We present the first number of the year in JOTSE. As usual, in this first number we present ours editorial with an analysis of our Journal evolution. In this sense, we reflect on the changes just undergone in 2021 with an international pandemic "covid-19" and the challenges to be faced in the New Year 2022.

When analyzing JOTSE's evolution (See Figure 1) we can observe that the objective of growth has been accomplished in this last year with this terrible covid-19 pandemic.

Papers received/year in JOTSE website

Figure 1. JOTSE's evolution (2010-2021)

As a matter of fact, if we observe JOTSE's monthly evolution we can state that July and December are the months with more papers submissions as the average increases (as shown in Table 1). This 2021 year, was really complicate due to the pandemic COVID-19 and I want to thanks an all colleagues that colaborate with JOTSE because we have had 27% as much articles than in preceding year.

	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
January		0	2	1	9	4	3	2	12	26	13	17
February		1	4	1	0	4	1	7	27	15	10	23
March		0	1	2	3	5	1	4	11	27	21	22
April	1	1	0	3	2	2	2	0	10	12	17	22
May	3	2	0	0	2	2	3	5	24	13	16	22
June	1	4	0	3	1	4	3	3	11	8	17	23
July	1	0	7	5	8	5	3	2	13	15	22	29
August	1	1	1	2	1	2	2	13	9	12	17	25
September	0	1	3	1	5	5	2	14	32	24	18	12
October	2	0	4	1	1	3	8	8	8	25	16	22
November	1	1	1	6	2	9	11	11	16	14	26	21
December	1	1	3	9	11	8	3	14	21	20	22	34
TOTAL	11	12	26	34	45	53	42	83	194	211	215	272

Table 1. Article submissions evolution from 2010 to 2021

When analysing the percentage of rejected articles, we can see in the website of JOTSE, in this year 2021 it was 54,79%(a little more than before). Although if we have a look in more detail at the numbers, of 275 received, only 74 go through the review process and of these halves are rejected.

These numbers show the level of quality required to publish on JOTSE. It is important to mention here the important role of JOTSE's editorial team and reviewers who do their job with much rigor and generosity. In fact, we could not publish our journal without their help and, therefore, we thank them all to be here.

Now, if we analyze JOTSE's internationalization with the number of visited of JOTSE's website (410,814 visits between November 4th, 2015 to January 20th, 2022), we can observe in the figure 2 the distribution in the world with Philippines, US, Indonesia and Spain in the first positions.

Figure 1. Origin of visitors

The new goal is to publish articles from more different countries and growing with high quality.

Last but not least, we would like to thank to readers and authors for continuing to trust us.

Declaration of Conflicting Interests

The authors declared no potential conflicts of interest with respect to the research, authorship, and/or publication of this article.

Funding

The authors received no financial support for the research, authorship, and/or publication of this article.
