Theodore C. Search

• HUMANITARIAN •

• EDUCATOR •

75th

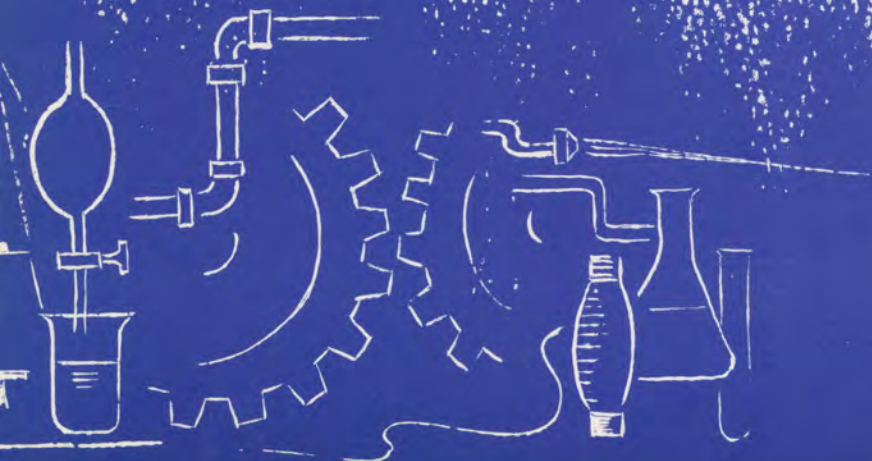

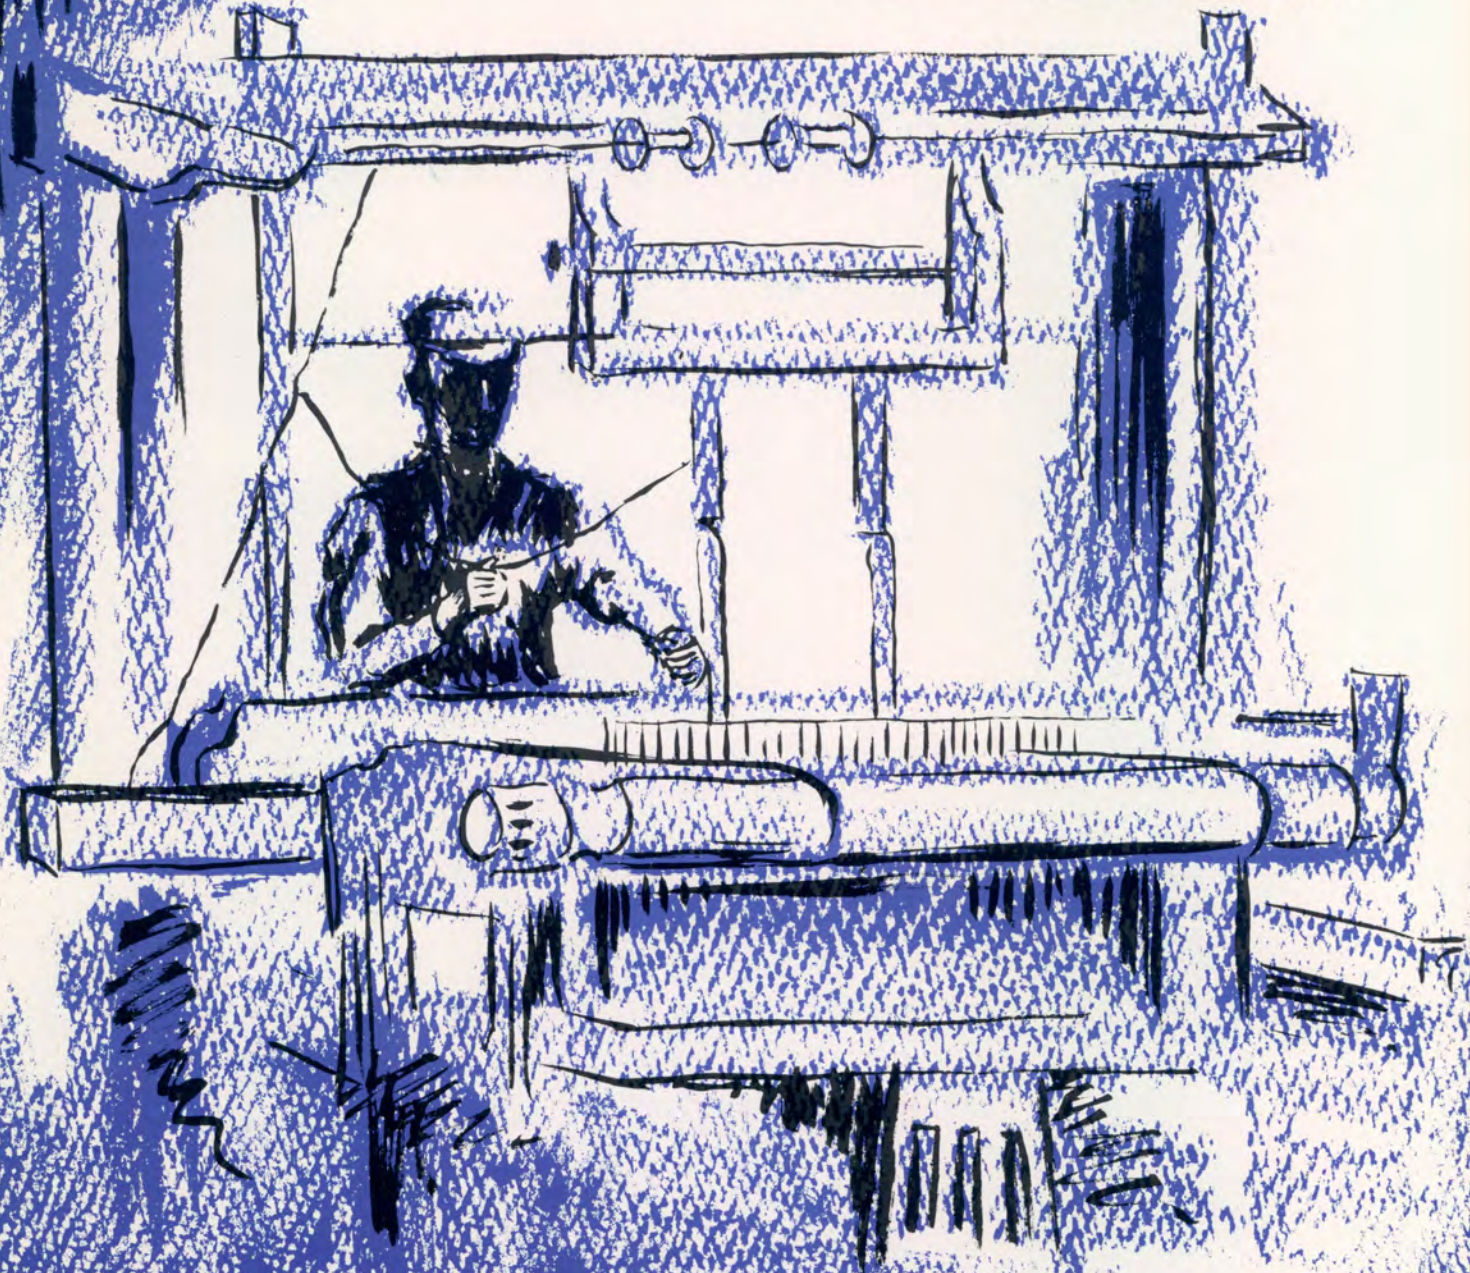

Most members of the 75th graduating class of the Philadelphia Textile Institute have only been acquainted with the college for the past four years. However, we realize the amount of work and hardships which have gone into making our present graduation one which has equipped us with an education which will surely help make us better leaders in the Textile Industry. Therefore, we should like to dedicate the 1959 Analysis to the many people who were influential in molding the Philadelphia Textile Institute into its high position today and especially to Mr. Theodore Corson Search.

Mr. Search became impressed with an urgent need for procuring technical education in connection with the textile industry. Therefore, through his initiative he established the Philadelphia Textile Association in 1882. Unfortunately, this association failed to raise enough capital to make textile education a reality, but Mr. Search believing in the need for trained personnel continued his work and through his untiring efforts, the first classes were held on a fall evening in 1884.

In essence Mr. Search was the pioneer and founder of Textile education in America. Later textile schools initiated his ideas, and he was always ready to help these New England and Southern schools through their initial years.

1889 found Mr. Search as President of the Pennsylvania Museum and School of Industrial Art, and he remained in this capacity until his death in 1920. He never stopped working for the improvement of this field of education in which he was so influential in starting, and today the entire Textile Industry in America is benefiting from his strong belief and hard work.

75 YEARS

Textile education in America, begun 75 years ago here at Philadelphia, has contributed immeasurably to the application of advanced scientific principles in the textile industry. These advancements have made the one-time products of the craftsman weaver readily available at a low cost to all.

Administration Building

THE PHILADELPHIA TEXTILE INSTITUTE, founded in 1884, is the oldest and largest Textile College in the United States. With seventy-five years of tradition and service to its credit, P.T.I. now stands on the threshold of even greater progress and expansion.

The following pages present the program and facilities of our college.

Robert Barnhardt
Editor

Dr. Bertrand W. Hayward, President

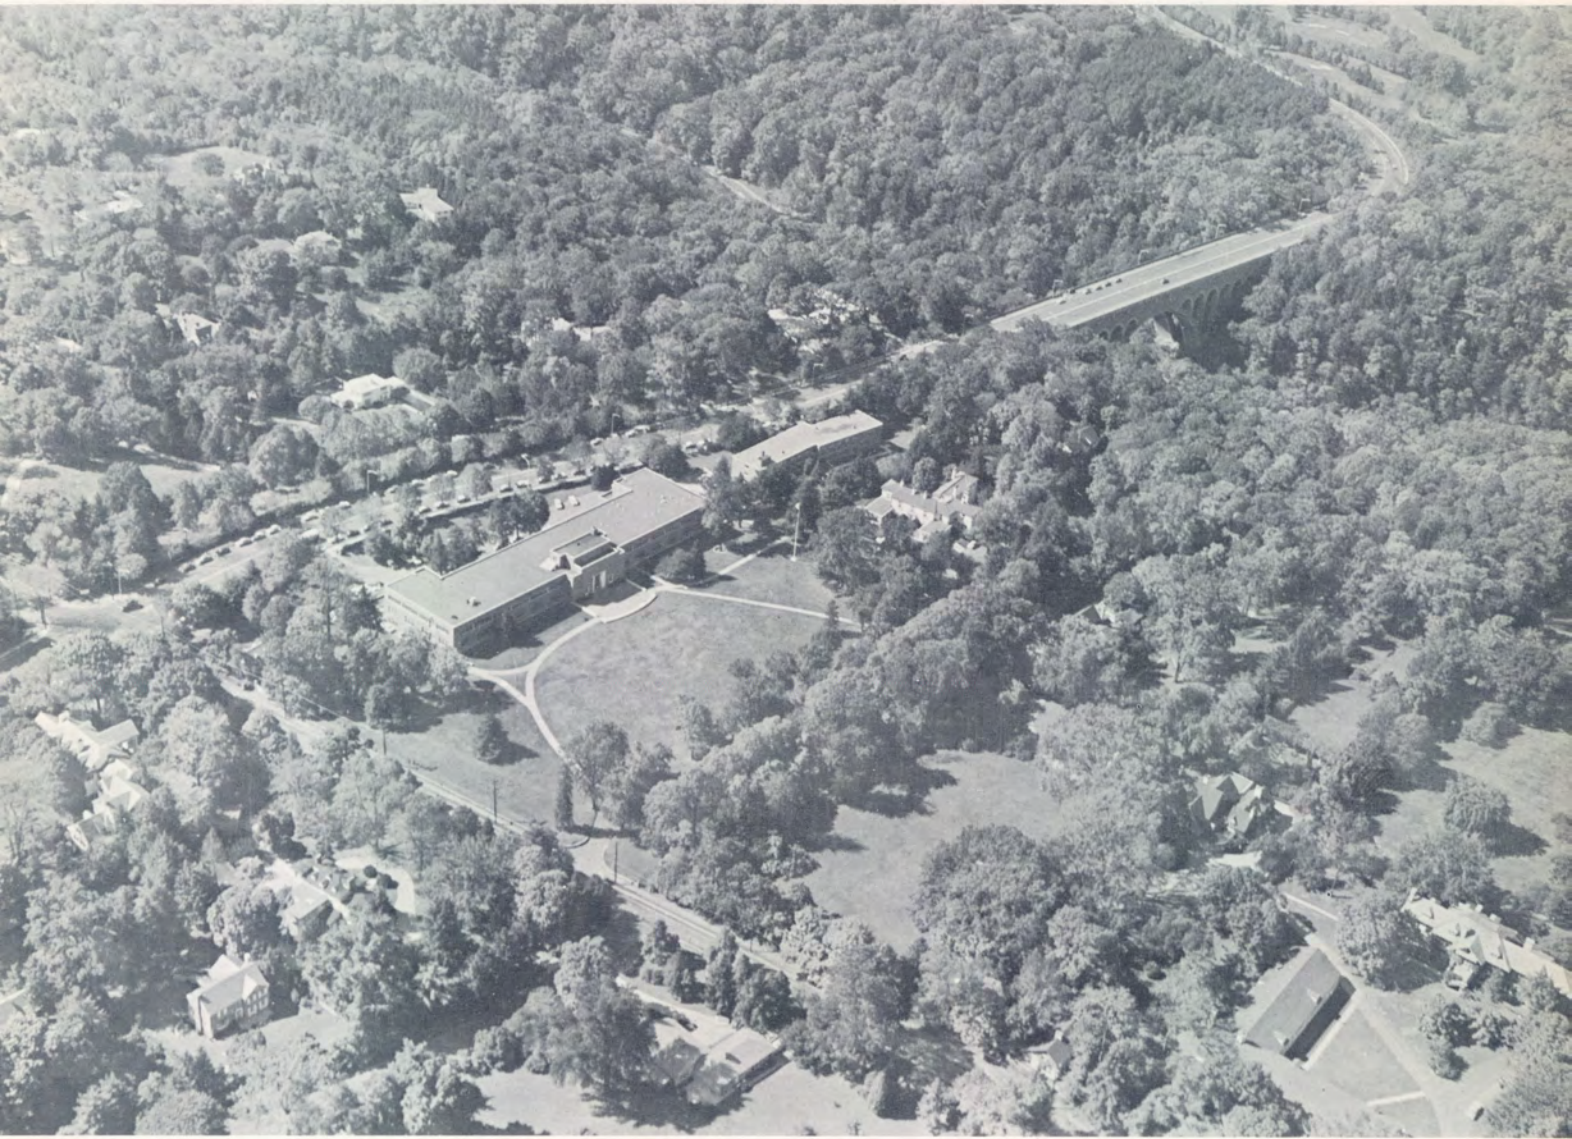

It is difficult as I write this to know what to say to the Class of 1959. What will world conditions be by the day of your graduation?

The tenseness of our times, the complexities of our domestic and international problems make the old cliches of greetings and advice seem worse than time worn. They seem useless.

Yet, it would not be wise to sound too grim because the problems of men have always been seemingly greater than could be borne. Always, however, those men who could work hard in spite of conditions, in spite of difficulties have led us out again to better times. So it is hard working men of courage who keep our industry, our culture, our civilization through all distress, through all disaster.

This, then, must be what I should wish for each of you that you shall be able and courageous. That, whatever circumstances may be you will meet them bravely, and in spite of them achieve success.

This attitude would, in fact, be success. So we come through to the old words but perhaps with some newer meanings that we wish for each of you a successful life and one of which you and we may be justly proud.

The broad, tree-shaded campus is on Schoolhouse Lane in Germantown, less than thirty minutes from downtown Philadelphia. The beauty and quiet of the surroundings are conducive to earnest effort and serious study.

The modern residence hall, opened in 1956, offers comfort and convenience for the resident student.

An informal discussion with Dr. Hayward.

The main building houses all classrooms and laboratories.

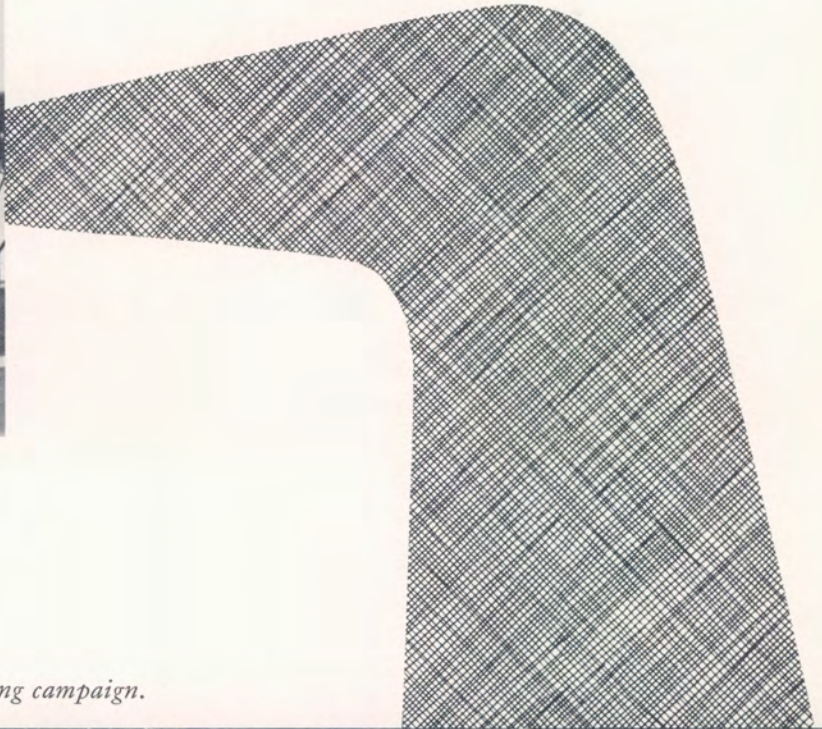

Lounges in the Residence Hall are popular meeting places for students during leisure hours.

THE CLOSE RELATIONSHIP between faculty and students results in a friendly spirit on the campus. Faculty and students working together facilitate the accumulation of knowledge and the development of character and personality.

THE DEVELOPMENT PROGRAM at the Philadelphia Textile Institute is dynamic. A few years ago plans were approved by the Trustees for construction of a seventy-five room residence hall, a new wing for the library, and a student-union building. The first two objectives have been achieved. The student-union building is now under construction and will be finished for the fall semester of 1959. Funds for the erection of these needed additions have been furnished by alumni, friends of the college and industry. With an eye to the future, additional acreage was purchased by the Trustees for further expansion.

Model of Student Union Building.

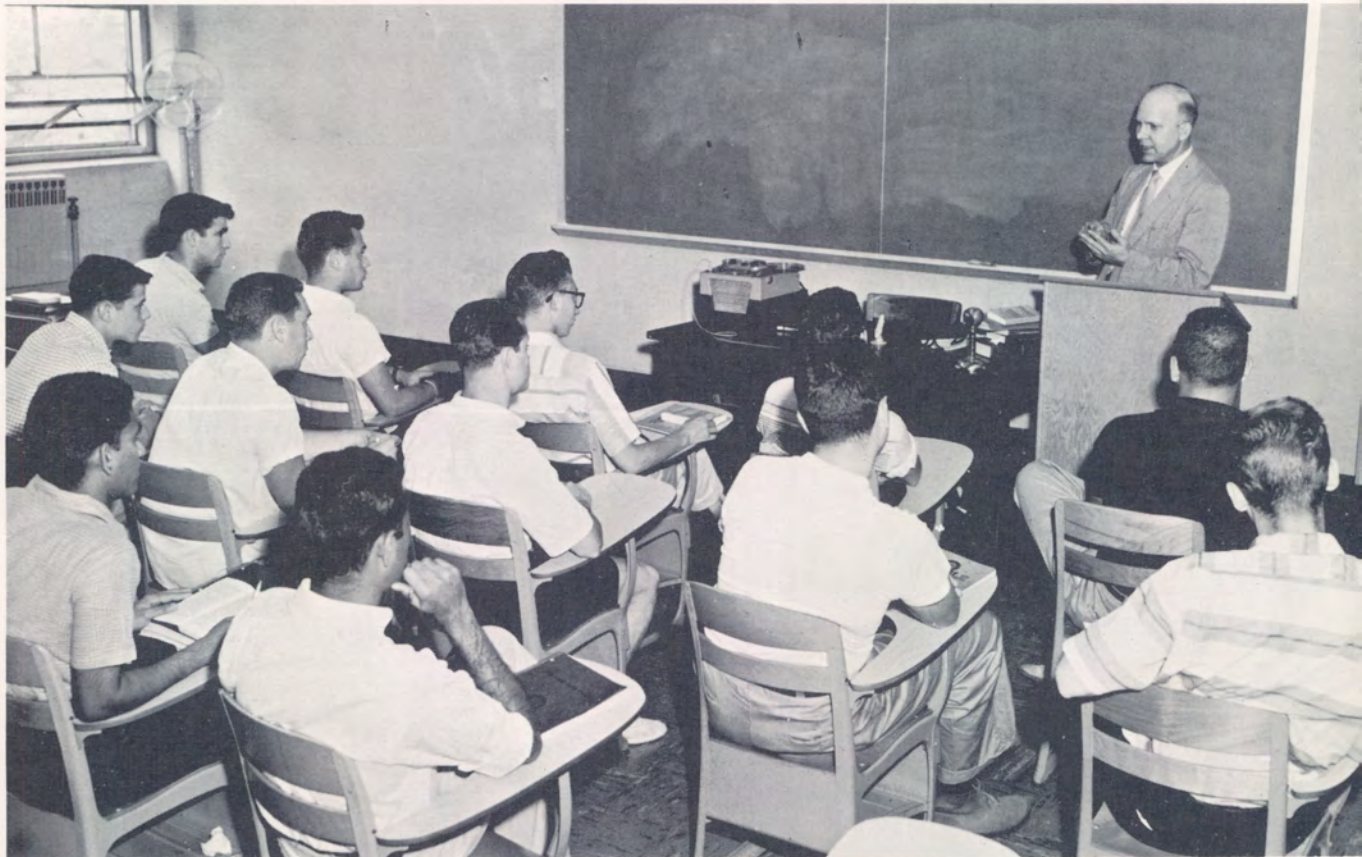

The climax of a successful fund raising campaign.

Lectures are accompanied by demonstrations whenever possible. Here students witness a solution dyed Synthetic Fiber in the making.

Courses in English and the humanities provide the broad background so necessary for tomorrow's executives. Great emphasis is placed upon developing accuracy in speaking and writing.

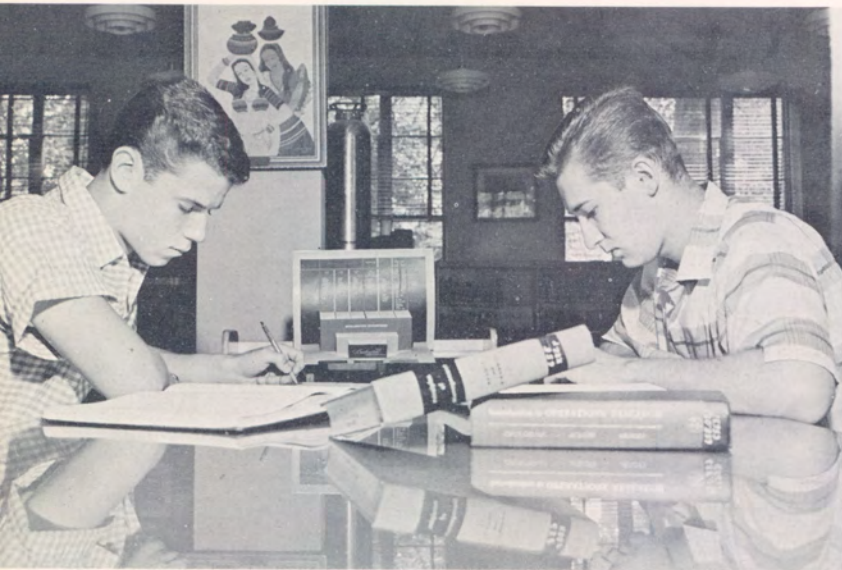

Student Products

WE BELIEVE PROPER SPECIALIZATION in higher education is desirable because it produces specific saleable competence in a person. Without theory there can be no specialization, no true competence, but theory alone without application becomes empty words. So, at P.T.I. we blend theory and application through lecture and laboratory.

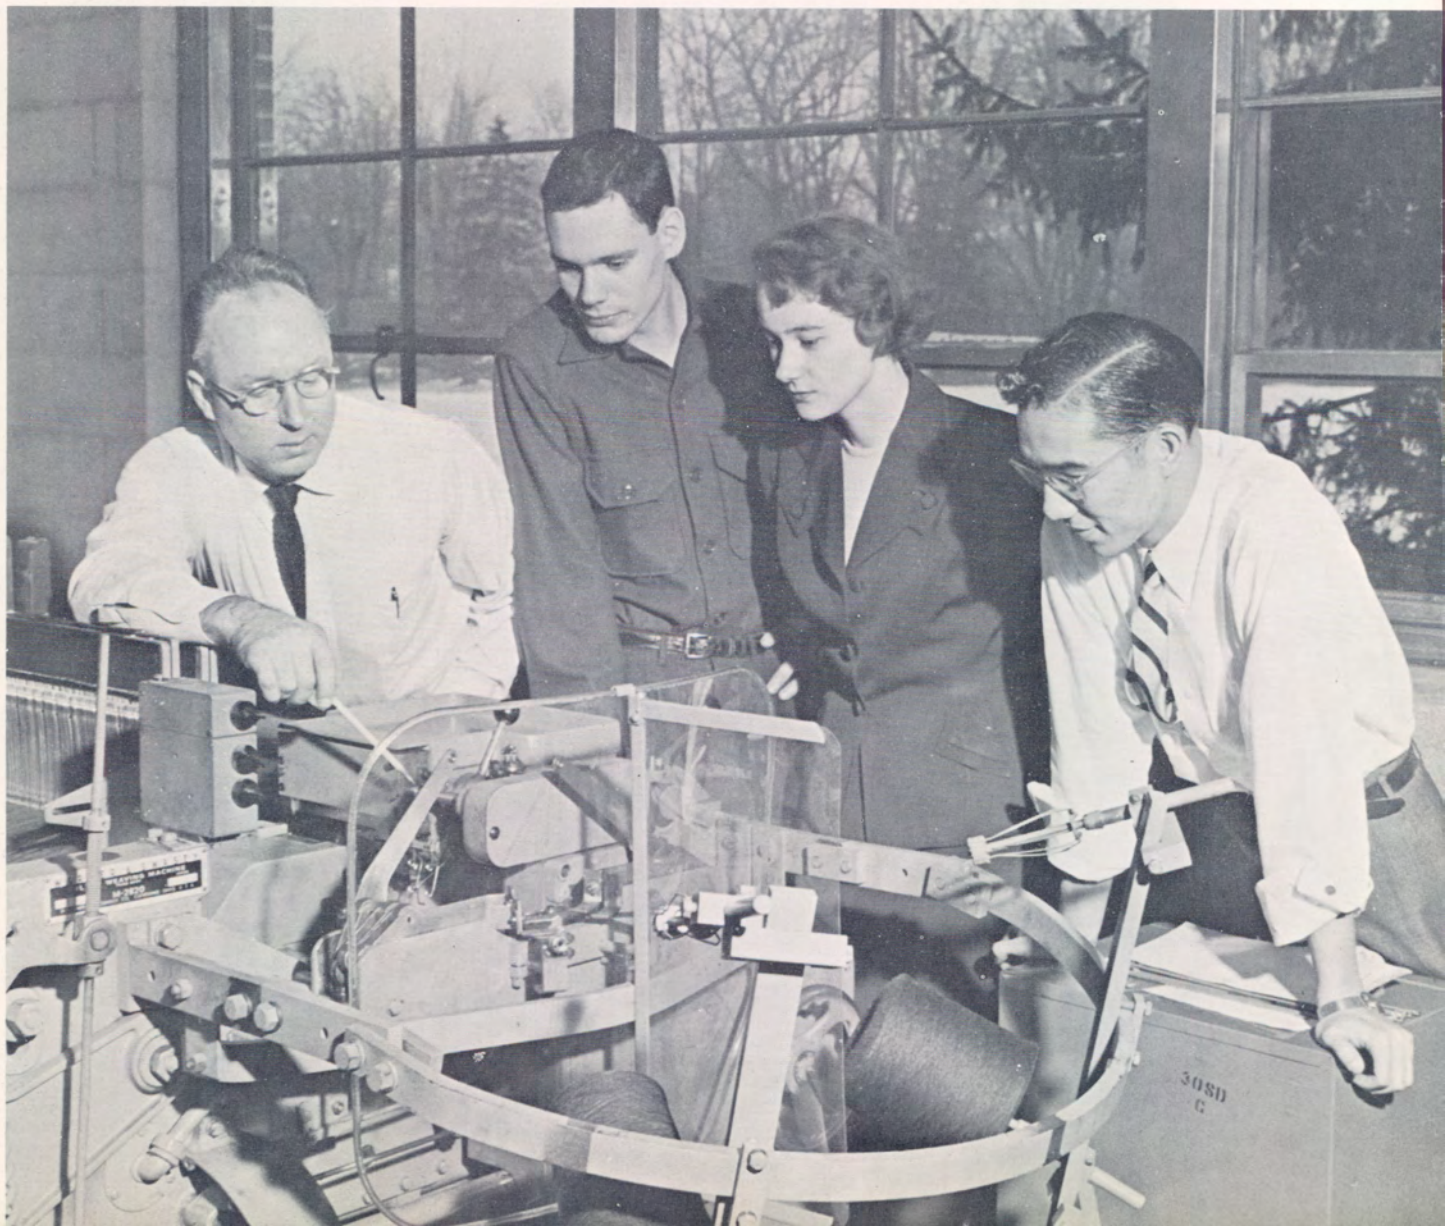

Colorimetry—Laboratory experiments are designed to encompass many of the problems encountered in practical color measurement.

Business majors must have a thorough understanding of industry's problems. The library offers excellent facilities for market research projects.

A laboratory lecture on the principles of the Warner and Swasey Sulzer Weaving Machine.

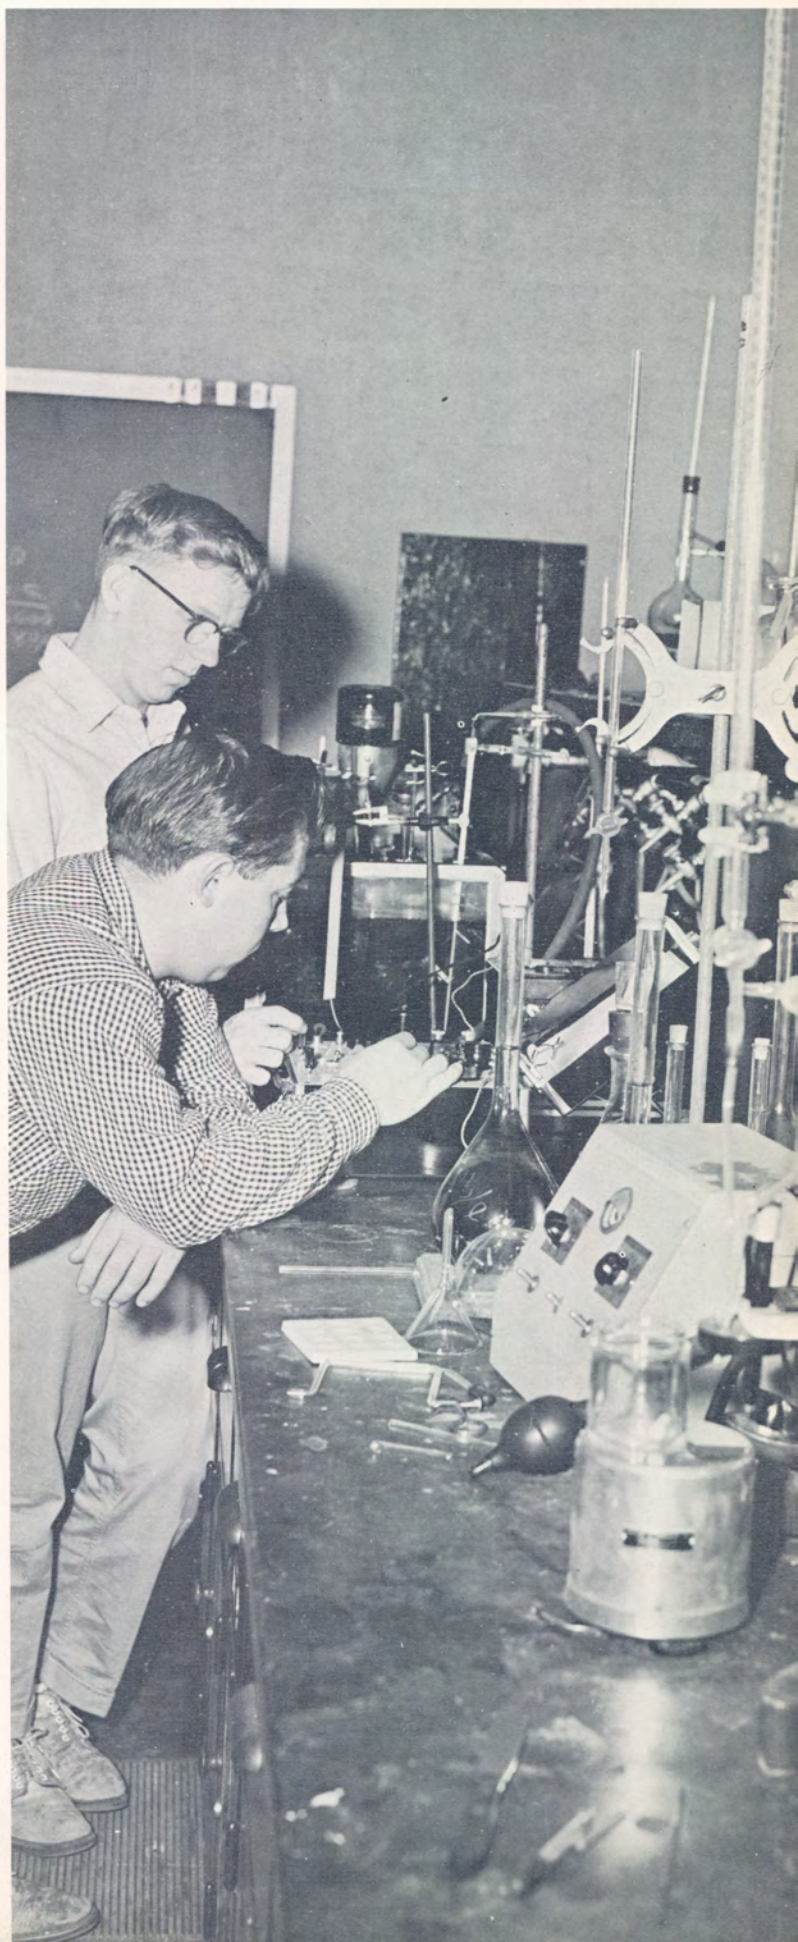

Physical Testing laboratory is equipped with instruments to measure strength, abrasive resistance, water and air permeability and other essential tests.

THE LABORATORIES OF THE INSTITUTE are equipped with late models of machinery selected for their quality, suitability, and adaptability. The science courses are provided with apparatus necessary for proper instruction and for conducting essential scientific tests.

Students at work in the Physical Chemistry laboratory.

The Spring Cotton Carnival closes the social season of fraternity parties, banquets and dances.

Students of PTI and Women's Medical College get together for Carol Singing.

Bordering our campus is an eighteen hole public golf course available to all students.

STUDENT ACTIVITIES AT P.T.I. are of such variety that all students find many to their liking. These activities include intercollegiate basketball, soccer, golf, and tennis and a complete intramural sports program. There are also two student publications, three national fraternities, a sorority, three religious organizations, a dramatic club, international club, chemical society, photography club and student honor societies.

P.T.I. commands respect on the playing field.

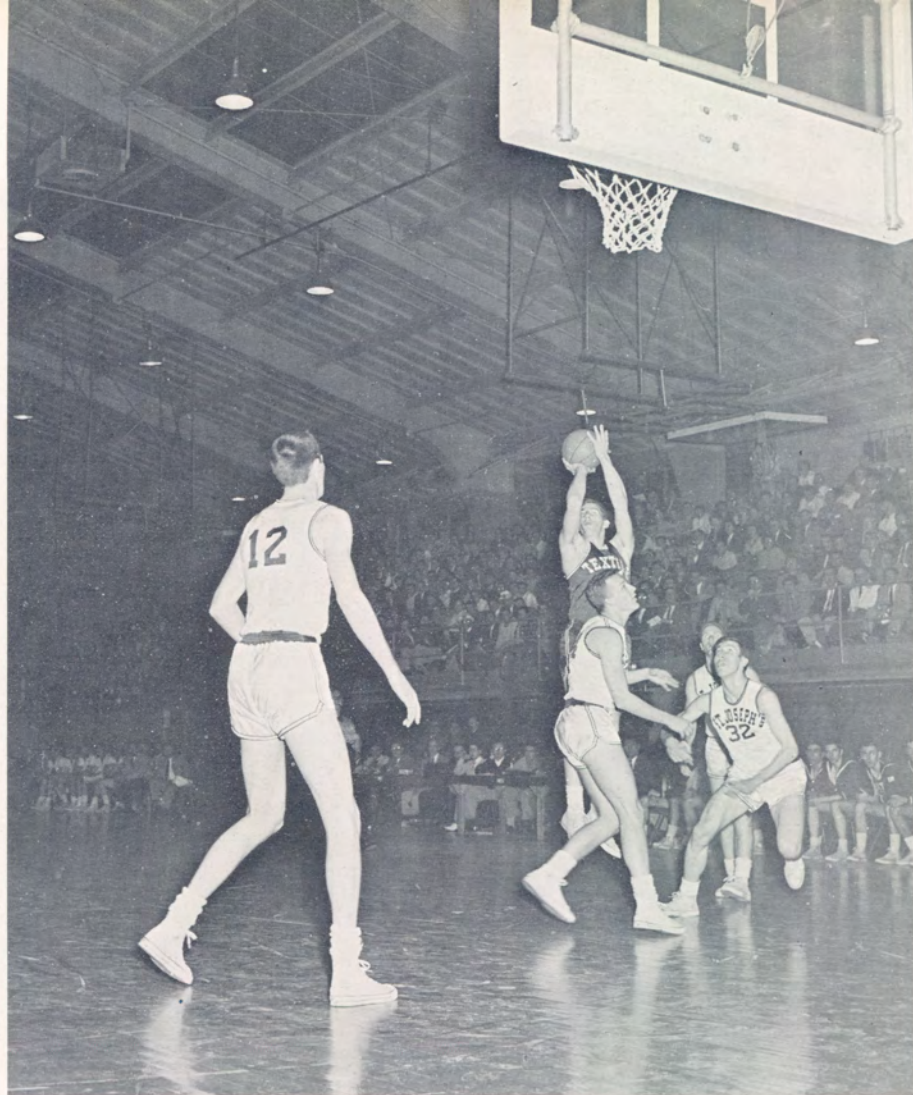

Student enthusiasm is high at Textile.

TEXTILE, Eastern Regional Representatives to the 1958 NCAA Small College Basketball Tournament faced many formidable opponents throughout the season.

Textile in action against two of Philadelphia's "Big Five."

Textile goalie gets set for a save.

The Hesslein Library houses one of the leading collections of books and periodicals in the field of textiles in the United States.

Dr. Hayward, *President of Philadelphia Textile Institute*

Bertrand W. Hayward, President of Philadelphia Textile Institute since 1954, was born in Bridgewater, Mass. He received a B.S., from Colby College; an M.A., from Columbia University; and an LL.D., from Colby College and Philadelphia College of Osteopathy. (honorary) Before coming to PTI as Director in 1947, Dr. Hayward served as principal of various high schools and Lecturer at Harvard Graduate School and the University of Connecticut. As a writer in industrial and educational journals, his articles have been published in the Harvard Educational Review, English Journal, Textile Engineer, America's Textile Reporter and many others. He is a member of Alpha Tau Omega, Kappa Phi Kappa, Phi Delta Kappa and Phi Psi (honorary). PTI has seen many improvements under the guidance of Dr. Hayward's untiring efforts, and we know the college shall continue its path upward.

A. Ward France, *Dean of Faculty*

The Textile Industry has made many advances in recent years both in machinery and in fibers. Management needs men with your training, men with technical training to solve technical problems and men with general education to cope with the personnel problems of the Great Industry.

We feel that you have that training, and that the Industry will agree with us as soon as you are a part of it. I wish you success in the adventure.

A. WARD FRANCE
Dean of Faculty

Congratulations to you the class of 1959 on your successful completion of the requirements for the B.S. Degree. Although this represents a significant accomplishment, you must remember that it is only a step on the educational ladder. The most that any college can successfully hope to accomplish is to develop in its students a competence in communication ideas, a basic understanding of the physical and social sciences, a broadening of the student's interests and an acquaintance with a body of specialized knowledge which may be of immediate use in a vocation. These basic tools I am sure have been provided by PTI.

Your education has scarcely begun. Your future growth and development will depend largely upon your willingness to seek and accept new ideas and to use them to modify concepts you have held in the past. Those who are willing to continue their education will find life thrilling and challenging. I hope that your interest in furthering your education will be as great forty years from now as it is today.

Best of luck to all of you.

ANALYSIS '59

Robert A. Barnhardt
Editor in Chief

With a sixteen page color section already at press, the 1959 Analysis Staff made immediate plans upon returning to school in September for the remainder of the book. No other book has seen cooperation among the various editors and their staffs at such a high level. Having seen the color section, the staff realized the precedent that had been set and always held this in mind when performing their tasks. Practically every editor was introduced to a new technique for doing his job efficiently and making it easier. It was with the combined efforts of all the editors and their staffs, that our Analysis met all deadlines and promptly put the book to press. I should like to thank my staff, the advisors, and the administration for their cooperation in publishing the 1959 Analysis.

Joseph H. Bloom
Editor-in-Chief

The Textile Engineer, now in its twelfth year as the student newspaper of PTI, has taken another major step in bringing about a more harmonious student union by enlightening the student body with news as it should be reported. In order to accomplish this aim, the *Engineer* endeavored to bring all news to the students and the administration promptly by introducing a new concept—a full, weekly newspaper.

The chief objective of the *Engineer* is to publish for the best interests of the college, the student body, and all organizations; all news items, technical papers, creative writings, and topics for discussion concerning the administration, student body and various organizations. This past year the *Engineer* in these interests, helped to promote the United Fund Drive, Knicker Soccer Day, Open House, Basketball Night, and other major projects.

A great deal of effort must be exerted by the staff in order to produce a college newspaper of a high caliber such as that of the *Engineer*; this year, the effort put forward in producing a weekly newspaper was doubled many-fold. Our staff deserves great credit and praise for the outstanding job they have done in preparing the 1958-1959 weekly editions of *The Textile Engineer*.

STUDENT COUNCIL

Sal Alternative, Joe Bloom, Gill Stein

The Student Council is the voice of the students here at the Philadelphia Textile Institute. It is their government, through which student affairs and activities are coordinated.

The tasks facing our Student Council are many. The major concerns of every council are the formulation of the yearly budget and the planning of the annual Awards Banquet. Class activity for "Open House" and a touring service of our college are other tasks performed by the council yearly.

This year's Council has undertaken several new tasks which include: improvement and maintenance of clubroom facilities, the revision of the freshman orientation program and the freshman handbook, the collection of money for the United Fund, and an active participation in the United States National Students Association.

It is only through the cooperation of the students and faculty that a student government can be powerful and successful. We realize our goals only through you and your efforts, something which we never lose sight of and for which we are grateful.

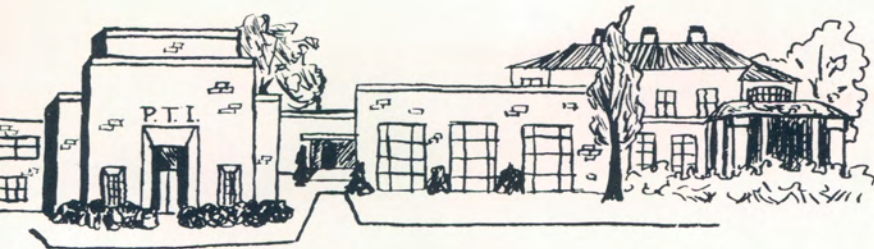

Mel Schierman, Dick Wheelan, Bill Maister

Carl Goldfarb, Ray Scharg

Mike Sears, Bill Graham, Bob Levine

DORMITORY COUNCIL

Row 1—R. Baxter, J. Klocko. Row 2—S. Barkoff, R. Kaufmann, R. Schaeffer, H. Rosenberg, A. Block, P. Sillan, W. Williams, J. Ansin, S. Sitomer.

On completion of the students dormitory in 1956, our first Dormitory Council was inaugurated. The aim of this council is to mold the students and administration into an active and functional team. The dorm council consists of eight elected members, one from each wing on every floor, who represent the dorm students in all matters concerned with the betterment of a collegiate life.

This year the dorm council, in conjunction with the faculty, inaugurated a Sunday evening movie to follow our formal dinner, which was put into effect by last year's Dorm Council. These movies have added a weekend relaxation to the dorm and outside students and have been enjoyed by all who attended. The dormitory council has fulfilled a very creditable year and next year we are looking to further accomplishments.

SENIOR SOCIETY

The Senior Society was formed by the Student Council to recognize those students who have contributed freely of their time for the betterment of the Philadelphia Textile Institute and its student body.

In recent years the number of extracurricular activities has expanded rapidly here at PTI. Of course these activities are only as good as their leaders make them, and it was to reward these spirited college leaders that the Senior Society was organized.

To become eligible for membership in the organization, a student must earn a specified number of points by active participation in activities for which point accreditation has been established—the point value being assigned on the basis of the service rendered to the school or student body by the activity.

Upon attainment of the required points, a student with a likewise acceptable grade point average may be accepted into the Senior Society.

John Klocko, John Shoemaker

CROWFOOT SOCIETY

M. Shafritz, S. Sitomer, R. Wacht, K. Griffin

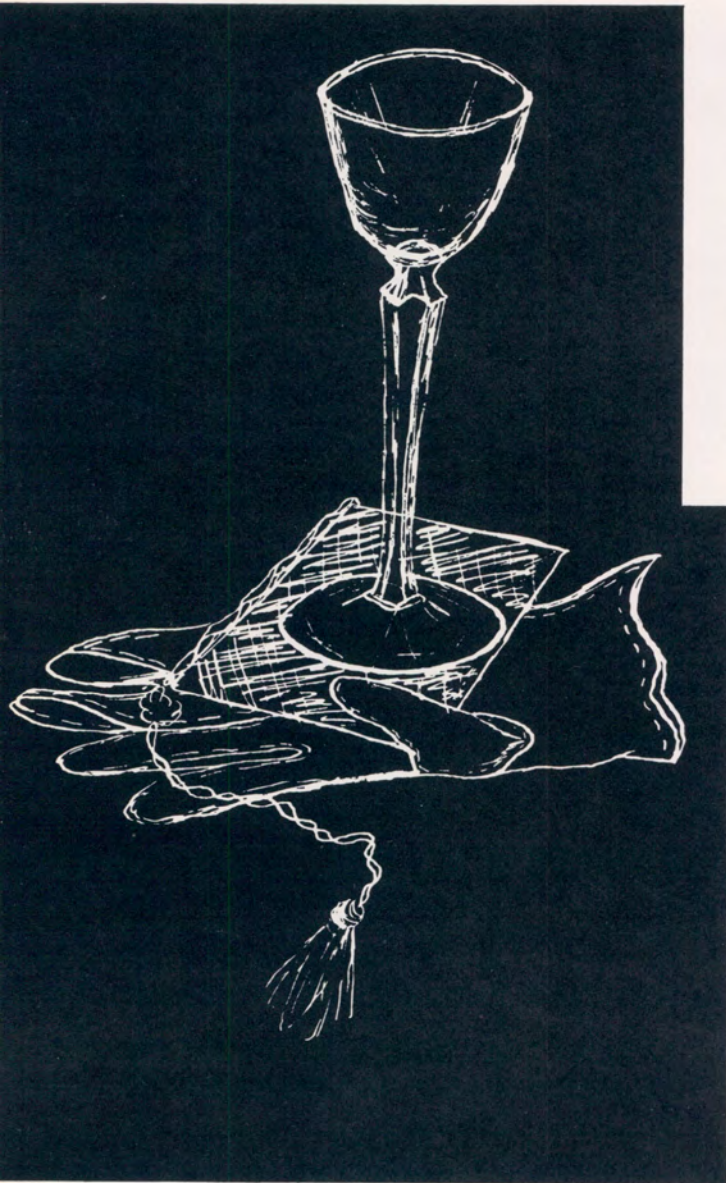

The Crowfoot Scholastic Honorary Society, the Phi Beta Kappa of PTI was founded by Dean Emeritus Richard S. Cox in 1925. Its primary purpose is to grant recognition to those who have maintained a 2.25 scholastic average for five consecutive semesters.

A certificate of membership in the society and a key is awarded each year at the Student Awards Banquet by Dean Cox. This key is emblematic of scholastic achievement, and is worn proudly by all the members of the society.

Currently, plans are being made to set up a tutoring service for the various courses offered at PTI. This will include panel discussions by members of the society, plus private tutoring to those students who desire extra help.

It is hoped that in the years to come, the other textile colleges will create branches of the Crowfoot Society so that it may become the national honorary society for all divisions of textile education.

DANCE COMMITTEE

Row 1—S. Mallast, K. James, J. Klocko, R. Baxter, J. Katz, L. Petrauskas, S. Barko.
Row 2—J. Sauers, J. Mortensen, M. Harris, J. Simmons, H. Bluestone, W. Barci.
Row 3—T. Kulina, R. Goldshider, J. Tyson, J. Shoemaker, T. McGovern, J. Biderman.

The Dance Committee is the student organization responsible for arranging the school dances; the Christmas Ball, and the Cotton Carnival. The organization has the task of making these dances enjoyable for all the students of PTI. The last few years has brought about not only an increased attendance, but also a greater interest in the college's dances and the dance committee.

PHOTOGRAPHY CLUB

Row 1—N. Christodouladis, M. Petit, J. Li, B. Petrauskas, R. Kauffman, J. Shoemaker, R. Baxter, L. Petrauskas, T. Kulina, P. Balasubramanian. Row 2—W. Williams, J. Sauers, W. Barci, D. Allen, I. LeBrun, S. Saltiel, J. Simmons, G. LeBrun, W. Maynard, W. Austin. Row 3—R. Barnhardt, R. Chambers, J. Gozon, D. Covitt, S. Burtman, L. Glass, T. McGovern, J. Mortensen.

The photography club is composed of students interested in photography. It is supported by its members and the student council. The organization is centered around a mutual interest in photography and is based on an exchange of knowledge among its members.

This year the club inaugurated a rotating fund for the purpose of purchasing equipment at whole-

sale prices. This helped to increase the photographic interests of each member by allowing each to use his own camera, while the club supplied the film and flash bulbs. The club also increased its lab activity, with many of the new members gaining experience which will prove valuable in future years.

VARSITY CLUB

Row 1—W. Williams, D. Simanaitis, R. Malmgren, L. Webb, J. Klocko. Row 2—G. Hasbun, L. Landgraf, R. Simons, R. Schaeffer, A. Rame. Row 3—J. Fernandez, R. Seel, R. Smith, J. Steen.

The Varsity Club of the Philadelphia Textile Institute was organized in 1953 under the auspices of the Student Council to unite those men who represent PTI on the field of athletic contest. Only those men who have earned a Varsity "T" are eligible for membership in the Club, whose objectives are: to honor students for participation in intercollegiate athletics; to further public relations with other colleges; and to organize and promote interests of an athletic nature within the college.

The "T" pin, the Club's official membership symbol, not only announces a PTI athlete, but a good sportsman and a qualified leader as well.

PERKIN SOCIETY

The Perkin Society, or more correctly, the Sir William Perkin Society, named for the chemist who synthesized the first coal tar dye, is the student chemistry society here at PTI.

Its membership is limited to those students who have successfully completed at least one semester in the chemistry and dyeing curriculum, and who are student members of both the American Chemical Society and the American Association of Textile Chemists and Colorists. Both organizations are represented on campus by Student Affiliate Chapters.

The aims of this organization are to instill in the students majoring in chemistry and dyeing a professional pride in their chosen field, to secure the intellectual stimulation that arises from association with established members of the profession, to better acquaint the members with the industry of

which they will become a part, and to secure experience in preparing and presenting technical material before an interested audience.

These aims are carried out through a program of guest speakers, pertinent films, field trips, discussions, and group projects. In this last field, The Perkin Society is a member of the Philadelphia Area Students Chemical Association, which sponsors an annual meeting at which time various local societies, such as the Perkin Society, present papers based on original research.

This is the first full year of activities for the Sir William Perkin Society, and it is our hope that those who guide in the future will realize the great importance of this organization and will endeavor to constantly broaden and improve the yearly program.

Row 1—J. Li, S. Mallast, J. Klocko, J. Bloom, J. Rivilin, S. Barkoff, E. Ong, E. Golden. Row 2—S. Needelman, E. Sites, J. Letourneau, R. Luongo, I. LeBrun, E. Hersh, N. Christodoulakis, L. Moran. Row 3—C. Zukowski, R. Samson, W. Millman, A. Slomine, A. Duggan, M. Matheke, J. Lang.

TEXTILE FELLOWSHIP

The Textile Fellowship came into being in the Spring of 1948. A group of young men endowed with enterprise and initiative realized the need for an organization that would be instructive as well as social, an organization that would act independently of all Fraternities and school organizations, but open to any student who so desired to participate and work for such a group.

T. F. set their ideals high, stressing three basic aims.

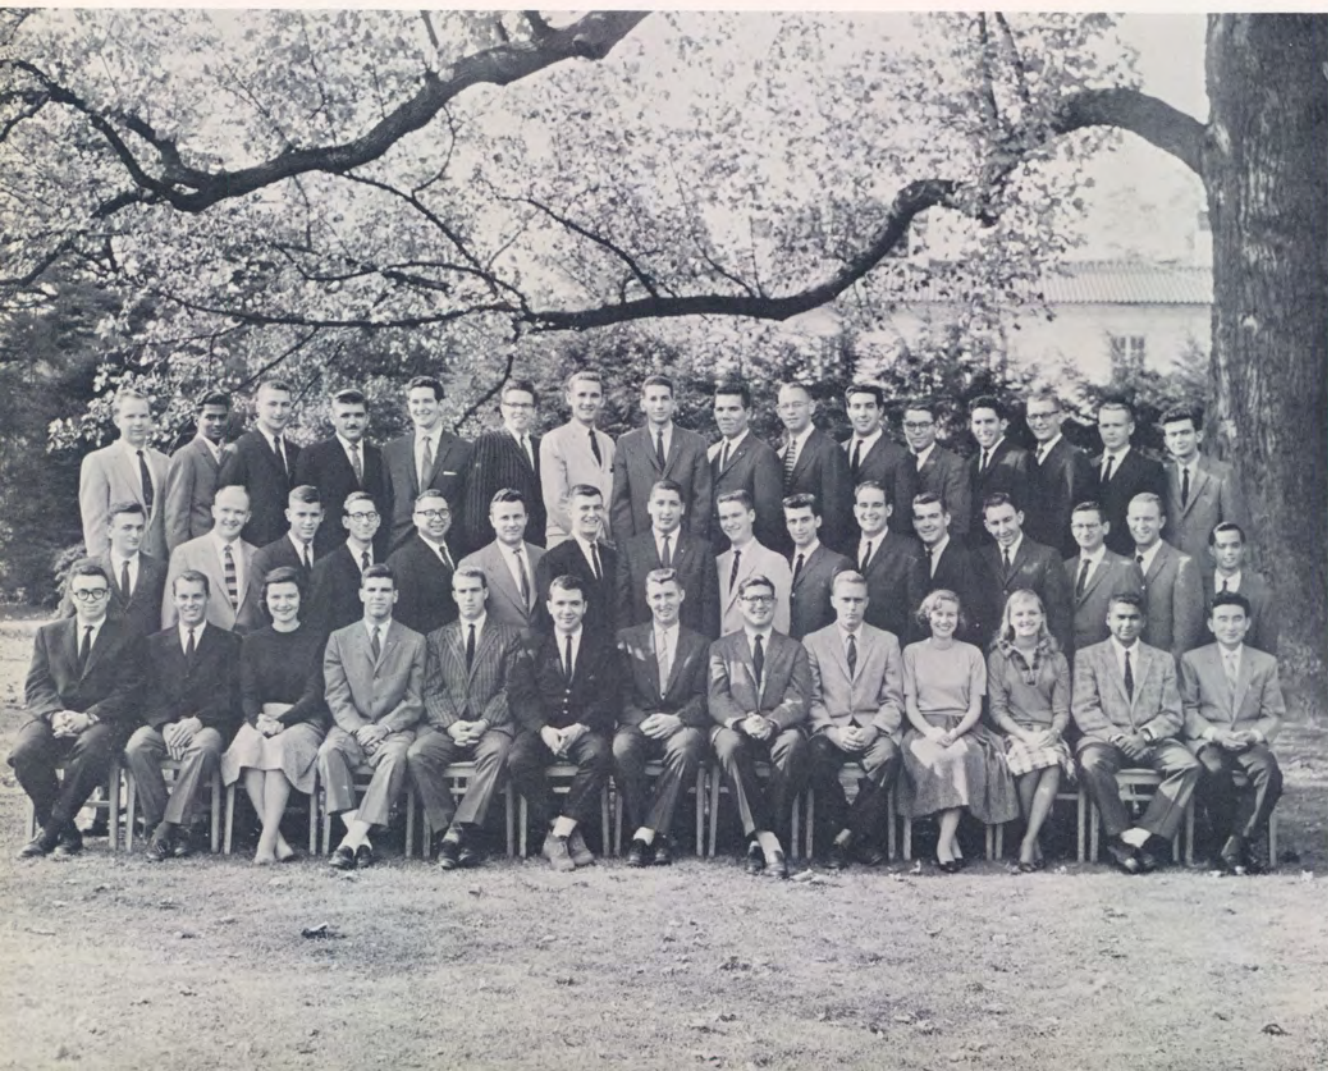

- (1) To promote social and racial understanding with the institute and the Textile industry.
- (2) To encourage and exchange ideals between men of the textile industry and kindred fields.
- (3) To encourage the spirit of service to others,

not only within the organization but the entire textile field.

As the fellowship grew in size and importance, it became known as an organization that accomplishes what it set out to do. The activities of the organization coincide with the basic aims of the Fellowship. Well planned banquets with eminent speakers from the industry, as well as field trips to different plants within the industry has helped to make T. F. the organization which its founders intended it to be.

Over the period of years since its founding, T. F. has intrenched its ideals on its members who in turn have entered the textile field and continued to work for the Fellowship of PTI.

Row 1—G. Stein, M. Harris, L. Petrauskas, S. Sitomer, R. Gittleman, M. Kaplan, W. Tuohey, R. Wacht, J. Steen, S. Mallast, K. James, M. Patel, B. Seo. Row 2—E. Grinshtain, W. Austin, M. Sears, H. Rosenberg, E. Kramer, N. Christodoulakis, J. Mortensen, J. Raab, J. Sauers, M. Wallach, W. Maister, R. Wheelan, B. Lebowitz, S. Kaplan, C. Stapler, P. Villa. Row 3—H. Searfass, P. Balasubramanian, S. Burtman, J. Fernandez, J. Gozon, J. Goldman, L. Applebaum, A. Halpert, J. Katz, W. Dwyer, W. Millman, R. Goldshider, L. Glass, W. Miller, R. Tait, J. Biderman.

INTERNATIONAL CLUB

In a world which had recognized the economic interdependence of nations, there is the need for a closer understanding between the people of different countries. Person to person contact is indeed most auspicious for learning the cultures, ideas, and customs of other countries. We here at PTI have a large number of students from countries all over the world. This gives us the opportunity not only to learn about textiles which is our chosen career, but also about our neighbors.

To unite ourselves despite the diversity of attitudes, ideas, customs, and religion, the International Club was formed in the fall of 1949. It is

aimed primarily at helping the foreign student adapt himself to American college life, and to provide a better understanding of the different cultures of the foreign students.

The Club also aims to promote a better understanding and closer contact between American and foreign students for mutual benefits. It is our aim to unify our actions and thinking. We had thus invited more Americans to join our Club. With talks, films, informal discussions, social activities, and nationality shows, we hope to have accomplished our aims.

Row 1—Santharam, P. Balasubramaniam, Nanjappan, C. C. Parekh, D. Gandhi, J. Li, R. Rivadeneyra, K. Imori, J. Bushberg. Row 2—W. Maister, S. Burtman, G. Stein, J. Gozon, M. Petit, Y. LeBrun, P. Villa, G. Le Brun, L. Petruskas, J. Fernandez, M. Patel, D. Goldberg, E. Grinshtain, G. Canedo. Row 3—A. Nasser, D. Mandvich, W. Maynard, A. Rame, R. Mayerson, L. Sierra, H. Bluestone, N. Christodoulakis, S. Saltiel, J. Letourneau, A. Ancona, S. Patel, L. Reyes, R. Ngo, M. Lirag, B. H. Seo, B. Rabinovich, A. Malki, P. Ramazanoglu. Row 4—A. Brody, J. Riulin, H. Wollering, W. Williams, G. Nasser, J. Biderman, W. Pecker, T. McGovern, D. Covitt, A. Halpert, J. Katz, R. Wacht, L. Glass, J. Klocko, J. Bloom, J. Sauer, N. Tan, M. Ventura, U. Diab.

INTER-FRATERNITY COUNCIL

Row 1—S. Sitomer, K. James, L. Petrauskas, K. Griffin. Row 2—L. Glass, R. Pactor, J. Bloom.

The Inter-Fraternity council, composed of the three fraternities and one sorority on campus, was organized to dictate pledging activities and hazing, regulate inter-fraternal functions, avoid conflict amongst these said organizations, and aid the school in any possible manner.

Presiding at all the meetings is Mr. Ercal Kaiser, Chairman of the Inter-Fraternity Council.

The members of the council are:

Kappa Sigma Phi	President	Loretta Petrauskas
	Vice-President	Kay James
Delta Kappa Phi	Council	Richard Pactor
	Pro-Council	Joseph Bloom
Phi Psi	President	Ken Griffin
	Vice-President	John Sauers
Sigma Phi Tau	Councillor	Stephen Sitomer
	Vice-Councillor	Larry Glass

STUDENT CHRISTIAN ASSOCIATION

Row 1—B. Jones, R. Baxter, R. Roucenbush, J. Kiss, P. Rhoades. Row 2—R. Mathewson, D. Allen, B. Maynard, J. Bush-berg, K. Griffin, G. Marvin. Row 3—A. Duggan, F. Rotar, R. Barnhardt, J. Steen, R. Tait, J. Metheke.

The Student Christian Association was organized at PTI during the 1955-56 school year by the Westminster Foundation under the direction of Mr. Charles Kellog. Functioning in conjunction with the student nurses of the Women's Medical College, the SCA is now under the councilorship of Mr. Robert Mathewson, a student at the Harvard Divinity School and Mr. Gerald Marvin, faculty advisor.

Although primarily a Christian organization, the SCA invites all students regardless of religious belief and practice to join with them in their worship, meditation, and social activities held weekly at one of the colleges or in a neighboring house of worship.

NEWMAN CLUB

Row 1—R. Barci, D. Chua, L. Petrauskas, S. Mallast, D. Simanaitis, P. Villa, R. Wheelan, M. Arnell, B. Petrauskas, A. Hwang, A. Nasser. Row 2—R. Rivadeneyra, M. Livaz, A. Rame, A. Ancona, N. Tan, M. Petit, J. Sauers, J. Letourneau, G. LeBrun, Burt Reyes, J. Mortensen, R. Ngo. Row 3—J. Fernandez, W. Miller, W. Tuohey, G. Nasser, J. Gozon, T. McGovern, L. Webb, R. Chambers, J. Klocko, I. LeBrun, R. Luongo, J. Waterbury, L. Sierra.

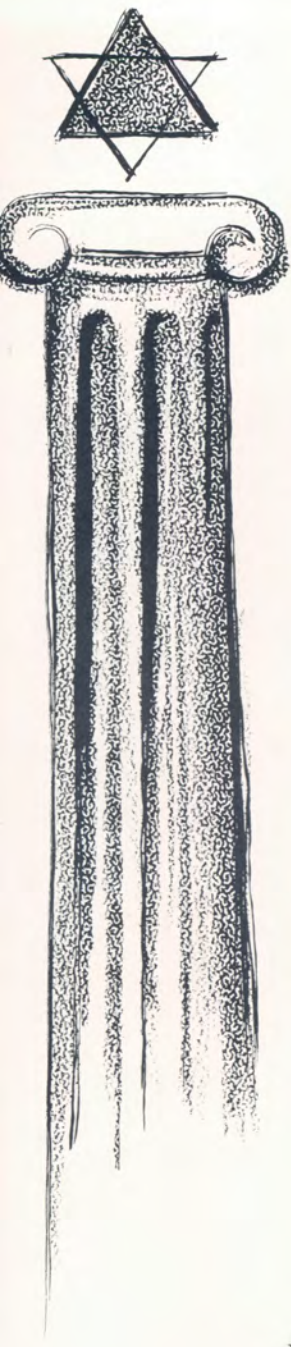

With the aim of fostering the spiritual, intellectual, and social interests of the Catholic students on the campus, the Bishop Newman Club was organized in 1956. Since then, it has been under the guidance of Professor Gradel and Chaplain Father Gallen.

Various activities of the Club this year gives emphasis to the development of a spiritually stronger person. Talks and discussions delve into

the deeper aspects of Catholic thought. Discussed too are the inter-relations of the religious and scholastic life of the student.

Aside from its religious undertakings, the Club sponsors social events which contributes to a richer life on the campus. In cooperation with the other organizations in college, the Newman Club strives to help the college whenever possible.

HILLEL

Row 1—S. Sitomer, H. Rosenberg, J. Biderman, G. Stein, J. Rivilin, A. Bloom, P. Klein, E. Kramer, J. Raab, W. Pecker, D. Goldberg. Row 2—E. Grinshtain, C. Goldfarb, S. Weiner, R. Samson, J. Bloom, H. Bluestone, S. Saltiel, J. Kaplan, R. Mayerson, D. Manevich, Z. Glaser. Row 3—B. Maister, C. Stapler, J. Katz, R. Wacht, S. Burtman, A. Halpert, J. Goldman, W. Millman, L. Glass, D. Covitt, A. Cohen, C. Cohn.

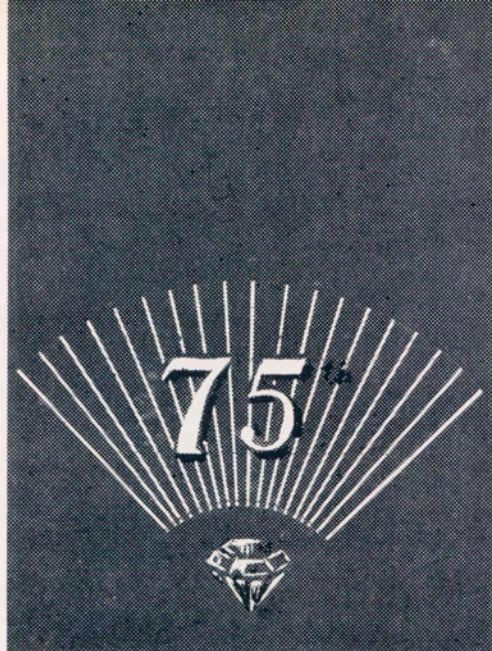

Hillel was organized at the Philadelphia Textile Institute in 1956, to bring together the Jewish students on campus. The functions of Hillel on any college campus are many fold and touch on many facets of Jewish life. The organization is designed to encourage and maintain not only the needs of the Jewish students but to promote the growth of interfaith and intergroup amity and by doing so creating a democratic feeling on the campus and in the community.

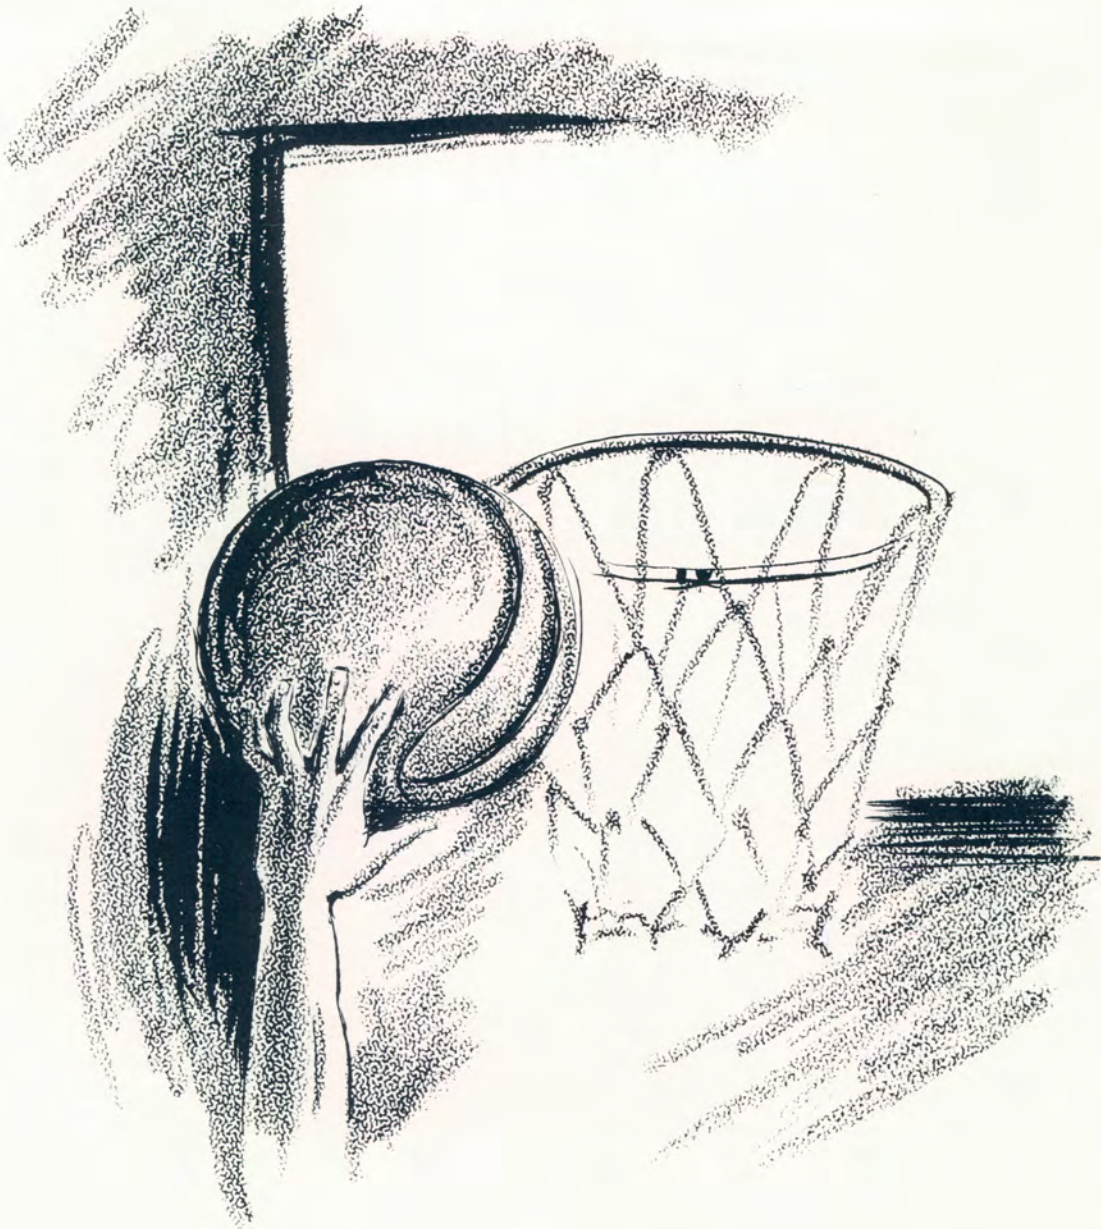

One of the many objectives of Hillel is to present to the students of the Jewish faith and to those students of other religious backgrounds, a program of continued learning to further develop his cultural background. Lectures and discussions of outstanding topics are presented by guest speakers in addition to educational films and religious services

which round out the Hillel program. These objectives are accomplished at PTI through the professional guidance of the Hillel regional Director, Rabbi Samuel Berkowitz, in cooperation with student participation.

Hillel at PTI is very fortunate to have available the Harry Sovel Fund which is a sum of money donated by friends and members of industry in honor of the late Harry Sovel whose efforts helped to bring Hillel to the PTI campus. The fund is available to any student in need of emergency funds on a short term, no interest basis.

By continued service to our students and to our school it is hoped the Hillel at PTI will continue to grow and become an even more recognized organization on campus.

			69	Wilkes College	83

The 1958-59 basketball season at P.T.I. proved to be another winning season and was accomplished through the efforts of the entire team as well as coach Harris.

The Rams compiled an impressive 16-4 record and netted the Delaware Valley Conference for the fifth consecutive year. "Bucky's" leadership once again dominated the opposition and increased his winnings to 105 while suffering only 20 defeats.

Some of the highlights of the season included Bob Simon's 43 points against Susquehanna University, the 50-48 victory over Baltimore, our decisive victory over King's on our home court, and our new high scoring record of 117 against Bradford-Durfee. The 12 game winning streak and the total record netted the Rams a bid to the NAIA tournament, but it was declined.

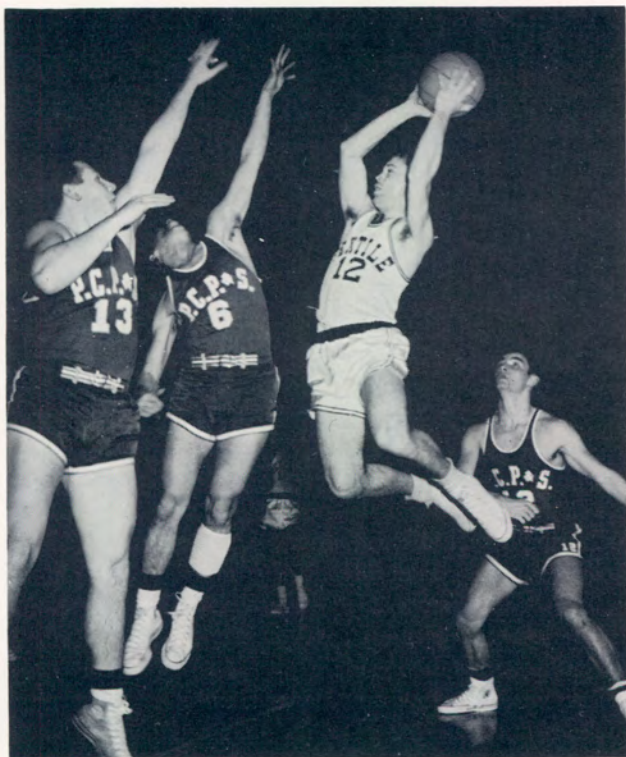

Bob Simons, a true marksman, led the Rams in scoring with a 24 point average. Bill Miller, a sophomore, produced the best all round ability on the court. Co-captains, Leo Webb and Bob Malmgren, led the team in the all important rebounding column. Lance Landgraf rounded out the starting five and proved to be the key to the Rams victory column with his superlative defensive tactics.

Juniors Ray Smith and Dan Simanaitis added tremendous rebound strength to the squad. Bob Seel, Rich Schaeffer, Dick Kiley, and Ed Chrosinski gave coach Harris a strong bench with good all round ability.

With the entire team back for next years court action, and the opening of P.T.I.'s new gym, the 1959-60 season looks bright indeed.

Seated—L. Landgraf, R. Malmgren, L. Webb, R. Simons, W. Miller. Standing—K. Harms, mgr, Walter "Bucky" Harris, coach, R. Smith, E. Chroscinski, R. Kiley, D. Simanaitis, R. Seel, J. Steen, mgr, E. Diamond, mgr.

Bob is through for another one, shooting the unstoppable.

The all important time out.

Villanova's height pays off.

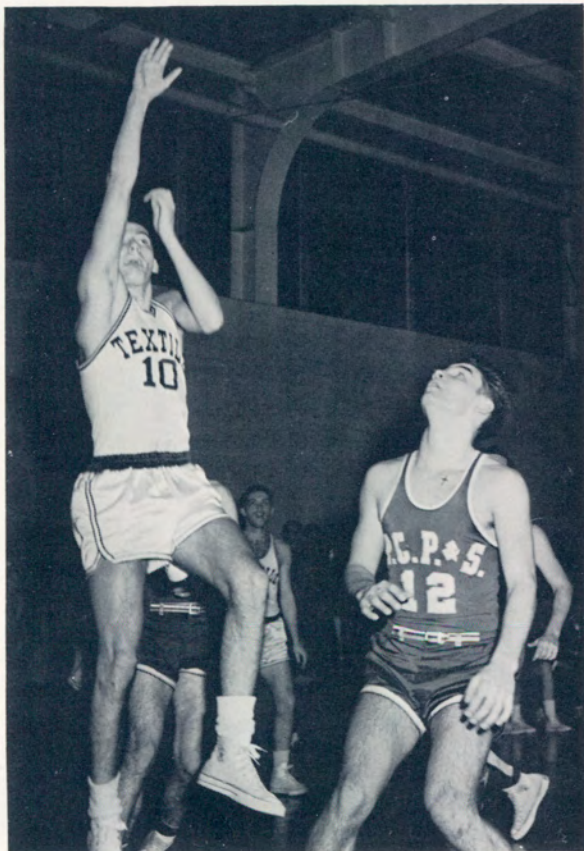

Complete control of the boards.

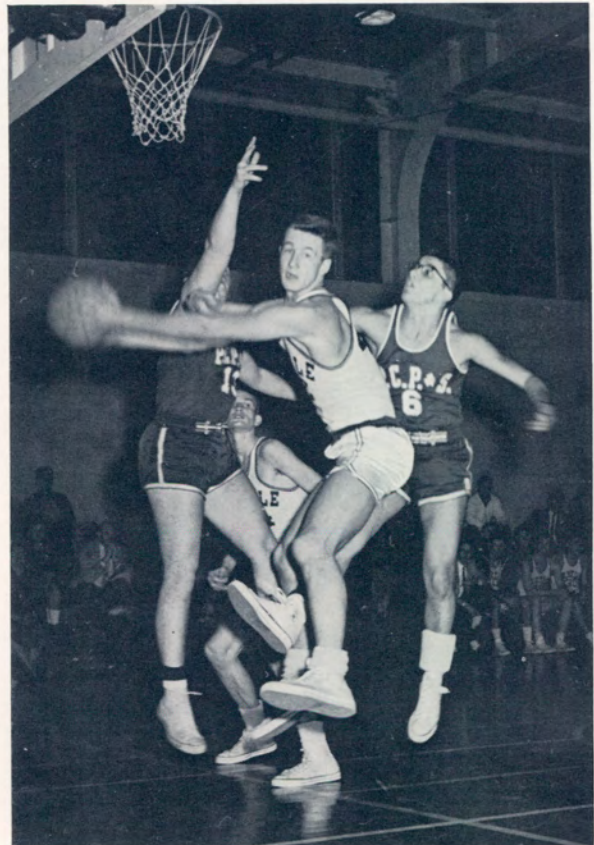

Using springs

Lance adds two more.

Eager hands waiting

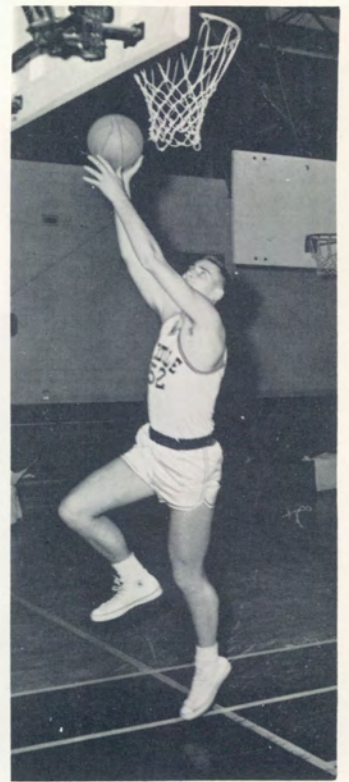

Leaping high to gain possession

Waiting impatiently

Good support

JUNIOR VARSITY

Seated—J. Magrann, C. Richards, J. Halicki, W. Hoffman, mgr. Standing—Harry Pure, coach, R. Seel, E. Chroscinski, P. Sillan. Absent—R. Kiley.

Under the direction of newly appointed coach, former Gettysburg ace Harry Pure, the Junior Varsity squad compiled a 7-4 overall record.

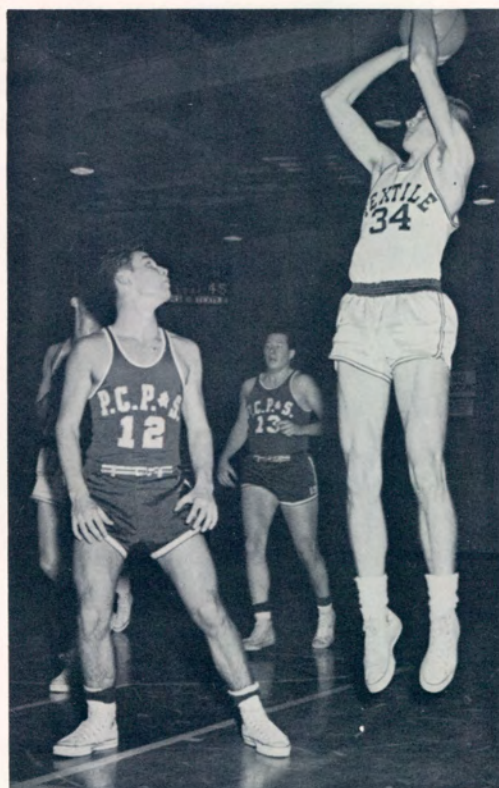

Comprised mostly of freshmen, it showed spark and hustle which promises much for future court action. Among the brightspots were forwards Dick Kiley and Ed Chroscinski; and back court aces Sonny Halicki and Bob Seel. Halicki led the team in scoring and assists, sparking the Junior Rams to maintain another winning season.

An assist for an easy layup

Harry Pure, coach

The soft touch.

Leading the fast break.

SOCCER '59

Textile produced a hard playing and rugged 1958 soccer team, turning out a fine impressive season. Coach Bucky Harris compiled a season record of 4 - 2 - 1; the two losses by only one and two points.

The team was lead by the Ram's three captains: center forward, Jorge Hasbun; center halfback, Jorge Pescio; and goalie-left wing, Bob Seel; all experienced veterans. The remaining lettermen on this years team were: Javier Fernandez, Jim Lang, Bill Ertugral, Adolfo Ramie, Buddy Klocko, and Bob Malmgren.

Besides leading the Rams in his all around leadership ability, Jorge Hasbun also led in total goals, booting 13 into the net. Sophomore sensation, Bill Ertugral, scoring 9 goals, will probably be one of *Textiles* all time greats during his last two years.

The team opened the season with an impressive romp over Rutgers S. J.; led by Jorge Hasbun's 5 goals. The following week the Rams beat Eastern Baptist College at the losers home field. The next Saturday *Textile* tied La Salle College in the second annual *Knicker Soccer Day* classic in a very colorful, thrilling game, *Textile* goals being scored during the final minutes of play.

Kneeling—J. Lang, W. Maynard, B. Thompson, R. Seel, J. Hasbun, J. Pescio, A. Rame, C. Richards, E. Greenspan. Standing—W. Williams, manager, A. Hayward, R. Malmgren, D. Simanaitis, J. Klocko, J. Fernandez, W. Ertugral, S. Tarim, Bucky Harris, coach.

P.T.I. Stuns Rutgers In Soccer Open
P.T.I. opened its season Saturday, October 10, with a 3-1 victory over Rutgers.

Two Last Period Goals Tie LaSalle, 3-3
The Warriors and Explorers tied LaSalle in a soccer game on October 10.

P.T.I. Booters Down Eastern Baptist 3-1
The P.T.I. soccer team scored a second straight game over Eastern Baptist on October 10, scoring three goals.

CAPTAIN - ...BOB SEEL... MR. VERSATILITY... AT BOTH GOAL OR WING HE'S SAVED OR SCORED

CAPTAIN - ...JORGE PESCIO... AT CENTER HALFBACK HE'S HELD THE DEFENSE TOGETHER

CAPTAIN - ...JORGE HASBUN... THE TEAM'S CENTER FORWARD & TOP SCORER WITH A SEASON TOTAL OF 12 GOALS

The Rams in action.

Congratulations, Jorge.

Always hustling

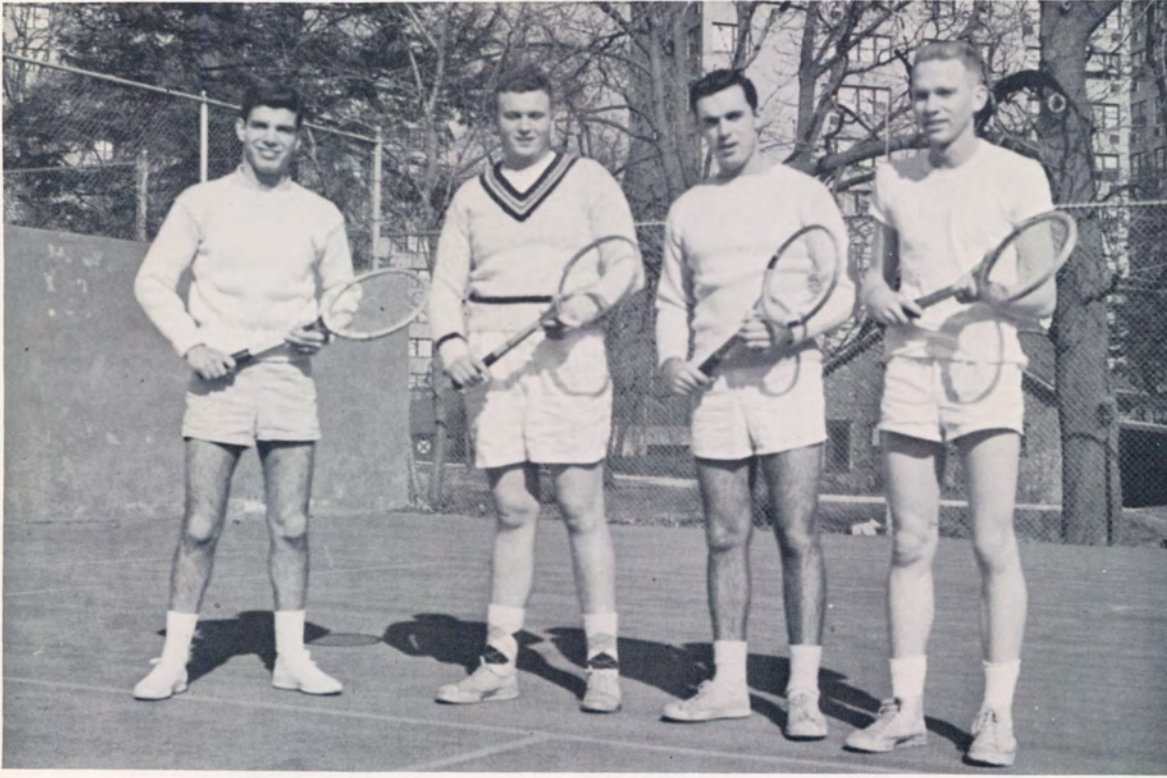

The remaining games were home contests starting with a defeat handed to us by St. Josephs College. After an easy victory over Lincoln University, Wilkes College came in and handed *Textile* a surprising loss.

The season ended with the Rams beating Newark College of Engineering in the rain for the most impressive victory of the season, handing the losers their only defeat.

The final statistics show PTI with a record of 4 wins, 2 losses, and 1 tie. *Textile* chalked up the winning year by outscoring their opponents 27 to 15, illustrating our tremendous offensive attack.

TENNIS

S. Sitomer, J. Matheke, T. Kiernan, J. Klocko. Absent—R. Seel

After last years trial participation, a varsity tennis team has proved to be highly successful. The squad is anxiously looking forward to matches this spring with St. Josephs, Rutgers, Lincoln, and Glassboro. Captain Steve Sitomer is leading his team through trying work-outs and we feel they will be rewarded for their hard work.

Captain serving

J. Lewis, L. Glass, J. Hahn, R. Tait, P. Archer, Alan Richter, coach.

GOLF

Another new varsity team on the PTI campus is our golf team. Enthusiasm is high among the individual players, and Coach Alan Richter is pleased with the playing of Captain Larry Glass, John Dever, and Paul Archer.

Dickerson, L. Webb, L. Landgraf, R. Barnhardt, R. Tait.

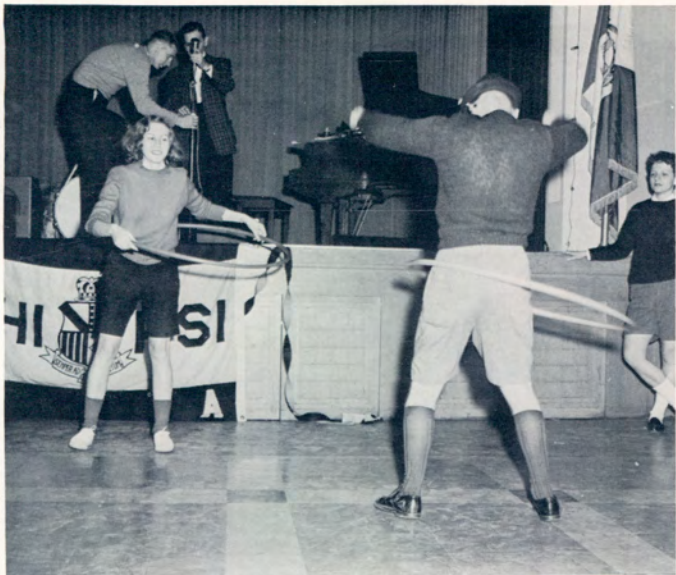

Phi Psi now remains as the sole exclusive Textile Fraternity in existence. Since its formation in 1903, Phi Psi has grown steadily and rapidly until today it has attained a position of respect in every branch of the Textile Industry. It will continue to hold this position for a fraternity based on such sound principles and high standards as Phi Psi's can never fail.

During the past years, the Alpha Chapter of Phi Psi on this campus has excelled in activities, sports, and intercollegiate standings. Many student leaders and organization backers throughout the college are Phi Psi Brothers, while the nucleus of Varsity and Intramural Sports is also dominated by the Brothers. Their outstanding achievement in winning the Inter-Fraternity Plaque for the highest grade point average demonstrates the high scholastic ability that Phi Psi has at P.T.I. Phi Psi's affairs, ranging from banquets and smokers to hops and formals, add that important phase which makes P.T.I. not just a school but a true college.

Thus, the combination of friendship, brotherhood, and achievement develops a well rounded young man, a Phi Psi Man.

Row 3—M. Patel, R. Benson, J. Rivlin, J. Drennen, A. Morris, J. Gozon, R. Luongo, M. Shafritz, G. Le Brun.

This year marks the 60th anniversary of Delta Kappa Phi Fraternity, whose Alpha Chapter has become synonymous with the Philadelphia Textile Institute. Since 1899 Delta Kappa Phi, the oldest professional textile fraternity in the country has recorded a history of which we all are extremely proud.

Through its high standards of selectivity it has maintained its prestige and respect in the textile industry. Through sponsorship of a well rounded social program without sacrificing the required academic application of the student, we believe we are best serving PTI and the textile industry as well as developing character and integrity within our brotherhood.

In addition to the Alpha Chapter, there are five other active chapters located at colleges in New England and the South, who with the same high ideals provide the industry with men of character and potential leadership.

Row 1—R. Gittleman, Custodian; J. Bloom, Pro-Consol. Row 2—H. Bluestone, Pledge-master; R. Steele, Annotator; R. Pactor, Consol; A. Bloom, Scribe; W. Maister, Sgt.-at-Arms.

Hopmayer, E. Cramer, P. Archer, P. Wollman, D. Suskin, E. Egert, E. Berman, S. Needleman. Row 3—B. Lebowitz, D. Silverman, A. Wiener, M. Shapiero, R. Wacht, A. Halpert, A. Slomine, J. Katz, R. Goldshider, J. Gardner, J. Biderman, W. Pecker, R. Samson, A. Finklestein.

Row 1—L. Glass, Vice-Councilor; Steve Sitomer, Councilor; J. Raab, Exchequer. Row 2—G. Goldman, House Manager; L. Applebaum, Social Chairman; W. Millman, Warden.

Founded 42 years ago in 1917, the Sigma Phi Tau Fraternity has dedicated itself not only to the development of its brotherhood, but also to the tenets of strength, providence, and truth which its name signifies. Through the adherence to these ideals, the brothers of "Sigma" have developed a strong bond of brotherhood and an organization vital to life here at PTI.

The men of Sigma Phi Tau have not only excelled here at school, but have risen to great heights in the industry. We look proudly upon our alumni and their accomplishments, as well as the support they have given the fraternity.

Sigma Phi Tau has long been noted for its social functions. The Annual College Night, Awards Banquet Dinner, Convention, Spring Dance, and Spring Weekend are but a few of its noteworthy social functions at school.

The friendships we have developed here are lasting ones; we look back at our achievements with pride and humility, and we look to the future dedicated to the ideals of building our strong fraternity to greater heights and strengthening life at Textile.

Steve's successful Sigma smoker.

Row 1—A. Hwang, L. Petrauskas, D. Chua. Row 2—K. James, S. Mallast.

KAPPA SIGMA PHI

October 27, 1943 was the founding day of the first chapter of Kappa Sigma Phi Sorority which was organized at the Philadelphia Textile Institute. Through the zealous efforts of its members, new chapters were formed at North Carolina State College, School of Textiles; Bradford Durfee Technical Institute; and New Bedford Textile School. Through the inclusion of these colleges; the sorority became the Alpha Chapter of a national organization.

The purpose of the sorority as stated in its constitution is "to join in fraternity, women of like interests in the textile profession with a common desire within, for the exchange of knowledge and encouragement of fine ideals and sincerity."

Although few girls are attending the Institute, those who do feel that there are many opportunities for women in the field of textiles, and they pledge themselves to the task of enlisting the interest of other women in this profession.

All members of the sorority, through their knowledge and training, have made and will continue to make every contribution possible to an outstanding industry.

L. Petrauskas, President; K. James, Vice-President.

HIGHER **WASH** 'N' QUALITY WEAR

FOR BIGGER PROFITS WITH HUNTER FINISHING EQUIPMENT

Hunter equipment, specially engineered to meet the requirements of Wash-and-Wear finishing, provides the critical control necessary for quality production throughout all processes. A complete Hunter resin-finishing range... or individual pre-drying, drying, curing, cooling or washing equipment, designed to complement existing facilities... can give you an important edge on finishing costs, quality and production.

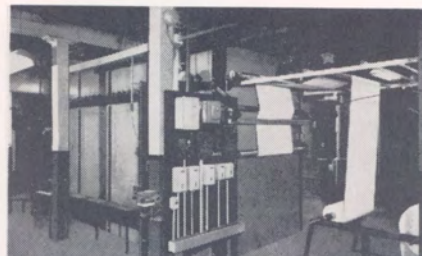

WRITE FOR THE NEW HUNTER WASH-AND-WEAR BULLETIN NOW

The Hunter 15-Ton 3-Roll Pad with 20" dia. cast iron body rolls and heavy-duty bearings for speeds up to 200 y.p.m. is adaptable to the most critical applications. A 10-Ton 2-Roll Pad, with 18" dia. rolls, delivers speeds to 150 y.p.m. Both feature individual pneumatic controls for either side of the Pad.

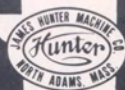

The Hunter VapoJet Tenter Dryer employs high-velocity super-heated steam, propelled through scientifically-arranged telescoping nozzles in close contact with the fabric. It achieves the ultimate in even drying and assures complete freedom from migration problems. Applicable to any tenter frame.

The Hunter Curing Oven, designed on modern aerodynamic principles, assures an even application of heat to both sides of the cloth, for fast, even, complete polymerization. Absolutely even temperatures are maintained at a uniform level throughout the entire length and width of the Oven.

VATROLITE® — Use this powerful concentrated reducing agent for brighter vat dyed colors on cotton, linen and rayon ... for faster, cleaner stripping results on silk, cotton and rayon.

DISCOLITE® — A concentrated reducing agent, highly stable at high temperatures, outstanding for discharge and vat color printing. Employed successfully wherever the reducing agent must dry into the fabric and retain its reducing power.

PAROLITE® — A dust-free white crystalline reducing agent. Soluble, colorless, excellent for stripping wool piece goods and rags, shoddy, acetate or nylon fabric.

WWE are proud as punch of our new *Bennie* . . . the Oscar of the printing industry. This award statuette was presented to Wm. J. KELLER INC. by a jury of professional printers at the annual convention of the PRINTING INDUSTRIES OF AMERICA, meeting in Dallas.

The fact that Keller wins occasional prizes is not, however, important. What is important to us is the continuing loyalty of our customers, for whom we keep plugging away with yearbook service, design and artwork . . . plus the *really superior* printing process of Velvatone.

**CONGRATULATIONS AND BEST WISHES
TO
1959 P.T.I. GRADUATES**

GRADUATION is the beginning — RECOGNITION comes only after achievement and proven ability.

ALTHOUSE, specialists in precision dyestuff manufacturing and practical dyeing techniques, offers PROVEN COLORFASTNESS and maximum level dyeing properties with these RECOGNIZED classes of dyes:

SUPERLITEFASTS

Outstanding lightfastness on viscose and cotton.
Excellent washing fastness with curable resins.

SOL - AQUA - FASTS

Excellent lightfastness with good washing fastness on viscose and cotton.
Excellent washing fastness with curable resins.

SUPERNYLITES

Excellent fastness to washing and light on Nylon and Wool.

NYLANTHRENES

Excellent fastness to washing and light on Nylon with exceptional level dyeing and covering properties.

NYDYES

The first completely water soluble neutral dyes for heavy shades on Nylon having excellent fastness to washing and crocking.

LANAFASTS

Neutral dyeing premetalized dyes for maximum fastness on Wool, Nylon and blends.

These along with other ALTHOUSE DYES are available to solve many dyeing problems.

PROBLEMS? They're constant in every textile dyeing and finishing plant. Some solve easily, others defy every art of engineering genius. But oftentimes an "outside hand" can help with a know-how and experience gained only across years and years of battling technical problems, everywhere.

Welcome the Scholler Representative who calls on you at your plant. He's a salesman and a qualified technician. He's a friend as well as a supplier. Call him — or Scholler Brothers, Inc. — when the problems get really tough. He will provide you with technical aid as well as supplying your material needs.

"REPRESENTING AMERICA'S FINEST SPINNING MILLS"

For a Quality Finish Use DIASTAFOR Desizing Agent

Wherever quality of finish and process economy are essential, you will most often find Diastafor used in the desizing operation.

Finishers and dyers insist upon Diastafor, accepted and respected by the textile industry for more than 45 years.

Because of its thermostability, Diastafor has a rapid desizing rate at high temperatures up to 180°-200° F.

Diastafor is available in several strengths to meet your individual needs.

HYDROSULFITES

HYDROSULFITE OF SODA CONC.—Non-Dusting; Non-Crusting

Reducing agent for vat colors; also for stripping any type fabric.

HYDROSULFITE AWC—Sodium Formaldehyde Sulfoxylate
For application printing of vat colors; discharge printing of all textiles; also stripping.

HYDROSULFITE BZ—Basic Zinc Formaldehyde Sulfoxylate
Powerful reducing agent for stripping wool, acetate, nylon, etc.

HYDROZIN—Normal Zinc Formaldehyde Sulfoxylate
For discharge printing on acetate grounds, also stripping colors on wool and hosiery.
