## VARSITY BATTLES FOR 17 INNINGS

Noted Ball Players Witness Game from Side-lines.

In one of the best contested games of the year the Varsity battled against Gettysburg on Friday for seventeen innings. When the umpire called the game at 6.35 the score was 1-1.

Johnson did wonderful work for Ursinus, striking out twenty-eight men and keeping the hits well scattered. Hoar pitched a fine game for Gettysburg, and his team mates gave him excellent support. Bream and Williams deserve special praise for their work, as they fielded several clouts that looked good for a safety at least.

Plank and Coombes, of the Athletics, witnessed the game from the side-lines.

The visitors talked in the third, when Hall walked and scored on Hoar's hit to right for two bases. Ursinus scored in the sixth when Mitterling walked, stole second, and scored on Bedenk's hit to right. The score follows:

### Junior Reception a Success.

The Freshman class entertained the Juniors on Saturday evening in Freeland reception halls. The evening was spent in enjoying a program, participating in games and indulging in refreshments.

Prof. and Mrs. Crow and Miss Davenport were the chaperons.

The hour for departure came all too quickly, and after both classes had given their yells the students returned to their rooms.

The Glee Club rendered its final concert in Phoenixville on Tuesday evening. Mr. Hiwale accompanied the club and played several selections on his native instrument. A number of Ursinus co-ed. were in the audience.

### Misfortune Frowns on Scrubs.

The Ursinus Reserves lost their second game of the season on Saturday when the Tolentine Academy defeated them by the score of 12 to 1. The consistent playing of the Villa Nova lads and the errors of the local boys were the causes of the defeat.

**EDITORIAL**

The various college activities make the spring season at Ursinus a very busy one for the students. On account of the small student body it is imperative that almost everyone participate in several outside features as well as attend to his duties in the class room. In addition to this Ursinus is located in a region that can scarcely be surpassed for its natural beauty during the vernal months.

These attractions no doubt have a tendency to detract to some extent from our collegiate work. Be it far from us to discount the enjoyment of these privileges—for at best they are few among us—but we feel inclined to sound the warning to those who have neglected their work during the semester, that the period for final examinations is rapidly drawing near. Senior finals will be given next week, while the other classes will be examined the following week.

It is time to prepare for the last lap of the college year; to collect the loose ends of our work and to systematize our knowledge so that it can be readily used. The proof of the success of a good student is not necessarily the passing of an examination with a high grade, but how much useful knowledge he has actually obtained from the course.

The lesson that we would inculcate here is that it is not what you learn in these last two weeks of the school term that will determine your fitness to pass a credible examination. This fund of knowledge should have been accumulated

for weeks and even months past. The secret of success in the school room is the doing of each day's tasks as they are assigned. It has been well said, "Procrastination is the thief of time". There is no place where this is more applicable than in the colleges. Besides, the facts that are obtained by cramming methods at the eleventh hour are quickly forgotten, and leave the student in no better condition than before. The person who does his work consistently enters his examinations with a clear conscience and a brain not over-stocked and beclouded with a lot of unsystematized knowledge.

Although the examinations are some distance in the future let us begin our preparation for them now and not put off to the last hour the impossible—the accomplishment of a number of weeks work in as many hours. Instead of burning the midnight oil on these last few nights, get a full quota of sleep and enter the tests mentally and physically able to do yourself justice to the highest degree. F. M. G. '15.

Thena led the meeting on Wednesday evening; the subject being, "Envy as a factor in college life." He said: As college students we can easily see that envy will become a monster if allowed to go unchecked. Activities go on about the college which cause us to become envious of our fellow students, especially is this fact evident in intellectual and athletic pursuits, and if we allow this envy to grow, it will become a great detriment to our lives. God will not draw a distinction between the gifted man and the fellow who strives hard to acquire various pursuits. If we try to make the best of the abilities with which we have been endowed, we will have little room for envying our next-door neighbor.

Discussion followed, the thoughts were: Envy is not so prevalent among college men, for the larger men grow intellectually the less of that element do we find in their souls. The time to kill the spark of envy is while we are in college. We should advance a good reason for the better attainments of the individual in question. Love to God is the only sure cure for envy.

"The 'Alls' of the Bible" was the theme discussed at the meeting this week. Miss Hyde led and emphasized the largeness of God's promises to us, his children.

In her talk she said: "Are we

In the WEEKLY of April 13, an item was published regarding the scholarship at Medico-Chi now held by Shelhamer, '12. There was a mistake made owing to the fact that the course has been changed from three to four years, so instead of being available in 1915 it will be held by Shelhamer until 1916.

Walter Christie, University of California track coach, states his opinion, based on twenty-five years of observation, that one-fourth of the efficiency of track men comes directly from the cheering of the rooter. The athlete, he claims, must have music and noise to keep him going.

This is a good statement to bear in mind when you witness our next baseball game, for it applies as much to baseball as it does to track.

**Nature at Her Best.**

There are many opportunities for education and enjoyment of which the students do not take advantage here at Ursinus, and one of these is the study of plant and bird life. We are blessed with beautiful surroundings and ample time is given to enjoy them if we will utilize our time aright

The lane leading to the Perkiomen from Sprankle is a veritable birdland. Robins, flickers, pheebes, cardinals, thrashers and catbirds, are but a few of the songsters that inhabit the trees and bushes along the road. This is the time when the birds sing the sweetest, as they have not yet mated and the males strive to win the approbation of the female by the display of vocal ability and plumage.

The woods below the athletic field is an excellent place to see the birds and enjoy their songs. It is also abundant in wild flowers.

Remember, your education is incomplete unless you know something about the beautiful creations of God, and probably you will never have a better opportunity to study them than here. So, instead of sleeping during that vacant period during the day, get out and commune with nature.

**ALUMNI NOTES.**

One of my greatest joys at college

was rapturously listening to our grand old glee club, while I most contentedly smoked those good old Fatimas Cigarettes! Happy days that can be recalled only in memory, but those good old Fatimas have been with me through thick and thin ever since!

Pure, good, choice tobacco, in a plain looking package, but you can't beat 'em! Happy days! More Fatimas are sold in the United States than any other cigarette.
