Repurposing an old drug

Dichloroacetate's potential to reduce acidification of the tumour
microenvironment in melanoma

Bernardus Evers

The work presented in this thesis was performed in the Department of Pediatrics, University of Groningen, University Medical Center Groningen. The research conducted in this thesis was funded by the University Medical Center Groningen, the Dutch Cancer Society and by Stichting De Cock-Hadders.

The printing of this thesis was financially supported by the University of Groningen and the Graduate School of Medical Sciences of the University Medical Center Groningen.

Cover by Bernardus and Renske Evers

Repurposing an old drug

Dichloroacetate's potential to reduce acidification of the tumour
 microenvironment in melanoma

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans.

This thesis will be defended in public on
 Wednesday 5 October 2022 at 12.45 hours

by

Bernardus Evers

born on 6 February 1991
 in Smalingerland, the Netherlands

Supervisors

Prof. B.M. Bakker
Prof. D.J. Reijngoud

Assessment Committee

Prof. J.J. Schuringa
Prof. M. Heinemann
Prof. I. Heiland

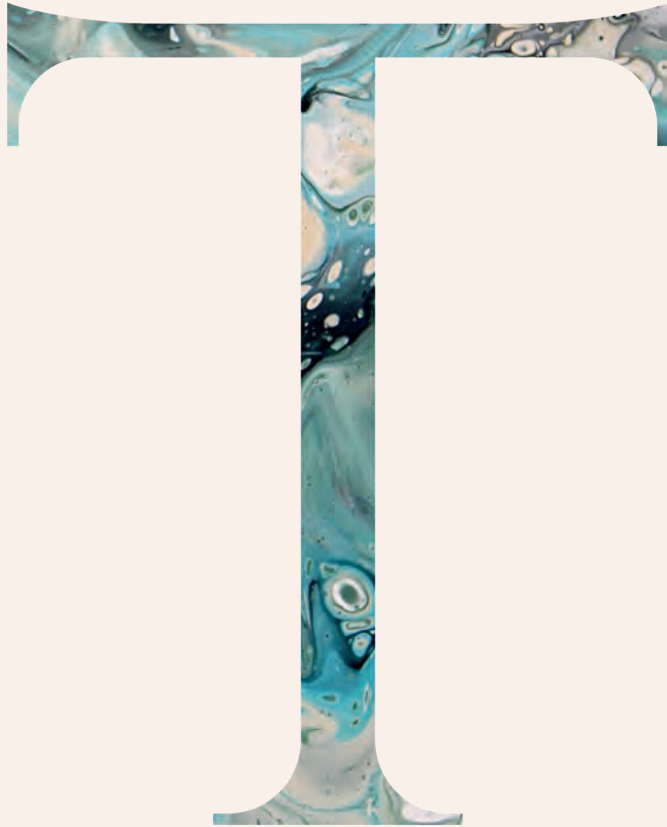

TABLE OF CONTENTS

1	General introduction and thesis outline	9
2	Targeting tumour metabolism in melanoma to enhance response to immune checkpoint inhibition: a balancing act	23
3	Simultaneous quantification of the concentration and carbon isotopologue distribution of polar metabolites in a single analysis by gas chromatography and mass spectrometry	53
4	Capturing the dynamics of glycolysis and the pentose phosphate pathway in ¹³ C-labelled mammalian cells by tandem mass spectrometry	97
5	Measuring glycolytic enzyme activities of cultured mammalian cells under <i>in vivo</i> -like conditions	139
6	The AC02:CS ratio in melanoma as a predictor of lowering lactate production in response to DCA	171
7	General discussion	239
Appendices	Summary	252
	Samenvatting	256
	Acknowledgements	260
	Curriculum Vitae	266
	List of publications	268
