PAPERBACK ISBN: 978-1-6667-0346-7

HARDCOVER ISBN: 978-1-6667-0347-4

EBOOK ISBN: 978-1-6667-0348-1

Cataloguing-in-Publication data:

Names: Paulus, Michael J., Jr., editor. | Langford, Michael D., editor.

Title: AI, faith, and the future / edited by Michael J. Paulus Jr. and Michael D. Langford.

Description: Eugene, OR: Pickwick Publications, 2022 | Includes bibliographical references and index.

Identifiers: ISBN 978-1-6667-0346-7 (paperback) | ISBN 978-1-6667-0347-4 (hardcover) | ISBN 978-1-6667-0348-1 (ebook)

Subjects: LCSH: Technology—Religious aspects—Christianity. | Artificial intelligence—Religious aspects. | Artificial intelligence—Philosophy. | Artificial intelligence—Moral and ethical aspects.

Classification: BR115.T42 A3 2022 (paperback) | BR115.T42 (ebook)

Contents

<i>Contributors</i>	vii
PART I: FOUNDATIONS	
1 Introduction Michael J. Paulus Jr.	3
2 An Introduction to Artificial Intelligence Carlos R. Arias	15
3 What's So <i>Artificial</i> and <i>Intelligent</i> about Artificial Intelligence? A Conceptual Framework for AI Rebekah L. H. Rice	52
4 A Theological Framework for Reflection on Artificial Intelligence Michael D. Langford	70
PART II: EXPLORATIONS	
5 Artificial Intelligence and Theological Personhood Michael D. Langford	97
6 Reinforcement in the Information Revolution Phillip M. Baker	128
7 21st Century Learning Skills and Artificial Intelligence David Wicks and Michael J. Paulus Jr.	152
8 Automation and Apocalypse: Imagining the Future of Work Michael J. Paulus Jr.	170
9 Sin and Grace Bruce D. Baker	190

vi Contents

Epilogue: A Litany for Faithful Engagement with Artificial Intelligence	219
Bruce D. Baker	
<i>Index</i>	223

Contributors

CARLOS R. ARIAS, Assistant Professor and Chair of Computer Science at Seattle Pacific University.

BRUCE D. BAKER, Associate Professor of Business Ethics at Seattle Pacific University.

PHILLIP M. BAKER, Assistant Professor of Psychology at Seattle Pacific University.

MICHAEL D. LANGFORD, Professor of Theology, Discipleship, and Ministry at Seattle Pacific University and Seattle Pacific Seminary.

MICHAEL J. PAULUS JR., Dean of the Library, Assistant Provost for Educational Technology, and Associate Professor of Information Studies at Seattle Pacific University.

REBEKAH L. H. RICE, Associate Professor of Philosophy at Seattle Pacific University.

DAVID WICKS, Associate Professor of Curriculum and Instruction at Seattle Pacific University.

Index

- abductive reasoning, 161, 162
- Abel, 210
- Abelard, Peter, 84n40
- abilities, of humans as creatures, 15
- abortion, 101n5
- accountability, for AI, 9
- actions, 56–57, 62, 63
- adventus*, 182
- advertising, targeting to consumers, 140
- Aegis Combat System weapons control system, 44
- affective element, of our love for God, 114
- “affinity analysis,” 33
- AGI. *See* artificial general intelligence (AGI)
- agricultural revolution, development following, 173
- AI. *See* artificial intelligence (AI)
- AI and Faith, 10
- The AI Delusion* (Smith), 4
- “AI fallacy,” 4
- Alexa, 6, 11, 12, 20
- Alexa Live, Amazon’s voice developer conference, 11
- algorithmic managers, misleading drivers, 192n3
- algorithms, 131, 140
- ALICE chatbot, 19
- alienation, 82n32, 197–201, 206, 209
- Amazon, 3, 12, 20
- “ambiguous technological dystopia,” of Vonnegut, 177
- Anabaptists, approach to reinforcement, 142–148
- “analogy of being,” not defining God out of, 75–76
- anecdote, in saga form, 102n6
- animals, not sufficient for human sociality, 103
- “anomaly detection,” 32
- Anselm, 84, 86n45
- Anthropocene, yielding to the Robocene, 179
- anthropological priority, in creation, 108n25
- anthropological status, question of, 98–101
- Aoun, Joseph, 159, 164
- Apocalypse, creating “a remarkable space,” 186
- apocalypse, meaning “unveiling,” 91
- Apocalypse of John, as a book for and about cities, 183
- apocalyptic AI, 91, 91n59
- apocalyptic future, of work, 171–172
- apocalyptic literature, function of, 183
- apocalyptic visions, 182–183
- Apostles’ Creed, 182
- Apple, launching SIRI (Speech Interpretation and Recognition Interface) on iPhone 4, 20

- armament, artificial intelligence used
 - in, 44
- artifacts, 185, 186, 200
- artificial, as a term, 52
- artificial agents, 12, 180, 209
- artificial creatures, rebelling, 7
- artificial general intelligence (AGI), 5,
 - 6–7, 48, 91, 91n60
- artificial intelligence (AI)
 - advances in, 45–46
 - agents, 163, 164
 - ameliorating human suffering with,
 - 144
 - anthropological status of, 98–101
 - applications, 213
 - for artificial intelligence, 47
 - autonomous power coming with
 - moral hazards, 196
 - cannot be the source of salvation,
 - 84–85
 - challenges posed by, 194
 - coined as a term at the Dartmouth
 - Workshop, 19
 - coining of, 16
 - complexity of, 208
 - concept of changing with time, 20
 - conceptual framework for, 52–67
 - constructing new “Towers of
 - Babel,” 207
 - deemed imperfect from the outset
 - as a phrase, 64
 - definitions of, 21, 24, 100
 - discerning patterns of predictable
 - behavior, 143
 - emerged more rapidly than any
 - technology in history, 71
 - evaluating our engagement with,
 - 215
 - evolving into a utility, 71n3
 - examples of, 43–45
 - existing as a living biological entity,
 - 101n4
 - faith and, 8–11
 - fearful narratives about, 7
 - forecast of advances in, 46–47
 - the future and, 5–8
 - golden age of, 3–5
 - helping us to better understand
 - ourselves, 124
 - “holy grail” of, 5
 - on human capabilities as the
 - ultimate good, 199
 - identifying and predicting
 - behavior, 129
 - as inherently multidisciplinary, 24
 - as intrinsically good, 124
 - introduction to, 15–48
 - knowing humanity to the degree
 - that its programmers do, 85
 - leveraging for a better future, 153
 - litany for faithful engagement with,
 - 219–221
 - looking for signatures of desired
 - responses, 141
 - milestones of, 19–20
 - as an object of God’s redemption,
 - 123
 - as part of theater of the covenant,
 - 113
 - participating in the outworking of
 - the covenant with all creation,
 - 124
 - performing tasks that emulate
 - practices of human love of
 - neighbor, 117
 - power over human attention and
 - decision-making, 4, 194
 - as primarily an agent of capitalism,
 - 146
 - propensity for sin and, 193–194
 - role of in teaching and learning,
 - 154–155, 162–163
 - rushing into daily life, 191
 - science and technology behind,
 - 26–43
 - shaping the future of work, 171
 - subfields of, 25–26
 - successes of, 197
 - systems
 - distracting people from the
 - effects of sin, 204
 - for existential or practical
 - questions, 209
 - feeding on emotional energy
 - and fear, 211

- as goal-driven, 214
 - identifying moral hazards, 215
 - learning how to improve, 192
 - perceptivity of emotional states, 192
 - receiving feedback about failures, 159
 - treating persons as objects to be manipulated, 201
- theological personhood and, 97–124
- timeline of the evolution of, 19
- timing messages and inducements, 211
- as ubiquitous, 43
- unintentional sin to be expected in, 204–205
- use in creative learning as
 - ambiguous, 159
- use in teaching and learning, 164
- using in God's salvific work, 85
- utilizing reinforcement to "learn," 135
- artificial neural network, learning model called, 34–35
- "artificial origin," of second order creation, 107
- artificiality, meanings of, 65
- ASI (artificial superintelligence), becoming, 5
- association rules, as a machine learning technique, 33
- asymmetric dependence, of mental and physical, 62
- Athanasius, 73n10
- atonement theories, 84, 84n37, 84n38
- Augustine, 105n17, 198
- authoritarian states, shaping society, 141
- automated information processing, 170, 177
- automation
 - dystopia and, 177–179
 - utopia and, 179–182
- Automation and Utopia* (Danaher), 172, 179
- autonomous agents, as agents of new creation, 187
- averages, shaping development in society, 131
- axon, in a neuron, 34
- Babylon, 183, 185, 186
- backpacking, areas of the brain and, 133
- Banerjee, Abhijit, 204
- Barth, Karl
 - on Christian love of God, 114n47
 - on the covenant and creation, 113n42
 - defining God in terms of our own ideologies, 75
 - defining the church, 119n62
 - on election, 83n35
 - on God as the source of identity and existence, 198
 - on the grace of God, 86n46
 - on the humanity of Jesus, 110n32
 - on knowledge in the biblical sense, 92n61
 - on limiting sources of revelation, 76n19
 - on love, 111n35, 113–114, 114n44, 115, 115n48, 115n49, 116, 116n52
 - against natural theology, 112, 112n40
 - reacting to German liberal theologies, 75n15
 - resisted calling human love for God *eros*, 114n46
 - on revelation as that which "rules" our faith, 76n16
 - on the sacredness of being human, 106n21
 - "saga" to describing the Genesis accounts of creation, 102n6
 - on sin as stupid, 202
- basal ganglia, 136, 137
- Bauckham, Richard, 184
- Bayesian networks, relying on statistical analysis, 37–38
- behavior(s)
 - AI identifying and predicting, 129
 - cultivating accountability for, 144
 - described, 132–134

- behavior(s) (*continued*)
- as distinct from actions, 56
 - external influences on, 134–135
 - predicting, 131n8
 - reducing psychology to, 55
 - refining, 137
 - reinforcement and control of, 138–142
- behavioral neuroscience, 130
- behaviorism, 57
- beings, having differing mental states, 67
- beliefs, having intentional content, 61
- believers, 75n13, 87n48
- Benjamin, Ruha, 7, 12, 211
- Berkers, Hannah, 176–177
- best guess, based on limited data, 161
- Bezos, Jeff, 3–5, 6
- Bible
- aligning with values of, 142
 - beginning with the saga of creation, 78
 - Christian, 165
 - expressing God's judgment upon weapons, 206
 - Grenz on authority of, 76n18
- biblical texts, on theological anthropology, 101
- Biddle, Mark, 195, 208
- "Big Data," 18
- biofeedback, prosthetics providing, 45
- biological marker, 101n4
- biological neural networks, simulation of, 17
- biology, approaches to AI, 24
- "black box," neural network as, 43
- Blade Runner* (movie), actualizing personhood, 106n20
- Bloesch, Donald, 197
- Blount, Brian, 184, 186
- Boden, Margaret, 7
- bodily movements, as behaviors, 56
- body
- causally interacting with mind, 59
 - as central to who we are, 89
- body of Christ, 75n13, 119n61, 165
- Bonhoeffer, Dietrich, 77n20, 115n51, 119n61, 166
- "The Book of Dougs," from NBC's *The Good Place*, 146n44
- Borges, Jorge Luis, 181
- Borgmann, Albert, 199
- Bostrom, Nick, 7, 89n56
- bots, working with stockbrokers, 44
- bottom-up techniques (inductive), improving decision-making, 160
- Bradbury, Ray, 183
- brain
- alterations affecting, 130
 - data utilizing to predict human behavior, 140
 - interaction with environments, 134
 - mental states correlating with brain states, 58
 - relationship with muscles, 134
 - transplantation surgery, 60–61
- brain-reading and manipulating devices, outpacing legislative infrastructure, 141
- brainstorming, 158, 159
- branches, in a decision tree, 35
- Brown, Colin, 111n39
- Brueggemann, Walter, 213
- Brunk, Conrad, 146
- Bryson, Joanna, 4
- Buber, Martin, 105
- Burdett, Michael, 90n58, 121n67, 182
- Cain, 172
- Cain and Abel, 210
- "Can machines think?" as Turing's question, 54
- causal loop, between behavior and thoughts, 131
- causal overdetermination, allowing for, 63
- causation, inadequacy of the mechanistic view of, 59
- chatbot experiment, Microsoft shut down, 203
- chatbots, 162
- "The Chemical Constraints on Creation: Natural Theology and Narrative Resonance" (McFarland), 102n8

- chemicals in the brain, affecting the subject's mood, 58
- childbirth, participating in God's ongoing creative activity, 107
- Chinook checkers program, winning against humans, 19
- Chomsky, Noah, 25
- Christ. *See* Jesus Christ
- Christian apocalyptic vision, seeing humans as transformative agents, 183
- Christian Bible, beginning and ending with creation, 165
- Christian faith, perspectives on AI, 10
- Christian narrative, as all about the New, 165
- Christian tradition, 13, 101
- Christianity, 71–72, 81n30, 108n26
- Christians, 76, 142
- christocentric theology, of Barth, 112
- Christology, doctrine of, 108n26
- “Christus Victor” motif, 84
- the church, 119, 119n60
- church communities, moving more online, 145
- cities, humans living in for ten thousand years, 173
- classification, as a machine learning technique, 30–32
- Clauson, Muriel, 171
- clinical information, decision trees using, 36
- “closure principle,” 62
- clustering algorithms, for data without labels, 39–40
- cognitive bill of rights, urging the creation of, 141
- cognitive functions, decline in, 133–134
- Cole-Turner, Ron, 173
- collaboration, 154, 163–164
- commercials, customizing, 44
- common grace, doctrine of, 213
- communal relationship, in an urban environment, 184
- communication. *See also* 4Cs
improving, 162–163
interpersonal, 210
as a necessary skill to learn for future, 154
symbolic system enabling, 123n71
- communities
of Christ, 142–148, 165, 166
creation of, 103
diversity of people and abilities in, 74
responding to God's loving and creative acts, 165
- complex pattern recognition, 40
- complex systems, forecasting, 41
- computer code, advances in, 45
- computer engineering, approach to AI, 22
- computer processing, resembling human decision-making and action, 3
- computer science, approach to AI, 22
- computer vision, 25–26, 42
- computers, 16, 17–18
- “Computing Machinery and Intelligence” (Turing), 16, 53
- conceptual framework, for AI, 52–67
- conclusions, drawing, 41
- “conditional probability,” statistical tool, 38
- confession, as essential for spiritual health, 209
- conscious control, of behaviors as an illusion, 137
- consciousness, of the infinite, 79n24
- conspiracy theories, promulgating, 211
- construction, bricks and AI as technologies of, 208
- consumption, measuring human thriving, 147
- context, 136–137
- cooperative intelligence, enabling global cooperation, 164
- corporations
at the fore of AI development
increased profits, 146
holding many of the same rights as individual persons, 101n5
serving the economic engines of, 201
- corruption, 211

- cortex, “topographic” maps of, 134
 Cosden, Darrell, 173, 175, 185, 187
 Cosmic Christ, 113n43, 122
 cosmic clockmaker, God as, 78n21
 cosmic reconciliation, 109n28
 cost-benefit analysis, 193
 Council of Chalcedon, 109–110
 Council of Nicaea, 109
 covenant
 as the commitment of God, 110
 creation and, 112–113
 as ecological after the flood, 104n13
 of grace, 214
 made creation necessary and possible, 113n42
 COVID-19, 45–46
 crafts, as essential in the ancient city, 185n59
 createdness, 103–106
 creation, 77–81
 covenant and, 112–113
 doctrine of, 73
 as the external basis of the covenant, 113n42
 first and second order, 107, 108n25
 God distinct from, 77
 humans commanded to “till” and “keep,” 80
 nothing providing the ground for, 77n20
 perspectives emerged out of, 123
 as a relationship in the present, 78n21
 serving and protecting, 80n28
 setting free from its bondage to decay, 89n54
 as “very good,” 102
 “creation” texts, 101
 creative activity, humanity participating in God’s, 107
