# **PSYX 587 – School Psychology Methods**

## **Section 02 – Fall 2020**

### **Course Time and Location**

Wednesday 1:00 – 2:50, Gallagher Building, Rm. 119

### **Instructor Information**

Instructor: Linda Maass, Ed.D

Office: Skaggs 210

Email: [linda.maass@umontana.edu](mailto:linda.maass@umontana.edu); [maassl14980@gmail.com](mailto:maassl14980@gmail.com)

Cell Phone: 406-546-1536

Office Hours: by appointment

### **Course Background**

School Psychology Methods is designed to provide students with authentic clinical experiences in a school setting. The practicum provides opportunities for students to practice the skills they are learning or have learned in classes, and to begin to engage in the professional activities of a school psychologist. Students will develop a better understanding of schools, educational staff, and students, as well as the roles and functions of school psychologists. Given that this course includes both first and second year students, the topic or content of the course changes each year. One year will cover general multicultural topics and the other year will cover working with Native American students and their families.

This year, we will be covering content related to diversity as it applies to both Native American and LGBTQ students, pandemic issues as well as legal & ethical issues related to the practice of school psychology.

The practicum seminar is designed to accompany the field component of the School Psychology Methods by providing students with a forum to discuss critical issues of practice in a community of scholars and practitioners. We will be using the class as a site to integrate your coursework and field experiences, to examine your development as a professional, and to discuss emerging issues of practice. You will receive direct and indirect supervision of your practicum experience in this class in addition to that provided by the field-based supervisor.

Students are expected to attend their practicum site for the equivalent of at least one full day (at least 8 hours) during the fall semester for a total of 180 hours. Please reserve 2-4 hours weekly to conduct class assignments in the field setting, the remainder of your time will be spent working directly with your field supervisor. Please note that your supervisor may not be in the building the entire day that you are there. A weekly written record is required to document your practicum hours. Professional dress and demeanor is expected in the practicum setting. Additional time in the site may be required to complete course expectations. It is occasionally necessary to temporarily withdraw students from the practicum placement if problems arise due to the students' progress or to unforeseen circumstances at

the practicum site. If this should occur, the instructor will consult immediately with the student and the field supervisor to develop a plan to reestablish the practicum as soon as is feasible.

The second year practicum is an opportunity to continue to learn new skills related to assessment, intervention and consultation, as well as synthesize those skills learned in first year. Specifically, you will continue to develop your skills related psychoeducational assessment, consultation, intervention planning and implementation skills, and outcome evaluation. Practicum students are expected to be closely supervised. The appropriate degree of autonomy given to students is left to the discretion of the field-based and university-based supervisors.

You will be involved in a variety of tasks as a school psychology practicum student. You should complete 180 hours of practicum-related work *per semester*. Some activities you will be involved in (but not limited to):

- Comprehensive psychoeducational evaluations.
- IEP intervention planning meetings.
- Consultation with classroom teachers (general and special) and parents.
- Observations in structured and unstructured settings (e.g., playground, break time).
- Intervention for students in: (1) general education and (2) special education
- Program and/or intervention outcome evaluation.

## **COURSE LEARNING OBJECTIVES**

1. You will practice under supervision at school-based site as a school psychologist to develop your assessment, consultation, collaboration, data-based decision making and intervention-related skills utilizing the problem-solving model.
2. You will become increasingly familiar with school personnel and organizational characteristics and related community resources.
3. You will develop personal, professional and ethical qualities appropriate to the roles of school psychologists.
4. You will develop further experience, knowledge and skill in working within the richly diverse environment that schools, children and their families represent.
5. You will further develop knowledge and skill in utilizing developmentally appropriate evidence-based best practice in assessment and intervention for exceptionalities and/or psychological disorders among children/youth.

### **Relevant NASP Domains of Practice to Course**

Domain 1: Data-Based Decision Making and Accountability

Domain 2: Consultation and Collaboration

Domain 3: Interventions and Instructional Support to Develop Academic Skills

Domain 4: Interventions and Mental Health Services to Develop Social and Life Skills

Domain 5: School-Wide Practices to Promote Learning

Domain 6: Preventive and Responsive Services.

Domain 7: Family-School Collaboration Services

Domain 8: Diversity in Development and Learning

Domain 9: Research and Program Evaluation

Domain 10: Legal, Ethical, and Professional Practice

## **Course Policies and Procedures**

### **HEALTH/SAFETY**

- Mask use is required within the classroom.
- Each student will be provided with a cleaning kit. The expectation is that students will clean their personal work space when they arrive for class, and before they leave the classroom.
- Classrooms may have one-way entrances / exits to minimize crowding.
- Students are discouraged from congregating outside the classroom before and after class.
- Specific seating arrangements will be used to ensure social distancing and support contact tracing efforts.
- Class attendance will be recorded to support contact tracing efforts.
- Drinking liquids and eating food is discouraged within the classroom (which requires mask removal).
  - If the class is being recorded, students will be notified of the recording.
- Stay home if you feel sick and/or if exhibiting COVID-19 symptoms
- If you are sick or displaying symptoms, please contact the Curry Health Center at (406) 243-4330
- Up-to-Date COVID-19 Information from the University of Montana
  - UM Coronavirus Website: <https://www.umt.edu/coronavirus>
  - UM COVID-19 Fall 2020 website: <https://www.umt.edu/coronavirus/fall2020.php>
- Please remain vigilant outside the classroom in mitigating the spread of COVID-19.

### **Academic Honesty and integrity**

As students entering the field of school psychology, there is an expectation of a high standard of academic integrity. Students are expected to perform to the utmost of their ability in an honest and ethical manner. The University of Montana's [Student Conduct Code](#) (SCC) should be reviewed, especially in regards to plagiarism. It is the policy of the SPSY program that plagiarism will result in an "F" for the course in which the academic violation occurs as well as grounds for consideration of dismissal from the program.

### **Professionalism**

I expect all students to behave with the highest standard of professionalism, both during class and in your practicum site. As a school psychologist in-training, you represent the university as well as the field. Keep in mind that how you dress and behave makes an impression of you as a professional. Consequently, please wear professional clothing during your practicum setting and act in an appropriate professional manner.

If classes are conducted on Zoom, I expect you to be present during the entire class; if you cannot do so please notify me as soon as possible. Please be mindful of your casual attire in this venue.

### **Disability Modifications**

The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and [Disability Services for Students](#). If you think you may have a disability adversely affecting your academic performance, and you have not already registered with Disability Services, please contact Disability Services in Lommasson Center 154 or call 406.243.2243. I will work with you and Disability Services to provide an appropriate modification.

### **Attendance and Active Engagement**

Attendance is highly encouraged since student's course grades are partially determined by participation in class discussions and activities. Moreover, missing a class can substantially affect students' depth of understanding. Please inform me prior to class if a late arrival or early departure from class is absolutely necessary. An excused absence will be granted only in a *documented* emergency situation.

### **Malpractice Insurance**

Malpractice coverage is required for students who are engaged in clinical work. In the fall, you will begin your clinical work in an elementary school. You are required to purchase the malpractice insurance by August 31, 2020 and you will upload the first page indicating the amount of coverage to the PSYX587 Moodle page folder (instructions will be given during your PSYX587 class). The [National Association of School Psychologists](#) recommends Forrest T. Jones & Company and the American Professional Agency. We recommend that you become a NASP student member to obtain the discount.

### **Religious Observance**

Please notify me in advance if you will be absent from class for religious observances.

### **Incompletes and Make-Up Procedures**

Incompletes will be given under limited circumstances (e.g., personal situations, illness). Make-up procedures must be arranged immediately with me. It is my intention to facilitate your success in this course, please do not hesitate to contact me regarding potential barriers to this goal.

### **Electronic Devices**

Electronic devices (such as cell phones, I-pods, mp3s, etc.) must be turned off and put away before class. I encourage the use of computers during class to take notes or to use electronic articles and PowerPoints. However, the use of computers for personal reasons during class is inappropriate and disrespectful to other students and to me. I will speak with you if I feel that your use of computers is detracting from your learning and will use discretion in reducing grades for those students who are using computers in a disrespectful manner when class is in session.

### **"People First" Language**

Students are expected to use appropriate, "people first" language in class discussions and written work. People with disabilities are just that: people who happen to have physical, sensory, behavioral, or intellectual disabilities. Please avoid phrases like "the handicapped," "autistic kids," or other statements that highlight the disability rather than the individual. Instead, speak and write in a way that puts

“people first,” for example, “the student with a severe disability,” “the program for students with behavior disorders.” This small change emphasizes the humanity and individuality of the person and clarifies that disability is only one of many characteristics (and not necessarily the most important!) that people can possess.

### **Required Texts**

Note: The following texts should be part of your professional library. These texts (and others) support you in your role as a school psychologist.

*Best Practices in School Psychology: Student level services* (2014). Harrison, P. L. & Thomas, A. (Eds.). Bethesda MD: National Association of School Psychologists (NASP).

*Best Practices in School Psychology: Foundations* (2014). Harrison, P. L. & Thomas, A. (Eds.). Bethesda MD: National Association of School Psychologists (NASP).

Jacob, S., Decker, D. M. & Lugg, E.T.(2016). *Ethics and Law for School Psychologists* (7<sup>th</sup> Ed.) Hoboken, N.J. John Wiley & Sons, Inc.

### **Required Readings**

Berger, S. S., & Buchholz, E. S. (1993). On becoming a supervisee: Preparation for learning in a supervisory relationship. *Psychotherapy: Theory, Research, Practice, Training*, 30, 86-92.

Campbell, C. D., & Gordon, M.C. (2003). Acknowledging the inevitable: understanding multiple relationships in rural practice. *Professional Psychology: Research & Practice*, 34, 430-434.

Demmert, W. G. (2011). Culturally based education: Promoting academic success and the general well-being of Native American students. In M. C. Sarche, P. Spicer, P. Farrell & H. E. Shinn, M.R. & Walker, H.M. (Eds.) (2010). *Interventions for achievement and behavior problems in a three-tier model including RTI*. Washington DC: National Association of School Psychologists (NASP).

## **Course Requirements**

1. [Practicum Goals, Self-Assessment, Professional Development Plan, & Reflections](#) (Goals = 40 points, Self-Assessment = 40, Reflection = 60 ; Total Points = 140 ). At the beginning of the semester, I will schedule an individual conference with you to discuss specific learning goals for your practicum. Following the conference, you will prepare a statement of the specific learning goals for your practicum and how to achieve these goals. At the end of the semester, you will write a self-assessment.

Additionally, you will reflect and write about your experience at your practicum site at the middle and end of the semester. Your reflections should integrate your practicum experience, ideas presented from multiple readings and class discussions, and your personal reactions, in equal measure.

An example of an *excellent* reflection integrates ideas presented from readings (with citations), theoretical perspectives learned in- or outside of this class (possible citations), and your personal reactions to the material, in equal measure. In contrast, an example of a *poor* response is an article summary, paraphrasing of the assigned material or class discussion.

There is no page length requirement for your responses; however, anything three pages or less would need to be extremely concise and well organized to comprise an excellent response. I will not grade your first response but will provide you with feedback that will assist in your final reflection.

Finally, you will complete practicum hour logs to document your training experience. You will obtain your on-site supervisor's signature to each. The logs will be returned to you for inclusion in your professional portfolio (next semester).

2. Discussion Group (30 points). You will work with other students (groups will be determined by the instructor) to lead a discussion on one of the weekly topics. You are responsible for providing relevant information about the topic, developing issues related to the topic, questions
3. Psychological Reports: (100 points for each report). Under supervision of your practicum site-based supervisor, you will conduct a full, comprehensive psychological evaluation for two students referred for a reevaluation for special education.
4. Ethical Decision Making Presentation (50 points). Developing an understanding of the ethical issues surrounding the practice of school psychology is an integral part of your professional development. During the semester, we will explore ethical issues and dilemmas as well as legal guidelines of current importance in the field of school psychology. You will present a real-life dilemma or case using the framework outlined in *Ethics and Law for School Psychologists* (2016) Please see Appendix for more information.
5. Professional Portfolio (credit/no credit) You will develop a Professional Portfolio as evidence of your growth over the year in taking on the school psychologist's professional role. You will be evaluated at the completion of your second year but you will submit any components that are completed at the end of Fall semester.
6. Clinical Evaluation (50 points). The following criteria will be used in clinical evaluations:
  - Maintaining a professional demeanor and appearance in the field site
  - Attendance and promptness in the field site
  - Meeting deadlines and responsibilities in the field site
  - Effective communication with field supervisors
  - Effective interactions with teachers, children, parents and other school staff
  - Maintaining confidentiality of all testing materials and files

- Protecting the confidentiality of individuals involved in testing and other professional activities
- Participation in and openness to receiving supervision

You will use the Practicum Student Performance Evaluation Form to obtain evaluative feedback from your on-site supervisor and discuss that information with your university-based supervisor. A copy will be provided to you for discussion and to retain in your professional portfolio.

You will use the Practicum Student Consumer of Services Performance Evaluation form, to obtain evaluative feedback from a consumer of your services during the semester. This person may be a general or special education teacher, a principal, a parent(s), etc., and should be someone who has had the most experience with you in your role as a school psychologist. Test protocols, surveys, observation documents and written reports will be constructively evaluated by your on-site practicum supervisor. *You must submit copies of case reports to your faculty supervisor for review and feedback.* For instances where written reports in schools have been replaced by a computerized “reporting format”, students must still write and submit a psycho-educational report for cases to be submitted to the university practicum supervisor for critical feedback about your skill development in professional report writing.

## **Other Course Activities**

### **Activity Log**

Documenting your practicum experience is important in planning your professional development as well as for applying for professional credentials. You should regularly keep a log of your hours (including supervision hours), activities, cases, workshops, client characteristics (e.g., age, disability, referral type), assessment tools used, and interventions conducted.

### **Supervision Time**

I will be your university-based supervisor. I am a credentialed school psychologist in the Montana Office of Public Instruction. I will be meeting with you as part of the seminar to provide supervision as well as individual supervision throughout the semester.

### **Course Grades**

The points and percentage of the final grade related to each course assignment is as follows:

Practicum Goals, Self-Assessment & Reflections: 140

Discussion Group: 30

Psychological Reports: 200

Ethical Decision- Making Presentation: 50

Clinical Evaluation: 50

Total Points: 470

Percentage	Grade
94 - 100	A
90 - 93	A-
87 - 89	B+
84 - 86	B
80 - 83	B-
77 - 79	C+
74 - 76	C
70 - 73	C-
67 - 69	D+
64 - 66	D
60 - 63	D-
0 - 59	F

## Appendix A

### Practicum Goals, Self-Assessment

The University of Montana  
School Psychology Program  
Professional Goals for Practicum Experience

Semester/Year: \_\_\_\_\_

Student Name: \_\_\_\_\_

Practicum site: \_\_\_\_\_

Practicum supervisor: \_\_\_\_\_

**Step 1. Following your individual conference with your University-based supervisor,** first, reflect upon your current skills, knowledge and skills. Then, complete the first column of the *Practicum Student Performance Evaluation-Supervisor*. It is expected that for many of these skills, they may not be applicable or you may rate yourself “1: Minimal” because you have not had the experience or have not had the opportunity. In fact, it is expected that by the completion of your second year, you may receive a score of “2: Developing” and rarely receive “3: Competent” or above.

**Step 2.** Second, develop and write concrete, observable, and measurable goals for your professional development this semester under each of these categories (you can have multiple goals under each category). You will review your goals with your university- and field-based supervisors.

Sample Goals:

- By December 5, 2020, I will administer one child assessment under supervision.
- By December 5, 2020, I will speak to at least one parent about the needs of their child with a disability and will use appropriate non-verbal and verbal communication (e.g., speak clearly, make eye contact).

**Step 3.** Please reflect about your experiences so far as well as at your practicum site in relation to the following areas. Consider how your previous experiences and background affect your current experience as a school psychologist-in-training. You may not have direct experience with some of these areas, so comment on your observations (e.g., your supervisor administering a measure, intervention) or what you would like to learn in that particular area. This is a reflection exercise—do not simply list activities in

which you have participated. Reflect on your skills, knowledge, and awareness related to the following areas.

1. School systems and the educational process.
2. Assessment for interventions. This may include observation, interviews, records reviews, standardized measures, alternative assessments (e.g., CBM).
3. Direct intervention services. This may include any academic or social-emotional interventions that you have provided or observed others conducting.
4. Consultation (e.g., with teachers, parents, students, administrators)
5. Parent-School Relationships
6. Diverse populations:
7. Professional development. Reflect upon your areas of growth in the past semester and how this will influence your role as a school psychologist.
8. What training or professional goals would you like to address in the next semester? What would you like more information about?

## Appendix B

### Ethical Decision- Making Presentation

As school psychologists, we often come across ethically challenging situations in our work. You will present an actual case that you experienced or observed during your practicum experiences.

First, you will select an ethical dilemma that you have encountered in your practicum setting. An ethical dilemma is specifically when two ethical principles (e.g., confidentiality and multiple relationships) conflict, and you must decide which ethical principle to follow. There are many instances of dilemmas in a school psychologist's daily life. If you are having difficulty finding a dilemma to discuss, please speak with me.

Second, you will use the Jacob, Decker, and Lugg (2016) model of decision making as a guide. You should discuss the ethical standards involved, the stakeholder(s), alternative solutions to the dilemma, and the solution. You should provide a concise summary of the case facts, the specific ethical codes, case law, state, and/or federal laws relevant to the decision-making; given the time constraints in the presentation, only discuss those that are more relevant or interesting to the case. Your presentation to the class should be approximately 10 minutes

A rubric will be available on Moodle of how you will be graded on your presentation. The presentation should be printed (2 slides per page) and submitted as part of the Practicum Portfolio in the second semester (upload to UMBox).

## Appendix C

### Reflection Paper

This paper is designed to prompt you to think about topics relevant to your own professional identities (i.e. preferences for practice, your professional goals, your cultural values & how this impacts your role as a school psychologist). You will reflect and write about your experience at your practicum site at the middle and end of the semester. Your reflections should integrate your practicum experience, ideas presented from multiple readings and class discussions (i.e. culture, diversity, legal/ethical issues), and your personal reactions, in equal measure.

Please note that I respect your right to disclose whatever you choose. All information in this paper will be confidential, though I invite you to share whatever you feel comfortable sharing with classmates during class discussions.

An example of an *excellent* reflection integrates ideas presented from readings (with citations), theoretical perspectives learned in- or outside of this class (possible citations), and your personal reactions to the material, in equal measure. In contrast, an example of a *poor* response is an article summary, paraphrasing of the assigned material or class discussion.

There is no page length requirement for your responses; however, anything three pages or less would need to be extremely concise and well organized to comprise an excellent response. I will not grade your first response but will provide you with feedback that will assist in your final reflection. Your paper must be typed (double-spaced), using Times New Roman, 12 font, 1-inch margin on all four sides. Before submitting, edit your work - I expect excellent writing and points will be deducted if there are spelling, punctuation, or grammatical mistakes.

## Appendix D

### Psychological Report: Special Education Re-Evaluation

Under supervision of your practicum site-based supervisor, you will conduct a full, comprehensive psychological evaluation for a student referred for a re-evaluation for special education. The student may be in K-12 but must already have received special education services and is up for a re-evaluation. The purpose of a psychological report is to provide a concise, yet comprehensive summary of a child's cognitive abilities, academic skills, and social and emotional issues. There are a variety of purposes for a psychoeducational report, including providing an accurate assessment for a referral source (e.g., parent), developing hypotheses and linking to appropriate interventions, providing a baseline for the examinee, and as a legal document (e.g., IEP).

The typical report includes (Sattler, 2001):

1. Identifying information
2. Assessment instruments
3. Reason for referral
4. Background information
5. Observations during the assessment
6. Assessment results and clinical impressions
7. Recommendations
8. Summary
9. Signature

While there is a general standard structure for psychological reports, there is no "correct" way. Indeed, you will notice that each school psychologist has his or her own way to writing. I recognize that not all school psychologists write comprehensive report and instead, use the online special education system (AIM). It is important to note, however, that the report should not simply be a copy-and-paste from the AIM system. You are required to synthesize and communicate the assessment in a way that a parent would understand. I encourage your site-based supervisor to review the report and provide you with feedback.

A grading rubric will be available on Moodle.

## Appendix F

### Discussion Group

You will work with your colleagues to lead a 30-minute discussion on one of the week's topics. You are responsible for developing topics or questions to engage the class in thinking about the primary issues, theories, and cultural issues relevant to school psychological practice. As a team, you should first provide a summary of the key ideas from the readings. You may want to consider integrating the readings into a broader topic to discuss as a group or pose specific questions. You may choose to do an activity; however, the activity must be directly applicable and informative for the group.

	<i>Content</i>	<i>Delivery</i>	<i>Discussion</i>
<i>Excellent</i> (30 points)	<ul style="list-style-type: none"> <li>• Shows rich understanding of paper</li> <li>• Explains and connects concepts well</li> <li>• Thorough and organized with synthesis rather than summary</li> <li>• Addressed all requirements in instructions</li> </ul>	<ul style="list-style-type: none"> <li>• Eye contact</li> <li>• Engaging, keeping audience in mind</li> <li>• Energy and enthusiasm</li> <li>• Efficient use of time</li> <li>• Easy to understand</li> <li>• Effective use of examples or anecdotes</li> </ul>	<ul style="list-style-type: none"> <li>• Inspires interest in topic</li> <li>• Generates discussion</li> <li>• Answers questions with understanding</li> <li>• Listens carefully to questions</li> <li>• Friendly and open</li> </ul>
<i>Competent</i> (10-15 points)	<ul style="list-style-type: none"> <li>• Basic or superficial understanding of paper</li> <li>• Presents summary of points, without synthesis of concepts</li> <li>• Evaluation is lacking</li> <li>• Recites material</li> <li>• Missing a requirement</li> </ul>	<ul style="list-style-type: none"> <li>• Less than full consideration of audience</li> <li>• Moderate engagement</li> <li>• Gets lost in presentation too often</li> <li>• Use of time is good, but not entirely efficient</li> </ul>	<ul style="list-style-type: none"> <li>• Does not inspire much interest</li> <li>• Engages in discussion but cannot answer questions</li> <li>• Prepared questions are not engaging</li> </ul>
<i>Needs work</i> (0-10 points)	<ul style="list-style-type: none"> <li>• Does not understand paper</li> <li>• Cannot summarize main points</li> <li>• No evaluation</li> <li>• Missing many or all requirements</li> </ul>	<ul style="list-style-type: none"> <li>• Relies large portions</li> <li>• Lacks clarity</li> <li>• Seems bored or uninterested</li> <li>• Otherwise unprepared</li> </ul>	<ul style="list-style-type: none"> <li>• Does not lead discussion</li> <li>• Has not prepared discussion questions</li> <li>• Displays hostility or frustration during discussion</li> </ul>

## Appendix G

### University of Montana School Psychology Specialist and Doctoral Practicum Portfolio

At the completion of the second year practicum (PSYX587 School Psychology Methods), all specialist and doctoral students will submit a portfolio to document knowledge and skills of school psychology practice. Students should select samples of their “best work” in selected areas (e.g., case studies) of professional practice and demonstrate ability to provide services that positively impact children, families and schools. Students will be evaluated on the entire portfolio. The second year practicum faculty member will evaluate students using a 4-point criterion scale. Students must have an overall score of 3.0 to pass the portfolio requirement.

	Description of Portfolio Item	Criteria	Present
<b>I. Practicum Logs &amp; Reflections</b>			
a.	End-of-Semester Logs signed by site-based and university-based practica supervisors	Hourly logs for direct and in-direct service in practicum for first and second year practica.	Y/N
b.	Practicum Hour Summary Sheet	Summary of each semester (first and second year) of practicum, total direct and indirect service, practicum site and supervisor.	Y/N
c.	Professional Goals & Professional Practice Reflections	Professional goals and reflections written at beginning of semester for first and second year practica.	Y/N
d.	End-of-Semester Professional Practice Reflections	Reflections on practicum experiences during the semester for first and second year practica.	Y/N
<b>II. Clinical Evaluations</b>			
a.	Practicum Supervisor Ratings	Completed Practicum Performance Evaluation—Supervisor for first and second year practica.	Y/N
b.	Consumer of Services Ratings	Completed Practicum Performance Evaluation—Consumer of Services for first and second year practica	Y/N
<b>III. Diversity in Development and Learning</b>			
a.	Introspection Paper: Culturally and Linguistically Diverse Youth and Families	Reflections on identity and professional practices related to working with culturally and linguistically diverse youth and families.	Y/N
b.	Introspection Paper: Native American Youth and Families	Reflections on identity and professional practices related to	Y/N

	Description of Portfolio Item	Criteria	Present
		working with Native American youth and families.	

<b>IV. Selected Case Studies</b>				
a.	Initial Evaluation for Special Education Entitlement for Services/Supports	Psychoeducational report for youth referred for initial special education evaluation	Y/N	
b.	Re-Evaluation for Special Education Entitlement for Services/Supports	Psychoeducational report for youth referred for special education re-evaluation	Y/N	
c.	Direct Intervention and/or Instructional Support to Develop Academic Skills CBM Used: _____ ROI: _____ % Change: _____	Problem-solving report of evidence-based intervention that includes Rate of Improvement (ROI) and percent change of academic behavior (e.g., curriculum-based measure).	Y/N	
d.	Direct Intervention and Mental Health Support to Develop Social and Life Skills Behavior Measured: _____ Visual Analysis: _____ % Change: _____	Problem-solving report of evidence-based social, emotional, and/or behavior intervention that includes percent change of behavior and visual analysis. Evidence of consultation and/or collaboration with children, families and/or school.	Y/N	
<b>V. Direct and Indirect Services for Children, Families, and Schools: Systems-level Services</b>				
a.	Crisis Multi-Tiered Systems Assessment and Intervention	Evidence-based interventions and assessment that can be used to support student at all levels in response to a specific type of crisis. Evidence of family-school collaboration services at the systems-level.	Y/N	
b.	Family-School Collaboration	Summary of activities (one page) documenting family-school collaboration services during practicum.	Y/N	
<b>VI. Legal, Ethical and Professional Practice</b>				
a.	Ethical Decision Making Presentation	Presentation slides on ethical decision-making process encountered during practicum.	Y/N	
b.	Professional Development Activities	Description or other printed materials about professional development seminars or conferences.	Y/N	
c.	Resume or Curriculum Vitae	Professional resume to date with education, clinical experiences, and relevant work experiences.	Y/N	
<b>Student Performance on Portfolio:</b>	<b>1 = Significantly Below Criterion</b>	<b>2 = Below Criterion</b>	<b>3 = Meets Criterion</b>	<b>4 = Exceeds Criterion</b>
	Student does not meet expectations for the student's level of training and/or entry into the profession. Student requires substantially more practice and supervision.	Student is approaching expectations for the student's level of training and/or entry into the profession. Student requires more practice and supervision.	Student meets expectations for the students' level of training and/or entry-level competency in the profession.	Student exceeds expectations for the student's level of training and/or entry-level competency in the profession.

## Practicum Portfolio Description

*Components of the specialist and doctoral practicum portfolios are briefly described below.*

**End-of-semester Logs.** The Student should complete hourly logs of direct and indirect services provided during practicum. The logs must be signed by the practicum supervisor at the completion of each semester.

**Practicum Hour Summary Sheet.** The student should complete the “Practicum and Practicum Hour Summary Sheet” and calculate the total number of direct and indirect services provided during practicum and Practicum. The practicum sites and all supervisors should be listed on the sheet.

**Practicum Goals, Self-Assessment, Professional Development Plan and Reflections.** Students should reflect upon their current skills, knowledge and competencies, considering their previous background and experiences with children, assessment, intervention and the educational process. Students should reflect upon their personal and professional strengths and areas of improvement. Students should then develop and write concrete, observable, and measurable goals for their professional development.

**Introspection Papers.** Two introspection papers are written during the first semester of the first and second year with reflections on identity and professional practices related to diversity.

**Initial Evaluation for Special Education Entitlement for Services/Supports.** Students should submit a psychoeducational report for youth referred for initial special education evaluation. This report should be submitted as their “best work” during practicum. Typically, this is completed during the second semester of the second year.

**Re-Evaluation for Special Education Entitlement for Services/Supports.** Students should submit a psychoeducational report for youth referred for a re-evaluation for special education. This report should be submitted as their “best work” during practicum. Typically, this is completed during the first semester of the second year.

**Direct Intervention and/or Instructional Support to Develop Academic Skills.** Students should submit a problem-solving report of a curriculum-based evaluation and intervention to support the academic skill development of a child (PreK-12) conducted during practicum. Students should clearly document evidence of consultation and/or collaboration with children, families and/or school to addressing these concerns. In the report, there should be documentation of the problem-solving process, assessments used, interventions conducted, research support for the intervention, progress monitoring using curriculum-based measurement data (including Rate of Improvement [ROI] and percent change), and recommendations. Students should clearly state the student’s Rate of Improvement and percent change of academic behavior in the Practicum Portfolio table. Typically, this is completed during the second semester of the first year.

**Direct Intervention and Mental Health Support to Develop Social and Life Skills.** Students should submit a problem-solving report (maximum 10 pages, single spaced) for a student (preK-12) referred for social, emotional, and/or behavioral concerns. Students should clearly document evidence of consultation and/or collaboration with children, families and/or school to addressing these concerns. In the report, there should be documentation of the problem-solving process, assessments used, interventions conducted, research support for the intervention, progress monitoring using data

(including visual analysis and percent behavior change), and recommendations. Students should clearly state the student's behavior change using visual analysis (e.g., decrease in aggressive behavior, increase in raising hand) and percent change of behavior in the Practicum Portfolio table. Typically, this is completed during the second semester of the second year and follows the NCSP Case Study grading rubric.

**Crisis Multi-Tiered Systems Assessment and Intervention.** Students should complete a summary sheet related to evidence-based interventions and assessment that can be used to support student at all levels in response to a specific type of crisis. The paper should clearly provide evidence of family-school collaboration services at the systems-level. This paper is completed during the second semester of the second year.

**Family-School Collaboration.** Students should complete a one-page, single-spaced description and reflection on professional practices related to family-school collaboration. Students should clearly document how they collaborated with families during their Practicum.

**Ethical and Legal Decision Making.** Students will present and submit the presentation slides of an ethical decision-making process encountered during practicum. This is completed during the first semester of the second year.

**Professional Development Activities.** Students should include descriptions or printed materials related to any professional development activities (e.g., professional conferences, webinars) conducted during Practicum.

**Resume or Curriculum Vitae.** Students should submit a completed professional resume with education, clinical experiences, and relevant work experiences.
