I am compiling this chart as a step in preparing a genealogy of all the descendents of Edward MELCHER, a baker of Portsmouth NH in 1657. This compilation is an attempt to list all the appearances of the MELCHER name associated with New England and to sort the list in various ways that will aid in the identification of family groups. It will also serve as an index of the MELCHER name in New England

THIS CHART IS NOT COMPLETE YET. Most New England U.S. Census data 1790-1860 is included, but I have much more information to add. If you need help on a MELCHER line, have additional information to contribute or have a correction, please contact me:

GENEALOGIES, PLACE HISTORIES, JOURNALS: THOSE BEGINNING WITH LOWER CASE LETTER

> Family genealogies begin with a "g" followed by a two-letter surname code (See "The Ancestry" printout) then a lower case initial of the author's last name unless duplicated; then author's first name (or publisher or "x")

> Town, County, State histories begin with the lower case 1st letter of the town or county ["x" if none], then the two-letter state (province or country) code then a lower case initial of the author's first name unless duplicated; then author's first name (or publisher or "x")

> If a vital record, a "v" will often follow the two-letter state (province or country) code, instead of the lower case initial of the author's last name;

 or b = birth, c = cemetery, d = death, m = marriage records

> Journal references or multi-volume books (x##a) where ## is volume no. and "a" is issue in volume (optional); sometimes will be designated as xx##

I am compiling this chart as a step in preparing a genealogy of all the descendants of Edward MELCHER, a baker of Portsmouth NH in 1657.

This compilation is an attempt to list all the appearances of the MELCHER name associated with New England and to sort the list in various ways that will aid in the identification of family groups. It will also serve as an index of the MELCHER name in New England

THIS CHART IS NOT COMPLETE YET. Most New England U.S. Census data 1790-1860 is included, but I have much more information to add. If you need help on a MELCHER line, have additional information to contribute or have a correction, please contact me:
