The authors wish to make the following modification to this paper [1]. The forward primer sequence in page 3 should read: (panCh-Fwd [5'-ccgccaactggact-3']).

We want to emphasize that this is a typographical error: the sequence of the forward primer used in this study was as indicated in the original publication (Lienard et al. 2011) [1] and in the corrected text.

The manuscript will be updated, and the original will remain online on the article webpage, with a reference to this Correction.
