Contents

A new unsupervised classification technique through nonlinear non parametric mixed effects models 1
Laura Azzimonti, Francesca Ieva, and Anna Maria Paganoni

Estimation approaches for the apparent diffusion coefficient in Rice-distributed MR signals 13
Stefano Baraldo, Francesca Ieva, Luca Mainardi, and Anna Maria Paganoni

Longitudinal patterns of financial product ownership: a latent growth mixture approach 27
Francesca Bassi and José G. Dias

Computationally efficient inference procedures for vast dimensional realized covariance models 39
Luc Bauwens and Giuseppe Storti

A GPU software library for likelihood-based inference of environmental models with large datasets 53
Michela Cameletti and Francesco Finazzi

Theoretical Regression Trees: a tool for multiple structural-change models analysis 67
Carmela Cappelli and Francesca Di Iorio

Some contributions to the theory of conditional Gibbs partitions 83
Annalisa Cerquetti

Estimation of traffic matrices for LRD traffic 97
Pier Luigi Conti, Livia De Giovanni, and Maurizio Naldi

A Newton's method for benchmarking time series 115
Tommaso Di Fonzo and Marco Marini

Spatial smoothing for data distributed over non-planar domains 129
Bree Ettinger, Tiziano Passerini, Simona Perotto, and Laura M. Sangalli

Volatility swings in the US financial markets 143
Giampiero M. Gallo and Edoardo Otranto

Semicontinuous regression models with skew distributions 157
Anna Gottard, Elena Stanghellini, and Rosa Capobianco

Classification of multivariate linear-circular data with nonignorable missing values 171
Francesco Lagona and Marco Picone

Multidimensional connected set detection in clustering based on nonparametric density estimation 185
Giovanna Menardi

Using integrated nested Laplace approximations for modelling spatial healthcare utilization 197
Monica Musio, Erik-A. Sauleau, and Valentina Mameli

Supply function prediction in electricity auctions 213
Matteo Pelagatti

A hierarchical bayesian model for RNA-Seq data 225
Davide Risso, Gabriele Sales, Chiara Romualdi, and Monica Chiogna
