Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-021-25535-1>, published online 15 September 2021.

The original version of this Article contained an error in the Results section, which incorrectly read ‘The *artA*-deletion strain produced about 6000 times more 6-MSA than wild type.’ The correct version states ‘*artC*’ in place of ‘*artA*’. This has been corrected in both the PDF and HTML versions of the Article.
