1929

MAYOR'S INAUGURAL ADDRESS

Gentlemen of the City Council:

In accordance with our municipal custom, we have assembled here today to mark the beginning of another year of work. As we and our predecessors have done this with a definite purpose in mind, perhaps it would be well to mention, for the sake of those new faces which are present, that our one aim, today, is organization, so that the work of managing and directing our city's business will not only be done, but done well and with the highest degree of efficiency.

Before reviewing the work of last year, I believe this is an opportune time for me to express my sincere appreciation to the citizens of Somersworth for reposing in me their confidence for the sixth consecutive year. During my past administrations I have followed a policy of progressive economy, with the welfare of the city in mind at all times. I see no reason why I should deviate from that same course during this coming year, unless such a change of policy is warranted by a change in civic conditions. It is my firm belief that just as a city is a reflection of its citizens, so too is the citizen a reflection of his city. They are, in a word, a unit; the relative bonds holding the one to the other makes allowance for no separation, no dissension, no discord without creating an immediate disastrous effect on the other.

That our city may continue to be a community of law-abiding citizens, living and working for the good interests of each other and for the city as a whole, it

should be the object of this body to enact no legislation, to expend no public moneys, to do nothing which, in any way, might carry with it the odium of partisanship, or the maliciousness of social or religious privilege.

We are organizing our government here today for the benefit of our city, which means for every individual citizen and inhabitant within its boundaries. Whatever factious questions might have arisen in our private lives relative to politics, or to social, or to religious differences, must not be allowed to creep into the administrative work of our city's affairs. The performance of our duties must be carried on, as in the past, with a true civic spirit of tolerance and sympathy for all and a keen desire to do only that which, governed by a sense of fairness, must meet with the approval of the majority of our general public.

It is my desire, Gentlemen, that we adhere as strictly as possible to a conservative policy during this coming year. By this, I do not mean that we should make no expenditures whatever, for that is a spirit of false economy. My meaning is, that we should keep in good condition that which we already have and avoid any expenditures on new projects which can be omitted until civic conditions present a more favorable aspect.

The financial outlook for the coming year, though not entirely impossible, is far from being overfavorable and warrants a judicious care in the appropriations to our various departments. Without question, we must lose in our property valuation this year, and, consequently, in our taxation receipts. Since we must ever bear in mind the welfare of our citizens, we may be called upon to make some sacrifices in property val-

uations. This we must willingly do, when it can be shown that our action will ultimately tend toward the development of our social welfare.

Whatever loss is incurred, however, because of this decrease in valuation, must be met by the various departments by the process of curtailment and economy. For, in my opinion, our citizens are in no position to assume the burden of an increase in taxation at this time. The present industrial depression, affecting our business men and our citizens alike, demands that the present tax rate must be left unchanged.

I am certain that, though our task be great, the knowledge and training in civic affairs which most of you have had, backed by good sense and sound judgment, will surmount all obstacles which present themselves, and make this one of our most successful years of administration.

The figures presented by our city clerk, show the financial status to be as follows:

FINANCIAL STATEMENT, MARCH 1, 1927

Refunded water works and general indebtedness bonds	\$83,000.00
Refunded miscellaneous notes bonds ...	23,000.00
Cemetery trust fund	33,038.74
Cemetery gate trust fund	1,249.25
Chandler trust fund	2,000.00
	<hr/>
Total liabilities, March 1, 1927	\$142,287.99
Cash on hand, March 1, 1927	\$20,246.02
Cemetery trust fund	33,038.74
Cemetery gate trust fund	1,249.25
Chandler trust fund	2,000.00
	<hr/>
Total assets, March 1, 1927	\$56,534.01

FINANCIAL STATEMENT, MARCH 1, 1928

Refunded water works and general indebtedness bonds	\$70,500.00
Refunded miscellaneous bonds	19,000.00
Cemetery trust fund	34,788.74
Cemetery gate trust fund	1,299.71
Chandler trust fund	2,000.00
	<hr/>
Total liabilities, March 1, 1928	\$127,588.45
Cash on hand, March 1, 1928	\$16,947.72
Cemetery trust fund	34,788.74
Cemetery gate trust fund	1,299.71
Chandler trust fund	2,000.00
	<hr/>
Total assets, March 1, 1928	\$55,036.17
Net debt, March 1, 1927	\$85,753.98
Net debt, March 1, 1928	72,552.28
	<hr/>
Net decrease of indebtedness, March 1, 1928,	\$13,201.70
High school bonds issued, first series due July 1, 1928	125,000.00
	<hr/>
Total net increase of indebtedness, March 1, 1928	\$111,798.30
Total net debt, March 1, 1928, including High school bonds	\$197,552.28

HIGHWAYS AND SIDEWALKS

This department has been, indeed, fortunate in having as its head, men who were extremely capable

and efficient in their work. The resignation of our former commissioner at first left us in doubt as to our ability to make a replacement that would prove satisfactory to the citizens of Somersworth. However, the position had to be filled, and when the selection was finally made by naming our present commissioner, the council showed that it possessed rare judgment of men and their abilities. Since our commissioner's advent to office, we have received nothing but the highest praise for his work. I mention this fact, because I realize the difficulty of managing this department with satisfaction to all.

The sidewalks throughout the city are now in excellent condition. Extensive repairs and construction was carried out this past year, in so far as our appropriations permitted. It is my intention to continue the improvement along those same lines this coming year as far as our finances will allow.

During the year, the following concrete sidewalks were laid: Franklin street, on the south and north sides; Green street between Franklin and South streets; Union street, Depot street, High street, Maple street, Linden street, Lincoln street and Rochester street, besides minor repairs to other walks throughout the city that we could not afford to build at that time. Cement was used in building the curbing on Franklin street, Green street, and Orange street. A new walk of cement was laid on the west side of Orange street and repairs were made on the cement walk on the east-erly side.

Our roads, with a few exceptions, are in very good condition at the present time. Last year new gravel roads were built on the Rollinsford road; on Franklin

street, from High street to Green street; on Walnut street from Union street to Main street.

This year I have but two recommendations to make concerning roads and these are made with the provision that our funds will warrant them. First, I would build a gravel road on Hamilton street and continue this road across Grand street to Beacon street, making a continuous line through our hill district from High street to High street. My reason for this recommendation is to facilitate travel to and from our Playgrounds, and at the same time bring our new High School in a more direct contact with the city proper.

My second recommendation has reference to South street. If there is any question as to the need of a new road through this street, I would advise the querulous person to attempt travel over it at the present time. It is scarcely passable.

I believe it would be a good plan this coming year to place a tarvia finish on the gravel roads built last year, as it preserves the even surface of the road and in the end pays for itself by saving in the cost of upkeep.

Undoubtedly we shall be called upon this year by the State Department to pay our proportional share toward the construction of that part of our eastside trunk line which runs from Hanson's corner to the town line of Rochester. The first cost of this project will be the largest, however, as we shall receive both Federal and State aid on reconstruction.

The apparatus owned by the city has proven itself to be a great factor in cutting down the running expense of the department. It was always my opinion that this would be so, and for this reason, I believe it

would be sound economy to purchase a smaller truck, one to two ton capacity, this coming year, if our finances permit. We have built up an efficient department and given it modern equipment to work with. Let us keep it in this condition.

LIGHTS

During the past year, an added civic improvement was made by the continuation of our new lighting system along Main street to Franklin street and then from that point up to Green street. The cost of maintenance, being so small, the further extension of this system through Green street on through Orange to High street is advisable, in my opinion, and I would recommend such extension. The lighting effects produced by this new system is in itself a protection to our citizens who are compelled to traverse our streets at night. This fact, alone, removes improvements in this department from the class of luxuries and places them in the class of necessities.

WATER WORKS

Reports from the State Laboratory of Hygiene, which have been made monthly during the past year, have been very favorable and show the city water to be suitable for the ordinary uses.

Considering the years that our pumps have been in use, they are in fairly good condition at the present time. The time is not far distant, however, when the pumps will have to be renewed or a change to a more modern system made. Last year the engineer at the station gave the pumping equipment a thorough over-

hauling, at the same time relining the condenser. Insurance inspection of the boilers shows them to be in very good condition.

The commissioner informs me that during the past year, three hydrants were broken by careless auto drivers. Since these people never report the damage done, any citizen present should do so, reporting the machine number at the same time. No one knows what the results might be if a fire should occur in the vicinity of one of the broken hydrants. This, far more than the expense of repairs, should make our citizens realize their civic duty.

The meter system continues to prove a success in the prevention of wastage and the unnecessary consumption of water. This system has unquestionably made this a decided asset to our city. Last year the department turned over \$4,824.90 to the city after the expense of the department had been met. The successful management of this department is, indeed, deserving of our highest praise.

FIRE DEPARTMENT

The work of this department during the past year has been most impressive when a comparison is made between our system today with the older system of recent years; the achievements of the modern apparatus can leave no doubt in the minds of our citizens that the change was an excellent one. Despite the contrary opinions held a few years ago, the present modern system operates at a cost no greater than that of the old.

Reports from this department show the motor trucks and other apparatus to be in good condition, so that, outside of ordinary expenses, no great expenditures will have to be made this coming year.

This department has shown a wonderful cooperative spirit this past year. In September, the New Hampshire State Firemen's Association held its convention in our city. After this assembly of fire fighters had made its departure, we received communications from several cities throughout the State, commenting on the excellent system of our department and we were pleased to answer many queries as to the cost of maintenance to those cities similar to Somersworth which desired to improve their Fire Department.

This Department, consisting of men who are always on the alert to preserve our lives and our property, deserve our most sincere commendation.

FOREST GLADE CEMETERY

This department is in the hands of a Board of Trustees, under whose supervision the work is carried on. I am sure it would be presumptuous on my part to attempt to dictate to the members of this Board how their work should be done. I am satisfied that they will use the appropriations granted them to the best interests of our citizens and our city.

PLAYGROUNDS

The Noble Playground continues to be a source of comfort and happiness to the children of our city. Knowing that the health and safety of these children are of vital consequence, I feel that all the money given

to the trustees in charge is money well expended. There are few movements on hand today which mean as much to, or promise so much for, the future child as our playground. The public, keeping this fact in mind, should be stimulated to take a more active interest in its welfare. The Trustees deserve our highest praise for the excellent manner in which they have discharged their duties.

PUBLIC BUILDINGS

I have very little to say regarding our public buildings excepting that the Burleigh building and the City Hall are in need of paint on the outside. I would recommend that this be done, if it is possible.

I believe, too, while we are discussing the City Hall, that the scenery should be replaced and an entire set of new scenery be purchased. When we realize that the scenery now on our stage has been there since 1899, even the most conservative of us must agree that 29 years of service is sufficient reason for a change. At the same time, we must not lose sight of the fact that the public of Somersworth, during the past few years, has been taking an active interest in amateur theatricals, and we are compelled to admit that our stage force, due to a lack of materials and scenery, has not been able to extend to the public the service which they demand. I believe this deficiency in equipment can be remedied at a nominal cost.

Last year, the entrance to the theatre was renovated and some changes in the lighting system were made which improved the lighting effects and added greatly to the beauty of the hall.

PUBLIC LIBRARY

What the schools of our city are to our children our library is to our citizens, and since, unquestionably, the moral standard of any community is influenced greatly by the kind of literature it has access to, we can readily understand and appreciate the momentous position our library holds in our city.

This department is supervised by a Board of Trustees, whose selection of books has met with the approval of the reading public in general, both from a point of view of education as well as of pleasure. The assistance of a capable librarian greatly assists in making this department a success.

SCHOOLS

The high standard of our children in the various institutions of advance learning leaves little to be said about the excellency of our educational system. The report of our Superintendent removes any trace of doubt as to the efficient maintenance of this department.

The condition of our school buildings is such, that very little attention need be given them this year. The change made in the heating apparatus of the Chandler school continues to show a sufficient saving in fuel to justify the improved installation.

It pleases me greatly, at this time, to know that the one disgraceful blot among our city possessions has been removed and in its place now stands a building which reflects credit on our city and our citizens. I shall always take pride in knowing that it was erected during my term of office.

The building, standing on the site of the old High school, is a creation of beauty because of its architectural simplicity. It is modern in every respect, and satisfies all the demands made by the modern idea of education, having special rooms, with the very latest equipment devoted to Science, Manual Arts and Domestic Arts, and Stenography. In addition to these, there are four regular class rooms and a spacious gymnasium. Leading into this gymnasium from either side are up-to-date showers for the boys and girls of the school.

When we recall the old building, with its defective walls and leaky roof, and view the new environment in which our children now work, we are compelled to do so with a feeling of pride, not only because the change must tend to create a more ambitious attitude toward study, but also and perhaps of more importance to us, because the improved methods of heating, lighting, ventilation and sanitation must result in the better health and physical condition of the pupils.

The expense of the new building at first may seem large, but I am sure after a visit to the building, there is no broad-minded citizen who will consider the cost excessive. Comparing our structure with those recently erected in other cities, Somersworth has fared exceedingly well in her purchase, in every way, as the cost of building, equipment and grading will not exceed \$125,000.

Again, without any apologies, I wish to state that I shall always take pride in the fact that this necessary and serviceable improvement was made during my administration.

CONCLUSION

Gentlemen :

I have attempted, to bring before you the accomplishments of the various departments during the past year, and I have suggested only such improvements as I thought would be necessary to the development of our civic needs. I sincerely hope that these suggestions will receive your earnest study and that whatever action you take on them will be governed not so much by your own individual opinion as by the opinions of those whom you represent.

Our industrial situation is very far from being favorable. Industrial depression throughout the country has had a disastrous effect upon the various plants in our city. Since the economic welfare of our city and our citizens is so closely related to that of our industries, it is our duty to make their problems our problems and lend any possible aid to the solution of these problems which will materially benefit all parties concerned. Just as in times of prosperity, they are our benefactors, so, in times of adversity, we should lighten their burden as much as possible and help them to meet the demands of a keen competition. If a reduction in the valuation of our industrial plants becomes a necessity in order that they remain open and furnish our people with labor, we must unselfishly give our consent. For after all, we must keep ever before us our one outstanding obligation, namely to act concordantly, at all times, for the welfare of our citizens as a whole.

Nor is it necessary that we confine ourselves to the study of our present industries alone. It is within our

power, if the proper spirit of cooperation prevails, to make liberal concessions to other plants and induce them to come into our midst. We have the necessary labor and can furnish locations and buildings which seem to me to be exceedingly enticing to any concern seeking a new environment.

These economic problems that we have had under consideration may, at first glance, seem large and difficult, but no problem or group of problems is too big or too difficult of solution, if those in charge are sincere in their endeavors. I feel assured that you are competent to meet these problems and to find a solution of them which will tend to better the economic, the moral and the spiritual life of our community.

I trust that we shall all bear in mind, throughout the coming year, the value of cooperation in all our acts. The solemn oath of office we have taken must compel us to ever be mindful of our civic obligations. May we, at all times, in the discharge of our duties, and in the expenditure of public moneys, bring into use those powers of an unselfish, unprejudiced, unbiased intellect, so that, when our term of office is ended, we can command the highest respect of those good citizens who have seen fit to make us the custodians of their city.

MUNICIPAL ELECTION

MARCH 13, 1928

The following is a statement of the vote of Ward 1, Ward 2, Ward 3, Ward 4, Ward 5, as declared by the moderators of these respective wards, at the closing of the polls on the thirteenth day of March, 1928.

WARD ONE

MAYOR

Peter M. Gagne, d	213
George E. Varney, r	160

COUNCILMAN FOR TWO YEARS

Leroy A. Guptill, d	207
Albert W. Colburn, r	161

SELECTMAN FOR THREE YEARS

Alfred Gilbert, d	208
George A. Bonett, r	161

WARD TWO

MAYOR

Peter M. Gagne, d	217
George E. Varney, r	208

COUNCILMAN FOR TWO YEARS

George T. LeBel, d	218
Harry L. Brewster, r	204

MEMBER OF THE SCHOOL BOARD, THREE YEARS

Margaret T. Uniack, d	219
Emily O. Kimball, r	205

SELECTMAN FOR THREE YEARS

Stephen D. Hourihane, d	219
Wilfred J. Valley, r	202

WARD THREE

MAYOR

Peter M. Gagne, d	298
George E. Varney, r	146

COUNCILMAN FOR TWO YEARS

Philippe Dumais, d	289
Louis E. Mellen, r	153

MEMBER OF THE SCHOOL BOARD, THREE YEARS

Albert A. Bisson, d	291
Peter J. Gahagan, r	148

SELECTMAN FOR THREE YEARS

Peter Chasse, d	283
Ovide Dufort, r	147

WARD FOUR

MAYOR

Peter M. Gagne, d	553
George E. Varney, r	177

COUNCILMAN FOR TWO YEARS

Peter E. Tremblay, d	449
Fortunat J. Gagnon, r	176

MEMBER OF THE SCHOOL BOARD, THREE YEARS

Edward L. Flanagan, d	453
Kenneth E. Holmes, r	170

SELECTMAN FOR THREE YEARS

Michael P. Flanagan, d	451
Godfroi Gregoire, r	172

WARD FIVE

MAYOR

Peter M. Gagne, d	219
George E. Varney, r	116

COUNCILMAN FOR TWO YEARS

William H. Crawford, d	224
George W. Howe, r	118

SELECTMAN FOR THREE YEARS

Thomas Mullen, d	220
Albert H. Bernier, r	123

CITY GOVERNMENT

1928

MAYOR

PETER M. GAGNE

CITY CLERK

NAPOLEON A. BERUBE

CITY COUNCIL

ORGANIZATION

The third Tuesday in March, at 10.00 A. M.

REGULAR MEETINGS

Each Tuesday during the month of April, and the first Tuesday in each month at 8.00 P. M.

COUNCILMEN

Ward 1—LUDGER J. GAGNON, one year.

 LEROY A. GUPTILL, two years.

Ward 2—HENRY C. HARDEN, one year.

 GEORGE T. LEBEL, two years.

Ward 3—JOSEPH G. DESHAIES, one year.

 PHILIPPE DUMAIS, two years.

Ward 4—WILLIAM G. BALL, one year.

 PETER E. TREMBLAY, two years.

Ward 5—ALBERT J. DUMAIS, one year.

 WILLIAM H. CRAWFORD, two years.

STANDING COMMITTEES

Finance—The Mayor, Councilmen Harden and Deshaies.

Claims and Accounts—Councilmen Dumais (5), LeBel, and Guptill.

Roads, Bridges and Drains—The Mayor, Councilmen Harden and Dumais (3).

Ordinances—The Mayor, Councilmen Gagnon and Guptill.

Douglas, Edward Elwell, Leo Ruel, Napoleon Delisle, Alfred Provost, Polycarpe Tardif, Joseph O. Paquette, Telesphore Perreault, Emile Boucher, Alfred Gilbert, and Jean J. Couture.

BOARD OF SUPERVISORS OF THE CHECK LIST

Chairman—Fred A. Houle, term expires 1930; Clerk—Daniel F. Sullivan, term expires 1933; Alfred Begin, term expires 1929; Oliver F. Colburn, term expires 1932; Javan M. Russell, term expires 1931.

RESOLUTIONS

Somersworth, N. H., March 27, 1928.

Resolved: That the Committee on Finance be and hereby are authorized and empowered to borrow, in anticipation of taxes, to meet current expenses, in such amounts and at such times as may be deemed advisable, at the lowest rate of interest obtainable; the sum of amounts so borrowed not to exceed seventy-five thousand dollars, (\$75,000.00), and that the proper officers of the City be authorized to give the City's notes, or note, therefor. All debts incurred under authority of this resolution are hereby expressly made payable from the taxes of the current municipal year.

Passed March 27, 1928.

Somersworth, N. H., June 12, 1928.

Resolved: That the Committee on Printing be authorized and hereby are empowered to have 500 copies of the City Report printed for the fiscal year ending February 29, 1928.

Passed June 12, 1928.

Somersworth, N. H., July 9, 1928.

Resolved: That the Committee on Finance be and hereby are authorized and empowered to borrow, in anticipation of taxes, to meet current expenses, in such amounts and at such times, as may be deemed advisable, at the lowest rate of interest obtainable; the sum of all amounts so borrowed not to exceed fifty thousand dollars, (\$50,000.00), and that the proper officers of the City be authorized to give the City's note, or notes, therefor. All debts incurred under authority of this resolution are hereby expressly made payable from the taxes of the current municipal year.

Passed July 9, 1928.

Somersworth, N. H., August 14, 1928.

Resolved by the City Council of the City of Somersworth: That the Committee on Finance be and hereby are authorized to lease to Harry E. Butler of Berwick, Maine, a certain tract, or parcel of land, situated in the "Water Works Lot," so called, and bounded and described as follows, to wit: Beginning at a wooden stake in the ground, at a point 12 feet (12') north of the northwest corner of the coal shed on said lot; thence, east one hundred feet (100') to a wooden stake in the ground; thence north one hundred feet (100') to a wooden stake in the ground; thence west one hundred feet (100') to a wooden stake in the ground; thence south one hundred feet (100') to the point of beginning; together with all privileges and appur-

tenances pertaining and necessary thereto; and that the Mayor be and is hereby authorized to execute and deliver all necessary instruments to effect such lease.

Passed August 14, 1928.

Somersworth, N. H., September 18, 1928.

Whereas: The Thomas G. Plant Corporation, a corporation duly established and existing under the laws of the State of Massachusetts, and having its principal place of business at Jamaica Plain, in said State, contemplates removing a portion of its shoe manufacturing business to Somersworth, and occupying the South End Shoe Factory, formerly occupied by E. W. Warren & Co., and owned by the Somersworth Savings Bank, now in consideration, that said Thomas G. Plant Corporation does remove a portion of its shoe manufacturing business to Somersworth, and does occupy the said factory building for a term of years:

Resolved: That the stock, machinery and other personal property that may properly be used by said Thomas G. Plant Corporation in carrying on its shoe manufacturing business in this city, be and hereby is exempted from taxation for the term of five years, from this date; and for an additional term of five years, from the conclusion of the first five-year term, if it may be within the powers and legal authority of the City Council to grant said additional five-year exemption.

Resolved: That the South End Shoe Factory building and lot, before alluded to, owned by the Somersworth Savings Bank of this city, in consideration of the occupancy of said factory by the Thomas G. Plant Corporation, be and hereby are exempted from taxation for the additional term of five years, following the termination of the first five-year term, provided it may be within the powers and legal authority of this body to grant said additional five-year exemption.

Passed September 17, 1928.

Somersworth, N. H., February 5, 1929.

Be it Ordained by the City Council of the City of Somersworth, N. H.:

That the Ordinances of the City of Somersworth be and hereby are amended as follows:

Amend Chapter V, Section 1, of the Ordinances to that part which refers to the salary of the Clock Winder, by striking out the entire section relating to same, and inserting the following to read: The Clock Winder shall receive for his services the sum of Fifty Dollars (\$50.00), payable yearly.

Passed February 5, 1929.

Somersworth, N. H., February 5, 1929.

Resolved: That the Committee on Finance be and hereby are authorized to transfer from any depart-

ment, that may have an excess of appropriation, or from any money remaining in the treasury, not otherwise appropriated, and apply to such department as may have expended more than the appropriation.

Passed February 5, 1929.

Somersworth, N. H., February 21, 1929.

Resolved: That the Committee on Finance be and hereby are authorized and empowered to borrow, in anticipation of taxes, to meet current expenses, in such amounts and at such times, as may be deemed advisable, at the lowest rate of interest obtainable; the sum of all amounts so borrowed not to exceed twenty thousand dollars (\$20,000.00), and that the proper officers of the city be authorized to give the City's Notes, or Note, therefor. All debts incurred under authority of this Resolution are hereby expressly made payable from the taxes of the current municipal year.

Passed February 21, 1929.

PETITIONS

Somersworth, N. H., February 27, 1928.

To His Honor, the Mayor, and City Council:

Gentlemen:—We, the undersigned members of the Senior Class, Somersworth High School, in order to assist in raising funds for our pilgrimage to Washington, do hereby petition your Honorable Body for an abatement on the rental of the Opera House, from the amount charged, to the cost of maintenance for Tuesday evening, February 2, 1928.

(Signed.)

Donald J. Flanagan,	Forrest Kinsman
<i>President</i>	Mary H. Zabrick
Mary M. Kearns,	John Donovan
<i>Vice-president</i>	Alma DesJardins
Ruth F. Sullivan,	Amy A. Hobbs
<i>Treasurer</i>	Dorothy Hobbs
Alfred Dumais, <i>Secretary</i>	Laura King
Gordon Thayer	Christine McKee

The foregoing petition was granted at meeting held April 3, 1928.

Somersworth, N. H., February 27, 1928.

To His Honor, the Mayor, and City Council:

Gentlemen:—Your petitioner respectfully requests your Honorable Body for permission to erect a gas-

oline pump on the outer edge of the curbing, situated at No. 54 Green street.

Respectfully submitted,

JOSEPH GAGNE.

The foregoing petition was granted at meeting held April 3, 1928.

Somersworth, N. H., February 27, 1928.

To His Honor, the Mayor, and City Council:

Gentlemen:—Your petitioner respectfully petitions your Honorable Body for permission to hang a sign, approximately 4 ft. x 1 ft., at No. 54 Green street, and to be sufficiently braced, to insure the safety of pedestrians passing thereunder.

Respectfully submitted,

JOSEPH GAGNE.

The foregoing petition was granted at meeting held April 3, 1928.

Somersworth, N. H., April 3, 1928.

To His Honor, the Mayor, and City Council:

Gentlemen:—Your undersigned petitioner, in behalf of St. Martin's Parish, respectfully requests your Honorable Body for a rebate on the rental of the Opera

House, for a benefit, which was held March 15, 1928. A rebate would be highly appreciated; it being understood that the said rebate would not include the current expense of Opera House.

Respectfully submitted,

ROSE DE L'ETOILE.

The foregoing petition was referred to the Committee on Public Buildings, with power to act, at meeting held April 10, 1928.

Somersworth, N. H., March 31, 1928.

To His Honor, the Mayor, and City Council:

Gentlemen:—The subscribers hereto, residents and citizens of Somersworth, respectfully petition your Honorable Body, and request that a sidewalk be constructed on High street, in said Somersworth, extending from the Norris place on said High street, to the top of the hill, called Clay's Hill.

(Signed.)

Respectfully submitted,

JOSEPH BISSON.

The foregoing petition was granted at meeting held December 4, 1928.

Somersworth, N. H., January 8, 1929.

To His Honor, the Mayor, and City Council:

Gentlemen:—Your undersigned petitioner respectfully petitions your Honorable Body for permission to erect a Gasoline Pump, to be situated approximately on the outside of the curbing in front of my property at No. 74 South street.

Respectfully submitted,

CHARLES MORRISON.

The foregoing petition was granted at meeting held February 5, 1929.

ANNUAL REPORTS

OF THE

Several Departments

OF THE

CITY OF SOMERSWORTH

FOR THE YEAR

ENDING FEBRUARY 28, 1929

REPORT OF THE CITY SOLICITOR

Somersworth, N. H., March 1, 1929.

To His Honor, the Mayor, and the Honorable City Council:

Gentlemen:—I submit herewith my report as City Solicitor for the year ending February 28th, 1929.

No suit has been brought against the city during the past year, nor is there any litigation in which the city is interested pending in any court.

Our police court record during this period is a commendable one with a material decrease in the number of cases brought before it. This is especially so regarding juvenile cases, as there was not a single case tried in our juvenile court during the past year. This, of course, is a pleasing condition and one that we all hope may continue.

Respectfully submitted,

THOMAS J. MCGREAL,

City Solicitor.

CITY CLERK'S REPORT

Somersworth, N. H., March 1, 1929.

To His Honor, the Mayor, and City Council:

Gentlemen:—I herewith submit my report for the fiscal year ending February 28, 1929.

Dog licenses	\$ 247.00
Auto registration permits	5,653.35
Miscellaneous licenses	490.00
	<hr/>
Total	\$6,390.35

Respectfully submitted,

NAPOLEON A. BERUBE,

City Clerk.

REPORT OF THE BOARD OF HEALTH

Somersworth, N. H., March 1, 1929.

To His Honor, the Mayor, and City Council:

Gentlemen:—I herewith submit my seventh annual report for the fiscal year ending February 28, 1929.

Inspections

Schools	5
Dwelling houses	8
Stores	30
Dumping places	5
Privies	4
Complaints from other sources	29

Contagious Diseases Reported

	<i>No. Cases</i>	<i>Deaths</i>
Diphtheria	6	2
Scarlet Fever	31	0
Infantile Paralysis	2	0
Measles	1	0

During "Clean Up Week" 869 loads of garbage were disposed of, and 2,567 during the regular yearly collection.

Respectfully submitted,

HONORE GIRARD,

Sanitary Officer and Secretary

of the Local Board of Health.

STREET COMMISSIONER'S REPORT.

Somersworth, N. H., March 1, 1929.

To His Honor, the Mayor, and City Council:

Gentlemen:—In accordance with the provisions of the City Ordinances, I herewith submit my second annual report for the fiscal year ending February 28, 1929.

Streets

All streets have been kept clean, and also all highways cleared of stone or other matter, liable to impair good travelling, and put in good condition, and where grading was necessary, improvements have been made. All trees in the city proper have been trimmed, and those that were useless were cut down.

Roads

We have gravelled Grand street, from Grove to Beacon streets; Prospect street, from Maple to Mount Vernon streets; Highland street, from Grand to Prospect streets; Court, Water, Union, from Walnut to Depot streets; Portland street; Page street, from Winter to Maple streets; Indigo Hill Road, from Green to Second streets; Downs and Lee streets; Chesley Avenue; Rocky Hill Road, from Winter street to Guptill's Farm; Stackpole Road, from High street to Blaisdell's Farm; Green street, from Myrtle to Tremont streets; and a part of Blackwater Road.

Sidewalks

A granolithic sidewalk has been laid on the northerly side of Pleasant street, with curbing for same, from Green street to the Central Fire Station. It was also re-graded. Granolithic repairs have also been made on High and Market streets.

Recommendations

I would recommend macadamizing Hamilton, South, and West Green streets; and the sewer on Main street should be cleaned out as soon as possible.

Respectfully submitted,

EPHREM BOUCHER,

Street Commissioner.

FIRE CHIEF'S REPORT

Somersworth, N. H., March 1, 1929.

To His Honor, the Mayor, and City Council:

Gentlemen: I herewith submit to you the annual report of the Fire Department.

ORGANIZATION

Board of Engineers

Chief—Edward L. Flanagan.
 1st Deputy Chief—Gedeon J. Turcotte.
 2nd Deputy Chief—Harold P. Reynolds.

Department

Captain—George Berry.
 1st Lieutenant—Omer Raymond.
 2nd Lieutenant—Daniel F. Sullivan.
 Clerk—John R. Hodsdon.
 Mechanic—Eugene J. Morin.
 Drivers—George Heon, Elphege Morin,
 Dolor A. Houle, John R. Hodsdon,
 Arthur Madeau, and Ernest Heon.

Apparatus

- 1 American LaFrance Triple Combination Pumper.
- 1 American LaFrance City Service Ladder Truck.

The number of alarms responded to the past year is sixty-eight.

The number of permits issued to burn brush, etc., is forty-nine.

The roads and woodlands in our territory are amply posted with warnings and cautions regarding forest fires.

Our schools and city buildings are equipped with fire extinguishers, which are kept in working order. The schools have their regular fire drills, and the order preserved and speed of exit are very complimentary to the respective teachers.

During the past year, we have been fortunate in not having many fires of a disastrous nature. This we attribute to our persistent teaching of fire prevention.

I wish, at this time, to thank the public in general for their cooperation with this department, and also the city officials and Committee on Fire Department for their approval and appreciation of the doings of our department the past year.

Respectfully submitted,

EDWARD L. FLANAGAN,

Chief of Fire Department.

PUBLIC LIBRARY

Gentlemen of the City Council:

The Trustees of the Public Library herewith submit the report of the Librarian for the year ending February 29, 1929, as approved by them.

HENRY P. MULLEN,

Secretary.

REPORT OF THE LIBRARIAN

Somersworth, N. H., March 1, 1929.

To the Trustees of the Somersworth Public Library:

Gentlemen: I have the honor to present herewith the annual report of the Somersworth Public Library for the year ending February 28, 1929.

Annual reports are so repetitious that I feel mine all sound alike.

Extension problems provide text for most of the reports of our city departments, but for the specialized kind of service in which we are interested there is little to add from year to year.

The work here in our Library grows constantly more worth while and now at the end of my tenth

year as your Librarian, I believe we have performed a real public service and contributed much to the cultural life of this city.

We have endeavored to have our patrons satisfied with our service and there seems to be a large and growing appreciation of the Library on the part of the people of Somersworth, as at present we are serving a larger number than at any time in our history.

The most popular as well as the most superficial way of gauging library service is to post the circulation statistics. Figures indicate that we loaned 33,585 volumes during the past year, recording an increase of 5,222 over the preceding year, and making it the busiest year on record.

The more important fact, to thoughtful citizens, would be a statement as to the nature of the books and quality of reading involved. Suffice it to say that 5,671 of the books loaned for home reading were of the cultural order, that is, they were other than fiction.

The Library register gives us the names of 2,394 active readers.

There are now 16,374 volumes in the Library; 566 volumes were purchased or acquired by gift during the past year; 216 books were discarded as worn out, or lost and paid for.

The book appropriation melts away, leaving us but scanty resources.

When the price of the modern novel hovers around \$2.50 as against \$1.50 a few years ago, we are confronted with conditions with which it is hard to contend. There is a constant demand for new books of

real worth, including recent biographies, books of philosophy, the latest volumes of travels and adventures in every land, books relating to home decoration, cookery, antiques, fine arts, drama, etc. The purchase price of these books is always greatly in excess of the cost of a novel; much serious consideration has been given to the purchase of books and only those which it seemed certain would be of enduring worth have been ordered. By carefully watching the book market, and by securing better discounts on our regular purchases, it has been possible to buy, with the small amount allotted, a great many more books than could otherwise be done. More books mean more readers and better service. We never will have enough money for books, but it is our hope that each year we may have just a little more to take care of the normal increase in Library use.

The new books have been ready for circulation on the first and fifteenth day of every month, as has been our custom for a number of years. Through the kindness of Hon. C. H. Wells we have been able to publish the list of accessions for each month in the Somersworth Free Press. Copies of these lists have been printed and distributed to our patrons every month, so that a complete list of accessions for the year is available, if these lists are preserved for reference.

Our appropriation was decreased last year by \$200.00 and we had to be very prudent in all expenditures; for the present there seems to be no possibility of increasing our financial strength; this makes a very real difficulty and it must be accepted as a policy of prudence to proceed slowly. At any rate, such is the word that has gone forth from the "powers that be" and it would appear that any argument for the present is futile.

However, it is equally futile to believe that this city and its institutions can stand still with any profit either to them or to the people themselves. It is sincerely desired that we may receive this year the same sum as last year, otherwise our work will be seriously handicapped.

All the essential facts regarding the Library are included in the following table of statistics for the year.

Number of days open during the year	303
Number of volumes at beginning of the year . .	16,024
Number of volumes added during the year . . .	566
Number of volumes withdrawn during the year	216
Total number of volumes at end of the year . .	16,374
Number of volumes rebound	211
Number of borrowers registered	2,394
Number of periodicals regularly received . . .	42
Number of volumes of non-fiction loaned . . .	5,671
Number of volumes of fiction loaned	27,914
Total circulation	33,585

The Librarian is glad of this opportunity to express her appreciation to the Trustees for their support and confidence, and to her Assistant, Mrs. Ethel M. Colburn, for her fine spirit of cooperation, thus aiding in making a "good Library year."

Respectfully submitted,

MRS. LEONA H. SAVITHES,

Librarian.

REPORT OF OVERSEER OF THE POOR

Somersworth, N. H., March 1, 1929.

To His Honor, the Mayor, and City Council:

Gentlemen: I herewith submit my eighth annual report as Overseer of the Poor of the City of Somersworth, for the year ending February 28, 1929. The itemized account of expenditures of this department, amounting to \$5,694.43, will be found on another page of this book. The amount of \$733.85 was expended on Soldiers' Aid, making a total expenditure of \$6,428.28.

Respectfully submitted,

JOHN J. DUFFY,
Overseer of the Poor.

REPORT OF TAX COLLECTOR

Somersworth, N. H., February 28, 1929.

To His Honor, the Mayor, and City Council:

Gentlemen: In accordance with the Ordinances of the City of Somersworth, I herewith submit my report of collections for the municipal year of 1928.

Respectfully submitted,

MICHAEL O'MALLEY,

Tax Collector.

Approved by the Assessors of the City of Somersworth, N. H.

DANIEL F. BOHAN,
 CLEMENT P. ROY,
 NAPOLEON H. GILBERT,

Board of Assessors.

REPORT OF INSPECTOR OF PLUMBING

Somersworth, N. H., March 1, 1929.

To His Honor, the Mayor, and City Council:

Gentlemen: I herewith submit my report for the year ending February 28, 1929. Inspection of 17 sewer connections were made during the year, including the tapping of sewer mains in streets, and extension of such sewer service, previously placed in buildings, insuring proper drainage of plumbing appliances and fixtures placed therein.

Respectfully submitted,

EUGENE J. MORIN,

Plumbing Inspector.

REPORT OF CLERK OF MUNICIPAL COURT

- 1-1 At 10.45 A. M., one session.

General Rules

Firemen, as well as citizens should familiarize themselves with the following rules for giving alarms of fire.

1. Never pull a box for a fire seen at a distance.
2. Never pull a box while the alarm bells are ringing, not until a box has completed its four rounds. Two boxes cannot operate together, and neither will work if two are pulled at the same time. Never pull two alarms of two boxes for the same fire.
3. To ring in an alarm, break the glass in the key-box and open the outside door with the key. Pull down the brass crank seen inside, till it stops, then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the door, but do not try to remove the key, as it is locked in track lock and can only be removed by a release key, which is carried by each engineer, who will, as soon as convenient, release and return it. Remember that the firemen will come directly to the box which has been pulled, and be sure that some one stays at the box to direct them to the fire.
4. Never pull an alarm for a fire seen at a distance. Never touch a box except to give an alarm of fire. Give an alarm for no cause other than actual fire. Don't give an alarm for a chimney fire.

APPROPRIATIONS FOR 1928

Memorial Day	\$250.00
Street lights	13,794.24

REPORT OF WATER COMMISSIONERS

March 1, 1928, to March 1, 1929

FRANK E. HOBBS, *Chairman*

PETER M. GAGNE, *Clerk*

JOHN E. SULLIVAN

Frank E. Hobbs, elected March 27, 1912; term expires
June 16, 1930.

Peter M. Gagne, elected January 5, 1915; term expires
June 16, 1931.

*John E. Sullivan, elected April 10, 1928; term expires
June 16, 1929.

*Unexpired term.

REPORT OF WATER COMMISSIONERS

To His Honor, the Mayor, and City Council:

Gentlemen: As provided in the City Ordinances, the Board of Water Commissioners herewith submit the following report for the year ending February 28, 1929.

At a meeting held June 16, 1928, Frank E. Hobbs was chosen Chairman, and Peter M. Gagne, Clerk, of the Board of Water Commissioners, and John F. Lucey was elected Superintendent of the Water Works for the ensuing year.

Bills approved for payment with the various departments to which they belong.

REPORT OF SUPERINTENDENT

To the Board of Water Commissioners:

Gentlemen: I herewith present to you the annual report of the department for the year ending February 28, 1929.

Pumping Station

The buildings are in good condition, minor repairs having been made during the year. The pumps were overhauled during the year, and painted. The boilers have had their usual internal and external inspections, and the boiler setting has been repaired and painted. A new lighting system has been installed; and the side track put in the best of condition by a Boston and Maine construction crew.

Filter Bed

The filter bed has been cleaned and washed and sand returned.

Stand Pipe

Some small leaks were repaired during the winter season.

Distribution System

There were several joint leaks on the main line during the year just closed. Several valve stems were repacked, also.

Service Pipes

Five new services were laid during the year; and one service was relaid, and fifteen services cleaned. There were eight service leaks, caused by split goose necks.

Hydrants

The hydrants were flushed during the year, and some of them many times, and found in good working order.

Meters

Twenty new meters were installed during the year, and some old ones replaced.

Dwellings	609
Dwellings and stores	38
Schools	5
Hothouses	2
Mills	4
Shoe shops	1
Barns	1
Laundries	1
Depots	2
Theatres	1
Sausage factories	1
Halls	3
Restaurants	1
Coal yards	1
Banks	1
Hotels	1

 672

Owned by the department, 667; private, 5.

In closing, I desire to express my thanks for the many kindly expressions from the Gentlemen of the Board, and all those whom it has been my pleasure to meet in my capacity as Superintendent of the Somersworth Water Works during the past year.

Respectfully submitted,

JOHN F. LUCEY,

Superintendent.

REPORT OF AUDITORS FOR THE YEAR ENDING
FEBRUARY 28, 1929

To the Honorable Mayor and City Council:

Gentlemen: We herewith submit our report as auditors for the fiscal year ending February 28, 1929.

We certify to having examined the books and vouchers of the City Clerk and City Treasurer. We find the accounts to agree with the orders drawn on the Treasurer and the accounts correctly cast.

We have also examined the books of the Water Works Dept., Tax Collector, City Messenger, Superintendent of Forest Glade Cemetery and Clerk of Municipal Court, and find all accounts correctly cast and payments properly vouchered.

Respectfully submitted,

ALBERT E. COLBURN,
MARGARET CRAY O'CONNELL,

Auditors.

Thirty-sixth Annual Report

OF THE

SCHOOL BOARD

OF THE

City of Somersworth, N. H.

JULY 1, 1928 to JUNE 30, 1929

Department of Public Instruction

1929 - 1930

Haven Doe, Chairman

Edward McKeon, Secretary

Members

Ward 1—Michael O'Malley, term expires March, 1930.

Ward 2—Mrs. John R. Uniack, term expires March, 1931.

Ward 3—Albert A. Bisson, term expires March, 1931.

Ward 4—Edward L. Flanagan, term expires March, 1931.

Ward 5—James Perreault, term expires March, 1932.
His Honor, Peter M. Gagne, Mayor, ex-officio.

Appointed by City Council—Edward McKeon and Haven Doe, terms expire March, 1932, Clement P. Roy and Archie L. Jacques, terms expire March, 1930.

Meetings—Third Wednesday in each month. Annual meeting first Tuesday in April.

Sub-Committees

Finance—Roy, Perreault, Jacques.

High School—Flanagan, McKeon, Doe.

Fuel—Bisson, Doe, Roy.

Elementary—Jacques, Mrs. Uniack, Perreault.

Text Books—Mrs. Uniack, O'Malley, Bisson.

Repairs—Doe, Gagne, O'Malley.

Athletic—Gagne, McKeon, Flanagan.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Honorable Board of Education of the City of Somersworth:

It is a privilege to submit to you for the first time my annual report of the public schools. Appended to it are the reports of the headmaster of the High School, the supervisor of Drawing, the supervisor of Music, the teacher of Domestic Arts, the teacher of Manual Arts and the School Nurse. All of these reports deserve your thoughtful consideration.

Teachers

No change in the teaching force has been made this year. Miss Mary McKeon has been ill for several months and Mrs. Mary Flanagan Driscoll has substituted very effectively. She taught the first grade in the same room before her recent marriage.

I wonder if the public realizes the stability of the teaching force of this city. The principal of the Burleigh School has taught here forty years, the principal of the Chandler School, twenty-six years, and the principal of the High School, ten years. Of the twenty-one teachers now employed only four have taught less than five years and the average length of service is over fifteen years.

Costs

The average salary of the High School teachers (including the headmaster, who receives \$2,500) is

\$1,642.85. The State average for the year preceding was about \$1,781.25.

The average salary of the elementary teachers, exclusive of the principal of the Chandler School, who receives \$1,800, is \$1,088.45. The State average in 1928 was \$1,132.09, exclusive of men.

The average cost per pupil in your High School for the year 1928 was \$127.85. The State average was about \$103.73 and the average for the eleven cities of the State was \$128.86.

The average cost per pupil for the same year in the elementary schools of Somersworth was \$94.46, which is not far from the State average. I mention these facts in order to show you that your schools are being run economically and efficiently.

Attendance

Only one whole day has been lost on account of storms. One-session days have been only two. The attendance has been very gratifying, with no serious cases or epidemics of contagious diseases, except the "flu." Our schools were somewhat affected by this epidemic, but we were more fortunate than many places elsewhere in the State and no school time was lost. I think I can safely say that no pupil failed of promotion because of absence for this cause. Much credit is due the school nurse for her watchfulness and timely help. A dental clinic is much needed in our city. Please note what the nurse has to say on this subject.

The Milk Fund Benefit has become an annual affair and this year its proceeds were divided between the Playground and the Milk Fund. Enough was realized to keep both of these worthy objects active for another year.

The enrollment in the High School in September, 1927, was 123, and in 1928 it was 143. No material increase is anticipated for September, 1929. The enrollment in the elementary schools was 379 in September, 1927, and 365 last fall. There is a possibility and a probability of an increase in September, owing to the reopening of the mills.

Physical Training

An attempt was made to give physical training to all pupils of the High School by the introduction of basket ball for all girls and boys. From September until the first vacation this worked satisfactorily, but during the winter, after teams were picked and games played with other schools, it was not possible to give all such training. After-school hours were needed for regular team practice and there was lack of time and a physical director who could devote a part of the school day to such instruction. I hope that when our finances warrant it, we may employ at least a part-time physical director. We are trying to carry on three major sports in the High School, foot ball, basket ball, and base ball. The elementary schools have no organized play.

A word of appreciation must be given to Mr. Rodolph Gagne, who so generously gave of his time and

effort to help develop a successful foot ball team, without any remuneration from the city.

In January we cooperated with the Somersworth Savings Bank and instituted a system of school savings.

Almost every child in the elementary schools has started an account and to date the amount saved is eight hundred fifty-three and fifty-three hundredths dollars. The High School has not done so well, but we hope that the incoming class will all carry an account. It will be found to be a great help in defraying graduation expenses or for the trip to Washington. We have had splendid cooperation on the part of the parents.

Our Vocational Courses

Carrying out the expressed belief that our education must meet needs of all citizens and not alone the favored few who will go further to school, we have enlarged somewhat the scope of the vocational courses. This year the Manual Arts pupils of the 2nd and 3rd high school years have had a course in Electrical Appliances and next year these classes will have Automotive Repair. A more detailed statement will be found in the instructor's report.

The courses in the Domestic Arts curriculum were also enriched and the work of the pupils is detailed in the report of the teacher of these courses.

Commerce

Our Commercial department contains eleven typewriters and a mimeograph. Our pupils are being

trained to meet such office requirements as Somersworth presents. We do not expect to "turn out" the finished product that the business colleges do, but we are sure that our graduates can meet local needs. Next year it is our hope that even more actual office work can be accomplished. We invite our business men to call upon us for help at any time. If you want a typist for a few hours, a stenographer or a bookkeeper for a short period, we stand ready to furnish you with a Senior who can meet your needs. If you have typewritten work that you desire copied, we are willing to do it at the school in order that our pupils may gain an actual insight into commercial work.

In Forty Years

*Popular education in this country is an experiment. Never before has a people undertaken to give to all children such opportunity for acquiring knowledge or effecting individual development. Since 1890 the population of the United States has increased 79%. In the same period, elementary school attendance has increased 156%; while high school attendance has increased over 2400%. In 1910 there were enrolled in the high schools of the country 915,000 pupils, while the total in 1926 was 3,757,000. Adults of today, themselves pupils in the 90's, out of their own faith in education are responsible. The call for trained minds, the spirit of inquiry, the desire for truth, has made the public school the outstanding American institution and the wonder and envy of the foreign world. As a social institution it is constantly in a state of change, beset by criticism and pressure, yet adjusting itself remarkably to new conditions and demands. It is not per-

fect and by its very nature never will be perfect, yet we venture to say that no human organization displays a larger return for the time and money expended. So great has improvement been in these forty years that an ordinary junior high school today is reaching well the level of the high school grade of forty years ago, and the modern high school is meeting standards set by the best colleges of that time.

More and more rapid changes must come. The moving picture and aviation are introducing new factors and methods in the teaching of the social sciences. The broadcasting of the finest of musical programs makes it necessary that pupils be trained, and schools equipped, to utilize them. Education can not stand still, it must move ahead. Our greatest industry is the conducting of our schools and we are proud to be associated with this industry.

*Quoted in part from Supt. H. L. Moore of Portsmouth, N. H.

Submitted respectfully with many thanks for courtesies extended.

HOWARD L. WINSLOW,

Superintendent of Schools.

REPORT OF PRINCIPAL OF HIGH SCHOOL

*To the Superintendent of Schools and Members of the
School Board:*

It is very gratifying to me to be able to call your attention in this, the annual report of the High School, to the steady and consistent increase in the number of our young people who are seeking the benefits of a secondary education. The school year 1928-29, with an enrollment of 144, establishes a record in the history of the school.

In accordance with the policy adopted last year of developing, in the interests of a larger enrollment, the work in Mechanic Arts and Home Economics, further additions and extensions have been made in these courses many of which are along purely vocational lines. In Mechanic Arts our curriculum now calls for woodwork and cabinet-making in the ninth grade, a study of electrical appliances in the tenth, and next year we hope to take the initial step in automotive work. Thus the curriculum is well rounded out and with the addition of two periods a week in mechanical drawing—in which much praiseworthy work has been done this year—we believe that our High School is offering courses of a vocational nature which should make a strong appeal to those boys who, under the old regime of classical studies, would never contemplate entering high school.

Some beneficial changes have likewise been made in the Home Economics courses. Henceforth a full year will be devoted to textiles and clothing; a second full year will be given to foods and nutrition, while the third year will be assigned to home management. Hitherto this work has been divided, a half a year being assigned to cooking and the second half of the same year to sewing. While this plan possessed some merit in preventing monotony, it likewise prevented the acquisition of that fullness and breadth of training which only a full year of thirty-eight weeks can give. The line of demarcation, however, is not completely drawn. There will be some slight overlapping of the work so that the pupils may comprehend that "home making" is a science and a complete entity, not merely a grouping of unrelated subjects.

While on the subject of courses it may not be out of place to state that, in general, the three curricula have been made much more flexible than in the past. Electives are more numerous, while required subjects have been reduced to a minimum. Thus the field of election has been broadened, not with the idea of making the curriculums less arduous but rather that the pupils may select those subjects, under proper guidance, which best suit their desires and needs.

With the growth of the school which necessarily connotes an enlargement of the individual classes it would appear to be to our interest to follow the example of the most progressive schools, which, for some time past, have found faculty advisers very helpful in molding character. The duties of this office, as the

name suggests, is the guidance and direction of young people both in the group and as individuals. And while much of this mentorship is devoted to problems concerning studies, it is in no wise exclusively so, for the extra-curricula activities of the modern school require a certain amount of supervision no less than those which come within the scope of the curricula. Social amenities, for instance, must be observed in school as elsewhere; here too the dictates of common courtesy must be obeyed; and the rules of right reason and morality can be ignored only at the risk of losing all that for which our schools have been founded. Who then is in a better position to inculcate, successfully, these qualities than a teacher on whom has been placed the responsibility of seeing that the Sophomore class or the Junior class, as the case may be, observe, both in public and private, those little and seemingly inconsequential touches which distinguish gentleness of manner from a base and plebeian spirit? It is to be hoped that some such system of directional guidance may be introduced next year.

To revert for a moment to the question of scholarship. In checking over the class lists of four and five years ago we noted with pleasure that of the twenty who entered college from these two classes—which had a total membership of thirty-three—seventeen have graduated either from the University of New Hampshire or other New England colleges and of these seventeen two have graduated (“cum laude”). This record, in our opinion, will easily equal that of the average high school; and in any case the energy displayed by these young men and women, the sacrifices they have borne in the interests of higher education

most surely denote a trend in the newer generation which is highly commendable.

In conclusion let me express to you and to the School Board our appreciation for your many kindnesses during the past year.

Respectfully submitted,

JOHN R. UNIACK.

REPORT OF DRAWING INSTRUCTOR

To the Superintendent of Schools, and the School Committee of Somersworth:

Gentlemen: As I have said in former reports, the elementary work in drawing is necessarily the same year after year. The substantial and indispensable background must be supplied before any constructive work may be obtained. The grade work is varied by work of an amusing nature to a child because the old adage of "all work and no play makes Jack a dull boy" may be applied in the study of drawing as elsewhere.

During the past few years and with the spectacular rise of commercial art we have tried to place a marked emphasis on poster work. If a child has a latent ability for commercial art this type of training will help him to discover his forte and to plan a future campaign for a more extensive training in that line of work. These posters have been made for outside affairs as well as school affairs. A certain stimulus is added to the poster work when the finished product is to be publicly exhibited. We have made posters for the Milk Fund, the Playground, the Mothers' Club, School Nurse, Domestic Arts class, and the Somersworth High School Seniors' food sales.

There have been two exhibitions during the school year—one was held in the new High School auditorium and the other in the halls of the Chandler Building.

In the High School we have taken up different types of lettering, which of course is an integral part of poster work. We have also stressed pencil sketching and pen and ink work.

I take this opportunity to thank the teachers and the Superintendent for their cordial cooperation and the members of the Board for the interest they have taken.

Respectfully submitted,

ALMA B. ROY,

Supervisor of Drawing.

REPORT OF INSTRUCTOR OF MUSIC

To the Superintendent of Schools and the Board of Education:

Gentlemen: For the eighth time I am presenting my report as Supervisor of Music in the Somersworth schools.

In my last year's report I outlined, quite in detail, the plan of work, from the first grade up through the High School. That routine is practically the same each year, always with the same objective, to bring to each pupil a love for, and appreciation of, the very best in music.

The first and second grades require the most individual attention, for those are crucial years. Very many children are monotones when they enter school, but at the end of the second year, if given personal supervision, it is a rare thing to find a child who cannot at least sing the scale correctly.

It is my custom, for my own satisfaction, to give a written test in each room at the close of the year. In the eighth grade, I asked this question, "Do you like best one, two, or three-part singing, and why?" Somewhat to my surprise, and very much to my gratification, the answers were, with only two exceptions, in favor of three-part music. It was a bit difficult to work the reason why, but here are a few of the

answers. "I like it best because there is more harmony." "Because we each have to pay attention to our own part." "Because when we are grown up and people ask us to sing, we will know how." To me these answers are significant, proving that the children are developing a taste for the best, though it involves harder work and greater concentration.

Three years ago we introduced the Rhythmic or Toy orchestra. Although for the last few years educational journals and many other leading publications have given much space to this comparatively new branch of school music, there may still be some unenlightened ones who may say, "Why the Toy orchestra? The instruments are not real instruments, what is its use?" To be sure, the instruments are not all real instruments, but the music is real music. May I quote this bit from an article on "The How and Why of the Toy Orchestra:" "It develops alertness, promptness, orderliness, attention, and concentration. The individual part must be done perfectly in order that the ensemble may be absolutely accurate. Work with the toy orchestra is valuable pre-orchestra training. The child learns to care for an instrument and a score, to watch for his cue and follow his own part while listening to the ensemble. Training along these definite lines will equip for the grammar and high school orchestras a group of players who can already count, look, listen, and play in time."

The work at High School has been satisfactory in some respects and a little disappointing in others. The study and practice of part music has gone on with interest and profit.

The first of the year a girls' glee club of nearly forty members was organized and regular meetings were held until the basket ball activities began. Naturally the girls were enthusiastic over that, but the necessary practice interfered disastrously with the glee club work. The same with the orchestra. The several teams kept the gymnasium so constantly in use that there was no available night for practice. This was a real grief to me, for the High School orchestra of eleven members was doing splendid work. Finally those who were available joined with the Grammar School orchestra and practiced Wednesday nights after school in the assembly room at the Grammar School. The Glee Club rehearsals, too, were kept up with fewer members in the Grammar Assembly room, up to the time when we began practice for the Milk Benefit.

The entertainment at the Opera House was so recent that it needs no special mention except that the children should be commended for their work. The folk dances, all through the year, have been more difficult than any we have before attempted. The Dance of the Crows and the Gipsy dance, particularly, were both new and intricate and the children put in many hours of hard work out of school hours before they attained the degree of perfection presented to the public. In this connection, I want to thank the mothers, friends, and teachers who so ably and cordially assisted in the preparation of the program.

Memorial Day exercises were held in both the Burleigh and Chandler Buildings.

The Toy Orchestra played at the Burleigh School and the Grammar orchestra furnished several selections on their program. There were also chorus numbers.

To the Superintendent and teachers for their unfailing encouragement and support, I extend most hearty thanks.

Respectfully submitted,

MAERICE K. BLACKINGTON,

Supervisor of Music.

REPORT OF THE SUPERVISOR OF DOMESTIC ARTS

*To the Superintendent of Schools and Members of the
School Board:*

Gentlemen: It is with pleasure that I submit my second annual report of the work completed in the Domestic Arts Department of the Somersworth schools.

The aim of the course in cooking is to teach the girls to prepare and serve well-balanced meals within the income of the average home in the community. In sewing the aim is to teach by actual experience, to select the proper kinds of materials, to make suitable clothing, to repair and care for their own garments.

The girls of grade seven canned and preserved fruits, vegetables, jelly and pickles. They prepared and served six well-balanced meals. In sewing they made underwear, Christmas gifts, and school dresses.

In grade eight the girls canned and preserved fruits, vegetables, jelly and pickles. They arranged balanced menus, prepared and served six well-balanced meals, suitable to the average home. In sewing they made underwear, Christmas gifts, and school dresses.

The Freshman class in the High School had a course in clothing and textiles. They studied the various tex-

tile fibers and weaves, made underwear, a cotton dress, a woolen dress, a silk dress or made-over problems. Also they made felt hats and Christmas gifts. They made a study of the history of costume from ancient to modern times. Next fall this group will study foods and nutrition.

The course of the Sophomore class has been, "The Home, Its Care and Management." They have studied the history of the house, plans, selection, furnishing, management, appliances of value in the care of the home, household accounting, and planning and care of the home grounds. Next year this group will study "The Family and Its Members."

In December the domestic science classes held a Christmas gift exhibition in the High School Domestic Science room. The annual exhibition was held in May in the High School gymnasium. Punch and wafers were served by the Freshman girls.

I wish to thank the School Board, Superintendent, teachers, parents, and friends for their helpful cooperation during the year.

Respectfully submitted,

MILDRED C. CASWELL,

Supervisor of Domestic Arts.

REPORT OF THE INSTRUCTOR OF MANUAL
ARTS

*To the Superintendent of Schools and Members of the
School Board:*

Ladies and Gentlemen: It is with pleasure that I submit the annual report of the work completed in the Mechanic Arts Department.

I feel that the Department has completed a successful year in its new quarters in the High School. Early in the year the grades were sent to the High School shop, thereby combining the old and new equipment. This has saved the Department quite an expense in lumber and equipment.

The boys in the Freshman year of High School have completed very difficult projects, and the class as a whole has been above the average in woodworking. They have made various repairs and additions throughout the school system, such as building benches, supply cases, and repairing desks and doors. The lumber and materials involved in this repair work alone cost the department nearly one hundred dollars, and at the same time saved the school system for labor and materials much more than this sum.

Mechanical Drawing has been given one day a week. The purpose of this course is to enable the pupil to read, draw, and interpret blueprints. The enrollment

of this class was fifteen, or an increase of 50% over any other year.

The eighth grade was only an average class and the work turned out was not as good as that of the seventh grades. The seventh grades have completed a most satisfactory year. The projects completed were in several cases of high school grade. The combined enrollment of the grades was forty-nine. This year the sixth grade was omitted to make room for a course in Electrical Appliances. This has been a practical and beneficial development of the general course as given in the High School. This class had twelve members including Sophomores, Juniors and Seniors, but this will be given as a second-year subject after this year and Auto-Mechanics will be given to the Juniors. The class showed good interest and I believe that it has given the boy who plans to go to an engineering college and the one who must leave school at graduation something definite that he can do. The course has no textbook and is based entirely upon experiments, repairing and theory, as given from reports by class members, and frequent lectures or readings by the Instructor.

The class wired up the old fire station near the High School for practice work and I believe that each member can do creditable repair work, and simple house wiring. The switchboard for our experiments was made by the class and most of our apparatus was collected from the homes of the Mechanic Arts pupils. This is one of the reasons why the course was of such little expense. More material should be obtained, however, and if a little is added each year the amount will soon be adequate.

The combined exhibition of Mechanic and Domestic Arts and Drawing was held in the High School gymnasium. I would like to see more people attend these exhibits, as it gives everyone a chance to see what the pupils are accomplishing.

The popular projects this year have been as follows: Cedar chests, cedar-lined oak chests, library tables, writing-tables, writing-desks, tabourets, costumers, medicine cabinets, towel rolls, book stands, bookcases, book and magazine troughs, footstools, umbrella case, smoking-cabinets, wardrobes, pedestals, picture frames, sleds, snow-pushers, stepladders, drawing-tables, and several other similar projects.

I wish to thank all those who have helped us throughout the year.

Respectfully submitted,

JOSEPH O. LAFOND.

REPORT OF THE SCHOOL NURSE

*To the Superintendent of Schools, and Members of the
School Board of Somersworth, N. H.:*

Gentlemen: It is with the greatest of pleasure that I respectfully submit my second annual report as school nurse in Somersworth, N. H.

Number of children examined	1,279
Defective vision	151 Treatment secured .. 17
Defective teeth	415 Treatment secured .. 112
Skin disease	34 Treatment secured ... 34
Enlarged tonsils	85 Treatment secured ... 7
Orthopedic defects ...	1 Treatment secured ... 1
Pulmonary disease ...	11 Treatment secured ... 2
Appendectomy	15
Vaccinations	31
Home visits made	175
Treatments given	124

*Communicable Diseases Found and Excluded from
Schools:*

Chicken pox	33
Scarlet fever	10
Pediculosis	22
Mumps	110
Infantile paralysis	1

Under the auspices of the N. H. Tuberculosis Association, an underweight clinic was held May 7, 1929, at

the Somersworth High School. Dr. Kerr of Manchester was the examining doctor, assisted by the County Nurse of Portsmouth, N. H.

A clinic for children under school age was held May 10, 1929, at the St. Jean's Hall. The local doctors gave their services. About 125 children were given a complete physical examination. The follow-up work of cases found for corrections is being done by the local School and Red Cross Nurses.

There is a very great need of a dental clinic in the public as well as the parochial schools of our city. Good teeth are very necessary to health and they should be attended to from infancy, in fact before they erupt. The temporary teeth well cared for are a great asset to permanent teeth. With the financial aid of some organization and the cooperation of the local dentists we might be able in the near future to hold a dental clinic in our city.

I wish to thank the School Board, Superintendent, teachers, and parents for their helpful cooperation during the year.

Respectfully submitted,

DOROTHY A. KAVANAUGH, R. N.

EXPENSES FOR SCHOOL YEAR, JULY 1, 1928, TO
JUNE 30, 1929

Expenditures

Orders drawn by the School Board from July 1, 1928,
to June 30, 1929.

Salaries of district officers	\$ 200.00
Truant officer and census, \$250 and \$100 ..	350.00
Administration	2,893.90

Membership cards in the Somersworth Woman's Club

are awarded for high scholarship to

Tefter Ogreni

Eleanor Metcalfe

Motto—Nulla Victoria Sine Labore

Class Colors—Blue and White

Class Flower—Red Rose

CLASS ODE

MEMORIES

Dear Old School we're leaving you
With memories true always;
We hope to serve you and be true
As we were taught in our school days.
They tell us that we've finished
But still we've facts to learn;
Fame is not won, work not done,
Always to climb we yearn.

Memories, memories,
Memories of our school days at
Somersworth High;
Back through the years,
Smiles through the tears,
Memories make us sigh;
Though now from our classmates we'll part
And our life's work we'll start
We'll think of the class of '29
And days at Somersworth High.

Though years may come and years may go
Through all the world we roam,
We'll still recall old Somersworth High
And the days of long ago.
We'll live again in memory's dreams,
Through days of toil and strife,
For Somersworth High shall be to us
A guiding star for life.

VITAL STATISTICS

FOR THE

YEAR ENDING DECEMBER 31, 1928

Births Registered in the City of Somersworth for the Year Ending December 31, 1928

Date of Birth	Name of Child	No. of Child	Name of Father	Maiden Name of Mother	Birthplace of Father	Birthplace of Mother
