Research and Management of High-Elevation Five-Needle Pines in Western North America

Proceedings of The Second
High-Five Conference:
October 5-7, 2021

FIG. 11.—*Pinus balfouriana*: a, seeds.

Cover Photos & Credits - Clockwise from top:

Foxtail Pine (*Pinus balfouriana*) south of Cottonwood Pass, CA (credit: MP Murray)

Great Basin Bristlecone Pine (*P. longaeva*) on Cave Mountain, NV (credit: C Earle, www.conifers.org)

Whitebark Pine (*P. albicaulis*) at Galena Summit, ID (credit: MP Murray)

Rocky Mountain Bristlecone Pine (*P. aristata*), Mt. Goliath Natural Area, CO (credit: MP Murray)

Southwestern White Pine (*P. strobiformis*) near El Salto, Durango, CO (credit: C Earle, www.conifers.org)

Limber Pine (*P. flexilis*) at Columbia Lake, BC (credit: MP Murray)

Citation

Murray, Michael P.; Smith, Cyndi M.; McKinney, Shawn T.; Achuff, Peter L. 2022. Research and management of high-elevation five-needle pines in western North America: Proceedings of the second High-Five Conference. 5-7 October 2021. The Press at Cal Poly Humboldt

All papers in these proceedings were formatted to style standards with some minor editing. Authors are responsible for content and accuracy of their individual papers and the quality of illustrative materials.

THE PRESS AT CAL POLY HUMBOLDT PUBLISHES HIGH-QUALITY SCHOLARLY, INTELLECTUAL, AND CREATIVE WORKS BY OR IN SUPPORT OF OUR CAMPUS COMMUNITY. THE PRESS SUPPORTS THE CAL POLY HUMBOLDT PURPOSE TO IMPROVE THE HUMAN CONDITION AND OUR ENVIRONMENT BY PROMOTING UNDERSTANDING OF SOCIAL, ECONOMIC, AND ENVIRONMENTAL ISSUES.

CONTENTS

4 Preface

7 Acknowledgements

8 Organizing Committee and Program Schedule

18 Variable Demographic Patterns Interact With Disturbance and Climate to Shape Limber Pine Population Viability

R. Justin DeRose, Zachary Merrill, Maegen Rochner, Matthew F. Bekker

28 Subalpine Tree Species Classification Using Remote Sensing Methods and Techniques

Stephanie Jouvét, Brendan Wilson

39 Mountain Marathon: Endangered Limber and Whitebark Pine Recovery in Alberta

Jodie Krakowski, Robin Gutsell

55 Alpine Treeline Ecotones are Potential Refugia for a Montane Pine Species Threatened by Bark Beetle Outbreaks

Colin T. Maher, Constance I. Millar, David L.R. Affleck, Robert E. Keane, Anna Sala, Claudine Tobalske, Andrew J. Larson, Cara R. Nelson

61 Winter Damage is More Important than Summer Temperature for Maintaining the Krummholz Growth Form Above Alpine Treeline

Colin T. Maher, Cara R. Nelson, Andrew J. Larson

67 Long-term Assessment of the Efficacy of Prescribed Burning and Mechanical Cutting for Restoration of Whitebark Pine

Enzo Martelli, Robert E. Keane, Cara R. Nelson

72 How to Retain Whitebark Pine in Timber Harvests

Michael P. Murray, Jenny Berg, Dave Huggard

77 Preparing for Invasion: Rust Resistance in Limber, Great Basin Bristlecone, and Rocky Mountain Bristlecone Pines

Anna W. Schoettle, Angelia Kegley, Richard A. Sniezko, Kelly S. Burns, Detlev Vogler, Phyllis Pineda Bovin, Gretchen Baker

81 Field Spectroradiometer Methods for Remotely Identifying Treeline Vegetation Species: A Case Study Using Limber Pine in Rocky Mountain National Park

Laurel A. Sindewald, Matthew D. Cross, Ted Scambos, Diana F. Tomback, Peter J. Anthamatten

90 Repeat Photography Helps Tell the Story of Whitebark Pine

Jane Kapler Smith, Garon C. Smith

95 Whitebark Pine Community Processes, Environment and Human Influences: Revisiting Montana State University Work of 1971-2000

T. Weaver

104 Maintaining *Pinus Strobiformis*, a Tree Species Threatened by Climate Change and White Pine Blister Rust

Nicholas Wilhelmi, Kristen M. Waring, Richard A. Sniezko, Gregory J. Reynolds, Jeremy S. Johnson

110 Forest Structure Twenty Years After the First Whitebark Pine Prescribed Burn in Banff National Park

Brendan Wilson, Stephanie Jouvét, Jon Stuart-Smith, Rob Walker

115 Conference Abstracts

176 Poster Abstracts

183 Registrant List
