TESTING POLICY FOR LAW ENFORCEMENT EMPLOYEES OF THE  
VILLAGE OF GRANVILLE**

**I. INTRODUCTION**

**A. Background**

The Village of Granville Board of Trustees, the Granville Police Department and the Granville Police Benevolent Association (PBA) recognize the importance of a safe, efficient and healthy work environment for all employees. This means that all employees must be able to work in a drug and alcohol free environment. Accordingly, the Granville Police Department will adopt a policy on Drugs in the Workplace, which applies to all employees of the Granville Police Department.

However, due to the particular importance of assuring that law enforcement employees are free of the effects of drug and alcohol use, the Village of Granville Board of Trustees, the Chief of Police, and the, Granville P.B.A., agreed to implement a random drug testing program for all covered employees to be effective January 1, 2005. The purpose of the "Granville Police Department Drug and Alcohol Testing Policy for Law Enforcement Employees of the Village of Granville" is to ensure a safe, efficient, healthy, drug free work environment and to comply with this contractual agreement, by implementing a policy to assure safe and healthy operations.

2. The Granville P.B. A., and the Village of Granville Board of Trustees, signed a collective bargaining agreement adding this drug testing policy to the 2004-2007 agreement and this police shall take effect January, 1<sup>st</sup> 2005.

3. This policy is designed to provide for discipline of any covered employee who fails a verified random drug test, or who fails a reasonable suspicion drug or alcohol test

4. All issues relating to implementation and application of the negotiated random testing procedure shall be subject to grievance and arbitration procedures as may be found in the applicable collective bargaining agreement. This shall not include violations of a last chance agreement as outlined in Article VII(c) of this policy.

5. Participation and compliance with this Policy is a requirement of employment for all covered employees.

#### **D. Definitions and Discussion**

Exceptions to remaining on duty with an alcohol concentration of 0.02 or greater may be made only on a case by case basis by a supervisor for law enforcement officers engaged in officially sanctioned undercover operations.

## **II. TESTING FOR PROHIBITED DRUG AND ALCOHOL**

### **A. Types of Testing Allowed**

1. Analytical testing of the urine of covered employees for prohibited drugs and the breath of covered employees for alcohol misuse shall be conducted as provided by this Policy and as required by law or regulations. The six testing categories are:

- a) Pre-Employment Testing
- b) Reasonable Suspicion Testing
- c) Post Accident Testing
- d) Random Testing
- e) Return to Duty Testing
- f) Follow-up Testing

### **B. Testing**

#### 1. Pre-Employment Testing

a) All applicants for employment in or assignment to a covered position, or transfers to such positions or assignments, shall be tested for prohibited drugs.

b) The drug tests required by this section shall be administered only after the applicant is informed in writing that the urine sample being collected will be tested for prohibited drugs. Pre-employment testing will be administered as recommended by the Municipal Police Training Council (MPTC).

c) An applicant who fails a drug test shall not be hired for, or assigned to a covered position.

#### 2. Reasonable Suspicion Testing

a) Covered employees are prohibited from using prohibited drugs or misusing alcohol as described herein. A covered employee whom a supervisor reasonably suspects of using a prohibited drug or the misuse of alcohol, or both, shall be administered a drug test (urine) or alcohol test (breath) or both, as appropriate. An employee is reasonably suspected of using a prohibited drug or of the misuse of alcohol, or both, when a trained supervisor, or an officer in charge of a shift, who has been trained in the detection of drug use or in the detection of alcohol misuse makes specific, contemporaneous articulable observations concerning the appearance, behavior, speech or body odors of the employee indicating such use or misuse, or both. If possible, the person who makes the determination that reasonable suspicion exists to conduct a drug or alcohol test shall not conduct the actual test of the employee.

b) Alcohol testing is authorized only if the observations stated above are made during, just preceding, or just after the period of the workday that the employee is required to be in compliance with the restrictions on alcohol use. When a supervisor or an officer in charge of a shift determines that a reasonable suspicion alcohol test should be administered, the employee shall not perform or continue to perform his or her duties until

(1) an alcohol test is administered and the employee's alcohol concentration measures less than 0.02 or

(2) the start of the employee's next regularly scheduled duty period, but not less than 8 hours following the determination that there is reasonable suspicion to believe that the employee has engaged in misuse of alcohol.

### 3. Post Accident Testing

a) For purpose of this Policy, the term "accident" means an occurrence associated with the operation of a vehicle causing

- (1) the death of an individual,
- (2) bodily injury to an individual who immediately receives medical treatment away from the scene of the accident,
- (3) disabling damage to one or more vehicles requiring the vehicle to be transported away from the scene by a tow truck or other vehicle. The phrase "disabling damage" means damage which precludes departure of any vehicle from the scene of the occurrence in its usual manner in daylight after simple repairs.

b) Each covered employee involved in an accident shall be tested for alcohol and drugs if the accident involved the loss of human life or if the employee received a citation under state or local law for a moving traffic violation arising from the accident.

c) An employee who is subject to post-accident testing shall remain readily available for such testing or will be deemed to have refused to submit to testing. Nothing in this paragraph shall be construed to require the delay of necessary medical attention for injured people following an accident or to prohibit an employee from leaving the scene of an accident for the period necessary to obtain assistance in responding to the accident, or to obtain necessary emergency medical care.

d) A post-accident alcohol test shall be administered within 8 hours of the accident. A post-accident drug test shall be administered within 32 hours following the accident.

### 4. Random Testing

a) All covered employees shall be subject to random drug testing.

b) The selection of employees for random drug testing shall be made by a scientifically valid method, such as a random number table or a computer based random number generator that is matched with the employee's social security number, payroll identification number or other comparable identifying number. Each employee shall have an equal chance of being tested each time selections are made.

c) The number of random drug tests conducted each year shall be equal to at least 50% of the number of employees subject to random drug testing.

d) Random drug tests are unannounced, and the dates of administering them shall be spread reasonably throughout the calendar year.

e) Each employee who is notified of selection for random drug testing shall proceed to the test site immediately, or, if the employee is on duty at the time of notification, the employee shall leave duty as authorized by competent authority and proceed to the testing site as soon as possible.

f) An employee shall only be tested for alcohol upon reasonable suspicion, or in accordance with a post-accident test. Applicants for covered positions will be tested for drugs, but not for alcohol.

g) When possible, covered employees will be sent for testing during regularly scheduled duty hours, however they may be sent off duty if necessary and paid according to the applicable collective bargaining agreement, policy or law.

5. Return to Duty Testing

a) Before an employee returns to duty after engaging in alcohol misuse, the employee shall undergo a return to duty alcohol test with a result indicating an alcohol concentration of less than 0.02.

b) If an employee is to be returned to duty after engaging in drug use, the employee shall undergo a return to duty test indicating a verified negative result for drug use. This return to duty test does not apply in cases where a last chance agreement has been violated and a termination decision has been made by the Chief of Police and the Village Board.

6. Follow-up Testing

a) Following a determination by a substance abuse professional that an employee is in need of assistance in resolving problems associated with alcohol misuse, the employee shall be subject to unannounced follow-up alcohol testing as directed by a substance abuse professional.

b) The number and frequency of follow-up tests shall be as directed by the substance abuse professional, and shall consist of at least six tests in the first twelve months following the employee's return to duty.

c) The employee's supervisor may direct the employee to undergo return-to-duty and follow-up testing for both alcohol and drugs, if the substance abuse professional determines that returning-to-duty and follow-up testing for both alcohol and drugs is necessary for that employee.

d) Follow-up testing shall not exceed 48 months from the date of the employee's return to duty.

e) The substance abuse professional may terminate the requirement for follow-up testing at any time after the first six tests have been administered if the substance abuse professional determines that such testing is no longer necessary.

f) If and when, an employee who has tested positive for illegal drugs is allowed to return to full duty, such an employee shall be subject to unannounced follow-up testing for at least twelve (12) months, but not for more than forty eight (48) months. The frequency and duration of the follow up testing will be recommended by a substance abuse professional (SAP) as long as a minimum of six (6) tests are performed during the first twelve (12) months after the employee has returned to duty. The cost of all follow-up testing shall be paid in full by the Employer.

### **III. COLLECTION AND ANALYSIS**

A. The collection of urine or breath for random testing shall be performed at a Village facility for breath or at the site of an independent health provider for Urine. Employees shall be advised of the location of the testing by a supervisor at the time testing is required.

B. The collection site for urine samples will provide a privacy enclosure for urination, a toilet, a suitable, clean, writing surface, and a water source for hand washing which, if practicable, will be outside the privacy enclosure. Any water source within the privacy enclosure should be secured to prevent its use to adulterate the urine sample.

C. The employees will be assured of privacy during urination except in circumstances where there is evidence that a prior sample was altered, adulterated or tampered with, in which case a retest will be required and privacy will not be assured.

D. The urine specimen must be split and poured into two specimen bottles. This provides the employee with the option of having an analysis of the split sample performed at a separate laboratory if the primary specimen test result is verified positive after an initial screening. A second, confirmatory test is to be accomplished by gas chromatography or mass spectrometry.

E. Urine testing will be conducted at an independent laboratory certified by the U.S. Department of Health and Human Services. No employee of Granville Police Department will be engaged in the testing process.

F. Cutoff levels as established for each drug class by the Department of Health and Human Services (DHHS) shall be utilized for initial and confirmatory testing. Tested levels which fall below these cutoff levels shall be considered negative results.

G. All drug testing laboratory results will be reviewed by a qualified Medical Review Officer (MRO) to verify and validate test results. A MRO is a licensed physician responsible for receiving laboratory results generated by a drug-testing program who has knowledge of substance abuse disorders and has relevant training and qualifications.

H. The MRO will review and interpret all confirmed positive tests by reviewing the employee's medical history, including any medical records and biomedical information provided, affording the employee a reasonable opportunity to discuss the test result, and will decide whether there is a legitimate medical explanation for the result including legally prescribed medication.

I. The MRO will notify each employee who has a verified positive test that the employee has 72 hours in which to request a test of the split specimen at a separate certified laboratory.

J. Upon completion of the MRO's review the MRO shall report each verified test result to the Granville Governing Board designee who will immediately notify the Chief of Police or his designee of the result. Once notified of a verified positive test result, the Chief will remove the employee from duty. Removal from duty will be immediate and will not await the results of any requested retest.

#### **IV. ALCOHOL TESTING PROCEDURES**

A. Alcohol testing shall be conducted by collection of a breath specimen through the use of an evident breath-testing device (EBT) that is approved by the National Highway Traffic Safety Administration or the NYS Division of Criminal Justice Services. The test must be performed by a breath alcohol technician (BAT), who is trained to proficiency in the operation of the EBT being used and in the alcohol testing procedures specified in the regulations.

B. The person who will serve as the BAT will be identified to employees and by a supervisor at the time of selection for an alcohol test.

C. In so far as possible, alcohol tests will be conducted at a site that provides privacy to the individual being tested.

D. Upon arrival at the collection site, the employee must provide positive identification to the BAT. After testing procedures are explained to the employee, the employee and the BAT must complete, date, and sign the alcohol testing form.

##### **E. Screening Test**

1. The BAT will open an individually sealed, disposable mouthpiece in view of the employee and attach it to the EBT. The BAT will instruct the employee to blow forcefully into the mouth piece until an adequate amount of breath has been obtained. Following the screening test, the BAT must show the employee the result displayed on the EBT or a printed result. If the result of the screening test is an alcohol concentration of less than 0.02, no further testing is required and

the test will be reported to the employer as a negative test. The employee may then return to his or her duty.

**F. Confirmation Test**

1. If the result of the screening test is an alcohol concentration of 0.02 or greater, a confirmation test must be performed.
2. The confirmation test must be conducted at least 15 minutes, but not more than 20 minutes, after completion of the initial test. The employee will be instructed not to eat, drink, or put any object or substance in his/her mouth, and will be instructed not to belch to the extent possible while awaiting this confirmation test. The confirmation test will be performed whether or not the employee complies with such instructions.
3. The confirmation test is conducted using the same procedures as the screening test. A new mouthpiece will be used.
4. If the initial and confirmation test results are not identical, the confirmation test result is deemed to be the final result.
5. The BAT will transmit all results to the Director of Employee Relations in a confidential manner. If the employee must be removed from duty, the BAT will notify the Chief of Police or designee, and the employee will be removed from duty without delay.
6. Where a reasonable suspicion or post-accident alcohol test indicates an alcohol concentration of .02 percent or more but less than .04 percent, the employee shall not return to duty until at least 12 hours after such test.
7. The unauthorized use of alcoholic beverages on duty or in a way that impacts an employee's job duties may violate Granville Police Department disciplinary policy, workplace rules or statutes. Violation of any applicable policy or law may subject the covered employee to discipline up to and including termination, to be dealt with in accordance with any applicable collective bargaining agreement.

**V. VIOLATIONS**

The following conduct shall be considered a violation of this Policy:

- A. Taking a drug or alcohol test required by this Policy leading to a verified positive result. For purposes of this paragraph, a verified positive result includes an alcohol test indicating an alcohol concentration of .02 percent or more.
- B. Using alcohol while on duty, unless authorized by competent authority as part of an official undercover investigation.
- C. Using alcohol within eight hours after an accident requiring a post-accident alcohol test or until the employee undergoes a post-accident alcohol test, whichever occurs first.
- D. Refusal to submit to a post-accident alcohol or drug test, a random drug test, a reasonable suspicion alcohol or drug test, a follow-up alcohol or drug test, or any other alcohol or drug test required by this policy.
- E. Failure to produce an adequate urine or breath sample when selected for testing, where such failure is not consistent with a legitimate medical excuse. The burden of establishing a legitimate medical excuse falls on the covered employee.

F. Altering, adulterating, or tampering with a urine sample or breath sample used in a drug or alcohol test required by this Policy, or otherwise distorting the resulting of a required drug or alcohol test or attempting to do any of the following:

G. Refusal to sign consents or releases in connection with drug or alcohol tests.

H. Reporting for duty or remaining on duty while having an alcohol concentration of 0.02 or greater, except for situations authorized in Section V(B).

I. Reporting for duty or remaining on duty when the employee uses any of the drugs prohibited by this Policy, except when the use is pursuant to the instructions of a physician who has advised the employee that the drug does not adversely affect the employee's ability to safely operate a Granville Village motor vehicle or weapon and does not adversely affect the employee's ability to carryout the duties of a law enforcement officer.

J. Performing duty within 8 hours after using alcohol.

K. Failure to report immediately or in a timely fashion to a drug or alcohol test once notified to do so.

L. Leaving the scene of an accident without just cause, prior to submitting to a drug or alcohol test.

M. Failure to abide by any or all terms contained in a "last chance" agreement as outlined in Article VII of this policy.

## **VI. CONSEQUENCES**

A. Each employee who commits a violation of this Policy shall be immediately removed from duty. The employee will be allowed to use accumulated leave credits, but will not be allowed to use any sick bank.

B. Each employee who has committed a violation of this Policy shall be advised of the resources available to the employee in evaluating and resolving problems associated with the misuse of alcohol and the use of controlled substances, including the names, addresses, and telephone numbers of substance abuse professionals and counseling and treatment programs.

C. Employees who are not subject to termination shall be evaluated by a substance abuse professional who shall determine what assistance, if any, the employee needs in resolving problems associated with alcohol misuse or drug abuse.

D. Each such employee who is identified as needing assistance in resolving problems associated with alcohol misuse or drug use shall be referred to a treatment or rehabilitation program and shall be evaluated by a substance abuse professional to determine whether the employee has properly followed and completed such rehabilitation or treatment program.

E. No employee who has violated this Policy shall return to duty unless the employee has followed the recommendations of a substance abuse professional including completion of a treatment or rehabilitation program, as certified by such substance abuse professional, and has passed a return to duty drug test or alcohol test or both, as specified by the substance abuse professional.

F. Any employee who returns to duty after having satisfied the requirements of return to duty testing as found in Article II (B)(5) of this policy shall be subject to follow-up testing as provided in Article II (6) of this Policy.

## **VII. CONSEQUENCES OF A POSITIVE DRUG TEST**

A. An employee who has a positive drug test result pursuant to any drug test authorized by this policy must be immediately removed from full duty. The employee will be placed on administrative leave, and may use accumulated vacation and sick leave time. If the employee exhausts his or her accruals before return to duty testing is successfully completed, unpaid administrative leave will apply. Any employee who has a verified

positive drug test result pursuant to any test authorized by this policy shall surrender his/her agency owned firearm(s) to the Chief or his designee. The member will not be allowed to return to full duty until the employee has been evaluated by a substance abuse professional. The employee must make an appointment to see a substance abuse professional at the EAP provider within five (5) calendar days of being informed by the MRO of a final positive drug test result. Thereafter, the substance abuse professional will make a determination as to whether the employee can be returned to full duty, after consulting with the Chief or his designee as to the employee's job duties. Depending on the extent of treatment determined necessary by the substance abuse professional and any referral agency, the employee may be placed on sick leave or may use any other accumulated personal leave time (such as vacation) while under treatment.

B. The employee may be subjected to disciplinary action in accordance with the provisions of the New York State Civil Service Law or collective bargaining agreement, whichever is applicable, up to and including termination of employment, provided, however, that an employee who has tested positive may be afforded the option of entering into a written "last chance" agreement which shall contain the elements set forth in Article VII(C).

C. In addition, before any employee who has tested positive returns to duty, the employee must undergo and pass a return-to-duty drug test pursuant to Article II(B)(5) of this policy with a negative result. Should the employee fulfill all the initial requirements as outlined above and as determined by the EAP substance abuse professional, after consultation with the Chief the employee shall be allowed to return to full duty after executing a written "last chance" agreement which shall contain the following elements:

1. A brief review of the circumstances involving the positive test result, the administrative action taken, the fact that the employee sought, and has completed, an initial course of treatment and further agrees to continue participation in the professionally recommended treatment program(s);
2. The employee will agree to execute proper authorization forms to allow all treatment providers permission to communicate with the Chief or his designee regarding compliance with all recommended treatment programs;
3. The employee will agree, as a condition of continued employment, to submit to follow-up drug testing (at the employee's expense) as set forth in Article II(B)(6) of this policy;
4. In the event the employee should test positive for drugs or alcohol in violation of this policy at any time during this designated follow up period as set forth in Article II(B)(6), the employee shall be subject to automatic dismissal with no recourse to the contractual grievance procedure, the courts, or any other administrative appeals process, except where EAP recommended compliance, not involving a positive drug test result is alleged; or an issue involving a breach of chain of custody is alleged. Only in cases involving these two exceptions can the employee demand arbitration or hearing in accordance with the contractual grievance process found in the collective bargaining unit which covers the employee. In all other cases, the Chief shall be the sole and exclusive arbitrator, with final and binding authority, of any disputes that an employee may wish to bring regarding the employee's compliance or non-compliance with the terms and conditions of the "last chance" agreement. Any outside arbitrator, hearing officer or judge hearing a claim regarding any alleged breach of compliance issues defined above shall be bound by the fact that the employee shall have the burden of proof, by a preponderance of the evidence. No other collateral issues shall be considered or determined. The outside arbitrator hearing officer or judge's decision on the grievance can include dismissal of the employee or a finding of compliance or any other remedy fashioned by the arbitrator, hearing officer or judge.
5. If the employee elects to enter into a "last chance" agreement, as set forth above, then the Employer agrees that it will not seek any discipline against that employee for having tested positive and any disciplinary actions that may have been brought against the employee related to a positive test result shall be withdrawn by the Employer.

## **VIII. EMPLOYEE RIGHTS**

### **A. Testing and Waiting Time**

All time spent on testing, including reasonable travel time, is paid time under regular pay status, including overtime, if applicable. Employees will be paid while being tested for the time away from duty, or, if their duty assignment has ended, they will be paid up to the time they are released from the testing site.

### **B. Confidentiality**

The Village shall make every effort to assure confidentiality throughout the testing process and to protect the individual dignity and right to privacy of all employees. Personal data regarding the drug testing results and rehabilitation program evaluations will be forwarded only to the Director of Employee Relations or designee, and are confidential. Any release of this information to persons other than to those representatives of the Village of Granville listed in Section IV(F)(5) or the employee's supervisor is prohibited without the written permission of the employee tested. The affected employee may request the results of any drug or alcohol test conducted upon them in writing, by requesting such from the Director of Employee Relations or designee. The Health Facility may also release test results to the Chief of Police or any other agency upon their request in conjunction with their investigation of an accident, crime, or internal investigation or to any other oversight agency where lawful authority is presented. These releases, where required, may be done without the employee's consent.

### **C. Employee Assistance Program**

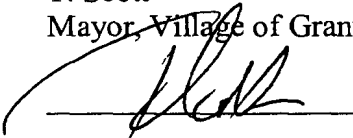

The Employee Assistance Program (EAP) has been established to aid employees in coping with the myriad of personal problems with which they may be confronted, including drug abuse and alcohol misuse, which can affect their job performance. The Employee Assistance Program is always open to all employees and their families who voluntarily seek its assistance, except that the EAP may not be used to avoid the taking of a drug or alcohol test when an employee has been selected for testing under the Policy. An employee who has been selected to take a required drug or alcohol test may not avoid the obligation to take the test by past or future participation in the EAP. Voluntary participation in the EAP is confidential and will not adversely affect an employee's employment with the Village.
