EDINBURG COLLEGE

Calendar for 1943-1944

FIRST SEMESTER

Applicants for admission should send a transcript of previous work to the Registrar before September 1.

September 7-8	Registration for first year students. Students whose surnames begin with the letters A-F, inclusive, will register the forenoon of September 7; those from G-0, inclusive, the afternoon of September 7; and those from P-Z, inclusive, the forenoon of September 8. Freshman tests will be given the afternoon of September 8.
September 9	Registration for second year students
September 10	Classes begin
October 16	Progress reports
November 13	Mid-semester reports
November 25-27	Thanksgiving recess
December 11	Progress reports
December 18	Christmas recess begins at 1:00 P. M.
January 3	Classes resumed
January 24-27	First semester final examinations

SECOND SEMESTER

January 29	Registration
January 31	Classes begin
February 26	Progress reports
March 25	Mid-semester reports
April 7-10	Easter recess
April 29	Progress reports
May 22-25	Second semester final examinations
May 28	Seventeenth annual commencement

EDINBURG COLLEGE

General Facts

Edinburg Junior College is a municipal college. It is operated by the Edinburg Consolidated Independent School District and serves the upper or western part of the Lower Rio Grande Valley of Texas. Work that is satisfactorily completed in the Edinburg Junior College may be transferred, with no loss of credit, to any college that accepts work done at other institutions. This means that the students of Edinburg Junior College receive the same credit that students of The University of Texas, or any similar institution, receive. During the sixteen years the College has operated, its students have made unusually good records at the senior institutions to which they have transferred to complete their college work.

The Lower Rio Grande Valley of Texas is a fertile, densely populated area about fifteen to thirty miles wide and about eighty-five miles long. It is covered with irrigated farms and citrus orchards and is one of the premier vegetable and fruit growing sections of the nation. To the north of the irrigated section are some of the largest cattle ranches in the United States. The Valley is rural-urban, having eleven towns with from 1,000 to 3,000 population, eight small cities with from 4,000 to 8,000, and four cities with from 10,000 to 30,000. The annual rainfall is twenty-two inches and the average annual temperature is 74°. From September to November the average temperature is 74°; **from December to February, inclusive, it is 61°**; and from March to May it is 74°

The buildings of the Edinburg Junior College are of modern fireproof construction and include: Administration Building, Auditorium, Science Building, and Library Building. In addition, the College utilizes the Student-Faculty Club, the Gymnasium, the Engineering Building, and other buildings and playing fields. The grounds of the College cover nine blocks in the city of Edinburg, county seat of Hidalgo County, Texas.

SUMMER SESSION

For the duration of the war, Edinburg Junior College will offer an extended summer session which will enable a student to complete 15 or 16 semester hours in one summer. By attending two summer sessions and one regular session, 60 semester hours, or the equivalent of two years of college work, may be completed in 15 months. The summer session for 1944 will begin about June 1, 1944.

- RUTH M. BENNETT, B. A., B. A. in L. S. Librarian
B. A., B. A. in L. S., University of Oklahoma
1938-1939 Librarian and English, Pryor High School, Pryor,
Oklahoma
1939-1942 Librarian, Secondary School Unit, Edinburg, Texas
1942- College Librarian, Edinburg Junior College
- * C. A. DAVIS, B. A., M. A., Ph. D. History and Economics
Superintendent of Secondary Education
B. A., North Texas State Teachers' College; M. A., University of
Wisconsin; Ph. D., University of Maryland
1915-1917; 1919-1921, Rural Schools in Texas
1922-1923 High School Principal, Olney, Texas
1923-1925 Superintendent of Schools, Olney, Texas
1925-1926 Assistant, University of Wisconsin
1926-1927 Instructor, North Dakota Agricultural College
1927-1930 Edinburg Junior College
1930-1931 Fellow, University of Maryland
1931- Edinburg Junior College
1936- (Summer) Instructor in Social Science, Texas
College of Arts and Industries
- RUTH FINGER, B. A., M. A. Mathematics
B. A., Mississippi State College for Women; M. A. University of
Mississippi
1926-1935 Mathematics, High School, Fort Myers, Florida
1935-1937 Mathematics, High School, Brookhaven, Mississippi
1937-1938 Mathematics, Jones County Junior College, Ellis-
ville, Mississippi
1941-1942 Mathematics, Mitchell College, Statesville, North
Carolina
1942- Edinburg Junior College
- H. R. GROSS, B. A., M. S. Education and Teacher-Training
Principal of Sam Houston Primary School
B. A., Trinity University; M. S., Agricultural and Mechanical
College of Texas; graduate study at The University of Texas
1925-1926 High School, Grapevine, Texas
1926-1928 A. and M. Consolidated School, College Station,
Texas
1928-1934 Superintendent, A. and M. Consolidated School,
College Station, Texas
1935- Edinburg Junior College
- * Granted leave of absence for military service, March 1943.

EDINBURG COLLEGE

- JEANNE HARRISON, B. Sc.** Art
 B. Sc., Ohio State University
 1940-1942 Art and Commerce, High School, Burton, Ohio
 1942- Edinburg Junior College
- ARCHIE HENRY** Textiles
 B. S. M. S., North Texas State Teachers' College
 1936-1939 Home Economics, Prairie Point School, Nocona, Texas
 1940-1941 Home Economics, Baker Junior High School, Austin, Texas
 1941- Edinburg Junior College
- ELLA FAY HODGES, B. A.** Shorthand and Typing
 B. A., The University of Texas; graduate study at The University of Texas

- 1931-1934 English, French, German, Texas Military College, Terrell, Texas
- 1934-1936 English, High School, Forney, Texas
- 1937- Edinburg Junior College

GENERAL INFORMATION**ADMISSION**

Certificate of Graduation. Graduates of accredited high schools who present a transcript of fifteen affiliated units will be admitted to the freshman class if at least three units are in English, two are in mathematics, and two are in social science. Students who enroll for an engineering course must present two units in algebra, one unit in plane geometry, and one-half unit in solid geometry. Those who do not present a half unit in solid geometry may remove this entrance requirement during the freshman year. Engineering students must also present one unit in high school physics or must take physics in the Edinburg High School.

The applicant for admission should send a transcript to the Registrar before September 1.

Individual Approval. A mature person who has never graduated from high school, yet who has had the equivalent in preparation or experience, may enter provisionally. Entrance conditions may be removed by subsequent examinations or by a satisfactory quality of work in the college.

Examinations. Applicants for admission who do not present credentials from accredited high schools may meet the requirements by examination. All entrance conditions must be removed before matriculation.

Advanced Standing. A student who transfers from another college may be admitted with advanced standing by evaluating his college work in terms of Edinburg Junior College standards.

CLASSIFICATION

Regular Students. A student who is registered for at least twelve semester hours is a regular student.

Special Students. A student who is registered for less than twelve hours is a special student.

Classification. Students are classified as freshmen until they complete thirty semester hours. Students who have completed twenty-four semester hours are eligible for membership in sophomore class organizations.

MARKING OF COURSE

Semester Hour. The semester hour is the measure of credit. One recitation per week, or its equivalent, for one semester of eighteen weeks is required for completion of one semester hour.

Course Numbers. The first figure of each course number indicates the year in which the course should be taken; the second figure indicates the semester in which it is ordinarily given; and the last figure indicates the number of semester hours of credit.

Independent Courses. Courses marked (i) are independent semester courses.

GRADES OR ESTIMATES OF WORK

Symbols and Interpretation

A Superior	E Condition
B Good	F Failure
C Average	W Withdrawn
D Poor (Barely passing)	U Unfinished

An E may be changed to a D by an examination taken within a year after the condition is received if the examination is passed with a grade of at least C. A grade of U is removed when requirements have been met and the change is recorded by the instructor in the registrar's office.

Honor Roll. An honor roll of all students who have made an average of B or more is published each semester.

TRANSPORTATION

One college bus will start at Mercedes and go through Weslaco, Donna, Alamo, San Juan, and Pharr. Another will start at Mission and go through Sharyland and McAllen. A third will start at Santa Rosa and go through Edcouch, Elsa, and San Carlos. For the non-resident student, bus fare is \$3.50 per month, payable in advance.

TUITION AND FEES

Paid by each regular student

For each semester

(A regular student is one registered for at least twelve semester hours)

Resident

Tuition	\$32.50
Student Fee	3.00
Loss and Breakage Deposit.....	2.50

(The Loss and Breakage Deposit is returnable after charges are deducted.)

Total tuition and fees for the regular resident student except for

laboratory, piano, voice, violin, or speech fees (for each semester) \$36.00.

Non-Resident

If the student does not have his legal home in the Edinburg Junior College District, he pays \$10.00 additional tuition each semester. This \$20.00 is approximately the per capita cost of operation and maintenance of buildings and equipment. These are furnished for residents of the College district.

Total tuition and fees for the non-resident student except for laboratory, piano, voice, violin, or speech fees (for each semester) \$48.00

Other fees (Not returnable)	For each semester
Chemistry laboratory.....	\$3.00
Biological science laboratory.....	3.00
Food laboratory	2.00
Physics laboratory	2.00
Typewriting laboratory	1.50
Zoology laboratory	3.00

Special fees	For each case
Late registration	1.00
Change in schedule	1.00
Diploma75
Cap and gown	1.50
Each transcript except the first.....	.50
Piano for practice, per month, one hour daily, Monday to Saturday noon	\$1.50 to \$5.00

Optional Fee

Cultural Arts season ticket \$3.00

(This ticket admits the student to the musical and dramatic program described under the Division of Student Life. It may be purchased only by regular college students.)

Tuition for Special Students	For each semester
Piano	\$45.00
Voice	45.00
Violin	45.00
Speech	45.00

Other College Courses

For each course of three hours, resident..... \$12.00

For each course of three hours, non-resident..... 15.00

One who pays the fee of \$45.00 is entitled to enroll without additional cost in not more than three semester hours of related work recommended by the instructor. There is no reduction for one who does not take the related work.

The fee of \$45.00 entitles one to two individual half-hour lessons a week. One half-hour lesson a week is \$30.00 for each semester.

The regular college student who wishes two half-hour private lessons a week pays \$30.00 per semester in addition to usual college tuition and other fees. For one half-hour private lesson the regular college student pays \$20.00 per semester. He is not entitled to the extra hours of related work without charge.

Payment of Fees. Tuition and fees may be paid in either of two ways:

Plan 1. The amounts shown for each semester are for cash payments in advance at the beginning of the semester.

Plan 2. All laboratory fees are paid at the beginning of the semester, in addition to the payments listed below. The schedule of payments follows:

	Residents	Non-residents
At the beginning of the first semester	\$13.00	\$17.00
October 1	13.00	16.00
November 1	13.00	17.00
At the beginning of the second semester	13.00	16.00
March 1	13.00	16.00
April 1	13.00	16.00

Refunds. The payment made at the beginning of the semester will not be refunded. No refund will be made after the last Progress Report for the semester in either semester. Refunds on deposit fees must be secured by August 1 for the preceding school year.

BOARD AND ROOM

The Student Faculty Club is open to men and women. Room, two in a room, and board, breakfast and dinner, are \$25.50 per month. Lunch is served at the cafeteria in the Administration Building.

SCHOLARSHIPS

High School Graduates. The first honor graduates of accredited high schools receive scholarships of \$50.00 for the regular resident student or of \$70.00 for the regular non-resident student if they take regular college courses and register for first year college work. Because of the provisions of a State law, second honor students are required to pay \$25 tuition for each semester and receive a scholarship that pays all tuition and fees above the

\$25 per semester. These scholarships apply on the freshman year's work only.

Sophomore Scholarships. A scholarship is awarded to the beginning student making the highest average in the freshman class of the college. The student receiving this scholarship must have no grade below B for the year. The holder pays \$25 tuition each semester and the scholarship pays all other tuition and fees.

Senior College Scholarships. Some senior colleges offer scholarships to the highest ranking man student and the highest ranking woman student of junior college graduating classes. These awards are based on grades made by regular students in the college.

REQUIREMENTS FOR GRADUATION

In order to secure a diploma from Edinburg Junior College a student must

1. Satisfy entrance requirements.
2. Be credited with ten regular college courses and a minimum of sixty semester hours of completed college work, twelve of which must be in English, six in American government, and eighteen of sophomore rank.
3. Have an average of C.
4. Complete at least the last twelve hours of the second semester of the sophomore year in Edinburg Junior College.

RATING OF EDINBURG JUNIOR COLLEGE

Edinburg Junior College is rated by the State Department of Education of Texas and by the Association of Texas Colleges as a first-class junior college. The college is a member of the Southern Association of Colleges and Secondary Schools which is the highest affiliation possible for a college. It is also a member of the American Association of Junior Colleges.

TEACHERS' CERTIFICATES

Edinburg Junior College is accredited as a teacher training institution by the State Department of Education. It offers the college courses required, at present, to obtain either the four-year or the six-year elementary certificate or the two-year or the four-year high school certificate. One must select certain courses to be eligible for a particular certificate and should have his schedule of courses checked by his registration adviser.

Extension of Certificates. Any valid temporary Texas cer-

tificate may be extended each year for one year upon the completion of six semester hours of college work in a summer session of the year in which the certificate expires.

BUILDINGS AND EQUIPMENT

The Administration Building contains the offices of the Director, Registrar, and Division Heads, as well as offices and classrooms for instructors in liberal arts.

The Science Building is used for instruction in the sciences, business administration, and home economics, and for adult and evening courses. It has laboratories, class rooms, and offices for the instructors in these divisions. The equipment in the laboratories is well adapted to the needs of instruction in accounting, art, biology, chemistry, clothing, engineering drawing, foods, physics, stenography, and zoology.

The Library has a stack room, a work room and two large reading rooms with reference books and bound magazines. About sixty magazines and newspapers are received regularly. The library contains about 9,650 volumes, about 150 volumes having been added in 1942-1943. A number of gifts have been received by the College Library. Books have been presented by Mr. J. A. La Cheur, Mr. C. K. Leslie, Jr. and by different sophomore classes as class memorials. Other graduating classes have presented a mural painting, "Alma Mater" and a pair of stained glass window panels.

In the period of 1937-1939, the Carnegie Corporation made the Edinburg Junior College Library a grant of \$45,000 for the purchase of books. In the Spring of 1938, the Carnegie Corporation also presented the College with a Junior Music Set. This Set, consisting of a player unit, speaker unit, and a carefully selected library of 625 records, has been widely used by the College and by residents of the Upper Valley area. Additional records have been added each year by the College until it is likely that few record collections in this area approach it in either quality or quantity.

The Auditorium, artistically and completely furnished, and with a seating capacity of twelve hundred, has adequate equipment for excellent staging of high-grade dramatic productions.

The Faculty-Student Club has forty rooms, a commodious living room, a spacious dining room, adequate service rooms, and six parlors and recreation rooms. The student can live in these semi-

luxurious quarters and have excellent food for \$27.50 to \$32.00 per month.

The Cafeteria, Gymnasium, Tennis Courts, and Athletic Field are convenient for students. The cafeteria on the ground floor of the Administration Building is equipped for serving 300 people. The gymnasium is a new building located on the playing field. Three tennis courts are conveniently located near the college buildings. The athletic field has six acres for a practice and playing field.

REGULATIONS

Attendance. Regular attendance is necessary for effective work. No "cuts" are allowed.

1. Illustrations of acceptable reasons for absences are
 - (a) Illness; and
 - (b) Death in the family.
2. Absences are reported daily.
3. For each absence in excess of six per cent of the total number of group meetings in each semester one-half credit hour is deducted.
4. In computing absences a tardiness is counted as one-third an absence.
5. Absences from College Assemblies will be penalized by loss of credit hours on the same basis as absences from regular classes.

Each A above a C average for any semester offsets twelve absences for the semester, and a B offsets six absences.

Department and Citizenship. College students are expected to regulate their conduct. It is more satisfactory to consult a college official if in doubt about the propriety of any proposed activity than it is to have unpleasantness arise later.

1. **Respect for Government.** Observance of all local city ordinances, state laws, and national laws is expected.
2. **The Name of the College.** Social functions of any nature held under the name of the college or any of its organizations require approval at least three days prior to the date of the entertainment.
3. **Campus.** Students who remain on the campus are expected to occupy themselves in such a way that work groups may proceed undisturbed.
4. **Smoking.** It is a college tradition that those who have

formed the habit of smoking will leave the campus for such indulgence.

In extreme cases of unworthy student citizenship college privileges will be withdrawn.

Official Clearance. A statement of credits is issued only after accounts are settled and clearance has been effected by the student.

Athletics. Edinburg Junior College is a member of the Texas Junior College Athletic Conference, and eligibility is governed by its standards. All candidates for teams must be enrolled in at least twelve semester hours of work and passing in at least nine.

Eligibility for Public Representation. In order to compete in any intercollegiate contest or to hold any student office in any college organization or to participate in any public function held under the name of the College, with the exception of purely social entertainments, a student must have secured credit in at least nine semester hours of work during the last semester he attended college, and he must be enrolled in at least twelve and passing in at least nine semester hours of work of the current semester. To be eligible to receive any award a student must, at the time the awards are made, meet the same scholastic requirements.

The Student's Load. Fifteen hours per week is the usual load. More than fifteen hours or less than twelve, exclusive of health training, require approval of the Associate Director.

Late Registration. Saturday of the second week of the semester is the latest date upon which a student may register for regular work.

Health Training. Students are expected to enroll for some form of health training, as senior colleges require two or more years of physical education for graduation. Health training includes physical training, and the study of health and hygiene.

Minimum Size of Classes. The right is reserved of not offering a course for which a small number of students register.

Hazing. All forms of hazing are prohibited, and students pledge themselves to observe this regulation.

Description of Courses and Activities

DIVISION OF STUDENT LIFE

H. A. HODGES, B. A., M. A., Head of the Division

This division is concerned with student social life, student employment, public forums, student organization, assemblies, and all student activities. The fee is three dollars per semester and this fee, with gate and door receipts, supports all student activities.

Forum and Artist's Series. The Edinburg Junior College makes available to its students all the speakers on the Forum Series sponsored jointly by the College and by Cultural Arts, Inc. In the past such distinguished speakers have been presented as: Carl Sandburg, the American poet and author; Edward Tomlinson, noted radio commentator and authority on South America; H. R. Knickerbocker, famous correspondent; Dr. Will Durant, internationally known philosopher; Carl Hambro, President of the Norwegian Senate and past-president of the League of Nations Assembly; Mrs. Franklin D. Roosevelt, Bertita Harding; K. Sridharani, Frank Buck, and other outstanding lecturers and platform personalities. The list of speakers for 1943-1944 has not been completed but will include some of the most outstanding lecturers of our time.

In addition, Edinburg Junior College students may purchase, for one-half the regular price, a season ticket to the Artist's Series presented by Cultural Arts, Inc. This organization has presented some of the world's outstanding musical and dramatic artists among whom have been: Helen Jepson, Cornelia Otis Skinner, Nino Martini, Jose Iturbi, Albert Spalding, Igor Gorin, Lily Pons, Bidu Sayao, Bartlett and Robertson, Lawrence Tibbett, Rose Bampton, Zino Francescatti, Larry Adler and Paul Draper, and Richard Crooks. For the season of 1943-1944 an equally brilliant program has been arranged. This series will offer: the celebrated ballerina, Mia Slavenska with a supporting cast of some of the best dancers from the Ballet Russe; the duo-piano team of Vronsky and Babin; the most sensational young violinist of recent years, Patricia Travers; and the distinguished Metropolitan Opera quartet of Olheim, Gorin, Martini, and Tuminia. A season ticket for this program may be obtained, by Edinburg Junior College students only, for \$3.00.

Student Activities. The activities program, which is financed by the activities fee, covers a wide field. As a part of the benefits

received from this fee, students are admitted to many programs presented by visiting groups or lecturers and to all college plays, to college athletic contests, and they are entitled to receive the college paper.

Practically every student participates in two forms of student activities: one that is helpful because of the student's major study, as the science student in the Science Club, and one that is liked because of natural aptitude, as a good speaker in the Debate and Oratory Club or a good singer in the Chorus.

The College sponsors a complete intra-mural program. Tournaments and competitive contests between student teams are scheduled throughout the year. Intra-mural winners receive appropriate awards and individual high-point winners and all-year team winners receive recognition at the end of the intra-mural season in the spring.

Student Entertainments. The various clubs, class groups, and the faculty present on an average one entertainment each week for all students. These are arranged, under the supervision of the head of this division, to help the individual student, the student group, and their friends, and they cause little or no interference with regular college courses. Dances, public programs, concerts, club programs, and recitals are given regularly in the college auditorium and gymnasium, by students and faculty organizations. The student activity ticket admits one to all auditorium programs.

Phi Theta Kappa. The Beta Theta Chapter of the Phi Theta Kappa Society was organized November 20, 1931. The Society promotes scholarship, character development, and fellowship among students of junior colleges. Active members are regular students of good moral character who have made and are making an average of B, but the number of active members may not exceed ten per cent of the number of regular students. Elections to membership are held at the end of the semester.

Members of the class of 1943 are: Paul Schmidt, Frances Thomason, Damon Peterson, Dorothy Fisher, and Jerry Dean Lyon.

Elected to membership from the class of 1944 are: Aurora Ramirez, Lillie Frances Fikes, Izora Tinkler, Lois Ruth Garner, Mrs. Josephine Turner, Janet Wendel, and Grace Worley.

Delta Psi Omega. In the spring of 1936 the Campus Players of Edinburg Junior College obtained a charter as Cast 32 of the national honorary dramatic fraternity, Delta Psi Omega. This is

a non-secret organization which now has over one hundred and fifty chapters in the junior colleges of the United States. The purpose of the organization is to encourage interest in all phases of play production and to develop a widespread interest in drama and contemporary dramatic movements.

Sophomore members of Delta Psi Omega are Hazel Grace Atwood, Danetta Attebery, Robby Good, Mildred Kersten, Dauphine Mahoney, Jean Rightor, Walter Sharp and **Kathleen Wharton**. Elected to membership from the Freshman class are **Virginia Barthel** and Helen Draper.

Gamma Delta Upsilon. The national honorary journalism society, Gamma Delta Upsilon, granted a charter to a group of eligible members of the Edinburg Junior College Journalism Club on April 15, 1937. This society was organized to promote interest in journalism and to sponsor adherence to the highest standards of journalistic work in college publications. Membership involves outstanding achievement in college journalism and is extended to students whose character and scholarship is unimpeachable. The Epsilon chapter at Edinburg Junior College was the first to be established in Texas.

**DIVISION OF BUSINESS, SOCIAL AND
PERSONAL RELATIONSHIPS**

C. A. DAVIS, B. A., M. A., Ph. D., Head of the Division

H. R. GROSS, B. A., M. A.

JEANNE HARRISON, B. Sc.

ARCHIE HENRY, B. S., M. S.

ELLA FAY HODGES, B. A.

MILDRED KETHLEY, B. Mus., M. Mus.

OHLAND MORTON, B. A., M. A. Ph. D.

VIRGIL PAYNE, B. A., M. A.

PEARL TAYLOR, B. S., M. A.

This division is concerned with guidance, orientation, coordination with senior high schools and senior colleges, and contacts with social and economic life in its cultural aspects.

Aesthetics

113 (i). **Survey and Appreciation of the Fine Arts.** This course is designed to acquaint the student with some of the basic principles of the arts so that he may enjoy them with some understanding and appreciation. Included in the scope of the arts will be such topics as: music, painting, the theater, sculpture, architecture, ceramics, furniture design, and related fields. The course will be given from the standpoint of the consumer of these fine arts rather than from that of the trained practitioner in the field. The special permission of the instructor in charge is a prerequisite for admission to the course and the number of students accepted will be limited. Three hours of credit will be given towards graduation from Edinburg Junior College.

Art

113, 123. **Drawing and Design.** Instruction is given in the fundamental principles of drawing—stressing line, notan, and color. In design special attention is given to original studies in space, line, and composition. May be offered only on alternate years.

113e, 123e **Writing, Drawing, and Art Appreciation.** This course deals with the content and the method of teaching in these fields in elementary grades. It is designed for the experienced teacher who must have additional training and for the prospective

teacher, both of whom must be able to teach in the new and revised programs for schools.

B. A. 113, 123. Stenography. This course is for students who wish to acquire a mastery of the principles of Gregg shorthand. An intensive study of the principles of writing shorthand, in addition to intensive vocabulary building, elementary dictation and transcription, with a view to building speed, are emphasized. A knowledge of typewriting is required, or typewriting may be taken with the course. All stenography students are required to enroll for typewriting.

B. A. 213, 223. Advanced Stenography. This course is designed to enable the student to acquire speed in dictation and transcription and to acquaint him with the various forms of the business letter and other forms frequently encountered in the business world. In the second semester a study is made of the phases of secretarial duties in addition to the shorthand work. A student should be able to acquire a speed of approximately 120 words per minute at the close of the second semester. In the past, students who have successfully completed this course have passed the United States Civil Service examinations with a high standing. Prerequisites: B. A. 113, 123 or their equivalent.

B. A. 110, 120. Elementary Typewriting. This is non-credit course designed for students who desire a knowledge of the correct use of the typewriter. Correct fingering, a mastery of the keyboard, and the development of skillful machine operation are stressed in this course. Emphasis is placed upon accuracy. A student should be writing approximately 40 words per minute upon completion of this course.

B. A. 210, 220. Advanced Typewriting and Business Machines. This is a non-credit course for those who desire to gain speed and a knowledge of business forms. Much remedial work is done for those who have developed poor habits at the typewriter. Letter forms, manuscript work, legal documents, payrolls, telegrams, carbon copies, addressing envelopes, and other problems which arise in the business world make up the practice work for this course. Students are expected to advance their speed and accuracy to a high degree and to be able to write approximately 60 words per minute at the close of the second semester.

In addition to typewriting work, students are given problems in cutting stencils on the typewriter; Mimeoscope problems, including lettering, picture work, longhand work, line work and forms; the operation of the Mimeograph; the gelatin duplication

process; the adding machine; the calculator; the voice-writing machine (the Ediphone being used); the check protectograph; and the Addressograph. Prerequisite: At least one year of typewriting.

214a, 224a. **Principles of Accounting.** This course deals with use of accounting, interpretation of financial statements, the accounting process, sole ownership, partnership, and simple corporation accounting. The course requires six hours per week. Sophomore standing is required.

Education

Either on or one block from the college campus, Edinburg Consolidated Independent School District has a central primary school, an intermediate school, the Central Junior School, and the Senior School. These are not demonstration schools but schools working under actual operating conditions. Principals and superior teachers of these schools offer teacher training courses that are well designed to meet the requirements of the State Department of Education.

113 (i). **Introduction to Elementary Education.** This course is a study of the fundamental psychological principals that assist one in understanding the learning process and the behavior of children.

123 (i). **Methods in the Elementary School.** The methods of teaching in the elementary school and the management of groups of children are studied in the classroom and by observation in the Stephen F. Austin and the Sam Houston Elementary Schools of Edinburg Consolidated Independent School District.

213 (i) **Psychology of Adolescence.** This course includes a study of adolescent behavior in the light of physiological development and social training. Problems of teachers in individualization and socialization of adolescent behavior are emphasized. The adolescent child and provisions for his needs in the junior school are major considerations.

223 (i). **Junior High School Methods.** Junior school methods, practices, and technique are emphasized. The Central Junior School of Edinburg Consolidated Independent School District is used for observation.

Home Economics

113f. (i) **Food Composition and Principles of Cooking.** This foundation course in food is based upon the fundamental principles of the selection and preparation of the different types of foodstuffs. Attention is given to the cost of foods, efficiency in methods of work, and the study of basic recipes. The laboratory fee is \$2.00.

123f. Meal Preparation and Service. The principles of food selection and cookery are applied to the more advanced and complicated processes of food preparation. Emphasis is placed on the planning and serving of attractive and well-balanced meals for the family and on cost, time for preparation, and intelligent use and care of food materials. Home Economics 113f is a prerequisite.

The laboratory fee is \$2.00.

213c (i) Introduction to Textile Study. This course deals with the identification, selection, and classification of textile fibers and fabrics. Special attention is given to coloring, finishing, and consumer buying problems. The laboratory work includes microscopic and chemical tests, dyeing, and laundering.

223c. (i). Elementary Clothing Construction. This course includes a study of the fundamental principles of hand and machine sewing and elementary dress construction, the use and adaptation of commercial patterns and practice in cutting, making, and finishing garments needed by students.

113d. (i). Introduction to Design. This course is an introduction to and an application of the structural principles of art with emphasis upon the elements of design and color theory. This is particularly adapted to the needs of students of home economics.

123d. Costume Design. This is a study of the principle of design in its relation and application to dress. An effort is made to express the personality of the individual in the choice of costume and accessories. **Introduction to Design 113** is a prerequisite to this course.

All courses in Home Economics are open to either freshmen or sophomores but they may be offered in alternate years.

Music

113h, 123h. Elementary Harmony. This course deals with scales, intervals, chord building, fundamentals of tone relation, and harmonization of melodies. Ear training is stressed. At least one unit of music in high school, or its equivalent, is a prerequisite for this course. This course may be offered on alternate years.

113m, 123m. Public School Music. Designed principally for students expecting to teach music in the first six grades, this course is concerned with the study of musical notations, major and minor scales, ear training, sight reading, and rhythmic problems. This course is required of all who expect to teach in the elementary grades.

Piano. This course deals with all major and minor scales, both harmonic and melodic in parallel motion, and all major and minor arpeggios in fundamental positions and inversions. It includes studies in Bertini, Czerny, and Heller, and easy selections from Beethoven, Bach, Mozart, Schubert, and Mendelssohn. Tuition is \$45.00 per semester for the special student and \$30.00 for the regular student.

Violin. The fundamental technical exercises of Sevcik are studied, as well as Kreutzer Etudes, scales, and concertos of Bach and Viotti. Tuition is \$45.00 per semester for the special student and \$30.00 for the regular student.

Voice. In the first year of voice careful attention is given to the first principles of tone production and correct breathing, study is made of selected vocalises for vowel and consonant values to cover scales, arpeggios, chromatic scales, trills and sustained legato. Tuition is \$45.00 per semester for the special student and \$30.00 for the regular student.

Special students who pay \$45.00 per semester for a course in music may take an additional three-semester hour course without extra charge.

Credit for piano, violin, and voice will depend upon the amount of work done by the student and the recommendation of the instructor. The number of hours of credit obtained will vary from one to three semester hours for each semester's work.

Physical and Health Education

113p.e. (i) **Introduction to Physical Education.** This course is designed to orient the student who has a professional interest in physical education. By considering the basic principles of a modern program of physical education, by discussions of the problems confronting instructors, and by demonstrations and participation in the commonly taught activities the student is offered an opportunity to understand the teaching of physical education.

123. (i). **Personal Hygiene and Health.** This course includes a study of hygiene and health from personal angles, of health training and education, of health training in public schools, and of mental hygiene.

213 p.e. **Theory and Practice of Play.** The history of the play movement, the need of play, and the contribution of play to education comprise the general features of this course. Administration of physical education and the methods of teaching physical education in the elementary grades to meet the needs of children are studied.

223h. **Methods of School Health Education.** This course is designed to give a thorough understanding of three major divisions of school health education: (1) healthful school living; (2) health service; (3) health instruction. Attention is given to needs of instructors in elementary schools, and a plan of health education for schools is worked out.

The course meets the requirements of the State Department of Education for classroom instructors.

110, 120 **Physical Training.** This course is required for all men who are physically able to take it. It meets the requirements for the physical training work in the program of the Navy. It will stress the development of endurance and complete muscular development and involves calisthenics as well as competition and instruction in the care of the body.

Social Science

113w, 123w. **History of Western Civilization.** this is a brief history of the development our civilization during ancient, medieval, and modern times. Special emphasis is placed upon the development of the cultural, political, and economic trends that have led to the conditions that now exist.

213a, 223a. **Survey of American History.** Although the course is primarily orthodox United States History, the social and economic aspects are stressed. Sectionalism, internationalism, imperialism, and the perplexities of present social and economic phenomena are considered.

213e, 223e. **Economics.** This course comprises a systematic consideration of the principles of economic science. It is a critical and analytic study of the organization and workings of the present economic and social order with attention to prices, money, banking, monopoly, crisis, and distribution.

213g, 223g. **American Government.** This is an introductory course in United States government. The Texas Constitution and Texas government receive special study during the second semester. Classroom work is supplemented by assigned readings in case books and other reference material. The course fulfills the requirements of the Texas state law. Sophomore standing is a prerequisite for the course.

Psychology

213. (i). **Introduction to Psychology.** An introduction to the study of mental processes with lectures and demonstrations illustrating the principles of general psychology. Sophomore standing is a prerequisite for this course.

**DIVISION OF
SCIENCE, MEASUREMENTS, AND PRACTICAL ARTS**

H. A. HODGES, B. A., M. A. Acting Head of the Division
 RUTH FINGER, B. A., M. A.
 C. E. KOEN, B. A.
 J. S. MARTIN, B. A., M. A.
 T. S. PICKENS, B. A., M. A.
 J. W. TODD, B. A., M. A.

This division is responsible for promoting contacts between the laboratory and the shop and field, for emphasizing scientific attitudes among students, and for investigation and research in connection with industrial and scientific problems in the college territory.

Engineering

The student who seeks to begin engineering must have had two units of algebra and one of plane geometry (preferably with grades of B or better). If he has not had solid geometry or high school physics, he must take them during his first year.

113D. (i). **Mechanical Drawing.** This course includes a study of the theory of the several kinds of projection used by engineers—orthographic, oblique, and perspective—and practice in the making of working drawings for the various kinds of engineering. The simple mechanics of drawing, lettering, and freehand sketching are considered. The course meets the requirements for the elementary course in any of the fields of engineering.

123D. **Descriptive Geometry.** This course is confined to the descriptive geometry of the simpler geometric magnitudes: point, line, plane, single-curved surfaces and double-curved surfaces of revolution, and intersections. The purpose is two-fold: first, to establish a logical basis for the art of drafting; second, to discipline and develop the powers of visualization of the student. Engineering 113D is a prerequisite.

123m. (i) **Analytic Geometry.** Cartesian coordinates, loci, straight line, circle, parabola, ellipse, hyperbola, tangents and normals, polar co-ordinates, and higher plane curves constitute the principle features of this course.

213m. **Differential Calculus.** Functions, limits, continuity, derivatives, maxima and minima rates, differentials and curvature, with their applications to geometry and the sciences, are studied.

223m. **Integral Calculus.** The integration of standard elementary forms is given with emphasis on the fundamental theorem of the calculus and applications to geometry, engineering, and the sciences.

Mathematics

110. **Solid Geometry.** This is a non-credit course for engineering and other students who need it to clear up entrance requirements for engineering and technical schools.

113. (i). **College Algebra.** This course thoroughly reviews the fundamental operations of high school algebra and treats, in addition progressions, mathematical induction, the binomial theorem, permutations and combinations, probability, complex numbers, interests and annuities, the theory of equations, determinants, partial fractions, and infinite series.

123. (i) **College Trigonometry.** This course covers these major topics: the functions of any angle, the solution of right and oblique triangles, functions of two or more angles, radian measure, inverse functions, De Moivre's Theorem, series expansions, and some spherical trigonometry.

Science

113, 123. **Biology.** The first semester is a study of the anatomy and physiology of the frog as a vertebrate type, with special reference to the corresponding structures and life processes of man. Consideration is given important biological principles such as reproduction, development, heredity, and eugenics.

The second semester is devoted to a survey of the plant and animal phyla, emphasizing the interdependence of organisms, their natural history, and their relation to human welfare.

This course is designed to fulfill the biological science requirement of the general (liberal arts) student.

Three hours lecture, four hours laboratory each week.

114, 124. **General Chemistry.** Elementary fundamental principles of pure and applied chemistry are studied. Laboratory work is the central feature of the course, and it involves the solution of problems rather than the mere performance of illustrative experiments. The lectures closely supplement the laboratory work. There are three lectures and five laboratory hours per week. The laboratory fee is \$3.00 per semester.

214, 224. **Organic Chemistry.** The first semester of the course is devoted to a study of the common classes of aliphatic compounds. After the completion of the aliphatic series, a brief period is de-

voted to a study of the alicyclic compounds. During the first semester, the laboratory work is devoted to methods of purification and to the determination of the physical constants of substances together with the preparation of typical compounds and a study of the chemical properties of these compounds.

The second semester is devoted to a study of the carbohydrates, the aromatic compounds, the heterocyclic substances, and to a brief survey of the organic biological compounds. During the second semester, the laboratory work proceeds along the same lines as during the first semester except that more attention is paid to syntheses.

This course fulfills the requirements of eight semester hours in Organic Chemistry required for entrance in medical schools.

There are three lectures and four laboratory hours weekly. The laboratory fee is \$3.00 for each semester.

113, 123. **Physics.** This course covers the fundamental principles of mechanics, heat, light, sound, magnetism, and electricity, with stress on their utility in modern inventions and appliances. Instruction is by lecture, oral and written recitations, experiments performed before the class, and the solution of many practical problems. The laboratory work which accompanies the class work is designed to develop in the student an appreciation of exact and careful measurements, to emphasize the more important fundamentals of physics, and to be an introduction to the laboratory method. The laboratory fee is \$2.00 per semester. There are three lectures and two laboratory hours weekly.

214, 224. **Physics.** The first semester of this course is devoted to the study of electricity and magnetism. The second semester treats wave motion, acoustics, and optics. The laboratory work in each semester closely parallels the lecture material. There are three lectures, one two-hour laboratory period per week, and one additional outside hour. Six semester hours in mathematics and Physics 113, 123 are prerequisites of this course. The laboratory fee is \$2.00 per semester.

113, 123. **Zoology.** This course is a study of human anatomy and physiology with emphasis on disease, health, and personal hygiene. The laboratory work includes studies in experimental vertebrate physiology and the dissection of a mammal.

This course is designed to meet the needs of premedical, home economics, and physical education students.

Three hours lecture, four hours laboratory each week.

The laboratory fee is \$3.00 per semester.

DIVISION OF LANGUAGES AND COMMUNICATION

CARRIE E. WRIGHT, B. A., M. A., Head of the Division

RUTH BENNETT, B. A., B. L. S., Supervisor of Libraries.

RUTH M. OWINGS, B. A., B. E., M. A.

ENOLA SHEPPERD, B. A., M. A.

W. S. VANCE, B. A., M. A., Ph. D.

This division is concerned with the study of languages, and it has, as a special function, supervision of students with respect to the foreign language studies required in their major fields. It is further responsible for the library and its proper use, both by students and adults, and for the auditorium facilities.

English

113, 123. **Rhetoric and Composition.** This course is a review of the principles of English grammar and composition. It includes a study of exposition and argumentation and the analysis and discussion of essay and short story. There are weekly themes, conferences, and parallel reading.

213, 223. **Survey of English Literature.** This course is a survey of English literature from the Anglo-Saxon period to the present time. Masterpieces of literature, both prose and poetry, are studied. Especial attention is given to Chaucer, to Shakespeare, and to Milton. During the second semester, selections from the time of Addison are studied, and particular emphasis is placed on the poetry and essays of the nineteenth century.

213w, 223w. **Vocational and Advanced Writing.** This course is designed especially for students who desire further training in composition of a practical and advanced character. During the first semester there are weekly themes, with parallel readings dealing with current problems in science, letters, the vocations, social and national life. Clarity and accuracy and effectiveness are stressed in the writing of reports, letters, expositions, reviews, research papers, and prose narratives. During the second semester greater emphasis is placed on the study of analysis of modern writings.

French

A13, A23. **Beginners' French.** This course consists of the study of French pronunciation, vocabulary, idioms, and grammar, with practice in simple composition, dictation and elementary reading.

113, 123. **First-Year College French.** This course is a review of grammar, vocabulary, idioms, and pronunciations, with more ad-

vanced reading than in A13. The prerequisites are two units of French in high school or French A13 and A23.

Spanish

A13, A20. **Beginners' Spanish.** This course is a study of pronunciation, vocabulary, and grammatical construction through practice in reading, conversation, dictation, and simple composition. Spanish A13 and A23 are college credit courses only for the student who presents no Spanish entrance units.

113, 123. **First-Year College Spanish.** This course is a review of grammar with drill on forms, pronouns, idiomatic expressions, and sentence structure. Emphasis is placed on vocabulary through practice in reading, conversation, dictation, and composition. Spanish A13 and A23 or two years of high school Spanish are prerequisites.

213, 223. **Second-Year College Spanish.** This course consists of reading and discussion of Spanish novels, dramas, and poetry of the nineteenth century, composition and conversation, collateral reading, and reports. Spanish 113 and 123 or three admission units are prerequisites.

Speech

113. (i). **Principles of Public Speaking.** This course is a study of speech as a means of social adaptation and control. Consideration is given to purpose, thought, and language as fundamental to all communicative activities. Speech habits of the students receive special attention. The course aims to develop directness and ease in speaking situations.

123. **Public Discussion and Argumentation.** The organization of logical argument is studied in relation to current questions of public interest. The work of the speaker or the leader of a discussion is criticized with reference to the selection of the question, gathering and handling of material, logical organization of argument, and personal attitude toward the viewpoint of others.

113d. **Fundamentals of Speech.** This is a preparatory course for interpretation and acting. It includes study and drill in bodily expression, voice, diction, and oral reading. A requirement for anyone interested in radio speech.

123. **Interpretive Speech.** This course trains the student for the clear, communicative reading of literature and is of importance to the teacher who reads in the classroom, the speaker who uses literature and printed matter in his speech, and the person interested in making book reviews, as well as to students interested

in impersonation and acting. Problems studied include standards of literature acceptable for oral reading; catching the literary concept, the mood and spirit of selections; emphasis; phrasing; and communication. Speech 113d is prerequisite.

213, 223. Dramatic Production. This is a course designed for students interested in the appreciation of drama and its production as well as for those interested in the acting and staging of plays. It includes a study of the history, types and technique of drama, and the principles of character interpretation and stage technique. The college plays will be prepared with the assistance of members of the class. Open to students who have had some previous speech training.

Private Lessons. Private lessons twice a week are offered students interested in developing individual skill and solving personal speech problems. For these lessons there is a fee of \$30.00 per semester for the regular college student. Credit is given to speech majors upon the amount of work completed and upon the recommendation of the instructor, but it is limited to six hours in two years.

Extension Division. Children under fourteen are given two twenty-minute lessons a week for \$22.50 per semester.

**DIVISION OF
EXTENSION AND ADULT EDUCATION**

H. A. HODGES, B. A. M., Head of the Division

This division is concerned with providing suitable meetings, lectures, and instruction for persons who cannot take advantage of the day or regular classes. Faculty members who present any of the courses offered in this division are members of the division.

Many requests have been received for evening school courses in vocational subjects. To fill this need Edinburg Junior College is offering a number of courses in the field of business as well as courses in other fields. The schedule of classes will allow a student, by attending three hours each evening for four evenings each week, to take the equivalent of a commercial school or college course.

Regulations of the Texas Association of Colleges permit a student of junior, senior, or graduate standing in a university or senior college to take at least six semester hours in a junior college after he has registered in the senior college or university, provided the six hours are required in his course or major field.

Registration of evening school classes will be held on Monday, September 20, 1943.

Business Vocational, and Non-Credit Courses

Elementary Typewriting. This course is designed to meet the needs of persons desiring a knowledge of typewriting without shorthand. The laboratory fee is \$1.50 per semester.

Advanced Typewriting. The increasing of speed and accuracy form the basis of this course. Business and letter forms, manuscript, and tabular work are also studied. A laboratory fee of \$1.50 per semester is charged.

Stenography. This course is for those students who desire a mastery of the principles of Gregg shorthand. A knowledge of typewriting is required, or it may be taken concurrently.

Advanced Stenography and Secretarial Practice. This course is designed for those persons who desire a review of the Gregg shorthand principles, to increase speed in taking dictation, to acquire a knowledge of business letter forms, and a study of office procedure.

Executive Accounting and Business Control. Fundamental principles of accounting, the operation of a modern set of books, and the latest developments in office and accounting procedure form the basis of study in this course. The course is adapted to the needs of persons who have had no previous bookkeeping experience.

Woodwork. This course is designed for students who wish to know something of simple cabinet making and woodwork. The laboratory is unusually well equipped. The first part of the course is devoted to the acquisition of machinery technique. As soon as this technique is mastered, the student plans and constructs a piece of furniture of his own selection. Materials used in the construction are paid for by the builder.

College Credit Courses

In addition to the non-credit courses listed above, the Evening School will offer college credit work in any field of instruction offered by the college, provided ten or more people request the course.

Tuition for these courses is \$4.00 per semester hour of credit for the resident student and \$5.00 per semester hour of credit for the non-resident student.

For persons who desire work in special subjects such as Public School Music, Speech, Dramatics, Conversational Spanish, a reading knowledge of French or German, or similar courses, classes may be arranged in the evenings or on Saturdays. The tuition will be the same as for credit work in the regular fields of instruction. Non-credit work will carry the same tuition as the regular vocational or business courses.

SUGGESTED CURRICULA

The curricula outlined below will fit the requirements for the first two years of work in most of the fields listed for most of the senior colleges or universities of this area. The student should, in each case, check the catalog of the college in which he proposes to complete his college work. Members of the Edinburg College faculty will be glad to aid in doing this.
