## About the author

Margreet Vogelzang was born in Groningen, the Netherlands, on May 14th 1989. After finishing her secondary education at the Willem Lodewijk Gymnasium, she studied Artificial Intelligence at the University of Groningen. She subsequently did her master's degree in Human–Machine Communication at the University of Groningen with an exchange year at the Ben–Gurion University of the Negev in Israel. After writing her master's thesis at the Human–Computer Interaction Institute of Carnegie Mellon University in the US, she obtained the title 'Master of Science' from the University of Groningen in 2012.

In September 2012, Margreet obtained a PhD position at the Center for Language and Cognition at the University of Groningen. As a PhD student, she used experimental and computational cognitive modeling studies to investigate reference processing. Since May 2017, Margreet is a postdoctoral researcher at the University of Oldenburg in Germany with a project titled "The effects of hearing impairment on grammatical processing and comprehension and its neurological underpinnings".
