## **[25.] Family Relationship, Son**

[.049–.050] [Deleted June 1991]

## **[26.] Family Relationship, Son**

[.051–.052] [Deleted June 1991]

## **[27.] Family Relationship, Spouse as Trustee**

[.053–.054] [Deleted June 1991]

## **[28.] Cash Account With Brokerage Client**

[.055–.056] [Superseded by ethics ruling No. 59.]

## **29. Member as Bondholder**

**.057 Question**—Would independence be considered to be impaired if a member owned an immaterial amount of a municipal authority's outstanding bonds?

**.058 Answer**—Ownership of a client's bonds constitute a loan to that client. Accordingly, if a *covered* member owned such bonds, independence would be considered to be impaired.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## **[30.] Financial Interest by Employee**

[.059–.060] [Deleted July 1979]

### **31. Performance of Services for Common Interest Realty Associations (CIRAs), Including Cooperatives, Condominium Associations, Planned Unit Developments, Homeowners Associations, and Timeshare Developments**

**.061 Question**—A member belongs to a common interest realty association (CIRA) as the result of the ownership or lease of real estate. Would independence be considered to be impaired with respect to the CIRA?

**.062 Answer**—Independence would be considered to be impaired if a *covered* member was a member of a CIRA unless all of the following conditions are met:

- a. The CIRA performs functions similar to local governments, such as public safety, road maintenance, and utilities.
- b. The covered member's annual assessment is not material to either the covered member or the CIRA's operating budgeted assessments.
- c. The liquidation of the CIRA or the sale of common assets would not result in a distribution to the covered member.
- d. The CIRA's creditors would not have recourse to the covered member's assets if the CIRA became insolvent.

Also see interpretation 101-1.C [ET section 101.02] for additional restrictions related to associations with a client.

If the member has a relationship with a real estate developer or management company that is associated with the CIRA, see interpretation 102-2 [ET section 102.03] for guidance.

[Revised, effective May 31, 1998, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

### **[32.] Mortgage Loan to Member's Corporation**

[.063–.064] [Deleted December 1991]

### **[33.] Member as Participant in Employee Benefit Plan**

[.065–.066] [Deleted May 1998]

### **[34.] Member as Auditor of Common Trust Funds**

[.067–.068] [Deleted February 1991]

### **35. Stockholder in Mutual Funds**

**.069 Question**—A member owns shares in a non-regulated mutual investment fund (the fund) which holds shares of stock in a client. Would independence be considered to be impaired with respect to the client whose stock is held by the fund?

**.070 Answer**—Client securities held by the fund represent indirect financial interests. Accordingly, if a *covered* member has such an indirect financial interest, which is material to the covered member, independence would be considered to be impaired. In addition, if *any* partner or professional employee in

the firm has significant influence over the fund, independence would be considered to be impaired.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 36. Participant in Investment Club

**.071 Question**—A member participates in an investment club. Would independence be considered to be impaired with respect to a client in which the investment club holds shares?

**.072 Answer**—Independence would be considered to be impaired if a *covered* member owned stock in a client through an investment club as such holdings would be deemed to be a direct financial interest. Accordingly, any of the club's investments in a client would be deemed to impair independence regardless of materiality of the investment to the covered member's net worth.

See interpretation 101-1.B [ET section 101.02] for additional restrictions relating to all partners and professionals of the firm.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## [37.] Retired Partners as Co-Trustee

[.073–.074] [Deleted November 1980]

## 38. Member as Co-Fiduciary With Client Bank

**.075 Question**—A member serves with a client bank in a co-fiduciary capacity with respect to an estate or trust. Would independence be considered to be impaired with respect to the bank or the bank's trust department?

**.076 Answer**—Independence would not be considered to be impaired provided the assets in the estate or trust were not material to the total assets of the bank and/or the bank's trust department.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## [39.] Member as Officially Appointed Stock Transfer Agent or Registrar

[.077–.078] [Deleted May 1999]

## [40.] Controller Entering Public Practice

[.079–.080] [Deleted June 1979]

## 41. Financial Services Company Client Has Custody of a Member's Assets

**.081 Question**—A financial services company client (for example, insurance company, investment adviser, broker-dealer, bank, or other depository institution) has custody of a member's assets (other than depository accounts),

including retirement plan assets. Would independence be considered to be impaired?

**.082 Answer**—If a covered member's assets were held by a financial services company client, independence would not be considered to be impaired provided the services were rendered under the company's normal terms, procedures, and requirements and any of the covered member's assets subject to the risk of loss were immaterial to the covered member's net worth. Risk of loss may include losses arising from the bankruptcy of or defalcation by the client but would exclude losses due to a market decline in the value of the assets. When considering the materiality of assets subject to the risk of loss, the covered member should consider the following:

- Protection provided by state or federal regulators (for example, state insurance funds)
- Private insurance or other forms of protection (for example, the Securities Investor Protection Corporation) obtained by the financial services company to protect the assets
- Protection from creditors (for example, assets held in a pooled separate account)

For guidance dealing with depository accounts, see ethics ruling No. 70 [ET section 191.140 and .141].

[Replaces previous ruling No. 41, *Member as Auditor of Mutual Insurance Company*, November, 1990. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Revised, effective March 31, 2003, by the Professional Ethics Executive Committee.]

## **[42.] Member as Life Insurance Policy Holder**

[.083–.084] [Deleted April 1991]

## **[43.] Member's Employee as Treasurer of a Client**

[.085–.086] [Deleted June 1991]

## **[44.] Past Due Billings**

[.087–.088] [Superseded by ethics ruling No. 52.]

## **[45.] Past Due Fees: Client in Bankruptcy**

[.089–.090] [Deleted November 1990]

## **[46.] Member as General Counsel**

[.091–.092] [Superseded by ethics ruling No. 51.]

## **[47.] Member as Auditor of Mutual Fund and Shareholder of Investment Advisor/Manager**

[.093–.094] [Deleted February 1991]

## **48. Faculty Member as Auditor of a Student Fund**

**.095 Question**—A full or part-time faculty member employed by a university is asked to audit the financial statements of the Student Senate Fund. The university:

1. Acts as a collection agent for student fees and remits them to the Student Senate.
2. Requires that a university administrator approve and sign Student Senate checks.

Would independence be considered to be impaired under these circumstances?

**.096 Answer**—Independence would be considered to be impaired with respect to the Student Senate Fund if *any* partner or professional employee (individual) performed the functions described since the individual would be auditing several of the management functions performed by the university, the individual's employer.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## **[49.] Investor and Investee Companies**

[.097–.098] [Superseded by interpretation 101-8.]

## **[50.] Family Relationship, Brother-in-Law**

[.099–.100] [Deleted June 1983]

## **[51.] Member Providing Legal Services**

[.101–.102] [Deleted May 1999]

## **52. Unpaid Fees**

**.103 Question**—A client of the member's firm has not paid fees for previously rendered professional services. Would independence be considered to be impaired for the current year?

**.104 Answer**—Independence is considered to be impaired if, when the report on the client's current year is issued, billed or unbilled fees, or a note receivable arising from such fees, remain unpaid for any professional services provided more than one year prior to the date of the report.

This ruling does not apply to fees outstanding from a client in bankruptcy.

[Replaces previous ruling No. 52, *Past Due Fees*, November 1990. Revised, effective November 30, 1997, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

**[58.] Member as Lessor**

[.115–.116] [Deleted May 1998]

**[59.] Account With Brokerage Client**

[.117–.118] [Deleted November 1987]

**60. Employee Benefit Plans—Member's Relationships With Participating Employer**

.119 *Question*—A member has been asked to audit the financial statements of an employee benefit plan ("the plan") that may have one or more participating employer(s). Would independence be considered to be impaired with respect to the plan if the member had financial or other relationships with a participating employer(s)?

.120 *Answer*—Independence would be considered to be impaired with respect to the plan if *any* partner or professional employee of the firm had significant influence over such employer, was in a key position with the employer, or was associated with the employer as a promoter, underwriter, or voting trustee.

When auditing plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), Department of Labor (DOL) regulations must be followed.<sup>1</sup>

[Replaces previous ruling No. 60, *Employee Benefit Plans—Member's Relationships With Participating Employer(s)*, November 1993. Revised, effective November 30, 2001, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

**[61.] Participation of Member's Spouse in Client's Stock Ownership Plans (Including an ESOP)**

[.121–.122] [Deleted May 1998]

**[62.] Member and Client Are Limited Partners in a Limited Partnership**

[.123–.124] [Deleted April 1991]

**[63.] Review of Prospective Financial Information—Member's Independence of Promoters**

[.125–.127] [Deleted August 1992]

---

<sup>1</sup> Currently, DOL regulations are more restrictive than the position taken in this ruling.

## 64. Member Serves on Board of Organization for Which Client Raises Funds

**.128 Question**—A member serves on the board of directors of an organization. A fund-raising foundation functions solely to raise funds for that organization. Would independence be considered to be impaired with respect to the fund-raising foundation?

**.129 Answer**—Independence would be considered to be impaired with respect to the fund-raising foundation if *any* partner or professional employee of the firm served on the organization's board of directors. However, if the directorship were clearly honorary (in accordance with ET section 101.06, *Honorary directorships and trusteeships of not-for-profit organization*), independence would not be considered to be impaired.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 65. Use of the CPA Designation by Member Not in Public Practice

**.130 Question**—A member who is not in public practice wishes to use his or her CPA designation in connection with financial statements and correspondence of the member's employer. The member also wants to use the CPA designation along with employment title on business cards. Is it permissible for the member to use the CPA designation in these manners?

**.131 Answer**—Yes. However, if the member uses the CPA designation in a manner to imply that he or she is independent of the employer, the member would be knowingly misrepresenting facts in violation of rule 102 [ET section 102.01]. Therefore, it is advisable that in any transmittal within which the member uses his or her CPA designation, he or she clearly indicate the employment title. In addition, if the member states affirmatively in any transmittal that a financial statement is presented in conformity with generally accepted accounting principles, the member is subject to rule 203 [ET section 203.01].

[Replaces previous ruling No. 65, *Use of the CPA Designation by Member Not in Public Practice*, February 1996, effective February 29, 1996.]

## 66. Member's Retirement or Savings Plan Has Financial Interest in Client

**.132 Question**—A member's retirement or savings plan has a financial interest in a client. Would independence be considered to be impaired?

**.133 Answer**—Any direct or material indirect financial interest in a client held through a retirement or savings plan would be considered to be a direct or material indirect financial interest in the client. Accordingly, if a *covered* member had such a financial interest, independence would be considered to be impaired.

See interpretation 101-1.B [ET section 101.02] for additional restrictions relating to all partners and professionals of the firm.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 67. Servicing of Loan

**.134 Question**—Would the mere servicing of a loan by a client financial institution impair independence with respect to the client?

**.135 Answer**—No.

[Replaces previous ruling No. 67, *Servicing of Loan*, November 1993. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 68. Blind Trust

**.136 Question**—Would independence be considered to be impaired if a member transferred a direct financial interest in a client into a blind trust?

**.137 Answer**—Independence would be considered impaired if a *covered* member had a direct financial interest in a client, whether or not the interest was placed in a blind trust. Further, the covered member should ensure that any blind trust for which he or she is a beneficiary does not hold a direct or material indirect financial interest in any clients with respect to which he or she is a covered member.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 69. Investment With a General Partner

**.138 Question**—A private, closely held entity is the general partner and controls (as defined in Generally Accepted Accounting Principles) limited partnership A. The member has a material financial interest in limited partnership A. The member's firm has been asked to perform an attest engagement for a new limited partnership (B), which has the same general partner as limited partnership A. Would independence be considered to be impaired with respect to limited partnership B?

**.139 Answer**—Because the general partner has control over limited partnership A, the *covered* member would be considered to have a joint closely held investment with the general partner, who has significant influence over limited partnership B, the proposed client. Accordingly, independence would be considered to be impaired with respect to limited partnership B if the covered member had a material investment in limited partnership A.

[Replaces previous ruling No. 69, *Joint Investment With a Promoter and/or General Partner*, April 1991, effective April 30, 1991. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 70. Member's Depository Relationship With Client Financial Institution

**.140 Question**—A member maintains checking or savings accounts, certificates of deposit, or money market accounts at a client financial institution. Would these depository relationships impair independence?

**.141 Answer**—If an individual is a covered member, independence would not be considered to be impaired provided that—

- The checking accounts, savings accounts, certificates of deposit, or money market accounts were fully insured by the appropriate state or federal government deposit insurance agencies or by any other insurer; or
- The uninsured amounts, in the aggregate, were not material to the net worth of the covered member. (When insured amounts were considered material, independence would not be considered impaired provided the uninsured balance was reduced to an immaterial amount no later than 30 days from the date the uninsured amount becomes material.)

A firm's depository relationship would not impair its independence provided that the likelihood of the financial institution experiencing financial difficulties was considered to be remote.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Revised, effective March 31, 2003, by the Professional Ethics Executive Committee.]

## 71. Use of Nonindependent CPA Firm on an Engagement

**.142 Question**—Firm A is not independent with respect to a client. Partners or professional employees of Firm A are participating on Firm B's attest engagement team for that client. Would Firm B's independence be considered to be impaired?

**.143 Answer**—Yes. The use by Firm B of partners or professional employees from Firm A as part of the attest engagement team would impair Firm B's independence with respect to that engagement.

However, use of the work of such individuals in a manner similar to internal auditors is permissible provided that there is compliance with the Statements on Auditing Standards. Applicable literature contained in the Statements on Auditing Standards should be consulted.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 72. Member on Advisory Board of Client

**.144 Question**—Would service on a client's advisory board impair independence?

**.145 Answer**—Independence would be considered to be impaired if *any* partner or professional employee of the firm served on the advisory board unless all the following criteria are met: (1) the responsibilities of the advisory board are in fact advisory in nature; (2) the advisory board has no authority to make nor does it appear to make management decisions on behalf of the client; and (3) the advisory board and those having authority to make management decisions (including the board of directors or its equivalent) are distinct groups with minimal, if any, common membership.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## [73.] Meaning of the Period of a Professional Engagement

[.146-.147] [Deleted February 1998]

## 74. Audits, Reviews, or Compilations and a Lack of Independence

**.148 Question**—If a member or his or her firm is not independent with respect to a client, is it permissible to issue an audit, review, or compilation report for that client?

**.149 Answer**—A member or his or her firm may not issue an audit or review report if not independent of the client. A compilation report may be issued provided that the report specifically discloses the lack of independence without giving reasons for the impairment.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 75. Membership in Client Credit Union

**.150 Question**—Does membership in a client credit union impair independence?

**.151 Answer**—A *covered* member's association with a client credit union would not impair independence provided all of the following criteria are met:

1. The covered member individually qualifies to join the credit union (other than by virtue of the professional services provided to the client).
2. Any loans from the credit union to the covered member meet the conditions specified in interpretation 101-1.A.4 [ET section 101.02] and are made under normal lending procedures, terms, and requirements (see interpretation 101-5 [ET section 101.07]).
3. Any deposits with the credit union meet the conditions specified in ruling No. 70 [ET section 191.140-.141] under rule 101 [ET section 101.01].

Partners and professional employees may be subject to additional restrictions as described in interpretation 101-1.B [ET section 101.02].

[Effective February 28, 1992, earlier application is encouraged. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## [76.] Guarantee of Loan

[.152-.153] [Deleted December 1991]

## [77.] Individual Considering or Accepting Employment With the Client

[.154-.155] [Deleted April 2003]

## [78.] Service on Governmental Board

[.156-.157] [Deleted August 1995]

## 79. Member's Investment in a Partnership That Invests in Client

**.158 Question**—Would independence be considered to be impaired if a member had a direct financial interest in a partnership that invests in a client?

**.159 Answer**—If a *covered* member is a general partner, or functions in a capacity similar to that of a general partner, in a partnership that invests in a client, the covered member is deemed to have a direct financial interest in the client. Independence is considered to be impaired.

If a *covered* member is a limited partner in a partnership that invests in a client, the covered member is considered to have an indirect financial interest in the client. Independence would be considered to be impaired if the indirect financial interest is material to the covered member's net worth.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## [80.] The Meaning of a Joint Closely Held Business Investment

[.160–.161] [Deleted November 2001]

## 81. Member's Investment in a Limited Partnership

**.162 Question**—A member is a limited partner in a limited partnership (LP), including a master limited partnership. A client is a general partner in the same LP. Is independence considered to be impaired with respect to (1) the LP, (2) the client, and (3) any subsidiaries of the LP?

**.163 Answer**—**1.** A *covered* member's limited partnership interest in the LP is a direct financial interest in the LP that would impair independence under interpretation 101-1.A.1 [ET section 101.02].

**2.** The LP is an investee of the client because the client is a general partner in the LP. Therefore, under interpretation 101-8 [ET section 101.10], if the investment in the LP were material to the client, a *covered* member's financial interest in the LP would impair independence. However, if the client's financial interest in the LP were not material to the client, a *covered* member's immaterial financial interest in the LP would not impair independence.

**3.** If the *covered* member is a limited partner in the LP, the covered member is considered to have an indirect financial interest in all subsidiaries of the LP. If the indirect financial interest in the subsidiaries were material to the covered member, independence would be considered to be impaired with respect to those subsidiaries under interpretation 101-1.A.1 [ET section 101.02].

If the covered member or client general partner, individually or together can control the LP, the LP would be considered a joint closely held investment under ET section 92.16.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 82. Campaign Treasurer

**.164 Question**—A member serves as the campaign treasurer of a mayoral candidate. Would independence be considered to be impaired with respect to (1) the political party with which the candidate is associated, (2) the municipality of which the candidate may become mayor, or (3) the campaign organization?

**.165 Answer**—Independence would not be considered to be impaired with respect to the political party or municipality. However, if *any* partner or professional employee of the firm served as campaign treasurer, independence would be considered to be impaired with respect to the campaign organization.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## **[83.] Member on Board of Component Unit and Auditor of Oversight Entity**

[.166–.167] [Deleted January 1996]

## **[84.] Member on Board of Material Component Unit and Auditor of Another Material Component Unit**

[.168–.169] [Deleted January 1996]

## **85. Bank Director**

**.170 Question**—May a member in public practice serve as a director of a bank?

**.171 Answer**—Yes; however, before accepting a bank directorship, the member should carefully consider the implications of such service if the member has clients that are customers of the bank.

These implications fall into two categories:

- a. **Confidential Client Information**—Rule 301 [ET section 301.01] provides that a member in public practice shall not disclose any confidential client information without the specific consent of the client. This ethical requirement applies even though failure to disclose information may constitute a breach of the member's fiduciary responsibility as a director.
- b. **Conflicts of Interest**—Interpretation 102-2 [ET section 102.03] provides that a conflict of interest may occur if a member performs a professional service (including service as a director) and the member or his or her firm has a relationship with another entity that could, in the member's professional judgment, be viewed by appropriate parties as impairing the member's objectivity. If the member believes that the professional service can be performed with objectivity and the relationship is disclosed to and consent is obtained from all appropriate parties, performance of the service shall not be prohibited.

In view of the above factors, it is generally not desirable for a member in public practice to accept a position as bank director where the member's clients are likely to engage in significant transactions with the bank. If a member is engaged in public practice, the member should avoid the high probability of a conflict of interest and the appearance that the member's fiduciary obligations and responsibilities to the bank may conflict with or interfere with the member's ability to serve the client's interest objectively and in complete confidence.

The general knowledge and experience of CPAs in public practice may be very helpful to a bank in formulating policy matters and making business decisions; however, in most instances, it would be more appropriate for the member as part of the member's public practice to serve as a consultant to the bank's board. Under such an arrangement, the member could limit activities to those which did not involve conflicts of interest or confidentiality problems.

## **[86.] Partially Secured Loans**

[.172-.173] [Deleted February 1998]

## **[87.] Loan Commitment or Line of Credit**

[.174-.175] [Deleted February 1998]

## **[88.] Loans to Partnership in Which Members are Limited Partners**

[.176-.177] [Deleted February 1998]

## **[89.] Loan to Partnership in Which Members are General Partners**

[.178-.179] [Deleted February 1998]

## **[90.] Credit Card Balances and Cash Advances**

[.180-.181] [Deleted February 1998]

## **91. Member Leasing Property to or From a Client**

**.182 Question**—Would independence be considered to be impaired if a member leased property to or from a client?

**.183 Answer**—Independence would not be considered to be impaired if the lease meets the criteria of an operating lease (as described in Generally Accepted Accounting Principles), the terms and conditions set forth in the lease agreement are comparable with other leases of a similar nature, and all amounts are paid in accordance with the terms of the lease.

Independence would be considered to be impaired if a *covered* member had a lease that meets the criteria of a capital lease (as described in Generally Accepted Accounting Principles) unless the lease is in compliance with interpretations 101-1.A.4 [ET section 101.02] and 101-5 [ET section 101.07], because the lease would be considered to be a loan to or from the client.

[Revised, effective May 31, 1998, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## **92. Joint Interest in Vacation Home**

**.184 Question**—A member has a joint interest in a vacation home with a client (or one of the client's officers or directors, or any owner who has the ability to exercise significant influence over the client). Would the vacation home constitute a "joint closely held investment" as defined in ET section 92.16?

**.185 Answer**—Yes. The vacation home, even if solely intended for the personal use of the owners, would be considered a joint closely held investment as defined in ET section 92.16 if it meets the criteria described in the aforementioned definition.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

### 93. Service on Board of Directors of Federated Fund-Raising Organization

**.186 Question**—A member serves as a director or officer of a local United Way or similar organization that operates as a federated fund-raising organization from which local charities receive funds. Some of those charities are clients of the member's firm. Does the member have a conflict of interest under rule 102 [ET section 102.01]?

**.187 Answer**—Interpretation 102-2 [ET section 102.03] provides that a conflict of interest may occur if a member performs a professional service for a client and the member or his or her firm has a relationship with another entity that could, in the member's professional judgment, be viewed by the client or other appropriate parties as impairing the member's objectivity. If the member believes that the professional service can be performed with objectivity and the relationship is disclosed to and consent is obtained from the appropriate parties, performance of the service shall not be prohibited. (If the service being provided is an attest engagement, consult ethics ruling No. 14 [ET section 191.027-.028] under rule 101 [ET section 101.01]).

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

### 94. Indemnification Clause in Engagement Letters

**.188 Question**—A member or his or her firm proposes to include in engagement letters a clause that provides that the client would release, indemnify, defend, and hold the member (and his or her partners, heirs, executors, personal representatives, successors, and assigns) harmless from any liability and costs resulting from knowing misrepresentations by management. Would inclusion of such an indemnification clause in engagement letters impair independence?

**.189 Answer**—No.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

### 95. Agreement With Attest Client to Use ADR Techniques

**.190 Question**—Alternative dispute resolution (ADR) techniques are used to resolve disputes (in lieu of litigation) relating to past services, but are not used as a substitute for the exercise of professional judgment for current services. Would a predispute agreement to use ADR techniques between a member or his or her firm and a client cause independence to be impaired?

**.191 Answer**—No. Such an agreement would not cause independence to be impaired since the member (or the firm) and the client would not be in threatened or actual positions of material adverse interests by reason of threatened or actual litigation.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

### 96. Commencement of ADR Proceeding

**.192 Question**—Would the commencement of an alternative dispute resolution (ADR) proceeding impair independence?

**.193 Answer**—Except as stated in the next sentence, independence would not be considered to be impaired because many of the ADR techniques designed to facilitate negotiation and the actual conduct of those negotiations do not place the member or his or her firm and the client in threatened or actual positions of material adverse interests. Nevertheless, if a *covered* member and the client are in a position of material adverse interests because the ADR proceedings are sufficiently similar to litigation, ethics interpretation 101-6 [ET section 101.08] should be applied. Such a position would exist if binding arbitration were used.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## [97.] Performance of Certain Extended Audit Services

[.194–.195] [Deleted August 1996]

### 98. Member's Loan From a Nonclient Subsidiary or Parent of an Attest Client

**.196 Question**—A member has obtained a loan from a nonclient. The member's firm performs an attest engagement for the parent or a subsidiary of the nonclient. Does the loan from the nonclient subsidiary or parent impair independence?

**.197 Answer**—A *covered* member's loan that is not a "grandfathered" or "permitted" loan under interpretation 101-5 [ET section 101.07] from a nonclient subsidiary would impair independence with respect to the client parent. However, a loan from a nonclient parent would not impair independence with respect to the client subsidiary as long as the subsidiary is not material to its parent.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

### 99. Member Providing Services for Company Executives

**.198 Question**—A member has been approached by a company, for which he or she may or may not perform other professional services, to provide personal financial planning or tax services for its executives. The executives are aware of the company's relationship with the member, if any, and have also consented to the arrangement. The performance of the services could result in the member recommending to the executives actions that may be adverse to the company. What rules of conduct should the member consider before accepting and during the performance of the engagement?

**.199 Answer**—Before accepting and during the performance of the engagement, the member should consider the applicability of Rule 102, *Integrity and Objectivity* [ET section 102.01]. If the member believes that he or she can perform the personal financial planning or tax services with objectivity, the member would not be prohibited from accepting the engagement. The member should also consider informing the company and the executives of possible results of the engagement. During the performance of the services, the member should consider his or her professional responsibility to the clients (that is, the company and the executives) under Rule 301, *Confidential Client Information* [ET section 301.01].

## 100. Actions Permitted When Independence Is Impaired

**.200 Question**—If a member or a member's firm (member) was independent when its report was initially issued, may the member re-sign the report or consent to its use at a later date when his or her independence is considered to be impaired?

**.201 Answer**—Yes. A member may re-sign the report or consent to its use at a later date when his or her independence is considered to be impaired, provided that no "post-audit work" is performed by the member during the period of impairment. The term "post-audit work," in this context, does not include inquiries of successor auditors, reading of subsequent financial statements, or such procedures as may be necessary to assess the effect of subsequently discovered facts on the financial statements covered by the member's previously issued report.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 101. Client Advocacy and Expert Witness Services

**.202 Question**—Would the performance of expert witness services be considered as acting as an advocate for a client as discussed in interpretation 102-6 [ET section 102.07]?

**.203 Answer**—No. A member serving as an expert witness does not serve as an advocate but as someone with specialized knowledge, training, and experience in a particular area who should arrive at and present positions objectively.

## 102. Indemnification of a Client

**.204 Question**—As a condition to retaining a member or his or her firm to perform an attest engagement, a client or prospective client requests that the member (or the firm) enter into an agreement providing, among other things, that the member (or the firm) indemnify the client for damages, losses, or costs arising from lawsuits, claims, or settlements that relate, directly or indirectly, to client acts. Would entering into such an agreement impair independence?

**.205 Answer**—Yes. Such an agreement would impair independence under interpretation 101-1.A [ET section 101.02] and interpretation 101-1.C [ET section 101.02].

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 103. Attest Report on Internal Controls

**.206 Question**—If a member or his or her firm provides extended audit services for a client in compliance with interpretation 101-13 [ET section 101.15], would the firm be considered to be independent in the performance of an attestation engagement to report on the client's assertion regarding the effectiveness of its internal control over financial reporting?

**.207 Answer**—Independence would not be considered to be impaired with respect to the issuance of such a report if both of the following conditions are met:

1. Management has assumed responsibility to establish and maintain internal control.
2. Management does not rely on the firm's work as the primary basis for its assertion and accordingly has (a) evaluated the results of its ongoing monitoring procedures built into the normal recurring activities of the entity (including regular management and supervisory activities) and (b) evaluated the findings and results of the firm's work and other separate evaluations of controls, if any.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 104. Operational Auditing Services

**.208 Question**—As part of an extended audit engagement, a member or his or her firm reviews certain of the client's business processes, as selected by the client, for how well they function, their efficiency, or their effectiveness. For example, a member (or the firm) may assess whether performance is in compliance with management's policies and procedures, to identify opportunities for improvement, and to develop recommendations for improvement or further action for management consideration and decision making. Would independence be considered to be impaired in performing such services?

**.209 Answer**—Independence would not be considered to be impaired provided that during the course of the review the member (and other members of his or her firm) is not employed by the client and does not act or appear to act in any capacity equivalent to that of a member of client management. The decision as to whether any of the member's (or the firm's) recommendations will be implemented must rest entirely with management.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 105. Frequency of Performance of Extended Audit Procedures

**.210 Question**—In providing extended audit services, would the frequency with which a member or his or her firm performs an audit procedure impair independence?

**.211 Answer**—Independence would not be considered to be impaired provided that the member's (or the firm's) activities have been limited in a manner consistent with interpretation 101-13 [ET section 101.15] and the procedures performed constituted separate evaluations of the effectiveness of the ongoing control and monitoring activities/procedures that are built into the client's normal recurring activities.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 106. Member Has Significant Influence Over an Entity That Has Significant Influence Over a Client

**.212 Question**—Would independence be considered to be impaired if a member or his or her firm had significant influence, as defined in ET section 92.27, over an entity that has significant influence over a client?

**.213 Answer**—Independence would be considered to be impaired if *any* partner or professional of the firm had significant influence over an entity that has significant influence over a client. By having such influence over the non-client entity, the partner or professional employee would also be considered to have significant influence over the client.

See interpretation 101-8 [ET section 101.10] for further guidance.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 107. Participation in Health and Welfare Plan Sponsored by Client

**.214 Question**—A member participates in or receives benefits from a health and welfare plan (the "plan") sponsored by a client. Would independence be considered to be impaired with respect to the client sponsor or the plan?

**.215 Answer**—A *covered* member's participation in a plan sponsored by a client would impair independence with respect to the client sponsor and the plan. However, if the covered member's participation in the plan, or benefits received thereunder, arises as a result of the permitted employment of the covered member's immediate family in accordance with interpretation 101-1 [ET section 101.02], independence would not be considered to be impaired provided that the plan is normally offered to all employees in equivalent employment positions.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Revised, November 2002, by the Professional Ethics Executive Committee.]

## [108.] Participation of Member, Spouse or Dependent in Retirement, Savings, or Similar Plan Sponsored by, or That Invests in, Client

[.216–.217] [Deleted November 2001]

## 109. Member's Investment in Financial Services Products That Invest in Clients

**.218 Question**—Amounts contributed by a member or a member's firm (member) for investment purposes, including retirement plans, are invested or managed by a nonclient financial services company that offers financial services products, for example, insurance contracts and other investment arrangements, which allow the member to direct his or her investment into debt or equity securities. Under what circumstances would independence be considered to be impaired?

**.219 Answer**— If a *covered* member is able to direct and does direct his or her investment through a financial services product into a client, independence would be considered to be impaired because such investment is considered to be a direct financial interest in the client. If the covered member does not exercise his or her ability to direct the investment but the financial services product were to invest in a client, such investment would be a direct financial interest in the client and independence would be considered to be impaired.

If the covered member is not able to direct the investment and the financial services product invests in a client, the covered member is considered to have

an indirect financial interest in the client. Independence would be considered to be impaired if the indirect financial interest becomes material to the covered member. (See ethics ruling No. 35 under rule 101 [ET section 191.069–.070] for additional guidance with respect to investments in mutual funds.)

Further, an investment in a financial services product that invests only in clients with respect to which an individual is considered to be a covered member would be considered to be a direct financial interest in such client, and independence would be considered to be impaired.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 110. Member is Connected With an Entity That Has a Loan to or From a Client

**.220 Question**—A member is associated with an entity as an officer, director, or a shareholder who is able to exercise significant influence over an entity. That entity has a loan to or from a client of the member's firm. Would independence be considered to be impaired with respect to the client?

**.221 Answer**—If a *covered* member has control over the entity (as defined in Generally Accepted Accounting Principles) the existence of a loan to or from the client would impair independence unless the loan from the client is specifically permitted under interpretation 101-5 [ET section 101.07].

If *any* partner or professional employee of the firm is connected with the entity as an officer, director, or shareholder who is able to exercise significant influence over the entity, but is unable to control the entity, he or she should consider interpretation 102-2 [ET section 102.03]. Interpretation 102-2 provides that a conflict of interest may occur if a member performs a professional service for a client and the member or his or her firm has a relationship with another entity that could, in the member's professional judgment, be viewed by the client or other appropriate parties as impairing the member's objectivity. If the member believes that the professional service can be performed with objectivity, and the relationship is disclosed to and consent is obtained from such client and other appropriate parties, the rule shall not operate to prohibit the performance of the professional service.

When making the decision as to whether to perform a professional service and in making disclosure to the appropriate parties, the member should consider Rule 301, *Confidential Client Information* [ET section 301.01].

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## 111. Employee Benefit Plan Sponsored by Client

**.222 Question**—A member or his or her firm provides asset management or investment services that may include having custody of assets, performing management functions, or making management decisions for an employee benefit plan (the plan) sponsored by a client. Would independence be considered to be impaired with respect to the plan and the client sponsor?

**.223 Answer**—The performance of investment management or custodial services for a plan would be considered to impair independence with respect to the plan. Independence would also be considered to be impaired with respect to the client sponsor of a defined benefit plan if the assets under management or in the custody of the member are material to the plan or the client sponsor.

Independence would not be considered to be impaired with respect to the client sponsor of a defined contribution plan provided the member does not make any management decisions or perform management functions on behalf of the client sponsor or have custody of the sponsor's assets.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

## Independence Standards Board Standard No. 2

### *Certain Independence Implications of Audits of Mutual Funds and Related Entities*

December 1999

As Amended—July 2000

#### SUMMARY

This Independence Standard, as described in more detail herein:

- A. Requires the audit firm, certain of its retirement plans, the audit engagement team and those in a position to influence the audit, when the firm is auditing mutual funds, to be independent of all sister funds and all related non-fund entities. In addition, when auditing a related non-fund entity, independence would be required by the same entities and individuals of all funds in the mutual fund complex.
- B. Permits:
  - i. Direct investment in non-audit client sister funds by all other partners and employees of the firm.
  - ii. Spouses and dependents of partners, other than of the audit engagement team and in a position to influence the audit, to invest through an employee benefit plan in mutual funds that are audit clients.
- C. Is effective with respect to audits of financial statements for periods beginning 60 days after existing rules of the SEC are modified to remove conflicts with the Standard. The SEC has proposed rulemaking with regard to its independence rules, including consideration of the provisions of this Standard. Notification of relevant changes by the SEC will be posted to the ISB's website at [www.cpaindependence.org](http://www.cpaindependence.org) when confirmation is received by the Board.

(Please note that terms appearing for the first time in **bold** type are defined in paragraph 6.)

#### STANDARD

##### Applicability

1. This Standard applies to the determination of auditor independence with respect to audits of **mutual funds** and related entities which are subject to the independence requirements of the SEC.

## Standard

2. The auditing firm will not be considered independent of all of the entities within the **mutual fund complex** if the partners in the firm, either individually or collectively, have significant influence over any entity in that complex.

3. In other situations:

- a. The auditing firm itself, and its retirement plans (*other than self-directed defined contribution employee benefit plans, such as 401(k) plans*), and
- b. The audit engagement team and **those in a position to influence the audit**, when the firm is auditing:
  - i. A *fund*, must be independent of all **sister funds**.
  - ii. A *related non-fund entity*, must be independent of all *related non-client funds*—that is, all funds in the complex.<sup>1</sup>
  - iii. One or more *funds*, must be independent of all *related non-fund entities* in the mutual fund complex.<sup>2</sup>

4. A spouse, cohabitant or dependent of a partner not on the audit engagement team, and not in a position to influence the audit, is permitted to invest through an employer-sponsored benefit plan in mutual funds that are audit clients of the firm.

## Effective Date

5. The above requirements are effective with respect to audits of financial statements for periods beginning 60 days after existing rules of the SEC are modified to remove conflicts with the Standard. The SEC has proposed rule-making with regard to its independence rules, including consideration of the provisions of this Standard. Notification of relevant changes by the SEC will be posted to the ISB's website at [www.cpaindependence.org](http://www.cpaindependence.org) when confirmation is received by the Board.

## Definitions

6. Terms and phrases noted in **bold** in the Standard are defined below:

- a. **Investment adviser.** Manages the mutual fund's portfolio according to the objectives and policies described in the fund's prospectus, executes its portfolio transactions, and typically serves as distributor of its shares to investors. When a "**sub-adviser**" substantively acts in the overall management role of an investment adviser with respect to a fund, it is to be considered the same as an investment adviser. (A **sub-adviser** is an entity generally identified, subcontracted and overseen by the investment adviser for a portfolio management role.)

---

<sup>1</sup> If the related non-fund entity is an **investment adviser**, this would include all funds it advises, even if they are outside this mutual fund complex.

<sup>2</sup> If the fund's investment adviser is outside the mutual fund complex, the independence requirement still applies. That independence restriction further extends to any parent company to which the investment advisory fees from the client funds are material, and to all other subsidiaries of those covered parent companies.

- b. **Mutual funds.** Investment companies subject to the Investment Company Act of 1940. These include, for example, open-end and closed-end funds, and unit investment trusts.
- c. **Mutual fund complex.** The mutual fund operation in its entirety, including all the funds, plus the sponsor, its ultimate parent company, and their subsidiaries.
- d. **Non-fund entity.** For example, the investment adviser, a broker-dealer, a bank, or an insurance company in the mutual fund complex.
- e. **Sister funds.** Mutual funds in a complex with a common investment adviser.
- f. **Those in a position to influence the audit.** Those in a position to influence the audit are those who supervise or have direct management responsibility for, (including at all successively senior levels, up through the firm's chief executive), or provide technical consultation, quality control or other oversight of, the partners and staff members involved in the audit. (In determining whether an individual meets one of these criteria, firms must be sensitive to their immediate practice environment. For example, in a small office, practice unit or firm, all partners might be considered as in a position to influence the audit, even if in an informal manner.)

## BACKGROUND

7. At its March 12, 1999 meeting, the Board agreed that certain mutual fund issues should be added to its project agenda, and that the project should be expedited by moving directly to an Exposure Draft (ED). The project had been recommended in a letter from the Chief Accountant of the SEC and also requested through practice experience. A Board oversight task force was appointed to provide guidance for the project, and a broad-based project task force reviewed the documents for completeness and clarity.

8. In September 1999 the ISB issued ED 99-1, *Certain Independence Implications of Audits of Mutual Funds and Related Entities*. The ED proposed rules similar to those in this final Standard, except that it also would have required independence of partners (and, in certain cases, those defined as "managerial employees") in an office participating in a significant portion of the audit engagement.

9. The Board received twelve letters in response to the ED, all of which were generally supportive, and many had specific suggestions for changes. After deliberation, the Board agreed with certain of those recommendations, as described in the "Basis for Conclusions."

10. In June 2000 the Board determined to modify the effective date of this Standard as described in paragraph 5. An exposure draft proposing this change was issued and seventeen comment letters were received, virtually all of which supported this amendment.

11. The Board's general rules (the published SEC rules adopted at the commencement of the Board) require an audit firm, and its "members" (as defined), to be independent of its audit clients. This general independence requirement is not changed by ISB Standard No. 2, except as to paragraph 4.

## BASIS FOR CONCLUSIONS

### Introduction

12. The Board's desire is to provide guidance in mutual fund auditor independence issues to help ensure, in a rapidly changing environment, the continued integrity of audited financial statements for the ultimate benefit of investors and other users of these statements.

13. It is believed the Standard will also significantly reduce a perceived lack of clarity in present guidance, and thereby reduce likely diversity in practice.

14. To accomplish its goal, the ISB weighed a variety of significant factors, some of which are described below, in reaching its determination of an appropriate Standard.

### Attributes of the Mutual Fund Organizational Structure

15. The organizational structure of a mutual funds complex (See Appendices A and B) varies significantly from that of a typical corporation, and the Board believes these differences are relevant to the setting of auditor independence standards. Specifically, SEC Regulation S-X, Rule 2-01 (b) states that auditor independence is required as to the client and "...any of its parents, its subsidiaries, or other affiliates..." but the typical mutual fund/adviser relationship is not that of a subsidiary/parent. Among the principal differences are that:

- a. In an investment adviser/mutual fund relationship, there is no majority ownership or voting control, as is present in a parent of a subsidiary; and
- b. Unlike the case of a subsidiary, the investment income of a mutual fund, after the deduction of adviser management fees, distribution fees, and other fund expenses, is distributed to the fund shareholders as opposed to the related investment adviser.

On the other hand, while not having voting control of a fund, the investment adviser usually provides the fund's officers and performs substantially all services required in its operations, and thus plays an important, even controlling, role in its policies and operations.

### Analysis of Common Service Providers

16. Mutual funds often use common service providers to centralize services and control costs, and the Board believes such common services are relevant to the related independence issues. In analyzing the key factors and threats relevant to the sister fund issue, the Board concluded that the use among funds of a common investment adviser was an important enough link to provide the basis for the independence restriction. In response to comments received on the ED, the circumstances under which "sub-advisers" also would be restricted were clarified to cover only those situations in which the sub-adviser substantively acts in the overall management role of an investment adviser, because it is in that role, rather than as a portfolio manager, that any potential threat to independence exists.

17. The Board also considered the providers of other common services, including fund boards of directors and accounting systems, but concluded they were less relevant than a common investment adviser and that the

independence restriction should be based solely on the presence of common investment advisers.

### **Difference between Defined Benefit and Defined Contribution Plan Investments**

18. The Board distinguished between the firm-directed investments of firm defined benefit plans and the self-directed investment choices available in certain firm defined contribution plans (such as 401(k) plans), and concluded that the risks differed sufficiently to provide a lesser restriction for certain personnel in the defined contribution plans. That is, the direct beneficiary of investment performance in a defined benefit plan is the firm sponsor, since the level of further firm contributions will be affected by the investment performance. By contrast, the direct beneficiary of investment performance in a defined contribution plan is the employee. As a result, the Board concluded that the firm's defined benefit plans should not be able to invest in non-audit client sister funds, but that the firm could offer a sister fund investment alternative in its defined contribution plans to non-involved partners and staff without impairing its independence.

### **Partner Spousal Employee Benefit Plan Investments**

19. The Board recognizes that permitting investments through employer-sponsored benefit plans by partners' spouses in mutual funds that are audit clients is not consistent with the present rules. However, the Board also believes this change to be warranted as a practical good in this changing social environment, because the risk that such investments will adversely affect audit quality appears trivial. A number of factors were considered in reaching this conclusion, including the following:

- a. Many more spouses are working today;
- b. Benefit plans (especially 401(k)s) have become much more common;
- c. Audits of mutual funds in those plans have become more concentrated within a few large firms due to consolidation of both financial institutions and auditors;
- d. A number of plans provide only one family of mutual fund investments. Under existing rules, if the funds are audit clients of a firm, the spouses and dependents of all partners in the firm would be prohibited from participating in the plans. As a result, the person would lose tax deferral benefits and employer matching contributions, and sometimes have to forfeit accumulated benefits; and
- e. It is highly unlikely that those who are exempted could influence the audit.

This decision will be reconsidered when the Board addresses the question of investment in audit clients comprehensively.

### **Firm Significant Influence Over an Entity in the Mutual Fund Complex**

20. Paragraph 2 restricts a firm when its partners collectively have significant influence over an entity in the mutual fund complex. The intent in making such a determination is to address situations where partners are "acting together" in this investment. On the other hand, later knowledge that numerous

partners, not having knowledge of one another's common investments, could have had "significant influence" over the entity if they acted together would not indicate that "significant influence" had existed at the earlier date.

### **Those in a Position to Influence the Audit**

21. Paragraph 3 restricts firm partners and employees who are on the audit engagement team and those in a position to influence the audit. (The phrase "those in a position to influence the audit" was substituted for "chain of command," in response to comments received on the ED because it is more descriptive of the individuals included.) The definition of the phrase "those in a position to influence the audit" in paragraph 6*f* describes two groups of individuals who may have such influence: those with direct management responsibility, and those who provide technical or related consultation. It is intended that the individuals with direct management responsibility for the audit and for related accounting, auditing and similar consultation services be subject to the restrictions of this Standard, whether or not they participate in any way in the audit. On the other hand, professionals in a consulting department, other than the person in charge, may be "recused" and therefore made not subject to the Standard's restrictions, if they in fact are not, and will not be, involved in any way in the audit.

### **Uninvolved Partners and Managerial Employees**

22. Several respondents to the ED suggested that it was unnecessary to include all partners and managerial employees working in the office conducting the audit in the category of those in a position to influence the audit. After deliberation, the Board agreed that there was at most a remote threat to independence from such individuals, if they were otherwise uninvolved in the audit. Consequently, the final Standard does not restrict those persons from investing in sister mutual funds, or their immediate family members from investing in client mutual funds through an employer defined contribution plan. Existing independence rules, however, prohibit their direct investment in client funds.

### **Analysis of Other Bases for Evaluating Independence Restrictions**

23. In addition to considering the commonality of service providers for sister funds as described above, the Board also considered other and broader alternative bases for evaluating auditor independence in the mutual fund environment. For example, various applications of materiality tests were considered, as was the application of independence restrictions on a case-by-case basis to counter specific threats. The Board concluded that its Standard better fulfills its needs, in part because it provides a simpler but effective approach to addressing the independence threats raised.

### **Risks/Threats and Safeguards Analysis**

24. In view of the importance of a risks/threats analysis and the need for related safeguards, the Board considered extensively the potential for particular independence concerns. This included those threats possible if an auditor were to encounter a systemic problem during the course of auditing one fund that would adversely impact another non-client fund in the complex, shares of which are owned by other individuals in the auditor's firm. (A safeguard to

mitigate this potential threat is the fact that the non-client fund would be audited by a different firm.) The general concerns—the possible loss of objectivity in the audit and the need for independence in both fact and appearance—also were discussed. The Board's determination was that while some threats could be envisioned specific to mutual fund-related situations, any remaining threats to the auditor's independence, after considering existing controls and the application of this Standard, were insignificant.

## Deferral of Effective Date

**25.** ISB Standard No. 2 is an integrated set of provisions which the Board believes is appropriately restrictive to protect the public interest and be responsive to the threats envisioned, while not imposing restrictions on those other individuals where the Board believed the risks to be minimal. The Standard developed under this new approach included provisions both more and less restrictive than current SEC rules, principally because of its "on the engagement" focus and spousal benefit plan exemption.

**26.** The Board initially decided, when ISB No. 2 was issued in December, 1999, that the more restrictive provisions of the document should go into effect on the then-scheduled effective date of June 15, 2000, regardless of whether or not the SEC had amended its more restrictive rules by that time. The "effective date" language in the original Standard read as follows:

The above requirements are effective with respect to audits of financial statements for periods beginning after June 15, 2000, with earlier application encouraged. However, in certain respects, current rules of the SEC and, as to spousal employee benefit plan interests, of the AICPA, are more restrictive than the provisions of this Standard. Compliance with those existing more restrictive rules continues to be necessary unless and until both the SEC and the AICPA revise those rules. Notification that these changes have been made will be posted to the ISB's website at [www.cpaindependence.org](http://www.cpaindependence.org) when confirmation is received by the Board. Where provisions of this Standard are more restrictive, those provisions are to be complied with as of the above effective date.

**27.** Subsequently, questions were raised as to the appropriateness of a partially effective Independence Standard, on the basis that it would add unnecessarily to the existing complexity of regulations.

**28.** Based upon its consideration of various factors, the Board determined that a deferral of the original June 15, 2000 effective date of ISB Standard No. 2 until 60 days after existing rules of the SEC are modified to remove conflicts with the Standard is in the best interests of its constituents and therefore appropriate.

**29.** In reaching this decision, the Board acknowledges the statutory oversight responsibility of the SEC for the activities of the Board. In light of that, it concluded that it would not be desirable to impose a set of new independence restrictions while existing rules remain in effect until the SEC endorsed (or indicated it did not object to) such new rules by modifying its existing ones.

**30.** In May 2000 the AICPA's Professional Ethics Executive Committee adopted the following policy statement:

As to any pronouncement passed by the Independence Standards Board (ISB), the Professional Ethics Executive Committee (PEEC) will treat such a pronouncement as authoritative for any engagement requiring independence unless and until the PEEC announces that it will not view that pronouncement as authoritative. Accordingly, in situations where an AICPA standard is more

restrictive, in total or in part, than an ISB pronouncement, the PEEC will not consider a member's independence to be impaired as a result of their non-compliance with respect to a more restrictive AICPA standard until members are given notice of the PEEC's rejection of the ISB's less restrictive pronouncement.

Consequently, the language regarding the AICPA's rules has been deleted from the effective date paragraph.

## Summary

31. Based upon:

- a. Its consideration of the unique organizational structure of mutual fund entities;
- b. The differences inherent in self-directed defined contribution employee benefit plans;
- c. The lack of apparent significant independence risk from mutual fund audits; and
- d. The very limited threats to auditor independence from participation in an employer-sponsored benefit plan by spouses and dependents of those neither on the audit engagement team nor in a position to influence the audit,

the Board believes its Standard is appropriately restrictive to protect the public interest and be responsive to those threats that were envisioned, while not imposing restrictions on those other individuals and plans where the Board believes the risks are minimal.

32. The Board recognizes that every additional requirement imposes costs, but the Board believes that the costs to implement this pronouncement will be small when compared with the benefits.

33. This Standard and its amendment were both adopted unanimously by the Board.

### Organization Chart

### The Structure of a Typical Mutual Fund *Complex*

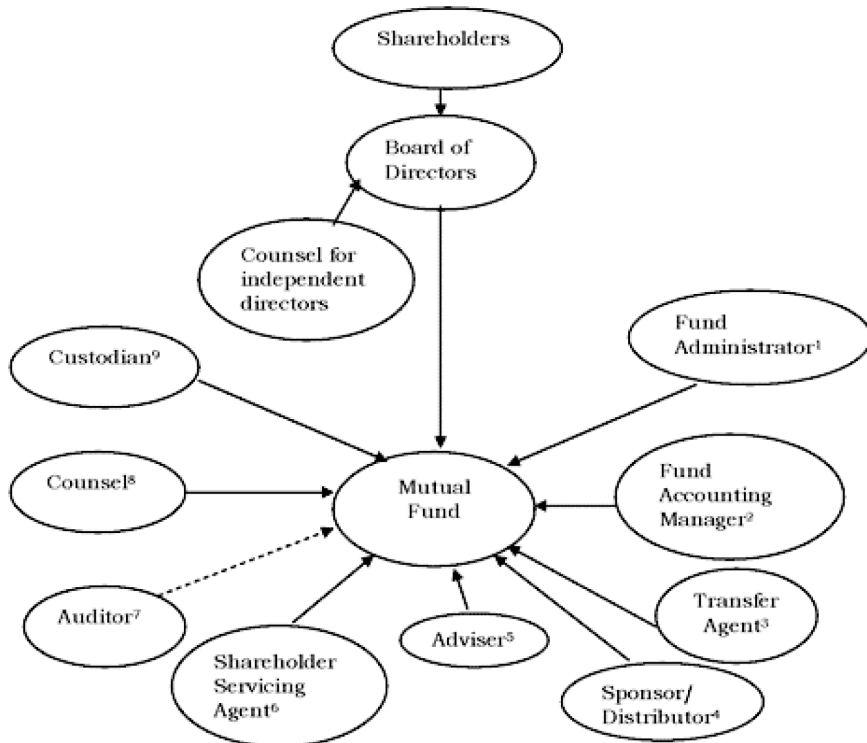

\*May include any number of levels of subsidiaries, and may be public or private.

## Appendix B

### Organization Chart

#### The Structure of a Typical Mutual *Fund*

1. Makes presentations for the board, and prepares SEC, tax and shareholder reports.
2. Maintains *fund's* accounting records, computes net asset value (NAV) daily and forwards NAV to transfer agent, and prepares the fund's financial statements.
3. Maintains *shareholder* accounting records and issues share certificates.
4. Conceives the fund and markets it to investors.
5. Manages the fund and executes its portfolio transactions. Also provides portfolio management services and overall executive management of the fund, including (in consultation with the board) selection of other service providers.
6. Responds to shareholders' inquiries by accessing records maintained by Transfer Agent.
7. Audits the fund's financial statements.
8. Provides legal services.
9. Holds securities in safekeeping; receives and delivers securities as instructed. Except for the auditor, the only entity servicing the fund which [absent meeting certain incremental criteria] *must* be independent of the fund complex.

# Independence Standards Board Standard No. 3

## *Employment with Audit Clients*

**Important Note:** The Securities and Exchange Commission recently released a comprehensive revision to its auditor independence requirements (the Revision). The Revision contains provisions covering settlement of capital and retirement interests when former firm professionals join firm audit clients, which supercede the requirements described in paragraph 2biv of this standard. Consequently, at the next ISB meeting, the ISB staff will recommend that the Board delete paragraph 2biv of this standard. All other provisions of this standard remain in effect. The Revision can be found at the SEC's website at [www.sec.gov](http://www.sec.gov).

July 2000

### SUMMARY

This standard describes safeguards that firms should implement when their professionals join firm audit clients. These safeguards are designed to assist in ensuring that:

- professionals who are broadly evaluating their career options will exercise an appropriate level of skepticism while performing audits prior to their departure from the firm;
- a former firm professional now employed by the client cannot circumvent the audit because of familiarity with its design, approach, or testing strategy; and
- the remaining members of the audit team maintain objectivity when evaluating the work and representations of a former firm professional now employed by the audit client.

The procedures should be adapted depending on several factors, including whether the professional served as a member of the audit team, the positions he or she held at the firm and has accepted at the client, the length of time that has elapsed since the professional left the firm, and the circumstances of his or her departure.

The standard also specifies the circumstances under which capital and retirement balances owed to the departing professional should be liquidated or settled to preserve the firm's independence.

The standard's requirements are effective for employment with audit client situations arising after December 31, 2000.

## STANDARD

### Underlying Principle

1. An audit firm's independence is impaired with respect to an audit client that employs a former firm professional who could, by reason of his or her knowledge of and relationships with the audit firm, adversely influence the quality or effectiveness of the audit, unless the firm has taken steps that effectively eliminate such risk.

### Safeguards

2. An established program of safeguards including the following procedures, when conscientiously administered, is deemed to constitute steps that effectively eliminate the risk of independence impairment:

- a. Pre-change in employment safeguards:
  - i. Firm professionals are required promptly to report to the firm conversations between themselves and an audit client respecting possible employment.
  - ii. Firm professionals engaged in negotiations respecting possible employment with an audit client are immediately removed from the audit engagement.
  - iii. Upon removal of a professional from the audit engagement as provided above, the firm reviews the professional's work to assess whether he or she exercised appropriate skepticism while working on the audit engagement.
- b. Post-change in employment safeguards:
  - i. If a professional accepts employment with the audit client, the on-going engagement team gives active consideration to the appropriateness or necessity of modifying the audit plan to adjust for risk of circumvention.
  - ii. When a former firm professional joins an audit client and will have significant interaction with the audit team, the firm takes appropriate steps to provide that the existing audit team members have the stature and objectivity to effectively deal with the former firm professional and his or her work.
  - iii. When a former firm professional joins an audit client within one year of disassociating from the firm and the professional has significant interaction with the audit team, the next following annual audit is separately reviewed by a firm professional uninvolved in the audit to determine whether the remaining engagement team maintained the appropriate skepticism when evaluating the representations and work of a former firm professional. The extent of this review should be tailored based on the position that the former professional has assumed at the audit client and other facts and circumstances that would heighten or mitigate threats to independence.

- iv. The firm requires the prompt (1) liquidation of all capital balances of former firm partners who become employed by an audit client; (2) settlement<sup>1</sup> of all retirement balances<sup>2</sup> of former firm professionals who become so employed that are not both immaterial to the firm and fixed as to amount and timing of payment; and (3) settlement of retirement balances of any firm professional, regardless of the financial immateriality of such balances to the firm, when, within five years of disassociating from the firm the identity of such former firm professional as an officer or employee of the audit client is required to be disclosed in the audit client's proxy statement or annual report filed with the Securities and Exchange Commission (SEC) pursuant to its regulations.

## Effective Date

3. The above requirements are effective for employment with audit client situations arising after December 31, 2000.

## BACKGROUND

4. The Board began to study the independence implications of audit firm professionals going to work for the firm's audit clients shortly after its formation. After determining that guidance was needed in these situations, the Board began the process of developing a standard concurrent with its work on a conceptual framework for auditor independence.

5. A Discussion Memorandum (DM 99-1, *Employment with Audit Clients*) covering the issues was prepared with the assistance of a Board oversight task force, and a broad-based project task force consisting of representatives from the investor, preparer, academic, and regulator communities, in addition to members of the auditing profession. The DM was released in March 1999 for a 90-day comment period. Comment from investors was specifically sought; the DM was mailed to several investor organizations and to 370 institutional investors in an effort to encourage responses from that constituency. Twenty-eight comment letters were received. After considering these letters, and with further assistance from the project and Board oversight task forces, the Board developed a proposed standard for public comment.

6. An Exposure Draft (ED) of the proposed standard was released at the end of December 1999 with a comment period that ended on February 29, 2000.

---

<sup>1</sup> In the United States, the payment of retirement benefits to the individual would immediately subject such benefits to income taxes. In some cases, this tax liability can be deferred by transferring the remaining retirement benefits to an Individual Retirement Account or similar vehicle, in which case the amounts become taxable only when paid to the individual. In other cases, the amount can be transferred to a "Rabbi Trust" which also serves to defer such income taxes. A Rabbi Trust is an irrevocable trust whose assets are not accessible to the firm until all benefit obligations have been met; however, such assets are subject to the claims of creditors in the event of the firm's bankruptcy or insolvency. To meet the requirements of this standard, such a trust can only be used if the amounts are fixed as to amount and timing of payment (i.e., the benefits do not fluctuate based on firm results, and the present value of benefits due to the departing professional can be calculated and placed in the trust), and the bankruptcy of the firm is considered remote.

<sup>2</sup> Retirement balances as used in this statement do not include a professional's benefits under the firm's defined contribution plan, such as a 401(k) plan, if the firm has no obligation to fund the individual's benefits after he or she disassociates from the firm.

Copies of the ED were mailed to a variety of individuals and groups, including those representing investors, to encourage and solicit responses. Fourteen comment letters were received. After considering these comments, and with further assistance from the project and Board oversight task forces, the Board approved the issuance of this standard.

## THREATS TO INDEPENDENCE

7. The concerns expressed when professionals leave firms to join audit clients are generally threefold:

- a. That partners or other audit team members who resign to accept positions with audit clients may not have exercised an appropriate level of skepticism during the audit process prior to their departure.
- b. That the departing partner or other professional may be familiar enough with the audit approach and testing strategy so as to be able to circumvent them once he or she begins employment with the client.
- c. That remaining members of the audit team, who may have been friendly with, or respectful of a former partner or other professional when he or she was with the firm, would be reluctant to challenge the decisions of the former partner or professional and, as a result, might accept the client's proposed accounting without exercising appropriate skepticism or maintaining objectivity.

8. The perceived threats to auditor independence when the former partner or professional has retirement benefits or a capital account with the audit firm are as follows:

- a. It may appear that ties between the audit firm and the partner or other professional have not been severed—that the firm has placed its "own man" (or woman) at the client, functioning as management, and is in effect auditing the results of its own work.
- b. If the retirement benefits of the former partner or other professional vary based on the firm's profits, then the former partner or other professional may be inclined to pay the firm higher fees to inflate his or her retirement benefits (or to increase the likelihood of receiving benefits in unfunded plans). As a result, the firm may be less rigorous in its scrutiny of the client's accounting policies because its fees are overly rich.
- c. If the former partner's or other professional's unfunded retirement benefits or other monies held by the firm are material to the firm and the firm is experiencing cash flow problems, the firm may be less rigorous in its audit of the client's financial statements in exchange for forbearance on the amounts owed to the former partner or other professional.

## BASIS FOR CONCLUSIONS

9. The Board's desire is to protect the quality and integrity of audited financial statements for the ultimate benefit of investors and other users of those statements. To accomplish this goal, the Board weighed a variety of factors, some of which are described below, in determining an appropriate approach to address the threats to auditor independence posed by situations where firm professionals join audit clients.

## Effectiveness of Safeguards

10. The Board believes that the safeguards described in this standard will effectively protect auditor independence in situations where firm professionals go to work for their audit clients. A requirement to review an individual's work after he or she enters into employment negotiations with an audit client and, when appropriate, review the engagement team's work on the subsequent audit, is expected to have a deterrent effect. First, the expectation is that professionals who are broadly evaluating their career options will be more careful to ensure that the work they perform, including the decisions they make during the audit, will withstand scrutiny when they know it will be subject to a special review if they enter into employment negotiations with the audit client. Second, the skepticism of the remaining audit team members when evaluating the statements of a former colleague or leader may be higher; knowing that their work will be reviewed, individuals will most likely be more sensitive to appearing to have acquiesced to a client's aggressive or incorrect accounting, and will be more likely to refrain from doing so.

11. Open discussion of the client's employment of audit firm professionals with the audit committee or board of directors, as required in certain circumstances by ISB Standard No. 1, *Independence Discussions with Audit Committees*, can also serve as an effective safeguard. Airing, "in the sunshine," the potential threats to independence posed by these situations, and the safeguards employed by the firm to protect auditor independence, is likely to sensitize those involved (both the former firm professional now with the client and the remaining audit team) to these issues, and make independence impairments less likely. In addition, while auditors are responsible for upholding their own professional standards, including those related to independence, the audit committee can "set the tone at the top," and emphasize the proper separation between management and the auditor.

12. In developing the standard, the Board allowed for flexibility in adapting the safeguards to the facts and circumstances of the employment situation. The Board believes, for example, that the concerns one would have when a partner joins a client would exist, but to a lesser extent, when professionals with lower levels of responsibility join clients. These concerns would also vary depending on the nature and level of responsibilities assumed by the professional in his or her new role at the client. In addition, the issues may vary for active versus retired partners and other professionals, those leaving the firm voluntarily versus those terminated, and *engagement* professionals versus firm professionals having little or no direct prior professional relationship with the client. Therefore, the Board believes that an effective standard must establish principles that contemplate a variety of situations, especially as the structure of firms change, and more professionals are given new responsible, non-partner roles in firms.

13. The safeguards proposed in the ED contemplated a review of the former firm professional's work upon employment by the audit client. After further consideration, the Board determined that the trigger for this review should be instead the commencement of employment negotiations between the firm professional and the audit client. The Board believes that the concerns about the work of an audit team member contemplating employment with his or her audit client would exist regardless of whether the firm professional eventually accepted a position at the client. Audit team members in employment negotiations with an audit client should be returned to the engagement only if negotiations cease and employment is no longer sought.

14. When a former firm professional joins an audit client within one year of disassociating from the firm and the professional has significant interaction with the audit team, the standard requires an additional review of the next annual audit following the professional's acceptance of employment. This review is meant to determine whether the audit team had an appropriate level of skepticism when evaluating the work and representations of the former firm professional. Some asked whether such a review should always be performed prior to the firm's "sign-off" on the audit. The Board concluded that the primary benefit of the review is its deterrent effect. That is, members of the audit team, knowing that their work will be subject to an additional review, will be less likely to acquiesce to questionable client proposals. Further, mandating such a review prior to issuance of the audit report could result in deferring for a significant period of time release of the audited financial statements. Such a delay could impose a significant cost to users of financial statements and the Board did not consider the additional benefits, if any, of a pre-issuance review to justify such costs.

### Peer Review

15. The ED proposed a requirement that firms have their compliance with the provisions of the standard evaluated in a peer review. The Board believes that peer review of firms' compliance with all auditing and quality control standards, including independence standards, is an important component of the profession's self-regulation. The Board ultimately concluded, however, that the scope or content of established peer review programs should be left to those that administer them, and that mandating participation in such a program should be left to other groups in the profession's regulatory system.

### Settlement of Financial Interests

16. The Board considered the necessity of a "full-payout" requirement in situations where capital account and retirement obligations are immaterial to the firm, and fixed as to amount and timing of payment. The Board believes that a former partner of an audit firm who is employed by the firm's audit client should not remain an equity investee in the firm. Accordingly, the standard requires the firm to liquidate all capital accounts prior to the employment of the professional by the audit client, regardless of their materiality.

17. With respect to retirement obligations, the standard requires the firm to settle such obligations prior to employment by the client in all situations where a professional's benefits are not immaterial to the firm, and fixed as to amount and timing of payment. The Board concluded, however, that retirement obligations owed to a former professional that *are* both fixed and immaterial to the firm are not likely to impinge on the firm's independence. On the other hand, it recognized that unsettled amounts may present an "appearance" concern when a former firm professional joins an audit client in a visible position where his or her former employment at the client's audit firm is likely to be disclosed or known. Therefore, the standard mandates settlement of even immaterial retirement obligations when a former firm professional joins an audit client within five years of disassociating from the firm in a position where his or her name is required to be disclosed in the company's proxy statement or annual report to the SEC. However, because the character of retirement benefits is different from capital balances, the Board concluded that settlement of retirement obligations could be done through a "Rabbi Trust" or similar vehicle in certain circumstances.

18. In reaching its conclusions regarding retirement balances, the Board was concerned that a requirement to settle all obligations could create significant tax or other liabilities for the departing partner in either the United States or in a foreign country. In addition, such a requirement might jeopardize the tax status of certain qualified plans if all plan participants were not treated equally. Such a result could serve to either actively discourage the partner from accepting the employment position, require the client to engage a new audit firm, or drive firms to reduce benefits provided under its plans because of accelerated funding requirements. The Board did not believe such consequences were in the public interest except for benefits that were not both fixed and immaterial to the firm, and in the limited circumstances involving former partners identified in an SEC filing, as described in paragraph 2biv.

19. Some expressed concern that a former firm professional could join a large, multinational audit client several years after leaving the firm, perhaps at a foreign location. In these circumstances, it is possible that the firm would not be aware of the former professional's new position at the audit client, and may not have liquidated capital balances, or retirement benefits that are not both immaterial and fixed. The Board does not intend that an inadvertent and isolated failure to comply with these settlement provisions be deemed an impairment of independence. It does expect, however, that firms will impose conditions on former professionals who have remaining capital accounts or other than immaterial and fixed retirement benefits with the firm. One of those conditions should be to advise the firm when they are contemplating a change in employment, to allow the firm to determine if the new employer is a client subject to this standard. These arrangements should eliminate the need to implement elaborate and burdensome partner and employee tracking systems to comply with the provisions of the standard—a concern of some of the respondents to the ED. However, any inadvertent failures to comply should be corrected as soon as identified.

20. In reaching these conclusions, the Board considered making several distinctions, suggested by respondents to the DM, in determining when standards should require a full-payout of retirement benefits. These respondents suggested that a settlement requirement distinguish between defined contribution plan benefits and defined benefit plan benefits, fully funded benefits versus unfunded amounts, fixed benefits versus those that vary based on profits, and other criteria. The Board concluded that benefits which are other than immaterial to the firm, or that vary based on, for example, firm profitability, should always be settled, regardless of the amount of time that has elapsed since the professional's departure from the firm. In addition, the Board concluded that the settlement requirement should not extend to defined contribution plan benefits such as those in a 401(k) plan if the firm has no ongoing obligation to fund the individual's benefits.

## The Board's Consideration of a Mandated Cooling-Off Period

21. In studying these issues, the Board considered and rejected a mandated "cooling-off period"—a rule deeming an impairment of the firm's independence when certain firm professionals join an audit client. The Board concluded the costs of such a rule would exceed its benefits.

22. A cooling-off approach would mean either deeming independence to be impaired if *any* firm professional accepted an employment offer from an audit client, or specifying which types of persons would be included in such a rule and which would not. The former course seemed unnecessary, and the latter very complex or arbitrary, since the types of individuals who might represent

threats would presumably depend upon their positions in the firm, their roles in the audit, and the positions they would be assuming at the audit client. Generalizing when that combination might constitute a threat to auditor independence and when it would not seemed to be a daunting task which should not be undertaken when an effective alternative is available.

**23.** The Board believes that with the appropriate safeguards in place, as called for by this standard, the threats to auditor independence are slight. In addition, the Board believes that the benefits to society and the profession of allowing firm professionals to accept employment with audit clients, without fear of jeopardizing their former firm's independence, outweigh the costs. In reaching this conclusion, the Board recognizes that a mandatory cooling-off period may promote the appearance of independence more completely, and might *eliminate* the risk that the audit team could be unduly influenced by a former colleague, but it believes the differences in actual threats to independence under the two approaches are insignificant.

**24.** The Board recognizes that the attraction of future employment opportunities draws talented and ambitious recruits to the profession. Turnover at public accounting firms can be quite high, and many recruits do not intend to stay long enough to be promoted to partner. Furthermore, they join public accounting firms because of the broad experience they expect to gain at the firm, and the contacts they expect to make in industry. In addition, turnover within the partner ranks has increased in the last few years. If the future employment prospects of recruits and experienced auditors now working for audit firms were limited by a mandated cooling-off period, the Board is concerned that the caliber of professional attracted to public accounting might decline.

**25.** The Board agreed with several corporate officials and others responding to the DM who argued that companies benefit from the ability to hire staff at all levels from their audit team. An auditor who has worked for several years on an engagement is often thoroughly familiar with the client's systems, and knows most of the client's key people and their responsibilities. Beyond familiarity with the hiring company, the auditor brings broad experience "to the table" from working at a variety of companies, and sometimes in a variety of industries. In addition, partners and professionals in public accounting firms are generally recognized as experts in accounting, financial reporting, and internal control matters—skills needed by companies with financial reporting responsibilities to investors.

**26.** A mandated cooling-off period might force a client to choose between, for example, its audit partner and its audit firm, knowing that if the partner was hired, the audit firm would have to be replaced. The Board recognizes that replacement of an audit firm carries costs to firms, clients, and investors. There is a learning curve on a first-year audit; auditors spend significantly more time and resources on them (developing audit programs, familiarizing themselves with the system of internal controls, etc.), and client personnel spend more time answering the auditors' questions and producing documentation previously provided to the prior auditors. And because the Board believes that audits are strengthened by institutional continuity, rotation of auditors and the increased risk that the first-year audit poses carries a cost to investors.

**27.** The Board acknowledges the counter-argument that a fresh look by a new audit team may carry some benefits that cannot be achieved with the same audit team and approach year after year. The consideration of a requirement that companies change audit firms periodically, however, is beyond the scope of this project.

**28.** The Board also concluded that a restriction on hiring former audit partners or other professionals may be a heavier burden to smaller corporations in need of the accounting expertise provided by someone familiar with their business and industry, and to smaller firms. Smaller corporations may be at a disadvantage in recruiting personnel when competing with larger companies with strong national or regional name recognition. Restricting these smaller companies from hiring directly from their audit firm (from among those who know the company well) may hurt them disproportionately.

**29.** Professionals from smaller accounting firms may face the same difficulties when competing in the job market with professionals from large, well-known firms. A rule that impairs the ability to go from an audit firm directly to a client, where management knows you and you have had a chance to demonstrate your abilities, may be more of a burden if you work for a smaller firm.

**30.** Finally, the Board concluded that a mandatory cooling-off period would be ineffective in preventing fraud or collusion between the auditor and client. If the firm professional and client management were intent on committing fraud, the professional might remain with the firm rather than risk turning the engagement over to another individual who may uncover the conspiracy. In addition, if management wanted to compensate a firm professional for his or her role in a fraud, a ban on hiring the professional for a certain period of time would not prevent the company from providing payments to the professional, after he or she resigns from the firm, via consulting contracts or other means.

## Other Matters

**31.** The Board concluded that the threats to auditor independence described in this standard are in many respects different from those that arise when former firm professionals are elected as non-executive members of the Board of Directors. Existing rules cover these non-executive director situations and remain in effect.

**32.** This standard was adopted unanimously by the Board.

## ISB Interpretation 99-1

### ***Impact on Auditor Independence of Assisting Clients in the Implementation of FAS 133 (Derivatives)***

The Independence Standards Board (ISB) is examining the broader issue of an auditor's association with valuations and fairness opinions. This interpretation, which is based on existing guidance, will not be considered precedent when the ISB addresses the broader issue and may be subject to change based on the ISB's conclusions reached after the public comment process.

**Date Discussed:** March 12, 1999

**Date Issued:** March 12, 1999

#### **Issue**

1. In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities" (FAS 133). FAS 133 requires that all derivatives be recorded on the balance sheet at fair value. Changes in fair value flow through the income statement, unless the instrument qualifies as a hedge, as defined. The statement is effective for fiscal years beginning after June 15, 1999, but companies can adopt the statement as of the beginning of any fiscal quarter that begins after June 1998.

2. For many companies, the complexity of the statement and of the underlying financial instruments will make the implementation process difficult. Company management may need help in understanding the statement's requirements; derivatives must be identified, inventoried, and measured at fair value; hedging relationships must be designated anew and documented as of the implementation date; and many companies will need system modifications in advance of implementation to develop and track the various required fair value measurements.

3. As a consequence of the complexity and implementation challenges inherent in adopting FAS 133, audit firms are likely to find themselves responding to many types of client requests for assistance. This interpretation provides guidance on the auditor independence implications of likely areas of requested assistance, solely with respect to the implementation of FAS 133.

#### **Independence Concerns**

4. As it considered these issues, the Board discussed the potential threats to auditor independence. Appraisals and valuation services potentially threaten the auditor's independence because of a "self-review" concern. Under the existing rules, the auditor cannot be placed in the position of "auditing his or her

own work" (or the work of someone else in his or her firm). In addition, acting in a capacity equivalent to that of management is viewed as a threat to auditor independence. The auditor may lose his or her objectivity if he or she makes decisions for or develops a mutuality of interest with the client by, for example, valuing the client's assets.

## ISB Discussion and Interpretation

5. The Board considered two broad areas of likely assistance and how the existing independence rules would be applied. One category of services relates to the accounting application and the second involves valuation consulting services.

6. Management is responsible for the financial statements, and responsibility for the choices and judgments inherent in the preparation of those financial statements cannot be delegated to the auditor or to anyone else. Whatever the service being provided, the auditor must understand the level of management's expertise and must be satisfied that management has taken responsibility for the assumptions and judgments made during the course of the work, and for the results produced.

7. The Board has concluded that the auditor may provide consulting services on the proper application of FAS 133, including assisting a client in gaining a general understanding of the methods, models, assumptions, and inputs used in computing a derivative's value. To ensure, however, that the auditor's independence is not threatened, as discussed in paragraph 4, the auditor may not prepare accounting entries, compute derivative values or be responsible for key assumptions or inputs used by the client in computing derivative values.

8. The auditor's independence would be impaired if he or she created the initial journal entries that are used to implement or apply the standard, or if in providing the services described below, the auditor's level of assistance was tantamount to doing the work himself or herself.

9. Based on these general guidelines, the following is a list of illustrative services that the auditor may be asked to provide an audit client in implementing FAS 133, along with the Board's conclusions on which of these would impair the auditor's independence.

## Accounting Application Assistance

10. Accountants are likely to work with clients in implementing the accounting requirements of FAS 133. Providing guidance to clients (which for this purpose encompasses discussing the requirements of FAS 133, providing advice, and expressing views as to how FAS 133 would be applied in the client's situation) would not impair independence. Performing services which would be subject to audit procedures such as compiling the inventory of derivatives, creating the initial journal entries to be recorded, initially determining whether specific derivatives meet the relevant criteria as hedges, or making management decisions concerning the implementation of FAS 133 would impair the auditor's independence.

11. The provision of the following services would not impair the auditor's independence:

- a. Discuss the requirements of FAS 133 and the related concepts, terminology and implementation issues.
- b. Provide sample journal entries used to apply FAS 133.

- c. Provide guidance in compiling an inventory of derivatives, as defined by the new rules.
- d. Provide guidance in determining whether specific derivatives meet the relevant criteria as hedges, or provide examples and discuss factors to be considered in formally documenting any hedging relationships and the entity's risk management objective and strategy for undertaking the hedge.
- e. Discuss factors to be considered in making judgments that may become critical in the accounting process, including the separation of the intrinsic value of instruments from their "time value." This separation of an instrument's fair value into its component parts might have accounting consequences within the financial statements (FAS 133 permits the exclusion of the inherently ineffective portion of a derivative's change in value, such as the time value of options, from the "hedge effectiveness" assessment).
- f. Provide guidance in determining the accounting for hedged items.
- g. Provide guidance or assist management in developing and adapting systems to account for derivative instruments and hedged items under the new standard.

## Valuation Consulting Assistance

**12.** The provision of the following services would not impair the auditor's independence:

- a. Provide guidance or assist in developing the client's own valuation model. The client takes responsibility for the model, by testing, evaluating, approving, and running it.
- b. Provide guidance on the nature of relevant model inputs (volatility, yield curves, etc.) and related market sources of information. The client makes the final decision as to the inputs and market sources of information to be used.
- c. Validate client or third-party models used.
- d. Validate reasonableness of inputs to models (client assumptions).
- e. Provide a generic/standardized product (e.g., not unlike a Black-Scholes or binomial software model used for valuing options), which a client uses in valuing its derivative instruments. A generic or standardized product is one in which formulas are well-established and subject to only minor judgments or interpretations. It is reasonable to expect that the result produced by such a product will be similar to the result that would be produced by another vendor's product.

**13.** The provision of the following services would impair the auditor's independence:

- a. Compute derivative values using either auditor or client-provided assumptions and a firm-developed, or third party model approved by the client.
- b. Develop or be responsible for key assumptions or inputs for use by the client when it uses any valuation model or product.

- c. Provide a firm-developed, non-standardized model (e.g., black box equivalent) which a client uses to value its derivatives. The model's methodology or formulas are not standardized, or assumptions are built into the model such that values produced may differ significantly from those produced by another vendor's models.

**14.** As mentioned above, the overarching principles underlying this interpretation are that the auditor cannot be placed in the position of "auditing his or her own work," or accepting responsibility for the choices and judgments inherent in the preparation of the financial statements such that the auditor is acting as a member of management.

## QC Section 20

# ***System of Quality Control for a CPA Firm's Accounting and Auditing Practice***

(Supersedes sections 10 and 10-1)

**Effective date: Applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997, unless otherwise indicated.**

Statements on Quality Control Standards are issued by the Auditing Standards Board. Firms that are enrolled in an Institute-approved practice-monitoring program are obligated to adhere to quality control standards established by the Institute.

## **Introduction and Applicability**

**.01** This section provides that a CPA firm shall have a system of quality control for its accounting and auditing practice and describes elements of quality control and other matters essential to the effective design, implementation, and maintenance of the system.

**.02** The AICPA Principles of Professional Conduct provide, among other things, that "members should practice in firms that have in place internal quality-control procedures to ensure that services are competently delivered and adequately supervised."<sup>1</sup> Because of the public interest in the services provided by and the reliance placed on the objectivity and integrity of CPAs, this section provides that a CPA firm shall have a system of quality control for its accounting and auditing practice.<sup>2</sup>

## **System of Quality Control**

**.03** A firm<sup>3</sup> as a responsibility to ensure that its personnel<sup>4</sup> comply with the professional standards applicable to its accounting and auditing practice. A system of quality control is broadly defined as a process to provide the firm with reasonable assurance that its personnel comply with applicable professional

---

<sup>1</sup> AICPA Code of Professional Conduct, "Article VI—Scope and Nature of Services".

<sup>2</sup> *Accounting and auditing practice* refers to all audit, attest, accounting and review, and other services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under rule 201 or 202 of the AICPA Code of Professional Conduct. Standards may also be established by other AICPA senior technical committees; engagements that are performed in accordance with those standards are not encompassed in the definition of an accounting and auditing practice.

<sup>3</sup> A *firm* is defined in the AICPA Code of Professional Conduct as "a form of organization permitted by state law or regulation whose characteristics conform to resolutions of Council that is engaged in the practice of public accounting, including the individual owners thereof".

<sup>4</sup> The term *personnel* refers to all individuals who perform professional services for which the firm is responsible, whether or not they are CPAs.

standards and the firm's standards of quality.<sup>5</sup> The policies and procedures designed to implement the system in one segment of a firm's practice may be the same as, different from, or interrelated with the policies and procedures designed for another segment, but the purpose of the system is the same for all segments of a firm's practice.

**.04** A firm's system of quality control encompasses the firm's organizational structure and the policies adopted and procedures established to provide the firm with reasonable assurance of complying with professional standards. The nature, extent, and formality of a firm's quality control policies and procedures should be appropriately comprehensive and suitably designed in relation to the firm's size, the number of its offices, the degree of authority allowed its personnel and its offices, the knowledge and experience of its personnel, the nature and complexity of the firm's practice, and appropriate cost-benefit considerations.

**.05** Any system of quality control has inherent limitations that can reduce its effectiveness. Variance in an individual's performance and understanding of (a) professional requirements or (b) the firm's quality control policies and procedures affects the degree of compliance with a firm's prescribed quality control policies and procedures and, therefore, the effectiveness of the system.

**.06** The system of quality control should provide the firm with reasonable assurance that the segments of the firm's engagements performed by its foreign offices or by its domestic or foreign affiliates or correspondents are performed in accordance with professional standards in the United States when such standards are applicable.

## Quality Control Policies and Procedure

### Elements of Quality Control

**.07** The quality control policies and procedures applicable to a firm's accounting and auditing practice should encompass the following elements:

- a. *Independence, Integrity, and Objectivity*
- b. *Personnel Management*
- c. *Acceptance and Continuance of Clients and Engagements*
- d. *Engagement Performance*
- e. *Monitoring*

**.08** The elements of quality control are interrelated. For example, the maintenance of *Integrity, Objectivity*, and, where required, *Independence* requires a continuing assessment of client relationships. Similarly, the element of *Personnel Management* encompasses criteria for professional development, hiring, advancement, and assignment of the firm's personnel to engagements, which affect policies and procedures developed to meet the objectives of the quality control element of *Engagement Performance*. Similarly, policies and procedures for the quality control element of *Monitoring* are established to provide the firm with reasonable assurance that the policies and procedures related to each of the other elements of quality control are suitably designed and are being effectively applied.

---

<sup>5</sup> Deficiencies in individual audit, attest, review, and compilation engagements do not, in and of themselves, indicate that the firm's system of quality control is insufficient to provide it with reasonable assurance that its personnel comply with applicable professional standards. [Footnote added, effective September 2002, by Statement on Quality Control Standards No. 6.]

## Independence, Integrity, and Objectivity

.09 Policies and procedures should be established to provide the firm with reasonable assurance that personnel maintain independence (in fact and in appearance) in all required circumstances,<sup>6</sup> perform all professional responsibilities with integrity, and maintain objectivity in discharging professional responsibilities.

.10 *Independence, Integrity, and Objectivity* are defined and more fully described in the AICPA Code of Professional Conduct (the Code) and AU section 220, *Independence*. Rules 101 and 102 of the Code, and the related Interpretations and Rulings [ET sections 101, 102, and 191] contain examples of instances wherein a member's independence, integrity, and objectivity will be considered to be impaired. *Independence* encompasses an impartiality that recognizes an obligation for fairness not only to management and owners of a business but also to those who may otherwise use the firm's report. The firm and its personnel must be free from any obligation to or interest in the client, its management, or its owners.<sup>7</sup> Integrity requires personnel to be honest and candid within the constraints of client confidentiality. Service and the public trust should not be subordinated to personal gain and advantage. *Objectivity* is a state of mind and a quality that lends value to a firm's services. The principle of objectivity imposes the obligation to be impartial, intellectually honest, and free of conflicts of interest.

## Personnel Management

.11 A firm's quality control system depends heavily on the proficiency of its personnel. In making assignments, the nature and extent of supervision to be provided should be considered. Generally, the more able and experienced the personnel assigned to a particular engagement, the less direct supervision is needed.

.12 The quality of a firm's work ultimately depends on the integrity, objectivity, intelligence, competence, experience, and motivation of personnel who perform, supervise, and review the work. Thus, a firm's personnel management policies and procedures factor into maintaining such quality.

.13 *Personnel Management* encompasses hiring, assigning personnel to engagements, professional development, and advancement activities. Accordingly, policies and procedures should be established to provide the firm with reasonable assurance that—

- a. Those hired possess the appropriate characteristics to enable them to perform competently.
- b. Work is assigned to personnel having the degree of technical training and proficiency required in the circumstances.
- c. Personnel participate in general and industry-specific continuing professional education and other professional development activities that enable them to fulfill responsibilities assigned, and

---

<sup>6</sup> Independence requirements are set forth in Rule 101 of the AICPA Code of Professional Conduct [ET section 101] and the rules of applicable regulatory agencies such as state boards of accountancy, the Securities and Exchange Commission, the U.S. General Accounting Office, and the U.S. Department of Labor. [Footnote renumbered by the issuance of Statement on Quality Control Standards No. 6, September 2002.]

<sup>7</sup> See AU section 220.02. [Footnote renumbered by the issuance of Statement on Quality Control Standards No. 6, September 2002.]

satisfy applicable continuing professional education requirements of the AICPA and regulatory agencies.<sup>8</sup>

- d. Personnel selected for advancement have the qualifications necessary for fulfillment of the responsibilities they will be called on to assume.

## Acceptance and Continuance of Clients and Engagements

.14 Policies and procedures should be established for deciding whether to accept or continue a client relationship and whether to perform a specific engagement for that client. Such policies and procedures should provide the firm with reasonable assurance that the likelihood of association with a client whose management lacks integrity is minimized. Establishing such policies and procedures does not imply that a firm vouches for the integrity or reliability of a client, nor does it imply that a firm has a duty to any person or entity but itself with respect to the acceptance, rejection, or retention of clients. However, prudence suggests that a firm be selective in determining its client relationships and the professional services it will provide.

.15 Such policies and procedures should also provide reasonable assurance that the firm—

- a. Undertakes only those engagements that the firm can reasonably expect to be completed with professional competence.
- b. Appropriately considers the risks associated with providing professional services in the particular circumstances.

.16 To minimize the risk of misunderstandings regarding the nature, scope, and limitations of the services to be performed, policies and procedures should provide for obtaining an understanding with the client regarding those services. Professional standards may provide guidance in deciding whether the understanding should be oral or written.

## Engagement Performance

.17 Policies and procedures should be established to provide the firm with reasonable assurance that the work performed by engagement personnel meets applicable professional standards, regulatory requirements, and the firm's standards of quality.

.18 *[The following paragraph is effective for engagement quality reviews of audits and interim reviews for fiscal years beginning on or after December 15, 2009. See PCAOB Release 2009-004.]*

Policies and procedures for *Engagement Performance* encompass all phases of the design and execution of the engagement. To the extent appropriate and as required by applicable professional standards, these policies and procedures should cover planning, performing, supervising, reviewing, documenting, and communicating the results of each engagement. These policies and procedures also should address engagement quality reviews pursuant to PCAOB Auditing Standard No. 7, *Engagement Quality Review*.

---

<sup>8</sup> Regulatory agencies that have established continuing education requirements include state boards of accountancy and the U.S. General Accounting Office. [Footnote renumbered by the issuance of Statement on Quality Control Standards No. 6, September 2002.]

.19 Policies and procedures should also be established to provide reasonable assurance that personnel refer to authoritative literature or other sources and consult, on a timely basis, with individuals within or outside the firm, when appropriate (for example, when dealing with complex, unusual, or unfamiliar issues). Individuals consulted should have appropriate levels of knowledge, competence, judgment, and authority. The nature of the arrangements for consultation depends on a number of factors, including the size of the firm and the levels of knowledge, competence, and judgment possessed by the persons performing the work.

## Monitoring

.20 Policies and procedures should be established to provide the firm with reasonable assurance that the policies and procedures established by the firm for each of the other elements of quality control described in paragraphs .07 through .19 are suitably designed and are being effectively applied.<sup>9</sup> Monitoring involves an ongoing consideration and evaluation of the—

- a. Relevance and adequacy of the firm's policies and procedures.
- b. Appropriateness of the firm's guidance materials and any practice aids.
- c. Effectiveness of professional development activities.
- d. Compliance with the firm's policies and procedures. When monitoring, the effects of the firm's management philosophy and the environment in which the firm practices and its clients operate should be considered.

## Administration of a Quality Control System

.21 To provide reasonable assurance that the firm's quality control system achieves its objectives, appropriate consideration should be given to the assignment of quality control responsibilities within the firm, the means by which quality control policies and procedures are communicated, and the extent to which the policies and procedures and compliance therewith should be documented.

## Assignment of Responsibilities

.22 Responsibility for the *design* and *maintenance* of the various quality control policies and procedures should be assigned to an appropriate individual or individuals in the firm. In making that assignment, consideration should be given to the proficiency of the individuals, the authority to be delegated to them, and the extent of supervision to be provided. However, all of the firm's personnel are responsible for *complying* with the firm's quality control policies and procedures.

## Communication

.23 A firm should communicate its quality control policies and procedures to its personnel in a manner that provides reasonable assurance that those

---

<sup>9</sup> See section 30, *Monitoring a CPA Firm's Accounting and Auditing Practice*. [Footnote renumbered by the issuance of Statement on Quality Control Standards No. 6, September 2002.]

policies and procedures are understood and complied with. The form and extent of such communications should be sufficiently comprehensive to provide the firm's personnel with an understanding of the quality control policies and procedures applicable to them. In addition, a firm should establish a means of communicating its established quality control policies and procedures, and the changes thereto, to appropriate personnel on a timely basis.

### **Documentation of Quality Control Policies and Procedures**

.24 The size, structure, and nature of the practice of the firm should be considered in determining whether documentation of established quality control policies and procedures is required for effective communication and, if so, the extent of such documentation. For example, documentation of established quality control policies and procedures would generally be expected to be more extensive in a large firm than in a small firm and in a multioffice firm than in a single-office firm. Although communication ordinarily is enhanced if it is in writing, the effectiveness of a firm's system of quality control is not necessarily impaired by the absence of documentation of established quality control policies and procedures.

### **Documentation of Compliance With Quality Control Policies and Procedures**

.25 A firm should prepare appropriate documentation to demonstrate *compliance* with its policies and procedures for the quality control system discussed herein. The form and content of such documentation is a matter of judgment and depends on a number of factors, such as the size of a firm, the number of offices, the degree of authority allowed its personnel and its offices, the nature and complexity of the firm's practice, its organization, and appropriate cost-benefit considerations. Documentation should be retained for a period of time sufficient to enable those performing monitoring procedures and a peer review to evaluate the extent of the firm's compliance with its quality control policies and procedures.

### **Effective Date**

.26 The provisions of this section are applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997.

---

## QC Section 30

# Monitoring a CPA Firm's Accounting and Auditing Practice

**Effective date: Applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997.**

*Statements on Quality Control Standards are issued by the Auditing Standards Board. Firms that are enrolled in an Institute-approved practice-monitoring program are obligated to adhere to quality control standards established by the Institute.*

## Introduction

**.01** This section provides guidance on how a CPA firm implements the monitoring element of a quality control system in its accounting and auditing practice.<sup>1</sup>

**.02** Section 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*, describes *Monitoring* as one of the five elements of quality control. It provides that a CPA firm<sup>2</sup> should establish policies and procedures to provide the firm with reasonable assurance that the policies and procedures relating to each of the other elements of quality control are suitably designed and are being effectively applied. Monitoring involves an ongoing consideration and evaluation of the—

- a. Relevance and adequacy of the firm's policies and procedures.
- b. Appropriateness of the firm's guidance materials and any practice aids.
- c. Effectiveness of professional development activities.
- d. Compliance with the firm's policies and procedures.

When monitoring, the effects of the firm's management philosophy and the environment in which the firm practices and its clients operate should be considered.

## Monitoring Procedures

**.03** Monitoring procedures taken as a whole should enable the firm to obtain reasonable assurance that its system of quality control is effective.

---

<sup>1</sup> *Accounting and auditing practice* refers to all audit, attest, accounting and review, and other services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under rule 201 or 202 of the AICPA Code of Professional Conduct. Standards may also be established by other AICPA senior technical committees; engagements that are performed in accordance with those standards are not encompassed in the definition of an accounting and auditing practice.

<sup>2</sup> *Firm* is defined in the AICPA Code of Professional Conduct as "a form of organization permitted by state law or regulation whose characteristics conform to resolutions of Council that is engaged in the practice of public accounting, including the individual owners thereof".

Procedures that provide the firm with a means of identifying and communicating circumstances that may necessitate changes to or the need to improve compliance with the firm's policies and procedures contribute to the monitoring element. A firm's monitoring procedures may include—

- Inspection procedures. (See paragraphs .04 through .07.)
- Preissuance or postissuance review of selected engagements. (See paragraphs .08 and .09.)
- Analysis and assessment of—
  - New professional pronouncements.
  - Results of independence confirmations.
  - Continuing professional education and other professional development activities undertaken by firm personnel.<sup>3</sup>
  - Decisions related to acceptance and continuance of client relationships and engagements.
  - Interviews of firm personnel.
- Determination of any corrective actions to be taken and improvements to be made in the quality control system.
- Communication to appropriate firm personnel of any weaknesses identified in the quality control system or in the level of understanding or compliance therewith.
- Follow-up by appropriate firm personnel to ensure that any necessary modifications are made to the quality control policies and procedures on a timely basis.

**.04** Inspection procedures evaluate the adequacy of the firm's quality control policies and procedures, its personnel's understanding of those policies and procedures, and the extent of the firm's compliance with its quality control policies and procedures. Inspection procedures contribute to the monitoring function because findings are evaluated and changes in or clarifications of quality control policies and procedures are considered.

**.05** The need for and extent of inspection procedures depends in part on the existence and effectiveness of the other monitoring procedures. Factors to be considered in determining the need for and extent of inspection procedures include, but are not limited to—

- The nature, complexity, and diversity of, and the risks associated with, the firm's practice.
- The firm's size, number of offices, degree of authority allowed its personnel and its offices, and organizational structure.
- The results of recent practice reviews<sup>4</sup> and previous inspection procedures.
- Appropriate cost-benefit considerations.<sup>5</sup>

---

<sup>3</sup> The term *personnel* refers to all individuals who perform professional services for which the firm is responsible, whether or not they are CPAs.

<sup>4</sup> Practice reviews include, but are not limited to, peer reviews performed under standards established by the AICPA and reviews conducted by regulatory agencies.

<sup>5</sup> Although appropriate cost-benefit considerations may be considered in determining the need for and extent of inspection procedures, a firm must still effectively *monitor* its practice.

**.06** The nature of inspection procedures will vary based on the firm's quality control policies and procedures and the effectiveness and results of other monitoring procedures. The adequacy of and compliance with a firm's quality control system are evaluated by performing such inspection procedures as—

- Review of selected administrative and personnel records pertaining to the quality control elements.
- Review of engagement working papers, reports, and clients' financial statements. (See also paragraphs .08 and .09.)
- Discussions with the firm's personnel.
- Summarization of the findings from the inspection procedures, at least annually, and consideration of the systemic causes of findings that indicate improvements are needed.
- Determination of any corrective actions to be taken or improvements to be made with respect to the specific engagements reviewed or the firm's quality control policies and procedures.
- Communication of the identified findings to appropriate firm management personnel.
- Consideration of inspection findings by appropriate firm management personnel who should also determine that any actions necessary, including necessary modifications to the quality control system, are taken on a timely basis.

Inspection procedures with respect to the engagement performance element of a quality control system are particularly appropriate in a firm with more than a limited number of management-level individuals<sup>6</sup> responsible for the conduct of its accounting and auditing practice.

**.07** Inspection procedures may be performed at a fixed time(s) during the year covering a specified period(s) of time or as part of ongoing quality control procedures, or a combination thereof.

**.08** Procedures for carrying out preissuance or postissuance review of engagement working papers, reports, and clients' financial statements by a qualified management-level individual (or by a qualified individual under his or her supervision) may be considered part of the firm's monitoring procedures provided that those performing or supervising such preissuance or postissuance reviews are *not directly associated with the performance of the engagement*. Such preissuance or postissuance review procedures may constitute inspection procedures provided—

- a. The review is sufficiently comprehensive to enable the firm to assess compliance with all applicable professional standards and the firm's quality control policies and procedures.
- b. Findings of such reviews that may indicate the need to improve compliance with or modify the firm's quality control policies and procedures are periodically summarized, documented, and communicated to the firm's management personnel having the responsibility and authority to make changes in those policies and procedures.

---

<sup>6</sup> The term *management-level individual* refers to all owners of a firm and other individuals within the firm with a managerial position as described in Interpretation 101-9 of the Code of Professional Conduct.

- c. The firm's management personnel consider on a timely basis the systemic causes of findings that indicate improvements are needed and determine appropriate actions to be taken.
- d. The firm implements on a timely basis such planned actions, communicates changes to personnel who might be affected, and follows up to determine that the planned actions were taken.

A preissuance and, except as described in paragraph .09, a postissuance review of engagement working papers, reports, and clients' financial statements by the person with final responsibility for the engagement does not constitute a monitoring procedure.

**.09** In small firms with a limited number of qualified management-level individuals, postissuance review of engagement working papers, reports, and clients' financial statements by the person with final responsibility for the engagement may constitute inspection procedures, provided the provisions in paragraph .08a–d are followed. (See also paragraph .11.)

## Monitoring in Small Firms With a Limited Number of Management-Level Individuals

**.10** In small firms with a limited number of management-level individuals, monitoring procedures may need to be performed by some of the same individuals who are responsible for compliance with the firm's quality control policies and procedures. To effectively monitor one's own compliance with the firm's policies and procedures, an individual must be able to critically review his or her own performance, assess his or her own strengths and weaknesses, and maintain an attitude of continual improvement. Changes in conditions and in the environment within the firm (such as obtaining clients in an industry not previously serviced or significantly changing the size of the firm) may indicate the need to have quality control policies and procedures monitored by another qualified individual.

**.11** The performance of inspection procedures in firms with a limited number of management-level individuals can assist the firm in the monitoring process. An individual inspecting his or her own compliance with a quality control system may be inherently less effective than having such compliance inspected by another qualified individual. When one individual inspects his or her own compliance, the firm may have a higher risk that noncompliance with policies and procedures will not be detected. Accordingly, a firm in this circumstance may find it beneficial to engage a qualified individual from outside the firm to perform inspection procedures.

## The Relationship of Peer Review to Monitoring

**.12** A peer review does not substitute for monitoring procedures. However, since the objective of a peer review is similar to that of inspection procedures, a firm's quality control policies and procedures may provide that a peer review conducted under standards established by the AICPA may substitute for some or all of its inspection procedures for the period covered by the peer review.

## Effective Date

**.13** The provisions of this section are applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997.

## QC Section 40

# ***The Personnel Management Element of a Firm's System of Quality Control— Competencies Required by a Practitioner- in-Charge of an Attest Engagement***

### **Introduction**

.01 Section 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*, provides that a CPA firm shall have a system of quality control for its accounting and auditing practice<sup>1</sup> that should encompass the following elements:

- a. Independence, integrity, and objectivity
- b. Personnel management
- c. Acceptance and continuance of clients and engagements
- d. Engagement performance
- e. Monitoring

### **The Personnel Management Element of Quality Control**

.02 *Personnel Management* encompasses hiring, assigning personnel to engagements, professional development, and advancement activities. Accordingly, policies and procedures should be established to provide the firm with reasonable assurance that—

- a. Those hired possess the appropriate characteristics to enable them to perform competently. Examples of such characteristics may include meeting minimum academic requirements established by the firm, maturity, integrity, and leadership traits.
- b. Work is assigned to personnel having the degree of technical training and proficiency required in the circumstances.
- c. Personnel participate in general and industry-specific continuing professional education and other professional development activities that enable them to fulfill responsibilities assigned, and satisfy applicable continuing professional education requirements of the AICPA, and regulatory agencies.<sup>2</sup>

---

<sup>1</sup> *Accounting and auditing practice* refers to all accounting, audit, and attestation services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under Rule 201 or 202 of the AICPA Code of Professional Conduct. Standards may also be established by other AICPA senior technical committees; engagements that are performed in accordance with those standards are not encompassed in the definition of an accounting, auditing, and attestation practice.

<sup>2</sup> Regulatory agencies that have established continuing education requirements include state boards of accountancy and the U.S. General Accounting Office.

- d. Personnel selected for advancement have the qualifications necessary for fulfillment of the responsibilities they will be called on to assume.

**.03** This section clarifies the requirements of the personnel management element of a firm's system of quality control. In light of the significant responsibilities during the planning and performance of accounting, auditing, and attestation engagements of individuals who are responsible for supervising accounting, auditing, and attestation engagements and signing or authorizing an individual to sign the accountants report on such engagements, a firm's policies and procedures related to the items noted in paragraph .02 above should be designed to provide a firm with reasonable assurance that such individuals possess the kinds of competencies that are appropriate given the circumstances of individual client engagements. For purposes of this standard, such an individual is referred to as the practitioner-in-charge of the engagement.

## Competencies

**.04** Competencies are the knowledge, skills, and abilities that enable a practitioner-in-charge to be qualified to perform an accounting, auditing, or attestation engagement. A firm is expected to determine the kinds of competencies that are necessary in the individual circumstances. Competencies are not measured by periods of time because such a quantitative measurement may not accurately reflect the kinds of experiences gained by a practitioner in any given time period. Accordingly, for purposes of this section, a measure of overall competency is qualitative rather than quantitative.

## Gaining Competencies

**.05** A firm's policies and procedures would ordinarily require a practitioner-in-charge of an engagement to gain the necessary competencies through recent experience in accounting, auditing, and attestation engagements. In some cases, however, a practitioner-in-charge will have obtained the necessary competencies through disciplines other than the practice of public accounting, such as in relevant industry, governmental, and academic positions. If necessary, the experience of the practitioner-in-charge should be supplemented by continuing professional education (CPE) and consultation. The following are examples.

- A practitioner-in-charge of an engagement whose recent experience has consisted primarily in providing tax services may acquire the competencies necessary in the circumstances to perform a compilation or review engagement by obtaining relevant CPE.
- A practitioner-in-charge of an engagement who did not have any experience in auditing the financial statements of a public company and only possessed recent prior experience in auditing the financial statements of nonpublic entities may develop the necessary competencies by obtaining relevant CPE related to SEC rules and regulations and consulting with other practitioners who possess relevant knowledge related to SEC rules and regulations.
- A practitioner-in-charge of an engagement who did not have any experience in auditing the financial statements of a public company but possessed prior public accounting practice experience auditing financial statements of nonpublic entities and who also has relevant experience as the controller of a public company may have the necessary competencies in the circumstances.

- A practitioner-in-charge of an engagement whose actual experience consists of performing review and compilation engagements may be able to obtain the necessary competencies to perform an audit by becoming familiar with the industry in which the client operates, obtaining continuing professional education relating to auditing, and/or using consulting sources during the course of performing the audit engagement
- A person in academia might obtain the necessary competencies to perform accounting, auditing or attestation engagements by (a) obtaining specialized knowledge through teaching or authorship of research projects or similar papers, and (b) a rigorous self-study program or by engaging a consultant to assist on such engagements.

**.06** Regardless of the manner in which a particular competency is gained, a firm's quality control policies and procedures should be adequate to provide reasonable assurance that a practitioner-in-charge of an engagement possesses the competencies necessary to fulfill his or her engagement responsibilities.

**.07** The nature and extent of competencies established by a firm that are expected of the practitioner-in-charge of an engagement should be based on the characteristics of a particular client, industry, and the kind of service being provided. For example, the following should be considered.

- The competencies expected of a practitioner-in-charge of an engagement to compile financial statements would be different than those expected of a practitioner engaged to review or audit financial statements.
- Supervising engagements and signing or authorizing others to sign reports for clients in certain industries or engagements, such as financial services, governmental, or employee benefit plan engagements, would require different competencies than what would be expected in performing attest services for clients in other industries.
- The practitioner-in-charge of an engagement to audit the financial statements of a public company would be expected to have certain technical proficiency in SEC reporting requirements, while a practitioner-in-charge who is not assigned to the audits of public companies would not need to be proficient in this area. This would include, for example, experience in the industry and appropriate knowledge of SEC and ISB rules and regulations, including accounting and independence standards.
- The practitioner-in-charge of an attestation engagement to examine management's assertion about the effectiveness of an entity's internal control over financial reporting would be expected to have certain technical proficiency in understanding and evaluating the effectiveness of controls, while a practitioner-in-charge of an attestation engagement to examine investment performance statistics would be expected to have different competencies, including an understanding of the subject matter of the underlying assertion.

### **Competencies Expected in Performing Accounting, Auditing, and Attestation Engagements**

**.08** In practice, the kinds of competency requirements that a firm should establish for the practitioner-in-charge of an engagement are necessarily broad

and varied in both their nature and number. However, the firm's quality control policies and procedures should ordinarily address the following competencies for the practitioner-in-charge of an engagement. Firms policies and procedures should also address other competencies as necessary in the circumstances.

- *Understanding of the Role of a System of Quality Control and the Code of Professional Conduct*—Practitioners-in-charge of an engagement should possess an understanding of the role of a firm's system of quality control and the AICPA's Code of Professional Conduct, both of which play critical roles in assuring the integrity of the various kinds of accountant's reports.
- *Understanding of the Service to be Performed*—Practitioners-in-charge of an engagement should possess an understanding of the performance, supervision, and reporting aspects of the engagement, which is normally gained through actual participation in that kind of engagement under appropriate supervision.
- *Technical Proficiency*—Practitioners-in-charge of an engagement should possess an understanding of the applicable accounting, auditing, and attest professional standards including those standards directly related to the industry in which a client operates and the kinds of transactions in which a client engages.
- *Familiarity with the Industry*—To the extent required by professional standards applicable to the kind of service being performed, practitioners-in-charge of an engagement should possess an understanding of the industry in which a client operates. In performing an audit or review of financial statements, this understanding would include an industry's organization and operating characteristics sufficient to identify areas of high or unusual risk associated with an engagement and to evaluate the reasonableness of industry specific estimates.
- *Professional Judgment*—Practitioners-in-charge of an engagement should possess skills that indicate sound professional judgment. In performing an audit or review of financial statements, such skills would typically include the ability to exercise professional skepticism and identify areas requiring special consideration including, for example, the evaluation of the reasonableness of estimates and representations made by management and the determination of the kind of report necessary in the circumstances.
- *Understanding the Organization's Information Technology Systems*—Practitioners-in-charge of an audit engagement should have an understanding of how the organization is dependent on or enabled by information technologies; and the manner in which information systems are used to record and maintain financial information.

## **Interrelationship of Competencies and Other Elements of a Firm's System of Quality Control**

.09 The competencies listed above are interrelated and gaining one particular competency may be related to achieving another. For example, familiarity with the client's industry interrelates with a practitioner's ability to make professional judgments relating to the client.

.10 In establishing policies and procedures related to the nature of competencies needed by the practitioner-in-charge of an engagement, a firm may

need to consider the requirements of policies and procedures established for other elements of quality control. For example, a firm would consider its requirements related to engagement performance in determining the nature of any competency requirements that assess the degree of technical proficiency necessary in a given set of circumstances.

## **The Relationship of the Competency Requirement of the Uniform Accountancy Act to the Personnel Management Element of Quality Control**

.11 The Uniform Accountancy Act (UAA) is a model legislative statute and related administrative rules that the AICPA and the National Association of State Boards of Accountancy (NASBA) designed to provide a uniform approach to the regulation of the accounting profession. CPAs are not required to follow the provisions of the UAA itself but rather the accountancy laws of the individual licensing jurisdictions in the United States governing the practice of public accounting, which may have adopted the UAA in whole or in part. The UAA provides that "any individual licensee who is responsible for supervising attest or compilation services and signs or authorizes someone to sign the accountant's report on the financial statements on behalf of the firm shall meet the competency requirements set out in the professional standards for such services." A firm's compliance with this section is intended to enable a practitioner who performs the services described in the preceding sentence on the firm's behalf to meet this competency requirement; however, this section's applicability is broader than what is required by the UAA since the definition of an accounting and auditing practice in quality control standards encompasses a wider range of attest engagements.

### **Effective Date**

.12 The provisions of this section are applicable to a CPA firm's system of quality control for its accounting and auditing practice as of June 30, 2000. Earlier implementation is encouraged.

## **SECPS Section 1000.08(d), (f), (l), (m), (n), (o)**

### ***Requirements of Membership***

#### **Continuing Professional Education of Audit Firm Personnel**

**.08(d)** Ensure that all professionals in the firm residing in the United States, including CPAs and non-CPAs, participate in at least 20 hours of qualifying continuing professional education (CPE) every year and at least 120 hours every three years. Effective for CPE years beginning on or after January 1, 1995, professionals who devote at least 25% of their time to performing audit, review or other attest engagements (excluding compilations), or who have the partner/manager-level responsibility for the overall supervision or review of any such engagements, must obtain at least 40% (eight hours in any one year and 48 hours every three years) of their required CPE in subjects relating to accounting and auditing. The term accounting and auditing subjects should be broadly interpreted, and for example, include subjects relating to the business or economic environments of the entities to which the professional is assigned.<sup>1</sup>

#### **Concurring Partner Review of the Audit Report and the Financial Statements of Commission Registrants**

**.08(f)** *[This section was superseded, effective for engagement quality reviews of audits and interim reviews for fiscal years beginning on or after December 15, 2009, by PCAOB Auditing Standard No. 7. See PCAOB Release No. 2009-004.]*<sup>[2]</sup>

#### **Communication by Written Statement to all Professional Personnel of Firm Policies and Procedures on the Recommendation and Approval of Accounting Principles, Present and Potential Client Relationships, and the Types of Services Provided**

**.08(l)** Communicate through a written statement to all professional firm personnel the broad principles that influence the firm's quality control and operating policies and procedures on, as a minimum, matters related to the recommendation and approval of accounting principles, present and potential client relationships, and the types of services provided, and inform professional

---

<sup>1</sup> See SECPS §8000 for additional information about the continuing professional education requirement and the manner in which compliance is to be measured.

<sup>[2]</sup> *[This footnote was superseded, effective for engagement quality reviews of audits and interim reviews for fiscal years beginning on or after December 15, 2009, by PCAOB Auditing Standard No. 7. See PCAOB Release No. 2009-004.]*

firm personnel periodically that compliance with those principles is mandatory.<sup>3</sup> (Appendix H, SECPS §1000.42 is an illustration of such a statement.)

## Notification of the Commission of Resignations and Dismissals from Audit Engagements for Commission Registrants

**.08(m)** *[The following paragraph is effective June 1, 2014. See PCAOB Release No. 2013-010.]*

- (1) When the member firm has been the auditor for an SEC registrant (as defined in Appendix D, SECPS §1000.38) that is required to file current reports on Form 8-K and has resigned, declined to stand for re-election or been dismissed, report the fact that the client-auditor relationship has ceased directly in writing to the former SEC client, with a simultaneous copy to the Office of the Chief Accountant of the Securities and Exchange Commission, unless the former client reports the change in auditors in a timely filed Form 8-K.<sup>4</sup> Such report shall be sent to the former SEC client and to the Office of the Chief Accountant by the end of the fifth business day following the member firm's determination that the client-auditor relationship has ended, if the issuer has not reported the change in auditors to the SEC in a timely filed Form 8-K.
- (2) When the member firm has been the auditor for an SEC registrant (as defined in Appendix D, SECPS §1000.38) that is not required to file current reports on Form 8-K and has resigned, declined to stand for re-election or been dismissed, report the fact that the client-auditor relationship has ceased directly in writing to the former SEC client, with a simultaneous copy to the Office of the Chief Accountant of the Securities and Exchange Commission.<sup>5</sup> Such report shall be sent to the former SEC client and to the Office of the Chief Accountant by the end of the fifth business day following the member firm's determination that the client-auditor relationship has ended, irrespective of whether or not the registrant has reported the change in auditors in a timely filed report.

## Audit Firm Obligations with Respect to the Policies and Procedures of Correspondent Firms and of Other Members of International Firms or International Associations of Firms

**.08(n)** For SECPS member firms that are members of, correspondents with, or similarly associated with international firms or international associations of firms, seek adoption of policies and procedures by the international

---

<sup>3</sup> Firms that become members of the Section shall prepare and issue such a statement within six months of joining the Section.

<sup>4</sup> See Appendix I, SECPS §1000.43, for standard form of such report.

<sup>5</sup> *[The following footnote is effective June 1, 2014. See PCAOB Release No. 2013-010.]* See Appendix I, SECPS §1000.43, for standard form of such report.

organization or individual foreign associated firms<sup>6</sup> that are consistent with the objectives set forth in Appendix K, SECPS §1000.45 for SEC registrants.<sup>7</sup>

## Policies and Procedures to Comply with Independence Requirements

**.08(o)** Ensure that the member firm has policies and procedures in place to comply with applicable independence requirements of the AICPA, SEC and Independence Standards Board.<sup>8</sup>

---

---

<sup>6</sup> For this purpose, a foreign associated firm is a firm domiciled outside of the United States and its territories that is a member of, correspondent with, or similarly associated with an international association of firms with which the SECPS member is associated.

<sup>7</sup> See Appendix D, SECPS §1000.38, "Revised Definition of an SEC Engagement" for purposes of determining compliance with the membership requirements of SECPS §1000.08e, f, g, h, i, k, m, n, o, and p.

<sup>8</sup> See Appendix L, SECPS §1000.46, "Independence Quality Controls" for purposes of determining compliance with the membership requirement.

**SECPS Section 1000.38, .39, .42, .43, .45, .46*****Appendixes D, E, H, I, K, L*****SECPS Section 1000.38 Appendix D—Revised  
Definition of an SEC Client**

1. For purposes of determining whether a U.S. member firm is required to join the SEC Practice Section (the "Section") and comply with the Section's membership requirements, the Executive Committee has defined an SEC client (which is used interchangeably with SEC audit client, SEC registrant and SEC engagement) as one that involves the audit of the financial statements of the following:<sup>1</sup>

- a. An issuer making an initial filing, including amendments, under the Securities Act of 1933 (the "1933 Act") or the Securities Exchange Act of 1934 (the "1934 Act").
- b. A registrant that files periodic reports (for example, Forms N-SAR, 10-K or 11-K) with the Securities and Exchange Commission under the Investment Company Act of 1940 or the 1934 Act<sup>2</sup> (except a broker or dealer registered only because of section 15 paragraph a of the 1934 Act).
- c. A bank or other lending institution that files periodic reports with the Comptroller of the Currency, the Federal Reserve System, the Federal Deposit Insurance Corporation, or the Office of Thrift Supervision, because the powers, functions, and duties of the SEC to enforce its periodic reporting provisions are vested, pursuant to section 12(i) of the 1934 Act, in those agencies.<sup>3</sup> (The Section's membership requirement §1000.08m does not apply to these entities.)

This definition of an SEC client shall also be used for purposes of determining the number of SEC clients for which a firm is the principal auditor-of-record and, therefore, for which information is required to be filed with the Section for each fiscal year of a U.S. member firm. For this purpose, the Executive Committee has determined that a series of unit investment trusts, series of limited partnerships and series of mutual funds sponsored by the same entity shall be treated as one SEC client. (see SECPS §1000.08g).

2. Only for purposes of implementing the membership requirements of SECPS §1000.08k to report certain litigation, proceedings, or investigations to

---

<sup>1</sup> Since the firm need only consider those clients for which it is the principal auditor of record in the current period, for purposes of this definition, subsidiaries or unconsolidated affiliates whose financial information is included in the financial statements or filings of an SEC registrant are not considered SEC clients, unless those subsidiaries or unconsolidated affiliates meet one of the conditions in paragraph 1.

<sup>2</sup> Clients that have only issued securities exempt from registration under Regulations A, D or S should not be considered SEC clients.

<sup>3</sup> Rules 12g-4 and 12h-3 under the 1934 Act provide an exemption from periodic reporting to the SEC for (1) entities with less than \$10 million in total assets on the last day of the issuer's three most recent fiscal years and less than 500 shareholders and for (2) entities with less than 300 shareholders. Accordingly, such entities that utilize the exemption are not encompassed within the scope of this definition.

the Quality Control Inquiry Committee, the Executive Committee has determined that the term SEC client, in addition to entities included under paragraph 1 above, shall also include:

- a. A subsidiary or investee of an entity encompassed by paragraph 1 above, if such matters relate to financial statements presented separately in parent or investor company filings under the 1933 Act or the 1934 Act.
- b. An entity encompassed by paragraph 1 above, if such matters relate to the financial statements of a former client that are included in a 1933 Act or 1934 Act filing.

3. For purposes of implementing the membership requirements of SECPS §1000.08n, the Executive Committee has determined that the term SEC registrant shall also encompass all foreign private issuers defined by Rule 405 of Regulation C under the 1933 Act and Rule 3b-4(C) under the 1934 Act that have securities registered or have filed a registration statement with the SEC.

None of the foregoing is intended to change SECPS §1000.13 of the organizational structure and functions section regarding the appointment of members to the Executive Committee of the Section.

## **SECPS Section 1000.39 Appendix E—Concurring Partner Review Requirement (Revised with an Effective Date of March 31, 2002)**

Statement on Auditing Standards No. 25, *The Relationship of Generally Accepted Auditing Standards to Quality Control Standards* [AU section 161], and Statement on Quality Control Standards No. 2 (SQCS No. 2), *System of Quality Control for a CPA Firm's Accounting and Auditing Practice* [QC section 20], require the firm to maintain a system of quality control to provide reasonable assurance that its personnel comply with applicable professional standards and the firm's standards of quality. Engagement performance policies and procedures required by paragraph .18 of SQCS No. 2 [QC section 20.18]<sup>1</sup> encompass all phases of a firm's policies and procedures for the design and execution of the engagement, which include the concurring partner review for SEC engagements. Accordingly, the concurring partner review is an integral part of the firm's system of quality control and serves as an objective review of significant auditing, accounting, and financial reporting matters<sup>2</sup> that come to the attention of the concurring partner reviewer and the resolution of such matters prior to the issuance of the firm's audit report with respect to financial statements of SEC engagements (see Appendix D, SECPS §1000.38). On the basis of that review, the concurring partner reviewer should conclude that no matters that have come to his or her attention would cause the concurring partner reviewer to believe that the financial statements are not in conformity with generally accepted accounting principles in all material respects, or that the firm's audit was not performed in accordance with generally accepted auditing standards.

---

<sup>1</sup> The Auditing Standards Board has issued a revision to SQCS No. 2 [QC section 20.18], through adoption of SQCS No. 4, to specify "Where applicable, these policies and procedures should also address the AICPA's SEC Practice Section's concurring partner review requirement for SEC engagements."

<sup>2</sup> For purposes of the concurring partner review, "significant auditing, accounting, and financial reporting matters" refers to matters involving a significant risk of material misstatement of financial statements, including a material disclosure deficiency in the footnotes to the financial statements.

**A member firm's system of quality control should include policies and procedures covering (a) the qualifications of concurring partner reviewers, (b) the nature, extent, and timing of the concurring partner review, (c) the documentation required to evidence compliance with the firm's policies and procedures with respect to the concurring partner review requirement, and (d) quarterly reviews.**

As a minimum, the firm's policies and procedures should be responsive to the following:

- a. **Qualifications.** The concurring partner reviewer should have sufficient technical expertise and experience to achieve the purpose described above. The determination of what constitutes sufficient technical expertise and experience requires consideration and is tailored to the circumstances of the engagement, including the personnel assigned to the engagement. An effective concurring partner review contemplates knowledge of relevant specialized industry practices. It also contemplates that the concurring partner reviewer possesses knowledge of SEC rules and regulations in areas where such rules and regulations are pertinent. There are various ways to obtain such knowledge in addition to personal audit experience, such as attendance at relevant training courses and through self-study. The concurring partner reviewer should seek assistance from other individuals to supplement this knowledge when necessary in the circumstances.

The tone set at the top of the firm should encourage and support the performance of objective concurring partner reviews. In this regard, firm policy should state that the concurring partner reviewer is expected to carry out his or her responsibilities with objectivity and due professional care without regard to the relative positions of the audit engagement partner and the concurring partner reviewer.

Further, the concurring partner reviewer should not assume any of the responsibilities of the audit partner-in-charge of the engagement or have responsibility for the audit of any significant subsidiaries, divisions, benefit plans, or affiliated or related entities.<sup>3</sup> In addition, a prior audit engagement partner should not serve as the concurring partner reviewer for at least two annual audits following his or her last year as the audit engagement partner.<sup>4</sup> A member firm that is not subject to the SECPS membership requirement regarding rotation of an audit engagement partner of an SEC engagement after seven consecutive years is exempt from the preceding requirement.<sup>5</sup>

---

<sup>3</sup> It is not unusual for clients to be aware of the existence of a concurring partner reviewer. A client may contact the concurring partner reviewer with respect to matters requiring immediate attention when the audit engagement partner is not available because of illness, extended travel or other reasons. When a concurring partner reviewer is thus required to deal with an accounting, auditing or financial reporting matter, he or she should advise the audit engagement partner of the facts and circumstances so that the audit engagement partner can review the matter and take full responsibility for its resolution.

<sup>4</sup> The SECPS Peer Review Committee may authorize alternative procedures when this requirement imposes an undue hardship on the firm. See SECPS §2000.147, Appendix F, of the SEC Practice Section Reference Manual for submitting requests for a waiver of this requirement to the SECPS Peer Review Committee.

<sup>5</sup> See SECPS §1000.08(e)(1), "Requirements of Members," of the SEC Practice Section Reference Manual.

- b. Nature, Extent, and Timing. The concurring partner reviewer's responsibility is to perform an objective review of significant auditing, accounting, and financial reporting matters and to conclude, based on all the relevant facts and circumstances of which the concurring partner reviewer has knowledge, that no matters that have come to his or her attention would cause the concurring partner reviewer to believe that the client's financial statements covered by the firm's audit report are not in conformity with generally accepted accounting principles in all material respects or that the audit was not performed in accordance with generally accepted auditing standards.

The concurring partner reviewer's responsibility is not the equivalent of the audit engagement partner's responsibilities. Without first-hand knowledge of the client's business environment, the benefit of discussions with management and other client personnel, the opportunity to review client documents or controls, or the ability to observe the client's actions or attitudes, a concurring partner reviewer generally is not in a position to make the informed judgments on significant issues expected of an audit engagement partner. However, the concurring partner reviewer is expected to objectively perform the procedures specified below and reach conclusions based on all relevant facts and circumstances of which he or she has knowledge.

The concurring partner reviewer's responsibility is fulfilled by performing the following procedures:

- Discussing significant accounting, auditing and financial reporting matters with the audit engagement partner;
- Discussing the audit engagement team's identification and audit of high-risk transactions and account balances;
- Reviewing documentation of the resolution of significant accounting, auditing and financial reporting matters, including documentation of consultation with firm personnel or resources external to the firm's organization (such as standard-setters, regulators, other accounting firms, the AICPA, and state societies);<sup>6</sup>
- Reviewing a summary of unadjusted audit differences;
- Reading the financial statements and auditors' report; and
- Confirming with the audit engagement partner that there are no significant unresolved matters.

These procedures provide the basis for the concurring partner reviewer to perform an objective review of accounting, auditing and financial reporting matters that were considered significant by the engagement team in conducting the audit. The concurring partner reviewer is not responsible for searching for additional matters to be considered by the engagement team. However, significant matters not previously identified by the engagement team

---

<sup>6</sup> Documentation to be reviewed should consist of summary memoranda and/or working paper summaries of the resolution of significant accounting, auditing, and financial reporting matters, and may include selected, more detailed working papers and other documentation. The review of the more detailed working papers and other documentation is a matter of professional judgment made by the concurring partner reviewer about the extent of information necessary to perform an objective review so that he or she has sufficient basis to conclude on the results of the review.

that come to the concurring partner reviewer's attention should be referred to and resolved by the engagement team with the concurrence of the concurring partner reviewer.

In addition to performing the procedures described in the bullets above, the concurring partner reviewer's consideration and conclusions about whether significant matters were appropriately considered and resolved may require discussions with other firm personnel involved in any significant consultations. When discussion occurs with the concurring partner reviewer on an accounting, auditing or financial reporting matter during the engagement, the audit engagement partner ordinarily should develop an initial resolution to the matter before discussion with the concurring partner reviewer.<sup>7</sup>

The firm's guidelines for concurring partner review should take into account its policies and procedures for planning, supervising and reviewing engagements, and the extent to which those policies provide for the documentation of significant accounting, auditing, and financial reporting matters. The firm's guidelines also should identify the types of engagements for which a timely review should be made of the audit planning by the concurring partner reviewer so that any modifications can be implemented effectively during the performance of the audit. Firms should apply, as a minimum, this procedure to the firm's initial audit of a SEC engagement and other high-risk engagements as defined by the firm for this purpose. Such a definition might be influenced by the complexity of the entity, the engagement personnel's experience with the entity, and their knowledge of the entity's business. Factors to consider in this regard may include the entity's type of business; types of products and services; capital structure; related parties; locations; production, distribution, and compensation methods; any material changes in the entity's business; and whether the entity has plans for a public offering. (See AICPA Professional Standards, Vol. 1, AU section 311, "Planning and Supervision" and AU section 312, "Audit Risk and Materiality in Conducting an Audit.")

If the concurring partner reviewer and the audit engagement partner of the engagement have conflicting views regarding important matters, the disagreement should be resolved in accordance with applicable firm policy.<sup>8</sup>

In all cases, the concurring partner review should be completed before the release of the audit report and before the re-issuance of the audit report where performance of subsequent events procedures<sup>9</sup> is required by professional standards.

- c. Documentation. The engagement files should contain evidence that the firm's policies and procedures with respect to the concurring partner review requirement were complied with before the issuance of the firm's audit report. Ordinarily, this would include documentation that the concurring partner reviewer has

---

<sup>7</sup> Discussion with the concurring partner reviewer is most effective when the concurring partner reviewer is aware of and understands the issues at the time the issues are addressed by the audit engagement team rather than addressing the issues at the conclusion of the engagement.

<sup>8</sup> See Statement on Auditing Standards No. 22, "Planning and Supervision" [AU section 311].

<sup>9</sup> In this instance, the concurring partner reviewer ordinarily would concern himself or herself with matters relating to the subsequent events procedures.

performed the procedures specified by the firm's policies and that no matters that have come to the attention of the concurring partner reviewer would cause him or her to believe that the financial statements are not in conformity with generally accepted accounting principles in all material respects or that the firm's audit was not performed in accordance with generally accepted auditing standards.

- d. Quarterly Reviews. Items (b) and (c) above relate to the concurring partner reviewer's involvement with an audit engagement. For a review conducted in accordance with SAS No. 71, "Interim Financial Information," on financial statements in an SEC client's quarterly Form 10-Q or 10-QSB filing, a member firm's policies and procedures should require discussion with the concurring partner reviewer, prior to the completion of the review, about any matters identified in the review that involve a significant risk of material misstatement of the financial statements.<sup>10</sup> Any such involvement should be documented.

## SECPS Section 1000.42 Appendix H—Illustrative Statement of Firm Philosophy

### The Firm and Its Objectives

ABC & Co. is a partnership engaged in the practice of public accounting in Anytown and Everywhere. ABC & Co. maintains correspondent relationships with selected firms that enable us to meet client needs for services outside our normal practice area.

We have as an overriding objective the provision of high quality audit, accounting, tax, and advisory services to clients in the best professional manner. Our partners and staff are expected to comply with this statement of philosophy in order to achieve that objective.

"Professionalism" in the accounting profession means integrity, objectivity, independence where required, adherence to professional standards and applicable laws and regulations, and a demonstrated will to maintain and improve the quality of professional services and to withstand all pressures, competitive and otherwise, to compromise on principles, standards, and quality. In the field of auditing, particularly, professionalism requires an understanding of and dedication to the public interest.

The public interest in audited financial statements has placed the public accounting profession in a unique position of public trust. Moreover, there is also a significant public interest in the way in which the Firm carries out accounting, tax, and advisory services. Therefore, no client or Firm consideration is allowed to interfere with our ability to carry out our commitment to professionalism.

### Professional Performance

ABC & Co. demands integrity, objectivity, competence, and due care from all of its personnel in the conduct of all of its engagements, whatever their nature. We demand independence in fact and appearance in all audit and other engagements where independence is required by applicable laws and regulations and

---

<sup>10</sup> For purposes of the concurring partner review, "significant risk of material misstatement of the financial statements" includes a material disclosure deficiency in the footnotes to the financial statements.

the requirements of professional societies. We take steps to insure that personnel assigned to engagements, whatever their nature, have the professional and specialized knowledge required to carry out their responsibilities; at the same time, we recognize that supervisors and other reviewers and consultants can complement that knowledge.

Our Firm is structured to provide leadership in achieving high quality professional performance while maintaining the concept of individual responsibility so necessary to clients and to individuals within the firm. ABC & Co. has established policies and procedures that we believe provide assurance that professional engagements are properly planned and executed and that decisions are based on the substance of issues, not on form. Accounting standards cannot deal with all possible situations, and we at all times urge our clients to adopt accounting and reporting policies that we believe are the most appropriate in the circumstances.

Our policies and procedures provide, among other things, for consultation on significant matters, and ABC & Co. has designated partners of the Firm whose opinions are to be sought on significant ethical, technical, and industry questions. The policies and procedures we have established are designed to assure that our clients receive the best professional services we can provide and that in providing those services we continually keep in mind the public interest in our work. We expect our partners and staff to identify and resolve all important issues relevant to an engagement.

More specifically, to achieve high quality professional performance, and to comply with the membership requirements of the AICPA Division for CPA Firms, ABC & Co. has adopted policies and procedures that implement the quality control standards for the conduct of accounting and auditing engagements established by the American Institute of Certified Public Accountants. Those policies and procedures relate to the following elements of quality control, among other matters:

***Independence, Integrity, and Objectivity***—To be free from financial, business, family, and other relationships involving a client when required. To be honest and candid within the constraints of client confidentiality. To have a state of mind and a quality that lends value to the firm's services and imposes the obligation to be impartial, intellectually honest, and free of conflicts of interest.

***Personnel Management***—To hire individuals that possess the appropriate characteristics to enable them to perform competently. To assign work to personnel who possess the technical training and competence required in the circumstances. To provide personnel with the training necessary to fulfill responsibilities assigned and satisfy applicable continuing professional education requirements. To select for advancement those individuals that have the qualifications necessary to fulfill responsibilities involved.

***Acceptance and Continuance of Clients and Engagements***—To appropriately consider the risks associated with providing professional services so as to decrease the likelihood of association by the firm with clients and engagements in which client management lacks integrity. To associate with clients and engagements in which the firm can reasonably expect to complete with professional competence.

***Engagement Performance***—To determine that the design and execution of work performed is efficient and in accordance with applicable professional standards. To have personnel refer to authoritative literature or other sources and consult with individuals with the knowledge, technical competency, judgment, and authority, when appropriate.

**Monitoring**—To develop a system to evaluate on an ongoing basis whether the other elements of quality control established by the firm are suitably designed and are being effectively applied.

We have also adopted appropriate policies and procedures in the above areas to guide the conduct of tax and advisory services engagements.

The adequacy of the Firm's quality control system for our accounting and auditing practice and our compliance with that system are independently evaluated every three years through a peer review conducted under the auspices of the AICPA Division for CPA Firms. The peer review report is available to our clients and other interested parties.

## Relationships With Clients

The value of our services is, to a large degree, dependent on the public perception of our integrity and objectivity. If the public were to doubt our integrity or objectivity—or our competence or professional care—as a result of our work for a given client, the value of our services to that client, to all other clients, and to the public at large could drop significantly. Accordingly, just as our clients are selective in their choice of CPA firms, ABC & Co. is selective in accepting clients. Our responsibilities to existing clients and to the public demand that we consider the appropriateness of client relationships and that we carefully consider the nature of services we are asked to provide and our ability to provide those services in a quality manner in conformity with all relevant professional standards.

When potential clients who disagree with their present auditors on significant auditing, accounting, or reporting questions, request our opinion on the matter, we consult within our Firm and with a potential client's present or predecessor CPA firm before giving our final conclusion on the matter.

We value our reputation for quality services and believe that reputation is the basis on which we attract new clients and build our practice for the future. We are committed to rendering value for our fees and believe our clients should have a reasonable basis for making that judgment for themselves. Accordingly, we carefully evaluate the services we are asked to provide and the factors, such as the nature of control systems and procedures, that will affect the costs we expect to incur in providing such services before we inform present and potential clients of the fees we estimate those services will entail. Once ABC & Co. undertakes a client engagement, we bring all the resources to that engagement necessary in the circumstances.

We do not disclose to anyone outside of our Firm any confidential client information obtained in the course of any engagement unless the disclosure is authorized by the client or is required to discharge properly our responsibilities under law or authoritative regulatory or professional standards. (Our peer reviewers have access to client information, but they are bound by the same standards of confidentiality).

## Services Provided

ABC & Co. provides a full range of audit, accounting, tax, and advisory services, consistent with ethical and professional standards and regulatory requirements in the United States and with the limitations imposed by our Firm's membership in the AICPA Division for CPA Firms.

The services provided by CPA firms must be responsive to changes in the environment, which is affected by developments in information technology, the

increasing complexity of tax laws and regulations, greater demands by the public for new types of information and CPA assurances on such information, the increasing need of many clients for advisory services, and a host of other factors.

If the public accounting profession as a whole, and ABC & Co. in particular, are to meet the legitimate and changing needs of clients and the public, arbitrary restrictions on the services provided are not appropriate. However, ABC & Co., as a matter of policy, will undertake only engagements that we believe we can perform with competence, that will be useful to our clients or to appropriate third parties, that will not impair our independence in fact or appearance when we also provide audit services to the client involved, and that will help attract and retain the personnel we need to provide the knowledge base essential to maintain our ability to serve our clients and the public in a professional manner. In evaluating proposed engagements, as well as the way we inform clients and others of our capabilities, we consider whether such engagements will lessen public confidence in our independence, integrity, and objectivity in the performance of the audit function or in our commitment to that function.

## **SECPS Section 1000.43 Appendix I—Standard Form of Letter Confirming the Cessation of the Client-Auditor Relationship**

*[The following paragraph is effective June 1, 2014. See PCAOB Release No. 2013-010.]*

(Date)

Mr. John Doe  
Chief Financial Officer  
XYZ Corporation  
Anytown, USA

Dear Mr. Doe:

This is to confirm that the client-auditor relationship between XYZ Corporation (Commission File Number X-XXXX) and Able Baker & Co. has ceased.

Sincerely,

---

Able Baker & Co.

CC: Office of the Chief Accountant  
SECPS Letter File  
Securities and Exchange Commission  
SECPSletters@sec.gov  
100 F Street, NE  
Washington, D.C. 20549

**NOTE:** The SEC has indicated that member firms may satisfy the SECPS notification requirements by e-mailing a copy of the SECPS letter to the SEC-Office of the Chief Accountant (SECPSletters@sec.gov). A copy of the e-mail should be retained by the sender as documentation of timely filing. The SEC strongly encourages sending the notification letter by fe-mail to SECPSletters@sec.gov. The SEC staff will accept the date the e-mail is received as the notification date. If e-mail transmission is not available, alternatively, by order of preference, the

SECPS notification letter may be sent to the SEC via (1) fax to (202) 772-9252, (2) U.S. Postal Service overnight delivery, (3) commercial overnight courier, or (4) certified mail, "return receipt requested".

The exact name of the registrant and the Commission File Number as it appears on the cover page of the Form 10-K should be used in the e-mail. If the cessation of the client-auditor relationship affects multiple SEC registrants (e.g., a parent with publicly-registered subsidiaries, series of mutual funds), the exact name of each registrant and each Commission File Number should be set forth in the SECPS e-mail.

## SECPS Section 1000.45 Appendix K—SECPS Member Firms With Foreign Associated Firms That Audit SEC Registrants

.01 The Section acknowledges that SECPS member firms that are members of, correspondents with, or similarly associated with international firms or international associations usually do not control their international organization or individual foreign associated firms.<sup>1</sup> However, the Section adopted the membership requirement set forth in SECPS §1000.08(n) to obtain the assistance of SECPS member firms in their seeking to enhance the quality of SEC filings by SEC registrants<sup>2</sup> whose financial statements are audited by foreign associated firms. This assistance consists of SECPS member firms seeking adoption of policies and procedures by their international organizations or individual foreign associated firms that are consistent with the following objectives:

- a. *Procedures for Certain Filings by SEC Registrants*—The policies and procedures should address the performance of procedures with respect to certain SEC filings by SEC registrants that are clients of foreign associated firms by a person or persons knowledgeable in accounting, auditing, and independence standards generally accepted in the U.S., independence requirements of the SEC and ISB, and SEC rules and regulations in areas where such rules and regulations are pertinent (the "filing reviewer"). The procedures are performed to provide assistance to the partner of the foreign associated firm responsible for the audit (the "audit partner-in-charge of the engagement") and the foreign associated firm. Such filings are limited to registration statements, annual reports on Form 20-F and 10-K, and other SEC filings that include or incorporate the foreign associated firm's audit report on the financial statements of an SEC registrant.

The procedures performed by the filing reviewer should generally include the following:

- (1) Reading the document to be filed with the SEC with particular attention given to compliance as to form of the financial statements (and related schedules) and auditors' report with the applicable accounting and financial reporting requirements for such filings by the SEC registrant.

---

<sup>1</sup> For this purpose, a foreign associated firm is a firm domiciled outside of the United States and its territories that is a member of, correspondent with, or similarly associated with an international firm or international association of firms with which the SECPS member is associated.

<sup>2</sup> See Appendix D, SECPS §1000.38, "Definition of an SEC Engagement" for purposes of determining compliance with the membership requirements of SECPS §1000.08e, f, g, h, i, k, m, n, o and p.

- (2) Discussing with the audit partner-in-charge of the engagement:
- (i) the engagement team's familiarity with and understanding of the applicable U.S. auditing, accounting, financial reporting, and independence standards, including independence requirements of the SEC and the ISB;
  - (ii) the significant differences between: (a) the accounting and financial reporting standards used in the presentation of the financial statements included or incorporated in the document to be filed with the SEC and those applicable in the U.S., and (b) the auditing and independence standards of the foreign associated firm's domicile country and those applicable in the U.S.; and
  - (iii) any significant auditing, accounting, financial reporting, and independence matters that come to the attention of the filing reviewer when performing the procedures described above, including how any such matters were addressed and resolved by the audit partner-in-charge of the engagement.
- (3) Documenting the results of the procedures performed.

The procedures performed by the filing reviewer described above do not relieve the audit partner-in-charge of the engagement of any of the responsibilities for the performance of the audit of, and the report rendered by the foreign associated firm on, the financial statements included in the document to be filed with the SEC. Also, the filing reviewer does not assume any of the responsibilities of the audit partner-in-charge of the engagement or of any concurring reviewer.

Because of the limited nature of the procedures described above, it is recognized that the filing reviewer can not and does not assume any responsibility for detecting a departure from, or non-compliance with, accounting, auditing, and independence standards generally accepted in the U.S., independence requirements of the SEC and ISB, or SEC rules and regulations.

- b. *Inspection Procedures*—The policies and procedures should address the review of a sample of audit engagements performed by foreign associated firms for clients that are SEC registrants. Such reviews may be performed as part of an annual inspection program of the international organization or the individual foreign associated firms. The reviews of engagements should be performed by a person or persons knowledgeable in accounting, auditing, and independence standards generally accepted in the U.S., independence requirements of the SEC and ISB, and SEC rules and regulations in areas where such rules and regulations are pertinent (the "inspection reviewer"). The need for knowledge of relevant specialized industry practices should be considered.

Based on the procedures performed, the inspection reviewers should determine whether anything came to their attention to cause them to believe that:

- (1) the financial statements were not presented in all material respects in conformity with accounting principles generally accepted in the U.S. or, if applicable, the footnote reconciliation of the financial statements to U.S. GAAP did not include appropriate treatment of the material reconciling items,
  - (2) the audit engagement was not performed in accordance with auditing standards generally accepted in the U.S.,
  - (3) the document(s) filed with the SEC did not comply as to form of the financial statements (and related schedules) with pertinent SEC rules and regulations for such filings,
  - (4) the foreign associated firm did not comply with the applicable U.S. independence standards, including independence requirements of the SEC and ISB with respect to the SEC registrant, or
  - (5) the foreign associated firm did not comply with procedures consistent with those described in .01a. above.
- c. *Disagreements*—The policies and procedures should provide that if the filing or inspection reviewer and the audit partner-in-charge of the engagement have conflicting views as to the resolution of matters that came to the attention of the filing or inspection reviewer when performing the procedures for certain filings or inspection described above, that disagreement should be resolved in accordance with the applicable policy of the international organization or of the filing or inspection reviewer's firm.

## SECPS Section 1000.46 Appendix L—Independence Quality Controls

### Introduction

Member firms<sup>1</sup> must comply with the applicable independence standards promulgated by the American Institute of Certified Public Accountants (AICPA), Independence Standards Board (ISB), and the Securities and Exchange Commission (SEC). The importance of compliance with such independence standards, and the quality control standards promulgated by the AICPA, should be reinforced by the management of the member firm, thereby setting the appropriate "tone at the top" and instilling its importance into the professional values and culture of the member firm. Member firm management should also foster an environment where the seriousness and importance of compliance can be evidenced in many forms, such as the member firm's commitment to the training of professionals on independence policies and the action taken in the case of non-compliance with such policies.

### Requirements

1. Each member firm shall establish written independence policies covering relationships with "restricted entities," for example, relationships between the restricted entity and the member firm (including, where applicable, its

---

<sup>1</sup> For purposes of this requirement, *member firm*, unless otherwise noted, means the U.S. firm that is the member of the SEC Practice Section.

foreign-associated firms<sup>2</sup>), its benefit plans, and its professionals. These policies shall be written in language, to the extent possible, that is clear, concise, and tailored to each member firm's independence policies and procedures, given the complexity of the member firm's practice. These relationships would include investments, loans, brokerage accounts, business relationships, employment relationships, proscribed services, and fee arrangements. For purpose of this membership requirement, "restricted entities" shall include all audit clients of the member firm, and to the extent applicable its foreign-associated firms, that are SEC registrants and other entities<sup>3</sup> that the member firm is required to be independent of under the applicable SEC requirements.

- a. Persons classified as "professional staff" (including partners) in a member firm's annual report to the SEC Practice Section (SECPS) shall be considered "professionals" for this purpose.
- b. For purposes of implementing these requirements, the term "SEC registrant" is defined as (1) an issuer making an initial filing, including amendments, under the Securities Act of 1933 or the Securities Exchange Act of 1934 ("Exchange Act"); (2) a registrant that files periodic reports under the Investment Company Act of 1940 or the Exchange Act; (3) a bank or other lending institution that files periodic reports under the Exchange Act with the Comptroller of the Currency, the Federal Reserve System, the Federal Deposit Insurance Corporation, or the Office of Thrift Supervision; (4) a company whose financial statements appear in the annual report or proxy statement of an investment fund because it is a sponsor or manager of such a fund, but which is not itself a registrant required to file periodic reports under the Investment Company Act of 1940 or section 13 or 15(d) of the Exchange Act; and (5) a foreign private issuer defined by Rule 405 of Regulation C under the Securities Act of 1933 and Rule 3b-4(c) under the Exchange Act that has securities registered or has filed a registration statement with the SEC.

2. The member firm's independence policies shall be provided or otherwise made available to all professionals, as defined in paragraph 1a. Substantive changes to the member firm's policies shall be provided or otherwise made available on a timely basis.

3. The member firm shall establish a training program to provide reasonable assurance that professionals understand the member firm's independence policies. Each professional performing professional services for clients shall complete near the time of initial employment and periodically thereafter, independence training as required by the member firm's policies. The specific content and extent and timing of the independence training requirements shall be determined by the member firm's policies, but shall include the relevant rules regarding investments, loans, brokerage accounts, business relationships, employment relationships, proscribed services and fee arrangements.

4. Each member firm shall maintain a database ("Restricted Entity List") that includes all restricted entities, as described in paragraph 1. The member

---

<sup>2</sup> For purposes of this requirement, a *foreign-associated firm* is an organization outside of the United States and its territories that would normally include only those organizations that are reported on the member firm's annual report to the SECPS in accordance with §1000.08(n) and Appendix K of the SECPS Reference Manual, but could include other organizations based on facts and circumstances.

<sup>3</sup> For practical purposes, member firms may exclude entities whose securities are not available for public sale.

firm's policies should explain why, when and how SEC registrant audit clients (and other related entities as discussed above) are to be placed on the Restricted Entity List. For member firms that provide an annual audit to more than 500 SEC registrants, an automated system to identify investment holdings of partners and managers that might impair independence is required. Member firms that provide an annual audit to more than 500 SEC registrants are required to have the automated system in place by December 31, 2000 or within a reasonable transition period upon achieving that number, not to exceed one year.

**5.** Each member firm shall designate a senior-level partner responsible for: (1) overseeing the adequate functioning of the independence policies of and the consultation process within the member firm; (2) providing or otherwise making the Restricted Entity List readily available to all professionals; (3) keeping the Restricted Entity List updated on at least a monthly basis; and (4) communicating additions to the Restricted Entity List on a timely basis (generally monthly).

**6.** Member firms that have foreign-associated firms shall provide or otherwise make available the member firm's independence policies, required in paragraph 1, and its Restricted Entity List, required in paragraph 4, to its foreign-associated firms, including the partners and managers therein. This may be accomplished directly by the member firm, by an international organization of which the member firm is a participating firm, or by a foreign-associated firm.

**7.** Each member firm's independence policies and procedures should specifically require the following:

- a. Prior to obtaining any security or other financial interest in an entity, professionals should review the Restricted Entity List to determine whether the entity is included thereon. This review would also be required by the professional's spouse and dependents.
- b. Each professional shall certify near the time of initial employment and at least annually thereafter that he or she (1) has read the member firm's independence policies, (2) understands their applicability to his or her activities and those of his or her spouse and dependents, and (3) has complied with the requirements of the member firm's independence policies since the prior certification.<sup>4</sup>
- c. Each professional shall report apparent violations of policies involving himself or herself and his or her spouse and dependents and the corrective action taken or proposed to be taken on a timely basis when identified. Reporting apparent violations under this requirement would not include, for example, timely disposition of client securities resulting from additions to the Restricted Entity List or upon becoming subject to the independence rules of the ISB, SEC or AICPA.
- d. Each member firm shall have a monitoring system under the supervision of the senior-level partner designated in 5. above to determine that adequate corrective steps are taken and documented on all apparent violations reported by professionals within the member firm. The monitoring system should include procedures to provide reasonable assurance that (i) investments of the member firm and its benefit plans are in compliance with the member firm's policies and (ii) information received from its partners and

---

<sup>4</sup> The provisions of paragraph 7b are effective April 1, 2000 and shall be applied prospectively.

managers is complete and accurate. The monitoring system will generally include auditing, on a sample basis, selected information such as brokerage statements, or alternative procedures that accomplish the same objective.

- e. Each member firm shall develop as part of its policies, guidelines for actions to be taken against professionals for violations of independence. These policies will describe the potential sanctions to levy against those professionals for violating member firm policies and procedures or professional independence requirements.

### **Effective Date**

Unless otherwise stated, all requirements with respect to the member firm are effective December 31, 2000. All requirements with respect to a member firm's foreign-associated firms are effective January 1, 2002.

---

## SECPS Section 8000

# ***Continuing Professional Education Requirements Effective for Educational Years Beginning After May 31, 2002***

### **Basic Requirements**

**.01** Continuing Professional Education (CPE) is the term used by the SEC Practice Section to describe educational activities that assist a member firm's professionals (as defined in paragraph 8000.09) in achieving and maintaining quality in professional service.

This section sets forth the requirements of SEC Practice Section member firms with respect to CPE as summarized into three categories, (1) Record-keeping for each professional to ensure that each professional adheres to all CPE requirements (2) Adherence to standards for CPE program sponsors for each program sponsored by the member firm and (3) Compliance with additional CPE requirements of the SEC Practice Section.

### **CPE Record-keeping Requirements**

**.02** A member firm shall require and monitor all professionals in the member firm, regardless of whether they are AICPA members, to adhere to the following **AICPA Policies for the CPE Membership Requirement** ("AICPA CPE Policies", See Appendix A of Section 8000 for these detailed policies):

- **Part II Basic Requirements**
  - **Item A—Members in Public Practice**
  - **Item G—Documentation and Record Retention**
- **Part III Qualifying Programs**
- **Part IV Exceptions**

**.03** A member firm shall require and monitor all professionals in the member firm, regardless of whether they are AICPA members, to adhere to the following **Statement on Standards for CPE Programs Issued Jointly By the AICPA and NASBA** ("AICPA CPE Standards", See Appendix B of Section 8000 for these detailed standards):

- **Section 100—Preamble**
- **Section 200—Standards for CPAs**

**.04** All *professionals* in the member firm, regardless of whether they are AICPA members, shall be required to adhere to these AICPA CPE Policies and AICPA CPE Standards. Accordingly, for purposes of applying these rules in the SEC Practice Section, the term *member* as used in the AICPA CPE Policies and the AICPA CPE Standards, shall mean all *professionals* in the member firm.

**.05** Except as provided in SECPS §8000.08(g), each member firm must maintain appropriate records for each professional for its most recent five

educational years. These records should contain the following information for each continuing professional education activity for which credit is claimed for the individual:

- a. Sponsoring organization
  - b. Title of program and description of content
  - c. Date(s) attended or completed
  - d. Location of program (city/state)
  - e. Number of continuing professional education contact hours
  - f. Appropriate evidence of completion
- .06** Acceptable evidence of completion includes:
- a. For group programs, a certificate or other verification supplied by the sponsor
  - b. For a university or college course that is successfully completed for credit, a record of the grade the person received; for a non-credit course, a record of attendance and completion
  - c. For self-study programs, a certificate supplied by the sponsor after satisfactory completion of a workbook or examination
  - d. For instruction credit, evidence obtained from the sponsor of having been the instructor or discussion leader at a program
  - e. For published articles, books, or continuing professional education programs, evidence of publication

## Requirements for Program Sponsors

**.07** Each CPE program sponsored by the member firm shall adhere to the following AICPA CPE Standards, (See Appendix B of Section 8000 for these detailed standards):

- Section 300—Standards For CPE Program Sponsors

## Additional CPE Requirements of the SEC Practice Section

**.08** In addition to the requirements of §8000.02 to §8000.07 above, each SEC Practice Section member firm shall adhere to and shall require and monitor its **professionals** to adhere to the following:

- (a) **Selection of an Educational Year**—Each member firm shall select any consistently applied year-long period (educational year) for applying these CPE policies. The educational year may differ from the member firm's fiscal year; however, both periods are to be specified in the annual report filed with the SECPS.<sup>1</sup> (See SECPS §1000.08g.) A change in a member firm's educational year shall be stated in the firm's annual report for the year in which the change is made.

---

<sup>1</sup> When mandatory continuing professional education requirements for state licensing or for state society membership provide that the period to be used for determining compliance with those requirements shall vary by individuals (for example, the period might coincide with the date of the individual's license to practice), such periods may be used for determining whether there was compliance with the SECPS's continuing professional education requirements during the firm's educational year.

Additionally, firms with offices in more than one state that are required to employ different periods in each state for maintaining compliance with continuing professional education requirements are deemed to be in compliance with the SECPS's requirements.

- (b) **Partial Employment Years**—Each member firm shall adhere to and monitor compliance of each of its professionals with the SEC Practice Section CPE requirements during each **full educational year** of the professional's employment with the firm. Except as required by other regulatory bodies referred to in paragraph 8000.08(e) below, these requirements do not apply to professionals during their year of hire or year of termination.<sup>2</sup>
- (c) **3-Year and Annual Minimum CPE Requirements**—In accordance with the Section's membership requirement, (See §1000.08(d)), all professionals shall obtain at least 20 credits (hours) of qualifying CPE annually and at least 120 credits (hours) every three years (which includes the three most recently completed educational years through the peer review year end).
- (d) **Accounting and Auditing CPE Requirement**—In accordance with the Section's membership requirement, (See §1000.08(d)):
- a. All professionals who devote at least 25% of their time to performing audit, review or other attest engagements (excluding compilations) or
  - b. All professionals who have the partner / manager-level responsibility for the overall supervision or review of any such engagement
- shall obtain at least 8 credits (hours) annually and 48 credits (hours) every three years of CPE in subjects related to accounting and auditing. The term *accounting and auditing subjects* should be broadly interpreted, and for example, include subjects relating to the business or economic environments of the entities to which the professional is assigned.
- (e) **Other Regulatory Bodies**—Member firms are responsible to ensure that professionals not only meet the specific CPE requirements of the SECPS, but also meet the CPE requirements of relevant state licensing bodies and other governmental entities.
- (f) **Grace Period**—Professionals who have not met all SEC Practice Section CPE credit (hourly) requirements in Appendix A as noted in paragraph 8000.02, paragraph 8000.03, paragraph 8000.08(c), and paragraph 8000.08(d) during either an educational year or a triennial educational period, shall have two months immediately following the period(s) to cure the deficiency. However, any hours used to make up a prior deficiency, may not also be counted towards the current period(s) requirement.
- (g) **New SECPS Member Firms**—New member firms shall elect an educational year, which begins within twelve months of the firm joining the SECPS. New member firms will be subject to all SECPS CPE requirements effective upon the commencement of the firm's first educational year.

---

<sup>2</sup> Member firms have a responsibility to adopt policies and procedures that provide reasonable assurance that all professional personnel are properly trained. The nature and extent of training needed by part-time personnel depend on a number of factors, including the type of work they perform, the degree of supervision they receive, and the number of hours they work. A firm should be prepared to justify any decision not to require a part-time professional to participate in the required number of continuing professional education hours.

**.09 Professional Defined**—Persons classified as "professional staff" (including partners) in a member firm's annual report to the SEC Practice Section (SECPS) shall be considered "professional" for purposes of these continuing professional education policies. (See SECPS §1000.08g(5)). Professionals shall include all CPA and non-CPA professionals who reside in the United States.

## Appendix A—AICPA Policies for the CPE Membership Requirement

Revised December 2001

### I. GENERAL

- A. **Purpose**—The purpose of the continuing professional education (CPE) requirement is to increase the professional competence of each member. Members are expected to maintain the high standards of the profession by selecting quality education programs to fulfill their continuing education requirements. Members will have wide latitude in selecting continuing education programs suitable to their professional activities. This policy contains the following sections:

General	I.
Basic Requirements	II.
Qualifying Programs	III.
Exceptions	IV.
Audits of CPE	V.

- B. **AICPA vs. State Requirements**—Members of the American Institute of Certified Public Accountants (AICPA) who are Certified Public Accountants licensed in specific states and/or who are members of their respective state CPA societies are cautioned that the AICPA's CPE policy, while similar in many respects to the state boards of accountancy and state CPA society policies, is not identical. For example, the AICPA's continuing education requirement covers a three-year period in contrast to the states' one- two- or three-year periods, and some states may not award CPE credit for some subjects. Thus, complying with the AICPA's policy may not necessarily maintain membership in state CPA societies or provide for continued state licensing or certification. Individuals should carefully consult the relevant state boards of accountancy and/or state CPA society guidance to ensure compliance.
- C. **Effective Date**—These policies apply to all members and became effective as of January 1, 1990.
- D. **Failure to Meet CPE Requirements**—Failure to meet the CPE requirements will, unless the requirement is waived under section IV, result in a loss of membership in the AICPA.

### II. BASIC REQUIREMENTS

- A. **Members**—From January 1, 2001, forward and for each three-year reporting period thereafter, all AICPA members shall complete 120 hours, or its equivalent, of continuing professional education. Compliance can be achieved either by a formal program of education or by any other means, however measured, that would be reasonably expected to maintain professional competencies in the member's area of practice or employment. Members shall report compliance with such requirement to the AICPA each year and shall keep appropriate records and submit copies of such on request of the Institute.

- B. **New Members**—For those individuals joining the AICPA on January 1, 1990, and thereafter ("new members"), the three-year reporting period and the CPE requirements begin in the calendar year following the year membership commences. For example, a new member in calendar year 1993 begins a three-year reporting period on January 1, 1994, which ends December 31, 1996, and is required, beginning for the calendar year 1994, to comply with the CPE requirements set forth above.
- C. **Reinstatement**—Individuals applying for reinstatement who have voluntarily or involuntarily lost their membership or come out of retirement or inactive status shall be treated as "new members." Their new three-year reporting period for CPE requirements begins in the calendar year following their reinstatement.
- D. **Changing Status**—Members changing from or to public practice do not begin a new three-year reporting period. However, the CPE requirement shall be adjusted to the following three-year totals:

	<i>Year of Change</i>		
	<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>
To Public Practice	120	110	100
From Public Practice	100	110	120

- E. **Grace Period**—Any member who has not completed the required number of hours during a reporting period will be allowed the two months immediately following the period to make up the deficiency. Hours credited toward a deficiency during this two-month period may not be counted toward the annual minimum requirement of the educational year in which they are taken. Furthermore, any continuing professional education hours claimed during the two-month period to make up any deficiency for the preceding three-year period may not be counted toward the requirement for the three-year reporting period in which they are taken.
- F. **Reporting**—No separate reporting is required. By paying their dues each year, members affirm they are in compliance with the CPE membership requirements. Members should keep detailed records of the CPE they complete in the event they are selected to verify their compliance. See the next section for information that should be retained.
- G. **Documentation and Records Retention**—Members of the AICPA bear the primary responsibility of documenting that they have complied with the CPE requirements. They should retain evidence of satisfactory completion for a period of five years after the completion of the educational programs. For each CPE program completed, members should be able to document the following:
1. Sponsor
  2. Title and description of content
  3. Date(s)
  4. Location
  5. Number of CPE contact hours.

### III. QUALIFYING PROGRAMS

Members have wide latitude in selecting continuing professional education suitable to their professional activities. The underlying principle is that all programs should contribute to a member's professional competence. Acceptable subjects include the fields of study set forth in the AICPA National CPE Curriculum: accounting and auditing, consulting services, specialized knowledge and applications, management, personal development, and taxation. Other subjects may also be acceptable if they maintain and/or increase the accounting professional's competence. Members have the option of selecting programs that relate to their specific jobs. For example, a member in industry who is engaged in marketing activities may fulfill the requirement by completing continuing education in marketing and a member who owns or operates a small business may complete CPE that relates to running that business.

Members may participate in CPE programs sponsored by a wide variety of organizations including, but not limited to, the AICPA, state societies of CPAs, other professional associations, colleges and universities, and their own firms. Service as an instructor at a CPE program may qualify when it increases the instructor's professional competence. Writing published articles, books or CPE programs may also qualify.

CPE credit should be measured in whole hours and claimed only for the time a group study program is actually attended. (CPE credit is measured in 50-minute "contact hours.") CPE credit for self-study programs is recommended by the sponsor and must be documented by a certificate or other evidence of completion.

Ultimately the CPE credit claimed is the responsibility of the individual member. Each member must only claim credit for the formal programs of learning he or she actually completed that contributed to his or her professional competence.

For more detailed information about qualifying programs, please refer to the *Statement on Standards for Continuing Professional Education (CPE) Programs* which is included here [sections 100–400] as part of these policies. Members must comply with those standards that apply to individual accounting professionals—namely, the standards in these sections: General Standards, Standards for CPE Program Measurement, and Standards for CPE Program Reporting. The other two sections contain standards that apply to program developers and program sponsors. To the extent a member is in the role of a program developer or sponsor, he or she must also comply with the developer and sponsor standards. Members are not responsible to see that the program developers and sponsors of programs they attend are in compliance with the CPE standards.

### IV. EXCEPTIONS

- A. **General**—Members may request a waiver if they are prohibited from fulfilling the CPE requirements for the reasons set forth below. Such requests must be submitted in writing to the CPE Division of the AICPA. When the status changes from the one for which the exception applies, the CPE requirement begins in the calendar year following the change.
  1. **Foreign Residency**—The request should include the country of residence, the name of the employer, the principal duties and responsibilities performed, and the reasons foreign residency prohibits fulfilling the requirement.

2. **Health**—The request should include the nature of the illness, the name and address of the attending physician, and the reason the illness prohibits fulfilling the requirement.
  3. **Military Service**—The request should include the principal duties performed, where stationed, the name and address of member's commanding officer, and the reason why military service prohibits fulfilling the requirement.
  4. **Other Similar Reasons**—The request should include the nature of the hardship and the reason why it prohibits fulfilling the CPE requirement.
- B. **Retired and Inactive Members**—For purposes of the CPE requirement, "retired" and "inactive" mean a member is in one of those categories for paying AICPA dues. Retired members and inactive members who are unemployed or have left the workforce to raise a family are exempt from the CPE requirement. Members who are retired or exempt for any part of the year are exempt for the full year.

## V. AUDITS OF CPE

The AICPA will verify compliance on a test basis. The extent and scope of such examination will be determined and administered by the AICPA.

## Appendix B—AICPA Statement on Standards For Continuing Professional Education Programs

*The following standards are issued jointly by the AICPA and NASBA.*

### Section 100—Preamble

**01.** The right to use the title "Certified Public Accountant" (CPA) is regulated in the public interest and imposes a duty to maintain public confidence and current knowledge, skills, and abilities in all areas in which they provide services. CPAs must accept and fulfill their ethical responsibilities to the public and the profession regardless of their fields of employment.<sup>3</sup>

**02.** The profession of accountancy is characterized by an explosion of relevant knowledge, ongoing changes and expansion, and increasing complexity. Advancing technology, globalization of commerce, increasing specialization, proliferating regulations, and the complex nature of business transactions have created a dynamic environment that requires CPAs to continuously maintain and enhance their knowledge, skills, and abilities.

**03.** The continuing development of professional competence involves a program of lifelong educational activities. Continuing Professional Education (CPE) is the term used in these standards to describe the educational activities that assist CPAs in achieving and maintaining quality in professional services.

**04.** The following standards have been broadly stated in recognition of the diversity of practice and experience among CPAs. They establish a framework for the development, presentation, measurement, and reporting of CPE programs and thereby help to ensure that CPAs receive the quality CPE necessary to satisfy their obligations to serve the public interest.

### Section 200—Standards for CPAs

#### *General Standards*

**01. Standard No. 1.** All CPAs should participate in learning activities that maintain and/or improve their professional competence.<sup>4</sup>

**02. Commentary.** Selection of learning activities should be a thoughtful, reflective process addressing the individual CPA's current and future professional plans, current knowledge and skills level, and desired or needed additional competence to meet future opportunities and/or professional responsibilities.

**03.** CPAs' fields of employment do not limit the need for CPE. CPAs performing professional services need to have a broad range of knowledge, skills, and abilities. Thus, the concept of professional competence should be interpreted broadly. Accordingly, acceptable continuing education encompasses

---

<sup>3</sup> The term "CPAs" is used in these standards to identify all persons who are licensed and/or regulated by boards of accountancy.

<sup>4</sup> The terms "should" and "must" are intended to convey specific meanings within the context of this *Joint AICPA/NASBA Statement on Standards for Continuing Professional Education Programs* [sections 100–400]. The term "must" is used only in the standards applying to CPE program sponsors to convey that CPE program sponsors are not permitted any departure from those specific standards. The term "should" is used in the standards applying to both CPAs and CPE program sponsors and is intended to convey that CPAs and CPE program sponsors are expected to follow such standards as written and are required to justify any departures from such standards when unusual circumstances warrant such departures.

programs contributing to the development and maintenance of both technical and non-technical professional skills.

**04.** Acceptable subjects include accounting, assurance/auditing, consulting services, specialized knowledge and applications, management, taxation, and ethics. Other subjects, including personal development, may also be acceptable if they maintain and/or improve the CPA's professional competence.

**05.** To help guide their professional development, CPAs may find it useful to develop a learning plan (see definition in Glossary [section 400.15]). The learning plan can be used to evaluate learning and professional competence development. It should be reviewed periodically and modified as professional competence needs change.

**06. Standard No. 2. CPAs should comply with all applicable CPE requirements and should claim CPE credit only for CPE programs when the CPE program sponsors have complied with the Standards for CPE Program Presentation (Nos. 8–11) and Standard for CPE Program Reporting No. 17.**

**07. Commentary.** CPAs are responsible for compliance with all applicable CPE requirements, rules, and regulations of state licensing bodies, other governmental entities, membership associations, and other professional organizations or bodies. CPAs should contact each appropriate entity to which they report to determine its specific requirements or any exceptions it may have to the standards presented herein.

**08.** Periodically, CPAs participate in learning activities which do not comply with all applicable CPE requirements, for example specialized industry programs offered through industry sponsors. If CPAs propose to claim credit for such learning activities, they should retain all relevant information regarding the program to provide documentation to state licensing bodies and/or all other professional organizations or bodies that the learning activity is equivalent to one which meets all these Standards.

**09. Standard No. 3. CPAs are responsible for accurate reporting of the appropriate number of CPE credits earned and should retain appropriate documentation of their participation in learning activities, including: (1) name and contact information of CPE program sponsor, (2) title and description of content, (3) date(s) of program, (4) location (if applicable), and (5) number of CPE credits, all of which should be included in documentation provided by the CPE program sponsor.**

**10. Commentary.** To protect the public interest, regulators require CPAs to document maintenance and enhancement of professional competence through periodic reporting of CPE. For convenience, measurement is expressed in CPE credits. However, the objective of CPE must always be maintenance/enhancement of professional competence, not attainment of credits. Compliance with regulatory and other requirements mandates that CPAs keep documentation of their participation in activities designed to maintain and/or improve professional competence. In the absence of legal or other requirements, a reasonable policy is to retain documentation for a minimum of five years from the end of the year in which the learning activities were completed.

**11.** Participants must document their claims of CPE credit. Examples of acceptable evidence of completion include:

- For group and independent study programs, a certificate or other verification supplied by the CPE program sponsor.
- For self-study programs, a certificate supplied by the CPE program sponsor after satisfactory completion of an examination.

- For instruction credit, a certificate or other verification supplied by the CPE program sponsor.
- For a university or college course that is successfully completed for credit, a record or transcript of the grade the participant received.
- For university or college non-credit courses, a certificate of attendance issued by a representative of the university or college.
- For published articles, books, or CPE programs, (1) a copy of the publication (or in the case of a CPE program, course development documentation) that names the writer as author or contributor, (2) a statement from the writer supporting the number of CPE hours claimed, and (3) the name and contact information of the independent reviewer(s) or publisher.

**12. Standard No. 4. CPAs who complete sponsored learning activities that maintain or improve their professional competence should claim the CPE credits recommended by CPE program sponsors.**

**13. Commentary.** CPAs may participate in a variety of sponsored learning activities, such as workshops, seminars and conferences, self-study courses, Internet-based programs, and independent study. While CPE program sponsors determine credits, CPAs should claim credit only for activities through which they maintained or improved their professional competence. CPAs who participate in only part of a program should claim CPE credit only for the portion they attended or completed.

**14. Standard No. 5. CPAs may engage in independent study under the direction of a CPE program sponsor who has met the applicable standards for CPE program sponsors when the subject matter and level of study maintain or improve their professional competence.**

**15. Commentary.** Independent study is an educational process designed to permit a participant to learn a given subject under the guidance of a CPE program sponsor one-on-one. Participants in an independent study program should:

- Enter into a written learning contract with a CPE program sponsor who must comply with the applicable standards for CPE program sponsors.
- Accept the written recommendation of the CPE program sponsor as to the number of credits to be earned upon successful completion of the proposed learning activities. CPE credits will be awarded only if:
  1. All the requirements of the independent study as outlined in the learning contract are met,
  2. The CPE program sponsor reviews and signs the participant's report,
  3. The CPE program sponsor reports to the participant the actual credits earned, and
  4. The CPE program sponsor provides the participant with contact information.

The credits to be recommended by an independent study CPE program sponsor should be agreed upon in advance and should be equated to the effort expended to improve professional competence. The credits cannot exceed the time devoted to the learning activities and may be less than the actual time involved.

- Retain the necessary documentation to satisfy regulatory requirements as to the content, inputs, and outcomes of the independent study.
- Complete the program of independent study in 15 weeks or less.

## Section 300—Standards for CPE Program Sponsors

### *General Standards*

**01. Standard No. 1. CPE program sponsors are responsible for compliance with all applicable standards and other CPE requirements.**

**02. Commentary.** CPE program sponsors may have to meet specific CPE requirements of state licensing bodies, other governmental entities, membership associations, and/or other professional organizations or bodies. Professional guidance for CPE program sponsors is available from the AICPA and NASBA; state-specific guidance is available from the state boards of accountancy. CPE program sponsors should contact the appropriate entity to determine requirements.

### *Standards for CPE Program Development*

**03. Standard No. 2. Sponsored learning activities must be based on relevant learning objectives and outcomes that clearly articulate the knowledge, skills, and abilities that can be achieved by participants in the learning activities.**

**04. Commentary.** Learning activities provided by CPE program sponsors for the benefit of CPAs should specify the level, content, and learning objectives so that potential participants can determine if the learning activities are appropriate to their professional competence development needs. Levels include, for example, basic, intermediate, advanced, update, and overview (see definitions in Glossary [section 400]).

**05. Standard No. 3. CPE program sponsors should develop and execute learning activities in a manner consistent with the prerequisite education, experience, and/or advance preparation of participants.**

**06. Commentary.** To the extent it is possible to do so, CPE program sponsors should make every attempt to equate program content and level with the backgrounds of intended participants. All programs must clearly identify prerequisite education, experience, and/or advance preparation, if any, in precise language so that potential participants can readily ascertain whether they qualify for the program.

**07. Standard No. 4. CPE program sponsors must use activities, materials, and delivery systems that are current, technically accurate, and effectively designed. CPE program sponsors must be qualified in the subject matter.**

**08. Commentary.** To best facilitate the learning process, sponsored programs and materials must be prepared, presented and updated timely. Learning activities must be developed by individuals or teams having expertise in the subject matter. Expertise may be demonstrated through practical experience or education.

**09.** CPE program sponsors must review the course materials periodically to assure that they are accurate and consistent with currently accepted standards relating to the program's subject matter.

**10. Standard No. 5. CPE program sponsors of group and self-study programs must ensure learning activities are reviewed by qualified persons other than those who developed them to assure that the program is technically accurate and current and addresses the stated learning objectives. These reviews must occur before the first presentation of these materials and again after each significant revision of the CPE programs.**

**11. Commentary.** Individuals or teams qualified in the subject matter must review programs. When it is impractical to review certain programs in advance, such as lectures given only once, greater reliance should be placed on the recognized professional competence of the instructors or presenters. Using independent reviewing organizations familiar with these standards may enhance quality assurance.

**12. Standard No. 6. CPE program sponsors of independent study learning activities must be qualified in the subject matter.**

**13. Commentary.** A CPE program sponsor of independent study learning activities must have expertise in the specific subject area related to the independent study. The CPE program sponsor must also:

- Review, evaluate, approve and sign the proposed independent study learning contract, including agreeing in advance on the number of credits to be recommended upon successful completion.
- Review and sign the written report developed by the participant in independent study.
- Retain the necessary documentation to satisfy regulatory requirements as to the content, inputs, and outcomes of the independent study.

**14. Standard No. 7. Self-study programs must employ learning methodologies that clearly define learning objectives, guide the participant through the learning process, and provide evidence of a participant's satisfactory completion of the program.**

**15. Commentary.** To guide participants through a learning process, CPE program sponsors of self-study programs must elicit participant responses to test for understanding of the material, offer evaluative feedback to incorrect responses, and provide reinforcement feedback to correct responses. To provide evidence of satisfactory completion of the course, CPE program sponsors of self-study programs must require participants to successfully complete a final examination with a minimum-passing grade of at least 70 percent before issuing CPE credit for the course. Examinations may contain questions of varying format, (for example, multiple-choice, essay and simulations.) If objective type questions are used, at least five questions per CPE credit must be included on the final examination. For example, the final examination for a five-credit course must include at least 25 questions.

**16.** Self-study programs must be based on materials specifically developed for instructional use. Self-study programs requiring only the reading of general professional literature, IRS publications, or reference manuals followed by a test will not be acceptable. However, the use of the publications and reference materials in self-study programs as supplements to the instructional materials could qualify if the self-study program complies with each of the CPE standards.

**Standards for CPE Program Presentation**

**17. Standard No. 8. CPE program sponsors must provide descriptive materials that enable CPAs to assess the appropriateness of learning activities. To accomplish this, CPE program sponsors must inform participants in advance of:**

- **Learning objectives.**
- **Prerequisites.**
- **Program level.**
- **Program content.**
- **Advance preparation.**
- **Instructional delivery methods.**
- **Recommended CPE credit.**
- **Course registration requirements.**

**18. Commentary.** For potential participants to effectively plan their CPE, the program sponsor should disclose the significant features of the program in advance (e.g., through the use of brochures, Internet notices, invitations, direct mail, or other announcements). When CPE programs are offered in conjunction with noneducational activities, or when several CPE programs are offered concurrently, participants should receive an appropriate schedule of events indicating those components that are recommended for CPE credit. The CPE program sponsor's registration policies and procedures should be formalized, published, and made available to participants.

**19.** CPE program sponsors should distribute program materials timely and encourage participants to complete any advance preparation requirements. All programs should clearly identify prerequisite education, experience, and/or advance preparation requirements, if any, in the descriptive materials. Prerequisites should be written in precise language so that potential participants can readily ascertain whether they qualify for the program.

**20. Standard No. 9. CPE program sponsors must ensure instructors are qualified with respect to both program content and instructional methods used.**

**21. Commentary.** Instructors are key ingredients in the learning process for any group program. Therefore, it is imperative that CPE program sponsors exercise great care in selecting qualified instructors for all group programs. Qualified instructors are those who are capable, through training, education, or experience of communicating effectively and providing an environment conducive to learning. They should be competent and current in the subject matter, skilled in the use of the appropriate instructional methods and technology, and prepared in advance.

**22.** CPE program sponsors should evaluate the instructor's performance at the conclusion of each program to determine the instructor's suitability to serve in the future.

**23. Standard No. 10. CPE program sponsors must employ an effective means for evaluating learning activity quality with respect to content and presentation, as well as provide a mechanism for participants to assess whether learning objectives were met.**

**24. Commentary.** The objectives of evaluation are to assess participant satisfaction with specific programs and to increase subsequent program effectiveness. Evaluations, whether written or electronic, should be solicited from

participants and instructors for each program session, including self-study, to determine, among other things, whether:

- Stated learning objectives were met.
- If applicable, prerequisite requirements were appropriate.
- Program materials were accurate.
- Program materials were relevant and contributed to the achievement of the learning objectives.
- Time allotted to the learning activity was appropriate.
- If applicable, individual instructors were effective.
- Facilities and/or technological equipment was appropriate.
- Handout or advance preparation materials were satisfactory.
- Audio and video materials were effective.

**25.** CPE program sponsors should periodically review evaluation results to assess program effectiveness and should inform developers and instructors of evaluation results.

**26. Standard No. 11. CPE program sponsors must ensure instructional methods employed are appropriate for the learning activities. Learning activities should be presented in a manner consistent with the descriptive and technical materials provided.**

**27. Commentary.** CPE program sponsors should evaluate the instructional methods employed for the learning activities to determine if the delivery is appropriate and effective. Integral aspects in the learning environment that should be carefully monitored include the number of participants and the facilities and technologies employed in the delivery of the learning activity.

**28.** CPE program sponsors are expected to present learning activities that comply with course descriptions and objectives. Appropriate supplemental materials may also be used.

### ***Standards for CPE Program Measurement***

**29. Standard No. 12. Sponsored learning activities are measured by program length, with one 50-minute period equal to one CPE credit. One-half CPE credit increments (equal to 25 minutes) are permitted after the first credit has been earned in a given learning activity.**

**30. Commentary.** For learning activities in which individual segments are less than 50 minutes, the sum of the segments should be considered one total program. For example, five 30-minute presentations would equal 150 minutes and should be counted as three CPE credits. When the total minutes of a sponsored learning activity are greater than 50, but not equally divisible by 50, the CPE credits granted should be rounded down to the nearest one-half credit. Thus, learning activities with segments totaling 140 minutes should be granted two and one-half CPE credits.

**31.** While it is the participant's responsibility to report the appropriate number of credits earned, CPE program sponsors must monitor group learning activities to assign the correct number of CPE credits.

**32.** For university or college credit courses that meet these CPE Standards, each unit of college credit shall equal the following CPE credits:

- Semester System 15 credits
- Quarter System 10 credits

**33.** For university or college non-credit courses that meet these CPE standards, CPE credits shall be awarded only for the actual classroom time spent in the non-credit course.

**34.** Credit is not granted to participants for preparation time.

**35.** Only the portions of committee or staff meetings that are designed as programs of learning and comply with these standards qualify for CPE credit.

**36. Standard No. 13. CPE credit for self-study learning activities must be based on a pilot test of the average completion time.**

**37. Commentary.** A sample of intended professional participants should be selected to test program materials in an environment and manner similar to that in which the program is to be presented. The sample group of at least three individuals must be independent of the program development group and possess the appropriate level of knowledge before taking the program. The sample does not have to ensure statistical validity. CPE credits should be recommended based on the average completion time for the sample. If substantive changes are subsequently made to program materials further pilot tests of the revised program materials should be conducted to affirm or amend, as appropriate, the average completion time.

**38. Standard No. 14. Instructors or discussion leaders of learning activities should receive CPE credit for both their preparation and presentation time to the extent the activities maintain or improve their professional competence and meet the requirements of these CPE standards.**

**39. Commentary.** Instructors, discussion leaders, or speakers who present a learning activity for the first time should receive CPE credit for actual preparation time up to two times the number of CPE credits to which participants would be entitled, in addition to the time for presentation. For example, for learning activities in which participants could receive 8 CPE credits, instructors may receive up to 24 CPE credits (16 for preparation plus 8 for presentation). For repeat presentations, CPE credit can be claimed only if it can be demonstrated that the learning activity content was substantially changed and such change required significant additional study or research.

**40. Standard No. 15. Writers of published articles, books, or CPE programs should receive CPE credit for their research and writing time to the extent it maintains or improves their professional competence.**

**41. Commentary.** Writing articles, books, or CPE programs for publication is a structured activity that involves a process of learning. For the writer to receive CPE credit, the article, book, or CPE program must be formally reviewed by an independent party. CPE credits should be claimed only upon publication.

**42. Standard No. 16. CPE credits recommended by a CPE program sponsor of independent study must not exceed the time the participant devoted to complete the learning activities specified in the learning contract.**

**43. Commentary.** The credits to be recommended by an independent study CPE program sponsor should be agreed upon in advance and should be equated to the effort expended to improve professional competence. The credits cannot exceed the time devoted to the learning activities and may be less than the actual time involved.

**Standards for CPE Program Reporting**

**44. Standard No. 17. CPE program sponsors must provide program participants with documentation of their participation, which includes the following:**

- **CPE program sponsor name and contact information.**
- **Participant's name.**
- **Course title.**
- **Course field of study.**
- **Date offered or completed.**
- **If applicable, location.**
- **Type of instructional/delivery method used.**
- **Amount of CPE credit recommended.**
- **Verification by CPE program sponsor representative.**

**45. Commentary.** CPE program sponsors should provide participants with documentation to support their claims of CPE credit. Acceptable evidence of completion includes:

- For group and independent study programs, a certificate or other verification supplied by the CPE program sponsor.
- For self-study programs, a certificate supplied by the CPE program sponsor after satisfactory completion of an examination.
- For instruction credit, a certificate or other verification supplied by the CPE program sponsor.
- For a university or college course that is successfully completed for credit, a record or transcript of the grade the participant received.
- For university or college non-credit courses, a certificate of attendance issued by a representative of the university or college.
- For published articles, books, or CPE programs, (1) a copy of the publication (or in the case of a CPE program, course development documentation) that names the writer as author or contributor, (2) a statement from the writer supporting the number of CPE hours claimed, and (3) the name and contact information of the independent reviewer(s) or publisher.

**46. Standard No. 18. CPE program sponsors must retain adequate documentation for five years to support their compliance with these standards and the reports that may be required of participants.**

**47. Commentary.** Evidence of compliance with responsibilities set forth under these Standards which is to be retained by CPE program sponsors includes, but is not limited to:

- Records of participation.
- Dates and locations.
- Instructor names and credentials.
- Number of CPE credits earned by participants.
- Results of program evaluations.

Information to be retained by developers includes copies of program materials, evidence that the program materials were developed and reviewed by qualified parties, and a record of how CPE credits were determined.

**48.** For CPE program sponsors offering self-study programs, appropriate pilot test records must be retained regarding the following:

- When the pilot test was conducted.
- The intended participant population.
- How the sample was determined.
- Names and profiles of sample participants.
- A summary of participants' actual completion time.

## Section 400—Glossary

**01. Advanced.** Learning activity level most useful for individuals with mastery of the particular topic. This level focuses on the development of in-depth knowledge, a variety of skills, or a broader range of applications.

Advanced level programs are often appropriate for seasoned professionals within organizations; however, they may also be beneficial for other professionals with specialized knowledge in a subject area.

**02. Basic.** Learning activity level most beneficial to CPAs new to a skill or an attribute. These individuals are often at the staff or entry level in organizations, although such programs may also benefit a seasoned professional with limited exposure to the area.

**03. Continuing Professional Education (CPE).** An integral part of the lifelong learning required to provide competent service to the public. The set of activities that enables CPAs to maintain and improve their professional competence.

**04. CPE credit.** Fifty minutes of participation in a group, independent study or self-study program. One-half CPE credit increments (equal to 25 minutes) are permitted after the first credit has been earned in a given learning activity.

**05. CPE program sponsor.** The individual or organization responsible for setting learning objectives, developing the program materials to achieve such objectives, offering a program to participants, and maintaining the documentation required by these standards. The term CPE program sponsor may include associations of CPAs, whether formal or informal, as well as employers who offer in-house programs.

**06. Evaluative feedback.** Specific response to incorrect answers to questions in self-study programs. Unique feedback must be provided for each incorrect response, as each one is likely to be wrong for differing reasons.

**07. Group program.** An educational process designed to permit a participant to learn a given subject through interaction with an instructor and other participants either in a classroom or conference setting or by using the Internet.

**08. Independent study.** An educational process designed to permit a participant to learn a given subject under a learning contract with a CPE program sponsor.

**09. Instructional methods.** Delivery strategies such as case studies, computer-assisted learning, lectures, group participation, programmed

instruction, teleconferencing, use of audiovisual aids, or work groups employed in group, self-study, or independent study programs.

**10. Intermediate.** Learning activity level that builds on a basic program, most appropriate for CPAs with detailed knowledge in an area. Such persons are often at a mid-level within the organization, with operational and/or supervisory responsibilities.

**11. Internet-based programs.** A learning activity, through a group program (paragraph .07 above) or a self-study program (paragraph .22 following), that is designed to permit a participant to learn the given subject matter via the Internet. To qualify as either a group or self-study program, the Internet learning activity must meet the respective standards.

**12. Learning activity.** An educational endeavor that maintains or improves professional competence.

**13. Learning contract.** A written contract signed by an independent study participant and a qualified CPE program sponsor prior to the commencement of the independent study that:

1. Specifies the nature of the independent study program and the time frame over which it is to be completed, not to exceed 15 weeks.
2. Specifies that the output must be in the form of a written report that will be reviewed by the CPE program sponsor or a qualified person selected by the CPE program sponsor.
3. Outlines the maximum CPE credit that will be awarded for the independent study program, but limits credit to actual time spent.

**14. Learning objectives.** Specifications on what participants should accomplish in a learning activity. Learning objectives are useful to program developers in deciding appropriate instructional methods and allocating time to various subjects.

**15. Learning plans.** Structured processes that help CPAs guide their professional development. They are dynamic instruments used to evaluate and document learning and professional competence development. This may be reviewed regularly and modified, as CPAs' professional competence needs change. Plans include:

- A self-assessment of the gap between current and needed knowledge, skills, and abilities;
- A set of learning objectives arising from this assessment; and
- Learning activities to be undertaken to fulfill the learning plan.

**16. Overview.** Learning activity level that provides a general review of a subject area from a broad perspective. These programs may be appropriate for professionals at all organizational levels.

**17. Personal development.** A field of study that covers such skills as communications, managing the group process, dealing effectively with others, interviewing, counseling, and career planning.

**18. Pilot test.** Sampling of at least three independent individuals representative of the intended participants to measure the average completion time to determine the recommended CPE credit for self-study programs.

**19. Professional competence.** Having requisite knowledge, skills, and abilities to provide quality services as defined by the technical and ethical standards of the profession. The expertise needed to undertake professional responsibilities and to serve the public interest.

**20. Program of learning.** A collection of learning activities that are designed and intended as continuing education and that comply with these standards.

**21. Reinforcement feedback.** Specific responses to correct answers to questions in self-study programs. Such feedback restates why the answer selected was correct.

**22. Self-study program.** An educational process designed to permit a participant to learn a given subject without major involvement of an instructor. Self-study programs use a pilot test to measure the average completion time from which the recommended CPE credit is determined.

**23. Update.** Learning activity level that provides a general review of new developments. This level is for participants with a background in the subject area who desire to keep current.

***Effective Dates:***

Unless otherwise established by state licensing bodies and/or other professional organizations, these Standards are to be effective as follows:

- For CPAs, group programs and independent study—January 1, 2002.
  - For self-study courses being published for the first time after December 31, 2002—upon publication.
  - For self-study courses already in existence as of December 31, 2002—January 1, 2004.
-

# SELECT PCAOB STAFF QUESTIONS AND ANSWERS

---

## .01 STAFF QUESTIONS AND ANSWERS

### ***Audits of Financial Statements of Non-Issuers Performed Pursuant to the Standards of the Public Company Accounting Oversight Board***

June 30, 2004

#### **Summary**

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers related to PCAOB Auditing Standard No. 1, *References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board* ("Auditing Standard No. 1"), were prepared by the Office of the Chief Auditor. Questions should be directed to C. Gregory Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org), or Thomas Ray, Deputy Chief Auditor (202/207-9112; rayt@pcaobus.org).

\* \* \*

The Sarbanes-Oxley Act of 2002 (the "Act") directs the Public Company Accounting Oversight Board to establish auditing and related attestation, quality control, ethics and independence standards, to be used by registered public accounting firms in the preparation and issuance of audit reports of issuers.<sup>1</sup> The Act and PCAOB Rules require audits of issuers to be conducted in accordance with PCAOB standards. When issuing an audit report on the financial statements of an issuer, PCAOB Auditing Standard No. 1 requires registered public accounting firms to include a reference to "the standards of the Public Company Accounting Oversight Board (United States)." In contexts other than an audit of the financial statements of an issuer, however, auditors, whether registered or not, may be legally required to, or may agree voluntarily to, perform an engagement in accordance with PCAOB standards or some portion of

---

<sup>1</sup> Section 2(a) of the Act defines "issuer" as "an issuer (as defined in Section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c)), the securities of which are registered under Section 12 of the Act (15 U.S.C. 781), or that is required to file reports under Section 15(d)(15 U.S.C. 780(d)), or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 (15 U.S.C. 77a et seq.), and that it has not withdrawn."

those standards.<sup>2</sup> Auditors and other interested persons have raised questions about the implications of Auditing Standard No. 1, as well as the Act and other PCAOB rules, for such engagements. The following staff questions and answers seek to answer some of those questions.

**Q1.** Must a public accounting firm be registered with the PCAOB to perform an audit of a non-issuer according to PCAOB standards?

**A1.** No. The Sarbanes-Oxley Act requires only that those public accounting firms that prepare or issue, or participate in the preparation or issuance of, audit reports on the financial statements of issuers be registered.<sup>3</sup>

**Q2.** The PCAOB's Auditing Standard No. 1 requires the auditor to include a reference to "the standards of the Public Company Accounting Oversight Board (United States)" in audit reports on the financial statements of issuers. May an auditor refer to "the auditing standards of the Public Company Accounting Oversight Board (United States)" rather than to "the standards of the Public Company Accounting Oversight Board (United States)" in an audit report on an audit of the financial statements of a non-issuer that was performed in accordance with the Board's auditing standards?

**A2.** Yes. In an audit of the financial statements of a non-issuer, an auditor may wish to be clear that he or she adhered to only the auditing standards of the PCAOB; accordingly, the auditor may include the word "auditing" in the reference to the standards of the PCAOB. Registered public accounting firms, however, are not permitted to limit their reference to the "auditing standards" of the PCAOB in their audit reports on the financial statements of issuers.

**Q3.** What standards are included in a reference to "the standards of the Public Company Accounting Oversight Board (United States)"?

**A3.** A reference to "the standards of the Public Company Accounting Oversight Board (United States)" includes the standards of the Board that are applicable in the circumstances of the engagement. For example, in an audit of financial statements that does not involve the use of a specialist, the auditor would not be expected to follow the Board's interim auditing standard, Statement of Auditing Standards No. 73, "Using the Work of a Specialist." Similarly, in an audit of an entity that has immaterial inventory balances, the auditor would not be expected to follow the Board's interim auditing standard, AU Section 331, "Inventories," of Statement on Auditing Standards No. 1, "Codification of Auditing Standards and Procedures." On the other hand, the Board's interim auditing standard, Statement on Auditing Standards No. 99, "Consideration of Fraud in a Financial Statement Audit," would be applicable in all audits of financial statements conducted pursuant to the Board's standards. As another example, quality control standards generally apply to a firm's system of quality control over its accounting and auditing practice and not to individual audit engagements. Thus, a breakdown in the system of quality control does not necessarily mean that a particular audit was not conducted in accordance with the standards of the PCAOB. However, such a breakdown might result in a deficient audit if it caused or contributed to an audit deficiency. In addition, an auditor who states that he or she has performed the audit in accordance with

---

<sup>2</sup> See, e.g., Securities Exchange Act of 1934 Rule 17i-6(d), 17 CFR 240.17i-6(d) (requiring supervised investment bank holding companies to obtain an audit and review "in accordance with the rules promulgated by the Public Company Accounting Oversight Board").

<sup>3</sup> The SEC has ordered that broker-dealers that are not issuers need not file with the Commission, and send to their customers, financial statements certified by a registered public accounting firm until January 1, 2005, unless rules are in place regarding Board registration of auditors of such broker-dealers that set an earlier date. See Notice, Broker-Dealer Financial Statement Requirements under Section 17 of the Exchange Act, Rel. No. 34-48281 (August 4, 2003).

the standards of the PCAOB must be in compliance with the applicable interim independence standards of the Board. These are examples only, and not an exhaustive list of standards that may be applicable to an engagement. While not required by PCAOB rules, auditors of issuers and other entities subject to the SEC's jurisdiction are reminded that they must also comply with applicable Commission requirements, including the Commission's auditor independence requirements.

**Q4.** By referring to "the auditing standards of the Public Company Accounting Oversight Board (United States)" in an audit report on the financial statements of a non-issuer, does the auditor represent that he or she has adhered to the Board's interim independence standards?

**A4.** No. Auditors of the financial statements of non-issuers, including non-profit organizations, government agencies, municipalities and other governments, should look to relevant state and federal laws and regulations relating to auditor independence. Auditors of nonpublic companies should bear in mind, however, that any company that becomes an issuer, as defined in Section 2(a)(7) of the Act, must file with the SEC an audit report prepared and issued by an independent registered public accounting firm, and therefore it may behoove an auditor of a nonpublic company that intends to become an issuer to comply with SEC and PCAOB independence requirements.

**Q5.** By referring to "the auditing standards of the Public Company Accounting Oversight Board (United States)" or to "the standards of the Public Company Accounting Oversight Board (United States)" in an audit report on the financial statements of a non-issuer, does the auditor represent that he or she has complied with the Commission's auditor independence requirements?

**A5.** No. A Note to the PCAOB's rule on interim independence standards, PCAOB Rule 3600T, reminds auditors of issuers and other entities subject to the SEC's jurisdiction of their separate obligations under the SEC's rule on auditor independence. The PCAOB's rule on interim independence standards does not, however, incorporate the SEC's auditor independence requirements.

**Q6.** What are the PCAOB's independence requirements and to whom do they apply?

**A6.** The PCAOB adopted interim independence standards when it adopted PCAOB Rule 3600T, which is a temporary rule in effect until the Board adopts permanent independence standards. Rule 3600T requires that, when a registered public accounting firm conducts an audit of the financial statements of an issuer, the firm comply with—

- Rule 101 of the AICPA's Code of Professional Conduct, and interpretations and rulings thereunder, as in existence on April 16, 2003; and
- Standards Nos. 1, 2 and 3, and Interpretations 99-1, 00-1, and 002, of the Independence Standards Board.

Registered public accounting firms must also comply with SEC requirements, including its Rule 2-01 of Regulation S-X, relating to auditor independence, when they conduct audits required by the federal securities laws, including audits of financial statements of issuers. The Board did not adopt the SEC's Rule 2-01 because that rule already governs auditor independence from issuers. As a Note to Rule 3600T makes clear, however, in an audit of the financial statements of an issuer, to the extent that a provision of the SEC's rule is more restrictive—or less restrictive—than the Board's interim independence standards, a registered public accounting firm must comply with the more restrictive rule.

**Q7.** Does a reference to "the auditing standards of the Public Company Accounting Oversight Board (United States)" or to "the standards of the Public Company Accounting Oversight Board (United States)" in an auditor's report on the financial statements of a non-issuer imply that the non-issuer is subject to, or otherwise complied with, some or all of the provisions of the Act and other securities laws or the Commission's rules and regulations thereunder?

**A7.** No. An auditor's reference to PCAOB standards in an audit report on the financial statements of a non-issuer does not subject the auditor or the non-issuer to any laws that the auditor or the non-issuer would not otherwise have been required to comply with. Unless the non-issuer is involved in an activity that subjects it to the Act or other securities laws, such as the laws governing broker-dealers, compliance by the auditor or the non-issuer with the Act or other securities laws would be strictly voluntary.

**Q8.** Does inclusion of a reference to the Board's standards in an auditor's report on the financial statements of a non-issuer cause the audit to become eligible for review as a part of a Board inspection?

**A8.** No. An audit of the financial statements of a non-issuer does not become subject to PCAOB inspection solely because the auditor performed and reported on the audit in accordance with the standards of the PCAOB. Auditors of the financial statements of non-issuers may, nevertheless, be subject to various forms of state and federal oversight, such as review by federal banking regulators, the U.S. General Accounting Office, or a state board of accountancy.

**Q9.** If a non-issuer elects to have its financial statements audited pursuant to the Board's standards, must it also have its internal control over financial reporting audited pursuant to the Board's Auditing Standard No. 2, "An Audit of Internal Control Over Financial Reporting Conducted in Conjunction with an Audit of Financial Statement"?

**A9.** No. Only certain issuers that are subject to Section 404 of the Act are required to include within the scope of the audit an audit of internal control over financial reporting. Although the Board's standards provide for an integrated audit of financial statements and internal control for those issuers that are subject to Section 404 of the Act, the Board's standards also permit auditors to conduct a financial statement-only audit under circumstances, for example, when Section 404 of the Act is not applicable.

**Q10.** If an auditor refers to either "the standards of the Public Company Accounting Oversight Board (United States)" or "the auditing standards of the Public Company Accounting Oversight Board (United States)" in an audit report on an audit of the financial statements of a non-issuer, is the auditor also required to subject the audit to a "concurring partner review" as required by the Board's adoption of certain of the requirements of the AICPA's former Securities and Exchange Commission Practice Section ("SECPS")?

**A10.** No. The Board may at some time adopt a standard requiring the performance of a second partner review. At this time, however, the PCAOB interim quality control standards only require registered firms that were members of the SECPS as of April 16, 2003, to have a concurring partner review on audits of issuers. (See PCAOB Release No. 2003-006.)

---

## .02 STAFF QUESTIONS AND ANSWERS

### ***Attest Engagements Regarding XBRL Financial Information Furnished Under the XBRL Voluntary Financial Reporting Program on the EDGAR System***

May 25, 2005

#### **Summary:**

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers related to attest engagements regarding XBRL financial information furnished under the XBRL Voluntary Financial Reporting Program on the EDGAR System were prepared by the Office of the Chief Auditor. Additional questions should be directed to Keith Wilson, Associate Chief Auditor (202/207-9134; wilsonk@pcaobus.org).

\* \* \*

#### **Q1. What is XBRL?**

**A1.** XBRL (eXtensible Business Reporting Language) is an open standard for electronic communication of business and financial data. The XBRL standard provides a format for tagging that data so users can extract, exchange, analyze, and present the information.

XBRL information is commonly distributed in the form of XBRL instance documents. These documents are electronic files consisting of financial data along with their corresponding XBRL tags.

To facilitate electronic communication of financial information among many parties, XBRL instance documents must be created using a common set of standards that all parties can understand and use. In XBRL, this is accomplished through taxonomies and specifications. An XBRL taxonomy (or tag list) provides a data structure and vocabulary for interpreting financial information, such as all of the items comprising "net income." An entity may extend the taxonomy by creating additional custom tags for its own use. XBRL specifications have been developed by the XBRL Consortium for creating and extending taxonomies. (See the XBRL website, [www.xbrl.org](http://www.xbrl.org), for more information about XBRL.)

**Q2.** What is the XBRL Voluntary Financial Reporting Program on the EDGAR System?

**A2.** The Securities and Exchange Commission ("SEC") has adopted rule amendments<sup>1</sup> allowing issuers to voluntarily submit supplemental tagged financial information using the XBRL<sup>2</sup> format as exhibits to specified EDGAR filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940. The amendments include certain requirements regarding the information in those exhibits. This SEC initiative is referred to in the SEC Release as the "XBRL Voluntary Financial Reporting Program on the EDGAR System" (hereinafter referred to as the "SEC Voluntary Program").

The XBRL documents furnished under the SEC Voluntary Program are referred to in the SEC Regulations<sup>3</sup> as "XBRL-Related Documents." The XBRL-Related Documents must contain only certain specified content ("mandatory content" and "optional content") that appears in a specified format ("voluntary program format"), as set forth in the SEC Regulations.

According to the EDGAR Filer Manual,<sup>4</sup> issuers who file under the SEC Voluntary Program must create their XBRL-Related Documents using one of the US Generally Accepted Accounting Principles ("US GAAP") taxonomies, based on XBRL Specification Version 2.1. Issuers also may use one of the Stand Alone Add-on taxonomies provided in the US Financial Reporting Taxonomy Framework for certain content. Any company extensions of those taxonomies must conform to XBRL Specification Version 2.1.

**Q3.** May an auditor<sup>5</sup> examine and report on whether the XBRL-Related Documents accurately reflect the information in the corresponding part of the official EDGAR filings? If so, what are the primary engagement standards that apply to those engagements?

**A3.** Yes, an auditor may be engaged to examine and report on whether the XBRL-Related Documents accurately reflect the information in the corresponding part of the official EDGAR filings. That engagement is an examination under AT section 101 of the PCAOB's interim attestation standards, *Attest Engagements* ("AT section 101"), as amended.

**Q4.** The second general attestation standard in paragraph .21 of AT section 101 indicates that the engagement shall be performed by an auditor "having adequate knowledge of the subject matter." How does this general standard apply to examination engagements regarding XBRL-Related Documents?

**A4.** In examination engagements regarding XBRL-Related Documents, the auditor must have sufficient knowledge of the applicable SEC Regulations, EDGAR Filer Manual requirements, and XBRL taxonomies and specifications to perform the examination. The auditor must also have sufficient knowledge

---

<sup>1</sup> *Final Rule: XBRL Voluntary Financial Reporting Program on the EDGAR System*, Securities and Exchange Commission Release Nos. 33-8529, 34-51129, 3527944, 39-2432, IC-26747; File Number S7-35-04 (February 3, 2005) [70 FR 6556].

<sup>2</sup> The SEC's website, [www.sec.gov](http://www.sec.gov), has more information about the SEC's XBRL initiative.

<sup>3</sup> § 232.401 of Regulation S-T, 17 C.F.R. 232.401; and SEC Final Rule Release No. 33-8529 (February 3, 2005).

<sup>4</sup> EDGARLink Filer Manual, Appendix L. (The EDGARLink Filer Manual comprises Volume 1 of the EDGAR Filer Manual.)

<sup>5</sup> These PCAOB Staff Questions and Answers assume that the auditor who is engaged to perform this examination has also audited, in accordance with PCAOB standards, the financial statements for at least the latest period to which the XBRL financial information relates and the financial statements for the other periods covered by the XBRL financial information have been audited by the auditor or a predecessor auditor. Therefore, the word "auditor" is used instead of "practitioner."

of the company's financial statements and underlying financial records to understand how the financial data in the XBRL-Related Documents relates to the corresponding information in the official EDGAR filing.

**Q5.** The third general attestation standard in paragraph .23 of AT section 101 states that the auditor "shall perform the engagement only if he or she has reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users." How does this general standard apply to examination engagements regarding XBRL-Related Documents?

**A5.** Paragraphs .24 through .34 of AT section 101 discuss the attributes of suitable and available criteria. The US GAAP Version 2.1 based taxonomies, Stand Alone Add-on taxonomies, and XBRL Specification Version 2.1 would be considered suitable and available criteria because (a) they were developed by a panel of widely recognized experts that follow due process procedures, including exposure for public comment, and (b) they are available free of charge through the XBRL Consortium.

Company extensions of those taxonomies normally do not go through the same development processes as described in the preceding paragraph. Accordingly, the auditor should evaluate whether company extensions represent suitable and available criteria as described in AT section 101.

**Q6.** May the auditor assist a company with the creation or tagging of its XBRL-Related Documents and still perform an examination regarding those documents?

**A6.** The fourth general attestation standard requires the auditor to be independent in order to perform an attest engagement. When evaluating independence, the auditor should apply the independence principles for financial statement audits to the context of the examination engagement. For example, although the auditor may provide technical advice on matters related to the application of the XBRL taxonomy and specifications, the auditor's independence would be impaired (and thus the auditor would be unable to examine a company's XBRL-Related Documents) if he or she prepared those documents or made decisions about the documents for management.

**Q7.** What are the objectives of the examination procedures regarding the XBRL-Related Documents, and what procedures should be performed to achieve those objectives?

**A7.** In performing the examination as set forth in AT section 101, the auditor should apply procedures as necessary to obtain sufficient evidence to provide a reasonable basis for an opinion on whether the XBRL-Related Documents accurately reflect the information in the corresponding part of the official EDGAR filings. Thus, the objectives of the examination procedures are to determine whether—

- a. the XBRL data agrees with the official EDGAR filings, and
- b. the XBRL-Related Documents are in conformity with the applicable XBRL taxonomies and specifications, as well as with the SEC requirements for format and content.

The following are examination procedures that the auditor should consider to achieve the engagement objectives:

- Compare the rendered<sup>6</sup> XBRL-Related Documents to the information in the official EDGAR filing, and agree the corresponding content.
- Determine whether the content in the XBRL-Related Documents conforms to the SEC voluntary program content requirements.
- Determine whether the XBRL-Related Documents (and the related taxonomy documents, as necessary) conform to the SEC voluntary program format requirements. To accomplish this, the auditor should consider the following procedures:
  - a. Test whether the data elements (i.e., text and line item names and associated values, dates and other labels) in the XBRL-Related Documents reflect the same information as the corresponding official EDGAR filing (i.e., the HTML or ASCII version).
  - b. Verify that the data elements in the corresponding official EDGAR filing have not been changed, deleted, or summarized in the XBRL-Related Documents.
  - c. Evaluate whether the XBRL-Related Documents comply with the appropriate XBRL specification and EDGAR-supported XBRL taxonomies.
  - d. Evaluate whether any company extensions of the taxonomy are consistent with the SEC voluntary program format requirements, including conformity with XBRL specifications.
  - e. Test whether data elements in the XBRL-Related Documents are matched with appropriate tags in accordance with the applicable taxonomy.
- Read the EDGAR filing to determine whether it contains the disclosures regarding XBRL-Related Documents required by SEC Regulations.<sup>7</sup>
- Obtain a representation letter from management that includes a statement that the XBRL-Related Documents comply with SEC requirements.

**Q8.** What are the reporting requirements for examination engagements regarding XBRL-Related Documents?

**A8.** The report for this engagement should comply with the requirements of AT section 101, as amended.

If the underlying information in the XBRL-Related Documents has been audited, the examination report should refer to the audit report. If the underlying information was reviewed, and the review report was filed with the SEC, the examination report should refer to the review report. If the underlying information was reviewed, but the review report was not filed with the SEC, the examination report need not refer to the review report but should indicate that the underlying information has not been audited and no opinion is expressed on it. The auditor should disclaim an opinion on any underlying information in the XBRL-Related Documents that is not covered by an audit report or review report.

---

<sup>6</sup> A rendered XBRL-Related Document has been converted from machine readable form into human readable form using a software tool.

<sup>7</sup> § 232.401(d) of Regulation S-T, 17 C.F.R. 232.401(d).

The auditor may be engaged to report on management's assertion or on the subject matter of the assertion. The following are examples of examination reports for these engagements.

*Report on the Subject Matter of the Assertion*

Report of Independent Registered Public Accounting Firm on  
XBRL-Related Documents

We have examined the accompanying XBRL-Related Documents of Sample Volunteer Company, presented as Exhibit [number] to the Company's [Identify EDGAR filing, such as Form 10-K], which reflect the data presented in the [Identify corresponding information in the official EDGAR filing] as of [Month and Day], [Year] and [Year] and for each of the years in the [number]-year period ended [date]. Sample Volunteer Company's management is responsible for the XBRL-Related Documents. Our responsibility is to express an opinion based on our examination.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the financial statements of Sample Volunteer Company as of [Month and Day], [Year] and [Year] and for each of the years in the [number]-year period ended [date], and in our report dated [date], we expressed an unqualified opinion on those financial statements.<sup>8</sup> In addition, we have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Sample Volunteer Company's internal control over financial reporting as of [Month and Day],

[Year], based on [Identify control criteria], and our report dated [date], expressed [Include nature of opinion].<sup>9, 10, 11, 12</sup>

Our examination was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included examining, on a test basis, evidence supporting the XBRL-Related Documents. Our examination also included evaluating the XBRL-Related Documents for conformity with the applicable XBRL taxonomies and specifications

---

<sup>8</sup> If the auditor's opinion on the related financial statements is other than unqualified, this report should disclose that fact along with the reason for the modified report.

<sup>9</sup> This sentence is necessary if (a) the XBRL-Related Documents include information about the effectiveness of internal control over financial reporting, and (b) that information was covered by an audit report.

<sup>10</sup> If the financial statements have been reviewed and the review report was filed with the SEC, this paragraph should read: "We have also reviewed, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the financial statements of Sample Volunteer Company as of [date], and for the three months then ended, the objective of which was the expression of limited assurance on such financial statements, and issued our report thereon dated [date], [Describe any modifications of such report]. A review of financial statements is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion."

<sup>11</sup> If the financial statements have been reviewed but the review report was not filed with the SEC, this paragraph should read: "We did not audit the financial statements of Sample Volunteer Company (or examine [Identify any other underlying information]), the objective of which would have been the expression of an opinion on them. Accordingly, we do not express an opinion on them."

<sup>12</sup> If the XBRL-Related Documents contain both (a) financial statements that are covered by an audit report or review report filed with the SEC and (b) other information that is not covered by an audit or review report, this paragraph should include a statement such as the following: "We were not engaged to and did not conduct an audit (or review) of [Identify information], the objective of which would have been the expression of an opinion (or limited assurance) on such [Identify information]. Accordingly, we do not express an opinion or any other assurance on [it] [them]."

and the content and format requirements of the Securities and Exchange Commission. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the XBRL-Related Documents of Sample Volunteer Company referred to above accurately reflect, in all material respects, the data presented in the [Identify corresponding information in the official EDGAR filing] in conformity with [Identify the criteria—for example, the taxonomy, such as "US GAAP—Commercial and Industrial Taxonomy," and where applicable, the Stand Alone Add-on Taxonomy such as "US Financial Reporting—Management Report Taxonomy," and the specifications, such as "XBRL Specifications (Version 2.1)"].

Report on Management's Assertion<sup>13</sup>

### Report of Independent Registered Public Accounting Firm on XBRL-Related Documents

We have examined management's assertion that [Identify the assertion—for example, the accompanying XBRL-Related Documents, presented as Exhibit [number] to Sample Volunteer Company's [Identify EDGAR filing, such as Form 10-K] accurately reflect the data presented in the [Identify corresponding information in the official EDGAR filing] as of [Month and Day], [Year] and [Year] and for each of the years in the [number]-year period ended [date], in conformity with [Identify the criteria—for example, the taxonomy, such as "US GAAP—Commercial and Industrial Taxonomy," and where applicable, the Stand Alone Add-on Taxonomy such as "US Financial Reporting—Management Report Taxonomy," and the specifications, such as "XBRL Specifications (Version 2.1)"]. Sample Volunteer Company's management is responsible for the assertion. Our responsibility is to express an opinion on the assertion based on our examination.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the financial statements of Sample Volunteer Company as of [Month and Day], [Year] and [Year] and for each of the years in the [number]-year period ended [date], and in our report dated [date], we expressed an unqualified opinion on those financial statements. In addition, we have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Sample Volunteer Company's internal control over financial reporting as of [Month and Day], [Year], based on [Identify control criteria], and our report dated [date], expressed [Include nature of opinion].

Our examination was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included examining, on a test basis, evidence supporting the XBRL-Related Documents. Our examination also included evaluating the XBRL-Related Documents for conformity with the applicable XBRL taxonomies and specifications and the content and format requirements of the Securities and Exchange Commission. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, management's assertion referred to above is fairly stated, in all material respects, in conformity with [Identify the criteria—for example,

## .03 STAFF QUESTIONS AND ANSWERS

### ***Adjustments to Prior-Period Financial Statements Audited by a Predecessor Auditor***

June 9, 2006

#### **Summary:**

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers related to adjustments to prior-period financial statements audited by a predecessor auditor were prepared by the Office of the Chief Auditor. Additional questions should be directed to Greg Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org) or Sam Guzman, Assistant Chief Auditor (202/207-9117; guzmans@pcaobus.org).

#### **General**

**Q1.** Circumstances arise that require a company to make adjustments to prior-period financial statements. Such circumstances include, for example, the reporting of discontinued operations, and the retrospective application of a change in accounting principle or the correction of an error in prior-period financial statements pursuant to Financial Accounting Standards Board Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections* ("FASB Statement 154").<sup>1</sup>

If the prior-period financial statements that require adjustments were audited by a predecessor auditor, which auditor, the predecessor or the successor, may audit the adjustments to prior-period financial statements?<sup>2</sup>

**A1.** Either the successor auditor or the predecessor auditor may audit the adjustments made to prior-period financial statements so long as the auditor is independent and registered with the PCAOB. Issuers sometimes select the

---

<sup>1</sup> Pursuant to Financial Accounting Standards Board Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections* ("FASB Statement 154"), the retrospective application of a change in accounting principle also is appropriate when there are no transition requirements specific to a particular accounting pronouncement.

<sup>2</sup> The term "adjustments to prior-period financial statements" should be understood for purposes of this set of questions and answers to include, among other things, the reporting of discontinued operations, as well as, restatements to correct errors and retrospective applications of changes in accounting principles, as described in FASB Statement 154.

predecessor auditor to audit the adjustments because that auditor has performed the audit of the prior-period financial statements and has knowledge of the transactions that occurred during that period. In addition, the use of the predecessor auditor sometimes can be more cost-effective for performing this work. However, the successor auditor also may audit the adjustments.

## Predecessor Auditor Audits the Adjustments to Prior-Period Financial Statements

**Q2.** If the predecessor auditor audits the adjustments to the prior-period financial statements, how should the predecessor auditor date his or her report on the reissued financial statements?

**A2.** The predecessor auditor should dual-date his or her reissued report in connection with the audit of the adjustments made to the prior-period financial statements. Paragraph .73 of AU section ("sec.") 508, *Reports on Audited Financial Statements*, states that, "A predecessor auditor's knowledge of the current affairs of his or her former client is obviously limited in the absence of a continuing relationship. Consequently, when reissuing the report on prior-period financial statements, a predecessor auditor should use the date of his or her previous report to avoid any implication that he or she has examined any records, transactions, or events after that date. If the predecessor auditor revises the report or if the financial statements are restated, he or she should dual-date the report."

**Q3.** If the predecessor auditor audits the adjustments made to the prior-period financial statements, what is the successor auditor's responsibility with regard to those adjustments?

**A3.** If the predecessor auditor audits the adjustments made to the prior-period financial statements, he or she is responsible for the audit conclusions reached with respect to those adjustments. However, because corrections of errors and the retrospective application of a change in accounting often have the effect of changing the periods in which transactions and events are recognized in the financial statements, the successor auditor should obtain an understanding of the adjustments made to the prior-period financial statements and their effects, if any, on the current-period financial statements.<sup>3</sup>

In addition, the successor auditor should evaluate the consistency of the application of accounting principles from period to period. Paragraph .24 of AU sec. 420, *Consistency of Application of Generally Accepted Accounting Principles*, states:

When the independent auditor has not audited the financial statements of a company for the preceding year, he should adopt procedures that are practicable and reasonable in the circumstances to assure himself that the accounting principles employed are consistent between the current and the preceding year.

## Successor Auditor Audits the Adjustments to Prior-Period Financial Statements

**Q4.** What factors are relevant to a successor auditor's determination as to whether he or she is able to audit only the adjustments to prior-period

---

<sup>3</sup> See the requirement for the auditor to plan and perform his or her work with due professional care in paragraph .02 of AU section ("AU sec.") 230, *Due Professional Care in the Performance of Work*.

financial statements or whether a reaudit of those financial statements is necessary?<sup>4</sup>

**A4.** To audit only the adjustments to prior-period financial statements that were audited by a predecessor auditor,<sup>5</sup> a successor auditor must be able to form an opinion that the adjustments are appropriate and have been properly applied.<sup>6</sup> In determining whether he or she is able to form such an opinion without performing a reaudit of the prior-period financial statements, the successor auditor should consider:

- *The extent of the adjustments.* The less extensive and pervasive the adjustments to prior-period financial statements are, the more likely it is that a successor auditor can form an opinion that the adjustments are appropriate and have been properly applied without performing a reaudit of those financial statements. More extensive and pervasive adjustments make it more likely that a reaudit is necessary.
- *The reason for the adjustments.* A successor auditor is ordinarily more likely to be able to form an opinion that adjustments to prior-period financial statements are appropriate and have been properly applied when those adjustments are due to the retrospective application of an accounting principle rather than when the adjustments are necessary to correct an error.<sup>7</sup> In the latter situation, the auditor should consider the risk that there may be other undetected misstatements in the prior-period financial statements. In particular, if the adjustments correct an intentional misstatement,<sup>8</sup> it is more likely that a reaudit is necessary.
- *Cooperation of predecessor auditor.* A successor auditor is more likely to be able to form an opinion that adjustments to prior-period financial statements are appropriate and have been properly applied if he or she has the cooperation of the predecessor auditor. For example, a successor auditor may determine that he or she is able to audit adjustments to prior-period financial statements if he or she has access to the audit documentation relating to the prior periods and if the predecessor auditor is responsive to questions relating to those periods.

After a successor auditor has determined that he or she is likely to be able to form an opinion that adjustments to prior-period financial statements are appropriate and have been properly applied, the auditor might obtain evidence indicating, or otherwise might determine, that the prior-period financial statements are materially misstated in other respects. In this circumstance, the successor auditor should reevaluate whether auditing only the adjustments is

---

<sup>4</sup> This staff question and answer assumes that the predecessor auditor reissues his or her report on the prior-period financial statements before the effects of the adjustments.

<sup>5</sup> This series of staff questions and answers assumes that the predecessor auditor has not ceased operations as the term "ceased operations" has been defined in footnote 2 of AU sec. 9508, *Reports on Audited Financial Statements: Auditing Interpretations of Section 508*. In cases in which the predecessor auditor has ceased operations, the successor auditor should refer to AU sec. 9508.60–75.

<sup>6</sup> See paragraph .74 of AU sec. 508, *Reports on Audited Financial Statements*.

<sup>7</sup> FASB Statement 154 defines an error in previously issued financial statements as an error in recognition, measurement, presentation, or disclosure in financial statements resulting from mathematical mistakes, mistakes in the application of GAAP, or oversight or misuse of facts that existed at the time the financial statements were prepared. Errors, also referred to as misstatements, include those that are intentional or unintentional.

<sup>8</sup> See paragraph .05 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

appropriate or whether a reaudit of the prior-period financial statements is necessary.<sup>9</sup>

**Q5.** If the successor auditor audits adjustments to the prior-period financial statements audited by a predecessor auditor, how should the successor auditor report on the results of the audit of those adjustments?

**A5.** AU sec. 508.74 describes how a successor auditor should report when he or she audits adjustments and the predecessor auditor's report is not presented. The successor auditor may use a similar form of reporting if he or she has audited the adjustments made to prior-period financial statements in connection with his or her audit of a subsequent period and if the predecessor auditor also reissues his or her report on the prior-period financial statements. It also is appropriate for the successor auditor to emphasize in the report that he or she was not engaged to audit, review, or apply any procedures to the prior-period financial statements other than with respect to the adjustments.

The following are examples of a paragraph the successor auditor may include in his or her report on the audit of the financial statements of a subsequent period:

***Example for retrospective application of a change in accounting***

We also have audited the adjustments to the 20X4 financial statements to retrospectively apply the change in accounting [*describe accounting change*], as described in Note X. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 20X4 financial statements of the Company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 20X4 financial statements taken as a whole.

***Example for correction of an error***

We also have audited the adjustments described in Note X that were applied to restate the 20X4 financial statements to correct an error. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 20X4 financial statements of the Company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 20X4 financial statements taken as a whole.

**Q6.** When a successor auditor audits and reports on adjustments made to prior-period financial statements due to the correction of an error, may the predecessor auditor reissue his or her report on the prior-period financial statements?

**A6.** Yes. A predecessor auditor may reissue his or her report on prior-period financial statements when a successor auditor has been engaged to audit and report on adjustments made to those prior-period financial statements, provided that the predecessor auditor has determined that the report on those financial statements is still appropriate, other than with respect to the error correction.<sup>10</sup> When determining whether the report is still appropriate, the predecessor auditor may consider factors such as:

---

<sup>9</sup> In addition, the successor auditor has responsibilities under paragraphs .21-.22 of AU sec. 315, *Communications Between Predecessor and Successor Auditors*, when the successor auditor becomes aware of information that leads him or her to believe that the prior-period financial statements reported on by the predecessor auditor may require revision.

<sup>10</sup> See AU sec. 508.71. The predecessor auditor also may decide to withdraw his or her report on those financial statements. See AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

- The nature and extent of the adjustments pertaining to the error correction,
- Whether management has withdrawn the prior-period financial statements, and
- Whether the errors were intentional.

**Q7.** If the predecessor auditor does not reissue his or her report on the prior-period financial statements, may the successor auditor reaudit and report on those financial statements as adjusted?

**A7.** Yes. A successor auditor or another independent auditor may reaudit and report on prior-period financial statements as adjusted.

**Q8.** In circumstances in which a successor auditor audits and reports on adjustments made to prior-period financial statements audited by a predecessor auditor, what procedures should the predecessor auditor perform prior to reissuing his or her report on those financial statements prior to adjustment?

**A8.** AU sec. 508.71 states that, "a predecessor auditor should (a) read the financial statements of the current period, (b) compare the prior-period financial statements that he or she reported on with the financial statements to be presented for comparative purposes, and (c) obtain representation letters from management of the former client and from the successor auditor. The representation letter from management of the former client should state (a) whether any information has come to management's attention that would cause them to believe that any of the previous representations should be modified, and (b) whether any events have occurred subsequent to the balance-sheet date of the latest prior-period financial statements reported on by the predecessor auditor that would require adjustment to or disclosure in those financial statements [except for the adjustments]. The representation letter from the successor auditor should state whether the successor's audit revealed any matters that, in the successor's opinion, might have a material effect on, or require disclosure in, the financial statements reported on by the predecessor auditor [other than the adjustments disclosed to the predecessor auditor]."

**Q9.** In circumstances in which a successor auditor audits and reports on adjustments made to prior-period financial statements audited by a predecessor auditor, are there any modifications the predecessor auditor should make to his or her reissued report on the prior-period financial statements?

**A9.** Yes. If the predecessor auditor was not engaged to audit the adjustments to the prior-period financial statements, the predecessor auditor should modify his or her reissued report to indicate that (a) the reissued opinion relates to the prior-period financial statements before the effects of the adjustments, and (b) he or she was not engaged to audit, review, or apply any procedures to the adjustments.

The following are examples of how the predecessor auditor may modify his or her report:<sup>11</sup>

***Example for retrospective application of a change in accounting***

**Report of Independent Registered Public Accounting Firm**

We have audited, before the effects of the adjustments to retrospectively apply the change in accounting described in Note X, the balance sheet of ABC Company as of December 31, 20X4, and the related statements of income, changes in shareholders' equity, and cash flows for the year then ended (the 20X4 financial

---

<sup>11</sup> See PCAOB staff question no. 6.

statements before the effects of the adjustments discussed in Note X are not presented herein). The 20X4 financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

*[Same second paragraph as the standard report]*

In our opinion, the 20X4 financial statements, before the effects of the adjustments to retrospectively apply the change in accounting described in Note X, present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X4, and the results of its operations and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

We were not engaged to audit, review, or apply any procedures to the adjustments to retrospectively apply the change in accounting described in Note X and, accordingly, we do not express an opinion or any other form of assurance about whether such adjustments are appropriate and have been properly applied. Those adjustments were audited by *[name of successor auditor]*.

*[Signature]*

*[City and State or Country]*

*[Original Date]*

#### **Example for correction of an error**

##### **Report of Independent Registered Public Accounting Firm**

We have audited, before the effects of the adjustments for the correction of the error described in Note X, the balance sheet of ABC Company as of December 31, 20X4, and the related statements of income, changes in shareholders' equity, and cash flows for the year then ended (the 20X4 financial statements before the effects of the adjustments discussed in Note X *[have been withdrawn and]* are not presented herein). The 20X4 financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

*[Same second paragraph as the standard report]*

In our opinion, except for the error described in Note X, the 20X4 financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X4, and the results of its operations and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

We were not engaged to audit, review, or apply any procedures to the adjustments for the correction of the error described in Note X and, accordingly, we do not express an opinion or any other form of assurance about whether such adjustments are appropriate and have been properly applied. Those adjustments were audited by *[name of successor auditor]*.

*[Signature]*

*[City and State or Country]*

*[Original Date]*

**Q10.** When a successor auditor audits and reports on adjustments made to prior-period financial statements audited by a predecessor auditor, how should the predecessor auditor date his or her report on the reissued financial statements?

**A10.** When the successor auditor has audited and reported on the adjustments made to the prior-period financial statements and the predecessor auditor is reissuing the report on the prior-period financial statements, the predecessor auditor should use the date of the previous report to avoid any implication that he or she has examined any records, transactions, or events after that date.<sup>12</sup>

## Successor Auditor Has Not Completed an Audit

**Q11.** Can a successor auditor audit and report on the adjustments made to the prior-period financial statements if he or she has not yet completed an audit of the current-period financial statements?

**A11.** No. If the prior-period financial statements have been adjusted, the successor auditor may audit and report on the adjustments made to the prior-period financial statements in connection with the successor auditor's audit of the financial statements of the company for a subsequent period.<sup>13</sup> Unless the successor auditor has completed an audit of the financial statements of the company, he or she will not have sufficient knowledge of the company and its financial reporting to adequately plan and perform an audit of the adjustments to conclude on whether they are appropriate and have been properly applied. If the successor auditor has not completed an audit of a subsequent period, the successor auditor, or another independent auditor, may be engaged to reaudit the prior-period financial statements and audit the adjustments to those financial statements.

---

---

<sup>12</sup> See AU sec. 508.73.

<sup>13</sup> See AU sec. 508.74.

## .04 STAFF QUESTIONS AND ANSWERS

### *Auditing the Fair Value of Share Options Granted to Employees*

October 17, 2006

#### **Summary:**

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers are applicable to audits of financial statements in circumstances in which a company has granted share options to employees that must be accounted for as compensation cost in conformity with Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*, issued by the Financial Accounting Standards Board. These staff questions and answers were prepared by the Office of the Chief Auditor. Additional questions should be directed to Greg Fletcher, Assistant Chief Auditor (202/207-9203; fletcherg@pcaobus.org) or Jennifer Rand, Deputy Chief Auditor (202/207-9206; randj@pcaobus.org).

#### **General**

**Q1.** What is the purpose of these PCAOB staff questions and answers about auditing the fair value of employee share options?

**A1.** The purpose of these questions and answers is to help auditors implement the PCAOB's existing auditing standards when auditing the fair value of share options granted to employees. The Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123, *Share-Based Payment* (revised 2004) ("FAS 123R"), which established the accounting requirements for companies that grant share options to employees and generally required that companies recognize as compensation cost the grant-date fair value of the award. In addition, the SEC staff issued Staff Accounting Bulletin 107 ("SAB 107") in March 2005, which, among other things, provides the Securities and Exchange Commission ("SEC") staff's views regarding the valuation of share-based payment arrangements for public companies. Based on these developments, the PCAOB staff believes that there is a need for guidance for implementing the existing auditing standards related to a company's accounting for the fair value of employee share options.<sup>1</sup>

---

<sup>1</sup> This series of PCAOB staff questions and answers addresses the principles and procedures related to auditing the grant-date fair value of employee share options, which is a component of compensation cost associated with the issuance of employee share options. It does not address auditing

(continued)

**Q2.** Which auditing standards of the PCAOB provide direction on auditing the fair value of employee share options and what are the general steps involved in auditing them?

**A2.** Because employee share options are complex financial instruments with no available market, companies generally use option-pricing models to estimate the fair value. As such, these valuations are accounting estimates, and AU sec. 342, *Auditing Accounting Estimates*, and AU sec. 328, *Auditing Fair Value Measurements*, most directly apply. In addition, because fraudulent financial reporting often is accomplished through an intentional misstatement of an estimate, AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, also applies.<sup>2</sup>

In general, when auditing the fair value of employee share options, the auditor should:

- Obtain an understanding of the process used to develop the estimated fair value of employee share options;
- Assess the risk of misstatement related to the fair value of employee share options; and
- Perform testing on the company's estimated value of employee share options. Testing includes:
  - Evaluating the consistency of the process,
  - Evaluating the reasonableness of (1) the company's model and (2) the assumptions used in the model, such as expected term and expected volatility, and
  - Verifying the accuracy and completeness of the data underlying the fair value measurements.

The auditor also should evaluate whether he or she possesses the necessary skills and knowledge to plan and perform the audit procedures.

Each of these matters is addressed in the following PCAOB staff questions and answers

## The Company's Process

**Q3.** How should the auditor evaluate the company's process for estimating the fair value of employee share option grants?

**A3.** AU sec. 328.09 requires the auditor to obtain an understanding of the company's process for determining fair value measurements and disclosures and of the relevant controls sufficient to develop an effective audit approach.<sup>3</sup> AU sec. 328.23 states that, based on the auditor's assessment of the risk of

---

*(footnote continued)*

the other components of determining and reporting compensation cost in the financial statements. Other components include making adjustments for actual pre-vesting forfeitures to arrive at the compensation cost related to the share option grant; determining the periods in which compensation cost is recognized in the financial statements; determining related financial statement effects of employee share options to the company, such as income tax effects; and making the appropriate entries in the general ledger.

<sup>2</sup> The Board adopted as its interim standards generally accepted auditing standards as described in the AICPA Auditing Standards Board's Statement on Auditing Standards No. 95, *Generally Accepted Auditing Standards*, as in existence on April 16, 2003, to the extent not superseded or amended by the Board, on an initial transitional basis.

<sup>3</sup> Paragraph .12 of AU sec. 328, *Auditing Fair Value Measurements and Disclosures*, also provides items that auditors should consider when obtaining an understanding of fair value measurements and disclosures.

material misstatement, the auditor should test the entity's fair value measurements and disclosures. AU sec. 328.23 also identifies three ways in which the auditor may test fair value measurements:

- Testing management's significant assumptions, the valuation model, and the underlying data,
- Developing independent fair value estimates for corroborative purposes, or
- Reviewing subsequent events and transactions.<sup>4</sup>

Because of the complexity involved in developing an independent estimate and the limited usefulness of reviewing subsequent events and transactions to evaluate the fair value of employee share options, in many cases, the second and third approaches are not likely to be practical approaches to auditing the fair value of employee share options. In such cases, the auditor should test management's significant assumptions, the valuation model, and the underlying data related to the fair value estimate.

In applying the provisions of AU sec. 328 to the evaluation of the company's process for estimating the fair value of employee share option grants, the auditor should review the procedures used by the company to make the estimates. These procedures include:

- Evaluating how the terms of the share option awards affect the determination of the grant date, selection of model, and the assumptions used;<sup>5</sup>
- Selecting the option-pricing model;<sup>6</sup> (See also PCAOB staff question Nos. 5 and 6.)
- Developing the assumptions used in the valuation, including implementation of the guidance in FAS 123R and SAB 107,<sup>7</sup> that could affect the assumptions;<sup>8</sup> (See also PCAOB staff question Nos. 7–18.)
- Ensuring that the data upon which the fair value measurements are based (including employee exercises and post-vesting cancellations and lapses) are accurate and complete;<sup>9</sup> (See also PCAOB staff question No. 19.) and
- Generating the estimated fair value of the employee share options, including executing the calculations required in the option-pricing model.<sup>10</sup> (See also PCAOB staff question No. 20.)

The auditor also should evaluate whether the process is complete, including whether the company considers the relevant factors identified in the accounting

---

<sup>4</sup> Similarly, in evaluating the reasonableness of an estimate, paragraph .10 of AU sec. 342, *Auditing Accounting Estimates*, requires the auditor to review and test the process used by management to develop an estimate, develop an independent estimate to corroborate the reasonableness of the company's estimate, or review subsequent events or transactions occurring before the completion of fieldwork.

<sup>5</sup> See Statement of Financial Accounting Standard No. 123, *Share-Based Payment* (revised 2004) ("FAS 123R"), paragraph A2.

<sup>6</sup> See FAS 123R, paragraphs A13–A15.

<sup>7</sup> See SEC Staff Accounting Bulletin 107, *Share-Based Payment* (March 29, 2005).

<sup>8</sup> See FAS 123R, paragraph A16.

<sup>9</sup> See AU sec. 328.39.

<sup>10</sup> *Ibid.*

literature that affect the assumptions and whether the company applies the process consistently from period to period.<sup>11</sup>

In addition, in auditing the financial statements, the auditor may determine that it is not practical or possible to restrict detection risk to an acceptable level by performing only substantive tests for one or more assertions. In such circumstances, the auditor should obtain evidence about the effectiveness of both the design and operation of controls to reduce the assessed level of control risk.<sup>12, 13</sup>

## Risk Factors

**Q4.** What factors affect the auditor's assessment of risk at the financial statement and significant account levels for fair value measurements related to employee share options?

**A4.** Accounts consisting of amounts derived from accounting estimates have a higher inherent risk than do accounts consisting of relatively routine factual data<sup>14</sup> or having readily determinable values. Therefore, compensation cost based on fair value measurements of employee share options, and related disclosures, often will have a high inherent risk. The auditor should be aware of how changes in assumptions and models affect fair value.

The following are examples of circumstances or conditions that indicate increased risk and might indicate a risk of fraud that would require a specific response from the auditor:<sup>15</sup>

- When an assumption that a company uses has the effect of reducing the fair value below what it would have been had the company based the assumption on unadjusted historical information.
- Exclusion of an historical period of time from the inputs to the valuation model, especially when the effect of that exclusion is to lower expected term or expected volatility.<sup>16</sup> (See also PCAOB staff question No. 14.)
- Adjustments to historical exercise behavior or historical share price volatility. For example:
  - The expected term estimate for the current grant of share options is five years when the company has averaged seven years in previous grants of share options;
  - The expected term or expected volatility estimate selected as the most likely was the lowest in a range of possible expected terms or expected volatilities; or

---

<sup>11</sup> AU sec. 328.19 states that the auditor should evaluate whether the company's method (in this case, the company's process) for determining fair value measurements is applied consistently and if so, whether the consistency is appropriate considering possible changes in the environment or circumstances affecting the company, or changes in accounting principles.

<sup>12</sup> See AU sec. 319.03.

<sup>13</sup> In an integrated audit of the financial statements and internal control over financial reporting, the auditor must obtain evidence about the effectiveness of internal controls. This series of PCAOB staff questions and answers does not illustrate how the auditor should test the design and operating effectiveness of controls related to employee share option compensation cost and disclosures in an integrated audit.

<sup>14</sup> See AU sec. 312.27a.

<sup>15</sup> See AU sec. 316.48b.

<sup>16</sup> See also SAB 107, interpretive response to question 2, Section D.1. SAB 107 states that valid exclusions of periods would be rare.

- The expected term and expected volatility estimates are both lower than the historical averages.
- Adjustments to historical exercise behavior or historical share price volatility are not applied consistently to each option grant in circumstances in which they should have been consistently applied.

## Model Selection

**Q5.** Observable market prices generally are not available for employee share options because employee share options are not traded. As a result, companies ordinarily will need to use an option-pricing model to estimate the fair value of employee share options. What factors should the auditor use to evaluate the reasonableness of a company's selection of an option-pricing model for calculating the fair value of employee share options?<sup>17</sup>

**A5.** The auditor should evaluate whether the model selected by the company

- Is applied in a manner consistent with FAS 123R's fair value measurement objective;
- Is based on established principles of financial economic theory; and
- Reflects all of the substantive characteristics of the share options granted to employees.<sup>18</sup>

The Black-Scholes-Merton formula, a closed-form option-pricing model, was developed for exchange-traded share options. As developed, it assumes that option exercises occur at the end of an option's contractual term, and that the other factors, expected volatility, expected dividends, and risk-free interest rates, are constant over the option's term. Because employees often exercise before the contractual term expires, FAS 123R requires companies to modify the term used as an input to the original formula by estimating an expected term for the employee share options that is less than the contractual term.

A lattice, or binomial, option-pricing model, however, can accommodate dynamic assumptions of expected volatility and dividends over the option's contractual term, and estimates of expected option exercise patterns during the contractual term (for example, the likelihood that an employee will exercise when the share price reaches a certain multiple of the exercise price). Therefore, the design of a lattice model might more fully reflect the substantive characteristics of a particular employee share option.<sup>19</sup>

The auditor should be alert to circumstances in which the selection of the Black-Scholes-Merton formula might not be appropriate. For example, the appropriate model for estimating the fair value of an instrument with a market condition (such as an exercise condition that is satisfied when the share price exceeds a specified value for a specified period of days) must take into account the effect of that market condition.<sup>20</sup> The Black-Scholes-Merton option-pricing formula

---

<sup>17</sup> See FAS 123R, paragraph A2. The fair value of equity instrument share options granted to employees is measured on the date of the grant.

<sup>18</sup> See FAS 123R, paragraph A8, AU sec. 328.18, and AU sec. 328.26b. In addition to the Black-Scholes-Merton formula and a lattice option-pricing model, a Monte Carlo simulation technique also satisfies the requirements in paragraph A8 of FAS 123R. See FAS 123R, footnote 48.

<sup>19</sup> See FAS 123R, paragraph A15.

<sup>20</sup> See FAS 123R, paragraph A14.

would not generally be an appropriate valuation model for a share option in which the exercisability is conditional on a specified increase in the price of the underlying shares because it is not designed to take into account that type of market condition.<sup>21</sup>

**Q6.** What steps should the auditor take when a company changes the valuation technique or model chosen to value employee share options?

**A6.** The auditor should evaluate whether the new technique or model meets the fair value measurement objective of FAS 123R. The SEC staff has stated that it would not object to a company changing its valuation technique or model, as long as the new technique or model meets the fair value measurement objective.<sup>22</sup> SAB 107 states that a company should take into account the reason for the change in technique or model in determining whether it meets the fair value measurement objective.<sup>23</sup> However, the SEC staff also has stated that it would not expect that a company would frequently switch between valuation techniques or models, particularly when there has been no significant variation in the form of share-based payments being<sup>24</sup> As noted in SAB 107, changing a technique or model from period to period for the sole purpose of lowering the fair value estimate of a share option would not meet the fair value measurement objective of FAS 123R.<sup>25</sup> Finally, frequent changes in the valuation technique or model also might indicate a risk of fraud that would require a response by the auditor. Accordingly, the auditor should evaluate management's reason for the change.

## Assumptions Used In Option-Pricing Models

**Q7.** Paragraph A18 of FAS 123R states that the valuation technique or model used to estimate the fair value of the share option shall take into account, at a minimum—

- Expected term of the option (in a lattice model, expected term is an output of the model);
- Expected volatility of the price of the underlying share for the expected term of the option;
- Exercise price of the option;
- Current price of the underlying share;
- Risk-free interest rate(s) for the expected term of the option; and
- Expected dividends of the underlying share for the expected term of the option.

How should the auditor assess the possible effect of these six items on the fair value measurement?

**A7.** The expected term and expected volatility assumptions have the highest risk because they involve the greatest amounts of judgment and have a significant effect on the estimated fair value. PCAOB staff question Nos. 8 through 11, provide direction to the auditor regarding expected term. PCAOB staff question Nos. 12 through 17 provide direction to the auditor regarding volatility.

---

<sup>21</sup> See the interpretive response to question 2, section C of SAB 107.

<sup>22</sup> See the interpretive response to question 3, section C of SAB 107.

<sup>23</sup> Ibid.

<sup>24</sup> Ibid.

<sup>25</sup> Ibid.

The exercise price of the option and current price of the underlying shares have a significant effect on the fair value measurement and have a high degree of verifiability. The auditor should verify that the company has properly authorized the share option plan and test whether the company has properly authorized the specific terms of the award, correctly determined the grant date, and accurately entered the exercise price and current share price, as of the measurement date, into the valuation model.

The risk-free interest rate(s) might have an elevated risk because a mathematical computation could be involved. The expected dividends assumption might have an elevated risk because of potential measurer bias. PCAOB staff question No. 18 provides direction to the auditor regarding risk-free interest rate(s) and expected dividends.

## Expected Term of the Option

**Q8.** The expected term assumption is one of the key drivers of fair value in the Black-Scholes-Merton formula.<sup>26</sup> Paragraph A23 of FAS 123R states that assumptions used to estimate the fair value of share options granted to employees should be determined in a consistent manner from period to period. How should the auditor evaluate the reasonableness of the expected term assumption?

**A8.** When a company is using the Black-Scholes-Merton option-pricing formula, the auditor should apply the following procedures to the expected term assumption:<sup>27</sup>

- Obtain an understanding of the company's process for estimating expected term, including the extent to which the company evaluates relevant factors in the accounting literature;<sup>28</sup>
- Verify that the expected term generally is at least equal to the vesting period of the share option grant;<sup>29</sup>
- Verify that the company (1) has taken into account the contractual term of the option and the effects of employees' post-vesting employment termination behavior, in addition to employees' expected exercise behavior, and (2) has not taken into account pre-vesting employee termination behavior;<sup>30</sup>
- Evaluate whether adjustments that the company has made to the historical exercise behavior are reasonable and supportable,<sup>31</sup> including adjustments to the historical exercise behavior of groups (See also PCAOB staff question No. 11); and

---

<sup>26</sup> Expected term usually is an output of lattice models.

<sup>27</sup> See PCAOB staff question No. 10 for a discussion about the "simplified method." If a company's share option plan has the characteristics that are sometimes referred to as "plain vanilla," it may use the simplified method for estimating expected term, as found in SAB 107. However, the SEC staff has stated that it does not expect the simplified method to be used for share option grants after December 31, 2007.

<sup>28</sup> For example, see FAS 123R, paragraphs A26–A30.

<sup>29</sup> See FAS 123R, paragraph 42. Some awards have graded vesting schedules. These may be accounted for as in-substance multiple awards.

<sup>30</sup> Paragraphs A27 and A28 of FAS 123R describe factors that may affect expectations about employees' exercise behavior.

<sup>31</sup> See FAS 123R, footnote 50.

- Test the data that the company uses for its estimate, such as data on actual exercise behavior (See also PCAOB staff question No. 19).

The auditor also should evaluate whether the person or persons determining the expected term assumption, including the company's specialists, have experience in valuing employee share options<sup>32</sup> and assess how that evaluation affects the audit procedures.

**Q9.** What should the auditor do to test a company's calculation of its historical exercise experience for employee share options, including consideration of the contractual term and post-vesting employee behavior?

**A9.** Paragraph A21 of FAS 123R states that historical experience generally is the starting point for developing expectations about the future. Because the expected term estimate is the period of time for which the option is expected to be outstanding (that is, generally the period of time from the grant date to the date of expected exercise or other expected settlement), companies may start by calculating a historical weighted average period of time for which previous grants of share options were outstanding.

The auditor should verify that a company's calculations include options that were not exercised during the contractual term. Failure to include such options could significantly understate average time that options were outstanding. For example, if a company calculates historical exercise behavior based only on the 70 percent of the options exercised over a 10 year contractual term, then it will probably significantly understate the average by not considering the 30 percent of options that may have been outstanding for 10 years and never exercised.

The auditor should:

- Evaluate whether the company's calculations are complete; i.e., that the calculations include all vested options, including those that were never exercised;
- Evaluate whether the company's calculations are mathematically correct, including any separate calculations for groups of employees (See also PCAOB staff question No. 11); and
- Test the underlying data upon which the company's calculations are based, for example, the grant date and exercise date (See also PCAOB staff question No. 19).

The auditor also should be aware of situations in which historical information is not sufficiently complete to enable a company to use it as the sole basis for estimating expected term. For example, if a company issues employee share options for the first time in 20X4 with a three-year vesting period and a ten-year contractual term, it cannot use its unadjusted historical experience in estimating the expected term of additional grants in 20X8 because there will have been only one year in which the earlier grants could have been exercised. The earliest it will have a complete history is at the end of the ten-year contractual term.

In situations in which the company calculated the historical exercise behavior based on incomplete historical information, the auditor should evaluate whether the company's rationale for using this calculation in connection with an estimate of expected term is reasonable and supportable.

**Q10.** FAS 123R states that expectations based on historical experience should be modified to reflect ways in which currently available information

---

<sup>32</sup> See AU sec. 328.12.

indicates that the future is reasonably expected to differ from the past.<sup>33</sup> What procedures should the auditor perform to evaluate the reasonableness of adjustments to historical exercise behavior?

**A10.** The auditor should evaluate whether the company's rationale for adjustments to historical exercise behavior are reasonable and supportable.<sup>34</sup> The auditor also should evaluate whether the company failed to make a necessary adjustment. For example, if the historical experience is based on grants with one-year vesting, an adjustment would be appropriate if current grants have four-year vesting. The volatility of the company's stock price also can affect whether vested employees (1) exercise the options, (2) terminate from the company and exercise the options, (3) terminate from the company and let the options lapse, or (4) stay with the company through the contractual term and let the options lapse. Announced plans for acquisitions, divestitures, and initial public offerings of stock also could affect employee exercises and forfeitures.

The auditor should evaluate whether the amount of an adjustment is reasonable by reviewing the support for the adjustment. The auditor also should be alert to the risk of management override in the adjustments.

*Range of expected terms.* If a company, after analyzing its historical data, developed a range of possible expected terms that are each equally likely, the auditor should verify that the company selected the average of the amounts in the range (the expected value according to paragraph A20 of FAS 123R).

*Use of SAB 107 "simplified method."* According to SAB 107, the simplified method of estimating expected term is permitted only for "plain vanilla" options.<sup>35</sup> If a company uses the simplified method, the auditor should review the evidence that supports the company's view that it is eligible to use the simplified method. Specifically, the auditor should review the grant documentation to ensure that the terms conform to the "plain-vanilla" requirements, review pre-vesting terminations to ensure that the associated share options were cancelled, and test whether exercises by terminated employees occurred within a limited time after termination (typically 30 to 90 days).

**Q11.** According to FAS 123R, aggregating individual awards into relatively homogenous groups, with respect to exercise and post-vesting employment termination behaviors, and estimating the fair value of the options granted to each group separately, reduces the risk of potential misstatement of the value of the award.<sup>36</sup> How should the auditor evaluate the appropriateness of groups of employees used in the estimate of expected term?

**A11.** If the company segregates the employees into more than one group (such as executives and non-executives), the auditor should perform the following procedures to evaluate the company's employee groups:

---

<sup>33</sup> See FAS 123R, paragraph A21.

<sup>34</sup> AU sec. 328 provides general guidance about evaluating a company's assumptions.

<sup>35</sup> The interpretative response to question 5, section D.2 of SAB 107, establishes basic characteristics of share option plans that are sometimes referred to as "plain vanilla." The basic characteristics are: (1) share options are granted at-the-money, (2) exercisability is conditional only on performing service through the vesting date, (3) if an employee terminates service prior to vesting, the employee would forfeit the share options, (4) if an employee terminates service after vesting, the employee would have a limited time to exercise the share options (typically 30 to 90 days), and (5) share options are nontransferable and nonhedgeable. In addition, the SEC staff has stated that it does not expect the simplified method to be used for share option grants after December 31, 2007 (See the interpretative response to question 6, section D.2.).

<sup>36</sup> See FAS 123R, paragraph A30. In addition, the interpretive response to Question 4 of section D.2. of SAB 107 states that an entity may generally make a reasonable fair value estimate with as few as one or two groupings.

- Evaluate whether the company aggregated individual awards into relatively homogeneous groups with respect to exercise and post-vesting employment termination behaviors and the evidence and rationale supporting the determination of the groups is adequate;
- Evaluate the reasonableness and completeness of groups;
- Evaluate the reasonableness and support for adjustments to historical exercise behavior of groups;
- Test the underlying data upon which the groups are based (See also PCAOB staff question No. 19); and
- Evaluate whether the company's calculations of historical exercise behavior for each group are mathematically correct.

## Expected Volatility

**Q12.** Paragraph A23 of FAS 123R states that assumptions used to estimate the fair value of share options granted to employees should be determined in a consistent manner from period to period. Paragraphs A32 and A34 provide further guidance related to the company's estimate of expected volatility. How should the auditor evaluate the reasonableness of a company's estimate of the expected volatility of its share price?

**A12.** The auditor should perform the following SAB procedures to evaluate the reasonableness of a company's estimate of expected volatility:<sup>37</sup>

- Obtain an understanding of the company's process for estimating expected volatility.
- Evaluate whether the company's process considers all of the applicable factors identified in paragraph A32 of FAS 123R in determining its estimate of expected volatility. The auditor also should evaluate whether the process (1) identifies the information necessary to be able to consider the volatility factors and (2) evaluates and weights that information (as required by paragraph A34 of FAS 123R).
- Evaluate the reasonableness of the assumptions, supporting information, judgments, and weightings. Evidence of reasonableness includes whether the company considered all the volatility factors and how such factors might affect the company's estimate of expected volatility. The auditor also should be alert to the risk of management override of the company's process for estimating expected volatility.
- Evaluate the consistency of the company's process for estimating expected volatility from period to period in evaluating the company's compliance with paragraphs A32 and A34 of FAS 123R.<sup>38</sup> However, the auditor also should consider that when circumstances indicate the availability of new or different information which would be useful in estimating expected volatility, SAB 107 directs the company to incorporate that information.<sup>39</sup>

---

<sup>37</sup> AU secs. 342 and 328 provide general guidance for reviewing a company's process and evaluating its assumptions.

<sup>38</sup> The interpretative response to question 1, section D.1. of SAB 107 states that the process used to gather and review available information to estimate expected volatility should be applied consistently from period to period.

<sup>39</sup> Ibid.

- In general, for historical volatility, verify that the company's process provides for looking back over the expected term (for a closed-form model) or contractual term (for a lattice model)<sup>40</sup> to consider the extent to which currently available information indicates that future volatility will differ from historical volatility.<sup>41</sup> A change in a company's business model that results in a material alteration to the company's risk profile is an example of a circumstance in which the company's future volatility would be expected to differ from its past volatility.<sup>42</sup>
- Test the underlying data used in the estimate (See also PCAOB staff question No. 19).

The auditor also should evaluate whether the person or persons determining the expected volatility assumption, including the company's specialists, have experience in valuing employee share options,<sup>43</sup> and assess how that evaluation affects the audit procedures.

## Historical Volatility

**Q13.** How should the auditor evaluate the reasonableness of a company's estimate of expected volatility when it uses its historical volatility as its expected volatility?

**A13.** As discussed in the answer to PCAOB staff question No. 12, the auditor should evaluate whether the company's process provides for looking backward to determine whether currently available information indicates that expected volatility will differ from historical volatility. The auditor should evaluate whether there is other information that the company did not consider and such information indicates that expected volatility will differ from the past. The auditor could base this evaluation on publicly available information related to the company's corporate history and future plans, and knowledge of the industry. In addition, an indication of the reasonableness of the company's process will be the extent to which the company analyzes each factor with respect to its own facts and circumstances.

Additionally, the auditor should consider the criteria established by SAB 107 for exclusive reliance on historical volatility. The SEC staff has stated that it would not object to a public company placing exclusive reliance on historical volatility when the following factors are present, and the methodology is consistently applied, if the company's common shares have been publicly traded for a sufficient period of time:<sup>44</sup>

- The company has no reason to believe that its future volatility over the expected or contractual term, as applicable, is likely to differ from its past;
- The computation of historical volatility uses a simple average calculation method;
- A sequential period of historical data at least equal to the expected or contractual term of the share option, as applicable, is used; and

---

<sup>40</sup> See FAS 123R, paragraph A32a.

<sup>41</sup> See FAS 123R, paragraph A34.

<sup>42</sup> See SAB 107, footnote 55.

<sup>43</sup> See AU sec. 328.12.

<sup>44</sup> See SAB 107, section D.1., "Company B" example.

- A reasonably sufficient number of price observations are used, measured at a consistent point throughout the applicable historical period.

The auditor also should verify that the company has properly calculated the historical volatility.

If a company makes adjustments to historical volatility based on peer company data, the auditor should evaluate the reasonableness of the company's decision to use peer company data. In addition, the auditor should evaluate whether the company is using an appropriate peer group, the company is reasonably comparable to the peer group, and management reasonably blended peer group data and its own company data. The auditor also should be alert to the risk of management override in the area of adjustments to historical volatility.

**Q14.** FAS 123R indicates that a company should consider historical volatility over a period generally commensurate with the expected term or contractual term, as applicable. How should the auditor evaluate whether a company, in determining its expected volatility, has considered the historical volatility of its share price over an appropriate period of time?

**A14.** The auditor should evaluate whether the company considered the volatility of its share price over the most recent period that is generally commensurate with the expected term (or contractual term if a lattice model is used). For example, if a company estimated that the expected term of the options is four years, then the company generally should start with its historical volatility for the most recent four-year period in determining the expected volatility.

The following are circumstances that indicate increased inherent risk and might also indicate increased risk of fraud.

- The company used a period of historical data that is longer than the expected term,<sup>45</sup> and the effect is to lower expected volatility and the resulting fair value, or the company did not consistently use the longer period. Using a period of historical data longer than expected or contractual term is acceptable under SAB 107 if the company reasonably believes that the additional historical information will improve the estimate. However, this situation is similar to the condition described in PCAOB staff question No. 4, in which an adjustment to historical exercise behavior or share price volatility that results in a lower expected term or expected volatility increases inherent risk and might indicate a heightened risk of fraud.
- The company used a method that weights the most recent periods of a company's historical volatility more heavily than earlier periods, especially if the result is a lowering of expected volatility.<sup>46</sup>

---

<sup>45</sup> See the interpretative response to question 2, section D.1 of SAB 107. SAB 107 also points out that paragraph A32a of FAS 123R indicates companies should consider historical volatility over a period generally commensurate with expected or contractual term.

<sup>46</sup> See SAB 107, interpretative response to question 2, section D.1, including footnote 40. SAB 107 states that such weighting may not be appropriate for longer term employee share options and that an estimate of expected volatility that places "extreme emphasis on the most recent periods" may not be consistent with paragraph A32(a) of FAS 123R.

- The company excludes a period of time from the calculation of historical volatility, especially if doing so results in a decrease of expected volatility, and hence a decrease in fair value.<sup>47</sup>

**Q15.** How should the auditor evaluate the company's share price observations for the purpose of determining historical volatility?

**A15.** The auditor should evaluate whether the company used actual observed prices within intervals that were appropriate based on the facts and circumstances and that provide a basis for a reasonable estimate. For example, if a company's shares are thinly traded, then weekly or monthly price observations may be more appropriate than daily price observations.<sup>48</sup> The auditor also should verify that the price observations are taken consistently throughout the period and are consistent with the approach used in prior grants. For example, if a company uses weekly price observations, then the auditor should verify that the company made the observation on the same day of each week. In addition, if the company changes when it makes price observations, for example, from daily price observations to monthly, the auditor should evaluate the reasonableness of the company's rationale for the change.

## Implied Volatility

**Q16.** Implied volatility is inferred by calculating volatility using an option-pricing model (typically Black-Scholes-Merton), where the fair value—the market price of a company's appropriate traded financial instruments—and other variables are known (i.e., share price, exercise price, expected term, risk-free rate, and expected dividends). How should the auditor evaluate a company's use of implied volatility in its estimate of expected volatility?

**A16.** SAB 107 provides items for a company to consider when using implied volatility. Accordingly, in such situations, the auditor should evaluate whether a company with "appropriate traded financial instruments from which they can derive an implied volatility"<sup>49</sup> has appropriately taken into account implied volatility in determining the estimate of expected volatility.

For companies with exchange-traded options, or other appropriate traded financial instruments,<sup>50</sup> the auditor should evaluate whether the company's process for estimating expected volatility is appropriate and consistent from period to period.<sup>51</sup> A company that considers implied volatility will probably do so as part of its overall process for estimating expected volatility. Therefore, the auditor also should consider the concepts described in PCAOB staff question Nos. 3 and 12.

Regarding exclusive reliance on implied volatility, the SEC staff has stated that it would not object to a public company placing exclusive reliance on implied volatility when certain factors are present and the methodology is consistently

---

<sup>47</sup> See SAB 107, interpretative response to question 2, section D.1. SAB 107 states that if a company disregards a period of historical volatility, it should be prepared to support its conclusion that its historical share price during that previous period is not relevant to estimating expected volatility due to one or more discrete and specific historical events and that similar events are not expected to occur during the expected term of the share option. SAB 107 states that these situations would be rare.

<sup>48</sup> See SAB 107, footnote 42.

<sup>49</sup> See SAB 107, interpretative response to question 1, section D.1.

<sup>50</sup> Ibid. Under SAB 107, appropriate traded financial instruments could include actively traded options or financial instruments with embedded options.

<sup>51</sup> See SAB 107, interpretative responses to question 3, section D.1, regarding the use of implied volatility.

applied, if the company's common shares have been publicly traded for a sufficient period of time and the company has multiple options on its shares outstanding that are traded on an exchange.<sup>52</sup>

If the company places exclusive reliance on implied volatility based on its assessment that the factors in SAB 107 are present, the auditor should evaluate that assessment. In addition, the auditor should verify that the company has properly calculated the implied volatility.

## Combined Volatility

**Q17.** How should the auditor evaluate the reasonableness of a company's estimate of expected volatility when it uses a combination of historical and implied volatility in that estimate?

**A17.** The auditor should verify that the company's process for estimating expected volatility includes consideration of the applicable factors for using historical or implied volatility, as discussed in FAS 123R and SAB 107. PCAOB staff question Nos. 13 through 16 provide guidance for the auditor to use when evaluating the company's use of historical volatility, including the effects of any adjustments, and implied volatility in its estimate of expected volatility. In considering the reasonableness of the combined expected volatility, the auditor should evaluate the company's consideration of the factors that affect volatility, including the SEC staff's factors for exclusive use of implied or historical volatility, and the company's support for its conclusions. The factors outlined in SAB 107 for a company's exclusive use of either historical volatility or implied volatility also may provide some relative benchmarks for the auditor to use in evaluating the combined volatility.

## Risk-Free Interest Rate(s) and Expected Dividends

**Q18.** FAS 123R requires that the valuation method, such as the Black-Scholes-Merton formula or lattice models, consider the expected dividends of the underlying shares for the expected term and the risk-free interest rate(s) for the expected term. How should the auditor evaluate whether the company has properly considered these two elements?

**A18.** The risk-free interest rate(s) and the expected dividends assumption generally are less subjective than the expected term and volatility assumptions and also do not have as significant an effect on the estimate of fair value. However, the auditor still should evaluate the reasonableness of those assumptions.

*Risk-free interest rate.* In general, the risk-free rate is the yield on a zero-coupon U.S. Treasury bond with a remaining term equal to the option term. A higher risk-free interest rate increases the option value and hence the estimated fair value, all other factors being equal.

If the company uses the Black-Scholes-Merton formula, the auditor should verify that the company used a traded zero-coupon U.S. Treasury bond with a remaining term equal to the expected term, measured on the grant date. The auditor also should verify that the company properly calculated the yield based on the traded price. If the company interpolated a yield because the expected term fell within the remaining terms of two bonds, the auditor should evaluate the accuracy of the interpolation.

---

<sup>52</sup> See SAB 107, section D.1., Company B example, and interpretative response to question 4, section D.1.

If a company's lattice model incorporates a term structure of expected volatilities, the company might use a yield curve for the contractual period. If the company's lattice model uses a yield curve, the auditor should verify that the company properly calculated the yield curve and accurately entered the yields into the lattice model.

*Expected dividends.* The dividend yield over the option term affects the option value because it reduces the stock price on the ex-dividend date. In general, higher expected dividends decrease the value of the option and hence the estimated fair value. The auditor should:

- Evaluate whether the company has the intent and ability to pay the dividends that are embodied in the expected dividend assumption. Sufficient cash and observable trends provide evidence of the company's intent and ability to pay dividends.<sup>53</sup>
- If the company has adjusted its current or historic dividend yield, evaluate the reasonableness of and support for the expected dividend yield. The auditor should evaluate whether the expected dividend yield is consistent with management's plans and information available to market participants by reviewing evidence such as press releases on dividend policy changes and historical dividend yield rates. This evaluation should include whether the company failed to make an adjustment to expected dividends.
- Test the underlying data (See also PCAOB staff question No. 19).

## Validation of Data and the Option-Pricing Model

**Q19.** How should the auditor test the underlying data that supports a company's estimate of fair value, and the related entries?

**A19.** Pursuant to AU sec. 328.39, the auditor should test the data used to develop the fair value measurements and evaluate whether the fair value measurements have been properly determined from such data and management's assumptions. This includes evaluating whether the data on which the fair value measurements are based, including the data used in the work of a specialist, are accurate, complete, and relevant; and whether fair value measurements have been properly determined using such data and management's assumptions. In considering the controls over data pursuant to AU sec. 328.12, the auditor should consider the effectiveness of the design of controls intended to safeguard the integrity and reliability of the data.

A number of systems, which can be automated or manual, often provide data relevant to the estimate of fair value. The auditor should identify the automated or manual systems that might be subject to testing. Record-keeping systems for stock plan information and awards are usually critical because information about forfeitures and exercises supports the company's estimate of expected term. Payroll, human resources, and tax systems also could be critical if they contain information about awards, forfeitures, and exercises that is used in the estimation process.<sup>54</sup>

---

<sup>53</sup> AU sec. 328.17 states that the auditor should evaluate management's intent to carry out specific courses of action where intent is relevant to the use of fair value measurement and that the auditor also should evaluate management's ability to carry out those courses of action.

<sup>54</sup> See AU sec. 328.12. When obtaining an understanding of the company's process for determining fair value measurements and disclosures, the auditor should consider the extent to which the company relies on a service organization to provide data that supports the measurement. When a company uses a service organization, the auditor should consider the requirements of AU sec. 324, *Service Organizations*.

The auditor also should establish that any data used that resides outside the company are reliable, such as peer group data. AU sec. 329.16 provides guidance for evaluating the reliability of such data.

**Q20.** How should the auditor evaluate whether the model has appropriately calculated the fair value estimate for share options?

**A20.** If the company is using the Black-Scholes-Merton formula, the auditor should verify that the company is using the correct formula and recalculate the fair value. If the company is using a lattice option-pricing model, the auditor should obtain evidence that the model is functioning properly.

## Role of Specialists

**Q21.** What is the role of a specialist in auditing estimates of the fair value of employee share option grants?

**A21.** AU sec. 328 provides guidance on auditing fair value measurements and disclosures, including auditing the fair value of employee share option grants. According to AU 328.12, as part of obtaining an understanding of the process management uses to determine fair value, such as the fair value of employee share option grants, the auditor should consider the extent to which management engages or employs specialists.

When testing fair value measurements and disclosures, the auditor should, among other things, perform procedures to evaluate whether management's assumptions are reasonable and to evaluate the source and reliability of evidence supporting management's assumptions.<sup>55</sup> According to AU sec. 328.05, footnote 2, management's assumptions include any assumptions developed by a specialist engaged or employed by management. Thus, the auditor should perform procedures in accordance with AU sec. 328 to evaluate the assumptions developed by a specialist engaged or employed by management.

Pursuant to AU sec. 328.20, the auditor should consider whether to engage a specialist and use the work of that specialist as evidential matter in performing substantive tests to evaluate material financial statement assertions related to the fair value of employee share option grants. In making this decision, the auditor<sup>56</sup> should evaluate whether he or she has the necessary skill and knowledge to plan and perform audit procedures related to the fair value of employee share option grants, including the reasonableness of the assumptions that the company or its specialist used.

The following circumstances related to the company's fair value measurement under FAS 123R often are particularly complex, involve assumptions that have a significant effect on fair value and, thus, might result in a higher assessment of risk by the auditor. Accordingly, the auditor should evaluate whether he or she has the necessary skill and knowledge to plan and perform audit procedures in these areas.

- Use of a lattice model, including obtaining evidence that the model is functioning properly. (See PCAOB staff questions No. 5, 18, and 20.)
- Exclusion of periods of historical data. (See PCAOB staff questions No. 4 and 14.)

---

<sup>55</sup> See AU secs. 328.26a and 328.31.

<sup>56</sup> In this context, the term *auditor* includes employees of the auditor's firm who possess relevant special skill or knowledge and who participate in the audit as a member of the audit team.

- Adjustments to historical exercise behavior or historical share price volatility that result in shorter expected term or lower expected volatility than the company's historical experience. (See PCAOB staff questions No. 4, 10, and 14.)
- Use of a method that weights the most recent periods of a company's historical volatility more heavily than earlier periods, especially if the result is a lowering of expected volatility. (See PCAOB staff question No. 14.)
- Use of combined volatility. (See PCAOB staff question No. 17.)

**Q22.** What should the auditor do to satisfy the requirement that he or she evaluate the qualifications of a specialist?

**A22.** Valuation specialists may have certain areas of experience. When evaluating the qualifications of a specialist in accordance with AU sec. 336.08,<sup>57</sup> the auditor should evaluate whether the specialist has experience in valuing employee share options. In doing this, the auditor should evaluate the experience of the specialist's firm and of the individual specialist, or specialists, performing the service.

---

---

<sup>57</sup> Pursuant to AU sec. 336.08a and b, the auditor should also consider the specialist's certification, license, or other recognition of competence and the specialist's reputation.

## .05 STAFF QUESTIONS AND ANSWERS

### *Ethics and Independence Rules Concerning Independence, Tax Services, and Contingent Fees*

April 3, 2007

#### Summary

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers related to ethics and independence rules concerning independence, tax services, and contingent fees were prepared by the Office of the Chief Auditor. Questions should be directed to Bella Rivshin, Associate Chief Auditor (202/207-9180; rivshinb@pcaobus.org) or Greg Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org).

\* \* \*

#### Rule 3522. Tax Transactions

**Q1.** Does Rule 3522(a), Confidential Transactions, apply when conditions of confidentiality are imposed by tax advisors who are not employed by or affiliated with the registered public accounting firm?

**A1.** Yes. Under Rule 3522(a), a registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any non-audit service to the client related to marketing, planning, or opining in favor of the tax treatment of a confidential transaction. Under Rule 3501(c)(i)(1), a confidential transaction is a transaction that is offered to a taxpayer under conditions of confidentiality and for which the taxpayer has paid an advisor a fee. As stated in the Board's adopting release, PCAOB Release 2004-015 (July 26, 2005), "Rule 3501(c) defines confidential transactions in terms of confidentiality restrictions imposed by tax advisors generally, not specifically auditors." Therefore, Rule 3522(a) applies not only when conditions of confidentiality have been imposed by a tax advisor that is employed by or affiliated with the registered public accounting firm, but also when conditions of confidentiality have been imposed by any tax advisor, including one that has no relationship with the registered public accounting firm.

**Q2.** For purposes of Rule 3522(a), Confidential Transactions, can a registered public accounting firm, when marketing, planning, or opining in favor of the tax treatment of a transaction, rely on representations from its audit

client that another tax advisor did not impose conditions of confidentiality in connection with the specific tax transaction?

**A2.** Yes. In determining if any tax advisor imposed conditions of confidentiality in connection with a specific tax transaction, the registered public accounting firm may rely on representations from its audit client, provided that the firm does not know, or have reason to know, that those representations are incorrect or incomplete.

**Q3.** In planning a tax transaction, may a registered public accounting firm advise an audit client on the tax consequences of alternative ways of structuring the transaction?

**A3.** Yes, as long as the auditor does not recommend an alternative tax transaction structure: (1) that is not more likely than not to be allowable under applicable tax laws, and (2) a significant purpose of which is tax avoidance. Rule 3522(b) provides that a registered public accounting firm is not independent of the audit client if the firm, or any affiliate of the firm, provides an audit client any non-audit service related to marketing, planning, or opining in favor of the tax treatment of a transaction that was initially recommended by the firm and a significant purpose of which is tax avoidance, unless the proposed tax treatment is at least more likely than not to be allowable under applicable tax laws. In planning a tax transaction for an audit client that is permitted under Rule 3522(b), the firm may need or want to inform the client about the tax consequences of alternative tax transaction structures, some of which may not be more likely than not to be allowable and have a significant purpose of tax avoidance. As long as the firm does not recommend that the audit client engage in such a transaction, the firm will not violate Rule 3522(b).

**Q4.** How is a registered public accounting firm's independence affected by the Internal Revenue Service's ("IRS") subsequent listing of a transaction that the firm marketed, planned, or opined in favor of, as described in Rule 3522(b), Aggressive Tax Position Transactions?

**A4.** The listing by the IRS of a transaction after the firm marketed, planned, or opined in favor of the tax treatment of the transaction would not retroactively affect the firm's independence. Whether the firm was independent when it planned, marketed, or opined in favor of the transaction would instead depend on the facts available at that time. An analysis under Rule 3522 would consider, among other things, whether the tax treatment of the transaction was, at the relevant time, at least more likely than not to be allowable under applicable tax laws, including whether the transaction was itself listed or substantially similar to a listed transaction.

After a transaction marketed, planned or opined on by the firm becomes listed, however, the firm's independence may, depending on the circumstances, become impaired. For example, even if a firm was independent at the time the tax transaction was executed, because it reasonably and correctly concluded the transaction was not the same as, or substantially similar to, a listed transaction, once a transaction is actually listed (or a substantially similar transaction becomes listed), the firm that participated in the transaction may find its independence impaired. In this situation, a mutuality of interest could be created by the fact that once a transaction is listed, the firm or client, or both, may be required to defend the tax treatment of the transaction and, in some cases, pay penalties. When a tax transaction in which the firm participated is subsequently listed (or is substantially similar to a transaction that is subsequently listed) by the IRS, the firm should evaluate the potential effect on its independence and discuss it, as appropriate, with the audit client's audit committee.

## Rule 3523. Tax Services for Persons in Financial Reporting Oversight Roles

**Q5.** Rule 3523 restricts the provision of tax services to a person in a Financial Reporting Oversight Role ("FROR") at an audit client or an immediate family member of such person. FROR is defined under both SEC and PCAOB rules as a role in which a person is in a position to or does exercise influence over the contents of the financial statements or anyone who prepares them. For purposes of Rule 3522, must the auditor evaluate whether persons are in a FROR at any entities other than the one being audited?

**A5.** Yes. Auditors must evaluate whether a person is in a FROR at an "audit client." Because Rule 3501(a)(iv) defines "audit client" to include "any affiliates of the audit client," a person in a financial reporting oversight role at an affiliate of the audit client (and that person's immediate family members) are covered by Rule 3523, subject to two important exceptions. First, a firm's independence is not impaired under Rule 3523 if it provides tax services to a person who is in a financial reporting oversight role at the audit client (or an immediate family member of such a person) only because of the person's relationship to an affiliate whose financial statements are not material to the consolidated financial statements of the entity being audited. See Rule 3523(b)(1). Second, a firm's independence is not impaired under the rule if it provides tax services to a person who is in a financial reporting oversight role at the audit client (or an immediate family member of such a person) only because of the person's relationship to an affiliate whose financial statements are audited by an auditor other than the firm. See Rule 3523(b)(2).

**Q6.** What types of situations does the term "other change in employment event" in Rule 3523(c) encompass?

**A6.** Rule 3523(c) provides a time-limited exception to Rule 3523's restrictions on the provision of tax services to persons in financial reporting oversight roles at an audit client and certain of its affiliates. The exception applies when, among other things, a person becomes subject to the rule through a hiring, promotion, or "other change in employment event." Whether there has been an "other change in employment event" depends on the changed status of a person at an audit client. A change experienced by a company, such as a change in auditor or a change from a private company to a public one, is not, by itself, an "other change in employment event."

Some changes experienced by a company could, however, result in an "other change of employment event" for a particular person. For example, a person who is not in a financial reporting oversight role might, as a result of a business combination, be assigned additional duties and responsibilities that put him or her into a financial reporting oversight role. A business combination could also result in a change in a person's employer – for example, from an acquired company to a surviving company. A change in employer is also an "other change in employment event" under Rule 3523(c). For example, if Company A acquires Company B, a person who was in a financial reporting oversight role at Company B would experience an "other change in employment event" if he or she became an employee of Company A in a financial reporting oversight role as a result of the acquisition. If such a person had been receiving tax services from Company A's registered public accounting firm pursuant to an engagement in process before the acquisition, the time-limited exception in Rule 3523(c) would apply.

## .06 STAFF QUESTIONS AND ANSWERS

### *Registration of Broker-Dealer Auditors*

February 19, 2009

#### **Summary:**

The questions and answers below set forth staff guidance to assist auditors of non-public broker-dealers considering registration with the Public Company Accounting Oversight Board ("PCAOB" or "Board"). This guidance does not constitute Board rules, nor has it been approved by the Board.

The staff questions and answers below were prepared by the Division of Registration and Inspections to supplement PCAOB Release No. 2003-011B, *Frequently Asked Questions Regarding Registration with the Board*. Questions should be directed to the PCAOB's registration staff, by emailing [registration-help@pcaobus.org](mailto:registration-help@pcaobus.org) or by calling 202-207-9329. The Securities and Exchange Commission ("SEC") staff and the Financial Industry Regulatory Authority ("FINRA") have also each published guidance on issues related to the requirement that auditors of non-public broker-dealers register with the Board. The SEC staff guidance can be found at [www.sec.gov/divisions/marketreg/faq-pcaobregbdauditors.htm](http://www.sec.gov/divisions/marketreg/faq-pcaobregbdauditors.htm). The FINRA guidance can be found at [www.finra.org/Industry/Regulation/Notices/2009/P117689](http://www.finra.org/Industry/Regulation/Notices/2009/P117689).

\* \* \*

#### **Overview of Registration**

**Q1.** My firm audits broker-dealers but does not audit or participate in audits of public companies. Does my firm have to register with the Board?

**A1.** Yes. Section 17(e) of the Securities Exchange Act of 1934 (as amended by the Sarbanes-Oxley Act of 2002) provides that every registered broker or dealer shall annually file with the SEC certain financial statements that are certified by a firm that is registered with the PCAOB. Until recently, an order of the Securities and Exchange Commission (the "SEC Order") had provided non-public broker-dealers with relief from that requirement. As a result of the SEC Order's recent expiration, financial statements of non-public broker-dealers for fiscal years ending after December 31, 2008 must be certified by a registered public accounting firm.

**Q2.** What does my firm have to do to become registered with the Board?

**A2.** To register with the Board, your firm must submit a registration application and the Board must approve it. Links to the instructions to Form 1 and to Section 2 of the Board's rules (which govern the registration process) may be found at <http://pcaobus.org/Rules/Pages/default.aspx>. You may also view a sample registration application by clicking on "Sample Registration Form 1" located on the Registration page of the Board's website ([www.pcaobus.org/Registration](http://www.pcaobus.org/Registration)). You can read a discussion of the information Form 1 requires by going to <http://pcaobus.org/Rules/Rulemaking/Pages/Docket001.aspx> and clicking on Release 2003-007. The Board has also published answers to

frequently asked questions concerning the application process generally, which you can find on the Registration page. This document, PCAOB Release No. 2003-011B, *Frequently Asked Questions Regarding Registration with the Board*, is referred to below as "Board FAQs" and can be found at [http://pcaobus.org/Registration/Information/Documents/Registration\\_FAQ.pdf](http://pcaobus.org/Registration/Information/Documents/Registration_FAQ.pdf).

In addition to submitting the Form 1 registration application, your firm will have to pay a non-refundable registration fee prior to Board consideration of your application. If your firm audited no issuers during the previous calendar year, the registration fee is \$250. "Issuer" is defined in the Sarbanes-Oxley Act of 2002 and PCAOB rules and does not include a non-public broker-dealer.

**Q3.** Will PCAOB registration affect the manner in which my firm audits broker-dealers?

**A3.** The Board does not determine, inspect for compliance with, or enforce the standards applicable to audits of entities that are not issuers. In addition, the SEC staff has published guidance indicating that the requirement to register with the PCAOB does not affect the existing requirement, under SEC rules, that audits of the financial statements of non-public broker-dealers be conducted according to generally accepted auditing standards. See "PCAOB Registration of Auditors of Non-Public Broker-Dealers Frequently Asked Questions" (Question 5), available at [www.sec.gov/divisions/marketreg/faq-pcaobregbdauditors.htm](http://www.sec.gov/divisions/marketreg/faq-pcaobregbdauditors.htm).

**Q4.** If my firm becomes registered with the Board, what ongoing obligations will it have to the PCAOB?

**A4.** Board rules currently pending with the SEC would require all registered firms, including those that do not audit issuers, to comply with the PCAOB's annual and special reporting requirements. Once those rules are effective, you will have to file with the Board an annual report, providing basic information about your firm. You will also have to file a special report if certain, specified events occur. These rules, once effective, will also require firms to pay an annual fee. The amount of that fee has not yet been announced. You can read a full description of the annual and special reporting rules adopted by the Board in PCAOB Release No. 2008-004 at <http://pcaobus.org/Rules/Rulemaking/Pages/Docket019.aspx>.

In any given year, both the requirement to file an annual report and the requirement to pay an annual fee apply only to firms that are registered as of March 31 of that year. Firms that become registered after March 31 of a given year would not file an annual report or pay an annual fee that year.

A firm's failure to comply with the reporting and fee requirements, as well as a failure to comply with the requirements to provide complete and accurate information in the application process, could result in disciplinary sanctions, potentially including revocation of a firm's registration.

## Mechanics of Registration

**Q5.** How does my firm submit a registration application?

**A5.** Registration applications are electronic and can only be obtained by accessing the Board's secure registration system. To gain access to the registration system, go to the Registration page of the Board's website ([www.pcaobus.org/Registration](http://www.pcaobus.org/Registration)) and click on "Register with the PCAOB" in the gray box on the right. You will be presented with a log-in box and instructions to establish a user ID and password by submitting an "Online Entitlement Request Form." Follow the instructions to establish a user ID and password, and

return to this log-in page to access PCAOB's secure registration system, where you may download the PDF version of the Form 1 registration application. (Note: The registration system also offers the option to submit Form 1 using XML. See Board FAQ #3 for further information on this option). Complete the application on your computer, making sure to take careful note of the name and location of the file containing your application.

To submit the registration application, log back into the registration system and follow the instructions to upload your completed Form 1. After Form 1 is uploaded, the system will calculate your firm's registration fee and present you with an invoice. You will be given a link to a site where you can submit your payment electronically. Once you've paid, your application will be deemed submitted.

**Q6.** How long will it take my firm to get registered?

**A6.** The Board has up to 45 days after the date your firm submits its application to take action on the application. The actual number of days until approval will vary depending on the information contained in the application and the number of applications that are pending at the same time as your firm's application. However, if the Board requests additional information concerning the application, a new 45-day period will begin when the additional information is received. In addition, if the Board cannot determine whether it is in the public interest to approve a firm's application, the Board may hold a hearing. While the applicant could elect to treat the hearing notice as a denial, if it does not do so, it will have waived the 45-day requirement for Board action. See Board FAQ #14 for additional information concerning notices of hearing.

## Content of the Registration Application

**Q7.** My firm does not participate in audits of issuers. Are there sections of the registration application we can skip?

**A7.** Before responding to any item in the registration application, an applicant should give careful attention to the definitions of terms used in the item. Of particular significance in this context are the definitions of "issuer" (which does not include a non-public broker-dealer), "audit" and "audit report" (which are limited to work and reports relating to the financial statements of issuers), and "associated person" of the applicant (which encompasses only persons that perform work in connection with an audit of an issuer).

If your firm did not, in the current calendar year or in the year preceding submission of its application, participate at all in the audit of an issuer, and your firm does not expect to do so in the current calendar year, it will have no information responsive to Part II (Listing of Applicant's Public Company Audit Clients and Related Fees) or to Item 7.1 (Listing of Accountants Associated with Applicants), and may not have information responsive to other items on the application. The form contains "NA" boxes that you should check to indicate that particular parts of the form do not apply to your firm. A firm that certifies financial statements of broker-dealers, however, should, when filling out an application, also bear in mind the answer to question no. 9 below.

Before concluding that it does not participate in audits of issuers, an applicant should understand that audit work performed for a non-public entity could nevertheless constitute participation in an audit of an issuer if that work is used by another firm in connection with the other firm's audit of an issuer, such as a parent company. In that circumstance, applicants should carefully consider whether they have played, or expect in the current calendar year to

play, a "substantial role" in the audit of an issuer as that defined term is used in the registration application.

**Q8.** Part IV of the registration application requires my firm to provide a statement of its quality control policies. How detailed should we be in describing our quality control policies?

**A8.** Your firm's discussion of quality control policies should be a summary description presented in a clear, concise and understandable format. You should not provide us with your entire internal quality control manual, but should prepare a brief document that provides an overview of your firm's policies with respect to independence, integrity and objectivity; engagement performance; personnel management; acceptance and continuance of clients and engagements; and monitoring.

**Q9.** Should my firm provide any specific information relevant to its work for broker-dealers?

**A9.** In light of the expiration of the SEC order, the staff believes that certain specific information may be relevant to the Board's consideration of an application. In order to avoid the Board seeking the information through a formal request for additional information, which could delay Board action on the application until 45 days after all requested additional information is submitted, the staff urges all applicants who have certified financial statements for SEC filings by broker-dealer clients in the two-year period preceding submission of the application and who intend to continue to do so to (a) indicate that fact in the "Applicant Profile" section on the first page of Form 1 by checking the box for item number 2, and (b) provide the following information:

1. Broker-dealer clients: Include in Exhibit 4.1, in addition to a description of the firm's quality control policies, a separate file listing (a) all broker-dealers for which the firm certified financial statements in the current or preceding calendar year, including the business address of each broker-dealer and, as to each, the dates of any such certification by the firm; and (b) any additional broker-dealers for which the firm expects to certify financial statements in the current calendar year, including the business address of each.

2. Individuals' disciplinary histories: Include in Exhibit 5.3 a statement indicating whether any proprietor, partner, principal, shareholder, or officer of the firm, or any accountant employed by the firm who participates in the firm's work relating to certification of broker-dealer financial statements, has a history that meets any of the criteria described in Item 5.1.a. of Form 1. If any of those individuals has such a history, provide as to each matter the information described in Item 5.1.b. of Form 1. In considering the criteria described in Item 5.1.a.1., please give careful attention to Board FAQ #33.

**Q10.** Are registration applications made public? If so, can my firm protect any of the information it provides in the application from public disclosure?

**A10.** The Board makes registration applications available to the public by posting them to its web site as soon as practicable after approving or disapproving them. If your firm wishes to protect information in its registration application from public disclosure, it may request confidential treatment for that information by checking the box labeled "CR" that appears in the application relating to the exact item of information that you want to be treated confidentially. Your firm will be notified of the Board's determination with respect to your request after the Board has acted on your application.

For each request for confidential treatment, your firm must attach, as exhibit 99.1, an explanation as to why you believe the information should be

treated confidentially. Refer to Board Rule 2300 ([http://pcaobus.org/Rules/PCAOBRules/Pages/Section\\_2.aspx](http://pcaobus.org/Rules/PCAOBRules/Pages/Section_2.aspx)) for the test the Board will apply in considering whether to grant your requests.

Requesting confidential treatment of a portion of a text exhibit to Form 1 requires your firm to submit two versions of the exhibit – one version should contain all the information in the exhibit and the other version should redact those portions of the exhibit as to which the firm is seeking confidential treatment and show with a notation each redaction that has been made.

## Further Questions About Registration

**Q11.** What should I do if I have further questions?

**A11.** If you have questions, you should first review the Board's FAQs on Registration, the Board's rules and Instructions to Form 1, and the Instructions for filling out Form 1 that are available for download after you log in to the registration system. If you still have questions, you can email the PCAOB's registration staff at [registration-help@pcaobus.org](mailto:registration-help@pcaobus.org), or call the registration staff's help line at (202) 207-9329. The hours of operation for the help line are 9 a.m. to 5 p.m. EDT, Monday through Friday.

---

## .07 STAFF QUESTIONS AND ANSWERS

### ***References to Authoritative Accounting Guidance in PCAOB Standards***

September 2, 2009

#### **Summary:**

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers regarding descriptions of and references to authoritative accounting guidance contained in the standards of the PCAOB were prepared by the Office of the Chief Auditor. Additional questions should be directed to Barbara Vanich, Associate Chief Auditor (202/207-9363; vanichb@pcaobus.org) or Greg Scates, Deputy Chief Auditor (202/207-9114; scatesg@pcaobus.org).

#### **FASB Accounting Standards Codification**

On June 30, 2009, the Financial Accounting Standards Board ("FASB") issued FASB Statement of Financial Accounting Standards No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles—a replacement of FASB Statement No. 162* ("FAS 168"). That standard establishes the FASB Codification ("Codification") as the source of authoritative non-Commission accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP").<sup>1</sup> The Codification is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

\*\*\*

#### **Descriptions of and References to U.S. GAAP**

**Q1.** Certain PCAOB standards include descriptions of and references to U.S. GAAP and accounting requirements. What is the status of those descriptions of and references to U.S. GAAP and accounting requirements upon the effective date of the Codification?

---

<sup>1</sup> See U.S. Securities and Exchange Commission ("SEC" or "Commission") Release Nos. 33-9062A; 34-60519A; FR-80A, *Commission Guidance Regarding the Financial Accounting Standards Board's Accounting Standards Codification* (August 19, 2009).

**A1.** Certain PCAOB standards contain descriptions of and references to U.S. GAAP that existed prior to the Codification. Those descriptions and references were not intended to represent and do not represent authoritative sources of U.S. GAAP.

Some PCAOB standards include descriptions of and references to accounting requirements that are no longer current. Further, some PCAOB standards include descriptions of accounting requirements that may not represent the final language as adopted in the Codification.

The accounting standards set by the FASB are recognized by the U.S. Securities and Exchange Commission ("SEC" or "Commission") as generally accepted under Section 108 of the Sarbanes-Oxley Act of 2002.<sup>2</sup> Therefore, auditors should disregard descriptions of and references to accounting requirements in PCAOB standards that are inconsistent with the Codification.

Auditors should look to the relevant sections of the Codification and to SEC requirements to identify the applicable accounting and reporting requirements for the company under audit. The FASB's web site contains a cross-reference search function to assist users in transitioning to the Codification.<sup>3</sup>

The PCAOB plans to revise these descriptions and references in its future standards-setting projects.

## Auditor's Responsibilities Regarding the Codification

**Q2.** What is the auditor's responsibility if, in using the Codification, the auditor believes that an item in the financial statements should be accounted for differently under the Codification than under pre-Codification U.S. GAAP?

**A2.** The FASB has stated that, generally, the Codification does not represent a change in U.S. GAAP. The FASB, however, has acknowledged that through the process of drafting the Codification, certain wording changes might theoretically lead an issuer to conclude differently on an accounting matter.<sup>4</sup> To address those types of changes, the FASB will continue to accept feedback on Codification content after the effective date to improve content and address unintentional changes, when applicable.<sup>5</sup> The FASB also has acknowledged that in reviewing the Codification issuers might discover guidance of which they were previously unaware that now indicates that an error may exist in previously issued financial statements.<sup>6</sup>

If an issuer reaches a different conclusion on an accounting matter, an auditor should evaluate management's conclusion on whether the different accounting treatment is a change in an accounting principle or an error, following the guidance in Codification Topic 250, Accounting Changes and Error Corrections.<sup>7</sup>

If the different accounting treatment is a change in an accounting principle, the auditor should follow the direction in:

---

<sup>2</sup> See SEC Release Nos. 33-8221; 34-47743, *Commission Statement of Policy Reaffirming the Status of the FASB as a Designated Private-Sector Standard Setter* (April 25, 2003).

<sup>3</sup> The Codification cross-reference table is available at: [http://asc.fasb.org/crossref&analyticsAssetName=home\\_page\\_crossreference](http://asc.fasb.org/crossref&analyticsAssetName=home_page_crossreference).

<sup>4</sup> See FAS 168, paragraph A15.

<sup>5</sup> *Ibid.*, paragraph A17.

<sup>6</sup> *Ibid.*, paragraph A16.

<sup>7</sup> This Codification topic was formerly referred to as FAS 154, *Accounting Changes and Error Corrections*.

- AU sec. 508, *Reports on Audited Financial Statements*
- PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*

If the different accounting treatment is an error, the auditor should follow the direction in:

- AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*
- AU sec. 508, *Reports on Audited Financial Statements*
- PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*
- PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, on evaluating deficiencies in an integrated audit, and AU sec. 325, *Communications About Control Deficiencies in an Audit of Financial Statements*, on evaluating deficiencies in an audit of financial statements only.

**Q3.** What are the other responsibilities of an auditor with respect to the Codification?

**A3.** Auditors will need to become knowledgeable about using the Codification. Additionally, for reviews of interim financial information and audits of financial statements for periods ending after September 15, 2009, when referencing or including an excerpt from U.S. GAAP in audit documentation, the relevant Codification topic is the appropriate source for that reference or excerpt. It may be desirable, but is not necessary, to update certain existing audit documentation (e.g., audit schedules, memoranda) containing previous references to U.S. GAAP prepared prior to the Codification.

## Audits of Financial Statements Prepared in Conformity with International Financial Reporting Standards

**Q4.** What consideration, if any, should an auditor give to descriptions of and references to U.S. GAAP in the standards of the PCAOB if he or she is auditing the financial statements of a foreign private issuer ("FPI")<sup>8</sup> prepared in conformity with International Financial Reporting Standards ("IFRS"),<sup>9</sup> as issued by the International Accounting Standards Board?

**A4.** In an audit of an FPI's financial statements that are prepared in conformity with IFRS, the auditor needs to consider SEC requirements and IFRS to determine the applicable accounting and reporting requirements and should disregard descriptions of and references to U.S. GAAP in PCAOB standards.

---

<sup>8</sup> See Rule 3b-4(c) of the Securities Exchange Act of 1934 for the definition of "foreign private issuer."

<sup>9</sup> See Form 20-F, General Instruction E(c), and items 17 and 18; 17 C.F.R. 249.220f; and SEC Release Nos. 33-8879; 34-57026; International Series Release No. 1306; File No. S7-13-07 (December 21, 2007).

## .08 STAFF QUESTIONS AND ANSWERS

### *Special Reporting on Form 3*

January 12, 2010

#### **Summary:**

The questions and answers below set out staff guidance to assist registered public accounting firms with respect to the requirement to file with the Public Company Accounting Oversight Board ("PCAOB" or "Board") special reports on Form 3. This guidance does not constitute Board rules, nor has it been approved by the Board.

The questions and answers below were prepared by the PCAOB staff to supplement PCAOB Release No. 2008-004, *Rules on Periodic Reporting by Registered Public Accounting Firms* (June 10, 2008) and the instructions to Form 3, which can be found at [http://pcaobus.org/Rules/Rulemaking/Docket019/2008-06-10\\_Release\\_No\\_2008-004.pdf](http://pcaobus.org/Rules/Rulemaking/Docket019/2008-06-10_Release_No_2008-004.pdf). Please note that the instructions to Form 3 include various "notes" intended to address anticipated questions.

### **Overview of the Requirements Relating to Special Reporting on Form 3**

**Q1.** What is the general nature of the obligation to file special reports on Form 3?

**A1.** The PCAOB's reporting framework includes two types of reporting obligations. Each registered firm must provide basic information once a year, covering a 12-month period that ends March 31, by filing an annual report on Form 2. Separately, there are certain events ("Form 3 events") that, if they occur, a firm must report on Form 3 within specified time frames. The reportable events described on Form 3 are not events that routinely occur, and some firms might never experience an event required to be reported on Form 3.

**Q2.** Does the requirement to file special reports on Form 3 apply to all registered firms, regardless of the nature of the firm's practice?

**A2.** Yes. Each firm that is registered with the PCAOB, regardless of the reason the firm is registered, regardless of whether the firm is required to be registered, and regardless of whether the firm plays any role in audits of issuers, must comply with the requirement to file special reports on Form 3 if any of the reportable events described in Form 3 occur with respect to the firm.

**Q3.** What are the time frames within which events must be reported on Form 3?

**A3.** The deadlines for filing special reports on Form 3 are set out in Rule 2203(a). In general, any Form 3 event that occurs while a firm is registered must be reported on Form 3 within 30 days after the event occurs. There are, however, two special situations involving one-time reporting deadlines for firms to "bring current" certain information that was submitted on a firm's registration application.

The first situation relates to firms that are registered as of December 31, 2009, when Rule 2203(a) took effect. For those firms, a specified subset of Form 3 events must be reported if they occurred before December 31, 2009 and information concerning them continues to be current as of December 31, 2009. This reporting requirement is described in detail in General Instruction No. 4 to Form 3. Any firm registered as of December 31, 2009 should review General Instruction No. 4 to determine whether it has any "bring current" reporting obligation, and any such report must be filed on Form 3 by February 1, 2010.

The second situation relates to firms that become registered after December 31, 2009. For those firms, any Form 3 events that occur between the cut-off date used by the firm for purposes of providing information on its registration application and the date the firm receives notice of approval of its application for registration must be reported on Form 3 within 30 days of receiving notice of approval of the application. With respect to events that occur while a firm's registration application is pending, however, firms should also take account of Q&A 18 in the Board's Frequently Asked Questions Regarding Registration with the Board (PCAOB Release 2003-011C), which encourages applicants to notify the staff in writing if information contained in the application changes in any significant way while the application is pending.

**Q4.** What are the consequences of failing to file a special report after a Form 3 event occurs, or of a late filing?

**A4.** The failure to file a timely special report after a Form 3 event occurs is a violation of PCAOB Rule 2203(a). As with any violation of PCAOB rules, a registered firm that violates Rule 2203(a), and any associated person who causes that violation, could be subject to disciplinary proceedings and disciplinary sanctions, which, in appropriate circumstances, could include revoking a firm's registration and barring an individual from being an associated person of a registered firm.

In addition, the annual report on Form 2 that every firm must file, for each 12-month period ending March 31, requires the firm to certify that it filed all required special reports on Form 3 with respect to events that occurred during that 12-month reporting period. If a firm overlooked the special reporting requirements for some period of time, the firm would eventually discover that it needed to become current on its Form 3 obligations, even if that meant late filing of a Form 3, so that it could provide the certification required in order to satisfy the annual reporting requirement.

**Q5.** What happens if the firm does not know of the Form 3 event within 30 days of its occurrence?

**A5.** The reportable events in Form 3 are described in a way such that either the firm would necessarily be in a position to know about them as they occur (e.g., the firm has changed its name) or that the event triggering the reporting obligation is the firm *becoming aware* of certain information. With respect to that latter category of events, the instructions to Form 3 specify that the firm is deemed to have become aware of the relevant facts on the date that any partner, shareholder, principal, owner, or member of the firm first becomes aware of the facts. The Board's release adopting the special reporting requirements noted that it is reasonable to expect a firm to have controls designed to ensure that any such person who becomes aware of relevant facts understands the firm's reporting obligation and brings the matter to the attention of persons responsible for compliance with the obligation.

**Q6.** If a firm has requested leave to withdraw from registration by filing Form 1-WD, and that request is pending with the Board, must the firm continue to comply with the requirement to file special reports on Form 3?

**A6.** No. PCAOB Rule 2107(c) provides that the obligation to file special reports on Form 3 is suspended for any firm that has pending before the Board a Form 1-WD requesting leave to withdraw from registration. In the event that the firm decides to withdraw a pending Form 1-WD, PCAOB Rule 2107(f) requires that the firm file any special report that the firm would have been required to file had the Form 1-WD not been pending.

## Events Required to be Reported on Form 3

**Q7.** What events are required to be reported on Form 3?

**A7.** The events that must be reported on Form 3 are described in Part II (and the instructions to Part II) of Form 3. For quick reference, a single page summary of the categories of reportable events is set out at the end of this document, but firms should refer to the more detailed descriptions in Part II of Form 3 for the specific events that must be reported. Firms should not attempt to report via Form 3 any events that are not described in Part II of Form 3. For example, while firms must report certain categories of legal proceedings involving the firm or certain firm personnel, firms are not required to report *all* legal proceedings involving the firm or its personnel, and firms should not attempt to use Form 3 to report proceedings not described in Part II of Form 3.

In reviewing the descriptions of events that must be reported, firms should bear in mind that some terms used in those descriptions are defined, for these purposes, in ways that may differ from a firm's common usage of the terms. Defined terms used in Form 3 are italicized, and the definitions can be found in PCAOB Rule 1001 or by clicking on an italicized term in the online form.

**Q8.** One of the reportable events on Form 3 is a firm's withdrawal of a previously issued audit report. Must a firm file Form 3 in every case where the firm withdraws an audit report or withdraws its consent to the use of its name by an issuer?

**A8.** No. If the issuer in question complies with its obligation to disclose the matter pursuant to Item 4.02 of a Form 8-K filed with the Securities and Exchange Commission, the firm need not, and should not, separately report the matter on Form 3. However, in the event the issuer fails to make the required Form 8-K filing within the time required by the Commission's rules, the firm must report that event on Form 3 within 30 days after that Form 8-K filing deadline, unless, within that 30-day period, the issuer reports the matter on a late-filed Form 8-K.

**Q9.** Reportable events on Form 3 include a firm entering into certain relationships with persons or entities who are currently the subject of specified PCAOB sanctions or Securities and Exchange Commission orders. Does a firm need to report such a relationship even if the person or entity does not participate in audits of issuers?

**A9.** Yes. Those relationships must be reported on Form 3 regardless of whether the relevant person or entity participates in audits of issuers.

**Q10.** Reportable relationships referred to in the preceding question include certain relationships with entities that are currently the subject of a PCAOB sanction disapproving the entity's application for registration. What does it mean to be "currently the subject" of such a sanction?

**A10.** An entity is considered to be "currently the subject" of a Board sanction disapproving registration if either of the following is true: (1) the Board order disapproving registration identified a date after which the Board would

not treat the violations described in the order as a sole basis for possible disapproval of a new registration application, and that date has not passed, or (2) the Board order identifies no such date, and the entity has not subsequently become registered with the Board.

**Q11.** For purposes of Form 3's reporting requirements, is a person or entity considered to be "currently the subject of" a specified PCAOB sanction if the sanction has not yet taken effect because it is pending review by the Securities and Exchange Commission?

**A11.** A person or entity is not "currently the subject of" a PCAOB sanction if the imposition of the sanction has been stayed, pursuant to Section 105(e) of the Act, by virtue of an application to the Commission for review, and the stay has not been lifted.

**Q12.** The obligation to report new relationships with persons or entities currently the subject of certain PCAOB sanctions and Commission orders is not by its terms limited to situations in which the firm has become aware of such sanctions or orders. What if the firm is not aware of them?

**A12.** The sanctions and orders that give rise to this reporting obligation are public information. A firm generally should be able to identify this information as to any person or entity with whom or which it enters into a new relationship, even if the person or entity is not forthcoming about it.

**Q13.** One of the reportable events on Form 3 is a change in a registered firm's name. Should a firm file a report on Form 3 to report all name changes, including those that occur in connection with a merger or other change in the firm's legal form?

**A13.** No. A change in a firm's name should be reported on Form 3 if, and only if, other than the name change, the firm remains the same legal entity that it was before the name change. If the name change is in connection with a more significant change in which the firm, as previously constituted, ceases to exist – such as a change in the legal form of the firm or a merger resulting in a new legal entity – the new entity does not automatically succeed to the registration status of the former entity and may not report the event on Form 3 as a mere name change. In that event, the firm should consider whether, pursuant to the provisions of Rule 2108, the firm can make the representations required in a Form 4 filing to enable the firm to succeed to the predecessor firm's registration status.

**Q14.** If the address of a firm's headquarters changes, must the firm report that change on Form 3?

**A14.** The only address change that must be reported on Form 3 is a change in the business mailing address (and other contact information) of the person that the firm designates as its primary contact with the PCAOB. If a firm changes its headquarters address, but the contact information for that primary contact person remains unchanged, the firm should not report the headquarters address change on Form 3 but should simply provide the new address in the firm's next annual report on Form 2.

## Completing Form 3

**Q15.** Which portions of Form 3 must be completed if a firm is reporting only a single event?

**A15.** For any Form 3 filing, a firm must complete Parts I, II, and VIII of Form 3 and at least one of Parts III through VII. Part I identifies the firm

and Part VIII certifies the accuracy of the report. In Part II, the firm must check a box, or boxes, to indicate which of the events described there the firm is reporting. Depending upon which box or boxes the firm checks in Part II, the firm must complete one or more of Parts III through VII to provide certain details.

**Q16.** May a firm use a single Form 3 filing to report multiple Form 3 events?

**A16.** A firm may file a Form 3 to report a single event or to report multiple events. Timeliness of reporting, however, is judged with respect to each reported event.

**Q17.** May a firm combine in a single Form 3 filing the "bring current" reporting described in Q&A 3 above and reporting on other events that occur within the 30-day period before the "bring current" report is due?

**A17.** Yes, but attention should be given to ensure compliance with the "bring current" reporting requirement. A firm registered as of December 31, 2009 must file a Form 3 by February 1, 2010 to report certain information that is current *as of* December 31, 2009, and it must do so even if that information is superseded by events that occur between December 31, 2009 and February 1, 2010 that must also be reported on Form 3. Similarly, a firm that becomes registered after December 31, 2009 would, within 30 days of becoming registered, need to file a Form 3 to report events that occurred before the date it became registered, even if the relevant information were superseded by other events occurring before the firm filed that "bring current" report. In those situations, a firm would need to file one Form 3 to satisfy the "bring current" obligation and a separate Form 3 to report the subsequent change to that information.

## Amending a Previously Filed Form 3

**Q18.** What should a firm do if it discovers that it provided incorrect information in a filed Form 3 or omitted information that should have been included?

**A18.** Special reports on Form 3 should be complete and accurate, and an individual in the firm must, on behalf of the firm, certify that the form does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which the statements were made, not misleading. Inaccuracies or omissions could form the basis for disciplinary sanctions for failing to comply with the reporting requirements, and it is therefore in a firm's interest to correct such errors as soon as possible. A firm may do so by filing an amendment pursuant to PCAOB Rule 2205 and the Form 3 instructions specific to amendments.

**Q19.** Should a firm amend a previously filed Form 3 to update previously reported information that has changed since the original filing?

**A19.** Amendments are appropriate only to correct information that was incorrect at the time of the filing, or to supply omitted information that should have been supplied at the time of the filing. The amendment process should not be used to update information reported on a Form 3. In the event of changes, the firm should consider whether a new Form 3 reporting obligation has been triggered.

## Requesting Confidential Treatment

**Q20.** How does a firm request confidential treatment for information that it provides on Form 3?

**A20.** A firm may request confidential treatment for information provided in certain, though not all, items in Form 3. General Instruction No. 8 to Form 3 identifies the items with respect to which a firm may request confidential treatment. In filling out the form, the firm may request confidential treatment by checking the "CR" box associated with each such item for which the firm wants to request confidential treatment.

The requirements concerning what a firm must submit in support of a request for confidential treatment have changed effective December 31, 2009 and so, for most firms, are different than they were when the firm submitted its registration application. As amended, PCAOB Rule 2300(c) requires both a representation that the information has not otherwise been publicly disclosed and either (1) a detailed explanation of the grounds on which the information is considered proprietary, or (2) a detailed explanation of the basis for asserting that the information is protected by law from public disclosure and a copy of the specific provision of law.

A special report on Form 3 will be published on the PCAOB Web site promptly upon submission. That public version of the Form will not display information for which confidential treatment is requested unless and until a determination to deny the request becomes final. As a safeguard, as a firm prepares to submit a completed Form 3 to the PCAOB's Web-based system, the system allows a firm to view two separate versions of the completed form – one showing all of the information the firm has entered and the other showing what the publicly available version of the form will look like, with redactions where confidential treatment is requested. Before finally submitting the form, the firm should carefully review the redacted version to make sure that the firm has requested confidential treatment where it intended to do so.

## **Withholding Information on the Basis of Non-U.S. Legal Restrictions**

**Q21.** May a firm refrain from reporting information on Form 3 if non-U.S. law prohibits the firm from providing or obtaining the information, just as the PCAOB allows firms to withhold information from Form 1 registration applications on that basis?

**A21.** A non-U.S. firm may withhold certain information from a required special report on Form 3 because of non-U.S. legal restrictions, but the related process, which is governed by PCAOB Rule 2207, is significantly different from the process in the context of a registration application on Form 1.

A legal conflict can be asserted on Form 3 only if the firm is actually withholding information that the form requires. A separate section at the end of each relevant part of Form 3 instructs the firm that if any portion of its response in that part is incomplete because of an asserted legal conflict, the firm must, in that separate section, identify the specific items with respect to which the firm actually has withheld, or been precluded from obtaining, responsive information.

Also, unlike the case with Form 1, the materials that a firm must compile in support of its position that a conflict exists – a copy of the relevant provisions of law, a legal opinion, and a written explanation of the firm's efforts to seek consents or waivers that would overcome the conflict – need not routinely be submitted when the firm files Form 3. Rather, the firm must certify on Form 3 that it has those materials in its possession, and it must submit them only in the event of a follow-up request from the Board or the Director of the Division of Registration and Inspections.

**Q22.** To comply with the requirement to have a legal opinion relevant to the asserted conflict of law, must a firm secure a new legal opinion specific to each Form 3 that the firm files?

**A22.** The supporting materials maintained by the firm need only contain a legal opinion that the firm has reason to believe is current with respect to the relevant point of law. Rule 2207 does not attempt to specify the ways in which a firm may satisfy this requirement, and various approaches might be satisfactory. Compliance does, however, depend upon a firm implementing in good faith some mechanism for generally being aware of relevant changes in the law, rather than relying on a particular legal opinion in perpetuity without genuine regard for whether the law changes.

**Q23.** If a non-U.S. firm takes the position that non-U.S. law prohibits it from providing any of the details required by Parts III through VII of Form 3 with respect to a particular matter, is the firm still required to file a Form 3 concerning that matter?

**A23.** Yes. The firm must still file a Form 3 completing Parts I, II, and VIII, and checking the relevant boxes in Parts III through VII to indicate the items as to which information is being withheld.

## The Mechanics of Reporting Through the PCAOB Web-Based System

**Q24.** How does a firm submit Form 3 to the Board?

**A24.** To submit Form 3, your firm will need to access the PCAOB's Registration, Annual and Special Reporting system at <https://rasr.pcaobus.org/Security/Login.aspx>. Your firm will need to provide the Username and Password issued in connection with the registration process to gain access. Registered firms may email [registration-help@pcaobus.org](mailto:registration-help@pcaobus.org) for assistance with log-in information. Firms that are already registered with the Board should not request a new user name and password through the Board's web site—this functionality is for firms seeking to register with the Board and is not appropriate for registered firms needing login assistance.

**Q25.** What formats will the system accept? What software is needed to properly prepare and submit Form 3?

**A25.** To properly communicate with the Board's system, you will need Internet Explorer 6.0 or later, or Firefox 2.0 or later. To complete Form 3, you may fill it out online as a web form, or you may submit it in XML, which is a computer language. If you have large amounts of information going into Form 3, you may find that XML is a more convenient way to submit the data because you would be able to load the data into your XML file directly or indirectly from other databases. If you would like to make your submission in XML, you must download the XML Schema from the Board's system. Using XML will likely require the assistance of a programmer who is versed in that computer language.

Form 3 may require you to submit various documents to be labeled as exhibits. The system will accept exhibits in PDF, GIF or JPEG format. You can convert text documents or scan documents for submission, as long as they are submitted in PDF, GIF or JPEG.

**Q26.** Is assistance available on how to create a web form in the Board's system?

**A26.** You may view an online tutorial on how to create a web form in the Board's system by going to the Registration, Annual and Special Reporting page of the Board's web site (<http://pcaobus.org/Registration/Pages/SampleForms.aspx>) and viewing the system tutorial entitled "Create a Form."

## Further Questions About Reporting on Form 3

**Q27.** What should I do if I have further questions?

**A27.** If you have questions, you should first review the Board's release adopting the reporting requirements, including the rules and Instructions to Form 3, which can be found at [http://pcaobus.org/Rules/Rulemaking/Docket019/2008-06-10\\_Release\\_No\\_2008-004.pdf](http://pcaobus.org/Rules/Rulemaking/Docket019/2008-06-10_Release_No_2008-004.pdf), and the instructions for filling out Form 3 that are available for download after you log into the registration and reporting system. The instructions to Form 3 include various notes intended to address anticipated questions. If you still have questions, you can email the PCAOB's registration staff at [registration-help@pcaobus.org](mailto:registration-help@pcaobus.org).

### Summary of Form 3 Reportable Events

- The firm has withdrawn an audit report on financial statements, and the issuer failed to comply with Commission reporting requirements (Item 4.02 of Commission Form 8-K) concerning the matter.
- With respect to the 100 issuer audit client threshold that determines the frequency of Board inspections under Rule 4003, the firm has crossed to a different side of the threshold than the firm was on in the preceding calendar year.
- The firm, or a partner, shareholder, principal, owner, member, or audit manager of the firm (in some cases limited to those who provided at least ten hours of audit services for any issuer during the firm's current or most recently completed fiscal year), has become a defendant in certain types of criminal proceedings, or any such proceeding has been concluded as to the firm or the individual.
- The firm, or a partner, shareholder, principal, owner, member, or audit manager of the firm (in some cases limited to those who provided at least ten hours of audit services for any issuer during the firm's current or most recently completed fiscal year), has become a defendant or respondent in a government-initiated civil proceeding, or an administrative or disciplinary proceeding (other than a Board proceeding), arising out of conduct in the course of providing professional services, or any such proceeding has been concluded as to the firm or the individual.
- The firm, or a parent or subsidiary, has become the subject of a petition filed in bankruptcy court or certain similar proceedings.
- The firm has taken on individuals or entities meeting certain criteria regarding disciplinary history, or entered into an arrangement to receive from such individuals or entities services related to the firm's audit practice or related to services the firm provides to issuer audit clients.

- The firm has obtained or lost authorization to engage in the business of accounting or auditing in a particular jurisdiction, or that authorization has become subject to conditions or contingencies.
  - Contact information for the firm's Board contact person has changed.
  - The firm has changed its legal name, while otherwise remaining the same legal entity that it was before the name change.
-

## .09 STAFF QUESTIONS AND ANSWERS

### *Succession to Registration Status—Form 4*

January 12, 2010

#### **Summary:**

The questions and answers below set out staff guidance to assist registered public accounting firms with respect to succeeding to a predecessor firm's registration status with the Public Company Accounting Oversight Board ("PCAOB" or "Board") by filing Form 4. This guidance does not constitute Board rules, nor has it been approved by the Board.

The questions and answers below were prepared by the PCAOB staff to supplement PCAOB Release No. 2008-005, *Rules on Succeeding to the Registration Status of a Predecessor Firm* (July 29, 2008) and the instructions to Form 4, which can be found at [http://pcaobus.org/Rules/Rulemaking/Docket020/2008-07-29\\_Release\\_No\\_2008-005.pdf](http://pcaobus.org/Rules/Rulemaking/Docket020/2008-07-29_Release_No_2008-005.pdf). Please note that the instructions to Form 4 include various "notes" intended to address anticipated questions.

#### **Q1.** What is Form 4?

**A1.** In the circumstances in which it is available, the Form 4 succession process allows an unregistered firm to succeed to the PCAOB registration status of a predecessor firm that was registered without any interruption in the registration status. Under certain circumstances, however, that registration status may only be temporary, as discussed in Q&A 9 below.

**Q2.** What are the circumstances in which a firm can succeed to a predecessor's registration status by filing Form 4?

**A2.** The Form 4 succession process is available (1) if there has been a change in a registered firm's form of organization, or the registered firm has changed the jurisdiction under the law of which it is organized; or (2) if a registered firm is acquired by an unregistered firm, or combines with any other entity or entities, including other registered firms, to form a new public accounting firm. Form 4 can be used only in those circumstances and only if the firm seeking to succeed to registration status makes certain representations required in the form. In the absence of those conditions, a firm cannot use Form 4 to succeed to the registration status of a predecessor and would need to file a registration application on Form 1 if it wished to seek registration.

**Q3.** Is a firm that results from the circumstances described in Q&A 2 above required to file Form 4?

**A3.** A firm that results from the circumstances described in Q&A 2 above should not assume that it is registered with the PCAOB just because a predecessor firm was registered with the PCAOB. If the firm wishes to be registered with the PCAOB, Form 4 provides an optional route to registration, but the firm is not required to use the Form 4 process and can choose, instead, to file an application for registration on Form 1.

**Q4.** Can or should Form 4 be filed in circumstances in which a registered firm has acquired another firm?

**A4.** If a registered firm acquires another firm in such a way that the acquiring registered firm continues to exist as the same legal entity, that firm continues to be registered and need not, and cannot, file Form 4. The acquiring registered firm would, however, need to report the acquisition when it files its annual report on Form 2 for the period in which the acquisition occurred.

**Q5.** By when must Form 4 be filed to be timely?

**A5.** PCAOB Rule 2109(a) governs the timeliness of Form 4 filings. With respect to changes or combinations that take effect on or after December 31, 2009 (the effective date of Rule 2109), a Form 4, to be timely, must be filed within 14 days after the change or combination takes effect.

**Q6.** If a firm resulted from circumstances described in Q&A 2 above that occurred after a predecessor firm became registered but before December 31, 2009, can and should the firm file a Form 4 to succeed to the predecessor's registration status? If so, when must the form be filed to be timely?

**A6.** Form 4 can be filed with respect to changes or combinations that took effect before December 31, 2009, and should be filed if the firm intends to operate, and believes it has been operating, under the registration status of the predecessor. For firms in that situation, Form 4 must be filed by January 14, 2010 to be timely. *Even if a firm in that situation has previously informally reported the change or combination to the PCAOB staff and provided requested representations, the firm still would need to file Form 4 to succeed to the predecessor's registration status.*

**Q7.** If a firm files Form 4 to succeed to the registration status of a registered firm, how soon will it be deemed to have succeeded to the predecessor's registration status?

**A7.** If a firm files a timely Form 4, succession to the predecessor's registration status is automatic. As discussed below, however, in some cases that registration status may only be temporary.

**Q8.** If a firm can make the representations required by Form 4 but has failed to file a timely Form 4, is it still possible for the firm to succeed to a predecessor's registration status?

**A8.** Under PCAOB Rule 2108(d), a firm that is in a position to file Form 4 but has failed to do so timely may submit a completed Form 4 along with a request for leave to file the form out of time. The submission must be accompanied by an exhibit describing the reasons the form was not timely filed and a statement of the grounds on which the firm asserts that the Board should grant leave to file the form out of time. The Board will evaluate the request in light of the relevant facts and circumstances and the public interest and may, in its discretion, grant or deny the request.

During the period that a request for leave to file out of time is pending with the Board, a firm should not assume that it is a registered public accounting firm. A Board decision to grant the request would effectively confer registered status on the firm back to the date of the transaction that is the subject of the Form 4 filing (just as with a timely filed Form 4), but a Board decision to deny the request would mean that the firm was not registered during that period.

**Q9.** In what circumstances would a firm's succession to the registration status of a predecessor firm through Form 4 be only temporary?

**A9.** If the event giving rise to the Form 4 filing is an unregistered firm's acquisition of a registered firm or a combination of firms into a new firm, the firm must address three yes-or-no questions, set out in Item 3.2.e. If the firm answers yes to any one of those questions or, in the case of a non-U.S. firm,

declines to answer any one of those questions on the ground that non-U.S. law prevents it from doing so, the firm can succeed to the predecessor's registration status, but only temporarily. In that situation, to succeed temporarily, the firm must also represent that it either has filed an application for registration on Form 1 or will do so no later than 45 days after the date of the acquisition or combination giving rise to the Form 4 filing.

**Q10.** How long does temporary succession to registration last?

**A10.** In general, temporary registration ceases to be effective on the earlier of the 91st day after the effective date of the acquisition or combination as reported on Form 4 or the date on which the Board approves a Form 1 registration application submitted by the firm. Temporary registration can be extended in certain circumstances, as described in PCAOB Rule 2108(b)(2)(iii)-(iv).

**Q11.** A firm seeking to file a Form 4 would, necessarily, be an unregistered firm. How does such a firm access the PCAOB's Web-based system to be able to file the form?

**A11.** In every situation in which a Form 4 can be filed, there is necessarily at least one firm involved that was a registered firm before the change or combination that gives rise to the Form 4 filing. The firm that seeks to file a Form 4 must identify that firm (or one of those firms) on Form 4 as the predecessor firm to whose registration status the firm is succeeding. The firm should access the PCAOB system using that firm's user ID and password.

**Q12.** Should the predecessor registered firm, to whose registration status the firm is succeeding, file Form 1-WD to withdraw from registration?

**A12.** No, the firm designated in Form 4 as the predecessor must not withdraw from registration.

**Q13.** In the event that a combination of firms giving rise to a Form 4 filing involves any registered firms other than the firm designated in Form 4 as the predecessor, should those other firms file Form 1-WD to withdraw from registration?

**A13.** Yes, any such firms should file Form 1-WD seeking to withdraw from registration, and the firm filing Form 4 must represent that each such registered firm has done so.

**Q14.** What should a firm do if it discovers that it provided incorrect information in a filed Form 4 or omitted information that should have been included?

**A14.** Form 4 filings should be complete and accurate, and an individual in the firm must, on behalf of the firm, certify that the form does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which the statements were made, not misleading. Inaccuracies or omissions could form the basis for disciplinary sanctions for failing to comply with the rules and instructions relating to Form 4, and it is therefore in a firm's interest to correct such errors as soon as possible. A firm may do so by filing an amendment pursuant to PCAOB Rule 2205 (which applies to Form 4 through PCAOB Rule 2109(d)) and the Form 4 instructions specific to amendments.

**Q15.** If a Form 4 as filed appears on its face to be timely, but a subsequent amendment reveals that the original filing was in fact untimely, what is the firm's registration status?

**A15.** In that circumstance, the original Form 4 filing would be voided and its effect would be null. If the firm still wanted to try to succeed to the predecessor's registration status, it would need to submit a new Form 4 and request leave to file out of time.

**Q16.** Can a firm make changes to a Form 4 that has been submitted with a request for leave to file out of time and is pending in that status?

**A16.** In that circumstance, a firm can withdraw the pending submission and replace it with a new submission. A note to General Instruction No. 7 of Form 4 describes the process.

**Q17.** Once a firm has filed a timely Form 4, or the Board has granted leave to file a Form 4 out of time, should any subsequent changes to information that was provided on the Form 4 be submitted through an amendment to the Form 4?

**A17.** No. Amendments are appropriate only to correct information that was incorrect at the time of the filing, or to supply omitted information that should have been supplied at the time of the filing. The amendment process should not be used to update information that has changed since the Form 4 was filed. To the extent, however, that the subsequent changes are events that are required to be reported on a special report on Form 3, the firm should report them on Form 3 in accordance with Rule 2203.

**Q18.** Can a firm request confidential treatment for information on Form 4?

**A18.** A firm may request confidential treatment for certain limited aspects of a Form 4 filing, which are identified in General Instruction No. 9 to Form 4. Confidential treatment requests are not automatically granted. The requirements concerning what a firm must submit in support of a confidential treatment request have changed effective December 31, 2009 and so, for most firms, are different than they were when the firm submitted its registration application. As amended, PCAOB Rule 2300(c) requires both a representation that the information has not otherwise been publicly disclosed and either (1) a detailed explanation of the grounds on which the information is considered proprietary, or (2) a detailed explanation of the basis for asserting that the information is protected by law from public disclosure and a copy of the specific provision of law.

**Q19.** May a firm refrain from providing information on Form 4 if non-U.S. law prohibits the firm from providing or obtaining the information?

**A19.** If a non-U.S. firm complies with the requirements of PCAOB Rule 2207 (which applies to Form 4 through PCAOB Rule 2109(d)) and the relevant instructions to Form 4, it may withhold certain limited information because of asserted non-U.S. legal restrictions and still succeed to a predecessor's registration status. PCAOB Rules nevertheless reserve to the Board the right to subsequently require the information. In addition, while a non-U.S. firm may withhold answers to the yes-or-no questions discussed in Q&A 9 on the basis of a non-U.S. legal restriction, doing so will result in succession to registration being temporary only, and the firm would need to file a registration application on Form 1 to seek registration beyond the period of the temporary registration.

**Q20.** Does the Form 4 process affect any aspect of Securities and Exchange Commission Rules or Commission staff guidance concerning the consequences of mergers or similar transactions involving accounting firms?

**A20.** No. The Form 4 process has no effect on such matters; it merely allows the new entity to be registered with the PCAOB.

**Q21.** What should I do if I have further questions?

**A21.** If you have questions, you should first review the Board's release adopting the reporting requirements, including the rules and Instructions to Form 4, which can be found at <http://pcaobus.org/Rules/Rulemaking/>

Docket020/2008-07-29\_Release\_No\_2008-005.pdf, and the instructions for filling out Form 4 that are available for download after you log into the registration and reporting system. The instructions to Form 4 include various notes intended to address anticipated questions. If you still have questions, you can email the PCAOB's registration staff at [registration-help@pcaobus.org](mailto:registration-help@pcaobus.org).

## .10 STAFF QUESTIONS AND ANSWERS

### ***Auditing Standard No. 7, Engagement Quality Review***

February 19, 2010

#### **Summary:**

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff question and answer related to Auditing Standard No. 7, *Engagement Quality Review* was prepared by the Office of the Chief Auditor. Additional questions should be directed to Dima Andriyenko, Associate Chief Auditor (202/207-9130; andriyenkod@pcaobus.org) or Greg Scates, Deputy Chief Auditor (202/207-9114; scatesg@pcaobus.org).

#### **Auditing Standard No. 7**

On January 15, 2010, the U.S. Securities and Exchange Commission ("SEC") approved Auditing Standard No. 7, *Engagement Quality Review* ("AS No. 7,"), which was adopted by the PCAOB on July 28, 2009.<sup>1</sup> AS No. 7 supersedes the Board's interim standard,<sup>2</sup> applies equally to all registered firms,<sup>3</sup> and requires an engagement quality review ("EQR") and concurring approval of issuance for each audit engagement and for each engagement to review interim financial information conducted pursuant to the standards of the PCAOB.<sup>4</sup>

In its order approving AS No. 7, the SEC encouraged the PCAOB to provide further implementation guidance on the documentation requirements of the standard in light of comments the SEC received during its comment period. The following staff question and answer provides implementation guidance.

#### **Documentation of an EQR**

**Q.** Page 21 of the adopting release provides the following example of the application of the standard's documentation requirements:

---

<sup>1</sup> See SEC Release No. 34-61363 (Jan. 15, 2010); PCAOB Release 2009-004, *Auditing Standard No. 7, Engagement Quality Review and Conforming Amendment to the Board's Interim Quality Control Standards* (Jul. 28, 2009) (the "adopting release").

<sup>2</sup> Requirements of Membership of the Securities and Exchange Commission Practice Section ("SECPS") of the American Institute of Certified Public Accountants ("AICPA") Section 1000.08(f).

<sup>3</sup> The Board's interim standard applied only to registered firms that were members of the SECPS as of April 16, 2003.

<sup>4</sup> See paragraph 1 of AS No. 7.

[I]f a reviewer identified a significant engagement deficiency to be addressed by the engagement team, the engagement team should document its response to the identified deficiency in accordance with [Auditing Standard No. 3, *Audit Documentation*]. Because AS No. 7 does not require duplication of documentation prepared by the engagement team, the engagement quality reviewer does not have to separately document the engagement team's response. Rather, the EQR documentation should contain sufficient information to enable an experienced auditor, having no previous connection with the engagement, to understand, e.g., the significant deficiency identified, how the reviewer communicated the deficiency to the engagement team, why such matter was important, and how the reviewer evaluated the engagement team's response.

Does this example suggest that the standard requires documentation of all of the interactions between the engagement quality reviewer and the engagement team, including all of the interactions before a matter is identified as a significant engagement deficiency?

**A.** No. The example in the adopting release illustrates how the documentation requirements of AS No. 7 should be applied once a reviewer concludes that a significant engagement deficiency exists.

Paragraph 19 of AS No. 7 establishes a requirement<sup>5</sup> that "[d]ocumentation of an engagement quality review should contain sufficient information to enable an experienced auditor, having no previous connection with the engagement, to understand the procedures performed by the engagement quality reviewer, and others who assisted the reviewer, to comply with the provisions of this standard...."

---

<sup>5</sup> Specific documentation requirements are also set forth at Paragraph 19a-c.

# **.01 An Audit of Internal Control That Is Integrated With an Audit of Financial Statements: Guidance for Auditors of Smaller Public Companies**

January 23, 2009

## **Introduction**

The information in this publication is intended to help auditors apply the provisions of the Public Company Accounting Oversight Board's ("PCAOB" or "Board") Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* ("Auditing Standard No. 5"),<sup>1</sup> to audits of smaller, less complex public companies ("smaller, less complex companies"). If used appropriately, it can help auditors design and execute audit strategies that will achieve the objectives of Auditing Standard No. 5. This publication is not, however, a rule of the Board and does not establish new requirements. All audits of internal control over financial reporting—regardless of the size of the company—must comply with the requirements of Auditing Standard No. 5. Also, this publication does not address all of the requirements and direction in Auditing Standard No. 5 or all issues that may be encountered in audits of smaller, less complex companies.

In adopting Auditing Standard No. 5, one of the Board's objectives was to make the audit of management's assessment of the effectiveness of internal control over financial reporting ("audit of internal control") more clearly scalable for smaller, less complex companies. Thus, the standard contains direction to auditors on scaling the audit based on a company's size and complexity. This publication discusses how that direction may be applied to audits of smaller, less complex companies, including smaller companies that are not complex, and how auditors may address some of the challenges that might arise in audits of those companies.

## **Development of This Publication**

This publication was developed by the staff of the Board's Office of the Chief Auditor ("OCA"). To develop the information in this publication, OCA organized a working group composed of auditors who have experience with audits of internal control over financial reporting in smaller, less complex companies. These auditors identified issues that pose particular challenges in auditing internal control in smaller, less complex companies. The auditors provided insights and examples based on their experiences in addressing these issues, and

<sup>1</sup> PCAOB Release 2007-005A, "Auditing Standard No. 5 – *An Audit Of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements and Related Independence Rule and Conforming Amendments*" (June 12, 2007).

they assisted in drafting a preliminary version of the guidance. In developing that preliminary guidance, OCA also consulted with financial executives from smaller public companies, who helped the staff evaluate whether it appropriately reflected the smaller, less complex company environment.

The staff issued the preliminary guidance for public comment on October 17, 2007, and received 23 comments. After considering those comments, the staff made certain changes in this final version that clarify or enhance the guidance. Appendix B to this publication discusses comments received and related changes.

### References

This publication assumes that the user is familiar with the provisions of Auditing Standard No. 5 and the following publications:

### Internal Control Examples in this Publication

This publication discusses certain types of controls and provides examples of those controls to help auditors understand the types of controls that might be encountered in the audit of a smaller, less complex company and to provide a context for the discussion of audit strategies for evaluating the effectiveness

---

<sup>2</sup> Auditing Standard No. 5 states that the auditor should use the same internal control framework that management uses in its assessment of internal control. Although this publication uses certain terms and concepts from COSO's *Internal Control—Integrated Framework*, the principles in this publication could be applied to other internal control frameworks.

of those controls. The discussions and examples of controls do not establish internal control requirements and are not intended as guidance to management regarding establishing or evaluating internal control over financial reporting.

## Chapter 1

### Scaling the Audit for Smaller, Less Complex Companies

Auditing Standard No. 5 establishes requirements and provides direction that applies when an auditor is engaged to perform an audit of internal control over financial reporting that is integrated with an audit of the financial statements.

The complexity of a company is an important factor in the auditor's risk assessment and determination of the necessary audit procedures. Auditing Standard No. 5 provides direction on scaling the audit of internal control based on the size and complexity of a company. Scaling is important for audits of internal control of all companies, especially smaller, less complex companies. This chapter highlights principles for scaling the audit of internal control over financial reporting set forth in Auditing Standard No. 5 and discusses considerations for applying the principles in audits of smaller, less complex companies.

The audit of internal control should be integrated with the audit of the financial statements, so the auditor must plan and perform the work to achieve the objectives of both audits.<sup>1</sup> This direction applies to all aspects of the audit, and it is particularly relevant to tests of controls. This chapter discusses testing of controls in an integrated audit of a smaller, less complex company. Appendix A illustrates an audit approach for the integrated audit.

### Scaling the Audit of Internal Control

Scaling the audit of internal control involves tailoring the audit approach to fit the individual facts and circumstances of the company. Many smaller companies have less complex operations, and they typically share many of the following attributes:

- Fewer business lines
- Less complex business processes and financial reporting systems
- More centralized accounting functions
- Extensive involvement by senior management in the day-to-day activities of the business
- Fewer levels of management, each with a wide span of control.<sup>2</sup>

The attributes of a smaller, less complex company can affect the particular risks that could result in material misstatement of the company's financial statements and the controls that a company might establish to address those risks. Consequently, these attributes have a pervasive effect on the audit of internal control, including assessing risk, determining significant accounts and disclosures and relevant assertions, selecting controls to test, and testing the design and operating effectiveness of controls. The following are examples of internal control-related matters that might be particularly affected by the attributes of a smaller, less complex company—

---

<sup>1</sup> See Auditing Standard No. 5, paragraphs 6 and 7.

<sup>2</sup> See Auditing Standard No. 5, paragraph 9.

- *Use of entity-level controls to achieve control objectives.* In smaller, less complex companies, senior management often is involved in many day-to-day business activities and performs duties that are important to effective internal control over financial reporting. Consequently, the auditor's evaluation of entity-level controls can provide a substantial amount of evidence about the effectiveness of internal control over financial reporting. Chapter 2 discusses methods of evaluating entity-level controls and explains how that evaluation can affect the testing of other controls.
- *Risk of management override.* The extensive involvement of senior management in day-to-day activities and fewer levels of management can provide additional opportunities for management to override controls or intentionally misstate the financial statements in smaller, less complex companies. In an integrated audit, the auditor should consider the risk of management override and company actions to address that risk in connection with assessing the risk of material misstatement due to fraud and evaluating entity-level controls.<sup>3</sup> Chapter 3 discusses these considerations in more detail.
- *Implementation of segregation of duties and alternative controls.* By their nature, smaller, less complex companies have fewer employees, which limits the opportunity to segregate incompatible duties. Smaller, less complex companies might use alternative approaches to achieve the objectives of segregation of duties, and the auditor should evaluate whether those alternative controls achieve the control objectives.<sup>4</sup> This is discussed in Chapter 4.
- *Use of information technology (IT).* A smaller, less complex company with less complex business processes and centralized accounting operations might have less complex information systems that make greater use of off-the-shelf packaged software without modification. In the areas in which off-the-shelf software is used, the auditor's testing of information technology controls might focus on the application controls built into the pre-packaged software that management relies on to achieve its control objectives and the testing of IT general controls might focus on those controls that are important to the effective operation of the selected application controls. Chapter 5 discusses IT controls in more detail.
- *Maintenance of financial reporting competencies.* Smaller, less complex companies might address their needs for financial reporting competencies through means other than internal staffing, such as engaging outside professionals. The auditor may take into consideration the use of those third parties when assessing competencies of the company. Chapter 6 discusses the evaluation of financial reporting competencies in more detail.
- *Nature and extent of documentation.* A smaller, less complex company typically needs less formal documentation to run the business, including maintaining effective internal control over financial reporting. The auditor may take that into account when selecting controls to test and planning tests of controls. Chapter 7 discusses this in more detail.

---

<sup>3</sup> See Auditing Standard No. 5, paragraphs 14 and 24.

<sup>4</sup> See Auditing Standard No. 5, paragraph 42.

In some audits of internal control, auditors might encounter companies with numerous or pervasive control deficiencies. Smaller, less complex companies can be particularly affected by ineffective entity-level controls, as these companies typically have fewer employees and fewer process-level controls. The auditor's strategy can be influenced by the nature of the control deficiencies and factors such as the availability of audit evidence and the effect of the deficiencies on other controls. Chapter 8 discusses these situations in more detail.

## Tests of Controls in an Integrated Audit

Auditing Standard No. 5 provides direction on selecting controls to test and testing controls in an audit of internal control. The standard also provides direction on testing controls for the audit of the financial statements. The following paragraphs discuss how the auditor might apply the directions in Auditing Standard No. 5 to an audit of a smaller, less complex company.

### *Selection of Controls to Test*

Appropriate selection of controls helps focus the auditor's testing on those controls that are important to the auditor's conclusion about whether the company's internal control over financial reporting is effective. The decision about whether to select a control for testing depends on which controls, individually or in combination, sufficiently address the assessed risk of misstatement in a given relevant assertion rather than on how the control is labeled (e.g., entity-level control, transaction-level control, control activity, monitoring control, preventive control, or detective control). A practical starting point for identifying these controls is to consider the controls that management relies on to achieve its objectives for reliable financial reporting.

Besides the overriding consideration of whether a control addresses the risk of misstatement, as a practical matter, the auditor might also consider the following factors when selecting controls to test:

- Is the control likely to be effective?
- What evidence exists regarding operation of the control?

When selecting controls to test, the auditor could seek to select controls that are more likely to be effective in addressing the risk of misstatement in one or more relevant assertions.<sup>5</sup> If none of the controls that are intended to address a risk for a relevant assertion is likely to be effective, the auditor can take that into account in determining the evidence needed to support a conclusion about the effectiveness of controls for this assertion.<sup>6</sup> Chapter 8 discusses in more detail how auditors could design their audit strategies in a situation when internal control over financial reporting is likely to be ineffective because of the presence of pervasive control deficiencies that result in one or more material weaknesses.

The auditor needs to be able to obtain enough evidence about a control's operation to conclude on its effectiveness. The auditor could take into account the nature and availability of audit evidence when selecting controls to test and determining the nature, timing, and extent of tests of controls. For example, if

---

<sup>5</sup> There might be more than one control that addresses the assessed risk of misstatement for a particular relevant assertion; conversely, one control might address the assessed risk of misstatement to more than one relevant assertion. It is neither necessary to test all controls related to a relevant assertion nor necessary to test redundant controls, unless redundancy is itself a control objective. See Auditing Standard No. 5, paragraph 40.

<sup>6</sup> Auditing Standard No. 5, paragraph 47, indicates that, generally, less evidence is needed to support a conclusion that controls are not operating effectively.

two or more controls adequately address the risk of misstatement for a relevant assertion, the auditor may select the control for which evidence of operating effectiveness can be obtained more readily. Chapter 7 discusses documentation and audit evidence in more detail.

### **Tests of Operating Effectiveness of Controls**

Historically, the approach for financial statement audits of smaller, less complex companies has been to focus primarily on testing accounts and disclosures, with little or no testing of controls. The internal control reporting requirements under Sections 103 and 404 of the Sarbanes-Oxley Act of 2002 (the "Act") give auditors the opportunity to re-consider their traditional approach to the financial statement audit portion of the integrated audit. The principles in Auditing Standard No. 5 also give auditors latitude to determine an appropriate testing strategy to—

- (a) Obtain sufficient evidence to support the auditor's opinion on internal control over financial reporting as of year-end, and
- (b) Obtain sufficient evidence to support the auditor's control risk assessments in the audit of the financial statements.<sup>7</sup>

To express an opinion on internal control over financial reporting taken as a whole, the auditor must obtain evidence about the effectiveness of selected controls over all relevant financial statement assertions. Because the auditor's opinion on internal control over financial reporting is as of a point in time, Auditing Standard No. 5 indicates that he or she should obtain evidence that internal control over financial reporting has operated effectively for a sufficient period of time, which may be less than the entire period (ordinarily one year) covered by the company's financial statements.<sup>8</sup>

In an audit of financial statements, the objective of tests of controls is to assess control risk. To assess control risk at less than the maximum, the auditing standards require the auditor to obtain evidence that the relevant controls operated effectively during the entire period upon which the auditor plans to place reliance on those controls.<sup>9</sup> However, the auditor is not required to assess control risk at less than the maximum for all relevant assertions, and, for a variety of reasons, the auditor may choose not to do so.<sup>10</sup>

The auditor's assessment of control risk at the maximum for one or more relevant assertions in an audit of financial statements does not necessarily preclude the auditor from issuing an unqualified opinion in an audit of internal control. The objectives of the two audits are not identical. The auditor could obtain sufficient evidence to support his or her opinion on internal control over financial reporting, even if the auditor decides not to test controls over the entire period of reliance to support a control risk assessment below the maximum. However, if the auditor assesses control risk at the maximum because of identified control deficiencies, the auditor should evaluate the severity of the deficiencies, individually or in combination, to determine whether a material weakness exists.<sup>11</sup>

The auditor's decision about relying on controls in an audit of financial statements may depend on the particular facts and circumstances. In some areas, the auditor might decide to rely on certain controls to reduce the substantive

---

<sup>7</sup> See Auditing Standard No. 5, paragraph 7.

<sup>8</sup> See Auditing Standard No. 5, paragraph B2.

<sup>9</sup> See paragraph B4 of Auditing Standard No. 5 and paragraph .66 of AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*.

<sup>10</sup> See Auditing Standard No. 5, paragraph B4, and AU sec. 319.65.

<sup>11</sup> See Auditing Standard No. 5, paragraph 62.

testing of accounts and disclosures. For other areas, the auditor might perform primarily substantive tests of the assertions without relying on controls. For example, the auditor might test a company's controls over billings and cash receipts processing to cover the entire period of reliance in order to reduce the extent of confirmation of accounts receivable balances but might perform primarily substantive tests of the allowance for doubtful accounts. In this case, the auditor might perform the tests of controls over the allowance for doubtful accounts only as necessary for the audit of internal control over financial reporting.

For some significant accounts, the auditor might decide that a relevant assertion can be tested effectively and efficiently through substantive procedures without relying on controls. For example, the auditor might decide to confirm an outstanding loan payable with the lender rather than rely on controls. In that situation, the auditor may test controls of the relevant assertions only as necessary to support his or her opinion on the company's internal control over financial reporting at year-end.

To obtain evidence about whether a selected control is effective, the control must be tested; the effectiveness of a control cannot be inferred from the absence of misstatements detected by substantive procedures. The absence of misstatements detected by substantive procedures, however, is one of a number of factors that inform the auditor's risk assessments in determining the testing necessary to conclude on the effectiveness of a control.<sup>12</sup> See the section entitled Specific Responses—Substantive Procedures and Tests of Controls in Appendix A to this publication for more discussion on this topic.

## Chapter 2

### Evaluating Entity-Level Controls

An important aspect of performing an audit of internal control is the process of identifying and evaluating entity-level controls. This chapter discusses entity-level controls and explains how they can affect the nature, timing, and extent of the auditor's procedures in an audit of internal control for a smaller, less complex company.

For the purposes of this discussion, entity-level controls are controls that have a pervasive effect on a company's internal control. These controls include<sup>1</sup> –

- Controls related to the control environment;
- Controls over management override;
- The company's risk assessment process;
- Centralized processing and controls, including shared service environments;
- Controls to monitor results of operations;
- Controls to monitor other controls, including activities of the audit committee<sup>2</sup> and self-assessment programs;<sup>3</sup>

---

<sup>12</sup> See Auditing Standard No. 5, paragraphs 47, 58, and B9.

<sup>1</sup> See Auditing Standard No. 5, paragraph 24.

<sup>2</sup> If no audit committee exists, all references to the audit committee in this publication apply to the entire Board of Directors of the company. See 15 U.S.C. 78c(a)58 and 7201(a)(3).

<sup>3</sup> Some smaller, less complex companies might have an internal audit function, especially in regulated industries. If the activities of the internal audit function include controls to monitor other controls, those controls also are entity-level controls.

- Controls over the period-end financial reporting process; and
- Policies that address significant business control and risk management practices.

In smaller, less complex companies, senior management often is involved in many day-to-day business activities and performs many controls—including entity-level controls—that are important to effective internal control over financial reporting. When this is the case, the auditor's evaluation of entity-level controls can be an important source of evidence about the effectiveness of internal control over financial reporting.

Effective controls related to the control environment and controls that address the risk of management override are particularly important to the effective functioning of controls performed by senior management. Chapter 3 discusses the auditor's evaluation of the risk of management override and mitigating actions.

Auditors might find that limited formal documentation is available regarding the operation of some entity-level controls. Chapter 7 discusses how the auditor can obtain evidence about controls when less formal documentation is available.

## Evaluation of Entity-Level Controls and Testing of Other Controls

Auditing Standard No. 5 requires the auditor to test those entity-level controls that are important to the auditor's conclusion about whether the company has effective internal control over financial reporting. This includes evaluating the company's control environment and period-end financial reporting process.<sup>4</sup>

### *Identifying Entity-Level Controls*

The process of identifying relevant entity-level controls could begin with discussions between the auditor and appropriate management personnel for the purpose of obtaining a preliminary understanding of each component of internal control over financial reporting (i.e., control environment, risk assessment, control activities, monitoring, and information and communication).

While evaluating entity-level controls, auditors might identify controls that are capable of preventing or detecting misstatements in the financial statements. The period-end financial reporting process and management's monitoring of the results of operations are potential sources of such controls.

### *Assessing the Precision of Entity-Level Controls*

Auditing Standard No. 5 indicates that entity-level controls vary in nature and precision—

- Some entity-level controls, such as certain control environment controls, have an important, but indirect, effect on the likelihood that a misstatement will be detected or prevented on a timely basis. These controls might affect the other controls the auditor selects for testing and the nature, timing, and extent of procedures the auditor performs on other controls.
- Some entity-level controls monitor the effectiveness of other controls. Such controls might be designed to identify possible breakdowns in lowerlevel controls, but not at a level of precision that would, by themselves, sufficiently address the assessed risk that

---

<sup>4</sup> See Auditing Standard No. 5, paragraph 22, and 25–27.

misstatements to a relevant assertion will be prevented or detected on a timely basis. These controls, when operating effectively, might allow the auditor to reduce the testing of other controls. [See Example 2-1.]

- Some entity-level controls might be designed to operate at a level of precision that would adequately prevent or detect on a timely basis misstatements to one or more relevant assertions. If an entity-level control sufficiently addresses the assessed risk of misstatement, the auditor need not test additional controls relating to that risk.<sup>5</sup> [See Example 2-2.]

As noted previously, the key consideration in assessing the level of precision is whether the control is designed in a manner to prevent or detect on a timely basis misstatements in one or more assertions that could cause the financial statements to be materially misstated and whether such control is operating effectively.<sup>6</sup> Factors that auditors might consider when judging the level of precision of an entity-level control include the following:

- *Purpose of the control.* A procedure that functions to prevent or detect misstatements generally is more precise than a procedure that merely identifies and explains differences.
- *Level of aggregation.* A control that is performed at a more granular level generally is more precise than one performed at a higher level. For example, an analysis of revenue by location or product line normally is more precise than an analysis of total company revenue.
- *Consistency of performance.* A control that is performed routinely and consistently generally is more precise than one performed sporadically.
- *Correlation to relevant assertions.* A control that is indirectly related to an assertion normally is less likely to prevent or detect misstatements in the assertion than a control that is directly related to an assertion.
- *Criteria for investigation.* For detective controls, the threshold for investigating deviations or differences from expectations relative to materiality is an indication of a control's precision. For example, a control that investigates items that are near the threshold for financial statement materiality has less precision and a greater risk of failing to prevent or detect misstatements that could be material than a control with a lower threshold for investigation.
- *Predictability of expectations.* Some entity-level controls are designed to detect misstatements by using key performance indicators or other information to develop expectations about reported amounts. The precision of those controls depends on the ability to develop sufficiently precise expectations to highlight potentially material misstatements.

---

<sup>5</sup> See Auditing Standard No. 5, paragraph 23.

<sup>6</sup> The auditor should test the design effectiveness of controls by determining whether the company's controls, if they are operated as prescribed by persons possessing the necessary authority and competence, satisfy the company's control objectives and can effectively prevent or detect errors or fraud that could result in material misstatement of the financial statements. The auditor should test the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control has the necessary authority and competence to perform the control effectively. See Auditing Standard No. 5, paragraphs 42 and 44.

When forming an opinion on the effectiveness of a company's internal control over financial reporting, the auditor should evaluate evidence obtained from all sources, including misstatements detected during the financial statement audit.<sup>7</sup> Evidence regarding detected misstatements also might be relevant in assessing the level of precision of entity-level controls.

### ***Effect of Entity-Level Controls on Testing of Other Controls***

The auditor's evaluation of entity-level controls can result in increasing or decreasing the testing that the auditor otherwise might have performed on other controls. For example, if the auditor has designed an audit approach with an expectation that certain entity-level controls (e.g., controls in the control environment) will be effective and those controls are not effective, the auditor might re-evaluate the planned audit approach and decide to expand his or her audit procedures.

On the other hand, the auditor's evaluation of some entity-level controls can result in a reduction of his or her testing of other controls, such as controls over corresponding relevant assertions. The degree to which the auditor might be able to reduce testing of controls over relevant assertions in such cases depends on the precision of the entity-level controls.

#### **Example 2-1—Monitoring the Effectiveness of Other Controls**

**Scenario:** A small public video game developer conducts business in the United States and other countries, requiring the company to maintain a multitude of bank accounts. A staff accountant is charged with performing bank reconciliations for the accounts according to a predetermined schedule (some of the accounts have a different closing date). Through inquiries of management, the auditor learns that the company's chief financial officer ("CFO"), who is an experienced accountant, reviews on a monthly basis the bank reconciliations prepared by the staff accountant as a means to determine—

- whether reconciliations are being prepared on a timely basis,
- the nature of reconciling items identified through the process, and
- whether reconciling items are investigated and resolved on a timely basis.

**Audit Approach:** In this example, the purpose of the control is one of the factors that the auditor considers in assessing precision of the CFO's review. The auditor has noted that the purpose of the CFO's review is to check that the staff has performed the reconciliations as described above. Therefore, the auditor does not expect the CFO's review of the reconciliations to be sufficiently precise to detect misstatements by itself. However, the CFO's review could still influence the auditor's assessment of risk because it provides additional information about the nature and consistency of the reconciliation procedures. The auditor obtains evidence about the CFO's review through inquiry and document inspection, evaluates the review's effectiveness, and determines the amount of direct testing of the reconciliation controls that is needed based on the assessed level of risk. If the auditor concludes that the CFO's review is effective, she could reduce the direct testing of the reconciliation controls, absent other indications of risk.

<sup>7</sup> See Auditing Standard No. 5, paragraph 71.

**Example 2-2—Entity-Level Controls Related to Payroll Processing**

**Scenario:** A manufacturer of alternative fuel products and systems for the transportation market has union labor, supervisors, managers, and executives. All plants run two shifts six days a week, with each having approximately the same number of employees.

The chief financial officer ("CFO") has been with the company for 10 years and thoroughly understands its business processes, including the payroll process, and reviews weekly payroll summary reports prepared by the centralized accounting function. With the company's flat organizational design and smaller size, the CFO's background with the company and his understanding of the seasons, cycles, and workflows, and close familiarity with the budget and reporting processes, the CFO quickly identifies any sign of improprieties with payroll and their underlying cause—whether related to a particular project, overtime, hiring, layoffs, and so forth. The CFO investigates as needed to determine whether misstatements have occurred and whether any internal control has not operated effectively, and takes corrective action.<sup>8</sup> Based on the results of audit procedures relating to the control environment and controls over management override, the auditor observes that the CFO demonstrates integrity and a commitment to effective internal control over financial reporting.

**Audit Approach:** The auditor evaluates the effectiveness of the CFO's reviews, including the precision of those reviews. She inquires about the CFO's review process and obtains other evidence of the review. She notes that the CFO's threshold for investigating significant differences from expectations is adequate to detect misstatements that could cause the financial statements to be materially misstated. She selects some significant differences from expectations that were flagged by the CFO and determines that the CFO appropriately investigated the differences to determine whether the differences were caused by misstatements. Also, in considering evidence obtained throughout the audit, the auditor observes that the results of the financial statement audit procedures did not identify likely misstatements in payroll expense.

The auditor decides that the reviews could detect misstatements related to payroll processing because the CFO's threshold for investigating significant differences from expectations is adequate. However, she determines that the control depends on reports produced by the company's IT system, so the CFO's review can be effective only if controls over the completeness and accuracy of those reports are effective.

After performing the tests of the relevant computer controls, the auditor concludes that the review performed by the CFO, when coupled with relevant controls over the reports, meets the control objectives for the relevant aspects of payroll processing described above. (See Chapter 5 for a discussion of tests of controls over such reports.)

<sup>8</sup> Adapted from the COSO Small Companies Guidance, Volume II: Guidance, page 90.

## Chapter 3

### Assessing the Risk of Management Override and Evaluating Mitigating Actions

The risk of management override of controls exists in all organizations, but the extensive involvement of senior management in day-to-day activities and fewer levels of management can provide additional opportunities for management to override controls in smaller, less complex companies. Company actions to mitigate the risk of management override are important to the consideration of the effectiveness of internal control over financial reporting.

In an integrated audit, the auditor should consider the risk of management override in connection with assessing the risk of material misstatement due to fraud, as he or she evaluates mitigating actions in connection with the evaluation of entity-level controls and selecting other controls to test.<sup>1</sup> This chapter discusses the auditor's consideration of the risk of management override of internal control and evaluation of actions that companies take to mitigate that risk.

#### Assessing the Risk of Management Override

AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, requires the auditor to assess the risk of material misstatement due to fraud ("fraud risk"). As part of that assessment, the auditor is directed to perform the following procedures to obtain information to be used in identifying fraud risks, which includes procedures to assess the risk of management override<sup>2</sup>—

- *Conducting an engagement team discussion regarding fraud risks.* This discussion includes brainstorming about how and where management could override controls to engage in or conceal fraudulent financial reporting.
- *Making inquiries of management, the audit committee, and others in the company to obtain their views about the risks of fraud and how those risks are addressed.* These inquiries can provide information about the possibility of management override of controls.
- *Considering fraud risk factors.* Fraud risk factors include events or conditions that indicate incentives and pressures for management to override controls, opportunities for management override, and attitudes or rationalizations that enable management to justify override of controls.

After identifying fraud risks, the auditor should assess those risks, taking into account an evaluation of the company's programs and controls that are intended to address those risks.<sup>3</sup>

Because of the characteristics of fraud, the auditor's exercise of professional skepticism is particularly important when considering the risk of material misstatement due to fraud, including the risk of management override of controls.

---

<sup>1</sup> See Auditing Standard No. 5, paragraph 14.

<sup>2</sup> See AU sec. 316.14–.34.

<sup>3</sup> See AU sec. 316.43–45.

## Evaluating Mitigating Controls

Auditing Standard No. 5 directs the auditor to evaluate whether the company's controls sufficiently address identified risks of material misstatement due to fraud and controls intended to address the risk of management override of other controls as part of the evaluation of entity-level controls.<sup>4</sup>

Smaller, less complex companies can take a number of actions to address the risk of management override. The following are examples of some of the controls that might address the risk of management override—

- Maintaining integrity and ethical values;
- Active oversight by the audit committee;
- Maintaining a whistleblower program; and
- Controls over certain journal entries.

When assessing a company's anti-fraud programs and controls, the auditor should evaluate whether the company has appropriately addressed the risk of management override.<sup>5</sup> Often, a combination of actions might be implemented to address the risk of management override.

### *Evaluating Integrity and Ethical Values*

An important part of an effective control environment is sound integrity and ethical values, particularly of top management, which are communicated and practiced throughout the company. A code of conduct or ethics policy is one way that a company can communicate its policies with respect to ethical behavior. This type of control can be effective if employees are aware of the company's policies and observe the policies in practice.

Auditors should evaluate integrity and ethical values as part of the assessment of the control environment component of internal control.<sup>6</sup> One approach for testing the effectiveness of the company's communications regarding integrity and ethical values is to gain an understanding of what the company believes it is communicating to employees and interview employees to determine if they are aware of the existence of the company's policies for ethical behavior and what they understand those policies to be. A discussion with employees regarding observed behaviors can assist the auditor further in understanding management's past actions and determining whether management's behavior demonstrates and enforces the principles in its code of conduct. The auditor's experience with the company also can be an important source of information about whether management demonstrates integrity and ethical values in its business practices and supports the achievement of effective internal control in its day-to-day activities.

### *Evaluating Audit Committee Oversight*

An active and independent audit committee evaluates the risk of management override, including identifying areas in which management override of internal control could occur, and assesses whether those risks are appropriately addressed within the company. As part of their oversight duties, the audit committee might perform duties such as meeting with management to discuss

---

<sup>4</sup> See Auditing Standard No. 5, paragraph 14.

<sup>5</sup> See Auditing Standard No. 5, paragraphs 14 and 24.

<sup>6</sup> See Auditing Standard No. 5, paragraph 25.

significant accounting estimates and reviewing the reasonableness of significant assumptions and judgments.<sup>7</sup>

The consideration of the effectiveness of the audit committee's oversight is part of the evaluation of the control environment. In connection with the auditor's inquiries of the audit committee, required by AU sec. 316.22, the auditor may interview audit committee members to determine their level of involvement and their activities regarding the risk of management override. For example, the auditor might read minutes of audit committee discussions on matters related to the committee's oversight or might observe some of those discussions if the auditor attends the meetings in connection with the audit. In addition, the auditor can examine evidence of the board of directors' or audit committee's activities that address the risk of management override, such as monitoring of certain transactions.

### ***Evaluating Whistleblower Programs***

A whistleblower program provides an outlet for employees or others to report behaviors that might have violated company policies and procedures, including management override of controls. A key aspect of an effective whistleblower program is the appropriateness of responses to concerns expressed by employees through the program. The audit committee may review reports of significant matters and consider the need for corrective actions.<sup>8</sup>

Audit procedures relating to a whistleblower program are intended to assess whether the program is appropriately designed, implemented, monitored, and maintained. Such procedures might include inquiry of employees, inspection of communications to employees about the program, and, if tips or complaints have been received, follow-up procedures to evaluate whether remedial actions were taken as necessary.

### ***Evaluating Controls over Journal Entries***

Controls that prevent or detect unauthorized journal entries can reduce the opportunity for the quarterly and annual financial statements to be intentionally misstated. Such controls might include, among other things, restricting access to the general ledger system, requiring dual authorizations for manual entries, or performing periodic reviews of journal entries to identify unauthorized entries.

As part of obtaining an understanding of the financial reporting process, the auditor should consider how journal entries are recorded in the general ledger and whether the company has controls that would either prevent unauthorized journal entries from being made to the general ledger or directly to the financial statements or detect unauthorized entries.<sup>9</sup> Tests of controls over journal

---

<sup>7</sup> When a company does not have an audit committee, the entire board of directors is considered the audit committee under Section 2(b)(3) of the Act. In such circumstances, Principle 2, *Board of Directors* of COSO Small Companies Guidance states, "[w]hen a board chooses not to have an audit committee, the full board performing the activities described should have a sufficient number of independent members."

<sup>8</sup> Section 10A(m)(4) of the Securities Exchange Act of 1934 requires audit committees to "establish procedures for (A) the receipt, retention, and treatment of complaints received by the issuer regarding accounting, internal accounting controls, or auditing matters; and (B) the confidential, anonymous submission by employees of the issuer of concerns regarding questionable accounting or auditing matters." The SEC has implemented this provision by adopting rules directing the national securities exchanges and national securities associations to prohibit the listing of any security of an issuer that is not in compliance with the audit committee requirements mandated by the Act.

<sup>9</sup> See Auditing Standard No. 5, paragraphs 26 and 34; AU sec. 316.58–60.

entries could be performed in connection with the testing of journal entries required by AU sec. 316.

### **Considering the Effects of Other Evidence**

The auditor might identify indications of management override in other phases of the integrated audit. For example, AU sec. 316 requires the auditor to perform procedures in response to the risk of management override, including examining journal entries for evidence of fraud, reviewing accounting estimates for bias, and evaluating the business rationale for significant, unusual transactions.<sup>10</sup> Also, if the auditor performs walkthroughs during the audit of internal control,<sup>11</sup> he or she could obtain information about potential management override by asking employees about their knowledge of override. Also, the auditor might identify indications of management override when evaluating the results of tests of controls or other audit procedures.

If the auditor identifies indications of management override of controls, he or she should take such indications into account when evaluating the risk of override and the effectiveness of mitigating actions.<sup>12</sup>

#### **Example 3-1—Audit Committee Oversight**

**Scenario:** The audit committee of a small utility company discusses in executive session at least annually its assessment of the risks of management override of internal control, including motivations for management override and how those activities could be concealed. The audit committee performs the following procedures to address the risk of management override: (a) reviews the reasonableness of management's assumptions and judgments used to develop significant estimates; and (b) reviews the functioning of the company's whistleblower process and related reports, and from time to time, inquires of managers not directly responsible for financial reporting (including personnel in sales, procurement, and human resources, among others), obtaining information regarding concerns about ethics or indications of management override of internal controls.<sup>13</sup>

**Audit approach:** In this situation, the auditor can draw upon several sources of evidence to evaluate the audit committee's oversight. The auditor might attend selected meetings of the audit committee where the risks of override and whistleblower programs are discussed or review minutes of meetings where those matters are discussed. In connection with its inquiries of the audit committee about the risk of fraud, as required by AU sec. 316, the auditor can discuss matters relating to the risk of override, including how the audit committee assesses the risk of management override, what information, if any, the audit committee has obtained about possible management override, and how the audit committee's concerns about the risk of management override have been addressed. This information can inform the auditor's consideration of the risk of management override and the testing of mitigating controls.

<sup>10</sup> See AU sec. 316.57–.66.

<sup>11</sup> Auditing Standard No. 5, paragraph 34, sets forth the objectives that should be achieved to further understand likely sources of misstatement and as part of selecting controls to test. The standard states that performing walkthroughs will frequently be the most effective way to achieve the objectives in paragraph 34. Paragraphs 37–38 of Auditing Standard No. 5 provide direction on walkthroughs.

<sup>12</sup> See Auditing Standard No. 5, paragraph 15.

<sup>13</sup> Adapted from the COSO Small Companies Guidance, Volume II: Guidance, page 26.

## Chapter 4

### Evaluating Segregation of Duties and Alternative Controls

Segregation of duties refers to dividing incompatible functions among different people to reduce the risk that a potential material misstatement of the financial statements would occur without being prevented or detected. Assigning different people responsibility for authorizing transactions, recording transactions, reconciling information, and maintaining custody of assets reduces the opportunity for any one employee to conceal errors or perpetrate fraud in the normal course of his or her duties.<sup>1</sup>

When a person performs two or more incompatible duties, the effectiveness of some controls might be impaired. For example, reconciliation procedures may not effectively meet the control objectives if they are performed by someone who also has responsibilities for transaction recording or asset custody.

#### *Smaller, Less Complex Companies' Approach to Segregation of Duties*

By their nature, smaller, less complex companies have fewer employees, which limits their opportunities to implement segregation of duties. Due to these personnel restrictions, smaller, less complex companies might approach the control objectives relevant to segregation of duties in a different manner from larger, more complex companies. Despite personnel limitations, some smaller, less complex companies might still divide incompatible functions by using the services of external parties. Other smaller, less complex companies might implement alternative controls intended to achieve the same objectives as segregation of duties for certain processes.

This chapter discusses the auditor's evaluation of the company's approach to achieving the objectives of segregation of duties at a smaller, less complex company.

### Audit Strategy Considerations

It is generally beneficial for the auditor and the company to identify concerns related to segregation of duties early in the audit process to allow the auditor to design procedures that effectively respond to those concerns. Also, management might have already identified, as part of its risk assessment, risks relating to inadequate segregation of duties and alternative controls that respond to those risks. Where walkthroughs are performed, those procedures can help identify matters related to segregation of duties.

When management implements an alternative control or combination of controls that address the same objectives as segregation of duties, the auditor should evaluate whether the alternative control or controls effectively meet the related control objectives.<sup>2</sup> The auditor's approach to evaluating those alternative control or controls depends on the control objectives, the nature of the controls, and the associated risks. The following sections of this chapter

---

<sup>1</sup> See the COSO Small Companies Guidance, Volume II: Guidance, page 5, for discussion of management's actions relevant to segregation of duties issues.

<sup>2</sup> See Auditing Standard No. 5, paragraph 42.

discuss how the auditor can evaluate common approaches to the objectives of segregation of duties.

### ***Use of External Resources***

Some small companies use external parties to assist with some of their financial reporting-related functions. Use of external parties also can help achieve segregation of certain incompatible duties without investing in additional full-time resources.

A company might use one or more types of external-party arrangements in meeting its control objectives. Consultants, other professionals, or temporary employees can assist companies in performing some controls or other duties. For more complex or specialized portions of internal control, such as cash receipts handling, payroll processing, or securities recordkeeping, the company might use an external party to perform an entire function.

When controls over a relevant assertion depend on the use of an external party to perform a particular function, the auditor could evaluate that function in relation to the company's other relevant controls and procedures. The audit approach used with respect to the externally performed function depends on the circumstances. For those controls that are documented or are observable by the auditor (e.g., controls performed by external professionals at the company's premises), the auditor's evaluation may be similar to what he or she could perform for the company's other controls. For some externally performed functions, the direction relating to use of service organizations may be relevant.<sup>3</sup>

### ***Management Oversight and Review***

A smaller, less complex company might address some segregation of duties matters through alternative controls involving management oversight and review activities, e.g., reviewing transactions, checking reconciliations, reviewing transaction reports, or taking periodic asset counts.<sup>4</sup> Many of those types of management activities could be entity-level controls. Chapter 2 discusses the auditor's evaluation of entity-level controls at a smaller, less complex company.<sup>5</sup> Example 4-1 below, and Example 5-1 in Chapter 5 illustrate the testing of certain types of alternative controls.

When the auditor applies a top-down approach to select the controls to test, starting at the financial statement level and evaluating entity-level controls,<sup>6</sup> the auditor might identify entity-level controls that are designed to operate at a level of precision to effectively address the risk of misstatement for one or more relevant assertions. In those cases, the auditor could select and test those entity-level controls rather than test the process controls that could be affected by inadequate segregation of duties.

---

<sup>3</sup> See Auditing Standard No. 5, paragraphs B17 – B27, for discussion of the auditor's consideration of a company's use of a service organization in an audit of internal control.

<sup>4</sup> See the COSO Small Companies Guidance, Volume II: Guidance, page 5, for examples of the types of management actions that might be used as alternatives to segregation of duties.

<sup>5</sup> As discussed in Chapter 2, controls related to the control environment and controls over the risk of management override are particularly important to the effective functioning of the controls performed by senior management. Chapter 3 discusses assessing the risk of management override and evaluating mitigating controls.

<sup>6</sup> See Auditing Standard No. 5, paragraph 21.

**Example 4-1—Alternative Controls over Inventory**

**Scenario:** A provider of office furnishings and equipment uses a locked storeroom to store certain key components. The person responsible for the components has access to both the storeroom and the related accounting records. To address the risks related to undetected loss of components, the manager responsible for purchasing performs periodic spot-checks of the components and reconciles them to the general ledger in addition to the inventory ledger. The components also are included in the company's year-end inventory count. IT access controls are implemented to prevent the person responsible for the components from entering transactions or modifying related account balances in the general ledger.<sup>7</sup>

**Audit approach:** The auditor observes the company's year-end inventory counting process. He inspects documentation for some of the periodic spot-checks and the related reconciliations. For discrepancies in the counts or reconciliations inspected, he performs inquiries and inspects the accounting records to determine whether those items were appropriately resolved. Relevant IT access controls are evaluated in connection with the evaluation of IT general controls. (See Chapter 5.)

## Chapter 5

### Auditing Information Technology Controls in a Less Complex Information Technology Environment

A company's use of information technology (IT) can have a significant effect on the audit of internal control. The IT environment is a consideration in the auditor's risk assessments, selection of controls to test, tests of controls, and other audit procedures.

This chapter discusses the auditor's evaluation of IT controls in a smaller company with a less complex IT environment. It explains how the auditor could decide which IT controls to evaluate and how the auditor could evaluate those controls. In addition, it provides an overview of the major categories of IT controls and related testing considerations for a smaller, less complex IT environment.

#### **Characteristics of Less Complex IT Environments**

In smaller companies, less complex IT environments tend to have the following characteristics:

- *Transaction processing.* Data inputs can be readily compared or reconciled to system outputs. Management tends to rely primarily on manual controls over transaction processing.
- *Software.* The company typically uses off-the-shelf packaged software without programming modification. The packaged software requires relatively little user configuration to implement.<sup>1</sup>
- *Systems configurations and security administration.* Computer systems tend to be centralized in a single location, and there are a limited number of interfaces between systems. Access to systems is typically managed by a limited number of personnel.

<sup>7</sup> Adapted from the COSO Small Companies Guidance, Volume II: Guidance, page 60.

<sup>1</sup> Significant user configuration might create additional risks that require additional controls.

- *End-user computing.* The company is relatively more dependent on spreadsheets and other user-developed applications, which are used to initiate, authorize, record, process, and report the results of business operations, and, in many instances, perform straightforward calculations using relatively simple formulas.

The complexity of the IT environment has a significant effect on the risks of misstatement and the controls implemented to address those risks. The auditor's approach in an environment with the preceding characteristics may be different from the approach in a more complex IT environment.

Some smaller, less complex companies outsource certain of their IT functions to service organizations. Auditing Standard No. 5, paragraphs B17–B27, provides direction on the auditor's consideration of a company's use of a service organization in an audit of internal control.

## Determining the Scope of the Evaluation of IT Controls

The following matters affect the scope of the auditor's evaluation of IT controls in a smaller company with a less complex IT environment—

- The risks, i.e., likely sources of misstatement, in the company's IT processes or systems relevant to financial reporting, and the controls that address those risks.<sup>2</sup>
- The reports produced by IT systems that are used by the company for performing important controls over financial reporting.
- The automated controls that the company relies on to maintain effective internal control over financial reporting.

The IT controls that are important to effective internal control over financial reporting generally relate to at least one of the preceding matters, which are discussed in more detail in the following paragraphs. IT control categories and testing procedures are discussed later in this chapter.

### ***IT-Related Risks Affecting Financial Reporting***

Paragraph .19 of AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*, lists the following types of IT-related risks that could affect the reliability of financial reporting—

- Reliance on systems or programs that are inaccurately processing data, processing inaccurate data, or both;
- Unauthorized access to data that may result in destruction of data or improper changes to data, including the recording of unauthorized or nonexistent transactions or inaccurate recording of transactions;
- Unauthorized changes to data in master files;
- Unauthorized changes to systems or programs;
- Failure to make necessary changes to systems or programs;
- Inappropriate manual intervention;
- Potential loss of data.

---

<sup>2</sup> Auditing Standard No. 5, note to paragraph 36, indicates that the identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the top-down approach used to identify significant accounts and disclosures and their relevant assertions, and the controls to test, as well as to assess risk and allocate audit effort as described by the standard.

The IT-related risks that are reasonably possible to result in material misstatement of the financial statements depend on the nature of the IT environment. In a less complex environment, the auditor could identify many of the risks by understanding the software being used and how it is installed and used by the company.

After understanding the relevant IT-related risks, the auditor should identify the controls that address those risks.<sup>3</sup> These controls could include automated controls and IT-dependent controls and the IT general controls that are important to the effective operation of the selected controls. For example, even the simplest IT environments generally rely on controls that are designed to make sure that necessary software updates are appropriately installed, access controls that are designed to prevent unauthorized changes to financial data, and other controls that address potential loss of data necessary for financial statement preparation.

As the complexity of the software or environment increases, the type and number of potential IT risks increase, which could lead the auditor to devote more attention to IT controls.

### ***IT-Dependent Controls***

Many controls that smaller, less complex companies rely on are manual controls. Some of those controls are designed to use information in reports generated by IT systems, and the effectiveness of those controls depends on the accuracy and completeness of the information in the reports. When those IT-dependent controls are selected for testing, it also may be necessary to select controls over the completeness and accuracy of the information in the reports in order to address the risk of misstatement. Example 5-1 presents an illustration involving IT-dependent controls.

### ***Other Automated Controls***

Although smaller, less complex companies tend to rely primarily on manual controls, they could rely on certain automated controls built into the packaged software to achieve some control objectives. For example, software controls can be used to maintain segregation of duties, prevent certain data input errors, or to help make sure that certain types of transactions are properly recorded. The auditor might focus some of his or her testing on these automated controls and the IT general controls that are important to the effective operation of the automated controls.<sup>4</sup>

### ***Consideration of Deficiencies in General Controls on Tests of Other Controls***

IT general controls support operation of the application controls by ensuring the proper access to, and functioning of, the company's IT systems. Deficiencies in the IT general controls may result in deficiencies in the operation of the automated or IT-dependent controls. One of the factors in the auditor's evaluation of the identified deficiencies in the IT general controls, is the interaction of an IT general control and the related automated or IT-dependent controls.<sup>5</sup>

In some situations, an automated or IT-dependent control might be effective even if deficiencies exist in IT general controls. For example, despite the presence of deficient program change controls, the auditor might directly test the related automated or IT-dependent manual control, giving consideration to the

---

<sup>3</sup> See Auditing Standard No. 5, paragraph 36.

<sup>4</sup> See Auditing Standard No. 5, paragraph 47.

<sup>5</sup> According to paragraph 65 of Auditing Standard No. 5, one of the risk factors that affects the severity of a deficiency is "The interaction or relationship of the control with other controls, including whether they are interdependent or redundant."

risk associated with the deficient change controls in his or her risk assessment and audit strategy. If the testing results were satisfactory, the auditor could conclude that the automated or IT-dependent manual controls operated effectively at that point in time e.g., as of the issuer's fiscal year end. On the other hand, deficient program change controls might result in unauthorized changes to application controls, in which case the auditor could conclude that the application controls are ineffective.

### **Example 5-1—IT-Dependent Controls**

Scenario: A company has a small finance department. For the accounting processes that have a higher risk of misstatement, senior management performs a number of business process reviews and analyses to detect misstatements in transaction processing.

The company has a small IT department that supports a packaged financial reporting system whose software code cannot be altered by the user. Since the company uses packaged software, and there have been no changes to the system or processes in the past year, the IT general controls relevant to the audit of the internal control over financial reporting are limited to certain access controls and certain computer operation controls related to identification and correction of processing errors. Management uses several system-generated reports in the business performance reviews, but these reports are embedded in the application and programmed by the vendor and cannot be altered.

Audit Approach: The auditor determines that senior management personnel performing the business process reviews and analyses are not involved with incompatible functions or duties that impair their ability to detect misstatements. Based on the auditor's knowledge of the financial reporting system and understanding of the transaction flows affecting the relevant assertions, the auditor selects for testing certain process reviews and analyses and certain controls over the completeness and accuracy of the information in the reports used in management's reviews. The tests of controls could include, for example—

- Evaluating management's review procedures including assessing whether those controls operate at an appropriate level of precision. (See Chapter 2.)
- Evaluating how the company assures itself regarding the completeness and accuracy of the information in the reports used by management in the reviews. Matters that might be relevant to this evaluation include how the company determines that—
  - The data included in the report are accurate and complete. This evaluation might be accomplished through testing controls over the initiation, authorization, processing, and recording of the respective transactions that feed into the report.
  - The relevant computer settings established by the software user are consistent with the objectives of management's review. For example, if management's review is based on items in an exception report, the reliability of the report depends on whether the settings for reporting exceptions are appropriate.

The auditor verifies that the code in the packaged software cannot be changed by the user. The auditor also evaluates the IT general controls that are important to the effective operation of the IT-dependent controls (such as the access controls and operations controls previously described).

## Categories of IT Controls

The remaining sections of this chapter discuss major categories of IT controls and considerations for testing them in a smaller, less complex IT environment.

### *IT General Controls*

IT general controls are broad controls over general IT activities, such as security and access, computer operations, and systems development and system changes.

#### *Security and Access*

Security and access controls are controls over operating systems, critical applications, supporting databases, and networks that help ensure that access to applications and data is restricted to authorized personnel.

In a small, less complex IT environment, security administration is likely to be centralized, and policies and procedures might be documented informally. A small number of people or a single individual typically supports security administration and monitoring on a part-time basis. Controls for mitigating the risk caused by a lack of segregation of duties over operating systems, data, and applications tend to be detective controls rather than preventive. Access controls tend to be monitored informally.

Tests of security and access controls could include evaluating the general system security settings and password parameters; evaluating the process for adding, deleting, and changing security access; and evaluating the access capabilities of various types of users.

#### *Computer Operations*

Computer operations controls relate to day-to-day operations and help ensure that computer operational activities are performed as intended, processing errors are identified and corrected in a timely manner, and continuity of financial reporting data is maintained through effective data backup and recovery procedures.

A smaller, less complex IT environment might not have a formal operations function. There might not be formal policies regarding problem management or data storage and retention, and backup procedures tend to be initiated manually.

Tests of controls over computer operations could include evaluating the backup and recovery processes, reviewing the process of identifying and handling operational problems, and, if applicable, assessing control over job scheduling.

#### *Systems Development and System Changes*

Systems development and system change controls are controls over systems selection, design, implementation, and configuration changes that help ensure that new systems are appropriately developed, configured, approved, and migrated into production, and controls over changes—whether to applications, supporting databases, or operating systems—that help to ensure that those changes are properly authorized and approved, tested, and implemented. Although they might be viewed as separate categories, in less complex environments, systems development and system change procedures often are combined for ease of implementation, training, and ongoing maintenance.

A smaller, less complex IT environment typically includes a single or small number of off-the-shelf packaged applications that do not allow for modification of source code. Modifications to software are prepared by and, in some cases,

implemented by, the software vendor in the form of updates or patches or via a network connection between the vendor and the organization. Typically, a small number of individuals or a single individual (employees or consultants) support all development and production activities.

Examples of possible tests of controls over systems development and system changes include examining the processes for selecting, acquiring, and installing new software; evaluating the process for implementing software upgrades or patches; determining whether upgrades and patches are authorized and implemented on a timely basis; and assessing the process for testing new applications and updates.

### ***Application Controls***

Application controls are automated or IT-dependent controls intended to help ensure that transactions are properly initiated, authorized, recorded, processed, and reported. For example, in a three-way match process, received vendor invoices are entered into the system, which matches them automatically to the purchase order and goods receipt based on the document reference numbers, price, and quantity. The system's simultaneous matching of the information within the three documents upon their entry to authorize a payment to the vendor is an automated application control. Management's review and reconciliation of an exception report generated by the system is an example of an IT-dependent manual control.<sup>6</sup>

The general nature of application controls tends to be similar in most IT environments, although in less complex environments, the controls tend to be manual and detective rather than automated and preventive. The testing procedures also could be similar. In most IT environments, the auditor could focus on error correction procedures over inputting, authorizing, recording, processing, and reporting of transactions when evaluating application controls. However, in less complex IT environments there might be fewer financial applications affecting relevant assertions and fewer application controls within those applications.

Regardless of the complexity of the IT environment, the audit plan for testing application controls could include a combination of inquiry, observation, document inspection, and re-performance of the controls. Efficiencies can be achieved through altering the nature, timing, and extent of testing procedures performed related to automated and IT-dependent application controls if IT general controls are designed and operating effectively. In some situations, benchmarking of certain automated controls might be an appropriate audit strategy.<sup>7</sup>

### ***End-User Computing Controls***

End-user computing refers to a variety of user-based computer applications, including spreadsheets, databases, ad-hoc queries, stand-alone desktop applications, and other user-based applications. These applications might be used as the basis for making journal entries or preparing other financial statement information. End-user computing is especially prevalent in smaller, less complex companies.

End-user computing controls are controls over spreadsheets and other user-developed applications that help ensure that such applications are adequately documented, secured, backed up, and reviewed regularly for process integrity.

---

<sup>6</sup> See Example 5-1 for an illustration of how those types of controls might be tested in a small, less complex IT environment.

<sup>7</sup> Auditing Standard No. 5, paragraphs B28–B33, discuss benchmarking of automated controls.

Enduser computing controls include general and application controls over user-developed spreadsheets and applications.

Tests of controls over end-user computing could include assessing access controls to prevent unauthorized access; testing of controls over spreadsheet formulas or logic of queries and scripts; testing of controls over the completeness and accuracy of information reported by the end-user computing applications; and reviewing the procedures for backing up the applications and data.

## Chapter 6

### Considering Financial Reporting Competencies and Their Effects on Internal Control

To maintain effective internal control over financial reporting, a company needs to retain individuals who are competent in financial reporting and related oversight roles.<sup>1</sup> Smaller, less complex companies can face challenges in recruiting and retaining individuals with sufficient experience and skill in accounting and financial reporting. Also, resource limitations might prevent a smaller, less complex company from employing personnel who are familiar with the accounting required for unique, complex, or nonroutine transactions or relevant changes in rules, regulations, and accounting practices. Smaller, less complex companies might address their needs for financial reporting competencies through means other than internal staffing, such as engaging outside professionals.

This chapter discusses the auditor's consideration of financial reporting competencies at a smaller, less complex company, including situations in which a smaller, less complex company enlists outside assistance in financial reporting matters.

### Understanding and Evaluating a Company's Financial Reporting Competencies

The evaluation of competence is one aspect of evaluating the control environment and the operating effectiveness of certain controls. For example, when evaluating entity-level controls, such as risk assessment and the period-end financial reporting process, the auditor could obtain information about whether—

- Management identifies the relevant financial reporting issues on a timely basis (e.g., issues arising from new transactions or lines of business or changes to accounting standards); and
- Management has the competence to ensure that events and transactions are properly accounted for and that financial statements and related disclosures are presented in conformity with generally accepted accounting principles ("GAAP").

For recurring clients, the auditor's experience in prior audit engagements can be a source of information regarding management's financial reporting competencies. The auditor could be aware of specific accounts or disclosures that have caused problems in prior engagements, or of management's response to past changes in accounting pronouncements. These experiences can inform the auditor about management's financial reporting competencies, including

---

<sup>1</sup> See e.g., Principle 5 of the COSO Small Companies Guidance.

whether and how management identifies and responds to financial reporting risks. The procedures performed to evaluate the period-end financial reporting process also could be valuable to the evaluation of financial reporting competency.

The auditor's inquiries and observations pertaining to the company's overall commitment to competence, which is part of the evaluation of the control environment, also can inform the auditor's assessment of financial competency. The auditor can consider whether and how the company and management—

- Establish and agree on the knowledge, skills and abilities needed to carry out the required responsibilities prior to hiring individuals for key financial reporting positions,
- Train employees involved in financial reporting processes and provide them with the appropriate tools and resources to perform their responsibilities, and
- Periodically review and evaluate employees relative to their assigned roles, including whether the audit committee (or board of directors) evaluates the competencies of individuals in key financial reporting roles, such as the chief executive and financial reporting officers.

Auditors may keep in mind that company financial reporting personnel do not need to be experts in all areas of accounting and financial reporting but need to be sufficiently competent with respect to the accounting for current and anticipated transactions and changes in accounting standards to identify and address the risks of misstatement.

## Supplementing Competencies with Assistance from Outside Professionals

Some smaller, less complex companies might not have personnel on staff with experience in certain complex accounting matters that are encountered. In these circumstances, a company might engage outside professionals to provide the necessary expertise (i.e., an individual or firm possessing special skill or knowledge in the particular accounting and financial reporting matter).<sup>2</sup> When assessing the competence of the personnel responsible for the company's financial reporting and associated controls, the auditor may consider the combined competence of company personnel and other parties that assist with functions related to financial reporting.

When an outside professional provides accounting assistance related to relevant assertions or the period-end financial reporting process, the auditor might begin by considering how the company assures itself that events and transactions are properly accounted for and that financial statements and the related disclosures are free of material misstatement. The company might have differing levels of involvement with outside professionals, depending upon the nature of the services provided. The auditor could evaluate management's oversight to determine whether the company, with the assistance of the professional, is

---

<sup>2</sup> This section of the chapter does not pertain to management's use of a service organization that supports routine accounting functions, such as processing payroll transactions or supporting the company's information technology systems. It also does not apply to management's use of specialists in matters outside of accounting and financial reporting, such as actuaries, engineers, environmental consultants, and geologists. See Auditing Standard No. 5, AU sec. 324, *Service Organizations*, and AU sec. 336, *Using the Work of Specialists*, for direction on these matters.

adequately identifying and responding to risks.<sup>3</sup> In performing this evaluation, the auditor can consider—

- Whether management recognizes situations for which additional expertise is needed to adequately identify and address risks of misstatement.
- How management determines that the outside professionals possess the necessary qualifications. For example, management might obtain information from the professional about his or her skills and competence.
- Whom management designates to oversee the services and whether they possess the suitable skill, knowledge, or experience to sufficiently oversee the outside professionals. (Note: Management is not required to possess the expertise to perform or re-perform the services.)
- Whether management has established controls over the work of the outside accounting professional and over the completeness and accuracy of the information provided to the outside professional. For example, in addition to reviewing the work of the outside professional, management might inquire about the professional's monitoring and review procedures related to the work performed by the professional for the company.
- How management participates in matters involving judgment, for example, whether management understands and makes significant assumptions and judgments underlying accounting calculations prepared by an outside professional.
- How management evaluates the adequacy and the results of the services performed, including the form and content of the outside accounting professional's findings, and accepts responsibility for the results of the services.

In gathering evidence to support this evaluation, the auditor could hold discussions with both management and the outside professional, perhaps while obtaining an understanding of the period-end financial reporting process. The auditor also could inspect documentation that provides support for management's oversight of the outside professional.<sup>4</sup>

#### **Example 6-1—Assistance from Outside Professionals**

**Scenario:** A small developer of analytical software products does not have an individual with strong tax accounting expertise on staff. The company retains a thirdparty accounting firm (not its auditor) to prepare the income tax provision. Management obtains information from the third-party accounting firm about the training and experience of the staff assigned to do this work. The company's CFO, who has basic knowledge of tax accounting, reviews and discusses the tax provision with the accounting firm that prepared it, and compares the provision to CFO's expectations based on past periods, budgets, and knowledge of business operations.<sup>5</sup>

*(continued)*

<sup>3</sup> If the audit committee has oversight over the use of service providers, the auditor may also consider the nature and extent of that oversight.

<sup>4</sup> Refer to Chapter 7 for discussion of how the auditor can obtain sufficient evidence when less formal documentation is available.

<sup>5</sup> Adapted from the COSO Small Companies Guidance, Volume II: Guidance, page 34.

**Audit Approach:** The auditor observes that management identifies risks to financial reporting related to accounting for income taxes and engages an outside professional to provide technical assistance. Further, the auditor evaluates management's oversight to determine whether the company, with the assistance of the professional, is adequately identifying and responding to risks of material misstatement regarding the income tax provision. As part of this evaluation, the auditor inspects the engagement letter, other correspondence between the company and the third-party firm, and the tax schedules and other information produced by the third-party firm. The auditor also evaluates the controls over the completeness and accuracy of the information furnished by the company to the third-party firm. The auditor also assesses whether the third-party accounting firm has the proper skills and staff assigned to do this work.

## Chapter 7

### Obtaining Sufficient Competent Evidence When the Company Has Less Formal Documentation

Implementing and assessing effective internal control over financial reporting by a company's management generally involves some level of documentation. A smaller, less complex company often has different needs for documentation, and the nature of that documentation might differ from that of a larger or more complex organization. Differences in the form and extent of control documentation of smaller, less complex companies generally relate to their operating characteristics, particularly to fewer resources and more direct interaction of senior management with controls.<sup>1</sup>

The nature and extent of a company's documentation of internal control over financial reporting can have a significant effect on the auditor's strategy regarding the audit of internal control. This chapter discusses how the auditor could adapt his or her audit strategy to obtain sufficient competent evidence in an environment with less formal documentation.

### Audit Strategy Considerations

The auditor must plan and perform the audit to obtain competent evidence that is sufficient to obtain reasonable assurance about whether material weaknesses exist as of the date specified in management's assessment.<sup>2</sup> The auditor can obtain this evidence through direct testing or using the work of others, as appropriate. Procedures the auditor could perform to test operating effectiveness include a mix of inquiry of appropriate personnel, observation of the company's operations, inspection of relevant documentation, and re-performance of the control. The nature, timing, and extent of tests of controls depend on the risk associated with the controls. As the risk associated with the control being tested increases, the evidence that the auditor should obtain also increases.<sup>3</sup>

PCAOB standards establish the documentation requirements for these audits. Those documentation requirements apply only to the auditor.

---

<sup>1</sup> The COSO Small Companies Guidance, Volume II: Guidance, pages 12–13, discusses circumstances that affect the need for documentation of internal control.

<sup>2</sup> See Auditing Standard No. 5, paragraph 3.

<sup>3</sup> Auditing Standard No. 5, paragraph 46. Paragraph 47 discusses the factors that affect the risk associated with a control.

### ***Documentation of Processes and Controls***

Larger companies with complex operations are more likely to have formal documentation of their processes and controls, such as in-depth policy manuals and systems flowcharts of processes. In a smaller, less complex company, documentation of processes and controls might take a variety of forms. For example, information about processes and controls might be found in other documentation, such as memoranda, questionnaires, software manuals, source documents, or job descriptions. This documentation might not cover every process and might not be in a consistent form across all processes.

Where walkthroughs are performed, auditors could use those procedures to obtain an understanding of the flow of transactions affecting relevant assertions and to assess the design effectiveness of certain controls, even when documentation is limited.

### ***Documentation of Operating Effectiveness of Controls***

In a smaller, less complex business, the nature and extent of documentation of the operating effectiveness of controls may vary. Also, evidence of a control's operation might exist only for a limited period.

The type and availability of evidence regarding controls to be tested can affect the auditor's testing strategy.<sup>4</sup> In particular, company documentation can influence the nature and timing of audit procedures performed. For example, the nature of some audit procedures e.g., document inspection, requires documentation. Also, the timing of some tests of controls might be determined, in part, based on when the evidence of the controls' operation is available.

Obtaining sufficient evidence about the operating effectiveness of controls can be challenging when there is limited documentation of their operation. In those situations, inquiry combined with other procedures, such as observation of activities, inspection of documentation produced or used by the controls,<sup>5</sup> and reperformance of certain controls, might provide sufficient evidence about whether a control is effective.

As a practical matter, the auditor also needs to obtain documentation of the work of others to use that work to reduce the auditor's own testing.<sup>6</sup>

### ***Other Considerations***

When auditing a smaller, less complex company with limited documentation, it generally is helpful to obtain an understanding of the nature and availability of audit evidence relating to internal control over financial reporting as early in the audit process as practical. This understanding ordinarily includes consideration of existing documentation regarding—

- Company processes and procedures, particularly for transactions affecting relevant assertions and controls that the auditor is likely to select for testing
- Monitoring of other controls performed by management or others

---

<sup>4</sup> As discussed in Chapter 8, a pervasive lack of documentation and other audit evidence could prevent the auditor from being able to obtain sufficient evidence to support an opinion on internal control.

<sup>5</sup> Examples of documentation that might be produced or used by controls include exception reports, memoranda, or documented communications between management and employees.

<sup>6</sup> The auditor's use of the work of others also is dependent on such factors as the nature of the subject matter and the competence and objectivity of the individuals performing the work. See Auditing Standard No. 5, paragraphs 16–19.

The auditor can then identify gaps in important documentation so alternatives can be explored. For example, if the CFO prepares contemporaneous documentation of certain controls and retains it for a limited period, the auditor might arrange to obtain access to that documentation for testing purposes. Early conversations with management about these matters can help provide auditors with the most flexibility in developing efficient and effective audit strategies.

If the company does not have formal documentation of its processes and controls, the auditor may consider whether other documentation is available before drafting formal descriptions of processes and controls for the audit documentation. A practical way to identify such other documentation is to look at the information that the company uses to run the business.

As discussed in Chapter 1, one of the practical considerations when selecting controls to test and determining the nature, timing, and extent of testing is the nature and availability of evidence of operating effectiveness. For example, if two or more controls adequately address the risk of misstatement for a relevant assertion, the auditor could select the control for which evidence of operating effectiveness can be obtained more readily.

#### **Example 7-1—Obtaining Information about Processes and Controls**

Scenario: A small manufacturer in the electronics industry periodically makes large purchases of specialty components. The company has established procedures covering the initiation, authorization, and recording of these purchases, although the company has not developed an in-depth policies and procedures manual. The company's procedures provide for completion of a form that describes the product requirements and payment terms and indicates how to record the purchase. The forms are reviewed and approved by the CEO and CFO before the purchase is executed. When the goods are received, they are matched with the purchase form and accounted for as indicated on the form.

Audit Approach: The auditor inspects a copy of a completed purchase form and related documentation to obtain an initial understanding of the flow of the purchase transactions. She follows up with inquiries of personnel involved in the process of authorizing, sending, and accounting for the purchases and traces the recording of the transactions through the accounting system. She summarizes her understanding of the transaction flow in a memo and includes a copy of a purchase form in the workpapers. The auditor uses her understanding of the purchase process to plan and perform tests of selected controls over the purchases.

#### **Example 7-2—Obtaining Evidence about Operating Effectiveness of Controls**

Scenario: One control that management relies on with respect to the period-end financial reporting process is the CFO's review of the quarterly financial statements prepared by the controller. The CFO does not create separate documentation of her review but does retain copies of the financial statements with her handwritten notes and other markings for reference purposes. She sends her review comments to the controller via email, and the company's email system retains the email messages. If errors are identified, the controller prepares adjusting entries, which are approved by the CFO.

*(continued)*

Each quarter, the CFO and controller prepare and present to the audit committee a financial package, explaining significant trends in the company's financial condition, operating results, and cash flows, as well as comparisons to budgeted amounts and comparable prior periods.

**Audit Approach:** The auditor can draw upon multiple sources of audit evidence to evaluate whether the control is in place and operating effectively to detect errors in the period-end financial reporting process. He can make inquiries of the CFO to obtain an understanding of the frequency, nature, timing, and level of precision<sup>7</sup> of the CFO's review. He can corroborate this understanding and evaluate the operating effectiveness of the review by, for selected items, inspecting copies of the reviewed drafts of the financial statements, reviewing comments sent to the controller, and reviewing adjusting entries and supporting information. He can also talk to other employees to find out if the CFO contacts them to ask questions, what types of questions are asked, and how those questions are resolved. In addition, he can read the information in the financial package delivered to the audit committee and might observe the CFO's financial review with the audit committee, if the auditor attends the meetings in connection with the audit.

## Chapter 8

### Auditing Smaller, Less Complex Companies with Pervasive Control Deficiencies

In some audits of internal control, auditors might encounter companies with numerous or pervasive deficiencies in internal control over financial reporting. Smaller, less complex companies can be particularly affected by ineffective entity-level controls, as these companies typically have fewer employees and fewer process-level controls.

Auditing internal control over financial reporting in companies with pervasive deficiencies can be challenging. The auditor's strategy is influenced by the nature of the control deficiencies and factors such as the effect of the deficiencies on other controls and the availability of audit evidence. Although the facts and circumstances can vary significantly, the auditor might not be able to express an unqualified opinion on the effectiveness of internal control over financial reporting in some of these situations.<sup>1</sup>

This chapter discusses how auditors could design their audit strategies in response to situations involving pervasive deficiencies.

### Pervasive Deficiencies that Result in Material Weaknesses

The auditor's objective in an audit of internal control is to express an opinion on the effectiveness of the company's internal control over financial reporting. Because a company's internal control over financial reporting cannot be

---

<sup>7</sup> Level of precision is discussed in more detail in Chapter 2.

<sup>1</sup> To enable the auditor to express an unqualified opinion on internal control, the company would need to remediate all of its material weaknesses early enough before year-end to enable the auditor to obtain sufficient competent audit evidence about the remediated controls to support an unqualified opinion on internal control over financial reporting.

considered effective if one or more material weaknesses exist, to form a basis for expressing an opinion, the auditor must plan and perform the audit to obtain competent evidence that is sufficient to obtain reasonable assurance about whether material weaknesses exist as of the date specified in management's assessment.<sup>2</sup>

Ordinarily, the auditor's strategy should include tests of controls as necessary to support a conclusion that internal control over financial reporting is effective.<sup>3</sup> However, the auditor's existing knowledge of the company or information obtained early in the audit process might lead an auditor to a preliminary judgment that internal control over financial reporting is likely to be ineffective because of the presence of pervasive control deficiencies that result in one or more material weaknesses. In those situations, the auditor's strategy for testing selected controls may depend on the effect of the pervasive deficiencies on other controls, as discussed in the following paragraphs.

### ***Considering the Effect of Pervasive Control Deficiencies on Other Controls***

When the auditor encounters pervasive control deficiencies, he or she might decide that those deficiencies also impair the effectiveness of other controls by rendering their design ineffective or by keeping them from operating effectively. For example, certain deficient entity-level controls, such as the following, might impair the effectiveness of other controls over relevant assertions:

- *Ineffective control environment (considering the risk profile of the company).* An ineffective control environment can increase the risk associated with a control by rendering its design ineffective or preventing it from operating effectively. Also, certain controls in the control environment, such as maintaining financial reporting competencies, might be necessary for the effective functioning of other controls.
- *Ineffective IT controls or information systems.* Ineffective information systems could impair the effectiveness of certain IT-dependent controls (e.g., monitoring controls that rely on the reports produced by an ineffective information system).
- *Pervasive lack of segregation of duties without appropriate alternative controls.* When a person performs two or more incompatible duties, the design of some controls might be ineffective without appropriate alternative controls.
- *Frequent management override of controls.* A control that is frequently overridden is less likely to operate effectively. The effectiveness of controls that depend on an overridden control also might be impaired.

The top-down audit approach can help the auditor identify pervasive control deficiencies earlier in the audit process and take them into account in determining the audit approach for testing other controls.

The auditor's preliminary judgments regarding the effect of the pervasive control deficiencies can help determine the approach to gathering audit evidence. When the pervasive control deficiencies adversely affect other controls, the auditor may modify the planned testing of the other controls because less evidence generally is needed to support a conclusion that controls are not effective than a conclusion that controls are effective.<sup>4</sup> For example, if a control is likely to

---

<sup>2</sup> See Auditing Standard No. 5, paragraph 3.

<sup>3</sup> See Auditing Standard No. 5, paragraph 39.

<sup>4</sup> See Auditing Standard No. 5, paragraphs 46 and 47.

be impaired because of another control's deficiency, the inquiries and observations during walkthroughs might provide enough evidence to conclude that the design of a control is deficient and thus could not prevent or detect misstatements. In some cases, limited testing of a control might be necessary (e.g., if a walkthrough has not been performed) to conclude that a control is not operating effectively. Also, detected misstatements from the audit of the financial statements could indicate that a control is not effective.

Some companies might have pervasive control deficiencies and still have effective controls over some relevant assertions. For the selected controls that are likely to be effective, the auditor should test those controls to obtain the evidence necessary to support a conclusion about their operating effectiveness.<sup>5</sup> The pervasive control deficiencies may affect the risk associated with the controls selected for testing, and, in turn, the amount of audit evidence needed. Example 8-1 discusses the effect of pervasive control deficiencies on tests of controls.

### Scope Limitation Due to Lack of Sufficient Audit Evidence

Pervasive deficiencies in a company's internal control over financial reporting do not necessarily prevent an auditor from obtaining sufficient audit evidence to express an opinion on internal control over financial reporting. If the auditor determines that sufficient evidence is available to express an opinion, the auditor should perform tests of those controls that are important to the auditor's conclusion about the effectiveness of the company's internal control over financial reporting and evaluate the severity of the identified control deficiencies.<sup>6</sup>

In some audits of companies with pervasive control deficiencies, the auditor could become aware that there is minimal available evidence about the design and operation of internal control over financial reporting. Such situations could lead the auditor to conclude that the lack of available evidence constitutes a scope limitation that will prevent him or her from obtaining reasonable assurance necessary to express an opinion on internal control over financial reporting, including identification of existing material weaknesses.

The auditor may issue a report disclaiming an opinion on internal control over financial reporting as soon as the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an opinion.<sup>7</sup> The auditor is not required to perform any additional work before issuing a disclaimer when the auditor concludes that he or she will not be able to obtain sufficient evidence to express an opinion. The auditor's report should disclaim an opinion on internal control and disclose the substantive reasons for the disclaimer. The report also should disclose the material weaknesses of which the auditor is aware.<sup>8</sup>

Even if the auditor lacks sufficient evidence to express an opinion on internal control, the auditor might still be able to obtain sufficient evidence to perform an audit of the financial statements. The auditor should, however, take into account the control deficiencies and issues encountered in the audit of internal control in assessing control risk and determining the nature, timing, and extent of tests of accounts and disclosures in the audit of the financial statements.<sup>9</sup>

---

<sup>5</sup> See Auditing Standard No. 5, paragraph 39.

<sup>6</sup> See Auditing Standard No. 5, paragraphs 22, 39, and 62.

<sup>7</sup> See Auditing Standard No. 5, paragraph C6.

<sup>8</sup> See Auditing Standard No. 5, paragraph C5, for the specific requirements regarding the disclosures of the material weaknesses.

<sup>9</sup> See Auditing Standard No. 5, paragraph B5.

Example 8-2 illustrates a situation in which the auditor is unable to obtain sufficient evidence to express an opinion on internal control over financial reporting.

### **Example 8-1—Pervasive Deficiencies and Testing of Controls**

**Scenario:** A small company has a two-person staff that handles all of the accounting and financial reporting duties. The staff is competent in routine financial reporting matters but has difficulty with more complex accounting matters, such as valuation of stock-based compensation and income tax calculations and disclosures. The lack of competencies in these areas has resulted in adjustments based on the auditor's identification of material misstatements.<sup>10</sup>

**Audit Approach:** Based on the auditor's experience with the company, she expects that controls over the valuation/allocation and disclosures related to stock-based compensation and income taxes will not be effective. For those assertions, the auditor obtains evidence about the respective controls during a walkthrough of the related process. Also, misstatements in those assertions were detected in the financial statement audit, and she observes that the controls failed to prevent or detect those misstatements. Based on this evidence, she concludes that the controls over those assertions are not effective.

With respect to routine financial reporting processes, such as cash receipts and disbursements, the auditor plans to perform tests of the selected controls to obtain enough evidence to support a conclusion that the respective controls are effective.

### **Example 8-2—Lack of Sufficient Audit Evidence**

**Scenario:** A development stage company is devoted exclusively to research and development for a new product and currently generates no revenue. The financial staff consists of a CFO and accounting clerk. The company's principal accounting records consist of a checkbook and payroll records, and the company has no documentation of policies and procedures. Most of its controls are undocumented supervisory checks by the CFO.

Late in the fourth quarter, a management dispute results in the resignation of the CFO and termination of the accounting clerk. Management hires an accountant on a temporary contract basis to prepare financial statements from the company's existing records and to help the company establish appropriate controls over its financial reporting functions. However, most of these controls were implemented near or shortly after year-end.

**Audit Approach:** As the auditor begins trying to obtain an understanding of the company's internal control over financial reporting and evaluate entity-level controls, she notes that there is minimal information available about the controls that existed at yearend. Because of the turnover in financial reporting personnel, the auditor is unable to perform inquiries, observations,

*(continued)*

---

<sup>10</sup> Chapter 6 discusses financial reporting competencies in more detail, including approaches that smaller, less complex companies might take to enhance their financial reporting competencies.

or other procedures to understand the flow of transactions and related controls in significant processes. The auditor identifies some material weaknesses, but she determines that the lack of evidence results in a scope limitation because she cannot obtain reasonable assurance that all of the existing material weaknesses are identified.

Accordingly, the auditor ceases further audit procedures in the audit of internal control. The auditor's report on internal control over financial reporting contains a disclaimer of opinion and disclosure of the substantive reasons for the disclaimer and the material weaknesses that she identified.

## Appendix A

### The Integrated Audit Process

Auditing Standard No. 5 indicates that the audit of internal control should be integrated with the audit of the financial statements. This means that the auditor should plan and perform the work to achieve the objectives of both audits,<sup>1</sup> which are as follows:

- *Audit of the financial statements.* To express an opinion on the fairness with which the financial statements present, in all material respects, financial position, results of operations, and its cash flows in conformity with GAAP.<sup>2</sup>
- *Audit of internal control.* To express an opinion on the effectiveness of the company's internal control over financial reporting.<sup>3</sup>

This appendix illustrates one approach for integrating the audit of internal control with the audit of the financial statements and is not intended to present all of the procedures that are required for a particular audit. Auditors must plan and perform their integrated audits to achieve the objectives of the audits and to comply with standards of the PCAOB.<sup>4</sup>

#### **Summary of the Illustrative Audit Approach**

The integrated audit process can be summarized into the following major components:

- a. Preliminary engagement procedures
- b. Audit planning
- c. Risk assessment procedures
- d. Auditor response, including tests of accounts and controls
- e. Conclusion and wrap-up

#### **Preliminary Engagement Procedures**

Preliminary engagement procedures include the auditor's engagement acceptance process and reaching an understanding with the audit committee about the terms of the engagement, including pre-approval of audit and non-audit services.

---

<sup>1</sup> See Auditing Standard No. 5, paragraphs 6 and 7.

<sup>2</sup> See paragraph .01 of AU sec. 110, *Responsibilities and Functions of the Independent Auditor*.

<sup>3</sup> See Auditing Standard No. 5, paragraph 3.

<sup>4</sup> See Auditing Standard No. 5, paragraph 6.

During the engagement acceptance process, the auditor might identify matters that could affect the risk of material misstatement of the financial statements or the risk of material weakness in internal control over financial reporting and, thus, could inform the auditor's risk assessments during the audit.

### **Audit Planning**

During audit planning, the auditor should make a preliminary judgment about materiality. The judgment about materiality is the same for both the audit of the financial statements and the audit of internal control.<sup>5</sup>

The auditor also can develop a preliminary audit strategy and audit plan based on his or her understanding of the company and its environment. The audit strategy could cover matters such as general scope and timing of the engagement. The audit strategy and plan could be refined further as the audit progresses.

### **Risk Assessment Procedures**

Risk assessment procedures are intended to help the auditor identify risks of misstatement and the controls that are in place to address those risks. When performing risk assessment procedures, the auditor should obtain an understanding of the company and its environment, including its internal control.<sup>6</sup> These procedures include walkthroughs, or other procedures, to understand the likely sources of misstatement.<sup>7</sup> It also includes performing preliminary analytical procedures and procedures to assess the risk of material misstatement due to fraud.<sup>8</sup> The auditor's risk identification and assessment should also take into account his or her knowledge about the company and its environment from other sources, such as prior audits.<sup>9</sup>

Based on the auditor's understanding gained through performing the risk assessment procedures and obtaining other evidence, the auditor should assess the identified risks.<sup>10</sup>

The auditor's risk assessments are the basis for the identification of significant accounts and disclosures and relevant assertions as well as the selection of controls to test. Relevant assertions and significant accounts and disclosures should be determined based on whether there is a reasonable possibility that they could contain misstatements that could cause the financial statements to be materially misstated.<sup>11</sup> The identification of relevant assertions and significant accounts<sup>12</sup> is the same for both the audit of internal control and the audit of the financial statements.

---

<sup>5</sup> See AU sec. 311.03, AU sec. 312.12–.33, and Auditing Standard No. 5, paragraph 20.

<sup>6</sup> See AU sec. 319.25–.61, and Auditing Standard No. 5, paragraph 9.

<sup>7</sup> See Auditing Standard No. 5, paragraphs 34–38, for discussion of the objectives of walkthroughs and direction on walkthrough procedures.

<sup>8</sup> See AU sec. 329.06–.08, and AU sec. 316.35–.45.

<sup>9</sup> See AU sec. 311.04 and .08, and AU sec. 319.59.

<sup>10</sup> See AU sec. 312.16 and .26–.33.

<sup>11</sup> See Auditing Standard No. 5, paragraphs 28–33.

<sup>12</sup> In the financial statement audit, the auditor may perform substantive auditing procedures on financial statement accounts, disclosures, and assertions that are not determined to be significant accounts and disclosures and relevant assertions. This is because his or her assessment of the risk that undetected misstatement would cause the financial statements to be materially misstated is unacceptably high (see AU sec. 312.39 for further discussion about undetected misstatement) or as a means of introducing unpredictability in the procedures performed (see AU sec. 316.50 for further discussion about predictability of auditing procedures).

Auditing Standard No. 5 states that the auditor should use a top-down approach to the audit of internal control to select the controls to test. A top-down approach begins at the financial statement level and with the auditor's understanding of the overall risks to internal control over financial reporting.<sup>13</sup> The auditor then focuses on entity-level controls and works down to significant accounts and disclosures and their relevant assertions. This approach directs the auditor's attention to accounts, disclosures, and assertions that present a reasonable possibility of material misstatement to the financial statements and related disclosures. The auditor then verifies his or her understanding of the risks in the company's processes and selects for testing those controls that sufficiently address the assessed risk of misstatement to each relevant assertion.

### ***Overall Response to Risks***

Based on the auditor's risk assessment, the auditor should evaluate the need for an overall response to the risks.<sup>14</sup> This evaluation is particularly important for pervasive risks of misstatement, which can affect many financial statement accounts, but it applies to every audit.

The overall responses could affect such aspects of the audit as—

- Assignment of staff
- Level of supervision
- Need for specialists
- Appropriateness of planned audit strategy and scope

### ***Specific Responses—Substantive Procedures and Tests of Controls***

Specific responses to risk relate to the tests of relevant assertions of significant accounts and disclosures ("substantive procedures") and the controls over those assertions. Auditing Standard No. 5 requires the auditor to obtain evidence about the controls over relevant assertions, and it states that the auditor should perform substantive procedures for all relevant assertions, regardless of the assessed level of control risk.<sup>15</sup> The auditor should determine an appropriate mix of the nature, timing, and extent of testing based on the associated risks and other factors.<sup>16</sup> The determination of the nature, timing, and extent of testing includes decisions about using the work of others to test controls in the integrated audit. As the associated risk increases, the evidence that the auditor should obtain also increases.<sup>17</sup>

The relationship between tests of controls and substantive procedures is important to the integration of the audit of internal control with the audit of financial statements. Obtaining sufficient evidence to support control risk assessments of low for purposes of the financial statement audit ordinarily allows the auditor to reduce the amount of substantive procedures that otherwise would have been necessary to opine on the financial statements. On the other hand, deficiencies in the controls that the auditor planned to rely on could lead the auditor to expand his or her substantive procedures.

---

<sup>13</sup> See Auditing Standard No. 5, paragraph 21.

<sup>14</sup> See AU sec. 312.16.

<sup>15</sup> See Auditing Standard No. 5, paragraph B7.

<sup>16</sup> For example, in the audit of internal control, walkthroughs might provide sufficient evidence of operating effectiveness for some selected controls, depending on the risk associated with the control being tested, the specific procedures performed as part of the walkthrough, and the results of those procedures.

<sup>17</sup> See Auditing Standard No. 5, paragraphs 46 and 49.

As discussed in Chapter 1, the results of substantive tests of accounts and disclosures do not provide sufficient evidence for the auditor to conclude on the operating effectiveness of controls. However, the results of substantive tests could affect the auditor's risk assessments associated with the controls. For example, if the results of substantive procedures indicate misstatements in an assertion, evaluating the nature, cause, and significance of the misstatements could lead the auditor to identify a deficiency in the related controls or to modify his or her risk assessments. When no misstatements are detected from substantive procedures for an assertion, the auditor should take that into account along with the factors discussed in paragraphs 46–49 of Auditing Standard No. 5 in considering the risk associated with the related controls, which affects the nature, timing, and extent of the testing necessary to conclude on the effectiveness of the controls.<sup>18</sup>

### **Conclusion and Wrap-up**

In the conclusion and wrap-up phase, the auditor should evaluate the results of his or her testing, particularly for identified misstatements and control deficiencies. The auditor should evaluate the misstatements and control deficiencies, individually and in the aggregate. In evaluating the effects of misstatements, the auditor should include both quantitative and qualitative considerations.<sup>19</sup>

Based on the evaluation of the testing results, the auditor should form conclusions about whether—

- The financial statements are materially misstated,
- A material weakness in internal control exists, and
- He or she has obtained sufficient competent evidence to support those conclusions.<sup>20</sup>

The results of each portion of the integrated audit inform the auditor's conclusions about the other portion. For example, the auditor's conclusions about the effectiveness of controls should be based on all of the pertinent information about control effectiveness,<sup>21</sup> including—

- Tests of controls for the audit of internal control,
- Tests of controls for the audit of the financial statements,
- Use of the work of others in either audit, and
- Evidence about control deficiencies resulting from identified misstatements or other sources (e.g., control deficiencies identified by management).

This information could affect the conclusions about control effectiveness as of year-end as well as control risk assessments for the financial statement audit. In some situations, the evaluation of audit results also could lead the auditor to re-evaluate his or her assessments of risk and the sufficiency of the audit procedures performed.

The conclusion and wrap-up phase of the audit also includes completion of the review of the audit and resolution of reviewers' comments.

---

<sup>18</sup> See Auditing Standard No. 5, paragraph B9. This does not mean that the auditor is required to perform substantive procedures for a relevant assertion before performing tests of controls.

<sup>19</sup> See AU sec. 312.34, and Auditing Standard No. 5, paragraphs 62 and B8.

<sup>20</sup> See paragraphs .34–.41 of AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, paragraph .01 of AU sec. 326, *Evidential Matter*, and Auditing Standard No. 5, paragraph 3.

<sup>21</sup> See Auditing Standard No. 5, paragraph 71.

## Appendix B

### Discussion of Comments Received on the Preliminary Staff Views

On October 17, 2007, the staff of the Board's Office of the Chief Auditor published for comment *Preliminary Staff Views – An Audit of Internal Control That Is Integrated with An Audit of Financial Statements: Guidance for Auditors of Smaller Public Companies* ("the preliminary guidance"). During the public comment period, 23 comment letters were received from investors, auditors, issuers, and others.

The majority of commenters were supportive of the preliminary guidance. They noted that it appropriately considered the environment of smaller, less complex companies and provided useful examples that will help in designing and executing strategies for the audits of these companies in accordance with the provisions of Auditing Standard No. 5.

The commenters offered suggestions to improve the preliminary guidance. After a careful analysis, certain changes have been made to this publication to further clarify or enhance the guidance. This Appendix describes significant comments received on the preliminary guidance and the related changes that the staff made in this publication.

#### General Comments

The introduction to the preliminary guidance stated that it did not establish new requirements for auditors. However, some commenters suggested reinforcing this statement by providing references to the Board's standards that establish mandatory or presumptively mandatory responsibilities to which this publication refers. As suggested by commenters, this publication includes additional references to the Board's standards.

Several commenters suggested that some or all of the preliminary guidance could be applicable to audits of internal control of larger public companies. As noted in the introduction, this publication was developed specifically to describe how auditors may apply the provisions of Auditing Standard No. 5 to audits of smaller, less complex companies. If auditors of larger public companies find this guidance useful in applying the scalability principles of Auditing Standard No. 5, they may, of course, refer to it. As noted earlier, this guidance does not establish requirements for the audit of internal control. Rather, all audits of internal control—regardless of the size of the company—must comply with the requirements of Auditing Standard No. 5.

#### Chapter 1 – Scaling the Audit for Smaller, Less Complex Companies

The preliminary guidance said that "[i]f none of the controls that are designed to address a risk for a relevant assertion is likely to be effective, the auditor can take that into account in determining the testing of that control." According to one commenter, this statement could suggest that, under such circumstances, the auditor still has an obligation to test a particular control. This sentence has been modified to say that, if none of the controls over an assertion "is likely to be effective, the auditor can take that into account in determining the evidence needed to support a conclusion about the effectiveness of controls for this assertion." Paragraph 47 of Auditing Standard No. 5 indicates that less evidence generally is needed to support a conclusion that controls are not effective. Chapter 8 discusses how this principle may be applied when a company has pervasive control deficiencies.

Several commenters asked the staff to clarify the example in the section entitled Tests of Operating Effectiveness of Controls, in which the auditor was able to use the results of tests of controls to reduce the substantive work on accounts receivable but not revenue. In the commenters' view, it can be difficult to distinguish controls over accounts receivable—specifically, over billing and cash receipt processing—from controls over revenue recognition. In response, the reference to revenue recognition in this example has been replaced with a reference to the allowance for doubtful accounts, the controls over which are more easily distinguishable from controls over billing and cash receipt processing.

Additionally, as suggested by the commenters, the discussion leading to this example has been modified to emphasize that the auditor's decisions about relying on controls, which were illustrated by the example, were related to the audit of the financial statements rather than the audit of internal control. The example is not meant to suggest that the auditor should avoid testing controls in high-risk areas. Rather, the example assumes that the auditor is following the requirements and direction in AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*, in designing his or her audit strategy.

Another commenter asked for clarification about whether an auditor would be able to issue an unqualified opinion on the effectiveness of internal control over financial reporting when the auditor assessed control risk at the maximum for one or more relevant assertions in the audit of financial statements. A new paragraph that discusses the relationship between assessing control risk at the maximum and expressing an opinion on internal control over financial reporting has been added to the section entitled Tests of Operating Effectiveness of Controls.

In the last paragraph of Chapter 1, one commenter asked to clarify what impact the absence of misstatements detected by substantive procedures has on the testing of controls. In response, this publication explains that the absence of misstatements is only one of a number of factors that informs the auditor's risk assessment in determining the testing necessary to conclude on the effectiveness of a control. Additionally, as recommended by another commenter, the wording in this paragraph has been revised to better reflect paragraph B9 of Auditing Standard No. 5, to which it refers.

One commenter suggested adding guidance to address situations in which controls changed during the period. The purpose of Chapter 1 is to discuss the principles in Auditing Standard No. 5 for scaling the audit and integrating tests of controls in audits of smaller, less complex public companies. Auditing Standard No. 5 and AU sec. 319, address the auditor's responsibilities for situations in which controls change during the year.

## **Chapter 2—Evaluating Entity-Level Controls**

Comments on Chapter 2 related primarily to the guidance on the precision of entity-level controls.

Some commenters were concerned that the list of factors that the auditor might consider in judging the level of precision of an entity-level control, in the section entitled Assessing the Precision of Entity-Level Controls, will be used as a checklist by auditors. Other commenters suggested expanding the list. Consistent with the preliminary guidance, this publication uses the phrase "factors include" to indicate that the list of factors is not all-inclusive, and the list of factors is not a list of criteria that the auditor should determine are met for every entity-level control. Not all factors are necessarily applicable to every control (e.g., some are relevant only to detective controls), and some factors might be more important than others for a given control. Examples 2-1 and 2-2 have been

modified to better explain which factors the auditor in those examples took into account in evaluating the precision of the company's entity-level controls.

One commenter suggested expanding the guidance in Chapter 2 by discussing auditing considerations related to evaluating design and operating effectiveness of company's entity-level risk assessment component. The risk assessment component of internal control involves identification and analysis of the risks of material misstatement<sup>22</sup> and thus, by itself, would not necessarily prevent or detect misstatements. Chapter 2 focuses on those entity-level controls that are more likely to operate at a sufficient level of precision to result in a reduction of testing of processlevel controls in an audit of a smaller, less complex company.

Additionally, another commenter asked for clarification regarding when the auditor can obtain a substantial amount of evidence about the effectiveness of internal control over financial reporting through the evaluation of entity-level controls. In this publication, the discussion following the bullet points at the beginning of Chapter 2, to which the commenter referred, has been revised to state more clearly that the auditor can obtain such evidence if senior management performs many controls—including entity-level controls—that are important to effective internal control over financial reporting.

### ***Chapter 3—Assessing the Risk of Management Override and Evaluating Mitigating Actions***

Some commenters on Chapter 3 were concerned that the introductory statement to a list of mitigating controls in the section entitled Evaluating Mitigating Controls constituted a requirement for management to implement these controls. As stated in the introduction to this publication, the discussions and examples of controls in this publication do not establish internal control requirements and are not intended as guidance to management regarding establishing or evaluating internal control over financial reporting. Nevertheless, the introductory statement has been revised to remove reference to management's implementation of controls. Additionally, as suggested by some commenters, the fourth item in the list of mitigating controls has been renamed "controls over certain journal entries" to more clearly refer to the related discussion in the subsection entitled Evaluating Controls over Journal Entries later in the chapter.

As recommended by one of the commenters, a statement about the importance of the auditor's exercise of professional skepticism when considering the risk of management override has been added to the section entitled Assessing the Risk of Management Override. Because of the important role that the audit committee may play in mitigating the risk of management override, several commenters suggested providing more details in Example 3-1 about procedures performed by the audit committee. Accordingly, Example 3-1 has been expanded to provide more details on the types of procedures performed by the audit committee to address the risk of management override.

Some commenters suggested adding clarification regarding situations in which a company does not have an audit committee. A footnote reference to COSO Small Companies Guidance has been added to the section entitled Evaluating Audit Committee Oversight for clarification, as suggested.

### ***Chapter 4—Evaluating Segregation of Duties and Alternative Controls***

Most comments on Chapter 4 related to perceived inconsistencies in Example 4-1, which illustrates some audit procedures for testing alternative controls

---

<sup>22</sup> See COSO Small Companies Guidance, Volume II: Guidance, page 43.

over inventory. In response to these comments, the example has been revised to describe more clearly the access rights of both the company's employee who performs certain incompatible duties, and the manager who performs the alternative controls. The paragraph preceding the example has also been revised to clarify that entity-level controls should operate at a necessary level of precision to effectively address the risk of misstatement.

One commenter suggested using the term "compensating controls" instead of "alternative controls" to describe controls that address the same issues as segregation of duties. The term "compensating controls" is not used in this chapter because it is generally applied to situations in which control deficiencies have been identified and the auditor is evaluating whether other controls might compensate for the deficiencies. Chapter 4 of this publication, as well as paragraph 42 of Auditing Standard No. 5, use the term "alternative controls" to apply to situations in which management has designed and implemented controls that achieve the same objectives as segregation of duties.

### ***Chapter 5—Auditing Information Technology Controls in a Less Complex IT Environment***

Some commenters cautioned against underestimating risks that are associated with pre-packaged software. They indicated that readers might mistakenly perceive prepackaged software to be risk-free. In response to these comments, a footnote has been added to the section entitled Characteristics of Less Complex IT Environments in Chapter 5 to indicate that significant user configuration of the pre-packaged software might create additional risks that require additional controls.

In response to other commenters' suggestions, the following sentence has been added to the discussion in the third bullet point in the section entitled Characteristics of Less Complex IT Environments. "Access to systems is typically managed by a limited number of personnel." In the fourth bullet point, the phrase "in many instances" has been inserted to acknowledge that a smaller, less complex company might perform more complex calculations using spreadsheets and other user-developed applications. In the same bullet point, the phrase "to accumulate, summarize, process, and report" has been replaced with "to initiate, authorize, record, process and report" to more accurately describe tasks included in the end-user computing.

Some commenters asked to clarify how the lack of controls over backups might impact the financial reporting process. In response, the second to last paragraph in the section entitled IT-Related Risks Affecting Financial Reporting of this publication has been reworded to refer, more specifically, to the controls that address the financial reporting risk, i.e., the risk of loss of data necessary to prepare the financial statements, and to acknowledge that there may be different controls to address the potential loss of data.

Several commenters suggested modifying Example 5-1 in order to better illustrate the points made in this chapter. In response, the description of controls and software in the Scenario section of Example 5-1 has been clarified, and controls over authorization have been added to the first sub-bullet in the Audit Approach section.

In general, several commenters were concerned about the potential for auditors to use the lists of controls and audit procedures from Chapter 5 as checklists. As previously mentioned, the discussions and examples of controls in this publication do not establish internal control requirements and are not intended as guidance to management regarding establishing or evaluating internal control over financial reporting. These examples of controls in Chapter 5 do not represent required controls for management.

One commenter suggested adding guidance relating to testing of controls over spreadsheets. The purpose of this chapter was to discuss general audit strategies that might be employed regarding the evaluation of IT controls in a less complex IT environment rather than to discuss testing of any particular control activities.

### ***Chapter 6—Considering Financial Reporting Competencies and Their Effects on Internal Control***

Most of the comments on Chapter 6 related to controls over the work performed by outside professionals.

One commenter provided examples of the controls that a company might implement to test work performed by the outside professional. These examples have been added to the discussion of audit considerations in the section entitled *Supplemented Competencies with Assistance from Outside Professionals*. Additionally, as suggested by commenters, Example 6-1 has been modified to more clearly outline the responsibilities of management and the third-party service provider in a situation typical for a smaller, less complex company. The discussion in the example has also been expanded to provide further details of the procedures performed by the auditor.

Some commenters asked what controls the auditors should expect to see over the work of outside professionals in addition to those over the competence and the accuracy of the information. One commenter asked for specific examples of controls in the situations when the management uses outside professionals in the areas of stock compensation, derivatives and hedging activities, off-balance-sheet accounting, and financial statements preparation. Because of the variety of situations in which outside professionals could be used, including the ones mentioned by the commenters, and the diversity of potential controls that might be implemented by companies using outside professionals, the chapter focuses mainly on the control objectives that might be relevant to those situations rather than the individual controls. However, as noted in the preceding paragraph, some additional examples of controls have been included in this publication as suggested by commenters.

### ***Chapter 7—Obtaining Sufficient Competent Evidence When the Company Has Less Formal Documentation***

Some commenters on this chapter asked the staff to clarify the differences between the terms "formal" and "less formal" documentation and the impact of the distinction on the audit. One commenter asked about the auditor's course of action if there is no documentary evidence at all.

"Formal" and "less formal" documentation are relative terms used in this publication to illustrate differences that might exist in the documentation practices of larger and smaller companies. For instance, the section entitled *Documentation of Processes and Controls* provides examples of more formal documentation and less formal documentation of processes and controls. As stated in this chapter, when auditing a smaller, less complex company, it generally is helpful to obtain an understanding of the nature and availability of documentation as early in the audit process as practical, so that the auditor has sufficient time to explore alternatives if the company has less formal documentation. The section entitled *Other Considerations* discusses various types of documentation that auditors might consider using as audit evidence relating to internal control, including the documentation of company processes and procedures and other documentation that the company uses to run the business. The chapter also addresses situations in which only limited documentation exists.

Additionally, in response to one commenter's concern, Example 7-2 has been clarified to explain that the CFO's review represents one control – rather than the only control—that management relies on with respect to the period-end financial reporting process.

### ***Chapter 8—Auditing Smaller, Less Complex Companies with Pervasive Control Deficiencies***

Several commenters asked for clarification regarding when limited testing of a control that is unlikely to be effective might be necessary. Chapter 8 now includes an example indicating that limited testing of a control might be necessary if walkthrough procedures have not been performed. In response to another commenter's suggestion, the discussion in the section entitled Considering the Effect of Pervasive Control Deficiencies on Other Controls has been expanded to clarify how certain deficient entity-level controls might impair the effectiveness of other controls over relevant assertions.

Other commenters suggested changing the discussion of management override of controls to state that a control that has been "inappropriately overridden" instead of "frequently overridden" is either less likely to operate effectively or ineffective. The wording from the preliminary guidance has been retained in this publication because it best describes the risk associated with management override. Although management override might be appropriate in certain circumstances (e.g., manual override of the old credit limits until the new limits are posted in the IT system), frequent management override of a control could impair the effectiveness of the overridden control.

### ***Appendix A—The Integrated Audit Process***

Some commenters expressed concern that auditors might view the audit approach outlined in Appendix A as the preferred approach because this publication would "formalize" it. Others expressed concern that the audit approach described in the appendix does not cover all of the auditing procedures that might need to be performed. As noted in the Introduction to this publication, the guidance is not a rule of the Board and does not establish new requirements. Rather, it discusses how the auditors of smaller, less complex companies may address some (but not all) of the challenges that might arise in audits of those companies. Thus, this publication does not attempt to "formalize" or endorse any particular approach to the audit of internal control over financial reporting. Auditing Standard No. 5 provides direction on integrating the audit of internal control with the audit of financial statements. Appendix A to this publication has been developed to illustrate one approach for integrating the two audits, and it is not intended to present all of the procedures that are required for a particular audit. Auditors should plan and perform their integrated audits to achieve the objectives of the audits and to comply with standards of the PCAOB.

## Section 400

# STAFF AUDIT PRACTICE ALERTS

---

## .01 Staff Audit Practice Alert No. 1

### *Matters Related to Timing and Accounting for Option Grants*

July 28, 2006

Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

Recent reports and disclosures about issuer practices related to the granting of stock options, including the "backdating" of such grants, indicate that some issuers' actual practices in granting options might not have been consistent with the manner in which these transactions were initially recorded and disclosed. Some issuers have announced restatements of previously issued financial statements as a result of these practices. In addition, some of these practices could result in legal and other contingencies that may require recognition of additional expense or disclosure in financial statements.

This practice alert advises auditors that these practices may have implications for audits of financial statements or of internal control over financial reporting ("ICFR") and discusses factors that may be relevant in assessing the risks related to these matters.

## Background

The recorded value of a stock option depends, in part, on the market price of the underlying stock on the date that the option is granted and the exercise price specified in the option. Some issuers may have granted options with exercise prices that are less than the market price of the underlying stock on the date of grant. These options are sometimes referred to as "discounted" or "in-the-money" options. Where discounted options were granted and an issuer failed to properly consider this condition in its original accounting for the option, errors in recording compensation cost, among other effects, may have resulted. These

errors may cause an issuer's financial statements, including related disclosures, to be materially misstated.<sup>1</sup>

While this alert does not attempt to describe all of the variations in circumstances that may result in the issuance of discounted options, a range of practices appears to be involved, including—

- The application of provisions in option plans that allow for:
  - the selection of exercise prices based on market prices on dates earlier than the grant date, or
  - the award of options that allow the option holder to obtain an exercise price equal to the lower of the market price of the stock at the grant date or during a specified period of time subsequent to the grant date.
- Preparation, or subsequent modification, of option documentation for purposes of indicating a lower exercise price than the market price at the actual grant date.
- Treating a date as the grant date when, in fact, all of the prerequisites to a grant had not yet occurred.

Available information suggests that the incidence of these and similar practices may have substantially decreased after the implementation of the shortened filing deadline for reports of option grants specified by Section 403 of the Sarbanes-Oxley Act of 2002. In August 2002, the Securities and Exchange Commission ("SEC") implemented this requirement by requiring the reporting of an option grant on Form 4 within two days of the date of grant. However, periods subsequent to the grant of an option may also be affected by improper accounting for a grant because option cost is generally expensed over the period during which the issuer receives the related services, most commonly its vesting period.

## Matters for Auditor Consideration

Auditors planning or performing an audit should be alert to the risk that the issuer may not have properly accounted for stock option grants and, as a result, may have materially misstated its financial statements or may have deficiencies in its ICFR. For audits currently underway or to be performed in the future, the auditor should acquire sufficient information to allow him or her to assess the nature and potential magnitude of these risks. An auditor must use professional judgment in making these assessments and in determining whether to apply additional procedures in response.

In making these judgments, auditors should be mindful of the following—

*Applicable financial accounting standards.* Financial Accounting Standards Board Statement of Financial Accounting Standards ("SFAS") No. 123 R (revised 2004), *Share-Based Payment*, applies to issuer reporting periods beginning after June 15, 2005 (December 15, 2005 for small business issuers). Accounting for options was, however, previously governed by other accounting standards and related interpretations, specifically Accounting Principles

---

<sup>1</sup> In addition, academic research has suggested the possibility that some issuers may have purposefully granted options immediately before the release of information that the issuer believed would be favorable to its share price. While these practices may not result in the granting of discounted options, they may create legal or reputational risks and raise concerns about the issuer's control environment.

Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25), and SFAS No. 123, *Accounting for Stock-Based Compensation*. If an auditor determines that it is necessary to consider the accounting for option grants and related disclosures in financial statements of a prior period, the auditor should take care to determine the applicable generally accepted accounting principles in effect in those periods and to consider the specific risks associated with these principles.

- *Accounting for discounted options.* For periods in which an issuer used the provisions of APB 25 to determine compensation cost related to stock options, the issuer may have been required to record additional compensation cost equal to the difference in the exercise price and the market price at the measurement date (as defined in APB 25). In periods in which the issuer has recorded option compensation cost using the fair value method as allowed by SFAS No. 123, or as required by SFAS No. 123 R (revised 2004), the impact on the calculated fair value of options of using an incorrect date as the grant date would depend on the nature and magnitude of changes in conditions that affect option valuation between the incorrect date used and the actual grant date. In all cases, the compensation cost of options should be recognized over the period benefited by the services of the option holder.
- *Accounting for variable plans.* For periods in which an issuer used the provisions of APB 25 to determine compensation cost related to stock options, an option with terms allowing a modification of the exercise price, or whose exercise price was modified subsequent to the grant date may require variable plan accounting. Variable option accounting requires that compensation cost be recorded from period to period based on the variation in current market prices. In periods in which the issuer records option compensation cost using the fair value method as allowed by SFAS No. 123, or as required by SFAS No. 123 R, the right to a lower exercise price may constitute an additional component of value of the option that should be considered at the grant date. In all cases, the cost of options should be recognized over the period benefited by the services of the option holder.
- *Accounting for contingencies.* If the consequences of the issuer's practices for stock option grants or its accounting for, and disclosure of, option grants result in legal or other contingencies, the application of SFAS No. 5, *Accounting for Contingencies*, may require that the issuer record additional cost or make additional disclosures in financial statements.
- *Accounting for tax effects.* The grant of discounted stock options may affect the issuer's ability to deduct expenses related to these options for income tax purposes, thereby affecting the issuer's cash flows and the accuracy of the related accounting for the tax effects of options.

*Consideration of materiality.* In evaluating materiality, auditors should remember that paragraph .11 of AU sec. 312, *Audit Risk*

*and Materiality in Conducting an Audit*, and SEC Staff Accounting Bulletin: No. 99—*Materiality* emphasize that both quantitative and qualitative considerations must be assessed. Quantitatively small misstatements may be material when they relate to unlawful acts or to actions by an issuer that could lead to a material contingent liability. In all cases, auditors should evaluate the adequacy of related issuer disclosures.

*Possible illegal acts.* Auditors who become aware that an illegal act may have occurred must comply with the applicable requirements of AU section ("AU sec.") 317, *Illegal Acts*, and Section 10A of the Securities Exchange Act of 1934. Section 10A, among other things, requires a registered public accounting firm to take certain actions if it "detects or otherwise becomes aware of information indicating that an illegal act (whether or not perceived to have a material effect on the financial statements of the issuer) has or may have occurred...." If it is likely that an illegal act has occurred, the registered public accounting firm must "determine and consider the possible effect of the illegal act on the financial statements of the issuer, including any contingent monetary effects, such as fines, penalties, and damages." The registered public accounting firm must also inform the appropriate level of management and assure that the audit committee is adequately informed "unless the illegal act is clearly inconsequential." The auditor may, depending on the circumstances, also need to take additional steps required under Section 10A if the issuer does not take timely and appropriate remedial actions with respect to the illegal act.

## A. Effects of options-related matters on planned or ongoing audits

In planning and performing an audit of financial statements and ICFR, the auditor should assess the nature and potential magnitude of risks associated with the granting of stock options and perform procedures to appropriately address those risks. The following factors are relevant to accomplishing these objectives—

- Assessment of the potential magnitude of risks of misstatement of financial statements and deficiencies in ICFR related to option granting practices. This assessment should include consideration of possible indicators of risk related to option grants, including, where appropriate:
  - The status and results of any investigations relating to the timing of options grants conducted by the issuer or by regulatory or legal authorities.
  - The results of direct inquiries of members of the issuer's management and its board of directors that should have knowledge of matters related to the granting and accounting for stock options.
  - Public information related to the timing of options grants by the issuer.
  - The terms and conditions of plans or policies under which options are granted; in particular, terms that allow exercise prices that are not equal to the market price on the date of grant or that delegate authority for option grants to

management. In these situations, auditors should also consider whether issuers have other policies that adequately control the related risks.

- Patterns of transactions or conditions that may indicate higher levels of inherent risk in the period under audit. Such patterns or conditions may include levels of option grants that are very high in relation to shares outstanding, situations in which option-based compensation is a large component of executive compensation, highly variable grant dates, patterns of significant increases in stock prices following option grants, or high levels of stock-price volatility.
- In planning and performing audits, auditors should appropriately address the assessed level of risk, if any, related to option granting practices. Specifically:
  - In addition to the general planning considerations for financial statement audits identified in AU sec. 311, *Planning and Supervision*, the auditor should consider:
    - The implications of any identified or indicated fraudulent or illegal acts related to option grants to assessed risks of fraud (AU sec. 312.07 and AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*); the potential for illegal acts (AU sec. 317, *Illegal Acts by Clients*); or the assessment of an issuer's internal controls (AU sec. 319, *Internal Control in a Financial Statement Audit*).
    - The scope of procedures applied to assess the potential for fraud (AU sec. 316) and illegal acts (AU sec. 317).
  - The nature, timing, and extent of audit procedures applied to elements of the financial statements affected by the issuance of options. In particular, this assessment should include consideration of:
    - The need for specific management representations related to these matters (AU sec. 333, *Management Representations*) and the nature of matters included in inquiries of lawyers (AU sec. 337, *Inquiry of a Client's Lawyer*).
    - Where applicable, the result of tests of internal controls over the granting, recording, and reporting of option grants.
    - The need, based on the auditor's risk assessment, for additional specific auditing procedures related to the granting of stock options.

For integrated audits performed as described in PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with An Audit of Financial Statements* ("AS No. 2"), the auditor should consider the implications of identified or potential accounting and legal risks related to options in planning, performing, and reporting on audits of ICFR. In addition, as discussed in paragraphs 145–158 of AS No. 2, the results of

the audit of ICFR should be considered in connection with the related financial statement audit.

## B. Auditor involvement in registration statements

In cases where an auditor is requested to consent to the inclusion of his or her report, including a report on ICFR, in a registration statement under the Securities Act of 1933, AU sec. 711, *Filings Under Federal Securities Statutes*, provides that the auditor should perform certain procedures prior to issuing such a consent.<sup>2</sup>

- Paragraph .10 of AU sec. 711 provides that an auditor should perform certain procedures with respect to events subsequent to the date of the audit opinion up to the effective date of the registration statement (or as close thereto as is reasonable and practical under the circumstances). These procedures include inquiry of responsible officials and employees of the issuer and obtaining written representations from them about whether events have occurred subsequent to the date of the auditor's report that have a material effect on the financial statements or that should be disclosed in order to keep the financial statements from being misleading. The auditor should consider performing inquiries and obtaining representations specifically related to the granting and recording of option grants.
- Paragraph .11 of AU sec. 711 provides that a predecessor auditor that has been requested to consent to the inclusion of his or her report on prior-period financial statements in a registration statement should obtain written representations from the successor auditor regarding whether the successor auditor's audit and procedures with respect to subsequent events revealed any matters that might have a material effect on the financial statements reported on by the predecessor auditor or that would require disclosure in the notes to those financial statements. If the successor auditor becomes aware of information that leads him or her to believe that financial statements reported on by the predecessor auditor may require revision, the successor auditor should apply paragraphs .21 and .22 of AU sec. 315.<sup>3</sup>
- If either the successor or predecessor auditor discovers subsequent events that require adjustment or disclosure in the financial statements or becomes aware of facts that may have existed at the date of his or her report and might have affected the report had he or she been aware of them, the auditor should take the actions described in Paragraph .12 of AU sec. 711. In addition, where the auditor concludes that unaudited financial statements or unaudited interim financial information presented, or incorporated by reference, in a registration statement are not in conformity with generally accepted accounting principles, he or she should take the actions described in Paragraph .13 of AU sec. 711.

---

<sup>2</sup> Under Paragraph 198 of AS No. 2, the auditor should apply AU sec. 711 when the auditor's report on management's assessment of ICFR is included in filings under federal securities statutes.

<sup>3</sup> In cases in which a predecessor auditor reissues his or her report on financial statements included in a filing under the Securities Exchange Act of 1934, the predecessor auditor should follow the directives in paragraphs .71 through .73 of AU sec. 508.

## **C. Effects of option-related matters on previously issued opinions**

If an auditor becomes aware of information that relates to financial statements previously reported on by the auditor, but which was not known to him or her at the date of the report, and which is of such a nature and from such a source that he or she would have investigated it had it come to his or her attention during the course of the audit, he or she should take the actions described in AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

## .02 Staff Audit Practice Alert No. 2

# ***Matters Related to Auditing Fair Value Measurements of Financial Instruments and the Use of Specialists***

December 10, 2007

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

The purpose of this staff audit practice alert is to remind auditors of their responsibilities for auditing fair value measurements of financial instruments and when using the work of specialists under the existing standards of the PCAOB. This alert is focused on specific matters that are likely to increase audit risk related to the fair value of financial instruments in a rapidly changing economic environment.<sup>1</sup>

This practice alert highlights certain requirements in the auditing standards related to fair value measurements and disclosures in the financial statements and certain aspects of generally accepted accounting principles (GAAP) that are particularly relevant to the current economic environment.

While this practice alert focuses on fair value in general, it also draws the auditor's attention to certain areas of the new fair value accounting standard, Statement of Financial Accounting Standard (SFAS) No. 157, *Fair Value Measurements*.<sup>2</sup> Auditing fair value measurements developed under the new accounting standard likely will provide new challenges during implementation.

---

<sup>1</sup> A combination of factors in the housing and mortgage markets, including rising delinquency and default rates on subprime mortgages and declining home prices, has led to increases in actual and expected credit losses for residential mortgage-backed securities and mortgage loans. In early 2007, the credit markets began reacting to these changing factors and the prices of many securities backed by subprime mortgages began to decline. Lower volumes of transactions in certain types of collateralized securities might make it more difficult to obtain relevant market information to estimate the fair value of these financial instruments.

<sup>2</sup> In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS 157, which is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. This standard, which some companies early-adopted, defines fair value, establishes a framework for measuring fair value, and expands disclosures. On November 14, 2007, the FASB voted to expose for comment a one year deferral for the implementation of SFAS 157 for certain nonrecurring, nonfinancial assets and liabilities. See FASB web site at [www.fasb.org](http://www.fasb.org).

Therefore, the practice alert describes the applicable accounting pronouncements in these areas and provides direction, in accordance with the auditing standards, for evaluating the application of GAAP.<sup>3</sup>

The practice alert also discusses the auditor's responsibilities, under the existing auditing standards, when using the work of specialists. The alert provides some considerations for the auditor in determining whether a specialist is needed and highlights the requirement that the auditor should evaluate assumptions used in fair value measurements developed by a company's specialist in accordance with the PCAOB standard on auditing fair value measurements. It also highlights the auditor's responsibility to evaluate the appropriateness of using the specialist's work for the purpose of financial statements prepared in conformity with GAAP.

The practice alert is organized into four sections—

- Auditing fair value measurements;
- Classification within the fair value hierarchy under SFAS 157;
- Using the work of specialists; and
- Use of a pricing service.

## Auditing Fair Value Measurements

AU sec. 328, *Auditing Fair Value Measurements and Disclosures*, applies to auditing fair value measurements and disclosures in financial statements.<sup>4</sup> Among other things, AU sec. 328 states that the auditor should evaluate whether the fair value measurements and disclosures in the financial statements are in conformity with GAAP. In general, for companies that had not adopted SFAS 157 before its mandatory effective date, GAAP in effect throughout 2007 provides that—

- Fair value is the amount at which an asset or liability could be bought or sold in a current transaction between willing parties, that is, other than a forced or liquidation sale;<sup>5</sup>
- Quoted market prices in active markets are the best evidence of fair value and should be used as the basis for the measurement, if available;<sup>6</sup>
- The estimate of fair value should consider prices for similar assets;<sup>7</sup> and

---

<sup>3</sup> In order to provide guidance to auditors on auditing fair value measurements, this practice alert necessarily describes GAAP used by public companies to measure fair value. The Board, however, has no authority to prescribe the form or content of an issuer's financial statements. That authority, and the authority to make binding determinations concerning an issuer's compliance with GAAP, rests with the Securities and Exchange Commission. Accordingly, while this staff audit practice alert describes applicable GAAP, it should not be understood as establishing or interpreting GAAP.

<sup>4</sup> AU secs. 342, *Auditing Accounting Estimates*, and 332, *Auditing Derivative Instruments, Hedging Activities, and Investments in Securities*, also are related to auditing fair value.

<sup>5</sup> See SFAS 115, *Accounting for Certain Investments in Debt and Equity Securities*, paragraph 137; SFAS 133, *Accounting for Derivatives and Hedging Activities*, paragraph 540; and SFAS 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, paragraph 69.

<sup>6</sup> Ibid. Also, in paragraph 58 of SFAS 107, *Disclosures about Fair Value of Financial Assets* the FASB Board reiterated its belief that quoted prices, even from thin markets, provide useful information because investors and creditors regularly rely on those prices to make their decisions.

<sup>7</sup> See SFAS 115, *Accounting for Certain Investments in Debt and Equity Securities*, paragraph 137; SFAS 133, *Accounting for Derivatives and Hedging Activities*, paragraph 540; and paragraph 69 of SFAS 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*.

- Valuation techniques should incorporate assumptions that market participants would use in their estimates of value.<sup>8</sup>

In addition, AICPA Statement of Position (SOP) 94-6, *Disclosure of Certain Significant Risks and Uncertainties*, requires certain disclosures, in addition to those required by other accounting standards, about estimates when certain information is known prior to the issuance of financial statements.<sup>9</sup>

SFAS 157 incorporates concepts similar to those in SFASs 115, *Accounting for Certain Investments in Debt and Equity Securities*, 133, *Accounting for Derivatives and Hedging Activities*, and 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. However, it also introduces concepts such as the principal and most advantageous markets and the fair value hierarchy of inputs (further discussed in this alert).<sup>10</sup>

In planning and performing procedures in response to the risk associated with fair value measurements, the auditor should obtain an understanding of the company's process for determining fair value measurements and disclosures, including relevant controls.<sup>11</sup> In addition, the auditor should, among other things—

- Evaluate whether management's assumptions are reasonable and reflect, or are not inconsistent with, market information.<sup>12</sup> For example, the fact that transaction volume in a particular market is lower than in previous periods may not necessarily support an assumption that transactions in that market constituted forced or distressed sales.
- If management relies on historical financial information in the development of an assumption, consider the extent to which such reliance is justified. However, historical information might not be representative of future conditions or events.<sup>13</sup> For example, an auditor should evaluate whether a company's use of historical default rates, in an environment in which default rates are increasing, is justified.
- Evaluate whether the company's method for determining fair value measurements is applied consistently and if so, whether the consistency is appropriate considering possible changes in the environment or circumstances affecting the company.<sup>14</sup> For example, the relative weightings in a company's model may not be reasonable in situations where there has been a change in market conditions. In such cases, auditors should consider whether compliance with applicable accounting standards might require a change in the model.

---

<sup>8</sup> Ibid.

<sup>9</sup> See SOP 94-6, paragraph .13.

<sup>10</sup> See SFAS 157, paragraphs 8, 22, and 23.

<sup>11</sup> See AU sec. 328.09.

<sup>12</sup> See AU sec. 328.26.

<sup>13</sup> See AU sec. 328.37.

<sup>14</sup> See AU sec. 328.19. Also, under SFAS 157, paragraph 20, a change in valuation technique or its application, is appropriate if the change results in a measurement that is equally or more representative of fair value in the circumstances.

Inputs based on a company's own data may be more susceptible to preparer bias because they may not be based on observable market inputs.<sup>15</sup> In such cases, the auditor should be aware of the increased risk of management bias and address the related risk of material misstatement.<sup>16</sup>

## Classification Within the Fair Value Hierarchy Under SFAS 157

Under SFAS 157, a company must determine the appropriate level in the fair value hierarchy for each fair value measurement. The fair value hierarchy in SFAS 157 prioritizes the inputs, which refer broadly to assumptions market participants would use in pricing an asset or liability, into three levels. It gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.<sup>17</sup> The level in the fair value hierarchy within which a fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.
- Level 3 inputs are unobservable inputs for the asset or liability.<sup>18</sup>

Because there are different consequences associated with each of the three levels of the hierarchy, the auditor should be alert for circumstances in which the company may have an incentive to inappropriately classify fair value measurements within the hierarchy. For example, an asset or liability with Level 1 inputs generally must be measured using unadjusted quoted prices in an active market, while an asset or liability with Level 2 inputs is measured using observable market inputs other than quoted prices included in Level 1. Accordingly, a Level 2 measurement might allow for more discretion or judgment on the part of management than a Level 1 measurement. As another example, the required disclosures associated with Level 3 measurements are more extensive than those associated with Level 1 and Level 2 measurements.

---

<sup>15</sup> See AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*. Paragraph .39 notes that certain accounts, classes of transactions, and assertions may have high inherent risk due to a high degree of management judgment and subjectivity. They also may represent fraud risks because they are susceptible to management manipulation.

<sup>16</sup> AU sec 312, *Audit Risk and Materiality in Conducting an Audit*, paragraph .36, provides that the risk of material misstatement is generally greater when account balances include estimates because of the inherent subjectivity in estimating future events.

<sup>17</sup> See SFAS 157, paragraph 21. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

<sup>18</sup> See SFAS 157, paragraphs 22–32.

The auditor's opinion is based on, among other things, his or her judgment as to whether the financial statements and related notes are informative of matters that may affect their use, understanding, and interpretation.<sup>19</sup> In evaluating whether a company's disclosures are complete, accurate, and in conformity with SFAS 157, the auditor should be aware that a financial statement disclosure that is not in accordance with GAAP could be a misstatement of the financial statements.<sup>20</sup>

## Using the Work of Specialists

Management and auditors frequently use the work of a specialist in preparing and auditing financial statements containing complex fair value measurements.

AU sec. 328 states that the auditor should consider whether to engage a specialist and use the work of that specialist as evidential matter in performing substantive tests to evaluate material financial statement assertions.<sup>21</sup> As part of the consideration, the auditor should evaluate whether he or she has the necessary skill and knowledge to plan and perform audit procedures related to the fair value measurement. Factors to consider include—

- Significant use of unobservable inputs;
- Complexity of the valuation technique; and
- Materiality of the fair value measurement.

AU sec. 336, *Using the Work of a Specialist*, provides direction that applies when the auditor uses the work of a specialist, whether the specialist is engaged by the company or the auditor. It states that the auditor should (a) obtain an understanding of the methods and assumptions used by the specialist, (b) make appropriate tests of data provided to the specialist, and (c) evaluate whether the specialist's findings support the related assertions in the financial statements.<sup>22</sup> In obtaining an understanding of the specialist's methods, the auditor should consider whether the method will result in a measurement that is in conformity with the applicable accounting standards.<sup>23</sup> In addition, the auditor should evaluate, in accordance with AU sec. 328, the assumptions developed by a specialist engaged or employed by management.<sup>24</sup>

Additionally, the auditor should evaluate the specialist's qualifications, including the specialist's experience in the type of work under consideration, and obtain an understanding of the work performed by the specialist, including the appropriateness of using the specialist's work for the intended purpose.<sup>25</sup> In the context of this practice alert, the intended purpose of the specialist's work is the valuation of assets and liabilities for use in financial statements prepared in conformity with GAAP.

---

<sup>19</sup> See AU sec. 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*, paragraph .04.

<sup>20</sup> See AU sec. 9312, *Audit Risk and Materiality in Conducting an Audit: Auditing Interpretations of Section 312*, paragraphs .01 and .02.

<sup>21</sup> See AU sec. 328.20.

<sup>22</sup> See AU sec. 336.12.

<sup>23</sup> See AU secs. 328.03 and 336.09.

<sup>24</sup> AU sec. 328 provides that management's assumptions used in fair value measurements or disclosures include assumptions developed by a specialist engaged or employed by management. See AU sec. 328.05, footnote 2.

<sup>25</sup> See AU sec. 336.08–.09.

## Use of a Pricing Service

If a company uses a pricing service for its fair value measurements, the auditor should determine the nature of the information provided by the pricing service. For example, the auditor should understand whether the fair value measurement was determined using quoted prices from an active market, observable inputs (such as prices for similar assets), or fair value measurements based on a model, and adjust his or her audit procedures based on the nature of the information provided by the pricing service.<sup>26</sup> In addition, if the price is not based on quoted prices from an active market or observable inputs (such as prices for similar assets), the auditor should obtain an understanding of the model and evaluate whether the assumptions are reasonable.<sup>27</sup>

There are additional factors for the auditor to consider under SFAS 157. For example, under SFAS 157, a fair value measurement assumes that the transaction occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. The principal market is one in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. If there is a principal market, under SFAS 157, the fair value measurement represents the price in that market even if the price in a different market is potentially more advantageous.<sup>28</sup>

Under SFAS 157, when a company uses a pricing service, the auditor should evaluate whether the assumptions used by the pricing service reflect the price to sell the asset or paid to transfer the liability in the principal market (or most advantageous market if the company has no principal market) of the company. If the pricing service valuation is based on actual trades or quotes, the auditor should evaluate whether those traded or quoted prices would be available to the company in the company's principal market (or most advantageous market, if the company has no principal market). For example, a pricing service might provide an amount for which a large financial institution could sell the financial instrument. However, a company that owns that financial instrument might not be able to transact in the same market as a large financial institution. If the price available to a large financial institution would not be available to the company, then that price may not be an appropriate measure of fair value under SFAS 157.

## Contact Information

Inquiries concerning this Staff Practice Alert may be directed to—

Thomas Ray, Chief Auditor and Director of Professional Standards, 202-207-29112, rayt@pcaobus.org

Martin Baumann, Director, Office of Research and Analysis, 202-207-9192, baumannm@pcaobus.org

Greg Fletcher, Associate Chief Auditor, 202-207-9203, fletchergr@pcaobus.org

---

<sup>26</sup> The evaluation of pricing information also is applicable to fair value measurements that a company obtains from other third parties.

<sup>27</sup> See AU secs. 328.05 and 336.12. In addition, see AU sec. 332.39.

<sup>28</sup> See FASB Statement 157, paragraph 8.

## **.03 Staff Audit Practice Alert No. 3**

### ***Audit Considerations in the Current Economic Environment***

**December 5, 2008**

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

Recent events in the financial markets and the current economic environment may affect companies' operations and financial reporting and, in turn, may have implications for audits of financial statements and internal control over financial reporting. Audit risks that may have been identified previously may become more significant or new risks may exist due to current events (e.g. those affecting the economy, credit and liquidity). Among other things, the current uncertainties in the market and economy may create questions about the valuation, impairment, or recoverability of certain assets and the completeness or valuation of certain liabilities reflected in financial statements.

The purpose of this staff audit practice alert is to assist auditors in identifying matters related to the current economic environment that might affect audit risk and require additional emphasis. While the alert highlights certain areas, it is not intended to identify all areas that might affect audit risk in the current economic environment or serve as a substitute for the relevant auditing standards. All audits of issuers must be conducted in accordance with the standards of the PCAOB.

The practice alert is organized into six sections—

- Overall audit considerations;
- Auditing fair value measurements;
- Auditing accounting estimates;
- Auditing the adequacy of disclosures;
- Auditor's consideration of a company's ability to continue as a going concern; and
- Additional audit considerations for selected financial reporting areas.

In order to provide guidance to auditors on audit considerations in the current economic environment, this practice alert necessarily describes generally

accepted accounting principles ("GAAP") used by public companies in various areas. The Board, however, has no authority to prescribe the form or content of an issuer's financial statements. That authority, and the authority to make binding determinations concerning an issuer's compliance with GAAP, rests with the U.S. Securities and Exchange Commission ("SEC"). Accordingly, while this staff audit practice alert describes applicable GAAP, it should not be understood as establishing or interpreting GAAP.

## Overall Audit Considerations

The following section describes overall audit considerations related to planning, fraud, internal controls, substantive procedures, and communications with audit committees that may be affected by recent events in the financial markets and current economic conditions.

### Planning considerations

The effects of current economic conditions on a company's operations and financial reporting may affect audit planning. In planning the audit, the auditor should consider, among other things, matters affecting the industry in which the company operates, including the economic conditions.<sup>1</sup>

As the audit progresses, changed conditions may make it necessary to modify planned audit procedures.<sup>2</sup> Accordingly, the auditor may need to reassess audit risks and update his or her understanding of how current economic conditions may affect the company's financial reporting. Knowledge of these effects helps the auditor in—

- Identifying areas that may need special consideration;
- Assessing conditions under which accounting data are produced, processed, reviewed, and accumulated within the company;
- Evaluating the reasonableness of estimates, such as valuation of inventories, depreciation, allowances for doubtful accounts, and percentage of completion of long-term contracts;
- Evaluating the reasonableness of management representations;
- Making judgments about the appropriateness of the accounting principles applied and the adequacy of disclosures.<sup>3</sup>

Whenever the auditor has concluded that there is significant risk of material misstatement of the financial statements, the auditor should consider this conclusion in determining the nature, timing, or extent of procedures; assigning staff; or requiring appropriate levels of supervision.<sup>4</sup> Higher risk may cause the auditor to expand the extent of procedures applied, apply procedures closer to or as of year end, particularly in critical audit areas, or modify the nature of procedures to obtain more persuasive evidence.<sup>5</sup>

---

<sup>1</sup> Paragraphs .03 and .07 of AU sec. 311, *Planning and Supervision*, and paragraph 9 of PCAOB Auditing Standard No. 5 ("AS No. 5"), *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

<sup>2</sup> AU sec. 311.05.

<sup>3</sup> AU sec. 311.06.

<sup>4</sup> Paragraph .17 of AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*.

<sup>5</sup> *Ibid.*

In an audit of internal control over financial reporting, a direct relationship exists between the degree of risk that a material weakness could exist in a particular area of the company's internal control over financial reporting and the amount of audit attention that should be devoted to that area.<sup>6</sup>

## Fraud risk considerations

The current economic environment may also trigger certain risk factors that may affect the risk of misstatement due to fraudulent financial reporting. Examples of risk factors include—

- Incentives and pressures
  - Financial stability or profitability is threatened by economic, industry, or company operating conditions;
  - Excessive pressure exists for management to meet the requirements or expectations of third parties;
  - Information available indicates management or the board of directors' personal financial situation is threatened by the company's financial performance;
  - Excessive pressure is placed on management or operating personnel to meet financial targets set up by the board of directors or management, including sales or profitability incentive goals;
- Opportunities
  - The nature of the industry or the company's operations provides opportunities to engage in fraudulent financial reporting;
  - There is ineffective monitoring of management;
  - There is a complex or unstable organizational structure;
  - Internal control components are deficient.<sup>7</sup>

The auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud.<sup>8</sup> As part of the understanding of internal control sufficient to plan the audit, the auditor should evaluate whether entity programs and controls that address identified risks of material misstatement due to fraud have been suitably designed and placed in operation.<sup>9</sup> Also, the auditor should ordinarily presume that there is a risk of material misstatement due to fraud relating to revenue recognition.<sup>10</sup> The auditor responds to risks of material misstatement due to fraud in the following three ways—

- A response that has an overall effect on how the audit is conducted—that is, a response involving more general considerations apart from the specific procedures otherwise planned.<sup>11</sup>

---

<sup>6</sup> AS No. 5, paragraph 11.

<sup>7</sup> Paragraph .85A.2 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>8</sup> Paragraph .02 of AU sec. 110, *Responsibilities and Functions of the Independent Auditor*.

<sup>9</sup> AU sec. 316.44.

<sup>10</sup> AU sec. 316.41.

<sup>11</sup> AU sec. 316.48.

For example, the knowledge, skill, and ability of personnel assigned significant engagement responsibilities should be commensurate with the auditor's assessment of the risks of material misstatement due to fraud for the engagement.<sup>12</sup> The auditor also should consider management's selection and application of significant accounting principles, particularly those related to subjective measurements and complex transactions.<sup>13</sup> Further, the auditor should incorporate an element of unpredictability in the selection from year to year of auditing procedures to be performed.<sup>14</sup>

- A response to identified risks involving the nature, timing, and extent of the auditing procedures to be performed.<sup>15</sup> For example, the auditing procedures performed in response to identified risks of material misstatement due to fraud should vary depending upon the types of risks identified and the account balances, classes of transactions, and related assertions that may be affected.<sup>16</sup> Such procedures may involve both substantive tests and tests of the operating effectiveness of the company's programs and controls.<sup>17</sup>
- A response involving the performance of certain procedures to further address the risk of material misstatement due to fraud involving management override of controls, given the unpredictable ways in which Audit Considerations in the such override could occur.<sup>18</sup> For example, the auditor should examine journal entries and other adjustments for evidence of possible material misstatement due to fraud.<sup>19</sup> The auditor also should review accounting estimates for biases that could result in material misstatement due to fraud,<sup>20</sup> and evaluate the business rationale for significant unusual transactions.<sup>21</sup>

The auditor's assessment of the risks of material misstatement due to fraud should be ongoing throughout the audit.<sup>22</sup>

In an audit of internal control over financial reporting, the risk that a company's internal control over financial reporting will fail to prevent or detect misstatement caused by fraud usually is higher than the risk of failure to prevent or detect error.<sup>23</sup>

## Internal control considerations

The current environment may increase audit risk and thus require additional auditor attention regarding the effective operation of internal controls. Areas in which additional attention may be required include the company's

<sup>12</sup> AU sec. 316.50.

<sup>13</sup> Ibid.

<sup>14</sup> Ibid.

<sup>15</sup> AU sec. 316.48.

<sup>16</sup> AU sec. 316. 51.

<sup>17</sup> Ibid.

<sup>18</sup> AU sec. 316.48.

<sup>19</sup> AU sec. 316.58.

<sup>20</sup> AU sec. 316.63.

<sup>21</sup> AU sec. 316.66.

<sup>22</sup> AU sec. 316.68.

<sup>23</sup> AS No. 5, paragraph 11.

entity-level controls, such as, among other things, controls related to the control environment, and the company's risk assessment process. Additional attention also may be warranted on the controls related to certain significant accounts and disclosures and their relevant assertions, such as controls over the development of inputs and assumptions for the valuation of significant assets and liabilities; controls over the identification and review of assets for recoverability or impairment; and controls over the company's use of external specialists (for example, valuation or actuarial specialists) who assist in the determination of recorded amounts of certain assets or liabilities. In addition, some companies are responding to the current economic conditions by eliminating jobs. The loss of employees integral to the operation of internal controls may increase the risk of deficiencies in internal control over financial reporting because of, for example, lack of segregation of duties or lack of effective monitoring controls.

In an audit of internal control over financial reporting, the auditor also should evaluate whether the company's controls sufficiently address the identified risks of material misstatement due to fraud<sup>24</sup> and controls intended to address the risk of management override of controls.<sup>25</sup> Controls that might address these risks include—

- Controls over significant, unusual transactions, particularly those that result in late or unusual journal entries;
- Controls over journal entries and adjustments made in the period-end financial reporting process;
- Controls over related party transactions;
- Controls related to significant management estimates; and
- Controls that mitigate incentives for, and pressures on, management to falsify or inappropriately manage financial results.<sup>26</sup>

## Effect on substantive procedures

Because the current environment may increase inherent and control risks, the auditor might need to modify his or her planned substantive procedures or perform additional substantive procedures in order to reduce the level of detection risk to an acceptable level to support his or her opinion on the financial statements. Examples of modifications of planned substantive procedure include the following—

- Changing the nature of substantive tests from a less effective to a more effective procedure, such as using tests directed toward independent parties outside the company rather than tests directed toward parties or documentation within the company;
- Changing the timing of substantive tests, such as performing them at year end rather than at an interim date; and
- Changing the extent of substantive tests, such as using a larger sample size.<sup>27</sup>

---

<sup>24</sup> AS No. 5, paragraph 14.

<sup>27</sup> Paragraph .82 of AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*.

## Communications with audit committees

The auditor has a responsibility to communicate certain matters related to the conduct of the audit to the audit committee.<sup>28</sup> Some of the required communications that may be affected by current economic conditions include discussions about accounting estimates as well as the company's accounting principles.

With respect to accounting estimates, the auditor should determine that the audit committee is informed about the process used by management in formulating particularly sensitive accounting estimates and about the basis for the auditor's conclusions regarding the reasonableness of those estimates.<sup>29</sup> The auditor should discuss with the audit committee the auditor's judgments about the quality, not just the acceptability, of the company's accounting principles as applied in its financial reporting.<sup>30</sup> The discussion should include such matters as the consistency of the company's accounting policies and their application, and the clarity and completeness of the company's financial statements, which include related disclosures.<sup>31</sup> The discussion also should include items that have a significant impact on the representational faithfulness, verifiability, and neutrality of the accounting information included in the financial statements.<sup>32</sup> Examples of items that may have such an effect include the following—

- Selection of new or changes to accounting policies;
- Estimates, judgments, and uncertainties;
- Unusual transactions; and
- Accounting policies relating to significant financial statement items, including the timing of transactions and the period in which they are recorded.<sup>33</sup>

While these and other communications are directed to the audit committee, the auditor is not precluded from communicating with management or other individuals within the company, who may, in the auditor's judgment, benefit from the communications.<sup>34</sup>

## Auditing Fair Value Measurements

Certain kinds of investments such as auction rate securities, commercial paper, mortgage-backed or other asset-backed securities, alternative investments (such as hedge funds, private equity investments, funds of funds, etc.), collateralized debt obligations and other investments may present complexities in valuation because of the current conditions in the financial markets. Accordingly, difficulties surrounding the measurement of fair value and the adequacy of related disclosures have come under increased focus over the past year.

Statement of Financial Accounting Standard ("SFAS") No. 157, *Fair Value Measurements*,<sup>35</sup> establishes a framework for measuring fair values for financial

---

<sup>28</sup> Paragraph .01 of AU sec. 380, *Communication With Audit Committees*.

<sup>29</sup> AU sec. 380.08.

<sup>30</sup> AU sec. 380.11.

<sup>31</sup> *Ibid.*

<sup>32</sup> *Ibid.*

<sup>33</sup> *Ibid.*

<sup>34</sup> AU sec. 380.02.

<sup>35</sup> In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard ("SFAS") No. 157, *Fair Value Measurements*, which is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods

reporting purposes and expands disclosures about those measurements. On September 30, 2008, the SEC's Office of the Chief Accountant and the Financial Accounting Standards Board ("FASB") staff issued *Clarifications on Fair Value Accounting* acknowledging that "the current environment has made questions surrounding the determination of fair value particularly challenging for preparers, auditors and users of financial information."<sup>36</sup> On October 10, 2008, the FASB issued Staff Position ("FSP") No. FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active*, which provides application guidance regarding—

- How the company's own assumptions (that is, expected cash flows and appropriately risk-adjusted discount rates) should be considered when measuring fair value when relevant observable inputs do not exist;
- How available observable inputs in a market that is not active should be considered when measuring fair value; and
- How the use of market quotes (for example, broker quotes or pricing services for the same or similar financial assets) should be considered when assessing the relevance of observable and unobservable inputs available to measure fair value.<sup>37</sup>

The following matters may be particularly important for auditors in considering fair value accounting estimates—

- The extent to which fair value accounting applies to various accounts;
- The choice and complexity of valuation techniques and models;
- Judgments concerning significant assumptions that may be used by others such as specialists employed or engaged by the company or the auditor;
- The availability, or lack thereof, of information or evidence and its reliability; and
- The extent of disclosure in the financial statements about measurement methods and uncertainty.

PCAOB Staff Audit Practice Alert No. 2 ("Practice Alert No. 2"), *Matters Related to Auditing Fair Value Measurements of Financial Instruments and the Use of Specialists*, remains relevant in the current environment and reminds auditors of their responsibilities with regard to—

- Auditing fair value measurements,
- Classification within the fair value hierarchy under SFAS 157,
- Using the work of specialists, and
- Use of a pricing service.<sup>38</sup>

---

within those fiscal years. The FASB deferred the implementation of SFAS No. 157 for certain nonrecurring, nonfinancial assets and liabilities for financial statements issued for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years.

<sup>36</sup> See <http://www.sec.gov/news/press/2008/2008-234.htm>.

<sup>37</sup> Paragraph 5 of FASB Staff Position ("FSP") No. FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active*.

<sup>38</sup> PCAOB Staff Audit Practice Alert No. 2, *Matters Related to Auditing Fair Value Measurements of Financial Instruments and the Use of Specialists* (December 10, 2007).

In discussing the auditor's responsibilities for auditing fair value measurements, Practice Alert No. 2 refers the auditor to AU sec. 328, *Auditing Fair Value Measurements and Disclosures*, AU sec. 332, *Auditing Derivative Instruments, Hedging Activities, and Investments in Securities*, AU sec. 336, *Using the Work of a Specialist*, and AU sec. 342, *Auditing Accounting Estimates*.

## Auditing Accounting Estimates

Accounting estimates measure the effects of past business transactions or events, or the present status of an asset or liability.<sup>39</sup> Examples of accounting estimates include net realizable value of inventories, allowance for uncollectible accounts receivable, valuation allowance for deferred tax assets, actuarial assumptions in pension and other postretirement benefit costs, the impairment analysis and estimated useful lives of long-lived assets, restructuring accruals, and assumptions used in option pricing models for share-based payments.<sup>40</sup> In auditing accounting estimates, the auditor normally should consider, among other things, the company's historical experience in making past estimates as well as the auditor's experience in the industry.<sup>41</sup> However, changes in facts, circumstances, or a company's procedures may cause factors different from those considered in the past to become significant to the accounting estimate.<sup>42</sup> The significance of the recent changes in the economy and the financial markets increases the likelihood that this will be the case.

The auditor is responsible for evaluating the reasonableness of accounting estimates made by management in the context of the financial statements taken as a whole.<sup>43</sup> In evaluating the reasonableness of accounting estimates, the auditor should obtain an understanding of how management developed the estimate.<sup>44</sup> Based on that understanding, the auditor should use one or a combination of the following approaches—

- Review and test the process used by management to develop the estimate;
- Develop an independent expectation of the estimate to corroborate the reasonableness of management's estimate;
- Review subsequent events or transactions occurring prior to the date of the auditor's report.<sup>45</sup>

The work that the auditor performs as part of the audit of internal control over financial reporting should necessarily inform the auditor's decisions about the approach he or she takes to auditing an estimate because, as part of the audit of internal control over financial reporting, the auditor would be required to obtain an understanding of the process management used to develop the estimate and to test controls over all relevant assertions related to the estimate.<sup>46</sup>

In evaluating the reasonableness of an estimate, the auditor normally concentrates on key factors and assumptions that are—

---

<sup>39</sup> Paragraph .02 of AU sec. 342, *Auditing Accounting Estimates*.

<sup>40</sup> See AU sec. 342.16 for other examples of accounting estimates.

<sup>41</sup> AU sec. 342.09.

<sup>42</sup> *Ibid.*

<sup>43</sup> AU sec. 342.04.

<sup>44</sup> AU sec. 342.10.

<sup>45</sup> *Ibid.*

<sup>46</sup> *Ibid.*

- Significant to the accounting estimate;
- Sensitive to variations;
- Deviations from historical patterns;
- Subjective and susceptible to misstatement and bias.<sup>47</sup>

When assessing audit differences between estimates best supported by the audit evidence and the estimates included in the financial statements, the auditor should consider whether such differences, even if they are individually reasonable, indicate a possible bias on the part of the company's management, in which case the audit or should reconsider the estimates taken as a whole.<sup>48</sup>

As part of the audit, the auditor also should perform a retrospective review of significant accounting estimates reflected in the financial statements of the prior year to determine whether management judgments and assumptions relating to the estimates indicate a possible bias on the part of management.<sup>49</sup> With the benefit of hindsight, a retrospective review should provide the auditor with additional information about whether there may be a possible bias on the part of management in making the current year estimates.<sup>50</sup>

## Auditing the Adequacy of Disclosures

The current economic environment may increase the risks regarding the adequacy of disclosures, including the disclosures surrounding a company's risks and uncertainties, which in turn may warrant additional auditor attention.

The American Institute of Certified Public Accountants' Statement of Position 94-6 ("SOP 94-6"), *Disclosure of Certain Significant Risks and Uncertainties*, focuses on disclosures about risks and uncertainties, that in the near term (considered to be within one year from the date of the financial statements), could affect the amounts reported in the financial statements or the functioning of the reporting company.<sup>51</sup> SOP 94-6 provides that companies should make disclosures in their financial statements about the risks and uncertainties in the following areas—

- Nature of operations;
- Use of estimates in the preparation of financial statements;
- Certain significant estimates;
- Current vulnerability due to certain concentrations.<sup>52</sup>

The presentation of financial statements in conformity with GAAP includes adequate disclosure of material matters, related to the form, arrangement, and content of the financial statements and their appended notes.<sup>53</sup> The auditor considers whether a particular matter should be disclosed in light of the circumstances and facts of which he or she is aware at the time.<sup>54</sup> If management omits

---

<sup>47</sup> AU sec. 342.09.

<sup>48</sup> AU sec. 316.63.

<sup>49</sup> AU sec. 316.64.

<sup>50</sup> Ibid.

<sup>51</sup> Paragraph .02 of American Institute of Certified Public Accountants' Statement of Position 94-6 ("SOP 94-6"), *Disclosure of Certain Significant Risks and Uncertainties*. Paragraph .07 of SOP 94-6 defines near term as a period of time not to exceed one year from the date of the financial statements.

<sup>52</sup> SOP 94-6, paragraph .08.

<sup>53</sup> Paragraph .02 of AU sec. 431, *Adequacy of Disclosure in Financial Statements*.

<sup>54</sup> Ibid.

from the financial statements, including the accompanying notes, information that is required by GAAP, the auditor should express a qualified or adverse opinion and should provide the information in his or her report, if practicable, unless its omission from the auditor's report is recognized as appropriate by a specific PCAOB auditing standard.<sup>55</sup>

With respect to other information included in documents containing the financial statements, the auditor should read the other information and consider whether such information, or the manner of its presentation, is materially inconsistent with information, or the manner of its presentation, appearing in the financial statements.<sup>56</sup> For instance, the section on management's discussion and analysis of financial condition and results of operations in Form 10-K requires discussion of liquidity, capital resources, results of operations, off-balance sheet arrangements and contractual obligations.<sup>57</sup> In addition, the section on controls and procedures of the Form 10-K requires discussion of management's responsibility for internal control over financial reporting and changes in internal control over financial reporting.<sup>58</sup> If the information in these disclosures is materially inconsistent with the financial statements, the auditor should determine whether the financial statements, the audit report, or both require revision.<sup>59</sup>

## Auditor's Consideration of a Company's Ability to Continue as a Going Concern

In the current economic environment, some companies may face challenges in their ability to continue operating as a going concern. For instance, sources of liquidity may be strained because of reduced availability of lines/letters of credit from financial institutions or because of a violation of a debt covenant or other covenant. Additionally, companies may encounter limited access to the commercial paper markets, a decrease in valuation of collateral, difficulty restructuring loans, and delays in payment from customers.

The auditor has a responsibility to evaluate whether there is a substantial doubt about the company's ability to continue as a going concern for a reasonable period of time, not to exceed one year beyond the date of the financial statements being audited.<sup>60</sup> The auditor's evaluation is based on his or her knowledge of relevant conditions and events that exist at or have occurred prior to the date of the auditor's report.<sup>61</sup>

The auditor's evaluation includes considering whether the results obtained in planning, performing, and completing the audit identify conditions and events that, when considered in the aggregate, indicate there could be a substantial doubt about the company's ability to continue as a going concern for a reasonable period of time.<sup>62</sup> It may be necessary to obtain additional information about such

---

<sup>55</sup> AU sec. 431.03.

<sup>56</sup> Paragraph .04 of AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*.

<sup>57</sup> Regulation S-K, Item 303, *Management's Discussion and Analysis of Financial Condition and Results of Operations*.

<sup>58</sup> Regulation S-K, Items 308 and 308T, *Internal Control Over Financial Reporting*.

<sup>59</sup> AU sec. 550.04.

<sup>60</sup> Paragraph .02 of AU sec. 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.

<sup>61</sup> *Ibid.*

<sup>62</sup> AU sec. 341.03a.

conditions and events, as well as the appropriate evidential matter to support information that mitigates the auditor's doubt.<sup>63</sup> Conditions or events that, when considered in the aggregate, indicate there could be substantial doubt about the company's ability to continue as a going concern for a reasonable period of time include—

- *Negative trends*—for example, recurring operating losses, working capital deficiencies, negative cash flows from operating activities, adverse key financial ratios;
- *Other indications of possible financial difficulties*—for example, default on loan or similar agreements, arrearages in dividends, denial of usual trade credit from suppliers, restructuring of debt, noncompliance with statutory capital requirements, need to seek new sources or methods of financing or to dispose of substantial assets;
- *Internal matters*—for example, work stoppages or other labor difficulties, substantial dependence on the success of a particular project, uneconomic long-term commitments, need to significantly revise operations;
- *External matters that have occurred*—for example, legal proceedings, legislation, or similar matters that might jeopardize a company's ability to operate; loss of a key franchise, license, or patent; loss of a principal customer or supplier; uninsured or underinsured catastrophe such as a drought, earthquake, or flood.<sup>64</sup>

If the auditor believes there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time, the auditor should obtain information about management's plans that are intended to mitigate the effect of such conditions or events, and assess the likelihood that such plans can be effectively implemented.<sup>65</sup> The auditor's considerations relating to management plans may include the following—

- Plans to dispose of assets;
- Plans to borrow money or restructure debt;
- Plans to reduce or delay expenditures;
- Plans to increase ownership equity.<sup>66</sup>

Such considerations also may include the effect of federal assistance or participation in a federal program.

If, after considering identified conditions and events and management's plans, the auditor concludes there is substantial doubt, he or she should consider the possible effects on the financial statements and the adequacy of disclosure about the company's inability to continue as a going concern for a reasonable period of time, and include an explanatory paragraph in the audit report to reflect this conclusion.<sup>67</sup> If the auditor concludes that substantial doubt is alleviated, the auditor should consider the need for disclosure of the principal conditions

---

<sup>63</sup> Ibid.

<sup>64</sup> AU sec. 341.06.

<sup>65</sup> AU sec. 341.03b.

<sup>66</sup> AU sec. 341.07.

<sup>67</sup> AU secs. 341.10 and 341.12.

and events that initially caused the auditor to believe there was substantial doubt.<sup>68</sup>

## Additional Audit Considerations for Selected Financial Reporting Areas

The following discussion provides auditors with information on selected financial reporting areas that may be affected by the current economic environment. The auditor should give consideration to elevated risks related to the current economic environment and adjust his or her audit procedures as appropriate. This list is not intended to be all inclusive.

- Consolidation
- Contingencies and guarantees
- Credit derivatives
- Debt obligations
- Deferred tax assets
- Derivatives (other than credit derivatives)
- Goodwill, intangible assets and other long-lived assets
- Inventory
- Other-than-temporary impairment
- Pension and other postretirement benefits
- Receivables
- Restructuring
- Revenue recognition
- Share-based payments

### Consolidation

As a result of the economic environment, some companies have provided financial support or guarantees, or have taken other actions that may cause them to have a variable interest in an entity or to have increased their exposure to the entity, and, therefore, cause them to consider or reconsider whether the entity is a variable interest entity and if so whether they are its primary beneficiary.<sup>69</sup> Such commitments to provide financial support or guarantees might be found in various contractual arrangements, such as leasing arrangements, supply contracts, service contracts or derivative contracts.

FASB Interpretation ("FIN") No. 46(R) (as amended), *Consolidation of Variable Interest Entities—an interpretation of ARB No. 51*, addresses consolidation by the primary beneficiary of variable interest entities. On November 21, 2008, the FASB announced plans to issue final FSP FAS 140-4 and FIN 46(R)-8, *Disclosures about Transfers of Financial Assets and Interests in Variable Interest Entities*, by December 15, 2008, which will increase disclosure requirements for public companies for reporting periods that end after December 15, 2008.<sup>70</sup>

---

<sup>68</sup> AU sec. 341.11.

<sup>69</sup> Paragraphs 7 and 15 of FASB Interpretation ("FIN") No. 46(R) (as amended), *Consolidation of Variable Interest Entities—an interpretation of ARB No. 51*.

<sup>70</sup> See <http://www.fasb.org/news/nr112108.shtml>.

## Contingencies and guarantees

Recent events in the credit markets may expose companies to additional contingencies and guarantees, which could increase the risk of unidentified or undisclosed contingencies related to, for example—

- Pending or threatened litigation;
- Asserted or unasserted claims and assessments;
- Guarantees of indebtedness of others;
- Guarantees to repurchase receivables or property previously sold or otherwise assigned;
- Violations of laws and regulations;
- Guarantees of contractual performance of others; and
- Outstanding purchase commitments at prices in excess of market values.

The audit normally includes procedures that might identify litigation, claims, and assessments, among other things.<sup>71</sup> Examples of such procedures include the following—

- Reading minutes of meetings of stockholders, directors, and appropriate committees held during and subsequent to the period being audited;
- Reading contracts, loan agreements, leases, and correspondence from taxing or other governmental agencies, and similar documents;
- Obtaining information concerning guarantees from bank confirmation forms;
- Inspecting other documents for possible guarantees by the client.<sup>72</sup>

## Credit derivatives

The downturn in the credit markets can have a significant effect on the fair value of a company's credit derivatives. A credit derivative is a derivative instrument whose value derives from the credit risk on an underlying bond, loan or financial asset. The credit risk is on an entity other than the counterparty to the transaction.<sup>73</sup> This entity is known as a reference entity, which incurred the debt.<sup>74</sup>

Credit derivatives are bilateral contracts between the buyer and seller under which the seller sells to the buyer protection against the credit risk of the reference entity.<sup>75</sup> Credit derivatives may be valued through the use of internally developed models or by pricing services. The assumptions used in models can

---

<sup>71</sup> Paragraph .07 of AU sec. 337, *Inquiry of a Client's Lawyer Concerning Litigation, Claims and Assessments*. AU sec. 337.08 indicates that a letter of audit inquiry to the client's lawyer is the auditor's primary means of obtaining corroboration of the information furnished by management concerning litigation, claims, and assessments.

<sup>72</sup> AU sec. 337.07.

<sup>73</sup> Satyajit Das, *Credit Derivatives: CDOs and Structured Credit Products*, (Singapore: John Wiley and Sons (Asia) Pte Ltd, 2005, Third Edition).

<sup>74</sup> Edmund Parker, "Credit Derivatives," *PLC Finance* (<http://www.mayerbrown.com/london/article.asp?id=4234&nid=1575>).

<sup>75</sup> *Ibid.*

be highly subjective, sensitive, and complex. A slight difference in assumptions could result in a significant change in the valuation of the derivative.

One factor that affects the fair value of credit derivatives is a decline in the credit quality of the reference entity. As a result of the deterioration in credit derivative positions insured by sellers of credit derivatives, some sellers have been required to post significant amounts of additional collateral. A seller also may be required to post additional collateral based on the deterioration of its own credit standing (regardless of changes in value of the written credit derivatives) to protect the buyer from default by the seller. In addition, the fair value of the asset included in the buyer's financial statements is affected by both the credit rating of the seller of the credit derivative (the counterparty) and the credit rating of the reference entity. The credit risk of the seller may affect the fair value of the liability in the seller's financial statements. In response to concerns from financial statement users and others that the current disclosure requirements for derivative instruments and certain guarantees did not adequately address the potential adverse effects of changes in the credit risk on the financial position, financial performance, and cash flows of the sellers of credit derivatives and certain guarantees, the FASB issued a staff position aimed at improving such disclosures.<sup>76</sup>

The auditor should obtain evidence supporting management's assertions about the fair value of derivatives measured or disclosed at fair value.<sup>77</sup> In addition, the auditor should evaluate whether the presentation and disclosure of derivatives are in conformity with GAAP.<sup>78</sup>

In addition to valuation and presentation and disclosure, other considerations relate to existence and completeness. In March 2008, the President's Working Group on Financial Markets noted "[w]hile the infrastructure of the financial markets generally has coped quite well with heightened price volatility and surging trading volumes, there have been issues with the accuracy and timeliness of trade data transmissions, the timeliness of resolutions of trade matching errors, documentation and cash settlement, electronic post-trade processing, backlogs, integrated processing, and reconciliation and valuation."<sup>79</sup> Sellers and buyers of credit derivatives may have made trades which may not be properly reflected in the financial statements. AU sec. 332 provides examples of substantive procedures auditors may perform to obtain evidence about whether all derivatives have been properly identified and appropriately included in the financial statements.<sup>80</sup>

---

<sup>76</sup> Paragraph 1 of FSP No. FAS 133-1 and FIN 45-4, *Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161* (September 12, 2008).

<sup>77</sup> Paragraph .35 of AU sec. 332, *Auditing Derivative Instruments, Hedging Activities, and Investments in Securities*. AU secs. 332.35 to .48 provide further direction on auditing valuations based on fair value.

<sup>78</sup> AU sec. 332.49. AU secs. 332.49 to .51 provide further direction on auditing presentation and disclosure of derivatives.

<sup>79</sup> See pages 18 to 19 of the Policy Statement on Financial Market Developments by The President's Working Group on Financial Markets (March 2008) ([http://www.treas.gov/press/releases/reports/pwgpolicystatemktturmoil\\_03122008.pdf](http://www.treas.gov/press/releases/reports/pwgpolicystatemktturmoil_03122008.pdf)). In June 2008, the Federal Reserve Bank of New York noted that "[s]tarting in September 2005, industry participants implemented a number of initiatives to improve the operational performance and infrastructure of the over-the-counter markets" and that market participants and regulators agreed on an "agenda for bringing about further improvements in the OTC derivatives market infrastructure." Federal Reserve Bank of New York, "Statement Regarding June 9 Meeting on Over-the-Counter Derivatives" (June 9, 2008), (<http://www.newyorkfed.org/newsevents/news/markets/2008/ma080609.html>).

<sup>80</sup> AU secs. 332.21 to .24.

## Debt obligations

Companies may find it more difficult to refinance debt or it may take longer to arrange new financing in the current business environment, and compliance with debt covenants may be more challenging. Circumstances such as the following can affect the risks of material misstatement and the necessary audit procedures regarding debt obligations—

- Violations of existing debt covenants;
- Proper classification between short-term and long-term debt;
- The existence of cross default provisions, such that a violation of a covenant on one loan affects compliance with covenants for another loan;
- Exchange of debt or modifications to the terms of outstanding debt agreements;
- Concessions granted by lenders, including those that constitute a troubled debt restructuring;
- Subjective acceleration clauses;
- Embedded derivatives.

## Deferred tax assets

Under current economic conditions, companies may need to record valuation allowances for their deferred tax assets. Deferred tax assets are required to be reduced "by a valuation allowance if, based on the weight of available evidence, it is *more likely than not* (a likelihood of more than 50 percent) that some portion or all of the deferred tax assets will not be realized."<sup>81</sup>

Evaluating the need for and amount of a valuation allowance for deferred tax assets requires consideration of "all available evidence, both positive and negative"<sup>82</sup> to determine whether all or some portion of the deferred tax assets will not be realized. SFAS No. 109, *Accounting for Income Taxes*, provides that the more negative evidence that exists (a) the more positive evidence is necessary and (b) the more difficult it is to support a conclusion that a valuation allowance is not needed for some portion or all of the deferred tax asset.<sup>83</sup>

In addition, SFAS No. 109 states that "information about an enterprise's current financial position and its results of operations for the current and preceding years ordinarily is readily available. That historical information is supplemented by all currently available information about future years. Sometimes, however, historical information may not be available (for example, start-up operations) or it may not be as relevant (for example, if there has been a significant, recent change in circumstances) and special attention is required."<sup>84</sup>

Future realization of a deferred tax asset "ultimately depends on the existence of sufficient taxable income of the appropriate character (for example, ordinary income or capital gain) within the carryback, carryforward period available under the tax law."<sup>85</sup> SFAS No. 109 states that "the weight given to the potential

---

<sup>81</sup> Paragraph 17e of SFAS No. 109 (as amended), *Accounting for Income Taxes*.

<sup>82</sup> SFAS No. 109, paragraph 20.

<sup>83</sup> SFAS No. 109, paragraph 25.

<sup>84</sup> SFAS No. 109, paragraph 20.

<sup>85</sup> SFAS No. 109, paragraph 21.

effect of negative and positive evidence should be commensurate with the extent to which it can be objectively verified.<sup>86</sup>

In addition, FIN No. 48 (as amended), *Accounting for Uncertainty in Income Taxes—an Interpretation of FASB Statement No. 109*, defines a criterion that an individual tax position must meet for any part of the benefit of that position to be recognized in a company's financial statements.<sup>87</sup> The interpretation also provides guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.<sup>88</sup>

## Derivatives (other than credit derivatives)

The current environment may have a significant effect on the fair value of a company's derivative contracts. In addition, the ability for a company to use hedge accounting, including its ability to apply the short-cut method, may be affected because of the company's or the counterparty's creditworthiness.<sup>89</sup> Hedge accounting also may be affected because changes in the fair value of the derivative may be attributable to a risk other than the risk that is being hedged, such as company or counterparty creditworthiness.<sup>90</sup>

Auditors should obtain evidence supporting management's assertion about the fair value of derivatives measured or disclosed at fair value.<sup>91</sup> External factors, such as credit and market risk, may affect the valuation of derivatives. Credit or default risk exposes the company to the risk of loss as a result of the counterparty to a derivative failing to meet its obligation. Alternatively, the credit risk of the company may affect the fair value of the derivative when the derivative is in a liability position. Market risk exposes the company to the risk of loss from adverse changes in market factors that affect the fair value of a derivative, such as interest rates and foreign exchange rates. In order for a company to use hedge accounting, GAAP requires that management have an expectation that the hedging relationship will be highly effective at inception and on an ongoing basis.<sup>92</sup> Counterparty default risk may affect hedge accounting as GAAP requires that consideration be given to the likelihood that the counterparty will comply with the contractual terms of the derivative contract.<sup>93</sup> If the likelihood that the counterparty will not default ceases to be probable, the company would be unable to conclude that a cash flow hedging relationship is expected to be highly effective in achieving offsetting cash flows.<sup>94</sup> Additionally, a change in the creditworthiness of the derivative's counterparty in a fair value hedge would affect the assessment of whether the relationship qualifies for hedge accounting and amount of ineffectiveness recognized in earnings under

---

<sup>86</sup> SFAS No.109, paragraph 25.

<sup>87</sup> Paragraph 2 of FIN No. 48 (as amended), *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109*.

<sup>88</sup> *Ibid.*

<sup>89</sup> FASB Staff Implementation Guidance: Guide to Implementation of Statement 133 on Accounting for Derivative Instruments and Hedging Activities, Issue G10 ("DIG Issue G10"), *Cash Flow Hedges: Need to Consider Possibility of Default by the Counterparty to the Hedging Derivative*.

<sup>90</sup> Paragraphs 20 and 28 of SFAS No. 133 (as amended), *Accounting for Derivative Instruments and Hedging Activities*, discuss the risks that are being hedged for a fair value and a cash flow hedge, respectively. Paragraphs 25 and 29 of SFAS No. 133 indicate when to discontinue hedge accounting for a fair value and cash flow hedge, respectively.

<sup>91</sup> AU sec. 332.35.

<sup>92</sup> SFAS No. 133, paragraphs 20b and 28b.

<sup>93</sup> DIG Issue G10.

<sup>94</sup> *Ibid.*

fair value hedge accounting.<sup>95</sup> Under SFAS No. 133, hedge accounting ceases when a hedge is no longer highly effective on an ongoing basis.<sup>96</sup>

When assessing hedge accounting, auditors should gather evidential matter—

- To determine whether management complied with the hedge accounting requirements of GAAP, including designation and documentation requirements.<sup>97</sup>
- To support management's expectation at the inception of the hedge that the hedging relationship will be highly effective and its periodic assessment of the ongoing effectiveness of the hedging relationship as required by GAAP.<sup>98</sup>
- Supporting the recorded change, for a fair value hedge, in the hedged item's fair value that is attributable to the hedged risk.<sup>99</sup>

In addition, for a cash flow hedge of a forecasted transaction, the auditor should evaluate management's determination of whether a forecasted transaction is probable.<sup>100</sup>

## Goodwill, intangible assets and other long-lived assets

Market conditions during an economic downturn may result in an impairment of goodwill, other indefinite-lived intangible assets and other long-lived assets. Goodwill and indefinite-lived intangible assets "shall be tested for impairment annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired."<sup>101</sup> Similarly, SFAS No. 144 (as amended), *Accounting for the Impairment or Disposal of Long-Lived Assets*, states that "A long-lived asset (asset group) shall be tested for recoverability whenever events or changes in circumstances indicate that its carrying amount may not be recoverable."<sup>102</sup> The following are examples of such events and changes in circumstances—

- A significant decrease in the market price of a long-lived asset (asset group);
- A significant adverse change in the extent or manner in which a long-lived asset (asset group) is being used or in its physical condition;
- A significant adverse change in legal factors or in the business climate that could affect the value of a long-lived asset (asset group), including an adverse action or assessment by a regulator;
- An accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of a long-lived asset (asset group);

---

<sup>95</sup> Ibid.

<sup>96</sup> SFAS No. 133, paragraph 67.

<sup>97</sup> AU sec. 332.53.

<sup>98</sup> Ibid.

<sup>99</sup> AU sec. 332.54.

<sup>100</sup> AU sec. 332.55.

<sup>101</sup> Paragraph 17 of SFAS No. 142 (as amended), *Goodwill and Other Intangible Assets*.

<sup>102</sup> Paragraph 8 of SFAS No. 144 (as amended), *Accounting for the Impairment or Disposal of Long-Lived Assets*.

- A current-period operating or cash flow loss combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses associated with the use of a long-lived asset (asset group);
- A current expectation that, more likely than not, a long-lived asset (asset group) will be sold or otherwise disposed of significantly before the end of its previously estimated useful life. The term more likely than not refers to a level of likelihood that is more than 50 percent.<sup>103</sup>

Goodwill of a reporting unit shall be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount.<sup>104</sup> Examples of such events or circumstances include—

- A significant adverse change in legal factors or in the business climate;
- An adverse action or assessment by a regulator;
- Unanticipated competition;
- A loss of key personnel;
- A more-likely-than-not expectation that a reporting unit or a significant portion of a reporting unit will be sold or otherwise disposed of;
- The testing for recoverability under SFAS No. 144 of a significant asset group within a reporting unit;
- Recognition of a goodwill impairment loss in the financial statements of a subsidiary that is a component of a reporting unit.<sup>105</sup>

In addition to valuation, companies may need to reassess the useful life of indefinite-lived intangible assets and other long-lived assets. SFAS No. 142 (as amended), *Goodwill and Other Intangible Assets*, requires companies to "evaluate the remaining useful life of an intangible asset that is not being amortized each reporting period to determine whether events and circumstances continue to support an indefinite useful life."<sup>106</sup> In addition, when other long-lived assets (asset group) are tested for recoverability, companies also may need to review depreciation estimates and methods.<sup>107</sup> Under SFAS No. 144, any revision to the remaining useful life of a long-lived asset resulting from that review also shall be considered in developing estimates of future cash flows used to test the asset (asset group) for recoverability.<sup>108</sup>

## Inventory

Current market conditions and the effect on consumer spending may result in excess or obsolete inventory or inventory with carrying amounts in excess of market values. Inventory is required to be stated at the lower of cost or

---

<sup>103</sup> Ibid.

<sup>104</sup> SFAS No. 142, paragraph 28.

<sup>105</sup> Ibid.

<sup>106</sup> SFAS No. 142, paragraph 16.

<sup>107</sup> SFAS No. 144, paragraph 9.

<sup>108</sup> Ibid.

market.<sup>109</sup> The following are examples of conditions related to the current environment that might affect the risk of material misstatement of inventory valuation and the necessary audit procedures—

- An increase in inventory balances in relation to sales levels, a reduction in inventory turnover, and the aging of inventory may indicate excess or obsolete inventory balances that are not recoverable.
- Declining prices may indicate the carrying amount of inventory is in excess of market value. Accounting Research Bulletin ("ARB") No. 43 (as amended), *Inventory Pricing* (chapter 4), requires that a loss be recognized in the current period "whenever the utility of goods is impaired by damage, deterioration, obsolescence, changes in price levels, or other causes."<sup>110</sup>

In addition, losses on firm, uncancelable, and unhedged commitments to purchase inventory should be measured in the same way as are inventory losses and, if material, should be recognized in the accounts in the current period and separately disclosed in the income statement.<sup>111</sup>

## Other-than-temporary impairment

Many debt and equity securities have experienced significant declines in fair value. These declines in fair value may raise questions about whether such declines are other than temporary. The auditor should evaluate management's conclusion about the need to recognize in earnings an impairment loss for a decline in fair value that is other than temporary.<sup>112</sup>

In accordance with SFAS No. 115 (as amended), *Accounting for Certain Investments in Debt and Equity Securities*, a charge to earnings should be made for impairment that is "other than temporary" in held-to-maturity and available-for-sale securities.<sup>113</sup> SEC Staff Accounting Bulletin ("SAB") No. 59, *Accounting for Noncurrent Marketable Equity Securities*, also provides the SEC staff's view and indicates that "other than temporary" should not be interpreted to mean "permanent." SAB No. 59 provides examples of factors which, individually or in combinations, may indicate that a decline is other than temporary and that a write-down of the carrying value is required, including—

- The length of the time and the extent to which the market value has been less than cost;
- The financial condition and near-term prospects of the issuer, including any specific events which may influence the operations of the issuer such as changes in technology that may impair the earnings potential of the investment or the discontinuance of a segment of the business that may affect the future earnings potential; or
- The intent and ability of the holder to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in market value.

---

<sup>109</sup> Accounting Research Bulletin ("ARB") No. 43 (as amended), *Inventory Pricing*, chapter 4.

<sup>110</sup> ARB No. 43, chapter 4, paragraph 8.

<sup>111</sup> ARB No. 43, chapter 4, paragraph 17.

<sup>112</sup> AU sec. 332.46.

<sup>113</sup> Paragraph 16 of SFAS No. 115 (as amended), *Accounting for Certain Investments in Debt and Equity Securities*.

SAB No. 59 further provides that "[u]nless evidence exists to support a realizable value equal to or greater than the carrying value of the investment, a write-down accounted for as a realized loss should be recorded."

Additionally, under FASB Emerging Issues Task Force No. 99-20, *Recognition of Interest Income and Impairment on Purchased Beneficial Interests and Beneficial Interests That Continue to Be Held by a Transferor in Securitized Financial Assets*, certain beneficial interests should be written down to fair value through earnings if the security has declined below its cost and there has been an adverse change in the estimated cash flows based on a holder's best estimate of cash flows that a market participant would use in determining the fair value of the beneficial interest.<sup>114</sup>

## Pension and other postretirement benefits ("OPEB")

Increased credit risk and reduced liquidity in the current economic environment can have a significant effect on the fair value of plan assets as well as the assumptions used to measure the pension and OPEB obligation. Companies that sponsor pension and OPEB plans are required to recognize the funded status of these plans in the statement of financial position.<sup>115</sup> The funded status is measured as the difference between the fair value of plan assets and the benefit obligation.<sup>116</sup> SFAS No. 87 (as amended), *Employers' Accounting for Pensions*, and SFAS No. 106 (as amended), *Employers' Accounting for Postretirement Benefits Other Than Pensions*, generally require that plan investments, whether equity or debt securities, real estate or other, be measured at fair value as of the measurement date.<sup>117</sup> Therefore, the measurement requirements of SFAS No. 157 apply to defined-benefit postretirement plan assets. Several assumptions are relevant to determining a company's pension and OPEB obligation, such as discount rate, expected rate of return on plan assets, and rate of compensation increase. Significant declines in the stock market may adversely affect the fair value of the plan assets, and companies may need to consider recent shifts in the market when developing the expected rate of return on plan assets. Changes in fair value of plan assets affect the funded status of the plan.<sup>118</sup> Deviations from the expected rate of return on plan assets affect a company's pension or OPEB expenses in future periods,<sup>119</sup> unless gains and losses are recognized immediately.<sup>120</sup>

## Receivables

In the current economic environment, companies may face a heightened risk of non-collection of receivables. Evidence of this risk might be noted in an increase

<sup>116</sup> SFAS No. 158, paragraph 4a.

<sup>117</sup> Paragraph 49 of SFAS No. 87 (as amended), *Employers' Accounting for Pensions* and paragraph 65 of SFAS No. 106 (as amended), *Employers' Accounting for Postretirement Benefits Other Than Pensions*.

<sup>118</sup> SFAS No. 87, paragraph 35 and SFAS No. 106, paragraph 44A.

<sup>119</sup> SFAS No. 87, paragraph 34 and SFAS No. 106, paragraph 62.

<sup>120</sup> SFAS No. 87, paragraph 32 and SFAS No. 106, paragraph 59.

in days sales outstanding, the aging of receivables, or the amount of delinquent receivables.<sup>121</sup>

In addition for loans receivable, evidence of this risk might be rising loan delinquency and defaults and decreasing secondary market liquidity.<sup>122</sup> These situations can affect the risk of material misstatement in the valuation of a company's receivables and the auditor's evaluation of management's estimate of the allowance.

## Restructuring

Market events and their effect on liquidity have caused many companies to take actions such as restructuring to reduce costs. SFAS No. 146 (as amended), *Accounting for Costs Associated with Exit or Disposal Activities*, addresses financial accounting and reporting for costs associated with exit or disposal activities.<sup>123</sup> The risks of material misstatement may relate to recording costs in the improper period, incorrect measurement or presentation of restructuring liabilities and costs, or inadequate disclosures. Misstatements could result in understatement or overstatement of restructuring liabilities and costs.

## Revenue recognition

In the current economic environment, companies may be faced with increased pressure to meet revenue targets and analysts' expectations. These pressures may cause companies to change business practices, which could affect the amount and timing of revenue recognition. Examples of business practices that could affect revenue recognition and the necessary audit procedures include, among other things, rights of return, bill-and-hold arrangements, change in payment terms, side agreements, and consignment arrangements. Also, the auditor should ordinarily presume that there is a risk of material misstatement due to fraud relating to revenue recognition.<sup>124</sup>

## Share-based payments

Current market conditions have resulted in volatile stock prices for many companies. As a result, some companies may consider modifying share-based payment awards. In addition, the changing economic environment may affect the assumptions used when valuing such awards.

---

<sup>121</sup> Scott Malone, "Corporate America Taking Longer to Collect: Study" (August 24, 2008), (<http://www.reuters.com/article/reutersEdge/idUSN2745047620080827>), noted that it is taking companies longer to collect from their customers.

<sup>122</sup> SFAS No. 114 (as amended), *Accounting by Creditors for Impairment of a Loan—an amendment of FASB Statements no. 5 and 15*, addresses the accounting by creditors for impairment of a loan by specifying how allowances for credit losses related to certain loans should be determined.

<sup>123</sup> As described in paragraph 2a of SFAS No. 146 (as amended), *Accounting for Costs Associated with Exit or Disposal Activities*, SFAS No. 146 does not change the accounting for termination benefits, including one-time termination benefits granted in the form of an enhancement to an ongoing benefit arrangement, covered by SFAS No. 87, SFAS No. 88 (as amended), *Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits*, SFAS No. 106, and SFAS No. 112 (as amended), *Employers' Accounting for Postemployment Benefits—an amendment of FASB Statements No. 5 and 43*. FSP No. FAS 146-1 (as amended), *Determining Whether a One-Time Termination Benefit Offered in Connection with an Exit or Disposal Activity Is, in Substance, an Enhancement to an Ongoing Benefit Arrangement*, provides guidance on when additional termination benefits offered in connection with an exit or disposal activity are considered, in substance, enhancements to an ongoing benefit arrangement and, therefore, subject to the provisions SFAS Nos. 87, 88, 106 and 112. In addition, SFAS No. 144 addresses accounting for long-lived assets and disposal groups to be disposed of, including components of a company that are discontinued operations.

<sup>124</sup> AU 316.41.

The valuation of share-based payment awards under an option-pricing model includes significant estimates, such as expected term, pre-vesting forfeiture rate and the expected volatility of the underlying stock price. For new grants of awards, companies may need to revise these and other inputs to reflect current expectations. For example, expected volatility in an option-pricing model may be affected by recent volatility in the markets. Assumptions used in the option pricing model affect the value of the award and, consequently, the compensation expense that is recognized in the financial statements.

Modifications of share-based payment awards may result in the recognition of incremental compensation cost. Incremental compensation cost is measured as the excess, if any, of the fair value of the modified award over the fair value of the original award immediately before its terms are modified.<sup>125</sup>

PCAOB Staff Questions and Answers ("Q&A"), *Auditing the Fair Value of Share Options Granted to Employees*, remains relevant in the current environment and reminds auditors of their responsibilities for auditing share-based payments including consideration of—

- The company's process,
- Risk factors,
- Model selection,
- Assumptions used in option-pricing models,
- Validation of data and the option-pricing model,
- Role of specialists.<sup>126</sup>

In discussing the auditor's responsibilities for auditing the fair value of share options granted to employees, the Q&A refers the auditor to AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, AU sec. 328, *Auditing Fair Value Measurements and Disclosures*, AU sec. 336, *Using the Work of a Specialist*, and AU sec. 342, *Auditing Accounting Estimates*.

## .04 Staff Audit Practice Alert No. 4

# ***Auditor Considerations Regarding Fair Value Measurements, Disclosures, and Other-Than-Temporary Impairments***

April 21, 2009

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Staff Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

On April 9, 2009, the Financial Accounting Standards Board ("FASB") issued three FASB Staff Positions ("FSP" or, collectively, "the FSPs"):

- FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* ("FSP FAS 157-4")
- FSP FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments* ("FSP FAS 115-2")
- FSP FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments* ("FSP FAS 107-1")<sup>1</sup>

The objectives of these FSPs are to: (1) provide "additional guidance for estimating fair value in accordance with FASB Statement No. 157, *Fair Value Measurements*, when the volume and level of activity for the asset or liability have significantly decreased" including "guidance on identifying circumstances that indicate a transaction is not orderly;"<sup>2</sup> (2) amend "the other-than-temporary impairment guidance in U.S. GAAP for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial

---

<sup>1</sup> The respective FSPs are available at:

— [http://www.fasb.org/pdf/fsp\\_fas157-4.pdf](http://www.fasb.org/pdf/fsp_fas157-4.pdf)  
— [http://www.fasb.org/pdf/fsp\\_fas115-2andfas124-2.pdf](http://www.fasb.org/pdf/fsp_fas115-2andfas124-2.pdf)  
— [http://www.fasb.org/pdf/fsp\\_fas107-1andapb28-1.pdf](http://www.fasb.org/pdf/fsp_fas107-1andapb28-1.pdf)

<sup>2</sup> FSP FAS 157-4, paragraph 1.

statements,"<sup>3</sup> and (3) "require disclosures about fair value of financial instruments for interim reporting periods for publicly traded companies as well as in annual financial statements."<sup>4</sup>

The purpose of this staff audit practice alert is to inform auditors about potential implications of the FSPs on reviews of interim financial information and annual audits. This alert addresses the following topics: (1) reviews of interim financial information ("reviews"); (2) audits of financial statements, including integrated audits; (3) disclosures; and (4) auditor reporting considerations. While this alert highlights certain areas, it is not intended to serve as a substitute for the relevant auditing standards.

In considering the effects of the FSPs on their audits and reviews, auditors should be aware that some PCAOB standards include descriptions of accounting requirements that are no longer current. The accounting standards set by the FASB are recognized by the U.S. Securities and Exchange Commission ("SEC") as generally accepted.<sup>5</sup> Auditors should look to those standards and to the requirements of the SEC,<sup>6</sup> rather than the standards of the PCAOB, for current accounting requirements and disregard descriptions of accounting requirements in PCAOB standards that are inconsistent with the FSPs. The PCAOB has a project on its standards-setting agenda to address the auditing standards related to auditing accounting estimates and auditing fair value measurements. In connection with this project, the PCAOB is planning to remove descriptions of accounting requirements from these standards. In general, as the PCAOB replaces or substantively revises its interim standards, it will continue to remove descriptions of accounting requirements from those auditing standards.

## Reviews of Interim Financial Information

The objective of a review is to provide the auditor with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles ("GAAP"). A review differs significantly from an audit and consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters.<sup>7</sup> A review does not provide a basis for expressing an opinion about whether the financial statements are presented fairly, in all material respects, in conformity with GAAP.<sup>8</sup> For an audit, PCAOB standards require that the auditor plan and

---

<sup>3</sup> FSP FAS 115-2, paragraph 2. This FSP does not amend existing recognition and measurement guidance related to other-than-temporary impairment of equity securities. On April 14, 2009, the SEC's staff released Staff Accounting Bulletin ("SAB") No. 111, *Other Than Temporary Impairment of Certain Investments in Equity Securities*, which amends SAB Topic 5.M. SAB Topic 5.M. now excludes debt securities from its scope while maintaining the SEC staff's views related to equity securities.

<sup>4</sup> FSP FAS 107-1, paragraph 1.

<sup>5</sup> SEC, *Policy Statement: Reaffirming the Status of the FASB as a Designated Private-Sector Standard Setter*, Exchange Act Release No. 34-47743 (April 25, 2003). The PCAOB has no authority to prescribe the form or content of an issuer's financial statements. Accordingly, while this staff audit practice alert describes applicable generally accepted accounting principles ("GAAP"), it does not establish or interpret GAAP.

<sup>6</sup> Auditors should look to the requirements of the SEC for the company under audit with respect to the accounting principles applicable to that company. See AU sec. 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*.

<sup>7</sup> Paragraph .07 of AU sec. 722, *Interim Financial Information* ("AU sec. 722").

<sup>8</sup> *Ibid.*

perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.<sup>9</sup>

As part of the review, the auditor should, among other things, make inquiries of members of management who have responsibility for financial and accounting matters. If relevant to the company, the auditor should include in these inquiries questions about the implementation of the FSPs.<sup>10</sup>

The auditor also should determine whether any matters described in AU sec. 380, *Communication With Audit Committees* ("AU sec. 380"), as they relate to the interim financial information, have been identified.<sup>11</sup> If such matters have been identified, the auditor should communicate those matters to the audit committee or be satisfied, through discussion with the audit committee, that management has communicated such matters to the audit committee.<sup>12</sup> Matters to be communicated include: a change in a significant accounting policy affecting the interim financial information; accounting estimates and management's judgments about those accounting estimates; processes management uses to formulate sensitive accounting estimates; and the auditor's judgment about the quality, not just the acceptability, of the company's accounting policies.<sup>13</sup> Depending upon the circumstances, the implementation of the FSPs may present matters that should be communicated to the audit committee.

## Audits of Financial Statements, Including Integrated Audits

FSP FAS 157-4 provides additional guidance for estimating fair value when the volume and level of activity for an asset or liability have significantly decreased.<sup>14</sup> In performing procedures under AU sec. 328, *Auditing Fair Value Measurements and Disclosures* ("AU sec. 328"), the auditor is required to, among other things, obtain an understanding of the company's process for determining fair value measurements and disclosures and of the relevant controls sufficient to assess the risk of material misstatement, and to plan the nature, timing, and extent of the audit procedures.<sup>15</sup> Based on the auditor's assessment of the risk of material misstatement, the auditor should test the entity's fair value measurements and disclosures.<sup>16</sup> Because of the wide range of possible fair value measurements, from relatively simple to complex, and the varying levels of risk of material misstatement associated with the process for determining fair values, the auditor's planned audit procedures can vary significantly in nature, timing, and extent.<sup>17</sup> The auditor's substantive tests of the fair value measurements may involve (a) testing management's significant assumptions, the valuation model, and the underlying data, (b) developing independent fair value estimates for corroborative purposes, or (c) reviewing subsequent events and transactions.<sup>18</sup>

---

<sup>9</sup> Paragraph .08 of AU sec. 508, *Reports on Audited Financial Statements*. An audit includes, among other things, examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements.

<sup>10</sup> AU sec. 722.18(c).

<sup>11</sup> AU sec. 722.34.

<sup>12</sup> *Ibid.*

<sup>13</sup> AU secs. 380.07-.08, AU sec. 380.11, and AU sec. 722.34.

<sup>14</sup> FSP FAS 157-4, paragraphs 12-16.

<sup>15</sup> AU secs. 328.09 and 328.13.

<sup>16</sup> AU sec. 328.23.

<sup>17</sup> *Ibid.*

<sup>18</sup> *Ibid.*

FSP FAS 115-2 amends the guidance for recognizing an other-than-temporary impairment ("OTTI") for a debt security.<sup>19</sup> The auditor is required to evaluate a company's conclusions about the need to recognize an impairment loss.<sup>20</sup> When a company has recognized an impairment loss, the auditor should gather evidence supporting the amount of the impairment adjustment recorded and determine whether the company has appropriately followed GAAP.<sup>21</sup> In certain circumstances, a company is required to separate the amount of the OTTI representing credit losses (as defined by FSP FAS 115-2) and the amount representing all other factors.<sup>22</sup> In those situations, the auditor's objective is to obtain sufficient competent evidential matter to provide reasonable assurance that these estimates are reasonable in the circumstances and that they are presented and disclosed in conformity with GAAP.<sup>23</sup> In evaluating reasonableness, the auditor should obtain an understanding of how the company developed the estimates.<sup>24</sup> In addition, the auditor should discuss an accounting change due to FSP FAS 115-2 and other related topics (as described in the previous section related to interim financial information), with the audit committee in connection with the audit of the financial statements, including integrated audits.<sup>25</sup>

## Disclosures

The FSPs require additional disclosures regarding fair value measurements and OTTI. For example (1) FSP FAS 157-4 requires a company to disclose changes in valuation techniques and related inputs for fair value measurements in interim and annual periods and to provide additional disclosures under Statement No. 157, *Fair Value Measurements*<sup>26</sup> and (2) FSP FAS 115-2 requires a company to disclose information that enables users to understand the reasons that a portion of OTTI was not recognized in earnings and the methodology and significant inputs used to calculate the portion of OTTI that was recognized in earnings.<sup>27</sup> The auditor should evaluate whether the financial statement disclosures are in conformity with the FSPs.<sup>28</sup>

In addition, the auditor should read the other information accompanying the interim and annual financial statements contained in reports filed with the SEC.<sup>29</sup> For example, the Management's Discussion and Analysis of Financial Condition and Results of Operations section of annual reports and other filings might include discussions regarding fair value measurements and OTTI.<sup>30</sup> The

<sup>21</sup> *Ibid.*

<sup>22</sup> FSP FAS 115-2, paragraphs 29-30.

<sup>23</sup> Paragraph .07 of AU sec. 342, *Auditing Accounting Estimates*.

<sup>24</sup> AU sec. 342.10.

<sup>25</sup> AU secs. 380.07 and 380.11. Also, Section 10A(k) of the Securities and Exchange Act of 1934 requires the auditor to communicate certain matters to the audit committee.

<sup>26</sup> FSP FAS 157-4, paragraph 20.

<sup>27</sup> FSP FAS 115-2, paragraph 38.

<sup>28</sup> The auditor considers whether a particular matter should be disclosed in light of the circumstances and facts of which the auditor is aware at the time. See paragraph .02 of AU sec. 431, *Adequacy of Disclosure in Financial Statements*.

<sup>29</sup> AU sec. 722.18(f) and paragraph .04 of AU sec. 550, *Other Information in Documents Containing Audited Financial Statements* ("AU sec. 550").

<sup>30</sup> For example, see the discussion of critical accounting policies and critical accounting estimates, respectively, in SEC Release Nos. 33-8040, *Cautionary Advice Regarding Disclosure About Critical Accounting Policies* (December 12, 2001) and 33-8350, *Commission Guidance Regarding Management's Discussion and Analysis of Financial Condition and Results of Operations* (December 29, 2003).

auditor should consider whether that information or the manner of its presentation is materially inconsistent with the financial statements. If the auditor concludes that there is a material inconsistency, or becomes aware of information that he or she believes is a material misstatement of fact, the auditor should determine if the financial statements, the audit report, or both require revision. If the auditor concludes that the financial statements or audit report do not require revision, the auditor should request the company to revise the other information.<sup>31</sup>

## Auditor Reporting Considerations

FSP FAS 157-4 states that revisions resulting from a change in the valuation technique or its application are to be accounted for as a change in accounting estimate. In the period of adoption, entities are required to disclose a change, if any, in valuation technique and related inputs and quantify the total effect, if practicable, by major category.<sup>32</sup> In addition, FSP FAS 115-2 requires the company to recognize the cumulative effect of initially applying the FSP as an adjustment to the opening balance of retained earnings, as of the beginning of the period in which FSP FAS 115-2 is adopted, with a corresponding adjustment to accumulated other comprehensive income.<sup>33</sup>

The auditor should evaluate whether the company's accounting for and disclosure of the changes are in accordance with the FSPs. To identify consistency matters that might affect the auditor's report, the auditor should evaluate whether the comparability of the financial statements between periods has been materially affected by changes in accounting principles. A change in accounting principle that has a material effect on the financial statements should be recognized in the auditor's report through the addition of an explanatory paragraph following the opinion paragraph.<sup>34</sup>

## .05 Staff Audit Practice Alert No. 5

# ***Auditor Considerations Regarding Significant Unusual Transactions***

April 7, 2010

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Staff Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

During the course of an audit, the auditor may become aware of significant transactions that are outside the normal course of business for the company, or that otherwise appear to be unusual given the auditor's understanding of the company and its environment ("significant unusual transactions").<sup>1</sup> Significant unusual transactions, especially those close to period end that pose difficult "substance over form" questions, can provide opportunities for companies to engage in fraudulent financial reporting.<sup>2</sup> Further, the auditor's evaluation of whether the company's financial statements are presented fairly, in all material respects, in conformity with the applicable financial reporting framework, includes the consideration of the financial statement presentation and disclosure of significant unusual transactions.<sup>3</sup>

The auditor should gain an understanding of the business rationale or such transactions and whether that rationale (or the lack thereof) suggests that the transactions may have been entered into to engage in fraudulent financial reporting or conceal a misappropriation of assets.<sup>4</sup> The audit engagement team might consult with individuals having appropriate levels of knowledge, competence, and judgment regarding significant unusual transactions.<sup>5</sup> Such consultations regarding significant unusual transactions should occur in accordance with the firm's policies and procedures. The auditor should determine that the audit committee is informed about the methods used to account for significant

---

<sup>1</sup> Paragraph .66 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>2</sup> AU sec. 316.85.

<sup>3</sup> Paragraph .04 of AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, notes financial statements are materially misstated when they contain misstatements whose effect, individually or in the aggregate, is important enough to cause them not to be presented fairly, in all material respects, in conformity with generally accepted accounting principles.

<sup>4</sup> AU sec. 316.66.

<sup>5</sup> Paragraph .19 of QC sec. 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*.

unusual transactions.<sup>6</sup> In addition, the engagement quality reviewer cannot provide concurring approval of issuance if he or she is aware of a significant engagement deficiency, including those regarding significant unusual transactions.<sup>7</sup>

## Introduction

Staff Audit Practice Alert No. 3, *Audit Considerations in the Current Economic Environment* ("Practice Alert No. 3"), was issued in December 2008 to assist auditors in identifying matters related to the current economic environment that might affect audit risk and require additional emphasis.<sup>8</sup> Practice Alert No. 3 reminds auditors that the auditors' response to the risks of material misstatement due to fraud includes evaluating the business rationale for significant unusual transactions. In the staff's view, although the economic conditions have changed since December 2008, the risk factors, including the risks of significant unusual transactions, that existed in December 2008 continue to exist today and may affect the risk of material misstatement.

The existing standards of the PCAOB contain a variety of requirements related to significant, unusual, or complex transactions, or a combination thereof. The purpose of this staff audit practice alert is to complement Practice Alert No. 3 by compiling selected, relevant requirements from existing PCAOB auditing standards regarding significant unusual transactions into one document. While this alert summarizes certain areas with respect to significant unusual transactions, it is not intended to, and does not, serve as a substitute for the relevant standards of the PCAOB. Nor does this alert change the auditor's responsibilities regarding significant, unusual, or complex transactions. This alert reminds auditors of certain responsibilities with respect to significant unusual transactions and assists auditors in assessing and responding to the risks of material misstatement associated with these transactions during reviews of interim financial information and audits of financial statements, including integrated audits.

This alert groups the existing requirements for significant unusual transactions into the following categories: (1) identifying and assessing risks of material misstatement, (2) responding to risks of material misstatement, (3) consulting others, (4) evaluating financial statement presentation and disclosure,<sup>9</sup> (5) communicating with audit committees, and (6) reviewing interim financial information.

## Identifying and Assessing Risks of Material Misstatement

The auditor's identification of significant unusual transactions is informed by the performance of audit procedures and the auditor's knowledge of the

---

<sup>6</sup> Paragraph .07 of AU sec. 380, *Communication With Audit Committees*.

<sup>7</sup> Paragraphs 12 and 17 of Auditing Standard No. 7, *Engagement Quality Review*. AS No. 7 is effective for audits of financial statements and reviews of interim financial information for fiscal years beginning on or after December 15, 2009.

<sup>8</sup> Staff Audit Practice Alert No. 3 is available at [http://pcaobus.org/Standards/QandA/12-05-2008\\_APA\\_3.pdf](http://pcaobus.org/Standards/QandA/12-05-2008_APA_3.pdf).

<sup>9</sup> The PCAOB has no authority to prescribe the form or content of an issuer's financial statements. Accordingly, while this staff audit practice alert describes authoritative accounting guidance, it does not establish or interpret that accounting guidance. See Staff Questions and Answers, References to Authoritative Accounting Guidance in PCAOB Standards, available at [http://pcaobus.org/Standards/QandA/2009-09-02\\_FASB\\_Codification.pdf](http://pcaobus.org/Standards/QandA/2009-09-02_FASB_Codification.pdf).

company's business and industry. The auditor should obtain knowledge of matters that relate to the nature of the company's business, its organization, and its operating characteristics.<sup>10</sup> Such matters include, for example, the type of business, types of products and services, and related parties.<sup>11</sup> The auditor also should consider matters affecting the industry in which the company operates, such as accounting practices common to the industry, competitive conditions, and financial trends and ratios.<sup>12</sup>

The auditor should consider whether the information obtained about the company and its environment indicates that one or more fraud risk factors are present, including significant unusual transactions.<sup>13</sup> The auditor also should consider identified fraud risk factors in identifying and assessing risks of material misstatement due to fraud.<sup>14</sup> In obtaining the information needed to identify risks of material misstatement due to fraud, the auditor, among other things, should inquire of others within the company about the existence or suspicion of fraud, including, for example, employees involved in initiating, recording, or processing significant unusual transactions.<sup>15</sup> The auditor also should perform analytical procedures when planning the audit with one objective being the identification of significant unusual transactions.<sup>16</sup> The auditor's assessment of the risks of material misstatement due to fraud, including those regarding significant unusual transactions, should be ongoing throughout the audit.<sup>17</sup>

The auditor should take into account the results of the fraud risk assessment when planning and performing an audit of internal control over financial reporting.<sup>18</sup> The auditor should evaluate whether the company's controls (including controls over significant unusual transactions, particularly those that result in late or unusual journal entries) sufficiently address the identified risks of material misstatement due to fraud and controls intended to address the risk of management override of other controls.<sup>19</sup>

## Responding to Risks of Material Misstatement

When the auditor has concluded that there is a significant risk of material misstatement of the financial statements, the auditor should consider this conclusion in determining the nature, timing, or extent of procedures; assigning staff; or requiring appropriate levels of supervision.<sup>20</sup> The auditor's response to the assessment of the risks of material misstatement of the financial statements due to fraud is influenced by the nature and significance of the risks identified as being present and the company's programs and controls that address these identified risks.<sup>21</sup>

---

<sup>10</sup> Paragraph .07 of AU sec. 311, *Planning and Supervision*.

<sup>11</sup> *Ibid.*

<sup>12</sup> *Ibid.*

<sup>13</sup> AU sec. 316.32.

<sup>14</sup> *Ibid.*

<sup>15</sup> AU sec. 316.24-25.

<sup>16</sup> AU sec. 316.28.

<sup>17</sup> AU sec. 316.68.

<sup>18</sup> Paragraph 14 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

<sup>19</sup> *Ibid.*

<sup>20</sup> AU secs. 312.17 and 316.50.

<sup>21</sup> AU sec. 316.47.

The auditor's response to the assessment of the risks of material misstatement due to fraud involves the application of professional skepticism in gathering and evaluating audit evidence.<sup>22</sup> Because of the characteristics of fraud, the auditor's exercise of professional skepticism is important when considering the risk of material misstatement due to fraud associated with significant unusual transactions.<sup>23</sup>

As part of the overall responses to the risks of material misstatement due to fraud, the auditor should consider management's selection and application of significant accounting principles, including those related to significant unusual transactions.<sup>24</sup> In this respect, the auditor may have a greater concern about whether the accounting principles selected and policies adopted are being applied in an inappropriate manner to create a material misstatement of the financial statements.<sup>25</sup> The auditor should consider whether their collective application indicates a bias that might create a material misstatement of the financial statements.<sup>26</sup> In examining journal entries and other adjustments for evidence of possible material misstatement due to fraud, the auditor should consider that inappropriate entries or adjustments may be applied to accounts that contain significant unusual transactions.<sup>27</sup> The auditor also should evaluate whether analytical procedures that were performed in the overall review stage of the audit indicate a previously unrecognized risk of material misstatement resulting from significant unusual transactions.<sup>28</sup>

In evaluating whether the business rationale (or the lack thereof) for significant unusual transactions suggests that the transactions may have been entered into to engage in fraudulent financial reporting or conceal misappropriation of assets, the auditor should consider:

- Whether the form of such transactions is overly complex;
- Whether management has discussed the nature of and accounting for such transactions with the audit committee or board of directors;
- Whether management is placing more emphasis on the need for a particular accounting treatment than on the underlying economics of the transaction;
- Whether transactions that involve unconsolidated related parties, including special purpose entities, have been properly reviewed and approved by the audit committee or board of directors; and
- Whether the transactions involve previously unidentified related parties or parties that do not have the substance or the financial strength to support the transaction without assistance from the company under audit.<sup>29</sup>

If the company has entered into a significant unusual transaction and the combined assessed level of inherent and control risk is high, in addition to

---

<sup>22</sup> AU sec. 316.13. In addition, paragraphs .07-.09 of AU sec. 230, *Due Professional Care in the Performance of Work*, notes that due professional care requires the auditor to exercise professional skepticism.

<sup>23</sup> *Ibid.*

<sup>24</sup> AU sec. 316.50.

<sup>25</sup> *Ibid.*

<sup>26</sup> *Ibid.*

<sup>27</sup> AU secs. 316.58 and .61.

<sup>28</sup> AU sec. 316.69.

<sup>29</sup> AU secs. 316.66-67.

examining documentation held by the company, the auditor should consider confirming the terms and amounts of the transaction with the other parties.<sup>30</sup> The auditor also should obtain an understanding of the substance of the transaction to determine the appropriate information to include on the confirmation request.<sup>31</sup>

The auditor must identify all significant findings or issues (including significant unusual transactions) in an engagement completion document.<sup>32</sup> The auditor must document actions taken to address significant unusual transactions (including additional evidence obtained), and the basis for the conclusions reached.<sup>33</sup> In addition, a principal auditor that decides not to make reference to the audit of another auditor, among other things, must obtain, review, and retain an engagement completion document from that auditor.<sup>34</sup>

## Engagement Quality Review

The engagement quality reviewer should review the engagement completion document and confirm with the engagement partner that there are no significant unresolved matters, including unresolved matters related to significant unusual transactions.<sup>35</sup> The engagement quality reviewer also should, among other things, evaluate whether (1) appropriate consultations have taken place on difficult or contentious matters, and review the documentation, including conclusions, of such consultations and (2) appropriate matters have been communicated, or identified for communication, to the audit committee, management, and other parties, such as regulatory bodies.<sup>36</sup>

## Consulting Others

A firm's policies and procedures should provide reasonable assurance that personnel refer to authoritative literature or other sources and consult, on a timely basis, with individuals within or outside the firm, when appropriate (for example, when dealing with significant unusual transactions).<sup>37</sup> Individuals consulted should have appropriate levels of knowledge, competence, judgment, and authority.<sup>38</sup> The nature of the arrangements for consultation depends on a number of factors, including the size of the firm and the levels of knowledge, competence, and judgment possessed by the persons performing the work.<sup>39</sup> In addition, procedures performed by filing reviewers for U.S. Securities and Exchange Commission ("SEC") filings by SEC registrants audited by foreign associated firms of registered firms that were members of the American Institute of Certified Public Accountants' SEC Practice Section should generally include discussing with the engagement partner any significant auditing, accounting, financial reporting, and independence matters that come to the attention of the filing reviewer, including how such matters were addressed and resolved.<sup>40</sup>

## Evaluating Financial Statement Presentation and Disclosure

The auditor's opinion that the financial statements are presented fairly in conformity with the applicable financial reporting framework should be based on whether:

- a. The accounting principles selected and applied have general acceptance;<sup>41</sup>
- b. The accounting principles are appropriate in the circumstances;
- c. The financial statements, including the related notes, are informative of matters that may affect their use, understanding, and interpretation;
- d. The information presented in the financial statements is classified and summarized in a reasonable manner, that is, neither too detailed nor too condensed; and
- e. The financial statements reflect the underlying transactions and events in a manner that presents the financial position, results of operations, and cash flows stated within a range of acceptable limits, that is, limits that are reasonable and practicable to attain in financial statements.<sup>42</sup>

The auditor's judgment concerning the "fairness" of the overall presentation of financial statements should be applied within the framework of generally accepted accounting principles.<sup>43</sup> Generally accepted accounting principles recognize the importance of reporting transactions and events in accordance with their substance.<sup>44</sup> The auditor should consider whether the substance of transactions or events, including significant unusual transactions, differs materially from their form.<sup>45</sup>

The presentation of financial statements in conformity with generally accepted accounting principles includes adequate disclosure of material matters.<sup>46</sup> An auditor considers whether a particular matter should be disclosed by management in light of the circumstances and facts of which he or she is aware at the time.<sup>47</sup> A basic tenet of the auditing standards of reporting states, "[i]nformative disclosures in the financial statements are to be regarded as reasonably adequate unless otherwise stated in the report."<sup>48</sup> If management omits from the financial statements, including the accompanying notes, information that is required by generally accepted accounting principles, the auditor should determine the effect on his or her audit report.<sup>49</sup> The auditor also may emphasize

---

<sup>41</sup> The auditor should look to the requirements of the SEC for the company under audit with respect to accounting principles applicable to that company. See Rule 4-01 of Regulation S-X.

<sup>42</sup> Paragraph .04 of AU sec. 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*.

<sup>43</sup> AU sec. 411.03.

<sup>44</sup> AU sec. 411.06.

<sup>45</sup> *Ibid.*

<sup>46</sup> Paragraph .02 of AU sec. 431, *Adequacy of Disclosure in Financial Statements*.

<sup>47</sup> *Ibid.* When an auditor becomes aware of information that relates to financial statements previously reported on by the auditor, but which was not known to the auditor at the date of the report, and which is of such a nature and from such a source that the auditor would have investigated it had it come to the auditor's attention during the course of the audit, the auditor should take the actions described in AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

<sup>48</sup> Paragraph .02 of AU sec. 150, *Generally Accepted Auditing Standards*, and AU sec. 431.01.

<sup>49</sup> AU sec. 431.03.

a matter regarding the financial statements in a separate paragraph of the auditor's report.<sup>50</sup>

In addition, the auditor should read the other information accompanying the interim and annual financial statements contained in reports filed with the SEC.<sup>51</sup> For example, the Management's Discussion and Analysis of Financial Condition and Results of Operations section of annual reports and other filings might include discussions regarding significant unusual transactions.<sup>52</sup> The auditor should consider whether that information or the manner of its presentation is materially inconsistent with the financial statements. If the auditor concludes that there is a material inconsistency, or becomes aware of information that he or she believes is a material misstatement of fact, the auditor should determine if the financial statements, the audit report, or both require revision. If the auditor concludes that the financial statements or audit report do not require revision, the auditor should request the company to revise the other information.<sup>53</sup>

## Communicating With Audit Committees

The auditor should determine that the company's audit committee is informed about the methods used to account for significant unusual transactions.<sup>54</sup> The auditor also should discuss with the audit committee the auditor's judgments about the quality, not just the acceptability, of the company's accounting principles as applied in its financial reporting.<sup>55</sup> The discussion should be open and frank and generally should include such matters as the clarity and completeness of the company's financial statements, which include related disclosures.<sup>56</sup> In addition, the discussion should include items that have a significant impact on the representational faithfulness, verifiability, and neutrality of the accounting information included in the financial statements.<sup>57</sup> Items that may have such an impact include significant unusual transactions.<sup>58</sup>

## Reviewing Interim Financial Information

The objective of a review of interim financial information is to provide the auditor with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles.<sup>59</sup> The objective of a review differs significantly from that of an audit of annual financial statements and consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters.<sup>60</sup> Certain

---

<sup>50</sup> Paragraph .19 of AU sec. 508, *Reports on Audited Financial Statements*.

<sup>51</sup> Paragraph 18(f) of AU sec. 722, *Interim Financial Information*, and paragraph .04 of AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*.

<sup>52</sup> For example, Item 303(a)(3)(i) of Regulation S-K instructs management to "[d]escribe any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported income from continuing operations and, in each case, indicate the extent to which income was so affected."

<sup>53</sup> AU secs. 550.04-05.

<sup>54</sup> AU sec. 380.07.

<sup>55</sup> AU sec. 380.11.

<sup>56</sup> *Ibid*

<sup>57</sup> *Ibid*.

<sup>58</sup> *Ibid*.

<sup>59</sup> AU sec. 722.07.

<sup>60</sup> *Ibid*.

auditing procedures may be performed concurrently with the review of interim financial information.<sup>61</sup> For example, there may be significant unusual transactions occurring during the interim period under review for which the auditing procedures needed for purposes of the audit of the annual financial statements could be performed, to the extent practicable, at the time of the interim review.<sup>62</sup>

During a review of interim financial information, the auditor should make inquiries of members of management who have responsibility for financial and accounting matters.<sup>63</sup> Specifically, the auditor should inquire about, among other things (a) significant unusual transactions that may have an effect on the interim financial information, and (b) significant unusual transactions occurring or recognized in the last several days of the interim period.<sup>64</sup> If the auditor becomes aware of information that leads him or her to believe that the interim financial information may not be in conformity with generally accepted accounting principles in all material respects, the auditor should make additional inquiries or perform other procedures that he or she considers appropriate to provide a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information.<sup>65</sup>

When conducting a review of interim financial information, the auditor also should determine whether significant unusual transactions have been identified.<sup>66</sup> If such transactions have been identified, the auditor should communicate them to the audit committee, or be satisfied, through discussion with the audit committee, that such matters have been communicated to them by management.<sup>67</sup>

## Standards-Setting Activities

The PCAOB has a project on its standards-setting agenda to address the auditing standards regarding related parties. In connection with that project, the PCAOB is evaluating its auditing standards regarding the consideration of significant unusual transactions. In addition, the PCAOB also has on its standards-setting agenda projects to address other standards referenced in this practice alert. Updates on these activities are available on the PCAOB's website. Relevant links are provided below:

## **.06 Staff Audit Practice Alert No. 6**

# ***Auditor Considerations Regarding Using the Work of Other Auditors and Engaging Assistants From Outside the Firm***

**July 12, 2010**

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Staff Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

## **Introduction**

The PCAOB staff has observed that a number of registered public accounting firms located in the United States ("U.S.") have been issuing audit reports on financial statements filed by issuers that have substantially all of their operations outside of the U.S. Although there is nothing inherently inappropriate about this, observations from the Board's inspection process suggest that some firms may not be conducting those audits in accordance with PCAOB standards. Specifically, some firms may be issuing audit reports based on the work of another firm, or by using the work of assistants engaged from outside of the firm, without complying with relevant PCAOB standards.

The circumstances in which such conduct occurs often involve issuers that are incorporated in the U.S. (and that file their annual reports with the Securities and Exchange Commission ("SEC") on Form 10-K), even though substantially all of their operations are in another country. In this context, a number of issuers have come to be incorporated in the U.S., and to have securities trading in the U.S., following a transaction in which an operating company in another country merges with a U.S. shell company that had previously registered its securities under the Securities Exchange Act of 1934.

The number of issuers that file financial statements audited by U.S. auditors, while having substantially all of their operations in another country, has increased in recent years. The demand for those audit services is met by U.S. registered public accounting firms of various sizes, including small firms.<sup>1</sup> The

<sup>1</sup> For example, in a 27-month period ending March 31, 2010, at least 40 U.S. registered public accounting firms with fewer than five partners and fewer than ten professional staff issued audit reports on financial statements filed with the SEC by companies whose operations were

*(continued)*

Board's inspection staff has observed some situations in which it appeared that U.S. registered public accounting firms that provided those auditing services did so by having all or most of the audit performed by another firm or by assistants engaged from outside the firm (including firms and assistants located in another country) without complying with PCAOB standards applicable to using the work and reports of another auditor and supervising assistants.<sup>2</sup> Prompted by those observations, this Alert is intended as a reminder to registered firms concerning a firm's obligations when using the work of other firms or using assistants engaged from outside the firm.

## Using the Work of Other Auditors

AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, establishes requirements that apply when an auditor of an issuer's financial statements "use[s] the work and reports of other independent auditors who have audited the financial statements of one or more subsidiaries, divisions, branches, components, or investments included in [that issuer's] financial statements."<sup>3</sup>

The Board's inspection staff has identified indications that some U.S. firms auditing issuers with substantially all of their operations in another country are not properly applying AU sec. 543. For example, in one situation, a U.S. firm engaged to audit such an issuer retained an accounting firm in the China region to perform audit procedures. In the year preceding the audit, the U.S. firm's managing partner and engagement partner traveled to the China region to meet with the issuer's board of directors, the issuer's management, and the other firm in order to gain an understanding of the issuer's business and processes and review with the other firm its audit process. The U.S. firm's personnel did not travel to the China region during the audit, and the audit procedures performed by the other firm constituted substantially all of the audit procedures on the issuer's financial statements. The firm in the China region did not issue a report, and substantially all of the audit documentation was maintained by the firm in the China region. Based on its view that AU sec. 543 applied and permitted it to do so, the U.S. firm issued an audit report stating that it had audited the financial statements and expressing an unqualified opinion on the financial statements. The inspection staff, however, concluded that it was inappropriate for the firm to serve as principal auditor and use the work of the other auditor pursuant to AU sec. 543.

---

*(footnote continued)*

substantially all in the China region. (As used in this Staff Audit Practice Alert, the term "China region" includes the People's Republic of China, Hong Kong Special Administrative Region, and Taiwan.) This trend has also attracted attention, and was a subject of discussion at a recent meeting of the Board's Standing Advisory Group (available beginning at minute 43:15 of the archived Webcast at <http://pcaobus.org/News/Webcasts/Documents/2010/pcaob-040710-p2.mp3>). This trend is not necessarily limited to the China region, and the discussion in this Staff Audit Practice Alert of issues associated with the U.S. registered public accounting firms' audits of companies whose operations were substantially all in the China region also is relevant to audits of companies located in other jurisdictions.

<sup>2</sup> Where appropriate, the Board follows up on indications of such misconduct with enforcement investigations, disciplinary proceedings, and sanctions. By law, these Board processes are nonpublic unless and until they result in a final disciplinary sanction taking effect. In one completed matter, the Board imposed sanctions in a case in which a U.S. firm used a significant amount of audit work performed by a Hong Kong firm without adequately coordinating its work with that of the Hong Kong firm. See *In the Matter of Clancy and Co., P.L.L.C., Jennifer C. Nipp, CPA, and Judith J. Clancy, CPA*, PCAOB Release No. 105-2009-001 (March 31, 2009). Referrals from the Board's inspection program to the Board's enforcement program relating to situations in which firms are using work of other firms or using assistants from outside the firm in connection with audits of foreign-based issuers have been on the rise.

<sup>3</sup> AU sec. 543.01.

## Identifying Circumstances in Which AU sec. 543 Applies

AU sec. 543 applies only to circumstances in which a firm would use the "work and reports of other independent auditors who have audited the financial statements of one or more subsidiaries, divisions, branches, components, or investments" of an issuer.<sup>4</sup> AU sec. 543 does not provide a way for an auditor to take responsibility for the work of another auditor that has essentially audited an issuer's financial statements in their entirety, even if the firm complies with the other requirements in AU sec. 543. AU sec. 543 does not apply to the use of another auditor's work if that work is anything other than an audit of the financial statements of one or more subsidiaries, divisions, branches, components, or investments of the issuer.

## Determining Whether to Serve as Principal Auditor

Even in circumstances where a firm has access to the work and reports of another auditor that has audited the financial statements of a subsidiary, division, branch, component, or investment, the firm cannot serve as principal auditor (and, accordingly, may not sign the audit report on the issuer's financial statements) unless the firm's own participation in the audit is sufficient.<sup>5</sup> In determining whether its participation is sufficient to serve as principal auditor, the firm "should consider, among other things, the materiality of the portion of the financial statements [the firm] audited in comparison with the portion audited by other auditors, the extent of [the auditor's] knowledge of the overall financial statements, and the importance of the components [the firm] audited in relation to the enterprise as a whole."<sup>6</sup> If an issuer has no significant operations other than those in another country, a registered public accounting firm that plays no significant part in the audit of the foreign operations is highly unlikely to have sufficient participation in the audit to serve as the issuer's principal auditor. A lack of sufficient participation cannot be overcome by using the work of the other auditor, even if the firm assumes responsibility for that work.

## Responsibilities of the Principal Auditor

In circumstances in which AU sec. 543 applies and in which the firm's own participation is sufficient to serve as principal auditor, the principal auditor must comply with the other requirements in AU sec. 543 relative to the firm's use of the work and reports of the other auditor,<sup>7</sup> including:

- *Determining the Method of Reporting*—The principal auditor must decide, taking certain factors into account, whether to express an opinion on the financial statements taken as a whole without making reference to the audit of the other auditor (thereby assuming responsibility for the work of the other auditor) or to make reference to the audit of the other auditor.<sup>8</sup>

---

<sup>4</sup> Ibid.

<sup>5</sup> See AU sec. 543.02.

<sup>6</sup> AU sec. 543.02. In an integrated audit, the auditor who serves as the principal auditor of the financial statements should also be the principal auditor of internal control over financial reporting ("ICFR") and so must participate sufficiently in the audit of ICFR to provide a basis for serving as the principal auditor of ICFR. See Paragraph C8 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

<sup>7</sup> AU sec. 543.03-.17.

<sup>8</sup> See AU sec. 543.03-.06.

- *Procedures Applicable to Both Methods of Reporting*—The principal auditor "should make inquiries concerning the professional reputation and independence of the other auditor [and] adopt appropriate measures to assure the coordination of [the principal auditor's] activities with those of the other auditor in order to achieve a proper review of matters affecting the consolidating or combining of accounts in the financial statements."<sup>9</sup>
- *Procedures Applicable When Assuming Responsibility*—If the principal auditor assumes responsibility for the work of the other auditor, the principal auditor "must obtain, and review and retain ... prior to the report release date", certain specific information from the other auditor, and should also consider "[visiting] the other auditor and [discussing] the audit procedures followed and results thereof; [reviewing] the audit programs of the other auditor [and, if appropriate, issuing] instructions to the other auditor as to the scope of the audit work; [and/or reviewing] additional audit documentation of the other auditor relating to significant findings or issues in the engagement completion document."<sup>10</sup>

If the principal auditor assumes responsibility for the work of other auditors, the principal auditor should determine whether the results of the principal auditor's own work, combined with the results of the work of other auditors, provide sufficient competent evidential matter to afford a reasonable basis for an audit opinion on the issuer's financial statements.<sup>11</sup> In developing an opinion, the principal auditor "should consider relevant evidential matter regardless of whether it appears to corroborate or to contradict the assertions in the financial statements."<sup>12</sup>

The principal auditor must exercise due professional care in the performance of the audit.<sup>13</sup> When the principal auditor assumes responsibility for the other auditor's work, the principal auditor's review of the audit documentation obtained from the other auditor<sup>14</sup> and performance of other required procedures may identify issues requiring additional consideration by the principal auditor, such as the following issues observed in some audits by the Board's inspection staff:

- The other auditor did not comply with instructions issued by the principal auditor.
- The other auditor identified an accounting or auditing issue that the other auditor did not resolve.
- The other auditor performed an audit in accordance with auditing standards other than the standards of the PCAOB.

---

<sup>9</sup> AU sec. 543.10. In connection with this point, both the principal auditor and auditors whose work and reports the principal auditor uses should be cognizant of PCAOB registration requirements. Under section 102(a) of the Sarbanes-Oxley Act of 2002 and PCAOB Rule 2100, *Registration Requirements for Public Accounting Firms*, an auditor whose work and report the principal auditor uses must be registered with the PCAOB if that auditor's work constitutes a substantial role in the preparation or furnishing of? the audit report on the issuer's financial statements, as defined in PCAOB Rule 1001(p)(ii), *Definitions of Terms Employed in Rules / Play a Substantial Role in the Preparation or Furnishing of an Audit Report*.

<sup>10</sup> AU sec. 543.12.

<sup>11</sup> See paragraph .02 of AU sec. 150, *Generally Accepted Auditing Standards*, and paragraph .08 of AU sec. 230, *Due Professional Care in the Performance of Work*.

<sup>12</sup> Paragraph .25 of AU sec. 326, *Evidential Matter*.

<sup>13</sup> See AU sec. 230.01.

<sup>14</sup> AU sec. 543.12 describes certain specific information that the principal auditor must obtain from the other auditor.

- The other auditor reported on the financial statements of a component that prepares its financial statements in accordance with a financial reporting framework<sup>15</sup> other than the framework used to prepare the financial statements of the issuer as a whole.

To the extent the principal auditor has substantial doubt about any financial statement assertion of material significance, the principal auditor "must refrain from forming an opinion until [the principal auditor] has obtained sufficient competent evidential matter to remove such substantial doubt, or ... must express a qualified opinion or a disclaimer of opinion."<sup>16</sup> For example, if the principal auditor determines that the work of the other auditor does not provide the necessary audit evidence, the principal auditor should take appropriate actions to obtain sufficient competent evidence, including "[participating] in discussions regarding the accounts with management personnel of the component whose financial statements are being audited by other auditors and/or [making] supplemental tests of such accounts."<sup>17</sup>

## Language Considerations

Appropriately satisfying the requirements described above necessarily entails overcoming any language barriers. If the appropriate supervisory personnel of the principal auditor are not sufficiently fluent in the language in which the audit documentation of the other auditor is prepared, the principal auditor must take the necessary actions to enable the principal auditor to fulfill its responsibilities in accordance with PCAOB standards. The principal auditor can neither omit the procedures described in AU sec. 543 because of language differences, nor satisfy those requirements by reference to documents that the principal auditor does not understand.

## Engaging Assistants from Outside the Firm

The previous section describes certain requirements in PCAOB standards that apply when a principal auditor uses the work and reports of other auditors who have audited the financial statements of one or more subsidiaries, divisions, branches, components, or investments included in the financial statements presented. In other situations, the auditor might engage assistants from outside the firm in performing the audit. The auditor's responsibilities related to the work of assistants engaged from outside the firm are governed by the same standards as the auditor's responsibilities related to the work of assistants who are associated with the auditor's firm as a partner, shareholder, or employee.

The Board's inspection staff has identified situations in which U.S. firms auditing companies with substantially all of their operations in another country appeared not to have appropriately executed their responsibilities with respect to the work of assistants engaged from outside of the firm. For example, in one situation, a U.S. firm retained the services of a consulting firm that had personnel who could read, write, and speak the language of the area, in the China region, in which the issuer's operations were located. Those consultants planned the audit, communicated with the issuer's management, and traveled to the China region to complete a substantial portion of the audit. None of

---

<sup>15</sup> U.S. generally accepted accounting principles and International Financial Reporting Standards are examples of a financial reporting framework. Auditors should look to the requirements of the SEC for the issuer under audit with respect to the accounting framework applicable to the issuer.

<sup>16</sup> AU sec. 326.25.

<sup>17</sup> AU sec. 543.13.

the U.S. firm's partners or employees traveled to the China region or planned, performed, supervised, or meaningfully reviewed the audit work. Procedures performed by the U.S. firm's engagement partner consisted primarily of reviewing certain work papers prepared by the consultants as well as issuer-prepared draft financial statements and lead schedules that had been translated into English. The inspection staff concluded that the level of the firm's involvement in the audit work performed by the consultants was not sufficient for the firm to assert that an audit had been performed by the firm and that the audit provided a reasonable basis for the firm to have an opinion on the financial statements.

As described further in this Alert, some key considerations in determining the appropriate level of the firm's involvement in audit work performed by assistants engaged from outside the firm (including planning, performing, and supervising the audit work) include, but are not limited to, the following:

- Whether the auditor would be able to obtain information about the knowledge, skill, and ability of the assistants engaged from outside the firm (including their knowledge of PCAOB standards and the relevant financial reporting requirements), and to evaluate the independence of the assistants engaged from outside the firm.
- Whether the auditor would be able to properly plan and supervise the work of the assistants engaged from outside the firm and whether the auditing procedures performed by such assistants, in combination with the work performed by individuals from within the firm, would provide sufficient competent evidential matter to afford a reasonable basis for an audit opinion.
- Whether the assistants engaged from outside the firm are located in the same country or speak the same language as the auditor or the auditor's client.
- Whether the auditor would be able to comply with the documentation requirements, including the preparation, assembly, and retention of documentation, with respect to the work performed by the assistants engaged from outside the firm.

## Knowledge, Skill, Ability, and Independence

As is the case when a registered public accounting firm deploys its own partners, shareholders, or employees on an audit, when a registered public accounting firm engages assistants from outside of the firm, the firm's engagement partner "is responsible for the assignment of tasks to, and supervision of, [those] assistants."<sup>18</sup> Those assistants, like all assistants, should be "assigned to tasks and supervised commensurate with their level of knowledge, skill, and ability,"<sup>19</sup> which necessarily requires the person who assigns and supervises the assistants to have an understanding of the level of knowledge, skill, and ability possessed by those assistants. The knowledge, skill, and ability of personnel assigned significant engagement responsibilities also should be commensurate

---

<sup>18</sup> AU sec. 230.06.

<sup>19</sup> *Ibid.* A registered public accounting firm has a responsibility to ensure that all individuals who perform audit procedures for which the firm is responsible, including assistants engaged from outside the firm, comply with the professional standards applicable to the firm's auditing practice (see QC sec. 20.03) and that work is assigned to individuals who have the degree of technical training and proficiency required in the circumstances (see QC sec. 20.13).

with the auditor's assessment of the level of risk for the engagement, including the risk of material misstatement due to fraud.<sup>20</sup> Ordinarily, higher risk requires the assignment of more experienced personnel or additional persons with specialized skills and knowledge, e.g., information technology or forensic specialists.<sup>21</sup>

As for independence, the registered public accounting firm must approach independence considerations concerning the assistants engaged from outside the firm as if they were employees of the firm.<sup>22</sup>

## Planning and Supervision

The registered public accounting firm is responsible for planning the audit, and for ensuring that the work of assistants is supervised and reviewed in accordance with PCAOB standards.

As the "auditor with final responsibility for the audit", as that term is used in paragraph .02 of AU sec. 311, *Planning and Supervision*, the registered public accounting firm's engagement partner is responsible for audit planning, which involves developing an overall strategy for the expected conduct and scope of the audit.<sup>23</sup> Procedures that an auditor may consider in planning the audit usually involve review of records relating to the company and discussions with assistants, including assistants engaged from outside the firm, and management of the company, the board of directors, or its audit committee.<sup>24</sup> "In planning the audit, the auditor should consider the nature, extent, and timing of work to be performed and should prepare a written audit program (or set of written audit programs)."<sup>25</sup>

"The auditor should obtain a level of knowledge of the [issuer's] business that will enable [the auditor] to plan and perform [the] audit in accordance with [PCAOB standards]."<sup>26</sup> "Knowledge of an [issuer's] business is ordinarily obtained through experience with the [issuer] or its industry and inquiry of personnel of the [issuer]."<sup>27</sup> Prior to, or in conjunction with, gathering information about the issuer's business, the engagement partner and key members of the audit team, including any engaged from outside the firm, should discuss the potential for material misstatement due to fraud.<sup>28</sup> The discussion should include, among other things, "an exchange of ideas or "brainstorming" ... about how and where [the auditor] believe[s] the [issuer's] financial statements might be susceptible to material misstatement due to fraud, how management could perpetrate and conceal fraudulent financial reporting, and how assets of the [issuer] could be misappropriated."<sup>29</sup>

---

<sup>20</sup> See paragraph .17 of AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, and paragraph .50 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>21</sup> Ibid.

<sup>22</sup> PCAOB standards require that policies and procedures be established to provide the firm with reasonable assurance that individuals who perform the audit maintain independence (in fact and in appearance) in all required circumstances, perform all professional responsibilities with integrity, and maintain objectivity in discharging professional responsibilities. (See QC sec. 20.09.)

<sup>23</sup> See AU sec. 311.03, and paragraph 9 of Auditing Standard No. 5.

<sup>24</sup> See AU sec. 311.04 (including examples of such procedures).

<sup>25</sup> AU sec. 311.05.

<sup>26</sup> AU sec. 311.06.

<sup>27</sup> AU sec. 311.08.

<sup>28</sup> See AU sec. 316.14 and AU sec. 316.17.

<sup>29</sup> AU sec. 316.14.

Appropriate supervision and review necessarily entails overcoming any language barriers. The engagement partner is responsible for the supervision of assistants, including any engaged from outside the firm.<sup>30</sup> "Elements of supervision include instructing assistants, keeping informed of significant problems encountered, reviewing the work performed, and dealing with differences of opinion ... The extent of supervision appropriate in a given instance depends on many factors, including the complexity of the subject matter and the qualifications of persons performing the work."<sup>31</sup> "Ordinarily, higher risk requires ... more extensive supervision by the [engagement partner] during both the planning and the conduct of the engagement."<sup>32</sup> Also, "the extent of supervision should reflect the risks of material misstatement due to fraud."<sup>33</sup> "The work performed by each assistant should be reviewed to determine whether it was adequately performed and to evaluate whether the results are consistent with the conclusions to be presented in the auditor's report."<sup>34</sup>

## Audit Documentation

The registered public accounting firm is responsible for ensuring that all audit documentation – including the documentation of the work of the assistants – necessary to meet the PCAOB's documentation requirements is prepared and retained.<sup>35</sup> Auditing Standard No. 3, *Audit Documentation*, "establishes general requirements for documentation the auditor should prepare and retain in connection with engagements conducted pursuant to the standards of the PCAOB."<sup>36</sup> Among other things, Auditing Standard No. 3 requires that the auditor "identify all significant findings or issues in an engagement completion document."<sup>37</sup> These requirements are applicable in situations in which the auditor engages, as assistants, individuals from outside the firm.

## Engagement Quality Review

"[T]he engagement quality reviewer should evaluate the significant judgments made by the engagement team and the related conclusions reached in forming the overall conclusion on the engagement and in preparing the [audit] report"<sup>38</sup> including "[reviewing] the engagement completion document and [confirming] with the engagement partner that there are no significant unresolved matters."<sup>39</sup> "[T]he firm may grant permission to the client to use the [audit] report only after the engagement quality reviewer provides concurring approval of issuance."<sup>40</sup>

---

<sup>30</sup> See AU sec. 230.06.

<sup>31</sup> AU sec. 311.11.

<sup>32</sup> AU sec. 312.17.

<sup>33</sup> AU sec. 316.50.

<sup>34</sup> AU sec. 311.13.

<sup>35</sup> See paragraph 18 of Auditing Standard No. 3, *Audit Documentation*.

<sup>36</sup> Paragraph 1 of Auditing Standard No. 3.

<sup>37</sup> Paragraph 13 of Auditing Standard No. 3.

<sup>38</sup> Paragraph 9 of Auditing Standard No. 7, *Engagement Quality Review*.

<sup>39</sup> Paragraph 10.e of Auditing Standard No. 7, *Engagement Quality Review*.

<sup>40</sup> Paragraph 13 of Auditing Standard No. 7.

## Standard-setting Activities

The Board has a project on its standard-setting agenda regarding the responsibilities of the principal auditor. The Board's Standing Advisory Group discussed this topic at its April 7-8, 2010 meeting.<sup>41</sup>

## .07 Staff Audit Practice Alert No. 7

# ***Auditor Considerations of Litigation and Other Contingencies Arising From Mortgage and Other Loan Activities***

December 20, 2010

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Staff Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

## **Background**

In the fall of 2010, allegations surfaced that banks may have misrepresented the quality of mortgages sold and that those banks could be required to repurchase the affected mortgages.<sup>1</sup> Additional allegations have been made that companies servicing \$6.4 trillion in American mortgages may have bypassed legally required steps to foreclose on homes.<sup>2</sup> Some of these practices could result in loss contingencies for certain financial institutions that may require recognition of liabilities or disclosure in financial statements.<sup>3</sup>

The situation remains fluid, with estimates of potential costs associated with foreclosure irregularities and mortgage repurchases ranging from "manageable" to an exposure for the industry of up to \$52 billion.<sup>4</sup> Some experts have acknowledged scenarios in which the title and legal documentation problems related to foreclosures could lead to significant effects on banks' balance sheets.<sup>5</sup>

Numerous federal and state agencies are coordinating their efforts to review practices that may not comply with state foreclosure laws or applicable federal

---

<sup>1</sup> Congressional Oversight Panel, *November Oversight Report* (November 16, 2010), available at: <http://cop.senate.gov/reports/library/report-111610-cop.cfm>.

<sup>2</sup> *Ibid.*

<sup>3</sup> Loss contingencies may include, among others, accruals for liabilities relating to representations and warranties made at the time loans were sold or for litigation costs.

<sup>4</sup> *November Oversight Report*, p. 52.

<sup>5</sup> *Ibid.*

laws<sup>6</sup> and to provide for better disclosures and improve transparency in the securitization market.

As part of the efforts to provide for better disclosures, in October 2010, the United States Securities and Exchange Commission's ("SEC") Division of Corporation Finance sent letters to certain public companies as a reminder of their disclosure obligations with respect to their forthcoming quarterly reports on Form 10-Q and subsequent filings. The letters highlighted continued concerns about potential risks and costs associated with mortgage and foreclosure-related activities or exposures. The sample letter posted to the SEC Web site stated that companies should consider certain items for disclosure, including, without limitation, "the impact of various representations and warranties regarding mortgages made to purchasers of the mortgages (or to purchasers of mortgage-backed securities) including to the government-sponsored entities (GSEs), private-label mortgage-backed security (MBS) investors, financial guarantors and other whole loan purchasers."<sup>7</sup>

The letters further reminded companies of the requirements for disclosures in Management's Discussion and Analysis for Forms 10-Q and 10-K under Item 303 of Regulation S-K and for accruing and disclosing loss contingencies in the financial statements under the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 450, Contingencies, Subtopic 450-20. Companies were reminded that, as appropriate, they should consider the need to accrue loss contingencies and to provide clear and transparent disclosure regarding obligations relating to the various representations and warranties that were made in connection with securitization activities and whole loan sales, and to discuss any implications of any foreclosure reviews, including potential delays in completing foreclosures. If applicable, these disclosures would address the company's role as an originator, securitizer, servicer, and investor.

The letters cautioned companies to consider a number of matters when preparing their quarterly and subsequent filings (e.g., litigation risks and uncertainties related to any known or alleged defects in the securitization process, including any potential defects in mortgage documentation or in the assignment of the mortgages). The letter also cautioned that some of these issues are not limited to financial institutions.

This practice alert advises auditors that the potential risks and costs associated with mortgage and foreclosure-related activities or exposures, such as those discussed in the SEC staff letters, could have implications for audits of financial statements or of internal control over financial reporting. These implications might include accounting for litigation or other loss contingencies and the related disclosures. Auditors should consider the effect of these matters during their reviews of interim financial information, year-end audits, and attestation engagements on assessments of compliance with servicing criteria.

Staff Audit Practice Alert No. 3, *Audit Considerations in the Current Economic Environment* ("Practice Alert No. 3"), was issued in December 2008 to assist auditors in identifying matters related to the current economic environment that might affect audit risk and require additional emphasis.<sup>8</sup> Among other things,

---

<sup>6</sup> White House, Office of the Press Secretary, *Fact Sheet: Federal Government Efforts to Support Accountability, Stability and Clarity in the Housing Market*, dated October 20, 2010.

<sup>7</sup> Neither companies nor public accounting firms should rely on the summary of the SEC staff letter in this practice alert, but should review the letter in its entirety. The SEC staff sample letter is available at: <http://www.sec.gov/divisions/corpfm/guidance/cforeclosure1010.htm>.

<sup>8</sup> Staff Audit Practice Alert No. 3 is available at: [http://pcaobus.org/Standards/QandA/12052008\\_APA\\_3.pdf](http://pcaobus.org/Standards/QandA/12052008_APA_3.pdf).

Practice Alert No. 3 provides auditors with information on selected financial reporting areas, including contingencies and guarantees that may be affected by the economic environment, and reminds auditors of the requirements regarding accounting estimates.

Audit risks that existed in December 2008 with respect to contingencies and guarantees, as well as potential other issues, continue to exist today. These audit risks potentially affect the risk of material misstatement, as evidenced by recent concerns regarding problematic foreclosures and asserted claims or potential litigation relating to representations and warranties made in connection with securitizations or whole loan sales. Auditors may need to consider the possible effects that these issues might have on the nature, timing, and extent of planned audit procedures.<sup>9</sup>

## Matters for the auditor's consideration

In light of continued concerns about potential risks and costs associated with mortgage and foreclosure-related activities or exposures, this practice alert reminds auditors of their responsibilities with respect to auditing loss contingencies, disclosures, and other related topics.

## Auditing Litigation, Claims, and Assessments

Companies that may be affected by mortgage and foreclosure-related activities or exposures may need to accrue for or provide disclosures relating to legal contingencies.<sup>10</sup>

AU sec. 337, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments*, establishes requirements with respect to litigation, claims, and assessments.<sup>11</sup> This standard states that in order to identify litigation, claims, and assessments, and to become satisfied with the accounting and reporting of such matters, the auditor should gather sufficient and appropriate audit evidence relevant to the following factors:

- The existence of a condition, situation, or set of circumstances indicating an uncertainty as to the possible loss to an entity arising from litigation, claims, and assessments;
- The period in which the underlying cause for legal action occurred;<sup>12</sup>
- The degree of probability of an unfavorable outcome; and
- The amount or range of potential loss.<sup>13</sup>

---

<sup>9</sup> Paragraph .33 of AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*.

<sup>10</sup> FASB ASC Subtopic 45020 requires companies to establish accruals for litigation and other contingencies when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. In an audit of a foreign private issuer ("FPI") whose financial statements are prepared in conformity with International Financial Reporting Standards ("IFRS"), the auditor should refer to applicable accounting and disclosure requirements of the International Accounting Standards Board ("IASB"). PCAOB standards apply regardless of the applicable financial reporting framework.

<sup>11</sup> AU sec. 337.01.

<sup>12</sup> According to paragraphs .01 and .04 of AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, when an auditor becomes aware of information that relates to financial statements previously reported on by the auditor, but which was not known to the auditor at the date of the report, and which is of such a nature and from such a source that the auditor would have investigated it had it come to the auditor's attention during the course of the audit, the auditor should take the actions described in AU sec. 561.

<sup>13</sup> AU sec. 337.04.

AU sec. 337 discusses the procedures the auditor should perform regarding litigation, claims, and assessments<sup>14</sup> and also states that although certain audit procedures may be undertaken for other purposes, they might also disclose litigation, claims, and assessments (e.g., reading minutes of meetings of stockholders, directors, and appropriate committees held during and subsequent to the period being audited; reading contracts, loan agreements, leases, and correspondence from taxing or other governmental agencies; or inspecting similar documents).<sup>15</sup> Further, the auditor should obtain a letter from the client's lawyer to assist the auditor in corroborating the information furnished by management concerning litigation, claims, and assessments.<sup>16</sup>

## Auditing Accounting Estimates

Companies involved in mortgage and foreclosure-related activities may need to estimate and accrue amounts for other potential loss contingencies including those related to various representations and warranties. AU sec. 342, *Auditing Accounting Estimates*, establishes requirements regarding obtaining and evaluating sufficient appropriate audit evidence for accounting estimates. In auditing accounting estimates, the auditor normally should consider the company's historical experience in making past estimates as well as the auditor's experience in auditing companies in the same industry.<sup>17</sup> However, changes in facts, circumstances, or a company's procedures may cause factors different from those considered in the past to become significant to the accounting estimate.<sup>18</sup> For example, a company's historical experience relating to repurchasing loans sold into securitization structures may not be indicative of future trends in that area.

According to AU sec. 342, when planning and performing procedures to evaluate the reasonableness of the company's accounting estimates, the auditor should consider, with an attitude of professional skepticism, the subjective and objective factors included in the estimate.<sup>19</sup> When evaluating accounting estimates relating to mortgage loan repurchase losses, such factors may include, among others, estimated levels of defects based on the company's review or experience, default expectations, investor repurchase demand, or appeal success rates.

## Evaluating Financial Statement Presentation and Disclosure

Information essential for a fair presentation in conformity with generally accepted accounting principles should be set forth in the financial statements (which include the related notes).<sup>20</sup> When such information is set forth elsewhere in a report to shareholders "it should be referred to in the financial statements."<sup>21</sup> If management omits from the financial statements, including the accompanying notes, information that is required by generally accepted accounting principles, the auditor should express a qualified or adverse opinion and should provide the information in the audit report, if practicable.<sup>22</sup>

---

<sup>14</sup> AU sec. 337.05.

<sup>15</sup> AU sec. 337.07.

<sup>16</sup> AU sec. 337.08.

<sup>17</sup> AU sec. 342.09.

<sup>18</sup> *Ibid.*

<sup>19</sup> AU sec. 342.04.

<sup>20</sup> Paragraph .41 of AU sec. 508, *Reports on Audited Financial Statements*.

<sup>21</sup> *Ibid.*

<sup>22</sup> Paragraph .03 of AU sec. 431, *Adequacy of Disclosure in Financial Statements*.

In addition, the auditor should read the other information accompanying the interim and annual financial statements contained in reports filed with the SEC,<sup>23</sup> including the Management's Discussion and Analysis of Financial Condition and Results of Operations sections of annual reports and other filings.<sup>24</sup> The auditor should consider whether that information or the manner of its presentation is materially inconsistent with the financial statements. If the auditor concludes that there is a material inconsistency or becomes aware of information that he or she believes is a material misstatement of fact, the auditor should determine if the financial statements, the audit report, or both, require revision. If the auditor concludes that the financial statements or audit report do not require revision, the auditor should request the company to revise the other information.<sup>25</sup>

FASB ASC Topic 450, Contingencies, Subtopic 450-20 requires that when a loss is not both probable and estimable, an accrual is not recorded, but disclosure of the contingency is required to be made when there is at least a reasonable possibility that a loss or an additional loss has been incurred.<sup>26</sup> Companies involved in mortgage and foreclosure-related activities or exposures may need to establish new disclosures or enhance existing disclosures regarding litigation and other contingencies or estimates. For example, companies that sold or securitized loans but may not have complied with representations and warranties may be at risk of being forced to repurchase such loans. These companies may need to disclose or enhance their existing disclosures regarding the nature, timing, and uncertainty of their potential exposures as additional claims arise and are resolved.

## Communication with Audit Committees

To the extent potential risks and costs associated with mortgage and foreclosure-related activities or exposures are identified, auditors are reminded of their responsibility to communicate with the audit committee. AU sec. 380, *Communication With Audit Committees*, includes requirements regarding communications relating to management judgments and accounting estimates.<sup>27</sup> Other communication with the audit committee includes such matters as the clarity and completeness of the company's financial statements, which include related disclosures<sup>28</sup> and a discussion of items that have a significant impact on the representational faithfulness, verifiability, and neutrality of the accounting information included in the financial statements.<sup>29</sup> For example, in appropriate circumstances, this discussion would include the auditor's view on disclosures relating to representations and warranties that were made in connection with securitization activities.

---

<sup>23</sup> Paragraph .18(f) of AU sec. 722, *Interim Financial Information*, and paragraph .04 of AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*.

<sup>24</sup> For example, Item 303(a)(1) of Regulation S-K instructs management to "[i]dentify any known trends or any known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the registrant's liquidity increasing or decreasing in any material way."

<sup>25</sup> AU secs. 550.04–05.

<sup>26</sup> In an audit of a FPI whose financial statements are prepared in conformity with IFRS, the auditor should refer to applicable accounting and disclosure requirements of the IASB. PCAOB standards apply regardless of the applicable financial reporting framework.

<sup>27</sup> AU sec. 380.08.

<sup>28</sup> AU sec. 380.11.

<sup>29</sup> *Ibid.*

## Reviewing Interim Financial Information

The objective of a review of interim financial information is to provide the auditor with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles.<sup>30</sup> AU sec. 722, *Interim Financial Information*, requires the auditor to make inquiries regarding unusual or complex situations that may have an effect on the interim information.<sup>31</sup> These situations may include changes in estimated loss contingencies as well as trends and developments affecting accounting estimates.<sup>32</sup>

If information obtained from performing review procedures leads the auditor to believe that the interim financial information may not be in conformity with generally accepted accounting principles in all material respects, the auditor should make additional inquiries or perform other procedures considered appropriate to provide a basis for communicating whether any material modifications should be made to the interim financial information.<sup>33</sup> AU sec. 722 provides additional requirements in cases where the auditor believes that a material modification should be made to the interim financial information.<sup>34</sup>

## Ongoing Audit Considerations

As additional information is determined in future periods regarding the potential risks and costs associated with mortgage and foreclosure-related activities or exposures, auditors planning or performing an audit should acquire a sufficient understanding to assess how the additional information affects the nature and potential magnitude of the associated risks. Auditors should modify the overall audit strategy and the audit plan as necessary if circumstances change significantly during the course of the audit, including changes due to a revised assessment of the risks of material misstatement or the discovery of a previously unidentified risk of material misstatement.<sup>35</sup> Accordingly, auditors may need to consider, e.g., how documentation issues in the loan origination process at a bank affect the auditors' initial risk assessment, overall audit strategy and the audit plan.

Risks of material misstatement can arise from a variety of sources, including external factors, including conditions in the company's industry and environment and company-specific factors, such as the nature of the company, its activities, and internal control over financial reporting which can affect the judgments involved in determining accounting estimates or create pressures to manipulate the financial statements to achieve certain financial targets.<sup>36</sup>

---

<sup>30</sup> AU sec. 722.07.

<sup>31</sup> AU sec. 722.18c.

<sup>32</sup> AU sec. 722.55B1.

<sup>33</sup> AU sec. 722.22.

<sup>34</sup> AU sec. 722.29–722.31.

<sup>35</sup> Paragraph 15 of Auditing Standard No. 9, *Audit Planning*. On August 5, the Board adopted Auditing Standards No. 8 through No. 15 related to the auditor's assessment of and response to risk ("the Risk Assessment Standards"), which, if approved by the SEC, would become effective for audits of fiscal periods beginning on or after December 15, 2010. For audits of fiscal periods before the Risk Assessment Standards are effective, auditors should refer to the relevant requirements of AU sec. 311, *Planning and Supervision*, AU sec. 312, AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*, and Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

<sup>36</sup> Paragraph 5 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.

In an integrated audit, many factors can affect the risk associated with a control including the design of the control,<sup>37</sup> nature of the control and the frequency with which it operates as well as the competence of the personnel who perform the control or monitor its performance and whether there have been changes in key personnel who perform the control or monitor its performance.<sup>38</sup> Accordingly, an increase in the volume of foreclosures or loan repurchases could affect the risks associated with related controls.

## Attestation Reports on Assessments of Compliance With Servicing Criteria

Section 1122 of the SEC's Regulation AB requires an attestation report by a registered public accounting firm on a servicer's assessment of compliance with servicing criteria.<sup>39</sup> These criteria include, among other things, maintaining collateral or security on pool assets as required by the transaction agreements or related pool asset documents; and initiating, conducting, and concluding loss mitigation or recovery actions in accordance with the timeframes or other requirements established by the transaction agreements.<sup>40</sup>

In adopting Regulation AB, the SEC provided that AT sec. 601, *Compliance Attestation*, applies to the preparation of these attest reports<sup>41</sup> and generally requires that, in assessing whether the servicer has complied with the criteria, an auditor should consider risk factors similar to those an auditor would consider when planning an audit of financial statements,<sup>42</sup> as well as factors relevant<sup>43</sup> to the compliance engagement.<sup>44</sup> For example, in assessing risk, the auditor considers whether the servicer or its parent has identified noncompliance as part of an internal investigation, internal audit, or other compliance review.

---

<sup>37</sup> Paragraph .42 of Auditing Standard No. 5.

<sup>38</sup> Paragraph .47, Auditing Standard No. 5.

<sup>39</sup> Item 1122, *Compliance with applicable servicing criteria*, under Regulation AB.

<sup>40</sup> *Ibid.*

<sup>41</sup> See SEC Release No. 338518, *Asset-Backed Securities* (December 22, 2004), which states in part: "On April 25, 2003, the Commission approved the PCAOB's adoption of the auditing and attestation standards in existence as of April 16, 2003 as interim auditing and attestation standards. The Attestation Standard for Compliance Attestation (AT sec. 601) in those interim auditing and attestation standards should be used in performing this examination engagement."

<sup>42</sup> AT sec. 601.33.

<sup>43</sup> *Ibid.*

<sup>44</sup> Rules 13a18(c) and 15d18(c) under the Exchange Act require that the attestation report on the assessment of compliance with servicing criteria for assetbacked securities be made in accordance with standards for attestation engagements issued or adopted by the PCAOB.

## .08 Staff Audit Practice Alert No. 8

### ***Audit Risks in Certain Emerging Markets***

October 3, 2011

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of the standards and rules of the PCAOB and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Staff Audit Practice Alerts do not establish rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

#### **Executive Summary**

Emerging markets play an increasingly important role in the global economy given their high economic growth outlook and significant market size.<sup>1</sup> Recent disclosures of possible improprieties in financial reporting by companies based in certain large emerging markets in Asia and observations from the Board's oversight activities highlight the need for heightened awareness of risks when performing audits of companies with operations in emerging markets.

This practice alert focuses on risks of misstatement due to fraud ("fraud risks") that auditors might encounter in audits of companies with operations in emerging markets, auditors' responsibilities for addressing those risks, and certain other auditor responsibilities under PCAOB auditing standards. Local business practices and cultural norms in emerging markets may differ from those in more developed markets, and auditors should be alert to the effect of these differences on the risks of material misstatement. Auditors should focus on the audit procedures required to respond to those risks.

Fraud risks may be encountered in audits of companies in any region, whether the region is an emerging or developed market. Auditors have a responsibility to assess fraud risks in the financial statements that they audit and to perform audit procedures that respond to those risks, regardless of the regulatory environment.<sup>2</sup> The specific nature and characteristics of fraud risks, however, can vary depending upon, among other things, the environment in which the company operates, including the maturity and the robustness of the regulatory environments in the countries in which the company conducts its business activities.

Authorities in many emerging market countries are taking steps to improve investor protection. The PCAOB, however, has observed from its oversight

---

<sup>1</sup> According to information in the Statistical Appendix of International Monetary Fund *World Economic Outlook: Slowing Growth Rising Risks* (September 2011), emerging market countries accounted for over 40 percent of global gross domestic product in 2010.

<sup>2</sup> See paragraph 4 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement* and paragraphs 3-4 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

activities some conditions in audits of certain companies in emerging markets that indicate heightened fraud risk. Other situations have come to light in recent corporate filings with the Securities and Exchange Commission ("SEC") and in SEC orders suspending trading in securities of certain companies in emerging markets. In just two months in 2011, more than 24 companies with their principal place of business in the People's Republic of China ("PRC") filed Forms 8-K with the SEC reporting auditor resignations, accounting irregularities, or both.<sup>3</sup> In some instances, the auditor's letter of resignation stated that the auditor resigned because of circumstances that could constitute illegal acts for purposes of Section 10A of the Securities Exchange Act of 1934 ("Exchange Act").<sup>4</sup> Since then the SEC's actions have expanded, including instituting stop order proceedings against two PRC-based companies.<sup>5</sup> Further, additional auditor resignations have occurred.<sup>6</sup>

Examples of conditions and situations indicating heightened fraud risk in certain companies in emerging markets that have been observed by PCAOB staff or reported in an SEC filing include:

- Existence of two separate and different sets of financial books and records;
- Discrepancies between the company's financial books and records and audit evidence obtained with respect to the existence and accuracy of cash balances, accounts receivable, and revenues;
- Auditor difficulties in confirming cash balances, including when requesting to visit the offices of the company's bank, or questions about the authenticity of bank statements provided to the auditor;
- Auditors' follow-up visits to bank offices indicating serious discrepancies between bank confirmations provided to the auditor and the bank's actual records, such as previously undisclosed material borrowings and no record of or significant differences regarding certain transactions;
- Attempts by management to intercept or alter confirmation requests or responses;
- Irregularities in sales contracts, such as a company-specific seal affixed on the sales contract that does not belong to the purported customer named in the contract;
- Recognizing revenue from contracts or customers whose existence could not be corroborated;
- Recording sales of products shipped to warehouses or freight forwarders where no customer is identified;
- Undisclosed material facts surrounding acquisition transactions, sales transactions, and off-balance-sheet transactions with related parties;

<sup>4</sup> See the discussion in the section on illegal acts below.

<sup>5</sup> See SEC Press Release, Stop Order Proceedings Instituted Against China Intelligent Lightning and Electronics, Inc., and China Century Dragon Media, Inc. (June 13, 2011) at: <http://www.sec.gov/news/press/2011/2011-127.htm>.

<sup>6</sup> See, e.g., Longtop Financial Technologies Limited, Form 6-K (May 23, 2011), Exhibit 2 at: <http://www.sec.gov/Archives/edgar/data/1412494/000095012311052882/d82501exv99w2.htm>.

- Recording of assets for which evidence of control, ownership, or title is either unclear or difficult to corroborate;
- Potential double counting of fixed assets;
- Recording of uncorroborated operating expenses for which the business purpose is unclear;
- Manipulation of the accounting records to mischaracterize or conceal payment of bribes or other improper payments;
- Significant unexplained discrepancies between amounts included in the financial statements in SEC filings and amounts included in financial reports to other regulators, such as local authorities;
- Use of personal-type bank accounts held in the name of corporate officers or employees instead of corporate-type bank accounts for company business; and
- Unusual delays by management in the production of routine documents requested by the auditor.<sup>7</sup>

PCAOB standards require auditors to perform their audits to respond to fraud risks and other risks of material misstatement, and to obtain relevant and reliable evidence that is sufficient to support the auditor's opinion.<sup>8</sup> This practice alert discusses certain considerations that may be relevant when performing audits in emerging markets.

Although the conditions, situations, and fraud risks described in this alert have been observed in audits of companies in certain emerging markets, they might also be present at companies in other markets. The matters discussed in this alert are relevant whenever such conditions, situations, or fraud risks are present in audits of companies located in emerging or developed markets.

## Consideration of Fraud is an Integral Part of the Audit

The consideration of fraud is an integral part of the audit under PCAOB standards. PCAOB standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement due to error or fraud.<sup>9</sup> The auditor should exercise professional skepticism, and "conduct the audit engagement with a mindset that recognizes the possibility that a material misstatement due to fraud could be present."<sup>10</sup> PCAOB auditing standards related to the auditor's assessment of and response to risk<sup>11</sup> and AU sec. 316, collectively, describe the auditor's responsibilities for identification, assessment, and response to fraud risks.

---

<sup>7</sup> In addition to indicating a heightened fraud risk, in some circumstances, the conditions and situations in this list also may be indications of illegal acts which are discussed in the section on illegal acts below.

<sup>8</sup> See, generally, AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*; Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, Auditing Standard No. 13 and Auditing Standard No. 15, *Audit Evidence*.

<sup>9</sup> See paragraph 3 of Auditing Standard No. 8, *Audit Risk*.

<sup>10</sup> AU sec. 316.13.

<sup>11</sup> Auditing Standard No. 8, Auditing Standard No. 9, *Audit Planning*, Auditing Standard No. 10, *Supervision of the Audit Engagement*, Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*, Auditing Standard No. 12, Auditing Standard No. 13, Auditing Standard No. 14, *Evaluating Audit Results*, and Auditing Standard No. 15.

## Identifying and Assessing Fraud Risk Factors<sup>12</sup>

Fraud risks may arise from a variety of sources, including external factors and internal factors. The auditor should perform risk assessment procedures<sup>13</sup> and evaluate whether the information gathered from those procedures indicates that one or more fraud risk factors are present and should be taken into account in identifying and assessing fraud risks.<sup>14</sup>

As part of risk assessment procedures, the auditor "should obtain an understanding of the company and its environment"<sup>15</sup> in order to "understand the events, conditions, and company activities that might reasonably be expected to have a significant effect on the risks of material misstatement."<sup>16</sup> This includes, for example, understanding:<sup>17</sup>

- The relevant industry and regulatory factors, including the legal, and political environment, which may include matters such as:
  - The company's significance in the regional or local economy and its level of influence over its industry, and regional or local government, and
  - Cultural norms in the business and regulatory environments;
- The company's objectives, strategies, and related business risks; its organizational structure; and sources of funding of the company's operations;
- The company's significant investments, including equity method investments, joint ventures, and variable interest entities ("VIEs");<sup>18</sup>
- The sources of the company's earnings, including the relative profitability of key products and services; and
- The company's key supplier and customer relationships.

Significant differences can exist between the business environments faced by companies with operations in emerging markets and those in developed markets, which may affect the risk of misstatement in the financial statements. For example, companies in emerging markets may be subject to rapidly changing or less consistent regulatory oversight and reporting requirements, whereas companies in developed markets may not.<sup>19</sup> These and other aspects of the

---

<sup>12</sup> According to paragraph 65 of Auditing Standards 12, "[f]raud risk factors are events or conditions that indicate (1) an incentive or pressure to perpetrate fraud, (2) an opportunity to carry out the fraud, or (3) an attitude or rationalization that justifies the fraudulent action. Fraud risk factors do not necessarily indicate the existence of fraud; however, they often are present in circumstances in which fraud exists." See, generally, AU sec. 316.85.

<sup>13</sup> See paragraphs 4-58 of Auditing Standard No. 12, which describe risk assessment procedures the auditor should perform.

<sup>14</sup> See paragraphs 59-73 of Auditing Standard No. 12, which discuss identifying and assessing the risks of material misstatement, due to error or fraud, using information obtained from performing risk assessment procedures.

<sup>15</sup> Paragraph 7 of Auditing Standard No. 12.

<sup>16</sup> *Ibid.*

<sup>17</sup> See paragraphs 9-17 of Auditing Standard No. 12.

<sup>18</sup> See Subtopic 810-10 of the Financial Accounting Standards Board's Accounting Standards Codification for a definition of a variable interest entity.

<sup>19</sup> See, generally, Silvia Iorgova and Li Lian Ong *The Capital Markets of Emerging Europe: Institutions, Instruments and Investors*, IMF Working Paper WP/08/103 (April 2008), at: [www.imf.org/external/pubs/ft/wp/2008/wp08103.pdf](http://www.imf.org/external/pubs/ft/wp/2008/wp08103.pdf).

business environment in emerging markets can create incentives, pressures, and opportunities that may lead to a heightened risk of fraud.

## Incentives and Pressures

As with public companies in developed countries, emerging market companies seeking to raise capital in international markets may wish to present a strong financial position and robust growth in revenue and earnings. In turn, this may create incentives or pressures to manipulate the financial statements rather than report poor results or bad news to the investing public. For example, if a company failed to consummate a previously announced acquisition, there is a risk that management might manipulate the financial statements to make them appear as though the acquisition has occurred. As another example, management at remotely located operating units of large multinational companies locations may feel pressure to report inflated results.

In addition to the incentives and pressures routinely considered in audits of public companies, auditors should consider any unique characteristics of the emerging market company or its environment that might result in specific fraud risks. For example, a company might engage in a significant business partnership with a state-owned entity or VIE. In that situation, the company might be motivated to consolidate the partnership or VIE to strengthen its reported financial position, even if significant legal restrictions prevent the company from obtaining a controlling interest in the partnership or assets. For instance, a company might enter into contractual arrangements with a VIE that are designed to enable the company to consolidate the VIE, even though there might be significant uncertainties regarding the economic substance of those arrangements.<sup>20</sup> As another example, legal restrictions on the movement of company assets might lead companies to maintain substantial amounts of cash or other liquid assets in business units in certain jurisdictions, which can create incentives for misappropriation of assets.

## Opportunities

Some fraud risks arise when internal or external conditions and weak internal controls provide opportunities for management or employees of the company to engage in fraudulent activities. Certain aspects of the business environment in emerging markets can create opportunities to perpetrate fraud, as discussed in the examples below.

For example, a company in an emerging market might have a dominant presence in the geographic region in which it is located because it is the single largest employer in the region, or it may exercise control over raw materials on which other companies in the region depend. The company's management might have strong ties with the local or state government. In such circumstances:

- Management might be able to dictate terms or conditions to local suppliers or customers, which might result in non-arm's length transactions.
- Management might be able to pressure personnel of a local bank or other third parties to provide fraudulent information to the auditor.

---

<sup>20</sup> Additionally, such VIE structures can result in increased risks related to omitted, incomplete, or inaccurate disclosures. See paragraphs 12-13 of Auditing Standard No. 12.

- Company employees might not be willing to report instances of fraud for cultural reasons or fear of retribution from management. While whistleblower protections have been introduced in many emerging market countries, observers have said that there is still a need to improve the effectiveness of the whistleblower programs.<sup>21</sup>

Additionally, weak internal controls and lack of robust governance mechanisms have been observed in companies in certain emerging market countries. This may stem from a lack of familiarity in local cultures with certain governance concepts, such as prohibition of self-dealing, even where similar legal concepts exist.<sup>22</sup> For example, such a culture might provide opportunities for management to influence other senior company officials or various third parties to provide false or misleading information to the company's auditors.

If criticizing or questioning a figure of authority is contrary to the local culture, the company's employees may be hesitant to express any concerns about management's actions to an auditor. Such an environment can provide additional opportunities for management to override controls or intentionally misstate the financial statements.<sup>23</sup>

As another example, a company in an emerging market might be created as a spin-off from a larger private or state-owned entity. The operating components of the larger entity may be among the company's largest suppliers or customers. In certain instances, the same individual or group that controls the company might also control the company's suppliers and customers.<sup>24</sup> Such situations might provide opportunities for management to:

- Enter into undisclosed side agreements with the related parties, or
- Collude with the related parties to create false documentation to support fictitious transactions.

Some emerging market companies employ as their chief financial officer ("CFO") an individual based in, or from, another region or country. Such a CFO might lack knowledge of the local language and the company's business practices and, therefore, might not be able to effectively perform certain important entity-level controls, thereby creating opportunities for company personnel to commit or conceal fraudulent misstatement of the financial statements. Similar conditions and risks may be present at significant subsidiaries of multi-national companies in emerging markets.

In some emerging market countries, controlling shareholders exercise strong oversight over executive management and foster a corporate culture focused on long-term value creation. In other jurisdictions, controlling shareholders have the opportunity to engage in abusive conduct, a problem that is magnified in jurisdictions where transparency is poor and where a weak rule of law fails to give minority investors proper judicial recourse.<sup>25</sup>

## The Auditor's Response to Fraud Risks

PCAOB standards require that the auditor design and implement audit responses that address the identified and assessed fraud risks.<sup>26</sup> The auditor's responses should include responses that have an overall effect on how the audit is conducted (e.g., making appropriate engagement assignments) and responses involving the nature, timing, and extent of audit procedures (e.g., modifying the planned audit procedures).<sup>27</sup>

Under PCAOB standards, "[t]he auditor's responses to the assessed risks of material misstatement, particularly fraud risks, should involve the application of professional skepticism in gathering and evaluating audit evidence."<sup>28</sup> Ineffective responses to fraud risks may result in the auditor's failure to detect material misstatement of the financial statements or failure to obtain sufficient appropriate audit evidence to support the opinion in the auditor's report. Examples of the application of professional skepticism in response to the assessed fraud risks may include "modifying the planned audit procedures to obtain more reliable evidence regarding relevant assertions and ... obtaining sufficient appropriate evidence to corroborate management's explanations or representations."<sup>29</sup>

## Performing Audit Procedures to Respond to Fraud Risks

The auditor should perform substantive procedures, including tests of details, that are specifically responsive to the assessed fraud risks, including certain procedures to address the risk of management override of controls.<sup>30</sup>

Many of the conditions discussed above that indicate heightened fraud risk appear to involve possible attempts to overstate the amounts of assets or revenues in the companies' financial statements. When performing audit procedures to address certain fraud risks, especially those involving the existence of assets such as cash and accounts receivable, it is important to obtain audit evidence through direct written communication with a knowledgeable third party who is objective and free from bias with respect to the audited entity.<sup>31</sup>

If, through the performance of risk assessment procedures, other audit procedures, or by other means, the auditor becomes aware of conditions that call for a heightened degree of professional skepticism with respect to the authenticity of documents, the auditor should perform additional procedures to determine that the reliability of evidence obtained in the course of the audit has not been compromised.<sup>32</sup> In such circumstances, it would be unlikely for auditors to rely solely on management-provided documentation without obtaining documentation directly from third parties to corroborate management's assertions.

---

<sup>26</sup> See paragraph 3 of Auditing Standard No. 13.

<sup>27</sup> See Auditing Standard No. 13, which establishes requirements regarding designing and implementing appropriate responses to the risks of material misstatement.

<sup>28</sup> Paragraph 7 of Auditing Standard No. 13.

<sup>29</sup> *Ibid.*

<sup>30</sup> See paragraphs 13 and 15 of Auditing Standard No. 13. Additionally, as part of the auditor's response to the assessed risks of material misstatement due to fraud, the auditor should incorporate an element of unpredictability in the selection of auditing procedures to be performed. See paragraph 5c of Auditing Standard No. 13. Also, see paragraphs 14-15 of Auditing Standard No. 5.

<sup>31</sup> See paragraphs .26-.27 of AU sec. 330, *The Confirmation Process* and the section on confirmations below.

<sup>32</sup> See paragraph 9 of Auditing Standard No. 15.

## Confirmations

To respond to fraud risks related to the company's accounts with a bank or amounts due from customers, it is important for the auditor to confirm amounts included in the company's financial statements directly with a knowledgeable individual from the bank or customer who is objective and free from bias with respect to the audited entity rather than rely solely on information provided by the company's management.<sup>33</sup> Under PCAOB standards, "[e]vidence obtained from a knowledgeable source that is independent of the company is more reliable than evidence obtained only from internal company sources."<sup>34</sup>

Further, under PCAOB standards, the auditor "should maintain control over the confirmation requests and responses."<sup>35</sup> If the auditor identifies a risk that the company's management, or someone else at management's request, could attempt to intercept or alter the confirmation requests or responses, the auditor should maintain control over the confirmation process by taking actions aimed specifically at addressing that risk. For example, if the auditor uses a courier to expedite the delivery of confirmation requests, the courier should be reliable and independent from management to ensure that the confirmation requests are delivered directly to the intended recipient. If there is a heightened risk of management interference in the confirmation process, it might be necessary for the auditor to deliver the confirmation request personally and/or to observe the intended recipient of the confirmation request complete the response in order to communicate directly with an independent and knowledgeable source.

Also, the auditor should evaluate who the intended recipient of the confirmation request is and whether the company's management has any influence over this individual to provide false or misleading information to the auditor.<sup>36</sup> For example, if the company is the only or a significant customer or supplier of the confirming entity, the staff of that entity may be more susceptible to pressure from the company's management to falsify documentation provided to the auditor. As another example, the auditor might determine that confirmation responses cannot be relied upon if it appears that management interfered with the process because responses to confirmation requests were received from a personal e-mail account rather than a company network domain, or multiple confirmations are returned with similar handwriting and the same date, or confirmations returned from companies with different physical addresses contain mail stamps indicating same time processing.

If there is a heightened risk that the intended recipient is susceptible to management influence, the auditor should consider whether the response will provide meaningful and appropriate evidence and determine whether other procedures are necessary to obtain sufficient appropriate audit evidence.<sup>37</sup>

## Revenue Recognition

Under PCAOB standards, "[t]he auditor should presume that there is a fraud risk involving improper revenue recognition and evaluate which types of

---

<sup>33</sup> See AU sec. 330.34, which states that there is a presumption that the auditor will request the confirmation of accounts receivable during an audit except under certain conditions that are unlikely to be present when fraud risks are present. For example, one of those conditions, the auditor's combined assessed level of inherent and control risk is low, is unlikely to be the case when a fraud risk is present.

<sup>34</sup> Paragraph 8 of Auditing Standard No. 15. Also, AU secs. 330.26-.27 describe the auditor's responsibilities regarding confirmation with knowledgeable third parties who are objective and free from bias with respect to the audited entity.

<sup>35</sup> AU sec. 330.28.

<sup>36</sup> See AU sec. 330.26-.27.

<sup>37</sup> See paragraph 4 of Auditing Standard No. 15 and AU sec. 330.27.

revenue, revenue transactions, or assertions may give rise to such risks.<sup>38</sup> Management might use a variety of tools to attempt to overstate revenue or conceal improprieties in recording revenue, including entering into improper bill-and-hold transactions, generating invoices and customer contracts for non-existent transactions, altering original documentation, and establishing fake customers and mailing addresses.

To develop an effective response to such fraud risks, it is important for the auditor to obtain an understanding of the company and its environment, including the sources and composition of revenues; specific attributes of revenue transactions; the company's business and financial reporting processes regarding revenue and amounts due from customers; and unique industry considerations. Such an understanding is important in order for the auditor to consider the ways in which revenue could be fraudulently misstated in order to design appropriate audit procedures to detect those types of misstatements. Also, PCAOB standards require the auditor to gain an understanding of the business rationale for significant unusual transactions and whether that rationale (or the lack thereof) suggests that the transactions may have been entered into to engage in fraudulent financial reporting or conceal misappropriation of assets.<sup>39</sup>

Exercising professional skepticism requires the auditor to, among other things, perform procedures to obtain and critically evaluate evidence from all sources rather than rely solely on management representations about the company's performance.<sup>40</sup> For example, if the auditor performs an analytical procedure regarding revenue and management represents that a significant unexpected increase in revenue from the prior year results from increased production, the auditor should obtain evidence to corroborate this representation and critically evaluate whether the representation is reasonable based on the evidence obtained, such as, whether the company is capable of producing the additional output.<sup>41</sup>

While the auditor is not expected to be an expert in document authentication, the auditor should exercise professional skepticism in reviewing documentation obtained as audit evidence, especially documentation provided by the company. Under PCAOB standards, "if conditions indicate that a document may not be authentic or that the terms in a document have been modified but that the modifications have not been disclosed to the auditor, the auditor should modify the planned audit procedures or perform additional audit procedures to respond to those conditions and should evaluate the effect, if any, on the other aspects of the audit."<sup>42</sup> For example, if the auditor suspects that management has falsified sales documentation, the auditor should perform additional procedures, such as performing procedures to obtain documentation directly from the company's customers or suppliers to compare it to documents provided by management.

## Transactions with Related Parties

It is not uncommon for companies in emerging markets to be owned or controlled by a small group of individuals or a family. These individuals often serve as the senior members of the company's management and also may control some of the

---

<sup>38</sup> Paragraph 68 of Auditing Standard No. 12.

<sup>39</sup> See AU sec. 316.66.

<sup>40</sup> See paragraph 7 of Auditing Standard No. 13 and AU sec. 333.02-.04.

<sup>41</sup> See paragraphs 5-9 of Auditing Standard No. 14. When the auditor is performing an analytical procedure as a substantive test, see the requirements of AU sec. 329, *Substantive Analytical Procedures*.

<sup>42</sup> Paragraph 9 of Auditing Standard No. 15.

entities that the company does business with, such as customers or suppliers. Accordingly, transactions with related parties may play a significant role in the company's operations. The auditor, therefore, should be aware of a risk of undisclosed related party transactions or side agreements.

To obtain sufficient appropriate audit evidence with respect to related party transactions, an auditor should design and perform procedures that take into account the specific environment in which a company operates.<sup>43</sup> In addition, pursuant to section 10A(a)(2) of the Exchange Act, auditors are required to include "procedures designed to identify related party transactions that are material to the financial statements or otherwise require disclosure therein."<sup>44</sup>

Some companies in emerging markets might have significant transactions with related entities that are not audited or are audited by another firm. For example, a company might purchase substantially all of its raw materials and utility services from or extend significant loans to a related unaudited entity. Paragraph A.2 of AU sec. 316.85 states in the Opportunities subsection that "significant related-party transactions not in the ordinary course of business or with related entities not audited or audited by another firm" constitute an example of a fraud risk factor that provides opportunities to engage in fraudulent financial reporting. Staff Audit Practice Alert No. 5, *Auditor Considerations Regarding Significant Unusual Transactions*, issued on April 7, 2010, describes certain requirements in PCAOB auditing standards regarding significant unusual transactions.<sup>45</sup>

## Other Matters that Affect Fraud Risk

Under PCAOB standards, "the auditor should evaluate whether the accumulated results of auditing procedures and other observations affect the assessment of the fraud risks made throughout the audit and whether the audit procedures need to be modified to respond to those risks."<sup>46</sup> Matters indicating a heightened risk of fraud may include, for example:<sup>47</sup>

- *Inconsistent, vague, or implausible responses from management* – In situations in which management fraudulently recorded non-existent sales transactions, management's explanation of an unexpected increase in revenue may be vague or inconsistent with the auditor's understanding of the company's operations.
- *Conflicting or missing evidence* – Documents provided by management may appear to have been altered or have internal inconsistencies. The auditor should critically assess such inconsistencies and discrepancies to identify whether they are indicative of fraudulent activities by the company's management or employees. For example:
  - The name of a third party on the letterhead of a confirmation response may be different from the name on a seal used to authenticate a signed document.

---

<sup>43</sup> See AU sec. 334, *Related Parties*, which describes procedures for the auditor to perform "to identify related party relationships and transactions and to satisfy himself concerning the required financial statement accounting and disclosure."

<sup>44</sup> See 15 U.S.C. § 78j-1(a).

<sup>45</sup> Staff Audit Practice Alert No. 5 is located on the Board's web site at: [http://pcaobus.org/Standards/QandA/04-07-2010\\_APA\\_5.pdf](http://pcaobus.org/Standards/QandA/04-07-2010_APA_5.pdf).

<sup>46</sup> Paragraph 28 of Auditing Standard No. 14.

<sup>47</sup> See Appendix C of Auditing Standard No. 14.

- Amounts confirmed by the local branch of a bank may be different from those confirmed by the bank headquarters.
- There may be conflicting or missing documentary support for the company's rights to assets.
- *Problematic relationships between the auditor and management*
  - To conceal fraudulent financial reporting, management might attempt to control the audit process by limiting the auditor's access to sources of audit evidence, such as the company's personnel or third parties. For example:
    - Management could request that the auditor send confirmation requests and receive replies through personnel of the company.
    - Management could instruct the bank not to respond to the auditor's request to confirm the company's cash, deposit, or loan payable balances with the bank.
    - Management engaged in fraudulent financial reporting might be unwilling to add or revise disclosures in the financial statements to make them more transparent.
    - Management engaged in fraudulent financial reporting might be unwilling to appropriately address significant deficiencies in internal control on a timely basis, e.g., before the end of a financial reporting period.

Under PCAOB standards, restrictions on the scope of the audit imposed by the company's management or by circumstances, such as – among other things – the inability to obtain sufficient appropriate evidence or an inadequacy in the accounting records, may require the auditor to qualify his or her opinion or to disclaim an opinion on the company's financial statements.<sup>48</sup>

## Other Considerations

### Client Acceptance and Continuance

Under PCAOB standards, client acceptance and continuance is a required element of quality control for an auditor.<sup>49</sup> This includes establishing policies and procedures to provide reasonable assurance that the auditor:

- "Undertakes only those engagements that the firm can reasonably expect to be completed with professional competence.
- Appropriately considers the risks associated with providing professional services in the particular circumstances."<sup>50</sup>

Conditions and situations previously described in this alert that indicate heightened fraud risk in companies with operations in emerging markets may also place additional demands on the auditor's professional competence. In performing acceptance and continuance assessments for clients with operations in emerging markets, the auditor should consider his or her own ability to perform audits in emerging markets and, if using the work of accountants outside the

---

<sup>48</sup> See paragraph .22 of AU sec. 508, *Reports on Audited Financial Statements*. Also, Auditing Standard No. 5 provides direction regarding modifications to the auditor's report due to restrictions on the scope of the audit of internal control over financial reporting.

<sup>49</sup> See paragraph .07 of QC sec. 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*.

<sup>50</sup> QC sec. 20.15.

auditor's own firm, the auditor's ability to supervise or assume responsibility for that work in accordance with PCAOB standards.

The PCAOB previously directed auditors' attention to the standards that apply to using the work of other auditors and engaging assistants from outside the firm – including auditors and assistants based outside the U.S. – in Staff Audit Practice Alert No. 6, *Auditor Considerations Regarding Using the Work of Other Auditors and Engaging Assistants from Outside the Firm* ("Practice Alert No. 6"), issued on July 12, 2010.<sup>51</sup> Practice Alert No. 6 noted, among other things, that the following factors may affect how an auditor plans and performs an audit of the financial statements of an issuer with substantially all of its operations outside of the U.S., including emerging market countries:

- Use of local audit firms or assistants from an outside firm to complete a portion of the audit work;
- The need to understand the local language;
- Additional travel time and expense necessary to complete an audit; and
- The need to understand the local business environment in which the client operates.

## **Making Engagement Assignments and Coordinating the Auditor's Response with Another Accounting Firm**

PCAOB standards require that the knowledge, skill, and ability of engagement team members with significant engagement responsibilities, and the extent of supervision of engagement team members, be commensurate with the risks of material misstatement, including fraud risks.<sup>52</sup> The higher risk areas of the audit, including the areas of fraud risk, require more supervisory attention from the engagement partner. When the auditor uses the work of accountants outside the auditor's own firm, the auditor should take into account the knowledge, skill, and ability of each engagement team member from outside the firm.<sup>53</sup> Through the Board's oversight activities, the Board's staff has observed instances in certain audits of emerging market companies in which the engagement partner or other engagement team members inappropriately delegated to junior assistants the identification of audit issues, analysis of documents provided by the company, and certain communication with management and third parties; additionally, supervision by the auditor of the junior personnel was not in compliance with PCAOB standards.

In some situations, another independent accounting firm (including accounting firms affiliated with the same network as the auditor) performs an audit of and issues a report on one or more of the company's subsidiaries, divisions, branches, components, or investments. The auditor should inquire about the professional reputation of the other auditor and adopt other appropriate measures, e.g., ascertaining that the other auditor is familiar with the relevant financial reporting requirements and PCAOB standards.<sup>54</sup> PCAOB inspection

---

<sup>51</sup> Practice Alert No. 6 is located on the Board's web site at: [http://pcaobus.org/Standards/Qanda/2010-07-12\\_APA\\_6.pdf](http://pcaobus.org/Standards/Qanda/2010-07-12_APA_6.pdf)

<sup>52</sup> See paragraph 6 of Auditing Standard No. 10 and paragraph 5 of Auditing Standard No. 13. If the auditor uses as assistants personnel of another accounting firm or individual accountants not employed by an accounting firm, the auditor should follow the same requirements as for supervising assistants from the auditor's own firm.

<sup>53</sup> See paragraph 6 of Auditing Standard No. 10.

<sup>54</sup> See paragraph .10 of AU sec. 543, *Part of Audit Performed by Other Independent Auditors*.

reports, when available, may provide the auditor with relevant information.<sup>55</sup> The auditor should adopt appropriate measures to assure the coordination of the auditor's activities with those of the other auditor, including the audit procedures performed in response to fraud risks.<sup>56</sup> Through the Board's oversight activities, the Board's staff has observed instances in certain audits of companies in emerging markets in which the auditor did not properly coordinate the audit with another auditor. When significant parts of the audit are performed by other auditors, the auditor must decide whether the auditor's own participation in the audit is sufficient.<sup>57</sup>

Making appropriate engagement assignments and coordinating the auditor's response with another auditor necessarily entails overcoming any language barriers. In some audits of companies in emerging markets, key engagement team members<sup>58</sup> might be from outside the country in which substantially all of the company's operations, its top management, or the other auditor is located. In those circumstances, the auditor should take the necessary steps to enable effective communication among the engagement team members, effective communication between the auditor and the company's personnel or the other auditor, and effective review of documentation prepared in a foreign language.<sup>59</sup>

Individual accountants or accounting firms that participate in the audit from the same region where the company is located (the "local accountants") may be aware of local customs, cultural norms, and business practices that have an impact on the company's corporate governance and business activities. When planning and performing the audit, the auditor should discuss such matters with the local accountants and determine whether any of these matters affect fraud risks. The auditor should discuss with the local accountants identified fraud risks and determine that appropriate steps are taken to respond to these risks.<sup>60</sup>

## Illegal Acts

During the course of an audit, the auditor may determine that violations of laws or government regulations by company management or employees may constitute illegal acts, as defined by AU sec. 317, *Illegal Acts by Clients*,<sup>61</sup> and

---

<sup>55</sup> According to PCAOB Rule 2100, each public accounting firm that (a) prepares or issues any audit report with respect to any issuer; or (b) plays a substantial role in the preparation or furnishing of an audit report with respect to any issuer must be registered with the Board. The Board publishes on its Web site a list that names every registered firm that has triggered an inspection requirement under PCAOB Rule 4003 and notes whether the firm has ever been inspected. See <http://pcaobus.org/Inspections/Pages/InspectedFirms.aspx>. In addition, the Board has published on its Web site a listing of issuer audit clients of non-U.S. registered firms in jurisdictions where the PCAOB had been denied access to conduct inspections. See <http://pcaobus.org/International/Inspections/Pages/IssuerClientsWithoutAccess.aspx>.

<sup>56</sup> See AU sec. 543.10, and AU sec. 316.53.

<sup>57</sup> See AU sec. 543.02.

<sup>58</sup> The term "key engagement team members" includes all engagement team members who have significant engagement responsibilities, including the engagement partner. See paragraph 50 of Auditing Standard No. 12.

<sup>59</sup> See paragraph 5 of Auditing Standard No. 10 and AU sec. 543.10.

<sup>60</sup> See paragraph 5 of Auditing Standard No. 10, paragraphs 51-52 of Auditing Standard No. 12, and AU sec. 316.53.

<sup>61</sup> See AU sec. 317.02. For example, even though not fraud, a violation of the books and records provisions of the Foreign Corrupt Practices Act ("FCPA"), Exchange Act sections 13(b)(2) through (b)(7), would be an illegal act as defined in AU sec. 317. These FCPA provisions generally require

(continued)

section 10A of the Exchange Act.<sup>62</sup> AU sec. 317 describes the considerations an auditor should give to the possibility of illegal acts as well as the auditor's responsibilities when a possible illegal act is detected. In addition, pursuant to section 10A(a)(1) of the Exchange Act, auditors are required to perform procedures designed to provide reasonable assurance of detecting illegal acts that would have a direct and material effect on the determination of the financial statement amounts.<sup>63</sup> The auditor's responsibility to detect and report misstatements resulting from illegal acts having a direct and material effect on the determination of financial statement amounts is the same as that for misstatements caused by error or fraud.<sup>64</sup>

When the auditor becomes aware of information concerning a possible illegal act, the auditor should obtain an understanding of the nature of the act, the circumstances in which it occurred, and sufficient other information to evaluate the effect on the financial statements, as well as the implications for other aspects of the audit, such as the reliability of representations of management.<sup>65</sup> The implications of particular illegal acts will depend on the relationship of the perpetration and concealment, if any, of the illegal act to specific control procedures, and the level of management or employees involved.<sup>66</sup> The auditor should also evaluate the adequacy of disclosure in the financial statements of the potential effects of an illegal act on the entity's operations.<sup>67</sup> If the illegal act results in uncorrected misstatements of even relatively small amounts, it further could have a material effect on the financial statements. For example, an illegal payment of an otherwise immaterial amount could be material if there is a reasonable possibility that it could lead to a material contingent liability or a material loss of revenue.<sup>68</sup> If the auditor concludes that an illegal act has or is likely to have occurred, AU sec. 317 requires that the auditor, among other things, determine "that the audit committee, or others with equivalent authority and responsibility, is adequately informed with respect to [the] illegal acts."<sup>69</sup>

Section 10A(b) of the Exchange Act imposes additional requirements that apply when the auditor "detects or otherwise becomes aware of information indicating that an illegal act (whether or not perceived to have a material effect on the financial statements) has or may have occurred."<sup>70</sup>

## Subsequent Discovery of Facts Existing at the Date of the Auditor's Report

AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, describes procedures that "should be followed by the auditor who,

---

*(footnote continued)*

issuers with securities registered under section 12 of the Exchange Act or required to file reports under section 15(d) of the Exchange Act, among other things, to make and keep books and records that fairly reflect the transactions and assets of the issuer and to devise and maintain internal accounting controls sufficient to permit the preparation of financial statements in conformity with the applicable financial reporting framework.

<sup>62</sup> See 15 U.S.C. § 78j-1(a).

<sup>63</sup> *Ibid.*

<sup>64</sup> See AU 317.05.

<sup>65</sup> See AU sec. 317.10 and .16. See also section 13(b)(2) of the Exchange Act.

<sup>66</sup> See AU sec. 317.16.

<sup>67</sup> See AU sec. 317.15.

<sup>68</sup> Paragraph 17 of Auditing Standard No. 14.

<sup>69</sup> AU sec. 317.17.

<sup>70</sup> See 15 U.S.C. § 78j-1(b).

subsequent to the date of the [audit report], becomes aware that facts may have existed at that date which might have affected the report had he or she then been aware of such facts."<sup>71</sup> The auditor should follow the requirements of AU sec. 561 if, subsequent to the date of the audit report, the auditor becomes aware of information indicating the possibility of fraudulent financial reporting.

## .09 Staff Audit Practice Alert No. 9

# ***Assessing and Responding to Risk in the Current Economic Environment***

December 6, 2011

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of the standards and rules of the PCAOB and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Staff Audit Practice Alerts do not establish rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

## **Background**

In December 2008, Staff Audit Practice Alert No. 3, *Audit Considerations in the Current Economic Environment* ("Practice Alert No. 3"),<sup>1</sup> was issued to assist auditors in identifying matters related to the then-current economic environment that might affect the risk of material misstatement of issuers' financial statements and the related auditor's responsibilities under Public Company Accounting Oversight Board ("PCAOB" or "the Board") standards.

Since the issuance of Practice Alert No. 3, economic conditions have been slower to recover than many had originally anticipated.<sup>2</sup> Uncertainty continues regarding global economic conditions, and certain volatility indicators are higher than they were before the financial crisis. In September 2011, the International Monetary Fund ("IMF") reduced its estimate of 2012 global growth from 4.5%, which was provided in June 2011, to 4% and, at the same time, reduced its 2012 growth forecast for U.S. growth from 2.7% to 1.8%.<sup>3</sup>

In November 2011, the Federal Reserve Board also reduced its projections for short- and longer-term GDP while increasing its estimated unemployment rate.<sup>4</sup> While countries work toward addressing their economic challenges,

---

<sup>1</sup> See Staff Audit Practice Alert No. 3 on the Board's web site at: [http://pcaobus.org/Standards/QandA/12-5-2008\\_APA\\_3.pdf](http://pcaobus.org/Standards/QandA/12-5-2008_APA_3.pdf).

<sup>2</sup> For example, in August 2011, the Congressional Budget Office reported that "[a]lthough economic output began to expand again two years ago, the pace of the recovery has been slow, and the economy remains in a severe slump." Congress of the United States Congressional Budget Office, *The Budget and Economic Outlook: An Update* (August 2011).

<sup>3</sup> On September 15, 2011, Christine Lagarde, Managing Director of the IMF, said "[o]verall, global growth is continuing, but slowing down. The advanced countries in particular are facing an anemic and bumpy recovery, with unacceptably high unemployment." The full text of Ms. Lagarde's speech is available at: <http://www.imf.org/external/np/speeches/2011/091511.htm>.

<sup>4</sup> See Federal Reserve Board *Economic Projections of Federal Reserve Board Members and Federal Reserve Bank Presidents, November 2011*, available at: <http://www.federalreserve.gov/newsevents/press/monetary/20111102b.htm>.

market volatility continues, and economic conditions may vary significantly among different regions or sectors of the economy.

Difficult economic conditions may affect companies' operations and financial reporting and, in turn, may have implications for audits of financial statements and internal control over financial reporting. Matters discussed in Practice Alert No. 3, such as auditing fair value measurements, auditing accounting estimates, the auditor's consideration of a company's ability to continue as a going concern, and auditing financial statement disclosures, continue to be critical in the current economic environment.

Although many of the risks discussed in Practice Alert No. 3 continue to have relevance, a number of the auditing standards referenced in that alert regarding the auditor's assessment of and response to risk were superseded in 2010 when the Board adopted a suite of eight new auditing standards ("risk assessment standards").<sup>5</sup> The risk assessment standards, which enhance the effectiveness of the auditor's assessment of and response to risk of material misstatement in an audit, became effective for audits of fiscal years beginning on or after December 15, 2010. As compared to the Board's interim standards, the risk assessment standards, among other things, establish enhanced requirements pertaining to the performance of risk assessment procedures, provide additional factors relevant to identifying significant risks, and enhance requirements for auditing financial statement disclosures. Auditors should be alert to the new requirements contained in the risk assessment standards and how those requirements relate to audits performed in the current economic climate.

The purpose of this staff audit practice alert is to assist auditors in identifying matters related to the current economic environment that might affect the risk of material misstatement and, therefore, require additional audit attention. The practice alert discusses certain issues posed by the current economic environment, highlights certain requirements in the risk assessment standards, and is organized into four sections:

- Considering the impact of economic conditions on the audit;
- Auditing fair value measurements and estimates;
- The auditor's consideration of a company's ability to continue as a going concern; and
- Auditing financial statement disclosures.

While the alert highlights certain issues, it is not intended to identify all issues that might affect audit risk in the current economic environment or serve as a substitute for the relevant auditing standards. All audits of issuers must be conducted in accordance with the standards of the PCAOB.

## Considering the Impact of Economic Conditions on the Audit

As year-end approaches for many issuers, changing economic conditions might require the auditor to reassess the appropriateness of the planned audit strategy, materiality levels, risk assessments (including identified fraud risks and other significant risks), and planned audit responses. Such a reassessment is especially important if the auditor planned the audit and performed the initial

---

<sup>5</sup> Auditing Standards Nos. 8-15 were adopted by the Board on August 5, 2010. See PCAOB Release No. 2010-004, *Auditing Standards Related to the Auditor's Assessment of and Response to Risk and Related Amendments to PCAOB Standards* available at: [http://pcaobus.org/Rules/Rulemaking/Docket%20026/Release\\_2010-004\\_Risk\\_Assessment.pdf](http://pcaobus.org/Rules/Rulemaking/Docket%20026/Release_2010-004_Risk_Assessment.pdf).

risk assessment procedures early in the year or performed initial testing as of or through an interim date.

## Audit Planning and Materiality Considerations

Audit planning is not a discrete phase of an audit but, rather, a continual and iterative process.<sup>6</sup> The nature and extent of planning activities that are necessary depend on, among other things, changes in circumstances that occur during the audit.<sup>7</sup> Accordingly, the auditor should modify the overall audit strategy and the audit plan as necessary if circumstances change significantly during the course of the audit.<sup>8</sup> For example, in an audit of the financial statements of a company with operations in multiple locations, changes in regional economic conditions might alter the risks associated with certain locations, which in turn, could affect the selection of locations for testing or determination of extent of testing at selected locations.<sup>9</sup>

The current economic environment may also require the auditor to re-evaluate the established materiality level or levels and tolerable misstatement (e.g., if the auditor initially established the materiality level or levels and tolerable misstatement based on estimated or preliminary financial statement amounts that differ significantly from actual amounts).<sup>10</sup> The auditor should evaluate whether, in light of the particular circumstances, there are certain accounts or disclosures for which there is a substantial likelihood that misstatements of lesser amounts than the materiality level established for the financial statements as a whole would influence the judgment of a reasonable investor.<sup>11</sup> If so, the auditor should establish separate materiality levels for those accounts or disclosures to plan the nature, timing, and extent of audit procedures.<sup>12</sup> For example, this might be appropriate if certain financial statement line items are particularly important to a regulatory requirement or a debt covenant.

## Risk Assessment

The effectiveness of a risk-based audit approach is dependent on the ability of the auditor to identify the risks of material misstatement and to have an appropriate basis for assessing those risks. Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, establishes requirements regarding the process of identifying and assessing risks of material misstatement of the financial statements, including the auditor's responsibilities for performing risk assessment procedures.

Examples of risk assessment procedures that may provide particularly relevant information in identifying and assessing the risks of material misstatement in the current economic environment include, among other things:

- Reading public information about the impact of the current economic environment on the company, including, for example, analyst reports and company-issued press releases.<sup>13</sup>

---

<sup>6</sup> See paragraph 5 of Auditing Standard No. 9, *Audit Planning*.

<sup>7</sup> See paragraph 7 of Auditing Standard No. 9.

<sup>8</sup> See paragraph 15 of Auditing Standard No. 9.

<sup>9</sup> See paragraphs 11–14 of Auditing Standard No. 9.

<sup>10</sup> See paragraph 11 of Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*.

<sup>11</sup> Paragraph 7 of Auditing Standard No. 11.

<sup>12</sup> Ibid.

<sup>13</sup> See paragraph 11 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.

- Obtaining an understanding of the company's performance measures (including, for example, performance measures that form the basis for contractual commitments or incentive compensation arrangements or measures used by external parties, such as analysts and rating agencies, to review the company's performance).<sup>14</sup> When slowdowns in a company's market or industry reduce the likelihood that a company will meet its consensus earnings estimate, there could be additional pressure on management to manipulate the financial statements to achieve this estimate.<sup>15</sup>
- Obtaining an understanding of a company's current and prospective financing requirements. In the current economic environment, companies may not be able to regularly access funds through short-term borrowings, may have other liquidity issues, such as significant collateral calls or a lack of acceptable collateral, may be at risk of violating debt covenants, or may have significant tranches of debt becoming due within one year. In such cases, companies may be unable to settle their obligations as they become due. In turn, this situation could affect the risks of material misstatement related to, for example, the classification of long-term liabilities or valuation of long-term assets, or it could result in substantial doubt about the company's ability to continue as a going concern.<sup>16</sup>
- Performing analytical procedures designed to enhance the auditor's understanding of the client's business and the significant transactions and events that have occurred since the prior year-end and identify areas that might represent specific risks relevant to the audit.<sup>17</sup> When performing an analytical procedure, the auditor should use his or her understanding of the company to develop expectations about plausible relationships among the data to be analyzed.<sup>18</sup>

The risk assessment standards include requirements for the auditor to incorporate knowledge obtained during past audits and interim reviews into the auditor's process for identifying risks of material misstatement; however, in a changing economic environment, the auditor should evaluate whether the prior years' information remains relevant and reliable.<sup>19</sup> For example, when performing an analytical procedure in the current economic environment, prior period financial information may not be an appropriate data point in developing an expectation.

The risk assessment standards also require the auditor's assessment of the risks of material misstatement to continue throughout the audit.<sup>20</sup> For example, significant changes in industry or market conditions near year-end, such as a sovereign debt rating downgrade in a market in which a company has a concentration of customers, might provide audit evidence that contradicts the evidence on which the auditor originally based his or her risk assessments regarding the valuation of assets. In such cases, the auditor should revise the

---

<sup>14</sup> See paragraphs 16-17 of Auditing Standard No. 12.

<sup>15</sup> See, for example, paragraph 52 of Auditing Standard No. 12 and paragraph .85 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>16</sup> See paragraph 14-15 of Auditing Standard No. 12.

<sup>17</sup> See paragraph 46 of Auditing Standard No. 12.

<sup>18</sup> See paragraph 48 of Auditing Standard No. 12.

<sup>19</sup> See paragraphs 42-44 of Auditing Standard No. 12.

<sup>20</sup> See paragraph 74 of Auditing Standard No. 12.

risk assessments and modify planned audit procedures or perform additional procedures in response to the revised risk assessments.<sup>21</sup>

Communication among the engagement team members about significant matters affecting the risks of material misstatement should continue throughout the audit, including when conditions change.<sup>22</sup> For instance, the results of the "brainstorming" discussion among the key engagement team members about how and where they believe the company's financial statements might be susceptible to material misstatement due to fraud may need to be updated to reflect additional fraud risks that could result from the specific effects of the current economic environment on the company.<sup>23</sup>

## Identifying Fraud Risks and Other Significant Risks

In identifying and assessing risks of material misstatement, the auditor should evaluate whether the information gathered from the risk assessment procedures indicates that one or more fraud risk factors are present and should be taken into account in identifying and assessing fraud risks.<sup>24</sup> Staff Audit Practice Alert No. 8, *Audit Risks in Certain Emerging Markets* ("Practice Alert No. 8"), issued in October 2011, focuses on fraud risks that auditors might encounter in audits of companies with operations in emerging markets and auditors' responsibilities for addressing those risks.<sup>25</sup> While the focus of Practice Alert No. 8 was on emerging markets, fraud risks may be encountered in audits of companies in any region, especially when the company is faced with challenging economic conditions. In addition, auditors are reminded that their consideration of fraud includes misstatements from the misappropriation of assets.<sup>26</sup>

Fraud risk factors are events or conditions that indicate (1) an incentive or pressure to perpetrate fraud, (2) an opportunity to carry out the fraud, or (3) an attitude or rationalization that justifies the fraudulent action.<sup>27</sup> Incentives or pressures to perpetrate fraud may exist when:

- Financial stability or profitability is threatened by economic conditions. For example, in the current economic environment, a company with substantial direct or indirect sovereign debt exposure may be motivated to not consider all relevant market information when determining a fair value measurement or enter into off-balance sheet arrangements that fail to be appropriately accounted for or disclosed.<sup>28</sup>
- Excessive pressure exists for management to meet the requirements or expectations of third parties (e.g., due to expectations created by management in, for example, press releases or annual report messages that are no longer realistic).

---

<sup>21</sup> Ibid.

<sup>22</sup> Paragraph 51 of Auditing Standard No. 12.

<sup>23</sup> See paragraph 52 of Auditing Standard No. 12.

<sup>24</sup> Paragraph 65 of Auditing Standard No. 12.

<sup>25</sup> See Staff Audit Practice Alert No. 8 on the Board's web site at: <http://pcaobus.org/Standards/Pages/Guidance.aspx>.

<sup>26</sup> See AU sec. 316.06.

<sup>27</sup> Paragraph 65 of Auditing Standard No. 12.

<sup>28</sup> Staff Audit Practice Alert No. 5, *Auditor Considerations Regarding Significant Unusual Transactions*, discussed audit considerations regarding significant transactions that are outside the normal course of business for a company, or that otherwise appear to be unusual given the auditor's understanding of the company and its environment. See Staff Audit Practice Alert No. 5 on the Board's website at: [http://pcaobus.org/Standards/QandA/04-07-2010\\_APA\\_5](http://pcaobus.org/Standards/QandA/04-07-2010_APA_5).

- There is excessive pressure on operating personnel, including, for example, operating personnel in remote locations, to meet financial targets set by management, including sales or profitability incentive goals.<sup>29</sup>

In identifying and assessing risks of material misstatement, the auditor should determine whether any of the auditor's identified and assessed risks are significant risks.<sup>30</sup> A significant risk is defined as "[a] risk of material misstatement that requires special audit consideration."<sup>31</sup> To determine whether a risk is a significant risk, the auditor should evaluate whether the risk requires special audit consideration because of the nature of the risk or the likelihood and potential magnitude of misstatement related to the risk.<sup>32</sup> One of the factors that should be evaluated in determining which risks are significant risks is whether the risk is related to recent significant economic developments.<sup>33</sup> Accordingly, risks of material misstatement that may be particularly susceptible to changes in the economic environment should be evaluated in this context. Other factors that the auditor should evaluate in determining significant risks include:<sup>34</sup>

- The degree of complexity or judgment in the recognition or measurement of financial information related to the risk, especially those measurements involving a wide range of measurement uncertainty;
- Whether the risk involves significant transactions that are outside the normal course of business for the company or that otherwise appear to be unusual due to their timing, size, or nature; and
- Whether the risk involves significant transactions with related parties. Transactions with related parties may be motivated solely, or in large measure, by conditions such as a lack of sufficient working capital or credit to continue the business, an overly optimistic earnings forecast, or a declining industry characterized by a large number of business failures.<sup>35</sup>

## Planned Audit Responses

When the identified and assessed risks of material misstatement change, corresponding changes to planned audit responses may be necessary to adequately address the assessed risks.<sup>36</sup> Depending on the circumstances, these changes may need to be pervasive.<sup>37</sup> An example of such a pervasive change includes modifying the audit strategy to increase the substantive testing of the valuation of numerous significant accounts at year-end because of significant volatility in market conditions.<sup>38</sup>

---

<sup>29</sup> AU sec. 316.85 A.2 describes further examples of risk factors relating to misstatements arising from fraudulent financial reporting.

<sup>30</sup> See paragraph 59f of Auditing Standard No. 12.

<sup>31</sup> Paragraph A5 of Appendix A to Auditing Standard No. 12.

<sup>32</sup> See paragraph 70 of Auditing Standard No. 12.

<sup>33</sup> See paragraph 71 of Auditing Standard No. 12.

<sup>34</sup> *Ibid.*

<sup>35</sup> See paragraph .06 of AU sec. 334, *Related Parties*.

<sup>36</sup> See paragraph 3 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

<sup>37</sup> See paragraph 6 of Auditing Standard No. 13.

<sup>38</sup> *Ibid.*

For significant risks, it is unlikely that audit evidence obtained from substantive analytical procedures alone will be sufficient.<sup>39</sup> Accordingly, for significant risks, the auditor's substantive procedures should include tests of details that are specifically responsive to the assessed risks.<sup>40</sup>

When using an analytical procedure as a substantive test, the expected effectiveness of the procedure depends on, among other things, the plausibility and predictability of relationships among financial and non-financial data.<sup>41</sup> As higher levels of assurance are desired from analytical procedures that are used as substantive procedures, more predictable relationships are required to develop the expected analytical relationships.<sup>42</sup> Relationships in a stable environment are usually more predictable than relationships in a dynamic or unstable environment.<sup>43</sup>

When testing controls over relevant assertions in an audit, the auditor should evaluate whether the controls are designed and operating effectively.<sup>44</sup> Practice Alert No. 3 discussed matters that may require additional auditor attention regarding the effective operation of internal controls, including job eliminations that may increase the risk of deficiencies in internal control over financial reporting because of, for example, lack of segregation of duties or lack of effective monitoring controls.

## Auditing Fair Value Measurements and Estimates

The current economic environment continues to present challenges relating to auditing fair value measurements and estimates.<sup>45</sup> When auditing accounting estimates, the auditor should perform procedures to determine whether the accounting estimates are determined in conformity with the applicable financial reporting framework, are reasonable, and do not result in bias that materially misstates the financial statements.<sup>46</sup> When testing management's process for determining fair value measurements or estimates, the auditor should perform procedures commensurate with the related risk, including considering whether significant assumptions are best supported by the available audit evidence.<sup>47</sup> For example:

---

<sup>39</sup> See paragraph .09 of AU sec. 329, *Substantive Analytical Procedures*.

<sup>40</sup> See paragraph 11 of Auditing Standard No. 13.

<sup>41</sup> See AU sec. 329.11.

<sup>42</sup> See AU sec. 329.14.

<sup>43</sup> Ibid.

<sup>44</sup> See, for example, paragraphs 16-22 of Auditing Standard No. 13.

<sup>45</sup> Fair value measurements and estimates were the subject of a number of audit deficiencies noted in the Board's Rule 4010 *Report on Observations of PCAOB Inspectors Related to Audit Risk Areas Affected by the Economic Crisis* (available at: [http://pcaobus.org/Inspections/Documents/4010\\_Report\\_Economic\\_Crisis.pdf](http://pcaobus.org/Inspections/Documents/4010_Report_Economic_Crisis.pdf)). In addition, fair value measurements and estimates were discussed in a number of previous staff audit practice alerts. See Staff Audit Practice Alert No. 2, *Matters Related to Auditing Fair Value Measurements of Financial Instruments and the Use of Specialists*, Practice Alert No. 3, Staff Audit Practice Alert No. 4, *Auditor Considerations Regarding Fair Value Measurements, Disclosures, and Other-Than-Temporary Impairments*, and Staff Audit Practice Alert No. 7, *Auditor Considerations of Litigation and Other Contingencies Arising from Mortgage and Other Loan Activities*. Staff Audit Practice Alerts are available at: <http://pcaobus.org/Standards/Pages/Guidance.aspx>.

<sup>46</sup> See, for example, paragraph 23 of AU sec. 328, *Auditing Fair Value Measurements and Disclosures*, paragraph .11 of AU sec. 342, *Auditing Accounting Estimates*, and paragraphs 13 and 24-27 of Auditing Standard No. 14, *Evaluating Audit Results*.

<sup>47</sup> Ibid.

- Significant assumptions used in fair value measurements and estimates that are based on past experience and management expectations, such as revenue projections, cash flow estimates, charge-off rates, or projected rate of return assumptions and discount rates used in determining pension liabilities, may not reflect current market information or be representative of expected future conditions or events.
- Reductions in forecasts of macro-economic growth or extended periods of low interest rates may affect important assumptions underlying certain estimates, such as impairment determinations or the valuation of servicing assets. Uncertainty regarding the value of certain types of collateral or increasing counter-party risk may affect the valuation of financial instruments.
- Additional risks, such as sovereign default risk or currency volatility, could add a higher level of complexity in determining the ultimate collectability of sales or the appropriateness of other significant assumptions used in certain fair value determinations or estimates, including the fair value of certain financial instruments.
- An active market may not exist for certain financial instruments which in turn may result in complex valuation methods. Assumptions are integral components of more complex valuation methods, for example, valuation methods that employ a combination of estimates of expected future cash flows together with estimates of the values of assets or liabilities in the future, discounted to the present. Auditors pay particular attention to the significant assumptions underlying a valuation method and evaluate whether such assumptions are reasonable and reflect, or are not inconsistent with, market information.<sup>48</sup>

Auditors are reminded that audit evidence consists of both information that supports and corroborates management's assertions and information that contradicts such assertions including assertions regarding fair values, estimates and related disclosures.<sup>49</sup>

## Bias in Accounting Estimates

Business conditions today may create increased pressures to achieve certain financial results that could result in bias in management's estimates.<sup>50</sup> Applying professional skepticism is of particular importance when evaluating estimates and assumptions in judgmental areas that are susceptible to management bias.

The auditor should evaluate whether the difference between estimates best supported by the audit evidence and estimates included in the financial statements, which are individually reasonable, indicate a possible bias on the part of the company's management.<sup>51</sup> A lack of consistency in assumptions used to support different estimates might be indicative of errors or bias in estimates. For instance, revenue assumptions used in the goodwill impairment test that are inconsistent with revenue assumptions used to accrue discretionary compensation might be indicative of management bias. Further, bias might be evidenced by assumptions that are inconsistent with industry economic forecasts or the

---

<sup>48</sup> AU sec. 328.29.

<sup>49</sup> See paragraph 2 of Auditing Standard No. 15, *Audit Evidence*.

<sup>50</sup> See paragraph 25d of Auditing Standard No. 14.

<sup>51</sup> Paragraph 27 of Auditing Standard No. 14.

company's budgets or future business plans or the consistent use of overly optimistic assumptions (e.g. consistently missing projected revenue by a substantial amount in each recent period).<sup>52</sup> If each accounting estimate included in the financial statements is individually reasonable but the effect of the difference between each estimate and the estimate best supported by the audit evidence is to increase earnings or loss, the auditor should evaluate whether these circumstances indicate potential management bias in the estimates.<sup>53</sup> Bias also can result from the cumulative effect of changes in multiple accounting estimates. If the estimates in the financial statements are grouped at one end of the range of reasonable estimates in the prior year and are grouped at the other end of the range of reasonable estimates in the current year, the auditor should evaluate whether management is using swings in estimates to achieve an expected or desired outcome, e.g., to offset higher or lower than expected earnings.<sup>54</sup>

If the auditor identifies bias in management's judgments about the amounts and disclosures in the financial statements, the auditor should evaluate whether the effect of that bias, together with the effect of uncorrected misstatements, results in material misstatement of the financial statements.<sup>55</sup> Also, the auditor should evaluate whether the auditor's risk assessments, including, in particular, the assessment of fraud risks, and the related audit responses remain appropriate.<sup>56</sup> Auditors are reminded that indications of management bias in accounting estimates and in selecting accounting principles may affect the auditor's conclusions about the operating effectiveness of controls and should be included in the auditor's evaluation of controls in an integrated audit.<sup>57</sup>

## Consideration of Changes to Accounting Standards

Practice Alert No. 3 provided information on selected financial reporting areas that might be affected by the then-current economic environment. While these areas continue to pose audit and financial reporting risk, certain accounting requirements have been amended since the issuance of Practice Alert No. 3.<sup>58</sup> For example, the Financial Accounting Standards Board ("FASB") recently issued Accounting Standards Codification Update 2011-08, *Intangibles-Goodwill and Others (Topic 350): Testing Goodwill for Impairment* ("ASU No. 2011-08").<sup>59</sup> That guidance allows companies to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350.<sup>60</sup>

If a company opts to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more

---

<sup>52</sup> See, for example, AU sec. 342.09.

<sup>53</sup> Paragraph 27 of Auditing Standard No. 14.

<sup>54</sup> Ibid.

<sup>55</sup> Paragraph 26 of Auditing Standard No. 14.

<sup>56</sup> Ibid.

<sup>57</sup> See paragraph B8 of Appendix B to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated With An Audit of Financial Statements*.

<sup>58</sup> The Board has no authority to prescribe the form or content of a company's financial statements. That authority, and the authority to make binding determinations concerning compliance with generally accepted accounting standards ("GAAP"), rests with the U.S. Securities and Exchange Commission. Accordingly, while this staff audit practice alert describes applicable GAAP, it does not establish or interpret GAAP.

<sup>59</sup> See <http://www.fasb.org/cs/ContentServer?site=FASB&c=Page&pagename=FASB%2FPage%2FSectionPage&cid=1176156316498>.

<sup>60</sup> ASU No. 2011-08 at 1.

likely than not that the fair value of a reporting unit is less than its carrying amount, ASU No. 2011-08 provides examples of events and circumstances that the company should consider in its evaluation.<sup>61</sup> These examples include, among others:

- Macroeconomic conditions such as a deterioration in general economic conditions;
- Limitations on accessing capital;
- Fluctuations in foreign exchange rates, or other developments in equity and credit markets; and
- Industry and market considerations such as a deterioration in the environment in which an entity operates, an increased competitive environment, a decline in market-dependent multiples or metrics (considered in both absolute terms and relative to peers), a change in the market for an entity's products or services, or a regulatory or political development.<sup>62</sup>

When reviewing and testing the process for a company's assessment of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value, audit considerations include, among others:

- Identifying the sources of data and factors that the company used in forming the assumptions, and consideration of whether such data and factors are relevant, reliable, and sufficient for the purpose based on information gathered in other audit tests.
- Considering whether there are additional key factors or alternative assumptions about the factors.
- Evaluating whether the assumptions are consistent with each other, the supporting data, relevant historical data, and industry data.
- Considering whether changes in the business or industry may cause other factors to become significant to the assumptions.<sup>63</sup>

## The Auditor's Consideration of a Company's Ability to Continue as a Going Concern

Practice Alert No. 3 noted certain challenges companies may face in their ability to continue operating as a going concern in light of the then-current economic environment. These challenges included a reduction of the availability of funding under lines of credit or from short-term borrowing markets, difficulty in meeting debt covenants, and a lack of acceptable collateral. Some companies may continue to face such challenges in the current economic environment.

The auditor has a responsibility to evaluate whether there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time, not to exceed one year beyond the date of the financial statements

---

<sup>61</sup> ASU No. 2011-08 at 2.

<sup>62</sup> ASU No. 2011-08, paragraph 350-20-35-3c.

<sup>63</sup> See AU sec. 342.11.

being audited.<sup>64</sup> The auditor's going concern evaluation can affect the auditor's evaluation of financial disclosures and the auditor's report.<sup>65</sup>

The auditor's going concern evaluation is based on his or her knowledge of relevant conditions and events that exist at or have occurred prior to the date of the auditor's report.<sup>66</sup> Information about such conditions or events is obtained from the application of auditing procedures planned and performed to achieve audit objectives that are related to management's assertions embodied in the financial statements being audited, as described in Auditing Standard No. 15, *Audit Evidence*.<sup>67</sup>

Conditions or events, such as negative trends and other indications of possible financial difficulties as well as internal and external matters that have occurred, when considered in the aggregate, may indicate there could be substantial doubt about the company's ability to continue as a going concern for a reasonable period of time.<sup>68</sup> If the auditor believes there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time, the auditor should (1) obtain information about management's plans that are intended to mitigate the effect of such conditions or events, and (2) assess the likelihood that such plans can be effectively implemented.<sup>69</sup>

Management's plans for dealing with the adverse effects of the conditions or events may include the disposal of assets, borrowing additional funds or restructuring existing debt, planned reduction of expenditures, or increasing equity by raising capital.<sup>70</sup> When evaluating management's plans, the auditor should identify those elements that are particularly significant to overcoming the adverse effects of the conditions and events and should plan and perform auditing procedures to obtain evidential matter about them.<sup>71</sup>

In the current economic environment, it is important for the auditor to consider the adequacy of support for such plans,<sup>72</sup> including whether it is likely that the adverse effects will be mitigated for a reasonable period of time and whether the plans can be effectively implemented.<sup>73</sup> For example, if management indicates that the company plans to dispose of assets to raise capital, audit considerations may include the existence of any restrictions on the disposal of the assets, issues related to the marketability of the assets, and any possible direct or indirect effects of disposal of the assets.<sup>74</sup> As another example, if management is relying on a pledge of financial support from a significant shareholder, consideration should be given to the impact of current economic conditions on the shareholder's ability to provide such funding.<sup>75</sup> Another important consideration in the current economic environment is the willingness of a third party to

---

<sup>64</sup> Paragraph .02 of AU sec. 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.

<sup>65</sup> See AU secs. 341.12 and 341.14.

<sup>66</sup> AU sec. 341.02.

<sup>67</sup> See paragraph 11 of Auditing Standard No. 15.

<sup>68</sup> See AU sec. 341.06.

<sup>69</sup> AU sec. 341.03.b.

<sup>70</sup> See AU sec. 341.07.

<sup>71</sup> AU sec. 341.08.

<sup>72</sup> Ibid.

<sup>73</sup> See AU sec. 341.07.

<sup>74</sup> Ibid.

<sup>75</sup> Such consideration may include information contained in, among other things, the audited financial statements of the shareholder, reports issued by regulatory agencies, financial publications, or credit agencies concerning the shareholder, and income tax returns of the shareholder, to the extent available.

continue to provide financial support, especially if the third party has already provided support to ongoing operations or in light of a potentially longer time frame for the company to return to profitability or positive cash flow.

When prospective financial information is particularly significant to management's plans, the auditor should request management to provide that information and should consider the adequacy of support for significant assumptions underlying that information.<sup>76</sup> In considering the adequacy of support for significant assumptions, the auditor should consider whether the assumptions are consistent with current economic conditions, such as, recent reductions in economic growth forecasts and information obtained by the auditor in other audit areas.

In the current economic environment, assumptions that are especially sensitive or susceptible to change and that are important to the auditor's evaluation of whether or not substantial doubt remains about the company's ability to continue as a going concern may warrant particularly careful consideration by the auditor.<sup>77</sup> When, primarily because of the consideration of management's plans, the auditor concludes that substantial doubt about the company's ability to continue as a going concern for a reasonable period of time is alleviated, the auditor should consider the need for disclosure in the financial statements, the principal conditions and events that initially caused him or her to believe there was substantial doubt, including the possible effects of such conditions and events, and any mitigating factors, including management's plans.<sup>78</sup>

## Auditing Financial Statement Disclosures

The risk assessment standards recognize the importance of financial statement disclosures by directing the auditor's attention to them throughout the audit process. The current economic environment may increase the risk related to omitted, incomplete, or inaccurate disclosures, including, for example, disclosures regarding contingent liabilities, risks and uncertainties, concentrations of credit risk, and liquidity concerns.

The risk assessment standards require auditors to perform procedures to assess the risk of omitted, incomplete, or inaccurate disclosures, whether intentional or unintentional,<sup>79</sup> and to identify and test significant disclosures.<sup>80</sup> To identify and assess such risks, the auditor should develop expectations about the disclosures that are necessary for the company's financial statements to be presented fairly in conformity with the applicable financial reporting framework.<sup>81</sup> The key engagement team members should discuss (1) the company's selection and application of accounting principles, including related disclosure requirements, and (2) the susceptibility of the company's financial statements to material misstatement due to error or fraud.<sup>82</sup> The discussion among the key engagement

---

<sup>76</sup> AU sec. 341.09.

<sup>77</sup> *Ibid.*

<sup>78</sup> *See* AU sec. 341.11.

<sup>79</sup> *See*, for example, paragraphs 49, 52, and 67 of Auditing Standard No. 12.

<sup>80</sup> *See*, for example, paragraphs 59–64 of Auditing Standard No. 12 and paragraph 9 and footnote 6 of Auditing Standard No. 13. A disclosure is a significant disclosure if there is a reasonable possibility that the disclosure could contain a misstatement that, individually or when aggregated with others, has a material effect on the financial statements. *See* paragraph A10 of Auditing Standard No. 5.

<sup>81</sup> *See* paragraph 12 of Auditing Standard No. 12.

<sup>82</sup> Paragraph 49 of Auditing Standard No. 12.

team members should include how fraud might be perpetrated or concealed by omitting or presenting incomplete or inaccurate disclosures.<sup>83</sup>

The nature of certain financial statement disclosure requirements, the complexity of the matters disclosed, and the qualitative nature of certain disclosures can pose additional risks of material misstatement. Also, internal controls over disclosures that are qualitative, judgmental, or complex often are different from those controls over the processing and reporting of routine historical transactions. For these types of disclosures, the necessary controls are more likely to be manual controls than automated controls and may require significant judgment in the operation of the control, which, in turn, can affect the risk associated with the control.

When evaluating whether the financial statements are fairly presented in conformity with the applicable financial reporting framework, the auditor also is required to evaluate the disclosures, which includes, among other things:

- Evaluating whether the financial statements, including the related notes, are informative of matters that may affect their use, understanding, and interpretation;<sup>84</sup> and
- Considering the form, arrangement, and content of the financial statements (including the accompanying notes), encompassing matters such as the terminology used, the amount of detail given, the classification of items in the statements, and the bases of amounts set forth.<sup>85</sup>

Evaluation of disclosures also involves evaluation of the effect on the financial statements of uncorrected misstatements in disclosures, such as omitted, incomplete, or inaccurate disclosures. Qualitative considerations are particularly important when evaluating misstatements in disclosures that are more narrative in nature, such as those relating to risks and uncertainties or loss contingencies where an estimate has not yet been disclosed.<sup>86</sup> PCAOB auditing standards describe the auditor's responsibilities for considering qualitative factors in the context of the auditor's consideration of materiality.<sup>87</sup>

To determine the extent of supervision necessary for engagement team members to perform their work as directed and form appropriate conclusions, the engagement partner and other engagement team members performing supervisory activities should take into account, among other things, the nature of the assigned work for each engagement team member, including the controls or accounts and disclosures to be tested.<sup>88</sup> For example, additional supervision over audit areas including disclosures that are more qualitative, judgmental, or complex in nature may be merited. Also, to effectively evaluate those disclosures, auditors need to exercise professional skepticism and be alert for events or conditions that may contradict management's assertions in the disclosures.<sup>89</sup> Events or conditions that may contradict information in the disclosures may arise during the performance of other audit procedures including reading information in documents containing audited financial statements or may be based

---

<sup>83</sup> See paragraph 52 of Auditing Standard No. 12.

<sup>84</sup> See paragraph .04 of AU sec. 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*.

<sup>85</sup> See paragraph 31 of Auditing Standard No. 14.

<sup>86</sup> Practice Alert No. 3 discussed communications with audit committee, including communications about the clarity and completeness of the financial statements, that include related disclosures.

<sup>87</sup> See, for example, paragraph 24 and Appendix B of Auditing Standard No. 14.

<sup>88</sup> See paragraph 6b(2) of Auditing Standard No. 10, *Supervision of the Audit Engagement*.

<sup>89</sup> See AU sec. 230, *Due Professional Care in the Performance of Work*.

on more general factors, such as conditions in the industry in which the company operates. PCAOB standards require auditors to read other information in documents containing audited financial statements and consider whether such information is materially inconsistent with information appearing in the financial statements, including disclosures.<sup>90</sup>

Obtaining audit evidence that is relevant for evaluating disclosures that are more judgmental or qualitative in nature might require different auditing procedures from those used to evaluate disclosures of routine historical data. For example, the evidence needed to evaluate a disclosure relating to a loss contingency might come from sources outside the company's accounting system or possibly from sources outside the company.

## **.10 Staff Audit Practice Alert No. 10**

# ***Maintaining and Applying Professional Skepticism in Audits***

**December 4, 2012**

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of the standards and rules of the PCAOB and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Staff Audit Practice Alerts do not establish rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

### **Executive Summary**

Professional skepticism is essential to the performance of effective audits under Public Company Accounting Oversight Board ("PCAOB" or "Board") standards. Those standards require that professional skepticism be applied throughout the audit by each individual auditor on the engagement team.

PCAOB standards define professional skepticism as an attitude that includes a questioning mind and a critical assessment of audit evidence. The standards also state that professional skepticism should be exercised throughout the audit process. While professional skepticism is important in all aspects of the audit, it is particularly important in those areas of the audit that involve significant management judgments or transactions outside the normal course of business. Professional skepticism also is important as it relates to the auditor's consideration of fraud in an audit. When auditors do not appropriately apply professional skepticism, they may not obtain sufficient appropriate evidence to support their opinions or may not identify or address situations in which the financial statements are materially misstated.

Observations from the PCAOB's oversight activities continue to raise concerns about whether auditors consistently and diligently apply professional skepticism. Certain circumstances can impede the appropriate application of professional skepticism and allow unconscious biases to prevail, including incentives and pressures resulting from certain conditions inherent in the audit environment, scheduling and workload demands, or an inappropriate level of confidence or trust in management. Audit firms and individual auditors should be alert for these impediments and take appropriate measures to assure that professional skepticism is applied appropriately throughout all audits performed under PCAOB standards.

Firms' quality control systems can help engagement teams improve the application of professional skepticism in a number of ways, including setting a proper tone at the top that emphasizes the need for professional skepticism; implementing and maintaining appraisal, promotion, and compensation processes

that enhance rather than discourage the application of professional skepticism; assigning personnel with the necessary competencies to engagement teams; establishing policies and procedures to assure appropriate audit documentation, especially in areas involving significant judgments; and appropriately monitoring the quality control system and taking necessary corrective actions to address deficiencies, such as, instances in which engagement teams do not apply professional skepticism.

The engagement partner is responsible for, among other things, setting an appropriate tone that emphasizes the need to maintain a questioning mind throughout the audit and to exercise professional skepticism in gathering and evaluating evidence, so that, for example, engagement team members have the confidence to challenge management representations. It is also important for the engagement partner and other senior engagement team members to be actively involved in planning, directing, and reviewing the work of other engagement team members so that matters requiring audit attention, such as unusual matters or inconsistencies in audit evidence, are identified and addressed appropriately.

It is the responsibility of each individual auditor to appropriately apply professional skepticism throughout the audit, including in identifying and assessing the risks of material misstatement, performing tests of controls and substantive procedures to respond to the risks, and evaluating the results of the audit. This involves, among other things, considering what can go wrong with the financial statements, performing audit procedures to obtain sufficient appropriate audit evidence rather than merely obtaining the most readily available evidence to corroborate management's assertions, and critically evaluating all audit evidence regardless of whether it corroborates or contradicts management's assertions.

The Office of the Chief Auditor is issuing this practice alert to remind auditors of the requirement to appropriately apply professional skepticism throughout their audits. The timing of this release is intended to facilitate firms' emphasis in upcoming calendar year-end audits, as well as in future audits, on the importance of the appropriate use of professional skepticism. Due to the fundamental importance of the appropriate application of professional skepticism in performing an audit in accordance with PCAOB standards, the PCAOB also is continuing to explore whether additional actions might meaningfully enhance auditors' professional skepticism.

## Professional Skepticism and Due Professional Care

Professional skepticism, an attitude that includes a questioning mind and a critical assessment of audit evidence, is essential to the performance of effective audits under PCAOB standards. The audit is intended to provide investors with an opinion on whether the financial statements prepared by company management are presented fairly, in all material respects, in conformity with the applicable financial reporting framework. If the audit is conducted without professional skepticism, the value of the audit is impaired.

The auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud.<sup>1</sup> This responsibility includes obtaining sufficient appropriate evidence to determine whether the financial

---

<sup>1</sup> Paragraph .02 of AU sec. 110, *Responsibilities and Functions of the Independent Auditor*.

statements are materially misstated rather than merely looking for evidence that supports management's assertions.<sup>2</sup>

PCAOB standards require the auditor to exercise due professional care in planning and performing the audit and in preparing the audit report. Due professional care requires the auditor to exercise professional skepticism. PCAOB standards define professional skepticism as an attitude that includes a questioning mind and a critical assessment of audit evidence. PCAOB standards require the auditor to exercise professional skepticism throughout the audit.<sup>3</sup>

While professional skepticism is important in all aspects of the audit, it is particularly important in those areas of the audit that involve significant management judgments or transactions outside the normal course of business, such as nonrecurring reserves, financing transactions, and related party transactions that might be motivated solely, or in large measure, by an expected or desired accounting outcome. Effective auditing involves diligent pursuit of sufficient appropriate audit evidence, particularly if contrary evidence exists, and critical assessment of all the evidence obtained.

Professional skepticism is also important as it relates to the auditor's consideration of fraud in the audit.<sup>4</sup> Company management has a unique ability to perpetrate fraud because it frequently is in a position to directly or indirectly manipulate accounting records and present fraudulent financial information.<sup>5</sup> Company personnel who intentionally misstate the financial statements often seek to conceal the misstatement by attempting to deceive the auditor. Because of this incentive, applying professional skepticism is integral to planning and performing audit procedures to address fraud risks. In exercising professional skepticism, the auditor should not be satisfied with less than persuasive evidence because of a belief that management is honest.<sup>6</sup>

Examples of the application of professional skepticism in response to the assessed fraud risks are (a) modifying the planned audit procedures to obtain more reliable evidence regarding relevant assertions and (b) obtaining sufficient appropriate evidence to corroborate management's explanations or representations concerning important matters, such as through third-party confirmation, use of a specialist engaged or employed by the auditor, or examination of documentation from independent sources.<sup>7</sup>

PCAOB inspectors continue to observe instances in which the circumstances suggest that auditors did not appropriately apply professional skepticism in their audits.<sup>8</sup> As examples, audit deficiencies like the following raise concerns that a lack of professional skepticism was at least a contributing factor:

- For certain hard-to-value Level 2 financial instruments, the engagement team did not obtain an understanding of the specific methods and/or assumptions underlying the fair value estimates that were obtained from pricing services or other third parties and

---

<sup>2</sup> See, e.g., paragraph 3 of Auditing Standard No. 8, *Audit Risk* and paragraph 3 of Auditing Standard No. 14, *Evaluating Audit Results*.

<sup>3</sup> See paragraphs .01 and .07-.08 of AU sec. 230, *Due Professional Care in the Performance of Work*.

<sup>4</sup> See paragraph .13 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>5</sup> AU sec. 316.08.

<sup>6</sup> See AU secs. 230.07-.09.

<sup>7</sup> Paragraph 7 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

<sup>8</sup> The PCAOB is not alone in identifying concerns regarding professional skepticism in audits. Regulators in countries such as Australia, Canada, Germany, the Netherlands, Singapore, Switzerland, and the United Kingdom have cited concerns about professional skepticism in public

(continued)

used in the engagement team's testing related to these financial instruments. Further, the firm used the price closest to the issuer's recorded price in testing the fair value measurements, without evaluating the significance of differences between the other prices obtained and the issuer's prices.

- The issuer discontinued production of a significant product line during the prior year and introduced a new product line to replace it. There were no sales of the discontinued product line during the last nine months of the year under audit. The engagement team did not test, beyond inquiry, the significant assumptions management used to calculate its separate inventory reserve for this product line.
- The engagement team did not evaluate the effects on the financial statements of management's determination not to test a significant portion of its property and equipment for impairment, despite indicators that the carrying amount may not have been recoverable. These indicators in this situation included operating losses for the relevant segment for the last three years, substantial charges for the impairment of goodwill and other intangible assets during the year, a projected loss for the segment for the upcoming year, and reduced and delayed customer orders.
- After the date of the issuer's balance sheet, but before the release of the firm's opinion, the issuer reported that it anticipated that comparable store sales for the first quarter of the year would be significantly lower than those for the first quarter of the year under audit. The engagement team had performed sensitivity analyses as part of its assessment on the issuer's evaluation of its compliance with its debt covenants, the issuer's ability to continue as a going concern, and the possibility of the impairment of the issuer's long-lived assets. The engagement team did not consider the implications of the anticipated decline in sales on its sensitivity analyses and its conclusions with respect to compliance with debt covenants, the issuer's ability to continue as a going concern, and impairment of long-lived assets.

The PCAOB's enforcement activities also have identified instances in which auditors did not appropriately apply professional skepticism. For example, in one recent disciplinary order, the Board found, among other things, that certain of a firm's audit partners accepted a company's reliance on an exception to generally accepted accounting principles ("GAAP") requirements for reserving for expected future product returns even though doing so conflicted with the plain language of the exception and the firm's internal accounting literature. The partners were aware of, but did not appropriately consider, contradictory audit

reports on their inspections. See, e.g., the Financial Reporting Council's *Audit Quality Inspections Annual Report 2011/12*, available at <http://www.frc.org.uk/Our-Work/Publications/AIU/Audit-Quality-Inspections-Annual-Report-2011-12.aspx>, the Canadian Public Accountability Board's, *Meeting the Challenge "A Call to Action" 2011 Public Report*, available at [http://www.cpab-cerc.ca/en/content/2011PublicReport\\_EN.pdf](http://www.cpab-cerc.ca/en/content/2011PublicReport_EN.pdf), the Australian Securities & Investments Commission's Report 242, *Audit inspection program public report for 2009–2010*, available at [http://www.asic.gov.au/asic/pdflib.nsf/LookupByFileName/rep242-published-29-June-2011.pdf/\\$file/rep242-published-29-June-2011.pdf](http://www.asic.gov.au/asic/pdflib.nsf/LookupByFileName/rep242-published-29-June-2011.pdf/$file/rep242-published-29-June-2011.pdf), and the Accounting and Corporate Regulatory Authority *Practice Monitoring Programme Sixth Public Report*, August 2012, available at <http://www.acra.gov.sg/NR/rdonlyres/E7E2A4BF-EC46-4AB2-877D-297D4E618042/0/PMPReport2012170712finalclean.pdf>.

evidence indicating that the returns were not eligible for the exception. This illustration of a lack of professional skepticism reappeared in the firm's response when the issue was questioned by the firm's internal audit quality reviewers. Although certain of the partners involved determined that the company's reliance on the exception to GAAP did not support the company's accounting, they, along with other firm personnel, formulated another equally deficient rationale that supported the company's existing accounting result.<sup>9</sup>

## Impediments to the Application of Professional Skepticism

Although PCAOB standards require auditors to appropriately apply professional skepticism throughout the audit, observations from the PCAOB's oversight activities indicate that, as a practical matter, auditors are often challenged in meeting this fundamental audit requirement. In maintaining an attitude that includes a questioning mind and a critical assessment of audit evidence, it is important for auditors to be alert to unconscious human biases and other circumstances that can cause auditors to gather, evaluate, rationalize, and recall information in a way that is consistent with client preferences rather than the interests of external users.

Certain conditions inherent in the audit environment can create incentives and pressures that can serve to impede the appropriate application of professional skepticism and allow unconscious bias to prevail. For example, incentives and pressures to build or maintain a long-term audit engagement, avoid significant conflicts with management, provide an unqualified audit opinion prior to the issuer's filing deadline, achieve high client satisfaction ratings, keep audit costs low, or cross-sell other services can all serve to inhibit professional skepticism.

In addition, over time, auditors may sometimes develop an inappropriate level of trust or confidence in management, which may lead auditors to accede to inappropriate accounting. In some situations, auditors may feel pressure to avoid potential negative interactions with, or consequences to, individuals they know (that is, management) instead of representing the interests of the investors they are charged to protect.

Other circumstances also can impede the appropriate application of professional skepticism. For example, scheduling and workload demands can put pressure on partners and other engagement team members to complete their assignments too quickly, which might lead auditors to seek audit evidence that is easier to obtain rather than evidence that is more relevant and reliable, to obtain less evidence than is necessary, or to give undue weight to confirming evidence without adequately considering contrary evidence.

Although powerful incentives and pressures exist that can impede professional skepticism, the importance of professional skepticism to an effective audit cannot be overstated, particularly given the increasing judgment and complexity in financial reporting and issues posed by the current economic environment.<sup>10</sup> Auditors and audit firms must remember that their overriding duty is to put the interests of investors first. Appropriate application of professional skepticism is key to fulfilling the auditor's duty to investors. In the words of the U.S. Supreme Court:

---

<sup>9</sup> See *In the Matter of Ernst & Young LLP, Jeffrey S. Anderson, CPA, Ronald Butler, Jr., CPA, Thomas A. Christie, CPA, and Robert H. Thibault, CPA, Respondents*, PCAOB Release No. 105-2012-001, (Feb. 8, 2012).

<sup>10</sup> See Staff Practice Alert No. 9, *Assessing and Responding to Risk in the Current Economic Environment* (Dec. 6, 2011).

By certifying the public reports that collectively depict a corporation's financial status, the independent auditor assumes a public responsibility transcending any employment relationship with the client. The independent public accountant performing this special function owes ultimate allegiance to the corporation's creditors and stockholders, as well as to the investing public. This "public watchdog" function demands that the accountant maintain total independence from the client at all times and requires complete fidelity to the public trust.<sup>11</sup>

However, inadequate performance of audit procedures may be caused by factors other than the lack of skepticism, or in combination with a lack of skepticism. As discussed further below, firms should take appropriate steps to understand the various factors that influence audit quality, including those circumstances and pressures that can impede the application of professional skepticism.

## Promoting Professional Skepticism via an Appropriate System of Quality Control

PCAOB standards require firms to establish a system of quality control to provide the firm with reasonable assurance that its personnel comply with applicable professional standards and the firm's standards of quality.<sup>12</sup> This includes designing and implementing policies and procedures that lead engagement teams to appropriately apply professional skepticism in their audits.

Firms' quality control systems can help engagement teams improve the application of professional skepticism in a number of ways, including the following:

- *"Tone-at-the-Top" Messaging.* The PCAOB's inspection findings have identified instances in which the firm's culture allows or tolerates audit approaches that do not consistently emphasize the need for professional skepticism. Consistent communication from firm leadership that professional skepticism is integral to performing a high quality audit, backed up by a culture that supports it, could improve the quality of work performed by audit partners and staff. On the other hand, messages from firm leadership that are excessively focused on revenue or profit growth over achieving audit quality, can undermine the application of professional skepticism.
- *Performance Appraisal, Promotion, and Compensation Processes.* An audit firm's performance appraisal, promotion, and compensation processes can enhance or detract from the application of professional skepticism in its audit practice, depending on how they are designed and executed. For example, if a firm's promotion process emphasizes selling non-audit services or places an undue focus on reducing audit costs, or retaining and acquiring audit clients over achieving high audit quality, the firm's personnel may perceive those goals as being more important to their own compensation, job security, and advancement within the firm than the appropriate application of professional skepticism.
- *Professional Competence and Assigning Personnel to Engagement Teams.* A firm's quality control system depends heavily on the proficiency of its personnel,<sup>13</sup> which includes their ability to exercise

---

<sup>11</sup> *U.S. v. Arthur Young & Co.*, 465 U.S. 805, 817-18 (1984).

<sup>12</sup> See paragraph .03 of Quality Control ("QC") sec. 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*.

<sup>13</sup> QC sec. 20.11.

professional skepticism. To perform the audit with professional skepticism, it is important that personnel assigned to engagement teams have the necessary knowledge, skill, and ability required in the circumstances,<sup>14</sup> which includes appropriate technical training and experience. Professional skepticism is interrelated with an auditor's training and experience, as auditors need an appropriate level of competence in order to appropriately apply professional skepticism throughout the audit. In addition, it is important for the firm's culture to continually reinforce the appropriate application of professional skepticism throughout the audit.

- *Documentation.* It is important for a firm's quality control system to establish policies and procedures that cover documenting the results of each engagement.<sup>15</sup> Although documentation should support the basis for the auditor's conclusions concerning every relevant financial statement assertion, areas that require greater judgment generally need more extensive documentation of the procedures performed, evidence obtained, and rationale for the conclusions reached. In addition to the documentation necessary to support the auditor's final conclusions, audit documentation must include information the auditor has identified relating to significant findings or issues that is inconsistent with or contradicts the auditor's final conclusions.<sup>16</sup>
- *Monitoring.* Under PCAOB standards, a firm's quality control policies and procedures should include an element of monitoring to ensure that quality control policies and procedures are suitably designed and being effectively applied.<sup>17</sup> If the firm identifies deficiencies, the firm should evaluate the reasons for the deficiencies and determine the necessary corrective actions or improvements to the quality control system.<sup>18</sup> Accordingly, if a firm identifies deficiencies that include failures to appropriately apply professional skepticism as a contributing factor, the firm should take appropriate corrective actions.

## Importance of Supervision to the Application of Professional Skepticism

The supervisory activities performed by the engagement partner and other senior engagement team members are important to the application of professional skepticism.<sup>19</sup> The engagement partner is responsible for the proper supervision of the work of engagement team members.<sup>20</sup> Accordingly, the engagement partner is responsible for setting an appropriate tone that emphasizes the need

---

<sup>14</sup> See QC sec. 20.12.

<sup>15</sup> See QC secs. 20.17-.18. Also, see generally Auditing Standard No. 3, *Audit Documentation*.

<sup>16</sup> See, e.g., paragraphs 7-8 of Auditing Standard No. 3.

<sup>17</sup> See QC sec. 20.07 and paragraph .02 of QC sec. 30, *Monitoring a CPA Firm's Accounting and Auditing Practice*.

<sup>18</sup> See QC sec. 30.03.

<sup>19</sup> Besides supervision by the engagement partner and other engagement team members, the engagement quality reviewer also plays an important role in assessing the application of professional skepticism by the engagement team. In particular, the engagement quality reviewer is required to perform specific procedures to evaluate the significant judgments made by the engagement team.

<sup>20</sup> Paragraph 3 of Auditing Standard No. 10, *Supervision of the Audit Engagement*.

to maintain a questioning mind throughout the audit and to exercise professional skepticism in gathering and evaluating evidence, so that, for example, engagement team members have the confidence to challenge management representations.<sup>21</sup>

It is also important for the engagement partner and other senior engagement team members to be actively involved in planning, directing, and reviewing the work of other engagement team members so that matters requiring audit attention are identified and addressed appropriately. In directing the work of others, senior engagement team members, including the engagement partner, may have knowledge and experience that may assist less experienced engagement team members in applying professional skepticism. For example, senior engagement team members might help more junior auditors identify matters that are unusual or inconsistent with other evidence. In addition, senior members of the engagement team might be better able to challenge the assertions of senior levels of management, when necessary.

## Appropriate Application of Professional Skepticism

Although a firm's quality control systems and the actions of the engagement partner and other senior engagement team members can contribute to an environment that supports professional skepticism, it is ultimately the responsibility of each individual auditor to appropriately apply professional skepticism throughout the audit, including the following areas among others:

- Identifying and assessing risks of material misstatement;
- Performing tests of controls and substantive procedures; and
- Evaluating audit results to form the opinion to be expressed in the auditor's report.

## Identifying and Assessing Risks of Material Misstatement

By its nature, risk assessment involves looking at internal and external factors to determine what can go wrong with the financial statements, whether due to error or fraud. When properly applied, the risk assessment approach set forth in PCAOB standards should focus auditors' attention on those areas of the financial statements that are higher risk and thus most susceptible to misstatement. This includes considering events and conditions that create incentives or pressures on management or create opportunities for management to manipulate the financial statements. The evidence obtained from the required risk assessment procedures should provide a reasonable basis for the auditor's risk assessments, which, in turn, should drive the auditor's tests of accounts and disclosures in the financial statements.

The risk assessment procedures required by PCAOB standards also should provide the auditor with a thorough understanding of the company and its environment as a basis for identifying unusual transactions or matters that warrant further investigation. They also provide a basis for the auditor to evaluate and challenge management's assertions.<sup>22</sup> It is important to note that the auditor's understanding should be based on actual information obtained from the risk assessment procedures. It is not sufficient for auditors merely to rely on

---

<sup>21</sup> See paragraph 53 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.

<sup>22</sup> For example, risk assessment procedures may provide the auditor a basis for challenging management's responses to the required inquiries of management in Auditing Standard No. 12.

their perceived knowledge of the industry or information obtained from prior audits or other engagements for the company.

## Performing Tests of Controls and Substantive Procedures

Appropriately applying professional skepticism is critical to obtaining sufficient appropriate audit evidence to determine whether the financial statements are free of material misstatement and, in an integrated audit, whether internal controls over financial reporting are operating effectively. Application of professional skepticism is not merely obtaining the most readily available evidence to corroborate management's assertion.

The need for auditors to appropriately apply professional skepticism is echoed throughout PCAOB standards. For example, PCAOB standards caution that representations from management are not a substitute for the application of those auditing procedures necessary to afford a reasonable basis for an opinion regarding the financial statements under audit.<sup>23</sup> Also, the standards warn that inquiry alone does not provide sufficient appropriate evidence to support a conclusion about a relevant assertion.<sup>24</sup>

In addition, PCAOB standards require auditors to design and perform audit procedures in a manner that addresses the assessed risks of material misstatement and to obtain more persuasive evidence the higher the assessment of risk.<sup>25</sup> The auditor is required to apply professional skepticism, which includes a critical assessment of the audit evidence.<sup>26</sup> Substantive procedures generally provide persuasive evidence when they are designed and performed to obtain evidence that is relevant and reliable.<sup>27</sup> When discussing the characteristics of reliable audit evidence, PCAOB standards observe that generally, among other things, evidence obtained from a knowledgeable source independent of the company is more reliable than evidence obtained only from internal company sources and evidence obtained directly by the auditor is more reliable than evidence obtained indirectly.<sup>28</sup>

Taken together, this means that in higher risk areas, the auditor's appropriate application of professional skepticism should result in procedures that are focused on obtaining evidence that is more relevant and reliable, such as evidence obtained directly and evidence obtained from independent, knowledgeable sources.<sup>29</sup> Further, if audit evidence obtained from one source is inconsistent with that obtained from another, the auditor should perform the audit procedures necessary to resolve the matter and should determine the effect, if any, on other aspects of the audit.<sup>30</sup>

The following are examples of audit procedures in PCAOB standards that reflect the need for professional skepticism:

- Resolving inconsistencies in or doubts about the reliability of confirmations,<sup>31</sup>

---

<sup>23</sup> See paragraph .02 of AU sec. 333, *Management Representations*.

<sup>24</sup> Paragraph 39 of Auditing Standard No. 13.

<sup>25</sup> See paragraphs 8-9 of Auditing Standard No. 13. For fraud risks and significant risks, the auditor also is required to perform procedures, including tests of details, that are specifically responsive to the assessed risks.

<sup>26</sup> See AU sec. 230.07.

<sup>27</sup> Paragraph 39 of Auditing Standard No. 13.

<sup>28</sup> See paragraph 8 of Auditing Standard No. 15, *Audit Evidence*.

<sup>29</sup> See paragraph 9.a. of Auditing Standard No. 13.

<sup>30</sup> Paragraph 29 of Auditing Standard No. 15.

<sup>31</sup> See, e.g., paragraphs .27 and .33 of AU sec. 330, *The Confirmation Process*.

- Examining journal entries and other adjustments for evidence of possible material misstatement due to fraud;<sup>32</sup>
- Reviewing accounting estimates for biases that could result in material misstatement due to fraud;<sup>33</sup>
- Evaluating the business rationale for significant unusual transactions;<sup>34</sup> and
- Evaluating whether there is substantial doubt about an entity's ability to continue as a going concern.<sup>35</sup>

## Evaluating Audit Results to Form the Opinion to be Expressed in the Audit Report

When professional skepticism is applied appropriately, the auditor does not presume that the financial statements are presented fairly in conformity with the applicable financial reporting framework. Instead, the auditor employs an attitude that includes a questioning mind in making critical assessments of the evidence obtained to determine whether the financial statements are materially misstated. PCAOB standards indicate that the auditor should take into account all relevant audit evidence, regardless of whether the evidence corroborates or contradicts the assertions in the financial statements.<sup>36</sup> Examples of areas in the evaluation that reflect the need for the auditor to apply professional skepticism, include, but are not limited to, the following:

- *Evaluating uncorrected misstatements.* This includes evaluating whether the uncorrected misstatements identified during the audit result in material misstatement of the financial statements, individually or in combination, considering both qualitative and quantitative factors.<sup>37</sup>
- *Evaluating management bias.* This includes evaluating potential bias in accounting estimates, bias in the selection and application of accounting principles, the selective correction of misstatements identified during the audit, and identification by management of additional adjusting entries that offset misstatements accumulated by the auditor.<sup>38</sup> When evaluating bias, it is important for auditors to consider the incentives and pressures on management to manipulate the financial statements.
- *Evaluating the presentation of the financial statements.* This includes evaluating whether the financial statements contain the information essential for a fair presentation of the financial statements in conformity with the applicable financial reporting framework.<sup>39</sup>

---

<sup>32</sup> See AU secs. 316.58-.62.

<sup>33</sup> See AU secs. 316.63-.65.

<sup>34</sup> See AU secs. 316.66-.67.

<sup>35</sup> See AU sec. 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern.*

<sup>36</sup> See paragraph 3 of Auditing Standard No. 14.

<sup>37</sup> See paragraph 17 of Auditing Standard No. 14.

<sup>38</sup> See paragraph 25 of Auditing Standard No. 14.

<sup>39</sup> See paragraphs 30-31 of Auditing Standard No. 14.

When evaluating misstatements, bias, or presentation and disclosures, it is important for auditors to appropriately apply professional skepticism and avoid dismissing matters as immaterial without adequate consideration.

## Conclusion

The Office of the Chief Auditor is issuing this practice alert to remind auditors of the requirement to appropriately apply professional skepticism throughout their audits, which includes an attitude of a questioning mind and a critical assessment of audit evidence. The timing of this release is intended to facilitate firms' emphasis in upcoming calendar year-end audits, as well as in future audits, on the importance of the appropriate use of professional skepticism. Due to the fundamental importance of the appropriate application of professional skepticism in performing an audit in accordance with PCAOB standards, the PCAOB also is continuing to explore whether additional actions might meaningfully enhance auditors' professional skepticism.

## **.11 Staff Audit Practice Alert No. 11**

# ***Considerations for Audits of Internal Control Over Financial Reporting***

**October 24, 2013**

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of the standards and rules of the PCAOB and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Staff Audit Practice Alerts do not establish rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

### **Summary**

The Office of the Chief Auditor is issuing this practice alert in light of significant auditing practice issues observed by the Public Company Accounting Oversight Board ("PCAOB" or the "Board") staff in the past three years relating to audits of internal control over financial reporting ("audits of internal control"). The practice alert highlights certain requirements of the auditing standards of the PCAOB in aspects of audits of internal control in which significant auditing deficiencies have been cited frequently in PCAOB inspection reports. Specifically, this alert discusses the following topics:

- Risk assessment and the audit of internal control
- Selecting controls to test
- Testing management review controls
- Information technology ("IT") considerations, including system-generated data and reports
- Roll-forward of controls tested at an interim date
- Using the work of others
- Evaluating identified control deficiencies

Auditors should take note of the matters discussed in this alert in planning and performing their audits of internal control. Because of the nature and importance of the matters covered in this alert, it is particularly important for the engagement partner and senior engagement team members to focus on these areas and for engagement quality reviewers to keep these matters in mind when performing their engagement quality reviews. Auditing firms also should consider whether additional training of their auditing personnel is needed for the topics discussed in this alert.

Audit committees of companies for which audits of internal control are conducted might wish to discuss with their auditors the level of auditing

deficiencies in this area identified in their auditors' internal inspections and PCAOB inspections, request information from their auditors about potential root causes of such findings, and ask how they are addressing the matters discussed in this alert. In particular, audit committees may want to inquire about the involvement and focus by senior members of the firm on these matters.

## Introduction

Effective internal control over financial reporting ("internal control") helps assure that companies produce reliable published financial statements that investors can use in making investment decisions. Since the 1970s, federal laws have required public companies to maintain sufficient "internal accounting controls."<sup>1</sup> The Sarbanes-Oxley Act of 2002, as amended, ("Act") requires company management to annually assess and report on the effectiveness of the company's internal control. For larger companies, the Act also requires independent auditors to attest to management's assessment of the effectiveness of the company's internal control.<sup>2</sup>

Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, establishes requirements for performing and reporting on audits of internal control. The audit of internal control should be integrated with the audit of the financial statements. The objectives of the audits are not identical, and the auditor must plan and perform the work to achieve the objectives of both audits. In reporting on an integrated audit of internal control and financial statements ("integrated audit"), the auditor expresses an opinion on the financial statements and an opinion on the effectiveness of the company's internal control.

Auditing Standard No. 5 establishes a top-down,<sup>3</sup> risk-based approach to the audit of internal control. The auditing standard is designed to focus auditors on the most important matters in the audit of internal control and avoid procedures that are unnecessary to an effective audit.

When Auditing Standard No. 5 was adopted, the Board announced its intention to monitor the implementation of that auditing standard. The PCAOB has continued to monitor Auditing Standard No. 5 execution as part of its ongoing oversight activities. Over the last three years, the PCAOB's inspections staff has observed a significant number of auditing deficiencies in audits of internal

---

<sup>1</sup> See 15 U.S.C. 78m, which was added to federal securities law by the Foreign Corrupt Practices Act of 1977, which sets forth requirements for devising and maintaining a "system of internal accounting controls" sufficient to provide reasonable assurance that, among other things, transactions are recorded as necessary to permit preparation of financial statements in conformity with generally accepted accounting principles or any other applicable criteria.

<sup>2</sup> See § 404 of the Act. The auditor attestation requirement applies to companies that qualify as "large accelerated filers" or "accelerated filers," other than "emerging growth companies." Pursuant to 17 C.F.R. § 240.12b-2, the designation of accelerated filers and large accelerated filers is based on, among other things, the aggregate worldwide market value of the voting and non-voting common equity held by non-affiliates as of the last business day of the issuer's most recently completed second fiscal quarter. For an accelerated filer, the aggregate market value criterion is \$75 million or more, but less than \$700 million. For a large accelerated filer, the aggregate market value criterion is \$700 million or more.

<sup>3</sup> Under PCAOB standards, a top-down approach begins at the financial statement level and with the auditor's understanding of the overall risks to internal control over financial reporting. The auditor then focuses on entity-level controls and works down to significant accounts and disclosures and their relevant assertions. This approach directs the auditor's attention to accounts, disclosures, and assertions that present a reasonable possibility of material misstatement to the financial statements and related disclosures. The auditor then verifies his or her understanding of the risks in the company's processes and selects for testing those controls that sufficiently address the assessed risk of misstatement to each relevant assertion. See paragraph 21 of Auditing Standard No. 5.

control. As reported in *Observations from 2010 Inspections of Domestic Annually Inspected Firms Regarding Deficiencies in Audits of Internal Control Over Financial Reporting* ("the general inspection report"),<sup>4</sup> in 46 of the 309 integrated audit engagements (or 15 percent) covered by the general inspection report, inspections staff found that the firm, at the time it issued its audit report, had failed to obtain sufficient appropriate evidence to support its opinion on the effectiveness of internal control due to one or more auditing deficiencies identified by the inspections staff. The general inspection report also noted that, in an additional 16 percent of the engagements covered by the report, the inspections staff identified other deficiencies in the auditing of internal control that did not involve findings of such significance that they indicated a failure to support the firm's internal control opinion.<sup>5</sup> Inspections in subsequent years have continued to identify similarly high levels of deficiencies in audits of internal control.

Deficiencies in audits of internal control also can affect the audit of the financial statements. In integrated audits, auditors often rely on controls to reduce their substantive testing of financial statement accounts and disclosures. Thus, deficiencies in testing and evaluating internal control can lead to inadequate testing of accounts and disclosures in the financial statement audit. The general inspection report notes that, in 39 of the 46 engagements (85 percent) in which the inspection staff found that the firm did not have sufficient appropriate evidence to support the firm's internal control opinion, representing 13 percent of the 309 integrated audit engagements that were inspected, inspection staff found that the firm also failed to obtain sufficient appropriate evidence to support its opinion on the financial statements.

Significant auditing deficiencies in audits of internal control that have been frequently cited in PCAOB inspection reports include failures to:

- Identify and sufficiently test controls that are intended to address the risks of material misstatement;
- Sufficiently test the design and operating effectiveness of management review controls that are used to monitor the results of operations;
- Obtain sufficient evidence to update the results of testing of controls from an interim date to the company's year end (i.e., the roll-forward period);
- Sufficiently test controls over the system-generated data and reports that support important controls;<sup>6</sup>
- Sufficiently perform procedures regarding the use of the work of others; and
- Sufficiently evaluate identified control deficiencies.<sup>7</sup>

---

<sup>4</sup> See PCAOB Release 2012-006, *Observations from 2010 Inspections of Domestic Annually Inspected Firms Regarding Deficiencies in Audits of Internal Control Over Financial Reporting* (December 10, 2012).

<sup>5</sup> Although the general inspection report relates to inspections of eight domestic registered firms that have been inspected annually since the inception of the PCAOB inspections program, as the report states, PCAOB inspections have found similar problems with audits of internal control at other registered firms.

<sup>6</sup> See paragraph 39 of Auditing Standard No. 5, which provides that the auditor should test those controls that are important to the auditor's conclusion about whether the company's controls sufficiently address the assessed risk of misstatement to each relevant assertion.

<sup>7</sup> See, e.g., PCAOB Release 2012-006, *Observations from 2010 Inspections of Domestic Annually Inspected Firms Regarding Deficiencies in Audits of Internal Control Over Financial Reporting* (December 10, 2012).

This practice alert discusses the application of certain requirements of Auditing Standard No. 5 and other PCAOB standards to specific aspects of the audit of internal control in light of recent observations of auditing deficiencies. Specifically, this alert discusses the following topics:

- *Risk assessment and the audit of internal control.* This alert explains how the risk assessment process set forth in PCAOB standards relates to certain aspects of the audit of internal control. It also discusses coordinating the procedures for obtaining an understanding of internal control with the Auditing Standard No. 5 objectives for understanding likely sources of misstatement, assessing risks for components of significant accounts and disclosures, and considering risk in determining the scope of testing in multi-location engagements.
- *Selecting controls to test.* The alert discusses the requirements for selecting controls to test and considerations for making an appropriate selection of controls to test, including controls that operate infrequently.
- *Testing management review controls.* The alert discusses management review controls and the requirements in PCAOB standards for testing those controls.
- *Information technology ("IT") considerations, including system-generated data and reports.* The alert highlights requirements in PCAOB standards regarding the consideration of IT in audits of internal control, including testing controls that use system-generated data and reports and evaluating deficiencies in IT general controls ("ITGCs").
- *Roll-forward of controls tested at an interim date.* The alert discusses the auditor's responsibilities when controls are tested at an interim date in the audit of internal control, including the necessary roll-forward procedures to extend the results of interim testing to year end.
- *Using the work of others.* The alert discusses the requirements in PCAOB standards regarding when it is appropriate to use the work of others, how to determine the extent to which the work can be used, and the importance of testing the work of others.
- *Evaluating identified control deficiencies.* The alert discusses the auditor's responsibilities for evaluating control deficiencies and highlights the importance of testing compensating controls and performing the evaluation with professional skepticism and careful analysis.

## Risk Assessment and the Audit of Internal Control

One of the potential root causes for the deficiencies in audits of internal control, as cited in the general inspection report, is improper application of the top-down approach set forth in PCAOB standards.<sup>8</sup> For example, the general

---

<sup>8</sup> See paragraph 21 of Auditing Standard No. 5. Also, the general inspection report notes that the improper application of the top-down approach may be caused, in part, by other root causes discussed in that report and a reduced focus by firms on the requirements of Auditing Standard No. 5. See the general inspection report at 18.

inspection report notes that, in some instances, it appears that firms, in implementing a top-down approach, placed undue emphasis on testing management review controls and other detective controls without considering whether they adequately addressed the assessed risks of material misstatement of the significant account or disclosure. In some instances, inspections staff observed that firms failed to test controls for all relevant assertions of the significant accounts and disclosures. In other instances, it appeared to the inspections staff that firms did not sufficiently understand the likely sources of potential misstatements related to significant accounts or disclosures as part of selecting controls to test.

Risk assessment is a key element of the top-down approach, and it underlies the entire audit process in the audit of internal control.<sup>9</sup> An effective risk assessment process pursuant to PCAOB standards is fundamental to the audit of internal control.<sup>10</sup> Identifying the risks of material misstatement – including the types of potential misstatements that can occur and the likely sources of those potential misstatements – is necessary for the auditor to select appropriate controls to test and to evaluate whether those controls adequately address the risks. For example, an auditor who identifies revenue overstatement as a risk, without assessing how overstatements might occur or understanding the controls in place to address the risk, lacks the basis to make an informed selection of controls to test or to meaningfully evaluate whether the selected controls are designed and operating to prevent or detect potential misstatements.

Auditing Standard No. 5 requires a risk-based audit approach. Proper application of the auditing standards for assessing and responding to risk ("risk assessment standards")<sup>11</sup> is important for performing effective audits of internal control and integrating the audit of internal control with the audit of financial statements.

Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, establishes a process for identifying and assessing risks of material misstatement in an audit, which applies to audits of internal control and audits of financial statements. The risk assessment procedures required by Auditing Standard No. 12 include, among other things, obtaining an understanding of the company and its environment and obtaining an understanding of internal control. The auditing standard also sets forth a process for assessing identified risks, which includes determining the likely sources of potential misstatement and evaluating the types of misstatements that could result from the risks; the accounts, disclosures, and assertions that could be affected; and the likelihood and magnitude of potential misstatements. potential misstatement and evaluating the types of misstatements that could result from the risks; the accounts, disclosures, and assertions that could be affected; and the likelihood and magnitude of potential misstatements. potential misstatement and evaluating the types of misstatements that could result from the risks; the accounts, disclosures, and assertions that could be affected; and the likelihood and magnitude of potential misstatements.<sup>12</sup>

---

<sup>9</sup> See paragraph 10 of Auditing Standard No. 5. Also, see generally, Auditing Standard No. 8, *Audit Risk*, Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, and Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

<sup>10</sup> See paragraph 6 of Auditing Standard No. 12 and paragraphs 6 and 10 of Auditing Standard No. 5.

<sup>11</sup> Auditing Standard Nos. 8-15.

<sup>12</sup> See paragraphs 59 and 61 of Auditing Standard No. 12.

## Obtaining an Understanding of Internal Control

In an audit of internal control, a thorough understanding of the company's internal control is important because it enables the auditor to appropriately plan and perform the necessary tests of controls. Auditing Standard No. 12 requires the auditor to obtain a sufficient understanding of each component<sup>13</sup> of internal control to (1) identify the types of potential misstatements, (2) assess the factors that affect the risks of material misstatement, and (3) design tests of controls and substantive procedures.<sup>14</sup>

Understanding internal control includes understanding the information system, including the related business processes, relevant to financial reporting, which comprise the following:

- a. The classes of transactions in the company's operations that are significant to the financial statements;
- b. The procedures, within both automated and manual systems, by which those transactions are initiated, authorized, processed, recorded, and reported;
- c. The related accounting records, supporting information, and specific accounts in the financial statements that are used to initiate, authorize, process, and record transactions;
- d. How the information system captures events and conditions, other than transactions, that are significant to the financial statements; and
- e. The period-end financial reporting process.<sup>15</sup>

In an audit of internal control, Auditing Standard No. 5 requires the auditor to perform procedures to achieve certain objectives for further understanding likely sources of potential misstatements and as part of selecting controls to test.<sup>16</sup> The procedures performed to achieve those objectives may be performed concurrently with procedures for identifying and assessing risks of material misstatement pursuant to Auditing Standard No. 12. Performing the procedures concurrently could facilitate compliance with PCAOB standards, enhance the auditor's understanding of the company's processes and likely sources of potential misstatements, and avoid potential duplication of audit effort.

The following table illustrates how certain of the procedures required by Auditing Standard No. 12 can be coordinated with the procedures applied to meet certain of the Auditing Standard No. 5 objectives. For example, while obtaining an understanding of the information system pursuant to Auditing Standard No. 12, the auditor also can perform procedures to understand the flow of transactions for relevant assertions. Similarly, while obtaining an understanding of the company's risk assessment process and control activities, the auditor also can identify the controls that management has implemented to address potential misstatements.

---

<sup>13</sup> Paragraph 21 of Auditing Standard No. 12 provides that internal control can be described as consisting of the following components: the control environment, company's risk assessment process, information and communication, control activities, and monitoring of controls.

<sup>14</sup> See paragraph 18 of Auditing Standard No. 12 and paragraph 13 of Auditing Standard No. 15, *Audit Evidence*.

<sup>15</sup> See paragraph 28 of Auditing Standard No. 12.

<sup>16</sup> See paragraph 34 of Auditing Standard No. 5.

<b><i>Procedures Required by Auditing Standard No. 12</i></b>	<b><i>Related Objective in Auditing Standard No. 5<sup>17</sup></i></b>
Obtain an understanding of the information system, including the related business processes, relevant to financial reporting <sup>18</sup>	Understand the flow of transactions related to the relevant assertions, including how these transactions are initiated, authorized, processed, and recorded
Identify and assess the risks of material misstatement at the assertion level and identify significant accounts and disclosures and their relevant assertions <sup>19</sup>	Verify that the auditor has identified the points within the company's processes at which a misstatement – including a misstatement due to fraud – could arise that, individually or in combination with other misstatements, would be material
Obtain an understanding of the company's risk assessment process and <sup>20</sup> control activities, <sup>21</sup> and consider controls that address fraud risks and other significant risks <sup>22</sup>	Identify the controls that management has implemented to address the potential misstatements Identify the controls that management has implemented over the prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could result in a material misstatement of the financial statements

Auditing Standard No. 5 and Auditing Standard No. 12 provide that, although walkthroughs are not required, performing walkthroughs that encompass the procedures set forth in the standard<sup>23</sup> is an effective way to meet the required Auditing Standard No. 5 objectives in the table above and may be used in testing the design of controls.<sup>24</sup> Thus, careful planning and execution of walkthroughs, particularly when performed or supervised by experienced personnel, can enhance the effectiveness of those aspects of the integrated audit and avoid duplication of effort. Incomplete or poorly executed walkthroughs, however, can lead to inadequate risk assessments, which can impair the effectiveness of auditors' selection and testing of controls.

<sup>17</sup> *Id.*

<sup>18</sup> See paragraph 28 of Auditing Standard No. 12.

<sup>19</sup> See paragraphs 59-64 of Auditing Standard No. 12.

<sup>20</sup> See paragraphs 26-27 of Auditing Standard No. 12.

<sup>21</sup> See paragraph 34 of Auditing Standard No. 12.

<sup>22</sup> See paragraphs 72-73 of Auditing Standard No. 12.

<sup>23</sup> Paragraph 37 of Auditing Standard No. 5 provides that, in performing a walkthrough, the auditor follows a transaction from origination through the company's processes, including information systems, until it is reflected in the company's financial records, using the same documents and information technology that company personnel use. Walkthrough procedures usually include a combination of inquiry, observation, inspection of relevant documentation, and re-performance of controls.

<sup>24</sup> See paragraphs 37-38 and 43 of Auditing Standard No. 5, paragraphs 20 and 37-38 of Auditing Standard No. 12, and paragraph 20 of Auditing Standard No. 13.

The general inspection report notes that, in some situations, firms' walkthrough procedures were not adequate to verify the auditor's understanding of the risks in the company's processes and to identify and select for testing controls sufficient to address the risk of misstatement for the relevant assertions, as they were limited to:

- Performing inquiry and observation to confirm that there have been no significant changes to the processes;
- Obtaining an understanding through controls testing and substantive procedures;
- Reviewing walkthroughs performed by the company's internal auditor who did not provide direct assistance under the firm's supervision; or
- Relying on the auditor's knowledge and experience obtained from prior years' audits.

## Assessing Risks of Material Misstatement in Components of Significant Accounts and Disclosures

In assessing risks of material misstatement and selecting controls to test, it is important for auditors to be aware that the components of a potential significant account or disclosure might be subject to significantly different risks.<sup>25</sup> Also, different risks of material misstatement affecting the same assertion of an account or disclosure might arise at different points within the company's processes. If risks differ among components, the auditor might need to select and test different controls to support a conclusion that the controls adequately address the risks to the account or disclosure.

The following are some examples of accounts and disclosures for which individual components could have different risks:

- Individual revenue categories might have different risks because of varying types of products and services, sales terms, information systems, including revenue processes, or accounting requirements.
- Individual investment securities or categories of securities in a portfolio might have different risks if they vary in nature and complexity, level of market activity, or availability of observable market data.
- The components of an allowance for loan losses might have different risks, for instance, if those components reflect different credit exposures, are determined using different methods, or are subject to different accounting requirements.
- The components of a reserve for sales returns and allowances might have different risks if they relate to different sales terms or repayment terms, use different information systems, including business processes, or are subject to different accounting requirements.

---

<sup>25</sup> See paragraph 63 of Auditing Standard No. 12.

## Effect of Risk Assessment on the Scope of Testing in Multi-location Engagements

Inspections staff have observed instances, such as the following, in which it appeared that firms did not sufficiently test controls that addressed the risks of material misstatement in multi-location engagements:

- Testing a sample of locations and extrapolating the results of that testing to other locations without performing procedures to evaluate whether the issuers' systems and controls were designed and implemented consistently across all of those locations.
- Excluding certain locations from testing without establishing whether there was a reasonable basis for excluding those locations.

Also, inspections staff have observed instances in which it appeared that firms, in implementing a top-down approach, placed undue emphasis on testing management review controls and other detective controls without considering whether the controls selected for testing, individually or in combination, adequately addressed the assessed risks of material misstatement of the significant account or disclosure across the significant locations.

In multi-location engagements, PCAOB standards require the auditor to assess the risks of material misstatement to the consolidated financial statements associated with the location or business unit and correlate the amount of auditing attention devoted to the location or business unit with the degree of risk.<sup>26</sup> Auditing Standard No. 9 lists factors that are relevant to the assessment of the risk of material misstatement associated with a location or business unit and the determination of the necessary audit procedures.<sup>27</sup> Certain of the factors listed in Auditing Standard No. 9 relate to the inherent risks of material misstatement, while others – such as the control environment, centralized processing, and monitoring activities – relate to entity-level controls. Auditing Standard No. 5 provides that, in lower risk locations, the auditor might first evaluate whether entity-level controls, including controls in place to provide assurance that appropriate controls exist throughout the organization, provide the auditor with sufficient evidence.<sup>28</sup> Auditing Standard No. 5 also provides that the auditor may take into account the work of others in determining the locations or business units at which to perform tests of controls.<sup>29</sup> Using the work of others is discussed later in this alert.

To illustrate the application of these principles, assume that an auditor is performing an integrated audit of a company with business units in several locations. After assessing the risks associated with the individual locations, an auditor might design an audit strategy involving:

- a. Identifying and testing controls over specific risks that present a reasonable possibility of material misstatement to the company's consolidated financial statements;
- b. To the extent not covered in item a above, identifying and testing controls at locations or business units that, individually or in combination, present a reasonable possibility of material misstatement through one or more of the following:

---

<sup>26</sup> See paragraph 11 of Auditing Standard No. 9, *Audit Planning*, and paragraph B10 of Auditing Standard No. 5.

<sup>27</sup> See paragraph 12 of Auditing Standard No. 9.

<sup>28</sup> See paragraph B11 of Auditing Standard No. 5.

<sup>29</sup> See paragraph B12 of Auditing Standard No. 5.

- (1) Testing entity-level controls that operate at a level of precision that would detect material misstatements in the locations or business units, individually or in combination.
  - (2) For locations with centralized systems and processes and homogeneous controls, performing tests of the common controls across the locations or business units.
  - (3) Using the work of others who tested controls at the locations, to the extent appropriate, as discussed later in this release.
- c. No specific testing of controls for locations or business units that individually or in combination do not present a reasonable possibility of material misstatement of the consolidated financial statements.

In testing controls at locations or business units other than controls that address specific risks, the auditor should reassess the audit strategy if the auditor obtains information that is contrary to the premises under which the audit strategy was developed.<sup>30</sup> For example, the strategy should be reassessed if the auditor obtains information indicating certain locations have risks not identified previously; certain locations have higher risk than the initial assessment; certain locations do not have homogeneous processes, systems, controls, or operating environments as previously thought; entity-level controls do not, by themselves, operate with the necessary level of precision; or the work of others cannot be used to the extent planned.

## Selecting Controls to Test

As discussed previously, the general inspection report notes that, in some instances, it appears that firms, in implementing a top-down approach, placed undue emphasis on testing management review controls and other detective controls without considering whether they adequately addressed the assessed risks of material misstatement of the significant account or disclosure. In some instances, inspections staff observed that firms failed to test controls for all the relevant assertions of the significant accounts and disclosures.

In the audit of internal control, PCAOB standards require the auditor to test:<sup>31</sup>

- a. Entity-level controls that are important to the auditor's conclusion about whether the company has effective internal control over financial reporting, including evaluating the control environment and period-end financial reporting process,<sup>32</sup> and
- b. Controls that are important to the auditor's conclusion about whether the company's controls sufficiently address the assessed risk of misstatement to each relevant assertion (which may be entity-level controls or other controls).<sup>33</sup>

Also, Auditing Standard No. 5 cautions that a control must be tested directly to obtain evidence about its effectiveness; an auditor cannot merely infer that

---

<sup>30</sup> See paragraph 15 of Auditing Standard No. 9 and paragraph 74 of Auditing Standard No. 12, which discuss the auditor's responsibilities for changing the audit strategy and planned audit procedures when circumstances change or contrary information is identified.

<sup>31</sup> Paragraph 14 of Auditing Standard No. 5 provides that the auditor also should evaluate whether the company's controls sufficiently address identified fraud risks and controls intended to address the risk of management override.

<sup>32</sup> See paragraphs 22 and 26 of Auditing Standard No. 5.

<sup>33</sup> See paragraphs 23, 39, and 41 of Auditing Standard No. 5.

a control is effective because no misstatements were detected by substantive procedures.<sup>34</sup>

In selecting controls over significant accounts and disclosures, an important consideration is determining that the auditor has selected controls that, individually or in combination, are intended to address the identified risks of material misstatement, including risks for the relevant assertions and the components of the account or disclosure with differing risks. The following is a partial list from the general inspection report of assertions or account components for which inspections staff observed that auditors failed to identify and sufficiently test controls that addressed the risks of material misstatement:

- Revenue: Significant business units or significant revenue categories, significant contract provisions affecting revenue recognition, and significant inputs to percentage-of-completion calculations
- Inventory: Pricing of significant inventory components and determination of reserves for excess and obsolete inventory
- Fair value of financial instruments: Inputs used to value hard-to-value financial instruments and determinations of the classification of securities within the fair value hierarchy set forth in Financial Accounting Standards Board *Accounting Standards Codification* Topic 820, *Fair Value Measurement*
- Valuation of pension plan assets<sup>35</sup>

To illustrate the process of selecting controls to test, assume that an auditor identifies risks of material misstatement related to reserves for excess and obsolete inventory. When selecting controls that are important to address the risks of material misstatement, it is important to look for controls that encompass each segment of inventory for which there is a reasonable possibility of material misstatement regarding the related reserve for excess and obsolete inventory. Limiting the selection to controls over inventory segments that have no reserves, for example, would not be sufficient to address the risk of material misstatement.

The procedures performed to obtain an understanding of internal control pursuant to Auditing Standard No. 12 and to meet the objectives of paragraph 34 of Auditing Standard No. 5 can provide a basis for the auditor to determine whether the selected controls cover the identified risks. For example, performing those procedures enables the auditor to understand the likely sources of potential misstatement and the controls intended to prevent or detect those misstatements.

Another important consideration in selecting controls to test is whether the controls, individually or in combination, are capable of addressing the risks of material misstatement to the relevant assertion.<sup>36</sup> Some risks, especially those related to complex processes or subjective estimates, might require a combination of controls to prevent or detect misstatements. For example, if a company has a complex income tax calculation, the controls needed to address the risks of material misstatement might consist of (1) a review of the overall tax calculation by a person with the necessary authority and competence and (2) certain other types of controls over key aspects of the calculation. As another example, an auditor might select a combination of a manual review

---

<sup>34</sup> See paragraph B9 of Auditing Standard No. 5.

<sup>35</sup> See the general inspection report at 5-6.

<sup>36</sup> See paragraphs 23, 39, and 41 of Auditing Standard No. 5.

control that uses system-generated data and IT controls over the completeness and accuracy of that data, as discussed later in this alert.

## Controls over Infrequent Processes and Transactions

Internal control is not limited to frequent processes and normal recurring transactions. It also applies to infrequent processes, such as an analysis of whether long-term assets are impaired, and to nonrecurring transactions outside the normal course of business, such as a material business combination.

When a company has infrequent processes or enters into nonrecurring transactions that present a reasonable possibility of material misstatement of the financial statements, the auditor should test the controls over those processes or transactions. Performing substantive audit procedures to determine whether the accounts or transactions are accounted for properly is important for the financial statement audit but, by itself, does not provide sufficient appropriate evidence to support a conclusion that the controls over those transactions or analyses are designed and operating effectively. As discussed previously, Auditing Standard No. 5 cautions that a control must be tested directly to obtain evidence about its effectiveness; an auditor cannot merely infer that a control is effective because no misstatements were detected by substantive procedures.<sup>37</sup>

In some cases, auditors are able to design and perform procedures that test controls over nonrecurring transactions concurrently with substantive tests of those transactions, thereby obtaining sufficient appropriate evidence to fulfill the related objectives for the financial statement audit and the audit of internal control. For example, when auditing the company's accounting for a business combination, the auditor also might obtain an understanding of the company's financial reporting process, and related controls, regarding the business combination. In that situation, the auditor could test important controls over the accounting for business combinations when auditing the accounting for the business combination. In that situation, the auditor's substantive testing and tests of controls should be sufficient to meet the objectives of both tests.

## Testing Management Review Controls

Auditors often select and test management review controls in audits of internal control. Such management reviews might be performed to monitor the results of operations, such as (1) monthly comparisons of actual results to forecasted revenues or budgeted expenses; (2) comparisons of other metrics, such as gross profit margins and expenses as a percentage of sales; and (3) quarterly balance sheet reviews. These reviews typically involve comparing recorded financial statement amounts to expected amounts and investigating significant differences from expectations.

As with other types of controls, the auditor should perform procedures to obtain evidence about how a management review control is designed and operates to prevent or detect misstatements.<sup>38</sup> Verifying that a review was signed off provides little or no evidence by itself about the control's effectiveness.

---

<sup>37</sup> See paragraph B9 of Auditing Standard No. 5.

<sup>38</sup> See paragraphs 42-45 of Auditing Standard No. 5, which describe the auditor's responsibilities for testing the design and operating effectiveness of controls.

## Evaluating the Precision of Management Review Controls

Many management review controls are entity-level controls, so testing those review controls can be an appropriate part of a top-down approach. Auditing Standard No. 5 provides that entity-level controls vary in nature and precision and that some entity-level controls might operate at a level of precision that would adequately prevent or detect misstatements on a timely basis.<sup>39</sup> Other entity-level controls, by themselves, might not operate with the necessary level of precision, but might be effective in combination with other controls in addressing the assessed risk of material misstatement.

Thus, the main consideration in assessing the level of precision is whether the control is designed and operating to prevent or detect on a timely basis misstatements that could cause the financial statements to be materially misstated. Factors that can affect the level of precision of an entity-level control include the following:

- *Objective of the review.* A procedure that functions to prevent or detect misstatements generally is more precise than a procedure that merely identifies and explains differences.
- *Level of aggregation.* A control that is performed at a more granular level generally is more precise than one performed at a higher level. For example, an analysis of revenue by location or product line normally is more precise than an analysis of total company revenue.
- *Consistency of performance.* A control that is performed routinely and consistently generally is more precise than one performed sporadically.
- *Correlation to relevant assertions.* A control that is indirectly related to an assertion normally is less likely to prevent or detect misstatements in the assertion than a control that is directly related to an assertion. For example, a control designed to detect errors in the recorded amounts of accounts receivable might not operate with a sufficient level of precision to detect errors in the valuation of delinquent receivables.
- *Predictability of expectations.* Some entity-level controls are designed to detect misstatements by using key performance indicators or other information to develop expectations about reported amounts ("detective controls"). The precision of those controls depends on the ability to develop sufficiently precise expectations to highlight potentially material misstatements.
- *Criteria for investigation.* For detective controls, the threshold for investigating deviations or differences from expectations relative to materiality is an indication of a control's precision. For example, a control that investigates items that are near the threshold for financial statement materiality has less precision and a greater risk of failing to prevent or detect misstatements that could be material than a control with a lower threshold for investigation.

## Testing Design Effectiveness

Auditing Standard No. 5 provides that the auditor should test the design effectiveness of controls by determining whether the company's controls, if they

---

<sup>39</sup> See paragraph 23 of Auditing Standard No. 5.

are operated as prescribed by persons possessing the necessary authority and competence, satisfy the company's control objectives<sup>40</sup> and can effectively prevent or detect errors or fraud that could result in material misstatement of the financial statements.<sup>41</sup>

Evaluating whether a management review control is capable of preventing or detecting potential material misstatements generally involves obtaining an understanding of and evaluating the following:

- a. Whether the control satisfies the corresponding control objective, including whether it addresses the risks of material misstatement to the relevant assertion of the significant account or disclosure;
- b. The factors affecting the precision of the review, including the objective of the review and the appropriateness of the expectations, level of aggregation, and criteria for investigation for identifying potentially material misstatements;
- c. The steps involved in identifying, investigating, and resolving significant differences from expectations;
- d. The person(s) who performs the control, including the competence and authority of the person(s);
- e. The frequency of performance of the control, that is, whether the review occurs often enough to prevent or detect misstatements before they have a material effect on the financial statements; and
- f. The information used in the review, for example, whether the review uses system-generated data or reports, as discussed later in this alert.

The evaluation of design may be performed in conjunction with obtaining an understanding of internal control over financial reporting and performing procedures to achieve the objectives of paragraph 34 of Auditing Standard No. 5, which were presented in the prior table.<sup>42</sup> For example, to assess whether a control is effectively designed, it is important to identify the risk of material misstatement to the relevant assertion of the significant account or disclosure that the control is intended to address.

## Testing Operating Effectiveness

Auditing Standard No. 5 provides that the auditor should test the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control has the necessary authority and competence to perform the control effectively.<sup>43</sup> The auditing standard also provides that the evidence necessary to persuade the auditor that a control is effective depends upon the risk associated with the control.<sup>44</sup>

Testing the operating effectiveness of a management review control involves performing procedures to evaluate whether the control is working as designed

---

<sup>40</sup> See paragraph A2 of Auditing Standard No. 5 for the definition of the term "control objective."

<sup>41</sup> See paragraph 42 of Auditing Standard No. 5.

<sup>42</sup> See paragraph 43 of Auditing Standard No. 5, which provides that procedures the auditor performs to test design effectiveness include a mix of inquiry of appropriate personnel, observation of the company's operations, and inspection of relevant documentation. Walkthroughs that include these procedures ordinarily are sufficient to evaluate design effectiveness.

<sup>43</sup> See paragraph 44 of Auditing Standard No. 5.

<sup>44</sup> See paragraph 46 of Auditing Standard No. 5.

to prevent or detect potentially material misstatements. Testing typically involves, for selected operations of the control, obtaining and evaluating evidence about.<sup>45</sup>

- a. The steps performed to identify and investigate significant differences; and
- b. The conclusions reached in the reviewer's investigation, including whether potential misstatements were appropriately investigated and whether corrective actions were taken as needed.

The nature, timing, and extent of testing should be commensurate with the risk associated with the controls. Higher risk controls warrant more testing.

The auditor also should take into account other relevant evidence obtained in the audit when evaluating the effectiveness of a control, such as identified misstatements that were not prevented or detected by the control.<sup>46</sup>

### Example: Test of a Management Review Control

To illustrate the process of testing management review controls, assume that, in an audit of a commercial enterprise with four similar branch locations, the auditor selects for testing a monthly control over the existence, completeness, and allocation assertions for certain selling, general, and administrative expenses, such as salaries and wages, utilities, facilities, and depreciation. In the selected control, each branch controller performs an analysis comparing the expense-related accounts in the branch's financial statements to the prior year and forecasted financial statements for the branch and investigates differences over a predetermined threshold set by the company's chief financial officer ("CFO"). Each branch controller discusses the results of the analysis with the CFO to enable the CFO to understand the basis for significant differences and determine whether any financial statement adjustments or other corrective actions are needed.

The auditor assesses a higher risk associated with the management review control because the control applies to multiple assertions for several material accounts with varying levels of risk of material misstatement.<sup>47</sup>

In this illustration, the auditor's procedures may include the following:<sup>48</sup>

- a. Evaluating whether the control addresses the risks of material misstatement to the relevant assertions of the selling, general, and administrative expense accounts, as intended;
- b. Evaluating whether the use of prior year and forecast information at the branch level is an appropriate basis for establishing expectations to identify potential misstatements;

---

<sup>45</sup> If the control uses system-generated information or reports, the auditor also should obtain evidence about the completeness and accuracy of those reports, as discussed in the information technology considerations section of this alert. This also applies to other internally-produced information used by the company in an important control.

<sup>46</sup> See paragraph 71 of Auditing Standard No. 5.

<sup>47</sup> See, e.g., paragraph 47 of Auditing Standard No. 5, which provides that two factors affecting the risk associated with a control are (1) the nature and materiality of misstatements that the control is intended to prevent or detect and (2) the inherent risk associated with the related account(s) and assertion(s).

<sup>48</sup> The procedures listed here are illustrative. The actual procedures needed for a particular management review control will depend on, among other things, the nature of the control, the risk associated with the control, the information used in the control, and the evidence of the control's operation.

- c. Evaluating whether the criteria used for identifying differences for investigation are set at an appropriate level to enable the branch controller to identify misstatements that could be material to the financial statements, individually or in combination with other misstatements;
- d. Evaluating the competencies of the CFO and branch controllers based on, among other things, the auditor's knowledge of the individuals and experience with them in current and prior audits;
- e. Evaluating whether the control operates often enough to prevent or detect misstatements before they have a material effect on the financial statements;
- f. For selected operations of the control, obtaining the information used by the branch controller in the analysis, understanding the steps performed by the branch controller to investigate significant differences, reperforming the analysis and comparing the auditor's identification of significant differences and evaluation of results—including identified misstatements, if any—to the branch controller's analysis; and
- g. Observing or reading summaries of selected meetings in which the results of the analyses by the branch controllers were discussed with the CFO; inspecting the information presented to the CFO; and evaluating the matters discussed, conclusions reached, and corrective actions taken, if any.

The auditor also determined that the control uses financial statement and forecast information that is maintained and reported by the same IT system. The company's IT systems are centrally managed, and the IT controls for that system were tested in conjunction with tests of IT controls for the company's other financial statement related systems.

The preceding example illustrates an approach to testing accounts that tend to be routine and predictable. If testing controls over accounts or assertions that are more complex or less predictable, management review controls consisting primarily of comparisons to budgets or forecasts might not operate at a sufficient level of precision. In those situations, it might be necessary to test a combination of management review controls and other controls to conclude on whether the company's controls sufficiently address the risks of material misstatement for the relevant assertions of significant accounts.

## Information Technology Considerations, Including System-generated Data and Reports

The general inspection report notes that inspections staff have observed instances in which firms selected controls for testing but failed to sufficiently test controls over the completeness and accuracy of system-generated data or reports used in the operation of those controls. For example, some firms failed to: (1) test ITGCs that are important to the effective operation of the applications that generated the data or reports, (2) test the logic of the queries (or parameters) used to extract data from the IT applications used in the reports, or (3) address control deficiencies that were identified with respect to the ITGCs over either the applications that process the data used in the reports or the applications that generated the reports.<sup>49</sup> Similarly, inspections staff have

---

<sup>49</sup> See the general inspection report at 11.

observed instances in which firms have identified that certain ITGCs were ineffective but failed to perform other procedures to test report writers and systems used to produce spreadsheets, queries, or reports. In other instances, the firms planned their tests of controls to include testing of ITGCs for IT-dependent controls, but those IT-dependent controls used customized data or queries that were not subject to the ITGCs the firms tested.

A company's use of IT can significantly affect a company's internal control. The following are examples of IT-related matters that can affect the auditor's evaluation of internal control:

- Risks of material misstatement resulting from the company's IT processes or systems,<sup>50</sup>
- Important controls that depend on the effectiveness of IT controls ("IT-dependent controls"), for example, because they use system-generated data or reports; and
- Important IT controls, such as, automated controls that address risks of material misstatement to one or more assertions, along with the IT controls that support the effectiveness of the automated controls.

PCAOB standards require the auditor to obtain an understanding of the company's information system relevant to financial reporting and take into account IT considerations in assessing the risks of material misstatement. This includes obtaining an understanding of the extent of manual controls and automated controls used by the company, including the ITGCs that are important to the effective operation of the automated controls.<sup>51</sup> The auditor also should obtain an understanding of specific risks to a company's internal control resulting from IT.<sup>52</sup>

In an audit of internal control, if the auditor selects an IT-dependent control for testing, the auditor should test the IT-dependent controls and the IT controls on which the selected control relies to support a conclusion about whether those controls address the risks of material misstatement.<sup>53</sup> For example, if a control selected for testing uses system-generated data or reports, the effectiveness of the control depends in part on the controls over the accuracy and completeness of the system-generated data or reports. In those situations, supporting a conclusion on the effectiveness of the selected control involves testing both the selected control and the controls over the system-generated data and reports.

As discussed later in this alert, PCAOB standards require evaluation of the severity of identified control deficiencies. This includes deficiencies in IT controls. However, the nature of IT systems, processes, and controls can affect how deficiencies in IT controls should be evaluated. For example, an IT control might not be intended to prevent or detect misstatements by itself, but it might impair the effectiveness of important IT-dependent controls if it were deficient. In those situations, evaluating the severity of a deficient IT control involves assessing the effect of the deficiency on important IT-dependent controls and, in turn, the likelihood and magnitude of potential misstatements that could

---

<sup>50</sup> See, e.g., paragraphs 36 and 47 of Auditing Standard No. 5 and paragraphs B1-B6 and 29 of Auditing Standard No. 12.

<sup>51</sup> See paragraph B1 of Auditing Standard No. 12.

<sup>52</sup> See paragraph B4 of Auditing Standard No. 12.

<sup>53</sup> See, e.g., paragraphs 39-41 of Auditing Standard No. 5, which discuss selecting controls to test and paragraph 47 of Auditing Standard No. 5, which cite situations in which controls rely on the effectiveness of IT general controls.

result, individually or in combination with other control deficiencies. Also, deficient IT controls might impair the effectiveness of multiple controls across multiple accounts. In those situations, it may be necessary to assess the severity of those impaired controls in combination across the affected accounts and with other control deficiencies affecting those accounts.

## Roll-forward of Controls Tested at an Interim Date

The general inspection report notes that inspections staff have identified instances in which firms tested significant controls at an interim date and either did not perform any testing, or used inquiry alone, to update the results of their testing of higher risk controls that had been performed prior to year end. For example, an engagement team performed tests of highly subjective controls during the interim period, three to six months prior to year end. Yet the engagement team's procedures to update the results of its testing of these controls from the interim date to year end were limited to general inquires as to whether the operation of any of these controls had changed, despite higher degrees of risks associated with these controls, including, in some cases, high inherent risks or heightened fraud risks. In another example, the engagement team's procedures to update the results of its testing of internal control for the six-month period from the interim date to year end were limited to inquiry, including for higher-risk controls and controls affected by a change in management review and approval responsibilities.<sup>54</sup>

Although the auditor expresses an opinion on internal control as of the end of the year, auditors may decide to test some important controls at an earlier date. When auditors test controls at an interim date, PCAOB standards require auditors to perform "roll-forward" procedures to update the results of interim testing to year end.<sup>55</sup> The amount of evidence needed from the roll-forward procedures depends on the following factors:

- The specific control tested at an interim date, including the risks associated with the control and the nature of the control, and the results of those tests;
- The sufficiency of the evidence of effectiveness obtained at an interim date;
- The length of the roll-forward period; and
- The possibility that there have been any significant changes in internal control over financial reporting subsequent to the interim date.<sup>56</sup>

Auditing Standard No. 5 provides that inquiry might be a sufficient roll-forward procedure when evaluation of the preceding factors indicates a low risk that the controls are no longer effective during the roll-forward period.<sup>57</sup> For example, inquiry might be appropriate if the risk associated with the control were low, the auditor obtained substantially all of the evidence necessary to support the conclusion on the control as of the interim date with no observed test exceptions, the roll-forward period was relatively short, and there were no significant

---

<sup>54</sup> See the general inspection report at 10.

<sup>55</sup> See paragraph 55 of Auditing Standard No. 5. If the auditor plans to rely on controls in the financial statement audit, the auditor must obtain evidence about the controls over the entire period of reliance, as discussed in paragraphs 16 and 29-30 of Auditing Standard No. 13.

<sup>56</sup> See paragraph 56 of Auditing Standard No. 5.

<sup>57</sup> *Id.*

changes in internal control during the roll-forward period. Conversely, inquiry is unlikely to be sufficient if the control is more complex, subjective or otherwise higher risk; the control was not tested extensively at the interim date; exceptions were noted in the interim testing; the roll-forward period spans a significant portion of the year; or significant changes occurred in internal control during the roll-forward period. Similarly, when inquiry is not sufficient, the additional evidence to cover the roll-forward period cannot be inferred from the absence of misstatements detected by substantive procedures.<sup>58</sup>

## Using the Work of Others

The general inspection report notes that inspections staff have identified situations in which firms used the work of others, most often internal audit, who performed tests of controls without establishing a sufficient basis for using that work. For example, in some instances, the extent to which firms used the work of internal audit in higher risk areas involving significant judgment, such as aspects of revenue and the valuation of complex, hard-to-value investment securities, was inappropriate. Also, in some instances, firms failed to evaluate the design of internal audit's control testing procedures, including the scoping and the identification of important controls. For example, the engagement team used the work of internal audit to test controls over revenue. The engagement team did not re-perform any of the tests of controls performed by the issuer's internal audit group. In addition, there was no documentation of the nature, timing, and extent of the control testing performed by internal audit.<sup>59</sup>

PCAOB standards allow the auditor to use the work of others as evidence of the effectiveness of selected controls, and Auditing Standard No. 5 requires auditors to determine the extent to which the work of others will be used.<sup>60</sup>

PCAOB standards provide that the extent to which the work of others can be used depends on the following factors:

- The risk associated with the control being tested;<sup>61</sup> and
- The competence and objectivity of the persons whose work the auditor plans to use.<sup>62</sup> For example, persons who test controls are less objective if they report to those responsible for the operation of the controls being tested.

The risk associated with the control is the risk that a control might not be effective and, if not effective, that a material weakness would result.<sup>63</sup> Auditing Standard No. 5 discusses factors that affect the risk associated with a control, including the complexity of the control and significance of judgments that must be made in connection with its operation and the inherent risks of the related account or assertion.<sup>64</sup> As the risk associated with the control increases, the need for the auditor to perform his or her own testing of the control increases.<sup>65</sup> In higher risk areas, such as testing complex controls, controls that address specific fraud risks, or controls that require significant judgment to operate or

---

<sup>58</sup> See paragraph B9 of Auditing Standard No. 5.

<sup>59</sup> See the general inspection report at 12.

<sup>60</sup> See paragraphs 16-17 of Auditing Standard No. 5.

<sup>61</sup> See paragraph 19 of Auditing Standard No. 5.

<sup>62</sup> See paragraph 18 of Auditing Standard No. 5 and paragraphs .09-.11 of AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*.

<sup>63</sup> See paragraph 46 of Auditing Standard No. 5.

<sup>64</sup> See paragraph 47 of Auditing Standard No. 5.

<sup>65</sup> See paragraph 19 of Auditing Standard No. 5.

evaluate, use of the work of others would be limited, if at all.<sup>66</sup> Conversely, the work of competent and objective persons could be used more extensively in lower risk areas.

PCAOB standards provide direction on evaluating the competence and objectivity of others.<sup>67</sup> The higher the degree of competence and objectivity, the greater use the auditor may make of the work. The impact of the work of others on the auditor's work also depends on the relationship between the risk associated with the control and the competence and objectivity of those who performed the work. As the risk decreases, the necessary level of competence and objectivity decreases.<sup>68</sup>

When the auditor uses the work of others, the auditor also should test and evaluate that work, including evaluating the quality and effectiveness of the others' work.<sup>69</sup> The necessary extent of testing of that work depends on the risk associated with the control and the competence and objectivity of the others. More extensive testing of the others' work is needed as the risk increases or the others' level of competence or objectivity decreases. When using the work of others that provide direct assistance, the auditor should supervise that work, including reviewing the work, as well as testing and evaluating it.<sup>70</sup>

## Evaluating Identified Control Deficiencies

The general inspection report notes that inspections staff observed instances in which firms failed to evaluate sufficiently the severity of the control deficiencies that they had identified. Specifically, in some cases firms did not:

- *Sufficiently evaluate whether audit adjustments and exceptions identified from substantive procedures were indicators of the existence of control deficiencies.* For example, the firm's valuation specialist concluded that the recorded fair values of certain of the issuer's assets were outside a reasonable range due to the use of unsupported assumptions. This resulted in a significant audit adjustment that the issuer recorded. The issuer's controls had failed to identify that the valuation assumptions were not supported; however, the engagement team failed to identify and evaluate this control deficiency.
- *Consider all of the relevant risk factors that should have affected the determination of whether there was a reasonable possibility that a deficiency, or a combination of deficiencies, could result in a material misstatement.* For example, a significant deficiency was identified over the issuer's process for valuing hard-to-value financial instruments. The engagement team failed to appropriately evaluate the severity of the deficiency as it did not evaluate relevant risk factors, such as, the nature of the accounts affected by the deficiency, and the subjectivity, complexity, or extent of judgment

---

<sup>66</sup> See PCAOB Release 2007-005A, *Auditing Standard No. 5—An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements and Related Independence Rule and Conforming Amendments* (June 12, 2007), at 14.

<sup>67</sup> See paragraph 18 of Auditing Standard No. 5 and AU sec. 322.09-.11. For example, the objectivity of the others is lower when they report directly to management or to the person performing the control they are evaluating.

<sup>68</sup> See PCAOB Release 2007-005A at 14.

<sup>69</sup> See paragraph 16 of Auditing Standard No. 5 and AU sec. 322.24-.27. See also PCAOB Release 2007-005A at A4-4.

<sup>70</sup> *Id.*

required to determine the valuations. In addition, the engagement team did not consider the magnitude of audit adjustments related to this control deficiency in determining whether the control deficiency was a material weakness rather than a significant deficiency.

- *Consider all of the relevant factors that should have affected the determination of the magnitude of potential misstatements.* For example, an engagement team did not sufficiently evaluate the severity of certain control deficiencies identified through tests of controls over revenue. Specifically, as part of the issuer's evaluation of control deficiencies, management calculated the magnitude of the potential misstatement resulting from the control deficiencies using certain significant assumptions. The engagement team used the issuer's evaluation but did not assess the reasonableness of the issuer's assumptions.
- *Sufficiently evaluate compensating controls, including identifying and testing those controls and determining whether they operated at a level of precision that would prevent or detect a misstatement that could be material.* For example, an engagement team concluded that certain compensating controls partially mitigated the effect of the deficiencies and that the control deficiencies therefore constituted a significant deficiency rather than a material weakness. The engagement team, however, failed to obtain sufficient appropriate audit evidence to support its conclusion that the compensating controls operated at a level of precision that would prevent or detect a misstatement that could be material. Specifically, the engagement team concluded that one of the compensating controls operated effectively even though the control failed to identify an error that was in excess of the engagement team's established materiality.<sup>71</sup>

Control deficiencies might be identified during the audit of the financial statements as well as the audit of internal control. For example, an error identified in the financial statement audit often results from a deficiency in the design or operation of controls, or a lack of controls, over that account or disclosure. PCAOB standards require auditors to evaluate the effect of the findings of the substantive procedures performed in the financial statement audit on the effectiveness of internal control.<sup>72</sup> This includes identifying and evaluating any specific control deficiencies related to the identified misstatements.

PCAOB standards require auditors to evaluate the severity of each control deficiency that comes to his or her attention to determine whether the deficiencies, individually or in combination, are material weaknesses.<sup>73</sup> Auditing Standard No. 5 provides that the severity of a control deficiency depends on (1) whether there is a reasonable possibility that the company's controls will fail to prevent or detect a misstatement of an account balance or disclosure and (2) the magnitude of the potential misstatement resulting from the deficiency or deficiencies.<sup>74</sup> The severity of a deficiency does not depend on whether a misstatement actually has occurred but rather on whether there is a reasonable possibility that the company's controls will fail to prevent or detect a misstatement.<sup>75</sup>

---

<sup>71</sup> See the general inspection report at 13-14.

<sup>72</sup> See paragraph B8 of Auditing Standard No. 5.

<sup>73</sup> See, e.g., paragraph 62 and the second note to paragraph 65 of Auditing Standard No. 5.

<sup>74</sup> See paragraph 63 of Auditing Standard No. 5.

<sup>75</sup> See paragraph 64 of Auditing Standard No. 5.

Auditing Standard No. 5 also provides additional direction on evaluating the severity of control deficiencies, including risk factors that affect the evaluation of the likelihood and potential magnitude of misstatements resulting from control deficiencies and indicators of material weaknesses.<sup>76</sup> For example, deficiencies in controls over the key assumptions in a significant accounting estimate could result in a reasonable possibility of misstatement because of the subjectivity, complexity, or extent of judgment required to determine the amount of the estimate. Also, multiple control deficiencies affecting the same account can increase the likelihood of misstatement. Similarly, the magnitude of potential misstatements resulting from a deficiency is greater for control deficiencies affecting processes with large transaction volumes or the existence of accounts with large recorded amounts.

In forming a conclusion about whether a control deficiency or combination of deficiencies is a material weakness, the auditor should evaluate the effect of compensating controls, if any. This includes testing the compensating controls to determine whether they operate at a level of precision that would prevent or detect a misstatement that could be material. This includes evaluating whether the control addresses the risk of material misstatement to the relevant assertion intended to be addressed by the deficient control. If the compensating control is a management review control, the previously discussed considerations for testing management review controls apply to the compensating control.

Evaluating whether a control deficiency, or a combination of control deficiencies, results in a material weakness requires professional skepticism and a careful analysis of all the evidence obtained. Auditors who perform a mechanical or cursory evaluation of deficiencies might reach premature conclusions without appropriately considering critical information. For example, a mechanical or cursory evaluation may lead an auditor to

- Assess control deficiencies in isolation, without considering the effects of deficiencies in combination;
- Consider only the amount of identified misstatements, without evaluating the magnitude of potential misstatement that could occur; or
- Focus on a checklist of material weakness indicators without considering other relevant factors.

## Conclusion

An integrated audit of financial statements and internal control benefits investors because the auditor's reports address both the audited financial statements and the effectiveness of the controls the company uses to produce its financial statements. Appropriate application of the top-down, risk based approach pursuant to PCAOB standards can result in an effective audit of internal control while avoiding unnecessary work.

The PCAOB has observed through its inspections a significant number of audit deficiencies in audits of internal control over the past three years. This alert discusses certain significant matters relating to the application of PCAOB standards to audits of internal control, in light of these inspections observations.

---

<sup>76</sup> See paragraphs 64-70 of Auditing Standard No. 5, which set forth additional requirements and direction regarding evaluating the severity of control deficiencies.

Auditors should take note of the matters discussed in this alert in planning and performing their audits of internal control. Because of the nature and importance of the matters covered in this alert, it is particularly important for the engagement partner and senior engagement team members to focus on these areas and for engagement quality reviewers to keep these matters in mind when performing their engagement quality reviews. Auditing firms also should consider whether additional training of their auditing personnel is needed for the topics discussed in this alert.

Audit committees of companies for which audits of internal control are conducted might wish to discuss with their auditors the level of auditing deficiencies in this area identified in their auditors' internal inspections and PCAOB inspections, request information from their auditors about potential root causes of such findings and ask how they are addressing the matters discussed in this alert. In particular, audit committees may want to inquire about the involvement and focus by senior members of the firm on these matters.

As noted in the general report, audit committees may consider inquiring of the issuer's auditor how the controls to be tested will address the assessed risks of material misstatement for relevant assertions of significant accounts and disclosures. Also, audit committees may consider discussing with the auditor his or her assessment of risks, evaluation of control deficiencies, and whether the auditor has adjusted as necessary the nature, timing, and extent of his or her control testing and substantive audit procedures in response to risks related to identified control deficiencies.

The PCAOB will continue to monitor the execution of audits of internal control as part of its ongoing oversight activities.

## SECTION 1.

### GENERAL PROVISIONS

#### Rule 1001. Definitions of Terms Employed in Rules.

When used in the Rules, unless the context otherwise requires:

**(a)(i) [Reserved]**

[Effective pursuant to SEC Release No. 34-48278,  
File No. PCAOB-2003-02 (August 1, 2003); and SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(a)(ii) Accountant**

The term "accountant" means a natural person—

- (1) who is a certified public accountant, or
- (2) who holds—
  - (i) a college, university, or higher professional degree in accounting, or
  - (ii) a license or certification authorizing him or her to engage in the business of auditing or accounting, or
- (3) who—
  - (i) holds a college, university, or higher professional degree in a field, other than accounting, and
  - (ii) participates in audits;

provided, however, that the term "accountant" does not include a person engaged only in clerical or ministerial tasks.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(a)(iii) Act**

The term "Act" means the Sarbanes-Oxley Act of 2002, as amended.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003); and SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(a)(iv) Associated Entity**

The term "associated entity" means, with respect to a public accounting firm—

- (1) any entity that directly, indirectly, or through one or more intermediaries, controls, or is controlled by, or is under common control with, such public accounting firm; or
- (2) any "associated entity," as used in Rule 2-01(f)(2) of Regulation SX, 17 C.F.R. 210.2-01(f)(2), that would be considered part of that firm for purposes of the Commission's auditor independence rules.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(a)(v) Audit**

The term "audit" means an examination of the financial statements, reports, documents, procedures, controls, or notices of any issuer, broker, or dealer by an

independent public accounting firm in accordance with the rules of the Board or the Commission, for the purpose of expressing an opinion on the financial statements or providing an audit report.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003); SEC Release No. 34-65163, File No. PCAOB-2011-01 (August 18, 2011); and SEC Release No. 34-72087, File No. PCAOB-2013-03 (May 2, 2014)]

**(a)(vi) Audit Report**

The term "audit report" means a document, report, notice, or other record—

- (1) prepared following an audit performed for purposes of compliance by an issuer, broker, or dealer with the requirements of the securities laws; and
- (2) in which a public accounting firm either—
  - (i) sets forth the opinion of that firm regarding a financial statement, report, notice, or other document, procedures, or controls; or
  - (ii) asserts that no such opinion can be expressed.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003); SEC Release No. 34-65163, File No. PCAOB-2011-01 (August 18, 2011); and SEC Release No. 34-72087, File No. PCAOB-2013-03 (May 2, 2014)]

**(a)(vii) Audit Services**

- (1) With respect to issuers, the term "audit services" means professional services rendered for the audit of an issuer's annual financial statements, and (if applicable) for the reviews of an issuer's financial statements included in the issuer's quarterly reports or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years;
- (2) With respect to brokers and dealers, the term "audit services" means professional services rendered for the audit of a broker's or dealer's annual financial statements, supporting schedules, supplemental reports, and for the report on either a broker's or dealer's compliance report or exemption report, as described in Rule 17a- 5(g) under the Exchange Act.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003); SEC Release No. 34-60497, File No. PCAOB-2008-04 (August 13, 2009); and SEC Release No. 34-72087, File No. PCAOB-2013-03 (May 2, 2014)]

**(a)(viii) Auditing and Related Professional Practice Standards.**

The term "auditing and related professional practice standards" means the auditing standards, related attestation standards, quality control standards, ethical standards, and independence standards (including any rules implementing Title II of the Act), and any other professional standards, that are established or adopted by the Board under Section 103 of the Act.

[Effective pursuant to SEC Release No. 34-48730, File No. PCAOB-2003-05 (October 31, 2003)]

**(a)(ix) Accounting Board Demand**

The term "accounting board demand" means a command to produce documents and/or to appear at a certain time and place to give testimony.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(a)(x) Accounting Board Request**

The term "accounting board request" means a request to produce documents and/or to appear at a certain time and place to give testimony.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(a)(xi) Appropriate State Regulatory Authority**

The term "appropriate state regulatory authority" means the State agency or other authority responsible for the licensure or other regulation of the practice of accounting in the State or States having jurisdiction over a registered public accounting firm or associated person thereof, with respect to the matter in question.

[Effective pursuant to SEC Release No. 34-49787,  
File No. PCAOB-2003-08 (June 1, 2004)]

**(a)(xii) Auditor**

The term "auditor" means both public accounting firms registered with the Public Company Accounting Oversight Board and associated persons thereof.

[Effective pursuant to SEC Release No. 34-50331,  
File No. PCAOB-2004-06 (September 8, 2004)]

**(b)(i) Board**

The term "Board" means the Public Company Accounting Oversight Board.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(b)(ii) Bar**

The term "bar" means a permanent disciplinary sanction prohibiting a person from being associated with a registered public accounting firm.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(b)(iii) Broker**

The term "broker" means a broker (as defined in Section 3(a)(4) of the Exchange Act), that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

[Effective pursuant to SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(b)(iv) Broker-Dealer Accounting Support Fee**

The term "broker-dealer accounting support fee" means the portion of the accounting support fee established by the Board that is to be allocated among brokers and dealers pursuant to the rules of the Board.

[Effective pursuant to SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(c)(i) Commission**

The term "Commission" means the Securities and Exchange Commission.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(c)(ii) Counsel**

The term "counsel" means an attorney at law admitted to practice, and in good standing, before the Supreme Court of the United States or the highest court of any state.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(c)(iii) Common Equity**

The term "common equity" means any class of common stock or an equivalent interest, including but not limited to a unit of beneficial interest in a trust or a limited partnership interest.

[Effective pursuant to SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(d)(i) Disciplinary Proceeding**

The term "disciplinary proceeding" means a proceeding initiated by an order instituting proceedings, held for the purpose of determining whether or not a registered public accounting firm, or any person associated with a registered public accounting firm, has engaged in any act or practice, or omitted to act, in violation of the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards; or has failed reasonably to supervise an associated person in connection with any such violation by that person; or has failed to cooperate with the Board in connection with an investigation; and whether to impose a sanction pursuant to Rule 5300.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(d)(ii) Document**

The term "document" is synonymous in meaning and equal in scope to its usage in Federal Rule of Civil Procedure 34(a), including, without limitation, electronic or computerized data compilations. A draft or non-identical copy is a separate document within the meaning of this term. In no event shall the term "document" be construed to be limited to audit work papers.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(d)(iii) Dealer**

The term "dealer" means a dealer (as defined in Section 3(a)(5) of the Exchange Act), that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

[Effective pursuant to SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(e)(i) Exchange Act**

The term "Exchange Act" means the Securities Exchange Act of 1934, as amended.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(f)(i) Foreign Public Accounting Firm**

The term "foreign public accounting firm" means a public accounting firm that is organized and operates under the laws of a non-U.S. jurisdiction, government or political subdivision thereof.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(f)(ii) Foreign Registered Public Accounting Firm**

The term "foreign registered public accounting firm" means a foreign public accounting firm that is a registered public accounting firm.

[Effective pursuant to SEC Release No. 34-50291,  
File No. PCAOB-2004-04 (August 30, 2004)]

**(f)(iii) Foreign Auditor Oversight Authority**

The term "foreign auditor oversight authority" means any governmental body or other entity empowered by a foreign government to conduct inspections of public accounting firms or otherwise to administer or enforce laws related to the regulation of public accounting firms.

[Effective pursuant to SEC Release No. 34-50291,  
File No. PCAOB-2004-04 (August 30, 2004); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

**(h)(i) Hearing Officer**

The term "hearing officer" means a person, other than a Board member or staff of the interested division, duly authorized by the Board to preside at a hearing.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(i)(i) Issuer Market Capitalization**

The terms "issuer market capitalization" and "market capitalization of an issuer" mean—

- (1) Except as provided in paragraph (i)(i)(2) of this rule, the aggregate market value of all classes of an issuer's voting and non-voting common equity that trade in the United States; or
- (2) With respect to an issuer: (i) that is registered under Section 8 of the Investment Company Act or has elected to be regulated as a business development company pursuant to Section 54 of the Investment Company Act, and (ii) whose securities are not traded on a national securities exchange or whose share price is not otherwise publicly available, the issuer's net asset value.

[Effective pursuant to SEC Release No. 34-48278,  
File No. PCAOB-2003-02 (August 1, 2003); and SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(i)(ii) Investment Company Act**

The term "Investment Company Act" means the Investment Company Act of 1940, as amended.

[Effective pursuant to SEC Release No. 34-48278,  
File No. PCAOB-2003-02 (August 1, 2003)]

**(i)(iii) Issuer**

The term "issuer" means an issuer (as defined in Section 3 of the Exchange Act), the securities of which are registered under Section 12 of that Act, or that is required to file reports under Section 15(d) of that Act, or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933, and that it has not withdrawn.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(i)(iv) Interested Division**

The term "interested division" means a division or office of the Board assigned primary responsibility by the Board to participate in a particular proceeding.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(i)(v) Issuer Accounting Support Fee**

The term "issuer accounting support fee" means the portion of the accounting support fee established by the Board that is to be allocated among issuers pursuant to the rules of the Board.

[Effective pursuant to SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(i)(vi) Invoice**

The term "invoice" means the document sent by the Board to an issuer, broker, or dealer, pursuant to Rule 7103, setting forth such issuer's, broker's, or dealer's share of the accounting support fee under Section 109 of the Act and Rules 7101, 7102, and 7103.

[Effective pursuant to SEC Release No. 34-48278,  
File No. PCAOB-2003-02 (August 1, 2003); and SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(n)(i) [Reserved]**

[Effective pursuant to SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

**(n)(ii) Non-Audit Services**

The term "non-audit services" means all services other than audit services, other accounting services, and tax services.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003); and SEC Release No. 34-60497,  
File No. PCAOB-2008-04 (August 13, 2009)]

**(n)(iii) Non-U.S. Inspection**

The term "non-U.S. inspection" means an inspection of a foreign registered public accounting firm conducted within a non-U.S. oversight system.

[Effective pursuant to SEC Release No. 34-50291,  
File No. PCAOB-2004-04 (August 30, 2004)]

**(o)(i) Other Accounting Services**

The term "other accounting services" means assurance and related services that are reasonably related to the performance of the audit or review of the client's financial statements, other than audit services.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003); SEC Release No. 34-60497,  
File No. PCAOB-2008-04 (August 13, 2009); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

**(o)(ii) Order Instituting Proceedings**

The term "order instituting proceedings" means an order issued by the Board commencing a disciplinary proceeding.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(p)(i) Person Associated With a Public Accounting Firm  
(and Related Terms)**

The terms "person associated with a public accounting firm" (or with a "registered public accounting firm" or "applicant") and "associated person of a public accounting firm" (or of a "registered public accounting firm" or "applicant") mean any individual proprietor, partner, shareholder, principal, accountant, or professional employee of a public accounting firm, or any independent contractor or entity that, in connection with the preparation or issuance of any audit report—

- (1) shares in the profits of, or receives compensation in any other form from, that firm; or
- (2) participates as agent or otherwise on behalf of such accounting firm in any activity of that firm;

provided, however, that these terms do not include a person engaged only in clerical or ministerial tasks, or, for purposes of completing a registration application on Form 1, Part IX of an annual report on Form 2, or Part IV of a Form 4 filed to succeed to the registration status of a predecessor, these terms do not include a person whom the public accounting firm reasonably believes is a person primarily associated with another registered public accounting firm.

Note: Section 2(a)(9)(C) of the Act provides that, for purposes of, among other things, Section 105 of the Act, and the Board's rules thereunder, the terms defined in Rule 1001(p)(i) shall include any person associated, seeking to become associated, or formerly associated with a public accounting firm, except that:

- (1) the authority to conduct an investigation of such person under Section 105(b) of the Act shall apply only with respect to any act or practice, or omission to act, by the person while such person was associated or seeking to become associated with a registered public accounting firm; and
- (2) the authority to commence a disciplinary proceeding under Section 105(c)(1) of the Act, or impose sanctions against such person under Section 105(c)(4) of the Act, shall apply only with respect to:
  - (i) conduct occurring while such person was associated or seeking to become associated with a registered public accounting firm; or
  - (ii) non-cooperation, as described in Section 105(b)(3) of the Act, with respect to a demand in a Board investigation for testimony, documents, or other information relating to a period when such person was associated or seeking to become associated with a registered public accounting firm.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

**(p)(ii) Play a Substantial Role in the Preparation or Furnishing of an Audit Report**

The phrase "play a substantial role in the preparation or furnishing of an audit report" means—

- (1) to perform material services that a public accounting firm uses or relies on in issuing all or part of its audit report, or
- (2) to perform the majority of the audit procedures with respect to a subsidiary or component of any issuer, broker, or dealer, the assets or revenues of which constitute 20% or more of the consolidated assets or revenues of such issuer, broker, or dealer, necessary for the principal auditor to issue an audit report.

Note 1: For purposes of paragraph (1) of this definition, the term "material services" means services, for which the engagement hours or fees constitute 20% or more of the total engagement hours or fees, respectively, provided by the principal auditor in connection with the issuance of all or part of its audit report. The term does not include non-audit services provided to non-audit clients.

Note 2: For purposes of paragraph (2) of this definition, the phrase "subsidiary or component" is meant to include any subsidiary, division, branch, office or other component of an issuer, broker, or dealer, regardless of its form of organization and/or control relationship with the issuer, broker, or dealer.

Note 3: For purposes of determining "20% or more of the consolidated assets or revenues" under paragraph (2) of this Rule, this determination should be made at the beginning of the issuer's, broker's, or dealer's fiscal year using prior year information and should be made only once during the issuer's, broker's, or dealer's fiscal year.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

**(p)(iii) Public Accounting Firm**

The term "public accounting firm" means a proprietorship, partnership, incorporated association, corporation, limited liability company, limited liability partnership, or other legal entity that is engaged in the practice of public accounting or preparing or issuing audit reports.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(p)(iv) Person**

The term "person" means any natural person or any business, legal or governmental entity or association.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004)]

**(p)(v) Party**

The term "party" means the interested division, any person named as a respondent in an order instituting proceedings or notice of a hearing, any applicant named in the caption of any order, or any person seeking Board review of a decision.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

**(p)(vi) Professional Standards**

The term "professional standards" means—

- (A) accounting principles that are—
  - (i) established by the standard setting body described in section 19(b) of the Securities Act, or prescribed by the Commission under section 19(a) of the Securities Act or section 13(b) of the Exchange Act; and
  - (ii) relevant to audit reports for particular issuers, brokers, or dealers, or dealt with in the quality control system of a particular registered public accounting firm; and
- (B) auditing standards, standards for attestation engagements, quality control policies and procedures, ethical and competency standards, and independence standards (including rules implementing Title II of the Act) that the Board or the Commission determines—
  - (i) relate to the preparation or issuance of audit reports for issuers, brokers, or dealers; and
  - (ii) are established or adopted by the Board under section 103(a) of the Act, or are promulgated as rules of the Commission.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004); SEC Release No. 34-65163, File No. PCAOB-2011-01 (August 18, 2011); and SEC Release No. 34-72087, File No. PCAOB-2013-03 (May 2, 2014)]

**(r)(i) Registered Public Accounting Firm**

The term "registered public accounting firm" means a public accounting firm registered with the Board.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

**(r)(ii) Rules or Rules of the Board**

The terms "Rules" or "Rules of the Board" mean the bylaws and rules of the Board (as submitted to and approved, modified, or amended by the Commission in accordance with Section 107 of the Act) and those stated policies, practices, and interpretations of the Board that the Commission, by rule, may deem to be rules of the Board, as necessary or appropriate in the public interest or for the protection of investors.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

**(r)(iii) Revocation**

The term "revocation" means a permanent disciplinary sanction terminating a firm's registration.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

**(s)(i) Securities Act**

The term "Securities Act" means the Securities Act of 1933, as amended.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

**(s)(ii) Securities Laws**

The term "securities laws" means the provisions of the law referred to in Section 3(a)(47) of the Exchange Act, as amended by the Act, and includes the rules, regulations, and orders issued by the Commission thereunder.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(s)(iii) State**

The term "State" means any state of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, or any other territory or possession of the United States.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(s)(iv) Suspension**

The term "suspension" means a temporary disciplinary sanction, which lapses by its own terms, prohibiting—

- (1) a registered public accounting firm from preparing or issuing, or participating in the preparation or issuance of, any audit report; or
- (2) a person from being associated with a registered public accounting firm.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

**(s)(v) Self-Regulatory Organization**

The term "self-regulatory organization" means any national securities exchange, registered securities association, or registered clearing agency, or (solely for purposes of Sections 19(b), 19(c), and 23(b) of the Exchange Act) the Municipal Securities Rulemaking Board established by Section 15B of the Exchange Act.

[Effective pursuant to SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(s)(vi) Secretary**

The term "Secretary" means the Secretary of the Board.

[Effective pursuant to SEC Release No. 34-49704,  
File No. PCAOB-2003-07 (May 14, 2004); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

**(t)(i) Tax Services**

The term "tax services" means professional services rendered for tax compliance, tax advice, and tax planning.

[Effective pursuant to SEC Release No. 34-48180,  
File No. PCAOB-2003-03 (July 16, 2003)]

**(t)(ii) Tentative Net Capital**

The term "tentative net capital" has the same meaning as such term is defined under Rule 15c3-1(c)(15) under the Exchange Act.

[Effective pursuant to SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

**(t)(iii) Total Accounting Support Fee**

The term "total accounting support fee" means the fee described in Rule 7100.

[Effective pursuant to SEC Release No. 34-65162,  
File No. PCAOB-2011-02 (August 18, 2011)]

---

## SECTION 3.

# **AUDITING AND RELATED PROFESSIONAL PRACTICE STANDARDS**

## **Part 1—General Requirements**

### **Rule 3100. Compliance With Auditing and Related Professional Practice Standards.**

A registered public accounting firm and its associated persons shall comply with all applicable auditing and related professional practice standards.

[Effective pursuant to SEC Release No. 34-48730,  
File No. PCAOB-2003-05 (October 31, 2003)]

### **Rule 3101. Certain Terms Used in Auditing and Related Professional Practice Standards.**

- (a) The Board's auditing and related professional practice standards use certain terms set forth in this rule to describe the degree of responsibility that the standards impose on auditors.

(1) **Unconditional Responsibility:** The words "must," "shall," and "is required" indicate unconditional responsibilities. The auditor must fulfill responsibilities of this type in all cases in which the circumstances exist to which the requirement applies. Failure to discharge an unconditional responsibility is a violation of the relevant standard and Rule 3100.

(2) **Presumptively Mandatory Responsibility:** The word "should" indicates responsibilities that are presumptively mandatory. The auditor must comply with requirements of this type specified in the Board's standards unless the auditor demonstrates that alternative actions he or she followed in the circumstances were sufficient to achieve the objectives of the standard. Failure to discharge a presumptively mandatory responsibility is a violation of the relevant standard and Rule 3100 unless the auditor demonstrates that, in the circumstances, compliance with the specified responsibility was not necessary to achieve the objectives of the standard.

Note: In the rare circumstances in which the auditor believes the objectives of the standard can be met by alternative means, the auditor, as part of documenting the planning and performance of the work, must document the information that demonstrates that the objectives were achieved.

(3) **Responsibility To Consider:** The words "may," "might," "could," and other terms and phrases describe actions and procedures that auditors have a responsibility to consider.

Matters described in this fashion require the auditor's attention and understanding. How and whether the auditor implements these matters in the audit will depend on the exercise of professional judgment in the circumstances consistent with the objectives of the standard.

Note: If a Board standard provides that the auditor "should consider" an action or procedure, consideration of the action or procedure is presumptively mandatory, while the action or procedure is not.

- (b) The terminology in paragraph (a) of this rule applies to the responsibilities imposed by the auditing and related professional practice standards, including the interim standards adopted in Rules 3200T, 3300T, 3400T, 3500T, and 3600T.

[Effective pursuant to SEC Release No. 34-50331, File No. PCAOB-2004-06 (September 8, 2004); and SEC Release No. 34-72087, File No. PCAOB-2013-03 (May 2, 2014)]

### **Rule 3200T. Interim Auditing Standards.**

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with generally accepted auditing standards, as described in the AICPA Auditing Standards Board's Statement of Auditing Standards No. 95, as in existence on April 16, 2003 (Codification of Statements on Auditing Standards, AU § 150 (AICPA 2002)), to the extent not superseded or amended by the Board.

[Effective pursuant to SEC Release Nos 33-8233 & 34-47746

(April 25, 2003); SEC Release No. 34-49624,

File No. PCAOB-2003-11 (April 28, 2004); and SEC Release No. 34-72087,

File No. PCAOB-2013-03 (May 2, 2014)]

### **Rule 3300T. Interim Attestation Standards.**

In connection with an engagement (i) described in the AICPA's Auditing Standards Board's Statement on Standards for Attestation Engagements No. 10 (Codification of Statements on Auditing Standards, AT § 101.01 (AICPA 2002)) and (ii) related to the preparation or issuance of audit reports, a registered public accounting firm, and its associated persons, shall comply with the AICPA Auditing Standards Board's Statements on Standards for Attestation Engagements, and related interpretations and Statements of Position, as in existence on April 16, 2003, to the extent not superseded or amended by the Board.

[Effective pursuant to SEC Release Nos 33-8233 & 34-47746

(April 25, 2003); SEC Release No. 34-49624,

File No. PCAOB-2003-11 (April 28, 2004); and SEC Release No. 34-72087,

File No. PCAOB-2013-03 (May 2, 2014)]

### **Rule 3400T. Interim Quality Control Standards.**

A registered public accounting firm, and its associated persons, shall comply with quality control standards, as described in—

- (a) the AICPA's Auditing Standards Board's Statements on Quality Control Standards, as in existence on April 16, 2003 (AICPA Professional Standards, QC §§ 20–40 (AICPA 2002)), to the extent not superseded or amended by the Board; and

- (b) the AICPA SEC Practice Section's Requirements of Membership (d), (l), (m), (n)(1) and (o), as in existence on April 16, 2003 (AICPA SEC Practice Section Manual § 1000.08(d), (j), (m), (n)(1) and (o)), to the extent not superseded or amended by the Board.

Note: The AICPA SEC Practice Section's Requirements of Membership only apply to those registered public accounting firms that were members of the AICPA SEC Practice Section on April 16, 2003.

[Effective pursuant to SEC Release Nos 33-8233 & 34-47746

(April 25, 2003); SEC Release No. 34-49624,

File No. PCAOB-2003-11 (April 28, 2004); and SEC Release No. 34-72087,

File No. PCAOB-2013-03 (May 2, 2014)]

## Part 5—Ethics and Independence

### Rule 3500T. Interim Ethics and Independence Standards.

- (a) In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with ethics standards, as described in the AICPA's Code of Professional Conduct Rule 102, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 102 and 191 (AICPA 2002)), to the extent not superseded or amended by the Board.
- (b) In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with independence standards—
  - (1) as described in the AICPA's Code of Professional Conduct Rule 101, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 101 and 191 (AICPA 2002)), to the extent not superseded or amended by the Board; and
  - (2) Standards Nos. 2 and 3, and Interpretation 99-1 of the Independence Standards Board, to the extent not superseded or amended by the Board.

Note: The Board's Interim Independence Standards do not supersede the Commission's auditor independence rules. See Rule 2-01 of Reg. S-X, 17 C.F.R. § 210.2-01. Therefore, to the extent that a provision of the Commission's rule is more restrictive—or less restrictive—than the Board's Interim Independence Standards, a registered public accounting firm must comply with the more restrictive rule.

[Effective pursuant to SEC Release Nos 33-8233 & 34-47746 (April 25, 2003); SEC Release No. 34-49624, File No. PCAOB-2003-11 (April 28, 2004); and SEC Release No. 34-72087, File No. PCAOB-2013-03 (May 2, 2014)]

### Rule 3501. Definitions of Terms Employed in Section 3, Part 5 of the Rules.

When used in Section 3, Part 5 of the Rules, unless the context otherwise requires:

#### **(a)(i) Affiliate of the Accounting Firm.**

The term "affiliate of the accounting firm" (or "affiliate of the registered public accounting firm" or "affiliate of the firm") includes the accounting firm's parents; subsidiaries; pension, retirement, investment or similar plans; and any associated entities of the firm, as that term is used in Rule 2-01 of the Commission's Regulation SX, 17 C.F.R. § 210.2-01(f)(2).

#### **(a)(ii) Affiliate of the Audit Client.**

The term "affiliate of the audit client" means—

- (1) An entity that has control over the audit client, or over which the audit client has control, or which is under common control

with the audit client, including the audit client's parents and subsidiaries;

- (2) An entity over which the audit client has significant influence, unless the entity is not material to the audit client;
- (3) An entity that has significant influence over the audit client, unless the audit client is not material to the entity; and
- (4) Each entity in the investment company complex when the audit client is an entity that is part of an investment company complex.

**(a)(iii) Audit and Professional Engagement Period.**

The term "audit and professional engagement period" includes both—

- (1) The period covered by any financial statements being audited or reviewed (the "audit period"); and
- (2) The period of the engagement to audit or review the audit client's financial statements or to prepare a report filed with the Commission (the "professional engagement period")—
  - (A) The professional engagement period begins when the registered public accounting firm either signs an initial engagement letter (or other agreement to review or audit a client's financial statements) or begins audit, review, or attest procedures, whichever is earlier; and
  - (B) The professional engagement period ends when the audit client or the registered public accounting firm notifies the Commission that the client is no longer that firm's audit client.
- (3) For audits of the financial statements of foreign private issuers, the "audit and professional engagement period" does not include periods ended prior to the first day of the last fiscal year before the foreign private issuer first filed, or was required to file, a registration statement or report with the Commission, provided there has been full compliance with home country independence standards in all prior periods covered by any registration statement or report filed with the Commission.

**(a)(iv) Audit Client.**

The term "audit client" means the entity whose financial statements or other information is being audited, reviewed, or attested and any affiliates of the audit client.

**(a)(v) Audit Committee.**

The term "audit committee" means a committee (or equivalent body) established by and among the board of directors of an entity for the purpose of overseeing the accounting and financial reporting processes of the entity and audits of the financial statements of the entity; if no such committee exists with respect to the entity, the entire board of directors of the entity. For audits of non-issuers, if no such committee or board of directors (or equivalent body) exists with respect to the entity, "audit committee" means the person(s) who oversee(s) the accounting and financial reporting processes of the entity and audits of the financial statements of the entity.

**(c)(i) Confidential Transaction.**

The term "confidential transaction" means—

- (1) In general. A confidential transaction is a transaction that is offered to a taxpayer under conditions of confidentiality and for which the taxpayer has paid an advisor a fee.
- (2) Conditions of confidentiality. A transaction is considered to be offered to a taxpayer under conditions of confidentiality if the advisor who is paid the fee places a limitation on disclosure by the taxpayer of the tax treatment or tax structure of the transaction and the limitation on disclosure protects the confidentiality of that advisor's tax strategies. A transaction is treated as confidential even if the conditions of confidentiality are not legally binding on the taxpayer. A claim that a transaction is proprietary or exclusive is not treated as a limitation on disclosure if the advisor confirms to the taxpayer that there is no limitation on disclosure of the tax treatment or tax structure of the transaction.
- (3) Determination of fee. For purposes of this definition, a fee includes all fees for a tax strategy or for services for advice (whether or not tax advice) or for the implementation of a transaction. These fees include consideration in whatever form paid, whether in cash or in kind, for services to analyze the transaction (whether or not related to the tax consequences of the transaction), for services to implement the transaction, for services to document the transaction, and for services to prepare tax returns to the extent that the fees exceed the fees customary for return preparation. For purposes of this definition, a taxpayer also is treated as paying fees to an advisor if the taxpayer knows or should know that the amount it pays will be paid indirectly to the advisor, such as through a referral fee or fee-sharing arrangement. A fee does not include amounts paid to a person, including an advisor, in that person's capacity as a party to the transaction. For example, a fee does not include reasonable charges for the use of capital or the sale or use of property.
- (4) Related parties. For purposes of this definition, persons who bear a relationship to each other as described in section 267(b) or 707(b) of the Internal Revenue Code will be treated as the same person.

**(c)(ii) Contingent Fee.**

The term "contingent fee" means—

- (1) Except as stated in paragraph (2) below, any fee established for the sale of a product or the performance of any service pursuant to an arrangement in which no fee will be charged unless a specified finding or result is attained, or in which the amount of the fee is otherwise dependent upon the finding or result of such product or service.
- (2) Solely for the purposes of this definition, a fee is not a "contingent fee" if the amount is fixed by courts or other public authorities and not dependent on a finding or result.

**(f)(i) Financial Reporting Oversight Role.**

The term "financial reporting oversight role" means a role in which a person is in a position to or does exercise influence over the contents of the financial

statements or anyone who prepares them, such as when the person is a member of the board of directors or similar management or governing body, chief executive officer, president, chief financial officer, chief operating officer, general counsel, chief accounting officer, controller, director of internal audit, director of financial reporting, treasurer, or any equivalent position.

**(i)(i) Immediate Family Member.**

The term "immediate family member" means a person's spouse, spousal equivalent, and dependents.

**(i)(ii) Investment Company Complex.**

- (1) The term "investment company complex" includes—
  - (i) An investment company and its investment adviser or sponsor;
  - (ii) Any entity controlled by or controlling an investment adviser or sponsor in paragraph (i) of this definition, or any entity under common control with an investment adviser or sponsor in paragraph (i) of this definition if the entity—
    - (A) Is an investment adviser or sponsor; or
    - (B) Is engaged in the business of providing administrative, custodian, underwriting, or transfer agent services to any investment company, investment adviser, or sponsor; and
  - (iii) Any investment company or entity that would be an investment company but for the exclusions provided by section 3(c) of the Investment Company Act (15 U.S.C. § 80a-3(c)) that has an investment adviser or sponsor included in this definition by either paragraph (i) or (ii) of this definition.
- (2) An investment adviser, for purposes of this definition, does not include a sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser.
- (3) A sponsor, for purposes of this definition, is an entity that establishes a unit investment trust.

[Effective pursuant to SEC Release No. 34-53677,  
File No. PCAOB-2006-01 (April 19, 2006); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

## **Rule 3502. Responsibility Not to Knowingly or Recklessly Contribute to Violations.**

A person associated with a registered public accounting firm shall not take or omit to take an action knowing, or recklessly not knowing, that the act or omission would directly and substantially contribute to a violation by that registered public accounting firm of the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards.

[Effective pursuant to SEC Release No. 34-53677,  
File No. PCAOB-2006-01 (April 19, 2006)]

## Subpart 1—Independence

### Rule 3520. Auditor Independence.

A registered public accounting firm and its associated persons must be independent of the firm's audit client throughout the audit and professional engagement period.

Note 1: Under Rule 3520, a registered public accounting firm or associated person's independence obligation with respect to an audit client encompasses not only an obligation to satisfy the independence criteria applicable to the engagement set out in the rules and standards of the PCAOB, but also an obligation to satisfy all other independence criteria applicable to the engagement, including the independence criteria set out in the rules and regulations of the Commission under the federal securities laws.

Note 2: Rule 3520 applies only to those associated persons of a registered public accounting firm required to be independent of the firm's audit client by standards, rules or regulations of the Board or Commission or other applicable independence criteria.

[Effective pursuant to SEC Release No. 34-53677,  
File No. PCAOB-2006-01 (April 19, 2006); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

### Rule 3521. Contingent Fees.

A registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any service or product to the audit client for a contingent fee or a commission, or receives from the audit client, directly or indirectly, a contingent fee or commission.

[Effective pursuant to SEC Release No. 34-53677;  
File No. PCAOB-2006-01; April 19, 2006]

### Rule 3522. Tax Transactions.

A registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any non-audit service to the audit client related to marketing, planning, or opining in favor of the tax treatment of, a transaction—

- (a) **Confidential Transactions**—that is a confidential transaction; or
- (b) **Aggressive Tax Position Transactions**—that was initially recommended, directly or indirectly, by the registered public accounting firm and a significant purpose of which is tax avoidance, unless the proposed tax treatment is at least more likely than not to be allowable under applicable tax laws.

Note 1: With respect to transactions subject to the United States tax laws, paragraph (b) of this rule includes, but is not limited to, any transaction that is a listed transaction within the meaning of 26 C.F.R. § 1.6011(b)(2).

Note 2: A registered public accounting firm indirectly recommends a transaction when an affiliate of the firm or another tax advisor, with which the firm has a formal agreement or other

arrangement related to the promotion of such transactions, recommends engaging in the transaction.

[Effective pursuant to SEC Release No. 34-53677, File No. PCAOB-2006-01 (April 19, 2006)]

### **Rule 3523. Tax Services for Persons in Financial Reporting Oversight Roles.**

A registered public accounting firm is not independent of an issuer audit client if the firm, or any affiliate of the firm, during the professional engagement period provides any tax service to a person in a financial reporting oversight role at the issuer audit client, or an immediate family member of such person, unless—

- (a) the person is in a financial reporting oversight role at the issuer audit client only because he or she serves as a member of the board of directors or similar management or governing body of the audit client;
- (b) the person is in a financial reporting oversight role at the issuer audit client only because of the person's relationship to an affiliate of the entity being audited—
  - (1) whose financial statements are not material to the consolidated financial statements of the entity being audited; or
  - (2) whose financial statements are audited by an auditor other than the firm or an associated person of the firm; or
- (c) the person was not in a financial reporting oversight role at the audit client before a hiring, promotion, or other change in employment event and the tax services are—
  - (1) provided pursuant to an engagement in process before the hiring, promotion, or other change in employment event; and
  - (2) completed on or before 180 days after the hiring or promotion event.

Note: In an engagement for an issuer audit client whose financial statements for the first time will be required to be audited pursuant to the standards of the PCAOB, the provision of tax services to a person covered by Rule 3523 before the earlier of the date that the firm: (1) signed an initial engagement letter or other agreement to perform an audit pursuant to the standards of the PCAOB, or (2) began procedures to do so, does not impair a registered public accounting firm's independence under Rule 3523.

[Effective pursuant to SEC Release No. 34-53677, File No. PCAOB-2006-01 (April 19, 2006); SEC Release No. 34-58415, File No. PCAOB-2008-03 (August 22, 2008); and SEC Release No. 34-72087, File No. PCAOB-2013-03 (May 2, 2014)]

### **Rule 3524. Audit Committee Pre-approval of Certain Tax Services.**

In connection with seeking audit committee pre-approval to perform for an issuer audit client any permissible tax service, a registered public accounting

firm shall—

- (a) describe, in writing, to the audit committee of the issuer—
  - (1) the scope of the service, the fee structure for the engagement, and any side letter or other amendment to the engagement letter, or any other agreement (whether oral, written, or otherwise) between the firm and the audit client, relating to the service; and
  - (2) any compensation arrangement or other agreement, such as a referral agreement, a referral fee or fee-sharing arrangement, between the registered public accounting firm (or an affiliate of the firm) and any person (other than the audit client) with respect to the promoting, marketing, or recommending of a transaction covered by the service;
- (b) discuss with the audit committee of the issuer the potential effects of the services on the independence of the firm; and
- (c) document the substance of its discussion with the audit committee of the issuer.

[Effective pursuant to SEC Release No. 34-53677,  
File No. PCAOB-2006-01 (April 19, 2006); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

### **Rule 3525. Audit Committee Pre-approval of Non-audit Services Related to Internal Control Over Financial Reporting.**

In connection with seeking audit committee pre-approval to perform for an issuer audit client any permissible non-audit service related to internal control over financial reporting, a registered public accounting firm shall—

- (a) describe, in writing, to the audit committee of the issuer the scope of the service;
- (b) discuss with the audit committee of the issuer the potential effects of the service on the independence of the firm; and

Note: Independence requirements provide that an auditor is not independent of his or her audit client if the auditor is not, or a reasonable investor with knowledge of all relevant facts and circumstances would conclude that the auditor is not, capable of exercising objective and impartial judgment on all issues encompassed within the accountant's engagement. Several principles guide the application of this general standard, including whether the auditor assumes a management role or audits his or her own work. Therefore, an auditor would not be independent if, for example, management had delegated its responsibility for internal control over financial reporting to the auditor or if the auditor had designed or implemented the audit client's internal control over financial reporting.

- (c) document the substance of its discussion with the audit committee of the issuer.

[Effective pursuant to SEC Release No. 34-56152,  
File No. PCAOB-2007-02 (July 27, 2007); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

**Rule 3526. Communication with Audit Committees Concerning Independence.**

A registered public accounting firm must—

- (a) prior to accepting an initial engagement pursuant to the standards of the PCAOB—
  - (1) describe, in writing, to the audit committee of the potential audit client, all relationships between the registered public accounting firm or any affiliates of the firm and the potential audit client or persons in financial reporting oversight roles at the potential audit client that, as of the date of the communication, may reasonably be thought to bear on independence;
  - (2) discuss with the audit committee of the potential audit client the potential effects of the relationships described in subsection (a)(1) on the independence of the registered public accounting firm, should it be appointed the potential audit client's auditor; and
  - (3) document the substance of its discussion with the audit committee of the potential audit client.
- (b) at least annually with respect to each of its audit clients—
  - (1) describe, in writing, to the audit committee of the audit client, all relationships between the registered public accounting firm or any affiliates of the firm and the audit client or persons in financial reporting oversight roles at the audit client that, as of the date of the communication, may reasonably be thought to bear on independence;
  - (2) discuss with the audit committee of the audit client the potential effects of the relationships described in subsection (b)(1) on the independence of the registered public accounting firm;
  - (3) affirm to the audit committee of the audit client, in writing, that, as of the date of the communication, the registered public accounting firm is independent in compliance with Rule 3520; and
  - (4) document the substance of its discussion with the audit committee of the audit client.

[Effective pursuant to SEC Release No. 34-58415, File No. PCAOB-2008-03 (August 22, 2008); and SEC Release No. 34-72087, File No. PCAOB-2013-03 (May 2, 2014)]

## Part 7—Establishment of Professional Standards

### Rule 3700. Advisory Groups.

#### (a) Formation.

To assist it in carrying out its responsibility to establish auditing and related professional practice standards, the Board will convene one or more advisory groups, in accordance with Section 103(a)(4) of the Act.

#### (b) Composition.

Advisory groups, in combination or as sub-groups designated by the Board within one advisory group, will contain individuals with expertise in one or more of the following areas—

- (1) accounting;
- (2) auditing;
- (3) corporate finance;
- (4) corporate governance;
- (5) investing in public companies; and
- (6) other areas that the Board deems to be relevant to one or more auditing or related professional practice standards

#### (c) Selection of Members of Advisory Groups.

Members of advisory groups will be selected by the Board, in its sole discretion, based upon nominations, including self-nominations, received from any person or organization.

Note: The Board will announce, from time to time, periods during which it will receive nominations to an advisory group. During those periods, nominations may be submitted by any person or organization, including, but not limited to, any investor, any accounting firm, any issuer, broker, dealer, and any institution of higher learning.

#### (d) Personal Membership.

Membership in an advisory group will be personal to the individuals selected to serve on the advisory group. A member's functions and responsibilities, including attendance at meetings, may not be delegated to others.

#### (e) Ethical Duties of Advisory Group Members.

Members of an advisory group shall comply with EC3, EC8(a), EC9, and, with respect to any private publication or public statement about the Board or any advisory group or any of the activities of the Board or any advisory group, EC10 of the Board's Ethics Code.

#### (f) Ad Hoc Task Forces.

The Board may, in its discretion, establish ad hoc task forces. The membership of such task forces may include, but is not limited to, advisory group members. To the extent not otherwise required, members of ad hoc task forces shall comply with paragraph (e) of this Rule.

[Effective pursuant to SEC Release No. 34-48730,  
File No. PCAOB-2003-05 (October 31, 2003); and SEC Release No. 34-72087,  
File No. PCAOB-2013-03 (May 2, 2014)]

## Select PCAOB Releases

### *Introduction*

The Sarbanes-Oxley Act (act) authorizes the Public Company Accounting Oversight Board (PCAOB) to establish auditing and related attestation, quality control, ethics, and independence standards to be used by registered public accounting firms in the preparation and issuance of audit reports for entities subject to the act or the rules of the Securities and Exchange Commission (SEC). Accordingly, public accounting firms registered with the PCAOB are required to adhere to all PCAOB standards in the audits of issuers, as defined by the act, and other entities when prescribed by the rules of the SEC.

## PCAOB Release No. 2003-006

# *Establishment of Interim Professional Auditing Standards*

PCAOB Release No. 2003-006

April 18, 2003

### **Summary:**

The Public Company Accounting Oversight Board ("Board" or "PCAOB") has established interim standards of auditing, attestation, quality control, ethics, and independence ("Interim Professional Auditing Standards"). Section 103(a) of the Sarbanes-Oxley Act of 2002 ("Act") provides that the Board shall, by rule, establish auditing and related attestation, quality control, and ethics standards to be used by registered public accounting firms in the preparation and issuance of audit reports. Section 103(b) authorizes the Board to adopt rules relating to auditor independence. The Board's Interim Professional Auditing Standards were promulgated by various other bodies and pre-date the determination of the Securities and Exchange Commission ("Commission"), under Section 101(d), that the Board is capable of carrying out its responsibilities under the Act. Unlike other Rules of the Board, under Section 103(a)(3)(B) of the Act, the Board's Interim Professional Auditing Standards "shall be separately approved by the Commission at the time of the determination, without regard to the procedures required by Section 107" of the Act regarding rulemaking.

This release describes the standards that the Board has adopted as Interim Professional Auditing Standards on an initial, transitional basis in order to assure continuity and certainty in the standards that govern audits of public companies. They will remain in effect while the Board conducts a review of standards applicable to registered public accounting firms, as discussed in PCAOB Release No. 2003-005. Based on this review, the Board may modify, repeal, replace or adopt permanently the Interim Professional Auditing Standards, or any part thereof, by rulemaking according to the Board's procedures for the establishment of professional auditing standards and subject to Commission approval.

### **Board Contacts:**

Gordon Seymour, Acting General Counsel (202/207-9034; [seymourg@pcaobus.org](mailto:seymourg@pcaobus.org)), or Samantha Ross, Special Counsel to the Acting Chairman (202/207-9093; [rosss@pcaobus.org](mailto:rosss@pcaobus.org)).

\* \* \* \* \*

The Board has adopted Interim Professional Auditing Standards to govern the conduct of audits of public companies (i.e., "issuers" as defined in the Act). The Act provides that "[p]re-existing standards of designated professional groups of accountants may be adopted during the Board's transitional period,"<sup>1</sup> i.e., before the Commission's determination, under Section 101(d), that the Board is "organized and has the capacity to carry out the requirements of Title I" of the Act. Specifically, Section 103(a)(3)(B) and 103(a)(3)(A)(i) of the Act provide for the Board to adopt, as initial or transitional standards, "any portion of any

---

<sup>1</sup> See S. Rep. No. 107-205, at 8 (2002).

statement of auditing standards or other professional standards" that satisfy the requirements of Section 103(a)(1) of the Act. These interim standards are to be "separately approved by the Commission at the time of the determination, without regard to the procedures required by Section 107" of the Act regarding rulemaking, which will govern the Board's permanent standards.<sup>2</sup>

Despite the need to adopt these existing standards on an initial, transitional basis in order to assure continuity and certainty in the standards that govern audits of public companies, the Board has not determined whether it would be appropriate to include any of the Interim Professional Auditing Standards as permanent Board standards. In order to make that determination, the Board will establish a schedule and procedure for the review of all Interim Professional Auditing Standards.<sup>3</sup> The objective of that review will be to determine, on a standard-by-standard basis, whether the Interim Professional Auditing Standards should become permanent standards of the Board, should be repealed, or should be modified. As the review of each interim standard is completed, the Board will adopt that standard as a permanent Professional Auditing Standard, with or without modifications, will repeal the standard, or will take any other appropriate action regarding the standard.

The Interim Professional Auditing Standards consist of five rules (Rules 3200T, 3300T, 3400T, 3500T, and 3600T). Appendices 1 and 2 to this release contain, respectively, the text of these rules and a section-by-section analysis of the rules. Section A of this release provides an overview of the Interim Professional Auditing Standards and of the Board's reasons for adopting these standards. Section B of this release describes the effective date of the Interim Professional Auditing Standards and the procedure for Commission approval of these standards..., other than as provided in section 103(a)(3)(B) with respect to initial or transitional standards."

## A. Overview of the Interim Professional Auditing Standards

### 1. Interim Auditing Standards

Auditors of public companies that issue securities are required to provide audit reports that "state whether the audit was made in accordance with generally accepted auditing standards" ("GAAS").<sup>4</sup> The Commission's Division of Corporation Finance will not accept an audit report on the financial statements of an issuer unless the report states that the audit to which it relates was conducted in accordance with GAAS in the United States.<sup>5</sup>

Before the enactment of the Act, U.S. GAAS were established by the American Institute of Certified Public Accountants ("AICPA"). General standards on auditing, as well as standards relating to audit field work and audit reports, were approved and adopted by the membership of the AICPA, and amended by the AICPA's Auditing Standards Board ("ASB"). In addition, the ASB has

---

<sup>2</sup> Section 103(a)(3)(B) of the Act. Section 107(b)(2) of the Act provides that "[n]o rule of the Board shall become effective without prior approval of the Commission.

<sup>3</sup> See PCAOB Release No. 2003-005 (April 18, 2003).

<sup>4</sup> See Regulation S-X, § 2-02, 17 C.F.R. § 210.2-02.

<sup>5</sup> "All financial statements filed with the SEC are required to be audited in accordance with US GAAS, with an explicit statement of that fact in the auditor's report." See Division of Corporation Finance Current Accounting and Disclosure Issues (August 31, 2001), <http://www.sec.gov/divisions/corpfin/acctdisc.htm>.

developed and issued 101 Statements of Auditing Standards ("SAS") through a process that has included deliberations in public meetings, public exposure of draft statements, and adoption of statements approved by the ASB.<sup>6</sup> GAAS also require an auditor to "be aware of and consider" certain AICPA interpretive publications, such as auditing Interpretations of the SASs, auditing guidance included in AICPA Audit and Accounting Guides, and AICPA auditing Statements of Position.<sup>7</sup>

Subject to the Commission's oversight authority, the Act gives the Board the exclusive, statutory power to establish and amend Professional Auditing Standards to be used by registered public accounting firms in the preparation and issuance of audit reports.<sup>8</sup> The Board's Professional Auditing Standards supercede standards established by professional organizations, with respect to the preparation or issuance of audit reports on the financial statements of issuers. In Release No. 2003-005, the Board announced its intention to establish Professional Auditing Standards through an open process in which the accounting profession, the preparers of financial statements, the investor community, and others will have the opportunity to participate. The Board also announced in that release a plan to review existing GAAS and, when appropriate, change or establish new GAAS.

In order to assure continuity and certainty in the standards that govern audits of public companies during the Board's review, the Board has determined that GAAS proposed and promulgated by the AICPA and the ASB, as they existed on April 16, 2003, should be adopted as Interim Auditing Standards, pursuant to Section 103(a)(3)(B). Accordingly, the Board has adopted Rule 3200T to require that registered public accounting firms comply with its Interim Auditing Standards in the performance of audits, or interim reviews,<sup>9</sup> of the financial statements of issuers. The Board intends that these GAAS continue to have the same authority they have currently unless and until the Board supercedes them.

## 2. Interim Attestation Standards

Section 103(a)(1) authorizes the Board to establish "auditing and related attestation standards."<sup>10</sup> Consistent with the Interim Auditing Standards, the

---

<sup>6</sup> See SAS No. 95, *Codification of Statements on Auditing Standards* ("Codification"), AU § 150.03 (AICPA 2002).

<sup>7</sup> In addition, SAS No. 95 also refers to other auditing publications, such as articles in the *Journal of Accountancy* and other professional journals, including publications by state CPA societies, textbooks, and guidebooks, that have contributed to the development of GAAS. Before applying the guidance in an "other auditing publication," an auditor "should be satisfied that, in his or her judgment, it is both relevant to the circumstances of the audit and appropriate." SAS No. 95, *Codification* at AU § 150.08.

<sup>8</sup> Section 3(c)(2) of the Act provides that "[n]othing in this Act or the rules of the Board shall be construed to impair or limit . . . the authority of the Commission to set standards for accounting or auditing practices or auditor independence, derived from other provisions of the securities laws or the rules or regulations thereunder, for purposes of the preparation and issuance of any audit report, or otherwise under applicable law."

<sup>9</sup> Interim reviews of financial information are integrally related to audits. See generally SAS No. 100. For example, SAS No. 100 makes clear that the general standards on auditing discussed in SAS No. 95 "are applicable to a review of interim financial information." See *id.* at ¶ 1; see also *id.* at ¶¶ 12-13 (requiring new auditor conducting initial review of interim financial information to perform procedures, including making inquiries and reviewing the work papers of predecessor auditor and obtaining knowledge of entity's internal controls).

<sup>10</sup> Section 2(a)(10) of the Act also defines Professional Standards to include "standards for attestation engagements . . . that the Board or the Commission determines . . . relate to the preparation or issuance of audit reports for issuers."

Board's Rule 3300T designates the Statements on Standards for Attestation Engagements ("SSAE") and related Interpretations and Statements of Position adopted by the ASB, as they existed on April 16, 2003, as the Board's Interim Attestation Standards. Accordingly, registered public accounting firms must comply with those SSAEs that are related to the preparation or issuance of an audit report on the financial statements of an issuer.<sup>11</sup>

### 3. Interim Quality Control Standards

Section 103(a)(1) authorizes the Board to establish quality control standards for registered public accounting firms. Until enactment of the Act, the ASB's Statements on Quality Control Standards ("SQCS") were the primary source of such standards.<sup>12</sup> In addition, public accounting firms that are members of the AICPA's SEC Practice Section have committed to satisfying a number of other quality control-related requirements. Consistent with the Interim Auditing Standards and the Interim Attestation Standards, the Board's Rule 3400T designates the Statements on Quality Control Standards adopted by the ASB, as they existed on April 16, 2003, as the Board's Interim Quality Control Standards.

Rule 3400T also designates certain AICPA SEC Practice Section membership requirements as additional Interim Quality Control Standards.<sup>13</sup> It should be noted that the Board is not adopting as interim standards the entirety of the AICPA SEC Practice Section's membership requirements.<sup>14</sup> Further, because the Board intends the Interim Quality Control Standards to preserve existing standards as they apply currently, consistent with Section 103(a)(3) of the Act, those Interim Quality Control Standards adapted from the AICPA SEC Practice Section requirements apply only to those firms that are members of the AICPA SEC Practice Section.<sup>15</sup> The requirements incorporated in Rule 3400T, which are described in more detail in Appendix 2, related to the following matters—

- Continuing professional education of audit firm personnel;
- Concurring partner review of the audit report and the financial statements of Commission registrants;<sup>16</sup>

---

<sup>11</sup> Rule 3300T.

<sup>12</sup> See SAS 25, Codification at AU § 161 (requiring accounting firms to have quality controls for their audit practices). The ASB's standards define quality control as "a process to provide the firm with reasonable assurance that its personnel comply with applicable professional standards and the firm's standards of quality." See System of Quality Control for a CPA Firm's Accounting and Auditing Practice, AICPA Professional Standards ("Professional Standards"), QC § 20.03 (AICPA 2002). The ASB's standards further set forth five broad elements of appropriate quality control in a public accounting firm, which relate to maintaining independence, integrity, and objectivity; managing personnel; establishing guidelines for accepting and continuing clients; performing engagements; and monitoring the existing quality control policies and procedures. Professional Standards at QC § 20.07.

<sup>13</sup> AICPA SEC Practice Section Reference Manual, § 1000.08(d), (f), (l), (m), (n)(1) and (o).

<sup>14</sup> For example, the Board is not adopting those SECPS membership requirements that require each member of the firm to be a member of the AICPA or that require member firms to submit to peer reviews, to report information to the SECPS or to the AICPA's quality control inquiry committee, or to pay dues to the SECPS. See AICPA SEC Practice Section Reference Manual, § 1000.08(a), (c), (g), (j), (k) and (p). Nor is the Board adopting those SECPS membership requirements that have been superseded by statute or by Commission or Board rule.

<sup>15</sup> In the future the Board may, by rulemaking and pursuant to its standards-setting procedures, extend the AICPA SEC Practice Section requirements to other registered public accounting firms.

<sup>16</sup> SECPS membership requirement (f) sets forth the Practice Section's concurring review requirements, which the Board has adopted as part of its Interim Quality Control Standards. See AICPA SEC Practice Section Reference Manual, § 1000.08(f). Requirement (f) also permitted the AICPA "peer review committee [to] authorize alternative procedures where this requirement cannot be met because

*(continued)*

- Communication by written statement to all professional personnel of firm policies and procedures on the recommendation and approval of accounting principles, present and potential client relationships, and the types of services provided;
- Notification of the Commission of resignations and dismissals from audit engagements for Commission registrants;
- Audit firm obligations with respect to the policies and procedures of correspondent firms and of other members of international firms or international associations of firms; and
- Policies and procedures to comply with applicable independence requirements.

#### 4. Interim Ethics Standards

Section 103(a)(1) authorizes the Board to establish ethics standards.<sup>17</sup> The Board's Rule 3500T designates the provisions of the AICPA's Code of Professional Conduct on integrity and objectivity, as Interim Ethics Standards.<sup>18</sup> Accordingly, registered public accounting firms must comply with the AICPA's Code of Professional Conduct Rule 102, and interpretations and rulings thereunder, as in existence as of the date of this release.<sup>19</sup> Consistent with the other interim standards adopted by the Board, these ethical standards continue to have the same authority they have currently unless and until the Board supersedes them.

#### 5. Interim Independence Standards

Section 103(b) of the Act authorizes the Board to "establish such rules as may be necessary or appropriate in the public interest or for the protection of investors, to implement, or as authorized under, title II of this Act."<sup>20</sup> The Board has adopted Interim Independence Standards, based on the provisions of the AICPA's Code of Professional Conduct regarding independence and existing standards and interpretations of the Independence Standards Board. Rule 3600T requires registered public accounting firms to comply with these independence standards in connection with the audit of any Commission registrant.

On January 28, 2003, the Commission adopted final rules to strengthen requirements regarding auditor independence and enhance disclosure regarding fees paid to auditors and otherwise to strengthen the Commission's existing

---

*(footnote continued)*

of the size of the member firm." The Board has not adopted this part—the second sentence—of SECPS membership requirement (f). Under Section 103(a)(3)(A)(i), the Board "may adopt as its rules . . . any portion of any statement of auditing standards or other professional standards that the Board determines" satisfy the Act's requirements. The Board does, however, intend to permit requests for similar relief to be sought from the Board.

<sup>17</sup> Section 2(a)(10)(B) of the Act also defines Professional Standards to include "ethical and competency standards . . . that the Board or the Commission determines . . . relate to the preparation or issuance of audit reports for issuers."

<sup>18</sup> Professional Standards at ET §§ 102 and 191.

<sup>19</sup> Rule 3500T.

<sup>20</sup> Title II of the Act addresses auditor independence. In addition, Section 2(a)(10) of the Act defines "Professional Standards" to include "independence standards (including rules implementing title II) that the Board or the Commission determines . . . relate to the preparation or issuance of audit reports for issuers."

auditor independence rules.<sup>21</sup> These rules were designed to implement provisions of the Act. All registered public accounting firms are required to comply with Commission rules, and the Board's Interim Independence Standards do not supplant the Commission's independence rules. To the extent that the Commission's rules are more restrictive—or less restrictive—than the Board's Interim Independence Standards, registered public accounting firms must comply with the more restrictive requirements. The note to Rule 3600T clarifies this point.

## B. Effective Date for the Interim Professional Auditing Standards and Procedure for Commission Approval

Under Section 103(a)(3)(B) of the Act, the Board's Interim Professional Auditing Standards "shall be separately approved by the Commission at the time of [the] determination" of the Commission under Section 101(d) of the Act that the Board has the capacity to carry out the requirements of Title I of the Act. This determination is expected to be made no later than April 26, 2003.<sup>22</sup> The Interim Professional Auditing Standards shall be effective as of the date of the Commission's approval of them, which, accordingly, is expected to be no later than April 26, 2003.

\* \* \* \* \*

On the 16th day of April, in the year 2003, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ISSUED BY THE BOARD.  
/s/ J. Gordon Seymour  
J. Gordon Seymour  
Acting Secretary  
April 16, 2003

### APPENDICES—

1. Rules Relating to Interim Professional Auditing Standards
2. Section-by-Section Analysis of Rules Relating to Interim Professional Auditing Standards

---

<sup>21</sup> See SEC, Strengthening the Commission's Requirements Regarding Auditor Independence, Securities Act Release No. 33-8183, 68 Fed. Reg. 6,006 (Jan. 28, 2003), as amended by Securities Act Release No. 33-8183A, 68 Fed. Reg. 15,354 (March 26, 2003).

<sup>22</sup> Section 101(d) of the Act requires the Board to take such actions as are necessary or appropriate to enable the Commission to make this determination no later than 270 days after the enactment of the Act, i.e., no later than April 26, 2003.

## Appendix 1

### Rules Relating to Interim Professional Auditing Standards

#### RULES OF THE BOARD

#### SECTION 7. PROFESSIONAL STANDARDS

#### **RULE 3200T. Interim Auditing Standards.**

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with generally accepted auditing standards, as described in the AICPA Auditing Standards Board's Statement of Auditing Standards No. 95, as in existence on April 16, 2003 (Codification of Statements on Auditing Standards, AU § 150 (AICPA 2002)).

Note: Under Section 102(a) of the Act, public accounting firms are not required to be registered with the Board until 180 days after the date of the determination of the Commission under section 101(d) that the Board has the capacity to carry out the requirements of Title I of the Act (the "mandatory registration date"). The Board intends that, during the period preceding the mandatory registration date, the Interim Auditing Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[PCAOB Release No. 2003-026, *Technical Amendments to Interim Standards Rules*, amends Rule 3200T. See Release No. 2003-026 for language of the amendment.]

#### **RULE 3300T. Interim Attestation Standards.**

In connection with an engagement (i) described in the AICPA's Auditing Standards Board's Statement on Standards for Attestation Engagements No. 10 (Codification of Statements on Auditing Standards, AT § 101.01 (AICPA 2002)) and (ii) related to the preparation or issuance of audit reports for issuers, a registered public accounting firm, and its associated persons, shall comply with the AICPA Auditing Standards Board's Statements on Standards for Attestation Engagements, and related interpretations and Statements of Position, as in existence on April 16, 2003.

Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Attestation Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[PCAOB Release No. 2003-026, *Technical Amendments to Interim Standards Rules*, amends Rule 3300T. See Release No. 2003-026 for language of the amendment.]

**RULE 3400T. Interim Quality Control Standards.**

A registered public accounting firm, and its associated persons, shall comply with quality control standards, as described in—

- (a) the AICPA's Auditing Standards Board's Statements on Quality Control Standards, as in existence on April 16, 2003 (AICPA Professional Standards, QC §§ 20–40 (AICPA 2002)); and
- (b) the AICPA SEC Practice Section's Requirements of Membership (d), (f)(first sentence), (l), (m), (n)(1) and (o), as in existence on April 16, 2003 (AICPA SEC Practice Section Manual – 1000.08(d), (f), (j), (m), (n)(1) and (o)).

Note: The second sentence of requirement (f) of the AICPA SEC Practice Section's Requirements of Membership provided for the AICPA's peer review committee to "authorize alternative procedures" when the requirement for a concurring review could not be met because of the size of the firm. This provision is not adopted as part of the Board's Interim Quality Control Standards. After the effective date of the Interim Quality Control Standards, requests for authorization of alternative procedures to a concurring review may, however, be directed to the Board.

Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Quality Control Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[PCAOB Release No. 2003-026, *Technical Amendments to Interim Standards Rules*, amends Rule 3400T. See Release No. 2003-026 for language of the amendment.]

**RULE 3500T. Interim Ethics Standards.**

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with ethics standards, as described in the AICPA's Code of Professional Conduct Rule 102, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 102 and 191 (AICPA 2002)).

Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Ethics Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[PCAOB Release No. 2003-026, *Technical Amendments to Interim Standards Rules*, amends Rule 3500T. See Release No. 2003-026 for language of the amendment.]

**RULE 3600T. Interim Independence Standards.**

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with independence standards—

- (1) as described in the AICPA's Code of Professional Conduct Rule 101, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 101 and 191 (AICPA 2002)); and
- (2) Standards Nos. 1, 2, and 3, and Interpretations 99-1, 00-1, and 00-2, of the Independence Standards Board.

Note: The Board's Interim Independence Standards do not supersede the Commission's auditor independence rules. See Rule 2-01 of Reg. S-X, 17 C.F.R. 240.2-01. Therefore, to the extent that a provision of the Commission's rule is more restrictive—or less restrictive—than the Board's Interim Independence Standards, a registered public accounting firm must comply with the more restrictive rule.

Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Independence Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[PCAOB Release No. 2003-026, *Technical Amendments to Interim Standards Rules*, amends Rule 3600T. See Release No. 2003-026 for language of the amendment.]

## Appendix 2

### Section-by-Section Analysis of Rules Relating to Interim Professional Auditing Standards

The rules relating to interim professional auditing standards consist of PCAOB Rules 3200T, 3300T, 3400T, 3500T and 3600T. Each of the rules is discussed below.

#### Rule 3200T—Interim Auditing Standards

Rule 3200T provides that, in connection with the preparation or issuance of any audit report on the financial statements of an issuer, a registered public accounting firm shall comply with generally accepted auditing standards as described in the American Institute of Certified Public Accountants' ("AICPA") Auditing Standards Board's ("ASB") Statement on Auditing Standards ("SAS") No. 95, as in existence on April 16, 2003. SAS No. 95 describes the relative authority of various sources of generally accepted auditing standards. Specifically, SAS No. 95 describes the ten general, field work and reporting standards approved by the membership of the AICPA, and amended by the ASB, and the Statements on Auditing Standards approved by the ASB, as standards with which an auditor is required to comply.<sup>1</sup> As of April 16, 2003, 101 SASs had been issued by the ASB.

Statement of Auditing Standards No. 95 also provides that an "auditor should be aware of and consider" certain interpretive publications, such as the ASB's Interpretations of the SASs, auditing guidance included in AICPA Audit and Accounting Guides, and AICPA auditing Statements of Position. While these interpretive publications have not been accorded the same authority as the ten GAAS or the SASs, SAS No. 95 requires that, if an auditor does not comply with the guidance in these publications, "the auditor should be prepared to explain how he or she complied with the SAS provisions addressed by such auditing guidance." Finally, SAS No. 95 also recognizes that other auditing publications "may help the auditor understand and apply the SASs." The Board's Rule 3200T provisionally adopts this framework.

As the Note to Rule 3200T clarifies, under Section 102(a) of the Act, public accounting firms that want to continue to audit issuers are not required to be registered with the Board until 180 days after the date of the determination of the Commission under section 101(d) that the Board has the capacity to carry out the requirements of Title I of the Act (the "mandatory registration date"). The Board intends that, during the period preceding the mandatory registration date, the Interim Auditing Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

#### Rule 3300T—Interim Attestation Standards

Rule 3300T governs the conduct of engagements that (i) are described in the ASB's Statement on Standards for Attestation Engagements No. 10 (Codification of Statements on Auditing Standards, AT § 101.01), and (ii) relate

---

<sup>1</sup> SAS No. 95, Codification of Statements on Auditing Standards, AU §§ 150.02-150.03. Statement of Auditing Standards No. 95 also provides that "[t]he auditor should be prepared to justify departures from the SASs."

to the preparation or issuance of audit reports for issuers. Registered public accounting firms involved in such engagements are required to comply with the ASB's Statements on Standards for Attestation Engagements, and related interpretations and AICPA Statements of Position, as in existence on April 16, 2003.

As the Note to Rule 3300T clarifies, the Board intends that, during the period preceding the mandatory registration date, the Interim Attestation Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

## Rule 3400T—Interim Quality Control Standards

Rule 3400T sets forth minimum quality control standards with which registered public accounting firms must comply, in order to ensure that registered public accounting firms, and their personnel, comply with applicable accounting and auditing (and other professional) standards. Through Rule 3400T, the Board has provisionally designated the Statements on Quality Control Standards proposed and issued by the ASB and certain AICPA SEC Practice Section ("SECPS") membership requirements, as they existed, and as they applied to SEC Practice Section members, on April 16, 2003, as the Board's Interim Quality Control Standards. Because the Board intends the Interim Quality Control Standards to preserve existing standards as they applied on April 16, consistent with Section 103(a)(3) of the Act, those Interim Quality Control Standards adapted from the AICPA SEC Practice Section requirements apply only to those firms that are members of the AICPA SEC Practice Section.<sup>2</sup>

The ASB's Statements on Quality Control Standards are published in the AICPA's Professional Standards, at QC Sections 20–40. The provisions of the AICPA's SECPS membership requirements that have been incorporated into the Board's Interim Quality Control Standards are Membership Requirements (d), (f) (first sentence), (l), (m), (n)(1) and (o), and referenced appendices, which are published in the AICPA's SEC Practice Section Reference Manual §1000.08. The SECPS membership requirements that are incorporated into the Board's Interim Quality Control Standards provide as follows:

- Requirement (d) requires registered public accounting firms to "ensure that all professionals in the firm residing in the United States, including CPAs and non-CPAs, participate in at least 20 hours of qualifying continuing professional education (CPE) every year and at least 120 hours every three years. . . . [P]rofessionals who devote at least 25% of their time to performing audit, review or other attest engagements (excluding compilations), or who have the partner/manager-level responsibility for the overall supervision or review of any such engagements, must obtain at least 40% (eight hours in any one year and 48 hours every three years) of their required CPE in subjects relating to accounting and auditing."
- Requirement (f) requires registered public accounting firms to "establish policies and procedures that meet the requirements set forth in the SECPS Reference Manual, for a concurring review of the audit report and the financial statements by a partner other

---

<sup>2</sup> In the future the Board may, by rulemaking and pursuant to its standards-setting procedures, extend the AICPA SEC Practice Section requirements to other registered public accounting firms.

than the audit partner-in-charge of an SEC engagement before issuance of an audit report on the financial statements of an SEC engagement and before the re-issuance of such an audit report where the performance of subsequent events procedures is required by professional standards." After the effective date of the Interim Quality Control Standards, requests for authorization of alternative procedures to a concurring review may be sought from the Board. Any such request should be directed to the attention of the Director of Registration and Inspection, 1666 K Street, N.W., Washington, D.C. 20006-2803.

- Requirement (l) requires registered public accounting firms to "communicate through a written statement to all professional firm personnel the broad principles that influence the firm's quality control and operating policies and procedures on, as a minimum, matters related to the recommendation and approval of accounting principles, present and potential client relationships, and the types of services provided, and inform professional firm personnel periodically that compliance with those principles is mandatory."
- Requirement (m) requires a registered public accounting firm that has been the auditor of an SEC registrant and has resigned, declined to stand for reelection, or been dismissed, to report the fact that the "relationship has ceased directly in writing to the former SEC client, with a simultaneous copy to the Office of the Chief Accountant of the Securities and Exchange Commission" by the end of the fifth business day following the firm's determination that the relationship has ended, irrespective of whether or not the SEC registrant has reported the change in a timely-filed Form 8-K.
- Requirement (n)(1) requires registered public accounting firms that are "members of, correspondents with, or similarly associated with international firms or international associations of firms," to "seek adoption of policies and procedures by the international organization or individual foreign associated firms that are consistent with the objectives set forth in Appendix K, SECPS § 1000.45."
- Requirement (o) requires registered public accounting firms to ensure that they have "policies and procedures in place to comply" with applicable independence requirements. This requirement further specifically requires firms to establish independence policies covering relationships between the firm, its benefit plans, and its professionals, and restricted entities.

As the Note to Rule 3400T clarifies, the Board intends that, during the period preceding the mandatory registration date, the Interim Quality Control Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

## **Rule 3500T—Interim Ethics Standards**

Rule 3500T sets forth ethics standards for registered public accounting firms and their personnel. Through Rule 3500T, the Board has provisionally designated Rule 101 of the AICPA's Code of Professional Conduct, and interpretations and rulings thereunder, as they existed on April 16, 2003, as the Board's

Interim Ethics Standards. Rule 101, and the AICPA's interpretations and rulings thereunder, are published in AICPA Professional Standards, ET §§ 102 and 191 (AICPA 2002).

As the Note to Rule 3500T clarifies, the Board intends that, during the period preceding the mandatory registration date, the Interim Ethics Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

### **Rule 3600T—Interim Independence Standards**

Rule 3600T sets forth independence standards for registered public accounting firms and their personnel. Through Rule 3600T, the Board has provisionally designated Rule 101 of the AICPA's Code of Professional Conduct, and interpretations and rulings thereunder, as they existed on April 16, 2003, and Standards Nos. 1, 2 and 3, and interpretations 99-1, 00-1, and 00-2 of the Independence Standards Board ("ISB"), as the Board's Interim Independence Standards. Rule 101, and the AICPA's interpretations and rulings thereunder, are published in the AICPA's Professional Standards, at ET Sections 102 and 191. The ISB Standards and interpretations, which are made effective by the SEC's Policy Statement on the Establishment and Improvement of Standards Related to Auditor Independence (FR No. 50A, July 17, 2001), are currently available at [www.cpaindependence.org](http://www.cpaindependence.org).

The Board's Interim Independence Standards shall not be interpreted to supersede the Commission's independence requirements. Therefore, to the extent that a provision of the Commission's rule or policy is more restrictive—or less restrictive—than the Board's Interim Independence Standards, a registered public accounting firm shall comply with the more restrictive requirement.

As the Note to Rule 3600T clarifies, the Board intends that, during the period preceding the mandatory registration date, the Interim Independence Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

---

**PCAOB Release No. 2003-009*****Compliance With Auditing and Related Professional Practice Standards—Advisory Groups***

PCAOB Release No. 2003–009

June 30, 2003

PCAOB Rulemaking  
Docket Matter No. 004**Summary:**

After public comment, the Public Company Accounting Oversight Board ("Board" or "PCAOB") has adopted a Rule relating to compliance with the Board's auditing and related professional practice standards and a Rule relating to the formation of advisory groups. Specifically, the Board has adopted Rule 3100, and a related definition that would appear in Rule 1001, and Rule 3700. Rule 3100 generally requires all registered public accounting firms to adhere to the Board's auditing and related professional practice standards in connection with the preparation or issuance of any audit report for an issuer (as defined in the Sarbanes-Oxley Act of 2002 (the "Act")) and in their auditing and related attestation practices. Rule 3700 governs the formation, composition and role of one or more advisory groups to assist the Board in formulating new auditing and related professional practice standards for registered public accounting firms. The Board will submit these Rules to the Securities and Exchange Commission ("Commission" or "SEC") for its approval pursuant to Section 107 of the Act. These Rules will not take effect unless approved by the Commission pursuant to Section 107 of the Act. This Release also provides additional guidance regarding the number, size and composition of advisory groups and addresses certain qualifications that the Board may consider in selecting advisory group members and the terms and conditions of membership. Further, it provides guidance about the advisory group meetings, agendas, role of members and procedures that the Board believes is important to the functioning of advisory groups.

**Public Comment:**

The Board released for public comment proposed Rules on the establishment of auditing and other professional standards on April 18, 2003. The Board received 22 letters of comment.

**Board Contacts:**

Gordon Seymour, Acting General Counsel (202/207-9034; seymourg@pcaobus.org), Thomas Ray, Deputy Chief Auditor (202/207-9112; rayt@pcaobus.org), or Mary M. Sjoquist, Special Counsel to Board Member Gradison (202/207-9084; sjoquistm@pcaobus.org).

\*\*\*\*\*

Section 103(a)(1) of the Act directs the Board to establish auditing and related attestation standards, quality control standards, and ethics standards to be used by registered public accounting firms in the preparation and issuance of audit reports, as required by the Act or the rules of the Commission, or as may be necessary or appropriate in the public interest or for the protection of investors. Similarly, Section 103(b) authorizes the Board to establish such rules as may be necessary or appropriate to implement the auditor independence requirements in, or as authorized under, Title II of the Act. While Section 103(a)(4) directs the Board to convene such expert advisory groups as may be appropriate to aid in standards-setting, it nevertheless affords the Board considerable discretion in determining the procedures by which it will develop and adopt auditing and related professional practice standards.<sup>1</sup>

This Release announces the adoption of Rule 3100 (and a related definition) and Rule 3700. Rule 3100 requires all registered public accounting firms to adhere to the Board's auditing (and related attestation), quality control, and ethics standards, and its independence standards. Rule 3700 addresses the formation, composition, and other basic matters concerning advisory groups, which may be convened to aid in the Board's standards-setting process. In addition, as set forth in more detail below, the Board has determined to convene, at this time, one standing advisory group (the "SAG") to assist it in performing its standards-setting responsibilities.

Section A of this Release discusses the adoption of Rule 3100. Section B discusses the adoption of Rule 3700, and the establishment of the SAG and ad hoc task forces. The text of Rule 3100 (and a related definition) and Rule 3700 and a detailed discussion of the Rules are provided in Appendices 1 and 2 hereto, respectively.

The Board has reviewed all of the public comments received on the Rules as proposed in Release No. 2003-005. In response to these comments, Rule 3100 (and a related definition) and Rule 3700, as finalized, both clarify and modify certain aspects of the proposed Rules. Most importantly, the revisions to the original proposal are as follows—

- Instead of using the term Professional Auditing Standards as originally proposed, the defined term in Rule 1001 has been changed to Auditing and Related Professional Practice Standards;
- Rule 3700(c), Selection of Members of Advisory Groups, has been revised to clarify that the Board will accept nominations to the SAG, including self-nominations, from any person or organization rather than including a nonexclusive list of specific groups; and
- Rule 3700(e), Ethical Duties of Advisory Group Members, has been revised to make EC10 of the Board's Ethics Code applicable to members of the SAG with respect to any private publication or public statement about the Board or any advisory group or any of the activities of the Board or any advisory group.<sup>2</sup>

---

<sup>1</sup> The auditing and related attestation standards, quality control standards, and ethics standards over which the Board has authority under Section 103(a) of the Act, and the independence rules the Board is authorized to adopt under Section 103(b), are collectively referred to in this Release as "auditing and related professional practice standards." This term is defined in Rule 1001(a)(viii). The Board's proposed Rules and Release used the term "professional auditing standards." As discussed in more detail in Appendix 2 to this Release, because a number of commenters found this term confusing, the Board has decided to use the term "auditing and related professional practice standards" (hereinafter, "Standards").

<sup>2</sup> See PCAOB Release No. 2003-008 (June 30, 2003) which includes the entire text of the Board's Ethics Code.

A more detailed analysis of the Board's response to the comments on the proposed Rules is included in Appendix 2. The Board's Rules will be submitted to the Commission for approval. Pursuant to Section 107 of the Act, Board Rules do not take effect unless approved by the Commission.

## A. Compliance With the Board's Auditing and Related Professional Standards

Section 103(a) of the Act directs the Board, by rule, to establish auditing and related attestation standards, quality control standards, and ethics standards "to be used by registered public accounting firms in the preparation and issuance of audit reports, as required by [the] Act or the rules of the Commission, or as may be necessary or appropriate in the public interest or for the protection of investors." Section 103(b) of the Act also directs the Board to establish independence standards to implement, or as authorized under, Title II of the Act.<sup>3</sup>

As a corollary to the Board's exclusive, statutory authority to establish and amend Standards, all public accounting firms that are registered with the Board must comply with the Board's Standards. While this requirement is implicit in the Act, the Board has codified the obligation of registered firms to comply with the Board's Standards in Rule 3100. Any registered public accounting firm or person associated with such a firm that fails to adhere to applicable Board Standards may be the subject of a Board disciplinary proceeding in accordance with Section 105 of the Act.<sup>4</sup> In general, the Board's Standards will apply to registered public accounting firms and their associated persons in connection with their audits of (and related attestations concerning) the financial statements of issuers, as defined in Section 2(a)(7) of the Act, and those firms' auditing and related attestation practices. A number of commenters suggested that this Rule was either beyond the Board's authority or would create the impression that it applied to areas outside the Board's authority. To address these concerns, commenters suggested adding language about the scope of the Board's authority to Rule 3100. After considering these comments, the Board has decided to adopt the Rule as proposed.

The Board recognizes its responsibility to oversee the audits of issuers, as that term is defined in the Act, and does not intend to suggest that registered public accounting firms and their associated persons must comply with the Board's Standards in auditing non-issuers. Rule 3100, however, requires registered public accounting firms and their associated persons to comply with all *applicable* Standards. Accordingly, if the Board's Standards do not apply to an engagement or other activity of the firm, Rule 3100, by its own terms, does not apply to that engagement or activity.

---

<sup>3</sup> See also Report of the Committee on Banking, Housing, and Urban Affairs, U.S. Senate, on S. 2673, S. Rep. No. 107-205 (July 26, 2002) ("The Committee has concluded that the Board's plenary authority in this area is essential for the Board's effective operation, a position taken during the hearings by a number of witnesses..."). Board Rules adopting or modifying auditing and related professional practice standards require approval by the Commission. In addition, the Board recognizes that the Commission may also establish professional standards applicable to accountants that practice before it and audit reports filed with it and that the Commission has the authority to institute proceedings to amend the Board's Rules, including those that establish auditing and related professional practice standards. See Sections 2(a)(10), 3(c)(2), and 107(b)(5) of the Act.

<sup>4</sup> In addition, the Act provides that any violation of the Board's Rules is to be treated for all purposes in the same manner as a violation of the Securities Exchange Act of 1934, 15 U.S.C. 78a et seq., or the rules and regulations issued thereunder, and any person violating the Board's Rules "shall be subject to the same penalties, and to the same extent, as for a violation of [the Exchange] Act or such rules or regulations." Section 3(b)(1) of the Act.

Authorities other than the Board may nevertheless require that accounting firms or individual auditors comply with the Board's Standards in the conduct of audits of (or attestations concerning) the financial statements of non-issuers.<sup>5</sup> In that event, those authorities may enforce the Board's Standards pursuant to their own processes.

## B. Establishment of Advisory Groups and Ad Hoc Task Forces

While the Board will, by rule, establish Standards, it recognizes that the development of such Standards should be an open, public process in which investors, the accounting profession, the preparers of financial statements, and others will have the opportunity to participate. To this end, as discussed in PCAOB Release No. 2003-005 (April 18, 2003), the Board intends to provide for a public comment process on proposed standards.<sup>6</sup> The Board's staff will, of course, be actively involved in the standards-setting process, but the Board also encourages proposals and recommendations on its standards-setting agenda and standards development projects from the public. Moreover, in order to obtain the advice of a broad range of experts, the Board has determined to form an advisory group, the SAG, which may be divided into sub-groups by the Board if the need for specialized advice arises. Finally, the Board may also establish one or more ad hoc task forces to assist the staff with the drafting of technical language, among other things.

### 1. Authority

Section 103(a)(4) of the Act provides that the Board shall "convene, or authorize its staff to convene, such expert advisory groups as may be appropriate... to make recommendations concerning the content (including proposed drafts) of auditing, quality control, ethics, independence, or other standards required to be established under this section." The Board has decided initially that it is likely to exercise this authority by convening the SAG to participate in the standards-setting process. Rule 3700 addresses the formation, composition, and other basic matters concerning advisory groups, including the SAG.

### 2. Role, Size and Composition

The role of the SAG will be to assist the Board in *reviewing* existing Standards, in *evaluating* proposed Standards recommended by Board staff, Board-formed technical task forces or others and *recommending* to the Board new or amended Standards. The role of the SAG will not ordinarily include technical drafting (which will be performed by the Board's staff, with the assistance of ad hoc task forces, when necessary). Instead, the Board will look to the SAG to provide advice and insight as to the need to formulate new Standards or change existing Standards and opinions on the impact of proposed new or changed Standards.

---

<sup>5</sup> Cf. Section 209 of the Act (stating that "[i]n supervising nonregistered public accounting firms and their associated persons, appropriate State regulatory authorities should make an independent determination of the proper standards applicable...").

<sup>6</sup> In response to PCAOB Release No. 2003-005, the Board received several comments relating to the process by which the Board will establish standards. While this release is intended to address only the adoption of Rules 3100 and 3700, the Board will nevertheless take these comments into consideration in its standards-setting work.

The Board contemplates that the SAG initially will have approximately 25 members. As noted above, the Board may, based on the circumstances of particular projects, prior to or after the formation of the SAG, form ad hoc task forces of specially qualified persons selected by the Board to assist it with specific projects. Members of any appointed ad hoc task force may or may not be members of the SAG.

The SAG will be composed of individuals with a variety of backgrounds, including practicing auditors, preparers of financial statements, investors (both individual and institutional), and others.<sup>7</sup> In order to achieve this diversity, the Board expects that no one field of expertise will predominate among the SAG membership. Although SAG members may be employed or otherwise affiliated with particular organizations, the Board expects SAG members to serve in their individual capacities and not to serve as representatives of particular interests, groups or employers.

### 3. Nominations of SAG Members

In determining appointments to the SAG, the Board intends to solicit nominations, including self-nominations. Interested parties will have 45 days from the date of the Board's Notice ("Notice") to the public to submit nominations on a form which will be provided in the Notice. Interested parties who have submitted nominations prior to the publication of the Notice, will be sent nomination forms for completion at the time of publication of the Notice.

### 4. Qualifications

In evaluating nominations for the SAG, the Board will seek individuals with an interest in the quality of the audits of public companies. The Board may also consider certain factors in determining SAG appointments including but not limited to the following—

- a. SAG members will be individuals of integrity, with an understanding of the responsibilities for and the nature of financial disclosure required under the securities laws and the obligations of accountants with respect to the preparation of and issuance of audit reports with respect to such disclosures; and
- b. SAG members will have a working knowledge of one or more of the following subjects and a general understanding of the remaining subjects—
  - generally accepted auditing standards (as developed by previous auditing standards setting bodies and adopted by the Board as Standards and, in the future, as set from time to time by the Board);
  - generally accepted accounting principles;
  - the creation, audit or analysis of public financial statements;
  - public company corporate governance; and
  - other fields that the Board deems to be relevant.

---

<sup>7</sup> The Board also anticipates appointing individuals from academia and state accounting regulators, among others, to the SAG.

## 5. Term

Unless the appointment is revoked for cause, as determined by the Board, or unless the SAG member voluntarily resigns from the SAG, membership on the SAG will be for a term of two years; provided, however, that approximately 50 percent of the initial members will be appointed for a three-year term to assure continuity. Members will not be limited in the number of terms that they may serve.

## 6. Conditions of Membership

Rule 3700(d) specifically states that members of the SAG will serve in their individual capacities and therefore may not delegate their duties, including attendance at meetings, as SAG members. In addition, each appointee to the SAG shall agree in writing to the following "conditions of membership" in order to avoid potential conflicts of interest and to assure that the Board's standards-setting agenda is met—

- a. to serve on a voluntary basis without compensation from the Board;<sup>8</sup>
- b. to seek constructive resolutions to issues raised by the Board for the SAG;
- c. to act in the public interest in his or her individual capacity and not as a representative of any constituency;
- d. to attend at least 75 percent of all SAG meetings;<sup>9</sup>
- e. to agree to spend, at an expected minimum, between 50 and 100 hours per year on SAG matters or such reasonably greater amount of time as may be necessary to achieve the goals of the SAG and the Board;<sup>10</sup>
- f. to refrain from using his or her position on the SAG to influence Board members or Board staff on matters directly affecting that SAG member or his or her employer, business partners or clients;<sup>11</sup>
- g. to recuse himself or herself, or otherwise withdraw from, consideration of any matter before the SAG or the Board directly affecting such SAG member, his or her employer, business partners or clients. If recusal or withdrawal is not practical in either such member's or the Board's opinion, such SAG member shall resign from the SAG;<sup>12</sup>

---

<sup>8</sup> SAG members shall be entitled to reimbursement for documented reasonable travel expenses relating to participation in official SAG meetings or other SAG activities.

<sup>9</sup> Attendance may be in person or by telephone or teleconference. SAG members who fail to participate in the minimum number of meetings shall be subject to removal by the Board unless excused from attendance by the Chair of the SAG for good reason.

<sup>10</sup> During the first year of the SAG, members may expect to spend more than the minimum number of hours on SAG matters.

<sup>11</sup> SAG members are not precluded from appearing or practicing before the Board regarding matters generally affecting all issuers or registered public accounting firms, including, indirectly, the member, his or her employer, business partners or clients. Accordingly, a SAG member who is employed by a registered public accounting firm would be permitted to be involved in preparing a comment on a Board rule proposal that generally affects all issuers or registered public accounting firms.

<sup>12</sup> Matters generally affecting issuers or registered public accounting firms, even though affecting the SAG member, his or her employer, business partners or clients, shall not require the member to

*(continued)*

- h.* to be bound by EC3, EC8(a), EC9, and, with respect to any private publication or public statement regarding the Board or the SAG or any of the activities of the Board or the SAG, EC10 of the Board's Ethics code;<sup>13</sup>
- i.* to annually certify his or her continuing compliance with "the conditions of membership;" and
- j.* to agree to any such other provisions that the Board may deem necessary to avoid even the appearance of a conflict of interest.

## 7. Meetings and Board Relations

The Board has determined that the first Chair of the SAG will be the Board's Chief Auditor and Director of Professional Standards who will be a non-voting member of the SAG. The Board will approve the agenda for all annual, semi-annual or quarterly SAG meetings as set forth below. Agenda items may also be added where the Board determines that the assistance of the SAG is required in response to emerging issues or problems. The Chair will be responsible for preparing the meeting agenda, organizing and overseeing meetings, conference calls and related activities, acting as the general liaison to the Board and finalizing all submissions to the Board based on the SAG recommendations.

The SAG will hold an annual meeting to discuss the agenda presented to the SAG on the annual standards-setting process and related matters. The SAG will also hold a semi-annual meeting. Both the annual and the semi-annual meetings will be open to the public. Meetings of the SAG may also be held, at the direction of the Board or the Chair, during the intervening quarters. In addition, at the direction of the Chair, monthly meetings of the SAG may be held, by video or teleconference, for the Board's staff to report on new issues raised by the Board for the SAG's consideration and to discuss the status of pending issues. Final decisions on recommendations to the Board and related activities will be conducted at the annual, semi-annual, or other open meeting of the SAG.<sup>14</sup> The meetings held in the quarters between the annual and semi-annual meeting, if any, and the monthly meetings will not generally be open to the public.

If so directed by the Chair of the SAG, the SAG may convene hearings, roundtable discussions or other fact-finding activities designed to assist the SAG in the development of recommendations on new or amended Standards or other recommendations to the Board.

Decisions on whether a recommendation should be made to the Board will be by a majority of the SAG members present in person or by video or teleconference. Recommendations from the SAG will be presented to the Board at an

---

*(footnote continued)*

recuse or withdraw him or herself from consideration of the matter or to resign from SAG. The Board expects that most standards-setting projects will affect issuers (or categories of issuers) and registered public accounting firms and their associated persons in a generally similar manner; however, if a standard would have a unique or disproportionate effect on a particular issuer or firm, a SAG member employed by that issuer or firm would be required under Rule 3700 to recuse himself or herself.

<sup>13</sup> In PCAOB Release No. 2003-008 (June 30, 2003), the Board clarified that for purposes of applying EC8(a) to SAG members, the SAG members shall not be considered to lack independence or objectivity with regard to SAG matters merely because they (or their employer, business partners or clients) are subject to the direct or indirect oversight of the Board.

<sup>14</sup> The Board expects the SAG to make decisions in an efficient and speedy manner. To this end, the SAG need not defer decisions on recommendations for the annual or semi-annual open meetings. Rather, at the direction of the Chair, the SAG may make decisions on recommendations at any meeting, so long as it is open to the public in some manner, including, at the direction of the Chair, telephonically.

open meeting of the Board. Such recommendations will be provided in writing, including dissenting opinions, if any, by SAG members. The Board retains the exclusive authority to adopt, modify, or reject any SAG recommendation, in its sole discretion, in order to protect investors by improving the fairness and reliability of corporate disclosures as set forth in the Act.

\* \* \* \* \*

On the 30th day of June, in the year 2003, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

/s/ J. Gordon Seymour

J. Gordon Seymour

Acting Secretary

June 30, 2003

**APPENDICES—**

1. Rules Relating to Auditing and Related Professional Practice Standards and Advisory Groups
2. Section-by-Section Analysis of Rules Relating to Auditing and Related Professional Practice Standards and Advisory Groups

## Appendix 1

# Rules Relating to Auditing and Related Professional Practice Standards and Advisory Groups

### RULES OF THE BOARD

#### SECTION 1. GENERAL PROVISIONS

#### **Rule 1001. Definitions of Terms Employed in Rules.**

When used in the Rules, unless the context otherwise requires:

**(a)(viii) Auditing and Related Professional Practice Standards.**

The term "auditing and related professional practice standards" means the auditing standards, related attestation standards, quality control standards, ethical standards, and independence standards (including any rules implementing Title II of the Act), and any other professional standards, that are established or adopted by the Board under Section 103 of the Act.

#### SECTION 7. PROFESSIONAL STANDARDS

##### Part 1—General Requirements

#### **Rule 3100. Compliance With Auditing and Related Professional Practice Standards.**

A registered public accounting firm and its associated persons shall comply with all applicable auditing and related professional practice standards.

##### Part 7—Establishment of Professional Standards

#### **Rule 3700. Advisory Groups.**

***a. Formation.***

To assist it in carrying out its responsibility to establish auditing and related professional practice standards, the Board will convene one or more advisory groups, in accordance with Section 103(a)(4) of the Act.

***b. Composition.***

Advisory groups, in combination or as sub-groups designated by the Board within one advisory group, will contain individuals with expertise in one or more of the following areas—

1. accounting;
2. auditing;
3. corporate finance;
4. corporate governance;
5. investing in public companies; and
6. other areas that the Board deems to be relevant to one or more auditing or related professional practice standards.

***c. Selection of Members of Advisory Groups.***

Members of advisory groups will be selected by the Board, in its sole discretion, based upon nominations, including self-nominations, received from any person or organization.

Note: The Board will announce, from time to time, periods during which it will receive nominations to an advisory group. During those periods, nominations may be submitted by any person or organization, including, but not limited to, any investor, any accounting firm, any issuer, and any institution of higher learning.

***d. Personal Membership.***

Membership in an advisory group will be personal to the individuals selected to serve on the advisory group. A member's functions and responsibilities, including attendance at meetings, may not be delegated to others.

***e. Ethical Duties of Advisory Group Members.***

Members of an advisory group shall comply with EC3, EC8(a), EC9, and, with respect to any private publication or public statement about the Board or any advisory group or any of the activities of the Board or any advisory group, EC10 of the Board's Ethics Code.

***f. Ad Hoc Task Forces.***

The Board may, in its discretion, establish ad hoc task forces. The membership of such task forces may include, but is not limited to, advisory group members. To the extent not otherwise required, members of ad hoc task forces shall comply with paragraph (e) of this Rule.

## Appendix 2

### Section-by-Section Analysis of Rules Relating to Auditing and Related Professional Practice Standards and Advisory Groups

#### Rules Relating to Auditing and Related Professional Practice Standards

The Rules relating to auditing and related professional practice standards consist of Rule 3100, plus a new definition that appears in Rule 1001. Each of the Rules, and the new definition, is discussed below.

##### ***Rule 1001—Definitions of Terms Employed in Rules.***

Rule 1001 contains definitions of terms used in the Board's Rules.

##### *Auditing and related professional practice standards*

Rule 1001(a)(viii) defines "auditing and related professional practice standards" as the auditing standards, related attestation standards, quality control standards, ethical standards, and independence standards (including any rules implementing Title II of the Act), and any other professional standards, that are established or adopted by the Board under Section 103 of the Act.

The Board had proposed to use "professional auditing standards" as the term defined in this provision. Several commenters expressed concern that characterizing attestation, quality control, ethical, and independence standards as "professional auditing standards" would confuse people as to the defined term's meaning. To address these concerns, the Board has chosen to use the term "auditing and related professional practice standards" as the defined term for the standards established or adopted by the Board under Section 103 of the Act. The Board has used the longer term "auditing and related professional practice standards," rather than the shorter "professional standards," because the term "professional standards" is defined otherwise in Section 2(a)(10) of the Act. The term "auditing and related professional practice standards" is similar to that portion of the definition of the term "professional standards" that appears in Section 2(a)(10)(B) of the Act. (Hereinafter in this Section-by-Section Analysis, auditing and related professional practice standards shall be referred to as "Standards.")

In addition, the Board's proposed definition was based on a portion of the definition of "professional standards" in Section 2(a)(10)(B) of the Act. For purposes of clarity, the Board has modified this definition slightly to track more closely the description of the standards the Board will set in Section 103(a)(1) of the Act. The definition still includes any other type of standard provided for in the definition of "professional standards" in Section 2(a)(10)(B) of the Act that the Board establishes or adopts under Section 103 of the Act. Accordingly, the definition, as revised, covers the same scope of standards as the Board's proposed rule.

**Rule 3100—Auditing and Related Professional Practice Standards  
Applicable to Registered Public Accounting Firms.**

Rule 3100 provides that a registered public accounting firm and its associated persons must comply with all applicable Standards.<sup>1</sup> This Rule is intended to codify the obligation of registered public accounting firms and their associated persons to comply with applicable Standards and to ensure that the Board's Standards are enforceable.

A number of commenters suggested that this Rule was either beyond the Board's authority or would create the impression that the Rule applied to areas outside the Board's authority. To address these concerns, commenters suggested adding language about the scope of the Board's authority to Rule 3100. After considering these comments, the Board has decided to adopt the Rule as proposed.

The Board recognizes its responsibility to oversee the audits of issuers, as that term is defined in the Act, and does not intend to suggest that registered public accounting firms and their associated persons must comply with the Board's Standards in auditing non-issuers. Rule 3100, however, requires registered public accounting firms and their associated persons to comply with all *applicable* Standards. Accordingly, if the Board's Standards do not apply to an engagement or other activity of the firm, Rule 3100, by its own terms, does not apply to that engagement or activity.<sup>2</sup>

Finally, one commenter suggested that Rule 3100 also require registered public accounting firms and their associated person to be duly licensed, registered or permitted or otherwise to hold valid practice privileges and be in good standing under the laws of each applicable state. Registration with the Board does not supersede state registration or licensing requirements and the Board expects registered public accounting firms and their associated persons to comply with state and other applicable legal requirements. Rule 3100, however, is merely intended to codify the obligation of registered public accounting firms and their associated persons to comply with Board Standards and to ensure that the Board's Standards are enforceable. Accordingly, the Board has decided not to amend the Rule as proposed to reflect this suggestion.

---

<sup>1</sup> The Board's proposed rule included a note to clarify that proposed Rule 3100 was intended to apply to those public accounting firms that will be required to register with the Board immediately after the applicable date in order to continue to participate in the audits of issuers after such date. For U.S. public accounting firms the applicable date is October 22, 2003. Because of the approaching registration deadline, and because the Board's Interim Auditing Standards, as approved by the SEC, currently require these public accounting firms to comply with them, the Board has deleted the note as unnecessary.

<sup>2</sup> For example, the Board's Interim Auditing Standards provide that, "[i]n connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with generally accepted auditing standards, as described in the AICPA Auditing Standards Board's Statement of Auditing Standards No. 95, as in existence on April 16, 2003 (Codification of Statements on Auditing Standards, AU § 150 (AICPA 2002))." See Rule 3200T. The term "audit report" is defined in the Act and the Board's Rules to mean the audit of an issuer. See Rule 1001(a)(vi), adopted by the Board in PCAOB Release. No. 2003-007. Moreover, the Board notes that it would not be a correct description of its authority to say, as one commenter suggested Rule 3100 provide, that "A registered public accounting firm and its associated persons shall comply with all applicable professional auditing standards *in performing an audit of an issuer.*" Particularly with respect to the quality control standards the Board is authorized to establish, the Board may adopt standards that, while related to registered public accounting firms' audit practices, must be complied with other than in the course of performing an audit. Cf. Section 103(a)(2)(B) of the Act (requiring the Board to include, among the "quality control standards that it adopts with respect to the issuance of audit reports, requirements... relating to...hiring, professional development, and advancement of personnel").

## Rules Relating to Advisory Groups

### ***Rule 3700—Advisory Groups.***

Rule 3700 addresses certain basic matters concerning the formation and use of advisory groups in the Board's standards-setting process.<sup>3</sup> The Rule provides that the Board will convene one or more advisory groups, as contemplated in Section 103(a)(4) of the Act. Any advisory group will consist of individuals with expertise in certain, specified areas relevant to the Board's standards-setting responsibilities. Members of an advisory group will be selected by the Board. In addition, the Rule provides for the Board to establish ad hoc task forces.<sup>4</sup> While such task forces may include advisory group members, a task force may consist totally or partially of non-advisory group members who are persons with specialized experience in the standard-setting project under study. To the extent persons who serve on such task forces are not advisory group members or professional staff of the Board, they must comply with the ethics provisions applicable to advisory group members under Rule 3700(e).

The Rule further provides that membership on an advisory group will be personal to the individuals selected and that the functions of an advisory group member, including attendance at meetings, may not be delegated to others. This provision is based on a comparable provision in the Financial Accounting Standards Board's Rules governing the members of the Financial Accounting Standards Advisory Council.

Finally, Rule 3700 provides that members of a Board advisory group must comply with certain provisions in the Board's Ethics Code. Specifically, the Rule makes advisory group members subject to EC3, EC8(a) and EC9, and, to the extent applicable, EC10. These provisions of the Board's Ethics Code address, respectively, general ethical principles applicable to service for the Board, disqualification in the case of conflicts of interest, the non-disclosure of non-public information, and speaking for the Board when not authorized to do so by the Board.<sup>5</sup>

Commenters suggested that it might be appropriate to establish more than one advisory group since expertise is likely to be required in more than one specialized area. The Board is aware that it may need advice in one or more specialized area. However, the Board has determined to form only one standing advisory group (the "SAG"). This group, however, may, at the Board's direction, form specialized subgroups as needed. In addition, the Board may form ad hoc task forces to work with Board staff in formulating Standards in specialized areas which may then, in the Board's discretion, be added to the SAG's agenda for discussion at SAG meetings.

In addition, Commenters recommended adding other specific groups from which nominations could be received to the groups identified in Rule 3700(c) as proposed. After careful consideration of these comments, the Board has determined that Rule 3700(c) should reflect the Board's intention to accept nominations from all sources. Accordingly, Rule 3700(c) has been revised to state that the Board will accept nominations from any person or organization, including self-nominations. A note to this part of Rule 3700 provides that the Board will

---

<sup>3</sup> The Rule does not address the use of an advisory group for matters other than standards-setting.

<sup>4</sup> Such task forces may be formed without regard to the procedures for the formation, composition, and selection of advisory group members under Rule 3700(a)–(c).

<sup>5</sup> See PCAOB Release No. 2003-008 (June 30, 2003) for the text of the Ethics Code adopted by the Board.

announce, from time to time, periods during which it will receive nominations for an advisory group.

With respect to qualifications of the advisory group members, one commenter suggested that all members have qualifications similar to those "requirements set forth for audit committee members in recently issued stock exchange and SEC" rules or proposed rules. The New York Stock Exchange ("NYSE") proposed listing requirements require that all members of audit committees of listed companies be financially literate. In addition, at least one member of the audit committee must meet the definition of an "audit committee financial expert."<sup>6</sup> The NASDAQ Stock Market ("NASDAQ") proposed rules regarding qualifications for service on audit committees require that all audit committee members must be able to read and understand financial statements including a company's balance sheet, income statement, and cash flow statement and that the audit committee have at least one member who meets the definition of an "audit committee financial expert."<sup>7</sup> After considering this comment, the Board has decided to adopt the Rule as proposed by the Board. While Rule 3700 does not specifically state the qualifications each member must have, the Rule does set forth the types of expertise that the Board will look for in advisory group members. In addition, as noted in Section C.4. of this Release, the Board may also consider certain specific qualifications in selecting nominees to the SAG. The Board believes that it will likely select members who, at a minimum, would meet the general qualifications set forth for "all" audit committee members in the proposed Rules of the NYSE and NASDAQ while providing the Board with the flexibility to select members from a broad spectrum of backgrounds to assist it in meeting the requirements of the Act. SAG members will be selected based upon qualifications which will be elicited from them on a nomination form and through the evaluative process.

Furthermore, commenters suggested that the composition of the SAG be flexible because the Board may find that it is unable to attract a sufficient number of qualified members from fields such as finance and investment. In response to this concern, it should be noted that, the Board expects that the SAG will be broadly representative and that no one field of expertise will predominate among the SAG membership. Other concerns regarding composition related to assuring that the SAG have a sufficient number of members with technical expertise including requiring a majority of members to be practicing auditors. Although the Board certainly intends that the SAG have practicing auditors among its members, the Board believes that it is important that the SAG be able to provide advice in a broad range of areas, including technical auditing expertise, and that technical expertise in particular areas may be obtained by forming ad hoc task forces, as needed and as appropriate for particular standards-setting projects. Other commenters recommended that—

- a. the four largest auditing firms be represented on the SAG;
- b. non-U.S. auditors be represented;
- c. the number of members associated with a single firm, company or association be limited;
- d. membership be dispersed among those affiliated with firms, companies and associations of various sizes;
- e. there be a balance between financial information suppliers (representatives of public companies and auditors) and financial information users (equity and debt investors).

---

<sup>6</sup> See SEC Release No. 34-47672; File No. SR-NYSE-2002-33 (April 11, 2003).

<sup>7</sup> See SEC Release No. 34-47516; File No. SR-NASD-2002-141 (March 17, 2003).

As noted above, the Board recognizes the need to have diversity on the SAG and in selecting members will keep diversity in mind while assuring that no one expertise will predominate among the SAG membership.

With respect to the actual functions of the SAG, one commenter, suggested that the SAG be involved in all standards-setting proposals while another commenter recommended that the actual drafting of the Standards fall within the SAG's authority. In order to maintain flexibility in the rulemaking process, the Board has determined not to revise the proposed Rule to reflect these comments. Although the SAG is likely to be involved in the Board's standards-setting process as discussed in the Release, the Board does not intend to make SAG involvement mandatory to every standards-setting project. In addition, the actual drafting of the Standards is likely to be done by the Board's staff assisted by ad hoc task forces where necessary.

Another comment related to recommending that the SAG work toward "harmonizing" international standards. Neither Rule 3100 nor 3700 is intended to address substantive standards-setting issues. Rather the Board intends to address such issues, including cooperation with standards-setters in other jurisdictions, in the future.

Commenters also made recommendations regarding SAG procedural matters. These commenters suggested that the Board address—

- a.* the process for making recommendations on Standards for consideration by the Board;
- b.* whether or not SAG meetings would be open to the public;
- c.* the format and the frequency of the meetings;
- d.* the process by which the Board will set the SAG's agenda;
- e.* the appointment of a Chair for the SAG;
- f.* whether the Board will provide all resources for drafting, editing, monitoring comments and publishing new and amended Standards;
- g.* the term of appointment to the SAG; and
- h.* an avenue for minority viewpoints to be expressed in any report or recommendation to the Board.

With the exception of the comment on resources for drafting and publishing new Standards, the Board has addressed all of these comments in Section B.7. of the Release. In summary, the SAG will hold an annual meeting and a semi-annual meeting. Additional meetings may be held in the intervening quarters. Monthly telephonic meetings are also expected to be held at the discretion of the Chair. The annual and semi-annual meetings, and any meeting at which the SAG makes a final decision on a recommendation to the Board, will be open to the public. Agenda items for the SAG will be driven in part by the schedule to be set by the Board for the review of the Interim Auditing Standards. Other agenda items will be added by the Board where the Board determines that a response to emerging issues or problems connected with audits needs to be addressed. The Board has determined that the first Chair of the SAG will be the Board's Chief Auditor and Director of Professional Standards. All SAG members will be appointed for two-year terms except that approximately one-half of the appointees initially appointed to the SAG will be appointed for a three-year term to assure continuity. There will be no limits on the terms that a member of the SAG may serve. The Board anticipates that drafting, editing, monitoring comments and publishing, will be conducted by the Board and its staff. To the extent that the SAG is specifically authorized by the Board to undertake any

of these functions and the expenses have been preapproved by the Board or a staff member delegated by the Board, the Board will cover the SAG's costs.

In response to the issue of whether the SAG's meetings will be open to the public and in order to assure that the public is informed of the SAG's operations, the Board has determined that the annual and semi-annual meetings of the SAG will be open. In addition, decisions on making recommendations to the Board will only be made at an open meeting of the SAG. All recommendations to the Board by the SAG will be presented to the Board in open public meetings of the Board and such presentations will include the presentation of minority views of the SAG members. Finally, it should be noted that Board standards-setting proposals will be subject to the public comment process before being adopted by the Board.

With respect to Rule 3700(e) relating to the ethical duties of the SAG members, one commenter recommended that the SAG members be subject to Section EC14, the certification requirements, of the Ethics Code. In response to this comment, the Board has added to its "conditions of membership" described in Section C of the Release, a requirement that members of the SAG shall annually certify their continuing compliance with the "conditions of membership." A second commenter recommended that both Rule 3700(e) and EC8(a) of the Ethics Code be clarified to confirm that being a practicing auditor does not, in and of itself, constitute a financial interest requiring recusal. Section EC8(a) of the Ethics Code has been revised to add an explanatory note that clarifies this issue.<sup>8</sup> A third commenter recommended that members of the SAG be prohibited from "unauthorized" speaking for the Board. In response to this comment, the Board has revised Rule 3700(e) to make EC10 of the Board's Ethics Code applicable to any private publication or public statement by an advisory group member with regard to the Board or the advisory group or any of the activities of the Board or the advisory group. Finally, a fourth commenter recommended that a member of the SAG be permitted to share SAG material with support personnel within the member's home organization who are assigned to assist the member in his or her duties. The Board has not added a provision to address this concern. The Board believes that SAG members will normally be able to perform their responsibilities without needing access to non-public Board information. To the extent that it may be appropriate, from time to time, to permit non-public standards-setting information to be shared with individuals outside the SAG, including to permit SAG members to consult technical experts who are not employees or staff of the Board, the Board may require that such individuals agree to the confidentiality provisions under Section EC9 of the Ethics Code.

## PCAOB Release No. 2003-025

# ***Auditing Standard No. 1, References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board***

PCAOB Release No. 2003-025

December 17, 2003

PCAOB Rulemaking

Docket Matter No. 010

**Approved by the Securities and Exchange Commission on May 14, 2004, and is effective for audit reports issued or reissued on or after May 24, 2004.**

### **Summary**

After public comment, the Public Company Accounting Oversight Board (the "Board" or "PCAOB") has adopted Auditing Standard No. 1, *References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board*. This standard requires registered public accounting firms to include in their reports on engagements performed pursuant to the Board's auditing and related professional practice standards, including audits and reviews of financial statements, a reference to the standards of the Public Company Accounting Oversight Board (United States). The Board will submit this standard to the Securities and Exchange Commission ("Commission" or "SEC") for approval pursuant to Section 107 of the Sarbanes-Oxley Act of 2002 (the "Act"). This standard will not take effect unless approved by the Commission.

### **Board Contacts**

Thomas Ray, Deputy Chief Auditor (202/207-9112; rayt@pcaobus.org), Greg Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org).

\* \* \* \* \*

Section 103 of the Act authorizes the PCAOB to establish auditing and related professional practice standards to be used by registered public accounting firms in connection with the preparation and issuance of audit reports as required by the Act or the rules of the Commission, or as may be necessary or appropriate in the public interest or for the protection of investors. Consistent with Section 103 of the Act, PCAOB Rule 3100, *Compliance With Auditing and Related Professional Practice Standards*, requires auditors to comply with all applicable auditing and related professional practice standards established by the PCAOB.

Auditing Standard No. 1, *References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board* directs auditors<sup>1</sup> to state that

---

<sup>1</sup> Reference in the Board's standards to an "auditor" means a registered public accounting firm, or an associated person of such a firm, as defined in the Act and the Board's rules, unless specifically stated otherwise. Nothing in the Board's rules would preclude an accounting firm from conducting an audit of a company that is not an issuer in accordance with the Board's standards and so stating in its audit report. This is true regardless of whether or not the accounting firm performing the audit is registered with the Board.

the engagement was conducted in accordance with "the standards of the Public Company Accounting Oversight Board (United States)" whenever the auditor has performed the engagement in accordance with the Board's standards.

Section A of this release describes Auditing Standard No. 1. Section B of this release discusses and addresses the comments received on the Board's proposed auditing standard, which the Board released for public comment. The text of Auditing Standard No. 1 is attached to this release as Appendix 1.

## A. Description of Auditing Standard No. 1

At the time of this release, the Board's auditing and related professional practice standards consist of the standards described in Rules 3200T through 3600T, which the Board has adopted, on an initial, transitional basis, as interim standards. The standards (with which PCAOB Rule 3100 requires registered public accounting firms, and persons associated with such firms, to comply) include these interim standards and any permanent standards that the Board adopts.

Each of the standards described in Rules 3200T through 3600T was originally adopted by the American Institute of Certified Public Accountants ("AICPA"), a committee thereof, including the Auditing Standards Board ("ASB"), or the Independence Standards Board. Thus the Board's rule on interim auditing standards, Rule 3200T, incorporates "generally accepted auditing standards, as described in the AICPA Auditing Standards Board's Statement on Auditing Standards No. 95, *Generally Accepted Auditing Standards*, in existence on April 16, 2003" (the "interim standards").<sup>2</sup> These auditing standards were adopted, and from time to time amended, by the ASB, until the Board incorporated them into the Board's interim standards. The interim standards require auditors to include in their reports a reference to the standards that were followed in performing the engagement. These references include "generally accepted auditing standards," "U.S. generally accepted auditing standards," "auditing standards generally accepted in the United States of America," and "standards established by the AICPA."

PCAOB Auditing Standard No. 1 supersedes these references by requiring that auditors' reports on the financial statements of issuers that are issued or reissued, after Auditing Standard No. 1 becomes effective, include a statement that the engagement was conducted in accordance with "the standards of the Public Company Accounting Oversight Board (United States)."<sup>3</sup> This auditing standard is effective for auditors' reports issued or reissued on or after the 10th day following approval of this auditing standard by the Commission. An appendix<sup>4</sup> to this standard provides illustrative reports on an audit of financial statements and a review<sup>5</sup> of interim financial information of a public company.

Once Auditing Standard No. 1 becomes effective, it will require auditors to state that the engagement was performed in accordance with "the standards of the Public Company Accounting Oversight Board (United States)," irrespective of whether the engagement was conducted before or after Auditing Standard No.

---

<sup>2</sup> The Board's rules on interim standards were adopted by the Board on April 16, 2003, and approved by the Commission on April 25, 2003. See SEC Rel. No. 33-8222 (April 25, 2003).

<sup>3</sup> See Auditing Standard No. 1 ¶ 3.

<sup>4</sup> Appendices to the Board's standards are an integral part of the standard and carry the same authoritative weight as the body of the standard.

<sup>5</sup> Reviews of the interim financial information are integrally related to audits of financial statements. See generally Statement on Auditing Standards No. 100, *Interim Financial Information* ("SAS No. 100"). For example, SAS No. 100 makes clear that the general standards on auditing discussed in SAS No. 95 "are applicable to a review of interim financial information."

1 becomes effective. Accordingly, auditors who reissue reports that were originally issued before the date that Auditing Standard No. 1 becomes effective, or who issue reports that include comparative financial information that was the subject of an audit or review report that was issued before that date, must nevertheless state that the audit or review was performed in accordance with "the standards of the Public Company Accounting Oversight Board (United States)," if those reports are reissued after Auditing Standard No. 1 becomes effective. The Board believes that a uniform reference to the standards of the PCAOB—even with respect to audits and reviews completed before the PCAOB adopted its interim standards—is appropriate because the interim standards that the Board adopted are the "generally accepted auditing standards" with which auditors were required to comply before the PCAOB adopted its interim standards.

Referring to PCAOB standards in connection with a period that preceded the date of the PCAOB's own adoption of those standards may seem somewhat counterintuitive. The requirement is intended, however, to reflect the fact that the standards in place before the PCAOB adopted its interim standards, without change, became the PCAOB's standards. Indeed, the Board considered whether to require auditors to refer to "generally accepted auditing standards" when reissuing reports that were originally issued before Auditing Standard No. 1 becomes effective, and to refer to "standards of the PCAOB" with respect to reports issued on or after Auditing Standard No. 1 becomes effective.

The Board believes, however, that it is appropriate to describe the "generally accepted auditing standards" that the Board adopted as "standards of the PCAOB." This terminology will reflect the fact that the standards that auditors were required to use before April 25, 2003—i.e., generally accepted auditing standards as they existed on April 16, 2003—became the applicable standards on April 25 and continue to apply to audits of public companies, as the Board amends them. Auditing standards have continuously been amended over time, and auditors have consistently been required to state whether their audits complied with the then-prevailing standards. The substance of the applicable standards for audits and reviews of public company financial statements did not change on April 25, 2003. Rather, April 25, 2003, is significant only because the PCAOB gained authority over such standards on that date. The Board believes it would be inappropriate to create an impression in auditors' reports that engagements performed before Auditing Standard No. 1 becomes effective, or even before April 25, were performed in accordance with a wholly different body of standards, rather than the same body of standards at different points in its evolution.

The Board expects to amend its standards from time to time, just as the ASB amended generally accepted auditing standards from time to time. The Board believes that using a consistent description of standards prevailing at the time an audit or review report is issued—and holding auditors to compliance with those then-prevailing standards—better contributes to the creation of informative audit reports.

Upon adoption of this auditing standard, all references in the interim standards to generally accepted auditing standards, U.S. generally accepted auditing standards, auditing standards generally accepted in the United States of America, and standards established by the AICPA, mean the corresponding standards of the Public Company Accounting Oversight Board. The Act and the Board's rules already require the auditor to comply with the Board's standards. The purpose of this standard is to conform the references in the interim standards to the standards that the Act and Rule 3100 require auditors to use in

connection with preparing and issuing audit and related reports on the financial statements of issuers.

Under the Act, Auditing Standard No. 1 will not be effective unless it is approved by the SEC. By its terms, Auditing Standard No. 1 will be effective for auditors' reports issued or reissued on or after the 10th day following SEC approval of this standard. Until the effective date of this standard, the reporting requirements as described in the AICPA's Codification of Statements on Auditing Standards, are still in effect as interim standards.

## B. Public Comment Process and Board Responses

The Board released a proposed auditing standard, *References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board*, for public comment, on November 12, 2003. The Board received eight written comment letters.<sup>6</sup> In response to these comments, the Board's final rules both clarify and modify certain aspects of the proposal, as explained below.

### 1. Transitional Issues

The Board received several comments related to transitional issues, including, how the proposed standard would affect—

- reissuance of a report originally issued before the proposed standard became effective;
- issuance of a report on comparative financial statements when the audits of the financial statements for periods presented for comparative purposes were conducted before the proposed standard became effective and/or before the Board adopted its interim standards; and
- issuance of a dual-dated report that include dates that straddle the effective date of this standard.

In the proposed standard, the Board had recommended the standard be effective for auditors' reports dated on or after the later of January 1, 2004 or the 10th day after SEC approval of the standard as adopted by the Board. In evaluating the comments with regard to transition, the Board decided to modify the effective date of this standard. Rather than linking the effective date of this standard to the date of the report, this auditing standard will be effective for reports issued or reissued on or after the 10th day following SEC approval of this auditing standard. After this standard becomes effective, any auditor's report issued or reissued with respect to the financial statements of a public company must state that the engagement was performed in accordance with "the standards of the Public Company Accounting Oversight Board (United States)."

One commenter also expressed concern that the proposed standard's requirement that a report state that an audit performed prior to the PCAOB's adoption of interim standards was performed in accordance with PCAOB standards would, in essence, require the auditor to re-audit the prior period's financial statements in order to bring that audit or review into conformity with current PCAOB standards. The Board does not intend to require auditors to bring audits that were performed in accordance with then-prevailing standards into

---

<sup>6</sup> The comment letters are available on the Board's Web site—[www.pcaobus.org](http://www.pcaobus.org)—and will be attached to the Board's Form 19b-4, to be filed with the Commission.

conformity with later-prevailing standards in order to reissue a previously-issued report. When the Board adopted as interim standards the generally accepted auditing standards established by the ASB, the Board also adopted the effective dates of those standards. Therefore, reference in auditors' reports to the standards of the PCAOB with respect to financial statements audited or reviewed prior to the effective date of Auditing Standard No. 1 is equivalent to the previously-required reference to generally accepted auditing standards. The reference relates to those standards that were in effect when the audit or review was completed and should not be interpreted to imply a representation that the audit or review complied with standards that became effective after the audit or review was completed. Thus, once Auditing Standard No. 1 becomes effective, a reference to generally accepted auditing standards in reports issued in connection with financial statements of public companies is no longer appropriate or necessary.

## 2. Applicable Standards of the PCAOB

Several commenters recommended that the Board only require auditors' reports to refer to the *auditing* standards of the PCAOB for audits of financial statements and not to the standards of the PCAOB generally. The Board intends for report references to "the standards of the Public Company Accounting Oversight Board (United States)" to mean those auditing and related professional practice standards that are applicable to the particular engagement. For example, if an issuer does not use any outside service organization that would affect its internal control over financial reporting, then the interim auditing standard on service organizations—described in the Codification of Statements on Auditing Standards at AU § 324 (*Service Organizations*), would not be applicable. On the other hand, the Board's independence standards apply to registered public accounting firms, and associated persons thereof, in connection with the preparation and issuance of audit reports for issuers.

As another example, quality control standards generally apply to a firm's system of quality control over its accounting and auditing practice and not to individual audit engagements. Thus, a breakdown in the system of quality control does not necessarily mean that a particular audit was not conducted in accordance with the standards of the PCAOB. However, such a breakdown might result in a deficient audit if it caused or contributed to an audit deficiency. The determination as to whether a particular auditing or related professional practice standard is applicable in the context of a particular audit is dependent on the nature of the standard in question and on the nature of the engagement at issue.

Thus a reference to "auditing standards" of the PCAOB would be too narrow and preclusive to other standards applicable to the audit. The Board believes that reference to "the standards of the Public Company Accounting Oversight Board (United States)" is a more descriptive reference to the standards applied in the audit.

## 3. Reference to GAAS

The Board received a number of comments recommending that auditors' reports, with respect to financial statement audits, describe PCAOB standards as generally accepted auditing standards. The notion of general acceptance developed at a time when auditing and accounting standards were not established with the force of law by governmental or other authoritative bodies, but

rather were established by consensus among the members of the accounting profession.

As far as auditing and related professional practice standards are concerned, the Board gained authority to establish such standards by the enactment of the Act. Professional consensus is no longer sufficient to establish auditing standards, and therefore the Board believes that it is no longer appropriate to refer to the standards with which an auditor of the financial statements of a public company must comply as "generally accepted." While those standards may be generally accepted in a variety of contexts, what gives them the force of law in the context of public company audits is adoption by the PCAOB and approval by the SEC.

Therefore, for purposes of any engagement performed in accordance with the applicable auditing and related professional practice standards of the PCAOB, references in the interim standards to generally accepted auditing standards, U.S. generally accepted auditing standards, auditing standards generally accepted in the United States of America, and standards established by the AICPA, mean the standards of the PCAOB.

#### **4. References to Country of Origin and Issuing Office**

The Board also received comments recommending that the Board continue to require auditors to state in their reports that the standards according to which they performed their engagements were those standards applicable in the United States. Adopting this recommendation will make it easier for readers of audit reports that are used in cross-border offerings and listings of securities to quickly identify the jurisdiction in which the standards were promulgated. As such, the Board has required in Auditing Standard No. 1 that auditors' reports describe the PCAOB's standards as "the standards of the Public Company Accounting Oversight Board (United States)."

Another commenter recommended that auditors identify in their reports the city and state (or country) of the registered firms issuing the reports. The SEC's rules require disclosure in the auditor's report of the city and state of the accounting firm's office issuing the report.<sup>7</sup> The Board also concurs with this recommendation and, accordingly, has modified the auditing standard and the illustrative reports in the appendix to Auditing Standard No. 1.

#### **5. Other Auditors**

The Board was asked to clarify the applicability of this standard, and the Board's standards generally, to circumstances where more than one auditing firm contributes to an audit of a consolidated entity. For example, a firm other than the firm engaged to report on the company's consolidated financial statements may be hired to audit the financial statements of a subsidiary company. In such circumstances, the auditor that conducts the majority of the audit is referred to as the principal auditor and the auditor of the subsidiary company is referred to as the other auditor.<sup>8</sup> Depending on the significance of the portion of the financial statements audited by the other auditor, the principal auditor may divide responsibility with the other auditor by making reference to the audit of the other auditor in his or her report, or the principal auditor may take

---

<sup>7</sup> 17 C.F.R. § 210.2-02 (2003).

<sup>8</sup> See Codification of Auditing Standards, AU § 543 (AICPA 2002).

responsibility for the work of the other auditor by not making any reference to the other auditor.

In either event, the entire audit must be performed in accordance with the Board's standards. Section 103 of the Act, and the Board's Rule 3100, require registered public accounting firms, and associated persons thereof, to comply with all applicable auditing and related professional practice standards in connection with the preparation and issuance of audit reports on the financial statements of issuers. Whether the other auditor is a registered public accounting firm or an associated person of a registered public accounting firm, the other auditor must comply with the standards of the PCAOB.

## **6. Applicability to Non-U.S. Firms Not Yet Registered With the Board**

Another commenter asked the Board to clarify whether non-U.S. public accounting firms—who are not required to register with the PCAOB until 2004—will be permitted, until registered with the PCAOB, to continue to reference "auditing standards generally accepted in the United States of America" when reporting on an issuer's financial statements. Like the Board's interim standards, with which a public accounting firm is required to comply even before the firm's mandatory registration date, during the period preceding the mandatory registration date, standards of the PCAOB apply to firms engaged in work that requires their registration. Therefore, non-U.S. public accounting firms that have not yet registered, that engage in work that would require them to be registered as of the mandatory registration date, are nevertheless required to reference "the standards of the Public Company Accounting Oversight Board (United States)."

## **7. Application of Auditing Standard No. 1 to Audit Reports in Connection With Initial Public Offerings**

Another commenter recommended that the Board expand the proposed standard to specifically address the various scenarios that auditors will encounter with respect to reporting in conjunction with initial public offerings. The SEC's Rule 3-01 of Regulation S-X requires that, like other SEC filings that must comply with Regulation S-X, a registration statement filed in connection with an initial public offering must include or otherwise incorporate "for the registrant and its subsidiaries consolidated, audited balance sheets as of the end of each of the two most recent fiscal years."<sup>9</sup> In addition, Rule 3-02 of Regulation S-X requires that there "be filed, for the registrant and its subsidiaries consolidated and for its predecessors, audited statements of income and cash flows for each of the three fiscal years preceding the date of the most recent audited balance sheet."<sup>10</sup> The Board understands these provisions to mean that an issuer desiring to register a transaction involving the sale of securities must include balance sheets for the two years preceding the transaction, and income statements and statements of cash flows for the three years preceding the transaction, each audited in accordance with standards as required by the securities laws.

In Section 103 of the Act, Congress has provided the Board authority to establish auditing and related professional practice standards "to be used by registered public accounting firms in the preparation and issuance of audit reports."

---

<sup>9</sup> 17 C.F.R. § 210.3-01 (2003).

<sup>10</sup> 17 C.F.R. § 210.3-02 (2003).

In addition, the PCAOB has adopted, and the SEC has approved, PCAOB Rule 3100, which requires registered public accounting firms to comply with all applicable auditing and related professional practice standards of the PCAOB in connection with the preparation and issuance of audit reports on the financial statements of issuers. Accordingly, audit reports on the financial statements of issuers must now comply with—and under Auditing Standard No. 1 auditors must state that they performed the audit in accordance with—the standards of the PCAOB. So long as audits that were performed prior to April 25, 2003, were performed in accordance with then-prevailing generally accepted auditing standards as required by Rule 2-02 of Regulation S-X, an auditor need not reaudit any financial statements that relate to periods preceding April 25, 2003. Further, as discussed above, because the Board adopted the "generally accepted auditing standards" in effect as of April 16, 2003, the Board believes it is appropriate to require auditors who issue or reissue reports on periods prior to the date Auditing Standard No. 1 becomes effective to state that their audits were performed in accordance with PCAOB standards, so long as they were performed in accordance with the "generally accepted auditing standards" prevailing at the time the audits were performed.

\* \* \* \* \*

On the 17th day of December, in the year 2003, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

J. Gordon Seymour

Acting Secretary

December 17, 2003

#### **APPENDIX—**

References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board

## Appendix

### References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board

1. The Sarbanes-Oxley Act of 2002 authorized the Public Company Accounting Oversight Board ("PCAOB") to establish auditing and related professional practice standards to be used by registered public accounting firms. PCAOB Rule 3100, *Compliance With Auditing and Related Professional Practice Standards*, requires the auditor to comply with all applicable auditing and related professional practice standards of the PCAOB.

2. The Board has adopted as interim standards, on an initial, transitional basis, the generally accepted auditing standards, described in the American Institute of Certified Public Accountants' ("AICPA") Auditing Standards Board's Statement on Auditing Standards No. 95, *Generally Accepted Auditing Standards*, in existence on April 16, 2003.<sup>1</sup>

3. Accordingly, in connection with any engagement performed in accordance with the auditing and related professional practice standards of the PCAOB, whenever the auditor is required by the interim standards to make reference in a report to generally accepted auditing standards, U.S. generally accepted auditing standards, auditing standards generally accepted in the United States of America, or standards established by the AICPA, the auditor must instead refer to "the standards of the Public Company Accounting Oversight Board (United States)." An auditor must also include the city and state (or city and country, in the case of non-U.S. auditors) from which the auditor's report has been issued.

4. This auditing standard is effective for auditors' reports issued or reissued on or after the 10th day following approval of this auditing standard by the Securities and Exchange Commission.

5. Audit reports issued prior to the effective date of this standard were required to state that the audits that supported those reports were performed in accordance with generally accepted auditing standards. The PCAOB adopted those generally accepted auditing standards, including their respective effective dates, as they existed on April 16, 2003, as interim standards. Therefore, reference to "the standards of the Public Company Accounting Oversight Board (United States)" with respect to audits of financial statements performed prior to the effective date of this standard is equivalent to the previously-required reference to generally accepted auditing standards. Accordingly, upon adoption of this standard, a reference to generally accepted auditing standards in auditors' reports is no longer appropriate or necessary.

Note: The term "auditor" in this standard is intended to include both registered public accounting firms and associated persons thereof.

---

<sup>1</sup> The Board's rules on interim standards were adopted by the Board on April 16, 2003, and approved by the Commission on April 25, 2003. See SEC Rel. No. 33-8222 (April 25, 2003).

## Appendix—Illustrative Reports

1. The following is an illustrative report on an audit of financial statements:

### Report of Independent Registered Public Accounting Firm

We have audited the accompanying balance sheets of X Company as of December 31, 20X3 and 20X2, and the related statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 20X3. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of [at] December 31, 20X3 and 20X2, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 20X3, in conformity with U.S. generally accepted accounting principles.

[City and State or Country]

[Date]

2. The following is an illustrative report on a review of interim financial information:

### Report of Independent Registered Public Accounting Firm

We have reviewed the accompanying [*describe the interim financial information or statements reviewed*] of X Company as of September 30, 20X3 and 20X2, and for the three-month and nine-month periods then ended. This (these) interim financial information (statements) is (are) the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial (statements) for it (them) to be in conformity with U.S. generally accepted accounting principles.

## PCAOB Release No. 2003-026

# *Technical Amendments to Interim Standards Rules*

PCAOB Release No. 2003-026

December 17, 2003

PCAOB Rulemaking

Docket Matter No. 011

### **Summary:**

After public comment, the Public Company Accounting Oversight Board (the "Board" or "PCAOB") has adopted certain technical amendments to its rules to reflect that the Board will be superseding, or effectively amending, the existing professional standards referred to in the Board's interim standards rules as the Board continues to set auditing and related professional practice standards.

The Board will submit these amendments to the Securities and Exchange Commission ("Commission") for approval pursuant to Section 107 of the Sarbanes-Oxley Act of 2002 (the "Act"). The Board's amendments will not take effect unless approved by the Commission.

### **Board Contacts**

Thomas Ray, Deputy Chief Auditor (202/207-9112; rayt@pcaobus.org), Greg Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org).

\* \* \*

### **A. Amendments to the Board's Rules Relating to Interim Standards**

On April 16, 2003, the Board adopted on an initial, transitional basis five temporary rules that refer to existing professional standards of auditing, attestation, quality control, ethics, and independence.<sup>1</sup> The amendments approved by the Board reflect that, when the Board adopts a new auditing and related professional practice standard that addresses a subject matter that also is addressed in the interim standards, the affected portion of the interim standards will be superseded or effectively amended. Accordingly, the Board has approved to add the phrase "to the extent not superseded or amended by the Board" to each of the interim standards rules (PCAOB Rules 3200T, 3300T, 3400T, 3500T, and 3600T). In addition, the Board is making technical amendments to Rule 3600T, revising the numbering of the paragraphs from "(1)" and "(2)" to "(a)" and "(b)". The text of these amendments is presented in the Appendix.

---

<sup>1</sup> These rules were adopted by the Board on April 16, 2003, and approved by the Securities and Exchange Commission on April 25, 2003. See SEC Rel. No. 33-8222 (April 25, 2003).

## B. Public Comment Process and Board Responses

The Board proposed technical amendments to its interim standards rules and released them for public comment, on November 12, 2003. The Board received six written comment letters.<sup>2</sup> Most of the commenters explicitly indicated support for the technical amendments to the interim standards rules, and none indicated opposition to the technical amendments. In addition, many commenters requested that the Board identify how proposed, as well as final, standards affect the existing interim standards. While it may not always be practicable to identify exactly which portions of existing standards have been superseded or amended by new Board standards, the Board recognizes the need to provide auditors with as much guidance and clarity as possible. As future standards are adopted or amended, the Board intends to identify, to the greatest extent possible, those interim standards that are amended or superseded by standards issued by the Board.

\* \* \*

On the 17th day of December, in the year 2003, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

Acting Secretary  
December 17, 2003

### **APPENDIX—**

Amendments to Rules Relating to Interim Professional Auditing Standards

---

<sup>2</sup> The comment letters are available on the Board's Web site—[www.pcaobus.org](http://www.pcaobus.org)—and will be attached to the Board's Form 19b-4, to be filed with the Commission.

## Appendix

### Amendments to Rules Relating to Interim Professional Auditing Standards

The Board has amended Section 3 of its rules by inserting the phrase "to the extent not superseded or amended by the Board" in Rules 3200T, 3300T, 3400T, 3500T, and 3600T, and by revising the numbering of the paragraphs in Rule 3600T from "(1)" and "(2)" to "(a)" and "(b)". The relevant portions of the Rules, as amended, are set out below. Language added by these amendments is shown in bold italics. Deleted paragraph numbers are struck through. Other text in Section 3, including notes to the Rules, remains unchanged and is indicated below by " \* \* \* ".

#### RULES OF THE BOARD

\* \* \*

#### SECTION 3. PROFESSIONAL STANDARDS

##### Part 1 — General Requirements

\* \* \*

#### Rule 3200T. Interim Auditing Standards.

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with generally accepted auditing standards, as described in the AICPA Auditing Standards Board's Statement of Auditing Standards No. 95, as in existence on April 16, 2003 (Codification of Statements on Auditing Standards, AU § 150 (AICPA 2002)), *to the extent not superseded or amended by the Board.*

\* \* \*

#### Rule 3300T. Interim Attestation Standards.

In connection with an engagement (i) described in the AICPA's Auditing Standards Board's Statement on Standards for Attestation Engagements No. 10 (Codification of Statements on Auditing Standards, AT § 101.01 (AICPA 2002)) and (ii) related to the preparation or issuance of audit reports for issuers, a registered public accounting firm, and its associated persons, shall comply with the AICPA Auditing Standards Board's Statements on Standards for Attestation Engagements, and related interpretations and Statements of Position, as in existence on April 16, 2003, *to the extent not superseded or amended by the Board.*

\* \* \*

#### Rule 3400T. Interim Quality Control Standards.

A registered public accounting firm, and its associated persons, shall comply with quality control standards, as described in—

- (a) the AICPA's Auditing Standards Board's Statements on Quality Control Standards, as in existence on April 16, 2003 (AICPA Professional Standards, QC §§ 20–40 (AICPA 2002)), *to the extent not superseded or amended by the Board*; and

- (b) the AICPA SEC Practice Section's Requirements of Membership (d), (f)(first sentence), (l), (m), (n)(1) and (o), as in existence on April 16, 2003 (AICPA SEC Practice Section Manual § 1000.08(d), (f), (l), (m), (n)(1) and (o)), ***to the extent not superseded or amended by the Board.***

\* \* \*

### **Rule 3500T. Interim Ethics Standards.**

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with ethics standards, as described in the AICPA's Code of Professional Conduct Rule 102, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 102 and 191 (AICPA 2002)), ***to the extent not superseded or amended by the Board.***

\* \* \*

### **Rule 3600T. Interim Independence Standards.**

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with independence standards—

- (1a) as described in the AICPA's Code of Professional Conduct Rule 101, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 101 and 191 (AICPA 2002)), ***to the extent not superseded or amended by the Board;*** and
- (2b) Standards Nos. 1, 2, and 3, and Interpretations 99-1, 00-1, and 00-2, of the Independence Standards Board ***to the extent not superseded or amended by the Board.***

## PCAOB Release No. 2004-006

# ***Auditing Standard No. 3, Audit Documentation***

PCAOB Release No. 2004-006  
June 9, 2003

PCAOB Rulemaking  
Docket Matter No. 012

### **Summary**

After public comment, the Public Company Accounting Oversight Board (the "PCAOB" or "Board") has adopted Auditing Standard No. 3, *Audit Documentation*, and an amendment to AU sec. 543 of the Interim Auditing Standards. The Board will submit this standard and amendment to the Securities and Exchange Commission ("SEC" or "Commission") for approval pursuant to Section 107 of the Sarbanes-Oxley Act of 2002 (the "Act"). This standard will not take effect unless approved by the Commission.

### **Board Contacts**

Greg Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org), and Greg Fletcher, Assistant Chief Auditor (202/207-2203; fletcher@pcaobus.org).

\* \* \* \* \*

Section 103(a)(2)(A)(i) of the Act expressly directs the Board to establish auditing standards that require registered public accounting firms to prepare and maintain, for at least seven years, audit documentation "in sufficient detail to support the conclusions reached" in the auditor's report. Audit documentation is one of only a few topics that the Act expressly requires the Board to adopt standards. Accordingly, the Board made audit documentation a priority in its standards setting responsibilities.

The Board commenced a standards-development project on audit documentation by convening a public roundtable discussion on September 29, 2003, to discuss issues and hear views on audit documentation. Before that roundtable discussion, the Board prepared and released a briefing paper on audit documentation, which posed several questions to help identify the objectives—and the appropriate scope and form—of audit documentation.<sup>1</sup> In addition, the Board asked participants to address specific practice issues relating to, among other things, changes in audit documentation after an audit report has been released; the essential elements and the appropriate amount of detail of audit documentation; the effect on audit documentation of a principal auditor's decision to use the work of other auditors; and retention of audit documentation.

Taking into consideration comments from participants in this roundtable discussion, advice from the Board's staff, and other input, the Board determined

---

<sup>1</sup> See Briefing Paper for the Roundtable on Audit Documentation, dated September 10, 2003. The transcript of the September 29, 2003 roundtable discussion and copies of the briefing paper are available on the Board's Web site ([www.pcaobus.org](http://www.pcaobus.org)).

that the existing interim auditing standard on audit documentation was not sufficient in providing direction to ensure that auditors appropriately document both the work they perform and the conclusions they reach in connection with audits and other engagements. On November 21, 2003, the Board issued a proposed auditing standard entitled *Audit Documentation*, as well as a related amendment to an interim auditing standard (paragraph .12 of AU sec. 543, *Part of Audit Performed by Other Independent Auditors*).

The Board received 38 comment letters from a variety of interested parties, including auditors, regulators, professional associations, and government agencies. Those comments led to some changes in the requirements of the standard.

The Board's standard on audit documentation will be one of the fundamental building blocks on which both the integrity of audits and the Board's oversight will rest. The integrity of an audit depends, in large part, on the existence of a complete and understandable record of the work that the auditor performed, the evidence gathered, and the conclusions reached. Meaningful review by managers and partners, or by the Board in the context of its inspections, would be difficult, if not impossible, without adequate documentation. Clear and comprehensive audit documentation is essential for auditors to enhance the quality of the audit and for the Board to fulfill its mandate to inspect registered public accounting firms "to assess the degree of compliance" of those firms with applicable standards and laws.

Appendices 1 and 2 to this release contain, respectively, the text of Auditing Standard No. 3, *Audit Documentation*, and the amendment to AU sec. 543. Appendix A to Auditing Standard No. 3 includes the Board's analysis of the comments received and the Board's responses.

## A. Introduction

Auditors document the evidence supporting the conclusions reached in their reports with a work product commonly referred to as *audit documentation* or *working papers*. Sufficient audit documentation is an integral part of a quality audit. That is, the auditor documents not only the nature, timing, and extent of the work performed, but also the professional judgments made by members of the engagement team and others.

In addition to providing the basis for the conclusions in the auditor's report, audit documentation facilitates the planning, performance, and supervision of the engagement and provides the basis for the review of the quality of the work by providing the reviewer with written documentation of the evidence supporting the auditor's significant conclusions.

First and foremost, the objectives of this audit documentation standard are to improve audit quality and to enhance public confidence in the quality of auditing and other engagements. Complete and thorough audit documentation improves the quality of the work performed in many ways. One important example is that quality audit documentation is a record of the actual work performed, which provides assurance that the auditor accomplished the planned objectives. Further, the need to document the procedures performed, the evidence obtained, and the conclusions reached demands a disciplined approach to planning and performing the engagement. Also, audit documentation facilitates the reviews performed by supervisors, managers, partners, and PCAOB inspectors.

Inadequate audit documentation diminishes audit quality on many levels. First, if audit documentation does not exist for a particular procedure or conclusion related to a significant matter, its absence casts doubt as to whether the necessary work was done. If the work was not documented, then it becomes difficult for members of the engagement team, and others, to know what was done, what conclusions were reached, and how those conclusions were reached.

The more significant differences between existing requirements under the interim auditing standards and this new standard on audit documentation, along with the related amendment, are described in the following sections.

## **B. Auditors Must Document Their Work**

As previously mentioned, the principal objective of this standard is to improve the quality of audits and other engagements. In so doing, this standard affirmatively requires that auditors document procedures performed, evidence obtained, and conclusions reached. Likewise, a deficiency in documentation is a departure from the Board's standard. The Board emphasizes that, in the event of a deficiency in documentation, the auditor must be prepared to present persuasive other evidence that the procedures were performed, evidence was obtained, and appropriate conclusions were reached.

If it is questionable whether audit procedures were performed or evidence was obtained, the auditor must determine, and if so demonstrate, that the necessary procedures were performed, sufficient evidence was obtained, and appropriate conclusions were reached with respect to the relevant financial statement assertions. There may be circumstances (for example, a Board inspection) in which the auditor may be required to demonstrate with persuasive other evidence that the procedures were actually performed, the evidence was actually obtained, and appropriate conclusions were actually reached. In this and similar contexts, oral explanation alone does not constitute persuasive other evidence. However, oral evidence may be used to clarify other written evidence.

The failure to prepare adequate documentation is serious. The severity of that failure depends on the factors that determine the nature and extent of the documentation for a particular audit area or auditing procedure. For example, when the risk of material misstatement associated with an assertion is high, the failure to document the procedures, evidence, and conclusions related to that assertion is a very serious violation of PCAOB Standards. Failure to provide adequate documentation could limit an auditor's ability to demonstrate that the work was actually performed.

## **C. An Experienced Auditor Must Understand the Work**

Audits and reviews of issuers' financial statements are now, under the Act, subject to review by PCAOB inspectors. Therefore, the Board determined that a documentation standard that enables a PCAOB inspector to understand the work that was performed is essential. Similar to the U.S. General Accounting Office's documentation standard for government and other audits conducted in accordance with generally accepted government auditing standards,<sup>2</sup> this standard requires audit documentation to contain sufficient information to enable an experienced auditor, having no previous connection with the engagement,

---

<sup>2</sup> U.S. General Accounting Office, *Government Auditing Standards*, "Field Work Standards for Financial Audits" (2003 Revision), paragraph 4.22.

to understand the work that was performed, the name of the person(s) who performed it, the date it was completed, and the conclusions reached.

This standard also defines an *experienced auditor* as one who has a reasonable understanding of audit activities and has studied the company's industry as well as the accounting and auditing issues relevant to the industry.

## D. Two Significant Dates Defined in This Standard

To ensure quality and consistency in the preparation and retention of audit documentation, the standard defines two important dates: (1) the report release date and (2) the documentation completion date. The *report release date* is the date the auditor grants permission to use the auditor's report in connection with the issuance of the company's financial statements. After the report release date, auditors will have 45 days to assemble a complete and final set of audit documentation. The end of this 45-day period is the *documentation completion date*.

Prior to the report release date, the auditor must have—

- Completed all necessary auditing procedures, including clearing review notes and providing support for all final conclusions, and
- Obtained sufficient evidence to support the representations in the auditor's report.

If the auditor obtains and documents evidence after the report release date, the auditor should refer to the interim auditing standards, AU sec. 390, *Consideration of Omitted Procedures After the Report Date* and AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report* for related guidance. Auditors should not discard any previously existing documentation in connection with obtaining and documenting evidence after the report release date.

If procedures are performed subsequent to the report release date, auditors must identify and document any additions to audit documentation as a result of those procedures. This documentation must include the nature of the change, the date of the change, the name of the person who prepared the change, and the reason for the change. Furthermore, audit documentation must not be deleted or discarded after the documentation completion date.

## E. Subsequent Changes to Audit Documentation

This standard requires that changes to audit documentation after the documentation completion date be documented without deleting or discarding the original documents. Such documentation must indicate the date the information was added, who added it, and the reason for adding it. The SEC has articulated its position on working papers, as well as the importance of documenting any subsequent changes to the working papers.

Working papers prepared or collected by auditors in the course of an audit provide the single most important support for their representation regarding compliance with generally accepted auditing standards. They serve as the repository for the competent evidential matter necessary to afford the auditors with a reasonable basis for opining on an issuer's financial position. Transactions or events occurring long after the balance sheet date often require reference to prior working papers, and such working papers may have significant usefulness in future audits. It is therefore imperative that auditors preserve their working papers in a complete and unaltered form.

Auditors should be encouraged to devise orderly procedures for the proper control over the contents of working papers. Moreover, the Commission recognizes that the necessity for evidential matter to be included in the auditor's working papers varies substantially depending on individual audits. When any alterations or additions are made to the working papers subsequent to the issuance of the auditor's report, however, such alterations or additions should themselves be properly documented and indicate the time and circumstances under which they are made.<sup>3</sup>

## F. Documentation Deficiencies

Documentation added to the working papers well after completion of the audit or other engagement is likely to be of a lesser quality than that produced contemporaneously when the procedures were performed. It is very difficult to reconstruct and recall specific activities related to gathering audit evidence months, and perhaps years, after the work was actually performed. The turnover of both firm and company staff can cause difficulty in reconstructing conversations, meetings, data, or other evidence. Also, with the passage of time memories fade. "Research has shown that minutes, hours or days after an experience, memory preserves a relatively detailed record, allowing us to reproduce the past with reasonable if not perfect accuracy. But with the passing of time, the particulars fade and opportunities multiply for interference—generated by later, similar experiences—to blur our recollections."<sup>4</sup>

The Board believes that audit evidence should be documented at the time the procedures are performed and that oral explanation should not be the primary source of evidence. Furthermore, any oral explanation should not contradict the documented evidence, and appropriate consideration should be given to the credibility of the individual providing the oral explanation.

## G. Multi-Location Audits

In this standard, the Board reminds auditors that the office of the accounting firm issuing the auditor's report is responsible for ensuring that all audit documentation sufficient to meet the requirements of this standard is prepared and retained. Audit documentation supporting the work performed by other auditors (including auditors associated with other offices of the firm, affiliated firms, or non-affiliated firms), must be retained by or be accessible to the office issuing the auditor's report. The Board believes this requirement will improve audit quality by enhancing the probability that *all* audit documentation will be prepared consistently with the same standards of audit quality.

In addition, the office issuing the auditor's report must obtain and review, prior to the report release date, certain documentation—outlined in this standard—related to the work performed by other auditors. Thus, the firm issuing an audit report on consolidated financial statements of a multinational company may not release that report without the specific documentation described in this standard.

---

<sup>3</sup> In the Matter of S.D. Leidesdorf & Co., Kenneth Larsen, Joseph Grendi (*Accounting Series Release No. 209, February 1977*).

<sup>4</sup> Dr. Daniel Schacter, "The Seven Sins of Memory: How the Mind Forgets and Remembers," *Psychology Today* (May 2001).

## H. Part of Audit Performed by Others

In reporting on a company's consolidated financial statements, an auditor may use the work of other auditors who have audited one or more affiliates or divisions of the company. When more than one auditor is involved in an audit engagement, one of the firms typically serves as the principal auditor. The principal auditor then must decide whether to make reference in the auditor's report to the audit performed by the other auditor.

If the principal auditor decides to assume responsibility for the work of other auditors, then the principal auditor will not make reference to the work of other auditors in the audit report. However, if the principal auditor decides not to assume that responsibility, then the principal auditor should indicate clearly the division of responsibility between the principal auditor and other auditors in expressing an opinion on the consolidated financial statements. Existing guidance in AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, applies when using the work of other auditors. However, this existing guidance does not establish any specific documentation requirements.

In connection with PCAOB Auditing Standard No. 3, *Audit Documentation*, the Board adopted an amendment to paragraph .12 of AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, addressing appropriate audit documentation when a principal auditor decides not to make reference to the work of other auditors. In this amendment, the Board imposes the same unconditional responsibility on the principal auditor, as with multi-location audits, to obtain certain audit documentation from the other auditor prior to the report release date. In addition, the amendment provides that the principal auditor should consider performing one or more of the procedures described in the amendment, such as discussing the audit procedures and related results with the other auditors and reviewing the audit programs of the other auditors.

The Board believes this amendment will enable the principal auditor to gain considerably more assurance about the quality of the other auditor's work without creating an unreasonable burden.

## I. Retention of Audit Documentation

This standard requires that an auditor retain audit documentation for seven years after the report release date, which is the minimum period permitted under Section 103(a) of the Act.

As previously discussed, auditors will have 45 days after the report release date to assemble the complete and final set of audit documentation. If an auditor's report is not issued on a completed engagement, as is common in a review of interim financial information of a public company, then the audit documentation is to be retained for seven years from the date that fieldwork was substantially completed.

## J. Effective Date

On March 9, 2004, the Board issued PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction With an Audit of Financial Statements*. Since documentation issues are prevalent in PCAOB Auditing Standard No. 2 and the key objective of this standard is to improve the quality of audits and other engagements, the Board determined that the implementation date of this standard should coincide with that of PCAOB Auditing Standard No. 2. Therefore, this standard will be effective for audits of financial statements with respect to fiscal years ending on or after

the later of November 15, 2004, or 30 days after the date of approval of this standard by the SEC.

The effective date for quarterly reviews and other engagements, conducted pursuant to the standards of the PCAOB, would occur beginning with the first quarter ending after the first financial statement audit covered by this standard.

\* \* \* \* \*

On the 9th day of June, in the year 2004, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

/s/ J. Gordon Seymour

J. Gordon Seymour

Acting Secretary

June 9, 2004

**APPENDICES—**

1. Auditing Standard No. 3—*Audit Documentation*
2. Amendment to Interim Auditing Standards—*Part of Audit Performed by Other Independent Auditors*

## Appendix 1

### Auditing Standard No. 3, *Audit Documentation*

[Supersedes SAS No. 96, *Audit Documentation*]

#### Introduction

1. This standard establishes general requirements for documentation the auditor should prepare and retain in connection with engagements conducted pursuant to the standards of the Public Company Accounting Oversight Board ("PCAOB"). Such engagements include an audit of financial statements, an audit of internal control over financial reporting, and a review of interim financial information. This standard does not replace specific documentation requirements of other standards of the PCAOB.

#### *Objectives of Audit Documentation*

2. *Audit documentation* is the written record of the basis for the auditor's conclusions that provides the support for the auditor's representations, whether those representations are contained in the auditor's report or otherwise. Audit documentation also facilitates the planning, performance, and supervision of the engagement, and is the basis for the review of the quality of the work because it provides the reviewer with written documentation of the evidence supporting the auditor's significant conclusions. Among other things, audit documentation includes records of the planning and performance of the work, the procedures performed, evidence obtained, and conclusions reached by the auditor. Audit documentation also may be referred to as *work papers* or *working papers*.

Note: An auditor's representations to a company's board of directors or audit committee, stockholders, investors, or other interested parties are usually included in the auditor's report accompanying the financial statements of the company. The auditor also might make oral representations to the company or others, either on a voluntary basis or if necessary to comply with professional standards, including in connection with an engagement for which an auditor's report is not issued. For example, although an auditor might not issue a report in connection with an engagement to review interim financial information, he or she ordinarily would make oral representations about the results of the review.

3. Audit documentation is reviewed by members of the engagement team performing the work and might be reviewed by others. Reviewers might include, for example:

- a. Auditors who are new to an engagement and review the prior year's documentation to understand the work performed as an aid in planning and performing the current engagement.
- b. Supervisory personnel who review documentation prepared by assistants on the engagement.
- c. Engagement supervisors and engagement quality reviewers who review documentation to understand how the engagement team reached significant conclusions and whether there is adequate evidential support for those conclusions.
- d. A successor auditor who reviews a predecessor auditor's audit documentation.

- e. Internal and external inspection teams that review documentation to assess audit quality and compliance with auditing and related professional practice standards; applicable laws, rules, and regulations; and the auditor's own quality control policies.
- f. Others, including advisors engaged by the audit committee or representatives of a party to an acquisition.

### **Audit Documentation Requirement**

4. The auditor must prepare audit documentation in connection with each engagement conducted pursuant to the standards of the PCAOB. Audit documentation should be prepared in sufficient detail to provide a clear understanding of its purpose, source, and the conclusions reached. Also, the documentation should be appropriately organized to provide a clear link to the significant findings or issues.<sup>1</sup> Examples of audit documentation include memoranda, confirmations, correspondence, schedules, audit programs, and letters of representation. Audit documentation may be in the form of paper, electronic files, or other media.

5. Because audit documentation is the written record that provides the support for the representations in the auditor's report, it should:

- a. Demonstrate that the engagement complied with the standards of the PCAOB,
- b. Support the basis for the auditor's conclusions concerning every relevant financial statement assertion, and
- c. Demonstrate that the underlying accounting records agreed or reconciled with the financial statements.

6. The auditor must document the procedures performed, evidence obtained, and conclusions reached with respect to relevant financial statement assertions.<sup>2</sup> Audit documentation must clearly demonstrate that the work was in fact performed. This documentation requirement applies to the work of all those who participate in the engagement as well as to the work of specialists the auditor uses as evidential matter in evaluating relevant financial statement assertions. Audit documentation must contain sufficient information to enable an experienced auditor, having no previous connection with the engagement:

- a. To understand the nature, timing, extent, and results of the procedures performed, evidence obtained, and conclusions reached, and
- b. To determine who performed the work and the date such work was completed as well as the person who reviewed the work and the date of such review.

Note: An *experienced auditor* has a reasonable understanding of audit activities and has studied the company's industry as well as the accounting and auditing issues relevant to the industry.

7. In determining the nature and extent of the documentation for a financial statement assertion, the auditor should consider the following factors:

- Nature of the auditing procedure;
- Risk of material misstatement associated with the assertion;

---

<sup>1</sup> See paragraph 12 of this standard for a description of significant findings or issues.

<sup>2</sup> *Relevant financial statement assertions* are described in paragraphs 68-70 of PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction With An Audit of Financial Statements*.

- Extent of judgment required in performing the work and evaluating the results, for example, accounting estimates require greater judgment and commensurately more extensive documentation;
- Significance of the evidence obtained to the assertion being tested; and
- Responsibility to document a conclusion not readily determinable from the documentation of the procedures performed or evidence obtained.

Application of these factors determines whether the nature and extent of audit documentation is adequate.

8. In addition to the documentation necessary to support the auditor's final conclusions, audit documentation must include information the auditor has identified relating to significant findings or issues that is inconsistent with or contradicts the auditor's final conclusions. The relevant records to be retained include, but are not limited to, procedures performed in response to the information, and records documenting consultations on, or resolutions of, differences in professional judgment among members of the engagement team or between the engagement team and others consulted.

9. If, after the documentation completion date (defined in paragraph 15), the auditor becomes aware, as a result of a lack of documentation or otherwise, that audit procedures may not have been performed, evidence may not have been obtained, or appropriate conclusions may not have been reached, the auditor must determine, and if so demonstrate, that sufficient procedures were performed, sufficient evidence was obtained, and appropriate conclusions were reached with respect to the relevant financial statement assertions. To accomplish this, the auditor must have persuasive other evidence. Oral explanation alone does not constitute persuasive other evidence, but it may be used to clarify other written evidence.

- If the auditor determines and demonstrates that sufficient procedures were performed, sufficient evidence was obtained, and appropriate conclusions were reached, but that documentation thereof is not adequate, then the auditor should consider what additional documentation is needed. In preparing additional documentation, the auditor should refer to paragraph 16.
- If the auditor cannot determine or demonstrate that sufficient procedures were performed, sufficient evidence was obtained, or appropriate conclusions were reached, the auditor should comply with the provisions of AU sec. 390, *Consideration of Omitted Procedures After the Report Date*.

### ***Documentation of Specific Matters***

10. Documentation of auditing procedures that involve the inspection of documents or confirmation, including tests of details, tests of operating effectiveness of controls, and walkthroughs, should include identification of the items inspected. Documentation of auditing procedures related to the inspection of significant contracts or agreements should include abstracts or copies of the documents.

Note: The identification of the items inspected may be satisfied by indicating the source from which the items were selected and the specific selection criteria, for example:

- If an audit sample is selected from a population of documents, the documentation should include identifying characteristics (for example, the specific check numbers of the items included in the sample).
- If all items over a specific dollar amount are selected from a population of documents, the documentation need describe only the scope and the identification of the population (for example, all checks over \$10,000 from the October disbursements journal).
- If a systematic sample is selected from a population of documents, the documentation need only provide an identification of the source of the documents and an indication of the starting point and the sampling interval (for example, a systematic sample of sales invoices was selected from the sales journal for the period from October 1 to December 31, starting with invoice number 452 and selecting every 40th invoice).

**11.** Certain matters, such as auditor independence, staff training and proficiency and client acceptance and retention, may be documented in a central repository for the public accounting firm ("firm") or in the particular office participating in the engagement. If such matters are documented in a central repository, the audit documentation of the engagement should include a reference to the central repository. Documentation of matters specific to a particular engagement should be included in the audit documentation of the pertinent engagement.

**12.** The auditor must document significant findings or issues, actions taken to address them (including additional evidence obtained), and the basis for the conclusions reached in connection with each engagement. *Significant findings or issues* are substantive matters that are important to the procedures performed, evidence obtained, or conclusions reached, and include, but are not limited to, the following:

- a. Significant matters involving the selection, application, and consistency of accounting principles, including related disclosures. Significant matters include, but are not limited to, accounting for complex or unusual transactions, accounting estimates, and uncertainties as well as related management assumptions.
- b. Results of auditing procedures that indicate a need for significant modification of planned auditing procedures, the existence of material misstatements, omissions in the financial statements, the existence of significant deficiencies, or material weaknesses in internal control over financial reporting.
- c. Audit adjustments. For purposes of this standard, an *audit adjustment* is a correction of a misstatement of the financial statements that was or should have been proposed by the auditor, whether or not recorded by management, that could, either individually or when aggregated with other misstatements, have a material effect on the company's financial statements.
- d. Disagreements among members of the engagement team or with others consulted on the engagement about final conclusions reached on significant accounting or auditing matters.
- e. Circumstances that cause significant difficulty in applying auditing procedures.
- f. Significant changes in the assessed level of audit risk for particular audit areas and the auditor's response to those changes.

- g. Any matters that could result in modification of the auditor's report.

13. The auditor must identify all significant findings or issues in an *engagement completion document*. This document may include either all information necessary to understand the significant findings, issues or cross-references, as appropriate, to other available supporting audit documentation. This document, along with any documents cross-referenced, should collectively be as specific as necessary in the circumstances for a reviewer to gain a thorough understanding of the significant findings or issues.

Note: The engagement completion document prepared in connection with the annual audit should include documentation of significant findings or issues identified during the review of interim financial information.

### ***Retention of and Subsequent Changes to Audit Documentation***

14. The auditor must retain audit documentation for seven years from the date the auditor grants permission to use the auditor's report in connection with the issuance of the company's financial statements (*report release date*), unless a longer period of time is required by law. If a report is not issued in connection with an engagement, then the audit documentation must be retained for seven years from the date that fieldwork was substantially completed. If the auditor was unable to complete the engagement, then the audit documentation must be retained for seven years from the date the engagement ceased.

15. Prior to the report release date, the auditor must have completed all necessary auditing procedures and obtained sufficient evidence to support the representations in the auditor's report. A complete and final set of audit documentation should be assembled for retention as of a date not more than 45 days after the report release date (*documentation completion date*). If a report is not issued in connection with an engagement, then the documentation completion date should not be more than 45 days from the date that fieldwork was substantially completed. If the auditor was unable to complete the engagement, then the documentation completion date should not be more than 45 days from the date the engagement ceased.

16. Circumstances may require additions to audit documentation after the report release date. Audit documentation must not be deleted or discarded after the documentation completion date, however, information may be added. Any documentation added must indicate the date the information was added, the name of the person who prepared the additional documentation, and the reason for adding it.

17. Other standards require the auditor to perform procedures subsequent to the report release date in certain circumstances. For example, in accordance with AU sec. 711, *Filings Under Federal Securities Statutes*, auditors are required to perform certain procedures up to the effective date of a registration statement.<sup>3</sup> The auditor must identify and document any additions to audit documentation as a result of these procedures consistent with the previous paragraph.

---

<sup>3</sup> Section 11 of the Securities Act of 1933 makes specific mention of the auditor's responsibility as an expert when the auditor's report is included in a registration statement under the 1933 Act.

**18.** The office of the firm issuing the auditor's report is responsible for ensuring that all audit documentation sufficient to meet the requirements of paragraphs 4–13 of this Standard is prepared and retained. Audit documentation supporting the work performed by other auditors (including auditors associated with other offices of the firm, affiliated firms, or non-affiliated firms), must be retained by or be accessible to the office issuing the auditor's report.<sup>4</sup>

**19.** In addition, the office issuing the auditor's report must obtain, and review and retain, prior to the report release date, the following documentation related to the work performed by other auditors (including auditors associated with other offices of the firm, affiliated firms, or non-affiliated firms):

- a. An engagement completion document consistent with paragraphs 12 and 13.  
Note: This engagement completion document should include all cross-referenced, supporting audit documentation.
- b. A list of significant fraud risk factors, the auditor's response, and the results of the auditor's related procedures.
- c. Sufficient information relating to any significant findings or issues that are inconsistent with or contradict the final conclusions, as described in paragraph 8.
- d. Any findings affecting the consolidating or combining of accounts in the consolidated financial statements.
- e. Sufficient information to enable the office issuing the auditor's report to agree or to reconcile the financial statement amounts audited by the other auditor to the information underlying the consolidated financial statements.
- f. A schedule of audit adjustments, including a description of the nature and cause of each misstatement.
- g. All significant deficiencies and material weaknesses in internal control over financial reporting, including a clear distinction between those two categories.
- h. Letters of representations from management.
- i. All matters to be communicated to the audit committee.

If the auditor decides to make reference in his or her report to the audit of the other auditor, however, the auditor issuing the report need not perform the procedures in this paragraph and, instead, should refer to AU sec. 543, *Part of Audit Performed by Other Independent Auditors*.

**20.** The auditor also might be required to maintain documentation in addition to that required by this standard.<sup>5</sup>

---

<sup>4</sup> Section 106(b) of the Sarbanes-Oxley Act of 2002 imposes certain requirements concerning production of the work papers of a foreign public accounting firm on whose opinion or services the auditor relies. Compliance with this standard does not substitute for compliance with Section 106(b) or any other applicable law.

<sup>5</sup> For example, the SEC requires auditors to retain, in addition to documentation required by this standard, memoranda, correspondence, communications (for example, electronic mail), other documents, and records (in the form of paper, electronic, or other media) that are created, sent, or received in connection with an engagement conducted in accordance with auditing and related professional practice standards and that contain conclusions, opinions, analyses, or data related to the engagement. (*Retention of Audit and Review Records*, 17 CFR §210.2-06, effective for audits or reviews completed on or after October 31, 2003.)

***Effective Date***

**21.** This standard is effective for audits of financial statements, which may include an audit of internal control over financial reporting, with respect to fiscal years ending on or after November 15, 2004. For other engagements conducted pursuant to the standards of the PCAOB, including reviews of interim financial information, this standard takes effect beginning with the first quarter ending after the first financial statement audit covered by this standard.

## Appendix A

### Background and Basis for Conclusions

#### Introduction

A1. This appendix summarizes considerations that the Public Company Accounting Oversight Board ("PCAOB" or "Board") deemed significant in developing this standard. This Appendix includes reasons for accepting certain views and rejecting others.

A2. Section 103(a)(2)(A)(i) of the Sarbanes-Oxley Act of 2002 (the "Act") directs the Board to establish auditing standards that require registered public accounting firms to prepare and maintain, for at least seven years, audit documentation "in sufficient detail to support the conclusions reached" in the auditor's report. Accordingly, the Board has made audit documentation a priority.

#### Background

A3. Auditors support the conclusions in their reports with a work product called *audit documentation*, also referred to as *working papers* or *work papers*. Audit documentation supports the basis for the conclusions in the auditor's report. Audit documentation also facilitates the planning, performance, and supervision of the engagement and provides the basis for the review of the quality of the work by providing the reviewer with written documentation of the evidence supporting the auditor's significant conclusions. Examples of audit documentation include memoranda, confirmations, correspondence, schedules, audit programs, and letters of representation. Audit documentation may be in the form of paper, electronic files, or other media.

A4. The Board's standard on audit documentation is one of the fundamental building blocks on which both the integrity of audits and the Board's oversight will rest. The Board believes that the quality and integrity of an audit depends, in large part, on the existence of a complete and understandable record of the work the auditor performed, the conclusions the auditor reached, and the evidence the auditor obtained that supports those conclusions. Meaningful reviews, whether by the Board in the context of its inspections or through other reviews, such as internal quality control reviews, would be difficult or impossible without adequate documentation. Clear and comprehensive audit documentation is essential to enhance the quality of the audit and, at the same time, to allow the Board to fulfill its mandate to inspect registered public accounting firms to assess the degree of compliance of those firms with applicable standards and laws.

A5. The Board began a standards-development project on audit documentation by convening a public roundtable discussion on September 29, 2003, to discuss issues and hear views on the subject. Participants at the roundtable included representatives from public companies, public accounting firms, investor groups, and regulatory organizations.

A6. Prior to this roundtable discussion, the Board prepared and released a briefing paper on audit documentation that posed several questions to help identify the objectives—and the appropriate scope and form—of audit documentation. In addition, the Board asked participants to address specific issues in practice relating to, among other things, changes in audit documentation after release of the audit report, essential elements and the appropriate amount of detail of audit documentation, the effect on audit documentation of a principal auditor's

decision to use the work of other auditors, and retention of audit documentation. Based on comments made at the roundtable, advice from the Board's staff, and other input the Board received, the Board determined that the pre-existing standard on audit documentation, Statement on Auditing Standards ("SAS") No. 96, *Audit Documentation*, was insufficient for the Board to discharge appropriately its standard-setting obligations under Section 103(a) of the Act. In response, the Board developed and issued for comment, on November 17, 2003, a proposed auditing standard titled, *Audit Documentation*.

A7. The Board received 38 comment letters from a variety of interested parties, including auditors, regulators, professional associations, government agencies, and others. Those comments led to some changes in the requirements of the standard. Also, other changes made the requirements easier to understand. The following sections summarize significant views expressed in those comment letters and the Board's responses to those comments.

## Objective of This Standard

A8. The objective of this standard is to improve audit quality and enhance public confidence in the quality of auditing. Good audit documentation improves the quality of the work performed in many ways, including, for example:

- Providing a record of actual work performed, which provides assurance that the auditor accomplishes the planned objectives.
- Facilitating the reviews performed by supervisors, managers, engagement partners, engagement quality reviewers,<sup>1</sup> and PCAOB inspectors.
- Improving effectiveness and efficiency by reducing time-consuming, and sometimes inaccurate, oral explanations of what was done (or not done).

A9. The documentation requirements in this standard should result in more effective and efficient oversight of registered public accounting firms and associated persons, thereby improving audit quality and enhancing investor confidence.

A10. Inadequate audit documentation diminishes audit quality on many levels. First, if audit documentation does not exist for a particular procedure or conclusion related to a significant matter, it casts doubt as to whether the necessary work was done. If the work was not documented, then it becomes difficult for the engagement team, and others, to know what was done, what conclusions were reached, and how those conclusions were reached. In addition, good audit documentation is very important in an environment in which engagement staff changes or rotates. Due to engagement staff turnover, knowledgeable staff on an engagement may not be available for the next engagement.

## Audit Programs

A11. Several commenters suggested that audit documentation should include audit programs. Audit programs were specifically mentioned in SAS No. 96 as a form of audit documentation.

---

<sup>1</sup> The engagement quality reviewer is referred to as the concurring partner reviewer in the membership requirements of the AICPA SEC Practice Section. The Board adopted certain of these membership requirements as they existed on April 16, 2003. Some firms also may refer to this designated reviewer as the second partner reviewer.

A12. The Board accepted this recommendation, and paragraph 4 in the final Standard includes audit programs as an example of documentation. Audit programs may provide evidence of audit planning as well as limited evidence of the execution of audit procedures, but the Board believes that signed-off audit programs should generally not be used as the sole documentation that a procedure was performed, evidence was obtained, or a conclusion was reached. An audit program aids in the conduct and supervision of an engagement, but completed and initialed audit program steps should be supported with proper documentation in the working papers.

## Reviewability Standard

A13. The proposed standard would have adapted a standard of reviewability from the U.S. General Accounting Office's ("GAO") documentation standard for government and other audits conducted in accordance with generally accepted government auditing standards ("GAGAS"). The GAO standard provides that "Audit documentation related to planning, conducting, and reporting on the audit should contain sufficient information to enable an experienced auditor who has had no previous connection with the audit to ascertain from the audit documentation the evidence that supports the auditors' significant judgments and conclusions."<sup>2</sup> This requirement has been important in the field of government auditing because government audits have long been reviewed by GAO auditors who, although experienced in auditing, do not participate in the actual audits. Moreover, the Panel on Audit Effectiveness recommended that sufficient, specific requirements for audit documentation be established to enable public accounting firms' internal inspection teams as well as others, including reviewers outside of the firms, to assess the quality of engagement performance.<sup>3</sup> Audits and reviews of issuers' financial statements will now, under the Act, be subject to review by PCAOB inspectors. Therefore, a documentation standard that enables an inspector to understand the work that was performed in an audit or review is appropriate.

A14. Accordingly, the Board's proposed standard would have required that audit documentation contain sufficient information to enable an experienced auditor, having no previous connection with the engagement, to understand the work that was performed, the name of the person(s) who performed it, the date it was completed, and the conclusions reached. This experienced auditor also should have been able to determine who reviewed the work and the date of such review.

A15. Some commenters suggested that the final standard more specifically describe the qualifications of an experienced auditor. These commenters took the position that only an engagement partner with significant years of experience would have the experience necessary to be able to understand all the work that was performed and the conclusions that were reached. One commenter suggested that an auditor who is reviewing audit documentation should have experience and knowledge consistent with the experience and knowledge that the auditor performing the audit would be required to possess, including knowledge of the current accounting, auditing, and financial reporting issues of the company's industry. Another said that the characteristics defining an experienced auditor should be consistent with those expected of the auditor with final responsibility for the engagement.

---

<sup>2</sup> U.S. General Accounting Office, *Government Auditing Standards*, "Field Work Standards for Financial Audits" (2003 Revision), paragraph 4.22.

<sup>3</sup> Panel on Audit Effectiveness, *Report and Recommendations* (Stamford, Ct: Public Oversight Board, August 31, 2000).

A16. After considering these comments, the Board has provided additional specificity about the meaning of the term, *experienced auditor*. The standard now describes an experienced auditor as one who has a reasonable understanding of audit activities and has studied the company's industry as well as the accounting and auditing issues relevant to the industry.

A17. Some commenters also suggested that the standard, as proposed, did not allow for the use of professional judgment. These commenters pointed to the omission of a statement about professional judgment found in paragraph 4.23 of GAGAS that states, "The quantity, type, and content of audit documentation are a matter of the auditors' professional judgment." A nearly identical statement was found in the interim auditing standard, SAS No. 96, *Audit Documentation*.

A18. Auditors exercise professional judgment in nearly every aspect of planning, performing, and reporting on an audit. Auditors also exercise professional judgment in the documentation of an audit and other engagements. An objective of this standard is to ensure that auditors give proper consideration to the need to document procedures performed, evidence obtained, and conclusions reached in light of time and cost considerations in completing an engagement.

A19. Nothing in the standard precludes auditors from exercising their professional judgment. Moreover, because professional judgment might relate to any aspect of an audit, the Board does not believe that an explicit reference to professional judgment is necessary every time the use of professional judgment may be appropriate.

### **Audit Documentation Must Demonstrate That the Work Was Done**

A20. A guiding principle of the proposed standard was that auditors must document procedures performed, evidence obtained, and conclusions reached. This principle is not new and was found in the interim standard, SAS No. 96, *Audit Documentation*, which this standard supersedes. Audit documentation also should demonstrate compliance with the standards of the PCAOB and include justification for any departures.

A21. The proposed standard would have adapted a provision in the California Business and Professions Code which provides that if documentation does not exist, then there is a rebuttable presumption that the work had not been done.

A22. The objections to this proposal fell into two general categories: the effect of the rebuttable presumption on legal proceedings and the perceived impracticality of documenting every conversation or conclusion that affected the engagement. Discussion of these issues follows.

#### ***Rebuttable Presumption***

A23. Commenters expressed concern about the effects of the proposed language on regulatory or legal proceedings outside the context of the PCAOB's oversight. They argued that the rebuttable presumption might be understood to establish evidentiary rules for use in judicial and administrative proceedings in other jurisdictions.

A24. Some commenters also had concerns that oral explanation alone would not constitute persuasive other evidence that work was done, absent any documentation. Those commenters argued that not allowing oral explanations when there was no documentation would essentially make the presumption "irrebuttable." Moreover, those commenters argued that it was inappropriate for a professional standard to predetermine for a court the relative value of evidence.

A25. The Board believes that complete audit documentation is necessary for a quality audit or other engagement. The Board intends the standard to require

auditors to document procedures performed, evidence obtained, and conclusions reached to improve the quality of audits. The Board also intends that a deficiency in documentation is a departure from the Board's standards. Thus, although the Board removed the phrase *rebuttable presumption*, the Board continues to stress, in paragraph 9 of the Standard, that the auditor must have persuasive other evidence that the procedures were performed, evidence was obtained, and appropriate conclusions were reached with respect to relevant financial statement assertions.

A26. The term *should* (presumptively mandatory responsibility) was changed to *must* (unconditional responsibility) in paragraph 6 to establish a higher threshold for the auditor. Auditors have an unconditional requirement to document their work. Failure to discharge an unconditional responsibility is a violation of the standard and Rule 3100, which requires all registered public accounting firms to adhere to the Board's auditing and related professional practice standards in connection with an audit or review of an issuer's financial statements.

A27. The Board also added two new paragraphs to the final standard to explain the importance and associated responsibility of performing the work and adequately documenting all work that was performed. Paragraph 7 provides a list of factors the auditor should consider in determining the nature and extent of documentation. These factors should be considered by both the auditor in preparing the documentation and the reviewer in evaluating the documentation.

A28. In paragraph 9 of this Standard, if, after the documentation completion date, as a result of a lack of documentation or otherwise, it appears that audit procedures may not have been performed, evidence may not have been obtained, or appropriate conclusions may not have been reached, the auditor must determine, and if so demonstrate, that sufficient procedures were performed, sufficient evidence was obtained, and appropriate conclusions were reached with respect to the relevant financial statement assertions. In those circumstances, for example, during an inspection by the Board or during the firm's internal quality control review, the auditor is required to demonstrate with persuasive other evidence that the procedures were performed, the evidence was obtained, and appropriate conclusions were reached. In this and similar contexts, oral explanation alone does not constitute persuasive other evidence. However, oral evidence may be used to clarify other written evidence.

A29. In addition, more reliable, objective evidence may be required depending on the nature of the test and the objective the auditor is trying to achieve. For example, if there is a high risk of a material misstatement with respect to a particular assertion, then the auditor should obtain and document sufficient procedures for the auditor to conclude on the fairness of the assertion.

### ***Impracticality***

A30. Some commenters expressed concern that the proposed standard could be construed or interpreted to require the auditor to document every conversation held with company management or among the engagement team members. Some commenters also argued that they should not be required to document every conclusion, including preliminary conclusions that were part of a thought process that may have led them to a different conclusion, on the ground that this would result in needless and costly work performed by the auditor. Commenters also expressed concern that an unqualified requirement to document procedures performed, evidence obtained, and conclusions reached without allowing the use of auditor judgment would increase the volume of documentation

but not the quality. They stated that it would be unnecessary, time-consuming, and potentially counterproductive to require the auditor to make a written record of everything he or she did.

A31. The Board's standard distinguishes between (1) an audit procedure that must be documented and (2) a conversation with company management or among the members of the engagement team. Inquiries with management should be documented when an inquiry is important to a particular procedure. The inquiry could take place during planning, performance, or reporting. The auditor need not document each conversation that occurred.

A32. A final conclusion is an integral part of a working paper, unless the working paper is only for informational purposes, such as documentation of a discussion or a process. This standard does not require that the auditor document each interim conclusion reached in arriving at the risk assessments or final conclusions. Conclusions reached early on during an audit may be based on incomplete information or an incorrect understanding. Nevertheless, auditors should document a final conclusion for every audit procedure performed, if that conclusion is not readily apparent based on documented results of the procedures.

A33. The Board also believes the reference to *specialists* is an important element of paragraph 6. Specialists play a vital role in audit engagements. For example, appraisers, actuaries, and environmental consultants provide valuable data concerning asset values, calculation assumptions, and loss reserves. When using the work of a specialist, the auditor must ensure that the specialist's work, as it relates to the audit objectives, also is adequately documented. For example, if the auditor relies on the work of an appraiser in obtaining the fair value of commercial property available for sale, then the auditor must ensure the appraisal report is adequately documented. Moreover, the term *specialist* in this standard is intended to include any specialist the auditor relies on in conducting the work, including those employed or retained by the auditor or by the company.

## Audit Adjustments

A34. Several commenters recommended that the definition of *audit adjustments* in this proposed standard should be consistent with the definition contained in AU sec. 380, *Communication With Audit Committees*.

A35. Although the Board recognizes potential benefits of having a uniform definition of the term *audit adjustments*, the Board does not believe that the definition in AU sec. 380 is appropriate for this documentation standard because that definition was intended for communication with audit committees. The Board believes that the definition should be broader so that the engagement partner, engagement quality reviewer, and others can be aware of all proposed corrections of misstatements, whether or not recorded by the entity, of which the auditor is aware, that were or should have been proposed based on the audit evidence.

A36. Adjustments that should have been proposed based on known audit evidence are material misstatements that the auditor identified but did not propose to management. Examples include situations in which (1) the auditor identifies a material error but does not propose an adjustment and (2) the auditor proposes an adjustment in the working papers, but fails to note the adjustment in the summary or schedule of proposed adjustments.

## Information That Is Inconsistent With or Contradicts the Auditor's Final Conclusions

A37. Paragraph .25 of AU sec. 326, *Evidential Matter*, states: "In developing his or her opinion, the auditor should consider relevant evidential matter regardless of whether it appears to corroborate or to contradict the assertions in the financial statements." Thus, during the conduct of an audit, the auditor should consider all relevant evidential matter even though it might contradict or be inconsistent with other conclusions. Audit documentation must contain information or data relating to significant findings or issues that are inconsistent with the auditor's final conclusions on the relevant matter.

A38. Also, information that initially appears to be inconsistent or contradictory, but is found to be incorrect or based on incomplete information, need not be included in the final audit documentation, provided that the apparent inconsistencies or contradictions were satisfactorily resolved by obtaining complete and correct information. In addition, with respect to differences in professional judgment, auditors need not include in audit documentation preliminary views based on incomplete information or data.

## Retention of Audit Documentation

A39. The proposed standard would have required an auditor to retain audit documentation for seven years after completion of the engagement, which is the minimum period permitted under Section 103(a)(2)(A)(i) of the Act. In addition, the proposed standard would have added a new requirement that the audit documentation must be assembled for retention within a reasonable period of time after the auditor's report is released. Such reasonable period of time should not exceed 45 days.

A40. In general, those commenting on this documentation retention requirement did not have concerns with the time period of 45 days to assemble the working papers. However, some commenters suggested the Board tie this 45-day requirement to the filing date of the company's financial statements with the SEC. One commenter recommended that the standard refer to the same trigger date for initiating both the time period during which the auditor should complete work paper assembly and the beginning of the seven-year retention period.

A41. For consistency and practical implications, the Board agreed that the standard should have the same date for the auditor to start assembling the audit documentation and initiating the seven-year retention period. The Board decided that the seven-year retention period begins on the *report release date*, which is defined as the date the auditor grants permission to use the auditor's report in connection with the issuance of the company's financial statements. In addition, auditors will have 45 days to assemble the complete and final set of audit documentation, beginning on the report release date. The Board believes that using the report release date is preferable to using the filing date of the company's financial statements, since the auditor has ultimate control over granting permission to use his or her report. If an auditor's report is not issued, then the audit documentation is to be retained for seven years from the date that fieldwork was substantially completed. If the auditor was unable to complete the engagement, then the seven-year period begins when the work on the engagement ceased.

## Section 802 of Sarbanes-Oxley and the SEC's Implementing Rule

A42. Many commenters had concerns about the similarity in language between the proposed standard and the SEC final rule (issued in January 2003) on record retention, *Retention of Records Relevant to Audits and Reviews*.<sup>4</sup> Some commenters recommended that the PCAOB undertake a project to identify and resolve all differences between the proposed standard and the SEC's final rule. These commenters also suggested that the Board include similar language from the SEC final rule, Rule 2-06 of Regulation S-X, which limits the requirement to retain some items.

### **Differences Between Section 802 and This Standard**

A43. The objective of the Board's standard is different from the objective of the SEC's rule on record retention. The objective of the Board's standard is to require auditors to create certain documentation to enhance the quality of audit documentation, thereby improving the quality of audits and other related engagements. The records retention section of this standard, mandated by Section 103 of the Act, requires registered public accounting firms to "prepare and maintain for a period of not less than 7 years, *audit work papers, and other information related to any audit report*, in sufficient detail to support the conclusions reached in such report." (emphasis added)

A44. In contrast, the focus of the SEC rule is to require auditors to *retain* documents that the auditor does create, in order that those documents will be available in the event of a regulatory investigation or other proceeding. As stated in the release accompanying the SEC's final rule (SEC Release No. 33-8180):

Section 802 of the Sarbanes-Oxley Act is intended to address the destruction or fabrication of evidence and the preservation of "financial and audit records." We are directed under that section to promulgate rules related to the retention of records relevant to the audits and reviews of financial statements that companies file with the Commission.

A45. The SEC release further states, "New rule 2-06...addresses the retention of documents relevant to enforcement of the securities laws, Commission rules, and criminal laws."

A46. Despite their different objectives, the proposed standard and SEC Rule 2-06 use similar language in describing documentation generated during an audit or review. Paragraph 4 of the proposed Standard stated that, "Audit documentation ordinarily consists of *memoranda, correspondence, schedules, and other documents created or obtained in connection with the engagement* and may be in the form of paper, electronic files, or other media." Paragraph (a) of SEC Rule 2-06 describes "records relevant to the audit or review" that must be retained as, (1) "workpapers and other documents that form the basis of the audit or review and (2) *memoranda, correspondence, communications, other documents, and records (including electronic records), which: [a]re created, sent or received in connection with the audit or review and [c]ontain conclusions, opinions, analyses, or financial data related to the audit or review. ...*" (numbering and emphasis added).

A47. The SEC makes a distinction between the objectives of categories (1) and (2). Category (1) includes audit documentation. Documentation to be retained

---

<sup>4</sup> SEC Regulation S-X, 17 C.F.R. § 210.2-06 (SEC Release No. 33-8180, January 2003). (The final rule was effective in March 2003.)

according to the Board's Standard clearly falls within category (1). Items in category (2) include "desk files" which are more than "what traditionally has been thought of as auditor's 'workpapers'." The SEC's rule requiring auditors to retain items in category (2) have the principal purpose of facilitating enforcement of securities laws, SEC rules, and criminal laws. This is not an objective of the Board's Standard. According to SEC Rule 2-06, items in category (2) are limited to those which: (a) are created, sent or received in connection with the audit or review, and (b) contain conclusions, opinions, analyses, or financial data related to the audit or review. The limitations, (a) and (b), do not apply to category (1).

A48. Paragraph 4 of the final Standard deletes the reference in the proposed standard to "other documents created or obtained in connection with the engagement." The Board decided to keep "correspondence" in the standard because correspondence can be valid audit evidence. Paragraph 20 of the Standard reminds the auditor that he or she may be required to maintain documentation in addition to that required by this Standard.

### ***Significant Matters and Significant Findings or Issues***

A49. Some commenters asked how the term *significant matters*, in Rule 2-06, relates to the term *significant findings* or issues in the Board's Standard. The SEC's release accompanying its final Rule 2-06 states that "...*significant matters* is intended to refer to the documentation of substantive matters that are important to the audit or review process or to the financial statements of the issuer..." This is very similar to the term *significant findings or issues* contained in paragraph 12 of the Board's Standard which requires auditors to document *significant findings or issues*, actions taken to address them (including additional evidence obtained), and the basis for the conclusions reached. Examples of significant findings or issues are provided in the Standard.

A50. Based on the explanation in the SEC's final rule and accompanying release, the Board believes that *significant matters* are included in the meaning of *significant findings or issues* in the Board's standard. The Board is of the view that *significant findings or issues* is more comprehensive and provides more clarity than *significant matters* and, therefore, has not changed the wording in the final Standard.

## **Changes to Audit Documentation**

A51. The proposed standard would have required that any changes to the working papers after completion of the engagement be documented without deleting or discarding the original documents. Such documentation must indicate the date the information was added, by whom it was added, and the reason for adding it.

A52. One commenter recommended that the Board provide examples of auditing procedures that should be performed before the report release date and procedures that may be performed after the report release date. Some commenters also requested clarification about the treatment of changes to documentation that occurred after the completion of the engagement but before the report release date. Many commenters recommended that the Board more specifically describe post-issuance procedures. The Board generally agreed with these comments.

A53. The final Standard includes two important dates for the preparation of audit documentation: (1) the report release date and (2) the documentation completion date.

- Prior to the report release date, the auditor must have completed all necessary auditing procedures, including clearing review notes

and providing support for all final conclusions. In addition, the auditor must have obtained sufficient evidence to support the representations in the auditor's reports before the report release date.

- After the report release date and prior to the documentation completion date, the auditor has 45 calendar days in which to assemble the documentation.

A54. During the audit, audit documentation may be superseded for various reasons. Often, during the review process, reviewers annotate the documentation with clarifications, questions, and edits. The completion process often involves revising the documentation electronically and generating a new copy. The SEC's final rule on record retention, *Retention of Records Relevant to Audits and Reviews*,<sup>5</sup> explains that the SEC rule does not require that the following documents generally need to be retained: superseded drafts of memoranda, financial statements or regulatory filings; notes on superseded drafts of memoranda, financial statements or regulatory filings that reflect incomplete or preliminary thinking; previous copies of workpapers that have been corrected for typographical errors or errors due to training of new employees; and duplicates of documents. This standard also does not require auditors to retain such documents as a general matter.

A55. Any documents, however, that reflect information that is either inconsistent with or contradictory to the conclusions contained in the final working papers may not be discarded. Any documents added must indicate the date they were added, the name of the person who prepared them, and the reason for adding them.

A56. If the auditor obtains and documents evidence after the report release date, the auditor should refer to the Interim Auditing Standards, AU sec. 390, *Consideration of Omitted Procedures After the Report Date* and AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*. Auditors should not discard any previously existing documentation in connection with obtaining and documenting evidence after the report release date.

A57. The auditor may perform certain procedures subsequent to the report release date. For example, pursuant to AU sec. 711, *Filings Under Federal Securities Statutes*, auditors are required to perform certain procedures up to the effective date of a registration statement. The auditor should identify and document any additions to audit documentation as a result of these procedures. No audit documentation should be discarded after the documentation completion date, even if it is superseded in connection with any procedures performed, including those performed pursuant to AU sec. 711.

A58. Additions to the working papers may take the form of memoranda that explain the work performed, evidence obtained, and conclusions reached. Documentation added to the working papers must indicate the date the information was added, the name of the person adding it, and the reason for adding it. All previous working papers must remain intact and not be discarded.

A59. Documentation added to the working papers well after completion of the audit or other engagement is likely to be of a lesser quality than that produced contemporaneously when the procedures were performed. It is very difficult to reconstruct activities months, and perhaps years, after the work was actually performed. The turnover of both firm and company staff can cause difficulty in reconstructing conversations, meetings, data, or other evidence. Also, with

---

<sup>5</sup> See footnote 4.

the passage of time memories fade. Oral explanation can help confirm that procedures were performed during an audit, but oral explanation alone does not constitute persuasive other evidence. The primary source of evidence should be documented at the time the procedures are performed, and oral explanation should not be the primary source of evidence. Furthermore, any oral explanation should not contradict the documented evidence, and appropriate consideration should be given to the credibility of the individual providing the oral explanation.

## **Multi-Location Audits and Using the Work of Other Auditors**

A60. The proposed Standard would have required the principal auditor to maintain specific audit documentation when he or she decided not to make reference to the work of another auditor.

A61. The Board also proposed an amendment to AU sec. 543 concurrently with the proposed audit documentation standard. The proposed amendment would have required the principal auditor to review the documentation of the other auditor to the same extent and in the same manner that the audit work of all those who participated in the engagement is reviewed.

A62. Commenters expressed concerns that these proposals could present conflicts with certain non-U.S. laws. Those commenters also expressed concern about the costs associated with the requirement for the other auditor to ship their audit documentation to the principal auditor. In addition, the commenters also objected to the requirement that principal auditors review the work of other auditors as if they were the principal auditor's staff.

### ***Audit Documentation Must Be Accessible to the Office Issuing the Auditor's Report***

A63. After considering these comments, the Board decided that it could achieve one of the objectives of the proposed standard (that is, to require that the issuing office have access to those working papers on which it placed reliance) without requiring that the working papers be shipped to the issuing office. Further, given the potential difficulties of shipping audit documentation from various non-U.S. locations, the Board decided to modify the proposed standard to require that audit documentation either be retained by or be accessible to the issuing office.

A64. In addition, instead of requiring that all of the working papers be shipped to the issuing office, the Board decided to require that the issuing office obtain, review, and retain certain summary documentation. Thus, the public accounting firm issuing an audit report on consolidated financial statements of a multinational company may not release that report without the documentation described in paragraph 19 of the Standard.

A65. The auditor must obtain and review and retain, prior to the report release date, documentation described in paragraph 19 of the Standard, in connection with work performed by other offices of the public accounting firm or other auditors, including affiliated or non-affiliated firms, that participated in the audit. For example, an auditor that uses the work of another of its offices or other affiliated or non-affiliated public accounting firms to audit a subsidiary that is material to a company's consolidated financial statements must obtain the documentation described in paragraph 19 of the Standard, prior to the report release date. On the other hand, an auditor that uses the work of another of its offices or other affiliated or non-affiliated firms, to perform selected procedures, such as observing the physical inventories of a company, may not be required to obtain the documentation specified in paragraph 19 of the Standard. However,

this does not reduce the need for the auditor to obtain equivalent documentation prepared by the other auditor when those instances described in paragraph 19 of the Standard are applicable.

### ***Amendment to AU Sec. 543, Part of Audit Performed by Other Independent Auditors***

A66. Some commenters also objected to the proposed requirement in the amendment to AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, that the principal auditor review another auditor's audit documentation. They objected because they were of the opinion such a review would impose an unnecessary cost and burden given that the other auditor will have already reviewed the documentation in accordance with the standards established by the principal auditor. The commenters also indicated that any review by the principal auditor would add excessive time to the SEC reporting process, causing even more difficulties as the SEC Form 10-K reporting deadlines have become shorter recently and will continue to shorten next year.

A67. The Board accepted the recommendation to modify the proposed amendment to AU sec. 543, *Part of Audit Performed by Other Independent Auditors*. Thus, in the final amendment, the Board imposes the same unconditional responsibility on the principal auditor to obtain certain audit documentation from the other auditor prior to the report release date. The final amendment also provides that the principal auditor should consider performing one or more of the following procedures:

- Visit the other auditors and discuss the audit procedures followed and results thereof.
- Review the audit programs of the other auditors. In some cases, it may be appropriate to issue instructions to the other auditors as to the scope of the audit work.
- Review additional audit documentation of the other auditors relating to significant findings or issues in the engagement completion document.

### **Effective Date**

A68. The Board proposed that the Standard and related amendment would be effective for engagements completed on or after June 15, 2004. Many commenters were concerned that the effective date was too early. They pointed out that some audits, already begun as of the proposed effective date, would be affected and that it could be difficult to retroactively apply the Standard. Some commenters also recommended delaying the effective date to give auditors adequate time to develop and implement processes and provide training with respect to several aspects of the Standard.

A69. After considering the comments, the Board has delayed the effective date. However, the Board also believes that a delay beyond 2004 is not in the public interest.

A70. The Board concluded that the implementation date of this Standard should coincide with that of PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction With an Audit of Financial Statements*, because of the documentation issues prevalent in PCAOB Auditing Standard No. 2. Therefore, the Board has decided that the standard will be effective for audits of financial statements with respect to fiscal years ending on or after November 15, 2004. The effective date for reviews of interim financial information and other engagements, conducted pursuant to the

Standards of the PCAOB, would occur beginning with the first quarter ending after the first financial statement audit covered by this Standard.

### **Reference to Audit Documentation As the Property of the Auditor**

A71. Several commenters noted that SAS No. 96, *Audit Documentation*, the interim auditing standard on audit documentation, referred to audit documentation as the property of the auditor. This was not included in the proposed Standard because the Board did not believe ascribing property rights would have furthered this standard's purpose to enhance the quality of audit documentation.

### **Confidential Client Information**

A72. SAS No. 96, *Audit Documentation*, also stated that, "the auditor has an ethical, and in some situations a legal, obligation to maintain the confidentiality of client information," and referenced Rule 301, *Confidential Client Information*, of the AICPA's Code of Professional Conduct. Again, the Board's proposed standard on audit documentation did not include this provision. In adopting certain interim Standards and rules as of April 16, 2003, the Board did not adopt Rule 301 of the AICPA's Code of Professional Conduct. In this Standard on audit documentation, the Board seeks neither to establish confidentiality standards nor to modify or detract from any existing applicable confidentiality requirements.

## Addendum

### Additional Documentation Requirements of SEC Rule 2-06

This addendum is not a part of PCAOB Auditing Standard No. 3.

B1. Auditors should be aware of the additional record retention requirements in SEC Rule 2-06 of Regulation S-X ("Rule 2-06"). The Board is providing additional information below to remind auditors of the SEC requirements. This addendum is not an interpretation of Rule 2-06. Instead, this addendum provides excerpts from the SEC release accompanying the final rule which provides the SEC's interpretation of the rule's requirements, particularly paragraphs (a) and (c) of Rule 2-06.

B2. Paragraph (a) of Rule 2-06 requires that:

... the accountant shall retain ... memoranda, correspondence, communications, other documents, and records (including electronic records) which:

- (1) Are created, sent or received in connection with the audit or review, and
- (2) Contain conclusions, opinions, analyses, or financial data related to the audit or review.

B3. Paragraph (c) of Rule 2-06 states:

Memoranda, correspondence, communications, other documents, and records (including electronic records) described in paragraph (a) of this section shall be retained whether they support the auditor's final conclusions regarding the audit or review, or contain information or data relating to a significant matter, that is inconsistent with the auditor's final conclusions regarding that matter or the audit or review. Significance of a matter shall be determined based on an objective analysis of the facts and circumstances. Such documents and records include, but are not limited to, those documenting a consultation on or resolution of differences in professional judgment.

### Other Statements by the SEC

B4. In the excerpt below, from the SEC's release accompanying its final Rule 2-06, the SEC discusses documents that generally are not required to be retained under Rule 2-06.

In the Proposing Release, we stated that non-substantive materials that are not part of the workpapers, such as administrative records, and other documents that do not contain relevant financial data or the auditor's conclusions, opinions or analyses would not meet the second of the criteria in Rule 2-06(a) and would not have to be retained. Commentators questioned whether the following documents would be considered substantive and have to be retained:

- Superseded drafts of memoranda, financial statements or regulatory filings,
- Notes on superseded drafts of memoranda, financial statements or regulatory filings that reflect incomplete or preliminary thinking,
- Previous copies of workpapers that have been corrected for typographical errors or errors due to training of new employees,

- Duplicates of documents, or
- Voice-mail messages.

These records generally would not fall within the scope of new Rule 2-06 provided they do not contain information or data, relating to a significant matter that is inconsistent with the auditor's final conclusions, opinions or analyses on that matter or the audit or review. For example, Rule 2-06 would require the retention of an item in this list if that item documented a consultation or resolution of differences of professional judgment.

B5. The excerpt below, from the SEC's release accompanying its final Rule 2-06, provides further explanation about documents to be retained under Rule 2-06:

In consideration of the comments received, we have revised paragraph (c) of the rule. We have removed the phrase "cast doubt" to reduce the possibility that the rule mistakenly would be interpreted to reach typographical errors, trivial or "fleeting" matters, or errors due to "on-the-job" training. We continue to believe, however, that records that either support or contain significant information that is inconsistent with the auditor's final conclusions would be relevant to an investigation of possible violations of the securities laws, Commission rules, or criminal laws and should be retained. Paragraph (c), therefore, now provides that the materials described in paragraph (a) shall be retained whether they support the auditor's final conclusions or contain information or data, relating to a significant matter that is inconsistent with the final conclusions of the auditor on that matter or on the audit or review. Paragraph (c) also states that the documents and records to be retained include, but are not limited to, those documenting consultations on or resolutions of differences in professional judgment.

The reference in paragraph (c) to "significant" matters is intended to refer to the documentation of substantive matters that are important to the audit or review process or to the financial statements of the issuer or registered investment company. Rule 2-06(c) requires that the documentation of such matters, once prepared, must be retained even if it does not "support" the auditor's final conclusions, because it may be relevant to an investigation. Similarly, the retention of records regarding a consultation about, and resolution of, differences in professional judgment would be relevant to such an investigation and must be retained. We intend for Rule 2-06 to be incremental to, and not to supersede or otherwise affect, any other legal or procedural requirement related to the retention of records or potential evidence in a legal, administrative, disciplinary, or regulatory proceeding.

Finally, we recognize that audits and reviews of financial statements are interactive processes and views within an accounting firm on accounting, auditing or disclosure issues may evolve as new information or data comes to light during the audit or review. We do not view "differences in professional judgment" within subparagraph (c) to include such changes in preliminary views when those preliminary views are based on what is recognized to be incomplete information or data.

## Appendix 2

### Amendment to Interim Auditing Standards—Part of Audit Performed by Other Independent Auditors

#### AU sec. 543.12 is amended as follows:

When the principal auditor decides not to make reference to the audit of the other auditor, in addition to satisfying himself as to the matters described in AU sec. 543.10, the principal auditor must obtain, and review and retain, the following information from the other auditor:

- a. An engagement completion document consistent with paragraphs 12 and 13 of PCAOB Auditing Standard No. 3.  
Note: This engagement completion document should include all cross-referenced, supporting audit documentation.
- b. A list of significant fraud risk factors, the auditor's response, and the results of the auditor's related procedures.
- c. Sufficient information relating to significant findings or issues that are inconsistent with or contradict the auditor's final conclusions, as described in paragraph 8 of PCAOB Auditing Standard No. 3.
- d. Any findings affecting the consolidating or combining of accounts in the consolidated financial statements.
- e. Sufficient information to enable the office issuing the auditor's report to agree or reconcile the financial statement amounts audited by the other firm to the information underlying the consolidated financial statements.
- f. A schedule of audit adjustments, including a description of the nature and cause of each misstatement.
- g. All significant deficiencies and material weaknesses in internal control over financial reporting, including a clear distinction between those two categories.
- h. Letters of representations from management.
- i. All matters to be communicated to the audit committee.

The principal auditor must obtain, and review and retain, such documents prior to the report release date.<sup>1</sup> In addition, the principal auditor should consider performing one or more of the following procedures:

- Visit the other auditor and discuss the audit procedures followed and results thereof.

---

<sup>1</sup> As it relates to the direction in paragraph .19 of AU sec. 324, for the auditor to "give consideration to the guidance in section 543.12," the auditor need not, in this circumstance, obtain the previously enumerated documents.

- Review the audit programs of the other auditor. In some cases, it may be appropriate to issue instructions to the other auditor as to the scope of the audit work.
  - Review additional audit documentation of the other auditor relating to significant findings or issues in the engagement completion document.
-

## PCAOB Release No. 2004-007

# ***Rule Regarding Certain Terms Used in Auditing and Related Professional Practice Standards***

PCAOB Release No. 2004-007  
June 9, 2004

PCAOB Rulemaking  
Docket Matter No. 009

### **Summary:**

After public comment, the Public Company Accounting Oversight Board (the "PCAOB" or "Board") has adopted Rule 3101, *Certain Terms Used in Auditing and Related Professional Practice Standards*. The Board will submit this rule to the Securities and Exchange Commission ("SEC" or "Commission") for approval pursuant to Section 107 of the Sarbanes-Oxley Act of 2002 (the "Act"). This rule will not take effect unless approved by the Commission.

### **Board Contacts:**

Greg Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org), and Bella Rivshin, Assistant Chief Auditor (202/207-9180; rivshinb@pcaobus.org).

\* \* \*

Section 103 of the Act directs the Board to establish auditing and related professional practice standards, including auditing, attestation, quality control, ethics, and independence standards, applicable to registered public accounting firms in the preparation and issuance of audit and other reports for public companies. To date, the Board has adopted rules that require registered public accounting firms and their associated persons to "comply with all applicable auditing and related professional practice standards," (Rule 3100) and designate as interim standards of the Board certain standards that existed as of April 16, 2003 (Rules 3200T—3600T).

On October 7, 2003, the Board proposed Rule 3101 to set forth the terminology the Board will use to describe the degree of responsibility that the auditing and related professional practice standards impose on registered auditors. As proposed, this terminology also would apply to the Board's interim standards. The Board believes that the use of clear, concise, consistent, and definitive imperatives will improve audit quality.

The Board received 12 comment letters from a variety of interested parties, including auditors, professional associations, and government agencies. In response to the comments received, several changes were made to the requirements of the rule, which are described in detail in Appendix 2.

Appendices 1 and 2 to this release contain, respectively, the text of Rule 3101, *Certain Terms Used in Auditing and Related Professional Practice Standards*, and the Section-by-Section Analysis.

## A. Introduction

Until now, the accounting profession has not expressly defined imperatives used to describe different degrees of the auditor's responsibility when conducting engagements in accordance with professional standards. Because of its concerns regarding the clarity in and consistency of existing standards, the Public Oversight Board's Panel on Audit Effectiveness recommended that the various levels of imperatives in auditing standards be clarified.<sup>1</sup> The Board agrees that defining these levels of imperatives will assist auditors with their work and further enhance the quality of audits.

Rule 3101 defines terminology the Board will use to describe the degrees of responsibility that the standards impose on the auditors as follows—

1. Unconditional Responsibility. The words "must," "shall," and "is required" indicate unconditional responsibilities. The auditor must fulfill responsibilities of this type in all cases in which the circumstances exist to which the requirement applies.
2. Presumptively Mandatory Responsibility. The word "should" indicates responsibilities that are presumptively mandatory. The auditor must comply with requirements of this type specified in the Board's standards unless the auditor demonstrates that alternative actions he or she followed in the circumstances were sufficient to achieve the objectives of the standard.
3. Responsibility To Consider. The words "may," "might," "could," and other terms and phrases describe actions and procedures that auditors have a responsibility to consider. Matters described in this fashion require the auditor's attention and understanding. How and whether the auditor implements these matters in the audit will depend on the exercise of professional judgment in the circumstances consistent with the objectives of the standard.

## B. Applicability to Interim Standards

Although the auditing and related professional practice standards did not previously expressly define the degree of responsibility attached to these terms, the Board determined that the terminology defined in Rule 3101 is consistent with the existing interpretation of the interim standards. The Board believes that applying Rule 3101 to all auditing and related professional practice standards, including the interim standards, will create a common understanding among auditors of performance expectations when conducting engagements in accordance with the PCAOB Standards. Therefore, the Board concluded that it is appropriate to apply the definitions of these particular terms to the interim standards.

## C. Documentation Requirement for Presumptively Mandatory Responsibility

The integrity of the audit depends, in large part, on the existence of a complete and understandable record of the work performed, the conclusions reached, and the evidence obtained to support those conclusions. Clear, complete, and comprehensive audit documentation enhances the quality of the audit. Audit documentation should demonstrate compliance with professional standards and

---

<sup>1</sup> Panel on Audit Effectiveness, *Report and Recommendations* §2.228 (August 31, 2000).

provide an explanation to justify the reasons for any variations in procedures performed.

The PCAOB Standards require that the auditor document the procedures performed, evidence obtained, and conclusions reached during an engagement. To further enhance the quality of the audit, Rule 3101(a)(2) adds a specific documentation requirement to achieve complete and comprehensive audit documentation for situations in which the auditor does not perform a presumptively mandatory activity. In those instances, auditors must document the reasons they chose not to perform the presumptively mandatory activity and how the alternative procedure performed sufficiently achieved the objectives of the specific standard.

During an internal or external review of the engagement, other evidence, including oral explanation, may help substantiate the procedures performed by the auditor during the audit. However, because the auditor is required to document his or her work during the audit, oral explanation should be used only to clarify the documented work performed. Furthermore, the reviewer should give appropriate consideration to the credibility of the individual(s) providing the oral explanation, and the oral explanation should be consistent with the documented evidence.

## D. Effective Date

Because of the specific documentation requirement in paragraph (a)(2) of this rule, the Board has determined that the implementation date for the documentation requirement contained in Rule 3101 should coincide with that of PCAOB Auditing Standard No. 3, *Audit Documentation*. Therefore, the documentation requirement for Rule 3101(a)(2) will be effective for audits of financial statements with respect to fiscal years ending on or after the later of November 15, 2004, or 30 days after the date of approval of this rule by the SEC. The remaining Rule 3101 provisions become effective immediately following approval by the SEC.

\* \* \*

On the 9th day of June, in the year 2004, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

## APPENDICES—

1. Rule 3101—Certain Terms Used in Auditing and Related Professional Practice Standards
2. Section-by-Section Analysis of Rule 3101

## Appendix 1

### Rule Regarding Certain Terms Used in Auditing and Related Professional Practice Standards

#### RULES OF THE BOARD

#### SECTION 1. GENERAL PROVISIONS

#### Rule 1001. Definitions of Terms Employed in Rules

##### (a)(xi) Auditor

The term "auditor" means both public accounting firms registered with the Public Company Accounting Oversight Board and associated persons thereof.

#### SECTION 3. PROFESSIONAL STANDARDS

##### Part 1—General Requirements

#### Rule 3101. Certain Terms Used in Auditing and Related Professional Practice Standards

- (a) The Board's auditing and related professional practice standards use certain terms set forth in this rule to describe the degree of responsibility that the standards impose on auditors.
- (1) **Unconditional Responsibility:** The words "must," "shall," and "is required" indicate unconditional responsibilities. The auditor must fulfill responsibilities of this type in all cases in which the circumstances exist to which the requirement applies. Failure to discharge an unconditional responsibility is a violation of the relevant standard and Rule 3100.
  - (2) **Presumptively Mandatory Responsibility:** The word "should" indicates responsibilities that are presumptively mandatory. The auditor must comply with requirements of this type specified in the Board's standards unless the auditor demonstrates that alternative actions he or she followed in the circumstances were sufficient to achieve the objectives of the standard. Failure to discharge a presumptively mandatory responsibility is a violation of the relevant standard and Rule 3100 unless the auditor demonstrates that, in the circumstances, compliance with the specified responsibility was not necessary to achieve the objectives of the standard.  

Note: In the rare circumstances in which the auditor believes the objectives of the standard can be met by alternative means, the auditor, as part of documenting the planning and performance of the work, must document the information that demonstrates that the objectives were achieved.
  - (3) **Responsibility To Consider:** The words "may," "might," "could," and other terms and phrases describe actions and procedures that auditors have a responsibility to consider. Matters described in this fashion require the auditor's attention and understanding. How and whether the auditor implements these matters in the

audit will depend on the exercise of professional judgment in the circumstances consistent with the objectives of the standard.

Note: If a Board standard provides that the auditor "should consider" an action or procedure, consideration of the action or procedure is presumptively mandatory, while the action or procedure is not.

- (b) The terminology in paragraph (a) of this rule applies to the responsibilities imposed by the auditing and related professional practice standards, including the interim standards adopted in Rules 3200T, 3300T, 3400T, 3500T, and 3600T.
- (c) The documentation requirement in paragraph (a)(2) is effective for audits of financial statements or other engagements with respect to fiscal years ending on or after [insert date the later of November 15, 2004, or 30 days after approval of this rule by the Securities and Exchange Commission].

## Appendix 2

### Section-by-Section Analysis of Rule 3101

#### Rule 3101(a)

In drafting its standards, the Board intends to distinguish among three levels of auditor responsibility. Rule 3101(a) explains the terminology regarding imperatives used in the standards the Board establishes.

Rule 3101(a)(1) provides that the words "must," "shall," and "is required" in standards indicate unconditional responsibilities. The auditor must accomplish responsibilities of this type in all cases in which the circumstances exist to which the requirement applies. A failure to discharge an unconditional responsibility imposed under the Board's standards is a violation of the relevant standard and Rule 3100.

Rule 3101(a)(2) provides that the word "should" in standards indicates responsibilities that are presumptively mandatory. The auditor must comply with requirements of this type unless the auditor demonstrates that alternative actions he or she followed in the circumstances were sufficient to achieve the objectives of the standard. In the rare circumstances in which the auditor believes the objectives of the standard can be met by alternative means, the auditor, as part of documenting the planning and performance of the work, must document the information that demonstrates that the objectives were achieved. The Board has determined that a failure to discharge a presumptively mandatory responsibility is a violation of the relevant standard and Rule 3100 unless the auditor demonstrates that, in the circumstances, compliance with the specified responsibility was not necessary to achieve the objectives of the standard.

Rule 3101(a)(3) provides that the words "may," "might," "could," and other terms and phrases describe actions and procedures that auditors have a responsibility to consider. Matters described in this fashion require the auditor's attention and understanding. How and whether the auditor implements these matters in the audit will depend on the exercise of professional judgment in the circumstances.

The Board added the following captions to Rule 3101(a): 3101(a)(1) Unconditional Responsibility, 3101(a)(2) Presumptively Mandatory Responsibility, and 3101(a)(3) Responsibility To Consider. Proposed Rule 3101(a) did not have a caption or designation for each category of terms. Rather, the proposed rule simply referenced the category of certain terms by using the standard format in PCAOB rulemaking. The Board added the captions in response to a commenter's recommendation that a caption be added to each category of certain terms for ease of reference and clarity.

One commenter recommended replacing the term "obligation" in Rule 3101 with a comparable term because the commenter believed that the term "obligation" in legal and governmental environments has a connotation that is inconsistent with the intent of Rule 3101 and may be misinterpreted by legal or governmental officials. After considering this comment, the Board replaced the term "obligation" with the synonym "responsibility" in Rule 3101.

Rule 3101(a)(2) defines a presumptively mandatory responsibility as a requirement that the auditor must comply with "unless the auditor demonstrates that alternative actions he or she followed in the circumstances were sufficient to

achieve the objectives of the standard." Furthermore, Rule 3101(a)(2) states that "failure to discharge a presumptively mandatory responsibility is a violation of the relevant standard and Rule 3100 unless the auditor demonstrates that, in the circumstances, compliance with the specified responsibility was not necessary to achieve the objectives of the standard."

The Board also added a note to Rule 3101(a)(2) to require auditors to document compliance with presumptively mandatory responsibilities by alternative means. The Board originally proposed that the auditor be required to "demonstrate by verifiable, objective, and documented evidence" that the alternative procedures he or she followed were sufficient in the specific circumstances. Commenters stated that they believed that the documentation requirement was important, both to promote discipline of thought and to provide a uniform basis for evaluating compliance with the standards. Several of these commenters went even further to recommend that the Board strengthen the documentation requirement by adding language such as "contemporaneous" and "memorialized at the time of the audit" to the rule.

Conversely, other commenters suggested that the documentation requirement was unduly onerous and placed too great a documentation burden on the auditors. The commenters argued that the documentation would be too voluminous and would add very little value to the audit. Some of these commenters further recommended that, in lieu of the proposed documentation requirement, the rule require that the auditor consider the significance of the particular audit area and document only the significant issues or findings. A commenter also recommended that other evidence, such as oral explanation, should be allowed as support for the reasons why the auditor chose not to perform a presumptively mandatory responsibility. Additionally, some commenters recommended that the documentation requirement should be addressed in the standard on audit documentation.

The integrity of the audit depends, in large part, on the existence of a complete and understandable record of the work performed, the conclusions reached, and the evidence obtained to support those conclusions. Clear, complete, and comprehensive audit documentation enhances the quality of the audit. Audit documentation should demonstrate compliance with professional standards and justify the reasons for any variations in procedures performed.

The PCAOB Standards require the auditor to document the procedures performed, evidence obtained, and conclusions reached during an engagement. To further enhance the quality of the audit, Rule 3101(a)(2) adds a specific documentation requirement to achieve complete and comprehensive audit documentation in engagement working papers for situations in which the auditor does not perform a presumptively mandatory responsibility. In those instances, it is essential that auditors document the reasons they chose not to perform the presumptively mandatory responsibility and how the alternative procedure they performed sufficiently achieved the objectives of the specific standard.

Because circumstances will be rare in which the auditor will perform an alternative procedure, the Board anticipates that the documentation requirement in the rule ought not to result in unduly onerous consequences or too voluminous documentation. Furthermore, since the auditor must already document the work performed as part of the audit, adding a concise explanation as to why the auditor chose to perform the alternative procedure should not increase the volume of documentation to an unreasonable level.

During an internal or external review of the engagement, other evidence, including oral explanation, may help substantiate the procedures performed by the auditor during the audit. However, because the auditor is required to document his or her work in the engagement working papers during the audit, oral explanation should be used only to clarify the documented work performed. The justification as to why the alternative procedure was performed rather than the presumptively mandatory responsibility must be documented in the working papers. Furthermore, the reviewer should give appropriate consideration to the credibility of the individual(s) providing the oral explanation, and the oral explanation should be consistent with the documented evidence in the engagement working papers.

Moreover, the Board concluded that applying the documentation requirement only to significant issues, findings, or procedures is impractical because it will not be efficient or effective to determine, each time, whether the level of significance of an audit area warranted the auditor to document the reasons for choosing to perform an alternative procedure instead of the presumptively mandatory procedure. The purpose of Rule 3101 is to bring uniformity to definitions and requirements that auditors have to follow. In addition, the Board determined that moving Rule 3101(a)(2)'s documentation requirement to the audit documentation standard would not be appropriate because of its specific subject matter.

Additionally, the Board has added a note, originally a footnote in the Board's proposing release accompanying its proposed rule, describing an auditor's responsibility in a "should consider" scenario to the text of Rule 3101(a)(3), Responsibility to Consider. Some commenters recommended that this footnote be added directly to the text of the rule because they saw it as an important clarification that was not included in the original proposed rule. A commenter further urged the Board to elaborate on its applicability and the documentation requirements for a "should consider" action.

Another commenter suggested that the "should consider" footnote be excluded from the rule because it implies that the action would require the auditor to document every instance of compliance with a "should consider" action. The commenter, instead, recommended that Rule 3101(a)(3) be revised to apply to all considerations regardless of how the obligation is expressed (for example, whether it is preceded by a "should," "may," "could," or "might").

Because the "should consider" terminology is widely used in the interim standards, the Board determined that it is important to state the Board's expectation for compliance and, therefore, agreed with commenters who recommended adding the "should consider" footnote to the text of Rule 3101(a)(3). Furthermore, the Board concluded that there is an important difference between a "should consider" and a "may consider" action or procedure. The difference is a direct correlation to the definitions of "should" and "may." The auditor has a greater responsibility in a "should consider" action because the auditor has a presumptively mandatory responsibility to consider the action or procedure versus just having a responsibility to consider the action. Therefore, Rule 3101(a)(3) was not revised to apply to all considerations regardless of how the obligation is expressed.

Additionally, the Board determined that the documentation requirement relating to a procedure that an auditor "should consider" is not the same as the documentation requirement for a presumptively mandatory responsibility because in a "should consider" situation, only the consideration of the action

is presumptively mandatory, while the action or procedure itself is not. In these situations, the auditor should use his or her professional judgment in determining how to document his or her consideration of the specific action or procedure.

### **Rule 3101(b)**

Rule 3101(b) provides that the terminology in paragraph (a) of this rule applies to all the auditing and related professional practice standards, including the interim standards adopted in Rules 3200T, 3300T, 3400T, 3500T, and 3600T. Rule 3101(b) applies to conduct occurring after the effective date of the rule.

Therefore, Rule 3101(b) provides that the terminology in Rule 3101(a) is applicable to all existing auditing and related professional practice standards with which auditors must comply. The Board determined that a failure to comply with a presumptively mandatory responsibility in an interim standard will be treated as a violation of the relevant standard and Rule 3100 unless the auditor demonstrates that, in the specific circumstances, compliance was not necessary to achieve the objectives of the standard.

Some commenters on the proposed rule stated that the imperatives the Board identified are consistent with the way auditors currently interpret existing auditing and related professional practice standards, while other commenters recommended that Rule 3101(a) not apply to the interim standards on the grounds that the new definitions could create confusion or have unintended consequences. Because the accounting profession previously had not expressly defined these terms, commenters further recommended that the Board perform a comprehensive analysis of how and in what context the interim standards use the defined terms to determine whether current practice is consistent with the Rule 3101(a) definitions.

The Board concluded that the terminology defined in Rule 3101 is consistent with the existing interpretation regarding the application of the terminology in the interim standards. Rule 3101 creates a common understanding among the auditors as to what is expected of them when performing engagements in accordance with the PCAOB Standards and, therefore, Rule 3101 will apply to the interim standards.

Furthermore, a commenter recommended that the Board clarify the level of authority the appendices carry when accompanying the Board's Standards. Because the Board adopts the appendices to its permanent standards as rules, the appendices to the Board's permanent standards carry the same level of authority as the standards themselves. In addition, the appendices to the interim standards, which in certain circumstances carry a different level of authority, retain their original level of authority as adopted on April 16, 2003.

### **Rule 3101(c)**

Rule 3101(c) establishes an effective date for the documentation requirement in paragraph (a)(2). The Board agreed with commenters who recommended establishing an effective date to provide a reasonable amount of time for auditors to implement procedures to properly comply with the new documentation requirement.

Rule 3101 does not apply retroactively. Therefore, conduct occurring before the rule is effective will be evaluated in light of the standards as they existed at

the time of the conduct. As noted above, however, the Board believes that, except for the documentation requirement in Rule 3101(a)(2), the definitions in Rule 3101 are consistent with the existing interpretation of these terms in the existing, interim standards. Therefore, as an interpretive matter, the Board expects that it will interpret these terms in the existing, interim standards in a manner consistent with their definitions in Rule 3101, in light of the facts and circumstances of each particular situation.

---

**PCAOB Release No. 2005-014*****Ethics and Independence Rule Concerning Independence, Tax Services, and Contingent Fees***

PCAOB Release No. 2005-014

July 26, 2005

PCAOB Rulemaking  
Docket Matter No. 017**Approved by the Securities and Exchange Commission on April 19, 2006, with varying effective dates.**

The Securities and Exchange Commission has approved PCAOB ethics and independence rules concerning independence, tax services and contingent fees.

The rules introduce a foundation for the independence component of the Board's ethics rules by establishing a general obligation requiring a registered public accounting firm and its associated persons to be independent of the firm's audit clients throughout the audit and professional engagement period.

The rules identify circumstances in which the provision of tax services impairs an auditor's independence, including services related to marketing, planning, or opining in favor of the tax treatment of, among other things, transactions that are based on aggressive interpretations of applicable tax laws and regulations.

The rules also treat registered public accounting firms as not independent of their audit clients if they enter into contingent fee arrangements with those clients or if the firms provide tax services to certain members of management who serve in financial reporting oversight roles at an audit client or to immediate family members of such persons.

The rules further implement the Sarbanes-Oxley Act's requirement that auditors' non-audit services be pre-approved by the audit committee by strengthening the auditor's responsibilities in connection with seeking audit committee pre-approval of tax services. Specifically, the rules require a registered public accounting firm that seeks such pre-approval to describe proposed tax services engagements, in writing, for the audit committee; to discuss with the audit committee the potential effects of the services on the firm's independence; and to document the substance of that discussion.

Finally, an ethics rule also codifies the principle that persons associated with a registered public accounting firm (e.g., individual accountants) can be held responsible when certain of their actions contribute to a firm's violation of relevant laws, rules, or professional standards.

The effective dates for the rules follow:

<b>Rule</b>	<b>Effective Date</b>
3501—Definition of Terms	April 29, 2006
3502—Responsibility Not to Knowingly or Recklessly Contribute to Violations	April 29, 2006
3520—Auditor Independence	April 29, 2006
3521—Contingent Fees	Rule 3521 will not apply to contingent fee arrangements that were paid in their entirety, converted to fixed fee arrangements, or otherwise unwound before June 18, 2006.
3522—Tax Transactions	Rule 3522 will not apply to tax services that were completed by a registered public accounting firm no later than June 18, 2006.
3523—Tax Services for Persons in Financial Reporting Oversight Roles	Rule 3523 will not apply to tax services being provided pursuant to an engagement in process on April 19, 2006, provided that such services are completed on or before October 31, 2006.
3524—Audit Committee Pre-approval of Certain Tax Services	Rule 3524 will not apply to any tax service pre-approved on an engagement-by-engagement basis before June 18, 2006. With respect to tax services provided to audit clients whose audit committees pre-approve tax services pursuant to policies and procedures, Rule 3524 will not apply to any such tax service that is begun by April 20, 2007.

## Summary:

The Public Company Accounting Oversight Board ("PCAOB" or "Board") is adopting rules to promote the ethics and independence of registered public accounting firms that audit financial statements of U.S. public companies. The rules treat a registered firm as not independent of a public company audit client if the firm, or an affiliate of the firm, provided any service or product to an audit client for a contingent fee or a commission, or received from an audit client, directly or indirectly, a contingent fee or commission. The rules also treat such a firm as not independent if the firm, or an affiliate of the firm, provided assistance in planning, or provided tax advice on, certain types of potentially abusive tax transactions to an audit client or provided any tax services to certain persons employed by an audit client. Further, the rules require registered public accounting firms to provide certain information to audit committees in connection with seeking pre-approval to provide non-prohibited tax services.

In addition to these rules relating to tax services, the Board also is adopting a general rule requiring registered public accounting firms and their associated persons to be independent of their audit clients throughout the audit and professional engagement period. Finally, the Board is adopting a rule on the responsibility of persons associated with registered public accounting firms not to cause registered public accounting firms to violate the Sarbanes-Oxley Act of 2002 (the "Act"), the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Securities and Exchange Commission issued under the Act, and professional standards.

## Public Comments:

The Board released for public comment proposed rules to promote the ethics and independence of registered public accounting firms on December 14, 2004. The Board received 805 letters of comment.

## Board Contacts:

Bella Rivshin, Assistant Chief Auditor (202/207-9180; rivshinb@pcaobus.org),  
Greg Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org).

\* \* \*

## I. Final Rules on Auditors' Provision of Tax Services

On December 14, 2004, the Board proposed certain rules related to registered public accounting firms' provision of tax services to public company audit clients. The proposal was designed to address certain concerns related to auditor independence when auditors become involved in marketing or otherwise opining in favor of aggressive tax shelter schemes and in selling personal tax services to individuals who play a direct role in preparing the financial statements of public company audit clients. The proposal was also based on the Board's recognition of the fact that accounting firms have long offered basic tax compliance services that have not raised significant questions about those firms' ability also to serve as independent auditors. The Board received 805 comment letters from investors, auditors, issuers, and others, most of whom, in general, supported the proposed rules.<sup>1</sup>

Neither the federal securities laws nor the SEC's rules prohibit auditors from providing tax services to their audit clients, so long as such services are pre-approved by a company's audit committee (and so long as those services do not fall into one of several enumerated categories of expressly prohibited services).<sup>2</sup> The SEC has recognized, however—most recently in connection with promulgating rules to implement the auditor independence provisions of Title II of the Act<sup>3</sup>—that while it did not consider conventional tax compliance and planning to be a threat to auditor independence, the marketing of novel, tax-driven financial products raises more challenging auditor independence issues.

---

<sup>1</sup> Seven hundred forty of these comment letters were from individual investors expressing strong support for the proposal.

<sup>2</sup> On February 5, 2003, the Securities and Exchange Commission ("SEC" or "Commission") adopted rules to implement Title II of the Sarbanes-Oxley Act of 2002 (the "Act"). These rules address key aspects of auditor independence with special emphasis on the provision of non-audit services. The rules expressly prohibit ten categories of non-audit services, as required by Section 201 of the Act. Strengthening the Commission's Requirements Regarding Auditor Independence, SEC Release No. 33-8183, § II.B.11 (Jan. 28, 2003), 17 C.F.R. Parts 210, 240, 249, and 274.

<sup>3</sup> See *id.*

On this basis, the SEC has cautioned that an audit committee should "scrutinize carefully" the retention of the company's auditor in a transaction initially recommended by the auditor "the sole business purpose of which may be tax avoidance and the tax treatment of which may be not supported in the Internal Revenue Code and related regulations."<sup>4</sup>

In addition to requiring the SEC to establish rules implementing the Act's prohibition of certain non-audit services, the Act vested in the PCAOB the authority to establish standards relating to ethics and independence in public company auditing. Specifically, Section 103(a) of the Act directs the Board, by rule, to establish "ethics standards to be used by registered public accounting firms in the preparation and issuance of audit reports, as required by th[e] Act or the rules of the Commission, or as may be necessary or appropriate in the public interest or for the protection of investors." Moreover, Section 103(b) of the Act directs the Board to establish such rules on auditor independence "as may be necessary or appropriate in the public interest or for the protection of investors, to implement, or as authorized under, Title II of th[e] Act."<sup>5</sup>

As discussed more fully in the Board's proposing release, since the SEC issued its new rules, two types of tax services have raised serious concerns among investors, auditors, lawmakers, and others relating to the ethics and independence of accounting firms that provide both auditing and tax services—

1. the marketing to public company audit clients of questionable tax transactions used improperly to avoid paying taxes or to manipulate financial statements in order to make such statements appear more favorable to investors, and
2. the provision of tax services, including tax shelter products, to executives of public company audit clients who are involved in the financial reporting process at such companies.

Indeed, in an April 2005 report issued since the Board's proposal, the Permanent Subcommittee on Investigations of the Senate Committee on Governmental Affairs (the "Subcommittee") found that some of the nation's largest accounting firms had in the past sold generic tax products to multiple corporate and individual clients despite evidence that some of those products were potentially abusive or illegal.<sup>6</sup> In addition, the Internal Revenue Service ("IRS") and the

<sup>4</sup> *Id.* Moreover, the SEC's release accompanying its rules referred to the recommendation of the Conference Board's Commission on Public Trust and Private Enterprise that, as a "best practice," auditors not provide advice on "novel and debatable" tax strategies and products. *Id.* §II.B.11 at note 112.

<sup>5</sup> Pursuant to this authority, in April 2003, the Board adopted as its interim, transitional, independence standards (PCAOB Rule 3600T) the American Institute of Certified Public Accountants ("AICPA") *Code of Professional Conduct* Rule 101 and related interpretations and rulings thereof, as they existed on April 16, 2003. PCAOB Rule 3600T notes that the interim standards do not supersede the Commission's auditor independence rules and, to the extent that a provision of the Commission's rules is more restrictive (or less restrictive) than the interim standards, the auditor must comply with the more restrictive rules. The PCAOB also adopted Independence Standards Board ("ISB") Standard Nos. 1, 2, and 3 and Interpretations 99-1, 00-1, and 00-2 as additional interim independence standards.

<sup>6</sup> *See* Permanent Subcommittee on Investigations of the Committee on Homeland Security and Governmental Affairs, *The Role of Professional Firms in the U.S. Tax Shelter Industry*, S. REP. No. 109-54, at 6 (2005) (hereinafter "April 2005 Senate Report"). This report was based on a Subcommittee investigation that included hearings, in November 2003, in which the Subcommittee elicited testimony that described certain potentially abusive tax shelter products marketed through cold-call selling techniques by accounting firms and others. *See also U.S. Tax Shelter Industry: The Role of Accountants, Lawyers, and Financial Professionals: Hearings Before the Permanent Subcommittee on Investigations of the Senate Committee on Governmental Affairs*, 108th Cong. (2003) (hereinafter "U.S. Tax Shelter Hearings").

U.S. Department of Justice have brought a number of cases against accounting firms in connection with those firms' marketing of tax shelter products and, specifically, those firms' alleged failures to register, or comply with list maintenance requirements relating to, their tax shelter products. Most recently, earlier this year, the IRS proposed a settlement initiative for executives and companies that participated in certain abusive tax avoidance transactions, at times with the assistance of the companies' auditors.<sup>7</sup> At the time the initiative was announced, IRS Commissioner Mark W. Everson said that "[t]hese transactions raise[d] questions not only about compliance with the tax laws, but also, in some instances, about corporate governance and auditor independence."<sup>8</sup> Specifically, the IRS concluded that "[r]eal or perceived conflicts of interest may exist where independent auditors certify to the public the accuracy and integrity of the company's financial statements and these auditors advise senior executives on their personal tax issues about abusive tax shelters they promoted, the same executives that oversee the relationship with the auditing firm."<sup>9</sup>

The Government Accountability Office ("GAO") also has noted concerns about auditors' involvement in marketing abusive tax shelters to public companies. The GAO recently reported that 61 Fortune 500 companies obtained tax shelter services from their external auditors during the period 1998 through 2003.<sup>10</sup> The GAO also noted that the IRS considered some of these "transactions abusive, with tax benefits subject to disallowance under existing law, and other transactions possibly to have some traits of abuse."<sup>11</sup>

While other organizations have focused on a variety of legal and ethical issues presented by the tax shelter business, the Board's proposal focused on whether tax services generally, or any class of tax services, impair an auditor's independent judgment, in fact or appearance, in its audit work. Thus, over several months, the Board considered a wide range of tax services, including routine tax return preparation and tax compliance; tax planning and advice relating to federal, state, local, and other tax laws; executive tax services; international assignment tax services; and tax shelter strategies and products. To assist the Board in its evaluation, the Board held a public roundtable discussion with individuals representing a variety of viewpoints, including investors, auditors, managers of public companies, governmental officials, and others.<sup>12</sup>

Based on this evaluation, the Board developed a set of proposed rules designed to establish a framework for addressing the concerns that have arisen in connection with auditors' provision of tax services to their public company audit

clients. Specifically, the proposed rules were designed, among other things, to prevent auditors from providing (1) certain aggressive tax shelter services to public company audit clients, (2) any other service to a public company audit client for a contingent fee, which is a fee arrangement often used in tax work, and (3) any tax service to certain persons who serve in financial reporting oversight roles at a public company audit client. The proposed rules also would implement the requirements of the Act and the SEC's independence rules when an auditor seeks audit committee pre-approval to provide tax services that are not prohibited by the Board's or the SEC's rules.

The Board also sought comment on whether additional types of tax services, such as tax compliance services, should be prohibited by a Board rule. After carefully considering the comments received on this issue, most of which supported the Board's preliminary determination to exclude certain kinds of tax services from the purview of its proposed rules, the Board has determined to adopt the rules, substantially as proposed, and not to restrict auditors' provision of other kinds of tax services. That is, auditors may continue to provide to their public company audit clients other kinds of tax services not expressly prohibited by the Board's rules, so long as such services are consistent with the Commission's independence requirements and so long as the auditor and audit committee have complied with the Act's and the Commission's requirements relating to audit committee pre-approval of such services.

There is some evidence that accounting firms already recognize the risks that involvement in clients' abusive tax shelters can pose, as well as the problems that can result from providing tax services to executives of audit clients. And, there is some evidence that such firms have made changes to their oversight of firm services in order to avoid such problems in the future. For example, in its April 2005 report, the Subcommittee found that, since the Subcommittee's investigation began, some of the largest firms had each committed to, among other things, "cultural, structural, and institutional changes to dismantle its tax shelter practice. . . ." <sup>13</sup> Moreover, some firms have announced significant internal reforms designed to restore confidence in the ethics and independence of their audit practices.

Against this backdrop, commenters generally supported the Board's proposal. In addition, the Subcommittee recommended in its April 2005 report that "the Public Company Accounting Oversight Board . . . strengthen and finalize proposed rules restricting certain accounting firms from providing aggressive tax services to their audit clients, charging companies a contingent fee for providing tax services, and using aggressive marketing efforts. . . ." <sup>14</sup> Also, the IRS noted its support for the Board's proposal in its response to the GAO's report on Tax Shelters. <sup>15</sup>

Accordingly, today the Board is adopting final rules based on its December 2004 proposal. These final rules reflect modifications of the proposal in certain respects, largely due to insights derived from the Board's consideration of the comments received. Part II of this release describes the final rules, as well as modifications from the proposed version of the rules.

## II. Detailed Discussion of Rules and Consideration of Comments

The Board's final rules are intended to accomplish four objectives. First, the rules codify, in an ethics rule, the principle that persons associated with a registered public accounting firm should not cause the firm to violate relevant laws, rules, and standards. Second, the rules introduce a foundation for the independence component of the Board's ethics rules. That foundation includes a fundamental independence requirement and, as necessary and appropriate, additional rules addressing specific circumstances related to independence issues.

Third, the rules build on that foundation with provisions that identify certain impairments to an auditor's independence. Specifically, the rules treat a firm as not independent if it, or any of its affiliates, enters into a contingent fee arrangement relating to an audit client. Also, the rules treat a firm as not independent if it, or any of its affiliates, markets, plans, or opines in favor of certain types of aggressive tax transactions to or for public company audit clients. In addition, the rules treat a firm as not independent if it, or any of its affiliates, provides tax services to certain persons in a financial reporting oversight role at an audit client or to immediate family members of such persons.

Fourth, the rules require registered public accounting firms to provide audit committees certain information in connection with seeking pre-approval from such committees, as required by the Act and the SEC's independence rules, to perform nonprohibited tax services for the audit client. The rules would require a firm seeking preapproval to describe the terms of the tax services engagement to the audit committee and to engage in a substantive discussion with the audit committee about the potential effects of such services on the firm's independence.<sup>16</sup>

### A. Responsibility Not to Cause Violations

Rule 3502, as proposed, provided that a person associated with a registered public accounting firm shall not cause that firm to violate the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards, due to an act or omission the person knew or should have known would contribute to such violation. The Board proposed the rule to codify the ethical obligation of associated persons of registered firms not to cause registered firms to commit such violations. Proposed Rule 3502 also made clear that an associated person's ethical obligation is not merely to refrain from knowingly causing a violation but also to act with sufficient care to avoid negligently causing a violation.

The Board received a number of comments on proposed Rule 3502. Several commenters supported the rule as proposed and noted that they saw the rule as essential to the Board's ability to carry out its disciplinary responsibilities under the Act. Other commenters, however, including the largest accounting firms and an accounting trade association, did not support the rule as proposed. In general, these commenters objected to the proposed rule's use of a negligence standard in light of the complex regulatory requirements with which auditors

---

<sup>16</sup> The rules also include several definitions that are integral to the operation of the rules.

must comply. Some of these commenters also questioned the Board's authority to adopt the proposed rule, or at least the proposed rule with a negligence standard.

The Board has carefully considered these comments and determined to adopt Rule 3502, with some modifications. The Board continues to believe that it is authorized to adopt the rule. Section 103(a) of the Act directs the Board to, "by rule, establish . . . such ethics standards to be used by registered public accounting firms in the preparation and issuance of audit reports, as required by this Act or the rules of the Commission, or as may be necessary or appropriate in the public interest or for the protection of investors." The Board believes that the rule is an appropriate exercise of this authority to set ethical standards for accountants subject to the Board's jurisdiction.

Under the Act and Board rules, both registered firms and their associated persons must comply with PCAOB rules and standards, as well as related laws. When an associated person with such a responsibility causes the firm with which he or she is associated to violate such rules, standards or laws, this conduct operates to the detriment of the protection of investors and the public interest and may bear on the ethics of the responsible associated person. When such a person engages in this conduct with knowledge that, or in reckless disregard of whether, it would directly and substantially contribute to the firm's violation, the Board believes this conduct plainly reflects an ethical lapse by the responsible person and, therefore, is within the Board's authority—and indeed responsibility—to proscribe.

At least one commenter asserted that the proposed rule was not a proper exercise of the Board's ethics standards-setting authority because it reached a range of conduct, rather than delineating "particular impermissible conduct." The Board disagrees and believes the type of conduct addressed by the rule is plainly the type of conduct the Board's ethics rules can and should address. In fact, the accounting profession's existing ethical code at the time of enactment of the Act reaches any act that may "discredit[]" the profession—thereby reaching ranges of conduct, including violations of certain laws, rather than just specifying "particular impermissible conduct."<sup>17</sup> When Congress vested the authority to set ethics standards in the Board, the Board believes it intended for this authority to be at least as broad as the scope of the existing ethics rules, at least as to matters within the Board's jurisdiction. This authority, in the Board's view, plainly includes the ability to require that persons subject to the Board's jurisdiction, as an ethical obligation, not cause a violation of relevant laws.

Commenters opposed to the proposed rule also sought to analogize the rule to a theory of liability that the Supreme Court rejected in *Central Bank of Denver, N.A. v. First Interstate Bank of Denver, N.A.*<sup>18</sup> In *Central Bank*, the Supreme Court held that there is no private right of action for aiding and abetting a violation of Section 10(b) of the Securities Exchange Act of 1934 ("Exchange Act"). That decision turned on the fact that the text of Section 10(b)

---

<sup>17</sup> See *AICPA Code of Professional Conduct*, ET section ("sec.") 501, "Acts Discreditable" ("A member shall not commit an act discreditable to the profession."). Interpretations of this part of the ethical code provide that an accountant member will be considered to have committed a discreditable act if, among other things, he or she: "fails to comply with applicable federal, state or local [tax] laws or regulations," ET sec. 501.08, Interpretation 501-7; fails to follow applicable requirements of a governmental body, such as the SEC, in performing accounting services, ET sec. 501.06, Interpretation 501-5; or fails to follow government audit standards and rules in conducting a governmental audit, ET sec. 501.04, Interpretation 501-3.

<sup>18</sup> 511 U.S. 164 (1994).

does not provide for aiding-and-abetting liability.<sup>19</sup> The Board does not believe this decision affects the scope of the Board's explicit authority to set ethics standards under Section 103 of the Act.<sup>20</sup> Again, the Board notes that the profession's existing ethics code also reaches what can be characterized as "secondary" conduct contributing to a violation.<sup>21</sup>

The power to adopt Rule 3502 also is inherent in, and necessary to, the Board's authority to enforce PCAOB standards, rules, and related laws against both registered firms and their associated persons. Section 105 authorizes the Board to investigate and, when appropriate, discipline registered firms and their associated persons. Certain types of violations, by their nature, may give rise to direct liability only for a registered public accounting firm. Such firms, however, can only act through the natural persons that comprise them, many of whom are "associated persons" subject to the Board's ethics standards and disciplinary authority. When one or more of those associated persons has caused that firm to violate PCAOB standards, rules, or related laws with the requisite state of mind, it is appropriate, and consistent with the Board's duty to discipline registered firms and their associated persons under Section 101(c)(4) of the Act, that the Board be able to discipline the associated person for that misconduct.<sup>22</sup>

After carefully considering the comments received, the Board has determined, however, to modify the scope of Rule 3502 to apply only when an associated person causes the registered firm's violation due to an act or omission the person "knew, or was reckless in not knowing, would directly and substantially contribute to such violation." This revised formulation reflects two changes to the rule as proposed.

First, the Board has determined to change the state-of-mind requirement in the rule. Specifically, Rule 3502, as adopted, will apply to "an act or omission the [associated] person knew, or was reckless in not knowing," would cause the violation. While the Board believes it has the authority to adopt a negligence standard,<sup>23</sup> the Board believes the revised standard strikes the right balance in the context of this rule. The Board believes that the phrase "knew, or was reck-

---

<sup>19</sup> See *id.*, at 190 ("Because the text of §10(b) does not prohibit aiding and abetting, we hold that a private plaintiff may not maintain an aiding and abetting suit under §10(b).").

<sup>20</sup> Rule 3502, of course, differs from an aiding-and-abetting cause of action in important respects. Among other things, the rule does not apply whenever an associated person causes another to violate relevant laws, rules and standards. Rather, Rule 3502 applies only when an associated person causes a violation by the registered firm with which the person is associated.

<sup>21</sup> See *AICPA Code of Professional Conduct*, paragraph .02(2) of ET sec. 91, "Applicability" ("A member shall not knowingly permit a person, whom the member has the authority or capacity to control, to carry out on his or her behalf, either with or without compensation, acts which, if carried out by the member, would place the member in violation of the rules. Further, a member may be held responsible for the acts of all persons associated with him or her in the practice of public accounting whom the member has the authority or capacity to control."); see also ET sec. 102.02, Interpretation 102-1(c) (violation of ethics rules not just to sign, but to "permit[] or direct[] another to sign a document containing materially false and misleading information") (adopted as a Board interim ethics rule in Rule 3500T).

<sup>22</sup> Some commenters suggested that the reference to "any act, or practice . . . in violation of this Act" in Section 105(c)(4)—the part of the Act authorizing the Board to impose certain sanctions—was inconsistent with the proposed rule. The Board notes, however, as it did in the proposing release, that Section 105(c)(5) expressly provides that the more severe of these sanctions may be imposed when intentional, knowing, or reckless conduct, or repeated instances of negligent conduct, "results in" violation of law, regulations, or professional standards.

<sup>23</sup> A number of commenters argued that Section 105(c) of the Act prevents the Board from imposing discipline based on a negligence standard. The Board's determination to change the rule's state-of-mind requirement to recklessness moots these comments. The Board notes, however, that Section 105(c)(5) identifies a range of sanctions that the Board may not impose in the absence of knowing conduct, reckless conduct, or repeated instances of negligent conduct. The Act does not similarly limit the Board's authority to impose certain other sanctions.

less in not knowing" is a wellunderstood legal concept, and the Board intends for the phrase to be given its normal meaning.

Second, the Board has determined to modify the phrase used to describe the connection between the associated person's conduct and the violation. Specifically, Rule 3502, as adopted, provides that the associated person's act or omission must "directly and substantially contribute to [the firm's] violation." In particular, "substantially" in this context means that the associated person's conduct (i.e., an act or omission) contributed to the violation in a material or significant way. The term "substantially" also means, however, that the associated person's conduct does not need to have been the sole cause of the violation. "Directly" means that the associated person's conduct either essentially constitutes the violation—even though it is the firm and not the individual that actually commits the violation—or is a reasonably proximate facilitating event of, or a reasonably proximate stimulus for, the violation. "Directly and substantially" does not mean that the associated person's conduct must be the sole cause of the violation, nor that it must be the final step in a chain of actions leading to the violation. In addition, the term "directly" should not be misunderstood to excuse someone who knowingly or recklessly engages in conduct that substantially contributes to a violation, just because others also contributed to the violation, or because others could have stopped the violation and did not. At the same time, the term does not reach an associated person's conduct that, while contributing to the violation in some way, is remote from, or tangential to, the firm's violation.

A number of commenters expressed concern that adoption of a negligence standard would allow the Board, or the SEC, to proceed against associated persons who in good faith, albeit negligently, have caused a registered firm to violate applicable laws or standards. For example, commenters suggested that the proposed rule could be used against compliance personnel within a firm who inadvertently design a firm's compliance system in a flawed manner. Commenters also expressed concern that, because the SEC can enforce PCAOB rules under Section 3 of the Act, the Board's rule could have the practical effect of altering the state-of-mind requirement applicable in SEC enforcement proceedings against accountants.

It was not the Board's intention to establish a new standard for SEC enforcement of the securities laws and related applicable rules. The Board also recognizes that persons subject to its jurisdiction must comply with complex professional and regulatory requirements in performing their jobs. The Board does not seek to create through this rule a vehicle to pursue compliance personnel who act in an appropriate, reasonable manner that, in hindsight, turns out to have not been successful. Nor does the Board seek to reach those whose conduct, unbeknownst to them, remotely contributes to a firm's violation. At the same time, the Board continues to believe that it is necessary and appropriate for its ethics rules to apply when an associated person has engaged in an act or omission with knowledge that, or in reckless disregard of whether, it would directly and substantially contribute to a violation.<sup>24</sup>

The Board also believes that, because the rule is essential to the functioning of the Board's independence rules, this rulemaking provides the appropriate forum to adopt the rule. For example, Rule 3521 provides, in part, that a registered firm is not independent of its audit client if the firm provides that audit client with a service for a contingent fee. When an associated person causes, in

---

<sup>24</sup> While the Board's proposed rule tracked some of the language of Section 21C of the Securities Exchange Act of 1934 ("Exchange Act"), the rule, as adopted, differs significantly from, and should not be interpreted in pari material with, that statutory provision.

a manner consistent with the discussion above, the registered firm to provide that service for a contingent fee, Rule 3502 would allow the Board to discipline the associated person for that conduct.<sup>25</sup>

## **B. Ethics and Independence**

The final rules also create a foundation for the independence requirements of the Board's ethics rules. The rules introduce a new "Independence" subpart in the ethics rules. That subpart begins with Rule 3520, which articulates the fundamental independence requirement. The final rules also include additional rules that describe independence impediments in the particular context of contingent fee arrangements and tax services.

### ***1. The Fundamental Independence Requirement***

Rule 3520 sets forth the fundamental ethical obligation of independence: a registered public accounting firm and its associated persons must be independent of the firm's audit client throughout the audit and professional engagement period. This requirement encompasses the independence requirements set out in PCAOB Rule 3600T and goes further, as a matter of the auditor's ethical obligation, to encompass any other independence requirement applicable to the audit in the particular circumstances. Accordingly, in the case of an audit client subject to the financial reporting requirements of the securities laws and the SEC's rules, the ethical obligation under Rule 3520 requires the firm and its associated persons to maintain independence consistent with the SEC's requirements.<sup>26</sup>

By giving this scope to Rule 3520, the Board is not promulgating any new independence requirement. The Commission's independence requirements exist independently of Rule 3520 and are subject to change at the discretion of the Commission, without Rule 3520 purporting separately to lock in place any aspect of those requirements. Instead, Rule 3520 is based on the simple premise that ethical standards for auditors can and should encompass a duty by the auditor to maintain independence necessary to ensure compliance with independence requirements in the circumstances of the particular engagement.

A note to the rule emphasizes the scope of the obligation in the rule by pointing out that, even in circumstances to which the Commission's Rule 2-01 applies, a registered public accounting firm and its associated persons still may need to comply with other independence requirements, including those requirements separately established by the Board. Using this foundation, the Board may adopt additional rules in the "Independence" subpart of the ethics rules that effectively set out additional requirements. As described below, with the new rules adopted today, the Board's independence rules include contingent fee arrangements and tax services.

After carefully considering the comments on proposed Rule 3520, the Board has determined to adopt the rule, with only one change. Most commenters supported the scope and content of the proposed rule. A few commenters, however, asked

---

<sup>25</sup> Rule 3502, of course, is not the exclusive means for the Board to enforce applicable Board rules and standards against associated persons. Among other provisions, Rules 3100 and 3200T through 3600T directly require associated persons to comply with certain auditing and related professional practice standards. In addition, PCAOB standards generally contain directives to the "auditor." The term "auditor" is defined in PCAOB Rule 1001(a)(xii) to include both registered firms and their associated persons. Accordingly, an associated person of a registered firm that does not comply with such a directive may be charged with violations of such other standards, independent of any charges under Rule 3502.

<sup>26</sup> 17 C.F.R. § 210.2-01.

the Board to add text to the proposed rule to clarify or emphasize that the rule incorporates certain concepts in the existing independence requirements. While these comments are discussed in more detail below, the Board did not adopt these suggestions, as a general matter, because of the purpose of Rule 3520. Rule 3520 was simply intended to require, by Board rule, compliance with applicable independence requirements. The rule was not intended to, and does not, add to—or subtract from—these existing requirements. Nor is it intended to reflect the Board's conceptual approach to independence issues. Accordingly, while the Board does not necessarily disagree with the intent of the commenters who suggested adding text to the proposed rule, it does not believe it is necessary or appropriate to modify the rule to reflect their specific suggestions.

Three commenters suggested that Rule 3520 expressly require that auditors maintain independence from their audit client "both in fact and appearance." As proposed, the rule already requires auditors to maintain independence both in fact and appearance, because the SEC's independence rules—which are incorporated in Rule 3520, as discussed above—are "designed to ensure that auditors are qualified and independent of their audit clients both in fact and in appearance."<sup>27</sup> In addition, Statement on Auditing Standards ("SAS") No. 1, Codification of Auditing Standards and Procedures, adopted by the Board as an interim standard, requires that auditors "not only be independent in fact; [but also] avoid situations that may lead outsiders to doubt their independence."<sup>28</sup> Therefore, the Board does not believe it is necessary to include this additional language in Rule 3520 to preserve these existing principles.

Some commenters also recommended that Rule 3520 expressly include the SEC's four overarching independence principles that it will look to in determining whether a particular service or client relationship impairs the auditor's independence.<sup>29</sup> Other commenters asked the Board to explicitly note in the rule that certain tax services are consistent with the SEC's four principles. For the reasons described above, the Board has decided not to change the rule in response to either of these suggestions. The Board notes, however, that the SEC's independence rules already refer to the four principles, and these rules must be complied with under Rule 3520.

Two commenters suggested that Rule 3520 include the text of the American Institute of Certified Public Accountants' ("AICPA") Ethics Rule 102, which provides, in pertinent part, that members of the AICPA should avoid any subordination of their judgment.<sup>30</sup> Although the Board shares these commenters' view about the importance of this principle, the Board has already adopted Ethics Rule 102 as part of its interim ethics rule, Rule 3500T. Accordingly, this rule is already part of the Board's ethical standards and need not be separately repeated in Rule 3520 to be enforced by the Board.

Two firms suggested that Rule 3520, as proposed, might have the effect of precluding use of exceptions in the SEC's existing independence rules and asked

---

<sup>27</sup> 17 C.F.R. § 210.2-01, Preliminary Note 1; *accord United States v. Arthur Young & Co.*, 465 U.S. 805, 819 n.15 (1984).

<sup>28</sup> SAS No. 1, *Codification of Auditing Standards and Procedures*, paragraph .03 of AU sec. 220. The standard further states that "[p]ublic confidence would be impaired by evidence that independence was actually lacking, and it might also be impaired by the existence of circumstances which reasonable people might believe likely to influence independence." *Id.*

<sup>29</sup> See 17 C.F.R. §210.2-01, Preliminary Note 2. Specifically, under those principles, the SEC looks to whether a relationship or the provision of a service: (a) creates a mutual or conflicting interest between the accountant and the audit client; (b) places the accountant in the position of auditing his or her own work; (c) results in the accountant acting as management or an employee of the audit client; or (d) places the accountant in a position of being an advocate for the audit client.

<sup>30</sup> See *AICPA Code of Professional Conduct*, ET sec. 102, "Integrity and Objectivity".

the Board to avoid that result. Other than creating a requirement in a Board rule to comply with existing and applicable independence requirements, it does not add to, or detract from, the scope and substantive effect of these existing requirements in any respect.

The Board has, however, as suggested by a commenter, added "associated persons" to the rule. While the independence requirements added to the Board's rules through this rulemaking apply to the firm, other independence requirements covered by Rule 3520 are directed to individual accountants within auditing firms. Most notably, certain of the SEC's independence rules impose independence requirements directly on individual accountants.<sup>31</sup> Accordingly, the Board believes it is appropriate for the rule to apply to associated persons, as well as registered firms themselves. At the same time, the Board has added a new note to the rule to make clear that the rule applies only to those associated persons of a registered public accounting firm that are required to be independent of the firm's audit client by standards, rules, or regulations of the Commission or other applicable independence criteria.<sup>32</sup> Accordingly, the rule does not impose independence requirements on persons not already subject to them, and does not impose new independence requirements on any associated person. Rather, Rule 3520 only requires associated persons who are otherwise subject to independence requirements to comply, as an ethical obligation, with those requirements.

## 2. Contingent Fees

The Board also has determined to adopt Rule 3521 as proposed. There was widespread support among commenters for the Board's view, expressed in the proposal, that certain fee arrangements used for the provision of tax services create per se conflicts of interest that impair auditors' independence from their audit clients. As discussed more fully in the proposing release, when an accounting firm provides a service to an audit client for a contingent fee, the firm's economic interests become aligned with the interests of its audit client in a manner that is inconsistent with the firm's role as independent auditor. The Board's rule was adapted from the SEC's rule prohibiting contingent fee arrangements<sup>33</sup> and thus treats registered firms as not independent if they enter into contingent fee arrangements with audit clients.

Specifically, Rule 3521 provides that a registered public accounting firm is not independent of its audit client<sup>34</sup> if the firm, or any affiliate of the firm,<sup>35</sup> during the audit and professional engagement period,<sup>36</sup> provides any service or product to the audit client for a contingent fee or a commission, or receives from the audit client, directly or indirectly, a contingent fee or commission. The Board's

---

<sup>31</sup> See, e.g., Rule 2-01(c)(1), 17 C.F.R. §210.2-01(c)(1). See also PCAOB Rule 3600T.

<sup>32</sup> Other applicable independence criteria include any rules of the PCAOB, other than Rule 3520, that contain independence requirements directly applicable to associated persons of the firm, such as Rule 3600T.

<sup>33</sup> See 17 C.F.R. §210.2-01(c)(5).

<sup>34</sup> Rule 3501(a)(iv) defines "audit client" as "the entity whose financial statements or other information is being audited, reviewed, or attested and any affiliates of the audit client."

<sup>35</sup> Rule 3501(a)(ii) defines "affiliate of the accounting firm" as "the accounting firm's parents; subsidiaries; pension, retirement, investment or similar plans; and any associated entities of the firm, as that term is used in Rule 2-01 of the Commission's Regulation S-X, 17 C.F.R. §210.2-01(f)(2)."

<sup>36</sup> Rule 3501(a)(iii) adapts the definition of "audit and professional engagement period" from the definition of that term in Rule 2-01 of the SEC's Regulation S-X, which includes both the period covered by the financial statements under audit or review and the period beginning when a registered public accounting firm signs an initial engagement letter (or when such a firm begins audit, review or attest procedures, whichever is earlier) and ends when the audit client notifies the SEC that the engagement has ceased. See 17 C.F.R. §210.2-01(f)(5).

definition of a contingent fee is "any fee established for the sale of a product or the performance of any service pursuant to an arrangement in which no fee will be charged unless a specified finding or result is attained, or in which the amount of the fee is otherwise dependent upon the finding or result of such product or service."<sup>37</sup>

Fees fixed by courts or other public authorities and not dependent on a finding or result are excluded from this definition to permit contingencies that do not pose a risk of establishing a mutual interest between the auditor and the audit client. In the proposing release, the Board cited, as an example of such a permissible fee, fees approved by a bankruptcy court, as required under U.S. federal bankruptcy law.<sup>38</sup> The Board also sought comment on whether there are courts or other public authorities that fix fees that are not dependent on a finding or result, other than bankruptcy courts, such that the term "courts or other public authorities" is necessary.

In response to this request, several commenters noted that they are not aware of any such authorities and encouraged the Board to eliminate the reference to "other public authorities" from the proposed rule. Other commenters suggested that the Board retain the phrase, even though they did not identify other contexts in which fees that are not contingent on a result of a "product or service" are nevertheless subject to approval by a court or other public authority.<sup>39</sup> After considering these comments, the Board has decided to retain the exception for fees that require approval of "courts or other public authorities." The Board envisions that there may be fee approval schemes outside the U.S. that are analogous to U.S. bankruptcy law.

Although Rule 3521 and the related definition of "contingent fee" are modeled on the SEC's independence rules, as discussed in the Board's proposing release, they differ from those rules in that the Board's rules do not include the SEC's exception for fees "in tax matters, if determined based on the results of judicial proceedings or the findings of governmental agencies."<sup>40</sup> As discussed in the Board's proposing release, this exception may have been misinterpreted in the past and is largely redundant of the exception for fees fixed by courts or other public authorities.<sup>41</sup> For these reasons, proposed Rule 3521 would eliminate

---

<sup>37</sup> Rule 3501(c)(ii). As discussed in the Board's proposing release, the term "contingent fee" includes the aggregate amount of compensation for a service, including any payment, service, or promise of other value, taking into account any rights to reimbursements, refunds, or other repayments that could modify the amount received in a manner that makes it contingent on a finding or result.

<sup>38</sup> 11 U.S.C. § 328(a) (providing that, with a court's approval, a bankruptcy trustee may employ a professional person "on any reasonable terms and conditions of employment, including on a retainer, on a fixed or percentage fee basis, or on a contingent fee basis").

<sup>39</sup> One commenter suggested that arbitration panels should be captured in the final rule as an example of "courts or other public authorities" that may approve auditor fees. The Board is not aware, and the commenter did not appear to suggest, that any arbitration panels currently have authority, by contract or law, to approve the payment of fees to accountants. Therefore, the Board has not expanded the exception to include fees fixed by arbitration panels. Nevertheless, if an arbitration panel were by contract given the authority to approve accountants' fees, such fees would be permissible under the Board's rule so long as the determination of the fee was not contingent on the result of a product or service.

<sup>40</sup> 17 C.F.R. § 210.2-01(f)(10). By eliminating this exception from its rule, the Board expresses no view on any firm's compliance with Rule 2-01 of the Commission's Regulation S-X. See 17 C.F.R. §210.2-01(c)(5).

<sup>41</sup> As the SEC Chief Accountant has stated, the SEC's "tax matters" exception only permits fee arrangements where the determination of the fee is "taken out of the hands of the accounting firm and its audit client . . . , with the result that the accounting firm and client are less likely to share a mutual financial interest in the outcome of the firm's advice or service." Letter from Donald T. Nicolaisen, Chief Accountant, U.S. Securities and Exchange Commission, to Bruce P. Webb, Professional Ethics Executive Committee Chair, American Institute of Certified Public Accountants (May 21, 2004), available at <http://www.sec.gov/info/accountants/staffletters/webb052104.htm> (hereinafter "Nicolaisen Letter").

this exception. The few commenters who addressed this issue agreed with the Board's reasoning and the elimination of this exception. Therefore, the Board's final rule does not include an exception for tax matters in which an auditor's fee agreement is based on the results of judicial proceedings or the findings of governmental agencies.

In addition, Rule 3521 treats a firm as not independent of an audit client if it receives a contingent fee or commission from that client "directly or indirectly." The rule's use of the term "indirectly" is meant to prevent arrangements for a fee from any person that is contingent on a finding or result attained by the audit client. The Board's determination to include such fees within the prohibition is based on the principle that, regardless of who pays the contingent fee, such a contingency gives an auditor a stake in the audit client attaining the finding or result. Accordingly, under Rule 3521, it does not matter who pays the contingent fee, if it is contingent on a finding or result attained by the audit client or otherwise related to the firm's services for the audit client. That is, while use of an intermediary to disguise an audit client's agreement to a contingent fee is certainly prohibited, the rule is not limited to circumstances in which a contingent fee may be traced (e.g., through an intermediary) to an agreement or payment by an audit client.

Comparable to the SEC's independence rules, proposed Rule 3521 treats contingent fee arrangements between a registered firm's affiliates and the registered firm's audit clients as relevant to the firm's independence.<sup>42</sup> The inclusion of such affiliates within the scope of those persons whose activities may impair the independence of a firm from an audit client is intended to prevent frustration of the rule's purpose through the use of firm subsidiaries and other affiliates.<sup>43</sup> The rule is not intended to, and does not, impose any requirements on affiliates of firms *per se*. Nonetheless, the conduct of an affiliate of the firm can cause the registered firm not to be independent in the situations specified in the rules.

Finally, one accounting firm commented that Rule 3521 should prohibit value-added fees because such fees could be used in lieu of contingent fees to achieve a similar effect as contingent fees. Fees that function as contingent fee arrangements are already prohibited under the SEC's rule against contingent

---

<sup>42</sup> The rule does so by providing that the firm is not independent if it "or any affiliate of the firm . . . provides any service or product to the audit client for a contingent fee or a commission, or receives from the audit client, directly or indirectly, a contingent fee or commission." The scope of the rule is intended to be the same as the scope of the Commission's rule, which defines the terms "accountant" and "accounting firm" to include such affiliates. Because registration with the Board is the basis for the Board's authority over an accountant, the rules would treat those persons that are related to a registered public accounting firm and satisfy the Commission's definition of "accounting firm," but are not registered firms themselves, as "affiliates of the accounting firm." Thus, Rule 3501(a)(i) would adapt the Commission's definition of the term "accounting firm" to define the term "affiliate of the accounting firm" as "the accounting firm's parents, subsidiaries, pension, retirement, investment or similar plans, and any associated entities of the firm, as that term is used in Rule 2-01 of the Commission's Regulation S-X, 17 C.F.R. §210.2-01(f)(2)."

<sup>43</sup> See, e.g., *In re PricewaterhouseCoopers LLP, & PricewaterhouseCoopers Securities LLC*, Exchange Act Release No. 46,216 (July 17, 2002), available at <http://www.sec.gov/litigation/admin/34-46216.htm> (finding an auditing firm and an affiliate under the control of the firm in violation of Commission requirements because the affiliate performed investment banking services for the firm's audit clients for contingent fees); In *KPMG, LLP v. Securities & Exch. Comm'n*, 289 F.3d 109 (D.C. Cir. 2002), the D.C. Circuit Court declined to find KPMG in violation of the AICPA's rule against contingent fees, where KPMG only indirectly received a contingent royalty from an audit client, through an associated entity of the firm. The Board's rules should be understood, however, to treat such an arrangement as an impairment of a registered firm's independence.

fees,<sup>44</sup> and thus under the Board's final rule as well, whether such fees are labeled contingent fees, value-added fees, or otherwise. The SEC has indicated that it will closely monitor the use of value-added fees "to determine whether a fee labeled a "value added" fee is in fact a contingent fee, such as where there are side letters or other evidence that ties the fee to the success of the services rendered,"<sup>45</sup> and the Board intends to do so as well before, if necessary, considering additional rulemaking.

### 3. Aggressive Tax Positions

Rule 3522 is intended to describe a class of tax-motivated transactions that present an unacceptable risk of impairing an auditor's independence if the auditor markets, plans, or opines in favor of, such a transaction. As discussed in the Board's proposing release, such conduct has seriously damaged investors' confidence in the judgment, objectivity, and ethics of firms that engage in such transactions. Further, aggressive tax positions carry a high risk that taxing authorities will not allow the position taken by the auditor and the audit client. As the SEC Chief Accountant noted in the context of contingent fees, "the fact that a government agency might challenge the amount of the client's tax savings . . . heightens . . . the mutuality of interest between the firm and client."<sup>46</sup>

As proposed, Rule 3522 treated a firm as not independent of its audit client if the firm, or an affiliate of the firm, provided services related to planning, or opining on the tax consequences of a transaction that is a listed or confidential transaction under U.S. Department of Treasury ("Treasury") regulations or that promoted an interpretation of applicable tax laws for which there is inadequate support. In order to describe such transactions in a manner that is clear and consistent with existing constructs for analyzing tax-oriented transactions, the rule is adapted from certain Treasury regulations and from the SEC's release accompanying its 2003 independence rules.

Commenters generally supported the notion that auditors should not provide tax services involving aggressive tax positions to their audit clients. They also supported the scope of Rule 3522, which as proposed covered listed transactions, confidential transactions, and other aggressive transactions. A number of commenters made suggestions to make the rule text clearer, however, and after considering such comments the Board has modified the rule in several respects.

First, several commenters suggested that the rule should make clear that it does not prohibit auditors from advising audit clients *not* to engage in an aggressive transaction. Rule 3522 was not intended to prevent such advice, so in response to these comments the Board has modified the rule to make clear the prohibition on opining on aggressive transactions is limited to "opining *in favor of* the tax treatment of" such transactions (emphasis added). Thus, auditors are permitted

---

<sup>44</sup> See Revision of the Commission's Auditor Independence Requirements, SEC Release No. 33-7919, §IV.D.5 (Nov. 21, 2000), 17 C.F.R. Parts 210, 240. Indeed, the SEC staff has cautioned audit committees against approving—

any agreement—from a direct contract provision to "a wink and a nod"—that provides for the possible additional payment of a "value added" fee based on the results of an accounting firm's performance of a tax or other service [that] would be viewed as impairing the firm's independence. In addition, an audit committee should consider carefully the impact on an accounting firm's independence of the possibility of even a completely voluntary payment of a "value added" fee by an audit client to the firm.

Nicolaisen Letter, *supra* note 41.

<sup>45</sup> See Revision of the Commission's Auditor Independence Requirements, SEC Release No. 33-7919, §IV.D.5 (Nov. 21, 2000), 17 C.F.R. 210, 240.

<sup>46</sup> Nicolaisen Letter, *supra* note 41.

to advise *against* an audit client's execution of an aggressive tax transaction.<sup>47</sup> However, Rule 3522 prohibits an opinion that a transaction does not satisfy the more-likely-than-not standard but does satisfy a lower standard of confidence. Similarly, the rule prohibits advice that an audit client will "probably" lose an argument in favor of a tax treatment, because such advice can imply up to a 49-percent chance of success.

In addition, as recommended by one commenter, given recent concerns about accounting firms establishing marketing centers to sell tax shelter products, the Board has added the term "marketing" to the list of activities that compromise an auditor's independence. That is, under Rule 3522, as adopted, an auditor may not market an aggressive tax transaction to an audit client, in addition to being prohibited from "planning, or opining in favor of the tax treatment of," such a transaction.

Finally, proposed Rule 3522(a)'s prohibition on auditors' involvement in listed transactions has been moved to become a part of the prohibition on involvement in aggressive tax position transactions, in light of the overlap of the two provisions and also in light of questions regarding whether the prohibition on listed transactions could apply in the context of a non-U.S. tax regime. Accordingly, Rule 3522 now provides for two categories of prohibitions related to aggressive tax transactions, whereas, as proposed, it had provided for three such categories. These two categories, as well as modifications of their proposed versions, are discussed below.

#### ***a. Aggressive Tax Position Transactions***<sup>48</sup>

Rule 3522(b) would treat a registered firm as not independent if the firm, or an affiliate of the firm, provided an audit client any service related to marketing, planning, or opining in favor of the tax treatment of, a transaction that satisfies three criteria—

- the transaction was initially recommended, directly or indirectly, by the firm;
- a significant purpose of the transaction is tax avoidance; and
- the proposed tax treatment of the transaction is not at least more likely than not to be allowed under applicable tax laws.

Rule 3522(b) is adapted from the SEC's guidance to audit committees in its release accompanying its 2003 independence rules, which cautioned that audit committees should "scrutinize carefully" the retention of the auditor "in a transaction initially recommended by the accountant, the sole business purpose of which may be tax avoidance and the tax treatment of which may be not supported in the Internal Revenue Code and related regulations."<sup>49</sup> The rule builds on this guidance from the perspective of the auditor, by providing that a

---

<sup>47</sup> In addition, a number of commenters asked for clarification of the scope of Rule 3522's prohibition against "opining" on an aggressive transaction. The Board does not intend the rule to encompass the auditor's opinion on the fairness of financial statements that reflect the accounting for a transaction that an audit client has executed. Rather, Rule 3522 is intended to prevent auditors from facilitating clients' execution of aggressive transactions by, among other things, providing auditors' written tax opinions that protect the audit client from the assertion of penalties by tax authorities or courts.

<sup>48</sup> As proposed, this provision was entitled "aggressive tax positions." One commenter questioned whether this title was intended to expand the scope of this provision beyond transactions. In addition, the commenter noted that the term "transaction" was consistent with Treasury regulations. In response to this comment, the Board has re-titled this provision to be "aggressive tax position transactions."

<sup>49</sup> Strengthening the Commission's Requirements Regarding Auditor Independence, *supra* note 2, at §II.B.11 (Jan. 28, 2003).

registered firm is not independent of its audit client if the firm, or an affiliate of the firm, participates in such a transaction.

The first prong of the rule's test looks for transactions that the auditing firm—directly or indirectly, e.g., through an affiliate, through or with another tax advisor with which the firm has an arrangement, or otherwise—initially recommended to the audit client. In this manner, the rule excludes from its scope those transactions that the audit client itself, or a party other than a tax advisor with which the firm has an arrangement<sup>50</sup>(e.g., an acquiring corporation), initiated. The term "initially recommended" is intended to be a test based on fact. Thus, the prong would be satisfied, notwithstanding a representation from the audit client that the audit client initiated the development of the transaction,<sup>51</sup> if the auditor had knowledge that the auditor, its affiliate, or another tax advisor with which the firm has an arrangement, initially recommended it. As proposed, the rule would have looked for transactions that were "initially recommended by the registered public accounting firm or another tax advisor." Some commenters expressed concern that an auditor might not be in a position to know whether another tax advisor with no relationship to the auditor had recommended a transaction. In response to these comments, the Board has modified the first prong of Rule 3522(b) to make clear that auditors are only responsible for ascertaining whether the firm, one of its affiliates, or another tax advisor with which the firm has a formal agreement or other arrangement related to the promotion of such a transaction, initially recommended the transaction.<sup>52</sup>

The second and third prongs of Rule 3522(b) incorporate concepts that have existing meaning and relevance to tax advisors. The second prong of the test set forth in Rule 3522(b) uses the phrase "significant purpose of which is tax avoidance," adapted from the Internal Revenue Code.<sup>53</sup> The term "tax avoidance" should be understood to include acceleration of deductions into earlier taxable years and deferral of income to later taxable years. A few commenters noted that the test whether a significant purpose of a transaction is tax avoidance appears to be a low threshold that could encompass any plan to reduce taxes, and some of those commenters suggested that the Board raise that threshold. The Board intends for the threshold to be low, however, and therefore has not used terms that might seem to establish a higher threshold, such as requiring an evaluation of whether the "sole purpose" of a transaction is tax avoidance.

In addition, the rule uses the term "more likely than not to be allowable under applicable tax laws," which is the standard certain taxpayers must meet, under Treasury regulations, to avoid penalties for substantial understatement

---

<sup>50</sup> The term "tax advisor" is not intended to denote a group with a certain license or professional status, but rather to cover any person, other than the client, that recommends a tax transaction to the client.

<sup>51</sup> Two commenters indicated that, as they interpreted the term "transaction," an auditor's tax services in connection with, for example, a merger transaction that was initiated by the client or another company, would not come within the ambit of Rule 3522(b), because the auditor would not have recommended the merger transaction itself. This is not a fair interpretation of the rule and indeed would thwart its purpose.

<sup>52</sup> See Rule 3522(b), Note 2. The term "formal agreement or other arrangement" in Note 2 relates only to relationships a registered firm may have with a tax advisor that is not already an affiliate of the firm.

<sup>53</sup> The Internal Revenue Code treats transactions with respect to which a "significant purpose . . . is the avoidance or evasion of Federal income tax" as tax shelters, for purposes of determining whether an adequate disclosure defense is available for the substantial understatement penalty. See 26 U.S.C. §6662(d)(2)(C) (amended by the Jobs Act; see also 26 U.S.C. §6662A(b)(2)(B) (imposing 20-percent penalty on understatements of tax in connection with "any reportable transaction (other than a listed transaction) if a significant purpose of such transaction is the avoidance or evasion of Federal income tax").

of income tax in connection with a tax shelter.<sup>54</sup> This test is based, in part, on the Board's observation of some firms' policies that rely on the "more likely than not" standard to approve the firm's involvement in providing tax services relating to a transaction initiated by the firm. The rule also uses this standard because a tax treatment that is not "more likely than not" to be allowed poses a significantly higher risk of being challenged by taxing authorities, such that a mutuality of interest between the auditor and the audit client could arise.<sup>55</sup> Moreover, the rule uses this standard, as opposed to a higher standard, in recognition of the fact that tax laws may often be complex and subject to differing good faith interpretations.<sup>56</sup>

In order to satisfy Rule 3522(b)'s "more likely than not" standard, a registered public accounting firm must establish, based on an analysis of the pertinent facts and authorities, that there is a greater than 50-percent likelihood that the tax treatment of the transaction would, if challenged, be upheld.<sup>57</sup> To satisfy this test, an auditor's analysis must be objectively reasonable and well-founded at the time the analysis is conducted. The Board would not, however, treat an auditor as not independent if the law changed after the service was provided or if the tax treatment simply turned out to be not allowed, despite the auditor's reasonable judgment before the ultimate resolution of a tax claim or other dispute.

Rule 3522(b) does not require a registered public accounting firm to obtain a third-party opinion that a tax treatment is "more likely than not" to be allowed under applicable tax laws. On the contrary, while a firm may decide for its own reasons to obtain a third-party opinion, such an opinion would not relieve the firm of its obligation to form its own judgment on the likelihood of a proposed tax treatment to be allowed.<sup>58</sup>

Finally, although the SEC's release accompanying its 2003 independence rules cautioned audit committees to scrutinize situations in which a proposed tax treatment might not be supported "in the Internal Revenue Code and related

---

<sup>54</sup> See 26 C.F.R. §1.6664-4(f).

<sup>55</sup> Some commenters noted that, while the term "more likely than not" is wellunderstood in the context of evaluating U.S. tax advice, it has not been used in non- U.S. contexts. One of these commenters also noted that this standard may be hard to judge in jurisdictions in which the rule of law does not always prevail. After considering these comments, the Board has determined to maintain the "more likely than not standard," because it is an objective standard that may be applied in contexts outside the U.S. even where it has not applied to-date. Further, the Board notes that foreign private issuers ordinarily file U.S. tax returns and therefore are already expected to comply—and be familiar with—U.S. tax laws and regulations.

<sup>56</sup> A few commenters recommended that the Board use a standard higher than "more likely than not," on the ground that there is some evidence that some accounting firms that used the "more likely than not" standard in the past have not adhered to it. While the Board is concerned about the record on this issue, the Board has determined not to use a higher standard at this time. The Board intends to monitor compliance with the rule through its inspections of registered public accounting firms and will consider revising the rule in the future, if that monitoring or other evidence reveals that the rule is not achieving its intended purpose.

<sup>57</sup> Cf. 26 C.F.R. §1.6664-4(f)(2)(i)(B)(1) (incorporating by reference methodology set forth in 26 C.F.R. §1.6662-4(d)(3)(ii) for analysis of whether a tax treatment has "substantial authority" or, in the case of tax shelters, is "more likely than not" the proper treatment, for purposes of determining whether a penalty may be due on a substantial understatement of income tax).

<sup>58</sup> Treasury regulations permit corporations to avoid penalties for substantial understatement of income taxes in connection with tax shelters if they "reasonably rel[y] in good faith on the opinion of a professional tax advisor, if the opinion is based on the tax advisor's analysis of the pertinent facts and authorities . . . and unambiguously states that the tax advisor concludes that there is a greater than 50-percent likelihood that the tax treatment of the item will be upheld if challenged by the Internal Revenue Service." 26 C.F.R. § 1.6664-4(f)(2)(i)(B)(2). Rule 3522(b) would not permit registered public accounting firms, who themselves serve as tax advisors, to rely on other tax advisors to satisfy the rule's standard because registered firms that provide tax services are themselves in a position to perform such an analysis.

regulations," the proposed rule would use the term "applicable tax laws" in recognition of the variety of tax laws and regulations, including federal, state, local, foreign, and other tax laws, that may be the subject of tax services. For this reason, and in response to questions from several commenters, the Board also incorporated its proposed prohibition on auditors providing tax services in connection with transactions that are listed by the IRS into Rule 3522(b). That is, IRS listing is one example of aggressive tax transactions covered by the rule.

Accordingly, the prohibition on advising in favor of listed transactions, which was proposed as Rule 3522(a), has been moved to a note to what is now Rule 3522(b). Specifically, Note 1 to Rule 3522(b) treats a registered public accounting firm as not independent of its audit client if the firm, or any affiliate of the firm, provided services related to marketing, planning, or opining in favor of the tax treatment of, a listed transaction. Under Treasury regulations, a listed transaction is "a transaction that is the same as or substantially similar to one of the types of transactions that the IRS has determined to be a tax avoidance transaction and identified by notice, regulation, or other form of published guidance as a listed transaction."<sup>59</sup> The IRS uses its listing process to identify and publish a list of transactions that tax promoters and advisors have developed and sold to clients but that, in the IRS's view, do not comply with applicable laws. Thus, the Treasury's regulation on "listed transactions" identifies a class of transactions that, in the Board's view, carries an unacceptable risk of disallowance, which in turn create an unacceptable risk of establishing a mutuality of interest between the auditor and the audit client if the auditor participated in marketing, planning, or opining in favor of the tax treatment of a transaction that impairs independence. By referring to this class of transactions, Note 1 to Rule 3522(b) incorporates an existing framework that auditors who serve as tax advisors already follow in their tax practices and that is highly likely to remain current since the Treasury and the IRS regularly update guidance related to listed transactions.<sup>60</sup>

As discussed above, the Board's proposed prohibition on auditor involvement in transactions that are "listed" by the IRS has been moved to a note to Rule 3522(b). By definition, a listed transaction is not "more likely than not to be allowable under applicable tax laws" at the time the auditor advises on it. Because the risk of IRS or other scrutiny of listed transactions, including transactions that are substantially similar to listed transactions,<sup>61</sup> is high, tax advisors and taxpayers tend not to enter into such transactions once they are listed. In light of this fact, when it proposed this rule, the Board sought comment on whether the rule should treat an auditor as not independent if a transaction planned or opined on by the auditor subsequently became listed. In general, commenters recommended against adopting a *per se* rule that subsequent listing of such a transaction impaired an auditor's independence with respect to either the period in which the transaction was executed or in subsequent periods. The Board

---

<sup>59</sup> See, e.g., 26 C.F.R. §1.6011-4(b)(2).

<sup>60</sup> The IRS updates the list of listed transactions by issuing a listing notice, both adding to and removing transactions from the list of listed transactions. See, e.g., IRS Notice No. 2004-67, 2004-41 I.R.B. 600. Some commenters questioned whether the Board should effectively incorporate the IRS's changes to its list into the Board's rule on aggressive transactions. This is, indeed, the Board's intention. To freeze the IRS's list as of the date of the Board's final rule, or to establish a system of reviewing the IRS's list as it is updated, might permit auditors to provide tax services in favor of listed transactions notwithstanding that the IRS had identified those transactions as potentially abusive. Such a system would thwart the underlying intent of the Board's rule.

<sup>61</sup> By its terms, the Treasury regulation requiring reporting of listed transactions makes clear that the definition of "listed transaction" includes transactions that have been listed by the IRS as well as transactions that are "substantially similar" to such transactions. By expressly referring to the Treasury's regulation on listed transactions, the Board intends Rule 3522(b) to encompass such substantially similar transactions that are included in the Treasury's regulation.

agrees that such a *per se* rule would not be appropriate, but as discussed below, firms should nevertheless be cautious in participating in transactions that they believe could become listed.

Even if a firm were independent at the time a transaction was executed, because it reasonably and correctly concluded the transaction was not the same as, or substantially similar to, a listed transaction, once a transaction is actually listed (or a substantially similar transaction becomes listed), a firm that has participated in the transaction may find its independence impaired due to the mutuality of interest caused by the listing. That is, depending on the circumstances, a firm's independence may become impaired in some cases after a transaction planned or opined on by the firm becomes listed. In such cases, the auditor should carefully consider the potential impairment of its independence with the audit committee of its audit client.<sup>62</sup> For example, once a transaction is listed, either the audit client or the firm, or both, may be required to defend the tax treatment of the transaction and, in some cases, pay penalties. In addition, the firm may face liability to the audit client related to the firm's tax advice. The auditor's judgment regarding appropriate financial reporting and disclosure concerning a transaction that becomes listed could become biased by the auditor's vested interests in defending its tax advice.

Some auditors commented that they would prefer a bright-line rule providing that, so long as a transaction recommended by the firm was not listed at the time it was executed, subsequent listing cannot impair an auditor's independence later in time, when the auditor is called on to defend its earlier tax advice. Such a bright-line rule, however, would do little to address circumstances in which, because of IRS scrutiny after execution of the transaction, the auditor's interest in the client's successful defense of the transaction becomes heightened to the point where the auditor can no longer be impartial about the financial statement presentation of the transaction. That said, as some commenters noted, existing independence requirements address these kinds of circumstances, and thus the Board has determined not to expand Rule 3522(b) either to retroactively deem an auditor not independent upon subsequent listing of a transaction or to deem an auditor not independent *per se* in the period in which such a transaction becomes listed.

### ***b. Confidential Transactions***

The Treasury has identified transactions with tax-advisor imposed conditions of confidentiality as potentially abusive. By regulation, the Treasury requires taxpayers to disclose to the IRS transactions in which a tax advisor "places a limitation on disclosure by the taxpayer of the tax treatment or tax structure of the transaction and the limitation on disclosure protects the confidentiality of that advisor's tax strategies."<sup>63</sup> Tax-advisor imposed confidentiality may also be indicative of a tax product that a tax advisor intends to market to multiple customers, thus necessitating commitments by customers to treat the tax treatment or structure of the advisor's product as confidential.

As discussed in the proposing release, the Board is concerned that marketing, planning, or opining in favor of tax products that require confidentiality in order that they may be offered to multiple clients contributes to the erosion of public confidence in the ethics and integrity of such firms. A reasonable investor easily

---

<sup>62</sup> According to ISB Standard No. 1, which is incorporated in the Board's Rule 3600T interim independence standards, at least annually, an auditor must "disclose to the audit committee of the company (or the board of directors if there is no audit committee), in writing, all relationships between the auditor and its related entities and the company and its related entities that in the auditor's professional judgment may reasonably be thought to bear on independence."

<sup>63</sup> 26 C.F.R. § 1.6011-4(b)(3)(ii).

could infer that the auditor has a vested interest in advocating to the IRS the tax treatment it promoted, or helped to promote, to multiple clients and perpetuating that treatment in the audit client's financial statements. Based on these concerns, Rule 3522(a) treats a registered public accounting firm as not independent of its audit client if the firm, or an affiliate of the firm, provided services related to marketing, planning, or opining in favor of the tax treatment of a transaction for an audit client under terms that satisfy the definition of "confidential transaction," as defined by Rule 3501(c)(i), which is adapted from the Treasury's regulation requiring tax advisors to report confidential transactions.<sup>64</sup>

It should be noted that, Rule 3501(c)(i) defines confidential transactions in terms of confidentiality restrictions imposed by tax advisors generally, not specifically auditors. Therefore, whereas under Rule 3522(b) a transaction that is initially recommended by a tax advisor other than the auditor or an affiliate of the auditor unless the tax advisor has an arrangement with the auditor does not fall within the first prong of the rule, Rule 3522(a) prohibits an auditor from marketing, planning, or opining in favor of a confidential transaction whether the applicable terms of confidentiality are imposed by the auditor or by another tax advisor, acting independently of the auditor.

Commenters generally supported the Board's proposed prohibition on confidential transactions. Although some commenters expressed the view that tax advisors might impose conditions of confidentiality for reasons other than the ability to market the proposed transaction to multiple clients, other commenters agreed that auditors should not become involved in transactions subject to tax-advisor imposed confidentiality restrictions. One accounting firm commenter also noted that, even if a transaction were not potentially abusive, the fact that there is a disclosure limitation is likely to create a negative impression concerning the objectivity of the auditor.

In addition, a few commenters suggested that the rule be limited to circumstances in which terms of confidentiality are imposed with respect to the U.S. tax treatment of a transaction. After carefully considering these comments, the Board has determined not to modify the scope of the rule. Tax-advisor imposed conditions of confidentiality facilitate aggressive selling of novel tax ideas that pose too great a risk of impairing the objectivity of auditors who market, plan, or opine in favor of them. Further, the rule continues to permit audit clients themselves to impose conditions of confidentiality in connection with transactions

---

<sup>64</sup> 26 C.F.R. § 1.6011-4(b)(3) (2005). The proposed version of this rule incorporated the Treasury's definition of the term "confidential transaction" by reference. A number of commenters noted generally that incorporation of this Treasury regulation by reference could lead to unintended changes to the Board's rules if the Treasury amends those regulations (or the IRS amends its list of listed transactions). As discussed above, the Board intends for its prohibition on auditors' involvement as tax advisors in audit clients' execution of listed transactions to be kept current by changes to the IRS's list. Upon further consideration, unlike the Board's prohibition on listed transactions, the Board has determined that it may not be appropriate for any changes the Treasury may make to its definition of "confidential transaction" to automatically be reflected in the Board's prohibition on auditors' involvement in such a transaction. The definition of "confidential transaction" in Rule 3501(c)(i) is intended to be the same as the current Treasury regulation, except for the minimum fee requirement. The proposed version of the rule did not incorporate the Treasury's minimum fee exception to its regulation on confidential transactions. That is, Treasury Regulation 1.6011-4(b)(3)(i) provides that "a confidential transaction is a transaction that is offered to a taxpayer under conditions of confidentiality and for which the taxpayer has paid an advisor a minimum fee." 26 C.F.R. § 1.6011-4(b)(3) (2005). Under the regulation, the "minimum fee" is \$250,000 for corporate taxpayers (and partnerships and trusts in which all of the owners or beneficiaries are corporations) and \$50,000 for all other transactions. *Id.* 26 C.F.R. § 1.6011-4(b)(3)(iii). Although some commenters suggested that the Board should adopt the minimum fee exception, the Board understands the IRS disclosure rules to serve a different purpose than Rule 3522(a). Accordingly, the Board has not adopted a minimum fee exception in its final rule either.

on which auditors may provide tax advice, and this fact appears to adequately serve audit clients' needs to maintain appropriate confidentiality. Finally, there does not appear to be a reasoned basis to limit the prohibition on confidential transactions to proposed tax treatments under U.S. tax laws.

#### **4. Tax Services for Persons in Financial Reporting Oversight Roles**

Rule 3523 provides that a registered public accounting firm is not independent of an audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any tax service to a member of management in a financial reporting oversight role at the audit client.<sup>65</sup> As discussed in the Board's proposing release, this rule addresses concerns that performing tax services for certain individuals involved in the financial reporting processes of an audit client creates an appearance of a mutual interest between the auditor and those individuals.

The Board received varied comments on Rule 3523. Some commenters, including groups representing investors and issuers, as well as several large accounting firms, supported the proposed rule on the ground that it is necessary to preserve the objectivity, and the appearance of objectivity, of auditors. Other commenters, however, including a number of smaller accounting firms, accounting associations, and a few issuers, claimed that the rule is not necessary, that these services have long been provided, and that auditors should be allowed to provide senior financial management of issuers with the same types of tax services the auditor may provide the issuer. After carefully considering these comments, the Board has determined to adopt the rule, with a few modifications. The Board continues to believe that the provision of tax services by the auditor to the senior management responsible for the audit client's financial reporting creates an unacceptable appearance of the auditor and such senior management having a mutual interest.

The Board also received a number of comments on specific aspects of the proposed rule. For example, some commenters expressed confusion as to whether Rule 3523 is intended to apply to directors, in part because the definition of "financial reporting oversight role" includes directors. In response to these comments, the Board has modified the rule to exclude directors more explicitly. Thus, the rule no longer uses the term "officer"—which is how the proposed rule narrowed the scope to exclude directors—and instead includes an explicit exception for any person who serves in a financial reporting oversight role "only because he or she serves as a member of the board of directors or similar management or governing body of the audit client."<sup>66</sup>

The Board also included a second exception in Rule 3523(b) in response to comments regarding whether the rule should apply to persons who serve in a financial reporting oversight role at an affiliate of an issuer. After considering these comments, the Board has determined not to restrict auditors' provision of tax services to employees in a financial reporting oversight role at an affiliate

---

<sup>65</sup> The rule's use of the term "financial reporting oversight role" is based on the Commission's definition of "financial reporting oversight role," which includes any person who has direct responsibility for oversight over those who prepare the issuer's financial statements and related information (for example, management's discussion and analysis) that are included in filings with the Commission. See *Strengthening the Commission's Requirements Regarding Auditor Independence*, *supra* note 2, at §II.A. The Commission uses the term "financial reporting oversight role" to describe those positions that are covered by the Act's "cooling off" period, during which a public company would not be independent from its audit firm if a member of the engagement team for the audit of that company assumed such a position. See Sarbanes-Oxley Act of 2002, §206, 17 C.F.R. §210.2-01(f)(3)(ii). The term "financial reporting oversight role" as defined in Rule 3501(f)(i) mirrors verbatim the SEC's definition of the same term in Rule 2-01 of Regulation S-X. 17 C.F.R. §210.2-01(f)(3)(ii).

<sup>66</sup> Rule 3523(a).

of an audit client, so long as the financial statements of the affiliate are not material to the financial statements of the audit client or are audited by an auditor other than the firm or an associated person of the firm. This exception is intended to exclude executives of affiliates that do not contribute to the consolidated financial statements of the audit client. The Board does not believe that auditors' relationships with executives of immaterial affiliates, or affiliates whose financial statements are audited by an auditor other than the firm or an associated person of the firm, pose as great a risk to auditors' impartiality regarding an audit clients' consolidated financial statements as do auditors' provision of tax services to executives involved in the consolidated financial reporting of the client.

The first part of this exception, Rule 3523(b)(i), excludes persons in a financial reporting oversight role at immaterial affiliates of the entity being audited. This exception would encompass, among others, executives of most affiliates within the same investment company complex as the audited entity and executives of up-stream affiliates of the audited entity. The second part of this exception, Rule 3523(b)(ii), excludes executives in financial reporting oversight roles of a subsidiary of an audit client that is not audited by the firm or any firm that is an associated person of the firm, as defined by PCAOB Rule 1001. On the other hand, executives in financial reporting oversight roles at a material subsidiary whose financial statements are audited by a firm that is an associated person of the registered firm would be subject to Rule 3523. For purposes of Rule 3523(b)(ii), the term "audited" should be understood to include audit procedures that contribute to the firm's preparation or issuance of an audit report on an audit client's consolidated financial statements, whether or not such procedures result in an audit opinion on the affiliate's financial statements.

Some commenters also expressed concern that the rule could impose an undue hardship on persons who become subject to the rule because they are hired or promoted into a financial reporting oversight role at an audit client. To address that concern, the Board determined to create a time-limited exception to the rule to cover such situations. Specifically, the Board has determined to add a new exception to the rule that applies to a person who was not in a financial reporting oversight role at the audit client before a hiring, promotion, or other change in employment event, when the tax services are both: (1) provided pursuant to an engagement that was in process before the hiring, promotion, or other change in employment event; and (2) completed on or before 180 days after the hiring or promotion event.<sup>67</sup> The Board will treat engagements as "in process" if an engagement letter has been executed and substantive work on the engagement has commenced; the Board will not treat engagements as "in process" during negotiations on the scope and fee for a service.

Some commenters also suggested that, as proposed, Rule 3523 could invite persons subject to the rule to evade the rule by using the auditor's tax services through an immediate family member or through an entity controlled by the person. In response to this comment, the Board has added to the scope of the rule immediate family members of persons who are covered by the rule.<sup>68</sup>

---

<sup>67</sup> Rule 3523(c).

<sup>68</sup> The Board also has added a definition of "immediate family member," adapted from the SEC's definition in its independence rules. Compare Rule 3501(i)(i) with 17 C.F.R. §210.2-01(f)(13). The Board has not included entities controlled by persons in financial reporting oversight roles, such as trusts and investment partnerships. The Board notes, however, that an auditor who provides services to an entity controlled by a person in a financial reporting oversight role of an audit client should consider whether, under ISB Standard No. 1, it is necessary to notify the client's audit committee of such services.

In addition, some commenters suggested that the rule be expanded to cover all non-audit services, such as services involving investment, personal financial planning, and executive compensation, on the ground that any such services provided to those in a financial reporting oversight role create a perception of a mutuality of interest between auditors and those members of management who receive such services.<sup>69</sup> Other commenters suggested that the rule be expanded to include persons who do not play a financial reporting oversight role but nevertheless play a key role in operations, such as vice presidents of sales.<sup>70</sup> Other commenters recommended the rule cover audit committee members. Still other commenters, however, disagreed with these commenters and noted that applying the rule to audit committee members might serve as a practical disincentive to audit committee service.

The Board has determined not to expand the final rule to include all non-audit services, directors or persons outside the definition of "financial reporting oversight role." To date, the concerns that have arisen in this area have related to auditors' provision of tax services to executives of public companies. Accordingly, the Board believes it is appropriate, at this time, to limit the rule to address this problem. The Board intends to monitor implementation of the rule, however. In addition, to the extent that issuers pay for non-audit services provided to any individuals, audit committees can and should be scrutinizing the potential effects on the auditor's independence due to such services. Further, as discussed in the proposing release, although accounting firms are not now required to seek pre-approval for executive tax services paid directly by the employee, auditors should consider under Independence Standards Board ("ISB") Standard No. 1 whether it is necessary to notify the audit committee of these services<sup>71</sup> or whether it is otherwise advisable to inform audit committees of such services.<sup>72</sup> In this regard, while the Board is reluctant to establish a *per se* prohibition on auditors' provision of tax services to directors of their audit clients, the Board notes that firms can – and some have – adopted procedures

---

<sup>69</sup> Some commenters asked for clarification of whether persons in a financial reporting oversight role could seek the assistance of the registered public accounting firm that prepared the original tax return to assist them in responding to an IRS or other governmental agency examination regarding that specific tax return after Rule 3523 becomes effective. If a registered firm prepared such a tax return before the rule's effective date, the rule does not operate to prohibit that person from answering questions and providing assistance when that tax return is under examination by a taxing authority after the rule's effective date. Such assistance, of course, must be otherwise consistent with Board and SEC auditor independence rules, including the requirement the auditor not become an advocate for its audit client.

<sup>70</sup> A few commenters suggested that the Board use the list of officers in section 16 of the Exchange Act, rather than relying on the defined term "financial reporting oversight role." The "financial reporting oversight role" term, however, includes those individuals at an audit client that, because of their oversight of the company's financial reporting process, raise special concerns when they have certain relationships with the auditor. For this reason, the Board continues to believe this is the appropriate group to include in this rule.

<sup>71</sup> See ISB Standard No. 1; see also Memorandum from Scott A. Taub, Deputy Chief Accountant, Office of the Chief Accountant, U.S. Securities and Exchange Commission to William H. Donaldson, Chairman, Securities and Exchange Commission at 5 (June 24, 2003) (attached to letter from Chairman William H. Donaldson, U.S. Securities and Exchange Commission, to Five Consumer Groups) (July 11, 2003), available at <http://www.sec.gov/info/accountants/staffletters/taub071103.pdf> (hereinafter "Taub Memo").

<sup>72</sup> For example, the SEC staff has recommended that audit committees scrutinize audit firms' provision of these services—

The provision of tax services to the executives of an audit client is not expressly addressed in the Act or in the Commission's rules. Nonetheless, an audit committee should review the provision of those services to assure that reasonable investors would conclude that the auditor, when providing such services, is capable of exercising objective and impartial judgment on all issues within the audit engagement.

Taub Memo, *supra* note 71, at 5.

to notify the audit committee of such services so it may evaluate the potential effect of such services on the auditor's independence.<sup>73</sup>

### C. The Auditor's Responsibilities in Connection With Audit Committee Preapproval of Tax Services

Under Section 10A(h) of the Exchange Act, as amended by Section 202 of the Sarbanes-Oxley Act, all non-audit services that the auditor proposes to perform for an issuer client "shall be pre-approved by the audit committee of the issuer." The SEC's 2003 independence rules implemented the Act's pre-approval requirement by adopting a provision on audit committee administration of the engagement.<sup>74</sup> Rule 3524 implements the Act's pre-approval requirement further by strengthening the auditor's responsibilities in seeking audit committee pre-approval of tax services. Specifically, Rule 3524 requires a registered public accounting firm that seeks pre-approval of an issuer audit client's audit committee<sup>75</sup> to perform tax services that are not otherwise prohibited by the Act or the rules of the SEC or the Board to—

- Describe, in writing, to the audit committee the nature and scope of the proposed tax service;
- Discuss with the audit committee the potential effects on the firm's independence that could be caused by the firm's performance of the proposed tax service; and
- Document the firm's discussion with the audit committee.

These requirements are intended to buttress the pre-approval processes established by the Act and the Commission's rules. Whether an audit committee preapproves a non-audit service on an *ad hoc* basis or on the basis of policies and procedures, the Commission staff has stated that "detailed backup documentation that spells out the terms of each non-audit service to be provided by the auditor" should be provided to the audit committee.<sup>76</sup> Indeed, the SEC staff has indicated "[s]uch documentation should be so detailed that there should never be any doubt as to whether any particular service was brought to the

---

<sup>73</sup> See, e.g., Remarks of Scott Bayless, Deloitte & Touche LLP, *Auditor Independence Roundtable on Tax Services* (July 14, 2004) at 152 (indicating that even when "the company does not pay for those services . . . there is a notification procedure to ensure that the audit committee has the ability to take control of that relationship if they so desire").

<sup>74</sup> See 17 C.F.R. §210.2-01(c)(7).

<sup>75</sup> Proposed Rule 3524 used the term "audit committee of the audit client," which some commenters interpreted to mean that the rule would require auditors to make the required communications in connection with proposed tax services for affiliates of an audit client that are not consolidated as subsidiaries with the audit client for financial statement purposes. One commenter noted that the Commission's Rule 2-01(c)(7) requires only that "[b]efore the accountant is engaged by the issuer or its subsidiaries, or the registered investment company or its subsidiaries, to render audit or non-audit services, the engagement [be] approved by the issuer's or registered investment company's audit committee." By using the phrase "in connection with seeking audit committee pre-approval," the Board intends Rule 3524 to apply only when the SEC's Rule 2-01(c)(7) requires such approval. Accordingly, the rule does not require registered firms to make the specified communications or to seek audit committee pre-approval in any situations in which audit committee pre-approval is not already required by the SEC's rules. Nor should the rule be understood to require preapproval by any committee other than the committee required to provide pre-approval by the SEC's rules. To clarify this issue, the Board has also modified Rule 3524 to more clearly track the language of section 10A(h) of the Exchange Act and the SEC's Rule 2-01(c)(7).

<sup>76</sup> Taub Memo, *supra* note 71, at 3; see also SEC Office of the Chief Accountant: Application of Commission's Rules on Auditor Independence Frequently Asked Questions, Audit Committee Pre-approval, Question 5, (issued August 13, 2003), available at <http://www.sec.gov/info/accountants/ocafaqaudind121304.htm> (hereinafter "FAQs").

audit committee's attention and was considered and pre-approved by that committee."<sup>77</sup>

Rule 3524 implements the Act's pre-approval requirement further by requiring that registered firms provide the audit committee of an issuer audit client a description of proposed tax services engagements that includes descriptions of the scope of any tax service under review and the fee structure for the engagement.<sup>78</sup> Some commenters suggested significant changes to the scope of the proposed rule. One group of commenters recommended that the rule be broadened to apply to all non-audit services, rather than only tax services. Other commenters expressed concern that the rule appeared to impose restrictions on audit committee pre-approval in excess of the SEC's requirements and, for that reason, recommended that the Board narrow or eliminate the rule. The Board has determined not to change the scope of the rule in response to these comments. While auditors and audit committees may find the procedures in Rule 3524 to be useful for purposes of considering non-audit services generally, the Board adopts these rules only after having engaged in a substantial effort to obtain facts and views of interested persons on appropriate procedures for considering proposed tax services. Before considering broadening the rule, the Board would seek additional information, based, among other things, on experience with this rule, inspections of registered firms, and additional public input. On the other hand, notwithstanding the concerns of some commenters that Rule 3524 requires more than the parallel SEC rule, the Board has determined not to narrow or eliminate the rule. The Board continues to believe that the rule is an appropriate complement to the SEC's preapproval rule. Rule 3524 supports the procedure under the SEC rule, by requiring the auditor—who is in the best position to describe a proposed engagement—to gather the information required to be presented to the audit committee by the SEC rule. Indeed, it is the SEC rule and staff interpretations of what information audit committees need that have informed the Board's development of the rule.

The Board has made certain modifications to the proposed rule, however. As proposed, the rule would have required auditors to provide audit committees copies of all engagement letters for proposed tax services. While some commenters supported this proposal as a way to ensure that audit committees received adequate information on which to base their judgments, other commenters expressed concern that the rule could result in audit committees being provided voluminous stacks of engagement letters—some in foreign languages—that would obscure rather than elucidate the nature of the tax services proposed. On the basis of this information, and because the underlying purpose of the proposed requirement was to establish a manageable collection of information on which audit committees could make their determinations to pre-approve tax services, the Board has determined to eliminate the proposed rule's requirement to supply the audit committee a copy of each tax service engagement letter. Instead, the rule requires auditors to describe for audit committees, in writing, the scope

---

<sup>77</sup> Taub Memo, *supra* note 71, at 3; *see also* FAQs, *supra* note 76, Audit Committee Pre-approval, Question 5 (issued August 13, 2003). The SEC staff FAQ answer states that "[p]re-approval policies must be designed to ensure that the audit committee knows precisely what services it is being asked to pre-approve so that it can make a well-reasoned assessment of the impact of the service on the auditor's independence. For example, if the audit committee is presented with a schedule or cover sheet describing services to be pre-approved, that schedule or cover sheet must be accompanied by detailed back-up documentation regarding the specific services to be provided".

<sup>78</sup> *See* Rule 3524(a)(1). Audit committees may ask auditors for other materials not identified in the rule, to assist them in their determinations whether to preapprove proposed tax services. Rule 3524 should not be understood to limit the information or materials that an audit committee may request, or that a registered firm may decide to provide, in connection with the pre-approval of tax services.

of the proposed service, the proposed fee structure for the service, and the potential effect of the service on the auditor's independence. The Board believes requiring such a description of a proposed service better meets the Board's goal to improve the quality of information auditors provide audit committees about proposed tax services.

The rule also requires the auditor to describe for the audit committee any amendment to the engagement letter or any other agreement relating to the service (whether oral, written, or otherwise) between the firm and the audit client.<sup>79</sup> While the Board does not expect or encourage auditors to enter into side agreements relating to tax services, the Board understands that, in the past, some accounting firms have entered into such agreements.<sup>80</sup> To the extent firms do so, they must disclose those agreements to the audit committee.

In addition, to the extent that a firm receives fees or other consideration from a third party in connection with promoting, marketing, or recommending a tax transaction, Rule 3524 requires the firm to disclose those fees or other consideration to the audit committee. Specifically, Rule 3524(a)(2) requires that the firm disclose to the audit committee "any compensation arrangement or other agreement, such as a referral agreement, a referral fee or fee-sharing arrangement, between the registered public accounting firm (or an affiliate of the firm) and any person (other than the audit client) with respect to the promoting, marketing or recommending of a transaction covered by the service." This provision is adapted from the IRS's rules of practice, which require tax advisors to disclose such arrangements to taxpayer clients.<sup>81</sup>

Rule 3524(b) also requires registered public accounting firms to discuss with audit committees of their issuer audit clients the potential effects of any proposed tax services on the firm's independence. Even if a non-audit service does not per se impair an auditor's independence, the Commission's independence rules nevertheless deem an auditor not to be independent if—

the accountant is not, or a reasonable investor with knowledge of all relevant facts and circumstances would conclude that the accountant is not, capable of exercising objective and impartial judgment on all issues encompassed within the accountant's engagement.<sup>82</sup>

Rule 3524(b) is intended to provide audit committees a robust foundation of information upon which to determine whether to pre-approve proposed tax services. Some commenters have asked for guidance as to the scope of the discussions intended by the rule. The Board intends that the scope of such discussions remain flexible, to address the matters that are pertinent in the judgment of the audit committee, as informed by Commission requirements. While the Act's

---

<sup>79</sup> *Id.* One commenter expressed concern that Rule 3524(a)'s requirement to describe an "other agreement" could be understood to require the auditor to submit to the audit committee documentation concerning "essentially every communication with the audit client." The Board believes this comment is misplaced. Rule 3524 does not require that the auditor describe all communications with the audit client, but rather all agreements with the audit client that relate to the proposed service.

<sup>80</sup> See, e.g., *In re PricewaterhouseCoopers LLP, & PricewaterhouseCoopers Securities LLC*, supra note 43 ("through side letters or oral understandings, the parties created contingent fee arrangements"). In addition, some commenters have expressed concern that Rule 3524 requires disclosure to the audit committee of fee arrangements that are prohibited by Rule 3521 (or by professional association membership requirements, such as certain referral agreements and fees). Those commenters have asked the Board to clarify that Rule 3524 does not operate to permit such fee structures that are otherwise prohibited by the Board's rules or to endorse fee structures that are prohibited or discouraged by professional ethics rules. It is the case that Rule 3524 does not permit or otherwise endorse such fees.

<sup>81</sup> See 31 C.F.R. §10.35(e)(1) (2005), available at <http://www.irs.gov/pub/irspdf/pcir230.pdf>.

<sup>82</sup> 17 C.F.R. § 210.2-01(b).

legislative history makes clear that the Act "does not require the audit committee to make a particular finding in order to pre-approve an activity,"<sup>83</sup> the Commission's staff expects a robust review of proposed non-audit services—

The audit committee must take its role seriously and perform diligent analyses and reviews that allow the committee to conclude that reasonable investors would view the auditor as capable of exercising objective and impartial judgment on all matters brought to the auditor's attention.<sup>84</sup>

To be clear, the rule does not prescribe any test for audit committees or require audit committees to make legal assessments as to whether proposed services are prohibited or permissible. Nor is the rule intended to limit an audit committee's discretion to establish its own more stringent pre-approval procedures. Rather, the rule directs registered firms to present detailed information and analysis to audit committees for audit committees' consideration, in their own judgment, of the best interests of the issuer and its shareholders.

In addition, through the discussion required by Rule 3524(b), the Board expects registered firms to convey to the audit committee information sufficient to distinguish between tax services that could have a detrimental effect on the firm's independence and those that would be unlikely to have a detrimental effect. Some commenters expressed concern that an example of such a distinction that the Board provided in the proposing release could be understood to suggest that audit committees should not permit an auditor to provide any tax services unless the company had an internal tax department and/or a tax director who could make sound management decision in the best interest of the company. The Board did not intend to suggest that particular functional departments or managers must exist at a company before its auditor may provide it tax services. Rather, the inquiry the auditor should engage in when proposing to provide tax services to an audit client is whether, in the particular case, the company has the capacity to make its own decisions regarding the proposed tax matter, such that the auditor would not be in the position of performing management functions or making management decisions for the company.<sup>85</sup> The resolution of this inquiry will vary depending on the nature of the tax matter at issue and the sophistication of the company, among other things.

Rule 3524, both as proposed and as adopted, is intentionally silent as to when a registered public accounting firm should provide the required information about a proposed tax service to an audit committee. This is because, under the SEC's 2003 independence rules, audit committees themselves may have policies that establish a procedure and schedule for audit committee review of non-audit services, including tax services.<sup>86</sup> Some commenters expressed concern that the rule might favor one approval method (*ad hoc*) over another (approval pursuant to policies and procedures). This is not the case. Similar to the SEC's 2003 independence rules, Rule 3524 does not dictate, or even express a preference as to, whether the documentation and discussions required under Rule 3524 should take place pursuant to an audit committee's policies and procedures on pre-approval or on an *ad hoc* basis. Many issuers have adopted

---

<sup>84</sup> Taub Memo, *supra* note 71, at 7-8; see also FAQs, *supra* note 76, Audit Committee Pre-approval, Question 5 (issued August 13, 2003).

<sup>85</sup> See PCAOB Rule 3600T (adopting *AICPA Code of Professional Conduct*, paragraph .05 of ET sec. 101, "Independence", Interpretation No. 101-3, "Performance of Other Services," as of April 16, 2003) ("care should be taken not to perform management functions or make management decisions for attest clients the responsibility for which remains with the client's board of directors and management.") (Interpretation No. 101-3 was later amended by the AICPA in December 2003).

<sup>86</sup> 17 C.F.R. § 210.2-01(c)(7)(i)(B).

policies that provide for pre-approval in annual audit committee meetings. The Board understands that such an annual planning process can include as robust a presentation to the audit committee as a case-by-case pre-approval process, and Rule 3524 is designed to be flexible enough to accommodate either system and to encourage auditors and audit committees to develop systems tailored to the needs and attributes of the issuer.

The timing and method by which auditors describe for, and discuss with, audit committees proposed tax services will necessarily vary depending on different audit committees procedures. For those audit committees that hold an annual meeting to consider proposed non-audit services for the upcoming year, often by reviewing a proposed annual budget for non-audit services, it would be appropriate for auditors to provide their disclosures pursuant to Rule 3524(a), and hold their discussions pursuant to Rule 3524(b), about proposed tax services that are known at the time of the meeting in connection with or at that meeting. In addition, some audit committees' policies delegate authority to pre-approve non-audit services to one committee member and require reporting of any services approved by delegated authority at the next scheduled audit committee meeting, on a quarterly basis, or otherwise, in order for the audit committee to review an updated forecast or other summary of non-audit services. In such cases, it would be appropriate for auditors to provide the member holding delegated authority to approve a tax service a description of the service that complies with Rule 3524(a). Also, although the auditor may discuss the service with the member holding delegated authority when the member is considering the service, in order to comply with Rule 3524(b), the auditor ought to discuss the service with the audit committee as a whole when the audit committee considers the updated forecast or other summary.

Finally, Rule 3524(c) requires a registered public accounting firm to document the substance of its discussion with the audit committee under subparagraph (b). The few commenters who addressed this provision supported it.<sup>87</sup>

### III. Effective and Transition Dates

The Board intends that the rules become effective at varying times.

In light of pre-existing legal and regulatory requirements, Rules 3502 and 3520 do not, in any practical sense, create new criteria for appropriate conduct. Accordingly, no transition period is called for, and therefore the Board intends that Rules 3502 and 3520, as well as the definitions in Rule 3501, become effective 10 days after the date that the SEC approves the rules.

Rule 3521 is based on the SEC's existing contingent fee rule, although it differs from that rule in certain respects. Accordingly, the Board will not apply Rule 3521 to contingent fee arrangements that were paid in their entirety, converted to fixed fee arrangements, or otherwise unwound before the later of December 31, 2005, or 10 days after the date that the SEC approves the rules. Of course, as noted above, the Commission's Rule 2-01 on auditor independence treats an auditor as not independent if it enters into a contingent fee arrangement with an audit client today.<sup>88</sup>

Rules 3522, 3523, and 3524 establish new criteria for appropriate conduct by registered public accounting firms and their associated persons. The Board believes it is appropriate to allow a reasonable period of time for such firms to

---

<sup>87</sup> One commenting auditor suggested that the Board consider requiring specific forms or occasions for auditor documentation of audit committee discussion. After considering this suggestion, the Board has determined that such forms or required timing of discussions could unnecessarily limit the scope of the discussions that, in the judgment of the auditor and audit committee, are appropriate.

<sup>88</sup> 17 C.F.R. § 210.2-01(c)(5).

prepare internal policies and procedures, and train their employees to ensure compliance with these new requirements. In addition, the Board understands that engagements covered by these rules may be in progress and that firms will need to terminate or complete these engagements in a professional manner. Accordingly, the Board believes it is appropriate to allow transition periods for these rules.

The Board understands that Rule 3523 will, in practical effect, lead to some registered firms terminating recurring engagements to provide tax services and may require certain members of public companies' senior management to find other tax preparers. Accordingly, the Board has determined that it will not apply Rule 3523 to tax services being provided pursuant to an engagement in process at the time the SEC approves the rules, provided that such services are completed on or before the later of June 30, 2006 or 10 days after the date that the SEC approves the rules. As discussed above, the Board will treat engagements as "in process" if an engagement letter has been executed and work of substance has commenced; the Board will not treat engagements as "in process" during negotiations on the scope and fee for a service.

Although the Board does not expect them to require the same transition as Rule 3523, Rules 3522 and 3524 also impose new legal requirements. Accordingly, the Board has determined that it will not apply Rule 3522 to tax services that were completed by a registered public accounting firm no later than the later of December 31, 2005, or 10 days after the date that the SEC approves the rules. Rule 3524 will not apply to any tax service pre-approved before the later of December 31, 2005, or 10 days after the date that the SEC approves the rules, or, in the case of an issuer that pre-approves non-audit services by policies and procedures, the rule will not apply to any tax service provided by March 31, 2006.

On the 26th day of July, in the year 2005, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

## **APPENDIX—**

Rules

## Appendix

### Rules

#### SECTION 3: PROFESSIONAL STANDARDS

##### Part 5 — Ethics

### Rule 3501. Definitions of Terms Employed in Section 3, Part 5 of the Rules.

When used in Section 3, Part 5 of the Rules, unless the context otherwise requires:

**(a)(i) Affiliate of the Accounting Firm**

The term "affiliate of the accounting firm" (or "affiliate of the registered public accounting firm" or "affiliate of the firm") includes the accounting firm's parents; subsidiaries; pension, retirement, investment or similar plans; and any associated entities of the firm, as that term is used in Rule 2-01 of the Commission's Regulation SX, 17 C.F.R. § 210.2-01(f)(2).

**(a)(ii) Affiliate of the Audit Client**

The term "affiliate of the audit client" means—

- (1) An entity that has control over the audit client, or over which the audit client has control, or which is under common control with the audit client, including the audit client's parents and subsidiaries;
- (2) An entity over which the audit client has significant influence, unless the entity is not material to the audit client;
- (3) An entity that has significant influence over the audit client, unless the audit client is not material to the entity; and
- (4) Each entity in the investment company complex when the audit client is an entity that is part of an investment company complex.

**(a)(iii) Audit and Professional Engagement Period**

The term "audit and professional engagement period" includes both—

- (1) The period covered by any financial statements being audited or reviewed (the "audit period"); and
- (2) The period of the engagement to audit or review the audit client's financial statements or to prepare a report filed with the Commission (the "professional engagement period")—
  - (A) The professional engagement period begins when the registered public accounting firm either signs an initial engagement letter (or other agreement to review or audit a client's financial statements) or begins audit, review, or attest procedures, whichever is earlier; and
  - (B) The professional engagement period ends when the audit client or the registered public accounting firm notifies the Commission that the client is no longer that firm's audit client.
- (3) For audits of the financial statements of foreign private issuers, the "audit and professional engagement period" does not include periods ended prior to the first day of the last fiscal year before the

foreign private issuer first filed, or was required to file, a registration statement or report with the Commission, provided there has been full compliance with home country independence standards in all prior periods covered by any registration statement or report filed with the Commission.

**(a)(iv) Audit Client**

The term "audit client" means the entity whose financial statements or other information is being audited, reviewed, or attested and any affiliates of the audit client.

**(c)(i) Contingent Fee**

The term "contingent fee" means—

- (1) Except as stated in paragraph (2) below, any fee established for the sale of a product or the performance of any service pursuant to an arrangement in which no fee will be charged unless a specified finding or result is attained, or in which the amount of the fee is otherwise dependent upon the finding or result of such product or service.
- (2) Solely for the purposes of this definition, a fee is not a "contingent fee" if the amount is fixed by courts or other public authorities and not dependent on a finding or result.

**(f)(i) Financial Reporting Oversight Role**

The term "financial reporting oversight role" means a role in which a person is in a position to or does exercise influence over the contents of the financial statements or anyone who prepares them, such as when the person is a member of the board of directors or similar management or governing body, chief executive officer, president, chief financial officer, chief operating officer, general counsel, chief accounting officer, controller, director of internal audit, director of financial reporting, treasurer, or any equivalent position.

**(i)(i) Investment Company Complex**

- (1) The term "investment company complex" includes—
  - (i) An investment company and its investment adviser or sponsor;
  - (ii) Any entity controlled by or controlling an investment adviser or sponsor in paragraph (i) of this definition, or any entity under common control with an investment adviser or sponsor in paragraph (i) of this definition if the entity—
    - (A) Is an investment adviser or sponsor; or
    - (B) Is engaged in the business of providing administrative, custodian, underwriting, or transfer agent services to any investment company, investment adviser, or sponsor; and
  - (iii) Any investment company or entity that would be an investment company but for the exclusions provided by section 3(c) of the Investment Company Act of 1940 (15 U.S.C. § 80a-3(c)) that has an investment adviser or sponsor included in this definition by either paragraph (i) or (ii) of this definition.

- (2) An investment adviser, for purposes of this definition, does not include a sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser.
- (3) A sponsor, for purposes of this definition, is an entity that establishes a unit investment trust.

## Rule 3502. Responsibility Not to Cause Violations.

A person associated with a registered public accounting firm shall not cause that registered public accounting firm to violate the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards, due to an act or omission the person knew or should have known would contribute to such violation.

## Subpart 1 — Independence

### Rule 3520. Auditor Independence.

A registered public accounting firm must be independent of its audit client throughout the audit and professional engagement period.

Note: Under Rule 3520, a registered public accounting firm's independence obligation with respect to an audit client that is an issuer encompasses not only an obligation to satisfy the independence criteria set out in the rules and standards of the PCAOB, but also an obligation to satisfy all other independence criteria applicable to the engagement, including the independence criteria set out in the rules and regulations of the Commission under the federal securities laws.

### Rule 3521. Contingent Fees.

A registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any service or product to the audit client for a contingent fee or a commission, or receives from the audit client, directly or indirectly, a contingent fee or commission.

### Rule 3522. Tax Transactions.

A registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any non-audit service to the audit client related to planning, or opining on the tax treatment of, a transaction—

- (a) **Listed Transactions**—that is a listed transaction within the meaning of 26 C.F.R. §6011.1-4(b)(2);
- (b) **Confidential Transactions**—that is a confidential transaction within the meaning of 26 C.F.R. §6011.1-4(b)(3), or that would be a confidential transaction within the meaning of 26 C.F.R. §6011.1-4(b)(3) if the fee for the transaction were equal to or more than the minimum fee described in 26 C.F.R. §6011.1-4(b)(3); or

- (c) **Aggressive Tax Positions**—that was initially recommended by the registered public accounting firm or another tax advisor and a significant purpose of which is tax avoidance, unless the proposed tax treatment is at least more likely than not to be allowable under applicable tax laws.

### **Rule 3523. Tax Services for Senior Officers of Audit Client.**

A registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any tax service to an officer in a financial reporting oversight role at the audit client.

### **Rule 3524. Audit Committee Pre-approval of Certain Tax Services.**

In connection with seeking audit committee pre-approval to perform for an audit client any permissible tax service, a registered public accounting firm shall—

- (a) provide to the audit committee of the audit client—
    - (i) the engagement letter relating to the service, which shall include descriptions of the scope of the service and the fee structure, any amendment to the engagement letter, or any other agreement (whether oral, written, or otherwise) between the firm and the audit client, relating to the service; and
    - (ii) any compensation arrangement or other agreement, such as a referral agreement, a referral fee or fee-sharing arrangement, between the registered public accounting firm (or an affiliate of the firm) and any person (other than the audit client) with respect to the promoting, marketing, or recommending of a transaction covered by the service;
  - (b) discuss with the audit committee the potential effects of the services on the independence of the firm; and
  - (c) document the substance of its discussion with the audit committee.
-

## PCAOB Release No. 2005-015

# ***Auditing Standard No. 4, Reporting on Whether a Previously Reported Material Weakness Continues to Exist***

PCAOB Release No. 2005-015  
July 26, 2005

PCAOB Rulemaking  
Docket Matter No. 018

**Approved by the Securities and Exchange Commission on February 6, 2006, and is effective as of February 6, 2006.**

### **Summary:**

After public comment, the Public Company Accounting Oversight Board (the "Board" or "PCAOB") has adopted Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*. The Board will submit this standard to the Securities and Exchange Commission ("Commission" or "SEC") for approval pursuant to Section 107 of the Sarbanes-Oxley Act of 2002 (the "Act"). This standard will not take effect unless approved by the Commission.

### **Board Contacts:**

Laura Phillips, Associate Chief Auditor (202/207-9111; phillipsl@pcaobus.org),  
Sharon Virag, Assistant Chief Auditor (202/207-9164; virags@pcaobus.org)

\* \* \*

## **I. Background**

Congress enacted Section 404 of the Sarbanes-Oxley Act of 2002 (the "Act") to provide investors with increased transparency about public companies' internal control over financial reporting. Since then, approximately 12.7 percent of public companies that are accelerated filers<sup>1</sup> have reported that their internal control over financial reporting is not effective because one or more material weaknesses in internal control over financial reporting existed as of the company's fiscal year-end.<sup>2</sup> When a company reports a material weakness, investors may be left uncertain about the reliability of the company's financial reporting. They may also want information about the company's plans for remediating the material weakness and its timeframe for doing so, and to be notified when the material weakness has been eliminated. Thus, a disclosure that internal

---

<sup>1</sup> An "accelerated filer," as defined in Rule 12b-2 under the Securities Exchange Act of 1934, 17 C.F.R. § 240.12b-2, is generally a U.S. company that, among other things, has equity market capitalization over \$75 million and has filed at least one annual report with the Commission.

<sup>2</sup> See Paul J. Martinek, *Adjustments, Restatements Are Predictors Of Weaknesses*, Compliance Week (June 14, 2005).

control over financial reporting is not effective is often only the beginning of a company's communications with investors concerning the material weakness (or weaknesses) that caused the problem.<sup>3</sup>

Both companies and report users have recognized the importance of a mechanism for companies to effectively communicate with the markets when a previously reported material weakness in internal control over financial reporting no longer exists.<sup>4</sup> In many cases, companies will find the mechanisms for company disclosures already provided by the federal securities laws sufficient. For example, a public company is required to disclose quarterly any changes in internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.<sup>5</sup> Investors will, therefore, learn of material improvements, such as the correction of a material weakness, on at least a quarterly basis through these required disclosures.<sup>6</sup> Under the Board's Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Connection with an Audit of Financial Statements*, the company's auditor is responsible for evaluating these quarterly disclosures.<sup>7</sup> Finally, investors will also learn about the status of previously reported material weaknesses (as well as internal control over financial reporting overall), accompanied by auditor assurance, when the company files its next annual report. Investors and issuers, however, have called for the ability to obtain auditor assurance as of an interim date that a previously reported material weakness no longer exists. At the November 18, 2004, SAG Meeting, several members of the group with experience as investors and issuers encouraged the Board to develop a standard that would describe this type of engagement for the auditor. In particular, several issuer members of the SAG emphasized that companies that have reported a material weakness will want to have options available to assure the markets that the material weakness has been remediated.<sup>8</sup>

## II. Public Comment on the Board's Proposal

On March 31, 2005, the Board issued for public comment a proposed auditing standard titled "Reporting on the Elimination of a Material Weakness." In response, the Board received 30 comment letters from a variety of interested parties, including auditors, investors, issuers, and others. The comment letters

---

<sup>3</sup> Some companies with material weaknesses have already begun this process by including detailed descriptions of their remediation plans in their annual filings or by providing additional disclosures in subsequent filings on the steps they are continuing to take to remediate the weaknesses. See June 2005 Internal Control Report: All About Remediation, Compliance Week (July 6, 2005).

<sup>4</sup> The Board's Standing Advisory Group ("SAG") discussed possible auditor involvement with the elimination of a material weakness at its November 18, 2004 public meeting ("SAG Meeting"). An archived webcast of the SAG Meeting and a related briefing paper on this topic, "Reporting on the Correction of a Material Weakness," are available on the PCAOB's Web site at [www.pcaobus.org](http://www.pcaobus.org).

<sup>5</sup> See Item 308(c) of Regulation S-K, 17 C.F.R. §229.308(c).

<sup>6</sup> Of course, through this same mechanism, investors also could learn if internal control over financial reporting deteriorates materially during the year.

<sup>7</sup> See Paragraphs 202–206 of Auditing Standard No. 2, as well as PCAOB Staff Question and Answer No. 55 regarding the extent of these responsibilities. The Staff Questions and Answers are available on the Board's Web site under Standards at [www.pcaobus.org](http://www.pcaobus.org).

<sup>8</sup> See Nick S. Cyprus, Vice President, Controller and Chief Accounting Officer, The Interpublic Group of Companies, Remarks at SAG Meeting (Nov. 18, 2004) ("I guarantee there will be demand [for such a standard]"); Sam Cotterell, Vice President and Controller, Boise Cascade LLC, Remarks at SAG Meeting (Nov. 18, 2004) ("if I have a material weakness disclosed, I want a mechanism to let the market know that that has been fixed. I want to do that as quickly as possible.").

included detailed discussion of a wide range of topics. Many commenters expressed strong support for the standard.<sup>9</sup>

Other comments included:

- suggestions regarding the wording of the auditor's opinion and the title of the proposed standard;
- discussion of several technical issues, such as the standard's focus on control objectives, consideration of materiality, and the potential need for the auditor to perform substantive procedures;
- suggestions regarding the auditor's responsibility when new material weaknesses are identified during this engagement, and when all previously reported material weaknesses are not being reported upon by the auditor;
- concerns that, although an engagement under the standard would be completely voluntary, it could become compulsory, as a practical matter, if investors begin to insist on auditor attestation in all cases in which a material weakness is identified;
- a suggestion that the conforming amendment be modified to allow auditors to use AT 101 strictly for a company's internal use.

The Board carefully considered all of the comment letters that it received. A detailed analysis of comments and the Board's responses are contained in the Background and Basis for Conclusions, in Appendix B of the standard.

### III. Summary of Changes to the Proposed Standard

The Board adopted Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*, after making several changes to the proposed standard in response to comments. The more significant changes include—

- revising the form of the auditor's opinion to clarify that the purpose of the engagement is to determine whether the material weakness "exists" or "no longer exists" and making related changes to the title of the standard;
- conforming text in the conditions for engagement performance to the text of a parallel provision in PCAOB Auditing Standard No. 2, due to the close relationship between the two standards. Specifically, the Board clarified that under Auditing Standard No. 4, management's evidence includes documentation;
- adding guidance on the subjects of materiality, control objectives and substantive procedures;
- adding a responsibility for the auditor to inform the audit committee if the auditor identifies a new material weakness during an engagement performed under this standard;

---

<sup>9</sup> See Letter from Laurie Fiori Hacking, Executive Director, Ohio Public Employees Retirement System, to J. Gordon Seymour, Acting Secretary, PCAOB (Apr. 15, 2005) ("The elimination of a material weakness, accompanied by an independent auditor's interim report attesting to management's assessment of its internal controls, will increase investor confidence in the reliability of a company's financial statements."); Letter from Gregory J. Jonas, Managing Director, Moody's Investors Service, to Office of the Secretary, PCAOB (May 5, 2005) ("the proposed standard strikes a useful balance by giving companies the option to provide users with information they value and with the assurance they find useful while not requiring a complete re-assessment").

- modifying the required elements of the auditor's report to clarify that a continuing auditor previously obtained an understanding of internal control over financial reporting and updated that understanding as it specifically relates to changes in internal control over financial reporting associated with the specified material weakness;
- including additional illustrative auditor's reports; and
- modifying the conforming amendment to the Board's interim attestation standards to allow auditors to continue to use AT 101 for engagements to report on whether a material weakness continues to exist if such a report is intended strictly for a company's internal use.

These changes have been reflected in the adopted standard, and are discussed further in the Background and Basis for Conclusions, included in Appendix B of the standard.

## IV. Overview of the Engagement

This standard establishes a stand-alone engagement that is entirely voluntary, performed only at the company's request. This type of reporting is not required by the Act or the standards or rules of the PCAOB, and should not be viewed as compulsory. The Board anticipates that in deciding whether to engage their auditors to report on whether a particular material weakness continues to exist, companies will weigh the costs and benefits and do so only when it is cost-effective. Based on the investor and issuer comments at the SAG Meeting, the Board believes that, in some situations, companies will find that auditor assurance that a material weakness no longer exists leads to a higher level of investor confidence in a company's financial reporting, and that the costs of the engagement are therefore worth incurring. If a company believes, however, that these benefits would be outweighed in a particular case by the costs of obtaining them, the company may (and presumably would) determine not to engage its auditor to perform this work.

Although the Board designed this standard to be a cost-effective means of providing investors assurance that a material weakness no longer exists, the Board expects that this engagement will be best suited and most cost-effective for reporting on material weaknesses that are discrete problems with a limited effect on the company's internal control over financial reporting. Reporting on material weaknesses that have a pervasive effect on the company's internal control over financial reporting could require such a broad and extensive base of work that the Board anticipates that a company in this situation would choose to wait for the auditor's annual audit of internal control over financial reporting conducted under Auditing Standard No. 2 to obtain auditor assurance that a pervasive material weakness no longer exists.

The objective of an auditor's engagement under this standard is to express an opinion on whether a previously reported material weakness continues to exist. The standard, therefore, draws from many concepts applicable to the auditor's report on the effectiveness of internal control over financial reporting, as described in Auditing Standard No. 2, although in a more narrowly focused and limited manner. For this reason, most of the requirements in the standard will be familiar to auditors. In designing this standard, the Board provided flexibility wherever possible, to allow auditors to conduct the engagement in a manner suited to the material weakness in internal control over financial reporting at issue.

Similar to any other attestation service, an auditor's report under this standard is based on an evaluation of management's assertion that the material weakness no longer exists. This standard establishes several conditions that must be met for the auditor to perform this engagement. These conditions were patterned after management's responsibilities under the SEC's rules implementing Section 404 of the Act<sup>10</sup> and the corresponding conditions in Auditing Standard No. 2.<sup>11</sup> These conditions include management accepting responsibility for internal control over financial reporting, evaluating the effectiveness of the specified controls that address the material weakness, asserting that the specified controls are effective in addressing the material weakness, and supporting its assertion with sufficient evidence, including documentation.

The auditor's assurance resulting from this engagement is that the previously reported material weakness, in the auditor's opinion, no longer exists as of a specified date. Although the auditor's evaluation of the design and operating effectiveness of the identified controls generally follows the requirements of PCAOB Auditing Standard No. 2, this engagement is designed to be significantly narrower in scope because the auditor's testing is limited to the controls specifically identified by management as addressing the material weakness. Both management and the auditor use the company's stated control objective as the target for determining whether the specified controls sufficiently address the material weakness. (See Section VI for further discussion of the determination that a material weakness no longer exists.)

## V. Auditor's Report

To communicate clearly the narrow focus of this engagement, the standard requires the auditor's report to describe the material weakness, identify all of the specified controls that management asserts address the material weakness, and identify the stated control objective achieved by these controls. The report also is required to include language to emphasize to readers that the auditor has not performed procedures sufficient to reach conclusions about the effectiveness of any other controls or provided an opinion regarding the effectiveness of internal control over financial reporting overall.<sup>12</sup> Report users should thus understand the limited scope of the auditor's opinion.

To render an opinion that a material weakness no longer exists, the auditor must have obtained evidence about the design and operation of the relevant controls, determined that the material weakness no longer exists, and determined that no scope limitations were placed on the auditor's work. Because of the narrow focus of this engagement, qualified opinions are not permitted. Limitations on the scope of the auditor's work preclude the auditor from rendering an opinion. The auditor's opinion as to whether a previously reported material weakness continues to exist may be expressed as "the material weakness exists" or "the material weakness no longer exists." Accordingly, the standard does not distinguish between an unqualified opinion and an adverse opinion but simply refers to the auditor's opinion.

---

<sup>10</sup> See Item 308(a) of Regulation S-K, 17 C.F.R. §229.308(a).

<sup>11</sup> See Paragraph 20 of Auditing Standard No. 2.

<sup>12</sup> The SAG Meeting included a discussion about the importance of such a report clearly communicating to report users the scope of the engagement. Several SAG members emphasized the potential for report users to believe, mistakenly, that the auditor, as a result of this limited engagement, had rendered a current opinion regarding the effectiveness of internal control over financial reporting overall. Comments received on the proposed standard generally expressed overall support for the clarity of the proposed auditor's report in this regard.

Unlike an auditor's report on internal control over financial reporting, in which the assessment is required to be as of the date of the annual financial statements, an auditor's report on whether a material weakness continues to exist may be as of any date set by management. The "as of" date of management's assertion represents the day the company believes the material weakness no longer exists and that the company has adequately assessed the effectiveness of the specified controls that address the material weakness. In the event that the auditor begins testing and concludes that additional remediation is required to address the material weakness, the company has the opportunity to re-address its remediation efforts, reset the assertion date, and ask the auditor again to opine on whether the material weakness continues to exist.

If the auditor determines that a material weakness continues to exist and does not issue a report, the standard requires the auditor to communicate to the company's audit committee, in writing, his or her conclusion that the material weakness continues to exist. Similarly, the auditor also has a responsibility to communicate to the audit committee, in writing, any new material weaknesses that the auditor identifies during this engagement that the auditor has not already communicated in writing to the audit committee. The standard also addresses the circumstance in which the auditor reports on fewer than all of the previously reported material weaknesses. In this circumstance, the standard requires the auditor to include language in his or her report stating that his or her previously issued report on management's annual assessment of the company's internal control over financial reporting identified additional material weaknesses, that the auditor is not reporting on those other material weaknesses, and that the auditor, accordingly, is expressing no opinion on whether those material weaknesses exist after the company's year-end.<sup>13</sup>

## VI. Determining That a Material Weakness No Longer Exists

The standard requires the auditor to obtain evidence sufficient to determine whether the design and operation of the controls identified by management achieve the *stated control objectives* and that the material weakness no longer exists. A control objective for internal control over financial reporting generally relates to a relevant financial statement assertion, such as whether certain recorded transactions are genuine, and provides a basis for evaluating the effect of a company's controls on that assertion.<sup>14</sup> A stated control objective in the context of this engagement is the specific control objective identified by management that, if achieved, would result in the material weakness no longer existing. For this reason, management and the auditor must be satisfied that, if the stated control objective were achieved, the material weakness would no longer exist.

---

<sup>13</sup> Several investors, among others, suggested that, in the circumstance in which additional material weaknesses were previously reported but are not the subject of the auditor's report on whether a material weakness continues to exist, the auditor's report should draw attention to these other material weaknesses. In response to these comments, the standard states that when referring to his or her previously issued report, the auditor is required either to attach that report to his or her report on whether the material weakness continues to exist or to include information about where the previously issued report can be publicly obtained.

<sup>14</sup> See Paragraphs 68 through 70 of Auditing Standard No. 2 for additional information on relevant assertions.

When a material weakness has a pervasive effect on the company's internal control over financial reporting, identifying the control objectives that are not being met may be difficult because of the large number of control objectives affected. A material weakness related to an ineffective control environment is an example of this situation. If management and the auditor have difficulty in identifying *all* of the stated control objectives affected by a material weakness, the material weakness is probably not suitable for this type of narrow, interim reporting and should be tested, instead, during the auditor's annual audit of internal control over financial reporting conducted under Auditing Standard No. 2.

## VII. Using the Work of Others

Auditing Standard No. 4 applies the same framework for using the work of others as the one described in Auditing Standard No. 2. Similar to Auditing Standard No. 2, the standard permits the auditor to use the work of others to alter the nature, timing, and extent of the auditor's performance of work related to this engagement. This framework requires the auditor to obtain the principal evidence supporting his or her opinion and to evaluate the nature of the controls being tested, together with the competence and objectivity of the persons performing the work.

Under both Auditing Standard No. 2 and this standard, the framework measures principal evidence in relation to the overall assurance provided by the auditor. Under Auditing Standard No. 2, the principal evidence supporting the auditor's opinion should be evaluated in relation to the auditor's opinion on internal control over financial reporting overall. Under this standard, the evaluation of whether the auditor has obtained the principal evidence supporting his or her opinion needs to be applied at the control objective level. It should be noted, however, that this does not require the auditor to obtain the principal evidence that each control specifically identified in management's assertion as related to the identified control objectives is effective.

There may be some circumstances in which the scope of the audit procedures to be performed in this type of engagement will be so limited that using the work of others will not provide any tangible benefit to the company or its auditor. The flexibility that the framework otherwise provides, however, is meant to encourage auditors to evaluate whether opportunities exist to use the work of others in this context.

## VIII. Effective Date of the Standard

The standard will be effective as of the date of SEC approval.

\* \* \*

On the 26th day of July, in the year 2005, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

/s/ J. Gordon Seymour

J. Gordon Seymour

Acting Secretary

July 26, 2005

**APPENDICES—**

1. Auditing Standard No. 4—*Reporting on Whether a Previously Reported Material Weakness Continues to Exist*
2. Conforming Amendment to PCAOB Auditing and Related Professional Practice Standards Resulting from the Adoption of Auditing Standard No. 4—*Reporting on Whether a Previously Reported Material Weakness Continues to Exist*

## Appendix 1

### **Auditing Standard No. 4, Reporting on Whether a Previously Reported Material Weakness Continues to Exist**

#### **Applicability of Standard**

1. This standard establishes requirements and provides direction that apply when an auditor is engaged to report on whether a previously reported material weakness in internal control over financial reporting (hereinafter referred to as a material weakness) continues to exist as of a date specified by management.

Note 1: In this context, *previously reported material weakness* means a material weakness that was described previously in an auditor's report issued pursuant to Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with an Audit of Financial Statements*.

Note 2: The date specified by management as the date that the previously reported material weakness no longer exists must be a date after the date of management's most recent annual assessment.

2. An auditor may conduct an engagement to report on whether a previously reported material weakness continues to exist if (1) the auditor has audited the company's financial statements and internal control over financial reporting in accordance with Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with an Audit of Financial Statements*, as of the date of the company's most recent annual assessment of internal control over financial reporting, or (2) the auditor has been engaged to perform an audit of the financial statements and internal control over financial reporting in accordance with Auditing Standard No. 2 in the current year and has a sufficient basis for performing this engagement. (See paragraph 26 of this standard for additional requirements that apply specifically to a successor auditor's application of this standard.)

Note: References in this standard to the company's most recent annual assessment of internal control over financial reporting apply to the company's most recent assessment of internal control over financial reporting overall, either as of the company's year-end or as of a more recent interim date, as audited by the auditor in accordance with Auditing Standard No. 2.

3. The auditor may report on more than one previously reported material weakness as part of a single engagement.

4. The engagement described by this standard is voluntary. The standards of the PCAOB do not require an auditor to undertake an engagement to report on whether a previously reported material weakness continues to exist. The auditor may audit the company's internal control over financial reporting in accordance with Auditing Standard No. 2 without ever performing an engagement in accordance with this standard.

#### **Auditor's Objective in an Engagement to Report on Whether a Previously Reported Material Weakness Continues to Exist**

5. The auditor's objective in an engagement to report on whether a previously reported material weakness continues to exist is to obtain reasonable

assurance about whether the previously reported material weakness exists as of a date specified by management and to express an opinion thereon. The auditor's opinion relates to the existence of a specifically identified material weakness as of a specified date and does not relate to the effectiveness of the company's internal control over financial reporting overall.

**6.** To obtain reasonable assurance, the auditor should obtain and evaluate evidence about whether specified controls were designed and operated effectively as of the date specified by management and whether those controls satisfy the company's stated control objective.

Note: Obtaining and evaluating evidence about whether the specified controls are designed effectively without also obtaining evidence about whether those controls operated effectively would not result in the auditor obtaining reasonable assurance for the purpose of expressing an opinion on whether a material weakness continues to exist.

## Conditions for Engagement Performance

**7.** The auditor may report on whether a previously reported material weakness continues to exist at a company only if all of the following conditions are met:

- a. Management accepts responsibility for the effectiveness of internal control over financial reporting;
- b. Management evaluates the effectiveness of the specific control(s) that it believes addresses the material weakness using the same control criteria that management used for its most recent annual assessment of internal control over financial reporting and management's stated control objective(s);
- c. Management asserts that the specific control(s) identified is effective in achieving the stated control objective;
- d. Management supports its assertion with sufficient evidence, including documentation; and
- e. Management presents a written report that will accompany the auditor's report that contains all the elements described in paragraph 48 of this standard.

**8.** If all the conditions in paragraph 7 of this standard are not met, the auditor is not permitted to complete the engagement to report on whether a previously reported material weakness continues to exist.

## Framework and Definitions for Evaluation

**9.** The terms *internal control over financial reporting*, *control deficiency*, *significant deficiency*, and *material weakness* have the same meanings as the definitions of those terms in paragraphs 7 through 10, respectively, of Auditing Standard No. 2.

**10.** Paragraph 13 of Auditing Standard No. 2 states that management is required to base its annual assessment of the effectiveness of the company's internal control over financial reporting on a suitable, recognized control framework (also known as *control criteria*) and describes the characteristics that make a framework suitable for this purpose. For purposes of an engagement to report on whether a previously reported material weakness continues to exist, both management and the auditor must use both (1) the same control criteria used for the company's most recent annual assessment of internal control over

financial reporting, and (2) the company's stated control objective(s) to evaluate whether a material weakness continues to exist.

Note: The performance and reporting requirements in Auditing Standard No. 2 and in this standard are based on the Committee of Sponsoring Organizations ("COSO") of the Treadway Commission's publication, *Internal Control—Integrated Framework*. Known as the COSO report, it provides a suitable and available framework for purposes of management's annual assessment of internal control over financial reporting. (More information about the COSO framework is included in paragraphs 14 and 15 of Auditing Standard No. 2, the COSO report, and AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*.)

**11.** A *control objective* provides a specific target against which to evaluate the effectiveness of controls. A control objective for internal control over financial reporting generally relates to a relevant financial statement assertion and states a criterion for evaluating whether the company's control procedures in a specific area provide reasonable assurance that a misstatement to or omission in that relevant assertion is prevented or detected by controls on a timely basis.<sup>1</sup>

**12.** Management establishes control objectives that are tailored to the individual company. The process of tailoring control objectives to the individual company allows the control criteria used for management's annual assessment to be applied to the facts and circumstances in a reasonable and appropriate manner. Although control objectives are used most frequently to evaluate the effectiveness of control activities, the other components of internal control over financial reporting (i.e., control environment, risk assessment, information and communication, and monitoring) also can be expressed in terms of control objectives.

**13.** In an audit of internal control over financial reporting, the auditor is required to identify the company's control objectives in each area and to identify the controls that satisfy each control objective to evaluate whether the company's internal control over financial reporting is designed effectively.<sup>2</sup>

**14.** Table 1 includes examples of control objectives and their related assertions:

**Table 1—Examples of Control Objectives and Related Assertions**

<b>Control Objectives</b>	<b>Assertions</b>
Recorded sales of product X initiated on the company's Web site are real	Existence or occurrence
Product X warranty losses that are probable and can be reasonably estimated are recorded as of the company's quarterly financial statement period-ends	Completeness

(continued)

<sup>1</sup> See paragraphs 68 to 70 of Auditing Standard No. 2 for additional information on relevant assertions.

<sup>2</sup> See paragraph 88 of Auditing Standard No. 2

Control Objectives	Assertions
Interest rate swaps are recorded at fair value	Valuation or allocation
The company has legal title to recorded product X inventory in the company's Dallas, TX warehouse	Rights and obligations
Pending litigation that is reasonably possible to result in a material loss is disclosed in the quarterly and annual financial statements	Presentation and disclosure

15. If a material weakness has previously been reported, a necessary control objective (or objectives) has not been achieved.

16. A *stated control objective* in the context of an engagement to report on whether a material weakness continues to exist is the specific control objective identified by management that, if achieved, would result in the material weakness no longer existing.

17. Because the stated control objective, for purposes of this engagement, provides management and the auditor with a specific target against which to evaluate whether the material weakness continues to exist, management and the auditor must be satisfied that, if the stated control objective were achieved, the material weakness would no longer exist.

Note: When a material weakness has a pervasive effect on the company's internal control over financial reporting, identifying the related control objectives that are not being achieved may be difficult because of the large number of control objectives affected. A material weakness related to an ineffective control environment would be an example of this circumstance. If management and the auditor have difficulty identifying *all* of the stated control objectives affected by a material weakness, the material weakness probably is not suitable for this engagement and should be addressed, instead, through the auditor's annual audit of internal control over financial reporting conducted under Auditing Standard No. 2.

## Performing an Engagement to Report on Whether a Previously Reported Material Weakness Continues to Exist

18. In an engagement to report on whether a previously reported material weakness continues to exist, the auditor must obtain sufficient competent evidence about the design and operating effectiveness of specified controls that provide reasonable assurance that the company's stated control objective is achieved in the context of the control criteria (e.g., COSO).

Note 1: An individual material weakness may be associated with a single stated control objective or with more than one stated control objective, depending on the nature of the material weakness and the manner in which the company tailors its stated control objectives to its business.

Note 2: Depending on the nature of the company's business, its organization, its internal control over financial reporting, and the specific material weakness that is the subject of this engagement, the auditor may determine that he or she is not able to obtain a sufficient basis for reporting on whether a previously reported material weakness continues to exist without performing a complete audit of internal control over financial reporting in accordance with Auditing Standard No. 2.

***Applying the Standards of the PCAOB***

**19.** The auditor must adhere to the standards of the PCAOB in performing an engagement to report on whether a previously reported material weakness continues to exist. Adherence to the standards involves:

- a. Planning the engagement,
- b. Obtaining an understanding of internal control over financial reporting,
- c. Testing and evaluating whether a material weakness continues to exist, including using the work of others, and
- d. Forming an opinion on whether a previously reported material weakness continues to exist.

**20.** Even though some requirements of this standard are set forth in a manner that suggests a sequential process, auditing whether a previously reported material weakness continues to exist involves a process of gathering, updating, and analyzing information. Accordingly, the auditor may perform some of the procedures and evaluations described in this section of the standard concurrently.

**21.** The engagement to report on whether a previously reported material weakness continues to exist must be performed by a person or persons having adequate technical training and proficiency as an auditor. In all matters related to the assignment, an independence in mental attitude must be maintained. Due professional care must be exercised in the performance of the engagement and the preparation of the report. Paragraphs 30 through 36 of Auditing Standard No. 2 describe the application of these standards in the context of an internal control-related service.

**22.** This standard establishes the fieldwork and reporting standards applicable to an engagement to report on whether a previously reported material weakness continues to exist.

**23.** The concept of materiality, as discussed in paragraphs 22 and 23 of Auditing Standard No. 2, underlies the application of the general and fieldwork standards in an engagement to report on whether a previously reported material weakness continues to exist. Therefore, the auditor uses materiality at the financial-statement level, rather than at the individual account-balance level, in evaluating whether a material weakness exists. The auditor should assess materiality as of the date that management asserts that the previously reported material weakness no longer exists.

***Planning the Engagement***

**24.** The auditor should properly plan the engagement to report on whether a previously reported material weakness continues to exist and should properly supervise any assistants. When planning the engagement, the auditor should evaluate how the matters described in paragraph 39 of Auditing Standard No. 2 will affect the auditor's procedures.

***Obtaining an Understanding of Internal Control over Financial Reporting***

**25.** To perform this engagement, the auditor must have a sufficient knowledge of the company and its internal control over financial reporting. An auditor who has audited the company's internal control over financial reporting in accordance with Auditing Standard No. 2 as of the date of the company's most recent annual assessment of internal control over financial reporting would be expected to have obtained a sufficient knowledge of the company and its internal control over financial reporting to perform this engagement.

Note: The second sentence of the paragraph above contemplates that the auditor's previous engagement under Auditing Standard No. 2 resulted in rendering an opinion. If an auditor previously engaged to perform an audit of internal control over financial reporting in accordance with Auditing Standard No. 2 has not yet rendered an opinion on the effectiveness of the company's internal control over financial reporting as of the company's most recent year-end or more recently, then that auditor should follow the requirements for a successor auditor in paragraphs 26a-b and 27. Additionally, if an auditor has previously performed an audit of internal control over financial reporting at the company and is now a successor auditor (because another auditor has subsequently performed an audit of internal control over financial reporting at the company in intervening years), the auditor should follow the requirements in paragraphs 26 and 27 for a successor auditor.

**26.** When a successor auditor<sup>3</sup> performs an engagement to report on whether a previously reported material weakness continues to exist and he or she has not yet completed an audit of internal control over financial reporting at the company, he or she must perform procedures to obtain sufficient knowledge of the company's business and its internal control over financial reporting to achieve the objective of the engagement, as described in paragraph 5 of this standard. A successor auditor who has not yet completed an audit of internal control over financial reporting at the company must perform the following procedures as part of obtaining sufficient knowledge of the company's business and its internal control over financial reporting:

- a. Comply with paragraphs 47 through 51 of Auditing Standard No. 2 regarding obtaining an understanding of internal control over financial reporting. The extent of understanding of internal control over financial reporting needed to satisfy these requirements in the context of an engagement to report on whether a previously reported material weakness continues to exist depends on the nature of the material weakness on which the auditor is reporting. The more pervasive the effects of the material weakness, the more extensive the understanding of internal control over financial reporting should be under these requirements. For example, if the material weakness affects company-level controls, a more extensive understanding of internal control over financial reporting will be necessary than if the effects of the material weakness are isolated at the transaction level.
- b. Perform a walkthrough as described in paragraphs 79 through 82 of Auditing Standard No. 2 for all major classes of transactions that are directly affected by controls specifically identified by management as addressing the material weakness.

Note: Some controls have only an indirect effect on a major class of transactions, such as certain controls in the control environment or risk assessment components of internal control over financial reporting. The auditor need not perform a walkthrough of major classes of transactions that are affected only indirectly by the controls specifically identified by management as addressing the material weakness.

- c. In addition to the communication requirements described in AU sec. 315, *Communications Between Predecessor and Successor Auditors*, the successor auditor should make specific inquiries of the

---

<sup>3</sup> The term *successor auditor* has the same meaning as the definition of that term in paragraph .02 of AU sec. 315, *Communications Between Predecessor and Successor Auditors*.

predecessor auditor. These inquiries should address the basis for the predecessor auditor's determination that a material weakness existed in the company's internal control over financial reporting and the predecessor auditor's awareness of any information bearing on the company's ability to successfully address that material weakness.

**27.** A successor auditor may determine that he or she needs to perform procedures in addition to those specified in paragraph 26 of this standard to obtain a sufficient knowledge of the company's business and its internal control over financial reporting. Depending on the nature of the company's business, its organization, its internal control over financial reporting, and the specific material weakness that is the subject of this engagement, a successor auditor may determine that he or she is not able to obtain a sufficient basis for reporting on whether a previously reported material weakness continues to exist without performing a complete audit of internal control over financial reporting in accordance with Auditing Standard No. 2.

### ***Testing and Evaluating Whether a Material Weakness Continues to Exist***

**28.** The auditor must obtain an understanding of and evaluate management's evidence supporting its assertion that the specified controls related to the material weakness are designed and operated effectively, that these controls achieve the company's stated control objective(s) consistent with the control criteria, and that the identified material weakness no longer exists. If the auditor determines that management has not supported its assertion with sufficient evidence, the auditor cannot complete the engagement to report on whether a previously reported material weakness continues to exist, because one of the conditions for engagement completion described in paragraph 7 of this standard would not be met.

Note: Paragraphs 40 through 46 of Auditing Standard No. 2 apply to the auditor's evaluation of management's annual assessment of internal control over financial reporting and management's related documentation. The auditor may apply the relevant concepts described in that section to the evaluation of management's evidence supporting management's assertion that a previously reported material weakness no longer exists.

**29.** As a part of evaluating management's evidence supporting its assertion, the auditor should determine whether management has selected an appropriate date for its assertion. In making this determination, the auditor should take into consideration the following:

- a. Management's assertion that a previously reported material weakness no longer exists may be made as of any specified date that permits management to obtain sufficient evidence supporting its assertion.

Note: The auditor also should determine whether the specified date of management's assertion permits the auditor to obtain sufficient evidence supporting his or her opinion.

- b. Depending on the nature of the material weakness, the stated control objective, and the specified controls, the specified date of management's assertion may need to be after the completion of one or more period-end financial reporting processes.
- c. Controls that operate daily and on a continuous, or nearly continuous, basis generally permit the auditor to obtain sufficient

evidence as to their operating effectiveness as of almost any date management might choose to specify in its report.

- d. Controls that operate over the company's period-end financial reporting process typically can be tested only in connection with a period-end.

**30.** The auditor should obtain evidence about the effectiveness of all controls specifically identified in management's assertion. The nature, timing, and extent of the testing that enables the auditor to obtain sufficient evidence supporting his or her opinion on whether a previously reported material weakness continues to exist will depend on both the nature of the controls specifically identified by management as meeting the company's stated control objectives and the date of management's assertion.

**31.** All controls that are necessary to achieve the stated control objective(s) should, therefore, be specifically identified and evaluated. The specified controls will necessarily include controls that have been modified or newly implemented and also may include existing controls that previously were deemed effective during management's most recent annual assessment of internal control over financial reporting. As part of testing and evaluating the design effectiveness of the specified controls, the auditor should determine whether the specified controls would meet the stated control objective(s) if they operated as designed. In making this evaluation, the auditor should apply paragraphs 88 through 91 of Auditing Standard No. 2.

**32.** Consistent with the direction in paragraph 92 of Auditing Standard No. 2, the auditor should evaluate the operating effectiveness of a specified control by determining whether the specified control operated as designed and whether the person performing the control possesses the necessary authority and qualifications to perform the control effectively. In determining the nature, timing, and extent of tests of controls, the auditor should apply paragraphs 93 through 102 and 105 through 107 of Auditing Standard No. 2.

**33.** The auditor should apply paragraph 98 of Auditing Standard No. 2 regarding an adequate period of time to determine the operating effectiveness of a control in the context of an engagement to report on whether a previously reported material weakness continues to exist. Paragraph 98 of Auditing Standard No. 2 states (in part):

The auditor must perform tests of controls over a period of time that is adequate to determine whether, as of the date specified in management's report, the controls necessary for achieving the objectives of the control criteria are operating effectively. The period of time over which the auditor performs tests of controls varies with the nature of the controls being tested and with the frequency with which specific controls operate and specific policies are applied.

For example, a transaction-based daily reconciliation generally would permit the auditor to obtain sufficient evidence as to its operating effectiveness in a shorter period of time than a pervasive, company-level control, such as any of those described in paragraphs 52 and 53 of Auditing Standard No. 2. Additionally, the auditor typically will be able to obtain sufficient evidence as to the operating effectiveness of controls over the company's period-end financial reporting process only by testing those controls in connection with a period-end.

**34.** The auditor should determine whether, based on the nature of the material weakness, performing substantive procedures to support recorded financial statement amounts or disclosures affected by the specifically identified controls is necessary to obtain sufficient evidence regarding the operating effectiveness of those controls. For example, a material weakness in the company's controls over the calculation of its bad debt reserve ordinarily would require

that the auditor also perform substantive procedures to obtain sufficient evidence supporting an opinion about whether the material weakness continues to exist as of a specified date. In this circumstance, in addition to testing the design and operating effectiveness of the controls specifically identified as achieving the company's stated control objective that its bad debt reserve is reasonably estimated and recorded, the auditor ordinarily would need to perform substantive procedures to determine that, as of that same specified date, the company's bad debt reserve was fairly stated in relation to the company's financial statements taken as a whole.

**35.** When the specified controls, stated control objectives, and material weakness affect multiple locations or business units of the company, the auditor may apply the relevant concepts in paragraphs B1 through B13 of Appendix B of Auditing Standard No. 2 to determine the locations or business units at which to perform procedures.

### ***Using the Work of Others***

**36.** The auditor should evaluate whether to use the work performed by others in an engagement to report on whether a previously reported material weakness continues to exist. To determine the extent to which the auditor may use the work of others to alter the nature, timing, or extent of the work the auditor otherwise would have performed, the auditor should apply paragraphs 109 through 115 and 117 through 125 of Auditing Standard No. 2.

**37.** The auditor's opinion relates to whether a material weakness no longer exists at the company because the stated control objective(s) is met. Therefore, if the auditor has been engaged to report on more than one material weakness or on more than one stated control objective, the auditor must evaluate whether he or she has obtained the principal evidence that the control objectives related to each of the material weaknesses identified in management's assertion are achieved. The auditor may, however, use the work of others to alter the nature, timing, or extent of the work he or she otherwise would have performed. For these purposes, the work of others includes relevant work performed by internal auditors, company personnel (in addition to internal auditors), and third parties working under the direction of management or the audit committee that provide information about the effectiveness of internal control over financial reporting.

**38.** Paragraph 122 of Auditing Standard No. 2 should be applied in the context of the engagement to report on whether a previously reported material weakness continues to exist. Paragraph 122 states, in part, "As the significance of the factors listed in paragraph 112 increases, the ability of the auditor to use the work of others decreases at the same time that the necessary level of competence and objectivity of those who perform the work increases." There may, therefore, be some circumstances in which the scope of the audit procedures to be performed in this engagement will be so limited that using the work of others will not provide any tangible benefit to the company or its auditor. Additionally, the auditor should perform any walkthroughs himself or herself because of the degree of judgment required in performing this work.

Note: The requirement described in paragraph 26b of this standard for the auditor to perform a walkthrough applies only to an auditor who did not complete an audit of internal control over financial reporting as of the company's most recent annual assessment. An auditor who has rendered an opinion on the effectiveness of the company's internal control over financial reporting in accordance with Auditing Standard No. 2 as of the company's most recent annual assessment is not required to perform a walkthrough as part of this engagement.

**39.** The following example illustrates how to apply this section on using the work of others to this engagement.

In this example, the company's previously reported material weakness relates to the company's failure to perform bank reconciliations at its 50 subsidiaries. The specified controls identified by the company are the timely preparation of complete and accurate reconciliations between the company's recorded cash balances and the company's cash balances as reported by its financial institution.

Although certain controls over bank reconciliations are centralized, the performance of the bank reconciliations themselves is not centralized because they occur at each individual operating unit. Further, each operating unit has, on average, three separate cash accounts. The cash accounts affected are not material individually but are material in the aggregate. Most of the controls over the preparation of bank reconciliations involve a low degree of judgment in evaluating their operating effectiveness, can be subjected to objective testing, and have a low potential for management override.

If these conditions describe the specified controls over the preparation of bank reconciliations, the auditor could determine that, based on the nature of the controls as described above, he or she could use the work of others to a moderate extent, provided that the degree of competence and objectivity of the individuals performing the tests is high. The auditor might perform tests of controls that are centralized at the holding company level himself or herself; perform testing at a limited number of locations himself or herself; test the work of others performed at a limited number of other locations; review the results of the work of others at all other locations tested; and determine that, qualitatively and quantitatively, principal evidence had been obtained.

On the other hand, if the company's previously reported material weakness related to the company's failure to perform a reconciliation of its only cash account, few controls and few operations of those controls would underlie management's assertion that the material weakness no longer exists. In this circumstance, it is unlikely that the auditor would be able to use a significant amount of the work of others because of the limited scope of the total amount of work needed to test management's assertion and due to the requirement that the auditor obtain the principal evidence himself or herself.

Note: The examples provided in paragraph 126 of Auditing Standard No. 2 illustrate how to apply the requirements in Auditing Standard No. 2 regarding using the work of others in an audit of internal control over financial reporting. Because of the differences between the auditor obtaining the principal evidence supporting an opinion on the effectiveness of internal control over financial reporting overall and supporting an opinion on the much narrower subject of whether a specified material weakness in internal control over financial reporting continues to exist, the examples in Auditing Standard No. 2 may not illustrate the appropriate application of using the work of others in this narrower engagement. For instance, the examples in paragraph 126 of Auditing Standard No. 2 suggest that, for certain controls, the auditor could potentially use the work of others in its entirety. However, in most cases, the auditor could not solely use the work of others for a control specified in management's assertion regarding a material weakness no longer existing and, at the same time, obtain the principal evidence supporting his or her opinion. As another example, Auditing Standard No. 2 describes an example of appropriately alternating tests of controls. Alternating tests of controls is applicable only in the context of a recurring engagement, which is not the context for the auditor's reporting on whether a previously reported material weakness continues to exist.

***Opinions Based, in Part, on the Work of Another Auditor***

40. The auditor may apply the relevant concepts in AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, in an engagement to report on whether a previously reported material weakness continues to exist, with the following exception. If the auditor decides to serve as the principal auditor and to use the work and reports of another auditor as a basis, in part, for his or her opinion, the principal auditor must not divide responsibility for the engagement with the other auditor. Therefore, the principal auditor must not make reference to the other auditor in his or her report.

***Forming an Opinion on Whether a Previously Reported Material Weakness Continues to Exist***

41. When forming an opinion on whether a previously reported material weakness continues to exist, the auditor should evaluate all evidence obtained from all sources. This process should include an evaluation of the sufficiency of the evidence obtained by management and the results of the auditor's evaluation of the design and operating effectiveness of the specified controls.

42. Management may conclude that a previously reported material weakness no longer exists because it has been reduced to a significant deficiency. If management does not plan to correct the significant deficiency within a reasonable period of time, the auditor should evaluate whether the remaining significant deficiency could be indicative of a material weakness in internal control over financial reporting. Under paragraph 140 of Auditing Standard No. 2, a significant deficiency not corrected after some reasonable period of time is a strong indicator of a material weakness. Because the auditor is not required to provide an opinion under this voluntary engagement, the auditor could reasonably decline to provide an opinion under such circumstances.

43. The auditor may issue an opinion on whether a previously reported material weakness continues to exist only when there have been no restrictions on the scope of the auditor's work. Because of the scope of an engagement to report on whether a previously reported material weakness continues to exist, any limitations on the scope of the auditor's work require the auditor either to disclaim an opinion or to withdraw from the engagement. A qualified opinion is not permitted.

Note: As described in paragraph 51 of this standard, the auditor's opinion on whether a previously reported material weakness continues to exist may be expressed as "the material weakness exists" or "the material weakness no longer exists." Therefore, the provisions of this standard do not distinguish between an unqualified opinion and an adverse opinion and, instead, refer simply to "an opinion" or "the auditor's opinion."

**Requirement for Written Representations**

44. In an engagement to report on whether a previously reported material weakness continues to exist, the auditor should obtain written representations from management:

- a. Acknowledging management's responsibility for establishing and maintaining effective internal control over financial reporting;
- b. Stating that management has evaluated the effectiveness of the specified controls using the specified control criteria and management's stated control objective(s);

- c. Stating management's assertion that the specified controls are effective in achieving the stated control objective(s) as of a specified date;
- d. Stating management's assertion that the identified material weakness no longer exists as of the same specified date;
- e. Stating that management believes that its assertions are supported by sufficient evidence;
- f. Describing any material fraud and any other fraud that, although not material, involves senior management or management or other employees who have a significant role in the company's internal control over financial reporting and that has occurred or come to management's attention since the date of management's most recent annual assessment of internal control over financial reporting; and
- g. Stating whether there were, subsequent to the date being reported on, any changes in internal control over financial reporting or other factors that might significantly affect the stated control objective(s) or indicate that the identified controls were not operating effectively as of, or subsequent to, the date specified in management's assertion.

**45.** The written representations should be signed by those members of management with overall responsibility for the company's internal control over financial reporting whom the auditor believes are responsible for and knowledgeable about, directly or through others in the organization, the matters covered by the representations. Such members of management ordinarily include the chief executive officer and chief financial officer or others with equivalent positions in the company.

**46.** The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the engagement. As discussed further in paragraph 43 of this standard, if there is a limitation on the scope of an engagement to report on whether a previously reported material weakness continues to exist, the auditor must either disclaim an opinion or withdraw from the engagement. Further, the auditor should evaluate the effects of management's refusal on his or her ability to rely on other representations of management, including, if applicable, representations obtained in an audit of the company's financial statements.

## Documentation Requirements

**47.** The documentation requirements in Auditing Standard No. 3, *Audit Documentation*, are modified in the following respect as they apply to this engagement. Paragraph 14 of Auditing Standard No. 3 defines the *report release date* as the date the auditor grants permission to use the auditor's report in connection with the issuance of the company's financial statements. As described in paragraph 29 of this standard, management's assertion that a material weakness no longer exists may be made as of a date other than a period-end financial reporting date. Therefore, the auditor's release of a report on whether a previously reported material weakness continues to exist may not necessarily be associated with the issuance of financial statements of the company. Accordingly, in an engagement to report on whether a previously reported material weakness continues to exist, the report release date for purposes of applying Auditing Standard No. 3 is the date the auditor grants permission to use the auditor's report on whether a previously reported material weakness continues to exist.

## Reporting on Whether a Previously Reported Material Weakness Continues to Exist

### *Management's Report*

48. As a condition for the auditor's performance of this voluntary engagement, management is required to present a written report that will accompany the auditor's report, as described in paragraph 7e of this standard. To satisfy this condition for the auditor's performance of this engagement, management's report should include:

- a. A statement of management's responsibility for establishing and maintaining effective internal control over financial reporting for the company;
- b. A statement identifying the control criteria used by management to conduct the required annual assessment of the effectiveness of the company's internal control over financial reporting;
- c. An identification of the material weakness that was identified as part of management's annual assessment;

Note: This report element should be modified in the case in which management's annual assessment did not identify the material weakness, but, rather, only the auditor's report on management's annual assessment identified the material weakness.

- d. An identification of the control objective(s) addressed by the specified controls and a statement that the specified controls achieve the stated control objective(s) as of a specified date; and
- e. A statement that the identified material weakness no longer exists as of the same specified date because the specified controls address the material weakness.

### *Auditor's Evaluation of Management's Report*

49. With respect to management's report, the auditor should evaluate the following matters:

- a. Whether management has properly stated its responsibility for establishing and maintaining effective internal control over financial reporting;
- b. Whether the control criteria used by management to conduct the evaluation is suitable;
- c. Whether the material weakness, stated control objectives, and specified controls have been properly described; and
- d. Whether management's assertions, as of the date specified in management's report, are free of material misstatement.

50. If, based on the results of this evaluation, the auditor determines that management's report does not include the elements described in paragraph 48 of this standard, the conditions for engagement performance have not been met.

### *Auditor's Report*

51. The auditor's report on whether a previously reported material weakness continues to exist must include the following elements:

- a. A title that includes the word *independent*;
- b. A statement that the auditor has previously audited and reported on management's annual assessment of internal control over financial reporting as of a specified date based on the control criteria, as well as a statement that the auditor's report identified a material weakness;

Note: This report element should be modified in cases in which a successor auditor's performance of this engagement is occurring before he or she has opined on the effectiveness of internal control over financial reporting overall in accordance with Auditing Standard No. 2. In this circumstance, the auditor's report should refer to the predecessor auditor's report on management's annual assessment and the predecessor auditor's identification of the material weakness.

- c. A description of the material weakness;
- d. An identification of management's assertion that the identified material weakness in internal control over financial reporting no longer exists;
- e. An identification of the management report that includes management's assertion, such as identifying the title of the report (if the report is titled);
- f. A statement that management is responsible for its assertion;
- g. An identification of the specific controls that management asserts address the material weakness;

Note: As discussed further in paragraph 31, all controls that are necessary to achieve the stated control objective should be identified.

- h. An identification of the company's stated control objective that is achieved by these controls;
- i. A statement that the auditor's responsibility is to express an opinion on whether the material weakness continues to exist as of the date of management's assertion based on his or her auditing procedures;
- j. A statement that the engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States);
- k. A statement that the standards of the Public Company Accounting Oversight Board require that the auditor plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist at the company;
- l. A statement that the engagement includes examining evidence supporting management's assertion and performing such other procedures the auditor considered necessary in the circumstances and that the auditor obtained an understanding of internal control over financial reporting as part of his or her previous audit of management's annual assessment of internal control over financial reporting and updated that understanding as it specifically relates to changes in internal control over financial reporting associated with the material weakness;

Note: This report element should be modified in cases in which a successor auditor's performance of this engagement is occurring

before he or she has opined on the effectiveness of internal control over financial reporting overall in accordance with Auditing Standard No. 2. In this circumstance, the auditor's report should include a statement that the engagement includes obtaining an understanding of internal control over financial reporting, examining evidence supporting management's assertion, and performing such other procedures as the auditor considered necessary in the circumstances.

- m. A statement that the auditor believes the auditing procedures provide a reasonable basis for his or her opinion;
- n. The auditor's opinion on whether the identified material weakness exists (or no longer exists) as of the date of management's assertion;
- o. A paragraph that includes the following statements:
  - That the auditor was not engaged to and did not conduct an audit of internal control over financial reporting as of the date of management's assertion, the objective of which would be the expression of an opinion on the effectiveness of internal control over financial reporting, and that the auditor does not express such an opinion, and
  - That the auditor has not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company as of any date after the date of management's annual assessment of the company's internal control over financial reporting, other than the controls specifically identified in the auditor's report, and that the auditor does not express an opinion that any other controls operated effectively after the date of management's annual assessment of the company's internal control over financial reporting.

Note: This report element statement should be modified in the case in which a successor auditor's performance of this engagement is occurring before he or she has opined on the effectiveness of internal control over financial reporting overall in accordance with Auditing Standard No. 2 to read as follows: That the auditor has not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company other than the controls specifically identified in the auditor's report and that the auditor does not express an opinion that any other controls operated effectively.

- p. A paragraph stating that, because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements and that projections of any evaluation of the effectiveness of specific controls or internal control over financial reporting overall to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate;
- q. The manual or printed signature of the auditor's firm;
- r. The city and state (or city and country, in the case of non-U.S. auditors) from which the auditor's report has been issued; and
- s. The date of the auditor's report.

**52.** Example A-1 in Appendix A is an illustrative auditor's report for an opinion that a material weakness no longer exists, expressed by an auditor who has previously reported on the company's internal control over financial reporting in accordance with Auditing Standard No. 2 as of the company's most recent year-end (herein after referred to as a continuing auditor). Example A-2 in Appendix A is an illustrative auditor's report for an opinion that a material weakness no longer exists expressed by a successor auditor.

**53.** As stated in paragraph 3 of this standard, the auditor may report on more than one previously reported material weakness as part of the same engagement. In this circumstance, the auditor should modify the report elements described in paragraph 51 of this standard accordingly.

**54. Report modifications.** The auditor should modify the standard report if any of the following conditions exist.

- a. Other material weaknesses that were reported previously by the company as part of the company's annual assessment of internal control are not addressed by the auditor's opinion. (See paragraph 56 of this standard.)
- b. A significant subsequent event has occurred since the date being reported on. (See paragraphs 57 and 58 of this standard.)
- c. Management's report on whether a material weakness continues to exist includes additional information. (See paragraphs 59 through 60 of this standard.)

**55.** As described further in paragraph 43 of this standard, the form of the auditor's report resulting from an engagement to report on whether a previously reported material weakness continues to exist may be an opinion on whether a material weakness continues to exist, or it may be in the form of a disclaimer of opinion. A qualified opinion is not permitted. Any limitations on the scope of the auditor's work preclude the expression of an opinion. In addition to these reporting alternatives, an auditor may elect not to report on whether a material weakness continues to exist and, instead, withdraw from the engagement.

**56. Other material weaknesses reported previously by the company as part of the company's annual assessment of internal control are not addressed by the auditor's opinion.** In the circumstance in which the company previously has reported more than one material weakness, the auditor may be engaged to report on whether any or all of the material weaknesses continue to exist. If the auditor reports on fewer than all of the previously reported material weaknesses, the auditor should include the following or similar language in the paragraph that states that the auditor was not engaged to perform an audit of internal control over financial reporting. When referring to his or her previously issued report on management's annual assessment, the auditor should either attach that report or include information about where it can be publicly obtained.

Our report on management's annual assessment of XYZ Company's internal control over financial reporting, dated [date of report], [attached or identify location of where the report is publicly available] identified additional material weaknesses other than the one identified in this report. We are not reporting on those other material weaknesses and, accordingly, express no opinion regarding whether those material weaknesses continue to exist after [date of management's annual assessment, e.g., December 31, 200X]. [Revise this wording

*and references or attachments appropriately for use in a successor auditor's report.]*

Example A-3 in Appendix A is an illustrative report issued by a continuing auditor reporting on only one material weakness when additional material weaknesses previously were reported.

**57. Subsequent events.** A change in internal control over financial reporting or other factors that might significantly affect the effectiveness of the identified controls or the achievement of the company's stated control objective might occur subsequent to the date of management's assertion but before the date of the auditor's report. Therefore, the auditor should inquire of management whether there was any such change or factors. As described in paragraph 44 of this standard, the auditor should obtain written representations from management regarding such matters. Additionally, to obtain information about whether such a change has occurred that might affect the effectiveness of the identified controls or the achievement of the company's stated control objective and, therefore, the auditor's report, the auditor should inquire about and examine, for this subsequent period, the following:

- Internal audit reports (or similar functions, such as loan review in a financial institution) relevant to the stated control objective or identified controls issued during the subsequent period;
- Independent auditor reports (if other than the auditor's) of significant deficiencies or material weaknesses relevant to the stated control objective or identified controls;
- Regulatory agency reports on the company's internal control over financial reporting relevant to the stated control objective or identified controls; and
- Information about the effectiveness of the company's internal control over financial reporting relevant to the stated control objective or identified controls obtained as a result of other engagements.

**58.** If the auditor obtains knowledge about subsequent events that he or she believes adversely affect the effectiveness of the identified controls or the achievement of the stated control objective as of the date specified in management's assertion, the auditor should follow the requirements in paragraph 61 regarding special considerations when a material weakness continues to exist. If the auditor is unable to determine the effect of the subsequent event on the effectiveness of the identified controls or the achievement of the stated control objective, the auditor should disclaim an opinion.

**59. Management's report includes additional information.** If management's report includes information in addition to the matters described in paragraph 48 of this standard, the auditor should disclaim an opinion on the additional information. For example, the auditor should use the following or similar language as the last paragraph of the report to disclaim an opinion on management's plans to implement new controls:

We do not express an opinion or any other form of assurance on management's statement referring to its plans to implement new controls by the end of the year.

**60.** If the auditor believes that management's additional information contains a material misstatement of fact, he or she should discuss the matter with management. If, after discussing the matter with management, the auditor

concludes that a material misstatement of fact remains, the auditor should notify management and the audit committee, in writing, of the auditor's views concerning the information.

Note: If management makes the types of disclosures described in paragraph 59 outside its report on whether a previously reported material weakness continues to exist and includes them elsewhere within a document that contains management's and the auditor's reports on whether a previously reported material weakness continues to exist, the auditor would not need to disclaim an opinion, as described in paragraph 59. However, in that situation, the auditor's responsibilities are the same as those described in this paragraph if the auditor believes that the additional information contains a material misstatement of fact.

### ***Special Considerations When a Previously Reported Material Weakness Continues to Exist***

**61.** If the auditor determines that the previously reported material weakness continues to exist and the auditor reports on the results of the engagement, he or she must express an opinion that the material weakness exists as of the date specified by management.

**62.** As described in paragraph 55, the auditor is not required to issue a report as a result of this engagement. If the auditor does not issue a report in this circumstance, he or she must communicate, in writing, his or her conclusion that the material weakness continues to exist to the audit committee. Similarly, if the auditor identifies a material weakness during this engagement that has not been previously communicated to the audit committee in writing, the auditor must communicate that material weakness, in writing, to the audit committee.

**63.** Additionally, whenever the auditor concludes that a previously reported material weakness continues to exist, the auditor must consider that conclusion as part of his or her evaluation of management's quarterly disclosures about internal control over financial reporting, as required by paragraphs 202 through 206 of Auditing Standard No. 2.

**64.** For example, if the auditor were engaged to report on whether two separate material weaknesses continue to exist and concluded that one no longer exists and one continues to exist, the auditor's report could comprise either of the following: (1) a report that contained two opinions, one on the material weakness that the auditor concluded no longer exists and one opinion on the material weakness that the auditor concluded continues to exist, or (2) a report that contained only a single opinion on the material weakness that the auditor concluded no longer exists if the company modifies its assertion to address only the material weakness that the auditor concluded no longer exists. In the second circumstance, the auditor must communicate, in writing, his or her conclusion that a material weakness continues to exist to the audit committee and also should apply paragraph 56 of this standard regarding other material weaknesses reported previously that are not addressed by the auditor's opinion. Additionally, the auditor must consider that conclusion as part of his or her evaluation of management's quarterly disclosures about internal control over financial reporting, as required by paragraphs 202 through 206 of Auditing Standard No. 2.

### **Effective Date**

**65.** This standard is effective February 6, 2006.

## Appendix A

### Illustrative Reports on Whether a Previously Reported Material Weakness Continues to Exist

Paragraphs 51 through 60 of this standard provide direction on the auditor's report on whether a previously reported material weakness continues to exist. The following examples illustrate the application of those paragraphs.

**Example A-1—*Illustrative Auditor's Report for a Continuing Auditor Expressing an Opinion That a Previously Reported Material Weakness No Longer Exists***

**Example A-2—*Illustrative Auditor's Report for a Successor Auditor Expressing an Opinion That a Previously Reported Material Weakness No Longer Exists***

**Example A-3—*Illustrative Auditor's Report for a Continuing Auditor Expressing an Opinion on Only One Previously Reported Material Weakness When Additional Material Weaknesses Previously Were Reported***

**Example A-1*****Illustrative Auditor's Report for a Continuing Auditor Expressing an Opinion That a Previously Reported Material Weakness No Longer Exists***Report of Independent Registered Public Accounting Firm

We have previously audited and reported on management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. Our report, dated [*date of report*], identified the following material weakness in the Company's internal control over financial reporting:

[*Describe material weakness*]

We have audited management's assertion, included in the accompanying [title of management's report], that the material weakness in internal control over financial reporting identified above no longer exists as of [*date of management's assertion*] because the following control(s) addresses the material weakness:

[*Describe control(s)*]

Management has asserted that the control(s) identified above achieves the following stated control objective, which is consistent with the criteria established in [*identify control criteria used for management's annual assessment of internal control over financial reporting*]: [*state control objective addressed*]. Management also has asserted that it has tested the control(s) identified above and concluded that the control(s) was designed and operated effectively as of [*date of management's assertion*]. XYZ Company's management is responsible for its assertion. Our responsibility is to express an opinion on whether the identified material weakness continues to exist as of [*date of management's assertion*] based on our auditing procedures.

Our engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist at the company. Our engagement included examining evidence supporting management's assertion and performing such other procedures as we considered necessary in the circumstances. We obtained an understanding of the company's internal control over financial reporting as part of our previous audit of management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X and updated that understanding as it specifically relates to changes in internal control over financial reporting associated with the material weakness described above. We believe that our auditing procedures provide a reasonable basis for our opinion.

In our opinion, the material weakness described above no longer exists as of [*date of management's assertion*].

We were not engaged to and did not conduct an audit of internal control over financial reporting as of [*date of management's assertion*], the objective of which would be the expression of an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express such an opinion. This means that we have not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company as of any date after

December 31, 200X, other than the control(s) specifically identified in this report. Accordingly, we do not express an opinion that any other controls operated effectively after December 31, 200X.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of specific controls or internal control over financial reporting overall to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

*[Signature]*

*[City and State or Country]*

*[Date]*

**Example A-2*****Illustrative Auditor's Report for a Successor Auditor Expressing an Opinion That a Previously Reported Material Weakness No Longer Exists***Report of Independent Registered Public Accounting Firm

We were engaged to report on whether a previously reported material weakness continues to exist at XYZ Company as of *[date of management's assertion]* and to audit management's next annual assessment of XYZ Company's internal control over financial reporting. Another auditor previously audited and reported on management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*. The other auditor's report, dated *[date of report]*, identified the following material weakness in the Company's internal control over financial reporting:

*[Describe material weakness]*

We have audited management's assertion, included in the accompanying *[title of management's report]*, that the material weakness in internal control over financial reporting identified above no longer exists as of *[date of management's assertion]* because the following control(s) addresses the material weakness:

*[Describe control(s)]*

Management has asserted that the control(s) identified above achieves the following stated control objective, which is consistent with the criteria established in *[identify control criteria used for management's annual assessment of internal control over financial reporting]: [state control objective addressed]*. Management also has asserted that it has tested the control(s) identified above and concluded that the control(s) was designed and operated effectively as of *[date of management's assertion]*. XYZ Company's management is responsible for its assertion. Our responsibility is to express an opinion on whether the identified material weakness continues to exist as of *[date of management's assertion]* based on our auditing procedures.

Our engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist at the company. Our engagement included obtaining an understanding of internal control over financial reporting, examining evidence supporting management's assertion, and performing such other procedures as we considered necessary in the circumstances. We believe that our auditing procedures provide a reasonable basis for our opinion.

In our opinion, the material weakness described above no longer exists as of *[date of management's assertion]*.

We were not engaged to and did not conduct an audit of internal control over financial reporting as of *[date of management's assertion]*, the objective of which would be the expression of an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express such an opinion. This means that we have not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company other than the control(s) specifically identified in this report. Accordingly, we do not express an opinion that any other controls operated effectively.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of specific controls or internal control over financial reporting overall to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

**Example A-3****Illustrative Auditor's Report for a Continuing Auditor Expressing an Opinion on Only One Previously Reported Material Weakness When Additional Material Weaknesses Previously Were Reported**Report of Independent Registered Public Accounting Firm

We have previously audited and reported on management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. Our report, dated [*date of report*], identified the following material weakness in the Company's internal control over financial reporting:

[*Describe material weakness*]

We have audited management's assertion, included in the accompanying [*title of management's report*], that the material weakness in internal control over financial reporting identified above no longer exists as of [*date of management's assertion*] because the following control(s) addresses the material weakness:

[*Describe control(s)*]

Management has asserted that the control(s) identified above achieves the following stated control objective, which is consistent with the criteria established in [*identify control criteria used for management's annual assessment of internal control over financial reporting*]: [*state control objective addressed*]. Management also has asserted that it has tested the control(s) identified above and concluded that the control(s) was designed and operated effectively as of [*date of management's assertion*]. XYZ Company's management is responsible for its assertion. Our responsibility is to express an opinion on whether the identified material weakness continues to exist as of [*date of management's assertion*] based on our auditing procedures.

Our engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist at the company. Our engagement included examining evidence supporting management's assertion and performing such other procedures as we considered necessary in the circumstances. We obtained an understanding of the company's internal control over financial reporting as part of our previous audit of management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X and updated that understanding as it specifically relates to changes in internal control over financial reporting associated with the material weakness described above. We believe that our auditing procedures provide a reasonable basis for our opinion.

In our opinion, the material weakness described above no longer exists as of [*date of management's assertion*].

We were not engaged to and did not conduct an audit of internal control over financial reporting as of [*date of management's assertion*], the objective of which would be the expression of an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express such an opinion. This means that we have not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company as of any date after December 31, 200X, other than the control(s) specifically identified in this

report. Accordingly, we do not express an opinion that any other controls operated effectively after December 31, 200X. Our report on management's annual assessment of XYZ Company's internal control over financial reporting, dated [date of report], [attached or *identify location of where the report is publicly available*] identified additional material weaknesses other than the one identified in this report. We are not reporting on those other material weaknesses and, accordingly, express no opinion regarding whether those material weaknesses continue to exist after [date of management's annual assessment, *e.g.*, December 31, 200X].

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of specific controls or internal control over financial reporting overall to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

## Appendix B

### Background and Basis for Conclusions

#### *Introduction*

B1. This appendix summarizes factors that the Public Company Accounting Oversight Board (the "Board") deemed significant in reaching the conclusions in the standard. This appendix includes reasons for accepting certain views and not accepting others.

#### *Background*

B2. Section 404 of the Sarbanes-Oxley Act of 2002 (the "Act") requires the management of public companies each year to file an assessment of the effectiveness of their companies' internal control over financial reporting. The company's independent auditor must attest to, and report on, management's assessment. Under the Securities and Exchange Commission's (the "SEC" or "Commission") implementing rules, company management may not conclude that internal control over financial reporting is effective if one or more material weaknesses exists.

B3. When a company reports a material weakness, investors may be left uncertain about the reliability of the company's financial reporting. Both companies and report users have recognized the importance of a mechanism for alerting investors that a previously disclosed material weakness no longer exists.<sup>1</sup> The federal securities laws provide part of that mechanism. Those laws require the company to disclose to investors any changes in internal control over financial reporting that occurred during the company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.<sup>2</sup> Therefore, investors will learn of material improvements, such as the remediation of a material weakness, on a timely basis through quarterly disclosures.<sup>3</sup>

B4. When a company determines that a material weakness has been remediated, it may determine that disclosure is sufficient. Some investors and companies, however, have called for the ability to bolster confidence in management's assertions about those internal control improvements with the added assurance of the company's independent auditor.<sup>4</sup>

B5. The Board reviewed its existing auditing and attestation standards to determine whether adequate standards governing such an engagement already existed. The Board's interim attestation standards provide requirements for general attest engagements; however, the Board determined that these standards lack sufficient specificity for this purpose.<sup>5</sup> The Board, therefore, proposed

---

<sup>1</sup> The Board's Standing Advisory Group ("SAG") discussed possible auditor involvement with the elimination of a material weakness at its November 18, 2004, public meeting. The webcast of the November 18, 2004 SAG discussion and the related briefing paper on this topic, "Reporting on the Correction of a Material Weakness," are available on the Board's Web site at [www.pcaobus.org](http://www.pcaobus.org).

<sup>2</sup> See Item 308(c) of Regulation S-K, 17 C.F.R. §229.308(c).

<sup>3</sup> In addition, even if internal control over financial reporting is effective as of the end of a company's fiscal year, investors also could potentially learn if it deteriorates materially during the year through these quarterly disclosures.

<sup>4</sup> The Standing Advisory Group's November 18, 2004 discussion included this type of encouragement.

<sup>5</sup> See AT sec. 101, "Attest Engagement" of the Board's interim standards. Effective April 16, 2003, the PCAOB adopted, on an initial, transitional basis, five temporary interim standards rules

*(continued)*

an auditing standard that would be tailored narrowly to an engagement to report on whether a previously reported material weakness continues to exist.

B6. The Board received 30 comment letters on its proposal, primarily from auditor and investor groups as well as from two issuers. Those comments led to changes in the standard, intended to make the requirements of the standard clearer and more operational. This appendix summarizes significant views expressed in those comment letters and the Board's responses.

### ***Voluntary Nature of Engagement***

B7. The proposed standard explicitly stated that the engagement described by this standard is voluntary and that the standards of the PCAOB did not require an auditor to undertake this engagement when a material weakness was previously reported. In addition, the Board stressed the voluntary nature of this engagement at the public meeting proposing this standard.

B8. The value and importance of the Board's standards providing the option of this type of auditor reporting on a material weakness was confirmed unanimously in the comment letters from investors and investor-related parties. Auditors were also supportive of the standard overall and its voluntary nature. Both of the issuers who commented indicated that they would be concerned if issuers become compelled to obtain such opinions. One of these commenters stressed that the disclosure requirements of management, coupled with enhanced criminal penalties, should provide investors with information regarding the continued existence or correction of a material weakness.

B9. The Board continues to believe that providing for this type of auditor reporting in its standards will serve the public interest. At the same time, the Board reaffirms that reporting on whether a material weakness continues to exist is a voluntary engagement and is not required by the standards of the PCAOB.

### ***Form of the Auditor's Opinion***

B10. The proposed standard called for the auditor to express a single opinion directly on the subject matter (*i.e.*, the material weakness itself), rather than on management's assertion, as follows:

In our opinion, XYZ Company has eliminated the material weakness described above as of [date of management's assertion] because the stated control objective is met as of [date of management's assertion].

B11. Primarily auditors commented on the form of the opinion in the proposed standard and their comments reflected a wide spectrum of ideas. Some commenters expressed support for the auditor's report, including the form of the opinion as proposed. Other comments included a suggestion for two opinions, consistent with Auditing Standard No. 2—one on the subject matter (the elimination of the material weakness) and one on management's assertion. Other

---

*(footnote continued)*

(PCAOB Rules 3200T, 3300T, 3400T, 3500T, and 3600T) that refer to pre-existing professional standards of auditing, attestation, quality control, ethics, and independence (the "interim standards"). These rules were approved by the SEC on April 25, 2003. See SEC Release No. 33-8222. On December 17, 2003, the Board approved technical amendments to the interim standards rules indicating that, "when the Board adopts a new auditing and related professional practice standard that addresses a subject matter that also is addressed in the interim standards, the affected portion of the interim standards will be superseded or effectively amended. Accordingly, the Board approved adding the phrase 'to the extent not superseded or amended by the Board' to each of the interim standards rules." *Technical Amendments to Interim Standards Rules*, PCAOB Release No. 2003-026 (Dec. 17, 2003); Exchange Act Release No. 49624 (Apr. 28, 2004) (SEC Approval). The interim standards are available on the Board's Web site at [www.pcaobus.org](http://www.pcaobus.org).

commenters suggested that just one opinion was sufficient, though these commenters were split regarding whether the one opinion should be on management's assertion or on the subject matter. Other commenters suggested that an opinion stating that the material weakness had been eliminated, without the phrase "because the stated control objective is met" would be a better alternative, while others asked the Board to consider an opinion stating that the identified controls were effective because the stated control objective was met, without stating that the material weakness had been eliminated.

B12. A number of commenters expressed concern with the phrasing "the material weakness has been eliminated," including the use of that phrase in the auditor's opinion and in the title of the proposed standard. These commenters believed that terminology such as "elimination" or "eliminated" might be too definite a term that might mislead report users into believing that there were no remaining deficiencies in the internal control over financial reporting in the area related to the specified material weakness, even though control deficiencies of a lesser severity than a material weakness might persist.

B13. After considering these suggestions, the Board decided to retain a single opinion on the subject matter and to revise the opinion wording. The Board continues to believe that a single opinion expressed directly on the subject matter is the simplest and clearest form of communication related to this engagement. Further, the Board believes that an auditor's opinion directly on the subject matter (*i.e.*, the material weakness itself) will best achieve the overarching objective of this engagement—to clearly communicate as of an interim date auditor assurance about whether a previously reported material weakness continues to exist.

B14. The Board agreed with commenters that use of the term "elimination" might increase the risk that a report user would misunderstand the assurance provided by an auditor's opinion on a previously reported material weakness. As a result, the Board changed the form of the opinion to "In our opinion, the material weakness described above no longer exists as of [date of management's assertion]" and the title of the standard to "Reporting on Whether a Previously Reported Material Weakness Continues to Exist." The text of the standard was modified throughout to delete references to "eliminated" or "elimination" and to reflect wording consistent with the revised opinion and title.

### ***As-of Date of Report***

B15. The proposed standard provided for significant flexibility by allowing the engagement to be undertaken at any time during the year, limited only by implications associated with the nature of the material weakness. In other words, the proposed standard did not require the engagement to be performed in conjunction with an audit or review of financial statements. Instead, the proposed standard required the auditor to determine whether management had selected an appropriate date for its assertion and specified several matters for the auditor to consider in making this determination.

B16. A number of auditors suggested that the engagement described by the proposed standard should be performed only as of quarterly financial reporting dates instead of as of any date during the year. These commenters believed that such a requirement would allow the auditor to integrate this work with the auditor's interim review procedures under AU sec. 722, *Interim Financial Information*, and provide a link between the auditor's report on the material weakness and management's quarterly disclosures of material changes in internal control. Commenters noted that many of the material weaknesses that have been disclosed to date are related to the period-end financial reporting process and that the auditor would therefore need to test controls in connection

with a period-end to determine whether the material weakness continues to exist. Several commenters linked their suggestion that this engagement be performed only as of a quarterly financial reporting date to the view that the standard's direction on performing substantive procedures as part of this engagement should be bolstered (see separate discussion on performance of substantive procedures beginning at paragraph B51). One commenter pointed out, however, that if this engagement could be conducted only in connection with a quarterly financial reporting date, special guidance for applying the standard to foreign filers would be necessary because foreign filers are not required to report quarterly in the same manner as domestic filers.

B17. The Board believes that the flexibility provided in the proposed standard regarding the timing of the engagement is an important and appropriate feature of the standard. Although the Board agrees with commenters' observations that many of the material weaknesses disclosed during the past year were related to the period-end financial reporting process, the Board determined that the existing provisions of the proposed standard address this circumstance. In determining whether management has selected an appropriate date for its assessment, the standard requires the auditor to consider that controls that operate over the company's period-end financial reporting process typically can be tested only in connection with a period-end.

B18. Moreover, some material weaknesses—such as those that involve transaction-based controls that operate daily—are well suited for a management assertion and an auditor opinion that the material weakness no longer exists as of almost any date. Restricting an auditor's reporting on whether a material weakness continues to exist to only quarterly financial reporting dates could impose unnecessary delay on a company seeking auditor assurance that this type of material weakness no longer exists. For example, assume that a calendar year-end company had previously disclosed a material weakness that was the type that would lend itself well to reporting that it no longer existed as of any date. Further, management could not yet assert that the material weakness no longer existed as of March 31, but believed that it could make the assertion as of a date in April. If the standard restricted auditor reporting to a quarterly financial reporting date, the auditor would have to wait until June 30 to be able to attest to whether the material weakness continued to exist (and, presumably, would not be able to issue his or her report until July, at the earliest). While management could, in this example, provide timely disclosure to investors that the material weakness no longer existed, the Board concluded that structuring the provisions of the standard to potentially result in this kind of delay in auditor assurance would not serve the public interest.

B19. In light of these considerations, the Board decided to retain the provisions of the proposed standard that would permit the auditor to report on whether a previously reported material weakness continues to exist as of any date.

B20. At least one auditor asked for clarification about whether a report issued pursuant to Auditing Standard No. 2 that identified a material weakness could be issued at the same time as a report pursuant to this standard indicating that the material weakness no longer exists as of a later date. The degree of flexibility regarding the timing of this engagement would permit the company (depending on the company's ability to assert that a material weakness no longer exists and the auditor's ability to timely audit that assertion) to simultaneously distribute its annual reports and the management assertion and auditor report described in this standard. Consistent with this flexible approach, nothing in this standard or Auditing Standard No. 2 would preclude the auditor from issuing a single, combined report on the results of an audit of internal control

over financial reporting pursuant to Auditing Standard No. 2 and the results of an engagement performed pursuant to this standard.

### ***Applicability of the Standard to Material Weaknesses Not Previously Reported***

B21. The proposed standard was structured to allow an auditor to report only on a previously reported material weakness. The proposed standard defined a previously reported material weakness as a material weakness that was previously described by an auditor's report issued pursuant to Auditing Standard No. 2. A material weakness initially identified *after* the company's annual assessment date could not, therefore, be the subject of an auditor's report under the proposed standard.

B22. Virtually all of the investors who submitted comment letters suggested that the standard should allow for auditor reporting on material weaknesses identified subsequent to the company's most recent annual assessment of internal control over financial reporting. Although some of these commenters expressed concern about the level of work that might be required of the auditor to thoroughly understand a material weakness not previously reported upon by an auditor, they did not believe that the standard should prohibit such reporting. One commenter stated that if a successor auditor could gain an understanding of a company's internal control sufficient to report on a material weakness that was identified and reported on by a predecessor auditor, an auditor should be able to gain the understanding necessary to report on a material weakness identified by management as of an interim date.

B23. The majority of the auditors who commented indicated strong opposition to allowing auditors to report in this engagement on material weaknesses not previously reported. These commenters suggested that the initial identification of a material weakness requires a level of understanding of the company's controls and the specific facts and circumstances surrounding the material weakness that can result only from a complete evaluation of the effectiveness of internal control over financial reporting. Additionally, at least one commenter expressed concern that the identification of a material weakness subsequent to the annual assessment is a strong indicator of a material change within the company's internal control over financial reporting. This commenter believed that in such a circumstance the auditor would not have sufficient knowledge of the current state of internal control over financial reporting to be able to consider the interaction and potential implications of the change on other controls. This commenter also believed that this situation would prevent the auditor, in most cases, from being able to determine whether the newly identified material weakness no longer exists.

B24. The Board decided to retain the approach described by the proposed standard. The Board believes that the issue of a newly identified material weakness being an indicator of a material change within a company's internal control over financial reporting is a valid concern. Although the change in internal control over financial reporting giving rise to any new material weakness may be confined specifically to the area in which the material weakness originally was identified, the change also could be more far-reaching. In such circumstances, the auditor may not be able to determine the effect of the change without performing a full audit of internal control over financial reporting.

B25. The Board also notes that there is an important distinction between material weaknesses previously identified in an auditor's report issued pursuant to Auditing Standard No. 2 and other newly identified material weaknesses. The primary purpose of the narrow engagement described by this standard is to establish a timely and reasonable mechanism that a company can use to remove

any perceived "stain" upon its financial reporting due to an outstanding adverse audit opinion on internal control over financial reporting that identified a material weakness. In the case of a new material weakness that is identified and addressed by management as of an interim date, an adverse auditor opinion previously attesting to the material weakness would not exist and, therefore, the new material weakness would not be the subject of the same type of market focus.

B26. There is also a fundamental difference between the auditor reporting on a material weakness not previously reported and a successor auditor reporting on a material weakness that *was* reported in a predecessor auditor's opinion on internal control over financial reporting. The fundamental difference is the concept of material change described above. The successor auditor must obtain a sufficient understanding of the company's internal control over financial reporting to report on the existence of a material weakness that was previously reported. This successor auditor, however, has the benefit of knowing that the material weakness was identified in the context of an audit of the internal control over financial reporting as a whole and that the predecessor auditor should have adequately described the nature of the material weakness (particularly its pervasiveness and the extent of its effect on the company's financial reporting). In contrast, in situations in which a material change has taken place and a new material weakness has arisen after the previous annual assessment of internal control over financial reporting, neither the predecessor nor the successor auditor has obtained this level of understanding as it relates to the newly identified material weakness.

B27. These considerations, taken together, resulted in the Board's decision to retain the provisions of the proposed standard that limit this engagement only to material weaknesses that have been previously described in an auditor's report issued pursuant to Auditing Standard No. 2. The Board also made changes to the standard, as suggested by one commenter, to make these provisions clearer. These changes included changing the title of the standard to "Reporting on Whether a Previously Reported Material Weakness Continues to Exist" as well as conforming changes to the text of the standard to refer explicitly to a *previously reported* material weakness as the subject matter of this engagement.

### **Focus on Control Objectives**

B28. The proposed standard focused on stated control objectives to determine whether a material weakness continues to exist and posited that if a material weakness has been disclosed previously, a necessary control objective at the company has not been achieved. Because the term "stated control objective" was not precisely defined elsewhere in the Board's auditing standards, the proposed standard provided a definition as well as examples of stated control objectives.

B29. A *stated control objective* in the context of this engagement is the specific control objective identified by management that, if achieved, would result in the material weakness no longer existing. The stated control objective would provide management and the auditor with a specific target against which to evaluate whether the material weakness continues to exist. For this reason, the proposed standard required that management and the auditor be satisfied that if the stated control objective were achieved the material weakness would no longer exist.

B30. Comments on the proposed standard's focus on control objectives came primarily from auditors. Many auditors, either explicitly or implicitly, supported the focus on control objectives. One auditor suggested that, given the importance of control objectives, the proposed standard should explicitly state that documentation of control objectives is required.

B31 Several auditors, however, expressed concerns about the proposed standard's focus on control objectives. A couple of these commenters suggested that the proposed standard's emphasis on control objectives might inappropriately establish a framework for evaluating the effectiveness of internal control over financial reporting that differs from, or otherwise adversely affects the proper application of, the Committee of Sponsoring Organizations of the Treadway Commission's publication *Internal Control—Integrated Framework* ("COSO").

B32. Most concerned commenters expressed apprehension that report users might be misled by an auditor's opinion that a material weakness had been eliminated because the control objectives had been met. They believed that this type of opinion might lead report users to mistakenly believe that if the control objectives were met, there were no remaining deficiencies in the internal control over financial reporting in the area related to the material weakness—when, in fact, a significant deficiency or deficiency could continue to exist.

B33. Another commenter noted that the examples in the proposed standard illustrated only control objectives for the control activities component of internal control over financial reporting—not for the other components (control environment, risk assessment, monitoring, information and communication). This commenter suggested that examples of control objectives in the other components would be helpful. Another commenter suggested that, given the importance of the control objective concept, if the Board's standards were to specifically address the concept, such a definition and discussion should reside in Auditing Standard No. 2. One concerned auditor concluded that, given the importance of control objectives, more guidance was needed, including clarification that if more than one control is necessary to achieve a stated control objective, all such controls must be identified and tested as part of this engagement.

B34. In response to comments, the Board decided to retain the definition of, and focus on, control objectives and provide additional guidance. The Board views the auditor's use of the concept of control objectives as analogous to the use of the concept of relevant assertions. The concept of relevant assertions was already familiar to experienced auditors and was specifically defined for the first time in Auditing Standard No. 2 because of that standard's focus on testing controls over all relevant assertions related to all significant accounts. Similarly, the concept of control objectives is familiar to most experienced auditors and is already used to describe the auditor's responsibilities under Auditing Standard No. 2).<sup>6</sup> A definition of control objectives (and stated control objectives) is provided in this standard because of the standard's focus on control objectives as a specific measure for determining whether a material weakness continues to exist. This is consistent with the Board's objective for its standards to be clear as well as the focus on control objectives in the engagement described by this standard.

B35. The Board believes that the standard's focus on control objectives is sound and helpful and is an appropriate complement to the control criteria, such as

---

<sup>6</sup> For example, paragraph 12 of Auditing Standard No. 2 states, "Therefore, effective internal control over financial reporting often includes a combination of preventive and detective controls to achieve a specific control objective." Paragraph 85 of Auditing Standard No. 2 elaborates on this idea, including the example that, when performing tests of preventive and detective controls, the auditor might conclude that a deficient preventive control could be compensated for by an effective detective control and, therefore, not result in a significant deficiency or material weakness. That paragraph concludes with the statement, "When determining whether the detective control is effective, the auditor should evaluate whether the detective control is sufficient to achieve the control objective to which the [deficient] preventive control relates." Perhaps most notably, paragraph 88 of Auditing Standard No. 2 requires the auditor to identify the company's control objectives in each area and identify the controls that satisfy each control objective to evaluate whether the company's internal control over financial reporting is designed effectively.

COSO, for the purposes of this engagement. The process of tailoring control objectives to the individual company allows the control criteria (i.e., the evaluation framework) used for management's annual assessment to be applied to the facts and circumstances in a reasonable and appropriate manner. Accordingly, the emphasis in this standard on control objectives is consistent with, and supports a correct application of, COSO.

B36. The focus on whether the stated control objectives have been met as the target for determining whether a material weakness continues to exist does accommodate the circumstance in which a deficiency or significant deficiency continues to exist in that area of the company's internal control over financial reporting. Although several commenters linked this result with the focus on control objectives, this potential result would exist in any case within the overall construct of this standard, completely apart from the focus on control objectives. The potential for less severe deficiencies to persist in an area in which a previously reported material weakness no longer exists parallels the reporting results of an engagement performed under Auditing Standard No. 2. According to that standard, only material weaknesses (not less severe weaknesses) are disclosed in an auditor's report and only the existence of a material weakness and not less severe weaknesses affects the auditor's opinion on the effectiveness of the company's internal control over financial reporting. As an illustration, assume that a company that had previously reported a material weakness in internal control over financial reporting elected to wait until the auditor's next annual report issued pursuant to Auditing Standard No. 2 to obtain auditor assurance related to the existence of the material weakness. If the control weakness that had previously risen to the level of material weakness were reduced to a significant deficiency or deficiency as of the company's next year-end, the auditor's next report issued under Auditing Standard No. 2 would present an unqualified opinion indicating that the company's internal control over financial reporting was effective. The Board concluded that the users of an auditor's report on whether a previously reported material weakness continues to exist need only receive auditor assurance that the material weakness no longer exists and not more detailed information about whether less severe control deficiencies continue to persist.

B37. The Board notes, however, that paragraph 140 of Auditing Standard No. 2 states (in part) that strong indicators of a material weakness include circumstances in which significant deficiencies that have been communicated to management and the audit committee remain uncorrected after some reasonable period of time. If management does not plan to correct the significant deficiency within a reasonable period of time, the auditor should evaluate whether the remaining significant deficiency could be indicative of a material weakness in internal control over financial reporting. An auditor is not required to provide an opinion under this voluntary engagement, and could reasonably decline to provide an opinion under such circumstances.

B38. In response to comments that report users will mistakenly believe that an auditor's report issued pursuant to the standard's provisions is communicating auditor assurance that no control deficiencies exist in the area related to the former material weakness, the Board decided that the change in the title of the standard and the form of the auditor's opinion (discussed further in paragraph B14), coupled with this discussion, would sufficiently mitigate any potential for report users to misunderstand the assurance being provided by an engagement conducted under the this standard. Removing the concept of control objectives from the standard would not address the potential for misunderstanding because this potential exists independently of the focus on control objectives.

B39. With regard to the recommendation that the standard provide additional examples of stated control objectives, including stated control objectives related to components of internal control over financial reporting other than control activities, the Board determined that the provisions of the standard should remain largely at the conceptual level and state that the other components of internal control over financial reporting can be expressed in terms of control objectives. The Board also determined to emphasize, in the note to paragraph 17 of the standard, that when a material weakness has a pervasive effect on the company's internal control over financial reporting, it may be difficult to identify all of the relevant control objectives and the material weakness probably is not suitable for this type of narrow, interim reporting.

B40. For the purposes of this engagement, a stated control objective need not be more precise than to describe an objective that relates to whether there is a more than remote risk that the company's financial statements are materially misstated in a given area. For instance, paragraph 14 of the standard includes the example control objective, "The company has legal title to recorded product X inventory in the company's Dallas, TX warehouse." This example assumes that the product X inventory account related to the company's Dallas, TX warehouse represents a more than remote risk of material misstatement to the company's financial statements taken as a whole and has been identified as a separate significant account. This example does not suggest that a company should establish separate control objectives for all of its various types of inventory, by inventory location, regardless of materiality.

B41. Although the Board believes that the proposed standard made clear that in performing this engagement, the auditor should identify and test all controls necessary to achieve the stated control objective, based on the importance of this concept and in response to commenters, the Board concluded that an explicit clarification should be added. Not only must newly implemented or modified controls be identified and tested in this engagement, but *all* controls necessary to achieve the stated control objective must be identified and tested. For example, in a circumstance in which four controls must operate effectively for a given control objective to be achieved, the failure of one of those controls could result in a material weakness. In the context of this engagement, all four controls necessary to achieve the stated control objective would need to be specifically identified and tested. This must be the case because of the inherent limitations in internal control over financial reporting. If three of the four controls were found to be effective as of year-end, they cannot be assumed to be effective as of a later date. To render an opinion as of a current date about whether the material weakness exists, the auditor must have current evidence about whether all controls (in this example, all four controls) necessary to achieve the control objective are designed and operating effectively.

B42. Regarding the suggestion to include a requirement that control objectives be documented, the Board notes that neither COSO nor Auditing Standard No. 2 currently contain such a requirement. As with many aspects of assessing the effectiveness of internal control over financial reporting, the better the documentation, the easier and more efficient the evaluation, especially from the auditor's perspective. In the context of this engagement, by virtue of creating a stated control objective, the company and the auditor would document the stated control objective, even if that documentation appeared only in their respective reports. Therefore, documentation is effectively required for the stated control objectives encompassed by an engagement conducted under this standard. The Board does not believe, however, that establishing a broad requirement for documenting *all* control objectives related to a company's internal control over financial reporting is needed at this time or would be appropriately placed within this standard.

### **Concept of Materiality**

B43. To provide direction on the concept of materiality, the proposed standard largely referred to Auditing Standard No. 2. The proposed standard stated that the concept of materiality, as discussed in paragraphs 22 and 23 of Auditing Standard No. 2, underlies the application of the general and fieldwork standards in an engagement to report on whether a previously reported material weakness continues to exist. Therefore, the auditor uses materiality at the financial-statement level, rather than at the individual account-balance level, in evaluating whether a material weakness exists.

B44. Several auditors commented that the proposed standard should provide additional direction on how the auditor considers materiality in performing this engagement. Commenters believed that clarification was necessary regarding the appropriate time context for management's and the auditor's materiality judgments. These commenters asked whether materiality should be assessed as of the date management asserts to be the date at which the material weakness no longer exists, or as of the end of the prior year when the material weakness was originally reported.

B45. Most commenters on this issue suggested that the date for assessing materiality should be the date management asserts to be the date at which the material weakness no longer exists. Commenters noted, however, that this position would allow a material weakness to no longer exist merely as a result of a business acquisition or disposition, for example, because either of those actions would change materiality as of that point in time (and, in the case of a disposition, send the material weakness along with the disposed business).

B46. Several auditors suggested that the auditor's opinion should explicitly recognize the concept of materiality. Commenters suggested the following as alternatives that would recognize materiality: "Management's assertion that XYZ Company has eliminated the material weakness described above as of [*date of management's assertion*] is fairly stated, in all material respects . . ." and "XYZ Company has eliminated the material weakness with respect to the Company's internal control over financial reporting as described above as of [*date specified in management's assertion*], in all material respects." These commenters were concerned that the opinion described by the proposed standard misrepresented the precision of the auditor's assessment and neglected the notion of reasonable assurance.

B47. The Board decided that the provisions in the standard regarding materiality should be clarified to specify that materiality should be assessed as of the date management asserts that the material weakness no longer exists. The as-of date of management's assertion and the auditor's opinion is fundamental to the auditor's decisions about whether he or she has obtained sufficient evidence to support an opinion and to the auditor's evaluation of that evidence to form an opinion on whether the material weakness exists as of that point in time. The Board believes that the logical and internally consistent position regarding the time context for assessing materiality is to assess materiality as of the date that management asserts the material weakness no longer exists. The Board also believes that materiality can be assessed as of a date other than a financial reporting period-end. This is consistent with the Board's decision, discussed further beginning at paragraph B15, that the standard permit the auditor to report on whether a previously reported material weakness continues to exist as of any date.

B48. The Board also believes that auditors should exercise caution in circumstances in which the only aspect of a previously reported material weakness that has changed is materiality (in other words, the size of the financial statement

accounts has changed due to an acquisition or other activity rather than any changes in the design or operation of controls). In many such cases, the company will have undergone significant changes, with an associated change in internal control over financial reporting overall. In this circumstance, the auditor would need to perform procedures beyond the scope of work ordinarily contemplated under this standard to have a sufficient basis for his or her new assessment of materiality and an adequate understanding of the company's internal control over financial reporting overall. The Board believes that, in many cases in which the company has undergone a change of this magnitude, the auditor would need to perform a full audit of internal control over financial reporting in accordance with Auditing Standard No. 2 to have a sufficient basis for assessing materiality, understanding the company's internal control over financial reporting overall, and rendering an opinion about whether a material weakness continues to exist. Also, as discussed in paragraph B37, a previously reported material weakness may no longer exist because it has been reduced to a significant deficiency. In this circumstance, if management does not plan to correct the significant deficiency within a reasonable period of time, the auditor should evaluate whether the remaining significant deficiency could be indicative of a material weakness.

B49. Regarding the form of the auditor's opinion and concerns that the opinion suggested by the proposed standard implied an inappropriate degree of precision and neglected the concept of reasonable assurance, the Board concluded that the provisions of the proposed standard were sufficiently clear that the auditor's objective in this engagement was to plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist as of the date specified by management. Furthermore, the auditor's report described by the proposed standard included disclosure of this objective. The Board does not, therefore, believe that report users would mistakenly believe that the auditor's opinion, as proposed, would convey absolute assurance.

B50. In addition, the Board believes that including another reference to materiality in the auditor's opinion would not add anything of substance to the auditor's conclusion and could instead impair its readability. The determination of whether a material weakness exists is inherently linked to materiality. Stating that the material weakness no longer exists in all material respects would be redundant—the equivalent of saying that the financial statements are not materially misstated in all material respects. Accordingly, the Board has not added another reference to materiality in the auditor's opinion.

### ***Performance of Substantive Procedures***

B51. The proposed standard, consistent with its reliance on the existing provisions of Auditing Standard No. 2, focused largely on the tests of controls that the auditor must perform to obtain reasonable assurance that a material weakness no longer exists. The proposed standard additionally recognized that, in some cases, the auditor also would need to perform substantive procedures on account balances to obtain sufficient evidence as to whether a material weakness no longer exists.

B52. Several auditors believed that the proposed standard was too mild in its wording that the auditor "may determine" that performing substantive procedures was necessary. Those commenters believed that, to be consistent with the integrated audit concept of Auditing Standard No. 2 and to reflect the fact that identification of many material weaknesses during the past year occurred during the performance of substantive audit procedures, such wording did not adequately convey the importance of performing substantive procedures in an

engagement to report on whether a previously reported material weakness continues to exist. Some commenters recommended that the standard set forth a presumptively mandatory requirement for the auditor to perform substantive audit procedures in all cases, while others suggested that strengthening the language or providing additional guidance about when substantive procedures are necessary would be sufficient.

B53. The Board continues to believe that in some circumstances, substantive procedures will not be necessary for the auditor to obtain sufficient evidence about whether a material weakness continues to exist. Like many aspects of this standard, the auditor's judgment in this area will depend on the nature of the material weakness. An auditor can obtain sufficient evidence to support an opinion on whether some material weaknesses continue to exist without the need for substantive procedures. Other material weaknesses necessitate substantive procedures for the auditor to obtain sufficient evidence. Therefore, the Board determined that it would be inappropriate to establish a presumptively mandatory requirement that substantive procedures be performed in all cases.

B54. The Board agreed, however, that the proposed standard did not sufficiently stress the potential importance of performing substantive procedures, depending on the nature of the material weakness. Paragraph 34 of the standard has, therefore, been modified in a manner that the Board believes better articulates the potential need to perform substantive procedures. An example also has been added to this paragraph of the standard to illustrate a circumstance in which substantive procedures ordinarily would need to be performed.

### ***Using the Work of Others***

B55. Similar to PCAOB Auditing Standard No. 2, the proposed standard permitted the auditor to use the work of others to alter the nature, timing, and extent of the auditor's performance of this work. Specifically, the proposed standard applied the framework for using the work of others described in PCAOB Auditing Standard No. 2. That framework requires the auditor to obtain the principal evidence supporting his or her opinion and to evaluate the nature of the controls being tested, together with the competence and objectivity of the persons performing the work.

B56. Under both PCAOB Auditing Standard No. 2 and the proposed standard, the framework measures principal evidence in relation to the overall assurance provided by the auditor. In PCAOB Auditing Standard No. 2, the principal evidence supporting the auditor's opinion should be evaluated in relation to the auditor's opinion on internal control over financial reporting overall. In contrast, the evaluation of whether the auditor has obtained the principal evidence supporting his or her opinion as to whether a material weakness no longer exists would need to be applied at the control objective level.

B57. There were few comments on the provisions for using the work of others in this proposed standard. Most commenters who commented on these provisions expressed confusion about a passage in the example of proposed paragraph 36, which stated that "the auditor *might* perform a walkthrough of the reconciliation process himself or herself [emphasis added]." Commenters believed that walkthroughs were required in the proposed standard in all cases and that walkthroughs must be conducted by the auditor himself or herself.

B58. One auditor suggested clarifying within the proposed standard that the auditor will be able to use the work of others only in limited circumstances. This same commenter also believed that the bank reconciliation example presented in the proposed standard to illustrate how the auditor could use the work of others in this type of engagement was too simplistic and requested additional, more realistic examples.

B59. The Board continues to believe that the framework for using the work of others that was established in Auditing Standard No. 2 is appropriate for use in this context and, therefore, the provisions for using the work of others in the standard have been retained as proposed. At the same time, the Board determined that it would be helpful to clarify, through the following discussion, that the evaluation of whether the auditor has obtained the principal evidence supporting his or her opinion on whether a material weakness continues to exist would need to be applied at the control objective level. A complete understanding of this feature of the standard is important because this provision allows for additional flexibility in the auditor's work.

B60. The auditor's opinion in this engagement is expressed only on whether the material weakness continues to exist—not on whether the individually identified controls are effective. As a result, the evaluation as to whether the auditor has obtained the principal evidence supporting his or her opinion should be made at the control objective level—not at the lower level of the controls individually identified in management's assertion and the auditor's report.

B61. If, for example, management's and the auditor's reports identify three separate previously reported material weaknesses that no longer exist, the auditor would, in effect, be rendering three separate opinions. Those opinions would indicate that each of the three individual material weaknesses continues to exist or no longer exists as of the date of management's assertion. The standard, therefore, would require the auditor to obtain the principal evidence that the *control objectives* related to each of the three identified material weaknesses were now achieved. However, the standard would not require that the auditor obtain the principal evidence that each *control specifically identified* in management's assertion as achieving the control objectives is effective.

B62. Auditing Standard No. 4 follows the same framework for using the work of others as Auditing Standard No. 2. There may, however, be some circumstances in which the scope of the audit procedures to be performed in this engagement will be so limited that using the work of others will not provide any tangible benefit to the company or its auditor. The Board believes that no additional specific restriction on the use of the work of others is appropriate or necessary in the context of this engagement. Such a restriction would diminish the flexibility that the framework otherwise provides and perhaps inhibit the auditor's exercise of the judgment necessary to implement the framework appropriately. Furthermore, the Board does not believe that auditors need such direction within the standard to make appropriate decisions about using the work of others in this context.

B63. Similarly, the Board determined that no further examples of using the work of others were needed. The Board believes that additional examples demonstrating the application of the provisions in the standard for using the work of others to reflect more realistic (i.e., complex, fact-driven) situations is better handled outside of the standard itself and by auditors—in their audit methodology, training courses, and other venues.

B64. In response to confusion about the requirement for walkthroughs, the Board clarified the standard by adding a note to paragraph 38 and deleted the reference to a walkthrough from the example on using the work of others. Walkthroughs are required only of a successor auditor when the successor auditor performs this engagement before performing an audit of internal control over financial reporting in accordance with Auditing Standard No. 2. A continuing auditor that has opined already on the company's internal control over financial reporting in accordance with Auditing Standard No. 2 as of the company's most recent annual assessment and is engaged to conduct this narrow engagement is not required to perform any walkthroughs as part of this engagement.

### ***Dividing Responsibility***

B65. Due to the narrow scope of an engagement to report on whether a material weakness continues to exist, the provisions of the proposed standard allowed the principal auditor to use the work and reports of another auditor as a basis, in part, for his or her opinion. The proposed standard also prohibited the principal auditor from dividing responsibility for the engagement with another auditor.

B66. Very few comments were received on this provision of the proposed standard. One auditor suggested that, although dividing responsibility may not be appropriate in certain circumstances, the standard should not prohibit it. Another auditor expressed confusion about whether the principal auditor could refer to the report of the other auditor but not divide responsibility with the other auditor.

B67. The Board continues to believe that, based on the nature of the engagement described by the standard, the principal auditor should be prohibited from dividing responsibility for the engagement with another auditor. The Board's consideration of the nature of this engagement included recognition of the narrow scope of the work (*i.e.*, whether a previously reported material weakness continues to exist), that the engagement would be voluntary, and that the assignment would be non-recurring (unlike the recurring nature of the audit of the financial statements or the audit of internal control over financial reporting). The Board notes that three appropriate alternatives exist in the circumstance in which another auditor is involved and the company wants to obtain auditor assurance that a previously reported material weakness no longer exists:

- The principal auditor could report on whether a previously reported material weakness continues to exist according to this standard by performing all of the testing required for this engagement himself or herself.
- The principal auditor could report on whether a previously reported material weakness continues to exist according to this standard by using the work and reports of another auditor as a basis, in part, for his or her opinion, and by taking responsibility for the work performed by the other auditor. In this case, the auditor may not make reference to the other auditor in his or her report on whether a previously reported material weakness continues to exist.
- The company could wait until year-end when the principal auditor would report on the effectiveness of internal control over financial reporting overall under the provisions of Auditing Standard No. 2.

B68. The Board concluded that the standard was sufficiently clear that the principal auditor could not divide responsibility with another auditor and, therefore, that the auditor also could not refer to the other auditor in his or her report. Accordingly, no change has been made to the standard in this regard.

### ***New Material Weaknesses Identified***

B69. The proposed standard was silent regarding the auditor's responsibilities if, during the performance of this engagement, he or she became aware of a new material weakness not previously reported on by an auditor.

B70. Several commenters requested that the standard address the auditor's responsibilities for new material weaknesses identified during this engagement and suggested what these responsibilities should be. One investor suggested that the standard should require the auditor to include disclosure of any new material weaknesses of which the auditor was aware in his or her report. This

commenter stated that, otherwise, the auditor's report would become a way of telling investors the good news while concealing the bad news. Another commenter suggested that management should be required to include the new material weakness in management's assertion that would accompany the auditor's report and the auditor should then disclaim an opinion on the new material weakness.

B71. Both the identification of material weaknesses and the remediation of such weaknesses will be captured by management's voluntary and required reporting under the SEC's rules. Accordingly, the provisions of this standard do not facilitate management's ability to conceal from investors the emergence of a new material weakness at the company. Nevertheless, the Board agreed that when an auditor identifies a new material weakness during the performance of this engagement, the auditor should not simply remain silent. Accordingly, the Board modified the standard to require the auditor to communicate, in writing, to the audit committee any material weaknesses identified during this engagement that the auditor had not previously communicated, in writing, to the audit committee.

B72. The existing provisions of Auditing Standard No. 2 contain responsibilities for the auditor if (1) information comes to the auditor's attention during this engagement that leads him or her to believe, while performing quarterly procedures required by Auditing Standard No. 2, that management's quarterly disclosures are materially misleading, or (2) the auditor becomes aware of conditions that existed at the date of his or her last report issued under Auditing Standard No. 2.

B73. Paragraphs 202-206 of Auditing Standard No. 2 establish certain requirements for the auditor related to management's quarterly and annual certifications with respect to the company's internal control over financial reporting. If matters come to the auditor's attention during this engagement that lead him or her to believe, while fulfilling these quarterly requirements, that modification to the disclosures about changes in internal control over financial reporting is necessary for the certifications to be accurate and to comply with the requirements of Section 302 of the Act and the SEC's rules, these provisions of Auditing Standard No. 2 require the auditor to take action. Such actions escalate from auditor communications with management and then to the audit committee, culminating in the auditor considering his or her additional responsibilities under AU sec. 317, *Illegal Acts by Clients*, and Section 10A of the Securities Exchange Act of 1934.

B74. In addition, a continuing or predecessor auditor would have responsibilities under paragraph 197 of Auditing Standard No. 2 if the existence of a new material weakness came to the auditor's attention. This paragraph effectively extends the responsibilities in AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, to reports on the effectiveness of internal control over financial reporting issued pursuant to Auditing Standard No. 2. The identification of a new material weakness in the current year would cause the auditor, in fulfilling these responsibilities, to determine whether the facts relating to the material weakness existed at the date of the auditor's report pursuant to Auditing Standard No. 2 and, if so, (1) whether those facts would have changed the auditor's report issued under Auditing Standard No. 2 if he or she had been aware of them and (2) whether there are persons currently relying on or likely to rely on the auditor's report. If the auditor determined that the new material weakness identified in the current year actually existed as of the date of his or her previous report under Auditing Standard No. 2 and that it was not adequately identified and disclosed in that report, the auditor would need

to take steps such as recalling and reissuing the previous report to ensure that investors did not continue to rely on the previously issued (erroneous) report.

B75. Including newly identified material weaknesses in the auditor's report could potentially mislead investors into believing that the assurance provided by this type of engagement is broader than it actually is. If report users were provided with disclosure (covered by the auditor's opinion) of new material weaknesses of which the auditor was aware, report users might incorrectly believe that the auditor's report captured *all* new material weaknesses that had arisen at the company. Similarly, a requirement for the auditor to disclose any new material weaknesses could lead report users to conclude, incorrectly, that no such disclosure means that there is current auditor assurance over the whole of internal control over financial reporting at the company. The objective of this engagement is to provide auditor assurance about whether a previously reported material weakness continues to exist—nothing broader. The only way for investors to obtain a more complete report from the auditor would be for the auditor to audit internal control over financial reporting in accordance with Auditing Standard No. 2.

### ***Specific Identification of All Previously Reported Material Weaknesses***

B76. The proposed standard required the auditor to modify his or her report if the auditor provides assurance on less than all of the material weaknesses previously reported. The proposed standard did not, however, require the auditor to specifically identify all of the previously reported material weaknesses not covered.

B77. All investors who commented on this issue suggested that all material weaknesses previously reported either should be referred to or specifically included in the auditor's report. They indicated that failure to identify the additional material weaknesses might lead some users to erroneously conclude that they no longer exist. Auditors, on the other hand, agreed that complete specific identification of the previously reported material weaknesses not covered by the auditor's opinion should not be included, primarily because they believe that it may increase the risk of confusion about the scope of the engagement and what is being covered in the auditor's opinion. Several commenters who agreed that specific identification was not necessary suggested that in addition to the report modification included in the proposed standard, the auditor's report on this engagement should specifically direct the reader to the previous auditor's report (issued under Auditing Standard No. 2), by either attaching a copy of the audit report or by providing direction as to where the report could be obtained.

B78. The Board believes that including a complete specific identification of the previously reported material weaknesses not covered by this engagement would prove problematic. As noted by many commenters, it is possible that including this detail would confuse report readers regarding the scope of this narrow engagement and could simply that, unless told otherwise, a report user should assume that those other material weaknesses *do* continue to exist. In some of the material weakness descriptions included in management's and the auditor's reports on the effectiveness of the company's internal control over financial reporting as of year-end, the description of multiple material weaknesses covered several pages. That level of detail in an auditor's report specifically targeted at whether just one material weakness continues to exist could easily overwhelm the rest of the audit report, making the report prone to various kinds of misinterpretations.

B79. The Board concluded that report readers would be better served by requiring the auditor to provide information regarding where to obtain the previously

issued audit report—either by attaching it or referring to where it could be publicly obtained.

### **Other Reporting Matters**

B80. *No Requirement to Issue a Report.* The proposed standard required that the auditor, if he or she concluded that the material weakness continues to exist, communicate that conclusion in writing to the audit committee. The proposed standard, however, did not require the issuance of a report. Rather, the proposed standard recognized that the auditor must consider this knowledge in connection with the auditor's responsibilities under Auditing Standard No. 2 to determine whether management's quarterly disclosures about internal control over financial reporting are not materially misleading.

B81. Several auditors who commented recommended that the proposed standard should require the auditor to issue an adverse report in the event that the auditor concludes that the material weakness continues to exist. One suggested that issuance of an adverse report would be necessary only if the auditor believed that the company had previously publicly disclosed that the material weakness had been addressed.

B82. The Board continues to believe that requiring the issuance of an adverse report to the company would serve no useful purpose in this circumstance because the company might not make such a report public. The Board believes, therefore, that requiring the auditor to communicate, in writing, with the audit committee his or her conclusion that a material weakness that was the subject of this engagement continues to exist would serve the same purpose as requiring the issuance of an adverse report. At the same time, such a requirement would provide the auditor with additional flexibility as to the form of communication that would be most meaningful to the audit committee. Regarding the potential for management to lead investors to incorrectly believe that the material weakness no longer exists in its public disclosures, the Board believes that the federal securities laws, as well as auditor's existing responsibilities related to management's quarterly disclosures, are adequate safeguards to protect investors from misleading information.

B83. *No Distinction in Standard Between Unqualified and Adverse Opinion.* As discussed in the note to paragraph 43 of the standard, the standard no longer distinguishes between an unqualified and an adverse opinion. The auditor's opinion was revised to state that the material weakness exists or no longer exists. This revision is discussed further in the section "Form of Auditor's Opinion" and is now referred to in the standard as the auditor's opinion.

B84. *Inherent Limitations.* The inherent limitations paragraph of the auditor's report provided in the proposed standard discussed the inherent limitations of internal control over financial reporting overall, rather than the inherent limitations of the controls related to the material weakness being reported on.

B85. One commenter suggested that the inherent limitations paragraph was too broad for this engagement and needed to be modified to more accurately reflect the narrow focus of this type of engagement.

B86. The Board agreed that the inherent limitations paragraph, in this context, should be targeted to the specific controls identified in this auditor report. In addition, the Board continues to believe that the broader concept of inherent limitations in internal control over financial reporting overall is equally applicable. The inherent limitations paragraph in the auditor's report has been modified to reflect both of these conclusions.

B87. *Obtaining an Understanding of Internal Control Over Financial Reporting.* The proposed standard included a required report element stating that

"the engagement includes obtaining an understanding of internal control over financial reporting, examining evidence supporting management's assertion, and performing such other procedures as the auditor considered necessary in the circumstances." This language also was included in the example report included in the proposed standard.

B88. Several auditors expressed concern that the phrase, "the engagement includes obtaining an understanding of internal control over financial reporting," implies that, as a part of the current engagement, the auditor spent a significant amount of time understanding internal control over financial reporting overall rather than carrying forward his or her understanding from the prior annual audit. These commenters believed this implication conflicted with the direction in the body of the proposed standard that an auditor who has audited the company's internal control over financial reporting within the past year in accordance with Auditing Standard No. 2 would be expected to have obtained a sufficient knowledge of the company and its internal control over financial reporting to perform this engagement. One commenter acknowledged that the proposed wording may be appropriate in cases in which a successor auditor is performing this engagement without previously gaining that understanding.

B89. The Board continues to believe that an auditor who has audited the company's internal control over financial reporting as of the company's most recent annual assessment in accordance with Auditing Standard No. 2 would be expected to have obtained a sufficient knowledge of the company and its internal control over financial reporting to perform an engagement to report on whether a previously reported material weakness continues to exist. To require a continuing auditor to update and document his or her understanding of internal control over financial reporting overall (to the full measure required by Auditing Standard No. 2) would be unnecessarily burdensome and costly. The Board modified the report element for a continuing auditor to clarify that the auditor previously obtained an understanding of internal control over financial reporting overall at the company and updated that understanding as it specifically relates to changes in internal control over financial reporting associated with the specified material weakness.

B90. The Board continues to believe, however, that a successor auditor that has not yet audited the company's internal control over financial reporting in accordance with Auditing Standard No. 2 would need to obtain a current understanding of internal control over financial reporting in connection with this engagement. Therefore, the report element described in the proposed standard is appropriate and has been retained for a successor auditor's reporting.

B91. *Example Reports.* The proposed standard included only one example report, which illustrated reporting on one material weakness by a continuing auditor when no additional material weaknesses were reported previously. Several commenters requested modification of the standard to address circumstances that the Board believed were already addressed by the proposed standard but were not illustrated in the single example report. Some commenters also made specific requests for additional example reports.

B92. The Board determined, after considering the nature of the comments, that additional example reports, while not covering all possible situations, would provide additional clarity to the various reporting situations. The Board selected three reports to illustrate most facets of the reporting provisions of the standard. Appendix A includes those reports.

### **Conforming Amendments to AT sec. 101**

B93. The proposed standard contained a proposed conforming amendment to AT sec. 101, *Attest Engagements*. The proposed conforming amendment would

have required the proposed standard to be used, rather than AT sec. 101, for any engagements in which the subject matter is whether a material weakness continues to exist. This conforming amendment would have precluded the auditor from performing an agreed-upon procedures or review engagement (using AT sec. 101) when the subject matter of the engagement was whether a material weakness continues to exist.

B94. The Board received few comments related to the proposed conforming amendment. One auditor agreed that a conforming amendment to preclude a review-level attestation was appropriate when the subject matter was whether a material weakness continues to exist. This commenter went on to suggest, however, that there could be appropriate uses for an agreed-upon procedures engagement and that the Board should not preclude agreed-upon procedures from being performed under the Board's standards. Such reports, the commenter noted, would be restricted to the use of the specified parties who take responsibility for the sufficiency of the agreed-upon procedures for their purposes and, therefore, these reports would not generally be available to investors. Thus, these reports would not be a substitute for the engagements addressed in the proposed standard. Another commenter separately suggested broadly retaining the ability for the auditor to perform a review engagement when the subject matter is a previously reported material weakness.

B95. The Board continues to believe that investors and other report users in the public domain will be best served by the Board's standards permitting only positive assurance (*i.e.*, an examination-level attestation) from the auditor when the subject matter is whether a material weakness continues to exist. The Board agrees, however, that private parties (such as audit committees) who wish to engage the auditor to perform specified procedures when the subject matter is whether a material weakness continues to exist should be allowed to negotiate such a private arrangement, as long as the results are not intended for public use. The Board, therefore, decided to modify the conforming amendment to AT sec. 101 of the Board's interim standards. As adopted, an auditor may not use AT 101 to report on whether a material weakness in internal control over financial reporting continues to exist for any purpose other than the company's internal use.

## Appendix 2

### **Conforming Amendment to PCAOB Auditing and Related Professional Practice Standards Resulting From the Adoption of the Auditing Standard No. 4—*Reporting on Whether a Previously Reported Material Weakness Continues to Exist***

#### **Attestation Standards**

The Board's interim attestation standards include the Statements on Standards for Attestation Engagements promulgated by the ASB, as in existence on April 16, 2003. The conforming amendment to the Board's interim attestation standards is as follows:

- *AT sec. 101, Attest Engagements*

AT sec. 101 is amended by adding as letter f. to paragraph .04, the following:

Engagements in which the practitioner is engaged to report on whether a material weakness in internal control over financial reporting continues to exist for any purpose other than the company's internal use. Such engagements must be conducted pursuant to PCAOB Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*.

**PCAOB Release No. 2005-020*****Ethics and Independence Rule Concerning Independence, Tax Services, and Contingent Fees***

PCAOB Release No. 2005-020  
November 22, 2005

PCAOB Rulemaking  
Docket Matter No. 017

**Approved by the Securities and Exchange Commission on April 19, 2006, with varying effective dates.**

The Securities and Exchange Commission has approved PCAOB ethics and independence rules concerning independence, tax services and contingent fees.

The rules introduce a foundation for the independence component of the Board's ethics rules by establishing a general obligation requiring a registered public accounting firm and its associated persons to be independent of the firm's audit clients throughout the audit and professional engagement period.

The rules identify circumstances in which the provision of tax services impairs an auditor's independence, including services related to marketing, planning, or opining in favor of the tax treatment of, among other things, transactions that are based on aggressive interpretations of applicable tax laws and regulations.

The rules also treat registered public accounting firms as not independent of their audit clients if they enter into contingent fee arrangements with those clients or if the firms provide tax services to certain members of management who serve in financial reporting oversight roles at an audit client or to immediate family members of such persons.

The rules further implement the Sarbanes-Oxley Act's requirement that auditors' non-audit services be pre-approved by the audit committee by strengthening the auditor's responsibilities in connection with seeking audit committee pre-approval of tax services. Specifically, the rules require a registered public accounting firm that seeks such pre-approval to describe proposed tax services engagements, in writing, for the audit committee; to discuss with the audit committee the potential effects of the services on the firm's independence; and to document the substance of that discussion.

Finally, an ethics rule also codifies the principle that persons associated with a registered public accounting firm (e.g., individual accountants) can be held responsible when certain of their actions contribute to a firm's violation of relevant laws, rules, or professional standards.

The effective dates for the rules follow:

<b>Rule</b>	<b>Effective Date</b>
3501—Definition of Terms	April 29, 2006
3502—Responsibility Not to Knowingly or Recklessly Contribute to Violations	April 29, 2006
3520—Auditor Independence	April 29, 2006
3521—Contingent Fees	Rule 3521 will not apply to contingent fee arrangements that were paid in their entirety, converted to fixed fee arrangements, or otherwise unwound before June 18, 2006.
3522—Tax Transactions	Rule 3522 will not apply to tax services that were completed by a registered public accounting firm no later than June 18, 2006.
3523—Tax Services for Persons in Financial Reporting Oversight Roles	Rule 3523 will not apply to tax services being provided pursuant to an engagement in process on April 19, 2006, provided that such services are completed on or before October 31, 2006.
3524—Audit Committee Pre-approval of Certain Tax Services	Rule 3524 will not apply to any tax service pre-approved on an engagement-by-engagement basis before June 18, 2006. With respect to tax services provided to audit clients whose audit committees pre-approve tax services pursuant to policies and procedures, Rule 3524 will not apply to any such tax service that is begun by April 20, 2007.

## Summary:

The Public Company Accounting Oversight Board ("PCAOB" or "Board") is adopting technical amendments to certain rules it adopted in July 2005 to promote the ethics and independence of registered public accounting firms that audit financial statements of U.S. public companies.

## Public Comments:

The Board, on December 14, 2004, released for public comment proposed rules to promote the ethics and independence of registered public accounting firms. The Board received 807 letters of comment. After considering these comments, the Board adopted final rules on July 26, 2005. Because the amendments being adopted today do not change the substance of these rules, the Board is not seeking additional comment. The rules adopted on July 26, 2005, as amended by this release, remain subject to the Securities and Exchange Commission ("SEC") approval process, which includes a period for public comment.

## Board Contacts:

Bella Rivshin, Assistant Chief Auditor (202/207 -9180; rivshinb@pcaobus.org), or Greg Scates, Associate Chief Auditor (202/207 -9114; scatesg@pcaobus.org).

\* \* \*

On July 26, 2005, the Board adopted certain rules related to registered public accounting firms' provision of tax services to public company audit clients. The rules were designed to address certain concerns related to auditor independence when auditors become involved in marketing or otherwise opining in favor of aggressive tax shelter schemes or in selling personal tax services to individuals who play a direct role in preparing the financial statements of public company audit clients. As part of this rulemaking, the Board adopted an ethics rule, Rule 3502, to codify the principle that persons associated with a registered public accounting firm should not cause the firm to violate relevant laws, rules, and standards. The rules were submitted to the SEC on August 2, 2005, for its approval, pursuant to Section 107 of the Sarbanes-Oxley Act of 2002.

After discussions with the SEC, the Board has decided to remove the word "cause" from the title and text of Rule 3502. This amendment is intended to avoid any misperception that the rule affects the interpretation of any provision of the federal securities laws. The rule, as amended, should be interpreted and understood to be the same as the rule adopted by the Board in July, however.<sup>1</sup> In particular, under the amended rule, the person's conduct must have the same relation to the violation and the person must act with the same mental state as under the rule the Board adopted in July.

The Board is also amending Note 1 to Rule 3522(b) to correct a typographical error in the citation of the provision of the Internal Revenue Code cited in that note.

In light of the time that has elapsed since their adoption, the Board has also decided to revise the effective dates for certain of the rules. Three of those rules—Rules 3521, 3522 and 3524—had effective dates of the later of December 31, 2005 or 10 days after the date the SEC approves the rules.<sup>2</sup> The Board has decided to revise the effective dates of those three rules to 60 days after the date the SEC approves the rules.<sup>3</sup>

Specifically, the Board will not apply Rule 3521 to contingent fee arrangements that were paid in their entirety, converted to fixed fee arrangements, or otherwise unwound before 60 days after the date that the SEC approves the rules.<sup>4</sup> The Board will not apply Rule 3522 to tax services that were completed by a registered public accounting firm no later than 60 days after the date that the SEC approves the rules. Rule 3524 will not apply to any tax service pre-approved before 60 days after the date that the SEC approves the rules, or, in the case of an issuer that pre-approves non-audit services by policies and procedures, the rule will not apply to any tax service provided by March 31, 2006. Combined with the time period since the rules' adoption, the extension of the effective dates for these rules should allow reasonable time for affected firms to

November 22, 2005

**APPENDIX—**

Technical Amendments to Ethics and Independence Rules Concerning Independence, Tax Services, and Contingent Fees

## Appendix

### Amendments to Rules

[Underlining indicates an addition; strikethrough indicates a deletion.]

#### **Rule 3502. Responsibility Not to ~~Cause~~ Knowingly or Recklessly Contribute to Violations**

A person associated with a registered public accounting firm shall not take or omit to take an action knowing, or recklessly not knowing, that the act or omission would directly and substantially contribute to a violation by that registered public accounting firm of ~~cause that registered public accounting firm to violate~~ the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards; ~~due to an act or omission the person knew, or was reckless in not knowing, would directly and substantially contribute to such violation.~~

#### **Rule 3522. Tax Transactions.**

\* \* \*

- (b) **Aggressive Tax Position Transactions**—that was initially recommended, directly or indirectly, by the registered public accounting firm and a significant purpose of which is tax avoidance, unless the proposed tax treatment is at least more likely than not to be allowable under applicable tax laws.

Note 1: With respect to transactions subject to the United States tax laws, paragraph (b) of this rule includes, but is not limited to, any transaction that is a listed transaction within the meaning of 26 C.F.R. §1.6011-1-4(b)(2).

**PCAOB Release No. 2007-001*****Observations on Auditors' Implementation of PCAOB Standards Relating to Auditors' Responsibilities With Respect to Fraud***

PCAOB Release No. 2007-001  
January 22, 2007

This report focuses on aspects of the Board's interim auditing standards that address the auditor's responsibility with respect to fraud, principally AU § 316, *Consideration of Fraud in a Financial Statement Audit*.<sup>1</sup> The Board is not, in this report, changing or proposing to change any existing standard, nor is the report meant to provide a new interpretation of any aspect of existing standards. The Board has, however, identified certain observations, made in the course of Board inspections, that are sufficiently important or arise with sufficient frequency to warrant discussion in a public report, both for the purpose of generally focusing auditors on being diligent about these matters and for the purpose of providing information that audit committees may find useful in working with auditors.<sup>2</sup>

The auditor's responsibility with respect to the detection of a material misstatement caused by fraud is an important focus of the Board. The Board's standards state that the auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, including misstatements caused by fraud.<sup>3</sup> Although any financial statement audit entails some risk that the auditor will not detect a material misstatement even when the audit has been conducted in accordance with the standards of the PCAOB,<sup>4</sup> the risk of nondetection is likely to be higher for misstatements caused by fraud than for misstatements caused by error, since fraud usually involves deliberate concealment and may involve collusion with third parties. The auditor should, therefore, assess risks and apply procedures directed specifically to the detection of a material, fraudulent misstatement of the financial statements.

---

<sup>1</sup> On April 16, 2003, the Board adopted certain pre-existing auditing standards as its interim auditing standards to be used on an initial, transitional basis. PCAOB Rule 3200T describes the auditing standards that the Board adopted and requires registered public accounting firms and their associated persons to comply with these auditing standards to the extent not superseded or amended by the Board. See [www.pcaobus.org/standards](http://www.pcaobus.org/standards).

<sup>2</sup> The inspection observations described in this report reflect information reported to the Board by its inspection staff and do not reflect or constitute any determinations by the Board as to whether any firms or persons have engaged in any conduct for which the Board could sanction them through the Board's disciplinary process.

<sup>3</sup> See paragraph .01 of AU § 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>4</sup> See AU § 316.12.

Using observations from certain Board inspections as a focal point, this report discusses aspects of procedures relevant to an auditor's consideration of fraud.<sup>5</sup> The discussion is organized around the following topics:<sup>6</sup>

- Auditor's Overall Approach to the Detection of Financial Fraud
- Brainstorming Sessions and Fraud-Related Inquiries
- Auditor's Response to Fraud Risk Factors
- Financial Statement Misstatements
- Risk of Management Override of Controls
- Other Areas to Improve Fraud Detection

## Auditor's Overall Approach to the Detection of Financial Fraud

The auditor is to make various judgments about the nature, timing, and extent of tests to perform to address specifically identified risks of material misstatement due to fraud.<sup>7</sup>

PCAOB inspection teams have observed, however, that auditors often document their consideration of fraud merely by checking off items on standard audit programs and checklists. PCAOB standards require additional documentation evidencing the actual performance of certain of the procedures outlined in those programs and checklists.<sup>8</sup>

In addition, in audits performed by multi-person audit engagement teams, the lack of such additional documentation makes it difficult for senior members of the audit team to supervise engagement team members properly and to review the procedures performed with respect to the consideration of fraud. In certain instances involving such engagement teams, PCAOB inspection teams have observed that engagement teams' documentation did not contain any such additional evidence of the actual performance of the procedures, suggesting that there may not be sufficient involvement of senior members in supervising and reviewing the engagement team's application of the provisions of AU § 316.

In addition, PCAOB inspection teams have, in some cases, observed that auditors failed to expand audit procedures when addressing identified fraud risk factors. In those cases, it appeared that auditors might be performing the procedures required in AU § 316 mechanically, without using those procedures to develop insights on the risk of fraud or with a view toward identifying ways to modify the audit plan in order to address the risk. If used properly, firm programs and checklists can be useful tools for achieving the objectives of AU § 316. Mechanical implementation of the standard is unlikely to be very effective in detecting fraud.

---

<sup>5</sup> Information received or prepared by the Board in connection with any inspection of a registered public accounting firm is subject to certain confidentiality restrictions set out in Sections 104(g)(2) and 105(b)(5) of the Act. Under the Board's Rule 4010, the Board may publish summaries, compilations, or general reports concerning the results of its various inspections, provided that no such published report may identify the firm or firms to which any quality control criticisms in the report relate.

<sup>6</sup> This report's focus on certain topics should not be understood to suggest any relatively lesser degree of importance of topics that are not addressed. Topics are included in this report because of the nature and frequency of deficiencies that Board inspectors have observed concerning these points in certain of their inspections.

<sup>7</sup> See AU § 316.52.

<sup>8</sup> See AU § 316.83 and paragraph 6 of PCAOB Auditing Standard No. 3, *Audit Documentation*.

## Brainstorming Sessions and Fraud-Related Inquiries

The auditor's planning should include consideration of how the issuer's financial statements might be susceptible to material misstatement due to fraud, how management could perpetrate and conceal fraudulent financial reporting, and how the issuer's assets could be misappropriated.<sup>9</sup> In audits involving multi-person audit teams, the audit team should hold what the standard refers to as a "brainstorming session" to discuss those issues. This discussion allows the audit team to be alerted to how fraud might be perpetrated and concealed based on the general and client-specific knowledge of key members of the audit team and the expertise of the more experienced members of the team. This brainstorming session also reinforces the concept that the detection of a material misstatement in the financial statements caused by fraud is an essential element of an audit.

During this stage of planning the audit, AU § 316.15 states the auditor should set "aside any prior beliefs the audit team members may have that management is honest and has integrity." The emphasis at this stage is on the issuer's vulnerability to fraud, if management and employees were inclined to perpetrate it,<sup>10</sup> and not solely on the likelihood that fraud has occurred. To be most effective, this stage of planning the audit, including an audit team's brainstorming discussion, should occur during the early stages of audit planning so that auditors can consider the issuer's vulnerability to fraud when developing an overall strategy for the expected scope and conduct of the audit. To most effectively identify fraud risk factors, an audit team's brainstorming session should involve key members of the audit team, including, for example, information technology ("IT"), tax, and other specialists, when they are key members of the audit engagement team.<sup>11</sup>

Despite the importance of this planning stage to an effective audit, PCAOB inspection teams have noted instances of failures to comply with this aspect of the standard. In particular, PCAOB inspectors have (1) identified audits in which the audit team was unable to demonstrate that brainstorming sessions were held; (2) identified audits in which the audit teams' brainstorming sessions occurred after planning and after substantive fieldwork had begun; and (3) identified audits in which key members of the audit team did not attend the brainstorming sessions.

To appropriately discharge the auditor's responsibility with respect to the detection of a material misstatement caused by fraud, the auditor should make inquiries of the audit committee, management, and others about their knowledge of alleged or suspected fraud and fraud risks within the organization.<sup>12</sup> In some engagements, however, inspection teams have found no evidence in the audit documentation that the auditor made required inquiries of the audit committee, management, or others about their knowledge of fraud and fraud risks.

## Auditor's Response to Fraud Risk Factors

Auditors respond to the assessment of the risks of material misstatement due to fraud by using a combination of overall and specific responses.<sup>13</sup> The auditor

---

<sup>9</sup> See AU § 316.14.

<sup>10</sup> See AU § 316.15.

<sup>11</sup> See AU § 316.17.

<sup>12</sup> See AU § 316.20–27.

<sup>13</sup> See AU § 316.48.

should evaluate whether the fraud risk assessment can be linked to individual accounts or classes of transactions and related assertions.<sup>14</sup> Linking in this manner assists the auditor in designing the appropriate audit procedures.<sup>15</sup> An overall response involves a general consideration of how the audit is to be conducted and involves procedures such as modifying the assignment of personnel and the extent of supervision and incorporating an element of unpredictability into the selection of auditing procedures to be performed.<sup>16</sup> For specifically identified risks of material misstatement due to fraud, such as significant related-party transactions not in the ordinary course of business, the auditor generally responds by changing the nature, timing, and/or extent of auditing procedures.<sup>17</sup>

PCAOB inspection teams have observed instances of auditors failing to respond appropriately to identified fraud risk factors. Inspection teams also observed instances in which auditors examined transactions warranting further fraud risk consideration, but for which there was no evidence that the auditors had considered any associated fraud risk factors.

## Financial Statement Misstatements

When the auditor's procedures identify misstatements in the financial statements, the auditor should document the nature and effect of the misstatements<sup>18</sup> and consider whether the misstatements might be indicative of fraud.<sup>19</sup> The auditor's evaluation of misstatements may influence the auditor's conclusion about the materiality of those misstatements.<sup>20</sup> Qualitative considerations related to indications of fraud may mean that misstatements of relatively small amounts are material.<sup>21</sup> Although intent might be difficult to ascertain, that difficulty does not relieve the auditor of the responsibility to consider whether misstatements might be indicative of fraud.<sup>22</sup> In addition, the auditor's ongoing assessment of the risk of material misstatement due to fraud should take into account, among other things, any last-minute adjustments significantly affecting financial results.<sup>23</sup>

PCAOB inspectors noted instances in which auditors failed to properly calculate planning materiality and/or the threshold for posting proposed audit adjustments to a summary schedule. As a result, certain uncorrected misstatements were not evaluated, or were not evaluated appropriately, both individually and in the aggregate, with other misstatements because the summary schedule was incomplete. The inspection teams also observed that some auditors did not fulfill their responsibility to investigate identified departures from generally accepted accounting principles to determine whether such departures were indicative of fraud.

In addition, PCAOB inspectors noted instances in which auditors did not post all proposed audit adjustments in excess of the posting threshold to the summary

---

<sup>14</sup> See AU § 316.38.

<sup>15</sup> *Ibid.*

<sup>16</sup> See AU § 316.50.

<sup>17</sup> See AU § 316.52.

<sup>18</sup> See paragraph .40 of AU § 312, *Audit Risk and Materiality in Conducting an Audit*.

<sup>19</sup> See AU § 316.75.

<sup>20</sup> *Ibid.*

<sup>21</sup> See AU § 316.74–.75.

<sup>22</sup> See AU § 316.05–.12.

<sup>23</sup> See AU § 316.68.

schedule, thus rendering the summary incomplete. Inspectors also noted instances in which auditors had netted the effects of known misstatements that individually met the posting threshold. The net effect of those particular misstatements was lower than the posting threshold for the summary of unadjusted differences. As a result, those misstatements were improperly excluded from the evaluation of potential misstatements. Furthermore, inspection teams observed that some auditors did not adequately scrutinize late adjustments, significantly affecting financial results, that were proposed by management and that partially or completely offset adjustments previously proposed by the auditors.

## Risk of Management Override of Controls

AU § 316.08 recognizes that "[m]anagement has a unique ability to perpetrate fraud because it frequently is in a position to directly or indirectly manipulate accounting records and to present fraudulent financial information. Fraudulent financial reporting often involves management override of controls that otherwise may appear to be operating effectively." To address the risk of management override of controls, AU § 316 requires an auditor to perform certain procedures, such as the examination of journal entries and other adjustments for evidence of possible material misstatements due to fraud<sup>24</sup> and the review of accounting estimates for biases that similarly could result in material misstatements due to fraud.<sup>25</sup>

PCAOB inspection teams noted instances in which it did not appear that the auditor had performed adequate procedures with respect to evaluating the risk of management override of controls. More specifically, in some instances it did not appear that the auditor had appropriately addressed the risk of management override of controls with respect to journal entries and accounting estimates.

## Journal Entries

Management has often used journal entries to perpetrate or conceal fraudulent financial reporting by recording inappropriate or unauthorized amounts in the accounting records, including computer records, or by making adjustments directly to draft financial statements in post-closing or consolidating entries. Accordingly, auditors should understand the company's financial reporting process and the controls over journal entries and evaluate these areas.<sup>26</sup>

To identify, select, and test specific entries and other adjustments and to determine the appropriate method of examining the underlying support for these entries, auditors should consider several important issues, for example:

- Fraud risk factors that might help identify specific classes of journal entries for testing, such as entries made by unauthorized personnel or personnel who do not ordinarily enter journal entries, or entries that lack detailed explanations or other supporting documentation,
- The characteristics of fraudulent entries, including entries made at unusual times, such as nights, weekends, or holidays, and entries made to intercompany or suspense accounts, and

---

<sup>24</sup> See AU § 316.58.

<sup>25</sup> See AU § 316.63.

<sup>26</sup> See AU § 316.58a.

- Nonstandard journal entries that might not be subjected to the same level of internal control as recurring journal entries, for instance, entries at the close of quarterly and annual reporting periods and those that are part of the post-closing process.<sup>27</sup>

PCAOB inspection teams identified certain audit engagements in which auditors performed tests of journal entries, but failed to demonstrate that they had appropriately assessed the completeness and integrity of the population of journal entries obtained from the issuer. The inspection teams also noted instances in which there was no evidence in the audit documentation, and no persuasive other evidence, that an appropriate examination and evaluation of journal entries was performed. In addition, inspection teams noted the exclusion of journal entries with lower dollar amounts from the examination. Setting the scope in such a manner fails to appropriately address the risk of fraud occurring as a result of the frequent use of low-dollar entries.

In reviewing journal entries, auditors should obtain an understanding of the financial reporting process related to the initiation, recording, and processing of journal entries;<sup>28</sup> the procedures used to record recurring and nonrecurring adjustments; and the controls over journal entries and similar adjustments. Auditors might need to use IT specialists and computer-assisted audit techniques to assist them in this process to ensure the integrity and completeness of the population of journal entries and to assist in the selection of journal entries for testing.<sup>29</sup>

## Accounting Estimates

Fraudulent financial reporting often is accomplished through intentional misstatement of accounting estimates.<sup>30</sup> Financial frauds have been committed by management intentionally biasing assumptions and judgments used to estimate account balances. In certain cases, management also has used significant or unusual accounting estimates to intentionally distort results of operations by, for example, failing to recognize losses due to the impairment of assets or intentionally overstating estimates in one period so that the estimates can be reversed in future periods to manage earnings in those periods. Such accounting estimates include allowances for bad debts, accruals for merger-related expenses in connection with business combinations, and so-called restructuring reserves.

Auditors, in complying with AU § 316, should consider the possibility of management bias in developing estimates by considering whether the differences between the estimates best supported by the audit evidence and the estimates included in the financial statements indicate a possible management bias.<sup>31</sup> For example, if each individual accounting estimate included in the financial statements was reasonable and, at the same time, the effect of the difference between each management estimate and the estimate best supported by the audit evidence was to increase income, the auditor should reconsider the estimates taken as a whole.<sup>32</sup> Moreover, auditors should perform a retrospective

---

<sup>27</sup> See AU § 316.61.

<sup>28</sup> See AU § 316.58–.59 and .61.

<sup>29</sup> See AU § 316.61.

<sup>30</sup> See AU § 316.63.

<sup>31</sup> *Ibid.*

<sup>32</sup> See AU § 312.36.

review of significant accounting estimates reflected in the prior year's financial statements to determine whether management's judgments and assumptions relating to estimates indicate a possible bias on the part of management.<sup>33</sup> If the auditor identifies a possible bias, he or she should evaluate whether the circumstances producing such a bias represent a risk of material misstatement due to fraud.<sup>34</sup>

PCAOB inspection teams observed that some auditors have failed to test, or failed to document their testing of, management's assumptions and other aspects of issuers' accounting estimates. The inspection teams also noted that some auditors failed to assess, or failed to include in their audit documentation evidence that they had assessed, whether the overstatement or understatement of accounting estimates indicated a bias in management's estimates that could result in material misstatements due to fraud.

## Other Areas to Improve Fraud Detection

Improvement in auditors' performance in the areas described below also may better position auditors to detect possible misstatements due to fraud.<sup>35</sup>

### Analytical Procedures

Although analytical procedures alone are not well-suited for detecting fraud,<sup>36</sup> they can be an effective diagnostic tool, depending on the reliability of the data used to develop the expected results. For example, auditors can use analytical procedures on information that management is less able or less likely to manipulate, such as operating statistics maintained by operating personnel or audited information.

PCAOB inspection teams have noted numerous deficiencies in auditors' performance of analytical procedures that were intended to be substantive analytical procedures. These deficiencies include the failure to test the underlying data used in the analytical procedures as well as the failure to disaggregate the data in order to improve the precision of the analytical procedures when such disaggregation was appropriate. In addition, inspection teams noted that, when the analytical procedures were intended to be substantive tests, some auditors failed to establish expectations, establish thresholds for identifying significant differences, or investigate differences from the expectations that were greater than the established thresholds. Moreover, some auditors failed to obtain corroboration of management's explanations for differences in excess of the established thresholds.

---

<sup>33</sup> See AU § 316.64.

<sup>34</sup> See AU § 316.65.

<sup>35</sup> Each of the areas described in this section has significant relevance to aspects of an audit other than an auditor's responsibilities with respect to fraud. The discussion of any inspection observations in this section should not be understood to mean that any observed deficiencies in these areas have been addressed with the particular firm specifically in relation to detection of fraud. These matters are included in this report because appropriate attention to these areas may play a role in helping the auditor detect material misstatements caused by fraud.

<sup>36</sup> See paragraph .09 of AU §329, *Analytical Procedures*, as amended by the *Conforming Amendments to PCAOB Interim Standards Resulting From the Adoption of PCAOB Auditing Standard No. 2, "An Audit of Internal Control Over Financial Reporting Performed in Conjunction With an Audit of Financial Statements."*

## Confirmation Process

AU § 316.41 states that auditors ordinarily should presume that revenue recognition is a fraud risk, thus requiring the auditor to respond with appropriate audit procedures. Numerous financial frauds have been perpetrated by management through premature or fictitious revenue recognition schemes.

The recognition of fictitious revenue often results in complementary false and uncollectible receivables. Historically, one of the most widely used substantive tests for determining the existence of receivables and similar assets and, perhaps, for detecting revenue-related fraud as a result, has been direct communication by the auditor with the issuer's customers and others. That audit procedure is based on the premise that audit evidence obtained from third parties will provide the auditor with higher quality audit evidence than is typically available from within the entity.<sup>37</sup>

PCAOB auditing standards permit the use of either positive or negative confirmation requests.<sup>38</sup> With positive confirmation requests, audit evidence is obtained when the auditor receives completed confirmations from the issuer's customers or other intended recipients<sup>39</sup> or, in the absence of such responses, when the auditor performs alternative procedures, such as the examination of shipping documents and cash receipts.<sup>40</sup> (Recipients of negative confirmations are requested to respond only if they disagree with the stated information.) The interim auditing standards caution auditors to use negative confirmations only when certain conditions are present, one of which is that the combined assessed level of inherent and control risk is low.<sup>41</sup> When auditors do not request confirmation of accounts receivable or do not receive responses to positive confirmation requests, they should apply alternative procedures to obtain the evidence necessary to reduce audit risk to an acceptably low level.

PCAOB inspection teams have identified instances in which auditors who had not requested confirmations of account balances or had not received responses to positive confirmation requests either failed to obtain, or failed to include evidence in their audit documentation that they had obtained, sufficient other evidence regarding the existence of accounts receivable balances.

## Roll-Forward of Interim Substantive Testing

Auditors usually perform some of their audit work as of an interim date. Interim audit procedures may include confirmation of accounts receivable and observation of physical inventories. PCAOB auditing standards allow auditors to apply substantive tests to the details of asset or liability accounts as of an interim date if additional substantive tests can be designed to cover the remaining period to provide a reasonable basis for extending the audit conclusions at the interim date to the balance sheet date.<sup>42</sup>

---

<sup>37</sup> See paragraph .34 of AU §330, *The Confirmation Process*.

<sup>38</sup> See AU § 330.17.

<sup>39</sup> See AU § 330.18.

<sup>40</sup> See AU § 330.31–.32.

<sup>41</sup> See AU § 330.20.

<sup>42</sup> See paragraph .03 of AU § 313, *Substantive Tests Prior to the Balance Sheet Date*.

Interim audit work creates a somewhat higher risk that the auditor will not detect fraud because management may record fraudulent transactions in this roll-forward period, believing that the auditors will be less likely to detect them. The auditing standards caution auditors that such interim audit procedures potentially increase the risk that misstatements that exist at the balance sheet date will not be detected by the auditor. Furthermore, audit risk tends to increase as the period from the interim date to the balance-sheet date is lengthened.<sup>43</sup>

Therefore, in determining audit procedures to be performed from the interim date to the balance-sheet date, auditors should consider the following factors: the length of the period between the interim and balance-sheet dates; any changes in controls; the nature and volume of transactions during this period; the comparability of the items comprising the account balance at the interim and balance-sheet dates; and any misstatements detected as a result of the interim procedures.<sup>44</sup>

PCAOB inspection teams have observed that some auditors failed to perform, or failed to include evidence in their audit documentation that they had performed, adequate substantive roll-forward procedures to cover the activity from the interim date to the balance sheet date.

## Review of Interim Financial Information

Financial frauds, including revenue and expense recognition schemes, often originate with the manipulation of quarterly earnings. The SEC requires the auditor to review the issuer's interim financial information before the company files its quarterly report on Form 10-Q or Form 10-QSB with the SEC for each of the first three quarters of the company's fiscal year. In addition, certain issuers, pursuant to item 302(a) of Regulation S-K, are required to include selected quarterly financial data in their annual (and certain other) filings with the SEC. Thus, a review of a company's interim financial information is required for the fourth quarter for those issuers, even though the company does not file a report on Form 10-Q or Form 10-QSB for that quarter. PCAOB inspection teams observed, in some instances, that auditors had failed to perform, or failed to include evidence in their audit documentation that they had performed, sufficient procedures with respect to the review of fourth-quarter financial information for those issuers that were required to disclose selected quarterly financial data.

\* \* \*

The particular inspection observations described in this report gave rise to quality control concerns that were communicated to the firms at which the deficiencies were identified. By law, those quality control criticisms are not made public with respect to any particular firm if the firm addresses the criticism to the Board's satisfaction within 12 months after the issuance of the inspection report on the firm.<sup>45</sup> No later than the conclusion of this 12-month period, a firm that seeks to keep such criticisms nonpublic must provide the Board with explanation and evidence, which the Board evaluates, concerning how the firm

<sup>43</sup> Ibid.

<sup>44</sup> See AU § 313.04–.07.

<sup>45</sup> See Section 104(g)(2) of the Sarbanes-Oxley Act of 2002.

has addressed the criticisms.<sup>46</sup> To date, the Board's initial experience with the remediation process has been very positive;<sup>47</sup> the Board will continue to monitor the firms' progress in this important area.

## PCAOB Release No. 2007-005A

# ***Auditing Standard No. 5, An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements, and Related Independence Rule and Conforming Amendments***

PCAOB Release No. 2007-005A  
June 12, 2007

PCAOB Rulemaking  
Docket Matter No. 021

## **Summary**

After public comment, the Public Company Accounting Oversight Board is adopting Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, as well as an independence rule and conforming amendments to the Board's auditing standards.

## **Board Contact**

Sharon Virag, Associate Chief Auditor (202/207-9164)

\* \* \* \* \*

## **1. Introduction**

In 2002, Congress passed the Sarbanes-Oxley Act (the "Act"), which, among other things, established new provisions related to internal control over financial reporting. Section 404 of the Act requires company management to assess and report on the effectiveness of the company's internal control. It also requires a company's independent auditor, registered with the Public Company Accounting Oversight Board ("PCAOB" or "Board"), to attest to management's disclosures regarding the effectiveness of its internal control. As directed by Sections 103 and 404 of the Act, the Board established a standard to govern the newly required audit by adopting Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with an Audit of Financial Statements* ("Auditing Standard No. 2").<sup>1</sup> The Securities and Exchange Commission ("Commission" or "SEC") approved Auditing Standard No. 2 on June 17, 2004.<sup>2</sup>

---

<sup>1</sup> See PCAOB Release No. 2004-001 (March 9, 2004).

<sup>2</sup> See Securities Exchange Act Release No. 49884 (June 17, 2004).

Since Auditing Standard No. 2 became effective, the Board has closely monitored the progress registered firms have made in implementing its requirements. The PCAOB's monitoring has included gathering information during inspections of registered public accounting firms; participating, along with the SEC, in two roundtable discussions with representatives of issuers, auditors, investor groups, and others; meeting with its Standing Advisory Group; receiving feedback from participants in the Board's Forums on Auditing in the Small Business Environment; and reviewing academic, government, and other reports and studies.

As a result of this monitoring, two basic propositions emerged.<sup>3</sup> First, the audit of internal control over financial reporting has produced significant benefits, including an enhanced focus on corporate governance and controls and higher quality financial reporting. Second, these benefits have come at a significant cost. Costs have been greater than expected and, at times, the related effort has appeared greater than necessary to conduct an effective audit of internal control over financial reporting.

As part of a four-point plan to improve implementation of the internal control requirements, the Board determined to amend Auditing Standard No. 2.<sup>4</sup> On December 19, 2006, the Board proposed for comment a new standard on auditing internal control, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, that would replace Auditing Standard No. 2. The Board also proposed a related auditing standard, *Considering and Using the Work of Others in an Audit*, an independence rule relating to the auditor's provision of internal control-related non-audit services, and conforming amendments to its auditing standards.<sup>5</sup>

The Board issued these proposals with the primary objectives of focusing auditors on the most important matters in the audit of internal control over financial reporting and eliminating procedures that the Board believes are unnecessary to an effective audit of internal control. The proposals were designed to both increase the likelihood that material weaknesses in companies' internal control will be found before they cause material misstatement of the financial statements and steer the auditor away from procedures that are not necessary to achieve the intended benefits. The Board also sought to make the internal control audit more clearly scalable for smaller and less complex public companies and to make the text of the standard easier to understand. In formulating these proposals, the Board re-evaluated every significant aspect of Auditing Standard No. 2.

The Board received 175 comment letters on its proposals. The Board also discussed the proposals with its Standing Advisory Group on February 22, 2007.<sup>6</sup> A large majority of commenters were generally supportive of the Board's proposals, particularly the top-down, risk-based approach and focus on the most

---

<sup>3</sup> See Proposed Auditing Standard: *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements and Related Other Proposals*, PCAOB Release No. 2006-007 (Dec. 19, 2006).

<sup>4</sup> See PCAOB Press Release, "Board Announces Four-Point Plan to Improve Implementation of Internal Control Reporting Requirements" (May 17, 2006). The other aspects of the plan are: (1) reinforcing auditor efficiency through PCAOB inspections; (2) developing or facilitating development of implementation guidance for auditors of smaller public companies; and (3) continuing PCAOB Forums on Auditing in the Small Business Environment.

<sup>5</sup> Proposed Auditing Standard: *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements and Related Other Proposals*, PCAOB Release No. 2006-007 (Dec. 19, 2006).

<sup>6</sup> A transcript of the portion of the meeting that related to the proposals and an archived web cast of the entire meeting are available on the Board's Web site at [http://pcaob.org/News/Events/Documents/02222007\\_SAGMeeting/SAG\\_Transcript.pdf](http://pcaob.org/News/Events/Documents/02222007_SAGMeeting/SAG_Transcript.pdf).

important matters. Based on the comments received, the Board believes that the proposal achieves, in large part, the objectives the Board set out when deciding to amend Auditing Standard No. 2. Many commenters also offered suggestions to improve the final standard, which the Board has carefully analyzed.

In considering the comments received and formulating a final standard, the Board closely coordinated its work with the SEC, which proposed guidance for management on evaluating internal control at the same time that the Board issued its proposals.<sup>7</sup> In addition to its role in implementing Section 404(a) of the Act, the SEC must approve new PCAOB auditing standards before they can become effective.<sup>8</sup> On April 4, 2007, the Commission held a public meeting to discuss the Board's proposals and the coordination of those proposals with the Commission's proposed management guidance. At the meeting, the SEC staff provided the Commission its analysis of the public comments on the PCAOB's proposal and the proposed management guidance. The Commission endorsed the recommendations of its staff and directed its staff to focus its remaining work in four areas:

- "Aligning the PCAOB's new auditing standard ... with the SEC's proposed new management guidance under Section 404, particularly with regard to prescriptive requirements, definitions, and terms";
- "Scaling the 404 audit to account for the particular facts and circumstances of companies, particularly smaller companies";
- "Encouraging auditors to use professional judgment in the 404 process, particularly in using risk-assessment"; and
- "Following a principles-based approach to determining when and to what extent the auditor can use the work of others."<sup>9</sup>

After careful consideration of the comments it received and the input from the SEC, the Board has refined its proposals to provide additional clarity and further help auditors to focus on the most important matters. The Board has decided to adopt the revised standard on auditing internal control as Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* ("Auditing Standard No. 5"), to supersede Auditing Standard No. 2. The Board has also decided to adopt the independence rule and conforming amendments to the auditing standards.<sup>10</sup>

## 2. Notable Areas of Change in the Final Standard

As stated above, the Board believes that the changes made to the proposal reflect refinements, rather than significant shifts in approach. This section describes the areas of change to the proposals that are most notable. Appendix 4 contains additional discussion of comments received on the proposals and the Board's response.

---

<sup>7</sup> See Securities Exchange Act Release No. 54976 (Dec. 20, 2006).

<sup>8</sup> See Section 107 of the Act.

<sup>9</sup> See SEC Press Release, "SEC Commissioners Endorse Improved Sarbanes-Oxley Implementation To Ease Smaller Company Burdens, Focusing Effort On 'What Truly Matters'" (Apr. 4, 2007).

<sup>10</sup> As discussed below, the Board has determined not to adopt the proposed auditing standard on considering and using the work of others.

## A. Alignment with management guidance

On December 20, 2006, the SEC issued proposed guidance to help management evaluate internal control for purposes of its annual assessment. In formulating a new standard on auditing internal control, the Board sought to describe an audit process that would be coordinated with management's evaluation process. Many commenters suggested, however, that the SEC's management guidance and the Board's standard should be more closely aligned.

After considering the comments in this area, the Board has decided to make changes that will improve the coordination between the SEC's management guidance and the Board's standard. In doing so, the Board has been mindful of the inherent differences in the roles of management and the auditor. Management's daily involvement with its internal control system provides it with knowledge and information that may influence its judgments about how best to evaluate internal control and the sufficiency of the evidence it needs for its annual assessment. Management also should be able to rely on self-assessment and, more generally, the monitoring component of internal control, provided the monitoring component is properly designed and operates effectively.

The auditor is required to provide an independent opinion on the effectiveness of the company's internal control over financial reporting. The auditor does not have the familiarity with the company's controls that management has and does not interact with or observe these controls with the same frequency as management. Therefore, the auditor cannot obtain sufficient evidence to support an opinion on the effectiveness of internal control based solely on observation of or interaction with the company's controls. Rather, the auditor needs to perform procedures such as inquiry, observation, and inspection of documents, or walk-throughs, which consist of a combination of those procedures, in order to fully understand and identify the likely sources of potential misstatements, while management might be aware of those risk areas on an on-going basis.

The Board believes, however, that the general concepts necessary to an understanding of internal control should be described in the same way in the Board's standard and in the SEC's guidance. Accordingly, the Board has decided to use the same definition of material weakness in its standard that the SEC uses in its final management guidance and related rules. In addition, the Board is adopting the definition of significant deficiencies that the SEC has proposed. The final standard and final management guidance also describe the same indicators of a material weakness. In addition, as described more fully below, the final standard on auditing internal control uses the term "entity-level controls" instead of "company-level controls," which was used in the proposed standard, in order to use the same term as the SEC uses in its final management guidance.<sup>11</sup> Auditing Standard No. 5's discussion of the effect of these controls is also consistent with the discussion of the same topic in the SEC's final guidance.

## B. The top-down approach

The proposed standard on auditing internal control was structured around the top-down approach to identifying the most important controls to test. This approach follows the same principles that apply to the financial statement audit—the auditor determines the areas of focus through the identification of significant accounts and disclosures and relevant assertions. Under the proposed

---

<sup>11</sup> These terms were used interchangeably in the proposed standard and SEC's proposed management guidance and, for these purposes, they mean the same thing. See Securities Exchange Act Release No. 54976 (Dec. 20, 2006), at 12 fn. 29.

standard, the auditor would specifically identify major classes of transactions and significant processes before identifying the controls to test.

In response to comments about the level of detail in the requirements of the proposed standard, the Board has reconsidered whether the final standard should include the identification of major classes of transactions and significant processes as a specifically required step in the top-down approach. As a practical matter, the auditor will generally need to understand the company's processes to appropriately identify the correct controls to test. The Board believes, however, that specific requirements directing the auditor how to obtain that understanding are unnecessary and could contribute to a "checklist approach" to compliance, particularly for auditors who have a long-standing familiarity with the company. Accordingly, the Board has removed the requirements to identify major classes of transactions and significant processes from the final standard. While this should allow auditors to apply more professional judgment as they work through the top-down approach, the end point is the same as in the proposed standard—the requirement to test those controls that address the assessed risk of misstatement to each relevant assertion.<sup>12</sup>

### C. Emphasis on fraud controls

The proposed standard on auditing internal control discussed fraud controls and the auditor's procedures related to these controls among the testing concepts included near the end of the standard. Commenters suggested that the placement of the discussion, or the lack of specificity regarding the controls that should be deemed fraud controls, failed to properly emphasize these controls or provide auditors with sufficient direction on how to test fraud controls. In response, the Board has made several changes in the final standard.

First, the discussion of fraud risk and anti-fraud controls has been moved closer to the beginning of the standard to emphasize to auditors the relative importance of these matters in assessing risk throughout the top-down approach.<sup>13</sup> Incorporating the auditor's fraud risk assessment—required in the financial statement audit—into the auditor's planning process for the audit of internal control should promote audit quality as well as better integration. While internal control cannot provide absolute assurance that fraud will be prevented or detected, these controls should help to reduce instances of fraud, and, therefore, a concerted focus on fraud controls in the internal control audit should enhance investor protection. Second, management fraud has also been identified in the final standard as an area of higher risk; accordingly, the auditor should focus more of his or her attention on this area.<sup>14</sup> Finally, the standard, as adopted, provides additional guidance on the types of controls that might address fraud risk.<sup>15</sup>

### D. Entity-level controls

The proposed standard on auditing internal control emphasized entity-level controls because of their importance both to the auditor's ability to appropriately tailor the audit through a top-down approach—specifically by identifying and testing the most important controls—and to effective internal control. Additionally, the proposed standard emphasized that these controls might,

---

<sup>12</sup> See paragraph 21.

<sup>13</sup> See paragraphs 14 and 15.

<sup>14</sup> See paragraph 11.

<sup>15</sup> See paragraph 14.

depending on the circumstances, allow the auditor to reduce the testing of controls at the process level. Commenters suggested that the proposed standard did not provide enough direction on how entity-level controls can significantly reduce testing, and some suggested that controls that operate at the level of precision necessary to do so are uncommon. Many commenters suggested incorporating in the final standard the discussion of direct versus indirect entity-level controls that was included in the SEC's proposed management guidance.

The Board continues to believe that entity-level controls, depending on how they are designed and operate, can reduce the testing of other controls related to a relevant assertion. This is either because the entity-level control sufficiently addresses the risk related to the relevant assertion, or because the entity-level controls provide some assurance so that the testing of other controls related to that assertion can be reduced. In response to comments and in order to clarify these concepts, the Board included in the final standard a discussion of three broad categories of entity-level controls, which vary in nature and precision, along with an explanation of how each category might have a different effect on the performance of tests of other controls.<sup>16</sup>

The final standard explains that some controls, such as certain control environment controls, have an important, but indirect effect, on the likelihood that a misstatement will be detected or prevented on a timely basis. These controls might affect the other controls the auditor selects for testing and the nature, timing, and extent of procedures the auditor performs on other controls.

The final standard explains that other entity-level controls may not operate at the level of precision necessary to eliminate the need for testing of other controls, but can reduce the required level of testing of other controls, sometimes substantially. This is because the auditor obtains some of the supporting evidence related to a control from an entity-level control and the remaining necessary evidence from the testing of the control at the process level. Controls that monitor the operation of other controls are the best example of these types of controls. These monitoring controls help provide assurance that the controls that address a particular risk are effective and, therefore, they can provide some evidence about the effectiveness of those lower-level controls, reducing the testing of those controls that otherwise would be necessary.

Lastly, the final standard explains that some entity-level controls might operate at a level of precision that, without the need for other controls, sufficiently addresses the risk of misstatement to a relevant assertion. If a control sufficiently addresses the risk in this manner, the auditor does not need to test other controls related to that risk.

## E. Walkthroughs

The proposed standard on auditing internal control would have required auditors to perform a walkthrough of each significant process each year. This proposed requirement represented a change from Auditing Standard No. 2, which required a walkthrough of each major class of transactions within a significant process. Commenters were split on the question of whether the re-calibration from major class of transactions to significant process in the proposed standard would result in a reduction of effort. Some issuers and auditors suggested that walkthroughs are already being performed on significant processes, while other

---

<sup>16</sup> See paragraph 23. The Board believes that expertise of auditors and companies in the area of entity-level controls will continue to evolve. For example, the Committee of Sponsoring Organizations of the Treadway Commission has begun a project on the monitoring component of internal control that may provide some guidance in this area.

issuers and auditors commented that this proposed requirement would make a difference. A few commenters suggested that a walkthrough of each significant process was insufficient and would negatively affect audit quality, but many others stated that walkthroughs should not be required at all.

In evaluating these comments, the Board focused principally on the objectives it believes are achieved through a properly performed walkthrough. The Board firmly believes that those objectives should be met for the auditor to verify that he or she has a sufficient understanding of the points within the processes where misstatements could occur and to properly identify the controls to test.<sup>17</sup> Procedures that fulfill those objectives also play an important role in the evaluation of the effectiveness of the design of the controls. The Board believes that, in some instances, the requirement to perform a walkthrough may have overshadowed the objectives it was meant to achieve. This may have resulted in some walkthroughs being performed to meet the requirement but failing to achieve the intended purpose. The final standard, therefore, focuses specifically on achieving certain important objectives, and the performance requirement is based on fulfilling those objectives as they relate to the understanding of likely sources of misstatement and the selection of controls to test.<sup>18</sup> While a walkthrough will frequently be the best way of attaining these goals, the auditor's focus should be on the objectives, not on the mechanics of the walkthrough. In some cases, other procedures may be equally or more effective means of achieving them.

## F. Evaluation and communication of deficiencies

The proposed standard on auditing internal control required the auditor to evaluate the severity of identified control deficiencies to determine whether they are significant deficiencies or material weaknesses. It then required the auditor to communicate, in writing, to management and the audit committee all significant deficiencies and material weaknesses identified during the audit. The proposed standard defined "significant deficiency" as "a control deficiency, or combination of control deficiencies, such that there is a reasonable possibility that a significant misstatement of the company's annual or interim financial statements will not be prevented or detected." The term "significant misstatement" was defined, in turn, to mean "a misstatement that is less than material yet important enough to merit attention by those responsible for oversight of the company's financial reporting."

Commenters generally supported the proposed definition of the term "significant misstatement," though some were concerned that it was too subjective. Other commenters questioned whether the standard should include a definition of significant deficiency and a requirement to communicate significant deficiencies to the audit committee. At least one commenter suggested that the term be removed from the standard.

After considering these comments, the Board has determined to make changes to the definition of significant deficiency and related requirements.<sup>19</sup> The Board continues to believe that the standard should require auditors to provide

---

<sup>17</sup> See paragraph 34, which describes these objectives.

<sup>18</sup> See paragraph 34.

<sup>19</sup> The Board also made minor changes to the definition of material weakness in order to use the same definition in the SEC's management guidance and related rule. In the final standard, material weakness is defined as "a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis."

relevant information about important control deficiencies—even those less severe than a material weakness—to management and to the audit committee. The final standard, therefore, requires the auditor to consider and communicate any identified significant deficiencies to the audit committee. In order to emphasize that the auditor need not scope the audit to identify all significant deficiencies, however, the Board placed these provisions in the section of the final standard that describes communications requirements.<sup>20</sup>

The relatively minor changes that the Board made to the definition of significant deficiency are also intended to focus the auditor on the communication requirement and away from scoping issues. The final definition is based on the proposed definition of "significant misstatement," which commenters generally supported, and is aligned with the SEC's proposed definition of the same term. Under the final standard, a significant deficiency is "a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness yet important enough to merit attention by those responsible for oversight of the company's financial reporting."

## G. Scaling the audit

The proposed standard on auditing internal control indicated that a company's size and complexity are important considerations and that the procedures an auditor should perform depend upon where along the size and complexity continuum a company falls. The proposed standard included a section on scaling the audit for smaller, less complex companies and would have required auditors to evaluate and document the effect of the company's size and complexity on the audit. This documentation requirement applied to audits of companies of all sizes. The proposed standard also included a list of the attributes of smaller, less complex companies and a description of how the auditor might tailor his or her procedures when these attributes are present. In general, commenters were supportive of the proposed standard's general approach to scalability, but had several recommendations for change.

Some commenters suggested that scalability should not be covered as a standalone discussion applicable only to smaller companies and that other companies, regardless of size, might have areas that are less complex. The Board agrees that the direction on scaling will be most effective if it is a natural extension of the risk-based approach and applicable to all companies. Consequently, the Board shortened the separate section on "scaling the audit," and incorporated a discussion of scaling concepts, similar to what was proposed, throughout the final standard. Specifically, notes to relevant paragraphs describe how to tailor the audit to the particular circumstances of a smaller, less complex company or unit. The Board also retained the list of attributes of smaller, less complex companies and acknowledged that, even within larger companies, some business units or processes may be less complex than others. Discussion of these attributes has been incorporated in the section on the auditor's planning procedures in the final standard.<sup>21</sup> As described in the proposing release, the

---

<sup>20</sup> See paragraph 80. The final standard also includes the proposed requirement for the auditor to communicate, in writing, to management, all deficiencies in internal control identified during the audit and inform the audit committee when such a communication has been made, and the proposed requirement to inform, when applicable, the board of directors of the auditor's conclusion that the audit committee's oversight is ineffective. See paragraphs 79 and 81. Some commenters believed that the requirement to communicate all identified deficiencies to management would result in an unnecessary administrative exercise. The Board continues to believe, however, that auditors should provide information about identified control deficiencies to management.

<sup>21</sup> See paragraph 9.

provisions on scalability in the final standard will form the basis for guidance on auditing internal control in smaller companies to be issued this year.

Several commenters, mostly auditors, suggested that the performance requirements that applied to all companies, including large, complex companies, would lead to unnecessary and costly documentation requirements. These commenters were particularly concerned about the requirement to document the effects of size and complexity on all aspects of the audit, even if a particular engagement could not be tailored as a result of these factors. After considering these comments, the Board agreed that this documentation requirement is not necessary to promote audit quality and, therefore, has not included it in the final standard.

## H. Use of the work of others in an integrated audit

At the time the Board proposed Auditing Standard No. 5 for public comment, the Board also proposed an auditing standard entitled Considering and Using the Work of Others in an Audit that would have superseded the Board's interim standard AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements* ("AU sec. 322"), and replaced the direction on using the work of others in an audit of internal control in Auditing Standard No. 2. As discussed in the proposing release, the Board had several objectives in proposing this standard. The first was to better integrate the financial statement audit and the audit of internal control by having only one framework for using the work of others in both audits. Additionally, the Board wanted to encourage auditors to use the work of others to a greater extent when the work is performed by sufficiently competent and objective persons. Among other things, under the proposed standard, auditors would have been able to use the work of sufficiently competent and objective company personnel—not just internal auditors—and third parties working under the direction of management or the audit committee for purposes of the financial statement audit as well as the audit of internal control.

The Board received numerous comments on the proposed standard on using the work of others. Commenters generally indicated support for a single framework regarding the auditor's use of the work of others in an integrated audit. Some, however, suggested retaining existing AU sec. 322 as the basis for that single framework. They expressed the view that the objective of removing barriers to integration and using the work of others to the fullest extent appropriate could be achieved by retaining AU sec. 322 and going forward with the proposed removal of the "principal evidence" provision. At the same time, some other commenters suggested that the proposed standard did not go far enough in encouraging auditors to use the work of others.

After considering these comments, the Board continues to believe that a single framework for the auditor's use of the work of others is preferable to separate frameworks for the audit of internal control and the audit of financial statements. The factors used to determine whether and to what extent it is appropriate to use the work of others should be the same for both audits. At the same time, the Board agreed with those commenters who suggested that better integration of the audits could be achieved without replacing the existing auditing standard. The Board therefore has decided to retain AU sec. 322 for both audits and incorporate language into Auditing Standard No. 5 that establishes these integration concepts rather than adopt the proposed standard on considering and using the work of others.

Consistent with the proposal, however, Auditing Standard No. 5 allows the auditor to use the work of others to obtain evidence about the design and operating effectiveness of controls and eliminates the principal evidence provision. Recognizing that issuers might employ personnel other than internal auditors to perform activities relevant to management's assessment of internal control over financial reporting, the final standard allows the auditor to use the work of company personnel other than internal auditors, as well as third parties working under the direction of management or the audit committee.<sup>22</sup>

In line with the overall risk-based approach to the audit of internal control over financial reporting, the extent to which the auditor may use the work of others depends, in part, on the risk associated with the control being tested. As the risk decreases, so does the need for the auditor to perform the work him or herself. The impact of the work of others on the auditor's work also depends on the relationship between the risk and the competence and objectivity of those who performed the work. As the risk decreases, the necessary level of competence and objectivity decreases as well.<sup>23</sup> Likewise, in higher risk areas (for example, controls that address specific fraud risks), use of the work of others would be limited, if it could be used at all.

Finally, the Board understands that some of the work performed by others for the purposes of management's assessment of internal controls can be relevant to the audit of financial statements. Therefore, in an integrated audit, the final standard allows the auditor to use the work of these sufficiently competent and objective others—not just internal auditors—to obtain evidence supporting the auditor's assessment of control risk for purposes of the audit of financial statements.<sup>24</sup> The Board believes that this provision will promote better integration of the audit of internal control with the audit of financial statements.

### **3. Rule 3525—Audit Committee Pre-Approval of Non-Audit Services Related to Internal Control Over Financial Reporting**

The Board also proposed a new rule related to the auditor's responsibilities when seeking audit committee pre-approval of internal control related non-audit services. As proposed, the rule required a registered public accounting firm that seeks pre-approval of an issuer audit client's audit committee to perform internal control-related non-audit services that are not otherwise prohibited by the Act or the rules of the SEC or the Board to: describe, in writing, to the audit committee the scope of the proposed service; discuss with the audit committee the potential effects of the proposed service on the firm's independence; and document the substance of the firm's discussion with the audit committee. These requirements parallel the auditor's responsibility in seeking audit committee pre-approval to perform tax services for an audit client under PCAOB Rule 3524. Most commenters were supportive of the rule as proposed, though some offered suggestions about what should be included in the required communication. After considering the comments on the proposed rule, the Board has adopted it without change.

---

<sup>22</sup> See paragraph 17.

<sup>23</sup> See paragraph 18.

<sup>24</sup> See paragraph 17.

## 4. Conforming Amendments

As part of the proposal issued for public comment, the Board proposed amendments to certain of the Board's other auditing standards. Only one comment letter specifically addressed the proposed amendments. That letter expressed support for the amendments and suggested a few additional amendments that might be necessary. The Board has considered this comment and added these additional amendments, as well as others, as necessary based on the final standard.

## 5. Effective Date

The proposing release solicited commenters' feedback on how the Board could structure the effective date of the final requirements so as to best minimize disruption to ongoing audits, but make greater flexibility available to auditors as early as possible. Most commenters on this topic suggested making the final standard on auditing internal control effective as soon as possible in order to be available for 2007 audits.

The Board agrees that the improvements in Auditing Standard No. 5 should be available as soon as possible. Accordingly, the Board has determined that Auditing Standard No. 5, Rule 3525, and the conforming amendments will be effective, subject to approval by the SEC, for audits of fiscal years ending on or after November 15, 2007. Earlier adoption is permitted, however, at any point after SEC approval. Auditors who elect to comply with Auditing Standard No. 5 after SEC approval but before its effective date must also comply, at the same time, with Rule 3525 and other PCAOB standards as amended by this release.

Auditing Standard No. 2 will be superseded when Auditing Standard No. 5 becomes effective. Auditors who do not elect to comply with Auditing Standard No. 5 before that date (but after SEC approval) must continue to comply with Auditing Standard No. 2 until it is superseded. Such auditors should, however, apply the definition of "material weakness" contained in Auditing Standard No. 5, rather than the one contained in Auditing Standard No. 2. The SEC has adopted a rule to define the term "material weakness," and the definition in Auditing Standard No. 5 parallels the new SEC definition.

\* \* \*

On the 24th day of May, in the year 2007, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

## APPENDICES—

1. Auditing Standard No. 5—An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements
2. Rule 3525—Audit Committee Pre-approval of Non-audit Services Related to Internal Control Over Financial Reporting
3. Conforming Amendments to PCAOB Auditing Standards
4. Additional Discussion of Comments and the Board's Response

## Appendix 1

# Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*

## Introduction

1. This standard establishes requirements and provides direction that applies when an auditor is engaged to perform an audit of **management's assessment**<sup>1</sup> of the effectiveness of **internal control over financial reporting** ("the audit of internal control over financial reporting") that is integrated with an audit of the financial statements.<sup>2</sup>

2. Effective internal control over financial reporting provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes.<sup>3</sup> If one or more **material weaknesses** exist, the company's internal control over financial reporting cannot be considered effective.<sup>4</sup>

3. The auditor's objective in an audit of internal control over financial reporting is to express an opinion on the effectiveness of the company's internal control over financial reporting. Because a company's internal control cannot be considered effective if one or more material weaknesses exist, to form a basis for expressing an opinion, the auditor must plan and perform the audit to obtain competent evidence that is sufficient to obtain reasonable assurance<sup>5</sup> about whether material weaknesses exist as of the date specified in management's assessment. A material weakness in internal control over financial reporting may exist even when financial statements are not materially misstated.

4. The general standards<sup>6</sup> are applicable to an audit of internal control over financial reporting. Those standards require technical training and proficiency as an auditor, independence, and the exercise of due professional care, including professional skepticism. This standard establishes the fieldwork and reporting standards applicable to an audit of internal control over financial reporting.

5. The auditor should use the same suitable, recognized control framework to perform his or her audit of internal control over financial reporting as management uses for its annual evaluation of the effectiveness of the company's internal control over financial reporting.<sup>7</sup>

---

<sup>1</sup> Terms defined in Appendix A, *Definitions*, are set in **boldface type** the first time they appear.

<sup>2</sup> This auditing standard supersedes Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with An Audit of Financial Statements*, and is the standard on attestation engagements referred to in Section 404(b) of the Act. It also is the standard referred to in Section 103(a)(2)(A)(iii) of the Act.

<sup>3</sup> See Securities Exchange Act Rules 13a-15(f) and 15d-15(f), 17 C.F.R. §§ 240.13a-15(f) and 240.15d-15(f); Paragraph A5.

<sup>4</sup> See Item 308 of Regulation S-K, 17 C.F.R. § 229.308.

<sup>5</sup> See AU section 230, *Due Professional Care in the Performance of Work*, for further discussion of the concept of reasonable assurance in an audit.

<sup>6</sup> See AU section 150, *Generally Accepted Auditing Standards*.

<sup>7</sup> See Securities Exchange Act Rules 13a-15(c) and 15d-15(c), 17 C.F.R. §§ 240.13a-15(c) and 240.15d-15(c). SEC rules require management to base its evaluation of the effectiveness of the

(continued)

## Integrating the Audits

6. The audit of internal control over financial reporting should be integrated with the audit of the financial statements. The objectives of the audits are not identical, however, and the auditor must plan and perform the work to achieve the objectives of both audits.

7. In an integrated audit of internal control over financial reporting and the financial statements, the auditor should design his or her testing of controls to accomplish the objectives of both audits simultaneously—

- To obtain sufficient evidence to support the auditor's opinion on internal control over financial reporting as of year-end, and
- To obtain sufficient evidence to support the auditor's control risk assessments for purposes of the audit of financial statements.

8. Obtaining sufficient evidence to support control risk assessments of low for purposes of the financial statement audit ordinarily allows the auditor to reduce the amount of audit work that otherwise would have been necessary to opine on the financial statements. (See Appendix B for additional direction on integration.)

Note: In some circumstances, particularly in some audits of smaller and less complex companies, the auditor might choose not to assess control risk as low for purposes of the audit of the financial statements. In such circumstances, the auditor's tests of the operating effectiveness of controls would be performed principally for the purpose of supporting his or her opinion on whether the company's internal control over financial reporting is effective as of year-end. The results of the auditor's financial statement auditing procedures also should inform his or her risk assessments in determining the testing necessary to conclude on the effectiveness of a control.

## Planning the Audit

9. The auditor should properly plan the audit of internal control over financial reporting and properly supervise any assistants. When planning an integrated audit, the auditor should evaluate whether the following matters are important to the company's financial statements and internal control over financial reporting and, if so, how they will affect the auditor's procedures—

- Knowledge of the company's internal control over financial reporting obtained during other engagements performed by the auditor;
- Matters affecting the industry in which the company operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes;
- Matters relating to the company's business, including its organization, operating characteristics, and capital structure;

---

*(footnote continued)*

company's internal control over financial reporting on a suitable, recognized control framework (also known as control criteria) established by a body or group that followed due-process procedures, including the broad distribution of the framework for public comment. For example, the report of the Committee of Sponsoring Organizations of the Treadway Commission (known as the COSO report) provides such a framework, as does the report published by the Financial Reporting Council, Internal Control Revised Guidance for Directors on the Combined Code, October 2005 (known as the Turnbull Report).

- The extent of recent changes, if any, in the company, its operations, or its internal control over financial reporting;
- The auditor's preliminary judgments about materiality, risk, and other factors relating to the determination of material weaknesses;
- Control deficiencies previously communicated to the audit committee<sup>8</sup> or management;
- Legal or regulatory matters of which the company is aware;
- The type and extent of available evidence related to the effectiveness of the company's internal control over financial reporting;
- Preliminary judgments about the effectiveness of internal control over financial reporting;
- Public information about the company relevant to the evaluation of the likelihood of material financial statement misstatements and the effectiveness of the company's internal control over financial reporting;
- Knowledge about risks related to the company evaluated as part of the auditor's client acceptance and retention evaluation; and
- The relative complexity of the company's operations.

Note: Many smaller companies have less complex operations. Additionally, some larger, complex companies may have less complex units or processes. Factors that might indicate less complex operations include: fewer business lines; less complex business processes and financial reporting systems; more centralized accounting functions; extensive involvement by senior management in the day-to-day activities of the business; and fewer levels of management, each with a wide span of control.

## Role of Risk Assessment

**10.** Risk assessment underlies the entire audit process described by this standard, including the determination of **significant accounts and disclosures** and **relevant assertions**, the selection of controls to test, and the determination of the evidence necessary for a given control.

**11.** A direct relationship exists between the degree of risk that a material weakness could exist in a particular area of the company's internal control over financial reporting and the amount of audit attention that should be devoted to that area. In addition, the risk that a company's internal control over financial reporting will fail to prevent or detect misstatement caused by fraud usually is higher than the risk of failure to prevent or detect error. The auditor should focus more of his or her attention on the areas of highest risk. On the other hand, it is not necessary to test controls that, even if deficient, would not present a reasonable possibility of material misstatement to the financial statements.

**12.** The complexity of the organization, business unit, or process, will play an important role in the auditor's risk assessment and the determination of the necessary procedures.

---

<sup>8</sup> If no audit committee exists, all references to the audit committee in this standard apply to the entire board of directors of the company. See 15 U.S.C. §§ 78c(a)58 and 7201(a)(3).

## Scaling the Audit

13. The size and complexity of the company, its business processes, and business units, may affect the way in which the company achieves many of its **control objectives**. The size and complexity of the company also might affect the risks of misstatement and the controls necessary to address those risks. Scaling is most effective as a natural extension of the risk-based approach and applicable to the audits of all companies. Accordingly, a smaller, less complex company, or even a larger, less complex company might achieve its control objectives differently than a more complex company.<sup>9</sup>

## Addressing the Risk of Fraud

14. When planning and performing the audit of internal control over financial reporting, the auditor should take into account the results of his or her fraud risk assessment.<sup>10</sup> As part of identifying and testing entity-level controls, as discussed beginning at paragraph 22, and selecting other controls to test, as discussed beginning at paragraph 39, the auditor should evaluate whether the company's controls sufficiently address identified risks of material misstatement due to fraud and controls intended to address the risk of management override of other controls. Controls that might address these risks include—

- Controls over significant, unusual transactions, particularly those that result in late or unusual journal entries;
- Controls over journal entries and adjustments made in the period-end financial reporting process;
- Controls over related party transactions;
- Controls related to significant management estimates; and
- Controls that mitigate incentives for, and pressures on, management to falsify or inappropriately manage financial results.

15. If the auditor identifies deficiencies in controls designed to prevent or detect fraud during the audit of internal control over financial reporting, the auditor should take into account those deficiencies when developing his or her response to risks of material misstatement during the financial statement audit, as provided in AU section 316.44 and .45.

## Using the Work of Others

16. The auditor should evaluate the extent to which he or she will use the work of others to reduce the work the auditor might otherwise perform himself or herself. AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, applies in an integrated audit of the financial statements and internal control over financial reporting.

17. For purposes of the audit of internal control, however, the auditor may use the work performed by, or receive direct assistance from, internal auditors,

---

<sup>9</sup> The SEC Advisory Committee on Smaller Public Companies considered a company's size with respect to compliance with the internal control reporting provisions of the Act. See Advisory Committee on Smaller Public Companies to the United States Securities and Exchange Commission, Final Report, at p. 5 (April 23, 2006).

<sup>10</sup> See paragraphs .19–.42 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, regarding identifying risks that may result in material misstatement due to fraud.

company personnel (in addition to internal auditors), and third parties working under the direction of management or the audit committee that provides evidence about the effectiveness of internal control over financial reporting. In an integrated audit of internal control over financial reporting and the financial statements, the auditor also may use this work to obtain evidence supporting the auditor's assessment of control risk for purposes of the audit of the financial statements.

**18.** The auditor should assess the competence and objectivity of the persons whose work the auditor plans to use to determine the extent to which the auditor may use their work. The higher the degree of competence and objectivity, the greater use the auditor may make of the work. The auditor should apply paragraphs .09–.11 of AU section 322 to assess the competence and objectivity of internal auditors. The auditor should apply the principles underlying those paragraphs to assess the competence and objectivity of persons other than internal auditors whose work the auditor plans to use.

Note: For purposes of using the work of others, competence means the attainment and maintenance of a level of understanding and knowledge that enables that person to perform ably the tasks assigned to them, and objectivity means the ability to perform those tasks impartially and with intellectual honesty. To assess competence, the auditor should evaluate factors about the person's qualifications and ability to perform the work the auditor plans to use. To assess objectivity, the auditor should evaluate whether factors are present that either inhibit or promote a person's ability to perform with the necessary degree of objectivity the work the auditor plans to use.

Note: The auditor should not use the work of persons who have a low degree of objectivity, regardless of their level of competence. Likewise, the auditor should not use the work of persons who have a low level of competence regardless of their degree of objectivity. Personnel whose core function is to serve as a testing or compliance authority at the company, such as internal auditors, normally are expected to have greater competence and objectivity in performing the type of work that will be useful to the auditor.

**19.** The extent to which the auditor may use the work of others in an audit of internal control also depends on the risk associated with the control being tested. As the risk associated with a control increases, the need for the auditor to perform his or her own work on the control increases.

## Materiality

**20.** In planning the audit of internal control over financial reporting, the auditor should use the same materiality considerations he or she would use in planning the audit of the company's annual financial statements.<sup>11</sup>

## Using a Top-Down Approach

**21.** The auditor should use a top-down approach to the audit of internal control over financial reporting to select the controls to test. A top-down approach begins at the financial statement level and with the auditor's understanding of the overall risks to internal control over financial reporting. The auditor then focuses on entity-level controls and works down to significant accounts and disclosures and their relevant assertions. This approach directs the

---

<sup>11</sup> See AU section 312, *Audit Risk and Materiality in Conducting an Audit*, which provides additional explanation of materiality.

auditor's attention to accounts, disclosures, and assertions that present a reasonable possibility of material misstatement to the **financial statements and related disclosures**. The auditor then verifies his or her understanding of the risks in the company's processes and selects for testing those controls that sufficiently address the assessed risk of misstatement to each relevant assertion.

Note: The top-down approach describes the auditor's sequential thought process in identifying risks and the controls to test, not necessarily the order in which the auditor will perform the auditing procedures.

## Identifying Entity-Level Controls

22. The auditor must test those entity-level controls that are important to the auditor's conclusion about whether the company has effective internal control over financial reporting. The auditor's evaluation of entity-level controls can result in increasing or decreasing the testing that the auditor otherwise would have performed on other controls.

23. Entity-level controls vary in nature and precision—

- Some entity-level controls, such as certain control environment controls, have an important, but indirect, effect on the likelihood that a misstatement will be detected or prevented on a timely basis. These controls might affect the other controls the auditor selects for testing and the nature, timing, and extent of procedures the auditor performs on other controls.
- Some entity-level controls monitor the effectiveness of other controls. Such controls might be designed to identify possible breakdowns in lower-level controls, but not at a level of precision that would, by themselves, sufficiently address the assessed risk that misstatements to a relevant assertion will be prevented or detected on a timely basis. These controls, when operating effectively, might allow the auditor to reduce the testing of other controls.
- Some entity-level controls might be designed to operate at a level of precision that would adequately prevent or detect on a timely basis misstatements to one or more relevant assertions. If an entity-level control sufficiently addresses the assessed risk of misstatement, the auditor need not test additional controls relating to that risk.

24. Entity-level controls include—

- Controls related to the control environment;
- Controls over management override;

Note: Controls over management override are important to effective internal control over financial reporting for all companies, and may be particularly important at smaller companies because of the increased involvement of senior management in performing controls and in the period-end financial reporting process. For smaller companies, the controls that address the risk of management override might be different from those at a larger company. For example, a smaller company might rely on more detailed oversight by the audit committee that focuses on the risk of management override.

- The company's risk assessment process;

- Centralized processing and controls, including shared service environments;
- Controls to monitor results of operations;
- Controls to monitor other controls, including activities of the internal audit function, the audit committee, and self-assessment programs;
- Controls over the period-end financial reporting process; and
- Policies that address significant business control and risk management practices.

**25. *Control Environment.*** Because of its importance to effective internal control over financial reporting, the auditor must evaluate the control environment at the company. As part of evaluating the control environment, the auditor should assess—

- Whether management's philosophy and operating style promote effective internal control over financial reporting;
- Whether sound integrity and ethical values, particularly of top management, are developed and understood; and
- Whether the Board or audit committee understands and exercises oversight responsibility over financial reporting and internal control.

**26. *Period-end Financial Reporting Process.*** Because of its importance to financial reporting and to the auditor's opinions on internal control over financial reporting and the financial statements, the auditor must evaluate the period-end financial reporting process. The period-end financial reporting process includes the following—

- Procedures used to enter transaction totals into the general ledger;
- Procedures related to the selection and application of accounting policies;
- Procedures used to initiate, authorize, record, and process journal entries in the general ledger;
- Procedures used to record recurring and nonrecurring adjustments to the annual and quarterly financial statements; and
- Procedures for preparing annual and quarterly financial statements and related disclosures.

Note: Because the annual period-end financial reporting process normally occurs after the "as-of" date of management's assessment, those controls usually cannot be tested until after the as-of date.

**27.** As part of evaluating the period-end financial reporting process, the auditor should assess—

- Inputs, procedures performed, and outputs of the processes the company uses to produce its annual and quarterly financial statements;
- The extent of information technology ("IT") involvement in the period-end financial reporting process;
- Who participates from management;

- The locations involved in the period-end financial reporting process;
- The types of adjusting and consolidating entries; and
- The nature and extent of the oversight of the process by management, the board of directors, and the audit committee.

Note: The auditor should obtain sufficient evidence of the effectiveness of those quarterly controls that are important to determining whether the company's controls sufficiently address the assessed risk of misstatement to each relevant assertion as of the date of management's assessment. However, the auditor is not required to obtain sufficient evidence for each quarter individually.

## Identifying Significant Accounts and Disclosures and Their Relevant Assertions

**28.** The auditor should identify significant accounts and disclosures and their relevant assertions. Relevant assertions are those financial statement assertions that have a reasonable possibility of containing a misstatement that would cause the financial statements to be materially misstated. The financial statement assertions include<sup>12</sup>—

- Existence or occurrence
- Completeness
- Valuation or allocation
- Rights and obligations
- Presentation and disclosure

Note: The auditor may base his or her work on assertions that differ from those in this standard if the auditor has selected and tested controls over the pertinent risks in each significant account and disclosure that have a reasonable possibility of containing misstatements that would cause the financial statements to be materially misstated.

**29.** To identify significant accounts and disclosures and their relevant assertions, the auditor should evaluate the qualitative and quantitative risk factors related to the financial statement line items and disclosures. Risk factors relevant to the identification of significant accounts and disclosures and their relevant assertions include—

- Size and composition of the account;
- Susceptibility to misstatement due to errors or fraud;
- Volume of activity, complexity, and homogeneity of the individual transactions processed through the account or reflected in the disclosure;
- Nature of the account or disclosure;
- Accounting and reporting complexities associated with the account or disclosure;

---

<sup>12</sup> See AU section 326, *Evidential Matter*, which provides additional information on financial statement assertions.

- Exposure to losses in the account;
- Possibility of significant contingent liabilities arising from the activities reflected in the account or disclosure;
- Existence of related party transactions in the account; and
- Changes from the prior period in account or disclosure characteristics.

**30.** As part of identifying significant accounts and disclosures and their relevant assertions, the auditor also should determine the likely sources of potential misstatements that would cause the financial statements to be materially misstated. The auditor might determine the likely sources of potential misstatements by asking himself or herself "what could go wrong?" within a given significant account or disclosure.

**31.** The risk factors that the auditor should evaluate in the identification of significant accounts and disclosures and their relevant assertions are the same in the audit of internal control over financial reporting as in the audit of the financial statements; accordingly, significant accounts and disclosures and their relevant assertions are the same for both audits.

Note: In the financial statement audit, the auditor might perform substantive auditing procedures on financial statement accounts, disclosures and assertions that are not determined to be significant accounts and disclosures and relevant assertions.<sup>13</sup>

**32.** The components of a potential significant account or disclosure might be subject to significantly differing risks. If so, different controls might be necessary to adequately address those risks.

**33.** When a company has multiple locations or business units, the auditor should identify significant accounts and disclosures and their relevant assertions based on the consolidated financial statements. Having made those determinations, the auditor should then apply the direction in Appendix B for multiple locations scoping decisions.

## Understanding Likely Sources of Misstatement

**34.** To further understand the likely sources of potential misstatements, and as a part of selecting the controls to test, the auditor should achieve the following objectives—

- Understand the flow of transactions related to the relevant assertions, including how these transactions are initiated, authorized, processed, and recorded;
- Verify that the auditor has identified the points within the company's processes at which a misstatement—including a misstatement due to fraud—could arise that, individually or in combination with other misstatements, would be material;
- Identify the controls that management has implemented to address these potential misstatements; and

---

<sup>13</sup> This is because his or her assessment of the risk that undetected misstatement would cause the financial statements to be materially misstated is unacceptably high (see AU sec. 312.39 for further discussion about undetected misstatement) or as a means of introducing unpredictability in the procedures performed (see paragraph 61 and AU sec. 316.50 for further discussion about predictability of auditing procedures).

- Identify the controls that management has implemented over the prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could result in a material misstatement of the financial statements.

**35.** Because of the degree of judgment required, the auditor should either perform the procedures that achieve the objectives in paragraph 34 himself or herself or supervise the work of others who provide direct assistance to the auditor, as described in AU section 322.

**36.** The auditor also should understand how IT affects the company's flow of transactions. The auditor should apply paragraphs .16–.20, .30–.32, and .77–.79, of AU section 319, *Consideration of Internal Control in a Financial Statement Audit*, which discuss the effect of information technology on internal control over financial reporting and the risks to assess.

Note: The identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the top-down approach used to identify significant accounts and disclosures and their relevant assertions, and the controls to test, as well as to assess risk and allocate audit effort as described by this standard.

**37. *Performing Walkthroughs.*** Performing walkthroughs will frequently be the most effective way of achieving the objectives in paragraph 34. In performing a walkthrough, the auditor follows a transaction from origination through the company's processes, including information systems, until it is reflected in the company's financial records, using the same documents and information technology that company personnel use. Walkthrough procedures usually include a combination of inquiry, observation, inspection of relevant documentation, and re-performance of controls.

**38.** In performing a walkthrough, at the points at which important processing procedures occur, the auditor questions the company's personnel about their understanding of what is required by the company's prescribed procedures and controls. These probing questions, combined with the other walkthrough procedures, allow the auditor to gain a sufficient understanding of the process and to be able to identify important points at which a necessary control is missing or not designed effectively. Additionally, probing questions that go beyond a narrow focus on the single transaction used as the basis for the walkthrough allow the auditor to gain an understanding of the different types of significant transactions handled by the process.

## Selecting Controls to Test

**39.** The auditor should test those controls that are important to the auditor's conclusion about whether the company's controls sufficiently address the assessed risk of misstatement to each relevant assertion.

**40.** There might be more than one control that addresses the assessed risk of misstatement to a particular relevant assertion; conversely, one control might address the assessed risk of misstatement to more than one relevant assertion. It is neither necessary to test all controls related to a relevant assertion nor necessary to test redundant controls, unless redundancy is itself a control objective.

**41.** The decision as to whether a control should be selected for testing depends on which controls, individually or in combination, sufficiently address the assessed risk of misstatement to a given relevant assertion rather than on

how the control is labeled (e.g., entity-level control, transaction-level control, control activity, monitoring control, **preventive control**, **detective control**).

## Testing Controls

### Testing Design Effectiveness

42. The auditor should test the design effectiveness of controls by determining whether the company's controls, if they are operated as prescribed by persons possessing the necessary authority and competence to perform the control effectively, satisfy the company's control objectives and can effectively prevent or detect errors or fraud that could result in material misstatements in the financial statements.

Note: A smaller, less complex company might achieve its control objectives in a different manner from a larger, more complex organization. For example, a smaller, less complex company might have fewer employees in the accounting function, limiting opportunities to segregate duties and leading the company to implement alternative controls to achieve its control objectives. In such circumstances, the auditor should evaluate whether those alternative controls are effective.

43. Procedures the auditor performs to test design effectiveness include a mix of inquiry of appropriate personnel, observation of the company's operations, and inspection of relevant documentation. Walkthroughs that include these procedures ordinarily are sufficient to evaluate design effectiveness.

### Testing Operating Effectiveness

44. The auditor should test the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control possesses the necessary authority and competence to perform the control effectively.

Note: In some situations, particularly in smaller companies, a company might use a third party to provide assistance with certain financial reporting functions. When assessing the competence of personnel responsible for a company's financial reporting and associated controls, the auditor may take into account the combined competence of company personnel and other parties that assist with functions related to financial reporting.

45. Procedures the auditor performs to test operating effectiveness include a mix of inquiry of appropriate personnel, observation of the company's operations, inspection of relevant documentation, and re-performance of the control.

## Relationship of Risk to the Evidence to be Obtained

46. For each control selected for testing, the evidence necessary to persuade the auditor that the control is effective depends upon the risk associated with the control. The risk associated with a control consists of the risk that the control might not be effective and, if not effective, the risk that a material weakness would result. As the risk associated with the control being tested increases, the evidence that the auditor should obtain also increases.

Note: Although the auditor must obtain evidence about the effectiveness of controls for each relevant assertion, the auditor is not responsible for obtaining sufficient evidence to support an opinion about the effectiveness of each individual control. Rather, the auditor's objective is to express an opinion on the company's internal control over financial reporting overall. This allows the auditor to vary the evidence obtained regarding the effectiveness of individual controls selected for testing based on the risk associated with the individual control.

**47. Factors that affect the risk associated with a control include—**

- The nature and materiality of misstatements that the control is intended to prevent or detect;
- The inherent risk associated with the related account(s) and assertion(s);
- Whether there have been changes in the volume or nature of transactions that might adversely affect control design or operating effectiveness;
- Whether the account has a history of errors;
- The effectiveness of entity-level controls, especially controls that monitor other controls;
- The nature of the control and the frequency with which it operates;
- The degree to which the control relies on the effectiveness of other controls (e.g., the control environment or information technology general controls);
- The competence of the personnel who perform the control or monitor its performance and whether there have been changes in key personnel who perform the control or monitor its performance;
- Whether the control relies on performance by an individual or is automated (i.e., an automated control would generally be expected to be lower risk if relevant information technology general controls are effective); and

Note: A less complex company or business unit with simple business processes and centralized accounting operations might have relatively simple information systems that make greater use of off-the-shelf packaged software without modification. In the areas in which off-the-shelf software is used, the auditor's testing of information technology controls might focus on the application controls built into the pre-packaged software that management relies on to achieve its control objectives and the IT general controls that are important to the effective operation of those application controls.

- The complexity of the control and the significance of the judgments that must be made in connection with its operation.

Note: Generally, a conclusion that a control is not operating effectively can be supported by less evidence than is necessary to support a conclusion that a control is operating effectively.

**48.** When the auditor identifies deviations from the company's controls, he or she should determine the effect of the deviations on his or her assessment of the risk associated with the control being tested and the evidence to be obtained, as well as on the operating effectiveness of the control.

Note: Because effective internal control over financial reporting cannot, and does not, provide absolute assurance of achieving the company's control objectives, an individual control does not necessarily have to operate without any deviation to be considered effective.

**49.** The evidence provided by the auditor's tests of the effectiveness of controls depends upon the mix of the nature, timing, and extent of the auditor's procedures. Further, for an individual control, different combinations of the nature, timing, and extent of testing may provide sufficient evidence in relation to the risk associated with the control.

Note: Walkthroughs usually consist of a combination of inquiry of appropriate personnel, observation of the company's operations, inspection of relevant documentation, and re-performance of the control and might provide sufficient evidence of operating effectiveness, depending on the risk associated with the control being tested, the specific procedures performed as part of the walkthrough and the results of those procedures.

**50. *Nature of Tests of Controls.*** Some types of tests, by their nature, produce greater evidence of the effectiveness of controls than other tests. The following tests that the auditor might perform are presented in order of the evidence that they ordinarily would produce, from least to most: inquiry, observation, inspection of relevant documentation, and re-performance of a control.

Note: Inquiry alone does not provide sufficient evidence to support a conclusion about the effectiveness of a control.

**51.** The nature of the tests of effectiveness that will provide competent evidence depends, to a large degree, on the nature of the control to be tested, including whether the operation of the control results in documentary evidence of its operation. Documentary evidence of the operation of some controls, such as management's philosophy and operating style, might not exist.

Note: A smaller, less complex company or unit might have less formal documentation regarding the operation of its controls. In those situations, testing controls through inquiry combined with other procedures, such as observation of activities, inspection of less formal documentation, or re-performance of certain controls, might provide sufficient evidence about whether the control is effective.

**52. *Timing of Tests of Controls.*** Testing controls over a greater period of time provides more evidence of the effectiveness of controls than testing over a shorter period of time. Further, testing performed closer to the date of management's assessment provides more evidence than testing performed earlier in the year. The auditor should balance performing the tests of controls closer to the as-of date with the need to test controls over a sufficient period of time to obtain sufficient evidence of operating effectiveness.

**53.** Prior to the date specified in management's assessment, management might implement changes to the company's controls to make them more effective or efficient or to address control deficiencies. If the auditor determines that the new controls achieve the related objectives of the control criteria and have been in effect for a sufficient period to permit the auditor to assess their design and operating effectiveness by performing tests of controls, he or she will not need to test the design and operating effectiveness of the superseded controls for purposes of expressing an opinion on internal control over financial reporting. If the operating effectiveness of the superseded controls is important to the auditor's control risk assessment, the auditor should test the design and operating effectiveness of those superseded controls, as appropriate. (See additional direction on integration beginning at paragraph B1.)

**54. *Extent of Tests of Controls.*** The more extensively a control is tested, the greater the evidence obtained from that test.

**55. *Roll-Forward Procedures.*** When the auditor reports on the effectiveness of controls as of a specific date and obtains evidence about the operating effectiveness of controls at an interim date, he or she should determine what additional evidence concerning the operation of the controls for the remaining period is necessary.

**56.** The additional evidence that is necessary to update the results of testing from an interim date to the company's year-end depends on the following factors—

- The specific control tested prior to the as-of date, including the risks associated with the control and the nature of the control, and the results of those tests;
- The sufficiency of the evidence of effectiveness obtained at an interim date;
- The length of the remaining period; and
- The possibility that there have been any significant changes in internal control over financial reporting subsequent to the interim date.

Note: In some circumstances, such as when evaluation of the foregoing factors indicates a low risk that the controls are no longer effective during the roll-forward period, inquiry alone might be sufficient as a roll-forward procedure.

## Special Considerations for Subsequent Years' Audits

**57.** In subsequent years' audits, the auditor should incorporate knowledge obtained during past audits he or she performed of the company's internal control over financial reporting into the decision-making process for determining the nature, timing, and extent of testing necessary. This decision-making process is described in paragraphs 46–56.

**58.** Factors that affect the risk associated with a control in subsequent years' audits include those in paragraph 47 and the following—

- The nature, timing, and extent of procedures performed in previous audits,
- The results of the previous years' testing of the control, and
- Whether there have been changes in the control or the process in which it operates since the previous audit.

**59.** After taking into account the risk factors identified in paragraphs 47 and 58, the additional information available in subsequent years' audits might permit the auditor to assess the risk as lower than in the initial year. This, in turn, might permit the auditor to reduce testing in subsequent years.

**60.** The auditor may also use a benchmarking strategy for automated application controls in subsequent years' audits. Benchmarking is described further beginning at paragraph B28.

**61.** In addition, the auditor should vary the nature, timing, and extent of testing of controls from year to year to introduce unpredictability into the testing and respond to changes in circumstances. For this reason, each year the auditor might test controls at a different interim period, increase or reduce

the number and types of tests performed, or change the combination of procedures used.

## Evaluating Identified Deficiencies

**62.** The auditor must evaluate the severity of each control **deficiency** that comes to his or her attention to determine whether the deficiencies, individually or in combination, are material weaknesses as of the date of management's assessment. In planning and performing the audit, however, the auditor is not required to search for deficiencies that, individually or in combination, are less severe than a material weakness.

**63.** The severity of a deficiency depends on—

- Whether there is a reasonable possibility that the company's controls will fail to prevent or detect a misstatement of an account balance or disclosure; and
- The magnitude of the potential misstatement resulting from the deficiency or deficiencies.

**64.** The severity of a deficiency does not depend on whether a misstatement actually has occurred but rather on whether there is a reasonable possibility that the company's controls will fail to prevent or detect a misstatement.

**65.** Risk factors affect whether there is a reasonable possibility that a deficiency, or a combination of deficiencies, will result in a misstatement of an account balance or disclosure. The factors include, but are not limited to, the following—

- The nature of the financial statement accounts, disclosures, and assertions involved;
- The susceptibility of the related asset or liability to loss or fraud;
- The subjectivity, complexity, or extent of judgment required to determine the amount involved;
- The interaction or relationship of the control with other controls, including whether they are interdependent or redundant;
- The interaction of the deficiencies; and
- The possible future consequences of the deficiency.

Note: The evaluation of whether a control deficiency presents a reasonable possibility of misstatement can be made without quantifying the probability of occurrence as a specific percentage or range.

Note: Multiple control deficiencies that affect the same financial statement account balance or disclosure increase the likelihood of misstatement and may, in combination, constitute a material weakness, even though such deficiencies may individually be less severe. Therefore, the auditor should determine whether individual control deficiencies that affect the same significant account or disclosure, relevant assertion, or component of internal control collectively result in a material weakness.

**66.** Factors that affect the magnitude of the misstatement that might result from a deficiency or deficiencies in controls include, but are not limited to, the following—

- The financial statement amounts or total of transactions exposed to the deficiency; and
- The volume of activity in the account balance or class of transactions exposed to the deficiency that has occurred in the current period or that is expected in future periods.

**67.** In evaluating the magnitude of the potential misstatement, the maximum amount that an account balance or total of transactions can be overstated is generally the recorded amount, while understatements could be larger. Also, in many cases, the probability of a small misstatement will be greater than the probability of a large misstatement.

**68.** The auditor should evaluate the effect of compensating controls when determining whether a control deficiency or combination of deficiencies is a material weakness. To have a mitigating effect, the compensating control should operate at a level of precision that would prevent or detect a misstatement that could be material.

## Indicators of Material Weaknesses

**69.** Indicators of material weaknesses in internal control over financial reporting include—

- Identification of fraud, whether or not material, on the part of senior management;<sup>14</sup>
- Restatement of previously issued financial statements to reflect the correction of a material misstatement;<sup>15</sup>
- Identification by the auditor of a material misstatement of financial statements in the current period in circumstances that indicate that the misstatement would not have been detected by the company's internal control over financial reporting; and
- Ineffective oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee.

**70.** When evaluating the severity of a deficiency, or combination of deficiencies, the auditor also should determine the level of detail and degree of assurance that would satisfy prudent officials in the conduct of their own affairs that they have reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in conformity with generally accepted accounting principles. If the auditor determines that a deficiency, or combination of deficiencies, might prevent prudent officials in the conduct of their own affairs from concluding that they have reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in conformity with generally accepted accounting principles, then the auditor should treat the deficiency, or combination of deficiencies, as an indicator of a material weakness.

---

<sup>14</sup> For the purpose of this indicator, the term "senior management" includes the principal executive and financial officers signing the company's certifications as required under Section 302 of the Act as well as any other members of senior management who play a significant role in the company's financial reporting process.

<sup>15</sup> See Financial Accounting Standards Board Statement No. 154, *Accounting Changes and Error Corrections*, regarding the correction of a misstatement.

## Wrapping-Up

### Forming an Opinion

**71.** The auditor should form an opinion on the effectiveness of internal control over financial reporting by evaluating evidence obtained from all sources, including the auditor's testing of controls, misstatements detected during the financial statement audit, and any identified control deficiencies.

Note: As part of this evaluation, the auditor should review reports issued during the year by internal audit (or similar functions) that address controls related to internal control over financial reporting and evaluate control deficiencies identified in those reports.

**72.** After forming an opinion on the effectiveness of the company's internal control over financial reporting, the auditor should evaluate the presentation of the elements that management is required, under the SEC's rules, to present in its annual report on internal control over financial reporting.<sup>16</sup>

**73.** If the auditor determines that any required elements of management's annual report on internal control over financial reporting are incomplete or improperly presented, the auditor should follow the direction in paragraph C2.

**74.** The auditor may form an opinion on the effectiveness of internal control over financial reporting only when there have been no restrictions on the scope of the auditor's work. A scope limitation requires the auditor to disclaim an opinion or withdraw from the engagement (see paragraphs C3–C7).

### Obtaining Written Representations

**75.** In an audit of internal control over financial reporting, the auditor should obtain written representations from management—

- a.* Acknowledging management's responsibility for establishing and maintaining effective internal control over financial reporting;
- b.* Stating that management has performed an evaluation and made an assessment of the effectiveness of the company's internal control over financial reporting and specifying the control criteria;
- c.* Stating that management did not use the auditor's procedures performed during the audits of internal control over financial reporting or the financial statements as part of the basis for management's assessment of the effectiveness of internal control over financial reporting;
- d.* Stating management's conclusion, as set forth in its assessment, about the effectiveness of the company's internal control over financial reporting based on the control criteria as of a specified date;
- e.* Stating that management has disclosed to the auditor all deficiencies in the design or operation of internal control over financial reporting identified as part of management's evaluation, including separately disclosing to the auditor all such deficiencies that it believes to be significant deficiencies or material weaknesses in internal control over financial reporting;

---

<sup>16</sup> See Item 308(a) of Regulations S-B and S-K, 17 C.F.R. §§ 228.308(a) and 229.308(a).

- f. Describing any fraud resulting in a material misstatement to the company's financial statements and any other fraud that does not result in a material misstatement to the company's financial statements but involves senior management or management or other employees who have a significant role in the company's internal control over financial reporting;
- g. Stating whether control deficiencies identified and communicated to the audit committee during previous engagements pursuant to paragraphs 78 and 80 have been resolved, and specifically identifying any that have not; and
- h. Stating whether there were, subsequent to the date being reported on, any changes in internal control over financial reporting or other factors that might significantly affect internal control over financial reporting, including any corrective actions taken by management with regard to significant deficiencies and material weaknesses.

**76.** The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the audit. As discussed further in paragraph C3, when the scope of the audit is limited, the auditor should either withdraw from the engagement or disclaim an opinion. Further, the auditor should evaluate the effects of management's refusal on his or her ability to rely on other representations, including those obtained in the audit of the company's financial statements.

**77.** AU section 333, *Management Representations*, explains matters such as who should sign the letter, the period to be covered by the letter, and when to obtain an updated letter.

## Communicating Certain Matters

**78.** The auditor must communicate, in writing, to management and the audit committee all material weaknesses identified during the audit. The written communication should be made prior to the issuance of the auditor's report on internal control over financial reporting.

**79.** If the auditor concludes that the oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, the auditor must communicate that conclusion in writing to the board of directors.

**80.** The auditor also should consider whether there are any deficiencies, or combinations of deficiencies, that have been identified during the audit that are **significant deficiencies** and must communicate such deficiencies, in writing, to the audit committee.

**81.** The auditor also should communicate to management, in writing, all deficiencies in internal control over financial reporting (i.e., those deficiencies in internal control over financial reporting that are of a lesser magnitude than material weaknesses) identified during the audit and inform the audit committee when such a communication has been made. When making this communication, it is not necessary for the auditor to repeat information about such deficiencies that has been included in previously issued written communications, whether those communications were made by the auditor, internal auditors, or others within the organization.

**82.** The auditor is not required to perform procedures that are sufficient to identify all control deficiencies; rather, the auditor communicates deficiencies in internal control over financial reporting of which he or she is aware.

**83.** Because the audit of internal control over financial reporting does not provide the auditor with assurance that he or she has identified all deficiencies less severe than a material weakness, the auditor should not issue a report stating that no such deficiencies were noted during the audit.

**84.** When auditing internal control over financial reporting, the auditor may become aware of fraud or possible illegal acts. In such circumstances, the auditor must determine his or her responsibilities under AU section 316, *Consideration of Fraud in a Financial Statement Audit*, AU section 317, *Illegal Acts by Clients*, and Section 10A of the Securities Exchange Act of 1934.<sup>17</sup>

## Reporting on Internal Control

**85.** The auditor's report on the audit of internal control over financial reporting must include the following elements<sup>18</sup>—

- a. A title that includes the word *independent*;
- b. A statement that management is responsible for maintaining effective internal control over financial reporting and for assessing the effectiveness of internal control over financial reporting;
- c. An identification of management's report on internal control;
- d. A statement that the auditor's responsibility is to express an opinion on the company's internal control over financial reporting based on his or her audit;
- e. A definition of internal control over financial reporting as stated in paragraph A5;
- f. A statement that the audit was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States);
- g. A statement that the standards of the Public Company Accounting Oversight Board require that the auditor plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects;
- h. A statement that an audit includes obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as the auditor considered necessary in the circumstances;
- i. A statement that the auditor believes the audit provides a reasonable basis for his or her opinion;
- j. A paragraph stating that, because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements and that projections of any evaluation of effectiveness to future periods are subject to the risk that controls may

---

<sup>17</sup> See 15 U.S.C. § 78j-1.

<sup>18</sup> See Appendix C, which provides direction on modifications to the auditor's report that are required in certain circumstances.

become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate;

- k. The auditor's opinion on whether the company maintained, in all material respects, effective internal control over financial reporting as of the specified date, based on the control criteria;
- l. The manual or printed signature of the auditor's firm;
- m. The city and state (or city and country, in the case of non-U.S. auditors) from which the auditor's report has been issued; and
- n. The date of the audit report.

## Separate or Combined Reports

**86.** The auditor may choose to issue a combined report (i.e., one report containing both an opinion on the financial statements and an opinion on internal control over financial reporting) or separate reports on the company's financial statements and on internal control over financial reporting.

**87.** The following example combined report expressing an unqualified opinion on financial statements and an unqualified opinion on internal control over financial reporting illustrates the report elements described in this section.

### Report of Independent Registered Public Accounting Firm

#### *[Introductory paragraph]*

We have audited the accompanying balance sheets of W Company as of December 31, 20X8 and 20X7, and the related statements of income, stockholders' equity and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 20X8. We also have audited W Company's internal control over financial reporting as of December 31, 20X8, based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. W Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying [*title of management's report*]. Our responsibility is to express an opinion on these financial statements and an opinion on the company's internal control over financial reporting based on our audits.

#### *[Scope paragraph]*

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in

the circumstances. We believe that our audits provide a reasonable basis for our opinions.

*[Definition paragraph]*

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

*[Inherent limitations paragraph]*

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

*[Opinion paragraph]*

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of W Company as of December 31, 20X8 and 20X7, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 20X8 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20X8, based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*.

*[Signature]*

*[City and State or Country]*

*[Date]*

**88.** If the auditor chooses to issue a separate report on internal control over financial reporting, he or she should add the following paragraph to the auditor's report on the financial statements—

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), W Company's internal control over financial reporting as of December 31, 20X8, based on *[identify control criteria]* and our report dated *[date of report, which should be the same as the date of the report on the financial statements]* expressed *[include nature of opinion]*.

The auditor also should add the following paragraph to the report on internal control over financial reporting—

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the *[identify financial statements]*

of W Company and our report dated *[date of report, which should be the same as the date of the report on the effectiveness of internal control over financial reporting]* expressed *[include nature of opinion]*.

## Report Date

**89.** The auditor should date the audit report no earlier than the date on which the auditor has obtained sufficient competent evidence to support the auditor's opinion. Because the auditor cannot audit internal control over financial reporting without also auditing the financial statements, the reports should be dated the same.

## Material Weaknesses

**90.** Paragraphs 62–70 describe the evaluation of deficiencies. If there are deficiencies that, individually or in combination, result in one or more material weaknesses, the auditor must express an adverse opinion on the company's internal control over financial reporting, unless there is a restriction on the scope of the engagement.<sup>19</sup>

**91.** When expressing an adverse opinion on internal control over financial reporting because of a material weakness, the auditor's report must include—

- The definition of a material weakness, as provided in paragraph A7.
- A statement that a material weakness has been identified and an identification of the material weakness described in management's assessment.

Note: If the material weakness has not been included in management's assessment, the report should be modified to state that a material weakness has been identified but not included in management's assessment. Additionally, the auditor's report should include a description of the material weakness, which should provide the users of the audit report with specific information about the nature of the material weakness and its actual and potential effect on the presentation of the company's financial statements issued during the existence of the weakness. In this case, the auditor also should communicate in writing to the audit committee that the material weakness was not disclosed or identified as a material weakness in management's assessment. If the material weakness has been included in management's assessment but the auditor concludes that the disclosure of the material weakness is not fairly presented in all material respects, the auditor's report should describe this conclusion as well as the information necessary to fairly describe the material weakness.

**92.** The auditor should determine the effect his or her adverse opinion on internal control has on his or her opinion on the financial statements. Additionally, the auditor should disclose whether his or her opinion on the financial statements was affected by the adverse opinion on internal control over financial reporting.

Note: If the auditor issues a separate report on internal control over financial reporting in this circumstance, the disclosure required by this paragraph may

---

<sup>19</sup> See paragraph C3 for direction when the scope of the engagement has been limited.

be combined with the report language described in paragraphs 88 and 91. The auditor may present the combined language either as a separate paragraph or as part of the paragraph that identifies the material weakness.

## Subsequent Events

**93.** Changes in internal control over financial reporting or other factors that might significantly affect internal control over financial reporting might occur subsequent to the date as of which internal control over financial reporting is being audited but before the date of the auditor's report. The auditor should inquire of management whether there were any such changes or factors and obtain written representations from management relating to such matters, as described in paragraph 75*h*.

**94.** To obtain additional information about whether changes have occurred that might affect the effectiveness of the company's internal control over financial reporting and, therefore, the auditor's report, the auditor should inquire about and examine, for this subsequent period, the following—

- Relevant internal audit (or similar functions, such as loan review in a financial institution) reports issued during the subsequent period,
- Independent auditor reports (if other than the auditor's) of deficiencies in internal control,
- Regulatory agency reports on the company's internal control over financial reporting, and
- Information about the effectiveness of the company's internal control over financial reporting obtained through other engagements.

**95.** The auditor might inquire about and examine other documents for the subsequent period. Paragraphs .01–.09 of AU section 560, *Subsequent Events*, provide direction on subsequent events for a financial statement audit that also may be helpful to the auditor performing an audit of internal control over financial reporting.

**96.** If the auditor obtains knowledge about subsequent events that materially and adversely affect the effectiveness of the company's internal control over financial reporting as of the date specified in the assessment, the auditor should issue an adverse opinion on internal control over financial reporting (and follow the direction in paragraph C2 if management's assessment states that internal control over financial reporting is effective). If the auditor is unable to determine the effect of the subsequent event on the effectiveness of the company's internal control over financial reporting, the auditor should disclaim an opinion. As described in paragraph C13, the auditor should disclaim an opinion on management's disclosures about corrective actions taken by the company after the date of management's assessment, if any.

**97.** The auditor may obtain knowledge about subsequent events with respect to conditions that did not exist at the date specified in the assessment but arose subsequent to that date and before issuance of the auditor's report. If a subsequent event of this type has a material effect on the company's internal control over financial reporting, the auditor should include in his or her report an explanatory paragraph describing the event and its effects or directing the reader's attention to the event and its effects as disclosed in management's report.

**98.** After the issuance of the report on internal control over financial reporting, the auditor may become aware of conditions that existed at the report date that might have affected the auditor's opinion had he or she been aware of them. The auditor's evaluation of such subsequent information is similar to the auditor's evaluation of information discovered subsequent to the date of the report on an audit of financial statements, as described in AU section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

## Appendix A

### Definitions

A1. For purposes of this standard, the terms listed below are defined as follows—

A2. A **control objective** provides a specific target against which to evaluate the effectiveness of controls. A control objective for internal control over financial reporting generally relates to a relevant assertion and states a criterion for evaluating whether the company's control procedures in a specific area provide reasonable assurance that a misstatement or omission in that relevant assertion is prevented or detected by controls on a timely basis.

A3. A **deficiency** in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

- A deficiency in *design* exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met.
- A deficiency in *operation* exists when a properly designed control does not operate as designed, or when the person performing the control does not possess the necessary authority or competence to perform the control effectively.

A4. **Financial statements and related disclosures** refers to a company's financial statements and notes to the financial statements as presented in accordance with generally accepted accounting principles ("GAAP"). References to financial statements and related disclosures do not extend to the preparation of management's discussion and analysis or other similar financial information presented outside a company's GAAP-basis financial statements and notes.

A5. **Internal control over financial reporting** is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP and includes those policies and procedures that—

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.<sup>1</sup>

---

<sup>1</sup> See Securities Exchange Act Rules 13a-15(f) and 15d-15(f), 17 C.F.R. §§ 240.13a-15(f) and 240.15d-15(f).

Note: The auditor's procedures as part of either the audit of internal control over financial reporting or the audit of the financial statements are not part of a company's internal control over financial reporting.

Note: Internal control over financial reporting has inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements will not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

A6. **Management's assessment** is the assessment described in Item 308(a)(3) of Regulations S-B and S-K that is included in management's annual report on internal control over financial reporting.<sup>2</sup>

A7. A **material weakness** is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a **reasonable possibility** that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Note: There is a **reasonable possibility** of an event, as used in this standard, when the likelihood of the event is either "reasonably possible" or "probable," as those terms are used in Financial Accounting Standards Board Statement No. 5, Accounting for Contingencies ("FAS 5").<sup>3</sup>

A8. Controls over financial reporting may be **preventive controls** or **detective controls**. Effective internal control over financial reporting often includes a combination of preventive and detective controls.

- Preventive controls have the objective of preventing errors or fraud that could result in a misstatement of the financial statements from occurring.
- Detective controls have the objective of detecting errors or fraud that has already occurred that could result in a misstatement of the financial statements.

A9. A **relevant assertion** is a financial statement assertion that has a reasonable possibility of containing a misstatement or misstatements that would cause the financial statements to be materially misstated. The determination of whether an assertion is a relevant assertion is based on inherent risk, without regard to the effect of controls.

A10. An account or disclosure is a **significant account or disclosure** if there is a reasonable possibility that the account or disclosure could contain a misstatement that, individually or when aggregated with others, has a material effect on the financial statements, considering the risks of both overstatement and understatement. The determination of whether an account or disclosure is significant is based on inherent risk, without regard to the effect of controls.

---

<sup>2</sup> See 17 C.F.R. §§ 228.308(a)(3) and 229.308(a)(3).

<sup>3</sup> See FAS 5, paragraph 3.

A11. A **significant deficiency** is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

## Appendix B

### Special Topics

#### Integration of Audits

B1. *Tests of Controls in an Audit of Internal Control.* The objective of the tests of controls in an audit of internal control over financial reporting is to obtain evidence about the effectiveness of controls to support the auditor's opinion on the company's internal control over financial reporting. The auditor's opinion relates to the effectiveness of the company's internal control over financial reporting as of a *point in time* and *taken as a whole*.

B2. To express an opinion on internal control over financial reporting as of a point in time, the auditor should obtain evidence that internal control over financial reporting has operated effectively for a sufficient period of time, which may be less than the entire period (ordinarily one year) covered by the company's financial statements. To express an opinion on internal control over financial reporting taken as a whole, the auditor must obtain evidence about the effectiveness of selected controls over all relevant assertions. This requires that the auditor test the design and operating effectiveness of controls he or she ordinarily would not test if expressing an opinion only on the financial statements.

B3. When concluding on the effectiveness of internal control over financial reporting for purposes of expressing an opinion on internal control over financial reporting, the auditor should incorporate the results of any additional tests of controls performed to achieve the objective related to expressing an opinion on the financial statements, as discussed in the following section.

B4. *Tests of Controls in an Audit of Financial Statements.* To express an opinion on the financial statements, the auditor ordinarily performs tests of controls and substantive procedures. The objective of the tests of controls the auditor performs for this purpose is to assess control risk. To assess control risk for specific financial statement assertions at less than the maximum, the auditor is required to obtain evidence that the relevant controls operated effectively during the *entire period* upon which the auditor plans to place reliance on those controls. However, the auditor is not required to assess control risk at less than the maximum for *all* relevant assertions and, for a variety of reasons, the auditor may choose not to do so.

B5. When concluding on the effectiveness of controls for the purpose of assessing control risk, the auditor also should evaluate the results of any additional tests of controls performed to achieve the objective related to expressing an opinion on the company's internal control over financial reporting, as discussed in paragraph B2. Consideration of these results may require the auditor to alter the nature, timing, and extent of substantive procedures and to plan and perform further tests of controls, particularly in response to identified control deficiencies.

B6. *Effect of Tests of Controls on Substantive Procedures.* If, during the audit of internal control over financial reporting, the auditor identifies a deficiency, he or she should determine the effect of the deficiency, if any, on the nature, timing, and extent of substantive procedures to be performed to reduce audit risk in the audit of the financial statements to an appropriately low level.

B7. Regardless of the assessed level of control risk or the assessed risk of material misstatement in connection with the audit of the financial statements, the auditor should perform substantive procedures for all relevant assertions.

Performing procedures to express an opinion on internal control over financial reporting does not diminish this requirement.

**B8. *Effect of Substantive Procedures on the Auditor's Conclusions About the Operating Effectiveness of Controls.*** In an audit of internal control over financial reporting, the auditor should evaluate the effect of the findings of the substantive auditing procedures performed in the audit of financial statements on the effectiveness of internal control over financial reporting. This evaluation should include, at a minimum—

- The auditor's risk assessments in connection with the selection and application of substantive procedures, especially those related to fraud.
- Findings with respect to illegal acts and related party transactions.
- Indications of management bias in making accounting estimates and in selecting accounting principles.
- Misstatements detected by substantive procedures. The extent of such misstatements might alter the auditor's judgment about the effectiveness of controls.

**B9.** To obtain evidence about whether a selected control is effective, the control must be tested directly; the effectiveness of a control cannot be inferred from the absence of misstatements detected by substantive procedures. The absence of misstatements detected by substantive procedures, however, should inform the auditor's risk assessments in determining the testing necessary to conclude on the effectiveness of a control.

## Multiple Locations Scoping Decisions

**B10.** In determining the locations or business units at which to perform tests of controls, the auditor should assess the risk of material misstatement to the financial statements associated with the location or business unit and correlate the amount of audit attention devoted to the location or business unit with the degree of risk.

Note: The auditor may eliminate from further consideration locations or business units that, individually or when aggregated with others, do not present a reasonable possibility of material misstatement to the company's consolidated financial statements.

**B11.** In assessing and responding to risk, the auditor should test controls over specific risks that present a reasonable possibility of material misstatement to the company's consolidated financial statements. In lower-risk locations or business units, the auditor first might evaluate whether testing entity-level controls, including controls in place to provide assurance that appropriate controls exist throughout the organization, provides the auditor with sufficient evidence.

**B12.** In determining the locations or business units at which to perform tests of controls, the auditor may take into account work performed by others on behalf of management. For example, if the internal auditors' planned procedures include relevant audit work at various locations, the auditor may coordinate work with the internal auditors and reduce the number of locations or business units at which the auditor would otherwise need to perform auditing procedures.

**B13.** The direction in paragraph 61 regarding special considerations for subsequent years' audits means that the auditor should vary the nature, timing, and extent of testing of controls at locations or business units from year to year.

B14. *Special Situations.* The scope of the audit should include entities that are acquired on or before the date of management's assessment and operations that are accounted for as discontinued operations on the date of management's assessment. The direction in this multiple-locations discussion describes how to determine whether it is necessary to test controls at these entities or operations.

B15. For equity method investments, the scope of the audit should include controls over the reporting in accordance with generally accepted accounting principles, in the company's financial statements, of the company's portion of the investees' income or loss, the investment balance, adjustments to the income or loss and investment balance, and related disclosures. The audit ordinarily would not extend to controls at the equity method investee.

B16. In situations in which the SEC allows management to limit its assessment of internal control over financial reporting by excluding certain entities, the auditor may limit the audit in the same manner. In these situations, the auditor's opinion would not be affected by a scope limitation. However, the auditor should include, either in an additional explanatory paragraph or as part of the scope paragraph in his or her report, a disclosure similar to management's regarding the exclusion of an entity from the scope of both management's assessment and the auditor's audit of internal control over financial reporting. Additionally, the auditor should evaluate the reasonableness of management's conclusion that the situation meets the criteria of the SEC's allowed exclusion and the appropriateness of any required disclosure related to such a limitation. If the auditor believes that management's disclosure about the limitation requires modification, the auditor should follow the same communication responsibilities that are described in paragraphs .29–.32 of AU section 722, *Interim Financial Information*. If management and the audit committee do not respond appropriately, in addition to fulfilling those responsibilities, the auditor should modify his or her report on the audit of internal control over financial reporting to include an explanatory paragraph describing the reasons why the auditor believes management's disclosure requires modification.

## Use of Service Organizations

B17. AU section 324, *Service Organizations*, applies to the audit of financial statements of a company that obtains services from another organization that are part of the company's information system. The auditor may apply the relevant concepts described in AU section 324 to the audit of internal control over financial reporting.

B18. AU section 324.03 describes the situation in which a service organization's services are part of a company's information system. If the service organization's services are part of a company's information system, as described therein, then they are part of the information and communication component of the company's internal control over financial reporting. When the service organization's services are part of the company's internal control over financial reporting, the auditor should include the activities of the service organization when determining the evidence required to support his or her opinion.

B19. AU section 324.07–.16 describe the procedures that the auditor should perform with respect to the activities performed by the service organization. The procedures include—

- a. Obtaining an understanding of the controls at the service organization that are relevant to the entity's internal control and the controls at the user organization over the activities of the service organization, and

- b. Obtaining evidence that the controls that are relevant to the auditor's opinion are operating effectively.

B20. Evidence that the controls that are relevant to the auditor's opinion are operating effectively may be obtained by following the procedures described in AU section 324.12. These procedures include—

- a. Obtaining a service auditor's report on controls placed in operation and tests of operating effectiveness, or a report on the application of agreed-upon procedures that describes relevant tests of controls.

Note: The service auditor's report referred to above means a report with the service auditor's opinion on the service organization's description of the design of its controls, the tests of controls, and results of those tests performed by the service auditor, and the service auditor's opinion on whether the controls tested were operating effectively during the specified period (in other words, "reports on controls placed in operation and tests of operating effectiveness" described in AU section 324.24*b*). A service auditor's report that does not include tests of controls, results of the tests, and the service auditor's opinion on operating effectiveness (in other words, "reports on controls placed in operation" described in AU section 324.24*a*) does not provide evidence of operating effectiveness. Furthermore, if the evidence regarding operating effectiveness of controls comes from an agreed-upon procedures report rather than a service auditor's report issued pursuant to AU section 324, the auditor should evaluate whether the agreed-upon procedures report provides sufficient evidence in the same manner described in the following paragraph.

- b. Performing tests of the user organization's controls over the activities of the service organization (e.g., testing the user organization's independent re-performance of selected items processed by the service organization or testing the user organization's reconciliation of output reports with source documents).
- c. Performing tests of controls at the service organization.

B21. If a service auditor's report on controls placed in operation and tests of operating effectiveness is available, the auditor may evaluate whether this report provides sufficient evidence to support his or her opinion. In evaluating whether such a service auditor's report provides sufficient evidence, the auditor should assess the following factors—

- The time period covered by the tests of controls and its relation to the as-of date of management's assessment,
- The scope of the examination and applications covered, the controls tested, and the way in which tested controls relate to the company's controls, and
- The results of those tests of controls and the service auditor's opinion on the operating effectiveness of the controls.

Note: These factors are similar to factors the auditor would consider in determining whether the report provides sufficient evidence to support the auditor's assessed level of control risk in an audit of the financial statements, as described in AU section 324.16.

B22. If the service auditor's report on controls placed in operation and tests of operating effectiveness contains a qualification that the stated control objectives might be achieved only if the company applies controls contemplated in the design of the system by the service organization, the auditor should evaluate whether the company is applying the necessary procedures.

B23. In determining whether the service auditor's report provides sufficient evidence to support the auditor's opinion, the auditor should make inquiries concerning the service auditor's reputation, competence, and independence. Appropriate sources of information concerning the professional reputation of the service auditor are discussed in paragraph .10a of AU section 543, *Part of Audit Performed by Other Independent Auditors*.

B24. When a significant period of time has elapsed between the time period covered by the tests of controls in the service auditor's report and the date specified in management's assessment, additional procedures should be performed. The auditor should inquire of management to determine whether management has identified any changes in the service organization's controls subsequent to the period covered by the service auditor's report (such as changes communicated to management from the service organization, changes in personnel at the service organization with whom management interacts, changes in reports or other data received from the service organization, changes in contracts or service level agreements with the service organization, or errors identified in the service organization's processing). If management has identified such changes, the auditor should evaluate the effect of such changes on the effectiveness of the company's internal control over financial reporting. The auditor also should evaluate whether the results of other procedures he or she performed indicate that there have been changes in the controls at the service organization.

B25. The auditor should determine whether to obtain additional evidence about the operating effectiveness of controls at the service organization based on the procedures performed by management or the auditor and the results of those procedures and on an evaluation of the following risk factors. As risk increases, the need for the auditor to obtain additional evidence increases.

- The elapsed time between the time period covered by the tests of controls in the service auditor's report and the date specified in management's assessment,
- The significance of the activities of the service organization,
- Whether there are errors that have been identified in the service organization's processing, and
- The nature and significance of any changes in the service organization's controls identified by management or the auditor.

B26. If the auditor concludes that additional evidence about the operating effectiveness of controls at the service organization is required, the auditor's additional procedures might include—

- Evaluating procedures performed by management and the results of those procedures.
- Contacting the service organization, through the user organization, to obtain specific information.
- Requesting that a service auditor be engaged to perform procedures that will supply the necessary information.
- Visiting the service organization and performing such procedures.

B27. The auditor should not refer to the service auditor's report when expressing an opinion on internal control over financial reporting.

## Benchmarking of Automated Controls

B28. Entirely automated application controls are generally not subject to breakdowns due to human failure. This feature allows the auditor to use a "benchmarking" strategy.

B29. If general controls over program changes, access to programs, and computer operations are effective and continue to be tested, and if the auditor verifies that the automated application control has not changed since the auditor established a baseline (i.e., last tested the application control), the auditor may conclude that the automated application control continues to be effective without repeating the prior year's specific tests of the operation of the automated application control. The nature and extent of the evidence that the auditor should obtain to verify that the control has not changed may vary depending on the circumstances, including depending on the strength of the company's program change controls.

B30. The consistent and effective functioning of the automated application controls may be dependent upon the related files, tables, data, and parameters. For example, an automated application for calculating interest income might be dependent on the continued integrity of a rate table used by the automated calculation.

B31. To determine whether to use a benchmarking strategy, the auditor should assess the following risk factors. As these factors indicate lower risk, the control being evaluated might be well-suited for benchmarking. As these factors indicate increased risk, the control being evaluated is less suited for benchmarking. These factors are—

- The extent to which the application control can be matched to a defined program within an application.
- The extent to which the application is stable (i.e., there are few changes from period to period).
- The availability and reliability of a report of the compilation dates of the programs placed in production. (This information may be used as evidence that controls within the program have not changed.)

B32. Benchmarking automated application controls can be especially effective for companies using purchased software when the possibility of program changes is remote—e.g., when the vendor does not allow access or modification to the source code.

B33. After a period of time, the length of which depends upon the circumstances, the baseline of the operation of an automated application control should be reestablished. To determine when to reestablish a baseline, the auditor should evaluate the following factors—

- The effectiveness of the IT control environment, including controls over application and system software acquisition and maintenance, access controls and computer operations.
- The auditor's understanding of the nature of changes, if any, on the specific programs that contain the controls.
- The nature and timing of other related tests.

- The consequences of errors associated with the application control that was benchmarked.
- Whether the control is sensitive to other business factors that may have changed. For example, an automated control may have been designed with the assumption that only positive amounts will exist in a file. Such a control would no longer be effective if negative amounts (credits) begin to be posted to the account.

## Appendix C

### Special Reporting Situations

#### Report Modifications

C1. The auditor should modify his or her report if any of the following conditions exist.

- a. Elements of management's annual report on internal control are incomplete or improperly presented,
- b. There is a restriction on the scope of the engagement,
- c. The auditor decides to refer to the report of other auditors as the basis, in part, for the auditor's own report,
- d. There is other information contained in management's annual report on internal control over financial reporting, or
- e. Management's annual certification pursuant to Section 302 of the Sarbanes-Oxley Act is misstated.

C2. *Elements of Management's Annual Report on Internal Control Over Financial Reporting Are Incomplete or Improperly Presented.* If the auditor determines that elements of management's annual report on internal control over financial reporting are incomplete or improperly presented, the auditor should modify his or her report to include an explanatory paragraph describing the reasons for this determination. If the auditor determines that the required disclosure about a material weakness is not fairly presented in all material respects, the auditor should follow the direction in paragraph 91.

C3. *Scope Limitations.* The auditor can express an opinion on the company's internal control over financial reporting only if the auditor has been able to apply the procedures necessary in the circumstances. If there are restrictions on the scope of the engagement, the auditor should withdraw from the engagement or disclaim an opinion. A disclaimer of opinion states that the auditor does not express an opinion on the effectiveness of internal control over financial reporting.

C4. When disclaiming an opinion because of a scope limitation, the auditor should state that the scope of the audit was not sufficient to warrant the expression of an opinion and, in a separate paragraph or paragraphs, the substantive reasons for the disclaimer. The auditor should not identify the procedures that were performed nor include the statements describing the characteristics of an audit of internal control over financial reporting (paragraph 85 *g*, *h*, and *i*); to do so might overshadow the disclaimer.

C5. When the auditor plans to disclaim an opinion and the limited procedures performed by the auditor caused the auditor to conclude that a material weakness exists, the auditor's report also should include—

- The definition of a material weakness, as provided in paragraph A7.
- A description of any material weaknesses identified in the company's internal control over financial reporting. This description should provide the users of the audit report with specific information about the nature of any material weakness and its actual and potential effect on the presentation of the company's financial statements issued during the existence of the weakness. This description also should address the requirements in paragraph 91.

C6. The auditor may issue a report disclaiming an opinion on internal control over financial reporting as soon as the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an opinion. The auditor is not required to perform any additional work prior to issuing a disclaimer when the auditor concludes that he or she will not be able to obtain sufficient evidence to express an opinion.

Note: In this case, in following the direction in paragraph 89 regarding dating the auditor's report, the report date is the date that the auditor has obtained sufficient competent evidence to support the representations in the auditor's report.

C7. If the auditor concludes that he or she cannot express an opinion because there has been a limitation on the scope of the audit, the auditor should communicate, in writing, to management and the audit committee that the audit of internal control over financial reporting cannot be satisfactorily completed.

C8. *Opinions Based, in Part, on the Report of Another Auditor.* When another auditor has audited the financial statements and internal control over financial reporting of one or more subsidiaries, divisions, branches, or components of the company, the auditor should determine whether he or she may serve as the principal auditor and use the work and reports of another auditor as a basis, in part, for his or her opinion. AU section 543, *Part of Audit Performed by Other Independent Auditors*, provides direction on the auditor's decision of whether to serve as the principal auditor of the financial statements. If the auditor decides it is appropriate to serve as the principal auditor of the financial statements, then that auditor also should be the principal auditor of the company's internal control over financial reporting. This relationship results from the requirement that an audit of the financial statements must be performed to audit internal control over financial reporting; only the principal auditor of the financial statements can be the principal auditor of internal control over financial reporting. In this circumstance, the principal auditor of the financial statements must participate sufficiently in the audit of internal control over financial reporting to provide a basis for serving as the principal auditor of internal control over financial reporting.

C9. When serving as the principal auditor of internal control over financial reporting, the auditor should decide whether to make reference in the report on internal control over financial reporting to the audit of internal control over financial reporting performed by the other auditor. In these circumstances, the auditor's decision is based on factors analogous to those of the auditor who uses the work and reports of other independent auditors when reporting on a company's financial statements as described in AU section 543.

C10. The decision about whether to make reference to another auditor in the report on the audit of internal control over financial reporting might differ from the corresponding decision as it relates to the audit of the financial statements. For example, the audit report on the financial statements may make reference to the audit of a significant equity investment performed by another independent auditor, but the report on internal control over financial reporting might not make a similar reference because management's assessment of internal control over financial reporting ordinarily would not extend to controls at the equity method investee.<sup>1</sup>

C11. When the auditor decides to make reference to the report of the other auditor as a basis, in part, for his or her opinion on the company's internal

---

<sup>1</sup> See paragraph B15, for further discussion of the evaluation of the controls over financial reporting for an equity method investment.

control over financial reporting, the auditor should refer to the report of the other auditor when describing the scope of the audit and when expressing the opinion.

C12. *Management's Annual Report on Internal Control Over Financial Reporting Containing Additional Information.* Management's annual report on internal control over financial reporting may contain information in addition to the elements described in paragraph 72 that are subject to the auditor's evaluation.

C13. If management's annual report on internal control over financial reporting could reasonably be viewed by users of the report as including such additional information, the auditor should disclaim an opinion on the information.

C14. If the auditor believes that management's additional information contains a material misstatement of fact, he or she should discuss the matter with management. If, after discussing the matter with management, the auditor concludes that a material misstatement of fact remains, the auditor should notify management and the audit committee, in writing, of the auditor's views concerning the information. AU section 317, *Illegal Acts by Clients* and Section 10A of the Securities Exchange Act of 1934 may also require the auditor to take additional action.<sup>2</sup>

Note: If management makes the types of disclosures described in paragraph C12 outside its annual report on internal control over financial reporting and includes them elsewhere within its annual report on the company's financial statements, the auditor would not need to disclaim an opinion. However, in that situation, the auditor's responsibilities are the same as those described in this paragraph if the auditor believes that the additional information contains a material misstatement of fact.

C15. *Management's Annual Certification Pursuant to Section 302 of the Sarbanes-Oxley Act is Misstated.* If matters come to the auditor's attention as a result of the audit of internal control over financial reporting that lead him or her to believe that modifications to the disclosures about changes in internal control over financial reporting (addressing changes in internal control over financial reporting occurring during the fourth quarter) are necessary for the annual certifications to be accurate and to comply with the requirements of Section 302 of the Act and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), whichever applies,<sup>3</sup> the auditor should follow the communication responsibilities as described in AU section 722, *Interim Financial Information*, for any interim period. However, if management and the audit committee do not respond appropriately, in addition to the responsibilities described in AU section 722, the auditor should modify his or her report on the audit of internal control over financial reporting to include an explanatory paragraph describing the reasons the auditor believes management's disclosures should be modified.

## Filings Under Federal Securities Statutes

C16. AU section 711, *Filings Under Federal Securities Statutes*, describes the auditor's responsibilities when an auditor's report is included in registration statements, proxy statements, or periodic reports filed under the federal securities statutes. The auditor should apply AU section 711 with respect to the auditor's report on internal control over financial reporting included in such filings. In addition, the auditor should extend the direction in AU section 711.10

---

<sup>2</sup> See 15 U.S.C. § 78j-1.

<sup>3</sup> See 17 C.F.R. §§ 240.13a-14(a) and 240.15d-14(a).

to inquire of and obtain written representations from officers and other executives responsible for financial and accounting matters about whether any events have occurred that have a material effect on the audited financial statements to matters that could have a material effect on internal control over financial reporting.

C17. When the auditor has fulfilled these responsibilities and intends to consent to the inclusion of his or her report on internal control over financial reporting in the securities filing, the auditor's consent should clearly indicate that both the audit report on financial statements and the audit report on internal control over financial reporting (or both opinions if a combined report is issued) are included in his or her consent.

## Appendix 2

### Rule 3525. Audit Committee Pre-Approval of Non-Audit Services Related to Internal Control Over Financial Reporting

In connection with seeking audit committee pre-approval to perform for an audit client any permissible non-audit service related to internal control over financial reporting, a registered public accounting firm shall—

- (a) describe, in writing, to the audit committee of the issuer the scope of the service;
- (b) discuss with the audit committee of the issuer the potential effects of the service on the independence of the firm; and

Note: Independence requirements provide that an auditor is not independent of his or her audit client if the auditor is not, or a reasonable investor with knowledge of all relevant facts and circumstances would conclude that the auditor is not, capable of exercising objective and impartial judgment on all issues encompassed within the accountant's engagement. Several principles guide the application of this general standard, including whether the auditor assumes a management role or audits his or her own work. Therefore, an auditor would not be independent if, for example, management had delegated its responsibility for internal control over financial reporting to the auditor or if the auditor had designed or implemented the audit client's internal control over financial reporting.

- (c) document the substance of its discussion with the audit committee of the issuer.

[Effective pursuant to SEC Release No. 34-56152; File No. PCAOB-2007-02; July 27, 2007]

## Appendix 3

### Conforming Amendments to PCAOB Auditing Standards

[Effective pursuant to SEC Release No. 34-56152; File No. PCAOB-2007-02; July 27, 2007]

#### AU sec. 230, "Due Professional Care in the Performance of Work"

Statement on Auditing Standards ("SAS") No. 1, "Codification of Auditing Standards and Procedures," section 230, "Due Professional Care in the Performance of Work" (AU sec. 230, "Due Professional Care in the Performance of Work"), as amended, is amended as follows—

- a. Paragraph .10 is replaced with—

The exercise of due professional care allows the auditor to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud, or whether any material weaknesses exist as of the date of management's assessment. Absolute assurance is not attainable because of the nature of audit evidence and the characteristics of fraud. Although not absolute assurance, reasonable assurance is a high level of assurance. Therefore, an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) may not detect a material weakness in internal control over financial reporting or a material misstatement to the financial statements.

- b. The term "financial statements" within the first sentence of paragraph .13 is replaced with the term "financial statements or internal control over financial reporting."
- c. The second sentence of paragraph .13 is replaced with—

Therefore, the subsequent discovery that either a material misstatement, whether from error or fraud, exists in the financial statements or a material weakness in internal control over financial reporting exists does not, in and of itself, evidence (a) failure to obtain reasonable assurance, (b) inadequate planning, performance, or judgment, (c) the absence of due professional care, or (d) a failure to comply with the standards of the Public Company Accounting Oversight Board (United States).

#### AU sec. 310, "Appointment of the Independent Auditor"

SAS No. 1, "Codification of Auditing Standards and Procedures," section 310, "Appointment of the Independent Auditor" (AU sec. 310, "Appointment of the Independent Auditor"), as amended, is amended as follows—

- a. The third bullet point of paragraph .06 is replaced with—

Management is responsible for establishing and maintaining effective internal control over financial reporting. If, in an integrated audit of financial statements and

internal control over financial reporting, the auditor concludes that he or she cannot express an opinion on internal control over financial reporting because there has been a limitation on the scope of the audit, he or she should communicate, in writing, to management and the audit committee that the audit of internal control over financial reporting cannot be satisfactorily completed.

- b. The eighth bullet point of paragraph .06 is amended as follows—

Under Integrated audit of financial statements and internal control over financial reporting, the last sub-bullet point is replaced with the following—

To the board of directors—any conclusion that the audit committee's oversight of the company's external financial reporting and internal control over financial reporting is ineffective.

Under Audit of financial statements, the last sub-bullet is replaced with the following—

To the board of directors—if the auditor becomes aware that the oversight of the company's external financial reporting and internal control over financial reporting by the audit committee is ineffective, that conclusion.

### **AU sec. 311, "Planning and Supervision"**

SAS No. 22, "Planning and Supervision" (AU sec. 311, "Planning and Supervision"), as amended, is amended as follows—

Within the note to paragraph 1, the reference to paragraph 39 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraph 9 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **AU sec. 312, "Audit Risk and Materiality in Conducting an Audit"**

SAS No. 47, "Audit Risk and Materiality in Conducting an Audit" (AU sec. 312, "Audit Risk and Materiality in Conducting an Audit"), as amended, is amended as follows—

- a. Within the note to paragraph 3, the reference to paragraphs 22–23 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraph 20 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- b. Within the note to paragraph 7, the reference to paragraphs 24–26 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 14–15 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- c. The note to paragraph 12 is replaced with—

Note: When performing an integrated audit of financial statements and internal control over financial reporting,

refer to paragraphs 9 and 20 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, regarding planning considerations and materiality, respectively.

- d. Within the note to paragraph 18, the reference to Appendix B, *Additional Performance Requirements and Directions; Extent-of-Testing Examples* of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs B10–B16 of Appendix B, *Special Topics*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- e. Within the note to paragraph 30, the reference to paragraphs 147–149 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 6–8 and paragraphs B1–B5 of Appendix B, *Special Topics*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **AU sec. 313, "Substantive Tests Prior to the Balance-Sheet Date"**

SAS No. 45, "Omnibus Statement on Auditing Standards—1983" (AU sec. 313, "Substantive Tests Prior to the Balance-Sheet Date"), is amended as follows—

Within the note to paragraph 1, the reference to paragraphs 98–103 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 52–53 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **AU sec. 315, "Communications Between Predecessor and Successor Auditors"**

SAS No. 84, "Communications Between Predecessor and Successor Auditors" (AU sec. 315, "Communications Between Predecessor and Successor Auditors"), as amended, is amended as follows—

The last sentence of paragraph 16 is replaced with—

Furthermore, the predecessor auditor is not a specialist as defined in AU sec. 336, Using the Work of a Specialist, nor does the predecessor auditor's work constitute the work of others as described in AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, or paragraphs 16–19 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **AU sec. 316, "Consideration of Fraud in a Financial Statement Audit"**

SAS No. 99, "Consideration of Fraud in a Financial Statement Audit" (AU sec. 316, "Consideration of Fraud in a Financial Statement Audit"), is amended as follows—

Within the note to paragraph 1, the reference to paragraphs 24–26 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 14–15 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **AU sec. 319, "Consideration of Internal Control in a Financial Statement Audit"**

SAS No. 55, "Consideration of Internal Control in a Financial Statement Audit" (AU sec. 319, "Consideration of Internal Control in a Financial Statement Audit"), as amended, is amended as follows—

- a. The note to paragraph 2 is replaced with—

Note: Refer to paragraph A9 of Appendix A, *Definitions*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* for the definition of a relevant assertion and paragraphs 28–33 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, for discussion of identifying relevant assertions.
- b. Within the note to paragraph 9, the reference to Appendix B, *Additional Performance Requirements and Directions; Extent of Testing Examples*, of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs B10–B16 of Appendix B, *Special Topics*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- c. The last sentence of paragraph 33 is deleted.
- d. The note to paragraph 65 is deleted.
- e. The note to paragraph 83 is deleted.
- f. Within the note to paragraph 97, the reference to paragraphs 104–105 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraph 54 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- g. The appendix at paragraph 110 is deleted.

### **AU sec. 322, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements"**

SAS No. 65, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements" (AU sec. 322, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements"), is amended as follows—

- a. Within the note to paragraph 1, the reference to paragraphs 108–126 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 16–19 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- b. The note to paragraph 20 is deleted.

- c. Within the note to paragraph 22, the reference to paragraph 122 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 18–19 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **AU sec. 324, "Service Organizations"**

SAS No. 70, "Service Organizations" (AU sec. 324, "Service Organizations"), as amended, is amended as follows—

Within the note to paragraph 1, the reference to Appendix B, *Additional Performance Requirements and Directions; Extent-of-Testing Examples*, of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs B17–B27 of Appendix B, *Special Topics*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **AU sec. 325, "Communications About Control Deficiencies in an Audit of Financial Statements"<sup>1</sup>**

AU sec. 325, "Communications About Control Deficiencies in an Audit of Financial Statements" is amended as follows—

- a. The first bullet point before paragraph 1 is amended as follows—

The reference to paragraphs 207–214 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 78–84 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- b. The first bullet point in paragraph 1 is replaced with—

A deficiency in design exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met.
- c. Paragraph 2 is replaced with—

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting, that is less severe than a material weakness yet important enough to merit attention by those responsible for oversight of the company's financial reporting.
- d. The notes to paragraph 2 are deleted.

---

<sup>1</sup> When the Board adopted Auditing Standard No. 2, it superseded SAS No. 60 in the context of an integrated audit of financial statements and internal control over financial reporting by paragraphs 207–214 of Auditing Standard No. 2. See PCAOB Release No. 2004-008, *Conforming Amendments to PCAOB Interim Standards Resulting From the Adoption of PCAOB Auditing Standard No. 2*, "An Audit of Internal Control Over Financial Reporting Performed in Conjunction with An Audit of Financial Statements" (Sept. 15, 2004). As a result of superseding Auditing Standard No. 2, paragraphs 78–84 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, now supersede SAS No. 60 in the context of an integrated audit.

- e. Paragraph 3 is replaced with—

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Note: There is a reasonable possibility of an event when the likelihood of the event is either "reasonably possible" or "probable," as those terms are used in paragraph 3 of Financial Accounting Standards Board Statement No. 5, *Accounting for Contingencies*.

Note: In evaluating whether a deficiency exists and whether deficiencies, either individually or in combination with other deficiencies, are material weaknesses, the auditor should follow the direction in paragraphs 62–70 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

- f. Paragraph 5 is replaced with—

If oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, that circumstance should be regarded as an indicator that a material weakness in internal control over financial reporting exists. Although there is not an explicit requirement to evaluate the effectiveness of the audit committee's oversight in an audit of only the financial statements, if the auditor becomes aware that the oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, the auditor must communicate that information in writing to the board of directors.

- g. The last sentence of paragraph 9 is replaced with—

In an audit of financial statements only, auditing interpretation 1 to AU sec. 325, "Reporting on the Existence of Material Weaknesses," continues to apply except that the term "reportable condition" means "significant deficiency" as defined in paragraph 2 of this standard.

### **AU sec. 9325, "Communication of Internal Control Related Matters Noted in an Audit: Auditing Interpretations of Section 325"**

AU sec. 9325, "Communication of Internal Control Related Matters Noted in an Audit: Auditing Interpretations of Section 325" is amended as follows—

The note prior to paragraph 1 is replaced with—

Note: In an audit of financial statements only, auditing interpretation 1 to AU sec. 325, "Reporting on the Existence of Material Weaknesses," continues to apply except that the term "reportable condition" means "significant deficiency" as defined in paragraph 2 of this standard. Within

the example report within paragraph 4 of the interpretation, the third sentence is replaced with the definition of a material weakness in paragraph A7 of Appendix A, *Definitions*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **AU sec. 328, "Auditing Fair Value Measurements and Disclosures"**

SAS No. 101, "Auditing Fair Value Measurements and Disclosures" (AU sec. 328, "Auditing Fair Value Measurements and Disclosures"), is amended as follows—

The first sentence of paragraph 41 is replaced with—

Events and transactions that occur after the balance-sheet date but before the date of the auditor's report (for example, a sale of an investment shortly after the balance-sheet date), may provide audit evidence regarding management's fair value measurements as of the balance-sheet date<sup>7</sup>

---

<sup>7</sup> The auditor's consideration of a subsequent event or transaction, as contemplated in this paragraph, is a substantive test and thus differs from the review of subsequent events performed pursuant to section 560, *Subsequent Events*.

### **AU sec. 332, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities"**

SAS No. 92, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities" (AU sec. 332, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities"), is amended as follows—

The note to paragraph 11 is replaced with—

Note: When performing an integrated audit of financial statements and internal control over financial reporting, paragraph 39 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, states "[t]he auditor should test those controls that are important to the auditor's conclusion about whether the company's controls sufficiently address the assessed risk of misstatement to each relevant assertion." Therefore, in an integrated audit of financial statements and internal control over financial reporting, if there are relevant assertions related to the company's investment in derivatives and securities, the auditor's understanding of controls should include controls over derivatives and securities transactions from their initiation to their inclusion in the financial statements and should encompass controls placed in operation by the entity and service organizations whose services are part of the entity's information system.

### **AU sec. 333, "Management Representations"**

SAS No. 85, "Management Representations" (AU sec. 333, "Management Representations"), as amended, is amended as follows—

- a. Within the note to paragraph 5, the reference to paragraphs 142–144 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 75–77 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- b. The second sentence of paragraph 9 is replaced with—

Because the auditor is concerned with events occurring through the date of his or her report that may require adjustment to or disclosure in the financial statements, the representations should be made as of the date of the auditor's report.

### **AU sec. 9337, "Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments: Auditing Interpretations of Section 337"**

AU sec. 9337, "Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments: Auditing Interpretations of Section 337" is amended as follows—

- a. The last sentence of paragraph 4 is replaced with—

What is the relationship between the effective date of the lawyer's response and the date of the auditor's report?
- b. Paragraph 5 is replaced with—

*Interpretation*—Section 560.10 through .12 indicates that the auditor is concerned with events, which may require adjustment to, or disclosure in, the financial statements, occurring through the date of his or her report. Therefore, the latest date of the period covered by the lawyer's response (the "effective date") should be as close to the date of the auditor's report as is practicable in the circumstances. Consequently, specifying the effective date of the lawyer's response to reasonably approximate the expected date of the auditor's report will in most instances obviate the need for an updated response from the lawyer.

### **AU sec. 341, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"**

SAS No. 59, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern" (AU sec. 341, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"), as amended, is amended as follows—

The second sentence of paragraph 2 is replaced with—

The auditor's evaluation is based on his or her knowledge of relevant conditions and events that exist at or have occurred prior to the date of the auditor's report.

### **AU sec. 342, "Auditing Accounting Estimates"**

SAS No. 57, "Auditing Accounting Estimates" (AU sec. 342, "Auditing Accounting Estimates"), is amended as follows—

- a. Subparagraph *c.* of paragraph 10 is replaced with—
  - c.* Review subsequent events or transactions occurring prior to the date of the auditor's report.
- b. Paragraph 13 is replaced with—

*Review subsequent events or transactions.* Events or transactions sometimes occur subsequent to the date of the balance sheet, but prior to the date of the auditor's report, that are important in identifying and evaluating the reasonableness of accounting estimates or key factors or assumptions used in the preparation of the estimate. In such circumstances, an evaluation of the estimate or of a key factor or assumption may be minimized or unnecessary as the event or transaction can be used by the auditor in evaluating their reasonableness.

### **AU sec. 380, "Communication With Audit Committees"**

SAS No. 61, "Communication With Audit Committees" (AU sec. 380, "Communication With Audit Committees"), as amended, is amended as follows—

Within footnote 1 to paragraph 1, the reference to PCAOB Auditing Standard No. 2 is replaced with a reference to PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **AU sec. 508, "Reports on Audited Financial Statements"**

SAS No. 58, "Reports on Audited Financial Statements" (AU sec. 508, "Reports on Audited Financial Statements"), as amended, is amended as follows—

Within the note to paragraph 1, the reference to paragraphs 162–199 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 85–98 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, and Appendix C, *Special Reporting Situations*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*. The sentence that reads "In addition, see Appendix A, *Illustrative Reports on Internal Control Over Financial Reporting*, of PCAOB Auditing Standard No. 2, which includes an illustrative combined audit report and examples of separate reports," is replaced with, "In addition, see paragraphs 86–88 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, which includes an illustrative combined audit report."

### **AU sec. 530, "Dating of the Independent Auditor's Report"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 530, "Dating of the Independent Auditor's Report" (AU sec. 530, "Dating of the Independent Auditor's Report"), as amended, is amended as follows—

- a. Paragraph .01 is replaced with—

The auditor should date the audit report no earlier than the date on which the auditor has obtained sufficient competent evidence to support the auditor's opinion. Paragraph .05 describes the procedure to be followed when a subsequent event occurring after the report date is disclosed in the financial statements.

Note: When performing an integrated audit of financial statements and internal control over financial reporting, the auditor's reports on the company's financial statements and on internal control over financial reporting should be dated the same date.

Note: If the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an opinion on the financial statements, then the auditor's report date is the date that the auditor has obtained sufficient competent evidence to support the representations in the auditor's report.

- b. Paragraph .05 is replaced with—

The independent auditor has two methods for dating the report when a subsequent event disclosed in the financial statements occurs after the auditor has obtained sufficient competent evidence on which to base his or her opinion, but before the issuance of the related financial statements. The auditor may use "dual dating," for example, "February 16, 20\_\_," except for Note \_\_, as to which the date is "March 1, 20\_\_," or may date the report as of the later date. In the former instance, the responsibility for events occurring subsequent to the original report date is limited to the specific event referred to in the note (or otherwise disclosed). In the latter instance, the independent auditor's responsibility for subsequent events extends to the later report date and, accordingly, the procedures outlined in section 560.12 generally should be extended to that date.

- c. Within the heading before paragraph .03, the reference to "completion of field work" is replaced with "the date of the independent auditor's report."

### **AU sec. 543, "Part of Audit Performed by Other Independent Auditors"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 543, "Part of Audit Performed by Other Independent Auditors" (AU sec. 543, "Part of Audit Performed by Other Independent Auditors"), as amended, is amended as follows—

Within the note to paragraph .01, the reference to paragraphs 182–185 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs C8–C11 of Appendix C, *Special Reporting Situations*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

**AU sec. 560, "Subsequent Events"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 560, "Subsequent Events" (AU sec. 560, "Subsequent Events"), as amended, is amended as follows—

- a. Within the note to paragraph .01, the reference to paragraphs 186–189 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 93–97 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- b. The second sentence of paragraph .12 is replaced with—

These procedures should be performed at or near the date of the auditor's report.

**AU sec. 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report" (AU sec. 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report"), as amended, is amended as follows—

Within the note to paragraph .01, the reference to paragraph 197 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraph 98 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

**AU sec. 711, "Filings Under Federal Securities Statutes"**

SAS No. 37, "Filings Under Federal Securities Statutes" (AU sec. 711, "Filings Under Federal Securities Statutes"), is amended as follows—

- a. Within the note to paragraph 2, the reference to paragraphs 198–199 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs C16–C17 of Appendix C, *Special Reporting Situations*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- b. The third sentence of paragraph 10 is replaced with—

The likelihood that the auditor will discover subsequent events necessarily decreases following the date of the auditor's report, and, as a practical matter, after that time the independent auditor may rely, for the most part, on inquiries of responsible officials and employees.

**AU sec. 722, "Interim Financial Information"**

SAS No. 100, "Interim Financial Information" (AU sec. 722, "Interim Financial Information"), is amended as follows—

- a. The following is inserted after the first sentence of paragraph 3—

The SEC also requires management, with the participation of the principal executive and financial officers (the certifying officers) to make certain quarterly and annual

certifications with respect to the company's internal control over financial reporting.<sup>2</sup>

---

<sup>2</sup> See Section 302 of the Sarbanes-Oxley Act of 2002, and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), (17 C.F.R. §240.13a-14a or 17 C.F.R. §240.15d-14a), whichever applies.

- b. The note to paragraph 3 is deleted.
- c. The following is added to the end of paragraph 7—
- Likewise, the auditor's responsibility as it relates to management's quarterly certifications on internal control over financial reporting is different from the auditor's responsibility as it relates to management's annual assessment of internal control over financial reporting. The auditor should perform limited procedures quarterly to provide a basis for determining whether he or she has become aware of any material modifications that, in the auditor's judgment, should be made to the disclosures about changes in internal control over financial reporting in order for the certifications to be accurate and to comply with the requirements of Section 302 of the Act.
- Note: The auditor's responsibilities for evaluating management's certification disclosures about internal control over financial reporting take effect beginning with the first quarter after the company's first annual assessment of internal control over financial reporting as described in Item 308(a)(3) of Regulations S-B and S-K.
- d. The following lettered section is added to the end of paragraph 18—
- g. Evaluating management's quarterly certifications about internal control over financial reporting by performing the following procedures—
- Inquiring of management about significant changes in the design or operation of internal control over financial reporting as it relates to the preparation of annual as well as interim financial information that could have occurred subsequent to the preceding annual audit or prior review of interim financial information;
  - Evaluating the implications of misstatements identified by the auditor as part of the auditor's other interim review procedures as they relate to effective internal control over financial reporting; and
  - Determining, through a combination of observation and inquiry, whether any change in internal control over financial reporting has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.
- e. Paragraph 29 is replaced with—

As a result of conducting a review of interim financial information, the accountant may become aware of matters that cause him or her to believe that—

- a. Material modification should be made to the interim financial information for it to conform with generally accepted accounting principles;
- b. Modification to the disclosures about changes in internal control over financial reporting is necessary for the certifications to be accurate and to comply with the requirements of Section 302 of the Act and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), whichever applies; and
- c. The entity filed the Form 10-Q or Form 10-QSB before the completion of the review.

In such circumstances, the accountant should communicate the matter(s) to the appropriate level of management as soon as practicable.

- f. Paragraph 32 is replaced with—

If the auditor becomes aware of information indicating that fraud or an illegal act has or may have occurred, the auditor must also determine his or her responsibilities under AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, AU sec. 317, *Illegal Acts by Clients*, and Section 10A of the Securities Exchange Act of 1934.<sup>1</sup>

---

<sup>1</sup> See 15 U.S.C. §78j-1

- g. Within paragraph 33, the third sentence is replaced with—  
A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting, that is less severe than a material weakness yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

### **Auditing Standard No. 3, Audit Documentation**

Auditing Standard No. 3, *Audit Documentation* is amended as follows—

Within footnote 2 to paragraph 6, the reference to paragraphs 68–70 of Auditing Standard No. 2 is replaced with a reference to paragraphs 28–33 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

### **Auditing Standard No. 4, Reporting on Whether a Previously Reported Material Weakness Continues to Exist**

Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist* is amended as follows—

- a. Within note 1 to paragraph 1, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

- b. Within paragraph 2, the two references to Auditing Standard No. 2 are replaced with references to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- c. Within the note to paragraph 2, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- d. Within paragraph 4, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- e. Paragraph 9 is replaced with—

The terms *internal control over financial reporting*, *deficiency*, *significant deficiency*, and *material weakness* have the same meanings as the definitions of those terms in Appendix A, *Definitions*, of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- f. The first sentence of paragraph 10 is replaced with—

Paragraph 5 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, states "[t]he auditor should use the same suitable, recognized control framework to perform his or her audit of internal control over financial reporting as management uses for its annual evaluation of the effectiveness of the company's internal control over financial reporting."
- g. Within the note to paragraph 10, the reference to Auditing Standard No. 2 in the first sentence is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, and the last sentence is amended as follows—

More information about the COSO framework is included within the COSO report.
- h. Paragraph 11 is replaced with—

The terms relevant assertion and control objective have the same meaning as the definitions of those terms in Appendix A, *Definitions*, of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- i. Paragraph 13 is replaced with—

In an audit of internal control over financial reporting, the auditor should test the design effectiveness of controls by determining whether the company's controls, if they are operated as prescribed by persons possessing the necessary authority and competence to perform the control effectively, satisfy the company's control objectives and can effectively prevent or detect errors or fraud that

could result in material misstatements in the financial statements.<sup>2</sup>

---

<sup>2</sup> See paragraph 42 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

- j. Within the note to paragraph 17, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- k. Within note 2 to paragraph 18, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- l. Within paragraph 21, the last sentence is deleted.
- m. Within paragraph 23, the reference to paragraphs 22 and 23 of Auditing Standard No. 2 is replaced with a reference to paragraph 20 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*. Additionally, the second sentence is deleted.
- n. Within paragraph 24, the reference to paragraph 39 of Auditing Standard No. 2 is replaced with a reference to paragraph 9 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- o. Within paragraph 25, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- p. Within the note to paragraph 25, the two references to Auditing Standard No. 2 are replaced with references to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- q. Within subparagraph a. of paragraph 26, the reference to paragraphs 47 through 51 of Auditing Standard No. 2 is replaced with a reference to paragraphs 22–27 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- r. Subparagraph b. of paragraph 26 is replaced with—

Perform the procedures described in paragraphs 34–38 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, for those transactions that are directly affected by controls specifically identified by management as addressing the material weakness.
- s. The note to subparagraph b. of paragraph 26 is deleted.
- t. Within paragraph 27, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- u. The note to paragraph 28 is deleted.

- v. Within paragraph 31, the reference to paragraphs 88 through 91 of Auditing Standard No. 2 is replaced with a reference to paragraphs 42–43 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- w. Paragraph 32 is replaced with—

Consistent with the direction in paragraphs 44–45 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, the auditor should test the operating effectiveness of a specified control by determining whether the specified control operated as designed and whether the person performing the control possesses the necessary authority and qualifications to perform the control effectively. In determining the nature, timing, and extent of tests of controls, the auditor should apply paragraphs 50–54 of Auditing Standard No. 5.
- x. Paragraph 33 is replaced with—

The auditor should perform tests of the specified controls over a period of time that is adequate to determine whether, as of the date specified in management's assertion, the controls necessary for achieving the stated control objective are operating effectively. The timing of the auditor's tests should vary with the risk associated with the control being tested. For example, a transaction-based, daily reconciliation generally would permit the auditor to obtain sufficient evidence as to its operating effectiveness in a shorter period of time than a pervasive, entity-level control, such as any of those described in paragraphs 22–24 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*. Additionally, the auditor typically will be able to obtain sufficient evidence as to the operating effectiveness of controls over the company's period-end financial reporting process only by testing those controls in connection with a period-end.
- y. Within paragraph 35, the reference to paragraphs B1 through B13 of Appendix B of Auditing Standard No. 2 is replaced with a reference to paragraphs B10–B16 of Appendix B, Special Topics, of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- z. Within paragraph 36, the reference to paragraphs 109 through 115 and 117 through 125 of Auditing Standard No. 2 is replaced with a reference to paragraphs 16–19 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- aa. The second sentence of paragraph 37 is replaced with—

Therefore, if the auditor has been engaged to report on more than one material weakness or on more than one stated control objective, the auditor must evaluate whether he or she has obtained sufficient evidence that the control objectives related to each of the material weaknesses identified in management's assertion are achieved.

- bb. The first two sentences of paragraph 38 are replaced with—  
Paragraphs 18–19 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, should be applied in the context of the engagement to report on whether a previously reported material weakness continues to exist.
- cc. The note to paragraph 38 is deleted.
- dd. The note to paragraph 39 is deleted.
- ee. Paragraph 42 is replaced with—  
Management may conclude that a previously reported material weakness no longer exists because its severity has been sufficiently reduced such that it is no longer a material weakness.
- ff. Subparagraph f. of paragraph 44 is replaced with—  
Describing any fraud resulting in a material misstatement to the company's financial statements and any other fraud that does not result in a misstatement in the company's financial statements but involves senior management or management or other employees who have a significant role in the company's internal control over financial reporting and that has occurred or come to management's attention since the date of management's most recent annual assessment of internal control over financial reporting.
- gg. Within the note to subparagraph b. of paragraph 51, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- hh. Within the note to subparagraph l. of paragraph 51, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- ii. Within the note to the second bullet point of subparagraph o. of paragraph 51, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- jj. Within paragraph 52, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- kk. Within paragraph 63, the reference to paragraphs 202 through 206 of Auditing Standard No. 2 is replaced with a reference to paragraphs 7 and 29–32 of AU sec. 722, *Interim Financial Information*.
- ll. Within paragraph 64, the reference to paragraphs 202 through 206 of Auditing Standard No. 2 is replaced with a reference to paragraphs 7 and 29–32 of AU sec. 722, *Interim Financial Information*.

## Appendix 4

### Additional Discussion of Comments and the Board's Response

As discussed in the first part of the Board's release, on December 19, 2006, the Board proposed for comment a new standard on auditing internal control, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, that would replace Auditing Standard No. 2, a related auditing standard, *Considering and Using the Work of Others in an Audit*, an independence rule relating to the auditor's provision of internal control-related non-audit services, and certain amendments to its auditing standards. The Board received 175 comment letters on its proposals and feedback from the Board's Standing Advisory Group.

Notable changes that the Board made in finalizing its proposals in response to comments are described in the first part of the Board's release. This appendix contains a further discussion of comments received on the proposals and the Board's response.

#### 1. Alignment of Board's Internal Control Auditing Standard and the SEC's Guidance to Management

Many commenters suggested that the SEC's guidance to management and the Board's auditing standard should be more closely aligned. The commenters appeared to hold different opinions, however, about what alignment should mean in this context. Some commenters suggested that the most important issue was the need to use the same definitions of important terms in both documents. Some focused on perceived differences in scope, testing, and documentation requirements, while others suggested that the tone of the two documents was different and that the Board's proposals were more prescriptive. A few commenters suggested that the standard on auditing internal control should merely refer to the SEC management guidance without providing additional direction to the auditor.

As discussed more fully in the first part of this release, in formulating a new standard on auditing internal control, the Board intended to describe an audit process that would be coordinated with management's evaluation process. After considering the comments in this area, the Board made several changes, described in the first part of this release, that improve coordination while recognizing the inherent differences in the roles of management and the independent auditor under Section 404. The Board also adopted, as proposed, the final standard without a requirement for the auditor to perform an evaluation of management's assessment process. Commenters generally supported this aspect of the proposal, which was intended to respond to concerns that the requirements of Auditing Standard No. 2 had become de facto guidance for management's process. The absence of this requirement in the final standard should also allow for improved coordination between management and the auditor.

#### 2. Level of Prescriptive Detail

Some commenters suggested that there remained too many instances of the use of the terms "should" and "must" in the proposed standard and that this might drive excessive documentation and possibly unnecessary work. The Board's

Rule 3101 describes the level of responsibility that these imperatives impose on auditors when used in PCAOB standards, and the Board uses these terms in its standards to clearly convey its expectations. In response to these comments, the Board analyzed each requirement in the proposed standard to determine whether more reliance could be placed on general principles rather than detailed requirements. Where appropriate, the Board made modifications to make the final standard more principles-based. As discussed more fully in the first part of this release, areas in which changes were made include the focus on fulfilling the objectives of a walkthrough and in the description of the top-down approach. Some of these changes also contributed to better coordination with the SEC's guidance for management.

In addition, several commenters expressed concern over the creation of presumptively mandatory responsibilities related to efficiency concepts. The example cited most often was the note to paragraph 3 of the proposed standard on auditing internal control, which stated—

Note: The auditor should select for testing only those controls that are important to the auditor's conclusion about whether the company's controls sufficiently address the assessed risk of misstatement to a given relevant assertion that could result in a material misstatement to the company's financial statements.

Commenters suggested that because of this requirement for the auditor to select "only those controls that are important" for testing, an auditor would have violated the Board's standards if he or she tested even one control that was later shown to be not important. Commenters believed that this would undermine audit effectiveness and recommended removal of such statements.

One of the objectives of the revised standard is to encourage auditors to focus on those areas that present the greatest risk of allowing a material misstatement in the financial statements. However, the Board agrees that its standards should not define a ceiling or maximum amount of work which the auditor may not exceed. While this statement (and others like it) in the proposed standard was not intended to imply that the Board would, with hindsight, suggest that an auditor violated the standard through testing of a control that was later determined to be not important to the audit, the Board has removed the note to paragraph 3 in response to these comments. Similar statements throughout the standard have also either been removed or modified.

### 3. Walkthroughs

The proposed standard required that the auditor perform a walkthrough of each significant process each year and allowed the auditor to use others, such as management personnel and internal auditors, to directly assist the auditor in this work. The proposed standard also indicated that the walkthrough provides audit evidence but did not prescribe further requirements regarding the circumstances in which a walkthrough might provide the auditor with sufficient evidence of operating effectiveness for a particular control. The proposing release, however, noted that a walkthrough could be sufficient for some low-risk controls in subsequent years.

As discussed in the first part of this release, the Board received a significant number of comments on this topic. While several commenters expressed support for the importance of the walkthrough to audit quality, many commenters suggested that the proposed provisions in this area were more prescriptive than necessary, and suggested risk concepts as a way to add flexibility. While these commenters acknowledged the value of a walkthrough and its importance to

the evaluation of design effectiveness, many stated that the requirement to perform a walkthrough in an area that is either low-risk, not complex, or unchanged appears inconsistent with the other areas in the proposed standard that rely upon auditor judgment to a much greater extent.

### ***Use of others in achieving the objectives of a walkthrough***

Commenters supported allowing the auditor to use others to provide the auditor with direct assistance, particularly in low-risk areas, with only a few commenters believing that this change could jeopardize the quality of the audit. In addition, many commenters believed that the standard should allow full use of the work of others in performing walkthroughs, although some commenters strongly disagreed with this point.

As discussed in the first part of this release, the final standard focuses the auditor on achieving four objectives related to the identification of where within the company's processes misstatements could arise, rather than specifically on performing walkthroughs. Due to the importance of achieving these objectives to the auditor's conclusion about internal control, the Board believes that allowing the use of the work of others to a greater extent than what was proposed would not provide the auditor with an adequate understanding of the relevant risks and the related controls. Therefore, similar to the proposed standard, Auditing Standard No. 5 allows the auditor to use the work of others in achieving the objectives of a walkthrough, but only as direct assistance. That is, the auditor will be required to supervise, review, evaluate, and test the work performed by others.<sup>1</sup>

### ***Using walkthroughs to test operating effectiveness***

On the subject of using walkthroughs to test operating effectiveness, commenters suggested that walkthroughs can provide sufficient evidence of operating effectiveness, but held different views about situations in which this would be the case. Some commenters supported the use of walkthroughs in low-risk areas, while others focused on whether the control itself should be low-risk. Several commenters suggested that a walkthrough could provide sufficient evidence of operating effectiveness for lower-risk controls but only when entity-level controls are strong. Almost all commenters agreed that the proposed standard focused on the appropriate conditions for using such an approach—specifically, when risk is low, when past audits indicate effective design and operation of the control, and when no changes have been made to the control or process in which the control resides.

After considering these comments, the Board has decided that the risk-based approach that is described in the final standard is the appropriate framework for determining the evidence necessary to support the auditor's opinion. Therefore, Auditing Standard No. 5 articulates the principle that performance of a walkthrough might provide sufficient evidence of operating effectiveness, depending on the risk associated with the control being tested, the specific procedures performed as part of the walkthroughs and the results of the procedures performed.<sup>2</sup> The Board believes that establishing more detailed requirements in this area is not necessary, because application of the general principle in the standard will depend on the particular facts and circumstances presented.

---

<sup>1</sup> See paragraph 27 of AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*.

<sup>2</sup> See paragraph 49.

## 4. Assessing Risk

The Board's May 16, 2005 guidance emphasized the importance of risk assessment in the audit of internal control, and that element of the guidance was incorporated and enhanced in the proposed standard. The proposed standard required risk assessment at each of the decision points in a top-down approach, including the auditor's identification of significant accounts and disclosures and their relevant assertions. The proposed standard also required an assessment of risk at the individual control level, and required that the auditor determine the evidence necessary for a given control based on this risk assessment.

The Board received many comments on the risk assessment provisions in the proposed standard. Comments on the proposed risk assessment approach were generally supportive, with some commenters suggesting ways for improving the risk assessment emphasis in the standard. Many commenters discussed the requirement in the proposed standard for the auditor to assess the risk that the control might not be effective and, if not effective, the risk that a material weakness would result for each control the auditor selected for testing. Commenters suggested that this requirement conflicted with both current practice and the requirements within the interim standards for the financial statement audit, which involve risk assessment at the financial statement assertion level. These commenters believed that this requirement would result in risk assessments at both the assertion level and the individual control level and suggested that assessing (and documenting) risk at the relevant assertion level is sufficiently precise to drive appropriate audits. Furthermore, they believed that a specific requirement to assess risk at the individual control level and its associated documentation requirement would be unnecessary.

After considering these comments, the Board continues to believe that the auditor may vary the nature, timing, and extent of testing based on the assessed risk related to a control. Making this assessment a presumptively mandatory requirement, as it was in the proposed standard, however, does not appear necessary to achieve the intended benefits of varied testing based on the risk associated with a control. Auditing Standard No. 5, therefore, requires the auditor to assess the risk related to the relevant assertion, but not the risk at the individual control level. The standard permits the auditor to consider the risk at the control level, however, and alter the nature, timing, and extent of testing accordingly.

Several commenters expressed concern about the advisability of taking a risk-based approach and the adequacy of the Board's interim standards regarding risk assessment. These commenters suggested that auditors have frequently been unsuccessful at applying a risk-based approach to the financial statement audit in the past.

The Board has found the arguments for a more principles-based approach to internal control auditing convincing, and the principle that the auditor should vary the testing to respond to the risk is one of the most important in the standard. Early implementation of Auditing Standard No. 2 demonstrated that, when internal control is audited without adequate consideration of risk, the areas that pose the greatest danger of material misstatement may be obscured or lost. The emphasis on risk, therefore, drives an audit that is more effective and focused. While the Board believes that auditors can appropriately assess risk based on the interim auditing standards, it has committed to examining the existing standards in this area to see where improvements can be made. This is currently one of the Board's standard setting priorities.

## 5. Evaluation of Deficiencies

The Board received a substantial number of comments on the topic of evaluating deficiencies, including comments on the proposed definitions of material weakness and significant deficiency, the "strong indicators" of a material weakness, and the requirement to evaluate all identified deficiencies. While a number of commenters stated that auditors do identify material weaknesses in the absence of an actual material misstatement, some noted that, in many cases, material weaknesses are identified only when material misstatements are discovered. Several commenters suggested that the proposed standard, with its focus on using a top-down approach and scoping to identify material weaknesses, would allow auditors to do a more thorough review of the most important controls with less effort expended on reviewing lower risk controls. These commenters often stated that this approach should increase the likelihood of the auditor detecting material weaknesses before a material misstatement occurs.

### *Definition of a material weakness*

The proposed standard retained the basic framework in Auditing Standard No. 2 that described material weaknesses by reference to the likelihood and magnitude of a potential misstatement. While the Board believed that framework to be sound, it made an effort to clarify the definition in the proposed standard by replacing the reference to "more than remote likelihood" with "reasonable possibility." Financial Accounting Standards Board ("FASB") Statement No. 5 describes the likelihood of a future event occurring as "probable," "reasonably possible," or "remote." The definition in Auditing Standard No. 2 referred to a "more than remote" likelihood of a misstatement occurring. In accordance with FASB Statement No. 5, the likelihood of an event is "more than remote" when it is either "reasonably possible" or "probable."

As the Board noted in the proposing release, however, some auditors and issuers have misunderstood the term "more than remote" to mean something significantly less likely than a reasonable possibility. This, in turn, could have caused these issuers and auditors to evaluate the likelihood of a misstatement at a much lower threshold than the Board intended. Because the term "more than remote" could have resulted in auditors and issuers evaluating likelihood at a more stringent level than originally intended, the Board proposed changing the definition to refer to a "reasonable possibility."

Commenters on this change were split between those that felt the change would reduce unnecessary effort spent on identifying and analyzing deficiencies, and those who believed it would not. Several commenters noted that the replacement of the term "more than remote likelihood" with the term "reasonable possibility" does not raise the auditor's threshold for classifying deficiencies. According to those commenters, the change simply attempts to align the description of the threshold for identifying deficiencies with previous guidance issued by the PCAOB. The Board continues to believe that the proposed definition—as well as Auditing Standard No. 2—established an appropriate threshold for the likelihood part of the definition of material weakness. While the Board agrees that, as a definitional matter, "reasonable possibility" and "more than remote" describe the same threshold, it believes that "reasonable possibility" describes that threshold more appropriately and clearly, and will therefore avoid the misunderstanding of the threshold created by the way it was described in Auditing Standard No. 2. As a result, it retained that term in the final definition in the standard.

In addition, some commenters noted that the definitions of material weakness and significant deficiency in the proposed standard, like the definitions in Auditing Standard No. 2, referred to the likelihood of a material misstatement in

both the interim and annual financial statements. Most of these commenters suggested that the Board remove the term "interim" from the definitions of material weakness and significant deficiency because, according to the commenters, it causes confusion when scoping the audit of internal control and unnecessarily complicates the evaluation of deficiencies, particularly in the absence of guidance from the SEC and FASB regarding interim materiality. Some commenters, however, said that the Board should not remove the term "interim" from the definitions because the evaluation of deficiencies should be performed to consider the effectiveness of internal control for both the interim and annual financial statements. After carefully considering these comments, and in order to use the same definition that the SEC uses in its guidance to management, the Board determined to retain the reference to interim financial statements in the final definition of material weakness.<sup>3</sup>

### ***Indicators of a material weakness***

The proposed standard described circumstances that should be regarded as strong indicators of a material weakness in internal control. The proposing release noted that the identification of one of these strong indicators should bias the auditor toward a conclusion that a material weakness exists but does not require the auditor to reach that conclusion. Under the proposal, the auditor could determine that these circumstances do not rise to the level of a material weakness, and in some cases, are not deficiencies at all.

Many commenters supported the proposed changes from Auditing Standard No. 2 relating to strong indicators, agreeing that, by allowing greater use of professional judgment in this area, practice will improve. A few commenters stated that these changes may lead to some inconsistency in practice, but consistent with other commenters, they still supported the use of greater professional judgment in the evaluation of deficiencies. At least one commenter suggested that several of the strong indicators were not indicators of a material weakness but should be, under all circumstances, a material weakness. A few commenters also suggested that the list of strong indicators in Auditing Standard No. 2 actually stifles the auditor's judgment to the point that auditors fail to identify material weaknesses that exist because the deficiency is not on the list of strong indicators. These commenters suggested that removing the list of strong indicators entirely would be best.

The Board believes that auditor judgment is imperative in determining whether a deficiency is a material weakness and that the standard should encourage auditors to use that judgment. At the same time, the Board continues to believe that highlighting certain circumstances that are indicative of a material weakness provides practical information about the application of the standard. As a result, the Board has included this information in the final standard but has taken a more principles-based approach. Additionally, the Board has coordinated with the SEC so that the indicators in the auditing standard parallel those in the SEC's management guidance.

Rather than referring to "strong indicators," the final standard refers simply to "indicators" of material weakness.<sup>4</sup> The standard also makes clear that the list of indicators is not exhaustive and should not be used as a checklist. Specifically,

---

<sup>3</sup> The provisions in the final standard relating to significant deficiencies are discussed in the first part of this release. As discussed in the first part of this release, the Board also made minor wording changes to the definition of material weakness in order to use the same definition as the SEC in its guidance to management and related rules.

<sup>4</sup> The Board included as an indicator the proposed standard's requirement to determine the level of assurance that would satisfy prudent officials in the conduct of their own affairs that they

*(continued)*

under the final standard, the presence of one of the indicators does not mandate a conclusion that a material weakness exists. At the same time, a deficiency that is not a listed indicator may be a material weakness.

The Board did not adopt as indicators in the final standard certain proposed strong indicators. The Board believes, as at least one commenter suggested, that some of these proposed strong indicators are better characterized as material weaknesses rather than as indicators of a material weakness.<sup>5</sup> Including them in the list of indicators, as adopted, would therefore be inconsistent with the degree of judgment required to evaluate whether an indicator of a material weakness is, under particular facts and circumstances, a material weakness.

### ***Requirement to evaluate all identified deficiencies***

The proposed standard required the auditor to evaluate the severity of each control deficiency that comes to his or her attention. The same provision in the proposed standard made clear, however, that the auditor need not scope the audit to find control deficiencies that are less severe than material weaknesses. A few commenters believed that this requirement is not necessary and suggested that an acceptable alternative would be for the auditor to verify that management has evaluated all deficiencies.

The Board continues to believe that the auditor needs to evaluate all deficiencies that come to his or her attention. Without such an evaluation, there would not be a sufficient basis for the auditor's opinion.

## **6. Additional Scoping and Materiality Issues**

The proposed standard clarified that the auditor should plan and perform the audit of internal control using the same materiality measures used to plan and perform the audit of the annual financial statements. This direction was intended to address concerns that auditors have interpreted Auditing Standard No. 2 as directing them to search for potential defects in internal control at a lower materiality level than that used in the audit of the annual financial statements.

The Board received many comments on materiality and scoping, and a large portion of the commenters expressed support for the proposed standard's approach. Some commenters, however, recommended providing clear quantitative guidelines for calculating materiality. Other commenters expressed concern about such an approach, fearing that material areas would be inappropriately excluded from the audit scope. Finally, some commenters suggested that the

---

*(footnote continued)*

have reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in conformity with generally accepted accounting principles. In the proposal, if the auditor determined that a deficiency would prevent prudent officials from concluding that they have such reasonable assurance, the auditor was required to deem the deficiency to be at least a significant deficiency. Under the final standard, if the auditor determines that a deficiency might prevent prudent officials from concluding that they have such reasonable assurance, this circumstance is an indicator of material weakness.

<sup>5</sup> One such proposed strong indicator was an ineffective control environment. Under the proposal, indicators of an ineffective control environment included identification of fraud on the part of senior management and significant deficiencies that have been communicated to management and the audit committee and remain uncorrected after some reasonable period of time. The final standard includes the identification of fraud on the part of senior management as an indicator of a material weakness. In order to simplify the list and make it more principles-based, as well as to align it with the SEC management guidance, however, the Board did not include significant deficiencies that remain uncorrected as an indicator in the final standard.

Board should provide additional guidance on scoping and extent of control testing decisions, such as guidance on sample sizes related to testing of high-risk controls versus low-risk controls or more specific guidance on the scope of the internal control audit for entities with multiple locations.<sup>6</sup>

After considering these comments, the Board has determined to adopt its discussion of materiality in the internal control audit as proposed. The Board believes that the auditing standard on internal control is an inappropriate place to redefine or refine the meaning of materiality, which is a long-established concept in the federal securities laws. With respect to requests for more specific guidance on scoping or extent of testing issues, the Board has, as discussed in the first part of this release, endeavored to adopt a standard that relies more on general principles than detailed requirements. Accordingly, the Board believes that auditors should make specific determinations of how to comply with the general scoping and testing requirements in the standard using professional judgment in the particular circumstances presented.

## 7. Scaling the Audit for Smaller Companies

As discussed in the first part of this release, the Board received many comments on the proposed section on scaling the audit from commenters with a variety of perspectives. The comments covered a wide range of issues. In addition to the matters discussed in the first part of this release, commenters suggested:

- That the proposed section on scalability should be focused more closely on how complexity relates to a risk-based audit;
- That the proposed standard did not provide sufficient flexibility for smaller companies and that the standard should provide for more "credit" for control testing based on work done as part of the financial statement audit;
- That the resulting costs of these proposed changes would need to be studied for several years to determine if they are appropriate;
- That the attributes of smaller, less complex companies that were included in the proposed standard were appropriate and that the tailoring directions for auditors were adequate;
- That some of the attributes of smaller, less complex companies that might allow the auditor to tailor the audit might be, instead, risk factors that require more testing;
- That the emphasis on entity-level controls might not be appropriate; and
- That the Board's project to develop guidance on auditing internal control in smaller public companies is necessary.

As discussed in the first part of this release, the Board made several changes in response to comments in the final standard. The new standard provides direction on how to tailor internal control audits to fit the size and complexity of the company being audited. It does so by including notes throughout the standard on how to apply the principles in the standard to smaller, less complex companies, and by including a discussion of the relevant attributes of smaller, less complex companies as well as less complex units of larger companies. The Board

---

<sup>6</sup> The proposed standard focused on the auditor's assessment of risk of material misstatement and how the auditor could carry that assessment process into the scoping of a multi-location audit. Commenters were very supportive of the Board's approach in this area and, consequently, the Board has determined to adopt these provisions as proposed.

believes that the final standard appropriately considers the circumstances of smaller and less complex public companies (and other companies with less complex business units) while requiring a high-quality audit regardless of company size or complexity. The planned guidance on this topic will provide additional practical information for auditors of smaller companies.

## 8. Information Technology Principles

In gaining an understanding of the effect of information technology ("IT") on internal control over financial reporting and the risks the auditor should assess, the proposed standard directed the auditor to apply guidance in AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*. Additionally, the proposed standard included a discussion of IT operations at smaller and less complex companies. A number of commenters discussed the importance of IT risks to determining the scope of the audit and recommended that the final standard include additional guidance on how the risk assessment related to IT is incorporated in the audit of internal control.

In response to these comments, the Board included in Auditing Standard No. 5 a note to paragraph 36 that clarifies that the identification of risks and controls within IT should not be a separate evaluation but, rather, an integral part of the auditor's top-down risk assessment, including identification of significant accounts and disclosures and their relevant assertions, as well as the controls to test.

## 9. Roll-forward Procedures

The proposed standard discussed the procedures the auditor should perform to obtain additional evidence concerning the operation of the control when the auditor reports on the effectiveness of the control "as of" a specific date, but has tested the effectiveness of the control at an interim date. The Board received a few comments on this topic, mainly from auditors. The comments were consistent in their view that the proposed standard improperly implies, by using the expression "if any" in relation to additional evidence the auditor is required to obtain, that the auditor may not need to do any roll-forward work. Commenters suggested that such an approach would be inconsistent with paragraph .99 of AU sec. 319 and suggested that the words "if any" be removed from the final standard. The Board believes that its standard should be consistent with AU sec. 319.99 in that the auditor should perform some level of roll-forward procedures. Consequently, the Board removed the words "if any" from the relevant paragraphs of Auditing Standard No. 5 to correct the inconsistency. The Board also noted that, in some circumstances, inquiry alone might be a sufficient roll-forward procedure.

## 10. Cumulative Knowledge and Rotation

The proposed standard on auditing internal control allowed the auditor to incorporate knowledge from previous years' audits into his or her decision making process for determining the nature, timing, and extent of testing necessary. The section in the proposed standard on special considerations for subsequent years' audits built upon the risk-based framework in the proposed standard for determining the nature, timing and extent of testing by describing certain additional factors for the auditor to evaluate in subsequent years. These factors included the results of prior years' testing and any change that may have taken place in the controls or the business since that testing was performed. This section retained the requirement in Auditing Standard No. 2 that each control deemed important to the auditor's conclusion be tested every year, but allowed

for a reduction in testing when the additional risk factors indicated that the risk was lower than in the past.

Many commenters strongly supported these provisions as proposed. Many investors, in particular, stated that while they supported the proposed approach, they would not be supportive of rotation of control testing over a multiple-year period. These commenters were generally concerned that rotation of control testing would negatively affect audit quality. Among supporters of the approach in the proposed standard, several requested further clarification in the standard or additional guidance on how this approach should affect the level of testing.

Many issuers suggested that the standard should allow for full rotation—which exempts some important controls from testing each year—of at least controls in low-risk areas. Other commenters recommended that all controls should be tested on a multiyear rotating basis. These comments often focused on the fact that while the proposed standard required the auditor to evaluate whether there had been any relevant changes since the control was tested, it still required testing at some level even when there had been no change. These commenters considered this requirement to be unnecessary.

The Board shares the concern that multi-year rotation of control testing would not provide sufficient evidence for the auditor's opinion on internal control effectiveness, which is required by the Act to be issued each year. In the financial statement audit, control testing plays a supporting role—to the extent that controls have been tested and are effective, the auditor can reduce the level of (but not eliminate) the necessary substantive testing. In contrast, in the internal control audit, control testing does not play a supporting role but is the sole basis for the auditor's opinion. Additionally, even if the design of the control and its related process does not change from the prior year, it is not possible to assess the control's operating effectiveness without performing some level of testing. For these reasons, rotation is not a viable option in the audit of internal control.

Instead, the approach described in the proposed standard has been clarified in the final standard and continues to focus the auditor on relevant changes since a particular control was last tested, as many commenters suggested. Under this approach, the auditor would consider, in addition to the risk factors described in the standard that are always relevant to determining the nature, timing, and extent of testing, whether there has been a change in the controls or in the business that might necessitate a change in controls; the nature, timing, and extent of procedures performed in previous audits; and the results of the previous years' testing of the control.<sup>7</sup> After taking into account these additional factors, the additional information in subsequent years' audits might permit the auditor to assess risk as lower than in the initial year and, thus, might permit the auditor to reduce testing.

This treatment of cumulative knowledge is analogous to the roll-forward provisions in the final standard. In the case of subsequent years, the auditor, in essence, rolls forward the prior years' testing when the control was found to be effective in the past and no change has occurred (or would have been expected to occur due to changes in the environment or process that contains the control). Because the auditor might be able to assess the risk lower in the subsequent years, a walkthrough, or equivalent procedures, might be sufficient for low-risk controls. This approach appropriately factors in the effect of cumulative knowledge, while maintaining audit quality and providing a sufficient basis for the auditor's opinion.

---

<sup>7</sup> See paragraph 55.

## 11. Reporting the Results of the Audit

In the proposed standard, the Board attempted to address concerns that the separate opinion on management's assessment required by Auditing Standard No. 2 contributed to the complexity of the standard and caused confusion regarding the scope of the auditor's work.<sup>8</sup> Accordingly, to emphasize the proper scope of the audit and to simplify the reporting, the proposed standard required that the auditor express only one opinion on internal control—a statement of the auditor's opinion on the effectiveness of the company's internal control over financial reporting. The proposal eliminated the separate opinion on management's assessment because it was redundant of the opinion on internal control itself and because the opinion on the effectiveness of controls more clearly conveys the same information—specifically, whether the company's internal control is effective.

Many commenters agreed with the Board that eliminating the separate opinion on management's assessment would reduce confusion and clarify the reporting. Some commenters, however, suggested that the Board should instead require only an opinion on management's assessment. These commenters expressed their belief that the Act requires only that the auditor review management's assessment process and not the company's internal control. Additionally, a few commenters expressed confusion about why the proposed standard continued to reference an audit of management's assessment in paragraph 1 of the proposed standard and the auditor's report.

The Board has determined, after considering these comments, to adopt the provision requiring only an opinion on internal control.<sup>9</sup> The Board continues to believe that the overall scope of the audit that was described by Auditing Standard No. 2 and the proposed standard is correct; that is, to attest to and report on management's assessment, as required by Section 404(b) of the Act, the auditor must test controls directly to determine whether they are effective.<sup>10</sup> Accordingly, paragraphs 1 and 2 of the proposed standard provided that the auditor audits management's assessment—the statement in management's annual report about whether internal control is effective—by auditing whether that statement is correct—that is, whether internal control is, in fact, effective. The final standard similarly makes this clear. In response to commenters, however, the Board has clarified the auditor's report so that it will consistently refer to the required audit as the audit of internal control.

## 12. Implementation

Some commenters urged the Board to focus on implementation issues after it adopts a final standard, and noted that effective implementation by the Board is crucial to the internal control reporting process. Some of these commenters focused on the inspections process, which they suggested is key to promoting

---

<sup>8</sup> Although Auditing Standard No. 2 requires the auditor to evaluate management's process, the auditor's opinion on management's assessment is not an opinion on management's internal control evaluation process. Rather, it is the auditor's opinion on whether management's statements about the effectiveness of the company's internal controls are fairly stated.

<sup>9</sup> The SEC has adopted changes to its rules that require the auditor to express an opinion directly on internal control.

<sup>10</sup> In addition, Section 103 of the Act requires the Board's standard on auditing internal control to include "testing of the internal control structure and procedures of the issuer ...." Under Section 103, the Board's standard also must require the auditor to present in the audit report, among other things, "an evaluation of whether such internal control structure and procedures ... provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles ...."

audit efficiency. Some stated that auditors would be unlikely to change their audit approach until they are confident that the inspections will be similarly focused. The Board is committed to effective monitoring of firms' compliance with the new standard and will continue to promote proper implementation through other means, including the Board's Forums on Auditing in the Small Business Environment and guidance for auditors of smaller companies.

## PCAOB Release No. 2008-001

# ***Auditing Standard No. 6, Evaluating Consistency of Financial Statements, and Conforming Amendments***

PCAOB Release No. 2008-001

January 29, 2008

PCAOB Rulemaking  
Docket Matter No. 023

## **Summary**

After public comment, the Public Company Accounting Oversight Board is adopting Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*, and amendments to the Board's interim auditing standards.

## **Board Contacts**

Greg Fletcher, Associate Chief Auditor (202/207-9203, fletchergr@pcaobus.org),  
Keith Wilson, Associate Chief Auditor (202/207-9134; wilsonk@pcaobus.org)

\*\*\*\*\*

## **A. Introduction**

The Board proposed certain changes to its auditing standards in response to two actions of the Financial Accounting Standards Board ("FASB"). In May 2005, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 154, *Accounting Changes and Error Corrections*,<sup>1</sup> which superseded Accounting Principles Board ("APB") Opinion No. 20, *Accounting Changes*.<sup>2</sup> The FASB has also issued an exposure draft of a proposed Statement of Financial Accounting Standards, *The Hierarchy of Generally Accepted Accounting Principles*.<sup>3</sup>

SFAS No. 154 establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transition requirements specific to a newly adopted accounting principle.<sup>4</sup> SFAS No. 154 also redefines the term "restatement" to refer only to "the process of revising previously issued financial statements to reflect the

---

<sup>1</sup> Financial Accounting Standards Board ("FASB"), Statement of Financial Accounting Standards ("SFAS") No. 154, *Accounting Changes and Error Corrections* (2005) ("SFAS No. 154").

<sup>2</sup> Accounting Principles Board ("APB") Opinion No. 20, *Accounting Changes* (1971). SFAS No. 154 also superseded SFAS No. 3, *Reporting Accounting Changes in Interim Financial Statements*.

<sup>3</sup> FASB, Proposed Statement of Financial Accounting Standards, *The Hierarchy of Generally Accepted Accounting Principles*, Exposure Draft (April 2005).

<sup>4</sup> Among other reasons for undertaking this project, the FASB intended to eliminate differences between APB Opinion No. 20 and the International Accounting Standards Board standard, IAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors*. See introduction to SFAS No. 154.

correction of an error in those financial statements.<sup>5</sup> Under SFAS No. 154, therefore, the term "restatement" does not refer to changes made to previously issued financial statements to reflect a change in accounting principle.

AU sec. 420, *Consistency of Application of Generally Accepted Accounting Principles*, the Board's interim standard on the auditor's responsibilities for evaluating the consistency of the application of generally accepted accounting principles ("GAAP"), generally reflected the provisions of APB Opinion No. 20, which was superseded by SFAS No. 154. To better align the Board's standards with the new accounting standard, on April 3, 2007, the Board proposed a new auditing standard on evaluating consistency, which would supersede AU sec. 420, and conforming amendments to AU sec. 508, *Reports on Audited Financial Statements*, of its interim auditing standards.

The FASB's proposed standard on the GAAP hierarchy would incorporate the hierarchy found in the auditing standards into the accounting standards. Historically, a description of the GAAP hierarchy has resided only in the auditing standards.<sup>6</sup>

Because the GAAP hierarchy identifies the sources of accounting principles and the framework for selecting principles to be used in preparing financial statements, the Board believed that these requirements are more appropriately located in the accounting standards. Accordingly, also on April 3, 2007, the Board proposed to remove the GAAP hierarchy from the auditing standards.<sup>7</sup>

The proposed standard provided direction for the auditor's evaluation of the consistency of financial statements. It directed the auditor to recognize a change in accounting principle or an adjustment to correct a misstatement<sup>8</sup> in previously issued financial statements in the auditor's report if it had a material effect on the financial statements. The conforming amendments to AU sec. 508, *Reports on Audited Financial Statements*, provide language for the explanatory paragraph. The proposed standard also directed the auditor to review a material change in financial statement classification and the related disclosure to determine whether the change also is a change in accounting principle or a correction of a material misstatement.

The proposed standard and amendments were intended to update and clarify the auditing standards in light of SFAS No. 154 and the FASB's proposal on the GAAP hierarchy. In particular, these updates and clarifications should enhance the clarity of auditor reporting on accounting changes and corrections of misstatements by distinguishing between these events.

The Board received 11 comment letters. In general, the commenters were supportive of the proposed standard and amendments. They generally stated that the proposed auditing standard appropriately described how the auditor should evaluate the consistency of financial statements and reflected the changes to accounting requirements under SFAS No. 154. Several commenters suggested

---

<sup>5</sup> See SFAS No. 154, paragraph 2j.

<sup>6</sup> See AU sec. 411, *The Meaning of "Present Fairly in Conformity with Generally Accepted Accounting Principles."* Although the Board is removing the GAAP hierarchy from this standard, the standard remains in existence, as amended.

<sup>7</sup> If the amendments are approved by the SEC, the effective date for the removal of the GAAP hierarchy from the auditing standards will be 60 days after the standard and amendments are approved by the SEC. The Board has coordinated with the FASB and understands that the FASB intends to coincide the effective date of its standard on the GAAP hierarchy with that of the PCAOB.

<sup>8</sup> SFAS No. 154 uses the term "error" instead of "misstatement." This release, including the final standard and amendments, uses "misstatement," the prevailing term used in PCAOB auditing standards. The term "error," as used in SFAS No. 154, is equivalent to "misstatement," as used in the auditing standards.

clarifications in various parts of the standard. As described in the following sections, the Board has considered the comments and made changes to the final standard and amendments.

The Board is adopting the proposed standard as Auditing Standard No. 6, as well as the amendments to the interim standards. This release describes key aspects and elements of the new standard and amendments, comments received, and changes incorporated in the final standard.

## B. Evaluating Consistency

Under Auditing Standard No. 6, auditors are required to evaluate the consistency of a company's financial statements and report on inconsistencies. The new standard updates these requirements and aligns them more closely with SFAS No. 154<sup>9</sup> by requiring the auditor's report to recognize a company's correction of a material misstatement, regardless of whether it involves the application of an accounting principle. Based on a discussion at an October 2005 meeting of the Board's Standing Advisory Group, the Board understands that this requirement is consistent with current practice. The new standard focuses on the auditor's responsibilities regarding events that warrant recognition in the auditor's report on the financial statements—changes in accounting principles and corrections of misstatements in previously issued financial statements.<sup>10</sup> This standard also clarifies that the auditor's report should indicate whether an adjustment to prior-period financial statements results from a change in accounting principle or the correction of a misstatement.

### 1. Materiality

There were several comments on materiality. Some commenters suggested that the standard should specifically state that the auditor need not recognize the correction of a misstatement that is immaterial to the previously issued financial statements. Another suggested that the standard should remind the auditor that professional judgment is required to evaluate consistency. Another commenter said that additional guidance on materiality as applied to individual matters in the financial statements would be helpful in applying the standard. Others suggested that clarity would be improved by inserting the word "material" in several places.

In general, the Board's view is that the purpose of the standard is to provide direction on evaluating consistency; for example, the accounting periods the auditor should evaluate, the recognition in the auditor's report of consistency matters prescribed by the accounting standards, and the related audit reporting requirements. Because an audit is predicated on the use of reasoned judgment and the consideration of materiality in planning, performing, and reporting on the audit, the Board does not believe it is necessary for this standard to specifically direct the auditor to exercise judgment and apply materiality. Further, materiality is a concept that is defined under the federal securities laws, and it is not the objective of this standard to alter or interpret that concept.

---

<sup>9</sup> Because SFAS No. 154 provides comprehensive, authoritative accounting guidance on changes in accounting principle and corrections of errors, Auditing Standard No. 6 omits the accounting guidance that was included in AU sec. 420.

<sup>10</sup> AU sec. 420 also required recognition of those events. However, it only required recognition in the auditor's report of the correction of a misstatement involving an accounting principle. In addition, unlike AU sec. 420, the new standard does not describe the accounting changes that do not require recognition in the auditor's report.

The Board did agree that clarity could be improved in some areas by inserting the word "material" to modify the word "misstatement." The Board added "material" to AU secs. 508.18A and B to be consistent with paragraph 4 of Auditing Standard No. 6. However, AU sec. 508.18C does not include "material" because that sentence summarizes the SFAS No. 154 requirement for correcting a misstatement, which does not directly mention materiality.

## 2. Periods Covered by the Evaluation of Consistency

The new standard describes the scope of the required evaluation of consistency in terms that are similar to the description in AU sec. 420. Under the new standard, when the auditor reports only on the current period, the auditor should evaluate whether the financial statements of the current period are consistent with those of the preceding period. When the auditor reports on two or more years, the auditor should evaluate whether the financial statements reported on are consistent with each other and with the prior year's financial statements, if presented. For example, assume that a company presents comparative financial statements covering three years and has a change in auditors. In the first year in which the successor auditor reports, the successor auditor evaluates consistency between the year on which he or she reports and the immediately preceding year. In the second year in which the successor auditor reports, the successor auditor would evaluate consistency between the two years on which he or she reports and between those years and the earliest year presented. In response to comments, the Board added this example to the final standard.

When a company uses retrospective application, as defined in SFAS No. 154, to account for a change in accounting principle, the financial statements presented generally will be consistent. However, the previous years' financial statements presented with the current year's financial statements will reflect the change in accounting principle and, therefore, will appear different from those previous years' financial statements on which the auditor previously reported. For example, consider a company that adopts a new accounting standard in 2007 that requires retrospective application to 2006 and 2005. The financial statements for 2006 and 2005 will be consistent, as presented with 2007. However, the financial statements for the years 2006 and 2005 that were issued a year earlier will not reflect the retrospective application and hence will not be consistent with 2007 and will be different from the 2006 and 2005 financial statements that are presented with 2007. The new standard clarifies that the auditor's evaluation of consistency should encompass previously issued financial statements for the relevant periods.

Paragraph 3 of the proposed standard described the financial statement periods covered by the evaluation of consistency. The third sentence of that paragraph was intended to be a clarification of the requirement in AU sec. 420.22 regarding the evaluation of two or more years. However, some commenters found the third sentence of paragraph 3 to be confusing and recommended retaining the language in AU sec. 420.22, unless the Board had intended to change the auditor's responsibilities for evaluating the consistency of GAAP. Because the Board wanted to be clear that the auditor's responsibilities had not changed, the Board decided to retain the original sentence from AU sec. 420.22, with some changes, instead of the proposed third sentence of paragraph 3. The inserted sentence, adapted from AU sec. 420.22, reads as follows (additions underlined and deletions struck through):

When the ~~independent~~ auditor reports on two or more ~~periods~~years, he ~~or she~~ should ~~evaluate~~address the consistency of the ~~application of accounting principles~~ between such ~~periods~~years and the consistency of such ~~periods~~years

with the period/year prior thereto if such prior period/year is presented with the financial statements being reported upon.

The Board did not include the reference to "the application of accounting principles" because paragraph 3 also relates to the auditor's evaluation of a company's correction of a material misstatement, regardless of whether it involves the application of an accounting principle. The Board also used the word "evaluate" because it describes the auditor's responsibilities consistently with the rest of the paragraph.

Two commenters suggested that the last sentence of proposed paragraph 3, which described the auditor's responsibility to evaluate whether the financial statements are consistent with previously issued financial statements for the same period, was confusing and unnecessary. These commenters suggested deleting the last sentence of paragraph 3. In addition, one commenter suggested that paragraph 3 of the proposed standard could be clarified by including the explanatory language from the proposing release regarding retrospective application under SFAS No. 154. As discussed above, the new standard is intended to clarify that the auditor's evaluation of consistency should include an evaluation of previously issued financial statements for the relevant periods. Accordingly, the Board believed that the final sentence of paragraph 3 is necessary. However, the Board agreed that including the suggested explanatory language from the proposing release regarding retrospective application would clarify the paragraph and has added that language as a footnote to paragraph 3.

### 3. Reference to Application of Accounting Principles

Consistent with the discussion above related to paragraph 3 of the proposed standard, the Board also removed the reference to "application of accounting principles" from the first paragraph of Auditing Standard No. 6. Because the auditor's evaluation of consistency under this standard includes errors not involving an accounting principle, the consistency evaluation is broader than that described under the second standard of reporting. Accordingly, the Board also removed the reference to the second standard of reporting from paragraph 2 of Auditing Standard No. 6.

### 4. Change in Accounting Principle

The new standard requires the auditor to evaluate a change in accounting principle<sup>11</sup> that has a material effect on the financial statements to determine whether: (1) the newly adopted accounting principle is a generally accepted accounting principle, (2) the method of accounting for the effect of the change is in conformity with GAAP, (3) the disclosures related to the accounting change are adequate, and (4) the company justifies that the alternative accounting principle is preferable,<sup>12</sup> as required by SFAS No. 154.<sup>13</sup> Under the amendments

---

<sup>11</sup> The proposed and final standards use the definition of a change in accounting principle found in SFAS No. 154, paragraph 2c.

<sup>12</sup> In certain circumstances, Securities and Exchange Commission ("SEC") rules require issuers to file a letter from the auditor indicating whether or not a change is to an alternative accounting principle that is preferable. See Rule 10-01(b)(6) of Regulation S-X, 17 C.F.R. § 210.10-01(b)(6).

<sup>13</sup> Under SFAS No. 154, the issuance of an accounting pronouncement that requires use of a new accounting principle, interprets an existing principle, expresses a preference for an accounting principle, or rejects a specific principle is sufficient justification for a change in accounting principle as long as the change in accounting principle is made in accordance with the GAAP hierarchy. See SFAS No. 154, paragraph 14.

to AU sec. 508, if the four criteria are met,<sup>14</sup> the auditor would recognize the change in accounting principle in the auditor's report through the addition of an explanatory paragraph consisting of an identification of the nature of the change and a reference to the issuer's note disclosure describing the change. If those criteria are not met, the auditor would issue a qualified or adverse opinion.<sup>15</sup>
