THE STATE OF NEW HAMPSHIRE
TOWN WARRANT

To the Inhabitants of the Town of Washington qualified to vote in Town affairs:

You are hereby notified to meet at the Town Hall in said Washington on Tuesday, the twelfth day of March next, at ten o'clock in the forenoon to act upon the following articles:

Art. 1. To elect a Town Clerk, Town Treasurer, one Selectman for three years, Road Agent, Tax Collector, Auditor, Fire Chief, Police Chief, one member of the Library Committee for three years, one member of the Trust Fund Committee for three years, one member of the Planning Board for five years, and any other Town Officers.

Art. 2. To see if the Town will vote to raise and appropriate the sum of \$709.18 and accept State Aid of \$4727.89 for Town Road Aid.

Art. 3. To see if the Town will vote to raise the wages of Highway Department.

Art. 4. To see what sum of money the Town will vote to raise and appropriate for the maintenance of highways and bridges for the ensuing year.

Art. 5. To see what sum of money the Town will vote to raise and appropriate to defray Town Charges for the ensuing year.

Art. 6. To see if the Town will vote to authorize the Selectmen to borrow in anticipation of taxes.

Art. 7. To see what sum of money the Town will vote to raise and appropriate for the support of the Fire Dept. for the ensuing year.

Art. 8. To see what sum of money the Town will vote to raise and appropriate for the Shedd Free Library for the ensuing year.

Art. 9. To see if the Town will vote to raise and appropriate an additional \$150. for the Siren for East Washington Fire Station.

Art. 10. To see if the Town will vote to raise and appropriate \$500. and re-appropriate balance of Forest Fire account for Dry Hydrants.

Art. 11. To see what sum of money the Town will vote to raise and appropriate to pay long term notes outstanding.

Art. 12. To see if the Town will vote to raise and appropriate \$100.00 to support the Dartmouth-Lake Sunapee Region Association.

Art. 13. To see if the Town will vote to raise and appropriate the sum of \$1000.00 to add to the existing appropriation, to construct a wall at the Washington Center Cemetery.

Art. 14. To see what sum of money the Town will vote to raise and transfer to Capital Reserve for Permanent Bridges.

Art. 15. To see what sum of money the Town will vote to raise and transfer to Capital Reserve for Highway Equipment.

Art. 16. To see if the Town will vote to adopt the following recommendations of the Planning Board concerning roads in developments or subdivisions:

No road shall be accepted by the Town unless it meets the following minimum standards: A right of way of 40 ft.; a roadway width of 24 ft., at least 12 inches of gravel on a stabilized base; culverts, where necessary, not less than 12 inches in diameter; and all necessary ditches to provide proper drainage. The Selectmen shall be responsible for seeing that these standards are met.

Art. 17. To see if the Town will vote to reopen that portion of the Marlow Road, previously discontinued subject to gates and bars, from Wilcox corner to the road onto Gordon Davis land. (approx. 600 ft.)

Art. 18. To see what sum of money the Town will vote to raise and appropriate to build the bridge and improve the road mentioned in previous article.

Art. 19. To see if the Town will vote to raise and appropriate \$450.00 for three band concerts, one of which will be played in East Washington.

Art. 20. To see if the Town will have a committee of six, appointed by the Moderator, to study if zoning regulations

should be adopted, and if Historic Sites should be established, and make a report to the next Town meeting.

Art. 21. To see if the Town will vote to raise and appropriate the sum of \$200.00 to become a participating member of the Newport Area Public Health Nursing Association. This Association being a Certified Public Health Association as specified by the Medicare program.

Art. 22. To see if the Town will vote to open $\frac{1}{4}$ mile of the Huntly Mt. Road from the Ashuelot Pond Road, and raise and appropriate a sum of money for same.

Art. 23. To transact any other business that may legally come before this meeting.

AUDITOR'S CERTIFICATE

Washington, N. H.

January 26, 1968

I have examined the books and accounts of the Selectmen, Town Clerk, Town Treasurer, Tax Collector, Road Agent, Trustees of Trust Funds, Trustees of Shedd Free Library, Town Planning Committee and Town History Committee and with the correction of minor clerical errors, declare them correct.

FRANCES J. CRANE

Auditor

Report of Librarian and Trustees 1967

Circulation from the 2854 volumes in the library and 1900 from the bookmobile from Keene totaled 4550, 223 more than last year. As one of the 190 affiliated libraries in the Statewide Library Development Program, we received \$100 worth of new reference books at no cost, and bought books at reduced cost as one of the 177 libraries in the Co-

operative Book Buying program which ordered over \$134,000 worth of books for its members in 1967. Remember that your library is open every Wednesday afternoon from 2 to 4 and from 7 to 9 in the evening and everyone is invited to make use of its facilities.

POLICE DEPARTMENT REPORT

Number of calls recorded	54
Auto accidents	9
Breaks reported and investigated	11
Other calls	26
Attempt to locate and urgent calls	6
Help calls from other towns	2

You will note in this Town Report that the Police Dept. exceeded the amount appropriated for radios by \$244.96, however, we bought the best available, Transistorized Halli-crafters, and they have proven their worth. We wish to thank Chief Kaye of the Hillsboro P. D. and the Contoocook Valley Telephone Co. for free base station service.

We have stayed within our budget by donating 102 man hours and 1592 miles of travel to the patrol of lakes, also included is Sunday time and travel.

We hope in the near future some younger men will come forward and assume the duties of Police in our town, until then, Officer Hadaway and myself say thanks to the people who have helped us.

Respectfully submitted,

FREDERICK G. OTTERSON
Chief

**REPORT OF FOREST FIRE WARDEN
AND DISTRICT CHIEF**

The year of 1967 will go down in history as a wet year although the early spring was dry and windy. During this time, we had many fires, unnecessary fires caused by carelessness and disregard for the common-sense fire laws and regulations. This lack of responsibility on the part of a few people hurts everyone. Let's work together to prevent the start of those unnecessary fires by:

1. No burning between 9:00 a.m. - 5:00 p.m. and then only with a permit from the Forest Fire Warden.
2. Take all debris and waste to the town dump.
3. Keep a clean, safe town dump.
4. Urge close supervision of children in regard to use of matches.
5. Exercise care with smoking material — use the ashtray.

Planning Committee Report

Following the Town Meeting last March, the committee again sent out requests for bids from nearby contractors for building a wall at the New Cemetery and again received none. In April they met with the owners of Washington Lake Estates who explained their plans to develop the 380 acres on the east shore of Island Pond. They have restrictions which should result in an attractive improvement of the land for individual lot owners and increase the tax revenue to the Town. At the end of the year the committee met and drew up three articles for the 1968 warrant pertaining to standards for new Town roads, construction of the wall at the New Cemetery, and whether the subject of some type of zoning should be studied.

History Committee Report

It was voted at Town Meeting March 14, 1967 to accept the offer of writer Carl Irving Bell of Concord and Washington to write a new History of Washington and \$850 is available for this. Mr. Bell is gathering material and has also taped some interviews with some residents. He is waiting for the committee to send out questionnaires for information for the geneological part of the History. Maps and photographs are being prepared. It is hoped all the material will be ready by March 1969.

FIRE STATION COMMITTEE

1967 Report

At the Town Meeting of March 8, 1966, after this committee had made its report, it was voted to construct a new Fire Station on land leased from the Heald family, with an appropriation of \$4,000 of existing funds and borrowing \$4,500 additional funds. However, due to certain legal delays, the lease was not received until March 3, 1967 so no work was done.

At the Town Meeting on March 14, 1967 it was voted to accept the lease and appropriate \$99 to pay it for 99 years, and to build the Fire Station with the \$8,500 available. Work of clearing the site was started May 14, 1967 but due to such things as a five inch snowstorm May 25 and lack of time available to the volunteer workers, progress was slow. After the stone wall, topsoil and boulders had been cleared by a bulldozer, it took more than 60 loads of gravel hauled by the road agent and others in their spare time to level the site for the foundation. Because of the ledge and the rigid requirements to be met to qualify for matching funds, it was considered best to eliminate a basement as originally planned. Volunteers started erecting forms for the footings on August 20 but were rained out so that work was not completed until September 3. After forms for the foundation walls were erected and poured, framing started September 16. On September 23rd, the 25 heavy, 42-foot long, trussed, prefabricated rafters were erected with the help of the town truck acting as a crane. The 2300 sq. ft. of roof deck was completed October 7 and on October 22 a large group of volunteers were happy when they finished laying the last square of asphalt shingles at exactly five o'clock. Windows were put in by November 5 and building paper was put on to protect the exterior.

On November 10 the front door piers were finished just ahead of the early six-inch snowfall on November 15. The

front was temporarily closed in for the winter on December 3 and fire insurance was put on the 40 by 48 foot building. Later the furnace will be used to heat the interior enough so inside work can be done by volunteers if they have the time, until warm weather arrives and the floor can be poured, the three 10 by 10 foot doors installed, and the building completed. Expenditures of \$4,300 plus \$1,200 for the heating system will leave about \$3,500 to finish the Fire Station. The exact costs will be reported when the work is all done.

SCHOOL WARRANT

To the Inhabitants of the School District in the Town of Washington qualified to vote in district affairs:

You are hereby notified to meet at the Washington Town Hall in said district on the 9th day of March, 1968 at eight o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To elect a member of the School Board for the ensuing year.
5. To choose a Treasurer for the ensuing year.
6. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.
7. To hear the reports of agents, auditors, committees or officers heretofore chosen, and pass any vote relating hereto.
8. To choose agents, auditors, committees in relation to any subject embraced in this Warrant.
9. To see if the district will vote to authorize the school board to make application for, and to accept on behalf of the district, any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire for the district for the school year 1968-69.

10. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the payment of salaries of school district officials and agents and for the payment of the statutory obligations of the district.

11. To see what sum of money the district will raise and appropriate for the noon lunch program.

12. To transact any other business that may legally come before said meeting.

Given under our hands at said Washington this thirteenth day of February, 1968.

SUPERINTENDENT'S MESSAGE

The nature of my report over the past few years has changed to a considerable extent from reporting past events to an attempt to inform the public of changes to be expected at the three governmental levels as they pertained to education. In this, my fourteenth report to some of the districts in the Union and my first to Hopkinton and Henniker, it is my intention to present for your consideration some new thinking in financial support theory and the impending growth of relatively new educational practices.

For some time I have contended that the New Hampshire Foundation Aid formula was not a good one because it was based on real estate determining the wealth of the community. This was probably good thinking fifty or sixty years ago, but today personal wealth and income would be a more valid criteria. However, the State of New Hampshire with its antiquated tax structure has no alternative but to place the burden of continually rising school cost on the real estate owner. There is some question in my mind as to the local communities ability to continue to meet the financial demands for public school education. It would appear obvious that we are fast reaching a point where communities are going to establish a mills tax for educational purposes and say to the school boards, "This is the amount of money you will get; as the tax base increases, so will your income, but you will have to operate within this amount regardless of what it does to your program." Such drastic action will not appeal to many, but now comes Finis E. Engleman, one of the most experienced and respected educators in the country, with a relative new theory for financing public schools in the United States. He says:

Public education in the United States is being crippled and pauperized by a philosophy long since obsolete — and growing more so every day. This philosophy says: Public education should be financed primarily by local taxation, with supplementary aid from the State and token assistance from the federal government.

Wealth fled the grasp of the local tax collector. Old tax structures, old sources of revenue became inadequate, unfair and outmoded.

He proposed a completely different hypothesis from which, at first blush, you will probably reject with horror. It is this: "The federal government should assume primary

responsibility for providing public school revenues, with local and State sources providing supplementary and categorical aid.”

The responsibility for education will remain at its present sources, the difference being that the federal government, with its tax receipts growing as does the gross national product, will distribute a portion of its tax money where the children go to school.

Such a possibility makes sense when one views the following facts: In 1940 only \$4.9 billion was collected in Washington. By 1961, however, the sum has risen to \$77.5 billion, or nearly 16 times the amount 21 years before. By 1963 it had again jumped to \$86.8 billion. This is why such a possibility makes sense: with no tax increase, nearly \$5 billion in new money has been realized annually.

Such thinking is something to become excited about and at this point, the only possibility, that I am aware of, that will provide real estate tax relief.

I don't believe it is generally recognized the extent that change is taking place in education today. Following is an attempt to explain some of these changes that you may be facing.

1. The growing militancy of teachers is just getting off the ground in New Hampshire. In the next few years you will be astounded by the requests from this group. This really should not come as a surprise to you because the salaries which are being offered to these college graduates has been falling farther and farther behind those who choose to enter industry. The teachers have begged their cause for a long time and are now turning to union tactics to satisfy their desires. New Hampshire Teachers have read of the success of the city teachers in their endeavors last fall and you will soon be receiving their message “Loud & Clear.”

2. A few short years ago (1962 to be exact) the implementation of the Secondary School Standards raised the eyebrows of many citizens when it required a school library in every secondary school in the State. In 1966 the new, “Elementary Guidelines for New Hampshire,” recommended a library for every elementary school. Most districts are hard to work trying to build up these facilities and now we find ourselves hit with new thinking of this area. It will no longer be a library but an Instructional Materials Center. Perhaps you don't have much in the way of equipment along these lines at the present, but in the next few years the re-

quests for such will be substantial. What is it all about? Just this: Our electronics wizards have come up with some teaching machines such as the opaque projector, the overhead projector, several kinds of reading machines including micro-film readers and others too numerous to mention. These machines have merit and are extremely helpful teacher's aids. The cost of the machines will be substantial but the procurement of film, tapes, transparencies and the like will tend to be a sizable budget item. However, this is progress and we must keep up with it.

The merging of some of our electronic companies with textbook publishing companies was not done merely to diversify the products of any particular company. Both groups could visualize the possibility of developing some learning techniques that had not been contemplated before. A few instruments have been produced and are in the trial period right now and it will be very interesting indeed to see their contribution to the Instructional Materials Center a few years from now.

3. Last February, at Atlantic City, I made a little speech at a banquet given by the Milton Bradley Company for present and former New Hampshire Superintendents. In it, I made the remark that this was a "red letter" day for the company inasmuch as its stock had reached a new high of $23\frac{5}{8}$ that day. Today that same stock was quoted at 58 on the New York Stock Exchange and it is rumored that there will soon be a 2 for 1 split. This phenomenal growth is no accident. This company has always been the largest manufacturer of educational games and is now reaping its reward for its leadership in the field. Educators are beginning to find that by employing the use of these games that they are able to motivate pupils with whom they had had a difficult time by using traditional teaching methods. Some of these games are simple and inexpensive, some are sophisticated and costly. The idea has caught on and more manufacturers are entering the field. It will be interesting, five years from now to see what impact games will have in the total instructional program. Do not become disturbed when you visit school and find this teaching technique being employed to a considerable extent — you can be assured that learning is taking place.

It was naturally a great disappointment to me, too, that the various cooperative programs were rejected by the voters in the various districts because I sincerely feel that the merits of the small educational units no longer exist. However, decisions have been made and it is assured that the

efforts of this office will be to provide the very best of educational opportunities under the existing organizational structure.

This office is pleased to welcome Hopkinton and Heniker to Supervisory Union #24. Because of the addition of an Assistant Superintendent, we think we are providing services to the districts and faculties which was not possible before. We hope that the citizens of these communities will feel free to contact us if there is any information or service we can provide for them.

Respectfully submitted,
NORMAN R. HARTFIEL
Superintendent of Schools

SCHOOL NURSE'S REPORT

To the Washington School District:

I am submitting an account of the school nursing program for the school year 1966-67.

A semiannual physical examination of the students was done in September and June and parents were notified of the results. Eye examinations were completed and parents were again notified if corrective measures were necessary.

Five students and several pre-schoolers received the measles vaccine at a clinic in April which was held in Antrim.

A film "Be Water Wise" was shown in April in order to prepare the students for proper water safety procedures prior to their summer vacation.

GAIL N. JOHNSON, R. N.

ASSISTANT SUPERINTENDENT'S MESSAGE

Keeping a school system in step with the times is the most perplexing problem facing many communities today. Because of our rapidly expanding knowledge of how children learn, the development of new and sometimes more efficient learning materials and the ever increasing body of knowledge available to us, every school system has become confronted with the need to make some rather vital school decisions. Involved is the task of translating all of this business of change into a practical school program, at a reasonable cost, that will fulfill the community's responsibility to its young people. This is a rather monumental concern. It calls upon those of us working in the schools to constantly investigate the new developments in education in relation to their value in themselves and to our school programs. It calls for greater school and community cooperation in exploring and developing the means to keep the school system up to date and effective. And, indeed, the most important is the challenge placed upon us to provide for each child the opportunity for an education that will hold him in good stead for whatever his needs may be no matter where he may eventually reside.

In keeping with the theme in the first paragraph, many of our activities both present and future have been directed towards strengthening and improving the educational opportunity for your children. Listed and described below are some of the activities we feel are leading us towards the above goal.

Classroom Supervision

As is the case with curriculum and in-service education, working with teachers in classroom instruction is a means to improving the quality of education. It is our thought that through a good program of classroom supervision we can do much in assisting our teachers in their efforts in the classroom. Obviously, no amount of curriculum planning or in-service work is going to mean much if it is not used in our work with students.

In a cooperative effort with the school principals we are embarking on a program that will call for increased classroom visitations and provide for a closer working relationship with our teachers. Hopefully, we will arrive at a point where the old image of supervision (sometimes called "snooping") can be replaced with the feeling that it is a sincere attempt to be of greater service to them.

Our knowledge of how a child learns, is causing us to wonder a little bit about our teaching methods. And, really, is it necessary to good learning that every class meet 250 minutes per week? Is a 180 day school year adequate not only for instructional purposes but also to allow time for the staff to engage in research and development programs?

This is merely scratching the surface. If we add to this special education, computerized instruction, problems of federal, state, and local support of schools, finance, transportation, year round schools, adult education, vocational education, and teaching militancy, it almost becomes overwhelming the role your schools must play. Yet, if we are sincere about our desire to provide good schools then we are at least obligated to explore in some depth all aspects of these ideas, for not to do so seems to be denying the thing we profess.

The future of education is both exciting and challenging. If we can relate satisfactorily the roles of various government levels, provide adequate financing, make teaching an attractive profession and engender community support and trust in the efforts of the school system then we will at long last have arrived at the day where your schools can make you justly proud of them.

With your support and cooperation that day need not be too far off.

SALARIES OF SUPERINTENDENTS OF SCHOOLS

Supervisory Union #24

1968 - 69

	Superin- tendent	Assistant Superin- tendent
A. State Share	\$ 2,500.00	\$ 2,700.00
B. Share paid by:		
Henniker School District	1,946.95	1,489.84
Hillsboro-Deering School District	4,333.78	3,316.28
Hopkinton School District	4,188.88	3,205.40
Stoddard School District	532.45	407.44
Washington School District	419.17	320.76
Windsor School District	78.77	60.28
Total Salary	\$14,000.00	\$11,500.00

Federal Programs

Because of the availability of federal funds we have been able to purchase materials and provide services that heretofore either came out of district funds or were not available at all.

Through Title III of the National Defense Education Act we have purchased audio-visual equipment, and various other items for use in nearly all aspects of our program.

Through Title II of the Elementary-Secondary Education Act we have been able to add books and other resource materials to our libraries.

Title I is now providing a remedial reading program in Henniker, Speech Therapy in Bennington and Hopkinton, and will support Summer School Programs in reading and math for Hopkinton, Bennington and Hillsboro-Deering. There is little doubt that each program has contributed immensely to our education opportunities.

Even though we feel that much of what we are doing will help keep up with present day demands, we must avoid the pitfall of complacency and self satisfaction. Any action we take for our schools now must be viewed not only in terms of purely local situations or the satisfaction of an immediate need, but must take into strict account its implications for the future. Already we see these ideas rapidly approaching:

Many of our present physical facilities lack the flexibility for new instructional methods that will no doubt become a by-word in the very near future.

Our libraries, rather than serve simply as a depository for books, will take on a new look. Students will be using many other sources to find information. Research materials will also be in the form of tapes, recordings, films, filmstrips, micro-film and even video tape.

A great premium will be placed upon new types of grouping with the idea of chronological age as a determinant for grade placement being seriously questioned. As a result we are now learning things like developmental placement, school readiness, non-grading, team teaching and learning and large groups, small group and independent study.

It is being questioned whether or not the magic number of class size is really so magical. Actually the situation and subject matter are a more logical approach to the class size problem than simply some arbitrary numbers.
