Report of School Board

TO THE PARENTS AND CITIZENS OF WARREN:

Knowing that a brief report in matters relating to schools is always acceptable to the parents and citizens, the following is respectfully submitted:

Practically all the schools have fulfilled the required condition of being in session thirty-six weeks. Owing to our excellent teachers, the best of discipline has been maintained, with the exception of one school, where until recently (when a regrettable disturbance occurred), the teacher had been doing very satisfactory work indeed. We trust that in the future, the parents will do their best to prevent such disorder. Let each one consider his own anxiety, had he a daughter teaching in a distant town.

To demonstrate the good standing of our High school, and that too much praise cannot be given Miss Lillian Clark for the work she has done, we insert the following communication from our state superintendent:

NEW HAMPSHIRE
DEPARTMENT OF PUBLIC INSTRUCTION
CONCORD

February 3, 1915.

MR WILBUR C. GORDON,
Warren, N. H.

MY DEAR MR. GORDON: -

I have the report of the recent inspection of the Warren High school by this department and I think you may be interested in the conclusions which the inspector submits.

1. "The Warren High school is in thoroughly good condition and well worthy of approval by the department."
2. "The experience of this town well demonstrates that many small communities may well maintain such schools, Choice normal graduates can be secured like Miss Clark, who can do competent work. The establishment of such schools in many communities extends educational advantages of great value to pupils who would otherwise not be reached. This school goes to prove that even small communities can profitably maintain high schools for their pupils instead of sending them long distances to schools in other towns."

Very truly yours,

H. C. MORRISON.

The heating apparatus in the basement of the village school has been remodeled at a very small cost, and we feel confident that what has been a source of trouble to the district ever since the school was built, has now been overcome.

The East Warren school has been repaired, the interior being fitted up with new walls and ceiling.

As required by law, we submit the following estimate for the coming year:

Text book and supplies	\$350 00
Fuel	300 00
High school, including teacher's salary	650 00
High school tuition	300 00
Flags and appurtenances	10 00

WILBUR C. GORDON, }
 EDGAR S. CARBEE, } School Board.
 WILLIAM B. NICOL, }

School Warrant

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District in the Town of Warren qualified to vote in District affairs:

You are hereby notified to meet at the town hall in said district on the 13th day of March, 1915, at 2 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees, or officers heretofore chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
7. To see how much money the District will raise and appropriate for the support of schools.

8. To see how much money the District will vote to raise for the repairs of schoolhouses.

9. To see what salary the District will vote to pay the School Board, Truant Officer and Treasurer.

Given under our hands at said Warren this 25th day of February, 1915.

<p>WILBUR C. GORDON, EDGAR S. CARBEE, WILLIAM B. NICOL,</p>	}	School Board.
---	---	---------------

Notice

CONCORD, N. H., February 8, 1915.

TO THE SELECTMEN:

We suggest that you cause the following extract from the report of the Tax Commission for 1914 to be printed in your town report this spring. It may tend to economy in town appropriations.

Very truly,
STATE TAX COMMISSION,
By W. B. FELLOWS, Secretary.

Report State Tax Commission, 1914

INCREASE IN PUBLIC EXPENDITURES.

No power has constituted the members of the tax commission guardians of the public in respect to expenditures for the support of government, and they have no disposition to assume that role. Nevertheless, "economy being a most essential virtue in all states," and it being "the duty of legislators and magistrates * * * to countenance and inculcate the principles of * * * economy," all as set forth in the constitution of this state, the commissioners believe themselves to be amply justified in urging, as they have so often urged before, the importance of this subject upon the voters of the state. The public revenue, state and municipal, is the voters' business and they are responsible, directly or indirectly, for every extravagance affecting it from the inception to the termination of the fund.

Every compulsory contribution levied by public authority upon people or property is in the broad sense of the term a tax, nor is it made less obnoxious or burdensome if called a fee or a fine. In the figures that follow therefore, all fees, fines, and other exactions, if any, are included with the taxes upon polls and estates. To illustrate the comparative importance of the two classes, it may be said that the taxes upon polls and estates represent about 95 per cent and all other income about 5 per cent. of the total revenue of the state, and of the counties, cities, towns, districts and precincts therein.

Taxes as defined above have increased by leaps and bounds in recent years. In 1903 the sum of all the taxes assessed by and within the state of New Hampshire was \$5,373,420.22; in 1913 it was \$8,765,039.07, an increase of \$3,391,618.85, or 63 per cent., in ten years. But these figures do not adequately represent the velocity the upward movement has now attained. To show that it is necessary to divide the ten-year period: The levy in 1908 was \$924,388.79, or 17 per cent. greater than in 1903, while that in 1913 was \$2,467,230.06, or 39 per cent. greater than in 1908. By so much did the advance in the last half of said period exceed that in the first half. These figures will be the more alarming if it is remembered that while taxes already sufficiently heavy were advancing 63 per cent., the population of the state increased only about $4\frac{1}{2}$ per cent., and while the one was advancing 39 per cent., the other increased only $2\frac{1}{4}$ per cent.

It is instructive to study the subject from another angle. In the ten years from 1904 to 1914, both inclusive, the annual increase in all taxes defined and limited as above was as follows:

1904	\$ 34,459.91
1905	286,590.14
1906	115,468.39
1907	411,257.46
1908	76,612.89
1909	539,995.09
1910	787,565.31
1911	215,848.50
1912	296,216.85
1913	627,603.43

The average yearly increase for the whole period was \$336,561.85. The upward trend is more plainly shown, however, by dividing, as before, the ten-year period in the middle and considering the halves separately. For the first five years the average annual increase was \$184,877.76; for the last five years it was \$493,446.01. It is surely pertinent to consider how long the little state of New Hampshire, almost stationary in wealth, can sustain a tax already burdensome and increasing at the rate of practically half a million dollars a year without crippling her industries and impoverishing her people. Plainly it is a condition not calculated to attract capital from without the state or to encourage business within the same.

From the per capita standpoint the situation is not less disturbing. In 1903 there were assessed \$12.88 in taxes for each man, woman and child in the state. Five years later there were assessed \$14.75 for each individual, and in five years more \$20.09. If in 1913 taxes had been equally distributed among all the people it would have meant a burden of \$100 for each family of five members. Though in reality there was little such equality in the assessment there was much in the payment. The fact is that those who occupy, use or consume property, no matter who owns it, are those who in the last analysis pay most, if not all, of the taxes thereon. If the wage earner or the man of limited means understood he was in reality paying something like \$100 a year in state and municipal and half as much more in federal taxes for the government of himself, his wife and three children his influence and his vote would more frequently make for economy in appropriations and expenditures than heretofore.

No statistics for the year 1914 appear in the above paragraphs for the reason that they are not yet at hand except in part.

Births Registered in the Town of WARREN, N. H., for the Year Ending December 31, 1914.

Date of Birth 1914	Place of Birth.	Name of Child	Sex	Living or Stillborn	No. Child	Name of Father.	Maiden Name of mother.	Color of Parents	Residence of Parents.	Occupation of Father.	Birthplace of Father	Birthplace of mother
