Acknowledgements

Fortunately, here comes the last part of this thesis. I still remember the day when I just arrived in Groningen. At that time, I was told by my supervisor that four years is a short period of time for the PhD study. Indeed, at this moment, I have to admit that as time flies, the years shuttle again.

During the four years of research, many people helped me so much, either in work or in life. I would like to express my deepest gratitude to all of them.

First and foremost, I would like to give my appreciation to my supervisor, Prof. dr. Alexander Dömling. Thank you for offering an opportunity to become a member of your group. I still remember our meetings after 6 pm in the spring of 2012. These meetings really benefit me a lot.

Secondly, I would like to acknowledge the members of the assessment committee, Prof. dr. Christopher Hulme from the Arizona University, Prof. dr. Katja Loos from the University of Groningen, Prof. dr. Anna Hirsch from the University of Groningen, for their time and efforts to evaluate and approve this thesis, and for the nice comments and suggestions.

Moreover, I would like to give my appreciation to Prof. dr. Herman Meurs. Thanks for your great support during the screening of my biologically active compounds in vitro in your lab. You always answered my questions so patiently and played a very important role in our joint project.

A special acknowledgement to Dr. Matthew Groves. Thank you for the nice discussion and great help for the arginase project.

I am grateful to our important lab manager, André Boltjes. Hey, guy. I experienced a lot with you: happiness, fight, anger, and relief at the end of my contract. I do not know if we have the chance to meet again, but definitely you are the person who I could not forget.

Great thanks to Edwin, for correcting parts of this thesis, preparing the Dutch summary, and being my paranymph. Edwin, you are so nice to me. You always checked with me if I had the office key when you left; and you helped me a lot when I had problems in work. Wish you a great success in your Chinese cooking skills and good luck for finalizing your PhD thesis.

Many thanks to all of my colleagues (former and current), and my bachelor students. Jolanda, thanks so much for the paper work and your great help with sending parcels. I really appreciate it. Dinos, you are smart and have a good sense of humor. You told me that I would be surprised since you know more than I assume, which is yes, indeed. Tryf, you are considerate and polite. You always tried to integrate everyone in the discussion during our coffee break. Eman, you are my best female friend in our group. We talked a lot. I like you very much. Natalia, thank you for exchanging the office with me. I was relaxed in the new office. Vish, although you do not talk so much, I know you are a very nice person. Thank you for your kind help. Patil, thank you for your kind help. You are an excellent chemist. I hope I could have more opportunities to learn from you. Hope we have the chance to meet you again someday/somewhere. Keep in touch, man. Ajay and Santosh, you are a good talker. Where you were, where there was laugh. Good luck, friends. Sergey, thanks for helping the arginase crystals. Wish you a lot of success in your PhD.

Moreover, I would like to thank the following people: Sivia, Shabnam, Bubanda, Shrinidi, Henk, Gita, Iris and others. I enjoyed the happy time with all of you together.

I would like to express my gratitude to many other colleagues in GRIP. Peter, you are kind, funny and energetic. Thank you for allowing to use the evaporator during my special working period. Sabry, thank you for the patient training in your professional field. You really helped me a lot. Nick, Thea and Marilina, you are my friends, and you are always nice to me. I wish you good luck with your PhD.

I would like to thank my Chinese friends who I met during my PhD study in the Netherlands: Jun, Ming, Qi Cao, Bing & Haoxiao, Zhuozhao & Xin, Zhe & Jing, Xiang, Zhuoran, Qi Wang, Liwen, Rui, Yinan, Suping, Junjun, Xiaoyao, Qiuyan, Jin & Zhen, Zheng & Qian, Zhonghong & Jiquan, Shuo & Jingyi, Lifei & Qinhong, Kai & Juanjuan, Tao & Wenjun, Dr. Jingyuan Fu, Dr. Yang Li, Zhongtao & Lei, Jiawei & He, Yanping, Cuifeng, Jiacong, Honghao, Ranran, Xueting, and many others who I may forget to mention here, as well as, my study sisters and brothers: Ji, Yuanze and Jingjing, Kai, Yongzhi, jieling. I enjoyed the time with you together. We went together to so many places (the Northern Europe, Texel, Outlets ...). We played cards, and cooked together especially during some very important Chinese festivals. All of you are one of the most parts in my life in the Netherlands.

Special thanks to my family. 亲爱的爸爸和妈妈，谢谢你们这么多年来养育和支持。离家四年，不能在身边照顾你们，深感愧疚。在我为博士毕业论文冲刺的最后阶段，

你们不远万里来到荷兰，照料我的起居生活，为我解除了后顾之忧。在往后的日子，我希望有更多的时间可以回家陪伴你们。

在此，我还要感谢婆婆，大姐，大姐夫，二姐，二姐夫对蒋逸和我的理解，包容和支持，祝愿你们在今后的生活中一切顺利，身体健康，也祝愿小宝和雨晴茁壮成长。

蒋逸，我亲爱的丈夫，谢谢你四年来对我无微不至的关心和照顾。谢谢你在我孤独的时候，永远贴心地陪在我身边；谢谢你在我伤心落寞的时候，永远用温柔的话语安慰我，帮助我成长。我有今天的成绩，离不开你的耐心帮助。我很感谢命运让我们在荷兰，在格村相遇，我们也曾发生矛盾，争吵，但我们的心永远紧紧的靠在一起。在今年的金秋，我们的小家会迎来第三位成员：端端，我们爱情的结晶。希望我们的生活会永远甜蜜幸福。

赵婷
