Dear Madam/Sir,

As co-author of the following monograph:

*Reframing the Politics of Design, 2022, Public Space Publishing*  
ISBN 9789491789304

I hereby certify that Virginia Tassinari, as one of the 3 co-authors of this monograph, has been consistently working on the making of this book. In detail, she has been working at identifying the core concepts (care, politics of translation and ontologizing) into the three main chapters and exploring how the addressed case studies have been working to re-frame their design practices from within this theoretical framework, in order to question the (cosmo) politics they entangle and their responsibility towards the Anthropocene. In detail she has been pivotal in framing how concepts of care (Mol and De la Bellacasa), politics of translation (Spitvak), cosmopolitics (Stengers and Latour). Virginia has been working in connecting those philosophical insights to design practices and in detail how they can be made operative, to ontologize participatory design practices, and particularly in exploring the use of ontological mapping and the co-creation of platforms for participation.

Kind regards,
