1981 / 1984

Pursuant to article 1 of the Convention signed in Paris on 14th December, 1960, and which came into force on 30th September, 1961, the Organisation for Economic Co-operation and Development (OECD) shall promote policies designed:

- to achieve the highest sustainable economic growth and employment and a rising standard of living in Member countries, while maintaining financial stability, and thus to contribute to the development of the world economy;
- to contribute to sound economic expansion in Member as well as non-member countries in the process of economic development; and
- to contribute to the expansion of world trade on a multilateral, non-discriminatory basis in accordance with international obligations.

The Signatories of the Convention on the OECD are Austria, Belgium, Canada, Denmark, France, the Federal Republic of Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The following countries acceded subsequently to this Convention (the dates are those on which the instruments of accession were deposited): Japan (28th April, 1964), Finland (28th January, 1969), Australia (7th June, 1971) and New Zealand (29th May, 1973).

The Socialist Federal Republic of Yugoslavia takes part in certain work of the OECD (agreement of 28th October, 1961).

En vertu de l'article 1er de la Convention signée le 14 décembre 1960, à Paris, et entrée en vigueur le 30 septembre 1961, l'Organisation de Coopération et de Développement Économiques (OCDE) a pour objectif de promouvoir des politiques visant :

- à réaliser la plus forte expansion de l'économie et de l'emploi et une progression du niveau de vie dans les pays Membres, tout en maintenant la stabilité financière, et à contribuer ainsi au développement de l'économie mondiale ;
- à contribuer à une saine expansion économique dans les pays Membres, ainsi que non membres, en voie de développement économique ;
- à contribuer à l'expansion du commerce mondial sur une base multilatérale et non discriminatoire conformément aux obligations internationales.

Les signataires de la Convention relative à l'OCDE sont : la République Fédérale d'Allemagne, l'Autriche, la Belgique, le Canada, le Danemark, l'Espagne, les États-Unis, la France, la Grèce, l'Irlande, l'Islande, l'Italie, le Luxembourg, la Norvège, les Pays-Bas, le Portugal, le Royaume-Uni, la Suède, la Suisse et la Turquie. Les pays suivants ont adhéré ultérieurement à cette Convention (les dates sont celles du dépôt des instruments d'adhésion) : le Japon (28 avril 1964), la Finlande (28 janvier 1969), l'Australie (7 juin 1971) et la Nouvelle-Zélande (29 mai 1973).

La République socialiste fédérative de Yougoslavie prend part à certains travaux de l'OCDE (accord du 28 octobre 1961).

Definitions of Concepts Used in This Report	280	Définitions des concepts utilisés dans ce rapport
---	-----	-----------	---

Notes: The symbol in the tables:

- "—" (or a blank space) means nil, not available or not applicable.
- "0.0" less than half the smallest unit shown.
- ". ." the sum of the components is not shown because it is incomplete.

Notes : Signification des signes utilisés dans les tableaux :

- «—» (ou un espace blanc) signifie néant, non disponible ou non applicable ;
- «0.0» moins de la moitié du plus petit chiffre indiqué ;
- «. . » la somme des composantes étant incomplète, aucun chiffre n'est donné.

INTRODUCTION

1. This report, the sixth presenting the volume and sources of the external financial resources provided to individual developing countries and territories contains detailed data on the geographical distribution of:

- Net and gross disbursements,
- Commitments and
- Terms

for over 100 developing countries for 1981, 1982, 1983 and 1984 with background economic data to provide perspective in interpreting the resource flow information for each country. The aim has been to achieve, within the compass of two pages, a comprehensive presentation of the external financing of each country shown.

2. The data show the transactions of each recipient country with¹:

- i) DAC Member countries (individually or as a group);
- ii) Multilateral agencies (individually or as a group);
- iii) Members of the Organisation of Petroleum Exporting Countries (OPEC) as a group, and of the Members of the Council for Mutual Economic Assistance (CMEA) as a group.

The Member countries of the OECD Development Assistance Committee for which data are presented are: Australia, Austria, Belgium, Canada, Denmark, Finland, France, the Federal Republic of Germany, Italy, Japan, the Netherlands, New Zealand, Norway, Sweden, Switzerland, the United Kingdom and the United States. Data for the Commission of the European Communities, which is also a Member of the DAC, are included under "multilateral agencies". A further separate line (EEC + Members) gives the data for flows from the EEC as an institution and its DAC Member countries combined. The data on financial flows from multilateral sources cover the World Bank, the International Finance Corporation (IFC), the International Development Association (IDA), the Inter-American Development Bank (IDB), the African Development Bank (AfDB), the African Development Fund (AfDF), the Asian Development Bank (AsDB), the Caribbean Development Bank (CarDB), the International Fund for Agricultural Development (IFAD), and the Social Loans programme of the European Resettlement Fund. Financial flows from Arab/OPEC financed multilateral agencies, shown as a group, cover: the Arab Bank for Economic Development in Africa (BADEA), the Arab Fund for Economic and Social Development (AFESD), the Islamic Development Bank, the OPEC Fund for

International Development (OFID), the Arab Authority for Agricultural Investment and Development (AAAID), the Arab Fund for Technical Assistance to African and Arab Countries (AF-TAAAC), the Gulf Organisation for the Development of Egypt (GODE) and the Islamic Solidarity Fund. The Technical Assistance and Relief Agencies of the United Nations cover mainly the following programmes or agencies: the United Nations regular programme of Technical Assistance (UNTA), the United Nations Development Programme (UNDP), the United Nations High Commissioner for Refugees (UNHCR), the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA), the United Nations Children's Fund (UNICEF) and the World Food Programme (WFP). Financial Flows from OPEC Members are shown as a combined total for the following countries: Algeria, Iran, Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia, the United Arab Emirates and Venezuela². Flows from CMEA countries are shown as a combined total covering Bulgaria, Czechoslovakia, the German Democratic Republic, Hungary, Poland, Romania and the USSR.

3. The figures on changes in bank sector claims, given for information (see Annex paragraph A16), are for countries reporting to the Bank for International Settlements³ and the affiliates in offshore centres of banks resident in these countries. The 1984 figures are derived from data reported on a consolidated balance sheet basis i.e. including the claims of parent banks in a reporting country and of their branches worldwide, but excluding claims between different offices of the same bank. The figures for 1981-1983 are on a residence basis, i.e. all banks in a reporting country, including the branches in that country of parent banks resident elsewhere. In principle, this gives the same coverage, but methodological differences in the focus of recording mean that comparability between the 1981-1983 data and those for 1984 may be impaired. (See also paragraph A16 in Annex).

Sources of Data

4. DAC bilateral flow figures are based on replies from Member countries to questionnaires issued by the OECD Secretariat. The data on multilateral flows are compiled from published reports of the agencies concerned, supplemented by additional information received directly from them. The bilateral aid figures for OPEC Member countries are based on information provided by the Ministries of Finance of Kuwait, Saudi Arabia, United Arab Emirates, the Abu Dhabi Fund for Arab Economic Development, the Kuwait Fund for Arab Economic Development, the Saudi Fund for Development, the General Board for the South

and Arabian Gulf and the Venezuelan Investment Fund. The remaining data are based on secondary sources and OECD Secretariat estimates. The data for OPEC and CMEA countries have been classified and processed as far as possible according to DAC norms and definitions⁴.

The data shown for GNP and related indicators in Section C were provided by IBRD specifically for the purpose of inclusion in the present report, and are the latest available at the time of going to press. They therefore include some provisional or preliminary estimates, especially for 1984 and, to a limited extent, 1983.

Comprehensiveness

5. The resource flow data shown are based on records that are comprehensive for the majority of the individual categories shown. The omissions are essentially as follows:

- i) Flows from countries that are neither developing countries nor members of the DAC (e.g., Luxembourg and South Africa);
- ii) Net flows from CMEA countries;
- iii) Private sector flows from OPEC countries;
- iv) Only limited data are available on intra-LDC flows.

6. For developing countries combined, the net balance of payments effect of iii) and iv) is nil, since inflows to one country are outflows of another. As regards iv) it could be misleading, for an individual recipient country, to show the incomplete figure corresponding to the data collected, since it would inevitably be treated as if it were the true total. The decision was taken to not show a country's receipts from other developing countries, except for ODA and OOF from OPEC countries, until a satisfactory level of coverage has been achieved.

Unallocated Amounts

7. A figure that is a comprehensive total reported by a source may include a substantial "geographically unallocated" component. Administrative costs, which are virtually all incurred on the territory of the donor country, are an example. They are excluded from the totals in Section A, and of course do not appear in the data for individual recipients in Section B, where, however, they are included under "unallocated" in the table for "all recipients combined". For the amounts involved, see any recent issue of the DAC Chairman's Annual Report. A further portion of the amounts reported to DAC as geographically unallocated is properly classified thus e.g., amounts spent in the donor country on research performed for the benefit of developing countries (e.g., tropical diseases). Another portion reflects defective data collection procedures. The major part however stems from the effect of confidentiality restrictions in preventing a reporting country from disclosing the name of a partner country. For ODA and official sector transactions by DAC Members and multilateral organisations, geographically unallocated amounts are too small in aggregate to cause a substantial understatement of the figure for a given recipient country. However, the large amount of OPEC ODA which is unallocated⁵ and the incomplete coverage of bilateral non-concessional flows from OPEC donor countries can involve serious distortion for some recipient countries. For certain categories of private sector

flows, in particular private investment, there is a risk that the understatement of a given country's net inflow may be fairly large. This is true of:

- a) Countries hosting investment in the oil sector;
- b) Countries whose investment inflows are derived in large part from source countries whose reporting includes large amounts not allocated by country. These source countries include in particular Canada, Denmark, Finland, New Zealand, Sweden and Switzerland.

PRESENTATION

8. The report consists of three sections:

Section A

9. This section contains eight tables covering the period 1978 to 1984. The first six tables show the receipts of each developing country or territory, including entities not shown separately in Section 8, from DAC countries combined and, all sources combined, respectively, of:

- i) Official Development Assistance: net disbursements;
- ii) Official Development Assistance: commitments;
- iii) Total resource flows: net disbursements.

The last two show the receipts of each developing country, from multilateral agencies combined, of net disbursements of Concessional Assistance ("multilateral ODA") and total net disbursements.

Each table in this section contains a recapitulation of the resource receipts of selected developing country groups (see Annex, paragraph A19). These data are also illustrated graphically.

Section B

10. The tables in this section treat *each developing country individually*⁶ showing its resource receipts by type and by donor, with separate sub-totals for DAC Members, multilateral agencies and OPEC donors, with additional data on CMEA countries. These tables are followed by tables of identical format showing the same information for *groups of developing countries* (see Annex, paragraph A19).

Coverage

Detailed Tables for Individual Recipients by Origin of Resources

11. The layout of each country table in Section B is identical. Two pages are used for each country. They contain three panels of tables showing the following types of flow by origin⁷.

- Total receipts, net;
- Total ODA, gross and net;

- ODA commitments;
- Grants (included in ODA), of which technical cooperation grants;
- ODA loans, gross and net;
- Other Official (non-concessional) Flows (OOF), gross and net;
- Total official flows, gross and net;
- ODA loan commitments;
- Grant element of ODA loan commitments.

12. In each block within a table, flows from individual DAC Members and multilateral agencies are shown separately along with sub-totals for DAC Members and multilateral agencies, for OPEC donors combined, and for the European Economic Community and its Members combined. The data for OPEC donors are treated as comparable with the figures for DAC Members and multilateral agencies, although there are some differences in the coverage and quality of the data. Omitted from the total reached in this way are financial flows from the IMF (other than loans by the IMF Trust Fund), Member States of the Council for Mutual Economic Assistance (for which commitments and gross disbursements data are however shown separately in the top right hand blocks: see "Main Aggregates" below), other developing countries, and grants by private voluntary agencies. Loans by banks resident in each DAC Member country are included indistinguishably in the "Total Receipts Net" block. The amount thus included for DAC Members combined, falls short of the memorandum figure under "Main Aggregates" shown for "bank sector loans" by the amount of lending out of "offshore centres" and certain other adjustments (see paragraph A16 in Annex).

Main Aggregates

13. Further data for each recipient country are shown for a number of resource flow aggregates, for which detailed information by source is not given in the other blocks of the table. The aggregates have been chosen so as to complete the picture for the country concerned, in terms of the analytical and policy uses of the figures. The additional data cover the main classes of private sector transactions of DAC Member country residents, the commitments by the official sector of (ODA + OOF), the terms of ODA commitments from DAC Members combined and from all sources, and gross disbursements and commitments by CMEA countries as a group.

Section C: Economic Indicators

14. Data are given for four indicators:

- Gross National Product, at current prices and exchange rates;
- GNP per capita, World Bank Atlas Basis;
- Population;
- Real GNP per capita (index 1977 = 100).

They are given for use in conjunction with the financial flow statistics in Sections A and B. The data relate to the years 1978 to 1984 or the latest year available. The format is identical to that of Section A.

15. All four indicators are as defined by IBRD, the source of the figures (see paragraph 4 above), and to whose publications the reader is referred. In certain instances, the totals or indices given for groups of countries include OECD Secretariat estimates up to 1983, although these estimates are not shown for the individual country or territory concerned. The volume of information for 1984 was too limited to justify presenting data for groups for that year.

16. The product of the population and GNP per capita figures (IBRD World Atlas Basis) usually differs from the figure for GNP in current prices. The latter is estimated by converting GNP in national currency to US dollars at the current average exchange rate and is, therefore, in the same units as the financial flow data in the body of the table. By contrast, the figures for GNP per capita in US dollars in the World Atlas are estimated by converting national currency GNP in constant (1981/83) prices to US dollars at the average exchange rate for 1981 to 1983. The result of this computation is rebased using the change in the GNP price deflator for the USA between the base period and the year of reference, and divided by the population estimate to obtain GNP per capita. The figure thus reached is the best that can be constructed, given available information, for purposes of ranking countries by per capita income level, but it is not comparable with the ostensibly similar figure derived by converting per capita GNP at current prices to US dollars at the current exchange rate. Population data are mid-year estimates.

Concepts and Interpretation of Data

17. A note on the main concepts used in this report and remarks on specific particularities of the data will be found at the end of the volume.

Timing of Reporting

18. National data were supplied by Members up to 31st October 1985.

N.B. It is recalled that the DAC list of developing countries and territories is designed for statistical purposes, not as guidance for eligibility for aid or other preferential treatment. The names or geographical classification of countries or territories shown in the publication should be construed as having strictly geographical or functional meaning and do not have political implications or imply any expression of view regarding juridical status. The designation "developing countries" is used as a generic term in its own right covering both "countries" and "territories" and does not carry any special meaning as to the political or legal classification of the recipients concerned.

NOTES AND REFERENCES

1. Additional aggregate data can be found in the annual report of the Chairman of the DAC "Development Co-operation Efforts and Policies of Members of the Development Assistance Committee, 1985 Review".
2. Ecuador, Gabon and Indonesia, also OPEC Member countries, provided no bilateral assistance in the period 1981-1984.
3. All DAC countries except Australia, Finland, New Zealand and Norway.
4. See Annex: Definition of Concepts used in this Report.
5. Up to 33 per cent of OPEC bilateral aid is unallocated, depending on the year.
6. The reader will find in Section A the main aggregates for countries not shown individually in Section B.
7. A French translation of certain terms is given in the fold-out at rear.

INTRODUCTION

1. Le présent rapport, sixième d'une série consacrée au volume et à l'origine des ressources financières extérieures reçues par les pays et territoires en développement, fournit des données détaillées sur la répartition géographique

- des versements bruts et nets,
- des engagements et
- des conditions de financement

pour chacun de plus d'une centaine de pays et territoires en développement en 1981, 1982, 1983 et 1984. Ces statistiques sont complétées par des données économiques générales permettant d'interpréter les informations sur les apports de ressources à chaque pays dans une perspective plus large. L'objet du rapport est de dépendre, par le biais d'une présentation synthétique en deux pages, un tableau aussi complet que possible du financement externe de chacun des pays considérés.

2. Les données indiquent les opérations de chaque pays bénéficiaire avec¹ :

- i) Les pays Membres du CAD (séparément ou en groupe) ;
- ii) Les organismes multilatéraux (séparément ou en groupe) ;
- iii) Les pays de l'Organisation des pays exportateurs de pétrole (OPEP) en groupe, et les membres du Conseil d'assistance économique mutuelle (CAEM), également en groupe.

Les pays Membres du Comité d'aide au développement de l'OCDE pour lesquels des données sont présentées sont : l'Australie, l'Autriche, la Belgique, le Canada, le Danemark, les États-Unis, la Finlande, la France, l'Italie, le Japon, la Norvège, la Nouvelle-Zélande, les Pays-Bas, la République Fédérale d'Allemagne, le Royaume-Uni, la Suède et la Suisse. Les données relatives à la Commission des Communautés européennes, qui est aussi Membre du CAD, sont comprises sous la rubrique « organismes multilatéraux ». Par ailleurs, une ligne supplémentaire (CEE + Membres) présente des données sur les apports en provenance de la CEE elle-même et de ses pays Membres faisant aussi partie du CAD. Les données relatives aux apports financiers en provenance de sources multilatérales se rapportent aux organismes suivants : Banque mondiale, Société financière internationale (SFI), Association internationale du développement (IDA), Banque interaméricaine de développement (BID), Banque africaine de développement (BAfD), Fonds africain de développement (FAfD), Banque asiatique de développement (BAAsD), Banque de développement des Caraïbes (CARIBANK),

Fonds international de développement agricole (FIDA) et le programme de prêts sociaux du Fonds de rétablissement européen du Conseil de l'Europe. Les apports des organismes multilatéraux financés par les pays arabes et les pays de l'OPEP couvrent les organismes et programmes suivants : Banque arabe pour le développement économique en Afrique (BADEA), Fonds arabe pour le développement économique et social (FADES), Banque islamique de développement, Fonds de l'OPEP pour le développement international (FODI), Autorité arabe pour le développement et les investissements agricoles (AADIA), Fonds arabe d'assistance technique aux pays africains et arabes, Organisation du Golfe pour le développement de l'Égypte (OGDE) et Fonds de solidarité islamique. Les organismes d'assistance technique et de secours des Nations Unies comprennent essentiellement les programmes ou organismes suivants : programme régulier d'assistance technique de l'Organisation des Nations Unies (ATNU), Programme des Nations Unies pour le développement (PNUD), Haut Commissariat des Nations Unies pour les réfugiés (HCR), Office de secours et de travaux des Nations Unies pour les réfugiés de Palestine dans le Proche-Orient (UNRWA), Fonds des Nations Unies pour l'enfance (FISE) et Programme alimentaire mondial (PAM). Les apports de ressources financières des Membres de l'OPEP sont indiqués globalement pour les pays suivants : Algérie, Arabie saoudite, Émirats arabes unis, Irak, Iran, Koweït, Libye, Nigéria, Qatar et Venezuela². Les apports en provenance des pays Membres du CAEM sont indiqués globalement pour la Bulgarie, la Hongrie, la Pologne, la République démocratique allemande, la Roumanie, la Tchécoslovaquie et l'URSS.

3. Les chiffres relatifs à la variation des créances du secteur bancaire, indiqués pour information, concernent les pays faisant des déclarations à la Banque des règlements internationaux³ ainsi que les sociétés affiliées, établies dans des centres « offshore », de banques dont le siège se trouve dans ces pays déclarants. Les chiffres de 1984 sont calculés à partir des données notifiées sur la base d'un bilan consolidé, c'est-à-dire y compris les créances des banques mères situées dans le pays déclarant et de leurs succursales dans le monde entier, mais non compris les créances entre les différents établissements de la même banque. Les chiffres pour 1981-1983 sont établis sur la base de la résidence, c'est-à-dire qu'ils couvrent toutes les banques situées dans un pays déclarant, y compris les succursales dans ce pays de banques mères résidant ailleurs. En principe, la couverture est la même, mais certaines différences méthodologiques dans la façon de notifier les données risquent de nuire à la comparabilité entre les chiffres de 1981-1983 et ceux de 1984. Voir aussi le paragraphe A16 de l'annexe.

Sources des données

4. Les chiffres concernant les apports bilatéraux du CAD sont fondés sur les réponses fournies par les pays Membres aux questionnaires établis par le Secrétariat de l'OCDE. Les données sur les apports multilatéraux sont extraites des rapports publiés par les organismes intéressés et complétées par des informations supplémentaires communiquées directement par ces organismes. Les chiffres relatifs à l'aide bilatérale des pays Membres de l'OPEP sont fondés sur les renseignements fournis par les ministères des finances du Koweït, de l'Arabie saoudite, des Émirats arabes unis ainsi que par le Fonds d'Abu Dhabi pour le développement économique arabe, le Fonds du Koweït pour le développement économique arabe, le Fonds saoudien pour le développement, l'Administration générale pour l'Arabie du Sud et le Golfe et le Fonds d'investissement vénézuélien. Les autres chiffres ont été établis à partir de sources secondaires et d'estimations du Secrétariat de l'OCDE. Les données présentées pour les pays de l'OPEP et du CAEM ont été, dans la mesure du possible, classées et traitées conformément aux normes et définitions du CAD⁴.

Les données présentées pour le PNB ainsi que les indicateurs y afférents figurant dans la section C ont été communiquées par la BIRD expressément en vue de leur inclusion dans le présent rapport et sont les dernières disponibles au moment de l'impression. Ces données contiennent donc des estimations provisoires ou préliminaires, surtout pour 1984 et, dans une moindre mesure, pour 1983.

Couverture des données

5. Les données sur les apports de ressources sont tirées de séries qui recouvrent la quasi-totalité des opérations dans chacune des catégories présentées. Les omissions sont essentiellement les suivantes :

- i) Apports en provenance de pays qui ne sont ni des pays en développement ni des Membres du CAD (par exemple, Luxembourg et Afrique du Sud) ;
- ii) Apports nets en provenance des pays du CAEM ;
- iii) Apports privés en provenance des pays de l'OPEP ;
- iv) Seules quelques données fragmentaires sont disponibles sur les flux de ressources entre pays en développement.

6. Pour l'ensemble des pays en développement, les deux dernières catégories (iii) et iv) s'annulent au niveau de la balance des paiements, puisque le montant des apports à un pays correspond à des sorties pour le pays partenaire. S'agissant du point iv), aucun chiffre n'est indiqué pour un pays bénéficiaire donné car, les renseignements disponibles étant incomplets, ce chiffre, s'il était présenté, risquerait d'être retenu comme correspondant au vrai total. La décision a donc été prise d'omettre tous les apports de ressources en provenance d'autres pays en développement, à l'exception de l'APD et des AASP en provenance des pays de l'OPEP, jusqu'à ce qu'un niveau satisfaisant de couverture ait été atteint.

Montants non ventilés

7. Un total notifié par une source peut comprendre une composante parfois importante d'apports « non ventilés sur le

plan géographique ». La quasi-totalité des dépenses administratives interviennent, par exemple, sur le territoire du pays donneur. Ces dépenses sont exclues des totaux dans la section A et ne figurent pas, bien entendu, dans les données par pays bénéficiaire de la section B où, toutefois, elles sont englobées dans le montant « non ventilé », présenté pour « l'ensemble des bénéficiaires ». Pour plus de précisions sur le montant des dépenses administratives, on peut consulter un des rapports annuels récents du Président du CAD. Une autre partie des montants notifiés au CAD sous la rubrique « non ventilés sur le plan géographique » appartient effectivement à cette catégorie. C'est le cas, notamment, des dépenses encourues dans le pays donneur au titre de la recherche effectuée au profit d'un ensemble de pays en développement (maladies tropicales, par exemple). Une autre partie tient à des méthodes de collecte défectueuses. Cependant, la partie la plus importante des montants inscrits dans la catégorie « non ventilés sur le plan géographique » s'y trouve en raison des règles en matière de confidentialité qui empêchent un pays déclarant de révéler le nom du pays partenaire pour certains types d'opérations. Pour l'APD et les autres opérations entreprises par le secteur public des pays du CAD et par les organismes multilatéraux, les montants qui ne font pas l'objet d'une répartition géographique sont trop peu importants dans l'ensemble pour entraîner une sous-estimation significative du chiffre relatif à un pays bénéficiaire donné. Toutefois, les montants importants non ventilés d'APD des pays de l'OPEP⁵ et la couverture variable des apports bilatéraux de ressources assorties de conditions non libérales en provenance de pays donateurs de l'OPEP peuvent se traduire par une distorsion importante pour certains pays bénéficiaires. Pour certaines catégories d'apports du secteur privé, en particulier l'investissement privé, la sous-estimation de l'apport net reçu par un pays donné peut être assez importante. C'est surtout le cas :

- a) Des pays où des investissements sont effectués dans le secteur pétrolier ;
- b) Des pays pour lesquels une partie importante des apports reçus sous forme d'investissements provient de pays dont les notifications comprennent d'importants montants non ventilés par pays. Dans cette dernière catégorie se trouvent en particulier le Canada, le Danemark, la Finlande, la Nouvelle-Zélande, la Suède et la Suisse.

PRÉSENTATION

8. Le rapport comprend trois sections :

Section A

9. Cette section contient huit tableaux couvrant la période 1978 à 1984. Les six premiers indiquent pour chaque pays ou territoire en développement, y compris ceux qui ne font pas l'objet d'une page à part dans la section B :

- i) L'aide publique au développement : versements nets ;
- ii) L'aide publique au développement : engagements ;

- iii) Les apports totaux de ressources : versements nets,

en provenance, d'une part, de l'ensemble des pays du CAD, et d'autre part de l'ensemble des sources.

Les deux tableaux suivants présentent, pour chaque bénéficiaire, le montant en provenance des organismes multilatéraux des versements nets d'aide à des conditions libérales (« APD multilatérale ») et des versements nets totaux.

Chaque tableau de cette section présente un état récapitulatif des ressources reçues par différents groupes de pays en développement (voir Annexe, paragraphe A19). Ces données font aussi l'objet d'une présentation graphique.

Section B

10. Les tableaux de cette section concernent *chacun un seul pays en développement*⁶ et indiquent les ressources qu'il a reçues, ventilées par types et par donneurs, avec des sous-totaux pour les Membres du CAD, les organismes multilatéraux et les donneurs de l'OPEP, ainsi que des données sur les pays du CAEM. Les tableaux par pays sont complétés par des tableaux de même format présentant les mêmes informations pour certains *groupes de pays en développement* (voir Annexe, paragraphe A19).

Couverture

Tableaux détaillés présentant pour les différents pays bénéficiaires les ressources reçues, ventilées par origine

11. La présentation des tableaux dans la section B est normalisée. Deux pages sont utilisées pour chaque pays. Elles contiennent chacune trois panneaux dans lesquels sont ventilées les catégories suivantes d'apports par origine :

- Recettes totales, nettes ;
- APD totale, montants bruts et nets ;
- Engagements d'APD ;
- Dons (inclus dans l'APD), dont les dons au titre de la coopération technique ;
- Prêts d'APD, montants bruts et nets ;
- Autres apports du secteur public (AASP) (aux conditions du marché), bruts et nets ;
- Apports totaux du secteur public, bruts et nets ;
- Prêts d'APD, engagements ;
- Élément de libéralité des engagements de prêts d'APD.

12. Dans chacun des pavés d'un tableau, les apports des différents Membres du CAD et des institutions multilatérales sont indiqués séparément, avec des sous-totaux concernant respectivement l'ensemble des Membres du CAD, l'ensemble des organismes multilatéraux, l'ensemble des Membres de l'OPEP, et la Communauté économique européenne et ses membres en tant que groupe. On a considéré que les données relatives aux donneurs de l'OPEP sont comparables à celles concernant les Membres du CAD et les organismes multilatéraux, bien que leur couverture et leur qualité soient quelque peu différentes. Le montant total obtenu de cette façon ne comprend ni les apports financiers en provenance du FMI (à part les prêts du Fonds fiduciaire), ni ceux des États membres du Conseil d'assistance économique mutuelle (pour lesquels, toutefois, les

données relatives aux engagements et versements bruts sont présentées dans le pavé du haut à droite : voir « Principaux agrégats » ci-dessous), ni les apports d'autres pays en développement, ni les dons des organismes privés bénévoles. Les prêts consentis par les banques ayant leur siège dans chaque pays Membre du CAD sont inclus indistinctement dans les données du pavé « Recettes totales, nettes ». Le montant ainsi inclus pour l'ensemble des Membres du CAD est inférieur aux chiffres présentés pour mémoire dans le pavé « Principaux agrégats », concernant les prêts du secteur bancaire ; la différence correspondant aux prêts bancaires consentis à partir des centres offshore et à certains autres ajustements (voir paragraphe A16 de l'annexe).

Principaux agrégats

13. Sous cette rubrique figurent, pour chaque pays étudié, des renseignements supplémentaires sur certaines catégories d'apports de ressources qui ne sont pas ventilées en détail dans les autres pavés. Les agrégats ont été choisis de manière à compléter les renseignements relatifs aux différents pays, dans la perspective de l'utilisation des données à des fins analytiques ou ayant trait aux mesures à prendre. Les données supplémentaires concernent les principaux types d'opérations entreprises par des résidents des pays Membres du CAD relevant du secteur privé ; les engagements (APD + AASP) souscrits par le secteur public ; les conditions dont sont assortis les engagements d'APD souscrits soit par l'ensemble des Membres du CAD, soit par l'ensemble des sources d'aide, et les versements bruts et engagements des pays du CAEM en tant que groupe.

Section C : Indicateurs économiques

14. Des données sont indiquées pour quatre indicateurs :

- Produit national brut, aux prix et taux de change courants ;
- PNB par habitant, sur la base de l'Atlas de la Banque mondiale ;
- Population ;
- PNB réel par habitant (indice 1977 = 100).

Elles peuvent être rapprochées des statistiques sur les apports financiers figurant dans les sections A et B. Elles portent sur les années 1978 à 1984, ou la dernière année disponible. La présentation est identique à celle de la section A.

15. Ces quatre indicateurs sont calculés conformément aux définitions de la BIRD, qui est la source des données (voir paragraphe 4 ci-dessus), et aux publications de laquelle le lecteur pourra utilement se référer. Dans certains cas, les totaux ou indices présentés pour des groupes de pays pour 1982 et les années antérieures contiennent des estimations du Secrétariat, qui ne sont toutefois pas indiquées pour chaque pays ou territoire. Le volume des informations statistiques relatives à 1984 était trop limité pour justifier la présentation de données pour cette dernière année au niveau des groupes.

16. Le chiffre obtenu en multipliant la population par le PNB par habitant, tiré de l'Atlas de la Banque mondiale, diffère généralement du chiffre du PNB aux prix courants. Ce dernier est calculé en convertissant en dollars des États-Unis, au taux de change moyen courant, le PNB exprimé en monnaie nationale ; il

est donc exprimé dans la même unité que les données sur les apports financiers qui figurent dans les autres pavés du tableau. En revanche, les chiffres du PNB par habitant, en dollars des États-Unis, présentés dans l'Atlas sont estimés en convertissant en dollars des États-Unis, au taux de change moyen de la période 1981/83, le PNB exprimé en monnaie nationale et en prix constants de la période. Le résultat de ce calcul est exprimé aux prix de l'année de référence au moyen de la variation de l'indice implicite des prix du PNB observée aux États-Unis entre la période de base et l'année de référence. Il est ensuite divisé par le nombre estimé d'habitants, donnant ainsi le PNB par tête présenté dans les tableaux. Le chiffre final obtenu est le meilleur que l'on puisse calculer actuellement avec les informations disponibles, si l'on souhaite classer les pays en fonction des niveaux de revenu par habitant. Mais il n'est pas comparable aux chiffres, à première vue analogues, que l'on obtient en conver-

tissant en dollars des États-Unis, au taux de change courant, le PNB par habitant aux prix courants. Les données relatives à la population sont des estimations se rapportant à la situation en milieu d'année.

Concepts et interprétation des données

17. On trouvera en fin de volume une note récapitulant les principaux concepts utilisés, ainsi que des remarques portant sur des aspects particuliers des données contenues dans le rapport.

Date de notification

18. Les données nationales ont été fournies par les Membres jusqu'au 31 octobre 1985.

NOTES ET RÉFÉRENCES

1. On trouvera d'autres données agrégées dans le rapport annuel du Président du CAD «Coopération pour le développement – Efforts et politiques poursuivies par les Membres du Comité d'aide au développement, Examen 1985».
2. L'Équateur, le Gabon et l'Indonésie, qui sont aussi des pays Membres de l'OPEP, n'ont fourni aucune aide bilatérale au cours de la période 1981-1984.
3. Tous les pays du CAD, à l'exception de l'Australie, de la Finlande, de la Nouvelle-Zélande et de la Norvège.
4. Voir Annexe : Définition des concepts utilisés dans ce rapport.
5. Jusqu'à 33 pour cent de l'aide bilatérale de l'OPEP est « non ventilée », selon les années.
6. Le lecteur trouvera dans la section A les principaux agrégats concernant des pays qui ne font pas l'objet d'une page à part dans la section B.
7. Une traduction française de certains termes est donnée sur le dépliant à la fin de la section B.

N.B. Il est rappelé que la liste des pays et territoires en développement adoptée par le CAD est destinée à des fins purement statistiques, et n'a pas pour objet d'orienter le choix des pays pouvant bénéficier d'une aide ou d'un autre traitement préférentiel. Les appellations ou le classement géographique des pays ou territoires mentionnés dans cette publication doivent être pris au sens strictement géographique ou fonctionnel ; ils n'ont aucune signification politique et ne reflètent aucune opinion sur le statut juridique desdits pays ou territoires. L'expression « pays en développement » est utilisée comme une appellation générique qui recouvre à la fois des territoires et des pays et à laquelle ne s'attache aucun sens particulier pour le classement politique ou juridique des pays en cause.

EDITORS NOTE

The following noteworthy changes have been made in this report compared with the previous edition:

- Data on debt are now available in a separate study "External Indebtedness of Developing Countries" with separate identification of claims held by banks and non-bank trade creditors, and the inclusion of data on short term debt. In addition to this annual publication the reader is also referred to the semi-annual statistical reports published jointly by the OECD and the Bank for International Settlements on the bank and trade-related external claims of BIS reporting banks and OECD Member countries, and to the annual OECD release on the debt and other external liabilities of developing CMEA and certain other countries and territories.
- Inclusion of loan disbursements by the Council of Europe "European Resettlement Fund". For technical reasons these could not be shown separately in the tables in this issue.
- The disbursements data shown for OPEC countries and the commitments data for both OPEC and CMEA countries have been revised, in some cases by significant amounts. Also included are revisions which were not available when the recently published DAC Chairman's Report went to press.
- The following deflators (Division factors) for DAC countries combined will enable the reader to make a rough adjustment of the dollar values shown in this report to correct them for, respectively, exchange rate changes against the dollar, and the combined effect of exchange rate and price changes.

	1981	1982	1983	1984
a) adjustment coefficient for exchange rate changes	115.8	105.5	100.0	94.0
b) adjustment coefficient for exchange rate and price changes (i.e. to convert to real terms)	102.8	100.4	100.0	97.8

NOTE DE L'ÉDITEUR

Les modifications suivantes sont intervenues par rapport à la publication précédente :

- Les données relatives à l'endettement sont maintenant disponibles dans une étude distincte « L'endettement externe des pays en développement », qui présente séparément les créances détenues par le secteur bancaire et les créances non bancaires au titre du commerce international, et qui fournit des données sur la dette à court terme. Outre cette étude annuelle, le lecteur consultera utilement les rapports statistiques semestriels établis conjointement par l'OCDE et la BRI « Créances extérieures bancaires et créances extérieures non bancaires liées au commerce, ventilées par pays et territoire emprunteur » ainsi que le communiqué annuel de l'OCDE sur la dette et les engagements extérieurs des pays en développement du CAEM et de certains autres pays et territoires.
- Incorporation de données relatives aux versements effectués au titre du Fonds de rétablissement du Conseil de l'Europe. Pour des raisons techniques, ces versements n'ont pu être présentés séparément dans les tableaux par pays.
- Les données relatives aux versements des pays de l'OPEP ainsi que les données relatives aux engagements des pays de l'OPEP et du CAEM ont été révisées, dans certains cas de manière importante. Sont également comprises certaines révisions qui n'étaient pas disponibles lors de la mise en impression du récent rapport annuel du Président du CAD.
- Les déflateurs suivants (facteurs de division) concernant l'ensemble des pays du CAD permettront au lecteur d'ajuster approximativement les valeurs en dollars présentées dans ce rapport pour faire la part a) des variations des taux de change par rapport au dollar, et b) de l'effet combiné des variations de taux de change et de prix.

	1981	1982	1983	1984
a) Coefficient d'ajustement pour les variations des taux de change	115.8	105.5	100.0	94.0
b) Coefficient d'ajustement pour les variations des taux de change et de prix (pour obtenir les données en termes réels)	102.8	100.4	100.0	97.8

ENQUIRY FORM FORMULAIRE D'INFORMATION

This publication is drawn from the OECD/DAC computerised data base and is available both on magnetic tape and in the form of microfiches. The full data base, which likewise is available on magnetic tape, contains annual financial flow data going back to 1969. For the period 1960 to 1968 the data are available in published form only and with no distinction between Official Development Assistance (ODA) and Other Official Flows (OOF).

Aggregate annual data by donor country and type of resource flow are discussed in the DAC Chairman's Annual Report, "Development Co-operation - Efforts and Policies of Members of the Development Assistance Committee", and presented in detail in the statistical Annex to that report. These publications are also available from OECD Sales Agents.

Detailed data of external debt and debt service, by debtor country are contained in successive OECD surveys of the "External Debt of Developing Countries".

Cette publication est tirée de la base de données informatisée OCDE/CAD, et est disponible soit sur bande magnétique, soit sous forme de microfiches. La base, qui est également disponible sur bande magnétique, contient des données annuelles sur les flux financiers remontant jusqu'en 1969. Pour la période allant de 1960 à 1968 les données ne sont disponibles que sous forme de publication, et ce, sans distinction entre l'Aide Publique au Développement (APD) et les Autres Apports du Secteur Public (AASP).

Les données agrégées par pays donneur et par type de flux sont présentées et analysées dans le rapport annuel du Président du CAD, «Coopération pour le Développement — Efforts et politiques poursuivis par les membres du Comité d'Aide au Développement», qui comporte une annexe statistique; ces publications sont également en vente chez les distributeurs agréés.

Des données détaillées de la dette et du service de la dette extérieure par pays débiteurs sont incluses dans la série de publications de l'OCDE «Endettement Extérieur des Pays en Développement».
