Numéro	6
Pagination	805 - 824
Volume	20
Titre de la revue	Group Decision and Negotiation
ISSN	0926-2644 / 1572-9907
Résumé en anglais	Participatory evaluation relies on the principle of active participation by major stakeholders, including the least organised groups, as being fundamental to good evaluation practice. This process presents a number of advantages which can nonetheless become crippling if certain prerequisites are not fulfilled. The goal of our paper is to weigh up the advantages and disadvantages of participation and to examine the conditions necessary for participatory evaluation to achieve its objectives.
