College Farm

March 14, 1977

To: Mr. Barry Hartis

From: Craven E. Williams

I talked with you the other day about getting some assistance for our tree farm. I think the first place you need to begin is with the County Agricultural Extension Office. They can give you some initial advice.

We will also want to be in touch with N. C. State University, Extension Department of Forestry Management. Also, we will want to be in touch with the Agricultural Department of the State of North Carolina. I understand the Agricultural Department will come in and mark the trees which should be cut.

Dictated by Dr. Williams and signed in his absence to avoid delay.
