Study #4358

Contributing Projects:

- P1879 - Launch One CGIAR Digital Strategy Module 2

Part I: Public communications

Type: Program/project evaluation/review

Status: Completed

Year: 2021

Title: Evaluation of CGIAR Platform for Big Data in Agriculture: Online Survey

Commissioning Study: CGIAR Advisory Services Secretariat

Part II: CGIAR system level reporting**Links to the Strategic Results Framework:**

Sub-IDs:

- Increased capacity for innovation in partner development organizations and in poor and vulnerable communities

Is this OICR linked to some SRF 2022/2030 target?: Too early to say

Description of activity / study: This independent evaluation of the Platform uses a mixed-method approach, that included both quantitative and qualitative methods. Among quantitative methods, the team administered a Survey through Survey Monkey. Its design and distribution were possible through the excellent collaboration between the Evaluation team, CAS and the Platform team. The latter was very collaborative and checked the design and wording of the Survey, provided the Evaluation team with valuable feedbacks in a timely manner and used its channels for the administration. The online survey was released on September 20th and closed on September 30th, 2021. The survey was designed in a way that respondents were directed to a set of specific questions based on their respective types of engagement with the Platform.

Geographic scope:

- Global

Comments: <Not Defined>
