# Acknowledgements

I'm fully aware that most people only read the 'Acknowledgements' section of a thesis (this section), eagerly hoping to find their names mentioned. However, I've decided not to make a list of all those who supported me during the past four years. Such lists are never complete<sup>1</sup>. Therefore, I'd certainly forget someone, and that would be beyond the pale. That does not mean that I'm not grateful to you all -colleagues, friends and family- for supporting me: Thank you!

Geert van den Bogaart<sup>2</sup>  
Groningen, 19th June 2008

---

<sup>1</sup>In fact, one might argue that no list in biology is ever complete [1].
