NOTE.—The receipts of the Children's Hospital for the year ending June 30, 1887, amounted to \$11,795.25, of which \$5,000 was from the District of Columbia under Congressional appropriation. But as the United States contributes only one-half of this appropriation, it will be seen that of the \$3,570 annually paid by the Children's Hospital for salaries and wages from its general fund the United States contributes considerably less than one-fourth.
