The 24th Annual Scientific Meeting of the International Society of Cardiovascular Pharmacotherapy in Lugano, Switzerland, was a great success. We are delighted to share the posters selected for the meeting with readers of *European Cardiology Review*.

We regret to have to inform our colleagues and friends that the 2020 ISCP Annual Scientific Meeting in Miami has been cancelled because of the threat posed by coronavirus disease 2019. Both sponsorship and attendance of delegates would be greatly impacted by the global pandemic.

It has been a great disappointment to us not be able to share this annual event with colleagues and delegates from all parts of the globe, but we are sure that you understand our decision. We look forward to being able to invite you to Singapore next year, where we will use the opportunity to pick up many of the topics we have been unable to discuss in Miami and offer you many more new and exciting subjects.

For now, we hope you enjoy the posters from the 2019 meeting. We look forward to sharing more excellent entries with you next year after our 2021 Annual Scientific Meeting in Singapore. ■
