee and with final permission from the graduate program director students can propose a thesis project, which requires registration for six hours of thesis credit. As in every case, the principal advisor must approve a thesis prospectus prior to registering for thesis credits. (See Thesis Preparation for details.)

## **Thesis Track**

The thesis track is appropriate for students who are interested in researching, organizing, and writing a sustained argument on a topic of interest within the field of literature. This track is strongly recommended for students who hope to pursue a PhD after the completion of their M.A.

Students who elect the thesis track must complete 27 credit hours of coursework in the program (including the required core courses), after which they may begin to write the thesis. (See Student Resources on The Graduate School webpage for helpful tips regarding thesis preparation.)

**Description:** The thesis is a document of at least 50 pages that typically consists of five chapters: an introduction, chapters two to four, and a conclusion. In the thesis students make an original

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

contribution to their field while demonstrating the ability to maintain a sustained argument, incorporating current research and exhibiting critical analysis.

**Thesis Committee:** The committee consists of the graduate program director and three professors. Students will ask a faculty member whose area of expertise aligns with their research interest to serve as the Chair of the thesis committee; the chair will work with students to assemble the full thesis committee. (All committee members must hold full graduate faculty qualifications/status in the Graduate School.) By the end of 18 credits, students consult with the committee chair to receive approval of topic.

**Prospectus Guidelines:** In the prospectus, students clarify their topic and present the idea formally both to the committee chair and to the program director. The prospectus must reveal an argument that is thorough, succinct, concise, and coherent, demonstrating critical engagement with current scholarly conversations in the study of literature. Students will revise the prospectus based on comments from the committee before submission to the graduate program director.

The prospectus will follow all Modern Languages Association (MLA) conventions. It should be approximately four to six pages and include a working bibliography. It must include the following:

Describe a focused topic

State a provisional thesis

Provide literary review, i.e. collect and evaluate other people's work on the topic

Discuss how the work will contribute to existing scholarship on the topic

Once the committee chair and the program director have reviewed the prospectus, they may approve it, decline to approve it and direct the student to consider other topics, or suggest revisions and read it again before making a final decision. Their decision in any case should be given in writing, via mail or e-mail. After successful completion of the prospectus, students may register for thesis credit: ENG 695.

**ENG 695 - Master's Thesis:** After approval of the prospectus students register for one to six credits of Master's Thesis over two consecutive semesters. At the end of the second semester students must successfully defend the thesis project. Should students require more than 6 credits to complete the thesis project, they must register for ENG 696 credit until project is complete.

### **Writing the Thesis:**

In consultation with their committee chair, students should design a schedule that will allow them to defend their thesis at the completion of six thesis credits. After drafting each chapter of the thesis, the student will receive feedback from the principal advisor and make necessary revisions. The completed thesis should follow the formatting requirements outlined in the University Guidelines for Preparation of Theses and Dissertations. Students can find the required

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

formatting for the thesis outlined on The Graduate School webpage (see Student Resources).

The committee chair will read drafts of the student's thesis and will indicate when the thesis draft is ready for students to share with the full thesis committee. Typically, the timeline for the revision of the thesis is as follows:

Four weeks prior to planned defense date:

committee receives draft and provides comments and requests for revision.

Three weeks prior to planned defense date:

The committee meets to discuss comments for revision with the committee chair

Committee chair shares these comments with students

Two weeks prior to planned defense date:

students revise thesis with committee comments in mind

students prepare for defense.

Once revisions have been completed, students are ready for the thesis defense. In the event that revision requests are so substantive that the student cannot complete them in the typical time frame, the student may need to delay the planned defense date.

**Thesis Defense:** The Graduate School sets thesis defense deadlines each semester. The graduate program director shares the dates with students and thesis committees. The thesis defense must be scheduled by the third week of the semester in which students wish to defend. The defense may not take place during the last three weeks of the semester.

The revised draft of the thesis must be submitted to the committee at least two weeks prior to the defense date, at which time the thesis defense announcement must be sent to the department, as well as shared with the Graduate School. All English Department faculty and graduate students are invited to attend the defense. Interested faculty may read the thesis and participate in the discussion; graduate students may observe the defense. Students begin the defense with a brief statement (approximately 10-15 minutes) sharing how they arrived at their topic, what they found in their research, and where they hope to go with the work they've completed in the thesis.

After the defense, the committee chair asks the student (and any student observers) to leave the room for 15 minutes so that the committee may deliberate. After 15 minutes, the student is invited back into the room and the committee chair communicates the results: Pass, Pass with Distinction, Pass with Revisions, or Fail. In the case of a Pass with Revisions, the committee may require further revisions to the thesis; if so, students will have 30 days to revise and resubmit the thesis for final determination. If the committee votes not to accept the thesis,

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

students have the option of shifting to the Examination Track, which requires taking six additional credit hours of coursework and passing the qualifying examination.

**Depositing the Thesis:** Once the thesis is finally approved, students must submit the Committee Signature page to The Graduate School for the dean's signature. Students must deposit the thesis to ScholarWorks@GVSU, the university's electronic repository for scholarship. Students must then formally apply to graduate via myBanner. (Log into myBanner, select Student, then Student Records, and Apply to Graduate.)

## Entrepreneurship

**Website:** [gvsu.edu/management](http://gvsu.edu/management)

The entrepreneurship major is designed to provide students broad, intellectual, and practical skills, and a demonstrated ability to apply knowledge using skills such as creativity, critical thinking, communication, and collaboration in real-world settings to help them develop an entrepreneurial mindset and/or new venture. Students learn to identify opportunities, solve problems, build business strategies, test and validate assumptions, execute, and present. Through a series of courses that include hands-on and experiential learning opportunities, students develop the knowledge and skills that serve as a springboard for students to start, run, or grow their own personal or family owned business.

Students who pursue the entrepreneurship major are required to complete a second Seidman major in a functional discipline (such as finance, marketing, accounting, etc.). Students should contact the Seidman Undergraduate Student Services Office early in their program for a suggested pattern of coursework. Visit us online at [gvsu.edu/seidman/undergraduateprograms](http://gvsu.edu/seidman/undergraduateprograms).

## Bachelor of Business Administration in Entrepreneurship

### Requirements for the B.B.A.

#### Core Courses

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses:

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)  
**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course - not ECO 490 (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Elective Courses**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Requirements for a Major in Entrepreneurship

Students must take:

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MGT 361 - Management Science (3 credits)

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

**PLUS** the following:

one option from the creativity courses

three core courses

one option from the application or the practicum courses

one option from the elective courses

and a **second business major** (excluding general business and international business)

### Creativity Course

Choose one:

INT 310 - Creativity and Innovative Problem-Solving (3 credits)

MKT 369 - Creativity in Marketing Innovation (3 credits)

### Core Courses

Students must take all three:

ENT 350 - Entrepreneurial Business Plan (3 credits)

MGT 330 - Entrepreneurship and Small Business Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MKT 370 - New Product Development (3 credits)

### **Application or Practicum Course**

Choose one:

BUS 490 - Business Internship (1 to 6 credits)

ENT 351 - Entrepreneurial Project (3 credits)

### **Electives Course**

Choose one:

ACC 321 - Cost Strategy and Decision Making (3 credits)

ECO 300 - Data Analytics for Economics and Business (3 credits)

MGT 345 - Team Building (3 credits)

MGT 437 - Family Business (3 credits)

MKT 352 - Marketing Research (3 credits)

MKT 358 - Advertising and Marketing Communications (3 credits)

## **Interdisciplinary Entrepreneurship Undergraduate Certificate**

For additional information about opportunities this college offers, please refer to the Seidman College of Business section in this catalog.

### **Interdisciplinary Entrepreneurship Certificate Goal**

This certificate is primarily designed for nonbusiness majors. Nonbusiness majors (e.g. graphic design, music literature, and health professions) who are currently taking limited entrepreneurship classes would benefit from the completion of the certificate. The certificate would allow the student to become more knowledgeable regarding starting or running a new business. It also allows the nonbusiness major to gain knowledge, skill sets, and experiences beyond their major studies.

### **Certificate Requirements**

There are three courses (nine credits) that comprise the certificate.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ENT 150 - Entrepreneurial Quest (3 credits)

ENT 151 - New Venture Feasibility (3 credits)

ENT 251 - Entrepreneurial Management and Marketing (3 credits)

## **Environmental and Sustainability Studies**

Environmental and sustainability studies draw upon a variety of disciplines - arts and humanities, physical and life sciences, and economic and policy studies - to develop a holistic, place-based, and solutions-oriented understanding of environmental and sustainability challenges. While all aspects of humans' interaction with their environments may be relevant to environmental and sustainability studies, students organize their studies around one or more of four focus areas: sustainable food systems, energy, water resources, or culture and the built environment.

Students will gain the broad educational background needed to create positive change as leaders, thinkers, decision-makers, and citizens. The program emphasizes a practical approach to environmental issues through collaborative problem-solving, involvement in faculty-led research projects, internships, practicums, and community engagement projects. Our students gain an understanding of the way interconnected physical, institutional, and cultural systems shape our attitudes and behavior toward the environment. They have first-hand experience addressing large and complex "wicked problems" from an interdisciplinary perspective.

Sustainability practitioners seek to understand and address such problems through the lens of the "triple bottom line," which highlights the environmental, social, and economic impacts of our actions. This orientation is reflected in the organization of coursework under three "perspectives" categories that highlight social and cultural considerations, physical and life science considerations, and political and economic considerations. The arts, humanities, and social sciences create, interpret, and analyze cultural narratives that influence humans' interactions with their environments. Knowledge from the physical and life sciences defines the context and limits of humans' interactions with their environments. Policy studies, economics, and social sciences describe and analyze social structures that influence humans' interactions with their environments. Students pursue either a B.A. or B.S. degree.

### **Careers**

Businesses, government, and non-profit organizations are increasingly interested in implementing environmental and sustainability initiatives. Graduates are prepared to pursue careers in the emerging field of sustainability implementation (for example, as sustainability practitioners or officers in industry, government, and the non-profit sector), and in a wide variety of other occupations that involve environmental and sustainability communication, advocacy, outreach, education, and research. Students may also pursue postgraduate studies in areas such as law, public policy, administration, business, or environmental humanities.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The 35 to 37 credit major in environmental and sustainability studies (ENS) combines academic foundations in various disciplines with practical experience in interdisciplinary research and problem-solving, so as to prepare graduates to work effectively in business, nonprofit, civic, or governmental roles that support sustainability and environmental responsibility.

The 21 credit minor in environmental and sustainability studies is structured for students in any major who have a strong interest in environmental and sustainability issues.

The 16 to 20 credit sustainable food systems certificate provides skills and experience necessary to address the role of food in community life.

## **Bachelor of Arts or Bachelor of Science in Environmental and Sustainability Studies**

**Website:** [gvsu.edu/ens](http://gvsu.edu/ens)

### **Requirements**

The environmental and sustainability studies (ENS) major requires 35 to 37 credits, plus nine to 12 credits in B.A. or B.S. program requirements.

### **Required Courses**

The following courses are required (nine credits):

ENS 201 - Introduction to Environmental and Sustainability Studies (3 credits)

ENS 300 - Principles of Sustainability (3 credits)

INT 301 - Interdisciplinary Research Methods (3 credits)

### **Technical Skills Courses**

Choose one course from the following (three to four credits):

ENS 305 - Sustainability Assessment and Reporting (3 credits)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

GPY 370 - Introduction to Remote Sensing (3 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

PHO 171 - Photography I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

STA 301 - Questionnaire Design and Execution (3 credits)

STA 311 - Introduction to Survey Sampling (3 credits)

STA 341 - Demographic Methods (3 credits)

WRT 200 - Introduction to Professional Writing (3 credits)

WRT 253 - Document Production and Design (3 credits)

WRT 350 - Business Communication (3 credits)

### **Triple Bottom Line Overview Courses**

Students must choose one course from each of the following three groups (nine credits). No course may count toward both a focus area and the triple bottom line overview.

### **Social and Cultural Perspectives**

ANT 340 - Culture and Environment (3 credits)

ART 423 - Animals in Art (3 credits)

BIO 338 - Environmental Ethics (3 credits)

ENG 382 - Literature and the Environment (3 credits)

ENS 311 - To Bee or Not to Bee; Honey Bees and Social Impact (3 credits)

HST 323 - Michigan History (3 credits)

INT 330 - The Idea of Nature (3 credits)

PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)

PSY 362 - Environmental Psychology (3 credits)

### **Physical and Life Science Perspectives**

BIO 105 - Environmental Science (3 credits)

ENS 310 - How Biosphere Works (3 credits)

GPY 100 - Physical and Environmental Geography (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NRM 330 - Environmental Pollution (3 credits)

### **Political and Economic Perspectives**

ECO 345 - Environmental and Resource Economics (3 credits)

ENS 303/PLS 303 - Introduction to U.S. Environmental Policy (3 credits)

GPY 361 - People, Environment, and Development in the Amazon (3 credits)

INT 322 - Wicked Problems of Sustainability (3 credits)

NRM 150 - Introduction to Natural Resources (3 credits)

NRM 451 - Natural Resource Policy (3 credits)

OSH 414 - Environmental Safety and Health Regulations (3 credits)

PLS 314 - International Law (3 credits)

PNH 307 - Local Politics and Administration (3 credits)

### **Synthesis and Application**

A minimum of five credits are required from the following:

ENS 401 - Environmental Problem Solving (3 credits) Capstone

ENS 490 - Internship (1 to 6 credits) **OR** ENS 491 - Practicum (1 to 6 credits)

### **Focus Areas**

Students must complete the required coursework in at least one of the following four focus areas (a minimum of nine to 10 credits):

Sustainable food systems

Energy

Water resources

Culture and the built environment

A focus area includes one course relevant to the focus area topic from each of the three triple bottom line perspectives:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Social and cultural perspectives

Physical and life science perspectives

Political and economic perspectives

The focus area in sustainable food systems also requires completion of a course on food safety (either HTM 201 or HTM 250).

Students are encouraged to complete additional coursework within a focus area, or to complete more than one focus area, as their interests and resources permit.

## **1. Sustainable Food Systems**

Students must complete a food safety course and one course from each perspectives list. No course may count as both a focus area course and as a triple bottom line overview course.

### **Food Safety**

HTM 201 - Good Food Gone Bad: Food Safety for Everyone (1 credit) **OR** HTM 250 - Food Production and Kitchen Management (4 credits)

### **Social and Cultural Perspectives**

ART 423 - Animals in Art (3 credits)

ENS 311 - To Bee or Not to Bee; Honey Bees and Social Impact (3 credits)

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

GPY 363 - World Forests and Their Use (3 credits)

INT 342 - Food Matters (3 credits)

SOC 288 - Sociology of Food (3 credits)

### **Physical and Life Science Perspectives**

BIO 319 - Global Agricultural Sustainability (3 credits)

ENS 392 - Sustainable Agriculture: Ideas and Techniques (3 credits)

NRM 281 - Principles of Soil Science (4 credits)

### **Political and Economic Perspectives**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)

GPY 361 - People, Environment, and Development in the Amazon (3 credits)

## **2. Energy**

Students must complete one course from each perspectives list. No course may count both as a focus area course and as a triple bottom line overview course.

### **Social and Cultural Perspectives**

GPY 363 - World Forests and Their Use (3 credits)

HST 323 - Michigan History (3 credits)

IDS 350 - Civil Discourse (3 credits)

INT 330 - The Idea of Nature (3 credits)

### **Physical and Life Science Perspectives**

BIO 105 - Environmental Science (3 credits)

BIO 215 - Ecology (4 credits)

EGR 360 - Thermodynamics (4 credits)

ENS/GPY 412 - Global Climate and Environmental Change (3 credits)

### **Political and Economic Perspectives**

ECO 345 - Environmental and Resource Economics (3 credits)

EGR 406/NRM 406 - Renewable Energy Systems: Structure, Policy, and Analysis (3 credits)

NRM 451 - Natural Resource Policy (3 credits)

## **3. Water Resources**

Students must complete one course from each perspectives list. No course may count both as a focus area course and as a triple bottom line overview course.

### **Social and Cultural Perspectives**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 338 - Environmental Ethics (3 credits)

HST 323 - Michigan History (3 credits)

INT 330 - The Idea of Nature (3 credits)

### **Physical and Life Science Perspectives**

BIO 107 - Great Lakes and Other Water Resources (4 credits)

BIO 215 - Ecology (4 credits)

GEO 105 - Living with the Great Lakes (3 credits)

### **Political and Economic Perspectives**

GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)

NRM 451 - Natural Resource Policy (3 credits)

OSH 414 - Environmental Safety and Health Regulations (3 credits)

## **4. Culture and the Built Environment**

Students must complete one course from each perspectives list. No course may count both as a focus area course and as a triple bottom line overview course.

### **Social and Cultural Perspectives**

ANT 340 - Culture and Environment (3 credits)

ENG 382 - Literature and the Environment (3 credits)

GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)

HST 320 - American Indians (3 credits)

HST 327 - History of United States Urban Society (3 credits)

SW 150 - Introduction to Social Work and Social Welfare (3 credits)

WGS 335 - Women, Health and Environment (3 credits)

### **Physical and Life Science Perspectives**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EGR 306 - Urban Sustainability (3 credits)

GPY 312 - Urban and Regional Environmental Planning (3 credits)

NRM 330 - Environmental Pollution (3 credits)

### **Political and Economic Perspectives**

CJ 370 - Environmental Crime and Justice (3 credits)

GPY 324/PNH 324 - Urbanization (3 credits)

GPY 335 - Globalization and Development (3 credits)

GPY 361 - People, Environment, and Development in the Amazon (3 credits)

HTM 368 - Geotourism (3 credits)

SOC 351 - Urban Sociology (3 credits)

### **B.A. and B.S. Degree Requirements**

Nine to 12 credits are required for the B.A. or B.S. degree.

The Bachelor of Arts degree is distinguished by its concentration in liberal arts and typically focuses on culture, arts, philosophy, and language.

The Bachelor of Science degree is grounded in the liberal arts and distinguished by its focus on mathematics, statistics, quantitative reasoning, and scientific analysis.

### **B.A. Degree Requirements**

Twelve credits are required. Third-semester proficiency in a foreign language of the student's choice, either classical or modern, equivalent to a 201 course in a GVSU language program.

### **B.S. Degree Requirements**

Students must complete nine to 10 credits:

STA 215 - Introductory Applied Statistics (3 credits)

**AND** one of the following:

AHS 301 - Introduction to Health Care Research (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 307 - Introduction to Geographic Information Systems (3 credits)

HST 290 - Research Methods in History (3 credits)

PLS 300 - Political Analysis (3 credits)

PSY 300 - Research Methods in Psychology (3 credits)

**AND** one of the following:

GPY 370 - Introduction to Remote Sensing (3 credits)

GPY 407 - Advanced GIS (4 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

STA 301 - Questionnaire Design and Execution (3 credits)

STA 314 - Statistical Quality Methods (3 credits)

STA 318 - Statistical Computing (3 credits)

STA 340 - Statistics in the Media (3 credits)

## **Environmental and Sustainability Studies Minor**

A total of 21 credits are needed to fulfill the environmental and sustainability studies (ENS) minor. A major must include at least 30 credits not duplicated in the minor.

### **Requirements**

The environmental and sustainability studies minor requires a minimum of 21 credit hours, including the following courses:

#### **Core Courses**

ENS 201 - Introduction to Environmental and Sustainability Studies (3 credits)

ENS 401 - Environmental Problem Solving (3 credits)

#### **Elective Courses**

**Choose one course from each of the three following categories.**

All courses are three credits unless specified.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Social and Cultural Perspectives**

ANT 340 - Culture and Environment (3 credits)

ART 423 - Animals in Art (3 credits)

BIO 338 - Environmental Ethics (3 credits)

ENG 382 - Literature and the Environment (3 credits)

ENS 300 - Principles of Sustainability (3 credits)

ENS 311 - To Bee or Not to Bee; Honey Bees and Social Impact (3 credits)

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

GPY 363 - World Forests and Their Use (3 credits)

GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)

HST 320 - American Indians (3 credits)

HST 323 - Michigan History (3 credits)

HST 327 - History of United States Urban Society (3 credits)

IDS 350 - Civil Discourse (3 credits)

INT 330 - The Idea of Nature (3 credits)

INT 342 - Food Matters (3 credits)

PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)

PSY 362 - Environmental Psychology (3 credits)

SOC 288 - Sociology of Food (3 credits)

SW 150 - Introduction to Social Work and Social Welfare (3 credits)

WGS 335 - Women, Health and Environment (3 credits)

## **Physical and Life Science Perspectives**

BIO 105 - Environmental Science (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 107 - Great Lakes and Other Water Resources (4 credits)

BIO 215 - Ecology (4 credits)

BIO 319 - Global Agricultural Sustainability (3 credits)

EGR 306 - Urban Sustainability (3 credits)

EGR 360 - Thermodynamics (4 credits)

ENS 310 - How Biosphere Works (3 credits)

ENS 392 - Sustainable Agriculture: Ideas and Techniques (3 credits)

GEO 105 - Living with the Great Lakes (3 credits)

GPY 100 - Physical and Environmental Geography (3 credits)

GPY 312 - Urban and Regional Environmental Planning (3 credits)

GPY 412/ENS 412 - Global Climate and Environmental Change (3 credits)

HTM 201 - Good Food Gone Bad: Food Safety for Everyone (1 credit)

HTM 250 - Food Production and Kitchen Management (4 credits)

NRM 281 - Principles of Soil Science (4 credits)

NRM 330 - Environmental Pollution (3 credits)

### **Political and Economic Perspectives**

CJ 370 - Environmental Crime and Justice (3 credits)

ECO 345 - Environmental and Resource Economics (3 credits)

EGR 406/NRM 406 - Renewable Energy Systems: Structure, Policy, and Analysis (3 credits)

ENS 303/PLS 303 - Introduction to U.S. Environmental Policy (3 credits)

GPY 324/PNH 324 - Urbanization (3 credits)

GPY 335 - Globalization and Development (3 credits)

GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)

GPY 361 - People, Environment, and Development in the Amazon (3 credits)

HTM 368 - Geotourism (3 credits)

INT 322 - Wicked Problems of Sustainability (3 credits)

NRM 150 - Introduction to Natural Resources (3 credits)

NRM 451 - Natural Resource Policy (3 credits)

OSH 414 - Environmental Safety and Health Regulations (3 credits)

PNH 307 - Local Politics and Administration (3 credits)

PLS 314 - International Law (3 credits)

SOC 351 - Urban Sociology (3 credits)

### **Additional Elective Courses**

Six credits of upper-level electives (300-level or above) from two different disciplines from the perspectives lists are required. ENS 305 - Sustainability Assessment and Reporting, ENS 399 - Independent Readings in Environmental Studies, ENS 490 - Internship, or ENS 491 - Practicum may count as one upper-level elective.

## **Sustainable Food Systems Undergraduate Certificate**

The sustainable food systems certificate is housed within the environmental and sustainability studies (ENS) program. Strong local food systems are essential for healthy local communities. Students preparing for careers in local food enterprises, health care, sustainability, education, business, social work, nonprofit administration, and many other fields will benefit from the skills and experience necessary to address the role of food in community life.

All undergraduate certificates at GVSU have received Higher Learning Commission approval. Individuals may pursue the sustainable food systems certificate separately or concurrently with any major or minor. Any course that satisfies both requirements will be counted toward the certificate and the student's major or minor.

### **Why Study Sustainable Food Systems at Grand Valley?**

Gain a deep understanding of sustainable food systems' impact on society and the environment.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Engage in practical experience gardening, composting, and marketing at GVSU's Sustainable Agriculture Project, the on-campus student farm.

Acquire the skills to integrate multiple perspectives on food justice, environmental stewardship, and food science and safety.

Learn and understand the food needs of diverse communities.

Develop advocacy strategies to support local food systems that sustain the environment now and into the future.

## **Certificate Requirements**

To earn the certificate, students complete a total of 16 to 20 credits. In addition to three required courses, students select one course from each of the two groups of electives, and one additional elective from either group for a total of three elective courses. No more than two electives with the same prefix are allowed.

### **Required Courses**

Students must complete seven to 10 credits, including:

ENS 201 - Introduction to Environmental and Sustainability Studies (3 credits)

ENS 392 - Sustainable Agriculture: Ideas and Techniques (3 credits)

HTM 201 - Good Food Gone Bad: Food Safety for Everyone (1 credit) **OR** HTM 250 - Food Production and Kitchen Management (4 credits)

### **Elective Courses**

Students take nine to 10 credits as follows:

#### **Group One: Agriculture**

Select at least one course from the following (three to four credits):

BIO 309 - Plants and Human Health (3 credits)

BIO 319 - Global Agricultural Sustainability (3 credits)

BIO 423 - Plant Biotechnology (3 credits)

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

NRM 281 - Principles of Soil Science (4 credits)

### **Group Two: Food and Nutrition**

Select at least one course from the following (three credits):

BMS 105 - Basic Nutrition (3 credits)

AFN 381 - Design Thinking in Applied Food and Nutrition (3 credits)

HTM 175 - International Food and Culture (3 credits)

INT 342 - Food Matters (3 credits)

SOC 288 - Sociology of Food (3 credits)

## **Exercise Science**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/exercisescience](http://gvsu.edu/exercisescience)

Exercise science is the study of physical activity and exercise and the associated short-term functional responses and long-term adaptations the human body experiences. The exercise science major will seek to serve the students of Grand Valley State University by providing theoretical foundations for exercise testing and prescription in apparently healthy and clinical populations. Students receive hands-on experience and skill preparation to work in a wide variety of health, fitness, and wellness careers. The exercise science degree, with emphasis areas in health/fitness instruction and clinical exercise science, is consistent with American College of Sports Medicine (ACSM) standards. The major prepares students for opportunities in community health and fitness, corporate wellness, personal training, cardiac rehabilitation, performance enhancement, and future graduate study in related areas.

### **Mission**

To prepare students for physical activity, exercise, health, and sport-related professions through academic, practical, and research experiences. Our students will have the knowledge and skills to promote and impact their health and that of society.

### **Vision**

The exercise science program in the Movement Science Department at Grand Valley State University is committed to being nationally recognized for its excellence in teaching and scholarship. Through our excellence, we prepare future leaders in the areas of health, physical

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

activity, exercise, and sport. We achieve excellence in teaching by using innovative teaching strategies that incorporate active student learning. We complement excellence in teaching with innovative scholarship addressing critical issues related to health, fitness, and sports performance across the life span.

### **Graduate School Opportunities**

Students are well-prepared to enter graduate school. Examples of graduate programs are:

Physical therapy

Kinesiology

Exercise science

Exercise physiology

Epidemiology and public health

Health promotion

Biomechanics

Physician assistant studies

Occupational therapy

Medicine

Sport and exercise psychology

Nutrition

Orthotics and prosthetics

## **Bachelor of Science in Exercise Science**

### **Requirements**

Students in the exercise science program at Grand Valley State University must follow all general education requirements as defined in the Grand Valley State University Undergraduate and Graduate Catalog.

### **Core Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

There are 51, 54, or 57 credits\* required, including:

BIO 120 - General Biology I (4 credits)

BMS 105 - Basic Nutrition (3 credits)

EXS 209 - Research Methods in Exercise and Health Sciences (3 credits)

EXS 320 - Exercise Testing and Prescription (3 credits)

EXS 321 - Exercise Testing Lab (1 credit)

EXS 390 - Fieldwork in Exercise Science (2 credits)

EXS 420 - Laboratory Practicum in Exercise Science (3 credits)

EXS 470 - Exercise for Special Populations (3 credits)

EXS 490 - Internship in Exercise Science (6, 9, or 12 credits)

EXS 495 - Professionalism in Exercise Science (3 credits) SWS

MOV 101 - Foundations of Human Movement Science (3 credits)

ATH 217 - Modern Principles of Athletic Training (2 credits)

MOV 300 - Kinesiology (3 credits)

MOV 304 - Introduction to Exercise Physiology (3 credits)

PSY 101 - Introductory Psychology (3 credits)

PSY 310 - Behavior Modification (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

\*Depending on EXS 490

## **Emphasis Courses**

Students must choose between clinical exercise science or health fitness instruction as an emphasis within their exercise science degree program.

### **Clinical Exercise Science**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

There are 35 credits required. Students have the opportunity to complete nine credits of electives within the emphasis. The electives must be at either the 300- or 400-level.

BMS 208 - Human Anatomy (3 credits)

BMS 290 - Human Physiology (3 credits)

BMS 391 - Laboratory in Human Physiology (2 credits)

CHM 109 - Introductory Chemistry (4 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

CHM 232 - Biological Chemistry (4 credits)

EXS 465 - Cardiopulmonary Rehabilitation for the Clinical Exercise Physiologist (3 credits)

PHY 200 - Physics for the Life Sciences (4 credits)

Electives (9 credits)

### **Health-Fitness Instruction**

There are 32 credits required. Students are given the opportunity to complete six credits of electives within this emphasis. The electives must be at either the 300- or 400-level.

BMS 223 - Infectious Human Diseases; Prevention and Control (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

MOV 201 - Psychosocial Aspects of Physical Education and Sport (3 credits)

MOV 310 - Motor Skill Development (3 credits)

PSY 364 - Life Span Developmental Psychology (3 credits)

SOC 252 - Sociology of Drug Use and Abuse (3 credits)

SOC 286 - Sociology of Health Care (3 credits)

Electives (6 credits)

### **Elective Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The following is a list of approved elective courses within either emphasis. Consult with an academic advisor, as additional elective courses may be approved. A different course is required where a listed course has already been taken in the emphasis (e.g. MOV 310 and PSY 364 are required within the health fitness instruction so they cannot be used as electives within that same emphasis, but MOV 310 and PSY 364 may be used as electives in the clinical exercise science emphasis).

BIO 355 - Human Genetics (3 credits)

BMS 375 - The Biology of Aging (3 credits)

EXS 460 - Strength and Conditioning for Athletic Performance (3 credits)

MOV 310 - Motor Skill Development (3 credits)

MOV 350 - The Obesogenic Environment (3 credits)

MOV 480 - Special Topics in Movement Science (1 to 3 credits)

PSY 364 - Life Span Developmental Psychology (3 credits)

STA 345 - Statistics in Sports (3 credits)

### **Program Costs**

Students will be responsible for the costs associated with the required pre-internship health compliance check (immunizations, background check, and drug screening), travel to and from fieldwork or internship sites, and all textbooks and supplemental materials required for each course.

### **Fieldwork and Internship**

Students are required to undertake both a fieldwork and internship in their junior and senior year, respectively.

### **Suggested Order of Coursework for Clinical Exercise Science**

#### **Year One**

BIO 120 - General Biology I (4 credits)

CHM 109 - Introductory Chemistry (4 credits)

MTH 110 - Algebra (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MOV 101 - Foundations of Human Movement Science (3 credits)

BMS 208 - Human Anatomy (3 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

WRT 150 - Strategies in Writing (4 credits)

General education Historical Perspectives (3 credits)

General education Social and Behavioral Sciences (3 credits)

## **Year Two**

BMS 290 - Human Physiology (3 credits)

BMS 391 - Laboratory in Human Physiology (2 credits)

CHM 232 - Biological Chemistry (4 credits)

PSY 101 - Introductory Psychology (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

General education Philosophy and Literature (3 credits)

BMS 105 - Basic Nutrition (3 credits)

ATH 217 - Modern Principles of Athletic Training (2 credits)

MOV 304 - Introduction to Exercise Physiology (3 credits)

PHY 200 - Physics for the Life Sciences (4 credits)

General education U.S. Diversity (3 credits)

## **Year Three**

EXS 209 - Research Methods in Exercise and Health Sciences (3 credits)

EXS 320 - Exercise Testing and Prescription (3 credits)

EXS 321 - Exercise Testing Lab (1 credit)

MOV 300 - Kinesiology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Elective (3 credits)

Elective (3 credits)

EXS 390 - Fieldwork in Exercise Science (2 credits)

EXS 465 - Cardiopulmonary Rehabilitation for the Clinical Exercise Physiologist (3 credits)

PSY 310 - Behavior Modification (3 credits)

General Education Arts (3 credits)

General Education Issues (3 credits)

### **Year Four**

EXS 420 - Laboratory Practicum in Exercise Science (3 credits)

EXS 470 - Exercise for Special Populations (3 credits)

EXS 495 - Professionalism in Exercise Science (3 credits)

General education Global Perspectives (3 credits)

General education Issues (3 credits)

EXS 490 - Internship in Exercise Science (6, 9, or 12 credits) SWS course (3 credits)

### **Suggested Order of Coursework for Health-Fitness Instruction**

#### **Year One**

BIO 120 - General Biology I (4 credits)

BMS 105 - Basic Nutrition (3 credits)

MOV 101 - Foundations of Human Movement Science (3 credits)

PSY 101 - Introductory Psychology (3 credits)

General education Arts (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

MTH 110 - Algebra (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ATH 217 - Modern Principles of Athletic Training (2 credits)

WRT 150 - Strategies in Writing (4 credits)

General education U.S. Diversity (3 credits)

## **Year Two**

BMS 251 - Anatomy and Physiology II (4 credits)

MOV 201 - Psychosocial Aspects of Physical Education and Sport (3 credits)

ATH 217 - Modern Principles of Athletic Training (2 credits)

STA 215 - Introductory Applied Statistics (3 credits)

General education Philosophy and Literature (3 credits)

BMS 223 - Infectious Human Diseases; Prevention and Control (3 credits)

MOV 304 - Introduction to Exercise Physiology (3 credits)

SOC 286 - Sociology of Health Care (3 credits)

General education Physical Sciences (3 credits)

General education Global Perspectives (3 credits)

## **Year Three**

EXS 209 - Research Methods in Exercise and Health Sciences (3 credits)

EXS 320 - Exercise Testing and Prescription (3 credits)

EXS 321 - Exercise Testing Lab (1 credit)

EXS 390 - Fieldwork in Exercise Science (2 credits)

MOV 300 - Kinesiology (3 credits)

MOV 310 - Motor Skill Development (3 credits)

PSY 364 - Life Span Developmental Psychology (3 credits)

SOC 252 - Sociology of Drug Use and Abuse (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Electives (3 credits)

General education Historical Perspectives (3 credits)

General education Social and Behavioral Sciences (3 credits)

#### **Year Four**

EXS 420 - Laboratory Practicum in Exercise Science (3 credits)

EXS 470 - Exercise for Special Populations (3 credits)

EXS 495 - Professionalism in Exercise Science (3 credits)

Electives (3 credits)

Two Issues courses (6 credits)

EXS 490 - Internship in Exercise Science (6, 9, or 12 credits)

PSY 310 - Behavior Modification (3 credits)

Issues (3 credits)

## **Combined Bachelor of Science in Exercise Science and Master of Athletic Training**

Qualified undergraduates may choose to pursue an accelerated bachelor/master combined program and obtain both a B.S. in exercise science - clinical emphasis and Master of Athletic Training within an accelerated time frame, usually five years. Students who choose to apply to this program may take graduate courses after being admitted to the Master of Athletic Training professional program and completing at least 90 undergraduate credits. Up to 12 credits of graduate work may be used in partial satisfaction of the requirements for the undergraduate degree (in alignment with university policy, a maximum of 12 credit hours of graduate work will count toward both the graduate and undergraduate degrees). All other master degree requirements must be met, including a project and the graduate Capstone (ATH 689 - Professional Topics in Athletic Training). Please see the Master of Athletic Training catalog page for requirements for admission to the MAT as admission is competitive.

After completing 120 credits and all requirements for the bachelor degree, students are awarded a bachelor degree.

### **Admission for Combined Degree**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students will normally apply to the combined degree program at the end of the fall semester during their third academic year and will be admitted for the winter semester. Please see the Master of Athletic Training catalog page for requirements for admission to the MAT as admission is competitive and is handled through the Athletic Training Centralized Application Service (ATCAS). The student should view the complete application requirements in that online platform. Generally, application requirements include:

Overall GPA of 3.00 or greater

A minimum of C earned in all courses

Two recommendations

Academic transcripts

Resume/CV and writing samples

A minimum of 75 hours of documented observation

Health care provider CPR/AED and first aid certifications

## **Requirements**

### **During Undergraduate Studies**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./MAT program. In the final undergraduate year (usually the fourth year), students will take 12 to 15 credits of graduate-level courses.

In accordance with university policy, students will earn a maximum of 12 graduate credits during their undergraduate program.

Students may dual-count up to 12 credits of the following courses toward the clinical exercise science and Master of Athletic Training degrees. Students are strongly encouraged to work with their faculty advisor to ensure all undergraduate and graduate requirements are met.

ATH 514 (4 credits) in lieu of EXS 420

ATH 521 (3 credits) in lieu of EXS 490

ATH 523 (3 credits) in lieu of EXS 495

ATH 525 (4 credits) in lieu of free electives in the Bachelor of Science degree

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree or the completion of 12 graduate credit hours.

## **Suggested Order of Coursework**

Note: The following sequence makes no attempt to minimize credit load. For example, the sequence assumes that all general education courses are distinct and no double dipping is done.

### **Year One**

Requires 35 undergraduate credits, including:

General education Philosophy and Literature

General education Social and Behavioral Sciences

BIO 120 - General Biology I (4 credits)

BMS 105 - Basic Nutrition (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

CHM 109 - Introductory Chemistry (4 credits)

MTH 110 - Algebra (4 credits)

MOV 101 - Foundations of Human Movement Science (3 credits)

PSY 101 - Introductory Psychology (3 credits)

WRT 150 - Strategies in Writing (4 credits)

### **Year Two**

Requires 37 undergraduate credits, including:

General education U.S. Diversity

General education Historical Perspectives

General education Art

\*ATH 210 - Directed Observation in AT (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BMS 251 - Anatomy and Physiology II (4 credits)

\*CHM 230 - Introduction to Organic and Biochemistry (4 credits)

EXS 209 - Research Methods in Exercise and Health Sciences (3 credits)

ATH 217 - Modern Principles of Athletic Training (2 credits)

\*ATH 218 - Modern Principles of Athletic Training Lab (1 credit)

MOV 300 - Kinesiology (3 credits)

MOV 304 - Introduction to Exercise Physiology (3 credits)

PHY 200 - Physics for the Life Sciences (4 credits)

STA 215 - Introductory Applied Statistics (3 credits)

### **Year Three**

Requires 31 undergraduate credits, including:

Elective

General education Issues

General education Issues

General education Global Perspective

BMS 212 - Introductory Microbiology (3 credits)

\*BMS 223 - Infectious Human Diseases; Prevention and Control (3 credits)

\*BMS 310 - Basic Pathophysiology (3 credits)

EXS 320 - Exercise Testing and Prescription (3 credits)

EXS 321 - Exercise Testing Lab (1 credit)

EXS 470 - Exercise for Special Populations (3 credits)

MOV 310 - Motor Skill Development (3 credits)

### **Year Four**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Requires 35 graduate credits, including:

- ATH 506 - Intervention and Referral (2 credits)
- ATH 514 - Assessment and Evaluation I (4 credits)
- ATH 515 - Assessment and Evaluation II (4 credits)
- ATH 521 - Athletic Training Clinical I (3 credits)
- ATH 522 - Athletic Training Clinical II (3 credits)
- ATH 523 - Methods of Evidence-Based Practice in Athletic Training (3 credits)
- ATH 525 - Prehospital Care of the Injured Patient (4 credits)
- ATH 530 - General Medical Conditions in Athletic Training (3 credits)
- ATH 575 - Therapeutic Interventions I (4 credits)
- IPE 507 - Integrated Team Health Care (2 credits)
- STA 610 - Applied Statistics for Health Professions (3 credits)

### **Year Five**

Requires 24 graduate credits, including:

- ATH 607 - Pharmacology in Athletic Training (3 credits)
- ATH 626 - Athletic Training Clinical III (4 credits)
- ATH 628 - Athletic Training Clinical IV (4 credits)
- ATH 675 - Therapeutic Interventions II (4 credits)
- ATH 685 - Advanced Techniques in Athletic Training (2 credits)
- ATH 689 - Professional Topics in Athletic Training (3 credits)
- ATH 693 - Project in Athletic Training (1 to 3 credits)

The following courses are accepted substitutions in the undergraduate exercise science - clinical emphasis degree should a student choose not to complete the combined degree. Students are strongly encouraged to work with their faculty advisor to ensure all requirements are met.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 230 substituted for CHM 231 + CHM 232

ATH 210 and ATH 218 substituted for EXS 390

BMS 223 substituted for PSY 310

BMS 310 substituted for EXS 465

The following is a list of approved elective courses within exercise science. In consult with an academic advisor, additional elective courses may be approved.

BIO 355 - Human Genetics (3 credits)

BMS 375 - The Biology of Aging (3 credits)

EXS 460 - Strength and Conditioning for Athletic Performance (3 credits)

MOV 310 - Motor Skill Development (3 credits)

MOV 350 - The Obesogenic Environment (3 credits)

MOV 480 - Special Topics in Movement Science (1 to 3 credits)

PSY 364 - Life Span Developmental Psychology (3 credits)

STA 345 - Statistics in Sports (3 credits)

### **Graduation Without Completion of the Combined Degree Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the graduate courses taken in lieu of undergraduate courses will still be recognized. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

If a student should not be successful in their application for the MAT or simply chose not to apply, that student would need to complete the following courses in their fourth year to earn their B.S. in clinical exercise science emphasis:

EXS 420 - Laboratory Practicum in Exercise Science (3 credits)

EXS 490 - Internship in Exercise Science (6, 9, or 12 credits)

EXS 495 - Professionalism in Exercise Science (3 credits)

PSY 310 - Behavior Modification (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Film and Video Production

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences sections in this catalog.

**Website:** [gvsu.edu/filmvideo](http://gvsu.edu/filmvideo)

A strong hands-on emphasis characterizes the film and video production major. Courses include animation, cinema studies, documentary and nonfiction, fiction filmmaking, new media, and sound design. The curriculum integrates production experience with the insights offered by media history, theory, and criticism.

Digital video facilities include editing suites, a full complement of field gear, a studio classroom, and a digital audio studio. Students work with a variety of software in Macintosh computer laboratories. Student internship opportunities include regional and national productions, postproduction houses, and many more.

## Accreditation

The film and video production major is accredited by the National Association of Schools of Art and Design (NASAD).

## Admission

In order to maintain high-quality instruction, the film and video production major limits the number of students accepted each year into FVP 226, FVP 227, and all 300- and 400-level film/video courses.

Students are required to have an overall GPA above 2.5 and complete the two film and video pre-admission courses (FVP 123 and FVP 125) with a minimum of 3.0 GPA in order to apply for admission to the major and take FVP 226/FVP 227 and 300- and 400-level film and video courses. Achievement of these minimum criteria does not guarantee admission. For additional information, see the admission section.

Having met these requirements, students will submit an admission application. Guidelines for the application are available on the film and video production website at [gvsu.edu/filmvideo](http://gvsu.edu/filmvideo), and upon request from the Department of Visual and Media Arts office, 1105 Alexander Calder Art Center. Admission applications are accepted the first Monday of November, April, and August.

Students interested in the film and video production major are encouraged to complete the film and video production foundation requirements early in their course of study, and to maintain regular contact with their advisor to ensure proper course enrollment and steady progress toward full acceptance.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students may petition to bypass the two pre-admission courses on the basis of prior coursework for which they have received a 3.0 minimum GPA at another postsecondary institution. The petition should include a syllabus plus one or more projects and/or papers from the prior course(s). On the basis of these materials, the film and video production faculty will determine what Grand Valley coursework, if any, is required of the petitioner. Students may not take upper-level production FVP courses until they are admitted to the major.

## **Bachelor of Arts or Bachelor of Science in Film and Video Production**

### **Requirements for a Major in Film and Video Production**

#### **B.A. and B.S. Degree Requirements**

All film and video production students must choose either the B.A. or B.S. requirement.

#### **B.A. Degree Requirement**

The B.A. degree requires a third semester proficiency in a foreign language of the student's choice.

#### **B.S. Degree Requirement**

CIS 160 - Learn to Code in Python (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 238 - Internet Media and Programming (3 credits)

#### **Preadmission Courses**

The following courses can be taken in any order:

FVP 123 - Survey of Media Production Modes (3 credits)

FVP 125 - Media Production I (3 credits)

Minimum 3.0 GPA required for FVP preadmission courses and 2.5 GPA overall required to apply to the major. See admission policy. Students must maintain good academic standing at the university after admission to the major.

#### **Film/Video Production Foundation**

The film/video production foundation requires 22 credits, including:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

FVP 123 - Survey of Media Production Modes (3 credits)

FVP 125 - Media Production I (3 credits)

FVP 226 - Media Production II (3 credits)

FVP 227 - Post-Production Techniques (3 credits)

FVP 261 - Scriptwriting I (3 credits)

FVP 282 - Audio Production I (3 credits)

**AND** two history/theory/criticism courses from the following:

FVP 348 - Film Theories (3 credits)

FVP 370 - American Cinema (3 credits)

FVP 371 - History of Animation (3 credits)

FVP 372 - History of Documentary Film (3 credits)

FVP 373 - Issues of Representation (3 credits)

FVP 374 - Experimental Film and Video (3 credits)

FVP 375 - World Cinema (3 credits)

FVP 376 - Latin American Cinema (3 credits)

### **Film/Video Production Emphasis**

The film/video production emphasis requires 15 credits.

Choose five courses; one course must be a 400-level advanced production course.

### **Intermediate Production**

FVP 321 - Fiction Filmmaking I (3 credits)

FVP 322 - Documentary Production I (3 credits)

FVP 323 - Media Technologies (3 credits)

FVP 324 - 3-D Computer Animation (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

FVP 325 - Animation I (3 credits)

FVP 326 - New Media I (3 credits)

FVP 327 - Film and Video Art (3 credits)

FVP 328 - Intermediate Film Practicum (3 or 6 credits)

FVP 330 - Digital Post Production (3 credits)

FVP 362 - Scriptwriting II (3 credits)

FVP 368 - Lighting for Film and Video Productions (3 credits)

FVP 380 - Special Topics in Film and Video (3 credits)

FVP 382 - Audio Production II (3 credits)

### **Advanced Production**

FVP 421 - Fiction Filmmaking II (3 credits)

FVP 422 - Documentary Production II (3 credits)

FVP 425 - Animation II (3 credits)

FVP 426 - New Media II (3 credits)

FVP 428 - Advanced Film Practicum (3 or 6 credits)

FVP 429 - Post Production Practicum (3 credits)

FVP 470 - Producing for Clients (3 credits)

FVP 482 - Sound Design for Film and Video (3 credits)

### **History/Theory/Criticism**

FVP 348 - Film Theories (3 credits)

FVP 370 - American Cinema (3 credits)

FVP 371 - History of Animation (3 credits)

FVP 372 - History of Documentary Film (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

FVP 373 - Issues of Representation (3 credits)

FVP 374 - Experimental Film and Video (3 credits)

FVP 375 - World Cinema (3 credits)

FVP 376 - Latin American Cinema (3 credits)

### **Internship or Thesis**

Requires one to six credits.

FVP 490 - Internship (1 to 6 credits)

FVP 498 - Senior Thesis/Project (1 to 6 credits)

### **Capstone**

All students majoring in film and video production must take FVP 495 (Capstone) during their senior year. The Capstone is a culminating course in which students demonstrate their conceptual understanding and creative abilities as they relate to film and media arts.

FVP 495 - Issues in Film and Media Arts (3 credits)

### **Visual and Media Arts Requirement**

Choose one course for three credits.

ART 150 - Foundations: 2-D Design (3 credits)

ART 151 - Foundations: 3-D Design (3 credits)

ART 152 - Foundations: Color and Design (3 credits)

ART 153 - Foundations: Making and Meaning in Art and Design (3 credits)

ART 155 - Foundations: Introduction to Drawing I (3 credits)

ART 209 - Graphic Design Basics (3 credits)

ART 245 - Introduction to Jewelry and Metalsmithing (3 credits)

ART 260 - Introduction to Painting (3 credits)

ART 265 - Introduction to Printmaking (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

ART 270 - Introduction to Sculpture (3 credits)

ART 271 - Digital 3-D Modeling and Design (3 credits)

ART 275 - Introduction to Ceramics (3 credits)

PHO 171 - Photography I (4 credits)

## Finance

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog at [gvsu.edu/seidman](http://gvsu.edu/seidman).

**Website:** [gvsu.edu/finance](http://gvsu.edu/finance)

The finance program provides students with an understanding of financial definitions, concepts, relationships, and strategies involving individuals, financial institutions, and non-financial business activities. This 19 credit hours program is designed to provide fundamental knowledge for careers in banking, financial management, investments, portfolio management, and financial planning. It recognizes that finance is becoming an increasingly complex and critical area in the overall management and success of all types of organizations, institutions, business and others, and for individuals as well.

### Career Opportunities

Generally, 80 to 90 percent of finance graduates report finding jobs directly related to their major, giving them one of the highest placement rates among new Grand Valley State University graduates. Graduates obtain careers in business and personal finance, investments, banking, insurance, real estate, government, and international financial management. You may become a financial analyst, credit analyst, commercial lender, bank branch manager, mutual fund/pensions manager, project finance manager, cash manager, capital budgeting manager, or financial planner.

Seidman Investment Portfolio Organization (IPO), a student business organization, provides many opportunities to explore different avenues of finance. Students who participate in IPO will gain valuable investment experience by helping to manage a \$120,000 stock portfolio.

## Bachelor of Business Administration in Finance

### Requirements for the B.B.A.

#### Core Courses

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)  
**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course (not ECO 490) (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Three upper-division business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Electives Courses**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

### **Requirements for a Major in Finance**

#### **Business Core**

FIN 321 - Investments (3 credits)

FIN 322 - Intermediate Managerial Finance (3 credits)

FIN 422 - Advanced Managerial Finance (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

#### **Additional Courses**

Include three additional finance courses at the upper level (at least one at the 400-level) that is not an internship.

Note: Some financial institutions require a minimum of 12 credits of accounting for students who plan to seek positions as credit analysts.

## **Frederik Meijer Honors College**

**Website:** [gvsu.edu/honors](http://gvsu.edu/honors)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Mission**

The mission of the Frederik Meijer Honors College is to inspire and empower motivated students to be intellectually curious lifelong learners who make positive contributions to their local and global communities, and serve as capable leaders and active global citizens.

## **Program Information**

The Frederik Meijer Honors College is an alternative general education program for students who desire to challenge themselves academically. The focus of the college is to bridge the gaps between traditional academic disciplines and allow students a chance to see the impact each discipline has on the others.

To fulfill this goal, many of our classes are interdisciplinary and team-taught while utilizing smaller class sizes to elicit greater discussion. We understand that sometimes the moments of the greatest learning are unplanned. These smaller classes, coupled with the fact that many professors hold office hours nearby, foster a deeper personal connection between students and professors. Another feature of our curriculum is an active schedule of cocurricular activities, both on campus and off.

The greater student-faculty interaction, as well as classes specially designed to foster advanced writing and speaking skills, critical thinking, and analysis, prepare students to be competitive for graduate and professional programs. Our students develop high levels of proficiency in research, writing, critical thinking, synthesizing material from multiple disciplines, and applying critical skills to primary sources. Because of these advanced skills, honors students have more opportunities to participate in and present research as undergraduates at the Grand Valley State University Student Scholars Day, regional honors conferences, the National Collegiate Honors Council annual meeting, and other professional meetings.

The Meijer Honors College encourages its students to engage in extracurricular activities to develop leadership skills and an appreciation of the richness and diversity of university life. Honors students frequently engage in service and volunteer projects at the university or in the community. They also have unique cultural experiences and travel opportunities such as subsidized museum visits and faculty-led trips to Chicago, Detroit, and other cities. There are annual summer service-learning programs to Ghana, Haiti, and Israel, and students are also encouraged to take advantage of other study abroad opportunities offered by the university.

Completion of the Meijer Honors College program should not be confused with "Graduation with Honors," which is determined strictly by final grade point average. The Meijer Honors College requires not only a high grade point average, but also successful completion of a special series of challenging courses. Completion of all Meijer Honors College requirements results in the "Meijer Honors College Graduate" designation on both the baccalaureate diploma and the college transcript. Graduates are eligible to wear a special stole and medallion at Commencement.

## **Accreditation**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

There is no accrediting body for honors, though the National Collegiate Honors Council sets guidelines and offers resources for honors programs. Grand Valley is an active member of the National Collegiate Honors Council.

## **Admission**

Applicants must first be accepted to GVSU before applying to the Meijer Honors College. We employ a holistic application process, which means that we consider the whole student, not just static indicators. In the application we look for demonstrations of strong academic motivation and ability to achieve on a high level. The application asks students to show these through completing a self-assessment, listing academic and leadership accomplishments, writing a strong essay, and submitting a significant analytical or creative paper from high school. Our normal expectation of high school applicants entering college for the first time is a 3.5 high school GPA and an ACT score of 28 or an SAT score of 1300. These are not firm requirements, however.

The Meijer Honors College also welcomes applications from students transferring from another college or university or from within GVSU. Our normal expectation is that transfer students will have a 3.5 college GPA. The application form is available online at [gvsu.edu/honors](http://gvsu.edu/honors).

## **Academic Standing**

To attain the Meijer Honors College designation, students must graduate with an overall grade point average of 3.2 or above. Students below 3.2 may complete the honors curriculum in order to satisfy their university general education requirements, but they will not earn the honors designation. Honors courses may be repeated only with the consent of both the director and the faculty member involved.

Students may voluntarily withdraw from honors at any time but will be responsible for completing the regular General Education Program if they do so. Meijer Honors College advisors are available to assist students transitioning out of the program. Likewise, students may apply to transfer into honors from the regular General Education Program, or from another college or university, and honors advisors are available to help with the transition.

## **Learning and Living Community**

One of the hallmarks of the Meijer Honors College is its rich learning and living community. For this reason, honors students, especially first-year students, are encouraged to live in one of the two honors housing centers, so that they strengthen the bonds of community and reinforce each other's commitment to academic excellence.

**The Glenn A. Niemeyer Learning and Living Center** is a state-of-the-art residential and academic center with two- and four-bedroom apartments, lounges, study areas, and a computer lab. Most honors classrooms are also in the building.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**The Holton-Hooker Learning and Living Center** is a residential and academic center which provides optimal housing for first-year honors students because it builds rich and deep community.

## **Frederik Meijer Honors College Requirements**

To graduate from the Meijer Honors College a student must satisfy the following course requirements, which also fulfill all general education requirements of the university.

Satisfaction of Grand Valley general education requirements through completion of the Meijer Honors College curriculum does not add any additional coursework to a student's program. In fact, it often results in a reduction of the number of credits required. Honors students should meet regularly with their major advisors as well as with a Meijer Honors College advisor.

### **Suggested Order of Coursework**

#### **Year One**

HNR 151 - First Year Interdisciplinary Sequence 1 (3 credits)

HNR 152 - First Year Interdisciplinary Sequence 2 (3 credits)

HNR 153 - First Year Interdisciplinary Sequence 3 (3 credits)

HNR 154 - First-Year Interdisciplinary Sequence 4 (3 credits)

Except in extraordinary circumstances, this sequence of courses should be taken in the first year, as it offers guidance to students in making a transition from high school to university work.

#### **Year Two**

HNR 200 - Campus/Community Engagement (3 credits)

HNR 201 - Live. Learn. Lead. (3 credits)

HNR 250 - Project-Based Learning (3 credits) **OR** HNR 251 - Project-Based Learning/QL (3 credits)

HNR 200 is offered as a variable-credit course (one, two, or three credits). All students must complete a total of three credits.

Some non-HNR courses may substitute for HNR 200 and HNR 250/HNR 251. Students should consult with a Meijer Honors College advisor about possibilities.

#### **Year Three**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HNR 350 - Integrative Seminar (3 credits) **OR** HNR 351 - Honors Integrative Seminar/QL (3 credits)

HNR 251 and HNR 351 are identical to HNR 250 and HNR 350 with an additional emphasis on quantitative modes of inquiry. All honors students must take one -50 course (HNR 250 or HNR 350) and one -51 course (HNR 251 or HNR 351).

## **Year Four**

HNR 401 - Senior Project Proposal (1 credit)

HNR 499 - Honors Senior Project (1 to 4 credits)

# **French**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/mll](http://gvsu.edu/mll)

French is a language spoken natively on all continents by over 160 million speakers and as a second language by millions more. French is in fact the most commonly studied second language in the world. It remains therefore one of the major languages of diplomacy worldwide. The study of French encompasses both a study of the language and the investigation of the cultures/literatures wherever French is spoken. French and Francophone culture is vibrant: French is a language of the arts and literature, of technology, of social and political institutions that promote freedom of thought and expression as well as multiculturalism. Study of the French language prepares students for multicultural career settings in the United States and abroad.

A French major and minor are available. Students majoring in French will choose one of three areas of emphasis: literature, linguistics or civilization. A French minor complements majors in many other fields, such as international relations, business, philosophy, English, education, history, the arts, and increasingly, the sciences. Students who plan to complete the French major or minor for secondary education certification must meet the additional requirements of the French Secondary Education program and College of Education and Community Innovation.

## **Participating Programs**

The French section of the Department of Modern Languages and Literatures works closely with the Padnos International Center to make available many opportunities for study abroad. We offer one faculty-led summer program in Nice, France, where students complete six credits in French language and French culture (FRE 385 and FRE 386). Semester-long programs are offered with several partner institutions in France: in Angers (the École Supérieure des sciences commerciales d'Angers and the Université Catholique), and in Grenoble (Groupe ESC). Many other

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

opportunities for study abroad are available. We also offer summer internships in France through EUSA, where students are placed in positions related to their career focus.

## **Bachelor of Arts in French**

### **Requirements**

Students majoring in French are required to complete 36 hours beyond the FRE 202 course, including the following.

### **Core Courses**

There are 12 credits required, including:

FRE 315 - French Conversation (3 credits)

FRE 316 - Advanced French Grammar (3 credits)

FRE 317 - Writing in French (3 credits)

FRE 318 - Introduction to French Literature (3 credits)

One course in each of the following areas: literature, linguistics civilization, and global competence as follows (12 credits)

Three elective courses at the 300- and 400-level, at least one of which must be at the 400-level (9 credits)

FRE 495 - Advanced Topics in French (Capstone) (3 credits)  
Capstone must be taken in the last year preceding graduation.

Students should take careful note of the prerequisites for their chosen courses.

Students seeking to pursue a graduate degree in French are advised to complete a minor or major in another foreign language. All secondary education majors and minors must complete a study abroad program (as follows).

### **Areas**

#### **Literature**

Students must choose one course from the following:

FRE 321 - Survey of French Literature I (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

FRE 322 - Survey of French Literature II (3 credits)

FRE 323 - Survey of French Literature III (3 credits)

### **Linguistics**

Students must choose one course from the following:

FRE 331 - French Phonetics (3 credits)

FRE 332 - Introduction to French Linguistics (3 credits)

### **AND EITHER**

FRE 341 - French History and Civilization (3 credits) **OR** FRE 342 - Contemporary French Culture and Society (3 credits)

### **Civilization**

Students must choose one course from the following:

FRE 341 - French History and Civilization (3 credits)

FRE 342 - Contemporary French Culture and Society (3 credits)

FRE 343 - Francophone Civilization (3 credits)

### **Global Competence**

Students must choose one course from the following:

FRE 351 - Business French (3 credits)

FRE 386 - French Culture Abroad (3 credits)

FRE 395 - Advanced Speaking Strategies and Skills (3 credits)

### **Suggested Order of Coursework for a Major in French**

Suggested order of coursework for students without prior language background:

FRE 101 - Beginning French I: Language and Culture (4 credits) followed by FRE 102 - Beginning French II: Language and Culture (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

FRE 201 - Intermediate French I: Language and Culture (4 credits) followed by FRE 202 - Intermediate French II: Language and Culture (4 credits)

Core curriculum:

FRE 315 - French Conversation (3 credits)

FRE 316 - Advanced French Grammar (3 credits)

FRE 317 - Writing in French (3 credits)

FRE 318 - Introduction to French Literature (3 credits)

One course in each of the following areas: literature, linguistics civilization, and global competence

Three electives (one at 400-level, not including FRE 495)

FRE 495 - Advanced Topics in French (Capstone) (3 credits)

Students entering GVSU with previous experience in French may start French courses at the 200- or 300-level, based on a placement exam, CLEP or AP credits, or consultation with an advisor from the French section.

Students who wish to review beginning material before taking 200-level courses can take FRE 150 - Intensive Elementary French.

## **Requirements for a Certificate in Secondary Education**

Students majoring in French secondary education are required to complete 39 hours beyond the FRE 202 course, including the following.

### **Core Courses**

There are 12 credits required, including:

FRE 315 - French Conversation (3 credits)

FRE 316 - Advanced French Grammar (3 credits)

FRE 317 - Writing in French (3 credits)

FRE 318 - Introduction to French Literature (3 credits)

**PLUS** the following:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

FRE 331 - French Phonetics (3 credits) **AND** FRE 332 - Introduction to French Linguistics (3 credits)

FRE 334 - Foreign Language Acquisition and Pedagogy (3 credits)

One course in each of the following areas: literature, civilization, global competence, see preceding information (9 credits).

Two elective courses, at least one of which must be at the 400-level, not including FRE 495 (6 credits).

FRE 495 - Advanced Topics in French (Capstone) (3 credits) Capstone must be taken in the last year preceding graduation.

### **Oral Proficiency Requirement**

It is a requirement of the Michigan Department of Education and Grand Valley's College of Education and Community Innovation that teacher candidates achieve the Advanced-Low level on the Oral Proficiency Interview (OPI) in French before student teaching. The OPI should be taken right away after returning from a study abroad program. Information sessions on the OPI and other requirements for certification are provided each semester.

### **Study Abroad Requirement**

Students with a French secondary education major or minor must study abroad in a French-speaking country for a minimum of one semester (12 to 15 credits in French at the 300- or 400-level) in a departmentally approved program. Courses taken during the study abroad semester normally fulfill some of the courses required for the major, but these need to be determined ahead of time by a French advisor. Advising is critical. Students interested in pursuing a teaching degree in French are urged to meet with a French advisor as early as possible in their program.

Students are advised to complete at least two courses (six credits) of French at the 300-level prior to studying abroad in order to maximize proficiency gains abroad.

Students who cannot meet the study abroad requirement will need to complete an alternative plan approved by a French advisor.

## **French Minor**

### **Requirements for a Minor in French**

Students choosing French as a minor program must complete a minimum of 21 hours of French beyond the FRE 201 course, including FRE 202 or its equivalent and the French core curriculum (FRE 315, FRE 316, FRE 317, and FRE 318). Six credits of electives beyond the core must be completed at the 300- or 400-level.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Required Courses**

FRE 202 - Intermediate French II: Language and Culture (4 credits)

Core courses (12 credits):

FRE 315 - French Conversation (3 credits)

FRE 316 - Advanced French Grammar (3 credits)

FRE 317 - Writing in French (3 credits)

FRE 318 - Introduction to French Literature (3 credits)

Plus the following:

Two electives at the 300- or 400-level. (6 credits)

## **Alternative Path**

Students who begin the program at the 300-level are required to complete 21 credits including the following.

Core courses (12 credits):

FRE 315 - French Conversation (3 credits)

FRE 316 - Advanced French Grammar (3 credits)

FRE 317 - Writing in French (3 credits)

FRE 318 - Introduction to French Literature (3 credits)

Three electives at the 300- or 400-level (6 credits)

## **Requirements for a French Secondary Education Minor**

Students choosing French as a secondary education minor must complete 24 hours of French beyond the FRE 202 course.

Note: FRE 202 does not count toward the secondary education minor.

Core courses (12 credits):

FRE 315 - French Conversation (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

FRE 316 - Advanced French Grammar (3 credits)

FRE 317 - Writing in French (3 credits)

FRE 318 - Introduction to French Literature (3 credits)

Plus the following:

FRE 332 - Introduction to French Linguistics (3 credits)

FRE 334 - Foreign Language Acquisition and Pedagogy (3 credits)

Two electives at the 300- or 400-level.

### **Study Abroad Requirement**

Students with a French secondary education major or minor must study abroad in a French-speaking country for a minimum of one semester (12 to 15 credits in French at the 300- or 400-level) in a departmentally approved program. Courses taken during the study abroad semester normally fulfill some of the courses required for the major, but these need to be determined ahead of time by a French advisor. Advising is critical. Students interested in pursuing a teaching degree in French are urged to meet with a French advisor as early as possible in their program. Students are advised to complete at least two courses (six credits) of French at the 300-level prior to studying abroad in order to maximize proficiency gains abroad. Students who cannot meet the study abroad requirement will need to complete an alternative plan approved by a French advisor.

### **Oral Proficiency Requirement**

It is a requirement of the Michigan Department of Education and the GVSU College of Education and Community Innovation that teacher candidates reach the Advanced-Low level on the Oral Proficiency Interview (OPI) in French before student teaching. The OPI should be taken right away after returning from a study abroad program. Information sessions on the OPI and other requirements for certification are provided each semester.

## **Geography and Sustainable Planning**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/geography](http://gvsu.edu/geography)

**Contact Information:** Phone: (616) 331-3065, fax: (616) 331-8635, and email: [gpydept@gvsu.edu](mailto:gpydept@gvsu.edu).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

**Professors:**

Elena Lioubimtseva. Jim Penn, Wanxiao Sun. Associate Professors: Jeroen Wagendorp, Gang Xu, Kin Ma. Assistant Professor: Chad Frederick. Adjunct Instructors: Jason Moore, Steven Stepek, Jonathan Wessell.

Geography and sustainable planning offers the following programs:

Bachelor of Arts and Bachelor of Science in geography, including the general geography major and four emphasis areas: geospatial technology, urban and regional planning, environment and global development, and climate change mitigation, adaptation and resiliency planning.

Geographic techniques (GIS and remote sensing) minor

Sustainable urban and regional planning minor

Geography education at the secondary level minor (teachable minor)

Geographic information systems technology undergraduate certificate

Sustainable urban and regional planning undergraduate certificate

The geography and sustainable planning curriculum at GVSU integrates the natural and social sciences and geospatial technologies and offers students strong analytical and problem-solving skills. Geography and sustainable planning areas offer a wide range of opportunities to people with various interests and talents focusing on finding real solutions to complex environmental, economic, and social problems and issues (such as food and water security, deforestation, urban congestion, economic growth, environmental justice, climate change, etc.). Students majoring in geography will develop strong analytical, research, civic engagement and communication skills and master sophisticated technologies such as Geographic Information Systems (GIS), remote sensing, Global Positioning Systems (GPS), climate and environmental modeling, digital image processing, and computer cartography. The department offers 40 different courses, including faculty-led international summer school in urban and regional planning in the Netherlands.

Faculty members are experts in sustainable development and global change, geospatial technologies (GIS, satellite remote sensing, and digital image processing), community conservation projects, sustainable urban and regional planning, environmental, cultural, and regional geography. Flexible interdisciplinary programs provide courses of study focused on geospatial technologies (computer cartography, GIS, satellite remote sensing, and digital image processing), urban and regional planning, natural resource use, and global and regional development. Due to the revolution in geospatial information technologies and spatial data analysis, geographers are very much in demand in the job market and in graduate school. Please consult the department's website information about employment opportunities, scholarships, and grants.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Degrees Offered**

B.A. and B.S. in geography

B.A. and B.S. in geography: geospatial technology emphasis

B.A. and B.S. in geography: urban and regional planning emphasis

B.A. and B.S. in geography: environment and global development

Three minors:

Geography education at the secondary level (teachable minor). A teachable major with elementary and secondary education is also offered as a social studies major with a geography emphasis.

Geospatial technology

Sustainable urban and regional planning

Three certificates:

Environmental remote sensing

Geographic information science (GIS) and technology

Sustainable urban and regional planning

Available to all majors at GVSU, certificate credit hours can be duplicated with a major or minor.

For more information about geography and planning degrees, please contact Professor Jim Penn at [pennji@gvsu.edu](mailto:pennji@gvsu.edu).

## **Participating Programs**

Geography and sustainable planning participates in the social studies major, which is designed for students seeking teacher certification in secondary or middle school social studies or in elementary education. The major includes a minimum of 42 credit hours in economics, geography, history, and political science. Students seeking teacher certification also complete an appropriate minor and the professional program offered by the College of Education and Community Innovation. The social studies major meets State of Michigan content standards for teacher preparation in social studies, which require at least six credit hours and two courses in each of the four disciplines and at least 18 credits and six courses in one of the four areas.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Honors Organizations**

Lambda Omega is GVSU's Chapter of the Gamma Theta Upsilon, the International Geography Honor Society. Gamma Theta Upsilon (GTU) is an international honor society in geography. Gamma Theta Upsilon was founded in 1928 and became a national organization in 1931. Members of GTU have met academic requirements and share a background and interest in geography. GTU chapter activities support geography knowledge and awareness.

GTU's goals:

To further professional interest in geography by affording a common organization for those interested in the field.

To strengthen student and professional training through academic experiences in addition to those of the classroom and laboratory.

To advance the status of geography as a cultural and practical discipline for study and investigation.

To encourage student research of high quality and to promote an outlet for publication.

To create and administer funds for furthering graduate study and/or research in the field of geography.

To encourage members to apply geographic knowledge and skills in service to humankind.

See: [gammathetaupsilon.org](http://gammathetaupsilon.org).

## **Bachelor of Arts or Bachelor of Science in Geography**

### **Requirements for a Major in Geography**

#### **Core Courses**

All geography majors, regardless of the area of emphasis, are required to complete the following core courses (12 credit hours):

GPY 100 - Physical and Environmental Geography (3 credits)

GPY 200 - Computer Cartography (3 credits)

GPY 220 - Cultural Geography (3 credits)

GPY 495 - Senior Thesis (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **B.A. or B.S. in General Geography Without an Emphasis**

Students pursuing the general geography degree, without an emphasis, are to select their elective courses in consultation with their academic advisors to acquire significant transdisciplinary breadth, including courses in geospatial technology, urban and regional planning, environmental geography, sustainability science, and regional and global human development.

This self-designed geography degree track includes at least six credit hours of the regional geography, selected from the following:

GPY 235 - Geography for a Changing World (3 credits)

GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)

GPY 350 - Geopolitics, Energy and Environment of Russia and Central Eurasia (3 credits)

GPY 351 - Geography of Africa (3 credits)

GPY 352 - Geography of Latin America (3 credits)

GPY 353 - Geography of the United States and Canada (3 credits)

GPY 354 - Geography and Globalization of Asia (3 credits)

GPY 356 - The Geography, Culture and Land Use Management of Europe (3 credits)

GPY 361 - People, Environment, and Development in the Amazon (3 credits)

GPY 381 - Study Abroad I (3 to 9 credits)

**AND** choose at least 15 credits from the following topical geography and planning courses:

GPY 101 - Sustainability and Place (1 credit)

GPY 209 - Introduction to Urban and Regional Planning (3 credits)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

GPY 310 - Land Use Planning (3 credits)

GPY 312 - Urban and Regional Environmental Planning (3 credits)

GPY 314 - Land Use and Planning Law (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 316 - Introduction to Transportation Planning (3 credits)

GPY 324 - Urbanization (3 credits)

GPY 335 - Globalization and Development (3 credits)

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

GPY 363 - World Forests and Their Use (3 credits)

GPY 365 - GIS for Economic and Business Decision-Making (3 credits)

GPY 370 - Introduction to Remote Sensing (3 credits)

GPY 380 - Special Topics in Geography (3 credits)

GPY 385 - GIS in Urban and Regional Analysis (3 credits)

GPY 399 - Independent Readings (1 to 3 credits)

GPY 407 - Advanced GIS (4 credits)

GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)

GPY 412 - Global Climate and Environmental Change (3 credits)

GPY 470 - Digital Image Processing (3 credits)

GPY 490 - Internship (1 to 9 credits)

GPY 499 - Independent Research (1 to 3 credits)

No more than six hours of GPY 399 and GPY 499 combined may count toward the major.

### **B.S. in Geography with an Emphasis in Climate Change Mitigation, Adaptation, and Resiliency Planning**

In addition to the geography major core courses (12 credits), students pursuing climate change mitigation, adaptation, and resiliency planning emphasis are required to take the following five courses pertaining to climate mitigation and adaptation planning:

GPY 101 - Sustainability and Place (1 credit)

GPY 209 - Introduction to Urban and Regional Planning (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 310 - Land Use Planning (3 credits)

GPY 412/ENS 412 - Global Climate and Environmental Change (3 credits)

NRM 140 - The Climatic Factor (4 credits)

**AND** choose at least nine credits from the following elective courses:

GPY 312 - Urban and Regional Environmental Planning (3 credits)

GPY 314 - Land Use and Planning Law (3 credits)

GPY 316 - Introduction to Transportation Planning (3 credits)

GPY 361 - People, Environment, and Development in the Amazon (3 credits)

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

GPY 363 - World Forests and Their Use (3 credits)

GPY 365 - GIS for Economic and Business Decision-Making (3 credits)

GPY 370 - Introduction to Remote Sensing (3 credits)

GPY 381 - Study Abroad I (3 to 9 credits)

GPY 385 - GIS in Urban and Regional Analysis (3 credits)

GPY 407 - Advanced GIS (4 credits)

GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)

GPY 470 - Digital Image Processing (3 credits)

### **B.A. or B.S. in Geography with an Emphasis in Environment and Global Development**

In addition to the geography major core courses (12 credits), as previously specified, students pursuing a B.A. or B.S. in geography with an emphasis in environment and global development are required to take the following fundamental courses on global development and environmental changes (9 credits):

GPY 235 - Geography for a Changing World (3 credits)

GPY 335 - Globalization and Development (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 412 - Global Climate and Environmental Change (3 credits)

**AND** choose at least six credits of the following environmental courses on environmental sustainability:

GPY 312 - Urban and Regional Environmental Planning (3 credits)

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

GPY 363 - World Forests and Their Use (3 credits)

**AND** choose at least four credits from the following courses on the regional patterns of environment and development:

GPY 101 - Sustainability and Place (1 credit)

GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)

GPY 350 - Geopolitics, Energy and Environment of Russia and Central Eurasia (3 credits)

GPY 351 - Geography of Africa (3 credits)

GPY 352 - Geography of Latin America (3 credits)

GPY 353 - Geography of the United States and Canada (3 credits)

GPY 354 - Geography and Globalization of Asia (3 credits)

GPY 356 - The Geography, Culture and Land Use Management of Europe (3 credits)

GPY 361 - People, Environment, and Development in the Amazon (3 credits)

**AND** choose at least three nonduplicated credits of any upper-level (300- or 400-level) geography and sustainable planning courses. These may include independent studies, internships, and study abroad courses.

### **B.A. or B.S. in Geography with an Emphasis in Geospatial Technology**

In addition to the geography major core courses (12 credits), as previously specified, students pursuing a B.A. or B.S. in geography with an emphasis in geospatial technology are required to take the following GIS and remote sensing courses (13 credits):

GPY 307 - Introduction to Geographic Information Systems (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 370 - Introduction to Remote Sensing (3 credits)

GPY 407 - Advanced GIS (4 credits)

GPY 470 - Digital Image Processing (3 credits)

**AND** choose one of the following GIS applications courses:

GPY 365 - GIS for Economic and Business Decision-Making (3 credits)

GPY 385 - GIS in Urban and Regional Analysis (3 credits)

**AND** choose at least six nonduplicated credits of any 300- or 400-level geography and sustainable planning courses. These may include independent studies, internships, and study abroad courses.

### **B.A. or B.S. in Geography with an Emphasis in Sustainable Urban and Regional Planning**

In addition to the geography major core courses (12 credits), as previously specified, students pursuing a B.A. or B.S. in geography with an emphasis in urban and regional planning are required to take the following fundamental urban and regional planning courses (6 credits):

GPY 111 - Cities, Towns, and Villages (3 credits)

GPY 209 - Introduction to Urban and Regional Planning (3 credits)

GPY 324 - Urbanization (3 credits)

GPY 310 - Land Use Planning (3 credits)

And take at least six credits of the following planning courses:

GPY 312 - Urban and Regional Environmental Planning (3 credits)

GPY 314 - Land Use and Planning Law (3 credits)

GPY 316 - Introduction to Transportation Planning (3 credits)

GPY 385 - GIS in Urban and Regional Analysis (3 credits)

And take at least four credits from the following courses related to sustainable planning:

GPY 101 - Sustainability and Place (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)

GPY 356 - The Geography, Culture and Land Use Management of Europe (3 credits)

GPY 381 - Study Abroad I (3 to 9 credits)

GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)

And take at least three nonduplicated credits of any upper-level (300- or 400-level) geography and sustainable planning courses. These may include independent studies, internships, and study abroad courses.

### **General Education**

Please note that all GVSU students must complete the university general education requirements. Some geography courses count for one or more general education categories (Foundations, Cultures, and Issues). Please see your advisor and GVSU General Education Program requirements if you have any questions about course overlaps.

All GVSU students are required to fulfill WRT 150 - Strategies in Writing (or WRT 120 - Strategies in Writing - Stretch I and WRT 130 - Strategies in Writing - Stretch II) and two Supplemental Writing Skills (SWS) classes with a grade not lower than C before graduation; GPY 495 - Senior Thesis is an SWS course.

### **B.A. or B.S. Degree Requirements**

#### **B.A. Degree Requirements**

Students pursuing the B.A. degree requirements must satisfy the third semester proficiency (through the 201-level) in one of the classical or modern languages offered by the Classics Department or the Department of Modern Languages and Literatures.

#### **B.S. Degree Requirements**

Students pursuing the B.S. degree requirements must complete the following courses:

STA 215 - Introductory Applied Statistics (3 credits)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

**AND** choose one of the following courses:

GPY 407 - Advanced GIS (4 credits)

GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 412 - Global Climate and Environmental Change (3 credits)

GPY 470 - Digital Image Processing (3 credits)

## **Suggested Order of Coursework for a Major in Geography**

Suggested sample curriculum for a major in geography (this is an example only, please see your advisor and follow the catalog to develop coursework appropriate for your interests and/or area of emphasis).

### **Year One**

#### Fall Semester

GPY 100 - Physical and Environmental Geography (3 credits)

GPY 220 - Cultural Geography (3 credits)

WRT 150 - Strategies in Writing (4 credits)

General education Foundations

#### Winter Semester

GPY 200 - Computer Cartography (3 credits)

GPY 235 - Geography for a Changing World (3 credits)

MTH 110 - Algebra (4 credits)

General education Foundations

### **Year Two**

#### Fall Semester

GPY 209 - Introduction to Urban and Regional Planning (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

General education SWS

General education Foundations

#### Winter Semester

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 307 - Introduction to Geographic Information Systems (3 credits)

GPY 310 - Land Use Planning (3 credits)

GPY 354 - Geography and Globalization of Asia (3 credits)

General education Cultures

### **Year Three**

#### Fall Semester

GPY 324 - Urbanization (3 credits)

GPY 350 - Geopolitics, Energy and Environment of Russia and Central Eurasia (3 credits)

GPY 370 - Introduction to Remote Sensing (3 credits)

General education Issues

#### Winter Semester

GPY 312 - Urban and Regional Environmental Planning (3 credits)

GPY 356 - The Geography, Culture and Land Use Management of Europe (3 credits)

GPY 407 - Advanced GIS (4 credits)

General education Issues (second course)

### **Year Four**

#### Fall Semester

GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

GPY 363 - World Forests and Their Use (3 credits)

GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)

#### Winter Semester

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 412 - Global Climate and Environmental Change (3 credits)

GPY 470 - Digital Image Processing (3 credits)

GPY 490 - Internship (1 to 9 credits)

GPY 495 - Senior Thesis (3 credits)

## **Environmental Remote Sensing (RS) Undergraduate Certificate**

The environmental remote sensing (RS) certification program is housed within the Department of Geography and Sustainable Planning ([gvsu.edu/geography](http://gvsu.edu/geography)). The program provides cutting-edge skills in remote sensing science, digital image processing, and big data visualization. Particular emphasis is placed on applications of remote sensing technology in environmental planning, sustainable development, climate change adaptation, urban resiliency planning, and natural resource management.

The environmental remote sensing certificate is designed for GVSU students who want to add geospatial technology skills to their major. Students learn practical applications of geospatial technologies and develop working competency in remote sensing and GIS software, such as ERDAS IMAGINE, TerrSet (IDRISI), eCognition, and ESRI ArcGIS. Open for all majors. For more information, visit our website at [gvsu.edu/geography/rs-certificate](http://gvsu.edu/geography/rs-certificate).

**Program Coordinator:** Professor Gang Xu, Ph.D., Department of Geography and Sustainable Planning.

### **Reasons to Study Remote Sensing Technology**

#### **Enter an Emerging Field**

Geospatial technology is one of the most important emerging fields in the United States according to the U.S. Department of Labor.

#### **Ensure Marketability**

Remote sensing competency offers top jobs in a wide variety of sectors.

#### **Gain a Competitive Edge**

Studying geospatial technologies will give students an edge over peers in the current job market.

#### **Benefit from Practical Application**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students will learn practical skills that will benefit their future careers.

### **Enjoy Flexibility**

Students can attend full- or part-time. Any major combined with this certificate creates a new hybrid skillset.

### **Value its Affordability**

Students can add an extra credential on their official transcripts with little to no additional cost.

Our alumni have found rewarding careers in positions such as environmental specialists, transportation analysts, urban planners, business GIS analysts, regional intelligence analysts, lead digital mappers, and county GIS directors.

## **Requirements**

Students will complete a minimum of 12 credit hours to receive certification in environmental remote sensing. Up to six credits can be transferred from another institution (subject to course content approval).

### **Required Courses**

Six credits are required, including:

GPY 370 - Introduction to Remote Sensing (3 credits)

GPY 470 - Digital Image Processing (3 credits)

### **Elective Courses**

Take any two of the following:

CIS 160 - Learn to Code in Python (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 233 - Concepts of Database Systems (3 credits)

GEO 425 - GIS Applications in Geology (3 credits)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

GPY 365 - GIS for Economic and Business Decision-Making (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 385 - GIS in Urban and Regional Analysis (3 credits)

GPY 407 - Advanced GIS (4 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

NRM 395 - GIS Applications in Resource Management (3 credits)

NRM 450 - Applied Spatial Analysis of Natural Resources (3 credits)

## **Topics**

How remote sensing works

Digital image processing techniques

Satellite image interpretation

Land use/land cover classification

Big data visualization

Environmental, planning, and sustainability applications

## **Geographic Information Science (GIS) and Technology Undergraduate Certificate**

The GIS technology certification program is housed with the department of Geography and Sustainable Planning ([gvsu.edu/geography](http://gvsu.edu/geography)). Geographic Information Systems (GIS) are used to map, model, query, synthesize, and analyze big spatial data according to their location. GIS benefits organizations in almost every industry. There is growing interest in the economic, environmental, and strategic planning value of GIS.

The GIS technology certificate is designed for GVSU students who want to add geospatial technology skills to their major. Students learn practical applications of geospatial technologies and develop a working competency in GIS software, such as ESRI ArcGIS, Business Analyst, and Edras Imagine. Open for all majors. For more information, visit our website at [gvsu.edu/geography/gis-certificate-47.htm](http://gvsu.edu/geography/gis-certificate-47.htm).

Program coordinator: Professor Gang Xu, Ph.D., Department of Geography and Sustainable Planning.

## **Reasons to Study GIS Technology**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

An emerging field: Geospatial technology is one of the most important emerging fields in the United States according to the U.S. Department of Labor.

Marketability: GIS competency offers top jobs in a wide variety of sectors.

A competitive edge: Studying these technologies will give students an edge over peers in the current job market.

Practical application: Students will learn practical skills that will benefit their future careers.

Flexibility: Students can attend full or part time. Any major combined with this certificate creates a new hybrid skill set.

Affordability: An extra credential on your official transcript with little to no additional cost.

Our alumni have found rewarding careers in positions such as environmental specialists, transportation analysts, urban planners, business GIS analysts, regional intelligence analysts, lead digital mappers, and county GIS directors.

## **Coursework**

Students will complete a minimum of 13 credit hours to receive certification in GIS. Up to six credits can be transferred from another institution (subject to course content approval).

### **Required Courses**

Students must complete the following 10 credits:

GPY 200 - Computer Cartography (3 credits)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

GPY 407 - Advanced GIS (4 credits)

### **Electives Courses**

Choose one of the following:

CIS 160 - Learn to Code in Python (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 233 - Concepts of Database Systems (3 credits)

GEO 425 - GIS Applications in Geology (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 365 - GIS for Economic and Business Decision-Making (3 credits)

GPY 370 - Introduction to Remote Sensing (3 credits)

GPY 385 - GIS in Urban and Regional Analysis (3 credits)

GPY 470 - Digital Image Processing (3 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

NRM 395 - GIS Applications in Resource Management (3 credits)

NRM 450 - Applied Spatial Analysis of Natural Resources (3 credits)

Natural resources management (NRM) majors pursuing the NRM resource analysis methods emphasis may substitute the following for GPY 200:

NRM 250 - Resource Measurement and Maps (3 credits)

NRM 395 - GIS Applications in Resource Management (3 credits)

NRM 450 - Applied Spatial Analysis of Natural Resources (3 credits)

## **Topics**

GIS science and technology

Remote sensing (satellite image interpretation)

Advanced GIS

Environmental, social, and business applications of GIS

Spatial analysis techniques

Computer mapping

## **Geography-Teacher Certification Minor**

Expertise in geography is important to all elementary and secondary education students. This minor provides education students with a foundation in human and physical geography, a strong understanding of concepts and principles of global and regional geography, a deep content understanding of regions of the world, and a basic competency in the use of geographic techniques.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Requirements for a Minor in Geography - Teacher Certification**

Students seeking certification to teach geography at the secondary level are required to complete:

Three core courses

Four regional studies courses

One methods course from the list of electives

Those students pursuing a GPY teachable minor must complete:

SST 310 - Teaching Social Studies: Secondary (3 credits)

### **Core Courses**

GPY 100 - Physical and Environmental Geography (3 credits)

GPY 220 - Cultural Geography (3 credits)

SST 310 - Teaching Social Studies: Secondary (3 credits)

### **Regional Studies Courses**

Required courses include:

GPY 235 - Geography for a Changing World (3 credits)

GPY 353 - Geography of the United States and Canada (3 credits)

GPY 345 - The Geography and Land Use Management of Michigan and the Great Lakes Area (3 credits)

**AND** one course from the following:

GPY 350 - Geopolitics, Energy and Environment of Russia and Central Eurasia (3 credits)

GPY 351 - Geography of Africa (3 credits)

GPY 352 - Geography of Latin America (3 credits)

GPY 354 - Geography and Globalization of Asia (3 credits)

GPY 356 - The Geography, Culture and Land Use Management of Europe (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 362 - Farmers, Crops, and Our Challenging Agricultural World (3 credits)

### **Methods Courses**

Choose one:

GPY 200 - Computer Cartography (3 credits)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

GPY 209 - Introduction to Urban and Regional Planning (3 credits)

GPY 370 - Introduction to Remote Sensing (3 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

## **Geospatial Technology Minor**

Provide core skills in GIS, digital image processing (remote sensing), and computer cartography. Emphasize environmental, business, urban planning, and community development applications. Prepare students for jobs in the private and the public sectors as well as for graduate school.

### **Requirements for a Minor in Geospatial Technology**

Complete three core courses and any four of the electives listed as follows.

#### **Required Courses**

Nine credits are required, including:

GPY 200 - Computer Cartography (3 credits)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

GPY 370 - Introduction to Remote Sensing (3 credits)

#### **Electives Courses**

Take any four of the following:

CIS 160 - Learn to Code in Python (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 233 - Concepts of Database Systems (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 260 - Application Development in Visual Basic (4 credits)

GEO 425 - GIS Applications in Geology (3 credits)

GPY 365 - GIS for Economic and Business Decision-Making (3 credits)

GPY 385 - GIS in Urban and Regional Analysis (3 credits)

GPY 407 - Advanced GIS (4 credits)

GPY 470 - Digital Image Processing (3 credits)

NRM 250 - Resource Measurement and Maps (3 credits)

NRM 395 - GIS Applications in Resource Management (3 credits)

NRM 450 - Applied Spatial Analysis of Natural Resources (3 credits)

## **Sustainable Urban and Regional Planning Minor**

The sustainable urban and regional planning minor is housed within the department of Geography and Sustainable Planning ([gvsu.edu/geography](http://gvsu.edu/geography)) and focuses on optimal and sustainable land use and development in urban, suburban, and rural areas in the U.S. and worldwide. Planners create better living environments for all by designing smart and integrated land use systems. Our graduates find employment in public, private, and governmental institutions.

### **Reasons to Study Sustainable Urban and Regional Planning**

The minor is a valuable addition to a student's transcript, demonstrating their concentration in the planning field.

Sustainable urban and regional planning students

- gain an understanding of planning terms and concepts, which equips them to enter conversations about local planning and zoning, and qualifies them for internships and jobs;

- build a strong foundation in the history and theory of planning and a depth of understanding that informs their analyses of local issues;

- participate in regional and state planning conferences and are exposed to frequent guest speakers, giving them contact with real-world practitioners in the field of planning; and

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

connect with a broad community of alumni in planning related fields, people our undergraduates come to know on a first name basis, offering our graduates a ready-made network for career advice.

Concepts and skills in sustainable urban planning are applicable to a variety of specialties:

Sustainable urban and regional planning

Land-use planning

Urban development and housing

Transportation planning

Environmental planning

Environmental policy and planning law

## **Requirements**

Students who minor in sustainable urban and regional planning are required to complete a minimum of 24 credit hours from the courses that follow. These 24 hours or eight courses are to be completed in two separate groupings. Group one consists of a nine-credit-hour core: GPY 111, GPY/PNH 209 and GPY 310/PNH 313. Group two consists of 15 hours or five courses. Students are encouraged to meet with their advisor to optimize course selection.

### **Group One**

GPY 111 - Cities, Towns, and Villages (3 credits)

GPY/PNH 209 - Introduction to Urban and Regional Planning (3 credits)

GPY 310/PNH 313 - Land Use Planning (3 credits)

### **Group Two**

Select five courses or 15 credit hours

GPY 307 - Introduction to Geographic Information Systems (3 credits)

PNH 307 - Local Politics and Administration (3 credits)

GPY 312 - Urban and Regional Environmental Planning (3 credits)

GPY 314 - Land Use and Planning Law (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 316 - Introduction to Transportation Planning (3 credits)

GPY/PNH 324 - Urbanization (3 credits)

GPY/MKT 365 - GIS for Economic and Business Decision-Making (3 credits)

GPY 381/PA 380 - Study Abroad (Summer II in the Netherlands) Credits: 3

GPY/ECO 385 - GIS in Urban and Regional Analysis (3 credits)

GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)

GPY/ENS 412 - Global Climate and Environmental Change (3 credits)

PNH 495 - Community Analysis (Capstone) (3 credits)

GPY 496 - Field Research Project (3 credits)

## **Undergraduate Certificate in Sustainable Urban and Regional Planning**

The certification program in sustainable urban and regional planning is housed within the Department of Geography and Sustainable Planning ([gvsu.edu/geography](http://gvsu.edu/geography)). This applied program offers practical tools and strategies to students interested in smart urban development, land-use planning, transportation, green architecture and design, and applications of geographic techniques in planning and urban development. Open for all majors.

Program coordinator: Professor Jeroen Wagendorp, Ph.D., Department of Geography and Sustainable Planning.

### **Reasons to Study Sustainable Urban and Regional Planning**

The certificate in sustainable urban and regional planning gives students additional expertise and opportunities for applying geographic understandings and skills in the wider community.

Students who enter the certificate program

- gain an understanding of planning terms and concepts, which equips them to enter conversation about local planning and zoning, and qualifies them for internship and jobs;

- build a strong foundation in the history and theory of planning and a depth of understanding that informs their analyses of local issues;

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

participate in regional and state planning conferences and are exposed to frequent guest speakers, giving them contact with real-world practitioners in the field of planning; and

connect with a broad community of alumni in planning related fields, people our undergraduates come to know on a first name basis, offering our graduates a ready-made network for career advice.

Students who have graduated from GVSU with the sustainable urban and regional planning certificate have found employment in economic development, housing, real estate, transportation planning, watershed management, land-use planning, and environmental planning.

### **Requirements for a Certificate in Sustainable Urban and Regional Planning**

Students who seek a certificate in sustainable urban and regional planning are required to complete GPY 111 and GPY/PNH 209, courses that should be taken first and in order. GPY 209 is followed by three or more courses for a minimum of nine credit hours from the electives listed as follows.

#### **Required Courses**

GPY 111 - Cities, Towns, and Villages (3 credits)

GPY/PNH 209 - Introduction to Urban and Regional Planning (3 credits)

#### **Elective Courses**

GPY 101 - Sustainability and Place (1 credit)

GPY 310/PNH 313 - Land Use Planning (3 credits)

GPY 312 - Urban and Regional Environmental Planning (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GPY 316 - Introduction to Transportation Planning (3 credits)

GPY/PNH 324 - Urbanization (3 credits)

GPY/MKT 365 - GIS for Economic and Business Decision-Making (3 credits)

GPY 381/PNH 380 - Special Topics in Public and Nonprofit Administration (1 to 3 credits)

GPY/ECO 385 - GIS in Urban and Regional Analysis (3 credits)

GPY 410 - Landscape Analysis and Green Infrastructure (3 credits)

GPY 496 - Field Research Project (3 credits)

## Geology

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/geology](http://gvsu.edu/geology)

Geology is the study of the earth its composition, processes, and history. The great outdoors is the laboratory of geology, where one may study landforms, rock and mineral deposits, fossils, folds, faults, glaciers, groundwater, and the processes that have shaped the earth and that affect its inhabitants. Geology also provides context for understanding Earth's energy, water, and mineral resources. A relatively young science, geology continues on the threshold of new discovery as geoscientists explore the frontiers of the continents, oceans, atmosphere, and planets. The geology department offers B.S. degrees in geology, geology-chemistry, and earth science, and minors in geology and earth science. The B.S. degrees in geology and geology-chemistry prepare students for graduate study in the geological sciences and work in industry. As terminal degrees, they can lead to a variety of careers, including environmental technology, mineral and energy resource exploration, science writing, and business. The B.S. degree in earth science prepares students to teach in the secondary grades. Michigan teacher certification also requires completion of the College of Education and Community Innovation professional program and a minor area of study. The minor program in geology is designed to provide a supportive second discipline for students in a variety of majors, including other sciences or engineering, anthropology, business, or law. The earth science minor is for students seeking certification as secondary school teachers, and is also a suitable minor for such majors as anthropology, geography, and natural resources management.

## Bachelor of Science in Earth Science

For additional information about opportunities your college offers, please refer to The College of Liberal Arts and Sciences in this catalog.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Requirements for a Major in Earth Science**

The earth science B.S. is designed for students who want to pursue a career in secondary education. The major can also serve as a pathway to other careers. Michigan teacher certification requires completion of the College of Education and Community Innovation professional program and a minor area of study. The geology department strongly recommends students in this major complete a biology minor. Earth science majors with a biology minor can earn a science (DI) endorsement with an additional nine credits coursework. Students are encouraged to visit their advisor to design the best possible curricular track. A minimum of 2.7 GPA in the major is required for recommendation for teacher certification. Completion of a major in earth science requires the following.

### **1. Degree Requirements**

General university degree requirements must be met as identified in the General Academic Regulations section of the Grand Valley State University Graduate and Undergraduate Catalog.

### **2. Geology Courses**

Includes 33 semester credit hours of geology courses with a minimum overall GPA of 2.0.

GEO 111 - Exploring the Earth (4 credits)

GEO 112 - Earth History (4 credits)

GEO 175 - Research Tools for Geosciences (1 credit)

GEO 203 - Weather and Climate for Pre-Service Teachers (3 credits)

GEO 214 - Solid Earth Materials and Systems (4 credits)

GEO 220 - Earth Surface Materials and Systems (4 credits)

GEO 320 - Geomorphology (4 credits)

GEO 430 - Oceanography (3 credits)

GEO 485 - Geology Research and Writing Seminar (1 credit)

GEO 486 - Geology Reading Seminar (1 credit)

### **3. Cognate Science Courses**

Includes 23 semester credit hours of science cognate courses with a minimum overall GPA of C (2.0).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 115 - Principles of Chemistry I (4 credits)

MTH 122 - College Algebra (3 credits)

MTH 123 - Trigonometry (3 credits)

PHY 105 - Descriptive Astronomy (3 credits)

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

### **Suggested Order of Coursework**

The CLAS Academic Advising Center has earth science curriculum guides for the major.

## **Bachelor of Science in Geology**

### **Requirements**

Completion of a B.S. in geology requires the following:

#### **Degree Requirements**

Students must complete the general education requirements as identified in the General Academic Regulations section of the Grand Valley State University Undergraduate and Graduate Catalog.

#### **Core Courses**

Requires 46 to 47 semester hours of geology courses with a minimum overall GPA of C (2.0).

#### **Core Geology Courses** (33 semester hours):

GEO 111 - Exploring the Earth (4 credits)

GEO 112 - Earth History (4 credits)

GEO 175 - Research Tools for Geosciences (1 credit)

GEO 214 - Solid Earth Materials and Systems (4 credits)

GEO 220 - Earth Surface Materials and Systems (4 credits)

GEO 311 - Structural Geology (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GEO 312 - Sedimentation-Stratigraphy (4 credits)

GEO 485 - Geology Research and Writing Seminar (1 credit)

GEO 486 - Geology Reading Seminar (1 credit)

Geology field requirement (6 credits)

Students must complete one of the following that include a summer field camp in geology (taught by another college or university) that is approved as GEO 493 (3 to 6 credits).

GEO 315 - Geological Field Methods (3 credits) and an approved field camp: GEO 493 - Applied Field Geology (1 to 8 credits)

**OR** an approved field camp: GEO 493 - Applied Field Geology (1 to 8 credits)

### **Emphases**

Requires 13 to 14 semester hours from either the B.S. in geology or the B.S. in geology - environmental emphasis.

### **B.S. in Geology Degree Requirements**

GEO 314 - Petrography: Mineral and Rock Analysis (2 credits)

**AND** one of the following (two or three credits):

GEO 414 - Advanced Petrology (2 credits)

GEO 411 - Global Tectonics (3 credits)

**PLUS** the following (at least nine credits):

GEO electives: Three Geology courses at the 300- or 400-level.

Geology Issues courses cannot count toward the geology major.

### **B.S. in Geology with an Environmental Emphasis Degree Requirements**

GEO 320 - Geomorphology (4 credits)

GEO 440 - Geohydrology (3 credits)

**AND** choose one from:

GEO 420 - Glacial and Quaternary Geology (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GEO 425 - GIS Applications in Geology (3 credits)

GEO 430 - Oceanography (3 credits)

GEO 445 - Introduction to Geochemistry (3 credits)

GEO 470 - Geophysics (4 credits)

**PLUS** the following (at least three credits):

GEO elective: One geology course at the 300- or 400-level.

Geology Issues courses cannot count toward the geology major.

### **Cognate Courses**

Requires 31 to 33 semester hours of cognate science courses in chemistry, physics, mathematics, statistics, computer science, and/or geographic information systems as follows.

#### **a. Chemistry Courses** (two)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

#### **b. Physics Courses** (choose one of the following pairs)

##### **EITHER**

PHY 220 - General Physics I (5 credits)

PHY 221 - General Physics II (5 credits)

##### **OR**

PHY 230 - Principles of Physics I (5 credits)

PHY 231 - Principles of Physics II (5 credits)

#### **c. Basic Mathematics Courses** (two)

MTH 122 - College Algebra (3 credits)

MTH 123 - Trigonometry (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**d. Mathematics, Statistics, Computer Science, or Geographic Information Systems Courses**  
(choose two courses from one of the following options):

**EITHER** Calculus

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

**OR** Statistics

STA 215 - Introductory Applied Statistics (3 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

**OR** Computer Science (choose one course from each group)

Group One

CIS 160 - Learn to Code in Python (3 credits)

CIS 161 - Computational Science (3 credits)

CIS 162 - Computer Science I (4 credits)

Group Two

CIS 163 - Computer Science II (4 credits)

CIS 231 - Problem Solving Using Spreadsheets (3 credits)

CIS 260 - Application Development in Visual Basic (4 credits)

**OR** Geographic Information Systems (GIS)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

Choose one of the following

GPY 407 - Advanced GIS (4 credits)

GEO 425 - GIS Applications in Geology (3 credits)

NRM 395 - GIS Applications in Resource Management (3 credits)

## **Suggested Order of Coursework for a Major in Geology**

### **Year One**

Fall Semester (15 credits)

CHM 115 - Principles of Chemistry I (4 credits)

GEO 111 - Exploring the Earth (4 credits)

MTH 122 - College Algebra (3 credits)

WRT 150 - Strategies in Writing (4 credits)

Winter Semester (15 credits)

General education courses (6 credits)

CHM 116 - Principles of Chemistry II (5 credits)

GEO 112 - Earth History (4 credits)

### **Year Two**

Fall Semester (14 to 16 credits)

General education courses (6 credits)

Geology elective (3 credits)

GEO 214 - Solid Earth Materials and Systems (4 credits) **OR** GEO 220 - Earth Surface Materials and Systems (4 credits)

GEO 175 - Research Tools for Geosciences (1 credit)

MTH/CIS/STA elective (3 to 5 credits)

Winter Semester (13 to 17 credits)

General education courses (6 to 9 credits)

GEO 214 - Solid Earth Materials and Systems (4 credits) **OR** GEO 220 - Earth Surface Materials and Systems (4 credits)

MTH/CIS/STA elective (3 to 5 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **B.S. in Geology**

### **Year Three**

Fall Semester (15 credits)

General education course (3 credits)

GEO 311 - Structural Geology (4 credits)

GEO 315 - Geological Field Methods (3 credits)

Physics sequence (5 credits)

Winter Semester (14 credits)

General education course (3 credits)

GEO 312 - Sedimentation-Stratigraphy (4 credits)

GEO 314 - Petrography: Mineral and Rock Analysis (2 credits)

Physics sequence (5 credits)

Summer Field Course (3 to 6 credits)

### **Year Four**

Fall Semester (13 credits)

Geology elective (3 to 4 credits)

General education course (3 to 6 credits)

GEO 486 - Geology Reading Seminar (1 credit)

Elective (3 credits)

Winter Semester (13 credits)

General education course (3 credits)

Geology elective (3 credits)

Electives (6 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GEO 485 - Geology Research and Writing Seminar (1 credit)

GEO 411 - Global Tectonics (3 credits)

## **B.S. in Geology - Environmental Emphasis**

### **Year Three**

Fall Semester (16 credits):

General education course (3 credits)

GEO 311 - Structural Geology (4 credits)

GEO 320 - Geomorphology (4 credits) **OR** GEO 440 - Geohydrology (3 credits)

Physics sequence (5 credits)

Winter Semester (14 to 16 credits):

General education course (3 credits)

Geology elective (2 to 4 credits)

GEO 312 - Sedimentation-Stratigraphy (4 credits)

Physics sequence (5 credits)

Summer Field Course (3 to 6 credits)

### **Year Four**

Fall Semester (12 to 15 credits)

GEO 320 - Geomorphology (4 credits) **OR** GEO 440 - Geohydrology (3 credits)

GEO 486 - Geology Reading Seminar (1 credit)

General education course (3 to 6 credits)

Geology elective (3 to 4 credits)

Winter Semester (13 credits)

General education course (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Geology elective (3 credits)

Electives (6 credits)

GEO 485 - Geology Research and Writing Seminar (1 credit)

## **Bachelor of Science in Geology-Chemistry**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

### **Requirements for a Geology-Chemistry Major**

Completion of a major in dual geology-chemistry requires the following.

#### **Degree Requirements**

Students must complete the general university degree requirements as identified in the general Academic Regulations section of the Grand Valley State University Graduate and Undergraduate Catalog.

#### **Geology Courses**

Requires 34 semester credit hours of geology courses with a minimum overall GPA of C (2.0).

Geology Issues courses cannot count toward the geology major. At least three semester credits.

GEO 111 - Exploring the Earth (4 credits)

GEO 112 - Earth History (4 credits)

GEO 175 - Research Tools for Geosciences (1 credit)

GEO 214 - Solid Earth Materials and Systems (4 credits)

GEO 220 - Earth Surface Materials and Systems (4 credits)

GEO 311 - Structural Geology (4 credits)

GEO 312 - Sedimentation-Stratigraphy (4 credits)

GEO 445 - Introduction to Geochemistry (3 credits)

GEO 485 - Geology Research and Writing Seminar (1 credit)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GEO 486 - Geology Reading Seminar (1 credit)

GEO electives: At least one course at the 300- or 400-level

### **Chemistry Courses**

Requires 21 semester credit hours of chemistry courses with a minimum overall GPA of C (2.0).

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 325 - Instrumental Analysis (4 credits)

CHM 351 - Introduction to Physical Chemistry (3 credits)

CHM 352 - Physical Chemistry Laboratory (1 credit)

### **Mathematics Courses**

Requires four semester credit hours.

MTH 201 - Calculus I (4 credits)

### **Physics Course**

Requires five semester credit hours.

PHY 230 - Principles of Physics I (5 credits)

### **Suggested Order of Coursework**

The CLAS Academic Advising Center has geology-chemistry curriculum guides for the major.

## **Earth Science Minor**

### **Requirements for a Minor in Earth Science**

An earth science minor for teacher certification requires a minimum overall GPA of 2.7 in the minor and a minimum of 21 credits, including the following courses (substitutions must be approved by the geology department chair):

GEO 111 - Exploring the Earth (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GEO 112 - Earth History (4 credits)

GEO 203 - Weather and Climate for Pre-Service Teachers (3 credits)

GEO 220 - Earth Surface Materials and Systems (4 credits)

PHY 105 - Descriptive Astronomy (3 credits)

SCI 450 - Earth and Life Science in Secondary Education (3 credits)

## **Suggested Order of Coursework**

### **Year One**

Fall Semester:

GEO 111 - Exploring the Earth (4 credits)

PHY 105 - Descriptive Astronomy (3 credits)

Winter Semester:

GEO 112 - Earth History (4 credits)

GEO 203 - Weather and Climate for Pre-Service Teachers (3 credits)

### **Year Two**

Fall Semester:

GEO 220 - Earth Surface Materials and Systems (4 credits)

## **Geology Minor**

### **Requirements for a Minor in Geology**

Completion of a minor in geology requires 25 to 26 credits including the following:

GEO elective: One course at the 300- or 400-level (3 to 4 credits) Geology Issues courses (300-level) cannot count toward the geology minor.

GEO 111 - Exploring the Earth (4 credits)

GEO 112 - Earth History (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

GEO 175 - Research Tools for Geosciences (1 credit)

GEO 214 - Solid Earth Materials and Systems (4 credits)

GEO 220 - Earth Surface Materials and Systems (4 credits)

GEO 311 - Structural Geology (4 credits)

GEO 486 - Geology Reading Seminar (1 credit)

## Global Studies and Social Impact

For additional information about opportunities your college offers, please refer to the Brooks College of Interdisciplinary Studies section in this catalog.

**Website:** [gvsu.edu/ags](http://gvsu.edu/ags)

Deepening interconnectedness and globalization requires an interdisciplinary approach to the study of global and international issues. Global studies and social impact offers students the opportunity to develop the skills and knowledge needed for engaged global citizenship on the local and world stage. The global studies and social impact major allows students to critically explore interactions between states, societies, cultures, and the environment, and reflect on our individual and collective responses to the outcomes of these complex interactions. A particular emphasis of the program is on social transformation and social change to prepare students to be leaders in their communities and the world.

**Participating programs:** Area and global studies programs, including African and African American studies, East Asian studies, Latin American studies and Middle East studies

## Bachelor of Arts or Bachelor of Science in Global Studies and Social Impact

Global studies and social impact is an interdisciplinary major with a focus on understanding, through multiple perspectives, global issues and how they affect people in all areas of the world.

### Requirements for a Major in Global Studies

There are 39 credits required for the major, plus 12 credits for B.A. degree or plus nine credits for B.S. degree.

#### Core Courses

Nine credits are required, including:

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

GSI 201 - (Dis)Order and (In)Justice: An Introduction to Global Studies (3 credits)

GSI 202 - History of Global Change and Social Transformation (3 credits)

GSI 495 - Global Studies and Social Impact (3 credits)

### **Area Studies Electives**

Twelve credits are required.

Choose two areas (AAA, EAS, LAS, MES) and take two courses from the list of courses available from each area. In the case of Meijer Honors College sequences, students need to take the entire four-course sequence to earn credit for that area. An asterisk (\*) designates experiential learning.

#### African and African American Studies (AAA)

AAA 300 - U.S. - Africa Relations (3 credits)

AAA 319 - African Politics (3 credits)

AAA 337 - Contemporary Black Literature (3 credits)

AAA 355 - History of Underground Railroad (3 credits)

GPY 351 - Geography of Africa (3 credits)

HST 335 - Africa Before 1870 (3 credits)

HST 336 - Africa After 1870 (3 credits)

#### East Asian Studies (EAS)

EAS 301 - Masterpieces of East Asian Literature (3 credits)

EAS 351 - Asian American Experiences (3 credits)

GPY 354 - Geography and Globalization of Asia (3 credits)

HNR 256/HNR 257 - East Asia and the World: Ideas, Inventions, and Power 2 (3 credits) **AND**

HNR 276/HNR 277 - East Asia and the World: Ideas, Inventions, and Power 4 (3 credits)

HST 240 - A History of East Asia to 1800 (3 credits)

HST 333 - Modern China (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 342 - History of Buddhism and East Asian Religions (3 credits)

PHI 400 - Wisdom of the East: Advanced Topics in Asian Philosophy (3 credits)

PLS 283 - Chinese Politics and U.S.-China Relations (3 credits)

#### Latin American Studies (LAS)

FVP 376 - Latin American Cinema (3 credits)

GPY 352 - Geography of Latin America (3 credits)

HST 330 - Colonial Latin America (3 credits)

HST 331 - Modern Latin America (3 credits)

HST 334 - The Making of the Caribbean (3 credits)

HST 372/LAS 372 - From Slavery to Freedom (3 credits)

\*LAS 320 - Model Organization of American States (3 credits)

LAS 374/HST 374 - Revolution in the Americas (3 credits)

PLS 284 - Latin American Politics (3 credits)

#### Middle East Studies (MES)

ANT 350 - Archaeology of Mid-East (3 credits)

HNR 209/HNR 210 - The Middle East Beyond the Headlines 2 (3 credits) **AND** HNR 219/HNR 220 - The Middle East Beyond the Headlines 4 (3 credits)

HST 337 - The Age of Islamic Empire (3 credits)

HST 338 - Modern Middle East (3 credits)

HST 339 - Modern Iran (3 credits)

MES 350 - Islam: Scripture and Ritual (3 credits)

MES 370 - Contemporary Issues in the Middle East: The Model Arab League (3 credits)

PLS 320 - Comparative Politics of the Middle East (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Clusters**

Eighteen cluster credits are required.

Students choose two courses from each of the three clusters. No more than two courses from each discipline. GSI 490 may only be taken once for credit. An asterisk (\*) designates experiential learning.

### **Places, Movements, Encounters Cluster**

Courses in this cluster help students to think about how place and culture connect, and about how people and ideas move and shift in a global world. Students will learn how the fast changing, globalized world is constantly presenting new challenges and new kinds of encounters and opportunities.

AAA 302 - African Diaspora (3 credits)

COM 378 - Intercultural Communication (3 credits)

GPY 335 - Globalization and Development (3 credits)

GSI 490 - Internship\*

GSI 215/PLS 215 - Global Migration (3 credits)

GSI 491 - Practicum: Immigrants and Refugees in the Community (3 credits)

HTM 368 - Geotourism (3 credits)

LAS 373 - Latinos/as in West Michigan (3 credits)

INT 319/HST 319 - Human Traffic and Trafficking (3 credits)

INT 350 - The Immigrant Experience in the U.S. (3 credits)

MES 202 - Arab Americans (3 credits)

SOC 355 - Sociology of Work and Employment (3 credits)

### **Expressions and Identities Cluster**

Courses in this cluster address issues of individual and social identity in a global context. Students will learn to think theoretically and apply this knowledge to understandings of gender, race, ethnicity, class, spirituality and sexuality, and the construction of hybrid identities.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

AAA 351 - Perspectives on African American Males (3 credits)

ANT 340 - Culture and Environment (3 credits)

ANT 345 - Perspectives on Globalization (3 credits)

COM 372 - Global Communications (3 credits)

EAS 351 - Asian American Experiences (3 credits)

FVP 375 - World Cinema (3 credits)

GSI 490 - Internship\*

REL 335 - Sacred Words, Global Understanding (3 credits)

REL 300 - Religions in the World Today: Theories, Methods, and Issues (3 credits)

WGS 352/AAA 352 - Black Women's Culture and Communities (3 credits)

WRT 354 - Writing in the Global Context: Culture, Technology, and Language Practices (3 credits)

### **Systems and Actions Cluster**

Courses in this cluster focus on large-scale and global policies and structures within which people and ideas circulate. Students will learn to think about human agency within such structures, as well as how to critically evaluate how these structures enable and challenge social justice locally and globally.

AHS 330 - Health Care: A Global Perspective (3 credits)

BIO 319 - Global Agricultural Sustainability (3 credits)

ECO 365 - Comparative Economic Systems (3 credits)

GPY 412/ENS 412 - Global Climate and Environmental Change (3 credits)

GSI 290 - Changemakers! Introduction to Social Impact (3 credits)

GSI 490 - Internship\*

INT 342 - Food Matters (3 credits)\*

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

INT 400 - Global Visionary Leadership (3 credits) **OR** INT 402 - Feminist Visionary Thinkers (3 credits)

PLS 313 - International Organization (3 credits)

PLS 316 - Human Rights in International Politics (3 credits)

SOC 377 - Globalization: Structures and Movements (3 credits)

WGS 450 - Global Feminisms (3 credits)

## **B.A. or B.S. Degree**

This major offers both B.A. and B.S. degree options.

### **B.A. Degree Requirements**

Students who opt for the B.A. degree must gain fourth semester proficiency in a world language.

### **B.S. Degree Requirements**

To complete the B.S. degree, students must take:

STA 215 - Introductory Applied Statistics (3 credits)

One of the following research methods courses:

INT 301 - Interdisciplinary Research Methods (3 credits)

HST 290 - Research Methods in History (3 credits)

One of the following additional courses in methodology or statistics (cannot be the same methods course selected previously):

AHS 301 - Introduction to Health Care Research (3 credits)

COM 375 - Communication Research (3 credits)

HST 290 - Research Methods in History (3 credits)

INT 301 - Interdisciplinary Research Methods (3 credits)

PLS 300 - Political Analysis (3 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

STA 301 - Questionnaire Design and Execution (3 credits)

STA 314 - Statistical Quality Methods (3 credits)

STA 318 - Statistical Computing (3 credits)

STA 340 - Statistics in the Media (3 credits)

STA 341 - Demographic Methods (3 credits)

WGS 395 - Women and Gender Studies Research Methods (3 credits)

### **Experiential Learning or Study Abroad**

Students are required to complete either an experiential learning course or study abroad. An experiential learning course takes the place of one cluster course. Study abroad course takes the place of one area studies course.

### **Suggested Order of Coursework for a Major in Global Studies**

#### **Year One**

Language 101

Language 102

GSI 201 - (Dis)Order and (In)Justice: An Introduction to Global Studies (3 credits)

GSI 202 - History of Global Change and Social Transformation (3 credits)

#### **Year Two**

Language 101

Language 102

AAA 300 - U.S. - Africa Relations (3 credits)

AAA 319 - African Politics (3 credits)

LAS 373 - Latinos/as in West Michigan (3 credits)

INT 350 - The Immigrant Experience in the U.S. (3 credits)

#### **Year Three**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

FVP 375 - World Cinema (3 credits)

MES 370 - Contemporary Issues in the Middle East: The Model Arab League (3 credits)

PLS 311 - International Conflict and Conflict Resolution (3 credits)

WRT 354 - Writing in the Global Context: Culture, Technology, and Language Practices (3 credits)

## **Year Four**

HST 339 - Modern Iran (3 credits)

GSI 495 - Global Studies and Social Impact (3 credits)

WGS 450 - Global Feminisms (3 credits)

# **Graduate Education**

**Dean:** Collins; **Associate Dean:** King

**Leadership and Learning:** Chair: Shinsky; Professors: Armstrong, King, Mack, Sowa-Wojciakowski; Associate Professors: Alston, Busman, Chelbo, Cooper, Geisel, Hipp, Margulus, McCrea, Patterson, Schiller; Assistant Professors: Bultsma, DeFrance, Fahrenbruck, Gu, Diarrassouba, Smith, Stearns, Stolle, Storey, Worst; Instructors: Clay, Cleveland, Helzer, Hill, Gregels, Judge, Kalee, Kaletka, Kamps, Melin, Page, Remenap, Schultz, Shelton, Spencer, Starkweather. Joint Appointment: Coffey.

**Special Education, Foundations, and Technology:** Chair: P. Lancaster; Professors: Cross, Grant; Associate Professors: Abramson, D.Bair, Carson, S.Lancaster, Lubic, Mader, Miller, Fisher, Topper, S. Williams, Wilson; Assistant Professors: M.Bair, Clark, Hanks, Harris, Perhamus, Schelling, Subramony, O. Williams; Instructors: Barneveld, Helder, Koning, Stockton.

**Website:** [gvsu.edu/coe](http://gvsu.edu/coe)

## **Mission**

Teaching, leading, and learning in a democratic society.

## **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

and ethical implications of educational policies and practices

## **Values**

The College of Education and Community Innovation values *expertise* to guide our practice, *equity* to guide our interactions, *liberal education* to guide our perspectives, and *social responsibility* to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

## **Graduate Studies in Education**

The College of Education and Community Innovation offers the Master of Education degree (M.Ed.), Michigan Provisional Certification, Michigan Professional Certification, School Counseling license and endorsement, programs leading to certificate renewals, certificate endorsements, special education approvals, and professional development.

The major function for the graduate program is to create opportunities for professional renewal and development. The graduate program attempts to increase knowledge and understanding of the learning process and the repertoire of teaching methods and skills.

## **Admission**

Graduate admission requires:

All students seeking degree, endorsement, approval, license or certificate change at the graduate level must be formally admitted to graduate study.

A maximum of six graduate credits earned prior to graduate admission may apply to degree requirements.

In addition to the requirements listed in the Admissions section of the catalog, applicants must have an undergraduate GPA of 3.0 or higher calculated on the last 60 credits of undergraduate work taken from a regionally accredited college or university. Applicants must submit an application, and three professional or academic recommendations on designated forms. Students are encouraged to identify their desired emphasis area with application submission.

Applicants with less than a 3.0 GPA calculated on the last 60 credits of undergraduate work may meet alternate criteria for admission, such as a prior master's degree from a regionally accredited institution, acceptable test scores on the GRE General Test, maintain a 3.0 GPA within the first six credit hours of graduate coursework, or a final appeal to the department chair with faculty support.

## **Academic Policies**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

All students seeking a degree, certification, additional endorsement, special education approval, school counseling license or a change in certification status must establish a planned program of professional study with a graduate advisor that specifies program objectives, competencies, and course requirements. Degree candidates must complete the degree within eight years from the first course used for the master's program. A maximum of nine credits may be transferred toward the degree from other institutions. A maximum of six credits earned under nondegree-seeking status may be applied to the degree. Applicants for degree, endorsement, or approval must maintain a 3.0 GPA. Endorsement, approval, and professional certification programs require that a least half the credits be earned at Grand Valley. Due to stringent requirements being set forth by the State of Michigan Department of Education, students pursuing initial certification, first or second renewal of their provisional certification, additional endorsement, school counseling license, professional or administrator certification are now being held to a higher standard. Students who have certain misdemeanors, multiple misdemeanors or a felony may be denied and/or not recommended for any level of certification by GVSU College of Education and Community Innovation and/or State of Michigan. If a student is recommended to the Michigan Department of Education for provisional certification, additional endorsement, school counseling license, professional or administrator certification, the conviction could have an adverse effect on being granted a certificate. If a certificate is granted, there is no guarantee of employability.

## **Internships**

Students who graduate from the Grand Valley State University undergraduate special education program may apply for a full-year paid teaching internship in special education. In addition to completing the required coursework, students must pass the Michigan Subject Area Test, and maintain a 3.0 GPA to receive the K-12 endorsement in learning disabilities. Interns may apply the credit hours generated from this internship to the learning disabilities master's degree program.

Because it is necessary to limit the numbers of students in this program and because paid teaching internship positions must be arranged in the public schools, students must be nominated by the Grand Valley faculty in order to be accepted as intern teachers. Students must pay tuition and fees for this.

## **Requirements for a Certificate**

### **Certification, endorsement, approval, and emphasis programs**

Programs are also available in the following areas:

Michigan Provisional Certification

Michigan Professional Certification

Early Childhood, Elementary, Middle Level, and Secondary Endorsement

Reading Endorsement: Elementary K-8, Secondary 6-12, Reading Specialist K-12

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

English as a Second Language: Elementary K-8, Secondary 6-12, and K-12

Library Media Endorsement: K-12

Special Education Endorsement K-12: Learning Disabilities, Emotional Impairment, and Cognitive Impairment

School Counseling: License and endorsement

Subject area majors and minors, usually at the undergraduate level

Special Education Approval: Directors and supervisors

### **Program Location**

Programs are offered at the L.V. Eberhard Center on Pew Grand Rapids Campus in Grand Rapids, MI.

## **Educational Specialist Degree in Leadership**

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

**Website:** [gvsu.edu/coe/grad](http://gvsu.edu/coe/grad)

### **Mission**

The educational leadership faculty prepares candidates as building and district leaders who are committed to the success of faculty and students P-12 through the engagement of relevant and rigorous experiences, intentional teaching, reflective practice, and authentic assessments which are aligned with the Educational Leadership Constituent Council (ELCC) standards.

### **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

### **Values**

Service to others: We value being relationally aware and respectful of our professional relationships while honoring differing perspectives of a collaborative, active working environment.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Scholarly research and professional learning: We value scholars who engage in critical thinking, intellectual curiosity, ethical behavior in decision making and lifelong learning as they produce scholarship and conduct research that inform the profession and can be applied in authentic P-12 settings.

Teaching: We provide access to a quality program that is student centered.

Leadership Development: We value all voices and diverse perspectives in leading with integrity and developing a growth mindset in all of our students to advocate for social justice.

We value reflective thinking and engaging in respectful discourse to challenge our thinking and enhance our practices.

We value faculty who are successful practitioners whose instruction is grounded in theory as well as delivered in authentic contexts.

## **Accreditation**

Nationally Recognized by the Specialty Program Association: Educational Leadership Constituent Council (ELCC) Michigan Department of Education.

**Minimum Number of Credit Hours for Graduation: 30**

## **Admission**

Admission to the educational specialist degree in leadership program requires the following:

A master's degree with at least a 3.0 GPA on a 4.0 scale.

Essay/personal statement indicating how this degree will support candidates' personal and career goals.

Three letters of recommendation. Two from a professional, addressing your leadership skills and success. One from an individual who can address your academic/scholarly capabilities.

Current resume must include the following:

Title of master's project or thesis, degrees received with dates, institutions, majors, and minors.

Listing of employment.

Description of leadership experience, dates, and location.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Presentations, publications, memberships, and professional development.

## **Graduate Outcomes**

Student success is measured using the Educational Leadership Constituent Council (ELCC) standards. These standards are applied throughout the program and within the final culminating "Theory into Practice" experience. Students demonstrate their success in the education specialist program through practitioner research, internship, and development of a professional portfolio demonstrating competence in national leadership standards.

## **Requirements**

### **Core Courses**

Requires 18 credits, including:

EDI 710 - Instructional Management and Supervision (3 credits)

EDL 700 - Educational Leadership and Change (3 credits)

EDL 705 - Organizational Behavior, Ethics and Decision-Making (3 credits)

EDL 715 - Data-Based Decision-Making and Technology (3 credits)

EDL 720 - Organizational and Community Relations (3 credits)

EDL 725 - Educational Law, Policy, and Practice (3 credits)

### **Educational Administration Cognate**

Requires nine credits, including:

EDL 740 - The Superintendency (3 credits)

EDL 742 - School Board Relations (3 credits)

EDL 744 - Educational Finance and Economic Issues (3 credits)

### **Culminating Experience**

This three-credit-hour culminating experience is likely to take the form of a practicum that will result in a portfolio, containing documents that address the standards and provide evidence of the understanding and ability to apply leadership concepts to practice.

EDL 770 - Leadership Theory into Practice (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students must apply in advance for the culminating experience. Advisor approval is required. Application deadlines: May 15 for fall enrollment, September 15 for winter enrollment, and February 15 for spring/summer enrollment.

## **Graduate Certificate in Online/Blended Instruction and Assessment**

A certificate in online/blended instruction is available to GVSU College of Education and Community Innovation graduate-degree seeking students in good standing. The certificate consists of the following four-course sequence (12 credits):

EDT 626 - Assessment/Evaluation with Educational Technology (3 credits)

EDT 629 - Online Instructional Design/Development (3 credits)

EDT 635 - Instructional Systems Design (3 credits)

EDT 684 - Field Experience - Educational Technology (3 credits)

It is recommended that students take courses in the following order: EDT 635, EDT 629, EDT 684, and EDT 626. Students may not take courses concurrently.

Students must apply in advance for the field experience course. Advisor approval is required. Application deadlines (field experience): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

Interested students should contact their advisor or the graduate educational technology program director (email: [edtech@gvsu.edu](mailto:edtech@gvsu.edu)). This certificate is designed for K-12 classroom teachers who seek knowledge and expertise teaching in online or blended settings, faculty in higher education who seek knowledge and expertise teaching in online or hybrid settings, and corporate trainers or instructors interested in developing and implementing web-based, online instruction. Students must maintain a minimum grade of C and the cumulative GPA of 3.0 or higher for all four courses.

## **Graduate Programs in Education**

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

**Website:** [gvsu.edu/coe/grad](http://gvsu.edu/coe/grad)

### **Mission**

Teaching, leading, and learning in a democratic society.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

## **Values**

The College of Education and Community Innovation values *expertise* to guide our practice, *equity* to guide our interactions, *liberal education* to guide our perspectives, and *social responsibility* to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

## **Graduate Studies in Education**

The College of Education and Community Innovation offers the Master of Education degree (M.Ed.), Michigan Standard Teaching Certification, School Counseling license and endorsement, programs leading to certificate renewals, certificate endorsements, special education approvals, and professional development.

The major function of the graduate program is to create opportunities for professional renewal and development. The graduate program attempts to increase knowledge and understanding of the learning process and the repertoire of teaching methods and skills.

## **Admission**

Admission to graduate study requires the following:

All students seeking degree, endorsement, approval, license, or certificate change at the graduate level must be formally admitted to graduate study.

A maximum of six graduate credits earned prior to graduate admission may apply to degree requirements.

In addition to the requirements listed in the Admissions section in this catalog, applicants must have an undergraduate GPA of 3.0 or higher calculated on the last 60 credits of undergraduate work taken from a regionally accredited college or university. Applicants must submit an application and three professional or academic recommendations on designated forms. Students are encouraged to identify their desired emphasis area with application submission.

Applicants with less than a 3.0 GPA calculated on the last 60 credits of undergraduate work may meet alternate criteria for admission, such as a prior master's degree from a regionally accredited institution, acceptable test scores on the GRE General Test, maintain a 3.0 GPA within the first six credit hours of graduate coursework, or a final appeal to the department chair with faculty support.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Alternate criteria do not apply to all graduate programs in the College of Education and Community Innovation.

The director of the Student Information and Services Center, based on faculty recommendations, will process admissions decisions.

### **Academic Policies**

All students seeking a degree, certification, additional endorsement, special education approval, school counseling license, or a change in certification status must establish a planned program of professional study with a graduate advisor that specifies program objectives, competencies, and course requirements. Degree candidates must complete the degree within eight years from the first course used for the master's program. A maximum of nine credits may be transferred toward the degree from other institutions. A maximum of six credits earned under nondegree-seeking status may be applied to the degree. Applicants for degree, endorsement, or approval must maintain a 3.0 GPA. Endorsement, approval, and professional certification programs require that at least half the credits be earned at Grand Valley. Due to stringent requirements being set forth by the State of Michigan Department of Education, students pursuing initial certification, renewal of their standard teaching certification, additional endorsement, school counseling license, and professional or administrator certification are now being held to a higher standard. Students who have certain misdemeanors, multiple misdemeanors, or a felony may be denied and/or not recommended for any level of certification by GVSU's College of Education and Community Innovation and/or the State of Michigan. If a student is recommended to the Michigan Department of Education for standard teaching certification, additional endorsement, school counseling license, professional or administrator certification, the conviction could have an adverse effect on being granted a certificate. If a certificate is granted, there is no guarantee of employability.

### **Responsible Conduct of Research**

Each College of Education and Community Innovation graduate student must complete Responsible Conduct of Research (RCR) training prior to completion of 50 percent of the graduate program or prior to engaging in any research activity.

Refer to The Graduate School section in this catalog for additional information.

### **Program Areas**

#### **Master of Education (M.Ed.)**

To obtain the M.Ed., students must successfully complete the university requirements for a graduate degree, the College of Education and Community Innovation's foundation requirements, and the requirements in one emphasis/focus area under a degree program (educational leadership, educational technology, higher education, instruction and curriculum, literacy studies, school counseling, and special education).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Emphasis areas for the M.Ed. in higher education include adult and higher education and college student affairs leadership.

Emphasis areas for the M.Ed. in instruction and curriculum include early childhood education, educational differentiation, elementary education, and secondary level education.

Emphasis areas for the M.Ed. in educational leadership include educational leadership and special education administration.

Focus area for the M.Ed. in educational technology is educational technology integration.

Emphasis areas for the M.Ed. in literacy studies include reading/language arts.

Focus area for the M.Ed. in school counseling is school counseling.

Emphasis areas for the M.Ed. in special education include autism spectrum disorder, cognitive impairment, and learning disabilities.

### **Certification, Endorsement, Approval, and Emphasis Programs**

Programs are also available in the following areas:

Michigan standard teaching certification

Early childhood, elementary, and secondary endorsement

Reading endorsement: elementary K-8, secondary 6-12, reading specialist K-12

Special education endorsement K-12: autism spectrum disorder, learning disabilities, and cognitive impairment

School counseling: license and endorsement

Special education approval: directors and supervisors

Subject area majors and minors, usually at the undergraduate level.

Students may return to Grand Valley to obtain a postbaccalaureate endorsement to append to their teaching certificate by adding one or more content areas. Students may choose to add any endorsement for which Grand Valley has approval from the Michigan Department of Education (MDE). Students must meet all of the MDE requirements for an endorsement, which includes taking and passing all courses identified on the endorsement planned program (course substitutions will be permitted with prior departmental approval), meeting GVSU G.P.A. program requirements, taking and passing the associated subject area test for the endorsement

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

through the Michigan Test for Teacher Certification, and meeting any and all other requirements, which might include but not be limited to a criminal background check and providing other university transcripts.

Note: To be recommended to the Michigan Department of Education by Grand Valley to add a content area endorsement to an existing Michigan teaching certificate, the student must be certified at the appropriate level. Six credits of the planned program minor and 12 credits of the planned program major must be earned at Grand Valley. For a complete list of the content area endorsements that Grand Valley offers, visit [gvsu.edu/clasadvising/endorsements-87.htm](http://gvsu.edu/clasadvising/endorsements-87.htm).

## **Foundation Courses**

Foundations of education derive its methods from the humanities, social sciences, and a number of other academic disciplines. Its purpose is to understand, analyze, and critique education and schooling in light of their intent, effects, value orientations, and underlying assumptions.

Each candidate for the M.Ed. degree must complete six semester hours in foundation courses in the following areas: research and evaluation (EDF 660) and social foundations of education (EDF 671 or EDF 672).

## **Internships**

Students graduating from the Grand Valley State University undergraduate special education program may apply for a full-year paid teaching internship in special education. In addition to completing the required coursework, students must pass the Michigan Subject Area Test and maintain a 3.0 GPA to receive the K-12 endorsement in learning disabilities. Interns may apply the credit hours generated from this internship to the learning disabilities master's degree program.

Because it is necessary to limit the number of students in this program and because paid teaching internship positions must be arranged in the public schools, students must be nominated by Grand Valley faculty members to be accepted as intern teachers. Students must pay tuition and fees for this program.

## **Graduate Teacher Certification**

Candidates who already possess an approved baccalaureate degree may consider certification at either the undergraduate or graduate level. Because of the need for careful assessment in choosing the appropriate program, students should first contact the Student Information and Services Center to request background materials and register to attend one of the regularly scheduled information meetings. Candidates considering the graduate program must be able to undertake full-time study for approximately one calendar year. This program is offered partially online or fully online. See program advisor for program details.

## **Admission**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Minimum admission requirements for the graduate certification program include:

Submission of an official copy of student's passing SAT scores (administered March 2, 2016 or later) or alternative passing scores.

Completion of the baccalaureate degree from a regionally accredited institution at least one year prior to application with a GPA of 3.0 or higher for the final 60 semester credits.

Possession of completion of a teachable major with a GPA of 3.0 or higher. Secondary candidates must also possess or complete a teachable minor before final certification.

Successful completion of Michigan Subject Area Test in teachable major.

Documentation of 25 hours age-appropriate experience with children or youth.

Signed statement regarding criminal activity.

Completion of EDT 619 - Curricular Integration of Ed Technology (for elementary candidates only).

Admission to graduate studies.

Completion of application materials for graduate teacher certification program.

Completion (for elementary candidates) of PED 265 - Teaching Health in Elementary Schools and PED 266 - Move-Dance-Learn! PE and Dance for Elementary Education.

Note: Students seeking a major in world languages must pass the Oral Proficiency Interview (OPI) prior to their student teaching semester.

## **Exit Requirements**

Candidates will be eligible for Michigan Standard Teaching Certification after completion of the following:

Grades of B- or better in all GTC courses and positive recommendations in professional field courses.

G.P.A. of 3.0 in the major, minor, and professional requirements.

Passing scores on the Michigan Subject Area Tests (MTTC). Elementary candidates must pass the Elementary Test; if they also pass subject area tests in their approved major, these will also be added to their certificate. Secondary candidates must pass subject area tests in their major and minor.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CPR (adult/child) instruction and first aid (standard or basic).

Updated criminal background information if any changes since original application for admission to the College of Education and Community Innovation; contact the GTC coordinator to confirm the change(s) are on file in the Student Information and Services Center.

## **Program Requirements for Graduate Teacher Certification - Secondary Education**

There are 27 credits required, detailed as follows.

Summer Semester:

EDI 635 - Development and Needs of Students (3 credits)

EDS 652 - Foundations of Special Education (3 credits)

Fall Semester:

EDI 638 - Facilitating School Environments (3 credits)

EDI 685 - Practicum/Graduate Field Experience (3 or 6 credits)

EDR 623 - Developmental Literacy for Adolescents (3 credits)

EDI 636 - Instruction in Middle and High Schools (3 credits)

Winter Semester:

EDI 685 - Practicum/Graduate Field Experience (3 or 6 credits)

EDT 627 - Technology Integration for Secondary Teachers (3 credits)

**PLUS** completion of 15 additional credits (EDI 637, EDI 639, EDF 660, either EDF 671 or EDF 672, and either EDI 693 or EDI 695) to fulfill M.Ed. degree requirements. See M.Ed. in Instruction and Curriculum - Secondary Education for details.

## **Program Requirements for Graduate Teacher Certification - Elementary Education**

There are 36 credits required, detailed as follows.

Summer Semester:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDI 631 - Teaching Science: K-8 (3 credits)

EDI 632 - Teaching Creative and Performing Arts (3 credits)

EDI 635 - Development and Needs of Students (3 credits)

EDI 633 - Teaching Social Studies and Diversity (3 credits)

EDR 622 - Developmental Literacy for Children (3 credits)

Fall Semester:

EDI 638 - Facilitating School Environments (3 credits)

EDI 685 - Practicum/Graduate Field Experience (3 or 6 credits)

EDI 630 - Teaching Mathematics: K-8 (3 credits)

EDR 627 - Literacy Strategies for Content Areas (3 credits)

Winter Semester:

EDI 685 - Practicum/Graduate Field Experience (3 or 6 credits)

EDS 652 - Foundations of Special Education (3 credits)

**PLUS** completion of 15 additional credits (EDI 637, EDI 639, EDF 660, either EDF 671 or EDF 672, and either EDI 693 or EDI 695) to fulfill M.Ed. degree requirements. See M.Ed. in instruction and curriculum - elementary education for details.

## **Master of Education in Educational Leadership - Educational Leadership Emphasis**

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

**Website:** [gvsu.edu/coe/grad](http://gvsu.edu/coe/grad)

### **Vision**

We prepare our educational leadership candidates to become top performing servant leaders who will positively impact teaching and learning through transformational leadership.

### **Mission**

The educational leadership faculty prepares candidates as building and district leaders who are committed to the success of faculty and students P-12 through the engagement of relevant and

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

rigorous experiences, intentional teaching, reflective practice, and authentic assessments which are aligned with the Educational Leadership Constituent Council (ELCC) standards.

### **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

### **Values**

We value being relationally aware and respectful of our professional relationships while honoring differing perspectives of a collaborative, active working environment (service to others).

We value scholars who engage in critical thinking, intellectual curiosity, ethical behavior in decision making and lifelong learning as they produce scholarship and conduct research that inform the profession and can be applied in authentic P-12 settings (scholarly research and professional learning).

We provide access to a quality program that is student centered (teaching).

We value all voices and diverse perspectives in leading with integrity and developing a growth mindset in all of our students to advocate for social justice (leadership development).

We value reflective thinking and engaging in respectful discourse to challenge our thinking and enhance our practices.

We value faculty who are successful practitioners whose instruction is grounded in theory as well as delivered in authentic contexts.

### **Accreditation**

Nationally Recognized by the Specialty Program Association: Educational Leadership Constituent Council (ELCC) Michigan Department of Education.

### **Program Location**

Program is offered at the DeVos Center on the Pew Grand Rapids Campus, located in downtown Grand Rapids, MI; the Detroit Center in downtown Detroit; and at the University Center in Traverse City, MI.

### **Requirements**

The M.Ed. degree in educational leadership requires a minimum of 33 credit hours. Each candidate for the M.Ed. degree in educational leadership must complete the following courses.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Social Foundations of Education** (3 credits) Choose one:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

**Research and Evaluation** (3 credits):

EDF 660 - Educational Inquiry and Evaluation (3 credits)

**Emphasis Area Courses** (18 credits):

EDL 665 - Educational Leadership (3 credits)

EDL 666 - Curriculum Leadership (3 credits)

EDL 668 - Personnel Administration (3 credits)

EDL 670 - School Law (3 credits)

EDL 677 - School and Community Relationships (3 credits)

**PLUS** one of the following:

EDL 667 - Elementary Supervision and Evaluation (3 credits)

EDL 671 - Secondary Supervision and Evaluation (3 credits)

**Practicum/Graduate Field Experience** (3 credits):

EDL 685 - Practicum/Graduate Field Experience (3 to 6 credits)

**Administrative Internship** (3 credits):

EDL 685 is a prerequisite.

EDL 687 - Administrative Internship (3 credits)

Students must apply in advance for each practicum course. Advisor approval is required.  
Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

**Capstone** (3 or 6 credits) Choose one:

EDF 660 is a prerequisite.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDL 693 - Master's Project (1 to 3 credits)

EDL 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through the program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDL 693) or one to six credits (EDL 695) and require continuous enrollment each semester until completed. Application deadlines (thesis/project): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

## **Master of Education in Educational Leadership - Special Education Administration Emphasis**

The special education administration program is known for its comprehensive approach to preparing individuals for the many facets of special education administration including special education law, finance, personnel administration, staff development, curriculum, and current issues. Students may choose to complete the approval/certificate program if they have previously completed a Master's degree program.

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

**Website:** [gvsu.edu/coe/grad](http://gvsu.edu/coe/grad)

### **Mission**

Teaching, leading and learning in a democratic society.

### **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

### **Values**

The College of Education and Community Innovation values expertise to guide our practice, equity to guide our interactions, liberal education to guide our perspectives, and social responsibility to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

### **Accreditation**

The programs are nationally recognized by the Specialty Program Association: Council for Exceptional Children (CEC).

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Program Location**

The programs are offered in DeVos Center on the Pew Grand Rapids Campus, located in downtown Grand Rapids, MI, and at the Wayne Regional Educational Services Agency, in Wayne, MI.

## **Requirements for the M.Ed. Degree in Educational Leadership - Emphasis in Special Education Administration**

The M.Ed. degree in educational leadership with an emphasis in special education administration requires a minimum of 45 credit hours. Candidates seeking a Master of Education (Ed.D.) degree in special education administration must complete the following.

### **Social Foundations Course (3 credits) Choose one:**

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

### **Research and Evaluation (3 credits):**

EDF 660 - Educational Inquiry and Evaluation (3 credits)

### **Emphasis Area Courses (24 credits):**

EDL 650 - Foundations of Special Education Administration (3 credits)

EDL 651 - Administration of Special Education Programs and Services (3 credits)

EDL 652 - Curriculum and Instruction Leadership in Special Education Administration (3 credits)

EDL 653 - Special Education Law (3 credits)

EDL 654 - Special Education Finance (3 credits)

EDL 668 - Personnel Administration (3 credits)

EDL 677 - School and Community Relationships (3 credits)

**PLUS** one of the following:

EDL 667 - Elementary Supervision and Evaluation (3 credits)

EDL 671 - Secondary Supervision and Evaluation (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Practicum/Graduate Field Experience (12 credits):**

EDL 685 - K-12 Principal Field Experience (3 credits)

EDL 685 - Special Education Supervisor (3 credits)

EDL 685 - Special Education Director (3 credits)

EDL 687 - Administrative Internship (3 credits)

Students must apply in advance for each practicum course. Advisor approval is required. Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

**Capstone (3 or 6 credits) Choose one:**

EDF 660 is prerequisite.

EDL 693 - Master's Project (1 to 3 credits)

EDL 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through their program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDL 693) or one to six credits (EDL 695) and require continuous enrollment each semester until completed. Application deadlines (thesis/project): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

**Requirements for the Special Education Supervisor and Director Approval and Administrator Certificate**

The special education supervisor and director approval and administrator certificate requires a minimum of 36 credit hours.

**Emphasis Area Courses (24 credits):**

EDL 650 - Foundations of Special Education Administration (3 credits)

EDL 651 - Administration of Special Education Programs and Services (3 credits)

EDL 652 - Curriculum and Instruction Leadership in Special Education Administration (3 credits)

EDL 653 - Special Education Law (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDL 654 - Special Education Finance (3 credits)

EDL 668 - Personnel Administration (3 credits)

EDL 677 - School and Community Relationships (3 credits)

Choose one (3 credits):

EDL 667 - Elementary Supervision and Evaluation (3 credits)

EDL 671 - Secondary Supervision and Evaluation (3 credits)

**Practicum/Graduate Field Experience** (12 credits):

EDL 685 - K-12 Principal Field Experience (3 credits)

EDL 685 - Special Education Supervisor (3 credits)

EDL 685 - Special Education Director (3 credits)

EDL 687 - Administrative Internship (3 credits)

Students must apply in advance for each practicum course. Advisor approval is required.  
Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

## **Master of Education in Educational Technology**

This program prepares educators at all levels to integrate technology into classroom settings. Program content includes the educational application of technology, including computers and the Internet, for a variety of professional and instructional purposes. Courses concentrate on pedagogical issues, curriculum integration, software and website evaluation, acquisition and use of instructional materials and media, social and ethical issues for technology use in K-12 settings, school and classroom adoption of technology, and Web-based and online instructional development.

Note: Students must take a self-assessment before registering for any courses that lead toward a M.Ed. in educational technology integration. The technology self-assessment is designed to ensure that students who enroll in graduate educational technology courses have the knowledge and skill required to be successful in these classes.

**Website:** [gvsu.edu/coe/grad](http://gvsu.edu/coe/grad)

### **Mission**

Teaching, leading, and learning in a democratic society.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers, and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

## **Values**

The College of Education and Community Innovation values *expertise* to guide our practice, *equity* to guide our interactions, *liberal education* to guide our perspectives, and *social responsibility* to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

## **Career Goals**

Educational technology integration is designed for educators and leaders who wish to integrate technology into teaching and learning, coordinate technology, manage technological resources, work in local or regional media centers, or explore the benefits of technology for instruction.

## **Program Objectives**

Students who complete the program should be able to

- a. use technology in their teaching and professional life;
- b. collaborate with others;
- c. select appropriate technology-based resources for instructional purposes;
- d. use technology for their own professional development;
- e. act as instructional leaders in their educational settings; and
- f. understand the social, ethical, and human issues in the area of educational technology.

The College of Education and Community Innovation offers graduate level courses online as part of the educational technology integration program. The courses are offered online using BlackBoard, a Web-based learning environment.

## **Program Location**

The program is offered at the DeVos Center on the Pew Grand Rapids Campus, located in downtown Grand Rapids, MI

## **Requirements for the M.Ed. in Educational Technology**

The M.Ed. degree in educational technology requires a minimum of 33 credit hours. Each candidate for the M.Ed. degree must complete the following:

**Social Foundations of Education** (3 credits) Choose one:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDF 672 - Social/Cultural Foundations of Education (3 credits)

EDF 671 - Educational Policy and Practice (3 credits)

**Research and Evaluation** (3 credits):

EDF 660 - Educational Inquiry and Evaluation (3 credits)

**Emphasis Area Courses** (21 credits):

EDT 619 - Curricular Integration of Ed Technology (3 credits)

EDT 620 - Evaluating and Applying Instructional Media (3 credits)

EDT 621 - Topics in Educational Technologies (3 credits)

EDT 626 - Assessment/Evaluation with Educational Technology (3 credits)

EDT 629 - Online Instructional Design/Development (3 credits)

EDT 634 - Planning/Managing Educational Technology (3 credits)

EDT 635 - Instructional Systems Design (3 credits)

**Elective Course** (3 credits):

Candidates for the M.Ed. degree who do not have a teaching certificate must take a three-credit elective.

**Practicum/Graduate Field Experience** (3 credits) required for certified teachers only:

EDT 685 - Practicum/Graduate Field Experience (3 credits)

Students must apply in advance for each practicum course. Advisor approval is required.  
Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

**Capstone** (3 or 6 credits) Choose one:

EDF 660 is prerequisite.

EDT 693 - Master's Project (1 to 3 credits)

EDT 695 - Master's Thesis (1 to 6 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Students should meet with their advisor midway through their program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDT 693) or one to six credits (EDT 695) and require continuous enrollment each semester until completed.

Application deadlines (thesis/project): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

## **Master of Education in Higher Education - Adult and Higher Education Emphasis**

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

**Website:** [gvsu.edu/coe/grad](http://gvsu.edu/coe/grad)

### **Mission**

Teaching, leading, and learning in a democratic society.

### **Philosophy**

Believing that schools function as social and political entities, as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

### **Values**

The College of Education and Community Innovation values *expertise* to guide our practice, *equity* to guide our interactions, *liberal education* to guide our perspectives, and *social responsibility* to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

The Adult and Higher Education (AHE) curriculum is designed for students interested in developing competencies for working with adult and higher education students. This curriculum also offers an opportunity for administrative leadership development for those interested in working in institutions of higher education in a variety of student affairs functional areas such as admissions, student orientation, residence life, student life, academic advising, recreation and wellness, financial aid, multicultural affairs, career services, international affairs, and judicial affairs.

### **Minimum Number of Hours in Program**

The M.Ed. degree in higher education with an emphasis in adult and higher education requires a

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

minimum of 36 credit hours. Students may enroll part-time and start in the fall, winter, or spring/summer semester.

### **Program Location**

The program is offered at DeVos Center, on the Pew Grand Rapids Campus, located in downtown Grand Rapids, MI, as well as on the Allendale Campus.

## **Requirements for M.Ed. in Adult and Higher Education**

### **Social Foundations of Education** (3 credits) Choose one:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

### **Research and Evaluation** (3 credits):

EDF 660 - Educational Inquiry and Evaluation (3 credits)

### **Emphasis Area Requirements** (21 credits):

EDH 648 - The Adult Learner (3 credits)

EDH 650 - Materials and Methods for Adult and Continuing Education (3 credits)

EDH 651 - Higher Education and Student Affairs Functions (3 credits)

EDH 652 - The American College Student (3 credits)

EDH 656 - Organization and Administration in Higher Education (3 credits)

Elective (3 credits)

Elective (3 credits)

Elective (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Practicum (6 credits):**

EDH 685 - Practicum/Graduate Field Experience in Higher Education I (3 credits)

EDH 686 - CSAL Practicum/Graduate Field Experience II (3 credits)

Students must apply in advance for each practicum course. Advisor approval is required. Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester. Capstone (prerequisite: EDF 660), choose one (3 or 6 credits):

EDH 693 - Master's Project (3 credits)

EDH 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through their program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDH 693) or one to six credits (EDH 695) and require continuous enrollment each semester until completed. Application deadlines (thesis/project): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

## **Master of Education in Instruction and Curriculum - Early Childhood Education Emphasis**

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

**Website:** [gvsu.edu/coe/grad](http://gvsu.edu/coe/grad)

**Mission**

Teaching, leading, and learning in a democratic society.

**Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

**Values**

The College of Education and Community Innovation values *expertise* to guide our practice, *equity* to guide our interactions, *liberal education* to guide our perspectives, and *social responsibility* to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

This program prepares teachers, supervisors, and directors in preschools, day care centers, child development centers, Head Start programs, and kindergartens, as well as researchers and program specialists in the field for general and high-risk students.

### **Accreditation**

Nationally recognized by Specialty Program Association: National Association for the Education of Young Children (NAEYC) Michigan Department of Education Approved.

### **Minimum Number of Hours in Program**

The M.Ed. degree in instruction and curriculum with an emphasis in early childhood education requires a minimum of 33 credit hours.

### **Program Location**

The program is offered at the DeVos Center, Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

### **Requirements for M.Ed. in Early Childhood Education**

**Social Foundations of Education** (3 credits) Choose one:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

**Research and Evaluation** (3 credits):

EDF 660 - Educational Inquiry and Evaluation (3 credits)

**Emphasis Area Courses** (21 credits):

EDI 610 - Advanced Studies in Child Development Ages 0-8 (3 credits)

EDI 611 - Assessment of the Young School Child (3 credits)

EDI 612 - Curriculum Development for Early Childhood Education (3 credits)

EDI 613 - Administration and Supervision of Early Childhood Education (3 credits)

EDI 614 - Infant and Toddler Development and Curriculum (3 credits)

EDS 646 - Family and Community Collaboration in Early Childhood Education (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDS 647 - Serving Young Children with Diverse Needs (3 credits)

**Practicum/Graduate Field Experience** (3 credits) Choose one:

EDI 685- Early Childhood Education Practicum (3 credits)

EDS 685 - Early Childhood Developmental Delay Practicum (3 credits)

Students must apply in advance for each practicum course. Advisor approval is required. Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

**Capstone** (3 or 6 credits) Choose one:

EDF 660 is prerequisite.

EDI 693 - Master's Project (1 to 3 credits)

EDI 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through their program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDI 693) or one to six credits (EDI 695) and require continuous enrollment each semester until completed.

Application deadlines (thesis/project): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

**Requirements for Endorsement in Early Childhood Education**

Students desiring only the early childhood endorsement (ZS), must complete the following program requirements for a total of 27 credit hours.

**Early Childhood Education Courses** (21 credits):

EDI 610 - Advanced Studies in Child Development Ages 0-8 (3 credits)

EDI 611 - Assessment of the Young School Child (3 credits)

EDI 612 - Curriculum Development for Early Childhood Education (3 credits)

EDI 613 - Administration and Supervision of Early Childhood Education (3 credits)

EDI 614 - Infant and Toddler Development and Curriculum (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDS 646 - Family and Community Collaboration in Early Childhood Education (3 credits)

EDS 647 - Serving Young Children with Diverse Needs (3 credits)

**Practicum/Graduate Field Experience (6 credits):**

EDI 685 - Practicum/Graduate Field Experience (3 or 6 credits)

EDS 685 - Practicum/Graduate Field Experience (3 or 6 credits)

Students must apply in advance for each practicum course. Advisor approval is required. Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

Notes: Candidate adding new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 GPA.

**Educational Setting Appropriate to ZS Endorsement**

A teacher who has earned an early childhood prekindergarten general and special education (ZS) endorsement is qualified to teach in any prekindergarten general or special education program. The ZS endorsed teacher will be able to teach in general education early childhood classrooms, inclusive early childhood classrooms, and in early childhood special education programs. The ZS endorsed teacher who also holds an elementary certificate is authorized to teach in all elementary designated settings per the elementary certificate. The ZS endorsed teacher who holds a secondary certification with a categorical special education endorsement is authorized to teach in special education settings authorized by the categorical special education endorsement, and not in any general education elementary setting outside the categorical special education endorsement.

The ZS endorsed teacher has specialized training in early childhood, which is defined as birth through age eight. However, the ZS endorsement is not considered an initial categorical special education endorsement because the standards stipulated in the Michigan Administrative Rules for Special Education 340.1781 and 340.1782 are not met. Additionally, it does not qualify the ZS endorsed teacher to teach as the special education teacher of record beyond prekindergarten without a categorical K-12 special education endorsement.

**Master of Education in Instruction and Curriculum -  
Educational Differentiation Emphasis**

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

### **Values**

The College of Education and Community Innovation values expertise to guide our practice, equity to guide our interactions, liberal education to guide our perspectives, and social responsibility to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

The reading/language arts program leading to the M.Ed. degree provides elementary and secondary teachers with the appreciation, theory, and practical skills needed to teach various areas of reading and language arts. The program is helpful for K-12 classroom teachers who

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

want to expand their abilities to work with students in language arts programs as well as for other professionals who support students' literacy acquisition.

**Accreditation**

Nationally Recognized by Specialty Program Association: International Reading Association (IRA)

Michigan Department of Education

**Minimum Number of Hours in Program**

All degree-seeking students in the reading/language arts master's program are required to take a minimum of 33 credit hours. If a candidate is pursuing the reading specialist K-12 endorsement, they must complete the 36 credit hours of the reading specialist program.

**Program Location**

The program is offered at DeVos Center on Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

**Requirements for the M.Ed., Reading/Language Arts****Requirements for the M.Ed., Reading/Language Arts with Elementary Endorsement**

The M.Ed. in reading/language arts with the elementary reading endorsement is a 33-credit hour program leading to state certification in reading at the K-8 school level. It is designed for classroom teachers who wish to develop expertise in the teaching of reading. The elementary reading teacher endorsement may be added only to an elementary teaching certificate.

Each candidate for the M.Ed. degree with the elementary reading endorsement must complete the following:

**Social Foundations of Education** (3 credits) Choose one:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

**Research and Evaluation** (3 credits):

EDF 660 - Educational Inquiry and Evaluation (3 credits)

**Emphasis Area** (18 credits):

EDR 621 - Foundations of Literacy (3 credits)

EDR 624 - Elementary Literacy: Learners, Text, and the Environment (3 credits)

EDR 626 - Field-based Literacy Assessment for Learning (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDR 628 - Literacy Instruction Across Disciplines (PK-6) (3 credits)

EDR 631 - Writing, Teaching, and Learning (3 credits)

EDR 632 - Field-based Literacy and Language Interventions (3 credits)

**Practicum/Graduate Field Experience** (3 credits):

EDR 685 - Literacy Instruction Practicum (3 credits)

**Capstone** (3 or 6 credits) Choose one:

EDR 693 - Master's Project (1 to 3 credits)

EDR 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor at the beginning of the program to sign a planned program and map out coursework. Additionally, students should communicate with their advisor throughout the program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDR 693) or one to six credits (EDR 695) and require continuous enrollment each semester until completed.

Applications are required for fieldwork courses (EDR 626 and EDR 685) and Capstone courses (EDR 693 and EDR 695). Application deadlines: February 15 for spring/summer, May 15 for fall, September 15 for winter semester. Candidates adding a new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 G.P.A.

**Requirements for the M.Ed. - Reading/Language Arts with Secondary Endorsement**

The M.Ed. in reading/language arts with the secondary reading endorsement is a 33-credit hour program leading to state certification in reading at the secondary school level (6-12). It is designed for classroom teachers who wish to develop expertise in the teaching of reading. The secondary reading teacher endorsement may be added only to a secondary teaching certificate.

Each candidate for the M.Ed. degree with the secondary reading endorsement must complete the following:

**Social Foundations of Education** (3 credits) Choose one:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

**Research and Evaluation** (3 credits):

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDF 660 - Educational Inquiry and Evaluation (3 credits)

**Emphasis Area** (18 credits):

EDR 621 - Foundations of Literacy (3 credits)

EDR 625 - Secondary Literacy: Learners, Text, and the Environment (3 credits)

EDR 626 - Field-based Literacy Assessment for Learning (3 credits)

EDR 630 - Literacy Instruction Across Disciplines (7-12) (3 credits)

EDR 631 - Writing, Teaching, and Learning (3 credits)

EDR 632 - Field-based Literacy and Language Interventions (3 credits)

**Elective** (3 credits)

Advisor approved EDR, EDI, EDS

**Practicum/Graduate Field Experience** (3 credits):

EDR 685 - Literacy Instruction Practicum (3 credits)

**Capstone** (3 or 6 credits) Choose one:

EDR 693 - Master's Project (1 to 3 credits)

EDR 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through their program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDR 693) or one to six credits (EDR 695) and require continuous enrollment each semester until completed.

Applications are required for fieldwork courses (EDR 626 and EDR 685) and Capstone courses (EDR 693 and EDR 695). Application deadlines: February 15 for spring/summer, May 15 for fall, September 15 for winter semester. Candidates adding a new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 G.P.A.

**Requirements for Reading Specialist Endorsement, K-12**

The reading specialist endorsement is a 36 to 39-credit-hour program leading to state endorsement as a K-12 reading specialist. It is designed for persons who are interested in administration and supervision of school or district-wide reading/language arts programs and will enable the bearer to be employed as a school reading consultant/literacy coach, to teach in

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

special remedial or developmental programs, and to teach reading as a special subject. The reading specialist endorsement may be added to either an elementary or secondary teaching certificate. The state requires a master's degree in reading for this endorsement.

**Social Foundations of Education** (3 credits) Choose one:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

**Research and Evaluation** (3 credits):

EDF 660 - Educational Inquiry and Evaluation (3 credits)

**Capstone** Choose one:

EDR 693 - Master's Project (1 to 3 credits)

EDR 695 - Master's Thesis (1 to 6 credits)

**Emphasis Area** (21 credits):

EDR 621 - Foundations of Literacy (3 credits)

EDR 626 - Field-based Literacy Assessment for Learning (3 credits)

EDR 631 - Writing, Teaching, and Learning (3 credits)

EDR 632 - Field-based Literacy and Language Interventions (3 credits)

**AND** choose one:

EDR 628 - Literacy Instruction Across Disciplines (PK-6) (3 credits)

EDR 630 - Literacy Instruction Across Disciplines (7-12) (3 credits)

**AND** choose one:

EDR 624 - Elementary Literacy: Learners, Text, and the Environment (3 credits)

EDR 625 - Secondary Literacy: Learners, Text, and the Environment (3 credits)

**Practicum/Graduate Field Experience** (6 credits):

EDR 685 - Literacy Instruction Practicum (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDR 687 - Reading/Literacy Specialist and Literacy Coach Practicum (3 credits)

EDR 689 - Professional Development and Leadership Practicum (3 credits)

Students should meet with their advisor at the beginning of the program to sign a planned program and map out coursework. Additionally, students should communicate with their advisor throughout the program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDR 693) or one to six credits (EDR 695) and require continuous enrollment each semester until completed.

Applications are required for fieldwork courses (EDR 626, EDR 687, and EDR 689) and Capstone courses (EDR 693 and EDR 695). Application deadlines: February 15 for spring/summer, May 15 for fall, September 15 for winter semester. Candidates adding a new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 G.P.A.

### **Requirements for M.Ed. Reading/Language Arts Without Endorsement**

Each candidate for the (non-endorsement) M.Ed. degree must complete the following.

**Social Foundations of Education** (3 credits) Choose one:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

**Research and Evaluation** (3 credits):

EDF 660 - Educational Inquiry and Evaluation (3 credits)

**Capstone** Choose one:

EDR 693 - Master's Project (1 to 3 credits)

EDR 695 - Master's Thesis (1 to 6 credits)

**Emphasis Area** (21 credits):

EDR 621 - Foundations of Literacy (3 credits)

EDR 626 - Field-based Literacy Assessment for Learning (3 credits)

EDR 628 - Literacy Instruction Across Disciplines (PK-6) (3 credits)

EDR 631 - Writing, Teaching, and Learning (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**AND** choose one of the following:

EDR 622 - Developmental Literacy for Children (3 credits)

EDR 623 - Developmental Literacy for Adolescents (3 credits)

**AND** choose one of the following:

EDR 624 - Elementary Literacy: Learners, Text, and the Environment (3 credits)

EDR 625 - Secondary Literacy: Learners, Text, and the Environment (3 credits)

**Supplemental Courses** (3 credits) Choose one:

EDF 633 - Race, Class, and Language (3 credits)

EDF 634 - Teaching the At-Risk Student (3 credits)

EDI 641 - Teaching for Talent Development (3 credits)

EDR 620 - English as a Second Language Methodologies (3 credits)

EDR 620 - English as a Second Language Methodologies (3 credits)

EDS 625 - Inclusive Practices (3 credits)

Elective Credits: 3 (Advisor approval required)

**Practicum/Graduate Field Experience** (3 credits):

EDR 685 - Literacy Instruction Practicum (3 credits)

**Capstone** (3 or 6 credits) Choose one:

EDF 660 is prerequisite.

EDR 693 - Master's Project (1 to 3 credits)

EDR 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through their program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDR 693) or one to six credits (EDR 695) and require continuous enrollment each semester until completed.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Applications are required for fieldwork courses (EDR 626 and EDR 685) and Capstone courses (EDR 693 and EDR 695). Application deadlines: February 15 for spring/summer, May 15 for fall, September 15 for winter semester. Candidates adding a new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 G.P.A.

### **Requirements for Elementary Reading Teacher Endorsement, K-8**

The elementary reading endorsement is a 24-credit hour program leading to state certification in reading at the K-8 school level. It is designed for classroom teachers who wish to develop expertise in the teaching of reading. The elementary reading endorsement may be added only to an elementary teaching certificate.

EDR 621 - Foundations of Literacy (3 credits)

EDR 624 - Elementary Literacy: Learners, Text, and the Environment (3 credits)

EDR 626 - Field-based Literacy Assessment for Learning (3 credits)

EDR 628 - Literacy Instruction Across Disciplines (PK-6) (3 credits)

EDR 631 - Writing, Teaching, and Learning (3 credits)

EDR 632 - Field-based Literacy and Language Interventions (3 credits)

#### **Practicum/Graduate Field Experience (3 credits):**

EDR 685 - Literacy Instruction Practicum (3 credits)

Students must apply in advance for fieldwork courses (EDR 626 and EDR 685). Advisor approval is required. Application deadlines: February 15 for spring/summer, May 15 for fall, September 15 for winter semester. Candidates adding a new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 G.P.A.

### **Requirements for Secondary Reading Teacher Endorsement, 6-12**

The secondary reading endorsement is a 24-credit hour program leading to state certification in reading at the secondary school level (6-12). It is designed for classroom teachers who wish to develop expertise in the teaching of reading. The secondary reading endorsement may be added only to a secondary teaching certificate.

#### **Emphasis Area (21 credits):**

EDR 621 - Foundations of Literacy (3 credits)

EDR 625 - Secondary Literacy: Learners, Text, and the Environment (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDR 626 - Field-based Literacy Assessment for Learning (3 credits)

EDR 630 - Literacy Instruction Across Disciplines (7-12) (3 credits)

EDR 631 - Writing, Teaching, and Learning (3 credits)

EDR 632 - Field-based Literacy and Language Interventions (3 credits)

**Practicum/Graduate Field Experience** (3 credits):

EDR 685 - Literacy Instruction Practicum (3 credits)

Students must apply in advance for fieldwork courses (EDR 626 and EDR 685). Advisor approval is required. Application deadlines: February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

Candidates adding a new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 GPA.

## **Master of Education in School Counseling**

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

**Website:** [gvsu.edu/coe/grad](http://gvsu.edu/coe/grad)

### **Mission**

Teaching, leading, and learning in a democratic society.

### **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

### **Values**

The College of Education and Community Innovation values *expertise* to guide our practice, *equity* to guide our interactions, *liberal education* to guide our perspectives, and *social responsibility* to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

School counseling prepares students to work as school counselors in K-12 public and private school systems. It leads to a school counselor endorsement or a school counselor license in Michigan. Students accepted into the M.Ed. in school counseling must have completed coursework in their undergraduate degree in advanced child development, school learning, and classroom management or coursework in these areas will be required as part of their planned program.

### **Accreditation**

Michigan Department of Education Approval

Specialty Program Standards: MED Counseling and Guidance Services Standards

### **Minimum Number of Hours in Program**

All degree-seeking students in the school counseling master's program are required to take a minimum of 36 credit hours.

### **Program Location**

DeVos Center, Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

### **Requirements for M.Ed. in School Counseling**

The master's degree in school counseling prepares students to work as school counselors in K-12 public and private school systems. It leads to a school counselor endorsement or a school counselor license in Michigan. No endorsement or school counseling license will be approved without completion of the Master of Education in school counseling degree. Students are required to complete a minimum of 36 credit hours. Students are also required to complete 100 practicum hours and 600 internship hours. The 100 practicum hours are dispersed through five emphasis area courses prior to the internship.

Each candidate for the M.Ed. degree in school counseling must complete the following:

### **Required Courses**

#### **Social Foundations of Education (3 credits)**

Choose one:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

#### **Research and Evaluation (3 credits)**

EDF 660 - Educational Inquiry and Evaluation (3 credits)

### **Emphasis Area**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Requires 21 credits, including:

EDC 621 - The Profession of School Counseling (3 credits)

EDC 623 - Social/Emotional Development (3 credits)

EDC 625 - Academic Development (3 credits)

EDC 649 - Career Development (3 credits)

EDC 651 - School Counseling Curriculum and Techniques (3 credits)

EDI 635 - Development and Needs of Students (3 credits)

SW 600 - Cultural Competency for Social Work (3 credits)

### **Internship**

Requires six credits:

EDC 685 - Internship in School Counseling (3 to 6 credits)

Internship credits may be completed in one or two semesters. Students must apply in advance for each internship course. Advisor approval is required. Application deadlines (internship): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

### **Capstone**

Requires three or six credits. Choose one of the following:

EDC 693 - Master's Project (1 to 3 credits)

EDC 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through their program to decide on a capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDC 693) or one to six credits (EDC 695) and require continuous enrollment each semester until completed. Application deadlines (thesis/project): February 15 for spring/summer, May 15 for fall, September 15 for winter semester. Students seeking the school counseling endorsement or school counseling license must pass the State of Michigan Test for Teacher Certification (Subtest 51). The School Counseling License (SCL) is for counseling in school settings only.

## **Master of Education in Special Education - Autism Spectrum Disorder Emphasis**

## **Requirements for M.Ed. in Special Education - Autism Spectrum Disorder**

Candidates for the M.Ed. must complete the following courses as outlined.

### **Social Foundations of Education**

Choose one course (three credits) from the following, to be completed early in the program:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

### **Research and Evaluation**

The following course (three credits) should be completed early in the program:

EDF 660 - Educational Inquiry and Evaluation (3 credits)

### **Special Education**

Requires six or nine credits. Candidates completing the ASD emphasis as an additional endorsement must choose two courses from EDS 610, EDS 627, EDS 629.

Candidates completing their first endorsement must complete three of the following:

EDS 652 - Foundations of Special Education (3 credits) Required for ASD candidates who **DO NOT** hold a special education endorsement. This course should be taken first.

EDS 610 - Positive Behavioral Interventions and Supports (3 credits) Required for ASD candidates who **DO NOT** hold a special education endorsement and ASD Internship candidates.

EDS 627 - Technology and Professional Practice (3 credits)

EDS 629 - Transition Practices (3 credits) Required for ASD candidates who **DO NOT** hold a special education endorsement and ASD Internship candidates.

### **Autism Spectrum Disorder**

Requires 15 credits, including:

PSY 540 - Introduction to Autism Spectrum Disorder (3 credits)

PSY 542 - Behavior Support for Students with Autism Spectrum Disorder (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PSY 615/EDS 615 - Educational Assessment and Interventions for Autism (3 credits)

EDS 616 - Language and Communication Assessment and Instruction for Autism (3 credits)

EDS 623 - Collaboration in Special Education (3 credits)

### **Practicum Coursework**

The following course (three credits) is required for all ASD candidates:

EDS 685 - Practicum/Graduate Field Experience

### **Capstone**

Choose one of the following three- or six-credit options:

EDS 693 - Master's Project (1 to 3 credits)

EDS 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through their program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDS 693) or one to six credits (EDS 695) and require continuous enrollment each semester until completed. Advisor approval is required.

Application deadlines (thesis/project): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

### **Requirements for Autism Spectrum Disorder K-12 Single Endorsement**

Candidates for this program must possess a valid Michigan teaching certificate. Candidates adding a new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 G.P.A.

### **Special Education**

Requires six or nine credits. Candidates completing the ASD emphasis as an additional endorsement must choose two courses from EDS 610, EDS 627, EDS 629.

Candidates completing their first endorsement must complete three of the following:

EDS 652 - Foundations of Special Education (3 credits) Required for ASD candidates who **DO NOT** hold a special education endorsement. This course should be completed first.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDS 610 - Positive Behavioral Interventions and Supports (3 credits) Required for ASD candidates who DO NOT hold a special education endorsement and ASD Internship candidates.

EDS 627 - Technology and Professional Practice (3 credits)

EDS 629 - Transition Practices (3 credits) Required for ASD candidates who DO NOT hold a special education endorsement and ASD Internship candidates.

### **Preteaching**

Requires six credits, including:

EDS 550 - Preteaching and Methods of Teaching Special Education (6 credits) Required for ASD candidates who **DO NOT** hold a special education endorsement. Application required. Candidates with approved special education experiences may seek a waiver of the EDS 550 requirement.

### **Autism Spectrum Disorder**

The following courses (15 credits) are required for all ASD candidates:

PSY 540 - Introduction to Autism Spectrum Disorder (3 credits)

PSY 542 - Behavior Support for Students with Autism Spectrum Disorder (3 credits)

PSY 615/EDS 615 - Educational Assessment and Interventions for Autism (3 credits)

EDS 616 - Language and Communication Assessment and Instruction for Autism (3 credits)

EDS 623 - Collaboration in Special Education (3 credits)

### **Practicum/Graduate Field Experience**

Requires three or six credits, including:

EDS 685 - Practicum/Graduate Field Experience Six credits required for first endorsement candidates.

Students must apply in advance for each practicum course. Advisor approval is required. Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

**Requirements for M.Ed. in Special Education - Cognitive Impairment**

Candidates for the M.Ed. degree must complete the following courses as outlined.

**Social Foundations of Education** (3 credits)

Choose one course from the following, to be completed early in the program:

EDF 671 - Educational Policy and Practice (3 credits)

EDF 672 - Social/Cultural Foundations of Education (3 credits)

**Research and Evaluation**

EDF 660 - Educational Inquiry and Evaluation (3 credits)

**Special Education**

Nine credits first endorsement; six credits additional endorsement.

Choose two from EDS 610, EDS 627, EDS 629:

EDS 652 - Foundations of Special Education (3 credits) Required for CI candidates who **DO NOT** hold a special education endorsement. This course should be taken early in the program.

EDS 610 - Positive Behavioral Interventions and Supports (3 credits) Required for CI candidates who **DO NOT** hold a special education endorsement.

EDS 627 - Technology and Professional Practice (3 credits)

EDS 629 - Transition Practices (3 credits) Required for CI candidates who **DO NOT** hold a special education endorsement.

**Cognitive Impairment** (15 credits):

EDS 616 - Language and Communication Assessment and Instruction for Autism (3 credits)

EDS 618 - Understanding Students with Cognitive Impairment (3 credits)

EDS 619 - Educational Interventions for Mild Cognitive Impairment (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDS 620 - Educational Interventions for Severe Cognitive Impairment (3 credits)

EDS 622 - Assessment for Placement and Program: CI (3 credits)

**Practicum/Graduate Field Experience** (3 credits):

EDS 685 - Practicum/Graduate Field Experience (3 or 6 credits)

Students must apply in advance for each practicum course. Advisor approval is required. Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

**Capstone** (3 or 6 credits) Choose one:

EDF 660 is prerequisite.

EDS 693 - Master's Project (1 to 3 credits)

EDS 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through their program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDS 693) or one to six credits (EDS 695) and require continuous enrollment each semester until completed. Advisor approval is required.

Application deadlines (thesis/project): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

**Requirements for Cognitive Impairment K-12 Single Endorsement**

Candidates for this program must possess a valid Michigan teaching certificate. Candidates adding a new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 GPA.

**Special Education**

Nine credits first endorsement; six credits additional endorsement.

Choose two from EDS 610, EDS 627, EDS 629:

EDS 652 - Foundations of Special Education (3 credits) Required for CI candidates who **DO NOT** hold a special education endorsement. This course should be completed first.

EDS 610 - Positive Behavioral Interventions and Supports (3 credits) Required for CI candidates who **DO NOT** hold a special education endorsement.

EDS 629 - Transition Practices (3 credits) Required for CI candidates who **DO NOT** hold a special education endorsement.

### **Preteaching**

EDS 550 - Preteaching and Methods of Teaching Special Education (6 credits) Required for CI candidates who **DO NOT** hold a special education endorsement (application required); Candidates with approved special education experiences may seek a waiver of the EDS 550 requirement.

**Cognitive Impairment** (15 credits) Required for **ALL** CI candidates:

EDS 616 - Language and Communication Assessment and Instruction for Autism (3 credits)

EDS 618 - Understanding Students with Cognitive Impairment (3 credits)

EDS 619 - Educational Interventions for Mild Cognitive Impairment (3 credits)

EDS 620 - Educational Interventions for Severe Cognitive Impairment (3 credits)

EDS 622 - Assessment for Placement and Program: CI (3 credits)

**Practicum/Graduate Field Experience** (3 credits):

EDS 685 - Practicum/Graduate Field Experience (3 or 6 credits) Six required for first endorsement candidates.

Students must apply in advance for each practicum course. Advisor approval is required. Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

## **Master of Education in Special Education - Learning Disabilities Emphasis**

For additional information about opportunities your college offers, please refer to the College of Education section in this catalog.

**Website:** [gvsu.edu/coe/grad](http://gvsu.edu/coe/grad)

### **Mission**

Teaching, leading, and learning in a democratic society.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Philosophy**

Believing that schools function as social and political entities as well as for the growth of individuals, the College of Education and Community Innovation prepares teachers and leaders a) to enhance the academic and personal potential of their students, and b) to evaluate the social and ethical implications of educational policies and practices.

## **Values**

The College of Education and Community Innovation values expertise to guide our practice, equity to guide our interactions, liberal education to guide our perspectives, and social responsibility to guide our commitment to democratic education. We value these ideals in our preparation of candidates, our development of faculty, and our relationships with the larger community we serve.

## **Accreditation**

Nationally Recognized by Specialty Program Association: Council for Exceptional Children  
Michigan Department of Education Approval.

## **Minimum Number of Hours in Program**

The M.Ed. degree in special education with an emphasis in learning disabilities requires a minimum of 33 credit hours.

## **Admission**

Students who are degree seeking and are working for special education endorsement are required to take additional courses beyond the normal requirements for the master's degree. Students who want to enroll in a master's degree program and are not seeking special education endorsement should select a master's degree emphasis program and consult with a special education graduate advisor to develop a program consisting of foundations and emphasis coursework, including research applications.

## **Program Location**

Program is offered at DeVos Center on the Pew Grand Rapids Campus, located in downtown Grand Rapids, MI.

## **Requirements for M.Ed. in Learning Disabilities**

Candidates for the M.Ed. degree must complete the following courses.

## **Social Foundations of Education**

Choose one of the following (three credits) to be completed early in program:

EDF 671 - Educational Policy and Practice (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDF 672 - Social/Cultural Foundations of Education (3 credits)

### **Research and Evaluation**

Complete the following (three credits) early in program:

EDF 660 - Educational Inquiry and Evaluation (3 credits)

### **Special Education**

Requires six or 12 credits. Candidates completing the LD emphasis as an additional endorsement must choose two courses from EDS 610, EDS 627, EDS 629.

Candidates completing their first endorsement must complete all of the following:

EDS 652 - Foundations of Special Education (3 credits) Required for LD candidates who DO NOT hold a special education endorsement. This course must be taken first.

EDS 610 - Positive Behavioral Interventions and Supports (3 credits) Required for LD candidates who DO NOT hold a special education endorsement and LD Internship candidates.

EDS 627 - Technology and Professional Practice (3 credits) Required for LD candidates who DO NOT hold a special education endorsement.

EDS 629 - Transition Practices (3 credits) Required for LD candidates who DO NOT hold a special education endorsement.

### **Learning Disabilities**

Requires 15 credits, including:

EDS 625 - Inclusive Practices (3 credits)

EDS 636 - Diagnostic and Interpretative Procedures (3 credits)

EDS 637 - Explicit Language Instruction (3 credits)

EDS 638 - Instructional Practices: Learning Disabilities II (3 credits)

EDS 640 - Diagnostic-Teaching Clinic (3 credits) Complete after EDS 636, EDS 637, and EDS 638.

### **Practicum/Graduate Field Experience**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Requires three credits, including:

EDS 685 - Practicum/Graduate Field Experience (3 or 6 credits)

Students must apply in advance for each practicum course. Advisor approval is required.

Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

### **Capstone**

Choose one (three or six credits):

EDS 693 - Master's Project (1 to 3 credits)

EDS 695 - Master's Thesis (1 to 6 credits)

Students should meet with their advisor midway through their program to decide on a Capstone and discuss plans for completion. Subject to department approval, Capstone courses may be taken in variable amounts from one to three credits (EDS 693) or one to six credits (EDS 695) and require continuous enrollment each semester until completed.

Application deadlines (thesis/project): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

### **Requirement for Learning Disabilities K-12 Single Endorsement**

Candidates for this program must possess a valid Michigan teaching certificate. Candidates adding a new endorsement must pass the Michigan Subject Area Test and maintain a 3.0 G.P.A. Completion of both EDS 636 and EDS 638 satisfy the state reading requirement PA 118.

### **Special Education Courses**

Requires six or 12 credits. Candidates completing the LD emphasis as an additional endorsement must choose two courses from EDS 610, EDS 627, EDS 629.

Candidates completing their first endorsement must complete all of the following:

EDS 652 - Foundations of Special Education (3 credits) Required for LD candidates who **DO NOT** hold a special education endorsement. This course must be taken first.

EDS 610 - Positive Behavioral Interventions and Supports (3 credits) Required for LD candidates who **DO NOT** hold a special education endorsement.

EDS 627 - Technology and Professional Practice (3 credits) Required for LD candidates who **DO NOT** hold a special education endorsement.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDS 629 - Transition Practices (3 credits) Required for LD candidates who DO NOT hold a special education endorsement.

### **Preteaching Course**

Requires six credits, including:

EDS 550 - Preteaching and Methods of Teaching Special Education (6 credits) Required for LD candidates who **DO NOT** hold a special education endorsement. Application required. Candidates with approved special education experiences may seek a waiver of the EDS 550 requirement.

### **Learning Disabilities Coursework**

Requires 15 credits. All LD candidates must complete the following:

EDS 625 - Inclusive Practices (3 credits)

EDS 636 - Diagnostic and Interpretative Procedures (3 credits)

EDS 637 - Explicit Language Instruction (3 credits)

EDS 638 - Instructional Practices: Learning Disabilities II (3 credits)

EDS 640 - Diagnostic-Teaching Clinic (3 credits)

### **Practicum/Graduate Field Experience**

Requires three or six credits, including:

EDS 685 - Practicum/Graduate Field Experience (3 or 6 credits) Six credits required for first endorsement candidates.

Students must apply in advance for each practicum course. Advisor approval is required. Application deadlines (practicum): February 15 for spring/summer, May 15 for fall, September 15 for winter semester.

## **Group Social Studies**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The major in social studies is designed for students seeking teacher certification. The major coursework is in history, economics, geography, and political science as well as in the social studies specific pedagogy.

The **social studies major with elementary emphasis** prepares students to teach social studies in Michigan kindergarten through grade eight. Students must also complete the elementary education minor and the education major for elementary certification. The social studies major meets State of Michigan content standards for teacher preparation in social studies.

The **social studies major with secondary emphasis** prepares students to teach social studies in Michigan grades six through 12. Students are not required to complete a teaching minor but may choose to do so. Students must also complete the education major for secondary certification. Students may also choose to pursue a second major in history. The social studies major meets State of Michigan content standards for teacher preparation in social studies.

Students must complete a substantial portion of the major, including SST 309 or SST 310 and SST 311, before admission to the College of Education and Community Innovation. The College of Education and Community Innovation requires that candidates for admission present an overall GPA of 2.7 as well as a GPA of 3.0 in the major and minor.

Students who decide not to seek teacher certification may complete the group social studies major and receive a bachelor's degree without completing the professional program in education by meeting the university's minimum requirements.

Transfer and postgraduate students seeking a teachable major in group social studies should consult the CLAS Advising Center for an evaluation of their previous work. Post-baccalaureate students must present a record substantially equivalent to that required of Grand Valley State University undergraduates; such students whose previous academic work is not equivalent to the Grand Valley program must take additional courses to meet those requirements. Post-baccalaureate students seeking admission to the College of Education and Community Innovation's undergraduate professional program must also take SST 309 or SST 310 and SST 311 before admission to the College of Education and Community Innovation.

## **Bachelor of Arts or Bachelor of Science in Group Social Studies**

### **Requirements for a Major in Social Studies - Secondary Emphasis**

Students seeking certification must have a 3.0 GPA in the social studies major with secondary emphasis to be eligible to enter the College of Education.

#### **B.A. Degree Requirements**

Students seeking the B.A. degree must demonstrate third-semester proficiency in a foreign language.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **B.S. Degree Requirements**

Students seeking the B.S. degree must complete the following:

STA 215 - Introductory Applied Statistics (3 credits)

HST 290 - Research Methods in History (3 credits)

SST 311 - Data Literacy for Social Studies Teachers (3 credits)

## **Required Courses**

### **Social Studies**

The following courses must be taken before admission to the College of Education:

SST 310 - Teaching Social Studies: Secondary (3 credits)

SST 311 - Data Literacy for Social Studies Teachers (3 credits)

The following course must be taken with or after student assisting or student teaching:

SST 495 - Education in Plural Societies (Capstone) (3 credits)

### **Political Science**

PLS 103 - Issues in World Politics (3 credits)

PLS 206 - American Constitutional Foundations (3 credits)

PLS 211 - International Relations (3 credits)

### **Economics**

ECO 210 - Introductory Macroeconomics (3 credits)

ECO 211 - Introductory Microeconomics (3 credits)

Students must complete one of the following:

ECO 349 - Emerging Markets Issues (3 credits)

ECO 365 - Comparative Economic Systems (3 credits)

ECO 369 - International Economic Issues (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Geography**

GPY 100 - Physical and Environmental Geography (3 credits)

GPY 220 - Cultural Geography (3 credits)

GPY 235 - Geography for a Changing World (3 credits)

## **History**

Students must complete the following courses:

HST 203 - World History to 1500 A.D. (3 credits)

HST 204 - World History since 1500 (3 credits)

HST 205 - American History to 1877 (3 credits)

HST 206 - American History since 1877 (3 credits)

Students must complete one of the following courses in the U.S. category:

HST 303 - Era of Sectional Conflict, Civil War, and Reconstruction (3 credits)

HST 305 - America Confronts Modernity (3 credits)

HST 306 - The 'American Century': From the Great Depression to Vietnam (3 credits)

HST 307 - United States since 1970 (3 credits)

HST 311 - History of Religion in the United States (3 credits)

HST 312 - History of American Women (3 credits)

HST 314 - African American History (3 credits)

HST 315 - Latinos: The Forging of Ethnic Identities (3 credits)

HST 316 - U.S. Civil Rights Movement History (3 credits)

HST 317 - History of American Foreign Relations (3 credits)

HST 318 - History of Democracy in America (3 credits)

HST 320 - American Indians (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 322 - American Identity and Sports (3 credits)

HST 327 - History of United States Urban Society (3 credits)

HST 328 - U.S. Constitutional and Legal History (3 credits)

HST 329 - U.S. Intellectual History (3 credits)

## **REGIONAL CATEGORIES**

Students must complete four additional history courses chosen from four of the six regional categories. Only one course (out of the four) may be at the 200-level.

### **Europe Category**

HST 207 - European Civilization to the Later Middle Ages (3 credits)

HST 208 - European Civilization since the Later Middle Ages (3 credits)

HST 350 - Ancient Greece (3 credits)

HST 351 - Ancient Rome (3 credits)

HST 355 - Medieval Europe (3 credits)

HST 360 - Tudor and Stuart England (3 credits)

HST 361 - Modern Britain (3 credits)

HST 364 - Renaissance and Reformation Europe (3 credits)

HST 377 - History of Warfare (3 credits)

HST 386 - 20th Century Europe (3 credits)

HST 387 - Modern Germany (3 credits)

HST 389 - Russian History (3 credits)

HST 390 - Soviet History (3 credits)

### **East Asia Category**

HST 240 - A History of East Asia to 1800 (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 241 - A History of East Asia since 1800 (3 credits)

HST 333 - Modern China (3 credits)

HST 342 - History of Buddhism and East Asian Religions (3 credits)

### **South and SW Asia Category**

HST 211 - History of Islamic Civilization (3 credits)

HST 212 - India: History and Civilization (3 credits)

HST 332 - Emergence of Modern India and South Asia (3 credits)

HST 337 - The Age of Islamic Empire (3 credits)

HST 338 - Modern Middle East (3 credits)

HST 339 - Modern Iran (3 credits)

### **Africa Category**

HST 335 - Africa Before 1870 (3 credits)

HST 336 - Africa After 1870 (3 credits)

HST 343 - History of South Africa (3 credits)

HST 331 - Modern Latin America (3 credits)

HST 334 - The Making of the Caribbean (3 credits)

### **Latin America Category**

HST 230 - Latin America in World History (3 credits)

HST 330 - Colonial Latin America (3 credits)

HST 372 - From Slavery to Freedom (3 credits)

HST 374 - Revolution in the Americas (3 credits)

HST 375 - History of Mexico (3 credits)

### **U.S. Category**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 303 - Era of Sectional Conflict, Civil War, and Reconstruction (3 credits)

HST 305 - America Confronts Modernity (3 credits)

HST 306 - The 'American Century': From the Great Depression to Vietnam (3 credits)

HST 307 - United States since 1970 (3 credits)

HST 311 - History of Religion in the United States (3 credits)

HST 312 - History of American Women (3 credits)

HST 314 - African American History (3 credits)

HST 315 - Latinos: The Forging of Ethnic Identities (3 credits)

HST 316 - U.S. Civil Rights Movement History (3 credits)

HST 317 - History of American Foreign Relations (3 credits)

HST 318 - History of Democracy in America (3 credits)

HST 320 - American Indians (3 credits)

HST 322 - American Identity and Sports (3 credits)

HST 327 - History of United States Urban Society (3 credits)

HST 328 - U.S. Constitutional and Legal History (3 credits)

HST 329 - U.S. Intellectual History (3 credits)

## **Health Administration**

For additional information about opportunities your college offers, please refer to the College of Education and Community Innovation section in this catalog.

The mission of the School of Public, Nonprofit, Health, Hospitality, and Tourism Management is to educate students for lives of active citizenship as contributing members of their local, regional, national and global communities, and for professional careers in public and nonprofit organizations. We are dedicated to developing in our graduates the capacities for ethical judgment, critical thinking and the core competencies necessary to fulfill multiple roles as effective public servants and healthcare managers and leaders.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The mission of the Master of Health Administration program (M.H.A.) is to develop new, early, and mid-career students into leaders who combine the essential knowledge, specific competencies, and practical experiences for a management career in nonprofit and governmental healthcare organizations in the Midwest, nation, and world. We actively engage the healthcare community to prepare ethical and effective practitioners for healthcare management and leadership.

An advanced degree in health administration opens up career opportunities that span the diverse components that make up the health care delivery system including: hospitals, ambulatory care practices, assisted living communities, skilled nursing facilities, home health agencies, and hospice care. In addition to direct health service providers, M.H.A. graduates are qualified for management positions in marketing, human resources, finance, and planning in pharmaceutical, medical device and supplies, and insurance companies.

**Minimum Hours for Graduation:** 48 to 54 credit hours

**Website:** [gvsu.edu/spnha](http://gvsu.edu/spnha)

## **Admission to Master of Health Administration Program**

An undergraduate grade point average of at least 3.0 on a 4.0 scale calculated on the last 60 credit hours of undergraduate coursework

Three letters of reference from informed sources

A detailed resume

An essay on career and educational objectives (250-750 words)

A demonstrated commitment to community and public service. Ideally this would be five or more years of professional work experience since receiving a baccalaureate degree.

Submitting a GRE score is recommended for applicants who have neither a 3.0 undergraduate GPA nor five years of professional experience. The GRE is also recommended for applicants applying for a graduate assistantship with SPNHA.

## **Master of Health Administration**

### **Requirements**

The curriculum is multidisciplinary (includes health administration, health professions, public and nonprofit management, business, and computing science) and consists of a large required core and a choice of concentration. Other courses, such as PNH 680 - Special Topics in Public and Nonprofit Administration (1 to 3 credits), PNH 693 - Research Project (3 or 6 credits) or PNH 699 - Directed Readings (3 credits) may be substituted for concentration or core courses

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

with advisor approval. The program consists of a total of 48 to 54 credit hours depending on student status.

Student status is determined after program entry. Students are classified as precareer (little or no experience working in the field of health care), early career (some experience working in the field of health care but little or no management experience), and midcareer (several years of experience working in the field of health care and currently holding a management position in the field). Precareer students must complete two internships (6 credits), early career students must complete one internship (3 credits), and midcareer students are not required to complete an internship.

### **Core Courses**

There are 36 credits required, including:

PNH 611 - Research Methods (3 credits)

PNH 612 - Human Resources in Organizations (3 credits)

PNH 614 - Organization Theory (3 credits)

PNH 630 - Health Administration and Service (3 credits)

PNH 631 - U.S. Health Policy and Politics (3 credits)

PNH 632 - Health Services Financial Management (3 credits)

PNH 633 - Health Economics (3 credits)

PNH 634 - Health Care Law and Ethics (3 credits)

PNH 636 - Health Care Quality Improvement (3 credits)

PNH 640 - Marketing Health and Human Services (3 credits)

PNH 643 - Strategic Management and Planning (3 credits)

CIS 665 - Clinical Information Systems (3 credits)

### **Concentrations**

There are nine credits required.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

There are four concentrations available: one in hospital administration, one in long term care administration, one self-directed concentration for mid-career students, and one concentration in finance.

### **1. Hospital Administration**

Prerequisites: PNH 611 and PNH 630 may be concurrent.

Required courses include:

PNH 635 - Hospital Organization and Management (3 credits)

PNH 639 - Community Benefits Assessment and Management (3 credits)

PNH 646 - Managerial Epidemiology for Health Administrators (3 credits)

### **2. Long-term Care Administration**

Prerequisites: PNH 611 and PNH 630 may be concurrent.

Required courses include:

PNH 638 - Continuing Care Organization and Management (3 credits)

PNH 645 - Opportunities in Aging Societies (3 credits)

PNH 646 - Managerial Epidemiology for Health Administrators (3 credits)

### **3. Self-directed Concentration**

Prerequisites: PNH 611 and PNH 630 may be concurrent.

Required: Nine credits selected and preapproved by advisor.

### **4. Finance**

ACC 611 - Contemporary Managerial Accounting (3 credits)

FIN 626 - Advanced Managerial Finance (3 credits) **OR** ECO 641 - Business Economics and Strategy (3 credits)

PNH 646 - Managerial Epidemiology for Health Administrators (3 credits)

### **5. Practice Management**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PNH 637 - Healthcare Practice Management (3 credits)

PNH 639 - Community Benefits Assessment and Management (3 credits)

PNH 646 - Managerial Epidemiology for Health Administrators (3 credits)

### **Capstone**

There are nine credits required.

Prerequisites: PNH 611 and PNH 630 and one additional core course.

PNH 619 is the Capstone course for the M.H.A. program. It may be substituted with PNH 693 - Research Project (3 or 6 credits).

PNH 690 and PNH 691 are required for students with fewer than three years of professional experience. Early and mid-career students may, based on health care management experience, have one or both internships waived.

Special topics courses (PNH 680) or other graduate-level courses may be substituted for specialization courses with advisor's permission.

Students must complete the following courses:

PNH 619 - Public Management Seminar (3 credits)

PNH 690 - Public Administration Internship I (3 credits)

PNH 691 - Public Administration Internship II (3 credits)

## **Health and Physical Education**

For additional information about opportunities your college offers, please refer to your College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/physicaleducation](http://gvsu.edu/physicaleducation)

The Department of Movement Science offers students the opportunity to obtain a B.S. in health and physical education teacher education. The health and physical education program is designed to prepare physical education teaching professionals to promote quality physical education, lifelong skills, and developmentally appropriate activities. Students will incorporate health and physical literacy into the broader goal of both health and physical education curricula. As such, the faculty prepare future health and physical educators through excellent teaching, scholarly activity, and service which reflect the programs commitment to the Society of Health and Physical Education (SHAPE America) Standards. These standards include competencies in

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

scientific and theoretical knowledge; abilities in movement performance and health enhancing fitness; skills in planning and implementing developmentally appropriate activities; digital literacy skills; effective communication and pedagogical skills; strong health and physically literacy skills and the ability to assess student learning. Students will also engage and demonstrate the characteristics to become effective professionals. Students will have experience teaching at both the elementary and secondary levels in health and physical education as well as opportunities in working with students who have movement differences. With a degree in health and physical education teacher education, our students are prepared to teach in the PK-12 environment.

Students majoring in health and physical education teacher education PK-12 may obtain a Michigan certification to teach health and physical education. In addition to the health and physical education content, those seeking teacher certification must complete a 39-credit professional education program from the College of Education and Community Innovation (see the GVSU College of Education and Community Innovation website for more information). Secondary admission to the College of Education and Community Innovation requires at least a 2.7 GPA overall and in the major.

## **Bachelor of Science in Health and Physical Education**

The health and physical education teacher education PK-12 degree is designed to prepare professionals who promote quality health and physical education, lifelong skills and developmentally appropriate activities. As such, the faculty prepare future health and physical educators through excellent teaching, scholarly activity, and service which reflect the program's commitment to the Society of Health and Physical Education (SHAPE America) Standards.

**Website:** [gvsu.edu/physicaleducation](http://gvsu.edu/physicaleducation)

### **Accreditation**

The College of Education and Community Innovation maintains CAEP accreditation for all teacher preparation programs. The health and physical education teacher education degree maintains approval from the Michigan Department of Education.

### **Requirements for a Major in Health and Physical Education**

Students majoring in health and physical education teacher education PK-12 may obtain a Michigan certification to teach health and physical education. In addition, to the health and physical education content, those seeking teacher certification must complete a 39-credit professional education program from the College of Education and Community Innovation (see the GVSU College of Education and Community Innovation website for more information). Secondary admission to the College of Education and Community Innovation requires at least a 2.7 GPA overall and in the major.

### **Requirements for a Major in Health and Physical Education Teacher Education**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students in the health and physical education teacher education program at Grand Valley State University must follow all general education requirements as defined by the Grand Valley State University Undergraduate and Graduate Catalog.

### **Health and Physical Education Teacher Education B.S. Course Requirements**

The following must be completed for the major in physical education (nine credits):

HPE 309 - Assessment in Health and Physical Education (3 credits)

MOV 300 - Kinesiology (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

### **Health and Physical Education Teacher Education Major Courses (credits: 60)**

BMS 105 - Basic Nutrition (3 credits)

BMS 202 - Anatomy and Physiology (4 credits)

FIT 150 - Swimming: Strokes and Drills (1 credit) **OR** FIT 151 - Fitness Swimming (1 credit)

HPE 195 - Introduction to Teaching Health and Physical Education (3 credits)

HPE 200 - Methods of Teaching Dance (2 credits)

PED 207 - Personal Health and Wellness (3 credits)

HPE 220 - Methods of Teaching Net/Wall/Target Activities (2 credits)

HPE 230 - Methods of Teaching Invasive Games (2 credits)

HPE 240 - Methods for Teaching Health Related Fitness (3 credits)

HPE 260 - Methods of Teaching Outdoor Pursuits (3 credits)

HPE 264 - Methods of Teaching Early Childhood Movement and Health (2 credits)

HPE 270 - Methods of Teaching Skills-Based Health Education (3 credits)

HPE 272 - Methods of Teaching Reproductive Health (2 credits)

HPE 301 - Methods of Teaching Secondary Health Education (3 credits)

HPE 302 - Methods of Teaching Adapted Physical Education (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HPE 306 - Methods of Teaching Elementary Physical Education (3 credits)

HPE 307 - Methods of Teaching Secondary Physical Education (3 credits)

HPE 401 - Professionalism in Health and Physical Education (Capstone) (3 credits)

MOV 101 - Foundations of Human Movement Science (3 credits)

MOV 304 - Introduction to Exercise Physiology (3 credits)

MOV 310 - Motor Skill Development (3 credits)

SOC 252 - Sociology of Drug Use and Abuse (3 credits)

## **Suggested Order of Coursework for Health and Physical Education Teacher Education**

### **Year One**

FIT 150 - Swimming: Strokes and Drills (1 credit) **OR** FIT 151 - Fitness Swimming (1 credit)

HPE 195 - Introduction to Teaching Health and Physical Education (3 credits)

PED 207 - Personal Health and Wellness (3 credits)

HPE 264 - Methods of Teaching Early Childhood Movement and Health (2 credits)

MOV 101 - Foundations of Human Movement Science (3 credits)

PSY 101 - Introductory Psychology (3 credits)

### **Year Two**

BMS 105 - Basic Nutrition (3 credits)

BMS 202 - Anatomy and Physiology (4 credits)

HPE 200 - Methods of Teaching Dance (2 credits)

HPE 220 - Methods of Teaching Net/Wall/Target Activities (2 credits)

HPE 240 - Methods for Teaching Health Related Fitness (3 credits)

HPE 260 - Methods of Teaching Outdoor Pursuits (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MOV 300 - Kinesiology (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

### **Year Three**

HPE 230 - Methods of Teaching Invasive Games (2 credits)

HPE 270 - Methods of Teaching Skills-Based Health Education (3 credits)

HPE 272 - Methods of Teaching Reproductive Health (2 credits)

HPE 301 - Methods of Teaching Secondary Health Education (3 credits)

MOV 304 - Introduction to Exercise Physiology (3 credits)

MOV 310 - Motor Skill Development (3 credits)

PSY 301 - Child Development (3 credits)

SOC 252 - Sociology of Drug Use and Abuse (3 credits)

### **Year Four**

EDF 315 - Diverse Perspectives on Education (3 credits)

EDI 338 - Teachers as Decision Makers: Instruction and Assessment in Elementary Schools (3 credits) **OR** EDI 339 - Teachers as Decision Makers: Instruction and Assessment in Secondary Schools (3 credits)

EDS 378 - Universal Design for Learning: Elementary (3 credits) **OR** EDS 379 - Universal Design for Learning: Secondary (3 credits)

HPE 302 - Methods of Teaching Adapted Physical Education (3 credits)

HPE 306 - Methods of Teaching Elementary Physical Education (3 credits)

HPE 307 - Methods of Teaching Secondary Physical Education (3 credits)

HPE 309 - Assessment in Health and Physical Education (3 credits)

HPE 401 - Professionalism in Health and Physical Education (Capstone) (3 credits)

### **Year Five**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

EDF 485 - The Context of Educational Issues (3 credits)

EDI 310 - Building and Sustaining Positive Learning Environments (3 credits)

EDI 331 - Methods and Strategies of Secondary Teaching (5 credits)

EDI 431 - Student Teaching, Secondary (8 credits)

EDI 432 - Student Teaching, Secondary Content Practicum (2 credits)

EDR 321 - Content Area Literacy (3 credits)

EDT 370 - Technology in Education (3 credits)

Please note that one semester during your fifth year will be in an elementary setting and the other semester will be in the secondary setting. During the secondary semester, students will teach both health and physical education.

## Physical Education Minor

### Requirements

Students seeking a teachable minor in secondary physical education must complete the following (23 credits):

MOV 201 - Psychosocial Aspects of Physical Education and Sport (3 credits)

**OR** SPM 202 - Social Cultural Dimensions of Sport (3 credits)

MOV 300 - Kinesiology (3 credits)

MOV 304 - Introduction to Exercise Physiology (3 credits)

MOV 310 - Motor Skill Development (3 credits)

HPE 302 - Methods of Teaching Adapted Physical Education (3 credits)

HPE 307 - Methods of Teaching Secondary Physical Education (3 credits)

**AND** two of the following courses:

HPE 200 - Methods of Teaching Dance (2 credits)

HPE 220 - Methods of Teaching Net/Wall/Target Activities (2 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HPE 230 - Methods of Teaching Invasive Games (2 credits)

HPE 240 - Methods for Teaching Health Related Fitness (3 credits)

## **School Health Education Minor**

### **Requirements**

This 24-credit hour minor is approved by the State of Michigan for secondary education majors. This minor prepares school health education candidates to teach health education in grades six through 12. Students seeking a teachable minor in school health education must complete the following requirements:

BMS 105 - Basic Nutrition (3 credits)

BMS 202 - Anatomy and Physiology (4 credits)

HPE 270 - Methods of Teaching Skills-Based Health Education (3 credits)

HPE 272 - Methods of Teaching Reproductive Health (2 credits) Online.

HPE 301 - Methods of Teaching Secondary Health Education (3 credits)

PED 207 - Personal Health and Wellness (3 credits) Online.

PH 222 - Public Health Concepts (3 credits) **OR** BMS 223 - Infectious Human Diseases; Prevention and Control (3 credits)

SOC 252 - Sociology of Drug Use and Abuse (3 credits)

## **Health Communication**

For additional information about opportunities your college offers, please refer to the School of Communication web site.

**Website:** [gvsu.edu/soc](http://gvsu.edu/soc)

The need for professional communicators in the health care industry has never been greater or more urgent. This industry, one of the largest in the United States, is expanding. It is also changing, so that the nature of health care delivery in the 21st century will be drastically different from what it is today.

Hospital-based health care under the supervision of a physician in private practice is being replaced by a complex system of health maintenance organizations (HMOs). These old and new

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

components of health care, in keen competition with each other, have turned to techniques used by other industries. They are retailing their services to the public, using marketing, advertising, direct sales, public relations, and information activities.

The health communicator has the vital role of facilitating communications between aware but technically naive consumers and a system that is operated by highly skilled, deeply educated technical professionals whom the public does not fully understand. Thus, the skills and competency of the health communicator have become central to the success of the health care industry and, indeed, to its success in maintaining wellness and conquering disease.

Health communicators are well-educated college graduates who have a foundation in biomedical sciences and who understand the principles and techniques of human communication. They are adept at written and visual communication and are skilled in public relations, advertising, and marketing. Health communicators also know the health care industry and its markets of potential patients.

Note: The health communication major requires COM 201 to be taken in the School of Communication core.

## **Bachelor of Arts or Bachelor of Science in Health Communication**

### **Requirements for a Major in Health Communication**

#### **Core Courses**

All students majoring in the School of Communications must complete the following core courses, for a total of nine credits:

COM 101 - Concepts of Communication (3 credits)

COM 295 - Communication Theory (3 credits)

Select one of two:

COM 201 - Speech (3 credits)

COM 215 - Story Making (3 credits)

Capstone requirement:

COM 495 - Issues in Communication (Capstone) (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

All students majoring in Health Communication must take COM 495 (three credits) during their senior year. This Capstone course offers a synthesis of ideas and theories about one or more current critical issues in communication.

## **B.A. and B.S. Degree Requirements**

All undergraduate programs in the School of Communications offer both the B.A. degree and the B.S. degree. All students selecting majors in the School of Communications must choose either the B.A. degree requirements or the B.S. degree requirements for a particular undergraduate program.

### **B.A. in Health Communication**

The B.A. degree in health communication requires a third-semester proficiency in a classical or modern foreign language of the student's choice.

### **B.S. in Health Communication**

The Bachelor of Science degree in health communication requires the following three courses:

COM 275 - Foundations of Communication Research (3 credits)

COM 375 - Communication Research (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

### **Biomedical Sciences Core**

There are 19 credits required.

A higher-level laboratory biology class (such as BIO 120) can be substituted for BIO 104. A higher-level laboratory chemistry class (such as CHM 115) can be substituted for CHM 109. See the School of Communications for an evaluation and further recommendations.

BMS 202 - Anatomy and Physiology (4 credits)

BMS 223 - Infectious Human Diseases; Prevention and Control (3 credits)

CHM 109 - Introductory Chemistry (4 credits)

AHS 340 - Health Care Management (3 credits)

AHS 100 - Medical Terminology (3 credits)

BIO 104 - Biology for the 21st Century (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Health Communication**

Core courses include 27 credits.

CAP 209 - Advertising Basics (3 credits)

CAP 219 - Public Relations Basics (3 credits)

CAP 321 - Media Relations Writing (3 credits)

CMJ 256 - News Reporting (3 credits)

CMJ 390 - Technical Writing (3 credits)

COM 209 - Health Communication Systems (3 credits)

COM 410 - Senior Seminar in Health Communication (3 credits)

COM 490 - Internship (1 to 6 credits)

MKT 300 - Fundamentals of Marketing for Non-Business Majors (3 credits)

## **Elective Courses**

There are six elective credits required. Choose two courses from the list or consult with your faculty advisor for assistance in choosing elective courses.

ANT 320 - Culture and Disease (3 credits)

COM 210 - Nonverbal Communication (3 credits)

COM 378 - Intercultural Communication (3 credits)

COM 438 - Communication Ethics (3 credits)

PH 222 - Public Health Concepts (3 credits)

SOC 286 - Sociology of Health Care (3 credits)

## **Capstone**

COM 495 - Issues in Communication (Capstone) (3 credits)

# **Health Informatics and Bioinformatics**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing section in this catalog.

**Website:** [gvsu.edu/grad/bioinfo](http://gvsu.edu/grad/bioinfo)

The Master of Science degree in health informatics and bioinformatics was developed in parallel with two other closely related M.S. programs, one in biostatistics and another in biotechnology. Recently a data science and analytics PSM program has been added. The curriculum for each of the four programs is interdisciplinary, shares a common core, has a similar curriculum design, has a mandatory business/industry internship component, and can be characterized as a "professional science master's degree."

The professional science master's (PSM) degree is an innovative graduate degree to allow students to pursue advanced training in science and technology, while simultaneously developing workplace skills valued by employers. PSM programs consist of two years of academic training in an emerging interdisciplinary area, closely tied to the scientific workforce needs of business/industry, with an intensive internship experience. The health informatics and bioinformatics Master of Science degree consists of 12 varied-credit courses (totaling 36 credit hours). Classes are in downtown Grand Rapids (Pew Grand Rapids Campus) at the Eberhard Center.

### **Mission**

The mission of the professional science masters (PSM) program in health informatics and bioinformatics is to educate and train graduates for leadership roles in healthcare and research institutions, pharma- and biotechnology industries and other sectors of the life sciences by providing them with interdisciplinary knowledge, skills and experience to use computer technology in managing and analyzing information in healthcare and the life sciences to create a qualified workforce for the future needs of the regional industry. We also require training in understanding ethical, social, and legal issues. We serve health and bioinformatics professionals and consumers by participating in relevant professional societies and continuing education programs, while maintaining informatics leadership in the community. We seek to attract diverse candidates from all backgrounds and experiences.

To enable students to attain this goal, the faculty have three primary responsibilities. First, we will offer a solid conceptual foundation required for a career in health informatics and bioinformatics. Second, we will provide direct, experiential knowledge of the technology necessary to be a productive user/producer of information technology in healthcare and the life sciences. Third, we will instill attitudes essential to all health informatics and bioinformatics professionals.

To achieve these goals, we:

- work continuously to keep our curriculum relevant to our mission;

- ensure that work-relevant experience is part of every class;

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

establish and nurture industrial contacts; and

establish an integrated, supported internship experience for our health informatics and bioinformatics students.

## **Admission to the Master of Science in Health Informatics and Bioinformatics Program**

U.S. students including international students with an undergraduate degree from a U.S. university must have an overall undergraduate grade point average of at least 3.0 on a 4-point scale or a satisfactory score on the GRE or GMAT test. All international students must have a satisfactory score on the GRE or GMAT test, regardless of their undergraduate GPA.

Submit a resume detailing work experiences and accomplishments.

Submit a personal statement of career goals and background experiences, including an explanation of how this program will help achieve educational and professional objectives.

Submit written recommendations from at least two individuals who are in positions to attest to the applicant's potential for successful completion of the program.

Applicants must have a base of underlying knowledge relevant to graduate study in the health informatics or bioinformatics fields. This can be demonstrated by previous academic study or work experience. Consultation with a program faculty advisor is necessary to verify appropriateness of work experience as a substitute for academic preparation. Candidates without sufficient relevant background experience may satisfy any deficiency with appropriate graduate or undergraduate courses, as recommended by a faculty advisor in the program and approved by the health informatics and bioinformatics admissions committee and the program director.

A health informatics and bioinformatics program Admissions Committee will determine admission to the program. Admission to the M.S. in health informatics and bioinformatics status may be full or conditional; conditional admission may be granted to applicants with deficiencies in their background. When identified deficiencies are satisfactorily met, the applicant will be granted full admission to the program. Applications for admission will be reviewed as they are submitted.

## **Curriculum Design**

Each of the PSM degree programs share courses common to all five programs, specific courses for critical content in each discipline, laboratory experiences essential for the development of requisite skill and knowledge sets, a common seminar series, a Capstone course, and internships to provide essential hands-on learning in the field. All five programs are interdisciplinary, non-

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

thesis, and involve both the university and its industry partners. All five programs emphasize teamwork, problem solving, communication, and scientific knowledge and technical skills. Each program is designed to integrate university coursework with business and industrial internships to better prepare students for the variety of career pathways associated with the life science and health science industries.

### **Internships**

A minimum of four credits of internship is a required component of the health informatics and bioinformatics program.

## **Master of Science in Health Informatics and Bioinformatics**

### **Requirements**

Overall requirements for the M.S. in health informatics and bioinformatics consist of 36 credits, with a cumulative GPA of 3.0. Consistent with Grand Valley policy, all courses must be completed within eight consecutive years from entry into the first graduate course.

Specific course requirements are included as follows.

#### **Common Core Courses**

Four courses are required (12 credits), including:

CMB 610 - Foundations of Biotechnology (3 credits)

CIS 661 - Introduction to Health and Bioinformatics (3 credits)

PSM 650 - Ethics and Professionalism in Applied Science (3 credits)

STA 610 - Applied Statistics for Health Professions (3 credits) **OR** STA 622 - Statistical Methods for Biologists (3 credits)

#### **Seminar Course**

Two credits are required:

PSM 662 - Seminar in Professional Science Practice (2 credits)

#### **Directed Courses**

There are five directed courses (15 credits) required, including:

CIS 635 - Knowledge Discovery and Data Mining (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://www.gvsu.edu/catalog) for the most current catalog information.

CIS 660 - Information Management and Science (3 credits)

CIS 671 - Information Visualization (3 credits)

**AND** choose one group from the following two-course sequences:

**Group One**

CIS 677 - High-performance Computing (3 credits)

CIS 678 - Machine Learning (3 credits)

**Group Two**

CIS 665 - Clinical Information Systems (3 credits)

**AND** one of the following:

PNH 630 - Health Administration and Service (3 credits)

PNH 635 - Hospital Organization and Management (3 credits)

**Internship**

Four credits are required:

PSM 691 - Internship (1 to 9 credits)

**Capstone**

Three credits are required:

CIS 691 - Medical and Bioinformatics Capstone (3 credits)

# **Health Information Management**

## **Health Information Management Major with a Minor in Health Care Information Systems**

**Faculty:** Julie Alles, DHA, RHIA, FAHIMA; Janna Pacey, DHA, RHIA

**Website:** [gvsu.edu/ahs/health-information-management-36.htm](https://gvsu.edu/ahs/health-information-management-36.htm)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Health information management (HIM) is the practice of acquiring, analyzing, and protecting digital and traditional medical information vital to providing quality patient care. HIM organizes and manages health information data by ensuring its quality, accuracy, accessibility, and security. Health information managers regularly communicate with physicians and other healthcare professionals to clarify diagnoses or to obtain additional information.

The increasing use of electronic health records (EHR) will continue to broaden and alter the job responsibilities of HIM. HIM administrators must be familiar with EHR computer software, maintaining EHR security, and analyzing electronic data to improve healthcare information. HIM uses EHR software to maintain data on patient safety and disease treatment and outcome. Administrators also may assist with improving EHR software usability and contribute to the development and maintenance of health information networks.

Students pursuing the health information management program will also complete the minor in health care information systems through the Computer Information Systems (CIS) department ([cis.gvsu.edu](http://cis.gvsu.edu)).

### **Program Accreditation**

The baccalaureate degree in health information management at Grand Valley State University is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

### **Secondary Admissions Criteria for the Health Information Management (HIM) Program:**

The HIM program is a secondary admission. The health information management courses and the minor in health care information systems courses will be delivered in a completely online format. The admissions process will take place winter semester and will require a HIM application be completed and submitted, prior to the fall entry of the same year. The minimum criteria for admission will be:

Completion of the HIM application form

A minimum overall GPA of 2.5

Completion of 45 semester hours, which includes current enrollment, verified by transcript(s)

Grade of C or better in BMS 250, BMS 251, and AHS 100

Completion of Prerequisite and General Education coursework prior to the practicum phase of the program

Students are strongly encouraged to meet periodically with their academic advisor in the College of Health Professions (CHP) to determine progress toward and eligibility for admission into the

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

health information management program. Refer to [gvsu.edu/chpss](http://gvsu.edu/chpss) for advisor appointments. Upon admission into the program students are assigned to a HIM faculty advisor.

## **Bachelor of Science in Health Information Management**

### **Required Courses**

AHS 100 - Medical Terminology (3 credits)

AHS 110 - Introduction to Health Care (3 credits)

AHS 301 - Introduction to Health Care Research (3 credits)

PH 222 - Public Health Concepts (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

CIS 150 - Introduction to Computing (3 credits)

CIS 160 - Learn to Code in Python (3 credits)

CIS 231 - Problem Solving Using Spreadsheets (3 credits)

CIS 233 - Concepts of Database Systems (3 credits)

CIS 237 - Introduction to Network Management (3 credits)

CIS 340 - Health Care Information Systems (3 credits)

HIM 301 - Introduction to Health Information Management (3 credits)

HIM 302 - Health Care Law (3 credits)

HIM 304 - Advanced Med Terms of Disease (3 credits)

HIM 310 - Functional and Administrative Practices in Health Information Management (3 credits)

HIM 311 - CPT/HCPCS Coding (3 credits)

HIM 320 - Applications of Organizational Planning for Health Information Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

HIM 345 - Orientation to Health Information Management Practicum (1 credit)

HIM 361 - Disease Classification System I (3 credits)

HIM 362 - Disease Classification System II (3 credits)

HIM 364 - Financial Reimbursement (3 credits)

HIM 365 - Quality Management in Health Care (3 credits)

HIM 366 - Health Information Data Systems and Statistics (3 credits)

HIM 402 - Health Information Management Review (1 credit)

HIM 470 - Field Practicum in Health Information Management (11 credits)

SOC 286 - Sociology of Health Care (3 credits)

Total Prerequisite credits	22
Total HIM Major/CIS Minor Credits	76
Total General Education Credits (unduplicated)	31
<b>Total Credits</b>	<b>129</b>

The minor in CIS health information systems is required in this program. Students must take two courses with the Supplemental Writing Skills (SWS) designation. Math 110 is a prerequisite to courses in the mathematical foundations. The health information and reimbursement emphasis under the allied health sciences major will be replaced by the health information management program.

## **Suggested Order of Coursework**

### **Year One**

Fall Semester (14 credits):

General education Arts (3 credits)

General education Philosophy and Literature (3 credits)

BIO 120 - General Biology I (4 credits)

WRT 150 - Strategies in Writing (4 credits)

Winter Semester (15 credits):

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

General education U.S. Diversity (3 credits)

General education Social and Behavioral Sciences (3 credits)

General education Physical Sciences (3 credits)

AHS 110 - Introduction to Health Care (3 credits)

CIS 150 - Introduction to Computing (3 credits)

## **Year Two**

Fall Semester (16 credits):

General education History (3 credits) HST 203 SWS is advised.

AHS 100 - Medical Terminology (3 credits)

BMS 250 - Anatomy and Physiology I (4 credits)

CIS 160 - Learn to Code in Python (3 credits)

CIS 231 - Problem Solving Using Spreadsheets (3 credits)

Winter Semester (16 credits):

General education Social and Behavioral Sciences (3 credits)

BMS 251 - Anatomy and Physiology II (4 credits)

CIS 233 - Concepts of Database Systems (3 credits)

CIS 237 - Introduction to Network Management (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

## **Year Three**

Fall Semester (15 credits):

General education Global Perspectives - Issues (3 credits)

PH 222 - Public Health Concepts (3 credits)

CIS 340 - Health Care Information Systems (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HIM 301 - Introduction to Health Information Management (3 credits)

HIM 304 - Advanced Med Terms of Disease (3 credits)

Winter Semester (15 credits):

General education Issues (3 credits)

HIM 361 - Disease Classification System I (3 credits)

HIM 364 - Financial Reimbursement (3 credits)

HIM 365 - Quality Management in Health Care (3 credits)

HIM 366 - Health Information Data Systems and Statistics (3 credits)

Sprint/Summer Semester (9 credits):

AHS 301 - Introduction to Health Care Research (3 credits)

HIM 302 - Health Care Law (3 credits)

HIM 362 - Disease Classification System II (3 credits)

## **Year Four**

Fall Semester (13 credits):

HIM 310 - Functional and Administrative Practices in Health Information Management (3 credits)

HIM 311 - CPT/HCPCS Coding (3 credits)

HIM 320 - Applications of Organizational Planning for Health Information Management (3 credits)

HIM 345 - Orientation to Health Information Management Practicum (1 credit)

SOC 286 - Sociology of Health Care (3 credits)

Winter Semester (13 credits):

HIM 402 - Health Information Management Review (1 credit)

HIM 470 - Field Practicum in Health Information Management (11 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# History

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/history](http://gvsu.edu/history)

The study of the past has captivated generations of people around the globe. As historical beings, we wonder about the ways our ancestors lived, the origins of our cultural and political practices, the causes of important events (both local and global), and the reasons for technological and economic disparities between peoples in our modern world. History explores the past in order to seek answers to such questions and to better understand our world.

As one of the liberal arts, history provides the opportunity to explore the past through a careful consideration of the evidence our forebears have left behind. Historians make critical contributions to society in diverse areas, such as teaching, the law, business, foreign and civil service, archival work, museum studies, professional writing and editing, and library science, just to name a few. In sum, a historian possesses the primary training for any job that requires analytical writing and reading skills and an ability to communicate ideas knowledgeably and clearly.

## **Degrees Offered:**

Bachelor of Arts, Bachelor of Science in history, major and minor for secondary teaching certification, minor in history, minor in history of science.

## **Mission**

The Department of History advances public knowledge and understanding of the past as it informs the present and future. We offer a multidisciplinary approach that combines our global cultural heritage with long-neglected voices, uses a range of tools and perspectives, and provides the knowledge and skills necessary for informed decision making.

## **Vision**

We provide a student-centered program that is committed to excellent teaching, scholarship, and service. Through our commitment to the liberal arts tradition, we help students develop skills of inquiry, reflection, critical analysis, dialogue, and expression. We are dedicated to inspiring all our students, be they our history and group social studies majors or students we encounter in our general education courses, to pursue excellence in their chosen professions and serve the broader local, regional, national, and international communities in which they live.

As a community of scholars, we help to enlarge the state of knowledge in our field through our active engagement in intellectual and creative pursuits. We recognize that active scholarship enriches our teaching and enables us to serve students, the university, and the broader

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

community. We bring the historian's perspective to courses in the Meijer Honors College and other interdisciplinary programs, and we participate actively in preparing teachers of history and social studies, as well as preparing our majors for further study and careers in a variety of fields. We promote faculty and student participation in national and international inquiry and discourse. We are dedicated to serving the broader West Michigan community through our engagement in local and regional history forums.

## **Participating Programs**

The history department participates with the following:

African/African American studies

Archaeology

Art history

Classics

College of Education

East Asian studies

Frederik Meijer Honors College

Group social studies

International relations

Integrative studies

Latin American studies

Middle East studies

Women, gender, and sexuality studies

## **Honors Organization**

### **Phi Alpha Theta**

The local chapter of this international history honor society promotes the study of history by honoring students who have maintained high academic standards throughout their college careers. Members participate in a variety of intellectual and social activities throughout the academic year. Students who have completed at least four history classes at Grand Valley State University with a minimum GPA of 3.25 in those history classes, and an overall GPA of at least

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

3.25 are encouraged to apply. Contact Professor Alice Chapman, chapter advisor, for more information.

## **Bachelor of Arts or Bachelor of Science in History**

### **Requirements for a History Major**

#### **Without Secondary Teaching Certification**

Students majoring in history are required to complete at least 39 credit hours, including a course in writing history (HST 200 - Introduction to the Study of History), any three 200-level foundation courses, six 300-level electives, two junior seminars, and the Capstone.

The electives in history for all majors must include at least one 300-level course in U.S. history, one 300-level course in European history, and one 300-level course in non-Western history. All students must also take three additional upper-division history courses from among HST 300-399, HSC 399, HST 405, HST 415, HST 420, and HST 490. Students will select those courses in consultation with their major advisor. Majors must maintain a GPA of at least 2.0 in courses in the department and must receive a grade of C or better in HST 200 and HST 495.

#### **With Secondary Teaching Certification**

Students majoring in history with secondary teaching certification are required to complete at least 39 credit hours, including a course in writing history (HST 200 - Introduction to the Study of History), two World history courses (HST 203 - World History to 1500 A.D. and HST 204 - World History since 1500), two American history courses (HST 205 - American History to 1877 and HST 206 - American History since 1877), and the Capstone. Students pursuing teacher certification must also take SST 310 and six 300-level electives in history. Only one of the foundation courses can come from the 100-level.

The electives in history for all majors must include at least one 300-level course in United States history, one 300-level course in European history, and one 300-level course in non-Western history. All students must also take three additional 300-level history courses. An internship, HST 490 or HST 415, may be substituted for a 300-level elective. Students will select those courses in consultation with their major advisor. Majors must maintain a GPA of at least 2.0 in courses in the department and must receive a grade of C or better in HST 200 and HST 495. Majors seeking teacher certification must maintain a GPA of at least 3.0 in the major.

### **B.A. or B.S. Degree Requirements**

Students planning to enter a program of graduate study in history should earn a B.A. degree. Candidates for the B.A. degree must demonstrate third-semester proficiency in a foreign language, either by completing successfully a 201-level language course or by passing a proficiency examination in the language chosen.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

History and social studies majors will have the opportunity to complete a B.S. degree. The B.S. option is designed to give students training in scientific analysis that they can apply to their careers in teaching and historical research. A B.S. in history can be fulfilled by taking the following courses.

Please note that STA 215 is a prerequisite for HST 290 (or EDT 370 if student is majoring in group social studies or fulfilling requirements for a secondary certification).

Students who choose to earn a B.S. degree must complete the following sequence:

STA 215 - Introductory Applied Statistics (3 credits)

HST 290 - Research Methods in History (3 credits)

HST 400 - Junior Seminar in History (3 credits)

Students who choose to earn a B.S. degree with secondary certification must complete the following sequence:

STA 215 - Introductory Applied Statistics (3 credits)

EDT 370 - Technology in Education (3 credits)

HST 290 - Research Methods in History (3 credits)

### **Writing History**

HST 200 - Introduction to the Study of History (3 credits)

### **History Foundation Courses**

The following restrictions apply to the history foundation requirements:

Students who take HST 101 may only count one of the following foundation courses toward the major: HST 203 or HST 204.

Students who take HST 102 may only count one of the following foundation courses toward the major: HST 207 or HST 208.

Students who take HST 103 may only count one of the following courses toward the major: HST 205 or HST 206.

HST 101 - Introduction to World Civilizations (3 credits)

HST 102 - Introduction to European Civilizations (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 103 - Introduction to American Civilizations (3 credits)

HST 203 - World History to 1500 A.D. (3 credits)

HST 204 - World History since 1500 (3 credits)

HST 205 - American History to 1877 (3 credits)

HST 206 - American History since 1877 (3 credits)

HST 207 - European Civilization to the Later Middle Ages (3 credits)

HST 208 - European Civilization since the Later Middle Ages (3 credits)

HST 211 - History of Islamic Civilization (3 credits)

HST 212 - India: History and Civilization (3 credits)

HST 230 - Latin America in World History (3 credits)

HST 240 - A History of East Asia to 1800 (3 credits)

HST 241 - A History of East Asia since 1800 (3 credits)

HSC 201 - The Scientific Revolution (3 credits)

HSC 202 - The Technological Revolution (3 credits)

\*Students seeking teacher certification are required to take:

SST 310 - Teaching Social Studies: Secondary (3 credits)

## **Elective Courses**

### **Category One: U.S. History**

HST 301 - Colonial America (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 302 - Revolutionary America (3 credits)

HST 303 - Era of Sectional Conflict, Civil War, and Reconstruction (3 credits)

HST 305 - America Confronts Modernity (3 credits)

HST 306 - The 'American Century': From the Great Depression to Vietnam (3 credits)

HST 307 - United States since 1970 (3 credits)

HST 308 - Cultural and Social Topics in U.S. History (3 credits)

HST 311 - History of Religion in the United States (3 credits)

HST 312 - History of American Women (3 credits)

HST 314 - African American History (3 credits)

HST 315 - Latinos: The Forging of Ethnic Identities (3 credits)

HST 316 - U.S. Civil Rights Movement History (3 credits)

HST 317 - History of American Foreign Relations (3 credits)

HST 318 - History of Democracy in America (3 credits)

HST 320 - American Indians (3 credits)

HST 323 - Michigan History (3 credits)

HST 327 - History of United States Urban Society (3 credits)

HST 328 - U.S. Constitutional and Legal History (3 credits)

HST 329 - U.S. Intellectual History (3 credits)

HST 370 - History of Medicine and Health (3 credits)

HST 378 - Contesting Human Rights (3 credits)

**Category Two: European History**

HST 309 - Cultural and Social Topics in European History (3 credits)

HST 350 - Ancient Greece (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 351 - Ancient Rome (3 credits)

HST 355 - Medieval Europe (3 credits)

HST 360 - Tudor and Stuart England (3 credits)

HST 361 - Modern Britain (3 credits)

HST 364 - Renaissance and Reformation Europe (3 credits)

HST 370 - History of Medicine and Health (3 credits)

HST 377 - History of Warfare (3 credits)

HST 378 - Contesting Human Rights (3 credits)

HST 386 - 20th Century Europe (3 credits)

HST 387 - Modern Germany (3 credits)

HST 390 - Soviet History (3 credits)

### **Category Three: Non-Western History**

HST 310 - Cultural and Social Topics in Nonwestern History (3 credits)

HST 330 - Colonial Latin America (3 credits)

HST 331 - Modern Latin America (3 credits)

HST 332 - Emergence of Modern India and South Asia (3 credits)

HST 333 - Modern China (3 credits)

HST 334 - The Making of the Caribbean (3 credits)

HST 335 - Africa Before 1870 (3 credits)

HST 336 - Africa After 1870 (3 credits)

HST 337 - The Age of Islamic Empire (3 credits)

HST 338 - Modern Middle East (3 credits)

HST 339 - Modern Iran (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 342 - History of Buddhism and East Asian Religions (3 credits)

HST 343 - History of South Africa (3 credits)

HST 372 - From Slavery to Freedom (3 credits)

HST 374 - Revolution in the Americas (3 credits)

HST 375 - History of Mexico (3 credits)

HST 389 - Russian History (3 credits)

HST 393 - Study Abroad: Jamaica (1 to 6 credits)

### **Course Options**

Depending on the topic studied, these courses may be used for any of the three categories. Consult with your advisor.

HST 325 - Topics in the History of Sport (3 credits)

HST 371 - Historical Perspectives on Gender and Sexualities (3 credits)

HST 376 - History of Witch Hunts (3 credits)

HST 378 - Contesting Human Rights (3 credits)

HST 380 - Special Topics in History (1 to 4 credits)

HST 399 - Independent Study (1 to 3 credits)

HST 420 - Public History (3 credits)

HST 490 - History Internship (1 to 3 credits)

HSC 399 - Readings in the History of Science (1 to 3 credits)

### **Junior Seminar in History**

History majors (nonteaching certification) are required to take either two junior seminars **OR** one junior seminar plus completion of a senior thesis.

HST 400 - Junior Seminar in History (3 credits)

HST 498 - Senior Thesis (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Capstone**

All history majors are required to take the Capstone:

HST 495 - Varieties of History (Capstone) (3 credits)

## **Transfer Students**

Transfer students seeking a major in history must complete at least 12 credits in history at Grand Valley, including a minimum of two upper-level courses. Ordinarily, transfer students will complete the Capstone course (HST 495) at Grand Valley.

## **Suggested Order of Coursework for a History Major**

### **Without Secondary Teaching Certification**

#### **Year One**

MTH 110 - Algebra (4 credits)

WRT 150 - Strategies in Writing (4 credits)

General education Foundations (three courses)

Two foreign language courses (B.A. candidates) **OR** STA 215 - Introductory Applied Statistics (3 credits) **AND** HST 290 - Research Methods in History (3 credits) (B.S. candidates)

HST 200 - Introduction to the Study of History (3 credits)

HST 290 - Research Methods in History (3 credits)

Any 200-level history course

#### **Year Two**

General education Foundations (four courses)

Any two 200-level history courses

Three 300-level history elective courses

One foreign language course (B.A. candidates)

#### **Year Three**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Three 300-level history courses

One history junior seminar

Four elective courses

General education Issues

### **Year Four**

Three 300-level history courses

General education Issues

One history junior seminar or senior thesis

Five elective courses

HST 495 - Varieties of History (Capstone) (3 credits)

### **With Secondary Teaching Certification**

### **Year One**

MTH 110 - Algebra (4 credits)

WRT 150 - Strategies in Writing (4 credits)

General education Foundations (two courses)

Two foreign language courses (B.A. candidates) **OR** STA 215 - Introductory Applied Statistics (3 credits) **AND** HST 290 - Research Methods in History (3 credits) (B.S. candidates)

HST 200 - Introduction to the Study of History (3 credits)

HST 203 - World History to 1500 A.D. (3 credits)

HST 204 - World History since 1500 (3 credits)

### **Year Two**

General education Foundations (five courses)

HST 205 - American History to 1877 (3 credits)

HST 206 - American History since 1877 (3 credits)

Two elective courses

One foreign language course (B.A. candidates)

### **Year Three**

Three 300-level history courses

Five elective courses

SST 310 - Teaching Social Studies: Secondary (3 credits)

Four elective courses

General education Issues

### **Year Four**

Three 300-level history courses

General education Issues

Six elective courses

HST 495 - Varieties of History (Capstone) (3 credits)

### **Additional Course Information**

Courses at the 100-level are introductory courses designed to fulfill the general education requirement in historical perspectives. Courses at the 200-level are introductory courses designed to prepare students for advanced study in history; HST 203 and HSC 201 also fulfill the general education requirement in Historical Perspectives. Courses at the 300-level focus on particular regions, eras or themes; they are intended for history majors and minors, social studies majors, and other interested students. All 300- and 400-level courses have prerequisites; 600-level courses are intended for graduate students and very well-qualified seniors.

We strongly encourage students to seriously contemplate taking advantage of the various semester and year-long study abroad opportunities offered by Grand Valley. History courses taken abroad may count toward the major or minor if granted prior permission by the Department of History chairperson.

### **Teacher Certification**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Postgraduate students seeking teacher certification with a major in history must present a history major that includes courses in American, European, and world history and **must have obtained a major GPA of at least 3.0 in previous work**. Postgraduate students whose degree in history was completed more than three years prior to Grand Valley admission must demonstrate currency by completing at least two upper-level history courses at Grand Valley; such students **must maintain a minimum GPA of 3.0 in those courses**. Students should also consult the chair or the assistant chair for an evaluation of their previous work and to discuss appropriate courses.

## History Minor

### Requirements for a Minor in History (non-teaching)

Students who minor in history must complete at least 20 credit hours, including:

HST 200 - Introduction to the Study of History (3 credits)

#### Additional Courses

The remaining six history courses must be selected and meet the following requirements:

No more than three credits can be taken at the 100-level

No more than six credits can be taken at the 200-level (exclusive of HST 200)

At least nine credits must be taken at the 300- or 400-level

Minors must maintain a GPA of at least 2.0 (cumulative) in courses in the department.

Students may also count up to three credit hours of HST 490 - History Internship. We encourage students to take advantage of the various semester- and year-long study abroad opportunities led by Grand Valley faculty members. History courses taken abroad may count toward the major or minor if granted prior permission by the Department of History chairperson.

Students may count HSC 201 or HSC 202 toward HST 200-level courses, and they may count HSC 399 toward HST 300-level courses.

Transfer students seeking a minor in history must complete at least six credits from among the Grand Valley history offerings at the 300- or 400-level.

### Requirements for a Minor in History (teaching)

To complete requirements for the teachable minor, students are required to take two courses that fulfill general education requirements from the social studies core and eight courses that make up the teachable minor. Two elective courses are chosen from HST 211 and the department's upper-division courses (HST 301- HST 399). One of these two electives must be either European or

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

non-Western history; the other course may be in any area of history. HST 211 counts as a non-Western history course.

\*Note: If you are planning a social studies major with an emphasis in history, as well as a history minor, please work with your social studies advisor to ensure that you have enough unduplicated credits. In order to meet state certification requirements for nonduplication of credits in the major and the minor (36 unduplicated in a group major and 20 unduplicated in the minor), you may only use two history courses from the social studies major toward the history minor.

## **Required Courses**

Required to be taken in fulfillment of general education SBS requirements:

GPY 235 - Geography for a Changing World (3 credits)

Required to be taken as part of the history minor:

HST 200 - Introduction to the Study of History (3 credits)

HST 203 - World History to 1500 A.D. (3 credits)

HST 204 - World History since 1500 (3 credits)

HST 205 - American History to 1877 (3 credits)

HST 206 - American History since 1877 (3 credits)

PLS 206 - American Constitutional Foundations (3 credits)

SST 310 - Teaching Social Studies: Secondary (3 credits)

## **Additional Courses**

Require two electives, at least one in European or non-Western history:

HST 3\_\_ - \_\_\_\_\_

HST 3\_\_ - \_\_\_\_\_

**OR**

HST 211 - History of Islamic Civilization (3 credits)

**Minors seeking teacher certification must maintain a GPA of at least 3.0 in the minor.**

Students may also count up to three credit hours of HST 490 - History Internship. We encourage students to take advantage of the various semester- and year-long study abroad opportunities led by Grand Valley faculty members. History courses taken abroad may count toward the major or minor if granted prior permission by the Department of History chairperson.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Transfer students seeking a minor in history must complete at least six credits from among the Grand Valley history offerings listed in categories one, two, and three.

## **History of Science Minor**

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

In today's technological society no person can be considered to be truly educated unless he or she has an understanding of the role of science in the world. The history of science program offers students the opportunity to go beyond the accumulation of scientific facts and to gain an understanding of the historical roots of science and technology as well as the interaction between scientific history and social, literary, economic, and political history. Thus, scientists can understand the history of their discipline as a part of the progress of human civilization. Nonscientists, on the other hand, can see that science is not a frightening series of facts and formulas that appeared from the chaos, fully developed in the brain of an Einstein or a Newton.

In this regard, the history of science is no different from any other branch of intellectual history. However, because new scientific theories by their very nature render earlier theories obsolete and worthless (at least to practicing scientists), interest in scientific history has been a relatively recent phenomenon.

### **Requirements for a Minor in History of Science**

A student choosing history of science as a minor program must complete 20 hours of study in the history of science, normally including HSC 201, HSC 202, HSC 399, and related courses from other units. Courses not regularly offered may be available through independent study. Such a minor is not recognized as a teachable minor.

## **Undergraduate Certificate in Medical and Health Humanities**

Medical and health humanities is a multidisciplinary investigation of medical and health-related topics. This certificate program allows students pursuing careers in health or health-related majors, premedicine, nursing, athletic training, child life, and social work to broaden their understanding of medicine and health by incorporating the diverse perspectives of a variety of disciplines in the liberal arts and sciences. Completion of courses in the student's plan of study will result in award of the certificate in medical humanities. This shall be noted on the student's official university transcript. Students must apply for an audit for a nonteaching certificate upon completion. Visit this webpage for the certificate request form: [gvsu.edu/s/MI](http://gvsu.edu/s/MI).

### **Requirements for a Certificate in Medical and Health Humanities**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

The medical and humanities certificate requires 11 to 12 credits from the courses listed as follows. No more than two courses can have the same department prefix. Students can only apply two courses from the certificate toward a major and another two to a minor.

### **Core Course**

HST 370 - History of Medicine and Health (3 credits) (I-H, SWS)

### **Elective Courses**

The additional eight to nine credits are to be completed by taking one course from each of the three categories:

Perspectives on Human Health and Development

Perspectives Related to End of Life

Ethics in Health and Medicine

I = Issues courses: I-H = Humanities, I-I = Identity, I-HR = Human Rights, I-S = Sustainability

### **Perspectives on Human Health and Development**

AHS 352 - Introduction to Holistic Health Care (3 credits)

ANT 320 - Culture and Disease (3 credits)

COM 209 - Health Communication Systems (3 credits)

INT 325 - LGBTQ Identities (3 credits) Identity (I-I)

PED 207 - Personal Health and Wellness (3 credits)

PSY 364 - Life Span Developmental Psychology (3 credits)

PSY 367 - Health Psychology (3 credits) Health (I-H)

SOC 286 - Sociology of Health Care (3 credits)

WGS 335 - Women, Health and Environment (3 credits) Sustainability (I-S)

### **Perspectives Related to End of Life**

ENG 386 - Literary Responses to Death and Dying (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HNR 280 - Honors Special Topics (1 to 3 credits) Evaluated case-by-case; HNR 280 may only be used once in the certificate program.

INT 314 - Life Journeys (3 credits) Identity (I-I)

NUR 344 - Healthy Aging: A Lifelong Journey (3 credits)

NUR 354 - Living with Life-Limiting Illness (3 credits) Health (I-H)

PHI 341 - Philosophy of Death and Dying (3 credits)

SOC 386 - Death and Dying (3 credits)

SOC 388 - Middle Age and Aging (3 credits)

### **Ethics in Health and Medicine**

AHS 321 - Ethical and Legal Responsibilities in Health Care (3 credits)

BIO 328 - Biomedical Ethics (3 credits) Health (I-H)

COM 438 - Communication Ethics (3 credits) Identity (I-I)

HNR 280 - Honors Special Topics (1 to 3 credits) Evaluated case-by-case; HNR 280 may only be used once in the certificate program.

HNR 312 - Honors Junior Seminar (3 credits)

PH 222 - Public Health Concepts (3 credits)

**OR** BMS 223 - Infectious Human Diseases; Prevention and Control (3 credits)

PHI 202 - Philosophy and Ethics of Health (3 credits)

PHI 325 - Ethics in Professional Life (3 credits) Human Rights (I-HR)

PLS 310 - Politics and Health Policy (3 credits)

With permission, additional special topics courses can be counted toward the medical humanities certificate.

### **Transfer Students**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A maximum of two courses can be credited by transfer toward completion of the medical humanities certificate. Students must complete at least two of the courses for the certificate at GVSU.

### **Honors Students**

Some HNR 280 courses can be used to fulfill the certificate requirements. Sign-off will be handled on a case-by-case basis. HNR 280 can only be used to fulfill one of the elective categories.

Examples:

Ethics: HNR 280 - Food for Thought (semester 2)

End-of-Life Perspectives: HNR 280 - Live, Learn, Lead: Saging and Aging

### **Certificate Checklist**

Track the 11 to 12 credit requirements using the following list:

\_\_\_\_\_ Core Course: HST 370 - History of Medicine and Health

\_\_\_\_\_ Perspectives on Human Health and Development course: \_\_\_\_\_

\_\_\_\_\_ Perspectives Related to End of Life course: \_\_\_\_\_

\_\_\_\_\_ Ethics in Health and Medicine course: \_\_\_\_\_

## **Hospitality and Tourism Management**

For additional information about opportunities your college offers, please refer to the School of Public, Nonprofit, Health, Hospitality, and Tourism Management section in this catalog.

**Website:** [gvsu.edu/htm](http://gvsu.edu/htm)

### **Degree Offered**

B.S. in hospitality and tourism management.

### **Mission**

To provide outstanding community focused hospitality and tourism professionals with dynamic management and leadership skills grounded in significant, contemporary industry experience.

## **Adventure Tourism Management Minor**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Requirements**

Students in HTM and other majors may minor in adventure tourism management by completing 12 credits in the required core, two credits from the FIT courses, and seven elective credits as per the following plan.

### **Foundation Courses**

Complete the following 12 credits:

HTM 268 - Adventure Tourism (3 credits)

HTM 235 - Tourism and Recreation Management (3 credits)

HTM 368 - Geotourism (3 credits)

NRM 420 - Wildland Recreation Management (3 credits) Offered in fall only.

### **FIT Courses**

Choose two from the following:

FIT 119 - Outdoor Skills (1 credit)

FIT 128 - Rock Climbing (1 credit)

FIT 153 - Sailing-Large Boat (1 credit)

**OR** choose from other FIT courses with approval of department chair/assistant chair.

### **Electives**

To complete the adventure tourism management minor, students must also undertake a minimum of seven additional credits from the following:

HTM 202 - International Tourism (3 credits)

NRM 451 - Natural Resource Policy (3 credits)

NRM 300 - Ethical Recreation: Leave No Trace (1 credit)

MGT 345 - Team Building (3 credits)

MGT 330 - Entrepreneurship and Small Business Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MGT 364 - Service Operations Management (3 credits)

\*HTM 290/HTM 390/HTM 490 Field Experience (2 credits) Adventure tourism-based.

\*Students minoring in adventure tourism management are encouraged to consider including at least one field experience course in their program. MGT, NRM, MOV appropriate adventure-based internships may be included.

Interested students should meet with the HTM chair or assistant chair to establish a specific minor plan.

## **Bachelor of Science in Hospitality and Tourism Management**

### **Requirements**

#### Business Cognates

ACC 201 - Accounting for Non-Business Majors 1 (1.5 credits)

ACC 202 - Accounting for Non-Business Majors 2 (1.5 credits)

BUS 201 - Legal Environment for Business (3 credits)

MKT 300 - Fundamentals of Marketing for Non-Business Majors (3 credits) **OR** MKT 350 - Marketing Management (3 credits)

The hospitality and tourism program offers a Bachelor of Science (B.S.) degree. The program combines a directed sequence of field experiences with a comprehensive interdisciplinary curriculum consisting of courses in the arts and sciences, business, and hospitality and tourism.

### **Degree Requirements**

Students must complete the general university degree requirements as identified in the General Academic Regulations section of the Grand Valley State University Undergraduate and Graduate Catalog.

### **Core Management Courses**

There are 38 core credits required.

CIS 150 - Introduction to Computing (3 credits)

HTM 101 - Introduction to Hospitality and Tourism (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HTM 213 - Introduction to Food and Beverage Management (3 credits)

HTM 222 - Introduction to Lodging Management (3 credits)

HTM 273 - Hospitality and Tourism Financial Decision Making (3 credits)

HTM 343 - Human Resource Management (4 credits)

HTM 361 - Hospitality Law and Legislation (3 credits)

HTM 373 - Hospitality Information Analysis (4 credits)

HTM 375 - Hospitality and Tourism Research (3 credits)

HTM 452 - Hospitality and Tourism Marketing (3 credits)

HTM 495 - Hospitality Management (Capstone) (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

### **Field Courses**

There are seven credits required.

HTM 190 - Field Preparation (1 credit)

HTM 290 - HTM Field Experience I (2 credits)

HTM 390 - HTM Field Experience II (2 credits)

HTM 490 - HTM Senior Internship (2 credits)

### **Concentrations**

There are a minimum of 18 credits\* required.

Complete two of the following six concentrations:

#### **1. Meeting and Event Management**

HTM 240 - Introduction to Meeting and Event Management (3 credits)

\*HTM 253 - Convention Sales and Service (3 credits)

HTM 440 - Advanced Meeting and Event Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## 2. Tourism Management

HTM 202 - International Tourism (3 credits)

HTM 268 - Adventure Tourism (3 credits) **OR** HTM 368 - Geotourism (3 credits)

HTM 402 - Tourism Policy Issues (3 credits)

## 3. Lodging Management

\*HTM 318 - Responsible Beverage Management (3 credits) **OR** \*HTM 253 - Convention Sales and Service (3 credits)

HTM 333 - Hospitality Facilities Management (3 credits)

HTM 422 - Advanced Lodging Management (3 credits)

## 4. Food and Beverage Management

HTM 250 - Food Production and Kitchen Management (4 credits) **OR** HTM 350 - Banquet and Catering Management (3 credits)

\*HTM 318 - Responsible Beverage Management (3 credits)

HTM 413 - Advanced Food and Beverage Management (3 credits)

## 5. Recreation and Leisure Management

HTM 235 - Tourism and Recreation Management (3 credits)

HTM 237 - Fundamentals of Recreation and Leisure Programming (3 credits)

HTM 437 - Leadership in Recreation and Leisure (3 credits)

## 6. Department Approved Customized Concentration (example as follows)

HTM 175 - International Food and Culture (3 credits)

HTM 323 - Festival and Special Event Management (3 credits)

HTM 330 - International Event Management (3 credits)

Please consult the HTM department chair or assistant chair to obtain a program of study for concentration number six. \*Note: HTM 253 and HTM 318 can only be taken once and cannot be counted in more than one concentration (no double dipping).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Suggested Order of Coursework**

### **Year One**

CIS 150 - Introduction to Computing (3 credits)

HTM 101 - Introduction to Hospitality and Tourism (3 credits)

HTM 190 - Field Preparation (1 credit)

HTM 290 - HTM Field Experience I (2 credits)

MTH 110 - Algebra (4 credits)

WRT 150 - Strategies in Writing (4 credits)

Five general education courses

### **Year Two**

ACC 201 - Accounting for Non-Business Majors 1 (1.5 credits)

ACC 202 - Accounting for Non-Business Majors 2 (1.5 credits)

BUS 201 - Legal Environment for Business (3 credits)

HTM 213 - Introduction to Food and Beverage Management (3 credits)

HTM 222 - Introduction to Lodging Management (3 credits)

HTM 273 - Hospitality and Tourism Financial Decision Making (3 credits)

HTM 390 - HTM Field Experience II (2 credits)

STA 215 - Introductory Applied Statistics (3 credits)

Two HTM concentrations/core courses

Two general education courses

### **Year Three**

HTM 343 - Human Resource Management (4 credits)

HTM 373 - Hospitality Information Analysis (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HTM 375 - Hospitality and Tourism Research (3 credits)

HTM 490 - HTM Senior Internship (2 credits)

MKT 350 - Marketing Management (3 credits)

Two HTM concentration courses

Two general education courses

## **Year Four**

HTM 361 - Hospitality Law and Legislation (3 credits)

HTM 452 - Hospitality and Tourism Marketing (3 credits)

HTM 495 - Hospitality Management (Capstone) (3 credits)

Two HTM concentration courses

Two general education courses

Three open electives

## **Badge in Food and Beverage Service**

The HTM badge in food and beverage service provides students with the knowledge and skills to work responsibly and productively in the food and beverage industry. Upon completion of the badge (not a degree or certificate), students will be able to perform the following:

Identify strategies to provide superior service to guests.

Apply best practices in food safety.

Develop procedures for proper ordering, receiving, storing and issuing of food and supplies.

Apply standard equipment purchasing and layout principles

Calculate and apply food and beverage cost and revenue control systems.

Explain basic nutritional issues associated with food production.

Explain important social concerns associated with food production, preparation and consumption.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Demonstrate how various ingredients react to different forms of cookery.

Explain food safety regulations, regulatory agencies, and inspection processes.

Explain licensing issues related to food and beverage management.

Develop a labor schedule.

### **Program Location**

The program is offered online, except for HTM 250 lab sessions held at the Meadows in Allendale, Michigan.

### **Contact**

Scott Rood, Assistant Director, Department of Hospitality and Tourism Management

### **Admission**

Candidates can apply for admission as a degree-seeking or nondegree-seeking student.

### **Requirements**

The digital badge is comprised of three courses (eight credits), including:

HTM 201 - Good Food Gone Bad: Food Safety for Everyone (1 credit)

HTM 213 - Introduction to Food and Beverage Management (3 credits)

HTM 250 - Food Production and Kitchen Management (4 credits)

## **Hospitality and Tourism Management Minor**

### **Requirements for a Minor in Hospitality and Tourism Management**

Students in other majors may minor in hospitality and tourism management by completing a minimum of seven courses in HTM, including HTM 101 - Introduction to Hospitality and Tourism, totaling a minimum of 21 credits, with approval of department chair/assistant chair. Students minoring in HTM are encouraged to consider including at least one field experience course in their program. Interested students should meet with the HTM chair or assistant chair to establish a specific plan.

For courses, curriculum, other degree related information, and faculty listings, please visit the Grand Valley State University catalog online at [gvsu.edu/catalog](https://gvsu.edu/catalog).

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

# Human Resource Management

## Bachelor of Business Administration in Human Resource Management

This major emphasizes the relationship between an organization and its employees. Human resource specialists play a strategic and critical role by designing policies, programs, processes, and systems that build efficient, effective, and sustainable organizations. Our curriculum includes learning how organizations design and administer policies in recruiting and selection, training, diversity and equal opportunity, performance management, compensation and benefits, employee rights and discipline, and labor relations.

### Requirements for the B.B.A.

#### Core Courses

All business core courses acquaint you with various fields in business and help you learn to communicate, to interact, and to assume responsible positions in your chosen field.

For the B.B.A., you must complete the following courses.

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

**BOTH** ECO 210 - Introductory Macroeconomics (3 credits) **AND** ECO 211 - Introductory Microeconomics (3 credits)

**OR ONLY** ECO 200 - Business Economics (3 credits)

Upper-division economics course, other than ECO 490 (3 credits)

FIN 320 - Managerial Finance (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 366 - Operations Management (3 credits)

MGT 495 - Administrative Policy (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MKT 350 - Marketing Management (3 credits)

Students are required to select one class from the following list. This course may count toward the major or minor if applicable.

ACC 333 - Corporate Governance and Accounting Ethics (3 credits)

ECO 440 - Public Economics and Ethics (3 credits)

FIN 330 - Ethics in Finance (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 438 - Business Ethics (3 credits)

MKT 375 - Marketing Ethics (3 credits)

### **Required Business Electives**

Three upper-division business courses are not applied to the major or minor (nine credits total). However, these courses can be applied toward a second business major if one is declared.

### **Elective Courses**

Students may elect nonbusiness or business courses to fulfill their elective course requirements. Students may apply up to six hours of internship and independent research credit, in any combination, toward their degree requirements. Business majors may not take any of the major courses, except the internship and study abroad courses, on a credit/no-credit basis.

### **Required Courses**

Business core and the following:

STA 215 - Introductory Applied Statistics (3 credits)

MGT 333 - Human Resource Management (3 credits)

MGT 334 - Employment and Labor Law (3 credits)

MGT 336 - Compensation and Benefits Management (3 credits)

MGT 429 - Staffing and Development (3 credits)

MGT 431 - Strategic Human Resources Management (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Quantitative group - choose one:

MTH 122 - College Algebra (3 credits)

MTH 125 - Survey of Calculus (3 credits)

MTH 201 - Calculus I (4 credits)

PHI 103 - Logic (3 credits)

MGT 361 - Management Science (3 credits)

**AND** one of the following:

MGT 355 - The Diversified Workforce (3 credits)

MGT 430 - Organizational Development (3 credits)

MGT 432 - Grievance Administration, Arbitration, and Collective Bargaining (3 credits)

MGT 433 - International Human Resource Management (3 credits)

## **Human Rights Minor**

Human rights have become the moral language of today in fields as disparate as philosophy, international politics and health care, as well as other service professions. This program provides students with both intellectual and practical opportunities to engage with human rights in preparation for encountering a wide variety of 21st century political issues, social problems, and employment opportunities.

The human rights curriculum is distinctively interdisciplinary, mirroring the world of human rights today. Completing the minor will equip students with key concepts and opportunities within this world, such as:

The political, philosophical, and legal development of human rights concepts within academic scholarship and political practice

The role of human rights in international relations and law

The growth of human rights institutions, courts, tribunals, and the emergence of human rights law as a profession

The explosive growth of humanitarian organizations and nongovernmental organizations (NGOs) dedicated to human rights activism and practice.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The incorporation of human rights concerns in the corporate world regarding job relocation, human resources, and international investment.

## **Admission**

Anyone admitted to GVSU as a degree-seeking student can declare the human rights minor.

## **Minor Requirements**

Students must complete 19 credits, including the introductory and Capstone courses, two courses from the core courses, and three additional elective courses. A maximum of three of the core and elective courses may be from the same prefix.

## **Required Courses**

There are four credits required.

HRT 105/PLS 105 - Introduction to Human Rights (3 credits)

HRT 450 - Reflection on Human Rights (1 credit)

## **Core Courses**

Take two courses (three credits each) from the core; each course must have a different prefix.

CJ 325 - Criminal Justice and Human Rights (3 credits)

HST 378 - Contesting Human Rights (3 credits)

PLS 316/HRT 316 - Human Rights in International Politics (3 credits)

HST 319/INT 319/HRT 319 - Human Traffic and Trafficking (3 credits)

INT 320/HRT 320 - Voices of the Civil Rights Movement in the United States (3 credits)

PLS 335/HRT 335 - Theory of Human Rights (3 credits)

PLS 240 - The Holocaust (3 credits)

SOC 306 - The Sociology of Human Rights (3 credits)

GSI 215/PLS 215 - Global Migration (3 credits)

## **Elective Courses**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

There are nine credits required. Take three courses (three credits each) from the electives list that follows, with no more than two courses from a single major/designator. Courses from the core courses list may also be counted as electives, but a single course may not count both as a core course and an elective.

AAA 319 - African Politics (3 credits)

AAA 352 - Black Women's Culture and Communities (3 credits)

ANT 345 - Perspectives on Globalization (3 credits)

ANT 370 - Cross-cultural Perspectives on Gender (3 credits)

CLA 367 - Thinking Like a (Roman) Lawyer (3 credits)

CJ 305 - Constitutional Rights and Civil Liberties (3 credits)

CJ 320 - Crimes Against Women (3 credits)

CJ 482 - Culture, Crime and Justice (3 credits)

ECO 350 - Economics of Gender (3 credits)

ENG 335 - Literature of American Minorities (3 credits)

ENG 336 - Lesbian, Gay and Queer Literature (3 credits)

ENG 392 - Language and Power (3 credits)

GPY 335 - Globalization and Development (3 credits)

GPY 351 - Geography of Africa (3 credits)

HRT 380 - Special Topics in Human Rights (1 to 3 credits)

HRT 389 - Study Abroad in Human Rights (3 credits)

HRT 399 - Independent Studies in HRT (1 to 3 credits)

HRT 490 - Internship in Human Rights (3 credits)

HRT 499 - Independent Study in HRT (1 to 3 credits)

HST 316 - U.S. Civil Rights Movement History (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

HST 318 - History of Democracy in America (3 credits)

HST 332 - Emergence of Modern India and South Asia (3 credits)

HST 333 - Modern China (3 credits)

HST 336 - Africa After 1870 (3 credits)

HST 371 - Historical Perspectives on Gender and Sexualities (3 credits)

HST 386 - 20th Century Europe (3 credits)

IDS 350 - Civil Discourse (3 credits)

LAS 325 - Human Rights in Latin America (3 credits)

LS 370 - Women and the Law (3 credits)

INT 325 - LGBTQ Identities (3 credits)

INT 342 - Food Matters (3 credits)

INT 350 - The Immigrant Experience in the U.S. (3 credits)

MES 370 - Contemporary Issues in the Middle East: The Model Arab League (3 credits)

PHI 320 - Power, Justice, and Freedom: Social and Political Philosophy (3 credits)

PHI 370 - Sex Matters: Feminist Philosophy in the Contemporary World (3 credits)

PLS 302 - Women, Politics, and Public Policy (3 credits)

PLS 319 - African Politics (3 credits)

PLS 325 - Human Rights and Democracy in Russia and the Post-Communist World (3 credits)

PLS 334 - Sex, Power, and Politics (3 credits)

PLS 338 - Citizenship (3 credits)

SOC 313 - Race and Ethnicity (3 credits)

SOC 315 - Social Class Inequality (3 credits)

SOC 317 - Sociology of Gender (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

SOC 318 - Sociology of Sexuality (3 credits)

SOC 333 - Sociology of the Civil Rights Movement (3 credits)

SOC 350 - Family and Gender in the Developing World (3 credits)

WGS 302 - Women, Politics, and Public Policy (3 credits)

WGS 310 - LGBTQ Rights and the Law (3 credits)

WGS 317 - Sociology of Gender (3 credits)

WGS 318 - Sociology of Sexuality (3 credits)

WGS 320 - Crimes Against Women (3 credits)

WGS 334 - Sex, Power, and Politics (3 credits)

WGS 336 - Lesbian, Gay and Queer Literature (3 credits)

WGS 350 - Family and Gender in the Developing World (3 credits)

WGS 352 - Black Women's Culture and Communities (3 credits)

WGS 370 - Women and the Law (3 credits)

WGS 371 - Historical Perspectives on Gender and Sexualities (3 credits)

## Information Systems

For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing section in this catalog.

**Website:** [cis.gvsu.edu/information-systems-major](http://cis.gvsu.edu/information-systems-major)

### Degrees Offered

Undergraduate and graduate computing programs at Grand Valley State University are offered by the School of Computing. Computing programs prepare students for a rewarding career that is in high-demand.

One of the strengths of the computing programs at Grand Valley is flexibility. We offer B.S. degrees in computer science, information systems and information technology. All programs share faculty, courses, and laboratory resources. Also, by choosing electives and minors in

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

related subject areas, students can further tailor their degrees to fit their individual needs and career goals. We offer minors in computer engineering, computer science, data science, healthcare information systems, information security systems, information systems, and information technology.

Computers play important roles in virtually every aspect of our lives. Technological advances are extending the influences of the computer even further and many more applications of the computer remain to be discovered. For example, expert systems model the knowledge and strategies of experts in an area so others may benefit. Such systems have been developed for medical diagnosis and treatment, automotive engine analysis, and many other fields.

Information systems majors study the use of computers in organizing and processing information. This includes such topics as database management systems, networking and distributed computing, network management, and systems analysis. Cognate courses emphasize communication skills and business fundamentals. The degree includes the equivalent of a minor in business.

## **Mission**

The mission of the School of Computing is to provide the GVSU student community with the intellectual foundations and experiences necessary to use information technology effectively in their chosen careers.

To enable students to attain this goal, the computing faculty have two primary responsibilities. First, we will offer a solid conceptual foundation required for a career in information technology. Second, we will provide direct, experiential knowledge of technology necessary to be a productive user/producer of information technology.

To achieve these goals, we

- work continuously to keep our curriculum relevant to our mission;

- ensure that work-relevant experience is part of every class;

- establish and nurture industrial contacts;

- establish an integrated, supported internship experience for computing majors; and

- provide all students, regardless of their major interests, fundamental knowledge of computers and information processing.

## **Information Systems Student Outcomes**

Three years after graduation, our typical computer science alumni are expected to be computing professionals who:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

use technical communication and teamwork skills to solve problems and develop software systems;

continue to develop their professional knowledge and skills; and

behave ethically while contributing to their profession and to society.

By the time of graduation, information systems students will be able to do the following:

Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.

Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.

Communicate effectively in a variety of professional contexts.

Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.

Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.

Support the delivery, use, and management of information systems within an information systems environment.

### **Accreditation**

The information systems major is accredited under the General Criteria and Information Systems Criteria by the Computing Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012. Telephone (410) 347-7700. Website: [abet.org](http://abet.org)

### **School of Computing Advisory Board**

The School of Computing Advisory Board (CISAB) is composed of the school's director and leading computing experts in West Michigan. The board meets twice each year and advises the school on curriculum development and continuing education. It serves as an important interface between the school and the computing community.

### **Admission**

Admission to major standing in information systems (IS) is competitive and requires an application for admittance into the major. Applicants must meet the following criteria:

Overall GPA of 2.5 or above in all Grand Valley State University coursework.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Completion of each course in the IS Foundation with a grade of C or above (C- is not sufficient).

GPA of 2.5 or above in the IS Foundation.

The IS foundation includes CIS 160, CIS 162; CIS 230; MTH 125; STA 215, or STA 312 or STA 318; and COM 201. Completing the IS foundation courses require programming, analytical reasoning, and communication skills. These skills are important to excel in the computing field.

The IS foundation GPA is calculated on no more than one repeat per course. Achievement of the minimum requirements does not guarantee admission to the major. The School of Computing will also consider internship availability and the applicant's suitability for internships before granting admission. Transfer students must complete at least six hours of CIS coursework before applying, but should consult with a School of Computing advisor before scheduling their first semester.

Note: While admission to major standing in information systems may be achieved with completion of the computer science or information technology foundation instead of the IS foundation, it is still necessary to complete all the required courses of the information systems major.

## **Bachelor of Science in Information Systems**

### **Requirements**

Students who wish to major in information systems must complete the following.

#### **1. Degree Requirements**

Students must complete the general university degree requirements as identified in the General Academic Policies section of the catalog.

#### **2. Admission**

Admission to major standing in information systems (IS) is competitive and requires an application. See the information systems program description for more information regarding admission to the major.

#### **3. Information Systems Major**

All information systems majors must complete the following 47.5 to 50.5 credit hours of CIS courses with a minimum 2.0 GPA:

CIS 160 - Learn to Code in Python (3 credits)

CIS 162 - Computer Science I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 221 - Excel Concepts and Applications I (1.5 credits)

CIS 230 - Hardware and Software (3 credits)

CIS 238 - Internet Media and Programming (3 credits)

CIS 250 - Principles of Information Systems (3 credits)

CIS 260 - Application Development in Visual Basic (4 credits)

CIS 290 - Professional Responsibilities and Practices (3 credits)

CIS 330 - Systems Analysis and Design (3 credits)

CIS 333 - Database Management and Implementation (3 credits)

CIS 337 - Network Systems Management (3 credits)

CIS 358 - Information Assurance (3 credits)

CIS 450 - IS Project Management (3 credits)

CIS 460 - Management of Information Systems (3 credits)

CIS 463 - Information Systems Project (3 credits) (Capstone)

CIS 490 - Internship (2 to 5 credits)

Select One:

Information systems majors must select one of the following three-course tracks:

Software Development

CIS 443 - Software Development Tools (3 credits)

**AND** choose two of the following:

CIS 241 - System-level Programming and Utilities (3 credits) **OR** CIS 253 - COBOL (4 credits)  
**OR** CIS 371 - Web Application Programming (3 credits) **OR** CIS 163 - Computer Science II  
(4 credits)

Network Management and Security

CIS 437 - Distributed Computing (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 458 - System Security (3 credits)

**AND** choose one of the following:

CIS 338 - Wide Area Network Engineering (3 credits) **OR** CIS 375 - Wireless Networks and Security (3 credits)

#### Data Analysis

CIS 320 - Visualization of Data and Information (3 credits)

CIS 331 - Data Analysis Tools and Techniques (3 credits)

**AND** choose one of the following:

CIS 335 - Data Mining (3 credits) **OR** CIS 365 - Artificial Intelligence (3 credits)

#### IS Specialization

A list of nine credit hours are required to customize a concentration in specialized areas to complement the student's program goals. The selection of this option and a list of three courses must be approved prior to courses being taken in the track. Courses in the core cannot be counted again in this IS specialization track.

#### Bachelor of Science Course Requirements

Completion of MTH 125, and either STA 215 or STA 312, and either CIS 330, or CIS 333, or CIS 337 satisfies the B.S. degree requirement courses for information systems majors.

All information systems majors must complete the following cognate courses (36 credits):

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

BUS 201 - Legal Environment for Business (3 credits)

COM 201 - Speech (3 credits)

FIN 300 - Fundamentals of Finance for Non-Business Majors (3 credits) **OR** FIN 320 - Managerial Finance (3 credits)

MGT 300 - Fundamentals of Management for Non-Business Majors (3 credits) **OR** MGT 331 - Managing People and Organizations (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MKT 300 - Fundamentals of Marketing for Non-Business Majors (3 credits) **OR** MKT 350 - Marketing Management (3 credits)

MTH 125 - Survey of Calculus (3 credits)

WRT 350 - Business Communication (3 credits)

Select one from each of the following two groupings:

ECO 210 - Introductory Macroeconomics (3 credits) **OR**

ECO 211 - Introductory Microeconomics (3 credits)

STA 215 - Introductory Applied Statistics (3 credits) **OR**

STA 312 - Probability and Statistics (3 credits)

### **Suggested Order of Coursework for a Major in Information Systems**

This suggested order of coursework assumes that students will complete the IS foundation and general education courses with the help of their advisor and apply for admission during the winter semester of their first year. The following course sequence also assumes a strong mathematics background for the entering student. If deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

#### **Year One**

CIS 160 - Learn to Code in Python (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 230 - Hardware and Software (3 credits)

COM 201 - Speech (3 credits)

MTH 125 - Survey of Calculus (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

#### **Year Two**

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 250 - Principles of Information Systems (3 credits)

CIS 238 - Internet Media and Programming (3 credits)

CIS 260 - Application Development in Visual Basic (4 credits)

CIS 290 - Professional Responsibilities and Practices (3 credits)

CIS 333 - Database Management and Implementation (3 credits)

Appropriate general education coursework

### **Year Three**

BUS 201 - Legal Environment for Business (3 credits)

CIS 330 - Systems Analysis and Design (3 credits)

CIS 337 - Network Systems Management (3 credits)

CIS 358 - Information Assurance (3 credits)

ECO 210 - Introductory Macroeconomics (3 credits) **OR** ECO 211 - Introductory Microeconomics (3 credits)

MGT 300 - Fundamentals of Management for Non-Business Majors (3 credits) **OR** MGT 331 - Managing People and Organizations (3 credits)

MKT 300 - Fundamentals of Marketing for Non-Business Majors (3 credits) **OR** MKT 350 - Marketing Management (3 credits)

WRT 350 - Business Communication (3 credits)

IS track course elective (3 credits)

Appropriate general education coursework

### **Year Four**

IS track course elective (3 credits)

Appropriate general education coursework

CIS 450 - IS Project Management (3 credits)

CIS 460 - Management of Information Systems (3 credits)

CIS 490 - Internship (2 to 5 credits)

IS track course elective (3 or 4 credits)

CIS 463 - Information Systems Project (3 credits)

FIN 300 - Fundamentals of Finance for Non-Business Majors (3 credits) **OR** FIN 320 - Managerial Finance (3 credits)

## **Combined Bachelor of Science in Information Systems and Master of Science in Applied Computer Science**

Qualified undergraduates may be admitted to a combined bachelor's/master's program and obtain both a B.S. in information systems and an M.S. in applied computer science within an accelerated time frame. Students admitted to this program will count up to 12 credits of graduate work in partial satisfaction of the requirements for the undergraduate. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 120 credits of the bachelor's degree. All other master's degree requirements must be met, including a graduate Capstone.

### **Admission**

We encourage students to apply for the combined B.S./M.S. program in their second year. It is also possible to apply in the third year, but students in their fourth year typically do not receive the benefits of the combined program.

Application requirements include:

Overall GPA of 3.25 or greater

Student must have been admitted to the information systems program

60 hours of academic credit have been completed or are in progress

Two letters of recommendation

Academic transcripts (unofficial transcripts are allowable)

Admission decisions will be made by the school admissions committee based on the student's previous academic success in the school of computing, as indicated by GPA and grades in the foundation computing courses, as well as potential success in the graduate program, as indicated by the letters of recommendation, and the student's letter of intent. Decisions will normally be

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

communicated to students within four weeks of submitting a complete application to the combined degree program.

## **Requirements**

### **During Undergraduate Studies**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. In the final undergraduate year, students will normally take 12 credits of graduate-level courses. If any courses are dual-listed, students in the combined B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

Students will be considered undergraduates for tuition, academic requirements and financial aid purposes until all requirements for the undergraduate degree are completed. Following this they will be considered graduate students, will pay graduate tuition, and will be eligible for graduate financial aid.

The school has identified the following courses that students may dual-count toward the B.S. and M.S. degrees. Up to 12 credits can be dual counted. Students are strongly encouraged to work with the graduate program director in ACS to ensure all undergraduate and graduate requirements are met.

CIS 641 in lieu of CIS 330\*

CIS 642 in lieu of CIS 450

CIS 643 in lieu of CIS 460

CIS 654 in lieu of CIS 337

CIS 658 in lieu of CIS 371

CIS 656 in lieu of CIS 437

CIS 660 in lieu of CIS 360

CIS 673 in lieu of CIS 333

CIS 693 in lieu of CIS 463

\* CIS 330 is an SWS course but CIS 641 is not. Students are reminded that a bachelor's degree requires two SWS courses.

### **During Graduate Studies**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree or the completion of 120 credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the school will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

Please note that awarding of the B.S. in information systems requires a Capstone course, either CIS 463, or CIS 693, or both CIS 690 and CIS 695. Awarding of the M.S. in applied computer science requires a graduate Capstone course: CIS 693, or both CIS 690 and CIS 695.

### **Suggested Order of Coursework**

This sample order of coursework assumes that students will complete the IS foundation and general education courses with the help of their advisor and apply for undergraduate admission at the end of the winter semester of their second year. The following course sequence also assumes a strong mathematics background for the entering student. If mathematics deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

This is only one of many possible sequences of courses. Students are strongly encouraged to work with the graduate program director in ACS to ensure all undergraduate and graduate requirements are met, and to customize the combined program to their areas of interest.

The following sequence makes no attempt to minimize credits. For example, the sequence assumes that all general education courses are distinct, and no double dipping is done.

### **Year One**

No change from IS sample curriculum (30 credits):

General education Arts (3 credits)

General education Historical Perspectives (3 credits)

CIS 150 - Introduction to Computing (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 260 - Application Development in Visual Basic (4 credits)

COM 201 - Speech (3 credits)

MTH 125 - Survey of Calculus (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

## **Year Two**

No change from IS sample curriculum (31 to 32 credits):

General education Natural Science, Philosophy and Literature, Social and Behavioral Sciences (9 credits)

ACC 212 - Principles of Financial Accounting (3 credits)

ACC 213 - Principles of Managerial Accounting (3 credits)

CIS 238 - Internet Media and Programming (3 credits)

CIS 253 - COBOL (4 credits) **OR** CIS 371 - Web Application Programming (3 credits) **OR** CIS 163 - Computer Science II (4 credits)

CIS 290 - Professional Responsibilities and Practices (3 credits)

CIS 230 - Hardware and Software (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

STA 216 - Intermediate Applied Statistics (3 credits) **OR** STA 318 - Statistical Computing (3 credits)

## **Year Three**

Requires 21 undergraduate credits, plus three graduate credits (30 credits):

General education U.S. Diversity and Natural Sciences (6 credits)

BUS 201 - Legal Environment for Business (3 credits)

CIS 333 - Database Management and Implementation (3 credits)

CIS 337 - Network Systems Management (3 credits)

CIS 641 - Systems Analysis and Design (3 credits)

ECO 210 - Introductory Macroeconomics (3 credits) **OR** ECO 211 - Introductory Microeconomics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MKT 350 - Marketing Management (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

WRT 350 - Business Communication (3 credits)

## **Year Four**

Requires 20 to 24 undergraduate credits, plus 12 graduate credits (32 to 36 credits):

General education Global Perspectives and two Issues courses (9 credits)

IS track course elective one (3 credits)

IS track course elective one (3 to 4 credits)

CIS 490 - Internship (2 to 5 credits)

CIS 612 - Requirements Specification (3 credits)

CIS 642 - IS Project Management (3 credits)

CIS 654 - Computer Networking (3 credits)

CIS 656 - Distributed Systems (3 credits)

FIN 320 - Managerial Finance (3 credits)

## **Year Five**

Requires 18 graduate credits:

CIS 623 - Graphical User Interface Design (3 credits)

CIS 643 - Information Systems Policy and Strategy (3 credits)

CIS 658 - Web Architectures (3 credits)

CIS 661 - Introduction to Health and Bioinformatics (3 credits)

CIS 677 - High-performance Computing (3 credits)

CIS 693 - Master's Project (3 credits)

## **Credits**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Undergraduate credits that count toward B.S.	111 to 116
Graduate credits that count toward B.S. and M.S.	12
Graduate credits that count toward M.S.	21
<b>Total credits</b>	<b>144 to 149</b>

## **Combined Bachelor of Science in Information Systems and Master of Science in Cybersecurity**

Qualified undergraduates may be admitted to a combined bachelor's/master's program and obtain both a B.S. in information systems and an M.S. in cybersecurity within an accelerated time frame. Students admitted to this program will count up to 12 credits of graduate work in partial satisfaction of the requirements for the undergraduate. After completing 123 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 123 credits of the bachelor's degree. All other master's degree requirements must be met.

### **Admission**

We encourage information systems students to apply for the combined B.S./M.S. program in information systems and cybersecurity in their second year. It is also possible to apply in the third year but students in their fourth year typically do not receive the benefits of the combined program. Application requirements include:

Overall GPA of 3.25 or greater

Student must have been admitted to the information systems program

60 hours of academic credit have been completed or are in progress

Two letters of recommendation

Academic transcripts (unofficial transcripts are allowable)

Admission decisions will be made by the school admissions committee based on the student's previous academic success in information systems, as indicated by GPA and grades in the foundation information systems courses, as well as potential success in the graduate program, as indicated by the letters of recommendation. Decisions will normally be communicated to students within four weeks of submitting a complete application to the combined degree program.

### **Requirements**

#### **During Undergraduate Studies**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. In the final undergraduate year, students will normally take 12 credits of graduate-level courses. If any courses are dual-listed, students in the combined B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

The school has identified the following courses that students may dual-count toward the B.S. and M.S. degrees. Up to 12 credits can be dual counted. Students are strongly encouraged to work with the graduate program director in cybersecurity to ensure all undergraduate and graduate requirements are met.

CIS 518 in lieu of CIS Elective

CIS 555 in lieu of CIS Elective

CIS 617 in lieu of CIS Elective

CIS 654 in lieu of CIS 337

### **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree, or the completion of 12 graduate credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the school will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

The student will still be responsible for completing all of their information systems degree requirements.

### **Sample Order of Coursework**

This sample order of coursework assumes that students will complete the IS foundation and general education courses with the help of their advisor and apply for graduate admission at the end of the winter semester of their second year. The following course sequence also assumes a strong mathematics background for the entering student. If mathematics deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

Notes:

This is only one of many possible sequences of courses. Students are strongly encouraged to work with the graduate program director in cybersecurity to ensure all undergraduate

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

and graduate requirements are met, and to customize the combined program to their areas of interest.

The following sequence makes no attempt to minimize credits. For example, the sequence assumes that all general education courses are distinct, and no double dipping is done.

### **Year One**

CIS 150 - Introduction to Computing (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 260 - Application Development in Visual Basic (4 credits)

COM 201 - Speech (3 credits)

MTH 125 - Survey of Calculus (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

WRT 150 - Strategies in Writing (4 credits)

Appropriate general education coursework

### **Year Five**

CIS 615 - Information Security Principles (3 credits)

CIS 616 - Data Security and Privacy (3 credits)

CIS 619 - Data Analytics for Cybersecurity (3 credits)

CIS 693 - Master's Project (3 credits)

CIS graduate elective

Graduate elective

## **Health Care Information Systems Minor**

### **Requirements for a Minor in Health Care Information Systems**

The minor in health care information systems requires a minimum GPA of 2.0 to be approved.

Required classes include:

AHS 100 - Medical Terminology (3 credits)

AHS 110 - Introduction to Health Care (3 credits)

CIS 231 - Problem Solving Using Spreadsheets (3 credits)

CIS 331 - Data Analysis Tools and Techniques (3 credits)

CIS 340 - Health Care Information Systems (3 credits)

CIS 358 - Information Assurance (3 credits)

HIM 310 - Functional and Administrative Practices in Health Information Management (3 credits)

Select one:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 160 - Learn to Code in Python (3 credits)

CIS 161 - Computational Science (3 credits)

CIS 162 - Computer Science I (4 credits)

Select one:

CIS 233 - Concepts of Database Systems (3 credits)

CIS 333 - Database Management and Implementation (3 credits)

CIS 353 - Database (3 credits)

CIS 360 - Information Management and Science (3 credits)

Select one:

CIS 237 - Introduction to Network Management (3 credits)

CIS 337 - Network Systems Management (3 credits)

CIS 457 - Data Communications (4 credits)

## **Information Security Systems Minor**

The information security systems minor, offered by the School of Computing and the School of Criminal Justice, is open to all students. This minor is designed to provide students with a foundation related to the principles of information security in a theoretical and practical application related to how a comprehensive information security program will contribute to protecting organizational information assets.

Only 12 credits maximum may apply to both the criminal justice major and ISS minor. Seek advising for assistance.

### **Requirements for a Minor in Information Security Systems**

The ISS minor requires 24 to 26 credits:

CJ 315 - Principles of Security (3 credits)

CJ 464 - Security Management (3 credits)

Select one course from each of the six groupings:

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

#### Group One

CJ 201 - Criminology (3 credits)

CJ 302 - Criminal Law (3 credits)

#### Group Two

CJ 311 - Criminal Investigation (3 credits)

CJ 408 - White-Collar and Corporate Crime (3 credits)

#### Group Three

CIS 160 - Learn to Code in Python (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 163 - Computer Science II (4 credits)

#### Group Four

CIS 233 - Concepts of Database Systems (3 credits)

CIS 333 - Database Management and Implementation (3 credits)

CIS 358 - Information Assurance (3 credits)

#### Group Five

CIS 237 - Introduction to Network Management (3 credits)

CIS 337 - Network Systems Management (3 credits)

CIS 457 - Data Communications (4 credits)

#### Group Six

CIS 430 - Computer and Cyber Forensics (3 credits)

CIS 458 - System Security (3 credits)

Contact the School of Criminal Justice for additional information.

## **Information Systems Minor**

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Requirements for a Minor in Information Systems

This minor requires a minimum GPA of 2.0 to be approved.

CIS 150 - Introduction to Computing (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 230 - Hardware and Software (3 credits)

CIS 330 - Systems Analysis and Design (3 credits)

CIS 333 - Database Management and Implementation (3 credits)

CIS 337 - Network Systems Management (3 credits)

MGT 268 - Business Processes and Management Information Systems (3 credits)

Select one of the following:

CIS 238 - Internet Media and Programming (3 credits)

CIS 253 - COBOL (4 credits)

CIS 260 - Application Development in Visual Basic (4 credits)

## Information Technology

For additional information about opportunities your college offers, please refer to the Seymour and Esther Padnos College of Engineering and Computing section in this catalog.

**Website:** [cis.gvsu.edu/information-technology-major](http://cis.gvsu.edu/information-technology-major)

### Degrees Offered

Undergraduate and graduate computing programs at Grand Valley State University are offered by the School of Computing. Computing programs prepare students for a rewarding career that is in high demand.

One of the strengths of the computing programs at Grand Valley is flexibility. We offer B.S. degrees in computer science, cybersecurity, information systems, and information technology. All programs share faculty, courses, and laboratory resources. Also, by choosing electives and minors in related subject areas, students can further tailor their degrees to fit their individual needs and career goals. We offer minors in computer engineering, computer science, data

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

science, healthcare information systems, information security systems, information systems, and information technology.

The IT degree will provide students with the fundamental computing background and tools necessary to build and maintain the enterprise's computing infrastructure including system administration, cybersecurity, cloud computing, cyber forensics, and incident response and Web-systems integration, as well as incorporating modern technologies to problem solving and decision-making.

GVSU's IT program embraces the value of hands-on learning through the incorporation of discovery-based learning approach centered on hands-on lab experiments supplemented by research activities and collaboration with professionals from multiple computing disciplines during their internships and capstone project.

### **Mission**

The mission of the School of Computing is to provide the GVSU student community with the intellectual foundations and experiences necessary to use information technology effectively in their chosen careers.

To enable students to attain this goal, the computing faculty have two primary responsibilities. First, we offer a solid conceptual foundation required for a career in information technology. Second, we provide direct, experiential knowledge of technology necessary to be a productive user/producer of information technology.

To achieve these goals, we

- work continuously to keep our curriculum relevant to our mission;

- ensure that work-relevant experience is part of every class;

- establish and nurture industrial contacts;

- establish an integrated, supported internship experience for CIS majors; and

- provide all students, regardless of their major interests, fundamental knowledge of computers and information processing.

### **Program Goals**

Three years after graduation, our typical information technology alumni are expected to be computing professionals who

- use technical communication and teamwork skills to build, maintain and manage computing systems;

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

continue to develop their professional knowledge and skills; and

behave ethically while contributing to their profession and to society.

By the time of graduation, information technology students will be able to

analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.

design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline;

communicate effectively in a variety of professional contexts;

recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles;

function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline; and

identify and analyze user needs and to take them into account in the selection, creation, integration, evaluation, and administration of computing-based systems.

## **Admission**

Admission to major standing in information technology (IT) is competitive and requires an application for admittance into the major. Applicants must meet the following criteria:

Overall GPA of 2.5 or above in all Grand Valley State University coursework.

Completion of each course in the IT foundation with a grade of C or above (C- is not sufficient).

GPA of 2.5 or above in the IT foundation.

The IT foundation includes CIS 160, CIS 162, MTH 125 (or MTH 225), STA 215 (or STA 312), and COM 201. Completing the IT foundation courses requires programming, analytical reasoning, and communication skills. These skills are important to excel in the computing field.

The IT foundation GPA is calculated on no more than one repeat per course. Achievement of the minimum requirements does not guarantee admission to the major. The School of Computing will also consider internship availability and the applicant's suitability for internships before granting admission. Transfer students must complete at least six hours of computing coursework before applying, but should consult with a School of Computing advisor before scheduling their first semester.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

Note: While admission to major standing in information technology may be achieved with completion of the computer science, cybersecurity, or information systems foundation instead of the IT foundation, it is still necessary to complete all the required courses of the information technology major.

### **Advisory Board**

The School of Computing Advisory Board (CISAB) is composed of the school's director and leading computing experts in West Michigan. The board meets twice each year and advises the school on curriculum development and continuing education. It serves as an important interface between the school and the computing community.

## **Bachelor of Science in Information Technology**

### **Degree Requirements**

Students must meet the general university degree requirements as identified in the General Academic Regulations section of the catalog.

### **Admission**

Admission to major standing in information technology is competitive and requires an application for admittance into the major. See Information Technology for more information regarding admission to the major.

### **Course Requirements**

#### **Courses**

CIS 150 - Introduction to Computing (3 credits)

CIS 160 - Learn to Code in Python (3 credits)

CIS 162 - Computer Science I (4 credits)

CIS 230 - Hardware and Software (3 credits)

CIS 231 - Problem Solving Using Spreadsheets (3 credits)

## **Combined Bachelor of Science in Information Technology and Master of Science in Cybersecurity**

Qualified undergraduates may be admitted to a combined bachelor's/master's program and obtain both a B.S. in information technology and an M.S. in cybersecurity within an accelerated time frame. Students admitted to this program will count up to 12 credits of graduate work in partial

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

satisfaction of the requirements for the undergraduate. After completing 120 credits and all requirements for the bachelor's degree, students are awarded a bachelor's degree. A minimum of 21 graduate credits must be completed after the 120 credits of the bachelor's degree. All other master's degree requirements must be met.

## **Admission**

We encourage information technology students to apply for the combined B.S./M.S. program in information technology and cybersecurity in their second year. It is also possible to apply in the third year but students in their fourth year typically do not receive the benefits of the combined program. Application requirements include:

Overall GPA of 3.25 or greater

Student must have been admitted to the information technology program

60 hours of academic credit have been completed or are in progress

Two letters of recommendation

Academic transcripts (unofficial transcripts are allowable)

Admission decisions will be made by the school admissions committee based on the student's previous academic success in information technology, as indicated by GPA and grades in the foundation information technology courses, as well as potential success in the graduate program, as indicated by the letters of recommendation. Decisions will normally be communicated to students within four weeks of submitting a complete application to the combined degree program.

## **Requirements**

### **During Undergraduate Studies**

All university requirements, including general education courses, must be completed before the final (graduate) year of the combined B.S./M.S. program. In the final undergraduate year, students will normally take 12 credits of graduate-level courses. If any courses are dual-listed, students in the combined B.S./M.S. program must complete all assignments expected of graduate students and they will be evaluated in the same way as graduate students.

The school has identified the following courses that students may dual-count toward the B.S. and M.S. degrees. Up to 12 credits can be dual counted. Students are strongly encouraged to work with the graduate program director in cybersecurity to ensure all undergraduate and graduate requirements are met.

CIS 518 in lieu of CIS Elective

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 555 in lieu of CIS Elective

CIS 616 in lieu of CIS 458

CIS 617 in lieu of CIS 430

### **During Graduate Studies**

A student shall be considered a graduate student for all purposes upon either of the following events: the award of a baccalaureate degree, or the completion of 12 graduate credit hours.

### **Graduation Without Completion of the Program**

If a student decides at some point to pursue only the undergraduate portion of the combined degree, the school will still recognize the graduate courses taken in lieu of undergraduate courses. Credit from the undergraduate degree cannot be used toward a graduate degree at a later date.

The student will still be responsible for completing all of their information technology degree requirements.

### **Sample Order of Coursework**

This sample order of coursework assumes that students will complete the IT foundation and general education courses with the help of their advisor and apply for graduate admission at the end of the winter semester of their second year. The following course sequence also assumes a strong mathematics background for the entering student. If mathematics deficiencies exist, completing the mathematics prerequisites should be the student's top priority.

Notes:

This is only one of many possible sequences of courses. Students are strongly encouraged to work with the graduate program director in cybersecurity to ensure all undergraduate and graduate requirements are met, and to customize the combined program to their areas of interest.

The following sequence makes no attempt to minimize credits. For example, the sequence assumes that all general education courses are distinct, and no double dipping is done.

## Information Technology Minor

### Requirements

This information technology minor requires a minimum GPA of 2.0 to be approved. A minor in information technology must complete at least 24 credits as follows:

### Required Courses

Students must take all of the following (18 credits):

CIS 150 - Introduction to Computing (3 credits)

CIS 160 - Learn to Code in Python (3 credits)

CIS 230 - Hardware and Software (3 credits)

CIS 233 - Concepts of Database Systems (3 credits)

CIS 237 - Introduction to Network Management (3 credits)

CIS 339 - Project Planning (3 credits)

Students must choose two electives (six to seven credits) from the following:

CIS 231 - Problem Solving Using Spreadsheets (3 credits)

CIS 238 - Internet Media and Programming (3 credits)

CIS 260 - Application Development in Visual Basic (4 credits)

CIS 331 - Data Analysis Tools and Techniques (3 credits)

CIS 338 - Wide Area Network Engineering (3 credits)

## Integrated Science

For additional information about opportunities your college offers, please refer to the College of Liberal Arts and Sciences section in this catalog.

**Website:** [gvsu.edu/isci](http://gvsu.edu/isci)

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

## **Integrated Science (Secondary)**

Students who have declared or completed a teachable major and minor in a science discipline may complete additional courses to add an integrated science secondary endorsement to their secondary teaching certificate. The endorsement (obtained upon passing the Michigan Department of Education MDE Integrated Science Test) will certify teachers to teach general science, biology, chemistry, earth science, and physics at the secondary level (grades six through 12).

### **Associated Programs**

#### **College of Education**

The integrated science program faculty collaborate with colleagues in the College of Education to place our students in classrooms with experienced science teachers. Our graduates have a unique combination of skills and experiences that are highly valued by most school districts.

#### **Regional Math and Science Center**

The science (SCI) designation describes courses or workshops that are interdisciplinary in nature and relate to more than one science and/or mathematics discipline. They are primarily for preservice and in-service school teachers. These courses are offered by the faculty in Grand Valley's science departments and/or in conjunction with the Regional Math and Science Center.

## **Bachelor of Science in Integrated Science (Secondary)**

### **Requirements for a Major in Integrated Science - Secondary Education**

GVSU's integrated science secondary education major is for students seeking certification for teaching science in grades 6-12. Students who pass the Michigan Department of Education Integrated Science Secondary Test will receive the Integrated Science DI Endorsement, which is in high demand for job placement in the State of Michigan. The endorsement certifies students to teach general science courses at the middle school level, and also discipline specific courses in biology, chemistry, earth science, and physics at the high school level. This major prepares students in both a breadth and depth of science content, as well as in science teaching methods, in order to prepare preservice teachers for a broad range of teaching opportunities. To be certified, students must complete the ISCI secondary education major with a 3.0 GPA and have an overall GPA of 2.7.

#### **Major Requirements**

There are 89 credits required.

Biology

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

BIO 210 - Evolutionary Biology (3 credits)

BIO 215 - Ecology (4 credits)

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

## Chemistry

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

CHM 351 - Introduction to Physical Chemistry (3 credits)

## Earth Science

GEO 111 - Exploring the Earth (4 credits)

GEO 112 - Earth History (4 credits)

GEO 203 - Weather and Climate for Pre-Service Teachers (3 credits)

GEO 214 - Solid Earth Materials and Systems (4 credits)

GEO 220 - Earth Surface Materials and Systems (4 credits)

## Physics

PHY 105 - Descriptive Astronomy (3 credits)

PHY 230 - Principles of Physics I (5 credits)

PHY 231 - Principles of Physics II (5 credits)

PHY 302 - Introduction to Modern Physics (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## Mathematics

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

## Science

SCI 440 - Physics and Chemistry in Secondary Education (3 credits)

## Capstone

SCI 450 - Earth and Life Science in Secondary Education (3 credits)

## **Suggested Order of Coursework for a Major in Integrated Science - Secondary Education**

The suggested order of coursework varies on math preparation. Following are options for starting with college algebra or calculus.

### **STARTING WITH COLLEGE ALGEBRA**

#### **Year One**

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

CHM 115 - Principles of Chemistry I (4 credits)

CHM 116 - Principles of Chemistry II (5 credits)

MTH 122 - College Algebra (3 credits)

MTH 123 - Trigonometry (3 credits)

#### **Year Two**

BIO 210 - Evolutionary Biology (3 credits)

BIO 215 - Ecology (4 credits)

GEO 111 - Exploring the Earth (4 credits)

GEO 112 - Earth History (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

### **Year Three**

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

GEO 203 - Weather and Climate for Pre-Service Teachers (3 credits)

PHY 230 - Principles of Physics I (5 credits)

PHY 231 - Principles of Physics II (5 credits)

### **Year Four**

CHM 351 - Introduction to Physical Chemistry (3 credits)

GEO 214 - Solid Earth Materials and Systems (4 credits)

GEO 220 - Earth Surface Materials and Systems (4 credits)

PHY 105 - Descriptive Astronomy (3 credits)

PHY 302 - Introduction to Modern Physics (4 credits)

SCI 440 - Physics and Chemistry in Secondary Education (3 credits)

SCI 450 - Earth and Life Science in Secondary Education (3 credits)

## **STARTING WITH CALCULUS**

### **Year One**

BIO 120 - General Biology I (4 credits)

BIO 121 - General Biology II (4 credits)

CHM 115 - Principles of Chemistry I (4 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CHM 116 - Principles of Chemistry II (5 credits)

MTH 201 - Calculus I (4 credits)

MTH 202 - Calculus II (4 credits)

## **Year Two**

BIO 210 - Evolutionary Biology (3 credits)

BIO 215 - Ecology (4 credits)

GEO 111 - Exploring the Earth (4 credits)

GEO 112 - Earth History (4 credits)

## **Year Three**

BIO 375 - Genetics (3 credits)

BIO 376 - Genetics Laboratory (1 credit)

CHM 221 - Survey of Analytical Chemistry (4 credits)

CHM 231 - Introductory Organic Chemistry (4 credits)

GEO 203 - Weather and Climate for Pre-Service Teachers (3 credits)

PHY 230 - Principles of Physics I (5 credits)

PHY 231 - Principles of Physics II (5 credits)

## **Year Four**

CHM 351 - Introduction to Physical Chemistry (3 credits)

GEO 214 - Solid Earth Materials and Systems (4 credits)

GEO 220 - Earth Surface Materials and Systems (4 credits)

PHY 105 - Descriptive Astronomy (3 credits)

PHY 302 - Introduction to Modern Physics (4 credits)

# Integrative Studies

For additional information about opportunities your college offers, please refer to the Brooks College of Interdisciplinary Studies section in this catalog.

**Website:** [gvsu.edu/int](http://gvsu.edu/int)

Students may choose a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The major provides an option in which students can pursue interdisciplinary studies and can reach across disciplinary fields to develop expertise in specified areas of focus. Students begin with core courses and may choose to work with an academic advisor to develop an individualized study plan with a focus area based on academic and career goals, creating a custom-designed major. The flexibility of this degree program also allows students to earn additional credentials while earning their degree. Examples include certificates in business fundamentals, leadership, intercultural communications, project management, applied data analytics, and a badge in intercultural competence. Study plan forms and sample areas of focus are located on the integrative studies program website under Student Resources. Students may also elect to do an interdisciplinary emphasis in leadership.

Integrative studies is housed in the Integrative, Religious, and Intercultural Studies Department (IRIS), which is a unit committed to supporting access to higher education for all learners. Courses are offered in multiple formats including traditional face-to-face, hybrid, and online classes. The department also serves as the academic home for the LEADS (Lifelong Educational Attainment for Diverse Students) program, an accelerated, primarily online degree completion program. For more information on LEADS, visit [gvsu.edu/complete](http://gvsu.edu/complete).

Integrative studies is appropriate as a major for students who wish to achieve the following:

Organize their studies around problems, issues, and themes rather than around the traditional disciplines; for example, the relationship between poverty and society, community organization, and/or local music cultures and activism.

Design a bespoke major, that is custom-designed to fit their needs and interests.

Focus on a particular interdisciplinary area of study; for example, cultural studies, American studies, sustainability studies, gender justice, leadership studies, and more.

Concentrate simultaneously on a general education and a particular academic discipline or career field.

Complete their bachelor's degree while working full-time or balancing caregiving responsibilities. We offer a range of online, hybrid, and accelerated format courses to support returning and/or non-traditional students.

## Advising

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Prospective majors should contact the Brooks College Advising Center to meet with an advisor: (616) 331-8200 or [brooksadvising@gvsu.edu](mailto:brooksadvising@gvsu.edu). Substantial information, forms, guidance, and resources are also available online: [gvsu.edu/int](http://gvsu.edu/int).

### **Honors Organizations**

Alpha Iota Sigma is the academic honor society for interdisciplinary studies. The organization recognizes the academic achievements of students and encourages and supports scholarship and excellence of students at the undergraduate level.

### **Meijer Campus in Holland**

The Integrative, Religious, and Intercultural Studies Department, in partnership with the Center for Adult and Continuing Studies and Grand Rapids Community College, now offer an accelerated, primarily online adult degree completion program (LEADS) through the Meijer Campus in Holland. Visit [gvsu.edu/holland](http://gvsu.edu/holland).

### **Regional Center in Traverse City**

The Integrative, Religious, and Intercultural Studies Department, in partnership with the Center for Adult and Continuing Studies and Northwestern Michigan College, now offer an accelerated, primarily online adult degree completion program (LEADS) in Traverse City. Students design a program that suits their specific interests, talents, and career goals. Working closely with a faculty advisor, students will develop a major area of study based on a specific theme, issue, problem, or career interest. The Traverse City program provides the integrative studies core courses and a selection of electives that may apply to your emphasis area. Students will combine coursework transferred from NMC, other community colleges, or four year institutions to complete the degree requirements.

### **Regional Center in Detroit**

The Integrative, Religious, and Intercultural Studies Department, in partnership with the Center for Adult and Continuing Studies, now offer an accelerated, primarily online adult degree completion program (LEADS) in Detroit. Students design a program that suits their specific interests, talents, and career goals. Working closely with a faculty advisor, students will develop a major area of study based on a specific theme, issue, problem, or career interest. Students may combine coursework transferred from community colleges or four year institutions to complete the degree requirements.

## **Bachelor of Arts or Bachelor of Science in Integrative Studies**

Students who choose the integrative studies major may custom-design an individualized plan of study in consultation with their advisor or choose an existing emphasis. The flexibility of this degree program also allows students to earn additional credentials as part of their degree

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

program. Examples include certificates in business fundamentals, leadership, intercultural communications, project management, applied data analytics, and a badge in intercultural competence. Study plan forms and sample areas of focus are located on the integrative studies program website under Student Resources.

Integrative studies is housed in the Integrative, Religious, and Intercultural Studies Department (IRIS), which is a unit committed to supporting access to higher education for all learners. Courses are offered in multiple formats including traditional face-to-face, hybrid, and online classes. The department also serves as the academic home for the LEADS (Lifelong Educational Attainment for Diverse Students) program, an accelerated, primarily online degree completion program. For more information on LEADS, visit [gvsu.edu/complete](https://gvsu.edu/complete).

Students who choose the integrative studies major must each individually design their own study plan and area of focus. Study plan forms and sample areas of focus are located on the departmental website under Advising Resources for Students. The Bachelor of Science degree in integrative studies consists of 56 credits; the Bachelor of Arts degree consists of up to 59 credits. Credits are distributed as follows:

Core courses (18 credits)

B.S. or B.A. requirements (9 credits)

Area of focus (18 credits), of which 15 need to be at the 300-level or above and may include:

one of four certificates and/or badge listed previously

**OR** may be custom-designed to suit individual student interests/needs

**OR** Emphasis in Leadership Credits: 18, see listing as follows for courses

Contextual electives (9 credits)

Application and Synthesis (5 credits)

Internship (minimum of 2 credits)

**OR** practicum (minimum of 2 credits)

Senior seminar (3 credits)

## **Admission**

To be admitted to the integrative studies major, students must consult with an advisor and prepare an approved study plan that lists the courses included in the emphasis or focus area and the electives. See departmental website for sample study plans and areas of focus. Study plans

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

are submitted to the chair for review and approval. Changes in study plans must be made in consultation with advisors and approved by the chair.

## **Requirements for a Major in Integrative Studies**

### **Core Courses**

There are 18 credits required. All majors are required to take six core courses that introduce them to the basic principles of liberal education.

INT 100 - Reflect, Connect, Engage (3 credits)

INT 201 - Diversity in the United States (3 credits)

INT 311 - Meaning: The Humanities Resource (3 credits) **OR** INT 312 - Collaborative Communication (3 credits)

INT 301 - Interdisciplinary Research Methods (3 credits)

INT 400 - Global Visionary Leadership (3 credits) **OR** INT 401 - American Visionary Leadership (3 credits) **OR** WGS/INT 402 - Feminist Visionary Thinkers (3 credits)

**AND** at least one ethics course from the following:

BIO 328 - Biomedical Ethics (3 credits)

BIO 338 - Environmental Ethics (3 credits)

COM 438 - Communication Ethics (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MKT 375 - Marketing Ethics (3 credits)

PHI 102 - Ethics (3 credits)

PHI 325 - Ethics in Professional Life (3 credits)

### **B.S. or B.A. Degree**

There are six credits required.

### **B.A. Degree Requirements**

The Bachelor of Arts degree requires the completion of a third semester of language proficiency.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **B.S. Degree Requirements**

The Bachelor of Science degree requires the completion of the following (6 credits):

STA 215 - Introductory Applied Statistics (3 credits)

INT 301 - Interdisciplinary Research Methods (3 credits) Also required in the core.

**AND** one of the following, relevant to area of focus or emphasis (3 credits)

AHS 301 - Introduction to Health Care Research (3 credits)

HST 290 - Research Methods in History (3 credits)

PLS 300 - Political Analysis (3 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

STA 301 - Questionnaire Design and Execution (3 credits)

STA 314 - Statistical Quality Methods (3 credits)

STA 318 - Statistical Computing (3 credits)

STA 340 - Statistics in the Media (3 credits)

STA 345 - Statistics in Sports (3 credits)

## **Area of Focus OR Emphasis in Leadership**

### **Area of Focus**

Students have the option of working in consultation with their advisor to develop an individualized area of focus comprised of six or more courses drawn from the whole Grand Valley curriculum. At least 15 of the 18 credits in the area of focus must be at the 300-level or above. Typically, areas of focus are organized around either a major issue in human life or an interdisciplinary area of study. For example, a student may consider concentrating study within an upper-level issues area to complete an area of focus in globalization, human rights, health, innovation, information and technology, sustainability, or identity. Other recent areas of focus include, social relations, gender justice, American studies, business and society, peace studies, oppression and human rights, scientific culture and the humanities, cultural studies, business and economics, humanities, technical and scientific communication, political economy, childhood development and literature, and management and society.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

The flexibility of the area of focus also allows students to earn one of several certificates or a badge while completing their degree requirements. Courses completed as part of these certificates or badges are counted toward the area of focus requirements. Options include: leadership certificate, global communications certificate, project management certificate, applied data analytics certificate, and/or a digital badge in intercultural competence.

### **Emphasis in Leadership**

There are 18 credits required for the emphasis in leadership. Integrative studies majors may elect to complete their emphasis in leadership by taking 18 credits in coursework that develops leadership competencies. It provides the basis for long-term personal and professional growth through studying the principles and practices of engaged leadership.

Required courses:

INT 341 - Leadership for Social Change (3 credits)

12 credits from the following list of courses

An additional three credits from either the approved list **OR** an advisor approved course

The following courses can count toward the leadership emphasis:

AHS 340 - Health Care Management (3 credits)

COM 301 - Interpersonal Communication (3 credits)

COM 302 - Small Group Communication (3 credits)

INT 310 - Creativity and Innovative Problem-Solving (3 credits)

INT 314 - Life Journeys (3 credits)

INT 331 - Person and Profession in a Global Environment (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 345 - Team Building (3 credits)

MGT 355 - The Diversified Workforce (3 credits)

PNH 335 - Grant Writing (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)

PNH 390 - Leadership Dynamics (3 credits)

PNH 420 - Organization Theory and Dynamics (3 credits)

WRT 350 - Business Communication (3 credits)

### **Contextual Electives**

There are nine contextual elective credits required. The program also emphasizes the importance of integration in education, of seeing how things fit together, including the integration of liberal and career studies. To these ends, all majors are required to select a body of at least three elective courses. Students may select their electives from across the entire Grand Valley curriculum. Students could consider structuring their elective as a career component to their study plan, including areas such as business, computer science, and international study.

### **Senior Seminar and Internship/Practicum**

Five or more credits are required. The required internship/practicum and senior seminar provide opportunities for students to apply theoretical knowledge to life issues outside the classroom and to synthesize the components of their major. INT 490 or INT 491, the internship or practicum, allows students to put into practice their ideas and explore the applications of their focus of study. Guidelines for an internship or practicum are on the department website under Advising Resources for Students. INT 495 - Senior Seminar, or Capstone, asks students to prepare/share their senior theses in which they reconsider the central issues they have engaged in the major.

INT 490 - Internship (1 to 6 credits) **OR** INT 491 - Practicum (1 to 6 credits)

INT 495 - Senior Seminar (Capstone) (3 credits)

### **Admission to the Integrative Studies Major and Submission of the Study Plan**

To be admitted to the major, students must consult with an advisor and prepare an approved study plan that lists the courses included in the emphasis or focus area and the electives or be enrolled through the LEADS program. See departmental website for sample study plans and areas of focus as well as information about LEADS. Study plans are submitted to the chair for review and approval. Changes in study plans must be made in consultation with advisors and approved by the chair.

## **Bachelor of Arts or Bachelor of Science in Integrative Studies Adult Degree Completion**

Students who choose the integrative studies major may custom-design an individualized plan of study in consultation with their advisor or choose an existing emphasis. The flexibility of this

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

degree program also allows students to earn additional credentials as part of their degree program. Examples include certificates in business fundamentals, leadership, intercultural communications, project management, applied data analytics, and a badge in intercultural competence. Study plan forms and sample areas of focus are located on the integrative studies program website under Student Resources.

Integrative studies is housed in the Integrative, Religious, and Intercultural Studies Department (IRIS), which is a unit committed to supporting access to higher education for all learners. Courses are offered in multiple formats including traditional face-to-face, hybrid, and online classes. The department also serves as the academic home for the LEADS (Lifelong Educational Attainment for Diverse Students) program, an accelerated, primarily online degree completion program. For more information on LEADS, visit [gvsu.edu/complete](http://gvsu.edu/complete).

Students who choose the integrative studies major must each individually design their own study plan and area of focus. Study plan forms and sample areas of focus are located on the departmental website under Advising Resources for Students. The Bachelor of Science degree in integrative studies consists of 56 credits; the Bachelor of Arts degree consists of up to 59 credits. Credits are distributed as follows:

Core courses (18 credits)

Area of focus (18 credits), of which 15 need to be at the 300-level or above and may include:

one of four certificates and/or badge listed previously

**OR** may be custom-designed to suit individual student interests/needs

**OR** Emphasis

Contextual electives (9 credits)

Application and Synthesis (5 credits)

Internship (minimum of 2 credits)

**OR** practicum (minimum of 2 credits)

Senior seminar (3 credits)

## **Requirements for a Major in Integrative Studies**

### **Core Courses**

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

There are 18 credits required. All majors are required to take six core courses that introduce them to the basic principles of liberal education.

INT 100 - Reflect, Connect, Engage (3 credits)

INT 201 - Diversity in the United States (3 credits)

INT 311 - Meaning: The Humanities Resource (3 credits) **OR** INT 312 - Collaborative Communication (3 credits)

INT 301 - Interdisciplinary Research Methods (3 credits)

INT 400 - Global Visionary Leadership (3 credits) **OR** INT 401 - American Visionary Leadership (3 credits) **OR** WGS/INT 402 - Feminist Visionary Thinkers (3 credits)

**AND** at least one ethics course from the following:

BIO 328 - Biomedical Ethics (3 credits)

BIO 338 - Environmental Ethics (3 credits)

COM 438 - Communication Ethics (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MKT 375 - Marketing Ethics (3 credits)

PHI 102 - Ethics (3 credits)

PHI 325 - Ethics in Professional Life (3 credits)

### **B.S. or B.A. Degree**

There are six credits required.

### **B.A. Degree Requirements**

The Bachelor of Arts degree requires the completion of a third semester of language proficiency.

### **B.S. Degree Requirements**

The Bachelor of Science degree requires the completion of the following (6 credits):

STA 215 - Introductory Applied Statistics (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

INT 301 - Interdisciplinary Research Methods (3 credits) Also required in the core.

**AND** one of the following, relevant to area of focus or emphasis (3 credits)

AHS 301 - Introduction to Health Care Research (3 credits)

HST 290 - Research Methods in History (3 credits)

PLS 300 - Political Analysis (3 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

STA 301 - Questionnaire Design and Execution (3 credits)

STA 314 - Statistical Quality Methods (3 credits)

STA 318 - Statistical Computing (3 credits)

STA 340 - Statistics in the Media (3 credits)

STA 345 - Statistics in Sports (3 credits)

## **Emphases**

### **Applied Data Analysis Emphasis**

The applied data analytics certificate focuses on understanding how to interpret, use, and apply data and statistics in the workplace. Students learn foundational computing and statistical skills like visualization, predictive analytics tools, and computer coding in Python and R. Certificates demonstrate the skills necessary to pursue a career path. Earning this undergraduate certificate in applied data analytics will enhance student's career skills by using data to

improve decision-making;

enhance productivity; and

predict and define emerging trends.

Requirements Courses (18 credits)

CIS 160 - Learn to Code in Python (3 credits)

CIS 320 - Visualization of Data and Information (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 331 - Data Analysis Tools and Techniques (3 credits) OR MGT 477 - Applied Business Intelligence (3 credits)

STA 215 - Introductory Applied Statistics (3 credits)

STA 323 - Predictive Analytics (3 credits)

STA 340 - Statistics in the Media (3 credits) OR ECO 300 - Data Analytics for Economics and Business (3 credits)

### **Intercultural Communications Emphasis**

Required courses (14 credits)

ITC 100 - Introduction to Intercultural Competence (3 credits)

ITC 490 - Practicum: Intercultural Learning Experience (1 to 6 credits)

WRT 354 - Writing in the Global Context: Culture, Technology, and Language Practices (3 credits)

Electives (6 credits)

Students are required to select one course from each category as follows.

Media, Modes, and Methods (choose one)

COM 378 - Intercultural Communication (3 credits)

DS 314/ENG 314 - Digital Literacies (3 credits)

INT 341 - Leadership for Social Change (3 credits)

REL 335 - Sacred Words, Global Understanding (3 credits)

Theory Into Practice (choose one)

COM 438 - Communication Ethics (3 credits)

DS 335/CJ 335 - Digital Crime, Media and Culture (3 credits)

DS 360 - Ethics of Digital Culture (3 credits)

WRT 350 - Business Communication (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

WRT 351 - Writing for the Web (3 credits)

### **Leadership Emphasis**

#### **Core Courses** (6 credits)

INT 312 - Collaborative Communication (3 credits)

INT 341 - Leadership for Social Change (3 credits)

#### **Electives** (6 credits)

Students are required to select two courses:

COM 438 - Communication Ethics (3 credits)

INT 310 - Creativity and Innovative Problem-Solving (3 credits)

INT 314 - Life Journeys (3 credits)

INT 323 - Design Thinking to Meet Real-World Needs (3 credits)

INT 331 - Person and Profession in a Global Environment (3 credits)

MGT 345 - Team Building (3 credits)

PNH 390 - Leadership Dynamics (3 credits)

PNH 420 - Organization Theory and Dynamics (3 credits)

WRT 350 - Business Communication (3 credits)

### **Project Management Emphasis**

There are 18 credits required for the emphasis in leadership. Integrative studies majors may elect to complete their emphasis in leadership by taking 18 credits in coursework that develops leadership competencies. It provides the basis for long-term personal and professional growth through studying the principles and practices of engaged leadership.

Required courses:

INT 341 - Leadership for Social Change (3 credits)

12 credits from the following list of courses

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

An additional three credits from either the approved list **OR** an advisor approved course

The following courses can count toward the leadership emphasis:

AHS 340 - Health Care Management (3 credits)

COM 301 - Interpersonal Communication (3 credits)

COM 302 - Small Group Communication (3 credits)

INT 310 - Creativity and Innovative Problem-Solving (3 credits)

INT 314 - Life Journeys (3 credits)

INT 331 - Person and Profession in a Global Environment (3 credits)

MGT 331 - Managing People and Organizations (3 credits)

MGT 340 - Ethics and Business, Social Justice and Sustainability (3 credits)

MGT 345 - Team Building (3 credits)

MGT 355 - The Diversified Workforce (3 credits)

PNH 335 - Grant Writing (3 credits)

PNH 360 - Voluntarism and the Nonprofit Sector (3 credits)

PNH 390 - Leadership Dynamics (3 credits)

PNH 420 - Organization Theory and Dynamics (3 credits)

WRT 350 - Business Communication (3 credits)

The project management emphasis integrates the essential Project Management Body of Knowledge skills, principles, and practices; with cutting edge methodology, team-building skills and best practices. Students work in teams to effectively initiate, plan, execute, control, and bring closure to real-world project(s) using MS Project and/or other enterprise project management software.

Required Courses (12 Credits)

BUS 470 - Applied Business Solutions (1 to 3 credits)

CIS 339 - Project Planning (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 349 - Agile Project Management (3 credits)

MGT 345 - Team Building (3 credits)

### **Business Fundamentals Emphasis**

Requirements Courses (15 credits)

ACC 201 - Accounting for Non-Business Majors 1 (1.5 credits)

ACC 202 - Accounting for Non-Business Majors 2 (1.5 credits)

FIN 300 - Fundamentals of Finance for Non-Business Majors (3 credits)

MGT 300 - Fundamentals of Management for Non-Business Majors (3 credits)

MKT 300 - Fundamentals of Marketing for Non-Business Majors (3 credits)

### **Self-Designed Emphasis**

Students have the option of working in consultation with their advisor to develop an individualized area of focus comprised of six or more courses drawn from the whole Grand Valley curriculum. At least 15 of the 18 credits in the area of focus must be at the 300-level or above. Typically, areas of focus are organized around either a major issue in human life or an interdisciplinary area of study. For example, a student may consider concentrating study within an upper-level issues area to complete an area of focus in globalization, human rights, health, innovation, information and technology, sustainability, or identity. Other recent areas of focus include, social relations, gender justice, American studies, business and society, peace studies, oppression and human rights, scientific culture and the humanities, cultural studies, business and economics, humanities, technical and scientific communication, political economy, childhood development and literature, and management and society.

The flexibility of the area of focus also allows students to earn one of several certificates or a badge while completing their degree requirements. Courses completed as part of these certificates or badges are counted toward the area of focus requirements. Options include: leadership certificate, global communications certificate, project management certificate, applied data analytics certificate, and/or a digital badge in intercultural competence.

### **Contextual Electives**

There are nine contextual elective credits required. The program also emphasizes the importance of integration in education, of seeing how things fit together, including the integration of liberal and career studies. To these ends, all majors are required to select a body of at least three elective courses. Students may select their electives from across the entire Grand Valley curriculum. Students could consider structuring their elective as a career component to their study plan, including areas such as business, computer science, and international study.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Senior Seminar and Internship/Practicum**

Five or more credits are required. The required internship/practicum and senior seminar provide opportunities for students to apply theoretical knowledge to life issues outside the classroom and to synthesize the components of their major. INT 490 or INT 491, the internship or practicum, allows students to put into practice their ideas and explore the applications of their focus of study. Guidelines for an internship or practicum are on the department website under Advising Resources for Students. INT 495 - Senior Seminar, or Capstone, asks students to prepare/share their senior theses in which they reconsider the central issues they have engaged in the major.

INT 490 - Internship (1 to 6 credits) **OR** INT 491 - Practicum (1 to 6 credits)

INT 495 - Senior Seminar (Capstone) (3 credits)

## **Admission to the Integrative Studies Major and Submission of the Study Plan**

To be admitted to the major, students must consult with an advisor and prepare an approved study plan that lists the courses included in the emphasis or focus area and the electives or be enrolled through the LEADS program. See departmental website for sample study plans and areas of focus as well as information about LEADS. Study plans are submitted to the chair for review and approval. Changes in study plans must be made in consultation with advisors and approved by the chair.

## **Badge in Intercultural Competence**

**Website:** [gvsu.edu/itc](http://gvsu.edu/itc)

The intercultural competence program (ITC) is designed to help students build the experience-based skills needed to interact sensitively and effectively with the rich diversity of people in our increasingly global community. Experience-based learning builds skills that are in demand by today's employers and support students to become more culturally aware, engaged citizens. Those include:

Cultural Self-Awareness: Developing a demonstrated ability to articulate insights into one's own cultural rules and biases; and

Knowledge of Cultural and Worldview Frameworks Through Inquiry: Demonstrating a sophisticated understanding of the complexity of elements important to members of another culture in relation to that culture's history, values, politics, communication styles, economy, or beliefs and practices.

Course options are designed to fit the busy schedules of a wide range of students as well as non-degree seeking professionals from diverse fields like nursing, allied health, engineering, and business, among others.

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Students wishing to earn the ITC badge can do so in one of three ways: (1) as free-standing digital badge; (2) as part of the global communications certificate (see [gvsu.edu/goglobal](http://gvsu.edu/goglobal)); or (3) as part of a major (B.A. or B.S.) in integrative studies (see [gvsu.edu/int](http://gvsu.edu/int)). Courses within this program are offered in fully online, hybrid, and traditional formats. Students enrolled in the LEADS program ([gvsu.edu/complete](http://gvsu.edu/complete)) may complete the ITC badge in a fully online, accelerated six week format.

Many students are able to complete the badge in less than one year, or as little as one semester.

We encourage you to contact the Integrative, Religious, and Intercultural Studies Department (IRIS) to speak with a faculty advisor who can help you plan the best and most direct course to complete the certificate requirements: (616) 331-8020 or email: [irisdept@gvsu.edu](mailto:irisdept@gvsu.edu).

### **Requirements for the Badge**

ITC 100 - Introduction to Intercultural Competence (3 credits)

ITC 490 - Practicum: Intercultural Learning Experience (1 to 6 credits)

WRT 354 - Writing in the Global Context: Culture, Technology, and Language Practices (3 credits)

## **Digital Studies Minor**

**Website:** [gvsu.edu/ds](http://gvsu.edu/ds)

The widespread influence of digital media in almost every aspect of contemporary life requires new literacy skills for understanding and using digital technologies. Regardless of their specialized major program, students will work and evolve in environments that increasingly rely on digital tools and platforms to create and share information. To address this need, the digital studies minor provides ways for students from all disciplines to explore the role of digital tools and to become productive and ethical digital citizens.

Focused on theory and practice, the digital studies curriculum helps students gain experience using digital tools and develop a complex understanding of digital cultures. The modular curriculum allows students to customize their experience in the minor based on their interests and major.

The curriculum covers topics such as:

Multimedia production

Social media

Ethics and digital culture

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

Design and data visualization

Data literacy

Digital identity and representation

The minor has two overarching goals, both oriented toward helping students navigate the increasingly digitized world that we inhabit. The first is to teach students the skills necessary to use digital skills and tools foundational to their careers, including data literacy, visualization, multimedia production, visual rhetoric, and design. The second is to gain the knowledge to critically assess digital culture, including the interrogation of social media, digital identity and representation, and exploring the ethical implications of digital access.

## **Requirements for a Minor in Digital Studies**

The minor requires 21 credits.

### **Core Courses**

All students minoring in digital studies are required to complete the following two courses:

DS 201 - Digital Identities and Communities (3 credits)

DS 202 - Digital Data and Design (3 credits)

### **Module Courses**

All students minoring in digital studies are required to complete two courses from each of the following modules.

Students must take two courses from different disciplines in the digital tools and production module.

Students must take at least one digital studies designated course in the digital culture module. With approval from the director of digital studies, students may complete DS 490 - Digital Studies Internship in place of one of the two required module courses.

### **1. Digital Tools and Production**

ART 209 - Graphic Design Basics (3 credits)

ART 271 - Digital 3-D Modeling and Design (3 credits)

CIS 231 - Problem Solving Using Spreadsheets (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

CIS 238 - Internet Media and Programming (3 credits)

CIS 320 - Visualization of Data and Information (3 credits)

CMJ 260 - Multimedia Journalism Workshop (3 credits)

DS 310 - Digital Preservation and Archiving (3 credits)

DS 490 - Internship in Digital Studies (3 credits)

FVP 125 - Media Production I (3 credits)

GPY 307 - Introduction to Geographic Information Systems (3 credits)

MKT 360 - Digital Marketing (3 credits)

PHO 175 - Understanding Still Photography (3 credits)

STA 216 - Intermediate Applied Statistics (3 credits)

WRT 351 - Writing for the Web (3 credits)

WRT 455 - Multimodal Composing (3 credits)

## **2. Digital Culture**

CIS 358 - Information Assurance (3 credits)

DS 314/ENG 314 - Digital Literacies (3 credits)

DS 330 - Game Culture (3 credits)

DS 335/CJ 335 - Digital Crime, Media and Culture (3 credits)

DS 340 - Identity and Representation in Digital Culture (3 credits)

DS 350 - Social Media in Culture (3 credits)

DS 360 - Ethics of Digital Culture (3 credits)

DS 490 - Internship in Digital Studies (3 credits)

PLS 340 - Mass Media and American Politics (3 credits)

SOC 366/INT 366 - American Society and Media (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

STA 340 - Statistics in the Media (3 credits)

### **Capstone Requirements**

All students minoring in digital studies are required to complete the Capstone course:

DS 495 - Digital Studies Capstone (3 credits)

## **Intercultural Communications Certificate**

**Website:** [gvsu.edu/itc](https://gvsu.edu/itc)

The intercultural communication certificate prepares graduates with skills in effective communication within and across diverse international organizations. Core courses ground students in cultural competency, written and spoken discourse, and experiential learning. Graduates of this program will demonstrate effective multi-modal persuasion and messaging that can be applied within a range of workplace, digital, and societal settings. Skills development is enhanced through interdisciplinary electives that situate global communication skills within particular job sectors and/or contexts.

Students wishing to earn the certificate can do so either as free-standing certificate or as part of a major in integrative studies (B.A. or B.S.). This program also supports students to earn an intercultural competence digital badge, creating stackable credentials that bolster your dossier. Most students complete this program in one year or less.

Courses within this program are offered in fully online, six-week accelerated formats for degree completion students. Any GVSU student can earn an intercultural communication certificate by completing the required courses listed as follows. These courses are offered in traditional, hybrid, and fully online formats.

We encourage you to contact the Integrative, Religious, and Intercultural Studies Department (IRIS) to speak with a faculty advisor who can help you plan the best and most direct course to complete the certificate requirements: (616)331-8020 or email: [irisdept@gvsu.edu](mailto:irisdept@gvsu.edu).

### **Requirements for the Certificate (14 credits)**

#### **Core Courses (8 credits)**

ITC 100 - Introduction to Intercultural Competence (3 credits)

ITC 490 - Practicum: Intercultural Learning Experience (1 to 6 credits)

WRT 354 - Writing in the Global Context: Culture, Technology, and Language Practices (3 credits)

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

## **Electives (6 credits)**

Students are required to select one course from each category as follows.

Media, Modes, and Methods (choose one)

COM 378 - Intercultural Communication (3 credits)

DS 314/ENG 314 - Digital Literacies (3 credits)

INT 341 - Leadership for Social Change (3 credits)

REL 335 - Sacred Words, Global Understanding (3 credits)

Theory Into Practice (choose one)

COM 438 - Communication Ethics (3 credits)

DS 335/CJ 335 - Digital Crime, Media and Culture (3 credits)

DS 360 - Ethics of Digital Culture (3 credits)

WRT 350 - Business Communication (3 credits)

WRT 351 - Writing for the Web (3 credits)

## **Leadership, Undergraduate Certificate**

**Website:** [gvsu.edu/leadershipcert](https://gvsu.edu/leadershipcert)

The leadership certificate prepares graduates with core training in six primary competencies: (1) leadership integrity (identity and values); (2) structural awareness; (3) interpersonal and conflict management skills; (4) diversity and cultural competency; (5) creative/critical decision-making; and (6) written/oral communication skills. These competencies align with the essential skills necessary for 21st century, cross-sector leadership.

Students wishing to earn the certificate can do so either as free-standing certificate or as part of a major in integrative studies (B.A. or B.S.). Courses within this program are offered in fully online, six-week accelerated formats for degree completion students. Any GVSU student can earn a leadership certificate by completing the required courses listed as follows. These courses are offered in traditional, hybrid, and fully online formats. Many students are able to complete the certificate in one year or less.

Refer to the online catalog [gvsu.edu/catalog](https://gvsu.edu/catalog) for the most current catalog information.

We encourage you to contact the Integrative, Religious, and Intercultural Studies Department (IRIS) to speak with a faculty advisor who can help you plan the best and most direct course to complete the certificate requirements: (616)331-8020 or email: [irisdept@gvsu.edu](mailto:irisdept@gvsu.edu).

## **Requirements for the Certificate**

### **Core Courses (6 credits)**

INT 312 - Collaborative Communication (3 credits)

INT 341 - Leadership for Social Change (3 credits)

### **Electives (6 credits)**

Students are required to select two courses:

COM 438 - Communication Ethics (3 credits)

INT 310 - Creativity and Innovative Problem-Solving (3 credits)

INT 314 - Life Journeys (3 credits)

INT 323 - Design Thinking to Meet Real-World Needs (3 credits)

INT 331 - Person and Profession in a Global Environment (3 credits)

MGT 345 - Team Building (3 credits)

PNH 390 - Leadership Dynamics (3 credits)

PNH 420 - Organization Theory and Dynamics (3 credits)

WRT 350 - Business Communication (3 credits)

## **International Business**

For additional information about opportunities your college offers, please refer to the Seidman College of Business section in this catalog.

Website: [gvsu.edu/internationalbusiness](http://gvsu.edu/internationalbusiness)

A major in international business develops a student's ability to meet the challenges of the global business environment. The major prepares students to work for U.S. and international companies that do business everywhere by training them to identify and develop solutions to problems

Refer to the online catalog [gvsu.edu/catalog](http://gvsu.edu/catalog) for the most current catalog information.

unique to doing business internationally. Students receive a strong foundation in international aspects of business by taking upper-level courses in international management, marketing, finance, accounting, and economics. Unique requirements of the major are that students take courses to improve their cultural competencies, study a foreign language, and participate in study abroad.

Students pursuing an international business major must complete a second Seidman major in a functional discipline (e.g., finance, marketing, accounting, management, or economics), a minor in a foreign language or demonstrated proficiency in a foreign language, and must participate in a GVSU-approved study abroad experience in addition to completing the B.B.A. core. For students with F1 visas, certain program requirement substitutions may be made. Students should contact the Seidman Undergraduate Student Services Office early in their program for a suggested pattern of coursework.
