Submitted on 29 Jan 2016

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Towards Big Data in Medical Imaging

Background

Objectives

Diagnosis improvement

Inter/intra-department medical imaging exchange

Semantic medical imaging enrichment

Medical imaging reuse

Multimodal medical imaging analysis

Linking medical imaging

Global data analysis

Multiscale medical imaging analysis

Scientific Knowledge sharing

RDF-ization of medical imaging

Persistent medical imaging archiving

Discover new correlations
