Classical elliptic current algebras. II

Submitted by Emmanuel Lemoine on Thu, 12/05/2013 - 15:33

Titre	Classical elliptic current algebras. II
Type de publication	Article de revue
Auteur	Pakuliak, Stanislav [1], Roubtsov, Vladimir [2], Silantyev, Alexey [3]
Pays	Inde
Editeur	OMICS Publishing Group
Ville	Hyderabad
Type	Article scientifique dans une revue à comité de lecture
Année	2008
Langue	Anglais
Date	2008
Numéro	2
Pagination	79 - 93
Volume	2
Titre de la revue	Journal of Generalized Lie Theory and Applications
ISSN	1736-4337
Résumé en anglais	This is a continuation of the previous paper "Classical elliptic current algebras. I [4]" [*J.Gen. Lie Theory Appl.* 2 (2002), 65–78]. We describe different degenerations of the classical elliptic algebras. They yield different versions of rational and rigonometric current algebras. We also review the averaging method of Faddeev-Reshetikhin, which allows to restore ellipticalgebras from the trigonometric ones.
