# Training Sessions

## Computing and Library Services Support for Researchers

In 2007 we asked you how the Library could support you in your research and you said:

So we have arranged:

### 3 half-day sessions looking at:

- ★ Access to electronic resources - questions and answers
- ★ EndNote
- ★ Current awareness
- ★ Inter-library Loans and Secure Electronic Delivery
- ★ A brief explanation about the University Repository
- ★ A short introduction to Archives and Special Collections

See over for dates and a booking form →

# Training sessions: feedback

***Really useful, felt a bit rushed. Maybe a full-day would be better***

***I had no idea all this information was freely available for researchers - thanks***

***Very useful session, good to meet the library staff for my school***

***More time to look at EndNote please***

***A dedicated EndNote session would be useful***

***EndNote will be useful but half an hour is not enough to get to grips with it***

# Reference Management: EndNote

# Reference Management: training feedback

***A longer session  
would be useful***

***Hands on exercise is a very  
useful part of the session***

***Good to hear about  
other tools like Zotero***

***Two sessions would  
be better so we can  
practice more***

***Trainers adapted their  
material to suit the  
requests of the group  
which was useful***

***A really useful  
tool, will save bags  
of time, thanks***
