### 1. Introduction

This is a report on the phytoplankton chlorophyll *a* concentration on a cruise of the icebreaker *Shirase* during the 45th Japanese Antarctic Research Expedition (JARE) in 2003–2004 austral summer. Chlorophyll *a* concentration of phytoplankton was measured in two series: (1) spatial variation of chlorophyll *a* in the surface water along the cruise track, and (2) vertical profile of chlorophyll *a* in the Indian Ocean sector of the Southern Ocean.

### 2. Materials and methods

Surface seawater was sampled usually two or three times a day by pumping up through the hull. Subsurface water was collected with a Niskin bottle attached to the Rosette multi-sampler on a CTD or Van-Dorn bottle. Seawater samples of 200–300 ml were filtered onto a glass fiber filter (Whatman, GF/F). The filter was immediately soaked in *N,N*-dimethylformamide (Suzuki and Ishimaru, 1990), and pigments were extracted. The concentration of chlorophyll *a* and pheopigments were determined fluorometrically (Parsons *et al.*, 1984) with a fluorometer (Turner Design, 10-AU). The fluorometer was calibrated against a chlorophyll *a* standard (Sigma Chemical Co.) using a spectrophotometer and the value of specific absorption coefficient obtained by Porra *et al.* (1989).

### 3. Data

Map of the sampling stations during JARE-45 cruise is illustrated in Fig. 1. Chlorophyll *a* and pheopigments concentration in sea surface and subsurface water are shown in Tables 1 and 2, respectively. The data in this report are available on digital media.

#### 4. Scientists on board

Sampling and analysis were carried out by M. Iida, M. Matsuzaki and S. Kudoh.

#### 5. Data policy

Before using the data for publication or presentation, please request permission in writing. Inquiries should be addressed to:

Mitsuo Fukuchi, Professor

Phone: +81-3-3962-6031  
Facsimile: +81-3-3962-4914  
E-mail: fukuchi@nipr.ac.jp

#### Acknowledgments

We thank to all the members of JARE-45 for their support and help. We also wish to thank officers and crew members of the icebreaker *Shirase*.
