# Research problem

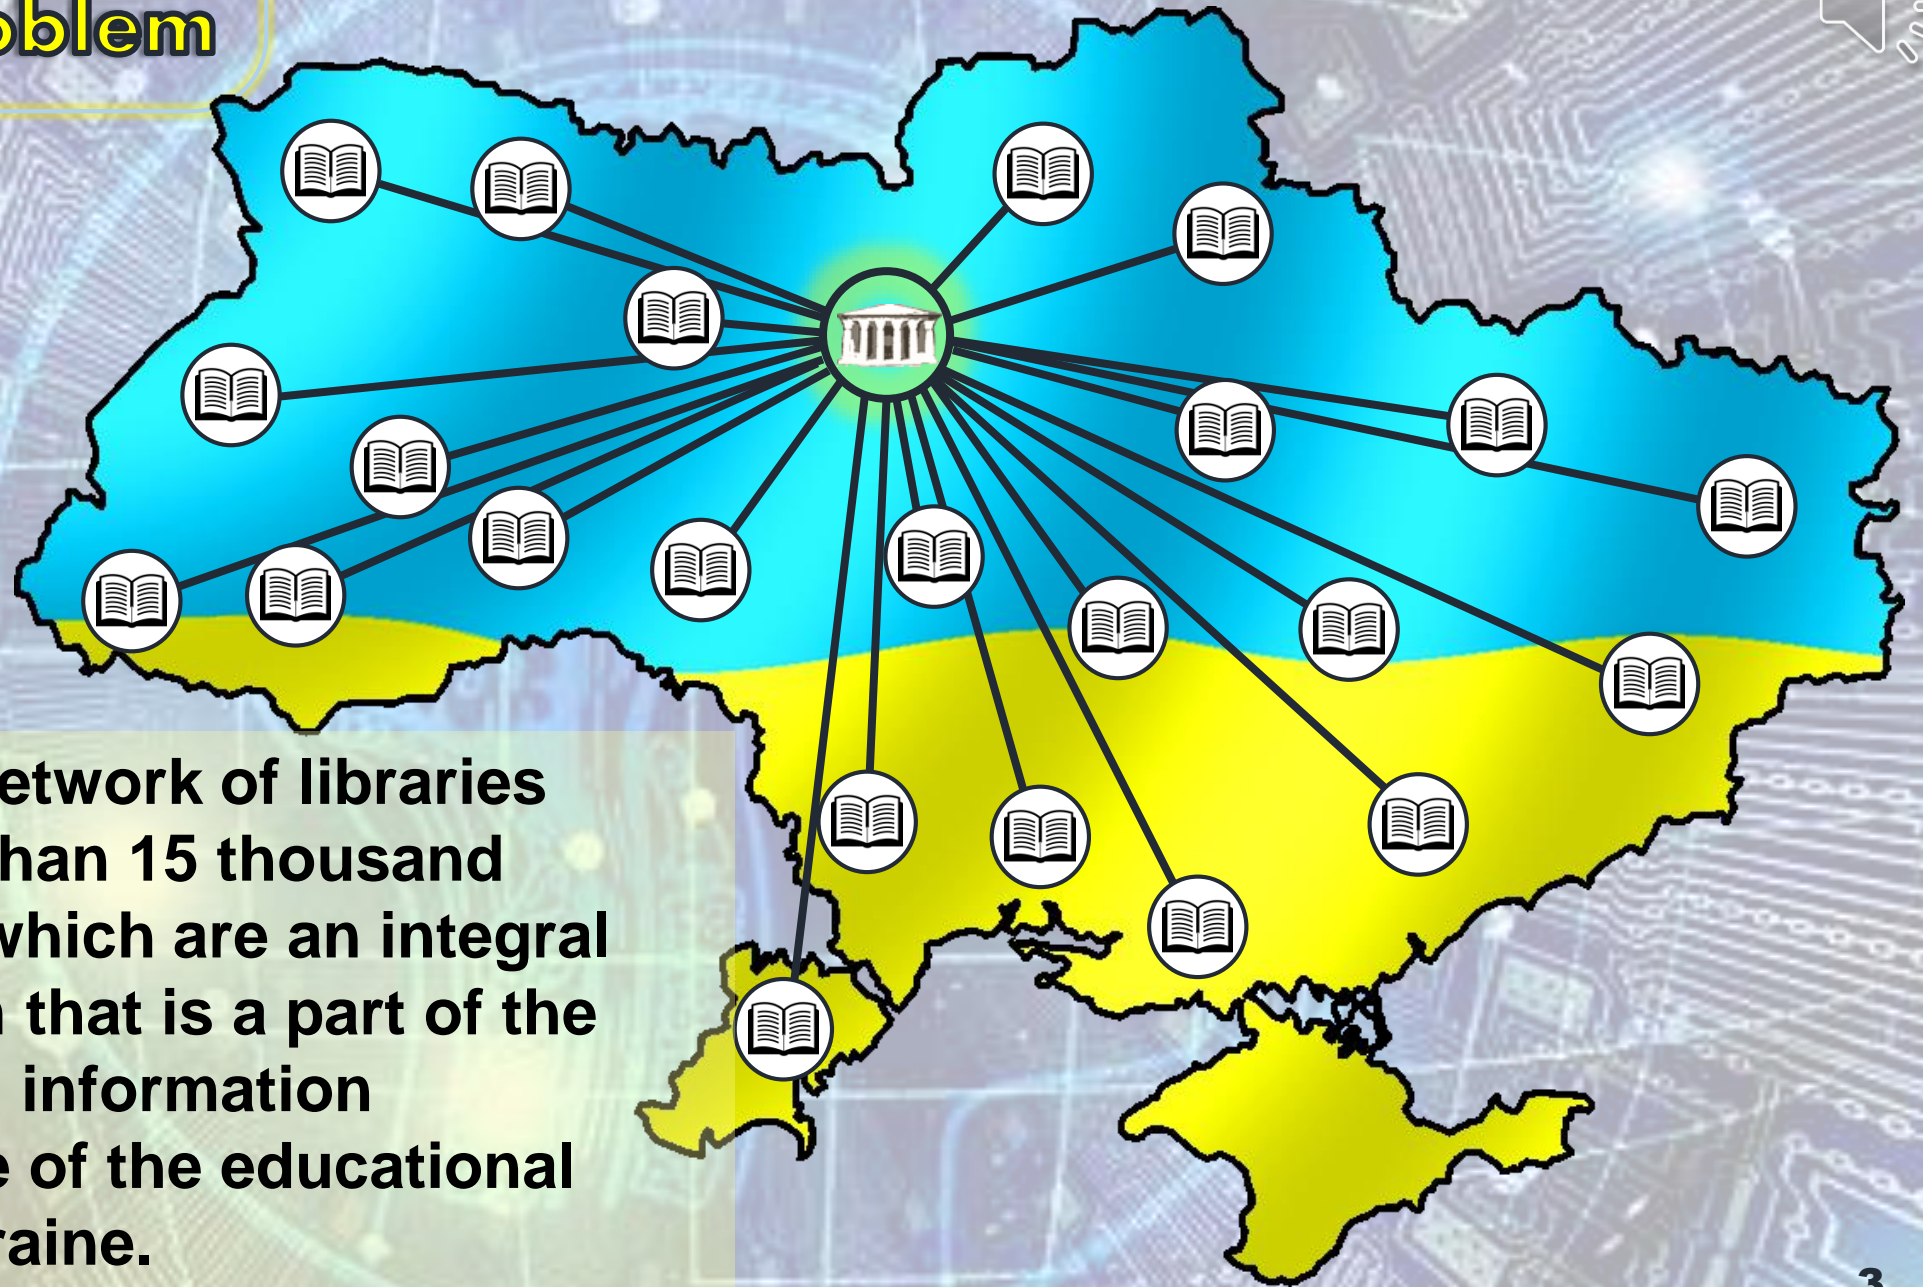

**A global trend is the digitalization of libraries, the provision of open access to printed and electronic documents, the formation of modern information resources, the optimization of traditional methods of working with information in the library environment.**

**The information and library support we consider as a purposeful activity to create digital information resources and provide access to them based on the widespread use of the latest ICTs to meet the information needs of users - applicants for education, pedagogical, scientific, scientific and pedagogical workers**

# Research problem

**The branch network of libraries unites more than 15 thousand institutions, which are an integral macrosystem that is a part of the scientific and information infrastructure of the educational sphere of Ukraine.**

# Approach

**The purpose of our study is to reveal the features, significance and prospects of information and library support for education in Ukraine in the context of its digitalization.**

# Statement of Basic Material and the Substantiation of the Obtained Results

Information and library support for education is provided by 26 electronic libraries, a system of scientific information, cultural and educational events in the online format (conferences, seminars, webinars, virtual exhibitions, etc.).

Monitoring of the activities of the leading educational libraries showed that the electronic catalog is placed on the sites (pages) of the 41st library.

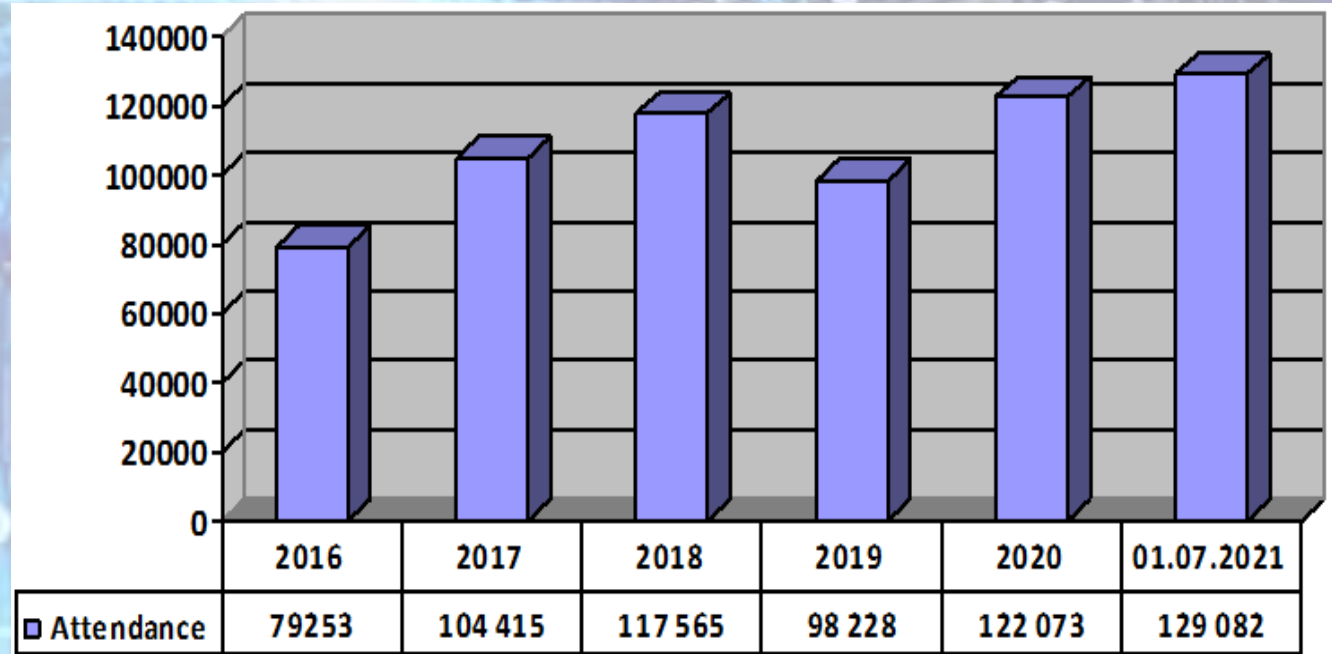

# Statement of Basic Material and the Substantiation of the Obtained Results

The introduction of ICT has led to an increase in the number of remote users and virtual visits to libraries. Statistics shows that virtual visits (more than 1.3 billion) are almost 8 times more than traditional ones (more than 167 million)

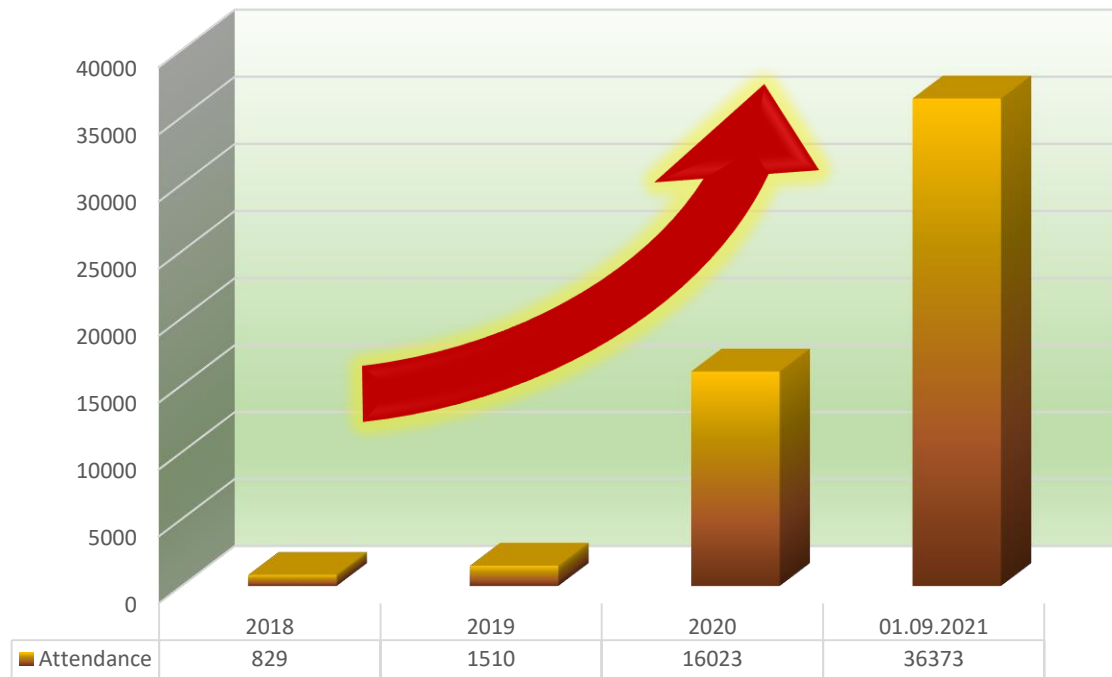

# Statement of Basic Material and the Substantiation of the Obtained Results

SSPL plays a leading role in the integration and dissemination of pedagogical biographical knowledge.

For example, there is an electronic information and bibliographic resource "Outstanding teachers of Ukraine and the world" in SSPL, the purpose of which is to popularize the best achievements of domestic and foreign pedagogical science.

Today it is one of the most popular and demanded resources of the SSPL, confirming the relevant statistical data. 7

# Statement of Basic Material and the Substantiation of the Obtained Results

In the course of 2020-2021, specialists of SSPL of Ukraine named after V.O. Sukhomlinsky implemented six online projects via Facebook: “We Stand on the Shoulders of our Predecessors: Outstanding Teachers of the Anniversary”, “Read Sukhomlinsky Online”, “Aphorisms of Sukhomlinsky”, “Tales of V.O. Sukhomlinsky in manuals of O.Ya. Savchenko”, “Sukhomlinsky News”, “Calendar of Significant and Memorable Dates in the Field of Education”.

In the 2021 by specialists from the SSPL of Ukraine named after V.O. Sukhomlinsky created and presented on the institution's web portal a virtual reading room of the V.O. Sukhomlinsky Fund, a virtual reading room of a teacher and a virtual room - museum of a rare book.

# Conclusion

In the context of the development of digital pedagogy, modern challenges, in particular, the global pandemic COVID-19, an important factor in the modernization of education is its information and library support. The leading role in this process in Ukraine is played by the network of educational libraries headed by the SSPL.

The results of the carried out research provided the theoretical and methodological foundations for the creation of an industry information resource; scientific, methodological and informational support for the activities of educational libraries to adapt them to modern requirements.

The practical implementation of the research results made it possible to provide remote information services, access to domestic and foreign resources through the SSPL web portal and websites; creation of various digital resources; conducting scientific, informational, cultural and educational events in an online format.
