А 45 Латинско-английский и англо-латинский словарь-минимум для студентов I курса ФПИГ (специальность «лечебное дело»): учебно-методическое пособие /Алексеева Г.З.; под редакцией Р.В. Кадушко. – Витебск: ВГМУ, 2014. – 49 с.

Латинско-английский и англо-латинский словарь-минимум разработан в соответствии с Типовой учебной программой по латинскому языку для студентов медицинских вузов и предназначен для студентов I курса ФПИГ (специальность «лечебное дело»), изучающих латинский язык на английском языке. Настоящий словарь-минимум составлен на основе базового учебно-методического пособия Алексеевой Г.З. «Latin in English». Он может быть использован как для аудиторной, так и для самостоятельной работы студентов.

Обсужден на заседании кафедры иностранных языков 15 ноября 2012 г., протокол №7; на заседании Профильного Совета по воспитательной и идеологической работе УО «Витебский государственный медицинский университет» 23 мая 2013 г. протокол № 4.

Утвержден и рекомендован к изданию Центральным учебно-методическим Советом непрерывного медицинского и фармацевтического образования Витебского государственного медицинского университета 15 октября 2013 г., протокол № 8.

ПРЕДИСЛОВИЕ

В настоящем словаре-минимуме содержится более одной тысячи лексических единиц. Он состоит из двух частей: латинско-английского словаря и англо-латинского словаря, в каждом из которых около 560 слов и словосочетаний.

Заглавные лексические единицы расположены в словаре-минимуме в строго алфавитном порядке. Для наиболее сложных в плане произношения лексических единиц даётся фонетическая транскрипция. Все латинские слова и словосочетания представлены в словаре-минимуме в словарной форме, что облегчает их запоминание и способствует их последующему правильному употреблению при выполнении упражнений базового учебно-методического пособия «Latin in English» (автор: Алексеева Г.З.), предназначенного для студентов ФПИГ (специальность «лечебное дело»), изучающих латинский язык на английском языке.

Значения лексических единиц отобраны по принципу частотности и соотнесены с их конкретным употреблением в упражнениях вышеназванного базового учебно-методического пособия по латинскому языку.

Все пояснения, содержащиеся в словаре-минимуме, заключены в круглые скобки.

Предлагаемый латинско-английский и англо-латинский словарь-минимум может быть использован как для аудиторной, так и для самостоятельной работы студентов, изучающих латинский язык в медицинском вузе на английском языке.
