CONTENTS

Chapter 1	General introduction	7
Chapter 2	Occupational risk of salmonellosis and campylobacteriosis: a nationwide population-based registry study	29
Chapter 3	Occupational exposure and risk of colon cancer: a nationwide registry study	69
Chapter 4	Repetitive exposure to non-typhoidal <i>Salmonellae</i> is an environmental risk factor for colon cancer	101
Chapter 5	Association between <i>Salmonella</i> infection and colon cancer: a nationwide registry-based cohort study	133
Chapter 6	Severe <i>Salmonella</i> spp. or <i>Campylobacter</i> spp. infection and the risk of biliary tract cancer: a population-based study	151
Chapter 7	Bacterial and parasitic pathogens as risk factors for digestive tract cancers: a review of current epidemiological knowledge.	171
Chapter 8	From bedside to bench: a molecular epidemiological investigation into the association between nontyphoidal <i>Salmonella</i> infection and colon cancer	281
Chapter 9	General discussion	323
Appendix	Summary	350
	Samenvatting	354
	Curriculum Vitae	360
	List of publications	362
	Dankwoord	364
