It has been drawn to the authors' attention that our original article¹ did not appropriately attribute portions of a figure that we had reused from Ref. 2. The figure caption as it should have appeared follows.

FIG. 2. (a) Schematic depicting human lung, (b) respiratory airways including the bronchioles and the alveolus, (c) gas exchange at the alveolar-capillary membrane of the alveolar sac, and (d) the distribution of the predominant cell types of the human lung. The images for (a) and (b) created by using the visuals in the SMART Servier Medical Art (<https://smart.servier.com/>) program licensed under a Creative Commons Attribution 3.0 Unported License.

Images for (c) and (d) are reprinted with permission from P. Bajaj *et al.*, ACS Biomater. Sci. Eng. 2, 473 (2016). Copyright 2016 American Chemical Society.²
