

Volume Fifteen

SUBJECT INDEX

ANGINA PECTORIS

- medical management of . . . , 29
- results of aortocoronary bypass surgery for . . . , 43

APNEA

- recognition of the at-risk child, 117

ARRHYTHMIAS

- management of patients with premature ventricular contractions, 34

ASTHMA

- diseases which mimic . . . and chronic obstructive pulmonary disease (COPD), 79
- newer drugs and their use in the treatment of bronchial . . . , 107
- pathophysiology of . . . and chronic obstructive pulmonary disease (COPD), 75

CARDIOLOGY

- afterload reduction therapy for congestive heart failure, 22
- assessment for surgery for aortic valve replacement, 55
- indications for cardiac catheterization in the diagnosis and management of coronary artery disease, 16
- management of the difficult hypertensive patient, 64
- medical management of angina, 29
- recent techniques in echocardiography: two-dimensional echocardiography, 58
- results of aortocoronary bypass surgery for angina pectoris, 43
- surgical treatment of mitral valve disease, 47
- thallium 201 myocardial imaging, 8
- the management of patients with premature ventricular contractions, 34
- the role of the exercise stress test in the adult, 3

CHRONIC OBSTRUCTIVE PULMONARY DISEASE (COPD)

- diseases which mimic asthma and . . . , 79

- . . . : outpatient management, 87
- pathophysiology of asthma and . . . , 75
- pre- and postoperative care of pulmonary patients undergoing nonthoracic surgery, 97
- recent advances in the management of chronic airway obstruction, 91

CONGESTIVE HEART FAILURE

- afterload reduction therapy for . . . , 22

DIAGNOSTIC CARDIOLOGY

- indications for cardiac catheterization in the diagnosis and management of coronary artery disease, 16
- recent techniques in echocardiography: two-dimensional echocardiography, 58
- thallium 201 myocardial imaging, 8
- the role of the exercise stress test in the adult, 3

GRIEF

- the . . . reaction, 127
- the parents' reaction, 130

HEART DISEASE

- afterload reduction therapy for congestive heart failure, 22
- indications for cardiac catheterization in the diagnosis and management of coronary artery disease, 16
- medical management of angina, 29
- surgical treatment of mitral valve disease, 47

HYPERTENSION

- management of the difficult hypertensive patient, 64

KIDNEY DISEASE

- hyperuricemic nephropathy: a complication of acute leukemia in children, 68

LEGAL MEDICINE

- legal aspects of SIDS, 122

LEUKEMIA

hyperuricemic nephropathy: a complication of acute . . . in children, 68

LUNG DISEASE

chronic obstructive pulmonary disease: outpatient management, 87

diseases which mimic asthma and chronic obstructive pulmonary disease (COPD), 79

newer drugs and their use in the treatment of bronchial asthma, 107

pathophysiology of asthma and chronic obstructive pulmonary disease (COPD)

pre- and postoperative care of pulmonary patients undergoing nonthoracic surgery, 97

pulmonary rehabilitation in a community hospital, 101

recent advances in the management of chronic airway obstruction, 91

NUCLEAR MEDICINE

thallium 201 myocardial imaging, 8

PREMATURE VENTRICULAR CONTRACTIONS

the management of patients with premature ventricular contractions, 34

REHABILITATION

pulmonary . . . in a community hospital, 101

SUDDEN INFANT DEATH SYNDROME (SIDS)

community involvement, 134

emergency room procedure, 133

legal aspects of . . . , 122

recognition of the at-risk child, 117

the counseling visit, 134

the grief reaction, 127

the Guild for Infant Survival, 131

the nature of the problem: . . . , 115

the nursing role, 121

the parents' reaction, 130

the role of the primary care physician, 119

SURGERY

assessment for . . . for aortic valve replacement, 55

pre- and postoperative care of pulmonary patients undergoing nonthoracic . . . , 97

results of aortocoronary bypass . . . for angina pectoris, 43

surgical treatment of mitral valve disease, 47
