I am compiling this chart as a step in preparing a genealogy of all the descendents of Edward MELCHER, a baker of Portsmouth NH in 1657.

This compilation is an attempt to list all the appearances of the MELCHER name associated with New England and to sort the list in various ways that will aid in the identification of family groups. It will also serve as an index of the MELCHER name in New England

THIS CHART IS NOT COMPLETE YET. Most New England U.S. Census data 1790-1860 is included, but I have much more information to add. If you need help on a MELCHER line, have additional information to contribute or have a correction, please contact me:

I am compiling this chart as a step in preparing a genealogy of all the descendents of Edward MELCHER, a baker of Portsmouth NH in 1657.

This compilation is an attempt to list all the appearances of the MELCHER name associated with New England and to sort the list in various ways that will aid in the identification of family groups. It will also serve as an index of the MELCHER name in New England

THIS CHART IS NOT COMPLETE YET. Most New England U.S. Census data 1790-1860 is included, but I have much more information to add. If you need help on a MELCHER line, have additional information to contribute or have a correction, please contact me:
