Peer reviewed version

## Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

# A Social Recommender System using T-index Approach and Graph Search Mechansim

Soude Fazeli, Hendrik Drachsler, Peter Sloep

## Abstract

The software provides a recommender system, which make recommendations for users in social learning platforms like the one for Open Discovery Space (ODS) projects. The recommender uses user interactions data like rating, bookmarking, commenting, etc. The application has been developed using Java and MySQL. The software is available under GNU Lesser General Public License (LGPL3).

## Version & change log

Version	Date	URI
1.0	01-May-2014	

## Source code

GNU Lesser General Public License (LGPL3)

git clone [https://github.com/SoudeFazeli/Tindex\\_InMem.git](https://github.com/SoudeFazeli/Tindex_InMem.git)

## Installing the software

The application needs JVM to be running. For more information please see README file.

## Dependencies

All the required libraries are already available under the lib folder.
