Data Management Data

The Western Rural Development Center will obtain data for the following project during FY22. The data will be stored where it is completely safe and only accessible to employees of the Western Rural Development Center.

1. **Area Sector Analysis Process (ASAP)** – Several types of data are collected with this project. First, the ASAP has collected survey data from over 2,500 businesses from a wide range of sectors throughout the country. Second, a survey of residents in communities where ASAP is being implemented. Finally, we obtain asset data from study communities.
