## Confirmación aceptación abstract

De Comité organizador SECF2022  
 Destinatario nadiavm@uma.es  
 Fecha 2022-06-15 11:12

Estimado/a congresista,

Una vez revisado el abstract enviado, le confirmamos su aceptación.

Por otro lado, una vez formalizada su inscripción para asistir al congreso, podrá comprobar la asignación de su comunicación a la sesión correspondiente en el listado que se publicará en la web del congreso a partir del 13 de JUNIO de 2022 (fecha límite AMPLIADA de envío de abstracts para su publicación en la revista *Journal of Physiology and Biochemistry*).

Para cualquier otra cuestión, no dude en contactar con nosotros.

Un saludo

--

## Objetivo:

El estudio del papel de IGF-II en la posible recuperación funcional y estructural de la mitocondria frente a un daño oxidativo en un modelo celular.

# Diseño experimental:

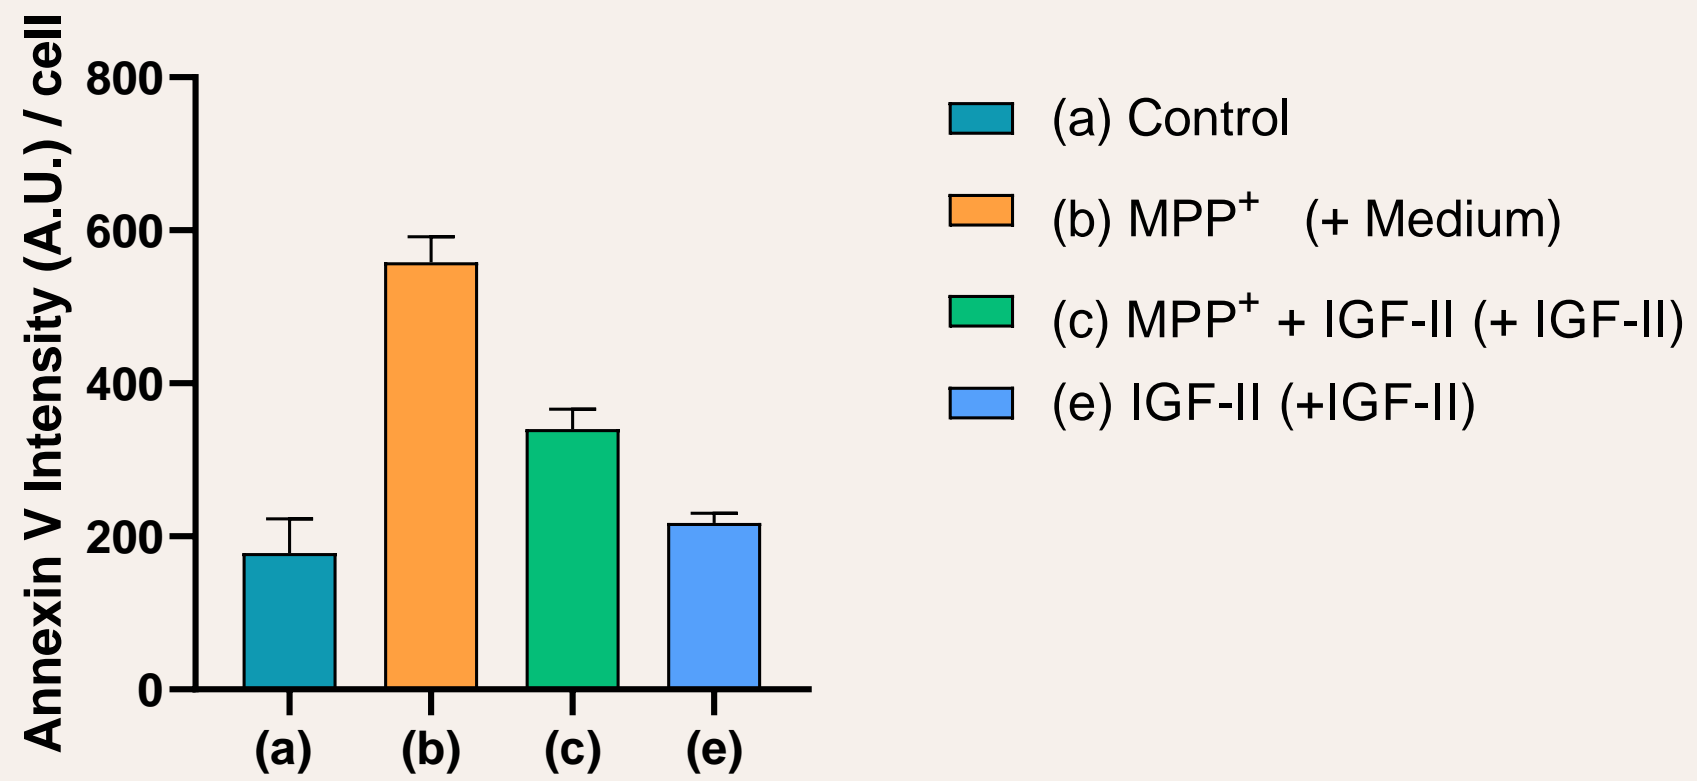

(a)

(b)

(c)

(e)

Dapi

MTR

Mitofilina

Merge

Zoom

(a)

(b)

(c)

(d)

(e)

## Mitofilina

- (a) Medium (+Medium) Control
- (b) MPP<sup>+</sup> (+ Medium)
- (c) MPP<sup>+</sup> + IGF-II (+ IGF-II)
- (d) MPP<sup>+</sup> + IGF-II +BMS (+ IGF-II + BMS)
- (e) IGF-II (+IGF-II)

# Mitofilina

# Tasa de consumo de oxígeno

# Conclusiones:

- ❑ IGF- II promueve el mantenimiento y la recuperación de la estructura mitocondrial frente al daño oxidativo provocado por MPP<sup>+</sup>
- ❑ IGF-II evita y recupera la funcionalidad mitocondrial provocada por MPP<sup>+</sup>

**Muchas gracias**
