ReSpAct: Rehabilitation, Sports and Active Lifestyle

An implementation-study on physical activity promotion in rehabilitation care

Femke Hoekstra

This dissertation is a product of the Rehabilitation, Sports and Active Lifestyle (ReSpAct) study. The ReSpAct-study is a collaboration between:

- Center for Human Movement Sciences, University Medical Center Groningen, University of Groningen
- Department of Rehabilitation, Center for Rehabilitation, University Medical Center Groningen
- Hanze University of Applied Sciences

The ReSpAct-study was funded by the Dutch Ministry of Health, Welfare and Sports and supported by the Knowledge Center of Sport Netherlands and Stichting Special Heroes Nederland (before January 2016: Stichting Onbeperkt Sportief).

PhD training was facilitated by the Research Institute SHARE of the Graduate School for Medical Sciences and within the research programs Smart Movements (SMART) and Extremities Pain and Disability (EXPAND).

The printing of this dissertation was financially supported by:

- University of Groningen
- University Medical Center Groningen
- Center for Rehabilitation, University Medical Center Groningen
- Research Institute SHARE
- Stichting Beatrixoord Noord-Nederland
