A Corrigendum on

Normal Values of Corrected Heart-Rate Variability in 10-Second Electrocardiograms for All Ages

by van den Berg, M. E., Rijnbeek, P. R., Niemeijer, M. N., Hofman, A., van Herpen, G., Bots, M. L., et al. (2018). *Front. Physiol.* 9:424. doi: 10.3389/fphys.2018.00424

In the original article, there was a mistake in **Table S5** as published. The normal values for “SDNN” were given instead of for “RMSSD.” The corrected **Table S5** appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
