Mohammed, Ehsan Ur Rahman and Pirani, Rayhaan, "Efficient Fake News Detection Method using Feature Reduction" (2022). *UWill Discover Conference*. 27. https://scholar.uwindsor.ca/uwilldiscover/2022/2022Day3/27

This Event is brought to you for free and open access by the Conferences and Conference Proceedings at Scholarship at UWindsor. It has been accepted for inclusion in UWill Discover Conference by an authorized administrator of Scholarship at UWindsor. For more information, please contact scholarship@uwindsor.ca.

Efficient Fake News Detection Method using Feature Reduction

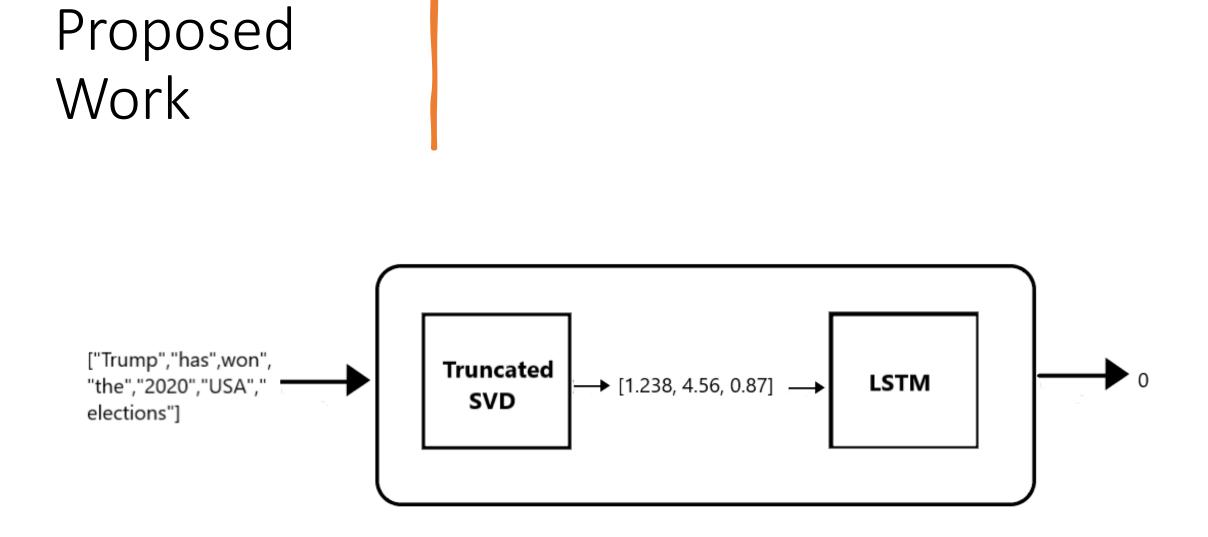

By Rayhaan Pirani MSc, Computer Science (AI Specialization) and Ehsan Ur Rahman Mohammed MSc, Computer Science

**Faculty Sponsor:** 

Dr. Hossein Fani, Assistant Professor, School Of Computer Science, UWindsor Objective, and Previous Works **Objective:** Reducing Training Time While Maintaining Accuracy

**Why:** Save Computational Resources; Reduce Carbon Footprint

**Previous:** No Comparative Studies; A Combined Machine Learning Model

## Experiments and Results

Model Name	Accuracy	Training Time
SVM	94.00	12 mins
Proposed Work	92.20	1 min
Random Forests	78.00	5 mins
LSTM	80.00	10 mins

## Conclusion and Future Scope

**Conclusion:** Significant improvement in performance (accuracy vs. training and time)

**Future Scope:** Different feature reduction approaches and other tasks like text summarization

**Questions:**?
