This is to certify that we have examined the records of Arthur D. Brown, Secretary of the Pembroke Water Commission, and find the same correctly cast and properly vouched.

JOSEPH A. RAINVILLE,
EDWARD M. FOWLER,
Auditors.

REPORT OF SCHOOL BOARD.

The closing of the town year of 1921 calls for the Board of Education's annual report.

For the past year it has been the policy of the Board to carry out the wishes of the State and those of the people so far as it has been able with the appropriation given them. No State aid has been allowed from the fact that Pembroke is considered too prosperous a town for such help.

Quite a few repairs have been made on the rural school houses in order to put them somewhere near the standard required by law. If town water was installed in those buildings, where it could be, it would be much more sanitary and convenient for teachers, scholars and especially for those kind neighbors, who have furnished drinking water for so many years to the schools.

It is gratifying to know that in our efforts to maintain a high standard for our schools, we have had the co-operation of all interested.

To the more detailed report of the Superintendent and Financial Agent we urge your careful attention.

Respectfully submitted,

ELLEN E. HOBBS,
HENRY P. COFRAN,
FRED W. SALTMARSH,
School Board.

ELLEN E. HOBBS,
Chairman, School Board.

This certifies that I have examined the accounts of the School Board of Pembroke and find the same correctly cast and properly vouched and a balance in favor of the District of two hundred, thirty-four dollars and sixty-seven cents (\$234.67).

WILLIAM N. JOHNSTON,
Auditor.

Pembroke, N. H., June 30, 1921.

Report of the Superintendent of Schools

For the Year Ending June 30, 1921.

To the School Board and Citizens:

I herewith submit my ninth annual report of the schools of Pembroke.

There were maintained during the year nine schools, for a school year of 36 weeks. There were no changes in the teaching force.

It is the intent of the school law, and we believe the desire of all intelligent citizens, that every school in New Hampshire shall be a good school and that opportunities for a good education shall be granted equally to each pupil as far as conditions will permit.

That pupils in rural communities may have school advantages approximating those given to city children, the following conditions should be met and requirements filled:

1. A sanitary schoolhouse and buildings, with pleasant and healthful surroundings.

2. A pupil enrolment of 15. In case of great difficulties and cost of transportation, a school of 12 pupils may be more economically maintained.

3. An approved, efficient teacher, well paid and happy in her work, working under the direction of an approved and industrious superintendent, with an approved program of study and a daily time-table intelligently arranged and wisely carried into effect.

4. A pleasant home for the teacher, where she may enjoy suitable comforts and have conveniences for doing

her school work. This means at least, a pleasant, well heated, ventilated and lighted room.

5. Parents and citizens interested in good schools and their improvement and willing to co-operate in making good schools. One great duty every parent owes to the school and to his children, for their future welfare and happiness, is to see that the children are punctual at school and that their attendance is regular.

6. The transportation of pupils in safe and comfortable vehicles with a thoroughly competent driver. The law of 1921 for the transportation of pupils is as follows:

“The district shall furnish transportation to all pupils below the ninth grade who live more than two miles from the school to which they are assigned, but when it shall appear that children live in homes so remote from schools or regular transportation routes that the cost of transportation would constitute an unreasonable expense, the school board may, at the expense of the district, board the child near a public school; provided, however, that the parent or guardian may appeal to the commissioner with proposals for transportation by himself or by another, or with other solutions, and the order of the commissioner shall be final.

“Pupils who are to be transported may be required to walk any reasonable part, not exceeding one mile, of the distance from their homes to the school. The school board may furnish transportation, to pupils in grades above the eighth or to any pupils residing less than two miles from the school to which they are assigned when it finds that this is desirable, and shall furnish it when directed by the commissioner of education.”

No state-aided district receives any state money for transportation of pupils living less than two miles from the school, unless such transportation is directed by the Commissioner of Education.

HEALTH AND PHYSICAL WELFARE.

A thorough examination of the pupils was made during the fall term by Health Inspector Dr. Edmund E. Hill.

That the work of the Medical Inspector may be fully effective, there should be the follow-up service conducted by a school nurse. Her frequent room-to-room and house-to-house visitation gives her opportunities for observing the hygienic and sanitary conditions as to ventilation, temperature, cleanliness, clothing and diet. Her service is of special value to the tuberculous, crippled and anaemic children. Her hospital and professional training makes her advice valuable to parents, teachers and doctors. Her duties are similar to those of a hospital nurse—to make records of body temperature, etc., to supervise the diet and health habits, and advise continually with parents.

The school nurse is a true social worker. Her kind ministrations and educative influence in the home are her most valuable services.

The pioneer nurse must be trained to understand every class and condition of people, must be patient, sympathetic and tactful. She must be confident of her knowledge, forceful, and convincing in her directions to bring about better health conditions.

Innovations in school work are usually met with opposition, especially by those who have not carefully considered their merits. Thus far in the United States, school nurses have not been generally employed in rural communities. This is not to be attributed to a lack of need, but to obstacles incident to a scattered population. As our rural districts receive better educational advantages through well trained teachers and larger schools, the nurse will be more generally considered a necessary factor in the school equipment.

From statistics we learn that about one hundred and fifty thousand of the inhabitants of the United States die

each year of tuberculosis. It is estimated that this disease alone costs our nation one billion dollars a year, an annual sum that, if properly expended, would free the land from the disease.

“It is within the power of man to cause all parasitic diseases to disappear from the world.”—*Pasteur*.

WORK DONE IN SCHOOL.

The State Program of Study for Rural Schools was well taught and the teachers worked from a well-planned time-table.

The teachers have been earnest in their effort to teach thrift, by seeing that supplies were economically used and books properly cared for.

Special emphasis should be placed by all upon the need of sanitary buildings, good school equipment, the proper care of public property, and the knowledge of the laws of health and the practice of good health habits.

ATTENDANCE.

The attendance of pupils in most schools was good. Most of the absences occurred from sickness or other good causes. Cases of truancy were confined to a very few families. Most of these families were non-resident and followed the portable saw-mills.

I again call the attention of the parents to the importance of the punctual and regular attendance of their children at school. It is a duty they owe to the child, the school, the state, and the tax-paying community.

EVENING SCHOOL FOR AMERICANIZATION.

An evening school for the pupils of Allenstown and Pembroke was taught in the Suncook school for a term of sixty sessions. A large number of pupils were enrolled

and were taught by four teachers: George W. Fowler, Principal; Alice Maguire, Grace E. Lancey and Marion K. Seavey, Assistants.

Excellent results were obtained. The sympathy in and enthusiasm for the work, and the broad general knowledge of the needs of the pupils, made this teaching faculty an ideal one.

At the close of the term a reception was given to the pupils. The refreshments were furnished by George E. Prest, Agent of the Suncook Mills, and the members of the Allenstown and Pembroke School Boards.

RECOMMENDATIONS.

I recommend that the needful painting be done upon the exterior of the Suncook school building and that the walks and grounds be put in good condition; the Pembroke Street school grounds be graded; that the stoves be enclosed. Enclosing the stoves will add comfort to the pupils and saving in fuel cost.

In conclusion, I express my appreciation for your hearty co-operation and assistance.

Respectfully submitted,

HENRY S. ROBERTS.
Superintendent.

A noted educator has said, "Music seems more than any other a study in which head, heart and voice are active; it is a means of expression for every emotion that may be aroused in the child. It is a safety valve, a relief from the routine of school work, a reaction after fatigue. It is freedom, companionship and joy. Knowing its potency, shall we dare give anything less than the best?"

Just how the "best" may be secured and presented to the pupils in the schools of Pembroke is our problem.

From the wealth of material published we have selected one of the best courses of school music to use as a basis for work, supplementing this with courses in theory and Sight reading, and other music suitable to various occasions observed by the schools.

The addition of a fine phonograph has enabled us to add a course in Appreciation, which will be much more satisfactory, as we are able to add to our collection of records.

The weekly visit to the rural district is a pleasure, the interest shown by the classes an inspiration. It is our ambition to place a phonograph in every rural school, that we may increase the already awakened interest of the children and bring to them music they have no opportunity to hear otherwise, and also add a course in appreciation, which is a vital factor in the child's education.

Pupils in both graded and rural schools have given valuable and hearty assistance in preparing and presenting programs for special occasions.

The graduating exercises of 1921 were held in Legion Hall; they were well attended and much appreciated, as are always the programs we present, and by which we hope to prove that school music does more than simply give a knowledge of "singing by note"; that it also develops a love for music and creates a desire to know it in all its forms.

We thank the teachers for their hearty co-operation in all branches of the work, and to them give the credit due for any success which may have rewarded our efforts.

Respectfully submitted,

KATE L. SMITH,
Supervisor of Music.

Mr. H. S. Roberts, Superintendent of Schools.

My dear Sir:

I have with the assistance of Miss Clara Benoit, school nurse, examined the school children of Pembroke. Several corrections have already been made in regard to eyes and throat as recommended. The children as a whole are in good physical condition.

EDMUND E. HILL.

REPORT OF SCHOOL NURSE CLARA R. BENOIT

FOR THE DISTRICT OF PEMBROKE AND ALLENSTOWN.

Beginning September 1, 1921, to February 1, 1922.

Number of schools visited	11
Number of visits to such schools	96
Number of children examined	267
Number of defects found	348
Number of home visits	115
Number of interviews with officials, physicians etc.	22
Cases of defective vision found	21
Cases of defective tonsils and adenoids	62
Cases of defective teeth	144
Cases of defective hearing	2
Cases of malnutrition	10
Cases of anemia	15
Cases of defective breathing	2
Cases of unvaccination	56
Cases of pediculosis	38
Number of children taken to clinic	21
Number of children taken to hospital	17
Treatments in school	24
Treatments at home	8
Number of defects corrected	95
Exclusions from school on account of skin diseases and contagious diseases	6

Respectfully submitted,

CLARA R. BENOIT.

School Nurse.

REPORT OF THE PRINCIPAL OF THE SCHOOL FOR AMERICANIZATION.

The interest manifested in the Evening School work was a surprising revelation to those who had no previous opportunity to observe it. The announcement of it here was broad in its scope, including the statement that there would be a class in business Arithmetic and English, if there were a sufficient number of applicants. Such numbers applied that the three classifications of those who could neither speak nor write English, those who could speak or read English a little, and those qualified for more advanced work, were well filled; for the class first mentioned it was necessary to open two rooms. In the advanced class, one division completely reviewed an advanced business arithmetic, another division mastered the fundamental processes, and all were given drills in spelling and civics; the second named class made marked progress by drill in conversation, reading, spelling and civics, while the remaining class developed conversation and civics, with a little of reading and spelling. The attendance was practically all voluntary, proving a strong desire for mental improvement and equipment for active and intelligent citizenship. The dread of possible ridicule from the fact that adults should be in school where hitherto none but mere children had attended, was easily overcome. To all who persevered, the winter's work gave most gratifying results and the opportunity therefor was sincerely appreciated.

GEORGE W. FOWLER,
Principal.

ROLL OF PERFECT ATTENDANCE.

Including the names of all pupils who have been present every half-day without being tardy.

Suncook School.

Edmund Chase,

Herbert Horne.

Brickett School.

GRADUATING EXERCISES OF THE GRAMMAR
GRADES, PEMBROKE PUBLIC SCHOOLS.

Thursday afternoon, June 16, 1921.

PROGRAM.

Chorus—"All Hail! Land of the Free," *C. I. Rice*

Prayer,

Rev. George W. Farmer.

Chorus—"Hark! The Awakening Call," *Lachner*

Essay—"Colonial Life in Massachusetts and
New Hampshire,"

Jeannette P. Cofran.

Recitation—"The Old Fisherman,"

Wallace B. Horne.

Piano Solo—"Rose Fay,"

Cari Heins

Elizabeth T. Morse.

Essay—"The Building of the Panama Canal,"

Hertel B. Demarais.

Recitation—"What the Little Girl Said,"

Germaine E. Fontaine.

Chorus—(a) "Drink to Me Only With Thine
Eyes,"

Old English

(b) "O, No, John!"

Folk Song

(c) "Love's Old Sweet Song,"

Molloy

Recitation—"The School-Boy's Apples,"

Elmer O. Letendre.

Essay—"Ancient Egypt,"

Elizabeth T. Morse.

Chorus—"The Barefoot Trail,"

A. S. Wiggers

- Essay—"The Greatest Woman in the World,"
Rose Ella Levesque.
- Chorus—"Anchored," *Watson*
- Recitation—"The Real Diary of a Real Boy,"
Erwin A. Chase.
- Piano Solo—"Full Moon," *Julius Holzer*
Rose Ella Levesque
- Recitation—"L'Envoi,"
Sarah A. McConnell.
- Chorus—"In a Canoe," *M. Bartholomew*
- Class Will,
Edward A. Cheney.
- Class Prophecy,
John C. Cushing.
- Presentation of Diplomas,
Henry S. Roberts, *Superintendent*.
- Class Song—"How Can We Leave Thee," *Words Original*

GRADUATES OF CLASS OF 1921.

- Edward Arthur Cheney, *President*.
John Charles Cushing, *Vice-President*.
Jeannette Palmer Cofran, *Secretary and Treasurer*.
