To Whom It May Concern:

As President of the Overseas Chinese Environmental Engineers and Scientists Association (OCEESA) from June 1, 1987 to May 31, 1988, I would like to inform you the following:

1. Dr. Yung-Tse Hung was appointed as Permanent Executive Director of OCEESA in 1986 and has served in that role for the past 35 years. He is responsible for running OCEESA's Cleveland office located in Cleveland, Ohio, U.S.A.
2. Since 1982, OCEESA's membership dues have been used exclusively for the operation of OCEESA's Cleveland office. This arrangement was made by the late Dr. Howard Ju-Chang Huang, who was President of OCEESA from June 1, 1981 to May 31, 1982.

Dr. Hung has dedicated his entire professional life to establishing OCCESA and nurturing its growth. Dr. Hung was instrumental in founding the OCCESA. He and a group of scholars and environmental engineers and scientists, including me, started the organization in 1980 during the Annual Industrial Wastes Conference held at Purdue University, West Lafayette, Indiana, U.S.A. After serving as its fifth president in 1986, he was appointed as Permanent Executive Director of OCCESA. Through his efforts, OCCESA was incorporated in the State of Ohio, U.S.A., and its headquarters was established in Cleveland, Ohio, U.S.A. Under his skillful management, as well as the leaderships of its many presidents and boards of directors, the organization continued to grow year after year throughout the past 40 years. For many of us, he was, and still is, the face of OCCESA. As I look back at the past 40 years, I can dare say that if it was not for Dr. Hung, OCCESA might not have lasted for so long, letting alone growth and many great accomplishments.

Very truly yours,
