## KEYWORDS

flow, optimal experience, autotelic experience, loss of self-consciousness, adult learning, adult education, motivation, well-being

## A corrigendum on

**Optimal experience in adult learning: Conception and validation of the flow in education scale (EduFlow-2)**

by Heutte, J., Fenouillet, F., Martin-Krumm, C., Gute, G., Raes, A., Gute, D., Bachelet, R., and Csikszentmihalyi, M. (2021). *Front. Psychol.* 12:828027. doi: 10.3389/fpsyg.2021.828027

In the original article, there was an error in the Supplementary Material as published. There were spelling mistakes in the English translations of some of the terms in the Supplementary Material (p. 2).

A correction has been made to:

FlowD1a Je me sens capable de faire face aux exigences élevées de la situation.

*[I trust my ability to meet the high demands of the situation].*

*Correction [I trust my ability to meet the high demands of the situation].*

A correction has been made to:

FlowD1b Je sens que je contrôle parfaitement mes actions.

*[I feel completely in control of my actions].*

*Correction [I feel completely in control of my actions].*

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
