PERMISSION TO USE

In presenting this thesis in partial fulfillment of the requirement for Ph.D degree from Universiti Utara Malaysia, I agree that Universiti Library may make it freely available for inspection. I further agree that permission fo the copying of this thesis in any manner either in whole or in part, for scholarly purpose may be granted by my supervisor or in her absence, by the Dean, Ghazali Shafie Graduate School of Government, College of Law, Government and International Studies (UUM COLGIS). It is understood that any copying or publication or use of this thesis or parts there of for financial gain shall not be allowed without my written permission. It is also understood that due recognition shall be given to me and to Universiti Utara Malaysia for any scholarly use which may be of any material from this thesis.

Request for permission to copy or to make use of material in this thesis, in whole or in part, should be addressed to:

Dean (Ghazali Shafie Graduate School of Government)

UUM College of Law, Government and International Studies (UUM COLGIS)

ABSTRACT

The well-being of the fishing community has become one of the important agendas in the development of each country due to the poverty faced by this group. Therefore, this study aims to explore poverty among coastal fishermen in Surabaya as a whole. This study also identifies the contributing factors to poverty amongst coastal fishermen in Surabaya. Coping strategies and livelihood outcomes through the Social Safety Net amongst this group were also identified in the study. Poverty theory was used to answer the objectives of this study highlighted by Bradshaw (2006). While the approach by Moser (1998) and Haidar (2009) is also used in the implementation of coping strategies and livelihood outcomes of this group. Moreover, this research used a qualitative method with primary data collected from interviews and observations, and secondary data obtained from documentation and documentary reviews. Data were analyzed using thematic analysis based on theoretical paradigms and previous models. The results showed that the main factors that contributed to coastal fishermen's poverty in Surabaya City are politics, economics, and social conditions followed by natural factors, individual deficiency, the dependency between *juragan* and fishermen, and cultural factor. Meanwhile, the novelty of this thesis is that the dependency relationship between middle-man (*juragan*) and fishermen is mutually beneficial although middle-man (*juragan*) still gets benefits from the fishermen. Nevertheless, this research found that to face the difficulties of life, coastal fishermen in Surabaya City owe money to their neighbors, relatives and middle-man (*juragan*) as a coping strategy. Moreover, this research found that SSN has increased coastal fishermen's livelihood in Surabaya that includes increasing food supply (SSN-food aid), increasing income, education (SSN-education), and health (SSN-health). But the major problem of the SSN was only a few fishermen benefited from it. Therefore, this research provided recommendations to improve the human capital of fishermen by providing education and training, protect fishermen fishing area from the policy, strict environmental law enforcement, create partnerships between the government and middle-man (*juragan*) in terms of marketing fishes and increasing the number of SSN beneficiaries.

Key Words: Poverty, Coastal fishermen, coping strategy, livelihood asset, livelihood outcome, Surabaya City

ABSTRAK

Kesejahteraan kehidupan masyarakat nelayan menjadi salah satu agenda penting di dalam pembangunan setiap negara akibat kemiskinan yang dihadapi oleh golongan ini. Lantaran itu, kajian ini bertujuan untuk meneroka kemiskinan di kalangan nelayan pesisir pantai di Kota Surabaya secara keseluruhannya. Kajian ini juga turut mengenalpasti faktor penyumbang kepada kemiskinan di kalangan nelayan pesisir pantai di Kota Surabaya. Strategi berdaya tahan dan hasil kehidupan melalui Jaringan Keselamatan Sosial (*Social Safety Net*) di kalangan golongan ini turut dikenalpasti di alam kajian ini. Teori kemiskinan digunakan untuk menjawab objektif kajian ini yang ketengahkan oleh Bradshaw (2006). Manakala pendekatan oleh Moser (1998) dan Haidar (2009) turut digunakan dalam perlaksanaan strategi berdaya tahan dan hasil kehidupan golongan ini. Kajian ini menggunakan kaedah kualitatif melalui data primer yang dikumpulkan dari temubual dan pemerhatian. Manakala data sekunder diperoleh daripada dokumen awam dan ulasan dokumentari. Data dianalisis dengan menggunakan analisis tematik berdasarkan paradigma teori dan model terdahulu. Hasil kajian menunjukkan faktor utama yang menyumbang kepada kemiskinan nelayan pesisir pantai di Kota Surabaya adalah politik, ekonomi, dan sosial diikuti oleh faktor alam, kekurangan diri, pergantungan kepada orang tengah (juragan) dan faktor budaya. Sementara itu, sumbangan kajian ini dapat dilihat melalui hubungan kebergantungan antara orang tengah (juragan) dan nelayan saling bermanfaat walaupun orang tengah (juragan) mendapat keuntungan dari nelayan. Kajian ini turut mendapati dalam menghadapi kesukaran hidup, nelayan pesisir pantai di Kota Surabaya berhutang wang kepada jiran mereka, saudara dan orang tengah (juragan) sebagai salah satu strategi berdaya tahan. Kajian ini juga turut mendapati bahawa SSN telah berupaya meningkatkan kehidupan nelayan pesisir pantai di Surabaya melalui bantuan makanan (SSN-makanan bantuan), meningkatkan hasil pendapatan, pendidikan (SSN-pendidikan) dan kesihatan (SSN-kesihatan). Namun demikian, hanya sebilangan kecil nelayan mendapat manfaat daripadanya. Oleh itu, kajian ini turut memberi cadangan untuk mempertingkatkan kehidupan golongan nelayan melalui pembangunan modal insan (pendidikan dan latihan), melindungi kawasan nelayan nelayan dari sisi dasar, penguatkuasaan undang-undang alam sekitar yang ketat, mewujudkan perkongsian antara pemerintah dan orang tengah (juragan) dari segi pemasaran ikan dan mengemaskini jumlah penerima SSN dari masa ke masa.

Kata Kunci: Kemiskinan, nelayan pesisir pantai, strategi berdaya tahan, aset kehidupan, hasil kehidupan, Kota Surabaya

ACKNOWLEDGEMENT

My first gratitude I owe to Almighty Allah (SWT) for giving me everything that I need throughout my study period. Also, my gratitude go to my best supervisors Assoc. Prof. Dr. Ahmad Zubir bin Ibrahim and Assoc. Prof. Dr. Zawiyah binti Mohd. Zain who helps me to finish my Ph.D. Assoc. Prof. Dr. Ahmad Zubir bin Ibrahim who gives amazing supervision by guiding and supporting me from beginning until the end, in both easy and difficult time. I am also grateful to Assoc. Prof. Dr. Zawiyah binti Mohd. Zain who has been guiding me in qualitative research. May God bless you. I am also greatly indebted to my examiners for evaluation and instructive guidance.

My appreciation goes to my research informants who really helped me in this study. Many thanks also go to my Rector of Hang Tuah University, Surabaya, Indonesia, Vice Rector, Human Resources Department (Mr. Nurul Rosana), my Dean (Dr. Edi Suhardono), and faculty members: Prof. Lilik, Prof. Moher, Dr. Agus, Dr. Ambar, Mr. Herman, Mr. Winarto, Mrs. Rini, Mrs. Luna, Mrs. Hambalah, Mr. Husni, Mr. Wildan, Mr. Yanda, Mr. Yus, Mr. Sapta, Mr. Bambang, Mrs. Shofa, who always cared and supported my study.

Finally, I wish to express special thanks to my Nigerian special friend, Ahmad Haruna Abubakar who had always be me, supported me in every minute, every second during my time in UUM. Special thanks to my Algerian roommate, Rima who has been caring of me during in Maybank hostel; my Nigerian neighbors: Abdullah family; Bamskid; my Indonesia friends: Miss. Ika, Miss. Asna, Miss. Lidya, Mr. Adi, and my groups (HAPPI, HI-ers, Post Graduate Indonesia, PPI Indo, SMASA) who always supporting me and making me not feeling lonely during in UUM. As we know that completing Ph.D is not easy, but it will be difficult without each of You I mentioned above. May Allah always bless every one of You.

DEDICATION

I dedicate this work to my late father, Sukadi Hadi Pranoto, my late mother, Yatini Wahyu Nurdadjani. Also, I dedicate my work to my late brother, Eko Hari Satrianto who had been giving me truly love and caring for his entire life. May Almighty Allah grant them Jannatul Firdausi.

Also to my beloved son, Naradipa Putra H who always patiently waiting for me to come back home. He always give highest spirit to do every single step in my life.

To all of You: all my relatives who have supported to me.

Finally, I dedicate all of this process and result to Allah who gives me soul, breath and spirit.

CHAPTER ONE

INTRODUCTION

1.1. Background

Poverty still remain a subject of importance today to be studied. Many countries around the world are still dealing with poverty in the development process. They are trying to reduce the poverty rate which is part of government responsibility. For example, in 2015, the poverty rate decrease by 47% in developing countries compared to 25 years earlier in 1990 (from 1.9 billion people to 836 million). In 2015, only 14% of the population from developing countries earn less than USD. 1.25 per day (World Health Organization/WHO, 2015a).

The decline in poverty rate in developing countries is due to the development of poverty reduction programs introduced by China and India through the growth of labour-intensive sectors and the Social Safety Net (SSN) program established by their respective government. Despite the decline in poverty rates over the last 25 years which is quite large but still one from seven people from developing countries are living below USD. 1.25 or IDR. 17.500. India accounts for 30% of the world extreme poverty while more than 40% is contributed by sub-Saharan Africa countries (WHO, 2015a).

Interview Guide

Ghazali Shafie,
Graduate School of Government
Universiti Utara Malaysia
Sintok-Kedah Darul Aman,
Malaysia
PH. (+60) 928 71
E.mail: gsgsg@uum.edu.my

I am, Dewi Casmiwati, a Ph.D Student at School of Government, College of Law, Government and International Studies, Universiti Utara Malaysia is conducting the Research with Title: "**Analysis of Poverty Amongst Coastal Fishermen in Surabaya City, Indonesia**".

This Interview Guide aims to gather the data needed for my Thesis. The objective is to collect data on poverty in the coastal fishermen in Surabaya City, so that it can explore the contributes of poverty, assets they owned, and coping strategies undertaken by them as well as Social Safety Net and livelihood outcome of SSN applied to fishermen.

I will appreciate if you obligate to support my research by providing the information and data refer to the questions. This study is purely for academic purposes and all information or data will be kept confidentially and exclusively. Thank you most sincerely for your time and cooperation.

Your sincerely,
Dewi Casmiwati
Ph.D Student
Ghazali Shafie Graduate School of Government
Universiti Utara Malaysia
06010 Sintok, Kedah, Malaysia
Ph. +62 81 230 901 801; +60 1157 657302
