Hemodynamic stability during hemodialysis

A role for vasopressin?

Esmée M. Ettema

Esmée M. Ettema

Hemodynamic stability during hemodialysis: a role for vasopressin?

Dissertation University of Groningen, the Netherlands

The studies presented in this thesis were supported by the Dutch Kidney Foundation and the Jan Kornelis de Cock foundation.

Financial support by the Dutch Kidney Foundation, the University of Groningen, University Medical Center Groningen, the Graduate School for Drug Exploration (GUIDE), Dialysis Center Groningen and Amgen B.V. for the publication of this thesis is gratefully acknowledged.

Cover design by Sjors Kroes

Hemodynamic stability during hemodialysis

A role for vasopressin?

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. E. Sterken
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 2 november 2016 om 12:45 uur

door

Esmée Marlien Ettema

geboren op 23 maart 1988
te Groningen
